PART III NARRATIVE

The registrant (the Company) expects to file the subject Report on Form 10-K for the fiscal year ended December 31, 2012 on or before the fifteenth calendar day following the due date. The Form 10-K could not be filed by the date required due to unanticipated delays in assembling all information required to complete the audited financial statements that are required to be included in the Form 10-K. The delay has resulted primarily from the Company's implementation in 2012 of a new enterprise resource planning (ERP) system for its North American operations, exclusive of the operations of the Nicolet business that was acquired on July 2, 2012.

If answer is no, identify report(s). Yes No

- (3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof? Yes No
If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

In a press release dated February 28, 2013, and included as Exhibit 99.1 to a Form 8-K that was filed as of the same date, the Company reported preliminary results of operations for the year ended December 31, 2012 that reflected revenue of approximately \$292 million, net income of approximately \$3.6 million, and earnings per diluted share of approximately \$0.12. The Company now expects that its results for the 2012 period to be included in its annual report on Form 10-K will reflect improved revenue, net income, and earnings per diluted share relative to the amounts it reported on February 28, 2013. At this time the Company is unable to quantify those amounts, but expects that the increase in revenue over the amount previously reported will be less than \$1.0 million.
