These persons are required by SEC regulations to furnish us with copies of all Section 16(a) reports that they file. Based on our review of copies of these reports that we have received and representations from our officers and directors that are required to file, we believe that during fiscal year 2013 our officers and directors complied with all of their Section 16(a) filing requirements. Item 11. Executive Compensation**EXECUTIVE COMPENSATION****COMPENSATION DISCUSSION AND ANALYSIS****Introduction**

This Compensation Discussion and Analysis provides a detailed description of our executive compensation philosophy and programs, the compensation decisions made by the Compensation Committee and the issues considered in making such decisions. Our executive compensation programs are designed to attract, reward and retain our executive officers. In January 2013, we entered into a merger agreement (merger agreement) whereby we will become a wholly-owned subsidiary of Scientific Games Corporation (NASDAQ: SGMS) (Scientific Games). Pursuant to the merger agreement, we have agreed to maintain our pay practices consistent with our practices in prior years. This Compensation Discussion and Analysis focuses on the compensation for the fiscal year ending June 30, 2013 of our named executive officers, who were:

Name	Title
Brian R. Gamache	Chairman of the Board and Chief Executive Officer
Orrin J. Edidin	President
Kenneth Lochiatto	Executive Vice President, Chief Operating Officer
Scott D. Schweinfurth	Executive Vice President, Chief Financial Officer and Treasurer
Larry J. Pacey	Executive Vice President, Global Products and Chief Innovation Officer

Our Compensation Philosophy and Objectives**Philosophy**

Our executive compensation philosophy seeks to align executive compensation with the achievement of pre-established Company-wide performance objectives, individual performance objectives and increases in the price of our stock. In considering the elements of the compensation program, the Compensation Committee emphasizes pay for performance on a short-term and long-term basis.

Objectives

Our compensation program is designed to achieve the following objectives:

Pay for Performance. We use fixed compensation to provide our named executive officers with a competitive base salary, while encouraging peak performance with other compensation that is variable based on company-wide performance and individual performance.

Attract and Retain Key Talented Executive Officers. Our executive compensation program is designed to help us attract and retain talented individuals by providing compensation in amounts and structure competitive with compensation paid to individuals in similar positions at comparable businesses with similar performance.

Table of Contents

Foster Teamwork Amongst our Management Team. We conduct an internal compensation comparison to ensure compensation levels within our company are fair and reasonable for the roles and responsibilities of our executive team.

Align the Interests of our Executive Officers and our Stockholders. We use long-term incentives such as stock options, restricted stock units and equity-based performance units to encourage our executive officers to build long-term value for our stockholders.

Create Incentives that Focus Executive Officers on, and Reward Them for, Achievement of Company-wide Performance Goals. Our compensation packages for our named executive officers are designed to motivate them to devote their full energies to our success by rewarding them primarily for company-wide achievements against pre-determined goals.

Create an Ownership Culture which Instills Long-Term Perspective. Our named executive officers are encouraged to focus on long-term goals by receiving compensation in the form of equity compensation as a long-term incentive.

How We Make Compensation Decisions

The Role of Our Compensation Committee

The Compensation Committee, consisting solely of independent directors, is charged with developing compensation programs for our executive officers, including our named executive officers. The Compensation Committee is responsible for establishing, implementing and monitoring compliance with our compensation philosophy. The Compensation Committee seeks to ensure that the total compensation paid to our named executive officers is fair, reasonable and competitive. The Compensation Committee presents its recommendations for compensation to be paid to the named executive officers to our Board for approval. Although Mr. Gamache also serves as Chairman of our Board, he abstains from voting on matters that come before our Board when such matters relate to the compensation of non-employee directors or himself.

As part of the annual compensation approval process, the Compensation Committee considers the advice of management generally, the Chief Executive Officer and the Chief Financial Officer, as well as Steven Hall & Partners (SH&P), its independent compensation consultant.

The Role of Our Management

The Compensation Committee reviews the performance and compensation of our named executive officers and establishes each of their compensation. Our Chief Executive Officer provides to the Compensation Committee his recommendations on the compensation, including annual cash incentive compensation, for our other named executive officers. Our Chief Executive Officer and our Chief Financial Officer assist the Compensation Committee and SH&P in determining our comparator group (as described below). Other members of management provide support to the Compensation Committee as needed. However, the Compensation Committee acts in its sole discretion. Based upon a review of performance and historical compensation, recommendations and information from members of management, and discussions with its compensation consultant, the Compensation Committee determines the

compensation for the named executive officers to be recommended for Board approval.

The Role of the Compensation Committee s Independent Compensation Consultant

When considering significant changes to the compensation program or performing periodic benchmarking analysis, our Compensation Committee has retained SH&P to review our compensation practices and to assist the Compensation Committee in assessing whether our compensation program is meeting its objectives (as described above). SH&P analyzes whether the amounts and structure of our executive officers' compensation were appropriate relative to the amounts and structure of compensation provided by comparable companies and relative to various management positions within our company. SH&P assists with the development and assessment of our comparator group (as further described below).

Table of Contents

SH&P provides the Compensation Committee with insight as to compensation programs and incentives used by our peers and other public companies, trends in executive compensation, pending and current legislation and the evolving policies and procedures adopted by proxy advisory services firms. The Compensation Committee again retained SH&P in connection with our executive compensation programs for fiscal year 2013.

2012 Non-Binding Advisory Say-on-Pay Vote

At our 2012 annual meeting of stockholders, we conducted our annual say-on-pay vote and 57% of the votes cast by our stockholders approved our executive compensation program. Under applicable SEC rules, we are required to advise our stockholders whether we considered that vote and if so, how it affected our compensation policies. At the time we received this vote, we had already set our compensation program for fiscal year 2013 continuing our practices from prior years. Soon after receiving this vote, we entered into the merger agreement with Scientific Games, pursuant to which we agreed to keep our compensation practices consistent with prior years. Accordingly, we have not made substantial changes to our compensation practices.

2013 Non-Binding Advisory Golden Parachute Compensation Vote

At our May 2013 special meeting of stockholders, which was convened to approve our merger with Scientific Games, our stockholders voted on a non-binding advisory proposal to approve certain compensation of our named executive officers that may be payable in connection with the consummation of the merger (Golden Parachute Compensation). More than 88% of the votes cast by our stockholders approved our Golden Parachute Compensation.

Risk Considerations

The Compensation Committee has reviewed our compensation policies and practices and analyzed the potential business risks inherent in such policies and practices. The Compensation Committee believes that our executive compensation policies and practices do not encourage our management, including our named executive officers, to take unnecessary business risks that are reasonably likely to have a material adverse effect on our company.

Competitive Marketplace Assessment; Comparator Group

As part of our review of our executive compensation program, we periodically review executive compensation data from similar companies in order to ensure that our practices are fair and reasonable. Our Compensation Committee selects the comparator group and receives information from its consultant SH&P and our Chief Executive Officer and Chief Financial Officer in connection with its evaluation.

In our 2012 Proxy Statement, we identified a comparator group consisting of five gaming machine manufacturing and casino supply companies (Aristocrat Leisure Limited, Bally Technologies Inc., Global Cash Access Holdings, Inc., International Game Technology and Scientific Games), four software/video game companies (Red Hat, Inc., Take-Two Interactive Software, Inc., THQ, Inc. and Zynga, Inc.), and five casino companies (Ameristar Casinos Inc., Isle of Capri Casinos, Inc., MTR Gaming Group, Inc., Pinnacle Entertainment, Inc. and Tropicana Entertainment). This comparator group was selected by our Compensation Committee based on industry focus and includes companies with which we compete for talent. In addition, to ensure the size appropriateness of the companies, we considered an analysis of market capitalization, revenue and similarity of broad-based product and service offerings.

