UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

x **Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the quarterly period ended September 30, 2013**

.. **Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
for the transition period from _____ to _____.**

Commission File Number: 0-16195

II-VI INCORPORATED
(Exact name of registrant as specified in its charter)

PENNSYLVANIA (State or other jurisdiction of	25-1214948 (I.R.S. Employer
incorporation or organization)	Identification No.)
375 Saxonburg Boulevard Saxonburg, PA (Address of principal executive offices)	16056 (Zip Code)
Registrant's telephone number, including area code: 724-352-4455	

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Edgar Filing: II-VI INC - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date:

At November 1, 2013, 62,551,552 shares of Common Stock, no par value, of the registrant were outstanding.

Table of Contents**II-VI Incorporated and Subsidiaries****Notes to Condensed Consolidated Financial Statements (Unaudited)****Note 1. Basis of Presentation**

The condensed consolidated financial statements of II-VI Incorporated (sometimes referred to herein as "II-VI" or the "Company") for the three months ended September 30, 2013 and 2012 are unaudited. In the opinion of management, all adjustments considered necessary for a fair presentation for the periods presented have been included. All adjustments are of a normal recurring nature unless disclosed otherwise. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K for the year ended June 30, 2013. The consolidated results of operations for the three months ended September 30, 2013 are not necessarily indicative of the results to be expected for the full fiscal year. The June 30, 2013 Condensed Consolidated Balance Sheet information was derived from the Company's audited financial statements.

In conjunction with the acquisition of Oclaro, Inc.'s Switzerland-based semiconductor laser business on September 12, 2013, the Company has established a new reporting segment "Active Optical Products" which will report the operating results of the Company's recently acquired business.

Note 2. Recent Accounting Pronouncements

In March 2013, the Financial Accounting Standards Board ("FASB") issued an accounting standards update related to a parent's accounting for the cumulative translation adjustment upon de-recognition of certain subsidiaries or groups of assets within a foreign entity or of an investment in a foreign entity. The update clarifies the applicable guidance under current U.S. GAAP for the release of the cumulative translation adjustment upon a reporting entity's de-recognition of a subsidiary or group of assets within a foreign entity or part or all of its investment in a foreign entity. The update requires a reporting entity, which either sells a part or all of its investment in a foreign entity or ceases to have a controlling financial interest in a subsidiary or group of assets within a foreign entity, to release any related cumulative translation adjustment into net income. This update is effective prospectively for fiscal years beginning after December 15, 2013 and will be effective for the Company beginning in the first quarter of fiscal year 2015. The adoption of this standard is not expected to have a significant impact on the Company's consolidated financial statements.

In February 2013, the FASB issued an accounting standards update related to disclosure requirements of reclassifications out of accumulated other comprehensive income. The adoption of the guidance requires the Company to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, the Company is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified from each component of accumulated other comprehensive income and the income statement line items affected by the reclassification. This update was effective for the Company beginning in the first quarter of fiscal year 2014 and did not have a significant impact on the Company's consolidated financial statements.

Note 3. Acquisitions***Oclaro's Inc. Switzerland-Based Semiconductor Laser Business***

In September 2013, the Company acquired all of the outstanding shares of Oclaro Switzerland GmbH, a limited liability company formed under the laws of the Swiss confederation, as well as certain additional assets of Oclaro, Inc. used in the semiconductor laser business. The total consideration consisted of \$90.6 million, net of cash acquired of \$1.7 million, a \$6.0 million holdback amount by the Company for 15 months to address any post-closing adjustments or claims, and a \$2.0 million holdback amount for potential post-closing working capital adjustments. The Company will operate the business as II-VI Laser Enterprise GmbH (Laser Enterprise) and will include it in the Company's new operating segment, Active Optical Products. Laser Enterprise is a manufacturer of high-power semiconductor laser components enabling fiber and direct diode laser systems for material processing, medical, consumer and printing applications. In addition, the segment manufactures pump lasers for optical amplifiers for both terrestrial and submarine applications and vertical cavity surface emitting lasers (VCSELS) for optical navigation, optical interconnects and optical sensing applications. Due to the timing of the acquisition, the Company is still in the process of completing its fair market valuation, including the valuation of certain tangible and intangible assets as well as deferred income taxes. The purchase price of the Laser Enterprise acquisition is summarized as follows (\$000):

