PROXY STATEMENT

Annual Meeting of Stockholders to Be Held on Thursday, May 27, 2010

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of Harvard Bioscience, Inc. (the Company or we) for use at the Annual Meeting of Stockholders of the Company to be held on Thursday, May 27, 2010 at 11:00 a.m. Boston time at the offices of Goodwin Procter LLP, Exchange Place, 53 State Street, Boston, Massachusetts 02109, and any adjournments or postponements thereof (the Annual Meeting). You may obtain directions to the Annual Meeting at www.harvardbioscience.com/eproxy. At the Annual Meeting, the stockholders of the Company will be asked to consider and vote upon:

1. The election of two Class I Directors, nominated by the Board of Directors, for three-year terms, such terms to continue until the annual meeting of stockholders in 2013 and until such Directors' successors are duly elected and qualified or until their earlier resignation or removal;
2. The ratification of the appointment of KPMG LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2010; and

3. Such other business as may properly come before the Annual Meeting and any adjournments or postponements thereof. The Notice of Annual Meeting, Proxy Statement and Proxy Card are first being mailed to stockholders of the Company on or about April 23, 2010, in connection with the solicitation of proxies for the Annual Meeting. The Board of Directors has fixed the close of business on March 31, 2010 as the record date for the determination of stockholders entitled to notice of, and to vote at, the Annual Meeting (the Record Date). Only holders of Common Stock, par value \$.01 per share, of the Company (the Common Stock) of record at the close of business on the Record Date will be entitled to notice of, and to vote at, the Annual Meeting. As of the Record Date, there were approximately 29,584,436 shares of Common Stock outstanding and entitled to vote at the Annual Meeting and approximately 200 stockholders of record. Each holder of a share of Common Stock outstanding as of the close of business on the Record Date will be entitled to one vote for each share held of record with respect to each matter properly submitted at the Annual Meeting.

The presence, in person or by proxy, of holders of at least a majority of the total number of outstanding shares of Common Stock entitled to vote is necessary to constitute a quorum for the transaction of business at the Annual Meeting. Shares held of record by stockholders or their nominees who do not return a signed and dated proxy or attend the Annual Meeting in person will not be considered present or represented at the Annual Meeting and will not be counted in determining the presence of a quorum. Consistent with applicable law, the Company intends to count abstentions and broker non-votes only for the purpose of determining the presence or absence of a quorum for the transaction of business. A broker non-vote refers to shares held by a broker or nominee that does not have the authority, either express or discretionary, to vote on a particular matter. Applicable rules no longer permit brokers to vote in the election of Directors if the broker has not received instructions from

Edgar Filing: HARVARD BIOSCIENCE INC - Form DEF 14A

the beneficial owner. This represents a change from prior years when brokers had discretionary voting authority in the election of Directors. Accordingly, it is important that beneficial owners instruct their brokers how they wish to vote their shares.

Table of Contents

With respect to the election of two Class I Directors in Proposal 1, such Directors are elected by a plurality of the votes cast if a quorum is present. Votes may be cast for or withheld from each Director. In a plurality election, votes may only be cast in favor of or withheld from each nominee; votes that are withheld will be excluded entirely from the vote and will have no effect. This means that the two persons receiving the highest number of FOR votes will be elected as Directors. The ratification of the appointment of KPMG LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2010 in Proposal 2 requires the affirmative vote of a majority of the votes cast on such proposal assuming a quorum is present. Any shares not voted (whether by abstention, broker non-vote or otherwise) will have no impact on the election of Directors, except to the extent that the failure to vote for an individual results in another individual receiving a larger percentage of votes, and no impact on the proposal for approval of each other matter expected to be voted on at the Annual Meeting.

We encourage you to vote by completing, signing, dating and returning the enclosed proxy card or if you hold your shares through a brokerage firm, bank or other financial institution, by completing and returning a voting instruction form. This ensures that your shares will be voted at the Annual Meeting and reduces the likelihood that the Company will be forced to incur additional expenses soliciting proxies for the Annual Meeting.

Any record holder as of the Record Date may attend the Annual Meeting in person and may revoke the enclosed proxy at any time by: (i) executing and delivering to the corporate secretary a later-dated proxy; (ii) delivering a written revocation to the corporate secretary before the meeting; or (iii) voting in person at the Annual Meeting.

Beneficial holders who wish to change or revoke their voting instructions should contact their brokerage firm, bank or other financial institution for information on how to do so. Beneficial holders who wish to attend the Annual Meeting and vote in person should contact their brokerage firm, bank or other financial institution holding shares of Common Stock on their behalf in order to obtain a legal proxy, which will allow them to vote in person at the meeting. Attendance at the Annual Meeting will not, by itself, revoke a proxy.

Our Board of Directors recommends an affirmative vote on all proposals specified in the notice for the annual meeting. Proxies will be voted as specified. If your proxy is properly submitted, it will be voted in the manner you direct. **If you do not specify instructions with respect to any particular matter to be acted upon at the meeting, proxies will be voted in favor of the Board of Directors' recommendations.**

The 2009 Annual Report to Stockholders of the Company, including consolidated financial statements for the year ended December 31, 2009, is being mailed to stockholders of the Company concurrently with this Proxy Statement. The Annual Report, however, is not part of the proxy solicitation material.

Important Notice Regarding the Availability of Proxy Materials for the Annual Meeting to be Held on Thursday, May 27, 2010: The Proxy Statement and 2009 Annual Report to Stockholders, which includes the Annual Report on Form 10-K for the year ended December 31, 2009, are available at www.harvardbioscience.com/eproxy.