We have not made any changes to this comparator group. We believe gaming machine manufacturer and supply companies and casinos are appropriate comparators because in addition to other common factors, their officers are subject to the unique and rigorous requirements for licensure by gaming regulators that also apply to our officers.

Such requirements include extensive background investigations and disclosure of financial and other personal information by our officers and their immediate families. Of these companies, we routinely and most directly compete with the gaming machine manufacture and casino supply companies, including International Game Technology and Bally Technologies Inc., to attract and retain talent.

Elements of Executive Compensation

General

Our Compensation Committee, with SH&P's assistance, has recommended, and our Board has approved the forms of compensation for our named executive officers and the amounts allocated to each form. The forms of compensation were chosen from among those generally used by other public companies that also fit, in the views of our Compensation Committee and our Board, the needs of our company. The amounts that could be earned in total and as allocated among the forms of compensation were considered by our Compensation Committee and our Board to be appropriate to motivate our named executive officers to perform at a high level and to align their interests with the interests of our stockholders.

Four Forms of Compensation

The compensation packages for our named executive officers primarily consist of the following four forms of compensation:

Base Salary. We pay a base annual salary to provide our named executive officers, like our other employees, with financial stability, and that salary acts as a base upon which performance-based compensation may be calculated;

Annual Incentive Awards. We provide an opportunity to earn an annual cash bonus incentive award in order to provide our named executive officers, like our other employees, with short-term performance incentives;

Long-Term Incentive Awards. We use long-term equity awards to provide our named executive officers, along with a selection of our key employees, with long-term performance and retention incentives; and

Other Benefits. We provide our named executive officers with other benefits that we believe are appropriate, including deferred compensation plans, change-in-control and severance benefits, retirement savings plans and perquisites and other personal benefits, which may also be available to a selection of our other employees.

Focus on Pay for Performance

Each of our named executive officers has a high degree of influence on our performance and therefore, in comparison to other employees, has a lower percentage of compensation that is fixed and a greater percentage that is variable in amount, at risk based on the price of our stock and/or dependent on our financial performance or his individual performance.

Fixed Compensation

Base Salary

Our Compensation Committee assesses base salary increases from year-to-year on a discretionary basis with a view toward rewarding individual performance and making adjustments for marketplace conditions.

Generally, salary increases for all employees, including the named executive officers, are tied to the annual performance review cycle which we undertake each year at the end of our fiscal year. Individual performance is evaluated in a review process which compares individual performance against our core values, leadership criteria and unique, pre-approved fiscal year goals for each named executive officer. Based on each individual's performance rating in the prior fiscal year, he or she is given a salary increase reflecting his or her individual contributions. Mr. Gamache's performance is reviewed by the Compensation Committee and the Board.

In July 2012, Messrs. Edidin and Lochiatto both received increases to their annual salaries in connection with promotions. For the other executive officers, Mr. Gamache provided the Compensation Committee with a subjective numerical rating reflecting each named executive officer's overall success in meeting his core value, leadership and personal goals during fiscal year 2012 and recommended base salary increases reflecting their individual performance.

Table of Contents

Taking into account Mr. Gamache's recommendations, the Compensation Committee determined that the other named executive officers, excluding Messrs. Edidin and Lochiatto due to their promotion increases in July 2012, should receive 4% base salary increases based on their performance for fiscal year 2012. In addition, the Committee determined that Mr. Gamache should receive a 3% base salary increase based upon its subjective judgment as to the success of Mr. Gamache in meeting or exceeding expectations for his personal goals. All determinations of the Compensation Committee were submitted to and approved by our Board and the increases were effective in January 2013.

Variable Compensation

Annual Cash Bonus

General

Annual cash bonuses are intended to provide short-term incentives to our named executive officers to attain and potentially exceed certain pre-established performance goals. Our Compensation Committee considers recommendations from SH&P, our Chief Executive Officer and Chief Financial Officer, regarding the structure and amounts of the corporate performance-based components of the variable portion of our named executive officers compensation program, including the creation of numeric tables to be used for determining the portion of the annual cash bonus based on corporate performance that would be earned by our named executive officers for each level of performance at and above the minimum threshold goals through the maximum goals. Each fiscal year, based upon that input and our business plans for the applicable fiscal years, which are prepared by our management in the ordinary course and approved by our Board, the Compensation Committee recommends, and the Board reviews and approves our fiscal year cash bonus tables.

Fiscal Year 2013 Formulas for Calculating Annual Cash Bonuses

In the annual cash bonus incentive plan for fiscal year 2013 established for our Chief Executive Officer, 100% of his annual bonus calculation was to be based on Board-approved corporate performance goals. For our other named executive officers, the annual cash bonus determinations were divided into two components (i) a portion to be based upon Board-approved corporate performance goals (the corporate component) and (ii) a portion to be based upon their performance against pre-established, individual goals (the individual component). When calculating such cash bonuses, if corporate performance and individual performance were both at the same level (whether threshold, target or maximum, or somewhere in between these amounts), the corporate component would be 75% of the total cash bonus awarded and the individual component would be 25%. The annual cash bonuses are paid from a bonus pool established for distribution to all employees, including our named executive officers. The bonus pool accrues over the fiscal year. After the close of the fiscal year, the accrued bonus pool is allocated first to pay contractual, guaranteed-by-law and non-discretionary bonuses. The balance is then allocated first to the members of our executive committee, with the remainder allocated to the rest of our employees at the discretion of our Chief Executive Officer, with the approval of our Compensation Committee, provided that payments to our named executive officers are determined by our Board, upon recommendations of our Compensation Committee, and our named executive officers and other members of our senior management may not be paid the corporate component of their bonuses in an amount that exceeds the amount determined in accordance with our incentive plan and the applicable Board-approved corporate performance tables. In order for our named executive officers to achieve their maximum bonus potential, the named executive officers eligible to receive a portion of their bonus based on individual performance would have to perform in an outstanding manner as to each of their individual performance objectives and our company would have to significantly exceed its financial performance goals. In order for our Chief Executive Officer to achieve his maximum bonus potential, our company would have to significantly exceed its financial performance goals.

Fiscal Year 2013 Corporate Performance Metrics

For fiscal year 2013, we developed numeric bonus tables from which to determine the amount of the portion of the annual bonuses that is based on corporate performance payable to our named executive officers: separate tables for our Chief Executive Officer, the President of WMS Industries Inc., the President of WMS Gaming Inc., and a fourth table applicable to our other two named executive officers (together, the Performance Tables). For Mr. Edidin, President of WMS Industries Inc., who also serves as Chief Executive Office of Williams Interactive, 50% of his corporate performance bonus was based on solely the performance of Williams Interactive against certain set goals and 50% was based on the performance of WMS Industries Inc. as a whole. For our other executive officers, their corporate performance bonus was based on the performance of WMS Industries Inc. as a whole.

Table of Contents

Each Performance Table has revenue on the horizontal axis beginning with the threshold goal amount and each of the ten succeeding levels based on an increased revenue amount up to the maximum revenue amount. On the vertical axis, each Performance Table has ten levels of operating income beginning with the threshold goal amount and each of the nine succeeding levels based on an increased amount of operating income up to the maximum amount. The payout percentage amounts included in the Performance Tables were subjectively determined by our Compensation Committee, after consultation with SH&P and our management.