Net cash paid at acquisition date	\$ 90,601
Holdback amount recorded in Other accrued liabilities	2,000
Holdback amount recorded in Other liabilities	6,000
 Purchase price	 \$ 98,601

Table of Contents

The following table presents the preliminary allocation of the purchase price of the assets acquired and liabilities assumed at the date of acquisition, as the Company intends to finalize its accounting for the acquisition of Laser Enterprise during fiscal year 2014 (\$000):

Assets	
Inventories	\$ 27,214
Prepaid and other assets	1,006
Deferred income taxes	2,376
Property, plant & equipment	28,068
Intangible assets	32,593
Goodwill	39,041
Total assets acquired	\$ 130,298
Liabilities	
Accounts payable	\$ 2,214
Deferred income taxes	13,467
Accrued income taxes	2,714
Other accrued liabilities	13,302
Total liabilities assumed	\$ 31,697
Net assets acquired	\$ 98,601

The goodwill of \$39.0 million is included in the Active Optical Products segment and is attributed to the expected synergies and the assembled workforce of Laser Enterprise. None of the goodwill is deductible for income tax purposes.

The amount of revenues and net loss from operations of Laser Enterprise included in the Company's Condensed Consolidated Statement of Earnings for the three months ended September 30, 2013 was \$4.8 million and \$0.5 million, respectively. In addition to those operating results, the Company incurred approximately \$3.5 million of transaction expenses in conjunction with the acquisition of this business, which are recorded in selling, general and administrative expenses in the Condensed Consolidated Statement of Earnings for the three months ended September 30, 2013.

Pro Forma Information

The following unaudited pro forma consolidated results of operations for the three months ended September 30, 2013 and 2012 have been prepared as if the acquisition of Laser Enterprise had occurred on July 1, 2012, the beginning of the Company's fiscal year 2013, which is the fiscal year prior to this acquisition. As a result, certain transaction related expenses of \$3.3 million (net of tax) were only included in the earliest period presented below (\$000 except per share data).

Edgar Filing: II-VI INC - Form 10-Q

	Three Months Ended September 30,	
	2013	2012
Net revenues	\$ 168,845	\$ 157,577
Net earnings attributable to II-VI Incorporated	12,342	9,264
Basic earnings per share	0.20	0.15
Diluted earnings per share	0.19	0.14

The pro forma results are not necessarily indicative of what actually would have occurred if the transactions had occurred as described above, are not intended to be a projection of future results and do not reflect any cost savings that might be achieved from the combined operations.

Table of Contents**Note 4. Equity Method Investment**

The Company has an equity investment in Guangdong Fuxin Electronic Technology (Fuxin) based in Guangdong Province, China of 20.2%, which is accounted for under the equity method of accounting. The total carrying value of the investment recorded at September 30, 2013 and June 30, 2013 was \$11.5 million and \$11.2 million, respectively. During the quarter ended September 30, 2013 and 2012, the Company's pro-rata share of earnings from this investment was \$0.3 million and \$0.4 million, respectively, which was recorded in Other expense (income), net in the Condensed Consolidated Statements of Earnings.

Note 5. Inventories

The components of inventories were as follows (\$000):

	September 30, 2013	June 30, 2013
Raw materials	\$ 68,271	\$ 59,290
Work in progress	56,815	43,895
Finished goods	42,477	38,674
	\$ 167,563	\$ 141,859

Note 6. Property, Plant and Equipment

Property, plant and equipment consists of the following (\$000):

	September 30, 2013	June 30, 2013
Land and land improvements	\$ 2,381	\$ 2,236
Buildings and improvements	84,072	87,189
Machinery and equipment	310,722	276,802
Construction in progress	13,146	10,831
	410,321	377,058
Less accumulated depreciation	(214,410)	(206,386)
	\$ 195,911	\$ 170,672

Note 7. Goodwill and Other Intangible Assets

Changes in the carrying amount of goodwill are as follows (\$000):

		Three Months Ended September 30, 2013					
		Infrared Optics	Near- Infrared Optics	Military & Materials	Advanced Products Group	Active Optical Products	Total
Balance	beginning of period	\$ 9,677	\$ 60,269	\$ 30,712	\$ 22,694	\$	\$ 123,352
Goodwill acquired						39,041	38,994
Goodwill adjustment					(516)		(516)
Foreign currency translation		56	165			(47)	221
Balance	end of period	\$ 9,733	\$ 60,434	\$ 30,712	\$ 22,178	\$ 38,994	\$ 162,051

