CAUTIONARY STATEMENT FOR FORWARD LOOKING STATEMENTS

Certain statements in this report, other than purely historical information, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements generally are identified by the words believe, project, expect, anticipate, estimate, forecast, outlook. strategy, plan, may, should, will, would, will be, will continue, will likely result, or the negative thereof or variations thereon or terminology generally intended to identify forward-looking statements.

Forward-looking statements may relate to such matters as projections of revenue, margins, expenses, tax provisions, earnings, cash flows, benefit obligations, share repurchases or other financial items; any statements of the plans, strategies and objectives of management for future operations, including those relating to any statements concerning expected development, performance or market share relating to our products and services; any statements regarding future economic conditions or performance; any statements regarding pending investigations, claims or disputes, including those relating to the Internal Revenue Service audit of our consolidated subsidiaries tax filings in 2001 and 2002; any statements of expectation or belief; and any statements of assumptions underlying any of the foregoing. These statements are based on currently available information and our current assumptions, expectations and projections about future events. While we believe that our assumptions, expectations and projections are reasonable in view of the currently available information, you are cautioned not to place undue reliance on our forward-looking statements. These statements are not guarantees of future performance. They are subject to future events, risks and uncertainties many of which are beyond our control as well as potentially inaccurate assumptions, that could cause actual results to differ materially from our expectations and projections.

Factors that might affect our forward-looking statements include, among other things:

overall economic and business conditions;

the demand for our products and services;

competitive factors in the industries in which we compete;

changes in tax requirements (including tax rate changes, new tax laws and revised tax law interpretations);

the outcome of litigation and governmental proceedings;

the effect of income tax audit settlements;

interest rate fluctuations and other changes in borrowing costs;

other capital market conditions, including availability of funding sources and currency exchange rate fluctuations;

availability of and fluctuations in the prices of key raw materials;

Edgar Filing: Ingersoll-Rand plc - Form 10-K

economic and political conditions in international markets, including governmental changes and restrictions on the ability to transfer capital across borders;

the ability to achieve cost savings in connection with our strategic restructuring;

potential further impairment of our goodwill, indefinite-lived intangible assets and/or our long-lived assets;

the impact of fluctuations in the price of our ordinary shares;

changes in U.S. and non-U.S. governmental laws and regulations; and

the possible effects on us of future legislation in the U.S. that may limit or eliminate potential U.S. tax benefits resulting from our incorporation in a non-U.S. jurisdiction, such as Ireland, or deny U.S. government contracts to us based upon our incorporation in such non-U.S. jurisdiction.

Some of the material risks and uncertainties that could cause actual results to differ materially from our expectations and projections are described more fully in Item 1A Risk Factors. You should read that information in conjunction with Management s Discussion and Analysis of Financial Condition and Results of Operations in Item 7 of this report and our Consolidated Financial Statements and related notes in Item 8 of this report. We note such information for investors as permitted by the Private Securities Litigation Reform Act of 1995. There also may be other factors that have not been anticipated or that are not described in this report, generally because we do not perceive them to be material, which could cause results to differ materially from our expectations.

Forward-looking statements speak only as of the date they are made, and we do not undertake to update these forward-looking statements. You are advised, however, to review any further disclosures we make on related subjects in our periodic filings with the Securities and Exchange Commission.

PART I

Item 1. BUSINESS

Overview

Ingersoll-Rand plc (IR-Ireland), an Irish public limited company, and its consolidated subsidiaries (we, our, the Company) is a diversified, global company that provides products, services and solutions to enhance the quality and comfort of air in homes and buildings, transport and protect food and perishables, secure homes and commercial properties, and enhance industrial productivity and efficiency. Our business segments consist of Climate Solutions, Residential Solutions, Industrial Technologies and Security Technologies, each with strong brands and leading positions within their respective markets. We generate revenue and cash primarily through the design, manufacture, sale and service of a diverse portfolio of industrial and commercial products that include well-recognized, premium brand names such as Club Car[®], Hussmann[®], Ingersoll-Rand[®], Schlage[®], Thermo King[®] and Trane[®].

We are dedicated to inspiring progress for our customers, shareholders, employees and communities by achieving:

Dramatic Growth, by focusing on innovative solutions for our customers;

Operational Excellence, by pursuing continuous improvement in all of our operations; and

Dual Citizenship, by bringing together the talents of all Ingersoll Rand people to leverage the capabilities of our global enterprise. To achieve these goals and to become a more diversified company with strong growth prospects, we transformed our enterprise portfolio by divesting cyclical, low-growth and asset-intensive businesses. In addition, our acquisition strategy has helped deliver more consistent revenue and earnings performance across all phases of the economic cycle. Aside from our portfolio transformation, we continue to focus on increasing our recurring revenue stream, which includes revenues from parts, service, used equipment and rentals. We also intend to continuously improve the efficiencies, capabilities, products and services of our high-potential businesses.

On July 1, 2009, Ingersoll-Rand Company Limited (IR-Limited), a Bermuda company, completed a reorganization to change the jurisdiction of incorporation of the parent company of Ingersoll Rand from Bermuda to Ireland. As a result, IR-Ireland replaced IR-Limited as the ultimate parent company effective July 1, 2009. All references related to the Company prior to July 1, 2009 relate to IR-Limited.

Ireland Reorganization

On March 5, 2009, our board of directors approved a reorganization of the Company that would change the jurisdiction of incorporation of our parent company from Bermuda to Ireland (the Ireland Reorganization). The first step in the Ireland Reorganization was the establishment of IR-Limited s tax residency in Ireland, which occurred in March 2009. Subsequently, IR-Ireland replaced IR-Limited as the ultimate parent company pursuant to a scheme of arrangement under Bermuda law (the Scheme of Arrangement). Major milestones to complete the Scheme of Arrangement were as follows:

On April 1, 2009, IR-Limited formed IR-Ireland as a direct subsidiary.

On April 20, 2009, IR-Limited petitioned the Supreme Court of Bermuda to order the calling of a meeting of the Class A common shareholders of IR-Limited to approve the Scheme of Arrangement.

Edgar Filing: Ingersoll-Rand plc - Form 10-K

On April 23, 2009, the Supreme Court of Bermuda ordered IR-Limited to seek the approval of its Class A common shareholders on the Scheme of Arrangement.

On June 3, 2009, IR-Limited received the requisite approval from its Class A common shareholders.

On June 11, 2009, the Supreme Court of Bermuda issued an order (the Sanction Order) approving the Scheme of Arrangement. On June 30, 2009, IR-Limited filed the Sanction Order with the Bermuda Registrar of Companies and, at 12:01 a.m. on July 1, 2009 (the Transaction Time) the following steps occurred simultaneously:

All fractional shares of IR-Limited held of record were cancelled and IR-Limited paid to each holder of fractional shares that were cancelled an amount based on the average of the high and low trading prices of the IR-Limited Class A common shares on the New York Stock Exchange on June 29, 2009.

All previously outstanding whole Class A common shares of IR-Limited were cancelled.

IR-Limited issued to IR-Ireland 319,166,220 Class A common shares.

IR-Ireland issued 319,166,220 ordinary shares to holders of whole IR-Limited Class A common shares that were cancelled as a part of the Scheme of Arrangement.

All previously outstanding ordinary shares of IR-Ireland held by IR-Limited and its nominees were acquired by IR-Ireland and cancelled for no consideration.

As a result of the Ireland Reorganization, IR-Limited became a wholly-owned subsidiary of IR-Ireland and the Class A common shareholders of IR-Limited became ordinary shareholders of IR-Ireland.

The Ireland Reorganization did not have a material impact on our financial results. Ingersoll-Rand plc will still continue to be subject to United States Securities and Exchange Commission reporting requirements and prepare financial statements in accordance with U.S. Generally Accepted Accounting Principles (GAAP). Shares of Ingersoll-Rand plc will continue to trade on the New York Stock Exchange under the symbol IR, the same symbol under which the Ingersoll-Rand Company Limited Class A common shares previously traded.

At the Transaction Time, IR-Limited completed the transfer of all the outstanding shares of Ingersoll-Rand Global Holding Company Limited (IR-Global) to Ingersoll-Rand International Holding Limited (IR-International), another wholly-owned indirect subsidiary of IR-Limited incorporated in Bermuda, whereupon IR-International assumed the obligations of IR-Limited as an issuer or guarantor, as the case may be, under the indentures governing the Company s outstanding notes, medium-term notes and debentures. IR-Ireland and IR-Limited also fully and unconditionally guarantee the payment obligations of IR-International, IR-Global and Ingersoll-Rand Company, a wholly-owned indirect subsidiary of IR-Limited incorporated in New Jersey (IR-New Jersey), as the case may be, as the issuers of debt securities under these indentures. Neither IR-Ireland nor IR-Limited has issued or intends to issue guarantees in respect of any indebtedness incurred by Trane. In addition, any securities issued by the Company that were convertible, exchangeable or exercisable into Class A common shares of IR-Limited became convertible, exchangeable or exercisable, as the case may be, into the ordinary shares of IR-Ireland.

Bermuda Reorganization

IR-New Jersey, was organized in 1905 under the laws of the State of New Jersey as a consolidation of Ingersoll-Sergeant Drill Company and the Rand Drill Company, whose businesses were established in the early 1870s.

IR-Limited was the successor to IR-New Jersey following a corporate reorganization that became effective on December 31, 2001 (the Bermuda Reorganization). The Bermuda Reorganization was accounted for as a reorganization of entities under common control and accordingly, did not result in any changes to the consolidated amounts of assets, liabilities and shareholders equity.

Recent Acquisitions and Divestitures

On June 5, 2008 (the Acquisition Date), we completed our acquisition of 100% of the outstanding common shares of Trane Inc. (Trane). Trane, previously named American Standard Companies Inc., provides systems and services that enhance the quality and comfort of the air in homes and buildings around the world. Trane s systems and services have leading positions in commercial, residential, institutional and industrial markets; a reputation for reliability, high quality and product innovation; and a powerful distribution network. The total cost of the acquisition was approximately \$9.6 billion, which was funded by a combination of cash on hand, commercial paper and a 364-day senior unsecured bridge loan facility.

On November 30, 2007, we completed the sale of our Bobcat, Utility Equipment and Attachments business units (collectively, Compact Equipment) to Doosan Infracore for cash proceeds of approximately \$4.9 billion, subject to post-closing purchase price adjustments. Compact Equipment manufactured and sold compact equipment including skid-steer loaders, compact track loaders, mini-excavators and telescopic tool handlers, portable air compressors, generators, light towers, general-purpose light construction equipment and attachments. We are currently in the process of resolving the final purchase price adjustments with Doosan Infracore.

On April 30, 2007, we completed the sale of our Road Development business unit to AB Volvo (publ) for cash proceeds of approximately \$1.3 billion. The Road Development business unit manufactured and sold asphalt paving equipment, compaction equipment, milling machines and construction-related material handling equipment.

Business Segments

Our business segments provide products, services and solutions used to increase the efficiency and productivity of both industrial and commercial operations and homes, as well as improve the security, safety, health and comfort of people around the world.