PROPOSAL 1

ELECTION OF DIRECTORS

The Board of Directors of the Company currently consists of seven members and is divided into three classes of Directors, with two Directors in Class I, two Directors in Class II and three Directors in Class III. Directors serve for three-year terms with one class of Directors being elected by the Company's stockholders at each annual meeting to succeed the Directors of the same class whose terms are then expiring.

Table of Contents

At the Annual Meeting, two Class I Directors, nominated by the Board of Directors, will stand for re-election to serve until the 2013 annual meeting of stockholders and until their successors are duly elected and qualified or until their earlier resignation or removal.

At the recommendation of the Governance Committee, the Board of Directors has nominated Robert Dishman and Neal J. Harte for election as the Class I Directors of the Company. Unless otherwise specified in the proxy, it is the intention of the persons named in the proxy to vote the shares represented by each properly executed proxy FOR the election of Dr. Robert Dishman and Mr. Neal J. Harte. The nominees have agreed to stand for re-election and, if re-elected, to serve as Directors. However, if any person nominated by the Board of Directors is unable to serve or will not serve, the proxies will be voted for the election of such other person or persons as the Governance Committee and the Board of Directors may recommend.

Vote Required

The affirmative vote of a plurality of the votes cast by holders of shares of Common Stock present or represented by proxy and entitled to vote on the matter at the Annual Meeting is required for the election of each nominee as a Class I Director of the Company.

THE BOARD OF DIRECTORS OF THE COMPANY UNANIMOUSLY RECOMMENDS A VOTE FOR THE ELECTION OF THE FOLLOWING NOMINEES OF THE BOARD OF DIRECTORS: ROBERT DISHMAN AND NEAL J. HARTE. PROPERLY AUTHORIZED PROXIES SOLICITED BY THE BOARD OF DIRECTORS WILL BE VOTED FOR EACH OF THE NOMINEES UNLESS INSTRUCTIONS TO WITHHOLD OR TO THE CONTRARY ARE GIVEN.

Table of Contents

INFORMATION REGARDING DIRECTORS

Set forth below is certain information regarding the Directors of the Company, including the Class I Directors who have been nominated for election at the Annual Meeting, based on information furnished to the Company by each Director. The biographical description below for each Director includes his age, all positions he holds with Harvard Bioscience, his principal occupation and business experience over the past five years, and the names of other publicly-held companies for which he currently serves as a director or has served as a Director during the past five years. The biographical description below for each Director also includes the specific experience, qualifications, attributes and skills that led to the conclusion by the Board of Directors that such person should serve as a director of Harvard Bioscience. In addition to such specific information, we also believe that all of our Directors have a reputation for integrity, honesty and adherence to high ethical standards. Further, they have each demonstrated business acumen and an ability to exercise sound judgment as well as a commitment of service to Harvard Bioscience and our Board.

The Board of Directors has determined that all of the Director nominees and incumbent Directors listed below are independent as such term is currently defined by applicable NASDAQ rules, except for Messrs. Graziano and Green who are also executive officers of the Company. In making its independence determination of Mr. Kennedy, the Board of Directors considered the fact that Mr. Graziano serves as a director of Nova Ventures Corporation, which formerly employed Mr. Kennedy as its President and Chief Financial Officer until his retirement in October 2008.

The positions of Chairman of the Board and Chief Executive Officer are currently occupied by one individual, Chane Graziano. Our Board of Directors believes that this leadership structure has served our Company well in the past and continues to serve it well at present, as Mr. Graziano's nearly five decades of experience in the laboratory products and analytical instruments industry, his knowledge and understanding of the Company and his significant ownership interest in Harvard Bioscience uniquely qualify him to serve as both Chairman and Chief Executive Officer. In his combined role, Mr. Graziano sets the strategic direction for our Company and provides day-to-day leadership. He also sets the agenda for Board meetings with input from the Lead Director and presides over all meetings of the full Board. This promotes unified leadership and direction for the Board and management. Since the Chairman and Chief Executive Officer positions are currently occupied by Mr. Graziano, our Board appointed Earl R. Lewis, an independent Director, to serve in the role of Lead Director. As Lead Director, Mr. Lewis presides at all meetings of our Board of Directors at which the Chairman is not present, and he chairs the executive sessions of independent Directors, who regularly meet in executive sessions at which only independent Directors are present. Mr. Lewis also provides input to the Chief Executive Officer and may make suggestions regarding meeting agendas and bear such further responsibilities as our Board may designate from time to time. Mr. Lewis, from time to time, provides feedback to the Chief Executive Officer on executive sessions and facilitates discussion among the independent Directors outside of meetings of the Board of Directors.

INFORMATION REGARDING THE BOARD OF DIRECTORS AND ITS COMMITTEES

During the year ended December 31, 2009, the Board of Directors of the Company held eight meetings and took action by unanimous consent on two occasions. Each of the Directors attended at least 75% of the total number of meetings of the Board of Directors and of the committees of which he was a member. The Board of Directors encourages Directors to attend in person the Annual Meeting of Stockholders of the Company, or Special Meeting in Lieu thereof, or, if unable to attend in person, to participate by other means, if practicable. In recognition of this policy, the Board of Directors typically schedules a regular meeting of the Board of Directors to be held on the date of, and immediately following, the Annual Meeting of Stockholders. All of the Directors in office at the time attended, either in person or by telephone, the 2009 Annual Meeting of Stockholders, which was held on May 14, 2009.

Table of Contents

The non-employee Directors meet regularly in executive sessions outside the presence of management. The Board of Directors appointed Mr. Lewis as the Lead Director in November 2008 to, among other things, provide feedback to the Chief Executive Officer on executive sessions and facilitate discussion among the independent directors outside of meetings of the Board of Directors.