The Company reviews the recoverability of goodwill at least annually and any time business conditions indicate a potential change in recoverability. The measurement of a potential impairment begins with comparing the current fair value of the Company's reporting units to the recorded value (including goodwill). The Company uses a discounted cash flow model (DCF model) and a market analysis to determine the current fair value of its reporting units. A number of significant assumptions

Table of Contents

and estimates are involved in estimating the forecasted cash flows used in the DCF model, including markets and market shares, sales volume and pricing, costs to produce, working capital changes and income tax rates. Management considers historical experience and all available information at the time the fair values of the reporting units are estimated. However, actual fair values that could be realized could differ from those used to evaluate the impairment of goodwill.

In connection with the acquisition of Laser Enterprise in September 2013, the Company recorded the excess purchase price over the net assets of the business acquired as goodwill in the accompanying Condensed Consolidated Balance Sheet, based on the preliminary purchase price allocation.

During the quarter ended September 30, 2013, the Company recorded an adjustment to the goodwill associated with the November 2012 acquisition of M Cubed. This adjustment related to a change in deferred income tax assets and was recorded in conjunction with the finalization and filing of the M Cubed final tax return.

The gross carrying amount and accumulated amortization of the Company's intangible assets other than goodwill as of September 30, 2013 and June 30, 2013 was as follows (\$000):

	September 30, 2013			June 30, 2013		
	Gross Carrying Amount	Accumulated Amortization	Net Book Value	Gross Carrying Amount	Accumulated Amortization	Net Book Value
Patents	\$ 54,749	\$ (11,343)	\$ 43,406	\$ 39,659	\$ (10,455)	\$ 29,204
Trademarks	17,872	(980)	16,892	17,855	(963)	16,892
Customer Lists	69,769	(13,552)	56,217	52,614	(12,189)	40,425
Other	2,094	(1,429)	665	1,580	(1,400)	180
Total	\$ 144,484	\$ (27,304)	\$ 117,180	\$ 111,708	\$ (25,007)	\$ 86,701

In conjunction with the acquisition of Laser Enterprise, the Company recorded \$15.0 million of patents, \$17.1 million of customer lists and \$0.5 million related to non-compete agreements. These intangibles assets were recorded based on the Company's preliminary purchase price allocation which is expected to be finalized during fiscal year 2014.

Amortization expense recorded on the Company's intangible assets was \$2.2 million and \$1.1 million, for the three months ended September 30, 2013 and 2012, respectively. The patents are being amortized over a range of 120 to 240 months with a weighted average remaining life of approximately 125 months. The customer lists are being amortized over a range of approximately 120 months to 192 months with a weighted average remaining life of approximately 126 months. The gross carrying amount of trademarks includes \$16.4 million of acquired trade names with indefinite lives that are not amortized but tested annually for impairment or more frequently if a triggering event occurs.

Included in the gross carrying amount and accumulated amortization of the Company's intangible assets is the effect of foreign currency translation on that portion of the intangible assets relating to the Company's German subsidiaries, Photop, AOFR Pty. Ltd. (Photop AOFR) and Laser Enterprise.

At September 30, 2013, the estimated amortization expense for existing intangible assets for each of the five succeeding fiscal years is as follows (\$000):

Year Ending June 30,

Remaining 2014	\$ 8,396
2015	10,575
2016	10,508
2017	10,499
2018	10,023

Table of Contents**Note 8. Debt**

The components of debt for the periods indicated were as follows (\$000):

	September 30, 2013	June 30, 2013
Line of credit, interest at LIBOR, as defined, plus 1.50% and 1.25%, respectively	\$ 108,000	\$ 111,000
Term loan, interest at LIBOR, as defined, plus 1.25%	100,000	
Yen denominated line of credit, interest at LIBOR, as defined, plus 1.50% and 1.25%, respectively	3,072	3,036
Total debt	211,072	114,036
Current portion of long-term debt	20,000	
Long-term debt, less current portion	\$ 191,072	\$ 114,036