In the fourth quarter of 2009, we realigned our external reporting structure to more closely reflect our corporate and business strategies and to promote additional productivity and growth. Our segments are now as follows: Climate Solutions, Residential Solutions, Industrial Technologies and Security Technologies. As part of the change, we eliminated the Air Conditioning Systems and Services segment which represented the acquired Trane business and created two new reportable segments, the Climate Solutions segment and the Residential Solutions segment. Our business segments are as follows:

Climate Solutions

Our Climate Solutions segment delivers energy-efficient refrigeration and Heating, Ventilation and Air Conditioning (HVAC) solutions throughout the world. Encompassing the transport and stationary refrigeration markets as well as the commercial HVAC markets, this segment offers customers a broad range of products, services and solutions to manage controlled temperature environments. This segment, which had 2009 net revenues of \$7.3 billion, includes the market leading brands of Hussmann, Thermo King and Trane.

Residential Solutions

Our Residential Solutions segment provides safety, comfort and efficiency to homeowners throughout North America and parts of South America. It offers customers a broad range of products, services and solutions including mechanical and electronic locks, energy-efficient HVAC systems, indoor air quality solutions, advanced controls, portable security systems and remote home management. This segment, which had 2009 net revenues of \$2.0 billion, is comprised of well-known brands like American Standard, Schlage and Trane.

Industrial Technologies

Our Industrial Technologies segment provides products, services and solutions that enhance energy efficiency, productivity and operations. It offers our global customers a diverse and innovative range of products including compressed air systems, tools, pumps, fluid handling systems, golf and utility vehicles in addition to environmentally friendly micro turbines. This segment, which had 2009 net revenues of \$2.2 billion, includes the Club Car and Ingersoll Rand market-leading brands.

Security Technologies

Our Security Technologies segment is a leading global provider of products and services that make environments safe, secure and productive. The segment s market-leading products include electronic and biometric access control systems and software, locks and locksets, door closers, exit devices, steel doors and frames, portable security devices, as well as time, attendance and personnel scheduling systems. These products serve a wide range of markets including the commercial construction market, healthcare, retail, maritime and transport industries as well as educational and governmental facilities. This segment, which had 2009 net revenues of \$1.7 billion, includes the CISA, LCN, Schlage and Von Duprin brands.

Products

Our principal products by business segment include the following:

- Aftermarket parts and service Air cleaners Air conditioners Air exchangers Air handlers Airside and terminal devices Applied systems Auxiliary idle reduction Auxiliary temperature management Boilers Building management systems Bus and rail HVAC systems Coils and condensers Containers and gensets Control systems Cryogenic temperature control systems
- Air cleaners Air conditioners Air exchangers Air handlers Boilers Door locks, latches and locksets Electrical security products Electronic access-control systems
- Air and electric tools Air balancers Air compressors & accessories Air motors Air treatment Blowers Diaphragm pumps Engine-starting systems

- **Climate Solutions**
 - Diesel-powered temperature control systems Display merchandisers Furnaces Heat pumps Humidifiers Installation contracting Package heating and cooling systems Refrigerated containers Refrigerated containers Refrigeration and electrical houses Refrigeration systems Surface and air sanitation Thermostats/controls Unitary systems Vehicle-powered truck refrigeration systems Walk-in coolers and freezers
- Residential Solutions Furnaces Heat pumps Humidifiers Package heating and cooling systems Portable security products Thermostats/controls Unitary systems

Industrial Technologies

These products are sold primarily under our name and under other names including American Standard [®] , CISA [®] , Club Car [®] , Hussmann [®] ,						
LCN [®] , Schlage [®] , Thermo King [®] , Von Duprin [®] and Trane [®] .						

Competitive Conditions

Our products are sold in highly competitive markets throughout the world. Due to the diversity of these products and the variety of markets served, we encounter a wide variety of competitors that vary by product line. They include well-established regional or specialized competitors, as well as larger U.S. and non-U.S. corporations or divisions of larger companies.

The principal methods of competition in these markets relate to price, quality, delivery, service and support, technology and innovation. We believe that we are one of the leading manufacturers in the world of HVAC systems and services, air compression systems, transport temperature control products, refrigerated display merchandisers, refrigeration systems and controls, air tools, and golf and utility vehicles. In addition, we believe we are a leading supplier in U.S. markets for architectural hardware products, mechanical locks and electronic and biometric access-control technologies.

Distribution

Our products are distributed by a number of methods, which we believe are appropriate to the type of product. U.S. sales are made through branch sales offices and through distributors, dealers and large retailers across the country. Non-U.S. sales are made through numerous subsidiary sales and service companies with a supporting chain of distributors throughout the world.

Customers

We have no major customers that accounted for more than 10% of our consolidated net revenues in 2009, 2008 or 2007. No material part of our business is dependent upon a single customer or a small group of customers; therefore, the loss of any one customer would not have a material adverse effect on our operations.

Raw Materials

We manufacture many of the components included in our products, which requires us to employ a wide variety of raw materials. Principal raw materials, such as steel, copper and aluminum, are purchased from a large number of independent sources around the world. In the past, higher prices for some raw materials, particularly steel and non-ferrous metals, have caused pricing pressures in some of our businesses; we have historically been able to pass certain of these cost increases on to customers in the form of price increases.

We believe that available sources of supply will generally be sufficient for the foreseeable future. There have been no raw material shortages which have had a material adverse effect on our businesses. However, significant changes in certain material costs may have an adverse impact on our costs and operating margins. To mitigate this potential impact, we enter into long-term supply contracts in order to manage our exposure to potential supply disruptions.

Working Capital

We manufacture products that usually must be readily available to meet our customer s rapid delivery requirements. Therefore, we maintain an adequate level of working capital to support our business needs and our customers requirements. Such working capital requirements are not, however, in the opinion of management, materially different from those experienced by our major competitors. Our sales and payment terms are generally similar to those of our competitors.

Edgar Filing: Ingersoll-Rand plc - Form 10-K

Research and Development

We engage in research and development activities in an effort to introduce new products, enhance existing products effectiveness, increase safety, improve ease of use and reliability as well as expand the various applications for which our products may be appropriate. In addition, we continually evaluate developing technologies in areas that we believe will enhance our business for possible investment or acquisition. We anticipate that we will continue to make significant expenditures for research and development activities as we look to maintain and improve our competitive position. Research and development expenditures, including qualifying engineering costs, were \$257.4 million in 2009, \$204.6 million in 2008 and \$128.6 million in 2007.

Patents and Licenses

We own numerous patents and patent applications, and are licensed under others. Although in aggregate we consider our patents and licenses to be valuable to our operations, we do not believe that our business is materially dependent on a single patent or license or any group of them. In our opinion, engineering, production skills and experience are more responsible for our market position than our patents and/or licenses.

Operations by Geographic Area

More than 35% of our 2009 net revenues were derived outside the U.S. and we sold products in more than 100 countries. Therefore, the attendant risks of manufacturing or selling in a particular country, such as nationalization and establishment of common markets, would not be expected to have a significant effect on our non-U.S. operations. For a discussion of risks attendant to our non-U.S. operations, see Risk Factors Currency exchange rate and commodity price fluctuations may adversely affect our results, Risk Factors Our global operations subject us to economic risks, in Item 1A and Quantitative and Qualitative Disclosure about Market Risk in Item 7A.

Backlog

Our approximate backlog of orders, believed to be firm, at December 31, 2009 and 2008, were as follows:

Dollar amounts in millions	2009	2008
Climate Solutions	\$ 1,232.1	\$ 1,259.5
Residential Solutions	43.4	45.4
Industrial Technologies	341.6	367.7
Security Technologies	160.4	166.1
Total	\$ 1,777.5	\$ 1,838.7

These backlog figures are based on orders received. While the major portion of our products are built in advance of order and either shipped or assembled from stock, orders for specialized machinery or specific customer application are submitted with extensive lead times and are often subject to revision, deferral, cancellation or termination. We expect to ship substantially the entire backlog at December 31, 2009 during 2010.

Environmental Matters

We continue to be dedicated to an environmental program intended to reduce the utilization and generation of hazardous materials during the manufacturing process as well as to remediate identified environmental concerns. As to the latter, we are currently engaged in site investigations and remediation activities to address environmental cleanup from past operations at current and former manufacturing facilities.

We are sometimes a party to environmental lawsuits and claims and have received notices of potential violations of environmental laws and regulations from the Environmental Protection Agency and similar state authorities. We have been also identified as a potentially responsible party (PRP) for cleanup costs associated with off-site waste disposal at federal Superfund and state remediation sites. For all such sites, there are other PRPs and, in most instances, our involvement is minimal.

In estimating our liability, we have assumed that we will not bear the entire cost of remediation of any site to the exclusion of other PRPs who may be jointly and severally liable. The ability of other PRPs to participate has been taken into account, based generally on the parties financial condition and probable contributions on a per site basis. Additional lawsuits and claims involving environmental matters are likely to arise from

time to time in the future.

During 2009, we spent \$10.8 million for environmental remediation at sites presently or formerly owned or leased by us. As of December 31, 2009 and 2008, we have recorded reserves for environmental matters of \$93.3 million and \$100.9 million, respectively. We believe that these expenditures and accrual levels will continue and may increase over time. Given the evolving nature of environmental laws, regulations and technology, the ultimate cost of future compliance is uncertain.

For a further discussion of our potential environmental liabilities, see also Part II, Item 7, Management s Discussion and Analysis of Financial Condition and Results of Operations, Environmental and Asbestos Matters and also Note 23 to the consolidated financial statements.

Asbestos Matters

Certain wholly-owned subsidiaries of the Company are named as defendants in asbestos-related lawsuits in state and federal courts. In virtually all of the suits, a large number of other companies have also been named as defendants. The vast majority of those claims has been filed against either IR-New Jersey or Trane and generally allege injury caused by exposure to asbestos contained in certain historical products sold by IR-New Jersey or Trane, primarily pumps, boilers and railroad brake shoes. Neither IR-New Jersey nor Trane was a producer or manufacturer of asbestos, however, some formerly manufactured products utilized asbestos-containing components such as gaskets and packings purchased from third- party suppliers.

See also the discussion under Part II, Item 7, Management s Discussion and Analysis of Financial Condition and Results of Operations, Environmental and Asbestos Matters and also Note 23 to the consolidated financial statements.

Employees

As a result of the acquisition of Trane in the second quarter of 2008, we increased our workforce by approximately 30,000 people. As of December 31, 2009, we employed approximately 57,000 people throughout the world.

Available Information

We file annual, quarterly, and current reports, proxy statements, and other documents with the Securities and Exchange Commission (SEC) under the Securities Exchange Act of 1934. The public may read and copy any materials filed with the SEC at the SEC s Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. Also, the SEC maintains an Internet website that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC. The public can obtain any documents that are filed by us at http://www.sec.gov.

In addition, this Annual Report on Form 10-K, as well as our quarterly reports on Form 10-Q, current reports on Form 8-K and any amendments to all of the foregoing reports, are made available free of charge on our Internet website (<u>http://www.ingersollrand.com</u>) as soon as reasonably practicable after such reports are electronically filed with or furnished to the SEC. The Board of Directors of the Company has also adopted and posted in the Investor Relations section of its website our Corporate Governance Guidelines and charters for each of the Board standing committees.

Certifications

New York Stock Exchange Annual Chief Executive Officer Certification

The Company s Chief Executive Officer submitted to the New York Stock Exchange the Annual CEO Certification as the Company s compliance with the New York Stock Exchange s corporate governance listing standards required by Section 303A.12 of the New York Stock Exchange s listing standards.

Sarbanes-Oxley Act Section 302 Certification

The certifications of the Chief Executive Officer and Chief Financial Officer of the Company pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 have been filed as exhibits to this Annual Report on Form 10-K.

