HUGHES TELEMATICS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(1) Description of Business

HUGHES Telematics, Inc. (together with our consolidated subsidiaries, we, us and our) is a telematics services company that provides a suite of real-time voice and data communications services and applications for use in vehicles and is developing additional applications for use within and outside of the automotive industry. These services and applications are enabled through a state-of-the-art communications center designed with flexibility to connect various mobile devices with content, services and call centers. Our system architecture enables us to manage the integration of these components and the associated service delivery in an efficient manner, allowing us to quickly adopt and implement new technologies and services.

Within the automotive industry, our communications center allows for two way voice and data communications to vehicles and supports, among other things, critical safety and security services as well as location-based services and remote diagnostics. Since November 16, 2009, we have been the exclusive telematics service provider in the United States for new vehicles sold by Mercedes-Benz USA, LLC (Mercedes-Benz), as well as the preferred provider of telematics services for Mercedes-Benz vehicles purchased prior to November 16, 2008. These services are marketed under the *mbrace* brand and are enabled through a factory-installed hardware device on Mercedes-Benz vehicles. In addition, our *in-Drive* product offers services to consumers or other third parties through an aftermarket hardware device that we have developed and which we intend to distribute through relationships with companies and organizations with large customer bases for installation in existing vehicles. Additionally, through Networkfleet, Inc. (Networkfleet), our wholly-owned subsidiary, we currently offer remote vehicle monitoring and other data services to support owners and operators of fleets of vehicles.

On May 12, 2010, we entered into a limited liability company agreement (the LLC Agreement) with QUALCOMM Incorporated (Qualcomm), a leader in developing and delivering innovative digital wireless communications products and services, and American Medical Alert Corp. (AMAC), a healthcare communications company dedicated to the provision of support services to the healthcare community, forming Lifecomm LLC (Lifecomm). Lifecomm intends to design, develop, finance and operate a mobile personal emergency response service which will permit subscribers to initiate requests for emergency assistance services through a wearable device that is able to communicate information to and support voice interactions between the subscriber and an emergency assistance call center for purposes of dispatching first responders to the subscriber's location. Lifecomm expects to launch its service offerings in the second half of 2011.

(2) Basis of Presentation

We have prepared the accompanying condensed consolidated financial statements in accordance with United States generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X and include our accounts and the accounts of our wholly-owned subsidiary Networkfleet and our majority-owned subsidiary Lifecomm following the formation of Lifecomm. The accompanying condensed consolidated financial statements do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, the accompanying condensed consolidated financial statements contain all adjustments, consisting only of those of a normal recurring nature, necessary for a fair presentation of our financial position, results of operations and cash flows at the dates and for the periods indicated. While we believe that the disclosures presented are adequate to make the information not misleading, these condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2009 and the related notes thereto which have been included in our annual report on Form 10-K filed with the Securities and Exchange Commission (the SEC) on March 16, 2010. The results of the three and six months ended June 30, 2010 are not necessarily indicative of the results to be expected for the full year. All intercompany balances and transactions have been eliminated. Certain prior period amounts have been reclassified to conform to current presentation.

During the six months ended June 30, 2010 and the years ended December 31, 2009, 2008 and 2007, we incurred a net loss of approximately \$45.0 million, \$163.7 million, \$57.5 million and \$32.3 million, respectively, and used cash in operations of approximately \$16.1 million, \$47.2 million, \$39.1 million and \$23.6 million, respectively. As of June 30, 2010, we had unrestricted cash, cash equivalents and short-term investments of approximately \$31.0 million and an accumulated deficit of approximately \$402.4 million. As a result of our historical net losses and our limited capital resources, our independent registered public accounting firm's report on our financial statements as of and for the year ended December 31, 2009 includes an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern. We

Edgar Filing: HUGHES Telematics, Inc. - Form 424B3

cannot assure you that our net losses and negative cash flow will not surpass our expectations, and thus, we may be required to raise additional capital in the future or to reduce our operating expenditures. This additional financing may take the form of loans under a new credit facility, the issuance of bonds or other types of debt securities, the issuance of equity securities or a combination of the foregoing. Any such financing must either comply with the covenants of our existing credit facilities, or

Table of Contents

we will need to obtain waivers from the lenders. Our credit facilities contain covenants that restrict our ability to incur debt and will require mandatory prepayments from the proceeds of an equity financing. Any debt financing obtained may impose various restrictions and additional covenants on us which could limit our ability to respond to market conditions, provide for unanticipated capital investments or take advantage of business opportunities and may subject us to significant interest expense. Additional equity financing may be obtained on terms that are dilutive to the interests of existing stockholders. We have been successful in the past raising capital to address our liquidity needs; however, debt or additional equity financing may not be available when needed in the future on terms favorable to us or at all, and the failure to attract a sufficient amount of additional debt or equity capital may impair our ability to execute on our business plan. Such additional capital may be provided by, among other things, the cash proceeds from the exercise of the outstanding warrants to purchase shares of our common stock. There is no assurance that we will be successful in obtaining additional financing, if needed, or that we will be able to reduce our operating expenditures. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

(3) Merger with Polaris Acquisition Corp.

On March 31, 2009, pursuant to the terms of the Agreement and Plan of Merger dated June 13, 2008 (as amended and restated on November 10, 2008 and March 12, 2009, the Merger Agreement), Hughes Telematics, Inc. (Old HTI), a privately held company, and Polaris Acquisition Corp. (Polaris), a publicly held blank check company, consummated the merger (the Merger) whereby Old HTI merged with and into a wholly owned direct subsidiary of Polaris with Old HTI as the surviving corporation, and immediately thereafter, Old HTI merged with and into Polaris, with Polaris as the surviving corporation. In connection with the Merger, Polaris changed its name from Polaris Acquisition Corp. to HUGHES Telematics, Inc. Upon closing of the Merger, the outstanding equity securities of Old HTI were exchanged for an aggregate of 77,102,149 shares of our common stock, comprised of 19,854,018 initial shares and 57,248,131 earn-out shares. In addition, all options exercisable for Old HTI common stock issued and outstanding immediately prior to the Merger were exchanged for options exercisable for an aggregate of 2,274,935 shares of our common stock, which includes 1,751,859 earn-out options. The earn-out shares, which were issued into escrow, will be released to the Old HTI stockholders and the earn-out options will be eligible to be exercised, according to their terms, by the optionholders, each in three tranches, upon the trading share price of our common stock reaching at least \$20.00, \$24.50 and \$30.50 (as may be adjusted or amended in accordance with the escrow agreement) within certain measurement periods over the five-year period following the closing of the Merger.

The Old HTI stockholders placed 5,782,661 shares of our common stock, comprised of 1,489,053 initial shares and 4,293,608 earn-out shares, in escrow until June 30, 2010 to indemnify us for the payment of indemnification claims that may be made as a result of breaches of Old HTI s covenants, representations and warranties in the Merger Agreement. As there were no indemnification claims, in July 2010, the 1,489,053 initial shares were released to the Old HTI stockholders from escrow. The 4,293,608 earn-out shares remain in escrow and will be released in accordance with the escrow agreement upon the achievement of the trading share price targets stated above.

Pursuant to the Merger Agreement, the Polaris founders agreed to deposit an aggregate of 1,250,000 shares of our common stock into escrow at closing with such shares being released upon the achievement of the first share price target between the first and fifth anniversary of closing. Upon consummation of the Merger, the Polaris founders also transferred an aggregate of 168,000 shares of common stock to us with such shares immediately cancelled.

In order to consummate the Merger, we agreed to purchase an aggregate of 7,439,978 shares of our common stock from a limited number of institutional shareholders in separate and privately negotiated transactions which were executed prior to the conclusion of the special meeting in which Polaris shareholders voted on the Merger. On April 2, 2009, we consummated these purchases using approximately \$74.4 million of the approximately \$97.2 million of cash received from Polaris in connection with the Merger.

Notwithstanding the legal form of the transaction, the Merger has been accounted for under the purchase method of accounting as a reverse acquisition, equivalent to a recapitalization, through the issuance of stock by Old HTI for the net monetary assets of Polaris. The determination of Old HTI as the accounting acquirer was made based on consideration of all quantitative and qualitative factors of the Merger, including significant consideration given to the fact that following consummation of the Merger (i) the stockholders of Old HTI controlled a majority of our voting power, (ii) the controlling stockholder of Old HTI prior to the Merger, together with its affiliates, controlled approximately 70% of our voting power after the merger and had the right to select a majority of the members of our board of directors and (iii) the management of Old HTI continued in all executive officer and other senior management positions and, accordingly, had day-to-day authority to carry out the business plan after the Merger. Accordingly, our historical financial statements prior to March 31, 2009 are the historical financial statements of Old HTI. The consolidated financial statements of Old HTI have been retroactively restated to reflect the recapitalization of Old HTI with the 77,102,149 shares of common stock issued to Old HTI equity holders in connection with the Merger.

Table of Contents**(4) Formation of Lifecomm LLC**

On May 12, 2010, we entered into the LLC Agreement with Qualcomm and AMAC forming Lifecomm. Under the terms of the LLC Agreement, each of the parties provided cash and/or immediate and future in-kind contributions to Lifecomm. Specifically, in exchange for approximately 54% of the membership interests of Lifecomm, we entered into (i) an Infrastructure Access Agreement with Lifecomm pursuant to which we will provide access to our telematics platform and infrastructure which will enable Lifecomm to provide service to its customers and (ii) a Services Agreement with Lifecomm pursuant to which we will provide, over no more than six years, \$10.9 million of in-kind selling, general and administrative services (based on agreed upon billing rates set forth in the Services Agreement) to support the venture. In addition, we agreed to enter into a Telematics Services Agreement that will include, among other things, a per-user per-month fee for wireless connectivity, billing, portal access and other associated services. In exchange for approximately 36% of the membership interests, Qualcomm (i) provided \$6.0 million of cash, (ii) entered into a Know-How License Agreement pursuant to which Lifecomm licensed certain know-how previously developed by Qualcomm and also provided Lifecomm access to the Lifecomm name and (iii) a Services Agreement with Lifecomm pursuant to which Qualcomm will contribute a portion of the value of certain future engineering and project management services, up to an aggregate value of \$5.0 million. In exchange for approximately 10% of the membership interests, AMAC (i) provided \$4.0 million of cash and (ii) entered into a Value Added Reseller Agreement pursuant to which AMAC will be a preferred distributor of Lifecomm's products and services. In addition, pursuant to the LLC Agreement, each member has agreed to fund its pro rata share of a \$2.0 million stand-by equity commitment for Lifecomm's benefit. Assuming Lifecomm draws the entire commitment, we will be required to provide approximately \$1.1 million of cash. During the three months ended June 30, 2010, we and Qualcomm provided approximately \$0.2 million and \$0.1 million, respectively, of in-kind services to Lifecomm.

Each of the initial members have preemptive rights with respect to future issuances of securities by Lifecomm, as well as rights of first offer, drag-along and tag-along rights on transfers of securities by the other members. In addition, for a two year period beginning on May 12, 2014, any member (or group of members) holding at least 25% of the membership interests in Lifecomm will have the right to demand either an auction for the sale of Lifecomm or an initial public offering of Lifecomm. Should Lifecomm fail to achieve either of these liquidity events within 180 days of the demand, then to the extent at such time we hold at least 50% of the outstanding membership interests of Lifecomm and our common stock is publicly traded, each other member will be entitled on a one-time basis to exchange all of its membership interests in Lifecomm for shares of our common stock with equivalent fair market value. While we determined that such right to exchange is a freestanding derivative instrument, as the fair market value of our common stock to be issued in the exchange will be equal to the fair market value of the membership interests of Lifecomm received, the value of the derivative instrument is not material as of June 30, 2010.

In accordance with the applicable accounting guidance governing consolidation, we have determined that Lifecomm is a variable interest entity (VIE) for which we are the primary beneficiary. Accordingly, we have included Lifecomm's financial position, results of operations and cash flows in our condensed consolidated financial statements as of June 30, 2010 and for such period following the formation of Lifecomm during the three and six months ended June 30, 2010. As of June 30, 2010, Lifecomm's assets consisted of approximately \$6.6 million of cash and cash equivalents, approximately \$3.4 million of short-term investments that are held-to-maturity and \$3.0 million of intangible assets, and its liabilities consisted of approximately \$0.1 million of accounts payable.

(5) Recent Accounting Pronouncements*Recently Adopted Pronouncements*

In June 2009, the Financial Accounting Standards Board (FASB) issued new accounting guidance which amends the evaluation criteria to identify the primary beneficiary of a VIE and requires ongoing reassessment of whether an enterprise is the primary beneficiary of the VIE. The new guidance significantly changes the consolidation rules for VIEs including the consolidation of common structures, such as joint ventures, equity method investments and collaboration arrangements. The guidance is applicable to all new and existing VIEs and became effective for us on January 1, 2010. As we have determined that Lifecomm is a VIE for which we are the primary beneficiary, we have included Lifecomm's financial position, results of operations and cash flows in our condensed consolidated financial statements as of June 30, 2010 and for such period following the formation of Lifecomm during the three and six months ended June 30, 2010.

Recently Issued Pronouncements

In September 2009, the Emerging Issues Task Force (EITF) issued revised guidance governing revenue arrangements with multiple deliverables, which provides a greater ability to separate and allocate arrangement consideration in a multiple element revenue arrangement. The revised guidance requires the use of an estimated selling price to allocate arrangement consideration, and eliminates the residual method of allocation. This guidance will be effective for us on January 1, 2011 and is not expected have a material effect on our financial position, results of operations or cash flows.

Table of Contents

In September 2009, the EITF issued revised guidance governing certain revenue arrangements that include software elements, which amends the scope of existing guidance to exclude tangible products that include software and non-software components that function together to deliver the product's essential functionality. This guidance will be effective for us on January 1, 2011 and is not expected to have a material effect on our financial position, results of operations or cash flows.

Senior Secured Term Indebtedness

On March 31, 2008, we entered into a credit agreement (as amended and restated, the *First Lien Credit Agreement*) pursuant to which we issued in multiple tranches during the year ended December 31, 2008 for aggregate consideration of \$60.0 million, senior secured term indebtedness due March 31, 2013 with an original principal amount of \$60.0 million and warrants to purchase the equivalent of 4,801,112 shares of our common stock, comprised of 1,103,922 initial shares and 3,697,190 earn-out shares, at an equivalent exercise price of less than \$0.01 per share.

