KINDRED HEALTHCARE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1 BASIS OF PRESENTATION

Business

Kindred Healthcare, Inc. is a healthcare services company that through its subsidiaries operates hospitals, nursing centers, a contract rehabilitation services business and institutional pharmacies across the United States (collectively, Kindred or the Company). At June 30, 2006, the Company s hospital division operated 80 long-term acute care (LTAC) hospitals in 24 states. The Company s health services division operated 253 nursing centers in 28 states. The Company operated a contract rehabilitation services business which provides rehabilitative services primarily in long-term care settings. The Company s pharmacy division operated an institutional pharmacy business with 39 pharmacies in 24 states and a pharmacy management business servicing substantially all of the Company s hospitals.

In recent years, the Company has completed several transactions related to the divestiture of unprofitable hospitals, nursing centers and other healthcare businesses to improve its future operating results. For accounting purposes, the operating results of these businesses and the gains or losses associated with these transactions have been classified as discontinued operations in the accompanying unaudited condensed consolidated statement of operations for all periods presented. Assets not sold at June 30, 2006 have been measured at the lower of carrying value or estimated fair value less costs of disposal and have been classified as held for sale in the accompanying unaudited condensed consolidated balance sheet. See Note 2 for a summary of discontinued operations.

In April 2001, the Company and its subsidiaries emerged from proceedings under Chapter 11 of Title 11 of the United States Code (the Bankruptcy Code) pursuant to the terms of the Company s Fourth Amended Joint Plan of Reorganization (the Plan of Reorganization), as modified at the confirmation hearing by the United States Bankruptcy Court for the District of Delaware. In connection with its emergence, the Company changed its name to Kindred Healthcare, Inc.

Impact of recent accounting pronouncement

On July 13, 2006, the Financial Accounting Standards Board (the FASB) issued FASB Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes. The interpretation clarifies the accounting for uncertain income tax issues recognized in an entity s financial statements in accordance with FASB Statement No. 109, Accounting for Income Taxes. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The adoption of FIN 48 is not expected to have a material impact on the Company s financial position, results of operations or liquidity.

Stock option accounting

In December 2004, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 123 (revised 2004) (SFAS 123R), Share-Based Payment, which requires companies to expense the fair value of employee stock options and other forms of stock-based compensation. In connection with the adoption of SFAS 123R, the Company began to recognize compensation expense prospectively in its consolidated financial statements for non-vested stock options beginning January 1, 2006. See Note 12.

Prior to the adoption of SFAS 123R, the Company followed Accounting Principles Board Opinion No. 25 and related interpretations in accounting for its employee stock options.

Other information

The accompanying unaudited condensed consolidated financial statements do not include all of the disclosures normally required by generally accepted accounting principles or those normally required in annual reports on Form 10-K. Accordingly, these financial statements should be read in conjunction with the audited consolidated financial statements of the Company for the year ended December 31, 2005 filed with the

Edgar Filing: KINDRED HEALTHCARE, INC - Form 10-Q

Securities and Exchange Commission (the SEC) on Form 10-K.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the Company's customary accounting practices. Management believes that financial information included herein reflects all adjustments necessary for a fair presentation of interim results and, except as otherwise disclosed, all such adjustments are of a normal and recurring nature.

Table of Contents**KINDRED HEALTHCARE, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****NOTE 1 BASIS OF PRESENTATION (Continued)***Reclassifications*

Certain prior period amounts have been reclassified to conform with the current period presentation. These changes did not have any impact on the Company's financial position, results of operations or liquidity.

NOTE 2 DISCONTINUED OPERATIONS

In accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, the divestitures discussed in Note 1 have been accounted for as discontinued operations. Accordingly, the results of operations of these businesses for all periods presented and the gains or losses related to these divestitures have been classified as discontinued operations, net of income taxes, in the accompanying unaudited condensed consolidated statement of operations. At June 30, 2006, the Company held for sale one closed hospital.

Discontinued operations included favorable pretax adjustments of \$9.9 million and \$23.0 million for the second quarter of 2006 and 2005, respectively, and \$16.9 million and \$32.6 million for the six months ended June 30, 2006 and 2005, respectively, resulting from a change in estimate for professional liability reserves related primarily to the Company's former nursing centers in Florida and Texas.

A summary of discontinued operations follows (in thousands):

	Three months ended June 30,		Six months ended June 30,	
	2006	2005	2006	2005

A summary of the net assets held for sale follows (in thousands):

	June 30, 2006	December 31, 2005
Current assets:		
Property and equipment, net	\$ 3,215	\$ 11,587
Other		469
	3,215	12,056
Current liabilities (included in other accrued liabilities)	(13)	(266)
	\$ 3,202	\$ 11,790

NOTE 3 SIGNIFICANT QUARTERLY ADJUSTMENTS

Operating results included income related to the favorable settlement of prior year hospital Medicare cost reports that aggregated \$4.3 million and \$54.6 million for the second quarter of 2006 and 2005, respectively, and \$6.2 million and \$57.5 million for the six months ended June 30, 2006 and 2005, respectively.

Operating results for the second quarter of 2006 included a \$3.3 million pretax charge in connection with the settlement of a prior year tax dispute and a pretax charge of \$1 million for investment banking services and costs related to the rent reset issue with Ventas, Inc. (Ventas). For the six months ended June 30, 2006, the Company recorded a \$1.3 million pretax gain from an institutional pharmacy joint venture transaction, a pretax charge of \$2.7 million related primarily to revisions to prior estimates for accrued contract labor costs in the Company's rehabilitation division, and a pretax charge of \$2.3 million for investment banking services and costs related to the rent reset issue with Ventas.

Operating results for the second quarter of 2005 included pretax charges of \$14.8 million related to a special recognition payment to non-executive caregivers and employees and \$5.0 million related to a charitable donation. The allocation of these costs by segment follows (in thousands):

	Recognition payment	Charitable donation
Hospital division	\$ 3,863	\$
Health services division	9,013	
Rehabilitation division	1,039	
Pharmacy division	658	
Corporate	225	5,000
	\$ 14,798	\$ 5,000

Operating results for the second quarter of 2005 included pretax income of \$15.8 million (\$31.8 million of revenues net of \$16.0 million of provider taxes classified as operating expenses) related to retroactive nursing center Medicaid rate increases in the state of Indiana, of which

Edgar Filing: KINDRED HEALTHCARE, INC - Form 10-Q

approximately \$2.1 million related to the first quarter of 2005 and approximately \$13.7 million related to prior years.

NOTE 4 REORGANIZATION ITEMS

Transactions related to the Plan of Reorganization have been classified separately in the accompanying unaudited condensed consolidated statement of operations. Operating results for the six months ended June 30, 2005 included income of \$1.4 million resulting from changes in estimates for accrued professional and administrative costs related to the Company's emergence from bankruptcy.

Table of Contents**KINDRED HEALTHCARE, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****NOTE 5 ACQUISITIONS***Commonwealth acquisition*

On February 28, 2006, the Company acquired the operations of the LTAC hospitals, skilled nursing facilities and assisted living facilities operated by Commonwealth Communities Holdings LLC and certain of its affiliates (the Commonwealth Acquisition). The transaction was financed primarily through the use of the Company's revolving credit facility. Goodwill recorded in connection with the Commonwealth Acquisition aggregated \$31.6 million. The purchase price also included identifiable intangible assets of \$75.9 million related to the value of acquired certificates of need with indefinite lives and other intangible assets of \$5.2 million which will be amortized over approximately three years. Additional adjustments to the purchase price of up to approximately \$9 million may occur through February 2008 as a result of contingent consideration in accordance with the acquisition agreement.

A preliminary summary of the Commonwealth Acquisition follows (in thousands):

Fair value of assets acquired, including goodwill and other intangible assets	\$ 130,690
Fair value of liabilities assumed	(7,111)
Net cash paid	\$ 123,579

The pro forma effect of the Commonwealth Acquisition assuming the transaction occurred on January 1, 2006 or January 1, 2005 follows (in thousands, except per share amounts):

	Three months ended June 30, 2005	Six months ended June 30,	
		2006	2005
Revenues	\$ 1,094,569	\$ 2,181,947	\$ 2,080,815
Income from continuing operations	53,448	45,064	87,794
Net income	68,124	53,658	105,983
Earnings per common share:			
Basic:			
Income from continuing operations	\$ 1.43	\$ 1.15	\$ 2.38
Net income	\$ 1.82	\$ 1.37	\$ 2.87
Diluted:			
Income from continuing operations	\$ 1.15	\$ 1.07	\$ 1.93
Net income	\$ 1.47	\$ 1.28	\$ 2.33

Pro forma financial data have been derived by combining the historical financial results of the Company and the operations acquired in the Commonwealth Acquisition for all periods presented.

Pharmacy acquisitions

On March 2, 2005, the Company acquired the assets of Pharmacy Partners, Inc., an operator of two institutional pharmacies in Pennsylvania (the PPI Acquisition). The transaction was financed through the use of existing cash. Goodwill recorded in connection with the PPI Acquisition aggregated \$10.8 million. The purchase price also included acquired identifiable intangible assets totaling \$11.3 million that will be amortized

Edgar Filing: KINDRED HEALTHCARE, INC - Form 10-Q

over approximately 12 years. Additional adjustments to the purchase price of up to approximately \$1 million may occur through September 2006 as a result of contingent consideration in accordance with the acquisition agreement.

