MARSHALL & ILSLEY CORPORATION

(Name of Registrant as Specified In Its Charter)

(Name of Person(s) Filing Proxy Statement, if other than the Registrant)

Payment of Filing Fee (Check the appropriate box):

- No fee required.
- Fee computed on table below per Exchange Act Rules 14a-6(i)(1) and 0-11.

(1) Title of each class of securities to which the transaction applies:

common stock, par value \$1.00 per share, of the Registrant

(2) Aggregate number of securities to which the transaction applies:

92,686,495 (reflects number of shares of Metavante Holding Company estimated to be issued in the transaction)

(3) Per unit price or other underlying value of the transaction computed pursuant to Exchange Act Rule 0-11 (set forth the amount on which the filing fee is calculated and state how it was determined):

\$49.25 (the average of the high and low prices per share of the Registrant's common stock reported on the New York Stock Exchange on May 16, 2007)

(4) Proposed maximum aggregate value of the transaction:

\$4,564,809,879

(5) Total fee paid:

\$140,140

Fee paid previously with preliminary materials.

Check box if any part of the fee is offset as provided by Exchange Act Rule 0-11(a)(2) and identify the filing for which the offsetting fee was paid previously. Identify the previous filing by registration statement number, or the Form or Schedule and the date of its filing.

(1) Amount Previously Paid:

\$140,140

(2) Form, Schedule or Registration Statement No.:

Registration Statement on Form S-4 (Registration No. 333-143143)

TRANSACTION PROPOSAL YOUR VOTE IS VERY IMPORTANT

TO THE SHAREHOLDERS OF MARSHALL & ILSLEY CORPORATION:

As previously announced, the Board of Directors of Marshall & Ilsley Corporation has approved transactions providing for the separation of Marshall & Ilsley into two separate publicly-traded companies:

New M&I Corporation, which we refer to as New Marshall & Ilsley, which will own and operate Marshall & Ilsley's banking business; and

Metavante Holding Company, which we refer to as New Metavante, which will own and operate Metavante's business. In connection with the transactions, WPM, L.P., which we refer to as Investor, a limited partnership organized by Warburg Pincus Private Equity IX, L.P., a global private equity investment fund managed by Warburg Pincus LLC, will invest \$625 million in New Metavante in exchange for an equity interest representing 25% of New Metavante's outstanding common stock. All of the \$625 million to be invested by Investor will be included in a contribution of \$1.665 billion in cash from New Metavante to New Marshall & Ilsley.

As a result of the transactions, Marshall & Ilsley's shareholders will receive three shares of New Marshall & Ilsley common stock and one share of New Metavante common stock for every three shares of Marshall & Ilsley common stock held. It is expected that approximately 88,939,425 shares of New Metavante common stock will be issued to holders of record of Marshall & Ilsley common stock based on the number of outstanding shares of Marshall & Ilsley common stock as of August 31, 2007. The shares of New Marshall & Ilsley common stock to be issued to the holders of Marshall & Ilsley common stock will represent 100% of the outstanding shares of New Marshall & Ilsley common stock and the shares of New Metavante common stock to be issued to the holders of Marshall & Ilsley common stock will represent 75% of the outstanding shares of New Metavante common stock. The transactions will be effected pursuant to an investment agreement dated as of April 3, 2007 among Marshall & Ilsley, certain of its subsidiaries and Investor.

The Board of Directors of Marshall & Ilsley has unanimously adopted and approved the investment agreement and the transactions contemplated by the investment agreement and recommends that Marshall & Ilsley shareholders vote FOR the proposal to approve and adopt the investment agreement and the transactions contemplated by the investment agreement, and FOR the proposal to approve any adjournments of the special meeting for the purpose of soliciting additional proxies or for any other purpose. Your vote is very important. We cannot hold the special meeting of shareholders unless holders of a majority of the outstanding shares of Marshall & Ilsley common stock are present in person or by proxy. We cannot complete the transactions unless Marshall & Ilsley shareholders approve and adopt the investment agreement and the transactions contemplated by the investment agreement by the affirmative vote of a majority of the outstanding shares of Marshall & Ilsley common stock. **Therefore, whether or not you expect to attend the special meeting in person, you are urged to vote by completing and returning the accompanying proxy in the enclosed envelope, by a telephone vote or by voting electronically via the Internet.**

There is currently no market for the New Marshall & Ilsley common stock or the New Metavante common stock and it is not possible to predict the market value of the New Marshall & Ilsley common stock or the New Metavante common stock. The aggregate value of the New Marshall & Ilsley common stock and the New Metavante common stock after the transactions may be less than the current market value of the Marshall & Ilsley common stock. New Marshall & Ilsley intends to apply to have its shares of common stock authorized for listing on the New York Stock Exchange under Marshall & Ilsley's present symbol of MI and New Metavante intends to apply to have its shares of common stock authorized

Edgar Filing: MARSHALL & ILSLEY CORP/WI/ - Form DEFM14A

for listing on the New York Stock Exchange under the symbol MV.

The accompanying proxy statement/prospectus information statement explains the transactions and provides specific information concerning the special meeting, including voting instructions. Please review this document carefully. **You should also carefully consider the matters discussed under Risk Factors beginning on page 32 of the accompanying proxy statement/prospectus information statement before voting.**

On behalf of the Board of Directors of Marshall & Ilsley, I thank you for your support and appreciate your consideration of this important matter.

DENNIS J. KUESTER, *Chairman of the Board*

September 20, 2007

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved the transactions, including the holding company merger, the New Metavante share issuance or any other transaction described in the accompanying proxy statement/prospectus information statement or passed upon the adequacy or accuracy of the accompanying proxy statement/prospectus information statement. Any representation to the contrary is a criminal offense.

The accompanying proxy statement/prospectus information statement is dated September 20, 2007, and is first being mailed to Marshall & Ilsley shareholders on or about September 24, 2007.

Milwaukee, Wisconsin 53202

(414) 765-7700

You may also obtain documents incorporated by reference into this proxy statement/prospectus information statement by requesting them in writing or by telephone from the proxy solicitor for the transactions, at the following address and telephone number:

Morrow & Co., Inc.

470 West Avenue

Stamford, CT 06902

(800) 607-0088

To receive timely delivery of requested documents in advance of the Marshall & Ilsley special meeting, you should make your request no later than October 18, 2007.

VOTING BY TELEPHONE, OVER THE INTERNET OR BY MAIL

Marshall & Ilsley shareholders of record as of the record date for the Marshall & Ilsley special meeting may submit their proxies:

by telephone, by calling the toll-free number (866) 894-0537 in the United States or Canada on a touch-tone phone and following the recorded instructions;

by accessing the Internet website at <http://www.continentalstock.com> and following the instructions on the website; or

by mail, by completing the enclosed proxy card, signing and dating the proxy card and returning the proxy card in the enclosed, postage-paid envelope that accompanied that proxy card.

If your shares of Marshall & Ilsley common stock are held in street name (through a broker, bank or other nominee), you may receive a separate voting instruction with this proxy statement/prospectus information statement, or you may need to contact your broker, bank or other nominee to

Edgar Filing: MARSHALL & ILSLEY CORP/WI/ - Form DEFM14A

determine whether you will be able to vote electronically using the Internet or telephonically, or what is required to vote your shares in person at the special meeting.

Milwaukee, Wisconsin 53202

NOTICE OF SPECIAL MEETING OF SHAREHOLDERS

October 25, 2007

TO THE SHAREHOLDERS OF MARSHALL & ILSLEY CORPORATION:

A special meeting of shareholders of Marshall & Ilsley Corporation will be held on October 25, 2007 at the corporate headquarters of Marshall & Ilsley Corporation, 770 North Water Street, Third Floor, Milwaukee, Wisconsin at 10:00 a.m., local time. The special meeting is being held for the following purposes:

- (1) to consider and vote upon a proposal to approve and adopt the investment agreement, dated as of April 3, 2007, among Marshall & Ilsley, Metavante Corporation, currently a wholly-owned subsidiary of Marshall & Ilsley, Metavante Holding Company (New Metavante), currently a wholly-owned subsidiary of Marshall & Ilsley, Montana Merger Sub Inc. (Merger Sub), currently a wholly-owned subsidiary of New Metavante, and WPM, L.P. (Investor), a limited partnership organized by Warburg Pincus Private Equity IX, L.P., a global private equity investment fund managed by Warburg Pincus LLC, and approve and adopt the transactions contemplated by the investment agreement, including the merger of Merger Sub with and into Marshall & Ilsley with Marshall & Ilsley continuing as the surviving corporation (the holding company merger) and the issuance of shares of New Metavante Class A common stock to Investor (the New Metavante share issuance);
- (2) to consider and vote on a proposal to approve any adjournments of the special meeting for the purpose of soliciting additional proxies if there are not sufficient votes at the special meeting to approve and adopt the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, and any adjournments of the special meeting for any other purpose; and
- (3) to consider any other business that properly comes before the special meeting or any adjournments or postponements of the special meeting.

Shareholders of record at the close of business on September 19, 2007, the record date for the special meeting, are entitled to notice of and to vote at the special meeting and any adjournment or postponement thereof. As of the record date for the special meeting, there were 266,839,811 shares of Marshall & Ilsley common stock outstanding.

The investment agreement and certain of the other transaction agreements, and the transactions contemplated by those agreements, including the holding company merger and the New Metavante share issuance, are described more fully in the accompanying proxy statement/prospectus information statement, and we urge you to read it carefully. Marshall & Ilsley shareholders have no appraisal rights under Wisconsin law in connection with the transactions contemplated by the investment agreement and the other transaction agreements.

The Marshall & Ilsley Board of Directors has unanimously adopted and approved the investment agreement and determined that the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, are advisable and in the best interests of Marshall & Ilsley and its shareholders and recommends that Marshall & Ilsley shareholders vote FOR the proposal to approve and adopt the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, and FOR the proposal to approve any adjournments of the special meeting for the purpose of soliciting additional proxies or for any other purpose.

Holders of a majority of the outstanding shares must be present in person or by proxy in order for the meeting to be held. Therefore, whether or not you expect to attend the special meeting in person, you are urged to vote by completing and returning the accompanying

proxy in the enclosed envelope, by a telephone vote or by voting electronically via the Internet. Instructions for telephonic voting and electronic voting via the Internet are contained in the accompanying proxy statement/prospectus information

Table of Contents

statement. Any executed but unmarked proxy cards will be voted FOR the proposal to approve and adopt the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, and FOR the proposal to approve any adjournments of the special meeting for the purpose of soliciting additional proxies. Marshall & Ilsley shareholders may revoke their proxy in the manner described in the accompanying proxy statement/prospectus information statement before it has been voted at the special meeting.

If your shares of Marshall & Ilsley common stock are held in street name (through a broker, bank or other nominee), you may receive a separate voting instruction with this proxy statement/prospectus information statement, or you may need to contact your broker, bank or other nominee to determine whether you will be able to vote electronically using the Internet or telephonically, or what is required to vote your shares in person at the special meeting.

We cannot complete the transactions unless our shareholders approve and adopt the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance by the affirmative vote of a majority of the outstanding shares of Marshall & Ilsley common stock. Whether or not you expect to attend the special meeting in person, you are urged to vote by completing and returning the accompanying proxy in the enclosed envelope, by voting telephonically or by voting electronically via the Internet as described in the accompanying proxy statement/prospectus information statement.

Any adjournments of the special meeting by vote of shareholders for the purpose of soliciting additional proxies or for any other purpose must be approved by the affirmative vote of a majority of the shares represented at the special meeting.

Failure to respond will have the same effect as voting against the proposal to approve and adopt the investment agreement and the transactions contemplated by the investment agreement unless you attend and vote FOR such proposal at the special meeting of shareholders.

GINA M. McBRIDE, *Vice President*

and Corporate Secretary

SUMMARY

*This summary highlights selected information from this proxy statement/prospectus information statement and may not contain all of the information that is important to you. For a more complete description of the terms of the investment agreement, the other transaction agreements and the transactions contemplated thereby, you should carefully read this entire proxy statement/prospectus information statement and the other documents to which we refer you, including in particular the copies of the investment agreement, the separation agreement, the tax allocation agreement and the forms of the shareholders agreement and the stock purchase right agreement that are attached to this proxy statement/prospectus information statement as Annexes A, B, C, D and E, respectively. See *Where You Can Find More Information* beginning on page 419.*

This proxy statement/prospectus information statement is:

a prospectus of Metavante Holding Company relating to the issuance of shares of Metavante Holding Company common stock in connection with the holding company merger (as described herein);

a proxy statement of Marshall & Ilsley Corporation for use in the solicitation of proxies for Marshall & Ilsley Corporation's special meeting; and

an information statement of Metavante Holding Company relating to the distribution of shares of New M&I Corporation (to be renamed Marshall & Ilsley Corporation) common stock to holders of Metavante Holding Company common stock (other than the Metavante Holding Company Class A common stock to be issued to WPM, L.P., a limited partnership organized by Warburg Pincus Private Equity IX, L.P., a private equity fund managed by Warburg Pincus LLC).

All information contained or incorporated by reference in this prospectus statement/prospectus information statement about Marshall & Ilsley Corporation and New M&I Corporation has been provided by Marshall & Ilsley Corporation and all information contained or incorporated by reference in this proxy statement/prospectus information statement about Metavante Corporation and Metavante Holding Company has been provided by Metavante Corporation.

The Business Entities (see page 59)

Marshall & Ilsley Corporation

770 North Water Street

Milwaukee, Wisconsin 53202

(414) 765-7700

www.micorp.com

Marshall & Ilsley Corporation (NYSE: MI), a Wisconsin corporation, is a diversified financial services corporation with approximately \$58.3 billion in assets. We refer to the business of Marshall & Ilsley, excluding Metavante's business, as Marshall & Ilsley's banking business. As described below, following completion of the transactions described herein, Marshall & Ilsley will continue to own and operate Marshall & Ilsley's banking business, but will be a subsidiary of a new publicly-traded company, New M&I Corporation, which will change its name to Marshall & Ilsley Corporation.

Metavante Corporation

Metavante Corporation, a Wisconsin corporation, delivers banking and payments technologies to over 8,600 financial services firms and businesses worldwide. Metavante is currently a wholly-owned subsidiary of Marshall & Ilsley. We refer to Metavante Corporation as Metavante in this proxy statement/prospectus information statement. As described below, following completion of the transactions, Metavante will be a direct, wholly-owned subsidiary of a new publicly-traded company, Metavante Holding Company (which is described below), and will continue to operate Metavante's business directly or through its subsidiaries.

For the year ended December 31, 2006 and for the six months ended June 30, 2007, Metavante's net income as a percentage of Marshall & Ilsley's net income was 19.8% and 21.1%, respectively.

References in this proxy statement/prospectus information statement to Metavante's historical assets, liabilities, products, businesses or activities are generally intended to refer to the historical assets, liabilities, products, businesses or activities of Metavante as a wholly-owned subsidiary of Marshall & Ilsley prior to the transactions. Metavante's historical financial results as part of Marshall & Ilsley contained herein do not reflect what its financial results would have been had it been operated as a subsidiary of New Metavante during the periods presented.

New M&I Corporation

c/o Marshall & Ilsley Corporation

770 North Water Street

Milwaukee, Wisconsin 53202

(414) 765-7700

New M&I Corporation, a Wisconsin corporation and a direct, wholly-owned subsidiary of New Metavante, was formed by New Metavante for the purpose of completing the transactions. Following completion of the transactions, New M&I Corporation will be a separate, publicly-traded company that will own the equity of the companies that own and operate Marshall & Ilsley's banking business. In connection with the completion of the transactions, the name of New M&I Corporation will be changed to Marshall & Ilsley Corporation. We refer to New M&I Corporation as New Marshall & Ilsley in this proxy statement/prospectus-information statement.

References in this proxy statement/prospectus information statement to New Marshall & Ilsley's historical assets, liabilities, products, businesses or activities are generally intended to refer to the historical assets, liabilities, products, businesses or activities of Marshall & Ilsley's banking business prior to the transactions. The historical financial results of New Marshall & Ilsley contained in this proxy statement/prospectus information statement do not reflect what its financial results would have been had it been operated as a stand-alone company during the periods presented.

Metavante Holding Company

c/o Marshall & Ilsley Corporation

770 North Water Street

Milwaukee, Wisconsin 53202

(414) 765-7700

Metavante Holding Company, a Wisconsin corporation and currently a direct, wholly-owned subsidiary of Marshall & Ilsley, was formed by Marshall & Ilsley in March 2007 for the purpose of completing the transactions. Following completion of the transactions, New Metavante will be a separate, publicly-traded company that will own Metavante. In connection with the completion of the transactions, the name of Metavante Holding Company will be changed to Metavante Technologies, Inc. We refer to Metavante Holding Company as New Metavante in this proxy statement/prospectus-information statement.

Table of Contents

References in this proxy statement/prospectus information statement to New Metavante's historical assets, liabilities, products, businesses or activities are generally intended to refer to the historical assets, liabilities, products, businesses or activities of Metavante as a wholly-owned subsidiary of Marshall & Ilsley prior to the transactions.

Montana Merger Sub Inc.

c/o Marshall & Ilsley Corporation

770 North Water Street

Milwaukee, Wisconsin 53202

(414) 765-7700

Montana Merger Sub Inc., a Wisconsin corporation and a direct, wholly-owned subsidiary of New Metavante, was formed by New Metavante for the purpose of effecting the holding company merger. We refer to Montana Merger Sub Inc. as Merger Sub in this proxy statement/prospectus-information statement.

WPM, L.P.

c/o Warburg Pincus & Co.

466 Lexington Avenue

New York, New York 10017

WPM, L.P. is a Delaware limited partnership organized by Warburg Pincus Private Equity IX, L.P., a global private equity investment fund managed by Warburg Pincus LLC. We refer to WPM, L.P. as Investor in this proxy statement/prospectus-information statement.

Warburg Pincus Private Equity IX, L.P.

c/o Warburg Pincus & Co.

466 Lexington Avenue

New York, New York 10017

Warburg Pincus Private Equity IX, L.P., a Delaware limited partnership, is a global private equity investment fund managed by Warburg Pincus LLC and is an affiliate of Investor. Under the investment agreement, Investor may, under certain circumstances, assign its rights under the investment agreement to Warburg Pincus Private Equity IX, L.P. or one or more successor funds each of which is controlled by Warburg Pincus LLC and/or Warburg Pincus & Co. (or a controlled affiliate of one of such entities) and is managed by Warburg Pincus LLC or its affiliates. References in this proxy statement/prospectus information statement to the equity investment by Investor include any investment by a fund resulting from Investor's permitted assignment under the investment agreement.

The website addresses referred to in this proxy statement/prospectus information statement are for information only and are not intended to incorporate any information into this proxy statement/prospectus information statement.

The Transactions (see page 59)

On April 3, 2007, Marshall & Ilsley, Merger Sub, Metavante, New Metavante and Investor entered into the investment agreement pursuant to which, among other things:

Edgar Filing: MARSHALL & ILSLEY CORP/WI/ - Form DEFM14A

Marshall & Ilsley will separate into two publicly-traded companies: New Marshall & Ilsley, which will own and operate Marshall & Ilsley's banking business, the issued and outstanding common stock of which will be owned 100% by the Marshall & Ilsley shareholders, and New Metavante, which will own and operate Metavante's business, 75% of the issued and outstanding common stock of which will be owned by Marshall & Ilsley shareholders and the remaining 25% will be owned by Investor;

Table of Contents

Marshall & Ilsley's shareholders will receive three shares of New Marshall & Ilsley common stock and one share of New Metavante common stock for every three shares of Marshall & Ilsley common stock held;

Investor will invest \$625 million in New Metavante for an equity interest representing 25% of New Metavante common stock;

New Metavante and/or one or more of its subsidiaries will incur approximately \$1.75 billion of indebtedness;

Metavante will pay off certain intercompany indebtedness plus accrued and unpaid interest owed to Marshall & Ilsley (the amount currently owed is approximately \$982 million) and distribute \$1.040 billion of cash (which is expected to include \$290 million of Metavante's excess cash) to New Metavante; and

New Metavante will contribute to New Marshall & Ilsley \$1.665 billion in cash (which includes the \$625 million of proceeds from the investment by Investor and the \$1.040 billion distribution of cash from Metavante (which is expected to include \$290 million of Metavante's excess cash)).

To accomplish the results described above, on the terms and subject to the conditions set forth in the investment agreement, the separation agreement, the tax allocation agreement and the employee matters agreement described below, the parties will engage in a number of transactions including:

Holding Company Merger. A holding company merger by which Merger Sub will merge with and into Marshall & Ilsley with Marshall & Ilsley continuing as the surviving corporation and as a direct, wholly-owned subsidiary of New Metavante. As a result of the holding company merger, shares of Marshall & Ilsley common stock will automatically convert into shares of New Metavante and New Metavante will become a publicly-traded company. It is expected that approximately 88,939,425 shares of New Metavante common stock will be issued to holders of record of Marshall & Ilsley common stock based on the number of outstanding shares of Marshall & Ilsley common stock as of August 31, 2007.

Internal Business Transfers. The reorganization of the corporate structures of Marshall & Ilsley and New Metavante by means of transfers of the equity interests of certain of their subsidiaries so that Marshall & Ilsley's banking business will be held by New Marshall & Ilsley and its subsidiaries and Metavante's business will be held by Metavante and its subsidiaries and each of New Marshall & Ilsley and Metavante will be a direct, wholly-owned subsidiary of New Metavante.

Investor's Acquisition of New Metavante Shares. The payment by Investor to New Metavante of \$625 million in exchange for (i) newly issued shares of Class A common stock of New Metavante that will convert automatically into shares of common stock of New Metavante at 12:01 a.m. Eastern Standard Time on the first day following the closing date, which shares will represent 25% of the outstanding common stock of New Metavante and (ii) a stock purchase right to acquire additional shares of New Metavante common stock under certain circumstances in order to maintain Investor's ownership of 25% of the outstanding common stock of New Metavante. We refer to the issuance of the shares of New Metavante Class A common stock to Investor as the New Metavante share issuance. It is expected that approximately 29,646,475 shares of New Metavante common stock will be issued to Investor on the closing date of the transactions based on the number of outstanding shares of Marshall & Ilsley common stock as of August 31, 2007.

Debt Financing. The incurrence by New Metavante and/or one or more of its subsidiaries of approximately \$1.75 billion of indebtedness pursuant to a term loan facility which is expected to be provided pursuant to and in accordance with the terms and conditions contained in a commitment letter from J.P. Morgan Securities Inc., which we refer to herein as JPMorgan, JPMorgan Chase Bank, N.A., Morgan Stanley Senior Funding, Inc., Lehman Brothers Commercial Bank, Lehman Commercial Paper Inc., Lehman Brothers Inc., and Baird Financial Corporation, and certain of their respective affiliates.

Table of Contents

Repayment of Intercompany Debt; Contribution to New Marshall & Ilsley. The repayment by Metavante of certain intercompany indebtedness plus accrued and unpaid interest owed to Marshall & Ilsley (the amount currently owed is approximately \$982 million) and the contribution to New Marshall & Ilsley by New Metavante of \$1.665 billion in cash (which includes the \$625 million of proceeds from the sale of the New Metavante common stock to Investor and the \$1.040 billion dividend of cash from Metavante).

Share Distribution. The distribution by New Metavante to the holders of shares of New Metavante common stock (other than the New Metavante Class A common stock) as of the record date established therefor of shares of New Marshall & Ilsley common stock (holders of shares of New Metavante common stock will also retain such shares).

See *Questions and Answers About the Transactions* beginning on page 16 for a discussion of how you will receive your shares of New Marshall & Ilsley common stock and New Metavante common stock.

As a result of the completion of the transactions contemplated by the investment agreement,

each holder of Marshall & Ilsley common stock as of the effective time of the holding company merger will have received three shares of New Marshall & Ilsley common stock and one share of New Metavante common stock for every three shares of Marshall & Ilsley common stock held of record;

Investor will have received shares of New Metavante common stock that represent 25% of the shares of New Metavante common stock; and

each holder of Marshall & Ilsley common stock as of the effective time of the holding company merger that would otherwise be entitled to receive fractional shares of New Metavante common stock resulting from the holding company merger will receive cash in lieu of such fractional shares (and therefore will not receive shares of New Marshall & Ilsley common stock in respect of such fractional shares).

The shares of New Marshall & Ilsley common stock to be issued to the holders of Marshall & Ilsley common stock will represent 100% of the outstanding shares of New Marshall & Ilsley common stock and the shares of New Metavante common stock to be issued to the holders of Marshall & Ilsley common stock will represent 75% of the shares of New Metavante common stock outstanding upon completion of the transactions.

See *The Investment Agreement* and *The Separation Agreement* beginning on pages 106 and 128, respectively. The investment agreement is attached as Annex A to this proxy statement/prospectus information statement, and the separation agreement is attached as Annex B to this proxy statement/prospectus information statement and each of them is incorporated by reference into this proxy statement/prospectus information statement. When we refer to the investment agreement and the separation agreement, we mean such agreements as amended or supplemented from time to time. We urge you to read the investment agreement and the separation agreement carefully to understand the rights and obligations of the parties with respect to the transactions, as they are the principal legal documents that govern the transactions.

There are Additional Agreements that Govern Matters Relating to Effecting the Transactions and the Relationship of New Marshall & Ilsley and New Metavante and New Metavante and Investor after the Transactions (see page 133)

In addition to the investment agreement and separation agreement, Marshall & Ilsley, New Marshall & Ilsley, Metavante and New Metavante have entered into various agreements that will govern the New Marshall & Ilsley share distribution and various interim and ongoing relationships among them, including, among others:

a tax allocation agreement; and

an employee matters agreement.

Table of Contents

You should read the tax allocation agreement, which is described in this proxy statement/prospectus information statement under Additional Agreements Relating to the New Marshall & Ilsley Share Distribution Tax Allocation Agreement and is attached as Annex C to this proxy statement/prospectus information statement and incorporated by reference into this proxy statement/prospectus information statement and the employee matters agreement, which is described in this proxy statement/prospectus information statement under Additional Agreements Relating to the New Marshall & Ilsley Share Distribution Employee Matters Agreement, and is filed as an exhibit to the registration statement of which this proxy statement/prospectus information statement is a part and is incorporated by reference into this proxy statement/prospectus information statement. When we refer to the tax allocation agreement and the employee matters agreement, we mean such agreements as amended or supplemented from time to time.

In addition to the employee matters agreement and the tax allocation agreement, the Marshall & Ilsley parties and the Metavante parties have entered into, or will enter into prior to the closing of the transactions, agreements providing for the provision of certain services following the closing of the transactions. These agreements relate to, among other things, certain administrative, trust, technology outsourcing, leasing, marketing and other similar services.

In addition to the investment agreement, New Metavante and Investor will enter into various agreements that will govern ongoing relationships between them, including:

a shareholders agreement; and

a stock purchase right agreement.

You should read about the shareholders agreement and the stock purchase right agreement, each of which is described in this proxy statement/prospectus information statement under Additional Agreements Relating to the Transactions Shareholders Agreement, and Additional Agreements Relating to the Transactions Stock Purchase Right Agreement, respectively. The shareholders agreement and the stock purchase right agreement will be in substantially the forms attached hereto as Annex D and Annex E, respectively, to this proxy statement/prospectus information statement, such forms are hereby incorporated by reference into this proxy statement/prospectus information statement. When we refer to the shareholders agreement and the stock purchase right agreement, we mean such agreements in substantially the form attached hereto and as amended or supplemented from time to time.

No Taxable Gain or Loss Will Be Recognized by Marshall & Ilsley Shareholders (Except with Respect to Cash Received in Lieu of Fractional Shares) or by New Metavante as a Result of the Holding Company Merger and the New Marshall & Ilsley Share Distribution (see page 102)

The obligations of Investor, Marshall & Ilsley, Metavante and New Metavante to effect the transactions under the investment agreement are conditioned upon the receipt of (i) a private letter ruling from the Internal Revenue Service (which ruling was received on September 12, 2007) to the effect that (a) the holding company merger and the Marshall & Ilsley LLC conversion (as described under The Transactions Description of the Transactions Timing and Structure of the Transactions beginning on page 61) qualify as a reorganization under Section 368(a) of the Internal Revenue Code and (b) the Marshall & Ilsley contribution (as described under The Transactions Description of the Transactions Timing and Structure of the Transactions beginning on page 61) and the New Marshall & Ilsley share distribution qualify as a reorganization under Section 368(a)(1)(D) of the Internal Revenue Code and a distribution eligible for nonrecognition under Sections 355(a) and 361(c) of the Internal Revenue Code and (ii) with respect to certain requirements for tax-free treatment under Section 355 of the Internal Revenue Code on which the Internal Revenue Service will not rule, an opinion of Sidley Austin LLP, which we refer to as Sidley Austin, counsel to Marshall & Ilsley (or another law firm of national standing), to the effect that such requirements will be satisfied. None of Investor, Marshall & Ilsley, Metavante or New Metavante intends to waive these conditions.

Table of Contents

Sidley Austin, counsel to Marshall & Ilsley, is of the opinion that, for federal income tax purposes:

no gain or loss will be recognized by a Marshall & Ilsley shareholder solely as the result of the receipt of New Metavante common stock in the holding company merger, except with respect to cash received in lieu of fractional shares;

no gain or loss will be recognized by (and no amount will otherwise be included in the income of) the New Metavante shareholders on their receipt of New Marshall & Ilsley common stock in the New Marshall & Ilsley share distribution; and

no gain or loss will be recognized by New Metavante in the holding company merger or in the New Marshall & Ilsley share distribution.

For a more detailed description of the opinion of Sidley Austin, including the assumptions upon which the opinion is based, and the material U.S. federal income tax consequences of the transactions contemplated by the investment agreement, see Material U.S. Federal Income Tax Consequences of the Holding Company Merger, the New Marshall & Ilsley Share Distribution and Related Transactions beginning on page 102.

Due to Variances Between the Articles of Incorporation and Other Corporate Documents of Marshall & Ilsley, New Marshall & Ilsley and New Metavante, Differences Exist Between the Rights of Marshall & Ilsley Shareholders, New Marshall & Ilsley Shareholders and New Metavante Shareholders (see page 391)

The rights of Marshall & Ilsley shareholders under Marshall & Ilsley's corporate documents prior to the transactions will be different from the rights of New Metavante shareholders and New Marshall & Ilsley shareholders under their respective corporate documents following the transactions.

The Composition of the Board of Directors of New Metavante as of the Closing Will Be Determined Pursuant to the Investment Agreement and the Shareholders Agreement (see pages 106 and 141)

The investment agreement and the shareholders agreement provide that upon completion of the transactions, the New Metavante board of directors will consist of 11 individuals, including (i) three directors designated by Investor, (ii) two directors who shall be officers of Metavante, one of whom shall be the President and Chief Executive Officer of Metavante and one of whom shall be the Senior Executive Vice President and Chief Operating Officer of Metavante, (iii) one director who shall be designated by Marshall & Ilsley and shall initially be Dennis J. Kuester and (iv) five additional directors selected by Marshall & Ilsley after consulting with the President and Chief Executive Officer of Metavante and with the consent of Investor (which consent will not be unreasonably withheld or delayed), each of whom shall qualify as independent of Metavante under the rules of the New York Stock Exchange and one of whom shall be a director of Marshall & Ilsley, who will be Ted D. Kellner.

The shareholders agreement provides that the Chairman of the Board of New Metavante will be Dennis J. Kuester for a period of one year from the closing and that if Dennis J. Kuester is unable to serve during such one-year period, or after such one-year period, Frank R. Martire will, subject to the approval of the board of directors of New Metavante, succeed Dennis J. Kuester as Chairman of the Board of New Metavante.

The investment agreement provides that the President and Chief Executive Officer of New Metavante upon completion of the transactions will be Frank R. Martire.

The Shareholders Agreement Contains Restrictions on Investor's Ability to Dispose of or Acquire New Metavante Common Stock

The shareholders agreement provides that, prior to the first anniversary of the closing date, Investor and certain of its affiliates will not, directly or indirectly, transfer or otherwise dispose of any shares of New

Table of Contents

Metavante common stock, subject to certain exceptions set forth in the shareholders agreement, including in connection with specified change in control transactions with respect to New Metavante and in any transaction approved by a majority of the directors that are independent directors under the rules of the New York Stock Exchange and who are not Investor designees.

The shareholders agreement also provides that, following the first anniversary of the closing date and prior to the second anniversary of the closing date, Investor and certain of its affiliates will not, directly or indirectly, dispose of any shares of New Metavante common stock, subject to certain exceptions set forth in the shareholders agreement, if following such disposition, Investor and certain of its affiliates in the aggregate own at least 17.5% of the combined voting power of New Metavante common stock entitled to vote in the election of directors. After the second anniversary of the closing date, Investor will not be restricted by the shareholders agreement from disposing of its shares of New Metavante common stock.

Unless specifically requested in writing in advance by the New Metavante board of directors, the shareholders agreement also generally prohibits Investor from acquiring additional New Metavante securities if Investor's ownership percentage of New Metavante's common stock would exceed 40% and from taking certain actions to otherwise control New Metavante. These restrictions terminate on the earliest of (i) the two year anniversary of the closing date, (ii) the date on which any Investor designee is not elected to the board of directors of New Metavante and is not otherwise appointed to the board of directors, and (iii) the date of a change of control of New Metavante.

Completion of the Transactions Is Subject to the Satisfaction or Waiver of a Number of Conditions (see page 121)

The obligation of each party to the investment agreement to complete the transactions under the investment agreement that are to occur on the closing date is subject to the satisfaction or waiver of specified conditions set forth in the investment agreement, including, among others:

the approval and adoption of the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, by Marshall & Ilsley shareholders;

receipt by New Metavante of a favorable Internal Revenue Service ruling (which ruling was received on September 12, 2007) to the effect that (a) the holding company merger and the Marshall & Ilsley LLC conversion qualify as a reorganization under Section 368(a) of the Internal Revenue Code and (b) the Marshall & Ilsley contribution and the New Marshall & Ilsley share distribution qualify as a reorganization under Section 368(a)(1)(D) of the Internal Revenue Code and a distribution eligible for nonrecognition under Sections 355(a) and 361(c) of the Internal Revenue Code;

receipt by Marshall & Ilsley and New Metavante of an opinion of Sidley Austin, counsel to Marshall & Ilsley (or another law firm of national standing), to the effect that certain requirements for tax-free treatment under Section 355 of the Internal Revenue Code on which the Internal Revenue Service will not rule will be satisfied;

the approval of state and federal banking authorities as set forth in the investment agreement;

the receipt by the boards of directors or similar bodies of Marshall & Ilsley, New Metavante and Metavante of certain capital adequacy and solvency opinions from American Appraisal Associates, Inc.; and

other conditions set forth in the investment agreement.

Table of Contents

Each of Marshall & Ilsley and Investor may waive, at its sole discretion, any of the conditions to its respective obligations to complete the transactions under the investment agreement. Marshall & Ilsley does not currently intend to waive any such conditions. If Marshall & Ilsley or Investor waives any of the conditions to its respective obligations to complete the transactions contemplated by the investment agreement that Marshall & Ilsley deems to be material, Marshall & Ilsley intends to amend or supplement this proxy statement/prospectus information statement and distribute such amended or supplemented materials to its shareholders and resolicit their proxies.

How the Investment Agreement May Be Terminated by Marshall & Ilsley or Investor (see page 124)

Termination by Marshall & Ilsley or Investor

As described under *The Investment Agreement Termination of the Investment Agreement*, either Marshall & Ilsley or Investor may terminate the investment agreement at any time prior to the closing if:

Marshall & Ilsley and Investor agree to terminate the agreement by mutual written consent;

the transactions have not been completed by April 4, 2008, provided that this right to terminate is not available to any party that has breached in any material respect any of its obligations under the investment agreement that have been the cause of, or resulted in, the transactions not being completed by April 4, 2008;

any court or governmental entity shall have issued an order, decree or ruling or taken any other action (which action the terminating party shall have used its reasonable best efforts to resist, resolve or lift, as applicable, in accordance with the investment agreement) permanently restraining, enjoining or otherwise prohibiting the transactions, and such order, decree, ruling or other action shall have become final and nonappealable; or

the Marshall & Ilsley shareholders fail to approve and adopt the investment agreement and the transactions contemplated by the investment agreement at the Marshall & Ilsley special meeting.

Termination by Marshall & Ilsley

As described under *The Investment Agreement Termination of the Investment Agreement*, Marshall & Ilsley also may terminate the investment agreement at any time prior to the closing if:

Investor has breached or failed to perform any of its representations, warranties, covenants or other agreements contained in the investment agreement, such that the closing conditions are not capable of being satisfied on or before April 4, 2008;

the Marshall & Ilsley Board authorizes Marshall & Ilsley to enter into a Marshall & Ilsley acquisition agreement (as defined in the section referred to below) and Marshall & Ilsley has paid to Investor the termination fee in accordance with the terms of the investment agreement (as described under *The Investment Agreement Covenants Shareholders Meeting; No Solicitation of Acquisition Proposals; Recommendation of Marshall & Ilsley Board*); or

(x) the Marshall & Ilsley Board makes a change in recommendation in accordance with the terms of the investment agreement, (y) Investor has not delivered a force the Marshall & Ilsley vote notice (as defined in the section referred to below) that remains in effect and the 15 business day period for delivery of a force the Marshall & Ilsley vote notice has elapsed, in each case pursuant to and in accordance with the terms of the investment agreement, and (z) Marshall & Ilsley has paid to Investor the termination fee in accordance with the terms of the investment agreement (in each case as described under *The Investment Agreement Covenants Shareholders Meeting; No Solicitation of Acquisition Proposals; Recommendation of Marshall & Ilsley Board*).

Table of Contents

Termination by Investor

As described under *The Investment Agreement Termination of the Investment Agreement*, Investor also may terminate the investment agreement at any time prior to the closing if:

Marshall & Ilsley, Metavante or New Metavante has breached or failed to perform any of its representations, warranties, covenants or other agreements contained in the investment agreement, such that the closing conditions are not capable of being satisfied on or before April 4, 2008;

(i) (A) the Marshall & Ilsley Board shall have failed to recommend the investment agreement and the transactions to its shareholders or (B) the Marshall & Ilsley Board or a committee thereof shall have made a change in recommendation (or publicly announced its intention to take any such action referred to in clause (A) or (B)) and (ii) Investor has not delivered a force the Marshall & Ilsley vote notice that remains in effect in accordance with the terms of the investment agreement (as described under *The Investment Agreement Covenants Shareholders Meeting; No Solicitation of Acquisition Proposals; Recommendation of Marshall & Ilsley Board*); or

Marshall & Ilsley shall have breached its obligations to call and hold the special meeting of its shareholders in accordance with the terms of the investment agreement.

Termination Fees May Be Payable Under Some Circumstances (see page 125)

As described under *The Investment Agreement Effect of Termination; Termination Fees*, Marshall & Ilsley has, subject to certain specified conditions, agreed to pay Investor a termination fee of:

\$75 million if the investment agreement is terminated in specified circumstances involving, among other things, the Marshall & Ilsley Board authorizing Marshall & Ilsley to enter into a Marshall & Ilsley acquisition agreement, the failure of the Marshall & Ilsley Board to recommend to its shareholders that the shareholders approve and adopt the investment agreement and the transactions contemplated thereby, a change by the Marshall & Ilsley Board of its recommendation to the shareholders of Marshall & Ilsley of the investment agreement and the transactions contemplated thereby (subject to Investor not exercising its right to force the Marshall & Ilsley vote), the failure of Marshall & Ilsley to call and hold the special meeting of its shareholders or intentional breaches of the investment agreement by Marshall & Ilsley such that certain closing conditions are not capable of being satisfied before April 4, 2008; and

\$20 million if either party terminates the investment agreement as a result of failure to obtain the necessary Marshall & Ilsley shareholder approval and an additional \$55 million if a Marshall & Ilsley acquisition proposal or a Metavante acquisition proposal has been announced prior to the special meeting and Marshall & Ilsley enters into or consummates a competing transaction for Marshall & Ilsley or Metavante within 12 months after such termination.

As described under *The Investment Agreement Effect of Termination; Termination Fees Termination Fees*, Investor has agreed to pay Marshall & Ilsley a termination fee of \$75 million if under specified circumstances the investment agreement is terminated by Marshall & Ilsley as a result of intentional breaches of the investment agreement by Investor such that certain closing conditions are not capable of being satisfied on or before April 4, 2008.

Debt Financing (see page 146)

In connection with the transactions, New Metavante and/or one or more of its subsidiaries will incur approximately \$1.75 billion of indebtedness pursuant to a term loan. New Metavante will use all of the proceeds from the sale of the Class A common stock to Investor and the proceeds from debt incurred by New Metavante and/or one or more of its subsidiaries under the term loan in order to (i) repay certain intercompany indebtedness

Table of Contents

plus accrued and unpaid interest to the closing date owed by Metavante to Marshall & Ilsley (the amount currently owed is approximately \$982 million), (ii) contribute to New Marshall & Ilsley \$1.665 billion in cash and (iii) pay expenses relating to the transactions. In addition, New Metavante and/or one or more of its subsidiaries will enter into a revolving credit facility that will provide for borrowing of up to \$250 million to provide funds after the closing date for working capital, capital expenditures and general corporate purposes. The term loan facility and the revolving credit facility are both expected to be provided pursuant to and in accordance with the terms and conditions contained in a commitment letter from JPMorgan, JPMorgan Chase Bank, N.A., Morgan Stanley Senior Funding, Inc., Lehman Brothers Commercial Bank, Lehman Commercial Paper Inc., Lehman Brothers Inc., and Baird Financial Corporation, and certain of their respective affiliates.

Marshall & Ilsley Shareholder Approval Is a Condition to the Completion of the Transactions and Is Required to Adjourn the Special Meeting (see page 121)

Approval and adoption of the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, by the affirmative vote of a majority of the outstanding shares of Marshall & Ilsley common stock is a condition to completion of the transactions.

Any adjournments of the special meeting by vote of shareholders for the purpose of soliciting additional proxies or for any other purpose must be approved by the affirmative vote of a majority of the shares represented at the special meeting.

At the close of business on the Marshall & Ilsley special meeting record date, Marshall & Ilsley directors and executive officers as a group owned and were entitled to vote 10,133,196 shares of Marshall & Ilsley common stock, representing approximately 3.8% of the outstanding voting power of Marshall & Ilsley common stock. All of the directors and executive officers of Marshall & Ilsley that are entitled to vote at the Marshall & Ilsley special meeting have indicated that they currently intend to vote their shares of Marshall & Ilsley common stock in favor of approving and adopting the investment agreement and the transactions contemplated by the investment agreement. See *The Marshall & Ilsley Special Meeting of Shareholders* Share Ownership of Management and Certain Shareholders beginning on page 58.

The Marshall & Ilsley Board Recommends the Approval and Adoption of the Investment Agreement and the Transactions Contemplated by the Investment Agreement (see page 74)

The Marshall & Ilsley Board has unanimously approved and adopted the investment agreement and determined that the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, are advisable and in the best interests of Marshall & Ilsley and its shareholders and recommends that Marshall & Ilsley shareholders vote FOR the proposal to approve and adopt the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance.

Marshall & Ilsley's Reasons for the Transactions (see page 74)

In reaching its decision to approve and adopt the investment agreement and the transactions contemplated by the investment agreement and recommend that Marshall & Ilsley shareholders approve and adopt the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, the Marshall & Ilsley Board considered a variety of factors weighing in favor of the transactions, including, among others, the following:

the transactions are expected to allow both companies to grow faster by reducing capital constraints;

Table of Contents

the financial terms of the investment agreement and other transaction agreements and the receipt by Marshall & Ilsley of cash in the amount of \$1.665 billion from Investor's investment in New Metavante, incremental borrowings of New Metavante and a dividend of available cash of Metavante;

other strategic alternatives were considered and analyzed;

the improved tangible capital position of Marshall & Ilsley;

participation of Marshall & Ilsley shareholders in the potential success of New Marshall & Ilsley and New Metavante;

the transactions will provide for a better alignment of employee incentive awards;

the potential for operational and strategic contributions that could arise through New Metavante being affiliated with Warburg Pincus;

the debt level of Metavante and its ability to pursue acquisitions;

the terms of the separation agreement and investment agreement;

the valuation letter of Marshall & Ilsley's financial advisor; and

following the transactions New Marshall & Ilsley and New Metavante will maintain beneficial business relationships through contractual relationships.

For a more complete description of these factors and other factors considered by the Marshall & Ilsley Board, please see "The Transactions" Marshall & Ilsley's Reasons for the Transactions; Recommendation of the Marshall & Ilsley Board.

The Shareholders of Marshall & Ilsley, New Marshall & Ilsley and New Metavante Do Not Have Dissenters' or Appraisal Rights in Connection with the Transactions (see page 101)

The shareholders of Marshall & Ilsley, New Metavante and New Marshall & Ilsley will not be entitled to exercise appraisal rights or to demand payment for their shares in connection with the transactions.

Valuation Letter of Financial Advisor to the Marshall & Ilsley Board (see page 82)

At a meeting of the Marshall & Ilsley Board held on April 3, 2007, JPMorgan orally provided the Marshall & Ilsley Board with its view, subsequently confirmed by delivery of a written valuation letter dated as of the same date, that as of that date and based upon and subject to the assumptions made, procedures followed, matters considered, and qualifications and limitations set forth in the valuation letter, the range of enterprise values of Metavante was between \$3.8 billion and \$4.4 billion, which would imply a range of values between approximately \$515 million and \$665 million for the proportionate share of Metavante represented by the number of shares of common stock of New Metavante to be purchased by Investor under the investment agreement and the number of shares of common stock of New Metavante that Investor may purchase under the stock purchase right agreement (such proportionate share of Metavante is referred to herein as the "WPM Investment").

JP Morgan and its affiliates have in the past performed, and may continue to perform, a variety of commercial banking and investment banking services for Marshall & Ilsley and its affiliates and for Warburg Pincus and its portfolio companies, all for customary compensation. Specifically, JPMorgan has acted as a lead manager for Marshall & Ilsley's offerings of its bank notes, senior notes and subordinated notes in

Edgar Filing: MARSHALL & ILSLEY CORP/WI/ - Form DEFM14A

2005, as lead manager for two offerings by Marshall & Ilsley of its bank notes in 2006 and as joint remarketing agent for senior notes of Marshall & Ilsley in 2007. JPMorgan and its affiliates received fees of approximately \$0.9 million, \$0.5 million and \$0.8 million in 2005, 2006 and the year to date in 2007, respectively, for investment banking and other services provided to Marshall & Ilsley and its affiliates unrelated to the

Table of Contents

WPM Investment. JPMorgan and its affiliates received fees of approximately \$31.2 million, \$4.0 million and \$71.1 million in 2005, 2006 and the year to date in 2007, respectively, for investment banking and other services provided to Warburg Pincus and its portfolio companies unrelated to the WPM Investment. Upon the consummation of the transactions contemplated by the investment agreement, JPMorgan will receive a fee from Marshall & Ilsley in the amount of \$10 million for its services as Marshall & Ilsley's financial advisor. In addition, JPMorgan and/or certain of its affiliates will be paid a one-time underwriting and syndication fee of approximately \$7.9 million, subject to reduction by fees paid to other lenders participating in the syndication of the credit facility, and an annual administration fee of \$150,000 by New Metavante in connection with New Metavante's term loan facility and revolving credit facility.

The full text of the valuation letter of JPMorgan, dated April 3, 2007, which sets forth, among other things, the assumptions made, procedures followed, matters considered, and qualifications and limitations on the review undertaken by JPMorgan in connection with its valuation, is attached to this proxy statement/prospectus information statement as Annex F and is incorporated into this proxy statement/prospectus information statement by reference. The summary of JPMorgan's valuation letter included in this proxy statement/prospectus information statement is qualified in its entirety by reference to the full text of such valuation letter. You are urged to read the valuation letter carefully and in its entirety. JPMorgan provided its valuation letter for the information and assistance of the Marshall & Ilsley Board in connection with its consideration of the transactions contemplated by the investment agreement and the other transaction agreements. The valuation letter addresses only the valuation of Metavante, on an enterprise value basis, and the implied value of the WPM Investment (as defined under The Transactions Valuation Letter of Financial Advisor to the Marshall & Ilsley Board). The valuation letter does not constitute a recommendation to any shareholder of Marshall & Ilsley as to how such shareholder should vote at the special meeting with respect to the approval and adoption of the investment agreement and the transactions contemplated by the investment agreement and the other transaction agreements or any other matter and should not be relied upon by any shareholder as such.

Marshall & Ilsley Executive Officers and Directors May Have Interests in the Transactions that Are Different from, or in Addition to, the Interests of Marshall & Ilsley Shareholders Generally (see page 90)

In considering the recommendation of the Marshall & Ilsley Board to approve and adopt the investment agreement and the transactions contemplated by the investment agreement, Marshall & Ilsley shareholders should be aware that certain Marshall & Ilsley shareholders and Marshall & Ilsley's directors and executive officers may have interests in the transactions that are different from, or in addition to, the interests of Marshall & Ilsley shareholders generally as a result of, among other things:

upon consummation of the closing, Dennis J. Kuester will serve as Chairman of the Board of New Metavante for a period of one year from the date of closing;

if Dennis J. Kuester is unable to serve during such one-year period, or after such one-year period, Frank R. Martire will succeed Dennis J. Kuester as Chairman of the Board of New Metavante;

upon consummation of the closing, Frank R. Martire will serve as President and Chief Executive Officer of New Metavante and will be a director of New Metavante and Michael D. Hayford will serve as Senior Executive Vice President and Chief Operating Officer and will be a director of New Metavante;

upon consummation of the closing, Ted D. Kellner, a current non-employee director of Marshall & Ilsley, will serve on the board of directors of New Marshall & Ilsley and will serve on the board of directors of New Metavante;

options to purchase Marshall & Ilsley common stock issued under Marshall & Ilsley equity plans and outstanding prior to the completion of the transactions, including those held by executive officers and

Table of Contents

directors, will be ultimately converted into options to purchase New Marshall & Ilsley common stock in the case of employees who will be employed by New Marshall & Ilsley and non-employee directors who will be directors of New Marshall & Ilsley after the closing date of the transactions, or New Metavante common stock, in the case of employees who will be employed by New Metavante and non-employee directors who will be directors of New Metavante after the closing date (approximately 6,617,025 options to purchase Marshall & Ilsley common stock were held by executive officers and directors of Marshall & Ilsley as of August 31, 2007). Prior to the completion of the transactions, each outstanding option to purchase Marshall & Ilsley stock held by an individual who, immediately following the New Marshall & Ilsley share distribution, will be a director of New Metavante and either a Marshall & Ilsley or New Marshall & Ilsley employee or a director of New Marshall & Ilsley shall be converted into both a New Marshall & Ilsley option and a New Metavante option, effective immediately after the New Marshall & Ilsley share distribution (approximately 1,748,750 options to purchase Marshall & Ilsley common stock were held by persons expected to be both a director of New Metavante and either a Marshall & Ilsley or New Marshall & Ilsley employee or a director of New Marshall & Ilsley as of August 31, 2007);

all shares of Marshall & Ilsley restricted stock will be treated the same as all other outstanding shares of Marshall & Ilsley common stock in the transactions except that each share of New Metavante common stock and New Marshall & Ilsley common stock received in such transactions with respect to these shares will be subject to the same restrictions as the corresponding share of Marshall & Ilsley restricted stock to which it relates and will continue to be subject to the terms of the applicable Marshall & Ilsley equity plan (approximately 300,225 restricted shares were held by executive officers as of August 31, 2007);

the amounts of incentives earned by Metavante executives under the Metavante Long Term Incentive Plan with respect to performance periods that include the closing date that are based on the performance of Marshall & Ilsley will be determined jointly by Marshall & Ilsley, New Marshall & Ilsley, Metavante, New Metavante and Investor as of the closing date and will be paid by Metavante and New Metavante after the conclusion of the performance period (payments based on the performance of Metavante will be made by Metavante and New Metavante in accordance with the terms of the Metavante Long Term Incentive Plan); and

the shareholders agreement to be entered into among New Metavante and Investor providing for, among other things, certain management and registration rights in connection with Investor's ownership of shares of New Metavante common stock.

Completion of the Transactions Is Subject to Banking and Other Regulatory Approvals (see page 89)

The transactions may be subject to the approval of filings, notifications, reports and applications under the Bank Holding Company Act of 1956, as amended, the Change in Bank Control Act of 1978, as amended, the Home Owner's Loan Act, and other federal or state banking laws or regulations, including, without limitation, any required approvals from the Board of Governors of the Federal Reserve System, the Office of the Comptroller of the Currency, the Office of Thrift Supervision, the Federal Deposit Insurance Corporation, the Wisconsin Department of Financial Institutions and the Missouri Division of Finance. Warburg Pincus and Marshall & Ilsley filed a waiver request from the application requirements of Section 3 of the Bank Holding Company Act with the Federal Reserve Bank of Chicago on April 9, 2007 and received the waiver on June 22, 2007. Additional waivers may be sought or other filings or applications may be made, if necessary.

The transactions may also be subject to the approval of filings, notifications, reports and applications under applicable state or federal laws or regulations and the rules and regulations of the National Association of Securities Dealers, Inc. or any other applicable regulatory authority regulating broker-dealers, investment advisors and insurance companies.

Table of Contents

Completion of the Transactions Is Subject to Antitrust Approvals (see page 89)

Under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, which we refer to as the HSR Act, the transactions may not be completed until Notification and Report Forms have been filed by or on behalf of each of Marshall & Ilsley and Warburg Pincus Private Equity IX, L.P. with the Antitrust Division of the U.S. Department of Justice, which we refer to as the DOJ, and the Federal Trade Commission, which we refer to as the FTC, and the specified 30-day waiting period has expired or been earlier terminated. Warburg Pincus and Marshall & Ilsley each filed Notification and Report Forms with the DOJ and FTC on or prior to June 25, 2007. The applicable waiting period under the HSR Act expired on July 24, 2007. At any time before or after completion of the transactions, the DOJ, FTC or others (including states and private parties) could take action under the antitrust laws, including seeking to prevent the transactions, to rescind the transactions or to conditionally approve the transactions.

Accounting Treatment (see page 89)

Notwithstanding the legal form of the transactions, New Marshall & Ilsley will be considered the divesting entity and treated as the accounting successor to Marshall & Ilsley and Metavante will be considered the accounting spinee for financial reporting purposes in accordance with Emerging Issues Task Force, EITF Issue No. 02-11, Accounting for Reverse Spinoffs.

As a Condition to Completion of the Transactions, the New Marshall & Ilsley Common Stock and the New Metavante Common Stock Issued in the Transactions Will Each Be Approved for Listing on the New York Stock Exchange (see page 121)

It is a condition to completion of the transactions that the shares of New Metavante common stock to be issued in the holding company merger and the shares of New Marshall & Ilsley common stock to be distributed in the New Marshall & Ilsley share distribution will have been approved for listing on the New York Stock Exchange (or such other national securities exchange as New Metavante and Investor may mutually agree). New Marshall & Ilsley intends to apply to have its shares of common stock authorized for listing on the New York Stock Exchange under Marshall & Ilsley's present symbol of MI and New Metavante intends to apply to have its shares of common stock authorized for listing on the New York Stock Exchange under the symbol MV.

The Transactions, Including the Performance of New Marshall & Ilsley and New Metavante, Involve a Number of Risks (see page 32)

There are a number of risks relating to the transactions and to the businesses of New Marshall & Ilsley and New Metavante. See Risk Factors beginning on page 32 of this proxy statement/prospectus information statement for a discussion of these and other risks and see also the documents that Marshall & Ilsley has filed with the Securities and Exchange Commission, or the SEC, and which are incorporated by reference into this proxy statement/prospectus information statement.

Table of Contents

Questions and Answers About the Transactions

Why am I receiving this document?	We are delivering this document to you because it is serving as a proxy statement of Marshall & Ilsley, a prospectus of New Metavante and an information statement of New Metavante. It is a proxy statement because Marshall & Ilsley is using it to solicit the approval by its shareholders of the approval and adoption of the investment agreement and the transactions contemplated by the investment agreement. It is a prospectus because New Metavante is offering shares of its common stock to shareholders of Marshall & Ilsley in the holding company merger. It is an information statement because New Metavante is using it to distribute to persons that will be its shareholders (i.e., current Marshall & Ilsley shareholders) information relating to New Marshall & Ilsley and the New Marshall & Ilsley share distribution.
What am I being asked to vote upon?	You are being asked to approve and adopt the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance. You are also being asked to approve any adjournments of the special meeting for the purpose of soliciting additional proxies or for any other purpose.
Who can vote on the Marshall & Ilsley proposals?	Holders of record of Marshall & Ilsley common stock at the close of business on September 19, 2007, the record date for the Marshall & Ilsley special meeting, can vote their shares by proxy by completing, signing, dating and returning their proxy card in the enclosed, postage-paid envelope or by submitting their proxy by telephone or Internet as described in this proxy statement/prospectus information statement or they may vote in person at the Marshall & Ilsley special meeting. See The Marshall & Ilsley Special Meeting of Shareholders Purpose, Time and Place beginning on page 56.
When and where is the special meeting of Marshall & Ilsley shareholders?	The special meeting of Marshall & Ilsley shareholders will take place on October 25, 2007 at the corporate headquarters of Marshall & Ilsley Corporation, 770 North Water Street, Third Floor, Milwaukee, Wisconsin, at 10:00 a.m., local time.
What will happen at the special meeting?	At the special meeting, holders of Marshall & Ilsley common stock will vote on whether to approve and adopt the investment agreement and the transactions contemplated by the investment agreement and to approve any adjournments of the special meeting for purposes of soliciting additional proxies or for any other purpose. The parties to the investment agreement cannot complete the transactions without the approval of the holders of a majority of the shares of Marshall & Ilsley common stock. See The Marshall & Ilsley Special Meeting of Shareholders beginning on page 56.
What do I need to do to vote?	You may vote: by telephone, by calling the toll-free number (866) 894-0537 in the United States or Canada on a touch-tone phone; by accessing the Internet website at http://www.continentalstock.com and following the instructions on the website;

Table of Contents

by mail, by completing the enclosed proxy card, signing and dating the proxy card and returning the proxy card in the enclosed, postage-paid envelope that accompanied that proxy card; or

by attending the special meeting and voting in person.

If my shares are held in street name by my broker, will my broker vote my shares for me? If your shares of Marshall & Ilsley common stock are held in street name (through a broker, bank or other nominee), you may receive a separate voting instruction with this proxy statement/prospectus information statement, or you may need to contact your broker, bank or other nominee to determine whether you will be able to vote electronically using the Internet or telephonically, or what is required to vote your shares in person at the special meeting.

What happens if I do not respond? The failure to respond by returning your signed proxy card, voting by telephone or voting over the Internet will have the same effect as voting against the proposal to approve and adopt the investment agreement and the transactions contemplated thereby unless you vote for the proposal in person at the Marshall & Ilsley special meeting.

Can I change my vote after I submit my proxy card? Yes. If you are a holder of record of Marshall & Ilsley common stock and have properly completed and submitted your proxy card, you can change your vote in any of the following ways:

- by sending a written notice to the corporate secretary of Marshall & Ilsley that is received prior to the special meeting stating that you revoke your proxy;
- by properly completing and submitting a new proxy card bearing a later date that is received prior to the special meeting; or
- by attending the special meeting and voting in person.

Simply attending the special meeting will not revoke a proxy.

If you are a holder whose shares are held in street name by your broker and you have directed that person to vote your shares, you must instruct that person to change your vote if you wish to so change your vote.

When will the special meeting take place relative to the transactions? We expect that:

the special meeting will be held on October 25, 2007; and

the record date for the New Marshall & Ilsley share distribution will be the same date as the date of the closing of the transactions, assuming the conditions in the investment agreement and separation agreement have been satisfied or waived.

When will the transactions be completed? We are working to complete the transactions as soon as practicable. If approved by the Marshall & Ilsley shareholders, we expect to complete the transactions in the fourth calendar quarter of 2007. It is also possible that factors outside our control could require us to complete the transactions at a later time or not to complete them at all. See The Investment Agreement Conditions to the Completion of the Transactions beginning on page 121.

Table of Contents

If the transactions are completed, when and how will I receive my shares of New Metavante common stock and New Marshall & Ilsley common stock

If the transactions are completed, you will receive your shares of New Metavante and New Marshall & Ilsley as follows:

The exchange agent will:

record in the stock transfer records of New Metavante the issuance of one share of New Metavante common stock to each holder of Marshall & Ilsley common stock as of the effective time of the holding company merger for every three shares of Marshall & Ilsley common stock then held of record; and

record in the stock transfer records of New Marshall & Ilsley the issuance of three shares of New Marshall & Ilsley common stock to each holder of New Metavante common stock (other than the New Metavante Class A common stock) as of the record date for the distribution for each share of New Metavante common stock then held of record.

Following the closing date, if you hold one or more stock certificates representing your shares of Marshall & Ilsley common stock, the exchange agent for the holding company merger will mail you a letter of transmittal and instructions on how to surrender your shares of Marshall & Ilsley common stock. Upon surrender of such shares to the exchange agent, you will receive the applicable number of shares of New Metavante common stock (and, if applicable, a check representing cash in lieu of fractional shares of New Metavante common stock) and the applicable number of shares of New Marshall & Ilsley common stock. Unless you request physical certificates in the letter of transmittal, you will receive shares of New Metavante common stock and shares of New Marshall & Ilsley common stock in book-entry form.

If you hold shares of Marshall & Ilsley common stock that are not represented by one or more stock certificates, including if such shares are held in street name through a broker, you will receive the applicable number of shares of New Metavante common stock (and, if applicable, a check representing cash in lieu of fractional shares of New Metavante common stock) and the applicable number of shares of New Marshall & Ilsley common stock without any action on your part and you will receive shares of New Metavante common stock and shares of New Marshall & Ilsley common stock in book-entry form.

Fractional shares of New Metavante will not be issued in connection with the holding company merger. Holders of shares of common stock of Marshall & Ilsley that would otherwise be entitled to receive fractional shares of New Metavante resulting from the holding company merger will be paid cash in lieu of such fractional shares (and therefore will not receive shares of New Marshall & Ilsley common stock in respect of such fractional shares) in an amount equal to the value of such fractional shares based on the last sale price, or the closing bid price if no sale occurred, of Marshall & Ilsley common stock on the last business day prior to the closing of the transactions.

Table of Contents

For example, if you hold 100 shares of Marshall & Ilsley common stock, you will receive:

33 shares of New Metavante common stock plus cash in lieu of the one-third share of New Metavante common stock that you would otherwise be entitled to receive; and

99 shares of New Marshall & Ilsley common stock.

What should I do now?

After carefully reading and considering the information contained and incorporated by reference in this proxy statement/prospectus information statement, including the investment agreement, the separation agreement, the tax allocation agreement and the forms of the shareholders agreement and the stock purchase right agreement attached to this proxy statement/prospectus information statement as Annexes A, B, C, D and E respectively, you should complete, sign and date your proxy card and return it in the enclosed, postage-paid envelope or submit your proxy by telephone or over the Internet as soon as possible so that your shares will be represented and voted at the Marshall & Ilsley special meeting. If you submit a proxy and do not indicate how to vote on either proposal, Marshall & Ilsley will count the proxy as a vote FOR the proposal to approve and adopt the investment agreement and the transactions contemplated by the investment agreement and FOR the proposal to approve any adjournments of the special meeting for the purpose of soliciting additional proxies or for any other purpose.

Who can answer my questions?

If you have any questions regarding the transactions or the Marshall & Ilsley special meeting or any other matter described in this proxy statement/prospectus information statement, or if you need assistance in voting your shares, please contact:

Table of Contents

Selected Historical Consolidated Financial Information of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley)

The following table sets forth selected historical consolidated financial information for Marshall & Ilsley. Notwithstanding the legal form of the transactions, New Marshall & Ilsley will be considered the divesting entity and treated as the accounting successor to Marshall & Ilsley for financial reporting purposes in accordance with EITF Issue No. 02-11, Accounting for Reverse Spinoffs. As such, the historical consolidated financial information presented below for Marshall & Ilsley (accounting predecessor to New Marshall & Ilsley) reflects historical consolidated financial information that previously has been filed with the SEC by Marshall & Ilsley. After the transactions occur, New Marshall & Ilsley will report the historical consolidated results of operations (subject to certain adjustments) of New Metavante in discontinued operations in accordance with the provisions of Statement of Financial Accounting Standards (SFAS) No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. Pursuant to SFAS No. 144, this presentation is not permitted until the closing date.

The selected historical consolidated financial information of Marshall & Ilsley is qualified by reference to, and should be read in conjunction with, Management's Discussion and Analysis of Financial Condition and Results of Operations of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) beginning on page 161 and the consolidated financial statements and notes of Marshall & Ilsley as of December 31, 2006 and 2005 and as of June 30, 2007 and 2006, and for each of the three years in the period ended December 31, 2006 and for the three- and six-month periods ended June 30, 2007 and 2006. The results of operations information for the years ended December 31, 2006, 2005 and 2004 and the financial condition information as of December 31, 2006 and 2005 is derived from the audited consolidated financial statements of Marshall & Ilsley included elsewhere in this proxy statement/prospectus information statement. The results of operations information for the years ended December 31, 2003 and 2002 and the financial condition information as of December 31, 2004 and 2003 are derived from the audited consolidated financial statements of Marshall & Ilsley not included in this proxy statement/prospectus information statement. The results of operations information for the six-month periods ended June 30, 2007 and 2006 and the financial condition information as of June 30, 2007 are derived from the unaudited consolidated financial statements of Marshall & Ilsley included elsewhere in this proxy statement/prospectus information statement. The unaudited consolidated financial statements of Marshall & Ilsley include, in Marshall & Ilsley's management's opinion, all adjustments, consisting only of normal recurring adjustments, necessary to fairly state the consolidated results of operations and the consolidated financial position of Marshall & Ilsley for the dates set forth in the table below. You should read the following information in conjunction with the unaudited condensed pro forma consolidated financial statements of New Marshall & Ilsley beginning on page 225. The historical consolidated financial information of Marshall & Ilsley would have been different had New Marshall & Ilsley been operated independently. The historical consolidated financial information of Marshall & Ilsley may not be a reliable indicator of future results of operations of New Marshall & Ilsley. The amounts in the table below are in thousands.

Summary Unaudited Condensed Pro Forma Consolidated Financial Information of New Marshall & Ilsley

The following table sets forth summary unaudited condensed pro forma consolidated financial information of New Marshall & Ilsley. This information is qualified by reference to, and should be read in conjunction with, Management's Discussion and Analysis of Financial Condition and Results of Operations of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) beginning on page 161 and the historical consolidated financial statements and notes of Marshall & Ilsley as of December 31, 2006 and 2005 and as of June 30, 2007 and 2006, and for each of the three years in the period ended December 31, 2006 and for the six months ended June 30, 2007 and 2006 included elsewhere in this proxy statement/prospectus information statement.

The unaudited condensed pro forma consolidated results of operations information of New Marshall & Ilsley for the six months ended June 30, 2007 and for each of the three years in the period ended December 31, 2006 has been prepared as though the transactions had occurred as of January 1, 2006. The unaudited condensed pro forma consolidated balance sheet information of New Marshall & Ilsley as of June 30, 2007 has been prepared as though the transactions had occurred on June 30, 2007.

The unaudited condensed pro forma consolidated financial information of New Marshall & Ilsley is derived from the unaudited condensed pro forma consolidated financial statements of New Marshall & Ilsley. The unaudited condensed pro forma consolidated financial statements of New Marshall & Ilsley are derived from the historical consolidated financial statements of Marshall & Ilsley and adjusted to give effect to:

the contribution of Marshall & Ilsley to New Marshall & Ilsley;

the distribution of approximately 257,112,705 shares of New Marshall & Ilsley common stock in connection with the New Marshall & Ilsley share distribution (based on the number of shares of Marshall & Ilsley common stock outstanding as of June 30, 2007);

payment by Metavante of certain intercompany indebtedness plus accrued and unpaid interest owed to Marshall & Ilsley (the amount currently owed is approximately \$982 million) and the receipt by New Marshall & Ilsley of \$1.665 billion in cash from New Metavante (which includes the \$625 million of proceeds from the sale of the New Metavante common stock to Investor); and

the removal of the operations of Metavante.

The share numbers and dollar and settlement amounts are based on Marshall & Ilsley share numbers and balances as of and for the periods presented.

The pro forma adjustments are based upon available information and assumptions that management of New Marshall & Ilsley believes are reasonable; however, such adjustments are subject to change. In addition, such adjustments are estimates and may not prove to be accurate.

Table of Contents

Non-recurring charges related to the transactions other than those transaction costs actually incurred in the six months ended June 30, 2007, including charges related to the issuance of fully vested equity based awards and transaction expenses in the amount of approximately \$31.9 million, have been excluded from the unaudited condensed pro forma consolidated statements of earnings. In addition, the unaudited condensed pro forma consolidated statements of earnings do not give effect to changes in certain costs New Marshall & Ilsley expects to incur associated with operating as a stand-alone company.

Table of Contents**Selected Historical Consolidated Financial Information of Metavante**

The following table sets forth selected historical consolidated financial information of Metavante, which following the transactions will be a wholly-owned subsidiary of New Metavante and will continue to operate Metavante's business directly or through its subsidiaries. This information is qualified by reference to, and should be read in conjunction with, Management's Discussion and Analysis of Financial Condition and Results of Operations of Metavante beginning on page 293 and the consolidated financial statements and notes of Metavante as of December 31, 2006 and 2005 and as of June 30, 2007 and for each of the three years in the period ended December 31, 2006 and for the three- and six-month periods ended June 30, 2007 and 2006. The results of operations information for the years ended December 31, 2006, 2005 and 2004 and the financial condition information as of December 31, 2006 and 2005 are derived from the audited consolidated financial statements of Metavante included elsewhere in this proxy statement/prospectus information statement. The results of operations information for the years ended December 31, 2003 and 2002 and the financial condition information as of December 31, 2004, 2003 and 2002 are derived from the audited consolidated financial statements of Metavante not included in this proxy statement/prospectus information statement. The results of operations information for the six-month periods ended June 30, 2007 and 2006 and the financial condition information as of June 30, 2007 are derived from the unaudited consolidated financial statements of Metavante included elsewhere in this proxy statement/prospectus information statement. The financial condition information as of June 30, 2006 is derived from the unaudited consolidated financial statements of Metavante not included in this proxy statement/prospectus information statement. The unaudited consolidated financial statements of Metavante include, in Metavante's management's opinion, all adjustments, consisting only of normal recurring adjustments, necessary to fairly state the consolidated results of operations and the consolidated financial position of Metavante for the dates set forth in the table below. You should also read the following information in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) beginning on page 161 and the consolidated financial statements and notes of Marshall & Ilsley as of December 31, 2006 and 2005 and as of June 30, 2007 and 2006, and for each of the three years in the period ended December 31, 2006 and for the three- and six-month periods ended June 30, 2007 and 2006 included elsewhere in this proxy statement/prospectus information statement, and the unaudited condensed pro forma consolidated financial statements of New Metavante beginning on page 320. The historical consolidated financial information of Metavante has been derived from the financial statements and accounting records of Marshall & Ilsley and reflects assumptions and allocations made by Marshall & Ilsley. The historical consolidated financial information of Metavante would have been different had Metavante been operated independently. The historical consolidated financial information of Metavante may not be a reliable indicator of future results of operations of Metavante. The amounts in the table below are in thousands.

We have not provided financial information of New Metavante because, prior to the transactions, it will have no assets, liabilities or operations other than incident to its formation and the ownership of Merger Sub and New Marshall & Ilsley, each of which has no assets, liabilities or operations other than incident to its formation.

Summary Unaudited Condensed Pro Forma Consolidated Financial Information of New Metavante

The following table sets forth summary unaudited condensed pro forma consolidated financial information of New Metavante. This information is qualified by reference to, and should be read in conjunction with, Management's Discussion and Analysis of Financial Condition and Results of Operations of Metavante beginning on page 293 and the historical consolidated financial statements and notes of Metavante as of December 31, 2006 and 2005 and as of June 30, 2007 and for each of the three years in the period ended December 31, 2006, and for the three and six months ended June 30, 2007 and 2006, included elsewhere in this proxy statement/prospectus information statement.

The unaudited condensed pro forma consolidated results of operations information of New Metavante for the six months ended June 30, 2007 and the year ended December 31, 2006 has been prepared as though the transactions had occurred as of January 1, 2006. The unaudited condensed pro forma consolidated balance sheet information of New Metavante as of June 30, 2007 has been prepared as though the transactions had occurred on June 30, 2007.

The unaudited condensed pro forma consolidated financial information of New Metavante is derived from the unaudited condensed pro forma consolidated financial statements of New Metavante. The unaudited condensed pro forma consolidated financial statements of New Metavante are derived from the historical consolidated financial statements of Metavante and adjusted to give effect to:

Marshall & Ilsley will separate into two publicly-traded companies: New Marshall & Ilsley, which will own and operate Marshall & Ilsley's banking business, the issued and outstanding common stock of which will be owned 100% by the Marshall & Ilsley shareholders, and New Metavante, which will own and operate the Metavante business, 75% of the issued and outstanding common stock of which will be owned by Marshall & Ilsley shareholders and the remaining 25% will be owned by Investor;

Investor will invest \$625 million in New Metavante for an equity interest representing 25% of New Metavante common stock;

New Metavante and/or one or more of its subsidiaries will incur approximately \$1.75 billion of indebtedness and approximately \$22.5 million in associated costs;

Metavante will pay off certain intercompany indebtedness plus accrued and unpaid interest owed to Marshall & Ilsley (the amount currently owed is approximately \$982 million);

New Metavante will contribute to New Marshall & Ilsley \$1.665 billion in cash (which includes the \$625 million of proceeds from the sale of the New Metavante common stock to Investor); and

New Metavante will reimburse Investor for all of Investor's expenses related to the transactions, which Investor has estimated to be approximately \$14.5 million. This non-recurring charge is reflected in the unaudited condensed pro forma consolidated balance sheet of New Metavante, but the amount is not reflected in the unaudited condensed pro forma statements of earnings.

The dollar and settlement amounts are based on Marshall & Ilsley balances as of June 30, 2007.

The pro forma adjustments are based upon available information and assumptions that management of Metavante believes are reasonable; however, such adjustments are subject to change. In addition, such adjustments are estimates and may not prove to be accurate. In addition, the unaudited condensed pro forma consolidated financial statements reflect assumptions with respect to the debt financing for the transactions, including but not limited to assumptions regarding the availability of the debt obligations at and after closing on financial terms currently contemplated and the interest rates applicable to each such obligation, that are subject to changes that may be material.

	\$ 0.89	\$ 1.05	\$ 0.93	\$ 0.81	\$ 0.70

Market Price Data and Price Range of New Marshall & Ilsley and New Metavante Common Stock and Dividends

Market price data and price range and dividend data for New Marshall & Ilsley and New Metavante have not been presented as they are currently wholly-owned subsidiaries of Marshall & Ilsley and their common stock does not trade separately from Marshall & Ilsley's common stock.

There is currently no market for the New Marshall & Ilsley common stock or the New Metavante common stock. It is a condition to completion of the transactions that the New Metavante common stock and New Marshall & Ilsley common stock be approved for listing on the New York Stock Exchange (or, in the case of the New Metavante common stock, such other national securities exchange as New Metavante and Investor may agree), subject to official notice of issuance. New Marshall & Ilsley intends to apply to have its shares of common stock authorized for listing on the New York Stock Exchange under Marshall & Ilsley's present symbol of MI and New Metavante intends to apply to have its shares of common stock authorized for listing on the New York Stock Exchange under the symbol MV.

Table of Contents

Marshall & Ilsley expects to continue to pay regular quarterly dividends to shareholders of \$0.31 per share in accordance with its previously announced dividend policy until the completion of the transactions. Following completion of the transactions, New Marshall & Ilsley expects to continue to pay regular quarterly dividends to shareholders of \$0.31 per share in accordance with Marshall & Ilsley's previously announced dividend policy; the declaration and amount of any such future dividends, however, will be determined by New Marshall & Ilsley's board of directors and will depend on New Marshall & Ilsley's earnings after the completion of the transactions and any other factors that the board of directors believes are relevant.

New Metavante expects that following completion of the transactions, it will not pay a regular quarterly dividend. In addition, Metavante's credit agreement is expected to contain limitations on New Metavante's ability to pay dividends as described under "Anticipated Terms of Financing - Debt Financing" beginning on page 146.

Table of Contents

RISK FACTORS

In addition to the other information that we have incorporated by reference in this proxy statement/prospectus information statement and the matters addressed in Special Note Regarding Forward-Looking Statements beginning on page 55, you should carefully consider and evaluate all of the information in this proxy statement/prospectus information statement, including the risk factors listed below. These risks describe what we believe to be material risks of the transactions to Marshall & Ilsley shareholders and material risks relating to the business of New Marshall & Ilsley and New Metavante. There may, however, be additional risks, of which we are not aware or which we do not believe are material, that could materially and adversely affect the transactions, New Marshall & Ilsley or New Metavante.

Risks Relating to the Transactions

The historical consolidated financial information of Metavante and the unaudited condensed pro forma consolidated financial information of New Metavante are not representative of New Metavante's future financial position, future results of operations or future cash flows nor do they reflect what New Metavante's financial position, results of operations or cash flows would have been as a stand-alone company during the periods presented.

The historical consolidated financial information of Metavante included in this proxy statement/prospectus information statement is not representative of New Metavante's future financial position, future results of operations or future cash flows, nor does it reflect what New Metavante's financial position, results of operations or cash flows would have been as a stand-alone company during the periods presented. This is primarily because:

Metavante's historical consolidated financial information reflects allocation of expenses from Marshall & Ilsley. Those allocations may be different from the comparable expenses New Metavante would have incurred as a stand-alone company.

Metavante's working capital requirements historically have been satisfied as part of Marshall & Ilsley's corporate-wide cash management policies. In connection with the transactions, New Metavante and/or one or more of its subsidiaries will incur a large amount of indebtedness and will therefor assume significant debt service costs. As a result, New Metavante's cost of debt and capitalization will be significantly different from that reflected in Metavante's historical consolidated financial information.

As a result of the transactions, there will be significant changes in the cost structure of New Metavante from that of Metavante, including the cost to establish appropriate accounting and reporting systems, debt service obligations, public company disclosure and SEC reporting, and other costs of being a stand-alone public company.

The unaudited condensed pro forma consolidated financial information of New Metavante included in this proxy statement/prospectus information statement includes adjustments to reflect some of the factors described above. The pro forma adjustments are based upon available information and assumptions that New Metavante believes are reasonable; however, its assumptions may not prove to be accurate. In addition, the unaudited condensed pro forma consolidated financial statements of New Metavante do not give effect to all of the on-going additional costs that it expects to incur in connection with being a stand-alone public company. The unaudited condensed pro forma consolidated statements of earnings also do not give effect to certain initial separation costs. Accordingly, the unaudited condensed pro forma consolidated financial statements of New Metavante are not representative of New Metavante's future financial position, future results of operations or future cash flows nor do they reflect what New Metavante's financial position, result of operations or cash flows would have been as a stand-alone company during the periods presented. See Management's Discussion and Analysis of Financial Condition and Results of Operations of Metavante and Unaudited Condensed Pro Forma Consolidated Financial Statements of New Metavante beginning on pages 293 and 320, respectively, and the historical consolidated financial statements of Metavante and the notes to those statements included elsewhere in this proxy statement/prospectus information statement.

Table of Contents

The historical consolidated financial information of Marshall & Ilsley and the unaudited condensed pro forma consolidated financial information of New Marshall & Ilsley are not representative of New Marshall & Ilsley's future financial position, future results of operations or future cash flows nor do they reflect what New Marshall & Ilsley's financial position, results of operations or cash flows would have been as a stand-alone company during the periods presented.

As noted elsewhere in this proxy statement/prospectus information statement, New Marshall & Ilsley will be considered the divesting entity in the transactions and treated as the accounting successor to Marshall & Ilsley for financial reporting purposes in accordance with EITF No. 02-11. After the transactions occur, New Marshall & Ilsley will report the historical consolidated results of operations of Metavante as discontinued operations in accordance with the provisions of SFAS No. 144. Pursuant to SFAS No. 144, this presentation is not permitted until the closing date. Because the historical consolidated financial information of Marshall & Ilsley included elsewhere in this proxy statement/prospectus information statement includes the results of Metavante, it is not representative of New Marshall & Ilsley's future financial position, future results of operations or future cash flows nor does it reflect what New Marshall & Ilsley's financial position, results of operations or cash flows would have been as a stand-alone company during the periods presented.

The unaudited condensed pro forma consolidated financial information of New Marshall & Ilsley included in this proxy statement/prospectus information statement includes adjustments to reflect the divestiture of Metavante. The pro forma adjustments are based upon available information and assumptions that New Marshall & Ilsley believes are reasonable; however, its assumptions may not prove to be accurate. In addition, the unaudited condensed pro forma consolidated financial statements of New Marshall & Ilsley do not give effect to on going additional costs that it expects to incur in connection with being a stand-alone company. The unaudited condensed pro forma consolidated statements of earnings also do not give effect to certain initial separation costs. Accordingly, the unaudited condensed pro forma consolidated financial statements of New Marshall & Ilsley are not representative of New Marshall & Ilsley's future financial position, future results of operations or future cash flows nor do they reflect what New Marshall & Ilsley's financial position, results of operations or cash flows would have been as a stand-alone company during the periods presented. See Management's Discussion and Analysis of Financial Condition and Results of Operations of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) and Unaudited Condensed Pro Forma Consolidated Financial Statements of New Marshall & Ilsley beginning on pages 161 and 225, respectively, and the historical consolidated financial statements of Marshall & Ilsley and the notes to those statements included elsewhere in this proxy statement/prospectus information statement.

Neither New Metavante nor New Marshall & Ilsley may realize the anticipated benefits from the transactions.

The success of the transactions will depend, in part, on the ability of each of New Marshall & Ilsley and New Metavante to realize the anticipated benefits of the transactions.

These anticipated benefits include the availability of increased capital for both New Marshall & Ilsley and New Metavante to continue their internal growth and acquisition strategies, the ability of New Marshall & Ilsley and New Metavante to use their capital stock as a form of currency in respect of certain acquisitions and equity-based compensation arrangements and the better alignment of employee incentive awards. Neither New Marshall & Ilsley nor New Metavante can assure you these benefits will occur.

The separation of New Marshall & Ilsley and New Metavante may present significant challenges.

There is a significant degree of difficulty and management distraction inherent in the process of separating New Marshall & Ilsley and New Metavante. These difficulties include:

the challenge of effecting the separation while carrying on the ongoing operations of each business;

preserving customer, distribution, supplier and other important relationships of each business;

Table of Contents

the potential difficulty in retaining key officers and personnel of each company; and

separating corporate infrastructure, including systems, insurance, accounting, legal, finance, tax and human resources, for each of the two new public companies.

New Marshall & Ilsley and New Metavante may not successfully or cost-effectively separate the companies. The failure to do so could have an adverse effect on each of New Marshall & Ilsley's and New Metavante's business, financial condition and results of operations.

The process of separating operations could cause an interruption of, or loss of momentum in, the activities of either or both of New Marshall & Ilsley's and New Metavante's businesses. Members of each of New Marshall & Ilsley's and New Metavante's senior management will be required to devote considerable amounts of time to this separation process, which will decrease the time they will have to manage their respective businesses, service existing customers, attract new customers and develop new products or strategies. If New Marshall & Ilsley's and New Metavante's respective senior managements are not able to manage effectively the separation process, or if any significant business activities are interrupted as a result of the separation process, New Marshall & Ilsley's or New Metavante's business could suffer.

As separate entities, New Marshall & Ilsley and New Metavante will not enjoy all of the benefits of scale that Marshall & Ilsley achieves with the combined banking and Metavante businesses.

Currently, Marshall & Ilsley benefits from the scope and scale of the banking and Metavante businesses in certain areas, including, among other things, risk management, employee benefits, regulatory compliance, administrative services, legal support and human resources. The loss by New Marshall & Ilsley and New Metavante of these benefits as a consequence of the transactions could have an adverse effect on each of New Marshall & Ilsley's and New Metavante's respective businesses, results of operations and financial conditions following completion of the transactions. In addition, it is possible that some costs will be greater at the separate companies than they were for the combined company due to the loss of volume discounts and the position of being a large customer to service providers and vendors.

If the New Marshall & Ilsley share distribution does not constitute a tax-free distribution under Section 355 of the Internal Revenue Code or the holding company merger and Marshall & Ilsley LLC conversion do not qualify as a reorganization under Section 368(a) of the Internal Revenue Code, then New Marshall & Ilsley or New Metavante and Marshall & Ilsley shareholders may be responsible for payment of significant U.S. federal income taxes.

The completion of the New Marshall & Ilsley share distribution is conditioned upon the receipt of (i) a private letter ruling from the Internal Revenue Service to the effect that the Marshall & Ilsley contribution and the New Marshall & Ilsley share distribution qualify as a reorganization under Section 368(a)(1)(D) of the Internal Revenue Code and a distribution eligible for nonrecognition under Sections 355(a) and 361(c) of the Internal Revenue Code, (ii) with respect to certain requirements for tax-free treatment under Section 355 of the Internal Revenue Code on which the Internal Revenue Service will not rule, an opinion of Sidley Austin, counsel to Marshall & Ilsley (or another law firm of national standing), to the effect that such requirements will be satisfied and (iii) a private letter ruling from the Internal Revenue Service to the effect that the holding company merger and Marshall & Ilsley LLC conversion qualify as a reorganization under Section 368(a) of the Internal Revenue Code. The private letter ruling (which was received on September 12, 2007) and the opinion of counsel are or will be based, in part, on assumptions and representations as to factual matters made by, among others, Marshall & Ilsley, New Metavante and Investor, as requested by the Internal Revenue Service or counsel, which, if incorrect, could jeopardize the conclusions reached by the Internal Revenue Service and counsel. The private letter ruling does not address certain material legal issues that could affect its conclusions, and reserves the right of the Internal Revenue Service to raise such issues upon a subsequent audit. Opinions of counsel neither bind the Internal Revenue Service or any court, nor preclude the Internal Revenue Service from adopting a contrary position.

If the New Marshall & Ilsley share distribution does not qualify as a tax-free distribution under Section 355 of the Internal Revenue Code, New Metavante would recognize taxable gain equal to the excess of the fair market value of the New Marshall & Ilsley common stock distributed to the New Metavante shareholders over New

Table of Contents

Metavante's tax basis in the New Marshall & Ilsley common stock. In addition, each New Metavante shareholder who receives New Marshall & Ilsley common stock in the New Marshall & Ilsley share distribution would generally be treated as receiving a taxable distribution to the extent of earnings and profits of New Metavante in an amount equal to the fair market value of the New Marshall & Ilsley common stock received.

In the event that New Metavante recognizes a taxable gain in connection with the New Marshall & Ilsley share distribution because the New Marshall & Ilsley share distribution does not qualify as a tax-free distribution under Section 355 of the Internal Revenue Code, the taxable gain recognized by New Metavante would result in significant U.S. federal income tax liabilities to New Metavante. Under the Internal Revenue Code, New Metavante would be primarily liable for these taxes and New Marshall & Ilsley would be secondarily liable. Under the terms of the tax allocation agreement between New Metavante, Metavante, New Marshall & Ilsley and Marshall & Ilsley, New Marshall & Ilsley will generally be required to indemnify New Metavante against any such taxes unless such taxes would not have been imposed but for an act of New Metavante or its affiliates (including Investor), subject to specified exceptions. See *Additional Agreements Relating to the New Marshall & Ilsley Share Distribution Tax Allocation Agreement* beginning on page 133.

If the holding company merger and Marshall & Ilsley LLC conversion, as defined under *The Transactions Description of the Transactions*, do not qualify as a tax-free reorganization under Section 368(a) of the Internal Revenue Code, each Marshall & Ilsley shareholder who receives New Metavante common stock in exchange for Marshall & Ilsley common stock would recognize taxable gain or loss equal to the difference between the fair market value of the New Metavante common stock received and such shareholder's basis in the Marshall & Ilsley common stock exchanged therefor.

The New Marshall & Ilsley share distribution may be taxable to New Metavante and New Marshall & Ilsley if there is an acquisition of 50% or more of the outstanding common stock of New Marshall & Ilsley or New Metavante.

Even if the New Marshall & Ilsley share distribution otherwise qualifies as a tax-free distribution under Section 355 of the Internal Revenue Code, the distribution of New Marshall & Ilsley common stock to New Metavante shareholders in connection with the New Marshall & Ilsley share distribution would result in significant U.S. federal income tax liabilities to New Metavante, (but not Marshall & Ilsley shareholders), if there is an acquisition of stock of New Marshall & Ilsley or New Metavante as part of a plan or series of related transactions that includes the New Marshall & Ilsley share distribution and that results in an acquisition of 50% or more of the outstanding common stock of New Marshall & Ilsley or New Metavante.

For purposes of determining whether the distribution of New Marshall & Ilsley common stock to New Metavante shareholders in connection with the New Marshall & Ilsley share distribution is disqualified as tax-free to New Metavante under the rules described in the preceding paragraph, any acquisitions of the stock of New Marshall & Ilsley or New Metavante within two years before or after the New Marshall & Ilsley share distribution are presumed to be part of a plan, although the parties may be able to rebut that presumption. For purposes of this test, the investment by Investor will be treated as part of such a plan or series of transactions. Under the terms of the investment agreement, Investor will acquire 25% of New Metavante common stock. Thus, an additional 25% change in the ownership of the New Metavante common stock could trigger a significant tax liability for New Metavante under Section 355 of the Internal Revenue Code (for which New Marshall & Ilsley may be required to indemnify New Metavante under the tax allocation agreement unless such taxes would not have been imposed but for specified acts of New Metavante or its affiliates (including Investor)).

The process for determining whether a prohibited change in control has occurred under the rules is complex, inherently factual and subject to interpretation of the facts and circumstances of a particular case. If New Marshall & Ilsley or New Metavante does not carefully monitor its compliance with these rules, it might inadvertently cause or permit a prohibited change in the ownership of New Metavante or of New Marshall & Ilsley to occur, thereby triggering New Marshall & Ilsley's or New Metavante's respective obligations to

Table of Contents

indemnify the other pursuant to the tax allocation agreement, which could have a material adverse effect on New Metavante and/or New Marshall & Ilsley. New Metavante will be primarily liable for these taxes, and there can be no assurance that New Marshall & Ilsley would be able to fulfill its obligations under the tax allocation agreement if New Marshall & Ilsley was determined to be responsible for these taxes thereunder. In addition, these mutual indemnity obligations could discourage or prevent a third party from making a proposal to acquire either party. See Material U.S. Federal Income Tax Consequences of the Holding Company Merger, the New Marshall & Ilsley Share Distribution and Related Transactions beginning on page 102.

In the event that New Metavante recognizes a taxable gain in connection with the New Marshall & Ilsley share distribution because of an acquisition of 50% or more of the outstanding common stock of New Marshall & Ilsley or New Metavante as part of a plan or series of related transactions that includes the New Marshall & Ilsley share distribution, the taxable gain recognized by New Metavante would result in significant U.S. federal income tax liabilities to New Metavante. Under the Internal Revenue Code, New Metavante would be primarily liable for these taxes and New Marshall & Ilsley would be secondarily liable. Pursuant to the tax allocation agreement, these liabilities have been apportioned as described below under Additional Agreements Relating to the New Marshall & Ilsley Share Distribution Tax Allocation Agreement.

Under U.S. federal bankruptcy laws or comparable provisions of state fraudulent transfer laws, you could be required to return all or a portion of the cash and shares received in the distributions.

If New Metavante is insolvent or rendered insolvent as a result of the distributions to the holders of New Metavante common stock, or if any of New Metavante and/or one or more of its subsidiaries that incurs a portion of the approximately \$1.75 billion of indebtedness in connection with the debt financing is insolvent or rendered insolvent either as a result of the incurrence of the indebtedness or the ultimate dividend/transfer of the proceeds of such indebtedness to New Metavante, there is a risk that a creditor (or a creditor representative) of New Metavante or Metavante could bring fraudulent transfer claims to recover all or a portion of the New Marshall & Ilsley common stock received in the New Marshall & Ilsley share distribution and that the persons receiving such distributions would be required to return all or a portion of such distributions if such claims were successful. See The Transactions Restrictions on Payment of Dividends beginning on page 66 for a general description of insolvency measures. It is a condition to the completion of the transactions that the boards of directors or similar bodies of Marshall & Ilsley, New Metavante and Metavante have received opinions of a valuation firm with respect to their solvency.

The loss of the assets, revenue and cash flows of each of New Marshall & Ilsley and New Metavante may adversely affect the financial position and results of operations of the other company.

The assets, revenue, cash flows and results of operations of each of New Marshall & Ilsley and New Metavante are currently included in the consolidated financial statements of Marshall & Ilsley. If the transactions are completed, the assets, revenue, cash flows and results of operations of each of New Marshall & Ilsley and New Metavante will no longer be included in the consolidated financial statements of New Metavante or New Marshall & Ilsley, respectively, and the financial position and results of operations of each company will therefore be significantly different than they were prior to completion of the transactions and, following completion of the transactions, each will have fewer assets and less revenue and cash flows than Marshall & Ilsley currently has on a consolidated basis. For the six months ended June 30, 2007, Metavante's business represented approximately 25.5% of the total consolidated revenues of Marshall & Ilsley and 21.1% of the consolidated net income of Marshall & Ilsley.

The aggregate market value of the shares of common stock of New Marshall & Ilsley and New Metavante held by a former Marshall & Ilsley shareholder following completion of the transactions might be less than (i) the market value of Marshall & Ilsley common stock held by such holder prior to the transactions or (ii) what the market value of the Marshall & Ilsley common stock held by such holder would have been without the transactions.

If the parties complete the transactions, Marshall & Ilsley's shareholders will receive three shares of New Marshall & Ilsley common stock and one share of New Metavante common stock for every three shares of

Table of Contents

Marshall & Ilsley common stock held. The aggregate market value of the shares of New Metavante and the shares of New Marshall & Ilsley common stock immediately following completion of the transactions could be less than what the market value of the shares of Marshall & Ilsley common stock (i) would have been if the transactions were not completed or (ii) was immediately prior to the transactions.

The trading price and trading volume of New Marshall & Ilsley and New Metavante common stock may be more volatile following completion of the transactions.

Marshall & Ilsley cannot predict how investors who hold shares of Marshall & Ilsley common stock prior to the completion of the transactions will behave after completion of the transactions. The trading price for shares of common stock of each of New Marshall & Ilsley and New Metavante following completion of the transactions may be more volatile than the trading price of shares of Marshall & Ilsley common stock before completion of the transactions. The trading price of shares of each company's common stock could fluctuate significantly for many reasons, including the risks identified in this proxy statement/prospectus-information statement, selling by existing holders of Marshall & Ilsley common stock who decide that they do not want to hold some or all of their New Metavante and/or New Marshall & Ilsley securities after the completion of the transactions, or reasons unrelated to either of New Marshall & Ilsley's or New Metavante's performance. In addition, New Marshall & Ilsley's common stock may not continue to be included in the S&P 500 Index, which could ultimately result in reduced trading volume relative to the historic trading volume of Marshall & Ilsley. It is not anticipated that New Metavante's common stock will be included as part of the S&P 500 Index, which may cause mutual funds or other investment entities based on a replication of that index to sell the New Metavante common stock and thereby reduce its trading volume and affect its trading price. These factors and other factors beyond either New Marshall & Ilsley's or New Metavante's control may result in reduced trading volume and/or increased volatility in either company's common stock and/or short- or long-term reductions in the value of New Marshall & Ilsley and/or New Metavante securities.

If the transactions are completed, any financing New Marshall & Ilsley or New Metavante obtains in the future could involve higher costs.

Following completion of the transactions, any financing that either New Marshall & Ilsley or New Metavante obtains will be with the support of a reduced pool of diversified assets and a significant amount of outstanding debt, and therefore either company may not be able to secure adequate debt or equity financing on desirable terms. The cost to either New Marshall & Ilsley or New Metavante of financing without New Metavante or New Marshall & Ilsley, respectively, may, or in the case of New Metavante, will be materially higher than the cost of financing of Marshall & Ilsley prior to the transactions. Because of the significant amount of debt New Metavante will have following completion of the transactions, it is likely it will have a lower credit rating than Marshall & Ilsley currently has. If either New Marshall & Ilsley or New Metavante has a credit rating lower than Marshall & Ilsley's, it will be more expensive for them to obtain debt financing than it has been for Marshall & Ilsley.

Failure to complete the transactions could adversely impact the market price of Marshall & Ilsley as well as Marshall & Ilsley's business and operating results.

If the transactions are not completed for any reason, the price of Marshall & Ilsley common stock may decline to the extent that the market price of Marshall & Ilsley common stock reflects positive assumptions that the transactions will be completed and the related benefits will be realized. Marshall & Ilsley may also be subject to additional risks if the transactions are not completed, including:

depending on the reasons for termination of the investment agreement, the requirement that Marshall & Ilsley pay Investor a termination fee of \$75 million;

substantial costs related to the transactions, such as legal, accounting, registration, advisory and printing fees, must be paid regardless of whether the transactions are completed; and

Table of Contents

potential disruption to the business of Marshall & Ilsley and distraction of its workforce and management team.

Risks Relating to Marshall & Ilsley and New Marshall & Ilsley

In addition to the risks set forth under Risks Relating to the Transactions, Marshall & Ilsley faces, and therefore New Marshall & Ilsley will face after the closing of the transactions, the following risks in connection with its business.

Marshall & Ilsley's earnings are significantly affected by general business and economic conditions, including credit risk and interest rate risk.

Marshall & Ilsley's business and earnings are sensitive to general business and economic conditions in the United States and, in particular, the states where it has significant operations, including Wisconsin, Arizona, Minnesota, Missouri, Oklahoma, Kansas, Nevada and Florida. These conditions include short-term and long-term interest rates, inflation, monetary supply, fluctuations in both debt and equity capital markets, the strength of the U.S. and local economies, consumer spending, borrowing and saving habits, all of which are beyond Marshall & Ilsley's control. For example, an economic downturn, increase in unemployment or higher interest rates could decrease the demand for loans and other products and services and/or result in a deterioration in credit quality and/or loan performance and collectibility. Nonpayment of loans, if it occurs, could have an adverse effect on Marshall & Ilsley's financial condition and results of operations and cash flows. Higher interest rates also could increase Marshall & Ilsley's cost to borrow funds and increase the rate Marshall & Ilsley pays on deposits.

Terrorism, acts of war or international conflicts could negatively affect Marshall & Ilsley's business and financial condition.

Acts or threats of war or terrorism, international conflicts, including ongoing military operations in Iraq and Afghanistan, and the actions taken by the U.S. and other governments in response to such events could negatively impact general business and economic conditions in the U.S. If terrorist activity, acts of war or other international hostilities cause an overall economic decline, the financial condition and operating results of Marshall & Ilsley could be materially adversely affected. The potential for future terrorist attacks, the national and international responses to terrorist attacks or perceived threats to national security and other actual or potential conflicts or acts of war, including conflict in the Middle East, have created many economic and political uncertainties that could seriously harm Marshall & Ilsley's business and results of operations in ways that cannot presently be predicted.

Marshall & Ilsley's earnings also are significantly affected by the fiscal and monetary policies of the federal government and its agencies, which could affect repayment of loans and thereby materially adversely affect Marshall & Ilsley.

The policies of the Federal Reserve Board impact Marshall & Ilsley significantly. The Federal Reserve Board regulates the supply of money and credit in the United States. Its policies directly and indirectly influence the rate of interest earned on loans and paid on borrowings and interest-bearing deposits and can also affect the value of financial instruments Marshall & Ilsley holds. Those policies determine to a significant extent Marshall & Ilsley's cost of funds for lending and investing. Changes in those policies are beyond Marshall & Ilsley's control and are difficult to predict. Federal Reserve Board policies can affect Marshall & Ilsley's borrowers, potentially increasing the risk that they may fail to repay their loans. For example, a tightening of the money supply by the Federal Reserve Board could reduce the demand for a borrower's products and services. This could adversely affect the borrower's earnings and ability to repay its loan, which could materially adversely affect Marshall & Ilsley.

The banking and financial services industry is highly competitive, which could adversely affect Marshall & Ilsley's financial condition and results of operations.

Marshall & Ilsley operates in a highly competitive environment in the products and services Marshall & Ilsley offers and the markets in which Marshall & Ilsley serves. The competition among financial services

Table of Contents

providers to attract and retain customers is intense. Customer loyalty can be easily influenced by a competitor's new products, especially offerings that provide cost savings to the customer. Some of Marshall & Ilsley's competitors may be better able to provide a wider range of products and services over a greater geographic area.

Marshall & Ilsley believes the banking and financial services industry will become even more competitive as a result of legislative, regulatory and technological changes and the continued consolidation of the industry. Technology has lowered barriers to entry and made it possible for non-banks to offer products and services traditionally provided by banks, such as automatic funds transfer and automatic payment systems. Also, investment banks and insurance companies are competing in more banking businesses such as syndicated lending and consumer banking. Many of Marshall & Ilsley's competitors are subject to fewer regulatory constraints and have lower cost structures. Marshall & Ilsley expects the consolidation of the banking and financial services industry to result in larger, better-capitalized companies offering a wide array of financial services and products.

Federal and state agency regulation could increase Marshall & Ilsley's cost structures or have other negative effects on Marshall & Ilsley.

Marshall & Ilsley, its subsidiary banks and many of its non-bank subsidiaries are heavily regulated at the federal and state levels. This regulation is designed primarily to protect consumers, depositors and the banking system as a whole, not stockholders. Congress and state legislatures and federal and state regulatory agencies continually review banking laws, regulations and policies for possible changes. Changes to statutes, regulations or regulatory policies, including changes in interpretation or implementation of statutes, regulations or policies, could affect Marshall & Ilsley in substantial and unpredictable ways, including limiting the types of financial services and products Marshall & Ilsley may offer, increasing the ability of non-banks to offer competing financial services and products and/or increasing Marshall & Ilsley's cost structures. Also, Marshall & Ilsley's failure to comply with laws, regulations or policies could result in sanctions by regulatory agencies and damage to its reputation.

Marshall & Ilsley is subject to examinations and challenges by tax authorities, which, if not resolved in Marshall & Ilsley's favor, could adversely affect Marshall & Ilsley's financial condition and results of operations and cash flows.

In the normal course of business, Marshall & Ilsley and its affiliates are routinely subject to examinations and challenges from federal and state tax authorities regarding the amount of taxes due in connection with investments it has made and the businesses in which it is engaged. Recently, federal and state taxing authorities have become increasingly aggressive in challenging tax positions taken by financial institutions. These tax positions may relate to tax compliance, sales and use, franchise, gross receipts, payroll, property and income tax issues, including tax base, apportionment and tax credit planning. The challenges made by tax authorities may result in adjustments to the timing or amount of taxable income or deductions or the allocation of income among tax jurisdictions. If any such challenges are made and are not resolved in Marshall & Ilsley's favor, they could have an adverse effect on Marshall & Ilsley's financial condition and results of operations and cash flows.

Consumers may decide not to use banks to complete their financial transactions, which could result in a loss of income to Marshall & Ilsley.

Technology and other changes are allowing parties to complete financial transactions that historically have involved banks at one or both ends of the transaction. For example, consumers can now pay bills and transfer funds directly without banks. The process of eliminating banks as intermediaries, known as disintermediation, could result in the loss of fee income, as well as the loss of customer deposits and income generated from those deposits.

Maintaining or increasing Marshall & Ilsley's market share depends on market acceptance and regulatory approval of new products and services and other factors, and Marshall & Ilsley's failure to achieve such acceptance and approval could harm its market share.

Marshall & Ilsley's success depends, in part, on its ability to adapt its products and services to evolving industry standards and to control expenses. There is increasing pressure on financial services companies to

Table of Contents

provide products and services at lower prices. This can reduce Marshall & Ilsley's net interest margin and revenues from its fee-based products and services. In addition, Marshall & Ilsley's success depends in part on its ability to generate significant levels of new business in its existing markets and in identifying and penetrating markets. Growth rates for card-based payment transactions and other product markets may not continue at recent levels. Further, the widespread adoption of new technologies, including Internet-based services, could require Marshall & Ilsley to make substantial expenditures to modify or adapt its existing products and services or render Marshall & Ilsley's existing products obsolete. Marshall & Ilsley may not successfully introduce new products and services, achieve market acceptance of its products and services, develop and maintain loyal customers and/or break into targeted markets.

Marshall & Ilsley relies, and New Marshall & Ilsley will rely, on dividends from its subsidiaries for most of its revenue, and the banking subsidiaries hold a significant portion of their assets indirectly.

Marshall & Ilsley is a separate and distinct legal entity from its subsidiaries. It receives substantially all of its revenue from dividends from its subsidiaries and Marshall & Ilsley is dependent on these dividends as the principal source of funds to pay dividends on Marshall & Ilsley's common stock and interest on its debt, if any. These dividends will continue to be the principal source of funds to pay dividends on New Marshall & Ilsley's common stock and interest on its debt, if any. The payment of dividends by a subsidiary is subject to federal law restrictions as well as to the laws of the subsidiary's state of incorporation. Also, a parent company's right to participate in a distribution of assets upon a subsidiary's liquidation or reorganization is subject to the prior claims of the subsidiary's creditors. In addition, Marshall & Ilsley's bank and savings association subsidiaries hold a significant portion of their mortgage loan and investment portfolios indirectly through their ownership interests in direct and indirect subsidiaries.

Marshall & Ilsley depends on the accuracy and completeness of information about customers and counterparties, and inaccurate or incomplete information could negatively impact Marshall & Ilsley's financial condition and results of operations.

In deciding whether to extend credit or enter into other transactions with customers and counterparties, Marshall & Ilsley may rely on information provided to it by customers and counterparties, including financial statements and other financial information. Marshall & Ilsley may also rely on representations of customers and counterparties as to the accuracy and completeness of that information and, with respect to financial statements, on reports of independent auditors. For example, in deciding whether to extend credit to a business, Marshall & Ilsley may assume that the customer's audited financial statements conform with generally accepted accounting principles, or GAAP, and present fairly, in all material respects, the financial condition, results of operations and cash flows of the customer. Marshall & Ilsley may also rely on the audit report covering those financial statements. Marshall & Ilsley's financial condition and results of operations could be negatively impacted to the extent it relies on financial statements that do not comply with GAAP or that are materially misleading.

Marshall & Ilsley's accounting policies and methods are the basis on which Marshall & Ilsley reports its financial condition and results of operations, and they may require management to make estimates about matters that are inherently uncertain.

Marshall & Ilsley's accounting policies and methods are fundamental to the manner in which Marshall & Ilsley records and reports its financial condition and results of operations. Marshall & Ilsley's management must exercise judgment in selecting and applying many of these accounting policies and methods in order to ensure that they comply with generally accepted accounting principles and reflect management's judgment as to the most appropriate manner in which to record and report Marshall & Ilsley's financial condition and results of operations. In some cases, management must select the accounting policy or method to apply from two or more alternatives, any of which might be reasonable under the circumstances yet might result in Marshall & Ilsley's reporting materially different amounts than would have been reported under a different alternative.

Marshall & Ilsley has identified four accounting policies as being critical to the presentation of its financial condition and results of operations because they require management to make particularly subjective

Table of Contents

and/or complex judgments about matters that are inherently uncertain and because of the likelihood that materially different amounts would be reported under different conditions or using different assumptions. These critical accounting policies relate to: (1) the allowance for loan and lease losses; (2) capitalized software and conversion costs; (3) financial asset sales and securitizations; and (4) income taxes. It is expected that these accounting policies, other than the policies with respect to capitalized software and conversion costs, will be critical to New Marshall & Ilsley after consummation of the transactions. Because of the inherent uncertainty of estimates about these matters, no assurance can be given that the application of alternative policies or methods might not result in Marshall & Ilsley's reporting materially different amounts.

More information on Marshall & Ilsley's critical accounting policies is contained in Management's Discussion and Analysis of Financial Condition and Results of Operations of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) beginning on page 161.

Changes in accounting standards could adversely affect Marshall & Ilsley's reported financial results.

The bodies that set accounting standards for public companies, including the Financial Accounting Standards Board (FASB), the SEC and others, periodically change or revise existing interpretations of the accounting and reporting standards that govern the way that Marshall & Ilsley reports its financial condition and results of operations. These changes can be difficult to predict and can materially impact Marshall & Ilsley's reported financial results. In some cases, Marshall & Ilsley could be required to apply a new or revised accounting standard, or a revised interpretation of an accounting standard, retroactively, which could have a negative impact on reported results or result in the restatement of Marshall & Ilsley's financial statements for prior periods.

Marshall & Ilsley has an active acquisition program, which involves risks related to integration of acquired companies or businesses and the potential for the dilution of the value of Marshall & Ilsley stock.

Marshall & Ilsley regularly explores opportunities to acquire banking institutions, financial technology providers and other financial services providers. Marshall & Ilsley cannot predict the number, size or timing of future acquisitions. Marshall & Ilsley typically does not publicly comment on a possible acquisition or business combination until it has signed a definitive agreement for the transaction. Once Marshall & Ilsley has signed a definitive agreement, transactions of this type are generally subject to regulatory approvals and other customary conditions. There can be no assurance Marshall & Ilsley will receive such regulatory approvals without unexpected delays or conditions or that such conditions will be timely met to Marshall & Ilsley's satisfaction, or at all.

Difficulty in integrating an acquired company or business may cause Marshall & Ilsley not to realize expected revenue increases, cost savings, increases in geographic or product presence, and/or other projected benefits from the acquisition. Specifically, the integration process could result in higher than expected deposit attrition (run-off), loss of customers and key employees, the disruption of Marshall & Ilsley's business or the business of the acquired company, or otherwise adversely affect Marshall & Ilsley's ability to maintain existing relationships with clients, employees and suppliers or to enter into new business relationships. Marshall & Ilsley may not be able to successfully leverage the combined product offerings to the combined customer base. These factors could contribute to Marshall & Ilsley not achieving the anticipated benefits of the acquisition within the desired time frames, if at all.

Future acquisitions could require Marshall & Ilsley, or New Marshall & Ilsley after the consummation of the transactions, to issue stock, to use substantial cash or liquid assets or to incur debt. In such cases, the value of Marshall & Ilsley stock or New Marshall & Ilsley stock could be diluted and they could become more susceptible to economic downturns and competitive pressures.

New Marshall & Ilsley will be restricted in its ability to issue equity for at least two years following completion of the transactions, which could limit its ability to make acquisitions or to raise capital required to service its debt and operate its business.

The amount of equity that New Marshall & Ilsley can issue to make acquisitions (excluding acquisitions with respect to which New Marshall & Ilsley can prove the absence of substantial negotiations) during

Table of Contents

applicable safe harbor periods) or raise additional capital will be limited for at least two years following completion of the transaction, except in limited circumstances. See “Material U.S. Federal Income Tax Consequences of the Holding Company Merger, the New Marshall & Ilsley Share Distribution and Related Transactions” beginning on page 102. These limitations may restrict the ability of New Marshall & Ilsley to carry out its business objectives and to take advantage of opportunities such as acquisitions that could supplement or grow Marshall & Ilsley’s business.

Marshall & Ilsley is dependent on senior management, and the loss of service of any of Marshall & Ilsley’s senior executive officers could cause Marshall & Ilsley’s business to suffer.

Marshall & Ilsley’s continued success depends to a significant extent upon the continued services of its senior management. The loss of services of any of Marshall & Ilsley’s senior executive officers could cause Marshall & Ilsley’s business to suffer. In addition, Marshall & Ilsley’s success depends in part upon senior management’s ability to implement Marshall & Ilsley’s business strategy.

Marshall & Ilsley’s stock price can be volatile.

Marshall & Ilsley’s stock price can fluctuate widely in response to a variety of factors including:

actual or anticipated variations in Marshall & Ilsley’s quarterly results;

new technology used or services offered by Marshall & Ilsley’s competitors;

unanticipated losses or gains due to unexpected events, including losses or gains on securities held for investment purposes;

significant acquisitions or business combinations, strategic partnerships, joint ventures or capital commitments by or involving Marshall & Ilsley or its competitors;

changes in accounting policies or practices;

failure to integrate Marshall & Ilsley’s acquisitions or realize anticipated benefits from Marshall & Ilsley’s acquisitions;

changes in government regulations; or

credit quality ratings.

General market fluctuations, industry factors and general economic and political conditions, such as economic slowdowns or recessions, interest rate changes, credit loss trends or currency fluctuations, also could cause Marshall & Ilsley’s stock price to decrease regardless of its operating results.

Marshall & Ilsley may be a defendant in a variety of litigation and other actions, which may have a material adverse effect on its business, operating results and financial condition.

Marshall & Ilsley and its subsidiaries may be involved from time to time in a variety of litigation arising out of Marshall & Ilsley’s business. Marshall & Ilsley’s insurance may not cover all claims that may be asserted against it, and any claims asserted against Marshall & Ilsley, regardless of merit or eventual outcome, may harm Marshall & Ilsley’s reputation. Should the ultimate judgments or settlements in any litigation exceed Marshall & Ilsley’s insurance coverage, they could have a material adverse effect on Marshall & Ilsley’s business, operating results and financial condition and cash flows. In addition, Marshall & Ilsley may not be able to obtain appropriate types or levels of insurance in the future,

nor may Marshall & Ilsley be able to obtain adequate replacement policies with acceptable terms, if at all.

Risks Relating to Metavante and New Metavante

In addition to the risks set forth under Risks Relating to the Transactions, New Metavante, together with Metavante and its other subsidiaries, will also face the following risks in connection with its business.

Table of Contents

Ongoing consolidation within the banking and financial services industry could adversely affect financial results.

Ongoing consolidation within the banking and financial services industry could result in a smaller number of purchasers for Metavante's products and services. As banks and other financial services providers consolidate, they may experience a realignment of management responsibilities and a reexamination of strategic and purchasing decisions and Metavante may lose relationships with key constituencies within its clients' organizations due to budget cuts, layoffs or other disruptions. In addition, acquiring institutions may have their own in-house systems or outsource to competitors. The loss of business due to consolidation, in particular the loss of a large client due to consolidation, such as New Marshall & Ilsley, could have a material adverse effect on New Metavante's business, operating results and financial condition.

Effect of business cycles and other risks in the banking industry.

Metavante's revenues are heavily dependent on services it provides to the banking industry and related financial service providers. To the extent that the health and stability of the banking industry are adversely affected by business cycles in general or business conditions that affect the banking industry in particular, Metavante's revenues and profits may also be adversely affected due to reduced expenditures for Metavante's products and services by banks and related financial service providers. In addition, Metavante's revenue and profits, including organic growth, are dependent on its banking clients' ability to acquire, activate and retain customers.

New Metavante's accounting and other management systems and resources may not be adequately prepared to meet the financial reporting and other requirements to which it will be subject following the transactions. If New Metavante is unable to achieve and maintain effective internal controls, its business, financial position and results of operations could be adversely affected.

Metavante's financial results previously were included within the consolidated results of Marshall & Ilsley and its reporting and control systems were appropriate for those of a subsidiary of a public company. However, Metavante was not directly subject to reporting and other requirements of the Securities Exchange Act of 1934, as amended, which we refer to as the Exchange Act. As a result of the transactions, New Metavante will be directly subject to reporting and other obligations under the Exchange Act, including the requirements of Section 404 of the Sarbanes-Oxley Act of 2002. New Metavante will be required to comply with Section 404 of the Sarbanes-Oxley Act beginning with its annual report on Form 10-K for the fiscal year ended December 31, 2008, the second annual report after New Metavante commences reporting under the Exchange Act. Although Metavante has been subject to this type of review as a subsidiary of Marshall & Ilsley, the level of review required as an independent company will be higher in the future due to Metavante's smaller size and a consequent lower level of materiality in the review process. These reporting and other obligations will place significant demands on New Metavante's management and administrative and operational resources, including accounting resources.

To comply with these requirements, it is anticipated that New Metavante will need to upgrade its systems, including information technology, implement additional financial and management controls, reporting systems and procedures and hire additional legal, accounting and finance staff. If New Metavante is unable to upgrade its financial and management controls, reporting systems, information technology and procedures and hire additional staff in a timely and effective fashion, New Metavante's ability to comply with its financial reporting requirements and other rules that apply to reporting companies could be impaired. In addition, if New Metavante is unable to conclude that its internal control over financial reporting is effective (or if the auditors are unable to attest that management's report is fairly stated or they are unable to express an opinion on management's assessment or on the effectiveness of the internal controls), New Metavante could lose investor confidence in the accuracy and completeness of its financial reports. Therefore any failure to achieve and maintain effective internal controls could have an adverse effect on New Metavante's business, financial position and results of operations.

Table of Contents

New Metavante has no history as a stand-alone public company and may be unable to make the changes necessary to operate effectively as a public entity.

There can be no assurance that the separation from Marshall & Ilsley and the resulting absence of general administrative assistance will not have an adverse impact on the business, financial condition and results of operations of New Metavante. Following completion of the transactions, apart from a limited number of services to be provided by Marshall & Ilsley to New Metavante on a transitional basis, New Marshall & Ilsley will have no obligation to provide financial, operational, organizational or any other assistance to New Metavante, Metavante or any of New Metavante's or Metavante's subsidiaries. Among other things, as an independent entity, New Metavante will be subject to, and responsible for, regulatory compliance, including periodic and other public filings with the SEC and compliance with listing requirements, as well as generally applicable tax and accounting rules. New Metavante may not be able to implement successfully the changes necessary to operate as an independent public entity.

New Metavante will be dependent upon New Marshall & Ilsley and New Metavante's distributors for a significant portion of its business.

Metavante derives a significant portion of its revenues from Marshall & Ilsley and its subsidiaries and after consummation of the transactions New Metavante will continue to derive a significant portion of its revenues from New Marshall & Ilsley and its subsidiaries. For the year ended December 31, 2006, and the six months ended June 30, 2007, revenues from Marshall & Ilsley represented approximately 8.1% and 7.9% of New Metavante's total revenues, respectively. New Marshall & Ilsley is expected to continue to be a significant client. If Metavante were to lose New Marshall & Ilsley as a client, New Metavante's business, operating results and financial condition would be materially adversely affected.

Metavante has agreed to provide technology outsourcing and payment services to New Marshall & Ilsley through July 1, 2014, under a technology outsourcing agreement. In addition, under a separate subcontractor agreement, New Marshall & Ilsley has agreed to provide services as a Metavante subcontractor for Metavante's business process outsourcing and item processing customers through July 1, 2014. Under the trust services agreement in effect through July 1, 2014, New Marshall & Ilsley has agreed to promote Metavante's trust processing services in conjunction with its custodial services and Metavante will promote New Marshall & Ilsley's custodial services in conjunction with its trust processing services.

Metavante has entered into non-exclusive distribution agreements with several home banking providers, all of which resell its electronic bill payment services as part of their home banking offerings. To the extent that acquisitions or other consolidations occur within this industry, the demand for Metavante's services may be adversely affected.

Debt incurred in connection with the transactions could adversely affect New Metavante's operations and financial condition.

New Metavante will have significant debt as a result of the transactions. New Metavante and/or one or more of its subsidiaries will incur approximately \$1.75 billion of debt, all of which will be used to (i) pay off approximately \$982 million of intercompany indebtedness plus accrued and unpaid interest owed to Marshall & Ilsley, (ii) fund a portion of the \$1.665 billion in cash to be contributed to New Marshall & Ilsley and (iii) pay expenses relating to the transactions, and will have a \$250 million revolving credit facility. In addition, debt incurred in connection with the transactions generally will be at higher rates of interest than Marshall & Ilsley would have paid. On a pro forma basis, assuming that the financings occurred on June 30, 2007, New Metavante would have had approximately \$1.75 billion of outstanding indebtedness and its ratio of indebtedness to total capital and earnings to fixed charges would have been 85% and 2.41, respectively.

Table of Contents

Such indebtedness, coupled with the restrictions on the ability of New Metavante to issue equity securities following completion of the transactions without jeopardizing the intended tax consequences of the transactions, could have adverse consequences for New Metavante's business, financial condition and results of operations, such as:

making more difficult the satisfaction of its obligations to its lenders, resulting in possible defaults on and acceleration of such indebtedness;

limiting its ability to obtain additional financing to fund growth, working capital, capital expenditures, debt service requirements, acquisitions or other cash requirements;

limiting its operational flexibility in planning for or reacting to changing conditions in its business and industry;

requiring dedication of a substantial portion of its cash flows from operations (estimated at approximately 43% for 2008) to make payments on its debt, which would reduce the availability of such cash flows to fund working capital, capital expenditures and other general corporate purposes;

limiting its ability to compete with companies that are not as highly leveraged, or whose debt is at more favorable interest rates and that, as a result, may be better positioned to withstand economic downturns; and

increasing its vulnerability to economic downturns and changing market conditions or preventing New Metavante from carrying out capital spending that is necessary or important to its growth strategy and efforts to improve operating margins.

New Metavante expects to pay its expenses and to pay the principal and interest on its or its subsidiaries' outstanding debt with funds generated by its operations. New Metavante's ability to meet its expenses and debt service obligations will depend on its future performance, which will be affected by the factors discussed in this section, among others. If New Metavante does not have enough money to pay its debt service obligations, it may be required to refinance all or part of its existing debt, sell assets or borrow more money. New Metavante may not be able to, at any given time, refinance its debt, sell assets or borrow more money on terms acceptable to it or at all, the failure to do any of which could have adverse consequences for New Metavante's business, financial condition and results of operations.

The agreements governing indebtedness that New Metavante expects to enter into in connection with the transactions will contain restrictions and limitations that could significantly impact New Metavante's ability to operate its business.

New Metavante expects that the agreements governing the indebtedness that it and/or its subsidiaries will incur in connection with the transactions will contain covenants that, among other things, will limit the ability of New Metavante and/or one or more of its subsidiaries to incur additional debt or guaranties, grant liens, pay dividends or redeem stock, make investments or acquisitions, sell assets, engage in affiliate transactions, prepay or change the terms of certain debt, change its lines of business, the ratio of debt to EBITDA, and the uses of its cash flow, asset sales, or other debt.

Various risks, uncertainties and events beyond New Metavante's control could affect its ability to comply with the covenants contained in the credit agreement. Failure to comply with any of the covenants in existing or future financing agreements could result in a default under those agreements and under other agreements containing cross-default provisions. A default would permit lenders to accelerate the maturity of the debt under these agreements and to foreclose upon any collateral securing the debt. Under these circumstances, New Metavante might not have sufficient funds or other resources to satisfy all of its obligations. In addition, the limitations imposed by financing agreements on the ability of New Metavante and/or its subsidiaries to incur additional debt and to take other actions might significantly impair their ability to obtain other financing. New Metavante and/or its subsidiaries cannot assure you that they will be granted waivers or amendments to these agreements if for any reason they are unable to comply with these agreements, or that they will be able to refinance their debt on terms acceptable to New Metavante, or at all.

Table of Contents

Although the terms of its credit agreement have not been finalized and are subject to changes that may be material, New Metavante expects that restrictions in the credit agreement may prevent New Metavante and/or its subsidiaries from taking actions that would be in the best interest of its business, and may make it difficult successfully to execute its business strategy or effectively compete with companies that are not similarly restricted.

New Metavante and/or its subsidiaries may also incur future debt obligations that might subject them to additional restrictive covenants that could affect New Metavante's financial and operational flexibility. In particular, New Metavante may not be subject to some or all of the restrictions on incurrence of indebtedness to which Metavante and/or one or more of its subsidiaries will be subject under the credit agreement. If additional debt is added to the debt levels that will exist upon completion of the transactions, the related risks that New Metavante now faces would increase.

The failure of New Metavante to comply with the covenants contained in the agreements governing indebtedness that New Metavante expects to enter into in connection with the transactions could result in an event of default and lead to acceleration of New Metavante's indebtedness.

The failure of New Metavante to comply with the covenants and other requirements contained in the agreements governing indebtedness that New Metavante expects to enter into in connection with the transactions could cause an event of default under such agreements. The occurrence of an event of default would permit the holders of the defaulted debt to declare all of their commitments under such agreements terminated and all amounts outstanding with respect to that debt immediately due and payable. The assets or cash flows of New Metavante may not be sufficient to fully repay borrowings under its outstanding debt instruments, and may leave New Metavante unable to refinance or restructure its debt payments on terms favorable to it, or at all.

New Metavante cannot assure you that it and its subsidiaries will be able to generate sufficient cash flow needed to service their indebtedness.

New Metavante's ability to make scheduled payments on its indebtedness and to fund planned capital expenditures will depend on the ability of New Metavante and its subsidiaries to generate cash flow in the future. New Metavante's future performance is subject to a number of risks that are beyond its control, including those discussed in this section. In addition, New Metavante's ability to borrow funds in the future will depend on the satisfaction of the covenants in New Metavante's credit facilities and its other debt agreements and other financing arrangements it or New Metavante may enter into in the future. In the event that the credit facilities need to be refinanced, New Metavante cannot assure you that it will be able to do so or obtain additional financing, particularly because of its anticipated high levels of debt and the debt incurrence restrictions imposed by its debt agreements, as well as prevailing market conditions. New Metavante cannot assure you that its business will generate sufficient cash flow from operations or that future borrowings will be available in an amount sufficient to enable New Metavante to service its debt and fund its other liquidity needs.

If New Metavante's cash flow and capital resources are insufficient to fund its debt service obligations, New Metavante may be forced to reduce or delay capital expenditures, sell assets or seek to obtain additional equity capital, or refinance its indebtedness or obtain additional financing. In the future, New Metavante's cash flow and capital resources may not be sufficient for payments of interest on and principal of its debt and there can be no assurance that any of, or a combination of, such alternative measures would provide New Metavante with sufficient cash flows. In addition, such alternative measures could have an adverse effect on New Metavante's business, financial condition and results of operations. New Metavante will generally be unable to generate significant cash flow from the issuance of equity for at least two years following completion of the transaction.

In the absence of sufficient operating results and resources, New Metavante could face substantial liquidity problems and might be required to dispose of material assets or operations to meet its debt service and other obligations or otherwise risk default under the agreements governing its indebtedness. These agreements are expected to restrict New Metavante's ability to dispose of assets and restrict the use of proceeds from any such

Table of Contents

dispositions. If such sales are required, New Metavante cannot be sure as to the timing of such sales or adequacy of the proceeds that it could realize therefrom.

An increase in interest rates would increase the cost of servicing New Metavante's debt and could reduce New Metavante's profitability.

The debt that New Metavante will incur in connection with the transactions under the credit facilities will bear interest at variable rates. As a result, an increase in interest rates, whether because of an increase in market interest rates or a decrease in New Metavante's creditworthiness, would increase the cost of servicing New Metavante's debt and could materially reduce New Metavante's profitability and cash flows. The impact of such an increase would be more significant for New Metavante than it would be for less leveraged companies because of its subsidiaries' substantial debt.

Metavante faces intense competition in all areas of its business.

The markets for Metavante's products and services are intensely competitive and it expects to face increased competition in the future as new companies enter the market and existing competitors expand their product lines and services.

Competitors vary in size and in the scope and breadth of their products and services. Some current and potential competitors have better name recognition and significantly greater resources, and many competitors are consolidating, creating larger competitors with even greater resources and broader product lines. In addition, many of these competitors have established, or may in the future establish, cooperative relationships or strategic alliances among themselves or with third parties to compete with Metavante's products and services. It is possible that new competitors or alliances among competitors may emerge and rapidly acquire market share to New Metavante's detriment.

Metavante will also face competition from its clients and potential clients who develop their own financial services offerings. Metavante's inability to compete successfully in light of these competitive pressures could result in a material adverse effect on its business, operating results and financial condition.

Metavante faces intense pricing pressure in obtaining and retaining its larger clients. Larger clients are often able to seek price reductions from Metavante when they renew a contract, when a contract is extended, when service or performance issues arise with the client, or when the client's business has significant volume changes. On some occasions, this pricing pressure results in lower revenue from a client than Metavante had anticipated based on its previous agreement with that client. This reduction in revenue can result in a material adverse effect on New Metavante's business, operating results and financial condition.

Failure to renew client contracts on favorable terms could result in loss of clients and adversely affect results of operations and financial condition.

Failure to effect renewal of client contracts on favorable terms could have an adverse effect on Metavante's business. Metavante's contracts with customers generally run for several years and provide for early termination fees. Terms are generally renegotiated prior to the end of a contract's term. If New Metavante is not successful in achieving a high rate of contract renewals on favorable terms, its results of operations and financial condition could be adversely affected.

Damage to the data centers on which Metavante relies could harm its business.

Metavante's data centers are an integral part of its business. Damage to the data centers due to acts of terrorism, fire, power loss, telecommunications failure and other causes could have a material adverse effect on New Metavante's business, operating results and financial condition. In addition, because Metavante relies on the integrity of the data it processes, if this data is incorrect or somehow tainted, client relations and confidence in Metavante's services could be impaired, which would harm its business.

Table of Contents

Failures in outsourcing or transaction processing facilities could adversely affect Metavante's business and reputation.

An operational failure in its outsourcing or transaction processing facilities could cause Metavante to lose business. Damage or destruction that interrupts Metavante's services to customers could damage its relationship with customers and may require it to incur substantial additional expense to repair or replace damaged equipment and recover data loss caused by the interruption. Metavante has installed back-up systems and procedures to prevent or reduce disruption, but such steps may not be sufficient to prevent an interruption of services. An interruption that lasts more than several hours could cause Metavante to experience a reduction in revenues as a result and could have a negative impact on its reputation and business.

Network operational difficulties or security problems with its systems could damage Metavante's reputation and business.

Metavante depends on the reliable operation of network connections from its clients and its clients' end users to its systems. These networks are owned and operated by third party telecommunications companies. Any operational problems or outages in these systems could cause Metavante to be unable to process transactions for its clients and its clients' end users, resulting in decreased revenues. In addition, any system delays, failures or loss of data, whatever the cause, could reduce client satisfaction with Metavante's products and services and harm its financial results.

Metavante also depends on the security of its systems. Metavante's networks may be vulnerable to unauthorized access, computer viruses and other disruptive problems. Metavante transmits confidential financial information in providing its services. In addition, under agreements with certain customers, Metavante may be financially liable if consumer data is compromised while in Metavante's possession, regardless of the safeguards Metavante may have instituted. A material security problem affecting Metavante could damage its reputation, deter financial services providers from purchasing its products, deter their customers from using its products or result in liability to Metavante. Any material security problem affecting New Metavante's competitors could affect the marketplace's perception of online banking, bill payment, and electronic commerce service in general and have the same effects.

Lack of system integrity or credit quality related to Metavante's funds settlement could result in a financial loss.

Metavante settles funds on behalf of financial institutions, other businesses and consumers and receives funds from clients, card issuers, payment networks and consumers on a daily basis for a variety of transaction types. Transactions facilitated by Metavante include debit card, credit card and electronic bill payment transactions, supporting consumers, financial institutions and other businesses. These payment activities rely upon the technology infrastructure that facilitates the verification of activity with counterparties and the facilitation of the payment. If the continuity of operations or integrity of processing were compromised this could result in a financial loss to Metavante due to a failure in payment facilitation. In addition, Metavante may issue credit to consumers, financial institutions or other businesses as part of the funds settlement. A default on this credit by a counterparty could result in a financial loss to Metavante.

A failure to comply with privacy regulations could adversely affect relations with customers and have a negative impact on business.

In the course of providing services to its customers, Metavante may collect, process and retain sensitive and confidential information on its customers and their clients. A failure of Metavante's security facilities and systems due to security breaches, acts of vandalism, computer viruses, misplaced or lost data, programming and/or human errors, or other similar causes could result in the misappropriation, loss or other unauthorized disclosure of confidential customer information. Any such failure could result in damage to Metavante's reputation with its customers, expose it to the risk of litigation and liability, disrupt its operations, and negatively impact its business, results of operations, and financial condition.

Table of Contents

Changes in the network pricing and transaction routing strategies of NYCE Payments Network, LLC, a subsidiary of Metavante, could adversely affect NYCE's revenue and Metavante's results of operations.

The transaction volume and the corresponding revenues of NYCE, a subsidiary of Metavante, are driven in large measure by NYCE's execution of long-term strategies for network pricing (including interchange and network fees) and transaction routing. As the debit and electronic payments marketplace continues to shift and mature, it may be necessary for NYCE to pursue alternate pricing and/or transaction routing strategies. Any significant changes to NYCE's current pricing and/or transaction routing strategies would likely be implemented over a transitional phase. Such changes could result in reductions of participant card base, reductions in merchant acceptance, and the potential for transaction misrouting during the transitional phase, any of which would adversely affect NYCE's revenue and Metavante's results of operations.

If Metavante is unable to keep pace with evolving technology and changes in the financial services industry, its revenues and future prospects may decline.