We have constructed the cash bonus performance tables to provide higher rewards for exceeding targeted goals as this best aligns our named executive officers' interests with the interests of our stockholders. For example, the Performance Table applicable to our Chief Executive Officer's cash bonus for fiscal year 2013 provided that achieving but not exceeding the threshold revenue and operating income goals would have resulted in our Chief Executive Officer receiving a bonus of 73% of his base salary; achieving the target revenue and operating income goals would have resulted in our Chief Executive Officer receiving a cash bonus of 100% of salary; while achieving the maximum goals would have resulted in a cash bonus of 280% of his salary thereby better rewarding performance for achievement over target goals. Having the percentage of salary paid as a cash bonus increasing only 27% for performance at the target goals compared to the threshold goals, but then having the percentage of salary paid as a cash bonus increasing by 180% for achieving a comparable dollar increase in financial performance compared to the target goals, demonstrates our philosophy of rewarding our named executive officers with a higher level cash bonus for superior financial performance, as further illustrated in the following chart:

WMS Industries Inc. Chief Executive Officer Goals and Potential Payout

	Fiscal Year 2013		Fiscal Year 2013		Payout	
	Revenue Goal		Operating Income Goal		to CEO (% of base salary)

Maximum	\$ 898 million	}18% increase	\$ 106.9 million	}18% increase	280%	}180 basis point increase

The revenue and operating income goals for fiscal year 2013 reflected in our named executive officers' performance bonus tables were established based on our fiscal year 2013 business plan prepared by our management in the ordinary course and reviewed and approved by our Board in September 2012. At the conclusion of our fiscal year, the amount of the corporate performance component of the cash bonus amount payable based on the financial performance tables is calculated at the direction of our Compensation Committee based on corporate performance and the performance matrices.

Table of Contents

For fiscal year 2013, consistent with the terms of the merger agreement with Scientific Games, our Compensation Committee determined that operating income should be defined to be a calculation based on the Corporation's financial statements as filed with the SEC and as adjusted in the judgment of the Committee for unusual events occurring in fiscal year 2013, including events relating to merger and acquisition activity, governmental actions and changes in business methods that affected revenue recognition. The fiscal year 2013 corporate performance goals and potential bonus payouts provided for in our bonus tables for our named executive officers (NEOs) and actual bonus payouts are set forth in the following charts:

Table of Contents*Fiscal Year 2013 Individual Performance Metrics*

With the exception of our Chief Executive Officer, our named executive officers set individual performance goals with their manager at the beginning of each fiscal year and modified them as needed to reflect events taking place during the year. Individual performance is then evaluated against such goals following the end of our fiscal year in connection with awarding any discretionary cash bonus and salary increases. The individual fiscal year 2013 goals for our named executive officers were as follows:

Mr. Edidin: continue leadership of WMS Industries Inc. as President, achieve or exceed Williams Interactive budgeted revenues, operating income and other key performance indicators; lead Williams Interactive strategy and operational initiatives; successfully integrate recently acquired businesses; and evolve structure and leadership of employees around discreet business lines.

Mr. Lochiatto: achieve quarterly revenue and margin goals; lead strategy deployment initiatives; integrate and assume leadership of product development teams; execute on supply chain cost savings initiatives; and implement enterprise-wide system upgrades on time and within budget.

Mr. Schweinfurth: continue to improve and streamline the forecasting process, implement accounting and tax practices across Williams Interactive including its recently acquired businesses; participate in the implementation of the Corporation's enterprise-wide system upgrades; achieve cost cutting goals; continuous improvement regarding capital spending controls; complete facility improvements on budget and on time; and actively lead the sale process of the Corporation and subsequently co-lead the Corporation's integration efforts over the general and administrative area in connection with the merger with Scientific Games.

Mr. Pacey: continue to ensure a robust advanced product plan including revolutionary releases, breakthrough technology and major launches of innovations building on current capacities, develop innovative content and create product plan over multiple years; optimize the advanced research and development team's capabilities; create and promote the Corporation's future product vision and strategy and position the Corporation for future growth including hiring top talent, accessing new technologies, and considering advanced innovations.

Based on our other named executive officers' performance against these individual goals, our Compensation Committee, taking into account the recommendation of our Chief Executive Officer regarding individual performance, awarded the following discretionary bonuses for fiscal year 2013:

NEO	Bonus amount
Orrin J. Edidin	\$ 175,633
Kenneth Lochiatto	103,352
Scott D. Schweinfurth	136,667
Larry J. Pacey	97,740

Fiscal Year 2014 Annual Cash Bonuses

WMS has established an annual bonus program for the fiscal year ending June 30, 2014 consistent with previous years. However, as a result of the pending merger with Scientific Games, if the closing of the merger occurs prior to the end of our fiscal year, the 2014 bonus plan will terminate on the last day of the full month ending on or immediately before the merger closing date, and WMS will determine payout levels based on the achievement of the bonus targets through the bonus termination date but will give employees credit for service through December 31,

2013 even if the closing is prior to such date. Additionally, consistent with past practices, our Compensation Committee will have the discretion to appropriately adjust the payout level for the truncated bonus period for unusual events. Thus, our executive officers will receive a pro-rata bonus payment at or shortly following the closing of the merger for service through December 31, 2013; however, the executive officers will not receive an annual bonus payment from Scientific Games in

Table of Contents

respect of the period from the closing date to December 31, 2013. Subject to the closing of the merger and their continued employment with WMS and Scientific Games, our executive officers will be entitled to participate in the bonus programs of Scientific Games for the 2014 calendar year.

Long-Term Incentive Compensation

We have implemented a long-term incentive program consisting of equity compensation covering rolling three-year periods to coincide with our three-year business plans. Long-term incentives for our named executive officers are granted under our Incentive Plan. We use various types of long-term incentives to align the interests of our executive officers with our stockholders' interests, reward future performance and encourage retention. We have granted the following types of awards as long-term incentives:

Stock options, which typically vest over three or four years, increase in value only if the market price of our common stock increases in value after the grant date and may terminate within 90 days if the employee leaves our employ.

Restricted stock and restricted stock unit grants, which typically vest over three or four years, provide greater value if the market price of our common stock increases in value and may be forfeited if the employee leaves our employ before vesting.

Equity-based performance units, which are only payable following the performance measurement date set at the time of grant to be typically three years in the future, provide a payout which varies based on our actual financial performance against certain pre-established financial goals, increase in value as the market price of our stock increases in value and may be forfeited if the employee leaves our employ before the performance measurement date. Equity-based performance units are payable in stock in an amount equal to a percentage of the number of units granted. Our Compensation Committee receives recommendations from SH&P, our Chief Executive Officer and our Chief Financial Officer, to establish the financial goals and related payout percentages. Based upon that input and our business plans for the applicable fiscal years, which are prepared by our management in the ordinary course and approved by our Board, the Compensation Committee recommends, and the Board reviews and approves a unique equity-based performance unit table for grants made each fiscal year. For fiscal years 2011, 2012 and 2013, the payout percentages ranged from: (i) nothing to the extent certain minimum threshold goals are not met, (ii) a percentage from 60% to 99% for the achievement and surpassing of the threshold goals up to but not including achievement of the target goals, (iii) 100% of the granted amount if the target goals are met, to (iv) a percentage more than 100% and up to 200% of the granted amount to the extent the target goals are exceeded.

The value granted to each of our named executive officers was equal to a percentage of his salary, which percentage was dependent on the individual's position and level of responsibility and such value was divided equally between each of the three equity components. The amounts of compensation provided under our long-term incentive program are determined by our Board, pursuant to recommendations of our Compensation Committee and SH&P.

Fiscal Year 2013 Long-Term Incentive Grants

For fiscal year 2013, our Board acting upon the recommendation of the Compensation Committee, divided the value of the equity compensation being awarded equally among three forms:

Stock options: Fiscal year 2013 stock options (2013 Options) were awarded to all named executive officers with a vesting period of three years;

Equity-based performance units: Fiscal year 2013 equity-based performance stock units (2013 PSUs) were awarded to all named executive officers with a performance measurement date of June 30, 2015 and performance goals based on earnings per share and revenues for the aggregate of the three years ended June 30, 2015; and

Restricted stock units: Fiscal year 2013 restricted stock units (2013 RSUs) were awarded to all named executive officers with a vesting period of four years.