Item 1A. RISK FACTORS

The following are certain risk factors that could affect our business, financial condition, results of operations, and cash flows. These risk factors should be considered in connection with evaluating the forward-looking statements contained in this Annual Report on Form 10-K because these factors could cause the actual results and conditions to differ materially from those projected in forward-looking statements. Before you invest in our publicly traded securities, you should know that making such an investment involves some risks, including the risks described below. If any of the risks actually occur, our business, financial condition or results of operations could be negatively affected. In that case, the trading price of our ordinary shares could decline, and you may lose all or part of your investment.

Risks Relating to Our Businesses

We are relying on an indemnification agreement with respect to any potential liability arising from a European Commission Investigation into possible infringement of European Union competition law by Trane and its subsidiaries. If we were unable to rely on the indemnification agreement for any reason, any potential liability arising from the European Commission Investigation could have a material adverse effect on our financial condition and results of operations.

In connection with Trane s spinoff of the Vehicle Control Systems business into a new publicly traded company called WABCO Holdings Inc. (WABCO) on July 31, 2007, Trane entered into an Indemnification and Cooperation Agreement (Indemnification Agreement) with, among others, American Standard Europe BVBA (renamed WABCO Europe BVBA) (WABCO Europe), which became a subsidiary of WABCO following the spinoff. Pursuant to the Indemnification Agreement, WABCO Europe has agreed to indemnify Trane and its subsidiaries and their respective affiliates against any fines related to the European Commission Investigation. For a further discussion of European Commission Investigation, see Legal Proceedings. If the maximum fine is levied in 2010, the total liability could be as high as \$1.1 billion based on Trane s last full fiscal year of worldwide revenue attributable to all of its product lines owned at the time the Statement of Objections was issued, subject to a probable reduction for leniency of at least 20 percent provided WABCO Europe, as the leniency applicant, fulfilled all conditions set forth in the European Commission s leniency notice. WABCO has stated in its Form 10-K for the fiscal years ended December 31, 2009 that its ability to satisfy its obligations under the Indemnification Agreement is contingent on its funding capability at the time of the fine, which could be affected by, among other things, its ability to access its then existing credit facilities, its ability to obtain alternative sources of financing, its ability to obtain some payment relief from the European Commission or its ability to obtain a suspension of the payment obligation from the European Court of First Instance. If WABCO Europe were unable to satisfy its obligations under the Indemnification Agreement for any reason, any potential liability arising from the European Commission Investigation could have a material adverse effect on our financial condition and results of operations.

We face continuing risks relating to compliance with the Foreign Corrupt Practices Act (FCPA)

On November 10, 2004, the Securities and Exchange Commission (SEC) issued an Order directing that a number of public companies, including us, provide information relating to their participation in certain transactions under the United Nations Oil for Food Program. Upon receipt of the Order, we undertook a thorough review of our participation in the Oil for Food Program and provided the SEC with information responsive to its investigation of our participation in the program. On October 31, 2007, we announced that we had reached settlements with the SEC and the Department of Justice (DOJ) relating to certain payments made by our foreign subsidiaries in 2000-2003 in connection with the Oil for Food Program. Pursuant to the settlements with the SEC and DOJ, we have, among other things, (i) consented to the entry of a civil injunction in the SEC action, (ii) entered into a three-year deferred prosecution agreement (DPA) with the DOJ, and (iii) agreed to implement improvements to our compliance program designed to enhance detection and prevention of violations of the FCPA and other applicable anti-corruption laws. If the DOJ determines, in its sole discretion, that we have committed a federal

crime or have otherwise breached the DPA during its three-year term, we may be subject to prosecution for any federal criminal violation of which the DOJ has knowledge, including, without limitation, violations of the FCPA in connection with the Oil for Food Program. Breaches of the settlements with SEC and DOJ may also subject us to, among other things, further enforcement actions by the SEC or the DOJ, securities litigation and a general loss of investor confidence, any one of which could adversely affect our business prospects and the market value of our stock. For a further discussion of the settlements with the SEC and DOJ, see Legal Proceedings.

Furthermore, we have reported to the DOJ and SEC certain matters involving Trane, including one relating to the Oil for Food Program, and which raise potential issues under the FCPA and other applicable anti-corruption laws. With respect to these matters, we have conducted a thorough investigation which began in earnest promptly after our acquisition of Trane in June 2008. Previously, we had reported to the SEC and DOJ potential FCPA issues relating to one of our businesses in China, and we have reported back to them and shared with them our audit report, which indicated no FCPA violations. With respect to that same business in China, we have discussed with the DOJ and SEC another matter which raises potential FCPA issues. We have had preliminary discussions concerning the foregoing with the SEC and DOJ, to be followed by further discussions about them and possibly other matters which raise potential FCPA concerns. These matters (and others which may arise or of which we become aware in the future) may be deemed to violate the FCPA and other applicable anti-corruption laws. Such determinations could subject us to, among other things, further enforcement actions by the SEC or the DOJ (if, for example, the DOJ deems us to have violated the DPA), securities litigation and a general loss of investor confidence, any one of which could adversely affect our business prospects and the market value of our stock.

Our global operations subject us to economic risks.

Our global operations are dependent upon products manufactured, purchased and sold in the U.S. and internationally, including Europe, China, Brazil, Venezuela, Africa, India and Turkey. These activities are subject to risks that are inherent in operating globally, including the following:

countries could change regulations or impose currency restrictions and other restraints;

in some countries, there is a risk that the government may expropriate assets;

some countries impose burdensome tariffs and quotas;

national and international conflict, including terrorist acts, could significantly impact our financial condition and results of operations; and

economic downturns, political instability and war or civil disturbances may disrupt production and distribution logistics or limit sales in individual markets.

Currency exchange rate and commodity price fluctuations may adversely affect our results.

We are exposed to a variety of market risks, including the effects of changes in currency exchange rates, commodity prices and interest rates. See Part II Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

More than 35% of our 2009 net revenues were derived outside the U.S., and we expect sales to non-U.S. customers to continue to represent a significant portion of our consolidated net revenues. Although we enter into currency exchange contracts to reduce our risk related to currency exchange fluctuations, changes in the relative values of currencies occur from time to time and may, in some instances, have a significant effect on our results of operations. Because we do not hedge against all of our currency exposure, our business will continue to be susceptible to currency fluctuations.

Edgar Filing: Ingersoll-Rand plc - Form 10-K

Furthermore, the reporting currency for our financial statements is the U.S. dollar. We have assets, liabilities, revenues and expenses denominated in currencies other than the U.S. dollar. To prepare our consolidated financial statements, we must translate those assets, liabilities, revenues and expenses into U.S. dollars at the applicable exchange rates. Consequently, increases and decreases in the value of the U.S. dollar versus other currencies will affect the amount of these items in our consolidated financial statements, even if their value has not changed in their original currency.

We are also a large buyer of steel and non-ferrous metals, as well as other commodities required for the manufacture of our products. Volatility in the prices of these commodities could increase the costs of our products and services. We may not be able to pass on these costs to our customers and this could have a material adverse effect on our results of operations and cash flows. We may purchase commodity derivatives which reduce the volatility of the commodity prices for supplier contracts where fixed pricing is not available.

Significant shortages in the raw materials we use in our businesses and higher energy prices could increase our operating costs.

We rely on suppliers to secure raw materials, particularly steel and non-ferrous metals, required for the manufacture of our products. A disruption in deliveries from our suppliers or decreased availability of raw materials or commodities could have an adverse effect on our ability to meet our commitments to customers or increase our operating costs. We believe that available sources of supply will generally be sufficient for our needs for the foreseeable future. Nonetheless, the unavailability of some raw materials may have an adverse effect on our results of operations or financial condition.

Additionally, we are exposed to large fluctuations for the price of petroleum-based fuel due to the instability of current market prices. Higher energy costs increase our operating costs and the cost of shipping our products to customers around the world. Consequently, sharp price increases, the imposition of taxes or an interruption of supply, could cause us to lose the ability to effectively manage the risk of rising fuel prices and may have an adverse effect on our results of operations or financial condition.

Changes in weather patterns and seasonal fluctuations may adversely affect certain segments of the Company s business and impact overall results of operations.

Demand for certain segments of the Company s products and services is influenced by weather conditions. For instance, Trane s sales have historically tended to be seasonally higher in the second and third quarters of the year because, in the U.S. and other northern hemisphere markets, summer is the peak season for sales of air conditioning systems and services. Additionally, while there is demand for Trane s products and services throughout the year, a significant percentage of total sales are related to U.S. residential and commercial construction activity, which is generally higher in the second and third quarters of the year. Therefore, results of any quarterly period may not be indicative of expected results for a full year and unexpected cool trends or unseasonably warm trends during the summer season could negatively or positively affect certain segments of the Company s business and impact overall results of operations.

Material adverse legal judgments, fines, penalties or settlements could adversely affect our financial health.

We estimate that our available cash and our cash flow from operations will be adequate to fund our operations for the foreseeable future. In making this estimate, we have not assumed the need to make any material payments in connection with any pending litigation or investigations. As required by generally accepted accounting principles in the United States, we establish reserves based on our assessment of contingencies. Subsequent developments in legal proceedings, including current or future asbestos-related litigation, may affect our assessment and estimates of the loss contingency recorded as a reserve and we may be required to make additional material payments, which could result in an adverse effect on our results of operations.

Such an outcome could have important consequences. For example, it could:

increase our vulnerability to general adverse economic and industry conditions;

limit our flexibility in planning for, or reacting to, changes in our businesses and the industries in which we operate;

restrict our ability to exploit business opportunities; and

make it more difficult for us to satisfy our payment obligations with respect to our outstanding indebtedness. If the distribution of WABCO s shares by Trane on July 31, 2007 were to fail to qualify as tax-free for U.S. federal income tax purposes under Section 355 of the Internal Revenue Code (the Code), then Trane and Trane s shareholders who received WABCO common stock in the distribution may be required to pay U.S. federal income taxes.

On July 31, 2007, Trane (then known as American Standard Companies Inc.) completed the spinoff of its vehicle control systems business into a new publicly traded company named WABCO. At the time, Trane received a private letter ruling from the Internal Revenue Service (IRS) substantially to the effect that the distribution qualified as tax-free for U.S. federal income tax purposes under Section 355 of the Code. In addition, Trane received an opinion of Skadden, Arps, Slate, Meagher & Flom LLP, tax counsel to Trane, substantially to the effect that the distribution will qualify as tax-free to Trane, WABCO and Trane shareholders under Section 355 and related provisions of the Code. The ruling and opinion were based on, among other things, certain assumptions as well as on the accuracy of certain factual representations and statements made by WABCO and Trane. In rendering its ruling, the IRS also relied on certain covenants that Trane and WABCO entered into, including the adherence to certain restrictions on WABCO s and Trane s future actions.

In connection with our acquisition of Trane in June 2008, we received an opinion of Simpson Thacher & Bartlett LLP, tax counsel to us, substantially to the effect that the distribution should continue to qualify as tax-free to Trane, WABCO and Trane shareholders under Section 355 and related provisions of the Code. Notwithstanding receipt by Trane and us of the private letter ruling as well as the opinions of counsel, there can be no assurance that the IRS will not later assert that the distribution should be treated as a taxable transaction.

