**Use of Non-GAAP Financial Information**

VeriSign provides quarterly and annual financial statements that are prepared in accordance with generally accepted accounting principles (GAAP). Along with this information, we typically disclose and discuss certain non-GAAP financial information in our quarterly and annual earnings releases, on investor conference calls and during investor conferences and related events. This non-GAAP financial information does not include the following types of financial measures that are included in GAAP: discontinued operations, non-core businesses in continuing operations, stock-based compensation, amortization of other intangible assets, impairments of goodwill and other intangible assets, restructuring costs and non-cash interest expense. Non-GAAP financial information is also adjusted for a 30% tax rate which differs from the GAAP tax rate. All non-GAAP figures for each period presented in Exhibit 99.1 have been conformed to exclude the foregoing items under GAAP. Prior disclosures of non-GAAP figures may not exclude these same items and as such should not be used for comparison purposes.

Management believes that this non-GAAP financial data supplements our GAAP financial data by providing investors with additional information that allows them to have a clearer picture of the company s core operations. The presentation of this additional information is not meant to be considered in isolation nor as a substitute for results prepared in accordance with GAAP. We believe that the non-GAAP information enhances the investors overall understanding of our financial performance and the comparability of the company s operating results from period to period. In the press release attached hereto to as Exhibit 99.1, we have provided a reconciliation of the non-GAAP financial information that we provide each quarter with the comparable financial information reported in accordance with GAAP for the given period.