As of each issuance date, we ascribed value to the senior secured term indebtedness and the related warrants based on their relative fair values. As such, an aggregate of \$46.9 million was allocated to the senior secured term indebtedness and an aggregate of \$12.1 million was allocated to the warrants. The resulting discount from the face value of the senior secured term indebtedness resulting from the ascribed value to the warrants is being amortized as additional interest expense over the term of the senior secured term indebtedness using the effective interest rate method. As of June 30, 2010, the fair value of the senior secured indebtedness approximated carrying value.

Second Lien Term Indebtedness

On December 17, 2009, we entered into a credit agreement (the *Second Lien Credit Agreement*) with PLASE HT, LLC (*PLASE HT*), as administrative agent, collateral agent and original lender, pursuant to which we issued indebtedness due October 1, 2013 with an original principal amount of \$15.0 million and warrants to purchase 3,000,000 shares of common stock at an exercise price of \$6.00 per share. PLASE HT is an affiliate of Apollo Global Management LLC (*Apollo*) and of our controlling stockholder, Communications Investors, LLC (*Communications LLC*). The loans under the Second Lien Credit Agreement bear interest at 9.00% per annum, payable-in-kind, and are guaranteed by all of our existing and future domestic subsidiaries. The loans are secured by a second priority lien on substantially all of our tangible and intangible assets, including the equity interests of our subsidiaries. The liens granted in connection with the Second Lien Credit Agreement are expressly subject and subordinated to the liens securing our obligations under the First Lien Credit Agreement.

We ascribed value to the indebtedness issued in connection with the Second Lien Credit Agreement and the related warrants based on their relative fair values. As such, approximately \$9.6 million of the proceeds was allocated to the indebtedness and the remaining approximately \$5.4 million was allocated to the warrants. The resulting discount from the face value of the indebtedness resulting from the ascribed value to the warrants will be amortized as additional interest expense over the term of the indebtedness using the effective interest rate method. As of June 30, 2010, the fair value of the indebtedness approximated carrying value.

Senior Unsecured Promissory Note

On December 18, 2009, we issued to Hughes Network Systems, LLC (HNS), a wholly-owned subsidiary of HUGHES Communications, Inc. (HCI), a senior unsecured promissory note with a principal amount of approximately \$8.3 million through the conversion of a trade accounts payable balance of approximately \$6.0 million and the approximately \$2.3 million outstanding balance on the equipment financing arrangement owed to HNS. The promissory note accrues interest at a rate of 12.00% per annum, compounded annually, and becomes due and payable on December 31, 2010. Pursuant to the terms of the note, we were required to make scheduled principal payments of approximately \$0.8 million on April 15, 2010

and \$1.5 million on each of July 15, 2010 and October 15, 2010. In addition, subject to all restrictions in the First Lien Credit Agreement and Second Lien Credit Agreement and certain other limitations, to the extent we sell any capital equipment purchased by us (or purchased by HNS on our behalf) for use in connection with the Telematics Agreement between the parties, but no longer needed by us, we are required to make payments on the promissory note equal to the proceeds from the sale of such capital equipment (net of any selling costs). As of June 30, 2010, we had repaid principal of approximately \$1.2 million on the senior unsecured promissory note, including the scheduled payment and using proceeds from the sale of the capital equipment.

Senior Subordinated Unsecured Promissory Notes

On March 31, 2008, we issued to Communications LLC a senior subordinated unsecured promissory note with a principal amount of \$12.5 million and a maturity date of October 1, 2013. The note bears interest at a rate of 15.00% per annum which is compounded and added to the principal amount annually and is payable at maturity. In connection with the issuance of the note, we recorded a deemed capital contribution of approximately \$2.4 million related to the difference between (i) the fair value of the note using an estimated interest rate we would have paid an unrelated third party on a similar note and (ii) the fair value of the note using the 15.00% stated interest rate. The discount from the face value of the note resulting from the deemed capital contribution will be amortized as additional interest expense over the term of the note using the effective interest rate method.

On December 12, 2008, we issued to Apollo Investment Fund V (PLASE) LP (AIF V PLASE) an additional senior subordinated unsecured promissory note with a principal amount of \$3.5 million and a maturity date of October 1, 2013. The note bears interest at 15.00% per annum which is compounded and added to the principal amount annually and is payable at maturity.

In connection with the issuance of the note, we recorded an additional deemed capital contribution of approximately \$2.4 million related to the difference between (i) the fair value of the note using an estimated interest rate we would have paid an unrelated third party on a similar note and (ii) the fair value of the note using the 15.00% stated interest rate. The discount from the face value of the note resulting from the deemed capital contribution will be amortized as additional interest expense over the term of the note using the effective interest rate method.

At the time of issuance of each promissory note, we determined the estimated fair value amount by using available market information and commonly accepted valuation methodologies. However, considerable judgment is required in interpreting market data to develop estimates of fair value. Accordingly, the fair value estimates presented herein is not necessarily indicative of the amount that we or holders of the instruments could realize in a current market exchange. The use of different assumptions and/or estimation methodologies may have a material effect on the estimated fair value. As of June 30, 2010, the fair value of the senior subordinated unsecured promissory notes approximated carrying value.

(7) Capital Lease Obligations

We lease certain assets under capital lease arrangements expiring at various times through 2014. The assets and liabilities under capital leases are recorded at the lower of the present values of the minimum lease payments or the fair values of the assets. The interest rates pertaining to these capital leases range from 8.7% to 15.3% (weighted average is 12.2%).

Minimum future lease payments under the capital leases are:

On May 13, 2010, we sold 5,130,500 shares of our common stock for gross proceeds of \$15.4 million (net proceeds of \$14.9 million) in a private placement to a group of institutional investors. In connection with this sale, we entered into a registration rights agreement with the investors requiring that, among other things, we register the resale of the shares. If we do not meet certain deadlines with respect to making a registration statement covering such resale effective by November 9, 2010, then cash penalties of 1% of the purchase price per month for up to twelve months may apply. In connection with the private placement, we entered into an amendment to the First Lien Credit Agreement providing for the waiver of the requirement to use 25% of the net cash proceeds from the private placement for the repayment of senior secured term indebtedness and paid the senior secured lenders an amendment fee of approximately \$0.1 million. In addition, as a result of the private placement, the exercise price of the warrant issued in connection with the second lien term indebtedness was adjusted from \$6.00 per share to \$5.99 per share.

(9) Share-Based Compensation

In accordance with the applicable accounting guidance governing share-based payments, we record compensation expense for all share-based awards issued. For the three and six months ended June 30, 2010 and 2009, we recorded approximately \$0.7 million, \$0.3 million, \$1.3 million and \$0.4 million of compensation expense, respectively, related to share-based grants. Such compensation expense is included in research and development, sales and marketing and general and administrative expense in the accompanying condensed consolidated statements of operations.

(10) Loss Per Common Share

Basic loss per common share is computed by dividing net loss attributable to common stockholders by the weighted average number of common shares outstanding for the period. Diluted loss per common share reflects the potential dilution from the exercise or conversion of securities into common stock. During all periods presented, we had potential common shares, including shares issuable upon the exercise of outstanding stock options and warrants and shares held in escrow pending satisfaction of a contingency, which could potentially dilute basic loss per common share in the future but have been excluded from the computation of diluted loss per common share as the effect would have been anti-dilutive. For the three and six months ended June 30, 2010 and 2009, there were 84,459,056 and 83,632,605 potential common shares, respectively, excluded from the computation of diluted loss per share, consisting of shares (i) issuable upon the exercise of outstanding stock options and warrants, (ii) held in escrow to be released to the Old HTI stockholders upon achievement of the specified price targets and (iii) held in escrow to indemnify us for the payment of indemnification claims that may be made as a result of breaches of Old HTI's covenants, representations and warranties in the Merger Agreement. In addition, for the three and six months ended June 30, 2009, we excluded the 7,439,978 shares of common stock, which we repurchased following consummation of the Merger from the calculation of the weighted average number of common shares outstanding during such period.

(11) Comprehensive Loss

Comprehensive loss is defined as the change in equity during a period from transactions and other events and circumstances from nonowner sources. Our comprehensive loss for each of the three and six month periods ended June 30, 2010 and 2009 equaled our net loss.

(12) Related Party Transactions

The promissory note accrues interest at a rate of 12.00% per annum, compounded annually, and becomes due and payable on December 31, 2010. We have a long-term contract with an automaker pursuant to which the automaker agreed to install telematics devices in its vehicles and permit us to exclusively provide telematics services to its new customers. This contract also required us to pay the automaker for certain non-recurring costs associated with the initiation of telematics services. Pursuant to the contract, we are currently committed to pay \$4.0 million to the automaker in 2010.

Litigation and Claims

On May 7, 2009, Networkfleet was served with a complaint in a patent infringement case titled Innovative Global Systems LLC vs. Turnpike Global Technologies L.L.C. et al. that was filed in the Eastern District of Texas. The case sought damages from Networkfleet and five other defendants for allegedly infringing on five patents held by the plaintiffs. On May 7, 2010, the parties executed an agreement to settle the matter. The resolution of this case will not have a material adverse effect on our financial position, results of operations or cash flows.

Additionally, from time to time, we are subject to litigation in the normal course of business. We are of the opinion that, based on information presently available, the resolution of any such legal matters will not have a material adverse effect on our financial position, results of operations or its cash flows.

Overview

We are a telematics services company that provides a suite of real-time voice and data communications services and applications for use in vehicles and are developing additional applications for use within and outside of the automotive industry. These services are enabled through a state-of-the-art communications center designed and built to connect various mobile devices with content, services and call centers. Our system architecture enables us to manage the integration of these components and the associated service delivery in an efficient manner, allowing us to quickly adopt and implement new technologies and services.

Within the automotive industry, our communications center allows for two way voice and data communications to the vehicle and supports, among other things, critical safety and security services as well as location-based services and remote diagnostics. Since November 16, 2009, we have been the exclusive telematics services provider in the United States for all new vehicles sold by Mercedes-Benz, as well as the preferred provider of telematics services for all Mercedes-Benz vehicles purchased prior to November 16, 2008. These services are marketed under the *mbrace* brand and are enabled through a factory-installed hardware device installed on Mercedes-Benz vehicles. In addition, our *in-Drive* product offers services to consumers and other third parties through an aftermarket hardware device that we have developed and which we intend to distribute through relationships with companies and organizations with large customer bases for installation in existing vehicles. Through Networkfleet, Inc., our wholly-owned subsidiary, we currently offer remote vehicle monitoring and other data services to support owners and operators of fleets of vehicles.

Although Networkfleet has been our primary source of revenue to date, we expect to derive our revenue increasingly from the telematics services provided to Mercedes-Benz vehicles, vehicles manufactured by automakers to whom we are currently marketing our services and vehicles which will have our *in-Drive* aftermarket hardware device installed. We expect a significant portion of our future revenues to be generated from subscriptions for consumer service offerings, as well as from transaction or pre-paid package fees, automaker and dealer service

offerings and from strategic relationships with third parties who are expected to develop applications for our services and product offerings.

Table of Contents

On May 12, 2010, we entered into the LLC Agreement with Qualcomm, a leader in developing and delivering innovative digital wireless communications products and services, and AMAC, a healthcare communications company dedicated to the provision of support services to the healthcare community, forming Lifecomm. Lifecomm intends to design, develop, finance and operate a mobile personal emergency response service which will permit subscribers to initiate requests for emergency assistance services through a wearable device that is able to communicate information to and support voice interactions between the subscriber and an emergency assistance call center for purposes of dispatching first responders to the subscriber's location. Lifecomm expects to launch its service offerings in the second half of 2011.

Merger with Polaris Acquisition Corp.

On March 31, 2009, pursuant to the terms of the Merger Agreement, Old HTI, a privately held company, and Polaris, a publicly held blank check company, consummated the Merger. In connection with the Merger, Polaris changed its name from Polaris Acquisition Corp. to HUGHES Telematics, Inc. Upon closing of the Merger, the outstanding equity securities of Old HTI were exchanged for an aggregate of 77,102,149 shares of our common stock, comprised of 19,854,018 initial shares and 57,248,131 earn-out shares. In addition, all options exercisable for Old HTI common stock issued and outstanding immediately prior to the Merger were exchanged for options exercisable for an aggregate of 2,274,935 shares of our common stock, which includes 1,751,859 earn-out options. The earn-out shares, which were issued into escrow, will be released to the Old HTI stockholders and the earn-out options will be eligible to be exercised, according to their terms, by the optionholders, each in three tranches, upon the trading share price of our common stock reaching at least \$20.00, \$24.50 and \$30.50 (as may be adjusted or amended in accordance with the escrow agreement) within certain measurement periods over the five-year period following the closing of the Merger. The Old HTI stockholders placed 5,782,661 shares of common stock, comprised of 1,489,053 initial shares and 4,293,608 earn-out shares, in escrow until June 30, 2010 to indemnify us for the payment of indemnification claims that may be made as a result of breaches of Old HTI's covenants, representations and warranties in the Merger Agreement. Pursuant to the Merger Agreement, the Polaris founders agreed to deposit an aggregate of 1,250,000 shares of their common stock into escrow at closing with such shares being released upon the achievement of the first share price target between the first and fifth anniversary of closing. Upon consummation of the Merger, the Polaris founders also transferred an aggregate of 168,000 shares of common stock to us with such shares cancelled upon receipt.

In order to consummate the Merger, we agreed to purchase an aggregate of 7,439,978 shares of our common stock from a limited number of institutional shareholders in separate and privately negotiated transactions which were executed prior to the conclusion of the special meeting in which our shareholders voted on the Merger. In order to consummate these private purchases following the Merger, we used funds released from the trust account and funds received from the sale of Series B Preferred Stock. In addition, stockholders holding an aggregate of 4,499,337 shares of common stock exercised their right to convert their stock into a pro rata share of the funds held in the Polaris trust account.

Immediately prior to the consummation of the Merger, Old HTI extinguished its outstanding shares of Series A Preferred Stock through (i) the exercise by Communications LLC of outstanding warrants to purchase Old HTI common stock using shares of Series A Preferred Stock with an aggregate face value of \$55.0 million and (ii) the exchange of shares of Series A Preferred Stock with an aggregate face value of \$20.0 million for shares of Old HTI common stock. In connection with the Merger, all outstanding shares of Series B Preferred Stock were exchanged for an aggregate of 12,500,000 shares of our common stock, comprised of 5,000,000 initial shares and 7,500,000 earn-out shares.