The Board of Directors has established an Audit Committee (the *Audit Committee*), a Compensation Committee (the *Compensation Committee*) and a Governance Committee (the *Governance Committee*).

Audit Committee

The Audit Committee currently consists of Messrs. Harte, Kennedy and Uveges. Mr. Uveges serves as the Chairman. The Audit Committee is comprised entirely of independent Directors and it operates under a Board approved charter that sets forth its duties and responsibilities. The Audit Committee met eight times during 2009.

Under its charter, the Audit Committee is responsible for:

reviewing with the independent registered public accounting firm and management the adequacy and effectiveness of internal controls over financial reporting;

reviewing and consulting with management and the independent registered public accounting firm on matters related to the annual audit, the published financial statements, earnings releases and the accounting principles applied;

appointing, retaining and evaluating the Company's independent auditors; and

the compensation, retention and oversight of the Company's independent auditors and the evaluation of the independent auditors' qualifications, performance and independence.

Governance Committee

The current members of the Governance Committee are Dr. Dishman, and Messrs. Harte and Lewis. Mr. Lewis is the Chairman. The Governance Committee is comprised entirely of independent directors and it operates under a Board approved charter that sets forth its duties and responsibilities. The Governance Committee met one time during 2009.

Under the terms of its charter, the Governance Committee is responsible for identifying individuals qualified to become Board members, consistent with criteria recommended by the Governance Committee and approved by the Board of Directors, and recommending that the Board of Directors select the director nominees for election at each annual meeting of stockholders. Its responsibilities also include recommending to the Board of Directors the criteria for membership on Board Committees. The Governance Committee is also responsible for assisting the Board of Directors with such corporate governance matters as the Board of Directors may request.

In identifying and evaluating nominees for the Board of Directors, the Governance Committee may solicit recommendations from any or all of the following sources: non-management Directors, the Chairman and Chief Executive Officer, other executive officers, third-party search firms or any other source it deems appropriate. In addition, the Governance Committee has established a policy that it will review and consider any Director candidates who have been recommended by securityholders in compliance with certain procedures established by the Governance Committee. At a minimum, each nominee must have high personal and professional integrity, have demonstrated ability and judgment, and be effective, in conjunction with the other Directors and nominees, in collectively serving the long-term interests of the stockholders. In addition, the

Governance Committee will recommend that the Board select persons for nomination to help ensure that a majority of the Board shall be independent in accordance with NASDAQ rules and each of its Audit, Compensation and Governance Committees shall be comprised entirely of independent directors; provided, however, in accordance with NASDAQ rules, under exceptional and limited circumstances, if a committee has at least three members, the Board may appoint one individual to such committee who does not satisfy the independence standards. Although there is no specific policy regarding the consideration of diversity in identifying director nominees, the Governance Committee may consider whether the nominee, if elected, assists in achieving a mix of Board members that represents a diversity of background and experience. The Governance Committee also may consider whether the nominee has direct experience in the biotechnology, pharmaceutical and/or life sciences industries or in the markets in which the Company operates.

The Board of Directors has determined that Messrs. Dishman, Harte and Lewis are independent as such term is currently defined by NASDAQ rules.

The Board's Role in Risk Oversight

Risks to the Company are discussed by the Board of Directors during the year. Management is responsible for the day-to-day management of risks the Company faces, while the Board, as a whole and through its Committees, oversees risk management. The Audit Committee is responsible for reviewing and discussing with management the Company's policies with respect to risk assessment and risk management. The Board of Directors and the Audit Committee review and discuss, including with management, risks that arise or may arise. For example, the Audit Committee discusses financial risk, including with respect to financial reporting and internal controls, with management and our independent registered public accounting firm and the steps management has taken to minimize those risks. Our Board of Directors also administers its risk oversight function through the required approval by the Board (or a Committee of the Board) of significant transactions and other material decisions.

Risk Considerations in our Compensation Programs

The Compensation Committee believes that risks arising from our policies and practices for compensating employees are not reasonably likely to have a material adverse effect on the Company.

CODE OF BUSINESS CONDUCT AND ETHICS

The Board of Directors has adopted a Code of Business Conduct and Ethics, which applies to all Directors, officers and employees of the Company and its subsidiaries including the Chairman and Chief Executive Officer, the Chief Financial Officer and Vice President of Finance. Table of Contents**DIRECTOR COMPENSATION**

The Company uses a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve on its Board. In setting director compensation, the Compensation Committee considers the significant amount of time that Directors expend in fulfilling their duties to the Company as well as the skill-level required by the Company of members of the Board.

Directors who are also employees of the Company receive no additional compensation for service as a Director. Non-employee Directors receive the compensation described below.

Each non-employee Director is entitled to receive a non-qualified stock option to purchase 25,000 shares of the Company's common stock vesting annually over three years and granted on the fifth business day following his or her initial election to the Board of Directors. Each non-employee Director receives an annual retainer of \$12,000 paid in four equal quarterly installments and is also entitled to receive a non-qualified stock option to purchase a number of shares of the Company's Common Stock having an aggregate Black-Scholes cash value of \$41,250, rounded to the nearest 100 shares, vesting annually over three years and granted on the fifth business day following each annual meeting of stockholders. In addition, the Lead Director is entitled to receive a non-qualified stock option to purchase a number of shares of the Company's common stock having an aggregate Black-Scholes cash value of \$41,250, rounded to the nearest 100 shares, vesting annually over three years and granted on the fifth business day following each annual meeting of stockholders.

