CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement, the accompanying prospectus, and certain documents incorporated by reference in this prospectus supplement and the accompanying prospectus, contain certain forward-looking statements and information within the meaning of the United States *Private Securities Litigation Reform Act of 1995* and applicable Canadian securities legislation. Forward-looking statements include, but are not limited to, statements with respect to the future price of gold, silver, copper, lead and zinc, the estimation of mineral reserves and mineral resources, the realization of mineral reserve estimates, the timing and amount of estimated future production, costs of production, capital expenditures, costs and timing of the development of new deposits, success of exploration activities, permitting time lines, hedging practices, currency exchange rate fluctuations, requirements for additional capital, government regulation of mining operations, environmental risks, unanticipated reclamation expenses, timing and possible outcome of pending litigation, title disputes or claims and limitations on insurance coverage. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as plans, expects, is expected, budget, scheduled, estimates, forecasts, intends, anticipates, or believes, or the negative connotation thereof or variations of such words or phrases or state that certain actions, events or results may, could, would, might or will be taken, occur or be achieved or the negative connotation thereof.

Forward-looking statements are made based upon certain assumptions and other important factors that could cause our actual results, performance or achievements to be materially different from future results, performances or achievements expressed or implied by such statements. Such statements and information are based on numerous assumptions regarding present and future business strategies and the environment in which we will operate in the future, including the price of gold, anticipated costs and ability to achieve goals. Certain important factors that could cause actual results, performances or achievements to differ materially from those in the forward-looking statements include, among others, gold price volatility, discrepancies between actual and estimated production, mineral reserves and resources and metallurgical recoveries, mining operational and development risks, litigation risks, regulatory restrictions (including environmental regulatory restrictions and liability), activities by governmental authorities (including changes in taxation), currency fluctuations, the speculative nature of gold exploration, the global economic climate, dilution, share price volatility, competition, loss of key employees, additional funding requirements and defective title to mineral claims or property. Although we have attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended.

Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause our actual results, level of activity, performance or achievements to be materially different from those expressed or implied by such forward-looking statements, including but not limited to: risks related to the integration of acquisitions; risks related to international operations, including economic and political instability

in foreign jurisdictions in which we operate; risks related to current global financial conditions; risks related to joint venture operations; actual results of current exploration activities; environmental risks; future prices of gold, silver, copper, lead and zinc; possible variations in ore reserves, grade or recovery rates; mine development and operating risks; accidents, labour disputes and other risks of the mining industry; delays in obtaining governmental approvals or financing or in the completion of development or construction activities; risks related to indebtedness and the service of such indebtedness, as well as those factors discussed in the section entitled *Risk Factors* in this prospectus. Although we have attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. The forward-looking statements contained in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein are made as of the date of this prospectus supplement or as of the date specified in the accompanying prospectus and the documents incorporated by reference into this prospectus supplement, as the case may be and, accordingly, are subject to change after such date. Except as otherwise indicated by Goldcorp, these statements do not reflect the potential impact of any non-recurring or other special items or of any dispositions, monetizations, mergers, acquisitions, other business combinations or other transactions that may be announced or that may occur after the date hereof. Forward-looking statements are provided for the purpose of providing information about management's current expectations and plans and allowing investors and others to get a better understanding of Goldcorp's operating environment. We do not undertake to update any forward-looking statements, except in accordance with applicable securities laws.

**CAUTIONARY NOTE TO U.S. INVESTORS CONCERNING ESTIMATES OF
MEASURED, INDICATED AND INFERRED MINERAL RESOURCES**

This prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein have been prepared in accordance with the requirements of the securities laws in effect in Canada, which differ from the requirements of United States securities laws. The terms *mineral reserve*, *proven mineral reserve* and *probable mineral reserve* are Canadian mining terms as defined in accordance with Canadian National Instrument 43-101 *Standards of Disclosure for Mineral Projects* (NI 43-101) and the Canadian Institute of Mining, Metallurgy and Petroleum (the *CIM*) *CIM Definition Standards on Mineral Resources and Mineral Reserves*, adopted by the CIM Council, as amended. These definitions differ from the definitions in SEC Industry Guide 7 (*SEC Industry Guide 7*) under the Securities Act. Under SEC Industry Guide 7 standards, a *final* or *bankable* feasibility study is required to report reserves, the three-year historical average price is used in any reserve or cash flow analysis to designate reserves and the primary environmental analysis or report must be filed with the appropriate governmental authority.

In addition, the terms *mineral resource*, *measured mineral resource*, *indicated mineral resource* and *inferred mineral resource* are defined in and required to be disclosed by NI 43-101; however, these terms are not defined terms under SEC Industry Guide 7 and are normally not permitted to be used in reports and registration statements filed with the SEC. Investors are cautioned not to assume that any part or all of mineral deposits in these categories will ever be converted into reserves. *Inferred mineral resources* have a great amount of uncertainty as to their existence, and great uncertainty as to their economic and legal feasibility. It cannot be assumed that all or any part of an *inferred mineral resource* will ever be upgraded to a higher category. Under Canadian rules, estimates of *inferred mineral resources* may not form the basis of feasibility or pre-feasibility studies, except in rare cases. Investors are cautioned not to assume that all or any part of an *inferred mineral resource* exists or is economically or legally mineable. Disclosure of *contained ounces* in a resource is permitted disclosure under Canadian regulations; however, the SEC normally only permits issuers to report mineralization that does not constitute *reserves* by SEC standards as in place tonnage and grade without reference to unit measures.

Table of Contents

Accordingly, information contained in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein containing descriptions of our mineral deposits may not be comparable to similar information made public by U.S. companies subject to the reporting and disclosure requirements under the United States federal securities laws and the rules and regulations thereunder.

See [Description of Notes](#) [Optional Redemption](#) in this prospectus supplement.

Change of Control

We will be required to make an offer to repurchase the Notes of each series at a price equal to 101% of the aggregate principal amount repurchased plus accrued and unpaid interest to, but not including, the date of repurchase upon the occurrence of a Change of Control Repurchase Event (as defined herein), as described under [Description of Notes](#) [Change of Control Repurchase Event](#) in this prospectus supplement.

Additional Amounts

Any payments made by us with respect to the Notes will be made free and clear of, and without withholding or deduction for or on account of, Taxes (as defined in the accompanying prospectus) imposed or levied by, or on behalf of a Relevant Taxing Jurisdiction (as defined in the accompanying prospectus) unless we are required to withhold or deduct Taxes by law or by the interpretation or administration thereof by the Relevant Taxing Jurisdiction. If any amount for or on account of such Taxes is required by any Relevant Taxing Jurisdiction to be withheld or deducted from any payment made under or with respect to the Notes, we will, subject to certain exceptions, pay to each holder of the Notes, as additional interest, such Additional Amounts (as defined in the accompanying prospectus) as may be necessary so that the net amount received by each such holder after such withholding or deduction (and after deducting any Taxes on such Additional Amounts) will not be less than the amount such holder would have received if such Taxes had not been required to be withheld or deducted. See [Description of Debt Securities](#) [Payment of Additional Amounts](#) in the accompanying prospectus.

Tax Redemption

We may redeem the Notes of each series, in whole but not in part, upon notice in the event of certain changes in the tax laws (or any regulations or rulings promulgated thereunder) of a Relevant Taxing Jurisdiction, or the interpretation or administration thereof, at a redemption price equal to 100% of the principal amount thereof, together with accrued and unpaid interest to, but not including, the date fixed for redemption. See *Description of Debt Securities Tax Redemption* in the accompanying prospectus.

Sinking Fund

None.

Use of Proceeds

The net proceeds to us from this offering will be approximately US\$1,481 million, after deducting the underwriting fees and our estimated offering expenses.

We intend to use the net proceeds for repayment of the US\$862.5 million of convertible notes maturing August 2014, capital expenditures, capital investment or working capital. Pending such use, the net proceeds may be invested in short-term marketable securities or cash term deposits with highly rated institutions. See *Use of Proceeds* .

Certain Covenants

The indenture pursuant to which the Notes will be issued will contain certain covenants that, among other things:

limit the ability of Goldcorp and its restricted subsidiaries to create liens; and

restrict our ability to amalgamate or merge with a third party or transfer all or substantially all of our assets.

See *Description of Debt Securities Certain Covenants* in the accompanying prospectus. These covenants are subject to important exceptions and qualifications which are described under the caption *Description of Debt Securities Certain Covenants* in the accompanying prospectus.

Form and Denominations

Initially, the Notes of each series will be represented by one or more registered global securities registered in the name of a nominee of The Depository Trust Company. Beneficial interests in the registered global security will be in denominations of US\$2,000 and in integral multiples of US\$1,000 in excess thereof. Except as described under the heading *Description of Notes Global Securities and Book-Entry System* in this prospectus supplement, Notes in definitive form will not be issued.

Governing Law

The indenture (as defined herein) and the Notes will be governed by the laws of the State of New York.