Notwithstanding the legal form of the transaction, the Merger has been accounted for under the purchase method of accounting as a reverse acquisition, equivalent to a recapitalization, through the issuance of stock by Old HTI for the net monetary assets of Polaris. The determination of Old HTI as the accounting acquirer was made based on consideration of all quantitative and qualitative factors of the Merger, including significant consideration given to the fact that following consummation of the Merger (i) the stockholders of Old HTI controlled a majority of our voting power, (ii) the controlling stockholder of Old HTI prior to the Merger, together with its affiliates, controlled approximately 72% of our voting power and had the right to select a majority of the members of our board of directors and (iii) the management of Old HTI continued in all executive officer and other senior management positions and, accordingly, had day-to-day authority to carry out the business plan after the Merger. Accordingly, our historical financial statements prior to March 31, 2009 are the historical financial statements of Old HTI. The consolidated financial statements of Old HTI have been retroactively restated to reflect the recapitalization of Old HTI with the 77,102,149 shares of common stock issued to Old HTI equity holders in connection with the Merger.

Selected Segment Data

We classify our operations into three principal business segments: (i) the HUGHES Telematics segment, which provides and is further developing the telematics solution which is being marketed to automakers and other parties and

includes the operations relating to the contract with Mercedes-Benz and our *in-Drive* product offering; (ii) the Networkfleet segment, which provides a wireless aftermarket fleet management solution targeted to the local fleet market; and (iii) the Lifecomm segment, which is developing and will operate a mobile personal emergency response service which will permit subscribers to initiate requests for emergency assistance services through a wearable device. Results of Operations for the Three Months Ended June 30, 2010 Compared to the Three Months Ended June 30, 2009*Revenues*

Hardware revenues consist principally of the sale of Networkfleet's telematics device. Service revenues reflect the consideration received for monitoring and tracking services, which are recognized as revenue when earned. The following table sets forth information related to revenue for the three months ended June 30, 2010 and 2009:

	Three Months Ended June 30,	
	2010	2009
	(in thousands)	
Services	\$ 6,468	\$ 5,585
Hardware	2,959	2,721
Total revenues	\$ 9,427	\$ 8,306

Total revenues for the three months ended June 30, 2010 increased to approximately \$9.4 million, a 13% increase from the approximately \$8.3 million for the three months ended June 30, 2009. This increase was primarily due to the increase in Networkfleet's service revenues, which increased by 12% during the three months ended June 30, 2010 compared to the three months ended June 30, 2009. Units active on Networkfleet's network increased to approximately 108,000 as of June 30, 2010, a 15% increase from the approximately 94,000 units active as of June 30, 2009. As Networkfleet continues to sell additional hardware devices, service revenues are expected to continue to increase in future periods. In addition, service revenues generated by the HUGHES Telematics segment are expected to significantly increase in future periods as (i) we continue to transition paying subscribers to the Mercedes-Benz service formerly marketed under the Tele Aid brand to our service platform and (ii) we convert subscribers to the *mbrace* service from a trial to a paid subscription.

Networkfleet's hardware sales increased to approximately 8,900 units in the three months ended June 30, 2010, an 11% increase from the approximately 8,000 units sold in the three months ended June 30, 2009. This increase was due primarily to the success of certain pricing programs and increasing sales of the Networkfleet 4200 hardware device which was launched in the second half of 2009. As general economic conditions improve, we expect hardware sales to increase in future periods.

Cost of Revenues

Cost of services includes per-unit monthly charges from various wireless, mapping, and roadside assistance providers, the salaries and related benefits for employees who support the call centers and manage the data centers and depreciation of the software and equipment which support the provision of services. Cost of hardware sold consists primarily of the cost of direct materials required to produce Networkfleet's telematics device, the cost of shipping and installing devices and the amortization of certain intangibles acquired in connection with the acquisition of Networkfleet. The following table sets forth information related to cost of revenues for the three months ended June 30, 2010 and 2009:

	Three Months Ended June 30,	
	2010	2009
	(in thousands)	
Cost of services	\$ 5,855	\$ 1,646
Cost of hardware sold	2,491	2,194
Total cost of revenues	\$ 8,346	\$ 3,840

Table of Contents

Cost of revenues increased to approximately \$8.3 million for the three months ended June 30, 2010 from \$3.8 million for the three months ended June 30, 2009, an increase of \$4.5 million or 117%. Cost of services for the three months ended June 30, 2010 consisted of approximately \$3.4 million of costs related to the provision of the *mbrace* service to owners and lessees of Mercedes-Benz vehicles, approximately \$1.8 million of costs related to the provision of Networkfleet's service offerings and approximately \$0.7 million related to the anticipated shortfall below a contractual minimum payment. The cost of services related to the provision of *mbrace* services, which was launched in November 2009, is incurred without the benefit of substantial related revenues because an introductory trial of six months is offered to the purchasers or lessees of new Mercedes-Benz vehicles. Cost of services related to the provision of Networkfleet's service offerings increased approximately \$0.1 million in the three months ended June 30, 2010 compared to the three months ended June 30, 2009 due to the increased number of active units on the network. Networkfleet's cost of revenues as a percentage of total revenues was approximately 46% in each of the three months ended June 30, 2010 and June 30, 2009. We expect Networkfleet's cost of revenues as a percentage of total revenue to decrease as the proportion of service revenues, which earn higher gross margins than hardware revenues, increases as further units are added to Networkfleet's network.

Research and Development Expense

Research and development expense consists primarily of salaries and related benefits for employees and fees paid to third parties associated with engineering and product development activities, depreciation of property and equipment used in engineering and product development efforts and amortization of certain intangible assets acquired in connection with the acquisition of Networkfleet. Research and development expense for the three months ended June 30, 2010 decreased to \$2.6 million from \$9.4 million for the three months ended June 30, 2009, a decrease of \$6.8 million or 72%. This decrease was due to an approximately \$6.8 million decrease in amounts paid to third parties related to development activities that were completed in the second half of 2009 and an approximately \$0.5 million decrease in depreciation expense due to the impairment or disposal of certain assets used in development efforts that occurred subsequent to June 30, 2009, partially offset by a \$0.4 million increase in labor costs as we dedicated additional internal resources to the further development and testing of our telematics system, including the development of our *in-Drive* products and services.

Sales and Marketing Expense

Sales and marketing expense consists primarily of (i) salaries, commissions and related benefits for employees engaged in maintaining and augmenting our automaker relationships, Networkfleet's sales initiatives and other marketing activities, (ii) certain amounts paid to Mercedes-Benz and its dealers, (iii) the costs associated with direct marketing campaigns, (iv) trade shows and other forms of advertising, (v) depreciation of software applications used in marketing activities and (vi) the amortization of certain intangible assets acquired in connection with the acquisition of Networkfleet. Sales and marketing expense for the three months ended June 30, 2010 increased to \$5.5 million from \$2.7 million for the three months ended June 30, 2009, an increase of \$2.8 million or 104%. This increase related primarily to a \$2.3 million increase in marketing costs incurred relating to our *mbrace* service offering, which was launched in November 2009, including certain amounts paid to Mercedes-Benz and its dealers and an increase of \$0.4 million in depreciation expense.

General and Administrative Expense

General and administrative expense consists primarily of facilities costs, finance, accounting, legal, information technology, human resources and other corporate costs, as well as the salaries and related employee benefits for those employees that support such functions. General and administrative expenses for the three months ended June 30, 2010 increased to \$9.7 million from \$9.3 million for the three months ended June 30, 2009, an increase of \$0.4 million or 4%. This increase was due primarily to a \$0.9 million increase in compensation and benefits as we increased our operational support staff following the launch of the *mbrace* service offering in November 2009 and an approximately \$0.3 million increase in depreciation and amortization expense related to the systems and software which were deployed during the second half of 2009 to support our billing and other administrative functions, partially offset by a decrease of \$0.8 million of expenses which were incurred during the three months ended June 30, 2009 related to the implementation of the systems and software which support our billing and other administrative functions.

Table of Contents*Interest Expense, Net*

Interest expense, net for the three months ended June 30, 2010 increased to \$5.5 million from \$2.6 million for the three months ended June 30, 2009, an increase of \$2.9 million. Interest expense, net for the three months ended June 30, 2010 consisted of \$3.5 million of accrued interest, discount amortization and debt issuance cost amortization related to senior secured term indebtedness, \$0.7 million of accrued interest, discount amortization and debt issuance cost amortization related to our second lien term indebtedness, \$1.0 million of accrued interest and discount amortization related to the senior subordinated unsecured term promissory notes, \$0.2 million of accrued interest related to our senior unsecured promissory note and \$0.1 million of accrued interest related to capital leases and vendor financing. Interest expense, net for the three months ended June 30, 2009 consisted of \$3.2 million of accrued interest, discount amortization and debt issuance cost amortization related to senior secured term indebtedness, \$0.8 million of interest and discount amortization related to the senior subordinated unsecured term promissory notes and \$0.2 million of interest on capital lease obligations and vendor financing partially offset by approximately \$1.6 million of interest that was capitalized.

Results of Operations for the Six Months Ended June 30, 2010 Compared to the Six Months Ended June 30, 2009*Revenues*

The following table sets forth information related to revenue for the six months ended June 30, 2010 and 2009:

	Six Months Ended June 30,	
	2010	2009
	(in thousands)	
Services	\$ 12,524	\$ 10,905
Hardware	5,070	4,950
Total revenues	\$ 17,594	\$ 15,855

Total revenues for the six months ended June 30, 2010 increased to approximately \$17.6 million, an 11% increase from the approximately \$15.9 million of revenues in the six months ended June 30, 2009. The primary driver of the increase was service revenues, which increased by 15% in the six months ended June 30, 2010 compared to the six months ended June 30, 2009. Hardware unit sales increased by approximately \$0.1 million due to an increase in units sold to approximately 15,500 units in the six months ended June 30, 2010 compared to approximately 15,000 units in the six months ended June 30, 2009. As general economic conditions improve, we expect hardware sales to increase in future periods.

Cost of Revenues

The following table sets forth information related to costs of revenue for the six months ended June 30, 2010 and 2009:

	Six Months Ended June 30,	
	2010	2009
	(in thousands)	
Cost of services	\$ 11,648	\$ 3,269
Cost of hardware	4,413	3,968
Total cost of revenues	\$ 16,061	\$ 7,237

Cost of revenues increased to approximately \$16.1 million for the six months ended June 30, 2010 from \$7.2 million for the six months ended June 30, 2009. Cost of services for the six months ended June 30, 2010 consisted of approximately \$6.8 million of costs related to the provision of the *mbrace* service to owners and lessees of Mercedes-Benz vehicles, approximately \$3.5 million of costs related to the provision of Networkfleet's service offerings and approximately \$1.3 million related to the anticipated shortfall below a contractual minimum payment. The cost of services related to the provision of *mbrace* services, which was launched in November 2009, is incurred without the benefit of substantial related revenues because an introductory trial of six months is offered to the purchasers or lessees of new Mercedes-Benz vehicles. Cost of services related to the provision of Networkfleet's service offerings increased approximately \$0.3 million in the six months ended June 30, 2010

Edgar Filing: HUGHES Telematics, Inc. - Form 424B3

compared to the six months ended June 30, 2009 due to the increased number of active units on the network. Networkfleet's cost of revenues as a percentage of total revenues was approximately 46% in each of the six months ended June 30, 2010 and 2009. We expect Networkfleet's cost of revenues as a percentage of total revenue to decrease as the proportion of service revenues, which earn higher gross margins than hardware revenues, increases as further units are added to Networkfleet's network.

Research and Development Expense

Research and development expense for the six months ended June 30, 2010 decreased to \$5.4 million from \$18.5 million for the six months ended June 30, 2009, a decrease of \$13.1 million or 70%. This decrease was due to an

Table of Contents

approximately \$13.4 million decrease in amounts paid to third parties related to development activities that were completed in the second half of 2009 and an approximately \$0.7 million decrease in depreciation expense due to the impairment or disposal of certain assets used in the development effort that occurred subsequent to June 30, 2009, partially offset by a \$0.9 million increase in labor costs as we dedicated additional internal resources to the further development and testing of our telematics system, including the development of our *in-Drive* products and services.

Sales and Marketing Expense

Sales and marketing expense for the six months ended June 30, 2010 increased to \$11.2 million from \$5.1 million for the six months ended June 30, 2009, an increase of \$6.2 million or 122%. This increase related primarily to a \$4.9 million increase in marketing costs incurred relating to our *mbrace* service offering, which was launched in November 2009, including certain amounts paid to Mercedes-Benz and its dealers; an increase of \$0.9 million in depreciation expense; and an increase of approximately \$0.5 million in salaries and related benefits as the number of employees dedicated to sales and marketing activities grew in the six months ended June 30, 2010 as we continued to develop our relationship with Mercedes-Benz and its dealers and pursued relationships with other automakers.

General and Administrative Expense

General and administrative expenses for the six months ended June 30, 2010 increased to \$19.1 million from \$17.0 million for the six months ended June 30, 2009, an increase of \$2.1 million or 13%. This increase was due primarily to a \$2.4 million increase in compensation and benefits as we increased our operational support staff following the launch of the *mbrace* service offering in November 2009, a related \$0.3 million increase in administrative costs related to such additional personnel, an approximately \$1.1 million increase in depreciation and amortization expense related to the systems and software which were deployed during the second half of 2009 to support our billing and other administrative functions, partially offset by a decrease in professional fees of \$1.7 million primarily due to Merger related costs recorded in the six months ended June 30, 2009.

Interest Expense, Net

Interest expense, net for the six months ended June 30, 2010 increased to \$10.7 million from \$6.1 million for the six months ended June 30, 2009, an increase of \$4.6 million. Interest expense, net for the six months ended June 30, 2010 consisted of \$7.0 million of accrued interest, discount amortization and debt issuance cost amortization related to senior secured term indebtedness, \$1.3 million of accrued interest, discount amortization and debt issuance cost amortization related to our second lien indebtedness, \$1.8 million of accrued interest and discount amortization related to the senior subordinated unsecured term promissory notes, \$0.4 million of accrued interest related to our senior unsecured promissory note and \$0.3 million of accrued interest related to capital leases and vendor financing, partially offset by \$0.1 million of interest that was capitalized. Interest expense, net for the six months ended June 30, 2009 consisted of \$6.2 million of accrued interest, discount amortization and debt issuance cost amortization related to the senior secured term indebtedness, \$1.6 million of interest and discount amortization related to the senior subordinated unsecured term promissory notes, \$0.6 million of accretion of Series A Preferred Stock and \$0.4 million of interest on capital lease obligations and vendor financing partially offset by approximately \$2.6 million of interest that was capitalized and \$0.1 million of interest income.