Each non-employee Director member of the Audit Committee is entitled to receive an additional annual retainer of \$8,000, each non-employee Director member of the Compensation Committee is entitled to receive an additional annual retainer of \$4,000 and each non-employee member of the Governance Committee is entitled to receive an additional annual retainer of \$4,000. In addition, each Committee Chairman (Audit Committee, Compensation Committee and Governance Committee) is entitled to receive an additional annual retainer of \$4,000. Retainers are paid in four equal quarterly installments.

Non-employee Directors are reimbursed for their expenses incurred in connection with attending Board and committee meetings.

are included in Note 16 to the Company's audited financial statements for the fiscal year ended December 31, 2009, included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 11, 2010.

COMPENSATION DISCUSSION AND ANALYSIS

Our compensation philosophy is designed to support our key objective of creating value for our stockholders by growing our revenues, growing our U.S. GAAP and non-GAAP adjusted earnings per diluted share, increasing our total market capitalization and growing our share price. Our Compensation Committee is responsible for establishing and approving the compensation for all executive officers of the Company and our Chairman.

This Compensation Discussion and Analysis explains our compensation objectives, policies and practices with respect to our Chairman and Chief Executive Officer, our Chief Financial Officer, and our other two most highly-compensated executive officers as determined in accordance with applicable SEC rules, which are collectively referred to as the named executive officers or, in this Compensation Discussion and Analysis section, our executives. Our named executive officers are as follows: Chane Graziano, Chairman and Chief Executive Officer; Thomas McNaughton, our Chief Financial Officer and Treasurer; David Green, President; and Susan M. Luscinski, Chief Operating Officer.

Objectives of Our Executive Compensation Programs

Our compensation programs for our named executive officers are designed to achieve the following objectives:

attract and retain high performing and experienced executives;

motivate and reward executives whose knowledge, skills and performance are critical to our success;

align the interests of our executives and stockholders by motivating executives to increase stockholder value and rewarding executives when stockholder value increases;

foster a shared commitment among executives by coordinating their goals; and

motivate our executives to manage our business to meet our short and long-term objectives, and reward them for meeting these objectives.

Peer Group Information and Benchmarking

In connection with compensation decisions in 2009 and compensation decisions that have been made to date in 2010, our Compensation Committee, with the assistance of the Chairman and Chief Executive Officer and other Company employees, reviewed market compensation data of our peer group companies as reported by Radford, a division of Aon Consulting Inc., in the nationally recognized Radford Global Life Sciences Survey. Our Chairman and Chief Executive Officer, in consultation with the Chairman of our Compensation Committee, selected the peer group of companies to be utilized for purposes of benchmarking, which included all companies in the survey with a total headcount of 150-499 employees. In total, there were approximately 550 public and private companies participating in the survey. We use the peer group compensation data primarily to ensure that the total direct compensation for senior management is within a reasonable range of comparative pay of the peer group companies. While peer group market data provides a useful starting point for compensation decisions, our Compensation Committee also takes into account factors such as level of individual responsibility, prior experience and performance in arriving at final compensation decisions.

Generally, neither Harvard Bioscience nor the Compensation Committee use compensation consultants other than independent third-party benchmarking surveys of annual compensation paid by companies in the life sciences industry such as the Radford Global Life Sciences Survey described above.

Table of Contents

The elements of executive compensation include base salary, annual cash incentive bonuses, employment agreements, long-term equity incentive compensation and broad-based benefits programs.

Base Salary

We pay our executives a base salary, which we review and determine annually. We believe that a competitive base salary is a necessary element of any compensation program that is designed to attract and retain talented and experienced executives. We also believe that attractive base salaries can motivate and reward executives for their overall performance. Although base salaries are established in part based on the individual experience, skills and expected contributions during the coming year of each of our executives and each executive's performance during the prior year, we do not view base salaries as primarily serving our objective of paying for performance.

It is our goal to maintain a base salary structure among our executives that, in our judgment, appropriately reflects their respective roles and responsibilities. When our Compensation Committee reviewed executive officer compensation during the first quarter of 2009, it determined that none of the executive officers would receive an increase in his or her salary for 2009 in light of the general economic recession and consistent with our strategy of operational improvements. We made this decision notwithstanding our very positive assessment of the performance of the Company's executive officers. The annual base salaries of our named executive officers during 2009 were as follows: Mr. Graziano \$535,500, Mr. Green \$441,000, Ms. Luscinski \$275,625, and Mr. McNaughton \$235,000. In the first quarter of 2010, our Compensation Committee approved the following base salaries for 2010: Mr. Graziano \$584,500, Mr. Green \$490,000, Ms. Luscinski \$300,000, and Mr. McNaughton \$275,000.

Our executives' base salaries reflect the initial base salaries that we negotiated with each of our executives at the time of his or her initial employment or promotion and our subsequent adjustments to these amounts, to reflect market increases, our growth, our executives' performance and increased experience, any changes in our executives' roles and responsibilities and other factors. The base salaries of our executives are based on our understanding of base salaries for comparable positions at similarly situated companies at the time, the individual experience and skills of, and expected contribution from each executive, the roles and responsibilities of the executive, the base salaries of our existing executives and other factors.

Annual Cash Incentive Bonuses

Consistent with our emphasis on performance-based incentive compensation programs, our executives are eligible to receive annual cash incentive bonuses primarily based upon our Company meeting certain growth targets, which are measured by exceeding non-GAAP earnings per diluted share growth targets. The primary objective of our annual cash incentive bonuses is to motivate and reward our named executive officers for meeting our short-term objectives.

We have structured our annual cash incentive bonuses in a manner so that they may represent a meaningful portion of our executives' currently paid out cash compensation. In establishing these levels, in addition to considering the incentives that we want to provide to our executives, we also consider the bonus levels for comparable positions at peer group companies and our historical practices.