RISK FACTORS

Prospective purchasers of the Notes should consider carefully the risk factors set forth below, and the section entitled "Description of the Business Risk Factors" in the AIF, which is incorporated by reference herein, as well as the other information contained in and incorporated by reference in this prospectus supplement and the accompanying prospectus, including subsequently filed documents incorporated by reference herein or therein. In addition, please read "Cautionary Note Regarding Forward-Looking Statements" in this prospectus supplement, where we describe additional uncertainties associated with our business and the forward-looking statements included or incorporated by reference in this prospectus supplement and the accompanying prospectus.

Prospective purchasers of the Notes should also read the discussion provided in the accompanying prospectus under the heading "Risk Factors" regarding certain risks and uncertainties which may affect us or our business.

Our corporate structure may impact the ability of the holders of Notes to receive payment on the Notes.

We are a holding company with no material operating assets. Our consolidated operating income is derived from our subsidiaries and partnerships. As a result, our ability to repay our indebtedness, including the Notes, is dependent on the generation of cash flow by our subsidiaries and partnerships and their ability to make such cash available to us, by dividend, debt repayment or otherwise. Our subsidiaries do not have any obligation to pay amounts due on the Notes or to make funds available for that purpose. In addition, our subsidiaries and partnerships may not be able to, or be permitted to, make distributions to enable us to make payments in respect of our indebtedness, including each series of Notes. Each of our subsidiaries and partnerships is a distinct legal entity and, under certain circumstances, legal and contractual restrictions, as well as the financial condition and operating requirements of our subsidiaries and partnerships, may limit our ability to obtain cash from our subsidiaries and partnerships. Our right to participate in any distribution of our subsidiaries' and partnerships' assets upon their liquidation, reorganization or insolvency would generally be subject to the prior claims of the subsidiaries' and partnerships' creditors, including any trade creditors and preferred shareholders.

The Notes will be effectively subordinated to all of our future secured debt and structurally subordinated to the liabilities of our subsidiaries.

The Notes will be our unsecured senior obligations and will rank equally with all of our other unsecured senior obligations. The Notes will be effectively subordinated to claims of our secured creditors as well as to the liabilities of our subsidiaries. If we incur any secured debt, our assets and the assets of our subsidiaries will be subject to prior claims by our secured creditors. Additionally, holders of the Notes will not have any claim as a creditor against our subsidiaries. As a result, all of our future secured indebtedness and all indebtedness and other liabilities, including trade payables, of our subsidiaries, whether secured or unsecured, must be satisfied before any of our assets or the assets of our subsidiaries would be available for distribution, upon a liquidation or otherwise, to us in order for us to meet our obligations with respect to the Notes.

As of December 31, 2012, we had no secured indebtedness outstanding and the aggregate amount of indebtedness, consolidated trade payables and accrued liabilities of our subsidiaries taken together with their proportionate share of our joint venture liabilities was approximately US\$888 million.

The indenture governing the Notes will not restrict our ability to incur additional debt, repurchase our securities or to take other actions that could negatively affect holders of the Notes.

We will not be restricted under the terms of the indenture governing the Notes from incurring additional indebtedness, including secured indebtedness, or repurchasing our securities. In addition, the limited covenants

Table of Contents

applicable to the Notes do not require us to achieve or maintain any minimum financial results relating to our financial position or results of operations. Our ability to recapitalize, incur additional indebtedness and take a number of other actions that will not be limited by the terms of the indenture governing the Notes could have the effect of diminishing our ability to make payments on the Notes when due.

We may be unable to repay the Notes when due or repurchase the Notes when we are required to do so.

At final maturity of the Notes of a series or in the event of acceleration of the Notes of a series following an event of default, the entire outstanding principal amount of the Notes of such series will become due and payable. If we were unable to make the required payments or repurchases of the Notes, it would constitute an event of default under the Notes offered hereby and, as a result, under our credit facilities and certain other outstanding indebtedness. It is possible that we will not have sufficient funds at maturity or upon acceleration to make the required payments or repurchases of the Notes and other debt securities.

We may not be able to finance a change of control repurchase required by the Notes.

We will be required to make an offer to repurchase the Notes of each series at a price equal to 101% of their principal amount plus accrued and unpaid interest to, but not including, the date of repurchase upon the occurrence of a Change of Control Repurchase Event. Failure to purchase, or to make an offer to repurchase, the Notes would constitute a default under the indenture, which would also be a default under certain instruments governing our existing indebtedness. See Description of Notes Change of Control Repurchase Event .

If a Change of Control Repurchase Event occurs, it is possible that we may not have sufficient funds available at the time of the Change of Control Repurchase Event to make the required repurchase of Notes or to satisfy all obligations under our other debt instruments. We are subject to similar repurchase or repayment obligations under the instruments governing our existing indebtedness. In order to satisfy our obligations, we could seek to refinance our indebtedness or obtain a waiver from our other lenders or from the holders of the Notes. There can be no assurance that we would be able to obtain a waiver or refinance our indebtedness on terms acceptable to us, if at all.

A financial failure by any entity in which we have an interest may hinder the payment of the Notes.

A financial failure by any entity in which we have an interest could affect payment of the Notes if a bankruptcy court were to substantively consolidate that entity with our subsidiaries and/or with us. If a bankruptcy court substantively consolidated an entity in which we have an interest with our subsidiaries and/or with us, the assets of each entity so consolidated would be subject to the claims of creditors of all entities so consolidated. This could expose our creditors, including holders of the Notes, to potential dilution of the amount ultimately recoverable because of the larger creditor base.

We cannot assure you that a public market for the Notes will develop.

The underwriters are not obligated to make a market in the Notes and any underwriter may discontinue its market-making activities at any time without notice. We do not intend to apply for a listing of the Notes of any series on any securities exchange or automated interdealer quotation system. The Notes will each be a new class of securities for which there is no established public trading market. No assurance can be given to holders of the Notes as to:

the liquidity of any such market that may develop;

the ability of holders of the Notes to sell their Notes; or

the price at which the holders of the Notes would be able to sell their Notes.

Table of Contents

If such a market were to exist, each series of Notes could trade at prices that may be higher or lower than their principal amount or purchase price, depending on many factors, including:

the time remaining to the maturity of the Notes of such series;

the outstanding amount of the Notes of such series;

the prevailing interest rates and the markets for similar securities;

the then-current ratings assigned to the Notes of such series;

the interest of securities dealers in making a market;

the market price of our common shares;

general economic conditions; and

our financial condition, historic financial performance and future prospects.

We intend to use the net proceeds for repayment of the US\$862.5 million of convertible notes maturing August 2014, capital expenditures, capital investment or working capital. Pending such use, the net proceeds may be invested in short-term marketable securities or cash term deposits with highly rated institutions.

(1) The net proceeds will initially be held in cash and cash equivalents.

(2) As at December 31, 2012, we had a US\$2.0 billion unsecured revolving credit facility with a maturity date of November 22, 2016 (the revolving credit facility). On March 8, 2013, we amended the revolving credit facility to extend the maturity date to March 6, 2018. As of March 12, 2013, we had no amounts outstanding under the revolving credit facility.

(3) On June 5, 2009, we issued the 2.00% convertible senior notes due 2014 (the convertible notes) with an aggregate principal amount of US\$862.5 million. The convertible notes include the option to settle in cash or a combination of cash and common shares. The option to settle in cash results in the conversion feature of the convertible notes being accounted for as an embedded derivative which must be separately accounted for at fair value upon initial recognition. Subsequently, the conversion feature is measured at fair value at each reporting date and the movement reported in net earnings. The carrying amount of the debt component upon initial recognition was calculated as the difference between the proceeds received for the convertible notes and the fair value of the conversion feature, and is accreted to the face value of the convertible notes over the term of the convertible notes using an annual effective interest rate of 8.57%.

We expect that a portion of the net proceeds will be used to prefund the repayment of the convertible notes, however such adjustment is not reflected herein since such repayment will not occur until August 2014.

- (4) Under IFRS, the transaction costs incurred on issuance of the Notes are recorded as part of the carrying value of the Notes.

- (5) On December 18, 2012, we entered into a 1-year uncommitted on-demand credit facility (the on-demand credit facility) denominated in Argentine pesos with a third party in Argentina. As of March 12, 2013, we had drawn approximately US\$45 million against the on-demand credit facility. On January 14, 2013, we entered into a 1-year US\$131.25 million uncommitted loan facility (the loan facility) with a related party in Argentina. As of March 12, 2013, we had drawn approximately US\$90 million against the loan facility.

PRO FORMA EARNINGS COVERAGE

The following unaudited pro forma earnings coverage ratios are included in this prospectus supplement in accordance with Canadian disclosure requirements. They have been calculated on a consolidated basis using financial information prepared in accordance with IFRS for the 12-month period ended December 31, 2012 and give effect to all of our long-term financial liabilities, and the repayment, redemption or other retirement thereof indicated below.

The pro forma ratios set forth below have been calculated after giving effect to the issuance of the Notes offered hereby. The reported net earnings attributable to shareholders of Goldcorp has been increased by finance cost and income taxes. The earnings coverage ratio is equal to net earnings attributable to shareholders of Goldcorp, adjusted as described above, divided by finance costs. The pro forma ratios set forth below do not purport to be indicative of actual earnings coverage ratios that would have occurred on the dates set forth below. The pro forma ratios set forth below are not indicative of actual ratios for any future period.

