DISCLOSURE REGARDING FORWARD-LOOKING INFORMATION

This annual report contains or incorporates by reference statements that constitute forward-looking statements, regarding the intent, belief or current expectations of our directors and officers with respect to our future operating performance. Such statements include any forecasts, projections and descriptions of anticipated cost savings or other synergies. Words such as anticipate, expect, intend, plan, believe, seek, variations of such words, and similar expressions are intended to identify such forward-looking statements. You should be aware that any such forward-looking statements are not guarantees of future performance and may involve risks and uncertainties, and that actual results may differ from those set forth in the forward-looking statements as a result of various factors (including, without limitations, the actions of competitors, future global economic conditions, market conditions, foreign exchange rates, and operating and financial risks related to managing growth and integrating acquired businesses), many of which are beyond our control. The occurrence of any such factors not currently expected by us would significantly alter the results set forth in these statements.

Factors that could cause actual results to differ materially and adversely include, but are not limited to:

changes in general economic, business or political or other conditions in Argentina or changes in general economic or business conditions in Latin America;

changes in capital markets in general that may affect policies or attitudes toward lending to Argentina or Argentine companies;

changes in exchange rates or regulations applicable to currency exchanges or transfers;

unexpected developments in certain existing litigation;

increased costs;

unanticipated increases in financing and other costs or the inability to obtain additional debt or equity financing on attractive terms; and

the factors discussed under Risk Factors beginning on page 13.

You should not place undue reliance on such statements, which speak only as of the date that they were made. Our independent public accountants have not examined or compiled the forward-looking statements and, accordingly, do not provide any assurance with respect to such statements. These cautionary statements should be considered in connection with any written or oral forward-looking statements that we might issue in the future. We do not undertake any obligation to release publicly any revisions to such forward-looking statements after filing of this Form to reflect later events or circumstances or to reflect the occurrence of unanticipated events.

CERTAIN MEASUREMENTS AND TERMS

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

As used throughout this annual report, the terms IRSA, the Company, we, us, and our refer to IRSA Inversiones y Representaciones Sociedad Anónima, together with our consolidated subsidiaries, except where we make clear that such terms refer only to the parent company.

In Argentina the standard measure of area in the real estate market is the square meter (m²), while in the United States and certain other jurisdictions, the standard measure of area is the square foot (sq. ft.). All units of area shown in this annual report (*e.g.*, gross leasable area of buildings and size of undeveloped land) are expressed in terms of square meters. One square meter is equal to approximately 10.764 square feet. One hectare is equal to approximately 10,000 square meters and approximately 2.47 acres.

Table of Contents

As used herein:

GLA or gross leasable area , in the case of offices and other rental properties refers to the total leasable area of the units in each property in which we own an interest, irrespective of our ownership interest in such units and excluding common and parking areas;

GLA or gross leasable area , in the case of shopping centers, refers to the total leasable area of the property, irrespective of our ownership interest in such property (excluding common areas and parking);

net leasable area , refers to the gross leasable area of the units in each property in which we own an interest, adjusted to give effect to our ownership interest in such units;

GSA or gross salable area , in the case of development properties refers, to the total area of the units or undeveloped land in each property in which we own an interest, held for sale upon completion of development and prior to the sale of any units, irrespective of our ownership interest in such property (including parking areas and storage facilities but excluding common areas);

GSA or gross salable area , in the case of undeveloped parcels of land, refers to the total area of undeveloped property, irrespective of our ownership interest in such property (including parking areas and storage facilities but excluding common areas);

net salable area , in the case of development properties, refers to the total area of the units or undeveloped land in each property in which we own an interest held for sale upon completion of development and prior to the sale of any units; and

net salable area , in the case of undeveloped parcels of land, refers to total area of undeveloped property, adjusted to give effect to our ownership interest and includes parking areas and storage facilities but excludes common areas.

PRESENTATION OF FINANCIAL AND CERTAIN OTHER INFORMATION

In this annual report, references to US\$ and U.S. Dollars are to United States Dollars, and references to Ps. , Peso or Pesos are to Argentine Pesos.

This annual report contains our audited Consolidated Financial Statements as of June 30, 2005 and 2004 and for the years ended June 30, 2005, 2004 and 2003 (the Consolidated Financial Statements). Our Consolidated Financial Statements have been audited by Price Waterhouse & Co. S.R.L., member firm of PricewaterhouseCoopers, independent auditors, whose report is included herein.

Except as discussed in the following paragraph, we prepare our Consolidated Financial Statements in thousands of Pesos and in accordance with Argentine GAAP and the regulations of the National Securities Commission (*Comisión Nacional de Valores*), which differ in certain significant respects from U.S. GAAP. Such differences involve methods of measuring the amounts shown in the Consolidated Financial Statements, as well as additional disclosures required by U.S. GAAP and regulations of the SEC. See Note 23 to our Consolidated Financial Statements contained elsewhere in this annual report for a description of the principal differences between Argentine GAAP and U.S. GAAP, as they relate to us, and reconciliation to U.S. GAAP of net income and shareholders' equity.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

As discussed in Note 3.m to our Consolidated Financial Statements, contained elsewhere in this annual report, in order to comply with regulations of the *Comisión Nacional de Valores*, we recognized deferred income tax assets and liabilities on a non-discounted basis. This accounting practice represents a departure from generally accepted accounting principles in Argentina. However, such departure has not had a material effect on our Consolidated Financial Statements.

Table of Contents

Additionally, as discussed in Notes 2.c. to our Consolidated Financial Statements, contained elsewhere in this annual report, after considering inflation levels for the second half of 2002 and the first months of 2003, on March 25, 2003, the Argentine government repealed the provisions of the previous decree related to the inflation adjustment and instructed the *Comisión Nacional de Valores* to issue the necessary regulations to preclude companies under its supervision from presenting price-level restated financial statements. Therefore, on April 8, 2003, the *Comisión Nacional de Valores* issued a resolution providing for the discontinuance of inflation accounting as of March 1, 2003. The Company complied with the *Comisión Nacional de Valores* resolution and accordingly recorded the effects of inflation until February 28, 2003. Comparative figures were restated until that date.

Since Argentine GAAP required companies to discontinue inflation accounting only as from October 1, 2003, the application of the *Comisión Nacional de Valores* resolution represents a departure from generally accepted accounting principles in Argentina. However, due to the low level of inflation rates during the period from March to September 2003, such a departure has not had a material effect on our Consolidated Financial Statements.

As a result of this matter, our Consolidated Financial Statements were prepared on the basis of general price-level accounting which reflects changes in the purchasing power of the Peso until February 28, 2003 in our historical financial statements using changes in the Argentine wholesale price index (wholesale price index), as published by Argentina's National Institute of Statistics and Census (*Instituto Nacional de Estadística y Censos* or INDEC), as follows:

we adjusted non-monetary items and consolidated statements of income amounts to reflect the then current general purchasing power;

we did not adjust monetary items as such items were, by their nature, stated in terms of current general purchasing power in our Consolidated Financial Statements;

we recognized monetary gains or losses in our consolidated statements of income, reflecting the effect of holding monetary items, and

we included the gain or loss on exposure to inflation (monetary gain or loss) in our consolidated statements of income within financing results.

Also contained in this annual report are Banco Hipotecario S.A.'s Consolidated Financial Statements as of June 30, 2005 and 2004 and for the years ended June 30, 2005, 2004 and 2003, which also have been audited by Price Waterhouse & Co. S.R.L., member firm of PricewaterhouseCoopers, independent auditors, whose report is included herein. As a result of the purchase of additional shares and the exercise of warrants of Banco Hipotecario S.A. (Banco Hipotecario), effective June 30, 2004 we changed the method of accounting for our investment in Banco Hipotecario from market value to the equity method of accounting. We recognized the cumulative effect of the change in earnings during the year ended June 30, 2004. The independent auditors' report on Banco Hipotecario's Consolidated Financial Statements includes an explanatory paragraph describing that Banco Hipotecario's financial condition and results of operations depend to a significant extent on macroeconomic and political conditions prevailing from time to time in Argentina and to the Argentine Government's ability to perform on its obligations to Banco Hipotecario and to the entire financial system in Argentina, in connection with Federal secured loans, federal government securities and on its obligation to deliver government securities under various laws and regulations.

During the year ended June 30, 2004 we adopted Technical Resolution No. 21 and, as a result, we began consolidating Llao Llao Resort S.A. As required by the transition provisions this standard was retrospectively applied for comparative purposes to reflect such investment on a consolidated basis.

Table of Contents

Certain amounts which appear in this annual report (including percentage amounts) may not sum due to rounding. You should not construe the translations as a representation that the amounts shown could have been, or could be, converted into U.S. Dollars at that or any other rate.

References to fiscal years 2001, 2002, 2003, 2004 and 2005 are to the fiscal years ended June 30 of each such year.

MARKET DATA

Market data used throughout this annual report were derived from reports prepared by unaffiliated third-party sources. Such reports generally state that the information contained therein has been obtained from sources believed by such sources to be reliable. Certain market data which appear herein (including percentage amounts) may not sum due to rounding.

Table of Contents

PART I

ITEM 1. Identity of Directors, Senior Management and Advisers

This item is not applicable.

ITEM 2. Offer Statistics and Expected Timetable

This item is not applicable.

ITEM 3. Key Information

A. Selected Financial Data

The following selected consolidated financial data has been derived from our Consolidated Financial Statements as of the dates and for each of the periods indicated below. This information should be read in conjunction with and is qualified in its entirety by reference to our Consolidated Financial Statements and the discussion in Operating and Financial Review and Prospects included elsewhere in this annual report. The selected consolidated statement of income data for the years ended June 30, 2005, 2004 and 2003 and the selected consolidated balance sheet data as of June 30, 2005 and 2004 have been derived from our Consolidated Financial Statements included in this annual report which have been audited by Price Waterhouse & Co. S.R.L., member firm of PricewaterhouseCoopers, independent auditors.

The Consolidated Statements of Income for the years ended June 30, 2002 and 2001 and the selected consolidated balance sheet data as of June 30, 2003, 2002 and 2001 have been derived from our audited Consolidated Financial Statements that are not included herein.

As discussed in Note 2.d. to our Consolidated Financial Statements, contained elsewhere in this annual report, during 2003 the Professional Council of Economic Science of the City of Buenos Aires (*Consejo de Profesionales de Ciencias Económicas de la Ciudad Autónoma de Buenos Aires* or CPCECABA) approved Technical Resolution No. 21 Equity Method of Accounting Consolidation of Financial Statements and Related Transactions , which became effective to us for the fiscal year ended June 30, 2004. The Comisión Nacional de Valores adopted this standard with certain amendments in March 2004. As a result of the adoption of RT No. 21, we started to consolidate Llao Llao Resort S.A. during fiscal year 2004. As required by the transition provisions, this standard was retrospectively applied for comparative purposes to reflect such investment on a consolidated basis.

Our Consolidated Financial Statements are presented in thousands of Pesos. Except as discussed in the following paragraph, our Consolidated Financial Statements are prepared in accordance with Argentine GAAP and the regulations of the *Comisión Nacional de Valores*, which differ in certain significant respects from U.S. GAAP. Note 23 to our Consolidated Financial Statements provides a description of the principal differences between Argentine GAAP and U.S. GAAP affecting our consolidated figures and a reconciliation to U.S. GAAP of net income reported under Argentine GAAP for the years ended June 30, 2005, 2004 and 2003, and of shareholders' equity reported under Argentine GAAP

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

as of June 30, 2005 and 2004. The differences involve methods of measuring the amounts shown in the financial statements as well as additional disclosures required by U.S. GAAP and regulations of the SEC.

As discussed in Note 3.m. to our Consolidated Financial Statements, contained elsewhere in this annual report, in order to comply with regulations of the *Comisión Nacional de Valores*, we recognized deferred income tax assets and liabilities on a non-discounted basis. This accounting practice represents a departure

Table of Contents

from generally accepted accounting principles in Argentina. However, such departure has not had a material effect on our Consolidated Financial Statements.

Additionally, as discussed in Note 2.c. to our Consolidated Financial Statements, contained elsewhere in this annual report, after considering inflation levels for the second half of 2002 and the first months of 2003, on March 25, 2003, the Argentine government repealed the provisions of the previous decree related to the inflation adjustment and instructed the *Comisión Nacional de Valores* to issue the necessary regulations to preclude companies under its supervision from presenting price-level restated financial statements. Therefore, on April 8, 2003, the *Comisión Nacional de Valores* issued a resolution providing for the discontinuance of inflation accounting as of March 1, 2003. The Company complied with the *Comisión Nacional de Valores* resolution and accordingly recorded the effects of inflation until February 28, 2003. Comparative figures were restated until that date.

Since Argentine GAAP required companies to discontinue inflation accounting only as from October 1, 2003, the application of the *Comisión Nacional de Valores* resolution represents a departure from generally accepted accounting principles in Argentina. However, due to the low level of inflation rates during the period from March to September 2003, such a departure has not had a material effect on our Consolidated Financial Statements.

As a result of this, our Consolidated Financial Statements were prepared on the basis of general price-level accounting which reflected changes in the purchasing power of the Peso until February 28, 2003 in our historical financial statements using changes in the Argentine wholesale price index, as published by the INDEC, as follows:

we adjusted non-monetary items and consolidated statements of income amounts to reflect the then-current general purchasing power;

we did not adjust monetary items, as such items were by their nature stated in terms of current general purchasing power in our Consolidated Financial Statements;

we recognized monetary gains or losses in our consolidated statements of income, reflecting the effect of holding monetary items; and

we included the gain or loss on exposure to inflation (monetary gain or loss) in our consolidated statements of income within Financing results, net .

Also contained elsewhere in this annual report are the Consolidated Financial Statements of Banco Hipotecario as of June 30, 2005 and 2004 and for the years ended June 30, 2005, 2004 and 2003, which also have been audited by Price Waterhouse & Co. S.R.L., member firm of PricewaterhouseCoopers, independent auditors, whose report is included herein. As a result of the purchase of additional shares and the exercise of warrants of Banco Hipotecario, effective June 30, 2004 we changed the method of accounting for our investment in Banco Hipotecario from market value to the equity method of accounting. We recognized the cumulative effect of the change in earnings during the year ended June 30, 2004. The independent auditors' report on Banco Hipotecario's Consolidated Financial Statements includes an explanatory paragraph describing that Banco Hipotecario's financial condition and results of operations depend to a significant extent on macroeconomic and political conditions prevailing from time to time in Argentina and to the Argentine Government's ability to perform on its obligations to Banco Hipotecario and to the entire financial system in Argentina, in connection with Federal secured loans, federal government securities and on its obligation to deliver government securities under various laws and regulations.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

During the fiscal year ended June 30, 2004 we adopted Technical Resolution No. 21 and, as a result, we began consolidating Liao Liao Resort S.A. As required by the transition provisions this standard was retrospectively applied for comparative purposes to reflect such investment on a consolidated basis.

⁽¹⁾ Solely for the convenience of the reader, we have translated Argentine Peso amounts into U.S. Dollars at the exchange rate quoted by Banco de la Nación Argentina for June 30, 2005 which was Ps. 2.887 per US\$1.0. We make no representation that the Argentine Peso or U.S. Dollar amounts actually represent, could have been or could be converted into Dollars at the rates indicated, at any particular rate or at all. See Exchange Rates. Sums may not total due to rounding.

Table of Contents

- (2) In thousands of constant Pesos of June 30, 2005, except for ratios and share data. Includes adjustment by inflation as of February 28, 2003. Sums may not total due to rounding.
- (3) Includes results from temporary investments in affiliated companies and gain (losses) from holding investment in real estate assets. See Note 7 to our Consolidated Financial Statements.
- (4) We have calculated earnings per share data under Argentine GAAP and U.S. GAAP based on the weighted average number of common shares outstanding during the respective period. Each GDS represents ten common shares.
- (5) Under both Argentine and U.S. GAAP we have considered the diluted effects of our outstanding convertible notes and warrants. However, under U.S. GAAP, we have used the treasury-stock method in calculating the diluted effect of the outstanding warrants. In addition, the computation of diluted net income per share / GDS under US GAAP for the year ended June 30, 2004 excludes potential common shares because the effect of their inclusion would be anti-dilutive, or would increase the reported net income per share / GDS. Each GDS represents ten common shares.
- (6) Includes short-term debt, the current mortgages payable and the current portion of the seller financing.
- (7) Includes long-term debt, the non-current mortgages payable and the non-current portion of the seller financing.
- (8) Includes the purchase of fixed assets and long-term investments.
- (9) Net income (loss) / Average Shareholders' Equity (simple average between the fiscal period's shareholders equity and the shareholders equity for the same fiscal period of the immediately preceding year)

Exchange Rates

The following table sets forth, for the periods indicated, the high, low, average and period-end exchange rates for the purchase of U.S. Dollars expressed in nominal Pesos per U.S. Dollar. On November 30, 2005, the applicable Peso/U.S. Dollar exchange rate was Ps. 2.946 to US\$ 1.00. The Federal Reserve Bank of New York does not report a noon buying rate for Pesos.

Nominal Exchange Rates

Fluctuations in the exchange rate between the Peso and the U.S. Dollar may affect adversely our ability to service our Dollar-denominated debt and the U.S. Dollar value of our Global Depositary Shares. Since the repeal of the Convertibility Law in January 2002, the Peso has devaluated approximately 200 % vis-à-vis the U.S. Dollar. We cannot assure you that further devaluations will not take place in the future. Inflation and further devaluation of the Argentine currency could materially and adversely affect our operating results.

Table of Contents

C. Reasons for the Offer and Use of Proceeds

This item is not applicable.

D. Risk Factors

You should consider the following risks associated with our business, taking into account the instability of the country in which we operate.

We may also face additional risks and uncertainties that are not presently affecting us, or that we currently deem immaterial, which may materially impair our business. In general, investing in companies which operate in emerging markets such as Argentina is more risky than investing in companies which operate in more stable markets such as the United States.

Risks Related to Argentina

We collect substantially all of our revenues in Argentina, thus the economic crisis suffered in this country has had and continues to have severe consequences in our financial condition.

We are a corporation (*sociedad anónima*) organized under the laws of the Republic of Argentina. We collect substantially all of our revenues in Argentina and substantially all of our operations, developments, and customers are located in Argentina. Accordingly, our financial condition and results of operations depend to a significant extent on macroeconomic and political conditions prevailing from time to time in Argentina.

During 2001 and 2002, Argentina underwent a period of severe political, economic and social instability that led to the early resignation of President De la Rúa, the default on substantially all of Argentina's sovereign debt and the devaluation of the Peso after a ten-year period of one-to-one parity with the U.S. Dollar. Following a succession of interim Presidents during the course of ten days, on January 1, 2002, at a joint session of the Argentine Congress, Eduardo Duhalde, a senator for the Justicialist Party, was selected to complete the term in office left vacant by President de la Rúa which was due to expire in December 2003.

During his term in office, President Duhalde adopted a number of measures, including, but not limited to the following:

ratifying the suspension of payment of a portion of Argentina's sovereign debt which had been previously declared suspended by interim President Rodriguez Saá;

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

ending the one-to-one Peso-U.S. Dollar parity that had been in place since April 1991;

converting certain U.S. Dollar-denominated loans by financial institutions in the Argentine financial system into Peso-denominated loans (*pesificación*) at a one-to-one exchange rate plus an adjustment for variations in consumer prices (*Coefficiente de Estabilización de Referencia* or *CER*) or in salaries (*Coefficiente de Variación de Salarios* or *CVS*), as the case may be;

converting U.S. Dollar-denominated bank deposits in financial institutions in the Argentine financial system into Peso-denominated bank deposits at an exchange rate of Ps.1.40 per US\$1.00 plus an adjustment pursuant to CER;

requiring the obligatory sale, currently suspended, by all banks of all foreign currency held in Argentina to the Argentine Central Bank (*Banco Central de la República Argentina* or *Argentine Central Bank*) at an exchange rate of Ps.1.40 per US\$1.00 (in the case of U.S. Dollars) or at an equivalent rate (in the case of other currencies);

Table of Contents

converting most foreign currency-denominated obligations of entities in Argentina to non-financial institutions in Argentina into Peso-denominated obligations at a one-to-one exchange rate (in the case of obligations denominated in U.S. Dollars) or at a comparable rate (in the case of obligations denominated in another foreign currency), plus an adjustment pursuant to the CER or the CVS, as the case may be, plus an equitable adjustment in certain cases;

restructuring the maturity of, and interest rates on, domestic bank deposits and maintaining restrictions on withdrawals of those deposits;

enacting an amendment to the Argentine Central Bank's charter allowing it to (1) print currency in excess of the amount of foreign reserves it holds, (2) make short-term advances to the Argentine government and (3) provide financial assistance to financial institutions in the Argentine financial system with liquidity constraints or solvency problems;

converting or pesifying public service tariffs, originally calculated in U.S. Dollars, into Pesos at a one-to-one exchange rate;

freezing public service tariffs without permitting indexation of any kind in contracts executed after the effective date of the Public Emergency Law;

authorizing the Argentine government to renegotiate tariffs in public utility service contracts;

imposing restrictions on transfers of funds abroad subject to certain exceptions; and

requiring the deposit in the Argentine financial system of foreign currency earned from exports, subject to certain exceptions; and

enacting amendments to the Bankruptcy Law to protect debtors.

The measures set forth above resulted in a profound change to the Argentine monetary and foreign exchange regime and to the regulatory framework for all business sectors in Argentina. The impact of such measures on the Argentine economy was significant in the course of 2002 and throughout the first half of 2003. In accordance with data published by the INDEC, in 2002 Argentina's gross domestic product (GDP) decreased 10.9%, unemployment increased to unsustainable levels and the persistent devaluation of the Peso led to an escalation in retail and wholesale prices of 41.4% and 118.2%, respectively. This led to a reduction of wages in real terms and of disposable income and resulted in changes in consumer behavior across all sectors of the Argentine population adversely affecting our shopping center and real estate businesses.

In 2003 the Argentine economy began to experience a recovery which may not be sustained if the government fails to achieve its proposed goals.

The increase in the level of demonstrations and violence in June 2002 led then-President Duhalde to announce his resignation on May 25, 2003 and to call presidential elections prior to the expiration of his term. Néstor Kirchner was elected President in the second round and went into office inaugurated on May 25, 2003. His term in office will expire on December 10, 2007. Although the economic policies implemented by Kirchner's administration have succeeded in achieving the economic growth presented by Argentina in 2003 (estimated at 8.8% as compared to 2002) and 2004 (estimated at 9.0% as compared to 2003) and in the first six months of 2005 (estimated at 9.1% as compared to the first six months of 2004). There are still major issues pending resolution, such as the contracts with privatized public utility companies, the restructuring of the country's financial system and continuing default of the pre-existing sovereign debt that did not participate in the government's exchange offer. The Kirchner administration's main challenge is to generate confidence and create conditions that allow for a transition from the current

short-term stabilization economic policies to long-term and sustainable growth. We cannot assure you that the Kirchner administration will be able to implement

Table of Contents

the required reforms to engender economic growth and reestablish political confidence. If it is unable to do so this would likely have an adverse effect on the economy and financial system.

On October 23, 2005 midterm elections for Senators and Representatives took place in Argentina. Cristina Fernandez de Kirchner, the President's wife, was elected as Senator for the Province of Buenos Aires by a wide difference among other candidates.

The government's actions concerning the economy, including the ones with respect to inflation, interest rates, price controls, foreign exchange controls and taxes, have had, and may continue to have, a material adverse effect on private entities, including us. Decisions with regards to those issues could paralyze investment and consumption decisions causing a reduction in retail sales, real estate sales and demand for office and commercial space. Consequently, we cannot provide any assurance that future economic, social and political developments in Argentina, over which we have no control, will not further impair our business, financial condition, or results of operations.

The Peso has been subject to major devaluations in the past and may suffer significant fluctuations in the future creating uncertainty as to Argentina's economic future.

The economic policies of the Argentine government as well as any future depreciation of the Peso against the U.S. Dollar might have an adverse impact on our financial condition and the results of our operations. The Peso has been subject to major devaluations in the past and may suffer significant fluctuations in the future.

Law No. 25,561, promulgated on January 6, 2002, called Public Emergency and Foreign Exchange Regime Reform Law (Public Emergency Law), put an end to over a decade of one-to-one parity between the U.S. Dollar and the Peso authorizing the Argentine government to set the exchange rate. Subsequent to the devaluation of the Peso in early 2002 and since the beginning of the economic crisis, there have been significant fluctuations in the value of the Peso causing repeated Argentine Central Bank interventions to stabilize the Peso through purchases and sales of U.S. Dollars. As of August 31, 2005, the exchange rate was Ps.2.911 per U.S. Dollar after a peak of Ps.3.90 per U.S. Dollar on June 25, 2002.

We collect substantially all of our revenues in Argentina, and as a result of the enactment of the Public Emergency Law, they are calculated and collected in Pesos. We cannot assure you that the policies to be implemented by the Argentine government in the future will stabilize the value of the Peso against foreign currencies. Therefore, the Peso may continue to be subject to significant fluctuations and further depreciations which might significantly and adversely affect our financial condition and the results of our operations.

Further depreciation of the Peso would have particular impact on:

revenues collected for services provided in Argentina, such as lease agreements;

our assets' valuation; and

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

our Peso-denominated monetary assets and liabilities which could be affected by the introduction of different inflation adjustment indexes.

Argentina may not be able to attract foreign investment in the future.

Argentina's recent social and economic instability, the Government's emergency measures to address the instability and security concerns relating to an increase in crime (including the recent activities of organized picketers, or *piqueteros*) have made many foreign investors unwilling to invest in Argentina. Foreign investment is conducive in many respects to our economic recovery and future economic growth.

Table of Contents

Argentina's continuing inability to attract foreign investment may have an adverse effect on Argentina's economy and prospects.

Inflation may escalate and further undermine the economy which could adversely affect our financial condition and results of operations.

On January 24, 2002, the Argentine government amended the Argentine Central Bank's charter allowing it to print currency without having to maintain a fixed and direct ratio with the foreign currency and gold reserves. This amendment allows the Argentine Central Bank to make advances to the Argentine government to cover anticipated budget deficits and to provide financial assistance to financial institutions with liquidity problems. Furthermore, the devaluation of the Peso affected the domestic price system generating inflation in 2002. Through December 31, 2003, the CER and the wholesale price index exhibited increased by 3.7% and 4.3%, respectively, compared to 41.4% and 118.2%, respectively, for 2002. During 2004, the CER increased by 6.1% and the wholesale price index increased by 7.9%. Although in the course of 2003 and 2004 inflation has been relatively stable, there is great concern over the escalating levels of inflation by the end of 2005. After rising 0.8% and 1.5% in December 2004 and January 2005, respectively, prices increased by 1% in February, 1.5% in March 2005, 0.5% in April 2005, 0.6% in May 2005, 0.9% in June 2005, 1% in July 2005, 0.4% in August 2005, 1.2% in September 2005, 0.8% in October 2005 and 1.2% in November 2005, creating significant uncertainty regarding future inflation levels.

The devaluation of the Peso and related economic measures implemented by the Argentine government were intended primarily to remedy the effects of unemployment and to stimulate economic growth. To date, the objectives pursued have been achieved, but the sustainable success of such measures will depend on the ability of the Argentine government to generate confidence in the local and international financial markets. If current uncertainty regarding the government's policies persists, it is likely that inflation rates will increase significantly, investment and economic activity will contract, unemployment will increase beyond current levels, tax collection will drop and the current fiscal surplus will erode, leading to fiscal deficit. Therefore, we cannot assure you that the value of the Peso will continue to be stable or that inflation will remain at current levels. Any significant increase in inflation or additional volatility in the financial markets could have a material adverse effect on our financial condition and results of operations.

The 2001 economic and financial crisis produced significant social and political tensions, which could worsen in the event of another shock and have a material adverse effect on Argentina's economic growth.

During the height of its recent economic crisis, Argentina experienced significant social and political turmoil, evidenced by street demonstrations, strikes, increased rates of crime and the rapid succession of four interim administrations between President De la Rúa's resignation in December 2001 and President Duhalde's appointment in January 2002. Despite the beginning of an economic recovery, these increased social and political tensions continue and are exacerbated by high levels of poverty and unemployment. Picketers continue to employ street demonstrations and other disruptive tactics to oppose Government policies. In addition, the lack of any clear political consensus in favor of a particular set of economic policies has also given rise to, and may perpetuate, significant uncertainties about Argentina's economic and political future. There can be no assurance that the significant domestic instability evident during 2001 and 2002 will not reemerge in response to an internal or external shock. Such instability could have a material adverse effect on Argentina's economic growth. Furthermore, if unemployment rates do not decrease substantially, consumption of retail goods will be detrimentally affected which in turn will adversely affect the financial condition of our tenants, and consequently, our results of operations.

Table of Contents

Future governmental policies will likely significantly affect the economy as well as the operations of financial institutions.

The Argentine government has historically exercised significant influence over the economy, and financial institutions, in particular, have operated in a highly regulated environment. Due to the Argentine crisis, in the last few months the Argentine government has promulgated numerous, far-reaching and not always consistent laws and regulations affecting the economy as well as financial institutions in particular. We cannot assure you that laws and regulations currently governing the economy or the banking sector will not continue to change in the future, particularly in light of the continuing economic crisis, or that any changes will not adversely affect our business, financial condition or results of operations as well as our ability to honor our foreign-currency denominated debt obligations and that of Banco Hipotecario in which we have a significant investment.

Due to the current social and political crisis, investing in Argentina also entails the following risks:

civil unrest, rioting, looting, nation-wide protests, widespread social unrest and strikes;

expropriation, nationalization and forced renegotiation or modification of existing contracts; and

taxation policies, including royalty and tax increases and retroactive tax claims.

Despite the apparent disappearance of the signs of economic and political crisis, the structural problems of the Argentine economy, which have recurrently caused or contributed to political crisis in the past, have not been resolved, and it cannot be assured whether the policies of the elected president will be finally successful.

Future exchange controls may prevent us from servicing our foreign currency denominated debt obligations.

Since early December 2001, the Argentine authorities implemented a number of monetary and currency exchange control measures that included restrictions on the withdrawal of funds deposited with banks and tight restrictions for making transfers abroad. Although most restrictions in connection with repayments to foreign creditors have been lifted, these regulations have been changing constantly since they were first enacted, and we cannot assure you that they will not be put in place again and, if they are, whether they will be stricter than before. Currently, the government, through the Argentine Central Bank holds control over capital inflows and outflows, enacting the applicable rules. Decree No. 616/2005, issued on June 10, 2005, established that inflows and outflows of foreign currency into the local exchange market, and indebtedness transactions incurred by local residents that may result in a foreign currency-denominated payment to non-residents, need to be registered with the Argentine Central Bank. Furthermore, as of May 26, 2005, the following situations have been subject to certain requirements and conditions: (a) inflows of funds derived from foreign loans by the private financial and non financial sector; and (b) inflows of foreign currency by non-residents for the purpose of: (i) holding a position in local currency, (ii) purchasing financial debt or assets and (iii) investing in government bonds in the secondary market. In these situations, the following requirements must be met: (i) inflows must remain in Argentina for 365 days to be computed as from the day they were negotiated in the local exchange market; (ii) the funds involved in the transactions covered by this decree must be deposited in a local bank account; (iii) a non-transferable deposit denominated in U.S. Dollars for an amount equal to 30% of the relevant transaction has to be made with the resulting proceeds. This deposit will only be reimbursed after the expiration of a 365 days term, cannot bear interest (nor yield any other type of profit) and may not be used as collateral in any credit transaction. Such requirements do not apply to: (a) foreign direct investment, (b) primary placement of publicly traded debt or equity securities listed in one or more exchange markets, and (c) foreign trade and export finance related transactions.

Table of Contents

Subsequently, Resolution No. 365/2005 from the Ministry of Economy and Production established that non-resident capital inflows used for the purchase of notes and income derived from the sale by residents of foreign assets for an amount greater than US\$2 million per month, will also be subject to the aforementioned requirements. In addition, according to this resolution non-resident capital inflows destined to the primary subscription of notes issued by the BCRA are also submitted to the non-transferable deposit requirement described above.

Moreover, said resolution provided certain exemptions to the non-transferable deposit requirement such as the following: (i) inflows derived from loans extended by multilateral and bilateral financial institutions and official credit agencies, and (ii) inflows derived from financial loans extended by foreign creditors, so long as they are devoted to investments in non-financial assets and the borrowed amounts are repaid at least 24 months after they were granted. However, neither Resolution No.365/2005 nor the relevant Argentine Central Bank Communications contain any definition or example as to what would constitute a non-financial asset that would fall under said exception. Therefore, inflows of foreign currency derived from loans extended by foreign creditors to residents destined to finance the acquisition or the construction of any real estate property are likely to be subject to the non-transferable deposit requirement even if such borrowings are to be repaid no earlier than 24 months after they were granted.

By contrast, according to Communication C 43075 dated September 26, 2005, inflows of foreign currency caused by a non-resident and devoted to the cancellation of payment obligations under a purchase agreement (including installment payments thereof) concerning a real estate property under construction may be registered as foreign direct investments provided that certain conditions are met.

Finally, Resolution No. 637/2005 from the Ministry of Economy and Production dated November 16, 2005 established that any inflow of foreign currency to the local exchange market used for the subscription of notes, bonds or participation certificates issued by the trustee of a trust, regardless of the channels in which they are traded (public or private offerings, or listings in self-regulated markets) is subject to the non-transferable deposit requirement established by Decree 616/2005 if such requirement would be deemed applicable to the acquisition of the underlying assets of the trust. See Exchange Controls.

Although most capital outflow restrictions with regards to imports of goods, payment of interest, utilities, dividends and financial debts, have been eliminated, there can be no assurance that the Argentine Central Bank will not reverse its position and once again restrict payments of principal and interest outside of Argentina. If more stringent restrictions are imposed by the Argentine Central Bank, we may be unable to make payments of principal and interest on our foreign currency-denominated debt obligations. If that were to occur, we would likely suffer payment defaults on our existing debt obligations, and such defaults would likely have a material adverse effect on our financial condition and prospects and our ability to service our external debt obligations.

Argentina's sovereign debt restructuring may create certain additional uncertainties regarding future litigation and economic development.

On December 23, 2001, interim President Rodríguez Saá announced the suspension of the payment of all of Argentina's sovereign indebtedness, which as of December 31, 2001 amounted to approximately US\$144.5 billion. On January 2, 2002, then President Duhalde ratified this decision in relation to the portion of the debt corresponding to private-sector foreign debt holders. Subsequently, the leading international credit rating agencies downgraded Argentina's sovereign debt rank. In November 2002, Argentina failed to honor certain payments then outstanding and payable to the World Bank.

On September 21, 2003, the Executive Board of the International Monetary Fund (International Monetary Fund) approved the restructuring of US\$12.5 billion of Argentina's sovereign debt outstanding with multilateral lenders. Pursuant to the terms of the agreement with the International Monetary Fund, the maturities of this debt were extended over the next three years. In addition, Argentina committed to achieving

Table of Contents

certain targets including a primary fiscal surplus of 3% of GDP for 2004, and left the primary fiscal surplus target for the following two years open for negotiation. Prior to arriving at an agreement, the Argentine government defaulted in a payment due to the International Monetary Fund that was cured by execution of a new standby agreement.

On September 23, 2003, the Argentine government announced the guidelines proposed for a restructuring plan in connection with approximately US\$95 billion of debt held by the private sector. These guidelines set forth that the government could require existing debt holders to accept, among other decisions, a 75% reduction in principal, honoring only 25% of the outstanding principal on such indebtedness.

In accordance with the agreement reached with the International Monetary Fund, Argentina is subject to quarterly reviews. The first reviews were approved in January 2004 and in March 2004, respectively. In August 2004, the International Monetary Fund's financial assistance program was suspended until the conclusion of the public debt restructuring process.

The Argentine debt exchange offer concluded on February 25, 2005. On March 18, 2005, the Argentine government announced the final results of the debt restructuring process, with a rate of participation by bondholders of approximately 76%. Despite the high levels of acceptance of the offer, the amounts not tendered for exchange totaled approximately US\$20 billion which creates uncertainty as to the final resolution of the sovereign debt problem and its impact on the future performance of the Argentine economy. The settlement of the debt exchange was completed on June 2, 2005 due to a delay resulting from legal action commenced by certain bondholders who did not participate in the exchange offer in an attempt to attach the tendered bonds.

Following the settlement of Argentina's sovereign debt restructuring, on May 18, 2005, the International Monetary Fund agreed to a one-year extension of Argentina's rescheduled debt payment amounting to US\$2.5 billion with maturities between May 20, 2005 and April 28, 2006. Additionally, certain companies have filed claims before the International Center for the Settlement of Investment Disputes. The claimants allege that the emergency measures are inconsistent with the fair and equitable treatment standards set forth in various bilateral investment treaties to which Argentina is a party. Most of these claimants contend that the government's actions had the effect of expropriating their investments without adequate compensation. Their pleadings are still pending resolution. We can give no assurance that further litigation to be initiated by holdouts will not result in material judgments against the Argentine government.

After the exchange offer Argentina's sovereign debt exceeded US\$120 billion. We cannot assure you that the Argentine government will honor its obligations either under the exchange offer or under the rescheduled agreement with the International Monetary Fund. Further defaults may result in additional litigation and affect Argentina's credibility towards multilateral lenders. This would adversely affect economic growth. Under these circumstances, we cannot assure you that the economy will not suffer additional shocks which may adversely affect our business and results of operations.

The Recent suspension of the Mayor of the City of Buenos Aires and the institution of an impeachment proceeding against him is generating political and institutional instability in the City.

On November 14, 2005, the legislative body of the City of Buenos Aires suspended Mayor Aníbal Ibarra and instituted an impeachment proceeding against him under the charge of breach of his duties arising out of an incident that caused the death of 193 people when a fire started on December 30, 2004 in a local night club which did not comply with minimum safety standards required for the issuance of a municipal permit. If Mayor Ibarra is found guilty of the charges he could be removed from office.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

This impeachment proceeding is the first one of its kind that has taken place in the history of the City of Buenos Aires. The confrontation among political parties in the legislative body of the City and the trial are

Table of Contents

generating political and institutional instability in the City where IRSA and Alto Palermo S.A. (APSA) (APSA) are located.

Recent changes in Kirchner s cabinet of ministers produce uncertainty as of the future development of governmental policies

On November 28, 2005 President Kirchner announced the replacement of several Ministers of his cabinet. Felisa Josefina Miceli replaced Roberto Lavagna as head of the Ministry of Economy and Production, Jorge Enrique Taiana replaced Rafael Bielsa as head of the Ministry of Foreign Affairs, Nilda Garré replaced José Pampuro as head of the Ministry of Defense and Juan Carlos Nadalich replaced Alicia Kirchner as head of the Ministry of Social Development. After these announcements, some concerns have arisen, particularly with regards to the replacement of the Minister of Economy and Production. The most important concern is whether the new Minister will have the ability to continue the development of governmental policies favorable to the recovery of the local economy and effective in reducing the level of poverty in Argentina.

Risks Related to Our Business

Our high level of debt may adversely affect our operations and our ability to pay our debt as it becomes due.

We have had, and expect to have, substantial liquidity and capital resource requirements to finance our business. As of June 30, 2005, our consolidated financial debt amounted to Ps.483.7 million (including accrued and unpaid interests and deferred financing costs). The fact that we are highly leveraged may affect our ability to refinance existing debt or borrow additional funds to finance working capital, acquisitions and capital expenditures. This would require us to allocate a substantial portion of cash flow to repay principal and interest, thereby reducing the amount of money available to invest in operations, including acquisitions and capital expenditures. Our high leverage could place us at a disadvantage compared to our competitors who are less leveraged and limit our ability to react to changes in market conditions, changes in the real estate industry and economic downturns. Although we have successfully restructured our debt we cannot assure you that we will not relapse and become unable to pay our obligations.

We may not be able to generate sufficient cash flows from operations to satisfy our debt service requirements or to obtain future financing. If we cannot satisfy our debt service requirements or if we default on any financial or other covenants in our debt arrangements, the holders of our debt will be able to accelerate the maturity of such debt or cause defaults under the other debt arrangements. Our ability to service debt obligations or to refinance them will depend upon our future financial and operating performance, which will, in part, be subject to factors beyond our control such as macroeconomic conditions and regulatory changes in Argentina. If we cannot obtain future financing, we may have to delay or abandon some or all of our planned capital expenditures, which could adversely affect our ability to generate cash flows and repay our obligations.

We may face potential conflicts of interest relating to our principal shareholders.

Our largest beneficial owner is Mr. Eduardo S. Elsztein. As of November 30, 2005, such beneficial ownership consisted of:

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

931,852 of our common shares owned by Inversiones Financieras del Sur S.A. (IFISA), a company where Mr. Eduardo S. Elsztain is the beneficial owner;

77,850,702 of our common shares owned by Cresud S.A.C.I.F. y A. (Cresud), for which Mr. Eduardo S. Elsztain by reason of his position with Cresud, may be deemed to own all of our common shares held for the account of Cresud.

Table of Contents

Conflicts of interest between our management, the Company and our affiliates may arise in the performance of our respective business activities. Mr. Elsztain also beneficially owns (i) approximately 20.2% of the common shares of Cresud, and (ii) approximately 61.6% of the common shares of our subsidiary APSA. We cannot assure you that our principal shareholders and their affiliates will not limit or cause us to forego business opportunities that their affiliates may pursue or that the pursuit of other opportunities will be in our interest.

The devaluation of the Peso and the deterioration of the Argentine economy have had, and may continue to have, a material adverse effect on the results of our operations and financial condition.

While the Convertibility Law remained in effect, we had no exchange rate risk relating to our Peso-denominated revenues and our U.S. Dollar-denominated liabilities. However, with the repeal of the Convertibility Law on February 4, 2002, all U.S. Dollar-denominated obligations, which were within the Argentine banking sector and subject to Argentine Law, were mandatorily converted into Peso-denominated liabilities at an exchange rate of one Peso to one U.S. Dollar. The majority of our liabilities, such as the Unsecured Loan Agreement, the Series 03 Secured Notes due 2009 and the Hoteles Argentinos Loan are subject to New York law and thus have not been converted into Pesos. Moreover, our US\$ 100 million Convertible Notes (US\$ 57.0 million outstanding as of November 30, 2005) and APSA's US\$ 50 million Convertible Notes (US\$ 47.3 million outstanding as of November 30, 2005) are U.S. Dollar-denominated. See: Item 5.B. Liquidity and Capital Resources - Our indebtedness .

We realize substantially all of our revenues in Pesos (such as lease contracts and seller financing) and, as a result, the devaluation of the Peso has adversely affected the U.S. Dollar value of our earnings and thus impaired our financial condition. Moreover, our Peso-denominated assets (which represent 91% of our total assets as of June 30, 2005) have depreciated against our indebtedness denominated in foreign currency. As of June 30, 2005, we had outstanding debt amounting to Ps. 483.7 million, of which 89% was denominated in U.S. Dollars. Any further depreciation of the Peso against the U.S. Dollar will correspondingly increase the amount of our debt in Pesos, with further adverse effects on our results of operation and financial condition, and may increase the collection risk of our leases and other receivables from our tenants and mortgage debtors, most of whom have Peso-denominated revenues.

The Argentine government may impose additional restrictions on the lease, operation and ownership of property.

In the past, in response to housing shortages, high rates of inflation and difficult access to credit, the Argentine government imposed strict and burdensome regulations regarding leases. Such regulations limited or prohibited increases on rental prices and prohibited eviction of tenants, even for failure to pay rent. We cannot assure you that the Argentine government will not impose similar or other regulations in the future. Changes in existing laws or the enactment of new laws governing the ownership or operation or leasing of properties in Argentina could materially and adversely affect our operations and profitability.

There can be no assurance that additional regulations will not be imposed in the future. Such regulations could negatively affect the Argentine real estate market and the rental market. Furthermore, most of our leases provide that the tenants pay all costs and taxes related to their respective leasable areas. In the event of a significant increase in the amount of such costs and taxes, the Argentine government may respond to political pressure to intervene by regulating this practice, thereby negatively affecting our rental income.

We hold Argentine securities which are more volatile than United States securities, and carry a greater risk of default.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

We currently hold certain investments in Argentine government debt, corporate debt and equity securities. In particular, we hold a significant interest in Banco Hipotecario, an Argentine bank that has

Table of Contents

recently suffered material losses. Although the holding of these Argentine investments, with the exception of Banco Hipotecario, tends to be short term, investments in such securities involve certain risks, including:

market volatility, higher than those typically associated with U.S. government and corporate securities; and

loss of principal.

Some of the issuers in which we have invested and may invest, including the Argentine government, have in the past experienced substantial difficulties in servicing their debt obligations, which led them to restructure their indebtedness. We cannot assure that the issuers in whom we have invested or may invest will not be subject to similar or other difficulties in the future which may adversely affect the value of our investments. In addition, such issuers and, therefore, such investments, are generally subject to many of the risks that are described in this section, which could also adversely affect the value of these investments.

Failure to sell planned properties will adversely affect our financial condition

We might have difficulty or fail to sell our futures developments. A failure or a delay in selling these properties would result in lower results of operations and have a material adverse effect on our financial condition.

Real estate investments are subject to many risks.

Our real estate investments are subject to risks common to commercial and residential properties in general, many of which are not within our control. Any of these risks might materially and adversely affect our business, financial condition or results of operations. The yields available from equity investments in real estate depend on the level of sales or rental income generated and expenses incurred.

Our ability to generate income from our properties sufficient to service our debt and cover other expenses may be adversely affected by the following factors, among others, some of which we cannot control:

oversupply of retail space or a reduction in demand for retail space, which could result in lower rent prices and lower revenues for us;

increased competition from other real estate operators which might drive down our prices and profits;

changes in our ability or our tenants' ability to provide for adequate maintenance and insurance, possibly decreasing the useful life of and revenue from property;

increases in operating expenses which could lower our profitability;

the inability to collect rents due to bankruptcy or insolvency of tenants or otherwise;

the need to periodically renovate, repair and release space and the higher costs thereof; and

the exercise by our tenants of their legal right to early termination of their leases.

In addition, other factors may adversely affect the productivity and value of our properties, including law reforms and governmental regulations (such as those governing usage, zoning and real property taxes), changes in interest rates (including the risk that increased interest rates may result in decreased sales of lots in the residential development properties) and the availability of financing. Increases in operating costs due to

Table of Contents

inflation and other factors may result in the inability or unwillingness of tenants to pay rent or expense increases. Certain significant expenditures, such as debt service, real estate taxes, and operating and maintenance costs, are generally not reduced in such circumstances, resulting in a reduction in income from the investment. The foregoing and any other factor or event that would impede our ability to respond to adverse changes in the performance of our investments could have a material adverse effect on our financial condition and results of operations.

Our business is subject to extensive regulation.

The real estate business is subject to extensive building and zoning regulations at the national, provincial and municipal levels. We are required to obtain approval from various governmental authorities for our development activities, and new laws or regulations could be adopted, enforced or interpreted in a manner that could adversely affect our results of operations and the level of cash flow necessary or available to meet our obligations. Development activities are also subject to risks relating to the inability to obtain or delays in obtaining all necessary zoning, environmental, land-use, development, building, occupancy and other required governmental permits and authorizations. We and our affiliates operations are also subject to national, provincial and municipal environmental laws applicable in Argentina. We believe that such laws and regulations currently do not materially affect our business or results of operations. We cannot assure you, however, that those regulations will not change in a manner that could cause material adverse effects on our business.

Argentine Leasing Law No. 23,091 imposes restrictions that limit our flexibility.

Argentine laws governing leases impose certain restrictions, including the following:

lease agreements may not contain inflation adjustment clauses based on consumer price indexes or wholesale price indexes. Although many of our lease agreements contain readjustment clauses, these are not based on an official index nor do they reflect the inflation index. In the event of litigation it may be impossible for us to adjust the amounts owed to us under our lease agreements;

residential leases must comply with a mandatory minimum term of two years and retail leases must comply with a mandatory minimum term of three years except in the case of stands and/or spaces for special exhibitions;

lease terms may not exceed ten years, except for leases regulated by Law No. 25,248 (which provides that leases containing a purchase option are not subject to term limitations); and

tenants may rescind commercial lease agreements after the initial six-month period. The exercise of such rescission rights by our tenants could materially and adversely affect our business and we cannot assure you that our tenants will not exercise such right, especially if rent values stabilize or decline in the future.

Eviction proceedings in Argentina are difficult and time consuming.

Although Argentine law permits a summary proceeding to collect unpaid rent and a special proceeding to evict tenants, eviction proceedings in Argentina are difficult and time-consuming. Historically, the heavy workload of the courts and the numerous procedural steps required have generally delayed landlords' efforts to evict tenants. Eviction proceedings generally last from six months to two years from the date of filing of the suit to the time of actual eviction. Historically, delinquency regarding office rental space has been very low, approximately 2%, and we have

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

usually attempted to negotiate the termination of lease agreements with defaulting tenants after the first few months of non-payment in order to avoid legal proceedings. Delinquency may increase significantly in the future, and such negotiations with tenants may not be as successful as they have been in the past. Moreover, new Argentine laws and regulations may forbid or restrict eviction

Table of Contents

proceedings, and in such case, they would likely have a material and adverse effect on our financial condition and results of operation.

Our assets are concentrated in the Buenos Aires area.

Our principal properties are located in the City of Buenos Aires and the province of Buenos Aires and a substantial portion of our revenues are derived from such properties.

For the fiscal year ended June 30, 2005, a substantial part of our sales were derived from properties in the City of Buenos Aires and the province of Buenos Aires area. Although we own properties and may acquire or develop additional properties outside Buenos Aires, we expect to continue to depend to a very large extent on economic conditions affecting those areas, and therefore, an economic downturn in those areas could have a material adverse effect on our financial condition.

If the court extends Inversora Dársena Norte S.A.'s bankruptcy to Puerto Retiro, we will lose the significant investment we made to acquire a unique waterfront land reserve by the City of Buenos Aires where we plan to develop a financial center.

On November 18, 1997, through the acquisition of the capital stock of the old Alto Palermo (Alto Palermo S.A., currently Inversora Bolívar S.A.), Pérez Companc's real estate subsidiary, we indirectly acquired 35.2% capital stock of Puerto Retiro. The Old Alto Palermo had purchased such shares of Puerto Retiro from Redona Investments Ltd. N.V. in 1996. In addition, pursuant to the execution of several stock purchase agreements in May and June 1999, we -through Inversora Bolívar S.A.- increased our interest in Puerto Retiro up to 50% of its capital stock.

On April 18, 2000 Puerto Retiro received notice of a complaint filed by the Federal Government, through the Ministry of Defense, with the purpose of requiring the extension of the bankruptcy of Inversora Dársena Norte S.A. (Indarsa). Concurrently with the complaint, at the request of plaintiff, the bankruptcy court granted an order restraining the ability of Puerto Retiro to sell or dispose in any manner the real estate property purchased from Tandanor S.A. (Tandanor).

Indarsa had purchased 90% of the capital stock of Tandanor, a formerly government owned company privatized in 1991 engaged in the shipyard industry, which owned a large piece of land near Puerto Madero of approximately 8 hectares, divided into two spaces: Planta 1 and 2. Such property did not have (and still does not have) approved zoning established in the Urban Planning Code and therefore no project can be currently developed.

After the purchase of Tandanor by Indarsa, Tandanor sold Planta 1 to Puerto Retiro for a sum of US\$ 18 million, pursuant to a valuation performed by J.L. Ramos, a well-known real estate brokerage firm in Argentina. The deed was executed in June, 1993.

Indarsa did not comply with the payment of the outstanding price for the purchase of the capital stock of Tandanor, and therefore the Ministry of Defense requested the bankruptcy of Indarsa. Since the only asset of Indarsa was the shareholdings in Tandanor, the Ministry of Defense is pursuing to extend the bankruptcy to other companies or individuals which, according to its view, acted as an economic group, and therefore, requested the extension of the bankruptcy to Puerto Retiro, which acquired Planta 1 from Tandanor.

On April 18, 2001, the judicial procedure entered into trial stage. At the present time, a provisional measure prohibiting changes and disposition of this building is still in effect. We are currently awaiting the Court's ruling on this matter.

Table of Contents

We cannot assure the success of the outcome of this judicial proceeding. If the plaintiff's claim is favored by the court or by the court of appeals, such decision may cause a material adverse effect on our financial situation, since all of the assets of Puerto Retiro will be used to pay the debts incurred by Indarsa.

The Company's investment in Puerto Retiro amounts to Ps. 45.5 million at June 30, 2005.

We face a potential economic loss with regards to a judicial proceeding involving the acquisition of Llao Llao Hotel.

Llao Llao Holding S.A. purchased Hotel Llao Llao on November, 1997, from National Parks Administration. Llao Llao Holding S.A. (in the process of dissolution due to merger with IRSA), predecessor of Llao Llao Resorts S.A. was sued in 1997 by National Parks Administration to obtain collection of the unpaid balance of the purchase price in Argentine sovereign debt securities amounting to US\$ 2.87 million. The trial court ruled in favor of the plaintiff. The ruling was appealed, and the court of appeals confirmed the judgment ordering the payment of US\$ 2.87 million in Argentine sovereign debt securities available at the date of the ruling, plus compensatory and punitive interest and attorneys' fees. On March 2, 2004, the Company made a payment deposit of Ps. 7.19 million with Banco de la Ciudad de Buenos Aires in favor of the National Parks Administration and deposited Argentine sovereign debt securities class FRB - FRB L+13/16 2005 for a total nominal value of US\$ 4.12 million. The total amount settled on that date was Ps. 9.15 million.

The court served notice of payment made on the plaintiff. On June 30, 2004 the plaintiff filed a brief rejecting said payment considering it partial and requested the court the determination of term for the deposit of funds until final payment of the total debt.

The trial court pesified the plaintiff's credit and the plaintiff appealed this decision. The court of appeal ruled in favor of the plaintiff mantaining their credit in U.S. Dollars. We have appealed this decision and the appellate court declared it inadmissible. We appealed before the Federal Supreme Court and the final decision is still pending.

A report of the legal advisors states that the balance remains unpaid and outlines that the Company has deposited with the court the debt instruments determined in the unpaid balance, and an amount in cash of Ps. 7.19 million, whereas the unpaid balance approved in the court records was US\$ 3.78 million. Consequently, as of June 30, 2005 our management recorded a reserve in the amount of Ps. 3.77 million which was determined calculating the difference between the amount claimed for in concept of compensatory and punitive interest (US\$ 3.8 million) and the amount deposited in payment (Ps 7.19 million).

In September 2001 Llao Llao Resorts S.A. entered into an agreement with six of the plaintiff's attorneys by which the company agreed to pay them the amount of US\$ 1.2 million in concept of fees which would be paid in twelve equal monthly installments of US\$ 100,000 each to be deposited with Banco de la Ciudad de Buenos Aires. The first three installments were paid before the devaluation of the Peso and the following nine installments were paid in Pesos after the devaluation.

One of the six attorneys never challenged these payments. The remaining five attorneys filed a motion alleging that that the amount agreed should have been paid in U.S. Dollars and not in Pesos and calculating the difference between the amounts paid in Pesos and the U.S. Dollar amount agreed in concept of fees which they understood amounted to US\$ 384,000. In March 2005, at the request of two of the attorneys the court issued

Table of Contents

an order to attach the amount of Ps. 788,000 from the Company's checking accounts. As of June 30, 2005 the attachment amounted to Ps. 861,000.

Our legal advisors challenged the liquidation performed by these two plaintiffs for several reasons. Firstly, the first three installments paid prior to the pesification need not be readjusted because they were made when the Peso was at a 1 to 1 parity with the U.S. Dollar. Secondly, the interest claim made by the plaintiffs is unlawful and exorbitant. On December 2, 2005 the court resolved ordering the payment of the currency difference with regards to the last nine installments which would be calculated using the exchange rate in force at the time the deposits were made and rejecting the interest claim considering that the relief sought was already covered by the readjustment ordered. This court order may be appealed by the plaintiffs.

We are currently negotiating an out-of-court agreement with the remaining three attorneys. The liquidation presented by them includes the amount of US\$ 288,112.35 in concept of capital applied to the currency difference between the payments made in Pesos and the original fee agreement and US\$ 72,528.78 in concept of interest which results in a total amount of US\$ 360,641.13. We understand that they are willing to arrive at an agreement which could include an installment payment plan.

In accordance with the probable contingency reported by the lawyers as of June 30, 2005, the Company management has reserved the amount of Ps. 2.3 million.

If we cannot reach an agreement with the sellers regarding our acquisition of a significant interest in the Neuquén Project, the sale may be voided and we may not recover our original investment.

On July 6, 1999 APSA acquired 94.6% ownership of Shopping Neuquén S.A. for Ps. 4.2 million. APSA paid Ps. 0.9 million on September 1, 1999 and the remaining Ps. 3.3 million were originally scheduled to be paid on or before July 5, 2001 or at the completion of the construction of the shopping center, whichever happened first. We clarify that said amounts are in Pesos according to the emergency legislation in force. See Item 3.D. Risks Factors . However, Shopping Neuquén S.A.'s former shareholders have challenged the constitutionality of such legislation, and no final decision has been issued. As of November 30, 2005 the purchase price balance remains unpaid.

Shopping Neuquén S.A.'s sole asset is a plot of land of approximately 50,000 square meters on which a shopping center is proposed to be built. The proposed project contemplates the building of a shopping center, a hypermarket, a hotel and a housing complex none of which have been commenced.

Legal issues with Shopping Neuquén S.A.'s former shareholders

On August 15, 2003 APSA was informed that the former shareholders of Shopping Neuquén S.A., who had a 85.75% interest, filed a complaint against APSA seeking recovery of the purchase price balance, interest and legal costs. In September 2003, APSA answered the complaint opposing several defenses such as, plaintiffs' non-compliance with their duties under the contract and the pesification of the purchase price balance according to the emergency legislation. Moreover, APSA filed a counterclaim alleging there should be a readjustment of the effects of the contract which became excessively burdensome for unforeseeable reasons given the 2001 economic, social and political crisis. In November 2003 the plaintiffs replied to APSA's counterclaim alleging that the payment under the purchase agreement was overdue before the economic and social crisis emerged and thus APSA's contract readjustment claim was inadmissible. As of November 30, 2005 the trial is under discovery stage.

Legal issues with the Municipality of Neuquén

In June 2001 Shopping Neuquén S.A. filed a request with the Municipality of Neuquén to extend the construction deadlines that had been originally scheduled. In addition, it requested authorization to convey

Table of Contents

certain plots of land to third parties so that each participant to the Neuquén project would be able to build on his own land. On December 20, 2002 the Municipality of Neuquén issued Decree 1437/02 denying both requests. In addition, it declared that the rights under Ordinance 5178 had lapsed and that the land purchase agreements would be terminated. As a result, the improvements already performed by Shopping Neuquén S.A. would be lost and accrued in favor of the Municipality of Neuquén, leaving Shopping Neuquén S.A. with no right to compensation.

On January 21, 2003 Shopping Neuquén S.A. submitted its response to the Decree 1437/02 requesting its revocation. It also requested permission to submit a new construction timetable, which would be prepared in accordance with the current situation of the project, including reasonable short and medium term projections. The Municipal Executive issued Decree 585/2003 rejecting this. On June 25, 2003 Shopping Neuquén S.A. filed an administrative action with the Supreme Court of Neuquén requesting the annulment of Decrees 1437/2002 and 585/2003. On December 21, 2004, the Supreme Court of Neuquén ruled in favor of the Municipality of Neuquén, declaring that the administrative action filed by Shopping Neuquén S.A. had expired. The decision, however, is not final. APSA filed an appeal but the Supreme Court of Neuquén has not yet issued a decision with regards to its admissibility. If the appeal is declared admissible the Federal Supreme Court will give a final decision, but if it is declared inadmissible APSA will file an appeal directly with the Federal Supreme Court.

Shopping Neuquén S.A. is currently seeking to negotiate with the Municipality of Neuquén the terms of an agreement that might permit reactivation of the proposed development. Nevertheless, we cannot give you any assurance that APSA will be able to achieve such an agreement on commercially reasonable terms, if at all, and if APSA cannot, the Municipality of Neuquén would be entitled to request the restitution of the property and APSA will likely lose all or substantially all of its investment which amounts to Ps. 10 million.

We maintain a provision of Ps. 2.3 million which represents our best estimate of the probable loss to be incurred in connection with these claims.

Our real estate activities through subsidiaries and joint ventures are subject to additional risks.

We conduct a substantial part of our real estate activities through subsidiaries and strategic alliances with other companies. One of our principal investments is in APSA, onto where we own a majority of the voting stock. In the future, we may increase our real estate activities through such vehicles. As a result, we depend to a certain extent on the successful operation of subsidiaries and strategic alliances and upon income, dividends and other distributions from these entities to maintain our profitability, liquidity and growth. Moreover, joint ownership of properties involves additional risks. For example, our partners or co-investors may:

become bankrupt or insolvent;

develop business objectives or goals which are different from ours; or

take actions that are contrary to our instructions or that are otherwise contrary to our interests.

Development and construction activities are inherently risky.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

We are engaged in the development and construction of office, retail and residential properties, generally through third-party contractors. Risks associated with our development and construction activities include the following, among others:

abandonment of development opportunities and renovation proposals;

Table of Contents

construction costs of a project may exceed our original estimates, making a project unprofitable;

occupancy rates and rents of a newly completed project may be insufficient to make such project profitable;

pre-construction buyers may default on their purchase contracts, or units in new buildings may remain unsold upon completion of construction;

we may be unable to obtain financing on favorable terms for the development of the project;

sale prices for residential units may be insufficient to cover development costs;

construction and lease-up may not be completed on schedule, resulting in increased debt service expense and construction costs; and

we may be unable to obtain, or may face delays in obtaining, all necessary zoning, land-use, building, occupancy and other required governmental permits and authorizations.

We are subject to shopping center operating risks that may affect our profitability.

Shopping centers are subject to various factors that affect their development, administration and profitability. These factors include:

the accessibility and the attractiveness of the area where the shopping center is located;

the intrinsic attractiveness of the shopping center;

the flow of people and the level of sales of each shopping center rental unit;

the amount of rent collected from each shopping center rental unit; and

the fluctuations in occupancy levels in the shopping centers.

An increase in operating costs, caused by inflation or other factors, could have a material adverse effect on us if our tenants are unable to pay higher rent obligations due to the increase in expenses.

Moreover, the shopping center business is closely related to consumer spending, and, therefore, to the economy in which such customers are located. All of our shopping centers are located in Argentina, and, as a consequence, their business has been seriously affected by the Argentine recession. Unemployment, political instability and inflation have reduced consumer spending in Argentina, lowering tenants' sales and forcing

some of them to leave our shopping centers. This has reduced the occupied space and consequently, our revenues.

The shift of consumers to purchasing goods over the Internet may negatively affect sales in our shopping centers.

During the last years, retail sales by means of the Internet have grown significantly in Argentina even though the market share of Internet sales related to retail sales is still not significant. The Internet enables manufacturers and retailers to sell directly to consumers, diminishing the importance of traditional distribution channels such as retail stores and shopping centers. We believe that our target consumers are increasingly using the Internet, at home, work or elsewhere, to shop electronically for retail goods, and that this trend will

Table of Contents

continue. If e-commerce and retail sales through the Internet continue to grow at current rates, consumers' reliance on traditional distribution channels such as our shopping centers could be materially diminished, having a material adverse effect on our financial condition, results of operations and prospects.

Our future acquisitions may be unprofitable.

We intend to acquire additional properties to the extent that they will be acquired on advantageous terms and meet our investment criteria. Acquisitions of commercial properties entail general investment risks associated with any real estate investment, including:

the risk that investments will fail to perform as expected, or

the risk that estimates of the cost of improvements needed to bring the property up to established standards for the market may prove to be inaccurate.

Our shopping center business is subject to competitive pressure.

All of our shopping centers are located in Argentina. There are other shopping centers and numerous smaller retail stores and residential properties within the market area of each of our properties. The number of competitive properties in a particular area could have a material adverse effect on our ability to lease retail space in our shopping centers or sell units in our residential complexes and on the rent price or the sale price that we are able to charge. To date, there have been relatively few companies competing with us for shopping center properties, and, as additional companies become active in the Argentine shopping center market in the future, such competition could have a material adverse effect on our results of operations.

We are subject to the risk of payment defaults due to our investments in credit card businesses through our subsidiary APSA.

Investments in credit card businesses can be adversely affected by delinquency on credit card accounts, defaults in payments by credit card holders, difficulty in obtaining judicial enforcement for the collection of payments, doubtful accounts or loss of receivables. The present rates of delinquency, collection proceedings and loss of receivables may vary and be affected by numerous factors, which among others include:

adverse changes in the Argentine economy;

adverse changes in the regional economies;

political instability;

increase of unemployment; and

salary depreciation.

These and other factors may have an adverse effect on present rates of delinquency, executions and losses, any one or more of which could have a material adverse effect on the results of operations of our credit card business. In addition, if our credit card business is adversely affected by one or more of the above factors, the asset quality of our securitized receivables are also likely to be adversely affected. Therefore, we could adversely be affected to the extent that at such time we hold a participating interest in any such securitized receivables.

Table of Contents

We may not be able to recover the mortgage loans we have provided to purchasers of units in our residential development properties.

In recent years, we have provided mortgage financing to purchasers of units in our residential development properties. Before January 2002, our mortgage loans were U.S. Dollar-denominated and accrued interest at a fixed interest rate ranging generally from 10% to 15% per year and for terms ranging generally from 1 to 15 years. However, on March 13, 2002, the Argentine Central Bank converted all U.S. Dollar denominated debts into Pesos at the exchange rate of Ps. 1.00 to U.S. Dollars 1.00 and imposed maximum interest rate on mortgage loans of 3% for residential mortgage loans granted to individuals and 6% for mortgage loans granted to business organizations. These modifications adversely affected the U.S. Dollar value of our outstanding mortgage loans which at June 30, 2005, aggregated approximately Ps. 1.4 million.

We are subject to risks normally associated with providing mortgage financing, including the risk of default in the payment of principal and interest, which could adversely affect our cash flow. Argentine law imposes significant restrictions on our ability to foreclose and auction properties. Thus, if there is a default under a mortgage loan, we do not have the right to foreclose on the unit. Instead, in order to reacquire a property, we are required to purchase each unit at a public court ordered auction, or at an out-of-court auction, in accordance with Law No. 24,441. However, the Public Emergency Law established the suspension of all the judicial and non-judicial enforcements including the enforcement of mortgages and pledges, regardless of its origin.

Law No. 25,798 enacted on November 5, 2003 and regulated by Decrees No. 1284/2003 and No. 352/2004, among others, sets forth a system to refinance delinquent mortgage loans in order to prevent foreclosures of the housing units constituting the only dwelling of debtors (the Mortgage Refinancing System). The system comprises both delinquent debtors in the financial system and those outside the financial system. Pursuant to Law No. 25,798, a trust is created whose assets are composed of financial resources to be contributed by the Argentine government and the income derived from the amortization installments of refinanced loans. *Banco de la Nación Argentina*, in its capacity as Trustee of the trust, enters into refinancing agreements with the debtors under the following terms: a grace period of one year and amortization in monthly installments not to exceed 30% of the aggregate income of the family living in such housing unit. Banco de la Nación Argentina will then issue bonds that shall be delivered in lieu of payment to the mortgagee and will subrogate the mortgagee's rights with regards to the debtors. The amounts to be refinanced may not exceed the appraisal value of the secured real property, after deduction of debts for taxes and maintenance expenses. The trust shall pay the mortgagee only the amount corresponding to overdue defaulted principal and, with regards to the outstanding debt, Banco de la Nación Argentina shall repay principal plus interest and adjustments according to the terms and conditions of the original mortgage loan agreement. The parties to secured loan agreements were given a period to express their decision to participate in the Mortgage Refinancing System. This term was extended twice first by Decree No. 352/2004 and then by Law No. 26,062, effective as of November 4, 2005. The latter not only extends the term 120 days from the day of its publication but also suspends foreclosure proceedings for the same period.

We cannot assure you that laws and regulations related to foreclosure on real estate will not continue to change in the future or that any changes will not adversely affect our business, financial condition or result of operations.

Our subordinated participations in securitized mortgage loans may have no value.

Additionally, on December 2001, we securitized almost the entire mortgage portfolio held by us since late 1992, amounting to Ps. 29.9 million, through the sale of this portfolio to Fideicomiso IRSA I. Banco Sudameris Argentina acted as trustee and collection agent for the trust. Fideicomiso IRSA I issued four classes of participation certificates under a scheme of complete subordination, in which each class is serviced only upon the total payment of the preceding senior class. We held all of the Class B, Class C and Class D participation certificates and approximately 10% of the Class A certificates. Class D certificates represent the most junior class. They have no fixed return and will yield the

funds remaining in the trust after Classes A, B and C and all the expenses of the trust have been completely paid.

Table of Contents

This portfolio was originally denominated in U.S. Dollars and mandatorily converted into Pesos in January 2002. Additionally, mortgages in the trust were subject to inflation adjustment between February and April 2002. Following these changes, the terms and conditions of the certificates of deposit issued by the trust were modified to reflect changes in the underlying assets. In May 2002, inflation adjustment on residential mortgages granted to individuals was eliminated until October 2002, when adjustment was performed according to the CVS a different inflation index. Pursuant to Decree 117/04 and Law No. 25,796, the CVS became unenforceable on April 1, 2004. The terms and conditions of the certificates of deposit were modified again to reflect this new change.

The portfolio value has declined due to the current economic crisis in Argentina, and as a result we cannot assure you that the trust will have sufficient funds to service the subordinated certificates held by us. If there are not sufficient funds, the value of these bonds might be considerably reduced or even equal to zero.

As of June 30, 2005, Classes A, B and C were completely amortized.

As of June 30, 2005, Class D's equity value amounted to Ps. 3,259 for IRSA, Ps. 519 for Inversora Bolívar S.A and Ps.133 for Baldovinos S.A.

We cannot assure you that the theoretical cash flow to be generated by the participation certificates owned by us (and included in the annual report), will represent actual results. Successive changes in the terms and conditions of the underlying assets have been occurring since January 2002 and additional modifications might be introduced by fiscal authorities or the Ministry of Economy and Production, which could further affect respective cash flows.

We are subject to risks affecting the hotel industry.

The full-service segment of the lodging industry in which we operate our hotels is highly competitive. The operational success of our hotels is highly dependant on our ability to compete in areas such as access, location, quality of accommodations, rates, quality food and beverage facilities and other services and amenities. Our hotels may face additional competition if other companies decide to build new hotels or improve their existing hotels to increase their attractiveness.

In addition to the general risks associated with investments in Argentina and in real estate discussed elsewhere in this section, the profitability of our hotels depends on:

our ability to form successful relationships with international operators to run our hotels;

changes in travel patterns, including seasonal changes; and

taxes and governmental regulations affecting wages, prices, interest rates, construction procedures and costs.

We are dependent on our senior manager and chairman Eduardo Elsztain.

Our success depends, to a significant extent, on the continued employment of Eduardo S. Elsztain, our chief executive officer, president and chairman of the board of directors. The loss of his services for any reason could have a material adverse effect on our business. Our future success also depends in part upon our ability to attract and retain other highly qualified personnel. We cannot assure you that we will be successful in hiring or retaining qualified personnel.

Table of Contents

Our investment in Banco Hipotecario subjects us to risks affecting the banking sector.

We have an investment in the banking sector, a different industry with different risks. As of June 30, 2005, we owned 11.76% of Banco Hipotecario, which represented 9% of our consolidated assets. Banco Hipotecario has been the leading mortgage lender, largest mortgage servicer and provider of mortgage-related insurance in Argentina. Substantially all of its operations, property and customers are located in Argentina. Accordingly, the quality of its loan portfolio, its financial condition and results of operations depend to a significant extent on macroeconomic and political conditions prevailing in Argentina. The political and economic crisis in Argentina during 2002 and 2003, and the Argentine government's actions to address it, described below, have had and may continue to have a material adverse effect on Banco Hipotecario's business, financial condition and results of operations.

Banco Hipotecario strongly relies on mortgage lending and its ability to continue to develop its financial intermediation strategy depends in part on Banco Hipotecario's ability to successfully implement a new business strategy.

Historically, Banco Hipotecario has been engaged exclusively in mortgage lending and related activities. As a result, factors having an adverse effect on the mortgage market have a greater adverse impact on Banco Hipotecario than on its more diversified competitors. Due to its historical concentration in this recession-sensitive sector, Banco Hipotecario is particularly vulnerable to adverse changes in economic and market conditions in Argentina due to their adverse effect on (i) demand for new mortgage loans and (ii) the asset quality of outstanding mortgage loans.

In light of the economic conditions in Argentina for the foreseeable future, Banco Hipotecario cannot rely exclusively on mortgage lending and related services. Accordingly, Banco Hipotecario has adapted its business strategy to confront the challenges of these new market conditions. Banco Hipotecario's ability to diversify its operation will depend on how successfully it diversifies product offerings and transforms itself into a financial institution that no longer relies solely on mortgage lending.

In the past two years Banco Hipotecario has made several investments designed to enable the development of retail banking activities. Banco Hipotecario must overcome significant challenges to achieve this goal including, among others, its lack of experience and client relationships outside the mortgage sector, the existence of large, well-positioned competitors, and significant political, regulatory and economic uncertainties in Argentina. As a result, Banco Hipotecario cannot give any assurance that it will be successful in developing significant retail banking activities in the foreseeable future, if at all. If Banco Hipotecario is unable to effectively transition to a new and viable operating model, it cannot assure that it will be able to comply with its debt obligations.

Banco Hipotecario cannot assure that its business or diversification strategy will be successfully achieved to the extent it requires concurrence or approval of the Argentine government, with whom it has recently disagreed.

Banco Hipotecario faces significant challenges in seeking to develop its business plan through internal growth and therefore continuously explores the possibility of acquiring other banks or financial institutions or a significant portion of their assets and liabilities. The fast pace of change in the Argentine financial system may require Banco Hipotecario to take advantage of opportunities and make decisions on an expedited basis, which may prove difficult to accomplish given applicable regulatory requirements and the requirement that the Argentine government, as one of its shareholders, approve certain transactions. These acquisition opportunities may require Banco Hipotecario to incur additional debt or other direct or contingent liabilities, and its ability to incur such liabilities is limited. In addition, any such acquisitions would likely divert a

significant amount of its management's attention to the integration of these businesses into Banco Hipotecario's current operations.

Table of Contents

The Argentine government, one of Banco Hipotecario's major shareholders, has a golden share, meaning that it has an effective veto in respect of transactions involving any merger Banco Hipotecario may contemplate in the future. The Argentine government has also disagreed with Banco Hipotecario over other issues, such as board compensation. If we, as shareholders, are not able to receive government support to successfully implement new business strategies, Banco Hipotecario's financial condition may be adversely affected.

The Argentine government may prevail in all matters to be decided at a general shareholders meeting.

According to the Privatization Law, there are no restrictions on the ability of the Argentine government to dispose of its Class A shares, and all but one of such shares could be sold to third parties in a public offering. Banco Hipotecario's bylaws provide that if at any time the Class A shares represent less than 42% of its aggregate voting stock, Class D shares will automatically lose their triple voting rights. If this were to occur and if the Argentine government retained a sufficient number of Class A shares, the government would prevail in general shareholder meetings (except for certain decisions that require qualified majorities) and exercise effective control over the decisions to be submitted to the consideration of such meetings.

Banco Hipotecario operates in a highly regulated environment and its operations are subject to regulations adopted, and measures taken, by the Argentine Central Bank, the Comisión Nacional de Valores and other regulatory agencies.

Financial institutions are subject to significant regulation historically entrusted to the Argentine Central Bank and other regulatory authorities. Measures adopted by the Argentine Central Bank have had and may continue to have a material adverse effects on Banco Hipotecario's financial condition and results of operations. On July 25, 2003, the Argentine Central Bank announced its intention to adopt new capital adequacy requirements, effective as of January 2004 that it will implement gradually through 2009. In addition, the International Monetary Fund and other multilateral agencies have been encouraging the Argentine government to impose minimum capital adequacy, solvency and liquidity requirements consistent with international standards, which could impose operating restrictions on Banco Hipotecario.

Similarly, the Comisión Nacional de Valores, which regulates the public markets in Argentina, has authority to impose sanctions on Banco Hipotecario and its board of directors for breaches of corporate governance and market regulatory standards.

Laws and decrees implemented during the outburst of the economic crisis in 2002 had substantially altered contractual obligations. Recently, various initiatives have been presented to Congress intended to reduce or eliminate a portion of its mortgage loan portfolio on the debt owed to Banco Hipotecario. Also, there were initiatives intended to review the terms pursuant to which Banco Hipotecario Nacional was privatized. As a result, we cannot assure you that the legislative branch will not enact new laws that will have a significant adverse effect on Banco Hipotecario's shareholders' equity or that, if this were to occur, the Argentine government would compensate Banco Hipotecario for the resulting loss.

Uncertainties affecting Banco Hipotecario's business could negatively affect the value of our investment.

Banco Hipotecario's financial condition and results of operations depend to a significant extent on macroeconomic and political conditions prevailing in Argentina. The political and economic crisis of late 2001 and early 2002 and the Argentine government's actions to address such crisis have had a significant adverse effect on Banco Hipotecario's business activity. Currently, Banco Hipotecario is highly dependent on the Argentine Government's ability to perform on its obligations owed to Banco Hipotecario and to the entire financial system in Argentina, in connection with Federal secured loans, federal government securities and its obligation to approve and deliver government securities under

various laws and regulations. As of June 30,

Table of Contents

2005, we owned 11.76% of Banco Hipotecario, and 5.22% of such ownership is through our subsidiary Ritelco S.A. The future outcome of the uncertainties described above could have an adverse effect on the value of our investment in Banco Hipotecario.

Banco Hipotecario's mortgage loan portfolio is not adequately indexed for inflation and any significant increase in inflation could have a material adverse effect on its financial condition.

In accordance with Emergency Decree 214/02 and its implementing regulations, pesified assets and liabilities were adjusted for inflation as of February 3, 2002 by application of the CER. On May 6, 2002, the executive branch issued a decree providing that mortgages originally denominated in U.S. Dollars and converted into Pesos pursuant to Decree No. 214/2002 on property constituting a borrower's dwelling may be adjusted for inflation only pursuant to CVS index, which during 2002 was significantly less than inflation as measured by the wholesale price index. Through December 31, 2002, the wholesale price index and the CVS posted cumulative increases of 118.2% and 0.2%, respectively, and the CER increased 41.4%. During 2003, inflation rose by 4.3% as measured by the wholesale price index, 3.7% as measured by the CER and 15.8% as measured by the CVS. As a result, only 10% of Banco Hipotecario's mortgage loans were adjusted for inflation in accordance with the CER, 30% were adjusted in accordance with the CVS and 60% remain entirely unindexed. Additionally, Law No. 25,796 Section 1, effective April 1, 2004, eliminated the use of the CVS as an indexation mechanism, as applied to the relevant portion of Banco Hipotecario's mortgage loans. The CVS increased until its repeal by 5.3%, whereas the increase in CER was 5.5% as of December 31, 2004 and the wholesale price index increased by 7.9%. Argentina's history prior to the adoption of the Convertibility Law raises serious doubts as to the ability of the Argentine government to maintain a strict monetary policy and control inflation. As a result of the high inflation in Argentina in 2002 and 2003, Banco Hipotecario's mortgage loan portfolio experienced significant erosion in value. If inflation were to increase significantly once again, it might continue to materially erode value. Accordingly, an increase in Banco Hipotecario's funding and other costs due to inflation might not be offset by indexation which could adversely affect its liquidity and results of operations.

If Banco Hipotecario's ratio of non-performing loans increases significantly, Banco Hipotecario's operations results could be materially adversely affected.

Banco Hipotecario has traditionally been an active lender to individuals in the middle and lower-middle income segment of the population. The quality of Banco Hipotecario's loan portfolio to such individuals is highly dependent on household income. In 2000, Banco Hipotecario established a Ps.550.2 million provision for loan losses in an effort to rectify recurring asset quality problems in its pre-1991 loans (and in certain post-1991 loans). The overall asset quality of Banco Hipotecario's mortgage loan portfolio has been materially and adversely affected by the Argentine crisis of 2002 and 2003 and its aftermath. According to INDEC the official unemployment rate was 12.1% in the second quarter of 2005, and household disposable income decreased significantly as a result of continuing high inflation rates. As of June 30, 2005, Banco Hipotecario's non-performing mortgage loans represented 10.1% of its total loan portfolio compared to 11.3% as of December 31, 2004. Should political and macroeconomic uncertainties persist, including further high levels of inflation, such circumstances might lead to continuing increases in the level of Banco Hipotecario's non-performing loan portfolio, provisions for loan losses and charge-offs, all of which would have a substantial adverse effect on its financial condition and results of operations.

Banco Hipotecario's ability to foreclose on mortgaged collateral has been materially impaired.

Like other mortgage lenders, the ability to foreclose on mortgaged collateral to recover delinquent mortgage loans is very important in conducting a business. In February 2002, the Argentine government amended Argentina's Bankruptcy Law, suspending bankruptcies and foreclosures on real estate that constitutes the debtor's primary residence, initially for a six-month period and subsequently extended until November 14, 2002. By agreement reached between the Argentine Banking Association and the Argentine government, Banco Hipotecario and other large financial institutions voluntarily agreed to continue the suspension of

Table of Contents

bankruptcy and foreclosure proceedings due to the likelihood of significant social and political resistance to any collection efforts, particularly in light of social protests at the time directed at commercial banks. Moreover, on June 2, 2003, the Congress passed a law formally suspending Banco Hipotecario's ability to foreclose on mortgaged properties for a term of ninety days (ending on November 14, 2003), reinstating the earlier formal suspension on foreclosures.

Moreover, on January 17, 2005, the Province of Buenos Aires enacted Law No. 13,302 suspending foreclosures on real estate that constitutes the debtor's primary dwelling within the territory of such province for a period of 180 days, provided that the current tax value of such real estate does not exceed Ps.90,000. This limitation of Law No. 13,302 has expired. Furthermore, this provincial law establishes that the above mentioned foreclosure suspension on the debtor's primary dwelling will be extended to one year for unemployed borrowers, as of the date of enactment of that law.

Law No. 25,798 enacted on November 5, 2003 and regulated by Decrees No. 1284/2003 and No. 352/2004, among others, sets forth a system to refinance delinquent mortgage loans in order to prevent foreclosures of the housing units constituting the only dwelling of debtors (the Mortgage Refinancing System). The system comprises both delinquent debtors in the financial system and those outside the financial system. Financial institutions are free to participate in the system, and should they decide to do so, they may refinance their mortgage loan portfolio eligible for foreclosure either in whole or in part. Pursuant to Law No. 25,798, a trust is created whose assets are composed of financial resources to be contributed by the Argentine government and the income derived from the amortization installments of refinanced loans. Banco de la Nación Argentina, in its capacity as Trustee of the trust, enters into refinancing agreements with the debtors under the following terms: a grace period of one year and amortization in monthly installments not to exceed 30% of the aggregate income of the family living in such housing unit. Banco de la Nación Argentina will then issue bonds that shall be delivered in lieu of payment to mortgagees and will subrogate the mortgagees' rights with regards to the debtors. The amounts to be refinanced may not exceed the appraisal value of the secured real property, after deduction of debts for taxes and maintenance expenses. The trust shall pay the mortgagee institutions only the amount corresponding to overdue defaulted principal and with regards to the outstanding debt, Banco de la Nación Argentina shall repay principal plus interest and adjustments according to the terms and conditions of the original mortgage loan agreement. Financial institutions were given a period that expired on June 22, 2004 to express their decision to participate in the this Mortgage Refinancing System. This period was extended twice first by Decree No. 352/2004 and then by Law No. 26,062 effective as of November 4, 2005. The latter not only extends the term 120 days as from the day of its publication but also suspends foreclosure proceedings for the same period.

We cannot assure you that laws and regulations related to foreclosure on real estate will not continue to change in the future or that any changes will not adversely affect Banco Hipotecario's business, financial condition or result of operations.

Banco Hipotecario's mortgage loan portfolio was materially and adversely affected by the devaluation of the Peso and may be further impacted by future fluctuations in exchange rates.

While the one-to-one Peso-U.S. Dollar parity was in effect, Banco Hipotecario had no exchange rate risk with respect to its Peso-denominated revenues. However, its repeal on January 7, 2002 and the subsequent devaluation of the Peso have had the effect of significantly reducing its shareholders' equity and Banco Hipotecario's net income. This is also a consequence of the mismatch between Banco Hipotecario's Peso-denominated revenues and its significant U.S. Dollar obligations, particularly in light of the pesification of its U.S. Dollar-denominated mortgage loans described below. On January 11, 2002, the Peso began to float freely for the first time in eleven years trading at Ps.1.40 = US\$1.00; however, the Peso has devalued significantly, trading as low as Ps.3.90 = US\$1.00 in June 2002, as reported by Banco de la Nación Argentina. Since then, the value of the Peso has begun to recover and on November 30, 2005, the exchange rate as reported by Banco de la Nación Argentina was approximately Ps.2.96 = US\$1.00.

