Non-GAAP Financial Measures

To supplement NYSE Euronext's consolidated financial statements prepared in accordance with GAAP and to better reflect performance, NYSE Euronext provides non-GAAP financial measures of performance, financial position, or cash flows that either exclude or include amounts that are not directly comparable to the corresponding GAAP measure, calculated and presented in accordance with GAAP. Non-GAAP financial measures do not replace GAAP financial results, but are provided to (i) present the effects of certain merger expenses, exit costs, charge for fair value adjustments, tax settlement, debt refinancing costs and discrete tax items, and (ii) improve overall understanding of NYSE Euronext's current and future performance. Specifically, NYSE Euronext believes the non-GAAP financial results provide useful information to both management and investors regarding financial condition and operating results. In addition, management uses these measures for reviewing and assessing performance. The non-GAAP adjustments for all periods presented are based upon information and assumptions available as of the end of the period.