In 2009, we adopted the Harvard Bioscience, Inc. 2009 Corporate Bonus Plan, which provided for cash bonuses to be paid to certain employees of the Company, including Messrs. Graziano, McNaughton, Green and Ms. Luscinski. Subject to the sole discretion of the Compensation Committee, the Plan provided for cash bonuses to be paid if the Company achieved non-GAAP adjusted earnings per diluted share from continuing operations (as defined in the Plan) for the year ended December 31, 2009 in excess of \$0.30 per share. For purposes of the bonus plan, non-GAAP adjusted earnings per diluted share from continuing operations is calculated in the same manner as we calculate it for purposes of our quarterly earnings releases. Accordingly, non-GAAP adjusted

Table of Contents

earnings per diluted share from continuing operations for the year ended December 31, 2009 equaled (A) income from continuing operations of the Company on a consolidated basis for the year ended December 31, 2009 as calculated in accordance with GAAP adjusted for amortization of intangible assets, costs associated with pursuing and closing acquisitions including but not limited to legal, accounting and professional fees, transition costs and restructuring costs, fair value adjustments of inventory and backlog related to acquisitions, in process R&D expense related to acquisitions, costs of restructuring, the impact of stock compensation expense recognized under FASB ASC 718, and the effect of this Bonus Plan, if any, all net of tax, and further adjusted for the impact of tax benefits associated with filing consolidated tax returns for continuing and discontinued businesses, with such further adjustments as may be approved by the Compensation Committee, divided by (B) the weighted average number of shares outstanding on a diluted basis during the year ended December 31, 2009 calculated in accordance with GAAP.

If the target non-GAAP adjusted earnings per diluted share was achieved or surpassed, then we were to create, subject to adjustment by the Compensation Committee, an aggregate bonus pool equal to one-third of our non-GAAP adjusted operating income (as defined in the Plan) in excess of the minimum non-GAAP adjusted operating income (as defined in the Plan) that the Company would have needed in order to achieve the target non-GAAP adjusted earnings per diluted share from continuing operations. Subject to the sole discretion of the Compensation Committee, the participants under the plan were then entitled to participate in the bonus pool based on the participation percentages established in the 2009 plan.

As detailed in the plan, the participation percentages of the executive officers entitled to participate in the 2009 plan were approximately as follows:

Name	2009 Corporate Bonus Plan Participation Percentage
<i>Chane Graziano</i>	40.64%
<i>Thomas McNaughton</i>	11.90%
<i>David Green</i>	33.50%
<i>Susan M. Luscinski</i>	13.96%

If the target non-GAAP adjusted earnings per diluted share from continuing operations had not been achieved, then no bonuses would have been paid under the bonus plan unless the Compensation Committee determined otherwise. In 2009, our non-GAAP adjusted earnings per diluted share from continuing operations exceeded the target contained in the bonus plan and, accordingly, a bonus pool was created by the Compensation Committee in the amount of up to \$248,000, which the Compensation Committee ultimately determined to be \$224,000. In addition, the Compensation Committee, in accordance with its authority under the 2009 Corporate Bonus Plan, determined to award bonuses of \$56,000 to each of Messrs. Graziano, Green and McNaughton and Ms. Luscinski instead of pursuant to the participation percentages under the plan.

Employment Agreements

We have entered into employment agreements with Messrs. Graziano, McNaughton and Green and Ms. Luscinski. The agreements require us to provide certain payments and benefits to these executives in the event of a termination of the executive's employment by us without cause, by the executive for good reason or upon death or disability. In return, each executive covenants not to compete or solicit our employees for one year following the termination of employment. We believe that negotiation of the severance level in advance makes it less problematic for our Board of Directors to terminate executives for performance reasons without the need for protracted negotiation over severance.

The employment agreements with our named executive officers also provide change-in-control benefits. For example, in the event we were to undergo a change-in-control followed within 18 months by the termination of an executive's employment by the executive for good reason or by the Company without cause, our employment

Table of Contents

agreements provide for full vesting of all equity awards granted to our executives upon the change-in-control. We believe that it is fair to provide for accelerated vesting because equity grants generally provide such a high proportion of the total compensation of our executive officers. Very often, senior management lose their jobs in connection with a change-in-control. By agreeing up front to protect our executive officers from losing their equity in the event of a change-in-control, we believe we can reinforce and encourage the continued attention and dedication of our executive officers to their assigned duties without distraction in the face of an actual or threatened change-in-control. This protection also aligns the interests of our executive officers with that of our shareholders.

See [Potential Payments Upon Termination or Change-in-Control](#) for a summary of the employment agreements.

Long-Term Equity Incentive Compensation

We grant long-term equity incentive awards in the form of stock options to executives as part of our total compensation package. We place a significant emphasis on performance-based incentive compensation. These awards generally represent a significant portion of total executive compensation. We use long-term equity incentive awards in order to align the interests of our executives and our stockholders by providing our executives with strong incentives to increase stockholder value and a significant reward for doing so. To date, we have elected to use stock options as opposed to restricted stock or other forms of equity awards because they derive value exclusively from increases in stockholder value. Our decisions regarding the amount and type of long-term equity incentive compensation and relative weighting of these awards among total executive compensation have also been based on our understanding of market practices of our peer group companies and take into account additional factors such as level of individual responsibility, experience and performance.

Stock option awards provide our executive officers with the right to purchase shares of our Common Stock at a fixed exercise price typically for a period of up to ten years, subject to continued employment with our Company. Stock options are earned based on continued service to us and generally vest over four years, with one-fourth vesting on the first day of January, following the grant date, then pro-rata vesting annually thereafter. Stock option awards are made pursuant to our Second Amended Restated 2000 Stock Option and Incentive Plan, or our 2000 Plan. See [Potential Payments Upon Termination or Change-in-Control](#) for a discussion of the change-in-control provisions related to stock options.