Liquidity and Capital Resources

As of June 30, 2010, we had cash, cash equivalents and short-term investments of approximately \$31.0 million and an accumulated deficit of \$402.4 million. Of the cash, cash equivalents and short-term investments, approximately \$10.0 million is held by our Lifecomm subsidiary for use in that business. As a result of our historical net losses and our limited capital resources, our independent registered public accounting firm's report on our financial statements as of and for the year ended December 31, 2009 includes an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern. We cannot assure you that our net losses and negative cash flow will not surpass our expectations, and thus, we may be required to raise additional capital or reduce our operating expenditures in the future. Additional financing may take the form of loans under a new credit facility, the issuance of bonds or other types of debt securities, the issuance of equity securities or a combination of the foregoing. Any such financing must either comply with the covenants of our existing credit facilities, or we will need to obtain waivers from the lenders. Our credit facilities contain covenants that restrict our ability to incur debt and will require mandatory prepayments from the proceeds of an equity financing. Any debt financing obtained may impose various restrictions and additional covenants on us which could limit our ability to respond to market conditions, provide for unanticipated capital investments or take advantage of business opportunities and may subject us to significant interest expense. Additional equity financing may be obtained on terms that are dilutive to the interests of existing stockholders. We have been successful in the past raising capital to address our liquidity needs; however, debt or additional equity financing may not be available when needed in the future on terms favorable to us or at all, and the failure to attract a sufficient amount of additional debt or equity capital may impair our ability to execute on our business plan. Such additional capital may be provided by, among other things, the cash proceeds from the exercise of the outstanding warrants to purchase

shares of our common stock. There is no assurance that we will be successful in obtaining additional financing, if needed, or that we will be able to reduce our operating expenditures. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Operating Activities

For the six months ended June 30, 2010, cash used in operating activities was approximately \$16.1 million, consisting primarily of a net loss of \$45.0 million partially offset by \$12.7 million of net changes in operating assets and liabilities, \$6.9 million of depreciation and amortization, \$4.7 million of interest accrued on long-term indebtedness that was paid in-kind with such accrued interest being added to the outstanding principal balance of the debt, \$3.0 million of discount and debt issuance cost amortization and \$1.3 million of share-based compensation expense. For the six months ended June 30, 2009, cash used in operating activities was approximately \$18.5 million, consisting primarily of a net loss of \$100.3 million, partially offset by a \$62.3 million change in the market value of derivative instruments, \$8.4 million of net changes in operating assets and liabilities, \$3.5 million of interest accrued on long-term debt that will be paid in-kind with such accrued interest being added to the outstanding principal balance of the long-term debt, \$4.5 million of depreciation and amortization, \$2.2 million of amortization of debt issuance costs and other discounts on the long-term debt, \$0.5 million of non-cash interest expense related to the Series A Preferred Stock and \$0.4 million of share-based compensation expense.

Investing Activities

For the six months ended June 30, 2010, cash used in investing activities was approximately \$8.7 million, consisting primarily of \$6.8 million used to purchase short-term investments, \$1.9 million of capitalized software costs related to Networkfleet's operations, \$0.5 million of capital expenditures related primarily to infrastructure necessary for our operations, an increase in restricted cash of \$0.2 million and \$0.1 million of capital expenditures related to Networkfleet's operations, partially offset by \$0.5 million of proceeds received from the disposal of certain available-for-sale assets and \$0.3 million from the maturities of short-term investments. For the six months ended June 30, 2009, cash used in investing activities was approximately \$12.5 million, consisting primarily of \$9.3 million of capital expenditures related to our factory-installed telematics initiative, \$8.1 million of capitalized software costs, \$0.2 million deposited into a restricted cash account to collateralize letters of credit and \$0.2 million of capital expenditures related to Networkfleet's operations, partially offset by the release of \$5.3 million of restricted cash that was previously held for the benefit of the lenders of the senior secured term indebtedness.

Financing Activities

For the six months ended June 30, 2010, cash provided by financing activities was approximately \$21.0 million, consisting of \$14.9 million of net proceeds in connection with the issuance of common stock and \$10.0 million of cash proceeds from the sale of non-controlling interests in Lifecomm, partially offset by \$2.7 million of payments on capital lease obligations and \$1.2 million of payments on long-term debt. For the six months ended June 30, 2009, cash provided by financing activities was approximately \$57.1 million, consisting of the \$97.2 million of net cash provided by the Merger and the \$37.0 million of cash proceeds from the issuance and sale of Series B Preferred Stock, partially offset by \$74.4 million paid to repurchase common shares in connection with the closing of the Merger, \$1.8 million in fees and expenses paid in connection with the issuance of the Series B Preferred Stock and \$1.1 million of payments on capital lease obligations.

Critical Accounting Policies

Our consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States. These accounting principles require management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, as well as the reported amounts of income and expense during the periods presented. Although these estimates are based on management's knowledge of current events and actions we may undertake in the future, actual results may differ from estimates. For a complete description of our critical accounting policies, refer to Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K filed with the SEC on March 16, 2010.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

As of June 30, 2010, we had approximately \$31.9 million of cash, cash equivalents, short-term investments and restricted cash. This cash, cash equivalents, short-term investments and restricted cash is subject to market risk due to changes in interest rates. In accordance with our investment policy, we diversify our investments among United States Treasury securities and other high credit quality debt instruments that we believe to be low risk. We are averse to principal loss and seek to preserve our invested funds by limiting default risk and market risk.

We may suffer from fluctuating interest rates, which may adversely impact our consolidated results of operations and cash flows. As of June 30, 2010, we had outstanding debt with an aggregate face amount, including interest which has been paid in kind, of approximately \$120.4 million, which included variable rate borrowings of approximately \$76.9 million. As of June 30, 2010, the hypothetical impact of a one percentage point increase in interest rates related to our outstanding variable rate debt would be to increase annual interest expense by approximately \$0.8 million.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Senior Vice President Finance and Treasurer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based on such evaluation, our Chief Executive Officer and Senior Vice President Finance and Treasurer, have concluded that, as of the end of such period, our disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by us in the reports that we file or submit under the Exchange Act.

Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting during the quarter ended June 30, 2010 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

On May 7, 2009, Networkfleet was served with a complaint in a patent infringement case titled Innovative Global Systems LLC vs. Turnpike Global Technologies L.L.C. et al. that was filed in the Eastern District of Texas. The case sought damages from Networkfleet and five other defendants for allegedly infringing on five patents held by the plaintiffs. On May 7, 2010, the parties executed an agreement to settle the matter. The resolution of this case will not have a material adverse effect on our financial position, results of operations or cash flows.

Item 1A. Risk Factors

In evaluating our common stock, you should carefully consider, in connection with other information in this report, the risks described in Item 1A of Part I in our Annual Report on Form 10-K for the year ended December 31, 2009 filed with the SEC on March 16, 2010. The risks and uncertainties described therein are not the only ones we face. Additional risks and uncertainties not presently known to us may also impair our operations and business. If we do not successfully address any of these risks, there could be a material adverse effect on our financial condition, operating results and business, and the trading price of our common stock may decline. We cannot assure you that we will successfully address these risks.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On May 13, 2010, we sold 5,130,500 shares of our common stock for gross proceeds of \$15.4 million (net proceeds of \$14.9 million) in a private placement to a group of institutional investors. In connection with this sale, we entered into a registration rights agreement with the investors requiring that, among other things, we register the resale of the shares. If we do not meet certain deadlines with respect to making a registration statement covering such resale effective by November 9, 2010, then cash penalties of 1% of the purchase price per month for up to twelve months may apply.

MEMBERS AND INTERESTS; CAPITAL CONTRIBUTIONS

2.1. Members and Interests.

(a) Each Member's Interest in the Company will be represented by Units. The Units initially shall be divided into three (3) Classes: Class A Units, Class B Units, and Class C Units. As of the Effective Date, there are issued and outstanding *** Class A Units, *** Class B Units, and *** Class C Units. Annex A hereto contains the name, Class and number of Units owned by each Member as of the Effective Date, which are being issued in exchange for such Member's Capital Contribution and, as applicable, provision of services described in Schedule 1, pursuant to this Agreement. Annex A shall be revised from time to time to reflect the admission or withdrawal of a Member or the issuance, transfer, assignment, redemption, relinquishment to the Company or other cancellation of Units in accordance with the terms of this Agreement and other modifications to or changes in the information set forth therein. Any Units that are relinquished to, redeemed by, or otherwise repurchased by, the Company, shall be deemed for all purposes of this Agreement to be canceled and no longer outstanding, and shall not have any rights hereunder.

(b) The Company shall incur obligations solely under the direction and with the Approval of the Board, acting by majority (except to the extent that Supermajority Approval of the Board and/or Supermajority Approval of the Members is required as set forth herein). The Company shall not incur any obligation that, in order for the Company to pay such obligation in full when it comes due, would necessitate any of the Initial Members to contribute cash or non-cash Capital Contributions to the Company in excess of, or any sooner than, as set forth in Sections 2.2, 2.3, 2.4 or 2.9 hereof respectively. The Initial Members acknowledge that, subject to the immediately preceding sentence and the other limitations on Board action set forth in this Agreement, the Board may Approve obligations that are not to be repaid out of Initial Member funding, but rather are to be repaid out of cash provided from the operation of the Company, provided the Board believes in good faith that such obligations can reasonably be expected to be repaid from such cash provided by operations.

(c) To the extent a portion of the non-cash contributions (in the form of services or otherwise) of certain Initial Members as described in Section 2.2(b) or Section 2.3(b) are to be effectively made (e.g., services are to be performed) following issuance of the Units under this Section 2, the Company will on a *** review any invoice provided pursuant to Section 2.1(d) to ensure the Company receives such non-cash contributions in full and in compliance

Each such Initial Member shall be obligated to provide all of such future non-cash contributions in accordance with Schedule 1 hereto and the applicable Transaction Agreements between the Company and such Initial Member until such time as the Company has received the full amount of non-cash contributions, provided that the Company has *** in accordance with the provisions of this Agreement. If an Initial Member fails to fully satisfy its obligation to make its future non-cash contributions by the end of Funding Period 1 (provided that the Company has not *** prior thereto in accordance with the provisions of this Agreement), such Initial Member shall *** on the *** anniversary of the Effective Date, or if sooner, immediately prior to any Capital Event. Notwithstanding the foregoing, except as otherwise provided in Sections 2.2(c) or 2.3(d), if during Funding Period 1 an Initial Member otherwise fails to provide or continue to provide non-cash contributions constituting all or a portion of its required contributions in accordance with Schedule 1 hereto and the applicable Transaction Agreements between the Company and such Initial Member and the timeline prescribed hereunder or thereunder for a period of *** following notice given by the Company or any other Initial Member of such failure to provide such non-cash contributions (provided that the Company has not *** prior thereto in accordance with the provisions of this Agreement), then, such Initial Member shall *** in *** intervals consistent with the in-kind schedule set forth on Schedule 1 hereto. If such Initial Member fails *** (a Cash Payment Default), then, the Company or any Initial Member shall be entitled to pursue any remedies that may be available hereunder or under the applicable Transaction Agreement between the Company and such Initial Member or under applicable law against such Initial Member with respect to such Initial Member s *** such unsatisfied non-cash contribution, including without limitation specific performance or a claim for damages hereunder or under such Transaction Agreement in the amount of any such unsatisfied non-cash contribution, provided, however, that *** for the same failure by such Initial Member to satisfy its obligation to pay cash in the amount of any such unsatisfied non-cash contribution. If neither the Company nor any Initial Member elects to pursue any such remedy for such Cash Payment Default against such Initial Member within *** of such Cash Payment Default, then the Percentage Interest of such Initial Member shall be proportionately reduced by *** as compared to such Initial Members total Capital Contributions hereunder (*e.g.*, if an Initial Member fails to provide \$2,000,000 *** and initial and future *** hereunder are \$10,000,000, then such Initial Member s Percentage Interest would be reduced by ***). In the event that any Member s Percentage Interest is reduced hereunder, the Units held by such Member concurrently therewith shall be proportionately reduced, relinquished and cancelled and Annex A shall be revised to reflect such modifications in accordance with Section 2.1(a) hereof.

(d) For all in-kind contributions of services to the Company contemplated by this Section 2.1 and Sections 2.2 and 2.3 hereof, the Initial Member providing such in-kind contribution of services shall bill the Company for such services and shall specify in such bill the amount to be paid by the Company (if any) for such services, *** as in-kind contribution of services provided to the Company (which shall be reflected in such Initial Member s Capital Account), in each case in accordance with the *** as set forth on Schedule 1 hereto or as otherwise set forth in the applicable Transaction Agreement between the Company and such Initial Member. The Company and each Initial Member shall have the right to request copies of accounting records as reasonably necessary for purposes of confirming an Initial Member s actual in-kind contributions.

(c) Notwithstanding anything herein to the contrary, HTI shall not be required to make a contribution of its services, as otherwise may be required hereunder, at any time when the Company is in material breach of its obligations under the HTI Infrastructure Access Agreement or the HTI Services Agreement and either such Agreement is properly terminated in connection therewith, except to the extent that HTI caused the Company's material breach of such agreement.

2.3 QC Contributions. In consideration for its *** Class B Units, QC shall make cash Capital Contributions and non-cash contributions to the Company, subject to the following dollar limitations set forth below in this Section 2.3:

2.3A Gross Asset Value Attributable to Certain In-Kind Contributions. The contributions described in Sections 2.2(b) and 2.3(c) will result in an increase in the Gross Asset Value of Company intangible property equal to the value of such contributions, as and when such contributions are made; provided however that in no event shall the aggregate value of the relevant services exceed the aggregate value of such services as set forth in Sections 2.2(b) and 2.3(c), as applicable. Such increases in Gross Asset Value shall be taken into account in computing adjustments to Members' Capital Accounts in the manner set forth in Article III, and such contributions shall constitute Capital Contributions for purposes of Sections 2.1(a), 3.3(c) and 13.1(c), in an amount equal to the value of such contributions, as and when made; provided however that in no event shall the aggregate value of the relevant services exceed the aggregate value of such services as set forth in Sections 2.2(b) and 2.3(c), as applicable

2.5 Additional Capital Contributions. The Board may elect to solicit the Members to make additional Capital Contributions to the Company beyond those set forth in Sections 2.2, 2.3 and 2.4 above for use in acquiring Company assets or in funding Company operations or reserves when the Company is in need of such funds at such times and consistent with the Business Plan or other Approved Plan. Such solicitations for additional Capital Contributions (other than a Pre-Approved Capital Call under Section 2.9) shall be subject to the terms of Section 2.8. Except as set forth in Sections 2.1(d), 2.2, 2.3, 2.4, 2.9 or otherwise expressly set forth in this Agreement, under no circumstances shall any Member be obligated to make Capital Contributions to the Company.