On September 10, 2013, the Company amended and restated its existing credit agreement. The Second Amended and Restated Credit Agreement (the Amended Credit Facility) provides for a revolving credit facility of \$225 million (increased from \$140 million), as well as a \$100 million Term Loan. The Term Loan shall be re-paid in consecutive quarterly principal payments on the first business day of each January, April, July and October, with the first payment commencing on October 1, 2013, as follows: (i) twenty consecutive quarterly installments of \$5 million and (ii) a final installment of all remaining principal due and payable on the maturity date. The Amended Credit Facility is unsecured, but is guaranteed by each existing and subsequently acquired or organized wholly-owned domestic subsidiary of the Company. The Company has the option to request an increase to the size of the Amended Credit Facility in an aggregate additional amount not to exceed \$100 million. The Amended Credit Facility has a five-year term through September 2018 and has an interest rate of LIBOR, as defined in the agreement, plus 0.75% to 1.75% based on the Company's ratio of consolidated indebtedness to consolidated EBITDA. Additionally, the facility is subject to certain covenants, including those relating to minimum interest coverage and maximum leverage ratios. As of September 30, 2013, the Company was in compliance with all financial covenants.

In conjunction with entering into the Amended Credit Facility, the Company incurred approximately \$1.0 million of deferred financing costs which are being amortized over the term of the agreement. As a result of the overall increase in borrowing capacity, existing deferred financing costs of \$0.5 million are also being amortized over the term of the Amended Credit Facility.

The Company's Yen denominated line of credit is a 500 million Yen facility that has a five-year term through June 2016 and has an interest rate equal to LIBOR, as defined in the loan agreement, plus 0.625% to 1.50%. At September 30, 2013 and June 30, 2013, the Company had 300 million Yen borrowed. Additionally, the facility is subject to certain covenants, including those relating to minimum interest coverage and maximum leverage ratios. As of September 30, 2013, the Company was in compliance with all financial covenants.

The Company had aggregate availability of \$117.8 million and \$29.8 million under its lines of credit as of September 30, 2013 and June 30, 2013, respectively. The amounts available under the Company's lines of credit are reduced by outstanding letters of credit. As of September 30, 2013 and June 30, 2013, total outstanding letters of credit supported by the credit facilities were \$1.3 million.

Edgar Filing: II-VI INC - Form 10-Q

The weighted average interest rate of total borrowings was 1.49% and 0.89% for the three months ended September 30, 2013 and 2012, respectively.

Remaining annual principal payments under the Company's credit facility as of September 30, 2013 were as follows:

Period	Term Loan	Yen Line of Credit	U.S. Dollar Line of Credit	Total
Year 1	\$ 20,000	\$	\$	\$ 20,000
Year 2	20,000			20,000
Year 3	20,000	3,072		23,072
Year 4	20,000			20,000
Year 5	20,000		108,000	128,000
Total	\$ 100,000	\$ 3,072	\$ 108,000	\$ 211,072

Table of Contents**Note 9. Income Taxes**

The Company's year-to-date effective income tax rate at September 30, 2013 and 2012 was 25.1% and 24.2%, respectively. The variations between the Company's effective tax rate and the U.S. statutory rate of 35.0% were primarily due to the consolidation of the Company's foreign operations, which are subject to income taxes at lower statutory rates. A change in the mix of pretax income from these various tax jurisdictions could have a material impact on the Company's effective tax rate.

U.S. GAAP clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. As of September 30, 2013 and June 30, 2013, the gross unrecognized income tax benefit was \$3.5 million and \$3.2 million, respectively. The Company has classified the uncertain tax positions as noncurrent income tax liabilities, as the amounts are not expected to be paid within one year. If recognized, substantially all of the gross unrecognized tax benefits at September 30, 2013 would impact the effective tax rate. The Company recognizes interest and penalties related to uncertain tax positions in the income tax provision on the Condensed Consolidated Statements of Earnings. The amount of accrued interest and penalties included in the \$3.5 million and \$3.2 million of gross unrecognized income tax benefit at September 30, 2013 and June 30, 2013 was immaterial. Fiscal years 2010 to 2013 remain open to examination by the United States Internal Revenue Service, fiscal years 2008 to 2013 remain open to examination by certain state jurisdictions, and fiscal years 2005 to 2013 remain open to examination by certain foreign taxing jurisdictions.