Table of Contents**KINDRED HEALTHCARE, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****NOTE 5 ACQUISITIONS (Continued)***Pharmacy acquisitions (Continued)*

On April 1, 2005, the Company acquired the assets of Skilled Care Pharmacy, an operator of two institutional pharmacies in California (the SCP Acquisition). The transaction was financed through the use of existing cash and the Company's revolving credit facility. Goodwill recorded in connection with the SCP Acquisition aggregated \$16.5 million. The purchase price also included acquired identifiable intangible assets totaling \$10.4 million that will be amortized over approximately 13 years.

A summary of both the PPI Acquisition and the SCP Acquisition follows (in thousands):

	PPI	SCP
	Acquisition	Acquisition
Fair value of assets acquired, including goodwill and other intangible assets	\$ 31,086	\$ 37,479
Fair value of liabilities assumed	(214)	(773)
Net cash paid through June 30, 2005	30,872	36,706
Additional payment of transaction costs	1	42
Total cash paid through June 30, 2006	\$ 30,873	\$ 36,748

The purchase price of the Commonwealth Acquisition, the PPI Acquisition and the SCP Acquisition resulted from negotiations with each of the sellers that were based upon both the historical and expected future cash flows of the respective businesses. The operating results of the Commonwealth Acquisition, the PPI Acquisition and the SCP Acquisition have been included in the accompanying unaudited condensed consolidated financial statements of the Company since the respective acquisition dates.

NOTE 6 REVENUES

Revenues are recorded based upon estimated amounts due from patients and third party payors for healthcare services provided, including anticipated settlements under reimbursement agreements with Medicare, Medicaid and other third party payors.

A summary of revenues by payor type follows (in thousands):

	Three months ended		Six months ended	
	June 30,		June 30,	
	2006	2005	2006	2005
Medicare	\$ 506,671	\$ 464,377	\$ 1,008,762	\$ 874,695
Medicaid	301,972	334,973	572,654	616,565
Private and other	379,995	317,007	745,984	634,185
	1,188,638	1,116,357	2,327,400	2,125,445

Discontinued operations:				
Income from operations	0.13	0.26	0.21	0.34
Gain (loss) on divestiture of operations	(0.01)	0.06		0.06
Net income	\$ 0.69	\$ 1.43	\$ 1.28	\$ 2.27

NOTE 8 STOCKHOLDERS EQUITY

The Company's Series A warrants and Series B warrants expired on April 20, 2006. In connection with the exercise of these warrants, the Company issued approximately 10.1 million shares of common stock and received net proceeds of approximately \$142.3 million. These proceeds were used to repurchase approximately 5.8 million shares of the Company's common stock in the open market during the second quarter of 2006.

The Company also repurchased approximately two million shares of its common stock in the open market during the second quarter of 2006 at an aggregate cost of approximately \$52 million, thereby completing a \$100 million share repurchase program authorized by the Company's Board of Directors in August 2005.

Table of Contents**KINDRED HEALTHCARE, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****NOTE 9 BUSINESS SEGMENT DATA**

The Company operates four business segments: the hospital division, the health services division, the rehabilitation division and the pharmacy division. The hospital division operates LTAC hospitals. The health services division operates nursing centers. The rehabilitation division provides rehabilitation services primarily to nursing centers and LTAC hospitals. The pharmacy division provides pharmacy services to nursing centers and other healthcare providers. The Company defines operating income as earnings before interest, income taxes, depreciation, amortization and rent. Operating income reported for each of the Company's business segments excludes the allocation of corporate overhead.

The Company identifies its segments in accordance with the aggregation provisions of SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information. This information is consistent with information used by the Company in managing its businesses and aggregates businesses with similar economic characteristics.

The following table sets forth certain data by business segment (in thousands):

	Three months ended June 30,		Six months ended June 30,	
	2006	2005	2006	2005

Table of Contents**KINDRED HEALTHCARE, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****NOTE 10 INSURANCE RISKS**

The Company insures a substantial portion of its professional liability risks and workers compensation risks through a wholly owned limited purpose insurance subsidiary. Provisions for loss for these risks are based upon independent actuarially determined estimates.

The allowance for professional liability risks includes an estimate of the expected cost to settle reported claims and an amount, based upon past experiences, for losses incurred but not reported. These liabilities are necessarily based upon estimates and, while management believes that the provision for loss is adequate, the ultimate liability may be in excess of or less than the amounts recorded. To the extent that subsequent expected ultimate claims costs vary from historical provisions for loss, future earnings will be charged or credited. See Note 2.

The provision for loss for insurance risks, including the cost of coverage maintained with unaffiliated commercial insurance carriers, follows (in thousands):

	Three months ended June 30,		Six months ended June 30,	
	2006	2005	2006	2005
Professional liability:

Table of Contents**KINDRED HEALTHCARE, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****NOTE 10 INSURANCE RISKS (Continued)**

Provisions for loss for professional liability risks retained by the limited purpose insurance subsidiary have been discounted based upon management's estimate of long-term investment yields and independent actuarial estimates of claim payment patterns. The interest rate used to discount funded professional liability risks in each period presented was 5%. Amounts equal to the discounted loss provision are funded annually. The Company does not fund the portion of professional liability risks related to estimated claims that have been incurred but not reported. Accordingly, these liabilities are not discounted. If the Company did not discount any of the allowances for professional liability risks, these balances would have approximated \$271 million at June 30, 2006 and \$266 million at December 31, 2005.

Provisions for loss for workers compensation risks retained by the limited purpose insurance subsidiary are not discounted and amounts equal to the loss provision are funded annually.

NOTE 11 LEASES

KINDRED HEALTHCARE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

NOTE 11 LEASES (Continued)

Under the Plan of Reorganization, the Company assumed the original master lease agreements with Ventas and its affiliates and simultaneously amended and restated the agreements into four new master leases (the Master Leases). Under the Master Leases, Ventas has a right to sever properties from the existing leases in order to create additional leases, a device adopted to facilitate its financing flexibility. In such circumstances, the Company's aggregate lease obligations remain unchanged. Ventas exercised this severance right in December 2001 with respect to Master Lease No. 1 to create a new lease of 40 nursing centers (the CMBS Lease) and mortgaged these properties in connection with a securitized mortgage financing. In September 2004, Ventas exercised this severance right with respect to Master Lease No. 1 to create a new lease of one hospital and seven nursing centers (Master Lease No. 1A). Effective May 10, 2006, the CMBS Lease and Master Lease No. 1A were recombined with Master Lease No. 1. At June 30, 2006, the Company leased from Ventas 39 LTAC hospitals and 186 nursing centers.

Ventas has a one-time option to reset the rent and the related rent escalators under each of its Master Leases with the Company to the Fair Market Rental of the leased properties. Fair Market Rental is determined through an appraisal procedure set forth in the Master Leases.

Generally, the Master Leases provide that Ventas can initiate the rent reset procedure under each Master Lease at any time between January 20, 2006 and July 19, 2007 by delivering a notice to the Company proposing the Fair Market Rental (as described below) for the balance of the lease term (the Reset Proposal Notice). If the Company and Ventas are unable to reach an agreement on the Fair Market Rental within 30 days following delivery of the Reset Proposal Notice, the Company and Ventas each must select an appraiser. These two appraisers then will have ten days to select a third independent final appraiser (the Final Appraiser). If the two appraisers cannot agree on a Final Appraiser, either the Company or Ventas can request that the American Arbitration Association select the Final Appraiser. The Final Appraiser will have 60 days to complete its determination of Fair Market Rental, which determination will be final and binding on the parties. Within 30 days following the Final Appraiser's determination, Ventas may elect to exercise its right to reset Fair Market Rental by sending the Company a final exercise notice (the Final Exercise Notice).

Alternatively, Ventas may decide not to exercise its rental reset option, in which event the rent and the existing 3 1/2% contingent annual escalator would remain at their then current levels under the Master Leases. Provided that Ventas exercises its reset right in accordance with the Master Leases, the rent reset will become effective as of July 19, 2006.

As a condition to exercising its rent reset right, upon delivery of the Final Exercise Notice, Ventas is required to pay the Company a reset fee equal to a prorated portion of approximately \$5 million based upon the proportion of base rent payable under the Master Lease(s) with respect to which rent is reset to the total base rent payable under all of the Master Leases.

