Item 5.03 Amendments to Articles of Incorporation or By-Laws; Change in Fiscal Year.

On July 28, 2005, Lithium Technology Corporation (the Company) filed an Amendment to its Restated Certificate of Incorporation with the Secretary of State of the State of Delaware, to increase the number of authorized shares of the Company's common stock to 750 million shares and preferred stock to 100 million shares.

The amendment of the Company's Restated Certificate of Incorporation to reflect the increase was approved by the Company's Board of Directors and the holders of a majority of the Company's common stock. An information statement describing the amendment was mailed to stockholders on July 1, 2005 and became effective on July 28, 2005.

The increase in the number of authorized shares of common stock is needed in order for the Company to have an adequate reserve of common stock available for issuance upon conversion of existing convertible securities and exercise of outstanding options and warrants and to satisfy certain commitments to issue common stock. The increase in the number of authorized shares of common stock is also needed in order to have an adequate reserve of common stock available for issuance in equity financings, including under the Standby Equity Distribution Agreement with Cornell Capital Partners, LP. Of the 100 million authorized shares of preferred stock, 1,000 were designated as Series A Convertible Preferred Stock, which the Company is obligated to deliver to an investor in the Company private placement of A Units which concluded in January 2005.

On July 29, 2005, the Company filed a Restated Certificate of Incorporation with the Secretary of State of the State of Delaware to reflect in one document all of the changes to the Company's Certificate of Incorporation as amended through July 28, 2005.