2.6 Issuance of Additional Units. Upon Supermajority Approval of the Board and subject to the terms of Section 2.8 (but expressly excluding the Pre-Approved Capital Call under Section 2.9 which shall be deemed pre-approved by, and shall require no further approval of, the Board or Members), the officers of the Company are authorized from time to time to cause the Company to issue to the Members or other Persons additional Interests in the Company (such additional Interests being represented by additional Units of a class as determined by the Board) in order to raise capital for Company's operations or to acquire assets, to redeem or retire Company debt, or for any other valid Business purposes that is in the best interests of the Company. 2.7 Admission of Additional Members. Upon Supermajority Approval of the Board and subject to the terms of Sections 2.6 and 2.8, the officers of the Company may admit one or more Persons who are strategic and/or financial investors as additional Members (Third Party Investors). Each additional Member shall: (i) agree to be bound by the provisions of this Agreement; (ii) execute and deliver such documents as the Board deems appropriate in connection therewith; and (iii) contribute to the Company the Capital Contribution agreed upon between the additional Member and the Board in exchange for Units. The Initial Members shall coordinate with each other prior to finalizing any material term sheets relating to any such Third Party Investor's investment in the Company, and no offer shall be made to any Third Party Investor except upon Supermajority Approval of the Board.

2.8 Preemptive Rights.

(a) Subject to clause (f) below, the officers of the Company shall not solicit capital contributions or issue any Interests (or Units) in the Company therefor unless it first delivers to each Initial Member (each such Initial Member being referred to in this Section 2.8 as a Buyer) a written notice (the Notice of Proposed Issuance) specifying the type and amount of such capital contributions and Interests (or Units) that Company then intends to issue therefor (the Offered Interests), all of the material terms, including the price (cash or non-cash) upon which Company proposes to issue the Offered Interests and stating that the Buyers shall have the right to purchase the Offered Interests in the manner specified in this Section 2.8 for the same price per share and in accordance with the same terms and conditions specified in such Notice of Proposed Issuance, provided, that if such price consists of non-cash consideration, a Buyer may purchase the Offered Interest with the same type and amount of non-cash consideration described in such Notice of Proposed Issuance or, may instead (at the election of such Buyer), pay for such Offered Interests with the cash equivalent of such price.

(b) During the *** Business Day period commencing on the date Company delivers to all of the Buyers the Notice of Proposed Issuance (the *** Period), the Buyers shall have the option to purchase up to all of the Offered Interests at the same price and upon the same terms and conditions specified in the Notice of Proposed Issuance. Each Buyer electing to purchase Offered Interests must give written notice of its election to Company prior to the expiration of the *** Period.

(c) Each Buyer shall have the right to purchase up to that percentage of the Offered Interests equal to the Percentage Interest in the Company then held by such Buyer. The amount of such Offered Interests that each Buyer is entitled to purchase under this Section 2.8 shall be referred to as its Proportionate Share.

(d) In the event that any Buyer elects not to purchase its full Proportionate Share of the Offered Interests pursuant to Sections 2.8 (a), (b) and (c) above, the Company shall deliver to all of the other Buyers a written notice (the Oversubscription Notice) specifying the total number of Offered Interests not so purchased (the Remaining Offered Interests) within

*** Business Days following the expiration of the *** Period set forth in Section 2.8(b) above. Each such Buyer shall have a right of oversubscription to purchase up to the balance of such Offered Interests not so purchased at the same price and on the same terms and conditions set forth in the original Notice of Proposed Issuance. Each such Buyer who receives an Oversubscription Notice must exercise its right of oversubscription by giving the Company written notice of its election during the *** Business Day period following its receipt of the Oversubscription Notice. If, as a result thereof, such oversubscription elections exceed the total number of the Offered Interests available in respect to such oversubscription privilege, the oversubscribing Buyers shall be cut back with respect to oversubscriptions on a pro rata basis in accordance with their relative Proportionate Shares or as they may otherwise agree among such oversubscribing Buyers.

(e) If all of the Offered Interests have not been purchased by the Buyers pursuant to the foregoing provisions, then General Manager shall have the right, until the expiration of *** days commencing on the first day immediately following the expiration of the *** Period, to issue the Offered Interests not purchased by the Buyers at not less than, and on terms no more favorable in any material respect to the purchaser(s) thereof than, the price and terms specified in the Notice of Proposed Issuance. If such remaining Offered Interests are not issued within such period and at such price and on such terms, the right to issue in accordance with the Notice of Proposed Issuance shall expire and the provisions of this Agreement shall continue to be applicable to the Offered Interests.

(f) Notwithstanding the foregoing, the rights described in this Section 2.8 shall not apply with respect to the issuance of Excluded Securities. For purposes of this Section 2.8, Excluded Securities shall mean any Interests in the Company (i) issued in connection with the ***, whether by the *** or otherwise, which has been Approved by the Board and/or Members, to the extent that Approval of the Board and/or Approval of the Members, including Supermajority Approval of the Board and/or Supermajority Approval of the Members, is required hereunder, (ii) issued as part of an ***, and (iii) issued to financial institutions, financial syndicates or lessors in connection with bona fide commercial credit arrangements, equipment financings, or similar transactions for primarily other than equity financing purposes not exceeding cumulatively (including all prior issuances of Interests (or Units) that are Excluded Securities pursuant to this Section 2.8(f)(iii)) in the aggregate *** of the aggregate Percentage Interests then outstanding and which have been Approved by the Board and/or Members, to the extent that Supermajority Approval or Approval of the Board and/or Supermajority Approval or Approval of the Members is required hereunder.

2.9 Stand-by Equity Commitment.

(a) In the event the ***, the Company is hereby authorized to demand a capital increase (or series of capital increases) of up to a total of \$2,000,000 in Interests in the Company (the Pre-Approved Capital Call) from the Initial Members. In the event that Company demands a Pre-Approved Capital Call, Company shall deliver to each Initial Member a written notice (the Notice of Pre-Approved Capital Call) specifying the amount of such capital contributions demanded and the Interests that Company then intends to issue therefor. During the *** Business Day period commencing on the date Company delivers to all of the Initial Members the Notice of Pre-Approved Capital Call, each Initial Member shall have the obligation

to subscribe to its pro rata share of such capital increase (or series of increases) in cash in an amount equal to its Percentage Interest of the Interests being issued at the same price and upon the same terms and conditions specified in the Notice of Pre-Approved Capital Call. Each Initial Member shall confirm its obligation to purchase Interests in a Pre-Approved Capital Call by giving written notice of its confirmation to the Company prior to the expiration of such *** Business Day period.

(b) In the event any Initial Member (a Defaulting Party) fails to meet any such capital call associated with a Pre-Approved Capital Call as reasonably determined by the Supermajority Approval of the Board, then the Company may seek specific performance by such Defaulting Party or a claim for damages against such Defaulting Party, or the non-defaulting Initial Members may, (i) elect to cover such shortfall and subscribe pro rata in accordance with their relative Percentage Interests (as of immediately prior to the subscription provided in this Section 2.9(b)) for such number of additional Interests (represented by Units of the same class as is set forth next to such Initial Member's name in Annex A hereto) necessary to make up the shortfall caused by the Defaulting Party's failure to subscribe for the Interests, and all such additional Interests subscribed for in the Pre-Approved Capital Call pursuant to this Section 2.9 shall be issued at an issuance price equal to a *** discount to the lower of (a) \$1,000 per Unit or (b) the issue price established by Supermajority Approval of the Board for the Interests to be issued pursuant to such Pre-Approved Capital Call (determined without regard to such discount); and (ii) seek amounts paid by such non-defaulting Initial Member from the Defaulting Party. If the other non-defaulting Initial Members do not elect to fully fund such shortfall arising from the Defaulting Party's failure to meet such Pre-Approved Capital Call, such non-defaulting Initial Members and the Company shall have the right to wind-up the Company pursuant to Section 12.1(a) and exercise any other remedies that may be available hereunder or under applicable law and shall retain all available legal remedies as against the Defaulting Party with respect to the Defaulting Party's failure to meet its obligation to subscribe to its pro rata share of the Pre-Approved Capital Call, subject to the limitations of liability in Section 5.10. Notwithstanding the foregoing, (i) QC shall not have any obligation to meet capital calls associated with a Pre-Approved Capital Call as described above in the event that the Company materially breaches the QC Services Agreement or the QC Know-How License Agreement, except to the extent that QC caused the Company's material breach of the QC Engineering Services Agreement or the QC Know How License Agreement (ii) HTI shall not have any obligation to meet capital calls associated with a Pre-Approved Capital Call as described above in the event that the Company materially breaches the HTI Infrastructure Access Agreement or the HTI Services Agreement and such agreement is properly terminated in connection therewith, except to the extent that HTI caused the Company's material breach of such agreement, and (iii) AMAC shall not have any obligation to meet capital calls associated with a Pre-Approved Capital Call as described above in the event that the Company materially breaches the AMAC Reseller Agreement, except to the extent that AMAC caused the Company's material breach of the AMAC Reseller Agreement.

(c) Additional subscriptions for Interests by a Member under this Section 2.9 shall be evidenced by the issuance of additional Units to such Member (corresponding to the amount of such Interests subscribed for) in the same class as the Units set forth next to each such Member on Annex A.

2.10 Loans by Members. The Board may elect to solicit Members to loan funds to the Company for use in acquiring Company assets or in funding Company operations or reserves when the Company is in need of such funds. Under no circumstances shall Members be obligated to make loans to the Company. The terms of a loan, including but not limited to, the interest rate, term, security and prepayment rights, shall be as agreed upon by the Supermajority Approval of the Board to the extent required pursuant to Section 5.5, the Supermajority Approval of the Members pursuant to Section 5.6 and the Members making such loans. Any such loan or advance made by a Member shall not be an increase in the Capital Account of the Member making the loan and the aggregate amount of all such advances shall be a debt obligation of the Company to the Member.

ARTICLE III

CAPITAL ACCOUNTS; BOOK ALLOCATIONS; DISTRIBUTIONS

3.1 Capital Accounts. There shall be established for each Member on the books of the Company as of the Effective Date, or such later date on which such Member is admitted to the Company, a capital account (each being a Capital Account). The Capital Account of each Member shall be credited with the Capital Contributions made (or deemed to have been made) by such Member, increased by any allocation of Profits (or items thereof) or assumption of liabilities and by any additional Capital Contributions by that Member, and shall be reduced by any allocation of Losses (or items thereof), any liabilities of a Member assumed by the Company and by any distribution to that Member. Capital Accounts shall be appropriately adjusted to reflect Transfers of all or part of a Member's Interests. Interest shall not be payable on Capital Account balances. Schedule 3.1 hereto lists each Member's Capital Account on the Effective Date.

3.2 Return of Capital Contributions. Except as provided in and subject to Section 3.3 (Distributions) and Article XII (Wind-Up Events; Termination Events), no Member shall have any right to withdraw, or receive any return of, all or any portion of such Member's Capital Contributions.

3.3 Distributions.

(a) Ordinary Distributions. Subject to Sections 3.3(a)(ii) and (iii), the Company shall make Ordinary Distributions in such amounts and at such times as the Board shall determine from time to time. If Ordinary Distributions are to be made of securities or other assets owned by the Company, in kind, the Board shall determine in good faith the fair market value of such securities and other assets. Ordinary Distributions shall be made among the Members in proportion to their respective Percentage Interests.

(i) No distributions shall be made pursuant to this Section 3.3(a), or pursuant to Sections 3.3(b) and 3.3(c) below, to the extent that, after the distribution is made, the liabilities of the Company (other than liabilities for which recourse of creditors is limited to specific assets of the Company) would exceed the fair market value of the Company's assets (net of any liabilities to which those assets may be subject).

(ii) Following the *** anniversary of the Effective Date, the Company's distribution policy shall be to distribute all available free cash flow of the Company after consideration of the subsequent year's capital and operating budgets (the Distribution Policy). (iii) Prior to the *** anniversary of the Effective Date, *** shall be made pursuant to Section 3.3(a) *** the Supermajority Approval of the Members.

(b) Tax Distributions. To the extent the Company has available cash (as determined by the Board), prior to any distribution pursuant to Section 3.3(a) or Section 3.3(c), the Company will make cash distributions (Tax Distributions) to each Member at such times during the calendar year as the Board determines (provided that the Company shall be required, so long as it has available cash, to make Tax Distributions to the Members to satisfy their estimated (as estimated by the Company in good faith) and final income tax liabilities resulting from income generated by the Company for each taxable year), in an aggregate amount equal to the product of (i) forty percent (40%) and (ii) the amount of taxable income allocated to (or reasonably expected to be allocated to) such Member in or with respect to such taxable year. All Tax Distributions made to a Member are intended to be advance distributions of amounts that otherwise would have been distributed to such Member pursuant to Sections 3.3(a) and 3.3(c). Accordingly, once a Tax Distribution has been made to a Member under this Section 3.3(b), all amounts thereafter that otherwise would have been distributed to such Member pursuant to Sections 3.3(a) and 3.3(c) shall not be distributed to such Member until the aggregate amount of such distributions that such Member otherwise would have received pursuant to Sections 3.3(a) and 3.3(c) had no Tax Distributions been made equals the aggregate amount of the Tax Distributions made to such Member pursuant to this Section 3.3(b). Except as described in the following sentence, the Members will have no obligation to re-contribute Tax Distributions to the Company. Upon liquidation of the Company or liquidation of a Member's interest in the Company (within the meaning of Section 1.704-1(b)(2)(ii)(g) of the Regulations), each Member (in the case of the liquidation of the Company) or the liquidating Member (in the case of a liquidation of a Member's interest) is obligated to contribute cash to the Company in the amount of the excess, if any, of the aggregate amount of Tax Distributions made to such Member over the aggregate amount of the distributions that such Member otherwise would have received pursuant to Sections 3.3(a) and 3.3(c) had no Tax Distributions been made. For the avoidance of doubt, the restrictions set forth in Section 3.3(a)(iii) shall not apply to Tax Distributions.

(c) Capital Event Distributions. Subject to Section 13.1(b), any Capital Event Distributions shall be made among the Members first in the amount of and in proportion to their respective Unreturned Capital Contributions and then in proportion to their respective Percentage Interests.