Fair Market Rental is defined under each Master Lease as the annual amount per annum that a willing tenant would pay, and a willing landlord would accept, at arm's length, for leasing of the leased properties (or, if applicable, any one or more, but less than all, of the leased properties) for the period of the term (including, without limitation, any extended terms) remaining from and after the date as of which the Fair Market Rental is being determined. The Fair Market Rental may include therein such escalations of rent as would be paid by such a tenant, and accepted by such a landlord, as part of an arm's length transaction entered into as of the Fair Market Rental determination date; provided, however, that, in addition to such other market factors as may be applicable in determining the Fair Market Rental, the Fair Market Rental shall be determined on the basis, and on the assumptions, that (a) the Fair Market Rental may not include therein any rent, or method of rent calculation, that

Table of Contents**KINDRED HEALTHCARE, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****NOTE 11 LEASES (Continued)**

would adversely affect any landlord by virtue of it being a real estate investment trust or the ability of any such landlord to satisfy the requirements for maintaining its status as a real estate investment trust (and, without limitation of the foregoing, the Fair Market Rental shall not include any rent that would fail to qualify as rents from real property for purposes of Section 856(d) of the Internal Revenue Code), (b) the Fair Market Rental amount is to be paid absolutely net to the landlord, without any rights of deduction, set-off or abatement, (c) all of the leased properties as to which the Fair Market Rental is being determined are in good condition and repair (given their respective ages and prevailing health care industry standards with respect to what is considered good condition and repair), without any deferred maintenance (but allowing for ordinary wear and tear), are in material compliance with any and all applicable laws, codes, ordinances and regulations and have in full force and effect, for the benefit of the tenant, the facilities and the leased properties, any and all necessary or appropriate material authorizations for use thereof in accordance with the respective primary intended uses applicable thereto, (d) the tenant has complied, and shall be required to comply, with the requirements of the Master Lease, (e) the respective replacement costs of the leased properties as to which Fair Market Rental is being determined are not determinative of the Fair Market Rental of such leased properties, and (f) the aforesaid tenant shall have available to it, with respect to each leased property as to which the Fair Market Rental is being determined, such remaining term as then remains, and such number of extended terms as then remain unexercised, with respect to such leased property under the terms of the Master Lease. Notwithstanding anything to the contrary contained in the Master Lease, Fair Market Rental shall take into account, for each of the applicable leased properties, the market conditions, market levels of earnings before interest, income taxes, depreciation, amortization, rent and management fees (EBITDARM), the ratio of market levels of EBITDARM to market levels of rent, and the actual levels of EBITDARM at the applicable leased properties, in each case that are prevailing or measured, as applicable, as of the date as of which the Fair Market Rental is being determined, as well as historical levels of EBITDARM at the applicable leased properties (including the EBITDARM of the leased properties measured as of April 20, 2001).

As discussed above, under the Master Leases, Ventas has a right to sever properties from the existing leases in order to create additional leases, a device adopted to facilitate its financing flexibility. For purposes of the reset right, the additional leases are disregarded and the Fair Market Rental is determined on the four original Master Leases.

On May 9, 2006, the Company received the Reset Proposal Notices from Ventas under each of the four Master Leases. In the Reset Proposal Notices, Ventas has asserted that the total aggregate annual rent under the four Master Leases should be reset to approximately \$317 million and that the annual rent escalator for each Master Lease should be reset at 3%. The current total aggregate annual rent under the Master Leases is approximately \$206 million. The current contingent annual rent escalator is 3 1/2% under each Master Lease.

Since receiving the Reset Proposal Notices, each of Ventas and the Company selected a third party appraiser in an effort to determine the Final Appraiser under each of the Master Leases. After significant negotiation, the two appraisers were unable to agree on the Final Appraiser for the Master Leases. Both Ventas and the Company have submitted formal requests to the American Arbitration Association to select appraisers to serve as the Final Appraiser under each of the Master Leases. Once the Final Appraisers are selected, they will have 60 days to complete the determination of the Fair Market Rental, including the annual rent escalator, under the Master Lease for which they are serving as the Final Appraiser. Within 30 days following the Final Appraiser's determination, Ventas may elect to exercise its right to reset the Fair Market Rental by sending the Company the Final Exercise Notice. Ventas' election can be made on a Master Lease by Master Lease basis. Alternatively, Ventas may decide not to exercise its rent reset option, in which event the rent and existing 3 1/2% contingent annual escalator would remain at their then current levels under the Master Leases. If Ventas exercises its rent reset right in accordance with the Master Leases, the rent reset will become effective as of July 19, 2006.

Table of Contents**KINDRED HEALTHCARE, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****NOTE 12 STOCK-BASED COMPENSATION**

The Company maintains plans under which up to ten million restricted stock awards and options to purchase common stock may be granted to officers, directors and key employees. Exercise provisions vary, but most stock options are exercisable in whole or in part beginning one to four years after grant and ending five to ten years after grant. Shares of common stock available for future grants were 2,030,369 at June 30, 2006.

Stock options

As discussed in Note 1, the Company adopted SFAS 123R as of January 1, 2006. The fair value of each stock option is estimated at the date of grant using a Black-Scholes option valuation model with the following weighted average assumptions for the six months ended June 30, 2006: risk-free interest rate of 4.62%; no dividend yield; expected term of five years; and volatility factors based upon the historical price of the Company's common stock of 0.51. The expected term represents the period of time that stock options granted are expected to be outstanding. As required by SFAS 123R, an estimate of expected forfeitures was determined and compensation expense was recognized only for those stock options expected to vest. The weighted average fair value of stock options granted during the six months ended June 30, 2006 under a Black-Scholes valuation model was \$10.93.

At June 30, 2006, unearned compensation costs related to non-vested stock options aggregated \$9.3 million. These costs will be expensed over the remaining weighted average vesting period of approximately two years. Compensation expense related to stock options approximated \$2.0 million (\$1.7 million net of income taxes or \$0.04 per diluted share) for the second quarter of 2006 and \$3.6 million (\$3.0 million net of income taxes or \$0.07 per diluted share) for the six months ended June 30, 2006.

Activity in the various plans is summarized below:

	Shares under option	Option price per share	Weighted average exercise price
Balances, December 31, 2005	3,087,197	\$ 6.39 to \$37.17	\$ 21.97
Granted	511,943	21.99 to 28.89	22.42
Exercised	(58,703)	6.39 to 19.07	14.90
Canceled	(86,121)	6.39 to 29.72	17.67
Balances, June 30, 2006	3,454,316	\$ 6.39 to \$37.17	\$ 22.27

The intrinsic value of the stock options exercised during the six months ended June 30, 2006 approximated \$0.5 million.

A summary of stock options outstanding at June 30, 2006 follows:

Range of exercise prices	Options outstanding			Options exercisable	
	Number outstanding at June 30,	Weighted average remaining	Weighted average exercise	Number exercisable at June 30,	Weighted average exercise

Edgar Filing: KINDRED HEALTHCARE, INC - Form 10-Q

	2006	contractual life	price	2006	price
\$ 6.39 to \$11.04	567,465	7 years	\$ 10.54	297,287	\$ 10.41
\$15.91 to \$20.00	729,923	6 years	17.64	577,673	17.71
\$21.99 to \$29.72	1,325,720	7 years	24.25	398,446	26.27
\$30.42 to \$37.17	831,208	6 years	31.18	831,208	31.18
	3,454,316	7 years	\$ 22.27	2,104,614	\$ 23.62

The intrinsic value of the stock options outstanding and stock options that are exercisable as of June 30, 2006 approximated \$17.9 million and \$9.8 million, respectively.

Table of Contents**KINDRED HEALTHCARE, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****NOTE 12 STOCK-BASED COMPENSATION (Continued)***Restricted stock*

At June 30, 2006, unearned compensation costs related to non-vested restricted stock aggregated \$13.9 million. These costs will be expensed over the remaining weighted average vesting period of approximately three years. Compensation expense related to these awards approximated \$3.3 million (\$2.0 million net of income taxes or \$0.05 per diluted share) for the second quarter of 2006 and \$6.4 million (\$3.9 million net of income taxes or \$0.09 per diluted share) for the six months ended June 30, 2006 and \$2.0 million (\$1.3 million net of income taxes or \$0.03 per diluted share) for the second quarter of 2005 and \$3.9 million (\$2.4 million net of income taxes or \$0.05 per diluted share) for the six months ended June 30, 2005.

A summary of non-vested restricted shares follows:

	Non-vested restricted shares	Weighted average fair value at date of grant
Balances, December 31, 2005	890,216	\$ 26.05
Granted	274,650	21.99
Vested	(58,717)	30.86
Balances, June 30, 2006	1,106,149	\$ 24.79

NOTE 13 CONTINGENCIES

Management continually evaluates contingencies based upon the best available information. In addition, allowances for loss are provided currently for disputed items that have continuing significance, such as certain third party reimbursements and deductions that continue to be claims in current cost reports and tax returns.

Management believes that allowances for losses have been provided to the extent necessary and that its assessment of contingencies is reasonable.

Principal contingencies are described below:

Revenues Certain third party payments are subject to examination by agencies administering the various programs. The Company is contesting certain issues raised in audits of prior year cost reports.

Professional liability risks The Company has provided for loss for professional liability risks based upon actuarially determined estimates. Ultimate claims costs may differ from the provisions for loss. See Notes 2 and 10.

Guarantees of indebtedness Letters of credit and guarantees of indebtedness approximated \$1.3 million at June 30, 2006.

Income taxes The Internal Revenue Service (the IRS) has proposed certain adjustments to the Company's 2000 and 2001 federal income tax returns which the Company is contesting. The principal proposed adjustment relates to the manner of reduction of the Company's tax attributes,

Edgar Filing: KINDRED HEALTHCARE, INC - Form 10-Q

primarily its net operating loss carryforwards (NOLs), in connection with the emergence of the Company and its subsidiaries from proceedings under the Bankruptcy Code. These proposed adjustments could have the effect of substantially eliminating the Company s NOLs.

Table of Contents

KINDRED HEALTHCARE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

NOTE 13 CONTINGENCIES (Continued)

Litigation The Company is a party to certain material litigation as well as various suits and claims arising in the ordinary course of business. See Note 14.

Other indemnifications In the ordinary course of business, the Company enters into contracts containing standard indemnification provisions and indemnifications specific to a transaction such as a disposal of an operating facility. These indemnifications may cover claims against employment-related matters, governmental regulations, environmental issues, and tax matters, as well as patient, third party payor, supplier and contractual relationships. Obligations under these indemnities generally would be initiated by a breach of the terms of the contract or by a third party claim or event.

NOTE 14 LITIGATION

A summary description of significant litigation follows.