Our pro forma finance cost requirements, after giving effect to the issuance of Notes offered hereby amounted to approximately US\$110.6 million for the 12-month period ended December 31, 2012. For the 12-month period ended December 31, 2012, we recorded pro forma profit attributable to shareholders of Goldcorp before borrowing costs and income taxes of US\$2,205 million, after giving effect to the issuance of Notes offered hereby. For the 12-month period ended December 31, 2012, the interest coverage ratios, after giving effect to the issuance of Notes offered hereby were 19.9 times borrowing costs.

Our pro forma net earnings attributable to shareholders of Goldcorp for the 12-month period ended December 31, 2012 before finance costs, income taxes and depreciation and amortization, amounted to approximately US\$2,880 million, which, after giving effect to the issuance of Notes offered hereby amounted to 26.0 times our borrowing costs for that period.

DESCRIPTION OF NOTES

The following description of the material provisions of the Notes (referred to in the accompanying prospectus as "debt securities") supplements, and to the extent inconsistent therewith, replaces the description of the debt securities set forth in the accompanying prospectus under

Description of Debt Securities and should be read in conjunction with such description. It does not purport to be complete and is qualified in its entirety by the base indenture and the first supplemental indenture, because the base indenture and the first supplemental indenture, and not this description, define your rights as a holder of the Notes. A copy of the form of the base indenture has been filed with the SEC as an exhibit to the registration statement of which this prospectus supplement forms a part and a copy of the first supplemental indenture will be filed with the SEC. You should refer to all the provisions of the base indenture and the first supplemental indenture, including the definition of certain terms used therein. Terms used herein that are otherwise not defined shall have the meanings given to them in the accompanying prospectus, the base indenture or the first supplemental indenture. Such defined terms shall be incorporated herein by reference. In this section the terms "Goldcorp," "we," "our," and "us" refer only to Goldcorp Inc. and not to any of its subsidiaries.

General

We will issue the Notes under an indenture to be dated as of the closing date of this offering (the "base indenture"), between us and Wells Fargo Bank, National Association, as trustee (the "trustee"), as supplemented by a first supplemental indenture (the "first supplemental indenture") to be dated as of the closing date of this offering, between us and the trustee. The base indenture and the first supplemental indenture are collectively referred to herein as the "indenture."

The 2.125% Notes due 2018 will be initially issued in an aggregate principal amount of US\$500,000,000 and will mature on March 15, 2018 (the "2018 Notes"). The 2018 Notes will be unsecured, unsubordinated obligations of Goldcorp. The 2018 Notes will bear interest at the rate of 2.125% per annum from and including the most recent interest payment date to which interest has been paid or provided for, or if no interest has been paid or provided for, from March 20, 2013. Interest on the 2018 Notes will be payable semi-annually in arrears on March 15 and September 15 of each year, to the persons in whose names the 2018 Notes are registered at the close of business on the preceding March 1 or September 1, as the case may be.

The 3.700% Notes due 2023 will be initially issued in an aggregate principal amount of US\$1,000,000,000 and will mature on March 15, 2023 (the "2023 Notes" and together with the 2018 Notes, the "Notes"). The 2023 Notes will be unsecured, unsubordinated obligations of Goldcorp. The 2023 Notes will bear interest at the rate of 3.700% per annum from and including the most recent interest payment date to which interest has been paid or provided for, or if no interest has been paid or provided for, from March 20, 2013. Interest on the 2023 Notes will be payable semi-annually in arrears on March 15 and September 15 of each year, to the persons in whose names the 2023 Notes are registered at the close of business on the preceding March 1 or September 1, as the case may be.

If interest or principal on the Notes is payable on a Saturday, Sunday or any other day when banks are not open for business in The City of New York, we will make the payment on the next business day, and no interest will accrue as a result of the delay in payment.

Interest on the Notes will accrue on the basis of a 360-day year consisting of twelve 30-day months from and including the last interest payment date on which interest has been paid.

The Notes will be payable at the office of the paying agent maintained by us for such purpose, which initially will be the office or agency of the trustee at 150E 42nd Street, 40th Floor, New York, New York 10017, Attention: Goldcorp Inc. Account Manager. Notes may be presented for exchange or registration of transfer at the office of the registrar, which initially will be such office of the trustee. We will not charge a service fee for

Table of Contents

any registration of transfer or exchange of the Notes, but we may require payment of a sum sufficient to cover any tax, assessment or other governmental charge payable in connection therewith.

The Notes will not be entitled to the benefits of any sinking fund.

Further Issuances

We may from time to time without notice to, or the consent of, the holders of the Notes of any series, create and issue additional Notes of any series under the indenture, equal in rank to the outstanding Notes of that series in all respects (or in all respects except for the payment of interest accruing prior to the issue date of the Notes, or except, in some cases, for the first payment of interest following the issue date of the Notes) so that the Notes may be consolidated and form a single series with the outstanding Notes of that series, and have the same terms as to status, redemption and otherwise as Notes of that series; *provided* that, if the additional Notes of that series are not fungible with the outstanding Notes of that series for U.S. federal income tax purposes, the additional Notes of that series will have a separate CUSIP number.

Ranking

The Notes will be our unsecured obligations and will rank equally with all of our other unsecured and unsubordinated Indebtedness from time to time outstanding. The Notes will be effectively subordinated to all Indebtedness and other liabilities of our subsidiaries, and will be subordinated to any secured Indebtedness and other secured liabilities of ours to the extent of the assets securing such Indebtedness and other liabilities.

Optional Redemption

2018 Notes

The 2018 Notes will be redeemable, in whole or in part, at our option at any time.

The redemption price of the 2018 Notes to be redeemed on any redemption date that is prior to the maturity date of the 2018 Notes will be equal to the greater of (i) 100% of the principal amount of the Notes of such series called for redemption and (ii) the sum of the present values of the remaining scheduled payments of principal and interest on the Notes of such series called for redemption (exclusive of interest accrued to the date of redemption) discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate, plus, 20 basis points, plus, in each case, accrued interest thereon to, but not including, the date of redemption.

2023 Notes

The 2023 Notes will be redeemable, in whole or in part, at our option at any time.

The redemption price of the 2023 Notes to be redeemed on any redemption date that is prior to the date that is three months prior to the maturity date of the 2023 Notes will be equal to the greater of (i) 100% of the principal amount of the Notes of such series called for redemption and (ii) the sum of the present values of the remaining scheduled payments of principal and interest on the Notes of such series called for redemption (exclusive of interest accrued to the date of redemption) discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate, plus, 25 basis points, plus, in each case, accrued interest thereon to, but not including, the date of redemption.

The redemption price for the 2023 Notes to be redeemed on any redemption date that is on or after the date that is three months prior to the maturity date of the 2023 Notes, will be equal to 100% of the principal amount of the 2023 Notes to be redeemed, plus, accrued interest thereon to, but not including, the date of redemption.

Table of Contents

Redemption Procedures

We will give you at least 30 days (but not more than 60 days) prior notice of any redemption. If less than all of the Notes are redeemed, the trustee will select the Notes to be redeemed by a method determined by the trustee to be fair and appropriate and in accordance with the procedures of the Depository.

On or before 10:00 a.m., New York City time, on the redemption date, we will deposit with the trustee money sufficient to pay the redemption price and accrued interest on the Notes to be redeemed on such date. On and after the redemption date, interest will cease to accrue on any Notes that have been called for redemption (unless we default in the payment of the redemption price and accrued interest). The redemption price will be calculated by the Independent Investment Banker, as provided below, and we, the trustee and any paying agent for the Notes will be entitled to conclusively rely on such calculation.

If notice of redemption has been given as provided in the indenture and funds for the redemption of the Notes called for redemption have been made available on the redemption date referred to in such notice, such Notes will cease to bear interest on the date fixed for such redemption specified in such notice and the only right of the holders of the Notes will be to receive payment of the redemption price plus accrued interest to, but not including, the date of redemption.

For purposes of the discussion of optional redemption, the following definitions are applicable:

Comparable Treasury Issue means the United States Treasury security or securities selected by an Independent Investment Banker as having an actual or interpolated maturity comparable to the remaining term of the Notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of a comparable maturity to the remaining term of such Notes.

Comparable Treasury Price means, with respect to any redemption date, (A) the average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotations, or (B) if we obtain fewer than three such Reference Treasury Dealer Quotations, the average of all such quotations.

Independent Investment Banker means one of the Reference Treasury Dealers appointed by us.

Reference Treasury Dealer Quotations means, with respect to each Reference Treasury Dealer and any redemption date, the average of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to us by such Reference Treasury Dealer at 3:30 p.m. New York time on the third business day preceding such redemption date.

