PART III NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

During the quarter ended December 31, 2010, and in connection with the year end audit process, the Company corrected the valuation process to refine its application of ASC 820 and applied a new procedure consistent with its ongoing review and analysis of appropriate valuation procedures. The Company's consolidated financial statements for the year ended December 31, 2010 will reflect the fair value of its debt investments in accordance with ASC 820 using the new valuation procedure. The Company determined that if it had analyzed the fair value of its investments for the year ended December 31, 2009 using this procedure, the result to the 2009 consolidated financial statements would not have been material. During the year ended December 31, 2010, the Company recognized additional unrealized depreciation of approximately \$803,000, which is not material to the 2010 consolidated financial statements. As a result of implementing the new procedure, the Company needs additional time to complete its assessment of internal controls over financial reporting and to prepare its financial statements for the year ended December 31, 2010. The delays could not be eliminated without unreasonable effort or expense. The Company's Annual Report on Form 10-K containing its full earnings results for the year ended December 31, 2010 will be filed as soon as practicable.