The markets for Metavante's products and services are characterized by rapid technological change, frequent new product introductions and evolving industry standards. The introduction of products and services embodying new technologies and the emergence of new industry standards can render existing products and services obsolete and unmarketable in short periods of time. Metavante expects new products and services, and enhancements to existing products and services, to be developed and introduced by others, which will compete with the products and services that Metavante offers. The life cycles of Metavante's products and services are subject to dramatic shifts. Its future success will depend upon its ability to enhance current products and services, to develop and introduce new products and services that keep pace with technological developments and emerging industry standards, to maintain existing and establish new business relationships to help it develop and implement new technologies and to address the increasingly sophisticated needs of its clients. There can be no assurance that Metavante will be successful in developing and marketing new products and services or producing enhancements that meet these changing demands, that it will be able to overcome difficulties that could delay or prevent the successful development, introduction and marketing of these products and services, that it will be able to maintain or derive the anticipated benefit from its existing business relationships or be able to establish new relationships or that its new products and services and enhancements will adequately meet the demands of the marketplace and achieve market acceptance. If Metavante is unable to develop and introduce new products and services or enhancements in a timely manner, or if a release of a new product or service does not achieve market acceptance, its business, operating results and financial condition could be materially adversely affected.

If New Metavante is unable to continue to make acquisitions, its growth may be limited.

A significant part of Metavante's growth has come through acquisitions and a key component of its growth strategy is based on its ability to make future acquisitions. As part of its acquisition strategy, Metavante may pursue acquisitions of greater size than recently completed, with public or private companies, headquartered in the United States or internationally, or in industries outside of Metavante's core business. Certain of these acquisitions could occur prior to the consummation of the transactions. Metavante may be unable to identify suitable acquisition targets or successfully complete acquisitions in the future due to the absence of quality companies, economic conditions, or price expectations from sellers. If New Metavante is unable to complete additional acquisitions for these or other reasons, its growth may be limited.

Acquisitions may be difficult to integrate, divert management resources or dilute shareholder value.

Metavante has undertaken strategic acquisitions in the past and in the future New Metavante may acquire or make investments in complementary companies, products and/or technologies. Future acquisitions could pose numerous risks to New Metavante's operations, including:

problems integrating the purchased operations, personnel, technologies or products,

inability of the acquired business to achieve anticipated revenues, earnings or cash flow,

Table of Contents

unanticipated costs,

diversion of resources and management attention from New Metavante's core businesses,

adverse effects on existing business relationships with suppliers and clients and on Metavante's ability to enter into new business relationships,

entry into markets in which New Metavante has limited or no prior experience, and

potential loss of key employees, particularly those of the acquired organization.

The amount of equity that New Metavante can issue to make acquisitions or raise additional capital will be limited for at least two years following the completion of the transactions, which will limit availability of equity to fund acquisitions during that time period. Also, because New Metavante and/or its subsidiaries will have significant indebtedness and the agreements governing that indebtedness will contain limits on their ability to incur additional debt, New Metavante may be unable to finance acquisitions that would increase its growth or improve its financial and competitive position. To the extent that debt financing is available to finance acquisitions, New Metavante's net indebtedness could be increased as a result of any acquisitions. In addition, the use of equity to finance acquisitions could dilute the interests of New Metavante shareholders.

Foreign currency fluctuations could adversely affect sales and profits and the valuation of international operations.

Metavante may continue to make acquisitions of companies and obtain application and product development resources outside of the United States. Revenues derived from operations outside of the United States are subject to the risk of fluctuations in foreign currency, which can have an adverse impact on Metavante's sales and profits as amounts that are measured in foreign currencies are translated back to U.S. dollars. Any increase in the value of the U.S. dollar in relation to the value of the local currency will adversely affect Metavante's revenues from its foreign operations when translated into U.S. dollars. Any decrease in the value of the U.S. dollar in relation to the value of the local currency will increase Metavante's cost of foreign acquisitions and the cost of development of its foreign operations to the extent that such costs are payable in foreign currency. Similarly, currency fluctuations can have material effects on the valuation of Metavante's foreign operations or the costs associated with foreign research and development.

Metavante may not be able to protect its intellectual property and it may be subject to infringement claims.

Metavante relies on a combination of contractual rights and copyright, trademark, patent and trade secret laws to establish and protect its proprietary technology. Despite Metavante's efforts to protect its intellectual property, third parties may infringe or misappropriate its intellectual property or may develop competitive software or technology. Metavante's competitors may independently develop similar technology, duplicate its products or services or design around Metavante's intellectual property rights. Metavante may have to litigate to enforce and protect its intellectual property rights, trade secrets and know-how or to determine their scope, validity or enforceability, which is expensive and could cause a diversion of resources and may not prove successful. The loss of intellectual property protection or the inability to secure or enforce intellectual property protection could harm Metavante's business and ability to compete.

The financial services industry has been subject to claims of patent infringement relating to areas of check imaging, online banking and bill payment, and use of voice recognition units. Metavante may be subject to costly litigation in defending itself and its clients against such claims.

Metavante also may be subject to costly litigation in the event its products or technology infringe upon another party's proprietary rights. Third parties may have, or may eventually be issued, patents and that would be infringed by Metavante's products or technology. Any of these third parties could make a claim of infringement

Table of Contents

against Metavante with respect to its products or technology. Metavante may also be subject to claims by third parties for breach of copyright, trademark or license usage rights. Any such claims and any resulting litigation could subject Metavante to significant liability for damages. An adverse determination in any litigation of this type could require Metavante to design around a third party's patent or to license alternative technology from another party. In addition, litigation is time consuming and expensive to defend and could result in the diversion of the time and attention of management and employees. Any claims from third parties may also result in limitations on Metavante's ability to use the intellectual property subject to these claims.

Litigation relating to Metavante's products could be costly and time consuming to defend.

Since Metavante's products are used to deliver services that are integral to its clients' businesses, errors, defects or other performance problems could result in financial or other damages to its clients. Product liability litigation arising from these errors, defects or problems, even if Metavante were successful, would be time consuming and costly to defend. Existing or future laws or unfavorable judicial decisions could negate any limitations of liability provisions that are included in Metavante's agreements with its clients.

Metavante is dependent on senior management; failure to attract and retain skilled technical employees could harm its ability to grow.

Metavante's future success will also depend in large part upon its ability to attract and retain highly skilled technical personnel. Because the development of its products and services requires knowledge of computer hardware, operating system software, system management software and application software, its technical personnel must be proficient in a number of disciplines. Competition for such technical personnel is intense, and Metavante's failure to hire and retain talented personnel could have a material adverse effect on its business, operating results and financial condition.

Metavante's future growth, if any, will also require additional sales and marketing, financial and administrative personnel to develop and support new products and services, to enhance and support current products and services and to expand operational and financial systems. There can be no assurance that it will be able to attract and retain the necessary personnel to accomplish its growth strategies and it may experience constraints that could adversely affect its ability to satisfy client demand in a timely fashion.

Metavante's senior management team has significant experience in the financial services industry, either at Metavante or with clients or competitors, and the loss of this leadership could have a material adverse effect on Metavante's business operating results and financial condition.

Government regulation of the Internet and the financial services industry could harm Metavante's business.

As the Internet continues to evolve, government regulation of communications and commerce over the Internet is becoming more prevalent. Congress also adopted legislation imposing obligations on financial institutions to develop privacy policies, restrict the sharing of non-public customer data with non-affiliated third parties at the customer's request and establish procedures and practices to protect and secure customer data. These privacy provisions, which apply to Metavante's financial institution clients and may apply to Metavante, as well as other laws and regulations that are currently in existence or may be adopted which govern communications and commerce over the Internet, could limit the market for Internet-based financial services, impose liability for the transmission of protected data and increase expenses.

The financial services industry is subject to extensive and complex federal and state regulation, and financial institutions operate under high levels of governmental supervision. Metavante's clients must ensure that its services and related products work within the extensive and evolving regulatory requirements applicable to them. Federal, state or foreign authorities could adopt laws, rules or regulations affecting client businesses which

Table of Contents

could lead to increased operating costs and could also reduce the convenience and functionality of Metavante's products and services, possibly resulting in reduced market acceptance.

Metavante's intercompany agreements with New Marshall & Ilsley may be more or less favorable than agreements negotiated at arms-length with independent parties.

New Metavante has entered into various agreements with New Marshall & Ilsley relating to the organization of its business as a separate entity from New Marshall & Ilsley, as well as other agreements pursuant to which New Metavante will provide services to New Marshall & Ilsley as a client. All of these agreements were negotiated in the overall context of New Metavante's possible future separation from Marshall & Ilsley. As a result, these agreements may have terms and conditions that may be more or less favorable to New Metavante than agreements that are negotiated at arms-length with independent parties. There can be no assurance that the prices charged to New Metavante pursuant to those agreements under which New Marshall & Ilsley will provide a service to New Metavante, and the prices charged by New Metavante pursuant to those agreements under which New Metavante will provide a service to New Marshall & Ilsley, are the same as the prices that Metavante would be required to pay to, or the prices that it would be able to receive from, third parties for similar services.

Substantial sales of common stock may occur in connection with the distribution, which could cause New Metavante's stock price to decline.

Substantially all of the shares of New Metavante's common stock that will be distributed in the share distribution will be eligible for immediate resale in the public market. New Metavante is unable to predict whether significant amounts of its common stock will be sold in the open market in anticipation of, or following, this distribution. New Metavante is also unable to predict whether a sufficient number of buyers would be in the market at that time.

Some of the institutional shareholders who receive New Metavante's common stock in the distribution may not be able to hold the stock because of restrictions on the types of investments they may make, or they may simply not want the stock for a variety of other reasons. Sales of substantial amounts of common stock in the public market, or the perception that such sales might occur because of the distribution or otherwise, could harm the market price of New Metavante's stock.

New Metavante is a holding company, with no operations of its own, and depends on its subsidiaries for cash.

New Metavante is a holding company and following the transactions it will not have any material assets or operations other than ownership of equity interests of Metavante. New Metavante's operations are conducted almost entirely through its subsidiaries, and its ability to generate cash to meet its obligations or to pay dividends is highly dependent on the earnings of, and receipt of funds from, its subsidiaries through dividends or intercompany loans. Further, the terms of agreements governing New Metavante and/or its subsidiaries' indebtedness may restrict the ability of New Metavante's subsidiaries to pay dividends or otherwise transfer assets to New Metavante. Furthermore, New Metavante and its subsidiaries may be able to incur substantial additional indebtedness in the future that may severely restrict or prohibit its subsidiaries making distributions, paying dividends or making loans to it. In addition, Wisconsin law may impose requirements that may restrict New Metavante's ability to pay dividends to holders of its common stock.

New Metavante will be restricted in its ability to issue equity for at least two years following completion of the transactions, which could limit its ability to make acquisitions or to raise capital required to service its debt and operate its business.

The amount of equity that New Metavante can issue to make acquisitions (excluding acquisitions with respect to which New Metavante can prove the absence of substantial negotiations) during applicable safe

Table of Contents

harbor periods) or raise additional capital will be limited for at least two years following completion of the transaction, except in limited circumstances. See Material U.S. Federal Income Tax Consequences of the Holding Company Merger, the New Marshall & Ilsley Share Distribution and Related Transactions beginning on page 102. These limitations may restrict the ability of New Metavante to carry out its business objectives and to take advantage of opportunities such as acquisitions that could supplement or grow the Metavante business. In addition, because New Metavante and/or its subsidiaries will have approximately \$1.75 billion in debt upon completion of the transactions, and the agreements governing its indebtedness will contain limits on its ability to incur additional debt, the inability to raise even a small amount of equity capital at a time when New Metavante needs additional capital could have a material adverse effect on the ability of New Metavante to service its debt and operate its business.

The voting power of New Metavante's principal shareholder may discourage third party acquisitions of New Metavante at a premium.

Investor will own 25% of the shares of New Metavante following the consummation of the transactions and will have a stock purchase right to acquire additional shares under certain circumstances in order to maintain its 25% ownership. Pursuant to the shareholders agreement to be entered into by New Metavante and Investor upon completion of the transactions and the amended and restated by-laws of New Metavante to be adopted prior to completion of the transactions, Investor will have the right to name three of New Metavante's initial 11 directors, and Investor's rights to nominate a specified number of directors will continue so long as it owns a specified amount of New Metavante common stock. The shareholders agreement will also provide Investor with preemptive rights to purchase its pro rata shares of any additional shares of common stock issued by New Metavante and the shareholders agreement and the stock purchase right agreement will provide Investor other rights as described below under Additional Agreements Relating to the Transactions Shareholders Agreement beginning on page 141 and Additional Agreements Relating to the Transactions Stock Purchase Right Agreement beginning on page 145. Investor's ownership of New Metavante common stock and its rights under the shareholders agreement and of stock purchase right agreement may have the effect of discouraging offers to acquire control of New Metavante and may preclude holders of New Metavante common stock from receiving any premium above market price for their shares that may otherwise be offered in connection with any attempt to acquire control of New Metavante.

The trading price and volume of New Metavante's common stock may be volatile following completion of the transactions.

New Metavante cannot predict how investors who hold shares of Marshall & Ilsley common stock prior to completion of the transactions will react with respect to the shares of New Metavante common stock they receive in the transaction. In addition, Marshall & Ilsley is currently a component of the S&P 500 Index, but it is not anticipated that New Metavante will be a component of that index. This may cause mutual funds or other investment entities whose securities holdings are based on a replication of the S&P 500 Index to sell the shares of New Metavante common stock they receive in the transaction. This may result in greater volatility in the volume and price fluctuation of New Metavante's common stock or in reduced institutional ownership of the stock.

The interests of Investor may differ from the interests of other holders of New Metavante common stock.

Immediately after completion of the transactions, Investor will own 25% of New Metavante's voting capital stock and will have a stock purchase right to acquire additional voting capital stock under certain circumstances in order to maintain its 25% ownership. The interests of Investor may differ from those of other holders of New Metavante common stock in material respects. Investor is in the business of making investments in companies. Investor may, from time to time in the future, acquire interests in businesses that directly or indirectly compete with, or are customers of, certain portions of New Metavante's business. Additionally, Investor may determine that the disposition of some or all of its interests in New Metavante would be beneficial to Investor at a time when such disposition could be detrimental to the other holders of New Metavante common stock.

Table of Contents

Anti-takeover provisions in New Metavante s organizational documents and state law may adversely impact its common stock.

Various provisions of New Metavante s restated articles of incorporation, amended and restated by-laws and change of control severance agreements which New Metavante intends to enter into with some of its executive officers could delay, defer or prevent a change of control of New Metavante without further action by its shareholders, could discourage potential investors from bidding for New Metavante s common stock at a premium over the market price of the common stock and could adversely affect the market price of, and the voting and other rights of the holders of, the common stock. In addition, the anti-takeover provisions of the Wisconsin Business Corporation Law, among other things, restrict the ability of shareholders to cause a merger or business combination with or obtain control of New Metavante.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This proxy statement/prospectus information statement contains certain forward-looking statements based on current Marshall & Ilsley, New Marshall & Ilsley, New Metavante and Metavante management expectations. Those forward-looking statements include all statements other than those made solely with respect to historical fact. Numerous risks, uncertainties and other factors may cause actual results to differ materially from those expressed in any forward-looking statements. These factors include, but are not limited to, (1) the occurrence of any event, change or other circumstances that could give rise to the termination of the investment agreement; (2) the outcome of any legal proceedings that may be instituted against Marshall & Ilsley, Metavante and others following announcement of the investment agreement; (3) the inability to close the transactions contemplated by the investment agreement due to the failure to obtain shareholder approval or the failure to satisfy other closing conditions contemplated by the investment agreement; (4) the failure to obtain the necessary debt financing arrangements; (5) risks that the proposed transaction disrupts current plans and operations and the potential difficulties in employee retention as a result of the transactions contemplated by the investment agreement; (6) the inability to recognize the benefits of the transactions contemplated by the investment agreement; (7) the amount of the costs, fees, expenses and charges related to the transactions contemplated by the investment agreement and the actual terms of certain financings that will be obtained for such transactions; (8) the impact of the substantial indebtedness incurred to finance the consummation of the transactions contemplated by the investment agreement; and (9) other risks that are set forth in the section entitled Risk Factors, and in the documents incorporated by reference herein, including in the Risk Factors, Legal Proceedings and Management's Discussion and Analysis of Results of Operations and Financial Condition sections of Marshall & Ilsley's SEC filings.

Many of the factors that will determine the outcome of the subject matter of this proxy statement/prospectus information statement are beyond the ability of Marshall & Ilsley, New Marshall & Ilsley, Metavante and New Metavante to control or predict. You should read this proxy statement/prospectus information statement and the documents incorporated by reference into it completely and with the understanding that actual future results may be materially different from expectations. All forward-looking statements made in this proxy statement/prospectus information statement are qualified by these cautionary statements. These forward-looking statements are made only as of the date of this proxy statement/prospectus information statement, and Marshall & Ilsley, New Marshall & Ilsley, New Metavante and Metavante do not undertake any obligation, other than as may be required by law, to update or revise any forward-looking statements to reflect changes in assumptions, the occurrence of unanticipated events or changes in future operating results over time or otherwise.

THE MARSHALL & ILSLEY SPECIAL MEETING OF SHAREHOLDERS

Purpose, Time and Place

The Marshall & Ilsley special meeting will be held on Thursday, October 25, 2007 at the corporate headquarters of Marshall & Ilsley Corporation, 770 North Water Street, Third Floor, Milwaukee, Wisconsin, at 10:00 a.m., local time.

At the special meeting, Marshall & Ilsley shareholders will be asked:

- (1) to consider and vote upon a proposal to approve and adopt the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance;
- (2) to consider and vote on a proposal to approve any adjournments of the special meeting for the purpose of soliciting additional proxies if there are not sufficient votes at the special meeting to approve and adopt the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, or for any other purpose; and
- (3) to consider any other business that properly comes before the special meeting or any adjournments or postponements of the special meeting.

Approval by the shareholders of Marshall & Ilsley of the proposal to approve and adopt the investment agreement and the transactions contemplated by the investment agreement is required to complete the transactions.

The Marshall & Ilsley Board has unanimously approved and adopted the investment agreement and determined that the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, are advisable and in the best interests of Marshall & Ilsley and its shareholders and recommends that Marshall & Ilsley shareholders vote FOR the proposal to approve and adopt the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, and FOR the proposal to approve any adjournments of the special meeting for the purpose of soliciting additional proxies or for any other purpose.

Record Date; Voting Information; Required Vote

The Marshall & Ilsley Board has fixed the close of business on September 19, 2007 as the record date for determining the holders of Marshall & Ilsley common stock entitled to notice of, and to vote at, the special meeting. Only holders of record of Marshall & Ilsley common stock at the close of business on the record date for the special meeting will be entitled to notice of, and to vote at, the special meeting.

As of the record date for the special meeting, 266,839,811 shares of Marshall & Ilsley common stock were outstanding and entitled to vote at the special meeting and there were approximately 31,702 holders of record of Marshall & Ilsley common stock. Each share of Marshall & Ilsley common stock entitles the holder to one vote on each matter to be considered at the special meeting.

If you are a record holder of Marshall & Ilsley common stock as of the record date for the special meeting, you may vote your shares of Marshall & Ilsley common stock in person at the special meeting or by proxy as described below under Voting by Proxy.

The presence in person or by proxy at the special meeting of the holders of at least a majority of the shares of Marshall & Ilsley common stock entitled to vote at the special meeting will constitute a quorum for the special meeting. Properly signed proxies that are marked abstain are known as abstentions. Properly signed proxies that are held by brokers in street name on behalf of customers who have not provided their broker with specific

Table of Contents

voting instructions on nonroutine matters such as the proposal to approve and adopt the investment agreement and the transactions contemplated by the investment agreement are known as broker non-votes. Abstentions and broker non-votes will be counted for the purposes of determining whether a quorum exists at the special meeting but will have the effect of a vote against the proposal to approve and adopt the investment agreement and the transactions contemplated by the investment agreement.

We cannot complete the transactions unless the investment agreement is approved and adopted and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, are approved and adopted by the affirmative vote of the holders of a majority of the outstanding shares of Marshall & Ilsley common stock.

Any adjournments of the special meeting by shareholder vote for the purpose of soliciting additional proxies or for any other purpose must be approved by the affirmative vote of a majority of the shares represented at the special meeting.

Although management is not aware of any other matters that may come before the meeting, if any such matters should be properly presented, the persons named in the accompanying proxy intend to vote such proxy in accordance with their best judgment.

Voting by Proxy

There are three ways to vote your proxy: by mail, by telephone or by the Internet. Marshall & Ilsley shareholders who vote their shares of Marshall & Ilsley common stock by completing and signing a proxy and returning it in time for the special meeting will have their shares voted as indicated on their proxy card. If a proxy is properly executed but does not contain voting instructions, the proxy will be voted **FOR** the proposal to approve and adopt the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance and **FOR** any proposal to adjourn the special meeting for the purpose of soliciting additional proxies. No proxy voted against the proposal to approve and adopt the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, will be voted in favor of any proposal to adjourn or postpone the special meeting for the purpose of soliciting additional proxies, unless specifically so designated on the proxy. If other matters are properly presented before the special meeting, the persons named in the proxy intend to vote such proxy in accordance with their best judgment. Marshall & Ilsley does not currently expect that any matter other than as described in this proxy statement/prospectus-information statement will be properly brought before the special meeting.

Marshall & Ilsley shareholders who wish to vote their shares of Marshall & Ilsley common stock by phone should call (866) 894-0537, which will be available 24 hours a day, 7 days a week, until 7 p.m. (Eastern Time) on October 24, 2007. Please have your proxy card available. Follow the instructions provided on the phone call.

Marshall & Ilsley shareholders who wish to vote their shares of Marshall & Ilsley common stock by the Internet should go to <http://www.continentalstock.com>, which will be available 24 hours a day, 7 days a week, until 7 p.m. (Eastern Time) on October 24, 2007. Please have your proxy card available. Follow the instructions to obtain your records and create an electronic ballot.

If your broker holds your shares of Marshall & Ilsley common stock in street name, you must either direct your broker on how to vote your shares or obtain a proxy from your broker to vote in person at the special meeting. Please check the voting form used by your broker for information on how to submit your instructions.

Table of Contents

Revocation of Proxies

Marshall & Ilsley shareholders of record may revoke their proxy at any time prior to the time it is voted at the special meeting. Marshall & Ilsley shareholders of record may revoke their proxy by:

sending a written notice to Marshall & Ilsley's corporate secretary that is received prior to the special meeting stating that you are revoking your proxy;

properly completing a new proxy bearing a later date and properly submitting it so that it is received prior to the special meeting; or

attending the special meeting and voting in person.

Simply attending the special meeting will not revoke your proxy. If you instructed a broker to vote your shares and you wish to change your instructions, you must follow your broker's directions for changing those instructions. If an adjournment occurs and no new record date is set, it will have no effect on the ability of Marshall & Ilsley shareholders of record as of the record date to exercise their voting rights or to revoke any previously delivered proxies.

Share Ownership of Management and Certain Shareholders

At the close of business on the record date for the special meeting, Marshall & Ilsley directors and executive officers as a group owned and were entitled to vote 10,133,196 shares of Marshall & Ilsley common stock, representing approximately 3.8% of the outstanding shares of Marshall & Ilsley common stock. All of the directors and executive officers of Marshall & Ilsley that are entitled to vote at the Marshall & Ilsley special meeting have indicated that they currently intend to vote their shares of Marshall & Ilsley common stock in favor of approving the transactions.

No Appraisal Rights

The shareholders of Marshall & Ilsley, New Marshall & Ilsley and New Metavante will not be entitled to exercise appraisal rights or to demand payment for their shares in connection with the transactions.

Solicitation of Proxies

Marshall & Ilsley is soliciting proxies for the special meeting. Pursuant to the terms of the investment agreement, all expenses incurred by Marshall & Ilsley in connection with the solicitation of proxies will be paid by Marshall & Ilsley after completion of the transactions.

Marshall & Ilsley expects to solicit proxies primarily by mail, but directors, officers and other employees of Marshall & Ilsley as well as Morrow & Co., Inc. may also solicit in person or by Internet, telephone or mail.

Marshall & Ilsley has retained Morrow & Co., Inc. to assist in the solicitation of proxies for a fee of \$7,500 plus reasonable out-of-pocket expenses incurred by Morrow & Co., Inc.

Marshall & Ilsley shareholders should not send stock certificates with their proxies. The exchange agent for the holding company merger will mail transmittal forms with instructions for the surrender of stock certificates of Marshall & Ilsley common stock to you following completion of the transactions.

Table of Contents**THE TRANSACTIONS****Description of the Transactions**

Below is a description of the transactions contemplated by the transaction agreements. We urge you to read carefully the investment agreement, the separation agreement, the tax allocation agreement, and the forms of the shareholders agreement and the stock purchase right agreement which are attached as Annexes A, B, C, D and E respectively, to this proxy statement/prospectus information statement because they set forth the terms of the transactions. We urge you to read the New Metavante restated articles of incorporation, which are attached as Annex G, and the New Metavante amended and restated by-laws, which are incorporated by reference into this document and filed as an exhibit to the registration statement of which this proxy statement/prospectus information statement is a part, and the New Marshall & Ilsley restated articles of incorporation, which are attached as Annex H, and the New Marshall & Ilsley amended and restated by-laws, which are incorporated by reference into this document and filed as an exhibit to the registration statement of which this proxy statement/prospectus information statement is a part, because they are the primary documents that will govern your rights as holders of common stock of New Metavante and New Marshall & Ilsley, respectively, following the transactions.

Business Entities Involved in the Transactions

Marshall & Ilsley Corporation. Marshall & Ilsley Corporation (NYSE: MI), a Wisconsin corporation, is a diversified financial services corporation headquartered in Milwaukee, Wisconsin with approximately \$58.3 billion in assets. Founded in 1847, M&I Marshall & Ilsley Bank is the largest Wisconsin-based bank, with 192 offices throughout the state. In addition, Marshall & Ilsley has 48 locations throughout Arizona; 30 offices along Florida's west coast and central Florida; 16 offices in Kansas City and nearby communities; 22 offices in metropolitan Minneapolis/St. Paul, and one in Duluth, Minnesota; three offices in Tulsa, Oklahoma; and one office in Las Vegas, Nevada. Marshall & Ilsley's Southwest Bank subsidiary has 17 offices in the greater St. Louis area. Marshall & Ilsley also provides trust and investment management, equipment leasing, mortgage banking, asset-based lending, financial planning, investments, and insurance services from offices throughout the country and on the Internet (www.mibank.com or www.micorp.com). Marshall & Ilsley's customer-based approach, internal growth, and strategic acquisitions have made Marshall & Ilsley a nationally recognized leader in the financial services industry.

We refer to the business of Marshall & Ilsley, excluding Metavante's business, as Marshall & Ilsley's banking business. As described below, following completion of the transactions described herein, Marshall & Ilsley will be a limited liability company and will continue to own and operate the banking business but will be a subsidiary of a new publicly-traded company, New M&I Corporation, which will change its name to Marshall & Ilsley Corporation in connection with completion of the transactions.

Metavante Corporation. Metavante Corporation, a Wisconsin corporation, delivers banking and payments technologies to over 8,600 financial services firms and businesses worldwide. Metavante's integrated products and services drive account processing for deposit, loan and trust systems, image-based and conventional check processing, lockbox services, electronic funds transfer, consumer healthcare payments, electronic presentment and payment, government and merchant processing and business transformation services. Headquartered in Milwaukee, Wisconsin, Metavante is currently a wholly-owned subsidiary of Marshall & Ilsley. We refer to Metavante Corporation as Metavante in this proxy statement/prospectus-information statement.

As described below, following completion of the transactions, Metavante will be a direct wholly-owned subsidiary of a new publicly-traded company, Metavante Holding Company (which is described below), and will continue to own Metavante's business.

Metavante Holding Company. Metavante Holding Company, a Wisconsin corporation and a direct, wholly-owned subsidiary of Marshall & Ilsley, was formed in March 2007 by Marshall & Ilsley for the purpose of completing the transactions. Following completion of the transactions, New Metavante will be a separate, publicly-traded company that will own Metavante, which will continue to own the equity of the companies that own and operate Metavante's business. In connection with the completion of the transactions, the name of

Table of Contents

Metavante Holding Company will be changed to Metavante Technologies, Inc. We refer to Metavante Holding Company as New Metavante in this proxy statement/prospectus-information statement.

New M&I Corporation. New M&I Corporation, a Wisconsin corporation and a direct, wholly-owned subsidiary of New Metavante, was formed by New Metavante for the purpose of completing the transactions. Following completion of the transactions, New M&I Corporation will be a separate, publicly-traded company that will own the equity of the companies that own and operate Marshall & Ilsley's banking business. In connection with the completion of the transactions, the name of New M&I Corporation will be changed to Marshall & Ilsley Corporation. We refer to New M&I Corporation as New Marshall & Ilsley in this proxy statement/prospectus-information statement.

Montana Merger Sub Inc. Montana Merger Sub Inc., a Wisconsin corporation and a direct, wholly-owned subsidiary of New Metavante, was formed by New Metavante for the purpose of effecting the holding company merger. We refer to Montana Merger Sub Inc. as Merger Sub in this proxy statement/prospectus-information statement.

WPM, L.P. WPM, L.P. is a Delaware limited partnership organized by Warburg Pincus Private Equity IX, L.P., a global private equity investment fund managed by Warburg Pincus LLC. We refer to WPM, L.P. as Investor in this proxy statement/prospectus-information statement.

Warburg Pincus Private Equity IX, L.P. Warburg Pincus Private Equity IX, L.P., a Delaware limited partnership, is a global private equity investment fund managed by Warburg Pincus LLC and is an affiliate of Investor. Under the investment agreement, Investor may, under certain circumstances, assign its rights under the investment agreement to Warburg Pincus Private Equity IX, L.P. or one or more successor funds to the Investor each of which is controlled by Warburg Pincus LLC and/or Warburg Pincus & Co. (or a controlled affiliate of one of such entities) and is managed by Warburg Pincus LLC or its affiliates.

Warburg Pincus LLC has been a leading private equity investor since 1971. The firm currently has approximately \$20 billion of assets under management and invests in a range of sectors including financial services, consumer and retail, industrial, business services, healthcare, energy, real estate and technology, media and telecommunications. Warburg Pincus has raised 12 private equity investment funds which have invested more than \$25 billion in approximately 550 companies in 30 countries. The firm has invested more than \$12 billion in technology, media and telecommunications as well as financial services companies, including investments in Avaya, Bharti Televentures, Fortent, easycash, Mellon Financial, Yodlee, NeuStar, BEA Systems and WNS Global Services. An experienced partner to entrepreneurs seeking to create and build durable companies with sustainable value, the firm has nine global offices and an active portfolio of more than 100 companies. Warburg Pincus website is www.warburgpincus.com.

Overview

On April 3, 2007, Marshall & Ilsley, Merger Sub, Metavante, New Metavante and Investor entered into the investment agreement pursuant to which, among other things:

Marshall & Ilsley will separate into two publicly-traded companies: New Marshall & Ilsley, which will own and operate Marshall & Ilsley's banking business, and the issued and outstanding common stock of which will be owned 100% by the Marshall & Ilsley shareholders, and New Metavante, which will own and operate Metavante's business, and 75% of the issued and outstanding common stock of which will be owned by Marshall & Ilsley shareholders and the remaining 25% of which will be owned by Investor;

Marshall & Ilsley's shareholders will receive three shares of New Marshall & Ilsley common stock and one share of New Metavante common stock for every three shares of Marshall & Ilsley common stock held;

Investor will invest \$625 million in New Metavante for an equity interest representing 25% of the New Metavante common stock;

Table of Contents

New Metavante and/or one or more of its subsidiaries will incur approximately \$1.75 billion of indebtedness;

Metavante will pay off certain intercompany indebtedness plus accrued and unpaid interest owed to Marshall & Ilsley (the amount currently owed is approximately \$982 million) and distribute \$1.040 billion of cash (which is expected to include \$290 million of Metavante's excess cash) to New Metavante; and

New Metavante will contribute to New Marshall & Ilsley \$1.665 billion in cash (which includes the \$625 million of proceeds from the investment by Investor and the \$1.040 billion distribution of cash from Metavante (which is expected to include \$290 million of Metavante's excess cash)).

As a result of the completion of the transactions contemplated by the investment agreement,

each holder of Marshall & Ilsley common stock as of the effective time of the holding company merger will have received three shares of New Marshall & Ilsley common stock and one share of New Metavante common stock for every three shares of Marshall & Ilsley common stock held of record;

Investor will have received shares of New Metavante common stock that represent 25% of the shares of New Metavante common stock; and

each holder of Marshall & Ilsley common stock as of the effective time of the holding company merger that would otherwise be entitled to receive fractional shares of New Metavante common stock resulting from the holding company merger will have received cash in lieu of such fractional shares (and therefore will not receive shares of New Marshall & Ilsley common stock in respect of such fractional shares).

The shares of New Marshall & Ilsley common stock to be issued to the holders of Marshall & Ilsley common stock will represent 100% of the outstanding shares of New Marshall & Ilsley common stock and the shares of New Metavante common stock to be issued to the holders of Marshall & Ilsley common stock will represent 75% of the outstanding shares of New Metavante common stock.

Timing and Structure of the Transactions

To accomplish the results described above, on the terms and subject to the conditions of the transaction agreements, the parties will engage in the following transactions in the order set forth below. Step 1, the declaration of the conditional distributions and the setting of the record date for the distributions, is expected to take place a number of days prior to or on the closing date. Steps 2 through 10 are all expected to occur on the closing date. Step 11, the automatic conversion of the shares of New Metavante Class A common stock, will occur on the day following the closing date as described below.

Step 1: Declaration of Conditional Distributions and Setting of Record Date. The New Metavante board of directors (which, at that time, will be comprised of Ted D. Kellner, Dennis J. Kuester, Michael D. Hayford and Frank R. Martire) will declare a conditional distribution and set the record date for the New Marshall & Ilsley share distribution. The record date for the distribution is expected to be 5:00 p.m., Eastern Time, on the closing date. Because Marshall & Ilsley and New Metavante will instruct the exchange agent for the holding company merger not to permit any transfers of shares of New Metavante common stock from the effective time of the holding company merger up to and including the record date for the distribution, each holder of Marshall & Ilsley common stock that receives shares of New Metavante common stock in the holding company merger will also be a holder of record of shares of New Metavante common stock as of the record date for the distribution and therefore will receive the shares of New Marshall & Ilsley common stock in the New Marshall & Ilsley share distribution. The distribution will be subject to the satisfaction or waiver of the conditions set forth in the separation agreement and the investment agreement described under *The Investment Agreement Conditions to the Completion of the Transactions* beginning on page 121.

Table of Contents

Step 2: Holding Company Merger. Marshall & Ilsley, New Metavante and Merger Sub will effect the holding company merger by which Merger Sub will merge with and into Marshall & Ilsley with Marshall & Ilsley continuing as the surviving corporation and as a direct, wholly-owned subsidiary of New Metavante. In the holding company merger, every three issued and outstanding shares of Marshall & Ilsley common stock will automatically convert into one share of New Metavante common stock. Fractional shares of New Metavante common stock will not be issued in connection with the holding company merger. Holders of shares of common stock of Marshall & Ilsley that would otherwise be entitled to receive fractional shares of New Metavante common stock resulting from the holding company merger will be paid cash in lieu of such fractional shares (and therefore will not receive shares of New Marshall & Ilsley common stock in the New Marshall & Ilsley share distribution in respect of such fractional shares as described in Step 10 below). As a result of the holding company merger, New Metavante will be a publicly-traded company that will own the equity of the companies that own and operate Metavante's business and Marshall & Ilsley's banking business.

Step 3: Marshall & Ilsley Conversion. Immediately following the effective time of the holding company merger, Marshall & Ilsley will convert from a Wisconsin corporation to a Wisconsin limited liability company. We refer to this as the Marshall & Ilsley LLC conversion. The purpose of the Marshall & Ilsley LLC conversion (together with the holding company merger) is to cause New Metavante to be treated as the successor to Marshall & Ilsley for federal income tax purposes, which is necessary for the transaction to have the anticipated tax consequences.

Step 4: Metavante Distribution. Marshall & Ilsley, now a limited liability company and a direct, wholly-owned subsidiary of New Metavante, will distribute the outstanding shares of Metavante capital stock to New Metavante, which we refer to as the Metavante distribution. Following completion of this distribution, Metavante, which operates Metavante's business directly or through its subsidiaries, will be a direct, wholly-owned subsidiary of New Metavante.

Step 5: Investment by Investor. Investor will purchase for \$625 million (i) shares of New Metavante Class A common stock that, as described below in Step 11, will automatically convert on a one-for-one basis into shares of New Metavante common stock at 12:01 a.m. Eastern Standard Time on the day following the closing date and (ii) a stock purchase right to acquire additional shares of New Metavante common stock under certain circumstances.

Step 6: Consummation of the Debt Financing. Contemporaneous with the investment by Investor, New Metavante and/or one or more of its subsidiaries will incur approximately \$1.75 billion of indebtedness.

Step 7: Payment of Intercompany Indebtedness; Distribution. Metavante will pay off certain intercompany indebtedness plus accrued and unpaid interest owed to Marshall & Ilsley (the amount currently owed is approximately \$982 million). Immediately following the purchase of shares of Class A common stock by Investor, the consummation of the debt financing and the payment of the intercompany indebtedness, Metavante will make a distribution in cash equal to \$1.040 billion (which is expected to include \$290 million of Metavante's excess cash) to New Metavante.

Step 8: Cash Contribution. New Metavante will contribute to New Marshall & Ilsley \$1.665 billion in cash (which includes the \$625 million of proceeds from the sale of the New Metavante common stock to Investor and the \$1.040 billion cash distribution from Metavante (which is expected to include \$290 million of Metavante's excess cash)).

Step 9: Marshall & Ilsley Contribution. New Metavante will contribute the membership interests of Marshall & Ilsley to New Marshall & Ilsley, which at that time will be a direct, wholly-owned subsidiary of New Metavante. We refer to this contribution as the Marshall & Ilsley contribution. Following these transactions, New Metavante will have two direct, wholly-owned subsidiaries: New Marshall & Ilsley, which will own the equity of the companies that own and operate Marshall & Ilsley's banking business, and Metavante, which will operate Metavante's business directly or through its subsidiaries.

Table of Contents

Step 10: New Marshall & Ilsley Share Distribution. New Metavante will effect the New Marshall & Ilsley share distribution by instructing the distribution agent to record in the stock transfer records of New Marshall & Ilsley the distribution of three shares of New Marshall & Ilsley common stock to each holder of New Metavante common stock (other than the New Metavante Class A common stock) as of the record date for the distribution for each share of New Metavante common stock held of record and take the necessary actions to provide for the exchange of shares of Marshall & Ilsley common stock for shares of New Metavante common stock in the holding company merger (and, if applicable, a check representing cash in lieu of fractional shares of New Metavante common stock) and New Marshall & Ilsley common stock in the New Marshall & Ilsley share distribution.

Step 11: Conversion of Class A Common Stock. At 12:01 a.m. Eastern Standard Time on the day following the closing date, each share of New Metavante Class A common stock issued to Investor in Step 5 above will automatically convert into one share of New Metavante common stock, which shares of New Metavante common stock in the aggregate will represent 25% of the shares of New Metavante common stock. Immediately following the conversion of the New Metavante Class A common stock, the New Metavante common stock will be the only class of New Metavante capital stock outstanding.

Table of Contents

The diagrams below show the Marshall & Ilsley companies involved in the transactions prior to the transactions and after giving effect to the transactions.

Diagram 1: Current Structure of Marshall & Ilsley, Metavante and New Metavante

Diagram 2: Structure After Giving Effect to the Transactions

* To be renamed Metavante Technologies, Inc. in connection with the completion of the transactions.

** To be renamed Marshall & Ilsley Corporation in connection with the completion of the transactions.

The Holding Company Merger

In the holding company merger, Merger Sub, a direct, wholly-owned subsidiary of New Metavante, will be merged with and into Marshall & Ilsley with Marshall & Ilsley continuing as the surviving corporation and as a direct, wholly-owned subsidiary of New Metavante. Every three issued and outstanding shares of Marshall & Ilsley

Table of Contents

common stock will automatically convert into one share of New Metavante common stock; provided, that fractional shares of New Metavante will not be issued in connection with the holding company merger and holders of shares of common stock of Marshall & Ilsley that would otherwise be entitled to receive fractional shares of New Metavante common stock resulting from the holding company merger will be paid cash in lieu of such fractional shares (and therefore will not receive shares of New Marshall & Ilsley common stock in the New Marshall & Ilsley share distribution in respect of such fractional shares) in an amount equal to the value of such fractional shares based on the last sale price, or the closing bid price if no sale occurred, of Marshall & Ilsley common stock on the last business day prior to the closing of the transactions. Each issued and outstanding share of Merger Sub common stock will automatically convert into one share of common stock of the surviving corporation. As a result of the holding company merger, New Metavante will be a publicly-traded company that will own the equity of the companies that own and operate Marshall & Ilsley's banking business and Metavante's business.

Prior to the effective time of the holding company merger, New Metavante's board of directors will adopt, and Marshall & Ilsley, as the sole shareholder of New Metavante at that time, will approve the New Metavante restated articles of incorporation, the form of which is attached as Annex G, and the New Metavante amended and restated by-laws, the form of which is incorporated by reference into this document and filed as an exhibit to the registration statement of which this proxy statement/prospectus information statement is a part. The New Metavante restated articles of incorporation and amended and restated by-laws will contain provisions that differ from those of Marshall & Ilsley's articles of incorporation and amended and restated by-laws. See Comparison of Rights of Marshall & Ilsley, New Metavante and New Marshall & Ilsley Shareholders beginning on page 391. In addition, prior to the closing, New Metavante will enter into the shareholders agreement with Investor.

The Investment by Investor

Immediately following the Metavante distribution, Investor will purchase from New Metavante shares of New Metavante Class A common stock and a stock purchase right for an aggregate purchase price of \$625 million, which we refer to as the equity investment. The terms of the New Metavante Class A common stock provide that shares of such class are not entitled to participate in the New Marshall & Ilsley share distribution. At 12:01 a.m. Eastern Standard Time on the day following the closing date, each share of New Metavante Class A common stock will automatically convert into one share of New Metavante common stock, which shares of New Metavante common stock in the aggregate will represent 25% of the shares of New Metavante common stock.

The investment agreement provides that, at the closing of the transactions, New Metavante and Investor will enter into a stock purchase right agreement, which gives Investor the right to purchase shares of common stock of New Metavante if employee stock options that are outstanding immediately following the New Marshall & Ilsley share distribution are exercised after the share distribution. The stock purchase right agreement will ensure that Investor will own 25% of the common stock of New Metavante following consummation of the issuance and sale by New Metavante to Investor of New Metavante Class A common stock.

Debt Financing

Substantially contemporaneously with the investment by Investor, New Metavante and/or one or more of its subsidiaries will enter into a credit facility providing for a \$1.75 billion term loan and a \$250 million revolving credit facility, which we refer to collectively as the credit facility. Metavante has obtained a commitment letter from JPMorgan, JPMorgan Chase Bank, N.A., Morgan Stanley Senior Funding, Inc., Lehman Brothers Commercial Bank, Lehman Commercial Paper Inc., Lehman Brothers Inc., and Baird Financial Corporation, and certain of their respective affiliates (collectively, the committed financing parties), to provide the credit facility. For a description of the commitment letter and the anticipated terms of the debt financing, see Anticipated Terms of Financing Debt Financing, beginning on page 146.

The New Marshall & Ilsley Share Distribution

On or prior to the closing date, New Marshall & Ilsley's board of directors will adopt, and New Metavante, as the sole shareholder of New Marshall & Ilsley at that time, will approve the New Marshall & Ilsley restated

Table of Contents

articles of incorporation, the form of which is attached as Annex H, and the New Marshall & Ilsley amended and restated by-laws, the form of which is incorporated by reference into this document and filed as an exhibit to the registration statement of which this proxy statement/prospectus information statement is a part. The New Marshall & Ilsley restated articles of incorporation and amended and restated by-laws will contain provisions that differ from those of Marshall & Ilsley's articles of incorporation and by-laws. See Comparison of Rights of Marshall & Ilsley, New Metavante and New Marshall & Ilsley Shareholders, beginning on page 391. Prior to the New Marshall & Ilsley share distribution, New Marshall & Ilsley and New Metavante will cause the number of outstanding shares of New Marshall & Ilsley common stock to be increased to at least equal to the number of shares to be distributed to holders of record of New Metavante common stock in the New Marshall & Ilsley share distribution.

At the time established by the New Metavante board of directors, which will be on the closing date and after 5:00 p.m. Eastern Standard Time, New Metavante will effect the New Marshall & Ilsley share distribution.

New Metavante will effect the New Marshall & Ilsley share distribution by instructing the distribution agent to record in the stock transfer records of New Marshall & Ilsley the distribution of three shares of New Marshall & Ilsley common stock to each holder of New Metavante common stock (other than the New Metavante Class A common stock) as of the record date for the distribution for each share of New Metavante common stock held of record.

Restrictions on Payment of Dividends

Under the Wisconsin business corporation law, which we refer to as the WBCL, distributions are paid at the discretion of the board of directors of a Wisconsin corporation. The board may authorize, and the corporation may make, distributions to its shareholders, including in connection with the repurchase of the corporation's shares, in amounts to be determined by the board, unless: (i) after the distribution the corporation would not be able to pay its debts as they become due in the usual course of business or (ii) the corporation's total assets after the distribution would be less than the sum of its total liabilities, plus, unless the articles of incorporation provide otherwise, the amount that would be needed, upon dissolution, to satisfy the preferential rights of shareholders whose preferential rights are superior to those receiving the distribution, if the corporation were to be dissolved at the time of the distribution. Additionally, Section 183.0607 of the Wisconsin limited liability companies act, which we refer to as the WLLCA, contains a similar prohibition with respect to distributions by limited liability companies.

In addition, under U.S. federal bankruptcy laws or comparable provisions of state fraudulent transfer or fraudulent conveyance laws, a transfer or conveyance or the incurrence of an obligation is fraudulent if at the time of such transfer or conveyance or incurrence of such obligation, the transferor or obligor (a) made such transfer or conveyance or incurred such obligation with the intent to hinder, delay or defraud any present or future creditor or (b) received less than reasonably equivalent value or fair consideration for the transfer or conveyance or for the incurrence of the obligation and (i) was insolvent or rendered insolvent by reason of such transfer or conveyance or the incurrence of such obligation, (ii) was engaged in a business or transaction for which its remaining assets constituted unreasonably small capital, or (iii) intended to incur, or believed that it would incur, debts beyond its ability to pay as such debts mature.

The measures of insolvency may vary depending upon the applicable law. As a general matter, a transferor or obligor will be considered insolvent if (a) the sum of its debts, including contingent liabilities, is greater than the saleable value of its assets, (b) the present fair saleable value of its assets is less than the amount that would be required to pay its probable liabilities on its existing debts, including contingent liabilities as they become absolute and mature or (c) it cannot pay its debts as they become due.

These provisions will apply to New Metavante in connection with it declaring and effecting the distributions and to Metavante in connection with the transfer to New Metavante of the proceeds of the debt financing, as

Table of Contents

applicable. New Metavante must also have adequate capital in excess of the amount of the New Marshall & Ilsley share distribution, be solvent at the time of the making of the New Marshall & Ilsley share distribution and not become insolvent as a result of making such distribution.

It is a condition to the closing of the transactions that the Marshall & Ilsley Board, New Metavante and Metavante have received opinions of the valuation firm with respect to the capital adequacy and solvency of certain of the entities involved in the transactions.

See Risk Factors Risks Relating to the Transactions Under U.S. federal bankruptcy laws or comparable provisions of state fraudulent transfer laws, you could be required to return all or a portion of the cash and shares received in the distributions on page 36.

Receipt of Shares and Cash In Lieu of Fractional Shares

Holders of common stock of Marshall & Ilsley that are entitled to receive shares of New Metavante in the holding company merger and shares of New Marshall & Ilsley common stock and cash in lieu of fractional shares in the distribution will receive those shares and cash in the manner described below.

New Metavante and New Marshall & Ilsley Shares. The exchange agent will:

record in the stock transfer records of New Metavante the issuance of one share of New Metavante common stock to each holder of Marshall & Ilsley common stock as of the effective time of the holding company merger for every three shares of Marshall & Ilsley common stock held of record; and

record in the stock transfer records of New Marshall & Ilsley the distribution of three shares of New Marshall & Ilsley common stock to each holder of New Metavante common stock (other than the New Metavante Class A common stock) as of the record date for distributions for each share of New Metavante common stock held of record.

In addition, following the closing date, the exchange agent will mail to holders of record of stock certificates representing shares of Marshall & Ilsley common stock a letter of transmittal and instructions on how to surrender their shares of Marshall & Ilsley common stock. Upon surrender of such shares to the exchange agent, each such holder will receive the number of shares of New Metavante common stock into which such holder's shares of Marshall & Ilsley common stock were converted in the holding company merger (and, if applicable, a check representing cash in lieu of fractional shares of New Metavante common stock) and the number of shares of New Marshall & Ilsley common stock distributed to such holder in the New Marshall & Ilsley share distribution. Unless holders of stock certificates representing shares of Marshall & Ilsley common stock request physical certificates in the letter of transmittal, they will receive shares of New Metavante common stock and shares of Marshall & Ilsley common stock in book-entry form.

Holders of shares of Marshall & Ilsley common stock that are not represented by one or more stock certificates, including shares held in street name through a broker, will receive the applicable number of shares of New Metavante common stock (and, if applicable, a check representing cash in lieu of fractional shares of New Metavante common stock) and the applicable number of shares of New Marshall & Ilsley common stock without any action on the part of such holders and will receive shares of New Metavante common stock and shares of New Marshall & Ilsley common stock in book-entry form.

Fractional Shares of New Metavante. Fractional shares of New Metavante will not be issued in connection with the holding company merger. Holders of shares of common stock of Marshall & Ilsley that would otherwise be entitled to receive fractional shares of New Metavante resulting from the holding company merger will be paid cash in lieu of such fractional shares (and therefore will not receive shares of New Marshall & Ilsley common stock in respect of such fractional shares) in an amount equal to the value of such fractional shares based on the last sale price, or the closing bid price if no sale occurred, of Marshall & Ilsley common stock on

Table of Contents

the last business day prior to the closing of the transactions. Following the closing date, the distribution agent will pay to holders of record of New Metavante common stock (other than the New Metavante Class A common stock) as of the record date for the distribution the amount of cash in lieu of fractional shares of New Metavante to which such holder is entitled.

For example, if you hold 100 shares of Marshall & Ilsley common stock, you will receive:

33 shares of New Metavante common stock plus cash in lieu of the one-third share of New Metavante common stock that you would otherwise be entitled to receive; and

99 shares of New Marshall & Ilsley common stock.

Determination of Investment by Investor; Stock Purchase Right Agreement

The New Metavante share issuance is intended to provide Investor with shares of New Metavante Class A common stock that will be convertible into shares of New Metavante common stock representing 25% of the shares of New Metavante common stock.

The number of shares of New Metavante common stock that would represent 25% of the New Metavante common stock at the closing of the transactions could not be fixed on the date of execution of the investment agreement, however, because the number of issued and outstanding shares of Marshall & Ilsley will change between the date of execution of the investment agreement and the closing date. Accordingly, the investment agreement provides for a formula pursuant to which Investor and Marshall & Ilsley mutually will determine the number of shares of New Metavante Class A common stock to be acquired by Investor in the New Metavante share issuance so that such shares will convert into shares of New Metavante common stock representing 25% of the shares of New Metavante common stock, which number will be determined by multiplying (i) one-third by (ii) the sum of the number of shares of Marshall & Ilsley common stock outstanding immediately prior to the closing of the transactions and the number of restricted shares of Marshall & Ilsley common stock outstanding at that time. See The Investment by Investor on page 65.

The investment agreement provides that, at the closing of the transactions, New Metavante and Investor will enter into a stock purchase right agreement, which gives Investor the right to purchase shares of common stock of New Metavante if employee stock options that are outstanding immediately following the New Marshall & Ilsley share distribution are exercised after the share distribution. The stock purchase right agreement will ensure that Investor will own 25% of the common stock of New Metavante following consummation of the issuance and sale by New Metavante to Investor of New Metavante Class A common stock.

Background of the Transactions

In 2003, Mr. Martire was appointed as President and Chief Executive Officer of Metavante and undertook a strategy of growing Metavante's business through acquisitions. This strategy resulted in Metavante completing 17 acquisitions between March 2003 and March 2007 for an aggregate purchase price of approximately \$1.6 billion. In order to ensure effective Board involvement in Metavante's growth strategy, in 2005, the Marshall & Ilsley Board established the Metavante Acquisition Review Committee to review and make recommendations to the Marshall & Ilsley Board with respect to acquisitions by Metavante and with respect to other strategic initiatives involving Metavante. The members of the Metavante Acquisition Review Committee are Messrs. Dennis J. Kuester (Chairman), Mark F. Furlong, Ted D. Kellner, San W. Orr, Jr., Robert J. O. Toole, John S. Shiely and James B. Wigdale.

These acquisitions by Metavante used a significant portion of Marshall & Ilsley's capital. Due to Marshall & Ilsley's reduced capital position, both Metavante and Marshall & Ilsley were constrained in using cash for acquisitions. In response to this capital issue, the Marshall & Ilsley Board began exploring a variety of strategic alternatives in the second half of 2005 with regard to Metavante. In particular, the Marshall & Ilsley

Table of Contents

Board explored several transactions in which Metavante would be spun off and merged with another company. The Marshall & Ilsley Board and the Metavante Acquisition Review Committee have also reviewed other strategic alternatives including an initial public offering of Metavante common stock, a distribution of 100% of Metavante's common stock to the Marshall & Ilsley shareholders and an outright sale of Metavante. The exploration of certain of these strategic alternatives progressed further than others; however, by the fall of 2006, none of them had come to fruition. In the case of an initial public offering of Metavante common stock and a distribution of Metavante's common stock to Marshall & Ilsley shareholders, Marshall & Ilsley determined that such transactions would not create sufficient value to Marshall & Ilsley's shareholders to support a decision to move forward. An outright sale of Metavante was determined to have adverse tax results to Marshall & Ilsley. With regard to a possible spin-off of Metavante followed by a merger of Metavante with another company, no discussions with third parties had progressed beyond preliminary stages.

On September 14, 2006, a meeting of the Metavante Acquisition Review Committee was held at which members of management and representatives of JPMorgan were present. JPMorgan had been engaged to assist in a review of strategic alternatives available with respect to Metavante. At the meeting, representatives of JPMorgan made a presentation that included the following strategic alternatives: a spin-off of Metavante followed by a combination with another company, a spin-off of Metavante as a stand-alone public company and a spin-off of Metavante coupled with an investment in it by a private equity firm. The Committee discussed the alternatives presented as well as the possibility of not entering into any of the proposed transactions. The Committee noted the continued constraints on capital faced by Marshall & Ilsley. The Committee authorized management to contact three potential strategic partners, each of which operated in businesses that were the same as, or complementary to, Metavante's business, to determine whether any of them were interested in pursuing a Reverse Morris Trust transaction in which Metavante would be separated from Marshall & Ilsley in a tax free spin-off and would then merge with the other company. The Committee believed that these three companies offered the highest level of potential synergies in a combination with Metavante.

On September 20, 2006, a meeting of the Marshall & Ilsley Board was held at which representatives of JPMorgan made a presentation on the various strategic transaction alternatives available to Marshall & Ilsley with respect to Metavante, noting that acquisitions are an important part of the growth strategy for each of Marshall & Ilsley and Metavante and their respective industries and that, while in the past they have been fortunate not to have required funds for growth at the same time, ultimately one or both institutions could become disadvantaged in pursuing their respective acquisition strategies due to capital constraints. Representatives of JPMorgan also indicated that both companies were well-positioned within their respective industries and each had the ability to stand on its own. Representatives of JPMorgan also reviewed with the Board strategic options for Metavante that had been considered but were not being pursued. Mr. Kuester, then the Chairman and Chief Executive Officer of Marshall & Ilsley, discussed the possibility of missed opportunities if Marshall & Ilsley was unable to provide capital to both Marshall & Ilsley and Metavante for growth at any given time and pointed to recent acquisition possibilities that, if all had come to fruition, would have severely stressed Marshall & Ilsley's capital resources. After discussion, the Marshall & Ilsley Board approved the recommendation of the Metavante Acquisition Review Committee to pursue discussions regarding the possibility of a spin-off/merger transaction between Metavante and each of the three companies considered to be likely strategic partners.

On several occasions since Mr. David Coulter joined Warburg Pincus as a managing director in December 2005, Mr. Coulter and Mr. Dennis Kuester, Chairman and Chief Executive Officer of Marshall & Ilsley, had informal, non-specific discussions about the possibility of Warburg Pincus investing in Metavante. In addition, from time to time officers and other representatives of Metavante met with representatives of Warburg Pincus as part of their discussions with a number of private equity firms regarding various transactional opportunities in Metavante's industry. In October 2006, Mr. Coulter contacted Mr. Kuester on a more formal basis to propose a meeting to discuss a possible transaction relating to Metavante.

On October 31, 2006, Messrs. Coulter, James Neary and Patrick T. Hackett from Warburg Pincus and Messrs. Kuester, Martire, Michael D. Hayford, Senior Executive Vice President and Chief Operating Officer of

Table of Contents

Metavante, and Donald W. Layden, Jr., Senior Executive Vice President of Metavante, met. At the meeting, Mr. Coulter proposed a possible sponsored spin transaction in which Metavante would be separated from Marshall & Ilesley and Warburg Pincus would invest in the post-spin-off Metavante entity. Mr. Coulter and Mr. Neary stated that this transaction structure would allow Marshall & Ilesley to receive cash in a tax-efficient manner and that the ownership stake of Warburg Pincus in the Metavante entity would lend credibility to Metavante as an independent company and provide market support for its equity securities after the spin-off. Following the meeting, Metavante made limited financial information, consisting of summary historical and business plan information, available to Warburg Pincus pursuant to a standard form of confidentiality agreement.

Between September 20, 2006 and the end of November 2006, the three companies identified as potential strategic partners were contacted by representatives of Marshall & Ilesley. Two of the companies contacted were either not interested in pursuing a transaction with Metavante or not interested in pursuing a transaction on terms acceptable to Marshall & Ilesley. Marshall & Ilesley did pursue spin-off/merger transaction discussions with the third company, but that company was acquired by another company in an all-cash transaction announced in late November 2006.

On November 30, 2006, Warburg Pincus sent a letter to Mr. Kuester proposing a spin-off of Metavante in which Warburg Pincus would purchase between 25% and 35% of the outstanding equity securities of the post-spin-off Metavante entity at an enterprise valuation of between \$4.0 and \$4.2 billion, with the balance of the shares of the post-spin-off Metavante entity being held by the public shareholders of Marshall & Ilesley. The proposal also provided that Metavante would incur \$1 to \$2 billion of indebtedness to allow Marshall & Ilesley to receive up to \$3 billion in cash and/or repayment of indebtedness owed by Metavante to Marshall & Ilesley in the transaction in a tax efficient manner. The proposal did not contemplate any transfer of outstanding indebtedness obligations of Marshall & Ilesley to Metavante. In its proposal, Warburg Pincus noted that it had already retained financial, legal and accounting advisors to assist it in transaction structuring and due diligence.

The Metavante Acquisition Review Committee and the Marshall & Ilesley Board were updated by management on the contacts with Warburg Pincus on December 19 and December 21, 2006, respectively. No specific action was taken with respect to the Warburg Pincus proposal at that time and, in late December, Mr. Kuester informed Mr. Coulter that Marshall & Ilesley would not be taking further action with respect to the Warburg Pincus proposal before the end of the year.

In early January 2007, Mr. Coulter again contacted Mr. Kuester to follow up on their earlier discussion regarding a possible sponsored spin. Mr. Kuester informed Mr. Coulter that the proposal would be discussed with the Metavante Acquisition Review Committee and the Marshall & Ilesley Board.

On January 23, 2007, during a Metavante Acquisition Review Committee meeting, management provided a recap of discussions with Warburg Pincus concerning a potential sponsored spin transaction involving Metavante and indicated that Warburg Pincus was placing a total enterprise value in the range of \$4 billion to \$4.25 billion on Metavante, assuming approximately \$1.5 billion of debt. Management indicated that the proposal contemplated Warburg Pincus purchasing approximately 30% of Metavante and a \$500 million cash distribution to Marshall & Ilesley. Management also reviewed a presentation prepared by JPMorgan which included a comparison of the Warburg Pincus proposal with other spin-off/merger proposals recently considered by the Committee as well as a spin-off of Metavante as a stand alone company. The Committee discussed the Warburg Pincus proposal as well as other possible transactions for separating Metavante from Marshall & Ilesley. The Committee directed management to obtain more information about the Warburg Pincus proposal so that it could determine whether to pursue it.

On January 29, 2007, Marshall & Ilesley and Warburg Pincus entered into a confidentiality agreement following which Warburg Pincus was granted access to a data room containing information with respect to Metavante. Representatives of Marshall & Ilesley and Warburg Pincus agreed that, after Warburg Pincus had completed its due diligence review, it would provide Marshall & Ilesley with a revised proposal for a possible transaction.

Table of Contents

At a February 15, 2007 meeting of the Marshall & Ilsley Board, Mr. Kuester reported on the meeting of the Metavante Acquisition Review Committee and the discussions with Warburg Pincus and noted again that Marshall & Ilsley's and Metavante's businesses were vying for the limited capital resources of Marshall & Ilsley and that recent timing of acquisitions could have placed both businesses in the difficult position of having to choose among the acquisitions available had they all moved forward. He also reviewed the possible scenarios for separating the businesses, including the recent negotiations with the three potential strategic partners, and noted the potential to leverage Metavante's balance sheet to increase the capital of the banking business. He also reported that the Metavante Acquisition Review Committee had authorized management to seek a revised proposal from Warburg Pincus for consideration by the Committee.

On February 15, 2007, Mr. Coulter and Mr. Neary sent a letter to Mr. Kuester containing Warburg Pincus' revised proposal relating to the transaction. The revised proposal provided for a spin-off of Metavante in which Warburg Pincus would purchase between 20% and 35% of the outstanding equity securities of the post-spin-off Metavante entity at an enterprise valuation of \$4.1 billion.

On February 17, 2007, the Metavante Acquisition Review Committee met to review the Warburg Pincus proposal. Also present were members of management and representatives of JPMorgan and Marshall & Ilsley's counsel, Sidley Austin. Representatives of JPMorgan reviewed the financial and other terms of the Warburg Pincus proposal as well as the proposed transaction structure, which contemplated a series of transactions resulting in new holding companies for both Metavante and Marshall & Ilsley, a spin-off of the holding company for Marshall & Ilsley's banking business to Marshall & Ilsley shareholders and an investment by Warburg Pincus in the resulting Metavante holding company. The Committee also received a summary of the due diligence with respect to the proposed transaction conducted by management of Marshall & Ilsley and Sidley Austin. At the meeting, the Metavante Acquisition Review Committee authorized management and JPMorgan to enter into discussions with Warburg Pincus with a view to negotiate an increase to the total enterprise valuation of Metavante to be used in determining the consideration to be paid by Warburg Pincus for its equity stake in the post-spin-off Metavante entity.

Later on February 17, 2007, representatives of JPMorgan contacted representatives of Warburg Pincus and indicated that Marshall & Ilsley believed that an enterprise valuation of Metavante of \$4.5 billion was appropriate and requested that Warburg Pincus provide a revised proposal using a higher enterprise valuation, which would allow a greater amount of indebtedness to be incurred by Metavante resulting in more cash being distributed to Marshall & Ilsley in the transactions. On February 22, 2007, Mr. Coulter and Mr. Neary sent a letter to Mr. Kuester containing a further revised proposal of Warburg Pincus. The proposal provided for a spin-off of Metavante in which Warburg Pincus would purchase between 20% and 30% of the outstanding equity securities of the post-spin-off Metavante entity at an enterprise valuation of \$4.25 billion. The proposal also provided that Metavante would incur \$1.75 billion of indebtedness and that, at closing, Metavante would repay all indebtedness owed by it to Marshall & Ilsley and contribute all of its excess cash to Marshall & Ilsley, subject to Metavante retaining at least \$50 million of cash following the consummation of the transactions.

On February 23, 2007, the Metavante Acquisition Review Committee met to review the revised Warburg Pincus proposal, a copy of which had been distributed to the Committee members in advance of the meeting. Also present were members of management and representatives of JPMorgan. Representatives of JPMorgan reviewed the financial and other terms of the revised proposal from Warburg Pincus, including comparing it to the prior proposal, and answered questions of the Committee. The Committee discussed the revised proposal, including the impact of the proposed Metavante debt on its ability to carry out future acquisitions, the level of cash to be received by Marshall & Ilsley from the transaction and the merits of seeking alternative proposals from other parties and the related timing considerations involved in doing so. Representatives of JPMorgan discussed with the Committee the merits and risks of seeking alternative proposals. The representatives of JPMorgan noted that, although it was possible that a higher valuation could be obtained by conducting a process with a number of potential parties, the potential for receiving offers significantly above the level offered by Warburg Pincus was, in JPMorgan's view, relatively limited, given the enterprise valuations implied by the

Table of Contents

Warburg Pincus proposal compared to the likely valuation ranges for Metavante. In this regard, JPMorgan noted that the Warburg Pincus proposal implied an enterprise valuation for Metavante of \$4.25 billion, compared to the preliminary enterprise valuation range for Metavante implied by JPMorgan's preliminary analyses as of that date of \$4.0 billion to \$4.5 billion. The Committee also discussed the relatively small impact that an improvement in the enterprise valuation attributed to Metavante in the revised Warburg Pincus proposal would have on the cash proceeds ultimately received by Marshall & Ilsley and the value retained by Marshall & Ilsley shareholders who received New Metavante shares in the transaction. In addition, the representatives of JPMorgan also discussed the risk that seeking alternative proposals could jeopardize the revised Warburg Pincus proposal, the incremental time required to seek firm alternative proposals and the potential for market and business conditions to change during this period. The Committee also discussed the possibility that distraction of Metavante's management during the process could negatively impact Metavante's value and the objective of maximizing the value of the transaction, which included the majority stake being retained by shareholders of Marshall & Ilsley and the cash distribution being made to Marshall & Ilsley. The Committee also considered the advisability of seeking a higher valuation from Warburg Pincus. The Committee then met without the representatives of JPMorgan, and further discussed the transaction, including the view of management that Warburg Pincus is a premier private equity investor and would make for a good partner and the recommendation of Messrs. Kuester and Martire to move forward with the current proposal. After discussion, the Committee unanimously approved management's recommendation.

Following the meeting, representatives of Marshall & Ilsley and Warburg Pincus held further discussions regarding the principal terms of the proposed transaction. In the course of the negotiations, it was proposed that Warburg Pincus would acquire 25% of the shares of Metavante, which would result in an aggregate purchase price of \$625 million at the agreed upon enterprise valuation of \$4.25 billion.

On February 28, 2007, a meeting of the Marshall & Ilsley Board was held at which representatives of JPMorgan were present. The Board received an update on the negotiations with Warburg Pincus and the proposed transaction as well as on the deliberations of the Metavante Acquisition Review Committee and its recommendation that the Marshall & Ilsley Board authorize the negotiation of a transaction with Warburg Pincus on the terms outlined in its revised proposal. Representatives of JPMorgan reviewed the financial and other terms of the revised Warburg Pincus proposal. Mr. Kuester provided to the Marshall & Ilsley Board background information regarding Warburg Pincus, including that it currently held investments in four technology companies and that it is considered a premier equity sponsor which takes a long-term view on its investments. At the meeting, the Board authorized management to move forward with negotiation of definitive agreements with Warburg Pincus with respect to the proposed transaction.

On March 2, 2007, Sidley Austin provided drafts of the investment agreement, separation agreement, employee matters agreement and form of shareholders agreement for the transactions to Warburg Pincus and its legal advisor, Wachtell, Lipton, Rosen & Katz, which we refer to as Wachtell Lipton. Because Metavante has been operated as a separate and distinct subsidiary of Marshall & Ilsley for several years, there were no substantive negotiations with regard to the division of assets between Marshall & Ilsley and Metavante; the draft separation agreement provided for Marshall & Ilsley to retain all assets primarily relating to its business and Metavante to retain all assets primarily relating to its business. Drafts of the tax allocation agreement and limited guaranty relating to the transactions were provided to Warburg Pincus and Wachtell Lipton by Sidley Austin during the week of March 5, 2007. On March 12, 2007, Wachtell Lipton delivered comments on the investment agreement, the separation agreement and the form of shareholders agreement to Marshall & Ilsley and Sidley Austin. On March 16, 2007, Marshall & Ilsley delivered to Warburg Pincus and Wachtell Lipton drafts of the business agreements between Marshall & Ilsley and Metavante that would survive the consummation of the transactions. These agreements included an administrative services agreement under which Marshall & Ilsley will provide employee benefits, payroll and related services to New Metavante for a limited period after the consummation of the transactions.

From March 19, 2007 to April 3, 2007, representatives of Warburg Pincus, Wachtell Lipton, Marshall & Ilsley, Metavante, JPMorgan and Sidley Austin held a series of calls to negotiate various open issues in the

Table of Contents

transaction agreements, including the applicable termination provisions and termination fees, provisions relating to solicitation of competing proposals and the provisions of the shareholders agreement of New Metavante, and exchanged revised drafts of the agreements. At the same time, representatives of Warburg Pincus and Wachtell Lipton conducted a due diligence investigation of Metavante.

During the same period, representatives of the parties had a number of discussions relating to the amount of cash to be contributed by Metavante to Marshall & Ilsley in connection with the transactions and the amount of cash that would be required to be retained by New Metavante after the consummation of the transactions and the payment of the expenses of Marshall & Ilsley, Metavante and Warburg Pincus relating to the transactions. Representatives of Marshall & Ilsley expressed a desire to have certainty as to the amount of cash to be contributed by Metavante to Marshall & Ilsley in connection with the transactions. As a result of negotiations, the parties agreed that, instead of having all of Metavante's cash in excess of a fixed amount contributed by Metavante to Marshall & Ilsley, the amount of cash to be contributed by Metavante to Marshall & Ilsley would be fixed at \$1.665 billion, consisting of the \$625 million purchase price paid by Warburg Pincus for its investment in Metavante and an additional \$1.040 billion in cash, which is expected to be funded with \$290 million of the excess cash of Metavante and \$750 million of proceeds from the \$1.75 billion of indebtedness to be incurred by Metavante. The principal point of the negotiations that led to agreement between the representatives of Marshall & Ilsley and the representatives of Warburg Pincus on the \$1.040 billion portion of the cash to be contributed to Marshall & Ilsley was the level of indebtedness that could be incurred by Metavante while still allowing adequate capacity for working capital, acquisitions and capital expenditures; considerations in these negotiations also included anticipated credit ratings and a desire for Metavante's debt/forward EBITDA ratio to be below 4.0x. In determining the \$290 million of excess cash of Metavante to be contributed to Marshall & Ilsley, the parties also considered Metavante's expected cash position of approximately \$121 million on the closing date. Therefore, the \$1.040 billion portion of the cash to be contributed to Marshall & Ilsley represents an amount negotiated between the representatives of Marshall & Ilsley and the representatives of Warburg Pincus with the end result being an amount that the parties believed would allow Metavante adequate capacity for working capital, acquisitions and capital expenditures. This amount was not determined based on the tax basis or value of the assets that comprise the Metavante business or on any other basis other than as described above.

In addition, Metavante would use the proceeds from the debt financing to repay all indebtedness and accrued and unpaid interest owed by Metavante to Marshall & Ilsley. Metavante would retain any additional excess cash and debt financing proceeds for working capital purposes and to pay specified expenses of the transaction. The parties also agreed that each party would bear its own expenses if the transactions were not consummated and that Metavante would pay the expenses of Warburg Pincus if the transactions were consummated. It was agreed that all fees and expenses relating to the contemplated debt financing (including the fees of the lending banks) would be paid by New Metavante.

In the early morning of April 3, 2007, Sidley Austin distributed revised drafts of the investment agreement, separation agreement, shareholders agreement, limited guaranty, tax allocation agreement and employee matters agreement reflecting the discussions to date.

On April 3, 2007, the Marshall & Ilsley Board held a meeting to consider the proposed transaction and the transaction agreements. Also present at the meeting were members of management and representatives of JPMorgan and Sidley Austin. Management provided an overview of the transaction, including a description of the structure, and discussed applicable valuation and economics. Management also reviewed corporate governance issues and the expected composition of the board of directors of New Metavante. Representatives of JPMorgan provided JPMorgan's financial analysis of the proposed transaction, copies of which had been provided to the Marshall & Ilsley Board prior to the meeting, and delivered its oral view, subsequently confirmed in its valuation letter dated April 3, 2007, that, based on and subject to various assumptions described in such valuation letter, Metavante had, as of that date, an enterprise value in the range between \$3.8 billion and \$4.4 billion. During the course of its presentation, JPMorgan noted that the financial analyses contained in its financial presentation were substantially similar to the preliminary financial analyses contained in JPMorgan's preliminary presentation to the Marshall & Ilsley Board on February 23, 2007 (described above). The differences in the range of enterprise value principally

Table of Contents

reflected the inclusion of updated financial information for Metavante, including updated financial projections provided to JPMorgan by Marshall & Ilsley's management reflecting an increase of approximately \$100 million in projected license and internal and external software development capital expenditures associated with the strategic alliance between Metavante and TEMENOS. In addition, the organic revenue growth projections for 2008 through 2011 were reduced from 7% to 4% to reflect management's revised expectations of Metavante's performance, taking into account Metavante's performance during the first quarter of 2007 as well as expectations for the rest of 2007 through 2011. These two items resulted in the reduction of Metavante's enterprise value as compared to the range of enterprise values included in JPMorgan's February 23, 2007 preliminary presentation. Representatives of Sidley Austin provided an overview of the fiduciary duties of the Marshall & Ilsley Board members under applicable law as well as a summary of the material terms of the transaction agreements, copies of drafts of which had been provided to the Marshall & Ilsley Board prior to the meeting. Representatives of Sidley Austin also discussed the anticipated tax treatment of the transaction and answered questions of the directors. Management then provided a summary of the employee matters agreement as well as of the continuing business agreements between Marshall & Ilsley and Metavante. Management then gave its recommendation to the Marshall & Ilsley Board that the proposed transactions be approved. Following discussion, the representatives of JPMorgan and Sidley Austin left the meeting and the Marshall & Ilsley Board unanimously determined that the investment agreement and the transactions contemplated thereby were advisable and in the best interests of Marshall & Ilsley and its shareholders and adopted the investment agreement and the separation agreement and approved the transactions contemplated by these agreements. Management then presented its communication plan relating to the transaction.

Through the day of April 3, 2007, members of management and representatives of Warburg Pincus, Sidley Austin and Wachtell Lipton finalized the transaction agreements, the disclosure schedules to the investment agreement and the schedules to the separation agreement. In the late afternoon of April 3, 2007, Marshall & Ilsley, Investor and the other parties to the investment agreement executed the investment agreement, and the parties to the separation agreement, the tax allocation agreement, the employee matters agreement and the limited guaranty executed those agreements. Also that afternoon, Metavante, JPMorgan Chase Bank, JPMorgan and Morgan Stanley Senior Funding, Inc. executed the commitment letter for debt financing and Warburg Pincus delivered its equity commitment to provide the necessary funding to Investor to consummate its investment in New Metavante. In addition, Marshall & Ilsley and Metavante executed the continuing business agreements between the parties.

Following the execution of the transaction agreements, in the late afternoon of April 3, 2007 Marshall & Ilsley issued a press release announcing that it had entered into the definitive investment agreement and the related transaction agreements.

Marshall & Ilsley's Reasons for the Transactions; Recommendation of the Marshall & Ilsley Board

The Marshall & Ilsley Board has unanimously approved and adopted the investment agreement and determined that the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, are advisable and in the best interests of Marshall & Ilsley and its shareholders and recommends that Marshall & Ilsley shareholders vote FOR the proposal to approve and adopt the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance.

In reaching its decision to approve and adopt the investment agreement and the transactions contemplated by the investment agreement and recommend that Marshall & Ilsley shareholders approve and adopt the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, the Marshall & Ilsley Board consulted with Marshall & Ilsley's management, as well as its financial and legal advisors, and considered a variety of factors weighing positively in favor of the transactions, including the following:

Provides Both Companies with Access to Dedicated Sources of Capital for Organic Growth and Acquisitions. The Marshall & Ilsley Board considered that both Marshall & Ilsley's banking business and Metavante's business

Table of Contents

required significant capital to continue internal growth and acquisition strategies and that the separation of Marshall & Ilsley and Metavante provides each with access to independent dedicated sources of capital. The Marshall & Ilsley Board noted that although New Metavante will not receive any proceeds from the investment by Investor or the indebtedness to be incurred by New Metavante and/or one or more of its subsidiaries in connection with the transactions and that a portion of Metavante's excess cash will be distributed to New Marshall & Ilsley in connection with the transactions, New Metavante would be in a better position to finance its internal growth and acquisition strategies after the closing of the transactions because it will be able to dedicate its excess cash to Metavante's business rather than funding Marshall & Ilsley's business and will have its own equity currency to use as consideration in acquisitions. The Marshall & Ilsley Board considered the restrictions that will be placed on New Metavante's ability to incur additional debt pursuant to the credit facility governing the indebtedness to be incurred in connection with the transactions as described under *Anticipated Terms of Financing*, the restrictions on the issuance of additional equity by New Metavante as described under *Risk Factors - Risks Relating to Metavante and New Metavante* and Metavante's estimated cash balance after the expected contribution of \$290 million in cash to Marshall & Ilsley in connection with the transactions, and concluded that, New Metavante would have adequate financing from cash flow generated from its operations and permitted debt and equity financing to fund its internal growth and acquisition strategies.

Financial Terms of the Investment Agreement; Receipt by Marshall & Ilsley of Cash. The Marshall & Ilsley Board considered the financial terms of the investment agreement, including:

the \$625 million investment that Investor will make in New Metavante prior to the New Marshall & Ilsley share distribution;

the approximately \$1.75 billion of indebtedness that New Metavante and/or one or more of its subsidiaries will incur prior to the New Marshall & Ilsley share distribution;

the repayment by Metavante of certain intercompany indebtedness plus accrued and unpaid interest owed to Marshall & Ilsley (the amount currently owed is approximately \$982 million);

the contribution by New Metavante to New Marshall & Ilsley of \$1.665 billion in cash (which includes the \$625 million of proceeds from the sale of the New Metavante common stock to Investor and the \$1.040 billion distribution of cash received from Metavante); and

that under the investment agreement New Metavante or Metavante will pay all of Investor's expenses related to the transactions. The Marshall & Ilsley Board evaluated the historic financial condition and operating results of Marshall & Ilsley's banking business and Metavante's business, including information with respect to their respective earnings history, as well as the prospects of each business. The Marshall & Ilsley Board also evaluated analyses and other financial information related to Metavante, Marshall & Ilsley and the transactions.

Strategic Alternatives. The Marshall & Ilsley Board considered various strategic alternatives to the transactions, including:

continuing to operate both Marshall & Ilsley's banking business and Metavante's business;

an initial public offering of Metavante's common stock or a spin-off of 100% of Metavante's business to Marshall & Ilsley's existing shareholders;

a sale of Metavante's business to a financial or strategic buyer; and

Edgar Filing: MARSHALL & ILSLEY CORP/WI/ - Form DEFM14A

a spin-off of Metavante's business combined with a merger of the Metavante business with another public company. The Marshall & Ilsley Board considered that the transaction with Investor combined benefits of several other potential transactions by using a tax efficient structure to provide Marshall & Ilsley shareholders with the opportunity to participate in the potential growth of Metavante's business while also permitting Marshall & Ilsley

Table of Contents

to receive cash in the transactions and Metavante to obtain the benefits of a significant equity investment from Warburg Pincus, including the market credibility resulting from Warburg Pincus' valuation of Metavante, access to Warburg Pincus' financial expertise, industry knowledge and global contacts and potential future equity financing by Warburg Pincus.

Improved Tangible Capital Position of Marshall & Ilsley. The Marshall & Ilsley Board took into account the fact that the transactions would benefit Marshall & Ilsley by increasing Marshall & Ilsley's tangible capital by an estimated \$1.8 billion and providing total cash proceeds to Marshall & Ilsley of approximately \$2.6 billion.

Continued Participation of Marshall & Ilsley Shareholders in Potential Success of New Marshall & Ilsley and New Metavante. The Marshall & Ilsley Board considered that effecting the separation of New Marshall & Ilsley and New Metavante would allow Marshall & Ilsley shareholders to continue to participate in the potential growth and success of each company. The Marshall & Ilsley Board noted that upon completion of the transactions, Marshall & Ilsley shareholders would receive shares of New Marshall & Ilsley that represent 100% of the issued and outstanding shares of New Marshall & Ilsley common stock and shares of New Metavante common stock that, giving effect to the investment by Investor, will represent 75% of the issued and outstanding shares of New Metavante common stock.

Better Alignment of Employee Incentive Awards. The Marshall & Ilsley Board considered that the separation will result in the equity securities of each of New Marshall & Ilsley and New Metavante being publicly traded with a valuation that is expected to reflect more closely the efforts and performance of each company's management. Such equity securities should enable each company to provide incentive compensation arrangements, including stock options and restricted stock, for its key employees that are directly related to the market performance of each company's common stock. The Marshall & Ilsley Board believes that equity-based compensation arrangements tied more closely to the performance of the respective companies should provide enhanced incentives for performance and improve the ability for each company to attract, retain and motivate qualified personnel.

Potential for Contribution by Warburg Pincus to New Metavante. The Marshall & Ilsley Board considered Warburg Pincus' reputation for making operational and strategic contributions to companies in which it has invested and the potential for Warburg Pincus to make similar beneficial contributions to the business of New Metavante, including providing New Metavante access to Warburg Pincus' financial expertise, industry knowledge in technology and financial services and global contacts through Warburg Pincus' representatives on New Metavante's board of directors.

Debt Level of Metavante and Ability to Pursue Acquisitions. The Marshall & Ilsley Board considered that the debt incurred by New Metavante and/or one of its subsidiaries in connection with the consummation of the transactions should not preclude New Metavante from pursuing future transactions or its growth strategy because the cash flow from New Metavante's operations is expected to be adequate to provide New Metavante with capital resources to pursue acquisitions after meeting its debt service obligations and New Metavante will have the ability to obtain debt financing under the terms of the credit facility governing the indebtedness to be incurred in connection with the transactions subject to the restrictions described under "Anticipated Terms of Financing" and to obtain equity financing, including from Warburg Pincus, subject to the restrictions described under "Risk Factors - Risks Relating to Metavante and New Metavante." The Marshall & Ilsley Board noted that the commitment letter for the credit facility provided that these restrictions would be customary in nature and concluded that, although these restrictions would restrict the ability of New Metavante to incur additional debt, these restrictions would not impede New Metavante's growth and acquisition plans.

Terms of the Separation Agreement and Investment Agreement. The Marshall & Ilsley Board reviewed and considered the terms of the investment agreement and the separation agreement, including:

that Marshall & Ilsley has the ability to terminate the investment agreement under a number of circumstances, including in order to accept a proposal from a third party to acquire Marshall & Ilsley and its subsidiaries, including Metavante, subject to paying a \$75 million fee;

Table of Contents

that the completion of the transactions is subject to, among other things, (i) New Metavante obtaining a private letter ruling and New Metavante and Marshall & Ilsley obtaining an opinion of counsel, in each case, with respect to the tax-free nature of the New Marshall & Ilsley share distribution and (ii) the receipt of capital adequacy and solvency opinions with respect to Marshall & Ilsley and certain of its subsidiaries as described under The Investment Agreement Shareholders Meeting; Conditions to the Completion of the Transactions;

that the Marshall & Ilsley Board has the right to change its recommendation of the transactions under certain circumstances if failure to do so would be inconsistent with the board of directors fiduciary duties to its shareholders under applicable laws, and that doing so may result in Marshall & Ilsley being required to pay Investor a termination fee of \$75 million as described under The Investment Agreement Covenants No Solicitation of Acquisition Proposals; Recommendation of Marshall & Ilsley Board; and

that under specified circumstances either Marshall & Ilsley or Investor would be required to pay a termination fee if the investment agreement was terminated.

The Marshall & Ilsley Board also considered the course of negotiations of the transaction agreements.

Valuation Letter of the Financial Advisor. The Marshall & Ilsley Board considered the view of JPMorgan, orally provided to the Marshall & Ilsley Board on April 3, 2007, and subsequently confirmed by delivery of a written valuation letter, dated as of the same date, that as of that date and based upon and subject to the assumptions made, procedures followed, matters considered, and qualifications and limitations set forth in the valuation letter, the range of enterprise values of Metavante was between \$3.8 billion and \$4.4 billion, which would imply a range of values between approximately \$515 million and \$665 million for the proportionate share of Metavante represented by the number of shares of common stock of New Metavante to be purchased by Investor under the investment agreement and the number of shares of common stock of New Metavante that Investor may purchase under the stock purchase right agreement. The Marshall & Ilsley Board noted that the enterprise value of \$4.25 billion used to calculate the amount to be paid by Investor under the investment agreement was within the range of values included in JPMorgan's valuation letter. The Marshall & Ilsley Board took note of the scope of JPMorgan's view and its limitations, as well as the fact that JPMorgan's \$10 million fee is payable only upon consummation of the transactions contemplated by the investment agreement, which the Marshall & Ilsley Board considered a customary arrangement with a financial advisor in the context of transactions of this nature. In addition, the Marshall & Ilsley Board discussed the fact that JPMorgan had provided substantial investment banking and other services to Warburg Pincus and its portfolio companies over a number of years. While the Marshall & Ilsley Board was not aware of the specific amounts paid to JPMorgan by Warburg Pincus in respect of such services, the Marshall & Ilsley Board did not believe that JPMorgan's valuation analysis was compromised by JPMorgan's work for Warburg Pincus and its portfolio companies.

Marshall & Ilsley Shareholder Vote. The Marshall & Ilsley Board considered that under the investment agreement it is a condition to completion of the transactions that a majority of the outstanding shares of Marshall & Ilsley common stock vote to approve and adopt the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, thereby giving the Marshall & Ilsley shareholders the opportunity to accept or reject the transactions.

Representation on New Metavante Board of Directors. The Marshall & Ilsley Board considered that, upon completion of the New Marshall & Ilsley share distribution, (i) subject to applicable law and regulatory process, Marshall & Ilsley would have one designee on the New Metavante board of directors, (ii) the Chairman of the Board of New Metavante would be Dennis J. Kuester for a period of one year from the date of closing and if Dennis J. Kuester is unable to serve during such one-year period, or after such one-year period, Frank R. Martire would, subject to the approval of the board of directors of New Metavante, succeed Dennis J. Kuester as Chairman of the Board of New Metavante, (iii) two directors would be officers of New Metavante, one of whom would be the President and Chief Executive Officer and one of whom would be the Senior Executive Vice

Table of Contents

President and Chief Operating Officer and (iv) subject to applicable law and regulatory process, five additional directors would be selected by Marshall & Ilsley after consulting with the President and Chief Executive Officer of Metavante and with the consent of Investor, each of whom shall qualify as independent of Metavante under the rules of the New York Stock Exchange and the Exchange Act and one of whom shall be a director of Marshall & Ilsley. The Marshall & Ilsley Board considered that, subject to applicable law and regulatory process, three directors would be designated by Investor.

Recommendation of Management. The Marshall & Ilsley Board took into account the recommendation of management of Marshall & Ilsley and Metavante in favor of the transactions.

Experience of Warburg Pincus in Completing Transactions. The Marshall & Ilsley Board considered the success of Warburg Pincus in completing complex transactions in the past, as well as its reputation in the private equity industry.

Maintain Beneficial Business Relationships through Contractual Relationships. The Marshall & Ilsley Board considered that, as structured, the transactions allowed Metavante and Marshall & Ilsley to continue their mutually beneficial business relationship as supplier and purchaser of services through the continuing business agreements between Marshall & Ilsley and Metavante.

Tax Treatment of the Transactions. The Marshall & Ilsley Board considered that the separation of New Marshall & Ilsley and New Metavante is expected to be treated as a tax-free reorganization for federal income tax purposes. The Marshall & Ilsley Board also considered that the New Marshall & Ilsley share distribution may result in significant U.S. federal income tax liabilities to New Metavante if 50% or more of the stock of New Marshall & Ilsley or New Metavante is acquired, directly or indirectly, by one or more persons as part of a plan or series of related transactions that includes the share issuance and merger.

In addition, the Marshall & Ilsley Board also considered a variety of factors weighing negatively against the transactions, including the following, but concluded that the positive factors outweighed the negative factors:

Allocation of Potential Tax Liabilities. The Marshall & Ilsley Board considered the allocation under the tax allocation agreement of any tax liabilities resulting from a determination that the share issuance and merger was not tax free.

Financial Impact of the Separation of Marshall & Ilsley and Metavante. The Marshall & Ilsley Board considered the financial impact of the loss of the assets, revenue and cash flows of Metavante's business on Marshall & Ilsley which could make New Marshall & Ilsley more vulnerable to economic and other factors specifically affecting the banking industry and limit the cash flow available to New Marshall & Ilsley to pursue its growth strategy. In addition, the Marshall & Ilsley Board considered the financial impact on Metavante of being separated from Marshall & Ilsley, including that Metavante would be more vulnerable to economic and other factors specifically affecting its business.

Debt Financing. The Marshall & Ilsley Board considered that completion of the transactions requires that Metavante or one or more of its subsidiaries obtain approximately \$1.75 billion of debt financing and the risks related to obtaining the debt financing.

Leverage and Risks of Insolvency of New Metavante. The Marshall & Ilsley Board considered that following the transactions, New Metavante will have a significant amount of indebtedness, which could limit its financial and operational flexibility. The Marshall & Ilsley Board also considered that if New Metavante were to become insolvent at some point following completion of the proposed transactions (including as a result of a termination of or material modification to supplier or customer relationships), the proposed distributions could be challenged by creditors of New Metavante as a fraudulent conveyance and shareholders who received the funds or shares of New Marshall & Ilsley common stock in the distributions could be required to return all or a portion of them to New Metavante.

Table of Contents

Ongoing Obligations After Completion of the Transactions. The Marshall & Ilsley Board took note of the fact that under the terms of the investment agreement, Marshall & Ilsley is subject to a 36-month non-competition covenant and a six-month employee non-solicit covenant and is required under specified circumstances to provide certain transition services to New Metavante.

Restraints on Future Transactions. The Marshall & Ilsley Board considered that in order to preserve the tax-free nature of the transactions Marshall & Ilsley may be constrained from entering into a transaction or series of transactions in which 50% or more of New Marshall & Ilsley stock is acquired depending on whether Marshall & Ilsley engaged in substantial negotiation with respect to such transactions in the two-year period prior to the New Marshall & Ilsley share distribution.

Interests of Executive Officers and Directors of Marshall & Ilsley in the Transactions. The Marshall & Ilsley Board considered the interests of executive officers and directors of Marshall & Ilsley in the transactions described below under *The Transactions Interests of Certain Persons in the Transactions* beginning on page 90.

Limited Express Contractual Recourse Against Investor and Warburg Pincus Private Equity IX, L.P. The Marshall & Ilsley Board considered that Marshall & Ilsley's recourse against Investor or Warburg Pincus Private Equity IX, L.P., in the case of a breach by Investor of its obligations under the investment agreement is limited to seeking damages under the limited guarantee of Warburg Pincus Private Equity IX, L.P. in favor of Marshall & Ilsley and Metavante described below under *Additional Agreements Relating to the Transactions Limited Guarantee* beginning on page 141.

The foregoing discusses the material factors considered by the Marshall & Ilsley Board and is not exhaustive of all factors considered by the Marshall & Ilsley Board. In view of the variety of factors considered in connection with its evaluation of the separation agreement and the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, the Marshall & Ilsley Board considered the factors as a whole and did not find it practicable to, and did not, quantify or otherwise assign relative weight to the specific factors considered in reaching its determination to approve the separation agreement, investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance. In addition, each member of the Marshall & Ilsley Board may have given differing weights to different factors.

In considering the recommendation of the Marshall & Ilsley Board to approve and adopt the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, Marshall & Ilsley shareholders should be aware that certain executive officers and directors and certain shareholders of Marshall & Ilsley have certain interests in the proposed transactions that may be different from, or in addition to, the interests of Marshall & Ilsley shareholders generally. The Marshall & Ilsley Board was aware of these interests when approving the separation agreement and the investment agreement and recommending that the Marshall & Ilsley shareholders vote to approve and adopt the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance. See *The Transactions Interests of Certain Persons in the Transactions* beginning on page 90.

Metavante Business Plan Information

Marshall & Ilsley does not as a matter of course make public disclosure of its business plans. The business plan information prepared by Metavante's management set forth below was provided to Warburg Pincus in February 2007 in connection with its due diligence review of Metavante. The 2007 and 2008 business plan information was not prepared with a view toward public disclosure or with a view toward complying with the guidelines established by the American Institute of Certified Public Accountants with respect to prospective financial information. In the view of Metavante's management, the 2007 business plan was prepared on a reasonable basis in connection with Metavante's 2007 business planning process, reflects the best estimates and judgments available at the time of preparation and presents, to the best of Metavante's management's knowledge

Table of Contents

and belief at the time of preparation, the expected course of action and the expected future financial performance of Metavante. The 2008 business plan information was prepared at the request of Warburg Pincus in connection with its due diligence review of Metavante and reflects Metavante's management's preliminary high end and low end estimates of the future performance of Metavante based on the assumptions set forth below. The 2007 and 2008 business plan information is not fact and should not be relied upon as being necessarily indicative of future results, and readers of this information are cautioned not to place undue reliance on the business plan information.

Neither Metavante's independent registered public accounting firm, nor any other independent registered public accounting firm, have compiled, examined, or performed any procedures with respect to the business plan information contained herein, nor have they expressed any opinion or any other form of assurance on such information or its achievability, and assume no responsibility for, and disclaim any association with, the business plan information.

The following table presents the income statement included in Metavante's 2007 business plan provided to Warburg Pincus in February 2007. This information should be read in light of the factors described above and below.

Metavante 2007 Business Plan Information

	2007 (in millions)
Total revenue	\$ 1,620.3
Expenses excluding interest and taxes	1,311.8
Income before interest and income taxes	308.5
Interest expense, net of interest income	27.1
Income before income taxes	281.4
Income tax provision	106.2
Net income	\$ 175.2

In addition, the 2007 business plan that Warburg Pincus received projected EBITDA (earnings before interest, taxes, depreciation and amortization) of \$468 million. The following table is a reconciliation of 2007 projected net income to projected EBITDA.

	2007 (in millions)
Net Income	\$ 175
Add: Net interest expense	27
Income tax provision	106
Depreciation and amortization	129
Acquisition intangible amortization	31
EBITDA	\$ 468

Significant assumptions underlying the 2007 business plan information included the following:

Metavante would remain a subsidiary of Marshall & Ilsley;

Metavante's debt outstanding and related interest costs would remain at the same level as 2006;

Metavante's administrative charges paid to Marshall & Ilsley would not change during 2007;

The amount charged by Metavante to Marshall & Ilsley for data processing and other services would not change during 2007;

Revenue growth excluding acquisitions would be in the mid-single digits;

Margins would be similar to those achieved in 2006; and

No acquisition activity would occur after the Valutec Card Solutions, Inc. acquisition.

Table of Contents

The Metavante 2008 business plan was prepared at the request of Warburg Pincus in connection with its due diligence review of Metavante and had not otherwise been prepared by management. Metavante provided the following range of 2008 results to Warburg Pincus based on management's preliminary estimates in February 2007.

Metavante 2008 Business Plan Information

	Low End	High End
	2008	2008
	(in millions)	
Base revenue	\$ 1,701.5	\$ 1,784.7
Acquisition revenue	200.0	500.0
Total revenue	1,901.5	2,284.7
Expenses excluding interest and taxes	1,546.7	1,859.5
Income before interest and income taxes	354.8	425.2
Interest expense, net of interest income	27.0	27.0
Income before income taxes	327.8	398.2
Income tax provision	123.8	150.3
Net income	\$ 204.0	\$ 247.9

In addition, the 2008 business plan that Warburg Pincus received projected an EBITDA range of \$542.6 million to \$651.1 million. The following table is a reconciliation of 2008 projected net income to projected EBITDA:

	Low End	High End
	2008	2008
	(in millions)	
Net income	\$ 204.0	\$ 247.9
Add: Net interest expense	27.0	27.0
Income tax provision	123.8	150.3
Depreciation and amortization (including acquisition amortization)	187.8	225.9
EBITDA	\$ 542.6	\$ 651.1

Significant assumptions underlying the 2008 business plan information included the following:

Metavante would complete future acquisitions that contribute to 2008 revenue growth;

Metavante would remain a subsidiary of Marshall & Ilsley;

Metavante's debt outstanding and related interest costs would remain at the same level as 2006;

Metavante's administrative charges paid to Marshall & Ilsley would not change during 2008;

The amount charged by Metavante to Marshall & Ilsley for data processing and other services would not change during 2008; and

Margins would be similar to those assumed in the 2007 business plan.

The estimates and assumptions underlying the business plan of Metavante involve judgments with respect to, among other things, future economic, competitive, regulatory and financial market conditions and future business decisions. In addition, the business plan does not include additional interest costs from the additional indebtedness to be incurred in connection with the transactions, additional costs associated with being a public company, certain non-recurring charges relating to the transactions and other effects of the separation from Marshall & Ilsley. The estimates and assumptions underlying the business plan may not be realized and are

Table of Contents

inherently subject to significant business, economic, competitive and regulatory uncertainties, all of which are difficult to predict and many of which are beyond the control of Marshall & Ilsley and Metavante and will be beyond the control of New Metavante after the consummation of the transactions. Accordingly, there can be no assurance that the results indicated by the business plan would be realized or that actual results would not differ materially from those presented in the business plan. The inclusion of the business plan information herein should not be interpreted as an indication that Marshall & Ilsley or Metavante considers this information a reliable prediction of future results, and this information should not be relied on for that purpose. The business plan information is not included in this document in order to induce any Marshall & Ilsley shareholder to vote in favor of approving the transactions. See Special Note Regarding Forward-Looking Statements beginning on page 55 and Risk Factors beginning on page 32.

Metavante does not generally make public disclosure of its business plans and strategies. Accordingly, neither Marshall & Ilsley nor Metavante intends to update or otherwise revise the business plan information to reflect circumstances existing since the preparation of the business plan or to reflect the occurrence of unanticipated events, including the transactions, even in the event that any or all of the underlying assumptions are shown to be in error. Furthermore, Metavante does not intend to update or revise the business plan to reflect changes in general economic or industry conditions.

Valuation Letter of Financial Advisor to the Marshall & Ilsley Board

At a meeting of the Marshall & Ilsley Board held on April 3, 2007, JPMorgan orally provided the Marshall & Ilsley Board with its view, subsequently confirmed by delivery of a written valuation letter dated as of the same date, that as of that date and based upon and subject to the assumptions made, procedures followed, matters considered, and qualifications and limitations set forth in the valuation letter, the range of enterprise values of Metavante was between \$3.8 billion and \$4.4 billion, which would imply a range of values between approximately \$515 million and \$665 million for the proportionate share of Metavante represented by the number of shares of common stock of New Metavante to be purchased by Investor under the investment agreement and the number of shares of common stock of New Metavante that Investor may purchase under the stock purchase right agreement (this proportionate share of Metavante is referred to in this document as the WPM Investment).

The full text of the valuation letter of JPMorgan, dated April 3, 2007, which sets forth, among other things, the assumptions made, procedures followed, matters considered, and qualifications and limitations on the review undertaken by JPMorgan in connection with its valuation, is attached to this proxy statement/prospectus information statement as Annex F and is incorporated into this proxy statement/ prospectus information statement by reference. The summary of JPMorgan s valuation letter included in this proxy statement/prospectus information statement is qualified in its entirety by reference to the full text of such valuation letter. You are urged to read the valuation letter carefully and in its entirety. JPMorgan provided its valuation letter for the information and assistance of the Marshall & Ilsley Board in connection with its consideration of the transactions contemplated by the investment agreement and the other transaction agreements. The valuation letter addresses only the valuation of Metavante, on an enterprise value basis, and the implied value of the WPM Investment. The valuation letter does not constitute a recommendation to any shareholder of Marshall & Ilsley as to how such shareholder should vote at the special meeting with respect to the approval and adoption of the investment agreement and the transactions contemplated by the investment agreement and the other transaction agreements or any other matter and should not be relied upon by any shareholder as such.

In connection with rendering its view, JPMorgan, among other things:

reviewed drafts of the investment agreement and the stock purchase right agreement;

reviewed certain publicly available business and financial information concerning Metavante and the industries in which it operates;

Table of Contents

reviewed the publicly available financial terms of certain transactions involving companies JPMorgan deemed relevant and the consideration received for such companies;

compared the financial and operating performance of Metavante with publicly available information concerning certain other companies JPMorgan deemed relevant and reviewed the current and historical market prices of certain publicly traded securities of such other companies;

reviewed certain internal financial analyses and forecasts prepared by the managements of Marshall & Ilsley and Metavante relating to Metavante's business, including forecasts for Metavante adjusted to reflect the consummation of the transactions contemplated by the investment agreement and the stock purchase right agreement; and

performed such other financial studies and analyses and considered such other information as JPMorgan deemed appropriate for the purposes of the valuation letter.

In addition, JPMorgan held discussions with certain members of the managements of Marshall & Ilsley and Metavante with respect to the past and current business operations of Metavante, the financial condition and future prospects and operations of Metavante, and certain other matters JPMorgan believed necessary or appropriate to its inquiry.

In giving its view, JPMorgan relied upon and assumed, without assuming responsibility or liability for independent verification, the accuracy and completeness of all information that was publicly available or was furnished to or discussed with JPMorgan by Marshall & Ilsley and Metavante or otherwise reviewed by or for JPMorgan. JPMorgan did not conduct, and was not provided with, an independent valuation or appraisal of any assets or liabilities (including any contingent, derivative or off-balance sheet assets or liabilities) of Marshall & Ilsley or Metavante. JPMorgan did not evaluate the solvency of Marshall & Ilsley or Metavante under any state or federal laws relating to bankruptcy, insolvency or similar matters or the available surplus of Marshall & Ilsley or any of its subsidiaries for purposes of complying with applicable state laws relating to the payment of dividends. In relying on financial analyses and forecasts provided to it, JPMorgan assumed that the financial analyses and forecasts were reasonably prepared based on assumptions reflecting the best currently available estimates and judgments by management as to the expected future results of operations and financial condition of Metavante. JPMorgan expressed no view as to such analyses or forecasts or the assumptions on which they were based.

JPMorgan based its view on economic, market and other conditions as in effect on, and the information made available to JPMorgan as of, the date of the valuation letter. Subsequent developments may affect JPMorgan's view and JPMorgan does not have any obligation to update, revise, or reaffirm its view as set forth in the valuation letter. The valuation letter does not constitute an opinion as to the fairness, from a financial point of view or otherwise, of the terms of any of the transactions contemplated by the investment agreement and the stock purchase right agreement, including the consideration to be received by New Metavante from Investor for the issuance of shares of New Metavante common stock pursuant to the investment agreement or for the issuance of shares of New Metavante common stock pursuant to the stock purchase right agreement, and JPMorgan expressed no view as to the underlying decision by Marshall & Ilsley to engage in the transactions contemplated by the investment agreement and the stock purchase right agreement. In the valuation letter, JPMorgan expressed no view as to the price at which the common stocks of Marshall & Ilsley, New Marshall & Ilsley or New Metavante would trade at any future time.

The following is a summary of the material financial analyses presented by JPMorgan to the Marshall & Ilsley Board in connection with rendering its view and delivering the valuation letter described above. Except as indicated under "Other" below, these analyses were substantially similar to the preliminary valuation analyses presented by JPMorgan at earlier meetings of the Marshall & Ilsley Board and the Metavante Acquisition Review Committee to assist Marshall & Ilsley in its negotiations of a transaction with Warburg Pincus. The purpose of each of the analyses performed was to determine implied valuation ranges for Metavante and the WPM Investment. Each of the analyses performed by JPMorgan provided an indication of the enterprise value of

Table of Contents

Metavante to assist in evaluating the consideration to be received from Investor for its equity stake in Metavante. The following paragraphs summarize, but do not purport to be complete descriptions of, the analyses JPMorgan performed. The preparation of a valuation is a complex process and is not susceptible to partial analysis or summary descriptions. The following summary and the analyses performed by JPMorgan must be considered as a whole. Selecting portions of the following summary and the analyses performed by JPMorgan, without considering all of its analyses as a whole, could create an incomplete view of the process or assumptions underlying JPMorgan's analyses and valuation.

In arriving at its valuation, JPMorgan considered all of the financial analyses that it performed and did not attribute any particular weight to any individual analysis or factor that it considered or reach any specific conclusion with respect to any individual analysis. Rather, JPMorgan made its determination as to the implied enterprise valuation of Metavante and the implied value for the WPM Investment on the basis of JPMorgan's experience and professional judgment after considering the results of all of the analyses performed by it. No company or transaction used in JPMorgan's analyses as a comparison is directly comparable to Marshall & Ilsley or Metavante or the transactions contemplated by the investment agreement and the stock purchase right agreement.

Analyses that are based upon forecasts of future results are inherently uncertain, as they are subject to numerous factors or events beyond the control of the parties and their advisors. Accordingly, the forecasts and analyses made or used by JPMorgan are not necessarily indicative of actual future results, which may be significantly more or less favorable than suggested by those analyses. Moreover, JPMorgan's analyses are not and do not purport to be appraisals or otherwise reflective of the prices at which businesses actually could be bought or sold.

Comparable Company Trading Multiples Analysis

JPMorgan analyzed selected financial and market data for companies that JPMorgan determined to be comparable in their operations and financial characteristics to Metavante, which are listed below. Although none of the selected companies is directly comparable to Metavante, each of the companies included was chosen because it is a publicly traded company providing either core processing or payment processing technology and services to financial institutions, merchants and other firms and has financial characteristics that are similar to Metavante. The purpose of this analysis was to determine implied valuation ranges for Metavante by calculating the enterprise value of each of the selected companies as a multiple of selected financial data derived from such companies' public trading prices and other publicly available historical and projected information.

Using publicly available information, JPMorgan calculated the ratio of enterprise value, or EV, to estimated earnings before interest, taxes, depreciation and amortization, which is referred to herein as EBITDA, for 2007 for each of these comparable companies. JPMorgan also calculated the ratio of enterprise value to EBITDA minus forecast capital expenditures, which is referred to herein as Capex, for 2007 for each of these comparable companies as well as ratios of their stock trading prices to estimated 2007 GAAP and cash earnings per share. All market data used by JPMorgan in its analyses was as of March 28, 2007.

JPMorgan calculated the enterprise value of each of those comparable companies by first adding the sum of the long-term and short-term debt of each of the comparable companies to the sum of the market value of such comparable company's common equity, the book value of such comparable company's preferred stock and the book value of such comparable company's minority interest, and then subtracting from that result such comparable company's cash and cash equivalents.

JPMorgan calculated estimated EBITDA-Capex by subtracting forecast capital expenditures from estimated EBITDA. JPMorgan calculated the estimated cash net income for the comparable companies by adding after-tax amortization from acquisitions and after-tax amortization of stock-based compensation back to GAAP net income. Wherever possible, estimated EBITDA, capital expenditures, net income and after-tax amortizations from acquisitions and stock-based compensation for each of the comparable companies were based on consensus equity research estimates from First Call. In certain circumstances where First Call did not provide estimates for certain financial data, JPMorgan relied on various equity research reports to develop estimates.

Table of Contents

The following table lists the selected companies and presents the results of this analysis:

	EV/ EBITDA	EV/ (EBITDA Capex)	P/E (GAAP Net Income)	P/E (Cash Net Income)
Core Processing Companies				
Jack Henry & Associates	10.5x	13.0x	20.0x	19.3x
Fidelity National Information Services	9.7x	12.9x	23.9x	17.2x
Fiserv	9.4x	11.6x	18.3x	17.2x
Average	9.9x	12.5x	20.7x	17.9x
Payment Processing Companies				
First Data Corp.	11.3x	13.5x	21.5x	17.6x
Total System Services, Inc.	10.9x	11.6x	26.0x	25.8x
Global Payments, Inc.	10.5x	11.9x	21.1x	19.2x
CheckFree Corp.	9.1x	12.0x	21.6x	18.3x
Average	10.4x	12.3x	22.5x	20.2x

JPMorgan then calculated implied valuation ranges for Metavante by applying ranges of multiples derived from the analysis outlined above to Marshall & Ilsley's management's projections of 2007 EBITDA, 2007 EBITDA-Capex, 2007 GAAP net income and 2007 cash net income for Metavante after giving effect to the transactions contemplated by the investment agreement and related agreements. The ranges of multiples JPMorgan selected reflected its professional judgment of appropriate multiples to apply to Marshall & Ilsley's management's projections based on its comparison of Metavante's operating and financial characteristics to the selected companies listed above. For each metric, JPMorgan used its judgment to select a range of multiples that JPMorgan believed encompassed or approximated the multiples for the most relevant comparable companies. For certain metrics, JPMorgan excluded multiples that were outside the core range of multiples or that were otherwise less relevant for analytical purposes because of operating, financial or other characteristics that differed from those of Metavante. In particular, although JPMorgan believed that both core processing companies and payment processing companies were generally comparable to Metavante and therefore were useful to analyze in connection with its valuation of Metavante, JPMorgan believed that the core processing companies (i.e., Jack Henry & Associates, Fidelity National Information Services and Fiserv) generally engaged in business lines that were more directly comparable to that of Metavante. Since JPMorgan concluded that the range of multiples for each financial metric that would result from the inclusion of all high and low multiples for all core processing and payment processing companies would be too wide to assist in a meaningful analysis, JPMorgan based its range of multiples for each financial metric on the high and low multiples (rounded to the nearest 0.5) of the core processing companies.

A range of 9.5x to 10.5x was applied to the 2007 EBITDA projections; based on this analysis JPMorgan derived an implied range of enterprise values for Metavante of approximately \$4,300 million to \$4,755 million and an implied range of values for the WPM Investment of \$640 million to \$750 million. A range of 11.5x to 13.0x was applied to 2007 EBITDA-Capex projections; based on this analysis JPMorgan derived an implied range of enterprise values for Metavante of approximately \$3,385 million to \$3,825 million and an implied range of values for the WPM Investment of \$410 million to \$520 million. A range of 18.5x to 24.0x was applied to the 2007 GAAP net income projections; based on this analysis JPMorgan derived an implied range of enterprise values for Metavante of approximately \$3,865 million to \$4,495 million and an implied range of values for the WPM Investment of \$530 million to \$685 million. A range of 17.0x to 19.5x was applied to the 2007 cash net income projections; based on this analysis JPMorgan derived an implied range of enterprise values for Metavante of approximately \$4,085 million to \$4,430 million and an implied range of values for the WPM Investment of \$585 million to \$670 million.

Precedent Transaction Multiples Analysis

JPMorgan analyzed certain publicly available information relating to selected precedent transactions that were announced from December 8, 2004 to December 20, 2006 and that JPMorgan judged to be comparable as

Table of Contents

they involved companies providing core processing and payment processing technology and services to financial institutions, merchants and other firms and having financial characteristics that are similar to Metavante. The purpose of this analysis was to determine an implied valuation range for Metavante by calculating the transaction value of each of the selected precedent transactions as a multiple of EBITDA for the last twelve months, or LTM EBITDA, prior to the announcement of each transaction.

JPMorgan calculated the transaction value, or TV, in the selected precedent transactions as multiples of the target company's publicly reported EBITDA for the last twelve months prior to the announcement of the transaction. JPMorgan calculated the transaction value for purposes of this analysis by first adding the target company's sum of its long-term and short-term debt to the sum of the value of the target company's common equity based on the value at which the acquirer intended to purchase the target company's common equity, the book value of the target company's preferred stock and the book value of the target company's minority interest, and then subtracting from that result the target company's cash and cash equivalents.

JPMorgan noted that the mergers and acquisitions environment varies over time. JPMorgan also noted that no transaction reviewed by JPMorgan was directly comparable to the transactions contemplated by the investment agreement and the stock purchase right agreement and that, accordingly, its analysis involved complex considerations and judgments concerning differences in financial and operating characteristics of Metavante relative to the targets in the selected transactions and other factors that would affect the acquisition values in the precedent transactions.

The following table lists the selected precedent transactions and presents the results of this analysis:

Announcement Date	Acquirer	Target	TV/LTM EBITDA
12/20/2006	M&F Worldwide, Corp.	John H. Harland Company	7.4x
10/16/2006	The Carlyle Group and Providence Equity Partners	Open Solutions Inc.	13.7x
09/15/2005	Open Solutions Inc.	BISYS Group Info Services	9.4x
09/15/2005	Fidelity National Information Services, Inc.	Certegy, Inc.	9.2x
12/08/2004	Thomas H. Lee Advisors, LLC and Texas Pacific Group	Fidelity National Information Services, Inc.	8.6x

Based on this analysis, JPMorgan then calculated an implied valuation range for Metavante by applying a range of 8.6x to 9.3x to Marshall & Ilsley's management's projected EBITDA for the twelve months prior to September 30, 2007, the anticipated transaction date. The selected range of multiples reflected JPMorgan's professional judgment of appropriate multiples to apply to Marshall & Ilsley's management projections based on its comparison of the operating and financial characteristics of the target companies listed above to Metavante. In selecting this range of multiples, JPMorgan selected a range that it believed encompassed or approximated the multiples observed in the most relevant comparable transactions and excluded those multiples that were outside the core range of multiples or that were otherwise less relevant for analytical purposes because of operating, financial or other characteristics that differed from those of Metavante or differences between the comparable transactions analyzed and the transactions contemplated under the investment agreement. In particular, JPMorgan noted that the most relevant transactions for analytical purposes were the last three listed in the table because of the nature of the transaction (T.H. Lee and Texas Pacific Group purchased a 25% interest in Fidelity National) or the financial characteristics of the target company following the transaction, particularly its leverage levels. Based on this analysis, JPMorgan derived an implied range of enterprise values for Metavante of approximately \$3,500 million to \$3,785 million and an implied range of values for the WPM Investment of \$435 million to \$510 million.

Table of Contents

Discounted Cash Flow Analysis

JPMorgan conducted a discounted cash flow analysis of Metavante. JPMorgan performed its analysis based on Marshall & Ilsley's management's financial plan and certain other publicly available information, using September 30, 2007 as the valuation date. The purpose of this analysis was to calculate an estimated range of illustrative enterprise values for Metavante based on future cash flows projected by Marshall & Ilsley's management.

Marshall & Ilsley's management's financial plan consisted of financial projections for years 2007 through 2011. JPMorgan estimated a range of present values for the future free cash flows expected to be generated by Metavante based upon the financial plan. The discount rates utilized to calculate the present value of future free cash flows were chosen based upon an analysis of Metavante's weighted average cost of capital. JPMorgan's analysis of Metavante's weighted average cost of capital was based on several variables related to the capital asset pricing model for the cost of equity, including estimates of applicable risk factors, or betas, ranging from 1.1 to 1.3, an estimated risk-free rate of return of 4.7% and an estimated equity market premium of 5.0%. In addition, JPMorgan used a range of estimated pre-tax cost of debt for Metavante of 5.5% to 6.0%, an assumed tax rate of 38% and long-term target debt-to-total capital ratios ranging from 0% to 20%. On the basis of this analysis and its professional judgment, JPMorgan selected a discount rate range of 9.5% to 10.5%. The terminal value was calculated using perpetuity growth rates ranging from 3.5% to 4.0%. In its professional judgment, JPMorgan believed that this range of perpetuity growth rates reasonably reflected long-term growth prospects both for Metavante and the larger general economy, and constituted a more appropriate assumption regarding future growth rates than Metavante's historical revenue growth rate of 25% for 2003-2006, given the impact that Metavante's acquisition activity during that period had on its historical growth rate. JPMorgan also observed that this range of perpetuity growth rates resulted in implied terminal multiples of LTM EBITDA ranging from 7.5x to 9.6x. JPMorgan then noted that the range of terminal multiples was consistent with the EBITDA-based valuations for comparable companies. This analysis yielded a range of illustrative enterprise values for Metavante of approximately \$3,500 million to \$4,380 million and a range of implied values for the WPM Investment of \$435 million to \$660 million.

Summary

On the basis of the foregoing analyses, JPMorgan estimated a range of enterprise values of Metavante between \$3.8 billion and \$4.4 billion. JPMorgan's estimate was based on its review of all the analyses it conducted and the use of its experience and professional judgment after considering the results of all of the analyses performed. JPMorgan's estimate of the range of enterprise values for Metavante does not reflect the application of any specific mathematical formula to the analyses, nor does it attribute any particular weight to any individual analysis or factor. However, in applying its judgment to derive the estimated valuation ranges from the various multiples and valuation ranges resulting from its individual analyses, JPMorgan did bear in mind its judgment that a discounted cash flow analysis and an analysis of the multiples of price to GAAP earnings and price to cash earnings of comparable companies were customary means of calculating the values of companies in Metavante's industry and, accordingly, should have a meaningful impact on JPMorgan's determination of the overall enterprise valuation range for Metavante. JPMorgan derived the range of values for the WPM Investment by subtracting the anticipated post-transaction net debt for Metavante from the range of enterprise values JPMorgan estimated for Metavante, and then multiplied the result of that calculation by 25% to reflect the proportionate ownership interest of Metavante being sold to Investor.

Other

In addition to the financial analyses summarized above, JPMorgan's preliminary analyses also included an analysis of a hypothetical leveraged buyout of Metavante by a financial buyer and the value that Marshall & Ilsley's stockholders could receive in such a transaction. For purposes of this analysis, JPMorgan assumed that the transaction would be completed on September 30, 2007 and that a subsequent sale of Metavante would occur on September 30, 2012 at a price ranging from approximately 9x to 10x of Metavante's projected EBITDA for

Table of Contents

the twelve months ending on September 30, 2012. JPMorgan also assumed that a purchaser's required rate of return would be between 15% and 18% in a transaction of this type. JPMorgan derived its assumed sale price multiples from its analyses of comparable companies and precedent transactions multiples described above. JPMorgan's assumptions regarding required rates of return were based on its experience in recent proposed and consummated transactions involving financial buyers, after taking into account the size and characteristics of the WPM Investment. Based on this analysis, JPMorgan derived an implied range of enterprise values for Metavante of approximately \$4,100 million to \$4,477 million. JPMorgan prepared this analysis for informational purposes only and did not include it in its final analyses presented to the Marshall & Ilesley Board or rely on it in rendering its view and delivering the valuation letter described above.

Miscellaneous

The Marshall & Ilesley Board selected JPMorgan to render the valuation letter in connection with the transactions contemplated by the investment agreement and the stock purchase right agreement because of JPMorgan's reputation as an internationally recognized investment banking and advisory firm with substantial experience in certain similar transactions and because JPMorgan is familiar with Marshall & Ilesley and its businesses, including Metavante's business.

The engagement letter with JPMorgan dated April 2, 2007, provides that, upon the consummation of the transactions contemplated by the investment agreement, JPMorgan will receive a fee from Marshall & Ilesley in the amount of \$10 million for its services as Marshall & Ilesley's financial advisor. Marshall & Ilesley has also agreed to indemnify JPMorgan for certain liabilities arising out of its engagement as Marshall & Ilesley's financial advisor. In addition, Marshall & Ilesley has agreed to reimburse JPMorgan for all reasonable expenses incurred by it in connection with its provision of services to Marshall & Ilesley, including reasonable fees of outside counsel and other professional advisors. JPMorgan and its affiliates have in the past performed, and may continue to perform, a variety of commercial banking and investment banking services for Marshall & Ilesley and its affiliates and for Warburg Pincus and its portfolio companies, all for customary compensation. Specifically, JPMorgan acted as a lead manager for Marshall & Ilesley's offerings of its bank notes, senior notes and subordinated notes in 2005, as a lead manager for two offerings by Marshall & Ilesley of its bank notes in 2006 and as joint remarketing agent for senior notes of Marshall & Ilesley in 2007. JPMorgan and its affiliates received fees of approximately \$0.9 million, \$0.5 million and \$0.8 million in 2005, 2006 and the year to date in 2007, respectively, for investment banking and other services provided to Marshall & Ilesley and its affiliates unrelated to the WPM Investment. JPMorgan and its affiliates received fees of approximately \$31.2 million, \$4.0 million and \$71.1 million in 2005, 2006 and the year to date in 2007, respectively, for investment banking and other services provided to Warburg Pincus and its portfolio companies unrelated to the WPM Investment.

JPMorgan and its affiliates comprise a full service securities firm and a commercial bank engaged in securities trading and brokerage activities, as well as providing investment banking, asset management, financing, and financial advisory services and other commercial and investment banking products and services to a wide range of corporations and individuals. In the ordinary course of their trading, brokerage, asset management, and financing activities, JPMorgan and its affiliates may at any time hold long or short positions, and may trade or otherwise effect transactions, for their own accounts or the accounts of customers, in debt or equity securities or senior loans of Marshall & Ilesley and its affiliates, Warburg Pincus' portfolio companies and any other company that may be involved in the transactions contemplated by the investment agreement and the other related agreements.

In addition, in connection with the transactions, JPMorgan, JPMorgan Chase Bank, N.A., Morgan Stanley Senior Funding, Inc., Lehman Brothers Commercial Bank, Lehman Commercial Paper Inc., Lehman Brothers Inc., and Baird Financial Corporation, and certain of their respective affiliates, have agreed to provide a term loan facility and a revolving credit facility to New Metavante and/or one or more of its subsidiaries pursuant to and in accordance with the terms and conditions contained in a commitment letter. The commitment letter provides for the payment to these lenders at closing of an underwriting and commitment fee. It is expected that JPMorgan's portion of such fee will be approximately \$7.9 million, subject to reduction by fees paid to other lenders participating in the syndication of the credit facility. An affiliate of JPMorgan will also be paid an annual fee of \$150,000 for acting as administrative agent under the credit facility.

Table of Contents

Antitrust and Regulatory Approvals

Antitrust Approvals. Under the HSR Act, the transactions may not be completed until Notification and Report Forms have been filed by or on behalf of each of Warburg Pincus Private Equity IX, L.P. and Marshall & Ilsley with the DOJ and the FTC and the specified waiting period has been observed. Warburg Pincus and Marshall & Ilsley each filed Notification and Report Forms with the DOJ and FTC on or prior to June 25, 2007. The applicable waiting period under the HSR Act expired on July 24, 2007. At any time before or after completion of the transactions, the DOJ, FTC or others (including states and private parties) could take action under the antitrust laws, including seeking to prevent the transactions, to rescind the transactions or to conditionally approve the transactions.

It is possible that the governmental entities with which antitrust filings are made may seek, as conditions for granting approval of the transactions, various regulatory concessions. There can be no assurance that:

Investor or Marshall & Ilsley will be able to satisfy or comply with the conditions;

compliance or non-compliance will not have adverse consequences on New Metavante after completion of the transactions; or

the required regulatory approvals will be obtained within the time frame contemplated by Investor and Marshall & Ilsley and referred to in this proxy statement/prospectus information statement or on terms that will be satisfactory to Investor and Marshall & Ilsley. See The Investment Agreement Conditions to the Completion of the Transactions beginning on page 121.

Bank Regulatory Approvals. The transactions may be subject to the approval of filings, notifications, reports and applications under the Bank Holding Company Act of 1956, as amended, the Change in Bank Control Act of 1978, as amended, the Home Owner's Loan Act, and other federal or state banking laws or regulations, including, without limitation, any required approvals from the Board of Governors of the Federal Reserve System, the Office of the Comptroller of the Currency, the Office of Thrift Supervision, the Federal Deposit Insurance Corporation, the Wisconsin Department of Financial Institutions and the Missouri Division of Finance. Warburg Pincus and Marshall & Ilsley filed a waiver request from the application requirements of Section 3 of the Bank Holding Company Act with the Federal Reserve Bank of Chicago on April 9, 2007 and received the waiver on June 22, 2007. Additional waivers may be sought or other filings or applications may be made if necessary.

Other Requisite Approvals. The transactions may also be subject to the approval of filings, notifications, reports and applications under applicable state or federal laws or regulations and the rules and regulations of the National Association of Securities Dealers, Inc. (the "NASD") or any other applicable regulatory authority regulating broker-dealers, investment advisors and insurance companies.

Accounting Treatment

Notwithstanding the legal form of the transactions, New Marshall & Ilsley will be considered the divesting entity and treated as the accounting successor to Marshall & Ilsley and Metavante will be considered the accounting spinnee for financial reporting purposes in accordance with EITF Issue No. 02-11, Accounting for Reverse Spinoffs.

Reverse spinoff accounting is appropriate in situations in which the treatment of the legal spinnee as the accounting successor results in the most accurate depiction of the substance of the transaction for shareholders and other users of the financials statements. Under this treatment, the historical financial statements of New Marshall & Ilsley will be the historical financial statements of Marshall & Ilsley. In making its determination, Marshall & Ilsley considered the following indicators, among others:

current senior management of Marshall & Ilsley will continue to manage and operate New Marshall & Ilsley; and

Table of Contents

current shareholders of Marshall & Ilsley will retain their 100% interest in Marshall & Ilsley through New Marshall & Ilsley while retaining only a 75% interest in New Metavante.

Interests of Certain Persons in the Transactions

In considering the recommendation of the Marshall & Ilsley Board to approve and adopt the investment agreement and the transactions contemplated by the investment agreement and the separation agreement, Marshall & Ilsley shareholders should be aware that directors and executive officers of Marshall & Ilsley have certain interests in the transactions that differ from, or are in addition to, the interests of Marshall & Ilsley shareholders generally. These interests are summarized below.

New Positions in New Metavante. Following completion of the closing of the transactions, Dennis J. Kuester will serve as Chairman of the Board of New Metavante for a period of one year from the closing date and Frank R. Martire will serve as President and Chief Executive Officer of New Metavante. If Dennis J. Kuester is unable to serve during such one-year period, or after such one-year period, Frank R. Martire will succeed Dennis J. Kuester as Chairman of the Board of New Metavante. In addition, pursuant to the investment agreement, following the closing of the transactions, Ted D. Kellner, a current non-employee director of Marshall & Ilsley, will serve on the board of directors of New Marshall & Ilsley and will serve on the board of directors of New Metavante.

The investment agreement also provides that Frank R. Martire, the President and Chief Executive Officer of Metavante immediately prior to the closing date, will be the President and Chief Executive Officer of New Metavante at the time of the New Marshall & Ilsley share distribution and thereafter until duly changed in accordance with the organizational documents of New Metavante and applicable law. In addition, it is currently contemplated that most of the senior management of Metavante will become the senior management of New Metavante and most of the senior management of Marshall & Ilsley will become the senior management of New Marshall & Ilsley.

Equity Compensation of Executive Officers and Directors. Each option held by a Metavante or New Metavante employee to purchase Marshall & Ilsley stock outstanding prior to the completion of the New Marshall & Ilsley share distribution will be converted into an option to purchase New Metavante stock, effective immediately after the New Marshall & Ilsley share distribution, and adjusted to reflect the New Marshall & Ilsley share distribution. Each option held by a Marshall & Ilsley or New Marshall & Ilsley employee or director to purchase Marshall & Ilsley common stock outstanding prior to the completion of the New Marshall & Ilsley share distribution will be converted into an option to purchase New Marshall & Ilsley common stock, effective immediately after the New Marshall & Ilsley share distribution, and adjusted to reflect the New Marshall & Ilsley share distribution. Prior to the completion of the New Marshall & Ilsley share distribution, 75% of the outstanding options to purchase Marshall & Ilsley common stock held by an individual who, immediately following the consummation of the transactions, will be a director of New Metavante and either a Marshall & Ilsley or New Marshall & Ilsley employee or a director of New Marshall & Ilsley will be converted into New Marshall & Ilsley options and 25% of the outstanding options to purchase Marshall & Ilsley common stock held by these individuals will be converted into New Metavante options, effective immediately after the New Marshall & Ilsley share distribution, and adjusted to reflect the New Marshall & Ilsley share distribution. The employee matters agreement provides that the number of shares of New Metavante common stock or New Marshall & Ilsley common stock, as the case may be, subject to each converted option for these individuals and the per share exercise price of the converted options will be fixed in a way that maintains the intrinsic value of the option to purchase Marshall & Ilsley common stock and does not increase the ratio of the per share exercise price of the converted option to the value of one share of Marshall & Ilsley common stock on the closing date.

Table of Contents

The following table sets forth the number of options to purchase Marshall & Ilsley common stock held by each director and executive officer of Marshall & Ilsley as of August 31, 2007, which will be converted into options to purchase New Marshall & Ilsley common stock, or in the case of an individual who is a director of New Metavante immediately following the separation and either a Marshall & Ilsley or New Marshall & Ilsley employee or a director of New Marshall & Ilsley, options to purchase both New Marshall & Ilsley common stock and New Metavante common stock, together with the weighted-average exercise price of such options.

* Mr. Oliver is expected to receive \$400,000 equivalent value of restricted stock of New Metavante upon closing of the transactions.

Table of Contents

Expected Grants of Stock Options. The following table sets forth information concerning the number of options to purchase shares of New Metavante common stock and the fair value of such options expected to be issued in connection with the completion of the transactions to each of the New Metavante executive officers listed below. The number of option awards was agreed upon through negotiations among Investor, Metavante management and Marshall & Ilsley, subject to approval by the board of directors of New Metavante. In determining the expected grants, Investor targeted a percentage of the new option pool for such officers spread evenly over a five-year period, and front-loaded the options by allocating a higher percentage of the targeted percentage in the initial grants than would be expected as an annual grant going forward. For example, for Mr. Martire, the front-end load is approximately 3.3 times his expected annual grant. The other executive officers, as well as a limited number of other optionees, will also receive a front-end load in the initial grant.

Name	Expected Stock Options to be Granted	Assumed Fair Value of Stock Options
Frank R. Martire	750,000	\$ 5,760,000
Michael D. Hayford	575,000	\$ 4,416,000
Frank G. D Angelo	275,000	\$ 2,112,000
Paul T. Danola	100,000	\$ 768,000
Steven A. Rathgaber	50,000	\$ 384,000
Donald W. Layden, Jr.	275,000	\$ 2,112,000
Timothy C. Oliver	60,000	\$ 460,800
Total	2,085,000	\$ 16,012,800

The following weighted-average assumptions were used in calculating the fair value of the stock options expected to be awarded, using the Black-Scholes valuation model, assuming a grant date of June 30, 2007:

Expected term of option (in years)	6
Expected volatility factor	23.69%
Expected dividend yield	0%
Risk-free interest rate	4.91%
Strike price	\$ 21.88*

* The \$21.88 strike price was calculated based on the purchase price to be paid by Investor for shares of New Metavante common stock pursuant to the investment agreement and is used for illustrative purposes only and does not represent the actual strike price of such options or an estimate of the market price of New Metavante common stock after the closing of the transactions.

The actual value, if any, that an individual will realize upon exercise of an option will depend on the excess of the market value of New Metavante common stock over the exercise price on the date the option is exercised, which cannot be forecasted with reasonable accuracy.

The other executive officers of Metavante are also likely to receive awards of stock options in connection with the completion of the transactions at levels undetermined at this date. These options will be part of an initial grant made at the closing of the transactions, and will have an exercise price equal to the fair market value of New Metavante common stock on the grant date. The options received in this special grant will be 25% vested upon grant, and 25% in each of the three years thereafter. More specific information regarding the Metavante Equity Incentive Plan is provided under Compensation of Executive Officers of New Metavante New Metavante Equity Incentive Plan in this proxy statement/prospectus information statement.

New Equity Compensation Plans. Marshall & Ilsley will use, or will cause its appropriate subsidiary to use, reasonable best efforts to cause New Metavante to adopt a New Metavante equity compensation plan prior to the New Marshall & Ilsley distribution that will reserve a percentage of the equity of New Metavante equal to 9% for

Table of Contents

new options and other equity grants to be issued in connection with the transaction and anticipated to be issued within the following four to five years, plus a number of shares sufficient for the substitution of existing Marshall & Ilsley options and other equity grants or rights held by Metavante or New Metavante employees or directors, which is expected to represent approximately an additional 9.5% of the equity of New Metavante. Marshall & Ilsley may also cause New Metavante to adopt an annual bonus plan if requested to do so by Investor.