If the distribution fails to qualify for tax-free treatment, then Trane would recognize a gain in an amount equal to the excess of (i) the fair market value of WABCO s common stock distributed to the Trane shareholders over (ii) Trane s tax basis in such common stock. Under the terms of the Tax Sharing Agreement, in the event the distribution were to fail to qualify as a tax-free reorganization and such failure was not the result of actions taken after the distribution by Trane or any of its subsidiaries or shareholders, WABCO would be responsible for all taxes imposed on Trane as a result thereof. In addition, each Trane shareholder who received WABCO common stock in the distribution generally would be treated as having received a taxable distribution in an amount equal to the fair market value of WABCO s common stock received (including any fractional share sold on behalf of the shareholder), which would be taxable as a dividend to the extent of the shareholder s ratable share of Trane s current and accumulated earnings and profits at the time (as increased to reflect any current income including any gain recognized by Trane on the taxable distribution). The balance, if any, of the distribution would be treated as a nontaxable return of capital to the extent of the Trane shareholder s tax basis in its Trane stock, with any remaining amount being taxed as capital gain. If WABCO was unable to satisfy its obligations under the Tax Sharing Agreement or if Trane was unable to rely on the Tax Sharing Agreement for any reason, any potential liability arising from the distribution of WABCO s shares by Trane could have a material adverse effect on our financial condition and results of operations.

Risks Relating to Our Past Reorganizations

We effected a corporate reorganization in December 2001 to become a Bermuda company (the Bermuda Reorganization) and a subsequent corporate reorganization in July 2009 to become an Irish public limited company (the Ireland Reorganization). These reorganizations exposed us and our shareholders to the risks described below. In addition, we cannot be assured that all of the anticipated benefits of the reorganizations will be realized.

Changes in tax laws, regulations or treaties, changes in our status under U.S. or other tax laws or adverse determinations by taxing authorities could increase our tax burden or otherwise affect our financial condition or operating results, as well as subject our shareholders to additional taxes.

The realization of any tax benefit related to our reorganizations could be impacted by changes in tax laws, tax treaties or tax regulations or the interpretation or enforcement thereof by the U.S. tax authorities or any other tax authority. From time to time, proposals have been made and/or legislation has been introduced to change the U.S. tax law that if enacted could increase our tax burden and could have a material adverse impact on our financial condition and results of operations. For instance, recent legislative proposals would broaden the circumstances under which we would be considered a U.S. resident, which would significantly diminish the realization of any tax benefit related to our reorganizations. There are other recent U.S. tax legislative proposals that could modify or eliminate the tax deductibility of various currently deductible payments, which could materially and adversely affect our effective tax rate and cash tax position. Moreover, other legislative proposals could potentially affect us by overriding certain tax treaties and limiting the treaty benefits on certain payments by our U.S. subsidiaries to our non-U.S. affiliates, which would adversely affect our effective tax rate. We cannot predict the outcome of any specific legislation. While we are currently monitoring these proposals and are investigating all options, we could still be subject to increased U.S. taxation on a going forward basis no matter what action we undertake if certain legislative proposals are enacted and/or certain tax treaties are amended.

While our U.S. operations are subject to U.S. tax, we believe that a significant portion of our non-U.S. operations are generally not subject to U.S. tax other than withholding taxes. Our conclusions are based on, among other things, our determination that we, and a significant portion of our foreign subsidiaries, are not currently controlled foreign corporation s (CFC) within the meaning of the U.S. tax laws, although the IRS or a court may not concur with our conclusions. A non-U.S. corporation, such as us, will constitute a CFC for U.S. federal income tax purposes if certain ownership criteria are met. If the IRS or a court determined that we (or any of our non-U.S. subsidiaries) were a CFC, then each of our U.S. shareholders who own (directly, indirectly, or constructively) 10% or more of the total combined voting power of all classes of our stock (or the stock of any of our non-U.S. subsidiaries) on the last day of the applicable taxable year (a 10% U.S. Voting Shareholder) would be required to include in gross income for U.S. federal income tax purposes its pro rata share of our subpart F and other similar types of income of any of our subsidiaries determined to be a CFC) for the period during which we (and our non-U.S. subsidiaries) were a CFC. In addition, gain on the sale of our shares realized by such a shareholder may be treated as ordinary income to the extent of the shareholder s proportionate share of our and our CFC subsidiaries) are a CFC. Treatment of us or any of our non-U.S. subsidiaries as a CFC could have a material adverse impact on our financial condition and results of operations.

On July 20, 2007, we received a notice from the IRS containing proposed adjustments to our tax filings in connection with an audit of the 2001 and 2002 tax years. The IRS did not contest the validity of our reincorporation in Bermuda. The most significant adjustments proposed by the IRS involve treating the entire intercompany debt incurred in connection with our reincorporation in Bermuda as equity. As a result of this recharacterization, the IRS disallowed the deduction of interest paid on the debt and imposed dividend withholding taxes on the payments denominated as interest. The IRS also asserted an alternative argument to be applied if the intercompany debt is respected as debt. In that circumstance, the IRS proposed to ignore the entities that hold the debt and to which the interest was paid, and impose 30% withholding tax on a portion of the interest

payments as if they were made directly to a company that was not eligible for reduced U.S. withholding tax under a U.S. income tax treaty. The IRS asserted under this alternative theory that we owe additional taxes with respect to 2002 of approximately \$84 million plus interest. If either of these positions were upheld in their entirety, we would be required to record additional charges. We strongly disagreed with the view of the IRS, and filed a protest with the IRS in the third quarter of 2007.

On January 12, 2010, we received an amended notice from the IRS eliminating its assertion that the intercompany debt incurred in connection with our reincorporation in Bermuda should be treated as equity. However, the IRS continues to assert the alternative position described above and proposes adjustments to our 2001 and 2002 tax filings. In addition, the IRS provided notice on January 19, 2010, that it is assessing penalties of 30% on the asserted underpayment of tax described above.

We have and intend to continue to vigorously contest these proposed adjustments. We, in consultation with our outside advisors, carefully considered the form and substance of our intercompany financing arrangements, including the actions necessary to qualify for the benefits of the applicable U.S. income tax treaties. We believe that these financing arrangements are in accordance with the laws of the relevant jurisdictions including the U.S., that the entities involved should be respected and that the interest payments qualify for the U.S. income tax treaty benefits claimed.

Although the outcome of this matter cannot be predicted with certainty, based upon an analysis of the strength of our position, we believe that we are adequately reserved for this matter. As we move forward to resolve this matter with the IRS, it is reasonably possible that the reserves established may be adjusted. However, we do not expect that the ultimate resolution will have a material adverse impact on our future results of operations or financial position. At this time, the IRS has not proposed any similar adjustments for years subsequent to 2002. However, if all or a portion of these adjustments proposed by the IRS are ultimately sustained, it is likely to also affect subsequent tax years. For a further discussion of the IRS audit, see Legal Proceedings and Note 20 to our consolidated financial statements.

As noted above, the IRS did not contest the validity of the Bermuda Reorganization in the above-mentioned notices. We believe that neither we nor our consolidated subsidiary IR-New Jersey will incur significant U.S. federal income or withholding taxes as a result of the transfer of the shares of our subsidiaries that occurred as part of the Bermuda Reorganization. However, we cannot give any assurances that the IRS will agree with our determination.

The inability to realize any anticipated tax benefits related to our reorganizations could have a material adverse impact on our financial condition and results of operations.

Legislative and regulatory action could materially and adversely affect us.

Our tax position could be adversely impacted by changes in tax laws, tax treaties or tax regulations or the interpretation or enforcement thereof by the U.S. tax authorities or any other tax authority. From time to time, proposals have been made and/or legislation has been introduced to change the U.S. tax law that if enacted could increase our tax burden and could have a material adverse impact on our financial condition and results of operations. For example, the Obama administration has recently announced various tax legislative proposals that, if adopted, could adversely impact the Company. Legislative action may be taken by the U.S. Congress which, if ultimately enacted, could potentially override U.S. tax treaties upon which we rely, broaden the circumstances under which we would be considered a U.S. resident or modify or eliminate the tax deductibility of various currently deductible payments, each of which could materially and adversely affect our effective tax rate and cash tax position. We cannot predict the outcome of any specific legislative proposals. However, if these or similar proposals that had the effect of disregarding the Ireland Reorganization, limiting our ability to take advantage of tax treaties between Ireland and other jurisdictions (including the United States) or modifying or eliminating the deductibility of various currently deductible payments to current income tax treaties, including between Ireland and other jurisdictions (including the United States) could subject us to increased taxation.

Also, the U.S. federal government and various states and municipalities have enacted or may enact legislation intended to deny government contracts to U.S. companies that reincorporate outside of the U.S. or have reincorporated outside of the U.S.

For instance, the Homeland Security Act of 2002, as amended, includes a provision that prohibits inverted domestic corporations and their subsidiaries from entering into contracts with the Department of Homeland Security. In addition, the State of California adopted legislation intended to limit the eligibility of certain non-U.S. chartered companies to participate in certain state contracts. More recently, the 2008, 2009 and 2010 Consolidated Appropriations Acts prohibit any federal government agency from using funds appropriated by Congress for fiscal years 2008, 2009 and 2010 to pay an inverted domestic corporation or any of its subsidiaries for work performed or products provided under certain federal contracts (Affected Contracts). Although the amount of monies already paid to us or to be paid to us under the Affected Contracts is not material to the Company, we cannot provide any assurance that the impact of future actions taken by the government in this area will not be materially adverse to our operations.

In addition, there continues to be negative publicity regarding, and criticism of, companies that conduct business in the United States and in other countries but have changed their place of incorporation to another country.

Our effective tax rate may increase notwithstanding the Ireland Reorganization.

While the Ireland Reorganization is not anticipated to have any material impact on our effective tax rate, there is uncertainty regarding the tax policies of the jurisdictions where we operate (which include the potential legislative actions described above), and our effective tax rate may increase and any such increase may be material. Additionally, the tax laws of Ireland and other jurisdictions could change in the future, and such changes could cause a material change in our effective tax rate.

Dividends received by our shareholders may be subject to Irish dividend withholding tax.

In certain circumstances, as an Irish tax resident company, we are required to deduct Irish dividend withholding tax (currently at the rate of 20%) from dividends paid to our shareholders. In the majority of cases, shareholders resident in the United States will not be subject to Irish withholding tax, and shareholders resident in a number of other countries will not be subject to Irish withholding tax provided that they complete certain Irish dividend withholding tax forms. However, some shareholders may be subject to withholding tax, which could adversely affect the price of our shares.

Dividends received by our shareholders could be subject to Irish income tax.

Dividends paid in respect of our shares will generally not be subject to Irish income tax where the beneficial owner of these dividends is exempt from dividend withholding tax, unless the beneficial owner of the dividend has some connection with Ireland other than his or her shareholding in Ingersoll Rand.

Our shareholders who receive their dividends subject to Irish dividend withholding tax will generally have no further liability to Irish income tax on the dividends unless the beneficial owner of the dividend has some connection with Ireland other than his or her shareholding in Ingersoll Rand.

A future transfer of our shares may be subject to Irish stamp duty.

In certain circumstances, the transfer of shares in an Irish incorporated company will be subject to Irish stamp duty (currently at the rate of 1% of the higher of the price paid or the market value of the shares acquired) payable by the buyer. Although in the majority of transactions there will be no stamp duty because both the seller and buyer hold the shares beneficially, this additional risk for the buyer could adversely affect the price of our shares. Although we currently intend to cause one of our affiliates to pay stamp duty in connection with share

transfers made in the ordinary course of trading by a seller who holds shares directly to a buyer who holds the acquired shares beneficially, our articles of association provide that, in the event of any such payment, we (i) may seek reimbursement from the transferor or transferee (at our discretion), (ii) may set-off the amount of the stamp duty against future dividends payable to the transferor or transferee (at our discretion), and (iii) will have a lien against our shares on which we have paid stamp duty and any dividends paid on such shares.