Table of Contents

Beginning on February 3, 2002, the Argentine government converted (i) certain foreign currency-denominated debts into Peso-denominated debts at a one-to-one exchange rate, (ii) certain foreign currency-denominated public sector debts into Peso-denominated assets at an exchange rate of Ps.1.40 per US\$1.00 and (iii) foreign currency-denominated bank deposits into Peso-denominated bank deposits at an exchange rate of Ps.1.40 per US\$1.00. As a result, 100% of Banco Hipotecario's mortgage loans denominated in foreign currency were converted to Pesos at a one-to-one exchange rate and 100% of the Argentine government securities Banco Hipotecario held, including federal, provincial and municipal bonds, were converted to Pesos at an exchange rate of Ps.1.40 per US\$1.00. On the other hand, less than 8% of its liabilities denominated in foreign currency were converted to Pesos at an exchange rate of Ps.1.40 per US\$1.00, and the remainder of its liabilities remained denominated in foreign currency.

Due to the fact that Banco Hipotecario's loan portfolio now generates interest income only in Pesos, any further devaluation of the Peso against the U.S. Dollar or the Euro will further impair its ability to make payments on its liabilities denominated in such currencies. Moreover, although the Argentine government has issued National Government Compensating Bonds (BODEN), notes that are intended to compensate Banco Hipotecario in part for its losses resulting from pesification, Banco Hipotecario cannot assure us that the Argentine government will honor its obligations to deliver the additional BODEN to which Banco Hipotecario is entitled, or that any BODEN it may receive will be sufficient to compensate adequately for the harm caused by the asymmetric pesification of its assets and liabilities. Additionally, Banco Hipotecario cannot assure us that future exchange rate policies to be implemented by the Argentine government will not further affect its financial condition and the results of its operations; and if such were the case, Banco Hipotecario cannot ensure that the Argentine government will compensate such differences nor up to which amount.

Due to interest rate and currency mismatches of Banco Hipotecario's assets and liabilities, Banco Hipotecario has significant currency exposure.

The asymmetric pesification of Banco Hipotecario's assets and liabilities created a significant currency inconsistency between Banco Hipotecario's pesified loans and non-pesified debt denominated in foreign currencies. On September 16, 2002, Banco Hipotecario requested the Argentine government to deliver US\$418.5 million U.S. Dollar-denominated BODEN issued as compensation for the negative effects of pesification. Further, Banco Hipotecario has elected to acquire US\$ 812.2 million additional BODEN to eliminate this currency inconsistency. In April 2005, Banco Hipotecario made a new filing of the calculation of compensations in response to the Argentine Central Bank's objections and requested amendments to its original request, requiring US\$ 374.7 million of BODEN as compensation for the pesification and an additional US\$ 845.7 million of BODEN to eliminate the currency inconsistency. To the extent domestic inflation exceeds the rate of devaluation of the Peso against the U.S. Dollar, the value of Banco Hipotecario's BODEN holdings will erode. Moreover, the BODEN are long-term bonds denominated in U.S. Dollars that currently bear interest at a rate equal to six-month LIBOR, while their plan to purchase additional BODEN with Central Bank advances adjusted by CER that bear interest at a rate of 2%.

As of June 30, 2005 and at December 31, 2004, Banco Hipotecario's foreign currency-denominated assets exceeded its foreign currency denominated liabilities by US\$ 350.4 million and US\$ 350 million, respectively. Substantially all of Banco Hipotecario's foreign currency assets consist of dollar-denominated BODEN, but Banco Hipotecario's liabilities in foreign currencies are denominated in both U.S. Dollars and Euros. This currency gap exposes Banco Hipotecario to risk of exchange rate volatility which would negatively affect Banco Hipotecario's financial results if the U.S. Dollar were to depreciate against the Peso and/or the Euro. We cannot assure you that the U.S. Dollar will not depreciate against the Peso or that we will not be adversely affected by Banco Hipotecario's exposure to risks of exchange rate fluctuations.

Table of Contents

Because of Banco Hipotecario's large holdings of BODEN and guaranteed government loans, Banco Hipotecario has significant exposure to the Argentine public sector.

On June 1, 2002, the Argentine government announced that it would issue BODEN to compensate financial institutions for the adverse effects of pesification. Accordingly, on September 16, 2002, Banco Hipotecario notified the Argentine Central Bank its option to (i) receive US\$418.5 million in U.S. Dollar-denominated BODEN, as compensation for the pesification of certain of its assets and liabilities at different exchange rates, and (ii) purchase US\$812.2 million in additional U.S. Dollar-denominated BODEN, as compensation for the currency inconsistency between Banco Hipotecario's non-pesified liabilities and pesified assets. [In April 2005, Banco Hipotecario filed a recalculation of compensation in response to the Argentine Central Bank's objections and requests for amendments to Banco Hipotecario's original calculation, requiring US\$ 374.7 million of BODEN in U.S. Dollars issued as compensation for the pesification and an additional US\$ 845.7 million of BODEN designed to eliminate the currency mismatch]. On June 30, 2005, Banco Hipotecario had received approximately US\$356.0 million of BODEN issued as compensation for the pesification, but no BODEN was issued to eliminate the currency asymmetry. As a result, including the additional BODEN that Banco Hipotecario expects to acquire (recorded at nominal value), as of June 30, 2005 Banco Hipotecario's holdings of Argentine government securities and loans to the Argentine government represented approximately 53.8% of Banco Hipotecario's total assets.

On December 23, 2001, the Argentine government declared the suspension of payments on most of its sovereign debt, which as of December 31, 2001 totaled approximately US\$144.5 billion a substantial portion of which was restructured by the issuance of new bonds in mid-2005. Additionally, the Argentine government has incurred, and is expected to continue to incur, significant new debt obligations, including the issuance of compensatory bonds to financial institutions. Given Banco Hipotecario's BODEN holdings, Banco Hipotecario has a significant exposure to the Argentine government's solvency. Further, defaults by the Argentine government on its debt obligations, including the BODEN and other government securities (such as the guaranteed government loans) held by Banco Hipotecario, would materially and adversely affect its financial condition which would in turn affect our investment.

Banco Hipotecario faces potential material litigation which could adversely affect its financial condition and results of operations.

On May 31, 2005, approximately 3,894 borrowers of pre-1991 loans had initiated legal proceedings against Banco Hipotecario, alleging that the write-downs performed on the balance of such loans have been insufficient and did not comply with the Privatization Law. As of that date those loans had an aggregate outstanding balance of approximately Ps.87 million. If Banco Hipotecario does not prevail in these proceedings or settles the claims, or if more borrowers bring similar claims against them, Banco Hipotecario may need to effect substantial write-downs on the affected loans. The majority of the borrowers involved in this litigation have obtained a preliminary injunction ordering Banco Hipotecario to charge a lower service of capital and interest with respect to the amount previously determined. Banco Hipotecario can not assure you that additional borrowers will not bring similar lawsuits against them, objecting to the adequacy of the write-down on balances under the Privatization law, nor that the courts will not issue other decisions against Banco Hipotecario such lawsuits. In the event that Banco Hipotecario loses this litigation, is unable to settle claims or more borrowers bring similar claims against it, they may be required to write-down significant amounts that they had previously capitalized. Any one or more of these events may materially and adversely affect Banco Hipotecario's business, financial condition or results of operations.

In May 2003, an Argentine court entered a judgment directing Banco Hipotecario to pay an amount that, at the date of the judgment, was approximately Ps.40 million in connection with a proceeding initiated by a private developer who received financing for the construction of certain projects. The developer alleged that Banco Hipotecario breached certain of the original conditions of the loan agreement, including failure to make funds available. Banco Hipotecario currently faces other similar claims by other private developers or construction companies that involve approximately Ps.300 million in the aggregate. Although Banco

Table of Contents

Hipotecario has appealed the May 2003 judgment and believes that its appeal may be successful, the possible confirmation of the judgment and/or eventual extension of the ruling to other proceedings could materially adversely impact Banco Hipotecario's financial condition and results of operations.

In addition, an Argentine social security agency has filed suit seeking summary judgment against Banco Hipotecario alleging that it owes Ps.335 million in employer contributions to the pension plan that were not made by Banco Hipotecario's predecessor, Banco Hipotecario. This claim has been dismissed in a judgment entered by the lower court. Although the plaintiff has filed an appeal, Banco Hipotecario considers that the Privatization Law under which it was privatized clearly precludes them from being liable for these payments and establishes that this is an exclusive obligation of the Argentine government. Nonetheless, a court may rule against Banco Hipotecario and this may have a material adverse effect on its financial condition and results of operations.

A number of lawsuits filed against Banco Hipotecario by certain holders of their bonds could adversely affect Banco Hipotecario's liquidity.

In the course of the last two years Banco Hipotecario has been sued in Argentine courts by individual bondholders seeking summary judgments (*juicios ejecutivos*) based on Banco Hipotecario's defaulted payment of amounts due on their notes issued prior to their debt restructuring. In each of these lawsuits, the lower courts had rendered a decision favorable to holders of Banco Hipotecario's existing notes. At the closing of Banco Hipotecario's exchange offer, existing bondholders, representing 5% of the principal amount subject to restructuring did not participate in the offering. Currently, approximately 3% of this debt remains outstanding. To the extent such bondholders initiate other lawsuits against Banco Hipotecario, Banco Hipotecario may be required to make additional payments to settle or satisfy possible adverse judgments which may adversely affect its liquidity.

Risks Related to the Global Depositary Shares and the Shares

Shares eligible for sale could adversely affect the price of our shares and Global Depositary Shares.

The market prices of our common shares and Global Depositary Shares could decline as a result of sales by our existing shareholders of common shares or Global Depositary Shares in the market, or the perception that these sales could occur. These sales also might make it difficult for us to sell equity securities in the future at a time and at a price that we deem appropriate.

The Global Depositary Shares are freely transferable under U.S. securities laws, including shares sold to our affiliates. Cresud, which as of November 30, 2005 owns approximately 21.4% of our common shares (or approximately 77,850,702 common shares which may be exchanged for an aggregate of 7,785,070.2 Global Depositary Shares), are free to dispose of any or all of its common shares or Global Depositary Shares at any time in its discretion. Sales of a large number of our common shares and/or Global Depositary Shares would likely have an adverse effect on the market price of our common shares and the Global Depositary Shares. Different Corporate Disclosure and Accounting Standards.

We are subject to certain different corporate disclosure requirements and accounting standards than domestic issuers of listed securities in the United States.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

There is less publicly available information about the issuers of securities listed on the Bolsa de Comercio de Buenos Aires than information publicly available about domestic issuers of listed securities in the United States and certain other countries. In addition, all listed Argentine companies must prepare their financial statements in accordance with Argentine GAAP which differs in certain significant respects from U.S. GAAP. For this and other reasons, the presentation of Argentine financial statements and reported earnings may differ from that of companies in other countries in this and other respects.

Table of Contents

We are exempted from the rules under the Exchange Act prescribing the furnishing and content of proxy statements, and our officers, directors and principal shareholders are exempted from the reporting and short-swing profit recovery provisions contained in Section 16 of the Exchange Act.

Investors may not be able to effect service of process within the U.S., limiting their recovery of any foreign judgment.

We are a publicly held corporation (*sociedad anónima*) organized under the laws of Argentina. Most of our directors and our senior managers, and most of our assets are located in Argentina. As a result, it may not be possible for investors to effect service of process within the United States upon us or such persons or to enforce against them in United States courts judgments obtained in such courts predicated upon the civil liability provisions of the United States federal securities laws. We have been advised by our Argentine counsel, Zang, Bergel & Viñes, that there is doubt as to whether the Argentine courts will enforce to the same extent and in as timely a manner as a U.S. or foreign court, an action predicated solely upon the civil liability provisions of the United States federal securities laws or other foreign regulations brought against such persons or against us.

If we are considered to be a passive foreign investment company for United States federal income tax purposes, United States holders of our equity securities would suffer negative consequences.

The Company has not made a determination as to whether it is, or may be, a passive foreign investment company (PFIC), for United States federal income tax purposes for the fiscal year ending June 30, 2005. Because the determination of whether we are a PFIC is an annual determination based upon the composition of our assets and income, it is possible that we may be a PFIC in the current year or that we may become a PFIC in the future. The volatility and instability of Argentina's economic and financial system may substantially affect the composition of our income and assets. If we are or become a PFIC, United States holders of our shares or Global Depositary Shares will be subject to certain United States federal income tax rules which will have negative consequences on them such as additional tax and an interest charge upon certain distributions or upon sales or other disposition of our shares or Global Depositary Shares at a gain, as well as reporting requirements. See Item 10.E United States Taxation Passive Foreign Investment Company Rules for a more detailed discussion of the consequences of the Company being deemed a PFIC. Investors are urged to consult their tax advisors regarding the application of the PFIC rules to them.

ITEM 4. Information on the Company

A. History and Development of the Company

General Information

Our legal name is IRSA Inversiones y Representaciones Sociedad Anónima. We were incorporated and organized on April 30, 1943 under Argentine law as a sociedad anónima (stock corporation), and we were registered with the Public Registry of Commerce of the City of Buenos Aires (*Inspección General de Justicia* or IGJ) on June 23, 1943 under number 284, on page 291, book 46 of volume A. Pursuant to our bylaws, our term of duration expires on April 5, 2043. Our shares are listed and traded on the Bolsa de Comercio de Buenos Aires and Global Depositary Shares representing our shares are listed on the New York Stock Exchange. Our principal executive offices are located at Bolívar 108, Buenos Aires (C1066AAD), Argentina. Our headquarters are located at Moreno 877, (C1091AAQ), Buenos Aires, Argentina. Our telephone is +54 (11) 4323-7400, and our website is www.irsa.com. Our Depositary Agent for the Global Depositary Shares in the United States is The Bank of New York whose address is P.O. Box 11258 Church Street Station, New York, New York 10286, and whose telephone is +1-610-312-5315.

Table of Contents

History

Since 1991, when our current management and certain international investors acquired substantially all of our capital stock, we have been actively engaged in diverse real estate activities in Argentina. Following our global public offering in December 1994, we developed our real estate activities in the office rental market by acquiring three office towers located in prime office zones of Buenos Aires: Libertador 498, Maipú 1300 and Madero 1020.

Since 1996, through our subsidiary APSA, we expanded our real estate activities into the shopping center segment. As of June, 30, 2005, we had a controlling interest in a portfolio of nine shopping centers: Paseo Alcorta, Alto Palermo Shopping, Buenos Aires Design, Alto Avellaneda, Alto Noa Shopping, Abasto, Patio Bullrich, Mendoza Plaza Shopping and Alto Rosario Shopping. Since 1996, we also entered into the residential real estate market through the development and construction of multi-tower apartment complexes in the City of Buenos Aires and through the development of private residential communities in greater Buenos Aires.

In 1997, we entered the hotel market through the acquisition of a 50% interest in the Llao Llao Hotel near Bariloche and the Intercontinental Hotel in the City of Buenos Aires. In 1998, we also acquired the Sheraton Libertador Hotel in the City of Buenos Aires and subsequently sold a 20% interest to an affiliate of Sheraton Hotels.

In September 2002, we acquired the Piscis Hotel located in Valle de Las Leñas, an important ski resort in Argentina, for US\$ 1.4 million. During that month, we also acquired 30.9% of the share ownership of Valle de Las Leñas S.A. and US\$ 3.7 million convertible notes due October 31, 2005, issued by that company, for US\$ 2.4 million. Valle de Las Leñas S.A. is the operator of the ski resort. In March 2003, we sold the Piscis Hotel and our stake in Valle de Las Leñas S.A. for a total consideration of US\$ 7.7 million.

On October 15, 2002, we initiated a preemptive rights offering for 100 million units consisting of US\$ 100.0 million of 8% convertible notes (the Convertible Notes) due 2007 and non-detachable warrants to purchase shares of our common stock. The Convertible Notes may be converted into shares of our common stock after December 13, 2002, and until maturity on November 14, 2007, at the initial conversion price of US\$ 0.5450 per common share. Each warrant will be exercisable on or after conversion of the convertible note to which it is attached at the same conversion price plus a 20% premium (US\$ 0.6541). The rights offering to holders of our common shares and Global Depositary Shares expired on November 13, 2002. Existing shareholders have subscribed through the exercise of their preemptive rights for US\$ 66.7 million and they have exercised their accretion rights for US\$ 10.7 million, adding together US\$ 77.4 million. During the allocation of the remainder, new investors have subscribed the remaining 22.6 million units completing the US\$ 100 million offering.

During fiscal years 2003, 2004 and 2005, certain holders of our Convertible Notes, for a total amount of US\$ 41.5 million, exercised their conversion rights and, as a result, we issued 12,531 shares, 23,734,388 shares and 52,448,952 shares of common stock, respectively. At June 30, 2005 the outstanding balance of our Convertible Notes amounted to US\$ 58.5 million. Subsequent to 2005 fiscal year-end, we issued 2,738,039 shares as a result of the conversion of US\$ 1,492,234 of our Convertible Notes. As of November 30, 2005 the outstanding balance of our Convertible Notes amounts to US\$ 57.0 million.

In addition, during fiscal years 2004 and 2005, we issued 13.1 million shares and 56.0 million shares of common stock in exchange for US\$ 8.5 million and US\$ 36.6 million in cash, respectively, as a result of the exercise of warrants. At November 30, 2005 the number of outstanding warrants amounts to 57.8 million.

During fiscal year 2004 we increased our ownership interest in Banco Hipotecario. For details, see Note 2.f. to our Consolidated Financial Statements. As a result of this transaction and considering the exercise of significant influence and the intention to maintain the participation in Banco Hipotecario as a long-term

Table of Contents

investment, during fiscal year 2004 we changed the accounting method for our investment in Banco Hipotecario from fair market value to the equity method. For details on the accounting for this accounting change under Argentine GAAP and US GAAP see Notes 3.c. and 23.I (a) to our Consolidated Financial Statements, respectively.

On September 29, 2004 we entered, through our subsidiary APSA, into a purchase agreement pursuant to which we acquired an additional 49.9% ownership interest in Mendoza Plaza Shopping S.A. (formerly Pérez Cuesta S.A.C.I.) for US\$ 5.3 million. Through this acquisition, we became holders of 68.8% of the capital stock of Mendoza Plaza Shopping S.A., the main activity of which is the exploitation of the Mendoza Plaza Shopping S.A. center in the City of Mendoza. In addition, in May 2005 our ownership interest in Mendoza Plaza Shopping S.A. increased to 85.4% as a result of a capital increase made by Mendoza Plaza Shopping S.A. through the conversion of debt owed to APSA. For details, see Note 2.f to our Consolidated Financial Statements. As a result of gaining control, the results of operations of Mendoza Plaza Shopping S.A. were included in the consolidated statement of income from October 1, 2004.

On November 9, 2004 APSA opened Alto Rosario Shopping, with 99% of the units already leased. The first stage required an investment of approximately Ps. 55 million, which was fully financed with our cash flows from operations.

On November 30, 2004, we purchased from GSEM/AP Holdings LP (GSEM/AP), a wholly-owned subsidiary of Goldman Sachs, 3,061,450 units of APSA's Convertible Notes with a nominal value of US\$ 1 per note and 4,458,080 shares of APSA, for a total consideration of US\$ 15.3 million. At the same time, in accordance with the shareholders agreement entered into with Parque Arauco S.A., we sold to Parque Arauco S.A. 1,004,866 units of APSA's Convertible Notes and 1,463,284 shares at the same price paid to GSEM/AP, totaling US\$ 5.1 million. As a result of this transaction, our ownership interest in APSA increased from 53.81% to 60.69%.

During fiscal year 2005 our offices continued showing an important recovery both in respect of rooms occupied and rental prices. The excellent prospects of this business have pushed us to make an important investment in this segment by acquiring Bouchard 710, covering 15,014 square meters of rentable premium surface, for a total purchase price of US\$ 24.6 million plus acquisition cost of US\$ 0.5 million. We intend to construct a building at Dock IV of Puerto Madero, which will have approximately 14,100 square meters of rentable surface.

Capital Expenditures

During the fiscal year ended June 30, 2005, we had capital expenditures of Ps. 114.9 million. We made investments in fixed assets of Ps. 79.3 million, primarily in shopping centers totaling Ps. 50.9 million and in the acquisition of Bouchard 710 for Ps. 20.4 million. We also made investments in our subsidiaries of Ps. 4.2 million for the acquisition of the additional ownership in Mendoza Plaza Shopping and Ps. 30.8 million for the increase in our ownership interest in APSA. We also invested Ps. 0.7 million in undeveloped parcels of land.

During the fiscal year ended June 30, 2004 we had capital expenditures of Ps. 97.2 million. We made a net investment in our equity investee Banco Hipotecario of Ps. 70.3 million. We also made investments in fixed assets of Ps. 26.4 million primarily in shopping centers of Ps. 21.7 million and in the Llao Llao Hotel of Ps. 3.3 million. We also invested Ps. 0.6 million in undeveloped parcels of land.

During the fiscal year ended June 30, 2003 we had capital expenditures of Ps. 42.7 million. We made investments in our subsidiaries of Ps. 31.7 million primarily in APSA. We also made investments in fixed assets of Ps. 10.8 million, primarily in the segments of shopping centers and hotels. In addition, we made investments in undeveloped parcels of land of Ps. 0.2 million.

Table of Contents

We believe our assets have potential for growth. Our level of indebtedness, most of which is long-term, and the cash proceeds from the exercise of warrants attached to our convertible debt, places us in a good position to finance new projects and seek expansion opportunities.

B. Business Overview

Operations and Principal Activities

We are one of Argentina's leading real estate companies. We are engaged directly, or indirectly through subsidiaries and joint ventures in a range of real estate activities in Argentina.

Our principal activities consist of:

the acquisition and development of residential properties primarily for sale;

the acquisition, development and operation of office and other non-shopping center retail properties primarily for rental purposes;

the acquisition, development and operation of shopping center properties;

the acquisition and operation of luxury hotels; and

the acquisition of undeveloped land reserves for future development or sale.

Overview of properties

As of June 30, 2005, we, either directly or through our subsidiaries and joint ventures, owned significant interests in a portfolio of 53 properties in Argentina, located principally in Buenos Aires. The following table sets forth certain information concerning our operation and property portfolio.

Consolidated Operating Income

Offices and other non-shopping center leased properties

We are engaged in the acquisition, development and management of offices and other non-shopping center leased properties in Argentina. As of June 30, 2005, we, directly and indirectly owned interests in 22 office and other non-shopping center rental properties in Argentina that comprised 177,800 square meters of gross leasable area. Of these properties, 15 were office properties that comprised 98,199 square meters of gross leasable area. For the fiscal year 2005, we had net revenues from office and other non-shopping center rental properties of Ps.19.4 million.

Most of our office rental properties in Argentina are located in the City of Buenos Aires. All of these properties are rented to various different premium tenants. For the year ended June 30, 2005, the average occupancy rate for all our properties in the Offices and other non-shopping center rental property segment was approximately 94 %. Seven different tenants accounted for approximately 31.84 % of our monthly office rental and 24.20 % of our total revenues for the fiscal year 2005. Our seven main office rental tenants are: Grupo Total Austral, Unilever

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Argentina S.A., Procter & Gamble S.C., Finterbusch Pickenhayn Sibille S.C. (KPMG), Microsoft Argentina S.A., Grupo Danone and Vintage Oil Argentina.

Administration and Management. We generally act as the managing agent of the office properties in which we own an interest. These interests consist primarily of the ownership of entire buildings or a substantial number of floors in a building. The buildings in which we own floors are generally managed pursuant to the terms of a condominium agreement that typically provides for control by a simple majority of the interests (based on the area owned) in the building. As the managing agent of operations, we are responsible for handling services, such as security, maintenance and housekeeping. These services are generally contracted to third party providers. The cost of the services are passed-through and paid for by the tenants, except in the case of our unrented units, in which case we absorb the cost. Our leasable space is marketed through commissioned brokers, the media and directly by us.

Table of Contents

Leases. We lease our offices and other properties pursuant to contracts with terms of three years, with the exception of a few contracts with terms of five years. These contracts are renewable for two or three additional years at the tenant's option. Contracts for the rental of property not located in shopping malls are generally stated in U.S. Dollars, and in accordance with Argentine law they are not subject to inflation adjustment. Rental rates for renewed periods are negotiated at market value.

The following table sets forth certain information regarding our direct and indirect ownership interest in offices and other non-shopping center rental properties.

⁽¹⁾ Calculated dividing annual rents per gross leasable area of offices according to our interest in each building.

Table of Contents

- (2) Lease commenced during the fourth quarter of fiscal year 2005.
- (3) Leases commenced during first quarter fiscal year 2002.
- (4) Fiscal years 2005, 2004 and 2003 includes the following properties: Madero 942, Av. de Mayo 595, Av. Libertador 602, Sarmiento 517 and Rivadavia 2768.

Properties. Set forth below you will find information regarding our principal currently owned office properties, including the names of the tenants occupying 5% or more of the gross leasable area of each property.

Intercontinental Plaza, City of Buenos Aires. Intercontinental Plaza is a modern 24-story building located next to the Intercontinental Hotel in the historic neighborhood of Monserrat in downtown City of Buenos Aires. We own the entire building which has floors averaging 900 square meters. The principal tenants currently include Total Austral S.A., Danone Argentina S.A., Vintage Oil Argentina Inc. Sucursal Argentina, IRSA, APSA and Cresud.

Bouchard 710, City of Buenos Aires. Bouchard 710 is an office building located in the Retiro area, close to the intersection of avenues Leandro Alem and Córdoba. The building is a 12 story tower, with an average surface per floor of 1,251 square meters, with 180 units for car parking. Tenants are Unilever de Argentina S.A., Finterbusch Pickenhayn Sibille S.C. (KPMG), FST S.A. and Microsoft de Argentina S.A, which, in addition, rents the building billboard for an annual amount of US\$ 120,000.

Libertador 498, City of Buenos Aires. Libertador 498 is a 27-story office tower located at the intersection of Avenida 9 de Julio, Avenida del Libertador and Autopista Illia, three of the most important thoroughfares of the City of Buenos Aires, making it accessible from the north, west and south of the city. We own 17 floors with floor plans averaging 620 square meters. The building has a singular cylindrical design and a highly visible circular neon billboard that makes it a landmark in the Buenos Aires skyline. The principal tenants in this building currently include Voridiam Argentina S.R.L., MTV Networks Argentina S.R.L., Epsom Argentina S.A., Cervecería y Maltería Quilmes, Yara Argentina S.A., Farmanet S.A., Alfaro Abogados S.C. and Daimler Chrysler Argentina S.A., which leased the billboard for an annual rent of Ps. 120,000 through June 30, 2005.

Maipú 1300, City of Buenos Aires. Maipú 1300 is a 23-story office tower located on the San Martín Plaza, a prime office zone, on Avenida del Libertador, a major north-south thoroughfare. The building is also located within walking distance of the Retiro commuter train station, Buenos Aires most important public transportation hub, connecting rail, subway and bus transit. We own the entire building which has floor plans measuring 440 square meters on most floors. The building's principal tenants currently include Allende & Brea, Carlson Wagonlnt Travel Argentina S.A. and PPD Argentina S.A.

Laminar Plaza, City of Buenos Aires. Laminar Plaza is a 20-story office building located in Catalinas, the City of Buenos Aires most exclusive office district. Each floor plans measures 1,453 square meters, including common areas. We own 5 floors and 66 parking spaces. The main tenants, among others, are as follows: Cisco Systems, CRM Movicom, Chubb Argentina de Seguros S.A. and Bank Hapoalim B.M.

Madero 1020, City of Buenos Aires. Madero 1020 is a 25-story office tower located in the center of the Catalinas area, a prime office zone, with spectacular views of the Port of Buenos Aires, the Río de la Plata and down town Buenos Aires. As of June 30, 2004 we owned 2 non-contiguous floors averaging 572 square meters and 8 parking spaces. As of June 30, 2005 both floors were sold.

Table of Contents

Suipacha 652/64, City of Buenos Aires. Suipacha 652/64 is a 7-floor office building located in the office district of the City of Buenos Aires. We own the entire building which has floor plans that are unusually large, measuring 1,580 square meters on most floors. This property underwent substantial renovations shortly after we acquired the deed in 1991 to prepare the building for rental. The building's principal tenants currently include Procter & Gamble Interaméricas Inc., Monitor de Medios Publicitarios S.A., Organización de Servicios Director Empresarios (OSDE) and APSA's subsidiary, Tarshop S.A.

Reconquista 823/41, City of Buenos Aires. Reconquista 823/41 is a 15-story office tower located in the Catalinas area. We own the entire building which consists of 3 basements, 52 parking spaces and 15 floors of office space. The building has floors averaging 540 square meters each. This building is currently vacant.

Edificios Costeros Dock II, City of Buenos Aires. Costeros A and B are two 4-story buildings developed by us and located in the Puerto Madero area. We own the two buildings which have a gross leasable area of 6,399 square. In September 1999 we completed their construction and in April 2000 began to market the office spaces and 147 parking spaces. The main tenants of these properties are Leo Burnett Worldwide Invest. Inc., Reckitt Benckiser Argentina S.A., Red Alternativa S.A., Martina Di Trento, Loyalty Marketing Group S.A., Italcred S.A. and Somos Tres S.R.L.

Costeros Dock IV, City of Buenos Aires. On August 29, 2001 we purchased Section C of the office complex known as Puerto del Centro that includes buildings 5 and 6. The property is located at Pierina Daelessi street No. 340, over the East Side of Dock 4 of Puerto Madero and has approximately 5,500 square meters of gross leasable area and 50 parking spaces. The building's principal tenants currently include Nextel Argentina S.A., Consultora de Estudios Bonaerenses S.R.L., LG Electronics Argentina S.A., London Suply S.A.C.I.F.I., Deportes Peña S.A. and Petroenergy S.A.

Other office properties. We also have interests in three other office properties, all of which are located in the City of Buenos Aires. These properties are either entire buildings or portions of buildings none of which contributed more than Ps. 0.8 million in annual rental income for fiscal year 2005. Among these properties are Madero 942, Libertador 602, Av. De Mayo 595/599, Rivadavia 2768 and Sarmiento 517.

Retail and other properties. Our portfolio of rental properties includes nine rental properties that are leased as street retail, a warehouse and various other uses. Most of these properties are located in the City of Buenos Aires. These properties include Constitución 1111, Alsina 934, and Abril commercial stores

Shopping centers

We are also engaged in purchasing, developing and managing shopping centers through our subsidiary APSA. As of June 30, 2005, APSA operated and owned majority interests in nine shopping centers, five of which are located in the City of Buenos Aires, one shopping center in greater Buenos Aires and the rest in the cities of Salta, Rosario and Mendoza. During fiscal year 2005 APSA increased its ownership interest in Mendoza Plaza Shopping from 18.9% to 85.4%. In addition to purchasing, developing and managing shopping centers, APSA owns an 80% interest in Tarshop, a limited purpose credit card company which originates credit card accounts to promote sales from APSA's tenants and other selected retailers.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

APSA's shopping centers comprised a total of 214,487 square meters of gross leasable area (including Mendoza Plaza Shopping and excluding space occupied by hypermarkets which are not APSA's tenants) which accounts for approximately 52.27% of the gross leasable area in the City of Buenos Aires and 10.49% of the gross leasable area in greater Buenos Aires area. For the year ended June 30, 2005, the average occupancy rate of the shopping center portfolio was approximately 98.4%. For the fiscal year 2005, we had revenues from shopping centers of Ps. 165.5 million (excluding revenues from credit card operations).

Table of Contents

Management and administration. As a result of the acquisition of several shopping centers and of the corporate reorganization of APSA, we were able to reduce expenses by centralizing management of the shopping centers in APSA. As manager, APSA is responsible for providing common area electrical power, a main telephone switchboard, central air conditioning and other basic common area services.

As of June 30, 2005 we owned 60.69% of APSA. As of June 30, 2005, 29.6% of APSA's shares were held by Parque Arauco S.A. The remaining shares are held by the public and traded on the Bolsa de Comercio de Buenos Aires and on the Nasdaq Stock Market in the form of American Depositary Shares (NASDAQ symbol: APSA).

Leases. APSA enters into lease contracts for terms between three to ten years, with most leases having terms no longer than five years. APSA charges tenants a rent which consists of a specified percentage of the tenant's monthly gross sales in the store (the Percentage Rent) (which generally ranges between 4% and 8% of tenant's gross sales) with a minimum monthly base rent (the Base Rent). Pursuant to the rent escalation clause in most leases, a tenant's Base Rent generally increases between 4% and 7% each year during the term of the lease. Tenants are also required to pay for the expenses of their units, such as electricity, water, telephone and air conditioning, as well as their proportional common area expenses. These leases do not generally include renewal clauses.

In addition to rent, tenants are generally charged an admission right paid upon entering into a lease and upon lease renewal. The admission right is normally paid in one lump sum or in a small number of monthly installments. If the tenant pays in installments, it is the tenant's responsibility to pay for the balance of any such amount unpaid in the event the tenant terminates its lease prior to the expiration date. In the event of early termination, a tenant will not be refunded the admission right without APSA's consent.

⁽¹⁾ Annual revenues per gross leasable square meter reflect the sum of base rent, percentage rent and revenues from admission rights (excluding any applicable tax on sales) divided by gross leasable square meters.

Properties. Set forth below is information regarding our main shopping centers.

Alto Palermo Shopping, City of Buenos Aires. Alto Palermo Shopping is a 150-store shopping center that opened in 1990 and is located in the densely populated neighborhood of Palermo in the City of Buenos Aires. Alto Palermo Shopping is located at the intersection of Santa Fe and Coronel Díaz avenues, only a few minutes from downtown City of Buenos Aires and has nearby access from the Bulnes subway station. Alto Palermo Shopping has a total constructed area of 64,574 square meters that consists of 18,055 square meters of gross leasable area. The shopping center has a food court with 21 restaurants. Alto Palermo Shopping Center is spread out over four levels and has 647 parking spaces. Tenants in this shopping center generated average estimated monthly retail sales of approximately Ps. 1,667 per square meter for the fiscal year ended June 30, 2005. Principal tenants currently include Zara, Frávega, Garbarino, Just For Sport and Librerías Yenny.

Alto Avellaneda, Avellaneda, greater Buenos Aires area. Alto Avellaneda is a 152-store shopping center that opened in October 1995 and is located in the highly populated neighborhood known as Avellaneda, on the southern border of the City of Buenos Aires. Alto Avellaneda has a total constructed area of 97,655 square meters that includes 27,313 square meters of gross leasable area. Alto Avellaneda includes several anchor stores, a six-screen multiplex movie theatre, a Wal-Mart superstore, an entertainment area, a bowling alley, a 16 -restaurant food court and an outdoor parking lot. Wal-Mart purchased the space it now occupies. Tenants in this shopping center generated average estimated monthly retail sales of Ps. 788 per square meter for the fiscal year ended June 30, 2005. Principal tenants currently include Rodo, Bingo Avellaneda, Musimundo, Red Megatone and Compumundo.

Paseo Alcorta, City of Buenos Aires. Paseo Alcorta is a 116-store shopping center that opened in 1992 and is located in the residential neighborhood of Palermo Chico, one of the most exclusive areas in the City of Buenos Aires, within a short drive from downtown City of Buenos Aires. Paseo Alcorta has a total constructed area of approximately 54,728 square meters that consists of 14,821 square meters of gross leasable area. The three-level shopping center includes a four-screen multiplex movie theatre, a 16-restaurant food court, a Carrefour

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

hypermarket, and a free parking lot with approximately 1,300 parking spaces. Carrefour purchased the space it now occupies but it pays proportional expenses of the shopping center. Tenants in this shopping center generated average estimated monthly retail sales of Ps.1,196 per square meter for the fiscal year ended June 30, 2005. Principal tenants currently include Frávega, Rapsodia, Musimundo, Kartun and Prune.

Abasto Shopping, City of Buenos Aires. Abasto Shopping is a 175-store shopping center located in the City of Buenos Aires. Abasto Shopping is directly accessible from the Carlos Gardel subway station and is

Table of Contents

located six blocks from the Once railway terminal and a few blocks from the highway to Ezeiza International Airport. Abasto Shopping opened in November 1998. The principal building is a landmark building which during the period 1889 to 1984 operated as the primary fresh produce market for City of Buenos Aires. The property was converted into a 115,905 square meter shopping center, with approximately 39,329 square meters of gross leasable area. Abasto Shopping is located across from Torres de Abasto residential apartment development. The shopping center includes a food court with 23 restaurants covering an area of 5,600 square meters, a 12-screen multiplex movie theatre, entertainment facilities and the Museo de los Niños Abasto, a museum for children. Abasto Shopping is spread out over five levels and has a 2,500-car parking lot. Tenants in Abasto have generated estimated average monthly retail sales of Ps. 706 per square meter for the fiscal year ended June 30, 2005. Principal tenants currently include Rodo, Zara, Hoyts Cinemas, Frávega and Musimundo.

Patio Bullrich, City of Buenos Aires. Patio Bullrich is a 87-store shopping center located in Recoleta, a popular tourist zone in the City of Buenos Aires a short distance from the Caesar Park and Hyatt hotels. Patio Bullrich has a total constructed area of 28,211 square meters that consists of 10,780 square meters of gross leasable area. The four-story shopping center includes a 17-restaurant food court, an entertainment area, a six-screen multiplex movie theatre and a parking lot with 228 spaces. Tenants in Patio Bullrich have generated estimated average monthly retail sales of Ps. 1,309 per square meter for the fiscal year ended June 30, 2005. Principal tenants currently include Etiqueta Negra, Rapsodia, Christian Dior, Casa Lopez and Cacharel Damas.

Alto Noa, Salta, Province of Salta. Alto Noa is a 84-store shopping center located in the city of Salta, the capital of the province of Salta. The shopping center consists of 41,700 square meters of total constructed area that consists of 18,880 square meters of gross leasable area and includes a 13-restaurant food court, a large entertainment center, a supermarket, an eight-screen movie theatre and parking facilities for 551 cars. Tenants have generated estimated average monthly retail sales of Ps. 334 per square meter for the fiscal year ended June 30, 2005. Principal tenants currently include Supermercado Norte, Frávega, Slots, Repsol Y.P.F. and Hoyts General Cinema.

Buenos Aires Design, City of Buenos Aires. Buenos Aires Design Center is a 59-store shopping center intended for specialty interior, home decorating and restaurants that opened in 1993. APSA owns Buenos Aires Design through a 51% interest in Emprendimientos Recoleta, which owns the concession to operate the shopping center. Buenos Aires Design is located in Recoleta, one of the most popular neighborhoods in Buenos Aires for tourists. Buenos Aires Design has a total constructed area of 31,645 square meters that consists of 14,598 square meters of gross leasable area. The shopping center has 6 restaurants, is divided into two floors and has a 174-car parking lot. Tenants in this shopping have generated estimated average monthly retail sales of Ps. 425 per square meter for the fiscal year ended June 30, 2005. Principal tenants currently include Morph, Barugel Azulay, Hard Rock Café, Kalpakian and OKKO.

Alto Rosario, City of Rosario, Santa Fe. Alto Rosario is a shopping center of 144 stores, located in the City of Rosario, Province of Santa Fe. The shopping center has 105,809 square meters of fully covered surface, and 30,579 square meters of gross leasable area. It is a modern shopping inaugurated in November 2004 that targets the greater metropolitan area surrounding Rosario. This shopping center is devoted to clothing and entertainments. It includes a food patio with 20 stores, a children entertainment area, 14 movie theaters and a parking lot for 1,800 vehicles. The monthly average retail sale by tenants was Ps. 329 per square meter for fiscal year ended June 30, 2005. Its principal tenants are Frávega, C&A, Sport 78, Compumundo and Red Megatone.

Mendoza Plaza, City of Mendoza, Province of Mendoza. Mendoza Plaza is a 151-store shopping center located in the City of Mendoza in the Province of Mendoza. It consists of 40,133 square meters of gross leasable area. Mendoza Plaza has a multiplex movie theatre covering an area of approximately 3,515 square meters, the Chilean department store Falabella, a food court, an entertainment center and a supermarket.

Table of Contents

Tenants in this shopping center have generated estimated average monthly retail sales of Ps. 463 per square meter for the fiscal year 2005. During fiscal year 2005 we increased our indirect ownership in Mendoza Plaza Shopping S.A. from 18.9% to 85.4%. Its principal tenants currently include Falabella, Super Vea Plaza, Frávega, Garbarino and Village Cinemas.

Credit cards.

Tarshop S.A. On June 4, 1998, our subsidiary APSA acquired an 80% equity interest in Tarshop S.A. (Tarshop), for US\$ 7.3 million. Tarshop is a limited purpose credit card company engaged in credit card operations and is not affiliated to any bank and bears all of the credit and collection risk inherent in extending credit to its customers. APSA believes that the acquisition of Tarshop helps to improve the expansion range of our services not only to tenants but also to customers who are used to visiting our shopping centers. APSA certainly expects that said acquisition will be useful as a marketing and promotional tool to attract customers to our shopping centers.

As the Argentine economy is strengthening the upward economic trend, APSA faced increased competition from the banking sector, and recorded significant growth in our portfolio, our sales and our number of cardholders, while at the same time maintaining low delinquency rates. The improvement in credit quality of loans led to a notable drop in bad debt charges, which fell from Ps. 0.2 million at June 30, 2004 to just Ps. 1.3 million in the year ended June 30, 2005. Tarshop sales rose 115%, from Ps. 30 million in fiscal year 2004 to Ps. 64.6 million in fiscal year 2005. The increase in bad debt charges from Ps. 0.2 million in fiscal year 2004 to Ps. 1.3 million in fiscal year 2005 was due the sales expansion.

Our portfolio (including securitized receivables) has shown high growth. As of June 30, 2005 our portfolio amounted to Ps. 204.0 million as compared to Ps. 92.0 million as of June 30, 2004. This growth is also reflected in the increase in the number of monthly credit card statements delivered to customers, which rose 90% in the fiscal year ended June 30, 2005 as compared to the fiscal year ended June 30, 2004. In addition, during this fiscal year there was a strong improvement in the number of participating stores, which totaled 16,800 as of June 2005.

During fiscal year 2005, six new branches were inaugurated and an alliance with Metronec S.A. was accomplished. The issuance of Metroshop Shopping Card as an outcome of this alliance allowed Tarjeta Shopping access to the subway's network and all the other facilities.

Given the strength of this business unit and the future prospects for growth, APSA were able to place seven new issues under our Securitization Program for a total aggregate principal amount of Ps. 135.0 million in senior notes. As of June 30, 2005, our securitized portfolio amounted to Ps. 167.4 million aggregate principal amount. See Item 5.A. Operating and Financial Review and Prospects Loan Securitization Program

Net income rose sharply from 2.8 million for the fiscal year 2004 to 7.4 million for the fiscal year 2005 following the trend of the last years.

For the fiscal year ended June 30, 2005, Tarshop's total net revenues were Ps. 64.5 million, representing approximately 28.0% of our consolidated net revenues for such year.

Table of Contents

Development and sale of properties

Undeveloped parcels of land

Residential development properties

The acquisition and development of residential apartment complexes and residential communities for sale is one of our core activities. Our development of residential apartment complexes consists of the new construction of high-rise towers or the conversion and renovation of existing structures, such as factories and warehouses. In residential communities, we acquire vacant land, develop infrastructure such as roads, utilities and common areas, and sell plots of land for construction of single-family homes. We may also develop or sell portions of land for others to develop complementary facilities such as shopping areas within residential developments.

In fiscal year 2005 revenues from the sales and developments segment reached the sum of Ps. 32.3 million, compared to Ps. 30.3 million in fiscal year 2004. The local currency was stable during fiscal year 2005, there was a little appreciation taking the beginning and closing of 2005 as the baseline. The real estate business was bolstered by the increase in overall demand for real estate, whether office buildings, households, commercial stores and other. The current context provides incentives for the development of projects related to our real estate activity. Therefore, during fiscal year 2006 we purport to finish not only the projects but also to analyze new developments.

Construction and renovation works on our residential development properties are performed, under our supervision, by independent Argentine construction companies that are selected through a bidding process. We enter into turnkey contracts with the selected company for the construction of residential development properties pursuant to which the selected company agrees to build and deliver the development for a fixed price and at a fixed date. We are generally not responsible for any additional costs based upon the turnkey contract. All other aspects of the construction including architectural design are performed by third parties.

Prior to the commencement of construction of a residential project, we conduct an advertising program that continues after the launching of the sales of the units. In addition, we have showcased some of our renovation projects through Casa FOA, a highly visited fundraising exhibition where architects and designers display their work. This exhibition has wide public appeal and has been a successful marketing tool for us.

Table of Contents

Notes:

- (1) Cost of acquisition plus total investment made and/or planned if the project has not been completed, adjusted for inflation until 02/28/03.
- (2) Total area devoted to sales upon completion of the development or acquisition and before the sale of any of the units (including parking and storage spaces, but excluding common areas). In the case of Land Reserves the land area was considered.
- (3) Represents the total units or plots upon completion of the development or acquisition (excluding parking and storage spaces).
- (4) The percentage sold is calculated dividing the square meters sold by the total salable square meters.
- (5) Includes only the cumulative sales consolidated by the RT21 method and adjusted for inflation until 02/28/03.
- (6) Corresponds to the company's consolidated revenues. Excludes turnover tax deduction.
- (7) Cost of acquisition plus improvement, plus capitalized interest of properties consolidated in portfolio as of June 30, 2005, adjusted for inflation at 02/28/03, less allowance for impairment in value, plus recovery of allowances if corresponded.
- (8) Through APSA.
- (9) Through IBSA
- (10) Includes the following properties: Dorrego 1916 through IRSA, República de la India 2785 (fully sold), Arcos 2343 (fully sold), Fco. Lacroze 1732 (fully sold), Yermal 855 (fully sold), Pampa 2966 (fully sold) and J.M. Moreno 285 (fully sold) through Baldovinos and Alto Palermo Plaza (fully sold) through IBSA
- (11) Directly through IRSA and indirectly through IBSA.
- (12) Through Buenos Aires Trade & Finance Center S.A.
- (13) Includes the following land reserves: Torre Jardín IV, Constitución 1159, Padilla 902 and Terreno Pilar (through IRSA), Pontevedra, Mariano Acosta, Merlo, Intercontinental Plaza II (through IBSA) and Terrenos Alcorta, Neuquén, Rosario, Caballito, and the Coto project (through APSA).
- (14) Includes the following properties: Puerto Madero Dock 13 (through IRSA), Montevideo 1975 (Rosario) (fully sold) Sarmiento 517, Puerto Madero Dock 5, Puerto Madero Dock 6, Av. de Mayo 701, Rivadavia 2768 and Serrano 250 (fully sold through IRSA).
- (15) Through APSA.

⁽¹⁶⁾ Corresponds to the Sales and Developments business unit mentioned in Note [6] to the Consolidated Financial Statements.

⁽¹⁷⁾ Represents a change in the exposure criteria, which takes as inventories certain receivables for exchange.

Residential apartments

In the apartment building market, we acquire undeveloped properties strategically located in densely populated areas of the City of Buenos Aires, particularly properties located next to shopping centers and hypermarkets or those to be constructed. We then develop multi-building high-rise complexes targeted towards the middle-income market. These are equipped with modern comforts and services, such as open green areas, swimming pools, sports and recreation facilities and 24-hour security. In the loft buildings market, our strategy is to acquire old buildings no longer in use located in areas with a significant middle and upper-income population. The properties are then renovated into unfinished lofts allowing buyers the opportunity to design and decorate them according to their preferences.

Torres Jardín, City of Buenos Aires. Torres Jardín is a high-rise residential complex located in the Buenos Aires neighborhood of Villa Crespo, five minutes from Abasto Shopping. The project originally included four 23-story towers targeted to the middle-income market, however, we decided not to construct Torres Jardín IV. Torres Jardín I, II and III have been completed and consist of 490 one, two and three bedroom residential apartments. The complex also includes 295 spaces of underground parking. As of June 30, 2005 there are only one apartment and 37 parking spaces remain available for sale.

Torres de Abasto, City of Buenos Aires. Torres de Abasto is a 545-apartment high-rise residential apartment complex developed through APSA, located one block from Abasto Shopping. The project consists of three 28-story buildings and one 10-story building targeted to the middle-income market. The apartments were completed in May 1999. The complex has a swimming pool, a terrace, 24-hour security, four retail stores on the ground floor of one of the buildings and 310 underground parking spaces. As of June 30, 2005, nearly all units in the complex were sold.

Table of Contents

Cruceros, Dock 2. This is a unique project in Puerto Madero. This residential block of 6,400 square meters is built alongside the Edificios Costeros office buildings. It is aimed at the upper-income segment and most condominium areas have spectacular views of the river. During fiscal year 2004 we sold the parcel of land in exchange for housing units of the building being constructed. The project has a progress level of 84% and we started the pre-sale of the units by means of money advances for fixing the price.

San Martin de Tours. In March 2003 we purchased a plot located on San Martin de Tours Street in the Barrio Parque district, the most exclusive residential zone in the City of Buenos Aires. With the signature of the sales contract, a prepayment of US\$ 80,000 was made and at the time of the transfer of the title deed in June 2003, US\$ 230,000 were paid. At that time, a mortgage was set up in favor of Providence for US\$ 750,000 as a guarantee of 25% of the functional units that IRSA must hand over when the building is completed. IRSA financed with its own working capital the construction of the high-quality house-type residence complex unlike any other property available aimed at the high-income segment. As of June 30, 2005 the project was in its final stage.

Concepción Arenal 3000, City of Buenos Aires. Concepción Arenal 3000 is a 70-loft residential property located in the north-central area of the City of Buenos Aires. Each loft unit has a salable area of 86 square meters and a parking space. Lofts in this building are targeted to at middle-income market.

Alto Palermo Park, City of Buenos Aires. Alto Palermo Park is one of two 34-story apartment buildings located two blocks away from Alto Palermo shopping center in the exclusive neighborhood of Palermo. Apartments in the building are targeted the upper-income market. The building is also located next to its twin, Alto Palermo Plaza. The building is composed of 3 and 4-room apartments with an average area of 158 square meters. This building was included in the assets we acquired from Pérez Companc S.A. As of June 30, 2005 there is only one apartment available for sale in Alto Palermo Park, and it is currently rented.

Residential communities

In the residential communities market, we acquire extensive undeveloped properties located in suburban areas or neighborhoods near the City of Buenos Aires to develop private neighborhoods and country clubs in which to sell vacant lots for the construction of single family homes. In these properties we build streets and roads, we arrange for the provision of basic municipal services and amenities such as open spaces, sport facilities and security. We seek to capitalize on improvements in transportation and communication around the City of Buenos Aires, the growing suburbanization of the region and the shift of the population moving to countryside-type residential communities.

An important factor of the suburbanization trend has been the improvements and additions to the Autopista Panamericana, Avenida General Paz and Acceso Oeste highways which significantly reduce traveling time, encouraging a large number of families to move to the new residential neighborhoods. Also, the improvement in public train, subway and bus transportation since their privatization further influences the trend to adopt this lifestyle.

Abril, Hudson, greater Buenos Aires area. Abril is one of our private residential communities. It is a 312-hectare property located near Hudson town, approximately 34 kilometers south of the City of Buenos Aires. Abril is a private residential community for the construction of single family homes targeted to the upper-middle-income market. As of June 30, 2005, this residential community had a total of 77,686 square meters of gross salable area. The property includes 20 neighborhoods subdivided into 1,273 lots consisting of approximately 1,107 square meters each. Abril also includes an 18-hole golf course, 130 hectares of woodland,

Table of Contents

a 4,000 square meter shopping and entertainment facility, a trilingual school, horse stables, and sports centers. Construction of the shopping and entertainment center, which was concluded in 1999.

In March 2003, we sold 40 lots to Pulte S.R.L. for Ps. 3.2 million. Pulte S.R.L. completed the payment by returning 27 previously purchased lots, amounting to Ps. 2.8 million, and paying the balance of Ps. 0.5 million in cash.

The neighborhoods have been completed and as of June 30, 2005, 95% of the property had been sold.

Villa Celina, Greater Buenos Aires. Villa Celina is a 400-lot residential community of single family homes located in the neighborhood of Villa Celina, on the southeastern edge of the City of Buenos Aires, a short distance from the intersection of the Ricchieri highway and the Avenida General Paz beltway. We have been developing this property in several stages since 1994. The first three stages represent 219 lots, each measuring 347 square meters on average and the two last stages represent 181 lots. As of June 30, 2005 100% of the residential community was sold.

Undeveloped parcels of land

We have acquired large undeveloped properties as land reserves located in strategic areas for the future development of office and apartment buildings, shopping centers and single family housing. We have acquired what we believe to be two of the largest and most important undeveloped river front parcels in Buenos Aires, Puerto Retiro and Santa María del Plata, for the future development of residential and office spaces. In addition, we have benefited from the improvement of land values during periods of economic growth. As of June 30, 2005, our land reserve totaled 14 properties consisting of approximately 652 hectares (excluding Rosario, Neuquén, Caballito and COTO air space owned by APSA).

City of Buenos Aires

Puerto Madero Dock III. Plot 5M , located in Dock 3, eastern side of Puerto Madero, comprises 10,474 square meters and is subdivided in three plots.

On September 7, 2004, we, through our wholly-owned subsidiary Buenos Aires Trade & Finance Center S.A. (Trade) and Desarrollos y Proyectos Sociedad Anónima (DYPSA) signed a barter and option contract whereby DYPSA proposed to acquire from us plots 1c) and 1e) of Dock III (undeveloped land) at a price of US\$ 8.0 million and US\$ 10.8 million, respectively, for the construction, at its own expense and under its own responsibility, of two buildings of 37 and 40 floors, parking lots and individual storage spaces. As consideration for the exchange of plot 1c), DYPSA agreed to deliver to us, within a maximum term of 36 months, housing units, parking lots and storage spaces representing in the aggregate 28.50% of the housing unit area to be built in the first building. Furthermore, DYPSA has an option to acquire plot 1e), mentioned above, within a maximum term of 548 days counted from the signing of the deed of conveyance of plot 1c) and subject to the work progress in the first building. In this case, DYPSA agreed to deliver to us in exchange, within a maximum term of 36 months, housing units, individual storage spaces and parking lots representing in the aggregate 31.50% of the housing unit area to be built in the second building. On November 25, 2004 we signed the deed of conveyance of title of the plot 1c) in favor of DYPSA and the option of DYPSA to acquire plot 1e) as explained before. As a guarantee of this transaction, DYPSA set up a first degree mortgage on plot 1c) for US\$ 8.0 million in favor of the Company. The option to exchange plot 1e) is subject to the construction of the 13th floor of the building to be built on lot 1c). These barter

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

transactions were ultimately approved by *Corporación Antigua Puerto Madero* during the second quarter of fiscal year ended June 30, 2005. In addition, on May 18, 2005 we entered into a preliminary agreement with DYPSA pursuant to which we will sell to DYPSA plot 1d) for

Table of Contents

a total consideration of US\$ 8.5 million. We received an advance payment of US\$ 2.2 million and the balance of US\$ 6.3 million will be paid by DYPESA at the time of signing the pertinent deed and subsequent transfer of property, which is scheduled for January 2006. For details on the accounting for these inventories at June 30, 2005, see Note 4.e. to our Consolidated Financial Statements.

Puerto Retiro. Puerto Retiro is an 8.3-hectare undeveloped riverside property bounded by Catalinas and Puerto Madero office areas to the west, Retiro, a major transit hub, to the north and Río de la Plata to the south and east. It is one of the only two significant privately owned waterfront properties in the City of Buenos Aires. Puerto Retiro may currently be utilized only for port activities. We have initiated negotiations with municipal authorities to rezone the area. Our plan is to develop a 360,000 square meter financial center. The launch date has not been settled and consequently, the estimated cost and financing method have not been decided yet. We own 67% of our subsidiary IBSA, which owns a 50% interest in Puerto Retiro.

Santa María del Plata. Santa María del Plata is an undeveloped waterfront property located at the southern end of Puerto Madero, adjacent to the City of Buenos Aires nature reserve. The development will be targeted at the high-income market and will include different residential projects, taking advantage of the river and related nautical activities. The plan includes three different housing concepts: high-rise apartment buildings, smaller condominiums and neighborhoods of single-family homes. Common areas for recreation, offices, and a hotel are also included. We propose to look for a partner for the development of this project or to provide assistance through the advance sale of land to finance the cost of the infrastructure. We plan to seek a partner to provide development skills and capital for the development of this project. The framework plan is still pending final approval by the authorities. The public forum on environmental matters has already taken place and we forecast its approval shortly. Currently awaiting the necessary municipal permits to start the project, there is a surface of 40,000 Sqm rented to Terminales Río de La Plata S.A. for US\$ 17,000 monthly.

Dock IV. This is a new office class AAA undertaking having a total surface of approximately 14,100 square meters that will be devoted to rent and will also offer large office surface and plant versatility. The division alternative of the stories will allow them to be occupied both by companies requiring areas of 200 square meters and corporations that need a full floor. The first stage of the work is currently undergoing a bidding process for the underground and lobby, and the work documentation allowing bidding of the second stage is pending.

Caballito. This is a property of 2.1 hectares, located at the North of the residential neighborhood of Caballito. This property has two different plots close to each other having public plazas at each corner. The intention is to develop a household complex offering a variety of types. The total area is estimated at approximately 18,000 square meters.

Caballito, Ferro Project. This is a property of approximately 25,539 square meters in the neighborhood of Caballito, one of the most densely populated in the City of Buenos Aires. APSA purchased this property in October 1998. This plot will host a shopping center, a hypermarket, a movie theatre complex, and several recreational and entertainment activity areas. We are currently working to define the commercial project. A proper authorization from the relevant municipal authorities of the City of Buenos Aires is needed for the development of the project.

Alcorta Plaza. With respect to the plot located on the Figueroa Alcorta Avenue, in front of Paseo Alcorta, we are working on a commercial project that may involve an office building and/or apartment complex.

Table of Contents

Province of Buenos Aires

Pereiraola, Hudson. We own an 83% interest in Pereiraola S.A., a company whose main asset is a 130 hectare undeveloped property adjacent to our Abril community. We intend to use this property to develop a private community where single family homes will be constructed, which targets the middle-income market. We have not yet established the costs and financing method for this proposed project.

Benavidez, Tigre. Benavidez is a 98.9 hectare undeveloped land reserve property located in Tigre, 35 kilometers to the north of downtown of the city of Buenos Aires. On May 21, 2004 the title deed was executed through which Desarrolladora El Encuentro S.A. (DEESA) undertook to pay our subsidiary Inversora Bolívar S.A. US\$ 3,980,000, of which US\$ 979,537 were paid during the current quarter and the balance of US\$ 3,000,463 will be settled with the barter of 110 residential plots that have already been chosen and established in the purchase option contract for Benavidez, included in the contract dated December 3, 2003. On that occasion, DEESA set up a senior mortgage in favor of Inversora Bolívar S.A. on the property in the amount of US\$ 3,000,463, in guarantee of compliance of the transaction and handed Inversora Bolívar S.A. US\$ 500,000 in guarantee deposit and surety of compliance with each and every obligation assumed. This amount will not accrue interest for DEESA and will be returned as follows: 50% of the balance with the certification of 50% completion, and the remaining 50% with the certification of 90% of completion.

Pilar. Pilar is a 74.0-hectare undeveloped land reserve property located close to the City of Pilar, 55 kilometers to the northwest of downtown Buenos Aires. The property is easily accessible due to its proximity to the Autopista del Norte. The Pilar area is one of the most rapidly developing areas of the country. We are considering several alternatives for this property, including the development of a residential community or the sale of this property as is and, therefore, we currently do not have a cost estimate nor a financing plan.

Other undeveloped parcels of land in the City of Buenos Aires

Our land reserve portfolio also includes nine land reserve properties located in Buenos Aires and its surrounding areas. These properties are projected for future developments of offices, shopping centers, apartment buildings and residential communities.

Other provinces

Torres Rosario, City of Rosario. We own a plot of land spanning a surface of approximately 50,000 square meter in the city of Rosario in the same place where our local Shopping Center, Alto Rosario, is located.

In this land we are planning to construct a residential complex center and during the fiscal year, 2005 we entered into a preliminary agreement with Villa Hermosa S.A. (VHSA) to sell VHSA a plot of this land, for a total consideration of Euros 3.0 million according to the conditions expressly established in the contract. VHSA plans to construct a luxury hotel on this land. VHSA has given us an advance payment amounting to Euros 0.3 million.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Neuquén Project, Province of Neuquén. On July 6, 1999 APSA acquired 94.6% ownership of Shopping Neuquén S.A. for Ps. 4.2 million. APSA paid Ps. 0.9 million on September 1, 1999 and the remaining Ps. 3.3 million were originally scheduled to be paid on or before July 5, 2001 or at the completion of the construction of the shopping center, whichever happened first. We clarify that said amounts are in Pesos according to the emergency legislation in force. See Item 3.D. Risks

Table of Contents

Factors . However, Shopping Neuquén S.A.'s former shareholders have challenged the constitutionality of such legislation, and no final decision has been issued. As of November 30, 2005 the purchase price balance remains unpaid.

Shopping Neuquén S.A.'s sole asset is a plot of land of approximately 50,000 square meters on which a shopping center is proposed to be built. The proposed project contemplates the building of a shopping center, a hypermarket, a hotel and a housing complex none of which have been commenced.

Legal issues with Shopping Neuquén S.A.'s former shareholders

On August 15, 2003 APSA was informed that the former shareholders of Shopping Neuquén S.A., who had a 85.75% interest, filed a complaint against APSA seeking recovery of the purchase price balance, interest and legal costs. In September 2003, APSA answered the complaint opposing several defenses such as, plaintiffs' non-compliance with their duties under the contract and the pesification of the purchase price balance according to the emergency legislation. Moreover, APSA filed a counterclaim alleging there should be a readjustment of the effects of the contract which became excessively burdensome for unforeseeable reasons given the 2001 economic, social and political crisis. In November 2003 the plaintiffs replied to APSA's counterclaim alleging that the payment under the purchase agreement was overdue before the economic and social crisis emerged and thus APSA's contract readjustment claim was inadmissible. As of November 30, 2005 the trial is under discovery stage.

Legal issues with the Municipality of Neuquén

In June 2001 Shopping Neuquén S.A. filed a request with the Municipality of Neuquén to extend the construction deadlines that had been originally scheduled. In addition, it requested authorization to convey certain plots of land to third parties so that each participant to the Neuquén project would be able to build on his own land. On December 20, 2002 the Municipality of Neuquén issued Decree 1437/02 denying both requests. In addition, it declared that the rights under Ordinance 5178 had lapsed and that the land purchase agreements would be terminated. As a result, the improvements already performed by Shopping Neuquén S.A. would be lost and accrued in favor of the Municipality of Neuquén, leaving Shopping Neuquén S.A. with no right to compensation.

On January 21, 2003 Shopping Neuquén S.A. submitted its response to the Decree 1437/02 requesting its revocation. It also requested permission to submit a new construction timetable, which would be prepared in accordance with the current situation of the project, including reasonable short and medium term projections. The Municipal Executive issued Decree 585/2003 rejecting this. On June 25, 2003 Shopping Neuquén S.A. filed an administrative action with the Supreme Court of Neuquén requesting the annulment of Decrees 1437/2002 and 585/2003. On December 21, 2004, the Supreme Court of Neuquén ruled in favor of the Municipality of Neuquén, declaring that the administrative action filed by Shopping Neuquén S.A. had expired. The decision, however, is not final. APSA filed an appeal but the Supreme Court of Neuquén has not yet issued a decision with regards to its admissibility. If the appeal is declared admissible the Federal Supreme Court will give a final decision, but if it is declared inadmissible APSA will file an appeal directly with the Federal Supreme Court.

Shopping Neuquén S.A. is currently seeking to negotiate with the Municipality of Neuquén the terms of an agreement that might permit reactivation of the proposed development. Nevertheless, we cannot give you any assurance that APSA will be able to achieve such an agreement on commercially reasonable terms, if at all, and if APSA cannot, the Municipality of Neuquén would be entitled to request the restitution of the property and APSA will likely lose all or substantially all of its investment which amounts to Ps. 10 million.

Table of Contents

We maintain a provision of Ps. 2.3 million which represents our best estimate of the probable loss to be incurred in connection with these claims.

Laguna Azul Project, Province of Córdoba. In July 2005 we acquired a 38.4% ownership interest in Canteras Natal Crespo S.A. (CNC) for a total consideration of US\$ 1.3 million. In addition, we have the obligation to buy an additional 11.5% ownership interest if the remaining shareholders decide to sell their shareholdings for a total consideration of US\$ 0.4 million. CNC is a company located in the Province of Córdoba that will be engaged in the sale and development of land, buildings and other real estate activities. ECIPSA S.A., an unrelated party, is our partner in this project.

Hotels

At the end of the 1997 fiscal year, we acquired the Hotel Llao Llao, our first luxury hotel. Some months later, as part of the acquisition from Pérez Companc of the Old Alto Palermo, we acquired an indirect 50% interest in the Hotel Intercontinental in Buenos Aires which we own through our subsidiary Inversora Bolívar. In March 1998, we acquired the Hotel Libertador. During fiscal year 1999, we sold a 20% interest in the Hotel Libertador to Hoteles Sheraton de Argentina S.A.C. (Hoteles Sheraton de Argentina) and during the fiscal year 2000, we sold 50% of our interest in the Hotel Llao Llao to the Sutton group.

The following chart shows certain information regarding our luxury hotels:

Hotel properties

Hotel	Date of acquisition	IRSA's Effective interest %	Number of Rooms	Average occupancy % (1)	Avg. price per room Ps.(2)	Revenues for fiscal years ended June 30, 2005 (Ps.000)			Book value as of June 30, 2005 (Ps. 000)

- (3) Through Nuevas Fronteras S.A. (Subsidiary of IBSA)
- (4) Through Hoteles Argentinos. S.A.
- (5) Through Llao Llao Resorts S.A.
- (6) The Piscis Hotel was sold on March 19, 2003.

Hotel Llao Llao, San Carlos de Bariloche, Province of Rio Negro. Hotel Llao Llao is located on the Llao Llao península, 25 kilometers from the City of San Carlos de Bariloche, and is one of the most important tourist hotels in Argentina. Surrounded by mountains and lakes, this hotel was designed and built by the famous architect Bustillo in a traditional alpine style and first opened in 1938. The hotel was renovated between 1990 and 1993. The building has a total constructed surface

Table of Contents

area of 15,000 square meters and 158 rooms. The hotel-resort also includes an 18-hole golf course, tennis courts, health club, spa, game room and swimming pool. The hotel is a member of The Leading Hotels of the World and is currently being managed by Compañía de Servicios Hoteleros S.A. which manages the Hotel Alvear, a luxury hotel located in the Recoleta neighborhood of the City of Buenos Aires.

Currently, the hotel is under an expansion construction. The number of suites of the hotel is being extended to 200 rooms, increasing its capacity by 25%. The total amount of the expansion investment is approximately US\$ 7 million, including improvements in the kitchen and laundry-room, and the construction of a high technology water purifying plant. The first stage of the earthmoving is in the final process, and the second stage of the construction, which includes reinforced concrete, masonry and facilities, started in December 2005. Completion is scheduled for December 2006.

Hotel Intercontinental, City of Buenos Aires. Hotel Intercontinental is located in the downtown City of Buenos Aires neighborhood of Monserrat, adjacent to the Intercontinental Plaza office building. This property was also a part of the acquisition of Old Alto Palermo from Pérez Companc. The hotel's meeting facilities include eight meeting rooms, a convention center and a divisible 569 square meter ballroom. Other amenities include a restaurant, a business center, a spa and a fitness facility with swimming pool. The hotel was completed in December 1994 and has 309 rooms. The hotel is managed by the Intercontinental Hotels Corporation, a United States corporation.

Hotel Sheraton Libertador, City of Buenos Aires. Hotel Sheraton Libertador is located in downtown City of Buenos Aires at the corner of the streets Córdoba and Maipú, one block from Galerías Pacífico. The hotel contains 193 rooms and 7 suites, eight meeting rooms, a restaurant, a business center, a spa and fitness facilities with a swimming pool. In March 1999, we sold 20% of our interest in the Sheraton Libertador Hotel for US\$ 4.7 million to Hoteles Sheraton de Argentina. The hotel is managed by Sheraton Overseas Management Corporation, a United States corporation.

The hotel is under renovation construction involving the upgrade of its guest rooms and meeting rooms, and the improvement of elevators is undergoing a bidding process. Also, new wall to wall carpets are being placed in different hotel sectors (lobby bar, saloons, circulating corridor). The estimated total amount of the renovation investment is US\$ 2.5 million and is scheduled to end in November 2006.

Hotel Piscis and Valle de Las Leñas S.A., Province of Mendoza. On March 18, 2003, we sold Hotel Piscis and 31% of the shares and convertible negotiable bonds of Valle de Las Leñas S.A., which we had purchased eight months earlier. Valle de Las Leñas is the operator of a leading Argentine ski resort and Hotel Piscis is a five-star hotel located in this resort. The stock was sold for US\$ 6.5 million and the hotel was sold for US\$ 3.2 million. This transaction yielded a profit of US\$ 5.9 million.

Financial operations and others

E-Commerce

Altocity.com S.A. Altocity.com S.A. is a retail e-commerce company, and a company rendering services to large and medium size companies that allow electronic sales of their products both country and world-wide.

Table of Contents

Altocity.com S.A. (Altocity) is a company resulting from our partnership with Telefónica de Argentina S.A. (Telefónica). Altocity enables us to expand our physical business to include a new sales channels through the Internet, and at the same time allows Telefónica to enter in the e-retailing business and sale of e-commerce services. Telefónica is a telecommunications leader in all Spanish and Portuguese speaking countries. Also, Telefónica is the largest Spanish multinational company and in Argentina is one of the media leaders, having a significant share in the two most important TV broadcasters in the country, and also has radio and other companies related to media.

Five years from its launch, Altocity offers an attractive integral product selection, with a broad range of categories and brands, forms of payment, support and a request and delivery system, combined with a high-quality image.

Monthly average sales increased from Ps. 299,674 to Ps.396,673 between fiscal years 2004 and 2005 respectively, representing a positive variation of 32%. Also, in respect of traffic, clients' portfolio and transactions, all these items show an improvement in comparison with the previous period.

	<u>June 30, 2004</u>	<u>June 30, 2005</u>
Unique visitors per month	300,000	352,000
Daily average	13,000	16,000
Registered citizens to date	55,000	82,000
Transactions to date	52,000	76,000

Altocity has devoted resources towards developing the following areas:

Marketing of the portal through loyalty building activities and to new customers;

e-commerce services;

Barter and reward program.

Table of Contents

Investments in Banco Hipotecario S.A.

We have a significant investment in Banco Hipotecario which represents 9% of our consolidated assets as of June 30, 2005. Established in 1886 by the Argentine government, Banco Hipotecario has historically been the leading mortgage lender in Argentina, the largest mortgage servicer and largest provider of mortgage-related insurance. Substantially all of Banco Hipotecario's operations, property and customers are located in Argentina.

In 1996, the Argentine government announced its intention to privatize Banco Hipotecario and, pursuant to the Privatization Law, converted its predecessor, Banco Hipotecario Nacional, to Banco Hipotecario S.A., a corporation (*sociedad anónima*), effective September 28, 1997.

Banco Hipotecario has historically engaged in three main business activities:

lending to individuals and developers for the purchase, construction and improvement of housing units;

underwriting credit life, property damage and unemployment insurance related to its mortgage lending activities; and

servicing its own and third-party mortgage loan portfolios.

It has a nationwide network of 25 branches and 3 sales offices, and in the past it had also, to a lesser extent, distributed its products through a network of approximately 24 commercial banks which did not develop their own mortgage operations.

The Economic Crisis and its Adverse Effect on the Bank's Business

The Argentine economy has experienced a persistent recession since the end of 1998. In December 2001, the recession deepened into an unprecedented political and economic crisis, which disrupted Argentina's financial system and effectively paralyzed its economy. In response to the crisis, the Argentine government has undertaken numerous and far-reaching initiatives that have changed and continue to change the macroeconomic and regulatory environment for doing business in Argentina, generally, and for the financial sector in particular. The crisis and the recent governmental measures adopted to countermand its effects have materially and adversely affected Banco Hipotecario's liquidity, financial condition, results of operations and business prospects.

The Argentine financial system as a whole has been harmed by the 2001 crisis, and the following governmental measures have had an adverse effect on Banco Hipotecario in particular:

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Asymmetric Pesification of Its Assets and Liabilities. All of its mortgage loans denominated in foreign currency were converted to Pesos at a one-to-one exchange rate (which was substantially less than the market value of the Peso), but substantially all of its liabilities remained denominated in foreign currencies. The resulting mismatch of its assets and liabilities has significantly contributed to Banco Hipotecario's inability to generate sufficient revenue to comply with payment obligations on its outstanding debt obligations and has had a significant adverse impact on its ability to operate as a going concern.

Inadequate Adjustment of its Loans for Inflation. Notwithstanding the devaluation of the Peso and the significant inflation in Argentina, Banco Hipotecario was not permitted to make any inflation adjustment to approximately 60% of its mortgage loans. Moreover, it was permitted to adjust an additional 30% of its loans only pursuant to CVS which during 2002 was significantly less than inflation as measured by the WPI. Lastly, approximately 10% of its loan portfolio was adjusted by the

Table of Contents

CER, which in 2002 was substantially lower than the WPI. As a result, during 2002 Banco Hipotecario's mortgage loan portfolio and related revenues suffered, and may continue to suffer, a very significant erosion in value.

Cap on its Interest Rates. Pursuant to decree 1242/02 issued by the Argentine government, the interest rates on Banco Hipotecario's pesified mortgage loans that were adjusted for inflation have been capped at (i) between 3.5% to 5% for mortgage loans to individuals indexed by CER and (ii) 12.3% for mortgage loans to individuals indexed by the CVS. As a result, during 2002 its interest income was substantially less than its interest expense.

Impairment of Its Ability to Foreclose. Like other mortgage lenders, Banco Hipotecario depends on the right to foreclose on properties which have been mortgaged to secure its loans. However, Banco Hipotecario's ability to foreclose on mortgaged properties was suspended by the Argentine government effective February 2002, and this suspension has been effectively extended several times until November 14, 2002. On February 4, 2003, the Executive Branch enacted Decree 204/2003 establishing a mediation procedure for a limited period of 90 days. On May 2003, the Argentine Congress enacted Law 25,737 which suspends foreclosures for an additional period of 90 days. In September 2003, Banco Hipotecario, together with other financial institutions, voluntarily agreed not to foreclose on its mortgage loans until a new law proposed by the government that would extend mortgage credit to the debtors is approved by Congress. As a result, Banco Hipotecario's ability to recover on its non-performing loans has been, and continues to be, materially impaired.

Rescheduling of the mortgage debts. On November 5, 2003 Law No. 25,798 was enacted. It established a mechanism to reschedule the mortgage debts financed by a Trust (paid by the Argentine Government) which buys the portfolio mortgage debts and reschedules the maturity dates. Financial institutions were given a period to accept this mortgage refinancing system that expired on June 22, 2004. This term was extended twice first by Decree No. 352/2004 and then by Law No. 26,062 effective as of November 4, 2005. The latter not only extends the term 120 days as from the day of its publication but also suspends foreclosure proceedings for the same period.

Banco Hipotecario's restructuring plan: The Exchange Offers

In December 8, 2003, as part of an ambitious plan to restructure a substantial portion of its financial debt, Banco Hipotecario launched an offer to exchange its existing notes for U.S. Dollar-denominated long-term notes, Euro-denominated long-term notes, guaranteed notes and cash.

The following results illustrate the successful completion of the exchange offers which concluded Banco Hipotecario's voluntary debt restructuring process that commenced in August 2002:

The final aggregate principal amount of existing notes validly tendered was US\$906 million (including the Dollar equivalent of Euro-denominated Existing Notes), which represented approximately 93% of the aggregate principal amount of existing notes outstanding. Of the final amounts validly tendered, approximately 77% (US\$701 million) elected to receive long-term notes, approximately 7% (US\$57 million) elected to receive cash and approximately 16% (US\$148 million) elected to receive guaranteed notes, in each case, including the Dollar equivalent of Euro-denominated existing notes.

Of the US\$302.4 million aggregate principal amount of existing bank indebtedness outstanding as of December 29, 2003 (including the Dollar equivalent of Peso-denominated bank debt), 100% participated in the concurrent restructuring of Banco Hipotecario's existing debt. Of the amount

Table of Contents

that participated, approximately 20% (US\$60 million) elected to receive long-term loans, approximately 10% (US\$31 million) elected to receive cash and approximately 70% (US\$211 million) elected to receive guaranteed loans.

Competition

We have a large and difficult to determine number of small competitors in each of the different markets in which we operate.

Offices and Others

With respect to the segment of office and other non-shopping center rental properties, most of our Argentine properties are located in developed areas. There are numerous other offices, retail and residential properties within the market area of each of our properties. The number of competitive properties in a particular area could have a material adverse effect on our ability to lease or sell units in our properties and on the rental and sale price that we are able to charge. Historically, there have been relatively few companies competing with us for rental or development property acquisitions. This is a very atomized market, with no large participants, so there is no important competitor. We own Santa María del Plata and Puerto Retiro, two unique waterfront land reserves near the City of Buenos Aires which are not developed yet and where we do not face competition. However, in the future, other companies, domestic or foreign, may become active in the real estate acquisition and development markets in Argentina, as well as in the markets outside of Argentina in which we would participate.

Hotels

We own three five-star hotels in Argentina which are managed through strategic alliances by international operators such as Sheraton Overseas Management Corporation, Intercontinental Hotels Corporation and the local operator Compañía de Servicios Hoteleros S.A., which also manages the Hotel Alvear. The Hotel Llao Llao is unique for its landscape and beauty and is well known around the world. Our other two hotels, that is, Hotel Intercontinental and Hotel Sheraton Libertador, are located in the City of Buenos Aires and account for 24% of the total available rooms for this five-star hotel category. The following table shows the breakdown of five-star hotels in the City of Buenos Aires as of June 30, 2005:

Hotel	Number of rooms	Occupancy rate ⁽²⁾	Revenue generation index ⁽¹⁾	Average daily rate in US\$
Crowne Plaza	388	76%	0.88	85.11
Hilton	421	81%	1.29	124.75
Sheraton (Main)	742	71%	0.93	89.48
Marriott Plaza	325	74%	1.04	100.33
Intercontinental	309	69%	1.02	97.99
Sofitel Madero	193	71%	1.00	96.64
Sheraton Libertador	200	85%	0.83	80.24
Total/average	2578	74%	1.00	96.36

⁽¹⁾ The revenue generation index is the relative participation of the Revpar (revenue per available room) of each hotel with respect to the average of the market.

⁽²⁾ Occupancy rate as of June 30, 2005

Source: Companies related in the table above have exchanged their information with IRSA

Table of Contents**Shopping Centers**

In the shopping center sector we compete through APSA. Because most of our shopping centers are located in developed and highly populated areas, there are competing shopping centers within, or in close proximity to, our targeted areas. The number of shopping centers in a particular area could have a material effect on our ability to lease space in our shopping centers and on the amount of rent that we are able to charge. We believe that due to the limited availability of large plots of land and zoning restrictions in the City of Buenos Aires, it will not be easy for other companies to compete with us in areas through the development of new shopping center properties. Our principal competitor is Cencosud S.A. which owns and operates Unicenter shopping center and the Jumbo hypermarket chain, among others.

The following table shows the breakdown of the main owners and operators of shopping centers in Argentina:

Main owners and operators of Argentine shopping centers

Companies	Location ⁽¹⁾	Gross Leasable Area	Stores	% of national gross leasable area ⁽²⁾	% Stores ⁽²⁾

Regulation and Government Supervision

The laws and regulations governing the acquisition and transfer of real estate, as well as municipal zoning ordinances, are applicable to the development and operation of our properties.

Currently, Argentine law does not specifically regulate shopping center lease agreements. Since our shopping center leases generally differ from ordinary commercial leases, we have created model provisions that govern the relationship with our shopping center tenants. In compliance with applicable laws and our own policies, we have established specific provisions regarding store hours, fines and other penalties, tenants' sales information duties, centralized administration, control and supervision.

Leases

Argentine Law imposes certain restrictions on landlords, including:

a prohibition to include price adjustment clauses based on inflation increases in lease agreements; and

the imposition of a three-year minimum lease term for retail property, except in the case of stands and/or space for special exhibitions.

Although our lease agreements were U.S. Dollar-denominated, Decree N° 214, Decree N° 762 and Law N° 25,820 that amended the Public Emergency Law, provided that monetary obligations in force as of January 7, 2002 arising from agreements governed by private law and which provided for payments in U.S. Dollars were subject to the following rules:

the obligations were to be paid in Pesos at the exchange rate of Ps. 1.00 = US\$ 1.00 plus the CER for commercial leases;

Table of Contents

from October 1, 2002 and until March 31, 2004 for residential leases, the obligations are to be paid in Pesos at the exchange rate of Ps. 1.00 = US\$ 1.00 plus the CVS;

if because of the application of these provisions, the amount of the installment were higher or lower than the amount at the moment of the payment, any of the parties could require an equitable adjustment of the price. If the parties did not reach an agreement, the judicial courts could decide about the difference in each particular case and

Pursuant to Decree 117/04 and Law No. 25,796 that amends Law No. 25,713, the CVS became unenforceable on April 1, 2004.

In addition, there are currently conflicting policy pronouncements and judicial decisions as to whether rent may be increased during the term of a lease. For example, section 10 of the Public Emergency Law prohibited lease agreements that adjusted rents for inflation based on an official index such as the Argentine Consumer Price Index or Wholesale Price Index. Most of our lease agreements contain rent escalation clauses, but they are not based on an official index. To date, no tenant has filed a judicial action or used in court an argument against us based on the existence of escalation clauses, but no assurance can be given that such actions will not be taken in the future, which if they prevail could materially and adversely affect us.

Under the Argentine Civil Code and the Lease Law No. 23,091, lease terms may not exceed ten years, except for leases regulated by Law No. 25,248 (which provides that real estate leases containing purchase options *leasing inmobiliario*- are not subject to term limitations). Generally, terms in our lease agreements go from 3 to 10 years.

Law No. 23,091, as amended by Law No. 24,808 provides that tenants may rescind commercial lease agreements after the first six months by sending a written notice at least 60 days before the termination of the contract. Such rescission is subject to penalties which range from one to one and a half months of rent. If the tenant rescinds during the first year of the lease the penalty is one and a half month's rent and if the rescission occurs after the first year of lease the penalty is one month's rent.

Argentine Law permits the parties to a lease agreement to freely set their rights and obligations thereunder. However, in the past, in response to housing shortages, high rates of inflation and difficult access to credit, the Argentine Government imposed strict and burdensome regulations regarding leases. Such regulations limited or prohibited rental increases and prohibited the eviction of tenants even for failure to pay rent. These regulations discouraged both property rental and the construction of new housing.

While current Argentine government policy discourages Argentine government regulation of lease agreements, there can be no assurance that additional regulations will not be imposed in the future by the Congress, including regulations similar to those previously in place. Furthermore, most of our leases provide that the tenants pay all costs and taxes related to the property in proportion to their respective leasable areas. In the event of a significant increase in the amount of such costs and taxes, the Argentine government may respond to political pressure to intervene by regulating this practice, thereby negatively affecting our rental income.

Table of Contents

Argentine Civil Proceedings permits us to collect unpaid rent in an ordinary proceeding, although under certain special conditions (e.g. low amount of unpaid rent) the judge may decide for an expedited summary proceeding. While it is a special procedure to evict tenants, historically, the heavy workload of the courts that hear these matters and the existence of numerous procedural steps required have tended to delay efforts of lessors to evict tenants. Moreover, the lessor must provide written notice to the tenant at least ten days prior to commencing the eviction proceedings.

Despite the amendment of the Argentine Civil Procedure Code by which the lessor may, by posting a bond, obtain the immediate eviction of the tenant, eviction proceedings generally take from six months to two years from the date of filing of the suit to the time of actual eviction. However, historically we have generally attempted to negotiate with defaulting tenants the termination of lease agreements in order to avoid legal proceedings.