Incentive Compensation. The incentive compensation earned by participants under the Metavante Corporation Long-Term Incentive Plan with respect to performance periods that include the separation date that are based on performance of Marshall & Ilsley will be determined jointly by Marshall & Ilsley, New Marshall & Ilsley, Metavante, New Metavante and the Investor as of the separation date and will be paid by Metavante and New Metavante after the conclusion of the performance period. Payments based on the performance of Metavante generally will be made by Metavante and New Metavante in accordance with the terms of the Metavante Corporation Long-Term Incentive Plan. It is anticipated that the net income factor currently set forth in the plan will be replaced with a factor more directly tied to shareholder value.

Employment Agreements. Prior to the transactions, the only Metavante executive officer to have an employment agreement with Metavante was Steven A. Rathgaber. New Metavante expects to enter into employment agreements with Messrs. Martire, Hayford, D Angelo and Layden, effective as of the closing of the transactions. The employment agreements will have an initial term of two or three years and will automatically renew for consecutive one-year terms unless either party gives written notice of its intention not to renew at least 60 days prior to any expiration date. Under the employment agreements, each executive is entitled to a base salary which will be reviewed annually by the compensation committee of New Metavante's board of directors, as well as to employee benefits, in accordance with New Metavante's policies for senior executives. The employment agreements are expected to provide for incentive compensation, at the company's discretion, based upon performance.

The base salary amounts for each of the covered executive officers are projected to be: Mr. Martire \$675,000; Mr. Hayford \$525,000; Mr. D Angelo \$425,000; and Mr. Layden \$400,000. It is expected that the employment agreements will provide that these amounts may be increased in subsequent years, but generally may not be reduced. The target annual bonuses, as a percentage of base salary, are expected to be as follows: Mr. Martire 100%; Messrs. Hayford and D Angelo 90%; and Mr. Layden 75%.

If the employment agreements are terminated by New Metavante without cause or by the executive with good reason either of which is a qualifying termination the executive will receive: (i) his earned but unpaid base salary and accrued but unused vacation pay; (ii) a lump sum cash severance equal to the product of two times the sum of (x) the executive's base salary and (y) the executive's target bonus; (iii) continuation of welfare benefits for 24 months following termination, subject to certain restrictions in the event the executive obtains other employment providing for such benefits; and (iv) vesting in all time-based options that would have become vested within 12 months of the termination date. Payment of all or part of the lump sum cash severance may be delayed for six months following termination if required by Code Section 409A. No severance payments or benefits will be payable upon a termination of employment that is not a qualifying termination, and payment of severance payments and benefits are subject to the executive's execution of a release of claims against New Metavante. The employment agreements will subject each executive to standard ongoing confidentiality and work product obligations and to non-competition and non-solicitation covenants while employed by New Metavante and for one year after termination of employment for any reason.

Cause is defined as:

the executive's willful refusal to perform in any material respect the executive's duties or responsibilities for the company or to comply in any material respect with the company's policies and procedures;

Table of Contents

conduct by the executive materially injurious to the company or its business reputation;

conviction or entry of a plea of guilty or *nolo contendere* to a crime (other than a vehicular misdemeanor); or

fraud or other illegal conduct in the performance of the executive's duties for the company.

Good reason is defined as:

reduction in the executive's base salary;

relocation of greater than 35 miles of the executive's place of employment;

material diminution in the executive's title;

removal of the executive from the company's executive committee; or

nonrenewal notice given by the company.

Each executive will also be a party to a change of control agreement, which will be substantially similar to the Metavante change of control agreements. See [Change of Control Agreements and Related Matters](#) below.

Incremental Equity Awards. In connection with the transactions, stock options held by Marshall & Ilsley employees and directors who will be continuing employees and directors of New Marshall & Ilsley and stock options held by retired Marshall & Ilsley employees will be converted to New Marshall & Ilsley options. These options will be converted based on a formula which will retain, following the separation, the aggregate spread and the ratio of exercise price to the share value on the options as the option holders had immediately prior to the transactions. While this conversion formula preserves the option holder's position following the separation of the two companies, it does not recognize the impact of certain ongoing factors which are projected to result from this separation. These factors, and their anticipated impact on the Black-Scholes value of the options, were identified and analyzed by Hewitt Associates, the compensation consultants engaged by the compensation committee of Marshall & Ilsley's board of directors. One factor is that the stock of New Marshall & Ilsley, without the Metavante component, is projected to have lower volatility. A decrease in the volatility of a company's stock results in a lower Black-Scholes valuation. Another factor is that the New Marshall & Ilsley common stock is projected to have a higher dividend yield. An increase in the dividend yield also results in a lower Black-Scholes valuation. After consideration of the analysis prepared by Hewitt Associates and other factors deemed relevant by Marshall & Ilsley's compensation committee, and in keeping with Marshall and Ilsley's executive compensation objectives, Marshall & Ilsley's compensation committee determined to provide an incremental equity award to ongoing employees and directors of New Marshall & Ilsley as described below. These factors will also have an impact on the Black-Scholes value of options held by retired employees of Marshall & Ilsley who hold options to purchase Marshall & Ilsley common stock. Because Marshall & Ilsley's 2006 Equity Incentive Plan does not allow for equity awards to retired employees, the Marshall & Ilsley compensation committee determined to provide a cash payment in lieu of an incremental equity award to retired Marshall & Ilsley employees who hold options to purchase Marshall & Ilsley common stock.

Participants in the Marshall & Ilsley Long-Term Incentive Plan who remain as such at New Marshall & Ilsley (other than Mr. Kuester), as well as members of the Marshall & Ilsley board of directors (other than Mr. Kellner), will receive an incremental equity award in the form of restricted shares. Other participants in Marshall & Ilsley's 2006 Equity Incentive Plan will receive options to purchase New Marshall & Ilsley common stock. The incremental award will be determined based on the amount of vested and unvested outstanding options, taking into consideration the remaining term of the options. The incremental award will be immediately vested based on the option holder's proportion of vested options to his or her total outstanding options. To the extent the outstanding Marshall & Ilsley options are unvested, the incremental award will have an ongoing vesting schedule. To the extent immediately vested restricted shares are granted, awards to participants in the

Table of Contents

Marshall & Ilsley Long-Term Incentive Plan will have a three-year deferred release period and will be subject to a non-compete provision. Awards to directors will not be subject to a non-compete provision. Unvested restricted share awards will vest one-third in each of the last three years of a five-year vesting period. To the extent immediately vested options are awarded, the options will be subject to a deferred exercise period during which one-third of the options will be eligible for exercise after each of the initial three years following the award and will be subject to a non-compete provision. Unvested options granted will vest one-third in each of the first three years beginning on the first anniversary date.

It is expected that Messrs. Kuester and Kellner will be directors of New Metavante immediately following the separation and will continue as directors of New Marshall & Ilsley. As such, their options will be converted to options to purchase both New Marshall & Ilsley common stock and New Metavante common stock, as described above.

The incremental equity awards are subject to the closing of the transactions and will be awarded on the last business day preceding the effective date of the transactions. Participants must be active employees or directors on the date of award in order to receive this grant.

Table of Contents

The following table sets forth the number of shares of restricted stock to be granted to each participant and the estimated value of the awards on individual and aggregate bases, based on the closing price of Marshall & Ilsley common stock on August 31, 2007 (\$43.71):

Thomas A. Root	2,453	\$ 107,221
John S. Shiely	1,025	\$ 44,803
Gregory A. Smith	3,900	\$ 170,469
Michael C. Smith	1,452	\$ 63,467
Ronald E. Smith	3,928	\$ 171,693
Debra S. Waller	500	\$ 21,855
George E. Wardeberg	825	\$ 36,061
James B. Wigdale (1)	850	\$ 37,154
Total	91,966	\$ 4,019,834

- (1) As a retired Marshall & Ilsley employee who holds options to purchase Marshall & Ilsley common stock, as described above, Mr. Wigdale is also eligible to receive a cash payment in the amount of \$466,512, resulting in a total benefit to Mr. Wigdale of \$503,666. The resulting aggregate value of awards to participants, including this cash payment for Mr. Wigdale, is \$4,486,346.

Table of Contents

Change of Control Agreements and Related Matters. Prior to the transactions, Metavante and Marshall & Ilsley had entered into change of control agreements with certain Metavante executive officers, including Messrs. Martire, Hayford, D Angelo and Paul T. Danola. In order to assure management continuity and stability, upon the closing of the transactions, New Metavante expects to enter into change of control agreements (the New Metavante change of control agreements) with certain executive officers and employees, including all members of the New Metavante executive committee.

The New Metavante change of control agreements with the executive officers are expected to be substantially similar to the change of control agreements that existed prior to the closing of the transactions. They guarantee the named executive officers specific payments and benefits upon a termination of employment as a result of a change of control of Metavante. If a change of control occurs, the agreement becomes effective and continues for four years from such change of control. Under the change of control agreements, change of control will be defined in substantially the same manner as the existing Metavante change of control agreements.

The New Metavante change of control agreements are expected to provide for specified benefits if, after a change of control of Metavante occurs, the executive officer voluntarily terminates his employment for good reason or is involuntarily terminated without cause. Good reason is generally defined as a reduction of the executive's base salary or target bonus opportunity, the company's failure to provide the executive with the same long-term incentive opportunities and benefits provided to other peer executives of the entity which employs the executive after the change of control, or a significant relocation of the executive's primary work location. Cause is generally defined as the executive's willful, deliberate and continual failure to substantially perform his duties where such failure constitutes gross misconduct or results in (or was intended to result in) demonstrable material injury to the company, or the executive commits acts of fraud or dishonesty constituting a felony that results in gain to, or enrichment of, the executive at the company's expense.

Upon a termination for good reason or without cause, the executive officer is entitled to a lump sum cash payment consisting of:

accrued but unpaid base salary;

the higher of (i) the average annualized bonuses paid or payable to the executive by the company in respect of the three fiscal years prior to the change of control and (ii) the annualized bonus paid or payable for the most recently completed fiscal year prior to the year in which the termination occurs (such amount being the higher annual bonus), prorated for the fiscal year in which the termination occurs;

three, two or one times (dependent on the length of the term of the agreement) the sum of: (i) the executive's annual base salary (including certain deferred amounts) and (ii) the higher annual bonus;

a payment equal to the retirement benefits lost for three, two or one years (dependent on the length of the term of the agreement); and

three, two or one times (dependent on the length of the term of the agreement) the value of certain other fringe benefits.

In addition, in the event of a qualifying termination, the executive is expected to be entitled to continued medical and dental benefits for 36, 24 or 12 months (depending on the length of the term of the agreement) after the date of termination and has the right to purchase his or her company car, if any, at book value. The New Metavante change of control agreements also, subject to certain limitations, provide for gross-up payments in the event payments to an executive under the Metavante change of control agreement are subject to the excise tax (the excise tax) provided for under Section 4999 of the Code, or any similar federal, state or local tax which may be imposed, in an amount such that the executive officer will be in the same after-tax position as if no 20% excise tax under Section 4999 had been imposed. However, if the applicable excise tax could be avoided by reducing the executive's payment under the change of control agreement by \$50,000 or less, and if the executive

Table of Contents

would be in a better after-tax position than if no reduction were made, then the executive is not entitled to any gross-up. The New Metavante change of control agreements also require the company to pay certain legal expenses incurred by the executive officer in connection with enforcing his rights under the change of control agreement or disputing the company's decision to terminate him or the gross-up payments paid thereunder. Payment of all or part of the lump sum cash payment to an executive may be delayed for six months following termination if required by Code Section 409A. Severance payments and benefits are also subject to the executive officer's execution and non-revocation of a release of claims against New Metavante.

Terms of Employment. In connection with the transactions, in addition to the changes evidenced by the employment contracts described above, it is expected that the terms of employment, including base salary and bonus structure, may be adjusted for certain other executive officers on account of increased responsibilities and duties.

Federal Securities Law Consequences; Resale Restrictions

New Metavante and New Marshall & Ilsley common stock issued in the transactions will not be subject to any restrictions on transfer arising under the Securities Act of 1933, except for shares issued to any Marshall & Ilsley shareholder who may be deemed to be an affiliate of New Metavante for purposes of Rule 145 under the Securities Act. It is expected that each affiliate will enter into an agreement with New Metavante not to transfer any New Metavante common stock received pursuant to the transactions except in compliance with the resale provisions of Rule 145 under the Securities Act or as otherwise permitted under the Securities Act. The investment agreement requires Marshall & Ilsley to use its reasonable best efforts to cause its affiliates to enter into these agreements.

The issuance of New Metavante common stock to Marshall & Ilsley shareholders in the holding company merger will be registered under the Securities Act. Accordingly, the shares of New Metavante common stock issued in the holding company merger may be traded freely and without restriction by shareholders who are not deemed to be affiliates of New Metavante. Any subsequent transfer of these shares by any affiliate of New Metavante at the time that Marshall & Ilsley's shareholders adopt the investment agreement must:

be registered under the Securities Act;

comply with Rule 145 promulgated under the Securities Act (permitting limited sales under specified circumstances); or

otherwise be exempt from registration under the Securities Act.

These restrictions are expected to apply to the directors and executive officers of Marshall & Ilsley and New Metavante and any holder of 10% or more of Marshall & Ilsley common stock (and to certain relatives or the spouse of those persons and any trusts, estates, corporations or other entities in which those persons have a 10% or greater beneficial or equity interest).

New York Stock Exchange Trading

Marshall & Ilsley common stock, which currently trades on the New York Stock Exchange under the symbol **MI**, will cease trading on the New York Stock Exchange as of the closing date.

New Marshall & Ilsley intends to apply to have its common stock authorized for listing on the New York Stock Exchange under the symbol **MI** and New Metavante intends to apply to have its common stock authorized for listing on the New York Stock Exchange under the symbol **MV**. It is expected that New Marshall & Ilsley's common stock and New Metavante's common stock would begin trading on the day following the closing date. In addition, a when-issued trading market for New Marshall & Ilsley common stock and New Metavante common stock may develop following the effectiveness of the registration statements registering the shares of New Marshall & Ilsley common stock and New Metavante common stock under the Exchange Act. We refer to that date as the Exchange Act registration statements date.

Table of Contents

When-issued trading refers to conditional purchase or sale transactions with respect to a security that has been authorized, but is not yet issued and available. The when-issued trading market would be a market that develops prior to the completion of the transactions. If when-issued markets develop, we expect that any when-issued trades of New Marshall & Ilsley common stock and New Metavante common stock would settle within four trading days after the closing date. On the first trading day following the closing date, any when-issued trading with respect to New Marshall & Ilsley common stock and New Metavante common stock will end and regular way trading will begin. If the transactions do not close, all when-issued trading would be null and void.

No Appraisal Rights

The shareholders of Marshall & Ilsley, New Metavante and New Marshall & Ilsley will not be entitled to exercise appraisal rights or to demand payment for their shares in connection with the transactions.

Table of Contents

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE HOLDING COMPANY MERGER, THE NEW MARSHALL & ILSLEY SHARE DISTRIBUTION AND RELATED TRANSACTIONS

Subject to the limitations and qualifications described herein, the following discussion constitutes the opinion of Sidley Austin LLP, counsel to Marshall & Ilsley, as to the material U.S. federal income tax consequences of the holding company merger and the New Marshall & Ilsley share distribution to U.S. holders of Marshall & Ilsley common stock. The discussion which follows is based on the Internal Revenue Code, Treasury regulations promulgated under the Internal Revenue Code, and judicial and administrative interpretations thereof, all as in effect as of the date of this proxy statement/prospectus information statement, all of which are subject to change at any time, possibly with retroactive effect. The discussion assumes that the holding company merger, the New Marshall & Ilsley share distribution and related transactions will be consummated in the manner described in this proxy statement/prospectus information statement and in accordance with the separation agreement and the investment agreement and that the conditions of the parties to the consummation of such transactions set forth in the separation agreement and the investment agreement (other than receipt of a tax opinion) will be satisfied and not waived by the parties. This is not a complete description of all of the consequences of the holding company merger, the New Marshall & Ilsley share distribution or related transactions and, in particular, may not address U.S. federal income tax considerations applicable to Marshall & Ilsley shareholders subject to special treatment under U.S. federal income tax law. Shareholders subject to special treatment include, for example, financial institutions, dealers in securities, traders in securities who elect to apply a mark-to-market method of accounting, insurance companies, tax-exempt entities, partnerships and other pass-through entities, and holders who hold Marshall & Ilsley common stock as part of a hedge, straddle, conversion or constructive sale transaction. For purposes of this proxy statement/prospectus information statement, a U.S. holder means a shareholder of Marshall & Ilsley, New Marshall & Ilsley or New Metavante, as the case may be, other than an entity or arrangement treated as a partnership for U.S. federal income tax purposes, that for U.S. federal income tax purposes is

an individual who is a citizen or resident of the United States;

a corporation (or other entity taxable as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States or of any political subdivision thereof;

an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust if it (i) is subject to the primary supervision of a court within the United States and one or more United States persons have the authority to control all substantial decisions of the trust or (ii) was in existence on August 20, 1996 and has properly elected under applicable United States Treasury Regulations to be treated as a United States person.

This discussion does not address the U.S. federal income tax consequences to Marshall & Ilsley shareholders who are not U.S. holders or who do not hold Marshall & Ilsley common stock, New Marshall & Ilsley common stock or New Metavante common stock as a capital asset. No information is provided in this proxy statement/prospectus information statement with respect to the tax consequences of the holding company merger, the New Marshall & Ilsley share distribution or related transactions under applicable foreign, state or local laws.

Marshall & Ilsley shareholders are urged to consult with their tax advisors regarding the tax consequences of the holding company merger, the New Marshall & Ilsley share distribution and related transactions to them, as applicable, including the effects of U.S. federal, state, local, foreign and other tax laws.

The Holding Company Merger

The completion of the transactions is conditioned upon the receipt of a private letter ruling from the Internal Revenue Service (which ruling was received on September 12, 2007) to the effect that the holding company merger and the Marshall & Ilsley LLC conversion qualify as a reorganization under Section 368(a) of the

Table of Contents

Internal Revenue Code. Sidley Austin, counsel to Marshall & Ilsley, is of the opinion (and the private letter ruling provides) that the material U.S. federal income tax consequences of the holding company merger and Marshall & Ilsley LLC conversion will be as follows:

no gain or loss will be recognized by a Marshall & Ilsley shareholder solely as the result of the receipt of New Metavante common stock in the holding company merger, except with respect to cash received in lieu of fractional shares;

the aggregate tax basis of the New Metavante common stock that a Marshall & Ilsley shareholder receives in the holding company merger will be the same as the aggregate tax basis of the shares of Marshall & Ilsley common stock converted into shares of New Metavante common stock, decreased by the amount of any tax basis allocable to any fractional share interest in New Metavante common stock for which cash is received;

the holding period of the New Metavante common stock received by a Marshall & Ilsley shareholder in the holding company merger will include the holding period of the shareholder's Marshall & Ilsley common stock, provided that the Marshall & Ilsley common stock is held as a capital asset on the date of the holding company merger;

a Marshall & Ilsley shareholder who receives cash in lieu of fractional shares of New Metavante common stock will recognize gain or loss equal to the difference between the amount of cash received and the basis of the Marshall & Ilsley common stock allocable to the fractional share interest; and

no gain or loss will be recognized by Marshall & Ilsley or New Metavante in the holding company merger and the Marshall & Ilsley LLC conversion.

In addition, Sidley Austin, counsel to Marshall & Ilsley, is of the opinion that the distribution by Marshall & Ilsley LLC of the equity interests of Metavante to New Metavante will be disregarded (and therefore tax-free) for U.S. federal income tax purposes.

The private letter ruling and the opinions described above are or will be based, in part, on assumptions and representations as to factual matters that have been or will be received from Marshall & Ilsley and New Metavante, including those contained in certificates of officers of Marshall & Ilsley and New Metavante, as requested by the Internal Revenue Service or counsel. If any of those assumptions or representations is inaccurate as of the effective time of the holding company merger, the Marshall & Ilsley LLC conversion or the Metavante distribution, the tax consequences of the transactions could differ materially from those described above. Opinions of counsel neither bind the Internal Revenue Service or any court, nor preclude the Internal Revenue Service from adopting a contrary position.

If the holding company merger and the Marshall & Ilsley LLC conversion do not qualify as a reorganization under Section 368(a) of the Internal Revenue Code, each Marshall & Ilsley shareholder would recognize taxable gain or loss equal to the difference between the fair market value of the New Metavante common stock received in the holding company merger and such shareholder's basis in the common stock exchanged therefor.

The New Marshall & Ilsley Share Distribution

The completion of the transactions is conditioned upon the receipt of (i) a private letter ruling from the Internal Revenue Service (which ruling was received on September 12, 2007) to the effect that the Marshall & Ilsley contribution and the New Marshall & Ilsley share distribution qualify as a reorganization under Section 368(a)(1)(D) of the Internal Revenue Code and a distribution eligible for nonrecognition under Sections 355(a) and 361(c) of the Internal Revenue Code and (ii) with respect to certain requirements for tax-free treatment under Section 355 of the Internal Revenue Code on which the Internal Revenue Service will not rule (namely, that the New Marshall & Ilsley share distribution (a) is motivated, in whole or substantial part, by one or more corporate business purposes, (b) is not being used principally as a device for the distribution of earnings and profits of New Metavante or New Marshall & Ilsley, and (c) is not part of a plan (or series of related

Table of Contents

transactions) pursuant to which one or more persons will acquire, directly or indirectly, stock representing a 50% or greater interest in New Metavante or New Marshall & Ilsley under Section 355(e) of the Internal Revenue Code), an opinion of Sidley Austin LLP, counsel to Marshall & Ilsley (or another law firm of national standing), to the effect that such requirements will be satisfied.

Sidley Austin, counsel to Marshall & Ilsley, is of the opinion (and the private letter ruling provides) that the material U.S. federal income tax consequences of the Marshall & Ilsley contribution and New Marshall & Ilsley share distribution will be as follows:

no gain or loss will be recognized by New Marshall & Ilsley or New Metavante in the Marshall & Ilsley contribution;

no gain or loss will be recognized by (and no amount will otherwise be included in the income of) the New Metavante shareholders on their receipt of the New Marshall & Ilsley common stock in the New Marshall & Ilsley share distribution;

no gain or loss will be recognized by New Metavante in the New Marshall & Ilsley share distribution;

the aggregate tax basis of the New Marshall & Ilsley common stock and the New Metavante common stock in the hands of the New Metavante shareholders will be the same as the aggregate tax basis of the New Metavante common stock held by such holders immediately before the New Marshall & Ilsley share distribution allocated in proportion to the fair market value of each (if a New Metavante shareholder that purchased or acquired shares of New Metavante common stock on different dates or at different prices is not able to identify which particular share of New Marshall & Ilsley common stock is received with respect to a particular share of New Metavante common stock, the shareholder may designate which share of New Marshall & Ilsley common stock is received with respect to a particular share of New Metavante common stock, provided the terms of the designation are consistent with the terms of the New Marshall & Ilsley share distribution); and

assuming that the shares of New Metavante common stock held by each New Metavante shareholder are capital assets in the hands of such shareholder, the holding period of the New Marshall & Ilsley common stock received by the New Metavante shareholder will include the holding period for the New Metavante common stock on which the New Marshall & Ilsley share distribution is made (i.e., the shareholder's holding period for the Marshall & Ilsley common stock from which his or her shares of New Metavante common stock were converted in the holding company merger).

For a hypothetical example of a tax basis calculation, please see Annex I to this proxy statement/prospectus- information statement.

The private letter ruling and the opinions described above are or will be based, in part, on assumptions and representations as to factual matters that have been or will be received from Investor, Marshall & Ilsley and New Metavante, including those contained in certificates of the officers of Marshall & Ilsley and New Metavante, as requested by the Internal Revenue Service or counsel. If any of those assumptions or representations is inaccurate as of the effective time of the Marshall & Ilsley contribution or the New Marshall & Ilsley share distribution, the tax consequences of the Marshall & Ilsley contribution and New Marshall & Ilsley share distribution could differ materially from those described above. Opinions of counsel neither bind the Internal Revenue Service or any court, nor preclude the Internal Revenue Service from adopting a contrary position.

If the New Marshall & Ilsley share distribution does not qualify as a tax-free distribution under section 355 of the Internal Revenue Code, New Metavante would recognize taxable gain equal to the excess of the fair market value of the New Marshall & Ilsley common stock distributed to the New Metavante shareholders over New Metavante's tax basis in the New Marshall & Ilsley common stock. In addition, each New Metavante shareholder who receives New Marshall & Ilsley common stock in the New Marshall & Ilsley share distribution would generally be treated as receiving a taxable dividend in an amount equal to the fair market value of the New Marshall & Ilsley common stock received to the extent of the earnings and profits of New Metavante.

Table of Contents

Effect of Certain Acquisitions of the Stock of New Marshall & Ilsley or New Metavante

Even if the New Marshall & Ilsley share distribution otherwise qualifies as a tax-free distribution under Section 355 of the Internal Revenue Code, the distribution of New Marshall & Ilsley common stock to New Metavante shareholders in connection with the New Marshall & Ilsley share distribution would result in significant U.S. federal income tax liabilities to New Metavante, (but not Marshall & Ilsley shareholders), if there is an acquisition of stock of New Marshall & Ilsley or New Metavante as part of a plan or series of related transactions that includes the New Marshall & Ilsley share distribution and that results in an acquisition of 50% or more of New Marshall & Ilsley or New Metavante outstanding common stock. For purposes of these rules, any acquisitions of the stock of New Marshall & Ilsley or New Metavante within two years before or after the New Marshall & Ilsley share distribution are presumed to be part of a plan, although the parties may be able to rebut that presumption. For purposes of this test, the investment by Investor will be treated as part of such a plan or series of transactions. Under the terms of the investment agreement, Investor will acquire 25% of New Metavante common stock. Thus, an additional 25% change in the ownership of the New Metavante common stock could trigger a significant tax liability for New Metavante under Section 355 of the Internal Revenue Code (for which New Marshall & Ilsley may be required to indemnify New Metavante under the tax allocation agreement unless such taxes would not have been imposed but for specified acts of New Metavante or its affiliates (including Investor)).

The process for determining whether a prohibited change in control has occurred under the rules is complex, inherently factual and subject to interpretation of the facts and circumstances of a particular case. If New Marshall & Ilsley or New Metavante does not carefully monitor its compliance with these rules, it might inadvertently cause or permit a prohibited change in the ownership of New Metavante or of New Marshall & Ilsley to occur, thereby triggering New Marshall & Ilsley's or New Metavante's respective obligations to indemnify the other pursuant to the tax allocation agreement, which would have a material adverse effect on New Metavante and/or New Marshall & Ilsley. New Metavante will be primarily liable for these taxes, and there can be no assurance that New Marshall & Ilsley would be able to fulfill its obligations under the tax allocation agreement if New Marshall & Ilsley was determined to be responsible for these taxes thereunder. In addition, these mutual indemnity obligations could discourage or prevent a third party from making a proposal to acquire either party.

Information Reporting

Current Treasury regulations require New Metavante shareholders who own at least 5 percent of the total outstanding stock of New Metavante and who receive New Marshall & Ilsley common stock pursuant to the New Marshall & Ilsley share distribution to attach to his, her or its federal income tax return for the year in which the New Marshall & Ilsley share distribution occurs, a detailed statement setting forth the data that may be appropriate in order to show the applicability of Section 355 of the Internal Revenue Code to the New Marshall & Ilsley share distribution. New Metavante will provide the appropriate information to each such shareholder upon request.

The foregoing sets forth the material U.S. federal income tax consequences of the holding company merger, the New Marshall & Ilsley share distribution and related transactions under current law. This discussion does not address tax consequences that may vary with, or are contingent on, individual circumstances. Moreover, it does not address any non-income tax or any foreign, state or local tax consequences of the holding company merger, the New Marshall & Ilsley share distribution and related transactions. Each Marshall & Ilsley shareholder is encouraged to consult his, her or its tax advisor as to the particular consequences of the holding company merger, the New Marshall & Ilsley share distribution and related transactions to the shareholder, including the application of state, local and foreign tax laws, and as to possible prospective or retroactive changes in tax law that may affect the tax consequences described above.

Table of Contents

THE INVESTMENT AGREEMENT

The following is a summary of the material terms and provisions of the investment agreement. All references to the investment agreement are to the investment agreement, as amended or supplemented from time to time. The following summary is qualified in its entirety by reference to the complete text of the investment agreement. The full text of the investment agreement is included in this proxy statement/prospectus information statement as Annex A and is incorporated herein by reference. We encourage you to read the entire investment agreement.

The Internal Transactions

Upon the terms and subject to the conditions of the investment agreement, the parties will effect the transactions described below on the closing date.

The Holding Company Merger

Under the investment agreement and in accordance with the WBCL, Merger Sub will merge with and into Marshall & Ilsley, with Marshall & Ilsley continuing as the surviving corporation and as a direct, wholly-owned subsidiary of New Metavante. In the holding company merger, each issued and outstanding share of Marshall & Ilsley common stock will automatically convert into one-third of a share of New Metavante common stock. Every issued and outstanding share of Merger Sub common stock will automatically convert into one share of common stock of the surviving corporation. As a result of the holding company merger, New Metavante will also be a publicly-traded company.

Exchange of Shares

In connection with the holding company merger, on or prior to the closing date, Marshall & Ilsley and New Metavante will deposit, or cause to be deposited, with the exchange agent, certificates representing the shares of New Metavante common stock to be issued and delivered in exchange for Marshall & Ilsley certificates and cash, in lieu of fractional shares, to be issued in accordance with the holding company merger.

After the effective time of the holding company merger, there will be no transfers on the stock transfer books of Marshall & Ilsley of shares of Marshall & Ilsley common stock that were issued and outstanding immediately prior to the effective time. Marshall & Ilsley and New Metavante will instruct the exchange agent for the holding company merger not to permit any transfers of New Metavante common stock from the effective time of the holding company merger up to and including the record date for the New Marshall & Ilsley share distribution. Accordingly, each holder of Marshall & Ilsley common stock that receives shares of New Metavante common stock in the holding company merger will also be a holder of record of shares of New Metavante common stock as of the record date for the New Marshall & Ilsley share distribution and therefore will receive shares of New Marshall & Ilsley common stock in the New Marshall & Ilsley share distribution.

Treatment of Stock Options and Restricted Stock

Each option held by a Metavante employee to purchase shares of Marshall & Ilsley common stock outstanding immediately prior to the effective time of the holding company merger will be converted during the holding company merger into an option to purchase shares of New Metavante common stock. Each option held by a Marshall & Ilsley employee or director to purchase shares of Marshall & Ilsley common stock outstanding immediately prior to the effective time of the holding company merger will be converted during the holding company merger into an option to purchase shares of New Marshall & Ilsley common stock. Prior to the completion of the distribution, each outstanding option to purchase Marshall & Ilsley stock held by an individual who, immediately following the separation, is a director of New Metavante and either a Marshall & Ilsley or New Marshall & Ilsley employee or a director of New Marshall & Ilsley shall be converted into both a New Marshall & Ilsley option and a New Metavante option, effective immediately after the distribution. Each converted option will have the same terms and conditions as the corresponding Marshall & Ilsley option to which

Table of Contents

it relates and will continue to be subject to the same terms and conditions as the applicable Marshall & Ilsley equity plan. The employee matters agreement provides for the adjustment to the exercise price and the number of shares subject to such options to reflect the distribution.

All shares of Marshall & Ilsley restricted stock will be treated the same as all other outstanding shares of Marshall & Ilsley common stock in the holding company merger and the distribution; provided, however, that each share of New Metavante common stock and New Marshall & Ilsley common stock received in such transactions with respect to the shares of Marshall & Ilsley restricted stock shall be subject to the same restrictions as the corresponding share of Marshall & Ilsley restricted stock to which it relates and shall continue to be subject to the terms of the applicable Marshall & Ilsley equity plan.

Effective Time

The holding company merger will become effective as set forth in the articles of merger filed with the Wisconsin Department of Financial Institutions on the closing date.

New Metavante Restated Articles of Incorporation and Amended and Restated By-laws

Prior to the effective time of the holding company merger, New Metavante's board of directors will adopt, and Marshall & Ilsley, as the sole shareholder of New Metavante at that time, will approve the New Metavante restated articles of incorporation, the form of which is attached as Annex G, and the New Metavante amended and restated by-laws, the form of which is incorporated by reference into this document and filed as an exhibit to the registration statement of which this proxy statement/prospectus information statement is a part. The New Metavante restated articles of incorporation and amended and restated by-laws will contain provisions that differ from those of Marshall & Ilsley's articles of incorporation and by-laws. See Comparison of Rights of Marshall & Ilsley, New Metavante and New Marshall & Ilsley Shareholders beginning on page 391.

Marshall & Ilsley LLC Conversion

Under the investment agreement and in accordance with the WBCL, immediately following the effective time of the holding company merger, Marshall & Ilsley will convert from a Wisconsin corporation into a Wisconsin limited liability company (as converted, MI LLC). The effective time of the Marshall & Ilsley LLC conversion, will be the time and date on which the articles of conversion and articles of organization are duly filed with the Wisconsin Department of Financial Institutions.

Metavante Distribution

Under the investment agreement, immediately following the effective time of the Marshall & Ilsley LLC conversion, MI LLC will distribute the outstanding shares of Metavante common stock to New Metavante. Following the distribution, all of the outstanding shares of capital stock of Metavante will be owned by New Metavante.

Investment by Investor

Under the investment agreement, immediately following the distribution of all of the outstanding shares of capital stock of Metavante to New Metavante and contemporaneous with the debt financing, Investor will purchase, for \$625 million, shares of New Metavante Class A common stock that will automatically convert on a one-for-one basis into shares of New Metavante common stock at 12:01 a.m. Eastern Standard Time on the first day following the closing date, which shares of New Metavante common stock will represent 25% of the shares of New Metavante common stock. Immediately following the conversion of the New Metavante Class A common stock, the New Metavante common stock will be the only class of New Metavante capital stock issued and outstanding.

Table of Contents

Consummation of the Debt Financing

Under the investment agreement, contemporaneous with the investment by Investor, New Metavante and/or one or more of its subsidiaries will incur approximately \$1.75 billion of indebtedness.

Payment of Intercompany Indebtedness

Under the investment agreement, New Metavante and/or one of its subsidiaries will pay off certain intercompany indebtedness plus accrued and unpaid interest owed to Marshall & Ilsley (the amount currently owed is approximately \$982 million).

Immediately following the purchase of Class A shares by Investor, the consummation of the debt financing and the payment of the intercompany indebtedness, Metavante will pay a dividend in cash equal to \$1.040 billion to New Metavante.

Cash Contribution

Under the investment agreement, New Metavante will contribute to New Marshall & Ilsley \$1.665 billion in cash (which includes the \$625 million of proceeds from the sale of the New Metavante common stock to Investor).

Marshall & Ilsley Contribution

Under the investment agreement, contemporaneously with the cash contribution of \$1.665 billion to New Marshall & Ilsley, New Metavante will contribute all of the outstanding membership interests of MI LLC to New Marshall & Ilsley. Following the transactions above, New Metavante will have two direct, wholly-owned subsidiaries: New Marshall & Ilsley, which will own the equity of MI LLC (formerly Marshall & Ilsley) and Metavante, which will operate Metavante's business.

New Marshall & Ilsley Share Distribution

Under the investment agreement and subject to the terms of the separation agreement, New Metavante will effect the New Marshall & Ilsley share distribution by instructing the distribution agent to record in the stock transfer records of New Marshall & Ilsley the distribution of three shares of New Marshall & Ilsley common stock to each holder of New Metavante common stock (other than the New Metavante Class A common stock) as of the record date for the distribution for each share of New Metavante common stock held of record and mail to each such holder a letter of transmittal and instructions on how to exchange certificates representing shares of Marshall & Ilsley common stock for certificates representing shares of New Metavante common stock for the holding company merger and New Marshall & Ilsley common stock for the New Marshall & Ilsley share distribution.

Covenants

Each party has undertaken certain covenants in the investment agreement concerning the transactions and the conduct of its business from the date of the investment agreement generally until the date of completion of the transactions or termination of the investment agreement. The following summarizes the more significant of these covenants:

Shareholders Meeting; No Solicitation of Acquisition Proposals; Recommendation of Marshall & Ilsley Board

Shareholders Meeting. Marshall & Ilsley has agreed to duly take all lawful action to call, give notice of, convene and hold a meeting of its shareholders as promptly as practicable after the date of the investment

Table of Contents

agreement for the purpose of obtaining the approval and adoption of the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, by Marshall & Ilsley shareholders. Unless the Marshall & Ilsley Board makes a change in its recommendation in accordance with the terms of the investment agreement (as described below), Marshall & Ilsley has agreed to use its reasonable best efforts to solicit shareholder approval and the Marshall & Ilsley Board has agreed to declare that the investment agreement and the transactions are advisable and in the best interests of Marshall & Ilsley and its shareholders and recommend to the shareholders of Marshall & Ilsley approval of the investment agreement and the transactions by the shareholders of Marshall & Ilsley. In addition, if a change in recommendation is made by Marshall & Ilsley and within 15 business days after Investor receives any written notice from Marshall & Ilsley of such change in recommendation in accordance with the investment agreement Investor delivers a written notice (a force the Marshall & Ilsley vote notice) to Marshall & Ilsley that Investor desires that the investment agreement and the transactions be submitted to the shareholders of Marshall & Ilsley, then Marshall & Ilsley shall be obligated to submit the investment agreement and the transactions to the shareholders of Marshall & Ilsley at the special meeting of shareholders for the purpose of obtaining shareholder approval.

No Solicitation of Acquisition Proposals. Marshall & Ilsley has agreed that neither it, any of its subsidiaries nor any of the executive officers or directors of Marshall & Ilsley or of Metavante shall, and Marshall & Ilsley has agreed not to authorize any of its or its subsidiaries' respective officers, directors, employees, agents or representatives to (and has agreed to instruct JPMorgan, in its capacity as Marshall & Ilsley's investment banker, not to), directly or indirectly:

solicit, initiate or knowingly encourage (including by way of furnishing non-public information) the making of any inquiry, offer or proposal which constitutes or that would reasonably be expected to lead to, any Marshall & Ilsley acquisition proposal (as described below) or Metavante acquisition proposal (as described below);

enter into any letter of intent, agreement in principle, merger agreement, acquisition agreement, option agreement, or other agreement providing for any Marshall & Ilsley acquisition proposal (each, an Marshall & Ilsley acquisition agreement) or any Metavante acquisition proposal; or

participate in any discussions or negotiations regarding any Marshall & Ilsley acquisition proposal or any Metavante acquisition proposal;

provided, however, that if, without any breach by Marshall & Ilsley or its subsidiaries of their non-solicitation obligations under the investment agreement, Marshall & Ilsley receives an unsolicited bona fide written Marshall & Ilsley acquisition proposal or Metavante acquisition proposal from any person, Marshall & Ilsley may:

furnish information (including non-public information) with respect to Marshall & Ilsley and its subsidiaries, including Metavante, to any such person pursuant to a confidentiality agreement, which in the case of a Metavante acquisition proposal, shall contain terms no less restrictive on such person than those in the confidentiality agreement with Investor are to Investor; and

participate in negotiations with such person regarding such Marshall & Ilsley acquisition proposal or Metavante acquisition proposal, if:

in the good faith judgment of the Marshall & Ilsley Board after consultation with its outside legal counsel, failure to take such action would be inconsistent with the fiduciary duties of the Marshall & Ilsley Board to its shareholders under applicable laws; and

in the case of a Metavante acquisition proposal only, in the good faith judgment of the Marshall & Ilsley Board, after consultation with its outside legal counsel and financial advisor(s), such Metavante acquisition proposal is or is reasonably likely

to lead to a superior Metavante acquisition proposal (as described below).

Table of Contents

Notwithstanding the foregoing, Marshall & Ilsley is not prohibited from, following receipt of a Marshall & Ilsley acquisition proposal or a Metavante acquisition proposal, contacting the person making such Marshall & Ilsley acquisition proposal or Metavante acquisition proposal and its advisors solely for the purpose of clarifying the proposal and the material terms thereof and the conditions to consummation.

Marshall & Ilsley has agreed to (i) promptly (and in any case within 48 hours) notify Investor if Marshall & Ilsley has received any Metavante acquisition proposal and (ii) keep Investor reasonably informed on a prompt basis as to any material developments regarding any such Metavante acquisition proposal. The notice is required to include, to the extent then known, the identity of the parties and a copy of any Metavante acquisition proposal and the material documents submitted therewith and, if conveyed orally, a description of the material terms thereof.

Under the investment agreement the term **Marshall & Ilsley acquisition proposal** means any inquiry, proposal or offer (other than a Metavante acquisition proposal) from any person with respect to:

a merger, reorganization, share exchange, consolidation, business combination, recapitalization, liquidation, dissolution or similar transaction involving Marshall & Ilsley or any of its subsidiaries that, if consummated, would result in any person (or the shareholders of such person in the aggregate) beneficially owning securities representing 25% or more of the total voting power of Marshall & Ilsley then outstanding;

any direct or indirect purchase or sale, lease, exchange, transfer or other disposition of 25% or more of the consolidated assets (including stock of Marshall & Ilsley's subsidiaries) of Marshall & Ilsley and its subsidiaries, taken as a whole; or

any direct or indirect purchase or sale of, or tender or exchange offer for, or similar transaction with respect to, the equity securities of Marshall & Ilsley that, if consummated, would result in any person (or the shareholders of such person in the aggregate) beneficially owning securities representing 25% or more of the total voting power of Marshall & Ilsley (or of the surviving parent entity in such transaction) then outstanding;

provided, however, that no such inquiry, proposal or offer shall be considered to be a Marshall & Ilsley acquisition proposal if it relates to a transaction that the Marshall & Ilsley Board reasonably determines in good faith, after consultation with its outside legal counsel, is not reasonably likely to prevent or materially impair, modify or delay the consummation of the transactions contemplated by the investment agreement.

Under the investment agreement the term **Metavante acquisition proposal** means any inquiry, proposal or offer from any person solely with respect to:

a merger, reorganization, share exchange, consolidation, business combination, recapitalization, liquidation, dissolution or similar transaction solely involving Metavante or any of its subsidiaries that, if consummated, would result in any person (or the shareholders of such person in the aggregate) beneficially owning securities representing 25% or more of the total voting power of Metavante then outstanding;

any direct or indirect purchase or sale, lease, exchange, transfer or other disposition of 25% or more of the consolidated assets (including stock of Metavante's Subsidiaries) of Metavante and its subsidiaries, taken as a whole; or

any direct or indirect purchase or sale of, or similar transaction with respect to, the equity securities of Metavante that, if consummated, would result in any person (or the shareholders of such person in the aggregate) beneficially owning securities representing 25% or more of the total voting power of Metavante (or of the surviving parent entity in such transaction) then outstanding.

Under the investment agreement the term **superior Metavante acquisition proposal** means any unsolicited bona fide written Metavante acquisition proposal on terms that, in the good faith judgment of the Marshall &

Table of Contents

Ilsley Board after consultation with its outside legal counsel and financial advisor(s) and after taking into account all legal, financial, regulatory and other aspects of the proposal, including the financing terms thereof, is:

reasonably capable of being consummated; and

superior from a financial point of view to the shareholders of Marshall & Ilsley to the transactions contemplated by the investment agreement (as may be modified by any revised proposals that may be made by Investor pursuant to the investment agreement, as described below).

Marshall & Ilsley Covenant to Recommend. Marshall & Ilsley has agreed that its board of directors will recommend the approval and adoption of the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Marshall & Ilsley share distribution to Marshall & Ilsley's stockholders. Marshall & Ilsley has also agreed that neither the Marshall & Ilsley Board nor any committee thereof shall:

withdraw, modify, qualify or amend its recommendation in any manner adverse to Investor;

fail to publicly reaffirm its recommendation within five business days after receiving a written request to do so from Investor in response to any public statement or disclosure by Marshall & Ilsley or any of its affiliates that could reasonably be interpreted to have any of the effects set forth in the first or third bullet of this section, if such request is made by Investor within five business days after such public statement or disclosure;

approve, recommend, agree to or accept, any Marshall & Ilsley acquisition proposal; or

approve, recommend, agree to or accept, any Metavante acquisition proposal (each of the actions in the foregoing bullets, a change in recommendation);

provided, however, that at any time prior to the receipt of the shareholder approval at the special meeting (or in case of the third bullet above, at any time subject to compliance with the next proviso of this section), the Marshall & Ilsley Board may make a change in recommendation if:

Marshall & Ilsley has complied with its non-solicitation obligations under the investment agreement;

in the good faith judgment of the Marshall & Ilsley Board, after consultation with the outside legal counsel of Marshall & Ilsley, the failure to make such change in recommendation would be inconsistent with the fiduciary duties of the Marshall & Ilsley Board to its shareholders under applicable laws; and

in the case of a change in recommendation in response to a Metavante acquisition proposal, the Marshall & Ilsley Board, after consultation with its outside legal counsel and financial advisors, has also determined in its good faith judgment that such Metavante acquisition proposal is a superior Metavante acquisition proposal;

provided, further, that at any time, the Marshall & Ilsley Board may approve, recommend, agree to or accept, any Marshall & Ilsley acquisition proposal if:

Edgar Filing: MARSHALL & ILSLEY CORP/WI/ - Form DEFM14A

Marshall & Ilsley has complied with its non-solicitation obligations under the investment agreement;

in the good faith judgment of the Marshall & Ilsley Board, after consulting with its outside legal counsel, the failure to take such action would be inconsistent with the fiduciary duties of the Marshall & Ilsley Board to its shareholders under applicable laws; and

prior to or concurrently with authorizing or permitting Marshall & Ilsley or any of its subsidiaries to enter into any Marshall & Ilsley acquisition agreement, Marshall & Ilsley has terminated the investment agreement in accordance with its terms and has paid Investor the termination fee required thereby (as discussed below).

Table of Contents

The investment agreement also provides that Marshall & Ilsley Board will not make any change in recommendation in response to a Metavante acquisition proposal unless:

Marshall & Ilsley has complied with certain non-solicitation obligations under the investment agreement;

Marshall & Ilsley shall have provided prior written notice to Investor, at least five business days in advance, of its intention to take such action, which notice shall specify the material terms and conditions of such Metavante acquisition proposal (including the identity of the person making such proposal), and shall enclose a copy of the current version of the proposed transaction agreement, if any, with the person making such proposal; and

prior to effecting such change in recommendation, Marshall & Ilsley shall, and shall cause its financial and legal advisors to, during such five business day period, negotiate in good faith with Investor (to the extent Investor desires to negotiate) to make such adjustments to the terms and conditions of the investment agreement as may be proposed by Investor; provided, that in the event of any material revision to any such Metavante acquisition proposal, Marshall & Ilsley shall be required to deliver a new written notice to Investor and to again comply with the requirements of the second bullet above with respect to such new written notice (except that the notice period shall be two business days instead of five business days).

In any case, and in addition to the notice requirements discussed immediately above, if applicable, Marshall & Ilsley has agreed to notify Investor in writing that a change in the recommendation has occurred no later than 24 hours after a change in recommendation has occurred (a change in recommendation notice), which change in recommendation notice shall set forth the principal reasons for the change in recommendation. No later than 15 business days after Investor receives such written notice, Investor must provide a force the Marshall & Ilsley vote notice to Marshall & Ilsley if it desires that the investment agreement and the transactions be submitted to the shareholders of Marshall & Ilsley.

If, at any time after Marshall & Ilsley has provided a change in recommendation notice in accordance with the terms of the investment agreement and the investment agreement has not been terminated in accordance with its terms, the Marshall & Ilsley Board makes a further change in its recommendation to the shareholders of Marshall & Ilsley as to approval of the investment agreement and the transactions by the shareholders of Marshall & Ilsley based on subsequent material developments:

then Marshall & Ilsley shall deliver a new change in recommendation notice to Investor in accordance with the terms of the investment agreement;

any prior force the Marshall & Ilsley vote notice shall be of no further force or effect (other than that Marshall & Ilsley shall have no right to terminate the investment agreement due to Investor's failure to deliver a force the vote notice until the 15 business day period referred to in the bullet immediately following has elapsed); and

Investor shall have a new 15 business day period from the time of delivery of the notice referred to in the first bullet above in which to provide a force the Marshall & Ilsley vote notice to Marshall & Ilsley in accordance with the terms of the investment agreement. The investment agreement does not prohibit Marshall & Ilsley from complying with Rules 14d-9 or 14e-2 promulgated under the Exchange Act, with respect to a Marshall & Ilsley acquisition proposal or from making any disclosure to the shareholders of Marshall & Ilsley with respect to an Marshall & Ilsley acquisition proposal or a Metavante acquisition proposal, if, in the good faith judgment of the Marshall & Ilsley Board, after consultation with outside legal counsel, failure to make such disclosure would be inconsistent with the fiduciary duties of the Marshall & Ilsley Board to its shareholders under applicable laws.

Table of Contents

New Metavante Organizational Documents; Governance Matters

New Metavante and Marshall & Ilsley agreed to take all actions necessary to cause, effective at the time of the New Marshall & Ilsley share distribution, the board of directors of New Metavante to consist of 11 directors, consisting of (i) three directors designated by Investor, (ii) two directors who shall be officers of Metavante, one of whom shall be the President and Chief Executive Officer and one of whom shall be the Senior Executive Vice President and Chief Operating Officer, (iii) one director who shall be designated by Marshall & Ilsley and shall initially be Dennis J. Kuester and (iv) five additional directors selected by Marshall & Ilsley after consulting with the President and Chief Executive Officer of Metavante and with the consent of Investor (which shall not be unreasonably withheld or delayed), each of whom shall qualify as independent directors and one of whom shall be a director of Marshall & Ilsley, provided that if any individual described above is unable to begin serving as a director of New Metavante at the distribution time, the New Metavante board of directors shall not include such individual until he or she is able to serve as a director, provided, further, that if such individual is unable to serve as a director of New Metavante at the distribution time, he or she shall have agreed to begin to serve within a reasonable period of time thereafter, and provided, further, that if Investor or Marshall & Ilsley is prevented by applicable law or regulatory process from designating any of its designees, such designees shall be independent directors designated in accordance with clause (iv) above.

The shareholder agreement provides that the Chairman of the Board of New Metavante will be Dennis J. Kuester for a period of one year from the closing and that if Dennis J. Kuester is unable to serve during such one-year period, or after such one-year period, Frank R. Martire will, subject to the approval of the board of directors of New Metavante, succeed Dennis J. Kuester as Chairman of the Board of New Metavante.

The investment agreement also provides that Frank R. Martire, the President and Chief Executive Officer of Metavante immediately prior to the closing date, will be the President and Chief Executive Officer of New Metavante at the time of the New Marshall & Ilsley share distribution and thereafter until duly changed in accordance with the organizational documents of New Metavante and applicable law.

Covenants Relating to Conduct of Business

In general, except as required or expressly permitted or contemplated by agreements relating to the transactions, Marshall & Ilsley (solely with respect to Metavante's business), New Metavante and Metavante are required to conduct their business in the ordinary course in substantially the same manner as previously conducted (and Marshall & Ilsley will allow Metavante to carry on its business with a level of autonomy that is consistent with past practice), to use reasonable best efforts to preserve their business organizations, to maintain their material rights, licenses and permits, to keep available the services of the current officers and other key employees and preserve their relationships with customers, franchises and others having business dealings with them with the intention that the ongoing businesses shall not be materially impaired. Each of Marshall & Ilsley, New Metavante and Metavante has agreed to specific restrictions with respect to itself and its subsidiaries, subject to certain exceptions, including as required or expressly permitted or contemplated by agreements and the disclosure schedules thereto relating to the transactions, relating to the following:

making or permitting any of their subsidiaries to make any distributions of cash, capital stock or property or any combination thereof in respect of any capital stock of New Metavante or Metavante except for (i) the distributions contemplated by the transactions and (ii) the historical \$1 million quarterly cash dividend from Metavante to Marshall & Ilsley;

causing New Metavante or Metavante to split, combine or reclassify any of its capital stock or amend the terms of or change the period of exercisability of or purchase, redeem or otherwise acquire any capital stock or securities convertible into or exercisable or exchangeable for any right, warrant or option to acquire capital stock of New Metavante or Metavante;

issuing or pledging any shares of Metavante stock, indebtedness having the right to vote on Metavante shareholder matters, or securities convertible into or exchangeable for any such shares or indebtedness or entering into any commitment or agreement to do so;

Table of Contents

except as contemplated by the investment agreement or the transaction agreements, amending or proposing to amend the articles, by-laws, or other governing documents of New Metavante or Metavante or amending or proposing to amend the articles, by-laws, or other governing documents of Marshall & Ilsley if the change would delay the closing of the transactions;

acquiring or agreeing to acquire by merger, consolidation, equity purchase or otherwise any business, corporation or other business organization or assets, such limitations with respect to Marshall & Ilsley solely with respect to the Metavante's business, if the acquisition would prevent or materially delay any consent from any governmental entity or otherwise materially frustrate, impede or delay the consummation of the transactions;

selling, leasing, licensing, encumbering or otherwise disposing of any assets of Metavante or any subsidiary of New Metavante or Metavante, including any capital stock of Metavante or any subsidiary of Metavante, or agreeing to do any of the foregoing, other than (i) in the ordinary course consistent with past practice or (ii) sales, leases, licenses, encumbrances or other dispositions of assets with a fair market value of no more than \$3 million in the aggregate;

allowing New Metavante, Metavante or their subsidiaries to commit to make any capital expenditures that would reasonably be expected to be incurred after the closing date other than capital expenditures involving commitments of less than \$1 million in the aggregate or capital expenditures included in Metavante's capital expenditure plan;

settling any litigation, investigation, or other claim if New Metavante, Metavante or any of their subsidiaries would be required to pay in excess of \$4 million individually or \$15 million in the aggregate or if the settlement would require New Metavante, Metavante or their subsidiaries to take any material actions or agree to any material restrictions;

with respect to any employee of Metavante (i) accelerating the vesting of, or the lapsing of restrictions with respect to, any stock options or other stock-based compensation, except as required by applicable law or in accordance with the existing terms of awards already in existence, (ii) increasing or committing to increase the amount of compensation or employee benefits of any Metavante employees except for increases in compensation or employee benefits for individuals (as opposed to general increases), (iii) entering into any new, or amending any existing contracts with any employee or consultant of any Metavante Group (as defined under The Separation Agreement General) member regarding employment, compensation or benefits (other than (A) actions taken in the ordinary course of business consistent with past practice with respect to employees who are not members of the executive committee of Metavante and (B) hiring or offering employment to a person to serve as Chief Financial Officer of Metavante after consulting with Investor with respect thereto or entering into an agreement relating thereto), or (iv) transferring any employees primarily providing services to Metavante's business to the Marshall & Ilsley Group (as defined under The Separation Agreement General) or transferring any employees primarily providing services to businesses of Marshall & Ilsley and its affiliates (other than the business of Metavante) to the Metavante Group;

to Metavante or any of its subsidiaries (i) making, amending or changing any material tax election, (ii) making a request for a material tax ruling, or enter into a material closing agreement relating to taxes, (iii) settling or compromising any material tax liability or claims, (iv) filing any material amendments to any previously filed material tax returns, or (v) surrendering any right to claim any material amount of refund of any taxes;

making any material change to Metavante's methods of accounting in effect at December 31, 2006;

entering into, waiving any material rights under or amending in any material respect any material contract between the Metavante Group, on the one hand, and the Marshall & Ilsley Group, on the other hand, that, (x) will survive the closing date of the transactions; or (y) provides for indebtedness for borrowed money; provided, however, that certain business agreements between Marshall & Ilsley and Metavante that will survive the transactions may be amended in the ordinary course of business;

Table of Contents

transferring any material asset that relates primarily to Metavante's business from the Metavante Group to the Marshall & Ilsley Group or transferring any material liabilities (other than those liabilities that relate primarily to Metavante's business) from the Marshall & Ilsley Group to the Metavante Group; and

allowing New Metavante, Metavante or their subsidiaries to incur any indebtedness for borrowed money, other than (i) trade payables incurred in the ordinary course of business, (ii) draws on Metavante's revolving line of credit for settlement-type transactions, and (iii) the debt financing to be incurred in connection with the transactions.

Reasonable Best Efforts

The investment agreement provides that each party to the investment agreement, subject to specified limitations, will use its reasonable best efforts to take, or cause to be taken, all actions and to do, or cause to be done, and to assist and cooperate with the other parties in doing or causing to be done, all things necessary, proper or advisable under the investment agreement and applicable laws to consummate the transactions as soon as reasonably practicable, including obtaining required approvals from third-parties and governmental entities. Each of Investor, Marshall & Ilsley, Metavante, and New Metavante will agree to any restrictions or modifications, or take any action or enter into any settlement or other agreement or binding arrangement to sell, hold, separate or otherwise dispose of any assets, including the capital stock of any subsidiary, suggested or requested by any governmental entity in order to facilitate the receipt of any required approval (including modifications to the shareholders agreement, the administrative services agreement, or the continuing business agreements), so long as such restrictions, modifications, sales, disposals or other actions would not, individually or in the aggregate, (i) reasonably be expected to have a material adverse effect on Metavante or New Metavante, (ii) reasonably be expected to have a material adverse effect on Marshall & Ilsley, (iii) materially detract from the expected financial benefits from the transaction to Marshall & Ilsley and certain subsidiaries relating to Marshall & Ilsley's business or (iv) in the case of Investor, result in (A) an increase in the purchase price or a decrease in the percentage of fully diluted shares of New Metavante common stock or (B) Investor or its affiliates becoming subject to bank regulation or supervision (including being required to register as a bank holding company), other than any bank regulation that Investor or its affiliates are, or become subject to, for reasons unrelated to the transactions.

Private Letter Ruling; Tax-Free Reorganization Treatment

Marshall & Ilsley agreed to use its reasonable best efforts to obtain, as soon as practicable after the execution of the investment agreement, a private letter ruling from the Internal Revenue Service to the effect that (i) the holding company merger and the Marshall & Ilsley LLC conversion qualify as a reorganization under Section 368(a) of the Internal Revenue Code and (ii) the Marshall & Ilsley contribution and the New Marshall & Ilsley share distribution qualify as a reorganization under Section 368(a)(1)(D) of the Internal Revenue Code and a distribution eligible for nonrecognition under Sections 355(a) and 361(c) of the Internal Revenue Code.

Marshall & Ilsley further agreed that neither it nor any of its subsidiaries will take (or cause to be taken) any action on or before the closing date, that:

would result in any failure to obtain the private letter ruling above; or

could reasonably be expected to prevent the transactions contemplated under the investment agreement from having the intended tax consequences described in the investment agreement.

Investor agreed that it will not, and will cause its affiliates not to, (i) acquire any shares of Marshall & Ilsley common stock prior to the completion of the transactions or (ii) acquire any shares of capital stock of New Metavante or any of its subsidiaries until the second anniversary of the closing date, other than shares of New Metavante Class A common stock acquired in the New Metavante share issuance and other than shares acquired in transactions that comply with the provisions of the tax allocation agreement.

Table of Contents

Employee Benefits Matters

The investment agreement provides that employee benefit matters are to be treated as set forth in the employee matters agreement.

Non-Competition

For a period of 36 months following closing date, New Marshall & Ilsley will not and will cause its subsidiaries not to engage, within the United States, in competition with the Metavante Group in any business with financial services firms and related businesses that Metavante is engaged in as of the date of the execution of the investment agreement in any substantial respect; provided, that the activities that the Marshall & Ilsley Group shall be restricted from will not include: (i) any business engaged in by members of the Marshall & Ilsley Group as of the date of the execution of the investment agreement, (ii) any activities engaged in solely to service the operations of the Marshall & Ilsley Group, and (iii) any other traditional banking services.

However, Marshall & Ilsley and its subsidiaries are not restricted from, among other things:

owning less than 5% in the aggregate of any class of capital stock of a person engaged, directly or indirectly, in the restricted activities described above, provided that such stock is listed on a national securities exchange;

owning less than 15% in value of any instrument of indebtedness of a person engaged, directly or indirectly, in the restricted activities described above;

owning any securities in a fiduciary capacity;

acquiring control of any person or business that for the fiscal year immediately preceding the acquisition derived less than 10% of its revenues from the restricted activities described above;

acquiring control of any person or business that for the fiscal year immediately preceding the acquisition derived more than 10% of its revenues but less than 35% of its revenues from the restricted activities described above, so long as it uses its reasonable best efforts to divest the operations as promptly as practicable and in any event within 12 months after the consummation of the acquisition of control; or

owning an interest acquired as a creditor in bankruptcy or otherwise than by a voluntary investment decision in a person or business that for the fiscal year immediately preceding the acquisition of the interest derived 10% or more of its revenues from the restricted activities described above, so long as New Marshall & Ilsley or its subsidiary uses its reasonable best efforts to divest the interest as promptly as practicable and in any event within 12 months after the acquisition of the interest, subject to specified conditions.

Non-Solicitation

For a period of six months following the closing date, neither New Marshall & Ilsley nor any of its subsidiaries will encourage certain employees of the Metavante Group to terminate his or her employment with any member of the Metavante Group or solicit any such individuals for employment outside the Metavante Group which would end or diminish the employee's services to the Metavante Group. Additionally, New Metavante and Metavante agreed, for a period of six months following the closing date, that neither New Metavante nor any of its subsidiaries will encourage certain employees of the Marshall & Ilsley Group (as specified in the investment agreement) to terminate his or her employment with any member of the Marshall & Ilsley Group or solicit such individual for employment outside the Marshall & Ilsley Group which would end or diminish that employee's services to the Marshall & Ilsley Group.

Table of Contents

Debt Financing

The investment agreement provides that:

each of Marshall & Ilsley, Metavante, New Metavante and Investor agree to use its reasonable best efforts to provide, and to cause its respective subsidiaries, officers, employees, independent auditors, counsel and other representatives to provide, all timely cooperation reasonably required in connection with the arrangement of the debt financing provided for in the debt commitment letter among JPMorgan, JPMorgan Chase Bank, N.A., Morgan Stanley Senior Funding, Inc., Lehman Brothers Commercial Bank, Lehman Commercial Paper Inc., Lehman Brothers Inc., Baird Financial Corporation and Metavante (the debt commitment letter);

if any portion of the debt financing becomes unavailable on the terms and conditions contemplated in the debt commitment letter, Investor may arrange to obtain alternative financing from alternative sources following the occurrence of such event, in an amount sufficient (when taken together with the aggregate proceeds contemplated by the equity commitment letter and the portion, if any, of the debt financing that remains available under the Debt Commitment Letter on the terms and conditions contemplated therein) to consummate the transactions; provided, that the terms and conditions of such alternative financing are reasonably acceptable to Metavante; and

Metavante, New Metavante and Marshall & Ilsley will use and will cause their respective subsidiaries to use, their respective reasonable efforts to enforce the provisions of the debt commitment letter.

See Anticipated Terms of Financing beginning on page 146.

Valuation Firm Opinions

Marshall & Ilsley agreed to use its reasonable best efforts to obtain from American Appraisal Associates, Inc., or any other firm engaged in replacement of such firm in accordance with the investment agreement, an opinion addressed to the Marshall & Ilsley Board, Metavante and New Metavante dated as specified by Marshall & Ilsley on or prior to the closing date to the effect that:

with respect to the Metavante distribution, (i) MI LLC will be able to pay its debts as they mature or become due, (ii) the fair value of MI LLC's total assets will not be less than the sum of its total liabilities, (iii) MI LLC's assets will not be unreasonably small in relation to its business or the Metavante distribution and (iv) MI LLC will have property remaining that does not constitute unreasonably small capital;

with respect to the Marshall & Ilsley contribution and the contribution of cash by New Metavante to New Marshall & Ilsley, (i) New Metavante will be able to pay its debts as they mature or become due, (ii) the fair value of New Metavante's total assets will not be less than the sum of its total liabilities, (iii) New Metavante's assets will not be unreasonably small in relation to its business or the MI LLC contribution or MI cash contribution and (iv) New Metavante will have property remaining that does not constitute unreasonably small capital;

with respect to the dividend of cash by Metavante to New Metavante (i) Metavante will be able to pay its debts as they mature or become due; (ii) the fair value of Metavante's total assets will not be less than the sum of its total liabilities, (iii) Metavante's assets will not be unreasonably small in relation to its business or the Metavante dividend and (iv) Metavante will have property remaining that does not constitute unreasonably small capital;

with respect to the New Marshall & Ilsley share distribution (i) New Metavante will be able to pay its debts as they mature or become due; (ii) the fair value of New Metavante's total assets will not be less than the sum of its total liabilities, (iii) New Metavante's assets

will not be unreasonably small in relation to its business or the New Marshall & Ilsley share distribution and (iv) New Metavante will have property remaining that does not constitute unreasonably small capital; and

Table of Contents

with respect to the consummation of the transactions occurring on the closing date, each of New Metavante, Metavante, New Marshall & Ilsley and MI LLC will (i) be able to pay its debts as they mature or become due; (ii) the fair value and present fair saleable value of each of their respective assets will not be less than the sum of each of their respective aggregate liabilities, (iii) each of their respective assets will not be unreasonably small in relation to each of their respective businesses and (iv) each will have property remaining that does not constitute unreasonably small capital.

Shareholders Agreement

New Metavante and Investor will take all necessary action to, immediately prior to the closing, execute and deliver to each other the shareholders agreement substantially in the form attached hereto as Exhibit. See Additional Agreements Relating to the Transactions Shareholders Agreement beginning on page 141.

Representations and Warranties

The investment agreement contains representations and warranties made by (i) Investor to New Metavante, Marshall & Ilsley and Metavante, (ii) Marshall & Ilsley to Investor, (iii) each of Marshall & Ilsley, New Metavante, and Metavante to Investor and (iv) each of Marshall & Ilsley and New Metavante to Investor.

Representations and warranties of Investor to New Metavante, Marshall & Ilsley and Metavante relate to, among other things:

limited partnership existence, structure, qualification to conduct business and limited partnership power;

limited partnership authority to enter into, and perform the obligations under, the investment agreement and enforceability of the investment agreement;

absence of a breach of organizational documents and absence of a material breach of laws or agreements as a result of the transactions;

required governmental approvals;

information supplied for use in this proxy statement/prospectus information statement;

litigation;

compliance with laws;

payment of fees to finders or brokers in connection with the transactions;

the equity financing and the limited guarantee of Warburg Pincus Private Equity IX, L.P.;

purpose of acquiring shares;

investment company status; and

ownership of shares of Marshall & Ilsley.

Representations and warranties of Marshall & Ilsley to Investor relate to, among other things:

corporate existence, qualifications as a bank holding company and a financial holding company and corporate power;

corporate existence and assets and liabilities of Merger Sub;

capital structure;

corporate authority to enter into, and perform the obligations under the investment agreement and enforceability of the investment agreement;

insurance;

liens on assets of members of the Metavante group; and

real property.

Each of New Metavante and Marshall & Ilsley has made representations and warranties to Investor with respect to Metavante relating to:

corporate existence, qualification to conduct business and corporate power of New Metavante;

capital structure;

corporate authority to enter into, and perform the obligations under, the investment agreement and enforceability of the investment agreement;

information supplied for use in this proxy statement/prospectus information statement;

absence of a breach of organizational documents and absence of a material breach of laws or agreements as a result of the transactions;

required governmental approvals;

litigation; and

status of New Metavante shares.

Many of the representations and warranties contained in the investment agreement are subject to materiality or material adverse effect qualifications and/or knowledge qualifications, and none of the representations and warranties survive the closing date.

You should also be aware that these representations and warranties may be subject to important limitations and qualifications agreed to by the parties to the investment agreement, may or may not have been accurate as of the date they were made and do not purport to be accurate as of the date of this proxy statement/prospectus information statement. In particular, in some cases, the representations of Marshall & Ilsley, New Metavante and Metavante contained in the investment agreement were qualified by certain information contained in forms, reports and documents filed by Marshall & Ilsley with the SEC, as well as by confidential disclosure letters that Marshall & Ilsley and Metavante delivered to Investor concurrently with the signing of the investment agreement. In addition, certain representations and warranties were made as of a

specified date, may be subject to contractual standards of materiality different from those generally applicable to shareholders, or may have been used for the purpose of allocating risk among the parties rather than establishing matters as facts.

A material adverse effect is defined as any effect, change, circumstance or development that, individually or in the aggregate with other such effects, changes, circumstances or developments, is both material and adverse to (i) with respect to any person, the ability of the person to consummate the transactions contemplated by the investment agreement or (ii) with respect to Metavante, the business, financial condition, operations, results of operations, properties, assets or liabilities of Metavante and its subsidiaries, taken as a whole, other than, in the case of clause (ii), any effect, change, circumstance or development:

resulting from the announcement of the execution of the investment agreement or any of the transaction agreements or of the transactions contemplated by the investment agreement;

Table of Contents

relating to state, national or international political, social, general business or economic conditions (but only if the person and its subsidiaries, taken as a whole, are not disproportionately affected in any material respect as compared to other comparable companies in their industry);

relating in general to the industries in which the person and its subsidiaries operate (but only if the person and its subsidiaries, taken as a whole, are not disproportionately affected in any material respect as compared to other comparable companies in their industry);

relating to any action or omission of New Metavante, Marshall & Ilsley, Metavante or any of their respective subsidiaries taken with the express prior written consent of Investor after the date of the investment agreement;

relating to the commencement, occurrence or continuation of any war, armed hostilities or acts of terrorism involving or affecting the United States or any other jurisdiction in which the party or any of its subsidiaries operates (but only if the person and its subsidiaries, taken as a whole, are not disproportionately affected in any material respect as compared to other comparable companies in their industry);

relating to financial, banking or securities markets (including any disruption thereof and any decline in the price of any security or any market index);

relating to changes after the date of the investment agreement in United States generally accepted accounting principles or the accounting rules and regulations of the SEC (but only if Metavante and its subsidiaries, taken as a whole, are not disproportionately affected thereby in any material respect as compared to other comparable companies in their industry); or

relating to changes in applicable laws.

Conditions to the Completion of the Transactions

Conditions to Each Party's Obligation to Effect the Transactions

The respective obligations of Investor, Marshall & Ilsley, New Metavante and Metavante to effect the transactions under the investment agreement that are to occur on the closing date are subject to the satisfaction or waiver of various conditions, including:

the approval and adoption of the investment agreement and the transactions contemplated by the investment agreement, including the holding company merger and the New Metavante share issuance, by Marshall & Ilsley shareholders;

the absence of any law, order or injunction having the effect of making the transactions under the investment agreement illegal or otherwise prohibiting consummation of such transactions;

the absence of any proceeding initiated by any governmental entity seeking an injunction having the effect of making the transactions under the investment agreement illegal or otherwise prohibiting consummation of such transactions;

the waiting period (and any extension thereof) under the HSR Act applicable to the transactions under the investment agreement having expired or been terminated;

the approval for listing on the New York Stock Exchange or, in the case of the shares of New Metavante common stock, such other national securities exchange as New Metavante and Investor may agree of (i) the shares of New Metavante common stock to be issued in the holding company merger and to be reserved for issuance upon exercise of the Metavante options and (ii) the shares of New Marshall & Ilsley common stock to be distributed in the New Marshall & Ilsley share distribution and the shares of New Marshall & Ilsley common stock to be reserved for issuance upon exercise of the New Marshall & Ilsley options;

Table of Contents

the effectiveness of the registration statements including the Form S-4 and Form 10 of which this proxy statement/prospectus information statement is a part and the absence of any stop order or proceeding seeking a stop order with respect to any order of effectiveness;

receipt by New Metavante of a favorable Internal Revenue Service ruling to the effect that (a) the holding company merger and the Marshall & Ilsley LLC conversion qualify as a reorganization under Section 368(a) of the Internal Revenue Code and (b) the Marshall & Ilsley contribution and the New Marshall & Ilsley share distribution qualify as a reorganization under Section 368(a)(1)(D) of the Internal Revenue Code and a distribution eligible for nonrecognition under Sections 355(a) and 361(c) of the Internal Revenue Code;

receipt by Marshall & Ilsley and New Metavante of an opinion of Sidley Austin, counsel to Marshall & Ilsley (or another law firm of national standing) to the effect that certain requirements for tax-free treatment under Section 355 of the Internal Revenue Code on which the Internal Revenue Service will not rule will be satisfied;

the delivery of the capital adequacy and solvency opinions of American Appraisal Associates in accordance with the investment agreement, which shall not have been withdrawn, modified, or rescinded;

certain approvals of state and federal banking authorities;

the receipt by New Metavante of the proceeds of the debt financing pursuant to the terms of the debt financing commitment or, if Investor has secured alternative debt financing, receipt by New Metavante and/or one or more of its wholly-owned subsidiaries of the proceeds of the alternative debt financing; and

the sufficiency of Metavante's funds, following the consummation of the debt financing, to pay a dividend of \$1.040 billion in cash to New Metavante and to permit New Metavante to make a cash contribution of \$1.665 billion to New Marshall & Ilsley.

Conditions to Obligations of Investor to Effect the Transactions

Investor's obligation to complete the transactions under the investment agreement that are to occur on the closing date are also subject to the satisfaction or waiver of the following additional conditions:

certain specified representations and warranties of Marshall & Ilsley, Metavante and New Metavante regarding organization, capital structure, authority, no conflicts, brokers or finders and the status of New Metavante shares, must be true and correct as of the date of completion of the transactions as though made on and as of the date of completion of the transactions, except to the extent such representations and warranties speak solely as of the date of the investment agreement or as of another date (in which case such representations and warranties will be true and correct only as of such date(s));

certain specified representations and warranties of Marshall & Ilsley relating to capital structure must be true and correct in all material respects as of the date of the investment agreement and as of the date of the completion of the transactions as though made on and as of such dates, except to the extent such representations and warranties speak solely as of the date of the investment agreement or as of another date (in which case such representations and warranties will be true and correct only as of such date(s));

all other representations and warranties of Marshall & Ilsley, Metavante and New Metavante must be true and correct as of the date of the investment agreement and the date of the completion of the transactions as though made on such dates, except to the extent such representations and warranties speak solely as of the date of the investment agreement or as of another date (in which case such

representations and warranties will be true and correct only as of such date(s), except where the failure of such representations or warranties to be true and correct (without giving effect to any limitation as to

Table of Contents

materiality or material adverse effect set forth in such representations and warranties) does not have and would not have, individually or in the aggregate, a material adverse effect on Metavante;

the performance or compliance of each of Marshall & Ilsley, Metavante and New Metavante with all agreements and covenants required to be performed by it under the investment agreement at or prior to the closing date that are qualified as to materiality or material adverse effect and the performance or compliance in all material respects with all other agreements and covenants required to be performed by it under the investment agreement that are not so qualified;

the continued full force and effect of the transaction agreements (other than the investment agreement) and the full performance and compliance in all material respects by each of Marshall & Ilsley, New Metavante and Metavante with all its obligations under the transaction agreements (other than the investment agreement) at or prior to the closing date; and

the absence of any material adverse effect on Metavante or New Metavante since the execution of the investment agreement.

Conditions to Obligations of Marshall & Ilsley, Metavante and New Metavante to Effect the Transactions

Marshall & Ilsley's, Metavante's and New Metavante's obligations to complete the transactions under the investment agreement that are to occur on the closing date are also subject to the satisfaction or waiver of the following additional conditions:

certain specified representations and warranties of Investor regarding organization, authority, and brokers or finders, must be true and correct as of the date of the investment agreement and as of the date of the completion of the transactions as though made on and as such dates, except to the extent such representations and warranties speak only as of the date of the investment agreement or as of another date (in which case such representations and warranties will be true and correct only as of such date(s));

all other representations and warranties of Investor must be true and correct as of the date of the investment agreement and as of the date of completion of the transactions as though made on the date of completion of the transactions, except to the extent such representations and warranties speak only as of the date of the investment agreement or as of another date (in which case such representations and warranties, disregarding qualifications as to materiality or material adverse effect, will be true and correct only as of such date(s)), except where the failure of such representations or warranties to be true and correct (without giving effect to any limitation as to materiality or material adverse effect set forth in such representations and warranties) does not have and would not have, individually or in the aggregate, a material adverse effect on Investor;

the performance or compliance of Investor with all agreements and covenants required to be performed by it under the investment agreement at or prior to the closing date that are qualified as to materiality or material adverse effect and the performance or compliance in all material respects with all other agreements and covenants required to be performed by it under the investment agreement that are not so qualified;

the continued full force and effect of the transaction agreements (other than the investment agreement) and the full performance and compliance in all material respects by Investor with all its obligations under the transaction agreements (other than the investment agreement) at or prior to the closing date; and

the proceeds of the equity financing shall have been deposited with New Metavante in accordance with the investment agreement.

Table of Contents

Termination of the Investment Agreement

Termination by Marshall & Ilsley or Investor

Either Marshall & Ilsley or Investor, by action of its respective board of directors, may terminate the investment agreement at any time prior to the closing if:

both Marshall & Ilsley and Investor agree to terminate the agreement by mutual written consent;

the transactions have not been completed by April 4, 2008, provided that this right to terminate is not available to any party that has breached in any material respect any of its obligations under the investment agreement and that has been the cause of, or resulted in the failure of the closing date to occur by April 4, 2008;

any court or governmental entity shall have issued an order, decree or ruling or taken any other action (which action the terminating party shall have used its reasonable best efforts to resist, resolve or lift, as applicable, in accordance with the investment agreement) permanently restraining, enjoining or otherwise prohibiting the transactions, and such order, decree, ruling or other action shall have become final and nonappealable; or

if Marshall & Ilsley shareholders fail to approve and adopt the investment agreement and the transactions contemplated by the investment agreement at the Marshall & Ilsley special meeting.

Termination by Marshall & Ilsley

Marshall & Ilsley also may terminate the investment agreement at any time prior to the closing if:

Investor has breached or failed to perform any of its representations, warranties, covenants or other agreements contained in the investment agreement, such that the closing conditions are not capable of being satisfied on or before the April 4, 2008;

the Marshall & Ilsley Board authorizes Marshall & Ilsley to enter into a Marshall & Ilsley acquisition agreement and Marshall & Ilsley has paid to Investor the termination fee in accordance with the terms of the investment agreement; or

the Marshall & Ilsley Board makes a change in recommendation in accordance with the terms of the investment agreement, Investor has not delivered a force the Marshall & Ilsley vote notice that remains in effect and the 15 business day period for delivery of a force the Marshall & Ilsley vote notice has elapsed, in each case pursuant to and in accordance with the terms of the investment agreement, and Marshall & Ilsley has paid to Investor the termination fee in accordance with the terms of the investment agreement.

Termination by Investor

Investor also may terminate the investment agreement at any time prior to the closing if:

Marshall & Ilsley, Metavante or New Metavante has breached or failed to perform any of its representations, warranties, covenants or other agreements contained in the investment agreement, such that the closing conditions are not capable of being satisfied on or before the April 4, 2008;

Edgar Filing: MARSHALL & ILSLEY CORP/WI/ - Form DEFM14A

(i) (A) the Marshall & Ilsley Board shall have failed to recommend the investment agreement and the transactions to its shareholders or (B) the Marshall & Ilsley Board or a committee thereof shall have made a change in recommendation (or publicly announced its intention to take any such action) and (ii) Investor has not delivered a force the Marshall & Ilsley vote notice that remains in effect in accordance with the terms of the investment agreement; or

Marshall & Ilsley shall have breached its obligations to call and hold the special meeting of its shareholders in accordance with the terms of the investment agreement.

Table of Contents

Effect of Termination; Termination Fees

The investment agreement provides that in the event of termination of the investment agreement by either Marshall & Ilsley or Investor pursuant to the termination provisions described above, the agreement shall forthwith become void and there shall be no liability or obligation on the part of Investor, Marshall & Ilsley, Merger Sub, New Metavante or Metavante or their respective subsidiaries, officers or directors under the investment agreement other than with respect to the payment of the termination fees described below, the payment of fees and expenses pursuant to the investment agreement and other specified provisions of the investment agreement, including the provisions relating to continuing obligations under the confidentiality agreement.

Termination Fees

Marshall & Ilsley has agreed to pay Investor a termination fee in the following circumstances, subject to specified conditions:

If Investor terminates the investment agreement as a result of (A) the failure of the Marshall & Ilsley Board to recommend the investment agreement and the transactions to its shareholders or (B) the Marshall & Ilsley Board or a committee thereof having made a change in recommendation (or publicly announced its intention to take any such action) and Investor not delivering a force the Marshall & Ilsley vote notice that remains in effect in accordance with the terms of the investment agreement, then Marshall & Ilsley will pay Investor a termination fee equal to \$75 million;

If Investor terminates the investment agreement as a result of Marshall & Ilsley having breached its obligations to call and hold the special meeting of its shareholders in accordance with the terms of the investment agreement, then Marshall & Ilsley will pay Investor a termination fee equal to \$75 million; or

If Marshall & Ilsley terminates the investment agreement in order to enter into a Marshall & Ilsley acquisition agreement or upon making a change in recommendation and Investor has not delivered a force the Marshall & Ilsley vote notice that remains in effect and the 15 business day period for delivery of a force the Marshall & Ilsley vote notice has elapsed, then Marshall & Ilsley will pay Investor a termination fee equal to \$75 million.

Marshall & Ilsley will pay Investor a termination fee of \$75 million if:

Either party terminates the investment agreement as a result of the transactions not being completed by April 4, 2008 or Investor terminates the investment agreement as a result of Marshall & Ilsley, Metavante or New Metavante having breached or failed to perform any of its respective representations, warranties, covenants or other agreements contained in the investment agreement, such that the closing conditions are not capable of being satisfied on or before the April 4, 2008; and

At any time after the date of the investment agreement and before any such termination, a bona fide Marshall & Ilsley acquisition proposal or Metavante acquisition proposal shall have been publicly announced, become publicly known or otherwise been communicated to the senior management, the board of directors or stockholders of Marshall & Ilsley (whether or not conditional), then if within 12 months after such termination, Marshall & Ilsley or any of its subsidiaries enters into a definitive agreement with respect to a Marshall & Ilsley acquisition proposal or Metavante acquisition proposal, or consummates any Marshall & Ilsley acquisition proposal or Metavante acquisition proposal.

If either party shall terminate the investment agreement as a result of Marshall & Ilsley's shareholders not approving and adopting the investment agreement and the transactions contemplated by the investment agreement at the special meeting, then Marshall & Ilsley will pay Investor a termination fee equal to \$20 million and at any time after the date of the investment agreement and before the Marshall & Ilsley special shareholder meeting, a bona fide Marshall & Ilsley acquisition proposal or Metavante acquisition proposal (other than by Investor or any affiliate thereof) shall have been publicly announced, become publicly known or otherwise been

Table of Contents

communicated to the senior management, the board of directors or stockholders of Marshall & Ilsley (whether or not conditional), then if within 12 months after such termination, Marshall & Ilsley or any of its subsidiaries enters into a definitive agreement with respect to a Marshall & Ilsley acquisition proposal or Metavante acquisition proposal, or consummates any Marshall & Ilsley acquisition proposal or Metavante acquisition proposal, then Marshall & Ilsley will pay Investor a termination fee equal to \$55 million in addition to the \$20 million to be paid to Investor as described above.

If the investment agreement is terminated by Investor as a result of the intentional and material breach by Marshall & Ilsley of the investment agreement, then Marshall & Ilsley will pay a termination fee equal to \$75 million.

Investor has agreed to pay Marshall & Ilsley a termination fee of \$75 million if the investment agreement is terminated by Marshall & Ilsley as a result of the intentional and material breach by Investor of the investment agreement.

The investment agreement provides that in no event shall any termination fee exceed \$75 million. Any termination fee to be made under the investment agreement is to be made by the applicable party as promptly as reasonably practicable (and, in any event, within three business days) following the date of termination of the investment agreement; provided, however, that any payment to be made upon termination by Marshall & Ilsley to enter into a Marshall & Ilsley acquisition agreement or the termination of the investment agreement in the event the Marshall & Ilsley Board makes a change in recommendation in accordance with the terms of the investment agreement and Investor has not delivered a force the Marshall & Ilsley vote notice that remains in effect and the 15 business day period for delivery of a force the Marshall & Ilsley vote notice has elapsed, in each case pursuant to and in accordance with the terms of the investment agreement, shall be made to Investor prior to the termination of the investment agreement.

The investment agreement also provides that (i) in no event shall the Investor, on the one hand, or any member of the Marshall & Ilsley Group or the Metavante Group, on the other hand, be liable for, or seek to recover against the other party, any losses or damages with respect to the investment agreement in excess of \$75 million (the cap), (ii) the payment of the cap by the Investor or Warburg Pincus Private Equity IX, L.P. (in the case of Warburg Pincus Private Equity IX, L.P. pursuant to the limited guarantee), on the one hand, or any member of the Marshall & Ilsley Group or the Metavante Group, on the other hand, under the investment agreement shall be the sole and exclusive remedy of such party against the other party and such other party's respective stockholders, partners, members, directors, officers, employees or agents for any losses or damages suffered such party as a result of the failure of the transactions to be consummated or the termination of the investment agreement, and (iii) upon payment of the cap by the Investor or Warburg Pincus Private Equity IX, L.P. (in the case of Warburg Pincus Private Equity IX, L.P. pursuant to the limited guarantee), on the one hand, or any member of the Marshall & Ilsley Group or the Metavante Group, on the other hand, in the event of a termination of the investment agreement, none of Investor or Warburg Pincus Private Equity IX, L.P., on the one hand, or any member of Marshall & Ilsley Group or the Metavante Group, on the other hand, or any of their respective stockholders, partners, members, directors, officers, employees or agents, as the case may be, shall have any further liability or obligation relating to or arising out of the investment agreement or the transactions. Notwithstanding the foregoing, the parties agreed that if any party fails to pay promptly any termination fee due in accordance with the investment agreement, and, in order to obtain such payment, the other party commences a suit which results in a final, binding and nonappealable judgment against the breaching party for the termination fee, the breaching party is obligated to pay to the other party its reasonable attorneys' fees and expenses in connection with such suit; provided, that, the amounts payable by either party pursuant to this sentence shall in no event exceed \$2 million.

Amendments to the Investment Agreement

Subject to applicable law, the investment agreement may be amended by authorization of the boards of directors of the parties to the investment agreement at any time before or after approval of the proposals by

Table of Contents

Marshall & Ilsley shareholders, but, after the approval, no amendment which by law or in accordance with the rules of any relevant stock exchange requires further shareholder approval may be made to the investment agreement without obtaining further approval. All amendments to the investment agreement must be in writing and signed by each party.

Fees and Expenses

The investment agreement provides that upon the closing of the transactions, New Metavante or Metavante will pay to Investor within three business days an amount equal to all of the expenses incurred by Investor related to the transactions, all expenses of the Metavante Group will be paid by Metavante and all expenses of the Marshall & Ilsley Group will be paid by Marshall & Ilsley. All expenses of any party incurred after the closing date shall be paid by such party. The investment agreement also provides that Metavante or New Metavante will bear any costs or expenses incurred in relation to the debt financing, including the reasonable and documented expenses of Marshall & Ilsley, New Metavante, Metavante and their subsidiaries and if the closing occurs, Investor. If the closing of the transactions does not occur, (i) all expenses incurred by Investor shall be paid by Investor, the Marshall & Ilsley Group, and (ii) all expenses incurred by the Metavante Group shall be paid by Marshall & Ilsley or Metavante, as the case may be.

Restrictions on Resales by Affiliates

An affiliate of New Metavante is a person who directly, or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with, New Metavante.

Marshall & Ilsley has agreed to deliver to Investor and New Metavante a letter not less than 30 days prior to the closing of the transactions identifying all persons who, in the judgment of Marshall & Ilsley, may be deemed at the closing date, affiliates of New Metavante for purposes of Rule 145 under the Securities Act. Marshall & Ilsley also agreed to use its reasonable best efforts to cause each person identified on such letter to deliver to New Metavante not less than 15 days prior to the closing date, a written agreement mutually agreeable to Investor and Marshall & Ilsley.

Table of Contents

THE SEPARATION AGREEMENT

The following is a summary of the material terms and provisions of the separation agreement. All references to the separation agreement are to the separation agreement, as amended or supplemented from time to time. The following summary is qualified in its entirety by reference to the complete text of the separation agreement. The full text of the separation agreement is included in this proxy statement/prospectus information statement as Annex B and is incorporated herein by reference. We urge you to read the entire separation agreement.

General

The separation agreement among Marshall & Ilsley, Metavante, New Marshall & Ilsley and New Metavante provides for, among other things, the principal corporate transactions required to effect the New Marshall & Ilsley share distribution and other specified terms governing the relationship between Marshall & Ilsley and New Marshall & Ilsley, on the one hand, and Metavante and New Metavante, on the other hand, with respect to or in consequence of the New Marshall & Ilsley share distribution.

We refer to Marshall & Ilsley and New Marshall & Ilsley as the **Marshall & Ilsley Parties** and Metavante and New Metavante as the **Metavante Parties**. We refer to the Marshall & Ilsley Parties, M&I LLC and their subsidiaries, after giving effect to the distribution, as the **Marshall & Ilsley Group** and the Metavante Parties and their subsidiaries (excluding the Marshall & Ilsley Group) as the **Metavante Group**.

Actions Prior to the Distribution

A number of days prior to the closing date, the New Metavante board of directors will declare the New Marshall & Ilsley share distribution and set the record date for the New Marshall & Ilsley share distribution, subject to the satisfaction or waiver of the conditions set forth in the separation agreement. The record date for the New Marshall & Ilsley share distribution is expected to be 5:00 p.m. Eastern Time on the closing date.

Prior to the New Marshall & Ilsley share distribution, Metavante and Marshall & Ilsley will cause the number of authorized shares of New Marshall & Ilsley common stock to equal or exceed three times the number of shares of New Metavante common stock issued as of the date set by the New Metavante board to determine holders of record of New Metavante common stock entitled to receive shares of New Marshall & Ilsley common stock in the New Marshall & Ilsley share distribution and will cause the number of shares of New Marshall & Ilsley common stock outstanding to be increased to equal three times the number of shares of New Metavante common stock issued and outstanding as of the date set by the New Metavante board to determine holders of record of New Metavante common stock entitled to receive shares of New Marshall & Ilsley common stock in the New Marshall & Ilsley share distribution.

Prior to the New Marshall & Ilsley share distribution, New Metavante will enter into an agreement with a distribution agent (which will also be the exchange agent for the holding company merger) with respect to the New Marshall & Ilsley share distribution. At or prior to the time of the New Marshall & Ilsley share distribution, New Metavante will deliver to the distribution agent shares of New Marshall & Ilsley common stock sufficient to effect the New Marshall & Ilsley share distribution. Following the closing date, the distribution agent will pay to holders of record of New Metavante common stock (other than to the holders of the New Metavante Class A common stock) as of the record date for the New Marshall & Ilsley distribution the amount of cash in lieu of fractional shares of New Metavante to which such holder is entitled.

The Distribution

Subject to the terms and conditions of the separation agreement, at the time established by the New Metavante board of directors, which will be on the closing date and after 5:00 p.m. Eastern Time, New Metavante will effect the New Marshall & Ilsley share distribution by instructing the distribution agent to record

Table of Contents

in the stock transfer records of New Marshall & Ilsley the distribution of three shares of New Marshall & Ilsley common stock to each holder of New Metavante common stock (other than to the holders of New Metavante Class A common stock) as of the record date for the distributions for each share of New Metavante common stock held of record and mail to each such holder a letter of transmittal and instructions on how to exchange certificates representing shares of Marshall & Ilsley common stock for certificates representing shares of New Metavante common stock for the holding company merger (and, if applicable, a check representing cash in lieu of fractional shares of New Metavante common stock) and New Marshall & Ilsley common stock for the New Marshall & Ilsley share distribution.

Timing

The New Marshall & Ilsley share distribution will be effected after 5:00 p.m. Eastern Time on the closing date.

Covenants

Each of Marshall & Ilsley and Metavante has agreed to take specified actions after the signing of the separation agreement. These actions include the following, among others:

all intercompany receivables, payables and loans between any member of the Metavante Group, on the one hand, and any member of the Marshall & Ilsley Group, on the other hand which are listed in the separation agreement will be cancelled immediately prior to the time of the distributions;

trade payables incurred in the ordinary course of business for purchases of goods or services and expenses shall be promptly paid when due; and

all intercompany agreements between any member of the Metavante Group, on the one hand, and any member of the Marshall & Ilsley Group, on the other hand, will terminate immediately prior to the time of the distribution, other than the transaction agreements and those specifically designated to survive following the distribution.

Treatment of Metavante Cash

On the closing date Metavante will pay a cash dividend to New Metavante of \$1.040 billion. Upon receipt of the cash dividend, New Metavante will then make a cash contribution of \$1.665 billion to New Marshall & Ilsley, consisting of the cash dividend made by Metavante and \$625 million of cash paid by Investor in exchange for shares of Class A common stock of New Metavante. In addition, on the closing date, New Metavante, or one of its subsidiaries, will repay the aggregate principal amount of indebtedness for borrowed money owed to Marshall & Ilsley by Metavante.

The transaction agreements do not permit Marshall & Ilsley to cause any Metavante Group member to make any dividend or distributions of cash and cash equivalents to any Marshall & Ilsley Group member prior to the closing date, other than quarterly cash dividends (not to exceed \$1 million) and the distributions described in the preceding paragraph.

On a pro forma basis it is estimated that New Metavante would have had approximately \$73.6 million in cash and cash equivalents following the dividend and repayment of debt had the transactions been completed on June 30, 2007. See Unaudited Condensed Pro Forma Consolidated Financial Statements of New Metavante beginning on page 320.

Table of Contents

Conditions to the Completion of the Distributions

The separation agreement provides that the obligation of New Metavante to consummate the New Marshall & Ilsley share distribution and the other transactions contemplated by the separation agreement is subject to the following conditions:

each condition to the investment agreement having been fulfilled or waived by the party for whose benefit that condition exists; and

the closing of the sale of the shares of Class A common stock of New Metavante to Investor for a payment of \$625 million.

None of the foregoing conditions may be waived by the New Metavante board of directors without the prior written consent of Marshall & Ilsley and, unless the investment agreement has been terminated, none of the conditions may be waived unless New Metavante receives the prior written consent of Investor, which consent may not be unreasonably withheld, conditioned or delayed.

Mutual Release; Indemnification

Mutual Release of Pre-Closing Liabilities

The Marshall & Ilsley Parties and the Metavante Parties, on behalf of themselves and each of the other members of their group, have each agreed to release the other group and its officers, directors and employees from any and all liabilities and claims that it may have or ever will have against the other group which arise out of, result from or relate to events, circumstances or actions taken by the other group occurring or failing to occur or any conditions existing at or prior to the time of the New Marshall & Ilsley share distribution.

The mutual release does not impair the rights of any person under any of the transaction agreements that does not terminate as of the closing date. In addition, the mutual release does not release or discharge any person from:

any liability or obligation under or resulting from any contract between any member of the Metavante Group and any member of the Marshall & Ilsley Group that does not terminate as of the consummation of the New Marshall & Ilsley share distribution;

any liability or obligation assumed, transferred, assigned or allocated to New Marshall & Ilsley, New Metavante or any member of their group in accordance with, or any other liability of either of them under, the separation agreement, any other transaction agreement or the investment agreement;

any liability arising from or related to the sale, lease, manufacture, construction, provision, or receipt of goods or services, payment for goods, property or services purchased, obtained or used in the ordinary course of business by any member of a group from any member of the other group prior to the time of the distribution, or any related refund claims; and

any liability the release of which would result in the release of any person other than a member of either group or their respective directors, officers or employees; except, that each party agrees not to bring suit against the other party or its members of its group or its or their directors, officers or employees with respect to any such liability.

Indemnification by Marshall & Ilsley

Under the terms of the separation agreement, the Marshall & Ilsley Parties will and will cause the other members of the Marshall & Ilsley Group to indemnify the Metavante Group members and each of their respective representatives from and against any and all losses relating to any of the following:

all Marshall & Ilsley Group liabilities, including all liabilities not arising out of or resulting from Metavante's business, whether such losses are based upon, arise out of or relate to events, occurrences,

Table of Contents

actions, omissions, facts, circumstances or conditions occurring, existing or asserted before, at or after the distribution;

the enforcement by members of the Metavante Group and each of their respective representatives of their rights to be indemnified, defended and held harmless under the separation agreement; and

the use by any member of the Marshall & Ilsley Group of any trademarks or other source identifiers owned by any member of the Metavante Group.

Indemnification by Metavante

Under the terms of the separation agreement, the Metavante Parties will and will cause the other members of the Metavante Group to indemnify the Marshall & Ilsley Group members and each of their respective representatives from and against all losses relating to any of the following:

all Metavante Group liabilities, including all liabilities arising out of or resulting from Metavante's business, whether such losses are based upon, arise out of or relate to events, occurrences, actions, omissions, facts, circumstances or conditions occurring, existing or asserted before, at or after the distribution;

the enforcement by members of the Marshall & Ilsley Group and each of their respective representatives of their rights to be indemnified, defended and held harmless; and

the use by any member of the Metavante Group of any trademarks or other source identifiers owned by any member of the Marshall & Ilsley Group.

The indemnification provisions set forth in the separation agreement do not apply to any indemnification or other claims relating to taxes. Instead, these indemnification obligations are covered in the tax allocation agreement. See *Additional Agreements Relating to the New Marshall & Ilsley Share Distribution Tax Allocation Agreement* on page 133.

Under the separation agreement, Marshall & Ilsley Group liabilities means:

all liabilities of any member of the Marshall & Ilsley Group under, or for which any member of the Marshall & Ilsley Group is expressly made responsible pursuant to, any transaction agreement;

all liabilities of any member of the Marshall & Ilsley Group that are not liabilities of any member of the Metavante Group;

all liabilities of any member of the Metavante Group existing immediately prior to or at the time of the New Marshall & Ilsley share distribution that are not included as Metavante Group liabilities in the separation agreement; and

all liabilities of any member of the Marshall & Ilsley Group or the Metavante Group with respect to indebtedness for borrowed money outstanding immediately prior to the time of the New Marshall & Ilsley share distribution, but excluding any indebtedness with respect to the debt financing;

in the first two cases above, regardless of whether such liability existed prior to, at or after the time of the New Marshall & Ilsley distribution.

Under the separation agreement, Metavante Group liabilities means:

all liabilities of any member of the Metavante Group under, or for which any member of the Metavante Group is expressly made responsible pursuant to, any transaction agreement;

all liabilities of any member of the Metavante Group to the extent based upon, arising out of or resulting from Metavante's business;
and

Table of Contents

all liabilities of any member of the Marshall & Ilsley Group to the extent based upon, arising out of or resulting from Metavante's business, other than liabilities expressly assumed or retained by the Marshall & Ilsley Parties; in each case, regardless of whether such liability existed prior to, at or after the time of the New Marshall & Ilsley share distribution.

Termination

If the investment agreement is terminated, Marshall & Ilsley may terminate the separation agreement and abandon the New Marshall & Ilsley share distribution.

Amendments

The separation agreement cannot be amended except by a written agreement executed by the parties to the separation agreement, except that, unless the investment agreement has been terminated, any such amendment will be subject to the prior written consent of Investor, which consent with respect to any amendment after the distribution may not be unreasonably withheld, delayed or conditioned.

Expenses

All costs and expenses of Marshall & Ilsley and Metavante related to the negotiation, preparation, execution and delivery of the separation agreement, the investment agreement and the other agreements related to the transactions will be paid in accordance with the provisions regarding fees and expenses set forth in the investment agreement.

Table of Contents

ADDITIONAL AGREEMENTS

RELATING TO THE NEW MARSHALL & ILSLEY SHARE DISTRIBUTION

Marshall & Ilsley, Metavante, New Marshall & Ilsley and New Metavante have entered into a tax allocation agreement, an employee matters agreement and certain other services agreements in connection with the transactions contemplated by the investment agreement and separation agreement. All references to the tax allocation agreement and the employee matters agreement are to such agreements, as amended or supplemented from time to time. The material terms of the tax allocation and employee matters agreements are summarized below. The description of the tax allocation agreement is qualified in its entirety by reference to the complete text of the tax allocation agreement, which is included in this proxy statement/prospectus information statement as Annex C, and is incorporated by reference into this document. The description of the employee matters agreement is qualified in its entirety by reference to the complete text of the employee matters agreement, which is incorporated by reference into this document and filed as an exhibit to the registration statement of which this proxy statement/prospectus information statement is a part. We urge you to read the tax allocation agreement and the employee matters agreement carefully. In addition, certain of the Marshall & Ilsley parties and certain of the Metavante parties have entered into, or will enter into prior to the closing of the transactions, certain continuing business agreements providing for certain services following the closing of the transactions.

Tax Allocation Agreement

The tax allocation agreement allocates liability for taxes, including any taxes that may arise in connection with separating New Marshall & Ilsley from New Metavante. Under the tax allocation agreement, in general, New Metavante and New Marshall & Ilsley will each be liable for taxes attributable to its respective business.

The tax allocation agreement also provides the extent to which, and the circumstances under which, the parties would be liable for taxes relating to the transactions. In general, New Marshall & Ilsley is required to indemnify New Metavante for any taxes (unless such taxes would not have been imposed but for specified acts of New Metavante or its affiliates (including Investor) subject to specified exceptions) resulting from: (i) a failure of the New Marshall & Ilsley share distribution to qualify as a tax-free distribution under Sections 355 and 368(a)(1)(D) of the Internal Revenue Code; (ii) a failure of the holding company merger and Marshall & Ilsley LLC conversion to qualify as a tax-free reorganization under Section 368(a) of the Internal Revenue Code; (iii) the \$1.040 billion cash distribution by Metavante to New Metavante; and (iv) certain other transactions.

The tax allocation agreement is not binding on the Internal Revenue Service or any other governmental entity and does not affect the liability of each of New Marshall & Ilsley, New Metavante, and their respective subsidiaries and affiliates to the Internal Revenue Service or any other governmental authority for all federal, foreign, state or local taxes of the consolidated group relating to periods through the date of the New Marshall & Ilsley share distribution.

Employee Matters Agreement

The employee matters agreement was entered into among Marshall & Ilsley, New Marshall & Ilsley, Metavante and New Metavante at the time that they entered into the investment agreement and separation agreement and allocates among them assets, liabilities, and responsibilities with respect to employee compensation, benefit plans and programs and employment matters with respect to their respective employees. The employee matters agreement generally provides, subject to certain exceptions, that at the time of the New Marshall & Ilsley share distribution, New Metavante and Metavante will assume the liabilities and obligations of Marshall & Ilsley with respect to current and former employees of the Metavante Group and Marshall & Ilsley and New Marshall & Ilsley will retain the liabilities and obligations with respect to the employees of the Marshall & Ilsley Group.

Table of Contents***Employee Matters***

The employee matters agreement provides that each Metavante Group employee will remain an employee of the Metavante Group and each Marshall & Ilsley Group employee will remain an employee of the Marshall & Ilsley Group immediately following the time of the New Marshall & Ilsley share distribution. None of the transactions contemplated by the employee matters agreement, the separation agreement or the investment agreement is intended to entitle any current or former Metavante Group or Marshall & Ilsley Group employee to termination or severance benefits other than payments or benefits with respect to employees who separate from service in connection with the transactions and are entitled to termination or separation benefits on account of such termination. The provisions of the employee matters agreement are subject to the general indemnity provisions in the separation agreement.

Welfare Plans

Pursuant to the employee matters agreement, Metavante and its subsidiaries will no longer be participating employers in the welfare plans sponsored by Marshall & Ilsley effective as of the time of the distribution and the Metavante Group will establish the Metavante Group plans. With the exception of the retiree benefits described below, the Metavante Group will be responsible for providing benefits to the Metavante Group employees under the Metavante Group plans on and after the separation date and the Marshall & Ilsley Group will not retain any responsibility for such benefits, except to the extent incurred prior to the distribution. The Marshall & Ilsley Group will be responsible for providing benefits to the Marshall & Ilsley employees under the Marshall & Ilsley plans on and after the separation date and the Metavante Group will not retain any responsibility for such benefits. Following the separation, the Marshall & Ilsley Group will retain the obligation to pay all unpaid claims which were incurred prior to the separation under the Marshall & Ilsley plans.

As of the New Marshall & Ilsley share distribution, the Metavante Group has agreed to adopt a plan providing flexible spending accounts for Metavante Group employees. The Metavante Group will credit all Metavante Group employees with a balance (positive or negative) under such flexible spending account equal to the balance credited to each Metavante Group employee under the corresponding flexible spending account maintained by Marshall & Ilsley as of the distribution date, and will reimburse each Metavante Group employee for eligible expenses incurred during the plan year of the applicable flexible spending account maintained by Marshall & Ilsley which includes the distribution date that had not previously been reimbursed under the applicable flexible spending account maintained by Marshall & Ilsley. To the extent the balance of all employees of the Metavante Group under Marshall & Ilsley's flexible spending accounts is positive as of the distribution date, the Marshall & Ilsley Group is required to pay the excess to the Metavante Group's flexible spending account plan and to the extent the balance is negative, the Metavante Group is required to pay the deficit to the Marshall & Ilsley Group's flexible spending account plan.

Metavante and New Metavante have agreed that from and after the New Marshall & Ilsley share distribution, they will assume, and be solely responsible for, all liabilities under the Consolidated Omnibus Budget Reconciliation Act for current and former Metavante Group employees and their qualified beneficiaries. The Metavante Group has agreed that it will be solely responsible for all long-term disability benefits payable to Metavante Group employees, including Metavante employees who are receiving long-term disability benefits prior to the New Marshall & Ilsley share distribution and to former Metavante Group employees. Following the separation, the Metavante Group will also assume responsibility for all unpaid workers' compensation claims of Metavante employees and former employees, whether arising before, on or after the separation.

Except with respect to retiree benefits, participation in the welfare plans sponsored by Marshall & Ilsley will cease for current and former Metavante Group employees upon the separation. To the extent applicable under any Metavante Group plan after the separation, the Metavante Group will recognize the service of Metavante Group employees recognized under the corresponding Marshall & Ilsley plan prior to the separation. For a period of five years following the distribution, New Marshall & Ilsley or New Metavante is generally required to credit past service recognized as of the distribution for rehired employees of New Metavante or New Marshall & Ilsley.

Table of Contents

who have not yet incurred a separation of service greater than five years from either New Metavante or New Marshall & Ilsley. In designing the Metavante Group plans, the Metavante Group will use reasonable efforts to recognize and give credit to Metavante Group employees for amounts applied to deductibles, co-payments and other applicable benefit coverage limits under the Marshall & Ilsley health plans for the portion of the calendar year prior to the separation.

Following the separation, the Marshall & Ilsley Group will retain the obligation to provide retiree medical coverage under the terms of the Marshall & Ilsley Group retiree medical program to all Metavante Group retirees eligible for such coverage as of the separation date. Metavante employees who meet the eligibility requirements for coverage under the terms of the Marshall & Ilsley Group retiree medical program at the time of the separation, but who have not yet retired, will continue to be eligible for such retiree coverage at the time they retire from the Metavante Group. Metavante employees who satisfy the Marshall & Ilsley Group retiree medical program eligibility requirements within 24 months following the separation date will be provided retiree medical coverage by the Metavante Group from the time of their retirement through the date such Metavante Group employees become eligible for Medicare coverage, although the Metavante Group may modify the contribution rates.

In addition, the assets of the Marshall & Ilsley VEBAs will be retained by or transferred to the appropriate VEBA of the Marshall & Ilsley Group or the Metavante Group which retains or assumes the liabilities associated with such assets, except that all assets of the VEBA funding retiree medical will remain at Marshall & Ilsley.

Compensation Matters

Non-ERISA Benefit Arrangements. Pursuant to the employee matters agreement, as of the New Marshall & Ilsley share distribution, each of Metavante and its subsidiaries will cease to be a participating employer in the non-Employee Retirement Income Security Act of 1974 benefit arrangements, which we refer to as non-ERISA benefit arrangements, sponsored by Marshall & Ilsley. In addition, the employee matters agreement provides that as of the time of the New Marshall & Ilsley share distribution, no current or former Metavante employee will continue to participate in the benefit arrangements sponsored by Marshall & Ilsley for Metavante employees and former Metavante employees.

Assumption of Employee-Related Obligations. Under the employee matters agreement, New Metavante and Metavante will have responsibility from and after the New Marshall & Ilsley share distribution for:

determining the basic terms and conditions for employment of Metavante Group employees, including their pay and benefits;

all wages, salaries, ordinary compensation and commissions payable to current or former Metavante Group employees after the New Marshall & Ilsley share distribution, whether earned before or after the New Marshall & Ilsley share distribution, other than amounts earned for services as an employee of Marshall & Ilsley or any of its subsidiaries;

all bonus and incentive compensation payment obligations, if any, earned and payable after the New Marshall & Ilsley share distribution to Metavante Group employees;

obtaining directors and officers insurance to be effective as of the New Marshall & Ilsley share distribution;

all liabilities and obligations of Metavante with respect to claims made by or with respect to current or former Metavante Group employees relating to non-ERISA benefit arrangements and not specifically assumed or retained by Marshall & Ilsley; and

retiree health coverage to Metavante employees who satisfy the Marshall & Ilsley Group retiree medical program eligibility requirements within 24 months following the separation date.

Table of Contents

Under the employee matters agreement, Marshall & Ilsley and New Marshall & Ilsley will have responsibility from and after the New Marshall & Ilsley share distribution for:

all wages, salaries, ordinary compensation and commissions payable to current or former Marshall & Ilsley Group employees after the New Marshall & Ilsley share distribution, whether earned before or after the New Marshall & Ilsley share distribution, other than amounts earned for services as an employee of Metavante or any of its subsidiaries;

all bonus and incentive compensation payment obligations, if any, earned and payable after the New Marshall & Ilsley share distribution to Marshall & Ilsley Group employees;

retiree health coverage to Metavante Group employees who are eligible for such coverage as of the separation date and meet the eligibility requirements for coverage under the terms of the Marshall & Ilsley Group retiree medical program at the time of the separation (but who have not yet retired); and

all liabilities and obligations of Marshall & Ilsley with respect to claims made by or with respect to current or former Marshall & Ilsley Group employees relating to non-ERISA benefit arrangements and not specifically assumed or retained by the Metavante Group.

Deferred Compensation Plans. Effective as of the separation, Metavante Group will cease to be a participating employer in the Marshall & Ilsley Deferred Compensation Plans. No distribution of account balances will be made to any Metavante employee from the Marshall & Ilsley Deferred Compensation Plans on account of the transactions contemplated by the investment agreement and separation agreement. The Metavante Group will establish a deferred compensation plan under which Metavante employees will be eligible to participate and will assume and be solely responsible for all liabilities for or relating to Metavante employees under the Marshall & Ilsley Deferred Compensation Plans. Marshall & Ilsley will transfer assets from the rabbi trusts relating to the Marshall & Ilsley Deferred Compensation Plans to the rabbi trust established for the Metavante deferred compensation plan that are equal to the account balances of all Metavante employees and former Metavante employees with an account balance under the Marshall & Ilsley Deferred Compensation Plans (including unvested amounts). The Metavante deferred compensation plan will recognize all service, compensation, and other determinations that, at the time of the distribution, were recognized under the Marshall & Ilsley Deferred Compensation Plans. The Metavante deferred compensation plan will retain the same vesting schedules as applied under the Marshall & Ilsley Deferred Compensation Plans.

Incentive Plan. The incentive compensation earned by participants under the Metavante Long Term Incentive Plan with respect to performance periods that include the separation date that are based on performance of Marshall & Ilsley will be determined jointly by Marshall & Ilsley, New Marshall & Ilsley, Metavante, New Metavante and the Investor as of the separation date and will be paid by Metavante and New Metavante after the conclusion of the performance period. Payments based on the performance of Metavante generally will be made by Metavante and New Metavante in accordance with the terms of the Metavante Long Term Incentive Plan.

Each option held by a Metavante or New Metavante employee and certain former employees of Metavante to purchase Marshall & Ilsley stock outstanding prior to the completion of the distribution will be converted into an option to purchase New Metavante stock, effective immediately after the distribution. Each option held by a Marshall & Ilsley or New Marshall & Ilsley employee or director and certain former employees of Marshall & Ilsley to purchase Marshall & Ilsley stock outstanding prior to the completion of the New Marshall & Ilsley share distribution will be converted into an option to purchase New Marshall & Ilsley stock, effective immediately after the New Marshall & Ilsley share distribution. Prior to the completion of the New Marshall & Ilsley share distribution, 75% of the outstanding options to purchase Marshall & Ilsley stock held by an individual who, immediately following the consummation of the transactions, will be a director of New Metavante and either a Marshall & Ilsley or New Marshall & Ilsley employee or a director of New Marshall & Ilsley will be converted into a New Marshall & Ilsley option and 25% of the outstanding options to purchase Marshall & Ilsley stock held by these individuals will be converted into a New Metavante option, effective immediately after the New Marshall & Ilsley share distribution, and adjusted to reflect the New Marshall & Ilsley share distribution. Each

Table of Contents

New Metavante option and New Marshall & Ilsley option will have the same terms and conditions as the corresponding Marshall & Ilsley option from which it was converted, provided that all references to Marshall & Ilsley Corporation will be changed to Metavante Technologies, Inc. with respect to New Metavante options.

Each converted option will be adjusted to reflect the New Marshall & Ilsley share distribution. The employee matters agreement provides that the number of shares of New Metavante common stock or New Marshall & Ilsley common stock, as the case may be, subject to each converted option and the per share exercise price of such converted option will be fixed in a way that maintains the intrinsic value of the option to purchase Marshall & Ilsley common stock and does not increase the ratio of the per share exercise price of the converted option to the value of one share of Marshall & Ilsley common stock on the closing date.

All shares of Marshall & Ilsley restricted stock will be treated the same as all other outstanding shares of Marshall & Ilsley common stock in the transactions contemplated by the investment agreement and the separation agreement; provided, however, that each share of New Metavante common stock and New Marshall & Ilsley common stock received in such transactions with respect to the shares of Marshall & Ilsley restricted stock will be subject to the same restrictions as the corresponding share of Marshall & Ilsley restricted stock to which it relates and will continue to be subject to the terms of the applicable Marshall & Ilsley equity plan.

In addition, cash balances of all Metavante employees under the Marshall & Ilsley Amended and Restated 2000 Employee Stock Purchase Plan as of the distribution will be refunded to such individuals as soon as practicable following the New Marshall & Ilsley share distribution.

New Equity Compensation Plans. Marshall & Ilsley will use, or will cause its appropriate subsidiary to use, reasonable best efforts to cause New Metavante to adopt a New Metavante equity compensation plan prior to the New Marshall & Ilsley distribution that will reserve a percentage of the equity of New Metavante equal to 9% for new options and other equity grants to be issued in connection with the transaction and anticipated to be issued within the following four to five years, plus a number of shares sufficient for the substitution of existing Marshall & Ilsley options and other equity grants or rights held by Metavante or New Metavante employees or directors, which is expected to represent approximately an additional 9.5% of the equity of New Metavante. Marshall & Ilsley may also cause New Metavante to adopt an annual bonus plan if requested to do so by Investor.

Qualified Retirement Plan. Effective as of the separation, Metavante group will cease to be a participating employer in the Marshall & Ilsley tax-qualified defined contribution and 401(k) plan (the Retirement Program). No distribution of account balances will be made to any Metavante employee from the Marshall & Ilsley Retirement Program on account of the transactions contemplated by the investment agreement and separation agreement. The Metavante Group will establish a profit sharing retirement plan under which Metavante employees will be eligible to participate and will assume and be solely responsible for all liabilities for or relating to Metavante employees under the Marshall & Ilsley Retirement program. Initially, the investment options offered will be the same as those offered under the Marshall & Ilsley Retirement Program (except that a New Metavante stock fund will be available under the New Metavante profit sharing retirement plan). Marshall & Ilsley will transfer assets from the trust relating to the Marshall & Ilsley Retirement Program to the trust established for the Metavante profit sharing retirement plan that are equal to the account balances of all Metavante employees and former Metavante employees with an account balance under the Marshall & Ilsley Retirement Program (including unvested amounts). The Metavante profit sharing retirement plan will recognize all service, compensation, and other determinations that, at the time of the distribution, were recognized under the Marshall & Ilsley Retirement Program. The Metavante profit sharing retirement plan will retain the same vesting schedules as applied under the Marshall & Ilsley Retirement Program.

Continuing Business Agreements

In addition to the employee matters agreement and the tax allocation agreement, the Marshall & Ilsley Group and the Metavante Group have entered into, or will enter into prior to the closing of the transactions,

Table of Contents

continuing business agreements providing for certain services following the closing of the transactions and establishing marketing and other relationships between them. While none of the agreements individually constitutes a material part of Metavante's revenues or expenditures, in the aggregate, they accounted for approximately \$121.8 million, or 8.1%, of Metavante's revenues and \$80.2 million (including interest payments), or 6.4%, of its expenditures in 2006. These agreements relate to, among other things, certain administrative, trust, technology outsourcing, leasing, marketing and other similar services. In the past, Marshall & Ilsley has been one of Metavante's largest customers in terms of total revenues. After the closing of the transactions, pursuant to these and other agreements, it is expected that Marshall & Ilsley will continue to be among Metavante's largest customers.

FIG Marketing Agreement

Marshall & Ilsley and Metavante are parties to a FIG marketing agreement that formalizes the parties' arrangements and understandings with respect to cross-selling Marshall & Ilsley products and Metavante services to certain financial institution customers. Referrals between the two parties are facilitated by the Financial Institutions Group established by Marshall & Ilsley among its sales executives (FIG members). The FIG marketing agreement encourages referrals to and from the FIG members and provides that the referring party will receive compensation, on a case-by-case basis, for successful referrals. Incentive compensation is also payable to the referring employee. The FIG marketing agreement became effective on July 1, 2007 and terminates on July 1, 2014, after which time it may renew from year to year, subject to earlier termination for uncured breaches of material obligations and under other limited circumstances.

Administrative Services Agreement

Under the administrative services agreement, Marshall & Ilsley will continue to provide Metavante with corporate, administrative, human resources and tax services, including administering Metavante's employee benefit programs, completing audit reports related to the plans, processing payroll information for the Metavante employees, determining short-term disability claims and administering worker compensation claims, maintaining employee policies and employee files, and similar services. The agreement is intended to provide for the same nature and scope of services that Metavante had received prior to the closing date of the transactions. Metavante will pay a monthly base fee for the human resources services provided under the agreement and will pay additional fees for certain other services. It will also reimburse Marshall & Ilsley for certain reimbursable costs. The agreement is effective on the closing date of the transactions and continues until December 31, 2007, unless extended by the parties. The agreement contains standard termination procedures in the event of breaches of material obligations and will terminate without any further action from either party if the investment services agreement is terminated.

Technology Outsourcing Agreement

Metavante will provide technology outsourcing and payments services to Marshall & Ilsley through July 1, 2014 under a technology outsourcing agreement. Metavante's services include core deposit, loan, and trust account processing, risk and compliance solutions, commercial treasury solutions, strategic network solutions, and related training and development services. Metavante will also provide payment services to effect and process payments between Marshall & Ilsley's clients and third parties. The agreement generally provides that Metavante will be the sole and exclusive provider for many of the services to be offered under the agreement. Marshall & Ilsley will pay a monthly base fee for certain services, with other services billed separately according to a pricing schedule. In addition, the agreement provides for revenue sharing with respect to certain customer relationships. The technology outsourcing agreement became effective on July 1, 2007 and terminates on July 1, 2014, subject to Marshall & Ilsley's option to extend the agreement for an additional year, unless earlier terminated or extended by the parties. Prior to December 31, 2009, Marshall & Ilsley cannot terminate the technology outsourcing agreement, or any service provided thereunder (with certain exceptions), for any reason other than for cause or under certain other limited circumstances. Following December 31, 2009, if Marshall &

Table of Contents

Ilsley terminates the agreement or any service (with certain exceptions) for any reason other than for cause, it may be required to pay a termination fee to Metavante and additional expenses.

Trust Services Agreement

The trust services agreement provides that Marshall & Ilsley and Metavante will cooperate to offer, sell and market to financial institutions the trust account support services, which are provided by Marshall & Ilsley and are referred to as trust services, and the trust account processing services, which are offered by Metavante and are referred to as processing services. The agreement generally provides that Marshall & Ilsley will be Metavante's preferred partner for providing trust services to new customers; however, Metavante is not obligated to select Marshall & Ilsley as its partner for a particular customer for work that will be performed outside the United States or where work will be performed by Metavante's own employees or resources within the United States. The fees and charges to be charged to customers for trust services and processing services will be negotiated by each of Metavante and Marshall & Ilsley on a per-customer basis. The agreement became effective on July 1, 2007 and terminates on January 1, 2014, unless extended by the parties. The agreement may be terminated at any time by either party upon an uncured breach of the other party's material obligations.

Subcontractor Agreement

Marshall & Ilsley and Metavante are parties to a subcontractor agreement that governs their relationship with respect to providing certain call center, loan origination, customer service, data entry and other business process outsourcing services (BPO services) and item, back office and check processing services (IP services) to financial institution customers. Under the agreement, Marshall & Ilsley will be Metavante's preferred partner for providing BPO services to new customers but generally is not entitled to receive a preference for IP services. Under the agreement, Metavante will pay Marshall & Ilsley for the services provided under each subcontract including a revenue share arrangement for BPO services provided to one of the existing customers. With respect to IP services provided to currently-existing customers, the fees to be charged by Marshall & Ilsley for such services will be based on 2006 pricing as adjusted by certain increases in some cases. With respect to new customers, Marshall & Ilsley will provide BPO and IP services at the prices set forth in each particular offer. The agreement became effective on July 1, 2007 and terminates on July 1, 2014, unless extended by the parties. Each subcontract can be terminated by Marshall & Ilsley or Metavante in various circumstances, except that, in some cases, Metavante may be required to pay a termination fee.

Bankcard Network Sponsor Agreement

Metavante and M&I Bank FSB, a subsidiary of Marshall & Ilsley, are parties to a bankcard network sponsor agreement, pursuant to which M&I Bank FSB will sponsor Metavante and certain Metavante affiliates and clients into the MasterCard, Visa and NYCE networks. Under the agreement, Metavante will develop, design, market, manage and operate cards that are accepted by merchants participating in the networks, as well as certain programs and will pay M&I Bank FSB to sponsor Metavante and certain Metavante affiliates and clients and assist Metavante in its application for use of the networks. The agreement provides that Metavante will pay fees to M&I Bank FSB on a per-transaction basis related to card usage, as well as for additional expenses. The agreement became effective on July 1, 2007 and terminates on July 1, 2010, unless extended by the parties. The agreement may be terminated by either party under limited circumstances, including but not limited to uncured breaches of material obligations.

Merchant Processing Agreement

M&I Marshall & Ilsley Bank (M&I Bank), a subsidiary of Marshall & Ilsley, and Metavante have entered into a merchant processing agreement for the purpose of jointly contracting with merchants to provide certain transaction processing services (and to share revenue resulting therefrom), and to otherwise cooperate in the provision of merchant processing services for banks. The agreement provides that M&I Bank will exclusively

Table of Contents

promote Metavante's merchant services to merchants and retailers to which Metavante is willing to provide merchant services and will refer its customers exclusively to Metavante for merchant services. Under the agreement, Metavante will pay the bank a percentage of the net income before taxes generated from fees paid by M&I Bank customers who are currently using Metavante for merchant services or who are referred by M&I Bank to Metavante for merchant services in the future. For all other merchants, Metavante will pay M&I Marshall & Ilsley Bank a per transaction fee. The agreement became effective on July 1, 2007 and terminates on July 1, 2014, unless earlier terminated upon one year's notice or extended by the parties. In addition, the agreement may be terminated under limited circumstances, including but not limited to breaches of material obligations. M&I Bank may be required to pay a termination fee in certain circumstances.

Treasury Management Services Agreement

M&I Bank and Metavante have entered into a treasury management services agreement pursuant to which M&I Bank will provide various collection, disbursement and reporting services to Metavante. The fees that Metavante pays for these services are based on a per-service pricing schedule and are subject to renegotiation in accordance with the terms of the agreement. The agreement makes M&I Bank the exclusive provider to Metavante of the services covered by the agreement. If Metavante fails to comply with the exclusivity provisions, it may be required to pay the bank a termination fee. The agreement became effective July 1, 2007 and terminates on July 31, 2014, subject to renewal by the parties. The agreement may be terminated by either party upon an uncured breach of the other party's material obligations and under other limited circumstances. Metavante may be required to pay a termination fee to M&I Bank under certain circumstances.

Office Lease

Metavante leases office, storage and raised floor space located at 4900 W. Brown Deer Road, Brown Deer, Wisconsin, to M&I Support Services, Inc., a subsidiary of Marshall & Ilsley. The term of the lease continues until December 31, 2013, provided that if, at any time during the term of the lease, Metavante is less than 100% owned by Marshall & Ilsley, M&I Support Services may terminate the lease upon one year advance written notice to Metavante and Metavante may terminate the lease upon two years advance written notice to M&I Support Services. M&I Support Services can terminate the lease at any time without penalty upon 180 days written notice to Metavante.

ADDITIONAL AGREEMENTS RELATING TO THE TRANSACTIONS

Warburg Pincus Private Equity IX, L.P. has executed a limited guarantee in favor of Marshall & Ilsley and New Metavante pursuant to which Warburg Pincus Private Equity IX, L.P. has guaranteed specified obligations of Investor. At the time of the completion of the transactions, New Metavante and Investor have agreed to enter into a shareholders agreement and a stock purchase right agreement in substantially the forms attached hereto as Annexes D and E that set forth certain matters regarding Investor's ongoing relationship with New Metavante. The material terms of these agreements are summarized below. The description of the limited guarantee is qualified in its entirety by reference to the complete text of the limited guarantee which is incorporated by reference into this document and filed as an exhibit to the Registration Statement of which this proxy statement/prospectus information statement is a part. The descriptions of the shareholders agreement and the stock purchase right agreement are qualified in their entirety by reference to the complete text of the forms of these agreements, which agreements will be in substantially the form attached to this proxy statement/prospectus information statement as Annexes D and E. Such forms are incorporated by reference into this document. All references to the limited guarantee, the shareholders agreement and the stock purchase right agreement are to such agreements, as amended or supplemented from time to time. We urge you to read the limited guarantee and the forms of the shareholders agreement and the stock purchase right agreement.

Limited Guarantee

Pursuant to a limited guarantee, dated as of April 3, 2007, Warburg Pincus Private Equity IX, L.P. has guaranteed to Marshall & Ilsley and New Metavante subject to the terms and conditions set forth in the limited guarantee, the payment by Investor of a termination fee of \$75 million in connection with the termination of the investment agreement after the occurrence of, or failure of, certain specified events and all reasonable out-of-pocket fees and expenses up to \$2 million incurred by Marshall & Ilsley and New Metavante successfully in enforcing the limited guarantee. The limited guarantee will terminate at the earlier of (i) the closing of the transactions and (ii) the first anniversary of the termination of the investment agreement if, as of such date, Marshall & Ilsley or New Metavante has not presented a claim for payment under the limited guarantee.

Shareholders Agreement

Prior to the closing, New Metavante and Investor will enter into the shareholders agreement. The shareholders agreement contains, among other things, provisions with respect to:

the governance of New Metavante;

restrictions on the ability of Investor to dispose of its shares of New Metavante common stock prior to the second anniversary of the closing date (thereafter Investor will not be restricted by the shareholders agreement from disposing of its shares of New Metavante common stock);

standstill restrictions on the ability of Investor to purchase additional securities of New Metavante if such ownership would cause Investor's ownership percentage to exceed 40% or to take certain other actions with respect to acquiring control of New Metavante; and

registration rights for Investor.

Governance Matters

The shareholders agreement provides that:

initially the New Metavante board of directors will be comprised of 11 directors, consisting of (i) three directors designated by Investor, (ii) two directors who shall be officers of New Metavante, one of whom shall be the President and Chief Executive Officer

and one of whom shall be the Senior Executive Vice President and Chief Operating Officer, (iii) one director who shall be designated by

Table of Contents

Marshall & Ilsley and shall initially be Dennis J. Kuester and (iv) five additional directors selected by Marshall & Ilsley after consulting with the President and Chief Executive Officer of Metavante and with the consent of Investor (which shall not be unreasonably withheld or delayed), each of whom shall qualify as independent directors and one of whom shall be a director of Marshall & Ilsley and will be Ted D. Kellner;

the Chairman of the Board of New Metavante will be Dennis J. Kuester for a period of one year from the closing and if Dennis J. Kuester is unable to serve during such one-year period, or after such one-year period, Frank R. Martire will, subject to the approval of the board of directors of New Metavante, succeed Dennis J. Kuester as Chairman of the Board of New Metavante;

New Metavante will take all actions necessary to provide that the Investor designees are nominated for re-election to the New Metavante board of directors at the 2008 annual meeting of shareholders of New Metavante. The remaining directors will be nominated in accordance with the provisions of the shareholders agreement and the amended and restated by-laws of New Metavante;

following the 2008 annual meeting of shareholders of New Metavante, until the earlier of the tenth anniversary of the closing date and the termination of the shareholders agreement, so long as the ownership percentage of Investor, Warburg Pincus Private Equity IX, L.P. and any Investor affiliate (other than any portfolio company of Investor) (the Investor Group) of New Metavante common stock in the aggregate equals or exceeds the percentages or dollar amounts set forth in the table below, Investor will have the right to designate for nomination to the New Metavante board of directors, the number of individuals set forth opposite the applicable percentage or amount:

Ownership Percentage	Number of Investor Designees
17.5% or greater	three individuals
less than 17.5% but equal to	
or greater than 7.5%	two individuals
less than 7.5% but the fair market value of New Metavante common stock beneficially owned by the Investor Group equals or exceeds \$150 million	one individual

until the earlier of (i) the tenth anniversary of the closing date, (ii) the termination of the shareholders agreement and (iii) the date on which the ownership percentage of the Investor Group is less than 7.5% and the fair market value of the New Metavante shares beneficially owned by Investor Group is less than \$150 million, the Investor designees will have the right to designate for nomination or appointment to the New Metavante board of directors an individual to replace any Investor designee upon his or her death, resignation, retirement, disqualification or removal (except that, in the case of removal for cause, the removed director cannot be nominated) so long as Investor has the right to designate such a member of the New Metavante board of directors under the ownership percentages described above;

until the 2008 annual meeting of shareholders of New Metavante, the Marshall & Ilsley designees will have the right to designate for appointment to the New Metavante board of directors an individual to replace any Marshall & Ilsley designee upon his or her death, resignation, retirement, disqualification or removal (except that, in the case of removal for cause, the removed director cannot be nominated);

the New Metavante board of directors will have an audit committee, a compensation committee, and a nominating and corporate governance committee, each of which will have three members, at least one of whom will be an Investor designee;

an Investor designee will chair the compensation committee; and

all of the members of each of the New Metavante audit committee, compensation committee and nominating committee will be independent under the rules of the New York Stock Exchange and the Exchange Act.

Table of Contents

The governance provisions of the shareholders agreement will terminate upon the earlier to occur of the tenth anniversary of the closing date and the date on which the ownership percentage of the Investor Group is less than 7.5% and the fair market value of the total shares of the Investor Group is less than \$150 million.

Restrictions on Investor's Ability to Dispose of New Metavante Stock

The shareholders agreement provides that prior to the first anniversary of the closing date, no member of the Investor Group will, directly or indirectly, transfer or otherwise dispose of any shares of New Metavante common stock, except:

to other members of Investor Group who agree in writing to be bound by the terms of the shareholders agreement;

in connection with specified change in control transactions with respect to New Metavante;

in connection with a bona fide pledge to, or similar arrangement in connection with a bona fide borrowing from, a financial institution;
or

in any transaction approved by a majority of the directors that are independent directors under the rules of the New York Stock Exchange and who are not Investor designees.

The shareholders agreement provides that following the first anniversary of the closing date and prior to the second anniversary of the closing date, no member of the Investor Group will, directly or indirectly, dispose of any shares of New Metavante common stock, except:

if such disposition is permitted under any of the exceptions described above; or

if following such disposition, the Investor Group in the aggregate owns at least 17.5% of the combined voting power of New Metavante common stock entitled to vote in the election of directors.

Restrictions on Investor's Ability to Purchase Additional New Metavante Securities or Otherwise Control New Metavante

The shareholders agreement provides that, unless specifically requested in writing in advance by the New Metavante board of directors, Investor will not:

acquire or seek or propose to acquire, any (A) ownership of any of the material assets or businesses of New Metavante or any rights or options to acquire such ownership, or (B) ownership of any securities of New Metavante or any rights or options to acquire such ownership if such ownership would result in Investor's ownership percentage to exceed 40%;

solicit proxies with respect to any matter from holders of any shares of stock of New Metavante or any securities convertible into or exchangeable for or exercisable for the purchase of such stock;

initiate, or induce or attempt to induce any other person, entity or group to initiate, any shareholder proposal or tender offer for any securities of New Metavante, any change of control of New Metavante or the convening of a shareholders' meeting of New Metavante;

Edgar Filing: MARSHALL & ILSLEY CORP/WI/ - Form DEFM14A

enter into any discussions, negotiations, arrangements or understandings with any other person with respect to any matter described in the foregoing;

take any action with respect to any of the matters described above that requires public disclosure; or

request that New Metavante directly or indirectly amend or waive any of the provisions described above.