A shareholder derivative suit entitled *Thomas G. White on behalf of Vencor, Inc. and Ventas, Inc. v. W. Bruce Lunsford, et al.*, Case No. 98CI03669, was filed on July 2, 1998 in the Jefferson County, Kentucky, Circuit Court. The suit was brought on behalf of the Company and Ventas against certain former executive officers and directors of the Company and Ventas. The complaint alleges that the defendants damaged the Company and Ventas by engaging in violations of the securities laws, engaging in insider trading, fraud and securities fraud and damaging the reputation of the Company and Ventas. The plaintiff asserts that such actions were taken deliberately, in bad faith and constitute breaches of the defendants' duties of loyalty and due care. The suit seeks unspecified damages, interest, punitive damages, reasonable attorneys' fees, expert witness fees and other costs, and any extraordinary equitable and/or injunctive relief permitted by law or equity to assure that the Company and Ventas have an effective remedy. In October 2002, the defendants filed a motion to dismiss for failure to prosecute the case. The court granted the motion to dismiss but the plaintiff subsequently moved the court to vacate the dismissal. The defendants filed an opposition to the plaintiff's motion to vacate the dismissal, but in August 2003 the court reinstated the lawsuit. In September 2003, the defendants filed a renewed motion to dismiss, as to all defendants, based upon the plaintiff's failure to make a demand for remedy upon the appropriate board of directors. On July 26, 2005, the court granted the defendants' motion to dismiss based upon the plaintiff's failure to make a statutorily required demand for remedy upon the appropriate board of directors. On August 25, 2005, the plaintiff filed an appeal with the Court of Appeals of Kentucky, which is pending. The Company believes that the allegations in the complaint are without merit and intends to defend this action vigorously.

The Company is a party to various legal actions (some of which are not insured), and regulatory and other government investigations and sanctions arising in the ordinary course of its business. The Company is unable to predict the ultimate outcome of pending litigation and regulatory and other government investigations. In addition, there can be no assurance that the U.S. Department of Justice (the DOJ), the Centers for Medicare and Medicaid Services (CMS) or other federal and state enforcement and regulatory agencies will not initiate additional investigations related to the Company's businesses in the future, nor can there be any assurance that the resolution of any litigation or investigations, either individually or in the aggregate, would not have a material adverse effect on the Company's financial position, results of operations and liquidity.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary Statement

This Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). All statements regarding the Company's expected future financial position, results of operations, cash flows, financing plans, business strategy, budgets, capital expenditures, competitive positions, growth opportunities, plans and objectives of management and statements containing the words such as anticipate, approximate, believe, plan, estimate, expect, project, could, should, will, intend, may and other similar expressions, are forward-looking statements.

Such forward-looking statements are inherently uncertain, and stockholders and other potential investors must recognize that actual results may differ materially from the Company's expectations as a result of a variety of factors, including, without limitation, those discussed below. Such forward-looking statements are based upon management's current expectations and include known and unknown risks, uncertainties and other factors, many of which the Company is unable to predict or control, that may cause the Company's actual results or performance to differ materially from any future results or performance expressed or implied by such forward-looking statements. These statements involve risks, uncertainties and other factors discussed below and detailed from time to time in the Company's filings with the SEC. Factors that may affect the Company's plans or results include, without limitation:

the Company's ability to operate pursuant to the terms of its debt obligations and its Master Leases with Ventas,

the risks and uncertainties arising from and related to the rent reset process, including the appraisal process, pursuant to the Master Leases,

the risks and uncertainties associated with the court action presently pending between the Company and Ventas related to the production of the Company's third party appraisals prepared for the rent reset process,

the Company's ability to meet its rental and debt service obligations,

adverse developments with respect to the Company's results of operations or liquidity,

the Company's ability to attract and retain key executives and other healthcare personnel,

increased operating costs due to shortages in qualified nurses, therapists and other healthcare personnel,

the effects of healthcare reform and government regulations, interpretation of regulations and changes in the nature and enforcement of regulations governing the healthcare industry,

changes in the reimbursement rates or methods of payment from third party payors, including the Medicare and Medicaid programs, changes arising from and related to the Medicare prospective payment system for LTAC hospitals (LTAC PPS), including the final Medicare payment rules issued on May 2, 2006, the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (Medicare Part D), and changes in Medicare and Medicaid reimbursements for the Company's nursing centers,

Edgar Filing: KINDRED HEALTHCARE, INC - Form 10-Q

national and regional economic conditions, particularly their effect on the availability and cost of labor, materials and other services,

the Company's ability to control costs, including labor and employee benefit costs,

the Company's ability to successfully pursue its development activities and successfully integrate new operations, including the realization of anticipated revenues, economies of scale, cost savings and productivity gains associated with such operations,

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Continued)**

Cautionary Statement (Continued)

the increase in the costs of defending and insuring against alleged professional liability claims and the Company's ability to predict the estimated costs related to such claims,

the Company's ability to successfully reduce (by divestiture of operations or otherwise) its exposure to professional liability claims,

the Company's ability to successfully dispose of unprofitable facilities, and

the Company's ability to ensure and maintain an effective system of internal controls over financial reporting.

Many of these factors are beyond the Company's control. The Company cautions investors that any forward-looking statements made by the Company are not guarantees of future performance. The Company disclaims any obligation to update any such factors or to announce publicly the results of any revisions to any of the forward-looking statements to reflect future events or developments.

General

The business segment data in Note 9 of the accompanying Notes to Condensed Consolidated Financial Statements should be read in conjunction with the following discussion and analysis.

The Company is a healthcare services company that through its subsidiaries operates hospitals, nursing centers, a contract rehabilitation services business and institutional pharmacies across the United States. At June 30, 2006, the Company's hospital division operated 80 LTAC hospitals (6,363 licensed beds) in 24 states. The Company's health services division operated 253 nursing centers (32,433 licensed beds) in 28 states. The Company operated a contract rehabilitation services business which provides rehabilitative services primarily in long-term care settings. The Company's pharmacy division operated an institutional pharmacy business with 39 pharmacies in 24 states and a pharmacy management business servicing substantially all of the Company's hospitals.

In recent years, the Company has completed several transactions related to the divestiture of unprofitable hospitals, nursing centers and other healthcare businesses to improve its future operating results. For accounting purposes, the operating results of these businesses and the gains or losses associated with these transactions have been classified as discontinued operations in the accompanying unaudited condensed consolidated statement of operations for all periods presented. Assets not sold at June 30, 2006 have been measured at the lower of carrying value or estimated fair value less costs of disposal and have been classified as held for sale in the accompanying unaudited condensed consolidated balance sheet. See Note 2 of the accompanying Notes to Condensed Consolidated Financial Statements.

In April 2001, the Company and its subsidiaries emerged from proceedings under the Bankruptcy Code pursuant to the terms of the Plan of Reorganization.

Critical Accounting Policies

Management's discussion and analysis of financial condition and results of operations are based upon the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires the use of estimates and judgments that affect the reported amounts and related disclosures of commitments and contingencies. The Company relies on historical experience and on various other assumptions that management believes to be reasonable under the circumstances to make judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ materially from these estimates.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Continued)**

Critical Accounting Policies (Continued)

The Company believes the following critical accounting policies, among others, affect the more significant judgments and estimates used in the preparation of its consolidated financial statements.

Revenue recognition

The Company has agreements with third party payors that provide for payments to each of its operating divisions. These payment arrangements may be based upon prospective rates, reimbursable costs, established charges, discounted charges or per diem payments. Net patient service revenue is recorded at the estimated net realizable amounts from Medicare, Medicaid, other third party payors and individual patients for services rendered. Retroactive adjustments that are likely to result from future examinations by third party payors are accrued on an estimated basis in the period the related services are rendered and adjusted as necessary in future periods based upon new information or final settlements.

Operating results included income related to the favorable settlement of prior year hospital Medicare cost reports that aggregated \$4 million and \$55 million for the second quarter of 2006 and 2005, respectively, and \$6 million and \$58 million for the six months ended June 30, 2006 and 2005, respectively.

Operating results for the second quarter of 2005 included pretax income of \$16 million (\$32 million of revenues net of \$16 million of provider taxes classified as operating expenses) related to retroactive nursing center Medicaid rate increases in the state of Indiana, of which approximately \$2 million related to the first quarter of 2005 and approximately \$14 million related to prior years.

See Note 3 of the accompanying Notes to Condensed Consolidated Financial Statements.

Collectibility of accounts receivable

Accounts receivable consist primarily of amounts due from the Medicare and Medicaid programs, other government programs, managed care health plans, commercial insurance companies and individual patients. Estimated provisions for doubtful accounts are recorded to the extent it is probable that a portion or all of a particular account will not be collected.

In evaluating the collectibility of accounts receivable, the Company considers a number of factors, including the age of the accounts, changes in collection patterns, the composition of patient accounts by payor type, the status of ongoing disputes with third party payors and general industry conditions. Actual collections of accounts receivable in subsequent periods may require changes in the estimated provision for loss. Changes in these estimates are charged or credited to the results of operations in the period of the change.

The provision for doubtful accounts totaled \$10 million and \$4 million for the second quarter of 2006 and 2005, respectively, and totaled \$18 million and \$8 million for the six months ended June 30, 2006 and 2005, respectively.

Allowances for insurance risks

The Company insures a substantial portion of its professional liability risks and workers compensation risks through a wholly owned limited purpose insurance subsidiary. Provisions for loss for these risks are based upon independent actuarially determined estimates.