Note 10. Earnings Per Share

The following table sets forth the computation of earnings per share attributable to II-VI Incorporated for the periods indicated. Weighted average shares issuable upon the exercises of stock options and the release of performance and restricted shares that were not included in the calculation were approximately 304,000 and 380,000 for the three months ended September 30, 2013 and 2012, respectively, because they were anti-dilutive (\$000 except per share data):

	Three Months Ended September 30,	
	2013	2012
Net earnings attributable to II-VI Incorporated	\$ 9,694	\$ 12,718
Divided by:		
Weighted average shares	62,379	62,786
 Basic earnings attributable to II-VI Incorporated per common share	 \$ 0.16	 \$ 0.20
Net earnings attributable to II-VI Incorporated	\$ 9,694	\$ 12,718
Divided by:		
Weighted average shares	62,379	62,786
Dilutive effect of common stock equivalents	1,568	1,413
 Diluted weighted average common shares	 63,947	 64,199

Diluted earnings attributable to II-VI Incorporated per common share	\$ 0.15	\$ 0.20
--	---------	---------

Note 11. Segment Reporting

The Company reports its business segments using the management approach model for segment reporting. The Company determines its reportable business segments based on the way the chief operating decision maker organizes business segments within the Company for making operating decisions and assessing performance.

In conjunction with the acquisition of Oclaro, Inc.'s Switzerland-based semiconductor laser business on September 12, 2013, the Company has established a new reporting segment Active Optical Products which will report the operating results of the Company's recently acquired business.

The Company has five reportable segments as of September 30, 2013. The Company's chief operating decision maker receives and reviews financial information in this format. The Company evaluates business segment performance based upon reported business segment earnings, which is defined as earnings before income taxes, interest and other income or expense. The

Table of Contents

segments are managed separately due to the production requirements and facilities unique to each segment. The Company has the following reportable segments at September 30, 2013: (i) Infrared Optics, which consists of the Company's infrared optics and material products businesses, HIGHYAG Lasertechnologies, GmbH (HIGHYAG) and certain remaining corporate activities, primarily corporate assets and capital expenditures; (ii) Near-Infrared Optics, which consists of Photop, Photop Aegis and Photop AOFR; (iii) Military & Materials, which consists of the Company's LightWorks Optical Systems (formerly the Company's EEO and LightWorks subsidiaries, LWOS), VLOC, Max Levy Autograph (MLA) and Pacific Rare Specialty Metals and Chemicals, Inc. (PRM); (iv) Advanced Products Group, which is comprised of the Company's Marlow Industries, Inc. (Marlow), M Cubed, the Wide Bandgap Materials Group (WBG) and the Worldwide Materials Group (WMG), which is responsible for corporate research and development activities; and (v) Active Optical Products which consists of Laser Enterprise.

The Infrared Optics segment is divided into geographic locations in the U.S., Singapore, China, Germany, Switzerland, Japan, Belgium, the U.K. and Italy. The Infrared Optics segment is directed by a general manager, while each geographic location is also directed by a general manager, and is further divided into production and administrative units that are directed by managers. The Infrared Optics segment designs, manufactures and markets optical and electro-optical components and materials sold under the II-VI brand name and used primarily in high-power CO₂ lasers. The Infrared Optics segment also manufactures fiber-delivered beam delivery systems and processing tools for industrial lasers sold under the HIGHYAG brand name.

The Near-Infrared Optics segment is located in the U.S., China, Vietnam, Australia, Germany, Japan, the U.K., Italy and Hong Kong. The Near-Infrared Optics segment is directed by a Corporate Executive Vice President and is further divided into production and administrative units that are directed by managers. The Near-Infrared Optics segment manufactures crystal materials, optics, microchip lasers and opto-electronic modules for use in optical communication networks and other diverse consumer and commercial applications sold under the Photop brand name and manufactures tunable optical devices and couplers and combiners required for high speed optical networks sold under the Photop Aegis and Photop AOFR brand names, respectively.

The Military & Materials segment is located in the U.S. and the Philippines. The Military & Materials segment is directed by a Corporate Vice President, while each geographic location is directed by a general manager. The Military & Materials segment is further divided into production and administrative units that are directed by managers. The Military & Materials segment designs, manufactures and markets ultra-violet to infrared optical components and high-precision optical assemblies for military, medical and commercial laser and imaging applications under the LWOS and VLOC brand names and manufactures and markets micro-fine conductive mesh patterns for optical, mechanical, and ceramic components for applications under the MLA brand name. The segment also refines selenium metals for internal consumption and a rare earth element under the PRM brand name.