Table of Contents

The aggregate grant date fair value of the 2013 fiscal year grants made to the named executive officers under the LTIP was \$1,944,660 for Mr. Gamache; \$1,311,180 for Mr. Edidin; \$918,750 for Mr. Lochiatto; \$834,452 for Mr. Schweinfurth and \$807,534 for Mr. Pacey. The below table indicates the quantity of 2013 Options, 2013 PSUs and 2013 RSUs awarded to each named executive officer under our long-term incentive program:

Executive	2013 Options Granted	2013 PSUs Granted	2013 RSUs Granted
Brian R. Gamache	96,174	37,534	39,238
Orrin J. Edidin	64,845	25,307	26,456
Kenneth Lochiatto	45,437	17,733	18,538
Scott D. Schweinfurth	41,268	16,106	16,837
Larry J. Pacey	39,937	15,586	16,294

Additionally, in connection with their new positions as leaders of Williams Interactive and WMS Gaming, Messrs. Edidin and Lochiatto received equity grants with an aggregate grant date fair value of \$500,000 for each consisting of restricted stock units vesting over three years and equity-based performance stock units with performance measurement dates of June 30, 2013, 2014 and 2015 and performance goals based on operating income (loss) and revenues for each of Williams Interactive and WMS Gaming during fiscal years 2013, 2014 and 2015. The table below indicates the quantity of equity-based performance units granted to each of Messrs. Edidin and Lochiatto in connection with their promotions and new roles:

Executive	RSUs Granted	FY2013 PSUs Granted	FY 2014 PSUs Granted	FY 2015 PSUs Granted
Orrin J. Edidin	14,476	4,825	4,826	4,825
Kenneth Lochiatto	14,476	4,825	4,826	4,825

For additional details on these long-term incentive grants and other grants made in fiscal year 2013, please see the Outstanding Equity Awards at Fiscal Year-End table beginning on page 27 of this Amendment No. 1 to our Annual Report on Form 10-K for fiscal year 2013.

Fiscal Year 2014 Long-Term Incentive Grants

Under the merger agreement with Scientific Games, we were permitted to grant equity-based awards under our long-term incentive program in the ordinary course for the 2014 fiscal year to our executive officers, provided that all such awards were in the form of restricted stock units. In September 2013, we granted to our executive officers restricted stock units which will vest ratably on the first four anniversaries of the date of grant subject to continued employment through the applicable vesting date; provided however that the vesting of fifty percent (50%) of any such restricted stock units will be accelerated and such units will be cancelled upon the closing of the merger in exchange for an amount, in cash, equal to the merger consideration. The other fifty percent (50%) of any such restricted stock units will not be cashed out in the merger but instead will be converted into restricted stock units with respect to the common stock of Scientific Games using an exchange ratio based on the per-share closing price of WMS common stock on the merger closing date to per-share closing price of Scientific Games common stock on the merger closing date and such converted restricted stock units will be subject to the same terms and conditions that applied to such restricted stock units prior to the closing of the merger (including the same vesting schedule, subject to continued employment through the applicable vesting date). In addition, any such converted Scientific Games restricted stock units will vest immediately if a holder's employment is terminated by Scientific Games without cause or by such

holder for good reason (as defined in the merger agreement) within one year following the closing of the merger. The grant date fair value of the 2014 fiscal year grants made to the executive officers on September 25, 2013 was approximately: \$2 million for Mr. Gamache; \$950,000 for Mr. Lochiatto; \$870,000 for Mr. Schweinfurth and \$840,000 for Mr. Pacey.

Additional Compensation Elements

Change-in-Control, Termination, Retirement or Other Post-Employment Benefits

We offer our named executive officers post-employment benefits in order to provide these individuals with security and reasonable compensation upon a termination of employment, and to ensure the continued commitment of employees in the event of a potential or actual change-in-control.

We have entered into the following types of post-termination arrangements with our named executive officers:

Deferred Compensation Plans

As part of our compensation package, we allow our named executive officers to participate in a qualified 401(k) deferred compensation plan that is available to all of our employees generally and a supplemental non-qualified deferred compensation plan that is available to our highly compensated employees, both of which may provide for post-employment benefits. See **All Other Compensation** under **Executive Compensation** below.

Upon the recommendation of the Compensation Committee, our Board approved a special compensation arrangement designed to retain Mr. Pacey as an employee for at least ten years. Under Mr. Pacey's ten-year Deferred Compensation Agreement, dated January 27, 2007, which is subject to the terms of our Non-Qualified Deferred Compensation Plan, we make additional employer contributions for the benefit of Mr. Pacey, in the amount of \$100,000 per year, which contributions are deposited into a separate employer contribution account. Mr. Pacey will not vest in these contributions unless he remains continuously in our employ until at least February 1, 2017; provided however, if Mr. Pacey's employment is terminated prior to the vesting date as a result of death, disability or termination by our company, other than for cause, he will become 100% vested in the amounts then in the separate employer contribution account and our obligation to make contributions shall cease on the date of any such termination. See **Non-Qualified Deferred Compensation Table** under **Executive Compensation** below.

Potential Payments Upon Termination of our Named Executive Officers

Mr. Gamache's employment agreement provides for termination benefits payable to Mr. Gamache upon termination of his employment under certain circumstances. See **Employment Agreements** and **Pension Benefits** below.

Under our employment agreements with Messrs. Gamache, Edidin, Schweinfurth, Pacey and Lochiatto under certain circumstances such as disability, death, termination without cause and/or termination with good reason, we also provide separation payments and accelerated vesting of equity compensation awards. In exchange, such executive officers have agreed not to compete with us for defined periods of time. See **Employment Agreements** below.

Potential Change-in-Control Payments

Additionally, our Board, upon the recommendation of our Compensation Committee, has approved employment agreements which provide that a change-in-control may trigger certain benefits to certain of our named executive officers. These payments and benefits are described in more detail under **Potential Payments Upon Termination or Change-in-Control** beginning on page 33 of this Amendment No. 1 to our Annual Report on Form 10-K for fiscal year 2013.

Additional Information

Stock Ownership Guidelines

In order to keep our executive officers' interests aligned with our stockholders, our Board adopted and last updated in June 2012, stock ownership guidelines for our executive officers and senior management of our company. These guidelines provide:

Our Chairman and Chief Executive Officer is expected to own stock equal in value to five times his base annual salary;

Our President and each of our Executive Vice Presidents are each expected to own stock equal in value to three times his respective base salary;

Each other executive officer is expected to own shares of our common stock equal in value to his or her respective base salary; and

Such officers are expected to refrain from selling any shares of our common stock if he is she is, or the sale would cause him or her to fall, below the minimum ownership level described above.

Under the guidelines, deferred stock units, restricted stock, restricted stock units and performance-based restricted stock units count toward meeting the requirements, but unexercised stock options and equity-based performance units do not.

Tax and Accounting Considerations

When determining the types and amount of compensation awarded to our named executive officers, our Compensation Committee and our Board consider not only the needs of the employees and our goals, but also the accounting and tax ramifications of such compensation on our company.

Accounting Ramifications

The impact of accounting for equity-based compensation is considered by the Compensation Committee when evaluating our compensation plans. Beginning on July 1, 2005, we began accounting for equity-based payments, including awards granted under our Incentive Plan, in accordance with FASB ASC Topic 718 *Share Based Compensation*.

Tax Ramifications

Section 162(m) of the Internal Revenue Code generally provides that publicly-held corporations will only be able to deduct, for income tax purposes, compensation paid to the Chief Executive Officer or other named executive officers (excluding our Chief Financial Officer) in excess of \$1,000,000 per year if it is paid under qualifying

performance-based compensation plans approved by stockholders. Compensation as defined by Section 162(m) includes, among other things, base salary, incentive compensation not provided under our Incentive Plan, time-vested restricted stock or restricted stock units and gains on stock option transactions when the exercise price on the grant date is below the fair market value of the underlying stock on that date. To the extent that compensation of any of our named executive officers, such as salary, time-vested restricted stock and individual performance-based bonuses, does not meet the Section 162(m) qualifications for deductibility and exceeds \$1,000,000 in the aggregate in a particular year, we will not be able to deduct such excess for income tax purposes.

