E COM VENTURES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1 - OPERATIONS AND BASIS OF PRESENTATION

E Com Ventures, Inc., a Florida corporation (ECOMV or the Company), performs all of its operations through two wholly-owned subsidiaries, Perfumania, Inc. (Perfumania), a Florida corporation, which is a specialty retailer and wholesaler of fragrances and related products, and perfumania.com, Inc., (perfumania.com), a Florida corporation, which is an Internet retailer of fragrances and other specialty items.

Perfumania is a leading specialty retailer and wholesale distributor of a wide range of brand name and designer fragrances. As of July 29, 2006, Perfumania operated a chain of 243 retail stores specializing in the sale of fragrances at discounted prices up to 75% below the manufacturers suggested retail prices. Perfumania's wholesale division distributes fragrances and related products primarily to an affiliate. Perfumania.com offers a selection of the Company's more popular products for sale over the Internet and serves as an alternative shopping experience to the Perfumania retail stores.

The condensed consolidated financial statements include the accounts of ECOMV and subsidiaries (collectively, the Company). All material intercompany balances and transactions have been eliminated in consolidation.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (the SEC). Certain information and note disclosures normally included in annual financial statements, prepared in accordance with accounting principles generally accepted in the United States of America, have been condensed or omitted pursuant to those rules and regulations. The financial information presented herein, which is not necessarily indicative of results to be expected for the current fiscal year, reflect all adjustments which, in the opinion of management, are necessary for a fair presentation of the interim unaudited condensed consolidated financial statements. It is suggested that these condensed consolidated financial statements be read in conjunction with the financial statements and the notes thereto included in our Annual Report on Form 10-K for the fiscal year ended January 28, 2006, filed with the SEC on April 28, 2006.

NOTE 2 - ACCOUNTING FOR SHARE-BASED PAYMENT

The Company has two stock option plans which provide for equity-based awards to its employees and directors (collectively, the Plans). Under the Plans, the Company has reserved approximately 1,000,000 shares of common stock, of which approximately 582,000 options have been granted and 208,000 options are outstanding. All stock options have an exercise price that is equal to the fair market value of the Company's stock on the date the options were granted. The term of the stock option awards is ten years from the date of grant. All options are fully vested. Prior to the January 29, 2006 adoption of Statement of Financial Accounting Standards (SFAS) No. 123R Share Based Payment (SFAS 123R), the Company accounted for stock-based compensation using the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB 25). Accordingly, because the stock option price equaled the market price on the date of grant, no compensation expense was recognized by the Company for stock-based compensation. As permitted by SFAS No. 123, Accounting for Stock-Based Compensation (SFAS No. 123), stock-based compensation was included as a pro forma disclosure in the notes to the consolidated financial statements. SFAS No. 123R revises SFAS No. 123 and supersedes APB 25.

Effective January 29, 2006, the beginning of the Company's first fiscal quarter of 2006, the Company adopted the fair value recognition provisions of SFAS No. 123R, using the modified-prospective transition method. Under this transition method, share based compensation expense is required to be recognized in the consolidated financial statements for stock options which are granted, modified or vested subsequent to

Table of Contents

January 29, 2006. The compensation expense recognized will include the estimated expense for stock options granted on and subsequent to January 29, 2006, based on the grant date fair value estimated in accordance with the provisions of SFAS No. 123R, and the estimated expense for the portion vesting in the period for options granted prior to, but not vested as of January 28, 2006, based on the grant date fair value estimated in accordance with the original provisions of SFAS No. 123. Results for prior periods have not been restated, as provided for under the modified-prospective method.

During the thirteen and twenty-six weeks ended July 29, 2006, the Company did not recognize any share based compensation expense in the consolidated financial statements since no stock options were granted nor were there any modifications of outstanding stock options. In addition, all stock options outstanding as of January 28, 2006 were fully vested.

The following table shows the effect on net loss and net loss per common share had compensation cost been recognized based upon the estimated fair value on the grant date of stock options in accordance with SFAS No 123.