Irish law differs from the laws in effect in the United States and may afford less protection to holders of our securities.

It may not be possible to enforce court judgments obtained in the United States against us in Ireland based on the civil liability provisions of the U.S. federal or state securities laws. In addition, there is some uncertainty as to whether the courts of Ireland would recognize or enforce judgments of U.S. courts obtained against us or our directors or officers based on the civil liabilities provisions of the U.S. federal or state securities laws or hear actions against us or those persons based on those laws. We have been advised that the United States currently does not have a treaty with Ireland providing for the reciprocal recognition and enforcement of judgments in civil and commercial matters. Therefore, a final judgment for the payment of money rendered by any U.S. federal or state court based on civil liability, whether or not based solely on U.S. federal or state securities laws, would not automatically be enforceable in Ireland.

As an Irish company, we are governed by the Irish Companies Act, which differs in some material respects from laws generally applicable to U.S. corporations and shareholders, including, among others, differences relating to interested director and officer transactions and shareholder lawsuits. Likewise, the duties of directors and officers of an Irish company generally are owed to the company only. Shareholders of Irish companies generally do not have a personal right of action against directors or officers of the company and may exercise such rights of action on behalf of the company only in limited circumstances. Accordingly, holders of our securities may have more difficulty protecting their interests than would holders of securities of a corporation incorporated in a jurisdiction of the United States.

In addition, Irish law allows shareholders to authorize share capital which then can be issued by a board of directors without shareholder approval. Also, subject to specified exceptions, Irish law grants statutory pre-emptive rights to existing shareholders to subscribe for new issuances of shares for cash, but allows shareholders to authorize the waiver of the statutory pre-emptive rights with respect to any particular allotment of shares. These authorizations must be renewed by the shareholders every five years and we cannot guarantee that these authorizations will always be approved.

Item 1B. UNRESOLVED STAFF COMMENTS

None.

Item 2. **PROPERTIES**

As of December 31, 2009, we owned or leased a total of approximately 20 million square feet of space worldwide. Manufacturing and assembly operations are conducted in 94 plants across the world. We also maintain various warehouses, offices and repair centers throughout the world.

The majority of our plant facilities are owned by us with the remainder under long-term lease arrangements. We believe that our plants have been well maintained, are generally in good condition and are suitable for the conduct of our business.

The locations by segment of our major manufacturing facilities at December 31, 2009 were as follows:

Americas Londrina, Brazil Curitiba, Brazil Monterrey, Mexico Arecibo, Puerto Rico Fort Smith, Arkansas Chino, California Pueblo, Colorado Lynn Haven, Florida Louisville, Georgia Macon, Georgia Suwanee, Georgia Rushville, Indiana Lexington, Kentucky Minneapolis, Minnesota Bridgeton, Missouri Hastings, Nebraska Columbia, South Carolina Clarksville, Tennessee Waco, Texas La Crosse, Wisconsin

In the normal course of business, we are involved in a variety of lawsuits, claims and legal proceedings, including commercial and contract disputes, employment matters, product liability claims, environmental liabilities and intellectual property disputes. In our opinion, pending legal matters are not expected to have a material adverse effect on the results of operations, financial condition, liquidity or cash flows.

Oil for Food Program and Foreign Corrupt Practices Act (FCPA) matters

As previously reported, on November 10, 2004, the Securities and Exchange Commission (SEC) issued an Order directing that a number of public companies, including the Company, provide information relating to their participation in transactions under the United Nations Oil for Food Program. Upon receipt of the Order, the Company undertook a thorough review of its participation in the Oil for Food Program, provided the SEC with information responsive to the Order and provided additional information requested by the SEC. During a March 27, 2007 meeting with the SEC, at which a representative of the Department of Justice (DOJ) was also present, the Company began discussions concerning the resolution of this matter with both the SEC and DOJ. On October 31, 2007, the Company announced it had reached settlements with the SEC and DOJ relating to this matter. Under the terms of the settlements, the Company paid a total of \$6.7 million in penalties, interest and disgorgement of profits. The Company has consented to the entry of a civil injunction in the SEC action and has entered into a three-year deferred prosecution agreement (DPA) with the DOJ. Under both settlements, the Company has implemented and will continue to implement improvements to its compliance program that are consistent with its longstanding policy against improper payments. In the settlement documents, the Government noted that the Company thoroughly cooperated with the investigation, that the Company had conducted its own complete investigation of the conduct at issue, promptly and thoroughly reported its findings to them, and took prompt remedial measures.

Additionally, we have reported to the DOJ and SEC certain matters involving Trane, including one relating to the Oil for Food Program, and which raise potential issues under the FCPA and other applicable anti-corruption laws. With respect to these matters, we have conducted a thorough investigation, which began in earnest promptly after our acquisition of Trane in June 2008. Previously, we had reported to the SEC and DOJ potential FCPA issues relating to one of our businesses in China, and we have reported back to them and shared our audit report, which indicated no FCPA violations. With respect to that same business in China, we have discussed with the DOJ and SEC another matter which raises potential FCPA issues. We have had preliminary discussions concerning the foregoing with the SEC and DOJ, to be followed by further discussions about them and possibly other matters which raise potential FCPA concerns. These matters (and others which may arise or of which we become aware in the future) may be deemed to violate the FCPA and other applicable anti-corruption laws. Such determinations could subject us to, among other things, further enforcement actions by the SEC or the DOJ (if, for example, the DOJ deems us to have violated the DPA), securities litigation and a general loss of investor confidence, any one of which could adversely affect our business prospects and the market value of our stock.

The European Commission Investigation

In November 2004, Trane was contacted by the European Commission as part of a multi-company investigation into possible infringement of European Union competition law relating to the distribution of bathroom fixtures and fittings in certain European countries. On March 28, 2007, Trane, along with a number of other companies, received a Statement of Objections from the European Commission. The Statement of Objections, an administrative complaint, alleges infringements of European Union competition rules by numerous bathroom fixture and fittings companies, including Trane and certain of its former European subsidiaries engaged in the Bath and Kitchen business. These former subsidiaries were transferred (i) to WABCO on July 31, 2007 as part of a legal reorganization in connection with the spinoff of Trane s Vehicle Control Systems business and (ii) to Bain Capital Partners LLC on October 31, 2007 in connection with the sale of Trane s Bath & Kitchen business. Trane and certain of its former European subsidiaries will be jointly and severally liable for any fines that result from the investigation. However, pursuant to an Indemnification and Cooperation Agreement among Trane and certain other parties (Indemnification Agreement), American Standard Europe BVBA (renamed WABCO Europe BVBA) (WABCO Europe), which is a subsidiaries formerly engaged in the Bath and Kitchen business) and their respective affiliates against, any fines related to this investigation. Trane and the charged subsidiaries responded to the European Commission on August 1, 2007 and July 31, 2007, respectively. A hearing with the European Commission regarding the response to the Statement of Objections was conducted from November 12-14, 2007, in Brussels. WABCO Europe and other former Trane subsidiaries participated in the hearing. Trane, however, did not participate in the hearing.

In 2006, the European Commission adopted new fining guidelines (2006 Guidelines) and stated its intention to apply these guidelines in all cases in which a Statement of Objections is issued after September 2006. In applying the 2006 Guidelines, the Commission retains considerable discretion in calculating the fine although the European Union regulations provide for a cap on the maximum fine equal to ten percent of Tranes worldwide revenue attributable to all of its products for the fiscal year prior to the year in which the fine is imposed. If the maximum fine is levied in 2010, the total liability could be as high as \$1.1 billion based on Tranes last full fiscal year of worldwide revenue attributable to all of its businesses owned at the time the Statement of Objections was issued, subject to a probable reduction for leniency of at least 20 percent provided WABCO Europe, as the leniency applicant, fulfilled all conditions set forth in the European Commissions leniency notice. WABCO has stated in its Form 10-K for the fiscal year ended December 31, 2009, that its ability to satisfy its obligations under the Indemnification Agreement is contingent on its funding capability at the time of the fine, which could be affected by, among other things, its ability to access its then existing credit facilities, its ability to obtain alternative sources of financing, its ability to obtain some payment relief from the European Commission or its ability to obtain a suspension of the payment obligation from the European Court of First Instance.

Tax Related Matters

On July 20, 2007, we received a notice from the IRS containing proposed adjustments to our tax filings in connection with an audit of the 2001 and 2002 tax years. The IRS did not contest the validity of our reincorporation in Bermuda. The most significant adjustments proposed by the IRS involve treating the entire intercompany debt incurred in connection with our reincorporation in Bermuda as equity. As a result of this recharacterization, the IRS disallowed the deduction of interest paid on the debt and imposed dividend withholding taxes on the payments denominated as interest. The IRS also asserted an alternative argument to be applied if the intercompany debt is respected as debt. In that circumstance, the IRS proposed to ignore the entities that hold the debt and to which the interest was paid, and impose 30% withholding tax on a portion of the interest payments as if they were made directly to a company that was not eligible for reduced U.S. withholding tax under a U.S. income tax treaty. The IRS asserted under this alternative theory that we owe additional taxes with respect to 2002 of approximately \$84 million plus interest. If either of these positions were upheld in their entirety, we would be required to record additional charges. We strongly disagreed with the view of the IRS, and filed a protest with the IRS in the third quarter of 2007.

On January 12, 2010, we received an amended notice from the IRS eliminating its assertion that the intercompany debt incurred in connection with our reincorporation in Bermuda should be treated as equity. However, the IRS continues to assert the alternative position described above and proposes adjustments to our 2001 and 2002 tax filings. In addition, the IRS provided notice on January 19, 2010, that it is assessing penalties of 30% on the asserted underpayment of tax described above.

We have and intend to continue to vigorously contest these proposed adjustments. We, in consultation with our outside advisors, carefully considered the form and substance of our intercompany financing arrangements, including the actions necessary to qualify for the benefits of the applicable U.S. income tax treaties. We believe that these financing arrangements are in accordance with the laws of the relevant jurisdictions including the U.S., that the entities involved should be respected and that the interest payments qualify for the U.S. income tax treaty benefits claimed.

Although the outcome of this matter cannot be predicted with certainty, based upon an analysis of the strength of our position, we believe that we are adequately reserved for this matter. As we move forward to resolve this matter with the IRS, it is reasonably possible that the reserves established may be adjusted. However, we do not expect that the ultimate resolution will have a material adverse impact on our future results of operations or financial position. At this time, the IRS has not proposed any similar adjustments for years subsequent to 2002. However, if all or a portion of these adjustments proposed by the IRS are ultimately sustained, it is likely to also affect subsequent tax years. For a further discussion of tax matters, see Note 20 to the consolidated financial statements.

Asbestos Related Matters

Certain wholly-owned subsidiaries of the Company are named as defendants in asbestos-related lawsuits in state and federal courts. In virtually all of the suits, a large number of other companies have also been named as defendants. The vast majority of those claims has been filed against either Ingersoll Rand Company (IR-New Jersey) or Trane and generally allege injury caused by exposure to asbestos contained in certain historical products sold by IR-New Jersey or Trane, primarily pumps, boilers and railroad brake shoes. Neither IR-New Jersey nor Trane was a producer or manufacturer of asbestos, however, some formerly manufactured products utilized asbestos-containing components such as gaskets and packings purchased from third-party suppliers.

See also the discussion under Part II, Item 7, Management s Discussion and Analysis of Financial Condition and Results of Operations, Environmental and Asbestos Matters and also Note 23 to the consolidated financial statements.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of the Company s security holders during the last quarter of its fiscal year ended December 31, 2009.