Reference Treasury Dealer means each of HSBC Securities (USA) Inc. and Merrill Lynch, Pierce, Fenner & Smith Incorporated, or their respective affiliates which are primary U.S. government securities dealers, and three other primary U.S. government securities dealers in the United States (each a primary treasury dealer) selected by us, and their respective successors; *provided, however*, that if any of the foregoing or their affiliates shall cease to be a primary treasury dealer, we shall substitute another primary treasury dealer.

Treasury Rate means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity or interpolated (on a day count basis) of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date.

Change of Control Repurchase Event

If a Change of Control Repurchase Event occurs with respect to a series of Notes, unless we have exercised our right to redeem the Notes of that series as described above, we will be required to make an offer to each holder of the Notes of that series to repurchase all or any part (in multiples of US\$1,000 with no Note of a principal amount of US\$2,000 or less purchased in part) of that holder's Notes of that series at a repurchase price in cash equal to 101% of the aggregate principal amount of the Notes repurchased plus any accrued and unpaid interest on the Notes repurchased to, but not including, the date of repurchase.

Within 30 days following any Change of Control Repurchase Event or, at our option, prior to any Change of Control but after the public announcement of the Change of Control, we will mail a notice to each holder, with a copy to the trustee, describing the transaction or transactions that constitute or may constitute the Change of Control Repurchase Event and offering to repurchase the Notes on the payment date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed, other than as may be required by law. The notice shall, if mailed prior to the date of consummation of the Change of Control, state that the offer to purchase is conditioned on a Change of Control occurring on or prior to the payment date specified in the notice.

We will comply with the requirements of Rule 14e-1 under the Exchange Act, and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the Notes as a result of a Change of Control Repurchase Event. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control Repurchase Event provisions of the Notes, we will comply with the applicable securities laws and regulations and will not be deemed to have breached our obligations under the Change of Control Repurchase Event provisions of the Notes by virtue of such conflict.

On the repurchase date following a Change of Control Repurchase Event, we will, to the extent lawful:

- (1) accept for payment all Notes or portions of the Notes properly tendered pursuant to our offer;
- (2) deposit with the trustee or the paying agent, as applicable, an amount equal to the aggregate purchase price in respect of all Notes or portions of the Notes properly tendered; and
- (3) deliver or cause to be delivered to the trustee or the paying agent, as applicable, the Notes properly accepted, together with an officer's certificate stating the aggregate principal amount of the Notes being purchased by us.

The trustee or the paying agent, as applicable, will promptly pay to each holder of the Notes properly tendered the purchase price for the Notes, and the trustee will promptly authenticate and deliver to each holder a new note equal in principal amount to any unpurchased portion of any Notes surrendered; provided that each new note will be in a minimum principal amount of US\$2,000 and integral multiples of US\$1,000.

We will not be required to make an offer to repurchase the Notes upon a Change of Control Repurchase Event if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for an offer made by us and such third party purchases all Notes properly tendered and not withdrawn under its offer.

Prior to the occurrence of a Change of Control Repurchase Event, the provisions under the indenture relating to our obligation to make an offer to repurchase upon a Change of Control Repurchase Event may be waived or modified with the written consent of the holders of a majority in principal amount of the Notes of the relevant series.

Table of Contents

For purposes of the foregoing discussion of an offer to repurchase, the following definitions are applicable:

Change of Control means the occurrence of any of the following:

- (1) the direct or indirect sale, lease, transfer, conveyance or other disposition (other than by way of merger, amalgamation or statutory plan of arrangement or consolidation), in one or a series of related transactions, of all or substantially all of our assets and the assets of our subsidiaries taken as a whole to any person or group (as such terms are used in Sections 13(d) and 14(d) of the Exchange Act) other than to us or one of our subsidiaries;
- (2) the consummation of any transaction (including, without limitation, any merger, amalgamation or statutory plan of arrangement or consolidation) the result of which is that any person or group (as such terms are used in Sections 13(d) and 14(d) of the Exchange Act) becomes the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of more than 50% of the combined voting power of our Voting Stock or other Voting Stock into which our Voting Stock is reclassified, consolidated, exchanged or changed, measured by voting power rather than number of shares;
- (3) we consolidate, amalgamate, or enter into a statutory plan of arrangement with, or merge with or into, any person (as that term is used in Section 13(d)(3) of the Exchange Act), or any person consolidates, amalgamates, or enters into a statutory plan of arrangement with, or merges with or into, us, in any such event pursuant to a transaction in which any of our outstanding Voting Stock or the Voting Stock of such other person is converted into or exchanged for cash, securities or other property, other than any such transaction where the shares of our Voting Stock outstanding immediately prior to such transaction constitute, or are converted into or exchanged for, Voting Stock representing more than 50% of the combined voting power of the surviving person immediately after giving effect to such transaction;
- (4) the first day on which the majority of the members of our board of directors cease to be Continuing Directors; or
- (5) the adoption of a plan relating to our liquidation or dissolution.

Notwithstanding the foregoing, any holding company whose only significant asset is capital stock of us or any of our direct or indirect parent companies shall not itself be considered a person or group for purposes of clause (2) above.

The definition of Change of Control includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of all or substantially all of our and our subsidiaries properties or assets taken as a whole. Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of Notes to require us to make an offer to repurchase such holder's Notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of our and our subsidiaries assets taken as a whole to another person or group may be uncertain.

Change of Control Repurchase Event means each of the Rating Agencies during the trigger period (as defined below) downgrade their ratings of a series of Notes by at least one notch and, following such downgrades, the Notes of such series are rated below Investment Grade by each of the Rating Agencies on any date during the 60-day period (the trigger period) (which trigger period shall be extended so long as the rating of the Notes of such series is under publicly announced consideration for a possible downgrade by any of the Rating Agencies) after the earlier of the (1) public announcement by Goldcorp of any Change of Control (or pending Change of Control) or (2) consummation of such Change of Control. Notwithstanding the foregoing, no Change of Control Repurchase Event will be deemed to have occurred in connection with any particular Change of Control unless and until such Change of Control has actually been consummated.

Table of Contents

Continuing Director means, as of any date of determination, any member of our board of directors who:

- (1) was a member of such board of directors on the date of this prospectus supplement; or
- (2) was nominated for election, elected or appointed to such board of directors with the approval of a majority of the Continuing Directors who were members of such board of directors at the time of such nomination, election or appointment (either by a specific vote or by approval of our proxy statement in which such member was named as a nominee for election as a director, without objection to such nomination).

Investment Grade means a rating of Baa3 or better by Moody's (or its equivalent under any successor rating categories of Moody's); a rating of BBB or better by S&P (or its equivalent under any successor rating categories of S&P); and the equivalent investment grade credit rating from any additional rating agency or rating agencies selected by us.

Moody's means Moody's Investors Service, Inc., a subsidiary of Moody's Corporation, and its successors.

Rating Agency means each of Moody's and S&P; *provided*, that if either Moody's or S&P ceases to rate the Notes or fails to make a rating of the Notes publicly available for any reason that is beyond our control, we may select (as certified by a resolution of our board of directors) a nationally recognized statistical rating organization within the meaning of Section 3(a)(62) of the Exchange Act, as a replacement agency for Moody's or S&P, or both of them, as the case may be.

S&P means Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies Inc., and its successors.

Voting Stock of any specified person (as that term is used in Section 13(d)(3) of the Exchange Act) as of any date means the capital stock of such person that is at the time entitled to vote generally in the election of the board of directors of such person.

The Change of Control Repurchase Event feature of the Notes may in certain circumstances make more difficult or discourage a sale or takeover of Goldcorp and, therefore, the removal of incumbent management. Subject to the limitations discussed below, we could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control Repurchase Event under the Notes, but that could substantially increase the amount of indebtedness outstanding at such time or otherwise adversely affect our capital structure or credit ratings on the Notes.

We may not have sufficient funds to repurchase all the Notes tendered for repurchase upon a Change of Control Repurchase Event. See Risk Factors.

Global Securities and Book-Entry System

The Notes initially will be represented by one or more certificates in registered global form without interest coupons (collectively, the Global Securities) and will be deposited with the trustee as custodian for the Depositary and registered in the name of the Depositary or its nominee.

Except as described below under Special Situations When a Global Security Will be Terminated, owners of beneficial interests in the Notes will not be entitled to receive Notes in definitive form and will not be considered holders of Notes under the Indenture.

Table of Contents***The Depository***

The Depository has advised us as follows:

The Depository Trust Company (the Depository) is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. The Depository holds and provides asset servicing for securities that the Depository's participants (Direct Participants) deposit with the Depository. The Depository also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. The Depository is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (DTCC). DTCC, in turn, is owned by a number of Direct Participants of the Depository and Members of the National Securities Clearing Corporation, Government Securities Clearing Corporation, MBS Clearing Corporation, and Emerging Markets Clearing Corporation (NSCC, GSCC, MBSCC, and EMCC, respectively, also are subsidiaries of DTCC), as well as by the NYSE Euronext and the Financial Industry Regulatory Authority, Inc. Access to the Depository's system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (Indirect Participants). The Depository's Rules applicable to its participants are on file with the SEC.

