**Item 8.01 Other Events.**

In light of the Federal Deposit Insurance Corporation's seizure of Washington Mutual ( WaMu ), Prudential Financial, Inc. (the Company ) reports that, as of September 25, 2008, securities issued by WaMu or its affiliates included in fixed maturities available for sale amounted to \$18 million for the Financial Services Businesses and \$0 million for the Closed Block Business based on amortized cost. Fair value at that date was approximately 30% of amortized cost for the Financial Services Businesses. The Company expects to record an other-than-temporary impairment for the quarter ending September 30, 2008 for securities issued by WaMu included in fixed maturities available for sale. The amount to be recorded as an other-than-temporary impairment for the quarter ending September 30, 2008 will be the difference between amortized cost and fair value at September 30, 2008.

Other-than-temporary impairments are reflected in realized investment gains (losses) and reduce income from continuing operations before income taxes and net income as determined under generally accepted accounting principles but are excluded from adjusted operating income of the Company's Financial Services Businesses.

The Company has entered into other contractual and commercial arrangements with or involving WaMu but does not believe that any of these arrangements is material to the Company's results of operations or cash flows in any particular quarterly or annual period.

Adjusted operating income differs from, and should not be viewed as a substitute for, income from continuing operations before income taxes or net income determined in accordance with generally accepted accounting principles, but is the financial measure that the Company uses to analyze the operations of each segment in managing its Financial Services Businesses.