The Public Emergency Law, as amended by Law No. 25,640, suspended for the term of 270 days from the enactment of that law (ended on November 15, 2002) the auction of the debtor's property or the property used by the debtor for production, service rendering or trade activities and the enforcement of precautionary measures resulting in the divestiture of property used by the debtor. On February 4, 2003, the Executive Branch enacted Decree 204/2003 establishing a mediation procedure for a limited period of 90 days. On May 2003, the Argentine Congress enacted Law No. 25,737 which suspends foreclosures for an additional period of 90 days, ended on August 2003. On September 2003, several financial institutions voluntarily agreed not to foreclose on their mortgage loans. On November 2005, the Argentine Congress enacted a new Law (No. 26,062) that extended the foreclosures suspension for an additional 120 days period.

On November 6, 2003 Law No. 25,798 was enacted. It established a mechanism to reschedule debts resulting from unpaid mortgages, by creating a trust (paid by the Argentine Government) which would purchase the mortgage debts and reschedule the maturity date. Financial institutions were given until June 22, 2004 to accept said terms. This law was partially modified by Law No. 25,908 (enacted on July 13, 2004) which included various conditions referring to the incorporation into this system of the mortgage loans that were in judicial or private execution proceedings. This term was extended twice first by Decree No. 352/2004 and then by Law No. 26,062 effective as of November 4, 2005. The latter not only extends the term 120 days as from the day of its publication but also suspends foreclosure proceedings for the same period. The parties to secured loan agreements were given a term to express their adhesion System. This term was however extended twice first by Decree No. 352/2004 and then by Law No. 26,062 effective as of November 4, 2005. The latter not only extends the term 120 days as from the day of its publication but also suspends foreclosure proceedings for an additional 120 days period.

Development and Land Use

Buenos Aires Urban Planning Code. Our real estate activities are subject to several municipal zoning, building and environmental regulations. In the city of Buenos Aires, where the vast majority of our real estate properties are located, the Buenos Aires Urban Planning Code (*Código de Planeamiento Urbano de la Ciudad de Buenos Aires*) generally restricts the density and use of property and controls physical features of improvements on property, such as height, design, set-back and overhang, consistent with the city's urban landscape policy. The administrative agency in charge of the Urban Planning Code is the Secretary of Urban Planning of the City of Buenos Aires.

Buenos Aires Building Code. The Buenos Aires Building Code complements the Buenos Aires Urban Planning Code (*Código de la Edificación de la Ciudad de Buenos Aires*) and regulates the structural use and development of property in the city of Buenos Aires. The Buenos Aires Building Code requires builders and developers to file applications for building permits, including the submission to the Secretary of Work and Public Services of architectural plans for review, to assure compliance therewith.

Table of Contents

We believe that all of our real estate properties are in material compliance with all relevant laws, ordinances and regulations.

Sales and Ownership

Real Estate Installment Sales Act. The Real Estate Installment Sales Act Law No. 14,005, as amended by Law No. 23,266 and Decree No. 2015/85, imposes a series of requirements on contracts for the sale of subdivided plots of land when the sale price is paid in installments and the deed is not conveyed until final payment. The provisions of this law require, among other things:

the registration of the sale in the Real Estate Registry (Registro de la Propiedad Inmueble) corresponding to the jurisdiction of the property; such Registry provides crucial information such as the liens and encumbrances which the property is subject to; and

the registration of any contract with the Real Estate Registry within 30 days of execution.

Once the property is registered, the installment sale may not occur in a manner inconsistent with the Real Estate Installment Sales Act. In the event of a dispute over the title between the purchaser and third-party creditors of the seller, the installment purchaser who has duly registered the installment sales contract prevails.

Further, the purchaser can demand conveyance of title after at least 25% of the purchase price has been paid, although the seller may demand a mortgage to secure payment of the balance of the purchase price.

After payment of 25% of the purchase price or the construction of improvements on the property equal to at least 50% of the property value, the Real Estate Installment Sales Act prohibits the rescission of the sales contract for failure by the purchaser to pay the balance of the purchase price. However, in such event the seller may take action under any mortgage on the property. As of September 2005, the House of Representatives passed a bill aimed at suspending foreclosure proceeding for a period of 120 days. Such act is currently being reviewed by the Senate.

Consumer Protection Act. Consumer Protection Act Law No. 24,240, as amended, regulates several issues concerning the protection of consumers in the formation and execution of contracts.

The Consumer Protection Act purports to prevent potential abuses deriving from the strong bargaining position of sellers of goods and services in a mass-market economy where standard form contracts are widespread.

For said reason, the Consumer Protection Act deems void and unenforceable certain contractual provisions in consumer contracts, including:

warranty and liability disclaimers;

waiver of rights, and

changes of the burden of proof.

Table of Contents

In addition, the Consumer Protection Act imposes fines to induce compliance from sellers.

The Consumer Protection Act defines consumers or users, as the individuals or legal entities that contract for a price for final use or their own benefit or their family or social group:

the acquisition or hiring of personal property things;

the supply of services; and

the acquisition of new real estate intended for housing, including plots of land acquired with the same intent, when the offer is public and directed to undetermined persons.

It also establishes that the following will not be considered consumers or users, those who acquire, store, utilize or consume goods or services to integrate them into a production, transformation, commercialization or supplying to third parties process.

In addition, the Consumer Protection Act defines the suppliers of goods and services as the individuals or legal entities, either public or private that in a professional way, even occasionally, produce, import, distribute or commercialize goods or supply services to consumers or users.

The following are excluded from the application of the Consumer Protection Act:

services supplied by professionals that require a registration in officially recognized professional organizations or by a governmental authority and

the contracts involving second-hand assets, executed between consumers.

The Consumer Protection Act determines that the information contained in the offer addressed to undetermined prospective consumers, binds the offeror during the period in which the offer takes place and until its public revocation. Further, it determines that specifications included in advertisements, announcements, prospectuses, circulars or other media bind the offeror and are considered part of the contract entered into by the consumer.

With regard to services, the Consumer Protection Act provides that those who supply services of any nature are obliged to respect the terms, conditions, and other circumstances according to which they have been offered, published or accepted.

On June 2005, Resolution No. 104/05, which complements the Consumer Protection Law, adopted MERCOSUR's Resolution on which requires that those who engage in commerce over the Internet (E-Business) to disclose in a precise and clear manner not only the products and/or services offered but also the sale terms.

Buildings Law. Buildings Law No. 19,724, as amended, sets forth a regime for the construction of buildings for later subdivision into strata title. Under this law, developers must inform potential purchasers of the future existence of a strata regime or co-proprietorship proposal, as well as of all sale conditions, and the size of each unit in relation to the whole.

Table of Contents

The sale of these units are subject to subdivision approval and in order to be included in the title regime must be registered with the Real Estate Registry.

The owner of the property subject to pre-strata title regulations may not take out a mortgage on the property without the consent of the purchasers of individual units unless expressly stipulated in the purchase contract. In addition, the owner must inform such purchasers of the conditions of the mortgage, which may not retroactively affect contracts previously signed.

This law also states that, in the event that construction is not completed, all amounts already deposited must be repaid to the purchasers.

Mortgage Regulation. The Argentine Civil Code of 1871, as amended, regulates mortgages both as a contract and as a right over property. There are no special provisions in the Civil Code aimed at protecting mortgagors. Nevertheless, any agreement entered into by a mortgagor and a mortgagee at the time of execution of the mortgage or prior to the default of the mortgagor allowing the mortgagee to recover the property without a public auction of the property will not be enforced by the courts as contrary to Argentine public policy.

In an attempt to facilitate the development of a strong secondary market for mortgages, Law No. 24,441, enacted in 1995, sets forth a new alternative proceeding to collect unpaid amounts secured by a mortgage. The new rules introduced by Law No. 24,441 are aimed at overcoming the difficulties and delays of the traditional ordinary proceeding.

Until the enactment of Law No. 24,441, the only procedure available to collect unpaid amounts secured by a mortgage was a summary proceeding regulated by the Code of Civil and Commercial Procedure. The heavy caseload on the courts that hear such matters usually delays the summary proceeding, which currently took an average of 12 months to complete.

Chapter V of Law No. 24,441 institutes a new procedure which may expedite collection of unpaid amounts secured by a mortgage. To be applicable, the new rules, which allow an out-of-court auction, need to be expressly agreed to by the parties in the mortgage contract.

Currently, we include in our mortgages a clause enabling the enforcement of Law No. 24,441. However, there can be no assurance that such collection provisions will accelerate the recovery of unpaid amounts under mortgage guarantees.

On the other hand, the Public Emergency Law, as amended established the suspension for the term of 270 days from the enactment of that law, of all the judicial or non-judicial enforcement including the enforcement of mortgages and pledges, regardless of their origin. On February 14, 2002, Law No. 25,563 amending the Bankruptcy Law (the New Bankruptcy Law) was enacted. Under the New Bankruptcy Law, certain bankruptcies and foreclosures (including foreclosures on mortgage loans) would be suspended for a period of 180 days from the law's effective date. Such period was extended for 180 days more by Law No. 25,589 and afterwards for 90 days more by Law No. 25,640 of September 2002, expiring on February, 2003.

On February 4, 2003, the Executive Branch enacted Decree No. 204/2003 creating a mediation proceeding, for a limited period of 90 days, to be conducted through the Emergency Legal Units (*Unidades de Emergencias Legales*) depending from the Ministry of Labor, Employment and

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Social Security and the Ministry of Production. Such Emergency Legal Units shall intervene at the request of debtors or creditors in foreclosure cases.

Table of Contents

The mediation proceeding is voluntary and free. Proposals and negotiations made by the parties during these mediation proceedings are subject to the confidentiality of ordinary mediations. No mediation proceeding will result in the suspension or interruption of the legal terms running in judicial or out-of-court foreclosure proceedings.

The Emergency Legal Units will try to approximate the parties' proposals to reach an agreement enabling the debtor the performance of his obligations without lessening the creditor's rights. The intervention of the Emergency Legal Units shall conclude with an agreement or with the impossibility of reaching such agreement. The Decree establishes that the conciliation proceeding shall be in force from the day of its publication in the Official Gazette and will have a term of force of 90 days.

On May 8, 2003 the Congress enacted Law No. 25,737 which suspended foreclosures for a period of 90 days more. Afterwards, private and financial entities have voluntarily decided to suspend foreclosures. On November 2005, the Argentine Congress enacted a new Law (No. 26,062) which extended the foreclosures suspension for an additional 120 days.

On November 5, 2003 Law No. 25,798 was enacted. It established a mechanism to reschedule the mortgage debts by creating a Trust (paid by the Argentine Government) which will purchase the portfolio of mortgage debts and reschedule them in a more profitable way. Financial institutions were given until June 22, 2004 to accept this mortgage reschedule system. This law was partially modified by Law No. 25,908 (enacted on July 13, 2004) which included various conditions for the incorporation of mortgage loans that were under to judicial or private execution proceedings to this mortgage refinancing system. The period for financial institutions to participate in this mortgage reschedule system was extended twice, first by Decree No. 352/2004 and then by Law No. 26,062 effective as of November 4, 2005. The latter not only extends the term 120 days as of the day of its publication but also suspends foreclosure proceedings for the same period.

Most mortgages executed by us provide that we are empowered to declare the anticipated expiration of the loan upon non-payment of an installment. This enables us to recover the unpaid amounts through the sale of the relevant property pursuant to the Civil and Commercial Procedure Code of Argentina as Law No. 24,441.

Pursuant to the Argentine law, fees and expenses related to collection procedures must be borne by the debtor, and the proceeds from any auction of the property may be used for the settlement of such obligation.

Although our mortgages are U.S. Dollar-denominated, Decree No. 214/02 and Decree No. 762/02 that amend the Public Emergency Law provide that monetary obligations in force as of January 7, 2002, resulting from agreements governed by private law and which provide for payments in U.S. Dollars are subject to the following rules:

the obligations are to be paid in Pesos at the exchange rate of Ps. 1.00 = US\$ 1.00 plus the CER for loans granted for the acquisition of commercial properties guaranteed by mortgages, or

since October 1, 2002 and until March 31, 2004, for residential leases, the obligations are to be paid in Pesos at the exchange rate of Ps. 1.00 = US\$ 1.00 plus the CVS; and

Table of Contents

if because of the application of these provisions the amount of the installment were higher or lower than the amount at the moment of the payment, any of the parties could require an equitable adjustment of the price. If in the event the parties do not reach an agreement, the judicial courts will decide about the difference in each particular case.

Pursuant to Decree 117/04 and Law No. 25,796 that amends Law No. 25,713, the CVS became unenforceable on April 1, 2004.

Protection for the Disabled Law. The Protection for the Disabled Law No. 22,431, enacted on March 20, 1981, as amended, provides that in connection with the construction and renovation of buildings, obstructions to access must be eliminated in order to enable access by handicapped individuals. In the construction of public buildings, entrances, transit pathways and adequate facilities for mobility impaired individuals must be provided.

Buildings constructed before the enforcement of the Protection for the Disabled Law must be adapted to provide accesses, transit pathways and adequate facilities for mobility-impaired individuals.

Those pre-existing buildings, which due to their architectural design may not be adapted to the use by mobility-impaired individuals, are exempted from the fulfillment of these requirements.

The Protection for the Disabled Law provides that residential buildings must ensure access by mobility impaired individuals to elevators and aisles. Differential architectural requirements refer to pathways, stairs, ramps and parking spaces.

Credit Cards Law. Law No. 25,065 regulates different aspects of the business known as credit card system. The regulations impose minimum contractual contents and the approval thereof by the Argentine Secretariat of Antitrust, Deregulation and Consumer Protection, as well as the limitations on the interest to be collected by users and the commissions to the stores adhering to the system.

The Credit Card Law applies to banking and non-banking cards, such as Tarjeta Shopping, issued by Tarshop S.A.

Antitrust Law. Law No. 25,156 prevents trust practices and requires administrative authorization for transactions that according to the Antitrust Law constitute an economic concentration. According to this law, mergers, transfers of goodwill, acquisitions of property or rights over shares, capital or other convertible securities, or similar operations by which the acquirer controls a company are considered as an economic concentration. Whenever an economic concentration involves a company or companies (i) which hold 25% or more of the relevant market or (ii) which exceed the accumulated sales volume by approximately Ps. 200 million in Argentina or Ps. 2,500 million worldwide; then the respective concentration should be submitted for approval to the National Antitrust Commission. The request for approval may be filed, either prior to the transaction or within a week after its completion.

Table of Contents

The antitrust Law provides that economic concentrations in which the transaction amount and the value of the assets absorbed, acquired, transferred or controlled in Argentina, do not exceed Ps. 20.0 million are exempted from the administrative authorization. Notwithstanding the foregoing, when the transactions effected during the prior 12-month period exceed in total Ps. 20.0 million or Ps. 60.0 million in the last 36 months. As the consolidated annual sales volume of APSA and IRSA exceed Ps. 200.0 million, we should give notice to the National Antitrust Commission of any concentration provided for by the Antitrust Law. Currently, there is no transaction that must be notified. Antitrust Law does not affect our ongoing business.

C. Organizational Structure

The following table presents information relating to our ownership interest and the percentage of our consolidated total net revenues represented by our subsidiaries as of June 30, 2005.

<u>Subsidiary</u>	<u>Activity</u>	<u>Country of incorporation</u>	<u>Percentage ownership ⁽¹⁾</u>	<u>Percentage of voting power ⁽¹⁾</u>	<u>Percentage of our total net revenues</u>
Palermo Invest	Investment	Argentina	66.7	66.7	0.0

⁽²⁾ APSA's Consolidated Information

We have a significant interest in Banco Hipotecario S.A. (Banco Hipotecario), an Argentine company organized under Argentine Law engaged in banking activity. As of June 30, 2005, we owned 11.76% of Banco Hipotecario, and 5.22% of such ownership was through our subsidiary Ritelco S.A. Also, as of June 30, 2005, the voting power held by IRSA and Ritelco S.A. in Banco Hipotecario were 10.20% and 8.15%, respectively.

Table of Contents

The following is our organizational chart and our principal subsidiaries as of June 30, 2005:

Table of Contents

D. Property, Plant and Equipment

As of June 30, 2005, all of our property, consisting of rental properties in the office and retail real estate sectors, development properties primarily in the residential real estate sector and Shoppings Centers through our subsidiary APSA, was located in Argentina. We lease our headquarters, located at Bolívar 108, C1066AAD and Moreno 877, piso 22, C1091AAQ Buenos Aires, Argentina, pursuant to two lease agreements that expire on February 28, 2014 and November 30, 2008, respectively

Table of Contents

- (1) Total leaseable area for each property. Excludes common areas and parking spaces.
- (2) Cost of acquisition or development, plus improvements, (adjusted for inflation until 02/28/03) less accumulated depreciation and impairment allowances.
- (3) Through IBSA.
- (4) We have mortgaged certain real estate properties (13 functional units at Libertador 498, 71 complementary units in Laminar Plaza and 19 complementary units in Dock IV) in connection with the issuance of the Collateralized Notes. On June 30, 2005 mortgaged properties had a net book value of Ps. 85.5 million and an outstanding principal amount of Ps. 102.5 million. The balance due at maturity is Ps. 10.8 million.
- (5) Includes Thames, one unit in Alto Palermo Park (through IBSA) and Commercial places Abril (through IRSA and IBSA).
- (6) Through APSA. We own a 51% interest in ERSA. Currently our shares of Emprendimiento Recoleta S.A. are pledged.
- (7) Shopping Alto Palermo (SAPSA) is owned by APSA. On January 18, 2001, (i) APSA issued Series A Senior Notes for US\$ 40 million and (ii) APSA and SAPSA co-issued Series B Senior Notes for US\$ 80 million that will be severally paid by APSA and SAPSA. The Series A and B Senior Notes are due in 2005. The payment of the total amount of the Senior Notes is guaranteed by a Trust Agreement pursuant to which all of APSA s shares of SAPSA were transferred to a trust. The Trust Agreement was entered into on January 16, 2001 between APSA and Ritelco, as shareholders of SAPSA and as Trustors, Río Trust S.A., as Trustee, and the holders of the Senior Notes as Beneficiaries. At June 30, 2005, we fully cancelled the Senior Notes outstanding.
- (8) Through Buenos Aires Trade & Finance Center S.A. on November 2004, we signed an exchange deed for one of the three parcels in which our plot is divided whereby DYPSA agreed to pay US\$ 8,030,000 through the exchange of 28.50% of the total meters to be constructed.
- (9) Directly through IRSA and indirectly through IBSA.
- (10) Includes the following land reserves: Torres Jardín IV, Edificios Cruceros, Concepción Arenales, Dorrego 1916, Padilla 902 and Puerto Madero Dock 13 (through IRSA), Intercontinental Plaza II (through IBSA) and Terrenos Alcorta, Caballito Torres Abasto and the Coto project (through APSA).
- (11) Includes the following land reserves: Terrenos Pilar and Villa Celina (through IRSA), Pontevedra, Merlo and Benavídez (through IBSA), Terrenos Rosario (through APSA); lots Abril (through IRSA, IBSA and Baldovinos S.A.)
- (12) Included Terrenos Neuquén (through APSA).
- (13) At June 30, 2005, Shopping Neuquén S.A. included a Ps. 41,792 loan secured by a mortgage on the land.
- (14) In January 2001 our subsidiary Hoteles Argentinos, owner of 100% of the Sheraton Libertador, obtained a loan from Bank Boston N.A. for US\$ 12.0 million. Subsequently, Bank Boston sold this loan to Marathon Master Fund Ltd. This loan is due in January 2006 with interest being payable quarterly at Libor plus a spread ranging between 401 and 476 basis points, depending on the value of certain financial ratios. This loan was not converted into Pesos and it is stated in U.S. Dollars because it is governed by the laws of the State of New York. There are currently installments of the principal and interest that are overdue and unpaid. This loan is with no recourse to us. On December 16,

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

2004, our wholly-owned subsidiary Ritelco S.A. acquired 100% of the debt Hoteles Argentinos had with Marathon Master Fund, Ltd. Ritelco S.A. paid a total amount of US\$ 8.0 million. In March 2005 Credit Suisse First Boston International (CSFB) purchased the credit on the HASA debt and we entered into an agreement with CSFB pursuant to which, among other things, we guarantee the payment of the debt owed by HASA and in the event of non-compliance we shall repurchase the loan agreement for US\$ 8.0 million. As guarantee for this transaction, we made a payment of US\$ 2.0 million. HASA must present a restructuring plan of the loan prior to March 15, 2006. The loan is collateralized by a mortgage on this property.

- (15) In connection with the purchase of the plot of land where we are currently constructing San Martin de Tours project, we have assumed a mortgage payable which will be settled at the end of the construction through the delivery of certain apartments. This debt is valued at the higher of the purchase price or the estimated cost of construction and subsequent transfer of the units to be delivered.
- (16) The Company has a first mortgage on this property as guarantee of the amount owed for its purchase which totaled US\$ 17.3 million at June 30, 2005. On July 1, 2005 we paid US\$ 0.4 million related to the first installment of the mortgage and on July 26, 2005 we signed an amendment to the mortgage pursuant to which we made a partial prepayment of US\$ 3.2 million and agreed to settle the balance of US\$ 13.6 million in 34 monthly equal and consecutive installments of US\$ 0.5 million each (including interest at a rate of 8.5%).

We do not currently lease any material properties other than our headquarters.

Insurance

We carry liability and fire insurance with respect to all of our properties. Such insurance policies have specifications, limits and deductibles customary for the community where the property is located. We believe that the insurance coverage for our properties is adequate.

Table of Contents

ITEM 5. Operating and Financial Review and Prospects

A. Operating Results

The following Operating and financial review and prospects should be read together with Item 3: Key Information Selected Financial Data and our financial statements appearing elsewhere in this annual report. This Operating and Financial Review and Prospects discussion contains forward-looking statements that involve risks, uncertainties and assumptions. These forward-looking statements include, among others, those statements including the words expects, anticipates, intends, believes and similar language. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of many risk factors, including those set forth elsewhere in this annual report.

For purposes of the following discussion, unless otherwise specified, references to fiscal years 2005, 2004 and 2003 relate to the fiscal years ended June 30, 2005, 2004 and 2003 respectively.

Our financial statements are presented in thousands of Pesos. Except as discussed in the following paragraph, our financial statements are prepared in accordance with Argentine GAAP and the *Comisión Nacional de Valores* regulations, which differ in certain significant respects from U.S. GAAP. Note 23 to our Consolidated Financial Statements provides a description of the principal differences between Argentine GAAP and U.S. GAAP affecting our consolidated figures and a reconciliation to U.S. GAAP of net income reported under Argentine GAAP for the years ended June 30, 2005, 2004 and 2003, and of shareholders' equity reported under Argentine GAAP as of June 30, 2005 and 2004. The differences involve methods of measuring the amounts shown in the financial statements as well as additional disclosures required by U.S. GAAP and regulations of the SEC.

As discussed in Notes 2.c. and 3.m. to our Consolidated Financial Statements, contained elsewhere in this annual report, in order to comply with *Comisión Nacional de Valores* regulations, we discontinued inflation accounting as of March 1, 2003 as well as recognized deferred income tax assets and liabilities on a non-discounted basis. These accounting practices represent departures from generally accepted accounting principles in Argentina. However, such departures have not had a material effect on our Consolidated Financial Statements.

Critical Accounting Policies and Estimates

In connection with the preparation of the financial statements included in this annual report, we have relied on variables and assumptions derived from historical experience and various other factors that we deemed reasonable and relevant. Although we review these estimates and assumptions in the ordinary course of business, the portrayal of our financial condition and results of operation often requires our management to make judgments regarding the effects of matters that are inherently uncertain on the carrying value of our assets and liabilities. Actual results may differ from those estimated under different variables, assumptions or conditions. In order to provide an understanding about how management forms its judgments about future events, including the variables and assumptions underlying the estimates, and the sensitivity of those judgments to different variables and conditions, we have included comments related to each critical accounting policy described as follows:

provision for allowances and contingencies;

impairment of long-lived assets;

debt restructuring;

deferred income tax;

asset tax credits

The Consolidated Financial Statements have been prepared in accordance with generally accepted accounting principles used in Argentina and regulations of the *Comisión Nacional de Valores* which differ in certain significant respects from generally accepted accounting principles in the United States of America. Such differences involve methods of measuring the amounts shown in the financial statements, as well as additional disclosures required by U.S. GAAP and regulations of the SEC.

Provision for allowances and contingencies

We provide for losses relating to mortgage, lease and other accounts receivable. The allowance for losses is recognized when, based on current information and events, it is probable that we will be unable to collect all amounts due according to the terms of the agreements. The allowance is determined on a one-by-one basis considering the present value of expected future cash flow or the fair value of collateral if the loan is collateral dependent, when applicable. While we use the information available to make evaluations, future adjustments to the allowance may be necessary if future economic conditions differ substantially from the assumptions used in making these evaluations. We have considered all events and/or transactions that are subject to reasonable and normal methods of estimations, and our Consolidated Financial Statements reflect that consideration.

We have certain contingent liabilities with respect to existing or potential claims, lawsuits and other proceedings, including those involving labor and other matters. We accrue liabilities when it is probable that future costs will be incurred and such costs can be reasonably estimated. Such accruals are based on developments to date, our estimate of the outcomes of these matters and our lawyers' experience in contesting, litigating and settling other matters. As the scope of the liabilities becomes better defined, there may be changes in the estimates of future costs, which could have a material effect on our future results of operations and financial condition or liquidity.

Table of Contents

Impairment of long-lived assets

We periodically evaluate the carrying value of our long-lived assets for impairment when events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. We consider the carrying value of a long-lived asset to be impaired when the expected cash flows, undiscounted and without interest, from such asset are separately identifiable and less than its carrying value. In that event, a loss would be recognized based on the amount by which the carrying value exceeds the fair market value of the long-lived asset. We determine the fair market value primarily using independent appraisal valuations and utilizing anticipated cash flows discounted at a rate commensurate to the risk involved.

Under Argentine GAAP a previously recognized impairment loss is reversed when there is a subsequent change in estimates used to compute the fair market value of the asset. In that event, the new carrying value of the asset is the lower of its fair market value or the net carrying value the asset would have had if no impairment would have been recognized. Both the impairment charge and the impairment reversal are recognized in earnings. US GAAP prohibits the reversal of a previously recognized impairment charge.

We believe that the accounting policy related to the impairment of long-lived assets is a critical accounting policy because:

it is highly susceptible to change from period to period because it requires company management to make assumptions, such as future revenues and costs, future vacancy rates and future prices; and

the impact that recognizing or reversing an impairment would have on assets reported on our balance sheet, as well as on the results of our operations, could be material. Estimates about future prices and future vacancy rates require significant judgment because actual prices and vacancy rates have fluctuated in the past and are expected to continue to do so.

As of June 30, 2002 we reviewed our assets related to Development and sales of properties, Office and others, Hotels and Shopping Centers segments for impairments due to the continued deterioration of the Argentine economy. As a result, as of June 30, 2002 we had recognized an impairment of Ps. 140.6 million. During the years ended June 30, 2003 and 2005 we also recognized impairment losses totaling Ps. 14.0 million and Ps. 0.2 million, respectively. As a result of increases in their fair market values, during the years ended June, 30, 2003, 2004 and 2005 we partially reversed the impairment losses, recognizing gains of Ps. 25.4 million, Ps. 63.1 million and Ps. 28.2 million, respectively. Assets related to those four segments represent approximately 92% of our total long-lived assets as of June 30, 2005 and 2004.

Table of Contents

The fair market value of our office and retail buildings was determined following the rent value method, considering each property's future cash flow, competition and historical vacancy rates. The price per square meter of our properties varies based on the category and the type of building. For Class A buildings the average price per square meter used was Ps. 45 while for Class A/B buildings the average was Ps. 32.5 and for Class B/C buildings was Ps. 17.5. The average vacancy rates were calculated taking into account the last ten years. The performance of a sensitivity analysis, which reduced the fair market value of these properties by 5%, would have resulted in a smaller reversal of impairment losses as of June 30, 2005 of Ps. 3.7 million.

Valuation of shopping centers was performed according to the rent value method. We calculated discount rates considering each property's location, competition in its market, its historical vacancy rates and cash flow. The average discount rates we used were between 12.5% and 15.5%, the average price per leasable square meter was Ps. 6,904 and the average vacancy rate was calculated taking into consideration the actual vacancy. The performance of a sensitivity analysis, which reduced prices per square meter by 5%, would have resulted in a smaller reversal of impairment losses as of June 30, 2005 of Ps. 0.6 million.

We used the open market method for determining the fair market value of our land reserve and inventories. The performance of a sensitivity analysis, which reduced the fair market value of these properties by 5%, would have resulted in a smaller reversal of impairment losses as of June 30, 2005 of Ps. 2.7 million.

Debt restructuring

In November 2002 we completed the refinancing of our debt for a total amount of US\$ 103.4 million and we also completed the arrangement with our lenders to refinance the Syndicate Loan for US\$ 80 million and our Notes for US\$ 37 million.

Since the conditions of the new debt instruments were substantially different from the original conditions (as defined by Technical Resolution No. 17), we removed the original loans from the consolidated balance sheet and recognized the new debt instruments at the present value discounted at an 8% market interest rate. This rate was determined taking into consideration the rates that we used in reference to our local borrowings. As a result of the debt restructuring in 2003, we recognized a gain of Ps. 36.5 million (Ps. 31.7 million net of expenses incurred in the restructuring), which represents the difference between the present value of the new debt instruments and the carrying value of the old debts.

We believe that the accounting estimate related to debt restructuring was a critical accounting estimate because if we had calculated the present value of our debts using higher interest rates than 8%, we would have had a material impact on our debts reported on our balance sheet as well as on our financing results.

The utilization of interest rates other than 8% in calculating the present value of the new debts instruments would have the following effects on the related results for the fiscal year 2003:

<u>Interest Rates</u>	<u>Gain in millions Ps.</u>	<u>Impact on Net Income</u>	<u>Impact on Shareholder's equity</u>
-----------------------	---------------------------------	-----------------------------	---

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

11%	16	5.59%	1.98%
16%	47	16.40%	5.81%
23%	73	25.49%	9.02%

Deferred income tax

We recognize income tax using the liability method. Accordingly, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement

Table of Contents

carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recorded or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Technical Resolution No. 17 requires companies to record a valuation allowance for that component of net deferred tax assets which is not recoverable.

We provided a valuation allowance for a portion of our net deferred tax assets, as we do not consider the realization of the full tax benefit to be more likely than not. We considered all evidence, both positive and negative, in determining if a valuation allowance is needed for some portion or all our deferred tax assets. These evidences consist primarily in:

Limitations in the use of certain deferred tax assets, primarily tax loss carry forwards

Reversals of existing taxable temporary differences

Business projections

As a result of the evaluation of this evidence, we accounted for a valuation allowance of approximately 46% of our deferred tax assets, amounting to Ps. 42 million. Net deferred tax assets as of June 30, 2005 were to Ps. 92.2 million.

A decrease and an increase of 10%, 20% and 30% in the net result of our projections utilized in determining the valuation allowance of our deferred tax assets would have had the following impact:

Premises fluctuation	Valuation allowance in million	Additional (loss) /gain in million of Ps.	Impact on Net income	Impact on Shareholders equity
-10%	47	-5	-4.8%	-0.4%
-20%	52	-10	-9.7%	-0.8%
-30%	57	-15	-14.5%	-1.2%
10%	37	5	4.8%	0.4%
20%	32	10	9.7%	0.8%
30%	27	15	14.5%	1.2%

We believe that the accounting estimate related to deferred income tax is a critical accounting estimate because:

it is highly susceptible to change from period to period because it requires company management to make assumptions, such as future revenues and expenses, exchange rates and inflation among others; and

the impact that calculating income tax using this method would have on assets or liabilities reported on our consolidated balance sheet as well as on the income tax result reported in our consolidated statement of income could be material.

Asset tax credits

We calculate the asset tax provision by applying the current 1% rate on computable assets at the end of the year. This tax complements income tax. Our tax obligation in each year will coincide with the higher of the two taxes. However, if asset tax provision exceeds income tax in a given year, that amount in excess can be offset against income tax arising in any of the following ten years.

We have recognized the asset tax provision paid in previous years as a credit as we estimate that it will offset future years' income tax.

Table of Contents

We believe that the accounting policy related to asset tax provision is a critical accounting policy because it requires management to make estimates and assumptions with respect to our future results that are highly susceptible to change from period to period, and as such the impact on our financial position and results of operations could be material.

Overview

As described below, economic and political factors affecting Argentina as well as changes in interest rates and foreign currency have a substantial impact on our financial performance.

Effect on us of devaluation and economic crisis

All of our assets are located and our operations are performed in Argentina. Accordingly, our financial condition and results of operations depend substantially upon economic conditions prevailing in Argentina. Due to a four-year-old recession, the Argentine economy has deteriorated sharply. However, during year 2003 certain signals of recovery appeared in the economy, which continued strengthening during 2004 and 2005.

In the fourth quarter of 1998, the Argentine economy entered into a recession that caused the gross domestic product to decrease by 3.4% in 1999, 0.8% in 2000 and 4.4% in 2001, during the second half of 2001. Argentina's recession worsened significantly, precipitating a serious political and economic crisis. During 2002, the gross domestic product decreased 10.9% as compared to 2001. In 2003, the economy began to recover, closing the year with year-on-year growth of 11.7%. Exceeding growth expectations, in 2004 the GDP increased 9.0% in comparison with 2003. Estimates are that during 2005 the GDP will increase 7.5% in comparison with 2004, consolidating the economy expansion.

On December 23, 2001, President Adolfo Rodríguez Saá declared the suspension of the payment of foreign debt and later Eduardo Duhalde ratified his decision. On January 6, 2002, the Congress enacted the Public Emergency Law which repeals several provisions of the Convertibility Law which prevailed in Argentina for 10 years, and the executive branch announced the devaluation of the Peso are settled in the Domestic Exchange Market (*Mercado Unico y Libre de Cambios*) at a floating market rate depending on supply and demand. This new legislation had a material adverse impact on our financial position and the results of our operations in fiscal year 2002, which was mostly offset during fiscal year 2003, 2004 and 2005.

During fiscal year 2005, the Government of President Néstor Kirchner submitted a proposal to creditors to continue the payments of the external debt. We would mention that the official offer of the sovereign debt exchange obtained very good results and was 76.07% supported by creditors. The Government was able to record a partial remission of the debt of 65.2% in terms of current value, which exceeds any remission recorded in any other debt restructuring process in other countries. This significant advancement represented an opportunity for the country to recover international market confidence and permitted the formation of a more feasible economic environment, which in turn will encourage the confirmation of future investments.

Effects of inflation

The devaluation of the Argentine Peso by the Executive Power encompasses the risk of a significant inflation increase.

Table of Contents

The Argentine Ministry of Economy has published the following inflation indexes which reflect variations with respect to the same month of the previous year.

<u>Year ended June 30,</u>	<u>Consumer Price Index</u>	<u>Wholesale Price Index</u>
2001	-0.3%	-1.6%
2002	28.4%	95.6%
2003	10.2%	8.3%
2004	4.9%	0.1%
2005	9.0%	7.7%

In 2005, inflation was one of the main topics of the economy. Retail prices accumulated an important increase during the first part of the year, generating concern about the future retail prices, as it is difficult to estimate an inflation rate for year-end which would be lower than the high level of 10.5% estimated by the Ministry of Economy and Production at the beginning of 2005. Such an increase of the inflation risk could erode the macroeconomic stability currently attained and would adversely impact our operation.

Effects of interest rate fluctuations

Most of our U.S. Dollar denominated debt accrues interest at a floating rate. An increase in interest rates implies a significant increase of our financial costs and materially affects our financial condition and our results of operations.

Effects of foreign currency fluctuations

A significant portion of our financial debt is denominated in U.S. Dollars. Therefore, a devaluation of the Argentine Peso against the U.S. Dollar would increase our indebtedness measured in Pesos and materially affect our results of operations. Foreign currency exchange rate fluctuations significantly increase the risk of default on our mortgages and lease receivables. Due to the fact that many of our customers have their cash flows in Pesos, a fluctuation of exchange rate may increase their U.S. Dollar-denominated liabilities. Foreign currency exchange restrictions hereafter imposed by the Argentine Government could prevent or restrict our access to U.S. Dollars, affecting our ability to service our U.S. Dollar denominated liabilities.

Operating costs and expenses**Allocation of selling expenses to business segments**

Selling expenses related to the shopping centers and hotels segments are directly allocated to such segments because such segments are individually managed and clearly identifiable. The remaining selling expenses are allocated among the development and sale of properties and offices and other non-shopping center rental properties segments, excluding, if existing, those located in shopping centers and hotels, based on the cost center which originated them.

Allocation of administrative expenses to business segments

Administrative expenses related to our shopping centers and hotel business segments are directly attributable to such segments because such segments are individually managed and are clearly identifiable. The remaining administrative expenses are allocated as follows:

57.80% of the Administrative expenses, without considering the original cost center, have been assigned to the Sales and Development segment, and 42.20% to the Offices and Other buildings for rental segment. Such percentages are calculated on the basis of operating assets and on revenues generated by each segment.

Administration expenses of the APSA cost center or hotels are assigned directly to the Shopping Centers and Hotels segments.

Table of Contents

Allocation of results from the rescission of towers

These results derived from the rescinding of purchase agreements for units in Torres de Abasto in APSA and were allocated to Sales and Developments .

Allocation of profits from our interest in the Tarjeta Shopping trust funds

This allocation of profits stems from the retained interests of APSA in the Tarjeta Shopping trusts. These profits have been allocated to the Shopping Centers segment.

Allocation of results from operations and holding of real estate assets

These results are allocated to the segment that generates them.

Allocation of the goodwill amortization

This includes mainly the amortization of goodwill stemming from the acquisition of APSA and APSA's subsidiaries, which is allocated to the Shopping Centers segment.

Allocation of other expenses and revenues to business segments

Financial Results. Includes interest income, interest on discounting assets and liabilities, gain on financial operations, financial expenses, gain on exposure to inflation, exchange gain (loss) and other financial results which can be allocated to each segment, as described below:

Gain on financial operations. Only income related to Shopping Centers and Hotels were segregated by segment, as in these cases each of them manages the financial surplus recorded. The remaining amounts are recognized under Financial Operations and Others as they are not directly related to any specific segment.

Interest income, interest on discounting of assets and liabilities and financial expenses. Only the results generated by APSA and Hotels are recorded in the Shopping Centers and Hotels segments. The remaining results are prorated among Sales and Development, Offices and Others, Hotels, Shopping Centers and Financial Operations and Others in proportion to the corresponding assets of each segment.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Gain on exposure to inflation, exchange gain (loss) and other financial results. In the case of Shopping Centers and Hotels, they are charged to the segments giving rise to them. The remaining items are recorded in Financial and Other operations as they are not directly related to any segment.

Gain on equity investments. It is allocated to the corresponding segments. Gain on equity investments carrying out activities not falling under any of our segments are recorded under Financial and Other operations .

Other expenses, net. Only those associated to Shopping Centers and Hotels are segregated by segment. The remaining items are allocated to Financial and Other operations as they are not directly related to any segment.

Minority interest. This result is allocated among the segments of the company that generate it.

Income tax and asset tax. The corresponding income tax and asset tax is allocated to each segment.

Table of Contents

Business Segment Reporting

We have determined that our reportable segments are those that are based on our method of internal reporting. Accordingly, we have five reportable segments. These segments are development and sales of properties, office and other non-shopping center rental properties, shopping centers, hotel operations and financial operations and others. The Consolidated Financial Statements were prepared in accordance with the procedure established by Technical Resolution No. 21 of the F.A.C.P.C.E. (*Federación Argentina de Consejos Profesionales de Ciencias Económicas*), which requires the consolidation of every line of our balance sheets, statements of income and statements of cash flows, with the financial statements of those companies in which we have direct or indirect control.

A general description of each segment follows:

Development and sale of properties. This segment includes the operating results of our construction and ultimate sale of residential buildings business.

Offices and other non-shopping center rental properties. This segment includes the operating results of our lease and service revenues of office space and other non-retail building properties from tenants.

Shopping centers. This segment includes the operating results of our shopping centers principally comprised of lease and service revenues from tenants. This segment also includes revenues derived from credit card transactions which consist of commissions and financing income.

Hotel operations. This segment includes the operating results of our hotels principally comprised of room, catering and restaurant revenues.

Financial operations and others. This segment primarily includes revenues and associated costs generated from the sale of equity securities, other securities-related transactions and other non-core activities.

We measure our reportable segments based on net income. Inter-segment transactions, if any, are accounted for at current market prices. We evaluate performance and allocate our resources to each segment based on net income. We do not depend on any single client.

Results of Operations for the fiscal years ended June 30, 2005 and 2004.**Revenues**

Revenues increased by 41.8% from Ps. 260.8 million for the fiscal year ended June 30, 2004 to Ps. 369.9 million for the fiscal year ended June 30, 2005. This increase is due to an increase in revenues from all our business units.

Development and Sale of Properties. Revenues from development and sale of properties increased by 6.8%, from Ps. 30.3 million for the fiscal year ended June 30, 2004, to Ps. 32.3 million for the fiscal year ended June 30, 2005. The increase in revenues in the development and sale of properties segment was mainly attributable to the net effect of (i) the Ps. 23.6 million increase in sales of Dock III; (ii) the Ps. 3.5 million decrease in sales from the residential communities of Abril, which decreased by 48%; (iii) the Ps. 11.8 million decrease in sales of undeveloped parcels of land arising from non-recurring sales during the past fiscal year of Benavidez; and (iv) the decrease of Ps. 5.9 million in the sale of other real estate, due to the non-recurring sale of Dock II for Ps. 5.2 million.

Offices and other non shopping center rental properties. Revenues from *Offices and other non shopping center rental properties* increased by 28.3%, from Ps. 15.1 million for the fiscal year ended

Table of Contents

June 30, 2004, to Ps. 19.4 million for the fiscal year ended June 30, 2005. This increase is mainly due to a 29.7% increase in revenues from office rents, from Ps. 13.8 million in the fiscal year ended June 30, 2004, to Ps. 17.9 million for the fiscal year ended June 30, 2005. This increase in revenues is attributed to (i) the increase in the occupancy rates and monthly rental income of the majority of the buildings, principally in Intercontinental Plaza Tower for Ps. 1.2 million, Maipú 1300 for Ps. 0.8 million, Costeros Dock IV for Ps. 0.6 million and Libertador 498 for Ps. 0.5 million, and (ii) the purchase of Bouchard 710, a new building for lease which provided revenues of Ps. 0.4 million during June 2005. The percentage of room occupied in this segment increased by 13% from 76% as of June 2004 to 89% as of June 2005.

Shopping Centers. Revenues from Shopping centers increased by 60.6 % from Ps. 143.2 million during the fiscal year ended June 30, 2004, to Ps. 230.2 million during the fiscal year ended June 30, 2005. The increase is attributed principally to (i) an increase of 46.2% in revenues from leases and services, from Ps. 113.2 million to 165.5 million mainly due to a sustained increase of 29.6% in sales of our tenants (from Ps. 1.148 million in 2004 to Ps. 1.488 million in 2005) shown in the growth of our revenues from rental and admission rights for Ps. 37.7 million, the inclusion of Mendoza Plaza Shopping's revenues of Ps. 9.2 million resulting from the consolidation of such company as from October 1, 2004 due to gaining control as a result of the acquisition of an additional 49.9% interest and the inauguration of Alto Rosario Shopping that took place on November 9, 2004 which produced an increase in revenues of Ps. 5.5 million and (ii) an increase of 114.9% in revenues from credit card operations from Ps. 30.0 million to Ps. 64.6 million due to the growth of our customer portfolio, our sales and the number of cardholders, all driven by the economic recovery that has taken place during the year, which led Tarjeta Shopping to the opening of new branches in different cities country-wide. This last fact generated a significant growth of the credit portfolio, which went from Ps. 92 million in fiscal year 2004 to Ps. 204 million in 2005 (the securitized portfolio included). The percentage of occupancy rates of our Shopping centers stayed at 99% during this year.

Hotels. Revenues from hotel operations increased by 22.2%, from Ps. 71.3 million for the fiscal year ended June 30, 2004 to Ps. 87.1 million for the fiscal year ended June 30, 2005, due to an increase in average price per room from Llao Llao from Ps. 460 during fiscal year 2004 to Ps. 547 during fiscal year 2005 and an increase in average occupancy in all our hotels, from 68% during the fiscal year 2004 to 75% during the fiscal year 2005. Revenues from Hotel Sheraton Libertador increased by Ps. 4.9 million, revenues from the Hotel Intercontinental increased by Ps. 7.1 million and revenues from Hotel Llao Llao increased by Ps. 3.8 million.

Financial operations and others. Revenues from Financial operations and others remained constant at Ps. 0.9 million both fiscal years. Revenues included in this line represent fees for services with no specific allocation to any of the previous segments.

Costs

Costs increased by 13.2%, from Ps. 147.4 million during the fiscal year ended June 30, 2004 to Ps. 166.8 million for the fiscal year ended June 30, 2005. This variation is mainly due to the net effect of (i) an increase in costs in the Shopping centers and Hotels and (ii) a decrease in costs in the Development and sale of properties and Offices and other non-shopping rental property segments. Costs as a percentage of revenues decreased from 56.5% for the fiscal year ended June 30, 2004 to 45.1% for the fiscal year ended June 30, 2005.

Development and Sale of Properties. Costs related to Development and Sale of Properties decreased by 34.5%, from Ps. 25.9 million for the fiscal year ended June 30, 2004 to Ps. 16.9 million for the fiscal year ended June 30, 2005 as a result of a decrease in the operation volume of sales as well as to a low cost of sales in the case of Dock III in comparison with costs of sales recorded in the cases of Benavidez and Dock II. Costs relating to Development and Sale of Properties as a percentage of revenues from the segment decreased from 85.1% during the fiscal year ended June 30, 2004 to 52.5% during the fiscal year ended June 30, 2005.

Table of Contents

Offices and other non shopping center rental properties. Costs of Offices and other non shopping center rental properties decreased by 7.2%, from Ps 8.3 million during the fiscal year ended June 30, 2004 to Ps. 7.7 million during the fiscal year ended June 30, 2005. This decrease in cost of Offices and other segment was mainly due to a reduction in maintenance expenses of vacant space in our buildings during this year as a result of higher occupancy rates in our buildings. The main component of cost of offices is the depreciation of leased properties.

Shopping Centers. Costs related to Shopping centers increased by 27.3% from Ps. 72.4 million in the fiscal year ended June 2004 to Ps. 92.4 million in the fiscal year ended June 30, 2005. This increase is due to: (i) an increase of 14.2% in leases and services costs mainly due to a Ps. 4.9 million cost resulting from the opening of Alto Rosario Shopping and a Ps. 3.2 million cost relating to the consolidation of Mendoza Plaza Shopping S.A. as of October 2004. The expenses that were modified are charges for amortization and non-recovered expenses; and (ii) a 77.1% increase of credit card operations cost due to an increase of Ps. 3.6 million in expenses arising from salaries and social security charges and of Ps. 1.5 million in taxes, duties and contributions as a result of the expansion and opening of new branches, a higher charge in commissions and interest of Ps. 2.3 million and an increase in fee and services expenses of Ps. 1.6 million, due to the new issues of the securitization program.

Hotels. Costs from hotel operations increased by 22.2%, from Ps. 40.0 million during the fiscal year ended June 30, 2004 to Ps. 48.9 million during the fiscal year ended June 30, 2005, primarily due to the increase in revenues. Higher costs of hotels are also due to an increase in depreciation and salaries and social security contributions. Costs relating to hotel operations as a percentage of revenues from the segment remained constant at 56.2% for both fiscal years.

Financial operations and Others. Costs from Financial operations and other segments increased by 25% from Ps. 0.8 million for the fiscal year ended June 30, 2004 to Ps. 0.9 million for the fiscal year ended June 30, 2005. Costs included in this line represent expenses incurred in the rendering of services that generate revenues.

Gross Profit

As a result of the foregoing, the gross profit increased by 79.1%, from Ps. 113.4 million during the fiscal year ended June 30, 2004 to Ps 203.1 million during the fiscal year ended June 30, 2005.

Gain from valuation of inventories at fair market value

This line was generated during the current year and arises as a result of valuing at fair market value those inventories on which we have received advances that fix prices, and the contract terms and conditions of the transactions that we have signed assure the effective conclusion of the sale and the gain. Such a valuation criteria was principally applied to the Cruceros and Dock III undertakings in a total amount of Ps. 17.3 million.

Selling Expenses

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Selling expenses increased by 72.3%, from Ps. 22.0 million during the fiscal year ended June 30, 2004 to Ps. 37.9 million during the fiscal year ended June 30, 2005, primarily due to the net effect of (i) a decrease in sales and developments selling expenses and (ii) an increase in Offices and others, Shopping Centers and Hotels selling expenses. Selling expenses as a percentage of revenues increased from 8.4% during the fiscal year ended June 30, 2004, to 10.2% during the fiscal year ended June 30, 2005.

Development and Sale of Properties. Selling expenses from Development and Sale of Properties decreased by 35.2%, from Ps. 4.0 million during the fiscal year ended June 30, 2004 to Ps. 2.6 million during the fiscal year ended June 30, 2005, as a consequence of the decrease in sales operations during this fiscal year and due to the fact that the principal sale transaction of the current period, Dock III, had no

Table of Contents

direct commercial expenses or significant commissions. Main components of selling expenses of Development and Sale of Properties are commissions and expenses from sales, sealing and gross sales tax.

Offices and other non shopping center rental properties. Selling expenses relating to Offices and other non shopping center rental properties increased from Ps. 0.05 million during the fiscal year ended June 30, 2004 to Ps. 0.9 million during the fiscal year ended June 30, 2005. The increase of marketing expenses is principally related to the increase in revenues in such segment.

Shopping Centers. Selling expenses relating to Shopping centers increased by 150.4% from Ps. 9.8 million during the fiscal year ended June 30, 2004 to Ps. 24.6 million during the fiscal year ended June 30, 2005. The increase was mainly due to the following: (i) selling expenses from leases and services increased by 109.4%, from Ps. 5.2 million for the fiscal year ended June 30, 2004 to Ps. 10.9 million for the fiscal year ended June 30, 2005, mainly due to an increase of Ps. 3.4 million in provision for bad debts, an increase of Ps. 1.4 million in turnover taxes in line with our higher revenues, the inclusion of expenses of Mendoza Plaza Shopping for 1.3 million due to its consolidation, and stamp taxes due to the opening of Alto Rosario of Ps. 0.4 million; and (ii) marketing expenses of Credit Cards increased from Ps. 4.5 million during year 2004 to Ps. 13.5 million during fiscal year 2005 due to an increase of Ps. 6.3 million in advertising expenses, a higher charge of Ps. 2.1 million in turnover taxes as a result of our higher revenues, and an increase in bad debts of Ps. 0.5 million in line with the growth of our credit portfolio.

Hotels. Selling expenses relating to Hotel s operations increased by 20.1% from Ps. 8.2 million during fiscal year 2004 to Ps. 9.8 million during fiscal year 2005, manly due to an increase in the gross sales tax, salary and social security and the tourism agencies commissions due to an increase in revenues in the segment in line with higher activities.

Administrative Expenses

Administrative expenses increased by 38.8%, from Ps. 50.2 million during fiscal year 2004 to Ps. 69.7 million during fiscal year 2005, due to an increase in administrative expenses relating to all business units. The main components of administrative expenses are salaries and social security, fees and compensation for services, and depreciation and amortization.

Development and Sale of Properties. Administrative expenses of Development and Sale of Properties increased by 42.2%, from Ps. 6.7 million during the fiscal year ended June 30, 2004 to Ps. 9.5 million for the fiscal year ended June 30, 2005, primarily due to (i) a Ps. 1.1 million increase in salary and social security; (ii) a Ps. 0.6 million increase in Directors fees; and (iii) the change in percentages of pro-rata allocation of the administration expenses between both fiscal years among this segment, and Offices and other non-shopping center leased properties segment. Administrative expenses of Development and Sale of Properties as a percentage of revenues from this segment increased from 22.1% during the fiscal year ended June 30, 2004 to 29.5% during the fiscal year ended June 30, 2005.

Offices and other non-shopping center leased properties. Administrative expenses of Offices and other non-shopping center leased properties increased by 113.0%, from Ps. 4.3 million during the fiscal year ended June 30, 2004 to Ps. 9.2 million during the fiscal year ended June 30, 2005. The increase is mainly due to the change in percentages of pro-rata allocation of the administration expenses between both fiscal years among this segment and the Development and Sale of Properties segment and, in a lesser degree, a Ps. 0.8 million increase in salaries and social security charges and a Ps. 0.4 million increase in Directors fees.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Shopping Centers. Administrative expenses of Shopping centers increased by 33.7%, from Ps. 23.6 million during the fiscal year ended June 30, 2004 to Ps. 31.6 million during the fiscal year ended June 30, 2005, primarily as a result of (i) the increase in administrative expenses from leases and services as a result of: the consolidation of Mendoza Plaza Shopping s administrative expenses of Ps. 1.3 million, an increase of the board of directors' fees of Ps. 1.5 million, an increase of the amount of salaries, bonuses and social

Table of Contents

security charges of Ps. 1.4 million and an increase of tax charges, duties and contributions of Ps. 1.1 million, mainly due to an increase of the financial transactions tax; (ii) the increase in administrative expenses from credit card operations of Ps. 6.7 million mainly due to: increases in the amount of salaries, bonuses and social security charges as a consequence of an increase in the Company's payroll, in fees and third parties services related to new issues of our securitization programs and in tax charges, duties and contributions and rent expenses due to the opening of new branches and (iii) the decrease of Ps. 4.0 million in other administrative expenses allocated to Shopping Centers segment due to the change in percentages of pro-rata between both fiscal years.

Hotels. Administrative expenses of Hotels increased by 24.5%, from Ps. 15.6 million for the fiscal year ended June 30, 2004 to Ps. 19.4 million during the fiscal year ended June 30, 2005, mainly due to (i) a Ps. 2.6 million increase from Hotel Llo Llo as a consequence of the increase in taxes, services and salaries, which was mainly due to the higher payroll and higher salaries attributable to the increase in the hotel activity. The increase in taxes and rates is mainly due to the higher municipal tax and the financial transaction tax; (ii) a Ps. 0.9 million increase from Sheraton Libertador hotels, as a consequence of the increase in fees and compensation for services; and (iii) a Ps. 1.0 million increase from Hotel Intercontinental. Administrative expenses of Hotels as a percentage of revenues from hotel operations increased from 21.9% during the fiscal year ended June 30, 2004 to 22.3% during the fiscal year ended June 30, 2005.

Gain in Credit Card Trust

This result stems from the retained interests held by Alto Palermo in the Tarjeta Shopping Credit Card Trusts. The results of Credit Card trusts increased from Ps. 0.3 million during fiscal year 2004 to Ps. 0.4 million during fiscal year 2005.

Gain from Operations and Holdings of Real Estate Assets, net

The results from operations and holdings of real estate assets, net, decreased from one year to another by Ps. 35.2 million, from a gain of Ps. 63.1 million for the fiscal year ended June 30, 2004 to a gain of Ps. 27.9 million for the fiscal year ended June 30, 2005. The lower income generated during the present year in comparison with the previous year is due to a lower amount of recovery of the allowance for the impairment of real estate assets.

Operating Income

As a result of the foregoing, our operating income increased by 35.1% from a profit of Ps. 104.6 million during the fiscal year ended June 30, 2004 to a profit of Ps. 141.2 million during fiscal year 2005.

Development and Sale of Properties. Operating income from Development and Sales of properties increased from Ps. 0.7 million during the fiscal year ended June 30, 2004 to Ps. 21.1 million for the fiscal year ended June 30, 2005.

Offices and other non-shopping center rental properties. Operating income from Offices and other non-shopping center leased properties decreased from Ps. 30.2 million during the fiscal year ended June 30, 2004 to Ps. 13.8 million for fiscal year 2005.

Shopping Centers. Operating income from Shopping Centers increased from Ps. 63.4 million during fiscal year 2004 to Ps. 95.2 million during fiscal year 2005.

Hotels. Operating income from hotels increased by 9.1% from Ps. 10.2 million during fiscal year 2004 to Ps. 11.1 million during fiscal year 2005.

Table of Contents

Financial operations and Others. Operating income from Financial Operations and Others segment decreased by Ps. 0.1 million from a gain of Ps. 0.06 million for the year ended June 30, 2004 to a loss of Ps. 0.04 million for the fiscal year ended June 30, 2005.

Amortization of goodwill

The loss reported under this heading mainly includes (i) the amortization of goodwill stemming from the acquisition of APSA's subsidiaries: Shopping Alto Palermo S.A. (SAPSA), Fibesa S.A. and Tarshop S.A.; and (ii) the amortization of the negative goodwill from the purchase of stock in APSA. Amortization of goodwill decreased by 42.7% from Ps. 2.9 million during fiscal year 2004 to Ps. 1.7 million during fiscal year 2005, largely due to positive amortization related to an increase in negative goodwill during the current year.

Financial results, net

Financial results, net showed a variation of Ps. 23.8 million, from a gain of Ps. 11.6 million during the fiscal year ended June 30, 2004 to a loss of Ps. 12.2 million during the fiscal year ended June 30, 2005. The main reasons for this variation were: (i) the exchange difference gain with regard to the previous year amounting to Ps. 17.0 million, owing to the appreciation of the Peso to the U.S. Dollar from 2.958 in 2004 to 2.887 in 2005; (ii) a gain of Ps. 48.7 million generated in the previous year from Banco Hipotecario shares, that, as a result of a change in valuation criteria, were recorded using the equity method of accounting, disclosed under Equity gain (loss) from related parties in the Income Statement, (iii) the lower discounts obtained this year amounting to Ps. 5.0 million; and (iv) the Ps. 13.2 million decrease of financial costs due mainly to the decrease in financial debt as a consequence of conversions of our convertible notes made by holders and the settlement of APSA Notes and Senior Notes.

Equity gain (loss) from related companies

Gain from related companies increased by Ps. 40.2 million from Ps. 26.7 million during the fiscal year ended June 30, 2004 to Ps. 66.9 million during the fiscal year ended June 30, 2005. This increase is mainly due to: (i) a higher gain of Ps. 29.0 million recorded in the current year compared to previous year related to our investment in Banco Hipotecario, and (ii) a gain of Ps. 12.2 million during the fiscal year 2005 corresponding to the hotels segment.

Other expenses, net

Other expenses, net increased by Ps. 1.0 million, from a loss of Ps. 13.6 million during the fiscal year ended June 30, 2004 to a loss of Ps. 14.6 million during the fiscal year ended June 30, 2005, primarily due to the net effect of (i) an increase of Ps. 2.9 million in the tax on personal assets of shareholders; (ii) an increase in donations for Ps. 1.5 million; and (iii) a decrease of Ps. 3.3 million in the charge for contingencies due to lower exposures from lawsuits.

Income before Taxes and Minority Interest

As a result of the foregoing, income before taxes and minority interest increased by 42.1%, from Ps. 126.4 million during the fiscal year ended June 30, 2004, to Ps. 179.6 million during fiscal year 2005.

Minority Interest

Minority interest increased by 80.3% from a loss of Ps. 12.8 million during fiscal year 2004 to a loss of Ps. 23.2 million during fiscal year 2005, mainly due to (i) the increase in the results of the Shopping Center segment which increased the results of the minority shareholders, net of the increase in the Company's ownership interest in APSA; and (ii) the increase in the results of our subsidiary Palermo

Table of Contents

Invest which increased the results of the minority shareholders from Ps. 0.8 million during fiscal year 2004 to Ps. 2.1 million during fiscal year 2005.

Income Tax and Asset tax

Income tax and asset tax increased by Ps. 27.5 million, from Ps. 25.7 million during the fiscal year ended June 30, 2004, to Ps. 53.2 million during the fiscal year ended June 30, 2005. The effective tax rates for fiscal years 2005 and 2004 were 30% and 20%, respectively. These effective rates differ from the statutory tax rate mainly due to non-deductible amortization and depreciation charges originated by inflation accounting and the inventories costs considering that it have been adjusted by inflation in accordance with accounting principles. We record income taxes using the deferred tax method. Accordingly, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. We have treated the differences between the price-level restated amounts of assets and liabilities and their historical basis as permanent differences for deferred income tax calculation purposes as prescribed by Argentine GAAP.

Net income

As a result of the foregoing, net income increased by 17.5% from a gain of Ps. 87.9 million during the fiscal year ended June 30, 2004 to a gain of Ps. 103.2 million during the fiscal year ended June 30, 2005.

Results of Operations for the fiscal years ended June 30, 2004 and 2003.

Revenues

Revenues increased by 10.3%, from Ps. 236.5 million for the fiscal year ended June 30, 2003, to Ps. 260.8 million for the fiscal year ended June 30, 2004. This increase reflects a rise in revenues from the Shopping Center and Hotels segments, partially offset by a decrease in revenues from the Development and Sale of Properties and Offices and Other Non-shopping Center Leased Properties segments as discussed in detail below.

Development and Sale of Properties. Revenues from Development and Sale of Properties decreased by 35.0%, from Ps. 46.6 million for the fiscal year ended June 30, 2003, to Ps. 30.3 million for the fiscal year ended June 30, 2004. This decrease was attributable to (i) a Ps. 9.7 million reduction in sales of housing units principally in Alto Palermo Park as a result of the sale of this property during 2003; (ii) a Ps. 6.8 million decrease in sales of residential communities mainly Abril, which fell by 50%; and (iii) a Ps. 11.7 million decrease in sales of other properties due to the sale of Hotel Piscis for Ps. 9.9 million during 2003. Such decreases were partially offset by the sale of Benavídez in 2004 for Ps. 11.8 million.

Offices and other Non-shopping center leased properties. Revenues from Offices and other Non-shopping center leased properties decreased by 14.8%, from Ps. 17.8 million during the fiscal year ended June 30, 2003, to Ps. 15.1 million during the fiscal year ended June 30, 2004. This

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

decrease is mainly due to a decrease in revenues from leases primarily as a result of a decrease in the average rates and in the average occupancy level, from Ps. 16.2 million in the fiscal year ended June 30, 2003 to Ps. 13.8 million in the fiscal year ended June 30, 2004. This decrease in revenues from leases was attributed to (i) the decrease in monthly rental income during fiscal year 2004, especially in Intecontinental Plaza Tower (Ps. 1.5 million decrease) and Laminar Plaza (Ps. 0.6 million decrease), and (ii) the sale of three floors and several parking spaces in Madero 1020, which generated a reduction in leases of Ps. 0.8 million. This decrease was partially offset by a Ps. 0.4 million increase in revenue from Edificios Costeros, where the average occupancy level rose from 63% to 98%.

Table of Contents

Shopping Centers. Revenues from Shopping Centers increased by 25.8 %, from Ps. 113.8 million during the fiscal year ended June 30, 2003, to Ps. 143.2 million during the fiscal year ended June 30, 2004. The increase was attributed principally to a 26.5% increase in income from leases and services, from Ps. 88.8 million to Ps. 113.2 million, and an increase of 20.5% from Tarjeta Shopping's revenues, from Ps. 24.9 million to Ps. 30.0 million. The percentage of occupancy ratios of our Shopping Centers increased from 96% in fiscal year 2003 to 99% in fiscal year 2004.

Hotels. Revenues from Hotels went up 23.5%, from Ps. 57.7 million for the fiscal year ended June 30, 2003 to Ps. 71.3 million for the fiscal year ended June 30, 2004, as a result of an increase in Llao Llao's average price per room and an increase in average occupancy in all our hotels, from 57% during fiscal year 2003 to 68% during fiscal year 2004. Revenues from Hotel Sheraton Libertador increased by Ps. 4.1 million, revenues from Hotel Intercontinental increased by Ps. 3.8 million and revenues from Hotel Llao Llao increased by Ps. 6.0 million. Furthermore, during fiscal year 2003 we recognized sales from the Hotel Piscis for Ps. 0.3 million.

Financial operations and others. Revenues from Financial operations and others increased by 37.4% from Ps. 0.6 during the fiscal year ended June 30, 2003, to Ps. 0.9 million for the fiscal year ended June 30, 2004. Revenues included in this line represent fees for services with no specific allocation to any of the previous segments.

Costs

Total costs decreased by 4.7%, from Ps. 154.7 million during the fiscal year ended June 30, 2003 to Ps. 147.4 million for the fiscal year ended June 30, 2004. This reduction is the net result of (i) an increase in costs in the Shopping Centers and Hotels segments and (ii) a decrease in costs in the Development and Sale of Properties and Offices and Other Non-shopping Rental Properties segments.

Development and Sale of Properties. Costs related to Development and Sale of Properties decreased by 44.4%, from Ps. 46.5 million in the fiscal year ended June 30, 2003 to Ps. 25.9 million for the fiscal year ended June 30, 2004 mainly as a result of a decrease in total costs per square meter sold due to lower sales and to a lesser degree, as a result of a decrease in maintenance expenses of the available for sale properties due to a small portfolio. Costs relating to Development and Sale of Properties as a percentage of revenues from the segment decreased from 99.7% during the fiscal year ended June 30, 2003 to 86.2% during the fiscal year ended June 30, 2004.

Offices and other Non-shopping center leased properties. Costs of Offices and other Non-shopping center leased properties decreased by 9%, from Ps 9.1 million during the fiscal year ended June 30, 2003 to Ps. 8.3 million during the fiscal year ended June 30, 2004 due to a decrease in maintenance expenses of the available for rent properties. The main component of cost of Offices and Other is represented by the depreciation of leased properties, which remained stable.

Shopping Centers. Costs related to Shopping Centers increased by 8.0%, from Ps. 67.1 million in the fiscal year ended June 30, 2003 to Ps. 72.4 million in the fiscal year ended June 30, 2004. This increase was due to: (i) a 2.5% increase in leases and services costs resulting mainly from higher costs derived from car-parking of Ps. 0.9 million, increases in the number of personnel and an increase in security and cleaning costs, and to a lesser extent, because of (a) an increased depreciation charge of Ps. 0.6 million, (b) an increase in maintenance and repair costs of Ps. 0.2 million, that enable us to make changes to the areas to be leased, and (c) an increase in condominium expenses not recovered of Ps. 0.1 million because of the decision not to pass on the total amount of the increase in shared expenses to our tenants; and (ii) a 43.6% increase in costs from the credit card operation, due to the expansion that took place during the year, which included increasing personnel in the customer and store service departments and adapting the telephone assistance centers to new customer volumes.

Table of Contents

Hotels. Costs from hotel operations increased by 27.7%, from Ps. 31.4 million during the fiscal year ended June 30, 2003 to Ps. 40.0 million during the fiscal year ended June 30, 2004, primarily due to an increase of Ps. 2.8 million in salaries due to an increase in the staff of the hotels; (ii) an increase of Ps. 2.8 million in maintenance expenses and (iii) an increase of Ps. 1.5 million in direct costs such as food and beverages. Costs of hotels are primarily composed of depreciation, food and beverages, salaries and social security contributions. Costs relating to hotel operations as a percentage of revenues from the segment increased from 54.3% during the fiscal year ended June 30, 2003 to 56.2% during the fiscal year ended June 30, 2004.

Financial operations and Others. Costs from Financial operations and others segment increased by 36.2% from Ps. 0.6 for the fiscal year ended June 30, 2003 to Ps. 0.8 million for the fiscal year ended June 30, 2004. Costs included in this line represent expenses incurred in the rendering of services that generate revenues.

Gross Profit

As a result of the foregoing, gross profit increased by 38.6%, from Ps. 81.8 million during the fiscal year ended June 30, 2003 to Ps 113.4 million during the fiscal year ended June 30, 2004.

Selling Expenses

Selling expenses decreased by 23.0%, from Ps. 28.6 million during the fiscal year ended June 30, 2003 to Ps. 22.0 million during the fiscal year ended June 30, 2004, primarily due to the net effect of (i) a decrease in selling expenses in Development and Sale of Properties and Offices and other Non-shopping center leased properties of Ps. 0.1 million and (ii) a decrease in selling expenses of Shopping Centers and Hotels of Ps. 6.5 million. Selling expenses as a percentage of revenues decreased from 12.1% during the fiscal year ended June 30, 2003, to 8.4% during the fiscal year ended June 30, 2004.

Development and Sale of Properties. Selling expenses from Development and Sale of Properties decreased by 1.6%, from Ps. 4.0 million during the fiscal year ended June 30, 2003 to Ps. 4.0 million during the fiscal year ended June 30, 2004, due to the decrease in sales during this fiscal year, which generated less direct selling expenses. The main components of selling expenses of Development and Sale of Properties are commissions and expenses from sales, advertising and gross sales tax.

Offices and other Non-shopping center leased properties. Selling expenses relating to Offices and other Non-shopping center leased properties decreased by 32.5%, from Ps. 0.1 million during the fiscal year ended June 30, 2003 to Ps. 0.05 million during the fiscal year ended June 30, 2004.

Shopping Centers. Selling expenses relating to Shopping Centers decreased by 44.1%, from Ps. 17.6 million during the fiscal year ended June 30, 2003 to Ps. 9.8 million during the fiscal year ended June 30, 2004. This decrease was mainly due to a 73.2% decrease in the allowance for doubtful accounts, from Ps. 5.6 million during fiscal year 2003 to 1.5 million during fiscal year 2004, as a consequence of the improvement during the year in the collection activities carried out by our shopping centers which was partly offset by (i) a 36% increase in gross sales tax, from Ps. 4.4 million during the fiscal year ended June 30, 2003 to Ps. 6.0 million during 2004, due to a similar increase in our revenues, (ii) a 106.8% increase in advertising expenses, from Ps. 1.3 million in fiscal year 2003 to Ps. 2.6 million in fiscal year 2004, and (iii) an 80 % increase in the cost of personnel, from Ps. 1.2 million during fiscal year 2003 to Ps. 2.2 million during fiscal year 2004.

Hotels. Selling expenses relating to Hotel operations increased by 18.8%, from Ps. 6.9 million during fiscal year 2003 to Ps. 8.2 million during fiscal year 2004, mainly due to an increase in advertising expenses and an increase in the gross sales tax as a consequence of an increase in revenues.

Table of Contents**Administrative Expenses**

Administrative expenses increased by 11.2%, from Ps. 45.2 million during the fiscal year 2003 to Ps. 50.2 million during the fiscal year 2004, due to an increase in administrative expenses relating to all our business units due to (i) an increase of Ps. 2.8 million in salaries and (ii) an increase of Ps. 1.5 million in fees and payments for services, except for Offices and other Non-shopping center leased properties which showed a slight decrease. The main components of administrative expenses are salaries, social security, fees, compensation for services, depreciation and amortization.

Development and Sale of Properties. The administrative expenses from Development and Sale of Properties increased by 9.5%, from Ps. 6.1 million during the fiscal year ended June 30, 2003 to Ps. 6.7 million for the fiscal year ended June 30, 2004. This variation was primarily due to (i) a Ps. 1.0 million increase in salary, social security, and depreciation, and (ii) a Ps. 0.4 million decrease in Directors' fees. Administrative expenses of Development and Sale of Properties as a percentage of revenues from this segment increased from 12.9% during the fiscal year ended June 30, 2003 to 21.5% during the fiscal year ended June 30, 2004.

Offices and other Non-shopping center leased properties. Administrative expenses from Offices and other Non-shopping center leased properties decreased by 1.8%, from Ps. 4.4 million during the fiscal year ended June 30, 2003 to Ps. 4.3 million during the fiscal year ended June 30, 2004. This decrease of Ps. 0.1 million was due to (i) Ps. 1.1 million increase in salary; (ii) a Ps. 0.5 million decrease in Directors' fees and (iii) a Ps. 0.5 million decrease in fees allocated to this segment.

Shopping Centers. Administrative expenses of Shopping Centers increased by 10.5%, from Ps. 21.4 million during the fiscal year ended June 30, 2003 to Ps. 23.6 million during the fiscal year ended June 30, 2004, primarily due to increases in salary, bonuses, social security contributions, fees and payments for services and taxes.

Hotels. Administrative expenses of Hotels increased by 17.2%, from Ps. 13.3 million for the fiscal year ended June 30, 2003 to Ps. 15.6 million during the fiscal year ended June 30, 2004, primarily due to the Ps. 1.2 million increase attributable to Hotel Llao Llao as a result of the increase in taxes, services and salaries, and the Ps. 0.9 million increase attributable to Sheraton Libertador, as a result of the increase in fees and services. Administrative expenses of Hotels as a percentage of revenues from hotel operations decreased from 23.1% during the fiscal year ended June 30, 2003 to 21.9% during the fiscal year ended June 30, 2004.

Gain on Purchasers' Rescissions of Sales Contracts

This line showed a 100% decrease from Ps. 0.009 million during fiscal year 2003 to zero during fiscal year 2004. The 2003 gain relates to the rescission of Torres de Abasto sales contracts.

Gain (Loss) in Credit Card Trust

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

The results of our participation in the Credit Card Trusts increased, from a loss of Ps. 4.1 million during fiscal year 2003 to a gain of Ps. 0.3 million during fiscal year 2004.

Gain from Operations and Holdings of Real Estate Assets, net

Gain from Operations and Holdings of Real Estate Assets, net, increased by Ps. 41.6 million, from Ps. 21.5 million for the fiscal year ended June 30, 2003 to Ps. 63.1 million for the fiscal year ended June 30, 2004. The increase was mainly due to the net impact of (i) the Ps. 64.3 million gain attributed to the net recovery of the allowance for the impairment of real estate during fiscal year 2004 in comparison to the Ps. 11.4 million gain recorded in fiscal year 2003 and (ii) the non-recurring gain on the sale of stock in Valle de Las Leñas of Ps. 10.0 million

Table of Contents

Operating Income

As a result of the foregoing, Operating Income increased from Ps. 25.5 million during the fiscal year ended June 30, 2003 to Ps. 104.6 million during fiscal year 2004.

Development and Sale of Properties. Operating results from Development and Sale of Properties decreased by 72.9%, from a profit of Ps. 2.9 million during the fiscal year ended June 30, 2003 to a profit of Ps. 0.7 million for the fiscal year ended June 30, 2004.

Offices and other Non-shopping center leased properties. Operating results from Offices and other Non-shopping center leased properties increased from a profit of Ps. 2.3 million during the fiscal year ended June 30, 2003 to a profit of Ps. 30.2 million for fiscal year 2004.

Shopping Centers. Operating results from Shopping Centers increased from a profit of Ps. 14.2 million during fiscal year 2003 to a profit of Ps. 63.4 million during fiscal year 2004.

Hotels. Operating results from Hotels increased 64.2%, from a profit of Ps. 6.1 million during fiscal year 2003 to a profit of Ps. 10.2 million during fiscal year 2004.

Financial operations and Others. Operating income from Financial operations and Others segment increased from a gain of Ps. 0.04 million for the year ended June 30, 2003 to a gain of Ps. 0.06 million for the fiscal year ended June 30, 2004.

Amortization of Goodwill

The loss reported under this heading mainly includes (i) the amortization of goodwill stemming from the acquisition of APSA subsidiaries: SAPSA, Fibesa and Tarshop S.A., and (ii) the amortization of the negative goodwill from the purchase of stock in APSA during the current fiscal year. The amortization of goodwill decreased by 56.2%, from a loss of Ps. 6.6 million during fiscal year 2003 to a loss of Ps. 2.9 million during fiscal year 2004 due to the positive amortization of negative goodwill mentioned before.

Financial Results, net

Financial results, net decreased by Ps. 303.7 million, from a gain of Ps. 315.3 million during the fiscal year ended June 30, 2003 to a gain of Ps. 11.6 million during the fiscal year ended June 30, 2004. This variation was due to (i) a Ps. 201.7 million decrease in exchange differences with regard to the previous year, owing to the depreciation of the Peso against the U.S. Dollar from 2.80 in 2003 to 2.958 in 2004, (ii) the Ps. 39.1 million loss on the financing of assets compared to the previous year, mainly due to the drop in the results generated by APSA and as a

result of exchange differences and derivatives as caused by the 5.6 % depreciation of the Peso with respect to the Dollar (in 2003 the value of the currency had a reverse behavior, appreciating by 26%). This depreciation negatively affected the value of the interest rate swap; (iii) the drop in the discounts obtained during fiscal year 2004, which amounted to Ps. 7.2 million, on the purchase of loans with HSBC abroad, compared with the previous year in which the discounts obtained had amounted to Ps. 36.9 million through the prepayment of the debt to GSEM for approximately Ps. 26.0 million and from the accounting measurement as of June 30, 2004 of the debt to HSBC as compared with the amount settled subsequent to the financial closing date, which generated a discount of Ps. 10.7 million according to Argentine GAAP; (iv) the Ps. 32.1 million gain obtained during fiscal year 2003 as a result of the adjustment made to our liabilities to fair market value at the established 8% annual market rate, changing the value of these debts which previously had a book value calculated at the rate in force at the time of refinancing; and (v) a Ps. 5.0 million decrease in financing expenses resulting from the repurchase of the loans with HSBC banks and the conversions made by holders of our convertible notes.

Table of Contents

Equity (Loss) Gain from Related Companies

The net results derived from affiliated companies increased by Ps. 41.4 million, from a loss of Ps. 14.7 million during the fiscal year ended June 30, 2003 to a gain of Ps. 26.7 million during the fiscal year ended June 30, 2004. This increase was mainly due to (i) the gain of Ps. 30.1 million recorded in the fiscal year 2004 as a result of the change in the valuation criterion applied to Banco Hipotecario from net realization value to proportional equity value, and (ii) a lower loss of Ps. 11.0 million from our investments in Alto Palermo, Pérez Cuesta and E-Commerce Latina, which decreased from a Ps. 12.1 million loss during fiscal year 2003 to a Ps. 1.1 million loss during fiscal year 2004.

Other Expenses, net

Other Expenses, net increased Ps. 12.7 million, from a loss of Ps. 0.9 million during the fiscal year ended June 30, 2003 to a loss of Ps. 13.6 million during the fiscal year ended June 30, 2004, primarily due to the net fluctuation generated by (i) the non-recurrence of the Ps. 13.0 million gain recorded in 2003 from the repurchase of APSA Notes and Senior Notes in the open market; (ii) the loss related to tax on personal assets of shareholders recorded in 2004 of Ps. 4.1 million (this tax regime did not exist in 2003); (iii) a lower charge of donations of Ps. 3.2 million as compared to fiscal year 2003; (iv) a non-recurring loss of Ps. 2.1 million related to gross sales tax recorded in fiscal year 2004, and (v) a decrease in the charge for contingencies of Ps. 2.3 million as compared to fiscal year 2003.

Income before Minority Interest and Taxes

As a result of the foregoing, Income before Minority Interest and Taxes decreased from Ps. 318.6 million during the fiscal year ended June 30, 2003 to Ps. 126.4 million during fiscal year 2004.

Minority Interest

Minority Interest decreased by 64%, from a Ps. 35.7 million loss during fiscal year 2003 to a Ps. 12.8 million loss during fiscal year 2004, mainly due to (i) the reduction in our minority interest in Alto Palermo and the interests held by Alto Palermo in its subsidiaries, which decreased from a Ps. 35.2 million loss during the fiscal year ended June 30, 2003 to a Ps. 9.2 million loss during the year ended June 30, 2004 and (ii) the reduction in our minority interests in Palermo Invest, which decreased from a Ps. 3.7 million gain during fiscal year 2003 to a Ps. 0.8 million loss during fiscal year 2004.

Income Tax and Asset Tax

Income Tax and Asset Tax decreased by Ps. 29.2 million, from a Ps. 3.5 million benefit during the fiscal year ended June 30, 2003, to a Ps. 25.7 million expense during the fiscal year ended June 30, 2004. The Ps. 29.2 million change was mainly due to the net impact of (i) the difference in the income tax charge corresponding to IRSA which represented an expense of Ps. 52.6 million, from a Ps. 48.9 million benefit

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

corresponding to fiscal year 2003 to a Ps. 3.7 million expense during fiscal year 2004 (ii) the Ps. 30.5 million variation in the income tax charge for Alto Palermo, from a Ps. 46.8 million expense during the fiscal year ended June 30, 2003 to a Ps. 16.2 million expense during the fiscal year ended June 30, 2004 and (iii) the Ps. 4.3 million (expense) variation in the income tax charge for Llao Llao Resort S.A. between both fiscal years. The effective tax rates for fiscal years 2004 and 2003 were 20% and 1%, respectively. These effective rates differ from the statutory tax rate mainly due to non-deductible amortization and depreciation charges originated by inflation accounting and the inventories costs considering that it have been adjusted by inflation in accordance with accounting principles. We record income taxes using the deferred tax method. Accordingly, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. We have treated the differences between the price-level restated amounts of assets and liabilities and their historical basis as permanent differences for deferred income tax calculation purposes as prescribed by Argentine GAAP.

Table of Contents

Net income for the year

As a result of the foregoing, net income for the year decreased from a profit of Ps. 286.4 million during the fiscal year ended June 30, 2003, to a profit of Ps. 87.9 million during the fiscal year ended June 30, 2004.

Banco Hipotecario S.A.'s Results of Operations

Overview

We do not consolidate the Consolidated Financial Statements of our subsidiary Banco Hipotecario. However, according to Rule 3-09 of Regulation S-X, IRSA is required to include the separate financial statements of Banco Hipotecario in this Form 20-F because Banco Hipotecario is a significant equity affiliate of IRSA. This Operating and Financial Review and Prospects should be read together with Banco Hipotecario's Consolidated Financial Statements contained in this annual report. This discussion contains forward-looking statements that involve risks, uncertainties and assumptions. These forward-looking statements include, among others, those statements including the words "expects", "anticipates", "intends", "believes" and similar language. The actual results may differ materially and adversely from those anticipated in these forward-looking statements as a result of many factors, including those set forth elsewhere in this prospectus.

Banco Hipotecario maintains its financial book and records in Pesos and prepares its financial statements in conformity with Argentine Central Bank's policies which prescribe the reporting and disclosure requirements for banks and financial institutions in Argentina ("Argentine Banking GAAP"). These rules differ in certain respects from generally accepted accounting principles in Argentina ("Argentine GAAP"). A description of significant differences between Argentine Banking GAAP and Argentine GAAP are set forth in Note 6 to the Consolidated Financial Statements. Argentine Banking GAAP and Argentine GAAP also differ in certain significant respects from US GAAP. Such differences involve methods of measuring the amounts shown in the Consolidated Financial Statements, as well as additional disclosures required by US GAAP and regulations of the SEC. See Note 35 to the Consolidated Financial Statements of Banco Hipotecario for a description of the principal differences between Argentine Banking GAAP and US GAAP as they relate to Banco Hipotecario, and the reconciliation to US GAAP of net income (loss) and shareholder's equity.

Since 2003, a remarkable improvement has been recorded by the Argentine economy, which put an end to the economic recession that had started in the second half of 1998, and worsened at the end of 2001 and the first half of 2002. Certain economic indicators have shown signs of recovery, though still at low levels. Also, interest rates have fallen and the foreign exchange market has stabilized. The financial system has gradually recovered its liquidity levels, recording an increase in deposits and in certain types of borrowings.

In spite of the change in the economic trends mentioned above, the current situation is characterized by high levels of unemployment and a major external public and private debt burden as well as country risk indicators far above normal average.

Argentine Public Debt Restructuring Process

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

On March 18, 2005, the Republic of Argentina announced the final results of its offer to exchange certain of its outstanding debt securities with an aggregate eligible amount (representing principal and past-due interest as described in Argentina's offering document) of approximately US\$81.8 billion, consisting of a total of 11 series of Par Bonds, Quasi-par Bonds and Discount Bonds (collectively, the New Bonds) and five series of GDP-linked Securities. Pursuant to the terms of the offer, all currency conversions were made using currency exchange rates in effect on December 31, 2003.

Eligible creditors holding approximately 76% of the government's securities participated in the offer, which expired on February 25, 2005. In the offer, US\$62.3 billion equivalent aggregate principal amount of the government's securities were tendered and accepted for exchange. Settlement of the offer was scheduled to begin on April 1, 2005 and was postponed to June 2, 2005. On that date Argentina issued US\$35.3 billion equivalent aggregate principal amount of New Bonds.

Table of Contents

Argentina's exchange offer is expected to alleviate the economic crisis and should have an overall positive impact on the condition of the financial system.

Current Situation

Beginning in December 2001 through the first quarter of 2003, Argentina experienced a deep economic crisis that resulted from unprecedented political and economic disruptions. This crisis paralyzed Argentina's economy and adversely affected Banco Hipotecario's business.

During 2003 and 2004 the Argentine economy showed signs of recovery reflected in most leading economic indicators. Based on existing data, the Argentine economy appears to have regained part of the ground lost in 2002. Though positive, the effects of the economic crisis continue to affect the economy and by no means can there be any assurance that economic recovery will continue. The Argentine economy continues to suffer the consequences from the pending restructuring programs of private issuers (including public utilities) and the reestablishment of long-term rules and regulations for the financial system that are still pending.