These provisions do not apply in respect of any action taken by the Investor designees in their capacity as members of the board of directors.

Table of Contents

These restrictions terminate on the earliest of (i) the two year anniversary of the closing date, (ii) the date on which any Investor designee is not elected to the board of directors of New Metavante and is not otherwise appointed to the board of directors, and (iii) the date of a change of control of New Metavante. In addition, these restrictions do not apply at any time after (A) the board of directors resolves to pursue a transaction that is contemplated to result in a change of control of New Metavante or (B) the board of directors approves, recommends or accepts a transaction that would result in a change of control proposed by any person other than Investor; provided, however, that these restrictions become operative again once the board of directors (1) resolves not to pursue any such transaction or (2) rejects or announces that it has withdrawn its recommendation of any such transaction.

Registration Rights

The shareholders agreement provides for demand registration rights for Investor that will require New Metavante to, upon the request of Investor, register its shares of New Metavante common stock with the SEC and permit Investor to sell such registered shares of New Metavante common stock to the public, subject to specified conditions and a maximum of four such demand registrations. Furthermore, pursuant to the shareholders agreement, if New Metavante proposes to register any of its securities on a form that may include registerable shares of Investor, Investor will have the right to request that all or any part of its registrable shares be included in the registration, subject to specified conditions.

Supermajority Approval Provisions

Until the second anniversary of the closing date while the transfer restrictions of the shareholders agreement described above are in effect, each of the following actions will require a vote of at least eight of the 11 directors:

entering into any merger or reorganization which would result in a transfer of at least 20% of the outstanding shares or assets of New Metavante to another person;

acquiring, in a single transaction or a series of related transactions, any business or assets for consideration having a value in excess of \$300 million;

making or committing to make any capital expenditure or series of related capital expenditures in excess of \$300 million;

disposing of, in a single transaction or a series of related transactions, any business or any assets for consideration having a value in excess of \$100 million; or

incurring any indebtedness for borrowed money or issuing any debt securities, or guaranteeing any indebtedness for borrowed money of any other person, if the amount of such incurred or guaranteed indebtedness exceeds \$300 million.

Preemptive Rights

Until the Investor Group holds less than 10% of New Metavante, if New Metavante makes an offering of common stock or securities convertible into common stock (other than offerings related to employee benefits plans or in connection with a merger or acquisition), Investor will have the right to acquire from New Metavante for the same price and on the same terms as such securities are proposed to be offered to others, in the aggregate up to the amount of securities required to enable it to maintain its current percentage of ownership.

Termination

The shareholders agreement will terminate upon the earlier of:

its termination by the consent of all the parties to the shareholders agreement (with the consent of a majority of the independent directors of New Metavante who are not Investor designees);

Table of Contents

the date on which Investor Group ceases to hold any shares of registerable securities of New Metavante common stock (except for those provisions that terminate as of a date specified in such provisions, which provisions shall terminate in accordance with the terms thereof); and

the dissolution, liquidation or winding up of New Metavante.

Stock Purchase Right Agreement

The investment agreement provides that, at the closing of the transactions, New Metavante and Investor will enter into a stock purchase right agreement, which gives Investor the right to purchase shares of common stock of New Metavante if employee stock options that are outstanding immediately following the New Marshall & Ilsley share distribution are exercised after the New Marshall & Ilsley share distribution. The stock purchase right agreement allows Investor following the closing of the transactions to maintain its 25% interest in the common stock of New Metavante notwithstanding the exercise of certain employee options outstanding at the time of closing.

Pursuant to the terms of the stock purchase right agreement, the total number of shares that may be purchased by Investor under the agreement will equal one third of the aggregate number of New Metavante common shares that may be issued under specified New Metavante employee options outstanding at the time of closing. Subject to the terms of the stock purchase right agreement, the stock purchase right may generally be exercised quarterly for one-third of the number of New Metavante common shares issued pursuant to such employee options during the preceding quarter, and the number of shares subject to the stock purchase right will be reduced by one-third of the number of shares subject to such employee options that expired unexercised in the preceding quarter. The stock purchase right agreement contains provisions allowing Investor to exercise a portion of the stock purchase right agreement in connection with certain transfers of Investor's shares.

Table of Contents

ANTICIPATED TERMS OF FINANCING

The principal terms of the equity and debt financing are anticipated to be as summarized below.

Equity Financing

New Metavante will receive \$625 million in equity financing from Investor pursuant to the investment agreement. Pursuant to an equity commitment letter from Warburg Pincus Private Equity IX, L.P., dated as of April 3, 2007, Warburg Pincus Private Equity IX, L.P. has committed to contribute \$625 million to Investor, solely for the purpose of funding Investor's acquisition of shares of New Metavante Class A common stock in the New Metavante share issuance, as further described under "The Transactions," beginning on page 59.

The equity financing is subject to the satisfaction or waiver of the conditions to Investor's obligations set forth in the investment agreement and the substantially contemporaneous funding of the debt financings described below.

Debt Financing

Credit Facility

Pursuant to a commitment letter dated as of May 10, 2007, JPMorgan, JPMorgan Chase Bank, N.A., Morgan Stanley Senior Funding, Inc., Lehman Brothers Commercial Bank, Lehman Commercial Paper Inc., Lehman Brothers Inc., and Baird Financial Corporation, and certain of their respective affiliates (the "committed financing parties") have committed to provide the credit facilities described below.

a senior secured term loan facility, which we refer to as the "term loan facility," in an aggregate principal amount of \$1.75 billion (all of which is expected to be borrowed on the closing date); and

a senior secured revolving credit facility, which we refer to as the "revolving credit facility," in an aggregate principal amount of up to \$250 million (none of which is expected to be borrowed as of the closing date);

For purposes of this summary description of the proposed financings, the term loan facility and the revolving credit facility are collectively referred to as the "credit facility." The full text of the commitment letter described above is filed as an exhibit to the registration statement of which this proxy statement/prospectus information statement is a part and is incorporated by reference into this proxy statement/prospectus information statement. You are urged to read the commitment letter carefully and in its entirety.

Conditions Precedent

The availability of the credit facility is subject to various conditions precedent, including, but not limited to:

New Metavante shall have received cash proceeds from the issuance to the Investor of its common equity in an amount equal to at least \$625 million;

the transactions shall be consummated substantially concurrently with or prior to any funding of the credit facility and all material conditions precedent to the consummation or the transactions shall have been satisfied, or waived in a manner not materially adverse to the lenders;

the negotiation, execution and delivery of definitive documentation with respect to the credit facility shall be consistent with the credit facility term sheet;

Edgar Filing: MARSHALL & ILSLEY CORP/WI/ - Form DEFM14A

since December 31, 2006, there shall not have been any material adverse effect on the business, operations, property or financial condition of Metavante and its subsidiaries taken as a whole; and

other specified conditions precedent customary for credit facilities.

The investment agreement provides that, if any portion of the debt financing becomes unavailable, Investor may arrange to obtain alternative financing from alternative sources on terms and subject to conditions reasonably acceptable to Metavante.

Table of Contents

Term Loan Facility

Overview

The term loan facility is expected to provide for senior secured term loans in an aggregate principal amount of \$1.75 billion. Borrowings under the term loan facility may only be incurred on the closing date. Because the definitive documentation has not yet been completed, however, the terms described below may change.

Maturity; Prepayments

The term loan facility is expected to mature seven years from the closing date. The term loan facility will amortize in nominal quarterly installments until the maturity date. The term loan facility is expected to be subject to mandatory prepayment and reduction out of excess cash flows and proceeds of certain debt issuances, asset sales and other capital events.

Interest

The interest rates applicable to the loans under the term loan facility are expected to be based on a fluctuating rate of interest measured by reference to either, at the borrower's option, (i) adjusted London inter-bank offered rate (LIBOR) (adjusted for maximum reserves), plus an initial borrowing margin of 1.50% or (ii) an alternate base rate plus an initial borrowing margin of 0.50%, in each case subject to adjustment pursuant to a market flex provision. The interest rate margins will be subject to a single step down based on the borrower's meeting a leverage based test to be agreed upon. Overdue amounts will bear interest at a rate that is 2% higher than the rate otherwise applicable.

Revolving Credit Facility

Overview

The revolving credit facility is expected to provide for senior secured revolving loans up to a maximum aggregate principal amount of \$250 million. Proceeds of loans under the revolving credit facility are expected to be used for working capital, capital expenditures and general corporate purposes. A portion of the revolving credit facility in an amount to be determined will be available for letters of credit and swingline loans. Because the definitive documentation has not yet been completed, however, the terms described below may change.

Maturity

The final maturity date of the revolving credit facility is expected to be six years from the closing date.

Interest

The interest rates applicable to the loans under the revolving credit facility are expected to be based on a fluctuating rate of interest measured by reference to either, at the borrower's option, (1) adjusted LIBOR (adjusted for maximum reserves), plus an initial borrowing margin of 1.375% or (2) an alternate base rate plus an initial borrowing margin of 0.375%, in each case subject to a market flex provision. The interest rate margins on the revolving credit facility will be subject to stepdowns based on the borrower's meeting leverage based tests to be agreed upon. Overdue amounts will bear interest at a rate that is 2% higher than the rate otherwise applicable.

General Provisions

Guarantees; Security

New Metavante and each domestic subsidiary of Metavante are expected to guarantee the borrower's obligations under the credit facility and certain cash management, interest rate protection or other hedging arrangements. The credit facility and the guarantees thereof are expected to be secured by all of the capital stock

Table of Contents

of Metavante and of the domestic subsidiaries owned by Metavante or any guarantor, 65% of the voting stock of each first tier foreign subsidiary of Metavante or any guarantor, and substantially all other tangible and intangible assets owned by the borrower and each guarantor, subject to certain exceptions.

Fees

New Metavante is expected to pay (i) fees on the unutilized portion of commitments under the revolving credit facility at a rate of 0.375% per annum, (ii) a letter of credit fee on the stated amount of issued and undrawn letters of credit at a rate equal to the LIBOR margin under the revolving credit facility and a fronting fee of 0.125% per annum to the issuing lender, (iii) an underwriting and arrangement fee equal to 1.125% of the aggregate principal amount of the commitments under the credit facility, and (iv) an annual administration fee in an amount equal to \$150,000 per year.

Covenants

The credit facility is expected to contain a number of covenants that, among other things, will limit or restrict the ability of the borrower and its subsidiaries to:

incur additional indebtedness (including guarantees of other indebtedness and hedging arrangements) if New Metavante and its subsidiaries are not in compliance with the agreed upon consolidated leverage ratio;

pay dividends or make other restricted payments, including redemptions and repurchases of stock;

make loans and investments;

enter into mergers or make acquisitions, if New Metavante is not in pro forma compliance with the agreed upon consolidated leverage ratio;

enter into certain types of transactions with affiliates;

sell certain assets, consolidate, merge, sell or otherwise dispose of all or substantially all of their assets;

create or permit liens or sale-leaseback transactions;

enter into agreements restricting dividends or other distributions by subsidiaries to the borrower;

change lines of business; and

change its fiscal year.

The credit facility is expected to contain a covenant prohibiting Metavante from exceeding a consolidated leverage ratio as of the last day of any period of four consecutive quarters ending during the periods set forth below:

Period	Consolidated Leverage Ratio
October 1, 2007 to June 30, 2008	5.25 to 1.00
July 1, 2008 to September 30, 2008	5.00 to 1.00
October 1, 2008 to March 31, 2009	4.75 to 1.00
April 1, 2009 to September 30, 2009	4.50 to 1.00
October 1, 2009 to March 31, 2010	4.25 to 1.00
April 1, 2010 to December 31, 2010	4.00 to 1.00
January 1, 2011 and thereafter	3.75 to 1.00

The covenant would apply at any time there are revolving credit commitments outstanding under the credit facility and revolving loans and letters of credit outstanding under the credit facility in excess of \$5,000,000. Consolidated leverage ratio is expected to be defined as the ratio of consolidated total net debt to credit

Table of Contents

agreement EBITDA. Consolidated total net debt is expected to be defined as the aggregate principal amount of all indebtedness of Metavante and its subsidiaries determined on a consolidated basis in accordance with GAAP net of unencumbered and unrestricted cash and cash equivalents. Credit agreement EBITDA is expected to be defined as consolidated net income plus income tax expense, net interest expense, amortization of debt issuance costs, depreciation and amortization expense and certain other non-cash charges included in computing consolidated net income, including, among others, any impairment charge or asset write-off related to intangible assets, long-lived assets and investments in debt and equity securities pursuant to GAAP, all losses from investments recorded using the equity method, non-cash stock-based awards compensation, fees, costs and expenses incurred as part of the transactions, extraordinary, unusual or non-recurring expenses, losses or charges; provided that the aggregate amount of extraordinary, unusual or non-recurring cash expenses, cash losses or cash charges included in credit agreement EBITDA for any period will not exceed 5% of consolidated EBITDA for such period. In addition, it is expected that the credit facility will permit a contribution to the capital of Metavante or the proceeds of stock issued by Metavante to its parent to constitute income in computing credit agreement EBITDA for purposes of determining compliance with this financial covenant. Such use of the proceeds of a capital contribution to or stock issuance by Metavante for purposes of compliance with the financial covenant would be limited to three times in any four consecutive fiscal quarters and four times in any eight consecutive fiscal quarters.

Credit agreement EBITDA is a non-GAAP financial measure and is not a substitute for, or more meaningful than, other measures of financial performance prepared in accordance with GAAP. Credit agreement EBITDA is presented in this proxy statement/prospectus information statement to demonstrate that Metavante would have been in compliance with the consolidated leverage ratio covenant expected to be included in the credit facility as of June 30, 2007 on a pro forma basis after giving effect to the transactions. Failure to comply with the consolidated leverage ratio covenant (if and when applicable) would result in a default under the credit facility.

The table below sets forth a calculation of credit agreement EBITDA on a pro forma basis giving effect to the transactions and a reconciliation of net income to credit agreement EBITDA for the six months ended June 30, 2007 and the year ended December 31, 2006:

	Six Months Ended	Year Ended
	June 30,	December 31,
	2007	2006
Net income	\$ 92,136	\$ 160,124
Interest expense, net of interest income	14,050	28,631
Provision for income taxes	50,870	80,359
Depreciation and amortization	74,694	144,441
Impairment charges	0	416
Stock option expense	3,019	8,104
Equity investment gains	(8,554)	(1,261)
Transaction costs	900	0
Pro forma operating earnings adjustments	29,629	58,802
Credit agreement EBITDA	\$ 256,744	\$ 479,616

On a pro forma basis, after giving effect to the transactions, estimated consolidated total net debt would have been \$1,676.5 million as of June 30, 2007. On a pro forma basis, after giving effect to the transactions, credit agreement EBITDA would have been \$501.5 million for the twelve months ended June 30, 2007. On a pro forma basis, after giving effect to the transactions, the consolidated leverage ratio would have been 3.34 to 1.00 as of June 30, 2007.

Based on these calculations, Metavante is expected to be in compliance with the consolidated leverage ratio covenant as of the closing date. In addition, Metavante management believes that the difference between the pro

Table of Contents

forma consolidated leverage ratio of 3.34 to 1.00 and the initial covenant level of 5.25 to 1.00 allows Metavante sufficient financial flexibility to pursue its overall growth strategy, including acquisitions.

The credit facility is expected to also contain certain affirmative covenants, including maintenance of corporate existence, maintenance of property and insurance, maintenance of credit ratings, compliance with laws, payment of taxes, inspection of books and records, notices of defaults and other material adverse changes, delivery of financial statements and other reporting requirements.

The foregoing description of the covenants that are expected to be contained in the credit facility reflects the current expectation of Metavante as to the form of the definitive credit facility. Because definitive documentation has not yet been completed, the actual covenants may differ from those described above.

Events of Default

The credit facility is expected to provide for customary events of default, including non-payment of principal, interest or fees, violation of covenants, material inaccuracy of representations or warranties, specified cross defaults to other material indebtedness, certain bankruptcy events, certain ERISA events, material invalidity of guarantees or security interests, material judgments, change in passive holding company status of New Metavante and change of control (to be defined in the definitive documentation for the loan facility). The occurrence of an event of default would permit the holders of the defaulted debt to declare all of their commitments under the credit facility terminated and all amounts outstanding with respect to that debt immediately due and payable. In addition, upon an event of default, interest will accrue at a rate of 2% per year in excess of the rate otherwise applicable to the loan or other overdue amount.

Incremental Facility

Metavante will be permitted to add one or more incremental term loan facilities or to increase the revolving credit facility (collectively, the incremental facilities), up to an aggregate amount of \$500 million for all incremental facilities. No lender is committed to provide or participate in any such incremental facility, and the pricing and other terms of any such incremental facility would have to be negotiated with any lender or lenders, if any, willing to provide or participate in such incremental facility. No incremental facility could be entered into if a default or event of default exists or would be created thereby, and any term loan that is part of an incremental facility would have to have a maturity date no earlier than the maturity date for the term loan facility and a weighted average life no shorter than that of the term loan facility.

Table of Contents

DESCRIPTION OF MARSHALL & ILSLEY AND NEW MARSHALL & ILSLEY

The following is a description of Marshall & Ilsley's business (excluding Metavante's business) prior to the closing of the transactions. The following is also a description of what New Marshall & Ilsley's business (excluding Metavante's business) is expected to be after the closing of the transactions.

General

Marshall & Ilsley, incorporated in Wisconsin, is a registered bank holding company under the Bank Holding Company Act of 1956 (the "BHCA") and is certified as a financial holding company under the Gramm-Leach-Bliley Act. As of June 30, 2007, Marshall & Ilsley had consolidated total assets of approximately \$58.3 billion and consolidated total deposits of approximately \$35.0 billion, making Marshall & Ilsley the largest bank holding company headquartered in Wisconsin. Without Metavante and the effects of the dividend and repayment of debt, total assets and total deposits of Marshall & Ilsley at June 30, 2007 would have been approximately \$55.8 billion and \$35.2 billion, respectively.

Marshall & Ilsley's principal assets are the stock of its bank and nonbank subsidiaries, which, as of June 30, 2007, included five bank and trust subsidiaries and a number of companies engaged in businesses that the Board of Governors of the Federal Reserve System (the "Federal Reserve Board") has determined to be closely-related or incidental to the business of banking. Marshall & Ilsley provides its subsidiaries with financial and managerial assistance in such areas as budgeting, tax planning, auditing, compliance assistance, asset and liability management, investment administration and portfolio planning, business development, advertising and human resources management.

Generally, Marshall & Ilsley organizes its business based on legal entities. Each entity offers a variety of products and services to meet the needs of its customers and the particular market served. Banking operations consists of accepting deposits, making loans and providing other services such as cash management, foreign exchange and correspondent banking to a variety of commercial and retail customers. Marshall & Ilsley's primary other businesses include Trust Services, Capital Markets Group, Brokerage and Insurance Services, and Commercial Leasing.

Banking Operations

Marshall & Ilsley's bank subsidiaries provide a full range of banking services to individuals, businesses and governments. These subsidiaries offer retail, institutional, business, international and correspondent banking and investment services through the operation of 192 banking offices in Wisconsin, 48 offices in Arizona, 16 offices in Kansas City and nearby communities, 30 offices along Florida's west coast and Central Florida, 22 offices in metropolitan Minneapolis/St. Paul and one in Duluth, Minnesota, three offices in Tulsa, Oklahoma, and one office in Las Vegas, Nevada, as well as on the Internet. Marshall & Ilsley's Southwest Bank subsidiary has 17 offices in the greater St. Louis area. Marshall & Ilsley's bank subsidiaries hold a significant portion of their mortgage loan and investment portfolios indirectly through their ownership interests in direct and indirect subsidiaries. M&I Bank is Marshall & Ilsley's largest bank subsidiary, with consolidated assets as of June 30, 2007 of approximately \$50.4 billion.

Through its bank and nonbank subsidiaries, Marshall & Ilsley offers a variety of loan products to retail customers, including credit cards, lines of credit, automobile loans and leases, student loans, home equity loans, personal loans, residential mortgage loans and mortgage refinancing. Marshall & Ilsley also offers a variety of loan and leasing products to business, commercial and institutional customers, including business loans, lines of credit, standby letters of credit, credit cards, government-sponsored loans, commercial real estate financing, construction financing, commercial mortgage loans and equipment and machinery leases. In addition, through its Home Lending Solutions division, M&I Bank FSB originates residential mortgage loans and lines of credit as part of its wholesale lending program. M&I Business Credit, LLC provides working capital loans to commercial

Table of Contents

borrowers secured by accounts receivable, inventory and other marketable assets. M&I Dealer Finance, Inc. provides retail vehicle lease and installment sale financing. M&I Support Services Corp. provides bank operation support for loan and deposit account processing and maintenance, item processing and other banking services.

Marshall & Ilsley's lending activities involve credit risk. Credit risk is controlled through active asset quality management and the use of lending standards and thorough review of potential borrowers. Marshall & Ilsley evaluates the credit risk of each borrower on an individual basis and, where deemed appropriate, collateral is obtained. Collateral varies by individual loan customer but may include accounts receivable, inventory, real estate, equipment, deposits, personal and government guarantees, and general security agreements. Access to collateral is dependent upon the type of collateral obtained. On an on-going basis, Marshall & Ilsley monitors its collateral and the collateral value related to the loan balance outstanding.

The Marshall & Ilsley bank subsidiaries may use wholesale deposits, which include foreign (Eurodollar) deposits. Wholesale deposits are funds in the form of deposits generated through distribution channels other than Marshall & Ilsley's own banking branches. These deposits allow Marshall & Ilsley's bank subsidiaries to gather funds across a geographic base and at pricing levels considered attractive, where the underlying depositor may be retail or institutional. Access to wholesale deposits also provides Marshall & Ilsley with the flexibility to not pursue single service time deposit relationships in markets that have experienced unprofitable pricing levels.

Marshall & Ilsley's securitization activities are generally limited to basic term or revolving securitization facilities associated with indirect automobile loans. A discussion of Marshall & Ilsley's securitization activities is contained in Management's Discussion and Analysis of Financial Condition and Results of Operations of Marshall & Ilsley (Accounting Predecessor to Marshall & Ilsley), and in Note 10 of the Notes to the Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement.

Other Business Operations

Marshall & Ilsley's other nonbank subsidiaries operate a variety of bank-related businesses, including those providing trust services, capital markets, brokerage and insurance, and commercial leasing.

Trust Services. Marshall & Ilsley Trust Company National Association (M&I Trust) provides trust and employee benefit plan services to customers throughout the United States with offices in Wisconsin, Arizona, Minnesota, Florida, Nevada, Missouri, Illinois and Indiana. M&I Investment Management Corp. offers a full range of asset management services to M&I Trust, the Marshall Funds and other individual, business and institutional customers.

Capital Markets. M&I Capital Markets Group L.L.C., M&I Capital Markets Group II, L.L.C. and M&I Ventures L.L.C. provide venture capital, financial advisory and strategic planning services to customers, including assistance in connection with the private placement of securities, raising funds for expansion, leveraged buy-outs, divestitures, mergers and acquisitions and small business investment company transactions.

Brokerage and Insurance. M&I Brokerage Services, Inc., a broker-dealer registered with the National Association of Securities Dealers, Inc. and the SEC, provides brokerage and other investment-related services to a variety of retail and commercial customers. M&I Insurance Services, Inc. provides life, long-term care and disability income insurance products and annuities to retail clients and business owners.

Commercial Leasing. M&I Equipment Finance Company, a subsidiary of M&I Bank, leases a variety of equipment and machinery to large and small businesses.

Other. M&I Community Development Corporation makes investments designed primarily to promote the public welfare in markets and communities served by affiliates and subsidiaries of Marshall & Ilsley.

Table of Contents

Risk Management

Managing risk is an essential component of successfully operating a financial services company. Marshall & Ilsley has an enterprise-wide approach to risk governance, measurement, management and reporting risks inherent in its businesses. Risk management practices include key elements such as independent checks and balances, formal authority limits, policies and procedures and portfolio management. Marshall & Ilsley's internal audit department also evaluates risk management activities. These evaluations include performing internal audits and reporting the results to management and the Audit and Risk Management Committees of the Marshall & Ilsley board, as appropriate.

Marshall & Ilsley has established a number of management committees responsible for assessing and evaluating risks associated with the Company's businesses including the Credit Policy Committee, Asset Liability Committee (ALCO) and the Enterprise Risk Committee. Marshall & Ilsley has in place a Risk Management Committee of the board of directors for oversight and governance of its risk management function. The Risk Management Committee consists of three non-management directors and has the responsibility of overseeing management's actions with respect to credit, market, liquidity, fiduciary, operational, compliance, legal and reputation risks as well as Marshall & Ilsley's overall risk profile. The Chief Risk Officer of the Marshall & Ilsley board is responsible for reporting to this committee.

Operational Risk Management

Operational risk is the risk of loss from human errors, failed or inadequate processes or systems and external events. This risk is inherent in all businesses. Resulting losses could take the form of explicit charges, increased operational costs, harm to Marshall & Ilsley's reputation or lost opportunities.

Marshall & Ilsley seeks to mitigate operational risk through a system of internal controls to manage this risk at appropriate levels. Primary responsibility for managing internal controls lies with the managers of Marshall & Ilsley's various business lines. Marshall & Ilsley monitors and assesses the overall effectiveness of its system of internal controls on an ongoing basis. The Enterprise Risk Committee oversees Marshall & Ilsley's monitoring, management and measurement of operational risk. In addition, Marshall & Ilsley has established several other executive management committees to monitor, measure and report on specific operational risks to the Company, including, business continuity planning, customer information security and compliance. These committees report to the Risk Management Committee of the Marshall & Ilsley board on a regular basis.

Recent Acquisition Activity

On April 1, 2007, Marshall & Ilsley completed its acquisition of United Heritage Bankshares of Florida, Inc. (United Heritage). United Heritage Bank, a wholly-owned subsidiary of United Heritage, with \$791.3 million in assets as of March 31, 2007, has 13 branches in the metropolitan Orlando area. Total consideration in this transaction amounted to approximately \$219.6 million, consisting of 4,410,647 shares of Marshall & Ilsley common stock valued at \$204.3 million and the exchange of vested stock options valued at approximately \$15.3 million. The United Heritage Bank branches became M&I Bank branches on June 1, 2007.

On April 20, 2007, Marshall & Ilsley completed the acquisition of North Star Financial Corporation (North Star) of Chicago, Illinois. Total consideration in this transaction amounted to \$21.0 million, consisting of 441,252 shares of Marshall & Ilsley common stock valued at \$47.55 per common share. North Star and its subsidiaries provide a variety of wealth management services through personal and other trusts. In addition, North Star offers a variety of other products and services including land trusts, 1031 exchanges for both real and personal property and ESOP services, including consultative services relating to the transfer of small-business stock ownership. North Star's businesses will be integrated with Marshall & Ilsley's Wealth Management unit.

On July 1, 2007, Marshall & Ilsley completed its acquisition of Excel Bank Corporation (Excel). Pursuant to an amended and restated merger agreement, shareholders of Excel received \$13.97 per share in cash for

Table of Contents

each issued and outstanding share of Excel common stock, or approximately \$105.0 million in the aggregate. Outstanding options to acquire Excel common stock were converted into options to acquire Marshall & Ilsley's common stock. Excel, with \$616.0 million in consolidated assets as of June 30, 2007, has four branches in the greater Minneapolis/St. Paul, Minnesota metropolitan area. The current Excel branches became branches of M&I Bank on August 1, 2007.

On July 9, 2007, Marshall & Ilsley announced the signing of a definitive agreement to acquire First Indiana Corp. (First Indiana). First Indiana, based in Indianapolis, Indiana, had \$2.2 billion in assets as of June 30, 2007, and has 32 offices in central Indiana. Under the terms of the definitive agreement, stockholders of First Indiana will receive \$32.00 in cash for each issued and outstanding share of First Indiana common stock, or approximately \$529 million in the aggregate. The transaction is expected to close in the fourth quarter of 2007 or in the first quarter of 2008, subject to the affirmative vote of First Indiana's stockholders, regulatory approvals and customary closing conditions.

Acquisitions Completed in 2006

On April 1, 2006, Marshall & Ilsley completed the acquisition of Gold Banc Corporation, Inc. (Gold Banc), a bank holding company headquartered in Leawood, Kansas. Gold Banc offered commercial banking, retail banking, and trust and asset management products and services through various subsidiaries. Gold Banc had consolidated assets of \$4.2 billion at the time of the merger. Gold Banc's largest subsidiary, Gold Bank, a Kansas state-chartered bank, was merged with and into M&I Marshall & Ilsley Bank on April 1, 2006, at which time the 32 Gold Bank branch offices in Florida, Kansas, Missouri and Oklahoma became interstate branch offices of M&I Marshall & Ilsley Bank.

On April 1, 2006, Marshall & Ilsley completed the acquisition of St. Louis-based Trustcorp Financial, Inc. (Trustcorp). With the acquisition of Trustcorp, which had consolidated assets of \$735.7 million at the time of the merger, Marshall & Ilsley acquired Missouri State Bank and Trust Company, which provided commercial banking services in Missouri through seven bank locations. In July 2006, Missouri State Bank and all of its branches were merged with and into Southwest Bank, Marshall & Ilsley's St. Louis-based banking affiliate.

On January 3, 2006, Marshall & Ilsley Trust Company National Association completed the acquisition of the trust and asset management assets of FirstTrust Indiana (FirstTrust), a division of First Indiana Bank, N.A. The acquired assets included those related to FirstTrust's provision of asset management, trust administration and estate planning services to high-net-worth individuals and institutional customers.

Marshall & Ilsley continues to evaluate opportunities to acquire banking institutions and other financial service providers and frequently conducts due diligence activities in connection with possible transactions. As a result, Marshall & Ilsley may engage in discussions, and in some cases, negotiations with prospective targets and may make future acquisitions for cash, equity or debt securities. The issuance of additional shares of Marshall & Ilsley common stock would dilute a shareholder's ownership interest in Marshall & Ilsley. In addition, Marshall & Ilsley's acquisitions may involve the payment of a premium over book value, and therefore, some dilution of book value may occur with any future acquisition. Generally, it is Marshall & Ilsley's policy not to comment on such discussions or possible acquisitions until a definitive agreement has been signed. Marshall & Ilsley's strategy for growth includes strengthening its presence in core markets, expanding into attractive markets and broadening its product offerings.

Table of Contents**Principal Sources of Revenue**

The table below shows the amount and percentages of Marshall & Ilsley's total consolidated revenues, excluding Metavante, resulting from interest and fees on loans and leases, fees for wealth management services and interest on investment securities for each of the last three years (\$000 s):

Years Ended December 31,	Interest and Fees on		Fees for		Interest on		Total Revenues
	Loans and Leases		Wealth Management		Investment Securities		
	Amount	Percent of Total Revenues	Amount	Percent of Total Revenues	Amount	Percent of Total Revenues	
2006	\$ 2,899,207	75.6%	\$ 221,554	5.8%	\$ 339,707	8.9%	\$ 3,835,920
2005	2,002,715	70.0	191,720	6.7	278,664	9.7	2,862,650
2004	1,455,626	64.9	175,119	7.8	258,933	11.5	2,244,265

Competition

Marshall & Ilsley and its subsidiaries face substantial competition from hundreds of competitors in the markets they serve, some of which are larger and have greater resources than Marshall & Ilsley. Marshall & Ilsley's bank subsidiaries compete for deposits and other sources of funds and for credit relationships with other banks, savings associations, credit unions, finance companies, mutual funds, life insurance companies (and other long-term lenders) and other financial and non-financial companies located both within and outside Marshall & Ilsley's primary market area, many of which offer products functionally equivalent to bank products. Marshall & Ilsley's nonbank operations compete with numerous banks, finance companies, data servicing companies, leasing companies, mortgage bankers, brokerage firms, financial advisors, trust companies, mutual funds and investment bankers in Wisconsin and throughout the United States.

Legal Proceedings

Marshall & Ilsley is currently involved in litigation of a routine nature and various legal matters which are being defended and handled in the ordinary course of business, none of which is currently believed by Marshall & Ilsley to be material.

Employees

As of June 30, 2007, Marshall & Ilsley and its subsidiaries employed in the aggregate 15,199 employees of which 5,640 were employed by Metavante. Marshall & Ilsley considers employee relations to be excellent. None of the employees of Marshall & Ilsley or its subsidiaries are represented by a collective bargaining group.

Supervision and Regulation

As a registered bank holding company, Marshall & Ilsley is subject to regulation and examination by the Federal Reserve Board under the BHCA. As of June 30, 2007, Marshall & Ilsley owned a total of six bank and trust subsidiaries, including two Wisconsin state banks, a Missouri state bank, a federal savings bank, and a national banking association. Marshall & Ilsley's two Wisconsin state bank subsidiaries are subject to regulation and examination by the Wisconsin Department of Financial Institutions, as well as by the Federal Reserve Board. Marshall & Ilsley's Missouri state bank subsidiary is subject to regulation and examination by the Missouri Department of Economic Development, Division of Finance, and the Federal Reserve Board. Marshall & Ilsley's federal savings bank subsidiary is subject to regulation and examination by the Office of Thrift Supervision. Marshall & Ilsley's national bank, through which trust operations are conducted, is subject to regulation and examination by the Office of the Comptroller of the Currency. In addition, all of Marshall & Ilsley's bank subsidiaries are subject to examination by the Federal Deposit Insurance Corporation (FDIC).

Table of Contents

Under Federal Reserve Board policy, Marshall & Ilsley is expected to act as a source of financial strength to each of its bank subsidiaries and to commit resources to support each bank subsidiary in circumstances when it might not do so absent such requirements. In addition, there are numerous federal and state laws and regulations which regulate the activities of Marshall & Ilsley and its bank subsidiaries, including requirements and limitations relating to capital and reserve requirements, permissible investments and lines of business, transactions with officers, directors and affiliates, loan limits, consumer protection laws, privacy of financial information, predatory lending, fair lending, mergers and acquisitions, issuances of securities, dividend payments, inter-affiliate liabilities, extensions of credit and branch banking. Information regarding capital requirements for bank holding companies and tables reflecting Marshall & Ilsley's regulatory capital position at December 31, 2006 can be found in Note 16 of the Notes to the Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/information statement prospectus.

The federal regulatory agencies have broad power to take prompt corrective action if a depository institution fails to maintain certain capital levels. In addition, a bank holding company's controlled insured depository institutions are liable for any loss incurred by the FDIC in connection with the default of, or any FDIC-assisted transaction involving, an affiliated insured bank or savings association. Current federal law provides that adequately capitalized and managed bank holding companies from any state may acquire banks and bank holding companies located in any other state, subject to certain conditions. Banks are permitted to create interstate branching networks in states that have not opted out of interstate branching. M&I Bank currently maintains interstate branches in Arizona, Florida, Kansas, Minnesota, Missouri and Oklahoma and Southwest Bank of St. Louis, Marshall & Ilsley's Missouri state bank subsidiary, maintains an interstate branch in Illinois.

The laws and regulations to which Marshall & Ilsley is subject are constantly under review by Congress, regulatory agencies and state legislatures. In 1999, Congress enacted the Gramm-Leach-Bliley Act (the Act), which eliminated certain barriers to and restrictions on affiliations between banks and securities firms, insurance companies and other financial services organizations. Among other things, the Act repealed certain Glass-Steagall Act restrictions on affiliations between banks and securities firms, and amended the BHCA to permit bank holding companies that qualify as financial holding companies to engage in a broad list of financial activities, and any non-financial activity that the Federal Reserve Board, in consultation with the Secretary of the Treasury, determines is complementary to a financial activity and poses no substantial risk to the safety and soundness of depository institutions or the financial system. The Act treats various lending, insurance underwriting, insurance company, portfolio investment, financial advisory, securities underwriting, dealing and market-making, and merchant banking activities as financial in nature for this purpose.

Under the Act, a bank holding company may become certified as a financial holding company by filing a notice with the Federal Reserve Board, together with a certification that the bank holding company meets certain criteria, including capital, management, and Community Reinvestment Act requirements. Marshall & Ilsley elected to become certified as a financial holding company on June 18, 2003.

In 2001, Congress enacted the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the USA PATRIOT Act). The USA PATRIOT Act is designed to deny terrorists and criminals the ability to obtain access to the United States financial system, and has significant implications for depository institutions, brokers, dealers and other businesses involved in the transfer of money. The USA PATRIOT Act mandates financial services companies to implement additional policies and procedures with respect to, or additional measures designed to address, any or all of the following matters, among others: money laundering, terrorist financing, identifying and reporting suspicious activities and currency transactions, and currency crimes.

The earnings and business of Marshall & Ilsley and its bank subsidiaries also are affected by the general economic and political conditions in the United States and abroad and by the monetary and fiscal policies of various federal agencies. The Federal Reserve Board impacts the competitive conditions under which Marshall &

Table of Contents

Ilsley operates by determining the cost of funds obtained from money market sources for lending and investing and by exerting influence on interest rates and credit conditions. In addition, legislative and economic factors can be expected to have an ongoing impact on the competitive environment within the financial services industry. The impact of fluctuating economic conditions and federal regulatory policies on the future profitability of Marshall & Ilsley and its subsidiaries cannot be predicted with certainty.

Properties

Marshall & Ilsley and M&I Bank occupy offices on all or portions of 15 floors of a 21-story building located at 770 North Water Street, Milwaukee, Wisconsin. M&I Bank owns the building and its adjacent 10-story parking lot and leases the remaining floors to a professional tenant. In addition, various subsidiaries of Marshall & Ilsley lease commercial office space in downtown Milwaukee office buildings near the 770 North Water Street facility. M&I Bank also owns or leases various branch offices throughout Wisconsin, as well as 120 branch offices among the Phoenix and Tucson, Arizona metropolitan areas, Kansas City and nearby communities, Florida's west coast and central Florida, Minneapolis/St. Paul and Duluth, Minnesota and Tulsa, Oklahoma. Southwest Bank of St. Louis owns or leases 17 offices in the St. Louis metropolitan area. M&I Bank of Mayville, a special limited purpose subsidiary of Marshall & Ilsley located in Mayville, Wisconsin, and M&I Bank FSB, a federal savings bank subsidiary of Marshall & Ilsley located in Las Vegas, Nevada with one office in Milwaukee, Wisconsin, occupy modern facilities which are leased.

Table of Contents

SELECTED HISTORICAL CONSOLIDATED FINANCIAL INFORMATION OF

MARSHALL & ILSLEY (ACCOUNTING PREDECESSOR TO NEW MARSHALL & ILSLEY)

The following table sets forth selected historical consolidated financial information for Marshall & Ilsley. Notwithstanding the legal form of the transactions, New Marshall & Ilsley will be considered the divesting entity and treated as the accounting successor to Marshall & Ilsley for financial reporting purposes in accordance with EITF Issue No. 02-11, Accounting for Reverse Spinoffs. As such, the historical consolidated financial information presented below for Marshall & Ilsley (accounting predecessor to New Marshall & Ilsley) reflects historical consolidated financial information that previously has been filed with the SEC by Marshall & Ilsley. After the transactions occur, New Marshall & Ilsley will report the historical consolidated results of operations (subject to certain adjustments) of New Metavante in discontinued operations in accordance with the provisions of Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. Pursuant to SFAS No. 144, this presentation is not permitted until the closing date.

The selected historical consolidated financial information of Marshall & Ilsley is qualified by reference to, and should be read in conjunction with, Management's Discussion and Analysis of Financial Condition and Results of Operations of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) beginning on page 161, and the consolidated financial statements and notes of Marshall & Ilsley as of December 31, 2006 and 2005 and June 30, 2007 and 2006 and for each of the three years in the period ended December 31, 2006 and for the six-month periods ended June 30, 2007 and 2006. The results of operations information for the years ended December 31, 2006, 2005 and 2004 and the financial condition information as of December 31, 2006 and 2005 is derived from the audited consolidated financial statements of Marshall & Ilsley included elsewhere in this proxy statement/prospectus information statement. The results of operations information for the years ended December 31, 2003 and 2002 and the financial condition information as of December 31, 2004, 2003 and 2002 are derived from the audited consolidated financial statements of Marshall & Ilsley not included in this proxy statement/prospectus information statement. The results of operations information for the six-month periods ended June 30, 2007 and 2006 and the financial condition information as of June 30, 2007 and 2006 are derived from the unaudited consolidated financial statements of Marshall & Ilsley included elsewhere in this proxy statement/prospectus information statement. The unaudited consolidated financial statements of Marshall & Ilsley include, in Marshall & Ilsley's management's opinion, all adjustments, consisting only of normal recurring adjustments, necessary to fairly state the consolidated results of operations and the consolidated financial position of Marshall & Ilsley for the dates set forth in the table below. The historical consolidated financial information of Marshall & Ilsley would have been different had New Marshall & Ilsley been operated independently. The historical consolidated financial information of Marshall & Ilsley may not be a reliable indicator of future results of operations of New Marshall & Ilsley. You should read the following information in conjunction with the unaudited condensed pro forma consolidated financial statements of New Marshall & Ilsley beginning on page 225. The amounts in the table below are in thousands.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND
RESULTS OF OPERATIONS OF MARSHALL & ILSLEY (ACCOUNTING PREDECESSOR
TO NEW MARSHALL & ILSLEY)**

As noted under "The Transactions Accounting Treatment" on page 89, notwithstanding the legal form of the transactions, New Marshall & Ilsley will be considered the divesting entity and treated as the accounting successor to Marshall & Ilsley and Metavante will be considered the accounting spinnee for financial reporting purposes in accordance with EITF Issue No. 02-11, "Accounting for Reverse Spinoffs." After the transactions occur, New Marshall & Ilsley will report the historical consolidated results of operations (subject to certain adjustments) of New Metavante in discontinued operations in accordance with the provisions of Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." Pursuant to SFAS No. 144, this presentation is not permitted until the closing date. The following Management's Discussion and Analysis of Financial Condition and Results of Operations of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) appeared in Marshall & Ilsley's Annual Report on Form 10-K for the fiscal year ended December 31, 2006 and its Quarterly Report on Form 10-Q for the fiscal quarter and the six months ended June 30, 2007 and it therefore discusses Marshall & Ilsley's historical financial condition and results of operations, including Metavante's business, rather than just Marshall & Ilsley's banking business. It also contains certain statements regarding events that have already occurred but at the time the reports were filed had not yet occurred.

This section should be read in conjunction with the audited consolidated financial statements and the unaudited interim financial statements of Marshall & Ilsley and the related notes included elsewhere in this proxy statement/prospectus information statement. This Management's Discussion and Analysis of Financial Condition and Results of Operations of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) contains forward-looking statements. See "Risk Factors" beginning on page 32 and "Special Note Regarding Forward-Looking Statements" beginning on page 55 for a discussion of the uncertainties, risks and assumptions associated with these forward-looking statements that could cause results to differ materially from those reflected in such forward-looking statements.

Overview**Three and Six Months Ended June 30, 2007 and 2006**

Marshall & Ilsley's overall strategy is to drive earnings per share growth by: (1) expanding banking operations not only in Wisconsin but also into faster growing regions beyond Wisconsin; (2) increasing the number of financial institutions to which Marshall & Ilsley provides correspondent banking services and products; (3) expanding trust services and other wealth management product and service offerings; and (4) separating Marshall & Ilsley and Metavante into two separate publicly traded companies, as discussed below.

In early April 2007, Marshall & Ilsley announced its plan to separate Marshall & Ilsley and Metavante into two separate publicly traded companies. Marshall & Ilsley believes this transaction will create two well-positioned companies and will provide substantial benefits to the shareholders of both companies by creating additional opportunities to focus on core businesses. Metavante expects to be able to drive earnings per share growth by having access to financial resources to continue to build new products, invest in new technologies, attract and retain employees and acquire additional companies. Marshall & Ilsley's enhanced capital position is expected to drive earnings per share growth by enabling it to provide resources for continued organic growth, fund strategic initiatives within wealth management and its other business lines and pursue opportunities in new geographic markets. This transaction, which is contingent upon satisfaction of various closing conditions, is expected to close in the fourth quarter of 2007. The closing conditions include approval of and adoption by Marshall & Ilsley shareholders, who will be asked to vote on the proposed transactions at a special meeting that will be held on a date to be announced, receipt of a favorable ruling from the Internal Revenue Service, sufficiency of New Metavante's funds, other regulatory approvals and other specified closing conditions.

Table of Contents

Marshall & Ilsley continues to focus on its key metrics of growing revenues through balance sheet growth, fee-based income growth and strong credit quality. Management believes that Marshall & Ilsley's fundamental performance in each of these key areas of its core businesses will result in a strong growth profile over time.

Net income for the second quarter of 2007 amounted to \$220.3 million compared to \$190.5 million for the same period in the prior year, an increase of \$29.8 million, or 15.6%. Diluted earnings per share were \$0.83 for the three months ended June 30, 2007 compared to \$0.74 for the three months ended June 30, 2006. The return on average assets and average equity was 1.53% and 13.54%, respectively, for the quarter ended June 30, 2007, and 1.43% and 13.49%, respectively, for the quarter ended June 30, 2006.

Net income for the first half of 2007 amounted to \$437.1 million compared to \$363.6 million for the same period in the prior year, an increase of \$73.5 million, or 20.2%. Diluted earnings per share were \$1.66 for the six months ended June 30, 2007 compared to \$1.46 for the six months ended June 30, 2006. The return on average assets and average equity was 1.54% and 13.79%, respectively, for the six months ended June 30, 2007, and 1.46% and 13.99%, respectively, for the six months ended June 30, 2006.

For the three and six months ended June 30, 2007, costs associated with the transactions amounted to \$2.6 million and \$4.0 million, respectively, and are included in a separate line within other expense in the Consolidated Statements of Income. Net income and diluted earnings per share excluding the transactions costs would have been \$222.6 million and \$0.84 per share for the three months ended June 30, 2007, respectively and \$440.7 million and \$1.68 per share for the six months ended June 30, 2007, respectively and the return on average assets and return on average equity would have been 1.55% and 13.69% for the three months ended June 30, 2007, respectively and 1.56% and 13.90% for the six months ended June 30, 2007, respectively. Marshall & Ilsley expects that transaction related costs will significantly increase in future quarters until the transactions are completed.

For the three months ended June 30, 2006, the impact of the mark-to-market adjustments associated with certain interest rate swaps and reported as net derivative losses-discontinued hedges within other income in the Consolidated Statements of Income, resulted in a decrease to net income of \$13.2 million and a decrease to diluted earnings per share of \$0.05 per share. Management believes the non-cash changes in earnings based on market volatility are not reflective of the core performance trends of Marshall & Ilsley. Excluding the non-cash changes in earnings based on market volatility, for the three months ended June 30, 2006, net income and diluted earnings per share would have been \$203.7 million and \$0.79 per share respectively, and the return on average assets and return on average equity would have been 1.52% and 14.36%, respectively.

For the six months ended June 30, 2006, the impact of the mark-to-market adjustments reported as net derivative losses-discontinued hedges within other income in the Consolidated Statements of Income, resulted in a decrease to net income of \$26.9 million and a decrease to diluted earnings per share of \$0.11 per share. Management believes the non-cash changes in earnings based on market volatility are not reflective of the core performance trends of Marshall & Ilsley. Excluding the non-cash changes in earnings based on market volatility, for the six months ended June 30, 2006, net income and diluted earnings per share would have been \$390.5 million and \$1.57 per share respectively, and the return on average assets and return on average equity would have been 1.57% and 14.96%, respectively.

A reconciliation of these non-GAAP operating results to GAAP results is provided later in this section. Earnings growth for the three and six months ended June 30, 2007 compared to the three and six months ended June 30, 2006 was attributable to a number of factors. For the three months ended June 30, 2007, the increase in net interest income was due to the contribution from the banking acquisition that was completed on April 1, 2007 and the two banking acquisitions completed in April 2006 as well as continued organic loan and bank issued deposit growth.

Net interest income was negatively affected by the repurchase of 6.1 million shares of Marshall & Ilsley's common stock during the second quarter of 2007. The increase in net charge-offs contributed to an increase in

Table of Contents

the provision for loan and lease losses in the second quarter of 2007. Metavante continued to exhibit growth in both revenue and earnings which was attributable, in part, to the impact of its acquisition activities as well as success in retaining and cross-selling products and services to its core customer base. Metavante's acquisition activities included one acquisition completed in the first quarter of 2007 and one acquisition completed in the third quarter of 2006. Continued organic growth in assets under management and assets under administration, an acquisition completed in April 2007, and improved investment performance resulted in solid growth in fee income for wealth management.

During the second quarter of 2007, Marshall & Ilsley sold its investment in MasterCard Class B common stock and realized a pre-tax gain of \$19.0 million. These factors along with continued organic expense management resulted in the reported earnings growth in the three and six months ended June 30, 2007 compared to the three and six months ended June 30, 2006.

The transactions to separate Marshall & Ilsley and Metavante into two separate publicly traded companies will significantly affect the financial condition, results of operations and cash flows for both Marshall & Ilsley and Metavante.

Years Ended December 31, 2006, 2005 and 2004

Marshall & Ilsley's overall strategy is to drive earnings per share growth by: (1) expanding banking operations not only in Wisconsin but also into faster growing regions beyond Wisconsin; (2) increasing the number of financial institutions to which Marshall & Ilsley provides correspondent banking services and products; (3) growing Metavante's business through organic growth, cross-sales of technology products and acquisitions; and (4) expanding trust services and other wealth management product and service offerings.

Marshall & Ilsley continues to focus on its key metrics of growing revenues through balance sheet growth, fee-based income growth and strong credit quality. Management believes that Marshall & Ilsley has demonstrated solid fundamental performance in each of these key areas and as a result, the year ended December 31, 2006 produced strong financial results across all of its segments and reporting units.

Net income in 2006 amounted to \$807.8 million or \$3.17 per diluted share. The return on average assets and return on average equity were 1.53% and 14.42%, respectively. By comparison, net income in 2005 was \$706.2 million, diluted earnings per share was \$2.99, the return on average assets was 1.63% and the return on average equity was 16.21%. For the year ended December 31, 2004, net income was \$605.9 million or \$2.66 per diluted share and the returns on average assets and average equity were 1.63% and 17.00%, respectively.

Net income for the year ended December 31, 2006 included the impact of the mark-to-market adjustments associated with certain interest rate swaps. Based on expanded interpretations of the accounting standard for derivatives and hedge accounting, specifically hedge designation under the matched-terms method, it was determined that certain transactions did not qualify for hedge accounting. As a result, any fluctuation in the fair value of the interest rate swaps was recorded in earnings with no corresponding offset to the hedged items or accumulated other comprehensive income. The affected interest rate swaps were designed to hedge the change in fair values of Marshall & Ilsley or cash flows of the underlying assets or liabilities and had performed effectively as economic hedges. Applying fair value accounting (versus hedge accounting) resulted in greater earnings volatility, particularly on a linked-quarter basis. The affected interest rate swaps were terminated in 2006 in order to avoid future earnings volatility due to mark-to-market accounting. The impact, which is reported as net derivative losses-discontinued hedges in the consolidated statements of income of Marshall & Ilsley, resulted in a decrease to net income of \$12.0 million or \$0.05 per diluted share. Management believes these changes in earnings based on market volatility are not reflective of the core performance trends of Marshall & Ilsley.

Excluding the changes in earnings based on market volatility, for the year ended December 31, 2006 net income and diluted earnings per share would have been \$819.8 million and \$3.22 per share respectively, and the

Table of Contents

return on average assets and return on average equity would have been 1.56% and 14.58%, respectively. The resulting growth in income and diluted earnings per share in 2006 compared to 2005 would have been \$113.6 million or 16.1% and \$0.23 per share or 7.7%, respectively.

A reconciliation of these 2006 non-GAAP operating results to GAAP results is provided later in this section.

Earnings growth in 2006 compared to 2005 was attributable to a number of factors. The increase in net interest income was due to strong organic loan and bank issued deposit growth and the contribution from the two banking acquisitions that were completed on April 1, 2006. Net charge-offs continued to be below Marshall & Ilsley's five-year historical average in 2006. Metavante continued to exhibit growth in both revenue and earnings that was attributable, in part, to new sales, the impact of its acquisition activities and success in retaining and cross-selling products and services to its core customer base. Continued growth in assets under management and assets under administration resulted in solid growth in fee income for wealth management. Although an unpredictable source of earnings, Marshall & Ilsley's Capital Markets Group investment securities gains were relatively insignificant in 2006 compared to the past two years. These factors, along with continued expense management, all contributed to the consolidated earnings growth in 2006.

With regard to the outlook in 2007 for the Banking segment, management expects modest net interest margin compression of up to a few basis points per quarter to continue. Commercial and industrial loan growth is expected to moderate slightly, and is expected to show low double-digit growth rates. Commercial real estate growth is expected to be in the mid single digit percentage range. Nonperforming loans and leases as a percent of total loans and leases are expected to be in the range of 65 basis points to 75 basis points. Management expects Metavante's total revenue in 2007 to be in the range of \$1.60 billion to \$1.64 billion with margins similar to those achieved in 2006.

Management continues to expect that net charge-offs will trend to historical levels and range from 15 basis points to 20 basis points of average loans and leases over time.

Marshall & Ilsley's actual results for 2007 could differ materially from those expected by management. See Special Note Regarding Forward-Looking Statements beginning on page 55 for a discussion of the various risk factors that could cause actual results to differ materially from expected results.

The results of operations and financial condition for the periods presented include the effects of the acquisitions by Metavante as well as the banking-related and wealth management-related acquisitions from the dates of consummation of the acquisitions. All transactions were accounted for using the purchase method of accounting. See Note 5 in Notes to Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement for a discussion of Marshall & Ilsley's acquisitions completed in 2006, 2005 and 2004.

Recently Completed Acquisitions

Three and Six Months Ended June 30, 2007 and 2006

The following acquisitions were recently announced or completed:

On July 9, 2007, Marshall & Ilsley announced the signing of a definitive agreement to acquire First Indiana. First Indiana, based in Indianapolis, Indiana had \$2.2 billion in consolidated assets as of June 30, 2007, and has 32 offices in central Indiana. Under the terms of the definitive agreement, stockholders of First Indiana will receive \$32.00 in cash for each share of First Indiana common stock outstanding, or approximately \$529.0 million in the aggregate. The transaction is expected to close in the fourth quarter of 2007 or in the first quarter of 2008, subject to the affirmative vote of First Indiana's stockholders, regulatory approvals and other customary closing conditions.

Table of Contents

On July 1, 2007, Marshall & Ilsley completed its acquisition of Excel. Pursuant to an amended and restated merger agreement, shareholders of Excel received \$13.97 per share in cash for each issued and outstanding share of Excel common stock, or approximately \$105.0 million in the aggregate. Outstanding options to acquire Excel common stock were converted into options to acquire Marshall & Ilsley's common stock. Excel, with \$616.0 million in consolidated assets as of June 30, 2007, has four branches in the greater Minneapolis/St. Paul, Minnesota metropolitan area. The current Excel branches became branches of M&I Bank on August 1, 2007.

On April 20, 2007, Marshall & Ilsley completed its acquisition of North Star of Chicago, Illinois. Total consideration in this transaction amounted to \$21.0 million, consisting of 441,252 shares of Marshall & Ilsley's common stock valued at \$47.55 per common share. North Star and its subsidiaries provide a variety of wealth management services through personal and other trusts. In addition, North Star offers a variety of other products and services including land trusts, 1031 exchanges for both real and personal property, and ESOP services, including consultative services relating to the transfer of small-business stock ownership. North Star's businesses were integrated with Marshall & Ilsley's wealth management unit.

On April 1, 2007, Marshall & Ilsley completed its acquisition of United Heritage. United Heritage Bank, a wholly-owned subsidiary of United Heritage, with \$791.3 million in assets as of March 31, 2007, has 13 branches in the metropolitan Orlando area. Total consideration in this transaction amounted to approximately \$219.6 million, consisting of 4,410,647 shares of Marshall & Ilsley's common stock valued at \$204.3 million and the exchange of vested stock options valued at approximately \$15.3 million. The current United Heritage Bank branches became M&I Bank branches on June 1, 2007.

On January 17, 2007, Metavante acquired all of the outstanding stock of Valutec Card Solutions, Inc. (Valutec) for \$41.0 million in cash. Valutec provides closed-loop, in-store gift and loyalty card solutions for small and medium sized businesses, including hosted account management, reporting capabilities, plastic card design and production and card program merchandising products.

See Note 7 Business Combinations in Notes to Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement for further discussion of Marshall & Ilsley's acquisition activities.

Years Ended December 31, 2006, 2005 and 2004

The following acquisitions, which are not considered to be material business combinations, have been announced:

In February 2007, Marshall & Ilsley announced the signing of a definitive agreement to acquire Minneapolis, Minnesota-based Excel. Excel, with \$615 million in consolidated assets as of December 31, 2006, has four branches in the greater Minneapolis/St. Paul metropolitan area. Under the terms of the definitive agreement, Excel shareholders will receive \$9.08 in cash and a fraction of a share of Marshall & Ilsley's common stock having a value of \$4.89 for each share of Excel common stock or a total of \$13.97 for each share of Excel common stock. The transaction value is estimated to be approximately \$105 million. This transaction is expected to be completed in the third quarter of 2007, subject to the affirmative vote of the holders of a majority of Excel's outstanding shares, regulatory approvals and other customary closing conditions.

In January 2007, Metavante announced the acquisition of Valutec. Valutec is a provider of closed-loop, in-store gift and loyalty card solutions to small and medium-sized businesses. This acquisition expands Metavante's ability to offer a wider selection of prepaid gift card options to its merchant customer base and will enable Metavante's current financial institution customers to offer merchant-branded cards and services to their merchant customers. This acquisition was completed on January 17, 2007. Total cash consideration amounted to \$41.0 million.

Table of Contents

In January 2007, Marshall & Ilsley announced the signing of a definitive agreement to acquire North Star. North Star and its subsidiaries, with \$1.6 billion in assets under administration, provide a variety of wealth management services through personal and other trusts. In addition, North Star offers a variety of other products and services including land trusts, 1031 exchanges for both real and personal property and ESOP services, including consultative services relating to the transfer of small-business stock ownership. Under the terms of the definitive agreement, Marshall & Ilsley agreed to pay \$21.0 million in Marshall & Ilsley's common stock for the outstanding common shares of North Star. This transaction was completed on April 20, 2007.

In December 2006, Marshall & Ilsley announced the signing of a definitive agreement to acquire United Heritage headquartered in Orlando, Florida. United Heritage, with \$751 million in assets as of December 31, 2006, has 13 branches in the metropolitan Orlando area. The current United Heritage Bank branches became Marshall & Ilsley Bank branches on June 1, 2007. Total consideration in this transaction amounted to approximately \$219.6 million. This transaction was completed on April 1, 2007.

Significant Transactions

Three and Six Months Ended June 30, 2007 and 2006

Some of the more noteworthy transactions and events that occurred in the three and six months ended June 30, 2007 and 2006 consisted of the following:

Second Quarter 2007

As previously discussed, on April 1, 2007, Marshall & Ilsley completed its acquisition of United Heritage and on April 20, 2007, Marshall & Ilsley completed its acquisition of North Star.

During the second quarter of 2007, Marshall & Ilsley completed two accelerated share repurchase transactions under its authorized stock repurchase program. In the aggregate, Marshall & Ilsley acquired 6.1 million shares of its common stock in these transactions. Total consideration in these transactions amounted to \$297.3 million and consisted of cash of \$294.7 million and common treasury stock valued at \$2.6 million. In conjunction with the first accelerated share repurchase transaction executed during the second quarter of 2007, Marshall & Ilsley used 54,035 shares of its treasury common stock to share-settle the final settlement obligation.

During the second quarter of 2007, Marshall & Ilsley sold its investment in MasterCard Class B common shares and realized a pre-tax gain of \$19.0 million. That gain is reported in net investment securities gains in the Consolidated Statements of Income. Marshall & Ilsley sold its investment in order to monetize the significant appreciation in the market price of the common stock of MasterCard since its initial public offering.

During the second quarter and first half of 2007, Marshall & Ilsley realized a pre-tax loss of \$1.0 million and a pre-tax gain of \$7.0 million, respectively, related to Metavante's investment in Firstsource. See Note 3 Equity Investment in Firstsource Solutions Limited in Notes to Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement for further information. Marshall & Ilsley expects that additional gains and/or losses from Firstsource equity activities could be recognized in future periods.

Table of Contents

As previously discussed, costs associated with the transactions to separate Marshall & Ilsley and Metavante into two separate publicly traded companies amounted to a pre-tax expense of \$2.6 million (\$2.3 million after-tax) for the three months ended June 30, 2007 and \$4.0 million (\$3.6 million after-tax) for the six months ended June 30, 2007.

First Quarter 2007

Costs associated with the transactions to separate Marshall & Ilsley and Metavante into two separate publicly traded companies amounted to a pre-tax expense of \$1.5 million (\$1.3 million after-tax) for the three months ended March 31, 2007.

During the first quarter of 2007, Marshall & Ilsley realized \$8.0 million in pre-tax gains related to Metavante's investment in Firstsource.

The impact of the previously discussed gains were in part offset by the loss associated with the call of Marshall & Ilsley's 7.65% junior subordinated deferrable interest debentures and the related M&I Capital Trust A 7.65% trust preferred securities. The loss amounted to \$9.5 million and is included in other expense in the Consolidated Statements of Income.

Second Quarter 2006

The results of operations and financial position as of and for the three months ended June 30, 2006 included the effect of the previously announced acquisitions of Gold Banc and Trustcorp which were both completed on April 1, 2006. As of April 1, 2006, the combined assets of Gold Banc and Trustcorp amounted to approximately \$4.9 billion. The combined purchase price for these companies, which included approximately \$146.0 million of cash, amounted to \$898.2 million. In the aggregate, 16.74 million shares of Marshall & Ilsley's common stock were issued and fully vested stock options to purchase 0.5 million of Marshall & Ilsley's common stock were exchanged in these transactions.

As previously discussed, Marshall & Ilsley determined during 2006 that certain transactions did not qualify for hedge accounting. The impact of the mark-to-market adjustments associated with certain interest rate swaps and reported as net derivative losses-discontinued hedges in the Consolidated Statements of Income, resulted in a decrease to net income of \$13.2 million and a decrease to diluted earnings per share of \$0.05 for the three months ended June 30, 2006. For the six months ended June 30, 2006, net derivative losses-discontinued hedges resulted in a decrease to net income of \$26.9 million and a decrease of \$0.11 to diluted earnings per share.

First Quarter 2006

The impact of the mark-to-market adjustments associated with certain interest rate swaps and reported as net derivative losses-discontinued hedges in the Consolidated Statements of Income, resulted in a decrease to net income of \$13.7 million and a decrease to diluted earnings per share of \$0.06 per share for the three months ended March 31, 2006.

Years Ended December 31, 2006, 2005 and 2004

Some of the more significant transactions in 2006, 2005 and 2004 consisted of the following:

During 2006, Metavante completed two acquisitions. Also during 2006, Marshall & Ilsley completed two banking acquisitions and one wealth management acquisition.

On January 1, 2006, Marshall & Ilsley adopted Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment* (SFAS 123(R)), which requires that all share-based compensation be

Table of Contents

expensed. For Marshall & Ilsley, additional expense was reported for its stock option awards and its employee stock purchase plan. In conjunction with the adoption of SFAS 123(R), Marshall & Ilsley elected the Modified Retrospective Application method to implement the new accounting standard. Under that method all prior period consolidated and segment financial information was adjusted based on pro forma amounts previously disclosed.

On January 1, 2006, the Banking segment transferred its external item processing business, including all check-processing client relationships to Metavante. During 2006, Marshall & Ilsley transferred the residential and commercial mortgage banking reporting units to the Banking segment. The segment information contained in Note 24 in Notes to Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement was adjusted for these transfers.

During 2005, Metavante completed six acquisitions.

During the second and third quarters of 2005, Marshall & Ilsley realized a gain primarily due to the sale of an entity associated with its investment in an independent private equity and venture capital partnership. The gross pre-tax gain amounted to \$29.4 million and is reported in net investment securities gains in the Consolidated Statements of Income of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement. On an after-tax basis, and net of related compensation expense, the gain amounted to \$16.5 million or \$0.07 per diluted share for the twelve months ended December 31, 2005.

During the third quarter of 2005, Marshall & Ilsley realized a gain due to an equity investment that Marshall & Ilsley liquidated in a cash tender offer. The pre-tax gain amounted to \$6.6 million and is reported in net investment securities gains in the Consolidated Statements of Income of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement. On an after-tax basis, the gain amounted to \$3.9 million or \$0.02 per diluted share for the twelve months ended December 31, 2005.

During 2004, Metavante completed six acquisitions and the Banking segment completed one acquisition.

During 2004, net pre-tax gains associated with Marshall & Ilsley's Capital Markets Group investments amounted to \$34.6 million. Approximately \$34.1 million of the net gain in 2004 was from a net unrealized gain recognized in the fourth quarter of 2004 due to the net increase in market value of an investment in an independent private equity and venture capital partnership.

The net unrealized gain recognized in the fourth quarter of 2004 was offset by charitable foundation expense which was higher than historical levels and other accrual adjustments that amounted to approximately \$6.8 million.

During 2004, Metavante sold its small business 401k Retirement Plan Services operations. In conjunction with an expanded processing relationship, Metavante also sold the direct customer base of Paytrust.com in 2004. These transactions resulted in an aggregate pre-tax loss of approximately \$7.1 million.

During 2004, Marshall & Ilsley issued 3.6 million shares of its common stock in a public offering that resulted in net proceeds to Marshall & Ilsley of approximately \$149.9 million. Also during 2004, Marshall & Ilsley issued \$400 million of equity units (referred to as Common SPACESSM) that resulted in net proceeds to Marshall & Ilsley of approximately \$389.2 million. Each Common SPACES consists of (i) a stock purchase contract under which the investor agrees to purchase for \$25.00, a fraction of a share of Marshall & Ilsley's common stock on the stock purchase date and (ii) a 1/40, or 2.5%, undivided beneficial interest in a preferred

Table of Contents

security of M&I Capital Trust B (also referred to as the STACKSSM) with each share having an initial liquidation value of \$1,000. The stock purchase date was August 15, 2007. On the stock purchase date, approximately 9.2 million common shares were issued to settle shares issuable pursuant to the stock purchase contracts. The proceeds from these issuances together with proceeds from the issuance of \$600.0 million of senior notes were used for general corporate purposes, including maintaining capital at desired levels and providing long-term financing for the acquisitions completed by Metavante in 2004.

During 2004, Marshall & Ilsley's Banking segment prepaid and retired certain higher cost long-term debt and terminated some related receive floating/pay fixed interest rate swaps designated as cash flow hedges. The total debt retired amounted to \$355.0 million and the charge to earnings amounted to a loss of \$6.9 million.

Net Interest Income*Three and Six Months Ended June 30, 2007 and 2006*

Net interest income is the difference between interest earned on earning assets and interest owed on interest bearing liabilities. Net interest income represented 42.4% of Marshall & Ilsley's source of revenues for the three months ended June 30, 2007 compared to 45.0% for the three months ended June 30, 2006. For the six months ended June 30, 2007 net interest income represented 43.0% of Marshall & Ilsley's source of revenues compared to 43.5% for the six months ended June 30, 2006.

Net interest income for the second quarter of 2007 amounted to \$395.9 million compared to \$376.8 million reported for the second quarter of 2006, an increase of \$19.1 million or 5.1%. For the six months ended June 30, 2007, net interest income amounted to \$786.2 million compared to \$701.9 million reported for the six months ended June 30, 2006, an increase of \$84.3 million or 12.0%. Acquisition-related and organic loan growth and the growth in bank issued deposits were the primary contributors to the increase in net interest income. Factors negatively affecting net interest income compared to the prior year included the impact of the financing costs associated with the 2006 banking acquisitions and Metavante's acquisitions, the cost of common stock repurchases, tightening loan spreads and a general shift in the bank issued deposit mix from lower cost to higher cost deposit products.

Average earning assets increased \$3.6 billion or 7.6% in the second quarter of 2007 compared to the second quarter of 2006. Average loans and leases accounted for \$3.2 billion of the growth in average earning assets in the second quarter of 2007 compared to the second quarter of 2006. Average investment securities increased \$0.4 billion in the second quarter of 2007 over the prior year second quarter.

Average interest bearing liabilities amounted to \$43.9 billion in the second quarter of 2007 compared to \$40.8 billion in the second quarter of 2006, an increase of \$3.1 billion or 7.6%. Average interest bearing deposits increased \$0.3 billion or 1.3% in the second quarter of 2007 compared to the second quarter of 2006. Average total borrowings increased \$2.8 billion or 20.6% in the second quarter of 2007 compared to the same period in 2006.

Average noninterest bearing deposits were relatively unchanged in the three months ended June 30, 2007 compared to the three months ended June 30, 2006.

For the six months ended June 30, 2007, average earning assets amounted to \$50.4 billion compared to \$44.3 billion in the six months ended June 30, 2006, an increase of \$6.1 billion or 13.7%. Average loans and leases accounted for \$5.3 billion of the growth in average earning assets in the six months ended June 30, 2007 compared to the six months ended June 30, 2006. Average investment securities increased approximately \$0.8 billion over the comparative six month periods.

Table of Contents

Average interest bearing liabilities increased \$5.4 billion or 14.3% in the six months ended June 30, 2007 compared to the six months ended June 30, 2006. Average interest bearing deposits increased \$2.5 billion or 10.1% in the six months ended June 30, 2007 compared to the six months ended June 30, 2006. Average total borrowings increased \$2.9 billion or 22.4% over the comparative six month periods.

For the six months ended June 30, 2007 compared to the six months ended June 30, 2006, average noninterest bearing deposits increased \$0.2 billion or 3.9%.

The growth and composition of Marshall & Ilsley's quarterly average loan and lease portfolio for the current quarter and previous four quarters are reflected in the following table (\$ in millions):

Consolidated Average Loans and Leases

	2007			2006		Growth Pct.	
	Second Quarter	First Quarter	Fourth Quarter	Third Quarter	Second Quarter	Annual	Prior Quarter
Commercial loans and leases							
Commercial	\$ 12,494	\$ 12,164	\$ 11,800	\$ 11,559	\$ 11,441	9.2%	2.7%
Commercial real estate							
Commercial mortgages	11,175	10,936	10,932	10,838	10,746	4.0	2.2
Construction	3,607	3,480	3,346	3,227	2,834	27.3	3.6
Total commercial real estate	14,782	14,416	14,278	14,065	13,580	8.8	2.5
Commercial lease financing	507	513	538	529	504	0.7	(1.1)
Total commercial loans and leases	27,783	27,093	26,616	26,153	25,525	8.8	2.5
Personal loans and leases							
Residential real estate							
Residential mortgages	6,562	6,382	6,195	5,924	5,621	16.7	2.8
Construction	2,827	2,780	2,649	2,471	2,365	19.6	1.7
Total residential real estate	9,389	9,162	8,844	8,395	7,986	17.6	2.5
Personal loans							
Student	70	113	78	47	51	36.9	(37.7)
Credit card	249	245	250	246	237	4.8	1.4
Home equity loans and lines	4,223	4,295	4,387	4,474	4,596	(8.1)	(1.7)
Other	1,019	1,031	1,101	1,143	1,167	(12.6)	(1.1)
Total personal loans	5,561	5,684	5,816	5,910	6,051	(8.1)	(2.2)
Personal lease financing	176	168	162	150	136	29.3	4.9
Total personal loans and leases	15,126	15,014	14,822	14,455	14,173	6.7	0.8
Total consolidated average loans and leases	\$ 42,909	\$ 42,107	\$ 41,438	\$ 40,608	\$ 39,698	8.1%	1.9%

Total consolidated average loans and leases increased \$3.2 billion or 8.1% in the second quarter of 2007 compared to the second quarter of 2006. Excluding the effect of the banking acquisitions, total consolidated average loan and lease organic growth was 6.9% in the second quarter of 2007 compared to the second quarter of 2006. Approximately \$0.4 billion of the growth in total consolidated average loans and leases was attributable to the banking acquisitions and \$2.8 billion of the growth was organic. Of the average growth attributable to the banking acquisitions, \$0.4 billion was attributable to average commercial real estate loans. Of the \$2.8 billion of average loan and lease organic growth, \$1.0 billion was attributable to average commercial loans and leases, \$0.8 billion was attributable to average commercial real estate loans, and \$1.4 billion was attributable to

Table of Contents

residential real estate loans. From a production standpoint, residential real estate loan closings in the second quarter of 2007 were \$1.3 billion compared to \$1.4 billion in the second quarter of 2006. Average home equity loans and lines declined \$0.4 billion in the second quarter of 2007 compared to the second quarter of 2006.

For the six months ended June 30, 2007, total consolidated average loans and leases increased \$5.3 billion or 14.3% compared to the six months ended June 30, 2006. Excluding the effect of the 2007 and 2006 banking acquisitions, total consolidated average loan and lease organic growth was 8.0% for the six months ended June 30, 2007 compared to the six months ended June 30, 2006. Approximately \$2.2 billion of the growth in total consolidated average loans and leases was attributable to the banking acquisitions and \$3.1 billion of the growth was organic. Of the \$2.2 billion of average growth attributable to the banking acquisitions, \$1.6 billion was attributable to average commercial real estate loans, approximately \$0.5 billion was attributable to average commercial loans and leases and \$0.1 billion was attributable to average residential real estate loans. Of the \$3.1 billion of average loan and lease organic growth, \$1.2 billion was attributable to average commercial loans and leases, \$0.9 billion was attributable to average commercial real estate loans, and \$1.5 billion was attributable to residential real estate loans. From a production standpoint, residential real estate loan closings in the first half of 2007 and the first half of 2006 were \$2.3 billion and \$2.6 billion, respectively. Average home equity loans and lines declined \$0.4 billion in the six months ended June 30, 2007 compared to the six months ended June 30, 2006. Average personal loans and leases decreased \$0.1 billion in the first half of 2007 compared to the same period in 2006.

Total average commercial loan and lease organic growth was 8.2% in the second quarter of 2007 compared to the second quarter of 2006. For the six months ended June 30, 2007 compared to the six months ended June 30, 2006 total average commercial loan and lease organic growth was 10.7%. Commercial loan and lease organic growth continued to be positive in the first half of 2007 although Marshall & Ilsley has seen some slowing in certain businesses. Management believes that year over year organic commercial loan growth (as a percentage) will continue its slight moderation and expects organic commercial loan growth will be in the mid-to-high single digit percentage range in 2007. Total average commercial real estate loan organic growth was 6.0% in the second quarter of 2007 compared to the second quarter of 2006. For the six months ended June 30, 2007 compared to the six months ended June 30, 2006 total average commercial real estate loan organic growth was 6.9%. Marshall & Ilsley continues to experience some slowing in the construction market for both commercial and residential developers, and to some extent throughout the commercial real estate business. Marshall & Ilsley expects organic commercial real estate loan growth in 2007 will be in the mid single digit percentage range.

Home equity loans and lines, which includes Marshall & Ilsley's wholesale activity, continue to be one of Marshall & Ilsley's primary consumer loan products. Average home equity loans and lines declined in the second quarter and first half of 2007 compared to the second quarter and first half of 2006. This is consistent with what is occurring in many parts of the country. It is expected that the softer home equity market, combined with Marshall & Ilsley's continued sales of certain loans at origination will continue to impact balance sheet organic loan growth. Management does not expect this trend to change in the near term.

Marshall & Ilsley sells some of its residential real estate production (residential real estate and home equity loans) in the secondary market. Selected residential real estate loans with rate and term characteristics that are considered desirable are periodically retained in the portfolio. For each of the three months ended June 30, 2007 and 2006, real estate loans sold to investors amounted to \$0.6 billion. For each of the six months ended June 30, 2007 and 2006, real estate loans sold to investors amounted to \$1.2 billion. At June 30, 2007 and 2006, Marshall & Ilsley had approximately \$50.3 million and \$123.4 million of mortgage loans held for sale, respectively. Gains from the sale of mortgage loans amounted to \$10.4 million in the second quarter of 2007 compared to \$11.8 million in the second quarter of 2006. For the six months ended June 30, 2007, gains from the sale of mortgage loans amounted to \$19.2 million compared to \$23.7 million in the six months ended June 30, 2006.

Marshall & Ilsley maintains a conservative credit profile in its home equity and mortgage portfolios. At June 30, 2007, Marshall & Ilsley's average loan-to-value ratios and credit scores were 78% and 725 for its

Table of Contents

residential real estate loan portfolio and 80% and 729 for its home equity portfolios, respectively. Marshall & Ilsley does not originate for portfolio, sub-prime mortgages or sub-prime home equity loans or lines. Marshall & Ilsley's exposure to residential real estate and home equity borrowers with credit scores that were less than 620 was approximately \$285 million at June 30, 2007.

During the second quarter of 2007, Marshall & Ilsley opted to discontinue the sale and securitization of automobile loans into the secondary market. The loans previously classified as held for sale, were reclassified as portfolio loans at the lower of cost or market. Auto loans securitized and sold in the second quarters of 2007 and 2006 amounted to \$0.05 billion and \$0.2 billion, respectively. For the six months ended June 30, 2007, auto loans securitized and sold amounted to \$0.2 billion compared to \$0.3 billion in the six months ended June 30, 2006. Net gains from the sale and securitization of auto loans for the three and six months ended June 30, 2007 amounted to \$1.3 million and \$1.1 million, respectively. Net gains and losses from the sale and securitization of auto loans were not significant in either the three or six months ended June 30, 2006.

The growth and composition of Marshall & Ilsley's quarterly average deposits for the current and previous four quarters are as follows (\$ in millions):

Consolidated Average Deposits

	2007		2006		Growth Pct.		
	Second Quarter	First Quarter	Fourth Quarter	Third Quarter	Second Quarter	Annual	Prior Quarter
Bank issued deposits							
Noninterest bearing deposits							
Commercial	\$ 3,849	\$ 3,769	\$ 4,000	\$ 3,948	\$ 3,873	(0.06)%	2.1%

Table of Contents

Average total bank issued deposits increased \$2.2 billion or 8.8% in the second quarter of 2007 compared to the second quarter of 2006. Excluding the effect of the banking acquisitions, average total bank issued deposit organic growth was 5.8% in the second quarter of 2007 compared to the second quarter of 2006. Approximately \$0.7 billion of the growth in average total bank issued deposits was attributable to the banking acquisitions and \$1.5 billion of the growth was organic. Of the \$0.7 billion of average growth attributable to the banking acquisitions, \$0.1 billion was attributable to average noninterest bearing deposits, \$0.3 billion was attributable to average interest bearing deposits and \$0.3 billion was attributable to average time deposits. Of the \$1.5 billion of average bank issued deposit organic growth, \$1.0 billion was attributable to average interest bearing deposits and \$0.5 billion was attributable to average time deposits. Excluding the effect of the banking acquisitions, average noninterest bearing deposits were relatively unchanged in the second quarter of 2007 compared to the second quarter of 2006.

For the six months ended June 30, 2007, average total bank issued deposits increased \$3.7 billion or 16.2% compared to the six months ended June 30, 2006. Excluding the effect of the 2007 and 2006 banking acquisitions, average total bank issued deposit organic growth was 7.4% in the six months ended June 30, 2007 compared to the six months ended June 30, 2006. Approximately \$1.9 billion of the growth in average total bank issued deposits was attributable to the banking acquisitions and \$1.8 billion of the growth was organic. Of the \$1.9 billion of average growth attributable to the banking acquisitions, \$0.3 billion was attributable to average noninterest bearing deposits, \$0.6 billion was attributable to average interest bearing deposits and \$1.0 billion was attributable to average time deposits. Of the \$1.8 billion of average bank issued deposit organic growth, \$1.1 billion was attributable to average interest bearing deposits and \$0.7 billion was attributable to average time deposits. Excluding the effect of the banking acquisitions, average noninterest bearing deposits were relatively unchanged in the first half of 2007 compared to the first half of 2006.

Noninterest bearing deposit balances tend to exhibit some seasonality with a trend of balances declining somewhat in the early part of the year followed by growth in balances throughout the remainder of the year. A portion of the noninterest balances, especially commercial balances, is sensitive to the interest rate environment. Larger balances tend to be maintained when overall interest rates are low and smaller balances tend to be maintained as overall interest rates increase.

For the three and six months ended June 30, 2007 compared to the three and six months ended June 30, 2006, Marshall & Ilsley has been able to competitively price deposit products which has contributed to the growth in average bank issued interest bearing activity deposits and average bank issued time deposits. In addition, Marshall & Ilsley continues to experience shifts in the bank issued deposit mix. In their search for higher yields, both new and existing customers have been migrating their deposit balances to higher cost money market and time deposit products. Management expects this behavior to continue.

Wholesale deposits are funds in the form of deposits generated through distribution channels other than Marshall & Ilsley's own banking branches. Marshall & Ilsley continues to make use of wholesale funding alternatives, especially brokered and institutional certificates of deposit. These deposits allow Marshall & Ilsley's bank subsidiaries to gather funds across a wider geographic base and at pricing levels considered attractive, where the underlying depositor may be retail or institutional. Recently, Marshall & Ilsley has placed less reliance on wholesale deposits. For the three months ended June 30, 2007, average wholesale deposits decreased \$1.8 billion, or 22.3% compared to the three months ended June 30, 2006. For the six months ended June 30, 2007 average wholesale deposits decreased \$1.0 billion, or 13.4% compared to the six months ended June 30, 2006. Average wholesale deposits for the six months ended June 30, 2007 include approximately \$0.2 billion of wholesale deposits that were assumed in the 2006 banking acquisitions.

Total borrowings increased \$0.9 billion to \$15.4 billion at June 30, 2007, compared to \$14.5 billion at December 31, 2006. During the second quarter of 2007, Marshall & Ilsley's lead bank, M&I Bank issued \$600 million of floating rate subordinated bank notes indexed to the three month LIBOR with a final maturity date of 2012 subject to Marshall & Ilsley's option to call the notes at par on December 4, 2007, March 4, 2008

Table of Contents

and June 4, 2008. During the first quarter of 2007, Marshall & Ilsley issued floating rate long term borrowings in the amount of \$1.2 billion which are indexed to the one month LIBOR and mature at various times from 2008 through 2013. In addition, a \$0.3 billion fixed rate borrowing with an interest rate of 5.15% and a maturity date of 2012 was issued in the first quarter of 2007. During the first quarter of 2007, Marshall & Ilsley called its \$200 million in principal amount of 7.65% junior subordinated deferrable interest debentures and the related M&I Capital Trust A 7.65% trust preferred securities.

Marshall & Ilsley's consolidated average interest earning assets and interest bearing liabilities, interest earned and interest paid for the three and six months ended June 30, 2007 and 2006, are presented in the following tables (\$ in millions):

Consolidated Yield and Cost Analysis

	Three Months Ended			Three Months Ended		
	June 30, 2007			June 30, 2006		
	Average Balance	Interest	Average Yield or Cost (b)	Average Balance	Interest	Average Yield or Cost (b)

(a) Fully taxable equivalent (FTE) basis, assuming a Federal income tax rate of 35%, and excluding disallowed interest expense.

(b) Based on average balances excluding fair value adjustments for available for sale securities.

The net interest margin FTE decreased 9 basis points from 3.26% in the second quarter of 2006 to 3.17% in the second quarter of 2007. For the six months ended June 30, 2007, the net interest margin FTE was 3.20% compared to 3.26% for the six months ended June 30, 2006, a decrease of 6 basis points. Compared to the first quarter of 2007, the net interest margin FTE decreased 6 basis points from 3.23% in the first quarter of 2007 to 3.17% in the second quarter of 2007. The net interest margin in the second quarter of 2007 was negatively impacted by the effect of the common stock repurchases that required \$294.7 million in cash and positively impacted by the lower interest rate on funds used for the early retirement of Marshall & Ilsley's \$200 million in principal amount of 7.65% junior subordinated deferrable interest debentures.

Net interest income and the net interest margin percentage can vary and continue to be influenced by loan and deposit growth, product spreads, pricing competition in Marshall & Ilsley's markets, prepayment activity,

Table of Contents

future interest rate changes and various other factors. Similar to the general trends being experienced throughout the industry, Marshall & Ilsley continues to be challenged by narrowing loan spreads, slowing loan growth and the shift in the bank issued deposit mix by new and existing depositors into higher yielding products. Management expects these trends to continue and expects that there will be downward pressure, particularly during periods of elevated levels of nonperforming loans and leases, on the net interest margin FTE for the remainder of 2007.

Years Ended December 31, 2006, 2005 and 2004

Net interest income, which is the difference between interest earned on earning assets and interest owed on interest bearing liabilities, represented approximately 43.8% of Marshall & Ilsley's source of revenues in 2006.

Net interest income in 2006 amounted to \$1,490.3 million compared with net interest income of \$1,265.2 million in 2005, an increase of \$225.1 million or 17.8%. Both acquisition-related and organic loan growth, as well as the growth in noninterest bearing and other bank issued deposits, were the primary contributors to the increase in net interest income. Factors negatively affecting net interest income compared to the prior year included the impact of the financing costs associated with acquisitions by the Banking segment and Metavante in 2006, common stock buybacks and a general shift in the bank issued deposit mix from lower cost to higher cost deposit products in response to increasing interest rates.

Average earning assets in 2006 amounted to \$46.5 billion compared to \$38.2 billion in 2005, an increase of \$8.3 billion or 21.6%. Increases in average loans and leases accounted for 89.2% of the growth in average earning assets.

Average interest bearing liabilities increased \$7.7 billion or 23.8% in 2006 compared to 2005. Approximately \$5.1 billion or 66.3% of the growth in average interest bearing liabilities was attributable to interest bearing deposits and \$1.9 billion or 24.4% of the growth in average interest bearing liabilities was attributable to long term borrowings.

Average noninterest bearing deposits increased \$0.4 billion or 7.9% in 2006 compared to the prior year.

Net interest income in 2005 amounted to \$1,265.2 million compared with net interest income of \$1,160.6 million in 2004, an increase of \$104.6 million or 9.0%. Loan growth and the growth in noninterest bearing and other bank-issued deposits were the primary contributors to the increase in net interest income. Net interest income in 2005 was negatively affected by lower loan spreads and the interest expense associated with debt issued in the third quarter of 2004 to fund Metavante's acquisitions.

Average earning assets in 2005 amounted to \$38.2 billion compared to \$33.1 billion in 2004, an increase of \$5.1 billion or 15.5%. Increases in average loans and leases accounted for 92.6% of the growth in average earning assets.

Average interest bearing liabilities increased \$4.6 billion or 16.8% in 2005 compared to 2004. Approximately \$1.8 billion or 37.9% of the growth in average interest bearing liabilities was attributable to interest bearing deposits and the remainder of the growth in average interest bearing liabilities was attributable to long term borrowings.

Average noninterest bearing deposits increased \$0.4 billion or 7.8% in 2005 compared to 2004.

Table of Contents

The growth and composition of Marshall & Ilsley's average loan and lease portfolio for the current year and prior two years are reflected in the following table (\$ in millions):

	2006	2005	2004	Percent Growth 2006 vs 2005	Percent Growth 2005 vs 2004
Commercial:					
Commercial	\$ 11,175.4	\$ 8,954.6	\$ 7,621.0	24.8%	17.5%
Commercial real estate:

Commercial lease financing	516.2	439.4	397.0	17.5	10.7
Total commercial	24,830.2	19,382.6	16,773.6	28.1	15.6
Personal:					
Residential real estate:					
Residential mortgages	5,735.9	4,239.5	2,855.3	35.3	48.5
Construction	2,394.3	1,513.0	839.8	58.2	80.2
Total residential real estate	8,130.2	5,752.5	3,695.1	41.3	55.7
Consumer loans:					
Student	68.6	79.4	87.2	(13.6)	(8.9)
Credit card	239.9	223.6	224.0	7.3	(0.2)
Home equity loans and lines	4,539.6	4,987.9	4,764.8	(9.0)	4.7
Other	1,174.6	1,222.5	1,321.3	(3.9)	(7.5)
Total consumer loans	6,022.7	6,513.4	6,397.3	(7.5)	1.8
Personal lease financing	145.3	127.9	155.5	13.6	(17.7)
Total personal	14,298.2	12,393.8	10,247.9	15.4	20.9
Total consolidated average loans and leases	\$ 39,128.4	\$ 31,776.4	\$ 27,021.5	23.1%	17.6%

Average loans and leases increased \$7.4 billion or 23.1% in 2006 compared to 2005. Excluding the effect of the Banking acquisitions, total consolidated average loan and lease organic growth was 12.7% in 2006 compared to 2005. Approximately \$2.9 billion of the growth in total consolidated average loans and leases was attributable to the banking acquisitions and \$4.5 billion of the growth was organic. Of the \$2.9 billion of average growth attributable to the banking acquisitions, \$2.1 billion was attributable to average commercial real estate loans, \$0.6 billion was attributable to average commercial loans and leases and the remainder was primarily attributable to average residential real estate loans. Of the \$4.5 billion of average loan and lease organic growth, \$1.7 billion was attributable to average commercial loans and leases, \$1.1 billion was attributable to average commercial real estate loans, and \$2.2 billion was attributable to residential real estate loans. Average home equity loans and lines decreased \$0.4 billion in 2006 compared to 2005.

Management attributes the strong loan growth in 2006 to the strength of the local economies in the markets Marshall & Ilsley serves, new business and continued customer satisfaction. Management expects that organic commercial loan growth (as a percentage) will moderate slightly from 2006 growth levels and will reach the low double digits in 2007. The basis for this expectation includes continued success in attracting new customers in all of Marshall & Ilsley's markets and continued modest economic growth in the primary markets that Marshall & Ilsley serves. Recently Marshall & Ilsley has experienced some declines in the construction market for both commercial and residential developers, and to some extent throughout the commercial real estate business. Based on recent trends, management expects mid single digit growth in 2007 for commercial real estate loans.

Table of Contents

Home equity loans and lines, which include Marshall & Ilsley's wholesale activity, continue to be the primary consumer loan products. Average home equity loans and lines declined \$0.4 billion or 9.0% in 2006 compared to 2005. This trend is consistent with what is occurring in many parts of the country. The softer home equity market, combined with Marshall & Ilsley's continued sales of certain loans at origination, which is partly in response to Marshall & Ilsley's demand for home equity products with higher loan-to-value characteristics, will continue to affect balance sheet organic loan growth. Management does not expect this trend to change in the near term.

Marshall & Ilsley sells some of its residential real estate loan production (residential real estate and home equity loans) in the secondary market. Selected residential real estate loans with rate and term characteristics that are considered desirable are periodically retained in the portfolio. Residential real estate loans originated and sold to the secondary market amounted to \$2.3 billion in 2006 compared to \$2.4 billion in 2005. At December 31, 2006, residential mortgage loans held for sale amounted to \$139.3 million. Gains from the sale of mortgage loans amounted to \$47.3 million in 2006 compared to \$47.1 million in 2005.

Auto loans securitized and sold amounted to \$0.5 billion in each of 2006 and 2005. Net losses from the sale and securitization of auto loans, including write-downs of auto loans held for sale, amounted to \$0.1 million in 2006 compared to \$2.0 million in 2005. See Note 10 in Notes to Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement for further discussion of Marshall & Ilsley's securitization activities. At December 31, 2006, auto loans held for sale amounted to \$83.4 million.

Marshall & Ilsley anticipates that it will continue to divest of selected assets through sale or securitization in future periods.

Average loans and leases increased \$4.8 billion or 17.6% in 2005 compared to 2004. Total average commercial loan and lease growth amounted to \$2.6 billion. Total average commercial loan growth in 2005 compared to 2004 consisted of average commercial real estate and commercial real estate construction loan growth which contributed \$1.2 billion and average commercial loan growth which contributed \$1.4 billion. Total average personal loan growth amounted to \$2.2 billion in 2005 compared to 2004. This growth was driven primarily by growth in residential real estate loans that consist primarily of traditional three and five year ARMs (adjustable rate mortgages), balloon mortgage loans and construction loans. Total average residential real estate loans grew by \$2.1 billion in 2005 compared to 2004. Average home equity loans and lines increased \$0.2 billion in 2005 compared to 2004.

Home equity loans and lines, which include Marshall & Ilsley's wholesale activity, continue to be the primary consumer loan products. Home equity loan and line production in 2005 continued to be strong. The rate of growth in home equity loans and lines in 2005 compared to 2004 was affected by the amount of loans sold at origination and increased prepayment activity on Marshall & Ilsley's wholesale home equity products. The proportion of loans sold at origination significantly increased in 2005 compared to 2004 in response to the increased demand for home equity products with higher loan-to-value characteristics.

Marshall & Ilsley sells some of its residential real estate loan production (residential real estate and home equity loans) in the secondary market. Selected residential real estate loans with rate and term characteristics that are considered desirable are periodically retained in the portfolio. Residential real estate loans originated and sold to the secondary market amounted to \$2.4 billion in 2005 compared to \$1.6 billion in 2004. At December 31, 2005, mortgage loans held for sale amounted to \$198.7 million. Gains from the sale of mortgage loans amounted to \$47.1 million in 2005 compared to \$28.9 million in 2004.

Auto loans securitized and sold amounted to \$0.5 billion in each of 2005 and 2004. Net losses from the sale and securitization of auto loans, including write-downs of auto loans held for sale, amounted to \$2.0 million in 2005 compared to \$3.4 million in 2004. The losses incurred were primarily due to lower loan interest rate spreads

Table of Contents

associated with new auto loan production in a rising interest rate environment. At December 31, 2005, auto loans held for sale amounted to \$79.1 million.

The growth and composition of Marshall & Ilsley's consolidated average deposits for the current year and prior two years are reflected below (\$ in millions):

				Percent Growth	
	2006	2005	2004	2006	2005
				vs	vs
				2005	2004
Bank issued deposits:					
Noninterest bearing:					
Commercial	\$ 3,825.3	\$ 3,480.6	\$ 3,210.5	9.9%	8.4%
Personal	961.3	940.8	897.1	2.2	4.9
Other	548.9	521.4	478.0	5.3	9.1
Total noninterest bearing	5,335.5	4,942.8	4,585.6	7.9	7.8

Foreign activity	1,154.3	951.0	896.7	21.4	6.1
Total activity accounts	11,668.3	10,027.3	9,960.7	16.4	0.7
Time deposits:					
Other CDs and time	4,496.8	3,048.1	2,632.7	47.5	15.8
CDs \$100,000 and over	2,832.5	1,362.3	751.4	107.9	81.3
Total time deposits	7,329.3	4,410.4	3,384.1	66.2	30.3
Total interest bearing	18,997.6	14,437.7	13,344.8	31.6	8.2
Total bank issued deposits	24,333.1	19,380.5	17,930.4	25.6	8.1
Wholesale deposits:					
Money market	814.7	1,073.1	499.8	(24.1)	114.7
Brokered CDs	5,011.1	4,641.1	4,582.8	8.0	1.3
Foreign time	1,429.9	1,006.8	974.9	42.0	3.3
Total wholesale deposits	7,255.7	6,721.0	6,057.5	8.0	11.0
Total consolidated average deposits	\$ 31,588.8	\$ 26,101.5	\$ 23,987.9	21.0%	8.8%

Average total bank issued deposits increased \$4.9 billion or 25.6% in 2006 compared to 2005. Excluding the effect of the banking acquisitions, average total bank issued deposit organic growth was 9.6% in 2006 compared to 2005. Approximately \$2.3 billion of the growth in average total bank issued deposits was attributable to the banking acquisitions and \$2.6 billion of the growth was organic. Of the \$2.3 billion of average growth attributable to the banking acquisitions, \$0.3 billion was attributable to average noninterest bearing deposits, \$0.7 billion was attributable to average interest bearing activity deposits and \$1.3 billion was attributable to average time deposits. Of the \$2.6 billion of average bank issued deposit organic growth, \$0.1 billion was attributable to average noninterest bearing deposits, \$0.9 billion was attributable to average interest bearing activity deposits and \$1.6 billion was attributable to average time deposits.

Noninterest deposit balances tend to exhibit some seasonality with a trend of balances declining somewhat in the early part of the year followed by growth in balances throughout the remainder of the year. A portion of the noninterest balances, especially commercial balances, is sensitive to the interest rate environment. Larger balances tend to be maintained when overall interest rates are low and smaller balances tend to be

maintained as overall interest rates increase. As interest rates have risen, Marshall & Ilsley has increasingly been able to

Table of Contents

competitively price deposit products which has contributed to the growth in average interest bearing bank issued deposits and average bank issued time deposits. The interest rate environment in 2006 resulted in a shift in the bank issued deposit mix. In their search for higher yields, both new and existing customers have been migrating their deposit balances to higher cost money market and time deposit products. However, new customer balances have resulted in less reliance on wholesale funding sources in 2006. Management expects these trends to continue.

In commercial banking, the focus remains on developing deeper relationships by capitalizing on cross-sale opportunities. Incentive plans based on the sale of treasury management products and services are focused on growing deposits. The retail banking strategy continues to focus on aggressively selling the right products to meet the needs of customers and enhance Marshall & Ilsley's profitability.

Wholesale deposits are funds in the form of deposits generated through distribution channels other than Marshall & Ilsley's own banking branches. Marshall & Ilsley continues to make use of wholesale funding alternatives. These deposits allow Marshall & Ilsley's bank subsidiaries to gather funds across a wider geographic base and at pricing levels considered attractive, where the underlying depositor may be retail or institutional. Average wholesale deposits increased \$0.5 billion in 2006 compared to 2005. Average wholesale deposits in 2006 include \$0.4 billion of average wholesale deposits that were assumed in the 2006 banking acquisitions.

Average total bank issued deposits increased \$1.5 billion or 8.1% in 2005 compared with 2004. Average noninterest bearing deposits increased \$0.4 billion and average interest bearing deposits increased \$1.1 billion. Average time deposits exhibited the greatest growth in bank issued interest bearing deposits in 2005 compared to 2004. Average money market accounts grew \$0.3 billion in 2005 compared to 2004. This growth was offset in part by a decline in savings and NOW accounts compared to the prior year.

Average wholesale deposits increased \$0.7 billion in 2005 compared to 2004.

During 2006, Marshall & Ilsley's lead bank, M&I Bank issued \$250.0 million of fixed rate senior notes. In addition, M&I Bank issued \$900.0 million of floating rate senior notes during 2006. New Federal Home Loan Bank (FHLB) advances in 2006 consisted of \$550.0 million of fixed rate advances and \$500.0 million of floating rate advances. In December 2006, \$1.0 billion of existing senior bank notes (puttable reset securities) were remarketed. During 2006 Marshall & Ilsley issued \$250.0 million of senior notes. The interest rates used to determine interest on floating rate senior notes and floating rate FHLB advances are indexed to LIBOR. During 2006, \$198.4 million of Marshall & Ilsley's fixed rate Series E notes and \$727.0 million of FHLB advances matured. At December 31, 2006 long-term borrowings assumed by Marshall & Ilsley in the banking acquisitions consisted of \$30.0 million of subordinated debt and \$99.0 million of subordinated debt associated with four separate issuances of trust preferred securities.

During 2005, M&I Bank issued \$1,150.0 million of fixed rate senior notes with a weighted average interest rate of 4.21%. In addition, M&I Bank issued \$1,225.0 million of floating rate senior notes and issued \$350.0 million of fixed rate subordinated notes at an interest rate of 4.85%. New FHLB floating rate advances in 2005 amounted to \$550.0 million. In December 2005, \$1.0 billion of existing senior bank notes (puttable reset securities) were remarketed. The interest rates used to determine interest on floating rate senior notes and floating rate FHLB advances are indexed to LIBOR. During 2005, \$100.5 million of Marshall & Ilsley's Series E notes with a weighted average interest rate of 1.75% and \$450.0 million of M&I Bank's FHLB advances with a weighted average interest rate of 1.90% matured.

During 2004, M&I Bank prepaid \$300.0 million of floating rate FHLB advances and terminated receive floating / pay fixed interest rate swaps designated as cash flow hedges against the FHLB advances. The termination of the interest rate swaps resulted in a charge to earnings of \$2.0 million. Also during 2004, a fixed rate advance from the FHLB aggregating \$55.0 million with an annual coupon interest rate of 5.06% was prepaid

Table of Contents

and retired resulting in a charge to earnings of \$4.9 million. The charge to earnings resulting from these transactions is reported in other expense in the Consolidated Statements of Income of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement.

The net interest margin on a FTE as a percent of average earning assets was 3.27% in 2006 compared to 3.40% in 2005, a decrease of 13 basis points. The yield on average earning assets was 6.97% in 2006 compared to 5.97% in 2005, an increase of 100 basis points. The cost of interest bearing liabilities was 4.31% in 2006 compared to 3.04% in 2005, an increase of 127 basis points.

The net interest margin FTE as a percent of average earning assets was 3.40% in 2005 compared to 3.61% in 2004, a decrease of 21 basis points. Marshall & Ilsley estimates that the additional interest expense associated with the \$1.0 billion of debt issued in late July 2004 to finance Metavante's 2004 acquisitions lowered the net interest margin FTE by approximately 11 basis points in 2005. Unlike a bank acquisition or loan growth, where the primary source of revenue is interest income, the revenue impact of Metavante's acquisitions is reported in other income and is not a component of the net interest margin statistic. The yield on average earning assets was 5.97% in 2005 compared to 5.23% in 2004, an increase of 74 basis points. The cost of interest bearing liabilities was 3.04% in 2005 compared to 1.93% in 2004, an increase of 111 basis points.

Like the industry in general, there were many factors that presented a challenge to the net interest margin in 2006. Some of these factors included tightening loan spreads, the movement of new and existing deposits into higher yielding products, loan growth that exceeded Marshall & Ilsley's ability to generate lower cost deposits and an interest rate environment characterized by an inverted yield curve. Management continues to believe that slight margin contraction is more likely than margin expansion. As a result, the net interest margin FTE as a percent of average earning assets could continue to have modest downward pressure, a few basis points per quarter, in the near term. Net interest income and the net interest margin percentage can vary and continue to be influenced by loan and deposit growth, product spreads, pricing competition in Marshall & Ilsley's markets, prepayment activity, future interest rate changes and various other factors.

Table of Contents**Average Balance Sheets and Analysis of Net Interest Income**

Marshall & Ilsley's consolidated average balance sheets, interest earned and interest paid, and the average interest rates earned and paid for each of the last three years are presented in the following table (\$000's):

	2006			2005			2004

Ending balance	\$ 431,012	\$ 423,084	\$ 420,610	\$ 417,375	\$ 415,201

Nonperforming assets consist of nonperforming loans and leases and other real estate owned (OREO).

OREO is principally comprised of commercial and residential properties acquired in partial or total satisfaction of problem loans and amounted to \$24.5 million at June 30, 2007, compared to \$26.6 million at March 31, 2007 and \$11.7 million at June 30, 2006. Construction and land development and residential real estate properties acquired in partial or total satisfaction of problem loans accounted for 27.3% and 58.6% of OREO at June 30, 2007, respectively.

Nonperforming loans and leases consist of nonaccrual, renegotiated or restructured loans, and loans and leases that are delinquent 90 days or more and still accruing interest. The balance of nonperforming loans and leases can fluctuate widely based on the timing of cash collections, renegotiations and renewals.

At June 30, 2007, nonperforming loans and leases amounted to \$384.0 million or 0.89% of consolidated loans and leases compared to \$351.7 million or 0.83% of consolidated loans and leases at March 31, 2007, and \$198.0 million or 0.49% of consolidated loans and leases at June 30, 2006.

Nonaccrual loans and leases continue to be the primary source of nonperforming loans and leases. Since March 31, 2007, nonaccrual commercial and industrial loans decreased \$11.8 million or 19.6%, nonaccrual personal loans decreased \$3.2 million or 70.1% and nonaccrual lease financing receivables decreased \$0.4 million or 27.1%. Since March 31, 2007, nonaccrual construction and land development increased \$23.5 million or 18.2%, nonaccrual residential real estate loans, including home equity loans and lines, increased \$20.4 million or 26.0% and nonaccrual commercial real estate increased \$4.2 million or 6.4%.

At June 30, 2007, nonperforming loans and leases continue to be concentrated in housing-related loans. The housing slowdown is impacting the performance of some of Marshall & Ilsley's construction and land

Table of Contents

development and residential real estate loans. A re-balancing of supply and demand within the national housing market has reduced both absorption rates and valuations, causing stress for some borrowers within these loan segments. These loans are geographically dispersed and are in both Marshall & Ilsley's originated and acquired loan portfolios.

Nonperforming loans and leases associated with the 2006 banking acquisitions amounted to \$75.2 million or 1.91% of the acquired loans and leases and 19.6% of total consolidated nonperforming loans and leases at June 30, 2007. Nonperforming loans and leases associated with the 2007 banking acquisitions were insignificant at June 30, 2007.

Throughout this credit cycle, Marshall & Ilsley has maintained its underwriting standards including its typical loan to value standards in real estate lending. As stated in Marshall & Ilsley's Annual Report on Form 10-K for the year ended December 31, 2006, Marshall & Ilsley does not hold loans with below market or so-called teaser interest rates and does not hold option adjustable rate mortgages that may expose the borrowers to future increase in repayments in excess of changes resulting solely from increases in the market rate of interest (loans subject to negative amortization). Marshall & Ilsley's comprehensive approval process is critical to ensuring that the risk of loss from nonperforming loans and leases on a long-term basis is minimized within the overall framework of acceptable levels of credit risk.

Managing nonperforming loans and leases is important to the ongoing success of a financial services institution. In addition to the negative impact on net interest income and credit losses, nonperforming assets also increase operating costs due to the expense associated with collection efforts. Marshall & Ilsley's comprehensive credit review process is critical to ensuring that potential nonperforming loans and leases as well as nonperforming loans and leases are aggressively identified and isolated in a timely manner so that strategies can be developed to minimize the risk of loss to Marshall & Ilsley. At June 30, 2007 approximately \$52.3 million or 13.6% of Marshall & Ilsley's nonperforming loans and leases were 60 days or less past due.

Net charge-offs amounted to \$23.6 million or 0.22% of average loans and leases in the second quarter of 2007 compared to \$14.7 million or 0.14% of average loans and leases in the first quarter of 2007 and \$9.9 million or 0.10% of average loans and leases in the second quarter of 2006. For the six months ended June 30, 2007, net charge-offs amounted to \$38.3 million or 0.18% of average loans and leases compared to \$15.9 million or 0.09% of average loans for the six months ended June 30, 2006. The most recent five year historical average net charge-off ratio was 0.15%. The ratio of recoveries to charge-offs was 16.2% for the three months ended June 30, 2007 compared to 19.8% for the three months ended March 31, 2007 and 28.7% in the second quarter of 2006. The ratio of recoveries to charge-offs was 17.6% for the six months ended June 30, 2007. The most recent five year average ratio of recoveries to chargeoffs was 30.4%.

The provisions for loan and lease losses amounted to \$26.0 million for the three months ended June 30, 2007 compared to \$11.1 million for the three months ended June 30, 2006. For the six months ended June 30, 2007, the provisions for loan and lease losses amounted to \$43.2 million compared to approximately \$22.1 million for the six months ended June 30, 2006. The allowance for loan and lease losses as a percent of consolidated loans and leases outstanding was 1.00% at June 30, 2007, 1.00% at March 31, 2007 and 1.03% at June 30, 2006.

During the second quarter Marshall & Ilsley experienced an increase in the level of problem loan resolutions, decline in nonperforming commercial and industrial loans and slowing in the rate of increase of nonperforming real estate loans compared to the prior two quarters. While these may be signs that nonperforming loan and lease trends are beginning to stabilize, negative economic events, adverse developments in industry segments within the loan and lease portfolios or deterioration of a large loan or loans could continue to have an adverse impact on the level of nonperforming loans and leases. Management believes that in the near term the expected level of nonperforming loans and leases may continue to increase from current levels. This expectation is based in part on the fact that real estate related loans such as construction and land development loans tend to

Table of Contents

be more complex and may take additional time to satisfactorily resolve. At the present time, Marshall & Ilsley's nonperforming loans and leases continue to be generally well-collateralized, geographically dispersed and the risk of loss on a per loan basis remains manageable.

Management continues to expect that its annual historical net charge-off range of 15 to 20 basis points of average loans and leases is representative of the net charge-offs expected for the year ended December 31, 2007.

Years Ended December 31, 2006, 2005 and 2004

The following tables present comparative credit quality information as of and for the year ended December 31, 2006, as well as selected comparative years:

Nonperforming assets consist of nonperforming loans and leases and OREO. The amount of nonperforming assets is affected by acquisitions accounted for under the purchase method of accounting. The assets and liabilities, including the nonperforming assets, of the acquired entities are included in Marshall & Ilsley's consolidated balance sheets from the date the business combination is completed, which impacts period-to-period comparisons.

OREO is principally comprised of commercial and residential properties acquired in partial or total satisfaction of problem loans and amounted to \$25.5 million, \$8.9 million and \$8.1 million at December 31, 2006, 2005 and 2004, respectively. Approximately \$15.3 million or 92.4% of the increase at December 31, 2006 compared to December 31, 2005 is attributable to construction and land development and residential real estate properties acquired in partial or total satisfaction of problem loans.

Nonperforming loans and leases consist of nonaccrual, renegotiated or restructured loans, and loans and leases that are delinquent 90 days or more and still accruing interest. The balance of nonperforming loans and leases are affected by acquisitions and may be subject to fluctuation based on the timing of cash collections, renegotiations and renewals.

Generally, loans that are 90 days or more past due as to interest or principal are placed on nonaccrual. Exceptions to this rule are generally only for loans fully collateralized by readily marketable securities or other relatively risk free collateral. In addition, a loan may be placed on nonaccrual when management makes a determination that the facts and circumstances warrant such classification irrespective of the current payment status.

Maintaining nonperforming assets at an acceptable level is important to the ongoing success of a financial services institution. Marshall & Ilsley's comprehensive credit review and approval process is critical to ensuring that the amount of nonperforming assets on a long-term basis is minimized within the overall framework of

Table of Contents

acceptable levels of credit risk. In addition to the negative impact on net interest income and credit losses, nonperforming assets also increase operating costs due to the expense associated with collection efforts.

At December 31, 2006, nonperforming loans and leases amounted to \$268.0 million or 0.64% of consolidated loans and leases compared to \$140.6 million or 0.41% at December 31, 2005 and \$132.4 million or 0.45% at December 31, 2004. Nonperforming loans associated with the banking acquisitions amounted to \$61.6 million or approximately 23.0% of total nonperforming loans at December 31, 2006. Nonaccrual loans and leases increased \$130.2 million at year-end 2006 compared to year-end 2005. The net increase was primarily due to increases in all types of nonaccrual real estate loans.

Delinquency can be an indicator of potential problem loans and leases. At December 31, 2006, loans and leases past due 60-89 days and still accruing interest amounted to \$89.1 million or 0.21% of total loans and leases outstanding compared to \$33.0 million or 0.10% of total loans and leases outstanding at December 31, 2005 and \$19.4 million or 0.07% of total loans and leases outstanding at December 31, 2004. Approximately 93.1% of the increase in loans and leases past due 60-89 days at December 31, 2006 compared to December 31, 2005 was attributable to all types of real estate loans.

In addition to its nonperforming loans and leases, Marshall & Ilsley has loans and leases for which payments are presently current, but which management believes could possibly be classified as nonperforming in the near future. These loans are subject to constant management attention and their classification is reviewed on an ongoing basis. At December 31, 2006, such loans amounted to \$109.1 million or 0.26% of total loans and leases outstanding compared to \$61.3 million or 0.18% of total loans and leases outstanding at December 31, 2005 and \$72.4 million 0.25% of total loans and leases outstanding at December 31, 2004.

The increase in nonperforming assets and past due loans and leases reflects the effects of the recent slowdown in the housing market. This housing-related stress has been experienced in all of Marshall & Ilsley's markets and includes both core and acquired loans. Marshall & Ilsley believes that its risk at the individual loan level remains relatively modest. Marshall & Ilsley has been very aggressive to isolate, identify and assess its underlying loan and lease portfolio credit quality and has developed strategies to work through this housing-related stress.

Net charge-offs amounted to \$39.0 million or 0.10% of average loans and leases in 2006 compared with \$39.1 million or 0.12% of average loans and leases in 2005 and \$29.4 million or 0.11% of average loans and leases in 2004.

Net charge-offs in 2006 continued to be below Marshall & Ilsley's five year historical average of net charge-offs. The ratio of net charge-offs to average loans and leases to some extent reflects a higher than normal level of recoveries. However, the ratio of recoveries to charge-offs in 2006 trended closer to average historical experience. Although positive resolutions continue to be achieved on prior charge-offs, recoveries are expected to continue to trend downwards. Management expects net charge-offs to be more in the range of 0.15% to 0.20% and nonperforming loans and leases as a percent of total loans and leases to range from current levels to 0.75%. Negative economic events, an adverse development in industry segments within the portfolio or deterioration of a large loan or lease could also have significant adverse impacts on the actual loss levels.

Consistent with the credit quality trends noted above, the provision for loan and lease losses amounted to \$50.6 million in 2006. By comparison, the provision for loan and lease losses amounted to \$44.8 million and \$38.0 million in 2005 and 2004, respectively. The provisions for loan and lease losses are the amounts required to establish the allowance for loan and lease losses at the required level after considering charge-offs and recoveries. The ratio of the allowance for loan and lease losses to total loans and leases was 1.00% at December 31, 2006 compared to 1.06% at December 31, 2005 and 1.21% at December 31, 2004.

Table of Contents**Other Income*****Three and Six Months Ended June 30, 2007 and 2006***

Other income or noninterest sources of revenue represented 57.6% and 55.0% of Marshall & Ilsley's total sources of revenues for the three months ended June 30, 2007 and 2006, respectively. Total other income in the second quarter of 2007 amounted to \$537.0 million compared to \$461.0 million in the same period last year, an increase of \$76.0 million or 16.5%. As previously discussed, other income for the three months ended June 30, 2007 included a pre-tax gain of \$19.0 million from the sale of MasterCard Class B shares. Other income for the three months ended June 30, 2006 included \$20.7 million of mark-to-market losses for derivative financial instruments that did not qualify for hedge accounting. The remaining increase in other income was primarily due to growth in data processing services and wealth management services revenue.

For the six months ended June 30, 2007 and 2006, noninterest sources of revenue represented 57.0% and 56.5% of Marshall & Ilsley's total sources of revenues, respectively. Total other income in the six months ended June 30, 2007 amounted to \$1,044.1 million compared to \$911.8 million in the same period last year, an increase of \$132.3 million or 14.5%. As previously discussed, other income for the six months ended June 30, 2007 included a pre-tax gain of \$19.0 million on the sale of MasterCard Class B shares and \$7.0 million in net gains related to Metavante's investment in Firstsource. Other income for the six months ended June 30, 2006 included \$42.0 million of mark-to-market losses for derivative financial instruments that did not qualify for hedge accounting. The remaining increase in other income was primarily due to growth in data processing services and wealth management services revenue.

Data processing services external revenue (Metavante) amounted to \$363.8 million in the second quarter of 2007 compared to \$345.0 million in the second quarter of 2006, an increase of \$18.8 million or 5.5%. For the six months ended June 30, 2007, Data processing services external revenue amounted to \$720.2 million compared to \$688.0 million for the six months ended June 30, 2006, an increase of \$32.2 million or 4.7%. Revenue growth continued throughout the segment due to revenue associated with acquisitions and higher transaction volumes in core processing and payment processing activities. Revenue associated with Metavante's acquisition completed in the first quarter of 2007 and the acquisition completed in the third quarter of 2006 contributed approximately \$7.5 million and \$15.0 million of the revenue growth in the three and six months ended June 30, 2007 compared to the three and six months ended June 30, 2006, respectively. Metavante estimates that total revenue growth (internal and external) for the three and six months ended June 30, 2007 compared to the three and six months ended June 30, 2006 excluding the acquisitions (organic revenue growth), was approximately 2.8% and 2.4%, respectively. To determine the estimated organic revenue growth rate, Metavante adjusts its prior year revenue for the acquisitions as if they had been consummated on January 1 of the prior year.

Management continues to expect that Metavante revenue (internal and external) for the year ended December 31, 2007 will be within a range of \$1.60 billion to \$1.64 billion and annual organic revenue growth in 2007 will be in the mid-single digits.

Wealth management revenue amounted to \$65.6 million in the second quarter of 2007 compared to \$56.3 million in the second quarter of 2006, an increase of \$9.3 million or 16.5%. For the six months ended June 30, 2007, Wealth Management revenue amounted to \$126.3 million compared to \$109.1 million for the six months ended June 30, 2006, an increase of \$17.2 million or 15.7%. Wealth management revenue growth attributable to the 2007 and 2006 acquisitions amounted to \$1.3 million and \$2.3 million for the three and six months ended June 30, 2007 compared to the three and six months ended June 30, 2006, respectively. Continued success in cross-selling and integrated delivery initiatives, improved investment performance and improving results in institutional sales efforts and outsourcing activities were the primary contributors to the remaining revenue growth over the respective periods. Assets under management were approximately \$24.6 billion at June 30, 2007 compared to \$22.5 billion at December 31, 2006, and \$20.4 billion at June 30, 2006.

Service charges on deposits amounted to \$28.1 million in the second quarter of 2007 compared to \$25.0 million in the second quarter of 2006, an increase of \$3.1 million or 12.2%. For the six months ended

Table of Contents

June 30, 2007, service charges on deposits amounted to \$53.9 million compared to \$47.6 million for the six months ended June 30, 2006, an increase of \$6.3 million or 13.4%. The banking acquisitions contributed \$0.2 million and \$2.3 million of the growth in service charges on deposits for the three and six months ended June 30, 2007 compared to the three and six months ended June 30, 2006, respectively. The remainder of the growth was primarily attributable to fees associated with new products. A portion of this source of fee income is sensitive to changes in interest rates.

Total mortgage banking revenue was \$12.0 million in the second quarter of 2007 compared with \$12.9 million in the second quarter of 2006, a decrease of \$0.9 million or 7.5%. For the six months ended June 30, 2007, total mortgage banking revenue amounted to \$22.1 million compared to \$25.9 million for the six months ended June 30, 2006, a decrease of \$3.8 million or 14.5%. For each of the three months ended June 30, 2007 and 2006, Marshall & Ilsley sold \$0.6 billion of residential mortgage and home equity loans to the secondary market. For each of the six months ended June 30, 2007 and 2006, Marshall & Ilsley sold \$1.2 billion of residential mortgage and home equity loans to the secondary market. Marshall & Ilsley continues to sell home equity loans at origination.

Net investment securities gains amounted to \$19.5 million in the second quarter of 2007 compared to \$1.0 million in the second quarter of 2006, an increase of \$18.5 million. For the six months ended June 30, 2007 and 2006, net investment securities gains amounted to \$21.0 million and \$2.1 million, respectively. As previously discussed, gains related to the sale of MasterCard Class B shares for both the three and six month periods ended June 30, 2007 amounted to \$19.0 million, respectively.

As previously discussed, net derivative losses-discontinued hedges that amounted to \$20.7 million and \$42.0 million for the three and six months ended June 30, 2006, respectively, represent the mark-to-market adjustments associated with certain interest rate swaps. Based on expanded interpretations of the accounting standard for derivatives and hedge accounting, it was determined that certain transactions did not qualify for hedge accounting. As a result, any fluctuation in the fair value of the interest rate swaps was recorded in earnings with no corresponding offset to the hedged items or accumulated other comprehensive income. Management believes the changes in earnings based on market volatility are not reflective of the core performance trends of Marshall & Ilsley.

Other income in the second quarter of 2007 amounted to \$41.1 million compared to \$34.0 million in the second quarter of 2006, an increase of \$7.1 million or 20.7%. For the six months ended June 30, 2007, other income amounted to \$78.0 million compared to \$66.9 million for the six months ended June 30, 2006, an increase of \$11.1 million or 16.6%. The growth in other income in the three and six months ended June 30, 2007 compared to the three and six month ended June 30, 2006, respectively was primarily attributable to an increase in a variety of sources of fees and other income.

Years Ended December 31, 2006, 2005 and 2004

Total other income amounted to \$1,915.4 million in 2006 compared to \$1,716.3 million in 2005, an increase of \$199.1 million or 11.6%. As previously discussed, total other income in 2006 includes a loss of \$18.4 million from applying fair value accounting (versus hedge accounting) to interest rate swaps associated with transactions that did not qualify for hedge accounting. Excluding that loss, total other income amounted to \$1,933.8 million in 2006 compared to \$1,716.3 million in 2005, an increase of \$217.5 million or 12.7%. Data processing services revenue and wealth management revenue were the primary contributors to the growth in other income in 2006 compared to 2005. That growth was offset by lower investment securities gains in 2006 compared to the prior year.

Total data processing services external revenue (Metavante) amounted to \$1,382.7 million in 2006 compared to \$1,185.0 million in 2005, an increase of \$197.7 million or 16.7%. Revenue growth continued throughout this segment driven by revenue associated with acquisitions, higher transaction volumes in core processing activity, payment processing and electronic banking and an increase in healthcare eligibility and payment card production.

Table of Contents

Revenue associated with the two acquisitions completed in 2006 and a full year of revenue from the six acquisitions completed in 2005 contributed a significant portion of the revenue growth in 2006 compared to 2005. The acquisition-related revenue growth includes cross-sales of acquired products to customers across the entire segment. Metavante estimates that total revenue growth (internal and external) for the year ended December 31, 2006 compared to the year ended December 31, 2005 excluding the acquisitions (organic revenue growth), was approximately 7.0%. To determine the estimated organic growth rate, Metavante adjusts its prior year revenue for the acquisitions as if they had been consummated on January 1 of the prior year. Total buyout revenue, which varies from period to period, increased \$9.4 million in 2006 compared to 2005.

Management expects Metavante's total revenue (internal and external) in 2007 to be in the range of \$1.60 billion to \$1.64 billion with margins maintained at levels similar to those achieved in 2006. In any given year there is some customer attrition due to banking consolidations. In addition, due to the focus of some of the acquired companies on software sales and the retail marketplace, revenue tends to be more cyclical and seasonal in nature especially in the fourth quarter. Management expects these trends to continue.

Wealth management revenue was \$221.6 million in 2006 compared to \$191.7 million in 2005, an increase of \$29.9 million or 15.6%. Wealth management revenue attributable to the previously reported January 3, 2006 acquisition of certain assets of FirstTrust Indiana and the acquisition of the wealth management products and services from Gold Banc amounted to \$3.8 million and \$3.7 million, respectively. Continued success in the cross-selling and integrated delivery initiatives, improved investment performance and improving results in institutional sales efforts and outsourcing activities were the primary contributors to the remaining revenue growth over the respective year. Assets under management were \$22.5 billion at December 31, 2006 compared to \$18.9 billion at December 31, 2005, an increase of \$3.6 billion or 19.2%. Assets under administration increased by \$12.7 billion or 15.3% and amounted to \$95.5 billion at December 31, 2006.

Service charges on deposits amounted to \$99.6 million in 2006 compared to \$94.0 million in 2005, an increase of \$5.6 million or 6.0%. The Banking acquisitions contributed \$6.4 million of service charges on deposits in 2006. A portion of this source of fee income is sensitive to changes in interest rates. In a rising rate environment, customers that pay for services by maintaining eligible deposit balances receive a higher earnings credit that results in lower fee income. Excluding the effect of the banking acquisitions, lower service charges on deposits associated with commercial demand deposits accounted for the majority of the decline in revenue in 2006 compared to 2005.

Total mortgage banking revenue was \$52.4 million in 2006 compared with \$50.5 million in 2005, an increase of \$1.9 million or 3.8%. During 2006, Marshall & Ilesley sold \$2.3 billion of residential mortgage and home equity loans to the secondary market. Retained interests in the form of mortgage servicing rights amounted to \$0.8 million. During 2005, Marshall & Ilesley sold \$2.4 billion of loans to the secondary market. Retained interests in the form of mortgage servicing rights amounted to \$0.9 million. At December 31, 2006, the carrying value of mortgage servicing rights was insignificant.

Net investment securities gains amounted to \$9.7 million in 2006 compared to \$45.5 million in 2005. Net gains associated with Marshall & Ilesley's Capital Markets Group investments amounted to \$4.6 million in 2006 compared to \$32.3 million in 2005. During 2005, Marshall & Ilesley realized a gain of \$6.6 million due to an equity investment that Marshall & Ilesley liquidated in a cash tender offer. During the first quarter of 2005, Marshall & Ilesley's Banking segment's investment in certain membership interests of PULSE was liquidated due to a change in control. The cash received resulted in a gain of \$5.6 million.

As previously discussed, derivative losses discontinued hedges that amounted to \$18.4 million in 2006, represent the mark-to-market adjustments associated with certain interest rate swaps. Based on expanded interpretations of the accounting standard for derivatives and hedge accounting, specifically hedge designation under the matched-terms method, it was determined that certain transactions did not qualify for hedge accounting. As a result, any fluctuation in the fair value of the interest rate swaps was recorded in earnings with no corresponding offset to the hedged items or accumulated other comprehensive income. The affected interest

Table of Contents

rate swaps were terminated in 2006 in order to avoid future earnings volatility due to mark-to-market accounting. Management believes the changes in earnings based on market volatility are not reflective of the core performance trends of Marshall & Ilsley.

Other noninterest income amounted to \$138.8 million in 2006 compared to \$122.5 million in 2005, an increase of \$16.3 million or 13.3%. The banking acquisitions contributed approximately \$1.2 million to the year-over-year growth in other noninterest income. Card related fees (credit, debit, ATM and stored value) increased \$10.5 million in 2006 compared to 2005. Trading and investment commissions and fees and lower auto securitization losses increased other noninterest income by \$9.9 million in 2006 compared to 2005. Other noninterest income in 2005 includes gains from the sale of certain trust custody businesses and gains from branch divestitures that aggregated \$5.1 million.

Total other income amounted to \$1,716.3 million in 2005 compared to \$1,417.9 million in 2004, an increase of \$298.4 million or 21.0%. Data processing services revenue accounted for 84.1% of the growth in total other income in 2005 compared to 2004. Wealth management revenue, mortgage banking revenue, other commissions and fees and investment securities gains also contributed to growth in total other income in 2005 compared to 2004.

Total data processing services external revenue amounted to \$1,185.0 million in 2005 compared to \$934.1 million in 2004, an increase of \$250.9 million or 26.9%. Revenue growth throughout this segment was driven by revenue associated with acquisitions, higher transaction volumes in core processing activity, payment processing and electronic banking and an increase in healthcare eligibility and payment card production. Revenue associated with the six acquisitions completed in 2005 and a full year of revenue from the six acquisitions completed in 2004 contributed a significant portion of the revenue growth in 2005 compared to 2004. The acquisition-related revenue growth includes cross-sales of acquired products to customers across the entire segment. Total buyout revenue, which varies from period to period, amounted to \$9.7 million in 2005 compared to \$8.8 million in 2004.

Wealth management revenue was \$191.7 million in 2005 compared to \$175.1 million in 2004, an increase of \$16.6 million or 9.5%. Revenue growth associated with trust services was the primary contributor to the revenue growth in wealth management revenue in 2005 compared to 2004. Assets under management were \$18.9 billion at December 31, 2005 compared to \$18.3 billion at December 31, 2004, an increase of \$0.6 billion or 3.3%. On an average basis, assets under management increased approximately \$1.2 billion or 6.9% in 2005 compared to 2004. Assets under administration increased by \$6.9 billion or 9.1% and amounted to \$82.8 billion at December 31, 2005. Sales activity emphasizing cross-selling, integrated delivery and account retention continued to drive revenue growth in 2005.

Total mortgage banking revenue was \$50.5 million in 2005 compared with \$34.7 million in 2004, an increase of \$15.8 million or 45.6%. The increase in gains from the sale of residential mortgage and home equity loans was the primary contributor to the increase in mortgage banking revenue. During 2005, Marshall & Ilsley sold \$2.4 billion of residential mortgage and home equity loans to the secondary market. Retained interests in the form of mortgage servicing rights amounted to \$0.9 million. During 2004, Marshall & Ilsley sold \$1.6 billion of loans to the secondary market. Retained interests in the form of mortgage servicing rights amounted to \$1.4 million. At December 31, 2005, the carrying value of mortgage servicing rights was insignificant.

Net investment securities gains amounted to \$45.5 million in 2005 compared to \$35.3 million in 2004. During 2005, net gains associated with Marshall & Ilsley's Capital Markets Group investments amounted to \$32.3 million. Approximately \$29.4 million of the net gain in 2005 was from a net realized gain recognized due to the sale of an entity associated with the investment in an independent private equity and venture capital partnership. Marshall & Ilsley realized a gain of \$6.6 million due to an equity investment that Marshall & Ilsley liquidated in a cash tender offer. During the first quarter of 2005, Marshall & Ilsley's Banking segment's investment in certain membership interests of PULSE was liquidated due to a change in control. The cash received resulted in a gain of \$5.6 million. During 2004, net gains associated with Marshall & Ilsley's Capital

Table of Contents

Markets Group investments amounted to \$34.6 million. Approximately \$34.1 million of the net gain in 2004 was from a net gain recognized in the fourth quarter of 2004 from an investment in an independent private equity and venture capital partnership.

Other noninterest income amounted to \$122.5 million in 2005 compared to \$112.5 million in 2004, an increase of \$10.0 million or 8.8%. Other income in 2005 includes gains from the sale of certain trust custody businesses and gains from branch divestitures that aggregated \$5.1 million.

Other Expense***Three and Six Months Ended June 30, 2007 and 2006***

Total other expense for the three months ended June 30, 2007 amounted to \$576.5 million compared to \$544.3 million for the three months ended June 30, 2006, an increase of \$32.2 million or 5.9%. For the six months ended June 30, 2007, total other expense amounted to \$1,129.5 million compared to \$1,049.4 million, an increase of \$80.1 million or 7.6%.

Total other expense for the three and six months ended June 30, 2007 includes the operating expenses associated with Metavante's 2007 and 2006 acquisitions, and the 2007 and 2006 banking and wealth management acquisitions. The operating expenses of the acquired entities have been included in Marshall & Ilsley's consolidated operating expenses from the dates the transactions were completed, which had an impact on the period to period comparability of operating expenses in 2007 compared to 2006. Approximately \$14.0 million of the operating expense growth in the second quarter of 2007 compared to the second quarter of 2006 and \$40.8 million of the operating expense growth in the six months ended June 30, 2007 compared to the six months ended June 30, 2006 was attributable to the acquisitions. Total other expense for the three and six months ended June 30, 2007 included transaction expenses of \$2.6 million and \$4.0 million, respectively, associated with the plan to separate Marshall & Ilsley and Metavante into two separate publicly traded companies. Total other expense for the six months ended June 30, 2007 included the loss of \$9.5 million related to the call of Marshall & Ilsley's 7.65% junior subordinated deferrable interest debentures and the related M&I Capital Trust A 7.65% trust preferred securities.

Marshall & Ilsley estimates that its expense growth in the three months ended June 30, 2007 compared to the three months ended June 30, 2006, excluding the effects of the acquisitions and the Metavante transaction costs, was approximately \$15.7 million or 2.9%. For the six months ended June 30, 2007 compared to the six months ended June 30, 2006, the estimated expense growth excluding the acquisitions, the Metavante transaction costs and the loss related to the call of Marshall & Ilsley's 7.65% junior subordinated deferrable interest debentures, was approximately \$25.8 million or 2.5%.

Expense control is sometimes measured in the financial services industry by the efficiency ratio statistic. The efficiency ratio is calculated by taking total other expense (excluding Metavante transaction costs) divided by the sum of total other income (including capital markets revenue but excluding investment securities gains or losses and net derivative losses-discontinued hedges) and net interest income on a fully taxable equivalent basis. Marshall & Ilsley's efficiency ratios for the three months ended June 30, 2007 and prior four quarters were:

Efficiency Ratios

	June 30, 2007	March 31, 2007	Three Months Ended December 31, 2006	September 30, 2006	June 30, 2006
Consolidated Corporation	62.3%	61.0%	62.2%	62.6%	62.9%
Consolidated Corporation Excluding Metavante	51.3%	50.5%	50.6%	52.4%	51.2%

Salaries and employee benefits expense amounted to \$317.8 million in the second quarter of 2007 compared to \$307.1 million in the second quarter of 2006, an increase of \$10.7 million or 3.5%. For the six months ended

Table of Contents

June 30, 2007, salaries and employee benefits expense amounted to \$614.9 million compared to \$584.5 million for the six months ended June 30, 2006, an increase of \$30.4 million or 5.2%. Salaries and benefits expense associated with the acquisitions previously discussed accounted for approximately \$7.4 million and \$21.4 million of the increase in the three and six months ended June 30, 2007 compared to the three and six months ended June 30, 2006, respectively.