	Thirteen Weeks Ended July 30, 2005	Twenty-Six Weeks Ended July 30, 2005
Net loss	\$ (222,425)	\$ (2,288,338)
Deduct: Total stock based employee compensation expense determined under fair market value based method, net of tax	(1,261,174)	(1,266,548)
Proforma net loss	\$ (1,483,599)	\$ (3,554,886)
Proforma net loss per share:		
Basic	\$ (0.50)	\$ (1.21)
Diluted	\$ (0.50)	\$ (1.21)

The fair value for these stock options was estimated at the date of grant using the Black-Scholes option valuation model with the following weighted average assumptions:

	Thirteen Weeks Ended July 30, 2005	Twenty-Six Weeks Ended July 30, 2005
Expected life (years)	7	7
Expected volatility	164%	164%
Risk-free interest rates	3.85%	3.86%
Dividend yield	0%	0%

The expected life of the options represents the estimated period of time until exercise and is based on historical experience of similar awards, giving consideration to the contractual terms, vesting schedules and expectations of future employee behavior. The expected volatility is estimated using the historical volatility of the Company's stock. The risk-free interest rate is based on the implied yield available on U.S. Treasury zero coupon issues with a term equal to the option's expected life. The Company has not paid dividends in the past and does not intend to in the foreseeable future.

Table of Contents

The following is a summary of the stock option activity during the twenty-six weeks ended July 29, 2006:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life	Aggregate Intrinsic Value
Outstanding as of January 28, 2006	239,788	\$ 10.27	7.29	\$ 1,549,028
Granted				
Exercised	31,324	10.69	7.36	
Forfeited				
Outstanding as of July 29, 2006	208,464	\$ 10.21	6.97	\$ 469,549
Exercisable as of July 29, 2006	208,464	\$ 10.21	6.97	\$ 469,549

The aggregate intrinsic value in the table above is before applicable income taxes, based on the Company's closing stock price as of the last business day of the respective period, which would have been received by the optionees had all options been exercised on that date. During the twenty-six weeks ended July 29, 2006, the total intrinsic value of stock options exercised was approximately \$333,000.

NOTE 3 - BANK LINE OF CREDIT AND CONVERTIBLE NOTE PAYABLE, AFFILIATE

The bank line of credit and convertible note payable, affiliate consist of the following:

	July 29, 2006	January 28, 2006
Bank line of credit, which is classified as a current liability, interest payable monthly, secured by a pledge of substantially all of Perfumania's assets (see below)	\$ 35,605,280	\$ 20,147,978
Subordinated convertible note payable affiliate - long term	\$ 5,000,000	\$ 5,000,000

Perfumania's senior secured credit facility provides for borrowings of up to \$60 million, depending on the Company's levels of eligible inventories. As of July 29, 2006, \$35.6 million was outstanding under the line of credit and \$13.2 million was available to support normal working capital requirements and other general corporate purposes. Advances under the line of credit are based on a formula of eligible inventories and bear interest at a floating rate ranging from (a) prime to prime plus 1.25% or (b) LIBOR plus 2.5% to 3.75% depending on a financial ratio test. Advances are secured by a first lien on all assets of Perfumania. The credit facility contains limitations on additional borrowings, capital expenditures and other items, and contains various covenants including a fixed charge coverage ratio, a leverage ratio and capital expenditure limits as defined. The credit facility expires in May 2007. As of July 29, 2006, Perfumania was in compliance with its covenant requirements. The Company's management is currently negotiating an extension of this credit facility.

In the fourth quarter of fiscal year 2004, the Company issued a Subordinated Convertible Note (the "Note") in exchange for a \$5,000,000 subordinated secured demand loan made to the Company in the first quarter of fiscal year 2004 by Glenn and Stephen Nussdorf (the "Nussdorfs"). As of July 29, 2006, the Nussdorfs owned approximately 39% of the Company's outstanding common stock and they are officers and principals of Quality King Distributors, Inc. ("Quality King"). Stephen Nussdorf is the Chairman of the Company's Board of Directors. The initial maturity of the Note was January 2007; however the Note was modified in April 2006 to extend the due date. The Note bears interest at the prime rate plus 1%, requires quarterly interest payments and is secured by a security interest in the Company's assets pursuant to a Security Agreement, by and among the Company and the Nussdorfs. There are no

Table of Contents

prepayment penalties and the Note is subordinate to all bank related indebtedness. The Note is payable in January 2009 and allows the Nussdorfs to convert the Note into shares of the Company's common stock at a conversion price of \$11.25, which was equivalent to the closing market price of the Company's common stock on the date of the exchange.

