Edgar Filing: DANAHER CORP /DE/ - Form FWP

Issuer: Danaher Corporation

Aggregate Principal Amount Offered: \$300,000,000

Trade Date:	June 20, 2011
Settlement Date (T+3):	It is expected that delivery of the notes will be made against payment therefor on or about June 23, 2011.
Maturity Date:	June 21, 2013
Interest Rate Basis:	Three-Month USD LIBOR, reset quarterly
Spread:	Plus 25 basis points
Index Maturity:	Three months
Initial Interest Rate and Determination Date:	Three-Month USD LIBOR determined as of two London Business Days prior to the Settlement Date plus 25 basis points

The LIBOR for any Interest Determination Date is the rate for deposits in the LIBOR Currency having the Index Maturity as such rate is displayed on Reuters page LIBOR01 (or any other page as may replace such page on such service for the purpose of displaying the London interbank rates of major banks for the designated LIBOR Currency) (Reuters Page LIBOR01) as of 11:00 A.M., London time, on such Interest Determination Date.

If LIBOR cannot be determined as described above, the calculation agent shall request the principal London offices of each of four major reference banks (which may include affiliates of the underwriters of the Floating Rate Senior Notes) in the London interbank market, as selected by the calculation agent to provide the calculation agent with its offered quotation for deposits in the designated LIBOR Currency for the period of the Index Maturity, commencing on the related Interest Reset Date, to prime banks in the London interbank market at approximately 11:00 A.M., London time, on such Interest Determination Date and in a principal amount that is representative for a single transaction in the designated LIBOR Currency in such market at such time. If at least two such quotations are so provided, then LIBOR on such Interest Determination Date will be the arithmetic mean calculated by the calculation agent of such quotations. If fewer than two such quotations are so provided, then LIBOR on such Interest Determination Date will be the arithmetic mean calculated by the calculation agent of the rates quoted at approximately 11:00 A.M., in New York City, on such Interest Determination Date by three major banks (which may include affiliates of the underwriters of the Floating Rate Senior Notes) in New York City selected by the calculation agent for loans in the designated LIBOR Currency to leading European banks, having the Index Maturity and in a principal amount that is representative for a single transaction in the designated LIBOR Currency in such market at such time; provided, however, that if the banks so selected by the

calculation agent are not quoting as mentioned in this sentence, LIBOR determined as of such Interest Determination Date shall be LIBOR in effect on such Interest Determination Date.

LIBOR Currency means U.S. Dollars.

Price to Public (Issue Price): 100% of principal amount

**Interest Payment Dates and
Interest Reset Dates:**

Quarterly on March 21st, June 21st, September 21st and December 21st, beginning on September 21, 2011

In the event that the Maturity Date falls on a day that is not a Business Day, then the related payments of principal and interest may be made on the next succeeding day that is a Business Day (and no additional interest will accumulate on the amount payable for the period from and after the Maturity Date).

Business Day means any calendar day that is not a Saturday, Sunday or legal holiday in New York, New York and on which commercial banks are open for business in New York, New York; *provided* that with respect to payment dates, interest determination dates and reset dates for the Floating Rate Senior Notes, that day is also a London Business Day.

The special mandatory redemption date means the earlier to occur of (1) January 31, 2012, if the Beckman Coulter Acquisition has not been completed on or prior to December 31, 2011, or (2) the 30th day (or if such day is not a business day, the first business day thereafter) following the termination of the merger agreement.