For the second quarter of 2007, occupancy and equipment expense amounted to \$62.3 million compared to \$63.8 million in the second quarter of 2006, a decrease of \$1.5 million or 2.4%. For each of the six months ended June 30, 2007 and 2006, occupancy and equipment expense amounted to \$121.6 million, respectively. The increase in occupancy and equipment expense associated with the acquisitions and bank branch expansion was offset by reduced occupancy and equipment expense by Metavante in the three and six months ended June 30, 2007 compared to the three and six months ended June 30, 2006, respectively.

Software expenses, processing charges, supplies and printing, professional services and shipping and handling expenses totaled \$105.8 million in the second quarter of 2007 compared to \$89.1 million in the second quarter of 2006, an increase of \$16.7 million or 18.8%. For the six months ended June 30, 2007, software expenses, processing charges, supplies and printing, professional services and shipping and handling expenses totaled \$203.7 million compared to \$175.0 million for the six months ended June 30, 2006, an increase of \$28.7 million or 16.4%. The acquisitions accounted for \$1.3 million and \$3.2 million of the expense growth for the three and six months ended June 30, 2007 compared to the three and six months ended June 30, 2006, respectively. Metavante's expense growth accounted for the majority of the remaining increase in expense for these items in the three and six months ended June 30, 2007 compared to the three and six months ended June 30, 2006.

Amortization of intangibles amounted to \$12.3 million in the second quarter of 2007 compared to \$12.0 million in the second quarter of 2006, an increase of \$0.3 million. For the six months ended June 30, 2007, amortization of intangibles amounted to \$23.6 million compared to \$20.9 million for the six months ended June 30, 2006, an increase of \$2.7 million. The increase in amortization associated with the acquisitions amounted to \$1.4 million and \$4.0 million for the three and six months ended June 30, 2007 compared to the three and six months ended June 30, 2006, respectively. Those increases were offset by lower amortization of core deposit intangibles from previous acquisitions, which are based on a declining balance method.

As previously discussed, Marshall & Ilsley incurred certain transaction costs associated with the announced plan to separate Marshall & Ilsley and Metavante into two separate publicly held companies. For the three and six months ended June 30, 2007, these costs amounted to \$2.6 million and \$4.0 million, respectively and consisted primarily of consulting and legal fees.

Other expense amounted to \$75.8 million in the second quarter of 2007 compared to \$72.3 million in the second quarter of 2006, an increase of \$3.5 million or 4.9%. For the six months ended June 30, 2007, other expense amounted to \$161.7 million compared to \$147.4 million for the six months ended June 30, 2006, an increase of \$14.3 million or 9.7%. The acquisitions accounted for \$2.6 million and \$7.9 million of the growth in other expense for the three and six months ended June 30, 2007 compared to the three and six months ended June 30, 2006, respectively. As previously discussed, other expense for the six months ended June 30, 2007 includes the loss of \$9.5 million related to the call of Marshall & Ilsley's 7.65% junior subordinated deferrable interest debentures and the related M&I Capital Trust A 7.65% trust preferred securities.

Table of Contents**Years Ended December 31, 2006, 2005 and 2004**

Total other expense amounted to \$2,159.5 million in 2006 compared to \$1,879.0 million in 2005, an increase of \$280.5 million or 14.9%.

The Metavante, Banking and wealth management acquisitions (acquisitions) had a significant impact on the year-to-year comparability of operating expenses in 2006 compared to 2005. Approximately \$201.6 million of the 2006 versus 2005 operating expense growth was attributable to the acquisitions. As all acquisitions were accounted for using the purchase method of accounting, the operating expenses of the acquired entities are included in the consolidated operating expenses from the dates the acquisitions were completed. Operating expenses associated with acquisitions completed in 2005 are reflected for the full year in 2006 as opposed to a partial year in 2005. Acquisitions completed in 2006 directly affect the current year but have no impact on the prior year.

Expense control is sometimes measured in the financial services industry by the efficiency ratio statistic. The efficiency ratio is calculated by dividing total other expense by the sum of total other income (including Capital Markets Group-related investment gains but excluding other securities gains and losses and excluding derivative losses-discontinued hedges) and net interest income FTE. Marshall & Ilsley's efficiency ratios for the years ended December 31, 2006, 2005, and 2004 were:

Efficiency Ratios	2006	2005	2004
Consolidated Corporation	62.6%	62.6%	62.4%
Consolidated Corporation Excluding Metavante	50.8	50.7	50.8

Marshall & Ilsley estimates that its expense growth in 2006 compared to 2005, excluding the effect of the acquisitions was approximately \$78.9 million or 4.3%.

Salaries and employee benefits expense amounted to \$1,210.1 million in 2006 compared to \$1,074.8 million in 2005, an increase of \$135.3 million or 12.6%. Total expense for stock options and the ESPP amounted to \$33.2 million in 2006 compared to \$32.1 million in 2005. Salaries and benefits expense related to the acquisitions contributed approximately \$79.3 million to the expense growth in 2006 compared to 2005.

Net occupancy and equipment expense amounted to \$244.0 million in 2006 compared to \$215.6 million in 2005, an increase of \$28.4 million. Net occupancy and equipment expense related to the acquisitions contributed approximately \$24.8 million to the expense growth in 2006 compared to 2005.

Software expenses amounted to \$70.7 million in 2006 compared to \$58.0 million in 2005, an increase of \$12.7 million or 21.9%. Software expense related to the acquisitions contributed approximately \$2.9 million to the expense growth in 2006 compared to 2005. Excluding the acquisitions, the Banking segment and Metavante were the primary contributors to the growth in software expenses in 2006 compared to 2005.

Processing charges amounted to \$110.1 million in 2006 compared to \$62.6 million in 2005, an increase of \$47.5 million or 75.7%. Processing charges related to the acquisitions contributed approximately \$38.0 million to the expense growth in 2006 compared to 2005. Excluding the acquisitions, Metavante was the primary contributor to the growth in processing charges in 2006 compared to 2005.

Supplies and printing expense, professional services expense and shipping and handling expense amounted to \$176.6 million in 2006 compared to \$149.8 million in 2005, an increase of \$26.8 million or 17.9%. The acquisitions contributed approximately \$18.6 million to the expense growth in 2006 compared to 2005. Excluding the acquisitions, the Banking segment and Metavante were the primary contributors to the growth in these expenses in 2006 compared to 2005.

Amortization of intangibles amounted to \$45.4 million in 2006 compared to \$31.1 million in 2005. Amortization of intangibles increased \$15.8 million in 2006 compared to 2005 due to the acquisitions. Goodwill

Table of Contents

is subject to periodic tests for impairment. Marshall & Ilsley has elected to perform its annual test for impairment during the second quarter. Accordingly, Marshall & Ilsley updated the analysis to June 30, 2006 and concluded that there continues to be no impairment with respect to goodwill at any reporting unit. At December 31, 2006, none of Marshall & Ilsley's other intangible assets were determined to have indefinite lives.

Other noninterest expense amounted to \$302.6 million in 2006 compared to \$287.2 million in 2005, an increase of \$15.4 million or 5.4%. The acquisitions contributed approximately \$21.1 million to the expense growth in 2006 compared to 2005. Excluding the impact of the acquisitions and the effect on other noninterest expense due to the capitalization of costs, net of amortization, associated with software development and data processing conversions which is discussed below, other noninterest expense growth in 2006 compared to 2005 was approximately \$7.9 million or 3.0%.

Other expense is affected by the capitalization of costs, net of amortization, associated with software development and data processing conversions. A lower amount of capitalized software development costs and capitalized conversion costs net of their respective amortization, write-offs of software and the amortization associated with the software obtained in the acquisitions resulted in a net decrease in other noninterest expense of \$13.6 million in 2006 compared to 2005.

Total other expense amounted to \$1,879.0 million in 2005 compared to \$1,628.7 million in 2004, an increase of \$250.3 million or 15.4%.

The acquisitions by Metavante had a significant impact on the year-to-year comparability of operating expenses in 2005 compared to 2004. Approximately \$182.1 million of the 2005 versus 2004 operating expense growth was attributable to the acquisitions.

Marshall & Ilsley estimates that its expense growth in 2005 compared to 2004, excluding the effect of the acquisitions and the impact of the 2004 significant transactions previously discussed, was approximately \$86.3 million or 5.7%.

Salaries and employee benefits expense amounted to \$1,074.8 million in 2005 compared to \$919.4 million in 2004, an increase of \$155.4 million or 16.9%. Total expense for stock options and the ESPP amounted to \$32.1 million in 2005 compared to \$32.2 million in 2004. Salaries and benefits expense related to the Metavante acquisitions contributed approximately \$92.8 million to the expense growth in 2005 compared to 2004. The remainder of the increase was primarily attributable to the Banking segment which reflects increased incentive compensation associated with loan and deposit growth and increased personnel to build out product lines in markets outside Wisconsin as well as increased personnel for de novo branch expansion.

Net occupancy and equipment expense amounted to \$215.6 million in 2005 compared to \$192.9 million in 2004, an increase of \$22.7 million. Net occupancy and equipment expense related to the Metavante acquisitions contributed approximately \$20.7 million to the expense growth in 2005 compared to 2004.

Software expenses amounted to \$58.0 million in 2005 compared to \$50.0 million in 2004, an increase of \$8.0 million or 15.9%. Software expense related to the Metavante and banking acquisitions contributed approximately \$4.5 million to the expense growth in 2005 compared to 2004. The Banking segment contributed \$2.7 million to the growth in software expenses in 2005 compared to 2004.

Processing charges amounted to \$62.6 million in 2005 compared to \$52.2 million in 2004, an increase of \$10.4 million or 19.9%. Processing charges related to the Metavante acquisitions contributed approximately \$11.9 million to the expense growth in 2005 compared to 2004.

Supplies and printing expense, professional services expense and shipping and handling expense amounted to \$149.8 million in 2005 compared to \$135.1 million in 2004, an increase of \$14.7 million or 10.8%. The

Table of Contents

Metavante acquisitions contributed approximately \$11.8 million to the expense growth in 2005 compared to 2004.

Amortization of intangibles amounted to \$31.1 million in 2005 compared to \$27.9 million in 2004. Amortization and valuation reserves associated with mortgage servicing rights declined \$1.3 million. At December 31, 2005, the carrying value of mortgage servicing rights amounted to \$2.8 million. Amortization of intangibles increased \$6.9 million in 2005 compared to 2004 due to Metavante's acquisitions. For the year ended December 31, 2005, \$0.4 million of goodwill was included in the determination of the gains associated with the sale of certain trust custody businesses and the gains from branch divestitures. Goodwill is subject to periodic tests for impairment. Marshall & Ilsley has elected to perform its annual test for impairment during the second quarter. Accordingly, Marshall & Ilsley updated the analysis to June 30, 2005 and concluded that there was no impairment with respect to goodwill at any reporting unit. At December 31, 2005, none of Marshall & Ilsley's other intangible assets were determined to have indefinite lives.

Other noninterest expense amounted to \$287.2 million in 2005 compared to \$251.2 million in 2004, an increase of \$36.0 million. The Metavante acquisitions contributed approximately \$32.5 million to the expense growth in 2005 compared to 2004. Excluding the impact of the Metavante acquisitions, advertising, travel and card related expenses increased by \$16.7 million in 2005 compared to 2004. As previously discussed, during 2004 Marshall & Ilsley prepaid and retired certain higher cost long-term debt and terminated some related receive floating / pay fixed interest rate swaps designated as cash flow hedges resulting in a loss of \$6.9 million. During 2004, Metavante sold its small business 401k Retirement Plan Services operations and also sold the direct customer base of Paytrust.com resulting in an aggregate loss of approximately \$7.1 million. Charitable foundation expense amounted to \$5.0 million in 2004.

Other expense is affected by the capitalization of costs, net of amortization, associated with software development and data processing conversions. A lower amount of capitalized software development costs and capitalized conversion costs net of their respective amortization, write-offs of software and the amortization associated with the software obtained in the acquisitions resulted in a net decrease in other noninterest expense of \$8.3 million in 2005 compared to 2004. During 2004, Metavante determined that certain purchased and internally developed software will no longer be used or was impaired and such software was written off. Capitalized software costs written off as a result of these decisions amounted to \$8.7 million in 2004.

Income Tax Provision***Three and Six Months Ended June 30, 2007 and 2006***

The provision for income taxes for the three months ended June 30, 2007 amounted to \$110.0 million or 33.3% of pre-tax income compared to \$91.9 million or 32.5% of pre-tax income for the three months ended June 30, 2006. For the six months ended June 30, 2007, the provision for income taxes amounted to \$220.6 million or 33.5% of pre-tax income compared to \$178.7 million or 33.0% of pre-tax income for the six months ended June 30, 2006. During the second quarter of 2006, an income tax benefit was recognized for the integration and realignment of Metavante subsidiaries that resulted in a lower provision for income taxes in the consolidated statements of income for the three and six months ended June 30, 2006.

Years Ended December 31, 2006, 2005 and 2004

The provision for income taxes was \$387.8 million in 2006, \$351.5 million in 2005, and \$306.0 million in 2004. The effective tax rate in 2006 was 32.4% compared to 33.2% in 2005 and 33.6% in 2004. The lower effective tax rate in 2006 reflects, in part, increased tax benefits from programs and activities that are eligible for federal income tax credits. Some of these programs and activities provide annual tax benefits in the form of federal income tax credits in future periods as long as the programs and activities continue to qualify under the federal tax regulations.

Table of Contents**Reconciliation of Non-GAAP to GAAP Results**

Marshall & Ilsley has provided non-GAAP operating results as a supplement to its GAAP financial results. Marshall & Ilsley believes that these non-GAAP financial measures are useful because they allow investors to assess, on a consistent basis, Marshall & Ilsley's core operating performance, exclusive of items management believes are not reflective of the operations of Marshall & Ilsley. Management uses such non-GAAP financial measures to evaluate financial results and to establish operational goals. These non-GAAP financial measures should be considered a supplement to, and not as a substitute for, financial measures prepared in accordance with GAAP.

Liquidity and Capital Resources*Three and Six Months Ended June 30, 2007 and 2006*

Shareholders' equity was \$6.44 billion or 11.0% of total consolidated assets at June 30, 2007, compared to \$6.15 billion or 10.9% of total consolidated assets at December 31, 2006, and \$5.73 billion or 10.5% of total consolidated assets at June 30, 2006.

During the second quarter of 2007, Marshall & Ilsley issued 441,252 shares of its common stock valued at \$21.0 million in conjunction with Marshall & Ilsley's acquisition of North Star. Also during the second quarter of 2007, Marshall & Ilsley issued 4,410,647 shares of its common stock valued at \$204.3 million and exchanged vested stock options valued at approximately \$15.3 million in conjunction with Marshall & Ilsley's acquisition of United Heritage.

During the first quarter of 2007, Marshall & Ilsley issued 403,508 shares of its common stock valued at \$19.2 million to fund its 2006 obligations under its retirement and employee stock ownership plans. Also during the first and second quarters of 2007, Marshall & Ilsley issued 85,777 shares of its common stock for \$3.4 million and 81,036 shares of its common stock for \$3.3 million, respectively, to fund its obligation under its employee stock purchase plan.

At June 30, 2007, the net loss in accumulated other comprehensive income amounted to \$63.8 million, which represented a negative change in accumulated other comprehensive income of \$46.2 million since December 31, 2006. Net accumulated other comprehensive income associated with available for sale investment securities was a net loss of \$79.9 million at June 30, 2007, compared to a net loss of \$22.0 million at December 31, 2006, resulting in a net loss of \$57.9 million over the six month period. The net unrealized gain associated with the change in fair value of Marshall & Ilsley's derivative financial instruments designated as cash flow hedges was \$12.4 million for the six months ended June 30, 2007. The change in the postretirement benefit obligation plan funded status at June 30, 2007 compared to December 31, 2006, declined \$0.7 million due to periodic amortization included in postretirement expense.

On April 24, 2007, Marshall & Ilsley announced that the Marshall & Ilsley Board increased the quarterly cash dividend on its common stock 14.8%, to \$0.31 per common share from \$0.27 per common share.

Marshall & Ilsley has a stock repurchase program under which it may repurchase up to 12 million shares of its common stock annually. During the second quarter of 2007, Marshall & Ilsley completed two accelerated share repurchase transactions under its authorized stock repurchase program. In the aggregate, Marshall & Ilsley acquired 6,117,070 shares of its common stock in these transactions. Total consideration in these transactions amounted to \$297.3 million and consisted of cash of \$294.7 million and common treasury stock valued at \$2.6 million. In conjunction with the first accelerated share repurchase transaction executed during the second

Table of Contents

quarter of 2007, Marshall & Ilsley used 54,035 shares of its treasury common stock to share-settle the final settlement obligation. After these repurchases, approximately 5,882,930 shares remain available under prior repurchase authorizations by the Marshall & Ilsley Board. There were no purchases under the program during the first quarter of 2007. During the first quarter of 2006, Marshall & Ilsley repurchased 1.0 million shares at an aggregate cost of \$41.8 million. There were no purchases under the program in the second quarter of 2006.

The shares of common stock acquired during the second quarter of 2007 mitigated the impact of the common stock that was issued to settle the common stock purchase contracts that were a component of the 6.50% Common SPACES that were issued in 2004.

Each Common SPACES had a stated amount of \$25 and consisted of (i) a stock purchase contract under which the holder agreed to purchase, and Marshall & Ilsley agreed to sell, for \$25, shares of common stock on the stock purchase date and (ii) a 1/40, or 2.5%, undivided beneficial interest in a preferred security, also referred to as the STACKS, of M&I Capital Trust B with an initial liquidation amount of \$1,000. Marshall & Ilsley guaranteed payments on the STACKS as described in the prospectus supplement for the Common SPACES.

The stock purchase date was August 15, 2007. The STACKS underlying the Common SPACES were remarketed, and the proceeds of such remarketing were used to settle the obligations of the holders of Common SPACES under the stock purchase contract, unless a holder elected not to participate in the remarketing, in which case, the holder was required to deliver cash, in the amount of \$1,000 per STACKS, to the collateral agent.

The settlement rate of the stock purchase contracts was 0.5767. The adjusted applicable market value of common stock was \$43.7950. Marshall & Ilsley issued approximately 9.2 million shares of its common stock to settle the common stock purchase contracts that were a component of the 6.50% Common SPACES.

Marshall & Ilsley continues to have a strong capital base and its regulatory capital ratios are significantly above the minimum requirements as shown in the following tables.

Risk-Based Capital Ratios

Marshall & Ilsley manages its liquidity to ensure that funds are available to each of its banks to satisfy the cash flow requirements of depositors and borrowers and to ensure Marshall & Ilsley's own cash requirements are met. Marshall & Ilsley maintains liquidity by obtaining funds from several sources.

Marshall & Ilsley's most readily available source of liquidity is its investment portfolio. Investment securities available for sale, which totaled \$7.2 billion at June 30, 2007, represent a highly accessible source of liquidity. Marshall & Ilsley's portfolio of held-to-maturity investment securities, which totaled \$0.4 billion at June 30, 2007, provides liquidity from maturities and amortization payments. Marshall & Ilsley's loans held for sale provide additional liquidity. These loans represent recently funded loans that are prepared for delivery to investors, which are generally sold within thirty to ninety days after the loan has been funded.

Depositors within Marshall & Ilsley's defined markets are another source of liquidity. Core deposits (demand, savings, money market and consumer time deposits) averaged \$21.8 billion in the second quarter of 2007. Marshall & Ilsley's banking affiliates may also access the federal funds markets or utilize collateralized borrowings such as treasury demand notes or FHLB advances.

The banking affiliates may use wholesale deposits, which include foreign (Eurodollar) deposits. Wholesale deposits are funds in the form of deposits generated through distribution channels other than Marshall & Ilsley's own banking branches. These deposits allow Marshall & Ilsley's banking subsidiaries to gather funds across a national geographic base and at pricing levels considered attractive, where the underlying depositor may be retail or institutional. Access to wholesale deposits also provides Marshall & Ilsley with the flexibility to not pursue single service time deposit relationships in markets that have experienced some unprofitable pricing levels. Wholesale deposits averaged \$6.3 billion in the second quarter of 2007.

Marshall & Ilsley has historically used certain financing arrangements to meet its balance sheet management, funding, liquidity, and market or credit risk management needs. The majority of these activities are basic term or revolving securitization vehicles. These vehicles are generally funded through term-amortizing debt structures or with short-term commercial paper designed to be paid off based on the underlying cash flows of the assets securitized. These vehicles provide access to funding sources substantially separate from the general credit risk of Marshall & Ilsley and its subsidiaries. See Note 10 to the Notes to Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement for an update of Marshall & Ilsley's securitization activities in the second quarter of 2007.

M&I Bank, Marshall & Ilsley's lead bank, has implemented a bank note program. During the second quarter of 2006, M&I Bank amended the bank note program into a global bank note program which permits it to issue and sell up to a maximum of US\$13.0 billion aggregate principal amount (or the equivalent thereof in other currencies) at any one time outstanding of its senior global bank notes with maturities of seven days or more from their respective date of issue and subordinated global bank notes with maturities more than five years from their respective date of issue. The notes may be fixed rate or floating rate and the exact terms will be specified in

Table of Contents

the applicable pricing supplement or the applicable program supplement. This program is intended to enhance liquidity by enabling M&I Bank to sell its debt instruments in global markets in the future without the delays which would otherwise be incurred. Bank notes outstanding at June 30, 2007 amounted to \$8.2 billion of which \$1.9 billion is subordinated and qualifies as supplementary capital for regulatory capital purposes.

The national capital markets represent a further source of liquidity to Marshall & Ilsley. Marshall & Ilsley has filed a number of shelf registration statements that are intended to permit Marshall & Ilsley to raise funds through sales of corporate debt and/or equity securities with a relatively short lead time.

During the third quarter of 2005, Marshall & Ilsley amended the shelf registration statement originally filed with the SEC during the third quarter of 2004 to include the equity distribution agreement. The amended shelf registration statement enables Marshall & Ilsley to issue various securities, including debt securities, common stock, preferred stock, depository shares, purchase contracts, units, warrants, and trust preferred securities, up to an aggregate amount of \$3.0 billion. At June 30, 2007, approximately \$1.3 billion was available for future securities issuances.

During the fourth quarter of 2004, Marshall & Ilsley filed a shelf registration statement with the SEC enabling Marshall & Ilsley to issue up to 6.0 million shares of its common stock, which may be offered and issued from time to time in connection with acquisitions by Marshall & Ilsley, Metavante and/or other consolidated subsidiaries of Marshall & Ilsley. At June 30, 2007, there were 3.1 million shares of common stock available for future issuances.

Under another shelf registration statement, Marshall & Ilsley may issue up to \$0.6 billion of medium-term Series F notes with maturities ranging from 9 months to 30 years and at fixed or floating rates. At June 30, 2007, Series F notes issued amounted to \$250.0 million in aggregate principal amount. Marshall & Ilsley may issue up to \$0.5 billion of medium-term MiNotes with maturities ranging from 9 months to 30 years and at fixed or floating rates. The MiNotes are issued in smaller denominations to attract retail investors. At June 30, 2007, MiNotes issued amounted to \$0.2 billion in aggregate principal amount. Additionally, Marshall & Ilsley has a commercial paper program. At June 30, 2007, commercial paper outstanding amounted to \$0.7 billion in aggregate principal amount.

Short-term borrowings represent contractual debt obligations with maturities of one year or less and amounted to \$3.3 billion at June 30, 2007. Long-term borrowings amounted to \$12.1 billion at June 30, 2007. The scheduled maturities of long-term borrowings including estimated interest payments at June 30, 2007 were as follows: \$5.4 billion is due in less than one year; \$3.7 billion is due in one to three years; \$2.6 billion is due in three to five years; and \$3.3 billion is due in more than five years. During the first quarter of 2007, Marshall & Ilsley issued shares of its common stock valued at \$19.2 million to fund a portion of its 2006 obligations under its retirement and employee stock ownership plans. There have been no other substantive changes to Marshall & Ilsley's contractual obligations as reported in Marshall & Ilsley's Annual Report on Form 10-K for the year ended December 31, 2006.

Years Ended December 31, 2006, 2005 and 2004

Shareholders' equity was \$6.15 billion or 10.9% of total consolidated assets at December 31, 2006, compared to \$4.74 billion or 10.2% of total consolidated assets at December 31, 2005.

In conjunction with the adoption of Staff Accounting Bulletin No. 108 and the determination that certain interest rate swaps did not qualify for hedge accounting, the cumulative effect of adjusting the reported carrying amount of the affected assets, liabilities and accumulated other comprehensive income as of January 1, 2006 resulted in a net reduction to Shareholders' equity of \$18.0 million.

Table of Contents

In the second quarter of 2006, the Marshall & Ilsley Board authorized an increase in the quarterly cash dividend paid on Marshall & Ilsley's common stock, from \$0.24 per share to \$0.27 per share, or 12.5%.

Shareholders' equity at December 31, 2006 includes the effect of certain common stock issuances during the current year. During the first quarter of 2006, Marshall & Ilsley issued 527,864 shares of its common stock valued at \$23.2 million in conjunction with Metavante's acquisition of AdminiSource Inc. and issued 385,192 shares of its common stock valued at \$16.9 million to fund its 2005 obligations under its retirement and employee stock ownership plans. During the second quarter of 2006, Marshall & Ilsley issued 13,672,665 shares of its common stock and exchanged fully vested stock options to purchase 119,816 of its common stock with a total value of \$603.9 million in conjunction with Marshall & Ilsley's acquisition of Gold Banc. Also during the second quarter of 2006, Marshall & Ilsley issued 3,069,328 shares of its common stock and exchanged fully vested stock options to purchase 412,317 of its common stock with a total value of \$148.3 million in conjunction with Marshall & Ilsley's acquisition of Trustcorp.

Marshall & Ilsley has a Stock Repurchase Program under which up to 12 million shares of Marshall & Ilsley's common stock can be repurchased annually. During 2006, Marshall & Ilsley repurchased 1.0 million shares at an aggregate cost of \$41.8 million or an average price of \$41.79 per common share. There were no purchases under the program in 2005.

At December 31, 2006, the net loss in accumulated other comprehensive income amounted to \$17.5 million which represents a positive change in accumulated other comprehensive income of \$19.7 million since December 31, 2005. Net accumulated other comprehensive income associated with available for sale investment securities was a net loss of \$22.0 million at December 31, 2006, compared to a net loss of \$36.3 million at December 31, 2005, resulting in a net gain of \$14.3 million over the twelve month period. The unrealized loss associated with the change in fair value of Marshall & Ilsley's derivative financial instruments designated as cash flow hedges declined \$0.6 million since December 31, 2005, resulting in a net increase in Shareholders' equity. Accumulated other comprehensive income also includes for the first time, a net unrealized gain of \$4.8 million which represents the amount required to adjust Marshall & Ilsley's postretirement health benefit liability to its funded status as of December 31, 2006 in accordance with the new accounting standard on employers' accounting for defined benefit pension and other postretirement plans.

In 2005, Marshall & Ilsley entered into an equity distribution agreement whereby Marshall & Ilsley may offer and sell up to 3.5 million shares of its common stock from time to time through certain designated sales agents. However, Marshall & Ilsley will not sell more than the number of shares of its common stock necessary for the aggregate gross proceeds from such sales to reach \$150.0 million. No sales occurred in 2006. The aggregate gross proceeds available for future sales were approximately \$143.3 million at December 31, 2006.

During the third quarter of 2004, Marshall & Ilsley and M&I Capital Trust B issued 16,000,000 units of Common SPACESSM. Each unit had a stated value of \$25.00 for an aggregate value of \$400.0 million. Each Common SPACES consisted of (i) a stock purchase contract under which the investor agreed to purchase for \$25, a fraction of a share of Marshall & Ilsley's common stock on the stock purchase date and (ii) a 1/40, or 2.5%, undivided beneficial interest in a preferred security of M&I Capital Trust B, also referred to as the STACKSSM, with each share having an initial liquidation amount of \$1,000. The stock purchase date was August 15, 2007.

Each stock purchase contract underlying a Common SPACES obligated the investor to purchase on the stock purchase date for an amount in cash equal to the \$25 stated amount of the Common SPACES, a number of shares of common stock equal to the settlement rate.

Table of Contents

The settlement rate for each purchase contract was set on August 15, 2007 and was 0.5767. Marshall & Ilsley issued approximately 9.2 million common shares to settle shares issuable pursuant to the stock purchase contracts. Before issuance of the common shares upon settlement of the stock purchase contracts, the stock purchase contracts were reflected in the diluted earnings per share calculations using the treasury stock method. Under the treasury stock method there was no dilutive effect on diluted earnings per share for the years ended December 31, 2006, 2005 and 2004.

Federal and state banking laws place certain restrictions on the amount of dividends and loans that a bank may make to its parent company. Such restrictions have not had, and are not expected to have, any material effect on Marshall & Ilsley's ability to meet its cash obligations.

Marshall & Ilsley manages its liquidity to ensure that funds are available to each of its banks to satisfy the cash flow requirements of depositors and borrowers and to ensure Marshall & Ilsley's own cash requirements are met. Marshall & Ilsley maintains liquidity by obtaining funds from several sources.

Marshall & Ilsley's most readily available source of liquidity is its investment portfolio. Investment securities available for sale, which totaled \$7.0 billion at December 31, 2006, represent a highly accessible source of liquidity. Marshall & Ilsley's portfolio of held-to-maturity investment securities, which totaled \$0.5 billion at December 31, 2006, provides liquidity from maturities and interest payments. Marshall & Ilsley's loans held for sale provide additional liquidity. These loans represent recently funded loans that are prepared for delivery to investors, which generally occurs within thirty to ninety days after the loan has been funded.

Depositors within Marshall & Ilsley's defined markets are another source of liquidity. Core deposits (demand, savings, money market and consumer time deposits) averaged \$20.3 billion in 2006. Marshall & Ilsley's banking affiliates may also access the Federal funds markets or utilize collateralized borrowings such as treasury demand notes or FHLB advances.

The banking affiliates may use wholesale deposits, which include foreign (Eurodollar) deposits. Wholesale deposits, which averaged \$7.3 billion in 2006, are funds in the form of deposits generated through distribution channels other than Marshall & Ilsley's own banking branches. These deposits allow Marshall & Ilsley's banking subsidiaries to gather funds across a national geographic base and at pricing levels considered attractive, where the underlying depositor may be retail or institutional. Access to wholesale deposits also provides Marshall & Ilsley with the flexibility to not pursue single service time deposit relationships in markets that have experienced some unprofitable pricing levels.

Marshall & Ilsley utilizes certain financing arrangements to meet its balance sheet management, funding, liquidity, and market or credit risk management needs. The majority of these activities are basic term or revolving securitization vehicles. These vehicles are generally funded through term-amortizing debt structures or with short-term commercial paper designed to be paid off based on the underlying cash flows of the assets securitized. These facilities provide access to funding sources substantially separate from the general credit risk of Marshall & Ilsley and its subsidiaries.

Marshall & Ilsley's lead bank, M&I Bank, has implemented a bank note program. During 2006, M&I Bank amended the bank note program into a global bank note program that permits it to issue up and sell up to a maximum of US\$13.0 billion aggregate principal amount (or the equivalent thereof in other currencies) at any one time outstanding of its senior global bank notes with maturities of seven days or more from their respective date of issue and subordinated global bank notes with maturities more than five years from their respective date of issue. The notes may be fixed rate or floating rate, and the exact terms will be specified in the applicable pricing supplement or the applicable program supplement. This program is intended to enhance liquidity by enabling M&I Bank to sell its debt instruments in global markets in the future without the delays that would otherwise be incurred. Bank notes outstanding at December 31, 2006, amounted to \$6.6 billion of which \$1.3 billion is subordinated and qualifies as supplementary capital for regulatory capital purposes.

Table of Contents

The national capital markets represent a further source of liquidity to Marshall & Ilsley. Marshall & Ilsley has filed a number of shelf registration statements that are intended to permit Marshall & Ilsley to raise funds through sales of corporate debt and/or equity securities with a relatively short lead time.

During the third quarter of 2005, Marshall & Ilsley amended the shelf registration statement originally filed with the Securities and Exchange Commission during the second quarter of 2004 to include the equity distribution agreement previously discussed. That amended shelf registration statement enables Marshall & Ilsley to issue various securities, including debt securities, common stock, preferred stock, depositary shares, purchase contracts, units, warrants, and trust preferred securities, up to an aggregate amount of \$3.0 billion. At December 31, 2006, approximately \$1.3 billion was available for future securities issuances.

During the fourth quarter of 2004, Marshall & Ilsley filed a shelf registration statement with the Securities and Exchange Commission that will enable Marshall & Ilsley to issue up to 6.0 million shares of its common stock which may be offered and issued from time to time in connection with acquisitions by Marshall & Ilsley, Metavante and/or other subsidiaries of Marshall & Ilsley. At December 31, 2006, there were 3.1 million shares of common stock available for future issuances.

Under another shelf registration statement, Marshall & Ilsley may issue up to \$0.6 billion of medium-term Series F notes with maturities ranging from 9 months to 30 years and at fixed or floating rates. As of December 31, 2006, \$250.0 million of Series F notes had been issued. Marshall & Ilsley may issue up to \$0.5 billion of medium-term MiNotes with maturities ranging from 9 months to 30 years and at fixed or floating rates. The MiNotes are issued in smaller denominations to attract retail investors. At December 31, 2006, MiNotes issued amounted to \$0.2 billion in aggregate principal amount. Additionally, Marshall & Ilsley has a commercial paper program. At December 31, 2006, commercial paper outstanding amounted to \$0.5 billion.

Table of Contents**Contractual Obligations**

The following table summarizes Marshall & Ilsley's more significant contractual obligations at December 31, 2006. Excluded from the following table are a number of obligations to be settled in cash. These items are reflected in Marshall & Ilsley's consolidated balance sheet and include deposits with no stated maturity, trade payables, accrued interest payable and derivative payables that do not require physical delivery of the underlying instrument.

Contractual Obligations	Note Ref	Total	Payments Due by Period (\$ in millions)			
			Less than One Year	One to Three Years	Three to Five Years	More than Five Years
Certificate of Deposit and Other Time Deposit Obligations	(1)	\$ 15,891.7	\$ 12,945.5	\$ 1,526.7	\$ 416.7	\$ 1,002.8
Short-term Debt Obligations	(2)	3,609.3	3,609.3			
Long-term Debt Obligations	(3)	13,993.5	3,334.3	3,594.3	3,137.3	3,927.6
Capital Lease Obligations		0.1	0.1			
Minimum Operating Lease Obligations		204.4	40.3	62.4	42.2	59.5
Obligations to Purchase Foreign Currencies	(4)	468.5	468.5			
Purchase Obligations Facilities (Additions, Repairs and Maintenance)		19.1	19.0	0.1		
Purchase Obligations Technology		88.4	85.4	2.6	0.4	
Purchase Obligations Other		15.5	8.2	7.3		
Other Obligations:						
Unfunded Investment Obligations	(5)	16.9	11.4	5.2	0.2	0.1
Defined Contribution Pension Obligations	(6)	67.5	67.5			
Health and Welfare Benefits	(7)					
Postretirement Benefit Obligations	(7)	7.0	7.0			
Total		\$ 34,381.9	\$ 20,596.5	\$ 5,198.6	\$ 3,596.8	\$ 4,990.0

Notes:

In the banking industry, interest-bearing obligations are principally utilized to fund interest-bearing assets. As such, interest charges on certificate of deposit and other time deposit obligations and short-term debt obligations were excluded from amounts reported, as the potential cash outflows would have corresponding cash inflows from interest-bearing assets. The same, although to a lesser extent, is the case with respect to interest charges on long-term debt obligations. As long-term debt obligations may be used for purposes other than to fund interest-bearing assets, an estimate of interest charges is included in the amounts reported.

- (1) Certain retail certificates of deposit and other time deposits give customers rights to early withdrawal. Early withdrawals may be subject to penalties. The penalty amount depends on the remaining time to maturity at the time of early withdrawal. Brokered certificates of deposits may be redeemed early upon the death or adjudication of incompetence of the holder.
- (2) See Note 14 in Notes to Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement for a description of Marshall & Ilsley's various short-term borrowings. Many short-term borrowings such as Federal funds purchased and security repurchase agreements and commercial paper are expected to be reissued and, therefore, do not necessarily represent an immediate need for cash.
- (3) See Note 15 in Notes to Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement for a

Table of Contents

description of Marshall & Ilsley's various long-term borrowings. The amounts shown in the table include interest on both fixed and variable rate obligations. The interest associated with variable rate obligations is based upon rates in effect at December 31, 2006. The contractual amounts to be paid on variable rate obligations are affected by changes in market interest rates. Future changes in market interest rates could materially affect the contractual amounts to be paid.

- (4) See Note 21 in Notes to Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement for a description of Marshall & Ilsley's foreign exchange activities. Marshall & Ilsley generally matches commitments to deliver foreign currencies with obligations to purchase foreign currencies which minimizes the immediate need for cash.
 - (5) Marshall & Ilsley also has unfunded obligations for certain investments in investment funds. Under the obligations for certain investments in investment funds Marshall & Ilsley could be required to invest an additional \$47.5 million if the investment funds identify and commit to invest in additional qualifying investments. The investment funds have limited lives and defined periods for investing in new qualifying investments or providing additional funds to existing investments. As a result, the timing and amount of the funding requirements for these obligations are uncertain and could expire with no additional funding requirements.
 - (6) See Note 19 in Notes to Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement for a description of Marshall & Ilsley's defined contribution program. The amount shown represents the unfunded contribution for the year ended December 31, 2006.
 - (7) The health and welfare benefit plans are periodically funded throughout each plan year with participant contributions and Marshall & Ilsley's portion of benefits expected to be paid.
- Marshall & Ilsley has generally financed its growth through the retention of earnings and the issuance of debt. It is expected that future growth can be financed through internal earnings retention, additional debt offerings, or the issuance of additional common or preferred stock or other capital instruments.

Off-Balance Sheet Arrangements

Three and Six Months Ended June 30, 2007 and 2006

As previously discussed, Marshall & Ilsley held all of the common interest in M&I Capital Trust A, which issued cumulative preferred capital securities which were supported by junior subordinated deferrable interest debentures and a full guarantee issued by Marshall & Ilsley. During the first quarter of 2007, Marshall & Ilsley exercised its call option on its \$200.0 million in principal amount of 7.65% junior subordinated deferrable interest debentures and the related cumulative preferred capital securities.

In conjunction with the 2006 banking acquisitions, Marshall & Ilsley acquired all of the common interests in four trusts that issued cumulative preferred capital securities which are supported by junior subordinated deferrable interest debentures in the principal amounts of \$16.0 million, \$30.0 million, \$38.0 million and \$15.0 million, respectively and full guarantees assumed by Marshall & Ilsley. Marshall & Ilsley does not consolidate these trusts in accordance with GAAP. At June 30, 2007, there have been no other substantive changes with respect to Marshall & Ilsley's off-balance sheet activities as disclosed in Marshall & Ilsley's Annual Report on Form 10-K for the year ended December 31, 2006. See Note 10 to the Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus - information statement for an update of Marshall & Ilsley's securitization activities in the second quarter of 2007. Marshall & Ilsley continues to believe that based on the off-balance sheet arrangements

Table of Contents

with which it is presently involved, such off-balance sheet arrangements neither have, nor are reasonably likely to have, a material impact to its current or future financial condition, results of operations, liquidity or capital.

Years Ended December 31, 2006, 2005 and 2004

The term off-balance sheet arrangement describes the means through which companies typically structure off-balance sheet transactions or otherwise incur risks of loss that are not fully transparent to investors or other users of financial information. For example, in many cases, in order to facilitate transfer of assets or otherwise finance the activities of an unconsolidated entity, a company may be required to provide financial support designed to reduce the risks to the entity or other third parties. That financial support may take many different forms such as financial guarantees, subordinated retained interests, derivative instruments or other contingent arrangements that expose the company to continuing risks or contingent liabilities regardless of whether or not they are recorded on the balance sheet.

Certain guarantees may be a source of potential risk to future liquidity, capital resources and results of operations. Guarantees may be in the form of contracts that contingently require the guarantor to make payments to the guaranteed party based on: (1) changes in an underlying instrument or variable such as a financial standby letter of credit; (2) failure to perform under an obligating agreement such as a performance standby letter of credit; and (3) indemnification agreements that require the indemnifying party to make payments to the indemnified party based on changes in an underlying instrument or variable that is related to an asset, a liability or an equity security of the indemnified party, such as an adverse judgment in a lawsuit. Marshall & Ilsley, for a fee, regularly enters into standby letters of credit transactions and provides certain indemnifications against loss in conjunction with software sales, merchant credit card processing and securities lending activities, which are described in detail in Notes 20 and 25 in Notes to Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement.

Companies may structure and facilitate off-balance sheet arrangements by retaining an interest in assets transferred to an unconsolidated entity. Such interests may be in the form of a subordinated retained interest in a pool of receivables transferred to an unconsolidated entity, cash collateral accounts, recourse obligations or other forms of credit, liquidity, or market risk support. These subordinated interests protect the senior interests in the unconsolidated entity in the event a portion of the underlying transferred assets becomes uncollectible or there are insufficient funds to repay senior interest obligations. Marshall & Ilsley uses such arrangements primarily in conjunction with its indirect automobile lending activities that are described in detail in Note 10 in Notes to Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement and in the discussion of critical accounting policies that follows this discussion.

As described in Note 15 in Notes to Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement, Marshall & Ilsley holds all of the common interest in M&I Capital Trust A and M&I Capital Trust B which issued cumulative preferred capital securities which are supported by junior subordinated deferrable interest debentures and a full guarantee issued by Marshall & Ilsley. In conjunction with the banking acquisitions completed in 2006, Marshall & Ilsley acquired all of the common interests in an additional four trusts that also issued cumulative preferred capital securities that are supported by junior subordinated deferrable interest debentures in the aggregate principal amounts of \$16.0 million, \$30.0 million, \$38.0 million and \$15.0 million, respectively and full guarantees assumed by Marshall & Ilsley. Marshall & Ilsley does not consolidate any of these six trusts in accordance with GAAP.

At December 31, 2006, Marshall & Ilsley did not hold any material variable interests in entities that provide it liquidity, market risk or credit risk support, or engage in leasing, hedging or research and development services with Marshall & Ilsley. Based on the off-balance sheet arrangements with which it is presently involved,

Table of Contents

Marshall & Ilsley does not believe that such off-balance sheet arrangements either have, or are reasonably likely to have, a material impact to its current or future financial condition, results of operations, liquidity or capital.

Critical Accounting Policies***Three and Six Months Ended June 30, 2007 and 2006***

Marshall & Ilsley has established various accounting policies which govern the application of accounting principles generally accepted in the United States in the preparation of Marshall & Ilsley's consolidated financial statements. The significant accounting policies of Marshall & Ilsley are described in the footnotes to the Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus-information statement. Certain accounting policies involve significant judgments and assumptions by management that may have a material impact on the carrying value of certain assets and liabilities. Management considers such accounting policies to be critical accounting policies. The judgments and assumptions used by management are based on historical experience and other factors, which are believed to be reasonable under the circumstances. Because of the nature of judgments and assumptions made by management, actual results could differ from these judgments and estimates which could have a material impact on the carrying values of assets and liabilities and the results of the operations of Marshall & Ilsley. Management continues to consider the following to be those accounting policies that require significant judgments and assumptions:

Allowance for Loan and Lease Losses

The allowance for loan and lease losses represents management's estimate of probable losses inherent in Marshall & Ilsley's loan and lease portfolio. Management evaluates the allowance each quarter to determine that it is adequate to absorb these inherent losses. This evaluation is supported by a methodology that identifies estimated losses based on assessments of individual problem loans and historical loss patterns of homogeneous loan pools. In addition, environmental factors, including economic conditions and regulatory guidance, unique to each measurement date are also considered. This reserving methodology has the following components:

Specific Reserve. Marshall & Ilsley's internal risk rating system is used to identify loans and leases that meet the criteria as being impaired under the definition in SFAS No. 114, Accounting by Creditors for Impairment of a Loan. A loan is impaired when, based on current information and events, it is probable that a creditor will be unable to collect all amounts due according to the contractual terms of the loan agreement. For impaired loans, impairment is measured using one of three alternatives: (1) the present value of expected future cash flows discounted at the loan's effective interest rate; (2) the loan's observable market price, if available; or (3) the fair value of the collateral for collateral dependent loans and loans for which foreclosure is deemed to be probable. In general, these loans have been internally identified as credits requiring management's attention due to underlying problems in the borrower's business or collateral concerns. Subject to a minimum size, a quarterly review of these loans is performed to identify the specific reserve necessary to be allocated to each of these loans. This analysis considers expected future cash flows, the value of collateral and also other factors that may impact the borrower's ability to make payments when due.

Collective Loan Impairment. This component of the allowance for loan and lease losses is comprised of two elements. First, Marshall & Ilsley makes a significant number of loans and leases, which due to their underlying similar characteristics, are assessed for loss as homogeneous pools. Included in the homogeneous pools are loans and leases from the retail sector and commercial loans under a certain size that have been excluded from the specific reserve allocation previously discussed. Marshall & Ilsley segments the pools by type of loan or lease and, using historical loss information, estimates a loss reserve for each pool.

The second element reflects management's recognition of the uncertainty and imprecision underlying the process of estimating losses. The internal risk rating system is used to identify those loans within certain industry

Table of Contents

segments that based on financial, payment or collateral performance, warrant closer ongoing monitoring by management. The specific loans mentioned earlier are excluded from this analysis. Based on management's judgment, reserve ranges are allocated to industry segments due to environmental conditions unique to the measurement period. Consideration is given to both internal and external environmental factors such as economic conditions in certain geographic or industry segments of the portfolio, economic trends, risk profile, and portfolio composition. Reserve ranges are then allocated using estimates of loss exposure that management has identified based on these economic trends or conditions.

The following factors were taken into consideration in determining the adequacy of the allowance for loan and lease losses at June 30, 2007:

The housing slowdown is impacting the performance of some of Marshall & Ilsley's construction and land development loans. A re-balancing of supply and demand within the national housing market has reduced both absorption rates and valuations causing stress for some borrowers within this loan segment. These loans are geographically dispersed and are in both Marshall & Ilsley's core and acquired loan portfolios.

At June 30, 2007, allowances for loan and lease losses continue to be carried for exposures to construction and land development loans, vacant residential land, manufacturing, healthcare, production agriculture (including dairy and cropping operations), truck transportation, accommodation, general contracting and motor vehicle and parts dealers. The majority of the commercial charge-offs incurred during the past three years were in these industry segments. While most loans in these categories are still performing, Marshall & Ilsley continues to believe these sectors present a higher than normal risk due to their financial and external characteristics. Reduced revenues causing a declining utilization of the industry's capacity levels can affect collateral values and the amounts realized through sale or liquidation.

During the second quarter of 2007, Marshall & Ilsley's commitments to shared national credits were approximately \$3.6 billion with usage averaging around 47%. Over time, many of Marshall & Ilsley's largest charge-offs have come from the shared national credit portfolio. At June 30, 2007, shared national credit nonperforming loans amounted to \$1.0 million after partial write-downs. Marshall & Ilsley's exposure to shared national credits is monitored closely given this lending group's loss experience.

Marshall & Ilsley's primary lending areas are Wisconsin, Arizona, Minnesota, Missouri and Florida. The vast majority of the assets acquired on April 1, 2006 from Gold Banc Corporation, Inc are in entirely new markets for Marshall & Ilsley. Included in these new markets are the Kansas City metropolitan area, Tulsa, Oklahoma, and Tampa, Sarasota and Bradenton, Florida. Each of these regions and markets has cultural and environmental factors that are unique to them. At June 30, 2007, the level of nonperforming loans for this portfolio segment was higher than Marshall & Ilsley's average level of nonperforming loans. In addition with the acquisition of United Heritage, the Orlando, Florida market is a new market for Marshall & Ilsley. Nonperforming loans and leases associated with the acquisition of United Heritage were insignificant at June 30, 2007.

At June 30, 2007, nonperforming loans and leases amounted to \$384.0 million or 0.89% of consolidated loans and leases compared to \$351.7 million or 0.83% of consolidated loans and leases at March 31, 2007, and \$198.0 million or 0.49% of consolidated loans and leases at June 30, 2006. Nonaccrual loans and leases continue to be the primary source of nonperforming loans and leases.

Net charge-offs amounted to \$23.6 million or 0.22% of average loans and leases in the second quarter of 2007 compared to \$14.7 million or 0.14% of average loans and leases in the first quarter of 2007 and \$9.9 million or 0.10% of average loans and leases in the second quarter of 2006. The ratio of recoveries to charge-offs was 16.2% and 17.6% for the three and six months ended June 30, 2007, respectively. Marshall & Ilsley's most recent five year average ratio of recoveries to charge-offs was 30.4%.

Based on the above loss estimates, management determined its best estimate of the required allowance for loans and leases. Management's evaluation of the factors described above resulted in an allowance for loan and

Table of Contents

lease losses of \$431.0 million or 1.00% of loans and leases outstanding at June 30, 2007. The allowance for loan and lease losses was \$420.6 million or 1.00% of loans and leases outstanding at December 31, 2006 and \$415.2 million or 1.03% of loans and leases outstanding at June 30, 2006. Consistent with the credit quality trends noted above, the provision for loan and lease losses amounted to \$26.0 million for the three months ended June 30, 2007 and \$43.2 million for the six months ended June 30, 2007. By comparison, the provision for loan and lease losses amounted to \$11.1 million for the three months ended June 30, 2006 and approximately \$22.1 million for the six months ended June 30, 2006. The resulting provisions for loan and lease losses are the amounts required to establish the allowance for loan and lease losses at the required level after considering charge-offs and recoveries. Management recognizes there are significant estimates in the process and the ultimate losses could be significantly different from those currently estimated.

Marshall & Ilsley has not materially changed any aspect of its overall approach in the determination of the allowance for loan and lease losses. There have been no material changes in assumptions or estimation techniques as compared to prior periods that impacted the determination of the current period allowance. However, on an on-going basis Marshall & Ilsley continues to refine the methods used in determining management's best estimate of the allowance for loan and lease losses.

Capitalized Software and Conversion Costs

Direct costs associated with the production of computer software that will be licensed externally or used in a service bureau environment are capitalized. Capitalization of such costs is subject to strict accounting policy criteria, although the appropriate time to initiate capitalization requires management judgment. Once the specific capitalized project is put into production, the software cost is amortized over its estimated useful life, generally four years. Each quarter, Marshall & Ilsley performs net realizable value tests to ensure the assets are recoverable. Such tests require management judgment as to the future sales and profitability of a particular product which involves, in some cases, multi-year projections. Technology changes and changes in customer requirements can have a significant impact on the recoverability of these assets and can be difficult to predict. Should significant adverse changes occur, estimates of useful life may have to be revised or write-offs would be required to recognize impairment. For the three months ended June 30, 2007 and 2006, the amount of software costs capitalized amounted to \$12.6 million and \$13.7 million, respectively. Amortization expense of software costs amounted to \$14.4 million for the three months ended June 30, 2007 compared to \$13.4 million for the three months ended June 30, 2006. For the six months ended June 30, 2007 and 2006, the amount of software costs capitalized amounted to \$26.7 million and \$25.0 million, respectively. Amortization expense of software costs amounted to \$28.7 million for the six months ended June 30, 2007 compared to \$27.6 million for the six months ended June 30, 2006.

Direct costs associated with customer system conversions to the data processing operations are capitalized. Upon completion of the conversion, data processing services are provided to the customer. To the extent such costs do not exceed deferred conversion revenue, the capitalized costs are recognized on the straight-line method over the expected customer relationship period, which is generally ten years.

Capitalization only occurs when management is satisfied that such costs are recoverable through future operations or penalties (buyout fees) in case of early termination. For the three months ended June 30, 2007 and 2006, the amount of conversion costs capitalized amounted to \$3.3 million and \$3.1 million, respectively. Amortization expense of conversion costs amounted to \$2.3 million and \$2.8 million for the three months ended June 30, 2007 and the three months ended June 30, 2006, respectively. For the six months ended June 30, 2007 and 2006, the amount of conversion costs capitalized amounted to \$6.0 million and \$5.5 million, respectively. Amortization expense of conversion costs amounted to \$4.6 million for the six months ended June 30, 2007 and \$5.0 million for the six months ended June 30, 2006.

Table of Contents

Net unamortized costs were (\$ in millions):

	June 30,	
	2007	2006
Software	\$ 157.8	\$ 152.5
Conversions	30.8	27.7
Total	\$ 188.6	\$ 180.2

Marshall & Ilsley has not substantively changed any aspect of its overall approach in the determination of the amount of costs that are capitalized for software development or conversion activities. There have been no material changes in assumptions or estimation techniques as compared to prior periods that impacted the determination of the periodic amortization of such costs.

Financial Asset Sales and Securitizations

Marshall & Ilsley has historically used certain financing arrangements to meet its balance sheet management, funding, liquidity, and market or credit risk management needs. The majority of these activities are basic term or revolving securitization vehicles. These vehicles are generally funded through term-amortizing debt structures or with short term commercial paper designed to be paid off based on the underlying cash flows of the assets securitized. These financing entities are contractually limited to a narrow range of activities that facilitate the transfer of or access to various types of assets or financial instruments. In certain situations, Marshall & Ilsley provides liquidity and/or loss protection agreements. In determining whether the financing entity should be consolidated, Marshall & Ilsley considers whether the entity is a qualifying special-purpose entity (QSPE) as defined in SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. For non-consolidation, a QSPE must be demonstrably distinct, have significantly limited permitted activities, hold assets that are restricted to transferred financial assets and related assets, and can sell or dispose of non-cash financial assets only in response to specified conditions.

In December 2003, Marshall & Ilsley adopted Financial Accounting Standards Board Interpretation No. 46 (FIN 46R), Consolidation of Variable Interest Entities (revised December 2003). This interpretation addresses consolidation by business enterprises of variable interest entities. Transferors to QSPEs and grandfathered QSPEs subject to the reporting requirements of SFAS 140 are outside the scope of FIN 46R and do not consolidate those entities. With respect to Marshall & Ilsley's securitization activities, the adoption of FIN 46R did not have an impact on its consolidated financial statements because its transfers are generally to QSPEs.

Marshall & Ilsley sells financial assets in a two-step process that results in a surrender of control over the assets as evidenced by true-sale opinions from legal counsel, to unconsolidated entities that securitize the assets. Marshall & Ilsley retains interests in the securitized assets in the form of interest-only strips and a cash reserve account. Gain or loss on sale of the assets depends in part on the carrying amount assigned to the assets sold allocated between the asset sold and retained interests based on their relative fair values at the date of transfer. The value of the retained interests is based on the present value of expected cash flows estimated using management's best estimates of the key assumptions - credit losses, prepayment speeds, forward yield curves and discount rates commensurate with the risks involved. Actual results can differ from expected results.

Marshall & Ilsley reviews the carrying values of the retained interests monthly to determine if there is a decline in value that is other than temporary and periodically reviews the propriety of the assumptions used based on current historical experience as well as the sensitivities of the carrying value of the retained interests to adverse changes in the key assumptions. Marshall & Ilsley believes that its estimates result in a reasonable carrying value of the retained interests.

For the three months ended June 30, 2007, net losses with the retained interests, held in the form of interest-only strips amounted to \$0.1 million and are included in net investment securities gains in the Consolidated Statements of Income. During the second quarter and first half of 2007, Marshall & Ilsley determined that there

Table of Contents

was a decline in the value of certain retained interests that was other than temporary because actual credit losses exceeded expected credit losses. Impairment losses of \$0.5 million were offset by realized gains of \$0.4 million for the three months ended June 30, 2007. For the six months ended June 30, 2007, impairment losses of \$1.0 million were offset by realized gains of \$1.0 million.

Marshall & Ilsley has historically sold automobile loans to an unconsolidated multi-seller special purpose entity commercial paper conduit in securitization transactions in which servicing responsibilities and subordinated interests were retained. The outstanding balances of automobile loans sold in these securitization transactions were \$787.4 million at June 30, 2007. At June 30, 2007, the carrying amount of retained interests amounted to \$33.2 million.

From time to time, Marshall & Ilsley also purchases and immediately sells, certain debt securities classified as available for sale that are highly rated to an unconsolidated bankruptcy remote QSPE whose activities are limited to issuing highly rated asset-backed commercial paper with maturities up to 180 days that is used to finance the purchase of the debt securities. In order to be sold, the debt securities must meet predetermined eligibility requirements that are primarily based on their credit rating. For the six months ended June 30, 2007, debt securities sold amounted to \$93.9 million. No gain or loss was realized from the sale of debt securities for the six months ended June 30, 2007. Highly rated investment securities in the amount of \$425.8 million were outstanding in the QSPE to support the outstanding commercial paper at June 30, 2007.

Marshall & Ilsley provides liquidity back-up in the form of liquidity purchase agreements. In addition, a subsidiary of Marshall & Ilsley has entered into interest rate swaps with the QSPE designed to counteract the interest rate risk associated with third party beneficial interests and the debt securities. The beneficial interests in the form of commercial paper have been issued to parties other than Marshall & Ilsley and its subsidiary or any other affiliates. The notional amounts do not exceed the amount of beneficial interests. The swap agreements do not provide the QSPE or its administrative agent any decision-making authority other than those specified in the standard ISDA Master Agreement. Generally, the interest rate risk associated with the interest rate swaps is the basis risk resulting from differences between commercial paper interest rates and LIBOR. Historically, that interest rate risk has not been material to Marshall & Ilsley and Marshall & Ilsley has chosen not to mitigate the risk of these swaps by entering into offsetting swap contracts with independent third parties. At June 30, 2007, the aggregate fair value of the interest rate swaps was a negative \$1.3 million.

Income Taxes

Income taxes are accounted for using the asset and liability method. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on tax assets and liabilities of a change in tax rates is recognized in the income statement in the period that includes the enactment date.

The determination of current and deferred income taxes is based on complex analyses of many factors, including interpretation of Federal and state income tax laws, the difference between tax and financial reporting basis of assets and liabilities (temporary differences), estimates of amounts currently due or owed, such as the timing of reversals of temporary differences and current accounting standards. The Federal and state taxing authorities who make assessments based on their determination of tax laws periodically review Marshall & Ilsley's interpretation of Federal and state income tax laws. Tax liabilities could differ significantly from the estimates and interpretations used in determining the current and deferred income tax liabilities based on the completion of taxing authority examinations.

Effective January 1, 2007, Marshall & Ilsley adopted the provisions of FASB Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109, and

Table of Contents

there was no effect on the consolidated financial statements. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in financial statements in accordance with FASB Statement No. 109, Accounting for Income Taxes. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

As of the date of adoption the total amount of unrecognized tax benefits was \$92.1 million, of which \$71.8 million related to benefits that, if recognized, would impact the annual effective tax rate. Upon adoption of FIN 48, Marshall & Ilsley changed its policy to include interest and penalties related to income tax liabilities in income tax expense. Prior to adoption of FIN 48, Marshall & Ilsley recorded interest and penalties related to income tax liabilities to other expense, a component of income before income taxes. Included in the total liability for unrecognized tax benefits as of the date of adoption is \$6.8 million of interest and no penalties.

Marshall & Ilsley, along with its subsidiaries, files income tax returns in the U.S. and various state jurisdictions. With limited exceptions, Marshall & Ilsley is no longer subject to examinations by federal and state taxing authorities for taxable years before 2003.

Marshall & Ilsley anticipates it is reasonably possible within 12 months of the adoption date that unrecognized tax benefits could be reduced up to approximately \$22 million. The reduction would principally result from settlements with taxing authorities as it relates to the tax benefits associated with a 2002 stock issuance.

Years Ended December 31, 2006, 2005 and 2004

Marshall & Ilsley has established various accounting policies that govern the application of accounting principles generally accepted in the United States in the preparation of Marshall & Ilsley's consolidated financial statements. The significant accounting policies of Marshall & Ilsley are described in the footnotes to the Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessors to New Marshall & Ilsley) included in this proxy statement/prospectus information statement. Certain accounting policies involve significant judgments and assumptions by management that may have a material impact on the carrying value of certain assets and liabilities. Management considers such accounting policies to be critical accounting policies. The judgments and assumptions used by management are based on historical experience and other factors, which are believed to be reasonable under the circumstances. Because of the nature of judgments and assumptions made by management, actual results could differ from these judgments and estimates which could have a material impact on the carrying values of assets and liabilities and the results of the operations of Marshall & Ilsley. Management continues to consider the following to be those accounting policies that require significant judgments and assumptions:

Allowance for Loan and Lease Losses

The allowance for loan and lease losses represents management's estimate of probable losses inherent in Marshall & Ilsley's loan and lease portfolio. Management evaluates the allowance each quarter to determine that it is adequate to absorb these inherent losses. This evaluation is supported by a methodology that identifies estimated losses based on assessments of individual problem loans and historical loss patterns of homogeneous loan pools. In addition, environmental factors, including economic conditions and regulatory guidance, unique to each measurement date are also considered. This reserving methodology has the following components:

Specific Reserve. Marshall & Ilsley's internal risk rating system is used to identify loans and leases that meet the criteria as being impaired under the definition in SFAS 114. A loan is impaired when, based on current information and events, it is probable that a creditor will be unable to collect all amounts due according to the contractual terms of the loan agreement. For impaired loans, impairment is measured using one of three alternatives: (1) the present value of expected future cash flows discounted at the loan's

Table of Contents

effective interest rate; (2) the loan's observable market price, if available; or (3) the fair value of the collateral for collateral dependent loans and loans for which foreclosure is deemed to be probable. In general, these loans have been internally identified as credits requiring management's attention due to underlying problems in the borrower's business or collateral concerns. Subject to a minimum size, a quarterly review of these loans is performed to identify the specific reserve necessary to be allocated to each of these loans. This analysis considers expected future cash flows, the value of collateral and also other factors that may impact the borrower's ability to make payments when due.

Collective Loan Impairment. This component of the allowance for loan and lease losses is comprised of two elements. First, Marshall & Ilsley makes a significant number of loans and leases, which due to their underlying similar characteristics, are assessed for loss as homogeneous pools. Included in the homogeneous pools are loans and leases from the retail sector and commercial loans under a certain size that have been excluded from the specific reserve allocation previously discussed. Marshall & Ilsley segments the pools by type of loan or lease and, using historical loss information, estimates a loss reserve for each pool.

The second element reflects management's recognition of the uncertainty and imprecision underlying the process of estimating losses. The internal risk rating system is used to identify those loans within certain industry segments that based on financial, payment or collateral performance, warrant closer ongoing monitoring by management. The specific loans mentioned earlier are excluded from this analysis. Based on management's judgment, reserve ranges are allocated to industry segments due to environmental conditions unique to the measurement period. Consideration is given to both internal and external environmental factors such as economic conditions in certain geographic or industry segments of the portfolio, economic trends, risk profile, and portfolio composition. Reserve ranges are then allocated using estimates of loss exposure that management has identified based on these economic trends or conditions.

Marshall & Ilsley has not materially changed any aspect of its overall approach in the determination of the allowance for loan and lease losses. There have been no material changes in estimation techniques as compared to prior periods that impacted the determination of the current period allowance. However, on an on-going basis Marshall & Ilsley continues to refine the methods used in determining management's best estimate of the allowance for loan and lease losses.

The following factors were taken into consideration in determining the adequacy of the allowance for loan and lease losses at December 31, 2006:

The recent slowdown in the housing market is having an impact on the performance of some of Marshall & Ilsley's construction and land development loans. A re-balancing of supply and demand within the national housing market has reduced both absorption rates and valuations causing stress for some borrowers within this loan segment. These loans are geographically dispersed and are in both Marshall & Ilsley's core and acquired loan portfolios. Marshall & Ilsley has taken these exposures into consideration in determining the adequacy of its allowance for loan and lease losses.

At December 31, 2006, allowances for loan and lease losses continue to be carried for exposures to manufacturing, healthcare, production agriculture (including dairy and cropping operations), truck transportation, accommodation, general contracting, motor vehicle and parts dealers and construction and land development loans secured by vacant land. The majority of the commercial charge-offs incurred in recent periods were in these industry segments. While most loans in these categories are still performing, Marshall & Ilsley continues to believe these sectors present a higher than normal risk due to their financial and external characteristics.

During the fourth quarter of 2006, Marshall & Ilsley's commitments to Shared National Credits were approximately \$3.7 billion with usage averaging around 48%. Many of Marshall & Ilsley's largest charge-offs have come from the Shared National Credit portfolio. Although these factors result in an increased risk profile, as of December 31, 2006, there were no Shared National Credit nonperforming loans. Marshall & Ilsley's exposure to Shared National Credits is monitored closely given this lending group's loss experience.

Table of Contents

Marshall & Ilsley's primary lending areas are Wisconsin, Arizona, Minnesota and Missouri. The vast majority of the assets acquired from Gold Banc are in entirely new markets for Marshall & Ilsley. Included in these new markets is the Kansas City metropolitan area, Tulsa, Oklahoma, and Tampa, Sarasota and Bradenton, Florida. Each of these regions and markets has cultural and environmental factors that are unique to them.

At December 31, 2006, nonperforming loans and leases amounted to \$268.0 million or 0.64% of consolidated loans and leases compared to \$140.6 million or 0.41% at December 31, 2005 and \$132.4 million or 0.45% at December 31, 2004. Nonperforming loans associated with the banking acquisitions amounted to \$61.6 million or approximately 23.0% of total nonperforming loans at December 31, 2006. Nonaccrual loans and leases increased \$130.2 million at year-end 2006 compared to year-end 2005. The net increase was primarily due to increases in all types of nonaccrual real estate loans.

Net charge-offs amounted to \$39.0 million or 0.10% of average loans and leases in 2006 compared with \$39.1 million or 0.12% of average loans and leases in 2005 and \$29.4 million or 0.11% of average loans and leases in 2004. The ratio of net charge-offs to average loans and leases to some extent reflects a higher than normal level of recoveries. However, the ratio of recoveries to charge-offs in 2006 trended closer to average historical experience. Although positive resolutions continue to be achieved on prior charge-offs, recoveries are expected to continue to trend downwards. Management expects net charge-offs to be more in the range of 0.15% to 0.20%.

Based on the above loss estimates, management determined its best estimate of the required allowance for loans and leases. Management's evaluation of the factors described above resulted in an allowance for loan and lease losses of \$420.6 million or 1.00% of loans and leases outstanding at December 31, 2006. The allowance for loan and lease losses was \$363.8 million or 1.06% of loans and leases outstanding at December 31, 2005. Consistent with the credit quality trends noted above, the provision for loan and lease losses amounted to \$50.6 million in 2006, compared to \$44.8 million and \$38.0 million in 2005 and 2004, respectively. The resulting provisions for loan and lease losses are the amounts required to establish the allowance for loan and lease losses at the required level after considering charge-offs and recoveries. Management recognizes there are significant estimates in the process and the ultimate losses could be significantly different from those currently estimated.

Capitalized Software and Conversion Costs

Direct costs associated with the production of computer software that will be licensed externally or used in a service bureau environment are capitalized. Capitalization of such costs is subject to strict accounting policy criteria, although the appropriate time to initiate capitalization requires management judgment. Once the specific capitalized project is put into production, the software cost is amortized over its estimated useful life, generally four years. Each quarter, Marshall & Ilsley performs net realizable value tests to ensure the assets are recoverable. Such tests require management judgment as to the future sales and profitability of a particular product which involves, in some cases, multi-year projections. Technology changes and changes in customer requirements can have a significant impact on the recoverability of these assets and can be difficult to predict. Should significant adverse changes occur, estimates of useful life may have to be revised or write-offs would be required to recognize impairment. For the years ended December 31, 2006 and 2005, the amount of software costs capitalized amounted to \$48.6 million and \$40.8 million, respectively. Amortization expense of software costs amounted to \$53.4 million and \$57.7 million for the years ended December 31, 2006 and 2005, respectively.

During 2004, Metavante determined that certain products had limited growth potential. As a result of strategic product reviews and the results of net realizable tests on these products, Metavante determined that the capitalized software and other assets associated with the products were impaired. Total capitalized software costs written off amounted to \$8.7 million and are included in other noninterest expense in 2004.

Direct costs associated with customer system conversions to the data processing operations are capitalized. Upon completion of the conversion, data processing services are provided to the customer. To the extent such costs do not exceed deferred conversion revenue, the capitalized costs are recognized on the straight-line method over the expected customer relationship period, which is generally ten years.

Table of Contents

Capitalization only occurs when management is satisfied that such costs are recoverable through future operations or buyout fees in case of early termination. For the years ended December 31, 2006 and 2005, the amount of conversion costs capitalized amounted to \$11.6 million and \$10.5 million, respectively. Amortization expense of conversion costs amounted to \$10.1 million and \$10.5 million for the years ended December 31, 2006 and 2005, respectively.

Net unamortized costs, which are included in Accrued Interest and Other Assets in the Consolidated Balance Sheets, at December 31, were (\$ in millions):

	2006	2005
Software	\$ 152.0	\$ 154.0
Conversions	28.8	26.7
Total	\$ 180.8	\$ 180.7

Marshall & Ilsley has not substantively changed any aspect to its overall approach in the determination of the amount of costs that are capitalized for software development or conversion activities. There have been no material changes in assumptions or estimation techniques as compared to prior periods that impacted the determination of the periodic amortization of such costs.

Financial Asset Sales and Securitizations

Marshall & Ilsley utilizes certain financing arrangements to meet its balance sheet management, funding, liquidity, and market or credit risk management needs. The majority of these activities are basic term or revolving securitization vehicles. These vehicles are generally funded through term-amortizing debt structures or with short-term commercial paper designed to be paid off based on the underlying cash flows of the assets securitized. These financing entities are contractually limited to a narrow range of activities that facilitate the transfer of or access to various types of assets or financial instruments. In certain situations, Marshall & Ilsley provides liquidity and/or loss protection agreements. In determining whether the financing entity should be consolidated, Marshall & Ilsley considers whether the entity is a QSPE as defined in SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. For non-consolidation, a QSPE must be demonstrably distinct, have significantly limited permitted activities, hold assets that are restricted to transferred financial assets and related assets, and can sell or dispose of non-cash financial assets only in response to specified conditions.

In December 2003, Marshall & Ilsley adopted FIN 46R, *Consolidation of Variable Interest Entities (revised December 2003)*. This interpretation addresses consolidation by business enterprises of variable interest entities. Transferors to QSPEs and grandfathered QSPEs subject to the reporting requirements of SFAS 140 are outside the scope of FIN 46R and do not consolidate those entities. With respect to Marshall & Ilsley's securitization activities, the adoption of FIN 46R did not have an impact on its consolidated financial statements because its transfers are generally to QSPEs.

Marshall & Ilsley sells financial assets in a two-step process that results in a surrender of control over the assets, as evidenced by true-sale opinions from legal counsel, to unconsolidated entities that securitize the assets. Marshall & Ilsley retains interests in the securitized assets in the form of interest-only strips and cash reserve accounts. Gain or loss on sale of the assets depends in part on the carrying amount assigned to the assets sold allocated between the asset sold and retained interests based on their relative fair values at the date of transfer. The value of the retained interests is based on the present value of expected cash flows estimated using management's best estimates of the key assumptions credit losses, prepayment speeds, forward yield curves and discount rates commensurate with the risks involved. Actual results can differ from expected results.

Marshall & Ilsley reviews the carrying values of the retained interests monthly to determine if there is a decline in value that is other than temporary and periodically reviews the propriety of the assumptions used based

Table of Contents

on current historical experience as well as the sensitivities of the carrying value of the retained interests to adverse changes in the key assumptions. Marshall & Ilsley believes that its estimates result in a reasonable carrying value of the retained interests.

Net gains associated with the retained interests, held in the form of interest-only strips amounted to \$0.9 million in 2006 compared to \$1.0 million in 2005 and are included in net investment securities gains in the Consolidated Statements of Income of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement. During 2006, Marshall & Ilsley realized \$4.0 million in gains that were offset by impairment losses of \$3.1 million. There were no impairment losses in 2005. The gains realized in 2006 and 2005 resulted from the excess of cash received over the carrying amount of certain interest-only strips. The impairment in 2006 was a result of the differences between the actual credit losses experienced compared to the expected credit losses used in measuring certain interest-only strips. Those impairments were deemed to be other than temporary.

Marshall & Ilsley regularly sells automobile loans to an unconsolidated multi-seller special purpose entity commercial paper conduit in securitization transactions in which servicing responsibilities and subordinated interests are retained. The outstanding balances of automobile loans sold in these securitization transactions were \$948.2 million and \$954.2 million at December 31, 2006 and 2005, respectively. At December 31, 2006 and 2005, the carrying amount of retained interests amounted to \$34.3 million and \$25.9 million, respectively.

Marshall & Ilsley also sells, from time to time, debt securities classified as available for sale that are highly rated to an unconsolidated bankruptcy remote QSPE whose activities are limited to issuing highly rated asset-backed commercial paper with maturities up to 180 days which is used to finance the purchase of the investment securities. Marshall & Ilsley provides liquidity back-up in the form of Liquidity Purchase Agreements. In addition, Marshall & Ilsley acts as counterparty to interest rate swaps that enable the QSPE to hedge its interest rate risk. Such swaps are designated as free standing derivative financial instruments in Marshall & Ilsley's Consolidated Balance Sheet.

At December 31, 2006, highly rated investment securities in the amount of \$358.9 million were outstanding in the QSPE to support the outstanding commercial paper.

Income Taxes

Income taxes are accounted for using the asset and liability method. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on tax assets and liabilities of a change in tax rates is recognized in the income statement in the period that includes the enactment date.

The determination of current and deferred income taxes is based on complex analyses of many factors, including interpretation of Federal and state income tax laws, the difference between tax and financial reporting basis of assets and liabilities (temporary differences), estimates of amounts currently due or owed, such as the timing of reversals of temporary differences and current accounting standards. The Federal and state taxing authorities who make assessments based on their determination of tax laws periodically review Marshall & Ilsley's interpretation of Federal and state income tax laws. Tax liabilities could differ significantly from the estimates and interpretations used in determining the current and deferred income tax liabilities based on the completion of taxing authority examinations.

In June 2006, FASB issued FIN 48, *Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement No. 109*. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in financial statements in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. FIN 48 prescribes a

Table of Contents

recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in an income tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

The provisions of FIN 48 were effective beginning January 1, 2007. The financial statement impact of adopting FIN 48 was not material.

New Accounting Pronouncements

A discussion of new accounting pronouncements that are applicable to Marshall & Ilsley and have been or will be adopted by Marshall & Ilsley is included in Note 1 in Notes to Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement.

Quantitative and Qualitative Disclosures About Market Risk

Three and Six Months Ended June 30, 2007 and 2006

Updated information regarding Marshall & Ilsley's use of derivative financial instruments is contained in Note 14 of the Notes to the Unaudited Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement.

Market risk arises from exposure to changes in interest rates, exchange rates, commodity prices, and other relevant market rate or price risk. Marshall & Ilsley faces market risk through trading and other than trading activities. While market risk that arises from trading activities in the form of foreign exchange and interest rate risk is immaterial to Marshall & Ilsley, market risk from other than trading activities in the form of interest rate risk is measured and managed through a number of methods.

Interest Rate Risk

Marshall & Ilsley uses financial modeling techniques to identify potential changes in income under a variety of possible interest rate scenarios. Financial institutions, by their nature, bear interest rate and liquidity risk as a necessary part of the business of managing financial assets and liabilities. Marshall & Ilsley has designed strategies to limit these risks within prudent parameters and identify appropriate risk / reward tradeoffs in the financial structure of the balance sheet.

The financial models identify the specific cash flows, repricing timing and embedded option characteristics of the assets and liabilities held by Marshall & Ilsley. Policies are in place to assure that neither earnings nor fair value at risk exceed appropriate limits. The use of a limited array of derivative financial instruments has allowed Marshall & Ilsley to achieve the desired balance sheet repricing structure while simultaneously meeting the desired objectives of both its borrowing and depositing customers.

The models used include measures of the expected repricing characteristics of administered rate (NOW, savings and money market accounts) and non-rate related products (demand deposit accounts, other assets and other liabilities). These measures recognize the relative insensitivity of these accounts to changes in market interest rates, as demonstrated through current and historical experiences. In addition to contractual payment information for most other assets and liabilities, the models also include estimates of expected prepayment characteristics for those items that are likely to materially change their payment structures in different rate environments, including residential mortgage products, certain commercial and commercial real estate loans and certain mortgage-related securities. Estimates for these sensitivities are based on industry assessments and are substantially driven by the differential between the contractual coupon of the item and current market rates for similar products.

Table of Contents

This information is incorporated into a model that allows the projection of future income levels in several different interest rate environments. Earnings at risk are calculated by modeling income in an environment where rates remain constant, and comparing this result to income in a different rate environment, and then dividing this difference by Marshall & Ilsley's budgeted operating income before taxes for the calendar year. Since future interest rate moves are difficult to predict, the following table presents two potential scenarios: a gradual increase of 100bp across the entire yield curve over the course of the year (+25bp per quarter), and a gradual decrease of 100bp across the entire yield curve over the course of the year (-25bp per quarter) for the balance sheet as of the indicated dates:

	Impact to Annual Pretax Income as of					As Historically
	June 30, 2007	March 31, 2007	December 31, 2006	Pro Forma September 30, 2006	September 30, 2006	Reported June 30, 2006
<i>Hypothetical Change in Interest Rate</i>						
100 basis point gradual:						
Rise in rates	(0.5)%	0.0%	0.5%	0.7%	(3.2)%	(0.3)%
Decline in rates	0.3%	(0.2)%	(0.6)%	(0.8)%	2.2%	0.3%

The results as of September 30, 2006 reflect the effect of mark-to-market accounting (versus hedge accounting) for certain interest rate swaps that Marshall & Ilsley determined did not qualify for hedge accounting as previously discussed. The interest rate swaps were designed to hedge the change in fair value or cash flows of the underlying assets or liabilities and have performed effectively as economic hedges. Prior period results as shown and previously reported, were based on the assumption that the affected interest rate swaps qualified for hedge accounting. Marshall & Ilsley terminated the affected interest rate swaps early in the fourth quarter of 2006 in order to eliminate the earnings volatility associated with fluctuations in valuations under mark-to-market accounting. The pro forma results as of September 30, 2006, assumes that the affected interest rate swaps were terminated on September 30, 2006.

These results are based solely on the modeled parallel changes in market rates, and do not reflect the earnings sensitivity that may arise from other factors such as changes in the shape of the yield curve and changes in spread between key market rates. These results also do not include any management action to mitigate potential income variances within the simulation process. Such action could potentially include, but would not be limited to, adjustments to the repricing characteristics of any on- or off-balance sheet item with regard to short-term rate projections and current market value assessments.

Actual results will differ from simulated results due to the timing, magnitude, and frequency of interest rate changes as well as changes in market conditions and management strategies.

Another component of interest rate risk is measuring the fair value at risk for a given change in market interest rates. Marshall & Ilsley also uses computer modeling techniques to determine the present value of all asset and liability cash flows (both on- and off-balance sheet), adjusted for prepayment expectations, using a market discount rate. The net change in the present value of the asset and liability cash flows in different market rate environments is the amount of fair value at risk from those rate movements. As of June 30, 2007, the fair value of equity at risk for a gradual 100bp shift in rates changed less than 2.0%.

Equity Risk

In addition to interest rate risk, Marshall & Ilsley incurs market risk in the form of equity risk. Marshall & Ilsley invests directly and indirectly through investment funds, in private medium-sized companies to help establish new businesses or recapitalize existing ones. These investments expose Marshall & Ilsley to the change in equity values for the portfolio companies. However, fair values are difficult to determine until an actual sale or liquidation transaction actually occurs. At June 30, 2007, the carrying value of total active capital markets investments amounted to approximately \$51.9 million.

Table of Contents

As of June 30, 2007, Marshall & Ilesley Wealth Management administered \$103.8 billion in assets and directly managed a portfolio of \$24.6 billion. Marshall & Ilesley is exposed to changes in equity values due to the fact that fee income is partially based on equity balances. Quantification of this exposure is difficult due to the number of other variables affecting fee income. Interest rate changes can also have an effect on fee income for the above stated reasons.

Years Ended December 31, 2006, 2005 and 2004

Market risk arises from exposure to changes in interest rates, exchange rates, commodity prices, and other relevant market rate or price risk. Marshall & Ilesley faces market risk through trading and other than trading activities. While market risk that arises from trading activities in the form of foreign exchange and interest rate risk is immaterial to Marshall & Ilesley, market risk from other than trading activities in the form of interest rate risk is measured and managed through a number of methods.

Interest Rate Risk

Marshall & Ilesley uses financial modeling techniques to identify potential changes in income under a variety of possible interest rate scenarios. Financial institutions, by their nature, bear interest rate and liquidity risk as a necessary part of the business of managing financial assets and liabilities. Marshall & Ilesley has designed strategies to limit these risks within prudent parameters and identify appropriate risk/reward tradeoffs in the financial structure of the balance sheet.

The financial models identify the specific cash flows, repricing timing and embedded option characteristics of the assets and liabilities held by Marshall & Ilesley. Policies are in place to assure that neither earnings nor fair value at risk exceed appropriate limits. The use of a limited array of derivative financial instruments has allowed Marshall & Ilesley to achieve the desired balance sheet repricing structure while simultaneously meeting the desired objectives of both its borrowing and depositing customers.

The models used include measures of the expected repricing characteristics of administered rate (NOW, savings and money market accounts) and non-rate related products (demand deposit accounts, other assets and other liabilities). These measures recognize the relative insensitivity of these accounts to changes in market interest rates, as demonstrated through current and historical experiences. In addition to contractual payment information for most other assets and liabilities, the models also include estimates of expected prepayment characteristics for those items that are likely to materially change their payment structures in different rate environments, including residential mortgage products, certain commercial and commercial real estate loans and certain mortgage-related securities. Estimates for these sensitivities are based on industry assessments and are substantially driven by the differential between the contractual coupon of the item and current market rates for similar products.

This information is incorporated into a model that allows the projection of future income levels in several different interest rate environments. Earnings at risk are calculated by modeling income in an environment where rates remain constant, and comparing this result to income in a different rate environment, and then dividing this difference by Marshall & Ilesley's budgeted operating income before taxes for the calendar year. Since future interest rate moves are difficult to predict, the following table presents two potential scenarios—a gradual increase of 100bp across the entire yield curve over the course of the year (+25bp per quarter), and a gradual decrease of 100bp across the entire yield curve over the course of the year (-25bp per quarter) for the balance sheet as of December 31, 2006:

	Impact to 2007
Hypothetical Change in Interest Rates	Pretax Income
100 basis point gradual rise in rates	0.5%
100 basis point gradual decline in rates	-0.6%

Table of Contents

These results are based solely on the modeled parallel changes in market rates, and do not reflect the earnings sensitivity that may arise from other factors such as changes in the shape of the yield curve and changes in spread between key market rates. These results also do not include any management action to mitigate potential income variances within the simulation process. Such action could potentially include, but would not be limited to, adjustments to the repricing characteristics of any on- or off-balance sheet item with regard to short-term rate projections and current market value assessments.

Actual results will differ from simulated results due to the timing, magnitude, and frequency of interest rate changes as well as changes in market conditions and management strategies.

Another component of interest rate risk is measuring the fair value at risk for a given change in market interest rates. Marshall & Ilsley also uses computer modeling techniques to determine the present value of all asset and liability cash flows (both on- and off-balance sheet), adjusted for prepayment expectations, using a market discount rate. The net change in the present value of the asset and liability cash flows in different market rate environments is the amount of fair value at risk from those rate movements. As of December 31, 2006 the fair value of equity at risk for a gradual 100bp shift in rates was less than 2.0% of the market value of Marshall & Ilsley.

Equity Risk

In addition to interest rate risk, Marshall & Ilsley incurs market risk in the form of equity risk. Marshall & Ilsley invests directly and indirectly through investment funds, in private medium-sized companies to help establish new businesses or recapitalize existing ones. These investments expose Marshall & Ilsley to the change in equity values for the companies of the portfolio companies. However, fair values are difficult to determine until an actual sale or liquidation transaction actually occurs. At December 31, 2006, the carrying value of total active capital markets investments amounted to approximately \$46.6 million.

At December 31, 2006, M&I Wealth Management administered \$95.5 billion in assets and directly managed \$22.5 billion in assets. Exposure exists to changes in equity values due to the fact that fee income is partially based on equity balances. Quantification of this exposure is difficult due to the number of other variables affecting fee income. Interest rate changes can also have an effect on fee income for the above-stated reasons.

UNAUDITED CONDENSED PRO FORMA CONSOLIDATED

FINANCIAL STATEMENTS OF NEW MARSHALL & ILSLEY

On April 3, 2007, Marshall & Ilsley, Merger Sub, Metavante, New Metavante and Investor entered into the investment agreement pursuant to which,

Marshall & Ilsley will separate into two publicly-traded companies: New Marshall & Ilsley, which will own and operate Marshall & Ilsley's banking business, the issued and outstanding common stock of which will be 100% owned by Marshall & Ilsley shareholders, and New Metavante, which will own and operate Metavante's business, the issued and outstanding common stock of which will be 75% owned by Marshall & Ilsley shareholders and the remaining 25% will be owned by Investor;

Marshall & Ilsley's shareholders will receive three shares of New Marshall & Ilsley common stock and one share of New Metavante common stock for every three shares of Marshall & Ilsley common stock held;

Investor will invest \$625 million in New Metavante for an equity interest representing 25% of New Metavante common stock;

New Metavante and/or one or more of its subsidiaries will incur approximately \$1.75 billion of indebtedness; and

Metavante will pay off certain intercompany indebtedness plus accrued and unpaid interest owed to Marshall & Ilsley (the amount currently owed is approximately \$982 million) and New Metavante will contribute to New Marshall & Ilsley \$1.665 billion in cash (which includes the \$625 million of proceeds from the sale of the New Metavante common stock to Investor).

As a result of completion of the transactions contemplated by the investment agreement,

each holder of Marshall & Ilsley common stock as of the effective time of the holding company merger will have received three shares of New Marshall & Ilsley common stock and one share of New Metavante common stock for every three shares of Marshall & Ilsley common stock held of record;

Investor will have received shares of New Metavante common stock that represent 25% of the shares of New Metavante common stock and a stock purchase right to acquire additional shares under certain circumstances in order to maintain its 25% ownership; and

each holder of Marshall & Ilsley common stock as of the effective time of the holding company merger that would otherwise be entitled to receive fractional shares of New Metavante common stock resulting from the holding company merger will have received cash in lieu of such fractional shares (and therefor will not receive shares of New Marshall & Ilsley common stock in respect of such fractional shares).

The shares of New Marshall & Ilsley common stock to be issued to the holders of Marshall & Ilsley common stock will represent 100% of the outstanding shares of New Marshall & Ilsley common stock and the shares of New Metavante common stock to be issued to the holders of Marshall & Ilsley common stock will represent 75% of the outstanding shares of New Metavante common stock.

See "The Transactions" Description of the Transactions beginning on page 59.

The unaudited condensed pro forma consolidated balance sheet of New Marshall & Ilsley reflects the unaudited condensed consolidated historical balance sheet of Marshall & Ilsley as of June 30, 2007 as if the transactions had occurred on that date. The unaudited condensed pro forma consolidated income statements of New Marshall & Ilsley reflect the operations of Marshall & Ilsley for the six months ended June 30,

Edgar Filing: MARSHALL & ILSLEY CORP/WI/ - Form DEFM14A

2007 and the operations of Marshall & Ilsley for the year ended December 31, 2006 as if the transactions had occurred on January 1, 2006 . The unaudited condensed pro forma consolidated income statements for the years ended

Table of Contents

December 31, 2005 and 2004, respectively, are derived from the historical financial statements of Marshall & Ilsley and have been adjusted only for the removal of operations of Metavante. Metavante's historical financial information has been re-formatted to conform to the Marshall & Ilsley's bank holding company format used in the presentation of unaudited condensed pro forma consolidated financial statements.

The unaudited condensed pro forma consolidated financial statements of New Marshall & Ilsley presented below are derived from the historical consolidated financial statements of Marshall & Ilsley and adjusted to give effect to, among other things:

the contribution of Marshall & Ilsley to New Marshall & Ilsley;

the distribution of approximately 257,112,705 shares of New Marshall & Ilsley common stock in connection with the New Marshall & Ilsley share distribution (based on the number of shares of Marshall & Ilsley outstanding as of June 30, 2007);

the receipt of certain amounts of cash from New Metavante; and

the removal of the operations of Metavante.

The share numbers and dollar and settlement amounts are based on Marshall & Ilsley share numbers and balances as of and for the periods presented.

Regardless of the exact legal order of the various transactions, items that impact New Metavante are reflected in the unaudited condensed pro forma consolidated financial statements of New Metavante and items that impact New Marshall & Ilsley are reflected in the unaudited condensed pro forma consolidated financial statements of New Marshall & Ilsley.

The pro forma adjustments are based upon available information and assumptions that management of New Marshall & Ilsley believes are reasonable; however, such adjustments are subject to change. In addition, such adjustments are estimates and may not prove to be accurate.

The unaudited condensed pro forma consolidated income statements presented below do not reflect any one-time charges or changes in certain costs expected to result from the transactions. Non-recurring charges related to the transaction, except for those costs actually incurred in the six months ended June 30, 2007, have been excluded from the unaudited condensed pro forma consolidated income statements. The additional estimated pre-tax, one-time charges that have been excluded include approximately \$12.2 million related to the issuance of equity-based awards and approximately \$19.7 million of transaction expenses. In addition, the unaudited condensed pro forma consolidated income statements do not give effect to reductions in certain costs New Marshall & Ilsley expects to occur associated with operating as a stand-alone company.

The unaudited condensed pro forma consolidated financial statements are for illustrative purposes only and do not reflect what New Marshall & Ilsley's consolidated financial position or results of operations would have been had the transactions occurred on the dates indicated and are not indicative of New Marshall & Ilsley's future financial position and future results of operations. The consolidated financial statements of New Marshall & Ilsley will reflect the effects of the transactions only from the date of completion of the transactions.

The unaudited condensed pro forma consolidated financial statements should be read in conjunction with the accompanying notes and the other financial information included or incorporated by reference elsewhere in this proxy statement/prospectus information statement.

Notes to Unaudited Condensed Pro Forma Consolidated Balance Sheet of New Marshall & Ilsley as of June 30, 2007.

(1) Represents the de-consolidation of historical Metavante from historical Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) consolidated balance sheet. The amounts shown in the Historical Consolidated Metavante column may not directly reconcile to the historical consolidated balance sheet of Metavante because the presentation of financial statements for bank holding companies is significantly different than the presentation of financial statements of technology companies. Metavante presents a classified consolidated balance sheet that separates current assets and current liabilities from longer-term assets and liabilities whereas the consolidated balance sheet of Marshall & Ilsley does not make those distinctions. In addition, the amounts shown in the Historical Consolidated Metavante column include the adjustments for intercompany cash and deposits, receivables and payables and intercompany debt that are required to de-consolidate the financial information of the two companies.

(2) Represents receipt of cash dividend from New Metavante. The cash dividend received will come from the following sources:

Working capital	\$ 290,000
Investor capital	625,000
New debt proceeds	750,000
Total dividend	 \$ 1,665,000

- (3) Represents receipt of \$982.0 million in cash to retire Metavante's debt owed to Marshall & Ilsley.
- (4) Assumes \$290.0 million of the cash dividend comes from Metavante's existing cash balances that are deposited with a Marshall & Ilsley subsidiary bank and \$1,375.0 million of the dividend and the \$982.0 million debt payment received are used to retire short-term borrowings in the form of Federal funds purchased.
- (5) The pro forma consolidated balance sheet only includes the effect of transaction costs incurred by Marshall & Ilsley through June 30, 2007. The total estimated transaction related costs expected to be incurred by New Marshall & Ilsley is approximately \$35.0 million.

Notes to the Unaudited Condensed Pro Forma Consolidated Income Statement of New Marshall & Ilsley for the Six Months Ended June 30, 2007.

Edgar Filing: MARSHALL & ILSLEY CORP/WI/ - Form DEFM14A

- (1) Represents the de-consolidation of historical Metavante from historical Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) consolidated income statement. The amounts shown in the Historical Consolidated Metavante column may not directly reconcile to the historical consolidated income statement of Metavante because the presentation of financial statements for bank holding companies is significantly different than the presentation of financial statements of technology companies. Metavante presents its expenses in two major categories that are functional in nature whereas the consolidated income statement of Marshall & Ilsley presents its consolidated expenses by type of expense. In addition, the amounts shown in the Historical Consolidated Metavante column include the adjustments for intercompany interest income, interest expense, revenues and expenses that are required to de-consolidate the financial information of the two companies.

- (2) Represents the interest income adjustment due to retirement of \$982.0 million of Metavante's fixed rate debt owed to Marshall & Ilsley. The weighted average fixed interest rate used in the pro forma adjustments was 4.40%.

Table of Contents

- (3) Represents interest expense adjustments resulting from the dividend paid by New Metavante to Marshall & Ilsley and the retirement of Metavante's debt owed to Marshall & Ilsley. The pro forma adjustments assume \$290.0 million of the dividend comes from Metavante's existing cash balances using an estimated rate of 5.01%, which is equal to the average interest rate paid on overnight deposits for the six months ended June 30, 2007. The pro forma adjustments also assume that the remaining cash of \$2,357.0 million is used to reduce Federal funds purchased using an estimated rate of 5.31% which is equal to the average interest rate paid on Federal funds purchased for the six months ended June 30, 2007.

An increase or decrease in interest rates of 12.5 basis points (1/8th) would increase or decrease interest expense by \$1,654 and increase or decrease pro forma net income by \$1,075.

- (4) Assumes a statutory income tax rate of 35%.
- (5) The pro forma consolidated income statement only includes the effect of transaction costs incurred by Marshall & Ilsley in the six months ended June 30, 2007 and does not include the estimated transaction related costs expected to be incurred by New Marshall & Ilsley of approximately \$31.9 million.
- (6) The dilutive effect of stock options outstanding depends on the price of New Marshall & Ilsley common stock after the transaction is completed and is therefore not subject to a reliable estimate.

Notes to the Unaudited Condensed Pro Forma Consolidated Income Statement of New Marshall & Ilsley For the Twelve Months Ended December 31, 2006.

- (1) Represents the de-consolidation of historical Metavante from historical Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) consolidated income statement. The amounts shown in the Historical Consolidated Metavante column may not directly reconcile to the historical consolidated income statement of Metavante because the presentation of financial statements for bank holding companies is significantly different than the presentation of financial statements of technology companies. Metavante presents its expenses in two major categories that are functional in nature whereas the consolidated income statement of Marshall & Ilsley presents its consolidated expenses by type of expense. In addition, the amounts shown in the Historical Consolidated Metavante column include the adjustments for intercompany interest income, interest expense, revenues and expenses that are required to de-consolidate the financial information of the two companies.

Table of Contents

- (2) Represents the interest income adjustment due to retirement of \$982.0 million of Metavante's fixed rate debt owed to Marshall & Ilsley. The weighted average fixed interest rate used in the pro forma adjustments was 4.40%.

- (3) Represents interest expense adjustments resulting from the dividend paid by New Metavante to Marshall & Ilsley and the retirement of Metavante's debt owed to Marshall & Ilsley. The pro forma adjustments assume \$290.0 million of the dividend comes from Metavante's existing cash balances using an estimated rate of 4.76%, which is equal to the average interest rate paid on overnight deposits. The pro forma adjustments also assume that the remaining cash of \$2,357.0 million is used to reduce Federal funds purchased using an estimated rate of 5.04%, which is equal to the average interest rate paid on Federal funds purchased for the twelve months ended December 31, 2006.

An increase or decrease in interest rates of 12.5 basis points (1/8th) would increase or decrease interest expense by \$3,309 and increase or decrease pro forma net income by \$2,151.

- (4) Assumes a statutory income tax rate of 35%.

- (5) The pro forma consolidated income statement does not include the effect of the estimated transaction related costs expected to be incurred by New Marshall & Ilsley.

- (6) The dilutive effect of stock options outstanding depends on the price of New Marshall & Ilsley common stock after the transaction is completed and is therefore not subject to a reliable estimate.

Corporate Governance Matters

Board of Directors

Director Independence

New Marshall & Ilsley expects to adopt the standards set forth in Section 303A of the NYSE Corporate Governance Listing Standards (the NYSE Listing Standards) to determine a director's independence. Unless the board of directors determines otherwise, a director of New Marshall & Ilsley who otherwise meets the NYSE Listing Standards will not fail to be deemed independent for purposes of the NYSE Listing Standards solely as a result of the following relationships:

1. Lending and Banking Relationships

Lending relationships, deposit relationships or other banking relationships (such as depository, transfer, registrar, indenture trustee, trusts and estates, private banking, investment management, custodial, securities brokerage, cash management and similar services) between New Marshall & Ilsley and its subsidiaries, on the one hand, and the director or a company with which the director is affiliated by reason of being a director, officer or a significant shareholder thereof, on the other, provided that

such relationships are in the ordinary course of business of New Marshall & Ilsley and are on substantially the same terms as those prevailing at the time for comparable transactions with non-affiliated persons; and

with respect to extensions of credit by New Marshall & Ilsley or its subsidiaries to any such person or company, such extensions of credit:

have been made in compliance with applicable law, including Regulation O of the Board of Governors of the Federal Reserve and Section 13(k) of the Securities Exchange Act of 1934; and

no event of default has occurred and is continuing under the loan.

2. Other Business Relationships

where a director was, more than three years ago, an employee of New Marshall & Ilsley, or where an immediate family member of a director was, more than three years ago, an executive officer of New Marshall & Ilsley;

where a director, or an immediate family member of such director, has received direct compensation from New Marshall & Ilsley in an amount equal to or less than \$100,000, other than any director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service), during any 12-month period within the last three years, or in any amount prior to the last three years;

(i) where a director, or an immediate family member of such director, was but is not currently a partner of New Marshall & Ilsley's internal or external auditing firm; (ii) where a director was but is not currently an employee of such a firm; (iii) where a director has an immediate family member who was but is not currently an employee of such a firm and who participated in the firm's audit, assurance or tax compliance practice; or (iv) where a director, or an immediate family member of such director, was a partner or employee of such a firm more than three years ago;

Edgar Filing: MARSHALL & ILSLEY CORP/WI/ - Form DEFM14A

where a director was, more than three ago, employed as an executive officer of another company where any of New Marshall & Ilsley's present executive officers at the same time served on that company's compensation committee;

where a director is a current employee, or has an immediate family member who is a current executive officer, of a company that has made payments (including payments of interest and other loan fees) to, or received payments from, New Marshall & Ilsley for property or services in an amount which, in any of New Marshall & Ilsley's last three fiscal years, was equal to or less than the greater of \$1 million or

Table of Contents

2% of such other company's consolidated gross revenues, or in any amount prior to New Marshall & Ilsley's last three fiscal years; and

where a director is or was an executive officer of any tax exempt organization to which New Marshall & Ilsley made contributions in an amount equal to or less than the greater of \$1 million or 2% of such tax exempt organization's consolidated gross revenues in any of New Marshall & Ilsley's last three fiscal years, or in any amount prior to New Marshall & Ilsley's last three fiscal years.

For purposes of the foregoing, the term "immediate family member" shall have the meaning set forth in the commentary to Section 303A.02(b).

Unless the board of directors of New Marshall & Ilsley determines otherwise, the relationships described in paragraphs 1 and 2 immediately above will be deemed to be "immaterial" for purposes of Section 303A.02 of the NYSE Listing Standards. New Marshall & Ilsley may add one or more categorical standards.

Communications with Directors

The non-management directors of New Marshall & Ilsley expect to have two regularly scheduled executive sessions per year and to hold additional executive sessions as requested. The board of directors, based upon a review and recommendation of the nominating committee, expects to appoint a director to preside at the executive sessions of the non-management directors. Parties who wish to communicate directly with the presiding director or with the non-management directors as a group may direct written communications to the presiding director at New Marshall & Ilsley's corporate headquarters care of the corporate secretary. The corporate secretary of New Marshall & Ilsley will forward all communications to the presiding director unless otherwise instructed by the non-management directors.

Directors are expected to attend each regular and special meeting of the board of directors and of each board committee on which the director serves. Directors are also expected to attend the annual meeting of shareholders. Although the New Marshall & Ilsley's amended and restated by-laws will authorize members of the board of directors and board committees to participate in and act at a meeting through the use of telephonic or other communication equipment, the personal attendance of directors at such meetings is preferred.

Code of Conduct and Business Ethics and Corporate Governance Guidelines

New Marshall & Ilsley also expects that it will adopt (i) a code of conduct and business ethics that will apply to directors, officers and employees and (ii) corporate governance guidelines. Copies of these documents will be available on New Marshall & Ilsley's website at www.micorp.com and will be available in print to any person, without charge, upon written request to the corporate secretary.

Corporate Governance Documents

Certain documents relating to corporate governance matters will be available on New Marshall & Ilsley's web site at www.micorp.com. These documents will include, among others, the following:

charter for the audit committee of the board of directors;

charter for the compensation and human resources committee of the board of directors;

charter for the nominating committee of the board of directors;

categorical standards for lending, banking and other business relationships involving the company's directors;

code of conduct and business ethics; and

Table of Contents

corporate governance guidelines.

Shareholders will also be able to obtain a copy of any of these documents free of charge by calling the New Marshall & Ilsley Shareholder Information Line at 1-800-642-2657. Information contained on any of New Marshall & Ilsley's or any of its subsidiaries' web sites is not deemed to be a part of this proxy statement/prospectus information statement.

Annual Meeting

New Marshall & Ilsley's amended and restated by-laws will provide that an annual meeting of shareholders will be held each year on the fourth Tuesday in the month of April, or at such time and/or date as shall be fixed by the corporate secretary or the board of directors.

Committees of the Board of Directors

Pursuant to New Marshall & Ilsley's amended and restated by-laws, the New Marshall & Ilsley board of directors will be permitted to establish committees from time to time as it deems appropriate. Initially, to facilitate independent director review and to make the most effective use of the directors' time and capabilities, it is expected that the New Marshall & Ilsley board of directors will establish the following committees:

compensation and human resources committee;

audit committee;

nominating and corporate governance committee;

retirement investment committee; and

risk management committee.

The membership and function of each committee are described below.

Compensation and Human Resources Committee

It is expected that the compensation and human resources committee, which we refer to as the compensation committee, will be appointed to discharge the board's responsibilities relating to the compensation of New Marshall & Ilsley's executive officers. The compensation committee will be responsible for, among other things, reviewing performance criteria used in establishing appropriate compensation, retention, incentive compensation, severance and benefit policies and programs applicable to the executive officers of New Marshall & Ilsley. The compensation committee charter will require that the compensation committee annually review and approve corporate goals and objectives for purposes of determining the Chief Executive Officer's compensation, evaluate the Chief Executive Officer's performance in light of such goals and objectives, and set the Chief Executive Officer's compensation level based on this evaluation.

The compensation committee will also be charged with periodically reviewing and approving or making recommendations to the board of directors with respect to the adoption of or material changes in employee benefit and compensation plans. In addition, the compensation committee will be required to periodically review and approve, for the Chief Executive Officer and the other named executive officers: annual base salary levels; annual incentive opportunity levels; long-term incentive opportunity levels; employment, severance and change-in-control agreements; material perquisites or other in-kind benefits; and any other special or supplemental benefits, in each case, when and if appropriate.

Other duties of the compensation committee pursuant to its charter will include reviewing and recommending to the board of directors all persons to be elected as Chairman, Chief Executive Officer,

Table of Contents

President, and Chief Financial Officer of New Marshall & Ilsley; periodically reviewing the succession plan for the Chief Executive Officer; and reviewing director fees and retainers on a periodic basis and recommending any changes to the board of directors.

The compensation committee will have the power to delegate to its chairperson such power and authority as it deems appropriate, except as prohibited by law. The compensation committee will have the sole authority to retain and terminate any compensation consultant to be used to assist in the evaluation of executive compensation and will be able to approve the consultant's fees and other retention terms. The compensation committee also will have the authority to obtain advice and assistance from internal or external legal, accounting or other advisors.

The members of the compensation committee are expected to be Messrs. Wardeberg (Chairman), O Toole and Shiely, all of whom are expected to be determined independent under the NYSE Listing Standards. Additional information relating to the compensation committee may be found under the heading Compensation of Executive Officers of New Marshall & Ilsley Compensation Discussion and Analysis in this proxy statement/prospectus information statement.

Audit Committee

The audit committee is expected to be a separately-designated standing committee of the board of directors as defined by Section 3(a)(58)(A) of the Exchange Act. The audit committee will have responsibility for, among other things, (a) appointing or replacing New Marshall & Ilsley's independent auditors, (b) overseeing the work of the independent auditors (including resolution of any disagreements between management and the auditors regarding financial reporting), (c) reviewing the independent auditors' performance, qualifications and independence, (d) approving all auditing and permitted non-auditing services to be performed by the independent auditors with limited exceptions, (e) reviewing New Marshall & Ilsley's financial statements, internal audit function and system of internal controls, (f) overseeing compliance by New Marshall & Ilsley with legal and regulatory requirements and with New Marshall & Ilsley's code of business conduct and ethics, and (g) producing the report required by federal securities regulations for inclusion in the New Marshall & Ilsley's proxy statement. The members of the audit committee are expected to be Messrs. Orr (Chair), O Toole and Ms. Lyall, all of whom are expected to be determined independent under the NYSE Listing Standards. New Marshall & Ilsley expects that the board of directors will determine that Mr. Orr is an audit committee financial expert and independent as defined under applicable SEC rules.

Nominating Committee

The nominating committee will be responsible for (a) identifying new candidates who are qualified to serve as directors of New Marshall & Ilsley, (b) recommending to the board of directors the candidates for election to the board of directors and for appointment to the board of director's committees, (c) considering any nominations for director submitted by shareholders, (d) developing, and recommending to the board of directors, and thereafter periodically reviewing, the corporate governance Guidelines and principles applicable to New Marshall & Ilsley, and (e) monitoring and advising the board of directors on corporate governance matters and practices. The members of the nominating committee are expected to be Messrs. Platten (Chair), Chait and Daniels, all of whom New Marshall & Ilsley expects to be determined independent under the NYSE Listing Standards.

The nominating committee will consider candidates nominated by shareholders in accordance with the procedures set forth in the New Marshall & Ilsley's amended and restated by-laws. Under the New Marshall & Ilsley's amended and restated by-laws, nominations other than those made by the board of directors or the nominating committee, must be made pursuant to timely notice in proper written form to the secretary of New Marshall & Ilsley. To be timely, a shareholder's request to nominate a person for election to the board of directors, together with the written consent of such person to serve as a director, must be received by the

Table of Contents

secretary of New Marshall & Ilsley not less than 90 days prior to the anniversary date of the annual meeting of shareholders in the immediately preceding year. To be in proper written form, the notice must contain certain information concerning the nominee and the shareholder submitting the nomination.

Under New Marshall & Ilsley's amended and restated by-laws, no person is eligible to be elected a director at a meeting of shareholders held on or after the date he or she attains the age of 72, although the board of directors, at its discretion, may waive the age limitation or establish a greater age from time to time.

In addition, the nominating committee is expected to adopt guidelines for evaluating and selecting candidates for election to the board of directors. Under these proposed guidelines, each director should:

be an individual of the highest character and integrity and have an inquiring mind, vision and the ability to work well with others;

be free of any conflict of interest which would violate any applicable law or regulation or interfere with the proper performance of the responsibilities of a director;

possess substantial and significant experience which would be of value to New Marshall & Ilsley in the performance of the duties of a director; and

have sufficient time available to devote to the affairs of New Marshall & Ilsley in order to carry out the responsibilities of a director. The nominating committee will evaluate eligible shareholder-nominated candidates for election to the board of directors in accordance with the selection guidelines. The full text of the guidelines can be found in the nominating committee's charter, which will be available on New Marshall & Ilsley's web site described above.

Retirement Investment Committee

The retirement investment committee will be responsible for reviewing the activities of and decisions made by the trustees of, and the investment managers for, New Marshall & Ilsley's retirement program. The members of the retirement investment committee are expected to be Messrs. Kellner (Chair), Baur, Chait and Mellowes.

Risk Management Committee

The risk management committee will be responsible for assisting the board of directors in fulfilling its oversight responsibilities with respect to the risks inherent in the businesses of New Marshall & Ilsley and its subsidiaries and the control processes relating to such risks. The members of the risk management committee are expected to be Messrs. Daniels (Chair), Lubar and Wigdale and Ms. Waller.

Table of Contents

COMPENSATION OF EXECUTIVE OFFICERS OF NEW MARSHALL & ILSLEY

Compensation Discussion and Analysis

The following constitutes the Compensation Discussion and Analysis of Marshall & Ilsley. It is expected that the executive compensation program currently in place at Marshall & Ilsley, as described below, will continue at New Marshall & Ilsley following consummation of the transactions contemplated in the transaction agreements. The expected executive compensation program of New Metavante after the completion of the transactions is described below under Compensation of Executive Officers of New Metavante Compensation Discussion and Analysis of New Metavante beginning on page 339.

Compensation Philosophy, Policies and Objectives

Marshall & Ilsley believes that a strong management team comprised of the most talented individuals in key positions is critical to the profitability of Marshall & Ilsley, and Marshall & Ilsley's executive compensation program is an important tool for attracting and retaining such individuals. Therefore, it is vital that Marshall & Ilsley's named executive officers receive an aggregate compensation package that is both competitive with the compensation received by similarly-situated executive officers at peer group companies and also reflective of each individual named executive officer's contributions to the success of Marshall & Ilsley on both a long-term and short-term basis. The objectives of Marshall & Ilsley's compensation program, as discussed below, are designed to execute this philosophy.

Marshall & Ilsley's executive compensation program is designed with two main objectives:

to offer a competitive total compensation value that will allow Marshall & Ilsley to continue to attract, retain and motivate highly talented individuals to fill key positions; and

to align a significant portion of each executive's total compensation with the annual and long-term performance of Marshall & Ilsley and the interests of Marshall & Ilsley's shareholders.

With these objectives serving as a foundation, Marshall & Ilsley seeks to reward leadership, innovation and entrepreneurship among its executive officers' qualities that are assessed in each executive in light of both the historical financial performance of Marshall & Ilsley and the executive's role in ensuring the future financial success of Marshall & Ilsley. These objectives are reflected in the charter of the compensation committee, which, among other things, directs the compensation committee to consider such factors as Marshall & Ilsley's performance and relative shareholder return, and the value of similar incentive grants or awards to chief executive officers at similar companies in determining the Chief Executive Officer's compensation.

Administration and Process

Marshall & Ilsley's executive compensation program is administered by the compensation committee. The compensation committee does not use formulaic or mechanical procedures in determining compensation amounts or allocation of specific elements of compensation, or in determining types of awards to be granted. Rather, the compensation committee, with input from Marshall & Ilsley's compensation consultant, Hewitt Associates, establishes base salary and target performance levels based on a number of factors that are designed to further Marshall & Ilsley's executive compensation objectives, including Marshall & Ilsley's performance, the compensation received by similarly-situated executive officers at peer group companies, the conditions of the markets in which Marshall & Ilsley operates, and the relative earnings performance of peer group companies. For certain executive officers, the financial performance of the business unit or division for which the executive has responsibility may receive a proportionately larger consideration by the compensation committee.

The compensation committee regularly reviews the overall compensation of Marshall & Ilsley's named executive officers. In 2006, Hewitt Associates presented a report to the compensation committee comparing

Table of Contents

Marshall & Ilsley's performance, size and executive compensation levels to those of peer group companies. Hewitt Associates also reviewed with the compensation committee the base salaries, annual bonuses, total cash compensation, long-term compensation and total compensation of Marshall & Ilsley's senior executive officers relative to those companies. The performance comparison presented to the compensation committee each year includes a comparison of Marshall & Ilsley's total shareholder return, earnings per share growth, return on tangible equity and return on assets to the peer group companies on one-, three- and five-year bases. The compensation committee reviews this information along with tally sheets setting forth the components of each named executive officer's compensation.

Peer Group

As more fully described herein, one of the factors considered by the compensation committee is the relative performance of and the compensation of executives in peer group companies. The peer group is comprised of a subset of the companies included in the Keefe, Bruyette & Woods 50 Bank Index (the KBW 50 Index) that provide relevant comparative information because the nature and scope of their businesses and the size of their asset holdings are similar to those of Marshall & Ilsley. The composition of the peer group is reviewed annually and companies are added or removed from the group as circumstances warrant. For the last year, the peer group companies were:

AmSouth Bancorporation;

Associated Banc-Corp.;

BB&T Corporation;

Colonial Bancgroup Inc.;

Comerica Incorporated;

Commerce Bancorp, Inc.;

Compass Bancshares Inc.;

Fifth Third Bancorp;

First Horizon National Corporation;

Huntington Bancshares Inc.;

KeyCorp;

Northern Trust Corporation;

PNC Financial Services Group, Inc.;

Regions Financial Corporation;

Synovus Financial Corp.;

TD Banknorth Inc. (f/k/a Banknorth Group, Inc.); and

Zions Bancorporation.

Elements of Executive Compensation

The compensation package for Marshall & Ilsley's senior executives has both objective (performance-based) and subjective elements. Based on its review of each named executive officer's total compensation opportunities and performance, and the performance of Marshall & Ilsley, the compensation committee allocates compensation among the elements in the manner that it considers to be most likely to achieve the objectives of

Table of Contents

Marshall & Ilsley's executive compensation program. The specific elements, which include base salary, annual incentive compensation and long-term compensation, are described below.

The compensation committee has negative and, in select instances, positive discretion to adjust performance results used to determine annual incentive and long-term incentive payouts to the named executive officers. Negative discretion may be used to adjust such performance results, as determined by the compensation committee. The Marshall & Ilsley compensation committee may use positive discretion to adjust award amounts in circumstances in which the pre-approved adjustments are not applicable. The compensation committee did not use positive discretion to adjust any awards in 2006. The compensation committee approved pre-established criteria used to adjust reported earnings per share amounts in order to reverse the impact of certain items to the extent they arise during an incentive performance cycle and were not contemplated in establishing Marshall & Ilsley's performance budget and related incentive performance targets. Items that may be adjusted pursuant to approved pre-established criteria include, but are not limited to, the dilutive impact of acquisitions, in order to prevent creating a disincentive for named executive officers to enter into transactions that they believe to be in the best long-term interests of Marshall & Ilsley and its shareholders; the effect of changes in accounting methods or tax rates or laws; gain or loss recognized from the sale of a division or subsidiary; and income or loss associated with a significant business or balance sheet restructuring. In 2006, the compensation committee, pursuant to the pre-established criteria, approved adjustments to the performance results under the annual incentive and long-term incentive plans for each named executive officer to increase reported earnings per share to reverse the dilutive impact of two acquisitions, to increase reported earnings per share to reflect changes associated with stock option expense and derivative accounting, and to decrease reported earnings to adjust for the carryover effect of an adjustment made by Marshall & Ilsley in a previous year in connection with a debt refinancing.

Base Salary

Each of Marshall & Ilsley's named executive officers receives a base salary, which is determined by the compensation committee based on a combination of two factors. The first factor is the compensation committee's evaluation of the salaries paid in the marketplace to executives with similar responsibilities. The second factor is the compensation committee's evaluation of the executive's unique role, job performance and other circumstances. Evaluating both of these factors allows Marshall & Ilsley to offer a competitive total compensation value to each individual named executive officer, taking into account the unique attributes of, and circumstances relating to, each individual, as well as marketplace factors. This approach has allowed Marshall & Ilsley to continue to meet its objective of offering a competitive total compensation value and attracting and retaining key personnel. Based on its review of these factors, the compensation committee determined to increase each of the named executive officers' base salaries in 2006 in order to maintain Marshall & Ilsley's competitive total compensation position in the marketplace. More specific information regarding each named executive officer's base salary is provided in the Summary Compensation Table set forth in this section.

Annual Incentive Compensation

Marshall & Ilsley's Annual Executive Incentive Plan is intended to establish a direct correlation between the annual incentives awarded to the participants and the financial performance of Marshall & Ilsley or its divisions or subsidiaries. This purpose is in keeping with Marshall & Ilsley's compensation program objective of aligning a significant portion of each executive's total compensation with the annual performance of Marshall & Ilsley and the interests of Marshall & Ilsley's shareholders.

The Annual Executive Incentive Plan provides for annual cash incentives to the participants, which include all but two of Marshall & Ilsley's named executive officers, based upon one or more objective financial performance criteria selected by the compensation committee.

Under the Annual Executive Incentive Plan, the compensation committee may select criteria from among earnings per share, earnings, return on average equity, return on average assets or revenue. Performance criteria

Table of Contents

may be used singularly or in combination, as determined by the compensation committee, to measure the performance of Marshall & Ilsley or the applicable subsidiary or division or for the purpose of determining whether, and to what extent, an award will be payable under the respective annual incentive plan for the performance year. The compensation committee bases its selection of performance goals on Marshall & Ilsley's overall goals and performance budget for the year in order to align the goals of the named executive officers and other plan participants with the goals of Marshall & Ilsley. As such, the compensation committee may select performance criteria that differ from year to year. For 2006, the performance criterion under the Annual Executive Incentive Plan was Marshall & Ilsley's earnings per share.

The Annual Executive Incentive Plan rewards eligible senior executives with an incentive award based on a percentage of each participant's base salary if the performance goals set by the compensation committee are met for that year. Each January, the compensation committee evaluates the participants' cash incentive opportunities under the plans and establishes target performance levels based on a number of factors, including Marshall & Ilsley's performance, the conditions of the markets in which Marshall & Ilsley operates, the earnings performance of peer group companies, and annual cash incentive amounts provided by the peer group companies described above. The target performance levels are based on Marshall & Ilsley's performance budget in order to reflect Marshall & Ilsley's outlook and also are intended to reward superior performance relative to peer group companies, taking into consideration the market conditions and industry trends that affect Marshall & Ilsley. The targets are intended to be realistic enough to be reasonably attainable given a maximum effort on the part of Marshall & Ilsley's named executive officers in consideration of conditions and trends. Award levels are determined by the compensation committee based on its review of peer group company award levels. Performance by Marshall & Ilsley exceeded targeted performance levels in 2006, and, based on management's current expectations relative to the accomplishment of performance objectives, Marshall & Ilsley believes it is likely that the target performance levels will be attained in 2007. No payouts are made for performance below threshold levels.

Additional information regarding Marshall & Ilsley's annual incentive compensation, including 2006 performance criterion and results, is set forth in the "Grants of Plan-Based Awards" table and the narrative following that table in this section.

Long-Term Compensation

Long-term compensation is an area of particular emphasis in Marshall & Ilsley's executive compensation program, because Marshall & Ilsley believes that these incentives foster the long-term perspective necessary for the continued success of Marshall & Ilsley. Again, this emphasis is in keeping with Marshall & Ilsley's compensation program objective of aligning a significant portion of each executive's total compensation with the long-term performance of Marshall & Ilsley and the interests of Marshall & Ilsley's shareholders. Marshall & Ilsley intends to continue this emphasis on long-term awards.

In arriving at long-term award levels, the compensation committee uses information provided by Hewitt Associates to compare the total value of each executive's long-term award package to those provided by peer group companies for similar positions. The compensation committee also determines the allocation of long-term awards to each long-term compensation component, including awards under Marshall & Ilsley's Equity Incentive Plan and Long-Term Incentive Plans. The types of awards available under these plans are described below. The compensation committee determines which types of awards to grant and the amounts to be allocated to long-term compensation with respect to each named executive officer based on its review of the composition and amount of such individual's overall compensation package and its consultation with Hewitt Associates.

The compensation committee has chosen to use three forms of long-term awards: stock options, restricted stock and long-term incentive units. In determining the allocation of the long-term awards to the named executive officers from among these forms of awards, the compensation committee has determined to place the greatest emphasis on stock options. There are several reasons for this determination. First, stock options directly

Table of Contents

align the value of the benefit to the named executive officers with shareholder interests, since executives recognize a value only if and to the extent that the value of Marshall & Ilsley's common stock increases. In addition, stock options are the most prevalent form of award among Marshall & Ilsley's peers. Finally, the term of stock options is the longest among the various long-term awards, providing an incentive for the named executive officers to create long-term shareholder value.

With regard to allocation of other forms of awards, the compensation committee has generally determined to place comparable emphasis on each of the restricted stock and long-term incentive units. Each of these forms of award has characteristics that further the objectives of Marshall & Ilsley's executive compensation program. Restricted stock represents an award of full-value shares and vests over a period of five years. While the value of shares of restricted stock varies based upon the performance of Marshall & Ilsley's common stock, the primary objectives of this form are to attract and retain the highly-talented individuals to whom the award is given. Long-term incentive units represent share equivalents of Marshall & Ilsley's common stock. Because long-term incentive units are earned only to the extent certain performance criteria are achieved, they provide a direct correlation of the resulting payments, if any, to the long-term performance of Marshall & Ilsley.

Stock Options. Stock options represent a right to purchase a specified number of shares of common stock at a purchase price of not less than 100% of the fair market value of the Marshall & Ilsley's common stock on the date the option is granted. Except in the case of specified corporate events such as stock splits or reclassifications of shares, the purchase price Marshall & Ilsley's for common stock subject to options may not be reduced without the consent of Marshall & Ilsley's shareholders. The compensation committee determines the number of options to grant based on its analysis of awards by peer group companies, in keeping with Marshall & Ilsley's objective of offering a competitive total compensation value.

Prior to 2002, stock options were granted on the date of the compensation committee meeting at which they were approved. Since 2002, Marshall & Ilsley's practice has been to grant stock options in October of each year, two weeks after Marshall & Ilsley releases its earnings information for the third quarter of such year. The compensation committee may also grant stock options and, as described below, restricted shares, throughout the year in connection with new hires or special executive retention situations, such as promotions. Mr. Smith was granted stock options and restricted shares in June 2006 in connection with the commencement of his employment as Marshall & Ilsley's Senior Vice President and Chief Financial Officer. Mr. Furlong was granted restricted shares in December 2006 in connection with Marshall & Ilsley's announcement that he will succeed Mr. Kuester as Chief Executive Officer of Marshall & Ilsley. The compensation committee has not made any retroactive grants of stock options.

Restricted Stock or Restricted Stock Unit Awards. A restricted stock or restricted stock unit award is an award of stock, or in the case of a restricted stock unit, a bookkeeping entry granting a participant the right to a share of Marshall & Ilsley's common stock in the future, for some or no monetary consideration, as the compensation committee may specify.

Long-Term Incentive Units. Under Marshall & Ilsley's 1994 Long-Term Incentive Plan (the Marshall & Ilsley LTIP), Marshall & Ilsley may award units representing share equivalents of Marshall & Ilsley's common stock to participants, including Marshall & Ilsley's named executive officers. In January of each year, the compensation committee approves the performance criteria and payout multiples under the Marshall & Ilsley LTIP with respect to the performance period determined by the compensation committee typically the three-year performance period commencing in January of each year. The measures among which the compensation committee may choose in establishing performance criteria are one or more of earnings per share, earnings, net income, revenues, return on average assets, return on average equity, total shareholder return or cost control of Marshall & Ilsley and/or one or more of its subsidiaries or divisions. No payments of awards under the Marshall & Ilsley LTIP are made until the compensation committee determines that the performance to which the awards are subject has been met, and the compensation committee has the discretion to reduce or eliminate entirely any award if it determines that it is in the best interests of Marshall & Ilsley to do so. The specific

Table of Contents

performance criteria with respect to each performance period and the weight given to each of such criteria are based on a pre-determined compound annual growth rate of earnings per share or earnings and a target performance ranking for total shareholder return relative to the peer group.

Target long-term performance levels for growth in earnings per share or earnings are intended to reflect strong earnings performance relative to the peer group companies, and target performance levels for total shareholder return are established at median performance relative to the companies in the KBW 50 Index. Target performance levels were exceeded in 2006 and, based on Marshall & Ilsley's performance to date for the current three-year performance period and management's current expectations relative to the accomplishment of performance objectives, Marshall & Ilsley believes it is likely that the long-term performance targets will be attained in 2007.

Additional information regarding Marshall & Ilsley's long-term incentive compensation, including 2006 performance criteria and results, is set forth in the "Grants of Plan-Based Awards" table and the narrative following that table in this section.

Other Benefits and Perquisites

Marshall & Ilsley's executive officers participate in the health and dental coverage, life insurance, paid vacation and holiday and other programs that are generally available to all of Marshall & Ilsley's employees.

The perquisites provided to each of the named executive officers are regularly reviewed by the compensation committee. These perquisites include payment of club dues, personal financial planning and tax preparation services, personal use of company cars and, with respect to the Chairman and the President, personal use of company aircraft limited to 40 flight hours per year. Marshall & Ilsley values perquisites at their incremental cost to Marshall & Ilsley in accordance with SEC regulations, and the named executive officers are allowed to reimburse Marshall & Ilsley for such perquisites at their incremental cost to Marshall & Ilsley to the extent that limitations on personal use are exceeded. Executive officers' spouses and immediate family members may accompany them on company aircraft using unoccupied space on flights that were already scheduled, and Marshall & Ilsley recognizes no incremental cost in connection with such use.

Marshall & Ilsley believes that the benefits and perquisites it provides to its named executive officers are within competitive practice and customary for executives in key positions at comparable companies. Such benefits and perquisites serve Marshall & Ilsley's objective of offering competitive compensation that allows Marshall & Ilsley to continue to attract, retain and motivate highly talented people to these critical positions, ultimately providing a substantial benefit to Marshall & Ilsley's shareholders. Certain perquisites are also provided in part to reduce the amount of time and energy the named executive officers are required to devote to non-company related matters, providing them additional time to focus on company-related endeavors.

Change of Control Agreements

Marshall & Ilsley recognizes that, as with any public company, it is possible that a change of control of Marshall & Ilsley may take place in the future. Marshall & Ilsley also recognizes that the threat or occurrence of a change of control can result in significant distractions of key management personnel because of the uncertainties inherent in such a situation. Marshall & Ilsley also believes that it is essential and in the best interests of Marshall & Ilsley and its shareholders to retain the services of its key management personnel in the event of the threat or occurrence of a change of control and to ensure their continued dedication and efforts in such event without undue concern for their personal financial and employment security. In keeping with this belief and its objective of retaining and motivating highly talented individuals to fill key positions, Marshall & Ilsley has substantially similar change of control agreements with all of the named executive officers and other executive officers of Marshall & Ilsley.

The change of control agreements guarantee the named executive officers specific payments and benefits upon a termination of employment as a result of a change of control of Marshall & Ilsley. If a change of control

Table of Contents

occurs, the contract becomes effective and continues for a term of three years. The employment term renews on a daily basis until Marshall & Ilsley gives notice to terminate the daily renewal.

Additional details regarding the terms of the change of control agreements described above are provided under the subheading Potential Payments upon Termination or Change of Control in this section.

Retirement Plans

Marshall & Ilsley has agreed to provide Mr. Kuester and Mr. Furlong with supplemental retirement benefits. The purpose of Marshall & Ilsley's arrangement with Mr. Kuester is to provide him with an annual retirement benefit such that the sum of the benefits from Marshall & Ilsley's Retirement Growth Plan, Marshall & Ilsley's Amended and Restated Supplementary Retirement Benefits Plan, the SERP account of Marshall & Ilsley's Amended and Restated Deferred Compensation Plan, Social Security and the Marshall & Ilsley Corporation Nonqualified Retirement Benefit Plan equals 60% of the sum of his average salary and annual short-term incentive compensation for his last five years of employment. Marshall & Ilsley's arrangement with Mr. Furlong is intended to provide him with an annual retirement benefit such that the sum of the benefits from Marshall & Ilsley's contributions into its qualified and nonqualified retirement programs, Social Security and his supplemental retirement plan equals 55% of the sum of Mr. Furlong's highest average salary and annual short term incentive compensation for any five of his last ten years of employment.

The 2005 Marshall & Ilsley Corporation Executive Deferred Compensation Plan provides selected key employees of Marshall & Ilsley, including the named executive officers, with the ability to defer up to 80% of base salary and 100% of annual incentive payments. The plan also allows for deferral of gains upon vesting of shares of key restricted stock.

In addition, because of changes in the federal income tax law governing the taxation of split-dollar life insurance benefits, in 2003 Marshall & Ilsley entered into death benefit award agreements with Mr. Kuester and certain other senior executives under which a nonqualified death benefit plan was substituted for their previous life insurance arrangements. Originally, the life insurance benefits were provided in lieu of certain benefits to which Mr. Kuester was entitled under the Deferred Compensation Plan. Pursuant to these agreements, the beneficiaries of Mr. Kuester are provided with a death benefit that is a formula amount based primarily on certain life insurance proceeds.

Each of the retirement plans described above is intended to reward the executives for their contributions to the success of Marshall & Ilsley based on a variety of measures. By rewarding valuable contributions by the named executive officers, Marshall & Ilsley believes it is better able to achieve its objectives of attracting and retaining highly-talented individuals to fill key positions.

Impact of Accounting and Tax Treatments

Section 162(m) of the Internal Revenue Code prohibits publicly held companies, such as Marshall & Ilsley, from deducting certain compensation to any one named executive officer in excess of \$1,000,000 during the tax year. However, Section 162(m) provides that, to the extent that compensation is based on the attainment of performance goals set by the compensation committee pursuant to plans approved by Marshall & Ilsley's shareholders, the compensation is not included for purposes of arriving at the \$1,000,000 limitation.

Marshall & Ilsley, through the compensation committee, intends to attempt to qualify executive compensation as tax deductible to the extent feasible and where it believes it is in the best interests of Marshall & Ilsley and its shareholders. It does not intend to permit this arbitrary tax provision to distort the effective development and execution of Marshall & Ilsley's compensation program. Thus, the compensation committee is permitted to and will continue to exercise discretion in those instances in which mechanistic approaches necessary to satisfy tax law considerations could compromise the interests of Marshall & Ilsley's shareholders. In addition, because of the uncertainties associated with the application and interpretation of Section 162(m) and the

Table of Contents

regulations issued thereunder, there can be no assurance that compensation intended to satisfy the requirements for deductibility under Section 162(m) will in fact be deductible.

Section 409A of the Internal Revenue Code, which was signed into law in October 2004, amended the tax rules to impose restrictions on funding, distributions and elections to participate in nonqualified deferred compensation arrangements. Final regulations regarding the application of Section 409A were issued on April 10, 2007. While Marshall & Ilsley believes that it is operating in compliance with the statutory provisions relating to Section 409A that are currently effective, Marshall & Ilsley is still in the process of reviewing the final regulations, and it is possible that Marshall & Ilsley will have to make adjustments to its nonqualified deferred compensation arrangements to comply with the new rules.

Recent Developments

In connection with the transactions contemplated by the transaction agreements, stock options held by Marshall & Ilsley employees and directors who will be continuing employees and directors of New Marshall & Ilsley will be converted to New Marshall & Ilsley options. These options will be converted based on a formula which will retain, following the separation, the aggregate spread and the ratio of exercise price to the share value on the options as the option holders had immediately prior to the transaction. While this conversion formula preserves the option-holder's position following the separation of the two companies, it does not recognize the impact of certain ongoing factors which are projected to result from this separation. These factors, and their anticipated impact on the valuation of the options under the Black-Scholes model, were identified and analyzed by Hewitt Associates. One factor is that New Marshall & Ilsley common stock, without the Metavante component, is projected to have lower volatility than Marshall & Ilsley common stock. A decrease in the volatility of a company's stock results in a lower option valuation under the Black-Scholes model. A second factor is that the New Marshall & Ilsley common stock is projected to have a higher dividend yield than Marshall & Ilsley common stock. An increase in the dividend yield also results in a lower option valuation under the Black-Scholes model. After consideration of the analysis prepared by Hewitt Associates and other factors deemed relevant by the compensation committee, and in keeping with Marshall & Ilsley's objectives of retaining key personnel in critical positions and continuing to align a significant portion of each executive's total compensation with the performance of the company, the compensation committee determined to provide an incremental equity award to ongoing employees and directors of New Marshall & Ilsley as described below.

Participants in the Marshall & Ilsley LTIP who remain as such at New Marshall & Ilsley (other than Mr. Kuester) will receive an incremental equity award in the form of restricted shares. Other participants in Marshall & Ilsley's Equity Incentive Plan will receive New Marshall & Ilsley stock options. The incremental award will be determined for each individual based on the number of vested and unvested options held by such individual, taking into consideration the remaining term of the options. The incremental award will be immediately vested based on the option holder's proportion of vested options to their total outstanding options. To the extent the outstanding Marshall & Ilsley options are unvested, the incremental award will have an ongoing vesting schedule. To the extent immediately vested restricted shares are granted, the awards will have a three year deferred release period and will be subject to a non-compete provision. Unvested restricted share awards will vest one-third in each of the last three-years of a five-year vesting period beginning on the date of grant. To the extent immediately vested options are awarded, the options will be subject to a deferred exercise period during which one-third of the option will be eligible for exercise after each of the initial three years following award and will be subject to a non-compete provision. Unvested options granted will vest one-third in each of the first three years beginning on the first anniversary of the grant.

