Risk Factors

Newmont Mining Corporation (the Company) is furnishing with this report updated risk factors as set forth in the private offering memorandum for the notes offering referred to in Item 8.01 below, so that the updated risk factors will be disclosed pursuant to Regulation FD. A copy of the updated risk factors is attached hereto as Exhibit 99.1 and is incorporated herein by reference.

This updated information should be read in conjunction with the risks discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2006. Other than as indicated above, the Company's Annual Report on Form 10-K and Quarterly Report on Form 10-Q have not been updated to reflect developments subsequent to the periods covered by those reports.

Zarafshan-Newmont Joint Venture

On October 30, 2006, Newmont (Uzbekistan) Limited, one of the Company's subsidiaries, initiated an arbitration in the Arbitration Institute of the Stockholm Chamber of Commerce against the Republic of Uzbekistan, Uzbekistan's State Committee for Geology and Mineral Resources (Goskomgeologia), and Navoi Mining and Metallurgical Combine (NKMG) (a company wholly owned by the Republic of Uzbekistan). On October 31, 2006, Newmont (Uzbekistan) Limited and Newmont USA Limited (also the Company's subsidiary) initiated a separate arbitration against the Republic of Uzbekistan in the International Centre for Settlement of Investment Disputes. Goskomgeologia and NKMG subsequently filed certain counterclaims against Newmont (Uzbekistan) Limited in the Stockholm arbitration. On June 30, 2007, the Newmont parties and the Uzbek parties signed agreements to settle the dispute on terms that would include payments to the Company totaling \$80 million. Under the agreements, the Company's interest in the Zarafshan-Newmont Joint Venture would be transferred to the Uzbek parties, and both arbitrations would be terminated. The settlement is subject to certain closing conditions. None of the parties admitted liability in connection with any of the matters in dispute. In September 2006, the Company wrote off the book value of its interest in the Zarafshan-Newmont Joint Venture.

Midas Mine

On June 19, 2007, ground subsidence occurred in an area of the Company's underground Midas Mine, located in Nevada, resulting in an employee fatality. State and federal mine safety regulators have ordered the mine to remain closed pending further review and investigation. At this time, the Company cannot reasonably predict when the mine will be reopened. At year end 2006, the Midas Mine contained proven and probable reserves of 550,000 ounces of gold.

Item 8.01 Other Events.

In a press release issued on July 10, 2007, the Company announced a proposed private offering of \$1 billion aggregate principal amount of convertible senior notes due 2014 and 2017, subject to market conditions and other factors, plus an aggregate principal amount of up to \$150 million at the option of the initial purchasers to cover over-allotments. A copy of the press release is filed as Exhibit 99.2 to this report and is incorporated herein by reference.

Item 9.01 Financial Statements and Exhibits.