Purchases of Notes under the Depository's system must be made by or through Direct Participants, which will receive a credit for such Notes on the Depository's records. The ownership interest of each actual purchaser of Notes represented by the Global Securities (a Beneficial Owner), is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from the Depository of their purchase, but Beneficial Owners are expected to receive written confirmation providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in Global Securities are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive Notes in definitive form representing their ownership interests therein, except in the limited circumstances described under Special Situations When a Global Security Will be Terminated.

To facilitate subsequent transfers, the Global Securities deposited with the Depository will be registered in the name of the Depository's partnership nominee, Cede & Co. The deposit of the Global Securities with the Depository and their registration in the name of Cede & Co. does not effect any change in beneficial ownership. The Depository has no knowledge of the actual Beneficial Owners of the Global Securities representing the Notes. The Depository's records reflect only the identity of the Direct Participants to whose accounts such Notes are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by the Depository to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Unless physical certificates representing the Notes have been issued, redemption notices shall be sent to Cede & Co. If less than all of the Notes are being redeemed, the Depository's practice is to determine by lot the amount of the interest of each Direct Participant in the Notes to be redeemed.

Table of Contents

Neither the Depository nor Cede & Co. will consent or vote with respect to the Global Securities representing the Notes unless authorized by a Direct Participant in accordance with the Depository's procedures. Under its usual procedures, the Depository mails an omnibus proxy (an Omnibus Proxy) to Goldcorp as soon as possible after the applicable record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Notes are credited on the applicable record date (identified in a listing attached to the Omnibus Proxy).

Principal, premium, if any, and interest payments on the Global Securities representing the Notes will be made to the Depository. The Depository's practice is to credit Direct Participants' accounts on the applicable payment date in accordance with their respective holdings shown on the Depository's records unless the Depository has reason to believe that it will not receive payment on such date. Payments by Direct and Indirect Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the account of customers in bearer form or registered in street name, and will be the responsibility of such participants and not of the Depository, the trustee or Goldcorp subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and interest to Cede & Co. is the responsibility of Goldcorp, disbursement of such payments to Direct Participants shall be the responsibility of the Depository, and disbursement of such payments to the Beneficial Owners shall be the responsibility of Direct and Indirect Participants. None of Goldcorp or the trustee will have any responsibility or liability for the disbursements of payments in respect of ownership interests in the Notes by the Depository or the Direct or Indirect Participants or for maintaining or reviewing any records of the Depository or the Direct or Indirect Participants relating to ownership interests in the Notes or the disbursement of payments in respect thereof. The information in this section concerning the Depository and the Depository's system has been obtained from sources that we believe to be reliable, but is subject to any changes to the arrangements between us and the Depository and any changes to such procedures that may be instituted unilaterally by the Depository.

Special Investor Considerations for Global Securities

The obligations of Goldcorp, as well as the obligations of the trustee and those of any third parties employed by Goldcorp or the trustee run only to persons who are registered as holders of Notes. For example, once we make payment to the registered holder of a note, we have no further responsibility for the payment even if that holder is legally required to pass the payment along to you but does not do so. As an indirect holder, an investor's rights relating to a Global Security will be governed by the account rules of the investor's financial institution and of the Depository, as well as general laws relating to debt securities transfers.

An investor should be aware that when Notes are issued in the form of Global Securities:

the investor cannot have Notes registered in his or her own name;

the investor cannot receive physical certificates for his or her interest in the Notes;

the investor must look to his or her own bank or brokerage firm for payments on the Notes and protection of his or her legal rights relating to the Notes;

the investor may not be able to sell interests in the Notes to some insurance companies and other institutions that are required by law to hold the physical certificates of Notes that they own;

the Depository's policies will govern payments, transfers, exchange and other matters relating to the investor's interest in the Global Security. Goldcorp and the trustee have no responsibility for any aspect of the Depository's actions or for its records of ownership interest in the Global Security. Goldcorp and the trustee also do not supervise the Depository in any way; and

the Depository will usually require that interests in a Global Security be purchased or sold within its system using same-day funds.

Table of Contents

Special Situations When a Global Security Will be Terminated

In a few special situations described below, a Global Security will terminate and interests in it will be exchanged for physical certificates representing Notes of the applicable series. After that exchange, an investor may choose whether to hold Notes directly or indirectly through an account at its bank or brokerage firm. Investors must consult their own banks or brokers to find out how to have their interests in Notes transferred into their own names, so that they will be direct holders.

The special situations for termination of a Global Security are:

when the Depository notifies us that it is unwilling, unable or no longer qualified to continue as Depository (unless a replacement Depository is named);

an event of default has occurred and is continuing, and the Depository requests the issuance of certificated Notes; and

when and if we decide to terminate a Global Security.

When a Global Security terminates, the Depository (and not Goldcorp or the trustee) is responsible for deciding the names of the institutions that will be the initial direct holders.

Global Clearance and Settlement Procedures

Initial settlement for the Notes will be made in immediately available funds. Secondary market trading between Depository participants (DTC Participants) will occur in the ordinary way in accordance with the Depository's rules and will be settled in immediately available funds. Secondary market trading between Clearstream Banking S.A. (Clearstream, Luxembourg) participants (Clearstream Participants) and/or Euroclear System (Euroclear) participants (Euroclear Participants) will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream, Luxembourg and Euroclear, as applicable.

Cross-market transfers between persons holding directly or indirectly through the Depository, on the one hand, and directly or indirectly through Clearstream Participants or Euroclear Participants, on the other, will be effected through the Depository in accordance with the Depository's rules on behalf of the relevant European international clearing system by its U.S. depository; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (European time). The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. depository to take action to effect final settlement on its behalf by delivering securities to or receiving securities from the Depository, and making or receiving payment in accordance with normal procedures. Clearstream Participants and Euroclear Participants may not deliver instructions directly to their respective U.S. depositories.

Because of time-zone differences, credits of Notes received in Clearstream, Luxembourg or Euroclear as a result of a transaction with a DTC Participant will be made during subsequent securities settlement processing and dated the business day following the Depository's settlement date. The credits or any transactions in the Notes settled during the processing will be reported to the relevant Euroclear Participant or Clearstream Participant on that business day. Cash received in Clearstream, Luxembourg or Euroclear as a result of sales of the Notes by or through a Clearstream Participant or a Euroclear Participant to a DTC Participant will be received with value on the Depository's settlement date but will be available in the relevant Clearstream, Luxembourg or Euroclear cash account only as of the business day following settlement through the Depository.

Although the Depository, Clearstream, Luxembourg and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of Notes among participants of the Depository, Clearstream, Luxembourg and Euroclear, they are under no obligation to perform or continue to perform such procedures and such procedures may be discontinued or changed at any time.

CERTAIN INCOME TAX CONSIDERATIONS

Each of the summaries under this section Certain Income Tax Considerations is of a general nature only and is not intended to be, and should not be construed to be, legal or tax advice to any particular holder, and no representation is made with respect to the U.S. federal tax consequences or Canadian federal tax consequences to any particular holder. Accordingly, prospective purchasers should consult their own tax advisors with respect to the U.S. federal tax consequences or Canadian federal tax consequences relevant to them in light of their particular circumstances.

Certain United States Federal Income Tax Considerations

The following is a general summary of certain U.S. federal income tax consequences of the acquisition, ownership and disposition of Notes by U.S. Holders, as defined below, that purchase Notes in this offering at the price indicated on the cover of this prospectus supplement. This discussion is based on existing provisions of the U.S. Internal Revenue Code of 1986, as amended (the Code), final, proposed and temporary Treasury Regulations promulgated thereunder, administrative pronouncements or practice, judicial decisions, and interpretations of the foregoing, all as of the date of this offering. Future legislative, judicial or administrative modifications, revocations or interpretations, which may or may not be retroactive, may result in U.S. federal income tax consequences significantly different from those discussed herein. This discussion is not binding on the U.S. Internal Revenue Service (the IRS). No ruling has been or will be sought or obtained from the IRS with respect to any of the U.S. federal income tax consequences discussed herein. There can be no assurance that the IRS will not challenge any of the conclusions described herein or that a U.S. court will not sustain such challenge.

As used herein, a U.S. Holder is any beneficial owner of a Note that is (i) a citizen or individual resident of the United States; (ii) a corporation, or other entity taxable as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States or any of its political subdivisions; (iii) an estate the income of which is subject to U.S. federal income taxation regardless of its source; or (iv) a trust if (a) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (b) the trust has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. person. If a pass-through entity, including a partnership or other entity taxable as a partnership for U.S. federal income tax purposes, holds a Note, the U.S. federal income tax treatment of an owner or partner generally will depend upon the status of such owner or partner and upon the activities of the pass-through entity. U.S. persons that are owners or partners of a pass-through entity holding a Note should consult their own tax advisors.