NOTE 4 - BASIC AND DILUTED LOSS PER COMMON SHARE

Basic loss per common share has been computed by dividing net loss by the weighted average number of common shares outstanding during the period. For all periods presented in the accompanying condensed consolidated statements of operations, incremental shares attributed to outstanding stock options and convertible notes were not included because the results would be anti-dilutive.

NOTE 5 - CONTINGENCIES

The Company is involved in various legal proceedings in the ordinary course of business. Management cannot presently predict the outcome of these matters, although management believes that the ultimate resolution of these matters will not have a materially adverse effect on the Company's financial position.

NOTE 6 - RELATED PARTY TRANSACTIONS

As of July 29, 2006, Parlux Fragrances, Inc. (Parlux) owned 378,102 shares, or approximately 13%, of the Company's outstanding common stock. Purchases of product from Parlux and Quality King were approximately \$7.6 million and \$11.7 million for the second thirteen weeks of fiscal 2006 and 2005, respectively, representing approximately 29% and 51% of the Company's total inventory purchases, respectively. For the first twenty-six weeks of fiscal 2006 and 2005, purchases of product from these related parties were \$21.8 million and \$22.2 million representing approximately 53% and 40% of the Company's total inventory purchases, respectively. The amount due to related parties at July 29, 2006 is approximately \$26.6 million resulting from inventory purchases, is non-interest bearing and is included in accounts payable, affiliates in the accompanying condensed consolidated balance sheets. Purchases from related parties are generally payable in 90 days, however, due to the seasonality of the Company's business, these terms are generally extended. Related party accounts are historically brought closer to terms at the end of the holiday season, however, we are dependent upon these extended terms for much of our liquidity during the year.

The Company sold approximately \$1.2 million and \$5.2 million of wholesale merchandise to Quality King for the second thirteen weeks of fiscal 2006 and 2005, respectively. For the first twenty-six weeks of fiscal 2006 and 2005, sales of wholesale merchandise to Quality King were approximately \$5.0 million and \$8.6 million, respectively.

NOTE 7 - SEGMENT INFORMATION

Segment information is prepared on the same basis that the Company's management reviews financial information. The Company operates in two industry segments, specialty retail sales and wholesale distribution of fragrances and related products. Retail sales include sales through our Internet site, perfumania.com. Substantially all wholesale sales are to Quality King. The accounting policies of the segments are the same as those described in the summary of significant accounting policies in Note 2 of the Notes to our Consolidated Financial Statements included in our 2005 Annual Report on Form 10-K. The Company does not allocate operating and other expenses to its segments. Financial information for these segments is summarized in the following table.

Table of Contents

	Thirteen Weeks Ended	Thirteen Weeks Ended	Twenty-Six Weeks Ended	Twenty-Six Weeks Ended
	July 29, 2006	July 30, 2005	July 29, 2006	July 30, 2005

	\$ 22,009,661	\$ 21,521,367	\$ 41,168,445	\$ 39,384,842

NOTE 8 NON CASH TRANSACTIONS

Supplemental disclosures of non-cash investing and financing activities are as follows:

	For the Twenty-Six Weeks Ended	
	July 29, 2006	July 30, 2005
Accrued compensation for President and Chief Executive Officer contributed to capital	\$	\$ 406,000
Cash paid during the period for interest	\$ 2,111,804	\$ 1,705,123

NOTE 9 - RECENT ACCOUNTING PRONOUNCEMENTS

In June 2006, the FASB issued FIN 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109, which seeks to reduce the diversity in practice associated with the accounting and reporting for uncertainty in income tax positions. This Interpretation prescribes a comprehensive model for the financial statement recognition, measurement, presentation and disclosure of uncertain tax positions taken or expected to be taken in an income tax return. FIN 48 is effective for fiscal years beginning after December 15, 2006. We are currently evaluating the impact that the adoption of FIN 48 will have on our results of operations, financial position and cash flows.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF CONSOLIDATED FINANCIAL CONDITION AND RESULTS OF OPERATIONS**RESULTS OF OPERATIONS****Comparison of the Thirteen Weeks Ended July 29, 2006 with the Thirteen Weeks Ended July 30, 2005.**

Net sales decreased 7.7% from \$54.2 million in the thirteen weeks ended July 30, 2005 to \$50.1 million in the thirteen weeks ended July 29, 2006. The decrease in sales was due primarily to a decrease of \$4.1 million in wholesale sales as retail store sales were relatively unchanged.