The Advanced Products Group is located in the U.S., Vietnam, Japan, China and Germany and is directed by a Corporate Executive Vice President. In the Advanced Products Group segment, Marlow designs and manufactures thermoelectric cooling and power generation solutions for use in defense and space, optical communications, medical, consumer and industrial markets. M Cubed develops advanced ceramic materials and precision motion control products addressing the semiconductor, display, industrial and defense markets. WBG manufactures and markets single crystal silicon carbide substrates for use in solid-state lighting, wireless infrastructure, radio frequency (RF) electronics and power switching industries. WMG directs the corporate research and development initiatives.

The Active Optical Products segment is located in Switzerland, China, the U.S. and the U.K. The Active Optical Products segment is directed by a Corporate Executive Vice President. The Active Optical Products segment manufactures high-power semiconductor laser components enabling fiber and direct diode laser systems for material processing, medical, consumer and printing applications. In addition, the segment manufactures pump lasers for

optical amplifiers for both terrestrial and submarine applications and VCSELS for optical navigation, optical interconnects and optical sensing applications.

The accounting policies of the segments are the same as those of the Company. All of the Company's corporate expenses are allocated to the segments. The Company evaluates segment performance based upon reported segment earnings, which is defined as earnings before income taxes, interest and other income or expense. Inter-segment sales and transfers have been eliminated.

Table of Contents

The following tables summarize selected financial information of the Company's operations by segment (\$000):

	Three Months Ended September 30, 2013						Total
	Infrared Optics	Near-Infrared Optics	Military & Materials	Advanced Products Group	Active Optical Products	Eliminations	
Revenues	\$ 52,601	\$ 39,887	\$ 27,424	\$ 26,478	\$ 4,782	\$	\$ 151,172
Inter-segment revenues	274	285	1,871	1,520		(3,950)	
Segment earnings (loss)	10,844	3,089	3,424	314	(4,184)		13,487
Interest expense							(483)
Other expense, net							(67)
Income taxes							(3,243)
Net earnings							9,694
Depreciation and amortization	2,134	4,611	2,079	2,487	525		11,836
Segment assets	237,395	317,044	133,130	176,964	134,985		999,518
Expenditures for property, plant and equipment	1,891	2,528	1,128	831	195		6,573
Equity investment				11,461			11,461
Goodwill	9,733	60,434	30,712	22,178	38,994		162,051

	Three Months Ended September 30, 2012						Total
	Infrared Optics	Near-Infrared Optics	Military & Materials	Advanced Products Group	Eliminations		
Revenues	\$ 51,556	\$ 40,646	\$ 23,935	\$ 16,155	\$	\$	\$ 132,292
Inter-segment revenues	500	332	1,540	1,184	(3,556)		
Segment earnings (loss)	11,842	7,722	(2,148)	(822)			16,594
Interest expense							(36)
Other income, net							761
Income taxes							(4,187)
Net earnings							13,132
Depreciation and amortization	2,063	4,287	1,487	1,234			9,071
Expenditures for property, plant and equipment	1,376	1,409	1,330	1,814			5,929

Note 12. Share-Based Compensation

The Board of Directors adopted the II-VI Incorporated 2012 Omnibus Incentive Plan (the "Plan") which was approved by the shareholders of the Company. The Plan provides for the grant of non-qualified stock options, stock appreciation rights, restricted share awards, restricted share units, deferred share awards, performance share awards and performance share units to employees, officers and directors of the Company. The Company records share-based compensation expense for these awards in accordance with U.S. GAAP, which requires the recognition of the fair value of share-based compensation in net earnings. The Company recognizes the share-based compensation expense over the requisite service period of the individual grantees, which generally equals the vesting period.