This Section 3.5(a) is intended to qualify and be construed as a qualified income offset within the meaning of Regulations Section 1.704-1(b)(2)(ii)(d) and shall be interpreted consistently therewith.

(b) Minimum Gain Chargeback. If there is a net decrease in partnership minimum gain (as that term is defined in Sections 1.704-2(b)(2) and 1.704-2(d) of the Regulations) during any Fiscal Year or other taxable period, each Member shall, to the extent required by Section 1.704-2(f) of the Regulations, be specially allocated items of Company income and gain for such Fiscal Year or other taxable period (and, to the extent required by Section 1.704-2(j)(2)(iii) of the Regulations, subsequent Fiscal Years or taxable periods) in an amount equal to that Member's share of the net decrease in partnership minimum gain. (c) **Member Minimum Gain Chargeback.** If there is a net decrease in partner nonrecourse debt minimum gain (as that term is defined in Sections 1.704-2(i)(2) and (3) of the Regulations) during any Fiscal Year or other taxable period, each Member who has a share of that partner nonrecourse debt minimum gain as of the beginning of the Fiscal Year or other taxable period shall, to the extent required by Section 1.704-2(i)(4) of the Regulations, be specially allocated items of Company income and gain for such Fiscal Year or taxable period (and, if necessary, subsequent Fiscal Years or taxable periods) equal to that Member's share of the net decrease in partner nonrecourse debt minimum gain. Allocations pursuant to the previous sentence shall be made in accordance with Section 1.704-2(i)(4) of the Regulations. This Section 3.5(b) is intended to comply with the requirement in Section 1.704-2(i)(4) of the Regulations and shall be interpreted consistently therewith.

(d) **Nonrecourse Deductions.** Nonrecourse deductions (as that term is defined in Sections 1.704-2(b)(1) and (c) of the Regulations) for any Fiscal Year or other taxable period shall be specially allocated to the Members in proportion to the number of Units each holds.

(e) **Member Nonrecourse Deductions.** Partner nonrecourse deductions (as that term is defined in Section 1.704-2(i) of the Regulations) for any Fiscal Year or other taxable period shall be specially allocated to the Member who bears the economic risk of loss with respect to the partner nonrecourse debt (as that term is defined in Section 1.704-2(b)(4) of the Regulations) to which such partner nonrecourse deductions are attributable, in accordance with Regulations Section 1.704-2(i)(1).

(f) **Section 754 Adjustments.** To the extent an adjustment to the adjusted tax basis of any Company asset pursuant to Code Section 734(b) or Code Section 743(b) is required, pursuant to Regulations Section 1.704-1(b)(2)(iv)(m)(4), to be taken into account in determining Capital Accounts, the amount of such adjustment to Capital Accounts shall be treated as an item of gain (if the adjustment increases the basis of the asset) or loss (if the adjustment decreases such basis) and such gain or loss shall be specially allocated to the Members in a manner consistent with the manner in which their Capital Accounts are required to be adjusted pursuant to such Section of the Regulations.

3.6 **Other Special Allocations.** For any Fiscal Year or other taxable period, each Member that makes a contribution described in Section 2.2(b) or 2.3(c) shall be specially allocated items of book gain attributable to the increases in Gross Asset Value of the Company's assets resulting from such contributions (as such increases are described in Section 2.3A) in an amount equal to the value of such contributions made by such Member.

3.7 **Curative Allocations.** The allocations set forth in Section 3.5 (the **Regulatory Allocations**) are intended to comply with certain requirements of the Regulations. It is the intent of the Members that, to the extent possible, all Regulatory Allocations that are made be offset either with other Regulatory Allocations or with special allocations pursuant to this Section 3.7. Therefore, notwithstanding any other provision of this Article III (other than the

Table of Contents

Regulatory Allocations), the Board shall make such offsetting special allocations in whatever manner it determines appropriate so that, after such offsetting allocations are made, each Member's Capital Account balance is, to the extent possible, equal to the Capital Account balance such Member would have had if the Regulatory Allocations were not part of the Agreement and all Company items were allocated pursuant to Section 3.4. In exercising its discretion under this Section 3.7, the Board shall take into account future Regulatory Allocations under Sections 3.5(a) and 3.5(b) that, although not yet made, are likely to offset other Regulatory Allocations previously made under Sections 3.5(c) and 3.5(d).

3.8 Other Allocation Rules.

(a) For purposes of determining the Profits, Losses, or any other items allocable to any taxable period, Profits, Losses, and any such other items shall be determined on a daily, monthly, or other basis, as determined by the Board using any permissible method under Code Section 706 and the Regulations thereunder.

(b) Except as otherwise provided in this Agreement, all items of Company income, gain, loss, deduction, and any other allocations not otherwise provided for shall be divided among the Members in the same proportions as they share Profits or Losses, as the case may be, for the Fiscal Year or other taxable period.

(c) To the extent a taxing authority successfully asserts that any deduction claimed by a Member in such Member's capacity as other than a Member of the Company is properly allowed to the Company (and not to the Member in its capacity as other than a Member), then the Member shall be treated as having made a Capital Contribution in the amount of such deduction, and shall be specially allocated such deduction in such amount.

(d) The Members are aware of the income tax consequences of the allocations made by Article III of the Agreement and hereby agree to be bound by such provisions in reporting their shares of Company income and loss for income tax purposes.

(e) Solely for purpose of determining a Member's proportionate share of the excess nonrecourse liabilities of the Company within the meaning of Regulation Section 1.752-3(a)(3), each Member's interest in the Company's profits shall be such Member's Percentage Interest.

(f) To the extent permitted by Regulation Section 1.704-2(h)(3), the Board shall endeavor to treat distributions as having been made from the proceeds of a nonrecourse liability or a partner nonrecourse debt only to the extent that such distributions would cause or increase a deficit in an Adjusted Capital Account for any Member.

3.9 Tax Allocations: Code Section 704(c).

(a) In accordance with Code Section 704(c) and the Regulations thereunder, income, gain, loss, and deduction with respect to any property contributed to the capital of the Company shall, solely for tax purposes, be allocated among the Members so as to take account of any variation between the adjusted basis of such property to the Company for federal income tax purposes and its initial Gross Asset Value.

Table of Contents

(b) In the event the Gross Asset Value of any Company asset is adjusted pursuant to clauses (i), (ii), or (iii) of the definition of Gross Asset Value, subsequent allocations of income, gain, loss, and deduction with respect to such asset shall take account of any variation between the adjusted basis of such asset for federal income tax purposes and its Gross Asset Value in the same manner as under Code Section 704(c) and the Regulations thereunder.

(c) Any elections or other decisions relating to such allocations shall be made by the Board. Allocations pursuant to this Section 3.8 are solely for purposes of U.S. federal, state, and local taxes and shall not affect, or in any way be taken into account in computing, any Member's Capital Account or share of Profits, Losses, other items, or distributions pursuant to any provision of this Agreement.

3.10 Tax Withholding.

(a) The Company shall withhold and/or pay over to the Internal Revenue Service or other applicable taxing authority all taxes or withholdings, and all interest, penalties, additions to tax, and similar liabilities in connection therewith or attributable thereto (hereinafter Withheld Taxes) to the extent that the Tax Matters Member in good faith determines that such withholding and/or payment is required by the Code or any other law, rule, or regulation. The Tax Matters Member in good faith shall determine to which Member such Withheld Taxes are attributable. For example, Withheld Taxes measured with respect to a Member's distributive share of the Company's income, gain, or other Company item would be attributable to such Member. All Withheld Taxes withheld and/or paid over that are attributable to a Member shall, at the option of that Member (or the Tax Matters Member if the Member fails to exercise such option), (i) be promptly paid to the Company by the Member on whose behalf such advances of Withheld Taxes were made or (ii) be considered a loan (a Withholding Loan) by the Company to such Member. Whenever the option set forth in clause (ii) of the immediately preceding sentence is selected, the borrowing Member shall repay such Withholding Loan within *** after the Tax Matters Member delivers a written demand therefor, together with interest from the date such loan was made until the date of the repayment thereof at a rate per annum equal to two percent (2%) plus the prime interest rate of JPMorgan Chase & Co. (or its successor) in effect during such period (or, if less, the maximum interest rate allowed under applicable law). In addition to any other rights of the Company to enforce its right to receive payment of the Withholding Loan, plus any accrued interest thereon, the Company may deduct from any distribution to be made to a borrowing Member or any amount available for distribution to a borrowing Member an amount not greater than the outstanding balance of any Withholding Loan, plus any accrued interest thereon, as a payment in total or partial satisfaction thereof. In the event that the Company deducts the amount of the Withholding Loan plus any accrued interest thereon from any actual distribution or amount otherwise available to be distributed, the amount that was so deducted shall be treated as an actual distribution to the borrowing Member for all purposes of this Agreement and the Member shall be treated as having repaid to the Company the amount withheld immediately after such distribution in satisfaction of the loan. With respect to any amounts not offset pursuant to the immediately preceding sentence, the maturity of such Withholding Loan shall be the dissolution of the Company or *** after the delivery of a written demand for satisfaction of the loan by the Tax Matters Member.

Table of Contents

(b) If any amount payable to the Company is reduced because the Person paying that amount withholds and/or pays over to the Internal Revenue Service or other applicable taxing authority any amount as a result of the status of a Member, the Tax Matters Member shall make such adjustments to amounts distributed and allocated among Members as it determines to be fair and equitable. For example, if a portion of interest income earned by the Company is withheld by the payor and paid over to the Internal Revenue Service because a particular Member is a non-U.S. Person, the Tax Matters Member shall include such withheld and paid over amount in computing amounts available for distribution to the Members pursuant to Section 3.2 and treat such withheld and paid over amount as if that amount were distributed to the Member in satisfaction of whose tax liability such amount was withheld and paid over.

3.11 Successors in Interest. If a Member Transfers all or part of its Interest, references in this Article III to amounts previously contributed by such Member or to amounts previously allocated or distributed to such Member shall refer to the transferee to the extent they pertain to the Transferred Interest.

4.3 Action Without a Meeting. For the avoidance of doubt, being *** for purposes of this Section 4.3 and 5.4(e) means that the particular subject matter or action was *** at a meeting and not that any specific *** for such action or matter were *** the Board for *** or ***. All actions by written consent shall be included in the minutes of the Members meetings. Notwithstanding anything to the contrary herein, the Company shall provide written notice to all non-consenting Members describing any action taken by the Members without a meeting as soon as reasonably practicable after such action is taken, but in no event later than *** days after such action is taken.

4.4 Meetings by Telephone. Meetings of the Members may be held by telephone conference or by any other means of communication by which all participants can hear each other simultaneously during the meeting, and such participation shall constitute presence in person at the meeting.

4.5 Minutes of Meetings. A designee of the Members shall keep written minutes of any meeting of Members, including the results of any votes taken.

4.6 Waiver of Notice. When any notice is required to be given to any Member, a waiver thereof in writing signed by the Member entitled to such notice, whether before, at, or after the time stated therein, shall be equivalent to the giving of such notice. Attendance at a meeting shall constitute waiver of notice of the meeting unless the Member at the beginning of the meeting objects to holding the meeting or transacting business at the meeting.

4.7 Conflicts of Interest. A Member may lend money to and transact other business with the Company subject to the Approval of the Board (or Supermajority Approval of the Board if required under Section 5.5) and the Supermajority Approval of the Members. The rights and obligations of a Member who lends money to or transacts business with the Company are the same as those of a Person who is not a Member, subject to other applicable law.

4.8 Conflict of Interest with ***. In the event that *** (i) acquires a direct ownership interest in excess of *** in a *** of the Company, (ii) such Member actively *** and *** (through being *** involved in the *** or *** of such *** or as the *** of the *** and *** of) such ***, and (iii) there would be a direct ***, as determined in good faith by counsel to the Company, with respect to a particular matter or action requiring Supermajority Approval of the Members as set forth in Section 5.6 or Supermajority Approval of the Board as set forth in Section 5.5 (but in each case solely to the extent that there is an actual material conflict of interest with respect to such matter or action and solely with respect to the particular item for which there is such a conflict of interest), then such Member (or its designated Director(s), as applicable) would abstain from the vote or approval with respect to such matter or action (or particular item, as appropriate) and, for purposes of Approval of such matter or action only, a majority of the remaining Members or Directors, as applicable, would constitute Supermajority Approval of the Members or Supermajority Approval of the Board, as applicable, with respect to such action or matter.

The termination of any proceeding by settlement, judgment, order, conviction, or upon a plea of nolo contendere or its equivalent shall not, of itself, create a presumption that such Indemnitee's conduct constituted gross negligence or willful misconduct or that such conduct otherwise constituted a breach of this Agreement, any Transaction

DISPOSITION OF INTERESTS

8.1 Restrictions on Transfer of Interests.

(a) Unless expressly permitted by this Section 8 but subject in all cases to the receipt of all required regulatory approvals (if any), no Member or its Affiliates shall, without the prior written consent of each of the Initial Members, Transfer all or any part of its Interest during the period beginning on the Effective Date and ending on the closing of an Initial Public Offering (the Restricted Period); provided, however, that, in the event this Agreement is terminated, then the Restricted Period shall immediately expire.

(b) The term Transfer , when used in this Agreement with respect to an Interest, means any sale, exchange, assignment, transfer, pledge, encumbrance, hypothecation, mortgage, gift or other disposition of any kind (or the entering into any contract, option or other arrangement or understanding to do any of the foregoing), whether voluntary, involuntary or by operation of law, including without limitation any transfer of any securities or assets by any Member or any Affiliate of such Member if as a result of such transfer, such Member or an Affiliate shall cease to have indirect ownership of such Interest, but does not include a change of control of a Member (unless (A) the primary asset of the applicable Member (or other change of control entity) is the direct or indirect ownership of Interests or (B) the transferee (or other acquiror) in connection with such change of control is *** as reasonably determined by ***, or a party that has a *** (whether directly or indirectly and whether as a *** and such party or through ***) as reasonably determined by ***, in which case, such change of control of a Member (or other entity) shall be deemed to be a Transfer for purposes of this Article VIII); provided however that the transferee in connection with such change of control of a Member shall agree to be bound by the terms and conditions of this Agreement applicable to the transferring Member.

(c) Any Transfer or purported Transfer of any Interest not made in accordance with this Article VIII shall be null and void, ab initio.

(d) No Member or its Permitted Transferees shall Transfer all or any part of its Interest to any Person (i) without delivering to the Company an Assignment and Assumption Agreement in substantially the form attached hereto as Exhibit D, (ii) except in compliance with all applicable federal and state securities laws, (iii) without delivering to the Company in advance of such Transfer a legal opinion of counsel (to the extent reasonably requested by the Company, provided that the Company will not request such an opinion in connection with a Transfer to an Affiliate of a Member) to the effect that such Transfer would not terminate the Company for federal income tax purposes under Section 708 of the Code and (iv) to the extent prohibited under this Section 8.1.