Retail sales were \$48.9 million for the thirteen weeks ended July 29, 2006 compared to \$49.0 million for the thirteen weeks ended July 30, 2005. Perfumania's comparable store sales decreased by 0.2%. Comparable store sales measure sales from stores that have been open for one year or more. The decrease in comparable sales is attributable to weak mall traffic trends in certain geographic markets. The average number of stores operated was 241 in the second quarter of fiscal 2006, versus 234 in the prior year's comparable period.

Wholesale sales were \$1.2 million for the thirteen weeks ended July 29, 2006 compared to \$5.2 million for the thirteen weeks ended July 30, 2005. Substantially all wholesale sales during the second quarter of fiscal years 2006 and 2005 were made to Quality King. The decrease in wholesale sales is due to a change in the demand and timing of Quality King's product needs.

Table of Contents

Gross profit increased 2.3% from \$21.5 million in the thirteen weeks ended July 30, 2005 (39.7% of total net sales) to \$22.0 million in the thirteen weeks ended July 29, 2006 (44.0% of total net sales). In calculating gross profit and gross profit percentages, we exclude the costs related to our distribution center. These costs are included in selling, general and administrative expenses. As a percentage of net sales, total gross profit in the thirteen weeks ended July 29, 2006 increased versus the thirteen weeks ended July 30, 2005 due to the overall increase in the ratio of retail sales to total net sales, as retail sales yield a higher gross margin than wholesale sales. Retail gross profit as a percentage of retail sales was 44.9% and 43.3% for the thirteen weeks ended July 29, 2006 and July 30, 2005, respectively. Our retail gross profit as a percentage of retail sales increased due to an overall increase in our retail selling prices as well as a lower cost of merchandise realized over the past twelve months. Wholesale gross profit as a percentage of wholesale sales was 5.2% and 6.3% for the thirteen weeks ended July 29, 2006 and July 30, 2005, respectively.

Selling, general and administrative expenses increased 6.4% from \$19.4 million in the thirteen weeks ended July 30, 2005 to \$20.7 million in the thirteen weeks ended July 29, 2006. The increase was largely attributable to the increase in new stores and the additional payroll, occupancy and marketing expenses needed to operate these stores. Depreciation and amortization was approximately \$1.2 million in the thirteen weeks ended July 29, 2006 compared to \$1.4 million for the thirteen weeks ended July 30, 2005. The reduction in amortization expenses were largely due to fully amortized software costs associated with year 2000 upgrades.

Interest expense, net was approximately \$1.1 million for the thirteen weeks ended July 29, 2006 compared with \$1.0 million in the comparable period of 2005. The increase in interest expense was due to higher interest rates offset by a lower average borrowings outstanding for the thirteen weeks ended July 29, 2006 versus the comparable period of 2005. The majority of our borrowings incur interest based on either prime or libor and these interest rates have risen progressively over the past three years.

An income tax benefit of \$346,000 was recorded as a result of the Company's net loss during the second quarter of fiscal year 2006. The amount represents net operating loss carryforwards that management has determined are more likely than not to be utilized to offset future taxable income.

As a result of the foregoing, our net loss increased to approximately (\$596,000) in the thirteen weeks ended July 29, 2006 compared to a net loss of (\$222,000) in the thirteen weeks ended July 30, 2005. Net loss per share for the second fiscal quarter of 2006 and 2005 was (\$0.20) and (\$0.08), respectively.

Comparison of the Twenty-six weeks Ended July 29, 2006 with the Twenty-six weeks Ended July 30, 2005.