This discussion does not address any U.S. federal alternative minimum tax, U.S. federal estate, gift, or other non-income tax, or state, local or non-U.S. tax consequences of the acquisition, ownership and disposition of a Note. In addition, this discussion does not address the U.S. federal income tax consequences to certain categories of U.S. Holders subject to special rules, including U.S. Holders that are (i) banks, financial institutions or insurance companies; (ii) regulated investment companies or real estate investment trusts; (iii) brokers or dealers in securities or currencies or traders in securities that elect to use a mark-to-market method of accounting; (iv) tax-exempt organizations, qualified retirement plans, individual retirement accounts or other tax-deferred accounts; (v) holders that hold a Note as part of a hedge, straddle, conversion transaction or a synthetic security or other integrated transaction; (vi) holders that have a functional currency other than the U.S. dollar; and (vii) U.S. expatriates.

This discussion assumes that a Note is held as a capital asset, within the meaning of Section 1221 of the Code.

YOU SHOULD CONSULT YOUR OWN TAX ADVISOR WITH RESPECT TO THE APPLICATION OF THE U.S. FEDERAL TAX LAWS TO YOUR PARTICULAR CIRCUMSTANCES, AS WELL AS ANY TAX

Table of Contents

CONSEQUENCES ARISING UNDER THE LAWS OF ANY STATE, LOCAL, NON-U.S. OR OTHER TAXING JURISDICTION.

Notes Subject to Contingency

We will be required to make an offer to repurchase all of the Notes at a price equal to 101% of their principal amount plus accrued and unpaid interest upon the occurrence of a Change of Control Repurchase Event. See *Description of Notes Change of Control Repurchase Event* . It is possible that our offer to repurchase the Notes at a premium could implicate the Treasury Regulations relating to contingent payment debt instruments . If the Notes were characterized as contingent payment debt instruments, you might, among other things, be required to accrue interest income in different amounts and at different times than the stated interest on the Notes and to treat any gain recognized on the sale or other disposition of a Note as ordinary income rather than as capital gain.

We intend to take the position that the likelihood of such repurchase of the Notes at a premium is remote, and thus that the Notes should not be treated as contingent payment debt instruments. Our determination that such a contingency is remote is binding on you unless you disclose your contrary position in the manner required by applicable Treasury Regulations. Our determination, however, is not binding on the IRS, and the IRS could challenge this determination.

The remainder of this disclosure assumes that our determination that such a contingency is remote is correct. You are urged to consult your tax advisor regarding the possible application of the special rules related to contingent payment debt instruments.

Payments of Interest

You will be taxed on stated interest on your Note as ordinary income at the time you receive the interest or when the interest accrues, depending on your method of accounting for U.S. federal income tax purposes. Interest paid on the Notes is income from sources outside the United States for purposes of computing the foreign tax credit allowable to a U.S. Holder. Interest income on a Note generally will be considered passive category income for U.S. foreign tax credit purposes. The rules governing the foreign tax credit are complex, and you should consult your tax advisor regarding the availability of the credit under your particular circumstances.

Original Issue Discount

It is not expected that the Notes will be issued with original issue discount (OID). If, however, your Notes were issued with more than a *de minimis* amount of OID, then such OID would be treated, for U.S. federal income tax purposes, as accruing over the Notes term on a constant yield basis as interest income. Your adjusted tax basis in a note with OID would be increased by the amount of any OID included in your gross income. In compliance with Treasury Regulations, if we determine that any series of the Notes has OID, we will provide certain information to the IRS and/or you that is relevant to determining the amount of OID in each accrual period.

Sale, Exchange and Retirement of the Notes

Your tax basis in your Note generally will be its cost. You will generally recognize a capital gain or loss on the sale, exchange or retirement of your Note equal to the difference between the amount you realize on the sale, exchange or retirement, excluding any amounts attributable to accrued but unpaid interest (which will generally be taxed as interest) and your tax basis in your Note. Such gain or loss generally will constitute long-term capital gain or loss if you held the Note for more than one year and otherwise will be short-term capital gain or loss. Net long-term capital gains of non-corporate U.S. Holders (including individuals) are, under some circumstances, taxed at lower rates than items of ordinary income. The deductibility of capital losses is subject to limitations.

Table of Contents

Any such gain or loss will be treated as U.S. source income or loss, unless it is attributable to an office or other fixed place of business outside of the United States and certain other conditions are met.

Information Reporting and Backup Withholding

Payments of interest on a Note made within the United States (including payments made by wire transfer from outside the United States to an account you maintain in the United States) and a payment of the proceeds from the sale or other taxable disposition of a Note effected at a U.S. office of a broker generally will be subject to information reporting unless you are a corporation or other exempt recipient. Backup withholding, currently at the rate of 28%, will generally apply if you are not a corporation and (a) fail to furnish your correct taxpayer identification number (generally on an IRS Form W-9), (b) are notified by the IRS that you have previously failed to report properly items subject to backup withholding, or (c) fail to certify, under penalty of perjury, that you have furnished your correct taxpayer identification number and that the IRS has not notified you that you are subject to backup withholding.

Backup withholding is not an additional U.S. federal income tax. Any amounts withheld under the U.S. backup withholding rules generally will be allowed as a credit against your U.S. federal income tax liability, if any, or will be refunded to the extent it exceeds such liability, if you furnish required information to the IRS in a timely manner.

Certain U.S. Holders who are individuals that hold certain foreign financial assets (which may include the Notes) are required to report information relating to such assets, subject to certain exceptions. You should consult your own tax advisors regarding the effect, if any, of this requirement on your acquisition, ownership and disposition of Notes.

Additional Tax on Net Investment Income

Certain U.S. Holders who are individuals, estates or trusts are required to pay an additional 3.8% tax on net investment income, which includes, among other items, gross interest income on and net gains attributable to the sale or other disposition of a Note. You are urged to consult your own tax advisors regarding the effect, if any, of this requirement on your acquisition, ownership and disposition of Notes.

THE U.S. FEDERAL INCOME TAX DISCUSSION SET FORTH ABOVE IS INCLUDED FOR GENERAL INFORMATION ONLY AND MAY NOT BE APPLICABLE DEPENDING UPON YOUR PARTICULAR SITUATION. YOU SHOULD CONSULT YOUR OWN TAX ADVISOR WITH RESPECT TO THE TAX CONSEQUENCES TO YOU OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF THE NOTES INCLUDING THE TAX CONSEQUENCES UNDER STATE, LOCAL, NON-U.S. AND OTHER TAX LAWS AND THE POSSIBLE EFFECTS OF CHANGES IN U.S. OR OTHER TAX LAWS.

Certain Canadian Federal Income Tax Considerations

The following is, as of the date hereof, a summary of the principal Canadian federal income tax considerations generally applicable to a holder who acquires Notes, as beneficial owner, pursuant to this offering and who, at all relevant times, for the purposes of the *Income Tax Act* (Canada) (the Canadian Tax Act) and any applicable income tax treaty or convention (i) is not resident or deemed to be resident in Canada, (ii) deals at arm's length with Goldcorp, any successor to Goldcorp and any transferees resident or deemed to be resident in Canada to whom the holder disposes of Notes, (iii) does not use or hold, and is not deemed to use or hold, Notes in connection with a trade or business, including an adventure or concern in the nature of trade, carried on, or deemed to be carried on, in Canada, and (iv) is not an insurer carrying on an insurance business in Canada and elsewhere (each, a Holder).

Table of Contents

This summary is not applicable to a Holder that is a specified shareholder (as defined in subsection 18(5) of the Canadian Tax Act) of us or that does not deal at arm's length for purposes of the Canadian Tax Act with a specified shareholder of us. Generally, for this purpose, a specified shareholder is a shareholder that owns or is deemed to own, either alone or together with persons with which the shareholder does not deal at arm's length for purposes of the Canadian Tax Act, shares of our capital stock that either (i) give such shareholders 25% or more of the votes that could be cast at an annual meeting of the shareholders or (ii) have a fair market value of 25% or more of the fair market value of all of the issued and outstanding shares of our capital stock. Such Holders should consult their own tax advisors.

This summary is based upon the current provisions of the Canadian Tax Act and regulations thereunder and on counsel's understanding of the current published administrative and assessing practices and policies of the Canada Revenue Agency. This summary takes into account all specific proposals to amend the Canadian Tax Act and the regulations thereunder publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof (the Proposed Amendments). This summary is not exhaustive of all Canadian federal income tax considerations and, except as mentioned above, does not take into account or anticipate possible changes in the law or in administrative or assessing practices and policies whether by legislative, regulatory, administrative or judicial action. This summary does not take into account foreign (i.e. non-Canadian) tax considerations or Canadian provincial or territorial tax considerations which may vary from the Canadian federal income tax considerations described herein. No assurance can be given that the Proposed Amendments will be enacted as proposed or at all.

Under the Canadian Tax Act, interest, principal and premium, if any, paid or credited, or deemed to be paid or credited to a Holder on the Notes will be exempt from Canadian non-resident withholding tax. No other taxes on income (including taxable capital gains) will be payable under the Canadian Tax Act in respect of the acquisition, holding, redemption or disposition of the Notes, or the receipt of interest, premium or principal thereon by a Holder solely as a consequence of such acquisition, holding, redemption or disposition of the Notes.