The exercise price of each stock option granted under our 2000 Plan is based on the fair market value of our Common Stock on the grant date. The fair market value of our Common Stock is defined as the closing market price of a share of our Common Stock on the date of grant. We do not have any program, plan or practice of setting the exercise price based on a date or price other than the fair market value of our Common Stock on the grant date.

Annual stock option grants are generally made on the fifth business day following each annual meeting of stockholders. Stock options granted to employees hired or promoted during a month are generally granted on the first business day of the following month. If NASDAQ is closed on the appropriate business day as described above, then the grants will instead be made on the next day that NASDAQ is open for trading. The Compensation Committee retains the discretion to grant options at such other times as it may otherwise deem appropriate.

We have granted all of our stock options to executives as incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended, to the extent permitted under the Internal Revenue Code, with the exception of Mr. Graziano. Generally, for stock options that do not qualify as incentive stock options, we are entitled to a tax deduction in the year in which the stock options are exercised equal to the spread between the exercise price and the fair market value of the stock for which the stock option was exercised. The holders of these stock options are generally taxed on this same amount in the year of exercise. For stock options that qualify as incentive stock options, we do not receive a tax deduction and the holder of the stock option may receive more

Table of Contents

favorable tax treatment than he or she would for a non-qualified stock option. Historically, we have granted primarily incentive stock options in order to provide these potential tax benefits to our executives and other employees.

In 2009, we granted stock options to our named executive officers as follows: Mr. Graziano 400,000 non-qualified stock options, Mr. McNaughton 200,000 incentive stock options, Mr. Green 400,000 incentive stock options and Ms. Luscinski 200,000 incentive stock options. The amount of these grants was determined primarily based on the peer group compensation data that we reviewed from the Radford Global Life Sciences Survey. The face value of the awards for each of our named executive officers, calculated by multiplying the number of shares by the exercise price, was approximately based on the average face value of the option grants made by the companies in our peer group for executives performing similar roles. In order to utilize the standardized data contained in the Radford Global Life Sciences Survey, our Chief Executive Officer performed for the Compensation Committee a detailed review of the actual roles of each of our named executive officers and, where a named executive officer's actual role contained portions of the responsibilities for several of the standardized positions used in the survey, data for each position was reviewed and utilized in determining the actual amount of the grant to the named executive officer. Additionally, the Compensation Committee considered the amounts of the grants being made to our other named executive officers.

Broad-Based Benefits Programs

All full-time employees in the United States, including our named executive officers, may participate in our employee stock purchase plan and in our health and welfare benefit programs, including medical coverage, dental coverage, disability insurance, life insurance and our 401(k) plan. We offer similar plans in foreign countries.

EXECUTIVE AND DIRECTOR COMPENSATION PROCESS

Our Compensation Committee has the authority to determine all compensation payable to our executive officers. Our Chairman and Chief Executive Officer makes recommendations to our Compensation Committee regarding the compensation of all executive officers, excluding his own, but our Compensation Committee is ultimately responsible for approving this compensation.

As noted above, in 2009, and with respect to the determination of base salaries in 2010, our Chairman and Chief Executive Officer and Compensation Committee reviewed market compensation data provided by The Radford Global Life Sciences Survey in making recommendations for approval by the Compensation Committee of the compensation paid to our executive officers in 2009 and the base salaries payable to our executive officers in 2010. Our Chairman and Chief Executive Officer, in consultation with the Chairman of our Compensation Committee, identified the comparable positions for each of our executive officers in the survey based on their positions and responsibilities, and selected the peer group of companies to be utilized for purposes of benchmarking, which included all companies in the survey with a total headcount of 150-499 employees. Our Chairman and Chief Executive Officer then presented information to our Compensation Committee, which included: (1) a list of the companies included in The Radford Global Life Sciences Survey, (2) individual surveys of responsibilities identifying the key responsibilities of each of our executive officers, (3) individual position matching and professional experience summaries, which compared the responsibilities and prior year compensation of each executive officer to the typical responsibilities and average prior year compensation of persons serving in the most comparable position in the Radford Global Life Sciences Survey, and (4) our Chairman and Chief Executive Officer's recommendations of compensation for each of our executive officers for 2009, other than himself. The Compensation Committee considered this information along with other factors such as level of individual responsibility, prior experience and performance.

Generally, our Chairman and Chief Executive Officer recommends the terms of an annual corporate bonus plan to our Compensation Committee. Our Compensation Committee then, after considering the recommendations made by our Chairman and Chief Executive Officer, determines the terms and amount of

Table of Contents

compensation to pay to each of our executive officers, including our Chief Executive Officer, and the terms of any corporate bonus plan. See *Annual Cash Incentive Bonuses* for a discussion of the bonuses earned in 2009 by our named executive officers.

Our Board of Directors has the authority to approve all compensation payable to our Directors, although our Compensation Committee is responsible for making recommendations to our Board regarding this compensation. Additionally, our Chairman and Chief Executive Officer may also make recommendations or assist our Compensation Committee in making recommendations regarding director compensation. Our Board of Directors and Compensation Committee annually review our Director compensation. In February 2010, our Compensation Committee recommended no changes in non-employee Director Compensation from the compensation approved in February 2009.

The following table sets forth certain information concerning the individual grant of options to purchase Common Stock to the named executive officer who received such grants during the fiscal year ended December 31, 2009. The exercise price for each stock option equals the closing market price on the date of grant as reported on the NASDAQ Global Market. The option awards identified in the table below are also reported in the Outstanding Equity Awards at Fiscal Year-End 2009 Table on page 17.