The allowance for professional liability risks includes an estimate of the expected cost to settle reported claims and an amount, based upon past experiences, for losses incurred but not reported. These liabilities are necessarily based upon estimates and, while management believes that the provision for loss is adequate, the ultimate liability may be in excess of or less than the amounts recorded. To the extent that subsequent expected ultimate claims costs vary from historical provisions for loss, future earnings will be charged or credited.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Continued)**

Critical Accounting Policies (Continued)

Allowances for insurance risks (Continued)

Provisions for loss for professional liability risks retained by the limited purpose insurance subsidiary have been discounted based upon management's estimate of long-term investment yields and independent actuarial estimates of claim payment patterns. The interest rate used to discount funded professional liability risks in each period presented was 5%. Amounts equal to the discounted loss provision are funded annually. The Company does not fund the portion of professional liability risks related to estimated claims that have been incurred but not reported. Accordingly, these liabilities are not discounted. The allowance for professional liability risks aggregated \$258 million at June 30, 2006 and \$252 million at December 31, 2005. If the Company did not discount any of the allowances for professional liability risks, these balances would have approximated \$271 million at June 30, 2006 and \$266 million at December 31, 2005.

As a result of improved professional liability underwriting results of the Company's limited purpose insurance subsidiary, the Company received a return of capital of \$34 million and \$30 million during the six months ended June 30, 2006 and 2005, respectively, from its limited purpose insurance subsidiary. These proceeds were used primarily to repay borrowings under the Company's revolving credit facility.

Changes in the number of professional liability claims and the increasing cost to settle these claims significantly impact the allowance for professional liability risks. A relatively small variance between the Company's estimated and ultimate actual number of claims or average cost per claim could have a material impact, either favorable or unfavorable, on the adequacy of the allowance for professional liability risks. For example, a 1% variance in the allowance for professional liability risks at June 30, 2006 would impact the Company's operating income by approximately \$3 million. The Company recorded favorable pretax adjustments of \$10 million and \$23 million for the second quarter of 2006 and 2005, respectively, and \$17 million and \$33 million for the six months ended June 30, 2006 and 2005, respectively, resulting from a change in estimate for professional liability reserves related primarily to the Company's former nursing centers in Florida and Texas (included in discontinued operations).

The provision for professional liability risks (continuing operations), including the cost of coverage maintained with unaffiliated commercial insurance carriers, aggregated \$20 million and \$19 million for the second quarter of 2006 and 2005, respectively, and \$42 million and \$39 million for the six months ended June 30, 2006 and 2005, respectively.

Provisions for loss for workers compensation risks retained by the Company's limited purpose insurance subsidiary are not discounted and amounts equal to the loss provision are funded annually. The allowance for workers compensation risks aggregated \$85 million at June 30, 2006 and \$78 million at December 31, 2005. The provision for workers compensation risks (continuing operations), including the cost of coverage maintained with unaffiliated commercial insurance carriers, aggregated \$11 million and \$12 million for the second quarter of 2006 and 2005, respectively, and \$24 million and \$25 million for the six months ended June 30, 2006 and 2005, respectively.

See Note 10 of the accompanying Notes to Condensed Consolidated Financial Statements.

Accounting for income taxes

The provision for income taxes is based upon the Company's estimate of taxable income or loss for each respective accounting period. The Company recognizes an asset or liability for the deferred tax consequences of temporary differences between the tax bases of assets and liabilities and their reported amounts in the financial statements. These temporary differences will result in taxable or deductible amounts in future years when the

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Continued)**

Critical Accounting Policies (Continued)

Accounting for income taxes (Continued)

reported amounts of the assets are recovered or liabilities are settled. The Company also recognizes as deferred tax assets the future tax benefits from net operating and capital loss carryforwards. A valuation allowance is provided for these deferred tax assets if it is more likely than not that some portion or all of the net deferred tax assets will not be realized.

There are significant uncertainties with respect to professional liability costs, future government payments to both the Company's hospitals and nursing centers and the outcome of income tax examinations which, among other things, could affect materially the realization of certain deferred tax assets. Accordingly, the Company has recognized deferred tax assets to the extent it is more likely than not they will be realized and a valuation allowance is provided for deferred tax assets to the extent the realizability of the deferred tax assets is unlikely. The Company recognized deferred tax assets totaling \$147 million at June 30, 2006 and \$135 million at December 31, 2005.

In November 2004, the IRS proposed certain adjustments to the Company's 2000 and 2001 federal income tax returns. The principal proposed adjustment relates to the manner of reduction of the Company's tax attributes, primarily its NOLs, in connection with the emergence of the Company and its subsidiaries from proceedings under the Bankruptcy Code. These proposed adjustments could have the effect of substantially eliminating the Company's NOLs. However, the Company is vigorously contesting the proposed adjustments with the IRS appeals division. Management believes that the ultimate resolution of these disputes will not have a material effect on the Company's financial position, results of operations or liquidity.

The Company is subject to various income tax audits at the federal and state levels in the ordinary course of business. Such audits could result in increased tax payments, interest and penalties. While the Company believes its tax positions are appropriate, there can be no assurance that the various authorities engaged in the examination of its income tax returns will not challenge the Company's positions.

Valuation of long-lived assets and goodwill

The Company regularly reviews the carrying value of certain long-lived assets and identifiable intangible assets with respect to any events or circumstances that indicate an impairment or an adjustment to the amortization period is necessary. If circumstances suggest the recorded amounts cannot be recovered based upon estimated future undiscounted cash flows, the carrying values of such assets are reduced to fair value.

In assessing the carrying values of long-lived assets, the Company estimates future cash flows at the lowest level for which there are independent, identifiable cash flows. For this purpose, these cash flows are aggregated based upon the contractual agreements underlying the operation of the facility or group of facilities. Generally, an individual facility is considered the lowest level for which there are independent, identifiable cash flows. However, to the extent that groups of facilities are leased under a master lease in which the operations of a facility and compliance with the lease terms are interdependent upon other facilities in the agreement (including the Company's ability to renew the lease or divest a particular property), the Company defines the group of facilities under a master lease as the lowest level for which there are independent, identifiable cash flows. Accordingly, the estimated cash flows of all facilities within a master lease are aggregated for purposes of evaluating the carrying values of long-lived assets.

In connection with SFAS No. 142, Goodwill and Other Intangible Assets, the Company is required to perform an impairment test for goodwill at least annually or more frequently if adverse events or changes in circumstances indicate that the asset may be impaired. The Company performs its annual impairment test at the end of each year. No impairment charge was recorded at December 31, 2005 in connection with the annual impairment test.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Continued)****Recent Developments**

CMS issued final regulatory changes regarding Medicare reimbursement to LTAC hospitals (the Hospital Medicare Rule) on May 2, 2006. Based upon the Company's historical Medicare patient volumes, the Company expects that the Hospital Medicare Rule will reduce Medicare revenues to the Company's hospitals associated with short stay outliers and high cost outliers by approximately \$46 million on an annual basis. This estimate does not include the negative impact resulting from the elimination of the annual market basket adjustment to the Medicare payment rates that also is contained in the Hospital Medicare Rule. The annual market basket adjustment has typically ranged between 3% and 4%, or approximately \$25 million to \$30 million annually. The Hospital Medicare Rule is effective for discharges occurring after June 30, 2006. The Hospital Medicare Rule also extends until July 1, 2008 CMS's authority to impose a one-time prospective budget neutrality adjustment to LTAC hospital rates. This authority was scheduled to expire on October 1, 2006.

On August 1, 2006, CMS issued the final rule to reweight LTAC hospital diagnosis related groups (DRGs), among other things, beginning October 1, 2006 for the Company. CMS estimates that the effect of the proposal would decrease Medicare reimbursements to LTAC hospitals by an additional 1.3%.

Results of Operations - Continuing Operations***Hospital Division***

Revenues increased 1% to \$439 million in the second quarter of 2006 from \$435 million in the same period a year ago and 5% to \$870 million for the six months ended June 30, 2006 from \$828 million in the same period a year ago. As previously discussed in Note 3 of the accompanying Notes to Condensed Consolidated Financial Statements, revenues in both periods included certain Medicare cost report settlements. Excluding these settlements, revenues increased 15% in the second quarter of 2006 and 12% for the six months ended June 30, 2006 compared to the same periods a year ago. Revenue growth was primarily a result of growth in admissions, new hospital development and the Commonwealth Acquisition. On a same-store basis, revenues increased 6% in both the second quarter and six months ended June 30, 2006 compared to the same periods a year ago. Revenues associated with the Commonwealth Acquisition approximated \$30 million and \$40 million in the second quarter and six months ended June 30, 2006, respectively.

Admissions rose 9% in the second quarter of 2006 and 10% for the six months ended June 30, 2006 compared to the respective prior year periods, while non-government admissions grew 28% in the second quarter of 2006 and 25% for the six months ended June 30, 2006 compared to the respective prior year periods. On a same-store basis, admissions increased 1% in the second quarter of 2006 and 3% for the six months ended June 30, 2006 compared to the respective prior year periods.

Hospital wage and benefit costs increased 9% to \$191 million in the second quarter of 2006 from \$175 million in the same period a year ago and 10% to \$378 million for the six months ended June 30, 2006 from \$343 million in the same period last year. Average hourly wage rates grew 3% in both the second quarter and six months ended June 30, 2006 compared to the same periods a year ago, while employee benefit costs increased 11% in the second quarter of 2006 and 10% for the six months ended June 30, 2006 compared to the same periods a year ago.