Under our Incentive Plan, which has been approved by our stockholders, equity-based performance units and performance-based incentive compensation including cash bonuses based on achievement of corporate performance that have been granted or paid to our named executive officers under the plan should qualify under Section 162(m) and be fully deductible by us. All stock options granted to date have an exercise price at least equal to 100% of the fair market value of the underlying stock on the date of grant, and all equity-based incentive awards, except time-vested restricted stock and restricted stock units, have been conditioned on achievement of performance goals intended to qualify as performance-based compensation. We believe the portion of our annual cash bonuses that are payable based on corporate performance for our named executive officers should qualify as performance-based compensation as granted under our Incentive Plan.

The Compensation Committee considers, on a case-by-case basis, how Section 162(m) will affect our compensation plans and contractual and discretionary cash compensation. The Compensation Committee also considers it important to retain flexibility to design compensation programs that recognize a full range of criteria important to our success, even where compensation payable under the programs may not be fully deductible.

(1) *Bonus*: For fiscal year 2013, a portion of our named executive officers' cash bonus, other than Mr. Gamache's, was awarded on a discretionary basis based on achievement of individual performance goals. The amount of such discretionary bonus is included in the Summary Compensation Table above under *Bonus* and is not included in the Plan-Based Awards Table. The balance of each named executive officers' cash bonus was awarded under our Incentive Plan and is included above under *Non-Equity Incentive Plan Compensation Awards*. Our named

- (2) *Stock Awards:* This column reflects the aggregate grant date fair value of the restricted stock units and equity-based performance units granted under our long-term incentive program in fiscal years 2013, 2012 and 2011, computed in accordance with FASB ASC Topic 718 Share Based Compensation, disregarding for this purpose the estimated forfeitures relating to service-based vesting conditions. Values for restricted stock units are computed at the closing trading price of our common stock on the grant date. Although the probable outcome of performance conditions will vary over time, the SEC rules require that we report in this column the value based on the probable outcome as of the time of the grant which are the target values which provide for a payout in an amount equal to a 100% of the number of units granted upon achievement of the specified financial goals. The restricted stock and equity-based performance units reflected above for fiscal year 2013 are described in greater detail under Grants of Plan-Based Awards below.
- (3) *Stock Option Awards:* This column reflects the aggregate grant date fair value of stock option awards granted in fiscal years 2013, 2012 and 2011, calculated using the closing trading price of our common stock on the grant date and the Black-Scholes option pricing

Mr. Pacey may participate in all benefit plans and perquisites generally available to our executive officers, including our long-term incentive program.

Bonuses

Because cash bonuses paid to our Chief Executive Officer and a portion of the cash bonuses paid to our other named executive officers are made pursuant to our Incentive Plan, the rules of the SEC require us to report such bonuses under Non-Equity Incentive Plan Compensation Awards. Messrs. Gamache, Edidin, Lochiatto, Schweinfurth and Pacey received \$1,503,938; \$1,098,440; \$328,144; \$410,000; and \$310,325, respectively as the corporate performance component of their cash bonuses for fiscal year 2013 pursuant to the bonus tables approved by our Board upon the recommendation of our Compensation Committee in September 2012, which tables set the respective corporate performance component of the bonus amounts based on achievement of the revenues and operating income targets set forth therein. The potential threshold, target and maximum amounts of the cash bonuses are included under Estimated Future Payout Under the Non-Equity Incentive Plan Awards column in the Grants of Plan-Based Awards Table and the actual payout is listed under Non-Equity Incentive Plan Compensation Awards in the Summary Compensation Table.

In addition, Messrs. Edidin, Lochiatto, Schweinfurth, and Pacey received \$175,633; \$103,352; \$136,667; and \$97,740, respectively as the discretionary or individual performance-based bonuses for fiscal year 2013 as determined by the Compensation Committee and approved by our Board of Directors.

Change in Pension Value

The Change in Pension Value column in the Summary Compensation Table discloses the change in present value, between June 30, 2012 and June 30, 2013; June 30, 2011 and June 30, 2012; and June 30, 2010 and June 30, 2011, of the death, disability and termination benefits (retirement benefits) payable to Mr. Gamache under his employment agreement.

For fiscal years 2011, 2012 and 2013, the present value of these benefits, using a discount rate of 3.8%, is based on an assumed termination of employment date of November 28, 2020, a calculated termination benefit of \$11,880,438 (based on twenty years of service), and a payment period of four years and one month after which Mr. Gamache will receive a lump sum payment determined by discounting each monthly installment that would have been paid to Mr. Gamache had the equal monthly installments continued to be paid for a period of time equal to the period of time after March 21, 2000 that Mr. Gamache was employed full time by us. See Pension Benefits on page 32 of this Amendment No. 1 to our Annual Report on Form 10-K for fiscal year 2013.

All Other Compensation

The rules of the SEC require us to disclose more details about any perquisite included in the All Other Compensation column in the Summary Compensation Table that amounts to more than \$25,000 for an individual. The amounts shown in the All Other Compensation column of the Summary Compensation Table include matching employer

contributions to our named executive officers' deferred compensation plan accounts. Our named executive officers may participate in two company-sponsored deferred compensation plans. The first plan, the WMS Industries Inc. 401(k) Plan (the "401(k) Plan"), is a tax qualified deferred compensation plan available to all employees. Because the amount some of our employees, including our named executive officers, may contribute to the 401(k) may be limited by Section 415 of the Internal Revenue Code, we offer a second plan, the WMS Industries Non-Qualified Deferred Compensation Plan, to

Table of Contents

provide them with the same benefits offered under the 401(k) Plan to our other employees. Through these two plans, each year, to the extent the named executive officers elect to make contributions, we match 100% of the first three percent of annual compensation contributed by our employees, including our named executive officers, and 50% of the second three percent contributed by our employees, including our named executive officers, to these plans. The company match contributions for fiscal year 2013 for our named executive officers were as follows:

Name	401(k) Plan	Non-Qualified Deferred
	Company Match	Compensation Plan Company Match
Brian R. Gamache	\$ 11,475	\$ 33,161
Orrin J. Edidin	11,475	23,877
Kenneth Lochiatto	12,627	10,660
Scott D. Schweinfurth	11,475	15,165
Larry J. Pacey	11,475	14,313

For Mr. Pacey, the All Other Compensation column also includes a supplemental deferred compensation benefit provided to Mr. Pacey pursuant to a Deferred Compensation Agreement, dated January 27, 2007. Pursuant to this agreement, we make an additional employer contribution of \$100,000 each calendar year for a maximum of ten years to a separate employer contribution account under the WMS Industries Inc. Nonqualified Deferred Compensation Plan. Mr. Pacey will vest in such separate employer contribution account only if he remains continuously employed with us until February 1, 2017. In addition, if Mr. Pacey's employment is terminated prior to the vesting date as a result of death, disability or termination by our company, other than for cause, he will become 100% vested in the separate employer contribution account and our obligation to make future contributions shall cease on the date of any such termination. Mr. Pacey's Deferred Compensation Agreement is subject to the terms and conditions of the WMS Industries Inc. Nonqualified Deferred Compensation Plan. In fiscal year 2013, we contributed approximately \$100,000 to this plan for Mr. Pacey's account.

The All Other Compensation column in the Summary Compensation Table also includes the aggregate incremental costs to our company of personal and spousal travel and entertainment which we consider appropriate business expenses of our named executive officers under our corporate policies, health expense reimbursements, life insurance premiums for certain of our named executive officers and other such expenses.