Edgar Filing: II-VI INC - Form 10-Q

During the three months ended September 30, 2013 and 2012, the Company recorded \$4.4 million and \$3.6 million, respectively, of share-based compensation expense in its Condensed Consolidated Statements of Earnings, which was allocated approximately 20% to cost of goods sold and 80% to selling, general and administrative expense based on the employee classification of the grantees. Share-based compensation expense for the periods indicated was as follows (\$000):

	Three Months Ended September 30, 2013	Three Months Ended September 30, 2012
Stock Options and Cash-Based Stock Appreciation Rights	\$ 1,960	\$ 1,589
Restricted Share Awards and Cash-Based Restricted Share Unit Awards	1,514	1,061
Performance Share Awards and Cash-Based Performance Share Unit Awards	962	976
	\$ 4,436	\$ 3,626

Table of Contents***Stock Options and Stock Appreciation Rights:***

The Company utilizes the Black-Scholes valuation model for estimating the fair value of these awards. During the three months ended September 30, 2013 and 2012, the weighted-average fair values of awards granted under the Plan were \$9.16 and \$8.49 per award, respectively, using the following assumptions:

	Three Months Ended September 30, 2013	Three Months Ended September 30, 2012
Risk free interest rate	1.79%	0.93%
Expected volatility	49%	49%
Expected life of options	5.89 years	5.65 years
Dividend yield	None	None

The risk-free interest rate is derived from the average U.S. Treasury Note rate during the period, which approximates the rate in effect at the time of grant related to the expected life of the awards. The risk free interest rate shown above is the weighted average rate for all awards granted during the each respective period. Expected volatility is based on the historical volatility of the Company's Common Stock over the period commensurate with the expected life of the awards. The expected life calculation is based on the observed time to post-vesting exercise and/or forfeitures of awards by our employees. The dividend yield of zero is based on the fact that the Company has never paid cash dividends and has no current intention to pay cash dividends in the future. The estimated annualized forfeitures are based on the Company's historical experience of award cancellations pre-vesting and are estimated at a rate of 16%. The Company will record additional expense in future periods if the actual forfeiture rate is lower than estimated, and will adjust expense in future periods if the actual forfeitures are higher than estimated.

Restricted Share Awards and Restricted Share Units:

The restricted share awards and units compensation expense was calculated based on the number of shares or units expected to be earned by the grantees multiplied by the stock price at the date of grant and is being recognized over the vesting period. Generally, the restricted share awards and units have a three year cliff-vesting provision and an estimated forfeiture rate of 7.5%.

Performance Share Awards and Performance Share Units:

The Compensation Committee of the Board of Directors of the Company has granted certain named executive officers and employees performance share awards and units under the Plan. As of September 30, 2013, the Company had outstanding grants covering performance periods ranging from 24 to 48 months. These awards are intended to provide continuing emphasis on specified financial performance goals that the Company considers important contributors to long-term shareholder value. These awards are payable only if the Company achieves specified levels of financial performance during the performance periods. The performance share awards and units compensation expense is calculated based on the estimated number of shares or units expected to be earned multiplied by the stock price at the date of grant.

Note 13. Fair Value of Financial Instruments

The FASB defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous markets for the asset and liability in an orderly transaction between market participants at the measurement date. The Company estimates fair value of its financial instruments utilizing an established three-level hierarchy in accordance with U.S. GAAP. The hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date as follows:

Level 1 Valuation is based upon unadjusted quoted prices for identical assets or liabilities in active markets.

Table of Contents

Level 2 Valuation is based upon quoted prices for similar assets and liabilities in active markets, or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instruments.

Level 3 Valuation is based upon other unobservable inputs that are significant to the fair value measurements.

The classification of fair value measurements within the hierarchy is based upon the lowest level of input that is significant to the measurement. At September 30, 2013, the Company had foreign currency forward contracts recorded at fair value. The fair values of these instruments were measured using valuations based upon quoted prices for similar assets and liabilities in active markets (Level 2) and are valued by reference to similar financial instruments, adjusted for credit risk and restrictions and other terms specific to the contracts. At September 30, 2013, the Company had a contingent earnout arrangement related to the acquisition of LightWorks recorded at fair value. The LightWorks earnout arrangement provides up to a maximum of \$4.2 million of additional cash payments to the former shareholders based upon LightWorks achieving certain agreed upon financial targets for revenues and customer orders in calendar year 2013, which if earned, would be paid no later than March 2014. As of September 30, 2013, the Company has made total earnout payments of \$2.2 million for the customer order portion of the earnout arrangement which was achieved at 100% during July of 2013. The Company and has recorded the fair value of the remaining revenue earnout arrangement of \$1.1 million in Other accrued liabilities in the Condensed Consolidated Balance Sheet. The fair value of the earnout arrangement was based on significant inputs not observable in the market and represents a Level 3 measurement as defined by U.S. GAAP. The Company uses the income approach in measuring the fair value of the earnout arrangement, which assumed a probability of 55% for the revenue earnout. The impact on fair value of discounting the revenue earnout arrangement was not significant as the earnout period ends on December 31, 2013 and is expected to be paid in March 2014. There were no fair value remeasurements recorded on the earnout arrangement during the three months ended September 30, 2013.

