**Item 8.01 Other Events**

**Approval of Settlement Agreements and Issuance of the Stipulated Final Awards**

As we have previously reported in various filings we have made under the Securities Act of 1934, as amended, on August 29, 2011, ADA-ES, Inc. ( ADA or we ) and Norit Americas, Inc. and Norit International N.V. f/k/a Norit N.V. (collectively Norit ) entered into a Settlement Agreement pursuant to which we settled all ongoing litigation with Norit to which we and Norit were parties (the Norit Litigation ), and Norit entered into a separate settlement agreement (together, the Settlement Agreements ) with Energy Capital Partners, LLC and its affiliated funds (collectively ECP ) and ADA Carbon Solutions, LLC and certain of its subsidiaries (collectively the AC JV Entities ) as to the Norit Litigation and other litigation and claims among Norit, ECP and the AC JV Entities. On October 18, 2011, the panel of three arbitrators overseeing the related arbitration among the parties endorsed and confirmed the terms of the Settlement Agreements and issued confidential, final, confirmable awards (the Stipulated Final Awards ) resolving the Norit Litigation.

The Stipulated Final Awards endorse and affirm the Settlement Agreements as previously reported. Per the Stipulated Final Awards, initial royalties of approximately \$0.9 million with respect to all sales of activated carbon ( AC ) from commencement of operations at the AC facilities through June 30, 2011 are due by October 28, 2011. We expect to make this payment using cash on hand.

**Press Release Re: Update on Progress with Refined Coal Activities**

On October 5, 2011, we issued a press release regarding recent developments concerning Clean Coal Solutions, LLC and its refined coal business and providing additional updates on our M45 technology and plans to use this technology in the fabrication of additional refined coal facilities. A copy of the press release is filed as exhibit 99.1 to this report.

**Risk Factor**

*The following risk factor is intended to supplement the risk factor disclosures in our filings with the Securities and Exchange Commission. You are cautioned to consult filings we make with the SEC for additional risks and uncertainties that may apply to our business and the ownership of our securities.*

***We may be subject to intellectual property infringement claims from third parties that are costly to defend and that may limit our ability to use the disputed technologies.***

Companies in the business of developing technology face the risk of being subject to intellectual property infringement claims that are costly to defend. As a clean-tech company developing new technologies, we may be subject to intellectual property infringement claims from third parties, the defense of which would likely be costly in terms of monetary expenses and management demands. If our technologies infringe the intellectual property rights of others, we may be prevented from continuing sales of existing products or services and from pursuing research, development or commercialization of new products or services. Further, we may be required to obtain licenses to third party intellectual property, or be forced to develop or obtain alternative technologies. Our failure to obtain a license to any technology that we may require or to develop or obtain alternative technologies could significantly and negatively affect our business.

**Item 9.01. Financial Statements and Exhibits**

(d) The following items are filed as exhibits to this report:

99.1 Press Release, entitled ADA-ES Provides Update on Progress with Refined Coal Activities, dated October 5, 2011.