Professional liability costs were \$5 million in the second quarter of both 2006 and 2005 and \$11 million for both six-month periods ended June 30, 2006 and 2005.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Continued)****Results of Operations – Continuing Operations (Continued)*****Hospital Division (Continued)***

Hospital operating income declined 22% to \$105 million in the second quarter of 2006 from \$134 million a year ago and declined 11% to \$209 million for the six months ended June 30, 2006 from \$236 million a year ago. As previously discussed in Note 3 of the accompanying Notes to Condensed Consolidated Financial Statements, hospital operating income in both periods included certain adjustments. Excluding these adjustments, operating income grew 21% in the second quarter of 2006 and 11% for the six months ended June 30, 2006 and operating margins were 23.2% and 23.5% in the second quarter and six months ended June 30, 2006, respectively, compared to 22.0% and 23.7% in the same prior year periods. Excluding the adjustments, growth in hospital operating income in both periods was primarily attributable to growth in admissions, operating efficiencies associated with growth in volumes and the Commonwealth Acquisition. Aggregate operating costs per admission increased 2% in both the second quarter and six months ended June 30, 2006 compared to the corresponding prior year periods. Operating income associated with the Commonwealth Acquisition approximated \$3 million and \$4 million in the second quarter and six months ended June 30, 2006, respectively.

The adoption of the Hospital Medicare Rule for the Company's in-house Medicare patients at June 30, 2006 reduced second quarter hospital revenues and operating income by approximately \$5 million.

Health Services Division

Revenues increased 6% to \$515 million in the second quarter of 2006 from \$484 million in the same period a year ago and 7% to \$995 million for the six months ended June 30, 2006 from \$927 million in the same period a year ago. Excluding the retroactive Medicaid rate increases discussed in Note 3 of the accompanying Notes to Condensed Consolidated Financial Statements, revenues increased 14% in the second quarter of 2006 and 10% for the six months ended June 30, 2006 compared to the same periods a year ago. Revenue growth was primarily a result of generally favorable reimbursement rates and an increase in patient days. Aggregate patient days increased 7% in the second quarter of 2006 and 5% for the six months ended June 30, 2006 compared to the respective prior year periods. On a same-store basis, aggregate patient days increased 1% in both the second quarter and six months ended June 30, 2006 compared to the same prior year periods. Revenues associated with the Commonwealth Acquisition approximated \$31 million and \$41 million in the second quarter and six months ended June 30, 2006, respectively.

Nursing center wage and benefit costs increased 8% to \$270 million in the second quarter of 2006 from \$250 million in the same period a year ago and 8% to \$528 million for the six months ended June 30, 2006 from \$487 million in the same period a year ago. Average hourly wage rates increased 5% in the second quarter of 2006 and 4% for the six months ended June 30, 2006 compared to the respective prior year periods, while employee benefit costs increased 6% for both the second quarter and six months ended June 30, 2006 compared to the respective prior year periods.

Professional liability costs were \$14 million in the second quarter of both 2006 and 2005, and \$30 million and \$28 million for the six months ended June 30, 2006 and 2005, respectively.

Nursing center operating income increased 2% to \$67 million in the second quarter of 2006 from \$66 million in the same period a year ago and declined 3% to \$115 million for the six months ended June 30, 2006 from \$119 million in the same period a year ago. As previously discussed in Note 3 of the accompanying Notes to Condensed Consolidated Financial Statements, nursing center operating income in the second quarter of 2005 included certain adjustments. Excluding these adjustments, operating income grew 14% in the second quarter of 2006 and 1% for the six months ended June 30, 2006 while operating margins were 13.0% and 11.6% in the second quarter and six months ended June 30, 2006, respectively, compared to 13.0% and 12.7% in the

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Continued)****Results of Operations – Continuing Operations (Continued)*****Health Services Division (Continued)***

same prior year periods. Excluding these adjustments, aggregate operating costs per patient day increased 6% in the second quarter of 2006 and 7% for the six months ended June 30, 2006 compared to the respective prior year periods. Nursing center operating income in the second quarter and six months ended June 30, 2006 increased primarily due to improved reimbursement rates and increases in patient days (particularly Medicare, private and other patient days). Operating income associated with the Commonwealth Acquisition approximated \$3 million and \$4 million in the second quarter and six months ended June 30, 2006, respectively.

Rehabilitation Division

Revenues increased 14% to \$74 million in the second quarter of 2006 from \$65 million in the same period a year ago and 12% to \$145 million for the six months ended June 30, 2006 from \$130 million in the same period a year ago. The increase in revenues in both periods was primarily attributable to price increases and growth in the volume of services provided to existing customers.

Operating income increased 21% to \$9 million in the second quarter of 2006 from \$7 million in the same period a year ago and declined 24% to \$13 million for the six months ended June 30, 2006 from \$17 million in the same period a year ago. Operating income for the six months ended June 30, 2006 included a pretax charge of approximately \$3 million related primarily to revisions to prior estimates for accrued contract labor costs. Operating income in 2006 also was negatively impacted by increased costs associated with wage rate pressures resulting from an increasingly competitive marketplace for therapists. Operating income for the second quarter of 2005 included a \$1 million charge related to a special recognition payment to the Company's non-executive caregivers and employees.

Pharmacy Division

Revenues increased 21% to \$160 million in the second quarter of 2006 from \$132 million in the same period a year ago and 32% to \$317 million for the six months ended June 30, 2006 from \$240 million in the same period a year ago due primarily to acquisitions, price increases and higher drug utilization. Revenues associated with three pharmacy acquisitions completed during 2005 approximated \$38 million and \$77 million in the second quarter and six months ended June 30, 2006, respectively, compared to \$25 million and \$28 million for the respective prior year periods. At June 30, 2006, the Company provided pharmacy services to nursing centers containing 95,300 licensed beds, including 30,300 licensed beds that it operates. At June 30, 2005, the Company provided pharmacy services to nursing centers containing 84,800 licensed beds, including 28,700 licensed beds that it operates.

On January 1, 2006, Medicare Part D became effective. Under this program, Medicare beneficiaries who were entitled to benefits under a state Medicaid program (so-called "dual eligibles") now have their outpatient prescription drug costs covered by Medicare Part D, subject to certain limitations. Most of the Company's nursing center residents whose drug costs were previously covered by state Medicaid programs are dual eligibles who qualify for the Medicare Part D drug benefit. Accordingly, since January 1, 2006, Medicaid is no longer a primary payor for the pharmacy services provided to these residents. In fiscal 2005, the Company's pharmacy division derived approximately 45% of its revenues from the Medicaid program.

Pharmacy operating income increased 14% to \$15 million in the second quarter of 2006 from \$14 million in the same period a year ago and 29% to \$32 million for the six months ended June 30, 2006 from \$25 million in the same period a year ago. Pharmacy operating income for the six months ended June 30, 2006 included a \$1 million gain from a joint venture transaction. Pharmacy operating income for the second quarter of 2005

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Continued)****Results of Operations – Continuing Operations (Continued)*****Pharmacy Division (Continued)***

included a \$1 million charge related to a special recognition payment to the Company's non-executive caregivers and employees. Operating income associated with three pharmacy acquisitions completed in 2005 approximated \$2 million and \$6 million in the second quarter and six months ended June 30, 2006, respectively, compared to \$3 million for both respective prior year periods. Operating margins were 9.5% and 10.0% in the second quarter and six months ended June 30, 2006, respectively, compared to 10.1% and 10.3% in the same prior year periods. The cost of goods sold as a percentage of institutional pharmacy revenues were 64.9% and 65.2% in the second quarter and six months ended June 30, 2006, respectively, compared to 65.1% and 64.9% in the same prior year periods. Excluding acquisitions, pharmacy operating income in both periods increased from the same period last year primarily due to volume growth.

Corporate Overhead

Operating income for the Company's operating divisions excludes allocations of corporate overhead. These costs aggregated \$43 million and \$80 million in the second quarter and six months ended June 30, 2006, respectively, compared to \$38 million and \$67 million for the respective prior year periods. As previously discussed in Note 3 of the accompanying Notes to Condensed Consolidated Financial Statements, corporate overhead included certain adjustments. Excluding these adjustments, corporate overhead as a percentage of consolidated revenues totaled 3.6% and 3.5% in the second quarter and six months ended June 30, 2006, respectively, compared to 3.5% and 3.3% in the same prior year periods. The increase in corporate overhead in the second quarter and six months ended June 30, 2006 compared to the same periods last year was primarily attributable to increases in stock-based compensation and certain incentive compensation costs.

Corporate expenses included the operating losses of the Company's limited purpose insurance subsidiary of \$2 million and \$4 million in the second quarter and six months ended June 30, 2006, respectively, compared to \$3 million and \$5 million for the respective prior year periods.

Reorganization Items

Transactions related to the Plan of Reorganization have been classified separately in the unaudited condensed consolidated statement of operations. Operating results for the six months ended June 30, 2005 included income of approximately \$1 million resulting from changes in estimates for accrued professional and administrative costs related to the Company's emergence from bankruptcy.

Capital Costs

Rent expense increased 12% to \$77 million in the second quarter of 2006 from \$69 million in the same period a year ago and 10% to \$149 million for the six months ended June 30, 2006 from \$136 million in the same period a year ago. A substantial portion of the increase resulted from acquisition and development activities, and contractual inflation increases, including those associated with the Master Leases.