Net sales decreased 1.4% from \$97.5 million in the twenty-six weeks ended July 30, 2005 to \$96.1 million in the twenty-six weeks ended July 29, 2006. The decrease in sales was primarily due to a 41.2% decrease in Perfumania's wholesale sales, as discussed below, offset by a \$2.2 million increase in retail sales, from \$88.9 million in the twenty-six weeks ended July 30, 2005 to \$91.1 million in the twenty-six weeks ended July 29, 2006.

Retail sales increased primarily as a result of the increase in the number of retail stores in operation. The average number of stores operated was 240 in the first twenty-six weeks of fiscal 2006, versus 229 in the prior year's comparable period. Comparable store sales increased by 0.8% in the first twenty-six weeks of fiscal 2006.

Wholesale sales were \$5.0 million for the twenty-six weeks ended July 29, 2006 compared to \$8.6 million for the twenty-six weeks ended July 30, 2005. Substantially all wholesale sales during the twenty-six weeks ended July 29, 2006 and July 30, 2005 were to Quality King. The decrease in wholesale sales is due to a change in the demand and timing of Quality King's product needs.

Gross profit increased 4.5% from \$39.4 million in the twenty-six weeks ended July 30, 2005 (40.4% of total net sales) to \$41.2 million in the twenty-six weeks ended July 29, 2006 (42.8% of total net sales). In calculating gross profit and gross profit percentages, we exclude the costs related to our distribution center. These costs are included in selling, general and administrative expenses. The increase in gross profit was due primarily to the increase in retail sales volume. In addition, retail sales historically yield a higher gross margin than wholesale sales.

Table of Contents

Retail gross profit as a percentage of retail sales was 44.9% and 43.7% for the twenty-six weeks ended July 29, 2006 and July 30, 2005, respectively. As a percentage of retail sales, retail gross profit in the twenty-six weeks ended July 29, 2006 increased versus the twenty-six weeks ended July 30, 2005, due to an increase in our retail selling prices as well as a lower cost of merchandise realized over the past twelve months. Wholesale gross profit as a percentage of wholesale sales was 6.3% for the twenty-six weeks ending in both July 29, 2006 and July 30, 2005.

Selling, general and administrative expenses increased 6.4% from \$37.1 million in the twenty-six weeks ended July 30, 2005 to \$39.4 million in the twenty-six weeks ended July 29, 2006 due to the increase in the number of new stores and the additional payroll, occupancy and marketing expenses needed to operate these stores. Depreciation and amortization was approximately \$2.3 million in the twenty-six weeks ended July 29, 2006 and \$2.8 million in the twenty-six weeks ended July 30, 2005. The reduction in amortization expenses were largely due to fully amortized software costs associated with year 2000 upgrades.

Interest expense, net was approximately \$2.1 million for the twenty-six weeks ended July 29, 2006 compared with \$1.8 million in the comparable period of 2005. The increase in interest expense was due to higher interest rates offset by a lower average borrowings outstanding for the twenty-six weeks ended July 29, 2006 versus the comparable period of 2005. The majority of our borrowings incur interest based on either prime or libor and these interest rates have risen progressively over the past three years.

An income tax benefit of \$780,000 was recorded as a result of the Company's net loss during the twenty-six weeks ended July 29, 2006. The amount represents net operating loss carryforwards that management has determined are more likely than not to be utilized to offset future taxable income.

As a result of the foregoing, our net loss decreased from (\$2.3) million in the twenty-six weeks ended July 30, 2005, to a net loss of (\$1.9) million in the twenty-six weeks ended July 29, 2006. Net loss per share for the twenty-six weeks ended July 29, 2006 and July 30, 2005 was (\$0.64) and (\$0.78), respectively.

LIQUIDITY AND CAPITAL RESOURCES

Our principal funding requirements are for inventory purchases, opening new stores and renovation of existing stores. For the first twenty-six weeks of fiscal 2006, these capital requirements generally were satisfied through borrowings under our credit facility.

At July 29, 2006, we had a seasonal working capital of approximately \$9.5 million compared to working capital of approximately \$12.5 million at January 29, 2006. The change was primarily due to the net loss during the current period and increased spending on store construction.