Executive Officers of the Registrant

Pursuant to the General Instruction G(3) of Form 10-K, the following list of executive officers of the Company as of February 26, 2010 is included as an unnumbered item in Part I of this report in lieu of being included in the Company s Proxy Statement for its 2010 Annual General Meeting of Shareholders.

Name and Age	Date of Service as an Executive Officer	Principal Occupation and Other Information for Past Five Years
Michael W. Lamach (46)	2/16/2004	Chief Executive Officer and President (since February 2010); President and Chief Operating Officer (2009-2010); Senior Vice President and President, Trane Commercial (2008-2009); Senior Vice President and President, Security Technologies (2004-2008)
Steven R. Shawley (57)	8/1/2005	Senior Vice President and Chief Financial Officer (since June 2008); Senior Vice President and President, Climate Control Technologies (2005-2008); President, Climate Control Americas (2003-2005)
Marcia J. Avedon (48)	2/7/2007	Senior Vice President, Human Resources and Communication (since February 2007); Merck & Co., Inc., Senior Vice President, Human Resources (2003-2006)
James R. Bolch (52)	10/16/2005	Senior Vice President and President, Industrial Technologies (since
		October 2005); Schindler Elevator Corporation, Executive Vice President,
		Service Business (2004-2005)
John W. Conover IV (55)	7/1/2009	Senior Vice President and President, Security Technologies (since July 2009); President, Trane Commercial Systems, Americas (2005-2009)
William B. Gauld (56)	10/2/2006	Senior Vice President, Enterprise Services (since October 2006); W Group, Principal (2005-2006); Pearson, plc, Chief Information Officer (2001-2005)
Steven B. Hochhauser (48)	6/16/2008	Senior Vice President and President, Residential Solutions (since October 2009); Senior Vice President and President, Security Technologies (2008-2009); Johns Manville, Chairman, President and Chief Executive Officer (2004-2007) and Chief Operating Officer (2002-2004)
Patricia Nachtigal (63)	11/2/1988	Director (since January 1, 2002); Senior Vice President and General Counsel (since November 1988)
Didier Teirlinck (53)	6/4/2008	Senior Vice President and President, Climate Solutions (since October 2009); President, Climate Control Technologies (since June 2008); President, Climate Control Europe (2005-2008); President, Volvo Equipment (2000-2005)
Todd D. Wyman (42)	11/16/2009	Senior Vice President, Global Operations and Integrated Supply Chain:
		(since November 2009); GE Transportation, Vice President, Global Supply Chain (2007-2009); GE Transportation, General Manager, Global Supply Chain (2003-2007)

Edgar Filing: Ingersoll-Rand plc - Form 10-K

Richard J. Weller (53)

9/8/2008

Vice President and Controller (since September 2008); Vice President, Finance (June-September 2008); Vice President, Finance, Security Technologies Sector (2005-2008); Textron Inc., Vice President, Finance, Shared Services (2002-2005)

No family relationship exists between any of the above-listed executive officers of the Company. All officers are elected to hold office for one year or until their successors are elected and qualified.

Item 5.

PART II

MARKET FOR REGISTRANT S COMMON EQUITY, RELATED STOCKHOLDER

MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Information regarding the principal market for our ordinary shares and related shareholder matters is as follows:

Our ordinary shares are traded on the New York Stock Exchange under the symbol IR. As of February 18, 2010, the approximate number of record holders of ordinary shares was 5,521. The high and low sales price per share and the dividend paid per share for the following periods were as follows:

	Common shares					
2009	High		Low		Dividend	
First quarter	\$ 20.20	\$	11.46	\$	0.18	
Second quarter	24.02		13.65		0.18	
Third quarter	32.95		19.48		0.07	
Fourth quarter	37.60		28.77		0.07	
2008	High		Low	Ι	Dividend	
First quarter	\$ 46.57	\$	34.46	\$	0.18	
Second quarter	46.84		36.54		0.18	
Third quarter	41.14		29.18		0.18	
Fourth quarter	30.60		11.75		0.18	

The Bank of New York Mellon (BNY Mellon Shareowner Services, P.O. Box 358015, New York, NY 15252-8015, (800) 507-9357) is our transfer agent, registrar and dividend reinvestment agent.

Future dividends on our ordinary shares, if any, will be at the discretion of our Board of Directors and will depend on, among other things, our results of operations, cash requirements and surplus, financial condition, contractual restrictions and other factors that the Board of Directors may deem relevant, as well as our ability to pay dividends in compliance with the Irish Companies Act. Under the Irish Companies Act, dividends and distributions may only be made from distributable reserves. Distributable reserves, broadly, means the accumulated realized profits of IR-Ireland. In addition, no distribution or dividend may be made unless the net assets of IR-Ireland are equal to, or in excess of, the aggregate of IR-Ireland s called up share capital plus undistributable reserves and the distribution does not reduce IR-Ireland s net assets below such aggregate.

Information regarding equity compensation plans required to be disclosed pursuant to this Item is incorporated by reference from our definite Proxy Statement for the Annual General Meeting of Shareholders.

We treat ordinary shares of our parent owned by a subsidiary as treasury stock. These shares are recorded at cost and included in the Shareholders equity section of the Consolidated Balance Sheet. At December 31, 2007, Class A common shares of IR-Limited owned by the Company amounted to 97.4 million. As a result of the acquisition of Trane in June 2008, the Company issued 45.4 million IR-Limited Class A common shares to fund the equity portion of the consideration. In June 2009, IR-Limited cancelled the remaining 52.0 million shares in anticipation of the Ireland Reorganization that became effective on July 1, 2009.

Total share repurchases for the year ended December 31, 2009 are as follows:

				Approximate dollar value of shares still available to be
	Total number of shares	Average	Total number of shares purchased as part of the	purchased under the program
	purchased	price paid	publicly announced	
Period	(000 s)	per share	program (000 s)	(\$000 s)
01/01/2009 - 03/31/2009	-	-	-	\$ 1,998,120
04/01/2009 - 06/30/2009	-	-	-	1,998,120
07/01/2009 - 09/30/2009	-	-	-	1,998,120
10/01/2009 - 12/31/2009	-	-	-	1,998,120
Total	-		-	

Performance Graph

The following graph compares the cumulative total shareholder return on our ordinary shares with the cumulative total return on (i) the Standard & Poor s 500 Stock Index and (ii) the Standard & Poor s 500 Industrial Index for the five years ended December 31, 2009. The graph assumes an investment of \$100 in our ordinary shares, the Standard & Poor s 500 Stock Index and the Standard & Poor s 500 Industrial Index on December 31, 2004 and assumes the reinvestment of dividends.

Dividends per common share	\$	0.50	\$	0.72	\$	0.72	\$	0.68	\$	0.57

1. 2006 2005 amounts have been restated to reflect Compact Equipment and the Road Development business unit as discontinued operations.

- 2. 2008 amounts include the results of Trane since the acquisition date (June 5, 2008 through December 31, 2008).
- 3. 2008 Earnings (loss) from continuing operations include an after-tax, non-cash asset impairment charge of \$3.4 billion that was recognized in the fourth quarter.

Item 7. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS The following Management s Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from the results discussed in the forward-looking statements. Factors that might cause a difference include, but are not limited to, those discussed under Item 1A. Risk Factors in this Annual Report on Form 10-K. The following section is qualified in its entirety by the more detailed information, including our financial statements and the notes thereto, which appears elsewhere in this Annual Report.

Overview

Organization

Ingersoll-Rand plc (IR-Ireland), an Irish public limited company, and its consolidated subsidiaries (we, our, the Company) is a diversified, global company that provides products, services and solutions to enhance the quality and comfort of air in homes and buildings, transport and protect food and perishables, secure homes and commercial properties, and increase industrial productivity and efficiency. Our business segments consist of Climate Solutions, Residential Solutions, Industrial Technologies and Security Technologies, each with strong brands and leading positions within their respective markets. We generate revenue and cash primarily through the design, manufacture, sale and service of a diverse portfolio of industrial and commercial products that include well-recognized, premium brand names such as Club Car[®], Hussmann[®], Ingersoll-Rand[®], Schlage[®], Thermo King[®] and Trane[®].

We are dedicated to inspiring progress for our customers, shareholders, employees and communities by achieving:

Dramatic Growth, by focusing on innovative solutions for our customers;

Operational Excellence, by pursuing continuous improvement in all of our operations; and

Dual Citizenship, by bringing together the talents of all Ingersoll Rand people to leverage the capabilities of our global enterprise. To achieve these goals and to become a more diversified company with strong growth prospects, we transformed our enterprise portfolio by divesting cyclical, low-growth and asset-intensive businesses. In addition, our acquisition strategy has helped deliver more consistent revenue and earnings performance across all phases of the economic cycle. Aside from our portfolio transformation, we continue to focus on increasing our recurring revenue stream, which includes revenues from parts, service, used equipment and rentals. We also intend to continuously improve the efficiencies, capabilities, products and services of our high-potential businesses.

On July 1, 2009, Ingersoll-Rand Company Limited (IR-Limited), a Bermuda company, completed a reorganization to change the jurisdiction of incorporation of the parent company of Ingersoll Rand from Bermuda to Ireland. As a result, IR-Ireland replaced IR-Limited as the ultimate parent company effective July 1, 2009. All references related to the Company prior to July 1, 2009 relate to IR-Limited.

Ireland Reorganization

On March 5, 2009, our board of directors approved a reorganization of the Company that would change the jurisdiction of incorporation of our parent company from Bermuda to Ireland (the Ireland Reorganization). The first step in the Ireland Reorganization was the establishment of IR-Limited s tax residency in Ireland, which occurred in March 2009. Subsequently, IR-Ireland replaced IR-Limited as the ultimate parent company pursuant to a scheme of arrangement under Bermuda law (the Scheme of Arrangement). Major milestones to complete the Scheme of Arrangement were as follows:

On April 1, 2009, IR-Limited formed IR-Ireland as a direct subsidiary.

Edgar Filing: Ingersoll-Rand plc - Form 10-K

On April 20, 2009, IR-Limited petitioned the Supreme Court of Bermuda to order the calling of a meeting of the Class A common shareholders of IR-Limited to approve the Scheme of Arrangement.

On April 23, 2009, the Supreme Court of Bermuda ordered IR-Limited to seek the approval of its Class A common shareholders on the Scheme of Arrangement.

On June 3, 2009, IR-Limited received the requisite approval from its Class A common shareholders.

On June 11, 2009, the Supreme Court of Bermuda issued an order (the Sanction Order) approving the Scheme of Arrangement. On June 30, 2009, IR-Limited filed the Sanction Order with the Bermuda Registrar of Companies and, at 12:01 a.m. on July 1, 2009 (the Transaction Time) the following steps occurred simultaneously:

All fractional shares of IR-Limited held of record were cancelled and IR-Limited paid to each holder of fractional shares that were cancelled an amount based on the average of the high and low trading prices of the IR-Limited Class A common shares on the New York Stock Exchange on June 29, 2009.

All previously outstanding whole Class A common shares of IR-Limited were cancelled.

IR-Limited issued to IR-Ireland 319,166,220 Class A common shares.

IR-Ireland issued 319,166,220 ordinary shares to holders of whole IR-Limited Class A common shares that were cancelled as a part of the Scheme of Arrangement.

All previously outstanding ordinary shares of IR-Ireland held by IR-Limited and its nominees were acquired by IR-Ireland and cancelled for no consideration.