During 2003 and 2004, GDP increased by 8.8% and 9% according to INDEC estimates. In US Dollar terms, GDP increased from US\$69.8 billion in 2002 to US\$87.2 billion in 2003. As of December 31, 2004, GDP amounted to US\$93.3 billion according to INDEC estimates. The official unemployment rate decreased to 13.0% as of the first quarter of 2005, according to INDEC. As of June 30, 2004, approximately 40% of the population was below the poverty line as compared to 38.3% in 1999, according to INDEC.

Additionally, in 2003 and 2004, Argentina posted a fiscal surplus of approximately Ps.1,805.3 million and Ps.11,657.8 million, respectively. As of July 31, 2005, Argentina recorded a fiscal surplus of approximately Ps.7,500 million. After the settlement of its exchange offer, Argentina's sovereign debt outstanding amounted to US\$125.35 billion, representing 134.3% of the GDP (Gross Domestic Product) estimated for the year ending December 31, 2004.

During 2003 and 2004, inflation increased by 4.3% and 7.9% as measured by the wholesale price index, and 3.7% and 6.1% as measured by the CPI, compared to the levels posted in 2002 and 2003, respectively. As of June 30, 2005, inflation increased by 3.6% as measured by the wholesale price index, and by 6.1% as measured by the CPI. The preceding information is based on data published by the Ministry of Economy and the Argentine Central Bank.

Notwithstanding the gradual improvement of Argentine economy during 2003 and 2004, political and economic conditions in Argentina continue to change and remain subject to significant uncertainties.

Changes to the legal system which have severely affected Banco Hipotecario's business

Banco Hipotecario's financial condition and results of operations have been materially and adversely affected by the drastic political, economic and legal changes that took place in Argentina in 2002. Following is a summary of the principal changes that were implemented in the past three years.

Loans in foreign currency. Pursuant to Law 25,561, Decree 214/02 and subsequent regulations (i) certain foreign currency-denominated debts were converted into peso-denominated debts at a one-to-one exchange rate, (ii) certain foreign currency-denominated public sector debts were converted into peso-denominated debts at an exchange rate of Ps.1.40 per US\$1.00 and (iii) foreign currency-denominated bank deposits were converted into peso-denominated bank deposits at an exchange rate of Ps.1.40 per US\$1.00. Effective February 3, 2002, those measures contemplated the application of CER to the loans granted to the non-financial private sector and to the non-financial public sector plus a fixed interest rate, depending on the type of operation.

CER and CVS. Decree 762/02 amended the regulations mentioned in the preceding paragraph excluding from the application of CER those loans granted to individuals by financial institutions, as follows: (i) loans secured by mortgages on the only family dwelling of debtors, originally issued in US dollars up to Ps.250,000, (ii) consumer loans originally issued for up to Ps.12,000 or the equivalent in any other foreign currency, whether or not secured by a mortgage, and (iii) pledge consumer loans originally issued for up to Ps.30,000, or the equivalent in any other

Table of Contents

currency. Those loans were adjusted effective October 1, 2002 by applying the CVS, as published by the INDEC. Decree 762/02 was subsequently amended by law 25,796, which requires that the CER index that was applied to loans denominated in dollars or another currency other than pesos, be re-adjusted to take account of changes in the CVS as reported by the INDEC. Such re-adjustment could be made in the period from October 1, 2003 through March 31, 2004. From April 1, 2004, no further adjustments have been made in respect of any index.

Public-sector debt. Decree 1387/01 dated November 1, 2001, established the possibility of financial institutions to exchange public-sector debt instruments and loans under the Promissory Note/Bond program for new loans issued by the Government. Conversion was made at face value and at a one-to-one rate, in the same currency as that of the exchanged public-sector obligation.

Decree 471, dated March 8, 2002, established that the obligations of the national, provincial and municipal public sectors outstanding as of February 3, 2002, and denominated in US dollars or any other currency, that were incurred pursuant to contracts governed by Argentine law, were to be converted into pesos at an exchange rate of Ps.1.40 per US dollar, or its equivalent in other foreign currency, with their principal adjusted by the CER. The obligations of the national public sector converted into pesos accrued interest at rates ranging from 2% to 5%, depending on the characteristics of the original debt.

On August 27, 2002, Decree 1579/02, mandated the Fiduciary Fund for Provincial Development to assume provincial debt instruments (government securities, bonds, treasury bills or loans) that were to be voluntarily converted into bonds (BOGAR) or loans (promissory notes) secured by federal tax collections.

Through Resolutions 539/02 and 611/02 dated October 25 and November 12, 2002, respectively, the Ministry of Economy established the unified calculation method applicable to debts encompassed by the conversion regime established by Decree 1579/02, and set a time limit for financial institutions having made offers to convert provincial public debt within the framework of Decree 1387/01 and complementary rules to declare their intention to withdraw those offers.

On November 19, 2002, the Ministry of Economy issued Resolution 624/02, establishing the provincial public debt eligible to be exchanged for secured bonds and loans issued by the Fiduciary Fund for Provincial Development.

Foreclosures. On February 14, 2002, Law 25,563 amending Law 25,589 was enacted providing for the suspension of certain bankruptcies and foreclosures (including foreclosures on mortgage loans) for a period of 180 days from the law's effective date. Such period was extended for 180 days more by Law No. 25,589 and afterwards for 90 days more by Law No. 25,640 of September 2002, expiring on February, 2003. Moreover, on January 17, 2005, the province of Buenos Aires enacted law 13,302, suspending for 180 days foreclosures on real estate loans where the loan related to the debtor's primary dwelling provided that the real estate current tax value does not exceed Ps.90,000. This law further provides that the suspension of foreclosures on a debtor's primary dwelling will be extended by one year if the borrower was unemployed on the date of enactment of such law. Finally on November 2, 2005, the National Congress passed law 26,062 which suspends for 120 days the enforcement of all court decisions establishing the mortgage foreclosure on real state properties intended for sole family dwelling due to eligible loans complying with the requirements and maximum amount set forth by law 25,798.

Compensation granted by the Argentine government to financial institutions. Through Decree 905, the Government established the issuance of National Government Compensating Bonds or BODEN, to compensate financial institutions for the negative effects on their assets conversion into pesos at different exchange rates of receivables and obligations denominated in foreign

Table of Contents

currency and to cover the negative difference between assets and liabilities denominated in foreign currency arising from their conversion into pesos. In September 2002 and October 2005, the Argentine Central Bank credited US\$356.0 million and US\$ 16.8 million, respectively in BODEN due 2012, completing the compensation process for conversion into pesos at different exchange rates of receivables and obligations denominated in foreign currency. From September 28, 2005 through December 13, 2005, the Argentine Central Bank credited US\$652 million in BODEN due 2012 corresponding to the compensation to cover the negative difference between assets and liabilities denominated in foreign currency arising from their conversion into pesos. The amount received represents approximately 77% of the total. Bank's right for compensation for this concept. The remaining amount is expected to be subscribed by the Bank in the period ending June 30, 2006.

Treatment of assistance granted by the Central Bank

Effective April 1, 2003, the Argentine government issued Decree 739/03 which set forth the rescheduling of the balances owed by financial institutions under discounts and advances granted to them by the Argentine Central Bank that were effective as of the date of said Decree. This Decree allows financial institutions to restructure the repayment of the unpaid balances under such transactions, in no more than 70 installments. See Argentina Banking System and Regulation Foreign Deposits and Foreign Exchange - Rescheduling of the financial institutions' obligations under discount and advance transactions. Subsequently, the executive power issued Decree 1262/03 establishing that the conditions for the amortization of discounts may be modified, and extended the maximum number of installments up to one hundred and twenty (120) installments, each of which shall be equivalent to a percentage not lower than 0.40% of the adjusted principal amount due to the Argentine Central Bank. On September 11, 2003, amended on February 4, 2004, Banco Hipotecario submitted to the Argentine Central Bank a schedule for the repayment of Banco Hipotecario's debt for discounts received from the Argentine Central Bank, as prescribed by Section 3 of Decree No. 1262/03, as well as a transformation and reorganization plan to strengthen Banco Hipotecario's efficiency and profitability. Through Resolution No. 308 dated November 4, 2004, the Board of Directors of the Argentine Central Bank resolved that Banco Hipotecario should repay the assistance loan granted by the Argentine Central Bank as a portion of any foreign debt repurchase. In this regard, on November 11 and December 1, 2004, Banco Hipotecario prepaid the financial assistance loan granted by the Argentine Central Bank in the amounts of Ps.10.0 million and Ps.30.0 million, respectively, in order to settle in advance Banco Hipotecario's repurchase of restructured foreign debt. On January 20 and February 25, 2005, Banco Hipotecario participated in the tender offers established by the Argentine Central Bank in accordance with the guidelines of Communications A 4268 and 4282, the amounts of Ps.63.8 million and Ps.16.9 million, respectively, having been accepted in settlement of the previously refinanced debt. Finally, on May 3, 2005, Banco Hipotecario repaid in advance all the assistance loans granted by the Argentine Central Bank. The total amount paid was Ps.233.5 million, including principal and accrued interest.

Restructuring of all of Banco Hipotecario's financial liabilities

As a result of the recession in Argentina and the government measures described above, Banco Hipotecario experienced a severe liquidity crisis during 2002 and 2003. Due to the unavailability of financing from any source, on August 16, 2002, Banco Hipotecario suspended payment on all of Banco Hipotecario's debt obligations and initiated the negotiation of a comprehensive debt restructuring plan comprising Banco Hipotecario's obligations that as of December 31, 2003 totaled approximately Ps.2,849.2 million and on approximately Ps.889.5 million of loans due to foreign banks and other entities.

As of August 16, 2002, following Banco Hipotecario Board's resolution to suspend payment on Banco Hipotecario's debt obligations, Banco Hipotecario postponed servicing of its debt until a successful restructuring was completed. Banco Hipotecario reported the event to the Argentine Central Bank, the *Comisión Nacional de Valores* and the Buenos Aires Stock Exchange on August 16, 2002. On August 14, 2003, Banco Hipotecario launched an exchange offer for all series of its then outstanding notes and total bank debt.

Table of Contents

On December 29, 2003, the date on which the exchange offer participation period expired, Banco Hipotecario accepted all validly tendered securities in compliance with the conditions for the exchange offers and the simultaneous restructuring of all of Banco Hipotecario's outstanding debt with Banco Hipotecario's bank creditors. On January 14, 2004, settlement of the offers took place.

The aggregate principal amount of outstanding bond debt that participated in the exchange offer was Ps.2,662.2 million, representing approximately 93% of the aggregate principal amount of Banco Hipotecario's bond debt outstanding at that date. Of the principal amounts validly offered, approximately 77% (Ps.2,060.9 million) opted to receive long-term securities (bonds due 2013), approximately 7% (Ps.168.1 million) opted to receive cash, and approximately 16% (Ps.433.3 million) opted to receive medium-term guaranteed notes due 2010.

Of an aggregate principal amount of Ps.889.6 million of bank debt outstanding at December 29, 2003, 100% participated in the simultaneous restructuring. Of that amount, approximately 20% (Ps.187.4 million) opted to receive long-term loans, approximately 10% (Ps.98.4 million) opted to receive cash and approximately 70% (Ps.608.0 million) opted to receive medium-term guaranteed loans due 2010.

As of December 31, 2003, Banco Hipotecario recognized in Banco Hipotecario's financial statements the effects of the restructuring as follows (i) a gain of Ps.232.0 million and Ps.254.4 million relating to the restructuring of Banco Hipotecario's notes and bank debt, respectively, due to the reduction in principal amounts outstanding; (ii) a gain of Ps.209.3 million attributable to lower interest accrued in 2003 (recorded as an adjustment to financial expenses); (iii) a gain of Ps.88.0 million in interest savings accrued in 2002 (recorded as an adjustment to other profits line item in the statements of income); and (iv) the establishment of a reserve for Ps.59.3 million related to the issuance of stock appreciation rights, or Stars, that were made available as a feature of Banco Hipotecario's medium-term guaranteed debt.

The medium-term guaranteed debt issued in the exchange offers is secured by a trust under Argentine law. In December 2003, Banco Hipotecario, as trustor, and ABN AMRO Bank N.V., as trustee, entered into a Trust Agreement, pursuant to which Banco Hipotecario transferred government securities (BODEN 2012) and secured loans to the Trust. The Trust maintains these assets for the benefit of the holders of the medium-term guaranteed debt. The Trust was established to secure principal and interest payments on the new notes. The Trust's assets consist only of the securities and loans transferred by Banco Hipotecario and their respective proceeds.

After January 14, 2004, the exchange transaction settlement date, Banco Hipotecario continued to exchange old notes with holders who did not participate in the offers. As of June 30, 2005, the face value of the obligations exchanged amounted to US\$7.0 million and Euro 8.5 million. At that date, Banco Hipotecario had an aggregate of US\$45.5 million (equivalent principal amount) of old notes outstanding after giving effect to these post-settlement date exchanges.

In August 2004, Banco Hipotecario made the first amortization payment due on Banco Hipotecario's medium-term guaranteed debt issued in the restructuring and subsequently has made all payments corresponding on such debt.

In November 2005, Banco Hipotecario repurchased the remaining stock of our medium term guaranteed bond issued in connection with the restructuring in January 2004. As a result of that repurchase, Banco Hipotecario triggered a mandatory redemption of the medium term guaranteed notes that had been issued to bondholders in the restructuring and which Banco Hipotecario were required to redeem per the terms of the supplemental indenture under which those notes were issued. Banco Hipotecario issued a notice of redemption in respect of these medium term guaranteed notes on December 7, 2005 and announced that the mandatory redemption was scheduled for January 13, 2006.

Table of Contents

Summary of measures adopted by Banco Hipotecario

Following the financial crisis in Argentina, Banco Hipotecario implanted the following key measures designed to improve solvency, liquidity and return on capital:

Restructuring all Banco Hipotecario's financial liabilities, amounting to approximately US\$1,208.4 million, thus aligning principal and interest payments with Banco Hipotecario's cash flow without having to rely on the stock or flow of deposits, thus becoming the first financial institution in Argentina to achieve this objective.

Reducing Banco Hipotecario's debt by US\$361.0 million, extending the average life of its outstanding debt, and reducing average interest rates, thus matching the term of lending and borrowing transactions, achieving proper financial intermediation margins and full hedging of foreign currency-denominated liabilities.

Achieving high liquidity levels, as reflected in the significant stock of liquid assets, stable cash flow from operations and low uses of funds projected for the medium term.

Positioning Banco Hipotecario as one of the private banks with highest net worth in Argentina, with high asset/equity ratios and high provisioning of non-performing loans, which implies a low exposure to credit risk from the private sector.

Reducing Banco Hipotecario's equity exposure to the public sector risk by matching most of its assets exposed to public sector risk with borrowings from the Argentine Central Bank.

Attaining high profitability rates by controlling operating expenses and generating stable operating results.

Re-establishing access to the domestic Argentine capital markets, where since June 2004, Banco Hipotecario led the sale of four series of Cédulas Hipotecarias in aggregate principal amount of approximately Ps.227.2 million, issued under Banco Hipotecario's Cédulas Hipotecarias Argentinas Global Program.

Develop new lines of credit outside of the mortgage sector.

Provide commercial banking and related services.

Expand Banco Hipotecario's retail network and related services.

Develop new construction financing and mortgage-related products.

Develop Banco Hipotecario's base of depositors and increase deposit taking.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

On August 3, 2004, Banco Hipotecario serviced the first principal payment under Banco Hipotecario's medium-term guaranteed notes due 2010 in an amount of US\$21.0 million and Ps.5.5 million. In addition, on August 4, 2004 Banco Hipotecario released excess collateral under such debt in an aggregate amount of US\$79.5 million of BODEN due 2012 and US\$32.4 million of guaranteed loans. On September 2, 2004, Banco Hipotecario obtained short term financing granted by a foreign entity for US\$20 million, being the first Argentine bank to obtain foreign financing since the crisis. In addition, on September 30, 2004, and January 28, 2005, Banco Hipotecario accessed new foreign financing in an aggregate principal amount of US\$65 million and US\$30 million respectively.

On August 3, 2005, Banco Hipotecario made the second principal payment in the amount of US\$16.7 million and the fourth interest coupon payment in the amount of US\$2.8 million in respect of Banco Hipotecario's medium-term guaranteed debt. In addition, on August 4, 2005 Banco Hipotecario requested ABN Amro, as trustee, to release from the assets held in trust as collateral for the medium-term guaranteed debt, US\$34 million of BODEN due 2012, US\$1.2 million of guaranteed governments loans and US\$24.2 million in cash. The excess of assets deposited in trust as collateral for such debt results from the repayment of principal, buyback and subsequent cancellation of a substantial portion of the referred

Table of Contents

debt and the interest payments made by the Argentine government on the BODEN due 2012 given as collateral for the medium-term guaranteed debt.

Factors Affecting Comparability of Financial Data

Banco Hipotecario's consolidated results of operations for the twelve-months periods ended June 30, 2005, 2004 and 2003, and Banco Hipotecario's financial condition at those dates reflect significant ongoing changes in the nature of Banco Hipotecario's business, the composition of Banco Hipotecario's loan and investment portfolios, changes in Banco Hipotecario's sources of funding and in the regulatory environment. Subsequent to the economic crisis in Argentina the Bank have complemented his traditional mortgage lending with other types of banking services. As a result of these changes, Banco Hipotecario's results of operations for the twelve months period ended June 30, 2005 and 2004 are not comparable in many important respects to the results for preceding periods and are not necessarily indicative of Banco Hipotecario's future results.

As of January 1, 2002, Banco Hipotecario resumed the application of inflation adjustments pursuant to the Central Bank's, the FACPCE's and CNV's Resolutions which established that financial statements for periods ended in 2002 would be restated for inflation from January 1, 2002 by applying the WPI as follows:

non-monetary items and income statement amounts are adjusted in terms of the then-current general purchasing power;

monetary items are not adjusted as such items are, by their nature, stated in terms of their current general purchasing power; and

monetary gains and losses are recognized in the income statement, reflecting the effect of holding monetary assets and liabilities in periods of inflation.

On March 25, 2003, Decree 664/03 rescinded the requirement that financial statements be prepared in constant currency, effective for financial periods on or after March 1, 2003 and on April 8, 2003 the Central Bank discontinued inflation accounting effective as of March 1, 2003. For comparison purposes, Banco Hipotecario's financial statements as of and for the year ended December 31, 2002 have been restated in constant Argentine pesos as of February 28, 2003. The WPI increased approximately 0.74% from January 1, 2003 to February 28, 2003.

Principal Accounting Policies

Government and corporate securities

Government securities Compensatory bonds

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Argentine Central Bank accounting rules regarding investments in government securities allow banks to classify their portfolio of government securities into two balance sheet categories: trading and investing securities. Trading securities are marked to market daily with the resulting gain or loss reflected in the statements of income. Investing securities are carried at cost plus accretion of discount or amortization of premiums and accrued interest, as applicable.

The compensatory bonds Banco Hipotecario receives are classified as Investing securities at par value based on Argentine Central Bank accounting rules, notwithstanding that the estimated market value of such bonds is lower than such par value. As of June 30, 2005, the BODEN were trading in the secondary market at a price of approximately US\$89 for every US\$100 of nominal value. As market conditions change, adjustments to the estimated market value of the BODEN are not reflected in Banco Hipotecario's financial position. Future sales or settlements of the BODEN will reflect the market conditions at the time and may result in a significant gain or loss that represents the difference between the settlement amount and the then carrying value.

Table of Contents

Other accounts receivable with the government Additional bonds

Banco Hipotecario's right to receive BODEN that are issued in hedge transactions is classified as Other receivables from financial transactions and is being recognized at par value of the BODEN to be issued, notwithstanding that the estimated market value of the BODEN linked to such right is significantly below such carrying value. As of June 30, 2004 and June 30, 2005, the BODEN were trading in the secondary market at a price of approximately US\$84.7 and US\$88.7, respectively, for every US\$100 of nominal value.

Reserve for loan losses

Banco Hipotecario's reserve for loan losses is maintained in accordance with the regulations established by the Argentine Central Bank. Under such regulations, a minimum allowance for loan losses is calculated primarily based upon the past due status of Banco Hipotecario's mortgage loan borrowers. Although Banco Hipotecario is required to follow the methodology and guidelines for determining Banco Hipotecario's reserve for loan loss as set forth by the Argentine Central Bank, Banco Hipotecario is allowed to provide additional allowances for loan loss reserves. The determination of the allowance for loan losses requires significant use of estimates.

Banco Hipotecario classifies its loans based upon their past due status consistent with the requirements of the Argentine Central Bank. Minimum loss percentages required by the Argentine Central Bank are also applied to the totals in each loan classification. Balances of loans and reserves are charged-off and reflected on Banco Hipotecario's balance sheets three months from the date on which the loans were fully covered by Banco Hipotecario's loan loss reserves.

Bank premises, foreclosed assets and intangible assets

Argentine Central Bank's rules required us to restate for inflation our bank premises, foreclosed assets and intangible assets, using the WPI index (see note 1 to the Consolidated Financial Statements of BH SA). Future sales of such assets will reflect market values at the time and may differ from the carrying value at the balance sheet date.

Twelve month periods ended June 30, 2005 and 2004

General

The following table sets forth the principal components of Banco Hipotecario's net income for the twelve-month periods ended June 30, 2005 and 2004.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

	Period ended June 30,		% Change
	2005	2004	2005/2004
	(in millions of Pesos, except for percentages)		
Financial income	681.5	1,177.8	(42.1)
Financial expenses	(388.9)	(208.5)	86.5

Income tax	(7.0)	(3.6)	95.6
Net income	151.0	866.6	(82.6)

(1) Insurance premiums minus insurance claims paid.

(2) Miscellaneous income minus miscellaneous expenses.

Table of Contents

Net Income

Banco Hipotecario's net income for the year ended June 30, 2005 of Ps. 151.0 million was Ps.715.6 million lower than the Ps.866.6 million recorded for the year ended June 30, 2004, principally due to:

higher financial income resulting from the suspension of the CVS index on pesified mortgage loans, lower income as a result of a cut off in the principal amount of bonds and debt with financial institutions in the period ended June 30, 2005 and lower income from mortgage backed securities and other investments;

higher financial expenses from Argentine Central Bank borrowings due to the greater impact of the CER index during the period, partially offset by lower average outstanding balances, and higher interest due on foreign currency-denominated financing due to the increase in interest rates;

the adverse effect of the appreciation of the Peso against the US dollar on Banco Hipotecario's net foreign currency position in 2005; and

higher administrative expenses due to Banco Hipotecario's increased level of business activities.

These factors were partially offset by:

higher income from derivative transactions aimed at reducing the effect of the appreciation in the price of Banco Hipotecario's shares and currency swaps to hedge net financial income against the effect of changes in the CER on indexed liabilities;

higher income from services due to the new products offered by Banco Hipotecario; and

Financial Income

The following table sets forth the principal components of Banco Hipotecario's financial income for the twelve-month periods ended June 30, 2005 and 2004.

Periods ended June 30, % Change		
2005	2004	2005/2004
(in millions of Pesos, except for percentages)

Total	681.5	1,177.8	(42.1)
	<u> </u>	<u> </u>	

Table of Contents

Banco Hipotecario's financial income decreased by 42.1% to Ps.681.5 million for the period ended June 30, 2005 as compared to Ps.1,177.8 million for the period ended June 30, 2004 primarily as a result of:

the positive effect of the CVS index on pesified mortgage loans recorded during the twelve months period ended on June 30, 2004 which did not occur in the twelve month period ended on June 30, 2005;

the effect of the restructuring of bonds and financial loans in the period ended June 30, 2004;

lower income from mortgage backed securities as a result of lower income from investments in financial trusts; and

lower income from government and private securities as a result of lower market prices.

These factors were partially offset by:

higher income from compensatory and additional BODEN resulting from the increase in the Libor rate during the period ended on June 30, 2005;

higher income from guaranteed loans and other public sector loans due to the increase in the CER index;

higher income from the buyback of restructured financial indebtedness at market prices; and

higher income from derivative operations resulting from hedging transactions, including Banco Hipotecario's total return swap.

Financial Expenses

The following table sets forth information regarding Banco Hipotecario's financial expenses for the periods ended June 30, 2005 and 2004.

	Periods ended June 30,		% Change
	2005	2004	2005/2004
	(in millions of Pesos, except for percentages)		
Bonds and similar obligations	109.8	(44.1)	NM
Borrowings from Argentine Central Bank	219.2	127.4	72.1
Borrowings from banks	28.8	27.3	5.3
Effects of changes in exchange rates	6.1	70.5	(91.3)
Time deposits	18.0	1.1	NM
Other ⁽¹⁾	2.5	16.3	(84.8)

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Contributions and taxes on financial income	14.5	10.1	44.2
	<u> </u>	<u> </u>	<u> </u>
Total	388.9	208.5	86.5
	<u> </u>	<u> </u>	<u> </u>

(1) Includes interest and other amounts payable on savings accounts, checking accounts, and other deposits.

Banco Hipotecario's financial expenses for the period ended June 30, 2005 increased 86.5% to Ps.388.9 million from Ps. 208.5 million for the period ended June 30, 2004 primarily as a result of:

the higher impact of the CER index accrued on Argentine Central Bank borrowings partially offset by lower average balances;

Table of Contents

higher financial expenses from foreign currency-denominated liabilities due to new external financing and higher interest accrued on restructured debt, partially offset by lower average balances of restructured debt and the effect in the cut off in the interest rates of Banco Hipotecario's external restructuring debt and

higher interest liabilities resulting from increased average balances on savings accounts and time deposits.

These effects were partially offset by the negative effect of the appreciation of the peso against the US dollar on Banco Hipotecario's net foreign currency position.

Provision for Losses on Loans

The following table sets forth Banco Hipotecario's provision for loan losses for the periods ended June 30, 2005 and 2004.

	Periods ended		% Change
	June 30,		
	2005	2004	2005/2004
	(in millions of Pesos, except for percentages)		
Provision for loan losses	16.7		NM
Charge-offs	72.8	177.8	(59.0)

Banco Hipotecario's provision for loan losses for the period ended June 30, 2005 amounts to Ps. 16.7 million. During the period ended June 30, 2004, Banco Hipotecario did not record any provision for loan losses as a result of the increase in the asset quality.

Net Contribution from Insurance

The following table sets forth the principal components of Banco Hipotecario's net contribution from insurance for the periods ended June 30, 2005 and 2004.

	Periods ended June 30		% Change
	2005	2004	
	(in millions of Pesos, except for percentages)		
Insurance premiums earned:			
Life	12.9	14.5	(10.9)
Property damage	27.8	28.0	(0.9)
Unemployment	1.6	1.8	(8.7)

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Other	2.5	2.0	22.9
	<u> </u>	<u> </u>	
Total premiums earned	44.8	46.3	(3.3)
	<u> </u>	<u> </u>	
Insurance claims paid:			
Life	0.4	0.2	91.7
Property damage	6.9	6.6	4.1
Unemployment	0.2	0.2	(32.8)

	<u> </u>	<u> </u>	
Net contribution from insurance	37.0	39.0	(5.1)
	<u> </u>	<u> </u>	

Banco Hipotecario's net contribution from insurance activities of Ps.37.0 million during the period ended June 30, 2005 decreased by 5.1% or Ps.39.0 million, compared to the period ended June 30, 2004. This decrease was primarily a consequence of lower premiums earned during the year as a result of

Table of Contents

prepayments and lack of mortgage loan originations, partially offset by new products launched and the improvements in the quality of Banco Hipotecario's portfolio.

Other Income from Services

The following table includes the principal components of Banco Hipotecario's other income from services for the periods ended June 30, 2005 and 2004.

	<u>Periods ended June 30,</u>		<u>% Change</u>
	<u>2005</u>	<u>2004</u>	<u>2005/2004</u>
	(in millions of Pesos, except for percentages)		
Loan servicing fees from third parties	2.1	2.7	(23.9)
FONAVI commissions	3.0	2.9	4.3
Other Commissions	26.8	1.6	NM
Total commissions	31.9	7.3	NM
Recovery of loan expenses	9.1	16.1	(43.4)
Other	2.7	1.4	97.3
Total	43.7	24.7	76.5

Banco Hipotecario's income from services increased to Ps.43.7 million for the period ended June 30, 2005 from Ps.24.7 million in the same period of 2004, as a result of higher commissions for technological services partially offset by lower recoveries of loans expenses as a result of lower balances on mortgages loans.

Other Expenses on Services

The following table includes the principal components of Banco Hipotecario's other expenses on services for the periods ended June 30, 2005 and 2004:

	<u>Periods ended June 30,</u>		<u>% Change</u>
	<u>2005</u>	<u>2004</u>	<u>2005/2004</u>
	(in millions of Pesos, except for percentages)		
Structuring and underwriting fees	5.0	14.1	(64.7)
Banking services	7.0	9.1	(23.0)

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Commissions on third party originations	0.3	0.4	(29.4)
Collections	0.2	0.2	9.6
Others	0.9	0.2	NM
	<u> </u>	<u> </u>	
Total	13.3	24.0	(44.5)
Contributions and taxes on income from services	1.5	1.1	56.6
	<u> </u>	<u> </u>	
Total	14.8	25.1	(40.8)
	<u> </u>	<u> </u>	

Banco Hipotecario's other expenses on services decreased 40.8% to Ps.14.8 million for the period ended June 30, 2005 from Ps.25.1 million in the period ended June 30, 2004, primarily due to lower commissions paid in connection with structuring and underwriting fees.

Table of Contents**Administrative Expenses**

The following table sets forth the principal components of Banco Hipotecario's administrative expenses for the periods ended June 30, 2005 and 2004.

	Periods ended June 30,		% Change
	2005	2004	2005/2004
(in millions of Pesos, except for percentages)			
Salaries and social security contributions	73.1	72.6	0.7
Advertising expenses	7.2	2.7	169.3
Value added tax and other taxes	10.2	9.5	7.0
Directors and syndics fees	2.8	7.2	(60.3)
Fees for administrative services	13.2	6.1	115.4
Maintenance and repairs	36.3	31.2	14.6
Other	4.2	3.6	17.0
Total	147.0	133.3	10.3

Administrative expenses for the period ended June 30, 2005 increased 10.3% to Ps. 147.0 million from Ps. 133.3 million for the period ended June 30, 2004. The main reasons for this increase were higher salaries and social security contributions required under applicable regulations in Argentina, higher advertising expenses related to the launch of Banco Hipotecario's new products and an increase in other fees related to the actions adopted by Banco Hipotecario in developing its retail banking business.

Miscellaneous Income

The following table sets forth Banco Hipotecario's miscellaneous income for the periods ended June 30, 2005 and 2004.

	Periods ended June 30,		% Change
	2005	2004	2005/2004
(in millions of Pesos as, except for percentages)			
Penalty interest	9.6	11.5	(16.9)
Loan loss recoveries	59.2	53.3	11.1
Gain on restructuring debt		88.0	
Recovery provisions of loan losses		30.0	
Other	15.3	21.1	NM
Total	84.0	203.9	(31.3)

Banco Hipotecario's miscellaneous income decreased 31.3% to Ps. 84.0 million for the period ended June 30, 2005 from Ps.203.9 million for the year ended June 30, 2004 primarily as a result of gain proceed from restructuring debt and recovery of provision for loan losses on Public Sector in 2004.

Miscellaneous Expenses

The following table sets forth the principal components of Banco Hipotecario's miscellaneous expenses for the period ended June 30, 2005 and 2004:

	Periods ended June 30,		% Change
	2005	2004	2005/2004
(in millions of Pesos, except for percentages)			
Provision for lawsuit contingencies	1.3	37.8	(96.5)
Provision for miscellaneous receivables and others	4.6	4.5	1.4
Provision StAR granted creditors under guaranteed debt	15.0	59.3	(74.7)
Provision for administrative organization	92.2	61.8	49.0
Other	13.3	37.3	(64.3)
Total	126.4	200.7	(37.0)

Table of Contents

Banco Hipotecario's miscellaneous expenses decreased 37.0% to Ps.126.4 million for the periods ended June 30, 2005 from Ps.200.7 million for 2004 primarily as a result of:

higher provisions recorded in the period ended June 30, of 2004 related to lawsuit contingencies, and

charges recorded during the first half of 2005 in order to provision for the contingent effects related to the appreciation in the trading price of our Class D shares, which is designed to account for the higher value attributable to the stock appreciation rights issued with and attached to our Medium Term Guaranteed Debt due 2010 and Banco Hipotecario's management compensation plan, which was approved by the Bank's shareholders at their meeting dated May 31, 2004.

This effect was partially offset by higher provision for administrative organization, principally as a result of certain differences under discussion with Argentine Central Bank related to the asymmetric pesification compensation.

Twelve month periods ended June 30, 2004 and 2003**General**

The following table sets forth the principal components of Banco Hipotecario's net income for the period ended June 30, 2004 and 2003.

	Periods ended June 30,		% Change
	2004	2003	2004/2003
	(in millions of Pesos except for percentages)		
Financial income	1,177.8	512.6	129.8
Financial expenses	(208.5)	(1,241.7)	(83.2)
Net financial income	969.3	(729.1)	233.0
Provision for losses on loans		(122.0)	(100.0)
Net contribution from insurance	39.0	36.9	5.7
Other income from services	24.7	37.7	(34.2)
Other expenses on services	(25.1)	(31.3)	(19.8)
Administrative expenses	(133.3)	(119.9)	11.2
Miscellaneous income (loss), net	3.2	(132.9)	(102.4)
Monetary adjustment		(218.0)	(100.0)
Minority interest	(7.8)	7.9	(198.7)
Income tax	(3.6)		100.0
Net income (loss)	866.6	(1,270.7)	(168.2)

Net Income (Loss)

Banco Hipotecario's net income increased to Ps.866.6 million for the period ended June 30, 2004 from a net loss of Ps. (1,270.7) million for the period ended June 30, 2003. This increase was primarily as a result of:

a higher financial income as a result of the reduction in the principal amounts of bonds and financial debt with financial entities and the positive effect of the prepayment of financial debt, as a result of the CVS index application in the individual loan portfolio previously pesified,

lower financial expenses due to the lower interest rate offered to creditors in Banco Hipotecario's debt restructuring process, and as a result of lower interest rates and CER on Argentine Central Bank loans and advances,

Table of Contents

higher net miscellaneous income, as a result of lower interest rates offered to creditors corresponding to the period according to the effective date of restructuring debt, partially offset by higher miscellaneous expenses as a result of provisions related to taxes and expenses due to Banco Hipotecario's debt restructuring process and the recording of the Stock Appreciation Right granted to creditors under the medium term guaranteed debt,

no provision for losses on loans due to an improvement in Banco Hipotecario's individuals loan portfolio and no significant additional impairment of the individual loan portfolio,

there were no monetary adjustments due to the suspension of the inflation adjustment application effective as of March 1, 2003, and

higher minority interest due to the improvement in the income from the activity of Banco Hipotecario's consolidated subsidiaries.

Financial Income

The following table sets forth the principal components of Banco Hipotecario's financial income, for the periods ended June 30, 2004 and 2003.

	<u>Periods ended June 30,</u>		<u>% Change</u>
	<u>2004</u>	<u>2003</u>	<u>2004/2003</u>
(in millions of Pesos except for percentages and basis points)			
Financial Income:			
Interest on loans and other receivables	226.4	262.1	(13.6)
Income from restructuring of bonds	232.0		100.0
Income from restructuring of financial loans	254.4		100.0
Income from Guaranteed loans	54.9	35.9	52.9
CVS index on pesified loans	121.3	11.8	927.9
CER index on pesified loans	40.0	156.8	(74.5)
Prepayment bonds and other financial loans restructured at discount	66.2		100.0
Government securities and other investment	130.7		100.0
Compensatory and hedge bonds	29.2	21.6	35.2
Others	22.6	24.4	(7.4)
Total	1,177.8	512.6	129.8

Banco Hipotecario's financial income increased 129.8 % to Ps. 1,177.8 million for the period ended June 30, 2004 as compared to Ps. 512.6 million for the period ended June 30, 2003 primarily as a result of:

a reduction in the principal amount of bonds and financial debt with financial entities, as a result of Banco Hipotecario's financial debt restructuring,

the positive effect of the prepayment of financial debt,

application of the CVS index on Banco Hipotecario's mortgage loan portfolio to individuals previously pesified,

higher income from government securities and other investments due to the appreciation of certificates of participation in financial trust and the appreciation of marketable securities held by Banco Hipotecario,

higher income from guaranteed loans, as a result of higher average balance,

higher income from Compensatory Bonds and Hedge Bonds as a result of accrued interest,

Table of Contents

These factors were partially offset by:

lower income from pesified loans due to a decrease in the CER index,

lower income from loan portfolio as a result of lower average balances, partially offset by an improvement of Banco Hipotecario's asset quality.

Financial Expenses

The following table sets forth information regarding Banco Hipotecario's financial expenses, for the periods ended June 30, 2004 and 2003.

	<u>Period ended June 30,</u>		<u>% Change</u>
	<u>2004</u>	<u>2003</u>	<u>2004/2003</u>
(in millions of Pesos, except for percentages and basis points)			
Financial Expenses:			
Bonds and similar obligations	(44.1)	121.5	(136.3)
Borrowings from Argentine Central Bank	127.4	316.1	(59.7)
Borrowings from banks	27.3	509.0	(94.6)
Effects of changes in exchange rates	70.5	287.5	(75.5)
Other	17.3	4.1	321.9
Contributions and taxes on financial income	10.1	3.5	188.6
Total	208.5	1,241.7	(83.2)

Banco Hipotecario's financial expenses for the period ended June 30, 2004 decreased 83.2% from Banco Hipotecario's financial expenses for the period ended June 30, 2003 primarily as a result of:

the impact of a decrease in interest rates on bonds and interbank loans which were restructured, from an average annual interest rate of 10% to approximately 3% during the twelve month period ended June 30, 2004;

a decrease in interest rates and CER on Argentine Central Bank borrowings and borrowing from banks; and

lower effects of changes in exchange rates as a result of the stabilization of the Argentine Economy.

Provision for Losses on Loans

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

The following table sets forth Banco Hipotecario's provision for loan losses for the periods ended June 30, 2004 and 2003.

	<u>Periods ended June 30,</u>		<u>% Change</u>
	<u>2004</u>	<u>2003</u>	<u>2004/2003</u>
	(in millions of Pesos, except for percentages)		
Provision for loan losses		122	(100.0)
Total		122	(100.0)
Charge-offs	177.8	155.7	14.2

Table of Contents

During the period ended June 30, 2004 Banco Hipotecario did not record any provision for loan losses as a result of the increase in the asset quality. During the period ended June 30, 2003, Banco Hipotecario recorded a Ps. 122.0 million provision related to Banco Hipotecario's post-1991 loans portfolio due to the increase in non-performing construction loans and related to Banco Hipotecario's pre-1991 and post-1991 loans to individuals to reflect Banco Hipotecario's policy adopted in 2002 to maintain loan loss reserves in an amount of approximately 70% of all non-performing loans to individuals.

Net Contribution from Insurance

The following table sets forth the principal components of Banco Hipotecario's net contribution from insurance for the periods ended June 30, 2004 and 2003.

	Periods ended June 30,		% Change
	2004	2003	2004/2003
	(in millions of Pesos except for percentages)		
Insurance premiums earned:			
Life	28.0	29.4	(4.8)
Property damage	14.5	13.9	4.3
Unemployment	1.8	1.9	(5.3)
Other	2.0	1.4	42.9
Total premiums earned	46.3	46.8	(1.0)
Insurance claims paid:			
Life	6.6	8.0	(17.5)
Property damage	0.2	1.0	(80.0)
Unemployment	0.2	0.7	(57.1)
Other	0.2		100.0
Total claims paid	7.3	9.9	(26.3)
Net contribution from insurance	39.0	36.9	5.7

Banco Hipotecario's net contribution from insurance increased by 5.7 % for the period ended June 30, 2004 compared to the period ended June 30, 2003 primarily due to a 26.3% decrease in insurance claims paid (life and property damage), partially offset by lower premiums earned due to lower average loan balances.

Table of Contents**Other Income from Services**

The following table includes the principal components of Banco Hipotecario's other income from services for the periods ended June 30, 2004 and 2003.

	<u>Periods ended June 30,</u>		<u>% Change</u>
	<u>2004</u>	<u>2003</u>	<u>2004/2003</u>
	(in millions of Pesos except for percentages)		
Loan servicing fees from third parties	2.7	3.3	(18.2)
The investments of loans expenses paid by share parties	16.1	18.7	(13.9)
FONAVI commissions	2.9	2.9	
Other	3.3	12.9	(74.4)
Total	24.7	37.7	(34.2)

Banco Hipotecario's other income from services decreased 34.2 % for the period ended June 30, 2004 compared to the period ended June 30, 2003 primarily due to lower average loan balances.

Other Expenses on Services

The following table includes the main components of Banco Hipotecario's other expenses on services for the periods ended June 30, 2004 and 2003.

	<u>Periods ended June 30,</u>		<u>% Change</u>
	<u>2004</u>	<u>2003</u>	<u>2004/2003</u>
	(in millions of Pesos, except for percentages)		
Structuring and underwriting fees	14.1	23.2	(39.1)
Commissions on third party originations	0.4	0.6	(33.3)
Collections	0.2	0.6	(8.3)
Banking services	9.1	6.1	110.0
Other	0.2	0.1	(30.4)
Total	24.0	30.6	(21.6)

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Contributions and taxes on income from services	1.1	0.7	57.1
	<u> </u>	<u> </u>	<u> </u>
Total	25.1	31.3	(19.8)
	<u> </u>	<u> </u>	<u> </u>

Banco Hipotecario's other expenses on services decreased 19.8% from Ps.31.3 million in the period ended June 30, 2003 to Ps.25.1 million for the period ended June 30, 2004, primarily due to lower commissions paid in connection with structuring and underwriting fees. This decrease in other expenses on services was partially offset by an increase in banking services as a result of higher expenses on services incurred by Banco Hipotecario in connection with its new financial products.

Table of Contents**Administrative Expenses**

The following table sets forth the principal components of Banco Hipotecario's administrative expenses for the periods ended June 30, 2004 and 2003.

	Periods ended June 30,		% Change
	2004	2003	2004/2003
(in millions of Pesos, 2004, except for percentages)			
Salaries and social security contributions	72.6	69.1	5.1
Fees and external administrative services	6.1	6.1	
Directors and syndics fees	7.2	2.9	148.3
Maintenance and repair	31.6	30.9	2.6
Advertising expenses	2.7	0.5	40.0
Value added tax and other taxes	9.5	8.3	14.5
Other	3.6	2.1	66.7
Total	133.3	119.9	11.2

Banco Hipotecario's administrative expenses increased 11.2 % from Ps.119.9 million for the period ended June 30, 2003 to Ps.133.3 million for the period ended June 30, 2004 primarily as a result of:

an increase in advertising expenses related to Banco Hipotecario's efforts to develop its strategy of becoming a diversified financial institution,

higher fees and administrative services as a result of Banco Hipotecario's financial debt restructuring advisory services,

an increase in taxes related to higher advertising expenses, and

an increase in salaries and social contributions due to higher salaries in Banco Hipotecario's subsidiaries.

Miscellaneous Income

The following table sets forth Banco Hipotecario's miscellaneous income for the periods ended June 30, 2004 and 2003.

	Periods ended June 30,	% Change

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

	<u>2004</u>	<u>2003</u>	<u>2004/2003</u>
	(in millions of Pesos except for percentages)		
Penalty interest	11.5	14.5	(20.7)
Loan loss recoveries	53.3	50.1	6.4
Gain on restructuring debt	88.0		100.0
Recovery provisions of loan losses	30.0		100.0
Other	21.1	6.0	251.6
	<u>203.9</u>	<u>70.6</u>	<u>188.8</u>

Banco Hipotecario's miscellaneous income increased to Ps.203.9 million for the period ended June 30, 2004 from Ps. 70.6 million for the period ended June 30, 2003 primarily as a result of:

the reduction in interest rates corresponding to prior years as a result of the debt restructuring process,

higher income from subsidiaries included in Other Miscellaneous Income, and

recovery of provision for loan losses on Public Sector.

Table of Contents**Miscellaneous Expenses**

The following table sets forth the principal components of Banco Hipotecario's miscellaneous expenses for the periods ended June 30, 2004 and 2003.

	Periods ended June 30,		% Change
	2004	2003	2004/2003
(in millions of Pesos except for percentages)			
Provision for lawsuit contingencies	37.8	36.0	(5.0)
Provision for other contingencies and miscellaneous receivables	4.5	7.5	(40.0)
Provision StAR granted creditors under guaranteed debt	59.3		100.0
Miscellaneous assets loss	9.7		100.0
Prepayment mortgage loans at discount	8.2	51.6	(84.1)
Provision for taxes	32.0		100.0
Provision for administrative organization	3.9	48.0	(91.9)
Difference in compensatory and hedge bonds	4.7	49.3	(84.1)
Provision for restructuring expenses	36.5		100.0
Other	4.1	11.2	(40.3)
Total	200.7	203.6	(1.4)

Banco Hipotecario's miscellaneous expenses decreased to Ps. 200.7 million for the period ended June 30, 2004 from Ps.203.6 million for the period ended June 30, 2003, primarily as a result of:

lower provisions for administrative organization related to severance payments and the early retirement plan implemented during late 2002;

lower provisions for certain differences under discussion with Argentine Central Bank related to the asymmetric pesification compensation; and

lower expenses attributable to the campaign during 2002 which promoted the early prepayments of pre-1991 and post-1991 loans at a discount.

This decrease was partially offset by:

provisions due to the recording of the stock appreciation rights granted to creditors under the guaranteed debt;

expenses and taxes related to expenses paid on Banco Hipotecario's financial debt restructuring process; and

loss on sales of miscellaneous asset.

Income Tax

Prior to January 1, 1996, Banco Hipotecario was exempt from payment of income tax. Beginning January 1, 1996, Banco Hipotecario was only exempt from payment of income tax on income attributable to its residential mortgage lending activities. Effective October 1997, as a result of its conversion to a sociedad anónima, Banco Hipotecario became subject to payment of income tax in Argentina except on its income attributable to mortgage loan commitments made prior to that date.

As a general rule, Argentine tax law allows the deduction of expenses related to a business activity if profits from that activity are taxable. If an enterprise engages in both taxable and non-taxable businesses activities, as Banco Hipotecario does, the portion of its business expenses related to the taxable business

Table of Contents

may be determined by direct allocation of expenses to particular business activities or by the apportionment method. The Argentine tax code gives preference to the direct allocation method of accounting over the apportionment method in determining deductible expenses, providing that the apportionment method may only be used in circumstances where it is not possible to make direct allocation of expenses to taxable income.

Until December 31, 1998, Banco Hipotecario determined its income tax based on the expense apportionment method, treating as deductible the portion of expenses arising from applying to the total expenses incurred the ratio of taxable income to total income. Since the year ended December 31, 1999, income tax has been calculated taking account of the direct relationship between expenses and the taxable or non-taxable income to which those expenses relate. The apportionment method has only been used for those expenses that are not directly allocable to the income producing sources.

Banco Hipotecario has filed income tax returns for each of 2002, 2003 and 2004, which were prepared in compliance with the aforementioned methodologies. As a result, Banco Hipotecario has recorded tax loss carry forwards for each of 2002, 2003 and 2004 of Ps. 162,7 million, Ps. 3,131.6 million, and Ps. 2,086.5 million, respectively. Banco Hipotecario expect to have no income tax payable for 2005. Currently, the application of such methodologies for tax deductions is subject to review by the Administración Federal de Ingresos Públicos - Dirección General Impositiva, the Federal Public Income Administration or AFIP, and as of the date hereof the AFIP has not rendered a ruling in connection with this matter either upholding or rejecting the methodology described above.

Interest Rate Sensitivity

A key element of Banco Hipotecario's asset and liability policy is the management of interest rate sensitivity. Interest rate sensitivity measures the change in net financial income as assets and liabilities re-price following a change in market interest rates. An asset and liability structure is matched when an equal amount of assets and liabilities re-price as a result of a change in interest rates. Any difference between re-pricing assets and liabilities results in a gap or mismatch and a change in net financial income when interest rates change.

The following table shows Banco Hipotecario's interest-earning assets and interest-bearing liabilities positions by re-pricing period as of June 30, 2005. The table shows the impact that an increase in short-term interest rates (less than twelve months) results in a reduction in Banco Hipotecario's net interest income as a higher amount of liabilities than assets reprices, while a decrease in short-term interest rates has the opposite effect.

As of June 30, 2005									
Immediately	1 Through 6 months	6 Through 12 months	1 Through 3 years	3 Through 5 years	5 to 10 years	10 to 15 years	Over 15 years	Non-rate Sensitive	Total

Table of Contents

Exchange Rate Sensitivity

Banco Hipotecario's exposure to foreign currency fluctuations arises from its foreign currency-denominated assets and liabilities. On June 30, 2005 and June 30, 2004, Banco Hipotecario's total foreign currency-denominated liabilities were Ps.3,970.6 million and Ps.3,730.5 million, respectively, all of which were US dollar-and Euro-denominated obligations. On June 30, 2005 and June 30, 2004, Banco Hipotecario's US dollar-denominated assets (including BODEN) were Ps.4,023.8 million and Ps.4,198.4 million, respectively, and Banco Hipotecario's Euro-denominated assets were Ps.959.6 million and Ps.702.7 million, respectively, while Banco Hipotecario's U.S. Dollar-denominated liabilities were Ps.2,986.2 million and Ps.2,666.1 million, respectively, and Banco Hipotecario's Euro-denominated liabilities were Ps.984.3 million and Ps.1,064.5 million, respectively.

Liquidity

Banco Hipotecario's general policy has been to maintain liquidity adequate to meet Banco Hipotecario's operational needs and financial obligations. At June 30, 2005, Banco Hipotecario's liquid assets consisted of:

Ps.314.1 million of cash and due from banks;

Ps.275.2 million of Argentine government and corporate securities classified as held for trading; and

Ps.155.5 million of Argentine Central Bank Bills.

Cash Flows from Operating Activities. The changes in cash flows from operating activities were mainly due to the change in:

Provision for losses on loans and for contingencies and miscellaneous receivables, net of reversals,

Net (gain) loss on government securities, and

Net change in other assets and liabilities.

Cash Flows From Investing Activities. The changes in cash flow from investing activities were due to changes in net loans from Ps.268.6 million in June 2004 and Ps.297.7 million in June 2005 respectively.

Cash Flows from Financing Activities. The changes in cash flows from financing activities were mainly due to the decrease in proceeds from principal payments on Bonds, Notes and Long Term debts, as a result of the changes in Banco Hipotecario's restructuring financial debt in 2004

and 2003.

Funding

Historically, Banco Hipotecario financed Banco Hipotecario's lending operations mainly through:

the issuance of fixed and floating rate securities in the international capital markets,

other financing arrangements with international and domestic financial institutions,

securitizations of mortgage loans,

cash flow from existing loans,

deposits, and

Table of Contents

Argentine Central Bank long term loans.

At June 30, 2005 and 2004, Banco Hipotecario had four principal funding sources: bonds, Argentine Central Bank advances, other liabilities from financial institutions and deposits. The table below sets forth Banco Hipotecario's liabilities outstanding with respect to each of Banco Hipotecario's sources of funding as of the dates indicated.

	<u>At June 30,</u>		<u>% Change</u>
	<u>2005</u>	<u>2004</u>	<u>2005/2004</u>
Bonds ⁽¹⁾	2,345.8	2,735.8	(14.3)
Borrowings from Argentine Central Bank	2,042.4	2,193.5	(6.9)
Borrowings from banks and international entities	542.8	354.2	53.2
Deposits	423.4	181.4	133.4
Total	5,354.4	5,464.9	(2.0)

⁽¹⁾ Excludes accrued interest.

On May 3, 2005 Banco Hipotecario prepaid outstanding balances due to the Argentine Central Bank of approximately Ps.233.5 million in respect of advances. The outstanding amount reflected above as due to the Argentine Central Bank includes debt to be incurred in connection with the subscription of BODEN.

As result of the subscription process of Hedge BODEN 2012, the advances to be incurred for the acquisition of National Government Bonds, were reduced in approximately Ps. 1,662.2 million until December 13, 2005.

The restructuring resulted in a reduction of Banco Hipotecario's debt by approximately US\$361.3 million, the extension of terms to an average life of approximately 6.5 years and a 5% reduction in average interest rates. Consummation of the debt restructuring has enabled Banco Hipotecario to regain financial stability and bolstered its financial condition, allowing it to reach remarkable liquidity and solvency ratios unparalleled in the Argentine financial System.

Bonds

On June 30, 2005, the contractual residual nominal value of Bonds amounted to Ps.2,345.8 million. This amount includes Argentine Mortgage Bonds issued under Banco Hipotecario's Global Euro Medium Term Notes (EMTN) Program, ordinary Bonds not convertible into shares under the Global Medium Term Notes (GMTN) Program, and new debt issued in connection with Banco Hipotecario's restructuring.

The principal amount values of the different series of notes Banco Hipotecario has issued and outstanding is as follows:

	<u>Date of issue</u>	<u>Maturity Date</u>	<u>Annual interest rate</u> (%)	<u>Residual face value at June 30, 2005</u> (millions of Pesos)
EMTN (CHA)				
Series III (US\$100,000,000)	Aug. 7, 1996	Aug. 7, 2006	10.625	2.0
GMTN

Series XXV (EURO 165,700,000)	Mar. 15, 2002	June 15, 2005	8.000	20.2
Subtotal				129.5
Notes Issued in Restructuring:				
Guaranteed bonds (US\$107,941,000)	Sep. 15, 2003	Aug. 3, 2010	Libor + 2.5	148.4
Long term bonds (US\$449,880,000)	Sep. 15, 2003	Dec. 1, 2013	3.0 6.0	1,142.3
Long term bonds (Euro 278,367,000)	Sep. 15, 2003	Dec. 1, 2013	3.0 6.0	923.6
Accrued interest				54.8
Total				2,400.6

During 2004, Banco Hipotecario redeemed a portion of Banco Hipotecario's outstanding notes issued in the restructuring, as follows:

Medium-term guaranteed bonds (US\$) for a face value of US\$33.7 million.

Long-term bonds (US\$) for a face value of US\$7.7 million.

Long-term bonds (Euro) for a face value of Euro 4.5 million.

During the first six months of 2005, Banco Hipotecario redeemed a portion of Banco Hipotecario's outstanding notes issued in the restructuring, as follows:

Medium-term guaranteed bonds (US\$) for a face value of US\$5.2 million.

Long-term bonds (US\$) for a face value of US\$25.1 million.

Long-term bonds (Euro) for a face value of Euro 5.7 million.

The results of these operations have been recorded under financial income in Banco Hipotecario's income statements.

Borrowings from Banks and International Entities

During 2004 and 2005, Banco Hipotecario incurred the following indebtedness:

On September 2, 2004, Banco Hipotecario obtained a loan from Credit Suisse First Boston International in an aggregate principal amount of US\$65.0 million, due August 25, 2005.

On September 30, 2004, Banco Hipotecario obtained a loan from Deutsche Bank AG, London Branch in an aggregate principal amount of US\$20.0 million, due March 31, 2006.

On January 28, 2005, Banco Hipotecario obtained a loan from Deutsche Bank AG, London Branch in an aggregate principal amount of US\$30.0 million, due July 28, 2006.

On August 25, 2005, Banco Hipotecario obtained a loan from Deutsche Bank AG, London Branch in an aggregate principal amount of US\$50.0 million, due August 28, 2006.

Borrowings from the Argentine Central Bank

On November 11 and December 1, 2004, Banco Hipotecario pre-paid the financial assistance loans granted by the Argentine Central Bank in amounts totaling Ps.10.0 million and Ps.30.0 million,

Table of Contents

respectively, in order to settle in advance restructured foreign debt. On January 20, 2005 and February 25, 2005, Banco Hipotecario took part in the tender offer established by the Argentine Central Bank, for Ps.63.8 million and Ps.16.9 million, respectively, having been accepted in settlement of the previously refinanced debt. On May 3, 2005 Banco Hipotecario fully prepaid all outstanding balances due on this indebtedness of approximately Ps.233.5 million. As of June 30, 2005, Banco Hipotecario has recorded in Banco Hipotecario's financial statements borrowings from the Argentine Central Bank totaling Ps.2,042.4 million in respect of advances Banco Hipotecario expects to incur in the future for its right to subscribe additional BODEN.

Loan Securitization Program

In 1996, 1997, 2000, 2001, 2002, 2004 and 2005, Banco Hipotecario established twelve separate mortgage trusts under Banco Hipotecario off-balance sheet securitization program. For each mortgage trust, Banco Hipotecario transferred a portfolio of Banco Hipotecario loans to a trustee, which then issued senior bonds, subordinated bonds and certificates of participation. The payment obligations of these instruments are secured by the trust assets consisting of the portfolio of individual residential mortgage loans and any reserve fund established by Banco Hipotecario for such purpose. The holders of the securities have no recourse against Banco Hipotecario if the trustee defaults in its payment obligations. Notwithstanding this fact, certain holders of bonds issued by the mortgage trusts have sued Banco Hipotecario for the effects of the devaluation of the Peso and its impact on the value of the trust assets.

The first mortgage fund (BHN I Mortgage Fund) was established in October 1996 with approximately US\$93.0 million of mortgage loans and a reserve fund of US\$9.7 million. The second mortgage trust (BHN II Mortgage Trust) was established in May 1997 with approximately US\$106.6 million of mortgage loans and a reserve fund of US\$1.4 million. The third mortgage trust (BHN III Mortgage Trust) was established in October 1997 with approximately US\$105.4 million of mortgage loans and a reserve fund of US\$1.4 million. The fourth mortgage trust (BHN IV Mortgage Trust) was established in March 2000 with approximately US\$195.0 million of mortgage loans and a reserve fund of US\$8.1 million. The fifth mortgage trust (BACS I) was established in February 2001 with approximately US\$115.9 million of mortgage loans and a reserve fund of US\$3.1 million. The sixth mortgage trust (BACS Funding I) was established in November 2001, with approximately Ps.29.9 million of mortgage loans. The seventh mortgage trust (BACS Funding II) was established in November 2001 with approximately Ps.12.1 million of mortgage loans. The eighth mortgage trust (Banco Hipotecario I) was established in February 2002 with approximately Ps.43.4 million of mortgage loans. The ninth trust (*Cédulas Hipotecarias Argentinas* Series I, 2004-1) was established in June 2004, with approximately Ps.50.0 million of mortgage loans. The tenth trust (Argentine Mortgage Bonds Financial Trust Series II, 2004-2) was established in November 2004, with approximately Ps.50.0 million of mortgage loans. The eleventh trust (Argentine Mortgage Bonds Financial Trust Series III, 2005-1) was established in April 2005, with approximately Ps.62.5 million of mortgage loans. The twelfth trust (Argentine Mortgage Bonds Financial Trust Series IV, 2005-2) was established in June 2005, with approximately Ps.64.6 million of mortgage loans. We acquired subordinated debt notes relating to the BHN I, the BHN III, BHN IV and BACS I issued in respect of the fifth mortgage trusts. See note 21 to Banco Hipotecario audited financial statements.

On June 25, 2004, Banco Hipotecario led the sale of the first series of *Cédulas Hipotecarias Argentinas* in the local capital market. The aggregate amount of the offering was Ps.50 million, consisting of Ps.40 million of Senior Bonds and Ps.10 million of Subordinated and Certificates of Participation issued under the Ps.500 million Program. The issue was largely oversubscribed and attracted interest from a large number of retail and institutional investors. The securities are collateralized by residential mortgage loans and were rated AAA by Standard & Poor's.

On November 17, 2004, Banco Hipotecario successfully closed its second series of *Cédulas Hipotecarias* in the local capital market for an aggregate amount of Ps.50 million, issued under the *Cédulas Hipotecarias Argentinas* under the Ps. 500 million Program. The offer was oversubscribed by approximately three times the authorized amount issued. The bonds accrue variable interest at the higher of CER + 3% and the interest rate for time deposits between Ps. 0.1 million and Ps. 0.5 million, up to 59 days, reported by Argentine Central Bank + 4% subject to a floor of 8% per annum and a ceiling of 15% per

Table of Contents

annum. The securities are collateralized by residential mortgage loans and were rated *ra AA* by Standard and Poor *s*.

On April 7, 2005, Banco Hipotecario successfully closed its third series of Cédulas Hipotecarias in the local capital market for an aggregate amount of 62.5 million, issued under the *Cédulas Hipotecarias Argentinas* under the Ps.500 million Program. The offer was oversubscribed by approximately three times the authorized amount issued. The bonds accrue variable interest at the higher of CER + 1% and the interest rate for time deposits between Ps. 0.1 million and Ps. 0.5 million, up to 59 days, reported by Argentine Central Bank + 2% subject to a floor of 8% per annum and a ceiling of 15% per annum. The securities are collateralized by residential mortgage loans and were rated *ra AA* by Standard and Poor *s*.

On June 16, 2005, Banco Hipotecario successfully closed its fourth series of Cédulas Hipotecarias in the local capital market for an aggregate amount of 64.6 million, issued under the *Cédulas Hipotecarias Argentinas* under the Ps.500 million Program. The offer was oversubscribed by approximately four times the authorized amount issued. The bonds accrue variable interest at the higher of CER + 1% and the interest rate for time deposits between Ps.100.000 and Ps.500.000, up to 59 days, reported by Argentine Central Bank + 2% subject to a floor of 8% per annum and a ceiling of 15% per annum. The securities are collateralized by residential mortgage loans and were rated *ra AA+* by Standard and Poor *s*.

Deposits

Pursuant to a Argentine Central Bank requirement, historically Banco Hipotecario could not accept deposits other than savings accounts that were assumed in November 1994 from Caja Nacional de Ahorro y Seguros (the Argentine postal savings system), deposits related to Banco Hipotecario lending transactions and institutional deposits in excess of Ps.1.0 million.

Banco Hipotecario bylaws contained an identical restriction on Banco Hipotecario *s* ability to accept deposits. Although Banco Hipotecario did not historically rely upon deposits as a principal source of funding, Banco Hipotecario engaged in limited deposit taking activities. Banco Hipotecario *s* other deposits consist of checking accounts maintained by different provincial housing funds and agencies representing Argentine government contributions from the collection of federal taxes which have been set aside for use by the provinces for special purposes and transferred to these accounts.

In December 2001 Banco Hipotecario received authorization from the Central Bank to accept time deposits for individuals as well as institutions and amended Banco Hipotecario *s* bylaws accordingly, with approval of a majority of Banco Hipotecario *s* shareholders as required by Argentine Corporate Law. At June 30, 2005 and 2004 Banco Hipotecario *s* total deposits consisted of the following:

	<u>At June 30, 2005</u>	<u>At June 30, 2004</u>	<u>% Change</u> <u>2005/2004</u>
Checking accounts	19.9	13.3	(49.6)
Saving accounts	115.9	51.6	124.6
Time deposits	269.6	101.6	165.4
Other deposits accounts	14.7	13.8	6.5
Accrued interest payable	3.2	1.1	1.9

Total	423.4	181.4	133.4
-------	-------	-------	-------

Banco Hipotecario's current strategy is to increase deposits significantly over time in order to achieve significant liquidity to maintain and further develop Banco Hipotecario's financing activities.

B. Liquidity and Capital Resources

Our liquidity and capital resources include our cash and cash equivalents, proceeds from bank borrowing and long-term debt, capital financing and sales of real estate investments.

Table of Contents

As of June 30 2005, we had a working capital of Ps. 78.8 million. At the same date, we had cash and cash equivalents totaling Ps. 142.6 million, an increase of 16.0 % from Ps. 122.9 million of cash and cash equivalents held as of June 30, 2004.

Our operating activities resulted in net cash inflows of Ps. 93.5 million, Ps. 74.7 million and Ps. 93.9 million for fiscal years 2005, 2004 and 2003, respectively. The operating cash inflows for fiscal year 2005 primarily resulted from operating gains of Ps. 127.2 million, an increase in customer advances, salaries and social security payable and taxes payable of Ps. 12.0 million, and an increase in trade accounts payable of Ps. 21.0 million, partially offset by an increase in mortgages and leases receivables for Ps. 49.2 million and a decrease in other liabilities of Ps. 17.7 million. The operating cash inflows for fiscal year 2004 primarily resulted from operating gains of Ps. 90.6 million and an increase in trade accounts payable of Ps. 14.4 million, partially offset by a decrease in other liabilities of Ps. 24.6 million. The operating cash inflows for fiscal year 2003 primarily resulted from operating gains of Ps. 16.4 million, an increase in accrued interest of Ps. 56.5 million and a decrease in inventories of Ps. 35.3 million, partially offset by an increase in mortgages and leases receivables of Ps. 9.2 million.

Our investing activities resulted in net cash outflows of Ps. 126.7 million, Ps. 97.2 million and Ps. 40.6 million for fiscal years 2005, 2004 and 2003, respectively. In fiscal year 2005 we made investments in fixed assets of Ps. 79.3 million, primarily as a result of (i) the development of Alto Rosario Shopping and improvements made in other shopping centers totaling Ps. 50.9 million, and (ii) the partial payment for the acquisition of Bouchard 710 building for Ps. 20.4 million. In fiscal year 2005 we invested Ps. 35.0 million in the acquisition of additional shares and convertible notes of APSA and in the partial payment for the acquisition of the additional 49.9% of Mendoza Plaza Shopping. We also made a payment of US\$ 4 million (Ps. 11.7 million) in connection with a contract entered into with CSFB in June 2005, pursuant to which we are committed to acquire in specific circumstances a loan with a mortgage guarantee on an office building in the City of Buenos Aires for US\$ 10.0 million. In fiscal year 2004 we made a net investment of Ps. 70.3 million in shares of Banco Hipotecario and we also invested in fixed assets for Ps. 26.4 million primarily in connection with the development of Alto Rosario Shopping. In fiscal year 2003 we made investments in our subsidiaries for Ps. 31.7 million (primarily in APSA) and in fixed assets for Ps. 10.8 million.

Our financing activities resulted in net cash inflows (outflows) of Ps. 52.9 million, Ps. (47.6) million and Ps. 109.4 million for fiscal years 2005, 2004 and 2003, respectively. Our net cash provided by financing activities for fiscal year 2005 was due to the issuance of common stock as a result of the exercise of warrants of Ps. 105.7 million, proceeds from issuance of short-term and long-term debt totaling Ps. 117.2 million and proceeds from the settlement of the swap agreement for Ps. 15.8 million, partially offset by the payment of short-term and long-term debt for Ps. 167.3 million, the payment of dividends by our subsidiaries to minority shareholders totaling Ps. 10.3 million, the settlement of debt owed to minority shareholders for Ps. 2.5 million and the payment of Ps. 5.8 million to CSFB as guarantee of the debt owed by our subsidiary HASA. Our net cash used in financing activities for fiscal year 2004 was primarily due to the payment of short-term and long-term debt, and seller financing totaling Ps. 67.8 million and the payment of dividends by our subsidiaries to minority shareholders of Ps. 4.9 million, partially offset by the proceeds from the issuance of common stock as a result of the exercise of warrants for Ps. 24.8 million. Our net cash provided by financing activities for fiscal year 2003 was primarily due to the proceeds from issuance of short-term and long-term debt of Ps. 397.3 million, partially offset by the payment of short-term and long-term debt, seller financing and mortgages payable totaling Ps. 281.7 million.

We believe our assets have potential for growth. Our level of indebtedness, most of which is long-term, and the cash proceeds from the exercise of warrants attached to our Convertible Notes, place us in a good position to finance new projects and seek expansion opportunities.

Our indebtedness

Our total outstanding debt as of June 30, 2005, amounted to Ps. 483.7 million, as compared to the Ps. 603.9 million as of June 30, 2004. This decrease is attributed to the conversion of IRSA's and APSA's Convertible Notes for US\$ 29.0 million and US\$ 1.8 million respectively and to several debt buybacks and reductions conducted during the year, as described below.

Table of Contents

Pursuant to Decree No. 214/02, part of our indebtedness was pesified, although a large portion, governed by foreign laws, continued to be U.S. Dollar-denominated. Pesified indebtedness is to be adjusted by the CER index.

On May 24, 2000, we entered into a US\$ 80.0 million Syndicated Loan Agreement (the *Syndicated Loan Agreement*) arranged by Bank Boston N.A. Loans under this Syndicated Loan Agreement bear interest at three-month LIBOR plus a margin of 500 basis points.

Amounts owing under the Syndicated Loan Agreement were payable in U.S. Dollars. Although final maturity on the loan agreement was on August 30, 2002, due to the continuing effects of economic recession, the unavailability of financing sources and the succession of recent governmental measures adversely affecting the normal operations of the banking and payments system, we could not make the scheduled payment on that date. As explained below, we renegotiated this Syndicated Loan Agreement under new conditions.

On December 18, 2000, we issued US\$ 43.5 million unsecured Class 2 Floating Rate Notes due December 24, 2001 (the *Class 2 Floating Rate Notes*). Proceeds from this issuance were used to repay certain outstanding short-term indebtedness. Our Class 2 Floating Rate Notes matured in December 2001, and we were unable to pay the principal then due. As a result of such non-payment, in December 2001, we entered into negotiations with the holders of our Class 2 Floating Rate Notes and on February 8, 2002, we agreed with our holders to replace the Class 2 floating interest rate for an annual fixed interest rate of 12%. Pursuant to a new deferral, granted on October 31, 2002, the principal of and interest on our Class 2 Floating Rate Notes were due in full on November 14, 2002 and were further renegotiated as explained below. We also agreed with our holders on a capitalization of the interest due on October 31, 2002. On May 15, 2002, we had repurchased from Banco Sudameris its participation in the mentioned Class 2 Floating Rate Notes of US\$ 6.8 million.

On November 15, 2002, we signed a Framework Refinancing Agreement (the *Framework Refinancing Agreement*) to refinance the Syndicated Loan Agreement of US\$ 80.0 million and the Class 2 Floating Rate Notes amounting, at that time, to US\$ 37.0 million through the following schedule:

US\$ 13.6 million were paid in cash, reducing the principal;

US\$ 15.0 million were exchanged for Convertible Notes at a rate of 8% and maturing in the year 2007;

US\$ 37.4 million in Series 03 Secured Notes due 2009 with a 90-day LIBOR plus 200 base points and maturing in the year 2009. These notes are secured by a first mortgage drawn out on some of our properties for an amount equivalent to 50% of the debt; and

US\$ 51.0 million Unsecured Loan Agreement (the *Unsecured Loan Agreement*) expiring in the year 2009. 69% of this loan accrues interest at a ninety-day LIBOR plus 200 base points, whereas the remainder accrues interest at a phased fixed rate starting at 5.5% and reaching 6.5%.

The offer of Convertible Notes into ordinary shares was successfully completed on November 21, 2002, for a total amount of US\$ 100 million. These notes are accompanied by a warrant that offers the option to purchase additional shares. The subscription price was 100% of the face value of the Convertible Notes, which accrue interest at an annual 8% payable semiannually and maturing in November 2007. The conversion price is US\$ 0.5450 per ordinary share, in other words each note may be converted into 1.8349 ordinary shares. The funds generated by the issue were mainly allocated to the settlement and restructuring of the liabilities existent at the date, and to finance our working capital and for other general corporate purposes.

Due to the distribution of 4,587,285 treasury shares, we have adjusted the conversion price of our Convertible Notes according to the subscription clauses. The conversion price of the Convertible Notes decreased from US\$ 0.5571 to US\$ 0.5450 and the warrants price went from US\$ 0.6686 to US\$ 0.6541. Such adjustment was effective as from December 20, 2002.

Table of Contents

During fiscal years 2003, 2004 and 2005, certain holders of our Convertible Notes for a total amount of US\$ 41.5 million exercised their conversion rights and, as a result, we issued 12,531 shares, 23,734,388 shares and 52,448,952 shares of common stock, respectively. At June 30, 2005 the outstanding balance of our Convertible Notes amounted to US\$ 58.5 million. Subsequent to 2005 fiscal year-end, we issued 2,738,039 shares as a result of the conversion of US\$ 1,492,234 of our Convertible Notes. As of November 30, 2005 the outstanding balance of our Convertible Notes amounts to US\$ 57.0 million.

In addition, during fiscal years 2004 and 2005, we issued 13.1 million shares and 56.0 million shares of common stock in exchange for US\$ 8.5 million and US\$ 36.6 million in cash, respectively, as a result of the exercise of warrants. At November 30, 2005 the number of outstanding warrants amounts to 57.8 million.

On December 4, 2002, we paid off our debt with GSEM/AP Holdings, L.P. (Goldman Sachs) which amounted to US\$ 16.3 million including the principal and accrued interest, with a total payment of US\$ 11.1 million.

On July 25, 2003, we made a prepayment to HSBC Bank Argentina S.A. of US\$ 16 million under the US\$ 51.0 million Unsecured Loan Agreement whose final expiration is in November 2009. This transaction involved a payment of US\$ 10.9 million, representing 68% of the face value of the debt and a discount of US\$ 5.1 million.

On March 17, 2004 we repurchased from HSBC Bank London Plc. US\$ 12 million under the US\$ 51 million Unsecured Loan Agreement, maturing in November 2009. The transaction value totaled US\$ 8.6 million, was at a discount of 28%, and resulted in a US\$ 3.4 million discount.

On October 24, 2005, we issued an offer for repurchasing our debt for up to 85% of our outstanding nominal amount. The offer is addressed to all the holders of our Series 03 Secured Notes and Syndicated Loan. The deadline for effective payment was November 21, 2005, but none of the holders accepted our repurchasing offer.

In January 2001, our subsidiary Hoteles Argentinos S.A., holder of 100% of the Hotel Sheraton Libertador, obtained a loan of US\$ 12.0 million from BankBoston N.A. Subsequently, Bank Boston N.A sold this loan to Marathon Master Fund Ltd. This loan expires in January 2006 and accrues a quarterly interest at the LIBOR plus a markup ranging between 401 and 476 basis points, according to the value of certain financial indicators. This loan was not converted to Pesos and is stated in U.S. Dollars because it is governed by the laws of the State of New York. There are currently installments of the principal and interest that are overdue and unpaid. This loan is with no recourse to us. On December 16, 2004, our wholly-owned subsidiary Ritelco S.A. acquired 100% of the debt Hoteles Argentinos had with Marathon Master Fund, Ltd. Ritelco S.A. paid a total amount of US\$ 8.0 million.

On March 23, 2005 Ritelco S.A. sold to CSFB the loan agreement for US\$ 8 million in cash and we entered into an agreement with CSFB pursuant to which, among other things, we guarantee the payment of the debt owed by HASA once the debt is restructured and in the event of non-compliance we shall repurchase the loan agreement for US\$ 8.0 million. As guarantee for this transaction, we made a payment of US\$ 2.0 million to CSFB which is disclosed as a collateral deposit within Other receivables and prepaid expenses, net in our consolidated balance sheet. In connection with the restructuring process being carrying out, HASA must present a restructuring plan of the collateralized loan prior to March 15, 2006. The debt owed by HASA has been valued at US\$ 8.0 million in our consolidated balance sheet.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

On June 2, 2005 we entered into an agreement with CSFB pursuant to which we are committed to acquire from CSFB in specific circumstances a loan with a mortgage guarantee on an office building in the City of Buenos Aires for US\$ 10.0 million. We made a payment of US\$ 4 million in connection with this contract. The loan has a nominal value of US\$ 12.8 million and CSFB is actually the creditor.

On June 16, 2005 we entered into an interest rate swap agreement with Deutsche Bank AG maturing in November 2009 to effectively convert our Uncollateralized Loan Agreement and Floating Rate Notes to fixed rate debt. The Uncollateralized Loan Agreement and the Floating Rate Notes accrue interest at

Table of Contents

LIBOR plus 2%. Pursuant to this agreement, we will pay interest at a fixed rate of 4.27% and collect interest at LIBOR. As a result of this agreement, we had fixed the interest rate of the Uncollateralized Loan Agreement and the Floating Rate Notes at 6.27%. However, on October 24, 2005 we canceled the swap agreement, receiving US\$ 0.4 million representing the fair market value of the swap at the termination date.

Complying with the payment schedule established in the Standard Agreement entered into in November 2002, during the current year the capital installments of the financial debt started to be paid.

With respect to Floating Rate Notes for US\$ 37.4 million and the Unsecured Loan Agreement, two capital installments for US\$ 0.93 million and US\$ 0.58 million respectively each, were paid in February and May, 2005.

The following table sets forth our outstanding debt as of June 30, 2005 (excluding APSA):

IRSA Debt	Ps. (million)⁽¹⁾	Principal (US\$ MM)	Interest Rate	Maturity
Unsecured Loan Agreement	63.2	21.9 ₍₂₎	LIBOR + 200 bps	November 2009
Series 03 Secured Notes due 2009	102.5	35.5 ₍₂₎	LIBOR + 200 bps	November 2009
Hoteles Argentinos Loan	23.1	8.0	LIBOR + 500 bps	June 2013
Total Debt	188.8	65.4		
ONC	168.9	58.5	8%	November 2007

⁽¹⁾ Accrued interest is not included.

⁽²⁾ As required by RT 17 for an exchange of debt with substantially different terms, we originally recorded the issuance of these debts on a discounted basis considering an 8% market interest rate. At June 30, 2005 and for accounting purposes, the carrying value of these debts is as follows: Unsecured Loan Agreement US\$ 19.1 million and Floating Rate Notes US\$ 31.1 million.

APSA's Indebtedness

On January 18, 2001, APSA issued US\$ 120.0 million of secured Senior Notes (the Senior Notes) due on January 13, 2005 in three classes: (i) US\$ 40.0 million of Class A-2 notes due January 13, 2005, at a corrected Badlar interest rate plus 395 basis points; (ii) US\$ 5.0 million of Class B-1 notes, which APSA issued together with APSA's wholly-owned subsidiary SAPSA, and which are due on January 13, 2005, at a 90-day LIBOR plus 475 basis points, and (iii) US\$ 75.0 million of Class B-2 notes, which APSA issued together with SAPSA, maturing at various dates through January 13, 2005, at a corrected Badlar rate plus 395 basis points. The proceeds from this issuance were used to repay financial indebtedness, including outstanding mortgage-collateralized borrowings and other short-term debts. The proceeds from the issuance of the Senior Notes were used to repay financial indebtedness, including outstanding mortgage-collateralized borrowings and other short-term debts. Pursuant to Decree N° 214, debts in U.S. dollars in the Argentine financial system were converted to pesos at the rate of exchange of Ps. 1 per US\$ 1 and adjusted based on the *Coficiente de Estabilización de Referencia* (CER). In addition, a fixed interest rate between 6% and 8% was established by the Argentine Central Bank for debts converted to pesos. By June 30, 2005 APSA had fully paid the Senior Notes. During fiscal years 2001, 2002, 2003, 2004 and 2005 APSA repurchased and/or made principal payments at their maturity amounting to Ps. 2.5 million, Ps. 11.3 million, Ps. 85.4 million, Ps. 3.3 million and Ps. 17.5 million, respectively. The Senior Notes were collateralized by a pledge on the shares of APSA's subsidiary SAPSA and included various restrictive covenants, which among other things required APSA to maintain certain financial ratios.

On April 7, 2000, APSA issued Ps. 85.0 million 14.875% unsecured notes due April 7, 2005 (the Notes). Proceeds from this issuance were used to repay outstanding bridge financing. The Notes included various restrictive covenants, which among other things required APSA to maintain certain financial ratios. During the years ended June 30, 2001, 2002, 2003 and 2005, APSA redeemed Ps. 18.1 million, Ps. 15.5 million, Ps. 1.8 million and Ps. 1.2 million of the Notes, respectively, at different prices below par plus accrued interest. On April 7, 2005 APSA paid the balance of the Notes amounting to Ps. 48.4 million.

Table of Contents

In order to cancel the balance of the Notes, on April 5, 2005 APSA tookout a syndicated loan for Ps. 50 million with Banco Rio de la Plata and Bank Boston N.A. This loan will be amortized in four equal and consecutive semiannual installments of Ps. 12.5 million beginning October 5, 2005. The syndicated loan accrues interest at a fixed rate of 7.875% during the first year and will accrue interest at a variable rate (Encuesta) plus 3% during the second year. The terms and conditions of the syndicated loan include various restrictive covenants, which among other things require us to maintain certain financial ratios. As of June 30, 2005 APSA amply met APSA's financial covenants. On July 5, 2005 APSA paid the first interest installment of this loan.

In connection with the issuance of the Notes, APSA entered into an interest rate swap agreement with Morgan Guaranty Trust to reduce the related financing costs of the Notes. Pursuant to this agreement APSA had converted APSA's peso-denominated fixed-rate debt (Notes) to peso-denominated floating-rate debt. This swap agreement initially allowed APSA to reduce the net cost of APSA's debt. However, subsequent to June 30, 2001, APSA modified the swap agreement due to an increase in interest rates as a result of the economic situation prevailing at that moment in Argentina. Under the terms of the revised agreement, APSA converted APSA's peso-denominated fixed rate debt (Notes) to U.S. dollar-denominated floating rate debt for a notional amount of US\$ 69.1 million with maturities through April 2005. As collateral for the revised agreement, APSA was required to make a deposit of US\$ 50.0 million with the counterparty. As a result of the devaluation of the Argentine peso, APSA recorded net losses totalling US\$ 45.0 million in connection with the swap agreement. On April 1, 2005, the swap agreement became due and as a result APSA collected US\$ 5.5 million in cash (including US\$ 0.5 million of interest on the collateral deposit). This amount represents the net amount of the collateral deposit (including interest) and the amount payable for the swap agreement at its maturity.

In order to finance the US\$ 50 million collateral deposit and the subsequent transactions related to the swap, APSA entered into loan agreements with IRSA and Parque Arauco. As of June 30, 2002 APSA's debt with IRSA and Parque Arauco under those loan agreements amounted to Ps. 45.6 million and Ps. 22.9 million respectively. In addition, between May and July 2002, IRSA and Parque Arauco granted to APSA loans for US\$ 10.1 million and US\$ 4.9 million respectively. The annual interest rate for such loans was 10%. The funds obtained under these loans have been used to fully cancel APSA's short-term bank debt for the total amount of Ps. 43.8 million plus the accrued CER adjustment. On February 17, 2003, APSA entered into a repurchase agreement (the Repurchase Agreement) with IRSA and Parque Arauco in which each company granted to APSA loans for Ps. 4.2 million and Ps. 2.1 million, respectively. According to the Repurchase Agreement, APSA made a collateral deposit of Ps. 15.5 million Senior Notes with IRSA and other of Ps. 7.8 million Senior Notes with Parque Arauco. On November 5, 2004, APSA agreed to repurchase on January 7, 2005 the securities at a price of Ps. 5.1 million and Ps. 2.6 million from IRSA and Parque Arauco, respectively. The amounts APSA owed under the loans which were granted to APSA from IRSA and Parque Arauco, were used by IRSA and Parque Arauco to partially subscribe APSA's offering of US\$ 50.0 million Convertible Notes on August 20, 2002 (the Convertible Notes). IRSA and Parque Arauco subscribed for US\$ 27.2 million and US\$ 15.2 million respectively of APSA's Convertible Notes.

On August 20, 2002 APSA issued US\$ 50 million of uncollateralized convertible notes (the Convertible Notes) in exchange for cash and the settlement of certain liabilities with APSA's shareholders. Raymond James Argentina Sociedad de Bolsa S.A. acted as subscription and placement agent and the offer was subscribed in full. Proceeds from the issuance of Convertible Notes were used to repay short-term bank loans for Ps. 27.3 million and for the redemption of the Senior Notes for a principal amount of Ps. 52.8 million. The Convertible Notes mature on July 19, 2006, accrue interest (payable semiannually) at a fixed annual rate of 10% and are convertible, at any time at the option of the holder, into common shares of Ps. 0.10 par value per share. The conversion rate per U.S. dollar is the lesser of 30.8642 and the result obtained from dividing the exchange rate in effect at the conversion date by the par value of APSA's common shares. During fiscal years 2005 and 2004, holders of approximately US\$ 2.72 million of APSA's Convertible Notes exercised their conversion rights and, as a result, APSA issued 52,741,380 and 22,852,510 common shares, respectively. By November 30, 2005 the outstanding balance of APSA's Convertible Notes amounted to US\$ 47.3 million. In the event all the bondholders exercise their conversion rights, APSA's common shares would increase from 780.4 million (Ps. 78.0 million) to 2,239.7 million (Ps. 224.0 million).