- (1) As described above under Compensation Discussion and Analysis Annual Cash Incentive Bonuses, awards under the 2009 Corporate Bonus Plan are based on the Company's actual non-GAAP adjusted operating income for the year ended December 31, 2009 in excess of a certain amount and, accordingly, the 2009 plan did not provide for a minimum or maximum payout. In addition, because there is no established target amount under the 2009 plan, the amount reported under the Target sub-column represents the amount that the executives would have earned under the plan, based on the Company's performance during the fiscal year ended December 31, 2009 and the participation percentages of the executives under the plan, had the Compensation Committee not determined to reduce the bonus pool and to pay equal amounts to each of Messrs. Graziano, Green and McNaughton and Ms. Luscinski.
- (2) The options become exercisable in four equal annual installments on each of the first four anniversaries of January 1, 2009. All options are subject to the executive's continued employment.
- (3) Based on the aggregate grant date fair value computed awards in accordance with the provisions of FASB ASC 718, *Compensation Stock Compensation* (formerly SFAS No. 123 (revised 2004), *Share-Based Payment*), excluding the impact of estimated forfeitures. Assumptions used in the calculation of this amount are included in Note 16 to the Company's audited financial statements for the fiscal year ended December 31, 2009, included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 11, 2010.

Discussion of Summary Compensation and Grants of Plan-Based Awards Tables

The Company's executive compensation policies and practices, pursuant to which the compensation set forth in the Summary Compensation Table and the Grants of Plan Based Awards Table was paid or awarded, are described above under Compensation Discussion and Analysis. A summary of certain material terms of our compensation plans and arrangements is set forth below. The terms of employment agreements that we have entered into with our executives are described below under Potential Payments Upon Termination or Change-in-Control.

Annual Cash Incentive Bonuses

In 2009, the Company adopted the 2009 Corporate Bonus Plan. The terms of the Company's 2009 Corporate Bonus Plan are described above under Compensation Discussion and Analysis Annual Cash Incentive Bonuses. The bonuses paid to our named executive officers under this corporate bonus plan are reported as Non-Equity Incentive Plan Compensation in the Summary Compensation Table. Additionally, in the Grants of Plan-Based Awards 2009 table, the Estimated Possible Payouts Under Non-Equity Incentive

Table of Contents

Plan Awards column for each of the executives sets forth the bonuses that would have been payable under this plan to the named executive officers, based on the Company's performance during the fiscal year ended December 31, 2009 and the participation percentages of the executives under the plan, had the Compensation Committee not determined to reduce the bonus pool and to pay equal amounts to each of Messrs. Graziano, Green and McNaughton and Ms. Luscinski.

2009 Stock Option Grants

In 2009, the Company granted stock options to the named executive officers under the Company's Second Amended and Restated 2000 Stock Option and Incentive Plan, as described in the tables above. Each stock option granted has a term of ten years. Generally, stock options vest in four equal installments on each of the first four anniversaries of January 1, 2009, subject to continued employment. To the extent vested, each stock option is exercisable during the term of the option while the grantee is employed by us and for a period of 30 days thereafter, unless such termination is upon death or disability, in which case the grantee may continue to exercise the option for a period of three months, or for cause, in which case the option terminates immediately. Vesting of these stock options is also subject to acceleration in connection with a change-in-control as described in Potential Payments Upon Termination or Change-in-Control.

OPTION EXERCISES AND STOCK VESTED TABLE 2009

The following table sets forth the exercises of stock options by our named executive officers during the fiscal year ended December 31, 2009 as well as the value realized upon such exercise. The value realized on exercise is the product of (1) the fair market value of a share of Common Stock on the date of exercise minus the exercise price, multiplied by (2) the number of shares of Common Stock underlying exercised options. The value realized is before payment of any applicable withholding tax and brokerage commissions.

Name	Option Awards

<i>Thomas McNaughton</i>		
<i>David Green</i>		
<i>Susan M. Luscinski (1)</i>	98,550	257,590

- (1) Value realized on exercise is as follows: \$2.6138 (the market value at the time of exercise of \$3.66 less the exercise price of \$1.0462), multiplied by 98,550 shares acquired upon exercise.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE-IN-CONTROL

In December 2008, the Company entered into amended and restated employment agreements with each of Messrs. Graziano and Green and Ms. Luscinski primarily to comply with the rules concerning deferred compensation under Section 409A of the Internal Revenue Code of 1986, as amended. In November 2008, the Company entered into an employment agreement with Mr. McNaughton.

The amended and restated agreements with Messrs. Graziano and Green are initially for a period of two years; however, the agreements automatically extend for two additional years on each second anniversary date unless either party has given notice that it does not wish to extend the agreement. The current terms of these agreements will expire in December 2010, unless extended automatically or otherwise. Each agreement provides for the payment of base salary and incentive compensation and for the provision of certain other benefits to the executive officer. Under their respective amended and restated employment agreements, the initial annual salary for Mr. Graziano was \$535,500 and the initial annual salary for Mr. Green was \$441,000. These salary amounts were increased by the Compensation Committee to \$584,500 and \$490,000, respectively, for fiscal 2010 and are subject to review annually by the Compensation Committee. The agreements require these executives to refrain from competing with the Company and from soliciting Company employees for a period of 12 months following termination for any reason. Each agreement also provides for certain payments and benefits for the executive (1) upon a change-in-control followed within 18 months by termination of the executive's employment by the Company without cause or by the executive for good reason or (2) if the executive's employment with the Company is terminated because of death or disability, by the executive for good reason or by the Company without cause.