As a result of the Ireland Reorganization, IR-Limited became a wholly-owned subsidiary of IR-Ireland and the Class A common shareholders of IR-Limited became ordinary shareholders of IR-Ireland.

The Ireland Reorganization did not have a material impact on our financial results. Ingersoll-Rand plc will still continue to be subject to United States Securities and Exchange Commission reporting requirements and prepare financial statements in accordance with U.S. Generally Accepted Accounting Principles. Shares of Ingersoll-Rand plc will continue to trade on the New York Stock Exchange under the symbol IR, the same symbol under which the Ingersoll-Rand Company Limited Class A common shares previously traded.

At the Transaction Time, IR-Limited completed the transfer of all the outstanding shares of Ingersoll-Rand Global Holding Company Limited (IR-Global) to Ingersoll-Rand International Holding Limited (IR-International), another wholly-owned indirect subsidiary of IR-Limited incorporated in Bermuda, whereupon IR-International assumed the obligations of IR-Limited as an issuer or guarantor, as the case may be, under the indentures governing the Company s outstanding notes, medium-term notes and debentures. IR-Ireland and IR-Limited also fully and unconditionally guarantee the payment obligations of IR-International, IR-Global and Ingersoll-Rand Company, a wholly-owned indirect subsidiary of IR-Limited incorporated in New Jersey (IR-New Jersey), as the case may be, as the issuers of debt securities under these indentures. Neither IR-Ireland nor IR-Limited has issued or intends to issue guarantees in respect of any indebtedness incurred by Trane. In addition, any securities issued by the Company that were convertible, exchangeable or exercisable into Class A common shares of IR-Limited became convertible, exchangeable or exercisable, as the case may be, into the ordinary shares of IR-Ireland.

Edgar Filing: Ingersoll-Rand plc - Form 10-K

On July 1, 2009, IR-Global amended and restated its commercial paper program (the Commercial Paper Program) pursuant to which IR-Global may issue, on a private placement basis, unsecured commercial paper notes up to a maximum aggregate amount outstanding at any time of \$2.25 billion. Under the Commercial Paper Program, IR-Global may issue notes from time to time, and the proceeds of the financing will be used for general corporate purposes. Each of IR-Ireland, IR-Limited and IR-International has provided an irrevocable and

unconditional guarantee for the notes issued under the Commercial Paper Program. Pursuant to the terms of our credit facility entered into on August 12, 2005 and our credit facility entered into on June 27, 2008 (the Credit Facilities), at the Transaction Time, IR-Ireland and IR-International became guarantors to such Credit Facilities. In connection therewith, IR-Ireland and IR-International entered into Addendums on July 1, 2009 to become parties to the Credit Facilities.

In connection with the Transaction, effective as of the Transaction Time, IR-Ireland assumed the existing obligations of IR-Limited under the equity incentive plans and other similar employee award plans of Ingersoll Rand (collectively, the Plans), including all awards issued thereunder. Furthermore, the Plans have been amended to provide (1) that ordinary shares of IR-Ireland will be issued, held available or used to measure benefits as appropriate under the Plans, in lieu of shares of IR-Limited, including upon exercise of any options or share appreciation rights or upon the vesting of restricted stock units or performance units issued under those Plans; and (2) for the appropriate substitution of IR-Ireland for IR-Limited in those Plans.

Trends and Economic Events

We are a global corporation with worldwide operations. As a global business, our operations are affected by worldwide, regional and industry-specific economic factors, as well as political factors, wherever we operate or do business. Our geographic and industry diversity, as well as the diversity of our product sales and services, has helped limit the impact of any one industry or the economy of any single country on our consolidated operating results.

Since the onset of the economic downturn in 2008, we have seen weaker demand for many of our products and services. Although the challenging and difficult end market environments in which we operate are showing signs of stabilization, albeit at lower levels, we are still operating in a depressed economic climate.

Despite the challenging economic environment, we continue to execute our business strategy. The divestiture of both Compact Equipment and the Road Development business unit in 2007, in addition to the acquisition of Trane in 2008, have enabled us to become more balanced across the products we offer. In addition, our current enterprise-wide restructuring actions initiated in the fourth quarter of 2008 are designed to streamline the footprint of our manufacturing facilities and reduce our general and administrative cost base.

Given the broad range of products manufactured and geographic markets served, management uses a variety of factors to predict the outlook for the Company. We monitor key competitors and customers in order to gauge relative performance and the outlook for the future. In addition, our order rates are indicative of future revenue and thus a key measure of anticipated performance. In those industry segments where we are a capital equipment provider, revenues depend on the capital expenditure budgets and spending patterns of our customers, who may delay or accelerate purchases in reaction to changes in their businesses and in the economy.

For 2010, we expect current market conditions to continue to impact our financial results. U.S. and European non-residential construction markets are expected to remain weak; however, some of our end markets are showing signs of stabilization.

Despite the current market environment, we have a solid foundation of global brands and leading market shares in all of our major product lines. Our growing geographic and industry diversity coupled with our large installed product base provides growth opportunities within our service, parts and replacement revenue streams. In addition, we are investing substantial resources to innovate and develop new products and services which will fuel our future growth.

Acquisition of Trane

At the close of business on June 5, 2008 (the Acquisition Date), we completed the acquisition of 100% of the outstanding common shares of Trane. Trane, previously named American Standard Companies Inc., provides systems and services that enhance the quality and comfort of the air in homes and buildings around the world.

Trane s systems and services have leading positions in premium commercial, residential, institutional and industrial markets, a reputation for reliability, high quality and product innovation and a powerful distribution network. Trane s 2007 annual revenues were \$7.5 billion.

We paid a combination of (i) 0.23 of an IR-Limited Class A common share and (ii) \$36.50 in cash, without interest, for each outstanding share of Trane common stock. The total cost of the acquisition was approximately \$9.6 billion, including change in control payments and direct costs of the transaction. We financed the cash portion of the acquisition with a combination of cash on hand, commercial paper and a 364-day senior unsecured bridge loan facility.

The components of the purchase price were as follows:

In billions		
Cash consideration	\$	7.3
Stock consideration (Issuance of 45.4 million IR-Limited Class A common shares)		2.0
Estimated fair value of Trane stock options converted to 7.4		
million IR-Limited stock options		0.2
Transaction costs		0.1
Total	\$	9.6
As a result of the acquisition, the results of the operations of Trane have been included in the statement of financial position at De	cember ?	31

As a result of the acquisition, the results of the operations of Trane have been included in the statement of financial position at December 31, 2009 and 2008 and the consolidated statements of operations and cash flows for the full year of 2009 and since the Acquisition Date in 2008. For further details on the acquisition of Trane, see Note 4 to the consolidated financial statements.

Significant events in 2009

In the fourth quarter of 2009, we realigned our external reporting structure to more closely reflect our corporate and business strategies and to promote additional productivity and growth. Our segments are now as follows: Climate Solutions, Residential Solutions, Industrial Technologies and Security Technologies. As part of the change, we eliminated the Air Conditioning Systems and services segment which represented the acquired Trane business and created two new reportable segments, the Climate Solutions segment and the Residential Solutions segment. See Note 24 in the consolidated financial statements for a further discussion of the segment realignment.

During 2009, we completed a comprehensive financing program that significantly enhanced our liquidity and debt profile. Actions taken include the issuance of \$1.0 billion in long-term debt (Senior Notes and Exchangeable Senior Notes) in April 2009 and the replacement of our Trane accounts receivable purchase program in March 2009 with a new accounts receivable purchase program that encompassed originators from all four of our business segments. The proceeds from our debt issuance were used to repay the \$950.0 million outstanding under our senior unsecured bridge loan facility.

In the fourth quarter of 2008, we initiated enterprise-wide restructuring actions in order to streamline both our manufacturing footprint and our general and administrative cost base. We have incurred approximately \$182.1 million of costs associated with our restructuring programs since the fourth quarter of 2008, \$111.4 million of which occurred during 2009. These combined restructuring actions generated approximately \$194 million of annual pretax savings for 2009.

Significant events in 2008

As discussed in Acquisition of Trane above, on June 5, 2008, we acquired 100% of the outstanding common shares of Trane for approximately \$9.6 billion.

In August 2008, we filed a universal shelf registration statement with the Securities and Exchange Commission (SEC) for an indeterminate amount of securities for future issuance and issued \$1.6 billion of long-term debt pursuant to the shelf registration statement. This issuance consisted of \$250 million Senior Floating Rate Notes due in 2010, \$600 million 6.000% Senior Notes due in 2013 and \$750 million 6.875% Senior Notes due in 2018. These notes are fully and unconditionally guaranteed by IR-Limited, which directly owns 100% of the subsidiary issuer, IR Global Holding Company Limited. The net proceeds from the offering were used to partially reduce the amount outstanding under the senior unsecured bridge loan facility, which had a balance of \$754 million at December 31, 2008.

In the fourth quarter of 2008, we tested goodwill and other indefinite-lived intangible assets for impairment. As a result of decreased global equity valuations, the tightening of industrial and retail end markets and a resulting decline in our 2009 projected financial performance, we incurred a non-cash pre-tax impairment charge of \$3,710.0 million, \$3,385.0 million after-tax.

Significant events in 2007

On November 30, 2007, we completed the sale of our Bobcat, Utility Equipment and Attachments business units (collectively, Compact Equipment) to Doosan Infracore for cash proceeds of approximately \$4.9 billion, subject to post-closing purchase price adjustments. Compact Equipment manufactured and sold compact equipment including skid-steer loaders, compact track loaders, mini-excavators and telescopic tool handlers; portable air compressors, generators, light towers; general-purpose light construction equipment; and attachments. We are currently in the process of resolving the final purchase price adjustments with Doosan Infracore.

On April 30, 2007, we completed the sale of our Road Development business unit to AB Volvo (publ) for cash proceeds of approximately \$1.3 billion. The Road Development business unit manufactured and sold asphalt paving equipment, compaction equipment, milling machines and construction-related material handling equipment.

During 2007, we repurchased 39.7 million common shares at a cost \$1,999.9 million under our existing \$4 billion share repurchase program. This repurchase program was originally authorized by the Board of Directors in December 2006 to repurchase up to \$2 billion and subsequently expanded to \$4 billion in May 2007.

Net Revenues			. ,			

Net revenues for the year ended December 31, 2009 decreased by 0.2%, or \$32.1 million, compared with the same period of 2008, which primarily resulted from the following:

Volume/product mix			-15.5%
Pricing			0.8%
Currency exchange rates			-1.4%
Acquisitions			15.9%
Total			-0.2%

The acquisition of Trane increased net revenues by \$2,096.3 million compared with the same period of 2008. The increase, which represented 15.9% of the year-over-year change in revenues, was a consequence of 2008 reported results only reflecting activity since the Acquisition Date. Excluding the results of Trane, revenues decreased by 16.1%, or \$2,128.4 million, which resulted from lower volumes and product mix (16%) and an unfavorable currency impact (1%). These reductions were partially offset by improved pricing (1%). The Trane commercial and residential HVAC businesses also experienced substantial volume declines during the year.

Net revenues for the year ended December 31, 2008 increased by 50.9%, or \$4,464.3 million, compared with the same period of 2007, which primarily resulted from the following:

Volume/product mix	-4.3%
Pricing	2.6%
Currency exchange rates	1.7%
Acquisitions	50.9%
Total	50.9%

The acquisition of Trane on June 5, 2008 increased revenues by \$4,401.3 million compared to the same period in 2007. The increase, which represented 50.2% of the year-over-year change in revenues, was a consequence of 2008 reported results including activity since the Acquisition Date. Excluding the results of Trane, revenues increased by 0.7%, or \$63.0 million. Softening overall demand in many major end-markets was the primary driver of the volume reduction. However, we continued to make progress in increasing recurring revenues, which improved by 6% over prior year and accounted for 19% of net revenues in 2008.