Table of Contents

On September 29, 2004, APSA entered into a purchase agreement pursuant to which APSA acquired an additional 49.9% ownership interest in Mendoza Plaza Shopping (formerly Pérez Cuesta S.A.C.I.) for US\$ 5.3 million. The Company paid US\$ 1.77 million on December 2, 2004 and the remaining balance will be paid in two equal annual installments of US\$ 1.77 million each beginning on September 29, 2005. APSA also entered into the following contracts in connection with debt owed by Mendoza Plaza Shopping:

Put option with Banco de Chile S.A. (Banco de Chile), whereby Banco de Chile was entitled, although not obliged, to assign to APSA two defaulted credit agreements amounting to US\$ 18 million originally granted to Mendoza Plaza Shopping. As a result of the economic measures issued in Argentina in 2002, these financial agreements had been converted into Argentine pesos at the exchange rate of Ps. 1.0 per US Dollar and indexed based on the reference stabilization index (CER). On March 30, 2005 Banco de Chile executed the put option, transferring all the rights of the above mentioned credit facilities to APSA in exchange for US\$ 8.5 million (Ps. 24.8 million).

Call option with HSBC Bank Argentina S.A. (HSBC), whereby APSA was entitled, although not obliged, to acquire, and HSBC Bank Argentina S.A. was obliged to transfer, a defaulted loan agreement originally granted to Mendoza Plaza Shopping amounting to US\$ 7.0 million. As a result of the economic measures issued in Argentina in 2002, this financial agreement had been converted into Argentine pesos at the exchange rate of Ps. 1.0 per US Dollar and indexed by the reference stabilization index (CER). On March 29, 2005 APSA transferred the purchase option to Mendoza Plaza Shopping, which exercised the option paying Ps. 6.8 million for the settlement of the loan (corresponding to the exercise price of Ps. 7.2 million net of rental fees collected by HSBC Bank Argentina S.A. as guarantee amounting to Ps. 0.4 million). This cash payment was funded through a loan granted by APSA.

APSA also entered into an agreement with Inversiones Falabella Argentina S.A. (Falabella), the remaining minority shareholder of Mendoza Plaza Shopping, pursuant to which, among other things, Falabella has the irrevocable right to sell to APSA (put option) its ownership interest in Mendoza Plaza Shopping for a total consideration of US\$ 3.0 million. The put option can be exercised until the last business day of October 2008. At the date of issuance of this annual report, Falabella has not exercised the put option.

On May 31, 2005 the shareholders of Mendoza Plaza Shopping approved the conversion of debt owed to APSA totaling Ps. 36.1 million into common shares. As a result of this transaction, APSA increased APSA's ownership interest in Mendoza Plaza Shopping from 68.8% to 85.4%.

On March 4, 2005 Deutsche Bank S.A. granted APSA an US\$ 11 million loan, of which US\$ 5 million were repaid by the Company on April 4, 2005 with proceeds received in connection with the settlement of the swap agreement. The balance of the loan will be amortized in two equal installments on February 1, 2006 and August 1, 2006. The loan accrues interest at LIBOR plus 3.25%. Proceeds from this loan were used to settle the debt owed by Mendoza Plaza Shopping as a result of the exercise of the put option with Banco de Chile and the call option with HSBC.

The following table shows APSA's significant outstanding debt as of June 30, 2005 (accrued interest not included):

	Ps. (million)	U.S.\$ ⁽²⁾ (million)	Interest Rate	Maturity
Deutsche Bank Loan	17.3	6.0	Libor + 3.25%	August 2006
Syndicated Loan	50.0	17.3	7.875% ⁽¹⁾	April 2007
Subtotal	67.3	23.3		
Convertible Notes	136.5	47.3	10%	July 2006

Total Debt	203.8	70.7
-------------------	--------------	-------------

- (1) Adjusted Encuesta Rate plus 3% for the second year
- (2) Solely for the convenience of the reader, APSA have translated Peso amounts into U.S. Dollars at the exchange rate quoted by Banco de la Nación Argentina for June 2005 which was Ps. 2.887 per US\$1.0. APSA make no representation that the Peso or U.S. Dollar amounts actually represent, could have been or could be converted into U.S. Dollars at the rates indicated, at any particular rate or at all. See Exchange Rates .

Table of Contents

Capital expenditures

During the fiscal year ended June 30, 2005 we had capital expenditures of Ps. 114.9 million. We made investment in fixed assets of Ps. 79.3 million primarily in shopping centers of Ps. 50.9 million and for the acquisition of Bouchard 710 of Ps. 20.4 million. We also made investments in our subsidiaries of Ps. 4.2 million for the acquisition of Perez Cuesta S.A. and Ps. 30.8 million for the increase in our ownership interest in APSA. We also invested Ps. 0.7 million in undeveloped parcels of land.

During the fiscal year ended June 30, 2004 we had capital expenditures of Ps.97.2 million. We made a net investment of Ps. 70.3 million for the purchase of shares and options of Banco Hipotecario. We also made investments in fixed assets of Ps. 26.4 million primarily in APSA of Ps. 21.7 million and in the Llao Llao Hotel of Ps. 3.3 million. We also invested Ps. 0.6 million in undeveloped parcels of land.

During the fiscal year ended June 30, 2003 we had capital expenditures of Ps. 42.7 million. We made investments in our subsidiaries of Ps. 31.7 million primarily in APSA. We also made investments in fixed assets of Ps. 10.8 million primarily in the shopping center and hotel segments. In addition we made investments in undeveloped parcels of land of Ps. 0.2 million.

U.S. GAAP Reconciliation

The accounting principles applied in Argentina vary in certain significant respects from accounting principles applied in the United States. U.S. GAAP application would have affected the determination of amounts shown as net income for each of the three years in the period ended June 30, 2005, and the amounts of total shareholders' equity as of June 30, 2005 and 2004, to the extent summarized in Note 23 to our Consolidated Financial Statements.

The principal differences, other than inflation accounting, between Argentine GAAP and U.S. GAAP are related to the following:

- (i) the impact of certain U.S. GAAP adjustments on equity investees;
- (ii) the accounting for marketable securities;
- (iii) the accounting for the non-contributory management stock ownership plan;
- (iv) the application of different useful lives for depreciation purposes;
- (v) the deferral of certain preoperating and organization expenses under Argentine GAAP which are expensed as incurred under U.S. GAAP;
- (vi) the accounting for a mortgage payable with no stated interest;

- (vii) the accounting for securitization programs;
- (viii) the application of certain U.S. GAAP adjustments to the estimation of the fair value of net assets acquired;
- (ix) the present-value accounting;
- (x) the restoration of previously recognized impairment losses accounting;
- (xi) the accounting for convertible notes;

Table of Contents

- (xii) the accounting for troubled debt restructuring;
- (xiii) the accounting for real estate barter transactions;
- (xiv) the accounting for the appraisal revaluation of fixed assets;
- (xv) the accounting for deferred charges;
- (xvi) the amortization of fees related to the Senior Notes;
- (xvii) the accounting for software obtained for internal use;
- (xviii) the accounting for changes in interest in consolidated affiliated companies;
- (xix) the accounting for increasing rate debt;
- (xx) the accounting for certain inventories to which we have received advance payments that fix sales price and the contractual terms assure the closing of the sale and the realization of the gain;
- (xxi) the differences between the price-level restated amounts of assets and liabilities and their historical basis, that under Argentine GAAP, are treated as permanent differences in accounting for deferred income tax calculation purposes while under US GAAP are treated as temporary differences;
- (xxii) the effects on deferred income tax of the foregoing taxes of the above-mentioned reconciling items, as appropriate; and
- (xxiii) the effect on minority interest of the above-mentioned reconciling items, as appropriate.

In addition, certain other disclosures required under U.S. GAAP have been included in the U.S. GAAP reconciliation. See Note 23 to our Consolidated Financial Statements, included elsewhere in this annual report for details.

Net income under Argentine GAAP for the years ended June 30, 2005, 2004 and 2003 was Ps. 103.2 million, Ps. 87.9 million, and Ps. 286.4 million, respectively, as compared to Ps. 129.4 million, Ps. 2.8 million and Ps. 235.1 million, respectively, under U.S. GAAP. Shareholders' equity under Argentine GAAP as of June 30, 2005 and 2004, was Ps. 1,252.2 million and Ps. 959.9 million, respectively, as compared to Ps. 921.7 million and Ps. 587.7 million, respectively, under U.S. GAAP.

C. Research and Development, Patents and Licenses, etc.

This item is not applicable.

D. Trend Information

During fiscal year 2005, the Argentine economy experienced a significant recovery. As a consequence of the currency policy and price stabilization, internal consumption became one of the main engines for economic growth. We experienced a significant increase in operating income which rose 33.5% to Ps. 141.2 million in fiscal year 2005 from Ps. 105.8 million in fiscal 2004. The increase was mainly due to a 41.8% yearly increase in revenues, 13.2% increase in operating costs and 56.6% reduction in results from operations and holdings of real estate assets due to a lower amount of recovery of the allowance for the impairment of long lived assets. There was a considerable improvement in the performance of our sales and development, office, shopping center and hotel segments, which recorded increases in revenues of 7%, 28%, 61% and 22%, respectively, compared to the previous fiscal year.

In the end of 2005, the real estate business regained strength in all of its segments. Construction has increased and the retail market is improving, mainly in the shopping center segment, driven by the increase

Table of Contents

in consumption in the highest purchasing power sectors and the increased inflow of tourists. These conditions also favored the hotel segment, which took advantage of Dollar revenues versus Peso costs. Moreover, those companies which after the devaluation had been forced to move their offices to cheaper peripheral areas as part of their cost cut down strategy, have now returned to premium areas encouraged by rising, but still low, prices.

Although we expect the positive economic trends to continue, we cannot assure this will occur. Our business is largely affected by economic downturns. Any decrease in investment and consumption decisions could cause a reduction in retail sales, sales of real state and demand for office and commercial space.

We have an asset portfolio of Ps. 2,524 million book value, in attractive locations and with top-level lessees. Cash flow generation from our business is growing at different paces according to each segment. The shopping center segment experienced the greatest recovery, reaching high occupancy and low default rates that surpassed historical records. Hotels have also shown a notable improvement in both tariffs and occupancy levels. Offices recorded sustained increases in occupancy rates and prices, the sales value of property in the locations where our developments are established has been escalating, and there has been considerable increase in the demand for such properties. This activity, however, has not been fully reflected in terms of value, yet. We believe our assets have a great intrinsic value that makes them attractive due to their potential for growth. Our low level of indebtedness, most of which is long-term, and the cash proceeds from the exercise of warrants attached to our convertible debt, will enable us to finance new projects and continue our expansion efforts.

Development and sale of properties

In fiscal year 2005, the sales and developments segment recorded revenues of Ps. 32.3 million, compared to Ps. 30.3 million in fiscal year 2004.

We are focusing on projects in the high income segment. Low interest rates, investors investing in safer assets, an international environment of low returns, high volatility and insecurity have caused the demand for real estate assets to increase, as these assets offer an attractive risk/return combination. We are developing, marketing and evaluating various projects in Buenos Aires, in particular in exclusive areas such as Barrio Parque and Puerto Madero. We believe that Puerto Madero is the growth engine for the residential premium market and will be pivotal for its dynamics over the next years. In Puerto Madero, a high percentage of units is sold upon launching, and sales prices, which range from US\$ 1,500 to US\$ 2,300 per square meter, have almost fully recovered to the values that prevailed during the nineties. We are also evaluating other projects in the interior of the country.

Cruceros, Dock II: This is a unique project in Puerto Madero. This residential block of 6,400 square meters is built alongside the Edificios Costeros office buildings. It is aimed at the upper-income segment and most condominium areas have spectacular views of the river. During fiscal year 2004 we sold the parcel of land in exchange for housing units of the building being constructed. The project has a progress level of 84% and we started the pre-sale of the units by means of money advances for fixing the price.

Benavidez: In March 2004, Desarrolladora El Encuentro S.A. (DEESA) decided to exercise its option to acquire the plot in Benavidez that had been granted to it by our controlled company IBSA. DEESA agreed to pay IBSA a total price of US\$ 4.0 million. On May 21, 2004, the title deed was executed, and US\$ 0.7 million was paid by DEESA. The cash balance of US\$ 0.3 million was paid on June 22, 2004. The remaining US\$ 3.0 million will be collected in kind, with IBSA receiving 110 residential lots in the projected complex. We are planning the pre-sale for the first quarter of 2006.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

San Martín de Tours: In March 2003 we purchased a plot located on San Martin de Tours Street in the Barrio Parque district, the most exclusive residential zone in the City of Buenos Aires. With the signature of the sales contract, a prepayment of US\$ 80,000 was made and at the time of the transfer of the title deed in June 2003, US\$ 230,000 were paid. At that time, a mortgage was set up in favor of Providence for US\$ 750,000 as a guarantee of 25% of the functional units that IRSA must hand over when the

Table of Contents

building is completed. IRSA financed with its own working capital the construction of the high-quality house-type residence complex unlike other property available aimed at the high-income segment. As of June 30, 2005 the project was in its final stage.

Santa María del Plata: Santa María del Plata is an undeveloped waterfront property located at the southern end of Puerto Madero, adjacent to the City of Buenos Aires's nature reserve. Approval has been granted for the construction of 715,952 squared meters. The development will be targeted at the high-income market. The relevant authorities of the City of Buenos Aires are expected to sign the authorization for the development of Santa María del Plata in fiscal year 2006.

Dock III: On September 7, 2004, we, through our wholly-owned subsidiary Buenos Aires Trade and Finance Center S.A. (Trade), and DYPSA, Desarrollos y Proyectos Sociedad Anónima (DYPSA) signed a barter and option contract whereby DYPSA proposed to acquire from us plots 1c) and 1e) of Dock III (undeveloped land) at a price of US\$ 8.0 million and US\$ 10.8 million, respectively, for the construction at its own expense and under its own responsibility of two housing buildings of 37 and 40 floors, parking lots and individual storage spaces. As consideration for the exchange of plot 1c), DYPSA agreed to deliver to us, within a maximum term of 36 months, housing units, parking lots and storage spaces representing in the aggregate 28.50% of the housing unit area to be built in the first building. Furthermore, DYPSA has an option to acquire plot 1e) mentioned above within a maximum term of 548 days counted as from the signing of the deed of conveyance of plot 1c) and subject to the work progress in the first building. In this case, DYPSA agreed to deliver to us in exchange, within a maximum term of 36 months, housing units, individual storage spaces and parking lots representing in the aggregate 31.50% of the housing unit area to be built in the second building. These barter transactions were subject to the approval by *Corporación Antiguo Puerto Madero (CAPM)*, which resolved favorably during the second quarter of fiscal year ended June 30, 2005. As a result, on November 25, 2004 we signed the deed of conveyance of title of the plot 1c) in favor of DYPSA and the option of DYPSA to acquire plot 1e) as explained before. As a guarantee of this transaction, DYPSA set up a first degree mortgage on plot 1c) for US\$ 8.0 million in favor of the Company. The option to exchange plot 1e) is subject to the construction of the 13th floor of the building to be built on lot 1c). In addition, on May 18, 2005 we entered into a preliminary agreement with DYPSA pursuant to which we will sell to DYPSA plot 1d) for a total consideration of US\$ 8.5 million. We received an advance payment of US\$ 2.2 million and the balance of US\$ 6.3 million will be paid by DYPSA at the time of signing the pertinent deed and subsequent transfer of property, which is scheduled for January, 2006. For details on the accounting for these inventories at June 30, 2005 see Note 4.e. to our Consolidated Financial Statements.

New projects: At June 30, 2005, it remains the second part of the project of Alto Rosario Shopping that involves the construction of a residential complex center on approximately 50,000 square meters. We have signed a preliminary agreement with Villa Hermosa S.A., an unrelated party, to sell a plot of land that is currently an integral part of the land on which we plan the construction of the residential complex. The sale transaction is subject to certain conditions. We have received an advance payment of Euros 0.3 million from Villa Hermosa S.A. in connection with this preliminary agreement.

Also, we have recently acquired a share in a project to develop a unique residential community in the Province of Córdoba.

Offices and other non-shopping center rental properties

During the fiscal year ended June 30, 2005, income from rental properties totaled Ps.19.4 million as compared to Ps.15.1 million during fiscal year 2004.

The leased property segment was among the most affected by the economic crisis. The devaluation of the Peso against the Dollar had a strong impact on the value of leases of class A offices, which fell more than 70% and remained at those levels until the end of 2004, when demand and

prices began to increase.

During fiscal year 2005, our offices showed a significant recovery in occupancy rates, with rising rental prices, although still much lower than those reached when the convertibility law was in effect. While

Table of Contents

in 2000 our premium offices were rented at US\$ 30 per square meter, during the crisis these values plummeted to US\$ 7.0 per square meter. Currently we are entering into three-year contracts at a final rate of US\$ 13 per square meter. Average occupancy in our buildings recovered during the fiscal year, reaching 89% compared to 76% during the previous fiscal year. Increased occupancy have reduced common expenses payable with respect to vacant properties.

The excellent prospects of this business have pushed us to make an important investment in this segment by acquiring the Bouchard Tower covering 15,014 square meters of leasable premium surface, totaling US\$ 24.6 million.

Our positive perspective of the business of rent of offices have taken to us to begin the construction of a rental building located in Dock 4 of Puerto Madero, which will have 14,100 square meters of rentable surface and 139 parking spaces.

The occupancy level of our offices continues to recover and is above market average. This improvement in demand has enabled us to obtain more favorable lease terms. We estimate that in the short term our portfolio will reach full occupancy at increased prices per square meter, backed by three-year leases denominated in Dollars with higher prices agreed upon for the second and third year.

Shopping centers

As of June 30, 2005, we had a 60.7% interest in APSA, the company that operates our shopping centers.

Our performance enabled us to distinguish ourselves from our competitors in the shopping center market in the City of Buenos Aires and the greater Buenos Aires area, while maintaining the efficiency gap obtained over the past fiscal year. For the twelve-month period ended June 30, 2005 our tenants sold an average of Ps. 11,309 per square meter, 87% more than our competitors, in the City of Buenos Aires and the greater Buenos Aires area. Our competitors' sales per square meter are determined by calculating the difference between total square meters of gross leasable area, in the City of Buenos Aires and greater Buenos Aires area, and the square meters of our gross leasable area. Our tenants' sales increased 33.4% to Ps. 1,697.9 million during this period in comparison with the Ps. 1,272.6 million reached during fiscal year 2004.

Due to increased activity in the retail sector, we have been able to negotiate more favorable leasing conditions with our new tenants and existing tenants upon renewal.

Favorable macroeconomic conditions, allowed us to focus on our core business and to execute some of our projects. In November 2004, we inaugurated the first stage of Alto Rosario Shopping with a 98% occupancy rate. The shopping center offers top quality entertainment areas and services.

Moreover, on September 29, 2004, our subsidiary APSA entered into an agreement for the purchase of an additional 49.9% ownership interest in Mendoza Plaza Shopping S.A., a company mainly engaged in the operation of Mendoza Plaza Shopping, a shopping center in the city of Mendoza with 37,090 square meters of gross leaseable area, 144 retail stores, sales per square meter of US\$ 135 and an occupancy rate of 96%. The transaction was consummated on December 2, 2004, after APSA obtained approval from the Antitrust Authorities. As a result of this

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

transaction and of a subsequent capitalization of debt owed to APSA, APSA currently owns a 85.4% interest in this shopping center.

We plan to remodel Alto Avellaneda. We intend to change its image with a new façade, larger floor area, new cinema screens, new entrances and a renovated parking area.

As part of our business strategy we will continue making changes to attract new customers, including new offerings in our shopping centers. We have created several exclusive products and marketing strategies to attract tourists from abroad, including publicity at hotels, harbors and airports. We have implemented advertising campaigns at a national and international level, and our customer service centers are available to respond to questions and confirm the receipt of orders.

Table of Contents

These factors have caused the demand for our space to increase, allowing us to choose a higher quality of customers and tenant mix appropriate for each shopping center. Our tenants also invested significantly in the development of new commercial offerings, improving the conditions offered by each shopping center. We continued to provide our tenants with training, advice, conferences and seminars, thus promoting a stronger relationship with the Company.

Hotels

During fiscal 2005, the hotel market continued to improve due to an increase in tourism, mainly foreign, which increased demand and fostered the recovery of prices.

Our accumulated average occupancy rates for the twelve month period ended June 30, 2005 was 75% as compared to 68% in fiscal year 2004. Average rates increased 18.5% from Ps.270 during fiscal year 2004 to Ps.320 reached during fiscal year 2005.

The high cash generation also produced by this business unit allowed us to start the expansion of 42 rooms in Llao Llao Hotel, unique in Argentina both for services rendered and excellent location. In the same context, we have also started work for improving and remodeling the Libertador Sheraton Hotel, located downtown in the City of Buenos Aires.

E. Off-Balance Sheet Arrangements

There are no transactions, agreements or other contractual agreements to which an entity unconsolidated with us is a party that are not currently reflected on our consolidated balance sheet.

However, we have ongoing revolving period securitization programs through which our consolidated subsidiary Tarshop transfers a portion of its customer credit card receivable balances to master trusts that issue certificates to public and private investors. Under the securitization programs, the Trust issues two types of certificates representing undivided interests in the Trust *Títulos de Deuda Fiduciaria* (TDF) and *Certificados de Participación* (CP), which represent debt, and equity certificates, respectively. Interest and principal services are paid periodically to the TDF holders throughout the life of the security. CPs are subordinated securities which entitle the CP holders to share pro rata in the cash flows of the securitized credit card receivables, after principal and interest on the TDFs and other fees and expenses have been paid. At the time of the securitization, Tarshop transfers credit card receivables to the trust in exchange for cash and retained interests in the trust (CPs). Part of the proceeds is retained by the trustee and maintained as a cash reserve to serve as collateral for the payment of amounts due on the TDFs. Cash reserves flow back to Tarshop on a monthly basis according to a schedule until all TDFs are fully paid. Cash reserves are stated at cost and are classified within the caption *Other receivables and prepaid expenses* in our consolidated balance sheets. CPs are carried at their equity value based on financial statements issued by the trusts and classified as investments in our consolidated balance sheets. Tarshop recognizes a result on the sale of receivables when the carrying value of transferred credit card receivables differs from the amount of cash and CPs received. Results recognized on the sale of receivables are reported as a component of *Gain (loss) in credit card trust* in our consolidated statements of income. See note 16 to our Consolidated Financial Statements.

During fiscal year 2002, we also entered into a securitization program with Banco Sudameris (BS), under which we sold an aggregate amount of US\$ 26.6 million mortgages receivables to a trust in exchange for US\$ 10.0 million in cash, US\$ 3.3 million senior debt certificates (Class A), US\$ 2.6 million subordinated debt certificates (Classes B and C) and a US\$ 10.7 million equity interest (Class D). Mortgages receivables sold

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

under this program were excluded from accounts receivable in the consolidated balance sheet. Our retained interests in Class A, B and C debt securities were valued at cost plus accrued interest. As of June 30, 2004 debt certificates had been fully amortized. Our retained interest in Class D securities is accounted for under the equity method amounting to Ps. 3.91 million at June 30, 2005. Our credit risk exposure is contractually limited to the subordinated Class D securities. However, we do not expect losses since the receivables are collateralized by mortgages having a fair value in excess of their carrying value. See note 15 to our Consolidated Financial Statements.

Table of Contents**F. Tabular Disclosure of Contractual Obligations**

The following table sets forth the Company's contractual obligations as of June 30, 2005:

Detail	Payments due by period				Total
	Less than 1 year	1-3 year	3-5 year	More than 5 years	
Long-term debt	101,150	216,064	82,205		399,419
Purchase obligation	13,195	8,324	308		21,827
Other long term obligation	1,017	1,854	542	1,739	5,152
Total	115,362	226,242	83,055	1,739	426,398

ITEM 6. Directors, Senior Management and Employees**A. Directors and Senior Management****Composition of the Board of Directors**

We are managed by a board of directors. Our by-laws lay down that the Board will be made up of a minimum of eight and a maximum of fourteen full directors and eight to fourteen alternate directors. Currently the board of directors is composed of twelve directors and three alternate directors. Our directors and alternate directors are elected for three year terms by our shareholders by a majority vote at a general ordinary shareholders meeting. Our directors and alternate directors may be reelected indefinitely.

The table sets below shows information about our Directors and Alternate directors elected at shareholders meetings held on October 22, 2004, August 2, 2005 and November 29, 2005:

<u>Name</u>	<u>Date of birth</u>	<u>Occupation in IRSA</u>	<u>Date of current appointment</u>	<u>Term expiration</u>	<u>Current position held since</u>

The following is a brief biographical description of each member of our board of directors:

Eduardo S. Elsztain. Mr. Elsztain studied Economic Sciences at University of Buenos Aires (*Universidad de Buenos Aires*). He has been engaged in the real estate business for more than twenty years. He is the chairman of the board of directors of APSA, SAPSA, Cresud, Consultores Asset Management and BACS Banco de Crédito & Securitización among others; he is also vice-chairman of

Table of Contents

Banco Hipotecario and E-Commerce Latina S.A., among other companies. He is Fernando A. Elsztain's cousin and Alejandro G. Elsztain's brother.

Saúl Zang. Mr. Zang obtained a law degree from Universidad de Buenos Aires. He is member of the International Bar Association (*Asociación Internacional de Abogados*) and the Interamerican Federation of Lawyers (*Federación Interamericana de Abogados*). He is founding partner of Zang, Bergel & Viñes law firm. He is also the first vice-chairman of SAPSA and Cresud and vice-chairman of Puerto Retiro, APSA and Fibesa; director of Banco Hipotecario, Nuevas Fronteras S.A., Tarshop and Palermo Invest S.A.

Alejandro G. Elsztain. Mr. Elsztain obtained a degree in agricultural engineering from Universidad de Buenos Aires. He is the second vice-chairman of Cresud and executive vice-chairman of APSA and SAPSA. He is also vice-chairman of Nuevas Fronteras and Hoteles Argentinos and director of IBOSA. He is the brother of chairman Eduardo S. Elsztain and cousin of director Fernando A. Elsztain.

Oscar P. Bergotto. Mr. Bergotto is the chief treasury officer of our company since 1991. He has also worked in various other real estate companies. He is director of APSA.

Fernando A. Elsztain. Mr. Elsztain studied architecture at Universidad de Buenos Aires. He has been engaged in the real estate business as consultant and as managing officer of a family owned real estate company. He is chairman of the board of directors of Llao Llao Resorts S.A., Palermo Invest S.A. and Nuevas Fronteras S.A. He is also a director of APSA, SAPSA, Hoteles Argentinos and Tarshop and alternate director of Banco Hipotecario and Puerto Retiro among others. He is Alejandro Elsztain's and Eduardo S. Elsztain's cousin.

Ricardo Esteves. He has a degree in Political Science granted by the El Salvador University. He formed part of the Boards of Directors of Banco Francés del Río de la Plata, Bunge & Born Holding, Armstrong Laboratories, Banco Velox, Disco Supermarkets. He was one of the founders of CEAL (Consejo Empresario de América Latina), and presently forms part of the Board of Directors of Encuentro de Empresarios de América Latina (padres e hijos) and is co-President of Foro Iberoamericano.

Cedric D. Bridges. Mr. Bridges is qualified as a certified public accountant in the United Kingdom. From 1992 through 1998, he served as chief financial officer of YPF S.A. Mr. Bridges was also financial director of Hughes Tool Argentina, chief executive officer of Hughes Tool in Brazil and Hughes' corporate vice-president for South American Operations. He is director of Banco Hipotecario.

Marcos Fischman. Mr. Fischman is pioneer in individual and corporate coaching in Argentina. He studied at the Hebrew University of Jerusalem. He provides consulting services to businessmen, scholars and artists. Since 1993, he provides our company with consulting services in organizational communication and development.

Fernando Barenboim. Mr. Barenboim studied architecture at Universidad de Buenos Aires. He also attended post-graduate courses in the same university and the UNESCO. He has a master's degree from the Argentine Catholic University (*Universidad Católica Argentina*). He joined IRSA in 1991. He is manager of the real estate portfolio of Banco Hipotecario and is currently IRSA's commercial manager.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Fernando Rubín. Mr. Rubin has a degree in Psychology awarded by Universidad de Buenos Aires and attended a post-graduate course in Human Resources and Organizational Analysis at E.P.S.O. Since July 2001 he has been the manager of organizational development at Banco Hipotecario. He served as corporate manager of human resources for IRSA, director of human resources for Moet Hennessy Louis Vuitton (LVMH) in Argentina and Bodegas Chandon in Argentina and Brazil. He also served as manager of the human resources division for the international consulting firm Roland Berger & Partners-International Management Consultants.

Gary S. Gladstein. Mr. Gladstein has a degree in Economics awarded by University of Connecticut and a master's degree in Business Administration from Columbia University. He performed as operations manager in Soros Fund Management LLC and is currently a senior consultant of Soros Fund Management LLC. He is also director of Soros Fund Management LLC.

Table of Contents

Mario Blejer. Dr. Blejer obtained a degree from Hebrew University and a PhD from University of Chicago. He lectured courses at Hebrew University, Boston University and New York University. He has published several articles on macroeconomic and financial stability subjects. He served for twenty years in different departments of the International Monetary Fund. In 2002 he was appointed chairman of the Argentine Central Bank and during 2003 was appointed director of the Center for Studies of Argentine Central Banks of the Bank of England.

Salvador D. Bergel. Mr. Bergel obtained a law degree and a PhD from Litoral University (*Universidad del Litoral*). He is a founding partner of Zang, Bergel & Viñes law firm and a consultant at Repsol YPF S.A. He is also an alternate director of Cresud.

Juan C. Quintana Terán. Mr. Quintana Terán obtained a law degree from Universidad of de Buenos Aires. He is a consultant at Zang, Bergel & Viñes law firm. He has been chairman and Judge of the National Commercial Court of Appeals of the City of Buenos Aires (*Cámara Nacional de Apelaciones en lo Comercial*). He is an alternate director of Cresud; Banco Hipotecario and Nuevas Fronteras S.A.

Emilio J. Cárdenas. Mr. Cárdenas obtained a law degree from Universidad de Buenos Aires and a master's degree from University of Michigan. He has been a member of our board of directors since 1996. He was chairman of ABRA, founding partner of Cárdenas, Cassagne & Asociados law firm, Argentina's Permanent Representative to the United Nations, member of United Nations Security Council and is currently a member of the board of directors of HSBC Banco Roberts.

CNV proceedings

Proceeding initiated in July 2005

On July 22, 2005, the Comisión Nacional de Valores served formal notice to Banco Hipotecario, its board of directors, the members of its supervisory committee and its market relationship manager that the Comisión Nacional de Valores had initiated a proceeding (a *sumario*) against each and everyone of them and Banco Hipotecario, in which it questioned the validity and amount of certain payments made in 2005 (in connection with the fiscal year 2004) to the members of Banco Hipotecario's executive committee and to certain of its senior managers under the management compensation plan, as well as the publicity given to them. Banco Hipotecario's management compensation plan was approved by Banco Hipotecario's shareholders at the shareholders meetings held on April 28, 1999 and May 31, 2004.

The members of Banco Hipotecario's executive committee voluntarily deposited the amount of fees received by them in escrow accounts maintained with Banco Hipotecario, pending the shareholders' meeting specially called by its board of directors to approve the objected payments, and filed (as Banco Hipotecario and the other charged parties did) their defenses before the Comisión Nacional de Valores.

At the shareholders meeting held on August 31, 2005, 97.89% of our capital stock was represented and voted. The compensation payments that were the subject matter of the *sumario* presented by the Comisión Nacional de Valores and, in particular, the amounts of Ps. 2.8 million paid for profit sharing and Ps.17.5 million paid for stock appreciation rights, that accrued during the course of the fiscal year ended December 31, 2004, were approved at the shareholders meeting by the favorable vote of a majority of the shares present. The Argentine government, in its capacity as shareholder, voted against the approval of these compensation payments.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

On September 30, 2005, the Comisión Nacional de Valores issued Resolution No. 15,205, whereby it imposed on Banco Hipotecario a fine of Ps.1,000,000, to be paid jointly by the members of our executive committee, in the understanding that all of them breached certain rules and regulations in force. In addition, it released the rest of the directors from certain charges and imposed on them admonition sanctions on account of other charges, and issued warnings against the members of the supervisory committee and market relations manager.

Table of Contents

On October 25, 2005 Banco Hipotecario and the members of the executive committee appealed the fine and the entire decision. Some of our directors are members of the executive committee of Banco Hipotecario.

Proceeding initiated in August 2005

On August 25, 2005, the Comisión Nacional de Valores initiated a second sumario, against certain principal shareholders and directors of Banco Hipotecario, alleging manipulation in the market price of Banco Hipotecario's shares supposedly achieved by an increase in the volume of shares traded from November 1, 2004 through February 14, 2005. One of our shareholders and some of our directors are involved in the above described sumario. The Comisión Nacional de Valores based its sumario on the fact that the increase in Banco Hipotecario's share price, which was in the range of approximately 79% during the period in question, could solely be due to the market intervention and manipulation by shareholders and individuals referred to in the sumario. Such intervention that reportedly consisted in sales of shares by two of them and sales and purchases of shares by the third shareholder.

We understand that: (a) the legal representatives of the shareholders argued that the Comisión Nacional de Valores did not have standing to sue them; and (b) the shareholders and the other charged parties filed a series of substantive defenses aimed at establishing that there was no market manipulation whatsoever, arguing that: (i) there is no causal relationship between the increased trading of Banco Hipotecario's shares and the higher market price; (ii) there are different variables, both internal and external to Banco Hipotecario, that explain their market price and prospects of Banco Hipotecario, as well as the appreciation of the shares that occurred during the period under investigation, which relate to Banco Hipotecario's favorable results, sound fundamentals, and the relative lagging of its market prices prior to this period compared to securities of other financial institutions in Argentina; (iii) no direct relationship was proven to exist between the appreciation in the value of the shares and the transactions carried out by the charged parties; (iv) a significant portion of the shareholders' sales volume is explained by new, genuine, direct demand from foreign institutional investors; and (v) the apparent significance of the shareholders' share in the trading volume has an almost linear relationship with their shareholding percentage, given their capacity as principal shareholders who own more than 40% of the Class D shares.

This proceeding can be lengthy and its outcome is uncertain. Under its regulations, the Comisión Nacional de Valores may impose penalties (which might include monetary fines and other measures as provided by the applicable law) to the charged parties, if it were proven that the increase in the traded volumes was the direct and exclusive cause of the increase in the price of Banco Hipotecario's shares from November 2004 through February 2005.

Employment Contracts with our Directors

We do not have any employment contracts with our directors,

Executive Committee

Pursuant to our bylaws, our day-to-day business is managed by an executive committee consisting of five directors, among which there should be the chairman, first vice-chairman and second vice-chairman of the board of directors. The current members of the Executive Committee are Messrs. Eduardo S. Elsztain, Saúl Zang, Alejandro Elsztain and Fernando Elsztain as members, and Mr. Oscar P. Bergotto as alternative member. The executive committee is responsible for the management of the day to day business delegated by the Board of Directors in

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

accordance with applicable law and our bylaws. Our bylaws authorize the executive committee to:

designate the managers and establish the duties and compensation of such managers;

grant and revoke powers of attorney on behalf of us;

Table of Contents

hire, discipline and fire personnel and determine wages, salaries and compensation of personnel;

enter into contracts related to our business;

manage our assets;

enter into loan agreements for our business and set up liens to secure our obligations; and

perform any other acts necessary to manage our day-to-day business.

Supervisory Committee

Composition of the Supervisory Committee

The supervisory committee (*Comisión Fiscalizadora*) is responsible for reviewing and supervising our administration and affairs, and verifying compliance with our bylaws and resolutions adopted at the shareholders' meetings. The members of the supervisory committee, the syndics, are appointed at the annual general ordinary shareholders' meeting for a one-year term. The supervisory committee is composed of 3 members and 3 alternate members.

Information about Members of the Supervisory Committee

The following table shows information about the members of our supervisory committee, who were elected at the ordinary and extraordinary shareholders' meeting held on November 29, 2005:

<u>Name</u>	<u>Date of birth</u>	<u>Position</u>	<u>Current position held since</u>
José D. Abelovich	07/20/1956	Member	1992
Marcelo H. Fuxman	11/30/1955	Member	1992
Roberto Murmis	04/07/1959	Member	2005
Silvia De Feo	10/07/1958	Alternate member	2003
Maria Marta Anzizar	09/24/1960	Alternate member	2005
Sergio Kolaczyk	11/28/1964	Alternate member	2005

Set forth below is a brief biographical description of each member of our supervisory committee,

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

José D. Abelovich. Mr. Abelovich obtained a degree in accounting from the Universidad de Buenos Aires. Senior Management

Appointment of the Senior Management

The board of directors appoints and removes senior management. Senior management performs its duties in accordance with the instructions of the board of directors.

Information about Senior Management

The following table shows information about our current senior management, appointed by the board of directors at the meeting held on December 20, 2004:

<u>Name</u>	<u>Date of birth</u> (m/d/y)	<u>Position</u>	<u>Current position held since</u>
Eduardo S. Elsztain	01/26/1960	Chief Executive Officer	1991
Gabriel Blasi	11/22/1960	Chief Financial Officer	2004
Fernando Barenboim	09/02/1960	Chief Commercial Officer	2004
David A. Perednik	11/15/1957	Chief Administrative Officer	2002

The following is a description of each of our senior managers who are not directors:

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Gabriel Blasi. Mr. Blasi obtained a degree in business administration and carried out post graduate studies in Finance at CEMA University (*Universidad del CEMA -Centro de Estudios Macroeconómicos Argentinos-*) and in the IAE (*Universidad Austral*). He formerly worked as a senior securities trader in Citibank. He also held several management positions related to investment banking and capital markets at Banco Río (BSCH) and was financial director of the Carrefour Group and Goyaique SACIFIA (Grupo Perez Companc). Currently, he also serves as chief financial officer of APSA and Cresud.

David A. Perednik. Mr. Perednik obtained a degree in accounting from Universidad de Buenos Aires. He has worked for several companies such as Marifran Internacional S.A., a subsidiary of Louis Dreyfus Amateurs where he worked as financial manager from 1986 to 1997. He also worked as a senior consultant in the administration and systems department of Deloitte & Touche from 1983 to 1986. He also serves as chief administrative officer of APSA and Cresud.

Table of Contents

B. Compensation

Compensation of Directors

Under Argentine law, if the compensation of the members of the board of directors and the supervisory committee is not established in the bylaws of a company, it should be determined at the shareholders meeting. The maximum total compensation for the members of the board of directors and the supervisory committee, including compensation for technical or administrative activities, cannot exceed 25% of the earnings of the company. That amount should be limited to 5% when there is no distribution of dividends to shareholders, and will be increased in proportion to the distribution.

When one or more directors perform special commissions or technical or administrative activities, and there are no earnings to distribute, or they are reduced, the shareholders meeting may approve compensation in excess of the above mentioned limits. The compensation of our directors for each fiscal year is determined pursuant to the Argentine corporation's law, taking into consideration if the directors perform technical or administrative activities and our fiscal year's results, their responsibilities, the amount of time devoted to their functions, their capability, their professional reputation and the market value of the services they perform. Once the amounts are determined, they are considered at the shareholders meeting.

At the shareholders meeting held on November 29, 2005, the shareholders approved by a majority of 99.96% the decision to pay a compensation of Ps. 7.4 million to the board of directors for the services performed in fiscal year ended June 30, 2005.

Compensation of Senior Management.

We pay our senior management pursuant to a fixed amount which accounts for their background, skills and experience as well as an annual bonus which varies according to their individual performance and our overall results.

The aggregate cash compensation of our senior management for the fiscal year ended 2005 was Ps. 3.8 million.

Compensation of Supervisory Committee.

The shareholders meeting held on November 29, 2005 approved by a majority of 99.96% of votes the decision not to pay compensation to our Supervisory Committee.

Benefit Plans

Currently there are no variable compensation, no plans providing for pension or retirement, nor any other kind of compensation or remuneration other than the arrangements described above for the members of the board of directors, supervisory committee and senior management.

Audit Committee

Pursuant to the System governing the Transparency of Public Offers established through Decree 677/01, the rules of the *Comisión Nacional de Valores*, *Comisión Nacional de Valores* Resolution N° 400 and 402 and as from the first fiscal year subsequent to the effectiveness of Decree 677/01, the Board of Directors established that the Audit Committee shall be a Committee of the Board of Directors whose main function will be to assist the Board in performing its duty of exercising due care, diligence and competence in issues relating to our company, specifically in the enforcement of the accounting policy and in the issue of accounting and financial information, the management of business risk and of internal control systems, the conduct and ethical soundness of the company's business, the supervision of the integrity of our financial statements, the compliance by our company with the legal provisions, the independence and capability of the independent auditor and the performance of the internal audit function of our company and of the external auditors.

Table of Contents

On May 27, 2004, the board officially notified the *Comisión Nacional de Valores* of the establishment of the Audit Committee, as required by article 15 of the Regime for Transparency in Public Offering approved by Decree 677/01 and section 13 of Resolution 400/2002.

In accordance with Decree 677/01 and with the Regulations of the *Comisión Nacional de Valores* our Audit Committee was formed by three directors, two of which were independent directors under Argentine Law Standards. The NYSE Regulations establish that as of July 31, 2005 foreign companies listing securities in the United States must have an Audit Committee fully formed by independent directors.

Therefore, our board of directors appointed three independent members, Messrs. Mario Blejer (independent), Cedric Bridges (independent) and Ricardo Esteves (independent), which were selected in the board of directors meeting held on December 21, 2005.

Compensation of Audit Committee

The members of the Audit Committee do not receive additional compensation to the one received for their services as members of the board of directors

C. Board Practices

Benefits upon Termination of Employment

Under the Executive Employment Agreements entered into with Messrs. Eduardo S. Elsztain, Saúl Zang and Oscar P. Bergotto, if we terminate the Executive Employment Agreements without cause, we will be liable to the relevant executive for two years of compensation.

D. Employees

As of October 31, 2005, we had 2,288 employees. Our employees are not represented by any union nor other collective bargaining organization, except for our hotel workers, who are members of a union. We have never experienced a work stoppage. We believe that our relations with our employees are good.

The following table sets forth the number of employees in our various businesses at the dates shown:

Argentine Real Estate	Shopping Centers	Hotels _____	Telecommu- nication	Credit Card	Total Staff ⁽¹⁾
--------------------------	---------------------	-----------------	------------------------	----------------	-------------------------------

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Except as set forth above, we are not aware of the existence of other shareholders owning more than 5% of our capital stock. The voting rights of our principal shareholders are not different from those of the remaining shareholders.

Differences in Voting Rights

Our major shareholders do not have different voting rights.

Arrangements for change in control

There are no arrangements that may at a subsequent date result in a change in control.

Securities held in the host country

As of November 30, 2005, there were approximately 28,426,800 Global Depositary Shares (representing 284,268,000 of our common shares, or 77.2% of all of our outstanding shares) held in the United States. Additionally, as of such date, there were approximately 87 registered holders represented by American Depositary Shares in the United States.

On October 15, 2002, we initiated a preemptive rights offering of rights to subscribe for 100,000,000 units consisting of US\$100.0 million of 8% Convertible Notes due 2007 and non-detachable warrants to purchase shares of our common stock. The Convertible Notes may be converted

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

into shares of our common stock at an exercised price of US\$ 0.545. Existing shareholders have subscribed through the exercise of their preemptive rights for US\$ 66.7 million and they have exercised their accretion rights for US\$ 10.7 million, amounting to a total of US\$ 77.4 million. During the allocation of the remainder new investors have subscribed the remaining 22.6 million units completing the US\$ 100 million offering.

As of November 30, 2005, the number of Convertible Notes outstanding amounts to US\$ 56,980,997, the number of warrants currently outstanding amounts to 57,754,471, while 368,447,883 of our shares are outstanding.

As of November 30, 2005 our directors and senior officers controlled, directly or indirectly, approximately 21.4% of our common shares. As a result, these shareholders have, and will continue to have, significant influence on the election of our directors and the outcome of any action requiring shareholder approval.

Table of Contents

B. Related Party Transactions

Fundación Museo de los Niños

On October 31, 1997, our shareholders approved the execution of an agreement granting Fundación IRSA, a non profit organization whose chairman is Eduardo Elsztain, the free right to use approximately 2,670 square meters of constructed area in the Abasto Shopping Center for a 30-year period. The commercial value of the area in question is approximately Ps. 21,000 per month.

We increased our investment in Banco Hipotecario S.A. in fiscal year 2004

On December 30, 2003, we purchased 4,116,267 shares of Banco Hipotecario at US\$ 2.3868 per share and 37,537 warrants at US\$ 33.86 each with the right to purchase 3,753,700 additional shares. We paid US\$ 11.1 million for such securities. On February 2, 2004, we exercised a substantial portion of the warrants acquired during fiscal year 2004 as well as warrants we had previously acquired. As a result, we acquired 4,774,000 shares of Banco Hipotecario for a total consideration of Ps. 33.4 million. During the last quarter of fiscal year 2004, we sold 2,487,571 shares of Banco Hipotecario to IFIS S.A. (indirect shareholders) for a total consideration of US\$ 6.1 million (market value equivalent to Ps.7.0 per share). We recognized a loss in connection with the sale amounting to Ps.1.6 million. See Note 3.c. to the Consolidated Financial Statements for details on the accounting for this investment. Also, as of June 30, 2005, the voting power held by IRSA and Ritelco S.A. in Banco Hipotecario were 10.20% and 8.15%, respectively.

As of June 30, 2005, we owned 11.76% of Banco Hipotecario, 5.22% of such ownership is through our subsidiary Ritelco S.A. Also, as of June 30, 2005, the voting power held by IRSA and Ritelco S.A. in Banco Hipotecario were 10.20% and 8.15%, respectively.

Some of our directors are also directors of Banco Hipotecario.

Issue of Convertible Notes by Cresud

On October 15, 2002, Cresud initiated a preemptive rights offering to subscribe for 50,000,000 units consisting of US\$ 50.0 million of 8% Convertible Notes due 2007 and non-detachable warrants to purchase shares of its common stock. The offering was fully subscribed and the funds have already been received by Cresud. Proceeds of the offering were applied to subscribe US\$ 50.0 million of our Convertible Notes.

As of November 30, 2005, 21.1% of our common shares are property of Cresud. During fiscal year 2005, Cresud decided to convert US\$ 5.0 million of Convertible Notes as part of its long-term strategy intending to revert the reduction in its equity interest as a consequence of the conversion and exercise of Warrants by third parties during the year. Assuming Cresud exercises its conversion rights of all of its Convertible Notes and no exercise of such rights by any of our other bondholders, Cresud would own 33.3% of our common shares. In the case all shareholders exercise their conversion rights and Cresud exercise them as well, Cresud would own 30.6% of our common stock

Purchase of our shares by Cresud

As of June 30, 2005, Cresud had invested Ps. 197.4 million in us through the purchase of our shares and convertibles notes. As of June 30, 2005, Cresud held approximately 22.4% of our common shares. Eduardo S. Elsztain and Saúl Zang, are chairman, and vice-chairman, respectively, of our board of directors as well as our shareholders. They are also chairman and vice-chairman, respectively, of the board of directors of Cresud. Mr. Eduardo S. Elsztain and Saúl Zang are also shareholders of Cresud.

Lease of our Headquarters

Our Chairman offices are located at Bolivar 108, City of Buenos Aires. We have leased from Elsztain e Hijos S.C.A., company controlled by relatives of Eduardo S. Elsztain, our chairman and also

Table of Contents

from Hamonet S.A., a company controlled by Fernando a. Elsztain, one of our Directors, and certain of his relatives. A lease agreement was signed among us, APSA, Cresud and Isaac Elsztain e Hijos S.C.A., in March 2004. This lease has a term of 120 months and rent of Ps.8,490 payable on a monthly basis. We, APSA and Cresud each pay one-third of such rent, that is Ps.2,830 each.

Corporate Services Rendered to APSA and Cresud

In order to reduce administrative expenses and to achieve a more efficient allocation of corporate resources, a program for partial operating integration in the areas of Human Resources, Finance, Institutional Relations, Administration, Systems, Insurance, Purchasing, Contracts and Operations, among others, was implemented on June 30, 2003 by the Company, Cresud and APSA (the Parties). This program was implemented to reduce operating costs by optimizing the individual administrative efficiencies of each Party.

On the basis of this program, the Parties entered into the Shared Services Agreement on June 30, 2004, a two-year agreement by which tasks are performed by one or more Parties for the benefit of one or more other Parties in exchange for a fee to be paid primarily through the provision of services in other areas. Through this agreement, each party maintains its own strategies commercial independence, records and accounting systems. This agreement does not adversely affect internal control systems or external audit tasks. Each party continues to have separated assets and liabilities.

Alejandro Gustavo Elsztain is the General Coordinator of the program and Mr. Abraham Perelman was appointed as the responsible individual. Such individual shall be member of the Parties Audit Committees. The main duties to be performed under this project are (a) monitoring the implementation of the project in accordance with the agreement; (b) reviewing the billing report of each party on a monthly basis to analyze and check it against the provisions of the agreement, and in the event of discrepancies or deviations preparing a report to submit to the General Coordinator, and the Parties boards of directors and (c) assessing, on a permanent basis, the results derived from the project s implementation and suggesting changes to the General Coordinator in the event of a conflict with the agreement or, if appropriate, the possibility of establishing cost or benefit allocation mechanisms or criteria more consistent with the goals of the agreement.

In the future and in order to continue with our policy of achieving a more efficient allocation of corporate resources, we may extend the areas in which we share corporate services with APSA and Cresud.

Our chairman is also chairman of Cresud and APSA and our vice-chairman is also vice-chairman of Cresud and APSA.

We believe that the terms and conditions of these transactions are consistent in all material respects with those prevailing in the market at the relevant time for agreements between unaffiliated parties.

The Shared Services Agreement has been reported in a report on Form 6-K dated July 1, 2004.

Lease of office property

We have entered into lease agreements for offices with Altocity.com and Red Alternativa S.A. in the Costero building located in Puerto Madero, Buenos Aires. Under the leases the monthly rents payables are Ps. 0.005 million and Ps. 0.008 million plus CER, respectively. The agreement with Altocity.com expired in October 2004. Although the agreement with Red Alternativa S.A. expired in May 2004 and does not contemplate an automatic extension, the parties are still performing as though the agreement is still in effect and negotiating a contract renewal.

In December 2003 Cresud moved its administrative offices to the 23rd floor of the Intercontinental Plaza tower, located at Moreno 877, in the City of Buenos Aires. Cresud leased its administrative offices and five parking lot attendants from our subsidiary Inversora Bolivar S.A. pursuant to a lease agreement. This agreement has an initial term of 60 months with an optional extension for 36 additional months. Cresud pays a monthly rent of US\$ 0.003 million with the first two months free.

Table of Contents

Legal Services

During the fiscal years ended June 30, 2005, 2004 and 2003 we paid the law firm Zang, Bergel & Viñes an aggregate amount of approximately Ps.1.1 million, Ps. 1.1 million and Ps. 1.4 million, respectively, as payments for legal services. Our director, Saúl Zang, and our alternate director, Salvador D. Bergel, are partners of, and Juan C. Quintana Terán, our alternate director, is of counsel of the law firm. Ernesto Manuel Viñes, partner of the firm, is a member of the board of directors of our subsidiary Banco Hipotecario.

Investment fund

Since 1996, we have investments in Dolphin Fund Plc, an open-ended investment fund which is related to our director Eduardo Elsztain. These investments are carried at market value as of year-end. Unrealized gains and losses relating to investment funds are included in financial results, net, in the consolidated statements of income. The amounts relating to our net gain on holding Dolphin Fund Plc. for the years ended June 30, 2005, 2004 and 2003 are Ps.16.3 million, Ps. 4.4 million and Ps. 13.1 million, respectively.

Donations to Fundación IRSA and Museo de los Niños

During the years ended June 30, 2005, 2004, and 2003, we made donations to two not-for-profit organizations, namely Fundación IRSA and Fundación Museo de los Niños, for a total amount of Ps. 4.1 million, Ps. 2.4 million and Ps. 5.0 million, respectively. Eduardo S. Elsztain is the President of these organizations.

Agreement with Inversiones Falabella Argentina S.A.

Simultaneously with the purchase-sale of the shares of Mendoza Plaza Shopping (Formerly Pérez Cuesta S.A.C.I.), we entered into an Agreement with Inversiones Falabella Argentina S.A. establishing as follows:

1. Capitalization terms were agreed in the event that the Company or one of its subsidiaries is assigned the loan from Banco de Chile or other bank loan and propose its capitalization through Company's contributions.
2. Upon maturity of the lease agreement currently in force between Mendoza Plaza Shopping (Formerly Pérez Cuesta S.A.C.I.) and Inversiones Falabella Argentina S.A., the Company will provide for the granting of an option to the latter for the renewal of the contract under the same terms as the current contract, with certain changes expressly established in the contract in force.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

3. In its capacity as surety, the Company will ensure payment by Mendoza Plaza Shopping (Formerly Pérez Cuesta S.A.C.I.) to Inversiones Falabella Argentina S.A. of the loan held by the former amounting to US\$ 1.05 million, under the terms established in the contract.

4. Inversiones Falabella Argentina S.A. have an irrevocable right to sell its shares in Mendoza Plaza Shopping (Formerly Pérez Cuesta S.A.C.I.) (put option) to the Company, which may be exercised until the last business day of October 2008, for a total consideration of US\$ 3.0 million according to the conditions expressly established in the contract.

As of November 30, 2005, the events of the agreement established in point 1 and 3 took place.

Options to Purchase Shares of Altocity.Com S.A.

In January 2000, E-Commerce Latina, a company owned 50% by us and 50% by Telefónica Argentina, granted Consultores Internet Managers Ltd. an option to purchase certain of its class B shares of Altocity.Com S.A. Consultores Internet Managers Ltd. is a special-purpose Cayman Islands

Table of Contents

corporation created to act on behalf of its management and is represented by an independent attorney-in-fact.

The option granted to Consultores Internet Managers represents 15% of the capital stock of Altocity.Com S.A. and was granted for a period of eight years.

Pursuant to the terms of the agreement, the exercise price is equal to the quotient of (i) the original value of class B shares at the time of the contribution to Altocity.Com S.A. by E-Commerce Latina, plus interest accrued at an annual fixed interest rate of 14% through the exercise date of the option, over (ii) the total number of class B shares owned by E-Commerce Latina at the exercise date of the option.

The option was granted to Consultores Internet Managers Ltd. to be allocated by it among the management of Altocity.Com S.A. as an incentive compensation for their services, but as of today, no individual awards have been determined for participating employees under this option. Upon exercise of the option, Consultores Internet Managers Ltd. sole asset will be its 15% interest in Altocity.Com S.A.

Legal or Arbitration Proceedings

The following, is a description of the material legal proceedings to which we are a party. We are not engaged in any other material litigation or arbitration and no other material litigation or claim is known to us to be pending or threatened against us or our subsidiaries. Nevertheless, we may be involved in other litigation from time to time in the ordinary course of business.

IRSA

Puerto Retiro

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

On November 18, 1997, through the acquisition of the capital stock of the Old Alto Palermo (currently IBSA), Pérez Company's real estate subsidiary, we indirectly acquired 35.2% capital stock of Puerto Retiro. The Old Alto Palermo had purchased such shares of Puerto Retiro from Redona Investments Ltd. N.V. in 1996. In addition, pursuant to the execution of several stock purchase agreements in May and June 1999, we, through Inversora Bolívar S.A., increased our interest in Puerto Retiro up to 50% of its capital stock.

On April 18, 2000 Puerto Retiro received notice of a complaint filed by the Federal Government, through the Ministry of Defense, with the purpose of requiring the extension of the bankruptcy of Inversora Dársena Norte S.A. (Indarsa). Concurrently with the complaint, at the request of plaintiff, the bankruptcy court granted an order restraining the ability of Puerto Retiro to sell or dispose in any manner the real estate property purchased from Tandanor S.A. (Tandanor).

Indarsa had purchased 90% of the capital stock of Tandanor, a formerly government owned company privatized in 1991 and engaged in the shipyard industry, which owned a large piece of land near Puerto Madero of approximately 8 hectares, divided into two spaces: Planta 1 and 2. The property did not have (and still does not have) approved zoning established in the Urban Planning Code and no project can be currently developed.

Table of Contents

After the purchase of Tandanor by Indarsa, Tandanor sold Planta 1 to Puerto Retiro, for a sum of US\$ 18 million, pursuant to a valuation performed by J.L. Ramos, a well-known real estate brokerage firm in Argentina. The deed was executed in June, 1993.

Indarsa did not comply with the payment of the outstanding price for the purchase of the capital stock of Tandanor, and therefore the Ministry of Defense requested the bankruptcy of Indarsa. Since the only asset of Indarsa was its shareholdings in Tandanor, the Ministry of Defense is extending the bankruptcy to other companies or individuals which, according to its view, acted as an economic group, and therefore, requested the extension of the bankruptcy to Puerto Retiro which acquired Planta 1 from Tandanor.

On April 18, 2001, the judicial procedure entered into trial stage. At the present time, a provisional measure prohibiting changes and disposition of this building is still in effect. We are currently awaiting the Court's ruling on this matter.

We cannot assure the success of the outcome of this judicial proceeding.

If the plaintiff's claim is favored by the court or by the court of appeals, such decision may cause a material adverse effect on our financial situation, since all of the assets of Puerto Retiro will be used to pay the debts incurred by Indarsa. The Company's investment in Puerto Retiro amounts to Ps. 45.5 million as of June 30, 2005.

Llao Llao Holding S.A.

Llao Llao Holding S.A. purchased Hotel Llao Llao on November, 1997, from National Parks Administration. Llao Llao Holding S.A. (in the process of dissolution due to merger with IRSA), predecessor of Llao Llao Resorts S.A. was sued in 1997 by National Parks Administration to obtain collection of the unpaid balance of the purchase price in Argentine sovereign debt securities amounting to US\$ 2.87 million. The trial court ruled in favor of the plaintiff. The ruling was appealed, and the court of appeals confirmed the judgment ordering the payment of US\$ 2.87 million in Argentine sovereign debt securities available at the date of the ruling, plus compensatory and punitive interest and attorneys' fees. On March 2, 2004, the Company made a payment deposit of Ps. 7.19 million with Banco de la Ciudad de Buenos Aires in favor of the National Parks Administration and deposited Argentine sovereign debt securities class FRB - FRB L+13/16 2005 for a total nominal value of US\$ 4.12 million. The total amount settled on that date was Ps. 9.15 million.

The court served notice of payment made on the plaintiff. On June 30, 2004 the plaintiff filed a brief rejecting said payment considering it partial and requested the court the determination of term for the deposit of funds until final payment of the total debt.

The trial court pesified the plaintiff's credit and the plaintiff appealed this decision. The court of appeal ruled in favor of the plaintiff maintaining their credit in U.S. Dollars. We have appealed this decision and the appellate court declared it inadmissible. We appealed before the Federal Supreme Court and the final decision is still pending.

A report of the legal advisors states that the balance remains unpaid and outlines that the Company has deposited with the court the debt instruments determined in the unpaid balance, and an amount in cash of Ps. 7.19 million, whereas the unpaid balance approved in the court

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

records was US\$ 3.78 million. Consequently, as of June 30, 2005 our management recorded a reserve in the amount of Ps. 3.77 million which was determined calculating the difference between the amount claimed for in concept of compensatory and punitive interest (US\$ 3.8 million) and the amount deposited in payment (Ps 7.19 million).

Table of Contents

In September 2001 Llao Llao Resorts S.A. entered into an agreement with six of the plaintiff's attorneys by which the company agreed to pay them the amount of US\$ 1.2 million in concept of fees which would be paid in twelve equal monthly installments of US\$ 100,000 each to be deposited with Banco de la Ciudad de Buenos Aires. The first three installments were paid before the devaluation of the Peso and the following nine installments were paid in Pesos after the devaluation.

One of the six attorneys never challenged these payments. The remaining five attorneys filed a motion alleging that that the amount agreed should have been paid in U.S. Dollars and not in Pesos and calculating the difference between the amounts paid in Pesos and the U.S. Dollar amount agreed in concept of fees which they understood amounted to US\$ 384,000. In March 2005, at the request of two of the attorneys the court issued an order to attach the amount of Ps. 788,000 from the Company's checking accounts. As of June 30, 2005 the attachment amounted to Ps. 861,000.

Our legal advisors challenged the liquidation performed by these two plaintiffs for several reasons. Firstly, the first three installments paid prior to the pesification need not be readjusted because they were made when the Peso was at a 1 to 1 parity with the U.S. Dollar. Secondly, the interest claim made by the plaintiffs is unlawful and exorbitant. On December 2, 2005 the court resolved ordering the payment of the currency difference with regards to the last nine installments which would be calculated using the exchange rate in force at the time the deposits were made and rejecting the interest claim considering that the relief sought was already covered by the readjustment ordered. This court order may be appealed by the plaintiffs.

We are currently negotiating an out-of-court agreement with the remaining three attorneys. The liquidation presented by them includes the amount of US\$ 288,112.35 in concept of capital applied to the currency difference between the payments made in Pesos and the original fee agreement and US\$ 72,528.78 in concept of interest which results in a total amount of US\$ 360,641.13. We understand that they are willing to arrive at an agreement which could include an installment payment plan.

In accordance with the probable contingency reported by the lawyers as of June 30, 2005, the Company management has reserved the amount of Ps. 2.3 million.

Neuquén Project

On July 6, 1999 APSA acquired 94.6% ownership of Shopping Neuquén S.A. for Ps. 4.2 million. APSA paid Ps. 0.9 million on September 1, 1999 and the remaining Ps. 3.3 million were originally scheduled to be paid on or before July 5, 2001 or at the completion of the construction of the shopping center, whichever happened first. We clarify that said amounts are in Pesos according to the emergency legislation in force. See Item 3.D. Risks Factors. However, Shopping Neuquén S.A.'s former shareholders have challenged the constitutionality of such legislation, and no final decision has been issued. As of November 30, 2005 the purchase price balance remains unpaid.

Shopping Neuquén S.A.'s sole asset is a plot of land of approximately 50,000 square meters on which a shopping center is proposed to be built. The proposed project contemplates the building of a shopping center, a hypermarket, a hotel and a housing complex none of which have been commenced.

Legal issues with Shopping Neuquén S.A.'s former shareholders

On August 15, 2003 APSA was informed that the former shareholders of Shopping Neuquén S.A., who had a 85.75% interest, filed a complaint against APSA seeking recovery of the purchase price balance, interest and legal costs. In September 2003, APSA answered the complaint opposing several defenses such as, plaintiffs non-compliance with their duties under the contract and the pesification of the purchase price balance according to the emergency legislation. Moreover, APSA filed a counterclaim alleging there should be a readjustment of the effects of the contract which became excessively burdensome for unforeseeable reasons given the 2001 economic, social and political crisis. In November

Table of Contents

2003 the plaintiffs replied to APSA's counterclaim alleging that the payment under the purchase agreement was overdue before the economic and social crisis emerged and thus APSA's contract readjustment claim was inadmissible. As of November 30, 2005 the trial is under discovery stage.

Legal issues with the Municipality of Neuquén

In June 2001 Shopping Neuquén S.A. filed a request with the Municipality of Neuquén to extend the construction deadlines that had been originally scheduled. In addition, it requested authorization to convey certain plots of land to third parties so that each participant to the Neuquén project would be able to build on his own land. On December 20, 2002 the Municipality of Neuquén issued Decree 1437/02 denying both requests. In addition, it declared that the rights under Ordinance 5178 had lapsed and that the land purchase agreements would be terminated. As a result, the improvements already performed by Shopping Neuquén S.A. would be lost and accrued in favor of the Municipality of Neuquén, leaving Shopping Neuquén S.A. with no right to compensation.

On January 21, 2003 Shopping Neuquén S.A. submitted its response to the Decree 1437/02 requesting its revocation. It also requested permission to submit a new construction timetable, which would be prepared in accordance with the current situation of the project, including reasonable short and medium term projections. The Municipal Executive issued Decree 585/2003 rejecting this. On June 25, 2003 Shopping Neuquén S.A. filed an administrative action with the Supreme Court of Neuquén requesting the annulment of Decrees 1437/2002 and 585/2003. On December 21, 2004, the Supreme Court of Neuquén ruled in favor of the Municipality of Neuquén, declaring that the administrative action filed by Shopping Neuquén S.A. had expired. The decision, however, is not final. APSA filed an appeal but the Supreme Court of Neuquén has not yet issued a decision with regards to its admissibility. If the appeal is declared admissible the Federal Supreme Court will give a final decision, but if it is declared inadmissible APSA will file an appeal directly with the Federal Supreme Court.

Shopping Neuquén S.A. is currently seeking to negotiate with the Municipality of Neuquén the terms of an agreement that might permit reactivation of the proposed development. Nevertheless, we cannot give you any assurance that APSA will be able to achieve such an agreement on commercially reasonable terms, if at all, and if APSA cannot, the Municipality of Neuquén would be entitled to request the restitution of the property and APSA will likely lose all or substantially all of its investment which amounts to Ps. 10 million.

We maintain a provision of Ps. 2.3 million which represents our best estimate of the probable loss to be incurred in connection with these claims.

Other Litigation

We are involved in other litigation which derives from the ordinary course of our business. We accrue liabilities when it is probable that future costs will be incurred and such costs can be reasonably estimated. Such accruals are based on developments to date, our estimates of the outcomes of these matters and the lawyers' experience in contesting, litigating and settling similar matters. As the scope of the liabilities becomes better defined, there will be changes in the estimates of future costs, which could have a material effect on our future results of operations and financial condition or liquidity.

Dividend Policy

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Pursuant to the Argentine law, the distribution and payment of dividends to shareholders is valid only if they result from realized and net earnings of the company pursuant to an annual financial statements approved by the shareholders. The Board of Directors may declare interim dividends, in which case each Board member and Supervisory Committee member will be joint and severally responsible for the return of such dividends if, at the end of the fiscal year in which such interim dividends were paid, the realized profits were insufficient to allow the payment of such dividends. The amount and payment of dividends are subject to the approval of our Annual Ordinary Shareholders Meeting. That approval requires the affirmative vote of the majority of the present votes with right to vote at the meeting.

Table of Contents

In light of the principal shareholders' ability to exercise significant influence over the selection of board members, they have the power to control the declaration, amount and payment of dividends, subject to Argentine legislation and the Company's by-laws.

The Board submits the annual report and balance sheet of the Company for the previous fiscal year, together with the reports from the Audit and Supervisory Committee, for the approval during the annual general meeting of shareholders. The annual ordinary shareholders' meeting, called to approve the annual report and financial statements and to determine the distribution of the Company's net income for the year, must be held prior to October 30 each year. Pursuant to the Law of Corporations and our bylaws, liquidated and realized profits of each fiscal year shall be distributed as follows:

5% to the legal reserve fund until reaching 20% of our capital stock;

a certain amount determined at a shareholders' meeting is allocated for the compensation of our directors and members of the supervisory committee; and

dividends, additional dividends to preferred shares if any, or to optional reserve funds or contingency reserves or to a new account, or for whatever purpose the shareholders determine at the shareholders' meeting.

According to rules issued by the Argentine Comisión Nacional de Valores, cash dividends must be paid to shareholders within 30 days of the resolution approving their distribution. In the case of stock dividends, the shares must be delivered within three months of the holding of the annual general meeting that were to have approved them.

If and when our Company declares and pays dividends on its ordinary shares, the holders of global share certificates in the Company, each representing the right to receive 10 ordinary shares (the GDS) at the corresponding registration date shall have the right to receive the dividends due on the ordinary shares underlying the GDS subject to the term of the Modified and Ordered Deposit Contract dated December 12, 1994 signed between our Company, The Bank of New York and the eventual holders of the Global Depositary Shares. Cash dividends are to be paid in Pesos, and except in certain circumstances they will be converted by the Depository into dollars at the rate of exchange in force at the date of conversion and shall be paid to the holders of the Global Depositary Shares net of any commission on the distribution of dividends, costs and conversion charges, taxes and official dues.

In the past, we paid dividends in cash and stock that averaged Ps. 0.11 per share. At our shareholder's meeting held on October 30, 2000, our shareholders approved the distribution of 20,729,472 treasury shares on a pro rata basis.

With regard to the fiscal year ended June 30, 2001, there was a loss of Ps. 59.9 million. In order to keep adequate liquidity level, to reduce the outstanding debt and the financial burden, we did not pay any cash dividends.

During fiscal year 2002 the Company reported a loss of Ps. 539.1 million. Consequently, we maintained our policy not to distribute cash dividends. However, the shareholders' meeting held on November 5, 2002 resolved the distribution of a total of 4,587,285 treasury shares (purchased at an average approximate price of Ps. 2.15 per share) prorated and in proportion to the corresponding shareholdings.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

In accordance with certain obligations assumed by the Company, there are limitations on the dividends that we can distribute. Under the Unsecured Loan Agreement for US\$ 51 million, our company: (i) shall not be able to pay dividends or make any distribution or repurchase of debt or shares except for restricted payments from our subsidiaries to our company, (ii) restricted payments can be made as long as no event of default shall have occurred and be continuing or would occur as a consequence thereof, and no breach of the financial covenants shall have occurred in the calculation period immediately preceding the proposed date of such restricted payment.

Table of Contents

The Fourth Supplemental Indenture that governs the terms of the Series 03 Secured Notes due 2009 for US\$ 37.4 million contains the same restrictions on the payment of dividends, although limited to the existence of outstanding Series 03 Secured Notes due 2009.

As from fiscal year 2003 we reported profits each year, although owing to the restrictions arising from our debt instruments we were prevented from distributing dividends.

The Company is temporarily restricted in the distribution of dividends until November 2009 due to the financial commitments assumed in its debt restructuring. Although we expect to distribute cash dividends in the future, we cannot assure that we will be able to do so.

The table that follows presents the dividend payment ratio and the total amount of dividends paid for each fully paid-in common share for the mentioned years. Figures in Pesos are stated in historical Pesos at the corresponding date.

<u>Year declared</u>	<u>Payments⁽¹⁾</u>		<u>Total per share</u>
	<u>Cash dividends</u>	<u>Stock dividends</u>	
	<i>(Pesos)</i>	<i>(Pesos)</i>	
1995	0.094	0.06	0.154
1996	0.092		0.092
1997	0.110		0.110
1998	0.060	0.05	0.110
1999	0.076	0.04	0.116
2000		0.20	0.204
2001			
2002			
2003			
2004			
2005			

Note:

⁽¹⁾ Corresponds to per share payments. To calculate the dividends paid per Global Depositary Shares, the payment per share should be multiplied by ten.

Although our intentions are to distribute cash dividends in the future, there can be no assurance that we will be able to do it.

B. Significant Changes**Conversion of Notes**

As of December 23, 2005, the holders of our Convertible Notes exercised their conversion rights. The total number of notes converted were 43,019,003 with a face value of US\$ 1 each in exchange for 54,220,773 shares with a face value of Ps.1 each. Also warrants issued by our company were exercised for a total of 42,245,529 face value, resulting in the issuance of 77,514,700 shares. Total proceeds from this transaction were US\$ 50,702,369 million.

As of December 23, 2005, 2005 the number of Convertible Notes currently outstanding amounted to 56,980,997. The number of warrants currently outstanding amount to 57,754,471, while 368,447,883 of our shares are outstanding.

Acquisition of Canteras Natal Crespo S.A.

In July 2005 we acquired 38.45% ownership interest in Canteras Natal Crespo s.a. (CNC) for a total consideration of US\$1.3 million.

Table of Contents

In addition, we have the obligation to buy an additional 11.55% ownership interest if the remaining shareholders decide to sell their shareholdings for a total consideration of US\$ 0.4 million. CNC is a company located in the Province of Cordoba that will be engaged in the sale and development of plots, house-buildings and other real estate activities. ECIPSA S.A. is our partner in this project.

Mortgage payable restructuring

On July 1, 2005 we paid US\$ 0.4 million related to the first installment of the mortgage payable for the purchase of the property identified as Bouchard 710 . In addition, on July 26, 2005 we signed an amendment to the mortgage pursuant to which we made a partial prepayment of US\$ 3.2 million and agreed to settle the balance of US\$ 13.6 million in 34 monthly equal and consecutive installments of US\$ 0.5 million each (including interest at a rate of 8.5%).

Investment in IRSA Telecomunicaciones N.V. (ITNV)

As of June 30, 2005 we owned a 49.36% interest in ITNV. In the past, we had discontinued applying the equity method of accounting for this investment due to the existence of mandatorily redeemable preferred shares issued by ITNV to other shareholders and considering that we had neither guaranteed the ITNV obligations nor had we committed ourselves to provide financial support to ITNV. As a result, the investment in ITNV was valued at zero at June 30, 2004. On August 19, 2005, ITNV repurchased all the shares held by us for a total consideration of US\$ 0.6 million. Therefore and considering that this transaction occurred before the issuance of our consolidated financial statements, we resumed the equity method of accounting up to the limit of the fair market value at June 30, 2005. As such, we recognized a gain of US\$ 0.6 million during the year ended June 30, 2005.

Agreement with Argentimo S.A. and Constructora San José Argentina S.A.

We, through our subsidiary APSA, together with Argentimo S.A. and Constructora San José Argentina S.A. have entered into a standard agreement a negotiating process to project, register, organize, construct and develop a Shopping center and an apartment building and/or office building.

In the context of the contract referred to above, we opened an escrow account in the Deutsche Bank (Escrow Agent) in favor of Argentimo S.A. in an amount of US\$ 3 million, which will remain deposited until a series of requirements of the project are complied with, and which will be computed as payment on account of the transaction on a timely basis.

If towards the ending of negotiating terms, the Parties have not entered into all the final agreements, notwithstanding the reason, the Escrow Agent shall return to us the amount of the escrow added the respective interest, without generating any right whatsoever in favor of Argentimo S.A.

On December 5, 2005, the Parties decided to postpone the deadline for the negotiation terms and conditions of the Final Agreement. A Specific Agreement of such terms was signed, which included a clause establishing a new date by means of executing a specific agreement as of

December, 2005.

ITEM 9. The Offer and Listing

A. Offer and Listing Details

The following summary provides information concerning our share capital.

Stock Exchanges in which our securities are listed

Our common shares are listed on the *BCBA* and our Global Depositary Shares on the NYSE.

Table of Contents

As of November 30, 2005, holders of our Convertible Notes exercised their conversion rights for the total of 43,019,003 units with a face value of US\$ 1 each, whereas the ordinary stock delivered under this heading amounted to 78,933,910 with a face value of Ps.1.0 each.

As of November 30, 2005, 42,245,529 warrants were exercised resulting in cash inflow of US\$ 50.7 million and the issuance of 77,514,700 shares with a face value of Ps. 1 each.

As of November 30, 2005, the number of Convertible Notes outstanding amounted to 56,980,997 the number of warrants outstanding amounts to 57,754,471, while the number of our outstanding shares were 368,447,883.

The ordinary stock has one vote per share. All of the shares of the common stock are validly issued, fully paid and non-assessable.

The following description of the material terms of our capital stock is subject to our certificate of incorporation and bylaws, which are included as exhibits to this Form 20-F , and the provisions of applicable Argentine Law.

Price history of our stock on the Bolsa de Comercio de Buenos Aires

Our common shares are listed and traded on the Bolsa de Comercio de Buenos Aires under the trading symbol IRSA . The shares began trading on the Bolsa de Comercio de Buenos Aires on the year 1948. The following table shows, for the periods indicated, the high and low closing sales price of our common shares on the Bolsa de Comercio de Buenos Aires. On November 30, 2005, the closing price for our common shares on the Bolsa de Comercio de Buenos Aires was, approximately, Ps 3.75 per share.

Price history of our stock on the NYSE

Our Global Depositary Shares, each representing 10 common shares, are listed and traded on the NYSE under the trading symbol *IRS*. The Global Depositary Shares began trading on the NYSE on December 20, 1994 and were issued by the Bank of New York, Inc., acting as Global Depositary Shares Depository. It should not be assumed, however, that the Global Depositary Shares will actually trade at a multiple of 10 times the price per common share. The following table shows, for the periods indicated, the high and low closing sales price of the Global Depositary Shares on the NYSE. On November 30, 2005, the closing price of our Global Depositary Shares on the NYSE was US\$ 12.58.

B. Plan of Distribution

This item is not applicable.

C. Markets**Argentine Securities Markets**

The *Comisión Nacional de Valores* is a separate governmental entity with jurisdiction covering the territory of the Republic of Argentina. Its main purpose is to ensure transparency of Argentina's securities markets, to watch over the market price formation process and to protect investors. The *Comisión Nacional de Valores* supervises corporations authorized to issue securities to the public, the secondary markets where these securities are traded, and all persons and corporations involved in any capacity in the public offering and trading of these securities. Pension funds and insurance companies are regulated by separate government agencies. The Argentine markets are governed generally by Law No. 17,811, as amended, which created the *Comisión Nacional de Valores* and regulates stock exchanges, stockbrokers, market operations and the public offerings of securities. There is a relatively low level of regulation of the market for Argentine securities and investors' activities in such market, and enforcement of existing regulatory provisions has been extremely limited. Furthermore, there may be less publicly available information about Argentine companies than is regularly published by or about companies in the United States and certain other countries. However, the Argentine government and the *Comisión Nacional de Valores*, taking into consideration the deeper global awareness of the importance of having adequate corporate governance practices and a legal framework to enforce principles such as full information, and transparency, have issued decree No. 677/2001. This decree has the objective of determining the rights of the financial consumer, increasing market transparency and an adequate legal framework to increase the investor's protection within the capital market. Most of its reforms are in line with world trends pertaining to corporate governance practices that have already been adopted by many emerging markets.

In order to offer securities to the public in Argentina, an issuer must meet certain requirements of the *Comisión Nacional de Valores* regarding assets, operating history, management and other matters, and only securities for which an application for a public offering has been approved by the *Comisión Nacional de Valores* may be listed on the *Bolsa de Comercio de Buenos Aires*. This approval does not imply any kind of certification or assurance related to the merits or the quality of the securities, or the issuer's solvency. Issuers of listed securities are required to file unaudited quarterly financial statements and audited annual financial statements, as well as various other periodic reports, with the *Comisión*

Nacional de Valores and the Bolsa de Comercio de Buenos Aires.

There are 10 securities exchanges in Argentina, the main exchange for the Argentine securities market is the *Bolsa de Comercio de Buenos Aires*, which handles approximately 99% of all equity trading in the country.

The *Bolsa de Comercio de Buenos Aires* is a complex, non-profit and self-regulated organization. One of its particular characteristics is that various markets require different self-organizations of brokers

Table of Contents

within the *Bolsa de Comercio de Buenos Aires*. The most important and traditional of such markets is Mercado de Valores S.A. (MERVAL).

The securities that may be listed on the *Bolsa de Comercio de Buenos Aires* are: Stocks, Notes, Convertible Notes, Close-ended Investment Funds, Financial Trust, Indexes, Derivatives and Public Bonds. The *Bolsa de Comercio de Buenos Aires* is legally qualified for admission, suspension, and delisting of securities according to its own rules approved by the *Comisión Nacional de Valores*. Furthermore, the *Bolsa de Comercio de Buenos Aires* works very close with the *Comisión Nacional de Valores* in surveillance activities. Also under a special agreement, registration and listing applications are directly filed with the *Bolsa de Comercio de Buenos Aires* for simultaneous processing.

The MERVAL is a self-regulated incorporated business organization. The capital stock of such entity is divided into 133 stocks, the holders of which (natural or artificial persons) are thereby entitled to act as individual brokers or brokerage firms; i.e. to execute securities purchase and sale transactions in their own name and on behalf of third parties. Brokers receive a commission for their services.

The primary functions of the MERVAL are concerned with the settlement, surveillance and guarantee of market trades. This entity is also qualified to take disciplinary actions against individual brokers or brokerage firms who might violate the statutory rules in vigor, and/or the rules and regulations governing the Argentine Stock Market System.

Furthermore, the MERVAL regulates, coordinates and implements each and every aspect connected with stock exchange trading, types of securities, market mechanisms, terms and conditions of payment, and the like. Jointly with the *Bolsa de Comercio de Buenos Aires*, the MERVAL has implemented the stock-watch mechanism.

The MERVAL counts with a trading mechanism applicable to corporate securities and government bonds called Concurrent Market, where trades are executed screen-based or in the traditional open out-cry mode on the floor of the *Bolsa de Comercio de Buenos Aires* in an automated order-matching system. The MERVAL guarantees the settlement of all trades executed in the Concurrent Market.

Also trades on government and Notes may be executed on the Continuous Trading Session (with or without MERVAL's settlement guarantee).

The cash mechanism (standard maturity) in the Concurrent Market admits the following operating forms:

Automated trade execution based on orders entered from *Sistema Integral de Negociación Asistida por Computadora* work-stations or through open out-cry Floor-trade order slips.

Open out-cry Floor-trade executions are subsequently inputted through order slips.

Open out-cry trades are executed pursuant to the rules applicable to traditional floor trading. Automated-execution trades based on the offers are carried out according to the rules of the electronic system. Both executions entail the registration of trades in a unique price-volume structure, and both modes of entering the system feed a unique order structure per issue.

Among the main features of the open out-cry mechanism carried out on the Floor, the following are highlighted:

trades are executed open out-cry;

they are perfected through the preparation of order slips; and

the best-offer rule applies and as in the electronic system, it open out-cry the MERVAL settlement guarantee.

Table of Contents

Block trading is allowed in a minimum amount of Ps. 0.2 million for leading companies which are listed on the leader panel of the Bolsa de Comercio de Buenos Aires, and Ps. 0.1 million for the companies listed on the general panel of the Bolsa de Comercio de Buenos Aires. Block trading takes place on the floor of the Bolsa de Comercio de Buenos Aires and is conducted in Spanish by continuous open outcry. Transactions of more than Ps. 1.0 million are announced on the floor and are put on stand by for approximately 30 minutes. For transactions of more than Ps. 5.0 million, a certificate of the units from the Securities Central Depository (*Caja de Valores S.A.*) is additionally required.

As to the electronic system, its outstanding characteristics are:

trades are executed based on bids and offers entered in work-stations, i.e. computers linked to the Stock Exchange information network;

trades are executed automatically; and

offers are recorded as per price-time priority, privileging the best of them.

These trades have the Merval guarantee.

Brokers and brokerage firms may trade in this segment, either by buying or selling government and Notes for their own account, executing trades with another broker or brokerage firm or any other intermediary, by means of direct negotiations. In this system the best-offer rule does not apply and traders' compensations as well as stock market and stock exchange fees are implicit in the price agreed upon.

Trades must be reported in real-time for their dissemination, registration and publication. Counterpart trades are settled by Merval, and may be channeled through the guaranteed or the non-guaranteed segment.

Over the Counter Market, MAE

The Electronic Open Market (*Mercado Abierto Electronico*, or MAE) is an exchange organized under the laws of the Argentine Republic, which operates as a self-regulatory organization under the supervision of the *Comisión Nacional de Valores*.

The MAE works as an electronic environment to process Over the Counter transactions. It is an electronic exchange where both government securities and Notes are traded through spot and forward contracts.

MAE has 90 brokers/dealers members, which include national banks, provincial banks, municipal banks, private national banks, foreign banks, cooperative banks, financial institutions, foreign exchange entities and pure brokers/dealers (exclusively engaged in brokerage activities). Both Argentine or foreign capital banks and financial institutions may be MAE's brokers/dealers.

Securities to be traded must be registered with the pertinent supervising authorities and may be traded in MAE, in other exchanges or in both of them concurrently.

Securities Central Depositary, Caja de Valores S.A.

Caja de Valores S.A. is a corporation, totally private, which acts as central depository of public bonds and private securities. It was established in 1974 by Act 20,643, and it is supervised by the *Comisión Nacional de Valores*.

Those authorized to make deposits of securities with the *Caja de Valores S.A.* are stockbrokers, banking financial institutions, and mutual funds.

The majority shareholders of the *Caja de Valores S.A.* are the Bolsa de Comercio de Buenos Aires and the *Mercado de Valores de Buenos Aires S.A.* (49.98% each).

Table of Contents**Certain information regarding the Buenos Aires Stock Exchange**

	As of June 30,	As of December 31,		
	2005	2004	2003	2002
Market capitalization (Ps. Billion)	672.4	689.9	542.4	348.0
Average daily trading volume (Ps. Million)	68.8	52.6	34.0	17.7
Number of listed companies	106	107	110	114

Although companies may list all of their capital stock on the *Bolsa de Comercio de Buenos Aires*, in many cases a controlling block is retained by the principal shareholders resulting in only a relatively small percentage of many companies' stock being available for active trading by the public on the *Bolsa de Comercio de Buenos Aires*.