Although equity-based performance units granted in September 2010 vested on June 30, 2013, because the minimum threshold performance goals were not met, the payout factor for these equity-based performance units was zero and no shares were issued. However, certain equity-based performance units which were granted to Mr. Edidin in September 2012 vested on June 30, 2013 and, for these units, the target goals were met resulting in a payout equal to 100%. The value realized for Mr. Edidin's equity-based performance units included in the chart above equals the closing trading price of our common stock on the vesting date multiplied by the number of shares vesting as set forth below:

Table of Contents**PENSION BENEFITS**

None of our named executive officers received any benefits in fiscal year 2013 under defined pension plans. As of June 30, 2013, we had previously agreed to provide Mr. Gamache with certain retirement benefits pursuant to his employment agreement consisting of four annual payments equal to 50% of his annual base salary at the time of termination of his employment, but not less than \$432,000, payable in equal monthly installments. Such monthly payments will continue for four years and one month, at the conclusion of which we will pay Mr. Gamache a lump sum payment determined by discounting each monthly installment that would have been paid to Mr. Gamache had the equal monthly installments continued for a period of time equal to the period of time after March 21, 2000 that Mr. Gamache was employed full time by us. The value of those benefits is listed below. The present value of these benefits is based upon an assumed termination of employment date of November 28, 2020, at age 62, using a discount rate of 3.8%. This calculation is based on an assumed retirement date in 2020 and does not reflect any acceleration of these benefits in the event of a change in control, such as our pending acquisition by Scientific Games. For information on the impact of a change in control on this benefit, see Potential Payments Upon Termination or Change-in-Control beginning on page 33 of this Amendment No. 1 to our Annual Report on Form 10-K for fiscal year 2013.

NON-QUALIFIED DEFERRED COMPENSATION

We offer our named executive officers the opportunity to participate in two retirement savings plans: (i) the WMS Industries Inc. 401(k) Plan, a tax qualified deferred compensation plan available to all employees and (ii) the WMS Industries Non-Qualified Deferred Compensation Plan which is available to certain employees, including our named executive officers. These plans allow our named executive officers and other of our employees to voluntarily defer receipt of a portion of their salary and all or a portion of any bonus received, until the date or dates selected by the participant. The participant is able to select from a range of investment options for these deferred funds. There is no selection available under either plan which would allow investment in our securities. Below is a table providing additional information about our named executive officers participation in the Non-Qualified Deferred Compensation Plan. For the company-match contributions provided to our named executive officers under the 401(k) Plan, please see the Summary Compensation Table and Additional Information Concerning the Summary Compensation and Grants of Plan-Based Awards Tables All Other Compensation beginning on page 21 of this Amendment No. 1 to our Annual Report on Form 10-K for fiscal year 2013.

Our named executive officers may borrow from their accounts or withdraw funds under the 401(k) Plan on the same terms and subject to the same conditions as all other employees. Under the 401(k) Plan, distribution may occur upon termination of employment, death of the employee or retirement at the normal retirement age under the Plan.

Under the Non-Qualified Deferred Compensation Plan, participants, including our named executive officers, elect the date for distribution of deferred contributions made in any year prior to the commencement of that year and subject to the requirement that the distribution occur no earlier than January 15th of the third plan year following the plan year for which the deferral election is made. Distribution of participant account balances under the Non-Qualified Deferred Compensation Plan will occur upon the earliest to occur of: (i) the date elected by such participant; (ii) the date of separation of service (as defined under the Internal Revenue Code) of the participant from our company; or (iii) the date we terminate the Plan. For all participants, distribution of account balances will accelerate upon a change-in-control of our company, except for the supplemental company contribution account for Mr. Pacey.

Mr. Pacey will vest in his separate employer contribution account under his Deferred Compensation Agreement, dated January 27, 2007, only if he remains continuously employed with us until February 1, 2017; provided however, if Mr. Pacey's employment is terminated prior to the vesting date as a result of death, disability or termination by our company, other than for cause, he will become 100% vested in the separate employer contribution account, however, our obligation to make contributions shall cease on the date of any such termination.

POTENTIAL PAYMENTS UPON TERMINATION

OR CHANGE-IN-CONTROL

Named Executive Officer Severance and Employment Arrangements

Each of WMS' named executive officers is a party to an employment agreement with WMS that provides for severance benefits upon a termination of employment under certain circumstances and, in some cases, additional benefits upon a termination of employment following a change in control. The rules of the SEC require us to provide quantitative disclosure concerning potential payments to our named executive officers upon termination or change-in-control assuming termination as of the last business day of our last completed fiscal year, June 30, 2013. For information concerning potential payments that each named executive officer could receive that are based on or otherwise relate to the merger with Scientific Games, please see "Qualification of Potential Payments to Named Executive Officers in Connection with the Merger" in our definitive proxy statement, dated April 8, 2013, delivered to our stockholders and filed with the SEC in connection with the special meeting of our stockholders held on May 10, 2013.

For all named executive officers, the timing of any termination payments described below will be deferred for 6 months following a termination of employment to the extent necessary to satisfy Section 409A of the Internal Revenue Code.

With respect to "excess parachute payments" made to any of our named executive officers, under Section 4999 of the Internal Revenue Code, in addition to income taxes, the recipient of "excess parachute payments" is subject to a 20% nondeductible excise tax on these payments. An excess parachute payment is a payment in the nature of compensation which is contingent on a change of ownership or effective control and which exceeds the portion of the base amount (i.e., the average compensation for the five year period prior to the change-in-control) allocable to the payment. These rules

Table of Contents

apply only if the present value of all payments of compensation contingent on the change-in-control (including non-taxable fringe benefits) is at least equal to three times the base amount. Excess parachute payments are not tax deductible by us.

Pursuant to our severance policy, upon a qualifying termination, each of our named executive officers would be entitled to continued health benefits at the cost paid by employees for up to 78 weeks following termination of employment and \$17,000 in outplacement services.

Mr. Brian R. Gamache, Chairman and Chief Executive Officer

In general, if Mr. Gamache's employment is terminated for any reason, including for cause by us, for good reason by him, disability, expiration of the employment agreement or termination by Mr. Gamache without good reason, Mr. Gamache would receive the retirement benefits specified in his employment agreement consisting of four annual payments equal to 50% of his annual base salary at the time of termination of his employment, but not less than \$432,000, payable in equal monthly installments. Such monthly payments would continue for four years and one month following termination, at the conclusion of which we would pay Mr. Gamache a lump sum payment determined by discounting each monthly installment that would have been paid to Mr. Gamache had the equal monthly installment continued for a period of time equal to the period of time after March 21, 2000 that Mr. Gamache was employed by us. Upon a termination in connection with a change in control, these retirement benefits will be paid immediately in a single lump sum payment (without any discount). Additionally, Mr. Gamache and his wife would continue to receive health benefits for life while his son will continue to receive health benefits until he reaches the age of 18, or while he remains a full-time student after the age of 18 but in no event past the age of 23. Assuming Mr. Gamache's termination as of June 30, 2013 following a change-in-control, if Mr. Gamache had remained employed for a period of 180 days following the closing of the change-in-control and if he resigned within 30 days after the conclusion of such 180 day period, we would have been required to pay him (i) within 15 days following his resignation, a lump sum of three times the sum of (a) his base salary and (b) a bonus amount equal to the average annual cash bonus earned by Mr. Gamache over the immediately preceding two fiscal years; (ii) his retirement benefits; (iii) all of Mr. Gamache's unvested stock options and stock equity grants would have immediately vested; and (iv) his continuing health benefits.

Under his employment agreement, a change-in-control is defined as: (i) the individuals who presently constitute our Board, or successors approved by these Board members or their successors, cease for any reason to constitute at least a majority of our Board or (ii) both of the following occur (a) any person or entity or group of affiliated persons or entities who are not the owner of at least 15% of our outstanding voting securities on December 27, 2004, acquire more than 50% of our outstanding voting securities and (b) Mr. Gamache remains employed by us for a period of 180 days thereafter.