The events constituting cause, good reason and a change-in-control are specified in each agreement. In general, in the case of a termination by the executive for good reason, or by the Company without cause, the executive will receive: (1) a cash severance payment, payable in a lump sum within 30 days of termination, equal to two times the sum of (A) his average annual base salary for the three preceding fiscal years or, if higher, his

Table of Contents

base salary for the prior fiscal year and (B) his average annual incentive cash compensation for the three preceding fiscal years or, if higher, his annual incentive cash compensation for the prior fiscal year, (2) health insurance coverage for one year and (3) an acceleration of vesting for stock options and stock-based awards which otherwise would vest during the next 24 months. In the event that such a termination occurs within 18 months following a change-in-control of the Company, then, in lieu of the cash severance payment described in the foregoing sentence, the executive will receive a cash severance payment, in a lump sum upon termination, equal to three times the sum of (A) his current annual base salary and (B) his annual incentive cash compensation for the most recent fiscal year. Additionally, the vesting for all outstanding stock options and other stock-based awards will fully accelerate and the executive will receive health insurance coverage for one year. The executive's receipt of payment and benefits in connection with such a termination by the executive for good reason or by the Company without cause is subject to the executive signing a general release of claims, as provided in the agreement.

In the case of termination by reason of the executive's death or disability, the executive or, in the event of his death, his spouse and dependents will receive health insurance coverage for one year, and the vesting for all of executive's outstanding stock options will fully accelerate. Each employment agreement also provides that if any payment under the agreement, including compensation triggered by a change-in-control, constitutes a parachute payment under the Internal Revenue Code, such that an excise tax is imposed, the executive is generally entitled to receive a gross-up payment equal to the amount of such excise tax owed (including any penalties and interest for underpayments) plus the amount necessary to put the executive in the same after-tax position as if no excise tax had been imposed.

The amended and restated agreement with Ms. Luscinski and the agreement with Mr. McNaughton are initially for a period of one year; however the agreement automatically extends for an additional year on each anniversary date unless either party has given notice, not less than 90 days prior to such date, that such party does not wish to extend the agreement. The current terms of these agreements will expire in December 2010 for Ms. Luscinski and Mr. McNaughton, unless extended automatically or otherwise. Each agreement provides for the payment of base salary and incentive compensation and for the provision of certain other benefits to the executive. Under their respective employment agreements, the initial annual salary for Ms. Luscinski was \$275,625 and the initial salary for Mr. McNaughton was \$235,000. These salary amounts were increased by the Compensation Committee to \$300,000 and \$275,000, respectively, for 2010 and are subject to review annually by the Compensation Committee. The agreements require the executive officers to refrain from competing with the Company and from soliciting Company employees for a period of 12 months following termination for any reason. Each agreement also provides for certain payments and benefits for the executive (1) upon a change-in-control followed within 18 months by termination of the executive's employment by the Company without cause or by the executive for good reason or (2) if the executive's employment with the Company is terminated because of death or disability, by the executive for good reason or by the Company without cause. The events constituting cause, good reason and a change-in-control are specified in each agreement. The payments and benefits under the agreement with Ms. Luscinski and Mr. McNaughton, in each of these circumstances (including the gross-up payment), are the same as those provided for Messrs. Graziano and Green in each of their employment agreements, except that (1) the cash severance payments to be made upon a termination by the executive for good reason, or by the Company without cause, whether before or after a change-in-control, is one times the relevant sum (as opposed to two and three times) and (2) the accelerated vesting for stock options and stock-based awards upon a termination by the executive for good reason, or by the Company without cause, is 12 months (as opposed to 24 months).

The amended and restated employment agreements with Messrs. Graziano and Green and Ms. Luscinski and the employment agreement with Mr. McNaughton require a six month and one day delay to the payment of any severance to the executives under the agreements to the extent required by Section 409A of the Internal Revenue Code, as amended, to avoid the imposition of a 20% excise tax on any such payment.

Table of Contents

Under the Company's Second Amended and Restated 2000 Stock Option and Incentive Plan, the stock options that the Company awarded to Messrs. Graziano, Green and McNaughton and Ms. Luscinski after August 9, 2006 include a term providing for the full acceleration of the unvested portion of such options upon a change-in-control of the Company. Additionally, all of the stock options awarded to Messrs. Graziano and Green and Ms. Luscinski prior to August 9, 2006 that were not fully vested as of December 31, 2009 included a term providing for the full acceleration of the unvested portion of such options in the event that the executive's employment is terminated by the Company without cause or by the executive for good reason within 24 months after certain changes-in-control of the Company. The events constituting cause, good reason and a change-in-control are specified in the stock option agreements.

The following tables reflect the estimated amount of payments and benefits that would have been provided by the Company to each of the named executive officers upon the termination of such executive's employment with the Company as of December 31, 2009 in each of the following circumstances: termination by the Company without cause, termination by the executive for good reason, termination upon death, termination by the Company upon disability and termination by the Company without cause or by the executive for good reason following a change-in-control. The tables also reflect the estimated amount of payments and benefits that would have been provided by the Company to each of the named executive officers upon a change-in-control of the Company occurring as of December 31, 2009. The types of events constituting cause, good reason, disability and a change-in-control may differ in some respects among the different arrangements providing for benefits to the named executive officers; however, for consistency in presentation, the tables below have grouped these arrangements together based on these concepts without regard for any such differences.

The amounts described in the tables above do not include payments and benefits to the extent they have been earned prior to the termination of employment or change-in-control or are provided on a non-discriminatory basis to salaried employees upon termination of employment. These include:

Accrued salary, bonus and vacation pay;

Distribution of plan balances under our 401(k) plan;

Life insurance proceeds in the event of death; and

Disability insurance payouts in the event of disability.