Mr. Kuester will be a director of New Metavante following the closing of the transactions and will continue as a director of New Marshall & Ilsley. As such, his options will be converted to options to purchase both New Marshall & Ilsley common stock and New Metavante common stock.

The awards are subject to the closing of the transactions and will be awarded on the last business day preceding the effective date of the transactions. Participants must be active employees or directors on the date of award in order to receive this grant.

Table of Contents**Historical Compensation of Executive Officers**

The following tables contain compensation information with respect to the Chairman and Chief Executive officer of Marshall & Ilsley, the individuals who served as Marshall & Ilsley's principal financial officer in 2006, and the three other most highly compensated individuals who were serving as executive officers of Marshall & Ilsley at the end of 2006, excluding those Marshall & Ilsley executive officers who were also executive officers of Metavante. With the exception of Mr. Presley, Marshall & Ilsley believes that these individuals will be named executive officers of New Marshall & Ilsley upon completion of the transactions. The determination of the three most highly compensated persons was based on employment with Marshall & Ilsley for the year ended December 31, 2006. Unless the context suggest otherwise, references to Marshall & Ilsley's common stock, restricted shares, restricted stock, restricted stock units and stock options refer to securities of Marshall & Ilsley. Amounts shown are for individuals in their last position with Marshall & Ilsley and do not necessarily reflect the compensation that the relevant individuals will earn in their new capacities as executive officers of New Marshall & Ilsley.

Senior Vice

President and

Chief Financial

Officer (Resigned)

- * On April 24, 2007, Mr. Furlong succeeded Mr. Kuester as Chief Executive Officer of Marshall & Ilsley.
- (1) Salary adjustments for Marshall & Ilsley's executive officers generally are effective on January 1 of each year.

- (2) Represents the expense for both restricted shares and long-term incentive units recognized by Marshall & Ilsley in accordance with FAS 123(R), which requires that compensation cost relating to share-based

Table of Contents

payment transactions be recognized in financial statements. The values set forth in this column represent the dollar amounts recognized in accordance with FAS 123(R) with respect to fiscal 2006, disregarding the estimate of forfeitures for service-based vesting conditions. The expense recognized by Marshall & Ilsley in accordance with FAS 123(R) may differ from the value that will eventually be realized by the named executive officers, which will be based on the market value of Marshall & Ilsley's common stock at the time of vesting (and, for the long-term incentive units, will also be dependent upon the performance of Marshall & Ilsley relative to the targets established by the compensation committee). The assumptions used to determine the FAS 123(R) values are described in Note 18 to the Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement. The expense attributable to stock awards granted in October 2006 (for Mr. Smith, this also includes the June 2006 award) and the expense attributable to unvested stock awards granted in prior years, respectively, for each named executive officer are as follows: Mr. Kuester \$42,360 and \$2,120,894; Mr. Furlong \$21,180 and \$1,185,474; Mr. Smith \$114,931 and \$0; Mr. O'Neill \$10,459 and \$563,420; Mr. Krei \$9,413 and \$479,710; and Mr. Presley \$0 and \$(252,787). For a description of the treatment of restricted shares and long-term incentive units in the transactions contemplated by the investment agreement and related agreements, see The Transactions--Interests of Certain Persons in the Transactions and Additional Agreements Relating to the New Marshall & Ilsley Share Distribution--Employee Matters Agreement.

- (3) Represents the expense for stock options recognized by Marshall & Ilsley in accordance with FAS 123(R). The values set forth in this column represent the dollar amounts recognized in accordance with FAS 123(R) with respect to fiscal 2006, disregarding the estimate of forfeitures for service-based vesting conditions. The expense recognized by Marshall & Ilsley in accordance with FAS 123(R) may differ from the value that will eventually be realized by the named executive officers. The named executive officers will realize value in connection with the stock options only if and to the extent the price of Marshall & Ilsley's common stock exceeds the exercise price of the stock options at such time as the officers exercise the stock options. The assumptions used to determine the FAS 123(R) values are described in Note 18 to the Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement. The expense attributable to option awards granted in October 2006 (for Mr. Smith, this also includes the June 2006 award) and the expense attributable to unvested option awards granted in prior years, respectively, for each named executive officer are as follows: Mr. Kuester \$1,760,171 and \$0; Mr. Furlong \$47,694 and \$746,495; Mr. Smith \$108,278 and \$0; Mr. O'Neill \$23,551 and \$378,526; Mr. Krei \$21,199 and \$325,822; and Mr. Presley \$0 and \$(195,707). Because he is over 55 years of age and has more than ten years of service with Marshall & Ilsley, Mr. Kuester's options were fully vested on the date of grant. For a description of the treatment of stock options in the transactions contemplated by the investment agreement and related agreements, see The Transactions--Interests of Certain Persons in the Transactions and Additional Agreements Relating to the New Marshall & Ilsley Share Distribution--Employee Matters Agreement.
- (4) Includes the following payments made under the Annual Executive Incentive Compensation Plan: Mr. Kuester \$1,452,250; Mr. Furlong \$784,800; Mr. Smith \$351,675; Mr. O'Neill \$401,200; and Mr. Krei \$396,000.
- (5) Represents the following changes in present value of account balances under the Nonqualified Retirement Benefit Plan and the Supplemental Retirement Benefit Agreement, respectively, for 2006: Mr. Kuester \$1,479,013; and Mr. Furlong \$701,853. Includes the following above-market amounts accrued by Marshall & Ilsley on account balances under the Supplementary Retirement Benefit Plan and the Executive Deferred Compensation Plan for 2006 (utilizing crediting rates under the plans which are indexed to either the Moody's A Long-Term Corporate Bond Rate or the S&P 500 Index, based upon the participant's election) over the amounts determined pursuant to SEC rules: Mr. Smith \$2,946; and Mr. Krei \$744.
- (6) Includes the following contributions by Marshall & Ilsley under the Retirement Program for 2006: Mr. Kuester \$24,200; Mr. Furlong \$24,200; Mr. O'Neill \$24,200; and Mr. Krei \$24,200. Includes the following employer contributions into the Executive Deferred Compensation Plan based on

Table of Contents

compensation paid or deferred during 2006: Mr. Kuester \$169,872; Mr. Furlong \$89,998; Mr. Smith \$25,964; Mr. O Neill \$50,289; and Mr. Krei \$48,886. Marshall & Ilsley provides perquisites to each of the named executive officers. These perquisites include payment of club dues, personal financial planning and tax preparation services, personal use of company cars and, with respect to Mr. Kuester and Mr. Furlong, personal use of company aircraft limited to 40 flight hours per year. The named executive officers are allowed to reimburse Marshall & Ilsley for such perquisites at the incremental cost of such perquisites to Marshall & Ilsley to the extent that limitations on personal use are exceeded. The aggregate unreimbursed value of the perquisites provided to Marshall & Ilsley's named executive officers are as follows: Mr. Kuester \$111,857; Mr. Furlong \$13,402; Mr. Smith \$13,154; Mr. O Neill \$25,568; Mr. Krei \$59,928; and Mr. Presley \$45,927. The perquisites that exceed \$25,000 in value include Mr. Kuester's personal use of company aircraft in the amount of \$70,059 and the value of Marshall & Ilsley-owned automobile provided to Mr. Presley upon his termination of employment in the amount of \$39,761. Executive officers' spouses and immediate family members may accompany them on company aircraft using unoccupied space on flights that were already scheduled, and Marshall & Ilsley recognizes no incremental cost in connection with such use. All perquisites are valued for disclosure purposes at their incremental cost to Marshall & Ilsley in accordance with SEC regulations.

- (7) Mr. Smith's employment with Marshall & Ilsley commenced on June 19, 2006.
- (8) Mr. Presley resigned his employment with Marshall & Ilsley effective March 24, 2006. As a result, Mr. Presley forfeited options to purchase 85,000 shares of Marshall & Ilsley's common stock, 15,000 restricted stock units and 10,000 units awarded under Marshall & Ilsley's 1994 Long-Term Incentive Plan.
- (9) Represents a discretionary cash payment to Mr. Smith in recognition of his contributions to Marshall & Ilsley.

- (1) Includes incentive awards made under the Annual Executive Incentive Compensation Plan. Actual amounts paid under the Annual Executive Incentive Compensation Plan in 2006 are included in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table.
- (2) The compensation committee approves the annual stock option and restricted stock awards at its regularly scheduled meeting in October; however, awards are granted on the date which is two weeks following the third quarter earnings announcement in October. The compensation committee approved Mr. Smith's awards at its meeting held prior to an employment offer being extended to Mr. Smith to commence employment as of June 19, 2006. Subsequently the awards were granted on the date on which Mr. Smith commenced employment with Marshall & Ilsley.
- (3) Includes units granted under the Marshall & Ilsley Corporation Long-Term Incentive Plan for the three-year performance period from January 1, 2007 to December 31, 2009.

Edgar Filing: MARSHALL & ILSLEY CORP/WI/ - Form DEFM14A

- (4) Due to his resignation from Marshall & Ilsley in March 2006, Mr. Presley was not eligible to receive payouts under the Annual Executive Incentive Compensation Plan.
- (5) Restricted shares vest based on the schedules described in the footnotes to the Outstanding Equity Awards at Fiscal Year-End table in this section. All restricted shares will vest immediately upon a triggering event (which relates to a change of control of Marshall & Ilsley) or upon the death of the employee. Participants are paid dividends with respect to their unvested restricted shares.
- (6) Options generally become exercisable based on the following schedule: one-third on the first anniversary of the date of grant, an additional one-third on the second anniversary of the date of grant and the remaining one-third on the third

Table of Contents

anniversary of the date of grant. All options will become immediately exercisable upon a change of control of Marshall & Ilsley or upon the death of the employee. Employees who have attained age 55 and have at least ten years of service with Marshall & Ilsley or a subsidiary receive options that are fully vested on the date of grant.

- (7) All options have an exercise price equal to 100% of the fair market value of Marshall & Ilsley's common stock on the date of grant. The exercise price may be paid in cash or by delivery of shares of Marshall & Ilsley's common stock.
- (8) Represents aggregate grant date value computed in accordance with FAS 123(R). The assumptions used to determine such value are described in Note 18 to the Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement.

Annual Executive Incentive Plan. The Annual Executive Incentive Plan provides for annual cash incentives to the participants based upon one or more objective financial performance criteria selected by the compensation committee. The Annual Executive Incentive Plan rewards eligible senior executives with an incentive award based on a percentage of each participant's base salary if the performance goals set by the compensation committee are met for that year. The performance criterion under the Annual Executive Incentive Plan for 2006 was earnings per share, adjusted for certain items as approved by the compensation committee. Results under the plan exceeded the target performance levels established by the compensation committee for 2006, and resulted in eligible senior executives receiving payouts ranging from 45% to 157% of their respective 2006 base salaries as compared to payouts ranging from 54% to 158% of base salaries in 2005. Under the Annual Executive Incentive Plan, Messrs. Kuester, Furlong, Smith, O'Neill, Krei and Presley received payouts of 157%, 131%, 78%, 104%, 104% and 0%, respectively, of their base salaries. In future years, the compensation committee may use performance criteria different from those used for 2006.

1994 Long-Term Incentive Plan. Units awarded under the Marshall & Ilsley LTIP represent share equivalents of Marshall & Ilsley's common stock. The performance period is the three years commencing on January 1, 2007 and ending on December 31, 2009 for awards granted in December 2006. Additional units will be credited to each participant's account when dividends are paid on shares of Marshall & Ilsley's common stock. Vesting of units occurs at the end of the three-year period except in the case of the death or disability of the participant, termination of a participant's employment due to retirement or the occurrence of a change in control of Marshall & Ilsley. Upon the occurrence of a change in control, units vest notwithstanding continued employment by the acquiring company. A payout multiple is applied to the units awarded to a participant based on Marshall & Ilsley's performance in relation to two equally weighted performance criteria, which represent (a) the total return of Marshall & Ilsley's common stock for the three-year period when compared with the total return for those stocks composing the KBW 50 Index and (b) Marshall & Ilsley's cumulative earnings per share for the three-year period, adjusted for certain items. Marshall & Ilsley's performance in relation to the performance criteria is calculated independently, thereby allowing a participant to receive a payout under one of the criterion but not under the other. For each criterion, the threshold payout multiple is 12.5% and the maximum is 137.5%, resulting in a combined maximum of 275%. No payout will be made under a criterion for performance below threshold. The resulting payout multiple is applied to the units awarded and units awarded to the participant in lieu of the payment of dividends. Marshall & Ilsley will satisfy any payout obligations under the Marshall & Ilsley LTIP in an amount of cash equal to the fair market value of the number of shares represented by the units. Before awards are paid, the compensation committee must certify the extent to which the performance criteria have been met.

John M. Presley									

(1)

All of Mr. Kuester's outstanding restricted shares will be fully vested on January 1, 2008 in accordance with the terms of his transition and consulting agreement.

Table of Contents

- (2) Mr. Furlong's restricted shares vest as follows: 4,000 on each of April 16, 2007 and April 16, 2008; 11,250 shares on each of October 27, 2007 and October 28, 2008; 3,375 shares on each of October 30, 2009, October 30, 2010 and October 30, 2011; and 3,000 shares on each of December 21, 2009, December 21, 2010, December 21, 2011, December 21, 2012 and December 21, 2013.
- (3) Mr. Smith's restricted shares vest as follows: 7,900 shares on June 19, 2009; 2,400 shares on each of June 19, 2010, June 19, 2011, June 19, 2012, and June 19, 2013; and 1,117 shares on each of October 30, 2009, October 30, 2010 and October 30, 2011.
- (4) Mr. O'Neill's restricted shares vest as follows: 800 shares on each of January 10, 2007 and January 10, 2008; 5,550 shares on October 27, 2007; 5,550 shares on October 28, 2008; 1,667 shares on October 30, 2009; 1,666 shares on October 30, 2010; and 1,667 shares on October 30, 2011.
- (5) Mr. Krei's restricted shares vest as follows: 1,200 shares on each of June 30, 2007, June 30, 2008, June 30, 2009 and June 30, 2010; 5,000 shares on October 27, 2007; 5,000 shares on October 28, 2008; and 1,500 shares on each of October 30, 2009, October 30, 2010 and October 30, 2011.
- (6) Units represent share equivalents granted under the Marshall & Ilsley LTIP for the three-year period which began on January 1, 2005 and ending on December 31, 2007. The units vest 100% on December 31, 2007. Units are shown based upon the maximum performance level under the plan because performance for the previous three-year performance period exceeded the target amount.
- (7) Units represent share equivalents granted under the Marshall & Ilsley LTIP for the three-year period which began on January 1, 2006 and ending on December 31, 2008. The units vest 100% on December 31, 2008. Units are shown based upon the maximum performance level under the plan because performance for the previous three-year performance period exceeded the target amount.
- (8) Units represent share equivalents granted under the Marshall & Ilsley LTIP for the three-year period which began on January 1, 2007 and ending on December 31, 2009. The units vest 100% on December 31, 2009. Units are shown based upon the maximum performance level under the plan because performance for the previous three-year performance period exceeded the target amount.

OPTION EXERCISES AND STOCK VESTED IN FISCAL 2006

Name	Option Awards		Stock Awards	
	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise (\$)	Number of Shares Acquired on Vesting (#)	Value Realized on Vesting (\$)
Dennis J. Kuester (1)	52,000	\$ 953,147		
Mark F. Furlong (2)				
Gregory A. Smith				
Thomas J. O'Neill (3)				
Kenneth C. Krei			1,200	\$ 53,688
John M. Presley	20,000	56,600		

(1) Does not include 22,500 restricted stock units which vested during 2006, the receipt of which was deferred by Mr. Kuester under the Marshall & Ilsley Corporation Executive Deferred Compensation Plan described in the narrative following the Nonqualified Deferred Compensation in Fiscal 2006 table in this section. The value of such deferred restricted stock units as of the date of vesting was \$1,074,825.

(2)

Edgar Filing: MARSHALL & ILSLEY CORP/WI/ - Form DEFM14A

Does not include 11,750 restricted stock units which vested during 2006, the receipt of which was deferred by Mr. Furlong under the Marshall & Ilsley Corporation Executive Deferred Compensation Plan described in the narrative following the Nonqualified Deferred Compensation in Fiscal 2006 table in this section. The value of such deferred restricted stock units as of the date of vesting was \$543,058.

- (3) Does not include 5,800 restricted stock units which vested during 2006, the receipt of which was deferred by Mr. O'Neill under the Marshall & Ilsley Corporation Executive Deferred Compensation Plan described in

Table of Contents

the narrative following the Nonqualified Deferred Compensation in Fiscal 2006 table in this section. The value of such deferred restricted stock units of the date of vesting was \$273,650. Also does not include 3,739 shares acquired through an exercise of a stock option exercised on February 10, 2006, the receipt of which had been deferred by Mr. O Neill under applicable plan rules of the Marshall & Ilsley Corporation Executive Deferred Compensation Plan in effect at the time of the deferral. The value of the deferral as of the date of exercise was \$158,085.

PENSION BENEFITS

Name	Plan Name	Number of Years Credited Service (#) (3)	Present Value of Accumulated Benefit (\$) (4)	Payments During Last Fiscal Year (\$) (5)
Dennis J. Kuester	Nonqualified Retirement Benefit Plan (1)		\$ 9,110,125	\$ 0
Mark F. Furlong	Supplemental Retirement Benefit Agreement (2)		1,962,710	0

- (1) The Marshall & Ilsley Corporation Nonqualified Retirement Benefit Plan (the Nonqualified Plan) provides Mr. Kuester with a supplemental retirement benefit. The purpose of the Nonqualified Plan is to provide an annual retirement benefit such that the sum of the benefits from the Retirement Growth Plan, Marshall & Ilsley s Amended and Restated Supplementary Retirement Benefits Plan (the SERP), the SERP Account of Marshall & Ilsley s Amended and Restated Deferred Compensation Plan, Social Security and the Nonqualified Plan equals 60% of the sum of Mr. Kuester s average salary and annual short-term incentive compensation for his last five years of employment. The benefit under the Nonqualified Plan can be paid for life with a 120-month certain pay-out or on a joint and survivor basis at Mr. Kuester s option. The pay-out option elected may also affect the amount of the annual benefit. Mr. Kuester s estimated monthly retirement benefit beginning at age 65 is \$75,853, determined based on the five year average compensation earned through December 31, 2006 and the actuarial and interest rate assumptions described herein. Mr. Kuester has the option, in certain circumstances, to elect to receive the present value of the benefits to which he is entitled under the Nonqualified Plan upon a change of control regardless of his age at that point.
- (2) Marshall & Ilsley has agreed to provide Mr. Furlong with a supplemental retirement benefit (the SERP Agreement). The purpose of the SERP Agreement is to provide an annual retirement benefit such that the sum of the benefits from Marshall & Ilsley s contributions into its qualified and non-qualified retirement programs, Social Security and the SERP Agreement equals 55% of the sum of Mr. Furlong s highest average salary and annual short-term incentive compensation for any five of his last ten years of employment. The benefits under the SERP Agreement will begin vesting at age 55, and will be fully vested at age 62. If Mr. Furlong s employment terminates prior to his attaining age 55 other than by reason of death or disability or in connection with a change of control of Marshall & Ilsley, he will receive no benefits under the SERP Agreement. The total benefit under the SERP Agreement will be adjusted in the event of death or disability before age 62, and can be paid for life with a 120-month certain pay-out or on a joint and survivor basis at Mr. Furlong s option. The payout option elected may also affect the amount of the annual benefit. Mr. Furlong s estimated monthly retirement benefit beginning at age 65 is \$39,164, determined based on the five year average compensation earned through December 31, 2006 and the actuarial and interest rate assumptions described herein. In the event of a change of control before Mr. Furlong attains age 55, 44% of the benefits under the SERP Agreement will be vested, and an additional 4% of the benefits will vest for each subsequent year. In the event of a change of control after Mr. Furlong attains age 55, the benefits under the SERP Agreement will be fully vested.
- (3) Benefits under the Nonqualified Plan and the SERP Agreement are not based on years of credited service.
- (4) The present value of accumulated benefits under the Nonqualified Plan and the SERP Agreement were determined assuming a discount rate of 6% and mortality rates that were based on the 1983 Group Annuity Mortality Table, and were based on compensation earned through December 31, 2006.

Table of Contents

NONQUALIFIED DEFERRED COMPENSATION IN FISCAL 2006

Name	Executive Contributions in Last FY (\$) (1)	Registrant Contributions in Last FY (\$) (1)	Aggregate Earnings in Last FY (\$) (2)	Aggregate Withdrawals/Distributions (\$) (3)	Aggregate Balance at Last FYE (\$) (4)
Dennis J. Kuester	\$ 2,160,218	\$ 160,992	\$ 1,246,641		\$ 19,745,566
Mark F. Furlong	1,381,559	77,720	427,217		5,674,758
Gregory A. Smith	1,074,965		56,018		1,130,982
Thomas J. O Neill	398,435	46,938	250,307		2,965,956
Kenneth C. Krei	0	46,138	6,710		111,685
John M. Presley	68,222	74,844	45,227	\$ (756,377)	101,655

- (1) All executive contributions and contributions by Marshall & Ilsley for 2006 have been reported in the Summary Compensation Table in either current or prior years, with the exception of Mr. Krei and Mr. O Neill. Mr. O Neill became a named executive officer in 2004. As a result, his compensation for 2002 through 2006 has been disclosed in previous or current Summary Compensation Tables. \$158,085 of Mr. O Neill's executive contribution for 2006 relates to a stock option granted to him in 1996 which was not disclosed in the Summary Compensation Table for that year. Mr. Krei was not a named executive officer in prior years. Marshall & Ilsley's contribution for Mr. Krei for 2006 is not shown in the Summary Compensation Table and has not been shown in prior years because the contribution relates to compensation earned by Mr. Krei in prior years.
- (2) Executives who elect to defer base salary or non-equity incentive payments or who receive employer contributions under the Deferred Compensation Plan, as described below, may choose from two investments options: a fixed rate option equal to the Moody's A Long-Term Corporate Bond Rate for the month of September of the previous year and an equity option equal to the total return of the S&P 500 Index. The Moody's rate for 2006 was 5.50%, and the individual earnings for the Moody's investment were as follows: Mr. Kuester \$803,774; Mr. Furlong \$99,915; Mr. Smith \$776; Mr. O Neill \$67,429; Mr. Krei \$4,824; and Mr. Presley \$4,121. Individual earnings based on the return of the S&P 500 Index were as follows: Mr. Smith \$3,832; Mr. O Neill \$715; Mr. Krei \$1,886; and Mr. Presley \$940. To the extent an executive elects to defer the receipt of restricted shares, the sole investment choice is Marshall & Ilsley's common stock. The individual earnings based on the return of Marshall & Ilsley's common stock were as follows: Mr. Kuester \$442,867; Mr. Furlong \$327,302; Mr. Smith \$51,410; Mr. O Neill \$182,163; and Mr. Presley \$40,166. For a description of the treatment of the effect of the investment agreement and related agreements on the deferred compensation plans, see The Transactions Interests of Certain Persons in the Transactions and Additional Agreements Relating to the New Marshall & Ilsley Share Distribution Employee Matters Agreement.
- (3) Represents unvested contributions which were forfeited due to Mr. Presley's termination of employment in March 2006.
- (4) Amounts in this column reflect deferrals and earnings under Marshall & Ilsley's deferred compensation plans, beginning in 1997 and through December 31, 2006. Disclosure of aggregate earnings under nonqualified deferred compensation plans was not previously required. Therefore, the following amounts have not been reported in the Summary Compensation Table in either the current or prior years: Mr. Kuester \$4,955,710; Mr. Furlong \$953,395; Mr. Smith \$56,018; Mr. O Neill \$1,154,940; and Mr. Krei \$111,685; and Mr. Presley \$79,249. With the exception of Mr. Krei and Mr. O Neill, who were not named executive officers since the inception of the plans, these amounts represent the aggregate earnings under the plans.

The 2005 Marshall & Ilsley Corporation Executive Deferred Compensation Plan (the Deferred Compensation Plan) provides selected key employees of Marshall & Ilsley, including the named executive officers, with the ability to defer up to 80% of base salary and 100% of bonus. Those employees electing to participate have two investment options for amounts deferred: a fixed rate option equal to the Moody's A

Table of Contents

Long-Term Corporate Bond Rate for the month of September of the previous year and an equity option equal to the total return of the S&P 500 Index. The percentage allocated to any investment option may not be less than 10% and elections may be changed semi-annually. The Deferred Compensation Plan also allows participants to defer the receipt of restricted shares and shares issued upon the exercise of stock options. However, participants are not entitled to defer shares issued upon exercise of stock options until such time as the administrator of the Deferred Compensation Plan determines that such a deferral is permissible under Section 409A of the Internal Revenue Code. Amounts deferred are distributable upon termination of employment at the election of the participant.

The distribution election choices under the Deferred Compensation Plan range from lump sum distribution to a pay-out over 15 years if a participant's employment terminates on or after age 55, other than because of death or disability, with at least 10 years of service. For future plan year deferrals, distribution election choices may change, but only those distribution methods permitted under Section 409A of the Internal Revenue Code will be allowed. Amounts deferred and investment returns thereon are held in the Marshall & Ilsley Corporation Deferred Compensation Trust II of which M&I Trust is the trustee. In addition to participant-directed deferrals, the compensation committee may require deferrals of any amount necessary to ensure the deductibility of compensation paid to a named executive officer under federal income tax law. Participants in the Deferred Compensation Plan are also eligible to receive an employer contribution equal to the amount that would have been allocated to such participant's account under the Marshall & Ilsley Retirement Growth Plan absent statutory limitations on compensation. This contribution is credited to an account which vests after an employee has five years of vesting service (as defined in Marshall & Ilsley's Retirement Growth Plan). Participants have the same investment and pay-out elections with respect to these accounts as with other accounts in the Deferred Compensation Plan, and amounts credited are held in the M&I Trust. To the extent participants do not receive matching amounts under Marshall & Ilsley's qualified retirement plan due to deferrals that reduce their taxable compensation below the qualified plan limits, participants receive a make-up matching amount under the Deferred Compensation Plan.

Potential Payments Upon Termination or Change of Control

Set forth below is a description of potential payments to be made to named executive officers of Marshall & Ilsley upon a change of control. Marshall & Ilsley believes that the consummation of these transactions will not constitute a change of control under the agreements and plans discussed below.

Termination Payments. Marshall & Ilsley does not have employment agreements with any of its named executive officers, nor does it currently intend to enter into any such agreements. Likewise, Marshall & Ilsley does not have a written policy regarding the payments and benefits that named executive officers may be eligible for upon termination by Marshall & Ilsley without cause or upon a termination that is mutually agreed upon by Marshall & Ilsley and executive. Based on Marshall & Ilsley's past practice, in the event of terminations that have been mutually agreed upon by Marshall & Ilsley and executive, named executive officers have received up to two times base salary and target annual incentive opportunity, employer-subsidized health and dental insurance for the 24-month period, and have been given their company-owned automobile. In exchange for such payments and benefits, the named executive officer terminating employment has generally agreed to provide certain transition services and to release Marshall & Ilsley from certain potential legal liabilities, and has agreed to non-compete provisions. If named executive officers had terminated employment pursuant to a mutually agreed upon arrangement on December 31, 2006, assuming Marshall & Ilsley were to follow its past practice with respect to the payments and benefits described above, the maximum value of the payments and benefits received by each of the named executive officers would have been as follows: Mr. Kuester \$4,163,000; Mr. Furlong \$2,473,000; Mr. Smith \$1,683,000; Mr. O'Neill \$1,446,000 and Mr. Krei \$1,406,000. These amounts do not include the value of other miscellaneous benefits that have been provided in certain situations in the past and may be made in the future to named executive officers upon a termination of their employment, depending upon the circumstances of the individual named executive officer and of his termination. In certain past situations, these have included payments for such items as outplacement services, legal fees and tax preparation services.

Table of Contents

Stock Option and Restricted Stock Plans. Under Marshall & Ilsley's 1997, 2000 and 2003 Executive Stock Option and Restricted Stock Plans and the 2006 Equity Incentive Plan (the Plans), in the event of a change of control of Marshall & Ilsley (as defined in the Plans), all outstanding stock options and restricted shares become fully vested. In the event of normal retirement (defined as age 65) or early retirement (generally defined as age 55 with at least 10 years of service), the compensation committee's past practice has been to accelerate the vesting of any outstanding restricted shares as of the date of such retirement. In the event of death, all outstanding stock options and restricted shares become fully vested. In the event of disability, the period of disability is treated as continuing employment for purposes of the Plans. The value to each named executive officer of the accelerated vesting of any unvested options and restricted shares had any of these situations occurred on December 31, 2006 (based on a year-end stock price of \$48.11) would have been as follows: Mr. Kuester \$3,139,178; Mr. Furlong \$3,244,739; Mr. Smith \$1,208,294; Mr. O'Neill \$1,132,353; and Mr. Krei \$1,181,243.

Long-Term Incentive Plan. Under the Marshall & Ilsley LTIP, in the event of a change of control of Marshall & Ilsley (as defined in the Marshall & Ilsley LTIP), the executive is entitled to a payout of any outstanding units based on the attainment of the performance criteria on the date the change of control occurs, unless the compensation committee provides otherwise at the time an award is made. In the event of normal retirement (defined as age 65), executives participate in the Marshall & Ilsley LTIP as to performance units already awarded for the duration of the performance period. Likewise, in the event of early retirement (generally defined as age 55 with at least 10 years of service), the compensation committee's past practice has been to allow executives to participate in the LTIP as to performance units already awarded for the duration of the performance period. In the event of death, the executive's beneficiary may continue to participate in the Marshall & Ilsley LTIP as to the performance units already awarded until the close of the calendar year in which the executive dies, unless the compensation committee provides otherwise at the time an award is made. If the compensation committee determines that the relevant performance criteria have been met as of the close of the calendar year, the executive's beneficiary would receive a prorated award of the outstanding units. In the event of disability, the period of disability is treated as continuing employment for purposes of the Marshall & Ilsley LTIP. The value to each participating named executive officer of accelerated vesting or continued participation in the Marshall & Ilsley LTIP for the duration of each applicable plan period had any of these situations occurred on December 31, 2006 (based on target performance and a year-end stock price of \$48.11) would have been as follows: Mr. Kuester \$2,597,940; Mr. Furlong \$1,876,290; Mr. Smith \$240,550; Mr. O'Neill \$721,650; and Mr. Krei \$649,485.

Change of Control Agreements and Related Matters. In order to assure management continuity and stability, Marshall & Ilsley has entered into change of control agreements (the Marshall & Ilsley Change of Control Agreements) with all of the named executive officers. The Marshall & Ilsley Change of Control Agreements with the named executive officers are substantially similar and each have a term of three years (with the exception of Mr. Krei, whose Change of Control Agreement has a term of two years).

The Marshall & Ilsley Change of Control Agreements guarantee the named executive officers specific payments and benefits upon a termination of employment as a result of a change of control of Marshall & Ilsley. If a change of control occurs, the contract becomes effective and continues for the relevant term. The employment term renews on a daily basis until Marshall & Ilsley gives notice to terminate the daily renewal.

The Marshall & Ilsley Change of Control Agreements provide for specified benefits after a change of control if the named executive officer voluntarily terminates for good reason or is involuntarily terminated other than for cause (as such terms are defined in the Marshall & Ilsley Change of Control Agreements). In addition, in the case of some Marshall & Ilsley Change of Control Agreements, at the end of six months after a change of control, the named executive officer may terminate employment for any reason and is entitled to receive full benefits. Upon a termination, the named executive officer is entitled to (a) a lump sum payment equal to two or three times (depending on whether the contract is a two- or three-year contract) the sum of the named executive officer's current base salary plus the higher of the named executive officer's bonus for the last year or

Table of Contents

the named executive officer's average bonus for the past three years, (b) a proportionate amount of any unpaid bonus deemed earned for the year of termination, (c) a lump sum payment equal to the retirement benefits lost as a result of not having been employed for the remaining contract term, (d) health and other benefits for the remaining contract term, and (e) payments for certain other fringe benefits. In the event of a termination of employment as a result of his death, the named executive officer's beneficiary is entitled to six months of base salary. No additional benefits are guaranteed under the contract upon a named executive officer's disability or termination of employment by Marshall & Ilsley for cause.

Under the Marshall & Ilsley Change of Control Agreements, if the named executive officer voluntarily terminates his employment for good reason or his employment is involuntarily terminated other than for cause following a change of control, options held by the named executive officers will remain exercisable for the lesser of (a) the remainder of their respective terms or (b) one year after the named executive officer's death. The Marshall & Ilsley Change of Control Agreements also provide for gross-up payments in the event payments to an executive under the Marshall & Ilsley Change of Control Agreement are subject to the excise tax (the Excise Tax) provided for under Section 4999 of the Internal Revenue Code, or any similar federal, state or local tax which may be imposed, in an amount such that the net amount retained by the named executive officer, after deduction of any Excise Tax on the payments and any federal, state and local income tax and Excise Tax on the gross-up payment, shall be equal to the payments then due.

If a named executive officer had been terminated as of December 31, 2006 either voluntarily with good reason or involuntarily without cause following a change of control, the maximum value of the payments and benefits payable to such named executive officer under these agreements (including the maximum 280G gross-up as applicable, calculated using a 61.9% combined federal and state tax rate) would have been as follows: Mr. Kuester \$7,865,981; Mr. Furlong \$8,085,569; Mr. Smith \$4,871,387; Mr. O'Neill \$4,503,398; and Mr. Krei \$2,968,414. These amounts do not include the value of stock options, restricted shares or LTIP performance units that would vest upon a change of control, regardless of whether the executive's employment terminated.

Supplemental Retirement Benefit. If a change of control had occurred on December 31, 2006, 44% of the benefits under Mr. Furlong's SERP Agreement would have been vested. If a change of control were to occur subsequent to 2006, an additional 4% of the benefits will vest for each subsequent year. In the event of a change of control after Mr. Furlong attains age 55, the benefits under the SERP Agreement will be fully vested. The terms of the SERP Agreement are described in more detail in footnote 2 to the Pension Benefits table set forth above in this section.

Death Benefit Award Agreements. Because of changes in the federal income tax law governing the taxation of split-dollar life insurance benefits, in 2003 Marshall & Ilsley entered into death benefit award agreements with Mr. Kuester and certain other senior executives under which a nonqualified death benefit plan was substituted for their previous life insurance arrangements. Originally, the life insurance arrangements were provided in lieu of certain benefits to which Mr. Kuester was entitled under the Deferred Compensation Plan, a substantial portion of which were attributable to past deferrals of Mr. Kuester's compensation. Pursuant to the death benefit award agreements, the beneficiaries of Mr. Kuester are provided with a death benefit that is a formula amount based primarily on certain life insurance proceeds. On a present value basis, the new arrangements were structured to be economically neutral to Marshall & Ilsley as compared to the life insurance arrangements. Under his death benefit award agreement, as of December 31, 2006, the amount payable to Mr. Kuester's beneficiaries upon his death was \$9,288,546. To informally fund a significant portion of the benefits owed to Mr. Kuester under this arrangement, Marshall & Ilsley owns and is the beneficiary of two life insurance policies on the life of Mr. Kuester, on which it made premium payments totaling \$373,035 in 2006.

Table of Contents

RELATED PARTY TRANSACTIONS OF NEW MARSHALL & ILSLEY

It is expected that under its written charter, the audit committee of New Marshall & Ilsley will be responsible for reviewing and approving all related party transactions that are material to the financial statements or that otherwise require disclosure to New Marshall & Ilsley's shareholders, other than related party transactions that are approved by the full board of directors of New Marshall & Ilsley or by another committee of the board of directors of New Marshall & Ilsley. It is expected that the audit committee will not be responsible for approving transactions within the scope of Regulation O under the Federal Reserve Act. The following is a description of related party transactions with Marshall & Ilsley. It is expected that these relationships will continue with New Marshall & Ilsley following the consummation of the transactions.

Customers of the bank subsidiaries of Marshall & Ilsley include directors and officers of Marshall & Ilsley and their associates. Since January 1, 2006, such persons and firms have been indebted to bank subsidiaries of Marshall & Ilsley (or, after the transactions, New Marshall & Ilsley) for loans made in the ordinary course of business. All such loans were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with others and did not involve more than the normal risk of collectibility or present other unfavorable features. In addition to loans, bank subsidiaries of Marshall & Ilsley (or, after the transactions, New Marshall & Ilsley) provide other banking services in the ordinary course of business to directors and executive officers and their associates.

From time to time, directors and executive officers of Marshall & Ilsley (or, after the transactions, New Marshall & Ilsley) and their associates may sell shares of their common stock to New Marshall & Ilsley pursuant to New Marshall & Ilsley's stock repurchase program. The purchase price for any such sales is the prevailing market price at the time of such sale.

On December 15, 2004, Marshall & Ilsley entered into a consulting agreement with Mr. Wigdale. Under the consulting agreement, Mr. Wigdale agreed to consult with the executive officers and Marshall & Ilsley Board and its affiliates with respect to such matters as may be reasonably requested by Marshall & Ilsley, and to continue to foster and maintain relationships with area businesses and community-based organizations on Marshall & Ilsley's behalf. The consulting agreement will remain in effect for as long as Mr. Wigdale continues to serve on the Marshall & Ilsley Board (or, after the transactions, New Marshall & Ilsley), unless it is sooner terminated by the mutual written consent of the parties or by Mr. Wigdale's disability such that he is unable to perform his duties. Mr. Wigdale will not receive any cash remuneration under the consulting agreement. As compensation for the services described above, Mr. Wigdale will receive reimbursement for all reasonable travel and other expenses incurred in the performance of his duties under the consulting agreement; continued access to New Marshall & Ilsley's facilities and services, with secretarial services and office space sufficient for Mr. Wigdale to perform his duties; a company car; access to New Marshall & Ilsley aircraft for company business use or personal use subject, in the case of personal use, to an annual maximum of \$30,000 of incremental cost to New Marshall & Ilsley, net of any reimbursement by Mr. Wigdale; club dues; and financial planning services. The maximum annual benefit provided by Marshall & Ilsley on behalf of Mr. Wigdale is limited to \$50,000, after which Mr. Wigdale must reimburse New Marshall & Ilsley for the excess amount.

In connection with Marshall & Ilsley's merger with Mississippi Valley Bancshares, Inc. on October 1, 2002, Mr. Baur entered into an employment agreement with M&I Marshall & Ilsley Bank under which Mr. Baur was employed until December 31, 2004. Under this agreement, Mr. Baur received a base salary of \$311,000 per year and an annual incentive bonus of \$200,000 (both of which were discontinued as of December 31, 2004, when he ceased to be an employee of M&I Marshall & Ilsley Bank), and is entitled to certain other benefits, including the right to participate in Marshall & Ilsley's benefit and qualified retirement plans, the use of a car, and the payment of club dues until he reaches the age of 65 in 2009. Mr. Baur also will be provided with office space until December 31, 2009 and health insurance coverage until he reaches the age of 65 and, thereafter, he will be entitled to participate in Marshall & Ilsley's Medicare supplemental insurance plan. Mr. Baur is also entitled under the agreement to receive payments of \$2,000 per month until he reaches the age of 65.

Table of Contents

On December 15, 2004, Southwest Bank of St. Louis, a subsidiary of Marshall & Ilsley, entered into a consulting agreement with Mr. Baur under which, beginning on January 1, 2005, Mr. Baur agreed to consult with the executive officers and the board of directors of Southwest and its affiliates with respect to such matters as may reasonably be requested by Southwest or its affiliates. Mr. Baur will continue to serve as the Chairman of the board of directors of Southwest, and will maintain continued involvement with area businesses and community-based organizations on Southwest's behalf and continue to cultivate business development and expansion opportunities for Marshall & Ilsley and its subsidiaries within Missouri and the surrounding markets. The consulting agreement will remain in effect until it is terminated by written notice, at least 90 days in advance, by either of the parties, or by Mr. Baur's death or disability such that he is unable to perform his duties. As compensation for such services, Southwest will pay Mr. Baur a consulting fee equal to \$10,000 per month, in addition to the \$2,000 monthly payment payable to Mr. Baur during the term of the consulting agreement in accordance with the post-employment obligations of the employment agreement described above. Southwest will also pay or reimburse Mr. Baur for all reasonable travel and other expenses incurred by Mr. Baur in performance of his duties under the consulting agreement, and will continue to provide Mr. Baur with a company car.

Effective April 1, 2006, Gold Banc Corporation, Inc. merged with Marshall & Ilsley. In connection with this merger, in March 2006, Mr. Aslin, who had been Chief Executive Officer of Gold Banc, entered into a letter agreement with Marshall & Ilsley and a consulting agreement with M&I Marshall & Ilsley Bank. Under the letter agreement, Mr. Aslin received \$1,325,549 pursuant to a change of control agreement and related payments upon completion of the merger.

The term of Mr. Aslin's consulting agreement began on the date of the merger and will continue until the earlier of (1) termination of the agreement by Mr. Aslin or M&I Bank with 90 days' notice or (2) Mr. Aslin's death or disability. M&I Bank agreed that it will not terminate the agreement prior to the first anniversary of the merger. Mr. Aslin's duties under the consulting agreement include continuing to cultivate both business development and expansion opportunities for New Marshall & Ilsley and its subsidiaries in certain designated markets. As compensation for such services, Mr. Aslin is paid a consulting fee of \$10,000 per month, he and his spouse receive subsidized health insurance coverage to the same extent as full-time company employees, and his membership dues for country clubs in Kansas and Florida and two luncheon clubs in Kansas City are paid by M&I Bank during the term of the consulting agreement. Mr. Aslin also agreed to covenants regarding confidentiality, non-competition and non-solicitation of customers and employees for the term of the consulting agreement.

On December 21, 2006, Marshall & Ilsley entered into a transition and consulting agreement with Mr. Kuester relating to Mr. Kuester's retirement as Chief Executive Officer on the date of the 2007 annual meeting of shareholders. Under the transition and consulting agreement, Mr. Kuester will continue to serve as Chairman of the Marshall & Ilsley Board (or, after the transactions, New Marshall & Ilsley) and will receive salary at his current rate and continue participation in other compensation and benefit programs until his retirement as an employee on January 1, 2008. Upon his retirement, Mr. Kuester will also be fully vested in any outstanding restricted shares or restricted share units, which are not otherwise vested in accordance with their normal terms on such date. The transition and consulting agreement further provides that, beginning on January 2, 2008, Mr. Kuester will consult with the executive officers and the Marshall & Ilsley Board (or, after the transactions, New Marshall & Ilsley) and its affiliates with respect to such matters as may be reasonably requested by Marshall & Ilsley (or, after the transactions, New Marshall & Ilsley). In addition to his duties as Chairman of the Marshall & Ilsley Board (or, after the closing of the transactions, New Marshall & Ilsley), Mr. Kuester will maintain continued involvement with area businesses on Marshall & Ilsley's (or, after the transactions, New Marshall & Ilsley's) behalf, assist Marshall & Ilsley (or, after the transactions, New Marshall & Ilsley) with business development and retention, and participate in selected charitable organizations. The transition and consulting agreement will remain in effect for as long as Mr. Kuester continues to serve on the board of directors, unless it is sooner terminated by mutual written consent of the parties or by Mr. Kuester's death or disability such that he is unable to perform his duties.

Table of Contents

Under the transition and consulting agreement, after January 1, 2008, Mr. Kuester will receive \$20,833.33 per month for each full or partial month during which he serves as non-executive Chairman of the Marshall & Ilsley Board (or, after the transactions, New Marshall & Ilsley). Also during this period, Mr. Kuester will receive reimbursement for all reasonable travel and other expenses incurred in the performance of his duties under the transition and consulting agreement; continued access to Marshall & Ilsley's (or, after the transactions, New Marshall & Ilsley's) facilities and services, with secretarial services and office space sufficient for Mr. Kuester to perform his duties; a company car; access to company aircraft, at company expense, limited to direct business use or an annual maximum of 40 hours of personal use, after which Mr. Kuester must reimburse Marshall & Ilsley (or, after the transactions, New Marshall & Ilsley) for the excess amount; club dues; and financial planning services. As compensation for the consulting services to be provided by Mr. Kuester while he remains on Marshall & Ilsley's (or, after the transactions, New Marshall & Ilsley's) board of directors but is no longer Chairman of the Board of Marshall & Ilsley (or, after the transactions, New Marshall & Ilsley), Mr. Kuester will receive the same benefits as described above, except that his personal use of company aircraft will be subject to an annual maximum of \$50,000 in value, and the maximum annual benefit provided by Marshall & Ilsley (or, after the transactions, New Marshall & Ilsley) on behalf of Mr. Kuester for his personal expenses will be limited to \$100,000. Mr. Kuester will be required to reimburse Marshall & Ilsley for amounts in excess of these limits.

A son of each of Messrs. Baur and Wigdale was employed by Marshall & Ilsley or its subsidiaries and each received compensation and benefits that exceeded \$120,000 in 2006. Neither of these employees was an executive officer of Marshall & Ilsley. The compensation and benefits received by each were established by Marshall & Ilsley in accordance with its employment and compensation practices applicable to employees holding comparable positions. Messrs. Baur and Wigdale are not among the directors who have been determined by the Marshall & Ilsley Board to be independent under the NYSE Standards and the categorical independence standards adopted by the Marshall & Ilsley Board. In addition, during 2006, Marshall & Ilsley retained Quarles & Brady LLP, a law firm in which Mr. Daniels is a partner, to provide certain legal services to Marshall & Ilsley and its subsidiaries.

Table of Contents**OWNERSHIP OF COMMON STOCK OF NEW MARSHALL & ILSLEY**

The following table sets forth the anticipated beneficial ownership of New Marshall & Ilsley common stock immediately following the transactions by each of New Marshall & Ilsley's directors and named executive officers, each person who will be a beneficial owner of 5% or more of New Marshall & Ilsley's outstanding shares of common stock and all directors and executive officers as a group, based upon information available to New Marshall & Ilsley concerning ownership of Marshall & Ilsley common stock on August 31, 2007 (unless another date is indicated). Unless otherwise indicated, the mailing address of each of these persons is New M&I Corporation, c/o Marshall & Ilsley Corporation, 770 North Water Street, Milwaukee, Wisconsin 53202, (414) 765-7700. As used in this proxy statement/prospectus information statement, beneficial ownership means that a person has, or may have within 60 days, the sole or shared power to vote or direct the voting of a security and/or the sole or shared investment power with respect to a security (i.e., the power to dispose or direct the disposition of a security). Pursuant to the employee matters agreement, each option to purchase shares of Marshall & Ilsley common stock held by Marshall & Ilsley group employees or current or former members of the Marshall & Ilsley Board that are outstanding as of the time of the distributions will convert into options to purchase New Marshall & Ilsley common stock. Each outstanding option to purchase Marshall & Ilsley common stock held by an individual who, immediately following the separation, is a director of New Metavante and either a Marshall & Ilsley or New Marshall & Ilsley employee or a director of New Marshall & Ilsley shall be converted into both a New Marshall & Ilsley option and a New Metavante option. The number of shares subject to the options to purchase shares of New Marshall & Ilsley or New Metavante, as the case may be, and the per share exercise price of such options will be fixed in a way that maintains the intrinsic value of the option to purchase Marshall & Ilsley common stock and does not increase the ratio of the per share exercise price of the related Marshall & Ilsley option to the value of one share of Marshall & Ilsley common stock on the closing date. The following table reflects options beneficially owned on August 31, 2007 without giving effect to any adjustment pursuant to the employee matters agreement. For the number of shares of restricted stock held by executive officers, see The Transactions Interests of Certain Persons in the Transactions beginning on page 90.

Name	Shares to be Owned(1)	Marshall & Ilsley Options Beneficially Owned	Percent of Class

Table of Contents

All current directors and executive officers of New Marshall & Ilsley as a group (32 persons) own 9,777,242 shares of common stock or 3.7% of the total common stock outstanding. See footnote 24.

-
- (1) Except as otherwise noted, the directors and named executive officers, and all directors and executive officers as a group, have sole voting power and sole investment power over the shares listed.
 - (2) As of July 31, 2007, all such shares are owned by wholly-owned subsidiaries of Marshall & Ilsley as trustee or in other fiduciary capacities. The subsidiaries are Marshall & Ilsley Trust Company National Association (the Trust Company) and M&I Investment Management Corp. Of these shares, one or more of the subsidiaries has sole voting power as to 4,156,454 shares, shared voting power as to 10,617,160 shares, sole dispositive power as to 5,565,497 shares and shared dispositive power as to 11,590,727 shares. The amount and percentage of shares beneficially owned, and the amount of shares to which the Trust Company has shared voting or investment power, include 9,943,612 shares held by the Trust Company as to which Marshall & Ilsley and the Trust Company disclaim beneficial ownership.
 - (3) As of July 31, 2007, of these shares, 7,711,256 are owned directly by The Northwestern Mutual Life Insurance Company (NML), 41,500 are owned by investment company affiliates of NML and 5,154,370 are owned by Lydell, Inc., an indirect, wholly-owned subsidiary of NML. NML has shared voting and investment power as to all of these shares. NML has agreed to notify the Federal Reserve Board (FRB) prior to acquiring additional shares such that NML 's total investment in New Marshall & Ilsley would exceed 9.9% of New Marshall & Ilsley 's total outstanding common stock or prior to taking any other action that would trigger any rebuttable presumption of control under FRB regulations.
 - (4) Includes 10,000 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007, 225 shares held by Mr. Aslin 's family as to which he disclaims beneficial ownership and 855 shares held in New Marshall & Ilsley 's deferred compensation plan for directors. Of the shares of common stock beneficially owned by Mr. Aslin, 135,000 shares are pledged as security.
 - (5) Includes 15,000 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007 and 867 shares in New Marshall & Ilsley 's deferred compensation plan for directors. Does not include 700,000 shares which are held in a family limited liability company of which Mr. Baur is a member but over which Mr. Baur has no voting or investment power.
 - (6) Includes 35,000 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007 and 36,424 shares held in New Marshall & Ilsley 's deferred compensation plan for directors.
 - (7) Includes 15,000 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007 and 3,216 shares held under New Marshall & Ilsley 's deferred compensation plan for directors.
 - (8) Includes 561,025 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007, 610 shares held in the M&I Retirement Program and 79,161 shares held under New Marshall & Ilsley 's deferred compensation plan for executives.
 - (9) Includes 45,000 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007. Includes 50,000 shares held in trust for which Mr. Kellner exercises shared voting power, 127,200 shares as to which Mr. Kellner exercises sole voting power and 9,173 shares held under New Marshall & Ilsley 's deferred compensation plan for directors. Of the shares of common stock beneficially owned by Mr. Kellner, 50,000 shares are pledged as security.

Edgar Filing: MARSHALL & ILSLEY CORP/WI/ - Form DEFM14A

- (10) Includes 138,500 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007 and 369 shares held in the M&I Retirement Program.

- (11) Includes 1,703,750 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007, 8,735 shares held in a donor-advised charitable foundation, 805 shares held in the M&I Retirement Program, and 93,699 shares held under New Marshall & Ilsley s deferred compensation plan for executives.

Table of Contents

- (12) Includes 5,000 shares which could be acquired pursuant to exercise of stock options within 60 days of August 31, 2007, 419 shares held under New Marshall & Ilsley's deferred compensation plan for directors, 10,000 shares held by Mr. Lubar's family trust, and 15,000 held in a general partnership in which Mr. Lubar exercises shared voting power.
- (13) Includes 45,000 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007.
- (14) Includes 30,000 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007, 1,200 shares held in trust as to which he disclaims beneficial ownership, and 5,224 shares held under New Marshall & Ilsley's deferred compensation plan for directors.
- (15) Includes 50,000 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007, 860,577 shares held by trusts for which Mr. Orr exercises shared voting and investment power and as to which Mr. Orr disclaims beneficial ownership, and 35,550 shares held under New Marshall & Ilsley's deferred compensation plan for directors.
- (16) Includes 329,333 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007, 5,699 shares held in the M&I Retirement Program, and 34,855 shares held under New Marshall & Ilsley's deferred compensation plan for executives.
- (17) Represents 30,000 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007 and 7,226 shares held under New Marshall & Ilsley's deferred compensation plan for directors.
- (18) Includes 45,000 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007, 69,554 shares held by Mr. Platten's family as to which he disclaims beneficial ownership and 62,327 shares held in the M&I Retirement Program. Of the shares of common stock beneficially owned by Mr. Platten, 50,000 shares are pledged as security.
- (19) Includes 45,000 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007.
- (20) Includes 30,000 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007. Represents 21,330 shares held under New Marshall & Ilsley's deferred compensation plan for executives.
- (21) Represents 20,000 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007.
- (22) Represents 45,000 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007 and 16,974 shares held under New Marshall & Ilsley's deferred compensation plan for directors.
- (23) Includes 1,119,000 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007 and 23,756 shares held by Mr. Wigdale's family as to which he disclaims beneficial ownership.
- (24) Includes 5,558,106 shares which could be acquired pursuant to the exercise of stock options within 60 days of August 31, 2007, 114,895 shares held in New Marshall & Ilsley's deferred compensation plan for directors, 384,014 shares held in New Marshall & Ilsley's deferred compensation plan for executives, 102,922 shares held in the M&I Retirement Program and 35,675 shares of restricted stock as to which

the holders exercise sole voting power.

DESCRIPTION OF NEW MARSHALL & ILSLEY CAPITAL STOCK

Overview

The following is a description of the New Marshall & Ilsley restated articles of incorporation and amended and restated by-laws which will become effective prior to the New Marshall & Ilsley share distribution. The following descriptions of New Marshall & Ilsley capital stock and provisions of the New Marshall & Ilsley restated articles of incorporation and amended and restated by-laws are summaries of their material terms and provisions and are qualified by reference to the New Marshall & Ilsley restated articles of incorporation and amended and restated by-laws, which are attached or incorporated by reference to this proxy statement/prospectus information statement. The descriptions do not purport to be complete statements of the provisions of New Marshall & Ilsley's restated articles of incorporation and amended and restated by-laws. You must read those documents for complete information on the terms of New Marshall & Ilsley's capital stock. The descriptions reflect changes to the capital structure, articles of incorporation and amended and restated by-laws that will be in effect prior to the New Marshall & Ilsley share distribution.

Authorized Capital Stock

Immediately following the New Marshall & Ilsley share distribution, New Marshall & Ilsley's authorized capital stock will consist of 700,000,000 shares of common stock, par value \$1.00 per share, and 5,000,000 shares of preferred stock, par value \$1.00 per share. On the record date for the Marshall & Ilsley special meeting, 276,051,523 shares of Marshall & Ilsley common stock were issued, of which 266,839,811 shares were outstanding and 9,211,712 shares were held as treasury shares and no shares of preferred stock were issued and outstanding. If the same number of shares of Marshall & Ilsley common stock are outstanding as of the closing date, 266,839,811 shares of New Marshall & Ilsley common stock will be outstanding immediately following the New Marshall & Ilsley share distribution.

Common Stock

Voting Rights. Holders of New Marshall & Ilsley common stock will be entitled to one vote per share on all matters to be voted on by shareholders, except to the extent that the voting power of shares held by any person in excess of 20% of the voting power in the election of directors may be limited (in voting on any matter) to one-tenth of the full voting power of those shares under Section 180.1150 of the WBCL. Holders of New Marshall & Ilsley common stock will not be entitled to cumulative voting rights. The WBCL and the New Marshall & Ilsley amended and restated by-laws will require a plurality of all votes cast at a meeting at which a quorum is present to elect directors. For most other shareholder votes, the WBCL and the New Marshall & Ilsley amended and restated by-laws will provide that an action is approved if the votes cast in favor of the action exceed the votes cast opposing the action at a meeting at which a quorum is present, unless the New Marshall & Ilsley articles of incorporation, amended and restated by-laws or the WBCL provide otherwise.

Dividends. Holders of New Marshall & Ilsley common stock will be entitled to receive dividends when, as and if declared by the New Marshall & Ilsley board of directors out of funds legally available for payment of dividends, subject to any preferential rights of any outstanding preferred stock.

Liquidation. In the event of the liquidation or dissolution of New Marshall & Ilsley, the holders of common stock will be entitled to share ratably in all assets remaining for distribution to shareholders, subject to any preferential rights of any outstanding preferred stock.

Other Rights. Except as set forth in any written agreement between New Marshall & Ilsley and any such holder, holders of New Marshall & Ilsley common stock will have no preemptive or other subscription rights, and the shares of common stock will not be subject to further calls or assessment by New Marshall & Ilsley. There will be no conversion rights or sinking fund provisions applicable to the shares of New Marshall & Ilsley common stock.

Table of Contents

Listing. New Marshall & Ilsley intends to file an application to have its common stock authorized for listing on the New York Stock Exchange under the symbol MI. The transfer agent and registrar for New Marshall & Ilsley common stock will be Continental Stock Transfer & Trust Company.

Preferred Stock

The New Marshall & Ilsley restated articles of incorporation will provide that the New Marshall & Ilsley board of directors has the authority, without further vote or action by the New Marshall & Ilsley shareholders, to issue up to 5,000,000 shares of New Marshall & Ilsley preferred stock in one or more series and, with respect to any series, the board of directors, subject to certain limitations, will be authorized to:

fix the number of shares;

designate any series and the number of shares which shall constitute the series;

determine voting rights;

determine dividend rates, payment dates and whether dividends shall be cumulative;

determine the proper amount per share payable on the shares of each series in the event of liquidation or dissolution or winding up of New Marshall & Ilsley;

determine any redemption provisions;

determine any sinking fund provisions;

determine any conversion provisions; and

determine any other terms, limitations and relative rights and preferences of the series as may lawfully be determined by the board of directors and will not be inconsistent with New Marshall & Ilsley's restated articles of incorporation and the WBCL.

Shares of New Marshall & Ilsley preferred stock that are converted, redeemed, repurchased or otherwise acquired by New Marshall & Ilsley will be returned and restored to the status of authorized, unissued shares.

The issuance of shares of New Marshall & Ilsley preferred stock, or the issuance of rights to purchase shares of preferred stock, could be used to discourage an unsolicited acquisition proposal. See Wisconsin Law and Certain Articles of Incorporation and By-Laws Provisions; Anti-Takeover Measures beginning on page 274. In addition, under some circumstances, the issuance of preferred stock could adversely affect the voting power of holders of New Marshall & Ilsley common stock.

Immediately following the New Marshall & Ilsley share distribution, no shares of New Marshall & Ilsley preferred stock will be outstanding.

Table of Contents

WISCONSIN LAW AND CERTAIN ARTICLES OF INCORPORATION AND BY-LAWS PROVISIONS; ANTI-TAKEOVER MEASURES

Overview

The following is a description of the New Marshall & Ilsley restated articles of incorporation and amended and restated by-laws which will become effective prior to the New Marshall & Ilsley share distribution. The following descriptions of New Marshall & Ilsley capital stock and provisions of the New Marshall & Ilsley restated articles of incorporation and amended and restated by-laws are summaries of their material terms and provisions and are qualified by reference to the New Marshall & Ilsley restated articles of incorporation and amended and restated by-laws, which are attached or incorporated by reference to this proxy statement/prospectus information statement. The descriptions do not purport to be complete statements of the provisions of New Marshall & Ilsley's restated articles of incorporation and amended and restated by-laws. You must read those documents for complete information on the terms of New Marshall & Ilsley's capital stock. The descriptions reflect changes to the capital structure, articles of incorporation and amended and restated by-laws that will be in effect prior to the New Marshall & Ilsley share distribution.

Certain provisions in the New Marshall & Ilsley restated articles of incorporation and amended and restated by-laws and certain provisions of the WBCL may delay or make more difficult acquisitions or changes of control of New Marshall & Ilsley not approved by the board of directors. These provisions may also make it more difficult for third parties to replace New Marshall & Ilsley's initial management without the concurrence of the board of directors. In addition, Federal Reserve Board approval is required for certain acquisitions of New Marshall & Ilsley common stock or other voting stock. All of these provisions could have the effect of discouraging third parties from making proposals that shareholders may otherwise consider to be in their best interests, including tender offers or attempts that might allow shareholders to receive premiums over the market price of their common stock.

Size of Board of Directors and Special Meetings

The New Marshall & Ilsley restated articles of incorporation and amended and restated by-laws will provide that the board of directors will consist of not less than three directors (exclusive of directors, if any, elected by the holders of one or more series of preferred stock pursuant to the restated articles of incorporation applicable thereto), the exact number of which is established within such limits by resolution adopted by the affirmative vote of a majority of the directors then in office; however, no decrease in the number of directors will shorten the term of any incumbent director. Except as otherwise provided by the WBCL and subject to the rights of the holders of any class or series of capital stock having a preference over the common stock as to dividends or upon liquidation, special meetings of shareholders of New Marshall & Ilsley may be called only by the Chief Executive Officer or the President pursuant to a resolution approved by not less than a majority of the board of directors or upon the demand, in accordance with the procedure set forth in New Marshall & Ilsley's amended and restated by-laws, of the holders of record shares representing at least 10% of all of the votes entitled to be cast on any issue proposed to be considered at the proposed special meeting. These provisions have the effect of making it difficult for a potential acquirer to gain control of the New Marshall & Ilsley board of directors.

Removal of Directors; Filling Vacancies

Exclusive of directors, if any, elected by holders of one or more series of preferred stock, holders of common stock may remove a director only for cause and then only by a majority vote of the outstanding shares of the New Marshall & Ilsley capital stock entitled to vote at a meeting of shareholders called for that purpose. Cause is defined solely as malfeasance arising from the performance of a director's duties which has a materially adverse effect on the business of New Marshall & Ilsley. This provision could deter or discourage a party seeking to obtain control of New Marshall & Ilsley by removing one or more directors from the board.

The New Marshall & Ilsley restated articles of incorporation will provide that any newly-created directorship resulting from an increase in the number of directors and any other vacancy on the New

Table of Contents

Marshall & Ilsley board of directors, however caused, shall be filled by vote of a majority of the directors then in office, although less than a quorum (or by a sole remaining director). Any director so elected to fill any vacancy in the New Marshall & Ilsley board of directors, including a vacancy created by an increase in the number of directors, shall hold office until the next annual meeting of New Marshall & Ilsley shareholders and until his or her successor shall be elected and shall qualify. Notwithstanding the foregoing, whenever the holders of any one or more series of preferred stock issued shall have the right, voting separately by series, to elect directors at an annual or special meeting of shareholders, the election, term of office, filling of vacancies and other features of such directorships shall be governed by the terms of the articles of incorporation.

Advance Notice of Proposals to be Brought at the Annual Meeting

Pursuant to the New Marshall & Ilsley amended and restated by-laws, any shareholder who intends to bring business before an annual meeting of shareholders must provide New Marshall & Ilsley with notice of such intention, the nature of such proposal, the reasons for conducting such business at the annual meeting and certain information regarding the shareholder bringing the proposal not less than 90 days prior to the anniversary date of the annual meeting of shareholders in the immediately preceding year. This provision could render more difficult or discourage an attempt to obtain control of New Marshall & Ilsley through a proposal brought before an annual meeting of shareholders. New Marshall & Ilsley would have to be given advance notice of any such proposal in accordance with its amended and restated by-laws, which notice to New Marshall & Ilsley may discourage the making of such proposal.

Advance Notice of Nominations of Directors

Pursuant to the New Marshall & Ilsley restated articles of incorporation and the New Marshall & Ilsley amended and restated by-laws, any shareholder who intends to nominate directors for election at a meeting called for that purpose must provide New Marshall & Ilsley with notice of such intention, a written consent of the nominee to serve as a director, certain information regarding the proposed nominee and certain information regarding the nominating shareholder not less than 90 days prior to the anniversary date of the annual meeting of shareholders in the immediately preceding year. This provision could deter or discourage a party seeking to obtain control of New Marshall & Ilsley by electing directors to its board. Any such party would be required to comply with the restated articles of incorporation and amended and restated by-laws in nominating directors to the board, and such compliance could deter or discourage such party from nominating directors to the board.

Authorized and Unissued Stock

Immediately following the New Marshall & Ilsley share distribution, New Marshall & Ilsley's authorized capital will consist of 5,000,000 shares of preferred stock, all of which will be unissued, and 700,000,000 shares of common stock. New Marshall & Ilsley's board of directors will have the right to cause New Marshall & Ilsley to issue authorized and unissued shares from time to time, without shareholder approval. These additional shares may be used for a variety of corporate purposes, including future public or private offerings to raise additional capital or to facilitate corporate acquisitions. The board of directors' power to approve the issuance of preferred stock could, depending on the terms of such stock, either impede or facilitate the completion of a merger, tender offer or other takeover attempt. Similarly, the board of directors' ability to issue additional shares of common stock could, depending upon the circumstances of their issue, either impede or facilitate the completion of a merger, tender offer or other takeover attempt, and thereby protect the continuity of management and possibly deprive shareholders of opportunities to sell their shares of common stock at higher than prevailing market prices. For example, the issuance of new shares might impede a business combination if they were issued in connection with a rights plan or if the terms of those shares include voting rights which would enable the holder to block business combinations. Alternatively, the issuance of new shares might facilitate a business combination if those shares have general voting rights sufficient to cause an applicable percentage vote requirement to be satisfied. The board of directors will make any determination regarding issuance of additional shares based on its judgment as to the best interests of New Marshall & Ilsley and its shareholders.

Table of Contents**Constituency or Stakeholder Provision**

Under Section 180.0827 of the WBCL, in discharging his or her duties to New Marshall & Ilsley and in determining what he or she believes to be in the best interests of New Marshall & Ilsley, a director or officer may, in addition to considering the effects of any action on shareholders, consider the effects of the action on employees, suppliers, customers, the communities in which New Marshall & Ilsley operates and any other factors that the director or officer considers pertinent. This provision may have anti-takeover effects in situations where the interests of New Marshall & Ilsley stakeholders, other than shareholders, conflict with the short-term maximization of shareholder value.

Wisconsin Anti-Takeover Statutes

Sections 180.1140 to 180.1144 of the WBCL, which are referred to as the Wisconsin business combination statutes, prohibit a resident domestic corporation from engaging in a business combination with an interested stockholder for a period of three years after the date of the transaction in which the person became an interested stockholder, unless prior to such date the board of directors approved the business combination or the transaction in which the person became an interested stockholder. Under specified circumstances, a resident domestic corporation may engage in a business combination with an interested stockholder more than three years after the stock acquisition date. For purposes of the Wisconsin business combination statutes, a business combination includes (a) a merger or share exchange, (b) a sale, lease, exchange, mortgage, pledge, transfer or other disposition of assets of the corporation or its subsidiary equal to at least 5% of the aggregate market value of the consolidated assets or outstanding stock of the corporation or 10% of the corporation's earning power or income on a consolidated basis, (c) the issuance or transfer by the corporation or its subsidiary of stock or rights to purchase stock having an aggregate market value equal to at least 5% of the outstanding stock, unless the stock was issued or transferred pursuant to the exercise of warrants, rights or options or a dividend or distribution made proportionately to all stockholders, (d) the adoption of a plan of liquidation or dissolution of the corporation that is proposed by or on behalf of an interested stockholder, (e) other enumerated transactions involving an interested stockholder if the effect is to increase the proportionate share of the outstanding stock (or securities convertible into stock) of the corporation or its subsidiary beneficially owned by the interested stockholder, and (f) receipt by an interested stockholder of the benefit of a loan, advance, guarantee, pledge or other financial assistance provided by or through the corporation or its subsidiary, unless the benefit is received proportionately by all stockholders. Under the Wisconsin business combination statutes, an interested stockholder is a person who beneficially owns at least 10% of the voting power of the outstanding voting stock of the resident domestic corporation, or who is an affiliate or associate of the resident domestic corporation and beneficially owned at least 10% of the voting power of the then outstanding voting stock within three years prior to the date in question.

A resident domestic corporation means a public Wisconsin corporation that, as of the stock acquisition date in question, has:

its principal offices located in Wisconsin;

significant business operations located in Wisconsin;

more than 10% of the holders of record of its stock who are residents of Wisconsin; or

more than 10% of its shares held of record by residents of Wisconsin.

Following completion of the transactions, New Marshall & Ilsley will be considered a resident domestic corporation for purposes of these statutory provisions.

Sections 180.1130 to 180.1133 of the WBCL, which are referred to as the Wisconsin fair price statutes, require that business combinations involving a significant shareholder and a resident domestic corporation be approved by the affirmative vote of at least (1) 80% of the votes entitled to be cast by the outstanding voting

Table of Contents

shares of the corporation, and (2) two-thirds of the votes entitled to be cast by the holders of the voting shares that are not beneficially owned by a significant shareholder or an affiliate or associate of a significant shareholder who is a party to the transaction, unless the fair price conditions specified in the statute have been satisfied. This requirement is in addition to any vote that may be required by law or the articles of incorporation. For purposes of the Wisconsin fair price statutes, a business combination generally includes (i) a merger or share exchange or (ii) a sale, lease, exchange or other disposition of all or substantially all the property or assets of the corporation to a significant shareholder, other than a mortgage or pledge if not made to avoid the fair price statutes and the Wisconsin defensive action restrictions statute (as described below). Under the Wisconsin fair price statutes, a significant shareholder is a person who beneficially owns, directly or indirectly, 10% or more of the voting power of the outstanding stock of the resident domestic corporation, or who is an affiliate of the resident domestic corporation and beneficially owns, directly or indirectly, 10% or more of the voting power of the outstanding stock of the resident domestic corporation within two years prior to the date in question. The Wisconsin fair price statutes may discourage an attempt by a shareholder to squeeze out other shareholders without offering an appropriate premium purchase price.

Under Section 180.1150 of the WBCL, the voting power of shares of a resident domestic corporation that are held by any person in excess of 20% of the voting power in the election of directors are limited (in voting on any matter) to 10% of the full voting power of those excess shares, unless otherwise provided in the articles of incorporation or otherwise specified by the board of directors, or unless full voting rights have been restored at a special meeting of the shareholders called for that purpose. This statute is designed to protect corporations against uninvited takeover bids by reducing to one-tenth of their normal voting power all shares in excess of 20% owned by an acquiring person. This provision may deter a shareholder from acquiring in excess of 20% of New Marshall & Ilsley outstanding voting stock. Section 180.1150(3) excludes shares held or acquired under certain circumstances from the application of Section 180.1150(2), including, among others, shares acquired directly from New Marshall & Ilsley and shares acquired in a merger or share exchange to which New Marshall & Ilsley is a party.

Section 180.1134 of the WBCL, which is referred to as the Wisconsin defensive action restrictions statute, provides that, in addition to the vote otherwise required by law or the articles of incorporation, a resident domestic corporation must receive approval of the holders of a majority of the shares entitled to vote before the corporation can take the actions discussed below while a takeover offer is being made or after a takeover offer has been publicly announced and before it is concluded. Under the Wisconsin defensive action restrictions statute, approval of the holders of the majority of the shares is required for the corporation to acquire more than 5% of its own outstanding voting shares at a price above the market price from any individual who or organization which owns more than 3% of the outstanding voting shares and has held the shares for less than two years, unless at least an equal offer is made to acquire all of its voting shares and all securities which may be converted into its voting shares. This restriction may deter a shareholder from acquiring shares of New Marshall & Ilsley common stock if the shareholder's goal is to have New Marshall & Ilsley repurchase the shareholder's shares at a premium over the market price. Approval of the holders of the majority of the shares is also required under the Wisconsin defensive action restrictions statute for the corporation to sell or option assets of the corporation which amount to at least 10% of the market value of the corporation, unless the corporation has at least three independent directors and a majority of the independent directors vote not to be governed by this restriction.

Table of Contents

Federal Law Restrictions

The Change in Bank Control Act of 1978 prohibits a person or group of persons from acquiring control of a bank holding company unless:

the Federal Reserve Board has been given 60 days prior written notice of the proposed acquisition;

within that time period, the Federal Reserve Board has not issued a notice disapproving the proposed acquisition or extending for up to another 30 days the period during which such a disapproval may be issued; or unless the acquisition otherwise requires Federal Reserve Board approval. An acquisition may be made before expiration of the disapproval period if the Federal Reserve Board issues written notice that it intends not to disapprove the action. It is generally assumed that the acquisition of more than 10% of a class of voting stock of a bank holding company with publicly held securities, such as New Marshall & Ilsley, would constitute the acquisition of control.

In addition, any company would be required to obtain Federal Reserve Board approval before acquiring 25% or more of New Marshall & Ilsley outstanding voting stock. If the acquiror is a bank holding company, this approval is required before acquiring 5% of New Marshall & Ilsley outstanding common stock. Obtaining control over New Marshall & Ilsley would also require Federal Reserve Board prior approval. Control generally means:

the ownership or control of 25% or more of a bank holding company voting securities class;

the ability to elect a majority of the bank holding company's directors; or

the ability otherwise to exercise a controlling influence over the bank holding company's management and policies.

Table of Contents

LIMITATION OF LIABILITY AND INDEMNIFICATION OF NEW MARSHALL & ILSLEY S DIRECTORS AND OFFICERS

Limitation of Liability of Directors

Section 180.0828 of the WBCL provides that, unless a limitation in the articles of incorporation applies, a director of a Wisconsin corporation is not liable to the corporation, its shareholders, or any person asserting rights on behalf of the corporation or its shareholders, for damages, settlements, fees, fines, penalties or other monetary liabilities arising from a breach of, or failure to perform, any duty resulting solely from his or her status as a director, unless the person asserting liability proves that the breach or failure to perform constitutes:

a willful failure to deal fairly with the corporation or its shareholders in connection with a matter in which the director has a material conflict of interest;

a violation of criminal law, unless the director had reasonable cause to believe that his or her conduct was lawful or no reasonable cause to believe it was unlawful;

a transaction from which the director derived an improper personal profit; or

willful misconduct.

New Marshall & Ilsley s restated articles of incorporation will not limit these provisions as they may apply to New Marshall & Ilsley directors.

Indemnification of Officers and Directors

Section 180.0851 of the WBCL requires a corporation to indemnify a director or officer, to the extent such person is successful on the merits or otherwise in the defense of a proceeding, for all reasonable expenses incurred in the proceeding if such person was a party to such proceeding because he or she was a director or officer of the corporation. In cases where a director or officer is not successful on the merits or otherwise in the defense of a proceeding, a corporation is required to indemnify a director or officer against liability incurred by the director or officer in a proceeding if such person was a party to such proceeding because he or she is a director or officer of the corporation, unless it is determined that he or she breached or failed to perform a duty owed to the corporation and such breach or failure to perform constitutes:

a willful failure to deal fairly with the corporation or its shareholders in connection with a matter in which the director or officer has a material conflict of interest;

a violation of criminal law, unless the director or officer had reasonable cause to believe that his or her conduct was lawful or no reasonable cause to believe that his or her conduct was unlawful;

a transaction from which the director or officer derived an improper personal profit; or

willful misconduct.

New Marshall & Ilsley s amended and restated by-laws will provide that New Marshall & Ilsley will indemnify its directors, officers and designated employees to the fullest extent permitted by the WBCL, unless it is determined by final judicial adjudication that indemnification is prohibited. New Marshall & Ilsley s amended and restated by-laws will provide that upon the written request of a director, officer or designated employee who is a party to a proceeding, New Marshall & Ilsley must pay or reimburse such person s expenses as incurred if such person provides a written affirmation of his or her good faith belief that he or she is entitled to indemnification and a written undertaking to repay all amounts advanced if it is ultimately determined that indemnification is prohibited. New Marshall & Ilsley s amended and restated by-laws also

provide that New Marshall & Ilsley may purchase insurance on behalf of any director, officer or designated employee against certain liabilities, losses and expenses, whether or not New Marshall & Ilsley would have the power to indemnify these persons against these liabilities, losses and expenses.

Table of Contents

Section 180.0859 of the WBCL provides that it is the public policy of the State of Wisconsin to require or permit, to the extent permitted by law, indemnification, allowance of expenses and insurance for any liability incurred in connection with any proceeding involving securities regulation. In accordance with this provision, the New Marshall & Ilsley amended and restated by-laws will provide for mandatory indemnification and allowance of expenses for officers, directors and designated employees for proceedings involving securities-related matters.

Table of Contents

DESCRIPTION OF NEW METAVANTE

General

New Metavante's wholly-owned operating subsidiary, Metavante, is a leading financial services technology provider. Metavante's integrated banking and payments products and services assist its clients in completing critical financial services activities including account processing for deposit, loan and trust systems, image-based and conventional check processing, lockbox services, electronic funds transfer, consumer health care payments, electronic presentment and payment, government and merchant processing, and business transformation services.

Metavante began operations in 1964, providing community and regional banks with dependable, outsourced account processing services with a high level of client service. Since then, Metavante has become a provider of innovative, high quality products and services to the financial services, commercial and health care insurance industries. With over 35 locations in the United States and Canada, Metavante recorded \$1.5 billion in revenue in the year ended December 31, 2006.

Industry Background

Over the past 25 years, the financial services industry has become significantly more information and transaction intensive. In 1980, the typical financial institution offered basic banking services through a network of branches with limited automated teller machine access. The process of automating bank business processes has been evolutionary, beginning with back-office record-keeping, moving to other areas such as service delivery channels and, more recently, using customer relationship management techniques to create new revenue-enhancing products and services. Today, many financial institutions offer a broader range of products and services delivered through a variety of distributions channels. The Internet, in particular, is driving increasing demand among consumers for more convenient products and services. Bank automation has created highly complex operating environments as banks and third party vendors have had to integrate various business applications across disparate hardware and software platforms. Customization of business applications by banks in an attempt to differentiate their products and services from competitors compounded this complexity.

The significant consolidation that the U.S. financial services industry has experienced during the last 15 years is a second factor behind the increasing demand for technology solutions. Bank mergers generally involve moving one bank's processing system onto the system used by the other institution. These system conversions have heightened the sensitivity of financial institutions to the inherent risks of such projects, particularly where a key technology vendor lacks expertise, services, or financial stability. In some cases, the merged institution continues to run multiple systems, creating operating inefficiencies.

The market for financial technology providers has historically been very fragmented. Since the mid-1990s, smaller competitors have brought niche software or processing solutions to the market, which increased the difficulties of technology integration. In the last five years, certain smaller technology vendors experienced challenges in providing the breadth of services, applications and solutions required by their customers and in convincing their customers of their long-term financial stability and survival in the marketplace, leading to further consolidation in the financial services technology provider market.

Trends and Opportunities

Financial institutions today face challenges resulting from intensified competition among traditional players and new entrants, technological innovation and evolving customer preferences and behavior. As a result of these challenges, Metavante believes that the financial services industry is experiencing the following trends:

financial institutions are seeking ways to more effectively use customer information to cross sell products and improve customer retention. As a result, financial institutions are beginning to regard

Table of Contents

information technology as a strategic tool that can help develop revenue-enhancing products rather than as an exclusively back-office function;

consolidation is continuing in the financial services industry, which creates the potential for an increased demand for computer systems consolidation and outsourcing;

financial institutions are increasingly willing to outsource their core processing needs to third parties to enhance their competitive position by lowering costs (as compared to in-house solutions) and increasing speed-to-market without losing functionality;

financial institutions are seeking to increase revenue by improving the quality of the experience of their customers. As financial institution customers have become more sophisticated, banks have sought increasingly convenient, customer-friendly ways to interact with their customers. Accordingly, these institutions have begun searching for and implementing information technology solutions that simplify and improve the customer service process;

financial institutions are increasingly outsourcing their key business processes to third parties to reduce costs and handle an increased volume of transactions. Business process outsourcing among financial institutions should continue to grow as both the range of outsourced services and the number of financial institutions deploying outsourcing increases;

financial institutions are gradually moving toward fully automated processes, commonly referred to as straight-through processing, where the initial contact with the customer through to the institution's back-office processing is fully automated. Straight-through processing is viewed by financial institutions as a means of eliminating redundant and manual steps that can lead to errors, cause unnecessary delays and increase operating expenses;

financial institutions are evaluating moving to real-time processing. Core processing systems that operate on a real-time basis, as opposed to the traditional model of collecting data and later processing it in batches, will become increasingly important as financial institutions compete to improve the quality of the customer's experience, including real-time settlement of transactions and funds availability, as well as fraud detection;

financial institutions are increasingly subject to increased regulations of capital adequacy. This has caused financial institutions to seek ways to reduce fixed cost infrastructure and move to a variable cost structure;

financial institutions in markets outside the U.S., particularly the rapidly evolving markets in Asia, Eastern Europe and South America, are encountering the same challenges and trends as U.S. financial institutions. These international financial institutions will provide opportunities for software, services and solutions providers to expand into the international marketplace;

as financial institutions attempt to improve the customer experience and manage costs, Metavante expects them to continue to adopt better technology solutions and outsource their technology needs. Technology providers with significant domestic market penetration, a well-integrated suite of services and financial stability will have the best opportunity to benefit from such outsourcing; and

both traditional and non-traditional financial services providers increasingly view technology as critical to improving customer service levels and retaining and expanding their customer bases. The same is true in the health care industry, where insurance carriers, commercial health plans, managed care companies, third-party administrators and self-insured employers must administer health plans and process the voluminous claims associated with those plans. As health care costs continue to rise, payers continue to seek to reduce costs. This has led participants in the health care industry to utilize payment services developed for and made efficient by financial

services companies in order to reduce costs and improve efficiencies over the longer term.

Table of Contents**Business Segments**

Metavante organizes its business in two segments: Financial Solutions Group and Payment Solutions Group. The following table sets forth Metavante's 2006 revenue and income from operations by segment:

(\$000 s)	Financial Solutions Group	Payment Solutions Group	Corporate/Other	Metavante
Year ended December 31, 2006				
Revenues	\$ 788,141	\$720,267	\$ (4,230)	\$ 1,504,178
Income From Operations	174,472	237,884	(140,389)	271,967

Financial Solutions

The Financial Solutions segment, which accounted for approximately 52% of Metavante revenues in 2006, includes the following solution sets: banking and trust; image; commercial treasury; and risk and compliance.

Banking and Trust Solutions. Metavante offers a comprehensive set of integrated products and services for financial services institutions centered on customer and account management, specializing in deposit, loan and trust accounts. In providing these financial services solutions, Metavante uses a multi-channel delivery system, including branch and teller systems, customer relationship management, consumer and business eBanking and a full range of payment, image, and risk and compliance solutions. Metavante services bank accounts using two core processing systems - Bankway and Integrated Banking Solutions. Metavante also provides investment technology services to financial institutions, including web-enabled products and services, asset and liability aggregation, trust and investment account management and automation, and client and regulatory reporting. Metavante's lending solutions include automation technology and services to residential mortgage, consumer, small business and vendor finance marketplaces served by financial services firms.

Image Solutions. Metavante's image solutions help financial institutions worldwide transition from paper to electronic payments and image processing. Image solutions, which can be delivered in-house or outsourced, focus on distributed capture, check and remittance processing, fraud detection, and document and report management.

Commercial Treasury Solutions. Metavante provides the technology and related outsourcing services to allow a financial institution's commercial accounts to manage their cash and investments, as well as certain income statement items. The Metavante systems provide full accounting and reconciliation for these transactions, serving as the system of record, and offer full regulatory compliance, risk assessment and fraud management tools. Metavante's commercial treasury solutions include products that focus on data interchange, web cash concentration, web automated cash concentration, account analysis, automated clearing house (ACH), payables management and receivables management.

Risk and Compliance Solutions. Metavante also provides technology and services to assist its financial institution customers combat fraud, manage operational risk, and comply with regulatory mandates. Metavante's risk and compliance solutions include products that focus on anti-money laundering, business continuity planning, compliance data, credit risk, enterprise risk management, fraud, information security and privacy, regulatory services, Office of Foreign Access Control (OFAC) regulations, and Sarbanes-Oxley.

Payment Solutions

The Payment Solutions segment, which accounted for approximately 48% of Metavante's revenues in 2006, includes the following solution sets: electronic funds transfer (EFT); payment network; ePayment; and healthcare payment.

EFT Solutions. To enable financial institutions to efficiently serve the needs of their consumer and business customers, Metavante provides integrated, channel and unique solutions for full debit card, credit card, prepaid

Table of Contents

debit card, and ACH products delivered in an outsourced environment. Metavante's debit card services focus on processing, consumer call center solutions, fraud monitoring, and dispute processing, and its credit card solutions additionally address account servicing, underwriting, and collections. In the area of prepaid debit, Metavante's EFT solutions assist customers with gift cards, payroll cards, electronic benefit transfers, rebate cards and card personalization and issuance. Metavante's ACH services include origination, receiving, returns operations, debit block and credit limit processing. Metavante provides comprehensive web-enabled solutions to meet EFT and card processing needs of over 1,600 clients.

Payment Network Solutions. Metavante delivers traditional ATM and PIN-based debit network access and emerging real-time payment alternatives from its wholly owned NYCE Payments Network LLC, and electronic check image exchange from its wholly owned Endpoint Exchange Network LLC, which route and switch financial transactions or check images between originating and receiving financial institutions. Through NYCE, clients such as financial institutions, retailers and independent ATM deployers can capitalize on the efficiency, consumer convenience and security of electronic real-time payments, real-time account-to-account transfers, and strategic alliances such as surcharge-free ATM network arrangements. Metavante's Endpoint Exchange Network connects over 4,000 financial institution endpoints, allowing financial institution clients to clear their check-based transactions by exchanging check images between member institutions, which capitalizes on existing imaging infrastructure and settlement relationships and maximizes interoperability.

ePayment Solutions. Metavante provides reliable, scalable bill publishing and bill consolidation technology for over 2,600 financial services clients, generating millions of monthly payments that serve both billers and financial institution customers. Metavante also provides integrated government payment processing solutions delivered through point-of-sale, Internet and phone channels.

Healthcare Payment Solutions. In order to help drive efficiencies in payment processing in the healthcare sector, Metavante has extended its enabling financial and payments technology and services to help automate payment operations of health plans, third-party administrators, healthcare providers and financial institutions. Metavante's financial services solutions support accounts and transactions for flexible spending accounts, health savings accounts, and health reimbursement arrangements, transportation and dependent care accounts. Metavante also offers combination medical eligibility/payment cards, claims payment and explanation of benefits distribution services, and provider billing presentment and payment services, each of which helps to streamline the business process for healthcare industry clients, including the commercial customers of financial institutions.

Clients and Distribution/Sales Methods

Sales and Marketing

Metavante sells its products and services primarily through a direct sales force in the United States and primarily through distributors internationally. As of June 30, 2007, approximately 500 people supported Metavante's sales and marketing activities worldwide. Metavante's direct sales efforts have been focused on financial services providers, such as banks, credit unions, brokers, insurance companies and resellers.

Metavante's direct sales staff uses a multi-tiered approach that leverages the involvement of its field sales personnel, technical professionals and members of senior management. Its sales process simultaneously targets senior business executives, personnel responsible for financial services initiatives and bank operations personnel. Metavante employs this approach to accelerate the sales cycle, which typically ranges from three to nine months. After a sale is completed, Metavante's client services group manages the account and offers additional products and services that may benefit these accounts.

Metavante's corporate marketing team is responsible for building strong brand awareness, implementing best practice marketing processes and generating and identifying potential clients and market opportunities. Metavante's marketing efforts include electronic marketing, media relations, trade show and event marketing, strategic marketing, strategic planning, market research and market planning.

Table of Contents

Clients

As of December 31, 2006, Metavante had over 8,600 clients. These clients include participants from all segments of the financial services industry, including 91 of the largest 100 banks in the United States as well as mid-tier and community banks, Internet banks and non-traditional financial services providers. Metavante also provides services to over 400 companies in the healthcare insurance industry. For the year ended December 31, 2006 and the six months ended June 30, 2007, revenues from Marshall & Ilsley represented approximately 8.1% and 7.9% of Metavante's total revenues, respectively. No other client represented in excess of 3% of Metavante's revenues during those periods.

Competition

The markets for Metavante's banking and payment products and services are intensely competitive. Metavante competes with a variety of companies in the financial services industry and its competitors vary in size and in the scope and breadth of products and services they offer. The financial services industry is highly fragmented with numerous companies competing for market share. Other segments of the financial services industry have large well-capitalized competitors who command the majority of market share. Metavante also faces competition from in-house technology departments of existing and potential clients who may develop their own product capabilities.

Metavante competes on the quality of the technology-based application or service, application features and functions, ease of delivery and integration, ability of the provider to maintain, enhance and support the applications or services, and price. Metavante believes that it competes favorably in each of these categories. In addition, Metavante believes that its ability to offer multiple applications and services to individual customers enhances its competitiveness against competitors with more limited application offerings.

Competitors for Metavante include Fiserv, Inc., where the company compares most directly to Fiserv's Financial segment; Fidelity National Information Services, Inc., where the company compares most directly to Fidelity's Transaction Processing Services segment; and Jack Henry & Associates, Inc., where the company compares most directly to its bank systems and services segment. Metavante also competes with companies that do not offer the breadth of banking products and services that it offers, such as eFunds Corporation and First Data Corporation.

Competitive Strengths

Metavante believes the following competitive strengths differentiate Metavante from its competitors and contribute to its success:

Processing capacity and scale. Metavante operates one of the nation's largest financial processing platforms, including its single outsourced bank processing platform. This scale allows Metavante to provide cost-effective products to its clients and to be competitive in pricing and product marketing. Metavante processes debit card transactions on its proven, stable and fully integrated platform and, through its card management system, maintains debit/stored value cards. Also, Metavante provides ACH processing and ranks among the 10 largest ACH originators in the United States. The NYCE Payments Network connects cards from issuing financial institutions, ATMs, and point-of-sale locations nationwide, providing consumers with secure, real-time access to their money in connection with consumer bill payments, biller-direct payments, and government payments.

Consulting and professional services capabilities. A competitive distinction for Metavante is its large consulting and professional services organization, which includes over 700 professionals with comprehensive financial services expertise.

Business transformation services. Metavante also seeks to differentiate its solutions from its competitors by providing business transformation services, which include business process outsourcing (BPO) and value-

Table of Contents

added consulting services, to help financial institutions place their focus more on their customers and away from their back-office operations. In order to extend its services in this area, in 2006, Metavante entered into an operating agreement with Firstsource Solutions, Ltd. pursuant to which it has the right to distribute and sell Firstsource's BPO services in the U.S. financial institution market. Firstsource (formerly ICICI-OneSource) is a leading international BPO company that became a publicly traded company in February 2007. Metavante is able to offer its clients the benefits of both onshore and offshore BPO services, including certain back-office processes, such as aspects of check, loan and deposit, and collection processing. At the same time Metavante entered into the operating agreement with Firstsource, Metavante acquired an approximately 20% equity position in Firstsource. Firstsource is headquartered in Mumbai, India, with locations in India, Argentina, the United Kingdom and Northern Ireland, the Philippines, and the United States. Mr. Layden, an executive officer of New Metavante, serves as a director of Firstsource.

Banking industry heritage and expertise. Operating for 43 years as part of a bank holding company has given Metavante the unique perspective of and appreciation for working with executives and managers in a financial services institution. Metavante's consulting, operations, products and services employees frequently function as extensions of their clients' staff as they seek to deliver the highest levels of client service in the industry.

Comprehensive, integrated product offerings. Metavante offers financial services providers a comprehensive set of products and services for their financial transactions. Metavante's products and services are modular, flexible and integrated, allowing clients to select those products and services which best suit their needs and add additional products and services as their businesses grow.

Speed to market. Metavante products and services allow financial services providers to dramatically reduce the time and cost required to introduce new products and services compared with the internal development of these products and services.

Customer relationship management. Metavante customer relationship management products and services assist Metavante's clients in generating a complete view of each customer relationship, regardless of the point of access or source of information. These products and services are designed to interface seamlessly with all of Metavante's products and services and help clients attract and retain customers.

User-centered design. Metavante incorporates user-centered design techniques, such as client observation, prototyping, iteration and usability testing, as a guiding principle in its product development process. This practice puts the user, the ultimate customer, at the center of the product research and design process, resulting in products and services that use technology to innovatively address customer needs. User-centered design ensures that Metavante's products are appealing and easy to use in a variety of environments and applications.

Scalable, reliable and secure services. Metavante products and services are designed to be capable of scaling rapidly to support increasing numbers of end users and to operate reliably. Metavante's products are secured by data encryption techniques, firewalls and several layers of security technology in order to protect the systems from unauthorized access.

Metavante's Strategy

Historically, Metavante has operated as part of Marshall & Ilsley, the primary business of which is banking and banking related services. Following the completion of the transactions, Metavante expects to become a more highly focused financial services technology solutions provider. As an independent company, Metavante believes it will be better positioned to succeed in the industries in which it competes and to invest in and grow its businesses. Metavante believes there are significant opportunities to increase its revenues and profitability through the further implementation of its growth strategy.

Table of Contents

Specific elements of Metavante's growth strategy include the following:

Maintain status as premier provider of global integrated financial services technology solutions. In March 2007, Metavante announced a strategic alliance with TEMENOS to create a new U.S. global banking platform. TEMENOS is a leading international provider of integrated core banking software. Metavante will co-develop an advanced core banking platform for top tier U.S. financial institutions based on next-generation technologies. This strategic agreement is a cornerstone of Metavante's growth strategy for serving large financial institutions and expanding business internationally. Through the agreement, Metavante will become the exclusive provider of this advanced core banking technology in the United States. This solution will be delivered on a component basis, enabling large banks to replace aging solutions on a line of business or phased approach. It will be available as either an in-house licensed solution, or as an outsourced processing solution. In addition, Metavante acquired the international right to be the exclusive provider of outsourced processing services for TEMENOS' Corebanking software in Brazil, Russia, India and China, and the preferred provider of such processing services in other countries.

Increase presence in international markets. Metavante has software products that are in use by clients in 32 foreign countries, which have been sold primarily through distributor agreements in those countries. Metavante seeks to increase its presence in international markets either directly or through strategic alliances. In 2006, Metavante increased its focus on expanding its international presence. Since then, Metavante has made an equity investment in Firstsource, an Indian-based business process outsourcing provider; established a strategic alliance with TEMENOS to co-develop next-generation core banking software for the top tier U.S. banking market; and has entered into a joint venture with a United Kingdom-based mobile payments provider to establish a mobile payments platform for the United States.

Build business process outsourcing capability. Metavante provides BPO services to its customers by leveraging its application technology and the domain expertise of itself and its service delivery partners. Metavante provides item processing services in centers it owns and operates and other BPO services, such as loan, deposit and trust account processing and management, through its relationships with third party providers including Marshall & Ilsley, and its affiliates. In 2006, Metavante entered into an operating agreement with Firstsource Solutions, Ltd., an international BPO provider, to extend its BPO capabilities to include offshore service delivery and expand its network of onshore providers.

Expand electronic payment solutions into specialized markets. In May 2007, Metavante entered into a joint venture agreement with U.K.-based Monitise PLC, a leading U.K. provider of secure mobile payments capability, to establish Monitise Americas LLC, a U.S. mobile payments joint venture. Monitise Americas LLC is owned 51% by Metavante and 49% by Monitise PLC. The joint venture creates a system for mobile payments in the United States and Canada. The service enables consumers to rely on a common, secure and intuitive interface for services including bill pay, prepaid cell phone top-up, account balances inquiries, and account-to-account funds transfers directly from their mobile and sets. Metavante will provide hosting services for the Monitise mobile payments platform in the United States. As part of the hosting services, the NYCE Network will connect the Monitise platform to its switch.

Active Acquisition and Integration Strategy. A significant part of Metavante's growth has come through acquisitions and investments and, consequently, Metavante has developed an expertise in identifying and integrating acquisitions and investments that increase Metavante's market reach, scale and size, as well as the extension and depth of its products into new and existing markets. Building upon its successful acquisition strategy, Metavante may pursue acquisitions of greater size, with public or private companies, headquartered in the United States or internationally, or in industries outside of the financial services technology industry.

Acquisitions Completed in 2006 and 2007

Metavante's acquisition strategy has been to acquire profitable companies with growth potential that enjoy a solid customer base, have established products and services, and operate with strong management teams and

Table of Contents

dedicated employees. Metavante has sought to acquire companies that bring minimum integration risk, but that add to the company's processing scale and allow it generally to participate in consolidation within its industry. Since late 2003, Metavante's acquisitions have either filled a product gap; enhanced an existing product line; added businesses with adoption growth models; enhanced economies of scale; or expanded the company's customer base for cross-sell opportunities, or a combination of these factors.

A summary of Metavante's most recent acquisition transactions follows:

On January 3, 2006, Metavante completed the acquisition of AdminiSource Corporation (AdminiSource) of Carrollton, Texas. AdminiSource is a provider of health care payment distribution services, providing printed and electronic payment and remittance advice distribution services for payer organizations nationwide. The acquisition was part of Metavante's continuing expansion of its financial services technology to benefit consumer-directed health care payments. AdminiSource now operates within Metavante's healthcare payment solution set.

Everlink Payment Services, Inc., a 51% owned Canadian subsidiary of Metavante, acquired certain assets of the EFT processing division of CGI Group Inc. on January 4, 2006. CGI is an information technology and business process services firm. These assets include switching and debit processing services for Canadian networks, credit unions, banks and independent service organizations. Metavante contributed 51% of the purchase price and the minority shareholder contributed the remaining 49% of the purchase price to Everlink. Everlink is considered part of Metavante's EFT solution set.

In 2006, Metavante entered into an operating agreement with Firstsource Solutions, Ltd. (formerly ICICI-OneSource), a leading international BPO company that became a publicly traded company in February 2007, pursuant to which Metavante has the right to distribute and sell Firstsource's BPO services in the U.S. financial institution market. Metavante is able to offer its clients the benefits of both onshore and offshore BPO services, including certain back-office processes, such as aspects of check, loan and deposit, and collection processing. At the same time as entering into the operating agreement with Firstsource, Metavante acquired an approximately 20% equity position in Firstsource. Firstsource is headquartered in Mumbai, India, with locations in India, Argentina, the United Kingdom and Northern Ireland, the Philippines, and the United States. Mr. Layden, an executive officer of New Metavante, serves as a director of Firstsource.

On September 1, 2006, Metavante completed the acquisition of VICOR, Inc. (VICOR) of Richmond, California. VICOR is a provider of financial services technology and software that facilitate corporate payment processing and solutions that simplify and automate the processing of complex payments for financial institutions and their commercial clients. VICOR now operates within Metavante's commercial treasury solution set.

On January 17, 2007, Metavante completed the acquisition of Valutec of Franklin, Tennessee. Valutec is a provider of closed-loop, in-store gift and loyalty card solutions to small and medium-sized businesses, as well as the commercial customers of financial institutions. Valutec now operates within Metavante's EFT solution set.

Research and Development

As of June 30, 2007, Metavante's product development staff consisted of over 1,000 software development professionals with experience in a vast array of financial services technologies, including Internet technology, financial services applications, software testing and quality assurance, object-oriented software design, client service systems, straight-through-processing design, user-centered design, large scale transaction processing and wireless technology. Metavante's product development group is responsible for strategic product planning, managing client and market demands and managing the product roll-out process for each product under development. This group uses best practices, such as user-centered design, object oriented development, enterprise architecture and formal software testing, to enhance the quality, performance, scalability and

Table of Contents

functionality of Metavante's products and services. In addition, Metavante has strong relationships with several international application outsourcing partners that provide offshore resources for development.

Intellectual Property

Metavante relies on a combination of contractual restrictions, internal security practices, and copyright and trade secret law to establish and protect its software, technology and expertise. In addition, Metavante possesses patents covering various aspects of its operations. Metavante believes that legal protection of its proprietary rights, while important, is less significant than the knowledge and experience of its management and personnel and their ability to develop, enhance and market new products and services. Metavante believes it possesses all proprietary rights necessary to conduct its business.

Properties

New Metavante's corporate headquarters are located at 4900 West Brown Deer Road, Milwaukee, Wisconsin, a combined office and data processing facility, which is owned by Metavante. In addition, Metavante owns or leases support centers and other facilities in over 35 locations. Metavante believes its facilities and equipment are generally well maintained, are in good operating condition, and are adequate for its present and foreseeable business needs.

Legal Proceedings

In the normal course of business, Metavante and its subsidiaries are named as defendants in lawsuits in which claims are asserted against them. In the opinion of New Metavante's management, the liabilities, if any, which may ultimately result from such lawsuits are not expected to have a material adverse effect on New Metavante's consolidated financial statements.

Employees

As of June 30, 2007, Metavante employed approximately 5,500 full-time equivalent employees, including approximately 1,000 in technical and software development, 1,000 in client care, 1,200 in operations, 500 in administration, 500 in sales and marketing, 600 in product solutions, and 700 in consulting and systems conversion. Metavante considers employee relations to be excellent. None of the employees of Metavante or its subsidiaries are represented by a collective bargaining group.

Supervision and Regulation

Various aspects of Metavante's business are subject to federal, state, and foreign regulation. Metavante's failure to comply with any applicable laws and regulations or to provide its clients with products and services to enable them to comply could result in restrictions on its ability to provide its products and services, as well as the imposition of civil fines and criminal penalties.

As a provider of technology services to financial institutions such as banks, thrifts and credit unions, Metavante is subject to regulatory oversight and examination by the Federal Financial Institutions Examination Council, an interagency body of the Federal Deposit Insurance Corporation, the Office of Thrift Supervision, the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, the National Credit Union Administration and various state regulatory authorities. In addition, independent auditors annually review several of Metavante's operations to provide reports on internal controls for its clients' auditors and regulators. Metavante may also be subject to possible review by state agencies that regulate banks in each state in which it conducts its electronic processing activities. After completion of the transactions, New Metavante will no longer be subject to the restrictions on activities applicable to subsidiaries of a bank holding company.

Financial institutions are required to comply with privacy regulations and information security guidelines/regulations imposed under the Gramm-Leach-Bliley Act. These regulations place certain restrictions on financial

Table of Contents

institutions use and disclosure of non-public personal information. All financial institutions must disclose detailed privacy policies to their consumer (not business) customers and offer them the opportunity to direct the financial institution not to share information with third parties in certain circumstances. The regulations, however, generally permit financial institutions to share information with non-affiliated parties who perform services for financial institutions. As a provider of services to financial institutions, Metavante is required to observe the same limitations on disclosure of the information received from its customers as apply to the financial institutions themselves. Furthermore, Metavante generally cannot use the information it receives as a service provider except in connection with the service it is providing.

The Gramm-Leach-Bliley Act information security guidelines and regulations require financial institutions and service providers such as Metavante, to establish and maintain information security programs designed to protect the security, confidentiality, and integrity of customer information. New Metavante will be required to establish and maintain its own information security program pursuant to the Federal Trade Commission's regulations as well as by agreement with its customers.

Additionally, there is significant federal legislation with which Metavante and its clients may be required to comply, including the Fair Credit Reporting Act, the Truth in Lending Act, the Truth in Savings Act, the Electronic Fund Transfer Act, the Internal Revenue Code, the Employee Retirement Income Security Act, the Health Insurance Portability and Accountability Act, the USA PATRIOT Act, and the Bank Secrecy Act. From time to time, in order to comply with its obligations under state and federal laws, Metavante may be required to comply with annual reporting and licensing requirements and to implement operating policies and procedures to protect, among other matters, the privacy and security of patients' health care information or customers' financial information.

Although Metavante does not believe that compliance with future laws and regulations related to its business, including future consumer protection laws and regulations, will have a material adverse effect on it, the enactment of new laws and regulations may increasingly affect the operations of its business, directly or indirectly, which could result in substantial regulatory compliance costs, litigation expense, adverse publicity and/or loss of revenue.

Table of Contents**SELECTED HISTORICAL CONSOLIDATED FINANCIAL INFORMATION OF METAVANTE**

The following table sets forth selected historical consolidated financial information of Metavante, which following the transactions will be an indirect wholly-owned subsidiary of New Metavante and will continue to operate the Metavante business directly or through its subsidiaries. This information is qualified by reference to, and should be read in conjunction with, Management's Discussion and Analysis of Financial Condition and Results of Operations of Metavante beginning on page 293 and the consolidated financial statements and notes of Metavante as of December 31, 2006 and 2005 and as of June 30, 2007 and for each of the three years in the period ended December 31, 2006 and for the three- and six-month periods ended June 30, 2007 and 2006. The results of operations information for the years ended December 31, 2006, 2005 and 2004 and the financial condition information as of December 31, 2006 and 2005 is derived from the audited consolidated financial statements of Metavante included elsewhere in this proxy statement/prospectus information statement. The results of operations information for the years ended December 31, 2003 and 2002 and the financial condition information as of December 31, 2004, 2003 and 2002 are derived from the audited consolidated financial statements of Metavante not included in this proxy statement/prospectus information statement. The results of operations information for the six months ended June 30, 2007 and 2006 and the financial condition information as of June 30, 2007 are derived from the unaudited consolidated financial statements of Metavante included elsewhere in this proxy statement/prospectus information statement. The financial condition information as of June 30, 2006 is derived from the unaudited consolidated financial statements of Metavante not included in this proxy statement/prospectus information statement. The unaudited consolidated financial statements of Metavante include, in Metavante's management's opinion, all adjustments, consisting only of normal recurring adjustments, necessary to fairly state the consolidated results of operations and the consolidated financial position of Metavante for the dates set forth in the table below. You should also read the following information in conjunction with Management's Discussion and Analysis of the Financial Condition and Results of Operations of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) beginning on page 161 and the consolidated financial statements and notes of Marshall & Ilsley as of December 31, 2006 and 2005 and for each of the three years in the period ended December 31, 2006 and for the three- and six-month periods ended June 30, 2007 and 2006 included elsewhere in this proxy statement/prospectus information statement, and the unaudited condensed pro forma consolidated financial statements of New Metavante beginning on page 320. The historical consolidated financial information of Metavante has been derived from the financial statements and accounting records of Marshall & Ilsley and reflects assumptions and allocations made by Marshall & Ilsley. The historical consolidated financial information of Metavante would have been different had Metavante been operated independently. The historical consolidated financial information of Metavante may not be a reliable indicator of future results of operations of Metavante. The amounts in the table below are in thousands.

We have not provided financial information of New Metavante because, prior to the transactions, it will have no assets, liabilities or operations other than incident to its formation and the ownership of Merger Sub and New Marshall & Ilsley, each of which has no assets, liabilities or operations other than incident to its formation.

Table of Contents**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION****AND RESULTS OF OPERATIONS OF METAVANTE**

The following section discusses management's view of Metavante's operations for each of the three years in the period ended December 31, 2006 and for the three and six months ended June 30, 2007 and 2006 and the financial condition as of December 31, 2006 and 2005 and June 30, 2007. This section should be read in conjunction with the audited consolidated financial statements and the unaudited interim financial statements of Metavante and the related notes included elsewhere in this proxy statement/prospectus information statement. This Management's Discussion and Analysis of Financial Condition and Results of Operations of Metavante contains forward-looking statements. See Risk Factors beginning on page 32 and Special Note Regarding Forward-Looking Statements beginning on page 55 for a discussion of the uncertainties, risks and assumptions associated with these forward-looking statements that could cause results to differ materially from those reflected in such forward-looking statements.

Overview

Metavante is a leading financial services technology provider. Metavante's integrated banking and payments products and services assist its clients in completing critical financial services activities including account processing for deposit, loan and trust systems, image-based and conventional check processing, lockbox services, electronic funds transfer, consumer health care payments, electronic presentment and payment, government and merchant processing, and business transformation services.

Metavante began operations in 1964, providing community and regional banks with dependable, outsourced account processing services with a high level of client service. Since then, Metavante has become a provider of innovative, high quality products and services to the financial services, commercial and health care insurance industries. With over 35 locations in the United States and Canada, Metavante recorded \$1.5 billion in revenue in the year ended December 31, 2006.

Metavante's overall strategy is to drive revenue and earnings growth by: (1) growing Metavante's business through organic growth including cross-sales to existing customers; (2) pursuing acquisitions to increase Metavante's market reach and scale or extend Metavante's current product offering; (3) increasing Metavante's presence in new markets, for example, international markets; and (4) expanding Metavante's product offerings such as BPO and specialized payment solutions. Metavante does not anticipate any changes in strategy or financial performance resulting from the Investor's investment in the company.

Metavante's revenue increased 17.1% for the year ended December 31, 2006 compared to the year ended December 31, 2005. Approximately 70% of this increase was attributable to revenue from acquired companies as Metavante paid \$1.6 billion for acquisitions between 2004 to 2006. Metavante expects to continue pursuing its strategy of growth through acquisitions. This is expected to result in continued growth in revenue and earnings from acquired companies.

The financial information presented is for Metavante as a subsidiary of Marshall & Ilsley. In future periods, Metavante will incur new or additional expenses associated with being a public company or procuring services previously provided by Marshall & Ilsley on behalf of Metavante. Examples of these costs include expenses for SEC reporting and accounting, costs associated with stock administration, costs associated with compliance with the Sarbanes-Oxley Act of 2002, and the establishment of tax and treasury departments. This will be offset by the reduction or elimination of administrative charges presently paid by Metavante to Marshall & Ilsley. The annual, pre-tax amount of costs associated with being a public company, including services previously provided by Marshall & Ilsley, is expected to be approximately \$10.9 million. The administrative charge paid to Marshall & Ilsley during 2007 was expected to be \$12.2 million. The net impact of \$1.3 million, pre-tax, for these items is not expected to have a significant impact on Metavante's future operating results.

Metavante has increased revenue and net income from 2004 through 2006 primarily using the organic growth, cross-sell and acquisition elements of this strategy. Revenue increased from \$1,015.4 million in 2004 to

Table of Contents

\$1,285.0 million in 2005 to \$1,504.2 million in 2006. Net income increased from \$76.8 million in 2004 to \$119.5 million in 2005 to \$160.1 million in 2006. A detailed discussion of the major components of the results of operations for the three- and six-month periods ended June 30, 2007 and 2006 and for the years ended December 31, 2006, 2005 and 2004 follows.

Results of Operations

The following table shows the results of operations of Metavante for the three and six months ended June 30, 2007 and 2006 and the years ended December 31, 2006, 2005 and 2004:

Selected Financial Information (\$000 s)	Six Months Ended						
	Three Months Ended June 30,		June 30,		Year Ended December 31,		
	2007	2006	2007	2006	2006	2005	2004
Revenue	\$ 395,735	\$ 373,540	\$ 782,977	\$ 744,488	\$ 1,504,178	\$ 1,284,997	\$ 1,015,393

Key Operating Metrics

Metavante management believes the results of operations expressed as a percentage of revenue provide insight into the trends of the business. The following table shows the results of operations of Metavante for the three and six months ended June 30, 2007 and 2006 and the years ended December 31, 2006, 2005 and 2004, expressed as a percentage of revenue for the respective periods.

Selected Financial Information (% of Revenue)	Three Months Ended		Six Months Ended		Year Ended December 31,

Table of Contents**Non-GAAP Financial Measures**

EBITDA is defined as net income before income taxes, interest expense net of interest income, and depreciation and amortization. EBITDA is not a measure of performance under accounting principles generally accepted in the United States. Metavante's management believes that EBITDA and EBITDA margin (EBITDA as a percentage of revenue) are useful for evaluating performance against peer companies within its industry, as well as providing investors with additional transparency to a financial measure used by management in its financial and operational decision making. In addition, Metavante utilizes EBITDA in the evaluation and determination of the price of potential acquisition candidates, to explain trends in its operating performance and provides useful information about its ability to incur and service indebtedness. Also, EBITDA is expected to be included in the financial covenant applicable to the new revolving credit facility. EBITDA, as defined in the financial covenant, also excludes certain non-cash charges, such as impairment charges and stock option expense in addition to the items noted above.

EBITDA has limitations as an analytical tool and should not be considered a substitute for, or more meaningful than, income from operations, net income, cash flows from operating activities or other measures of financial performance prepared in accordance with GAAP. Some of these limitations are: (a) EBITDA does not reflect changes in, or cash requirements for, working capital needs; (b) EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on debt; and (c) although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future, and EBITDA does not reflect any cash requirements for such capital expenditures. Because of these limitations, EBITDA should not be considered as a principal indicator of Metavante's performance. Metavante compensates for these limitations by relying primarily on GAAP results and using EBITDA only on a supplemental basis.

The following table shows a reconciliation of net income to EBITDA for the three and six months ended June 30, 2007 and 2006 and the years ended December 31, 2006, 2005 and 2004:

	Three Months Ended		Six Months Ended			Year Ended	
	June 30, 2007	2006	June 30, 2007	2006	2006	December 31, 2005	2004

- (1) Net income and EBITDA included losses related to Firstsource of \$607, net of tax, and \$982, respectively, for the three months ended June 30, 2007. Net income and EBITDA included net gains related to Firstsource of \$4,360, net of tax, and \$7,046, respectively, for the six months ended June 30, 2007. Net income and EBITDA included transaction costs of \$900 for the three and six months ended June 30, 2007.

Table of Contents

Business Segments

Metavante provides a full array of technology products and services for the financial services industry. Metavante's results of operations are classified into two business segments: the Financial Solutions Group (FSG) and, the Payment Solutions Group (PSG). FSG and PSG are strategic business units through which we offer different products and services. A further description of each of our business segments along with the Corporate services area follows:

FSG The Financial Solutions Group includes the following solution sets: banking and trust; image; commercial treasury; and risk and compliance. Banking and trust solutions offers integrated products and services for financial services providers that are centered on customer and account management, specializing in deposit, loan and trust accounts. Metavante's image solutions help financial institutions transition from paper to electronic payments and image processing. Commercial treasury solutions provide the technology and related outsourcing services to allow a financial institution's commercial accounts to manage their cash and investments, as well as certain income statement items. Metavante's risk and compliance solutions provide technology and services to assist its financial institution customers combat fraud, manage operational risk, and comply with regulatory mandates.

PSG The Payment Solutions Group includes the following solution sets: EFT; payment network; ePayment; and healthcare payment. EFT solutions provide integrated, channel and unique solutions for full debit card, credit card, prepaid debit card, and ACH products delivered in an outsourced environment. Metavante's payment network delivers traditional ATM and PIN-based debit network access and emerging real-time payment alternatives and electronic check image exchange. ePayment solutions provide reliable, scalable bill publishing and bill consolidation technology for clients and also provides integrated government payment processing solutions delivered through point-of-sale, Internet and phone channels. Metavante's healthcare payment solutions help automate payment operations of health plans, third-party administrators, healthcare providers and financial institutions.

Corporate Corporate services include human resources, legal, finance and accounting, acquisition intangible amortization, intersegment eliminations, transaction costs and various other unallocated overhead charges.

Table of Contents

Metavante evaluates the performance of its segments based on their respective revenues and income from operations. The following table shows summarized financial information for each of Metavante's two business segments for the three and six months ended June 30, 2007 and 2006 and the years ended December 31, 2006, 2005 and 2004:

Description of Revenues and Expenses**Revenue**

Metavante's revenue consists primarily of the following:

Data Processing. Metavante generates a majority of its account and transaction processing fees on services provided under multi-year contracts, primarily with clients in the financial services industry. Various factors influence Metavante's processing revenue stream including the retention of existing clients, the organic growth of our clients, sales to new clients and cross-sales to existing clients, competition from other services providers, and consolidation in the financial services industry (which can be either favorable or unfavorable depending on whether our client is an acquirer, or is itself

Table of Contents

acquired). The majority of the processing revenue stream is not seasonal in nature, although certain units have seasonal patterns.

Software License. Metavante licenses certain of its products to clients with in-house capabilities and a preference to manage these products directly versus outsourcing to Metavante in a hosted environment. Various factors influence Metavante's software sales including product breadth and functionality, new product introductions, competitive pressures and price. Metavante's software sales exhibit some seasonal patterns typical of the industry, such as relatively stronger quarter-end and year-end sales activity. In addition, software license sales can be unpredictable in nature, thereby creating large changes between periods.

Software Maintenance. The typical software license contract also includes a multi-year maintenance agreement entitling the licensee to support and updates, and generating additional annual revenue at a percentage of the license fee. This revenue is recognized ratably over the maintenance period.

Professional Services. Metavante generates revenue from consulting, client support, training, and the conversion of clients' processing systems to Metavante's processing system. Existing and new clients will contract for consulting or other services in conjunction with the Metavante account and transaction processing systems they use, or the Metavante licensed applications they run. Various factors influence Metavante's professional services revenue including the size or complexity of the conversion or product implementation, competition by other consulting firms, and price.

Other Revenue. Metavante generates additional revenue from the production of plastic debit, credit, stored value, health insurance, and transit cards; hardware sales in conjunction with software license contracts; certain pass-through charges, for example postage; and client termination fees. Various factors influence Metavante's other revenue including the level of software sale activity, client retention, and competition. Other revenue may vary from period to period.

Expense

Metavante's expense consists primarily of the following:

Cost of Processing and Services Expense. Cost of processing and services expense consist of the operational costs that support the revenue generating activities of Metavante. These costs include computer hardware, software, and telecommunications expenses, as well as costs related to programming development and support, customer service, professional services and consulting, and other direct operating and management expenses associated with the delivery of services. It also includes the cost to purchase merchandise from suppliers for card production, hardware resale, and various pass-through expenses.

Selling, General and Administrative Expenses. Selling, general and administrative expenses consist of salaries, benefits and other costs related to sales and marketing personnel, administrative employees and management, the costs of advertising and promotion, insurance, acquisition intangible amortization and other administrative costs.

Transaction Costs. Transaction costs consist of expenses associated with the transactions to separate Marshall & Ilsley and Metavante into two separate publicly traded companies.

Comparison of the Three Months Ended June 30, 2007 and 2006**Revenue**

Revenue increased \$22.2 million, or 5.9%, to \$395.7 million for the three months ended June 30, 2007 as compared to \$373.5 million for the three months ended June 30, 2006. Revenue growth continued due to revenue associated with acquisitions and higher volumes in payment processing activities. Revenue associated with Metavante's acquisitions completed in the first quarter of 2007 and the third quarter of 2006 contributed a

Table of Contents

significant portion of the revenue growth for the three-month period ended June 30, 2007 as compared to the three-month period ended June 30, 2006. Metavante estimates that total revenue growth for the three month period ended June 30, 2007 compared to the three month period ended June 30, 2006 excluding the acquisitions (organic revenue growth) was approximately 3%. To determine the estimated organic revenue growth rate, Metavante adjusts its prior year revenue for the acquisitions as if they had been consummated on January 1 of the prior year. As previously disclosed, Metavante expects organic revenue growth in 2007 to be in the mid-single digits.

Revenue for the Financial Solutions segment increased \$6.4 million, or 3.3%, to \$200.0 million for the three months ended June 30, 2007 as compared to \$193.6 million for the three months ended June 30, 2006. Revenue associated with the FSG acquisition completed in 2006 and growth in the core banking products resulted in the increase between periods.

Revenue for the Payment Solutions segment increased \$14.9 million, or 8.2%, to \$196.1 million for the three months ended June 30, 2007 as compared to \$181.2 million for the three months ended June 30, 2006. Revenue associated with an acquisition completed in 2007 contributed \$3.1 million of the growth. The revenue from the on-going payment businesses increased \$11.8 million for the three months ended June 30, 2007 as compared to the three months ended June 30, 2006, driven primarily by higher volumes of debit card processing fees, credit card processing fees and government payment processing fees.

Cost of Processing and Services

Cost of processing and services increased \$10.3 million, or 4.1%, to \$263.2 million for the three months ended June 30, 2007 as compared to \$252.9 million for the three months ended June 30, 2006. Cost of processing and services, as a percentage of revenue, decreased to 66.6% for the three months ended June 30, 2007 compared to 67.7% for the three months ended June 30, 2006. This reduction is due to cost containment efforts throughout Metavante.

Selling, General and Administrative Expense

Selling, general and administrative expense increased \$3.0 million, or 5.5%, to \$57.8 million for the three months ended June 30, 2007 as compared to \$54.8 million for the three months ended June 30, 2006. These expenses, as a percentage of revenue, remained relatively unchanged at 14.6% for the three months ended June 30, 2007, as compared to 14.7% for the three months ended June 30, 2006. The increase in expense is attributable primarily to the acquisitions completed in 2007 and the third quarter of 2006.

Transaction Costs

Costs related to the transactions totaled \$0.9 million for the three months ended June 30, 2007. The costs incurred related primarily to legal and other professional fees associated with the transaction. Metavante expects that transaction related costs will significantly increase in future quarters until the transactions are completed.

Income from Operations

Income from operations increased \$8.0 million, or 12.2%, to \$73.8 million for the three months ended June 30, 2007, compared to \$65.8 million for the three months ended June 30, 2006. Income from operations, as a percentage of revenue, was 18.6% for the three months ended June 30, 2007, compared to 17.6% for the three months ended June 30, 2006. The increase in income from operations, as a percentage of revenue, was largely due to efforts by management to control costs as revenue continued to increase.

Income from operations for the Financial Solutions segment increased \$4.3 million, or 10.8%, to \$44.2 million for the three months ended June 30, 2007 as compared to \$39.9 million for the three months ended

Table of Contents

June 30, 2006. The increase in income from operations resulted from management efforts to contain costs as the Financial Solutions segment was able to support a similar revenue amount with lower expenses thereby increasing income from operations.

Income from operations for the Payment Solutions segment increased \$10.4 million, or 18.9%, to \$65.6 million for the three months ended June 30, 2007 as compared to \$55.2 million for the three months ended June 30, 2006. Metavante used existing resources to improve income from operations, as a percentage of revenue, to 33.5% for the three months ended June 30, 2007 compared to 30.5% for the three months ended June 30, 2006. The majority of the growth was attributable to the on-going payment and card production businesses, government payment business and electronic bill payment businesses.

Corporate/Other represents the cost of overhead activities not allocated back to the two operating segments. The loss from operations increased \$6.7 million, or 22.8%, to \$36.1 million for the three months ended June 30, 2007 as compared to \$29.4 million for the three months ended June 30, 2006. The increase was attributable to a lower level of incentive compensation expense in the three-month period ended June 30, 2006, an increased administrative charge from Marshall & Ilsley and the \$0.9 million of transaction costs incurred during the three-month period ended June 30, 2007.

Net Interest Expense

Interest expense, net of interest income, was \$6.7 million and \$7.5 million for the three months ended June 30, 2007 and 2006, respectively. Interest expense was \$10.8 million for each of the three months ended June 30, 2007 and 2006. Interest expense was partially offset by interest income of \$4.1 million and \$3.3 million for the three months ended June 30, 2007 and 2006, respectively. The increase in interest income resulted from higher cash and cash equivalents during the three month period ended on June 30, 2007 as compared to the three-month period ended on June 30, 2006.

Net Gains Related to Firstsource

During the second quarter of 2007, Metavante realized a pre-tax loss of \$1.0 million related to the investment in Firstsource. See Note 1 - Basis of Presentation and Summary of Significant Accounting Policies in Notes to Condensed Consolidated Financial Statements for further information. Metavante expects that additional gains and/or losses from Firstsource equity activities could be recognized in future periods.

Other Non-Operating Income (Expense)

Other non-operating income was \$0.0 million for the three months ended June 30, 2007, compared to income of \$0.1 million for the same period in 2006. These amounts related primarily to the portion of earnings attributable to the minority shareholders of Metavante's Everlink subsidiary. For the three months ended June 30, 2006, Everlink incurred a net loss; therefore the minority shareholder portion of the earnings was non-operating income to Metavante. Everlink's net loss decreased for the three months ended June 30, 2007 compared to the same period in 2006 resulting in the change between periods.

Provision for Income Taxes

The provision for income taxes was \$23.2 million during the three months ended June 30, 2007 compared to \$18.0 million for the same period of 2006. The effective tax rate for the three months ended June 30, 2007 was 35.1% compared to 30.8% for the three months ended June 30, 2006. During the second quarter of 2006, an income tax benefit was recognized for the integration and realignment of Metavante subsidiaries that resulted in a lower provision for income taxes in the consolidated statements of income for the three months ended June 30, 2006.

Table of Contents***Earnings before Interest, Taxes, Depreciation and Amortization (EBITDA)***

EBITDA increased \$8.3 million, or 8.1%, to \$110.3 million for the three months ended June 30, 2007, as compared to \$102.0 million for the three months ended June 30, 2006. The EBITDA margin was 27.9% for the three months ended June 30, 2007 as compared to 27.3% for the three months ended June 30, 2006. The EBITDA growth was attributable to higher processing volumes among Metavante's various products. The increase in EBITDA, as a percentage of revenue, was due to the cost containment efforts mentioned above.

Comparison of the Six Months Ended June 30, 2007 and 2006***Revenue***

Revenue increased \$38.5 million, or 5.2%, to \$783.0 million for the six months ended June 30, 2007 as compared to \$744.5 million for the six months ended June 30, 2006. Revenue growth continued due to revenue associated with acquisitions and higher volumes in core banking and payment processing activities. Revenue associated with Metavante's acquisitions completed in the first quarter of 2007 and the third quarter of 2006 contributed a portion of the revenue growth for the six-month period ended June 30, 2007 as compared to the six-month period ended June 30, 2006. Metavante estimated that total revenue growth for the six-month period ended June 30, 2007 compared to the six-month period ended June 30, 2006 excluding the acquisitions (organic revenue growth) was approximately 2%. To determine the estimated organic revenue growth rate, Metavante adjusts its prior year revenue for the acquisitions as if they had been consummated on January 1 of the prior year. As previously disclosed, Metavante expects organic revenue growth in 2007 to be in the mid-single digits.

Revenue for the Financial Solutions segment increased \$9.4 million, or 2.4%, to \$394.9 million for the six months ended June 30, 2007 as compared to \$385.5 million for the six months ended June 30, 2006. Revenue associated with the FSG acquisition completed in 2006 and growth in the core banking products resulted in the increase.

Revenue for the Payment Solutions segment increased \$27.4 million, or 7.6%, to \$388.4 million for the six months ended June 30, 2007 as compared to \$361.0 million for the six months ended June 30, 2006. Revenue associated with an acquisition completed in 2007 contributed \$5.6 million of the growth. The revenue from the on-going payment businesses increased \$21.8 million for the six months ended June 30, 2007 as compared to the six months ended June 30, 2006, driven primarily by higher volumes of debit card processing fees, credit card processing fees and government payment processing fees.

Cost of Processing and Services

Cost of processing and services increased \$12.1 million, or 2.4%, to \$518.0 million for the six months ended June 30, 2007 as compared to \$505.9 million for the six months ended June 30, 2006. Cost of processing and services, as a percentage of revenue, decreased to 66.2% for the six months ended June 30, 2007 compared to 67.9% for the six months ended June 30, 2006. This reduction is due to cost containment efforts throughout Metavante.

Selling, General and Administrative Expense

Selling, general and administrative expense increased \$3.2 million, or 2.9%, to \$114.1 million for the six months ended June 30, 2007 as compared to \$110.9 million for the six months ended June 30, 2006. These expenses, as a percentage of revenue, remained relatively unchanged at 14.6% for the six months ended June 30, 2007, as compared to 14.9% for the six months ended June 30, 2006. The increase in expense is attributable primarily to the acquisitions completed in 2007 and the third quarter of 2006.

Table of Contents***Transaction Costs***

Costs related to the spin transaction totaled \$0.9 million for the six months ended June 30, 2007. The costs incurred related primarily to legal and other professional fees associated with the transaction. Metavante expects that transaction related costs will significantly increase in future quarters until the transaction is completed.

Income from Operations

Income from operations increased \$22.3 million, or 17.4%, to \$150.0 million for the six months ended June 30, 2007, compared to \$127.7 million for the six months ended June 30, 2006. Income from operations, as a percentage of revenue, was 19.2% for the six months ended June 30, 2007, compared to 17.2% for the six months ended June 30, 2006. The increase in income from operations, as a percentage of revenue, was largely due to efforts by management to control costs.

Income from operations for the Financial Solutions segment increased \$10.2 million, or 13.8%, to \$84.7 million for the six months ended June 30, 2007 as compared to \$74.5 million for the six months ended June 30, 2006. The increase in income from operations resulted from management efforts to contain costs as noted above, particularly in the core banking products.

Income from operations for the Payment Solutions segment increased \$16.3 million, or 14.1%, to \$131.9 million for the six months ended June 30, 2007 as compared to \$115.6 million for the six months ended June 30, 2006. Metavante leveraged existing resources to improve income from operations, as a percentage of revenue, to 34.0% for the six months ended June 30, 2007 compared to 32.0% for the six months ended June 30, 2006. The majority of the growth is attributable to the card production and electronic bill payment businesses.

Corporate/Other represents the cost of overhead activities not allocated back to the two operating segments. The loss from operations increased \$4.3 million, or 6.9%, to \$66.6 million for the six months ended June 30, 2007 as compared to \$62.3 million for the six months ended June 30, 2006. The increase was attributable to a larger administrative charge from Marshall & Ilsley during the six months ended June 30, 2007 compared to the prior year period and the transaction costs associated with the separation of Metavante and Marshall & Ilsley incurred during 2007.

Net Interest Expense

Interest expense, net of interest income, was \$14.1 million and \$15.8 million for the six months ended June 30, 2007 and 2006, respectively. Interest expense was \$21.7 million for the six months ended June 30, 2007 and 2006. Interest expense was partially offset by interest income of \$7.6 million and \$5.9 million for the six months ended June 30, 2007 and 2006, respectively. The increase in interest income resulted from higher cash and cash equivalents during the six-month period ended on June 30, 2007 as compared to the six-month period ended on June 30, 2006.

Net Gains Related to Firstsource

During the first half of 2007, Metavante realized \$7.0 million in net pre-tax gains related to Metavante's investment in Firstsource. See Note 1 Basis of Presentation and Summary of Significant Accounting Policies in Notes to Condensed Consolidated Financial Statements for further information. Metavante expects that additional gains and/or losses from Firstsource equity activities could be recognized in future periods.

Other Non-Operating Income (Expense)

Other non-operating income was \$0.0 million for the six months ended June 30, 2007, compared to income of \$0.5 million for the same period in 2006. These amounts related primarily to the portion of earnings attributable to the minority shareholders of Metavante's Everlink subsidiary. For the six months ended June 30,

Table of Contents

2007 and 2006, Everlink incurred a net loss; therefore the minority shareholder portion of the earnings was non-operating income to Metavante. Everlink's net loss decreased for the six months ended June 30, 2007 compared to the same period in 2006 resulting in the change between periods.

Provision for Income Taxes

The provision for income taxes was \$50.9 million during the six months ended June 30, 2007 compared to \$37.5 million for the same period of 2006. The effective tax rate for the six months ended June 30, 2007 was 35.6% compared to 33.4% for the six months ended June 30, 2006. During the second quarter of 2006, an income tax benefit was recognized for the integration and realignment of Metavante subsidiaries that resulted in a lower provision for income taxes in the consolidated statements of income for the six months ended June 30, 2006.

Earnings before Interest, Taxes, Depreciation and Amortization (EBITDA)

EBITDA increased \$31.1 million, or 15.5%, to \$231.8 million for the six months ended June 30, 2007, as compared to \$200.7 million for the six months ended June 30, 2006. The EBITDA margin was 29.6% for the six months ended June 30, 2007 as compared to 27.0% for the six months ended June 30, 2006. The first six months of 2007 include a \$7.0 million net gain on Firstsource. The remainder of the EBITDA growth was attributable to higher processing volumes among Metavante's various products. The increase in EBITDA, as a percentage of revenue, was due to the cost containment efforts mentioned above.

Comparison of the Years Ended December 31, 2006 and 2005***Revenue***

Revenue increased \$219.2 million, or 17.1%, to \$1,504.2 million for the year ended December 31, 2006 compared to the \$1,285.0 million for the year ended December 31, 2005. Revenue growth continued due to revenue associated with acquisitions and higher transaction volumes in core processing and payment processing activities. Revenue associated with the three acquisitions completed in 2006 and a full year of revenue from the six acquisitions completed in 2005 contributed a significant portion of the revenue growth in 2006 compared to 2005. Metavante estimates that total revenue growth for the year ended December 31, 2006 compared to the year ended December 31, 2005 excluding the acquisitions (organic revenue growth) was approximately 7%. To determine the estimated organic revenue growth rate, Metavante adjusts its prior year revenue for the acquisitions as if they had been consummated on January 1 of the prior year.

Revenue for the Financial Solutions segment increased \$93.4 million, or 13.4%, to \$788.1 million for the year ended December 31, 2006 as compared to \$694.7 million for the year ended December 31, 2005. Revenue associated with the FSG acquisitions completed in 2006 and a full year of revenue from the FSG acquisitions completed in 2005 contributed \$56.8 million of the revenue growth in 2006 compared to 2005. The remaining revenue increase was attributable to higher transaction volumes in core processing activity and electronic banking.

Revenue for the Payment Solutions segment increased \$128.9 million, or 21.8%, to \$720.3 million for the year ended December 31, 2006 as compared to \$591.4 million for the year ended December 31, 2005. Revenue associated with the PSG acquisitions completed in 2006 and a full year of revenue from the PSG acquisitions completed in 2005 contributed \$99.1 million of the revenue growth in 2006 compared to 2005. The remaining increase was attributable to higher volumes in debit, credit and prepaid card processing.