If Mr. Gamache's employment had been terminated as of June 30, 2013 by Mr. Gamache for good reason, or by us without cause, we would have been obligated to pay Mr. Gamache: (i) a lump sum payment equal in amount to his base salary through the date of termination, less any payments previously made, payable within 30 days following his date of termination; (ii) the pro-rata bonus which would have been payable for the fiscal year that includes his termination date, to be paid no later than the 15th day of the 3rd month following the end of the fiscal year in which the date of termination of employment occurs; (iii) an amount equal to three times the sum of (a) his base salary and (b) a bonus amount equal to the average annual cash bonus earned by Mr. Gamache over the immediately preceding two fiscal years; (iv) the retirement benefits and (v) his continuing health benefits.

Generally, Mr. Gamache may terminate his employment agreement for good reason upon the occurrence of: (i) a material breach by us of any material provision of his employment agreement, provided Mr. Gamache gives WMS

notice of such breach and a reasonable opportunity to cure, (ii) the placement of Mr. Gamache in a position of lesser status, (iii) the assignment of duties inconsistent with his current position, (iv) the reduction of the compensation to which he is entitled under his employment agreement, (v) his removal from our Board of Directors or (vi) the relocation of our headquarters, without his consent, to a location more than 40 miles farther from his current place of residence than the present location of our headquarters.

Table of Contents

If Mr. Gamache were disabled for more than 90 consecutive days or six months in any 12 month period during the term of his employment agreement and was not able to resume his duties within 30 days of notice of disability, Mr. Gamache's employment would terminate, and he would receive the retirement benefits specified under his employment agreement which are described under Pension Benefits above. In the event of Mr. Gamache's death, his designated beneficiaries would continue to receive salary payments for a period of six months after the date of his death and would receive the retirement benefits that would otherwise have been paid to Mr. Gamache. In addition, in the case of Mr. Gamache's death or disability, all of Mr. Gamache's unvested stock options and stock equity grants would immediately vest, and he and his family would be entitled to receive his continuing health benefits.

We may terminate Mr. Gamache's employment agreement for cause, which includes dishonesty or failure to follow the reasonable direction of our Board. Additionally, Mr. Gamache may terminate his employment at any time with or without good reason. Finally, his employment agreement may expire if either Mr. Gamache or our company gives the other two years' notice of their intention not to renew.

If payments made to Mr. Gamache under his employment agreement after a change-in-control were considered excess parachute payments under Section 280G of the Internal Revenue Code, additional compensation would be required to be paid to Mr. Gamache to the extent necessary to eliminate the economic effect on him of the resulting excise tax. Based on a recent calculation, if Mr. Gamache's employment had been terminated for any reason on June 30, 2013, no excise tax would be due.

The following table provides quantitative disclosure of the incremental payments and value that Mr. Gamache would have received or realized as a result of the employment termination events described below pursuant to agreements or arrangements that apply to him only and not to all of our employees generally. The calculations (i) assume a termination date of June 30, 2013 and (ii) for the valuation of shares underlying stock options, restricted stock and shares issued under equity-based performance units for which vesting would have been accelerated, use the closing trading price of our common stock on June 28, 2013, the last trading day in our fiscal year, \$25.51. These calculations do not include acceleration of any equity compensation awarded to Mr. Gamache after June 30, 2013 or any pro-rated bonus which Mr. Gamache may receive for fiscal year 2014 upon closing of the merger with Scientific Games. Information concerning Mr. Gamache's benefits under the Non-Qualified Deferred Compensation Plan is set forth above in the Non-Qualified Deferred Compensation Table.

(1) By assuming that such termination occurs at the end of the fiscal year, we also assume that all base salary through the date of termination and bonus amounts payable for fiscal year 2013 have been previously paid on the

termination date.

- (2) Except in the event of a change-in-control, payable over four years and one month as described above. Each scheduled monthly installment remaining unpaid on the date of death and each monthly installment that would be paid will be discounted using the treasury yield curve for ten year U.S. Treasury Bonds published by the U.S. Department of the Treasury. If ten year maturity treasury U.S. Treasury Bond daily yield curve rates are no longer published, the next shortest

- maturity of U.S. Treasury Bonds for which daily treasury yield curve rates are published by the U.S. Department of the Treasury will be used. Upon a termination in connection with a change-in-control, these retirement benefits will be paid immediately in a single lump sum payment (without any discount).
- (3) Includes stock options, restricted stock units and equity-based performance units. For equity-based performance units, we have assumed achievement of the target, triggering 100% payout.
 - (4) Mr. Gamache's employment agreement provides for accelerated vesting of equity grants upon death, disability, termination of employment with good reason or without cause and a change-in-control. Certain equity grants made to other employees may also accelerate upon a change-in-control under the terms of the Incentive Plan or the related equity grant agreements. Because the definition of the term change-in-control may differ in these documents, Mr. Gamache's equity grants may accelerate upon a change-in-control while those of other employees do not.
 - (5) Consists of continuing health benefits for life for Mr. Gamache (25 years) and his spouse (29 years) and up to a specified age for his son (9 years).
 - (6) Payable over six months but will be deferred for 6 months following a termination of employment to the extent necessary to satisfy Section 409A of the Internal Revenue Code.
 - (7) Consists of continuing health benefits for life for Mr. Gamache's spouse (29 years) and up to a specified age for his son (9 years).
 - (8) Payable in a lump sum but will be deferred for 6 months following a termination of employment to the extent necessary to satisfy Section 409A of the Internal Revenue Code.

Mr. Orrin J. Edidin, President and Mr. Scott D. Schweinfurth, Executive Vice President, Chief Financial Officer and Treasurer

Assuming termination of the employment of each of Messrs. Edidin and Schweinfurth as of June 30, 2013 following a change-in-control, without cause (as defined in each executive's employment agreement) or for good reason within 180 days of a change-in-control, then in lieu of any other rights under his employment agreement, we will be required to pay him (i) any accrued base salary and the pro rata bonus (to be paid within 30 days after the end of the fiscal year in which the termination occurs) for the fiscal year to the extent not already paid; and (ii) a lump sum of three times the sum of (a) his base salary and (b) one year's bonus. In addition, upon a change-in-control event, all of Mr. Edidin's and Mr. Schweinfurth's unexpired unvested stock options and all other stock equity grants (restricted stock, restricted units and equity-based performance units) will immediately vest.

Under employment agreements of Messrs. Edidin and Schweinfurth, a change-in-control is defined as: (i) the individuals who presently constitute our Board, or successors approved by these Board members, cease for any reason to constitute at least a majority of our Board, and the officer gives written notice of his election to terminate his employment within 60 days of such event or (ii) any person or entity or group of affiliated persons or entities who were not the owners of at least 15% of the outstanding shares of our voting securities as of January 1, 2005, acquires more than 25% of our outstanding shares.

We may terminate either Mr. Edidin's or Mr. Schweinfurth's employment agreement upon 30 days written notice for cause, which includes dishonesty or failure to follow a reasonable direction of our Chief Executive Officer or our Board. Both Mr. Edidin's and Mr. Schweinfurth's employment agreements may be terminated by either party upon two years notice.

Mr. Edidin and Mr. Schweinfurth may also terminate their respective employment agreements upon 30 days written notice for good reason, which means the occurrence of a material breach by us of any material provision of the applicable employment agreement, including a material diminution of responsibility or base salary, or, in the event of a change-in-control, the relocation of his primary office to a location more than 40 miles farther from his current place of residence than the present location of our Waukegan and Chicago, Illinois offices.