Depreciation and amortization expense increased 21% to \$31 million in the second quarter of 2006 from \$25 million in the same period a year ago and 20% to \$59 million for the six months ended June 30, 2006 from \$49 million in the same period a year ago. The increase was primarily a result of the Company's ongoing capital expenditure program and acquisition and development activities.

Interest expense increased to \$3 million in the second quarter of 2006 from \$2 million in the same period a year ago and to \$6 million for the six months ended June 30, 2006 from \$4 million in the same period a year ago. The increase was primarily a result of increased borrowings under the Company's revolving credit facility as a result of the Commonwealth Acquisition.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Continued)**

Results of Operations - Continuing Operations (Continued)

Capital Costs (Continued)

Investment income, related primarily to the Company's excess cash balances and insurance subsidiary investments, approximated \$3 million and \$7 million in the second quarter and six months ended June 30, 2006, respectively, compared to \$2 million and \$5 million for the respective prior year periods.

Consolidated Results

Income from continuing operations before income taxes declined 50% to \$43 million in the second quarter of 2006 from \$86 million in the same period a year ago and 45% to \$78 million for the six months ended June 30, 2006 from \$142 million in the same period a year ago. Net income from continuing operations declined 52% to \$25 million in the second quarter of 2006 from \$52 million in the same period a year ago and 47% to \$45 million for the six months ended June 30, 2006 from \$85 million in the same period a year ago. See Note 3 of the accompanying Notes to Condensed Consolidated Financial Statements.

Discontinued Operations

Net income from discontinued operations aggregated \$5 million in the second quarter of 2006 compared to \$11 million for the same period a year ago. Net income from discontinued operations aggregated \$9 million for the six months ended June 30, 2006 compared to \$15 million for the same period a year ago. Net income from discontinued operations included favorable pretax adjustments of \$10 million and \$23 million for the second quarter of 2006 and 2005, respectively, and \$17 million and \$33 million for the six months ended June 30, 2006 and 2005, respectively, resulting from a change in estimate for professional liability reserves related primarily to the Company's former nursing centers in Florida and Texas. See Notes 2 and 10 of the accompanying Notes to Condensed Consolidated Financial Statements.

Liquidity

Cash flows from operations (including discontinued operations) aggregated \$18 million for the six months ended June 30, 2006 compared to \$57 million for the same period a year ago. During both periods, the Company maintained sufficient liquidity to fund its ongoing capital expenditure program and finance acquisitions.

Cash and cash equivalents totaled \$15 million at June 30, 2006 compared to \$83 million at December 31, 2005. Based upon the Company's existing cash levels, expected operating cash flows and capital spending (including planned acquisitions), and the availability of borrowings under the Company's revolving credit facility, management believes that the Company has the necessary financial resources to satisfy its expected short-term and long-term liquidity needs.

Long-term debt at June 30, 2006 aggregated \$165 million (including \$143 million of borrowings under the Company's revolving credit facility). The Company was in compliance with the terms of its \$400 million revolving credit facility at June 30, 2006. The Company expects to continue to utilize its revolving credit facility in 2006 to fund working capital and development needs.

Over the last few years, the Company's limited purpose insurance subsidiary has achieved improved professional liability underwriting results. As a result, the Company received a return of capital of \$34 million and \$30 million during the six months ended June 30, 2006 and 2005, respectively, from its limited purpose insurance subsidiary. These proceeds were used primarily to repay borrowings under the Company's revolving credit facility.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Continued)**

Liquidity (Continued)

The Company's Series A warrants and Series B warrants expired on April 20, 2006. In connection with the exercise of these warrants, the Company issued approximately 10.1 million shares of common stock and received net proceeds of approximately \$142 million. These proceeds were used to repurchase approximately 5.8 million shares of the Company's common stock in the open market during the second quarter of 2006.

The Company also repurchased approximately two million shares of its common stock in the open market during the second quarter of 2006 at an aggregate cost of approximately \$52 million, thereby completing a \$100 million share repurchase program authorized by the Company's Board of Directors in August 2005.

During the past several years, the Company's federal income tax payments have been significantly reduced primarily as a result of certain income tax benefits arising in connection with the Company's reorganization, including the utilization of NOLs. Beginning in 2006, the Company expects that cash payments of federal income taxes will more closely reflect the Company's provision for income taxes. Accordingly, the Company's operating cash flows in 2006 may decline from the levels reported in 2005. Operating cash flows for the six months ended June 30, 2006 included \$28 million of federal income tax payments, compared to \$1 million in the same period a year ago.

As previously discussed, the Company is contesting certain proposed adjustments by the IRS to its 2000 and 2001 federal income tax returns related primarily to its NOLs.

On May 9, 2006, the Company received the Reset Proposal Notices from Ventas under each of the four Master Leases. In the Reset Proposal Notices, Ventas has asserted that the total aggregate annual rent under the four Master Leases should be reset to approximately \$317 million and that the annual rent escalator for each Master Lease should be reset at 3%. The current total aggregate annual rent under the Master Leases is approximately \$206 million. The current contingent annual rent escalator is 3 1/2% under each Master Lease.

Since receiving the Reset Proposal Notices, each of Ventas and the Company selected a third party appraiser in an effort to determine the Final Appraiser under each of the Master Leases. After significant negotiation, the two appraisers were unable to agree on the Final Appraiser for the Master Leases. Both Ventas and the Company have submitted formal requests to the American Arbitration Association to select appraisers to serve as the Final Appraiser under each of the Master Leases. Once the Final Appraisers are selected, they will have 60 days to complete the determination of the Fair Market Rental, including the annual rent escalator, under the Master Lease for which they are serving as the Final Appraiser. Within 30 days following the Final Appraiser's determination, Ventas may elect to exercise its right to reset the Fair Market Rental by sending the Company the Final Exercise Notice. Ventas' election can be made on a Master Lease by Master Lease basis. Alternatively, Ventas may decide not to exercise its rent reset option, in which event the rent and existing 3 1/2% contingent annual escalator would remain at their then current levels under the Master Leases. If Ventas exercises its rent reset right in accordance with the Master Leases, the rent reset will become effective as of July 19, 2006.

The Company has performed substantial analysis of the potential rent reset, including internal analysis, and has had each Ventas facility appraised by one or more independent appraisers taking into account the terms of the Master Leases. Based upon this analysis, the Company has a significant disagreement with Ventas on the asserted rent reset, both with respect to the annual aggregate base rent and the level of the annual rent escalator. Based upon the independent appraisals of the Ventas facilities, the Company believes that both the existing aggregate rents and the 3 1/2% annual rent escalator under each Master Lease are already well above market.

The Company's analysis is based upon a number of factors, some of which are subject to change, including, without limitation, reimbursement rates and regulatory changes affecting the leased properties, the historical and projected financial results of the individual leased properties, the condition, age and capital requirements of the

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Continued)

Liquidity (Continued)

leased properties, the method of calculating market rents, current market rents and industry market rents for LTAC hospitals and nursing centers, the terms of the Master Leases that limit operational and malpractice insurance restructuring flexibility, the aggregate rental value of the portfolio of LTAC hospitals and nursing centers contained within each Master Lease, and the inherent risks involved in any third party appraisal process. The average ages of the hospitals and nursing centers in the Ventas portfolio are approximately 38 years and 36 years, respectively.

Given the significant difference of opinion with Ventas, the Company believes investors should consider that this issue may be resolved through the appraisal process set forth in the Master Leases.

Capital Resources

Excluding acquisitions, capital expenditures totaled \$62 million in the six months ended June 30, 2006 compared to \$47 million for the same period a year ago. Excluding acquisitions, capital expenditures could approximate \$150 million to \$175 million in 2006. Management believes that its capital expenditure program is adequate to improve and equip existing facilities. The Company's capital expenditure program is financed generally through the use of internally generated funds. At June 30, 2006, the estimated cost to complete and equip construction in progress approximated \$60 million.

The Commonwealth Acquisition was financed primarily through borrowings under the Company's revolving credit facility.

During the first six months of 2005, the Company acquired a hospital and completed both the PPI Acquisition and the SCP Acquisition. The Company financed these acquisitions through the use of operating cash flows and borrowings under the revolving credit facility.

The revolving credit facility includes certain covenants which limit the Company's acquisitions and annual capital expenditures. At June 30, 2006, the Company's remaining permitted acquisition amount under its revolving credit facility aggregated \$230 million.

Other Information

Effects of Inflation and Changing Prices

The Company derives a substantial portion of its revenues from the Medicare and Medicaid programs. Congress and certain state legislatures have enacted or may enact additional significant cost containment measures limiting the Company's ability to recover its cost increases through increased pricing of its healthcare services. Medicare revenues in the Company's LTAC hospitals and nursing centers are subject to fixed payments under the Medicare prospective payment systems. Medicaid reimbursement rates in many states in which the Company operates nursing centers also are based upon fixed payment systems. Generally, these rates are adjusted annually for inflation. However, these adjustments may not reflect the actual increase in the costs of providing healthcare services.