Cost of Processing and Services

Cost of processing and services increased \$120.1 million, or 13.7%, to \$998.0 million for the year ended December 31, 2006 compared to \$877.9 million for the year ended December 31, 2005. The three businesses

Table of Contents

acquired in 2006 and the six businesses acquired in 2005 contributed \$99.0 million to the expense growth in 2006 compared to 2005. Cost of processing and services, as a percentage of revenue, was 66.4% for the year ended December 31, 2006 compared to 68.3% for the year ended December 31, 2005. The decrease, as a percent of revenue, resulted from management efforts to achieve economies in processing and services costs across various products and the impact of the acquired companies, which, in aggregate had a lower cost of processing and services as a percent of revenue compared to the on-going businesses.

Selling, General and Administrative Expense

Selling, general and administrative expense increased \$55.6 million, or 31.1%, to \$234.2 million for the year ended December 31, 2006 compared to \$178.6 million for the year ended December 31, 2005. Selling, general and administrative expenses, as a percentage of revenue, were 15.6% for the year ended December 31, 2006 compared to 13.9% for the year ended December 31, 2005. The increase in selling, general and administration expense, as a percentage of revenue, was driven by increases in sales and business development costs, largely in the on-going businesses, an increase in amortization of intangible assets related to the acquisitions, and higher sales and marketing expenses, as a percent of revenue, in certain of the acquired businesses.

Income from Operations

Income from operations increased \$43.5 million, or 19.0%, to \$272.0 million for the year ended December 31, 2006, compared to \$228.5 million for the year ended December 31, 2005. Income from operations, as a percentage of revenue, stayed relatively unchanged at 18.1% for the year ended December 31, 2006, as compared to 17.8% for the year ended December 31, 2005.

Income from operations for the Financial Solutions segment increased \$45.6 million, or 35.4%, to \$174.5 million for the year ended December 31, 2006 as compared to \$128.9 million for the year ended December 31, 2005. The FSG acquisitions completed in 2006, and a full year from the FSG acquisitions completed in 2005, contributed \$15.5 million of the growth in 2006 compared to 2005. The remaining increase was from higher volumes from core processing activity and electronic banking. Metavante used existing resources in order to improve income from operations, as a percentage of revenue, to 22.1% for the year ended December 31, 2006 as compared to 18.6% for the year ended December 31, 2005.

Income from operations for the Payment Solutions segment increased \$33.3 million, or 16.3%, to \$237.9 million for the year ended December 31, 2006 as compared to \$204.6 million for the year ended December 31, 2005. The PSG acquisitions completed in 2006 and a full year from the PSG acquisitions completed in 2005, contributed \$19.3 million of the growth in 2006 compared to 2005. Although the acquired companies resulted in income from operations growth, income from operations, as a percentage of revenue, is lower than the existing companies. This resulted in a lower margin of 33.0% for the year ended December 31, 2006 as compared 34.6% for the year ended December 31, 2005.

Corporate/Other represents the cost of overhead activities not allocated back to the two operating segments. The loss from operations increased \$35.4 million, or 33.7%, to \$140.4 million for the year ended December 31, 2006 as compared to \$105.0 million for the year ended December 31, 2005. The increase was driven by the addition of overhead costs associated with the acquired companies, and growth in the overhead activities supporting the on-going businesses of the company.

Net Interest Expense

Interest expense, net of interest income, was \$28.6 million and \$37.3 million for the years ended December 31, 2006 and 2005, respectively. Interest expense was relatively unchanged at \$43.3 million and

\$44.0 million for the years ended December 31, 2006 and 2005. Interest expense was partially offset by interest

Table of Contents

income of \$14.7 million and \$6.7 million for the years ended December 31, 2006 and 2005, respectively. The increase in interest income resulted from higher cash and cash equivalents during the year ended December 31, 2006, as compared to the year ended December 31, 2005.

Other Non-Operating Income (Expense)

Other non-operating expense was \$2.9 million for the year ended December 31, 2006, compared to income of \$1.6 million for the same period in 2005. These amounts related primarily to the portion of earnings attributable to the minority shareholders of Metavante's Everlink subsidiary. In 2006, Everlink had net income therefore the minority shareholder portion of earnings was a non-operating expense to Metavante. In 2005, Everlink incurred a net loss therefore the minority shareholder portion of the earnings was non-operating income to Metavante.

Provision for Income Taxes

The provision for income taxes was \$80.4 million for the year ended December 31, 2006 compared to \$73.3 million for the year ended December 31, 2005. The effective tax rate for the year ended December 31, 2006 was 33.4%, compared to 38.0% for the year ended December 31, 2005. During 2006, an income tax benefit was recognized for the integration and realignment of Metavante's subsidiaries that resulted in a lower provision for income taxes. In addition, the lower effective tax rate in 2006 reflected an increased tax benefit from programs that are eligible for federal and state income tax credits.

Earnings before Interest, Taxes, Depreciation and Amortization (EBITDA)

EBITDA increased \$44.3 million, or 12.0%, to \$413.6 million for the year ended December 31, 2006, as compared to \$369.3 million for the year ended December 31, 2005. The EBITDA margin was 27.5% for the year ended December 31, 2006, as compared to 28.7% for the year ended December 31, 2005. EBITDA associated with the three acquisitions completed in 2006, and a full year of EBITDA from the six acquisitions completed in 2005, contributed a significant portion of the EBITDA growth in 2006 compared to 2005. The decrease in EBITDA, as a percentage of revenue, was primarily driven by increases in sales and business development costs as previously discussed.

Comparison of the Years Ended December 31, 2005 and 2004***Revenue***

Revenue increased \$269.6 million, or 26.6%, to \$1,285.0 million for the year ended December 31, 2005, as compared to \$1,015.4 million for the year ended December 31, 2004. Revenue growth continued to be driven by revenue associated with acquisitions and higher transaction volumes in core processing and payment processing activities. Revenue associated with the six acquisitions completed in 2005 and a full year of revenue from the six acquisitions completed in 2004 contributed a significant portion of the revenue growth in 2005, compared to 2004. Metavante estimates that total revenue growth for the year ended December 31, 2005 compared to the year ended December 31, 2004, excluding the acquisitions (organic revenue growth) was approximately 4%. To determine the estimated organic revenue growth rate, Metavante adjusts its prior year revenue for the acquisitions as if they had been consummated on January 1 of the prior year.

Revenue for the Financial Solutions segment increased \$131.8 million, or 23.4%, to \$694.7 million for the year ended December 31, 2005 as compared to \$562.9 million for the year ended December 31, 2004. Revenue associated with the FSG acquisitions completed in 2005 and a full year of revenue from the FSG acquisitions completed in 2004 resulted in the revenue growth in 2005 compared to 2004.

Revenue for the Payment Solutions segment increased \$138.9 million, or 30.7%, to \$591.4 million for the year ended December 31, 2005 as compared to \$452.5 million for the year ended December 31, 2004. Revenue

Table of Contents

associated with the PSG acquisitions completed in 2005 and a full year of revenue from the PSG acquisitions completed in 2004 resulted in \$101.0 million of revenue growth in 2005 compared to 2004. The remaining increase is attributable to higher volumes in payment processing, healthcare eligibility cards and payment card production.

Cost of Processing and Services

Cost of processing and services increased \$133.4 million, or 17.9%, to \$877.9 million for the year ended December 31, 2005, as compared to \$744.5 million for the year ended December 31, 2004. The six businesses acquired in 2005 and the six businesses acquired in 2004 contributed \$128.8 million of the expense growth in 2005 compared to 2004. Cost of processing and services, as a percentage of revenue, was 68.3% for the year ended December 31, 2005, as compared to 73.3% for the year ended December 31, 2004. The reduction in the cost of processing and services, as a percentage of revenue, in 2005 compared to 2004, resulted from the existing products leveraging their existing infrastructures and personnel to process the higher volumes and the addition of acquired companies, which, in the aggregate, had a relatively lower cost of processing and services compared to the on-going businesses.

Selling, General and Administrative Expense

Selling, general and administrative expense increased \$54.2 million, or 43.6%, to \$178.6 million for the year ended December 31, 2005, compared to \$124.4 million for the year ended December 31, 2004. This growth is attributable to the six businesses acquired in 2005 and the six businesses acquired in 2004. As a percentage of revenue, selling, general and administrative expenses were 13.9% for the year ended December 31, 2005, compared to 12.2% for the year ended December 31, 2004. The companies acquired in 2004 and 2005 had relatively higher levels of selling-related expense compared to Metavante's existing products and the increase in acquisition intangible amortization resulted in the increase in selling, general and administrative expense, as a percent of revenue, in 2005 compared to 2004.

Income from Operations

Income from operations increased \$82.0 million, or 56.0%, to \$228.5 million for the year ended December 31, 2005, as compared to \$146.5 million for the year ended December 31, 2004. Income from operations, as a percentage of revenue, was 17.8% for the year ended December 31, 2005, compared to 14.4% for the year ended December 31, 2004. The increase in income from operations, as a percentage of revenue, was attributable to the existing products leveraging their infrastructures and personnel to process the higher volumes in 2005.

Income from operations for the Financial Solutions segment increased \$46.7 million, or 56.8%, to \$128.9 million for the year ended December 31, 2005 as compared to \$82.2 million for the year ended December 31, 2004. The FSG acquisitions completed in 2005, and a full year from the FSG acquisitions completed in 2004, contributed \$29.1 million of the income from operations growth in 2006 compared to 2005. Income from operations, as a percentage of revenue, was 18.6% for the year ended December 31, 2005 compared to 14.6% for the year ended December 31, 2004. The increase resulted from established products leveraging their existing infrastructure.

Income from operations for the Payment Solutions segment increased \$60.9 million, or 42.4%, to \$204.6 million for the year ended December 31, 2005 as compared to \$143.7 million for the year ended December 31, 2004. The PSG acquisitions completed in 2005, and a full year from the PSG acquisitions completed in 2004, contributed \$49.9 million of the growth in 2006 compared to 2005. Income from operations, as a percentage of revenue, 34.6% for the year ended December 31, 2005 as compared 31.7% for the year ended December 31, 2004. The increase resulted from the acquired companies which had a higher margin than Metavante's existing PSG products.

Corporate/Other represents the cost of overhead activities not allocated back to the two operating segments. The loss from operations increased \$25.7 million, or 32.4%, to \$105.0 million for the year ended December 31,

Table of Contents

2005 as compared to \$79.3 million for the year ended December 31, 2004. The increase was driven by the addition of overhead costs associated with the acquired companies, and growth in the overhead activities supporting the on-going businesses of the company.

Net Interest Expense

Interest expense, net of interest income, was \$37.3 million and \$21.8 million for the years ended December 31, 2005 and 2004, respectively. Interest expense was \$44.0 million for the year ended December 31, 2005, as compared to \$23.2 million for the year ended December 31, 2004. The increase was attributable to the debt incurred in 2004 to fund certain acquisitions. Interest expense was partially offset by interest income of \$6.7 million and \$1.4 million for the years ended December 31, 2005 and 2004, respectively. The increase in interest income resulted from higher cash and cash equivalents during the year ended December 31, 2005 as compared to the year ended December 31, 2004.

Other Non-Operating Income

Other non-operating income was \$1.6 million and \$1.1 million for the years ended December 31, 2005 and 2004. These amounts related primarily to the portion of earnings attributable to the minority shareholders of Metavante's Everlink subsidiary.

Provision for Income Taxes

The provision for income taxes was \$73.3 million during the year ended December 31, 2005, as compared to \$49.0 million for the year ended December 31, 2004. The effective tax rate for the year ended December 31, 2005, was 38.0% as compared to 39.0% for the year ended December 31, 2004. The year-over-year decrease in the effective tax rate was largely attributable to an increase in federal research and experimentation tax credits applicable to software development activities.

Earnings before Interest, Taxes, Depreciation and Amortization (EBITDA)

EBITDA increased \$91.1 million, or 32.7%, to \$369.3 million for the year ended December 31, 2005, as compared to \$278.2 million for the year ended December 31, 2004. The EBITDA margin was 28.7% for the year ended December 31, 2005, as compared to 27.4% for the year ended December 31, 2004. EBITDA associated with the six acquisitions completed in 2005 and a full year of EBITDA from the six acquisitions completed in 2004 contributed a significant portion of the EBITDA growth in 2005 compared to 2004. The increase in EBITDA, as a percentage of revenue, resulted from the acquired companies which had a higher EBITDA margin than Metavante's existing business.

Liquidity and Capital Resources

Metavante broadly defines liquidity as its ability to generate sufficient cash flow from operating activities to meet its obligations and commitments. In addition, liquidity includes the ability to obtain appropriate debt and equity financing. Metavante's primary source of cash over the past three years has been from funds provided by operating activities and the issuance of debt in 2004. The primary uses of cash during the past three years were for acquisitions and capital expenditures.

Table of Contents

Metavante's net earnings increased from 2004 through 2006. The increased earnings resulted in higher cash flow generated by the operations of Metavante. Metavante's cash balance also increased during that same period. The following table shows New Metavante's sources and uses of funds for the six months ended June 30, 2007 and 2006 and the years ended December 31, 2006, 2005 and 2004 (\$000's):

	Six Months Ended				
	June 30,		Year Ended December 31		
	2007	2006	2006	2005	2004
Cash provided by operating activities	\$ 155,329	\$ 125,785	\$ 292,422	\$ 250,332	\$ 211,232
Cash provided (used) by investing activities	(92,040)	35,434	(108,056)	(200,613)	(1,160,345)
Cash provided (used) by financing activities	(24,980)	(129,042)	(48,153)	(14,939)	1,092,192
Net increase (decrease) in cash and cash equivalents	\$ 38,309	\$ 32,177	\$ 136,213	\$ 34,780	\$ 143,079

Cash Provided by Operating Activities

Net cash provided by operating activities during the six months ended June 30, 2007, increased by

\$29.5 million to \$155.3 million compared to \$125.8 million during the six months ended June 30, 2006. The increase was primarily due to the higher net earnings of \$17.2 million between periods and the decrease in working capital cash outlays of \$16.7 million between periods as a result of the timing of collection of receivables and the payment of expenses. This was offset somewhat by the non-cash net gain of \$7.0 million related to Firstsource.

Net cash provided by operating activities increased by \$42.1 million to \$292.4 million in 2006 from

\$250.3 million in 2005 primarily due to increased net earnings of \$40.6 million from 2005 to 2006. Net cash provided by operating activities increased by \$39.1 million to \$250.3 million in 2005 from \$211.2 million in 2004 mainly due to increased net earnings of \$42.7 million from 2004 to 2005.

Cash Provided (Used) by Investing Activities

Net cash used by investing activities was \$92.0 million during the six months ended June 30, 2007, compared to net cash provided by investing activities of \$35.4 million during the six months ended June 30, 2006. Net cash used in investing activities for the six months ended June 30, 2007 was impacted by higher capital expenditures of \$18.7 million, primarily due to a \$20.0 million software license payment made during the period ended June 30, 2007. In addition, the funds provided by processing certain types of transactions where money is collected from Metavante's clients until the payment is made to appropriate payees decreased \$97.3 million for the six months ended June 30, 2007, compared to the six months ended June 30, 2006. This amount can vary significantly from period to period. The funds used for acquisitions increased by \$36.5 million as Metavante paid cash for the Valutec acquisition during the six months ended June 30, 2007. These increases were somewhat offset by a \$30.0 million equity investment purchase that occurred in the six-month period ending June 30, 2006, which did not occur in the six months ended June 30, 2007.

Net cash used by investing activities decreased by \$92.5 million to \$108.1 million in 2006 compared to \$200.6 million in 2005. In 2005, Metavante purchased \$80 million of investments. These investments matured in 2006, providing \$80 million of cash. This created a decrease in cash used in investing activities of

\$160.0 million from 2006 to 2005, which was partially offset by the \$66.8 million investment in Firstsource investment in 2006.

Net cash used by investing activities decreased by \$959.7 million to \$200.6 million in 2005 compared to \$1,160.3 million in 2004. Metavante used \$90.8 million of funds in 2005 for acquisitions compared to

\$990.3 million in 2004 for a decrease of \$899.5 million.

Table of Contents

Cash Provided (Used) by Financing Activities

Net cash used by financing activities decreased by \$104.1 million to \$25.0 million for the six months ended June 30, 2007, from \$129.0 million for the six months ended June 30, 2006. The decrease was primarily attributable to the change in bill payment float as described in Note 2 of the Notes to the Consolidated Financial Statements of Metavante included in this proxy statement/prospectus information statement. This amount can vary significantly from period to period and decreased \$100.2 million for the six months ended June 30, 2007, as compared to the six months ended June 30, 2006.

Net cash used by financing activities increased by \$33.3 million to \$48.2 million for 2006 from

\$14.9 million for 2005. The increase was primarily attributable \$72.5 million of lower capital contributions received from Marshall & Ilsley Corporation and the minority shareholder of Everlink. The contributions were used for acquisition activity and Metavante had a lower amount of acquisition activity in 2006 compared to 2005. This was partially offset by the repayment of \$40.0 million debt to Marshall & Ilsley in 2005.

Net cash used by financing activities was \$14.9 million for 2005 compared to net cash provided by financing activities of \$1,092.2 million for 2004. The change was primarily due to \$907.3 million of proceeds received in 2004 from the issuance of debt and capital lease obligations. The debt proceeds were used for acquisition activity. The remaining difference was attributable to the change in bill payment float as described in Note 2 of the Notes to the Consolidated Financial Statements of Metavante included in this proxy statement/prospectus information statement. This amount can vary significantly from period to period and decreased \$166.7 million between years.

Pre-Transaction Liquidity

Metavante has historically used Marshall & Ilsley for certain of its borrowing needs, related primarily to Metavante's acquisitions. Metavante had \$982.0 million of outstanding debt with Marshall & Ilsley as of June 30, 2007. The borrowings were five year agreements with interest paid monthly and principal due at the end of the debt agreement. The interest rate was fixed over the term of the loans. The weighted average interest rate on the \$982.0 million was 4.40%. In addition, Metavante and its subsidiaries have a \$60 million line of credit available from Marshall & Ilsley which is due on demand. Interest on the outstanding borrowings is payable quarterly at a rate equal to Marshall & Ilsley's commercial paper rate plus 0.25%. At June 30, 2007, the outstanding portion of the line of credit was \$0.

Metavante paid Marshall & Ilsley total dividends of \$4.0 million in each of 2006, 2005 and 2004. No dividend was paid during the first six months of 2007.

Post-Transaction Liquidity

In connection with the transactions, New Metavante and one or more of its subsidiaries expect to enter into new debt agreements with outside financing services. Pursuant to a commitment letter dated as of May 10, 2007, the committed financing parties have committed to provide the credit facilities described below.

The credit facility is expected to consist of the following financings:

a senior secured term loan facility, which we refer to as the term loan facility, in an aggregate principal amount of \$1.75 billion (all of which is expected to be borrowed on the closing date); and

a senior secured revolving credit facility, which we refer to as the revolving credit facility, in an aggregate principal amount of up to \$250 million, (none of which is expected to be borrowed as of the closing date).

Table of Contents

For purposes of this summary description of the proposed financings, the term loan facility and the revolving credit facility are collectively referred to as the credit facility.

Conditions Precedent

The availability of the credit facility is subject to various conditions precedent, including, but not limited to:

New Metavante shall have received cash proceeds from the issuance to the Investor of its common equity in an amount equal to at least \$625 million;

the transactions shall be consummated substantially concurrently with or prior to any funding of the credit facility and all material conditions precedent to the consummation of the transactions shall have been satisfied, or waived in a manner not materially adverse to the lenders;

the negotiation, execution and delivery of definitive documentation with respect to the credit facility shall be consistent with the credit facility term sheet;

since December 31, 2006, there shall not have been any material adverse effect on the business, operations, property or financial condition of Metavante and its subsidiaries taken as a whole; and

other specified conditions precedent customary for credit facilities.

The investment agreement provides that, if any portion of the debt financing becomes unavailable, Investor may arrange to obtain alternative financing from alternative sources on terms and subject to conditions reasonably acceptable to Metavante.

Term Loan Facility

Overview

The term loan facility is expected to provide for senior secured term loans in an aggregate principal amount of \$1.75 billion. Borrowings under the term loan facility may only be incurred on the closing date. Because the definitive documentation has not yet been completed, however, the terms described below may change.

Maturity; Prepayments

The term loan facility is expected to mature seven years from the closing date. The term loan facility will amortize in nominal quarterly installments until the maturity date. The term loan facility is expected to be subject to mandatory prepayment and reduction out of excess cash flows and proceeds of certain debt issuances, asset sales and other capital events.

Interest

The interest rates applicable to the loans under the term loan facility are expected to be based on a fluctuating rate of interest measured by reference to either, at the borrower's option, (i) adjusted LIBOR (adjusted for maximum reserves), plus an initial borrowing margin of 1.50% or (ii) an alternate base rate plus an initial borrowing margin of 0.50%, in each case subject to adjustment pursuant to a market flex provision. The interest rate margins will be subject to a single step down based on the borrower meeting a leverage based test to be agreed upon. Overdue amounts will bear interest at a rate that is 2% higher than the rate otherwise applicable.

Revolving Credit Facility

Overview

The revolving credit facility is expected to provide for senior secured revolving loans up to a maximum aggregate principal amount of \$250 million. Proceeds of loans under the revolving credit facility are expected to be used for working capital, capital expenditures and general corporate purposes. A portion of the revolving credit facility in an amount to be determined will be available for letters of credit and swingline loans. Because the definitive documentation has not yet been completed, however, the terms described below may change.

Table of Contents

Maturity

The final maturity date of the revolving credit facility is expected to be six years from the closing date.

Interest

The interest rates applicable to the loans under the revolving credit facility are expected to be based on a fluctuating rate of interest, measured by reference to either, at the borrower's option (1) adjusted LIBOR (adjusted for maximum reserves), plus an initial borrowing margin of 1.375% or (2) an alternate base rate plus an initial borrowing margin of 0.375%, in each case subject to adjustment pursuant to a market flex provision. The interest rate margins on the revolving credit facility will be subject to stepdowns based on the borrower meeting leverage based tests to be agreed upon. Overdue amounts will bear interest at a rate that is 2% higher than the rate otherwise applicable.

General Provisions

Guarantees; Security

New Metavante and each domestic subsidiary of Metavante are expected to guarantee the borrower's obligations under the credit facility and certain cash management, interest rate protection or other hedging arrangements. The credit facility and the guarantees thereof are expected to be secured by all of the capital stock of Metavante and of the domestic subsidiaries owned by Metavante or any guarantor, 65% of the voting stock of each first tier foreign subsidiary of Metavante or any guarantor, and substantially all other tangible and intangible assets owned by the borrower and each guarantor, subject to certain exceptions.

Fees

New Metavante is expected to pay (i) fees on the unutilized portion of commitments under the revolving credit facility at a rate of 0.375% per annum, (ii) a letter of credit fee on the stated amount of issued and undrawn letters of credit at a rate equal to the LIBOR margin under the revolving credit facility and a fronting fee of 0.125% per annum to the issuing lender, (iii) an underwriting and arrangement fee equal to 1.125% of the aggregate principal amount of the commitments under the credit facility, and (iv) an annual administration fee in an amount equal to \$150,000 per year.

Covenants

The credit facility is expected to contain a number of covenants that, among other things, will limit or restrict the ability of New Metavante and its subsidiaries to:

incur additional indebtedness (including guarantees of other indebtedness and hedging arrangements) if New Metavante and its subsidiaries are not in compliance with the agreed upon consolidated leverage ratio;

pay dividends or make other restricted payments, including redemptions and/or repurchases of stock;

make loans and investments;

enter into mergers or make acquisitions, if New Metavante is not in pro forma compliance with the agreed upon consolidated leverage ratio;

enter into certain types of transactions with affiliates;

sell certain assets, consolidate, merge, sell or otherwise dispose of all or substantially all of their assets;

create or permit liens or sale-leaseback transactions;

enter into agreements including negative pledge clauses or restricting dividends or other distributions by subsidiaries to the borrower;

change lines of business; and

change its fiscal year.

Table of Contents

The credit facility is expected to contain a covenant prohibiting Metavante from exceeding a consolidated leverage ratio as of the last day of any period of four consecutive quarters ending during the periods set forth below:

Period	Consolidated Leverage Ratio
October 1, 2007 to June 30, 2008	5.25 to 1.00
July 1, 2008 to September 30, 2008	5.00 to 1.00
October 1, 2008 to March 31, 2009	4.75 to 1.00
April 1, 2009 to September 30, 2009	4.50 to 1.00
October 1, 2009 to March 31, 2010	4.25 to 1.00
April 1, 2010 to December 31, 2010	4.00 to 1.00
January 1, 2011 and thereafter	3.75 to 1.00

The covenant would apply at any time there are revolving credit commitments outstanding under the credit facility and revolving loans and letters of credit outstanding under the credit facility in excess of \$5,000,000. Consolidated leverage ratio is expected to be defined as the ratio of consolidated total net debt to credit agreement EBITDA. Consolidated total net debt is expected to be defined as the aggregate principal amount of all indebtedness of Metavante and its subsidiaries determined on a consolidated basis in accordance with GAAP net of unencumbered and unrestricted cash and cash equivalents. Credit agreement EBITDA is expected to be defined as consolidated net income plus income tax expense, net interest expense, amortization of debt issuance costs, depreciation and amortization expense, and certain other non-cash charges included in computing consolidated net income, including, among others, any impairment charge or asset write-off related to intangible assets, long-lived assets, and investments in debt and equity securities pursuant to GAAP, all losses from investments recorded using the equity method, non-cash stock-based awards compensation, fees, costs and expenses incurred as part of the transactions, extraordinary, unusual or non-recurring expenses, losses or charges; provided that the aggregate amount of extraordinary, unusual or non-recurring cash expenses, cash losses or cash charges included in EBITDA for any period will not exceed 5% of consolidated EBITDA for such period. In addition, it is expected that the credit facility will permit a contribution to the capital of Metavante or the proceeds of stock issued by Metavante to its parent to constitute income in computing credit agreement EBITDA for purposes of determining compliance with this financial covenant. Such use of the proceeds of a capital contribution to or stock issuance by Metavante for purposes of compliance with the financial covenant would be limited to three times in any four consecutive fiscal quarters and four times in any eight consecutive fiscal quarters.

Credit agreement EBITDA is a non-GAAP financial measure and is not a substitute for, or more meaningful than, other measures of financial performance prepared in accordance with GAAP. Credit agreement EBITDA is presented in this proxy statement/prospectus information statement to demonstrate that Metavante would have been in compliance with the consolidated leverage ratio covenant expected to be included in the credit facility as of June 30, 2007 on a pro forma basis after giving effect to the transactions. Failure to comply with the consolidated leverage ratio covenant (if and when applicable) would result in a default under the credit facility.

The table below sets forth a calculation of credit agreement EBITDA on a pro forma basis giving effect to the transactions and a reconciliation of net income to credit agreement EBITDA for the six months ended June 30, 2007 and the year ended December 31, 2006:

	Six Months	Year Ended
	Ended	December 31,
	June 30,	2006
	2007	2006
Net income	\$ 92,136	\$ 160,124
Interest expense, net of interest income	14,050	28,631
Provision for income taxes	50,870	80,359
Depreciation and amortization	74,694	144,441
Impairment charges	0	416
Stock option expense	3,019	8,104
Equity investment gains	(8,554)	(1,261)
Transaction costs	900	0
Pro forma operating earnings adjustments	29,629	58,802

Credit agreement EBITDA

\$ 256,744

\$ 479,616

Table of Contents

On a pro forma basis, after giving effect to the transactions, estimated consolidated total net debt would have been \$1,676.5 million as of June 30, 2007. On a pro forma basis, after giving effect to the transactions, credit agreement EBITDA would have been \$501.5 million for the twelve months ended June 30, 2007. On a pro forma basis, after giving effect to the transactions, the consolidated leverage ratio would have been 3.34 to 1.00 as of June 30, 2007.

Based on these calculations, Metavante is expected to be in compliance with the consolidated leverage ratio covenants as of the closing date. In addition, Metavante management believes that the difference between the pro forma consolidated leverage ratio of 3.34 to 1.00 and the initial covenant level of 5.25 to 1.00 allows Metavante with sufficient financial flexibility to pursue its overall growth strategy, including acquisitions.

The credit facility is expected to also contain certain affirmative covenants, including maintenance of corporate existence, maintenance of property and insurance, maintenance of credit ratings, compliance with laws, payment of taxes, inspection of books and records, notices of defaults and other material adverse changes, delivery of financial statements and other reporting requirements.

The foregoing description of the covenants that are expected to be contained in the credit facility reflects the current expectation of Metavante as to the form of the credit facility that will ultimately be entered into. Because definitive documentation has not yet been completed, the actual covenants may differ from those described above.

Events of Default

The credit facility is expected to provide for customary events of default, including non-payment of principal, interest or fees, violation of covenants, material inaccuracy of representations or warranties, specified cross defaults to other material indebtedness, certain bankruptcy events, certain ERISA events, material invalidity of guarantees or security interests, material judgments, change in passive holding company status of New Metavante and change of control (to be defined in the definitive documentation for the loan facility). The occurrence of an event of default would permit the holders of the defaulted debt to declare all commitments under the credit facility terminated and all amounts outstanding with respect to that debt immediately due and payable. In addition, upon an event of default, interest will accrue at a rate of 2% per year in excess of the rate otherwise applicable to the loan or other overdue amount.

Incremental Facility

Metavante will be permitted to add one or more incremental term loan facilities or to increase the revolving credit facility (collectively, the incremental facilities), up to an aggregate amount of \$500 million for all incremental facilities. No lender is committed to provide or participate in any such incremental facility, and the pricing and other terms of any such incremental facility would have to be negotiated with the lender or lenders, if any, willing to provide or participate in such incremental facility. No incremental facility could be entered into if a default or event of default exists or would be created thereby, and any term loan that is part of an incremental facility would have to have a maturity date no earlier than the maturity date for the term loan facility and a weighted average life no shorter than that of the term loan facility.

The new debt will require higher interest payments as compared to Metavante's historical borrowings. In addition, Metavante is required to distribute a portion of its excess cash (in an amount expected to be \$290 million) to New Marshall & Ilsley and pay various expenses related to the transactions. These events will decrease cash provided by operations subsequent to the close of the transaction. However, Metavante believes that its estimated cash balance of approximately \$121 million after the transaction and its cash flow from operations will remain adequate to meet its operating requirements, the new debt repayment and interest, and ordinary capital spending needs in 2007 and 2008. Metavante estimates that it will have approximately \$121 million of unrestricted cash and cash equivalents after the close of the transactions.

Table of Contents

The following table presents the expected sources and uses of funds related to the transaction:

	(in millions)
Proceeds from Term Loan Facility	\$ 1,750
Estimated Metavante cash balance prior to closing date	430
Payment of existing indebtedness to Marshall & Ilsley	(982)
Payment of dividend to Marshall & Ilsley	(1,040)
Payment of transaction and debt fees	(37)
Estimated Metavante cash balance after transaction	\$ 121

Historically, a portion of Metavante's growth has been accomplished through acquisitions. Management believes a number of acquisition candidates are available and plans to pursue them, and Metavante believes that its cash flow from operations together with other available sources of funds will be adequate to fund certain acquisitions. In the event that Metavante makes future acquisitions it may be necessary to raise funds through additional borrowings or issuance of common shares. Metavante does not believe that the restrictions contained in the credit facility are likely to impact its ability to pursue its current acquisition strategy.

Contractual Obligations

Metavante's primary contractual cash obligations have historically been notes payable to Marshall & Ilsley, operating leases including rent agreements and purchase obligations. The majority of Metavante's operating leases are, and a majority of New Metavante's operating leases will be, for facilities. Metavante believes that cash flow from operations and its existing cash balances will be adequate to meet its operating requirements, the payment of transaction expenses, the distribution of \$290 million of cash to Marshall & Ilsley and expected capital spending for the next 12 months and the foreseeable future.

The following table is a summary of Metavante's contractual cash obligations and commitments outstanding by future payment dates at December 31, 2006:

	Payments Due by Period				Total
	Less than 1 year	1-3 years	3-5 years (\$000 s)	More than 5 years	
Long-term debt, including interest obligations (1)	\$ 43,493	\$ 1,045,377	\$ 0	\$ 0	\$ 1,088,870
Operating leases	22,128	28,451	13,797	7,526	71,902
Purchase obligations (2)	88,700	9,848	3,848	0	102,396
Total	\$ 154,321	\$ 1,083,676	\$ 17,645	\$ 7,526	\$ 1,263,168

(1) Long-term debt includes amounts owed to Marshall & Ilsley.

(2) Purchase obligations reflect legally binding agreements entered into by Metavante to purchase goods that specify minimum quantities to be purchased.

The contractual cash obligations of New Metavante will be substantially changed as a result of the transactions. Under the terms of the investment agreement, New Metavante and/or one or more of its subsidiaries are expected to incur approximately \$1.75 billion of new debt. Upon completion of the transactions, New Metavante and/or one or more of its subsidiaries will have material contractual cash obligations related to the principal and interest payments for this new debt. The minimum required annual principal payments are expected to be approximately \$17.5 million under the term loan facility. The following table is a summary of Metavante's pro forma contractual cash obligations and commitments outstanding by future payments at December 31, 2006, including the debt incurred as part of this transaction.

Table of Contents

	Payments Due by Period				Total
	Less than 1 year	1-3 years	3-5 years (\$000 s)	More than 5 years	
Pro forma long-term debt, including interest obligations (1)	\$ 132,881	\$ 270,255	\$ 265,460	\$ 1,892,540	\$ 2,561,136
Operating leases	22,128	28,451	13,797	7,526	71,902
Purchase obligations (2)	88,700	9,848	3,848	0	102,396
Total	\$ 243,709	\$ 308,554	\$ 283,105	\$ 1,900,066	\$ 2,735,434

(1) Pro forma long-term debt includes interest and principal payments related to the new debt. The pro forma table assumes the new debt had occurred on December 31, 2006. The interest payments were calculated at an estimated average interest rate of 6.85%. Management believes the estimated interest rate is reasonable based on the current rates and terms provided in the debt commitment letter. The principal is payable in nominal quarterly installments of 0.25% of the original principal amount starting in the second full quarter after the closing date with the balance payable on the date that is seven years after the closing date. Therefore, the pro forma table assumes quarterly principal payments of \$4.375 million beginning in the second quarter of 2007 with the final principal payment due more than five years from December 31, 2006. The pro forma amounts are based on the expected terms of the new debt. To the extent that there are changes to the terms of the debt, the payments could be materially different from the pro forma amounts.

(2) Purchase obligations reflect legally binding agreements entered into by Metavante to purchase goods that specify minimum quantities to be purchased.

Management's assumptions with respect to the debt financing for the transactions, including but not limited to assumptions regarding the availability of the debt instrument at and after closing on financial terms currently contemplated and the interest rates applicable to each such instrument, are subject to changes that may be material. In addition, other future events could cause actual payments to differ materially from these amounts. See Special Note Regarding Forward-Looking Statements beginning on page 55, and Unaudited Condensed Pro Forma Consolidated Financial Statements of New Metavante beginning on page 320,

Metavante believes that its existing cash balances, cash flows from operations and borrowing programs will provide adequate sources of liquidity and capital resources to meet Metavante's expected short-term liquidity needs, including the payment of transaction expenses and the distribution of \$290 million of excess cash to Marshall & Ilsley, and its long-term needs for the operations of its business and the satisfaction of these obligations and commitments.

Off-Balance Sheet Financing Arrangements

At June 30, 2007 and December 31, 2006 and 2005, Metavante had no off-balance sheet financing arrangements other than operating leases incurred in the ordinary course of business.

Inflation

Management believes that inflation currently does not have a material effect on New Metavante's results of operations.

Quantitative and Qualitative Disclosures About Market Risk

Market risk refers to the risk that a change in the level of one or more market prices, interest rates, indices, volatilities, correlations or other market factors such as liquidity, will result in losses for a certain financial instrument or group of financial instruments. We are currently exposed to credit risk on credit extended to customers, foreign currency risk related to the Firstsource investment and our foreign subsidiaries, and interest

Table of Contents

rate risk on investments and our borrowings. We actively monitor these risks through a variety of controlled procedures involving senior management. We do not currently use any derivative financial instruments. Based on the controls in place, credit worthiness of the customer base, the fixed interest rate of the debt and the relative size of these financial instruments, we believe the risk currently associated with these instruments will not have a material adverse effect on our consolidated financial position or statement of operations.

Subsequent to the transactions, New Metavante will be subject to interest rate market risk in connection with its long-term debt. The principal interest rate exposure relates to amounts expected to be borrowed under New Metavante's new term loan facility. New Metavante and/or one or more of its subsidiaries expects to incur approximately \$1.75 billion of indebtedness with variable interest rates under its term loan facility. A change in the estimated interest rate on the anticipated \$1.75 billion of borrowings under the term loan facility up or down by 1% will increase or decrease earnings before provision for income taxes by approximately \$17.5 million, respectively, on an annual basis. New Metavante does not expect that rising interest rates would impact the ability to repay the debt, but would result in a lower amount of cash provided by operating activities. This would decrease cash available for other purposes.

New Metavante and/or its subsidiaries will be sensitive to interest rate fluctuations, which are unpredictable in nature. In order to enhance its ability to manage risk relating to cash flow and interest rate exposure, New Metavante and/or its subsidiaries may enter into and maintain derivative instruments, such as interest rate swap agreements, for periods consistent with the related underlying exposures.

Metavante Critical Accounting Policies

Metavante has established various accounting policies that govern the application of accounting principles generally accepted in the United States in the preparation of Metavante's consolidated financial statements. Metavante's significant accounting policies are described in the footnotes to the consolidated financial statements contained herein. Certain accounting policies involve significant judgments and assumptions by management that may have a material impact on the carrying value of certain assets and liabilities. Management considers such accounting policies to be critical accounting policies. The judgments and assumptions used by management are based on historical experience and other factors, which are believed to be reasonable under the circumstances. Because of the nature of judgments and assumptions made by management, Metavante's actual results could differ from these judgments and estimates which could have a material impact on the carrying values of assets and liabilities and the results of the operations. Management considers the following to be those accounting policies that require significant judgments and assumptions:

Capitalized Software

Direct costs associated with the production of computer software that will be licensed externally or used in a service bureau environment are capitalized. Capitalization of such costs is subject to strict accounting policy criteria as governed by SFAS No. 86, *Accounting for the Costs of Computer Software to Be Sold, Leased, or Otherwise Marketed* or with SOP No. 98-1, *Accounting for the Costs of Computer Software Developed or Obtained for Internal Use*, although the appropriate time to initiate capitalization requires management judgment. Once the specific capitalized project is put into production, the software cost is amortized over its estimated useful life, generally four years. Each quarter, Metavante performs net realizable value tests to ensure the assets are recoverable. Such tests require management judgment as to the future sales and profitability of a particular product which involves, in some cases, multi-year projections. Technology changes and changes in customer requirements can have a significant impact on the recoverability of these assets and can be difficult to predict. Should significant adverse changes occur, estimates of useful life may have to be revised or write-offs would be required to recognize impairment. For the six months ended June 30, 2007 and 2006, the amount of software costs capitalized amounted to \$26.3 million and \$24.2 million, respectively. Amortization expense of software costs amounted to \$28.3 million and \$27.3 million for the six months ended June 30, 2007 and 2006, respectively.

Table of Contents

Net unamortized costs, which are included in net capitalized software and conversions in the Consolidated Balance Sheets were \$149.6 million and \$144.1 million as of June 30, 2007 and December 31, 2006, respectively.

Metavante has not substantively changed any aspect to its overall approach in the determination of the amount of costs that are capitalized for software development activities. There have been no material changes in assumptions or estimation techniques as compared to prior periods that impacted the determination of the periodic amortization of such costs.

Revenue Recognition

The following describes our primary types of revenues and our revenue recognition policies as they pertain to the types of transactions we enter into with our customers.

We enter into arrangements with customers to provide services, software and software related services such as post-contract customer support and implementation and training either individually or as part of an integrated offering of multiple products and services. The revenues for services provided under these multiple element arrangements are recognized in accordance with the applicable revenue recognition accounting principles as further described below.

Account processing and related revenues are recognized as services are performed based on amounts billable under the contracts in accordance with the SEC's Staff Accounting Bulletin No. 104, *Revenue Recognition* (SAB 104) and related interpretations. SAB 104 sets forth guidance as to when revenue is realized or realizable and earned when all of the following criteria are met: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred or services have been rendered; (3) the seller's price to the buyer is fixed and determinable; and (4) collectability is reasonably assured. Processing services performed that have not been billed to clients are accrued based on estimates made by management. This estimate requires a significant amount of judgment related to estimates of expected volumes. Revenues from processing services are typically volume-based depending on factors such as the number of accounts processed and transactions processed.

Professional services fees consist of revenue for client support, training, consulting and conversion of clients' processing systems to Metavante's processing system. Revenues from training and consulting are recognized when the services are performed. Conversion revenues associated with the conversion of clients' processing systems to Metavante's processing systems are deferred and amortized over the period of the related processing contract, which is generally five years.

In the event that arrangements with our customers include more than one product or service, we determine whether the individual revenue elements can be recognized separately in accordance with Financial Accounting Standards Board (FASB) Emerging Issues Task Force No. 00-21 (EITF 00-21), *Revenue Arrangements with Multiple Deliverables*. EITF 00-21 addresses the determination of whether an arrangement involving more than one deliverable contains more than one unit of accounting and how the arrangement consideration should be measured and allocated to the separate units of accounting.

Revenues attributable to the licensing of software are generally recognized upon delivery and performance of certain contractual obligations, provided that no significant vendor obligations remain and collection of the resulting receivable is deemed probable. In the event that significant vendor obligations exist, revenue is deferred until Metavante satisfies the obligations. In order to recognize license revenue, each element of an arrangement, or contract, must meet the following four criteria: persuasive evidence of an arrangement exists; delivery has occurred; the fee is fixed or determinable; and collection is probable. If one or more of these criteria have not been satisfied, revenue is deferred until all criteria have been satisfied. License sales requiring an installation of the software are recognized based on the percentage of completion method.

Metavante's software license agreements generally include multiple products and services or elements. Statement of Position (SOP) 97-2, *Software Revenue Recognition*, as amended, generally requires revenue earned

Table of Contents

from software arrangements involving multiple elements to be allocated to each element based on vendor-specific objective evidence (VSOE) of fair value. The allocation of revenue requires management to make certain judgments and estimates related to fair value of each element. Fair value is determined for license fees based upon the price charged when sold separately or, if the product is not yet sold separately, the price determined by management with relevant authority. In the event Metavante determines that VSOE does not exist for one or more of the delivered elements of a software arrangement, but does exist for all of the undelivered elements, revenue is recognized using the residual method allowed by SOP 98-9, *Software Revenue Recognition, with Respect to Certain Transactions*. Under the residual method, a residual amount of the total arrangement fee is recognized as revenue for the delivered elements after the established fair value of all undelivered elements has been deducted.

Revenues from software maintenance fees for ongoing client support and product updates are deferred and recognized ratably over the term of the maintenance period.

Buyout revenues are generally recognized upon the completion of deconversion of a client's processing system and satisfaction of all obligations of Metavante.

Hardware revenue is recognized upon delivery to the customer, when title and risk of loss are transferred. In certain cases, Metavante does not stock in inventory the hardware products sold, but arranges for third-party suppliers to drop-ship the products to customers on Metavante's behalf. For these transactions, Metavante follows the guidance provided in Emerging Issues Task Force Issue (EITF) No. 99-19, *Reporting Revenue Gross as a Principal versus Net as an Agent*. Based upon the indicators provided within this consensus, Metavante records the revenue related to the drop-ship transactions on a gross basis and the related costs are included in cost of processing and services. Metavante also remarkets maintenance contracts on hardware to its customers. Hardware maintenance revenue is recognized ratably over the agreement period.

Goodwill and Other Intangible Assets

Metavante has significant intangible assets that were acquired through business acquisitions. These assets consist of purchased customer relationships, contracts, and the excess of purchase price over the fair value of identifiable net assets acquired (goodwill). The determination of estimated useful lives and the allocation of the purchase price to the fair values of the intangible assets require significant judgment and may affect the amount of future amortization on the intangible assets other than goodwill.

As of June 30, 2007 and December 31, 2006, goodwill was \$1,375 million and \$1,330 million, respectively. The process of determining whether or not an asset, such as goodwill, is impaired or recoverable relies on projections of future cash flows, operating results and market conditions. Such projections are inherently uncertain and, accordingly, actual future cash flows may differ materially from projected cash flows. In evaluating the recoverability of goodwill, we perform an annual goodwill impairment test on our reporting units based on an analysis of the discounted future net cash flows generated by the reporting units' underlying assets. We completed our annual goodwill impairment test on our reporting units as of June 30, 2006 and determined that each of our reporting units has a fair value in excess of its carrying value. Accordingly, no goodwill impairment has been recorded. Such analyses are particularly sensitive to changes in estimates of future net cash flows and discount rates. Changes to these estimates might result in material changes in the fair value of the reporting units and determination of the recoverability of goodwill which may result in charges against earnings and a reduction in the carrying value of our goodwill.

As of June 30, 2007 and December 31, 2006, intangible assets were \$298 million and \$309 million respectively, which consist primarily of purchased customer relationships and trademarks. The valuation of these assets involves significant estimates and assumptions concerning matters such as customer retention, future cash flows and discount rates. If any of these assumptions change, it could affect the carrying value of these assets. Purchased customer relationships and trademarks are amortized over their estimated useful lives using the straight-line method.

Table of Contents

Income Taxes

Metavante's operating results are included in the consolidated Federal income tax return of Marshall & Ilsley. Pursuant to a tax allocation agreement with Marshall & Ilsley, current and deferred income taxes are calculated as if Metavante filed separate federal and state income tax returns.

Income taxes are accounted for using the asset and liability method. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on tax assets and liabilities of a change in tax rates is recognized in the income statement in the period that includes the enactment date.

The determination of current and deferred income taxes is based on complex analyses of many factors, including interpretation of Federal and state income tax laws, the difference between tax and financial reporting basis of assets and liabilities (temporary differences), estimates of amounts currently due or owed, such as the timing of reversals of temporary differences and current accounting standards. The Federal and state taxing authorities who make assessments based on their determination of tax laws periodically review the Corporation's interpretation of Federal and state income tax laws. Tax liabilities could differ significantly from the estimates and interpretations used in determining the current and deferred income tax liabilities based on the completion of taxing authority examinations.

Metavante records a valuation allowance, when appropriate, to adjust deferred tax asset balances to the amount Metavante has concluded is more than likely not to be realized. Metavante considers the amount of taxable income available in carryback years, future taxable income and potential tax planning strategies in assessing the need for a valuation allowance.

Effective January 1, 2007, Metavante adopted the provisions of FIN 48, *Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109*, and there was no effect on the consolidated financial statements. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in financial statements in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

UNAUDITED CONDENSED PRO FORMA CONSOLIDATED

FINANCIAL STATEMENTS OF NEW METAVANTE

On April 3, 2007, Marshall & Ilsley, Merger Sub, Metavante, New Metavante and Investor entered into the investment agreement pursuant to which,

Marshall & Ilsley will separate into two publicly-traded companies: New Marshall & Ilsley, which will own and operate the Marshall & Ilsley banking business, the issued and outstanding common stock of which will be 100% owned by Marshall & Ilsley shareholders, and New Metavante, which will own and operate Metavante's business, the issued and outstanding stock of which will be 75% owned by Marshall & Ilsley shareholders and the remaining 25% will be owned by Investor;

Marshall & Ilsley's shareholders will receive three shares of New Marshall & Ilsley common stock and one share of New Metavante common stock for every three shares of Marshall & Ilsley common stock held;

Investor will invest \$625 million in New Metavante for an equity interest representing 25% of New Metavante common stock;

New Metavante and/or one or more of its subsidiaries will incur approximately \$1.75 billion of indebtedness; and

Metavante will pay off certain intercompany indebtedness plus accrued and unpaid interest owed to Marshall & Ilsley (the amount currently owed is approximately \$982 million) and New Metavante will contribute to New Marshall & Ilsley \$1.665 billion in cash (which includes the \$625 million of proceeds from the sale of the New Metavante common stock to Investor).

As a result of completion of the transactions contemplated by the investment agreement,

each holder of Marshall & Ilsley common stock as of the effective time of the holding company merger will have received three shares of New Marshall & Ilsley common stock and one share of New Metavante common stock for every three shares of Marshall & Ilsley common stock held of record;

Investor will have received shares of New Metavante common stock that represent 25% of the shares of New Metavante common stock and a stock purchase right to acquire additional shares under certain circumstances in order to maintain its 25% ownership; and

each holder of Marshall & Ilsley common stock as of the effective time of the holding company merger that would otherwise be entitled to receive fractional shares of New Metavante common stock resulting from the holding company merger will have received cash in lieu of such fractional shares (and therefor will not receive shares of New Marshall & Ilsley common stock in respect of such fractional shares).

The shares of New Marshall & Ilsley common stock to be issued to the holders of Marshall & Ilsley common stock will represent 100% of the outstanding shares of New Marshall & Ilsley common stock and the shares of New Metavante common stock to be issued to the holders of Marshall & Ilsley common stock will represent 75% of the outstanding shares of New Metavante common stock.

See "The Transactions" Description of the Transactions beginning on page 59.

The unaudited condensed pro forma consolidated balance sheet of New Metavante reflects the unaudited condensed consolidated historical balance sheet of Metavante as of June 30, 2007 as if the transactions had occurred on that date. The unaudited condensed pro forma consolidated statements of earnings of New Metavante reflect the operations of Metavante for the six months ended June 30, 2007 and the operations of

Edgar Filing: MARSHALL & ILSLEY CORP/WI/ - Form DEFM14A

Metavante for the year ended December 31, 2006 as if the transactions had occurred on January 1, 2006. Certain reclassifications have been made to the historical presentation of Metavante to conform to the presentation used in the unaudited condensed pro forma consolidated financial statements.

The unaudited condensed pro forma consolidated financial statements of New Metavante presented below are derived from the historical consolidated financial statements of Metavante and adjusted to give effect to, among other things:

the issuance of New Metavante common stock in connection with the holding company merger;

Table of Contents

the contribution of Metavante to New Metavante by Marshall & Ilsley;

the issuance of shares of New Metavante Class A common stock to Investor and the subsequent conversion of such shares into shares of New Metavante common stock;

the receipt of \$625 million from Investor in consideration for the issuance of the shares of New Metavante Class A common stock and the stock purchase right described above;

the incurrence by New Metavante and/or one or more of its subsidiaries of approximately \$1.75 billion of indebtedness and approximately \$22.5 million in associated costs;

the payment of certain intercompany debt owed to Marshall & Ilsley;

the contribution of \$1.665 billion in cash by New Metavante to New Marshall & Ilsley; and

New Metavante will reimburse Investor for all of Investor's expenses related to the transactions, which Investor has estimated to be approximately \$14.5 million.

The share numbers and dollar and settlement amounts are based on Marshall & Ilsley share numbers and balances as of June 30, 2007.

Regardless of the exact legal order of the various transactions, items that impact New Metavante are reflected in the unaudited condensed pro forma consolidated financial statements of New Metavante and items that impact New Marshall & Ilsley are reflected in the unaudited condensed pro forma consolidated financial statements of New Marshall & Ilsley.

The pro forma adjustments are based upon available information and assumptions that management of New Metavante believes are reasonable; however, such adjustments are subject to change. In addition, such adjustments are estimates and may not prove to be accurate.

The unaudited condensed pro forma consolidated statements of earnings presented below do not reflect any one-time charges or additional costs expected to result from the transactions. Non-recurring charges related to the transaction, except for those costs actually incurred in the six months ended June 30, 2007, have been excluded from the unaudited condensed pro forma consolidated statements of earnings. The additional estimated pre-tax, one-time charges that have been excluded include \$14.5 million of transaction expenses payable to Investor, \$5.2 million of other transaction expenses, \$18.8 million related to the modification of vested equity-based awards and \$5.5 million related to the immediate vesting of equity based awards issued on the closing date. The unaudited condensed pro forma consolidated statements of earnings do not give effect to the impact of new agreements between Metavante and Marshall & Ilsley, which is expected to reduce net income by \$4.3 million on an annual basis. The unaudited condensed pro forma consolidated statements of earnings also do not reflect certain costs New Metavante expects to incur associated with operating as a stand-alone company, which are expected to be offset by the reduction or elimination of administrative charges presently paid to Marshall & Ilsley. This amount is expected to increase net income by \$0.8 million on an annual basis.

The unaudited condensed pro forma consolidated financial statements are for illustrative purposes only and do not reflect what New Metavante's financial position and results of operations would have been had the transactions occurred on the dates indicated and are not indicative of New Metavante's future financial position and future results of operations. The consolidated financial statements of New Metavante will reflect the effects of the transactions only from the date of completion of the transactions. In addition, the unaudited condensed pro forma consolidated financial statements reflect assumptions with respect to the debt financing for the transactions, including but not limited to assumptions regarding the availability of each of the debt obligations at and after closing on financial terms currently contemplated and the interest rates applicable to each such obligation, that are subject to changes that may be material.

The unaudited condensed pro forma consolidated financial statements should be read in conjunction with the accompanying notes and the other financial information included or incorporated by reference elsewhere in this proxy statement/prospectus information statement.

Notes to Unaudited Condensed Pro Forma Consolidated Balance Sheet of New Metavante as of June 30, 2007

- (1) Represents the following pro forma adjustments that adjust New Metavante s cash in accordance with the various transaction agreements (in thousands):

Cash proceeds from investment in New Metavante by Investor	\$ 625,000
Cash proceeds from incurrence of new debt by New Metavante and/or one or more of its subsidiaries	1,750,000
Payment of fees and expenses associated with new debt	(22,500)
Payment of cash contribution by New Metavante	(1,665,000)
Payment of debt to Marshall & Ilsley	(982,000)
Payment of Investor estimated transaction expenses	(14,500)

- (2) Represents the capitalization of debt issuance costs associated with the \$1.75 billion term facility and \$250 million revolver incurred by New Metavante and/or one or more of its subsidiaries in connection with the transactions.

Table of Contents

- (3) Represents \$1.75 billion of debt incurred by New Metavante and/or one or more of its subsidiaries in connection with the transactions as follows (in thousands):

Term facility	\$ 1,750,000
Revolver	0
Total debt	1,750,000
Current portion of term facility	(17,500)
Total long-term debt	\$ 1,732,500

The debt obligations set forth above reflect assumptions with respect to the debt financing for the transactions, including but not limited to assumptions regarding the availability of each of the debt obligations at and after closing on financial terms currently contemplated and the interest rates applicable to each such obligation, that are subject to changes that may be material.

- (4) Represents the repayment of \$982 million of debt to Marshall & Ilsley.
- (5) Represents the following pro forma adjustments that adjust New Metavante's stockholders' equity in accordance with the various transaction agreements (in thousands):

Issuance of equity securities by New Metavante to Investor	\$ 625,000
Payment of cash dividend by New Metavante	(1,665,000)
Impact on New Metavante's equity of non-recurring expenses recorded upon completion of the transactions:	
Payment of Investor estimated transaction expenses	(14,500)
	\$ (1,054,500)

Table of Contents**Unaudited Condensed Pro Forma Consolidated Statement of Earnings of New Metavante****for the Six Months Ended June 30, 2007****(000 s, except per share data)**

Notes to Unaudited Condensed Pro Forma Consolidated Statement of Earnings of New Metavante for the Six Months Ended June 30, 2007

- (1) Net income per share information has not been shown for historical Metavante because it would not be meaningful since Metavante is a wholly-owned subsidiary of Marshall & Ilsley with 87,000 shares outstanding.

Table of Contents

- (2) Represents estimated interest expense resulting from the new debt incurred by New Metavante and/or one or more of its subsidiaries based on an estimated weighted average interest rate of 6.86%. Management believes the estimated interest rate is reasonable based on current rates and terms provided in the debt commitment letter. A change in the estimated interest rate up or down by .125% will decrease or increase earnings before the provision for income taxes by \$1.1 million on a six month basis. This pro forma adjustment also includes the amortization of debt issuance costs associated with the \$1.75 billion of new debt and \$250 million revolver. The pro forma adjustment also includes the fee on the unused portion of the revolver. In addition, this pro forma adjustment eliminates interest paid by New Metavante to Marshall & Ilsley on notes payable repaid in accordance with the transaction agreements. The pro forma adjustments also include the reduction in interest income resulting from the dividend paid from New Metavante to Marshall & Ilsley using Metavante's existing cash balances. The distribution payable to Marshall & Ilsley is \$1.665 billion, of which \$625 million is the investment in New Metavante by the Investor, \$750 million is received from proceeds of the new debt, and \$290 million is from New Metavante's existing cash balances. The reduction in interest income was calculated using an estimated rate of 5.01% which is equal to the average overnight investment rate earned by Metavante during the six-month period ended June 30, 2007. The net interest expense pro forma adjustment consists of the following (\$000 s):

Estimated interest expense on term facility	\$ (60,025)
Amortization of debt issuance costs	(1,607)
Fee on unused portion of the revolver	(468)
Interest incurred by Metavante payable to Marshall & Ilsley affiliates	21,582
Reduction in interest income earned on the \$290 million portion of the contribution paid to Marshall & Ilsley	(7,271)
	\$ (47,789)

The estimated interest rate set forth above is solely for illustrative purposes and reflects assumptions with respect to the debt financing for the transactions including, but not limited to, assumptions regarding the availability of each of the debt obligations at and after closing on financial terms currently contemplated and the interest rates applicable to each such obligation, that are subject to changes that may be material. In addition, the average interest rate set forth above, and the associated interest payments to be made by New Metavante and/or one or more of its subsidiaries, are subject to negotiation of the definitive debt financing documents.

- (3) Represents the income tax effect of the preceding pro forma adjustments using an estimated statutory rate of 38%.
- (4) The pro forma adjustment for basic weighted average shares outstanding represents the estimated number of New Metavante shares to be issued to (a) holders of Marshall & Ilsley common stock in the holding company merger as each holder of Marshall & Ilsley common stock will receive one share of New Metavante common stock for every three shares of Marshall & Ilsley common stock and (b) Investor in connection with its \$625 million investment in New Metavante. These estimates are based on the weighted average number of Marshall & Ilsley shares outstanding for the six months ended June 30, 2007. The dilutive effect of stock options outstanding depends on the price of New Metavante common stock after the transaction is completed and is therefore not subject to a reliable estimate.

The dilutive effect of stock options outstanding depends on the price of New Metavante common stock after the transaction is completed and is therefore not subject to a reliable estimate.

Table of Contents**MANAGEMENT OF NEW METAVANTE****Board of Directors Transaction Agreement Provisions**

Composition. The investment agreement and the shareholders agreement provide that upon completion of the transactions, the New Metavante board of directors will consist of 11 directors: (i) three directors designated by Investor; (ii) two directors who shall be officers of New Metavante, one of whom shall be the President and Chief Executive Officer of New Metavante and one of whom shall be the Senior Executive Vice President and Chief Operating Officer of New Metavante; (iii) one director who shall be designated by Marshall & Ilsley and shall initially be Dennis J. Kuester; and (iv) five additional directors, each of whom shall qualify as independent directors and one of whom shall also be an independent director of Marshall & Ilsley (who will be Ted D. Kellner). The Chairman of the Board of New Metavante shall be Dennis J. Kuester for a period of one year from the closing date, after which, subject to Board approval, Frank R. Martire will become Chairman of the Board. In connection with the 2008 annual shareholder meeting, New Metavante shall take all actions necessary to provide that the Investor designees are nominated for re-election to the board of directors and the remaining directors shall be nominated in accordance with the provisions of the shareholders agreement and the amended and restated by-laws of New Metavante.

Pursuant to the shareholders agreement, following the 2008 annual meeting of shareholders of New Metavante until the earlier of the tenth anniversary of the closing date and the termination of the shareholders agreement, so long as the ownership percentage of the Investor Group of New Metavante common stock in the aggregate equals or exceeds the percentages or dollar amounts set forth in the table below, Investor will have the right to designate for nomination to the New Metavante board of directors, a number of individuals set forth opposite the applicable percentage or amount:

Ownership Percentage	Number of Investor Designees
17.5% or greater	three individuals
less than 17.5%, but equal to or greater than 7.5%	two individuals
less than 7.5%, but the fair market value of New Metavante common stock beneficially owned by the Investor Group equals or exceeds \$150 million	one individual

Vacancies. Under the shareholders agreement, the remaining Investor designees then in office will have the right to designate any replacement for an Investor designee upon the death, resignation, retirement, disqualification or removal from office of such director; provided, that if an Investor designee is removed for cause by the shareholders, the remaining Investor designees may not designate the person who was removed as a replacement. Until the 2008 annual meeting of shareholders, (i) the remaining Marshall & Ilsley designees then in office have the right to designate any replacement for a Marshall & Ilsley designee upon the death, resignation, retirement, disqualification or removal from office of such director; provided, that if a Marshall & Ilsley designee is removed for cause by the shareholders, the remaining Marshall & Ilsley designees can not designate the person who was removed as a replacement and (ii) the initial unaffiliated directors by majority vote or consent of those initial unaffiliated directors then in office will have the right to designate any replacement for an initial unaffiliated director upon the death, resignation, retirement, disqualification or removal from office of such director; provided, that if an initial unaffiliated directors is removed for cause by the shareholders, the remaining initial unaffiliated directors cannot designate the person who was removed as a replacement.

Table of Contents**Directors and Executive Officers**

Set forth below is information concerning those persons that New Metavante expects to become its directors and executive officers as of the closing date. New Metavante expects that it will have an additional four directors identified prior to completion of the transactions.

Age 50

Navroz (Norrie) J. Daroga will be New Metavante's Executive Vice President, Chief Administrative Officer and Secretary. Mr. Daroga has served as Executive Vice President, Chief Risk Officer and Secretary of Metavante since 2003, Chief Administrative Officer since May 2007 and Chief Privacy Officer since July 2007. Since joining Metavante in 1997, Mr. Daroga has held various positions, including Vice President and General Counsel, General Manager of Metavante's Wealth Management Group, and Senior Vice President, Corporate Development. Mr. Daroga serves in various positions of Metavante subsidiaries: Executive Vice President and Secretary of AdminiSource Communications, Inc.; Senior Vice President, Secretary and Treasurer of Printing For Systems, Inc., Kirchman Corporation, Advanced Financial Solutions, Inc., VECTORsgi, Inc., Prime Associates, Inc. and MBI Benefits, Inc.; Senior Vice President and Secretary of GHR Systems, Inc., GHR Systems Canada, Inc., Brasfield Technology, LLC, Link2Gov Corp., Vicor, Inc., Valutec Card Solutions, LLC; Senior Vice President and Assistant Corporate Secretary of NYCE Payments Network, LLC; Manager of Metavante Acquisition Company II LLC; and Secretary and Treasurer of Metavante Canada Corporation.

Debra A. Bronder

Age 50

Debra A. Bronder will remain as Metavante's Executive Vice President, Human Resources. Prior to assuming her current position in 2004, Ms. Bronder served as Metavante's human resources operations manager. Prior to joining Metavante in 1997, Ms. Bronder worked in various human resources and consulting roles most recently at James & Scott Associates and Johnson Controls, Inc.

Paul T. Danola

Age 55

Paul T. Danola currently serves, and will remain, as Metavante's Senior Executive Vice President and President of its Enterprise Solutions Group, a position he has held since September 2004. Mr. Danola serves in various positions of Metavante subsidiaries: Director and Chairman of Kirchman Corporation, Advanced Financial Solutions, Inc., VECTORsgi, Inc., Prime Associates, Inc. and Vicor, Inc.; Chairman and Manager of GHR Systems, Inc. and TREEV LLC; Chairman of GHR Systems Canada, Inc.; and Chief Executive Officer, Chairman and Manager of Brasfield Technology, LLC. Mr. Danola joined Metavante in April 2003 as an Executive Vice President. From 2001 to 2003, Mr. Danola served as group president for Call Solutions, Inc. and, prior to that, served in various executive positions with Fiserv, Inc.

Table of Contents**Name and Age****(as of August 31, 2007)****James R. Geschke**

Age 46

Officers

James R. Geschke will remain as Metavante's Executive Vice President and President, Metavante Banking and Trust Solutions, a position he has held since September 2004. Mr. Geschke joined Metavante as an Executive Vice President in 1984. Mr. Geschke has led Metavante Banking and Trust Solutions since 2000. Throughout his career at Metavante, Mr. Geschke has held various positions in product development, network operations, technology support and customer relations.

Brian C. Hurdis

Age 48

Brian C. Hurdis will remain as Metavante's Senior Executive Vice President, and President of the following Metavante subsidiaries: Advanced Financial Solutions, Inc., TREEV LLC and VECTORsgi, Inc. Mr. Hurdis was named President of the Image Solutions division in March 2007. Prior to his current position, Mr. Hurdis served as Senior Executive Vice President, Chief Information Officer and Chief Privacy Officer, positions he held since September 2005, February 2004 and July 2005, respectively. Previously he was Vice President of Technology Operations and Architecture for Metavante's e-finance solutions since joining Metavante in 1999. Prior to joining Metavante, Mr. Hurdis served in numerous positions with Firststar Corporation, most recently as senior vice president and director of network and computer operations.

Rachel A. Landrum

Age 43

Rachel A. Landrum will remain as Metavante's Executive Vice President and President, Metavante Banking Solutions Bankway, a position she has held since joining Metavante in 2004 in connection with Metavante's acquisition of Kirchman Corporation. Ms. Landrum serves as President of Kirchman Corporation and Manager of Brasfield Technology, LLC. Ms. Landrum previously held key leadership roles in several divisions of Kirchman Corporation, where she managed client services and professional services in the United States and Eastern Europe. Ms. Landrum is a director of the Juvenile Diabetes Research Foundation in Central Florida.

Steven A. Rathgaber

Age 54

Steven A. Rathgaber will remain Metavante's Executive Vice President and President, Metavante Payment Network Solutions, a position he has held since August 2005. Mr. Rathgaber joined Metavante in September 2004 as Senior Vice President in connection with its acquisition of NYCE Payments Network, LLC. Mr. Rathgaber had served as NYCE executive vice president and chief operating officer for nine years prior to the acquisition.

Gary A. Refinski

Age 48

Gary A. Refinski will remain as Metavante's Executive Vice President, and Chief Information Officer, a position to which he was appointed in July 2007. In this role, Mr. Refinski will remain responsible for Metavante Integration and Implementation Services, a leadership position he has held since September 2004. In addition, Mr. Refinski leads Risk and Compliance Solutions and GHR Systems, Inc. Mr. Refinski has been with Metavante since 1983 and has held a variety of management positions during his tenure at Metavante in both the development and the sales support areas, serving as Senior Vice President since May 1998.

Table of Contents**Directors of New Metavante****Name and Age****(as of August 31, 2007)****David Coulter (2)**

Age 60

Principal Occupation and Directorships

David Coulter will be a Director of New Metavante. Mr. Coulter is a Managing Director, Financial Services in the New York office of Warburg Pincus LLC, a position he has held since joining Warburg Pincus LLC in 2005. From 2002 through 2005, Mr. Coulter held a series of positions with JPMorgan Chase and was a member of the Office of the Chairman. He previously held senior positions at The Beacon Group and served as Chairman and Chief Executive Officer of BankAmerica Corporation. Mr. Coulter also serves as a director of First Data Corporation, FundsXpress, Pacific Gas & Electric Corporation, Strayer Education and The Irvine Company. Mr Coulter has agreed to resign as a director of First Data Corporation prior to becoming a Director of New Metavante.

Michael D. Hayford

Age 47

Michael D. Hayford will be New Metavante's Senior Executive Vice President and Chief Operating Officer, as well as a Director of New Metavante. Mr. Hayford has served as a Director of Metavante since September 2004, as its Chief Financial Officer and Treasurer since May 2001, as its Chief Operating Officer since May 2006 and as its Senior Executive Vice President since September 2004. Mr. Hayford also has served as a Senior Vice President of Marshall & Ilsley. Mr. Hayford serves in various positions of Metavante subsidiaries: Director and Executive Vice President of Advanced Financial Solutions, Inc. and MBI Benefits, Inc.; Director, Executive Vice President and Treasurer of TREEV LLC; Manager of NYCE Payments Network, LLC; Manager of Metavante Acquisition Company II, LLC; Manager and Executive Vice President of Endpoint Exchange LLC; Executive Vice President and Treasurer of Metavante Operations Resources Corporation, Link2Gov Corp. and Vicor, Inc.; Executive Vice President of Kirchman Corporation, VECTORsg, Inc., Prime Associates, Inc., GHR Systems Canada, Inc., and Valutec Card Solutions LLC; and Vice President of Printing For Systems, Inc. Mr. Hayford is a director of the University of Wisconsin La Crosse Foundation and West Bend Mutual Insurance.

Ted D. Kellner (1)

Age 61

Ted D. Kellner will be a Director of New Metavante. Mr. Kellner has served as Chairman and Chief Executive Officer of Fiduciary Management, Inc., an investment management firm, since 1980. He is also a director of American Family Mutual Insurance Company and Kelben Foundation, Inc. He has been a director of Marshall & Ilsley since 2000 and, following the closing of the transactions, will be a director of New Marshall & Ilsley.

Dennis J. Kuester (1)

Age 65

Dennis J. Kuester will be the Chairman of the Board and Director of New Metavante. Mr. Kuester has been Chairman of the Board of Marshall & Ilsley since January 2005 and, with Marshall & Ilsley, served as Chief Executive Officer from January 2002 through April 2007, as President from 1987 to 2005, and as a director since 1994. With M&I Marshall & Ilsley Bank, Mr. Kuester has served as Chairman of the Board and Chief Executive Officer since 2001, as President from 1989 to October 2001 and as Director since 1989. Following the closing of the transactions, Mr. Kuester will be the Chairman of the Board of Directors of New Marshall & Ilsley. Mr. Kuester is also director of the Federal Reserve Bank of Chicago, Modine Manufacturing Company, Wausau Paper Corp., Krueger International, Inc., Super Steel Products Corp., YMCA of Metropolitan Milwaukee, Froedtert Hospital, Medical College of Wisconsin and the Lynde and Harry Bradley Foundation and Chairman of the Board of Christian Stewardship Foundation.

(2) Represents an Investor designee.

Corporate Governance Matters

Board of Directors

Director Independence

New Metavante expects to adopt the standards set forth in Section 303A of the NYSE Corporate Governance Listing Standards (the "NYSE Listing Standards") to determine a director's independence. Unless the board of directors determines otherwise, a director of New Metavante who otherwise meets the NYSE Listing Standards will not fail to be deemed "independent" for purposes of the NYSE Listing Standards solely as a result of the following business relationships:

where a director was, more than three years ago, an employee of New Metavante, or where an immediate family member of a director was, more than three years ago, an executive officer of New Metavante;

where a director, or an immediate family member of such director, has received direct compensation from New Metavante in an amount equal to or less than \$100,000, other than any director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service), during any 12-month period within the last three years, or in any amount prior to the last three years;

(i) where a director, or an immediate family member of such director, was, but is not currently, a partner of New Metavante's internal or external auditing firm; (ii) where a director was, but is not currently, an employee of such a firm; (iii) where a director has an immediate family member who was, but is not

Table of Contents

currently, an employee of such a firm and who participated in the firm's audit, assurance or tax compliance practice; or (iv) where a director, or an immediate family member of such director, was a partner or employee of such a firm more than three years ago;

where a director was, more than three ago, employed as an executive officer of another company where any of New Metavante's present executive officers at the same time served on that company's compensation committee;

where a director is a current employee, or has an immediate family member who is a current executive officer, of a company that has made payments (including payments of interest and other loan fees) to, or received payments from, New Metavante for property or services in an amount which, in any of New Metavante's last three fiscal years, was equal to or less than the greater of \$1 million or 2% of such other company's consolidated gross revenues, or in any amount prior to New Metavante's last three fiscal years; and

where a director is or was an executive officer of any tax exempt organization to which New Metavante made contributions in an amount equal to or less than the greater of \$1 million or 2% of such tax exempt organization's consolidated gross revenues in any of New Metavante's last three fiscal years, or in any amount prior to New Metavante's last three fiscal years.

For purposes of the foregoing, the term "immediate family member" shall have the meaning set forth in the commentary to Section 303A.02(b).

Unless the board of directors of New Metavante determines otherwise, the relationships described immediately above will be deemed to be immaterial for purposes of Section 303A.02 of the NYSE Listing Standards. New Metavante may add one or more categorical standards.

For purposes of constituting the initial board of directors of New Metavante, the shareholders agreement will provide that no designee of Investor will be deemed not to be independent under the NYSE Listing Standards because of the ownership of New Metavante common shares by Investor or because of the rights of Investor under the shareholders agreement.

Communications with Directors

The non-management directors of New Metavante expect to have two regularly scheduled executive sessions per year and to hold additional executive sessions as requested. The board of directors, based upon a review and recommendation of the nominating committee, expects to appoint a director to preside at the executive sessions of the non-management directors. Parties who wish to communicate directly with the presiding director or with the non-management directors as a group may direct written communications to the corporate secretary at New Metavante's corporate headquarters. The corporate secretary of New Metavante will forward all communications to the presiding director unless otherwise instructed by the non-management directors.

Directors are expected to attend each regular and special meeting of the board of directors and of each board committee on which the director serves. Directors are also expected to attend the annual meeting of shareholders. Although the New Metavante's amended and restated by-laws will authorize members of the board of directors and board committees to participate in and act at a meeting through the use of telephonic or other communication equipment, the personal attendance of directors at such meetings is preferred.

Code of Business Conduct and Ethics and Corporate Governance Guidelines

New Metavante expects that it will adopt a code of business conduct and ethics that will apply to all of New Metavante's employees, officers and directors, including New Metavante's chief executive officer, chief financial officer and controller. Upon adoption, the code of business conduct and ethics will be available on New Metavante's website and will additionally be available, without charge, upon written request to the corporate

Table of Contents

secretary of New Metavante. Once the code is adopted, if any substantive amendment is made to the code, New Metavante will disclose the nature of such amendment on its website or in a current report on Form 8-K. In addition, if a waiver from the code is granted to an executive officer, director, principal accounting officer, or controller, New Metavante will disclose the nature of such waiver in the investor relations section of New Metavante's website at www.metavante.com, in a press release, or on a current report on Form 8-K.

New Metavante also expects that it will adopt corporate governance guidelines in conformity with the rules of the New York Stock Exchange.

Corporate Governance Documents

Following the separation transactions, New Metavante intends to make available free of charge through its website its Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and all amendments to these reports as soon as reasonably practicable after these materials are filed with or furnished to the Securities and Exchange Commission. In addition, certain documents relating to corporate governance matters will be available on New Metavante's website upon completion of the separation transactions. These documents include, among others, the following:

charter for the audit committee of the board of directors;

charter for the compensation committee of the board of directors;

charter for the nominating committee of the board of directors;

corporate governance guidelines; and

code of business conduct and ethics.

Shareholders will also be able to obtain a copy of any of these documents free of charge by calling the New Metavante Shareholder Information Line at 1-866-956-6868. Information contained on any of New Metavante's or any of its subsidiaries' web sites is not deemed to be a part of this proxy statement/prospectus information statement.

Annual Meeting

New Metavante's amended and restated by-laws will provide that an annual meeting of stockholders will be held each year on a date specified by the New Metavante board of directors. The date of New Metavante's first annual meeting following completion of the transactions will be disclosed in a Form 10-Q or Form 8-K filed after the completion of the transactions.

Committees of the Board of Directors

Pursuant to New Metavante's amended and restated by-laws, the New Metavante board of directors will be permitted to establish committees from time to time as it deems appropriate. The shareholders agreement provides that the board of directors of New Metavante will have the following committees:

compensation committee;

audit committee; and

nominating committee.

The membership and function of each committee are described below.

Compensation Committee

It is expected that the compensation committee will be appointed to discharge the board's responsibilities relating to the compensation of New Metavante's executive officers. The compensation committee will be responsible for, among other things, reviewing performance criteria used in establishing appropriate compensation, retention, incentive compensation, severance and benefit policies and programs applicable to the executive officers of New Metavante. The compensation committee charter will require that the compensation

Table of Contents

committee annually review and approve corporate goals and objectives for purposes of determining the Chief Executive Officer's compensation, evaluate the Chief Executive Officer's performance in light of such goals and objectives, and set the Chief Executive Officer's compensation level based on this evaluation.

The compensation committee will also be charged with periodically reviewing and approving or making recommendations to the board of directors with respect to the adoption of or material changes in employee benefit and compensation plans. In addition, the compensation committee will be required to periodically review and approve, for the Chief Executive Officer and the other executive officers: annual base salary levels; annual incentive opportunity levels; long-term incentive opportunity levels; employment, severance and change-in-control agreements; material perquisites or other in-kind benefits; and any other special or supplemental benefits, in each case, when and if appropriate.

Other duties of the compensation committee pursuant to its charter will include reviewing and recommending to the board of directors all persons to be elected as Chief Executive Officer, President, and Chief Financial Officer of New Metavante; periodically reviewing the succession plan for the Chief Executive Officer; and reviewing director fees and retainers on a periodic basis and recommending any changes to the board of directors.

The compensation committee will have the power to delegate to its chair such power and authority as it deems appropriate, except as prohibited by law. The compensation committee will have the sole authority to retain and terminate any compensation consultant to be used to assist in the evaluation of executive compensation and will be able to approve the consultant's fees and other retention terms. The compensation committee also will have the authority to obtain advice and assistance from internal or external legal, accounting or other advisors. Pursuant to the shareholders agreement, Investor has the right to designate the chair of the compensation committee.

The compensation committee will consist of three members, all of whom are expected to be determined independent under the NYSE Listing Standards. Additional information relating to the compensation committee may be found under the heading "Compensation of Executive Officers of New Metavante" Compensation Discussion and Analysis of New Metavante beginning on page 339.

Audit Committee

The audit committee is expected to be a separately-designated standing committee of the board of directors as defined by Section 3(a)(58)(A) of the Exchange Act. The audit committee will have responsibility for, among other things, (a) appointing or replacing New Metavante's independent auditors, (b) overseeing the work of the independent auditors (including resolution of any disagreements between management and the auditors regarding financial reporting), (c) reviewing the independent auditors' performance, qualifications and independence, (d) approving all auditing and permitted non-auditing services to be performed by the independent auditors with limited exceptions, (e) reviewing New Metavante's financial statements, internal audit function and system of internal controls, (f) overseeing compliance by New Metavante with legal and regulatory requirements and with New Metavante's code of business conduct and ethics, and (g) producing the report required by federal securities regulations for inclusion in New Metavante's proxy statement. The audit committee will consist of three members, all of whom are expected to be determined independent under the NYSE Listing Standards.

Nominating Committee

The nominating committee will be responsible for (a) identifying new candidates who are qualified to serve as directors of New Metavante, (b) recommending to the board of directors the candidates for election to the board of directors and for appointment to the board of director's committees, (c) considering any nominations for director submitted by shareholders, (d) developing and recommending to the board or directors, and thereafter

Table of Contents

periodically reviewing, the corporate governance guidelines and principles applicable to New Metavante, (e) coordinating an annual assessment of the performance of the board of directors and of each of the audit, compensation and nominating committees, and (f) monitoring and advising the board of directors on corporate governance matters and practices. The nominating committee will consist of three members, all of whom are expected to be determined independent under the NYSE Listing Standards.

The nominating committee will consider candidates nominated by shareholders in accordance with the procedures set forth in New Metavante's amended and restated by-laws. Under New Metavante's amended and restated by-laws, nominations other than those made by the board of directors or the nominating committee, must be made pursuant to timely notice in proper written form to the secretary of New Metavante. To be timely, a shareholder's request to nominate a person for election to the board of directors, together with the written consent of such person to serve as a director, must be received by the secretary of New Metavante not less than 90 days prior to the anniversary date of the annual meeting of shareholders in the immediately preceding year. To be in proper written form, the notice must contain certain information concerning the nominee and the shareholder submitting the nomination.

Under New Metavante's amended and restated by-laws, no person is eligible to be elected a director at a meeting of shareholders held on or after the date he or she attains the age of 72, although the board of directors, at its discretion, may waive the age limitation or establish a greater age from time to time.

In addition, the nominating committee is expected to adopt guidelines for evaluating and selecting candidates for election to the board of directors. Under these proposed guidelines, each director should:

be an individual of the highest character and integrity and have an inquiring mind, vision and the ability to work well with others;

be free of any conflict of interest which would violate any applicable law or regulation or interfere with the proper performance of the responsibilities of a director;

possess substantial and significant experience which would be of value of New Metavante in the performance of the duties of a director; and

have sufficient time available to devote to the affairs of New Metavante in order to carry out the responsibilities of a director.

The nominating committee will evaluate eligible shareholder-nominated candidates for election to the board of directors in accordance with the selection guidelines. The full text of the guidelines can be found in the nominating committee's charter, which will be available on New Metavante's web site described above following completion of the transactions.

Table of Contents

RELATED PARTY TRANSACTIONS OF NEW METAVANTE

New Metavante and Metavante are currently wholly-owned subsidiaries of Marshall & Ilsley and will continue to be wholly-owned subsidiaries of Marshall & Ilsley until completion of the transactions. Metavante and Marshall & Ilsley have a history of arrangements arising out of their status as parent and wholly-owned subsidiary, including those entered into in connection with the transactions which are described in this proxy statement/prospectus information statement. See The Transactions, The Investment Agreement, The Separation Agreement, and Additional Agreements Related to the New Marshall & Ilsley Share Distribution and Note 4 to the Metavante historical consolidated financial statements included in this proxy statement/prospectus information statement.

For a description of certain benefits to be received by the anticipated directors and named executive officers of New Metavante, and a description of agreements, including employment agreements and change of control agreements, entered into with certain executive officers as a result of the transactions, see The Transactions Interests of Certain Persons in the Transactions.

For a description of relationships of New Metavante and Metavante with Investor, see The Transactions and Additional Agreements Relating to the Transactions.

For a description of relationships between the New Metavante directors appointed by Marshall & Ilsley and Marshall & Ilsley, including among others a transition and consulting agreement involving Mr. Kuester, see Related Party Transactions of New Marshall & Ilsley.

It is expected that under its written charter, the audit committee of New Metavante will be responsible for reviewing and approving all related party transactions pursuant to policies to be adopted by the audit committee in connection with the completion of the transactions.

Table of Contents

COMPENSATION OF EXECUTIVE OFFICERS OF NEW METAVANTE

Compensation Discussion and Analysis of New Metavante

This Compensation Discussion and Analysis explains the compensation philosophy, policies and practices of Metavante with respect to its executive officers. This section focuses on the compensation provided to Metavante's principal executive officer, principal financial officer, and its other three most highly-compensated executive officers, which are collectively referred to in this section as the named executive officers. This section also focuses on the executive compensation philosophy, policies and practices that New Metavante expects to establish following the completion of the transactions.

For purposes of this section unless indicated otherwise, named executive officers refers to Frank R. Martire, President and Chief Executive Officer; Michael D. Hayford, Senior Executive Vice President, Chief Operating Officer and Chief Financial Officer; Frank G. D'Angelo, Senior Executive Vice President, President, Payment Solutions Group; Paul T. Danola, Senior Executive Vice President, President, Enterprise Solutions Group; and Steven A. Rathgaber, Executive Vice President, President, Metavante Payment Network Solutions division.

The compensation committee of the Marshall & Ilsley Board established and administered Metavante's executive compensation program during 2006. The Marshall & Ilsley compensation committee also established and is administering Metavante's executive compensation program for its current fiscal year. Because of the role that Marshall & Ilsley and the Marshall & Ilsley compensation committee played in determining the 2006 compensation for Metavante's named executive officers (particularly Mr. Martire, who was also a named executive officer of Marshall & Ilsley in its 2007 annual meeting proxy statement), this discussion includes information concerning Marshall & Ilsley's compensation policies as they relate to Metavante in addition to information concerning the development of New Metavante's future executive compensation philosophy, policies and practices. Mr. Hayford was also a named executive officer of Marshall & Ilsley in Marshall & Ilsley's proxy statement for its 2007 annual meeting of shareholders. However, at the times the Marshall & Ilsley compensation committee met in 2006 to make decisions concerning named executive officer compensation, Mr. Hayford's eventual named executive officer status was unknown. Therefore, since the focus of the Marshall & Ilsley compensation committee's efforts was directed toward compensation matters relating to the then-known named executive officers, the only Metavante named executive officer whose compensation the compensation committee reviewed and determined in named executive officer-level detail was Mr. Martire. The Marshall & Ilsley compensation committee did, however, approve Mr. Hayford's base salary and long-term incentive equity awards. Otherwise, Mr. Hayford's compensation was generally reviewed and determined in the same manner as was the compensation for other executive officers of Marshall & Ilsley. After completion of the transactions, the New Metavante executive compensation program will be subject to the review and subsequent approval of the compensation committee of the board of directors of New Metavante.

Compensation Philosophy, Policies and Objectives

Metavante believes that a strong management team comprised of the most talented individuals in key positions is critical to the company's success as an independent public company. The Metavante executive compensation program is an important tool for attracting, motivating and retaining such individuals. Because the success of Metavante as a wholly-owned subsidiary is critical to the success of Marshall & Ilsley, the compensation of Metavante's named executive officers is linked not only to the performance of Metavante, but also to the overall goals of Marshall & Ilsley. After the completion of the transactions, the New Metavante executive compensation program will be designed to establish a strong link between the creation of New Metavante shareholder value and the compensation earned by the company's executive officers. The fundamental objectives of the New Metavante executive compensation program will be to:

support the long-term growth and success of New Metavante as an independent public company;

provide an opportunity for meaningful equity ownership by executive officers;

Table of Contents

support a performance-oriented environment that rewards achievement of company goals that are aligned with the interests of shareholders; and

maximize long-term shareholder value.

Administration and Process

As discussed above, the Metavante executive compensation program was administered by the Marshall & Ilsley compensation committee during 2006. The Marshall & Ilsley compensation committee does not use formulaic or mechanical procedures in determining compensation amounts or allocation of specific elements of compensation, or in determining types of awards to be granted. Rather, the Marshall & Ilsley compensation committee establishes base salary and target performance levels based on a number of factors that are designed to further the executive compensation objectives of the entity as a whole, be competitive with the compensation received by similarly-situated executive officers at peer group companies and reflect the conditions of the markets in which the company operates and the relative earnings performance of peer group companies. For certain executive officers, the financial performance of the business unit or division for which the executive has responsibility may receive a proportionately larger consideration by the Marshall & Ilsley compensation committee.

In establishing base salary and target performance levels as described above, the compensation committee receives input from its compensation consultant, Hewitt Associates. The compensation committee instructs Hewitt Associates to provide a compilation of raw data with respect to selected executive positions at peer group companies, including base salary and annual and long-term incentive award data. In addition, Hewitt Associates is instructed to assist the compensation committee in ensuring that the compensation committee's actions are consistent with Marshall & Ilsley's business needs, compensation philosophy and prevailing market practices, and in making compensation decisions that represent the long-term interests of Marshall & Ilsley's shareholders. The role of Hewitt Associates as it relates to each element of named executive officer compensation is described in further detail below.

The Marshall & Ilsley compensation committee regularly reviews the overall compensation of Marshall & Ilsley's named executive officers, including, as applicable, those who are also named executive officers of Metavante. In 2006, Hewitt Associates presented a report to the Marshall & Ilsley compensation committee comparing Marshall & Ilsley's performance, size and executive compensation levels to those of peer group companies. Hewitt Associates also reviewed with the Marshall & Ilsley compensation committee the base salaries, annual bonuses, total cash compensation, long-term compensation and total compensation of Marshall & Ilsley's executive officers (including Mr. Martire) relative to those companies. The performance comparison presented to the Marshall & Ilsley compensation committee each year includes a comparison of Marshall & Ilsley's total shareholder return, earnings per share growth, return on tangible equity and return on assets to the peer group companies on one-, three- and five-year bases.

For the purpose of this performance comparison, total shareholder return is a measure of the total return percentage change over the relevant period on a one dollar investment in the relevant company's common stock at the beginning of the period, assuming all dividends are reinvested on the ex-dividend date. Return on tangible equity is defined as net income, adjusted for tax-affected amortization of intangibles, as a percentage of average tangible equity. Return on assets is defined as net income as a percentage of average assets. While overall compensation is not directly benchmarked against the peer group companies, this comparison helps to provide a context for the compensation committee of the performance of Marshall & Ilsley relative to the performance of the peer group companies as it reviews and makes determinations regarding named executive officer compensation levels.

The Marshall & Ilsley compensation committee reviews this information along with tally sheets setting forth the components of each Marshall & Ilsley named executive officer's compensation.

Table of Contents

With respect to 2006, for the named executive officers of Metavante, other than Mr. Martire, the chief executive officer of Metavante provided compensation recommendations to the chief executive officer of Marshall & Ilsley which were submitted for Marshall & Ilsley compensation committee approval. In connection with these recommendations, Metavante gathered compensation data from competitor proxy statements and various published surveys of executive compensation conducted by third parties to provide Mr. Martire with a comparison of the named executive officer's total compensation to the market for similar positions. In addition, Mr. Martire considered his evaluation of the executive's performance when making compensation recommendations. Mr. Martire did not use formulaic methods to determine compensation using this data but instead used the data provided in combination with his evaluation of each executive's performance as a guideline for making compensation recommendations. Mr. Martire also received compensation direction from Marshall & Ilsley, especially in the determination of long-term incentive award design, in an effort to consistently apply Marshall & Ilsley's compensation philosophy and objectives to the Metavante named executive officer compensation decisions.

After completion of the transactions, it is expected that, in determining Mr. Martire's total compensation, the New Metavante compensation committee will, without the participation of Mr. Martire, review Mr. Martire's performance, qualifications and a number of other factors to determine his total compensation. For the other executive officers, the New Metavante compensation committee will consider the factors discussed above, along with recommendations made by Mr. Martire in determining such executives' total compensation. New Metavante does not expect to make compensation determinations based on formulas, but rather to make them based on a balance of market-related compensation data and reward achievements critical to shareholder return. It is likely that an executive's compensation will vary based on the scope of responsibilities, type of business and performance factors affecting that executive.

After the completion of the transactions, New Metavante expects to utilize one or more executive compensation consultants, which may or may not include Hewitt Associates, to help establish executive compensation benchmarks from companies with which Metavante competes for executive talent and business. Due to the broad range of products and services provided by Metavante, this data may differ for individual executives in order to ensure that New Metavante is able to attract, retain, and motivate executives in a manner consistent with the company's compensation objectives. The New Metavante compensation committee will have the sole authority to retain and terminate any compensation consultant to be used to assist in the evaluation of executive compensation and will be able to approve the consultant's fees and other retention terms. It is expected that shortly after the completion of the transactions the New Metavante compensation committee will make a determination with respect to the engagement of executive compensation consultants.

Peer Group

As more fully described herein, one of the factors considered by the compensation committee is the relative performance and compensation of executives in peer group companies. Because the peer group is used in determining the compensation of Marshall & Ilsley named executive officers, the peer group is comprised of a subset of the bank holding companies included in the KBW 50 Index. The companies provide relevant comparative information because the nature and scope of their businesses and the size of their asset holdings are similar to those of Marshall & Ilsley. The composition of the peer group is reviewed annually and companies are added to or removed from the group as circumstances warrant. For the last fiscal year, the peer group companies were:

AmSouth Bancorporation;

Associated Banc-Corp.;

BB&T Corporation;

Colonial Bancgroup Inc.;

Comerica Incorporated;

TD Banknorth Inc. (f/k/a Banknorth Group, Inc.); and

Zions Bancorporation.

Elements of Executive Compensation

The compensation package for Metavante's named executive officers who are also named executive officers of Marshall & Ilesley has both objective (performance-based) and subjective elements. Based on its review of each named executive officer's total compensation opportunities and performance, and the performance of Marshall & Ilesley and Metavante, the Marshall & Ilesley compensation committee allocated compensation among the elements in the manner that it considered to be most likely to achieve the objectives of the executive compensation program. The specific elements, which include base salary, annual incentive compensation and long-term compensation, are described below.

The Marshall & Ilesley compensation committee has negative and, in select instances, positive discretion to adjust performance results used to determine annual incentive and long-term incentive payouts to the named executive officers. Negative discretion may be used to adjust such performance results, as determined by the Marshall & Ilesley compensation committee. The Marshall & Ilesley compensation committee may use positive discretion to adjust award amounts in circumstances in which the pre-approved adjustments are not applicable. The compensation committee did not use positive discretion to adjust any awards in 2006. The Marshall & Ilesley compensation committee used approved pre-established criteria to adjust Marshall & Ilesley reported earnings per share amounts in order to reverse the impact of certain items to the extent they arise during an incentive performance cycle and were not contemplated in establishing the Marshall & Ilesley and Metavante performance budgets and related incentive performance targets. Items that may be adjusted pursuant to pre-established criteria approved by the Marshall & Ilesley compensation committee include, but are not limited to: the dilutive impact of acquisitions, in order to prevent creating a disincentive for executives to enter into transactions that they believe to be in the best long-term interests of Marshall & Ilesley and its shareholders; the effect of changes in accounting methods or tax rates or laws; gain or loss recognized from the sale of a division or subsidiary;

Edgar Filing: MARSHALL & ILSLEY CORP/WI/ - Form DEFM14A

and income or loss associated with a significant business or balance sheet restructuring. In 2006, the Marshall & Ilsley compensation committee, pursuant to the pre-established criteria, approved adjustments to the performance results under the annual incentive and long-term incentive plans to increase reported Marshall & Ilsley earnings per share to reverse the dilutive impact of two acquisitions, to increase reported Marshall & Ilsley earnings per share to reflect changes associated with stock option expense and derivative accounting, and to decrease reported Marshall & Ilsley earnings to adjust for the carryover effect of an adjustment made by Marshall & Ilsley in a previous year in connection with a debt refinancing.

Following the completion of the transactions, the New Metavante compensation committee will establish performance goals and targets, including those specific to each named executive officer. For example, the

Table of Contents

compensation committee may set specific group or division targets for certain executives in order to motivate them towards business success. It is expected that the New Metavante compensation committee will have discretion to adjust the performance results, positively or negatively, and may include or exclude the impact of any item, including gains or losses from discontinued operations, extraordinary gains or losses from accounting changes, or other such items. In no circumstance can these changes increase the maximum award level which may be achieved.

Base Salary

Each of Metavante's named executive officers receives a base salary. For fiscal 2006, Mr. Martire's base salary was determined by the Marshall & Ilsley compensation committee based on a combination of two factors. The first factor was the compensation committee's evaluation of the salaries paid in the marketplace to executives with similar responsibilities. Because there were no positions in the peer group companies directly comparable to Mr. Martire's position, the compensation committee reviewed for comparison purposes the base salary information provided by Hewitt Associates with respect to heads of sectors in those companies, but did not directly benchmark Mr. Martire's salary to those salaries. The second factor was the compensation committee's evaluation of the executive's unique role, job performance and other circumstances. The Marshall & Ilsley compensation committee evaluates the marketplace salary data to help ensure that the base salaries of Marshall & Ilsley named executive officers are within competitive practice relative to the base salaries of named executive officers in the peer group companies. Likewise, based on its evaluation of a named executive officer's unique role, job performance and other circumstances, the compensation committee may determine that the named executive officer's base salary should be adjusted to reflect that information. For example, if, in the view of the compensation committee, a Marshall & Ilsley named executive officer's responsibilities are substantially more or less than the responsibilities of that named executive officer's counterparts at the peer group companies, the compensation committee would consider that information in deciding the level at which to establish that named executive officer's base salary relative to the peer group companies.

Going forward, it is expected that the New Metavante compensation committee will continue to use these factors for all of New Metavante's named executive officers. Evaluating both of these factors will allow New Metavante to offer a competitive total compensation value to each named executive officer, taking into account the unique attributes of, and circumstances relating to, each individual, as well as marketplace factors.

In 2006, based on the factors described above, the Marshall & Ilsley compensation committee determined to increase the base salary of each of Marshall & Ilsley's named executive officers (including Mr. Martire) in order to maintain its competitive total compensation position in the marketplace. Based on his review of market data and the other factors described above, the chief executive officer of Metavante also recommended an increase in base salary for each of the other Metavante named executive officers to the chief executive officer of Marshall & Ilsley, which were then submitted to the compensation committee for approval. The range of base salary increases for all of Metavante's named executive officers was between 4% and 10%, consistent with market data reviewed by the chief executive officer of Metavante, for increases to executives in the industry, as well as being reflective of the individual executive's performance for 2006.

As discussed below under *Employment Agreements*, New Metavante expects to enter into employment agreements with certain of its executive officers that will set forth, among other things, a base salary for each executive that will be subject to annual review by the compensation committee of New Metavante.

Annual Incentive Compensation

Each of the Metavante named executive officers participates in the Metavante Corporation Management Incentive Plan, which is a plan tied directly to the performance objectives of Metavante. This plan provides for annual cash incentives to the participants. For Mr. Martire, who is also a named executive officer of Marshall & Ilsley, the Marshall & Ilsley compensation committee has in the past selected from the following criteria when establishing annual incentive awards: earnings, return on average equity, return on average assets or revenue.

Table of Contents

Performance criteria may be used singularly or in combination, as determined by the compensation committee, to measure the performance of Metavante for the purpose of determining whether, and to what extent, an award will be payable under the Metavante Corporation Management Incentive Plan for the performance year.

The compensation committee bases its selection of performance goals on Metavante's overall goals and performance budget for the year in order to align the goals of the named executive officers with the goals of Metavante. As such, the Marshall & Ilsley compensation committee may select performance criteria that differ from year to year. For 2006, the criteria for Mr. Martire were Metavante net income and revenue, weighted 75% and 25%, respectively. For each of these criteria, the compensation committee approved a matrix of threshold, plan and maximum performance levels, as well as a potential award amount at each level expressed as a percentage of Mr. Martire's base salary.

For 2006, Mr. Martire's target annual incentive award was set at 90% of his base salary. Under the plan, achievement at plan, or target, performance levels results in a payout of 100% of the target annual incentive award. The target performance levels were established based on the Metavante business plan, as approved by the chief executive officer of Marshall & Ilsley. The threshold performance level at which an incentive would be earned was set at 95% of the target performance level and would result in a payout of 80% of the target annual incentive award. The maximum net income and revenue performance levels were set at 108% and 104%, respectively, of the target and would result in a payout of 167% of the target annual incentive award. Maximum performance levels result in a significantly higher earned incentive based on the difficulty of their achievement due to business complexities. Under the plan, payouts are interpolated between performance levels. No payouts are made for performance below threshold. The 2006 target performance range and achievement were as follows (\$ in millions):

Company Goals ⁽¹⁾	Weight	Target Performance Range			Achievement
		Threshold	Target	Maximum	
Net Income	75%	\$ 143.1	\$ 150.6	\$ 162.6	\$ 160.1
Revenue	25%	\$ 1,414.0	\$ 1,488.4	\$ 1,547.9	\$ 1,504.2

(1) Pursuant to the provisions of the plan, the net income and revenue targets were increased by \$0.5 million and \$10.5 million, respectively, to reflect the September 1, 2006 acquisition of VICOR, Inc. The adjustments were intended to neutralize the impact of the acquisition, rather than to make the achievement of the performance goals easier or more difficult for the participants.

In early 2007, the Marshall & Ilsley compensation committee certified Metavante's results under each of the performance criteria and, based on those results, approved Mr. Martire's annual incentive award of \$624,151, which was approximately 139% of his target annual incentive award.

For the other named executive officers of Metavante, the chief executive officer of Metavante recommends threshold, plan and maximum performance levels, as well as a potential award amount at each level expressed as a percentage of the executive's base salary for the approval by the chief executive officer of Marshall & Ilsley.

For 2006, based on Mr. Hayford's broad role and responsibilities for Metavante's performance, Mr. Martire determined that Mr. Hayford would have the same performance levels under the plan as those determined by the compensation committee for Mr. Martire, and he would have a target annual incentive award of 92% of his base salary. Based on the results set forth above, Mr. Hayford's annual incentive award was \$513,906, which was approximately 139% of his target annual incentive award.

For the other named executive officers, the 2006 plan or target performance levels established by Mr. Martire (discussed below) tied directly to the Metavante business plan, which was approved by the chief executive officer of Marshall & Ilsley. Because the targets tie directly to the Metavante business plan, the targets are intended to be realistic enough to be reasonably attainable given a maximum effort on the part of the named

Table of Contents

executive officers in consideration of conditions and trends. Mr. Martire also established threshold and maximum performance targets for the other named executive officers. The design of the plan for the other named executive officers has the following objectives:

to focus each executive on the financial objectives required from his areas of responsibility leading to the achievement of company-wide financial measures;

to provide for growth and profitability improvement to the extent possible over the prior year;

to ensure the execution of key business initiatives critical to long-term business success; and

to continually focus on the key constituents, customers, and employees key to business success.

Under the plan, individual awards for Messrs. D Angelo, Danola, and Rathgaber are determined by assessing the executive's achievement of defined company-wide, division, and individual level strategic goals. The goals are established individually based on each executive's responsibility to drive performance achievement in the best interest of Metavante. For 2006, the target annual incentive award for each of these officers were established as follows (as a percentage of base salary): Mr. D Angelo 90%; Mr. Danola 90%; and Mr. Rathgaber 67%.

For Messrs. D Angelo, Danola, and Rathgaber, the Metavante Management Incentive Plan first includes a Metavante performance factor, which acts as a multiplier to adjust the executive's target annual incentive award. For fiscal 2006, the Metavante performance factor was net income. The threshold and target performance levels were established at the same levels as the levels for Messrs. Martire and Hayford. The maximum performance target for net income was established at 105% of target. This decision reflects the degree to which the other named executive officers have the ability to exceed the target given the scope of their responsibility. The table below sets forth the Metavante target performance range, the target multiplier at each performance level and the level of achievement. If the threshold performance multiplier is not achieved, the plan is not funded and no incentives are payable to participants (\$ in millions).

	Target Performance Range ⁽¹⁾			Achievement	Multiplier ⁽¹⁾
	Threshold	Target	Maximum		
Metavante Net Income ⁽²⁾	\$ 143.1	\$ 150.6	\$ 158.1	\$ 160.1	115%
Target Multiplier	80%	100%	125%		

- (1) Pursuant to the provisions of the plan, Mr. Martire used his discretion to adjust the multiplier from 125% to 115% to take into account an unanticipated tax credit of \$5.0 million, which was reflected in the results, but was not a result of business operations. This adjustment was implemented to partially offset the effect of unanticipated results not reflective of business operations. The target annual incentive awards, following application of the multiplier adjustments, were \$362,250 for Mr. D Angelo; \$350,750 for Mr. Danola; and \$230,000 for Mr. Rathgaber.
- (2) Pursuant to the provisions of the plan, the net income target was increased by \$0.5 million to reflect the September 1, 2006 acquisition of VICOR, Inc. The adjustment was intended to neutralize the impact of the acquisition, rather than to make the achievement of the performance goals easier or more difficult for the participants.

Table of Contents

Individual payouts are then determined based on Metavante performance and individual goals. For Messrs. D Angelo, Danola, and Rathgaber, the 2006 target performance range, achievement and payout factors were as follows (\$ in millions):

Frank G. D Angelo	Target Performance Range					Payout
	Weight	Threshold	Target	Maximum	Achievement	Factor
Company Goals						for 2006
Business Unit Net Income ⁽¹⁾	30%	\$ 135.6	\$ 141.2	\$ 148.3	\$ 148.0	37.2%
Business Unit Revenue ⁽¹⁾	15%	664.8	692.5	727.2	738.2	20.0%
Business Unit New Sales ⁽¹⁾	15%	134.5	140.1	147.1	159.1	22.5%
Intercompany Cross-Sales ⁽²⁾	10%	29.7	33.0		54.4	10.0%
Acquisition Effectiveness ⁽³⁾	10%	Subjective evaluation of acquisition integration effectiveness for area of executive s responsibility				10.0%
Customer Care ⁽⁴⁾	10%	Subjective evaluation considering externally conducted client surveys, business losses, and client references				8.0%
Employee Engagement ⁽⁴⁾	10%	Subjective evaluation considering externally conducted employee survey, employee engagement initiatives, and turnover				7.0%
Total Goal Achievement:						114.7%

- (1) Business unit net income, business unit revenue and business unit new sales reflect goals established in the Metavante business plan for the Payment Solutions Group that is under Mr. D Angelo s direction.
- (2) The intercompany cross-sales performance criterion was established to encourage the cross-sale of products to existing customers, thereby assisting in the success of acquisitions and in strengthening relationships with existing customers.
- (3) The acquisition integration effectiveness performance criterion was established to focus executives on the newly acquired companies within their areas of responsibility and the associated business initiatives to ensure success.
- (4) The customer care and employee engagement performance criterion was established to encourage the executives to focus on the importance of customers and employees to Metavante s business.

Table of Contents

Paul T. Danola	Target Performance Range					Payout Factor
	Weight	Threshold	Target	Maximum	Achievement	
Company Goals						for 2006
Business Unit Net Income ⁽¹⁾	30%	\$ 101.5	\$ 105.8	\$ 111.0	\$ 106.0	30.4%

Employee Engagement ⁽⁴⁾	10%	Subject evaluation considering externally conducted employee survey, employee engagement initiatives, and turnover				7.0%
Total Goal Achievement:						87.5%

- (1) Business unit net income, business unit revenue and business unit new sales reflect goals established in the Metavante business plan for the NYCE and Response Data Corp., Inc. subsidiaries, which are under Mr. Rathgaber's direction.
- (2) The intercompany cross-sales performance criterion was established to encourage the cross-sale of products to existing customers, thereby assisting in the success of acquisitions and in strengthening relationships with existing customers.
- (3) The acquisition integration effectiveness performance criterion was established to focus executives on the newly acquired companies within their areas of responsibility and the associated business initiatives to ensure success.
- (4) The customer care and employee engagement performance criterion was established to encourage the executives to focus on the importance of customers and employees to Metavante's business.

For 2006 awards, Mr. Martire also reviewed the annual calculated payouts under the Metavante Corporation Management Incentive Plan for each of Messrs. D'Angelo, Danola, and Rathgaber, which were \$415,610, \$284,655, and \$201,250, respectively. Based on his evaluation of the executive's performance and contribution to the overachievement of plan objectives for 2006, Mr. Martire recommended that discretionary payments be made in addition to the calculated payments as follows: Mr. D'Angelo \$36,190; and Mr. Danola \$15,345. The discretionary award combined with the calculated plan award resulted in a \$451,800 payment to Mr. D'Angelo and a \$300,000 payment to Mr. Danola.

Metavante believes it is likely that the target performance levels established under the annual incentive plan will be attained in 2007.

Going forward, New Metavante expects to continue its practice of offering an annual incentive program that is tied to the factors key to operational performance and ultimately shareholder return. Plan design, performance goals, and incentive opportunities at threshold, target and maximum achievement levels will be approved by the New Metavante compensation committee. The employment agreements that New Metavante expects to enter into with certain of its executive officers will also provide a target annual bonus opportunity that is based on a percentage of the executive's salary. See Employment Agreements below, for the target annual bonus opportunity established pursuant to the employment agreements.

Table of Contents

Additional information regarding Metavante's annual incentive compensation may be found in the "Grants of Plan-Based Awards" table and the narrative that follows in the "Compensation of Executive Officers of New Metavante" section of this proxy statement/prospectus information statement.

Long-Term Compensation

Long-term compensation is an area of particular emphasis in Marshall & Ilsley's executive compensation program because Marshall & Ilsley believes that these incentives foster the long-term perspective necessary for the continued success of the company as a whole, including Metavante. This emphasis is consistent with Marshall & Ilsley's compensation program objective of aligning a significant portion of each executive's total compensation with the long-term performance of Marshall & Ilsley and the interests of its shareholders.

In arriving at long-term award levels, the Marshall & Ilsley compensation committee uses information provided by Hewitt Associates to compare the total value of each of the Marshall & Ilsley named executive officers' long-term award package (including Mr. Martire's) to those provided by peer group companies for similar positions to provide a context of prevailing market practices, but does not directly benchmark long-term awards against the peer group companies. The Marshall & Ilsley compensation committee also determines the allocation of long-term awards to each long-term compensation component, including awards under Marshall & Ilsley's Equity Incentive Plan and Long-Term Incentive Plans and under the Metavante Corporation Long-Term Incentive Plan. The types of awards available under these plans are described below.

The Marshall & Ilsley compensation committee has chosen to use three forms of long-term awards: stock options, restricted stock and, in the case of Metavante, cash-based long-term incentive awards. In determining the allocation of the long-term awards to the named executive officers of Metavante who are also named executive officers of Marshall & Ilsley, the Marshall & Ilsley compensation committee has determined to place the greatest emphasis on stock options. There are several reasons for this determination. First, stock options directly align the value of the benefit to the named executive officers with the interests of shareholders, since executives recognize a value only if and to the extent that the value of common stock increases. In addition, stock options are the most prevalent form of award among peer companies. Finally, the term of stock options is the longest among the various long-term awards, providing an incentive for the named executive officers to create long-term shareholder value.

With regard to allocation of other forms of awards, the Marshall & Ilsley compensation committee has generally determined to place comparable emphasis on each of restricted stock and long-term incentive units. Each of these forms of award has characteristics that further the objectives of Marshall & Ilsley's executive compensation program. Restricted stock represents an award of full-value shares and vests over a period of five years. While the value of shares of restricted stock varies based upon the performance of Marshall & Ilsley's common stock, the primary objectives of this form of award are to attract and retain the highly-talented individuals to whom the award is given. Long-term incentive units represent share equivalents of Marshall & Ilsley's common stock. In the case of the Metavante named executive officers, awards were granted in restricted stock and cash-based long-term incentives. Awards are determined based on the executive's ability to impact company-wide performance and create long-term shareholder value.

As stated above, the Marshall & Ilsley compensation committee does not use formulaic or mechanical procedures in determining compensation amounts or allocation of specific elements of compensation, including long-term incentive awards. The process of determining award amounts generally begins with the compensation committee's review of prior-year award levels. In the discretion of the compensation committee, award levels are adjusted from time to time to reflect changes in the circumstances of the named executive officers, Marshall & Ilsley or the market as a whole. For example, if the market value of Marshall & Ilsley's common stock has changed over time such that, in the view of the compensation committee, the total value of a named executive's long-term awards relative to that named executive officer's total compensation no longer fulfills Marshall & Ilsley's compensation philosophy and objectives, the compensation committee may make appropriate adjustments to that

Table of Contents

named executive officer's long-term award levels. Similarly, if a named executive officer's responsibilities change such that a particular type of award becomes disproportionately large or small relative to similarly situated individuals at Marshall & Ilsley or at peer group companies, the compensation committee may adjust the amount of that type of award paid to that named executive officer. For the other named executive officers of Metavante, award levels are designed to be consistent with market data and award levels at Marshall & Ilsley.

The New Metavante compensation committee may use stock options, restricted stock, performance shares, long-term incentive units, and cash awards to achieve its compensation objectives. The use of each type of award will be determined by the New Metavante compensation committee and will be designed to motivate the executive to assist in achieving company goals that are aligned with the interests of shareholders.

Stock Options. Stock options represent a right to purchase a specified number of shares of Marshall & Ilsley common stock at a purchase price of not less than 100% of the fair market value of the common stock on the date the option is granted. Except in the case of specified corporate events such as stock splits or reclassifications of shares, the purchase price for common stock subject to options may not be reduced without the consent of Marshall & Ilsley's shareholders. For a discussion of the treatment of options held by the named executive officers in connection with the transactions, see *Interests of Certain Persons in the Transaction-Equity Compensation to Directors and Executive Officers* in this proxy statement/prospectus information statement.

The Marshall & Ilsley compensation committee determines the number of options to grant based on its analysis of awards by peer group companies, in keeping with Marshall & Ilsley's objective of offering a competitive total compensation package.

Prior to 2002, stock options were granted on the date of the Marshall & Ilsley compensation committee meeting at which they were approved. Since 2002, Marshall & Ilsley's practice has been to grant stock options in October of each year, two weeks after Marshall & Ilsley releases its earnings information for the third quarter of such year. The Marshall & Ilsley compensation committee may also grant stock options and, as described below, restricted shares, throughout the year in connection with new hires or special executive retention situations, such as promotions. The Marshall & Ilsley compensation committee has not made any retroactive grants of stock options.

It is anticipated that the compensation committee of New Metavante will allocate the majority of awards in the form of stock options to help align the interests of participants and the shareholders of New Metavante. Restricted stock may be used for both time-based and performance-based awards. New Metavante expects to establish initial grants in connection with the completion of the transactions. In addition, it will establish an annual grant cycle and allow for awards to be granted throughout the year for special circumstances such as new hires, promotions, or key business initiatives. No retroactive stock options will be granted by New Metavante. See *Expected Grants of Stock Options* below, for further details regarding stock options expected to be granted in connection with the closing of the transaction.

Restricted Stock or Restricted Stock Unit Awards. A restricted stock or restricted stock unit award is an award of stock, or in the case of a restricted stock unit, a bookkeeping entry granting a participant the right to a share of common stock in the future, for some or no monetary consideration, as the Marshall & Ilsley compensation committee may specify.

Other Metavante Long-Term Incentive Awards

Metavante Corporation Long-Term Incentive Plan. Cash-based awards are made under the Metavante Corporation Long-Term Incentive Plan to each of the named executive officers, other than Mr. Rathgaber who participates in a separate plan (the NYCE Performance Incentive Plan), which is discussed below. The current performance period is the three years commencing on January 1, 2007 and ending on December 31, 2009 for awards granted in December 2006.

Table of Contents

Under the plan, the awards granted in December 2006 vest at the end of the three-year period except in the case of death or disability, termination of employment due to retirement or the occurrence of a triggering event (which relates to a change of control of Metavante or Marshall & Ilsley). Upon the occurrence of a triggering event, the award vests notwithstanding continued employment by Metavante. A payout multiple will be applied to an amount equal to the cash award made to a participant based on the performance of Metavante or Marshall & Ilsley, as the case may be, in relation to the following performance criteria: (a) Metavante's cumulative net income for the three-year period; (b) the total return of Marshall & Ilsley's common stock for the three-year period when compared with the total return for those stocks composing the KBW 50 Index; and (c) Marshall & Ilsley's cumulative earnings per share for the three-year period, adjusted for certain items. The targets are intended to be difficult but attainable, given maximum effort on the part of the executives, and tie Metavante's success to the success of Marshall & Ilsley. The performance of Metavante or Marshall & Ilsley, as the case may be, in relation to the performance criteria is calculated independently, which may allow a participant to receive a payout under one or more, but less than all, of the criteria. For the Metavante performance criterion, the threshold payout multiple is 12.5% and the maximum payout multiple is 137.5%. For each of the two Marshall & Ilsley performance criteria, the threshold payout multiple is 6.25% and the maximum payout multiple is 68.75%. The resulting combined maximum payout multiple is 275%. The portion of the payout, if any, based on the Marshall & Ilsley performance criteria will be adjusted based on the fluctuation in price of Marshall & Ilsley's common stock over the three-year period. No payout will be made under a performance criterion for performance below threshold. Before the award is paid, the Marshall & Ilsley compensation committee must certify the extent to which the performance criteria have been met.

Awards granted for the three-year performance period ended December 31, 2006 had an additional performance factor, Metavante revenue. Each of the four factors were weighted at 25%. This was in recognition of the focus on both the growth and profitability of the business, balanced with the Marshall & Ilsley financial measures. Specified performance levels (threshold, target, exceed and maximum) are established individually for each performance factor. The performance levels vary for each factor based on the difficulty of the achievement and the degree to which the participants can affect results (i.e., Metavante thresholds are established at a higher percentage of target than Marshall & Ilsley earnings per share due to the outside market factors that may affect earnings per share). The awards for the three-year period ended December 31, 2006 did not include the provision to adjust the payouts according to the fluctuation of Marshall & Ilsley common stock. For the three-year performance period that ended December 31, 2006, the performance targets were exceeded and long-term incentives were paid out at approximately 146% of target.

The following table presents information relating to plan goals, performance and target incentives for the three-year performance period ended December 31, 2006.

Performance Factor*	Weight	Target Performance Range					Maximum	Result	Payout %
		Threshold	Target	Exceed	Exceed	Exceed			
Metavante Net Income (\$ in millions)	25%	\$ 263.3	\$ 277.2	\$ 291.1	\$ 304.9	\$ 318.8	\$ 360.6	50.0%	
Metavante Revenue (\$ in millions)	25%	\$ 3,730.3	\$ 3,926.6	\$ 4,122.9	\$ 4,319.3	\$ 4,515.6	\$ 3,804.6	13.3	
Marshall & Ilsley Shareholder Return (% Rank)	25%	25 th	50 th	75 th	75 th	95 th	61 st	34.4	
Marshall & Ilsley Earnings Per Share (\$)	25%	\$ 7.83	\$ 8.54	\$ 9.12	\$ 9.12	\$ 9.54	\$ 9.16	48.4	
Total								146.1%	

* Because the targets were established prior to the beginning of the three-year performance period, pursuant to the provisions of the plan and pre established criteria, the Metavante targets and Marshall & Ilsley's earnings per share results were adjusted during the period to reflect unanticipated business events and certain other events. The adjustments were intended to neutralize the impact of factors beyond the participants' control, rather than to make achievement easier or more difficult for the participants.

Table of Contents

For the three-year performance period ended December 31, 2006, the performance targets and adjustments were as follows:

Adjustments to Metavante Net Income and Revenue

	2006		2005		2004		Three-Year Performance Period (sum of 2004-2006)	
	Net		Net		Net		Net

(1) Reflects 2005 adjustment to record interest on bill payment float as account processing revenue. Interest on bill payment float was previously recorded as interest income.

(2) Reflects adoption of FAS 123(R).

(3) Reflects transfer of support services business from Marshall & Ilsley to Metavante.

(4) Reflects net impact of buyout revenue and corresponding business losses.

(5) Reflects disposition of 401(k) Retirement Plan Services operations.

(6) Reflects the following acquired businesses: VECTORsgi Holdings, Inc., Kirchman Corporation, Advanced Financial Solutions, NYCE Corporation, Response Data Corp., NuEdge Systems LLC, Printing For Systems, Inc., Prime Associates, Inc., MBI Benefits, Inc., GHR Systems, Inc., TREEV LLC, Link2Gov Corp., Brasfield Holdings, LLC, Adminisource Corporation, VICOR Inc., and CGI Group Inc.

For the three-year performance period ended December 31, 2006, Marshall & Ilsley's earnings per share results were adjusted pursuant to pre-established criteria as follows:

Adjustments to Marshall & Ilsley Earnings Per Share

	2006	2005	2004	Three-Year Performance Period (sum of 2004-2006)
M&I Reported Earnings Per Share	\$ 3.17	\$ 3.10	\$ 2.77	\$ 9.04
Adjustments:				
Stock option expense	0.09			0.09
Dilutive impact of acquisitions	0.05	0.02		0.07
Change in derivative accounting	0.05			0.05
Carryover effect of adjustment made in previous year in connection with a debt refinancing	(0.03)	(0.03)	(0.03)	(0.09)

Incentive Plan Earnings Per Share (as adjusted)	\$ 3.33	\$ 3.09	\$ 2.74	\$ 9.16
--	---------	---------	---------	---------

Table of Contents

There were no adjustments to the M&I Shareholder Return performance factor.

These achievements resulted in an overall payout for the three-year performance period ended December 31, 2006 of 146.1% of target. Payments under the plan for the performance period ended December 31, 2006 were as follows: Mr. Martire \$365,225; Mr. Hayford \$219,137; Mr. D Angelo \$146,090; and Mr. Danola \$146,090.

Metavante Corporation Acquisition Incentive Plan. The Metavante Corporation Acquisition Incentive Plan was established by the Marshall & Ilsley compensation committee in 2004. The plan was designed to provide a cash incentive for certain of the named executive officers of Metavante, including Messrs. Martire, Hayford, D Angelo, and Danola. The plan was designed to assist the company in achieving and exceeding financial targets related to the performance of Advanced Financial Solutions, Kirchman Corporation, NYCE Corporation, Response Data Corp., Inc., and VECTORsgi Holdings, Inc., which were acquired in 2004. The 30-month plan (June 30, 2004-December 31, 2006) included annual and cumulative performance targets tied to performance measures established in the Marshall & Ilsley board of directors approved business cases at the time of each acquisition. The plan included a company-level performance threshold set at 100% of target and division level performance thresholds set at 90% of target. Under the plan, achievement at target performance levels results in a payout of 100% of the target incentive award. No payouts are made for performance below target. The critical assessment periods were determined to be at year-end 2005, year-end 2006 and for the cumulative 30-month period. The cumulative goal was included to ensure that if one of the year-end targets was missed, there would be additional incentive to achieve the cumulative result. Two levels of performance above target were established, exceed (110% of target performance) and maximum (120% of target performance). The payout at the exceed level is 150% of the target incentive. The payout at maximum is 300% of the target incentive. The maximum target was intended to be reasonably achievable only given maximum effort on the part of the executive, which would require maximizing the value to the organization through integration of operations, products and services and cross-sales to existing customers. The establishment of the exceed and maximum levels provides increasingly higher incentives for performance over target based on the difficulty of attainment of these levels. Payouts under the plan ranged from 0% to 300% of target.

The following table presents information relating to plan goals, performance and target incentives:

	Weight- ing ⁽¹⁾	Target Incentive	Period	Target Performance Range			Result	Result as % of Target	Payout as % of Target Incentive
				(Net Income)					
				Target	Exceed (in millions)	Maximum			
Mr. Martire ⁽²⁾	75%	\$ 262,500	Cumulative	\$ 76.1	\$ 83.7	\$ 91.3	\$ 83.8	110.1%	151.8%
Mr. Hayford ⁽²⁾	25%	62,500	2006	39.5	43.5	47.4	42.5	107.6	138.0
	50%	125,000	Cumulative	76.1	83.7	91.3	83.8	110.1	151.8
		187,500							147.2
Mr. D Angelo ⁽³⁾	25%	62,500	2006	20.7	22.8	24.8	30.9	149.3	300.0
	50%	125,500	Cumulative	41.3	45.4	49.6	64.3	155.7	300.0
		187,500							300.0
Mr. Danola ⁽⁴⁾	25%	62,500	2006	18.8	20.7	22.6	11.6	61.7	0.0
	50%	125,000	Cumulative	34.8	38.3	41.8	19.5	56.0	0.0
		187,500							0.0

⁽¹⁾ The remaining 25% of the target incentive award was allocated to the interim performance period ended December 31, 2005. Payouts for this period were as follows: Mr. Martire \$171,250; Mr. Hayford \$122,321; Mr. D Angelo \$187,500; and Mr. Danola \$0.

Table of Contents

- (2) The amounts in the target performance range include the following businesses that were acquired in 2004: Advanced Financial Solutions, Kirchman Corporation, NYCE Corporation, Response Data Corp., Inc., and VECTORsgi Holdings, Inc.
- (3) The amounts in the target performance range include the following businesses that were acquired in 2004: NYCE Corporation and Response Data Corp., Inc.
- (4) The amounts in the target performance range include the following businesses that were acquired in 2004: Advanced Financial Solutions, Kirchman Corporation and VECTORsgi Holdings, Inc.

In order to receive the calculated payout under this plan, the Metavante net income (all participants) and divisional net income target levels (Messrs. D Angelo and Danola) established under the annual incentive plan must also be satisfied. To the extent that 100% of the Metavante net income goal and 90% of the executive's overall division net income goals (if applicable) are not attained, no incentive is earned under this plan. As stated in the annual incentive plan discussion above, Metavante net income goals, and divisional net income goals for Messrs. D Angelo and Danola, were exceeded in 2006.

Fiscal 2006 payouts under the plan were as follows: Mr. Martire \$398,407; Mr. Hayford \$275,949; Mr. D Angelo \$562,500; and Mr. Danola \$0.

NYCE Performance Incentive Plan. A cash-based incentive plan was established in 2005 to retain key executive officers from the acquisition of NYCE Corporation. The performance period is three years (January 1, 2005-December 31, 2007). Mr. Rathgaber and one other NYCE executive officer participate in this plan. Performance criteria are annual net income after financing and purchase price amortization for 2005, 2006 and 2007, and the cumulative three-year period. The following table presents information relating to plan goals and target incentives (\$ in millions).

	Weight ⁽¹⁾	Target	Exceed	Maximum
2006	25%	\$ 19.0	\$ 20.9	\$ 22.8
2007	25%	22.1	24.3	26.5
Cumulative 2005 - 2007	25%	55.3	60.8	66.4
Payout as % of Target		100%	150%	250%

- (1) The plan included a net income target for 2005 which was weighted at 25%. Mr. Rathgaber received a payout for fiscal 2005 performance of \$375,000 or 250% of the target incentive.

Target net income performance levels were established based on the NYCE acquisition business plan that was approved by the Marshall & Ilesley Board. Target payouts at the established performance levels were determined with consideration to the degree of difficulty in achieving the targets in light of the new affiliation with Metavante and also with a focus on keeping the executive whole with pre-existing retention plans which were terminated upon the acquisition of NYCE by Metavante. Each of these factors is weighted at 25% of the target opportunity. The plan guarantees a minimum payout of 50% of target, consistent with retention objectives and has a maximum payout opportunity of 250% of target, based on 120% goal attainment. Results of the 2005 and 2006 annual components exceeded plan, and it is expected that the 2007 results will be at or above target achievement, resulting in cumulative three-year performance above plan. The targets are intended to be realistic enough to be reasonably attainable given a maximum effort on the part of the NYCE executive officers in consideration of conditions and trends. Results for the 2006 annual component of the plan were \$34.0 million of net income, or 179% of target, resulting in a maximum incentive of 250% of target, or \$375,000 for Mr. Rathgaber.

Additional information regarding long-term incentive compensation, including 2006 performance criterion and results, may be found in the

Grants of Plan-Based Awards table and the narrative that follows under the Compensation of Executive Officers of New Metavante section of this proxy statement/prospectus-information

Table of Contents

statement. The incentive compensation earned by participants under the Metavante Corporation Long-Term Incentive Plan with respect to performance periods that include the separation date that are based on the performance of Marshall & Ilsley will be determined jointly by Marshall & Ilsley, New Marshall & Ilsley, Metavante, New Metavante and Investor as of the separation date and will be paid by Metavante and New Metavante after the conclusion of the performance period. Payments made based on the performance of Metavante generally will be made by Metavante and New Metavante in accordance with the terms of the Metavante Corporation Long-Term Incentive Plan. Although specific measures have not yet been determined, it is anticipated that following the completion of the transactions, New Metavante will measure company performance using both absolute and relative performance measures. It is expected that the New Metavante compensation committee will set absolute performance measures for both revenue and profitability. The relative measures are expected to evaluate company performance relative to market data, such as an index of peer group companies. The availability of options and other equity awards is also expected to be tied to these established measures of New Metavante's performance.

Other Benefits and Perquisites

Metavante's named executive officers participate in the health, dental and life insurance, paid vacation and holiday and other programs that are generally available to all of Metavante's employees.

The perquisites provided to each of the named executive officers are regularly reviewed by the Marshall & Ilsley compensation committee. These perquisites include payment of club dues, personal financial planning and tax preparation services, and personal use of company-owned automobiles. Perquisites are valued at their incremental cost to Metavante in accordance with SEC regulations, and the named executive officers are allowed to reimburse Metavante for such perquisites at their incremental cost to Metavante to the extent that limitations on personal use are exceeded. Metavante expects to enter into an agreement with Marshall & Ilsley, or a third party, for use of an aircraft on an ongoing basis. New Metavante expects that certain of its executive officers will be permitted to use such aircraft for personal use.

Metavante believes that the benefits and perquisites it provides to its named executive officers are within competitive practice and customary for executives in key positions at comparable companies. Such benefits and perquisites will allow Metavante to continue to attract, retain and motivate highly-talented people to these critical positions, ultimately providing a substantial benefit to shareholders. Certain perquisites are also provided, in part, to reduce the amount of time and energy the named executive officers are required to devote to non-company related matters, providing them additional time to focus on company-related endeavors.

Employment Agreements, Stock Options and Change of Control Agreements

Investor and the Marshall & Ilsley compensation committee established the terms of the employment agreements described below and Investor established the amount of the option awards, for the named executive officers of New Metavante, as set forth below. The chief executive officer of Marshall & Ilsley and the chief executive officer of New Metavante determined the option awards and eligibility of change of control agreements for the remaining members of Metavante's executive committee.

Employment Agreements

In connection with the completion of the transactions, New Metavante expects to enter into employment agreements with: Messrs. Martire, Hayford, D. Angelo and Layden, another executive officer. As a result of these agreements, Messrs. Martire, Hayford, D. Angelo and Layden are expected to be four of Metavante's most highly compensated executives during their employment under the agreements.

The employment agreements will establish a base salary, a target annual bonus (based on a percentage of base salary), as well as benefits and perquisites, in accordance with New Metavante's policies. The agreements

Table of Contents

will have an initial term of three years (two years in the case of Messrs. D Angelo and Layden) and will automatically renew for consecutive one-year terms unless either party gives at least 60 days written notice of its intention not to renew prior to any expiration date.

The following table sets forth the expected base salary and target annual bonuses for each of Messrs. Martire, Hayford, D Angelo and Layden pursuant to the terms of the employment agreements.

<i>Name and Principal Position</i>	<i>Expected</i>	<i>Expected Target</i>
	<i>Base Salary</i>	<i>Annual Bonus</i>
Frank R. Martire	\$ 675,000	\$ 675,000
<i>President and Chief Executive Officer</i>		
Michael D. Hayford	\$ 525,000	\$ 472,500
<i>Senior Executive Vice President and Chief Operating Officer</i>		
Frank G. D Angelo	\$ 425,000	\$ 382,500
<i>Senior Executive Vice President</i>		
Donald W. Layden, Jr.	\$ 400,000	\$ 300,000
<i>Senior Executive Vice President</i>		

As discussed below under Compensation of Executive Officers of New Metavante Potential Payments Upon Termination or Change of Control, in 2005 Mr. Rathgaber entered into an employment agreement with Metavante in connection with Metavante's acquisition of NYCE Corporation. The employment agreement with Metavante provides that Mr. Rathgaber's current salary and short-term incentive targets will not be reduced for 2005, 2006 or 2007, and provides that Mr. Rathgaber is eligible to participate in various incentive and benefit plans on terms consistent with his peer senior managers. The agreement provides that either party may terminate the agreement at any time for any reason. Upon involuntary termination due to position elimination, reduction-in-force or for any other reason (except gross misconduct), Mr. Rathgaber is entitled to a severance benefit equal to 18 months of his current base salary at the time of termination and continuation of health and dental insurance on then-current terms, as well as a prorated portion of his incentive payment under the management incentive plan for service in the calendar year in which the termination occurred (which incentive payment has a minimum guarantee of \$100,000 for each calendar year).

As discussed above, salary adjustments, if any, must be approved by the New Metavante compensation committee based on an analysis of market related factors and individual performance. Additional information regarding the employment agreements, base salaries and annual bonuses is provided under The Transactions Interests of Certain Persons in the Transactions and Compensation of Executive Officers of New Metavante Historical Compensation of Executive Officers Summary Compensation Table in this proxy statement/prospectus information statement. It is expected that the base salary and bonus components of Messrs. Danola and Rathgaber will remain unchanged by the transactions and will be reviewed by New Metavante's compensation committee following the transactions in connection with its annual review procedures at the completion of fiscal year 2007, in a manner consistent with the New Metavante compensation committee's review of the other executive officers. In addition, two other executive officers whose positions are directly impacted by the transaction resulting in increased responsibilities, are expected to receive base salary increases in connection with the completion of the transactions.

Metavante currently does not expect to enter into an employment agreement with Mr. Oliver, who became Metavante's Senior Executive Vice President and Chief Financial Officer on July 23, 2007. Mr. Oliver's base annual salary is \$370,000 and his target annual bonus for 2007 will be \$277,500, both of which will be pro-rated based on his mid-year hire date. Mr. Oliver also received a \$140,000 signing bonus upon the start of his employment and will receive a retention bonus of \$250,000 upon the one-year anniversary of his hire date.

Table of Contents*Expected Grants of Stock Options*

The following table sets forth information concerning the number of options to purchase New Metavante common stock expected to be issued in connection with the completion of the transactions to each of the named executive officers, as well as to Mr. Layden and Mr. Oliver, who are expected to be among New Metavante's most highly compensated executive officers after the completion of the transactions. The number of option awards for each named executive officer was agreed upon through negotiations among Investor, Metavante management and Marshall & Ilsley, subject to approval by the board of directors of New Metavante. In determining the expected grants, Investor targeted a percentage of the new option pool for such officers spread evenly over a five-year period, and front-loaded the options by allocating a higher percentage of the targeted percentage in the initial grants than would be expected as an annual grant going forward. For example, for Mr. Martire, the front-end load is approximately 3.3 times his expected annual grant. The other named executive officers, as well as a limited number of other optionees, will also receive a front-end load in the initial grant.