Upon any termination by Mr. Edidin or Mr. Schweinfurth for good reason, or by us without cause, under each employment agreement, we would be obligated to pay: (a) a lump sum payment equal in amount to their base salary through the date of termination less any payments previously made, (b) within 30 days after the end of the fiscal year in which such termination occurred, a pro rata amount of the bonus payable for the fiscal year in which such termination occurs to the extent not already paid, (c) base salary and one year's bonus over the next 12 months at normal payroll

Table of Contents

intervals and (d) within 30 days after the first anniversary of such termination, a lump sum payment equal in amount to two times the sum of (i) his base salary and (ii) one year's bonus. Each of their employment agreements defines one year's bonus as the average annual cash bonus paid to such officer over the immediately preceding two fiscal years.

As of June 30, 2013, if the applicable employment agreement terminated by reason of the officer's death or his absence from his duties on a full-time basis for 90 consecutive business days as a result of incapacity due to mental or physical illness which was determined to be total and permanent by a physician, we would be required to pay the officer or his legal representatives: (a) a lump sum payment equal in amount to his base salary through the date of termination less any payments previously made, (b) the pro-rata bonus which would have been payable for the fiscal year had he remained employed; and (c) a lump sum equal to one-half the sum of (i) his base salary and (ii) one year's bonus.

If payments made to Mr. Edidin or Mr. Schweinfurth under their respective employment agreements after a change-in-control are considered excess parachute payments under Section 280G of the Internal Revenue Code, additional compensation is required to be paid to them to the extent necessary to eliminate the economic effect on him of the resulting excise tax. Based on a recent calculation, if Mr. Edidin's or Mr. Schweinfurth's employment had been terminated for any reason on June 30, 2013, no excise tax would be due.

Mr. Edidin

The following table provides quantitative disclosure of the incremental payments and value that Mr. Edidin would have received or realized as a result of the employment termination events described below pursuant to agreements or arrangements that apply to him only and not to all of our employees generally. The calculations (i) assume a termination date of June 30, 2013 and (ii) for the valuation of shares underlying stock options, restricted stock and shares issued under equity-based performance units for which vesting would have been accelerated, use the closing trading price of our common stock on June 28, 2013, the last trading day in our fiscal year, \$25.51. These calculations do not include acceleration of any equity compensation awarded to Mr. Edidin after June 30, 2013 or any pro-rated bonus which Mr. Edidin may receive for fiscal year 2014 upon closing of the merger with Scientific Games. Information concerning Mr. Edidin's benefits under the Non-Qualified Deferred Compensation Plan is set forth above in the Non-Qualified Deferred Compensation Table.

Termination Event	Salary and/or Bonus (1)	Accelerated Equity (2)	Other Benefits	Total
Disability or Death	\$ 708,813 ⁽³⁾			\$ 708,813
Without Cause or For Good Reason	4,252,878 ⁽⁴⁾			4,252,878
Change-In-Control	4,252,878 ⁽³⁾	3,899,650 ⁽⁵⁾		8,152,528

- (1) By assuming that such termination occurs at the end of the fiscal year, we also assume that all base salary through the date of termination and any bonus amounts payable for fiscal year 2013 have been paid previously or on the termination date.
- (2) Includes stock options, restricted stock units and equity-based performance units. For equity-based performance units, we have assumed achievement of the target, triggering 100% payout.
- (3) Payable in a lump sum but will be deferred for 6 months following a termination of employment to the extent necessary to satisfy Section 409A of the Internal Revenue Code.
- (4) For 12 months following termination, salary and bonus amounts are paid in regular payroll installments but such payments will be deferred for 6 months following a termination of employment to the extent necessary to satisfy

Section 409A of the Internal Revenue Code; on the first anniversary of the termination date, a lump sum payment equal to two times the sum of (i) one year's salary and (ii) one year's bonus will be paid.

- (5) Mr. Edidin's employment agreement provides for acceleration of vesting of certain equity grants upon a change-in-control. Certain equity grants made to other employees may also accelerate under the terms of the Incentive Plan or the related equity grant agreements. Because the definition of the term "change-in-control" may differ in these documents, Mr. Edidin's equity grants may accelerate upon a "change-in-control" while those of other employees do not.

Table of Contents*Mr. Schweinfurth*

The following table provides quantitative disclosure of the incremental payments and value that Mr. Schweinfurth would have received as a result of the employment termination events described below pursuant to agreements or arrangements that apply to him only and not to all of our employees generally. The calculations (i) assume a termination date of June 30, 2013 and (ii) for the valuation of shares underlying stock options, restricted stock and shares issued under equity-based performance units for which vesting would have been accelerated, use the closing trading price of our common stock on June 28, 2013, the last trading day in our fiscal year, \$25.51. These calculations do not include acceleration of any equity compensation awarded to Mr. Schweinfurth after June 30, 2013 or any pro-rated bonus which Mr. Schweinfurth may receive for fiscal year 2014 upon closing of the merger with Scientific Games. Information concerning Mr. Schweinfurth's benefits under the Non-Qualified Deferred Compensation Plan is set forth above in the Non-Qualified Deferred Compensation Table.

- (5) Mr. Schweinfurth's employment agreement provides for acceleration of vesting of certain equity grants upon a change-in-control. Certain equity grants made to other employees may also accelerate under the terms of the Incentive Plan or the related equity grant agreements. Because the definition of the term change-in-control may differ in these documents, Mr. Schweinfurth's equity grants may accelerate upon a change-in-control while those of other employees do not.

Mr. Kenneth Lochiatto, Executive Vice President and Chief Operating Officer and Mr. Larry J. Pacey, Executive Vice President, Global Products and Chief Innovation Officer

We may terminate either Mr. Lochiatto's or Mr. Pacey's employment agreement for cause, which includes failure to perform his duties, death, disability for a period of three months, violations of our Code of Conduct or a violation of a criminal law or other action which might be reasonably likely to result in the loss of gaming licenses held by one of our operating entities. Upon any termination of Mr. Lochiatto's employment agreement by us, other than for cause, we would be obligated to pay Mr. Lochiatto 24 months of base salary and the pro-rated portion of the annual bonus due Mr. Lochiatto through the date of termination. Upon any termination of Mr. Pacey's employment agreement by us,

other than for cause, we would be obligated to pay Mr. Pacey 24 months of base salary.

We would be obligated to pay 24 months of base salary to Mr. Lochiatto if we terminate his employment for any reason other than for cause, death or disability within 180 days of either of these change-in-control events:

(a) individuals who presently constitute our Board, or who have been recommended for election to such Board by two-thirds of such Board consisting of individuals who are either presently on such Board or such recommended successors, cease for any reason to constitute at least a majority of our Board or (b) any person or entity or group of affiliated persons or entities who are not owners of at least 15% of the outstanding shares of our voting securities on the effective date of his employment agreement acquire more than 25% of the outstanding shares of our voting securities.

Table of Contents

We would be obligated to pay 24 months of base salary to Mr. Pacey after the following change-in-control events: (a) individuals who presently constitute our Board, or who have been recommended for election to such Board by two-thirds of such Board consisting of individuals who are either presently on such Board or such recommended successors, cease for any reason to constitute at least a majority of our Board and Mr. Pacey gives written notice of his election to terminate his employment within 60 days after such event or (b) any person or entity or group of affiliated persons or entities who are not owners of at least 15% of the outstanding shares of our voting securities on the effective date of his employment agreement acquire more than 25% of the outstanding shares of our voting securities and within 180 days of such acquisition, we terminate Mr. Pacey's employment for any reason other than for cause, death or disability.

For both Messrs. Lochiatto and Pacey, such 24 months of base salary would be paid in regular payroll intervals unless required to be paid per a different timetable to satisfy Internal Revenue Code Section 409A. For Mr. Lochiatto, his pro-rated bonus would be paid within 30 days after our audited financial statements for the fiscal year that includes his termination date are publicly announced. Additionally, upon a change-in-control event involving an acquisition of our voting stock, all of Mr. Lochiatto's and Pacey's unexpired unvested options and stock equity grants will immediately vest.