Cost of Goods Sold

For the year ended December 31, 2009, cost of goods sold decreased by \$103.0 million, or 1.1% compared to the same period in 2008, which included the results of Trane since the Acquisition Date. Trane increased cost of goods sold by \$1,421.8 million, which contributed 14.6% to the year-over-year change. Excluding the results of Trane, cost of goods sold decreased by \$1,524.8 million, or 15.7% as a result of increased productivity actions and expense reduction across the businesses. These actions helped to mitigate the impact of lower volumes due to the continued global weakness in our major end markets. As a result, cost of goods sold as a percentage of revenue decreased to 73.1% from 73.7%. In addition, cost of goods sold included \$58.3 million of restructuring costs compared to restructuring and integration costs of \$56.7 million in 2008.

For the year ended December 31, 2008, cost of goods sold increased by \$3,476.1 million compared to the same period in 2007. The increase was primarily related to the acquisition of Trane, which contributed \$3,330.8 million to the year-over-year increase. As a result, cost of goods sold as a percentage of revenue increased to 73.7% compared with 71.6% for the same period of 2007. In addition, cost of goods sold included \$56.7 million of restructuring and integration costs compared to restructuring costs of \$24.8 million in 2007. Higher material costs and unfavorable business and product mix more than offset price increases. In addition, decreased leverage due to lower volumes contributed to the year-over-year increase.

Selling and Administrative Expenses

For the year ended December 31, 2009, selling and administrative expense increased by \$365.5 million, or 15.6% compared to the same period in 2008, which included the results of Trane since the Acquisition Date. Trane increased selling and administrative expenses by \$558.5 million, which contributed 23.8% to the year-over-year change. Excluding the results of Trane, selling and administrative expense decreased by \$193.0 million, or 8.2% as a result of increased productivity actions and expense reduction across the businesses. These actions partially offset the dramatic decline in volume experienced during 2009. As a result, selling and administrative expense included \$53.1 million of restructuring costs compared to \$34.2 million of restructuring and integration costs in 2008.

For the year ended December 31, 2008, selling and administrative expense increased by \$909.8 million compared to the same period in 2007. The increase was primarily related to the acquisition of Trane, which contributed \$877.3 million to the year-over-year-increase. As a result, selling and administrative expense as a percentage of revenue increased to 17.7% compared with 16.3% for the same period of 2007. In addition, selling and administrative expense included \$34.2 million of restructuring and integration costs compared to \$3.9 million of restructuring costs in 2007. Decreased leverage due to lower volumes more than offset expense reduction and price increases.

Asset Impairment

During the fourth quarter of 2008, we tested goodwill and other indefinite-lived intangible assets for impairment. As a result of decreased global equity valuations, the tightening of industrial and retail end markets and a resulting decline in our 2009 projected financial performance, we incurred a non-cash pre-tax impairment charge of \$3,710.0 million, \$3,385.0 million after-tax.

The following table summarizes the impairment charges that were taken by sector during 2008:

		Intangible	Marketabl	e
In millions	Goodwill	Assets	Securities	s Total
Climate Solutions	\$ 840.0	\$ 400.0	\$ -	\$ 1,240.0
Residential Solutions	1,656.0	454.0	-	2,110.0
Security Technologies	344.0	6.0	10.	0 360.0
Total	\$ 2,840.0	\$ 860.0	\$ 10.	0 \$ 3,710.0

For a further discussion of impairment related matters, see Goodwill and Indefinite-Lived Intangible Assets under Critical Accounting Policies and Note 5 to the consolidated financial statements.

Operating Margin

Operating margin for the year ended December 31, 2009 increased to 6.4% from a negative 19.5% for the same period in 2008, which included the results of Trane since the Acquisition Date. Operating margin for the year ended December 31, 2008 was impacted by a non-cash charge of \$3,710.0 million related to an asset impairment recognized in the fourth quarter. Excluding the asset impairment, which had a 28.1 point impact on 2008 operating margins, year-over-year operating margins decreased by 2.2 points. The primary drivers of the decrease related to lower volumes, an unfavorable currency impact and lower margins in the acquired Trane businesses. Results were further impacted by \$111.4 million of restructuring costs which impacted operating margins in 2009 by 0.8 points. Productivity actions, expense reduction and improved pricing helped to mitigate the impact of the continued global weakness in our major end markets.

Operating margin decreased from 12.1% for the year ended December 31, 2007 to a negative 19.5% for the same period in 2008, which included the results of Trane since the Acquisition Date. Operating margin for the year ended December 31, 2008 was impacted by a non-cash charge of \$3,710.0 million related to an asset impairment recognized in the fourth quarter. Excluding the asset impairment, which had a 28.1 point impact on 2008 operating margins, year-over-year operating margins decreased by 3.5 points. The primary drivers of the decrease related to lower volumes, higher commodity costs and an unfavorable business and product mix. Results were further impacted by restructuring and integration costs associated with the acquisition of Trane in June 2008. Productivity actions, expense reduction and improved pricing helped to mitigate the impact of the global weakness in our major end markets.

Interest Expense

Interest expense for the year ended December 31, 2009 increased \$56.8 million compared with the same period of 2008. The increase is primarily related to higher average debt levels as a result of the funding of the acquisition of Trane in June 2008.

Interest expense for the year ended December 31, 2008 increased \$109.2 million compared with the same period of 2007. The increase is primarily related to significantly higher debt levels used to help fund the acquisition of Trane in June 2008.

Other, Net

The year-over-year changes in Other, net primarily resulted from the following:

In millions	2009	2008	2007
Interest income	\$ 13.3	\$ 95.6	\$ 36.2
Currency gain (loss)	(36.1)	(41.9)	(2.8)
Earnings from equity investments	8.1	3.4	1.0
Other	34.4	6.1	(4.2)
Other, net	\$ 19.7	\$ 63.2	\$ 30.2

For the year ended December 31, 2009, Other, net decreased by \$43.5 million compared with the same period of 2008. The decrease was primarily related to lower interest income as a result of lower average cash balances during the year. The decrease was partially offset by lower exchange losses in 2009. In addition, we recorded income of approximately \$25 million in the fourth quarter of 2009 primarily related to a favorable settlement with an insurance carrier associated with a portion of our asbestos obligation. The settlement is included in other in the table above.

Included in currency exchange gains (losses) above is a \$24 million charge recorded in the fourth quarter of 2009, associated with the recent devaluation in the Venezuelan Bolivar. At December 31, 2009, we remeasured our foreign currency receivables and payables associated with the Venezuelan Bolivar at the parallel rate of 6.0 Bolivars for each U.S. dollar, based on our inability to settle certain transactions through the official government channels in an expeditious manner. Previously, we remeasured all foreign currency transactions at the official rate of 2.15 Bolivars for each U.S. dollar. In addition, effective January 1, 2010, Venezuela has been designated highly inflationary, as the blended Consumer Price Index/National Consumer Price Index reached cumulative three-year inflation in excess of 100% during the fourth quarter of 2009. As such, all future foreign currency fluctuations will be recorded in income.

For the year ended December 31, 2008, Other, net increased by \$33.0 million compared with the same period of 2007. The increase was a result of greater interest income generated by higher average cash balances prior to the acquisition of Trane in June 2008. The increase was partially offset by currency losses due to significant volatility in currency exchange rates, predominately in the fourth quarter.

Provision for Income Taxes

For the year ended December 31, 2009, the effective tax rate was 12.8% compared to 7.5% in 2008. The 2009 tax rate was below the U.S. Statutory rate of 35.0% primarily due to earnings in non-U.S. jurisdictions, which, in aggregate, have a lower effective rate. The 5.3 point increase in the effective rate is primarily the result of an increase in valuation allowances as well as changes in earnings mix offset by a reduction in our liability for unrecognized tax benefits.

For the year ended December 31, 2008, the effective tax rate was 7.5%. The tax rate was substantially below the U.S. Statutory rate of 35.0% primarily due to the large impairment charge recognized in the fourth quarter, as well as earnings in non-U.S. jurisdictions, which, in aggregate, have a lower effective rate. Excluding the impairment charge, the adjusted effective rate would have been 12.4%, compared with an effective rate of 21.8% in 2007. The 9.4 point reduction in the effective rate is primarily the result of lower earnings in high tax jurisdiction during 2008. See Note 20 to the consolidated financial statements for further discussion of tax matters.

Review of Business Segments

In the fourth quarter of 2009, we realigned our external reporting structure to more closely reflect our corporate and business strategies and to promote additional productivity and growth. Our segments are now as follows: Climate Solutions, Residential Solutions, Industrial Technologies and Security Technologies. As part of the

change, we eliminated the Air Conditioning Systems and Services segment which represented the acquired Trane business and created two new reportable segments, the Climate Solutions segment and the Residential Solutions segment. See Note 24 in the consolidated financial statements for a further discussion of the segment realignment.

The segment discussions that follow describe the significant factors contributing to the changes in results for each segment included in continuing operations.

Climate Solutions

Our Climate Solutions segment delivers energy-efficient refrigeration and Heating, Ventilation and Air Conditioning (HVAC) throughout the world. Encompassing the transport and stationary refrigeration markets as well as the commercial HVAC markets, this segment offers customers a broad range of products, services and solutions to manage controlled temperature environments. This segment includes the market leading brands of Hussmann, Thermo King and Trane.

In the fourth quarter of 2009, we realigned our external reporting structure to eliminate the Air Conditioning Systems and Services segment, which represented the Trane commercial and residential businesses acquired at the close of business on June 5, 2008 (the Acquisition Date). As a result, the Trane commercial HVAC business is now incorporated within the newly created Climate Solutions segment, along with the transport and stationary refrigeration business. Reported results include revenue and operating income from the Trane commercial HVAC business for the six months and 25 days since the Acquisition Date in 2008 and for the full year in 2009.

Dollar amounts in millions	2009	% change	2008	% change	2007
Net revenues	\$ 7,293.7	8.0%	\$ 6,750.6	100.2%	\$ 3,372.4
Operating income (loss)	406.9	n/a	(771.8) *	n/a	382.6
Operating margin	5.6%		-11.4%		11.3%

* Amount includes a non-cash impairment charge of \$1,240.0 million.

2009 vs 2008

Net revenues for the year ended December 31, 2009 increased by 8.0% or \$543.1 million, compared with the same period of 2008, which primarily resulted from the following:

Volume/product mix	-13.9%
Pricing	0.5%
Currency exchange rates	-1.1%
Acquisition of the Trane commercial HVAC business	22.5%
Total	8.0%

Net revenues in the Trane commercial HVAC business increased \$1,522.2 million compared with the same period of 2008. The increase, which represented 22.5% of the segment s year-over-year increase, was a consequence of 2008 reported results only reflecting activity since the Acquisition Date.

Net revenues in the transport and stationary refrigeration business decreased 29.2%, or \$979.1 million, compared with the same period of 2008. The decrease, which had a 14.5% impact on the segment s year-over-year results, was primarily due to lower volumes and product mix (14%) and an unfavorable currency impact (1%). These reductions were slightly offset by improved pricing (1%).

Trane commercial HVAC revenues were impacted by a continued decline in activity in non-residential construction markets in all major geographic areas, except Asia. Both e