CMS issued final regulatory changes regarding the Hospital Medicare Rule on May 2, 2006. Based upon the Company's historical Medicare patient volumes, the Company expects that the Hospital Medicare Rule will reduce Medicare revenues to the Company's hospitals associated with short stay outliers and high cost outliers by approximately \$46 million on an annual basis. This estimate does not include the negative impact resulting from the elimination of the annual market basket adjustment to the Medicare payment rates that also is contained in the Hospital Medicare Rule. The annual market basket adjustment has typically ranged between 3% and 4%, or approximately \$25 million to \$30 million annually. The Hospital Medicare Rule is effective for discharges

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Continued)**

Other Information (Continued)

Effects of Inflation and Changing Prices (Continued)

occurring after June 30, 2006. The adoption of the Hospital Medicare Rule for the Company's in-house Medicare patients at June 30, 2006 reduced second quarter hospital revenues by approximately \$5 million. The Hospital Medicare Rule also extends until July 1, 2008 CMS's authority to impose a one-time prospective budget neutrality adjustment to LTAC hospital rates. This authority was scheduled to expire on October 1, 2006.

On August 1, 2006, CMS issued the final rule to reweight LTAC hospital DRGs, among other things, beginning October 1, 2006 for the Company. CMS estimates that the effect of the proposal would decrease Medicare reimbursements to LTAC hospitals by an additional 1.3%.

The Company's hospitals operate under LTAC PPS. Operating results under this system are subject to changes in patient acuity and expense levels in the Company's hospitals. These factors, among others, are subject to significant change. Slight variations in patient acuity could significantly change Medicare revenues generated under LTAC PPS. In addition, the Company's hospitals may not be able to appropriately adjust their operating costs as patient acuity levels change. Under this system, Medicare reimbursements to the Company's hospitals are based upon a fixed payment system. Operating margins in the hospital division could be negatively impacted if the Company is unable to control the operating costs of the division. As a result of these uncertainties, the Company cannot predict the ultimate long-term impact of LTAC PPS on its hospital operating results and the Company can provide no assurances that such regulations or operational changes resulting from these regulations will not have a material adverse impact on its financial position, results of operations or liquidity. In addition, the Company can provide no assurances that LTAC PPS will not have a material adverse effect on revenues from private and commercial third party payors. Various factors, including a reduction in average length of stay, have had a negative impact on revenues from private and commercial third party payors.

LTAC PPS maintains LTAC hospitals as a distinct provider type, separate from short-term acute care hospitals. Only providers certified as LTAC hospitals may be paid under this system. To maintain certification under LTAC PPS, the average length of stay of Medicare patients must be at least 25 days. Under the previous system, compliance with the 25-day average length of stay threshold was based upon all patient discharges.

CMS is currently evaluating various certification criteria for designating a hospital as a LTAC hospital. If such certification criteria were developed and enacted into legislation, the Company's hospitals may not be able to maintain their status as LTAC hospitals or may need to adjust their operations.

On August 1, 2005, CMS published the final rules related to the DRG weights and the geometric length-of-stay thresholds that took effect for hospital Medicare discharges occurring on or after October 1, 2005. The Company expects these changes to reduce Medicare revenues to its hospitals between \$35 million to \$40 million on an annual basis based upon the Company's historical Medicare patient volumes.

Medicare payments to the Company's nursing centers are based upon certain resource utilization grouping (RUG) payment rates developed by CMS that provide various levels of reimbursement based upon patient acuity. On July 28, 2005, CMS published the final rules related to revised payment rates to nursing centers. Among other things, the final rules provide for a 3.1% inflation update to all RUGs categories effective October 1, 2005.

In addition, beginning January 1, 2006, the final rules increased the indexing of RUG categories, expanded the total RUG categories from 44 to 53 and eliminated the 20% payment add-on for the care of higher acuity patients that had been in effect since 2000 under the Balanced Budget Refinement Act of 2000.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Continued)**

Other Information (Continued)

Effects of Inflation and Changing Prices (Continued)

On February 1, 2006, Congress passed the Deficit Reduction Act of 2005. This legislation allows, among other things, an annual \$1,740 Medicare Part B outpatient therapy cap which went into effect on January 1, 2006. The legislation also requires CMS to implement a broad process for reviewing medically necessary therapy claims, creating an exception to the cap.

In January 2005, CMS issued final regulations on Medicare Part D which became effective on January 1, 2006. Medicare beneficiaries who also are entitled to benefits under a state Medicaid program (so-called dual eligibles) now have their outpatient prescription drug costs covered by Medicare Part D, subject to certain limitations. Most of the nursing center residents that the Company serves whose drug costs were previously covered by state Medicaid programs are dual eligibles who qualify for the Medicare Part D drug benefit. Accordingly, since January 1, 2006, Medicaid is no longer a primary payor for the pharmacy services provided to these residents.

At this time, the Company cannot assess the overall impact of Medicare Part D on its institutional pharmacy business. The impact of this legislation depends upon a variety of factors, including the Company's ongoing relationships with the Part D plans and the patient mix of the Company's customers. This legislation may reduce revenue and impose additional costs to the industry, particularly in the transition phase. In addition, there can be no assurance that Medicare Part D and the regulations promulgated under Medicare Part D will not have a material adverse effect on the Company's institutional pharmacy business.

The Company believes that its operating margins may continue to be under pressure as the growth in operating expenses, particularly professional liability, labor and employee benefits costs, exceeds payment increases from third party payors. In addition, as a result of competitive pressures, the Company's ability to maintain operating margins through price increases to private patients is limited.

Litigation

The Company is a party to certain material litigation. See Note 14 of the accompanying Notes to Condensed Consolidated Financial Statements.

Table of Contents**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

The following discussion of the Company's exposure to market risk contains forward-looking statements that involve risks and uncertainties. The information presented has been prepared utilizing certain assumptions considered reasonable in light of information currently available to the Company. Given the unpredictability of interest rates as well as other factors, actual results could differ materially from those projected in such forward-looking information.

The Company's exposure to market risk relates to changes in the prime rate, federal funds rate and the London Interbank Offered Rate which affect the interest paid on certain borrowings.

The following table provides information about the Company's financial instruments that are sensitive to changes in interest rates. The table presents principal cash flows and related weighted average interest rates by expected maturity date.

Interest Rate Sensitivity**Principal (Notional) Amount by Expected Maturity****Average Interest Rate****(Dollars in thousands)**

Variable rate (a)	\$	\$	\$	\$ 142,600	\$	\$	\$ 142,600	\$ 142,600

- (a) Interest on borrowings under the Company's revolving credit facility is payable, at the Company's option, at (1) the London Interbank Offered Rate plus an applicable margin ranging from 2.00% to 2.75% or (2) prime plus an applicable margin ranging from 1.00% to 1.75%. The applicable margin is based upon the Company's adjusted leverage ratio as defined in the Company's revolving credit facility.

Table of Contents

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures and Changes in Internal Control Over Financial Reporting

The Company has carried out an evaluation under the supervision and with the participation of management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. Based upon this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that, as of June 30, 2006, the Company's disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed in the reports that the Company files and submits under the Exchange Act is recorded, processed, summarized and reported as and when required.

There has been no change in the Company's internal control over financial reporting during the Company's quarter ended June 30, 2006, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****Item 1. Legal Proceedings**

The Company is a party to various legal actions (some of which are not insured), and regulatory and other government investigations and sanctions arising in the ordinary course of its business. The Company is unable to predict the ultimate outcome of pending litigation and regulatory and other government investigations. In addition, there can be no assurance that the DOJ, CMS or other federal and state enforcement and regulatory agencies will not initiate additional investigations related to the Company's businesses in the future, nor can there be any assurance that the resolution of any litigation or investigations, either individually or in the aggregate, would not have a material adverse effect on the Company's financial position, results of operations and liquidity.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**Issuer Purchases of Equity Securities**

Period	(a) Total number of shares (or units) purchased	(b) Average price paid per share (or unit)	(c) Total number of shares (or units) purchased as part of publicly announced plans or programs	(d) Maximum number (or approximate dollar value) of shares (or units) that may yet be purchased under the plans or programs ⁽¹⁾
Month #1

Total	7,828,555	\$ 24.79	7,828,555	\$

- (1) On August 2, 2005, the Company announced that its Board of Directors had authorized up to \$100 million in repurchases of its common stock and Series A and Series B warrants. The Company purchased only common stock under this repurchase program.

In addition, the Company also announced on February 27, 2006 that its Board of Directors had authorized the use of the proceeds from the exercise of the Company's formerly outstanding warrants to repurchase common stock issued in connection with the exercise of the warrants. After giving effect to warrants that were exercised using a cashless exercise procedure, the Company received approximately \$142 million in net proceeds from the exercise of these warrants. During the second quarter of 2006, these proceeds were used to purchase approximately 5.8 million shares of common stock under this program.

The amounts set forth in the table reflect repurchases under both of the repurchase programs discussed in this footnote.

Table of Contents**PART II. OTHER INFORMATION (Continued)****Item 4. Submission of Matters to a Vote of Security Holders**

The Company's Annual Meeting of Shareholders was held on May 25, 2006 in Louisville, Kentucky. At the meeting, shareholders elected a board of eight directors pursuant to the following votes:

Director	Votes in Favor	Votes Withheld
Thomas P. Cooper, M.D.	36,996,454	214,427
Paul J. Diaz	37,021,421	189,460
Michael J. Embler	33,864,890	3,345,991
Garry N. Garrison	37,030,926	179,955
Isaac Kaufman	37,032,021	178,860
John H. Klein	37,028,976	181,905
Edward L. Kuntz	36,886,683	324,198
Eddy J. Rogers, Jr.	37,051,158	159,723

In addition to electing directors, shareholders of the Company ratified the appointment of PricewaterhouseCoopers LLP as the Company's independent auditor for fiscal year 2006 by the vote of 37,186,991 in favor, 16,729 against, 7,159 abstentions and no non-votes.