As of June 30, 2005, approximately 106 companies had equity securities listed on the *Bolsa de Comercio de Buenos Aires*. As of June 30, 2005, approximately 15.47% of the total market capitalization of the *Bolsa de Comercio de Buenos Aires* was represented by the securities of ten national companies.

The Argentine securities markets are substantially more volatile than the securities markets in the United States and certain other developed countries. The Merval experienced a 13% increase in 1995, a 25% increase in 1996, a 6% increase in 1997, a 37% decrease in 1998, a 28% increase in 1999, a 24% decrease in 2000, a 29% decrease in 2001, a 78% increase through September 30, 2002, measured in Pesos, and a 77% increase through October 31, 2003, a 38% increase through October 29, 2004, and a 33.09% increase through October 24, 2005 also measured in Pesos. To control volatility, the Bolsa de Comercio de Buenos Aires operates a system by which trades of an issuer's stock are suspended for one-half hour when such issuer's share price changes by more than 10% from its opening price.

The New York Stock Exchange

Our Global Depository Shares are listed on the New York Stock Exchange under the trading symbol *IRSA*.

B. Memorandum and Articles of Incorporation

Our corporate purpose

Our legal name is IRSA Inversiones y Representaciones Sociedad Anónima. We were incorporated under the laws of Argentina on April 30, 1943 as a stock corporation (*sociedad anónima*) and were registered with the IGJ on June 25, 1943 under number 284, on page 291, book 46 of volume A.

Article 4 of our bylaws defines our purpose as follows:

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Invest, develop and operate real estate developments;

Invest, develop and operate personal property, including securities;

Construct and operate works, services and public property;

Manage real or personal property, whether owned by us or by third parties;

Build, recycle, or repair real property whether owned by us or by third parties;

Advise third parties with respect to the aforementioned activities;

Finance projects, undertakings, works and/or real estate transactions of third parties.

Board of Directors

Voting on proposals in which directors have material interest

Decree No. 677/01 establishes in Section 8 that the directors, administrators and members of the supervisory committee of companies whose securities are publicly offered, shall act in a loyal and diligent manner when exercising their functions. In that sense, they must:

place the corporate interests of the company and the common interest of the shareholders above any other interest, including the controlling shareholder's interests;

refrain from obtaining a personal benefit from the issuer other than the compensation paid for their functions;

Table of Contents

organize and implement preventive systems and mechanisms to protect corporate interests, reducing the risk of conflicts of interests, either permanent or temporary, in their personal relationships with the company or with persons related to the company. This duty specifically refers to competition with the company, the use or imposition of a lien on corporate assets, the determination of compensation or proposals related thereto, the use of non public information, the use of business opportunities for their own benefit or for the benefit of third parties and, in general, any situation that may generate a conflict of interests affecting the issuer;

make the necessary arrangements to perform the company's activities and implement the necessary internal control to ensure a careful management and avoid breaches of the duties established by the applicable regulations; and

act with due diligence when preparing and disclosing the information to the market, and maintain the independence of external auditors.

The Argentine Law of Corporations No. 19,550 establishes in Section 271 that directors may contract with the company when the contract is related to the regular activities of the company and its terms and conditions are established on market terms. All other contracts with directors should be approved by the shareholders.

Further, Section 73 of Decree No. 677/01 establishes a specific procedure for transactions of a company whose securities are publicly offered, entered into with its directors, members of the supervisory committee, or senior managers and which involve a relevant amount. The transaction is considered to have a relevant amount when it exceeds: (i) one percent (1%) of the corporate capital, measured pursuant to the last approved financial statements, and (ii) the equivalent of one hundred thousand Pesos (Ps. 100,000).

The related person with an interest in the transaction should submit all the relevant documentation to the approval of the board of directors. The directors must request a report (i) of the audit committee stating if the conditions of the operation may be reasonably considered adequate according to normal market conditions; or (ii) of two independent evaluating firms that shall have informed about the same matter and about the other operation conditions. Immediately after being approved by the board of directors the transaction has to be informed to the *Comisión Nacional de Valores*.

Notwithstanding that, Section 272 of the Law of Corporations No.19,550 provides that when a director has an opposite interest to the one of the company, he or she should notify that situation to the board of directors and the supervisory committee and abstain to vote in that respect. The violation of this provision results in the director being jointly and severally unlimitedly liable.

In the event that the results of the reports are not favorable to the transaction, its approval should be considered by the shareholders' meeting.

Approval of compensation of the members of the Board of Directors and Supervisory Committee

Our bylaws do not establish the compensation to be paid to members of the board of directors and the supervisory committee, and therefore pursuant to Section 261 of the Law of Corporations No.19,550, it should be approved by the shareholders. The maximum amount that may be paid as compensation to members of the board of directors and the supervisory committee should not exceed 25% of the realized and net earnings of the company and 5% when there is no distribution of dividends. If the company does not distribute the total earnings, the amount of the compensation should be proportional to that distribution and within the mentioned limits. These limits may only be surpassed by express approval of the shareholders.

Provisions have been made for compensations of the members of the board of directors for the fiscal year ended 2005, for an amount of Ps. 7.4 million as approved at the shareholders meeting held on November 29, 2005. At the same meeting the shareholders approved by a majority of 99.96% of votes the decision not to pay compensation to our supervisory committee.

Table of Contents

Powers of directors

Our bylaws establish, in Section 18, that the board of directors has full and broad powers to organize, manage and direct us to fulfilling the corporate purpose.

Retirement of directors

Our bylaws do not establish any requirements or provisions regarding age limits for director's retirement, nor do they require a number of shares a director must own to qualify for the position.

Rights, preferences and restrictions attaching to the common shares

Dividend rights

The Law of Corporations No.19,550 establishes that the distribution and payment of dividends to shareholders is valid only if they result from realized and net earnings of the company pursuant to an annual balance sheet approved by the shareholders. The board of directors submits our financial statements for the previous fiscal year, together with the reports of the supervisory committee, to the annual ordinary shareholders meeting. This meeting must be held by October 31 of each year to approve the financial statements and decide on the allocation of our net income for the fiscal year. The distribution, amount and payment of dividends if any, must be approved by the affirmative vote of the majority of the present votes with right to vote at the meeting. Under the applicable regulations of the *Comisión Nacional de Valores*, cash dividends must be paid to the shareholders pro rata according to the interest held by shareholders within 30 days of the decision approving their distribution. If stock dividends are declared, the corresponding shares must be delivered to the shareholders within three months of the shareholders' meeting approving them. The right of shareholders to collect the dividends expires upon the end of three-years' term since they were placed at the disposal of shareholders.

The shareholders' meeting may authorize payment of dividends on a quarterly basis provided no applicable regulations are violated. In that case, all and each of the members of the board of directors and the supervisory committee will be jointly and severally unlimitedly liable for the refund of those dividends if, as of the end of the respective fiscal year, the realized and net earnings of the company are not sufficient to allow the payment of dividends.

When we declare and pay dividends on the common shares, the holders of our Global Depositary Shares, each representing the right to receive ten ordinary shares, outstanding on the corresponding registration date, shall be entitled to receive the dividends due on the common shares underlying the Global Depositary Shares, subject to the terms of the Modified and Ordered Deposit Contract dated December 12, 1994 executed by and between us, the Bank of New York (the Depositary) and the eventual holders of Global Depositary Shares (the Deposit Contract). The cash dividends are to be paid in Pesos and, except under certain circumstances, are to be converted by the Depositary into U.S. Dollars at the exchange rate prevailing at the conversion date and are to be paid to the holders of the Global Depositary Shares net of any applicable fee on the dividend distribution, costs and conversion expenses, taxes and public charges. From 1989 to December 3, 2001, there were no exchange controls restricting the Peso-U.S. Dollar translation or the remittance of U.S. Dollars abroad. From December 3, 2001 to January 2, 2003,

remittances of foreign currency, except for certain transactions, should be authorized by the Argentine Central Bank, including payments made by Argentine debtors in connection with financial debts principal. Nowadays, in general, exchange transactions can be freely performed in Argentina, however, the Argentine Central Bank has imposed restrictions on certain exchange transactions. Therefore, we cannot assure you that in the future we shall be able to transfer abroad the payment of dividends to the holders of our Global Depositary Shares. See Taxation-Argentine Taxes-Taxation of Dividends .

Voting rights and staggered elections

Our stock capital is composed by book-entry common shares with face value of Ps. 1 per share and entitled to one vote each.

All directors and alternate directors are elected for a three-year term.

Table of Contents

Our by laws do not consider staggered elections.

Rights to share in IRSA s profits

The holders of our common shares have the right to participate in our net and realized profits on a *pro rata* basis of their respective interests.

Pursuant to the Law of Corporations and Section 29 of our bylaws, liquidated and realized profits of each fiscal year shall be distributed as follows:

allocate 5% of such net profits to legal reserve, until the amount of such reserve equals 20% of our capital stock;

the sum established by the shareholders meeting as remuneration of the board of Directors and the supervisory committee; and

dividends, additional dividends to preferred shares if any, or to optional reserve funds or contingency reserves or to a new account, or for whatever purpose the shareholders determine at the shareholders meeting.

Rights to share in any surplus in the event of liquidation

Section 30 of our bylaws establishes that in the event of liquidation, dissolution or winding-up, our assets (i) will be first applied to satisfy liabilities and (ii) the remaining will be proportionally distributed among holders of preferred stock if there are any and in accordance with the terms of the preferred stock. If any surplus remains, the holders of common shares are entitled to receive and share on a pro rata basis in all net assets remaining for distribution.

Provisions related to a shareholder s ownership of certain amount of shares

Section 9 of our bylaws establishes that the acquisition by any person or group, directly or indirectly of our shares, convertible securities, rights to receive any of those securities that may grant that person the control of our company or 35% or more of our capital stock; may only be done by following a tender offer procedure for all of our shares.

There are cases excluded from the tender offer requirements:

acquisitions by persons holding or controlling shares or convertible securities which represent more than 50% of our capital stock, notwithstanding the provisions of the *Comisión Nacional de Valores*; and

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

holdings of more than 35%, which derive from the distribution of shares or dividends paid in shares approved by the shareholders, or the issuance of shares as a result of a merger approved by the shareholders; in both cases, the excess holding shall be disposed of within 180 days of its registration in the relevant shareholder's account, or prior to the holding of our shareholders meeting, whatever occurs first.

The *Comisión Nacional de Valores* regulations require that transactions which cause a person's holdings of capital stock of a registered Argentine company, to hold 5% or more of the voting power, should be immediately notified to the *Comisión Nacional de Valores*. Thereafter, every change in the holdings that represents a multiple of 5% of the voting power should also be notified.

Procedure to change the rights of stockholders

The rights of holders of stock are established in the Law of Corporations and in the bylaws. The rights of shareholders provided for by the Law of Corporations may not be diminished by the bylaws.

Table of Contents

Section 235 of the Law of Corporations establishes that the amendment of the bylaws should be approved by the absolute majority of our shareholders at an extraordinary shareholders meeting.

On October 31, 2003 in the ordinary and extraordinary annual shareholders meeting, shareholders decided not to adhere to the *Régimen Estatutario Optativo de Oferta Pública de Adquisición Obligatoria* (Optional Statutory Body of Public Offering of Compulsory Acquisition) provided under Decree No. 677/2001, consequently, shareholders decided to incorporate that provision under Section 1 of the by-laws.

Ordinary and extraordinary shareholders meetings

Our bylaws establish that any meeting must be called by the board of directors or by the supervisory committee in the assumptions provided for by law or at the request of the holders of shares representing no less than 5% of the share capital. Any meetings requested by shareholders must be held within 30 days after the request is made. Ordinary meetings may be called simultaneously for the first and second call. Upon failure to give simultaneous call, the meeting on second call, due to failure to constitute quorum on first call, must be held within 30 days after such meeting, complying with all notices required by applicable regulations.

Any shareholder may appoint any person as its duly authorized representative at whatever meeting, by granting a proxy with duly certified signature. Co-owners of shares must have single representation.

In order to attend a shareholders meeting, shareholders should deposit with us the share certificate issued by the registrar agent, with at least 3 business days prior to the date of the respective shareholders meeting. We will deliver the respective receipt which will be required for admission to the shareholders meeting. On the day of the meeting, the shareholders or their representatives will have to fill in their addresses, identity document and number of votes and will sign the Shareholders Meetings Attendance Book.

The meetings shall be presided by the Chairman of the board of directors.

The first call of the ordinary shareholders meeting requires the attendance of shareholders representing a majority of the shares with voting rights. The second call, does not require a minimum of shares with right to vote. In both cases, resolutions shall be adopted by the absolute majority of the votes that may be cast in the relevant decision.

The first call of the extraordinary shareholders meeting requires the attendance of shareholders representing 60% of the shares with voting rights. The second call, does not require a minimum of shares with right to vote. In both cases, resolutions shall be adopted by the absolute majority of the votes that may be cast in the relevant decision.

Limitations to own securities by non-resident or foreign shareholders

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

There are no legal limitations on ownership of securities or exercise of voting rights, by non-resident or foreign shareholders. However, foreign shareholders must fulfill certain requirements with the IGJ (*Inspección General de Justicia*) in order to assure that they will be able to properly exercise their voting rights. General Resolution No. 7 passed in September 2003 by the IGJ, and other related regulations set forth certain requirements for foreign entities registered with the IGJ. It provides, among other requirements, disclosure of information related to their proprietary interests in assets located outside Argentina to be at least equivalent in value to those located inside Argentina. The entities must comply with these requirements in order to (1) perform activities on a regular basis through their Argentine branches (Section 118 Argentine Corporate Law), or (2) exercise their ownership rights in Argentine Companies (Section 123 Argentine Corporate Law). In cases where the IGJ has concluded that the entities (a) do not have assets outside Argentina; or (b) have non-current assets that are not materially significant compared to those non-current assets which are owned by them and located in Argentina; or (c) the entity's address in Argentina becomes the place where this entity makes a majority of its decisions, corporate or otherwise, the entities may be required to amend and register their by-laws to comply with Argentine law, thereby becoming an Argentine entity subject to Argentine law according to Section 124 of Argentine

Table of Contents

Corporate Law. In addition, Argentine companies with shareholders consisting of such entities that fail to comply with these requirements may be subject to the following sanctions: (1) the IGJ may not register corporate decisions adopted by the Argentine Company when its off-shore shareholder votes as a shareholder and when that vote is essential in attaining a majority. Any decisions made pursuant to such vote related to the approval of its annual balance sheet may be declared null and void for administrative purposes; (2) whether or not the vote of the off-shore entity is necessary for purposes of determining quorum or majority, the IGJ may register the decision without considering that vote; and (3) the directors of the Argentine Company may be held personally liable for actions taken by the Argentine Company.

Ownership threshold above which ownership should be disclosed

The *Comisión Nacional de Valores* regulations require that transactions which cause a person's holdings of capital stock of a registered Argentine company, to hold 5% or more of the voting power, should be immediately notified to the *Comisión Nacional de Valores*. Thereafter, every change in the holdings that represents a multiple of 5% of the voting power should also be notified.

Directors, senior managers, executive officers, members of the supervisory committee, and controlling shareholders of an Argentine company whose securities are publicly offered, should notify the *Comisión Nacional de Valores* on a monthly basis, their beneficial ownership of shares, debt securities, and call and put options related to securities of such companies and their controlling, controlled or affiliated companies.

Further, the *Comisión Nacional de Valores* must be immediately notified of transactions which cause a person's holdings of capital stock of an Argentine company whose securities are publicly offered to hold 5% or more of the voting power and every change in the holdings that represents a multiple of 5% of the voting power. Holders of more than 50% of the common shares or who otherwise control decision making in shareholders' meetings, as well as directors, officers and members of the supervisory committee, must provide the *Comisión Nacional de Valores* with annual reports of their holdings in the capital stock of such companies and monthly reports of any change in their holdings.

Compliance with NYSE listing standards on corporate governance

New York Stock Exchange and Argentine Corporate Governance Requirements

IRSA's corporate governance practices are governed by the applicable Argentine law; particularly, the Corporations Law, Decree N°677/01 and the Standards of the *Comisión Nacional de Valores*, as well as by its Corporate Bylaws. IRSA has securities that are registered with the SEC and are listed on the New York Stock Exchange (the "NYSE"), and is therefore subject to corporate governance requirements applicable to NYSE-listed non-US companies (a "NYSE-listed company").

NYSE-listed non-US companies that are categorized as "Foreign Private Issuers" may, in general, follow their home country corporate governance practices in lieu of most of the new NYSE corporate governance requirements (the "NYSE Sections") codified in Section 303A of the NYSE's Listed Company Manual. However, Foreign Private Issuers must comply with NYSE Sections 303A.06, 303A.11 and 303A.12(b) and 303A.12(c). Foreign Private Issuers must comply with Section 303A.06 prior to July 31, 2005 and with Sections 303A.11 and 303A.12(b) prior to the first annual meeting of shareholders held after January 15, 2004, or by October 31, 2004.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

NYSE Section 303A.11 requires that Foreign Private Issuers disclose any significant ways in which their corporate governance practices differ from US companies under NYSE standards. A Foreign Private Issuer is simply required to provide a brief, general summary of such significant differences to its US investors either 1) on the company's website (in English) or 2) in Form 20-F as distributed to their US investors. In order to comply with Section 303A.11, IRSA has prepared and has updated the comparison in the table below.

Table of Contents

The most relevant differences between IRSA's corporate governance practices and NYSE standards for listed companies are as follows:

NYSE Standards for US companies

Listed Companies Manual Section 303.A

Section 303A.01 A NYSE-listed company must have a majority of independent directors on its board of directors.

Section 303A.02 This section establishes general standards to evaluate directors' independence (no director qualifies as independent unless the board of directors affirmatively determines that the director has no material relationship with the listed company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the company)), and emphasizes that the concern is independence from management. The board is also required to express an opinion with regard to the independence or lack of independence, on a case by case basis, of each individual director.

Section 303A.03 Non-management directors must meet at regularly scheduled executive meetings not attended by management.

IRSA's Corporate Practices

IRSA follows Argentine law which does not require that a majority of the board of directors be comprised of independent directors. Argentine law instead requires that public companies in Argentina have a sufficient number of independent directors to be able to form an audit committee of at least three members, the majority of which must be independent pursuant to the criteria established by the *Comisión Nacional de Valores*.

Comisión Nacional de Valores's standards (General Resolution N° 400) for purposes of identifying an independent director are substantially similar to NYSE's standards. *Comisión Nacional de Valores* standards provide that independence is required with respect to the Company itself and to its shareholders with direct or indirect material holdings (35% or more). To qualify as an independent director, such person must not perform executive functions within the company. Close relatives of any persons who would not qualify as independent directors shall also not be considered independent. When directors are appointed, each shareholder that nominates a director is required to report at the meeting whether or not such director is independent.

Neither Argentine law nor IRSA's bylaws require that any such meetings be held.

IRSA's board of directors as a whole is responsible for monitoring the company's affairs. In addition, under Argentine law, the Board of Directors may approve the delegation of specific responsibilities to designated directors or non-director managers of the Company. Also, it is mandatory for public companies to form a supervisory committee (composed of syndics) which is responsible for monitoring legal compliance by the Company under Argentine law and compliance with its by-laws.

Table of Contents

NYSE Standards for US companies

Listed Companies Manual Section 303.A

IRSA's Corporate Practices

Section 303A.05(a) Listed companies shall have a Compensation Committee comprised entirely of independent directors.

Neither Argentine law nor IRSA's bylaws require the formation of a Compensation Committee. Under Argentine law, if the compensation of the members of the board of directors and the supervisory committee is not established in the bylaws of a company, it should be determined at the shareholders meeting.

Section 303A.05(b). The Compensation Committee shall have a written charter addressing the committee's purpose and certain minimum responsibilities as set forth in Section 303A.05(b)(i) and (ii).

Neither Argentine law nor IRSA's bylaws require the formation of a Compensation Committee.

Section 303A.06 Listed companies must have an Audit Committee that satisfies the requirements of Rule 10 A-3 under the 1934 Exchange Act (the Exchange Act). Foreign private issuers must satisfy the requirements of Rule 10 A-3 under the Exchange Act as of July 31, 2005.

Pursuant to Decree N° 677/01 and *Comisión Nacional de Valores* Standards, as from May 27, 2004 IRSA has appointed an Audit Committee composed of three of the members of the Board of Directors. Since December 21, 2005 all of its members are independent as per the criteria of Rule 10 A-3 under the Exchange Act.

Section 303A.07(a) The Audit Committee shall consist of at least three members. All of its members shall be financially literate or must acquire such financial knowledge within a reasonable period and at least one of its members shall have experience in accounting or financial administration.

In accordance with Argentine law, a public Company must have an Audit Committee with a minimum of three members of the board of directors, the majority of which shall be independent pursuant to the criteria established by the *Comisión Nacional de Valores*. There is no requirement related to the financial expertise of the members of the Audit Committee. However, our Audit Committee has a financial expert. The committee creates its own written internal code that addresses among others: (i) its purpose; (ii) an annual performance evaluation of the committee; and (iii) its duties and responsibilities.

C. Material Contracts

We do not have any material contract entered into outside the ordinary course of business other than some of the operations previously described under the Related Party Transactions and Our Indebtedness sections.

D. Exchange Controls

Currency Exchange Regulation

All foreign currency exchange transactions must be carried out in the free exchange market, in which the Argentine Central Bank participates by purchasing and selling foreign currency.

Import and Export of Capital

Import of Capital

Currently, there are no laws, executive orders or regulations nor any exchange controls in force in Argentina which limits the import of capital.

Pursuant to the Argentine Foreign Investment Law No. 21,382, and Decree No. 1,853/93, enacted in 1993, the purchase by foreign investors (any natural or legal person domiciled out of Argentina or an Argentine company of foreign capital) of capital participation in a company existing in Argentina (according to the Foreign Investment Act) shall constitute a foreign investment.

Table of Contents

At present there are no restrictions on foreign investments in industries other than public broadcasting media, and no prior authorization is required to make foreign investments.

Therefore, no prior authorization is required in order to purchase our securities.

See Item 3: Key Information Exchange Rates

Export of Capital, including the availability of cash or cash equivalents

From 1989 to December 3, 2001, there were no exchange controls restricting the Peso-U.S. Dollar translation or the remittance of U.S. Dollars abroad. In compliance with the economic measures set forth by the Government by means of Decree No. 1570/2001 dated December 3, 2001 and subsequent amendments thereto, aimed at protecting the integrity of the Argentine financial system, money could not be transferred abroad, unless expressly authorized by the Argentine Central Bank.

For purposes of having access to the funds deposited with financial institutions, clients were allowed to make electronic transfers between accounts of the same institution or others and in favor of the same holder or other persons; pay expenses by means of debit cards, checks, automatic debits and credit cards. Additionally, the Decree declared that new foreign currency deposits can only be received as time deposits, and no demand accounts denominated in foreign currency may be opened. Such restrictions were later relaxed and deposits of foreign currency in savings accounts by residents were allowed (*cajas de ahorro*). Law No. 25,561 declared a public emergency in social, economic, administrative, financial and foreign exchange market matters, delegating to the Argentine executive branch until December 10, 2003, the powers to reorganize the financial, banking and foreign exchange system, reactivate the performance of the economy and improve the employment level and distribution of income, focusing on a program for the development of regional economies, creating the conditions for a sustainable economic growth, consistent with the public debt restructuring, and restructuring outstanding obligations affected by the new foreign exchange system. Such period was extended until December 31, 2005 by Law No. 25,792. Among other provisions, this law put an end to the convertibility system that had been in effect since April 1991, whereby Pesos were convertible to U.S. Dollars at a rate of Ps.1.00 per dollar.

As consequence of the enactment of Decree 260/02, as of February 8, 2002 a single and free exchange market was implemented, through which all foreign currency exchange transactions are made. Exchange transactions are freely entered into by parties, but subject to the regulations and requirements set forth by the Argentine Central Bank. The Argentine Central Bank issued Communication A 3471, as amended, establishing restrictions or special requirements for exchange transactions. Lack of compliance with requirements and conditions shall result in the application of sanctions established by the Criminal Law Exchange Regime.

Such regulation has been modified several times and, therefore, only the most important provisions currently in force are mentioned below:

Argentine persons and companies are authorized to buy up to US\$2,000,000 per month;

the sale of foreign currency to non-residents, with the exception of international organizations, in an aggregate monthly amount exceeding US\$5,000 shall also be previously authorized by the Argentine Central Bank, except when it is evidenced that the amounts

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

used to purchase foreign currency (i) come from the payment of a resident to the non-resident which orders the transfer; and (ii) the payment is performed in relation to imports, services, revenues or other commercial transfers for which the resident should have accessed to the exchange market in accordance to the exchange rules that regulated payments abroad to the commercial account;

foreign currency exchange or arbitrage transactions with financial institutions located abroad must be previously authorized by the Argentine Central Bank, except where such financial institutions are located in countries which are members of the Basle Committee and have an international credit rating not lower than A granted by international rating agencies registered with the Argentine

Table of Contents

Central Bank, or where such transactions are entered into with branches of Argentine official banks located abroad;

future operations in regulated markets, options or forwards transactions and any other type of derivatives entered into and cancelled in Argentina and settled in local currency are not subject to any restriction, provided, however, that: (i) such operations do not contemplate any payment or transfer obligation of a resident to a foreign country; (ii) any inflow of foreign currency into the local exchange market for the purposes of such an operation by a non resident who is party to such a transaction is subject to a non-transferable deposit denominated in U.S. Dollars for an amount equal to 30% of the relevant transaction for a period of 365 days in accordance to such further conditions as indicated bellow; and, (iii) transfer of foreign currency abroad by a non resident derived from such transactions involving an aggregate monthly amount exceeding US\$5,000 shall also be previously authorized by the Argentine Central Bank;

Communication A 4285 dated January 17, 2005, relaxed restrictions on foreign currency transactions by abrogating the requirement of prior approval of the Argentine Central Bank for the execution of certain future and forward operations and for the access to the foreign exchange market for their cancellation. These operations include: (i) transactions executed by the financial system for the acquisition of certain time deposits having variable retribution; (ii) agreements for the coverage of foreign currencies and interest rates, (iii) agreements executed by exporters or importers for the coverage of commodity prices, as long as they are related to argentine foreign trade transactions; and (iv) the execution of external transactions in the form of Repos provided that they are executed for a term of at least 180 days. With the exception of inflows related to the external transactions in the form of Repos mentioned in (iv), any other inflow of foreign currency devoted to future or forward operations mentioned in (i) to (iii) is exempted from the obligation to constitute the non-transferable deposit;

financial institutions must obtain prior authorization of the Argentine Central Bank in order to purchase any kind of asset, where the payment for such a transaction is made against delivery of foreign currency or any other kind of foreign denominated asset that is part of the General Exchange Position (*Posición General de Cambios* or *GEP*) of these financial institutions;

new imports of goods may be fully paid in advance, without consideration of the kind of good, as well as debts for imports with any maturity date;

access to the free and sole exchange market is allowed for payment of expired capital services originated in financial debts, except for financial entities subject to advance refinancings and discounts granted by the Argentine Central Bank and restructuring of its foreign debt (Decree No. 739/03 and Communication A 3940);

non-residents may have access to the exchange market for purposes of transferring funds in foreign currency collected in Argentina, originated from the amortization installments from national public bonds issued in foreign currency, to accounts in foreign banks;

there are no restrictions to make payments abroad for services rendered by non-residents on any basis (freight, insurance, royalties, technical advise, fees, etc.);

transfers abroad for the payment of indebtedness of private entities (comprising both financial and non-financial institutions) and government owned entities; provided that they fulfill certain regulatory requirements such as (i) a sworn statement affirming the fulfillment of Communication A 3602 informative requirements; (ii) the possession of documents which evidence the genuineness of the operation being cancelled, i.e., the entry into the country of the finance proceed and/or its use to cancel the financial or commercial debt, etc.; (iii) the amounts to be transferred have been adjusted, as the case may be, in accordance to Decree 214/02 as amended; and (iv) the fact that the inflows have remained in the county for the legal minimum term (180 days until May 26, 2005 or 365 for funds entered into after that date) has been verified;

Table of Contents

effective as of January 8, 2003, Argentine companies may freely transfer corporate profits and dividends corresponding to audited financial statements of local companies without prior Argentine Central Bank approval and transfers of funds abroad in order to pay reinsurance premiums will be subject only to the issuance of a statement from the Superintendent of Insurance Board (*Superintendencia de Seguros de la Nación*) (the regulatory authority on insurance matters) with respect to the reason and amount to be transferred;

there is an obligation to enter the funds received as payment for the export of goods and services into the exchange market and to convert them into local currency within a period established by the Ministry of Economy and Production; and

foreign currency obtained from the collection of exports corresponding to bills of lading shall be sold at the reference exchange rate when the foreign currency so obtained was not clear at the exchange market within the applicable legal terms, in accordance with applicable regulation;

before September 2005, inflows of foreign currency which would be applied to export advances and prefinancing were allowed into the local exchange market avoiding the non-transferable deposit requirement established by Decree No. 616/2005, issued on June 10, 2005 by providing a sworn statement stating that foreign funds would be used for a specific purchase transaction entered into with the buyer. Subsequently, the Argentine Central Bank by means of the Communication A 4415 substituted the sworn statement requirement with the exhibition of the shipping contract involved in said transaction. Later, on November 22, 2005 Argentine Central Bank's Communication A 4443 relaxed this requirement exempting exporters from providing such documentary evidence if they proved that the inflow of funds would not exceed more than 25% of the amount they received during the last year for similar transactions.

The government, through the Argentine Central Bank, holds control over capital inflows and outflows, enacting the applicable rules in this regard. Decree No. 616/2005, issued on June 10, 2005, established that inflows and outflows of foreign currency into the local exchange market, and indebtedness transactions incurred by local residents that may result in a foreign currency-denominated payment to non-residents, need to be registered with the Argentine Central Bank. Furthermore, as from May 26, 2005, the following situations will be subject to certain requirements and conditions: (a) inflows of funds derived from foreign borrowing by the private financial and non financial sector; and (b) inflows of foreign currency by non-residents for the purpose of: (i) holding a position in local currency, (ii) purchasing financial debt or assets (iii) investing in government bonds in the secondary market. In these situations, the following requirements must be met: (i) inflows must remain in Argentina for 365 days to be computed from the day they were negotiated in the local exchange market; (ii) the funds involved in the transactions covered by this decree must be deposited in a local bank account; (iii) a non-transferable deposit denominated in U.S. Dollars for an amount equal to 30% of the relevant transaction has to be made with the resulting proceeds. This deposit will only be reimbursed after the expiration of a 365 days term, cannot bear interest (nor yield any other type of profit) and may not be used as collateral in any credit transaction. Such requirements do not apply to: (a) foreign direct investment, (b) primary placement of publicly traded debt or equity securities listed in one or more exchange markets, and (c) foreign trade and export finance related transactions.

Subsequently, Resolution No. 365/2005 from the Ministry of Economy and Production established that non-resident capital inflows devoted to the primary subscription of notes for the monetary regulation issued by the Argentine Central Bank and income derived from the sale by residents of foreign assets for an amount greater than US\$2 million per month, will also be subject to the aforementioned requirements.

Moreover, said resolution provided certain exemptions to the non-transferable deposit requirement such as: (i) inflows derived from borrowings extended by multilateral and bilateral financial institutions and official credit agencies, and (ii) inflows derived from financial borrowings extended by foreign creditors, so long as they are devoted to investments in non-financial assets and the borrowed amounts are repaid at least 24 months after they were granted. However, neither Resolution No.365/2005 nor the relevant Argentine Central Bank Communications contain any definition or example as to what would constitute a non-financial asset that would fall under said exception. Therefore, inflows of foreign currency

Table of Contents

derived from loans extended by foreign creditors to residents devoted to finance the acquisition or the construction of any real estate property are likely to be subject to the non-transferable deposit requirement even if such borrowings are to be repaid no earlier than 24 months after they were granted.

By contrast, according to Communication C 43075 dated September 26, 2005, inflows of foreign currency caused by a non-resident and devoted to the cancellation of payment obligations under a purchase agreement (including installment payments thereof) concerning a real estate property under construction may be registered as foreign direct investments provided that certain conditions are met.

Finally, Resolution No. 637/2005 from the Ministry of Economy and Production dated November 16, 2005 established that any inflow of foreign currency to the local exchange market devoted to the primary subscription of notes, bonds or participation certificates issued by the trustee of a trust, regardless of the channels in which they are traded (public or private offerings, or listings in self-regulated markets) is subject to the non-transferable deposit requirement established by Decree 616/2005 if such requirement would be deemed applicable to the acquisition of the underlying assets of the trust.

Reporting requirements on Direct Investments

On March 4, 2005 the Argentine Central Bank issued Communication A 4305 that regulates the reporting system of direct investments and real estate investments carried out by non-residents in Argentina and by Argentine residents abroad, which had been implemented through Communication A 4237 dated November 10, 2004.

Direct investments in Argentina of non-Argentine residents

Non-Argentine residents are compelled to comply with the reporting regime if the value of their investments in Argentina reaches or surpasses the equivalent of US\$500,000 measured in terms of the net worth of the company in which they participate or fiscal value of the real estate owned. If the investments do not reach such amount, the compliance with such regime is optional.

According to Communication A 4237, companies in which non-Argentine residents participate in and administrators of real estate pertaining to non-Argentine residents are those obliged to comply with the reporting regime.

Direct investments made abroad by Argentine residents

Argentine investors are compelled to comply with the reporting regime if the value of their investments abroad reaches or surpasses the equivalent of US\$1,000,000 measured in terms of net worth of the company in which they participate or the fiscal value of the real estate they own.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

If the value of those investments abroad does not exceed the equivalent of US\$5,000,000, the declaration could be carried out annually instead of semiannually. If the investments do not reach the equivalent of US\$1,000,000, the compliance with such regime is optional.

The first declarations will correspond to the semester ended on December 31, 2004, and will have to be filed within 90 calendar days as of such date.

Conclusions:

While the foreign exchange market system in Argentina has become increasingly flexible under recent regulations, Decree No. 616/2005 severely deters short term inflows of foreign currency which are presumed to be of a speculative nature. Such determination on the part of the government is associated also to another short term economic policy goal and combined measures aimed at pegging or reasonably adjusting the U.S. Dollar value around Ps. 3 per US\$1. We cannot assess whether these policies will be maintained in the longer run and how changes made therein may affect the economy and our business perspectives. Furthermore, we cannot predict how changes in the evolution of the world economy and commodity prices which constitutes an important part of Argentina's exports may influence exchange rates

Table of Contents

and control policies. Moreover, failure of government to comply with financial commitments with the International Monetary Fund or failure to reach an agreement with said institution may have an impact on the foreign exchange system. No assurance can be made as to the extent to which all such factors may lead to future restrictions that might further tighten foreign exchange controls or otherwise change the current foreign exchange system.

E. Taxation

United States taxation

The following summary describes the material United States federal income tax consequences of the ownership of shares and Global Depositary Shares as of the date hereof. The discussion set forth below is applicable to U.S. Holders (as defined below). Except where noted, this discussion deals only with U.S. Holders that purchase the shares or Global Depositary Shares as capital assets. This summary does not represent a detailed description of the United States federal income tax consequences applicable to you if you are subject to special treatment under the United States federal income tax laws, including if you are:

a bank;

a dealer in securities or currencies;

a financial institution;

a regulated investment company;

a real estate investment trust;

an insurance company;

a tax exempt organization;

a person holding the shares or Global Depositary Shares as part of a hedging, integrated or conversion transaction, constructive sale or straddle;

a trader in securities that has elected the mark-to-market method of accounting for your securities;

a person liable for alternative minimum tax;

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

a person who owns 10% or more of the voting stock of our company;

an investor in a pass-through entity; or

a United States person whose functional currency is not the United States Dollar.

Furthermore, the discussion below is based upon the provisions of the Internal Revenue Code of 1986, as amended (the Code), and regulations, rulings and judicial decisions thereunder as of the date hereof, and such authorities may be replaced, revoked or modified so as to result in federal income tax consequences different from those discussed below. In addition, this summary is based, in part, upon representations made by the depositary (the Depositary) to us and assumes that the deposit agreement governing the Global Depositary Shares, and all other related agreements, will be performed in accordance with their terms. **IF YOU ARE CONSIDERING THE PURCHASE, OWNERSHIP OR DISPOSITION OF SHARES OR GLOBAL DEPOSITARY SHARES YOU SHOULD CONSULT YOUR OWN TAX ADVISOR CONCERNING THE UNITED STATES FEDERAL INCOME TAX CONSEQUENCES TO YOU AS WELL AS ANY CONSEQUENCES ARISING UNDER THE LAWS OF ANY OTHER TAXING JURISDICTION.**

Table of Contents

U.S. Holder means a beneficial owner of a share or GDS that is for United States federal income tax purposes:

an individual citizen or resident of the United States;

a corporation created or organized in or under the laws of the United States or any political subdivision of the United States;

an estate the income of which is subject to United States federal income taxation regardless of its source; or

a trust if it (1) is subject to the primary supervision of a court within the United States and one or more United States persons has authority to control all substantial decisions of the trust or (2) has a valid election in effect under applicable United States Treasury regulations to be treated as a United States person.

If a partnership holds shares or Global Depositary Shares, the tax treatment of a partner will generally depend on the status of the partner and the activities of the partnership. If you are a partner of a partnership holding shares or Global Depositary Shares, you should consult your tax advisors.

Global Depositary Shares

In general, for United States federal income tax purposes, U.S. Holders of Global Depositary Shares will be treated as the owners of the underlying shares that are represented by the Global Depositary Shares. However, the United States Treasury has expressed concerns that parties to whom depositary shares are released may be taking actions that are inconsistent with the claiming of foreign tax credits by the holders of Global Depositary Shares. Such actions would also be inconsistent with the claiming of the reduced rate of tax, described below, applicable to dividends received by certain non-corporate holders. Accordingly, the analysis of the creditability of Argentine taxes and the availability of the reduced tax rate for dividends received by certain non-corporate U.S. Holders, each discussed below, could be affected by actions taken by parties to whom the Global Depositary Shares are released. Deposits or withdrawals of shares by U.S. Holders for Global Depositary Shares will not be subject to United States federal income tax.

Distributions on Shares or Global Depositary Shares

Subject to the discussion under *Passive Foreign Investment Company Rules* below, the gross amount of distributions on the shares or Global Depositary Shares, (including amounts withheld to reflect Argentine withholding taxes, if any) will be taxable as dividends to the extent of our current and accumulated earnings and profits (as determined under United States federal income tax principles). Such income (including withheld taxes) will be includable in your gross income as ordinary income on the day actually or constructively received by you, in the case of shares, or by the GDS depository, in the case of Global Depositary Shares. Such dividends will not be eligible for the dividends-received deduction allowed to corporations under the Code.

With respect to non-corporate United States investors, certain dividends received before January 1, 2009 from a qualified foreign corporation may be subject to reduced rates of taxation. A foreign corporation is treated as a qualified foreign corporation with respect to dividends received from that corporation on shares (or Global Depositary Shares backed by such shares) that are readily tradable on an established securities market

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

in the United States. United States Treasury Department guidance indicates that our Global Depositary Shares (which are listed on the NASDAQ), but not our shares, are readily tradable on an established securities market in the United States. Thus, we do not believe that dividends that we pay on our shares that are not backed by Global Depositary Shares currently meet the conditions required for these reduced tax rates. There can be no assurance that our Global Depositary Shares will be considered readily tradable on an established securities market in later years. Non-corporate holders that do not meet a minimum holding period requirement during which they are not protected from the risk of loss or that elect to treat the dividend income as investment income pursuant to Section 163(d)(4) of the Code will not be eligible for the reduced rates of taxation regardless of our status as a qualified foreign corporation. In addition, the rate reduction will not apply to dividends if the recipient of a dividend is

Table of Contents

obligated to make related payments with respect to positions in substantially similar or related property. This disallowance applies even if the minimum holding period has been met.

The amount of any dividend paid in Pesos will equal the United States Dollar value of the Pesos received calculated by reference to the exchange rate in effect on the date the dividend is actually or constructively received by you in the case of shares, or by the GDS depository, in the case of Global Depository Shares, regardless of whether the Pesos are converted into United States Dollars. If the Pesos received are not converted into United States Dollars on the day of receipt, you will have a basis in the Pesos equal to their United States Dollar value on the date of receipt. Any gain or loss you realize on a subsequent conversion or other disposition of the Pesos will be treated as United States source ordinary income or loss.

Subject to certain significant conditions and limitations, Argentine tax withheld from dividends, if any, may be treated as foreign income tax eligible for credit or deduction against your United States federal income tax liability. For purposes of the foreign tax credit, dividends paid on the shares or Global Depository Shares will be treated as income from sources outside the United States and will generally constitute passive income. Further, in certain circumstances, if you:

have held Global Depository Shares or shares for less than a specified minimum period during which you are not protected from risk of loss, or

are obligated to make payments related to the dividends,

you will not be allowed a foreign tax credit for foreign taxes imposed on dividends paid on Global Depository Shares or shares. The rules governing the foreign tax credit are complex. Investors are urged to consult their tax advisors regarding the availability of the foreign tax credit under their particular circumstances.

To the extent that the amount of any distribution exceeds our current and accumulated earnings and profits for a taxable year, as determined under United States federal income tax principles, the distribution will first be treated as a tax-free return of capital, causing a reduction in the adjusted basis of the Global Depository Shares or shares (thereby increasing the amount of gain, or decreasing the amount of loss, to be recognized by you on a subsequent disposition of the Global Depository Shares or shares), and the balance in excess of adjusted basis will be taxed as capital gain recognized on a sale or exchange. Consequently, such distributions in excess of our current and accumulated earnings and profits would generally not give rise to foreign source income and you would generally not be able to use the foreign tax credit arising from any Argentine withholding tax imposed on such distributions unless such credit can be applied (subject to applicable limitations) against United States federal income tax due on other foreign source income in the appropriate category for foreign tax credit purposes. However, we do not expect to keep earnings and profits in accordance with United States federal income tax principles. Therefore, you should expect that a distribution will generally be treated as a dividend (as discussed above).

Taxation of Capital Gains

Subject to the discussion under *Passive Foreign Investment Company Rules* below, upon the sale, exchange or other disposition of shares or Global Depository Shares, you generally will recognize capital gain or loss equal to the difference between the United States Dollar value of the amount realized upon the sale, exchange or other disposition and the adjusted tax basis of the shares or Global Depository Shares, determined in United States Dollars. The capital gain or loss will be long-term capital gain or loss if at the time of sale, exchange or other disposition you have held the shares or Global Depository Shares for more than one year. Capital gains of individuals derived with respect to capital assets held for

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

more than one year are eligible for reduced rates of taxation. The deductibility of capital losses is subject to limitations. Any gain or loss you recognize will generally be treated as United States source gain or loss. Consequently, you may not be able to use the foreign tax credit arising from any Argentine tax imposed on the disposition of a GDS or Share unless such credit can be applied (subject to applicable limitations) against tax due on other income treated as derived from foreign sources.

Table of Contents

Passive Foreign Investment Company Rules

The Company has not made a determination as to whether it is, or may be, a passive foreign investment company (PFIC), for United States federal income tax purposes for the fiscal year ending June 30, 2005. Because the determination of whether we are a PFIC is an annual determination based upon the composition of our assets and income, it is possible that we may be a PFIC in the current year or that we may become a PFIC in the future. The volatility and instability of Argentina's economic and financial system may substantially affect the composition of our income and assets. If we are or become a PFIC, United States holders of our shares or Global Depositary Shares will be subject to certain United States federal income tax rules which will have negative consequences on them such as additional tax and an interest charge upon certain distributions or upon sales or other disposition of our shares or Global Depositary Shares at a gain, as well as reporting requirements.

In general, we will be a PFIC for any taxable year in which, either (i) at least 75% of the gross income of our company for the taxable year is passive income or (ii) at least 50% of the value (determined on the basis of a quarterly average) of our assets is attributable to assets that produce or are held for the production of passive income. For this purpose, passive income generally includes dividends, interest, royalties, rents (other than rents and royalties derived in the active conduct of a trade or business and not derived from a related person), annuities and gains from assets that produce passive income. If we own at least 25% by value of the stock of another corporation, we will be treated for purposes of the PFIC tests as owning a proportionate share of the assets of the other corporation, and as receiving directly a proportionate share of the other corporation's income.

The determination of whether we are a PFIC is made annually. If we are a PFIC for any taxable year during which you hold shares or Global Depositary Shares in our company, unless you make the mark-to-market election discussed below, you will be subject to special tax rules discussed below.

If we are a PFIC for any taxable year during which you hold our shares or Global Depositary Shares, you will be subject to special tax rules with respect to any excess distribution received and any gain realized from a sale or other disposition, including a pledge, of such shares or Global Depositary Shares. Distributions received in a taxable year that are greater than 125% of the average annual distributions received during the shortest of the three preceding taxable years or your holding period for the equity interests will be treated as excess distributions. Under these special tax rules (i) the excess distribution or gain will be allocated ratably over your holding period for the equity interests, (ii) the amount allocated to the current taxable year, and any taxable year prior to the first taxable year in which we were a PFIC, will be treated as ordinary income, and (iii) the amount allocated to each other year will be subject to tax at the highest tax rate in effect for that year and the interest charge generally applicable to underpayments of tax will be imposed on the resulting tax attributable to each such year.

In addition, non-corporate U.S. Holders will not be eligible for reduced rates of taxation on any dividends received from us prior to January 1, 2009, if we are a PFIC in the taxable year in which such dividends are paid or in the preceding taxable year.

In certain circumstances, in lieu of being subject to the excess distribution rules discussed above, you may make an election to include gain on the stock of a PFIC as ordinary income under a mark-to-market method provided that such stock is regularly traded on a qualified exchange. Under current law, the mark-to-market election is only available for stock traded on certain designated United States exchanges and foreign exchanges which meet certain trading, listing, financial disclosure and other requirements to be treated as a qualified exchange under applicable United States Treasury regulations. Consequently, the mark-to-market election may be available to you with respect to the Global Depositary Shares because the Global Depositary Shares will be listed on the NASDAQ, which constitutes a qualified exchange under the regulations, although there can be no assurance that the Global Depositary Shares will be regularly traded. You should note that only the Global Depositary Shares and not the shares are listed on the NASDAQ. The shares are listed on the Buenos Aires Stock Exchange. Consequently, the Buenos

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Aires Stock Exchange would need to meet the trading, listing, financial disclosure and other requirements of the United States Treasury regulations. The Global Depositary Shares or shares would need to be regularly traded on such exchanges in order for the Global Depositary Shares or shares to be potentially eligible for the mark-to-market election.

Table of Contents

If we are a PFIC in any taxable year in which you hold our shares or Global Depositary Shares, but you do not make a mark-to-market election until a subsequent taxable year, you will be subject to special rules in the taxable year of the election. You should consult your own tax advisors regarding the application of the mark-to-market election in your particular situation.

If you make an effective mark-to-market election, you will include in income each year as ordinary income, rather than capital gain, the excess, if any, of the fair market value of your PFIC shares or Global Depositary Shares at the end of the taxable year over your adjusted tax basis in the shares or Global Depositary Shares and will be permitted an ordinary loss in respect of the excess, if any, of the adjusted basis of such shares or Global Depositary Shares over their fair market value at the end of the taxable year, but only to the extent of the net amount previously included in income as a result of the mark-to-market election. Your basis in the shares or Global Depositary Shares will be adjusted to reflect any such income or loss amounts. Any gain or loss on the sale of the shares or Global Depositary Shares will be ordinary income or loss, except that such loss will be ordinary loss only to the extent of the previously included net mark-to-market gain.

If you make a mark-to-market election it will be effective for the taxable year for which the election is made and all subsequent taxable years unless the shares or Global Depositary Shares are no longer regularly traded on a qualified securities exchange or the Internal Revenue Service (IRS) consents to the revocation of the election. Mark-to-market inclusions and deductions will be suspended during taxable years in which are not a PFIC, but would resume if they subsequently become a PFIC. You are urged to consult your own tax advisor about the availability of making such a mark-to-market election.

Alternatively, a United States Holder of shares or Global Depositary Shares in a PFIC can sometimes avoid the rules described above by electing to treat the company as a qualified electing fund under Section 1295 of the Code. This option is not available to you because we do not intend to comply with the requirements necessary to permit you to make this election.

A United States Holder who owns shares or Global Depositary Shares during any year that we are a PFIC must file IRS Form 8621.

You should consult your own tax advisors concerning the United States federal income tax consequences of holding the shares or Global Depositary Shares if we are considered a PFIC in any taxable year.

Argentine Personal Assets Taxes

Amounts paid on account of the Argentine Personal Assets Taxes, if any, will not be eligible as a credit against your United States federal income tax liability, but may be deductible subject to applicable limitations in the Code.

Information Reporting and Backup Withholding

In general, information-reporting requirements will apply to distributions on shares or Global Depositary Shares and to the proceeds of sale of a share or GDS paid to you within the United States (and in certain cases, outside the United States), unless you are an exempt recipient (such as a corporation). Backup withholding may apply to such payments if you fail to provide a correct taxpayer identification number or certification of

foreign or other exempt status or fail to report in full dividend and interest income.

Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against your United States federal income tax liability provided you furnish the required information to the IRS.

Argentine Taxation

The following discussion is a summary of certain Argentine tax considerations associated with an investment in, ownership or disposition of, the shares or the Global Depositary Shares by an individual

Table of Contents

holder that is not domiciled or resident in Argentina and a legal entity that is not organized under the laws of Argentina and does not have a permanent establishment in Argentina or is not otherwise doing business in Argentina on a regular basis (a Foreign Holder). The discussion is for general information only and is based on current Argentine tax laws. Moreover, while this summary is considered to be a correct interpretation of existing laws in force as of the date of this 20-F Form, no assurance can be given that the courts or administrative authorities responsible for the administration of such laws will agree with this interpretation or that changes in such laws or interpretations will not occur. **PROSPECTIVE INVESTORS ARE URGED TO CONSULT THEIR OWN TAX ADVISOR REGARDING THE PARTICULAR TAX CONSEQUENCES ARISING UNDER ANY TAXING JURISDICTION.**

Taxation of Dividends

Dividends, either in cash, shares or kind approved by our shareholders are currently exempt from Argentine withholding or other taxes.

Notwithstanding the foregoing, according to Argentine law, income tax will be applied to the amount of dividends distributed in excess of a company's net taxable income determined in accordance with general income tax regulations for the fiscal years preceding the date of the distribution of such dividends. The legislation requires that companies withhold 35% of the amount of distributed dividends in excess of the net taxable income of such distribution, as determined in accordance with the income tax law. The withholding would not be applied to the payment of future dividends derived out of retained earnings obtained in the fiscal years ended prior to December 30, 1998. Dividends distributed by an Argentine company are not subject to this tax to the extent that those dividends arise from dividend income or other distributions received by such company from other Argentine companies.

Taxation of Capital Gains

Pursuant to Decree No. 2,284/91 gains on sales or other dispositions of shares or Global Depositary Shares by non-resident individuals and foreign entities without a permanent establishment in Argentina are currently exempt from income tax. Notwithstanding, if the foreign entity qualifies as an Offshore Taxable Entity and shares or Global Depositary Shares are not listed, sales or other dispositions of such shares or Global Depositary Shares are taxable at the rate of 17,5%.

An Offshore Taxable Entity is a foreign entity without permanent establishment in Argentina which (i) pursuant to its bylaws or to the applicable regulatory framework has its principal investing activity outside the jurisdiction of its incorporation and/or (ii) cannot perform in the jurisdiction of its incorporation certain transactions and/or investments expressly indicated in its bylaws or in the applicable regulatory framework.

Gains on sales or other dispositions of listed shares or Global Depositary Shares by resident individuals are currently exempt from taxation. In the case of non-listed shares or Global Depositary Shares its sale or other dispositions are taxable at the rate of 9% up to 15%, but the losses generated by such transactions may only be offset against income from the same type of transactions.

Gains on the sale or other dispositions of shares or Global Depositary Shares by Argentine entities are subject to Argentine income tax at the fixed rate of 35% but the losses generated by such transaction may only be offset against income from the same type of transactions.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Notwithstanding the foregoing, on July 3, 2003, the Attorney of the Argentine Republic Treasury has passed Judgment No. 351/03 in which interprets that, as from the enactment of Law No. 25,556, the provisions of the income tax law that taxed capital gains arising from unlisted shares obtained by resident individuals or Offshore Taxable Entities are no longer in force because they have been implicitly abrogated. No assurance can be given on the applicable regime, as of today, no official interpretation of this judgment has been done.

WE RECOMMEND PROSPECTIVE INVESTORS TO CONSULT THEIR OWN TAX ADVISOR REGARDING THE PARTICULAR TAX CONSEQUENCES CONCERNING THE SALE OR OTHER DISPOSITIONS OF THE SHARES OR GLOBAL DEPOSITARY SHARES.

Table of Contents

Value Added Tax

The sale, exchange, disposition, or transfer of shares or Global Depositary Shares is not subject to Value Added Tax.

Personal Assets Tax

Law No. 25,585 issued on April 24, 2002 and published in the Official Gazette on May 15, 2002 (and applicable to personal assets held as of December 31, 2002) introduces amendments to Law No. 23,966 and imposes the personal assets tax on shares and Global Depositary Shares held by individuals and undivided estates domiciled or located in Argentina or abroad and legal entities not domiciled in Argentina, separately from other assets.

This amendment imposes the obligation to pay the personal assets tax on the Argentine private issuer of the shares and Global Depositary Shares, and authorizes it to seek recovery of the amount so paid, without limitation, by way of withholding or by foreclosing on the assets that gave rise to such payment. The tax is levied on the proportional equity value of the shares as reflected in the most recent balance sheet closed as of December 31 of the taxable year, at the rate of 0.5% without any non-taxable minimum being applicable.

At the Shareholder's Ordinary and Extraordinary General Meeting held on October 22, 2004, the shareholders approved taxes on personal assets and the absorption of such tax by the Company for the years 2002 and 2003.

There can be no assurance that in the future this tax will be absorbed by the Company.

Tax on Minimum Notional Income (Impuesto a la Ganancia Mínima Presunta, IGMP)

Companies domiciled in Argentina, partnerships, foundations, sole proprietorships, trusts, certain mutual funds organized in Argentina, and permanent business establishments owned by foreign persons, among other taxpayers, shall apply a 1% rate to the total value of assets held by such persons, above an aggregate nominal amount of Ps. 200,000. Nevertheless, shares and Global Depositary Shares issued by entities subject to such tax, are exempt from paying the IGMP.

Gross Revenue Tax

The gross income tax is local in nature; therefore, the rules of the relevant provincial jurisdiction should be considered, which may levy this tax on the purchase and sale of shares and/or the collection of dividends. In the particular case of the City of Buenos Aires, any transaction involving shares and/or the collection of dividends and revaluations is exempt from this tax.

There is no gross income tax withholding system applicable to the payments made to foreign beneficiaries. Those investors who customarily perform, or who are deemed to perform, transactions in any jurisdiction in which they obtain their income from the sale of shares and/or the collection of dividends are subject to this tax at rate of 3%, unless an exemption is applicable to them.

Stamp Tax

The stamp tax is a local tax that is generally levied on the instrumentation of onerous acts executed within a certain territorial jurisdiction or outside a certain territorial jurisdiction but with effects in such jurisdiction.

In the City of Buenos Aires, the stamp tax has been repealed for all those acts that do not imply an onerous conveyance of real property. However, most provincial tax authorities maintain this tax in effect for all acts in general; therefore, the instruments which implement onerous transactions (including issuance, subscription, placement and transfer) involving the shares or Global Depositary Shares, executed in other jurisdictions, or with effects in those jurisdictions, could be deemed to be subject to this tax.

Table of Contents

Court and Other Taxes

In the event that it becomes necessary to institute legal actions in relation to the shares or Global Depositary Shares in Argentina, a court tax (currently at a rate of 3.0%) will be imposed on the amount of any claim brought before the Argentine courts sitting in the City of Buenos Aires.

Argentina imposes neither an estate nor gift tax on a decedent, donor, legatee or donee. No Argentine tax is imposed on the deposit or withdrawal of shares in exchange for Global Depositary Shares. Other than the taxes discussed above, no other Argentine taxes are applicable to an investment in shares or Global Depositary Shares. At present, there is no national tax specifically applicable to the transfer of securities.

Tax Treaties

Argentina has entered into tax treaties with several countries. There is currently no tax treaty or convention in effect between Argentina and the United States.

This section is not applicable.

ITEM 11. Quantitative and Qualitative Disclosures About Market Risk

Market risk represents the risk of loss that may impact our consolidated financial position, results of operations or cash flows due to adverse changes in financial and commodity market prices and interest rates. We are exposed to market risk in the areas of interest rates and foreign currency exchange rates. This discussion contains forward-looking statements that are subject to risks and uncertainties. Actual results could vary materially as a result of a number of factors. Uncertainties that are either nonfinancial or nonquantifiable, such as political, economic, tax, other regulatory or credit risks, are not included in the following assessment of our market risks.

Interest Rate Risk

Our exposure to market risk associated with changes in interest rates is limited to our current investments and variable-rate debt.

We place our cash and current investments in high quality financial institutions in the United States, Europe and Argentina. Our policy is to limit exposure with any individual institution. Our investment portfolio primarily consists of income securities and local market stocks. As of June 30, 2005 we had cash

Table of Contents

and cash equivalents (money market funds and time deposits) of Ps. 123 million and marketable securities (Tbills and Notes in pesos) totaling Ps. 88.9 million. In view of the nature of our total portfolio, a 100 BPs parallel shift movement in the interest rate curve would not have a significant impact on the total value of our portfolio as of June 30, 2005.

We are exposed to changes in interest rates primarily as a result of our borrowing activities, which include short-term borrowings, and other floating-rate long-term debt used to maintain liquidity and fund our business operations. The instruments' actual cash flows are denominated in U.S. Dollars. Our interest expense is sensitive to changes in the general level of interest rates because most of our long-term debt -floating rate note and syndicated loan- arrangements bear interest at floating rates. In order to fix our interest rate expenses in June 2005 we contracted two interest rate swaps with Deutsche Bank AG. Both of them are exact mirrors of FRN and syndicated loan schedules. Due to the swaps we shall pay a fixed rate of 4.27% receiving from Deutsche Bank Libor 3 m. However, on October 24, 2005 we canceled the swap agreement, receiving US\$ 0.4 million representing the fair market value of the swap at the termination date.

Based on the nature and current levels of our long-term debt, however, we have concluded that:

- An immediate 100 BPs shift change in the interest rates would not have a material effect on the cash flow expense value of our Convertible Note debt because it bears a fixed rate interest. It would not have an important effect in the present value neither because the convertibility condition and warrant optionality are deep in the money. Its intrinsic value is 3.28 US\$ per 1 US\$ face value. Due to this fact its present value is not sensitive to interest rate curve movements.

- An immediate and unique 100 BPs shift change in the Libor 3 m would have an increase of 984.000 US\$ total FRN interest expenses and 603.400 US\$ in total syndicated loan interest payments.

For debt obligations, the following table presents principal cash flows and related weighted average interest rates by expected maturity dates. The information is presented in U.S. Dollars.

Liabilities	June 30, 2005						TOTAL
	Expected Maturity Date						
	(US\$ Equivalent in million)						
	FY2006	FY2007	FY2008	FY2009	FY2010	FY2011	
Fixed Rate (US\$) ⁽¹⁾	49.07	87.36					136.43
Average interest rate	10%	8%					
Fixed Rate (Pesos)							
Average interest rate							
Floating Rate (US\$) ⁽²⁾	15.63	9.06	12.08	18.11	12.08		66.95
Average interest rate ⁽³⁾	5.73%	6.01%	6.06%	6.13%	6.22%		

⁽¹⁾ Includes IRSAs and APSAs Convertible Notes.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

- (2) It Includes US\$ 11.1 million loan of our subsidiary Hoteles Argentinos. In January 2001, our subsidiary Hoteles Argentinos S.A., holder of 100% of the Hotel Sheraton Libertador, obtained a loan of US\$ 12.0 million from BankBoston N.A. This loan expires in January 2006 and accrues a quarterly interest at the LIBOR plus a markup ranging between 401 and 476 basis points, according to the value of certain financial indicators. This loan was not converted to Pesos and is stated in U.S. Dollars because it is governed by the laws of the State of New York. There are currently installments of the principal and interest that are overdue and unpaid. As of the date of this filing, we are negotiating the terms of payments of this liability with Credit Suisse First Boston., the current owner of the loan. This loan was not converted into Pesos and it is stated in U.S. Dollars because it is governed by the laws of the State of New York. There are currently installments of the principal and interest that are overdue and unpaid. This loan is with no recourse to us. On March 2005, Credit Suisse First Boston acquired 100% of the debt Hoteles Argentinos had Ritelco S.A. paying a total amount of US\$ 8.0 million.
- (3) The FRN and Syndicated loan pays a spread over LIBOR of 200 BPs. The average interest rate was estimated from implied forward rates.

Table of Contents

As a matter of policy, we use derivative instruments only to minimize our financing costs. However, there can be no assurance that such risks would be managed in the future through a variety of strategies, including the use of hedging transactions.

At June 30, 2005, our subsidiary company Ritelco had outstanding futures and options as follows:

<u>Crop</u>	<u>Contracts</u>	<u>Maintenance Margin Requirement as of 06/30/05 (Ps.000)</u>	<u>Average Long Price (US\$)</u>	<u>Fair Market Value Open Position as of 06/30/05 (Ps.000)</u>	<u>Market Value Loss of Open Position (Gain) as of 06/30/05 (Ps.000)</u>
FUTURES					
Purchase					
Silver	35	358	7.075	3,574	89
Total	35	358	7.075	3,574	89

The figures were converted to U.S. Dollar at an exchange rate of Ps. 2.887 per Dollar.

The deposit margin on open futures as of June 30, 2005 were Ps.358,000 and futures market value open position were Ps. 3.6 million generating an unrealized loss of Ps. 89,000. A one cent upward in futures prices would imply an unrealized profit of Ps. 5,000.

The fair value of our futures contracts is determined calculating the market value of futures contracts and the margin deposits of these contracts. We do not use valuation models and none of the happened changes in fair market value is consequence of changes in valuation method.

Foreign exchange exposure

We carry out all of our business in Pesos. Accordingly, our earnings are subject to exposure from adverse movements in currency exchange rates primarily related to our U.S. Dollar-denominated debt.

Historically, volatility has been caused by currency devaluation, among other factors. Most of these factors have occurred at various times in the last two decades in Argentina.

From April 1, 1991, until the beginning of year 2002, the Convertibility Law No. 23,928 was applicable in Argentina. This law established a fixed exchange rate, under which the Argentine Central Bank was forced to sell U.S. Dollars to any person at a fixed rate of Ps. 1.00 per US\$ 1.00. Accordingly, the foreign currency fluctuations were reduced to a minimum level during this period.

The primary economic change implemented by the current Argentine government in January 2002 was the announcement of the devaluation of the Peso. Most of our lease contracts and most of our liabilities were denominated in U.S. Dollars. Decree No. 214/02 and Decree No. 762/02 mandatorily converted into pesos, all monetary obligations in U.S. Dollars entered into between parties under Argentine Law. Consequently, all of our leases were *pesified* at a one-to-one exchange rate and, additionally, inflation adjusted by the CER index. On the other hand, most of our debt obligations, which are governed by the laws of the State of New York, remained U.S. Dollar-denominated.

Due to the end of Convertibility Plan, our foreign exchange exposure has increased considerably. Currently most of our revenues are derived from our operations in Argentina and foreign exchange volatility will probably affect our Peso-denominated revenues, making it more burdensome for us to pay our U.S. Dollar-denominated debt.

Foreign currency exchange fluctuations may additionally affect the risk of default on our mortgage receivables, leases and services and other receivables, as any of our customers that have Peso-denominated

Table of Contents

revenue streams may experience a relative increase in their U.S. Dollar-denominated liabilities compared to their Peso-denominated revenues. Foreign currency exchange restrictions hereafter imposed by the Argentine government could prevent or restrict our access to U.S. Dollars, affecting our ability to service our U.S. Dollar-denominated liabilities.

Our hedging strategies may prove ineffective to address the effects of interest rate or foreign currency exchange movements on our financial condition. We have experienced net hedging losses in the past, and we could experience such losses in the future to the extent that interest rates or foreign exchange rates shift in excess of the risk covered by hedging arrangements. In entering into interest rate and foreign currency contracts, we bear the credit risk of counterparties being unable to meet the terms of their contracts; and we may be unable to recover damages from any such defaulting counterparty through legal enforcement actions due to laws affording bankruptcy or protection to insolvent obligors, foreign laws limiting cross-border enforcement actions or otherwise.

We have entered into foreign currency forward exchange contracts with maturities of one year or less. Consistent with our risk management policy, we have used foreign currency forward exchange contracts as a supplement to reduce our overall borrowing costs. The forward foreign exchange contracts are recognized in our Consolidated Financial Statements at their fair value. At June 30, 2005, we had no outstanding foreign currency forward contracts.

Based on our historical foreign currency rate movements, we do not believe that reasonably possible near-term changes in foreign currency will result in a material effect on our future earnings, fair values or cash flows.

The foreign exchange net gain during fiscal year 2005 was Ps. 4.0 million.

Due to an important part of our income stream is basically in pesos we are exposed to foreign exchange risk by our liabilities:

Liabilities	June 30, 2005						
	Expected Maturity Date						
	(US\$ Equivalent in million)						
	FY2006	FY2007	FY2008	FY2009	FY2010	FY2011	TOTAL
Fixed Rate (US\$) ⁽¹⁾	49.07	87.36					136.43
Average interest rate	10%	8%					
Floating Rate (US\$) ⁽²⁾	15.63	9.06	12.08	18.11	12.08		66.95
Average interest rate ⁽³⁾	5.73%	6.01%	6.06%	6.13%	6.22%		

⁽¹⁾ Includes IRSAs and APSAs Convertible Notes.

⁽²⁾ It Includes US\$ 11.1 million loan of our subsidiary Hoteles Argentinos. In January 2001, our subsidiary Hoteles Argentinos S.A., holder of 100% of the Hotel Sheraton Libertador, obtained a loan of US\$ 12.0 million from BankBoston N.A. This loan expires in January 2006 and accrues a quarterly interest at the LIBOR plus a markup ranging between 401 and 476 basis points, according to the value of certain

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

financial indicators. This loan was not converted to Pesos and is stated in U.S. Dollars because it is governed by the laws of the State of New York. There are currently installments of the principal and interest that are overdue and unpaid. As of the date of this filing, we are negotiating the terms of payments of this liability with Credit Suisse First Boston., the current owner of the loan. This loan was not converted into Pesos and it is stated in U.S. Dollars because it is governed by the laws of the State of New York. There are currently installments of the principal and interest that are overdue and unpaid. This loan is with no recourse to us. On March 2005, Credit Suisse First Boston acquired 100% of the debt Hoteles Argentinos had Ritelco S.A. paying a total amount of US\$ 8.0 million.

- ⁽³⁾ The FRN and Syndicated loan pays a spread over LIBOR of 200 BPs. The average interest rate was estimated from implied forward rates.

ITEM 12. Description of Other than Equity Securities

This item is not applicable.

PART II

ITEM 13. Defaults, Dividend Arrearages and Delinquencies

Pursuant to a restructuring and reorganization plan we set forth the necessary measures to restore the liquidity position of our company. Consequently, we are currently in payment of our outstanding debts.

Hoteles Argentinos S.A. mortgage loan

In January 2001 our subsidiary Hoteles Argentinos S.A. (HASA), owner of 100% of the Sheraton Libertador, obtained a loan from Bank Boston N.A. for US\$ 12.0 million. Subsequently, Bank Boston N.A. sold this loan to Marathon Master Fund Ltd. This loan is due in January 2006 with interest being payable quarterly at Libor plus a spread ranging between 401 and 476 basis points, depending on the value of certain financial ratios. This loan was not converted into Pesos and it is stated in U.S. Dollars because it is governed by the laws of the State of New York. There are currently installments of the principal and interest that are overdue and unpaid. On December 16, 2004 our wholly-owned subsidiary Ritelco S.A. acquired 100% of the debt Hoteles Argentinos had with Marathon Master Fund, Ltd. Ritelco S.A. paid a total amount of US\$ 8.0 million. On March 23, 2005 Ritelco S.A. sold to CSFB the loan agreement for US\$ 8 million in cash and we entered into an agreement with CSFB pursuant to which, among other things, we guarantee the payment of the debt owed by HASA once the debt is restructured, and in the event of non-compliance we shall repurchase the loan agreement for US\$ 8.0 million. As guarantee for this transaction, we made a payment of US\$ 2.0 million to CSFB which is disclosed as a collateral deposit within Other receivables and prepaid expenses, net in our consolidated balance sheet. In connection with the restructuring process being carrying out, HASA must present a restructuring plan of the collateralized loan prior to March 15, 2006. The debt owed by HASA has been valued at US\$ 8.0 million in our consolidated balance sheet

Neuquén Project

On July 6, 1999 APSA acquired 94.6% ownership of Shopping Neuquén S.A. for Ps. 4.2 million. APSA paid Ps. 0.9 million on September 1, 1999 and the remaining Ps. 3.3 million were originally scheduled to be paid on or before July 5, 2001 or at the completion of the construction of the shopping center, whichever happened first. We clarify that said amounts are in Pesos according to the emergency legislation in force. See Item 3.D. Risks Factors . However, Shopping Neuquén S.A. s former shareholders have challenged the constitutionality of such legislation, and no final decision has been issued. As of November 30, 2005 the purchase price balance remains unpaid.

Shopping Neuquén S.A. s sole asset is a plot of land of approximately 50,000 square meters on which a shopping center is proposed to be built. The proposed project contemplates the building of a shopping center, a hypermarket, a hotel and a housing complex none of which have been commenced.

Legal issues with Shopping Neuquén S.A.'s former shareholders

On August 15, 2003 APSA was informed that the former shareholders of Shopping Neuquén S.A., who had a 85.75% interest, filed a complaint against APSA seeking recovery of the purchase price balance, interest and legal costs. In September 2003, APSA answered the complaint opposing several defenses such as, plaintiffs' non-compliance with their duties under the contract and the pesification of the purchase price balance according to the emergency legislation. Moreover, APSA filed a counterclaim alleging there should be a readjustment of the effects of the contract which became excessively burdensome for unforeseeable reasons given the 2001 economic, social and political crisis. In November 2003 the plaintiffs replied to APSA's counterclaim alleging that the payment under the purchase

Table of Contents

agreement was overdue before the economic and social crisis emerged and thus APSA's contract readjustment claim was inadmissible. As of November 30, 2005 the trial is under discovery stage.

Legal issues with the Municipality of Neuquén

In June 2001 Shopping Neuquén S.A. filed a request with the Municipality of Neuquén to extend the construction deadlines that had been originally scheduled. In addition, it requested authorization to convey certain plots of land to third parties so that each participant to the Neuquén project would be able to build on his own land. On December 20, 2002 the Municipality of Neuquén issued Decree 1437/02 denying both requests. In addition, it declared that the rights under Ordinance 5178 had lapsed and that the land purchase agreements would be terminated. As a result, the improvements already performed by Shopping Neuquén S.A. would be lost and accrued in favor of the Municipality of Neuquén, leaving Shopping Neuquén S.A. with no right to compensation.

On January 21, 2003 Shopping Neuquén S.A. submitted its response to the Decree 1437/02 requesting its revocation. It also requested permission to submit a new construction timetable, which would be prepared in accordance with the current situation of the project, including reasonable short and medium term projections. The Municipal Executive issued Decree 585/2003 rejecting this. On June 25, 2003 Shopping Neuquén S.A. filed an administrative action with the Supreme Court of Neuquén requesting the annulment of Decrees 1437/2002 and 585/2003. On December 21, 2004, the Supreme Court of Neuquén ruled in favor of the Municipality of Neuquén, declaring that the administrative action filed by Shopping Neuquén S.A. had expired. The decision, however, is not final. APSA filed an appeal but the Supreme Court of Neuquén has not yet issued a decision with regards to its admissibility. If the appeal is declared admissible the Federal Supreme Court will give a final decision, but if it is declared inadmissible APSA will file an appeal directly with the Federal Supreme Court.

Shopping Neuquén S.A. is currently seeking to negotiate with the Municipality of Neuquén the terms of an agreement that might permit reactivation of the proposed development. Nevertheless, we cannot give you any assurance that APSA will be able to achieve such an agreement on commercially reasonable terms, if at all, and if APSA cannot, the Municipality of Neuquén would be entitled to request the restitution of the property and APSA will likely lose all or substantially all of its investment which amounts to Ps. 10 million.

We maintain a provision of Ps. 2.3 million which represents our best estimate of the probable loss to be incurred in connection with these claims.

ITEM 14. Material Modifications to the Rights of Security Holders and Use of Proceeds

A. Fair Price Provision

At our annual meeting held on October 30, 2000, our shareholders approved an amendment to our bylaws which included the adoption of a fair price provision (the "Fair Price Provision"). On March 8, 2002 our shareholders decided to make a new amendment to Article Nine of our bylaws including, among others, an increase in the minimum percentage of capital obliged to comply with the Fair Price Provision, from twenty percent (20%) to thirty five percent (35%), according to Decree No. 677/2001. The following description is a summary of the main provisions of the Fair Price Provision, which constitutes Article Nine of our bylaws and does not contain a description of all of the terms of the Fair Price Provision. The Fair Price Provision prohibits a party seeking to acquire, directly or indirectly, either control or (together with such party's other holdings) thirty five percent (35%) or more of our capital stock without complying with the procedural and price requirements described below. Acquisitions made in violation of the Fair Price Provision are deemed ineffective against us and will not be registered in our share registry. Shares acquired in violation of the Fair Price Provision shall have no voting or equity rights until the Fair Price Provision has been complied

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

with. The Fair Price Provision applies to transactions involving shares of our common stock and any securities convertible in shares of our common stock, including, without limitation, convertible debentures and bonds and our global depositary receipts (GDRs). The Fair Price Provision excludes certain acquisitions of shares in certain limited circumstances.

Table of Contents

The Fair Price Provision provides that a party seeking to acquire, directly or indirectly, control of our company or thirty five percent (35%) or more of our capital stock shall be required to make a public tender offer for all of the outstanding common stock of us and any shares of common stock into which outstanding securities of our company are presently convertible or exchangeable in accordance with the procedural and price terms of the Fair Price Provision and in accordance with applicable law. For purposes of the thirty five percent threshold contained in the Fair Price Provision parties acting in concert or which are under common control or administration are deemed a single party.

There are cases excluded from the tender offer requirements:

acquisitions by persons holding or controlling shares or convertibles securities which represent more than 50% of our capital stock, notwithstanding the provisions of the Comisión Nacional de Valores; and

holdings of more than 35%, which derive from the distribution of shares or dividends paid in shares approved by the shareholders, or the issuance of shares as a result of a merger approved by the shareholders; in both cases, the excess holding shall be disposed of within 180 days of its registration in the relevant shareholder's account, or prior to the holding of our shareholders meeting, whatever occurs first.

The Fair Price Provision requires the offering party to notify use of the tender offer simultaneously with its filing of the public tender offer with the Comisión Nacional de Valores. The notice to us is required to set forth all of the terms and conditions of any agreement that the offering party has made with any other of our shareholders with respect to the proposed transaction and to provide, among other things, the following information:

the identity and nationality of the offering party and, in the event the offer is made by a group, the identity of each member of the group;

the terms and conditions of the offering, including the price, the tender offer period and the requirements for accepting the tender offer;

accounting documentation required by Argentine law relating to the offering party;

details of all prior acquisitions by the offering party of shares or securities convertible into shares of our capital stock.

We will distribute the information provided by the offering party to our shareholders.

The Comisión Nacional de Valores regulations require that transactions which cause a person's holdings of capital stock of a registered Argentine company, to hold 5% or more of the voting power, should be immediately notified to the Comisión Nacional de Valores. Thereafter, every change in the holdings that represents a multiple of 5% of the voting power should also be notified.

The Fair Price Provision requires that the consideration paid in the tender offer be paid in cash and that the price paid for each share in the tender offer be the same and not less than the highest price per share derived from the five following alternative valuation methods:

the highest price per share of our common stock paid by the offering party, or on behalf of the offering party, for any acquisition of shares or convertible securities within the 2 years prior to the commencement of the tender offer;

the highest closing selling price of a share of our common stock on the Bolsa de Comercio de Buenos Aires during the thirty day period immediately preceding the commencement of the tender offer;

Table of Contents

the highest price resulting from the calculations made according to the provisions of (i) and (ii) above multiplied by a fraction the numerator of which is such highest price and the denominator of which is the lowest closing price of a share of our common stock on the Bolsa de Comercio de Buenos Aires during the two-year period prior to the period referred to in sub-sections (i) or (ii), as applicable;

our aggregate net earnings per share during our preceding four completed fiscal quarters prior to the commencement of the tender offer, multiplied by our highest price to earnings ratio during the two-year period immediately preceding the commencement of the tender offer. Such multiples shall be determined considering the average closing selling price of our common stock on the Bolsa de Comercio de Buenos Aires, and our aggregate net income from our preceding four completed fiscal quarters; and,

the book value per share of our common stock at the time the tender offer is commenced, multiplied by the highest ratio determined by a fraction the numerator of which is the closing selling price of a share of our common stock on the Bolsa de Comercio de Buenos Aires on each day during the two year period prior to the commencement of the tender offer and the denominator of which is the latest known book value per share of our common stock on each such date.

B. Limitations on the payment of dividends.

The Company is temporarily restricted in the distribution of dividends due to the financial commitments assumed in its debt restructuring. Under the Unsecured Loan Agreement for US\$ 51 million, the Company: (i) shall not be able to pay dividends or make any distribution or repurchase of debt or shares except for restricted payments from our subsidiaries to us , (ii) restricted payments can be made as long as no event of default shall have occurred and be continuing or would occur as a consequence thereof, and no breach of the financial covenants shall have occurred in the calculation period immediately preceding the proposed date of such restricted payment.

The Fourth Supplemental Indenture that governs the terms of the Series 03 Secured Notes due 2009 for US\$ 37.4 million contains the same restrictions on the payment of dividends, although limited to the existence of outstanding Series 03 Secured Notes due 2009.

As from fiscal year 2003 we reported profits each year, although owing to the restrictions arising from our debt instruments we were prevented from distributing dividends. See Item 8 A. Dividend policy .

C. This section is not applicable.

D. This section is not applicable.

E. This section is not applicable.

ITEM 15. Controls and Procedures

(a) Disclosure Controls and Procedures

As of the end of fiscal 2005, we carried out an evaluation of the controls and procedures of our company with the participation of our Chief Executive Officer and Chief Financial Officer to determine the effectiveness of our disclosure controls and procedures. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective in all material respects to ensure that the information we file and submit under the U.S. Securities and Exchange Act of 1934 is recorded, processed, summarized and reported as and when required.

Table of Contents

Furthermore, the evaluation found no significant changes in our internal controls that materially affected, or are reasonably likely to materially affect our internal controls.

ITEM 16.

A. Audit Committee Financial Expert

Pursuant to the System governing the Transparency of Public Offers established through Decree No. 677/01, the rules of the *Comisión Nacional de Valores* (Resolutions No 400 and 402), the board of directors established that the Audit Committee shall be a Committee of the Board of Directors on May 27, 2004. The Audit Committee focuses on assisting the board in exercising its duty of care, the enforcement of the accounting policies, disclosure requirements, the management of our business risk, the management of our internal control systems, the ethical conduct of the company's business, the maintenance of the integrity of our financial statements, compliance with legal provisions, the independence and capability of our independent auditor and the performance of our internal audit function and of our external auditors.

On December 21, 2005, the board appointed Mario Blejer and Ricardo Esteves as members of the audit committee. Cedric Bridges, the third member, was previously appointed on May 27, 2004. The board of directors named Mario Blejer as the audit committee's financial expert according to the rules adopted by the SEC. Consequently, as of December 21, 2005, Mario Blejer is both a financial expert, as defined by NYSE regulations, and an independent audit committee member, as defined by NYSE regulations. Therefore, as of December 21, 2005, our Audit Committee is comprised of fully independent members, in accordance with NYSE regulations.

16 B. Code of Ethics

We have adopted a code of ethics that applies to our directors, officers and employees. Our code of ethics is posted in our website www.irsa.com.ar. On July 25 2005, our Code of Ethics was amended by our board of directors. The amendment was reported in a report on Form 6-K on August 1, 2005.

If we make any substantive amendment to the code of ethics or grant any waivers, including any implicit waiver to any of its provision we will disclose the nature of such amendment or waiver in a report on Form 6-K or in our next annual report and we will post it in our website.

16 C. Main Accountant Fees and Services

Audit Fees

During the fiscal years ended June 30, 2005 and June 30, 2004, we were billed for a total amount of Ps.1.3 million and Ps.0.8 million respectively, for professional services rendered by our principal accountants for the audit of our annual financial statements, performance of the audit or review of our interim financial statements and other services normally provided in connection with regulatory filings or engagements.

Audit-Related Fees

During the fiscal years ended June 30, 2005 and June 30, 2004, we were billed for a total amount of Ps.0.04 million and Ps.0.03 million respectively, for professional services rendered by our principal accountants mainly related to the issuance of covenants certificates and other certifications.

Tax Fees

During the fiscal years ended June 30, 2005 and June 30, 2004, we were billed for a total of Ps.0.06 million and Ps.0.05 million, respectively, amount for professional services rendered by our principal accountants for tax compliance, tax advice and tax planning.

Table of Contents

All Other Fees

During the fiscal years ended June 30, 2005 and June 30, 2004, we were billed for a total amount of Ps.0.04 million and Ps.0.007 million respectively, for professional services rendered by our principal accountants including fees mainly related to special assignments and courses.

As of May 27, 2004, our audit committee approves, in advance, the engagement of auditors and their fees for audit and non audit services pursuant to paragraph (c)(7)(i)(C) of Rule 2 01 of Regulation S X.

Audit Committee Pre-Approval Policies and Procedures

Audit Committee pre-approves all services, fees and services provided by the external auditors to ensure auditors' independence. One of the main tasks of the Audit Committee is to give its opinion in relation to the appointment of the external auditors, proposed by the Board of Directors to the General Shareholders Meeting. In order to accomplish such task, the Audit Committee shall:

Require any additional and complementary documentation related to this analysis.

Verify the independence of the external auditors;

Analyze different kinds of services that the external auditor would provide to the company. This description must also include an estimate of the fees payable for such services, specifically in order to maintain the principle of independence;

Inform the fees billed by the external auditor, separating the services related to the Audit Committee and other special services that could be not included as fees related to the Audit Committee;

Take notice of any strategy proposed by of the external auditors and review it in accordance with the reality other business and the risks involved;

Analyze and supervise the working plan of the external auditors considering the business' reality and the estimated risks;

Propose adjustments (if necessary) to such working plan;

Hold meetings with the external auditors in order to: (a) analyze the difficulties, results and conclusions of the proposed working plan; (b) analyze eventual possible conflicts of interests, related party transactions, compliance with the legal framework and information transparency;

Evaluate the performance of external auditors and their opinion regarding the Financial Statements.

16 D. Exemption from the Listing Standards for Audit Committees

This section is not applicable.

16 E. Purchase of Equity Securities by the Issuer and its Affiliates

This section is not applicable.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of

IRSA Inversiones y Representaciones Sociedad Anónima

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of income, of changes in shareholders equity and of cash flows present fairly, in all material respects, the financial position of IRSA Inversiones y Representaciones Sociedad Anónima and its subsidiaries at June 30, 2005 and 2004, and the results of their operations and their cash flows for each of the three years in the period ended June 30, 2005 in conformity with accounting principles generally accepted in Argentina. These financial statements are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Accounting principles generally accepted in Argentina vary in certain significant respects from accounting principles generally accepted in the United States of America and as allowed by Item 18 to Form 20-F. Information relating to the nature and effect of such differences is presented in Note 23 to the consolidated financial statements.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Consolidated Financial Statements

for the years ended June 30, 2005, 2004 and 2003

(Amounts in thousands, except share data and as otherwise indicated)

1. Organization and description of business

IRSA Inversiones y Representaciones Sociedad Anónima (IRSA), is an Argentine real estate company incorporated under the laws of Argentina which, through its investments in subsidiaries and joint ventures (IRSA and subsidiaries is collectively referred hereinafter as IRSA or the Company), is primarily involved in (i) the acquisition and development of residential properties primarily for sale, (ii) the acquisition, development and operation of office and other non-retail buildings primarily for rental purposes, (iii) the development and operation of shopping center properties, (iv) the acquisition and operation of luxury hotels, (v) the acquisition of undeveloped land reserves either for future development or sale, (vi) e-commerce activities and, (vii) other non-core activities. The Company is the only Argentine real estate company whose shares are listed and traded on both the Buenos Aires Stock Exchange (BASE) and the New York Stock Exchange (NYSE).