Subject to the terms and conditions set forth in the underwriting agreement, the underwriters have agreed, severally and not jointly, to purchase all of the Notes sold under the underwriting agreement if any of these Notes are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the non-defaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the underwriters and their controlling persons against certain liabilities in connection with this offering, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the Notes, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the Notes, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officers' certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

The Notes have not been and will not be qualified for sale under the securities laws of Canada or any province or territory of Canada other than the Province of British Columbia. The Notes will only be sold, directly or indirectly, in Canada or to or for the benefit of any resident thereof, pursuant to exemptions from the prospectus requirements of Canadian securities laws, and only by securities dealers registered in the applicable province or territory.

Commissions and Discounts

The representatives have advised us that the underwriters propose initially to offer the Notes to the public at the public offering price set forth on the cover page of this prospectus supplement and to certain dealers at such

price less a concession not in excess of 0.35% of the principal amount of the 2018 Notes and 0.40% of the principal amount of the 2023 Notes. The underwriters may allow, and such dealers may reallow, a discount to certain other dealers not in excess of 0.25% of the principal amount of the 2018 Notes and 0.25% of the principal amount of the 2023 Notes. After the initial offering, the public offering price, concession or any other term of the offering may be changed.

The expenses of the offering, not including the underwriting fee, are estimated at US\$1.2 million and are payable by us.

New Issue of Notes

The Notes are a new issue of securities with no established trading market. We do not intend to apply for listing of the Notes on any national securities exchange or for inclusion of the Notes on any automated dealer quotation system. We have been advised by the underwriters that they presently intend to make a market in the Notes after completion of the offering. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. We cannot assure the liquidity of the trading market for the Notes or that an active public market for the Notes will develop. If an active public trading market for the Notes does not develop, the market price and liquidity of the Notes may be adversely affected. If the Notes are traded, they may trade at a discount from their initial offering price, depending on prevailing interest rates, the market for similar securities, our operating performance and financial condition, general economic conditions and other factors.

Settlement

We expect that delivery of the Notes will be made to investors on or about March 20, 2013, which will be the fifth business day following the date of this prospectus supplement (such settlement being referred to as T+5). Under Rule 15c6-1 under the Securities Exchange Act of 1934, trades in the secondary market are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade Notes prior to the delivery of the Notes hereunder will be required, by virtue of the fact that the Notes initially settle in T+5, to specify an alternate settlement arrangement at the time of any such trade to prevent a failed settlement. Purchasers of the Notes who wish to trade the Notes prior to their date of delivery hereunder should consult their advisors.

No Sales of Similar Securities

We have agreed that we will not, from the date of this prospectus supplement through and including the settlement date, without first obtaining the prior written consent of the representatives, offer, sell, contract to sell or otherwise dispose of any debt securities issued or guaranteed by Goldcorp and having a tenor of more than one year, except for the Notes sold to the underwriters pursuant to the underwriting agreement.

Short Positions

In connection with the offering, the underwriters may purchase and sell the Notes in the open market. These transactions may include short sales and purchases on the open market to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater principal amount of Notes than they are required to purchase in the offering. The underwriters must close out any short position by purchasing Notes in the open market. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the Notes in the open market after pricing that could adversely affect investors who purchase in the offering.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of the Notes or preventing or retarding a decline in the market price of the Notes. As a result, the price of the Notes may be higher than the price that might otherwise exist in the open market.

Table of Contents

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the Notes. In addition, neither we nor any of the underwriters make any representation that the representatives will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Other Relationships

Affiliates of the underwriters are lenders under our senior revolving credit facility. In addition, some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. Certain of the underwriters or their affiliates that have a lending relationship with us routinely hedge their credit exposure to us consistent with their customary risk management policies. Typically, such underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the Notes offered hereby. Any such short positions could adversely affect future trading prices of the Notes offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

An affiliate of each of the underwriters are lenders under our revolving credit facility pursuant to which we may obtain up to US\$2.0 billion in financing. In addition, affiliates of certain underwriters are lenders under certain other credit facilities pursuant to which we may obtain additional financing. The revolving credit facility and other indebtedness are not secured against any of our assets. We may be considered to be a connected issuer of each of the underwriters within the meaning of applicable Canadian securities legislation. At December 31, 2012, there was no principal amount outstanding under the revolving credit facility, and an aggregate of US\$374 million outstanding under our other credit facilities. We are in compliance in all material respects with the terms of the revolving credit facility and other credit facilities and no breach thereof has been waived by any of the lenders thereunder. Our financial position has not changed since the indebtedness was incurred other than as has been publicly disclosed. The decision to distribute the Notes, including the terms of this offering, was made through negotiations between us and the underwriters. The net proceeds to us from this offering may, from time to time, be used to reduce any indebtedness incurred from time to time under the revolving credit facility.

provided that no such offer of Notes shall require us or the representatives to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

This prospectus supplement has been prepared on the basis that any offer of Notes in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of Notes. Accordingly any person making or intending to make an offer in that Relevant Member State of Notes which are the subject of the offering contemplated in this prospectus supplement may only do so in circumstances in which no obligation arises for us or any of the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither we nor the underwriters have authorized, nor do we or they authorize, the making of any offer of Notes in circumstances in which an obligation arises for us or the underwriters to publish a prospectus for such offer.

For the purpose of the above provisions, the expression "an offer to the public" in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in the Relevant Member State by any measure implementing the Prospectus Directive in the Relevant Member State and the expression "Prospectus Directive" means Directive 2003/71/EC (including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member States) and includes any relevant implementing measure in the Relevant Member State and the expression "2010 PD Amending Directive" means Directive 2010/73/EU.

Accordingly, the Notes may not be offered to the public in or from Switzerland, but only to a selected and limited circle of investors who do not subscribe to the Notes with a view to distribution. Debt Securities

We may from time to time offer up to an aggregate principal amount of US\$1,500,000,000 (or the equivalent in other currencies) of debt securities during the 25 month period that this short form prospectus (this prospectus), including any amendments hereto, remains valid. The debt securities may be offered separately or together, in one or more series, in amounts, at prices and on other terms to be determined based on market conditions at the time of issuance and set forth in an accompanying prospectus supplement.

We will provide the specific terms of the debt securities in respect of which this prospectus is being delivered (the offered debt securities) and all information omitted from this prospectus in supplements to this prospectus that will be delivered to purchasers together with this prospectus. You should read this prospectus and any applicable prospectus supplement carefully before you invest.

NEITHER THE UNITED STATES SECURITIES AND EXCHANGE COMMISSION (THE SEC) NOR ANY STATE SECURITIES REGULATOR HAS APPROVED OR DISAPPROVED THESE DEBT SECURITIES OR DETERMINED IF THIS PROSPECTUS IS TRUTHFUL OR COMPLETE. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

We are permitted, under a multi-jurisdictional disclosure system adopted by the United States and Canada, to prepare this prospectus in accordance with Canadian disclosure requirements, which are different from United States disclosure requirements. We prepare our financial statements, which are incorporated by reference herein, in United States dollars and in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS), and they are subject to Canadian auditing and auditor independence standards. As a result, they may not be comparable to financial statements of United States companies.

Owning the offered debt securities may subject you to tax consequences both in the United States and Canada. This prospectus or any applicable prospectus supplement may not describe these tax consequences fully. You should read the tax discussion in any applicable prospectus supplement and consult with your own tax advisor with respect to your own particular circumstances.

Your ability to enforce civil liabilities under the United States federal securities laws may be affected adversely because we are incorporated in Canada, most of our officers and directors and some of the experts named in this prospectus are not residents of the United States, and many of our assets and all or a substantial portion of the assets of such persons are located outside of the United States.

There is no market through which these debt securities may be sold and purchasers may not be able to resell debt securities purchased under this prospectus. This may affect the pricing of the debt securities in the secondary market, the transparency and availability of trading prices, the liquidity of the securities and the extent of issuer regulation. See *Risk Factors* .

We may sell the offered debt securities to or through underwriters or dealers, and also may sell such offered debt securities to one or more other purchasers, directly or through agents. In addition, we may issue the offered debt securities pursuant to one or more exchange offers for our previously issued debt securities. See *Plan of Distribution* . A prospectus supplement will set forth the names of any underwriters, dealers or agents involved in the offering of any offered debt securities and will set forth the terms of the offering of the offered debt securities, including, to the extent applicable, the proceeds to us, the principal amounts, if any, to be purchased by underwriters, the underwriting discounts or commissions, and any other discounts or concessions to be allowed or reallocated to dealers.

We have filed an undertaking with the British Columbia Securities Commission (the BCSC) that we will not distribute in the local jurisdiction under this prospectus specified derivatives that, at the time of distribution, are novel without pre-clearing with the BCSC the disclosure to be contained in the prospectus supplement pertaining to the distribution of such securities.

ABOUT THIS PROSPECTUS

Except as set forth under *Description of Debt Securities*, and unless the context otherwise requires, all references in this prospectus to *we*, *us* and *our* refer to Goldcorp Inc. and its subsidiaries, and all references in this prospectus to *Goldcorp* refer to Goldcorp Inc.