Net cash used in operating activities during the twenty-six weeks ended July 29, 2006 was approximately \$12.4 million compared with approximately \$0.4 million provided by operating activities during the same period of the prior year. The increase in cash used in operating activities was primarily due to the increase in our inventory levels during the current period compared with our inventory needs for the first twenty-six weeks of fiscal 2005. At the end of fiscal year 2005, our inventory levels were lower than at the end of fiscal year 2004, and we had to increase our merchandise purchases during the current period. Also, the increase in the number of stores has created additional inventory needs. Our purchases from related parties are generally payable in 90 days, however due to the seasonality of our business these terms are generally extended, enhancing our liquidity.

Net cash used in investing activities was approximately \$3.0 million in the first twenty-six weeks ended July 29, 2006 compared to \$4.4 million in the twenty-six weeks ended July 30, 2005. The current period's investing activities primarily represented spending for new stores and construction in progress on other new stores scheduled for completion during the second half of fiscal year 2006. During the twenty-six weeks ended July 29, 2006, Perfumania opened 8 new stores and relocated 2 existing stores compared to 13 new stores and 2 relocations during the comparative period in fiscal 2005. At July 29, 2006, Perfumania operated 243 stores compared to 235 stores as of July 30, 2005. We plan to open approximately 25 new stores and close approximately 4 stores during the remainder of fiscal year 2006.

Net cash provided by financing activities during the first twenty-six weeks of fiscal 2006 was approximately \$15.6 million, primarily from borrowings under our line of credit, compared with approximately \$4.3 million for the

Table of Contents

same period in the prior year. The variance is largely due to the timing of payments of merchandise payables as we borrowed an additional \$8.6 million on our bank line of credit to satisfy several merchandise accounts payable and accrued expenses that came due.

We believe that our cash balances, the available borrowing capacity under our credit facility, continued extended terms from our affiliates and the projected future operating results will generate sufficient liquidity to support the Company's needs for the next twelve months, however there can be no assurance that our plans will be successful.

CRITICAL ACCOUNTING POLICIES

Our condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim information. Presentation of these statements requires management to make judgments and estimates. As such, some accounting policies have a significant impact on amounts reported in these financial statements. The judgments and estimates made can significantly affect results. Materially different amounts would be reported under different conditions or by using different assumptions. A summary of those critical accounting policies can be found in our 2005 Annual Report on Form 10-K.

RECENT ACCOUNTING PRONOUNCEMENTS

See Note 9 to the condensed consolidated financial statements for recent accounting pronouncements, including the expected date of adoption and the estimated effects on our financial statements.

FORWARD LOOKING STATEMENTS

Some of the statements in this quarterly report, including those that contain the words anticipate, believe, plan, estimate, expect, should, and other similar expressions, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements of those of our industry to be materially different from any future results, performance or achievements expressed or implied by those forward-looking statements. Among the factors that could cause actual results, performance or achievement to differ materially from those described or implied in the forward-looking statements are our ability to service our obligations, our ability to extend our credit facility on satisfactory terms and to comply with the covenants in our credit facility, general economic conditions including a decrease in discretionary spending by consumers, competition, changes in or the lack of anticipated changes in the regulatory environment in various countries, the ability to raise additional capital to finance expansion, the risks inherent in new product and service introductions and the entry into new geographic markets and other factors included in our filings with the Securities and Exchange Commission (the SEC), including the Risk Factors included in our 2005 Annual Report on Form 10-K filed with the SEC. Those Risk Factors contained in our 2005 Annual Report on Form 10-K are incorporated herein by this reference to them. Copies of our SEC filings are available from the SEC or may be obtained upon request from us. We do not undertake any obligation to update the information contained herein, which speaks only as of this date.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKS

During the quarter ended July 29, 2006, there have been no material changes in the information about our market risks as of January 28, 2006 as set forth in Item 7A of the 2005 Form 10-K.

ITEM 4. CONTROLS AND PROCEDURES

Our Chief Executive Officer and Chief Financial Officer have concluded, based on their evaluation as of July 29, 2006, that our disclosure controls and procedures are effective. There have been no changes in our internal control over financial reporting during the quarter ended July 29, 2006 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.