2. Preparation of financial statements

a. Basis of presentation

The Consolidated Financial Statements of the Company have been prepared in accordance with generally accepted accounting principles used in Argentina (Argentine GAAP), and the regulations of the *Comisión Nacional de Valores* (CNV), the National Securities Commission in Argentina, which differ in certain respects from generally accepted accounting principles in the United States of America (US GAAP). Such differences involve methods of measuring the amounts shown in the Consolidated Financial Statements, as well as additional disclosures required by US GAAP and Regulations of the Securities and Exchange Commission (SEC). A description of the significant differences between Argentine GAAP and US GAAP as they relate to the Company are set forth in Note 23 to these Consolidated Financial Statements.

As discussed in Notes 2.c. and 3.n., in order to comply with regulations of the CNV, the Company discontinued inflation accounting as from March 1, 2003 as well as recognized deferred income tax assets and liabilities on a non-discounted basis. The application of these CNV regulations represents a departure from generally accepted accounting principles in Argentina. However, such departure has not had a material effect on the accompanying Consolidated Financial Statements.

Amounts included in the Consolidated Financial Statements are expressed in thousands of Argentine Pesos (Ps.), except as otherwise indicated.

b. Principles of consolidation

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

The Consolidated Financial Statements include the accounts of the Company and its subsidiaries over which the Company has effective control. Investments in companies in which the Company exercises significant influence, but not control, are accounted for under the equity method. All significant intercompany balances and transactions have been eliminated in consolidation.

In accordance with Argentine GAAP, the presentation of the parent company's individual financial statements is mandatory. Consolidated Financial Statements are to be included as supplementary information to the individual financial statements. For the purpose of these financial statements, individual financial statements have been omitted since they are not required for SEC reporting purposes.

F-8

(Amounts in thousands, except share data and as otherwise indicated)

2. Preparation of financial statements (continued)**b. Principles of consolidation (continued)**

A description of the subsidiaries over which the Company has or had effective control, with their respective percentage of capital stock owned, is presented as follows:

	Percentage of capital stock owned as of June 30, ⁽ⁱ⁾		
	2005	2004	2003
Controlled companies			
Ritelco S.A. (Ritelco)	100.00%	100.00%	100.00%
Palermo Invest S.A. (Palermo Invest)	66.67%	66.67%	66.67%
Abril S.A. (Abril ⁽ⁱⁱ⁾)	83.33%	83.33%	83.33%
Pereiraola S.A.I.C.I.F. y A. (Pereiraola ⁽ⁱⁱ⁾)	83.33%	83.33%	83.33%
Baldovinos S.A. (Baldovinos ⁽ⁱⁱ⁾)	83.33%	83.33%	83.33%
Hoteles Argentinos S.A. (Hoteles Argentinos)	80.00%	80.00%	80.00%
Buenos Aires Trade & Finance Center S.A. (BAT&FCSA)	100.00%	100.00%	100.00%
Alto Palermo S.A. (APSA ⁽ⁱⁱⁱ⁾)	60.69%	53.81%	54.79%
Llao Llao Resorts S.A. (LLR ^(iv))	50.00%	50.00%	50.00%

(i) Percentage of equity interest owned has been rounded and does not contemplate the effects of the potential conversion of irrevocable contributions into common shares.

(ii) The Company and Palermo Invest each own 50% of the total ownership interest of this subsidiary.

(iii) See Note 2.f. for details of the increase in the ownership interest occurred during the year ended June 30, 2005.

(iv) As a result of the adoption of RT No. 21, the Company started to consolidate LLR during the year ended June 30, 2004. This standard was retrospectively applied for comparative purposes.

c. Presentation of financial statements in constant Argentine pesos

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

On August 22, 1995, the Argentine government issued Decree No. 316/95 discontinuing the requirement that financial information be restated for inflation for any date or period after August 31, 1995. Effective September 1, 1995 in accordance with CNV resolutions and Argentine GAAP, the Company began accounting for its financial transactions on a historical cost basis, without considering the effects of inflation. Prior to September 1, 1995, the financial statements were prepared on the basis of general price level accounting, which reflected changes in purchasing power of the Argentine Peso in the historical financial statements. The financial statement information of periods prior to August 31, 1995 was restated to pesos of general purchasing power as of August 31, 1995. The August 31, 1995 balances, adjusted to the general purchasing power of the Peso at that date, became the historical cost basis for subsequent accounting and reporting.

However, as a result of the inflationary environment in Argentina in 2002, the *Consejo Profesional de Ciencias Económicas de la Ciudad Autónoma de Buenos Aires* (CPCECABA), approved on March 6, 2002, a resolution reinstating the application of inflation accounting in financial statements as from January 1, 2002. This resolution provided that all recorded amounts restated for inflation through August 31, 1995, as well as those arising between that date and December 31, 2001 are to be considered stated in currency as of December 31, 2001.

On July 16, 2002, the Argentine government issued a decree, instructing the CNV to issue the necessary regulations for the acceptance of financial statements prepared in constant currency. On July 25, 2002, the CNV reinstated the requirement to submit financial statements in constant currency.

However, after considering inflation levels for the second half of 2002 and the first months of 2003, on March 25, 2003, the Argentine government repealed the provisions of the previous decree related to the inflation adjustment and instructed the CNV to issue the necessary regulations to preclude companies under its supervision from presenting price-level restated financial statements. Therefore, on April 8, 2003, the CNV issued a resolution providing for the discontinuance of inflation accounting as of March 1, 2003. The Company complied with the CNV resolution and accordingly recorded the effects of inflation until February 28, 2003.

Since Argentine GAAP required companies to discontinue inflation accounting as from October 1, 2003, the application of the CNV resolution represents a departure from generally accepted accounting principles. However, due to the low level of inflation rates during the period from March to September 2003, such a departure has not had a material effect on the accompanying Consolidated Financial Statements.

Table of Contents

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Consolidated Financial Statements

for the years ended June 30, 2005, 2004 and 2003

(Amounts in thousands, except share data and as otherwise indicated)

2. Preparation of financial statements (continued)

d. New accounting and disclosure standard

During 2003 the CPCECABA approved RT No. 21, Equity Method of Accounting, Consolidation of Financial Statements and Related Party Transactions, which became effective to the Company for the fiscal year ended June 30, 2004. The CNV adopted this standard with certain amendments in March 2004. As a result of the adoption of RT No. 21, the Company started to consolidate LLR during fiscal year 2004. As required by the transition provisions, this standard was retrospectively applied for comparative purposes.

e. Reclassifications

Certain reclassifications of prior year information have been made to conform to the current year presentation.

f. Acquisition, disposition and development of businesses

In the preparation of these Consolidated Financial Statements, unless otherwise indicated, the operating results of all acquired businesses have been included in the Company's Consolidated Financial Statements since the date of the respective acquisition.

Year ended June 30, 2005

Purchase of additional shares and convertible notes of APSA

On November 30, 2004, the Company purchased from GSEM/AP, a Goldman Sachs subsidiary, 3,061,450 units of APSA Convertible Notes with a nominal value of US\$ 1 per note and 4,458,080 shares of APSA, for a total consideration of US\$ 15.3 million. At the same time, in accordance with the shareholders agreement entered into with Parque Arauco S.A., the Company sold to Parque Arauco S.A. 1,004,866 units of APSA Convertible Notes and 1,463,284 shares at the same price paid to Goldman Sachs, totaling US\$ 5.1 million. As a result of this transaction, the Company's ownership interest in APSA increased from 53.81% to 60.69%.

Acquisition of Mendoza Plaza Shopping by APSA

On September 29, 2004, APSA entered into a purchase agreement pursuant to which APSA acquired an additional 49.9% ownership interest in Mendoza Plaza Shopping S.A. (formerly Pérez Cuesta S.A.C.I.) (Mendoza Plaza Shopping) for US\$ 5.3 million. APSA paid US\$ 1.77 million on December 2, 2004 and the remaining balance will be paid in two equal annual installments of US\$ 1.77 million each beginning on September 29, 2005. Through this acquisition, APSA became holder of 68.8% of the capital stock of Mendoza Plaza Shopping, the main activity of which is the operation of the Mendoza Plaza Shopping center in the city of Mendoza. APSA also entered into the following contracts in connection with debt owed by Mendoza Plaza Shopping:

(i) Put option with Banco de Chile S.A. (Banco de Chile), whereby Banco de Chile was entitled, although not obliged, to assign to APSA two defaulted credit agreements amounting to US\$ 18 million originally granted to Mendoza Plaza Shopping. As a result of the economic measures issued in Argentina in 2002, these financial agreements had been converted into Argentine pesos at the exchange rate of Ps. 1.0 per US Dollar and indexed based on the reference stabilization index (CER). On March 30, 2005 Banco de Chile executed the put option, transferring all the rights of the abovementioned credit facilities to APSA in exchange for US\$ 8.5 million (\$24.8 million).

(ii) Call option with HSBC Bank Argentina S.A., whereby APSA was entitled, although not obliged, to acquire, and HSBC Bank Argentina S.A. was obliged to transfer, a defaulted loan agreement originally granted to Mendoza Plaza Shopping amounting to US\$ 7.0 million. As a result of the economic measures issued in Argentina in 2002, this financial agreement was converted into Argentine pesos at the exchange rate of Ps. 1.0 per US Dollar and indexed by the reference stabilization index (CER). On March 29, 2005 APSA transferred the purchase option to Mendoza Plaza Shopping, which exercised the option paying Ps. 6.8 million for the settlement of the loan (corresponding to the exercise price of Ps. 7.2 million net of rental fees collected by HSBC Bank Argentina S.A. as guarantee amounting to Ps. 0.4 million). This cash payment was funded through a loan granted by APSA.

(Amounts in thousands, except share data and as otherwise indicated)

2. Preparation of financial statements (continued)

f. Acquisition, disposition and development of businesses (continued)

APSA also entered into an agreement with Inversiones Falabella Argentina S.A. (Falabella), the remaining minority shareholder of Mendoza Plaza Shopping, pursuant to which, among other things, Falabella has the irrevocable right to sell to APSA (put option) its ownership interest in Mendoza Plaza Shopping for a total consideration of US\$ 3 million. The put option can be exercised until the last business day of October 2008. At the date of issuance of these financial statements, Falabella has not exercised the put option.

On May 31, 2005 the shareholders of Mendoza Plaza Shopping approved the conversion of debt owed to APSA totaling Ps. 36.1 million into common shares. As a result of this transaction, APSA increased its ownership interest in Mendoza Plaza Shopping from 68.8% to 85.4%.

Development of Alto Rosario Shopping

On November 9, 2004 APSA opened a new developed shopping center, Alto Rosario, in the city of Rosario, Province of Santa Fe.

Year ended June 30, 2004

Purchase of additional shares and exercise of warrants of Banco Hipotecario S.A. (BHSA)

On December 30, 2003, the Company purchased 4,116,267 shares of BHSA at US\$ 2.3868 per share and 37,537 warrants at US\$ 33.86 each, granting the warrants the right to purchase 3,753,700 additional shares. This transaction implied a total disbursement of US\$ 11.1 million. Furthermore, on February 2, 2004, the Company exercised a substantial portion of the warrants acquired during fiscal year 2004 as well as warrants the Company had acquired in the past. As a result, the Company acquired 4,774,000 shares of BHSA for a total consideration of Ps. 33.4 million. During the last quarter of fiscal year 2004, the Company sold 2,487,571 shares of BHSA to IFIS S.A. (indirect shareholders) for a total consideration of US\$ 6.1 million (market value equivalent to Ps. 7.0 per share). The Company recognized a loss in connection with the sale amounting to Ps. 1.6 million. See Note 3.c. (ii) a) for details on the accounting for this investment.

Year ended June 30, 2003

Valle de Las Leñas S.A.

In September 2002, the Company had acquired a 30.955% ownership interest in the capital stock and US\$ 3.7 million convertible negotiable bonds issued by Valle de Las Leñas S.A. for approximately US\$ 2.4 million. On March 4, 2003, the Company sold these ownership interests in Valle de Las Leñas S.A. for US\$ 6.5 million.

g. Use of estimates

The preparation of the Consolidated Financial Statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Significant estimates include those required in the accounting for sales of development properties, the allowance for doubtful accounts, the depreciation, amortization and impairment of long-lived assets, the provision for contingencies and income taxes. Actual results could differ from those estimates.

(Amounts in thousands, except share data and as otherwise indicated)

3. Significant accounting policies

The following is a summary of significant accounting policies followed by the Company in the preparation of these Consolidated Financial Statements.

a. Revenue recognition

The Company primarily derives its revenues from domestic office and shopping center leases and services operations, the development and sale of properties, hotel operations and to a lesser extent, from e-commerce activities. See Note 6 for details on the Company's business segments.

Development and sale of properties

The Company records revenue from the sale of properties when all of the following criteria are met:

- (i) the sale has been consummated;
- (ii) the Company has determined that the buyer's initial and continuing investments are adequate to demonstrate a commitment to pay for the property;
- (iii) the Company's receivable is not subject to future subordination; and
- (iv) the Company has transferred to the buyer the risk of ownership, and does not have a continuing involvement in the property.

The Company uses the percentage-of-completion method of accounting with respect to sales of development properties under construction effected under fixed-priced contracts. Under this method, revenue is recognized based on the ratio of costs incurred to total estimated costs applied to the total contract price. The Company does not commence revenue and cost recognition until such time as the decision to proceed with the project is made and construction activities have begun.

The percentage-of-completion method of accounting requires company's management to prepare budgeted costs (i.e. the estimated costs of completion) in connection with sales of properties and/or units. All changes to estimated costs of completion are incorporated into revised

estimates during the contract period.

Leases and services from office and other buildings

Leases with tenants are accounted for as operating leases. Tenants are charged a base rent on a monthly basis. Rental income is recognized on a straight-line basis over the term of the lease and unpaid rents are included in accounts receivable in the accompanying consolidated balance sheets.

Leases and services from shopping center operations

Leases with tenants are accounted for as operating leases. Tenants are generally charged a rent which consists of the higher of (i) a monthly base rent (the Base Rent) and (ii) a specified percentage of the tenant's monthly gross retail sales (the Percentage Rent) (which generally ranges between 4% and 8% of tenant's gross sales). Furthermore, pursuant to the rent escalation clause in most leases, the tenant's Base Rent generally increases between 4% and 7% each year during the term of the lease. Minimum rental income is recognized on a straight-line basis over the term of the lease and unpaid rents are included in accounts receivable in the accompanying consolidated balance sheets.

Certain lease agreements contain provisions which provide for rents based on a percentage of sales or based on a percentage of sales volume above a specified threshold. The Company determines the compliance with specific targets and calculates the additional rent on a monthly basis as provided for in the contracts. Thus, these contingent rents are not recognized until the required thresholds are exceeded.

Generally, the Company's lease agreements vary from 36 to 120 months. Law No. 24,808 provides that tenants may rescind commercial lease agreements after the initial six months, upon not less than 60 days' written notice, subject to penalties which vary from one to one and a half months rent if the tenant rescinds during the first year of its lease, and one month of rent if the tenant rescinds after the first year of its lease.

The Company also charges its tenants a monthly administration fee, prorated among the tenants according to their leases, which varies from shopping center to shopping center, relating to the administration and maintenance of the common area and the administration of contributions made by tenants to finance promotional efforts for the overall shopping centers operations. Administration fees are recognized monthly when earned. In addition to rent, tenants are generally charged Admission rights , a non-refundable admission fee that tenants may be required to pay upon entering into a lease or upon lease renewal. An admission

(Amounts in thousands, except share data and as otherwise indicated)

3. Significant accounting policies (continued)

a. Revenue recognition (continued)

right is normally paid in one lump sum or in a small number of monthly installments. Admission rights are recognized using the straight-line method over the life of the respective lease agreements. Furthermore, the lease agreements generally provide for the reimbursement of real estate taxes, insurance, advertising and certain common area maintenance costs. These additional rents and tenant reimbursements are accounted for on the accrual basis.

Credit card operations

Revenues derived from credit card transactions include commissions and financing income. Commissions are recognized at the time the merchants' transactions are processed, while financing income is recognized when earned.

Hotel operations

The Company recognizes revenues from its rooms, catering, and restaurant facilities as earned on the close of each business day.

b. Cash and cash equivalents

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents. Cash equivalents consist of time deposits and mutual funds which invest in time deposits with original maturities of less than three months at purchase.

c. Investments

(i) Current

Current investments primarily include time deposits, mutual funds, and government and mortgage bonds. Time deposits have original maturities of three months or less and are valued at cost plus accrued interest at year-end. Mutual funds and government and mortgage bonds are carried at market value at year-end. Unrealized gains and losses on these investments are included within Financial results, net in the accompanying

consolidated statements of income.

Current investments also include the current portion of the retained interests in transferred receivables pursuant to the securitization programs (See Notes 15 and 16).

(ii) Non-current

a) Equity investments

Equity investments in unconsolidated affiliated companies where the Company exercises significant influence, generally representing between 20% and 50% of the capital stock in such companies, have been accounted for under the equity method.

As a result of the purchase of additional shares and the exercise of warrants of BHSA mentioned in Note 2.f. and considering the exercise of significant influence and the intention to maintain the participation as a long-term investment, during fiscal year 2004 the Company changed the method of accounting for its investments in BHSA and Banco de Crédito y Securitización S.A. (BACSA , a subsidiary of BHSA) from fair market value and cost, respectively, to the equity method of accounting. As permitted by Argentine GAAP, the Company recognized the cumulative effect of the change amounting to Ps. 27.7 million within Equity gain (loss) from related parties in the accompanying consolidated statements of income. In accordance with regulations of the *Banco Central de la República Argentina* and also as imposed by the agreements signed by BHSA as a result of its financial debt restructuring process, there are certain restrictions on the distribution of profits by BHSA.

b) Retained interests in securitization programs

Non-current investments also include the Company's retained interests in transferred credit card and mortgages receivables pursuant to the securitization programs entered into by the Company (see Notes 15 and 16 for details).

Notes to the Consolidated Financial Statements

for the years ended June 30, 2005, 2004 and 2003

(Amounts in thousands, except share data and as otherwise indicated)

3. Significant accounting policies (continued)

c. Investments (continued)

c) Undeveloped parcels of land

The Company acquires undeveloped land in order to provide an adequate and well-located supply for its residential and office building operations. The Company's strategy for land acquisition and development is dictated by specific market conditions where the Company conducts its operations.

Land held for development and sale and improvements are stated at cost (adjusted for inflation as described in Note 2.c.) or estimated fair market value, whichever is lower. Land and land improvements are transferred to inventories when construction commences or when the Company determines that the properties are to be marketed for sale.

At June 30, 2002 the Company had recognized impairment losses amounting to Ps. 30,999 in connection with certain parcels of undeveloped land (identified as Santa Maria del Plata, Torres Jardín IV, Caballito Project, Alcorta Plaza, Coto air space and Neuquén). During the year ended June 30, 2003 the Company recognized an additional impairment loss totaling Ps. 9,628 in connection with other parcels of undeveloped land (mainly Padilla 902, Pilar, Constitución 1111, Benavidez and Rosario Project). As a result of an increase in their fair market values, during the years ended June 30, 2003, 2004 and 2005, the Company partially reversed the abovementioned impairment losses, recognizing gains of Ps. 9,851 (Santa Maria del Plata, Caballito Project, Alcorta Plaza, Coto air space and Neuquén), Ps. 15,146 (Caballito Project, Alcorta Plaza, Coto air space, Neuquén, Terrenos de Caballito, Pilar, Torres Jardín IV and Constitución 1111) and Ps. 3,585 (Torres Jardín IV, Padilla 902, Neuquén, Caballito Project, Alcorta Plaza and Coto air space), respectively. The impairment losses and gains associated with the reversion of previously recognized impairment charges have been included within Gain from operations and holdings of real estate assets, net in the accompanying consolidated statements of income.

d. Inventories

Inventories are comprised primarily of properties held for development and sale and to a lesser extent other minor inventories from hotel operations. A property is classified as held for sale upon determination by the Board of Directors that the property is to be marketed for sale in the normal course of business.

Residential, office and other non-retail properties completed or under construction are stated at acquisition or construction cost (adjusted for inflation as described in Note 2.c.) or estimated fair market value, whichever is lower. The Company maintains an impairment allowance for certain inventories which have market values lower than costs. Costs include land and land improvements, direct construction costs, construction

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

overhead costs, interest on indebtedness and real estate taxes. During the year ended June 30, 2005 the Company capitalized interest costs amounting to Ps. 418 in connection with the development of San Martin de Tours project. No interest costs were capitalized during the years ended June 30, 2003 and 2004. Total contract costs and selling costs are charged to expense in the period in which the related revenue is earned, as determined under the percentage-of-completion method.

Inventories, on which the Company received payments in advance that fix the sales price and the terms and conditions of the contract assure the closing of the transaction and the realization of the gain, are valued at fair market value. See Gain from valuation of inventories at fair market value in the accompanying consolidated statements of income for details of the results recognized during the year ended June 30, 2005 in this connection.

Properties held for sale are classified as current or non-current based on the estimated date of sale and the time at which the related receivable is expected to be collected by the Company.

During the years ended June 30, 2002 and 2003 the Company recognized impairment losses amounting to Ps. 12,621 and Ps. 844, respectively, in connection with certain properties classified as inventories (identified as Av. Madero 1020, Rivadavia 2768, Minetti D, Torres Jardin, Sarmiento 517, parking lots in Dock 13, Constitución 1111, Terrenos de Caballito and Padilla 902). As a result of an increase in their fair market values, during the years ended June 30, 2004 and 2005 the Company partially reversed previously recognized impairment losses, recognizing a gain of Ps. 6 (Rivadavia 2768) and Ps. 297 (primarily in connection with Torres Jardín, Minetti D and parking lots in Dock 13). The impairment losses and gains associated with the reversion of previously recognized impairment charges have been included within Gain (loss) from operations and holdings of real estate assets, net in the consolidated statements of income.

for the years ended June 30, 2005, 2004 and 2003

(Amounts in thousands, except share data and as otherwise indicated)

3. Significant accounting policies (continued)

e. Fixed assets, net

Fixed assets, net are comprised primarily of rental properties (including shopping centers) and other property and equipment held for use by the Company.

Rental properties (including Shopping Centers)

Rental are carried at cost (adjusted for inflation as described in Note 2.c.), less accumulated depreciation and impairment charges. Accumulated depreciation is computed under the straight-line method over the estimated useful lives of the assets, which generally are estimated to be 50 years for office buildings and related improvements and between 17 and 31 years for shopping centers. Expenditures for ordinary maintenance and repairs are charged to operations in the period incurred. Significant renovations and improvements which improve or extend the useful life of the asset are capitalized and depreciated over its estimated remaining useful life. At the time depreciable assets are retired or otherwise disposed of, the cost and the accumulated depreciation and impairment charges of the assets are eliminated from the accounts and any profit or loss is recognized. The Company capitalizes interest on long-term construction projects. During the years ended June 30, 2005 and 2004 the Company capitalized interest costs amounting to Ps. 2.1 million and Ps. 1.2 million, respectively, in connection with the construction of Alto Rosario Shopping Center. No interest costs were capitalized during the year ended June 30, 2003.

At June 30, 2002 the Company had recognized impairment losses amounting to Ps. 96,996 in connection with certain properties (identified as Libertador 498, Maipú 1300, Avda. Madero 1020, Suipacha 652, Laminar Plaza, Reconquista 823, Constitución 1111, Dique 2 M10- Edificio C-. Libertador 602, Dock 2 M10 -Building A-, Avda. Madero 942, Avda. De Mayo 595, Costeros Dique IV and Sarmiento 517, Intercontinental Plaza, Alto Palermo Park, Alto Palermo Plaza, Thames, Hotel Intercontinental, Alto Avellaneda, Alto Noa, Abasto and other properties). During the years ended June 30, 2003 and 2005 the Company also recognized impairment losses totaling Ps. 1,892 in connection with certain properties (identified as Avda. Madero 1020, Reconquista 823, Avda. Madero 942, and Sarmiento 517) and Ps. 245 in connection with certain properties (identified as Lotes Abril Club de Campo), respectively. As a result of increases in their fair market values, during the years ended June 30, 2003, 2004 and 2005 the Company partially reversed the impairment losses, recognizing gains of Ps. 15,532, Ps. 47,880 and Ps. 24,301, respectively. The impairment losses and gains associated with the reversion of previously recognized impairments have been included within Gain from operations and holdings of real estate assets, net in the accompanying consolidated statements of income.

Other property and equipment

Other property and equipment are carried at cost (adjusted for inflation as described in Note 2.c.), less accumulated depreciation at the end of the year. Accumulated depreciation is computed under the straight-line method over the estimated useful lives of the assets, as specified below:

<u>Asset</u>	<u>Estimated useful life (years)</u>
Leasehold improvements	On contract basis
Facilities	Between 10 and 20
Machinery and equipment	10
Vehicles	Between 3 and 5
Software	Between 3 and 5
Computer equipment	Between 3 and 4
Furniture and fixtures	Between 5 and 10
Other	10

The cost of maintenance and repairs is charged to expense as incurred. The cost of significant renewals and improvements are added to the carrying amount of the respective assets. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation and impairment charges are removed from the accounts, and any resulting gain or loss is reflected in the consolidated statement of income.

The Company capitalizes certain costs associated with the development of computer software for internal use. Costs capitalized during the years ended June 30, 2005, 2004 and 2003 were not significant. These costs are being amortized on a straight-line basis over a period of 3 years.

for the years ended June 30, 2005, 2004 and 2003

(Amounts in thousands, except share data and as otherwise indicated)

3. Significant accounting policies (continued)

f. Intangible assets, net

Intangible assets are carried at cost, (adjusted for inflation as described in Note 2.c.), less accumulated amortization and impairment charges.

Preoperating and organization expenses

This item represents expenses incurred by the Company relating to pre-opening activities of certain shopping centers. These expenses are amortized on a straight-line basis over a three-year period commencing upon the opening of the shopping center.

Selling and advertising expenses

Expenses incurred relating to the marketing of development properties, including advertising, commissions and other expenses, are charged to expense in the period in which the related revenue is earned, as determined under the percentage-of-completion method.

Trademarks

Fees and expenses related to the registration of trademarks are amortized on a straight-line basis over 10 years.

Expenses related to the securitization of receivables

Expenses related to the securitization of receivables represent expenses related to the on-going securitization programs of credit card receivables. These expenses are amortized on a straight-line basis over a two-year period.

Deferred financing costs

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Expenses incurred in connection with the issuance of debt are amortized over the term of the debt. Deferred financing costs are classified within short-term or long-term debts, as appropriate. Amortization of deferred financing costs is included within Financial results, net in the accompanying statements of income as a greater financing expense.

g. Goodwill, net

Goodwill, net includes (a) the excess of cost over the fair value of net identifiable assets acquired related to the acquisitions of certain subsidiaries (Goodwill) and (b) the excess of the fair value of the assets acquired over the consideration paid for the acquisition of additional ownership interest in APSA (Negative goodwill). Goodwill and Negative goodwill are stated at cost as well as (adjusted for inflation as described in Note 2.c) less accumulated amortization. Goodwill is being amortized under the straight-line method over its estimated economic life, not exceeding 10 years. Amortization of negative goodwill is calculated on a straight-line basis over the weighted-average remaining useful lives of the assets acquired, calculated as 18 years.

Goodwill and negative goodwill are shown in a separate caption in the accompanying consolidated balance sheets.

h. Foreign currency assets and liabilities

Assets and liabilities denominated in foreign currencies are translated at the prevailing exchange rates as of year-end. Transactions denominated in foreign currencies are translated into pesos at the prevailing exchange rates on the date of transaction settlement. Foreign currency transaction gains and losses are recorded within Financial results, net in the accompanying consolidated statements of income.

Table of Contents

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Consolidated Financial Statements

for the years ended June 30, 2005, 2004 and 2003

(Amounts in thousands, except share data and as otherwise indicated)

3. Significant accounting policies (continued)

i. Other receivables and liabilities

Certain other receivables and liabilities (asset tax credits, cash reserves and guarantee deposits) have been measured based on the best estimate of the amount receivable and payable, respectively, discounted at the interest rate applicable to freely available savings accounts published by the Argentine Central Bank in effect at the time of incorporation to the balance sheet. The remaining other receivables and liabilities have been valued at their nominal value plus interest, if any.

j. Financial receivables and payables

Financial receivables and payables have been valued at the amount deposited and collected, respectively, net of operating costs, plus accrued interests based on the interest rate estimated at the time of the transaction.

k. Mortgages and leases receivable and trade accounts payable

Mortgages and leases receivable and trade accounts payable have been valued at the price applicable to spot operations at the time of the transaction plus accrued interest based on the internal rate of return.

l. Related parties balances and other transactions

Receivables and payables with related parties generated by financial transactions and other sundry transactions have been valued in accordance with the terms agreed by the parties.

m. Income tax provision

The subsidiaries of the Company calculate their income taxes on a separate basis. The Company did not either calculate or pay income taxes on a consolidated basis for any of the periods presented. The statutory income tax rate was 35% for all the periods presented.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

The Company records income taxes using the deferred tax method required by RT No. 17. Accordingly, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recorded or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is recognized for that component of net deferred tax assets which is not recoverable.

The Company has treated the differences between the price-level restated amounts of assets and liabilities and their historical basis as permanent differences for deferred income tax calculation purposes, as prescribed by Resolution MD No.11/2003 issued by the CPCECABA.

In accordance with CNV regulations, deferred tax assets and liabilities have not been discounted. Since Argentine GAAP requires the accounting for deferred tax assets and liabilities on a discounted basis, the application of the CNV resolution represents a departure from generally accepted accounting principles. However, such a departure has not had a material effect on the accompanying Consolidated Financial Statements.

F-17

Table of Contents

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Consolidated Financial Statements

for the years ended June 30, 2005, 2004 and 2003

(Amounts in thousands, except share data and as otherwise indicated)

3. Significant accounting policies (continued)

n. Asset tax provision

The Company is subject to the asset tax. Pursuant to this tax regime, the Company is required to pay the greater of the income tax or the asset tax. Any excess of the asset tax over the income tax may be carried forward and recognized as a tax credit against future income taxes payable over a 10-year period. The asset tax provision is calculated on an individual entity basis at the statutory asset tax rate of 1% and is based upon the taxable assets of each company as of the end of the year, as defined by Argentine law.

o. Customer advances

Customer advances represent payments received in advance in connection with the sale and lease of properties.

p. Mortgages payable

Mortgages payable includes the debt assumed in the acquisition of Bouchard 710 (see Notes 13 (iv) and 22 for details) as well as the debt assumed in the purchase of a plot of land where the Company is currently constructing *San Martin de Tours* project. The latter will be settled at the end of the construction through the delivery of certain apartments and has been valued at the higher of the purchase price or the estimated cost of construction and subsequent transfer of the units to be delivered.

q. Provisions for allowances and contingencies

The Company provides for losses relating to mortgage, lease and other accounts receivable. The allowance for losses is recognized when, based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the terms of the agreements. The allowance is determined on a one-by-one basis considering the present value of expected future cash flow or the fair value of collateral if the loan is collateral dependent, when applicable. While management uses the information available to make evaluations, future adjustments to the allowance may be necessary if future economic conditions differ substantially from the assumptions used in making the assessments. Management has considered all events and/or transactions that are subject to reasonable and normal methods of estimations, and the consolidated financial statements reflect that consideration.

The Company has certain contingent liabilities with respect to existing or potential claims, lawsuits and other proceedings, including those involving labor and other matters. The Company accrues liabilities when it is probable that future costs will be incurred and such costs can be reasonably estimated. Such accruals are based on developments to date, the Company's estimates of the outcomes of these matters and the

Company's lawyers' experience in contesting, litigating and settling other matters. As the scope of the liabilities becomes better defined, there may be changes in the estimates of future costs, which could have a material effect on the Company's future results of operations and financial condition or liquidity.

r. Advertising expenses

The Company generally expenses advertising and promotion costs as incurred with the exception of advertising and promotion expenses incurred to market real estate projects and to launch new shopping centers. Advertising and promotion expenses were approximately Ps. 12.2 million, Ps. 5.9 million and Ps. 4.0 million for the years ended June 30, 2005, 2004 and 2003, respectively.

Advertising and promotion expenses to market real estate projects and to launch new shopping centers are capitalized as advertising expenses and preoperating expenses, respectively, within intangible assets.

s. Pension information

The Company does not maintain any pension plans. Argentine laws provide for pension benefits to be paid to retired employees from government pension plans and/or privately managed funds plan to which employees may elect to contribute.

Table of Contents

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Consolidated Financial Statements

for the years ended June 30, 2005, 2004 and 2003

(Amounts in thousands, except share data and as otherwise indicated)

3. Significant accounting policies (continued)

t. Impairment of long-lived assets

The Company periodically assess the carrying value of its long-lived assets for impairment when events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The carrying value of a long-lived asset is considered impaired by the Company when the expected cash flows, undiscounted and without interest, from such asset is separately identifiable and less than its carrying value. In that event, a loss would be recognized based on the amount by which the carrying value exceeds the fair market value of the long-lived asset. Fair market value is determined primarily using the anticipated cash flows discounted at a rate commensurate with the risk involved or based on independent appraisals.

RT No. 17 establishes that a previously recognized impairment loss should only be reversed when there is a subsequent change in estimates used to compute the fair market value of the asset. In that event, the new carrying amount of the asset should be the lower of its fair market value or the net carrying amount the asset would have had if no impairment had been recognized.

See Notes 3.c., 3.d., and 3.e. for details of the impairment loss charges recognized in previous years and the impairment loss reversals recognized during the years ended June 30, 2005, 2004 and 2003 as a result of changes in estimates.

u. Vacation expenses

Vacation expenses are fully accrued in the period the employee renders services to earn such vacation.

v. Derivative financial instruments

From time to time, the Company utilizes certain financial instruments to manage its foreign currency and interest rate exposures, and as a supplement to reduce its overall financing costs. The Company also engages in trading of certain financial instruments. In entering into these contracts, the Company assumes the risk that might arise from the possible inability of counter parties to meet the terms of their contracts. The Company does not expect any losses as a result of counterparty defaults. Derivative financial instruments are carried at their fair market value at year-end with changes reported in earnings. For details on the Company's derivative instruments activity, see Note 14.

w. Monetary assets and liabilities

Monetary assets and liabilities are disclosed at their par value, adding or deducting the corresponding financial results.

x. Earnings per share

The Company is required to disclose earnings per share information for all periods presented. Basic earnings per share (basic EPS) are computed by dividing the net income available to common shareholders for the period by the weighted-average number of common shares outstanding during the period. Diluted earnings per share (diluted EPS) are computed by dividing the adjusted net income for the period by the weighted-average number of common shares and potential common shares outstanding during the period.

In computing diluted EPS, income available to common shareholders used in the basic EPS calculation is adjusted to add back the after-tax amount of interest recognized in the period with respect to any debt convertible to common stock. Additional adjustments are made for any other income or loss items that would result from the assumed conversion of potential common shares. The weighted-average number of common shares outstanding is adjusted to include the number of additional common shares that would have been outstanding if the dilutive potential common shares had been issued. Diluted EPS is based on the most advantageous conversion rate or exercise price over the entire term of the instrument from the standpoint of the security holder. The calculation of diluted EPS excludes potential common shares if their effect is anti-dilutive. The Company has considered the dilutive effect of outstanding warrants and convertible debt in calculating diluted EPS.

Notes to the Consolidated Financial Statements

for the years ended June 30, 2005, 2004 and 2003

(Amounts in thousands, except share data and as otherwise indicated)

4. Details of balance sheet accounts (continued)

b. Investments (continued):

- (ii) This investment is accounted for under the equity method of accounting at the end of the year. There are certain uncertainties that could affect BHSA primarily in connection with the effect of the matters that are still pending resolution by the Government regarding the settlement of the receivables recognized as a result of the asymmetric pesification and indexation. In addition, BHSA has a significant credit exposure to the public sector. As of June 30, 2005, the investment in BHSA accounts for approximately 9% of the total consolidated assets of the Company. The future outcome of the uncertainties described before could have an adverse effect in the valuation of this investment.
- (iii) At June 30, 2004 the Company owned an 18.9% interest in Mendoza Plaza Shopping. As discussed in Note 2.f), during the year ended June 30, 2005 the Company increased its ownership interest in Mendoza Plaza Shopping from 18.9% to 85.4%. As a result of gaining control, the results of operations of Mendoza Plaza Shopping were included in the consolidated statements of income as from October 1, 2004. At June 30, 2003 the Company had recognized an impairment loss related to the equity investment in Mendoza Plaza Shopping amounting to Ps. 7.5 million. During fiscal years 2004 and 2005, the Company reversed Ps. 0.6 million and Ps. 6.9 million, respectively, of such an impairment loss as a result of changes in estimates. Both the impairment charge and the impairment reversals have been included within Equity gain (loss) from related companies in the accompanying consolidated statements of income.
- (iv) As of June 30, 2005 the Company owned a 49.36% interest in ITNV. In the past, the Company had discontinued applying the equity method of accounting for this investment due to the existence of mandatorily redeemable preferred shares issued by ITNV to other shareholders and considering that the Company had neither guaranteed the ITNV obligations nor it had committed itself to provide financial support to ITNV. As a result, the investment in ITNV was valued at zero at June 30, 2004. On August 19, 2005, ITNV repurchased all the shares held by the Company for a total consideration of US\$ 604. Therefore and considering that this transaction occurred before the issuance of these consolidated financial statements, the Company resumed the equity method of accounting up to the limit of the fair market value at June 30, 2005. As such, the Company recognized a gain of US\$ 604 during the year ended June 30, 2005.
- (v) Represents debt certificates issued by the trusts in connection with the Company's securitization programs described in Note 16.
- (vi) The book value of parcels of undeveloped land is presented net of the impairment loss mentioned in Note 3.c.

c. Mortgages and leases receivable, net:

As of June 30,

- (i) Represents the net amount of US\$ 50.1 million deposited as collateral (including interest of US\$ 0.1 million) and US\$ 45.4 million payable for the swap agreement. See Note 14 for details.
- (ii) At June 30, 2005 the balance is comprised of Ps. 0.3 million related to a deposit required as collateral for certain labor lawsuits of the Company and Ps. 0.8 million related to attached funds in connection with Liao Liao Litigation (See Note 21 for details).
- (iii) The Company maintained a deposit of Ps. 358 and Ps. 694 at June 30, 2005 and 2004, respectively, as collateral for the future contracts (Ps. 269 and Ps. 474 net of the fair value of the future contracts). See Note 14 for details.
- (iv) Corresponds to a loan granted to an unaffiliated third party, which is collateralized by a mortgage on certain properties. During fiscal year 2001, this debtor filed for bankruptcy. As a result, the Company recognized an allowance for the entire balance based on the opinion of its legal counsel.
- (v) Represents a payment of US\$ 4 million made by the Company in connection with a contract entered into with Credit Suisse First Boston (CSFB) pursuant to which the Company is committed to acquire in specific circumstances a loan with a mortgage guarantee on an office building in the City of Buenos Aires for US\$ 10 million. The loan has a nominal value of US\$ 12.8 million and CSFB is actually the creditor.

(i) During the year ended June 30, 2004 the Company sold a parcel of land in exchange for 40 housing units of the building to be constructed in the acquired land. The housing units to be received were originally valued at the price established in the contract amounting to Ps. 5.8 million and as a result the Company recognized a loss of Ps. 0.8 million. During the year ended June 30, 2005 the Company signed promissory sales contracts with third parties to sell 9 housing units, receiving advance payments equal to 40% of the sales price.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Subsequent to year-end the Company collected an additional 40% of the sales price. The remaining 20% will be collected at the time of signing the pertinent deed and subsequent transfer of property scheduled for December 2005. Housing units for which the Company signed promissory sales contracts have been valued at their fair market value. As a result, the Company recognized a gain of Ps. 2.4 million which is included within Gain from valuation of inventories at fair market value in the accompanying consolidated balance sheets.

- (iii) On September 7, 2004, the Company and DYPSA, Desarrollos y Proyectos Sociedad Anónima (DYPSA) signed a barter and option contract whereby DYPSA proposed to acquire from the Company plots 1c) and 1e) of Dique III (undeveloped land) at a price of US\$ 8,030 and US\$ 10,800, respectively, for the construction at its own expense and under its own responsibility of two housing buildings of 37 and 40 floors, parking lots and individual storage spaces. As consideration for the exchange of plot 1c), DYPSA agreed to deliver to the Company, within a maximum term of 36 months, housing units, parking lots and storage spaces representing in the aggregate 28.50% of the housing unit area to be built in the first building. Furthermore, DYPSA has an option to acquire plot 1e) mentioned above within a maximum term of 548 days counted as from the signing of the deed of conveyance of plot 1c) and subject to the work progress in the first building. In this case, DYPSA agreed to deliver to the Company in exchange, within a maximum term of 36 months, housing units, individual storage spaces and parking lots representing in the aggregate 31.50% of the housing unit area to be built in the second building. These barter transactions were subject to the approval by *Corporación Antiguo Puerto Madero* (CAPM), which resolved favorably during the second quarter of fiscal year ended June 30, 2005. As a result, on November 25, 2004 the Company signed the deed of conveyance of title of the plot 1c) in favor of DYPSA and the option of DYPSA to acquire plot 1e) as explained before. As a guarantee of this transaction, DYPSA set up a first degree mortgage on plot 1c) for US\$ 8,030 in favor of the Company. The option to exchange plot 1 e) is subject to the construction of the 13th floor of the building to be built on lot 1 c). As a result of this transaction, the Company has valued the units to be received from DYPSA as consideration for the exchange of lot 1c) at the fair market value of the plot recognizing a gain of Ps. 15.0 million. Plot 1e) remains valued at cost since the option has not been exercised by DYPSA.

4. Details of balance sheet accounts (continued)**e. Inventories (continued)**

In addition, on May 18, 2005 the Company entered into a preliminary agreement with DYPSA pursuant to which the Company will sell to DYPSA plot 1d) for a total consideration of US\$ 8,500. The Company received an advance payment of US\$ 2,150 and the balance of US\$ 6,350 will be paid by DYPSA at the time of signing the pertinent deed and subsequent transfer of property, which is scheduled for January, 2006. As a result of this transaction, this plot of land has been valued at its fair market value. As such, the Company recognized a gain of Ps. 15.0 which is included within Gain from valuation of inventories at fair market value in the accompanying consolidated balance sheets.

(iii) On May 21, 2004 the Company sold to Desarrolladora El Encuentro S.A. (DEESA) an undeveloped parcel of land located in Benavidez, Province of Buenos Aires, in exchange for US\$ 980 in cash and 110 residential plots to be subdivided by DEESA in the acquired land which were valued at US\$ 3,000. As a guarantee of the obligations assumed for this transaction, DEESA set up a first mortgage on the acquired land in favor of the Company amounting to US\$ 3,000 and made a guarantee payment of US\$ 500 to the Company. This balance does not accrue interest and will be returned as work progresses (50% at the time of certification of 50% of progress and the remaining upon certification of 90% of work progress). As a result of this transaction, the Company recognized a gain of Ps. 907 during the year ended June 30, 2004.

In November 2002 the Company completed the refinancing of the financial debts for US\$ 117 million. According to the agreements, the lenders agreed to receive (i) a cash settlement of US\$ 13.6 million, and (ii) new debt instruments in exchange for the balance. As a result, the Company issued US\$ 37.4 million Collateralized Notes, a US\$ 51 million Uncollateralized Loan Agreement and US\$ 15 million of IRSA Convertible Notes. See footnotes below for a description of the terms and conditions of each issuance. The Company accounted for the refinancing in accordance with RT 17. Since the conditions of the new debt instruments were substantially different from the original conditions (as defined by RT 17), the Company removed the original loans from the consolidated balance sheet and recognized the new debt instruments at their present value discounted at an 8% market interest rate. As a result of the debt restructuring, the Company recognized a Ps. 36.5 million gain in 2003 (Ps. 31.7 million net of expenses incurred in the restructuring), which represented the difference between the present value of the new debt instruments and the carrying value of the old debts.

(i) See Note 10 for details of the issuance of IRSA Convertible Notes.

(ii) On August 20, 2002 APSA issued US\$ 50 million of uncollateralized convertible notes (the APSA Convertible Notes) in exchange for cash and the settlement of certain liabilities. Proceeds from the issuance of APSA Convertible Notes were used to repay short-term bank loans for Ps. 27.3 million and for the redemption of the APSA Senior Notes for a principal amount of Ps. 52.8 million. The APSA Convertible Notes matures on July 19, 2006, accrues interest (payable semiannually) at a fixed annual interest rate of 10% and are convertible, at any time, at the option of the holder into APSA common shares of Ps. 0.10 par value per share. The conversion rate per U.S. dollar is the lesser amount of 30.8642 and the result obtained from dividing the exchange rate in effect at the conversion date by the par value of APSA's common shares (Ps. 0.10). The issuance of the APSA Convertible Notes was approved by its shareholders on December 4, 2001 and by the National Securities Commission on March 15, 2002, and authorized for listing on the Buenos Aires Stock Exchange on July 8, 2002. At June 30, 2005 the outstanding balance of APSA Convertible Notes amounted to US\$ 47.3 million, of which US\$ 31.7 million correspond to IRSA holdings. The Company has eliminated in consolidation the intercompany balances and, as a result, the balance of APSA Convertible Notes with third parties shown in the consolidated balance sheets at June 30, 2005 and 2004 amounts to US\$ 15.6 million and US\$ 18.1 million, respectively.

- (iii) In connection with the debt restructuring mentioned above, on November 20, 2002 the Company issued US\$ 37.4 million collateralized notes due November 20, 2009 (the Collateralized Notes). The Collateralized Notes bear interest at 3-month LIBOR plus 200 basis points. Interest is payable quarterly, commencing February 2003. In accordance with RT 17, the Company has recorded the debt on a discounted basis considering an 8% market interest rate. As of June 30, 2005, the Company has settled the first two installments totaling US\$ 1.9 million; consequently, the carrying value of the debt amounts to US\$ 31.1 million (equivalent to US\$ 35.5 million discounted at an interest rate of 8%). The Collateralized Notes require the Company to meet certain financial ratios and to comply with certain other covenants, including restrictions on distributions of dividends, incurrence of debt and liens, mergers, acquisitions, asset dispositions and certain payments, as well as, contain limitations on investments and capital expenditures. As collateral, the Company has mortgaged certain real estate properties (See Note 13 for details).
- (iv) In connection with the debt restructuring mentioned above, on November 20, 2002 the Company also issued a US\$ 51 million uncollateralized loan agreement due November 20, 2009 (the Uncollateralized Loan Agreement) payable in 20 quarterly equal installments beginning in February 2005. The Uncollateralized Loan Agreement accrues interest as follows: US\$ 35 million accrue interest at 3-month LIBOR plus 200 basis points, and US\$ 16 million accrue at a fixed interest rate. Interest is payable quarterly, commencing February 2003.

Table of Contents**IRSA Inversiones y Representaciones Sociedad Anónima****Notes to the Consolidated Financial Statements****for the years ended June 30, 2005, 2004 and 2003**

(Amounts in thousands, except share data and as otherwise indicated)

4. Details of balance sheet accounts (continued)**i. Short-term and long-term debt (continued):**

The Uncollateralized Loan Agreement requires the Company to meet certain financial ratios and to comply with certain other covenants, including restrictions on distributions of dividends, incurrence of debt and liens, mergers, acquisitions, asset dispositions and certain payments, as well as, contain limitations on investments and capital expenditures. As required by RT 17 for an exchange of debt with substantially different terms, the Company originally recorded the issuance on a discounted basis considering an 8% market interest rate. On July 25, 2003 the Company repurchased the abovementioned US\$ 16 million portion of the Uncollateralized Loan Agreement for US\$ 10.9 million in cash. In addition, on March 17, 2004 the Company repurchased US\$ 12 million of the US\$ 35 million portion of the Uncollateralized Loan Agreement for US\$ 8.6 million in cash. Additionally, at June 30, 2005 the Company has settled the two first installments totaling to US\$ 1.2 million. Consequently, at June 30, 2005 the outstanding balance amounts to US\$ 19.1 million (equivalent to US\$ 21.9 million discounted at the interest rate of 8%).

- (v) On January 18, 2001, APSA together with its wholly owned subsidiary, SAPSA, issued US\$ 120.0 million of Senior Notes (APSA Senior Notes). APSA Senior Notes were issued in three classes, maturing at various dates through January 13, 2005 and accruing interest at different variable rates. Pursuant to Decree N° 214, debts in U.S. dollars in the Argentine financial system were converted to pesos at the rate of exchange of Ps. 1 per US\$ 1 and adjusted based on the Coeficiente de Estabilización de Referencia (CER). During the years ended June 30, 2001 and 2002, APSA repurchased Ps. 2.5 million of the Senior Notes and made principal payments at their maturity for Ps. 11.3 million, respectively. During the year ended June 30, 2003, APSA repurchased Ps. 80.8 million of the Senior Notes and made principal payments at their maturity for Ps. 4.6 million. During the year ended June 30, 2004, the Company made principal payments at their maturity for Ps. 3.3 million. As of June 30, 2004 the outstanding principal balance was Ps. 17.5 million and the rate applied to this debt was 8% per annum. During the year ended June 30, 2005, the Company repurchased Ps. 13.7 million of the Senior Notes and paid the balance of Ps. 3.8 million at their maturity. APSA Senior Notes were collateralized by a pledge on the shares of SAPSA and included various restrictive covenants, which among other things required APSA to maintain certain financial ratios.
- (vi) On April 7, 2000, APSA issued Ps. 85.0 million 14.875% unsecured notes due April 7, 2005 (the APSA Notes). Proceeds from this issuance were used to repay certain outstanding bridge financing obtained by APSA. The APSA Notes included various restrictive covenants, which among other things required APSA to maintain certain financial ratios. During the years ended June 30, 2001, 2002 and 2003, APSA redeemed Ps. 18.1 million, Ps. 15.5 million and Ps. 1.8 million of the Notes, respectively, at different prices below par plus accrued interest. At June 30, 2004 the balance was comprised of Ps. 49.6 million of principal and Ps. 1.7 million of accrued interest. During the year ended June 30, 2005 APSA redeemed an additional Ps. 1.2 million of the Notes and paid the balance of Ps. 48.4 million at their maturity.
- (vii) At June 30, 2005 the balance relates to a collateralized loan in process of restructuring with its creditor. This collateralized loan amounting to US\$ 12 million had been obtained by Hoteles Argentinos S.A. (HASA), a subsidiary of the Company) from Bank Boston N.A. in January 2001. At June 30, 2004 the Company had not paid 11 principal and 9 interest installments already matured as a result of the financial crisis and lack of credit in the bank system. On March 5, 2004, Bank Boston N.A. formally notified HASA that as from March 10, 2004 it assigned to Marathon Master Fund Ltd. (Marathon) all the rights and obligations arising from this loan agreement together with all related amendments, guarantees and insurance policies. On December 16, 2004 Ritelco S.A. (Ritelco), a wholly-owned subsidiary of the Company) purchased the loan agreement paying to Marathon US\$ 7,925 in cash. On March 23, 2005 Ritelco sold to

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

CSFB the loan agreement for US\$ 8 million in cash and the Company entered into an agreement with CSFB pursuant to which, among other things, (a) the Company guarantees the payment of the debt owed by HASA, (b) HASA must present a restructuring plan of the loan prior to September 15, 2005, and (c) in the event of non-compliance the Company shall repurchase the loan agreement for US\$ 8,000. As guarantee for this transaction, the Company made a payment of US\$ 2,000 to CSFB which is disclosed as a collateral deposit within Other receivables and prepaid expenses, net in the accompanying consolidated balance sheet. The loan is collateralized by real estate properties with a net book value of Ps. 32.1 million at June 30, 2005.

- (viii) At June 30, 2005 uncollateralized loans include US\$ 6 million related to a loan granted by Deutsche Bank S.A. to APSA for US\$ 11 million in March 2005, of which US\$ 5 million were repaid in April 4, 2005 with the proceeds received in connection with the settlement of the swap agreement. The balance of the loan will be amortized in two equal installments on February 1, 2006 and August 1, 2006. The loan accrues interest at LIBOR plus 3.25%. Uncollateralized loans also include short-term loans and overdraft facilities totaling Ps. 13.8 million at June 30, 2005. The weighted average interest rates on short-term loans were 7.6% and 9.0% as of June 30, 2005 and 2004, respectively.

4. Details of balance sheet accounts (continued)**i. Short-term and long-term debt (continued):**

(ix) On April 5, 2005 Banco Rio de la Plata and Bank Boston N.A. granted APSA a syndicated loan in a total amount of Ps. 50 million (APSA Syndicated Loan), which will be amortized in four six-month equal and consecutive installments beginning October 5, 2005. The syndicated loan accrues interest at a fixed rate of 7.875% during the first year and will accrue interest at a variable rate (Encuesta) plus 3% during the second year. The terms and conditions of the syndicated loan include various restrictive covenants, which among other things require the Company to maintain certain financial ratios. Proceeds from this loan were used to repay the balance of the APSA Notes at their maturity for Ps. 48.4 million. See footnote (vi) for details. On July 5, 2005 the Company paid the first interest installment of this loan.

	Ps. 34,410	Ps. 10,150

⁽ⁱ⁾ As of June 30, 2005 the balances were primarily comprised of (a) Ps. 3.3 million of principal plus Ps. 2.3 million of CER and Ps. 0.8 million of accrued interests relating to the seller financing obtained in the acquisition of Shopping Neuquén, which accrues interest at six-month LIBOR (3.7% as of June 30, 2005) (See Note 20), and (b) Ps. 9.7 million relating to the seller financing obtained in the acquisition of Mendoza Plaza Shopping (Ps. 4.7 million due September 29, 2005 and Ps. 5.0 million due September 29, 2006) (included imputed interest).

⁽ⁱⁱ⁾ This reserve relates to: (a) labor lawsuits filed against the Company, (b) tax matters related to differences in basis in the computation of certain tax contributions, (c) the claims related to Shopping Neuquén as disclosed in Note 20, (d) the Liao Liao litigation as disclosed in Note 21 and (e) other sundry claims. In the opinion of management and based on consultation with external legal counsel, the Company has established provisions for amounts which are probable of adverse occurrence and which, according to estimates developed by the Company's legal counsel, would meet all related contingencies and corresponding fees relating to these claims. The classification of contingency reserves as non-current liabilities was based on a review of the current facts and circumstances and consultation with external legal counsel. Management reassesses these matters as new facts are brought into management's attention.

⁽ⁱⁱⁱ⁾ Contributed leasehold improvements relate to improvements made by tenants in Abasto Shopping Center and Mendoza Plaza Shopping. The Company has recorded the improvements as fixed asset based on construction costs incurred with a corresponding deferred liability. Contributed leasehold improvements are amortized to income over the term of lease. Such amortization, net of the related depreciation of

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

the leasehold improvement, was immaterial for the years ended June 30, 2005, 2004 and 2003.

- (iv) Unearned income relates to a contract entered into with Riocruz S.C.S. (Tienda C&A) in 1999 pursuant to which Mendoza Plaza Shopping granted Riocruz S.C.S. a perpetual mutual right of way in exchange for US\$ 2.9 million as consideration for the first ten years and subsequently free of charge. Unearned income is amortized to income over the remaining useful life of Mendoza Plaza Shopping.

5. Shareholders equity**a. Common stock**

As of June 30, 2005, the Company had 357,266,448 authorized and outstanding shares of common stock, having a par value of Ps. 1.0 per share. Holders of the common stock are entitled to one vote for each share held of record on all matters submitted to a vote of shareholders. Following is a detail of the activity during the years ended June 30, 2003, 2004 and 2005:

	Common Stock			Approved by		Date of registration

Exercise of warrants (Note 10)	56,014,503	56,015	49,665	
Balances as of June 30, 2005	357,266,448	Ps. 357,267	Ps. 676,171	

b. Capital nature transactions

The Company repurchases outstanding shares of common stock when it believes that its stock price is undervalued in the marketplace. At June 30, 2002 the Company held 4,587,285 shares in treasury. These shares were distributed during fiscal year 2003 to the Company's shareholders on a pro-rata basis.

c. Inflation adjustment of common stock

As mentioned in Note 2.c. the Company's consolidated financial statements were prepared on the basis of general price-level accounting which reflected changes in the purchase price of the peso in the historical financial statements until February 28, 2003. The inflation adjustments related to common stock and treasury stock were appropriated to inflation adjustment reserves that form part of shareholders' equity. According to Argentine GAAP, the balances of the inflation adjustment reserves may be applied only towards the issuance of common stock to shareholders of the Company.

d. Restriction on the distribution of profits

In accordance with the Argentine Corporations Law and the Company's By-laws, 5% of the net and realized profit for the year calculated in accordance with Argentine GAAP plus (less) prior year adjustments must be appropriated by resolution of the shareholders to a legal reserve until such reserve equals 20% of the Company's outstanding capital (including inflation adjustment). This legal reserve may be used only to absorb losses. In addition, certain of the Company's financial debts contain covenants, which restrict the company's ability to pay dividends.

(Amounts in thousands, except share data and as otherwise indicated)

5. Shareholders equity (continued)

e. Noncontributory Management Stock Ownership Plan

On October 30, 1997, the shareholders authorized the Company to enter into a Noncontributory Management Stock Ownership Plan (NMSOP) with eight executive officers of the Company (the Beneficiaries), pursuant to which the Beneficiaries were granted the right to purchase up to 24 million shares of common stock (the Participation Shares), at a purchase price equal to Ps. 1.0 per share, subject to the implementation of an Equity Participation Agreement (EPA). Under Argentine law, the Company established a special purpose trust in this connection (the Trust).

The Beneficiaries were required to purchase the Participation Shares available, if any, within 24 months of any capital increase. The Trust has an original term of six years. According to the terms of the NMSOP and the Trust, Beneficiaries are not entitled to receive any distributions (either in the form of shares, cash or other) from the Trust during its term, although, Beneficiaries are allowed to cause the Trust to sell their designated shares of common stock held by the Trust in certain cases. In addition, the Company was not allowed to grant any loans or otherwise assist the Beneficiaries in financing the purchase of the Participation Shares.

On April 7, 1998, the Company s shareholders, at an extraordinary shareholders meeting, approved a capital increase of 24 million shares to permit the Beneficiaries to purchase all of the Participation Shares to which they were entitled under the EPA. The BASE and the CNV approved the capital increase on June 4, 1999, and on August 31, 1999 the Beneficiaries acquired 21,090,024 shares at Ps. 1.0 per share.

At June 30, 2003, all the shares held by the trust were sold in accordance with the terms of the contract and, therefore, no shares in trust are recorded.

6. Segment information

The Company is required to disclose segment information in accordance with RT 18. The Company has determined that its reportable segments are those that are based on the Company s method of internal reporting. Accordingly, the Company has five reportable segments. These segments are Development and sales of properties, Office and other non-shopping center rental properties, Shopping centers, Hotel operations and Financial operations and others.

A general description of each segment follows:

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Development and sale of properties

This segment includes the operating results of the Company's construction and ultimate sale of residential buildings business.

Office and other non-shopping center rental properties

This segment includes the operating results of the Company's lease and service revenues of office space and other non-retail building properties from tenants.

Shopping centers

This segment includes the operating results of the Company's shopping centers principally comprised of lease and service revenues from tenants. This segment also includes revenues derived from credit card transactions that consist of commissions and financing income.

Hotel operations

This segment includes the operating results of the Company's hotels principally comprised of room, catering and restaurant revenues.

Financial operations and others

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Consolidated Financial Statements

for the years ended June 30, 2005, 2004 and 2003

(Amounts in thousands, except share data and as otherwise indicated)

6. Segment information (continued)

This segment primarily includes revenues and associated costs generated from the sale of equity securities, other securities-related transactions and other non-core activities of the Company. This segment also includes the results in equity investees of the Company relating to the banking activity, internet, telecommunications and other technology-related activities of the Company.

The Company measures its reportable segments based on net income. Inter-segment transactions, if any, are accounted for at current market prices. The Company evaluates performance of its segments and allocates resources to them based on net income. The Company is not dependent on any single customer.

The accounting policies of the segments are the same as those described in Note 3.

(i) During the year ended June 30, 2003, the Company repurchased a portion of the APSA Senior Notes and the APSA Notes (Ps. 80.8 million and Ps. 1.8 million, respectively) from third parties, at different prices below par plus accrued interest. In connection with the repurchase, the Company recorded a gain of Ps. 19.8 million. Such gain is net of a charge of Ps. 5.4 million relating to the amortization of deferred financing costs associated with the repurchase obligations.

10. Issuance of IRSA Convertible Notes

On November 21, 2002, the Company issued US\$ 100 million of 8% convertible notes due 2007 (IRSA Convertible Notes) with non-detachable warrants to acquire additional shares of common stock (the Warrants) in exchange for US\$ 85 million in cash and the settlement of certain

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

liabilities (See Note 4.i.). In accordance with the agreement, IRSA Convertible Notes are convertible, at any time, at the option of the holder, into a fixed number of common shares. The agreement provides for an original conversion price of US\$ 0.55713, which only can be adjusted as a result of anti-dilution provisions. Once converted, the holder has the right to acquire an additional equal number of shares at the exercise price of US\$ 0.66856 per share. The exercise price of the warrants is also adjusted as a result of anti-dilution provisions. In accounting for this issuance, no proceeds were allocated to the conversion feature and warrants. Proceeds from the issuance of IRSA Convertible Notes were mainly used to the settlement and restructuring of the debts outstanding at that date and to finance Company's working capital.

As a result of the distribution of treasury shares approved by the shareholders in November 2002, effective December 20, 2002 the conversion price and the warrants exercise price was decreased to US\$ 0.54505 and to US\$ 0.65406, respectively.

During the years ended June 30, 2003, 2004 and 2005, certain holders of IRSA Convertible Notes for a total amount of US\$ 41.5 million exercised their conversion rights and, as a result, the Company issued 12,531 shares, 23,734,388 shares and 52,448,952 shares of common stock, respectively. During the years ended June 30, 2004 and 2005, the Company also issued 69,071,304 shares of common stock in exchange for US\$45.2 million cash as a result of the exercise of warrants. At June 30, 2005 the outstanding balance of IRSA Convertible Notes amounted to US\$58.5 million.

13. Restricted assets

- (i) In a series of transactions, which occurred between 1999 and 2000, the Company acquired from an unrelated party, Puerto Retiro, the sole asset of which is an undeveloped parcel of land in Retiro, Buenos Aires. Prior to the acquisition of Puerto Retiro by the Company, Puerto Retiro had acquired the abovementioned land from Tandanor S.A. (Tandanor), a formerly state-owned entity, which had been acquired by Inversora Dársena Norte S.A. (Indarsa) in 1991 through a privatization process. Indarsa did not cancel the outstanding balance of the purchase price of Tandanor, and as a result, the Federal Government, through its Ministry of Defense, petitioned the bankruptcy of Indarsa. Since the sole asset of Indarsa was its ownership interest in Tandanor, the government is seeking to extend the bankruptcy procedures to any company or individual, which, according to its view, acted as a group, and therefore, requested the bankruptcy of Puerto Retiro. In this connection, the bankruptcy court for the Buenos Aires District issued an order restraining the ability of Puerto Retiro to sell or dispose in any manner the land previously acquired from Tandanor. The Company is vigorously defending against this case. The Company's management and legal counsel believes that the extension of bankruptcy will be dismissed by the Court. The Company's investment in Puerto Retiro amounts to Ps. 46.5 million at June 30, 2005.
- (ii) During fiscal year 2003, the Company acquired a parcel of land in Barrio Parque (San Martin de Tours) for US\$ 310 in cash plus US\$ 750 to be paid through the transfer of title of 25% of the apartments to be built on this land. The Company has mortgaged the land in favor of the seller as collateral for the obligations assumed in the acquisition.
- (iii) The Labor Court N° 55 decided the judicial attachments of units N° 14 and 20 located in Sarmiento 517, property of the Company, in connection with a lawsuit in which the Company is codefendant.
- (iv) The Company gave a first mortgage on the property identified as Bouchard 710 as guarantee of the amount owed for its purchase. The mortgage payable is payable in quarterly installments maturing in May 26, 2008 and accrues interest at a rate of 8.5%. At June 30, 2005, the mortgage payable amounted to US\$ 17,250.
- (v) As of June 30, 2003 the shares of Emprendimiento Recoleta S.A. (ERSA) had been pledged in favor of *Banco de la Provincia de Buenos Aires* as collateral for certain obligations of the Company under the concession of the Buenos Aires Design shopping center. These obligations have been fulfilled as of June 30, 2005.
- (vi) The Company has mortgaged certain real estate properties (13 functional units at Libertador 498, 71 complementary units in Laminar Plaza and 19 complementary units in Dique IV) in connection with the issuance of the Collateralized Notes. At June 30, 2005 mortgaged properties had a net book value of Ps. 83.9 million.
- (vii) The Company has mortgaged certain real estate properties (Sheraton Libertador Hotel) as guarantee for the payment of a loan obtained by Hoteles Argentinos S.A., a subsidiary of the Company. The real estate properties had a net book value of Ps. 32.1 million at June 30, 2005. For details of the debt, see Note 4.i.(vii.)
- (viii) Other current liabilities include a liability of Ps. 42 related to a mortgage set up on acquired land for Ps. 3,314.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

- (ix) At June 30, 2005, the Company had restricted funds amounting to Ps. 1.1 million of which Ps. 0.3 million relates to certain labor lawsuits of the Company and Ps. 0.8 relates to the Llao Llao litigation. Restricted funds are classified within other current receivables.

14. Derivative instruments

The Company's derivative activity during fiscal years 2005, 2004 and 2003 is presented below:

- Interest rate swap agreements

(a) In order to minimize its financing costs, during fiscal year 2000 APSA entered into an interest rate swap agreement to effectively convert a portion of its peso-denominated fixed-rate debt to peso-denominated floating rate debt. As of June 30, 2001, APSA had an interest rate swap agreement outstanding with an aggregate notional amount of Ps. 85.0 million with maturities through April 2005. This swap agreement initially allowed APSA to reduce the net cost of its debt. However, subsequent to June 30, 2001, APSA modified the swap agreement due to an increase in interest rates as a result of the economic situation prevailing at that moment. Under the terms of the revised agreement, APSA converted its peso-denominated fixed rate debt to U.S. dollar-denominated floating rate debt for a notional amount of US\$ 69.1 million with maturities through April 2005. As collateral for the revised agreement, APSA was required to make a deposit of US\$ 50 million with the counterparty. At June 30, 2004 the swap agreement had a fair market value of US\$ (45.4) million. The swap agreement was fully settled at its maturity and, as a result, the Company collected US\$ 5.5 million in cash representing the net amount of the collateral deposit and the fair market value of the swap at its maturity. During the years ended June 30, 2005, 2004 and 2003 the Company recognized gains of Ps. 5.2 million, Ps. 11.2 million and Ps. 79.9 million, respectively, in connection with the swap agreement, which have been included within Financial results, net in the accompanying consolidated statements of income.

(b) On June 16, 2005 the Company entered into an interest rate swap agreement with Deutsche Bank AG maturing in November 2009 to effectively convert certain dollar-denominated variable rate debt (Uncollateralized Loan Agreement and Collateralized Notes) to dollar-denominated fixed rate debt. The Uncollateralized Loan Agreement and the Collateralized Notes accrue interest at LIBOR plus 2%. Pursuant to this agreement, the Company will pay interest at a fixed rate of 4.27% and collect interest at LIBOR. As a result of this agreement, the Company has fixed the interest rate of the Uncollateralized Loan Agreement and the Collateralized Notes at 6.27%. At June 30, 2005 the fair market value of the swap agreement was not significant.

- Option and future contracts to purchase metals

The Company also engages in trading of certain financial instruments. At June 30, 2004 the Company had three futures contracts outstanding to purchase 300 ounces of silver at an average price of US\$ 6.075 maturing in December 2004. At June 30, 2005 the Company had 35 contracts to purchase silver maturity in September 2005 at an average price of US\$ 7.075. As collateral for these agreements the Company maintained deposits of Ps. 358 and Ps. 694 at June 30, 2005 and 2004, respectively. The fair market value of the derivative financial instruments outstanding at June 30, 2005 and 2004 amounted to Ps. (89) and Ps. (220), respectively. The amounts of the deposits are disclosed net of the fair market values within Other receivables and prepaid expenses in the accompanying consolidated balance sheet. The Company recognized gains of Ps. 1,311 and Ps. 4,172 in trading of financial instruments during the years ended June 30, 2005 and 2004, respectively.

(Amounts in thousands, except share data and as otherwise indicated)

15. Mortgage receivable securitization

On November 2, 2001 the Company entered into a securitization program with Banco Sudameris (BS). Under this program, during the year ended June 30, 2002, the Company sold an aggregate amount of US\$ 26.6 million mortgages receivable to a Trust in exchange for US\$ 10.0 million in cash, US\$ 3.3 million senior debt certificates (Class A), US\$ 2.6 million subordinated debt certificates (Classes B and C) and a US\$ 10.7 million equity interest (Class D). Mortgages receivable sold under this program were excluded from accounts receivable in the consolidated financial statements. The Company's retained interest in Class A, B and C debt securities were valued at cost plus accrued interest while the retained interest in Class D securities is accounted for under the equity method. At June 30, 2005 the Company's retained interest in Class D equity security amounted to Ps. 3,259. Class A, B and C debt certificates had been fully amortized at June 30, 2004.

16. Tarshop credit card receivables securitization

The Company has ongoing revolving period securitization programs through which Tarshop, a majority-owned subsidiary of APSA, transfers a portion of its customer credit card receivable balances to master trusts that issue certificates to public and private investors.

Under the securitization programs, the trusts may issue two types of certificates representing undivided interests in the Trust: Títulos de Deuda Fiduciaria (TDF) and Certificados de Participación (CP), which represent debt and equity certificates, respectively. Interest and principal services are paid periodically to the TDF holders throughout the life of the security. CPs are subordinated securities which entitle the CP holders to share pro rata in the cash flows of the securitized credit card receivables, after principal and interest on the TDFs and other fees and expenses have been paid. During the revolving period no payments are made to TDF and CP holders. Principal collections of the underlying financial assets are used by the Trust to acquire additional credit card receivables throughout the revolving period. Once the revolving period ends, a period of liquidation occurs during which: (i) no further assets are purchased and (ii) all cash collections are used to fulfill the TDF service requirements and (iii) the remaining proceeds are used to fulfill the CPs service requirements.

At the time of the securitization, Tarshop transfers credit card receivables to the trust in exchange for cash and retained interests in the trust (CPs). Part of the proceeds is retained by the trustee and maintained as a cash reserve to serve as collateral for the payment of amounts due on the TDFs. Cash reserves flow back to Tarshop on a monthly basis according to a schedule until all TDFs are fully paid. Cash reserves are stated at cost and are classified within the caption Other receivables and prepaid expenses in the accompanying consolidated balance sheets. CPs are carried at their equity value based on financial statements issued by the trusts and classified as investments in the accompanying consolidated balance sheets. Tarshop recognizes a result on the sale of receivables when the carrying value of transferred credit card receivables differs from the amount of cash and CPs received. Results recognized on the sale of receivables are reported as a component of Gain (loss) in credit card trust in the accompanying consolidated statements of income.

At June 30, 2005 the Company has ten securitization programs outstanding, pursuant to which Tarshop has sold an aggregate amount of Ps.188.4 million of its customer credit card receivable balances to Trusts in exchange for Ps.156.7 million in cash proceeds, Ps. 14.2 million variable rate interest TDFs, and Ps. 17.5 million nominal value subordinated CPs. Under the securitization programs, the Trusts issued Ps.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

15.3 million 7.25% fixed-rate interest TDFs, Ps. 13.0 million 7.50% fixed-rate interest TDFs, Ps. 10.0 million 8.00% fixed-rate interest TDFs, Ps. 68.8 million 9.00% fixed-rate interest TDFs, Ps. 11.1 million 10.00% fixed-rate interest TDFs, Ps. 27.5 million 10.25% fixed-rate interest TDFs, and Ps. 11.0 million 14.00% fixed-rate interest TDFs. Except for certain TDFs acquired by Tarshop as mentioned above, the TDFs were sold to other investors through a public offering in Argentina. As a credit protection for investors, Tarshop has established cash reserves for losses amounting to Ps. 6.2 million.

17. Income and asset tax

As described in Note 3.m., the Company accounts for income taxes using the deferred tax method whereby deferred tax asset and liability account balances are determined based on differences between financial reporting and tax based assets and liabilities and are measured using the enacted tax rates.

Income tax expense (benefit) for the years ended June 30, 2005, 2004 and 2003 consists of the following:

	<u>2005</u>	<u>2004</u>	<u>2003</u>
Current income and asset tax expense	Ps. 45,792	Ps. 8,303	Ps. 3,532
Deferred income tax expense (benefit)	7,415	17,417	(7,061)
	<u> </u>	<u> </u>	<u> </u>
Income and asset tax expense (benefit)	Ps. 53,207	Ps. 25,720	Ps. (3,529)
	<u> </u>	<u> </u>	<u> </u>

The tax effects of temporary differences that give rise to the Company's deferred tax assets and liabilities at June 30, 2005 and 2004 are presented below:

	<u>Balances at beginning of year</u>	<u>Changes for the year</u>	<u>Balances at year-end</u>
Deferred tax assets (liabilities):			
Investments	Ps. (6,612)	Ps. (1,531)	Ps. (8,143)
Accounts receivable	2,412	297	2,709
Other receivables and prepaid expenses	(1,471)	(6,994)	(8,465)
Inventory	655	2,116	2,771
Fixed assets	(14,089)	(9,048)	(23,137)
Intangible assets	(561)	199	(362)
Short-term and long-term debt	7,713	(3,520)	4,193
Other liabilities	5,181	4,508	9,689
Tax loss carryforwards	103,879	2,491	106,370
Valuation allowance	(46,855)	4,067	(42,788)
	<u> </u>	<u> </u>	<u> </u>
Net deferred income tax asset	Ps. 50,252	Ps. (7,415)	Ps. 42,837

Income tax expense (benefit) for the years ended June 30, 2005, 2004 and 2003 differed from the amounts computed by applying the Company's statutory income tax rate to pre-tax income as a result of the following:

	Years ended June 30,		
	2005	2004	2003
Pretax income	Ps. 179,604	Ps. 126,424	Ps. 318,628
Statutory income tax rate	35%	35%	35%
Income tax expense at statutory tax rate on pretax income	62,861	44,248	111,520
Non-deductible expenses	(1,930)	4,405	5,854
Net loss in related companies net of intercompany transactions	4,950	8,256	57,213
Change in valuation allowance	3,005	4,947	(133,085)
Inflation adjustment, net of impairment effect	(14,107)	(33,192)	(12,898)
Others, net	(1,572)	(2,944)	(32,133)
Income and asset tax expense (benefit)	Ps. 53,207	Ps. 25,720	Ps. (3,529)

As of June 30, 2005, the Company and its subsidiaries had accumulated tax loss carryforwards of approximately Ps. 303.4 million, which expire at various dates beginning 2006 and ending 2010.

18. Earnings per share

The following tables set forth the computation of basic and diluted net income per share under Argentine GAAP for all periods presented:

	Year ended June 30,		
	2005	2004	2003
Numerator:			
Net income available to common shareholders	Ps. 103,245	Ps. 87,862	Ps. 286,445
Plus: income impact of assumed conversions:			
Interest expense on convertible debt	17,856	22,082	14,064
Foreign currency exchange (gain) loss	(5,250)	15,583	(72,999)
Income tax effects			20,627
	<u>Ps. 115,851</u>	<u>Ps. 125,527</u>	<u>Ps. 248,137</u>
Denominator:			
Weighted-average number of shares outstanding	Ps. 280,282	Ps. 225,005	Ps. 209,840
Plus: incremental shares of assumed conversions:			
Convertible debt and warrants	221,098	329,266	229,209
	<u>Ps. 501,380</u>	<u>Ps. 554,271</u>	<u>Ps. 439,049</u>
Basic and diluted EPS:			
Basic EPS	Ps. 0.37	Ps. 0.39	Ps. 1.37
Diluted EPS	Ps. 0.23	Ps. 0.23	Ps. 0.57

19. Supplementary cash flow information

The following table reconciles the balances included as cash and banks and current investments in the consolidated balance sheets to the total amounts of cash and cash equivalents at the beginning and end of the period shown in the consolidated statements of cash flows:

As of June 30,		
2005	2004	2003

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Cash and banks	98,244	93,096	89,883
Current investments	113,690	70,804	142,118
Total cash and banks and current investments as per balance sheet	211,934	163,900	232,001
Less: Items not considered cash and cash equivalents			
- Mutual funds	49,638	33,647	29,740
- Retained interest in transferred credit card receivable	10,488	6,677	4,719
- Government bonds	4,563	365	3,124
- Retained interest in transferred mortgages receivable	558	252	1,323
- Mortgage bonds issued by BHSA.	3,523		
- Other investments	575	46	38
Cash and cash equivalents as shown in the consolidated statement of cash flows	142,589	122,913	193,057

20. Shopping Neuquén S.A.

On July 6, 1999, APSA had acquired a 94.6% interest in Shopping Neuquén S.A. (Shopping Neuquén) for Ps. 4.2 million. Shopping Neuquén's sole asset is a piece of land with preliminary governmental approval for construction of a shopping center on the site. APSA had paid Ps. 0.9 million of the purchase price in September 1999 and agreed to pay the remaining Ps. 3.3 million on the earlier of (i) the opening of the shopping center or (ii) July 5, 2001.

During June 2001, Shopping Neuquén entered into negotiations with the Municipality of Neuquén to reschedule the original timing of construction. Also, Shopping Neuquén requested permission to sell a portion of the land to third parties. The Company proposed to commence construction on December 15, 2002. On December 20, 2002, the Municipality of Neuquén rejected Shopping Neuquén's proposal, nullifying the purchase agreement. In view of this circumstance, Shopping Neuquén requested the revocation of the Municipality disposition and, after rejection of this request in May 2003, lodged a remedy before the Supreme Court of the Province of Neuquén. On December 21, 2004 Shopping Neuquén was notified a resolution by the Supreme Court of Neuquén communicating the expiration of the administrative procedural action. The Court decision is not final. Notwithstanding the foregoing, the Company is currently negotiating with the Municipality of Neuquén the terms of a new agreement that will establish the conditions for the reactivation of the development and construction of the shopping center. If the extension requested by the Company is not approved and no agreement is reached, the Municipality of Neuquén could request the reconveyance of the real estate previously sold to Shopping Neuquén, in which case Shopping Neuquén runs the risk of not recovering its initial investment which amounts to Ps. 10.0 million.

Furthermore, on August 15, 2003 the Company was informed that 85.75% of the previous shareholders of Shopping Neuquén filed a complaint against the Company, claiming collection of the unpaid balance of the purchase price in US dollars plus interest and legal costs.

The Company maintains a provision of Ps. 2.3 million which represents the Company's best estimate of the probable loss to be incurred in connection with these claims.

21. Llao Llao Resorts S.A.

Llao Llao Holding S.A. (in the process of dissolution due to the merger with and into the Company), predecessor of Llao Llao Resorts S.A. (LLR) in the operation of the *Hotel Llao Llao* was sued in 1997 by the National Parks Administration to obtain collection of the unpaid balance of the additional sale price, in Argentine external debt securities amounting to US\$ 2,870. A decision of the court confirmed the claim. The sentence was appealed and the Court of Appeals confirmed the judgment demanding payment from LLR of US\$ 3,800 in Argentine external debt securities (principal plus interest) plus lawyers' fees.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

On March 2, 2004, LLR made a deposit of Ps. 7,191 in cash and Ps. 1,964 in Argentine external debt securities (with a nominal value of US\$ 4,127) in the Banco de la Ciudad de Buenos Aires in favor of the National Parks Administration. The intervening court served notice to the plaintiff of the payment made and on June 30, 2004 the plaintiff presented a statement rejecting the payment, considering it as a partial settlement of the debt, and requesting the setting up of a time deposit automatically renewable every thirty days until payment of the total debt. Based on the opinion of the Company's lawyers the Company has recorded a provision of Ps. 3,779 for the differences in the settlement of interest and expense due and payable.

In addition, during the year ended June 30, 2005 the plaintiff's lawyers filed a claim in relation to their fees, as they understand that the amounts originally agreed should have been paid in U.S. dollars and not in Argentine pesos, requesting the payment of an additional amount of US\$ 1,920. The court in a provisional remedy issued an order to attach the Company's banks accounts in the amount of Ps. 861. The Company's legal advisors challenged the amount claimed based on several reasons. The Company is currently awaiting the resolution of the submitted challenges. Based on the opinion of the Company's lawyers the Company has recorded a provision of Ps. 2,300 in connection with this claim.

At the date of issuance of these financial statements the litigation has not been resolved. All information available in connection with this matter was taken into account in assessing the potential loss contingency recorded at June 30, 2005, which represents the Company's best estimate of the probable loss to be incurred in this connection.

22. Subsequent events

Acquisition of Canteras Natal Crespo S.A.

In July 2005 the Company acquired a 38.45% ownership interest in Canteras Natal Crespo S.A. (CNC) for a total consideration of US\$ 1,307. In addition, the Company has the obligation to buy an additional 11.55% ownership interest if the remaining shareholders decide to sell their shareholdings for a total consideration of US\$ 392. CNC is a company located in the Province of Cordoba that will be engaged in the sale and development of plots, homes, buildings and other real estate activities. ECIPSA S.A. is the Company's partner in this project.

Mortgage payable restructuring

On July 1, 2005 the Company paid US\$ 422 related to the first installment of the mortgage payable for the purchase of the property identified as Bouchard 710 . In addition, on July 26, 2005 the Company signed an amendment to the mortgage pursuant to which the Company made a partial prepayment of US\$ 3,203 and agreed to settle the balance of US\$ 13,625 in 34 monthly equal and consecutive installments of US\$ 452 each (including interest at a rate of 8.5%).

Agreement with Argentimo S.A. and Constructora San José Argentina S.A.

Subsequent to year-end, APSA entered into an agreement with Argentimo S.A. and Constructora San José Argentina S.A. pursuant to which the parties have established the bases and guidelines to carry forward a negotiation process in order to project the development of a commercial center and an apartment or office building. In connection with the agreement, APSA made a collateral bank deposit of US\$ 3 million (escrow account) in favor of Argentimo S.A. This collateral deposit will remain deposited until a series of requirements of the project is complied with and will be computed as payment for the transaction when the final agreement is executed. If the parties do not reach an agreement to execute the project, the Company will collect the deposit plus accrued interest. The negotiation term to execute the final agreement will terminate on December 6, 2005, unless all the parties decide to postpone such date through executing a specific agreement.

23. Differences between Argentine GAAP and US GAAP

The Company's consolidated financial statements have been prepared in accordance with Argentine GAAP and the regulations of the CNV, which differ in certain significant respects from US GAAP. Such differences involve methods of measuring the amounts shown in the consolidated financial statements, as well as additional disclosures required by US GAAP and the regulations of the SEC.

As discussed in Notes 2.c. and 3.m., in order to comply with regulations of the CNV, the Company discontinued inflation accounting as from March 1, 2003 as well as recognized deferred income tax assets and liabilities on a non-discounted basis. The application of the CNV regulations represents a departure from generally accepted accounting principles in Argentina. However, such departure has not had a material effect on the accompanying consolidated financial statements.

I. Differences in measurement methods

The following reconciliation to US GAAP does not include the reversal of the adjustments to the consolidated financial statements for the effects of inflation through February 28, 2003, because the application of this standard represents a comprehensive measure of the effects of price level changes in the Argentine economy.

The principal differences, other than inflation accounting, between Argentine GAAP and US GAAP are described below, together with an explanation, where appropriate, of the method used in the determination of the necessary adjustments.

	Year ended June 30,		
	2005	2004	2003

23. Differences between Argentine GAAP and US GAAP (continued)

	For the year ended June 30,	
	2005	2004
Description of changes in shareholders' equity under US GAAP:		
Shareholders' equity under US GAAP at the beginning of the year	Ps. 587,740	Ps. 502,803
Issuance of common stock upon conversion of debt and exercise of warrants	108,464	36,790
Additional paid-in-capital common stock	81,907	22,271
Additional paid-in-capital warrants	(1,241)	3,745
Unrealized gain on available-for-sale securities	9,978	3,501
Unrealized (loss) gain on retained interest in securitization programs	(821)	1,379
Unrealized gain on available-for-sale securities on equity investees	6,291	14,426
Net income under US GAAP	129,398	2,825
Shareholders' equity under US GAAP at the end of the year	Ps. 921,716	Ps. 587,740

(a) Retrospective application of accounting standards*Consolidation of LLR*

As discussed in Note 2.d., under Argentine GAAP and as a result of the adoption of RT No. 21, the Company began consolidating LLR during fiscal year 2004. As required by the transition provisions, this new standard was retrospectively applied for comparative purposes. Therefore, the 2003 US GAAP reconciliation was modified to reflect the US GAAP adjustments of LLR on a consolidated basis.