<i>Name and Principal Position</i>	<i>Expected Stock Options to be Granted</i>
Frank R. Martire <i>President and Chief Executive Officer</i>	750,000
Michael D. Hayford <i>Senior Executive Vice President and Chief Operating Officer</i>	575,000
Frank G. D. Angelo <i>Senior Executive Vice President</i>	275,000
Paul T. Danola <i>Senior Executive Vice President</i>	100,000
Steven A. Rathgaber <i>Executive Vice President</i>	50,000
Donald W. Layden, Jr. <i>Senior Executive Vice President</i>	275,000
Timothy C. Oliver <i>Senior Executive Vice President and Chief Financial Officer</i>	60,000

The other executive officers of Metavante are also likely to receive awards of stock options in connection with the completion of the transactions at levels undetermined at this date. These options will be part of an initial grant made at the closing of the transactions, and will have an exercise price equal to the fair market value of New Metavante common stock on the grant date. The options received in this special grant will be 25% vested upon grant, and 25% in each of the three years thereafter. More specific information regarding the Metavante Equity Incentive Plan is provided under "Compensation of Executive Officers of New Metavante - New Metavante Equity Incentive Plan" in this proxy statement/prospectus information statement.

Change of Control Agreements

Metavante recognizes that, as with any public company, it is possible that a change of control of the company may take place in the future. Metavante also recognizes that the threat or occurrence of a change of control can result in significant distractions of key management personnel because of the uncertainties inherent in such a situation. Metavante believes that it is essential and in the best interests of the company and its shareholders to retain the services of its key management personnel in the event of the threat or occurrence of a change of control and to ensure management's continued dedication and efforts in such event without undue concern for their personal financial and employment security. In

connection with the closing of the transactions,

Table of Contents

New Metavante expects to enter into new change of control agreements with each of the named executive officers. The New Metavante change of control agreements are expected to guarantee the Metavante named executive officers specific payments and benefits upon a change of control of Metavante if an employee voluntarily terminates employment for good reason, or is involuntarily terminated other than for cause, as defined in the agreements, within a four-year period following the change of control. Additional details regarding these change of control agreements are provided in the *The Transactions Interests of Certain Persons in the Transaction* section of this proxy statement/prospectus information statement.

Details of the terms of the change of control agreements that the named executive officers are currently a party to are described in the *Compensation of Executive Officers of New Metavante Potential Payments upon Termination or Change of Control* section of this proxy statement/prospectus information statement.

Retirement Plans and Other Benefits

Each of the named executive officers participate in the Marshall & Ilsley Retirement Plan. The plan is designed to provide for long-term accumulation of funds towards retirement. The plan consists of two components: a 401(k) plan and a profit sharing plan.

The named executive officers also participate in the 2005 Marshall & Ilsley Corporation Executive Deferred Compensation Plan. This plan provides the named executive officers with the ability to defer up to 80% of base salary and 100% of annual incentive payments. The plan also allows for deferral of gains upon vesting of shares of key restricted stock. New Metavante anticipates providing plans for long-term accumulation of funds in preparation for employee retirement, including a retirement plan and a deferred compensation plan.

Mr. Rathgaber also participates in the NYCE Corporation Supplemental Executive Retirement Plan. The plan was frozen upon Metavante's acquisition of NYCE and the assets are currently being held by M&I Trust. The plan provides Mr. Rathgaber with a supplemental retirement benefit and Mr. Rathgaber was 100% vested prior to his employment with Metavante.

Each of the plans described above, which are described in more detail in the *Compensation of Executive Officers of New Metavante* section of this proxy statement/prospectus information statement, are intended to reward the executives for their contributions to the success of the company based on a variety of measures. By rewarding valuable contributions by the named executive officers, Metavante believes it is better able to achieve its objectives of attracting and retaining highly-talented individuals to fill key positions.

Impact of Tax Treatment

Section 162(m) of the Internal Revenue Code prohibits publicly-held companies from deducting certain compensation to any one named executive officer in excess of \$1,000,000 during the tax year. Qualified performance-based compensation is not subject to the deduction limit if certain conditions are met.

New Metavante, through its compensation committee, intends to attempt to qualify executive compensation as tax deductible to the extent feasible and where it believes it is in the best interests of the company and its shareholders. It does not, however, wish for tax requirements to distort the effective development and execution of the New Metavante executive compensation program. Thus, New Metavante expects to continue to exercise discretion in those instances in which mechanistic approaches necessary to satisfy tax law considerations could compromise the interests of the company and its shareholders. In addition, because of the uncertainties associated with the application and interpretation of Section 162(m) and the regulations issued thereunder, there can be no assurance that compensation intended to satisfy the requirements for deductibility under Section 162(m) will in fact be deductible.

Section 409A of the Internal Revenue Code, which was signed into law in October 2004, amended the tax rules to impose restrictions on funding, distributions and elections to participate in nonqualified deferred

Table of Contents

compensation arrangements. Final regulations regarding the application of Section 409A were issued on April 10, 2007. While Marshall & Ilsley believes that it is operating in compliance with the statutory provisions relating to Section 409A that are currently effective, Marshall & Ilsley is still in the process of reviewing the final regulations, and it is possible that Marshall & Ilsley and Metavante will have to make adjustments to its nonqualified deferred compensation arrangements to comply with the new rules.

2007 Employee Stock Purchase Plan

The board of directors of New Metavante intends to adopt, and it is expected that Marshall & Ilsley, as sole shareholder, will approve, the 2007 Employee Stock Purchase Plan (the ESPP). The ESPP will become effective upon the effective date of the distribution. The following is a description of the material features and provisions of the ESPP.

Administration. The ESPP will be administered by the New Metavante compensation committee, each member of whom is a non-employee director for purposes of Rule 16b-3 under the Exchange Act. Subject to the terms and conditions of the ESPP, the committee has the authority to make all determinations and to take all other actions necessary or advisable for the administration of the ESPP. The committee is also authorized to adopt, amend and rescind rules relating to the administration of the ESPP.

Eligibility. The employees of New Metavante and its subsidiaries are eligible to participate in the ESPP. Officers of New Metavante may participate in the ESPP. No employee is permitted to participate if the rights of the employee to purchase common stock under the ESPP and all similar purchase plans maintained by New Metavante or its subsidiaries would accrue at a rate which exceeds \$25,000 of the fair market value of such stock (determined at the time the right is granted) for each calendar year, subject to an annual increase based on a predetermined formula. Also, no employee is eligible to participate in the ESPP if, immediately after the grant, such employee would own stock (including stock such employee may purchase under outstanding rights under the ESPP) representing 5% or more of the total combined voting power or value of all classes of New Metavante's stock. Each eligible employee who is employed by New Metavante prior to the beginning of any calendar year may elect to participate in the ESPP for that calendar year. Employees who first become eligible during a calendar quarter may also elect to participate in the ESPP as of the beginning of the next calendar quarter.

Shares reserved. Subject to adjustments as set forth in the ESPP, the maximum number of shares of New Metavante common stock that may be issued under the ESPP is 400,000 shares.

Enrollment. Eligible employees become participants in the ESPP by executing an enrollment agreement and filing it prior to the applicable calendar quarter. By enrolling in the ESPP, a participant is deemed to have elected to purchase the number of shares of New Metavante common stock that can be purchased with the compensation withheld during the portion of each calendar year for which the participant is enrolled.

Purchases. Under the ESPP, purchases will be made at the end of each calendar quarter (the Exercise Date).

Price and payment. Employees electing to participate in the ESPP will authorize payroll deductions made on each pay day during each calendar year until the employee instructs New Metavante that the deductions be terminated or until the employee's employment is terminated or the employee is no longer in eligible status. Participants may contribute up to \$25,000 of their compensation through payroll deductions each plan year. The purchase price will be 85% of the purchase price of a share of New Metavante common stock on each Exercise Date during the Plan Year. Unless an employee terminates his or her participation in the ESPP, his or her accumulated payroll deductions under the ESPP at the end of a calendar quarter will be used to purchase the number of shares of common stock that can be purchased with the employee's accumulated payroll deductions at the purchase price per share established through that Exercise Date, subject to limitations on the maximum number of shares that can be purchased.

Table of Contents

The fair market value of a share of New Metavante common stock on any date will equal the closing sales price of a share of common stock on the New York Stock Exchange for such date or if no sale occurred on such date, the first trading date immediately prior to such date during which a sale occurred as reported in The Wall Street Journal.

Termination of participation. Employees may terminate their participation in the ESPP at any time, and participation terminates automatically on termination of employment or if the employee is no longer in eligible status. Upon termination of the employee's participation in the ESPP, the employee's payroll deductions not already used to purchase stock under the ESPP will be returned to the employee.

Adjustments. In the event of a stock split, reverse stock split, stock dividend or similar change in New Metavante's capitalization, the number of shares available for issuance under the ESPP and the purchase price and number of shares covered by options outstanding under the ESPP will be appropriately adjusted.

In the event New Metavante experiences a change of control (as defined in the ESPP), a new exercise date will be set prior to the effective date of the change of control and all outstanding purchase rights will automatically be exercised on the new exercise date. The purchase price will be equal to 85% of the fair market value of a share of New Metavante common stock on the date the purchase rights are exercised.

Termination or amendment. New Metavante's board of directors may at any time and for any reason terminate or amend the ESPP. To the extent necessary to comply with applicable tax or securities laws or in certain circumstances described in the ESPP, New Metavante will obtain shareholder approval of any amendment to the ESPP.

Unless earlier terminated by New Metavante's board of directors, the ESPP will terminate on the tenth anniversary of the effective date of the distribution.

Registration of shares on Form S-8. New Metavante intends to file one or more registration statements with the SEC on Form S-8 covering the shares of common stock issuable under the ESPP.

Tax consequences. The federal income tax consequences of the ESPP are generally as follows. Participating employees will not be deemed to have recognized taxable income upon the grant or exercise of an option to purchase shares of New Metavante common stock. If, however, a participating employee disposes of any shares received by such employee pursuant to the ESPP within two years after the first day of the calendar quarter during which the employee purchases such shares, the participating employee will recognize ordinary income at the time of such disposition in an amount equal to the excess of the fair market value of the shares at the end of the calendar quarter during which the employee purchases the shares over the price the participating employee paid for the shares. If a participating employee disposes of such shares at any time after the expiration of the two-year holding period described above, the participating employee will recognize ordinary income at the time of such disposition only to the extent of an amount equal to the lesser of (i) the excess of the fair market value of the shares at the time of such disposition over the price the employee paid for the shares, or (ii) 15% of the fair market value of the shares on the first day of the calendar quarter during which the employee purchases the shares. The remainder of the gain, if any, recognized on such disposition will be taxed as capital gain. New Metavante will not be entitled to any income tax deductions in connection with the ESPP.

New Metavante Equity Incentive Plan

Introduction. It is expected that the board of directors of New Metavante will adopt the New Metavante 2007 Equity Incentive Plan (the Equity Incentive Plan), and Marshall & Ilsley, as sole shareholder, will approve the Equity Incentive Plan prior to the Marshall & Ilsley share distribution, in order to attract and retain certain selected officers, key employees, non-employee directors and consultants whose skills and talents are important to New Metavante's operations, and to reward them for making contributions to its success.

Table of Contents

The Equity Incentive Plan includes the following provisions:

the exercise price for options and stock appreciation rights cannot be less than the fair market value of the New Metavante common stock on the date of grant;

the exercise prices for options or stock appreciation rights cannot be repriced without shareholder approval, except to reflect changes to the capital structure of New Metavante as set forth in the Equity Incentive Plan;

a maximum term of 10 years for options and stock appreciation rights;

a maximum of 25% of the shares available for issuance under the Equity Incentive Plan can be in the form of restricted shares or restricted stock units; and

awards cannot be transferred to third parties, with the exception of certain estate planning transfers, which can be made if the committee that administers the Equity Incentive Plan approves such transfers.

The following is a summary of the material features of the Equity Incentive Plan:

Eligibility. Persons eligible for awards under the Equity Incentive Plan, if approved, will include current and prospective employees, non-employee directors, consultants or other persons who provide services to New Metavante or its subsidiaries and who hold, or will hold, positions of responsibility and whose performance, in the judgment of the compensation committee of New Metavante, can have a significant effect on the success of New Metavante. As of the closing of the transaction, it is expected that approximately 550 individuals would be eligible to participate in the Equity Incentive Plan.

Administration. The Equity Incentive Plan will be administered by the New Metavante compensation committee.

Awards. Awards under the Equity Incentive Plan may include incentive stock options (which we refer to as ISOs) and non-statutory stock options (which we refer to as NSOs), shares of restricted stock or restricted stock units, stock appreciation rights (which we refer to as SARs), performance stock and performance units, each as described below. The New Metavante compensation committee will be responsible for determining the type or types of awards to be made to each participant. The terms, conditions and limitations applicable to each award, including any vesting requirements, will be set forth in the related award agreement. In all events, upon the occurrence of a termination of a participant's employment without cause during the two-year period following a change in control (as defined in the Equity Incentive Plan), all of the participant's awards will become fully vested and any stock options will remain exercisable at least until the earlier of the second anniversary of the change of control or the option's expiration date.

The aggregate number of shares of common stock subject to the Equity Incentive Plan is 21,650,000 shares, which may be treasury shares or authorized but unissued shares of common stock, or a combination of the two, and all of which may be granted in the form of ISOs. New Metavante may not issue more than 5,412,500 of the shares in the form of restricted stock or restricted stock units during the term of the Equity Incentive Plan. The Equity Incentive Plan will terminate 10 years from its effective date, subject to earlier termination by New Metavante's Board as described in the Equity Incentive Plan, and no awards may be made under the Equity Incentive Plan after such date.

Stock Options. Stock options are rights to purchase a specified number of shares of common stock for a purchase price of not less than 100% of the fair market value of the common stock on the date of grant. The New Metavante compensation committee may not reduce the purchase price for New Metavante common stock pursuant to a stock option after the date of grant without the consent of New Metavante's shareholders, except in accordance with certain exceptions set forth in the Equity Incentive Plan. A stock option may be designated by the New Metavante compensation committee in the award agreement as an NSO for all participants or an ISO for employee participants. An ISO, in addition to being subject to applicable terms, conditions and limitations

Table of Contents

established by the compensation committee, must comply with Section 422 of the Code which, among other limitations, provides that the aggregate fair market value (determined at the time the option is granted) of common stock for which ISOs are exercisable for the first time by a participant during any calendar year may not exceed \$100,000; that ISOs must be priced at not less than 100% of the fair market value on the date of the grant (110% in the case of a participant who is a 10% shareholder of New Metavante within the meaning of Section 422 of the Code); and that ISOs must be exercisable for a period of not more than ten years (five years in the case of a Participant who is a 10% shareholder of New Metavante). The other restrictions and conditions relating to an option grant will be established by the New Metavante compensation committee and set forth in the award agreement.

Restricted Stock or Restricted Stock Unit Award. A restricted stock or restricted stock unit award is an award of stock, or in the case of a restricted stock unit, a bookkeeping entry granting a participant the right to a share of common stock in the future, for some or no monetary consideration, as the New Metavante compensation committee may specify, and which may contain transferability or forfeiture provisions including a requirement of future services and such other restrictions and conditions as may be established by the New Metavante compensation committee and set forth in the award agreement.

SARs. SARs or stock appreciation rights refers to a grant of the right to receive, upon exercise, the difference between the fair market value of a share of common stock on the date of exercise, and the grant value of each SAR. The grant value will not be less than 100% of the fair market value of the common stock on the date of grant, as set forth in the award agreement. The difference between the fair market value on the date of exercise and the grant value, multiplied by the number of SARs exercised (which we refer to as the spread), will be paid in shares of common stock with a fair market value equal to the spread. However, New Metavante may, in the sole discretion of the New Metavante compensation committee, elect to settle its obligation arising out of the exercise of an SAR by the payment of cash equal to the spread, or by the issuance of a combination of shares of common stock and cash, in the proportions determined by the New Metavante compensation committee, with a fair market value equal to the spread. The other restrictions and conditions of the SARs will be established by the New Metavante compensation committee and set forth in the award agreement.

Performance Units and Performance Stock. Performance stock is an award of common stock which is subject to restrictions based on the satisfaction of pre-established performance goals. A performance unit is the right to receive cash or common stock having a certain value based on the satisfaction of performance goals. The performance goals include the following (determined with respect to New Metavante, a subsidiary or a business unit): cost of sales; revenue; gross income; net income; operating income; income from continuing operations; earnings (including before taxes, and/or interest and/or depreciation and amortization); earnings per share (including diluted earnings per share); price per share; cash flow; net cash provided by operating activities; net cash provided by operating activities less net cash used in investing activities; net operating profit; ratio of debt to debt plus equity; total shareholder return; return on shareholder equity; return on capital; return on assets; operating working capital; average accounts receivable; economic value added; customer satisfaction; operating margin; profit margin; sales performance; sales quota attainment; new sales; cross/integrated sales; client engagement; client acquisition; net promoter score; internal revenue growth; and client retention. The performance goals may include a threshold level of performance below which no payment will be made (or no vesting will occur), levels of performance at which specified payments will be paid (or specified vesting will occur), and a maximum level of performance above which no additional payment will be made (or at which full vesting will occur). The performance goals applicable to a particular award of performance units or performance stock will be established by the New Metavante compensation committee and set forth in the award agreement.

Amendment or Discontinuance of the Plan. The board of directors of New Metavante may, at any time, amend or terminate the Equity Incentive Plan. However, no amendment or termination may adversely affect the rights of any participant or beneficiary under any award granted under the Equity Incentive Plan without the written consent of the affected participant prior to the date such amendment is adopted by the board of directors of New Metavante, except (1) to the extent necessary for participants to avoid becoming subject to penalties and/

Table of Contents

or interest under Section 409A of the Code or (2) for adjustments permitted under the Equity Incentive Plan. In addition, the board of directors of New Metavante may not, without further shareholder approval, adopt any amendment to the Equity Incentive Plan for which shareholder approval is required under tax, securities or any other applicable law or the listing standards of the New York Stock Exchange.

Adjustments. In the event of certain changes in the capital structure of New Metavante, the New Metavante compensation committee may make proportionate equitable adjustments to outstanding awards such that the net value of the award is not changed. Any adjustment action taken by the compensation committee will be conclusive and binding on all participants, New Metavante and their successors, assigns and beneficiaries.

Termination of Employment or Service. In the event of termination of employment or service other than as a result of death, disability or termination, a participant will generally have 90 days after termination to exercise options which were vested on the date of termination. A participant who is a non-employee director of New Metavante will generally have until the earlier of the tenth anniversary of the date of grant or the third anniversary of the termination of the participant's service as a director to exercise options which were vested on the date of termination. Unvested awards will vest upon the participant's termination of employment without cause following a change of control and options will remain exercisable at least until the earlier of (i) the second anniversary of the change of control or (ii) the option's expiration date. The compensation committee has discretion to provide the period for which, and the extent to which, options remain exercisable in the event of termination of employment resulting from death, disability or retirement. Restricted stock, restricted stock units, performance units and performance shares are generally forfeited upon termination of employment.

Tax Consequences.

The federal income tax consequences of NSOs, ISOs, restricted stock, performance stock, restricted stock units, performance units and SARs proposed to be granted under the Equity Incentive Plan are generally as follows:

NSOs. The grant of an NSO will have no federal income tax consequences to New Metavante or to a participant. A participant will recognize taxable ordinary income at the time of exercise of the NSO in an amount equal to the excess of the fair market value of the shares acquired at the time of exercise over the option price, and New Metavante will ordinarily be entitled to a deduction for such amount at such time. The holder of shares acquired upon exercise of an NSO will, upon a subsequent disposition of such shares, generally recognize a short-term or long-term capital gain or loss, depending upon the holding period of the shares, equal to the difference between the amount realized on the sale and the basis in such shares (the sum of the option price and the amount taxed as ordinary income at the time of exercise).

ISOs. Neither the grant nor exercise of an ISO will generally have any federal income tax consequences to New Metavante or to a participant. The amount by which the fair market value of the shares acquired upon the exercise of an ISO exceeds the option price as of the date of exercise, however, is an item of tax preference for purposes of computing the alternative minimum tax on individuals. If a participant has held the shares acquired on the exercise of an ISO for at least two years from the date of the grant of the ISO and at least one year from the date of exercise, the participant will recognize taxable long-term capital gain or loss upon a subsequent disposition of the shares equal to the amount, if any, realized in excess of the option price. In such circumstances, no deduction would be allowed to New Metavante for federal income tax purposes in connection with the grant or exercise of the option or the transfer of shares acquired upon such exercise. If, however, the participant disposes of his or her shares before the end of the holding periods described above, (i) the participant will recognize ordinary income in an amount equal to the difference between the fair market value of such shares on the date of exercise (or, if less, the amount realized on the disposition) and the option price; (ii) New Metavante will be entitled to a deduction for such year in the amount of the ordinary income so recognized; and (iii) the participant will recognize capital gain or loss, as the case may be, in an amount equal to the difference between the amount realized upon such sale or exchange of the shares and the sum of the option price plus the amount of ordinary income, if any, recognized upon such disposition.

Table of Contents

Restricted Stock and Performance Stock. The grant of restricted stock or performance stock is not a taxable event to a participant, absent an election under Section 83(b) of the Code. If no election is made, the participant will recognize income, taxable for employment tax purposes and for income tax purposes at ordinary rates, upon the satisfaction of the performance criteria or other restrictions governing the shares. The amount of the income will equal the fair market value of the shares when the performance criteria or the restrictions are satisfied, less any amount paid by the participant for the shares. If the participant makes a Section 83(b) election within 30 days of the date of grant, he or she will be deemed to have received ordinary income at the time of the grant of the restricted stock or performance stock equal to their fair market value at the date of grant less any amount paid by the participant for the stock, determined without regard to the restrictions or performance criteria imposed thereon. If the restricted stock or performance stock is subsequently forfeited after a Section 83(b) election and before the restrictions or performance criteria are satisfied, the participant is not entitled to claim the loss for income tax purposes. New Metavante will be entitled to a deduction for income tax purposes when the participant recognizes ordinary income, either as a result of a Section 83(b) election or because of the satisfaction of the restrictions or performance criteria. The amount of the deduction will generally equal the amount of ordinary income recognized by the participant, subject to the applicability of Section 162(m) of the Code, which limits the deductibility of compensation in excess of \$1 million paid to a named executive officer if it is not performance-based. A participant's basis for such shares will be the amount recognized as taxable compensation. A participant's holding period for such shares will begin on the day after the date the participant recognizes taxable compensation with respect to such shares.

Restricted Stock Units or Performance Units. A participant will not be deemed to have received taxable income for income tax purposes upon the grant or vesting of restricted stock units or performance units. However, upon vesting, the then fair market value of the units is subject to employment tax if the participant is an employee. The participant will recognize taxable ordinary income at such time as shares are distributed with respect to the restricted stock units or performance units in an amount equal to the fair market value of the shares or cash distributed to the participant less any cash consideration which the participant paid for the shares. Upon the distribution of shares or cash to a participant with respect to restricted stock units or performance units, New Metavante will ordinarily be entitled to a deduction for federal income tax purposes (subject to the requirements of Section 162(m) of the Code) in an amount equal to the taxable ordinary income recognized by the participant. The basis of the shares of stock received will equal the amount of taxable ordinary income recognized by the participant upon receipt of such shares plus any amount paid for the restricted stock units or performance units, and a gain or loss recognized by the participant on a subsequent disposition of any such shares will generally be capital gain or loss. A participant's holding period will commence on the day after the date the shares are distributed to the participant.

SARs. A participant will not be deemed to have received taxable income upon the grant or vesting of an SAR. Upon the exercise of an SAR, a participant generally will be deemed to have received income, taxable for federal income tax purposes at ordinary income rates, equal to the fair market value at the time of exercise of any stock received plus the amount of any cash received, and New Metavante will be entitled to a deduction for federal income tax purposes equal to the amount of ordinary income recognized by the participant as a result of such exercise. The basis of shares received upon the exercise of an SAR will equal the fair market value of the shares at the time of exercise, and a gain or loss recognized by the participant on a subsequent disposition of any such shares will generally be capital gain or loss. A participant's holding period will commence on the day after the date the participant recognizes taxable income in respect of such shares.

The foregoing summary does not contain a complete analysis of all the potential tax consequences of the types of awards proposed to be granted under the Equity Incentive Plan, including employment tax and state, local or foreign income tax consequences. This overview should not be relied upon as being a complete description of the applicable United States federal income tax consequences. In addition, this overview does not address the effect on awards proposed to be granted under the Equity Incentive Plan or guidance that may be issued by the United States Treasury under Section 409A of the Code.

Table of Contents**Historical Compensation of Executive Officers**

The following table contains compensation information with respect to the individuals who served as Metavante's chief executive officer and chief financial officer in 2006 and the three other most highly compensated individuals who were serving as executive officers of Metavante at the end of 2006. Metavante believes that these individuals will be executive officers of New Metavante upon completion of the transactions; however, these individuals will not necessarily be the most highly compensated individuals of New Metavante and, therefore, may not be the named executive officers of New Metavante in future filings made by New Metavante. Mr. Oliver, who will be New Metavante's Chief Financial Officer, will be a named executive officer in future filings. The determination of the three most highly compensated persons for purposes of the following table was based on their employment with Marshall & Ilsley Corporation for the year ended December 31, 2006. New Metavante will refer to these executive officers as the 2006 named executive officers. All of the information included in the following tables reflects compensation earned by the Metavante 2006 named executive officers for services rendered to Marshall & Ilsley and its subsidiaries. Unless the context suggests otherwise, references to common stock, restricted shares, restricted stock, restricted stock units and stock options refer to securities of Marshall & Ilsley. Amounts shown are for individuals in their positions with Marshall & Ilsley and its subsidiaries during fiscal year 2006 and do not necessarily reflect the compensation which these individuals will earn in their new capacities as executive officers of New Metavante.

Executive Vice President, President, Metavante Network Solutions Division								

Table of Contents

- (1) Mr. Martire and Mr. Hayford were named executive officers of Marshall & Ilsley in its proxy statement for the 2007 annual meeting of Marshall & Ilsley shareholders. Effective with the commencement of Mr. Oliver's employment with Metavante, which occurred on July 23, 2007, Mr. Hayford no longer serves as Chief Financial Officer of Metavante.
- (2) Salary adjustments for the executive officers generally are effective on January 1 of each year.
- (3) Represents the expense for both restricted shares and long-term incentive units recognized by Marshall & Ilsley in accordance with Financial Accounting Standard No. 123(R) (FAS 123(R)), which requires that compensation cost relating to share-based payment transactions be recognized in financial statements. The values set forth in this column represent the dollar amounts recognized in accordance with FAS 123(R) with respect to fiscal 2006, disregarding the estimate of forfeitures for service-based vesting conditions. The expense recognized by Marshall & Ilsley in accordance with FAS 123(R) may differ from the value that will eventually be realized by the 2006 named executive officers, which will be based on the market value of the common stock at the time of vesting (and, for the long-term incentive units, will also be dependent upon the performance of Marshall & Ilsley relative to the targets established by the Marshall & Ilsley compensation committee). The assumptions used to determine the FAS 123(R) values are described in Note 18 to the Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement. The expense attributable to stock awards granted in October 2006 and the expense attributable to unvested stock awards granted in prior years, respectively, for each 2006 named executive officer are as follows: Mr. Martire \$14,120 and \$276,669; Mr. Hayford \$8,796 and \$138,335; Mr. D Angelo \$7,057 and \$140,899; Mr. Danola \$7,057 and \$117,862; and Mr. Rathgaber \$2,352 and \$120,661. For a description of the treatment of restricted shares in the transactions contemplated by the investment agreement and related agreements, see The Transactions Interests of Certain Persons in the Transactions and Additional Agreements Relating to the New Marshall & Ilsley Share Distribution Employee Matters Agreement.
- (4) Represents the expense for stock options recognized by Marshall & Ilsley in accordance with FAS 123(R). The values set forth in this column represent the dollar amounts recognized in accordance with FAS 123(R) with respect to fiscal 2006, disregarding the estimate of forfeitures for service-based vesting conditions. The expense recognized by Marshall & Ilsley in accordance with FAS 123(R) may differ from the value that will eventually be realized by the 2006 named executive officers. The 2006 named executive officers will realize value in connection with the stock options only if and to the extent the price of the common stock exceeds the exercise price of the stock options at such time as the officers exercise the stock options. The assumptions used to determine the FAS 123(R) values are described in Note 18 to the Consolidated Financial Statements of Marshall & Ilsley (Accounting Predecessor to New Marshall & Ilsley) included in this proxy statement/prospectus information statement. The expense attributable to option awards granted in October 2006 and the expense attributable to unvested option awards granted in prior years, respectively, for each 2006 named executive officer are as follows: Mr. Martire \$31,799 and \$511,891; Mr. Hayford \$19,632 and \$255,159; Mr. D Angelo \$15,895 and \$255,159; Mr. Danola \$15,895 and \$241,659; and Mr. Rathgaber \$5,295 and \$64,009. For a description of the treatment of stock options in the transactions contemplated by the investment agreement and related agreements, see The Transactions Interests of Certain Persons in the Transactions and Additional Agreements Relating to the New Marshall & Ilsley Share Distribution Employee Matters Agreement.
- (5) Includes the following payments made under the Metavante Corporation Management Incentive Plan: Mr. Martire \$624,151; Mr. Hayford \$513,906; Mr. D Angelo \$415,610; Mr. Danola \$284,655; and Mr. Rathgaber \$201,250. Includes the following payments made under the Metavante Corporation Long-Term Incentive Plan: Mr. Martire \$365,225; Mr. Hayford \$219,137; Mr. D Angelo \$146,090; and Mr. Danola \$146,090. Includes the following payments made under the Metavante Corporation Acquisition Incentive Plan: Mr. Martire \$398,407; Mr. Hayford \$275,949; and Mr. D Angelo \$562,500. Includes the following payments made under the Metavante Corporation NYCE Performance Incentive Plan: Mr. Rathgaber \$375,000.

Table of Contents

- (6) Includes the following contributions by Marshall & Ilsley under the Marshall & Ilsley Retirement Program for 2006: Mr. Martire \$24,200; Mr. Hayford \$24,200; Mr. D Angelo \$24,200; Mr. Danola \$24,200; and Mr. Rathgaber \$17,600. Includes the following employer contributions into the Marshall & Ilsley Executive Deferred Compensation Plan based on compensation paid or deferred during 2006: Mr. Martire \$68,832; Mr. Hayford \$50,000; Mr. D Angelo \$42,400; Mr. Danola \$41,600; and Mr. Rathgaber \$47,711. Perquisites were provided to each of the Metavante 2006 named executive officers. These perquisites included payment of club dues (other than Mr. Rathgaber), personal financial planning and tax preparation services and personal use of company cars. In 2006, the named executive officers were allowed to reimburse Marshall & Ilsley for such perquisites at the incremental cost of such perquisites to Marshall & Ilsley to the extent that limitations on personal use were exceeded. The aggregate unreimbursed value of the perquisites provided to the Metavante 2006 named executive officers were as follows: Mr. Martire \$20,954; Mr. Hayford \$18,113; Mr. D Angelo \$27,295; Mr. Danola \$24,562; and Rathgaber \$7,743. Executive officers spouses and immediate family members may accompany them on Marshall & Ilsley aircraft using unoccupied space on flights that were already scheduled, and Marshall & Ilsley recognizes no incremental cost in connection with such use. All perquisites were valued for disclosure purposes at their incremental cost to Marshall & Ilsley in accordance with SEC regulations.

- (1) Includes incentive awards made under the Metavante Corporation Management Incentive Plan. Actual amounts paid under the Metavante Corporation Management Incentive Plan in 2006 are included in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table above.
- (2) The Marshall & Ilsley compensation committee approved the annual stock option and restricted stock awards on October 19, 2006; however, awards were granted on the date which is two weeks following the third quarter earnings announcement in October.
- (3) Includes targeted cash amounts under the Metavante Corporation Long-Term Incentive Plan for the three-year performance period from January 1, 2007 to December 31, 2009.
- (4) Restricted shares vest based on the schedules described in the footnotes to the Outstanding Equity Awards at Fiscal Year-End table below. All restricted shares will vest immediately upon a triggering event (which relates to a change of control of Marshall & Ilsley) or upon the death of the employee. Participants are paid dividends with respect to their invested restricted shares.
- (5) Options generally become exercisable based on the following schedule: one-third on the first anniversary of the date of grant, an additional one-third on the second anniversary of the date of grant and the remaining one-third on the third anniversary of the date of grant. All

options become immediately exercisable upon a change of control of Marshall & Ilsley or upon the death of the employee. Employees who have attained age 55 and have at least ten years of service with Marshall & Ilsley or a subsidiary receive options that are fully vested on the date of grant.

- (6) All options have an exercise price equal to 100% of the fair market value of the Marshall & Ilsley's common stock on the date of grant. The exercise price may be paid in cash or by delivery of shares of Marshall & Ilsley's common stock.

Table of Contents

- (7) Represents aggregate grant date value computed in accordance with FAS 123(R). The assumptions used to determine such value are described in Note 18 to the consolidated financial statements in Marshall & Ilsley's annual report on Form 10-K for the year ended December 31, 2006.

Metavante Corporation Management Incentive Plan. The Metavante Corporation Management Incentive Plan provides for annual cash incentives to the participants, which include all of the 2006 named executive officers, based upon one or more objective financial performance criteria related to Metavante. The Metavante Corporation Management Incentive Plan rewards eligible senior executives with an incentive award based on a percentage of each participant's base salary if certain performance goals are met for that year. Under the Metavante Corporation Management Incentive Plan, the named executive officers received the following payouts (expressed as a percentage of base salary): Mr. Martire, 125% of base salary; Mr. Hayford, 130% of base salary; Mr. D'Angelo, 119% of base salary, Mr. Danola, 84% of base salary; and Mr. Rathgaber 67% of base salary. New Metavante expects that, in future years, the performance criteria may differ from those used for 2006.

Metavante Corporation Long-Term Incentive Plan. Cash-based awards are made under the Metavante Corporation Long-Term Incentive Plan. The performance period is the three years commencing on January 1, 2007 and ending on December 31, 2009 for awards granted in December 2006. The award vests at the end of the three-year period except in the case of death or disability, termination of employment due to retirement or the occurrence of a triggering event (which relates to a change of control of Metavante or Marshall & Ilsley). Upon the occurrence of a triggering event, the award vests notwithstanding continued employment by Marshall & Ilsley or its subsidiaries. A payout multiple will be applied to an amount equal to the cash award made to a participant based on the performance of Metavante or Marshall & Ilsley, as the case may be, in relation to the following performance criteria: (a) Metavante's cumulative net income for the three-year period; (b) the total return of Marshall & Ilsley's common stock for the three-year period when compared with the total return for those stocks composing the KBW 50 Index; and (c) Marshall & Ilsley's cumulative earnings per share for the three-year period, adjusted for certain items. The performance of Metavante or Marshall & Ilsley, as the case may be, in relation to the performance criteria is calculated independently, which may allow a participant to receive a payout under one or more, but less than all, of the criteria. For the Metavante performance criterion, the threshold payout multiple is 12.5% and the maximum payout multiple is 137.5%. For each of the two Marshall & Ilsley performance criteria, the threshold payout multiple is 6.25% and the maximum payout multiple is 68.75%. The resulting combined maximum payout multiple is 275%. The portion of the payout, if any, based on Marshall & Ilsley's performance criteria will be adjusted based on the fluctuation in price of Marshall & Ilsley common stock over the three-year period. No payout will be made under a performance criterion for performance below threshold. Before the award is paid, the compensation committee must certify the extent to which the performance criteria have been met. For a description of the treatment of awards under the Metavante incentive plans in the transactions contemplated by the investment agreement and related agreements, see "The Transactions Interests of Certain Persons in the Transactions and Additional Agreements Relating to the New Marshall & Ilsley Share Distribution Employee Matters Agreement."

Metavante Corporation Acquisition Incentive Plan. The Metavante Corporation Acquisition Incentive Plan was established by the Marshall & Ilsley board of directors in 2004. The plan was designed to provide a cash incentive for certain of the named executive officers of Metavante, including Messrs, Martire, Hayford, D'Angelo, and Danola. The plan was designed to assist the company in achieving and exceeding financial targets related to the performance of companies acquired in 2004. The 30-month plan (June 30, 2004-December 31, 2006) included annual and cumulative performance targets and payouts. The plan included a company-level performance threshold set at 100% of target and division level performance thresholds set at 90% of target. Payouts under the plan ranged from 0% to 300% of target.

NYCE Performance Incentive Plan. A cash-based incentive plan was established in 2005 to retain key executive officers from the acquisition of NYCE Corporation. The performance period is three years (January 1, 2005-December 31, 2007). Mr. Rathgaber and one other NYCE executive officer participate in this plan. Performance criteria are annual net income after financing and purchase price amortization for 2005, 2006 and

Table of Contents

2007, and the cumulative three-year period. Each of these factors is weighted at 25% of the target opportunity. The plan guarantees a minimum payout of 50% of target, consistent with retention objectives and has a maximum payout opportunity of 250% of target, based on 120% goal attainment. Results of the 2005 and 2006 annual components exceeded plan, and it is expected that the 2007 results will be at or above target achievement, resulting in the cumulative three-year performance above plan. The targets are intended to be realistic enough to be reasonably attainable given a maximum effort on the part of the named executive officers in consideration of conditions and trends.

Steven A. Rathgaber		25,214	31,236		468,296

- (1) For Mr. Martire, all executive contributions and contributions by Marshall & Ilsley have been reported in the Summary Compensation Table to the Marshall & Ilsley proxy statement in either current or prior years. For Messrs. Hayford, D Angelo, Danola and Rathgaber, none of whom were named executive officers of Marshall & Ilsley in prior years, each executive's contributions are reflected in the current year Summary Compensation Table above. Marshall & Ilsley's contributions for Messrs. Hayford, D Angelo, Danola and Rathgaber are not shown in the Summary Compensation Table above and have not been shown in Marshall & Ilsley's prior years' annual meeting proxy statements because the contributions relate to compensation earned by Messrs. Hayford, D Angelo, Danola and Rathgaber in 2005.
- (2) Executives who elect to defer base salary or non-equity incentive payments or who receive employer contributions under the Marshall & Ilsley Deferred Compensation Plan, as described below, may choose from two investment options: a fixed rate option equal to the Moody's A Long-Term Corporate Bond Rate for the month of September of the previous year and an equity option equal to the total return of the S&P 500 Index. The Moody's rate for 2006 was 5.50%, and the individual earnings for the Moody's investment were as follows: Mr. Martire \$96,616; Mr. Hayford \$34,422; Mr. D Angelo \$64,501; Mr. Danola \$32,743; and Mr. Rathgaber \$1,235. To the extent an executive elected to defer the receipt of restricted shares, the sole investment choice was Marshall & Ilsley common stock. The individual earnings based on the return of Marshall & Ilsley stock were as follows: Mr. Martire \$139,353; Mr. Hayford \$23,313; Mr. D Angelo \$23,313; and Mr. Danola \$56,470. The fiscal 2006 earnings on Mr. Rathgaber's supplemental retirement account under the NYCE Corporation Supplemental Executive Retirement Plan were \$30,001. As discussed below, amounts held in participants' accounts under the NYCE Corporation Supplemental Executive Retirement Plan are managed by M&I Trust and are invested in various stocks, bonds and other investment vehicles as determined by the fund manager, in a manner consistent with Marshall & Ilsley's treatment of other plans of a similar nature. Participants' accounts are credited with earnings at the actual rate of return on those investments. For a description of the effect of the transactions contemplated by the investment agreement and related agreements on the deferred compensation plans, see The Transactions-Interests of Certain Persons in the Transactions and Additional Agreements Relating to the New Marshall & Ilsley Share Distribution-Employee Matters Agreement.
- (3) Amounts in this column reflect deferrals and earnings under Marshall & Ilsley's deferred compensation plans, beginning in 1997 and through December 31, 2006. Disclosure of aggregate earnings under nonqualified deferred compensation plans was not previously required. Therefore, the following amounts have not been reported in the Summary Compensation Table of Marshall & Ilsley's proxy statement in either the current or prior years: Mr. Martire \$380,875; Mr. Hayford \$767,417; Mr. D Angelo \$1,242,891; Mr. Danola \$878,528; and Mr. Rathgaber \$468,296. The amounts stated for Mr. Martire, who was a named executive officer of Marshall & Ilsley in prior years, represent the aggregate earnings under the plan since inception.
- The 2005 Marshall & Ilsley Corporation Executive Deferred Compensation Plan (the Marshall & Ilsley Deferred Compensation Plan) provides selected key employees, including the Metavante 2006 named executive officers, with the ability to defer up to 80% of base salary and 100% of bonus. Those employees electing to

Table of Contents

participants have two investment options for amounts deferred: a fixed rate option equal to the Moody's A Long-Term Corporate Bond Rate for the month of September of the previous year and an equity option equal to the total return of the S&P 500 Index. The percentage allocated to any investment option may not be less than 10% and elections may be changed semi-annually. The Marshall & Ilesley Deferred Compensation Plan also allows participants to defer the receipt of restricted shares and shares issued upon the exercise of stock options. However, participants are not entitled to defer shares issued upon exercise of stock options until such time as the administrator of the Marshall & Ilesley Deferred Compensation Plan determines that such a deferral is permissible under Section 409A of the Internal Revenue Code. Amounts deferred are distributable upon termination of employment at the election of the participant.

The distribution election choices under the Marshall & Ilesley Deferred Compensation Plan range from lump sum distribution to a pay-out over 15 years if a participant's employment terminates on or after age 55, other than because of death or disability, with at least 10 years of service. For future plan year deferrals, distribution election choices may change, but only those distribution methods permitted under Section 409A of the Internal Revenue Code will be allowed. Amounts deferred and investment returns thereon are held in the Marshall & Ilesley Corporation Deferred Compensation Trust II of which Marshall & Ilesley Trust Company National Association is the trustee (the Trust). In addition to participant-directed deferrals, the Marshall & Ilesley compensation committee may require deferrals of any amount necessary to ensure the deductibility of compensation paid to a named executive officer under federal income tax law. Participants in the Marshall & Ilesley Deferred Compensation Plan are also eligible to receive an employer contribution equal to the amount that would have been allocated to such participant's account under the Marshall & Ilesley Retirement Growth Plan absent statutory limitations on compensation. This contribution is credited to an account which vests after an employee has five years of vesting service (as defined in Marshall & Ilesley's Retirement Growth Plan). Participants have the same investment and pay-out elections with respect to these accounts as with other accounts in the Marshall & Ilesley Deferred Compensation Plan, and amounts credited are held in the Trust. To the extent participants do not receive matching amounts under Marshall & Ilesley's qualified retirement plan due to deferrals that reduce their taxable compensation below the qualified plan limits, participants receive a makeup matching amount under the Marshall & Ilesley Deferred Compensation Plan.

The NYCE Corporation Supplemental Executive Retirement Plan (the NYCE SERP) is a defined-contribution supplemental retirement plan that was in place with respect to Mr. Rathgaber due to his employment with NYCE Corporation. The NYCE SERP was frozen upon Metavante's acquisition of NYCE and the assets are currently being held by M&I Trust. The plan provides Mr. Rathgaber with a supplemental retirement benefit and Mr. Rathgaber was 100% vested prior to his employment with Metavante. The purpose of the NYCE SERP, which has not been an active plan since December 2004, was to help NYCE Corporation (now known as NYCE Payments Network, LLC) attract and retain key employees by providing them with a highly competitive retirement package. Participation in the NYCE SERP was limited to key employees of NYCE. Amounts held in participants' accounts under the plan are managed by M&I Trust and are invested in various stocks, bonds and other investment vehicles as determined by the fund manager, in a manner consistent with Marshall & Ilesley's treatment of other plans of a similar nature. Participants' accounts are credited with earnings at the actual rate of return on those investments. Mr. Rathgaber is entitled to a benefit equal to his vested account balance, determined as of the date of termination of employment for any reason, including resignation, retirement, death or total and permanent disability, increased by earnings credited to his account as of the date benefits are paid. At December 31, 2006, Mr. Rathgaber's account balance was \$441,847.

Table of Contents**Potential Payments Upon Termination or Change of Control**

Termination Payments. Prior to the transactions, except for Mr. Rathgaber, none of the Metavante 2006 executive officers had employment agreements. Marshall & Ilsley did not have a written policy regarding the payments and benefits that executive officers would be eligible for upon termination by Marshall & Ilsley without cause or upon a termination that is mutually agreed upon by the company and the executive. Based on Marshall & Ilsley's past practice, in the event of terminations that have been mutually agreed upon by the company and executive, certain executive officers have received up to two times base salary and target annual incentive opportunity, employer-subsidized health and dental insurance for the 24-month period, and have been given their company-owned automobile. In exchange for such payments and benefits, the named executive officer terminating employment has generally agreed to provide certain transition services and to release Marshall & Ilsley from certain potential legal liabilities, and has agreed to non-compete provisions. If the Metavante 2006 named executive officers (other than Mr. Rathgaber) had terminated employment pursuant to a mutually agreed upon arrangement on December 31, 2006, assuming Marshall & Ilsley were to follow its past practice with respect to the payments and benefits described above, the maximum value of the payments and benefits received by the Metavante 2006 named executive officers would have been as follows: Mr. Martire \$1,963,000; Mr. Hayford \$1,621,000; Mr. D'Angelo \$1,394,000; and Mr. Danola \$1,342,000. These amounts do not include the value of other miscellaneous benefits that have been provided in certain situations in the past and may be made in the future to executive officers upon a termination of their employment, depending upon the circumstances of the individual executive officer and of his or her termination. In certain past situations, these have included payments for such items as outplacement services, legal fees and tax preparation services.

In 2005, Mr. Rathgaber entered into an employment agreement with Metavante, in connection with Metavante's acquisition of NYCE Corporation. Mr. Rathgaber received a lump sum amount in exchange for waiving certain rights under other agreements he had in place with NYCE Corporation. The employment agreement with Metavante provides that Mr. Rathgaber's current salary and short-term incentive targets will not be reduced for 2005, 2006 or 2007, and provides that Mr. Rathgaber is eligible to participate in various incentive and benefit plans on terms consistent with his peer senior managers. The agreement provides that either party may terminate the agreement at any time for any reason. Upon involuntary termination due to position elimination, reduction-in-force or for any other reason (except gross misconduct), Mr. Rathgaber is entitled to a severance benefit equal to 18 months of his current base salary at the time of termination and continuation of health and dental insurance on then-current terms, as well as a prorated portion of his incentive payment under the management incentive plan for service in the calendar year in which the termination occurred (which incentive payment has a minimum guarantee of \$100,000 for each calendar year). Mr. Rathgaber's receipt of the severance benefit is in lieu of any benefits under the provisions of other existing policies at the time of termination, and is subject to reduction if Mr. Rathgaber accepts other employment with Marshall & Ilsley or any of its subsidiaries before the end of the 18-month severance period. If Mr. Rathgaber's employment had terminated on December 31, 2006, he would have received \$794,000 under the employment agreement.

Employment Agreements. As discussed above, Mr. Rathgaber is party to an employment agreement with Metavante. New Metavante expects to enter into employment agreements with Messrs. Martire, Hayford, D'Angelo and Layden, effective as of the closing of the transactions. See "The Transactions - Interests of Certain Persons in the Transactions - Employment Agreements."

Stock Option and Restricted Stock Plans. Under Marshall & Ilsley's 1997, 2000 and 2003 Executive Stock Option and Restricted Stock Plans and the 2006 Equity Incentive Plan (the "plans"), in the event of a change of control of Marshall & Ilsley (as defined in the plans), all outstanding stock options and restricted shares become fully vested. In the event of normal retirement (defined as age 65) or early retirement (generally defined as age 55 with at least 10 years of service), the Marshall & Ilsley compensation committee's past practice has been to accelerate the vesting of any outstanding restricted shares as of the date of such retirement. In the event of the death of an executive officer, all outstanding stock options and restricted shares become fully vested. In the event of the executive officer's disability, the period of disability is treated as continuing employment for purposes of

Table of Contents

the plans. The value to each Metavante 2006 named executive officer of the accelerated vesting of any unvested options and restricted shares had any of these situations occurred on December 31, 2006 (based on a year-end per share stock price for Marshall & Ilsley common stock of \$48.11) would have been as follows: Mr. Martire \$1,425,473; Mr. Hayford \$752,712; Mr. D Angelo \$712,736; Mr. Danola \$672,320; and Mr. Rathgaber \$645,710.

Metavante Long-Term Incentive Plan. Under the Metavante Long-Term Incentive Plan (the Metavante LTIP), in the event of a change of control of Marshall & Ilsley or Metavante (as defined in the Metavante LTIP), the executive is entitled to a payout of any outstanding awards based on the attainment of the performance criteria on the date the change of control occurs, unless the Marshall & Ilsley compensation committee provides otherwise at the time an award is made. In the event of normal retirement (defined as age 65) or the death of the executive officer, the executive (or the executive's beneficiary) may continue to participate in the Metavante LTIP as to outstanding awards for the duration of the performance period. Likewise, in the event of early retirement (generally defined as age 55 with at least 10 years of service), if the Marshall & Ilsley compensation committee were to act in a manner consistent with its past practice regarding the Metavante LTIP, the executive would be allowed to continue to participate in the Metavante LTIP as to outstanding awards for the duration of the performance period. In the event of the executive officer's disability, the period of disability is treated as continuing employment for purposes of the Metavante LTIP. The value to each participating named executive officer of accelerated vesting or continued participation in the Metavante LTIP for the duration of each applicable plan period had any of these situations occurred on December 31, 2006 (based on target performance) would have been as follows: Mr. Martire \$850,000; Mr. Hayford \$500,000; Mr. D Angelo \$450,000; and Mr. Danola \$450,000.

NYCE Performance Incentive Plan. A cash-based incentive plan was established in 2005 to retain key executive officers from the acquisition of NYCE Corporation. The performance period is three years (January 1, 2005-December 31, 2007). Mr. Rathgaber and one other NYCE executive officer participate in this plan. Performance criteria are annual net income after financing and purchase price amortization for 2005, 2006 and 2007, and the cumulative three-year period. Each of these factors is weighted at 25% of the target opportunity. The plan guarantees a minimum payout of 50% of target, consistent with retention objectives and has a maximum payout opportunity of 250% of target, based on 120% goal attainment. Results of the 2005 and 2006 annual components exceeded plan, and it is expected that the 2007 results will be at or above target achievement, resulting in the cumulative three-year performance above plan. The targets are intended to be realistic enough to be reasonably attainable given a maximum effort on the part of the named executive officers in consideration of conditions and trends. The value to Mr. Rathgaber of payments under the NYCE Performance Incentive Plan had his employment terminated on December 31, 2006 (based on target performance) would have been \$300,000.

Change of Control Agreements and Related Matters. In order to assure management continuity and stability, Marshall & Ilsley and Metavante have entered into change of control agreements (the Marshall & Ilsley change of control agreements and Metavante change of control agreements, respectively) with certain executive officers, including Messrs. Martire, Hayford, D Angelo and Danola. The change of control agreements with these executive officers are substantially similar and vary in term from three to four years. Messrs. Martire, Hayford, D Angelo and Danola have entered into both a Marshall & Ilsley change of control agreement and a Metavante change of control agreement.

The Marshall & Ilsley change of control agreements guarantee the executive officers specific payments and benefits upon a termination of employment as a result of a change of control of Marshall & Ilsley. If a change of control occurs, the contract becomes effective and continues for the relevant term. The employment term renews on a daily basis until Marshall & Ilsley gives notice to terminate the daily renewal.

The Marshall & Ilsley change of control agreements provide for specified benefits if, after a change of control of Marshall & Ilsley occurs, the executive officer voluntarily terminates his employment for good

Table of Contents

reason or is involuntarily terminated other than for cause (as such terms are defined in the Marshall & Ilsley change of control agreements). In addition, in the case of some Marshall & Ilsley change of control agreements, at the end of six months after a change of control, the named executive officer may terminate employment for any reason and is entitled to receive full benefits. Upon a termination, the executive officer is entitled to (a) a lump sum payment equal to two or three times (depending on whether the contract is a two- or three-year contract) the sum of the executive officer's current base salary plus the higher of the executive officer's bonus for the last year or the executive officer's average bonus for the past three years, (b) a proportionate amount of any unpaid bonus deemed earned for the year of termination, (c) a lump sum payment equal to the retirement benefits lost as a result of not having been employed for the remaining contract term, (d) health and other benefits for the remaining contract term, and (e) payments for certain other fringe benefits. In the event of a termination of employment as a result of the executive officer's death, the executive officer's beneficiary is entitled to six months of base salary and certain other benefits. No additional benefits are guaranteed under the contract upon an executive officer's disability or termination of employment by Marshall & Ilsley for cause.

Under the Marshall & Ilsley change of control agreements, if the executive officer voluntarily terminates his employment for good reason or his employment is involuntarily terminated other than for cause following a change of control, options held by the named executive officers will remain exercisable for the lesser of (a) the remainder of their respective terms or (b) one year after the named executive officer's death. The Marshall & Ilsley change of control agreements also provide for gross-up payments in the event payments to an executive under the Marshall & Ilsley change of control agreement are subject to the excise tax (the excise tax) provided for under Section 4999 of the Code, or any similar federal, state or local tax which may be imposed, in an amount such that the net amount retained by the named executive officer, after deduction of any excise tax on the payments and any federal, state and local income tax and excise tax on the gross-up payment, shall be equal to the payments then due.

If a Metavante 2006 named executive officer had been terminated as of December 31, 2006, either voluntarily with good reason or involuntarily without cause following a change of control of Marshall & Ilsley, the maximum value of the payments and benefits payable to such named executive officer under these agreements (including the maximum 280G gross-up as applicable, calculated using a 61.9% combined federal and state tax rate) would have been as follows: Mr. Martire \$5,989,227; Mr. Hayford \$2,998,742; Mr. D'Angelo \$2,747,014; and Mr. Danola \$2,695,159. These amounts do not include the value of stock options, restricted shares or LTIP performance awards that would vest upon a change of control, regardless of whether the executive's employment terminated. These amounts are not representative of the payments that are anticipated to be received under the New Metavante employment agreements or change of control agreements.

The holding company merger and the other transactions contemplated by the investment agreement, separation agreement and other related agreements will not constitute a change of control of Marshall & Ilsley under the Marshall & Ilsley change of control agreements and will not trigger change of control payments to Messrs. Martire, Hayford, D'Angelo and Danola. See The Transactions Interests of Certain Persons in the Transactions.

In addition, Marshall & Ilsley and Metavante have entered into the Metavante change of control agreements, which are substantially similar to the Marshall & Ilsley change of control agreements, with Messrs. Martire, Hayford, D'Angelo and Danola. As mentioned above, Messrs. Martire, Hayford, D'Angelo and Danola are also covered under Marshall & Ilsley change of control agreements. The Metavante change of control agreements are triggered upon a change of control of Metavante, rather than Marshall & Ilsley. In no event will payments be made or benefits be paid to the Metavante employees under both agreements. The Metavante change of control agreements provide for specified benefits if a change of control of Metavante occurs and an employee voluntarily terminates employment for good reason, or is involuntarily terminated other than for cause (as such terms are defined in the Metavante change of control agreements), within a four-year period for Mr. Martire, and a three-year period for Messrs. Hayford, D'Angelo and Danola following the change of control. In these events, the employee is entitled to substantially the same compensation as described above under the Marshall & Ilsley

Table of Contents

change of control agreements, including an excise tax gross-up payment. The treatment of an employee under the Metavante change of control agreements in the event of termination of employment because of the executive's death, the executive's disability or termination for cause is the same as under the Marshall & Ilsley change of control agreements.

If a Metavante executive officer who was party to a Metavante change of control agreement had been terminated as of December 31, 2006, either voluntarily with good reason or involuntarily without cause following a change of control of Metavante, the maximum value of the payments and benefits payable to such executive officer under these agreements (including the maximum 280G gross-up as applicable, calculated using a 61.9% combined federal and state tax rate) would have been as follows: Mr. Martire \$5,989,227; Mr. Hayford \$2,998,742; Mr. D'Angelo \$2,747,014; and Mr. Danola \$2,695,159. These amounts do not include the value of stock options, restricted shares or LTIP performance awards that would vest upon a change of control, regardless of whether the executive's employment terminated.

The holding company merger and the other transactions contemplated by the investment agreement, separation agreement and other related agreements will not constitute a change of control of Metavante under the Metavante change of control agreements and will not trigger change of control payments to Messrs. Martire, Hayford, D'Angelo and Danola. See "The Transactions - Interests of Certain Persons in the Transactions."

New Metavante expects to enter into change of control agreements with certain of its executive officers and employees, including all members of its executive committee, effective as of the closing of the transactions. See "The Transactions - Interests of Certain Persons in the Transactions - Change of Control Agreements and Related Matters."

Supplemental Retirement Benefit. The NYCE Corporation Supplemental Executive Retirement Plan (the "NYCE SERP") is a defined-contribution supplemental retirement plan that was in place with respect to Mr. Rathgaber due to his employment with NYCE Corporation. The NYCE SERP was frozen upon Metavante's acquisition of NYCE and the assets are currently being held by M&I Trust. The plan provides Mr. Rathgaber with a supplemental retirement benefit and Mr. Rathgaber was 100% vested prior to his employment with Metavante. The purpose of the NYCE SERP, which has not been an active plan since December 2004, was to help NYCE Corporation (now known as NYCE Payments Network, LLC) attract and retain key employees by providing them with a highly competitive retirement package. Participation in the NYCE SERP was limited to key employees of NYCE. Amounts held in participants' accounts under the plan are managed by M&I Trust and are invested in various stocks, bonds and other investment vehicles as determined by the fund manager, in a manner consistent with Marshall & Ilsley's treatment of other plans of a similar nature. Participants' accounts are credited with earnings at the actual rate of return on those investments. Mr. Rathgaber is entitled to a benefit equal to his vested account balance, determined as of the date of termination of employment for any reason, including resignation, retirement, death or total and permanent disability, increased by earnings credited to his account as of the date benefits are paid. At December 31, 2006, Mr. Rathgaber's account balance was \$441,847.

Table of Contents

Director Compensation for 2006

No fees were paid to Metavante directors in 2006 for service on the Metavante board of directors.

New Metavante Director Compensation

After the completion of the transactions, New Metavante expects that each director that is not an employee of Metavante or a director designated by Investor will receive cash compensation for service on the New Metavante board of directors and committees of its board of directors consisting of:

an annual retainer; and

fees for each meeting of the New Metavante board of directors and each meeting of the New Metavante audit committee, compensation committee and nominating committee attended.

Additionally, New Metavante expects that the chairman of each of the New Metavante audit committee, compensation committee (except to the extent that person is designated by Investor) and nominating committee will receive an additional amount per meeting attended.

Employee directors and directors appointed by Investor will receive no compensation for serving on the New Metavante board of directors or its committees.

New Metavante expects that directors of New Metavante who are not employees of New Metavante or its subsidiaries or who are not directors designated by Investor will also participate in New Metavante stock option plans on terms to be determined. See Compensation of Executive Officers of New Metavante New Metavante Equity Incentive Plan.

Table of Contents**OWNERSHIP OF COMMON STOCK OF NEW METAVANTE**

The following table sets forth the anticipated beneficial ownership of New Metavante common stock immediately following the transactions by each of New Metavante's directors and named executive officers, each person who will be a beneficial owner of 5% or more of New Metavante's outstanding shares of common stock and all directors and executive officers as a group, based upon information available to us concerning ownership of Marshall & Ilsley common stock on August 31, 2007 (unless another date is indicated). Unless otherwise indicated, the mailing address of each of these persons is c/o Metavante Corporation, 4900 West Brown Deer Road, Milwaukee, Wisconsin 53223. As used in this proxy statement/prospectus information statement, beneficial ownership means that a person has, or may have within 60 days, the sole or shared power to vote or direct the voting of a security and/or the sole or shared investment power with respect to a security (i.e., the power to dispose or direct the disposition of a security).

Pursuant to the employee matters agreement, each option to purchase shares of Marshall & Ilsley common stock held by Metavante group employees that are outstanding as of the time of the distributions will convert into options to purchase New Metavante common stock. Each outstanding option to purchase Marshall & Ilsley common stock held by an individual who, immediately following the separation, is a director of New Metavante and either a Marshall & Ilsley or New Marshall & Ilsley employee or a director of New Marshall & Ilsley shall be converted into both a New Marshall & Ilsley option and a New Metavante option. The number of shares subject to the options to purchase shares of New Marshall & Ilsley or New Metavante, as the case may be, and the per share exercise price of such options will be fixed in a way that maintains the intrinsic value of the option to purchase Marshall & Ilsley common stock and does not increase the ratio of the per share exercise price of the related Marshall & Ilsley option to the value of one share of Marshall & Ilsley common stock on the closing date. The following table reflects options beneficially owned on August 31, 2007 without giving effect to any adjustment pursuant to the employee matters agreement. See "The Transactions" Interests of Certain Persons in the Transactions for a discussion of the treatment of shares of restricted stock in connection with the consummation of the transactions.

In the following table New Metavante Shares to be Owned was calculated by multiplying each individual's beneficial ownership of Marshall & Ilsley shares (excluding options) by one-third. The footnotes also reflect such conversion.

Name	New Metavante Shares to be Owned(1)	Marshall & Ilsley Options Beneficially Owned Subject to Conversion(1)	Percent of Class

(1) Except as otherwise indicated, all shares shown in the table are owned with sole voting and investment power.

Table of Contents

- (2) Includes 277 shares held in the M&I employee stock purchase plan, 265 shares held in the M&I retirement program and 1,302 shares held under Marshall & Ilsley's deferred compensation plan for executives.
- (3) Includes 141 shares held in the M&I retirement program and 3,153 shares held under Marshall & Ilsley's deferred compensation plan for executives.
- (4) Includes 1,134 shares held in the M&I retirement program and 1,302 shares held under Marshall & Ilsley's deferred compensation plan for executives.
- (5) Includes 16,667 shares held in trust for which Mr. Kellner exercises shared voting power, 42,400 shares as to which Mr. Kellner exercises sole voting power and 3,010 shares held under Marshall & Ilsley's deferred compensation plan for directors. Of the shares of common stock beneficially owned by Mr. Kellner, 16,667 shares are pledged as security.
- (6) Includes 2,912 shares held in a donor-advised charitable foundation, 268 shares held in the M&I retirement program, and 31,233 shares held under Marshall & Ilsley's deferred compensation plan for executives.
- (7) Includes 149 shares held in the M&I retirement program and 9,949 shares held under Marshall & Ilsley's deferred compensation plan for executives.
- (8) Includes 86 shares held in the M&I employee stock purchase plan.
- (9) Includes 1,707 shares held in the M&I employee stock purchase plan, 6,865 shares held in the M&I retirement program, and 56,693 shares held under Marshall & Ilsley's deferred compensation plans for executives and directors.
- (10) For purposes of the Percent of Class calculation, the amount set forth above assumes that the Marshall & Ilsley options listed above are exercised and the underlying shares are issued prior to the completion of the transactions.
- (11) As a result of the New Metavante share issuance, WPM, L.P. will be issued shares of New Metavante Class A common stock, which will be converted into shares of New Metavante common stock as a result of the conversion and will represent, immediately following the conversion, 25% of the shares of New Metavante common stock. Investor will also receive a stock purchase right to purchase up to one third of the aggregate number of shares of New Metavante common stock that may be issued under specified New Metavante employee options outstanding at the time of the conversion, which stock purchase right may generally be exercised quarterly for a number of shares based on the number of subject New Metavante employee options exercised during the preceding quarter.

Table of Contents**DESCRIPTION OF NEW METAVANTE CAPITAL STOCK****Overview**

The following is a description of the New Metavante restated articles of incorporation and amended and restated by-laws which will become effective prior to the holding company merger. The following descriptions of New Metavante capital stock and provisions of the New Metavante restated articles of incorporation and amended and restated by-laws are summaries of their material terms and provisions and are qualified by reference to the New Metavante restated articles of incorporation and amended and restated by-laws, which are attached or incorporated by reference to this proxy statement/prospectus information statement. The descriptions do not purport to be complete statements of the provisions of New Metavante's restated articles of incorporation and amended and restated by-laws. You must read those documents for complete information on the terms of New Metavante's capital stock. The descriptions reflect changes to the capital structure, articles of incorporation and amended and restated by-laws that will be in effect prior to the holding company merger.

Authorized Capital Stock

Immediately following the holding company merger, New Metavante's authorized capital stock will consist of 200,000,000 shares of common stock, par value \$0.01 per share, 100,000,000 shares of Class A common stock, par value \$0.01 per share, and 5,000,000 shares of preferred stock, par value \$0.01 per share. On the record date for the Marshall & Ilsley special meeting, 266,839,811 shares of Marshall & Ilsley common stock were outstanding. If the same number of shares of Marshall & Ilsley common stock are outstanding as of the closing date, approximately 88,946,604 shares of New Metavante common stock will be outstanding immediately following the holding company merger and the New Metavante share issuance.

Common Stock

Voting Rights. Holders of New Metavante common stock will be entitled to one vote per share on all matters to be voted on by shareholders, except to the extent that the voting power of shares held by any person in excess of 20% of the voting power in the election of directors may be limited (in voting on any matter) to one-tenth of the full voting power of those shares under Section 180.1150 of the WBCL. Holders of New Metavante common stock will not be entitled to cumulative voting rights. The WBCL and the New Metavante amended and restated by-laws will require a plurality of all votes cast at a meeting at which a quorum is present to elect directors. For most other shareholder votes, the WBCL and the New Metavante amended and restated by-laws will provide that an action is approved if the votes cast in favor of the action exceed the votes cast opposing the action at a meeting at which a quorum is present, unless the New Metavante restated articles of incorporation or the WBCL provide otherwise.

Dividends. Holders of New Metavante common stock will be entitled to receive dividends when, as and if declared by the New Metavante board of directors out of funds legally available for payment of dividends, subject to any preferential rights of any outstanding preferred stock.

Liquidation. In the event of the liquidation or dissolution of New Metavante, the holders of New Metavante common stock will be entitled to share ratably in all assets remaining for distribution to shareholders, subject to any preferential rights of any outstanding preferred stock.

Other Rights. Except as set forth in any written agreement between New Metavante and any such holder, holders of New Metavante common stock will have no preemptive or other subscription rights, and the shares of common stock will not be subject to further calls or assessment by New Metavante. There will be no conversion rights, other than the conversion of the Class A common stock in connection with the transactions (see Class A common stock), or sinking fund provisions applicable to the shares of New Metavante common stock.

Listing. New Metavante intends to file an application to have its common stock authorized for listing on the New York Stock Exchange under the symbol MV. Continental Stock Transfer & Trust Company will serve as the transfer agent and registrar for New Metavante's common stock.

Table of Contents

Class A Common Stock

Pursuant to the New Metavante share issuance and to facilitate the structure of the transactions, shares of New Metavante Class A common stock will be issued to Investor and will be outstanding for only one day, the closing date. At 12:01 a.m. Eastern Standard Time on the day following the closing date, each outstanding share of New Metavante Class A common stock will automatically convert into one share of New Metavante common stock. At this time, the rights of any holder with respect to shares of converted New Metavante Class A common stock will cease and such holder will be deemed to have become the holder of an equivalent number of shares of New Metavante common stock. As a result of the conversion, Investor and its affiliates will own 25% of the shares of common stock of New Metavante immediately following the conversion.

Holders of New Metavante Class A common stock cannot vote on any matter or participate in any dividend or other distribution payable with respect to the New Metavante common stock. Otherwise, all shares of common stock and New Metavante Class A common stock will be identical and will entitle the holders thereof to the same rights and privileges.

Preferred Stock

The New Metavante restated articles of incorporation will provide that the New Metavante board of directors has the authority, without further vote or action by the New Metavante shareholders, to issue up to 5,000,000 shares of New Metavante preferred stock in one or more series, and with respect to any series, the New Metavante board of directors, subject to certain limitations, will be authorized to:

fix the number of shares;

designate any series and the number of shares which shall constitute the series;

determine voting rights;

determine dividend rates, payment dates and whether dividends shall be cumulative;

determine the proper amount per share payable on the shares of each series in the event of liquidation or dissolution or winding up of New Metavante;

determine any redemption provisions;

determine any sinking fund provisions;

determine any conversion provisions; and

determine any other terms, limitations and relative rights and preferences of the series as may lawfully be determined by the board of directors and will not be inconsistent with New Metavante's restated articles of incorporation and the WBCL.

Shares of New Metavante preferred stock that are converted, redeemed, repurchased or otherwise acquired by New Metavante will be returned and restored to the status of authorized but unissued shares.

The issuance of shares of New Metavante preferred stock, or the issuance of rights to purchase shares of preferred stock, could be used to discourage an unsolicited acquisition proposal. See Wisconsin Law and Certain Articles of Incorporation and By-Laws Provisions;

Anti-Takeover Measures. In addition, under some circumstances, the issuance of preferred stock could adversely affect the voting power of holders of New Metavante common stock.

Immediately following the transactions, no shares of New Metavante preferred stock will be outstanding and New Metavante has no present plans to issue any shares of its preferred stock.

Table of Contents

WISCONSIN LAW AND CERTAIN ARTICLES OF INCORPORATION AND BY-LAWS PROVISIONS;

ANTI-TAKEOVER MEASURES

Overview

The following is a description of the New Metavante restated articles of incorporation and amended and restated by-laws which will become effective prior to the holding company merger. The following descriptions of New Metavante capital stock and provisions of the New Metavante restated articles of incorporation and amended and restated by-laws are summaries of their material terms and provisions and are qualified by reference to the New Metavante restated articles of incorporation and amended and restated by-laws, which are attached or incorporated by reference to this proxy statement/prospectus information statement. The descriptions do not purport to be complete statements of the provisions of New Metavante's restated articles of incorporation and amended and restated by-laws. You must read those documents for complete information on the terms of New Metavante's capital stock. The descriptions reflect changes to the capital structure, articles of incorporation and amended and restated by-laws that will be in effect prior to the holding company merger.

A number of provisions in the New Metavante restated articles of incorporation and amended and restated by-laws and under the WBCL may delay or make more difficult acquisitions or changes of control of New Metavante not approved by the board of directors. These provisions may also make it more difficult for third parties to replace New Metavante's initial management without the concurrence of the board of directors. All of these provisions could have the effect of discouraging third parties from making proposals that shareholders may otherwise consider to be in their best interests, including tender offers or attempts that might allow shareholders to receive premiums over the market price of their common stock.

These provisions are intended to:

enhance the likelihood of continuity and stability in the composition of the New Metavante board of directors;

discourage some types of transactions that may involve an actual or threatened change in control of New Metavante;

discourage certain tactics that may be used in proxy fights;

ensure that the New Metavante board of directors will have sufficient time to act in what the New Metavante board of directors believes to be in the best interests of New Metavante and its shareholders; and

encourage persons seeking to acquire control of New Metavante to consult first with the New Metavante board of directors to negotiate the terms of any proposed business combination or offer.

Size of Board of Directors

The New Metavante restated articles of incorporation and amended and restated by-laws will provide that the board of directors will consist of not less than three directors (exclusive of directors, if any, elected by the holders of one or more classes or series of preferred stock pursuant to the restated articles of incorporation applicable thereto), the exact number of which may be established within such limits by resolution adopted by an affirmative vote of a majority of the entire board of directors then in office; however, under the terms of the shareholder's agreement the board of directors will be required to consist of eleven directors.

Table of Contents

Pursuant to the shareholders agreement, following the 2008 annual meeting of shareholders and for no more than ten years after the closing date, Investor will have the right to designate for nomination to the New Metavante board of directors the number of individuals set forth opposite the applicable percentage or amount:

Ownership Percentage	Number of Investor Designees
17.5% or greater	three individuals
less than 17.5%, but equal to or greater than 7.5%	two individuals
less than 7.5%, but the fair market value of New Metavante common stock by the Investor Group equals or exceeds \$150 million	one individual

Until the earlier of the tenth anniversary of the closing date, the termination of the shareholders agreement and the date on which the ownership percentage of the Investor Group is less than 7.5% and the fair market value of the shares of the Investor Group is less than \$150 million, the Investor designees will have the right to designate for nomination or appointment to the New Metavante board of directors the individual to replace any Investor designee upon his or her death, resignation, retirement, disqualification or removal (other than removal for cause) so long as Investor has the right to designate such a member of the New Metavante board of directors under the ownership percentages described above.

These provisions have the effect of making it difficult for a potential acquirer to gain control of the New Metavante board of directors.

Removal of Directors; Filling Vacancies

The New Metavante restated articles of incorporation will provide that, exclusive of directors, if any, elected by holders of one or more series of preferred stock, holders of New Metavante common stock may remove a director only for cause and then only by a vote of a majority of the outstanding shares of New Metavante capital stock entitled to vote at a meeting of shareholders called for that purpose. Cause is defined solely as malfeasance arising from the performance of a director's duties which has a materially adverse effect on the business of New Metavante. This provision could deter or discourage a party seeking to obtain control of New Metavante by removing one or more directors from the board.

Subject to the shareholder's agreement, the New Metavante restated articles of incorporation will provide that any newly-created directorship resulting from an increase in the number of directors and any other vacancy on the New Metavante board of directors, however caused, shall be filled by vote of a majority of the directors then in office, although less than a quorum (or by a sole remaining director), and if there are no directors then in office by a vote of the New Metavante shareholders. Any director so elected to fill any vacancy in the New Metavante board of directors, including a vacancy created by an increase in the number of directors, shall hold office until the next annual meeting of New Metavante shareholders and until his or her successor shall be elected and shall qualify. Notwithstanding the foregoing, whenever the holders of any one or more series of preferred stock issued shall have the right, voting separately by series, to elect directors at an annual or special meeting of shareholders, the election, term of office, filling of vacancies and other features of such directorships shall be governed by the terms of the articles of incorporation.

Inability of Shareholders to Act by Less than Unanimous Written Consent; Special Meetings

Under the WBCL, unless a corporation's articles of incorporation permit such action to be taken by less than unanimous consent, shareholders may take action without a meeting only by a unanimous written consent of all shareholders entitled to vote on the action. New Metavante's restated articles of incorporation do not permit such action to be taken by less than unanimous consent.

Table of Contents

Under the WBCL, a special meeting of stockholders may be called by the board of directors or by any person authorized by the articles of incorporation or by-laws and must be called upon the receipt of written demand(s) by the holders of 10% of the votes entitled to be cast on any issue proposed to be considered at the proposed special meeting describing one or more purposes for which the meeting is to be held. New Metavante's amended and restated by-laws provide that, subject to the rights of the holders of any class or series of capital stock having a preference over the common stock as to dividends or upon liquidation, special meetings of shareholders may be called only by the chief executive officer or the president pursuant to a resolution approved by not less than a majority of the board of directors and shall be called by the board of directors upon the demand, in accordance with Section 2.2 of the New Metavante amended and restated by-laws, of the holders of record of shares representing at least 10% of all the votes entitled to be cast on any issue proposed to be considered at the special meeting.

Advance Notice of Proposals to be Brought at the Annual Meeting

Pursuant to the New Metavante amended and restated by-laws, any shareholder who intends to bring business before an annual meeting of shareholders must provide New Metavante with notice of such intention, the nature of such proposal, the reasons for conducting such business at the annual meeting and certain information regarding the shareholder bringing the proposal not less than 90 days prior to the anniversary date of the annual meeting of shareholders in the immediately preceding year. This provision could render more difficult or discourage an attempt to obtain control of New Metavante through a proposal brought before an annual meeting of shareholders. New Metavante would have to be given advance notice of any such proposal in accordance with its amended and restated by-laws which notice to New Metavante may discourage the making of such proposal.

Advance Notice of Nominations of Directors

Pursuant to the New Metavante restated articles of incorporation and amended and restated by-laws, any shareholder who intends to nominate directors for election at a meeting called for that purpose must provide New Metavante with notice of such intention, a written consent of the nominee to serve as a director, certain information regarding the proposed nominee and certain information regarding the nominating shareholder not less than 90 days prior to the anniversary date of the annual meeting of shareholders in the immediately preceding year. This provision could deter or discourage a party seeking to obtain control of New Metavante by electing directors to its board. Any such party would be required to comply with the restated articles of incorporation and amended and restated by-laws in nominating directors to the board and such compliance could deter or discourage such party from nominating directors to the board.

Unissued Shares of Capital Stock

Common Stock. On the record date for the Marshall & Ilsley special meeting, 266,839,811 shares of Marshall & Ilsley common stock were outstanding. If the same number of shares of Marshall & Ilsley common stock are outstanding as of the closing date, it is expected that New Metavante will issue approximately 88,946,604 shares of New Metavante common stock to holders of record of Marshall & Ilsley common stock as of the effective time of the holding company merger and will issue approximately 29,648,868 shares of New Metavante Class A common stock to Investor, assuming that Investor would receive New Metavante common stock equal to 25% of all issued and outstanding shares of New Metavante common stock as of the closing date. The remaining 81,404,528 shares of authorized and unissued common stock will be available for future issuance without additional New Metavante shareholder approval, subject to the rules of the New York Stock Exchange. While the additional New Metavante shares are not designed to deter or prevent a change of control, under some circumstances the additional shares could be used to create voting impediments or to frustrate persons seeking to effect a takeover or otherwise gain control by, for example, issuing those shares in private placements to purchasers who might side with the board of directors in opposing a hostile takeover bid. In addition, New Metavante will have approximately 100,000,000 unissued shares of New Metavante Class A common stock. Shares of Class A common stock will not be entitled to vote on any matter or participate in any dividend or other distribution payable with respect to New Metavante common stock.

Table of Contents

Preferred Stock. The restated articles of incorporation will provide that the New Metavante board of directors has the authority, without any further vote or action by New Metavante stockholders, to issue New Metavante preferred stock in one or more series and to fix the voting powers, designations, preferences and relative, participating, optional or other special rights, and the qualifications, limitations and restrictions thereof, of any such series. The existence of authorized but unissued New Metavante preferred stock could reduce the attractiveness of New Metavante as a target for an unsolicited takeover bid since New Metavante could, for example, issue shares of preferred stock to parties who might oppose such a takeover bid or shares that contain terms the potential acquirer may find unattractive. This may have the effect of delaying or preventing a change of control, may discourage bids for the common stock at a premium over the market price of the common stock, and may adversely affect the market price of, and the voting and other rights of the holders of, common stock.

Constituency or Stakeholder Provision

Under Section 180.0827 of the WBCL, in discharging his or her duties to New Metavante and in determining what he or she believes to be in the best interests of New Metavante, a director or officer may, in addition to considering the effects of any action on shareholders, consider the effects of the action on employees, suppliers, customers, the communities in which New Metavante operates and any other factors that the director or officer considers pertinent. This provision may have anti-takeover effects in situations where the interests of New Metavante stakeholders, other than shareholders, conflict with the short-term maximization of shareholder value.

Wisconsin Anti-Takeover Statutes

Sections 180.1140 to 180.1144 of the WBCL, which are referred to as the Wisconsin business combination statutes, prohibit a resident domestic corporation from engaging in a business combination with an interested stockholder for a period of three years after the date of the transaction in which the person became an interested stockholder, unless prior to such date the board of directors approved the business combination or the transaction in which the person became an interested stockholder. Under specified circumstances, a resident domestic corporation may engage in a business combination with an interested stockholder more than three years after the stock acquisition date. For purposes of the Wisconsin business combination statutes, a business combination includes (a) a merger or share exchange, (b) a sale, lease, exchange, mortgage, pledge, transfer or other disposition of assets of the corporation or its subsidiary equal to at least 5% of the aggregate market value of the consolidated assets or outstanding stock of the corporation or 10% of the corporation's earning power or income on a consolidated basis, (c) the issuance or transfer by the corporation or its subsidiary of stock or rights to purchase stock having an aggregate market value equal to at least 5% of the outstanding stock, unless the stock was issued or transferred pursuant to the exercise of warrants, rights or options or a dividend or distribution made proportionately to all shareholders, (d) the adoption of a plan of liquidation or dissolution of the corporation that is proposed by or on behalf of an interested stockholder, (e) other enumerated transactions involving an interested stockholder if the effect is to increase the proportionate share of the outstanding stock (or securities convertible into stock) of the corporation or its subsidiary beneficially owned by the interested stockholder, and (f) receipt by an interested stockholder of the benefit of a loan, advance, guarantee, pledge or other financial assistance provided by or through the corporation or its subsidiary, unless the benefit is received proportionately by all stockholders. Under the Wisconsin business combination statutes, an interested stockholder is a person who beneficially owns at least 10% of the voting power of the outstanding voting stock of the resident domestic corporation, or who is an affiliate or associate of the resident domestic corporation and beneficially owned at least 10% of the voting power of the then outstanding voting stock within three years prior to the date in question.

resident domestic corporation means a public Wisconsin corporation that, as of the stock acquisition date in question, has:

its principal offices located in Wisconsin;

significant business operations located in Wisconsin;

Table of Contents

more than 10% of the holders of record of its stock who are residents of Wisconsin; or

more than 10% of its shares held of record by residents of Wisconsin.

Following completion of the transactions, New Metavante will be considered a resident domestic corporation for purposes of these statutory provisions.

Sections 180.1130 to 180.1133 of the WBCL, which are referred to as the Wisconsin fair price statutes, require that business combinations involving a significant shareholder and a resident domestic corporation be approved by the affirmative vote of at least (1) 80% of the votes entitled to be cast by the outstanding voting shares of the corporation, and (2) two-thirds of the votes entitled to be cast by the holders of the voting shares that are not beneficially owned by a significant shareholder or an affiliate or associate of a significant shareholder who is a party to the transaction, unless the fair price conditions specified in the statute have been satisfied. This requirement is in addition to any vote that may be required by law or the articles of incorporation. For purposes of the Wisconsin fair price statutes, a business combination generally includes (i) a merger or share exchange or (ii) a sale, lease, exchange or other disposition of all or substantially all the property or assets of the corporation to a significant shareholder, other than a mortgage or pledge if not made to the avoid the fair price statutes and the Wisconsin defensive action restrictions statute (as described below). Under the Wisconsin fair price statutes, a significant shareholder is a person who beneficially owns, directly or indirectly, 10% or more of the voting power of the outstanding stock of the resident domestic corporation, or who is an affiliate of the resident domestic corporation and beneficially owned, directly or indirectly, 10% or more of the voting power of the outstanding stock of the resident domestic corporation within two years prior to the date in question. The Wisconsin fair price statutes may discourage an attempt by a shareholder to squeeze out other shareholders without offering an appropriate premium purchase price.

Under Section 180.1150 of the WBCL, the voting power of shares in the election of directors of a resident domestic corporation that are held by any person in excess of 20% of the voting power are limited (in voting on any matter) to 10% of the full voting power of such excess shares, unless otherwise provided in the articles of incorporation or otherwise specified by the board of directors, or unless full voting rights have been restored at a special meeting of the shareholders called for that purpose. New Metavante's restated articles of incorporation do not exclude it from application of the restrictions imposed by such provisions. This provision may deter a shareholder from acquiring in excess of 20% of New Metavante outstanding voting stock. Section 180.1150(3) excludes shares held or acquired under certain circumstances from the application of Section 180.1150(2), including, among others, shares acquired directly from New Metavante and shares acquired in a merger or share exchange to which New Metavante is a party. Thus, shares acquired by Investor pursuant to the New Metavante share issuance will be excluded from the voting limitations of the Wisconsin control share acquisition statute.

Section 180.1134 of the WBCL, which is referred to as the Wisconsin defensive action restrictions statute, provides that, in addition to the vote otherwise required by law or the articles of incorporation, a resident domestic corporation must receive approval of the holders of a majority of the shares entitled to vote before the corporation can take the actions discussed below while a takeover offer is being made or after a takeover offer has been publicly announced and before it is concluded. Under the Wisconsin defensive action restrictions statute, approval of the holders of the majority of the shares is required for the corporation to acquire more than 5% of its own outstanding voting shares at a price above the market price from any individual who or organization which owns more than 3% of the outstanding voting shares and has held the shares for less than two years, unless at least an equal offer is made to acquire all of its voting shares and all securities which may be converted into its voting shares. This restriction may deter a shareholder from acquiring shares of New Metavante common stock if the shareholder's goal is to have New Metavante repurchase the shareholder's shares at a premium over the market price. Approval of the holders of the majority of the shares is also required under the Wisconsin defensive action restrictions statute for the corporation to sell or option assets of the corporation which amount to at least 10% of the market value of the corporation, unless the corporation has at least three independent directors and a majority of the independent directors vote not to be governed by this restriction.

Table of Contents

LIMITATION OF LIABILITY AND INDEMNIFICATION

OF NEW METAVANTE S DIRECTORS AND OFFICERS

Limitation of Liability of Directors

Section 180.0828 of the WBCL provides that, unless a limitation in the articles of incorporation applies, a director of a Wisconsin corporation is not liable to the corporation, its shareholders, or any person asserting rights on behalf of the corporation or its shareholders, for damages, settlements, fees, fines, penalties or other monetary liabilities arising from a breach of, or failure to perform, any duty resulting solely from his or her status as a director, unless the person asserting liability proves that the breach or failure to perform constitutes:

a willful failure to deal fairly with the corporation or its shareholders in connection with a matter in which the director has a material conflict of interest;

a violation of criminal law, unless the director had reasonable cause to believe that his or her conduct was lawful or no reasonable cause to believe it was unlawful;

a transaction from which the director derived an improper personal profit; or

willful misconduct.

New Metavante s restated articles of incorporation will not limit these provisions as they may apply to New Metavante directors.

Indemnification of Officers and Directors

Section 180.0851 of the WBCL requires a corporation to indemnify a director or officer, to the extent such person is successful on the merits or otherwise in the defense of a proceeding, for all reasonable expenses incurred in the proceeding if such person was a party to such proceeding because he or she was a director or officer of the corporation. In cases where a director or officer is not successful on the merits or otherwise in the defense of a proceeding, a corporation is required to indemnify a director or officer against liability incurred by the director or officer in a proceeding if such person was a party to such proceeding because he or she is a director or officer of the corporation, unless it is determined that he or she breached or failed to perform a duty owed to the corporation and such breach or failure to perform constitutes:

a willful failure to deal fairly with the corporation or its shareholders in connection with a matter in which the director or officer has a material conflict of interest;

a violation of criminal law, unless the director or officer had reasonable cause to believe that his or her conduct was lawful or had no reasonable cause to believe that his or her conduct was unlawful;

a transaction from which the director or officer derived an improper personal profit; or

willful misconduct.

The New Metavante amended and restated by-laws will provide that New Metavante will indemnify its directors, officers, and employees to the fullest extent permitted by the WBCL, unless it is proven by final judicial adjudication that indemnification is prohibited. The New Metavante

amended and restated by-laws will provide that within 20 days after receipt of a written request of a director, officer or employee who is a party to a proceeding, the corporation must pay or reimburse such person's expenses as incurred if such person provides a written affirmation of his or her good faith belief that he or she is entitled to indemnification and a written undertaking to repay all amounts advanced if it is ultimately determined that indemnification is prohibited. The New Metavante amended and restated by-laws also will provide that New Metavante may purchase insurance on behalf of any director, officer or employee against certain liabilities, losses and expenses, whether or not New Metavante would have the power to indemnify these persons against these liabilities, losses and expenses. The New Metavante amended and restated by-laws will provide that the right to indemnification under the amended and restated by-laws may be amended only by a subsequent vote of not less than a majority of the votes entitled

Table of Contents

to be cast by all outstanding shares of capital stock entitled to vote on such matters. The New Metavante amended and restated by-laws will also provide that any reduction in the right to indemnification may only be prospective from the date of such vote.

Section 180.0859 of the WBCL provides that it is the public policy of the State of Wisconsin to require or permit, to the extent permitted by law, indemnification, allowance of expenses and insurance for any liability incurred in connection with any proceeding involving securities regulation. In accordance with this provision, the New Metavante amended and restated by-laws will provide for mandatory indemnification and allowance of expenses for officers, directors and employees for proceedings involving securities-related matters.

Table of Contents

**COMPARISON OF RIGHTS OF
MARSHALL & ILSLEY, NEW METAVANTE AND NEW MARSHALL & ILSLEY
SHAREHOLDERS**

The rights of Marshall & Ilsley shareholders are governed by the WBCL, the Marshall & Ilsley restated articles of incorporation and the Marshall & Ilsley amended and restated by-laws. After the completion of the transactions, the Marshall & Ilsley shareholders of record as of the effective time of the holding company merger will receive shares in New Marshall & Ilsley and New Metavante. Their rights as shareholders will be governed by the WBCL and, with respect to New Metavante, the New Metavante restated articles of incorporation, the New Metavante amended and restated by-laws, the shareholders agreement to be entered into by New Metavante and Investor, the stock purchase right agreement to be entered into by New Metavante and Investor, and, with respect to New Marshall & Ilsley, the New Marshall & Ilsley restated articles of incorporation and the New Marshall & Ilsley amended and restated by-laws.

The table below summarizes and compares the current rights of Marshall & Ilsley shareholders to the rights those shareholders will have as New Metavante shareholders and New Marshall & Ilsley shareholders following the completion of the transactions. The table does not purport to be a complete statement of all the differences or a complete description of the specific provisions referred to in the summary. The identification of specific differences is not intended to indicate that other equally or more significant differences do not exist. Shareholders of Marshall & Ilsley should read carefully the relevant provisions of the WBCL, the Marshall & Ilsley restated articles of incorporation, the Marshall & Ilsley amended and restated by-laws, the New Metavante restated articles of incorporation, the New Metavante amended and restated by-laws, the New Marshall & Ilsley restated articles of incorporation and the New Marshall & Ilsley amended and restated by-laws. See [Where You Can Find More Information](#) beginning on page 419.

	Marshall & Ilsley	New Metavante	New Marshall & Ilsley
<i>Corporate Governance:</i>	The rights of Marshall & Ilsley shareholders are currently governed by the WBCL, Marshall & Ilsley's restated articles of incorporation and Marshall & Ilsley's by-laws.	Prior to the closing of the transactions, New Metavante will adopt and be governed by restated articles of incorporation and amended and restated by-laws. The rights of New Metavante shareholders will also be governed by the shareholders agreement to be entered into by New Metavante and Investor, the stock purchase right agreement to be entered into by New Metavante and Investor, and the WBCL. Investor will have certain corporate governance rights, including the right to designate directors, pursuant to the shareholders agreement.	Prior to the closing of the transactions, New Marshall & Ilsley will adopt and be governed by restated articles of incorporation and amended and restated by-laws. The rights of New Marshall & Ilsley shareholders will also be governed by the WBCL.

merits or otherwise in the defense of a proceeding for all reasonable expenses that he or she incurred in the proceeding if the director or officer was a party because he or she is or was a director or officer of the corporation. Indemnification is also required in other instances, unless liability was incurred because the director or officer breached or failed to perform a duty that he or she owed to the corporation, and the breach or failure to perform constitutes any of the following:		
a willful failure to deal fairly with the corporation or its shareholders in connection with a matter in which the director or officer has a material conflict of interest;		
a violation of criminal law, unless the director or officer had reasonable cause to believe that his or her conduct was lawful or no reasonable cause to believe that his or her conduct was unlawful;		
a transaction from which the director or officer derived an improper personal profit; or		
willful misconduct.		

Table of Contents

Marshall & Ilsley	New Metavante	New Marshall & Ilsley
<p>The WBCL allows a corporation to limit its obligation to indemnify directors and officers, but Marshall & Ilsley's articles of incorporation do not limit Marshall & Ilsley's obligation to indemnify its directors and officers. A corporation may provide directors and officers additional rights to indemnification, except for conduct described above, under any of the following: (i) the articles of incorporation or by-laws; (ii) a written agreement between the director or officer and the corporation; (iii) by a resolution adopted by the board of directors; or (iv) by a resolution that is adopted, after notice, by a majority vote of all of the corporation's voting shares then issued and outstanding.</p>		
<p>Marshall & Ilsley's by-laws provide for indemnification of its directors and officers to the fullest extent permitted by law and set forth procedural requirements for requesting indemnification. Marshall & Ilsley's by-laws provide that an individual shall be indemnified unless it is determined by a final judicial adjudication that indemnification is prohibited. The WBCL provides that reasonable expenses incurred by a</p>

<p>business combination with an interested stockholder for a period of three years after the date of the transaction in which the person became an interested stockholder, unless prior to such date the board of directors approved the business combination or the transaction in which the person became an interested stockholder. Under specified circumstances, a resident domestic corporation may engage in a business combination with an interested stockholder more than three years after the stock acquisition date. For purposes of the Wisconsin business combination statutes, a business combination includes (a) a merger or share exchange, (b) a sale, lease, exchange, mortgage, pledge, transfer or other disposition of assets of the corporation or its subsidiary equal to at least 5% of the aggregate market value of the consolidated assets or outstanding stock of the corporation or 10% of the corporation's earning power or income on a consolidated basis, (c) the issuance or transfer by the corporation or its subsidiary of stock or rights to purchase stock having an aggregate market value equal to at least 5% of the outstanding stock, unless the stock was issued or</p>

Marshall & Ilsley	New Metavante	New Marshall & Ilsley
<p>satisfied. This requirement is in addition to any vote that may be required by law or the articles of incorporation.</p>		

For purposes of the Wisconsin fair price statutes, a business combination generally includes (i) a merger or share exchange or (ii) a sale, lease, exchange or other disposition of all or substantially all the property or assets of the corporation to a significant shareholder, other than a mortgage or pledge if not made to avoid the fair price statutes and the Wisconsin defensive action restrictions statute (as described below). Under the Wisconsin fair price statutes, a significant shareholder is a person who beneficially owns, directly or indirectly, 10% or more of the voting power of the outstanding stock of the resident domestic corporation, or who is an affiliate of the resident domestic corporation and beneficially owned, directly or indirectly, 10% or more of the voting power of the outstanding stock of the resident domestic corporation within two years prior to the date in question. The Wisconsin fair price statutes may discourage an attempt by a shareholder to squeeze out other shareholders

	without offering an appropriate premium purchase price.		
	<i>Control share statute.</i> Under Section 180.1150		
	of the WBCL, the voting power of shares of a resident domestic corporation that are held by any person in excess of 20% of the voting power in the election of directors are limited (in voting on any matter) to 10% of the full voting power of such excess shares, unless otherwise provided in the articles of incorporation or otherwise specified by the board of directors, or unless full voting rights have been restored at a special meeting of the shareholders called for that purpose. Marshall & Ilsley's restated articles of incorporation do not exclude it from application of the restrictions imposed by such provisions.		
<i>Wisconsin Defensive Actions Statute:</i>	Section 180.1134 of the WBCL, which is referred to as the Wisconsin defensive action restrictions statute, provides that, in addition to the vote otherwise required by law or the articles of incorporation, a Wisconsin corporation must receive approval of the holders of a majority of the shares entitled to vote before the corporation can take the actions discussed below while a takeover offer is being made or after a	Same as Marshall & Ilsley.	Same as Marshall & Ilsley.

Table of Contents

	Marshall & Ilsley	New Metavante	New Marshall & Ilsley
	<p>takeover offer has been publicly announced and before it is concluded. Under the Wisconsin defensive action restrictions statute, approval of the holders of the majority of the shares is required for the corporation to acquire more than 5% of its own outstanding voting shares at a price above the market price from any individual who or organization which owns more than 3% of the outstanding voting shares and has held the shares for less than two years, unless at least an equal offer is made by the corporation to acquire all of its voting shares and all securities which may be converted into its voting shares. Approval of the holders of the majority of the shares is also required under the Wisconsin defensive action restrictions statute for the corporation to sell or option assets of the corporation which amount to at least 10% of the market value of the corporation, unless the corporation has at least three independent directors and a majority of the independent directors vote not to be governed by this restriction.</p>		
<i>Other Provisions Specified in Articles of Incorporation:</i>	In addition to any other approvals required by law and by the articles of incorporation and by-laws, Marshall & Ilsley s	The New Metavante restated articles of incorporation do not contain similar provisions.	Same as New Metavante.

Table of Contents

Marshall & Ilsley	New Metavante	New Marshall & Ilsley
restated articles of incorporation require that business combinations between Marshall & Ilsley and an interested stockholder be approved by:		

the holders of 80% of Marshall & Ilsley's shares entitled to vote in the election of directors; or

the holders of two-thirds of Marshall & Ilsley's shares, other than the interested stockholder.

This requirement does not apply if a business combination with an interested stockholder is approved by a majority of disinterested directors or the shareholders receive a fair price, as defined in the restated articles of incorporation, for their shares and certain other conditions are satisfied. Business combinations under Marshall & Ilsley's restated articles of incorporation generally include: mergers; consolidations; any sale, lease, exchange, mortgage, pledge, transfer or other disposition of \$25 million or more in assets; the issuance or transfer of \$25 million or more in securities; liquidations, dissolutions, and reclassifications, recapitalizations and other transactions that

Table of Contents

Marshall & Ilsley	New Metavante	New Marshall & Ilsley
have the effect of increasing the proportionate ownership interest of an interested stockholder. An interested stockholder is a person who owns at least 10 percent of Marshall & Ilsley's shares or who is an affiliate or associate of Marshall & Ilsley and owned at least 10 percent of Marshall & Ilsley's shares at any time within the prior two-year period. A disinterested director means a director who is not affiliated with the interested stockholder and who was either a director before the person became an interested stockholder or was elected or recommended for election by a majority of disinterested directors.		
Pursuant to the Marshall & Ilsley restated articles of incorporation, the requisite votes for the approval and authorization of any (i) plan of merger or consolidation of Marshall & Ilsley with or into any other corporation, (ii) sale, lease, exchange or disposition of all or substantially all the property and assets of Marshall & Ilsley to or with any other person, corporation or entity not made in the ordinary course of business, or (iii) voluntary dissolution of Marshall & Ilsley or revocation of voluntary dissolution proceedings,

	shall be the affirmative vote of the holders of two-thirds of the outstanding shares of each class of shares and of each series entitled to vote thereon as a class and of the total shares entitled to vote thereon, provided, however, if the board of directors of Marshall & Ilsley shall have approved any transaction described in clauses (i), (ii) or (iii) above by a resolution adopted by three-quarters of the board of directors then in office and entitled to vote thereon, the requisite votes shall be the affirmative vote of the holders of a majority of the outstanding shares of each class of shares and of each series entitled to vote thereon as a class and of the total shares entitled to vote thereon.		
<i>Amendment of Articles of Incorporation:</i>	Under the WBCL, the board of directors of a corporation may propose amendments to a corporation's articles of incorporation and may establish conditions for the submission of the amendment to the shareholders. Under most circumstances, the WBCL provides that amendments to a corporation's articles of incorporation must be approved by both the board of directors of the corporation and its shareholders. However, any amendment to the articles of incorporation	The WBCL's general provisions governing amendments to the articles of incorporation apply to New Metavante since it was incorporated after January 1, 1973. Under these provisions, unless the WBCL, the articles of incorporation, by-laws adopted under authority granted in the articles of incorporation or the board of directors in conditioning its submission, requires a greater vote or a vote by voting groups, an amendment is adopted if approved as follows:	Same as New Metavante. The provision requiring the affirmative vote of two-thirds of the shares to amend the articles of incorporation applicable to Marshall & Ilsley will not apply to the restated articles of incorporation.

LEGAL MATTERS

The validity of the shares of common stock of New Metavante to be issued in connection with the holding company merger will be passed upon by Quarles & Brady LLP, counsel to New Metavante.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The consolidated financial statements of Marshall & Ilsley Corporation as of December 31, 2006 and 2005, and for each of the three years in the period ended December 31, 2006, and management's report on the effectiveness of internal control over financial reporting as of December 31, 2006, included in this prospectus have been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their reports appearing herein and elsewhere in the registration statement, and are included in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

The consolidated financial statements of Metavante Corporation as of December 31, 2006 and 2005, and for each of the three years in the period ended December 31, 2006, included in this prospectus and the related financial statement schedule included elsewhere in the registration statement have been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their reports appearing herein and elsewhere in the registration statement, and are included in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

FUTURE SHAREHOLDER PROPOSALS

Marshall & Ilsley does not currently expect to hold a 2008 annual meeting of shareholders because Marshall & Ilsley will not be a separate publicly traded company if the transactions have been completed. If the transactions are not completed and such a meeting is held, the 2008 annual meeting of Marshall & Ilsley shareholders will take place on April 23, 2008, and in accordance with Marshall & Ilsley's by-laws, nominations, other than by or at the direction of the board of directors, of candidates for election as directors at such annual meeting of shareholders and any other shareholder proposed business to be brought before such annual meeting of shareholders must be submitted to Marshall & Ilsley no later than January 25, 2008. Shareholder proposed nominations and other shareholder proposed business in respect of such annual meeting must be made in accordance with Marshall & Ilsley's by-laws which provide, among other things, that shareholder proposed nominations must be accompanied by certain information concerning the nominee and the shareholder submitting the nomination, and that shareholder proposed business must be accompanied by certain information concerning the proposal and the shareholder submitting the proposal. If the transactions are not completed and the 2008 annual meeting of Marshall & Ilsley shareholders is held, to be considered for inclusion in the proxy statement solicited by the Marshall & Ilsley Board in respect of such meeting, shareholder proposals for consideration at such annual meeting of shareholders of Marshall & Ilsley must be received by Marshall & Ilsley at its principal executive offices, 770 North Water Street, Milwaukee, Wisconsin 53202 on or before November 17, 2007. Such proposals should be directed to Ms. Gina M. McBride, Vice President and Corporate Secretary. To avoid disputes as to the date of receipt, it is suggested that any shareholder proposal be submitted by certified mail, return receipt requested.

If the transactions are completed, the New Marshall & Ilsley 2008 annual meeting of shareholders is expected to be held on April 23, 2008. In accordance with New Marshall & Ilsley's amended and restated by-laws, nominations, other than by or at the direction of the board of directors of New Marshall & Ilsley, of candidates for election as directors at the 2008 annual meeting of shareholders and any other shareholder proposed business to be brought before the 2008 annual meeting of shareholders must be submitted to New Marshall & Ilsley no later than January 25, 2008. Shareholder proposed nominations and other shareholder

Table of Contents

proposed business must be made in accordance with New Marshall & Ilsley's amended and restated by-laws which provide, among other things, that shareholder proposed nominations must be accompanied by certain information concerning the nominee and the shareholder submitting the nomination, and that shareholder proposed business must be accompanied by certain information concerning the proposal and the shareholder submitting the proposal. To be considered for inclusion in the proxy statement solicited by the board of directors of New Marshall & Ilsley, shareholder proposals for consideration at the 2008 annual meeting of shareholders of New Marshall & Ilsley must be received by New Marshall & Ilsley at its principal executive offices, 770 North Water Street, Milwaukee, Wisconsin 53202 on or before November 17, 2007. Proposals should be directed to Ms. Gina M. McBride, Vice President and Corporate Secretary. To avoid disputes as to the date of receipt, it is suggested that any shareholder proposal be submitted by certified mail, return receipt requested.

The deadline for submission, in writing, to the Secretary of New Metavante, 4900 West Brown Deer Road, Milwaukee, Wisconsin 53223, of all stockholder proposals to be considered for inclusion in New Metavante's proxy statement for its first annual meeting following completion of the transactions will be disclosed in a Form 10-Q or Form 8-K filed after the completion of the transactions. The proposals must meet the requirements set forth in the rules and regulations of the Securities and Exchange Commission in order to be eligible for inclusion in the proxy statement for such annual meeting.

Table of Contents

DELIVERY OF THIS PROXY STATEMENT/PROSPECTUS INFORMATION STATEMENT

The SEC has adopted rules that permit companies and intermediaries (such as brokers) to satisfy delivery requirements for proxy statements with respect to two or more shareholders sharing the same address by delivering a single proxy statement addressed to those shareholders. This process, known as householding, potentially means extra convenience for shareholders and cost savings for companies. This year, a number of brokers with customers who are shareholders of Marshall & Ilsley will be householding the proxy materials unless contrary instructions have been received from the customers. Marshall & Ilsley will promptly deliver, upon oral or written request, a separate copy of the proxy statement/prospectus information statement to any of their respective shareholders sharing an address to which only one copy was mailed. Requests for additional copies should be directed to:

Shareholder Relations

Marshall & Ilsley Corporation

770 North Water Street

Milwaukee, Wisconsin 53202

(414) 765-7700

or

Morrow & Co., Inc.

470 West Avenue

Stamford, CT 06902

(800) 607-0088

Once a shareholder has received notice from his or her broker that the broker will be householding communications to the shareholder's address, householding will continue until the shareholder is notified otherwise or until the shareholder revokes his or her consent. If, at any time, a shareholder no longer wishes to participate in householding and would prefer to receive separate copies of the proxy statement/prospectus information statement, the shareholder should so notify his or her broker. Any shareholder who currently receives multiple copies of the proxy statement/prospectus information statement at his or her address and would like to request householding of communications should contact his or her broker or, if shares are registered in the shareholder's name, Marshall & Ilsley at the address or telephone number provided above.

WHERE YOU CAN FIND MORE INFORMATION

New Metavante has filed a registration statement on Form S-4 to register with the SEC the shares of New Metavante common stock to be issued in connection with the holding company merger. This document is a part of that registration statement and constitutes a prospectus of New Metavante in addition to being a proxy statement of Marshall & Ilsley for the special meeting of the Marshall & Ilsley shareholders. As allowed by SEC rules, this document does not contain all the information you can find in the registration statement or the exhibits to the registration statement.

Marshall & Ilsley (File No. 1-15403) files reports (including annual reports which contain audited financial statements), proxy statements and other information with the SEC. You may read and copy this information at the following locations of the SEC:

Public Reference Room	Northeast Regional Office	Chicago Regional Office
100 F Street, N.E.	223 Broadway	Citicorp Center
Room 1024	New York, New York 10279	500 West Madison Street
Washington, D.C. 20549		Suite 1400

Chicago, Illinois 60661-2511

You may also obtain copies of this information by mail from the Public Reference Section of the SEC, 100 F Street, N.E., Washington, D.C. 20549, at prescribed rates. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains an Internet world wide web site that contains reports, proxy statements and other information about issuers, like Marshall & Ilsley, that file information electronically with the SEC. The address of that site is <http://www.sec.gov>.

You can also request copies of this information from Marshall & Ilsley by making a request to:

Shareholder Relations
 Marshall & Ilsley Corporation
 770 North Water Street
 Milwaukee, Wisconsin 53202
 (414) 765-7700

Marshall & Ilsley's address on the world wide web is <http://www.micorp.com>. The information on these web sites is not a part of this document.

You can also inspect reports, proxy statements and other information about Marshall & Ilsley at the offices of the NYSE, 20 Broad Street, New York, New York 10005.

The SEC allows Marshall & Ilsley to incorporate by reference information into this proxy statement/prospectus information statement. This means that Marshall & Ilsley can disclose important information to you by referring you to another document filed separately with the SEC. These documents contain important information about Marshall & Ilsley and its financial condition. The information incorporated by reference is considered to be a part of this proxy statement/prospectus information statement. Information that Marshall & Ilsley files later with the SEC will automatically update and supersede this information.

This document incorporates by reference the documents listed below that Marshall & Ilsley has previously filed with the SEC (excluding any portions of any such documents that are furnished but not filed for purposes of the Exchange Act). They contain important information about Marshall & Ilsley and its financial condition.

MARSHALL & ILSLEY CORPORATION

Notes to Financial Statements

June 30, 2007 & 2006 (Unaudited)

1. Basis of Presentation

The accompanying unaudited consolidated financial statements should be read in conjunction with Marshall & Ilsley Corporation's (M&I or Corporation) Annual Report on Form 10-K for the year ended December 31, 2006. The unaudited financial information included in this report reflects all adjustments consisting of normal recurring accruals which are necessary for a fair statement of the financial position and results of operations as of and for the three and six months ended June 30, 2007 and 2006. The results of operations for the three and six months ended June 30, 2007 and 2006 are not necessarily indicative of results to be expected for the entire year.

2. New Accounting Pronouncements

In June 2007, the Financial Accounting Standards Board (FASB) ratified Emerging Issues Task Force Issue No. 06-11, *Accounting for Income Tax Benefits of Dividends on Share-Based Payment Awards* (EITF 06-11). EITF 06-11 specifies how entities should recognize the income tax benefit received on dividends that are (a) paid to employees holding equity-classified nonvested shares, equity-classified nonvested share units, or equity-classified outstanding stock options and (b) charged to retained earnings under Statement of Financial Accounting Standards 123(R), *Share-Based Payment*. EITF 06-11 is effective for the Corporation on January 1, 2008. The Corporation does not believe EITF 06-11 will have a material effect on its financial statements and related disclosures.

In May 2007, FASB issued FASB Staff Position No. FIN 48-1, *Definition of Settlement in FASB Interpretation No. 48* (FSP FIN 48-1). FSP FIN 48-1 amends FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). FIN 48, which was adopted by the Corporation on January 1, 2007, clarifies the accounting for uncertainty in income taxes recognized in financial statements in accordance with FASB Statement 109, *Accounting for Income Taxes*. FSP FIN 48-1 provides guidance on how an entity should determine whether a tax position is effectively settled for the purpose of recognizing previously unrecognized tax benefits. FSP FIN 48-1 clarifies that a tax position can be effectively settled upon the completion of an examination by a taxing authority without being legally extinguished. FSP FIN 48-1 is effective upon the initial adoption of FIN 48 and therefore was adopted by the Corporation in the beginning of fiscal 2007. The adoption of FSP FIN 48-1 did not have an impact on the accompanying financial statements.

In February 2007, the FASB issued Statement of Financial Accounting Standard No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities, Including an Amendment of FASB Statement No. 115* (SFAS 159). SFAS 159 permits entities to choose to measure many financial instruments and certain other items generally on an instrument-by-instrument basis at fair value that are not currently required to be measured at fair value. SFAS 159 is intended to provide entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS 159 does not change requirements for recognizing and measuring dividend income, interest income, or interest expense. SFAS 159 is effective for the Corporation on January 1, 2008. The Corporation continues to assess the impact, if any, SFAS 159 will have on the Corporation.

3. Equity Investment in Firstsource Solutions Limited (Firstsource)

As of December 31, 2006, the Corporation's wholly-owned subsidiary, Metavante, owned a 24% interest in Firstsource. Firstsource is an India-based provider of business process outsourcing solutions. This investment is accounted for using the equity method of accounting. During February 2007, Firstsource offered 60,000,000 new shares of common stock at \$1.45 per share in a public offering that yielded \$86.9 million of cash proceeds to

Table of Contents**MARSHALL & ILSLEY CORPORATION****Notes to Financial Statements (Continued)****June 30, 2007 & 2006 (Unaudited)**

Firstsource. This issuance of new shares of common stock diluted Metavante's ownership percentage to approximately 21%. Under the provisions of Staff Accounting Bulletin No. 51, *Accounting for Sales of Stock by a Subsidiary* (SAB 51), when an investee issues shares of its common stock, the investor should recognize a gain or loss in the same manner as if the investor had sold a portion of its investment. Subject to certain criteria of SAB 51, the resulting gain or loss can be recognized in the consolidated financial statements or reflected as a capital transaction, at the option of the Corporation, and the accounting treatment selected is to be followed consistently for all future gains or losses. The Corporation elected to recognize the initial gain of \$8.0 million in the consolidated statement of income in the first quarter of 2007. All future SAB 51 gains or losses will be recognized in the consolidated statement of income. As a result of Firstsource's equity transactions in the second quarter of 2007, the Corporation recognized a loss of \$1.0 million for the three months ended June 30, 2007. For the six months ended June 30, 2007, the net gain related to Firstsource amounted to \$7.0 million. Deferred income taxes have been provided on the net gain.

4. Adoption of SAB 108

The Corporation elected early application of *Staff Accounting Bulletin No. 108* (SAB 108) during the third quarter of 2006. In accordance with SAB 108, the Corporation adjusted its opening financial position for 2006 and the results of operations for the first and second quarter of 2006 to reflect a change in its hedge accounting under Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities* (SFAS 133).

The Corporation utilized interest rate swaps to hedge its risk in connection with certain financial instruments. The Corporation had applied hedge accounting under SFAS 133 to these transactions from inception. Due to the recent expansion of certain highly technical interpretations of SFAS 133, specifically hedge designation under the "matched-term" method, interest rate swaps designated as fair value hedges with an aggregate notional amount of \$1,762.3 million and negative fair value of \$50.0 million and interest rate swaps designated as cash flow hedges with an aggregate notional amount of \$1,300.0 million and negative fair value of \$45.5 million at June 30, 2006 did not qualify for hedge accounting. As a result, any fluctuation in the fair value of the derivatives should have been recorded through the income statement with no corresponding offset to the hedged items, or accumulated other comprehensive income.

The cumulative effect of adjusting the reported carrying amount of the assets, liabilities and accumulated other comprehensive income at January 1, 2006 resulted in a decrease to retained earnings of \$34.2 million and reduced the net loss in accumulated other comprehensive income by \$16.2 million. In aggregate total Shareholders' Equity was reduced by \$18.0 million. For the three and six months ended June 30, 2006 net derivative losses-discontinued hedges amounted to \$20.7 million and \$42.0 million, respectively.

Table of Contents**MARSHALL & ILSLEY CORPORATION****Notes to Financial Statements (Continued)****June 30, 2007 & 2006 (Unaudited)**

The aggregate impact of the adjustments is summarized below (\$000 s, except per share data):

7. Business Combinations

The following acquisitions, which are not considered to be material business combinations, individually or in the aggregate, were completed during 2007:

Second Quarter

On April 20, 2007, the Corporation completed its acquisition of North Star Financial Corporation (North Star) of Chicago, Illinois. Total consideration in this transaction amounted to \$21.0 million, consisting of 441,252 shares of the Corporation's common stock valued at \$47.55 per common share. North Star and its subsidiaries provide a variety of wealth management services through personal and other trusts. In addition, North Star offers a variety of other products and services including land trusts, 1031 exchanges for both real and personal property, and ESOP services, including consultative services relating to the transfer of small-business stock ownership. North Star's businesses were integrated with the Corporation's Wealth Management unit. Initial goodwill, subject to the completion of appraisals and valuation of the assets acquired and liabilities assumed, amounted to \$18.0 million. The preliminary estimated identifiable intangible assets to be amortized (customer relationships, tradename and non-compete agreements) amounted to \$6.6 million. This is considered a non-cash transaction for the purposes of the Consolidated Statement of Cash Flows. The goodwill and intangibles resulting from this acquisition are not deductible for tax purposes.

On April 1, 2007, the Corporation completed its acquisition of United Heritage Bankshares of Florida, Inc. (United Heritage). United Heritage Bank, a wholly-owned subsidiary of United Heritage, with \$791.3 million in assets as of March 31, 2007, has 13 branches in the metropolitan Orlando area. Total consideration in this transaction amounted to approximately \$219.6 million, consisting of 4,410,647 shares of the Corporation's common stock valued at \$204.3 million and the exchange of vested stock options valued at approximately \$15.3 million. The current United Heritage Bank branches became M&I Bank branches on June 1, 2007. Initial goodwill, subject to the completion of appraisals and valuation of the assets acquired and liabilities assumed, amounted to \$147.8 million. The estimated identifiable intangible asset to be amortized (core deposits) with a weighted average life of 7.7 years amounted to \$11.6 million. This is considered a non-cash transaction for the purposes of the Consolidated Statement of Cash Flows. The goodwill and intangibles resulting from this acquisition are not deductible for tax purposes.

First Quarter

On January 17, 2007, Metavante acquired all of the outstanding stock of Valutec Card Solutions, Inc. (Valutec) for \$41.0 million in cash. Valutec provides closed-loop, in-store gift and loyalty card solutions for small and medium-sized businesses, including hosted account management, reporting capabilities, plastic card design and production and card program merchandising products. Initial goodwill, subject to the completion of appraisals and valuation of the assets acquired and liabilities assumed, amounted to \$34.1 million. The estimated identifiable intangible asset to be amortized (customer relationships) with an estimated useful life of 7.0 years amounted to \$8.2 million. The goodwill and intangibles resulting from this acquisition are not deductible for tax purposes.

Table of Contents**MARSHALL & ILSLEY CORPORATION****Notes to Financial Statements (Continued)****June 30, 2007 & 2006 (Unaudited)**

Recent acquisition activity

On July 9, 2007, the Corporation announced the signing of a definitive agreement to acquire First Indiana Corp. (First Indiana). First Indiana, based in Indianapolis, Indiana had \$2.2 billion in consolidated assets as of June 30, 2007, and has 32 offices in central Indiana. Under the terms of the definitive agreement, stockholders of First Indiana will receive \$32.00 in cash for each share of First Indiana common stock outstanding, or approximately \$529.0 million in the aggregate. The transaction is expected to close in the fourth quarter of 2007 or in the first quarter of 2008, subject to the affirmative vote of First Indiana s stockholders, regulatory approvals and other customary closing conditions.

On July 1, 2007, the Corporation completed its acquisition of Excel Bank Corporation (Excel). Pursuant to an Amended and Restated Merger Agreement, shareholders of Excel received \$13.97 per share in cash for each issued and outstanding share of Excel common stock, or approximately \$105.0 million in the aggregate. Outstanding options to acquire Excel common stock were converted into options to acquire the Corporation s common stock. Excel, with \$616.0 million in consolidated assets as of June 30, 2007, has four branches in the greater Minneapolis/St. Paul, Minnesota metropolitan area. The current Excel branches became branches of M&I Bank on August 1, 2007.

8. Investment Securities

Selected investment securities, by type, held by the Corporation were as follows (\$000 s):

	June 30, 2007	December 31, 2006	June 30, 2006
Investment securities available for sale:			
U.S. treasury and government agencies	\$ 5,597,523	\$ 5,466,369	\$ 5,219,287
States and political subdivisions	888,816	824,015	748,967
Mortgage backed securities	100,471	114,467	101,945
Other	578,612	573,002	557,088
Total	\$ 7,165,422	\$ 6,977,853	\$ 6,627,287
Investment securities held to maturity:

Total	\$ 2,830,545	\$ 38,410	\$ 3,131,735	\$ 100,974	\$ 5,962,280	\$ 139,384

F-13

Table of Contents**MARSHALL & ILSLEY CORPORATION****Notes to Financial Statements (Continued)****June 30, 2007 & 2006 (Unaudited)**

The investment securities in the above table were temporarily impaired at June 30, 2007. This temporary impairment represents the amount of loss that would have been realized if the investment securities had been sold on June 30, 2007. The temporary impairment in the investment securities portfolio is predominantly the result of increases in market interest rates since the investment securities were acquired and not from deterioration in the creditworthiness of the issuer. At June 30, 2007, the Corporation had the ability and intent to hold these temporarily impaired investment securities until a recovery of fair value, which may be maturity.

9. Loans and Leases

The Corporation's loan and lease portfolio, including loans held for sale, consisted of the following (\$000's):

	June 30, 2007	December 31, 2006	June 30, 2006
Commercial, financial and agricultural	\$ 12,520,763	\$ 12,050,963	\$ 11,763,501
Cash flow hedging instruments at fair value	(2,073)	(2,773)	(4,362)
Commercial, financial and agricultural	12,518,690	12,048,190	11,759,139
Real estate:			
Construction	6,502,403	6,088,206	5,401,568
Residential mortgage	6,685,530	6,328,478	5,816,886
Home equity loans and lines of credit	4,205,734	4,342,362	4,537,014
Commercial mortgage	11,282,679	10,965,607	10,861,445
Total real estate	28,676,346	27,724,653	26,616,913
Personal	1,397,219	1,458,594	1,408,973
Lease financing	693,349	703,580	653,494
Total loans and leases	\$ 43,285,604	\$ 41,935,017	\$ 40,438,519

10. Financial Asset Sales

During the second quarter of 2007, the Corporation sold automobile loans with principal balances of \$52.2 million in securitization transactions. For the three and six months ended June 30, 2007, the Corporation recognized net gains of \$1.3 million and \$1.1 million, respectively, from the sale and securitization of auto loans. Other income associated with auto securitizations, primarily servicing income, amounted to \$1.2 million in the current quarter.

Key economic assumptions used in measuring the retained interests at the date of securitization resulting from securitizations completed during the quarter were as follows (rate per annum):

Prepayment speed (CPR)

15-41%

Edgar Filing: MARSHALL & ILSLEY CORP/WI/ - Form DEFM14A

Weighted average life (in months)	22.9
Expected credit losses (based on original balance)	0.50-1.53%
Residual cash flow discount rate	12.0%
Variable returns to transferees	Forward one-month LIBOR yield curve

F-14

Table of Contents**MARSHALL & ILSLEY CORPORATION****Notes to Financial Statements (Continued)****June 30, 2007 & 2006 (Unaudited)**

At June 30, 2007, securitized automobile loans and other automobile loans managed together with them, along with delinquency and credit loss information consisted of the following (\$000 s):

	Securitized	Portfolio	Total Managed
Loan balances	\$ 787,445	\$ 207,043	\$ 994,488
Principal amounts of loans 60 days or more past due	2,539	445	2,984
Net credit losses (recoveries) year to date	3,664	210	3,874

At the end of the second quarter of 2007, the Corporation elected to discontinue the sale and securitization of automobile loans into the secondary market. Loans previously classified as held for sale were reclassified as portfolio loans at the lower of cost or market. The difference between cost and market was insignificant.

11. Goodwill and Other Intangibles

The changes in the carrying amount of goodwill for the six months ended June 30, 2007 were as follows (\$000 s):

	Banking	Metavante	Others	Total
Goodwill balance as of January 1, 2007	\$ 1,425,197	\$ 1,330,276	\$ 29,056	\$ 2,784,529
Goodwill acquired during the period	147,796	34,125	17,964	199,885
Purchase accounting adjustments	(2,971)	10,462	231	7,722
Goodwill balance as of June 30, 2007	\$ 1,570,022	\$ 1,374,863	\$ 47,251	\$ 2,992,136

Goodwill acquired during the second quarter of 2007 for the Banking segment included initial goodwill of \$147.8 million for the acquisition of United Heritage. Goodwill acquired during the second quarter of 2007 for the Others segment included initial goodwill of \$18.0 million related to the North Star acquisition. Goodwill acquired during the first quarter of 2007 for the Metavante segment included initial goodwill of \$34.1 million for the acquisition of Valutec.

Purchase accounting adjustments for the Metavante segment represent adjustments made to the initial estimates of fair value associated with the acquisition of VICOR, Inc. and Link2Gov Corp. In addition, purchase accounting adjustments for the Metavante segment included total earnout payments of \$8.0 million related to the acquisitions of Advanced Financial Solutions, Inc., Printing for Systems, Inc. and AdminiSource Corporation. Purchase accounting adjustments for the Banking segment and Others segment included adjustments primarily related to the April 2006 acquisition of Gold Banc Corporation, Inc.

Table of Contents**MARSHALL & ILSLEY CORPORATION****Notes to Financial Statements (Continued)****June 30, 2007 & 2006 (Unaudited)**

At June 30, 2007, the Corporation's other intangible assets consisted of the following (\$000 s):

	Gross Carrying Amount	June 30, 2007 Accum- ulated Amort- ization	Net Carrying Value
Other intangible assets			
Core deposit intangible	\$ 219,387	\$ 104,476	\$ 114,911
Data processing contract rights/customer lists	363,151	72,015	291,136
Trust customers	9,580	2,419	7,161
Tradename	9,850	1,167	8,683
Other Intangibles	3,188	952	2,236
	\$ 605,156	\$ 181,029	\$ 424,127
Mortgage loan servicing rights			\$ 2,305

Amortization expense of other acquired intangible assets for the three and six months ended June 30, 2007 amounted to \$12.0 million and \$23.0 million, respectively. For the three and six months ended June 30, 2006, amortization expense of other acquired intangible assets amounted to \$11.7 million and \$20.2 million, respectively. Amortization of mortgage servicing rights amounted to \$0.3 million and \$0.6 million for the three and six months ended June 30, 2007, respectively. For the three and six months ended June 30, 2006, amortization of mortgage servicing rights amounted to \$0.3 million and \$0.7 million, respectively.

The estimated amortization expense of other intangible assets and mortgage loan servicing rights for the next five annual fiscal years are (\$000 s):

2008	\$ 46,620
2009	43,496
2010	40,728
2011	38,306
2012	36,479

12. Deposits

The Corporation's deposit liabilities consisted of the following (\$000 s):

	June 30, 2007	December 31, 2006	June 30, 2006
Noninterest bearing demand	\$ 5,717,972	\$ 6,112,362	\$ 5,773,090

Table of Contents

MARSHALL & ILSLEY CORPORATION

Notes to Financial Statements (Continued)

June 30, 2007 & 2006 (Unaudited)

13. Income Taxes

Effective January 1, 2007, the Corporation adopted the provisions of FASB Interpretation No. 48 (FIN 48), *Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109*, and there was no effect on the consolidated financial statements. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in financial statements in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

As of the date of adoption the total amount of unrecognized tax benefits was \$92.1 million, of which \$71.8 million related to benefits that, if recognized, would impact the annual effective tax rate. Upon adoption of FIN 48, the Corporation changed its policy to include interest and penalties related to income tax liabilities in income tax expense. Prior to adoption of FIN 48, the Corporation recorded interest and penalties related to income tax liabilities to other expense, a component of Income Before Income Taxes. Included in the total liability for unrecognized tax benefits as of the date of adoption is \$6.8 million of interest and no penalties.

The Corporation, along with its subsidiaries, files income tax returns in the U.S. and various state jurisdictions. With limited exceptions, the Corporation is no longer subject to examinations by federal and state taxing authorities for taxable years before 2003.

The Corporation anticipates it is reasonably possible within 12 months of the adoption date that unrecognized tax benefits could be reduced up to approximately \$22 million. The reduction would principally result from settlements with taxing authorities as it relates to the tax benefits associated with a 2002 stock issuance.

14. Derivative Financial Instruments and Hedging Activities

The following is an update of the Corporation's use of derivative financial instruments and its hedging activities as described in its Annual Report on Form 10-K for the year ended December 31, 2006. There were no significant new hedging strategies employed during the six months ended June 30, 2007.

Trading Instruments and Other Free Standing Derivatives

Loan commitments accounted for as derivatives are not material to the Corporation and the Corporation does not employ any formal hedging strategies for these commitments.

Trading and free-standing derivative contracts are not linked to specific assets and liabilities on the balance sheet or to forecasted transactions in an accounting hedge relationship and, therefore, do not qualify for hedge accounting under SFAS 133. They are carried at fair value with changes in fair value recorded as a component of other noninterest income.

At June 30, 2007, free standing interest rate swaps consisted of \$2.7 billion in notional amount of receive fixed / pay floating with an aggregate negative fair value of \$25.8 million and \$1.8 billion in notional amount of pay fixed / receive floating with an aggregate positive fair value of \$25.0 million.

Table of Contents**MARSHALL & ILSLEY CORPORATION****Notes to Financial Statements (Continued)****June 30, 2007 & 2006 (Unaudited)**

At June 30, 2007, interest rate caps purchased amounted to \$17.5 million in notional amount with an immaterial fair value and interest rate caps sold amounted to \$17.5 million in notional amount with an immaterial fair value.

At June 30, 2007, the notional value of interest rate futures designated as trading was \$2.5 billion with a negative fair value of \$0.4 million.

The following table presents additional information with respect to fair value hedges.

Fair Value Hedges**June 30, 2007**

Hedged Item	Hedging Instrument	Notional Amount (\$in mil)	Fair Value (\$in mil)	Weighted Average Remaining Term (Yrs)
Fair Value Hedges that Qualify for Shortcut Accounting				
Fixed Rate Bank Notes	Receive Fixed Swap	\$ 390.9	\$ (21.8)	7.8
Other Fair Value Hedges				
Fixed Rate Bank Notes	Receive Fixed Swap	\$ 125.0	\$ (6.3)	9.0
Institutional CDs	Receive Fixed Swap	50.0	(1.0)	29.0
Callable CDs	Receive Fixed Swap	242.7	(3.6)	8.8

The impact from fair value hedges to total net interest income for the three and six months ended June 30, 2007 was a negative \$0.7 million and a negative \$1.6 million, respectively. The impact to net interest income due to ineffectiveness was not material.

The following table summarizes the Corporation's cash flow hedges.

Cash Flow Hedges**June 30, 2007**

Hedged Item	Hedging Instrument	Notional Amount (\$in mil)	Fair Value (\$in mil)	Weighted Average Remaining Term (Yrs)
Variable Rate Loans	Receive Fixed Swap	\$ 100.0	\$ (2.1)	1.0
Institutional CDs	Pay Fixed Swap	1,425.0	2.3	1.5
Federal Funds Purchased	Pay Fixed Swap	150.0	0.1	0.5
FHLB Advances	Pay Fixed Swap	1,410.0	19.6	3.7
Floating Rate Bank Notes	Pay Fixed Swap	550.0	1.0	2.4

The impact to total net interest income from cash flow hedges, including amortization of terminated cash flow hedges for the three and six months ended June 30, 2007 was a positive \$5.3 million and a positive \$11.2 million, respectively. For the three and six months ended June 30, 2007, respectively, the impact due to ineffectiveness was not material.

Table of Contents**MARSHALL & ILSLEY CORPORATION****Notes to Financial Statements (Continued)****June 30, 2007 & 2006 (Unaudited)**

For the three and six months ended June 30, 2006, the total effect on net interest income resulting from derivative financial instruments was a positive \$5.5 million and a positive \$9.6 million, respectively, including the amortization of terminated derivative financial instruments.

15. Postretirement Health Plan

The Corporation sponsors a defined benefit health plan that provides health care benefits to eligible current and retired employees. Eligibility for retiree benefits is dependent upon age, years of service, and participation in the health plan during active service. The plan is contributory and in 1997 and 2002 the plan was amended. Employees hired or retained from mergers after September 1, 1997 will be granted access to the Corporation's plan upon becoming an eligible retiree; however, such retirees must pay 100% of the cost of health care benefits. The plan continues to contain other cost-sharing features such as deductibles and coinsurance.

Net periodic postretirement benefit cost for the three and six months ended June 30, 2007 and 2006 included the following components (\$000 s):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Service cost	\$ 434	\$ 570	\$ 868	\$ 1,140
Interest cost on APBO	1,062	1,022	2,123	2,044
Expected return on plan assets	(355)	(232)	(710)	(464)
Prior service amortization	(680)	(680)	(1,360)	(1,360)
Actuarial loss amortization	121	378	242	757
Net periodic postretirement benefit cost	\$ 582	\$ 1,058	\$ 1,163	\$ 2,117

Benefit payments and expenses, net of participant contributions, for the three and six months ended June 30, 2007 amounted to \$1.2 million and \$2.3 million, respectively.

The funded status, which is the accumulated postretirement benefit obligation net of fair value of plan assets, as of June 30, 2007 is as follows (\$000 s):

Total funded status, December 31, 2006	\$ (50,309)
Service cost	(868)
Interest cost on APBO	(2,123)
Expected return on plan assets	710
Employer contributions/payments	9,282
Expected subsidy (Medicare Part D)	(384)
Total funded status, June 30, 2007	\$ (43,692)

16. Segments

Generally, the Corporation organizes its segments based on legal entities. Each entity offers a variety of products and services to meet the needs of its customers and the particular market served. Each entity has its own president and is separately managed subject to adherence to corporate policies. Discrete financial information is reviewed by senior management to assess performance on a monthly basis. Certain segments are combined and consolidated for purposes of assessing financial performance.

Table of Contents**MARSHALL & ILSLEY CORPORATION****Notes to Financial Statements (Continued)****June 30, 2007 & 2006 (Unaudited)**

The following represents the Corporation's operating segments as of and for the three and six months ended June 30, 2007 and 2006. During 2006, the Corporation transferred the residential and commercial mortgage banking reporting units, which were previously included in other business operations, to the Banking segment. Segment information for all periods presented has been adjusted for these transfers. There have not been any other changes to the way the Corporation organizes its segments.

Metavante transaction costs of \$2.6 million and \$4.0 million for the three and six months ended June 30, 2007, respectively and Net derivative losses of \$20.7 million and \$42.0 million for the three and six months ended June 30, 2006, respectively are not included in segment income, but are reported in Reclassifications, Eliminations and Adjustments in the following tables. Management does not include these items when assessing the financial results of the segment operations.

Fees intercompany represent intercompany revenue charged to other segments for providing certain services. Expenses intercompany represent fees charged by other segments for certain services received. For each segment, Expenses intercompany are not the costs of that segment's reported intercompany revenues. Intra-segment revenues, expenses and assets have been eliminated (\$ in millions):

	Three Months Ended June 30, 2007
