**Item 2.06 Material Impairments**

On October 7, 2011, The AES Corporation ("AES" or the Company ) concluded that a pre-tax impairment charge in the range of approximately \$110 million to \$125 million is required to be recognized as of September 30, 2011 in accordance with U.S. generally accepted accounting principles ( GAAP ) related to the accounting for property, plant and equipment. The assets being impaired include thirty-nine wind turbines currently held in storage pending installation and deposits for the purchase of additional wind turbines. Due to reduced wind turbine market pricing and advances in turbine technology, AES has decided to sell the thirty-nine turbines and determined that non-refundable turbine deposits are impaired. In accordance with accounting standards for property, plant and equipment, AES will recognize a pre-tax impairment expense in the range of approximately \$110 million to \$125 million in its results of operations for the three months ended September 30, 2011 to reduce the carrying value of the turbine deposits to zero and the turbines held in storage to their fair value. The impairment charge will not impact the Company s cash flows or cash balances and is not expected to result in any material future cash expenditures.

The Company has not completed its financial review for the quarter ended September 30, 2011. As part of its normal quarterly close process, the Company will continue to evaluate the recoverability of other long-lived assets. Any additional impairments that must be recognized in accordance with GAAP during the quarterly close process will be disclosed in the Company s Form 10-Q for the quarter ended September 30, 2011.

**Item 7.01 Regulation FD Disclosure**

The impairment charge described in Item 2.06 was not included in the Company s diluted earnings per share guidance for 2011. The impact of the impairment charge is expected to be in the range of approximately \$0.09 to \$0.10 per share. No other elements of the Company s previously disclosed guidance are affected by the impairment charge.

The Company s guidance metrics were updated on August 5, 2011 and are not being updated at this time, other than to describe the impact of the impairment charge specifically noted above. The Company may provide an update to its guidance, if any such update is warranted, on its third quarter earnings call in November.