Change to the equity method of accounting

As discussed in Note 3.c.(ii)a), during fiscal year 2004 the Company changed the accounting method for its investments in BHSA's and BACSA's shares from market value and cost, respectively, to the equity method of accounting. Under Argentine GAAP, the Company recognized the cumulative effect of the change in earnings during fiscal year 2004. Under US GAAP, the financial statements of prior years were retroactively adjusted as required by APB Opinion No. 18, "The Equity Method of Accounting for Investments in Common Stock" (APB No. 18), to reflect the investments under the equity method of accounting in a manner consistent with the accounting for a step acquisition of a subsidiary. Under US GAAP, the investment in BHSA had been originally classified as available-for-sale securities in accordance with Statements of Financial Accounting Standards No. 115 (SFAS 115), "Accounting for Certain Investments in Debt and Equity Securities", and accordingly unrealized gains and losses had been excluded from income and reported as a separate component of shareholders' equity, except when the decline in fair value was considered other-than temporary.

Table of Contents**IRSA Inversiones y Representaciones Sociedad Anónima****Notes to the Consolidated Financial Statements (continued)**

(Amounts in thousands, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)**(a) Retrospective application of accounting standards (continued)**

The impact of the retrospective application of the equity method of accounting on previously reported US GAAP amounts of net income for the year ended June 30, 2003 and of shareholders' equity at June 30, 2003 is presented in the following table:

	2003	
	Shareholders	
	equity	Net income
Amounts as originally reported	Ps. 630,693	Ps. 191,248
Impact of US GAAP adjustments on equity investees	(125,477)	39,481
Accounting for marketable securities		6,765
Deferred income tax	(4,825)	(2,368)
Minority interest	2,412	
Amounts as adjusted	Ps. 502,803	Ps. 235,126

The effect of the retrospective application of the equity method of accounting on originally reported US GAAP amounts of comprehensive income for the year ended June 30, 2003 and of accumulated other comprehensive income at June 30, 2003 is as follows:

	2003	
	Accumulated other comprehensive income	Comprehensive income
Amounts as originally reported	Ps. 3,945	Ps. 197,957
Amounts as adjusted	Ps. 5,303	Ps. 243,193

The effect of the retrospective application of the equity method of accounting on originally reported US GAAP amounts of basic and diluted net income per share for the year ended June 30, 2003 is as follows:

	<u>As originally reported</u>	<u>As adjusted</u>
Basic net income per share	Ps. 0.91	Ps. 1.12
Diluted net income per share	Ps. 0.47	Ps. 0.60

(b) Impact of US GAAP adjustments on equity investees

Under Argentine GAAP, investments in companies in which the Company exercises significant influence, but not control, are accounted for under the equity method. Under the equity method, the investment is recorded at original cost and periodically increased (decreased) by the investor's proportionate share of earnings (losses) of the investee and decreased by all dividends received from the investor by the investee. The Company applies its percentage ownership interest to the financial statements of its equity method investments prepared under Argentine GAAP. For purposes of this reconciliation, the Company has assessed the impact of US GAAP adjustments on the Argentine GAAP financial statements of its equity investees. As a consequence of this assessment, the Company recognized a net gain (loss) of Ps. 71.8 million, Ps. (46.8) million and Ps. 48.0 million for the years ended June 30, 2005, 2004 and 2003, respectively.

(Amounts in thousands, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

(b) Impact of US GAAP adjustments on equity investees (continued)

This adjustment primarily includes the effect of the different accounting treatment between Argentine GAAP and US GAAP in accounting for the Company's investment in BHSA and BACSA until June 30, 2004. As discussed in Note 3.c.(ii)a), during fiscal year 2004 the Company changed the accounting method for its investments in BHSA's and BACSA's shares from market value and cost, respectively, to the equity method of accounting. Under Argentine GAAP, the Company recognized the cumulative effect of the change in earnings during fiscal year 2004. Under US GAAP, the financial statements of prior years were retroactively adjusted as required by APB Opinion No. 18, "The Equity Method of Accounting for Investments in Common Stock" (APB No. 18), to reflect the investments under the equity method of accounting in a manner consistent with the accounting for a step acquisition of a subsidiary. As from fiscal year 2004, under both Argentine GAAP and US GAAP the investments in BHSA and BACSA are accounted for under the equity method of accounting. However, there are significant US GAAP adjustments that affect the Company's equity investments in BHSA and BACSA reported under Argentine GAAP, which relate primarily to: (a) the accounting for compensatory and hedge bonds received by BHSA from the Argentine Government as compensation of the negative effects of the conversion into pesos of financial institutions' assets and liabilities at different exchange rates; (b) the accounting for the restructuring of its debts; (c) the accounting for securitization programs of mortgage loans; (d) the accounting for secured loans received from the Argentine Government in exchange for Argentine public-sector debt instruments; and (e) the accounting for impairments of fixed and foreclosed assets.

This adjustment also includes the effects of US GAAP adjustments of other equity investees related principally to (i) the recognition of pre-operating and organization costs as expenses, (ii) the accounting for certain assets and liabilities on a non-discounted basis, (iii) the reversal of a gain recognized under Argentine GAAP related to the restoration of a previously recognized impairment loss, (iv) the treatment of the differences between the price-level restated amounts of assets and liabilities and their historical basis as temporary differences in calculating deferred income taxes, (v) the accounting for available-for-sale securities, and (vi) the effect on deferred income taxes of the above mentioned reconciling items, as appropriate.

(c) Accounting for marketable securities

Under Argentine GAAP, the Company's investments in mutual funds and government and mortgage bonds are carried at market value with unrealized gains and losses, if any, included in the statement of income.

Under US GAAP, the Company has classified these investments as available-for-sale and is carrying these investments at market value with material unrealized gains and losses, if any, included in stockholders' equity in accordance with Statement of Financial Accounting Standards No. 115 "Accounting for Certain Investments in Debt and Equity Securities" (SFAS No. 115). Specific identification was used to determine cost in computing realized gain or loss. The Company's investments are considered available for sale as these securities could potentially be sold in response to needs for liquidity, changes in the availability of and the yield on alternative instruments or changes in funding sources or terms.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Management determines the appropriate classification of debt and equity securities at the time of purchase and reevaluates such designation as of each balance sheet date. SFAS No. 115 also states that for individual securities classified as available-for-sale an enterprise shall determine whether a decline in fair value below the amortized cost basis is other than temporary. In such event, accumulated unrealized losses included in other comprehensive income shall be reclassified into the statement of income. Accordingly, during fiscal year 2003, the Company recognized in earnings unrealized holding losses amounting to Ps. 7,697.

During the years ended June 30, 2005, 2004 and 2003, proceeds from the sale of available-for-sale securities were Ps. 284.6 million, Ps. 120.0 million and Ps. 263.7 million, respectively. Gross realized gain (loss) was Ps. 0.3 million, Ps. 3.2 million and Ps. (6.0) million for the years ended June 30, 2005, 2004 and 2003, respectively.

Notes to the Consolidated Financial Statements (continued)

(Amounts in thousands, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

(d) Accounting for derivatives and hedging activities

As discussed in Note 3.v., from time to time, the Company utilizes certain financial instruments to manage its foreign currency and interest rate exposures, and as a supplement to reduce its overall financing costs. The Company also engages in trading of certain financial instruments.

Under Argentine GAAP, the Company's derivative financial instruments are carried at their fair market value on the consolidated balance sheet. Changes in the derivative's fair market value are reported in earnings.

Under US GAAP, the Company applies Statement of Financial Accounting Standards No.133 Accounting for Derivative Instruments and Hedging Activities and subsequent amendments (SFAS No. 133) as from July 1, 2000. SFAS No. 133 establishes accounting and reporting standards requiring that every derivative instrument be recorded in the balance sheet as either an asset or liability measured at its fair value. SFAS No. 133 requires that changes in the derivative's fair value be recognized currently in earnings unless specific hedge accounting criteria are met. Special accounting for qualifying hedges allows a derivative's gains and losses to offset related results on the hedged item in the income statement, and requires that a company must formally document, designate, and assess the effectiveness of transactions that receive hedge accounting. Under US GAAP, the Company's derivative instruments outstanding at June 30, 2005 and 2004 do not qualify for hedge accounting treatment under SFAS No.133. As such, no differences exist in accounting for derivatives and hedging activities between Argentine GAAP and US GAAP.

Additional disclosure requirements

The Company's policy requires that contracts used as hedges must be effective at reducing the risk associated with the exposure being hedged and must be designated as a hedge at the inception of the contract. Hedging effectiveness is assessed periodically. Any contract that is either not designated as a hedge, or is so designated but is ineffective, is marked to market and recognized in earnings immediately. The Company will discontinue hedge accounting prospectively if it is determined that the derivative is no longer effective in offsetting changes in the fair value or cash flows of a hedged item; when the derivative expires or is sold, terminated, or exercised; when the derivative is dedesignated as a hedge instrument, because it is probable that the forecasted transaction will not occur; or management determines that designation of the derivative as a hedge instrument is no longer appropriate.

The Company formally documents all relationships between hedging instruments and hedged items, as well as its risk-management objective and strategy for undertaking various hedge transactions. In this documentation, the Company specifically identifies the asset, liability, firm commitment, or forecasted transaction that has been designated as a hedged item and states how the hedging instrument is expected to hedge the risks related to the hedged item. The Company formally measures effectiveness of its hedging relationships both at the hedge inception and on an ongoing basis in accordance with its risk management policy.

When hedge accounting is discontinued because it is probable that a forecasted transaction will not occur, the derivative will continue to be carried on the balance sheet at its fair value, and gains and losses that were accumulated in OCI will be recognized immediately in earnings. When the hedged forecasted transaction is no longer probable, but is reasonably possible, the accumulated gain or loss remains in OCI and will be recognized when the transaction affects earnings; however, prospective hedge accounting, for this transaction is terminated. In all other situations in which hedge accounting is discontinued, the derivative will be carried at its fair value on the balance sheet, with changes in its fair value recognized in current-period earnings.

23. Differences between Argentine GAAP and US GAAP (continued)

(e) Noncontributory management stock ownership plan

As discussed in Note 5.e., on October 30, 1997, the shareholders authorized the Company to enter into a Noncontributory Management Stock Ownership Plan (NMSOP) with eight executive officers of the Company (the Beneficiaries), pursuant to which the Beneficiaries were granted options to purchase up to 24 million shares of common stock (the Participation Shares), at a purchase price equal to Ps. 1.0 per share, subject to the implementation of an Equity Participation Agreement (EPA). Under Argentine law, the Company established a special purpose trust in this connection (the Trust). On April 7, 1998, the Company's shareholders, at an extraordinary shareholders' meeting, approved a capital increase of 24 million shares to permit the Beneficiaries to purchase all of the Participation Shares to which they were entitled under the EPA. As of June 30, 1998, the EPA had not yet been implemented. On October 1, 1998, the Company issued 21,090,024 shares to be subscribed by the Beneficiaries and, on August 31, 1999, the Company and the Beneficiaries entered into a Subscription Agreement pursuant to which the Beneficiaries purchased from the Company the abovementioned amount of shares at Ps. 1.0 per share.

Under the Subscription Agreement, the Participation Shares were placed into the Trust. The Trust has an original term of six years. According to the terms of the NMSOP and the Trust, Beneficiaries are not entitled to receive any distributions (either in the form of shares, cash or otherwise) from the Trust during its term, although, Beneficiaries are allowed to cause the Trust to sell their designated shares of common stock held by the Trust in certain cases, such as, to prepay the loans obtained to finance the purchase of the Participation Shares. The Trust will release the shares to the Beneficiaries on the sixth anniversary of the inception of the Trust on a pro rata basis.

Under Argentine GAAP, the Company accounted for the issuance of the Participation Shares at the price of Ps. 1.0 per share. Consequently, no compensation expense was recognized in the statement of income.

Under US GAAP, the Company adopted SFAS No. 123, Accounting for Stock-Based Compensation. This statement gave the Company the option of either (1) continuing to account for stock-based employee compensation plans in accordance with the guidelines established by Accounting Principles Board (APB) No. 25, Accounting for Stock Issued to Employees and related interpretations while providing the disclosures required under SFAS No. 123, or (2) adopting SFAS No. 123 accounting for all employee and non-employee stock compensation arrangements. The Company opted to continue to account for its stock-based awards using the intrinsic value method in accordance with APB No. 25.

In connection with the Company's issuance of restricted stock to executive officers during the year ended June 30, 1999, the Company recorded unearned stock compensation of Ps. 97,355 for the difference between the issuance price of the restricted stock at date of issuance and the fair value of the shares of common stock subject to the awards. This amount was included as a reduction of stockholder's equity and was being amortized to expense on a straight-line basis over 7 years. The Company had recognized stock compensation expense of Ps. 13,908 for each of the two years in the period ended June 30, 2000.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

On May 31, 2001, the Company entered into a Confidential Separation Agreement and General Release (the Agreement) with its Chief Financial Officer (the CFO) pursuant to which the Company and the CFO set forth therein their mutual agreement with respect to all matters relating to the CFO s resignation and cessation of employment with the Company and the CFO s release of claims upon the terms set forth therein. The CFO formed part of one of the eight members of management who had been granted restricted shares pursuant to the NMSOP.

F-57

Table of Contents

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Consolidated Financial Statements (continued)

(Amounts in thousands, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

(e) Noncontributory management stock ownership plan (continued)

Pursuant to the Agreement, the Company accelerated the vesting of all of the restricted shares so as to allow the CFO to sell the shares as part of its termination settlement. On May 24, 2001, the CFO entered into a Purchase Agreement (the Purchase Agreement) with one of the principal shareholders of the Company and also a Beneficiary under the EPA, pursuant to which the CFO sold its respective shares in the Trust at a fixed price per share below the fair market value per share at the date of the Purchase Agreement. Therefore, no additional compensation cost was recognized.

In March 2000, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 44, Accounting for Certain Transactions Involving Stock Compensation - an interpretation of APB Opinion No. 25 (FIN 44). FIN 44 clarifies the application of APB No. 25 for only certain issues. Among other issues, FIN 44 clarifies the definition of employee for purposes of applying APB No. 25, the criteria for determining whether a plan qualifies as a non-compensatory plan, the accounting consequences of various modifications to the terms of previously fixed stock options or awards, and the accounting for an exchange of stock compensation awards in a business combination. The Company adopted FIN 44 beginning July 1, 2000. FIN 44 stipulates that a modification to accelerate the vesting of a fixed award effectively results in the renewal of that award if, after the modification, an employee is able to exercise (vest in) an award that, under the original terms, would have expired unexercisable (unvested). Compensation cost is measured on the modification date. That cost is calculated as the excess of the award's intrinsic value on the modification date over the award's intrinsic value on the original measurement date, if any. That cost would be recognized as compensation cost if, absent the acceleration, the award would have been forfeited unexercisable (unvested) pursuant to the original terms. On September 11, 2000, the EITF issued EITF 00-23 Issues Related to the Accounting for Stock Compensation which further clarified this matter. The Task Force reached a consensus in EITF 00-23, that if the former employee is providing no substantive services to the grantor subsequent to the termination, the award should continue to be accounted for under Opinion 25, and the modification should be accounted for under FIN 44. Since the award's intrinsic value on the modification date (Ps. 1.03 per share) was less than the award's intrinsic value on the original measurement date (Ps. 4.62 per share), no additional compensation cost was recognized on the modification. However, the unearned compensation expense was recognized to expense on the date the accelerated vesting occurred. As such, the Company recorded an additional loss of Ps. 3,710 for the year ended June 30, 2001. Total compensation expense was Ps. 17,618 and Ps. 12,980 for the years ended June 30, 2001 and 2002, respectively.

As discussed in Note 5.e., at June 30, 2003 all the shares held by the trust had been sold and proceeds distributed to the beneficiaries. As a result, during the year ended June 30, 2003 the Company recognized in earnings the remaining portion of unearned compensation expense amounting to Ps. 38,941. No additional compensation cost was recognized since the award's intrinsic value on the modification date was less than the award's intrinsic value on the original measurement date.

(Amounts in thousands, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)**(e) Noncontributory management stock ownership plan (continued)**

Had compensation cost for the awards under the NMSOP been determined based on the grant date fair values consistent with the method required under SFAS No 123, the Company's net income under US GAAP would have been decreased to the pro forma amounts indicated below:

	Year ended	
	June 30, 2003	
	As	
	reported	Pro forma
Net income	235,126	238,499
Net income before accounting changes	235,126	238,499
Basic net income per share	1.12	1.14
Diluted net income per share	0.60	0.70

The fair value of each option was estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions:

Expected lives in days	129 days
Risk free interest rates	9.00%
Dividend yield	0.00%
Volatility	36.72%

Table of Contents

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Consolidated Financial Statements (continued)

(Amounts in thousands, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

(f) Depreciation of fixed assets

Under Argentine GAAP, the Company depreciates office and apartment buildings over 50 years. For US GAAP purposes, determination of the useful lives of assets is judgmental and considers such factors as the condition and age of the buildings, the type of construction and the effects of usage by its owners or tenants. Accordingly, for US GAAP purposes, buildings would have been depreciated using an estimated useful life of 40 years.

(g) Pre-operating and organization expenses

Under Argentine GAAP, the Company capitalizes certain costs relating to pre-opening activities of the Company's shopping centers and expenses incurred in the organization of subsidiaries. These expenses are amortized on a straight-line basis over a 3 to 5 year period commencing upon the opening of the shopping center or launching of the project. Under US GAAP, these expenses are charged to expense as incurred.

(h) Mortgage payable with no stated interest rate

In 1991, the Company obtained a non-interest bearing mortgage with a face value of US\$ 3.3 million to acquire a property (Suipacha 652/64). Under Argentine GAAP, the Company did not make any fair value adjustment for this non-interest bearing mortgage. Under US GAAP however, and in accordance with Accounting Principles Board (APB) Opinion No. 21, Interest on Receivables and Payables, the non-interest bearing mortgage held by the Company was recorded at the estimated market value of the note. The Company used an interest rate of 12%, which approximated its weighted-average borrowing rate, in determining the present value of this debt. This mortgage was fully repaid in November 1996. As a result, the carrying value of the acquired property was decreased by Ps. 2.0 million. This adjustment gives rise to differences in depreciation expense.

(i) Securitization accounting

As discussed in Notes 15 and 16, the Company has entered into securitization programs, through which the Company transferred a portion of its mortgage receivables and credit card receivables to the trusts in exchange for cash, debt certificates (TDFs) and retained interests in the trusts (CPs). Part of the proceeds is retained by the trustee and maintained as a cash reserve to serve as collateral for the payment of amounts due on the TDFs. Cash reserves flow back to the Company on a monthly basis according to a schedule until all TDFs are fully paid. In the past the Company remained the servicer on the accounts and received a fee for the services performed. Income from servicing activities was recognized as services were performed.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Under Argentine GAAP, the Company recognizes a result on the sale of receivables when the carrying value of transferred receivables differs from the amount of cash, TDFs and CPs received. Results recognized on the sale of receivables are reported as a component of Gain (loss) in credit card trust in the accompanying statements of income. Cash reserves are stated at cost and are classified within the caption Other receivables and prepaid expenses in the accompanying consolidated balance sheets. TDFs are valued at amortized costs and CPs are carried at their equity value based on financial statements issued by the trusts. TDFs and CPs are classified as investments in the accompanying consolidated balance sheets. Certain expenses associated with the securitization of receivables are capitalized and amortized over the term of the agreements.

F-60

Table of Contents**IRSA Inversiones y Representaciones Sociedad Anónima****Notes to the Consolidated Financial Statements (continued)**

(Amounts in thousands, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)**(i) Securitization accounting (continued)**

Under US GAAP, the Company applies Statement of Financial Accounting Standards No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities (SFAS No. 140). SFAS No. 140 requires an entity to recognize the financial and servicing assets it controls and the liabilities it has incurred and to derecognize financial assets when control has been surrendered. The proceeds of securitized financial assets are allocated to the assets sold, the servicing asset or liability and retained interest, based on their relative estimated fair values at the transfer date in determining the gain on the securitization transaction. SFAS No. 140 also requires an entity to recognize a servicing asset or servicing liability each time it undertakes an obligation to service financial assets that have been securitized and amortize it over the period of estimated net servicing income or loss. The Company has not recognized any servicing asset or liability since the estimated fair value of the servicing right was zero. In determining the estimated fair value, the Company considered the fees received as compensation just adequate to compensate the Company for its servicing responsibilities (i.e. the fees received as compensation for the services rendered are similar to those that would be paid to a substitute servicer, should one be required, according to estimated market values).

The retained interests in mortgage and credit card receivables are treated as debt securities classified as available-for-sale in accordance with SFAS No. 115 and are carried at fair value. At the time of securitization, the retained interest is initially recorded at the basis allocated in accordance with SFAS No. 140. This original cost basis is periodically adjusted to fair value, which is based on the discounted anticipated future cash flows on a cash out basis. The cash out method projects cash collections to be received only after all amounts owed to investors have been paid. Adjustments to fair value (net of related deferred income taxes) are recorded as a component of other comprehensive income. SFAS No. 115 also states that for individual securities classified as available-for-sale an enterprise shall determine whether a decline in fair value below the amortized cost basis is other than temporary. In such event, accumulated unrealized losses included in other comprehensive income shall be reclassified into the statement of income. Cash reserves are considered retained interests and as such they are considered in calculating the gain or loss on the sale of receivables under US GAAP.

Provided below is an analysis of the securitization accounting adjustments, including a description of each significant component, where appropriate.

- The shareholders' equity adjustments represent the difference in the valuation of the Company's retained interests in the trusts related to securitization programs that qualified for sale treatment under US GAAP. Under Argentine GAAP, retained interests in the trusts are carried at their equity value. Under US GAAP those retained interests are considered available-for-sale securities in accordance with SFAS 115 and, as a result, are carried at their estimated fair market value. The US GAAP adjustments affecting shareholders' equity at June 30, 2005 and 2004 are as follows:

	<u>2005</u>	<u>2004</u>
Equity value as reported under Argentine GAAP	Ps. 33,432	Ps. 24,605

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Less: retained interests related to securitization programs that did not qualify as a sale under US GAAP	(9,476)	(7,413)
	<u> </u>	<u> </u>
Equity value reported under Argentine GAAP of retained interests related to securitization programs that qualified as a sale under US GAAP	Ps. 23,956	Ps. 17,192
Estimated fair market value of retained interests related to securitization programs that qualified as a sale under US GAAP	27,088	16,532
	<u> </u>	<u> </u>
US GAAP adjustment	Ps. 3,132	Ps. (660)
	<u> </u>	<u> </u>

F-61

Table of Contents**IRSA Inversiones y Representaciones Sociedad Anónima****Notes to the Consolidated Financial Statements (continued)**

(Amounts in thousands, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)**(i) Securitization accounting (continued)**

- The US GAAP adjustments affecting net income as reported under Argentine GAAP for the years ended June 30, 2005, 2004 and 2003 are as follows:

	<u>2005</u>	<u>2004</u>	<u>2003</u>
Reversal of results recognized under Argentine GAAP ⁽¹⁾	Ps. 2,654	Ps. 621	Ps. 6,020
Recognition of results under US GAAP ⁽²⁾	1,514	(2,408)	(551)
US GAAP adjustment	<u>Ps. 4,168</u>	<u>Ps. (1,787)</u>	<u>Ps. 5,469</u>

⁽¹⁾ Includes the reversal of results reported in Gain (loss) in credit card trust in the Company's consolidated statements of income as well as the reversal of inflation accounting results reported within Financial results, net in the Company's consolidated statements of income.

⁽²⁾ Primarily includes the gain or loss recorded on the sale of receivables plus unrealized losses on retained interests considered other-than-temporary.

Regarding receivables transferred in connection with the Company's securitization programs that qualified for sale treatment under US GAAP, neither the Company nor the trustee have responsibility over any shortfall or failure in collecting the receivables which are the source of cash payment for the TDF holders. Furthermore, the agreements relating to the securitization stipulate that the rights of the beneficiaries (TDF holders) will not be affected by any financial or liquidity failure of either the trustee or the Company. The agreements also state that the transfer qualifies as a non-recourse transfer of receivables since if receivables are not collected in full, neither the trustee nor the Company is obligated to use its own cash flows to cover any potential shortfall or collection failure.

During the years ended June 30, 2005, 2004 and 2003 proceeds from securitization programs were Ps. 166.7 million, 65.5 million and Ps. 5.0 million, respectively.

The following summarizes the changes in the balance of the Company's retained interest under US GAAP for the years ended June 30, 2005, 2004 and 2003:

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

	<u>Cost</u>	<u>Estimated unrealized (loss) gain</u>	<u>Fair value</u>
Balance at June 30, 2002	Ps. 4,672	Ps. (1,045)	Ps. 3,627
Incorporation of APSA ⁽ⁱ⁾	2,818		2,818
Impairment of value	(839)		(839)
Unrealized net gain ⁽ⁱⁱ⁾		1,697	1,697
Balance at June 30, 2003	Ps. 6,651	Ps. 652	Ps. 7,303
Retained interest in portfolios sold	5,903		5,903
Unrealized net gain		3,326	3,326
Balance at June 30, 2004	Ps. 12,554	Ps. 3,978	Ps. 16,532
Retained interest in portfolios sold	12,909		12,909
Liquidation of retained interest	(1,977)		(1,977)
Unrealized loss		(376)	(376)
Balance at June 30, 2005	Ps. 23,486	Ps. 3,602	Ps. 27,088

- ⁽ⁱ⁾ Represents the retained interest on transferred credit card receivables of APSA at the date of consolidation, net of retained interest liquidated during the year. The related amount is disclosed net of unrealized losses of Ps. 2,376 recognized by APSA in earnings during fiscal year 2002.

Table of Contents**IRSA Inversiones y Representaciones Sociedad Anónima****Notes to the Consolidated Financial Statements (continued)**

(Amounts in thousands, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)**(i) Securitization accounting (continued)**

As of June 30, 2005 and 2004, the gross net unrealized gain has been offset by a deferred tax loss of Ps. 1,261 and Ps. 1,392, respectively.

The key economic assumptions used in measuring the fair value of retained interests at the time of and subsequent to a securitization are the estimated cash flows and the discount rate. At June 30, 2005, the estimated cash flows have been discounted at 9.9% for mortgage receivables and 14% for credit card receivables. The following represents the sensitivity of the current fair value of retained interest in securitizations at June 30, 2005 to changes to key assumptions:

	Impact on fair value of a	
	5% interest rate increase	10% interest rate increase
Discount rate	Ps. (1,362)	Ps. (2,613)

The above sensitivities are hypothetical and should be used with caution. As the amounts indicate, changes in fair value based on variations in assumptions generally cannot be extrapolated because the relationship of the change in assumption to the change in fair value may not be linear. Also, in this table, the effect of a variation in a particular assumption on the fair value of the retained interest is calculated without changing any other assumption. In reality, changes in one factor may result in changes in another, which might magnify or counteract the sensitivities. The Company's managed mortgage and credit card receivables consist of retained interests in mortgage and credit card receivable securitizations and investor's share of securitizations sold to unrelated parties without recourse. The Company records its retained interests in mortgage and credit card receivables securitizations on the consolidated balance sheet.

(j) Differences in basis relating to purchase accounting

Under Argentine GAAP and US GAAP, the Company applies the purchase method of accounting to its business acquisitions. Accordingly, the fair market value of assets and liabilities acquired is estimated and the excess of the purchase price over the fair value, if any, is considered goodwill. In the event the fair value of the net assets acquired exceeds the consideration paid, the excess is amortized on a straight-line basis over the weighted-average remaining useful lives of the assets acquired. Under Argentine GAAP, such excess is classified as negative goodwill in the consolidated balance sheet. Under US GAAP, such excess would have been allocated to reduce the carrying value of the assets acquired.

The US GAAP adjustment reflects the application of certain US GAAP adjustments when estimating the fair value of such assets and liabilities, and is comprised of adjustments to goodwill and negative goodwill balances recorded under Argentine GAAP.

The differences in the carrying amount of negative goodwill give rise to differences in depreciation expense. The differences in the carrying amount of goodwill between Argentine GAAP and US GAAP gave rise to differences in amortization expense until June 30, 2002. Effective July 1, 2002, the Company adopted SFAS No. 142 and, as such, discontinued amortization of goodwill as from that date. As a result, the US GAAP income adjustments primarily represent the reversion of the amortization charges recorded under Argentine GAAP.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Consolidated Financial Statements (continued)

(Amounts in thousands, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

(k) Present-value accounting

As indicated in Note 3.i, under Argentine GAAP, certain other receivables and liabilities are measured based on the best estimate of the amount receivable and payable, respectively, discounted at the interest rate applicable to freely available saving accounts published by the Argentine Central Bank in effect at the time of incorporation to the balance sheet. Under US GAAP, present valuing or discounting of these assets and liabilities is precluded.

In addition, as mentioned in Note 4.i.(iv), subsequent to June 30, 2003 the Company repurchased US\$ 16 million of the Uncollateralized Loan Agreement. As required by Argentine GAAP, at June 30, 2003 the Company recorded this portion of the Uncollateralized Loan Agreement at its settlement cost, recognizing a gain on early redemption of debt of Ps. 10.7 million. Under US GAAP, such a gain was recorded during fiscal year 2004 when settlement occurred.

(l) Restoration of previously recognized impairment losses

As discussed in Notes 3.c.(ii).c), 3.d. and 3.e, as a result of an increase in fair market values and as required by Argentine GAAP, during fiscal year 2005, 2004 and 2003 the Company partially reversed certain impairment charges that the Company had recognized during fiscal years 2002 and 2003. Amounts reversed during fiscal years 2005, 2004 and 2003 amounted to Ps. 28.0 million, Ps. 63.1 million and Ps. 25.4 million, respectively. Under US GAAP, restoration of a previously recognized impairment loss is prohibited. When an impairment loss is recognized, the adjusted carrying amount of the asset becomes the new cost basis, which is depreciated over the remaining useful life of the asset. Depreciation expense reversed under US GAAP during fiscal years 2005 and 2004 amounted to Ps. 4.1 million and Ps. 1.3 million, respectively, and are shown netted against the reversal of the restored impairment under Argentine GAAP.

Notes to the Consolidated Financial Statements (continued)

(Amounts in thousands, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

(m) Accounting for convertible notes

As discussed in Note 10, in November 2002 the Company issued US\$ 100 million of IRSA Convertible Notes with non-detachable warrants to acquire additional shares of common stock. In accordance with the agreement, IRSA Convertible Notes are convertible at any time, at the option of the holder, into a fixed number of common shares. Once converted, the holder has the right to acquire an additional equal number of shares at the exercise price of the warrant. For Argentine GAAP purposes, no proceeds were allocated to the conversion feature and warrants.

Under US GAAP, the Company applied EITF No. 00-27, Application of Issue No. 98-5 to Certain Convertible Instruments (EITF No. 00-27), which address how a beneficial conversion amount should be measured when an entity issues a convertible instrument that, if converted, will result in the holder receiving common stock and other equity instruments of the issuer, such as warrants to acquire common stock of the issuer. In EITF No. 00-27, the Task Force reached a tentative conclusion that the intrinsic value of the conversion option should be computed based on a comparison of (a) the proceeds of the convertible instrument allocated to the common stock portion of the conversion option and (b) the fair value at the commitment date of the common stock to be received by the holder upon conversion. The excess of (b) over (a) is the intrinsic value of the embedded conversion option that should be recognized by the issuer at the issuance date for the convertible instrument. In EITF No. 00-27 the Task Force also reached a consensus that the Issue 98-5 model should be modified for convertible instruments that have a stated redemption date to require a discount resulting from recording a beneficial conversion option to be accreted from the date of issuance to the stated redemption date of the convertible instrument, regardless of when the earliest conversion date occurs. EITF 00-27 also states that the entire unamortized discount, if any, remaining at the date of conversion should be immediately recognized as interest expense. As a result of applying EITF 00-27, under US GAAP the Company allocated Ps. 36,191 of the proceeds received, representing the intrinsic value of the embedded beneficial conversion feature at the commitment date, to additional paid-in capital (Ps. 23,524 net of income tax). The resulting debt discount is being recognized as expense over the term of the Convertible Notes. Upon conversion, warrants are recognized as additional paid-in capital and any unamortized discount is immediately recognized as interest expense. Total discount amortization recognized during the years ended June 30, 2005, 2004 and 2003 totaled Ps. 8,183, Ps. 9,362 and Ps. 3,102, respectively (included accelerated amortization recognized as a result of conversions made during those years). As IRSA Convertible Notes are denominated in U.S. Dollars, the US GAAP adjustment also includes the elimination of exchange rate differences between the Argentine peso and the U.S. Dollar related to the debt discount. Foreign exchange gains (losses) reversed under US GAAP totaled Ps. 338, Ps. (1,431) and Ps. 7,185 during the years ended June 30, 2005, 2004 and 2003, respectively. The Company also recognized a loss of Ps. 181 during the year ended June 30, 2003 related to inflation accounting.

During the years ended June 30, 2005, 2004 and 2003 certain holders of IRSA Convertible Notes for a total amount of US\$ 41.5 million, exercised its conversion rights and, as a result, the Company issued 52,448,952, 23,734,388 and 12,531 shares of common stock, respectively. Upon conversion, during the years ended June 30, 2005 and 2004 the Company issued US\$ 28.6 million and US\$ 12.9 million of warrants, of which US\$ 30.5 million and US\$ 7.1million were exercised during fiscal year ended June 30, 2005 and 2004, respectively. As a result of the conversions and exercises of warrants, under US GAAP the Company has reclassified a net amount of Ps. (1,241) and Ps. 3,745, respectively from additional paid-in capital of common stock to additional paid-in capital of warrants.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Consolidated Financial Statements (continued)

(Amounts in thousands, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

(n) Reversal of gain recognized on trouble debt restructuring

As explained in Note 4.i., in November 2002 the Company completed the refinancing of certain financial debts amounting to US\$ 117 million. Under Argentine GAAP, the restructuring of these debts was treated as an exchange of debt instruments with substantially different terms. As a result, the Company removed the original loans from the consolidated balance sheet and recognized the new debt instruments at their present value discounted at an 8% market interest rate. Gain on restructuring recorded in fiscal year 2003 amounted to Ps. 36.5 million (Ps. 31.7 million net of related expenses). Under Argentine GAAP the Company also recognized a gain of Ps. 7.6 million from interest expense reductions.

For US GAAP purposes, the restructuring of the debt was accounted for in accordance with SFAS No. 15, Accounting by Debtors and Creditors for Troubled Debt Restructurings (SFAS 15), as the creditors made certain concessions due to the financial difficulties of the Company. SFAS No. 15 requires that a comparison be made between the future cash outflows associated with the new debt instruments (including interest), and the recorded amount of the payables at the time of restructuring. Gain on trouble debt restructuring is only recognized when the carrying amount of the payable at the time of restructuring exceeds the total future cash payments specified by the new debt terms. Since the total future cash outflows associated with the new debt instruments exceeded the carrying value of the old debts, no gain on restructuring was recorded under US GAAP. As a result, the carrying amount of the new debt instruments under US GAAP is greater than the amount recorded under Argentine GAAP and a new effective interest rate was determined, which equates the present value of the future cash payments specified by the new debt instruments with the carrying amount of the old debts. Under US GAAP, expenses incurred in a trouble debt restructuring are reported in earnings.

The adjustment to interest expense recognized under Argentine GAAP according to the new effective interest rate totaled Ps. 4.0 million, Ps. 5.0 million and Ps. 3.8 million for the years ended June 30, 2005, 2004 and 2003, respectively. As the Company's new debt instruments are denominated in US Dollars, the US GAAP adjustment also includes the recognition of exchange rate differences related to the difference in the carrying amount of the debts. Foreign exchange gains (losses) recorded under US GAAP totaled Ps. 0.4 million, Ps. (1.7) million and Ps. 10.2 million during the years ended June 30, 2005, 2004 and 2003, respectively.

As discussed in Note 4.i.(iv) during the year ended June 30, 2004 the Company repurchased US\$ 28 million of the Uncollateralized Loan Agreement. As the carrying value under US GAAP of the repurchased debt was greater than the carrying value under Argentine GAAP, under US GAAP the Company recognized a greater gain on repurchase of debt of Ps. 8.7 million.

(o) Accounting for real estate barter transactions

During the years ended June 30, 2005 and 2004 the Company entered into certain non-monetary transactions with third parties pursuant to which the Company sold parcels of land held for sale in the ordinary course of business in exchange for cash and/or other real estate properties. See Note 4.e. for details of the transactions.

Under Argentine GAAP, these transactions were recorded based on the fair value of the assets involved and, as a result, a gain or loss were recognized at the time of the exchange. As a result, the Company recorded a gain of Ps. 14,985 million during the year ended June 30, 2005; and a loss of Ps. 763 and a gain of Ps. 907 during the year ended June 30, 2004.

F-66

Table of Contents

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Consolidated Financial Statements (continued)

(Amounts in thousands, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

(o) Accounting for real estate barter transactions (continued)

Under US GAAP, the Company applies APB Opinion No. 29, Accounting for Non-monetary Transactions (APB 29). APB 29 states that exchanges of real estate held for sale in the ordinary course of business in exchange for real estate to be sold in the same line of business are transactions not resulting in a culmination of the earnings process (referred to as like-kind exchanges). The recognition of gain on like-kind exchanges depends on whether monetary consideration is received and, if so, how much. If no monetary consideration is involved in the exchange, the property received is recorded at the book value of the property given up and no gain is recorded in the exchange. If monetary consideration is involved in the exchange, the recognition of gain depends on whether the amount of the monetary consideration is less than 25% of the fair value of the exchange. When monetary consideration is less than 25%, the Company should recognize a portion of any gain on the transaction in the ratio of cash received to total consideration (cash plus fair value of the asset received). If monetary consideration is 25% or more of the exchange, the transaction should be allocated between the monetary and non-monetary component based on the relative fair values of the components at the time of the transaction. Any loss on the exchange should be recognized immediately.

Under US GAAP the barter transactions were accounted for as follows:

- The Company recorded the exchange of Cruceros in 2004 at its fair market value since the Company incurred a loss of Ps. 763 in the exchange. As a result no difference existed in accounting for this transaction between Argentine and US GAAP.

- In connection with the exchange of Benavidez in 2004, as monetary consideration represented less than 25% of the fair value of the exchange, the Company recognized a pro-rata gain amounting to Ps. 226. As a result, the US GAAP adjustment represents the partial reversal of the gain recognized under Argentine GAAP amounting to Ps. 907.

- The Company recorded the exchange of plot 1c) of Dique III in 2005 at the book value of the land given up, thus not recording any gain on the exchange. As a result, the US GAAP adjustment represents the reversal of the gain recognized under Argentine GAAP amounting to Ps. 14,985.

(p) Reversal of the gain from valuation of inventories at the fair market value

As discussed in footnotes (i) and (ii) of Note 4.e., during fiscal year 2005 the Company signed promissory sales contracts to sell 9 housing units of Cruceros and also entered into a preliminary agreement to sell plot 1d) of Dique III. These sales transactions have not been consummated at year-end. However, as the Company received payments in advance that fixed the sales prices and the terms and conditions of the contracts assure the closing of the transaction and the realization of the gain, under Argentine GAAP the Company valued these inventories at their estimated fair market value. As a result, the Company recognized a gain of Ps. 18,087 during the year ended June 30, 2005. Under US GAAP, inventories are valued at acquisition cost. As such, the US GAAP adjustment represents the reversal of the gain recognized under Argentine

GAAP.

(q) Appraisal revaluation of fixed assets

Under Argentine GAAP, APSA recognized a parcel of land acquired prior to June 30, 1986 at its appraised value as of such date. This appraisal increased the carrying value of the land by approximately Ps. 4.0 million. Under US GAAP, this parcel of land was recorded at original cost.

(r) Deferred charges

Under Argentine GAAP, the Company had capitalized certain costs, which were amortized on a straight-line method over 3 years. Under US GAAP, such costs were expensed as incurred.

F-67

Table of Contents

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Consolidated Financial Statements (continued)

(Amounts in thousands, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

(s) Amortization of fees related to APSA Senior Notes

Under Argentine GAAP, fees and expenses relating to APSA Senior Notes were being amortized on a straight-line method over the term of the agreement. Under US GAAP, such costs were being amortized over the same period using the effective interest method of amortization.

(t) Software developed or obtained for internal use

Under Argentine GAAP, the Company capitalizes certain costs incurred in the development of software for internal use. Under US GAAP, the Company applies Statement of Position 98-1 Accounting for the Costs of Computer Software Developed or Obtained for Internal Use, which requires certain costs be expensed as incurred. As such, the Company (i) expensed Ps. 0.09 million of capitalized software costs for the year ended June 30, 2005, and (ii) reversed amortization expense charges recognized under Argentine GAAP of Ps. 0.05 million, Ps. 0.16 million and Ps. 0.13 million for the years ended June 30, 2005, 2004 and 2003, respectively.

(u) Accounting for changes in interest in consolidated affiliated companies

During fiscal year 2003 APSA acquired an additional 24% ownership interest in Alto Research and Development S.A. for a total consideration of Ps. 0.2 million. Under both Argentine GAAP and US GAAP, the excess of the fair value of the net assets acquired over the consideration paid, after reducing to zero the amounts that otherwise would have been assigned to the non-current assets, was recognized in earnings. The difference with respect to the amount recognized under Argentine GAAP, totaling Ps. 20, relates to the effect of US GAAP adjustments at the date of acquisition. See Note 23.II.(b), for the income statement classification difference of this gain.

(v) Accounting for increasing rate debt

As discussed in Note 4.i.(ix), on April 5, 2005 Banco Rio de la Plata and Bank Boston N.A. granted APSA a syndicated financial loan in a total amount of Ps. 50 million, which will be amortized in four six-month equal and consecutive installments beginning October 2005. The syndicated loan accrues interest at a fixed rate of 7.875% during the first year and will accrue interest at a variable rate (*Encuesta*) plus 3% during the second year.

Under Argentine GAAP, interest is recognized based on the interest rate applicable to each interest period. Under US GAAP, in accordance with EITF 86-15, Increasing Rate Debt, the Company is recognizing the periodic interest cost related to the syndicated loan using the effective interest method over the period it is estimated that the loan will be outstanding.

(w) Deferred income tax

As discussed in Note 3.m, the Company records income taxes using the liability method. Accordingly, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets are also recognized for tax loss carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recorded or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is recognized for that component of net deferred tax assets which is not recoverable. This standard is similar to the principles of US GAAP set forth in Statement of Financial Accounting Standards (SFAS) No. 109, Accounting for Income Taxes .

F-68

Table of Contents

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Consolidated Financial Statements (continued)

(Amounts in thousands, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

(w) Deferred income tax (continued)

However, under Argentine GAAP, the Company has treated the differences between the price-level restated amounts of assets and liabilities and their historical basis as permanent differences for deferred income tax calculation purposes in accordance with Resolution MD No.11/2003 issued by the CPCECABA. Under US GAAP, the Company applies EITF 93-9, Application of FASB Statement No.109 in Foreign Financial Statements Restated for General Price-Level Changes, which requires such differences to be treated as temporary differences in calculating deferred income taxes. In addition, the US GAAP adjustment includes the effect on deferred income taxes of the foregoing reconciling items, as appropriate.

(x) Minority interest

This adjustment represents the effect on minority interest of the foregoing reconciling items, as appropriate.

(y) Accounting for APSA Convertible Notes

As indicated in Note 4.i.(ii), in August 2002 APSA issued US\$ 50 million of Convertible Notes. Under US GAAP, the Company applied APB 14, Accounting for Convertible Debt and Debt Issued with Stock Purchase Warrants, which requires that no portion of the proceeds be allocated to the conversion feature if the convertible debt securities are convertible into common stock of the issuer at a specified price at the option of the holder and are sold at a price or have a value at issuance not significantly in excess of the face amount. In considering the accounting treatment of APSA Convertible Notes under US GAAP the Company took account of the guidance provided in EITF 98-5. EITF 98-5 requires that embedded beneficial conversion features present in convertible securities be valued separately at issuance when the non-detachable conversion feature is in-the-money at the commitment date. The embedded beneficial conversion feature should be recognized and measured by allocating to additional paid-in capital a portion of the proceeds equal to the intrinsic value of that feature. That amount is calculated at the commitment date as the difference between the conversion price and the fair value of the common stock or other securities into which the security is convertible, multiplied by the number of shares into which the security is convertible (intrinsic value). As a result of the analysis the Company performed, no proceeds were allocated to the embedded conversion feature since it was out-the-money at the commitment date (i.e. the intrinsic value at the commitment date was zero). Similar accounting treatment was adopted under Argentine GAAP.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Consolidated Financial Statements (continued)

(In thousands of Argentine Pesos, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

II. Additional disclosure requirements

(a) Balance sheet classification differences

Under Argentine GAAP, assets and liabilities are classified as current or non-current depending on their respective settlement dates. Under US GAAP, balance sheets of real estate entities typically are unclassified.

In addition, under Argentine GAAP the Company has classified the net deferred tax asset amounting to Ps. 42.9 million and 50.2 million at June 30, 2005 and 2004, respectively, as follows: Ps. 61.8 million and Ps. 58.7 million, respectively, as non-current other receivables; and Ps. 18.9 million and Ps. 8.5 million, respectively, as non-current taxes payable. Under US GAAP, the classification of deferred taxes is determined by the classification of the asset or liability for financial reporting to which the temporary difference is related. A temporary difference is related to an asset or liability if reduction of the asset or liability causes the temporary difference to reverse. For deferred tax balances not related to an asset or liability for financial reporting (e.g. tax loss carryforwards), the classification is based on the expected realization date. As of June 30, 2005 and 2004, Ps. 6.0 million and Ps. 8.1 million, respectively, would have been classified as current assets, and Ps. 36.9 million and Ps. 42.1 million, respectively, would have been classified as non-current assets.

As these differences have no effect on net income or on shareholders' equity, no reconciling items are presented for US GAAP purposes.

(b) Statement of Income classification differences

Revenues

Under Argentine GAAP, only returns and other allowances should be deducted from net revenues, while direct taxes and other costs directly associated with revenues should be presented as operating costs, i.e. gross revenue taxes.

Under US GAAP, direct taxes and other costs directly associated with revenues should be deducted from revenues. Net revenues under US GAAP but using Argentine GAAP numbers would have been Ps. 356.7 million, Ps. 251.4 million and Ps. 230.1 million for the years ended June 30, 2005, 2004 and 2003, respectively.

Operating income

In addition, under US GAAP, certain income and expense items included in the Argentine GAAP financial statements of the Company within Other expenses, net would have been included in the determination of operating income.

Accordingly, operating income under US GAAP but using Argentine GAAP numbers would have been Ps. 137.6 million, Ps. 96.0 million and Ps. 15.7 million for the years ended June 30, 2005, 2004 and 2003, respectively.

Extraordinary items

As discussed in Note 23.I.(u), during 2003 APSA acquired an additional 24% ownership interest in Alto Research and development S.A. Under US GAAP, the excess of the fair value of the net assets acquired over the consideration paid, after reducing to zero the amounts that otherwise would have been assigned to the non-current assets, totaling Ps. 426 would have been recognized as an extraordinary item.

Table of Contents**IRSA Inversiones y Representaciones Sociedad Anónima****Notes to the Consolidated Financial Statements (continued)**

(In thousands of Argentine Pesos, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)**(c) Statement of changes in shareholders' equity classification differences**

As discussed in Note 5.b., the Company repurchases outstanding shares of common stock when it believes that its stock price is undervalued in the marketplace. Under Argentine GAAP, the Company records the acquisitions of treasury shares as a reduction in retained earnings. Under US GAAP, these acquisitions would have been accounted for under the cost method, resulting in a reduction of capital stock.

(d) Segment information

As described in Note 6, the Company is required to disclose segment information in accordance with RT 18. Guidance set forth in RT 18 is similar to the guidelines set forth in SFAS No. 131 *Disclosures about Segments of an Enterprise and Related Information*. As a result, no additional information is presented in this reconciliation footnote.

(e) Maturities of long-term debt

Aggregate annual maturities during the next years (excluding current portion), as of June 30, 2005, are as follows:

2007	Ps. 104,630
2008	202,922
2009	52,295
2010	29,908
	<hr/>
	Ps. 389,755
	<hr/>

(f) Operating leases

This note discloses operating leases information of the Company and its controlled and jointly controlled subsidiaries:

- *Operating lease information:*

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

Leases and services from office and other buildings

The Company enters into cancelable commercial leases with its tenants for terms ranging from three to five years, with most leases having terms of no more than 5 years. Tenants are charged a base rent on a monthly basis. No contingent rentals were recorded for the years ended June 30, 2005, 2004 and 2003.

Leases and services from shopping center operations

The Company enters into cancelable commercial leases with its tenants for terms ranging from three to ten years, with most leases having terms of no more than five years. Tenants are generally charged a rent, which consists of the higher of (i) the base rent and (ii) the percentage rent (which generally ranges between 4% and 8% of the tenants sales). Furthermore, pursuant to the rent escalation clause in most leases, a tenant's base rent generally increases between 4% and 7% each year during the term of the lease. Included in lease revenues for the years ended June 30, 2005, 2004 and 2003 were contingent rentals of Ps. 29.4 million, Ps 16.6 million, and Ps. 10.8 million respectively.

Notes to the Consolidated Financial Statements (continued)

(In thousands of Argentine Pesos, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

(g) Disclosure of related party transactions

The following additional disclosures of transactions with related parties are required under US GAAP:

- **Executive Employment Agreement:** On October 30, 1997, the Company entered into Master Executive Employment Agreements (the Employment Agreements) with certain executives (collectively herein referred to as the Employees), pursuant to which each executive is serving in his current capacity as director or executive officer. The term of the Employment Agreements is seven years; however either the Company or the relevant executive may terminate the Employment Agreements prior to the expiration of their respective terms. If the Company terminates the Employment Agreements without cause it will be liable to the relevant executive for two years of compensation. Under the Employment Agreements, the Employees are each entitled to receive from the Company annual compensation in the aggregate of approximately Ps.750, subject to an annual 4% increase. The Employment Agreements also restrict the Employees from participating in real estate activities in Argentina that are in the same line of business as IRSA. The Employment Agreements were executed in December 1997 and approved by the Company s shareholders at an extraordinary shareholders meeting on April 7, 1998. The initial term of these employment agreements is seven years; however, the agreements may be terminated prior to their expiration by the Company or the relevant executive. If we terminate the employment agreements without cause, we will be liable to the relevant executive for two years of compensation. The Executive Employment Agreement with one executive was terminated during fiscal year 2004 as a consequence of its resignation as director of our company.

- **Purchase of the Company s shares by Cresud:** As of June 30, 2005, Cresud had invested in the Company s shares and Convertible Notes for a total amount of Ps. 197.4 million, resulting in a 22.4 % ownership at June 30, 2005. Certain directors and shareholders of the Company, are also shareholders and/or directors of Cresud.

- **Issue of Convertible Notes by Cresud:** On October 15, 2002, Cresud initiated a preemptive-right offering to subscribe for 50,000,000 units consisting of US\$ 50.0 million of 8% Convertible Notes due 2007 and non-detachable warrants to purchase shares of its common stock. The offering was fully subscribed and the funds were fully received by Cresud. Proceeds of the offering were applied to subscribe US\$ 50.0 million of the Company s Convertible Notes. As of November 30, 2005, 21.1% of the Company s common shares are property of Cresud. During fiscal year 2005, Cresud decided to convert 5 million of Convertible Notes as part of its long-term strategy intending to revert the reduction in its equity interest as a consequence of the conversion and exercise of warrants by third parties during the year. Assuming Cresud exercises its conversion rights of all of its Convertible Notes and no exercise of such rights by any of the Company s other bondholders, Cresud would own 33.3% of the Company s common shares. In the case all shareholders exercise their conversion rights and Cresud exercise them as well, Cresud would own 30.6% of the Company s common stock.

- **IRSA Management ownership plan:** On October 30, 1997 the Company s shareholders authorized IRSA to enter into a management ownership plan with certain executive officers. See Note 5.e. for further details.

Notes to the Consolidated Financial Statements (continued)

(In thousands of Argentine Pesos, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

(g) Disclosure of related party transactions (continued)

- Donations: During the years ended June 30, 2005, 2004, and 2003, the Company made donations to two not-for-profit organizations, namely *Fundación IRSA* and *Museo de los Niños*, for a total amount of Ps. 4.1 million, Ps. 2.4 million and Ps. 5.0 million, respectively. A director and shareholder of the Company is the President of these organizations.

- Lease agreements: Our principal executive offices are located at Bolívar 108, in the City of Buenos Aires. In the past we subleased a portion of our headquarters from Consultores Assets Management S.A. (formerly Dolphin Fund Management) pursuant to two lease agreements dated June 30, 1997. As of November 25, 2003 Dolphin Fund Management S.A has spun off in two companies. One of them is Consultores Assets Management S.A. and the other remains as Dolphin Fund Management S.A. In respect of Consultores Assets Management S.A., Eduardo Elsztain is the owner of 100% of its capital stock. Consultores Assets Management S.A. (formerly Dolphin Fund Management) leased such offices both from Elsztain e Hijos S.C.A., a company controlled by relatives of Eduardo S. Elsztain, our chairman, and also from Hamonet S.A., a company controlled by Fernando A. Elsztain, our director, and certain of his relatives. Rental expenses incurred under these leases for the fiscal years ended June 30, 2004 and 2003 amounted to Ps. 0.2 million and Ps. 0.2 million , respectively, plus CER.

These lease and sublease agreements were cancelled on February, 2004 and a new lease agreement was signed by the Company, APSA, Cresud and Isaac Elsztain e Hijos S.C.A. We have leased our headquarters located in Bolivar 108, City of Buenos Aires pursuant to this agreement since March 2004. This lease has a term of 120 months and rent of Ps. 8,490 is payable monthly. The Company, APSA and Cresud each pay one-third of such rent in an amount of Ps. 2,830 each.

The Company has entered into lease agreements for offices located in Costero, a building located in Puerto Madero with Altocity.Com and Red Alternativa S.A. The agreement with Altocity.com expired in October 2004. Although the agreement with Red Alternativa S.A. expired in May 2004 it is still in effect. The leases are for monthly rents of Ps. 8.3 plus CER.

- Options to Purchase Shares of Altocity.Com S.A.: In January 2000, E-Commerce Latina, a company owned 50% by APSA and 50% by Telefónica Argentina, granted Consultores Internet Managers Ltd. an option to purchase certain of its class B shares of Altocity.Com S.A. Consultores Internet Managers Ltd. is a special-purpose Cayman Islands corporation created to act on behalf of its management and is represented by an independent attorney-in-fact. The option granted to Consultores Internet Managers represents 15% of the capital stock of Altocity.Com S.A. and was granted for a period of eight years. Pursuant to the terms of the agreement, the exercise price is equal to the quotient of (i) the original value of class B shares at the time of the contribution to Altocity.Com S.A. by E-Commerce Latina, plus interest accrued at an annual fixed interest rate of 14% through the exercise date of the option, over (ii) the total number of class B shares owned by E-Commerce Latina at the exercise date of the option. The option was granted to Consultores Internet Managers Ltd. to be allocated by it among the management of Altocity.Com S.A. as an incentive compensation for their services, but as of today, no individual awards have been determined for participating employees under this option. Upon exercise of the option, Consultores Internet Managers Ltd. sole asset will be its 15% interest in Altocity.Com S.A.

Notes to the Consolidated Financial Statements (continued)

(In thousands of Argentine Pesos, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

(g) Disclosure of related party transactions (continued)

In December 2003 Cresud moved its administrative offices to the 23rd floor of the Intercontinental Plaza tower, located at Moreno 877, in the City of Buenos Aires. Cresud lease its administrative offices and five parking lot attendants from Inversora Bolivar S.A. pursuant to a lease agreement. This agreement has an initial term of 60 months with an extension option for 36 additional months. Cresud pays a monthly rent of US\$ 2,979, with the first two months free.

- Mutual investment fund: Since 1996, the Company has investments in Dolphin Fund Plc, an open ended investment fund which is related to the Company's directors. These investments are carried at market value as of year-end, with unrealized gains reported in earnings within Financial results, net in the accompanying consolidated statements of income.

The Company recognized net gains of Ps. 16.3 million, Ps. 4.4 million and Ps. 13.1 million, for the years ended June 30, 2005, 2004 and 2003 respectively.

- Investment in Banco Hipotecario S.A.: As of June 30, 2003 the Company owned 6.4% of BHSA as well as 2,687,500 warrants to purchase additional shares. On December 30, 2003, the Company purchased 4,116,267 additional shares and 37,537 additional warrants of BHSA, for a total consideration of US\$ 11.1 million. On February 2, 2004, the Company exercised a substantial portion of the warrants and, as a result, the Company acquired 4,774,000 shares of BHSA for a total consideration of Ps. 33.4 million. During the last quarter of fiscal year 2004, the Company sold 2,487,571 shares of BHSA to IFIS S.A. (indirect shareholders) for a total consideration of US\$ 6.1 million (market value equivalent to Ps. 7.0 per share). The Company recognized a loss in connection with the sale amounting to Ps. 1.6 million.

As a result of the purchase of additional shares and the exercise of warrants of BHSA and considering the exercise of significant influence and the intention to maintain the participation as a long-term investment, during fiscal year 2004 the Company changed the method of accounting for its investments in BHSA from fair market value to the equity method of accounting.

- Corporate services: In order to reduce administrative expenses and to achieve a more efficient allocation of corporate resources, a program for partial operating integration in the areas of Human Resources, Finance, Institutional Relations, Administration, Systems, Insurance, Purchasing, Contracts and Operations, among others, was implemented on June 30, 2003 by the Company, Cresud and APSA (the Parties). This program was implemented to reduce operating costs by optimizing the individual administrative efficiencies of each Party. On the basis of this program, the Parties entered into the Shared Services Agreement on June 30, 2004, a two-year agreement by which tasks are performed by one or more Parties for the benefit of one or more other Parties in exchange for a fee to be paid primarily through the provision of services in other areas. Through this agreement, each party maintains its own strategies commercial independence, records and accounting systems. This agreement does not adversely affect internal control systems or external audit tasks. Each party continues to have separated assets and liabilities. In the future and in order to continue with the Company's policy of achieving a more efficient allocation of corporate resources, the Company may

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

extend the areas in which it shares corporate services with APSA and Cresud. Certain of the Company's directors are also directors of Cresud and APSA.

- Legal services: During the years ended June 30, 2005, 2004 and 2003, the Company paid the law firm Zang, Bergel & Viñes an aggregate amount of approximately Ps. 1.1 million, Ps. 1.1 million and Ps. 1.4 million, respectively, for legal services. Certain directors or alternative directors of the Company, are partners of the law firm and an alternate director of the Company is off counsel of the law firm.

Notes to the Consolidated Financial Statements (continued)

(In thousands of Argentine Pesos, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

(h) Disclosure about fair value of financial instruments

Under Argentine GAAP, there are no specific rules regarding disclosure of fair value of financial instruments.

Under US GAAP, SFAS No. 105 requires reporting entities to disclose certain information about financial instruments with off-balance sheet risk of accounting loss. SFAS No. 107, *Disclosures about Fair Value of Financial Instruments*, requires disclosure of fair value information about financial instruments whether or not recognized in the balance sheet, for which it is practicable to estimate fair value. Financial instruments include such items as cash and cash equivalents and accounts receivable and other instruments. SFAS No. 107 excludes from its disclosure requirements lease contracts and various significant assets and liabilities that are not considered to be financial instruments. SFAS No. 119 requires reporting entities to disclose certain information for derivative financial instruments. SFAS No. 133 superseded SFAS No. 105 and SFAS No. 119 and amended SFAS No. 107 to include in SFAS No. 107 the disclosure requirements of credit risk concentrations from SFAS No. 105. See Note 23.II.(i) for details of concentration of credit risk.

Fair value estimates are made as of a specific point in time based on the characteristics of the financial instruments and the relevant market information. Quoted market prices are used when available. In other cases, fair values are based on estimates using other valuation techniques, such as discounting estimated future cash flows using a rate commensurate with the risks involved or other acceptable methods. These techniques involve uncertainties and are significantly affected by the assumptions used and the judgments made regarding risk characteristics of various financial instruments, prepayments, discount rates, and estimates of future cash flows, future expected loss experience, and other factors. Changes in assumptions could significantly affect these estimates. Derived fair value estimates cannot be substantiated by comparison to independent markets and, in many cases, could not be realized in an immediate sale of the instrument. Also, because of differences in methodologies and assumptions used to estimate fair value, the Company's fair values should not be compared to those of other companies.

Under this statement, fair value estimates are based on existing financial instruments without attempting to estimate the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments. Accordingly, the aggregate fair value amount presented does not represent the underlying value of the Company. For certain assets and liabilities, the information required under this statement is supplemental with additional information relevant to an understanding of the fair value.

The methods and assumptions used to estimate the fair values of each class of financial instruments as of June 30, 2005 and 2004 are as follows:

Cash and cash equivalents

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

The Company considers all highly liquid investments with original maturities of three months or less, consisting of time deposits and mutual funds, to be cash and cash equivalents. The carrying amounts reported in the consolidated balance sheets approximate fair value.

Marketable securities

The fair value of marketable securities is based on quoted market prices for those or similar investments. Marketable securities are carried at fair value on the consolidated balance sheet.

Mortgages and leases receivable, net

The carrying value of mortgages and lease receivables reported in the consolidated balance sheet approximates its estimated fair value. All amounts that are assumed to be uncollectible within a reasonable time are written off and/or reserved.

F-75

Table of Contents

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Consolidated Financial Statements (continued)

(In thousands of Argentine Pesos, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

(h) Disclosure about fair value of financial instruments (continued)

Retained interest in transferred mortgage and credit card receivables

Fair value is estimated by discounting anticipated future cash flows using a discount rate based on specific factors. The anticipated future cash flows are projected on a "cash out" basis to reflect the restriction of cash flows until the investors have been fully paid. As of June 30, 2005 and 2004, the fair value of retained interests in transferred mortgage and credit card receivables totaled Ps. 27.1 million and Ps. 16.5 million, respectively.

Accounts payable

The carrying amounts of accounts and notes payable reported in the consolidated balance sheets approximate their fair value.

Short-term debt

The carrying amounts of short-term debt reported in the consolidated balance sheets approximate fair value due to its short-term nature.

Long-term debt

As of June 30, 2005 and 2004, except for the Convertible Notes issued by IRSA and APSA, the carrying amounts of long-term debt reported in the consolidated balance sheets approximate their fair value.

The fair value of APSA Convertible Notes was Ps. 287.2 million and Ps. 187.8 million at June 30, 2005 and 2004, respectively. Such fair value was determined based on the market price of the shares assuming full conversion of the notes at year-end.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

The fair value of IRSA Convertible Notes was Ps. 553.2 million and Ps. 350.5 million at June 30, 2005 and 2004, respectively. Such fair value was determined based on the market price of the shares assuming full conversion of the notes at year-end plus the estimated fair value of the warrants that should be issued by the Company upon conversion.

Other receivables and other liabilities

The carrying amounts of other receivables and other liabilities reported in the consolidated balance sheets approximate fair value due to their short-term nature.

Interest rate swap agreement

The fair value of the interest rate swap agreement was determined based on the present value of the estimated future net cash flows using implied rates in the applicable yield curve as of the valuation date. At June 30, 2004, the fair market value of the swap agreement was Ps. (134.3) million. The swap agreement was carried at fair market value on the consolidated balance sheet.

Options and future contracts to purchase metals

The fair value of the futures contracts is based on the estimated amount at which they could be settled based on future market prices. The fair value of options and future contracts outstanding at June 30, 2004 and 2005 was Ps. (0.2) million and Ps. (0.09) million, respectively. Future contracts are reported at their fair market value on the consolidated balance sheet.

Seller financings

The fair value of the seller financings is estimated based on quoted market prices for the same or similar payables or on current rates offered to the Company for debt of the same remaining maturities. The carrying value approximates fair value.

Table of Contents

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Consolidated Financial Statements (continued)

(In thousands of Argentine Pesos, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

(i) Concentration of credit risk

Financial instruments that potentially subject the Company to a concentration of credit risk consist of cash, cash equivalents, accounts receivable, and short-term investments. The Company maintains cash and cash equivalents, investments, and other financial investments with various high credit quality financial institutions, thus mitigating the amount of credit exposure to any one institution. The Company has not experienced any significant losses in such accounts.

The Company's accounts receivable are primarily derived from real estate revenues from customers and credit card receivables. The Company is not dependent on any single customer.

Accounts receivable derived from real estate revenues, are related to mortgages to individuals in connection with its sales of residential properties. These properties are located principally in Buenos Aires, Argentina. The Company is subject to credit risk in the event of non-performance by the counterparties to the mortgages; however, in the opinion of management, the values of the properties that collateralize the mortgages are presently adequate to protect the Company from material losses resulting from such non-performance. The company has not experienced any significant losses resulting from non-performance of any counterpart to the mortgage contracts.

Additionally, credit card receivables arise primarily under open-end revolving credit accounts used to finance purchases of goods and services offered by the Company's shopping centers. These accounts have various billing and payment structures, including varying minimum payment levels and finance charge rates. Credit card receivables are shown net of an allowance for uncollectible accounts.

The Company maintains reserves for potential credit losses based on impaired accounts, historical charge-off patterns and management judgment; historically such losses have not been significant and within management's expectations.

As of June 30, 2005 the Company has eleven securitization programs outstanding, for which the Company's credit risk exposure is contractually limited to the subordinated CPs held by the Company representing Ps. 33.4 million (equity value), TDFs held by the Company representing Ps. 0.2 million, and a Ps. 6.6 million escrow reserves for losses.

(j) Recently issued accounting pronouncements

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 20-F

In November 2004, the FASB issued SFAS No. 151, *Inventory Costs*, an amendment of ARB No. 43, Chapter 4. SFAS No. 151 clarifies the types of costs that should be expensed rather than capitalized as inventory. SFAS No. 151 also clarifies the circumstances under which fixed overhead costs associated with operating facilities involved in inventory processing should be capitalized. The provisions of SFAS No. 151 are effective for fiscal years beginning after June 15, 2005. The Company's management has not assessed the potential impact of this standard on its consolidated financial statements.

In December 2004, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 123 (revised 2004), *Share-Based Payments* or SFAS 123R. This statement eliminates the option to apply the intrinsic value measurement provisions of Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees* to stock compensation awards issued to employees. Rather, SFAS 123R requires companies to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. SFAS 123R applies to all awards granted after the required effective date and to awards modified, repurchased, or cancelled after that date. SFAS 123R is effective for fiscal years beginning after June 15, 2005.

Notes to the Consolidated Financial Statements (continued)

(In thousands of Argentine Pesos, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

(j) Recently issued accounting pronouncements (continued)

In December 2004, the FASB issued SFAS No. 152, which amends FASB Statement No. 66, Accounting for Sales of Real Estate, to reference the financial accounting and reporting guidance for real estate time-sharing transactions that is provided in AICPA Statement of Position (SOP) 04-2, Accounting for Real Estate Time-Sharing Transactions. SFAS No. 152 also amends FASB Statement No. 67, Accounting for Costs and Initial Rental Operations of Real Estate Projects, to state that the guidance for (a) incidental operations and (b) costs incurred to sell real estate projects does not apply to real estate time-sharing transactions. SFAS No. 152 is effective for financial statements for fiscal years beginning after June 15, 2005. The Company's management has not assessed the potential impact of this standard on its consolidated financial statements.

In December 2004, the FASB issued SFAS No. 153, Exchanges of Non-Monetary Assets, which amends Opinion No. 29 to eliminate the exception from fair value measurement for non-monetary exchanges of similar productive assets and replaces it with a general exception from fair value measurements for exchanges of non-monetary assets that do not have commercial substance. A non-monetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. The provisions of SFAS No. 153 are effective for non-monetary asset exchanges occurring in fiscal periods beginning after June 15, 2005.

In May 30, 2005, the FASB issued SFAS No. 154 Accounting Changes and Error Corrections, that replaces APB Opinion No. 20, Accounting Changes, and SFAS No. 3, Reporting Accounting Changes in Interim Financial Statements, and changes the requirements for the accounting for and reporting of a change in accounting principle. This Statement applies to all voluntary changes in accounting principle. It also applies to changes required by an accounting pronouncement in the unusual instance that the pronouncement does not include specific transition provisions. When a pronouncement includes specific transition provisions, those provisions should be followed. This Statement (1) requires retrospective application to prior periods financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change, (2) defines retrospective application as the application of a different accounting principle to prior accounting periods as if that principle had always been used or as the adjustment of previously issued financial statements to reflect a change in the reporting entity, (3) redefines restatement as the revising of previously issued financial statements to reflect the correction of an error, (4) requires that a change in depreciation, amortization, or depletion method for long-lived, nonfinancial assets be accounted for as a change in accounting estimate effected by a change in accounting principle, (5) carries forward without change the guidance contained in Opinion 20 for reporting the correction of an error in previously issued financial statements and a change in accounting estimate and (6) carries forward the guidance in Opinion 20 requiring justification of a change in accounting principle on the basis of preferability. This standard is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Consolidated Financial Statements (continued)

(In thousands of Argentine Pesos, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

(k) Earnings per share

As described in Note 3.x., under Argentine GAAP the Company is required to disclose earnings per share information in accordance with RT 18 for all periods presented. Note 18 to the consolidated financial statements disclose the computation of basic and diluted net income per common share under Argentine GAAP. Guidance set forth in RT 18 is similar to the basic principles set forth in SFAS No. 128 Earnings per Share (SFAS No.128).

Under US GAAP, basic and diluted earnings per share are presented in conformity with SFAS No. 128 and SEC Staff Accounting Bulletin No. 98 (SAB No. 98) for all years presented. Pursuant to the Securities and Exchange Commission Staff Accounting Bulletin No. 98, ordinary shares and convertible preferred shares issued or granted for nominal consideration prior to the anticipated effective date of an initial public offering must be included in the calculation of basic and diluted earnings per share as if they had been outstanding for all periods presented. To date, the Company has not had any issuance or grants for nominal consideration.

As disclosed in Note 18, in calculating diluted net income per common share under Argentine GAAP for the years ended June 30, 2005, 2004 and 2003 the Company has considered the dilutive effects of outstanding warrants, but not using the treasury-stock method as required by US GAAP. Using the treasury-stock method, the weighted-average number of potential common stock would have been 195,207 shares, 226,794 shares and 128,577 shares respectively. Diluted net income per common share under Argentine GAAP for the years ended June 30, 2005, 2004 and 2003 using the treasury-stock method, would have been Ps. 0.24, Ps. 0.28 and Ps. 0.73, respectively.

23. Differences between Argentine GAAP and US GAAP (continued)**(I) Earnings per share**

The following tables set forth the computation of basic and diluted net income per common share under US GAAP for all periods presented:

	Year ended June 30,		
	2005	2004	2003
Numerator:			
Net income available to common shareholders	Ps. 129,398	Ps. 2,825	Ps. 235,126
Plus (less): income (loss) impact of assumed conversions:			
Interest expense on convertible debt	26,039		17,166
Foreign currency exchange gain	(4,912)		(65,633)
Income tax effects	(2,982)		16,963
Net income available to common shareholders plus assumed conversions	Ps. 147,543	Ps. 2,825	Ps. 203,622
Denominator:			
Weighted-average number of shares outstanding	280,282	225,005	209,840
Plus: incremental shares of assumed conversions:			
Warrants ⁽ⁱ⁾	50,346		13,973
Convertible Notes	144,861		114,603
Adjusted weighted-average number of shares	475,489	225,005	338,416
Earnings per share under US GAAP:			
Basic net income per common share	Ps. 0.46	Ps. 0.01	Ps. 1.12
Diluted net income per common share	Ps. 0.31	Ps. ⁽ⁱⁱ⁾ 0.01	Ps. 0.60

(i) Potential common shares related to the warrants have been calculated using the treasury-stock method as required by US GAAP.

(ii) The computation of diluted net income per share for the year ended June 30, 2004 excludes potential common shares because the effect of their inclusion would be anti-dilutive, or would increase the reported net income per share.

As discussed in Note 23.II.(b), under US GAAP the Company recorded an extraordinary gain amounting to Ps. 426 during fiscal year 2003. The effect of the extraordinary gain on the computation of basic and diluted net income per share under US GAAP for the year ended June 30, 2003 is Ps. 0.002 and Ps. 0.001, respectively.

(m) Risks and uncertainties

The Company is subject to certain business risks arising in connection with its operations which include, among others:

Risks associated with Argentine operations. A substantial part of the Company's operations and properties are located in Argentina. As a result, the Company's financial condition and results of operations depend to a significant extent on macroeconomic and political conditions prevailing in Argentina.

Risks associated with office and other buildings leases: The Company's lease revenues from its real estate operations may be adversely affected by (i) local or national economic conditions in the areas in which the properties are located, (ii) oversupply of office space or a reduction in demand for such space, (iii) increased competition from other real estate operators, (iv) changes in the ability of the Company or the tenants to provide for adequate maintenance and/or insurance, (v) increases in operating expenses, (vi) adverse changes in the regional or national economy, (vii) the bankruptcy or insolvency of, or a downturn in the business of, any of its major tenants, and/or (viii) the possibility that such tenants will not renew their leases as they expire. Unfavorable economic conditions could also result in the inability of tenants in certain sectors to meet their lease obligations and otherwise could adversely affect the Company's ability to attract and retain desirable tenants.

Notes to the Consolidated Financial Statements (continued)

(In thousands of Argentine Pesos, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)

(m) Risks and uncertainties (continued)

Risks associated with development properties activities: Include (i) the potential abandonment of development opportunities; (ii) construction costs may exceed the Company's original estimates, possibly making a project uneconomical; (iii) occupancy rates and rents at a newly completed project may be insufficient to make the project profitable; (iv) the Company's inability to obtain financing on favorable terms for the development of the project; (v) construction and lease-up may not be completed on schedule, resulting in increased debt service expense and construction costs; and (vi) the Company's inability to obtain, or the delays in obtaining, all necessary zoning, land-use, building, occupancy and other required governmental permits and authorizations.

Risks associated with the hotel industry. The success of the Company's operated hotels will depend, in large part, upon the Company's ability to compete in areas such as access, location, quality of accommodations, room rate structure, quality and scope of food and beverage facilities and other services and amenities. The Company's hotels may face additional competition if other companies decide to build new hotels or improve their existing hotels such that they are more attractive to potential guests. In addition, the profitability of the Company's hotels depends on (i) the Company's ability to form successful relationships with international operators to run the hotels; (ii) changes in travel patterns, including seasonal changes; and (iii) taxes and governmental regulations which influence or determine wages, prices, interest rates, construction procedures and costs.

Shopping center operating risks: The development, administration and profitability of shopping centers are impacted by various factors including: the accessibility and the attractiveness of the area where the shopping center is located, the intrinsic attractiveness of the shopping center, the flow of people and the level of sales of each shopping center rental unit within the Company's shopping centers, the amount of rent collected from each shopping center rental unit and the fluctuations in occupancy levels in the shopping centers. In the event that there is an increase in operational costs, caused by inflation or other factors, it could have a material adverse effect on the Company if its tenants are unable to pay their higher rent obligations due to the increase in expenses.

Since May 28, 1997, Law No. 24,808 provides that tenants may rescind commercial lease agreements after the initial six months upon not less than sixty days written notice, subject to penalties of only one-and-a-half months rent if the tenant rescinds during the first year of the lease, and one-month rent if the tenant rescinds after the first year of the lease. The exercise of such rescission rights could materially and adversely affect the Company.

Credit card operating risks: Credit card operations are subject to federal legislation and regulation. From time to time, such legislation, as well as competitive conditions, may affect, among other things, credit card finance charges. While the Company cannot predict the effect of future competitive conditions and legislation or the measures the Company might take in response thereto, a significant reduction in the finance charges imposed by Tarshop would have an adverse effect on the Company. In addition, changes in general Argentine economic conditions, including, but not limited to, higher interest rates and increases in delinquencies, charge-offs and personal bankruptcies could have an adverse effect on the Company.

E-commerce risks: The Company also offers its services over the Internet, and competes in the market for Internet services and products, which is characterized by intense competition and rapid technological changes. The Company's internet ventures have a limited operating history, have never generated profits, and their prospects are subject to the risks, expenses, and uncertainties frequently encountered by companies in new and rapidly evolving markets for internet products and services. These risks include the failure to develop and extend the Company's online service brands, the rejection of the Company's services by Web consumers, vendors and/or advertisers, the inability of the Company to maintain and increase the levels of traffic on its online services, as well as other risks and uncertainties. In the event that the Company does not successfully implement its business plan, certain assets may not be recoverable.

(In thousands of Argentine Pesos, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)**(n) Summarized financial information of unconsolidated equity investees**

Equity investments in unconsolidated affiliated companies where the Company exercises significant influence, generally representing between 20% and 50% of the capital stock in such companies, have been accounted for under the equity method.

The Company's share of the income (loss) of these affiliates was Ps. 66.9 million in 2005, Ps. 26.7 million in 2004 and Ps. (14.7) million in 2003, and its investment in these companies totaled Ps. 220.8 million and Ps. 170.8 million at June 30, 2005 and 2004, respectively.

Summarized financial information of BHSA a significant equity investee (on a 100% basis) is as follows:

	<u>As of and for the year ended June 30,</u>	
	<u>2005</u>	<u>2004</u>
Current assets	Ps. (ii)	(ii)
Non-current assets	(ii)	(ii)
Total assets	8,916,884	8,542,005
Current liabilities	(ii)	(ii)
Non-current liabilities	(ii)	(ii)
Total liabilities	6,842,321	6,672,109
Minority interest	30,236	32,604
Shareholders' equity	2,044,327	1,837,292
Revenues	368,767	406,692
Gross profit	116,514	255,561
Net income (loss)	Ps. 80,519	161,643

(i) As from June 30, 2004 the Company's investment in BHSA is accounted for under the equity method of accounting. Figures are presented in accordance with Argentine Banking GAAP.

(ii) Balance sheets of banking entities are unclassified.

(o) Severance indemnities

Under Argentine law and labor agreements, the Company is required to make minimum severance payments to its dismissed employees without cause and employees leaving its employment in certain other circumstances. Under Argentine GAAP, severance payments are expensed as incurred. Under US GAAP, the Company follows the guidelines established by SFAS No. 112, *Employers' Accounting for Post-employment Benefits*, and SFAS No. 43, *Accounting for Compensated Absences*, which requires the accrual of severance costs if they relate to services already rendered, are related to rights that accumulate or vest, are probable of payment and are reasonably estimable. While the Company expects to make severance payments in the future, it is impossible to estimate the number of employees that will be dismissed without proper cause in the future, if any, and accordingly the Company has not recorded such liability.

(In thousands of Argentine Pesos, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)**(p) Statements of cash flows**

Under Argentine GAAP, the Company is required to present the statements of cash flows in the primary financial statements in accordance with RT 9, as amended. Guidance set forth in RT 9 (as amended) is similar to the guidelines set forth in SFAS No. 95, Statements of Cash Flows (SFAS No.95).

As described in Note 3.b., the Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents. As a result, no differences exist between cash flows reported in the primary financial statements and cash flows that would be reported in a statement of cash flows prepared using US GAAP numbers. However, as discussed further below, certain differences do exist between cash flows from operating, investing, and financing activities that would be reported in a statement of cash flows prepared using US GAAP numbers.

Under Argentine GAAP, cash flow from purchases, sales and maturities of available-for-sale securities were reported as operating activities. Under US GAAP, these transactions would be classified as cash flows from investing activities. Also, under Argentine GAAP neither the effect of exchange rate changes on cash and cash equivalents, nor the effects of inflation were disclosed by presenting additional cash flow statement categories as required by US GAAP. The following table presents the cash flows from operating, investing and financing activities as well as the effects of inflation accounting and exchange rate changes on cash and cash equivalents that would be reported in the consolidated statements of cash flows under US GAAP.

	For the year ended June 30,		
	2005	2004	2003
Net cash provided by operating activities	Ps. 105,655	Ps. 92,378	Ps. 55,135
Net cash used in investing activities	(141,746)	(105,061)	(52,260)
Net cash provided by (used in) financing activities	52,868	(47,649)	109,439
Effect of exchange rate changes on cash and cash equivalents	2,899	(8,081)	51,743
Effect of inflation accounting			(1,472)
Net increase (decrease) in cash and cash equivalents	Ps. 19,676	Ps. (68,413)	Ps. 162,585

Under US GAAP, the total amounts of cash and cash equivalents at the end of the years shown in the consolidated statements of cash flows are required to be the same amounts as similarly titled line items shown in the consolidated balance sheets, as of those dates. Note 19 to the consolidated financial statements includes a reconciliation between the balances included as cash and banks in the consolidated balance sheets to the total amounts of cash and cash equivalents at the end of the years shown in the consolidated statements of cash flows.

(In thousands of Argentine Pesos, except share data and as otherwise indicated)

23. Differences between Argentine GAAP and US GAAP (continued)**(q) Comprehensive income**

On July 1, 1998, the Company adopted SFAS No. 130, Reporting Comprehensive Income. SFAS No. 130 establishes guidelines for the reporting and display of comprehensive income and its components in a full set of general-purpose financial statements. Comprehensive income represents the change in shareholder's equity of the Company during the period from transactions and other events and circumstances from non-owner sources. It includes all changes in equity during a period except those resulting from investments by owners and distributions to owners. The adoption of SFAS No. 130 had no impact on total shareholders' equity. The following table summarizes the components of comprehensive income for the years ended June 30, 2005, 2004 and 2003.

	Year ended June 30,		
	2005	2004	2003
Net income under US GAAP	Ps. 129,398	Ps. 2,825	Ps. 235,126
Other comprehensive income (loss):			
Unrealized gain on available-for-sale-securities	9,978	3,501	1,272
Unrealized (loss) gain on retained interest in transferred mortgage and credit card receivables	(821)	1,379	1,049
Unrealized gain on available-for-sale-securities of equity investees	6,291	14,426	5,746
Comprehensive income	Ps. 144,846	Ps. 22,131	Ps. 243,193

Accumulated non-owner changes in equity (accumulated other comprehensive income) at June 30 were as follows:

	2005	2004	2003
Unrealized gain (loss) on available-for-sale securities	Ps. 12,624	Ps. 2,646	Ps. (855)
Unrealized gain on retained interest in transferred mortgage and credit card receivables	961	1,782	403
Unrealized gain on available-for-sale-securities on equity investees	26,472	20,181	5,755
Accumulated other comprehensive income	Ps. 40,057	Ps. 24,609	Ps. 5,303

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of

Banco Hipotecario SA

We have audited the consolidated balance sheets of Banco Hipotecario SA and its subsidiaries (collectively referred to as the Bank) as of June 30, 2005 and 2004 and the related consolidated statements of income, of changes in shareholders' equity and of cash flows for each of the three twelve-month periods in the period ended June 30, 2005. These financial statements are the responsibility of the Bank's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States) and the auditing standards generally accepted in Argentina and performed the auditing procedures required by the *Banco Central de la República Argentina* (the Argentine Central Bank). Those standards require that we plan and perform an audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As mentioned in Note 1 and 6, the accompanying consolidated financial statements have been prepared in accordance with accounting rules prescribed by the Argentine Central Bank, which are a comprehensive basis of accounting that differs in certain respects from Argentine generally accepted accounting principles applicable to enterprises in general.

Accounting rules prescribed by Argentine Central Bank also differ in certain significant respects from accounting principles generally accepted in the United States of America and as allowed by Item 17 to Form 20-F. Information relating to the nature and effect of such differences is presented in Note 35 to the consolidated financial statements.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Banco Hipotecario SA and its subsidiaries at June 30, 2005 and 2004, and the results of their operations, changes in shareholders' equity and their cash flows for each of the three twelve-month periods in the period ended June 30, 2005 in conformity with accounting rules prescribed by the Argentine Central Bank.

Table of Contents

The quality of the Bank's financial condition and results of operations depends to a significant extent on macroeconomic and political conditions prevailing from time to time in Argentina and to the Argentine Government's ability to perform on its obligations to the Bank and to the entire financial system in Argentina, in connection with Federal secured loans, federal government securities and on its obligation to deliver government securities under various laws and regulations.