This prospectus is part of a registration statement on Form F-10 relating to the debt securities that we have filed with the SEC. Under the registration statement, we may, from time to time, offer any combination of the debt securities described in this prospectus in one or more offerings of up to an aggregate principal amount of US\$1,500,000,000 (or the equivalent in other currencies). This prospectus provides you with a general description of the debt securities that we may offer. Each time we offer debt securities under the registration statement, we will provide a prospectus supplement that will contain specific information about the terms of that offering of offered debt securities. The prospectus supplement may also add, update or change information contained in this prospectus. Before you invest, you should read both this prospectus and any applicable prospectus supplement together with the additional information described under the heading *Where You Can Find More Information*. This prospectus does not contain all of the information set forth in the registration statement, certain parts of which are omitted in accordance with the rules and regulations of the SEC. You may refer to the registration statement and the exhibits to the registration statement for further information with respect to us and the debt securities.

In this prospectus and any prospectus supplement, unless otherwise specified or the context otherwise requires, all references to *Canadian dollars* and *C\$* are to Canadian dollars and all references to *U.S. dollars* and *US\$* are to United States dollars. Unless otherwise stated, the financial statements and other financial information as of, and for the years ended, December 31, 2012 and December 31, 2011 included or incorporated by reference in this prospectus are in United States dollars and have been prepared in accordance with IFRS, which have been adopted as Canadian generally accepted accounting principles (*Canadian GAAP*). Canadian GAAP differs in some material respects from U.S. generally accepted accounting principles, and so this financial information may not be comparable to the financial information of U.S. companies.

We have not authorized any person to provide you with any information other than the information contained in or incorporated by reference in this prospectus or any applicable prospectus supplement or the other information included in the registration statement of which this prospectus forms a part. We take no responsibility for, and can provide no assurance as to the reliability of, any other information that others may give you. We are not making an offer of the debt securities in any jurisdiction where the offer is not permitted by law. You should not assume that the information contained in or incorporated by reference in this prospectus or any applicable prospectus supplement is accurate as of any date other than the date on the front of this prospectus or any applicable prospectus supplement, respectively.

The offered debt securities will not be distributed, directly or indirectly, in Canada or to residents of Canada in contravention of the securities laws of any province or territory of Canada.

This prospectus and the documents incorporated by reference herein have been prepared in accordance with the requirements of the securities laws in effect in Canada, which differ from the requirements of United States securities laws. The terms *mineral reserve*, *proven mineral reserve* and *probable mineral reserve* are Canadian mining terms as defined in accordance with Canadian National Instrument 43-101 *Standards of Disclosure for Mineral Projects* (*NI 43-101*) and the Canadian Institute of Mining, Metallurgy and Petroleum (the *CIM*) *CIM Definition Standards on Mineral Resources and Mineral Reserves*, adopted by the CIM Council, as amended. These definitions differ from the definitions in SEC Industry Guide 7 (*SEC Industry Guide 7*) under the U.S. Securities Act of 1933, as amended (the *Securities Act*). Under SEC Industry Guide 7 standards, a *final* or *bankable* feasibility study is required to report reserves, the three-year historical average price is used in any reserve or cash flow analysis to designate reserves and the primary environmental analysis or report must be filed with the appropriate governmental authority.

Table of Contents

In addition, the terms mineral resource, measured mineral resource, indicated mineral resource and inferred mineral resource are defined in and required to be disclosed by NI 43-101; however, these terms are not defined terms under SEC Industry Guide 7 and are normally not permitted to be used in reports and registration statements filed with the SEC. Investors are cautioned not to assume that any part or all of mineral deposits in these categories will ever be converted into reserves. Inferred mineral resources have a great amount of uncertainty as to their existence and as to their economic and legal feasibility. It cannot be assumed that all or any part of an inferred mineral resource will ever be upgraded to a higher category. Under Canadian rules, estimates of inferred mineral resources may not form the basis of feasibility or pre-feasibility studies, except in rare cases. Investors are cautioned not to assume that all or any part of an inferred mineral resource exists or is economically or legally mineable. Disclosure of contained ounces in a resource is permitted disclosure under Canadian regulations; however, the SEC normally only permits issuers to report mineralization that does not constitute reserves by SEC standards as in place tonnage and grade without reference to unit measures.

Accordingly, information contained in this prospectus and the documents incorporated by reference herein containing descriptions of our mineral deposits may not be comparable to similar information made public by U.S. companies subject to the reporting and disclosure requirements under the United States federal securities laws and the rules and regulations thereunder.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus, and certain documents incorporated by reference in this prospectus, contains forward-looking statements and information within the meaning of the United States Private Securities Litigation Reform Act of 1995 and applicable Canadian securities legislation. Forward-looking statements include, but are not limited to, statements with respect to the future price of gold, silver, copper, lead and zinc, the estimation of mineral reserves and mineral resources, the realization of mineral reserve estimates, the timing and amount of estimated future production, costs of production, capital expenditures, costs and timing of the development of new deposits, success of exploration activities, permitting time lines, hedging practices, currency exchange rate fluctuations, requirements for additional capital, government regulation of mining operations, environmental risks, unanticipated reclamation expenses, timing and possible outcome of pending litigation, title disputes or claims and limitations on insurance coverage. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as plans, expects, is expected, budget, scheduled, estimates, forecasts, intends, anticipates, or believes, or the connotation thereof or variations of such words and phrases or state that certain actions, events or results may, could, would, might or will be taken, occur or be achieved or the negative connotation thereof.

Forward-looking statements are made based upon certain assumptions and other important factors that could cause our actual results, performance or achievements to be materially different from future results, performances or achievements expressed or implied by such statements. Such statements and information are based on numerous assumptions regarding present and future business strategies and the environment in which we will operate in the future, including the price of gold, anticipated costs and ability to achieve goals. Certain important factors that could cause actual results, performances or achievements to differ materially from those in the forward-looking statements include, among others, gold price volatility, discrepancies between actual and estimated production, mineral reserves and resources and metallurgical recoveries, mining operational and development risks, litigation risks, regulatory restrictions (including environmental regulatory restrictions and liability), activities by governmental authorities (including changes in taxation), currency fluctuations, the speculative nature of gold exploration, the global economic climate, dilution, share price volatility, competition, loss of key employees, additional funding requirements and defective title to mineral claims or property. Although we have attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended.

Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause our actual results, level of activity, performance or achievements to be materially different from those expressed or implied by such forward-looking statements, including but not limited to: risks related to the integration of acquisitions; risks related to international operations, including economic and political instability in foreign jurisdictions in which we operate; risks related to current global financial conditions; risks related to joint venture operations; actual results of current exploration activities; environmental risks; future prices of gold, silver, copper, lead and zinc; possible variations in ore reserves, grade or recovery rates; mine development and operating risks; accidents, labour disputes and other risks of the mining industry; delays in obtaining governmental approvals or financing or in the completion of development or construction activities; risks related to indebtedness and the service of such indebtedness, as well as those factors discussed in the section entitled Risk Factors in this prospectus. Although we have attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. Forward-looking statements in this prospectus are as of the date of this prospectus. The forward-looking statements contained in this prospectus are made as of the date of this prospectus and, accordingly, are subject to change after such date. Except as otherwise indicated by Goldcorp, these statements do not reflect the potential impact of any non-recurring or other special items or of any dispositions, monetizations, mergers, acquisitions, other

business combinations or other transactions that may be announced or that may occur after the date hereof. Forward-looking statements are provided for the purpose of providing information about management's current expectations and plans and allowing investors and others to get a better understanding of Goldcorp's operating environment. We do not undertake to update any forward-looking statements, except in accordance with applicable securities laws.

ENFORCEABILITY OF CERTAIN CIVIL LIABILITIES

We are a corporation incorporated and existing under the laws of Ontario. All or a substantial portion of our assets are located outside of the United States and some or all of our officers and directors are residents of Canada or otherwise reside outside of the United States, and all or a substantial portion of their assets are located outside of the United States. Goldcorp has appointed an agent for service of process in the United States, but it may be difficult for United States investors to effect service of process within the United States upon those officers or directors who are not residents of the United States, or to realize in the United States upon judgments of courts of the United States predicated upon Goldcorp's civil liability and the civil liability of such officers or directors under United States federal securities laws or the securities or "blue sky" laws of any state within the United States.

Goldcorp has been advised by its Canadian counsel, Cassels Brock & Blackwell LLP, that, subject to certain limitations, a judgment of a United States court predicated solely upon civil liability under United States federal securities laws may be enforceable in Canada if the United States court in which the judgment was obtained has a basis for jurisdiction in the matter that would be recognized by a Canadian court for the same purposes. Goldcorp has also been advised by Cassels Brock & Blackwell LLP, however, that there is substantial doubt whether an action could be brought in Canada in the first instance on the basis of liability predicated solely upon United States federal securities laws.

We have filed with the SEC, concurrently with the registration statement on Form F-10 relating to this prospectus, an appointment of agent for service of process on Form F-X. Under the Form F-X, we appointed CT Corporation System as our agent for service of process in the United States in connection with any investigation or administrative proceeding conducted by the SEC and any civil suit or action brought against or involving us in a United States court arising out of or related to or concerning the offering of the debt securities.