(e) Notwithstanding any other provision of this Agreement, but subject to Section 8.1(d), no Member or its Affiliates shall Transfer any or all of its Interests, or take any other action, if such Transfer or action could (by itself or in conjunction with other actions) result in the Company being treated as a publicly traded partnership within the meaning of Section

7704 of the Code and the Regulations promulgated thereunder; and provided further that any such Transfer or action shall be null and void, ab initio; provided, that the foregoing shall not apply to Transfers occurring in connection with or subsequent to an Initial Public Offering.

(f) Notwithstanding the restrictions set forth in Sections 8.1, 8.2, 8.3 and 8.4, (i) any Member or any of its transferees or Affiliates may at any time Transfer all or any portion of its Interest to an Affiliate of such Member if, in addition to the provisions of Section 8.1(d) and (e), no tax or regulatory consequences result that will adversely affect the Company, the other Members or their Affiliates*** pursuant to a sale of its principal business operations to such Person by way of merger, consolidation, sale of assets or other similar transaction provided that, as a condition to such Transfer, *** that actions may only be taken by Members or the Board, as applicable, by written consent if such action or matter was *** of the Board shall terminate, (E) ***, the rights of first offer described in Section 8.2, and the rights described in the last sentence of Section 2.7, and (F) ***; (iii) the Members agree if required by any lenders to the Company, to pledge their Interests against any Company indebtedness approved by the Supermajority Approval of the Board, subject to all Members providing such a pledge, and further subject to such pledge being permitted by any outstanding indebtedness a Member may have at the time of such Board approval (each such transferee under clauses (i), (ii) or (iii) of this Section 8.1(f), a Permitted Transferee).

8.2 Right of First Offer for Transfers by Members.

(a) If any Member (the Proposing Transferor) wishes to Transfer during the Restricted Period all or any portion of its Interest (the Offered Units) to any Person other than its Permitted Transferee, such Proposing Transferor shall deliver a written offer (the Conditional Transfer Notice) to the other Members (the Non-Transferring Members), certifying the date of its issuance and stating: (i) the number and Class of Offered Units; and (ii) the price (the Transfer Price) and other material terms upon which the Proposing Transferor proposes to transfer each of such Offered Units (such offer by the Proposing Transferor to the Non-Transferring Members (together with the oversubscription privilege set forth in Section 8.2(b) below (if applicable)) is referred to herein as the Right of First Offer).

(b) Each Non-Transferring Member shall have the right, but not the obligation, to elect to purchase all (but not less than all) of its pro rata share (based on the ratio of the then Percentage Interest of each Non-Transferring Member vis-a-vis the other Non-Transferring Members) of the Offered Units at the price and upon the terms contained in the Conditional Transfer Notice. In the event that a Non-Transferring Member shall elect to purchase available Offered Units pursuant to the conditions set forth in the Conditional Notice and this Section 8.2 (each such Non-Transferring Member, a Purchasing Member), it shall deliver to the Proposing Transferor a written election (the Acceptance Notice) to purchase its pro rata share of the Offered Units; irrevocably indicating therein if it is prepared to purchase all or a portion of its pro rata share of the Offered Units within *** from the date of receipt of the Conditional Transfer Notice (the *** Period). In the event that any Non-Transferring Member fails to elect to purchase all of its pro rata share of the Offered Units under the Conditional Transfer Notice as set forth above in this Section 8.2(b), the Company shall deliver to all of the Purchasing Members a written notice (the Over-Allotment Notice) specifying the total number

of Offered Units not so purchased (the Remaining Offered Units) within *** following the expiration of the *** Period set forth above in this Section 2.8(b). Each such Purchasing Member shall have a right of oversubscription to purchase up to the balance of such Offered Units not so purchased at the same price and on the same terms and conditions set forth in the original Conditional Transfer Notice. Each such Purchasing Member who receives an Over-Allotment Notice must exercise its right of oversubscription by giving the Company written notice of its election during the *** period following its receipt of the Over-Allotment Notice (the Over-Allotment Period). If, as a result thereof, such oversubscription elections exceed the total number of the Offered Units available in respect to such oversubscription privilege, the oversubscribing Purchasing Members shall be cut back with respect to oversubscriptions on a pro rata basis in accordance with their respective Proportionate Share or as they may otherwise agree among such oversubscribing Purchasing Members. Each Acceptance Notice and Over-Allotment Acceptance Notice (if any) shall be irrevocable unless (a) there shall be a material adverse change in the material terms set forth in the Conditional Transfer Notice, including, but not limited to, the Transfer Price or (b) if otherwise mutually agreed to in writing by such Purchasing Member and the Proposing Transferor), and the closing of the Transfer of the Offered Units to the Purchasing Member(s) shall take place within *** from the later of (i) date of receipt of the Conditional Transfer Notice or (ii) date of receipt of the Over-Allotment Notice, if any (in each case, subject only to requisite regulatory approvals).

(c) If, upon the expiration of the *** Period provided for in Section 8.2(b) above (or in the event an oversubscription privilege is triggered pursuant to Section 8.2(b) above, upon the expiration of the Over-Allotment Period), a Non-Transferring Member has elected not to purchase its pro rata share of the Offered Units (each such Member, a Declining Member), the Right of First Offer shall expire as to such Declining Member with respect to that particular offer (and as to any Member that has elected not to purchase its pro rata share of the Remaining Offered Units in any oversubscription privilege, the Right of First Offer shall expire as to such Member with respect to such Remaining Offered Units in that particular offer), but shall remain in full force and effect with respect to all material modifications of that offer and all future offers. The Proposing Transferor shall have the right to Transfer all (but not less than all) of such number of the Offered Units not purchased by the Purchasing Members or Overallotment Purchasing Members (if any), at a price and upon terms and conditions which are no less advantageous to the Proposing Transferor than those contained in the Conditional Transfer Notice, if that Transfer takes place in accordance with the terms of a definitive agreement or agreements (subject solely to requisite regulatory approvals (if any)) entered into not later than the later of (i) *** after the expiration of the *** Period provided for in Section 8.2(b) above or (ii) *** days after the expiration of the Over-Allotment Period (if any) provided for in Section 8.2(b) above.

(d) This Section 8.2 shall be inapplicable to, and shall not prohibit, restrict or limit, sales of equity interests in the Company by the Members in connection with or subsequent to an Initial Public Offering.

8.3 Drag-Along Rights of Members. Subject to obtaining the Supermajority Approval of the Members in accordance with Section 5.6 with respect to any such proposed Transfer if required thereby, in the event that prior to the occurrence of an Initial Public Offering,

any Initial Member acting alone or Initial Members acting together (a Dragging Member or if more than one such Initial Member, together the Dragging Members), propose to Transfer (other than to other Members and/or to Permitted Transferees of Members) in one or more related transactions greater than *** of the total number of Units then issued and outstanding (excluding Units in the Company's treasury (if any)) to a non-Affiliate and on a third party arms length negotiated sale basis, the Dragging Member will have the right, exercisable upon not less than *** days' prior written notice, to require that the other Members Transfer all or any portion of the Units owned by them on substantially similar terms and conditions as the Transfer of Units proposed to be made by the Dragging Member(s). Such terms and conditions shall include, without limitation: the sales price paid or deemed paid per Unit; the payment of fees, commissions and expenses; and, subject to the limitations set forth below, the provision of representations, warranties and indemnifications; provided that, subject to the limitations set forth below, any indemnification provided by a Member shall (except with respect to legal title to such Member's Units which are included in the Transfer) be pro rata in proportion with the total consideration to be received by such Member in the transfer relative to the total consideration to be received by the other Members. Notwithstanding the foregoing, a Member will not be required to comply with this Section 8.3 in connection with any specific Transfer unless:

(a) any representations and warranties to be made by such Member in connection with the Transfer are limited to representations and warranties related to authority, ownership of the applicable Units held by such Member and the ability to convey title to such Units;

(b) the Member shall not be liable for the inaccuracy of any representation or warranty made by any other individual or entity in connection with the Transfer, other than the Company;

(c) the liability for indemnification, if any, of such Member in the Transfer and for the inaccuracy of any representations and warranties made by the Company in connection with such Transfer, is several and not joint with any other Member, and is (as specified above) pro rata in proportion with the total consideration to be received by such Member in the Transfer relative to the total consideration to be received by the other Members in such Transfer;

(d) such Member's liability in connection with such Transfer shall be limited to the amount of consideration actually paid to or held in escrow for such Member in connection with such Transfer, except with respect to claims related to fraud, intentional misrepresentation or willful breach by such Member;

(e) upon the consummation of the Transfer, each Member will receive the same amount of consideration per Unit after payment of all Unreturned Capital Contributions; and

(f) if any holders of Units are given an option as to the form and amount of consideration to be received as a result of the Transfer, all holders of such Units will be given the same option.

An exercise of rights under 8.3 shall preclude the application of Section 8.4, but shall be subject to Section 8.2.

8.4 Tag-Along Rights of Members.

(a) In the event that prior to the occurrence of an Initial Public Offering, after a Member has complied with the right of first offer set forth in Section 8.2 hereof, any Member acting alone or any Members acting together propose to Transfer (other than to other Members and/or to Permitted Transferees of Members) in one or more related transactions greater than *** of the total number of Units then issued and outstanding (excluding Units in the Company's treasury (if any)) (each such Member proposing such a Transfer, a Proposing Member and collectively, the Proposing Members), the Proposing Member(s) will notify the other Members (in such capacity, the Tag-Along Members) in writing (a Tag-Along Notice) of such proposed sale (a Proposed Sale) and the material terms of the Proposed Sale as of the date of the Tag-Along Notice, including, without limitation, the total number of Units to be sold in such Proposed Sale (the Proposed Units) and the sale price per Unit (the Material Terms). The Tag-Along Notice will be delivered to the Tag-Along Members not less than *** prior to the consummation of the Proposed Sale and not more than *** after the execution of the definitive agreement relating to the Proposed Sale, if any. If within *** of receipt by the Tag-Along Members of such Notice, the Proposing Member(s) receive from any Tag-Along Member a written request (a Request) to include in the Proposed Sale such number of Units owned by such Tag-Along Member as calculated in accordance with Section 8.4(c) below (which Request shall be irrevocable unless (a) there shall be a material adverse change in the Material Terms or (b) if otherwise mutually agreed to in writing by such Tag-Along Member and the Member(s) proposing to Transfer), such Tag-Along Member's Units so requested will be so included as provided herein.

(b) Except as may otherwise be provided herein, the Tag-Along Member's Units subject to a Request will be included in a Proposed Sale pursuant hereto and in any agreements with purchasers relating thereto on substantially similar terms and subject to the same conditions applicable to the relevant Units which the Proposing Member(s) propose to sell in the Proposed Sale. Such terms and conditions shall include, without limitation: the sales price per Unit; the payment of fees, commissions and expenses; the provision of representations, warranties and indemnifications; provided that any indemnification provided by the Tag-Along Members shall (except with respect to legal title to the Units of the Tag-Along Member sold in such Transfer) be pro rata in proportion with the total consideration to be received for all of the Units to be sold.

(c) Each Tag-Along Member shall have the right to include in the Proposed Sale pursuant to a Request that number of Units (rounded to the nearest whole number) representing the product of (i) the total number of Proposed Units multiplied by (ii) the Percentage Interest in the Company then held by such Tag-Along Member. The amount of such Proposed Units that each Tag-Along Member is entitled to include in such Proposed Sale under this Section 8.4(c) shall be referred to as its Tag-Along Units. If any Tag-Along Member fails to elect to include in the Proposed Sale its full amount of Tag-Along Units, the Proposing Member(s) together with any Tag-Along Members that have elected to include Tag-Along Units in the Proposed Sale, shall, among them, on a pro rata basis in accordance with their respective

Percentage Interest in the Company or as they may otherwise agree among themselves, have the right to include in the Proposed Sale an additional number of Units equal to the difference between the total number of Proposed Units minus the total number of Tag-Along Units elected to be included by all the Tag-Along Members.

(d) The Tag-Along Members' rights pursuant hereto to participate in a Proposed Sale shall be contingent on their strict compliance with each of the provisions hereof and their willingness to execute such documents in connection therewith as may be reasonably requested by the Proposing Member(s).

(e) An exercise of rights under Section 8.4 shall be subject to Section 8.2.

8.5 Liquidity Event. Upon the four (4) year anniversary of the Effective Date, any Member (or group of Members in aggregate) holding at least twenty-five percent (25%) of the issued and outstanding Units (excluding Units in the Company's treasury (if any)) of the Company (a Demanding Member) shall have the right to demand at any time prior to the end of the two (2) year period following such four (4) year anniversary upon written notice to the Company and each other Member (the Liquidity Demand Notice) that the Company cause one the following events to occur (each a Liquidity Event):

A. conduct an auction for the sale of the Company that produces at least one bona fide offer to acquire the Company for cash or liquid securities; or

B. conduct an Initial Public Offering (after conversion to a corporation in accordance with Section 14.17).

Upon receipt of the Liquidity Demand Notice, the Company shall use its best efforts to cause a Liquidity Event and each Member shall cooperate with the Company in pursuing a Liquidity Event. Should the Company fail to accomplish either Liquidity Event within one hundred-eighty (180) days of receiving the Liquidity Demand Notice, then to the extent at such time HTI (i) directly or indirectly owns fifty percent (50%) or more of the issued and outstanding Units (excluding Units in the Company's treasury (if any)) of the Company and (ii) has publicly traded common stock (currently HTI's common stock trades as HUTC), each other Member (each an Exchanging Member and collectively the Exchanging Members) shall be entitled on a one-time basis to exchange (the Exchange) all, but not less than all, of the Company Units which it then owns for shares of common stock of HTI, as applicable, equal to its pro rata share of the value of the aggregate Percentage Interests of the Company owned by all Exchanging Members in the aggregate and which shall include the Unreturned Capital Contributions of all Exchanging Members as if a distribution were being made as a Capital Event Distribution (the Exchange Value) as determined as set forth below in this Section 8.5. For purposes of clarification, the Members agree that, notwithstanding the foregoing, (i) in the event that (A) a Liquidity Demand Notice results in a bona fide offer to acquire the Company for cash or liquid securities on terms that are not acceptable to the Demanding Member but are acceptable to and approved by HTI and (B) a Liquidity Event nevertheless is not consummated within one hundred-eighty (180) days of the Company's receiving the Liquidity Demand Notice, then HTI shall have no obligation to effect any Exchange of HTI common stock for Company Units hereunder, and (ii)

in the event that a Liquidity Demand Notice results in a bona fide offer to acquire the Company for cash or liquid securities on terms that are acceptable to and approved by a Demanding Member but are not approved by HTI, then HTI shall either (A) purchase for cash (or common stock of HTI, provided that the common stock of HTI is then publicly traded, that such issuance would be effected as an Exchange hereunder with the number of shares being determined based upon the 20-day volume weighted average closing price per share of HTI common stock in the manner and subject to the restrictions set forth below, provided further that the documentation requirements and other requirements and conditions set forth in Section 8.6A below are complied with) all, but not less than all, of the Company Units which are then held by the Demanding Member at the same effective price per Unit and aggregate consideration as such Demanding Member would have been paid or otherwise received based upon the value of the aggregate purchase price for all then outstanding Company Units reflected in such bona fide offer to acquire the Company for cash or liquid securities, or (B) approve such offer to acquire the Company and take such other actions as may be necessary in connection with such proposed acquisition as are requested by such Demanding Member as if such Demanding Member were a Dragging Member pursuant to Section 8.3. The basis for determining the Exchange Value to be used shall be a fair value assessment (the Assessment) of the aggregate Percentage Interests (which shall include the Unreturned Capital Contributions of all Exchanging Members as if a distribution were being made as a Capital Event Distribution) as determined by an independent, third party, nationally-recognized investment bank contracted and paid for by the Exchanging Members, at their sole cost and expense, which investment bank shall have been Approved in advance in writing by HTI and the Exchanging Members holding a majority of the Percentage Interests held by all Exchanging Members. The determination of such investment bank shall be conclusive and binding upon the parties hereto. Each Exchanging Member's pro rata share of the Exchange Value shall then be divided by the 20-day volume weighted average closing price per share of HTI's common stock during the 20-day trading period immediately prior to the issuance of HTI shares in the exchange to determine the number of shares of common stock of HTI to be issued to each Exchanging Member in exchange for all of its Units; provided however that no Exchanging Member or its Affiliates shall itself or through any third party, directly or indirectly, take any action or encourage any third party to take any action designed to impact the price of HTI's common stock during such period. HTI shall issue such shares of common stock to the Exchanging Members within thirty (30) days following the conclusion of the Assessment, subject to the documentation requirements and other requirements and conditions set forth in Section 8.6A below.

8.6A Documentation Requirements and Other Requirements/Conditions. Each Exchanging Member executing such documentation as may be reasonably requested by HTI including terms and conditions customary for common stock issuances of such nature. In connection with the issuance of such shares of common stock of HTI, HTI shall only provide limited representations and warranties relating to formation, due authorization and issuance of shares, no conflicts with applicable laws, orders and contracts, securities law compliance, and no encumbrance or other restrictions (except as needed for securities law compliance) on the shares, and each Exchanging Member shall be required to execute and delivery to HTI a letter that includes representations from each Exchanging Member necessary for compliance with applicable securities laws. Solely to the extent such shares of HTI common stock are not saleable in their entirety within *** of completion of the Exchange by any such Exchanging Member under Rule 144, promulgated by the Securities and Exchange Commission under the

Securities Act, HTI shall use commercially reasonable efforts to (i) register such shares of common stock for resale on a shelf registration statement within *** completion of the Exchange, and (ii) cause such registration statement to remain effective, subject to customary limitations, for a period of *** months following the date such registration statement is declared effective.

8.6 Covenant Not to Withdraw or Dissolve. Each Member hereby covenants and agrees that the Members have entered into this Agreement based on their mutual expectation that, except as otherwise expressly required or permitted hereby or otherwise with the Supermajority Approval of the Members, no Member shall withdraw or retire from the Company, be entitled to demand or receive a return of such Member's Capital Contributions or profits (or a bond or other security for the return of such Capital Contributions or profits), or exercise any power to dissolve the Company except as provided in this Agreement.

8.7 Capital Event Transfers. Notwithstanding anything to the contrary contained herein, if a Transfer of Units results from completion of a Capital Event, the following conditions shall apply with respect to the Class A, Class B and Class C Units:

(a) upon the consummation of the Transfer, each holder of Class A, Class B and Class C Units will receive the same amount of consideration per Unit that it would have received under Section 13.1(b) if the Capital Event had been an asset sale; and

(b) if any holders Class A, Class B or Class C Units are given an option as to the form of consideration to be received as a result of the Transfer, all holders of such Units will be given the same option.

(d) **Litigation.** Except as has been publicly disclosed by a Member in any current or periodic report filed by such Member with the Securities and Exchange Commission, there is no pending or, to the best of its knowledge, threatened, suit or administrative action against such Member which, if adversely decided, would prevent the consummation of this Agreement or be reasonably likely to have a Material Adverse Effect on such Member or the Company.

9.2 Additional Representations, Warranties Covenants of the Initial Members.

(a) Each Initial Member shall, and shall cause each of its Affiliates to, comply with and carry out its respective obligations under the Transaction Agreements to which such Initial Member is a party.

(b) The execution, delivery and performance of the Transaction Agreements(s) to which such Affiliate is a party, and the consummation by such Affiliate of the transactions contemplated thereby, have been duly authorized by all necessary action on the part of such Affiliate, and no other action is necessary for the authorization, execution, delivery and performance by such Affiliate of such Transaction Agreements and the consummation by such Affiliate of the transactions contemplated thereby.

(c) Neither the execution and delivery by such Affiliate of the Transaction Agreements(s) to which it is a party, the performance by such Affiliate of its obligations thereunder nor the performance by such Affiliate of any action contemplated thereby will violate (with or without the giving of notice or lapse of time or both) any law, rule, regulation, order, judgment or decree or any contract or other agreement to which such Affiliate is a party, except to the extent that such violations would not, in the aggregate, have a Material Adverse Effect, or require the consent, approval, giving of notice to or authorization of any Person.

ARTICLE X

INDEMNIFICATION

10.1 Indemnification. *** from and against any and all losses, claims, demands, costs, damages, liabilities, joint and several, expenses of any nature (including reasonable attorneys' fees and disbursements), judgments, fines, settlements and other amounts (collectively, "Damages") asserted by a Person (other than the Company, a Member or an Affiliate of a Member) arising out of, resulting from or based upon ***. Each of the other Members shall be entitled to enforce any claim for indemnification pursuant to this Section 10.1 on behalf of itself, and the non-breaching Initial Member shall be entitled to enforce any claim for indemnification pursuant to this Section 10.1 on behalf of the Company. A non-breaching Initial Member or the Company shall give written notice to the indemnifying Member as soon as practicable following discovery by such party of any matters which may give rise to a claim for indemnification from the indemnifying Member under this Section 10.1.

The provisions of this Article X shall in no way alter, amend or limit the indemnification obligations of the Members under the other Transaction Agreements, and to the extent that a Member is obligated under the other Transaction Agreements to provide any

indemnification for any losses and expenses, any indemnity of such Member under this Article X with respect to such losses and expenses shall not apply. The right of any indemnitee to the indemnification provided herein shall be cumulative of, and in addition to, any and all rights to which such indemnitee may otherwise be entitled by contract or as a matter of law or equity and shall extend to such indemnitee's successors, assigns and legal representatives.

10.2 Procedures for Indemnification. Whenever a claim shall arise for indemnification under Section 10.1, the indemnified party or parties, as appropriate (the Other Parties), shall promptly notify the party or parties from whom indemnification is sought for such claim (the Indemnifying Party) and request the Indemnifying Party to defend the same. Failure to so notify the Indemnifying Party shall not relieve the Indemnifying Party of any liability which the Indemnifying Party might have, except to the extent that such failure prejudices the Indemnifying Party's position. The Indemnifying Party shall have the right to defend against such liability or assertion in which event the Indemnifying Party shall give written notice to the Other Parties of acceptance of the defense of such claim and the identity of counsel selected by the Indemnifying Party.

(a) If the Indemnifying Party assumes the defense of an action:

(A) no settlement or compromise thereof may be effected

(i) by the Indemnifying Party without the written consent of the Other Parties (which consent shall not be unreasonably conditioned, withheld or delayed) unless (x) there is no finding or admission of any violation of law or any violation of the rights of any Person by any Other Party and no adverse effect on any other claims that may be made against any Other Party and (y) all relief provided is paid or satisfied in full by the Indemnifying Party, or

(ii) by any Other Party without the consent of the Indemnifying Party, such consent not to be unreasonably withheld or delayed, and

(B) the Other Parties may subsequently assume the defense of such action if a court of competent jurisdiction determines that the Indemnifying Party is not vigorously defending such action. In no event shall an Indemnifying Party be liable for any settlement effected without its written consent (which consent shall not be unreasonably withheld or delayed).

(b) With respect to any defense accepted by the Indemnifying Party, the Other Parties shall be entitled to participate with the Indemnifying Party in such defense and also shall be entitled to employ separate counsel for such defense at their own expense. In the event the Indemnifying Party does not accept the defense of any indemnified claim as provided above or there otherwise exists a conflict of interest such that independent counsel for the Other Parties would be appropriate for the defense of any such indemnified claim, the Other Parties shall have the right to employ counsel for such defense at the expense of the Indemnifying Party. Each

Member agrees to cooperate and to cause the Company to cooperate with the other parties in the defense of any such action and the relevant records of each party shall be available to the other parties with respect to any such defense.

ARTICLE XI

TAX MATTERS

11.1 Tax Matters.

(a) The tax matters partner for purposes of Section 6231(a)(7) of the Code (the Tax Matters Member) shall be HTI. The Tax Matters Member shall take reasonable action to cause each other Member to be treated as a notice partner within the meaning of Section 6231(a)(8) of the Code. All reasonable expenses incurred by a Member while acting in its capacity as Tax Matters Member shall be paid or reimbursed by the Company.

(b) Each Initial Member shall be given at least *** days advance notice (or such shorter period provided by the taxing agency, in which instance the Company shall provide prompt notice) from the Tax Matters Member of the time and place of, and shall have the right to participate (and the Company and the Tax Matters Member shall take such action as may be necessary to cause the tax matters partner of any Subsidiary of the Company to extend to the Initial Members the right to participate) in (i) any material aspect of any administrative proceeding relating to the determination of partnership items at the Company level (or at the level of any Subsidiary of the Company thereof) and (ii) any material discussions with the Internal Revenue Service relating to allocations pursuant to Article III of this Agreement or pursuant to any partnership agreement or limited liability company agreement of any Subsidiary of the Company.

(c) The Tax Matters Member shall not, and the Company shall not permit the tax matters partner of any Subsidiary of the Company to, initiate any action or proceeding in any court, extend any statute of limitations, or take any other action contemplated by Sections 6222 through 6234 of the Code that would legally bind any other Member, the Company or any Subsidiary of the Company without approval of the Initial Members, which approval may not be unreasonably withheld; provided, however, that, for this purpose, it shall not be unreasonable for an Initial Member to withhold such approval if the action proposed to be taken could affect adversely such Initial Member. The Tax Matters Member shall cause the Company's and any Subsidiary's of the Company tax attorneys and accountants to confer, with the other Initial Members and their respective attorneys and accountants on any matters relating to a Company or Subsidiary of the Company tax return or any tax election.

(d) The Tax Matters Member shall timely cause to be prepared all U.S. federal, state, local and foreign tax returns and reports (including amended returns) of the Company for each year or period that such returns or reports are required to be filed and, subject to the remainder of this subsection, shall cause such tax returns to be timely filed.

Table of Contents

As soon as practicable following the preparation of Form 1065 and Schedule K-1 or any successor form or schedule (and in any event not later than *** days after provision of such information to any Member), the Tax Matters Member shall also provide each Member with a reasonable opportunity during ordinary business hours to review and make copies of all workpapers related to such information or to any return prepared under paragraph (b) above. As soon as practicable following the end of each quarter (and in any event not later than *** days after the end of such quarter), the Tax Matters Member shall also cause to be provided to each Member an estimate of each Member's share of all items of income, gain, loss, deduction and credit of the Company for the Fiscal Year or other taxable period to date for federal income tax purposes.

11.2 Tax Classification. The Tax Matters Member shall take such action as may be required under the Code and applicable Regulations to cause the Company to be taxable as a partnership for U.S. federal income tax purposes. To the extent the previous sentence does not govern the state and local classification of the Company, the Tax Matters Member shall take such action as may be required under any state or local law applicable to the Company to cause the Company to be taxable as, and in a manner consistent with, a partnership for state or local income tax purposes. Each Member shall take such actions as the Tax matters Member may reasonably request to maintain the status of the Company as a partnership to the extent provided in this Section 11.2. No Member shall take any action inconsistent with treatment of the Company as a partnership for U.S. federal, state and local tax purposes.

11.3 Tax Elections. The Tax Matters Member shall at the request of any Member cause the Company to elect, pursuant to Section 754 of the Code, to adjust the basis of the Company's property (and the Company shall cause the tax matters partner of any Subsidiary of the Company to make a corresponding Section 754 election with respect to such Subsidiary's property) provided, however, that such Member shall reimburse the Company and any Subsidiary promptly for all costs associated with such basis adjustment, including bookkeeping, appraisal and other similar costs. Except as otherwise provided herein, all other elections required or permitted to be made by the Company or any Subsidiary of the Company under the Code (or applicable foreign, state or local law) shall be made as may be determined by the Board to be in the best interest of the Members as a group. Notwithstanding the foregoing, if the Company will not otherwise qualify as a partnership under Section 6231(a)(1) of the Code which is subject to the TEFRA partnership audit rules, the Tax Matters Member shall cause the Company to make an election under Section 6231(a)(1)(B)(ii) of the Code to subject the Company to the TEFRA partnership audit rules.

14.12 **Construction.** The headings in this Agreement are inserted for convenience and identification only and are not intended to describe, interpret, define or limit the scope, extent or intent of this Agreement or any provision hereof. In connection with any such incorporation of the Company, the Members shall receive, in exchange for their Interests and related Units, shares of capital stock of such corporation or its Subsidiaries having the same relative economic interest in such corporation or Subsidiaries as is set forth in this Agreement as among the holders of Interests in the Company (as if such exchange were being made in connection with a Capital Event hereunder), subject in each case to modifications to conform to the provisions set forth in the Delaware General Corporation Law. At the time of such conversion, the Members shall enter into a mutually acceptable shareholders agreement.