The following table provides a summary by level of the fair value of financial instruments that are measured on a recurring basis as of September 30, 2013 (\$000):

	Fair Value Measurements at September 30, 2013 Using:		
	Quoted Prices in Active Markets for Identical Assets September 30, 2013 (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Liabilities:			
Foreign currency forward contracts	\$ 57	57	
Contingent earnout arrangement	\$ 1,100	\$	\$ 1,100

	Fair Value Measurements at June 30, 2013 Using:		
June 30, 2013	Quoted Prices in Active Markets	Significant Other Observable Inputs	Significant Unobservable Inputs (Level 3)

for
Identical
Assets
(Level 1)

(Level 2)

Liabilities:

Contingent earnout arrangement	\$ 3,300	\$	\$	\$ 3,300
Foreign currency forward contracts	\$ 174	\$	\$ 174	\$

The Company's policy is to report transfers into and out of Levels 1 and 2 of the fair value hierarchy at fair values as of the beginning of the period in which the transfers occur. There were no transfers in and out of Levels 1 and 2 of the fair value hierarchy during the three months ended September 30, 2013.

The following table presents a reconciliation of the beginning and ending fair value measurements of the Company's Level 3 contingent earnout arrangement related to the acquisition of LightWorks (\$000):

	Significant Unobservable Inputs (Level 3)
Balance at July 1, 2013	\$ 3,300
Payments	(2,200)
Changes in fair value	
Balance at September 30, 2013	\$ 1,100

Table of Contents

The carrying value of Cash and cash equivalents, Accounts receivable and Accounts payable are considered Level 1 among the fair value hierarchy and approximate fair value because of the short-term maturity of those instruments. The Company's borrowings are considered Level 2 among the fair value hierarchy and have variable interest rates and accordingly their carrying amounts approximate fair value.

Note 14. Derivative Instruments

The Company, from time to time, purchases foreign currency forward exchange contracts, primarily in Japanese Yen, that permit it to sell specified amounts of these foreign currencies expected to be received from its export sales for pre-established U.S. dollar amounts at specified dates. These contracts are entered into to limit transactional exposure to changes in currency exchange rates of export sales transactions in which settlement will occur in future periods and which otherwise would expose the Company, on the basis of its aggregate net cash flows in respective currencies, to foreign currency risk.

The Company has recorded the fair market value of these contracts in the Company's condensed consolidated financial statements. These contracts had a total notional amount of \$7.3 million and \$4.7 million at September 30, 2013 and June 30, 2013, respectively. As of September 30, 2013, these forward contracts had expiration dates ranging from October 2013 through January 2014, with Japanese Yen denominations individually ranging from 170 million Yen to 200 million Yen. The Company does not account for these contracts as hedges as defined by U.S. GAAP and records the change in the fair value of these contracts in Other expense (income), net in the Condensed Consolidated Statements of Earnings as they occur. The fair value measurement takes into consideration foreign currency rates and the current creditworthiness of the counterparties to these contracts, as applicable, and is based upon quoted prices for similar assets and liabilities in active markets, or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instruments and thus represents a Level 2 measurement. These contracts are recorded in other accrued liabilities in the Company's Condensed Consolidated Balance Sheets. The change in the fair value of these contracts for the three months ended September 30, 2013 and 2012 was insignificant.

Note 15. Commitments and Contingencies

The Company records a warranty reserve as a charge against earnings based on a percentage of sales utilizing actual warranty claims over the last twelve months. The following table summarizes the change in the carrying value of the Company's warranty reserve, which is a component of Other accrued liabilities in the Company's Condensed Consolidated Balance Sheets, as of and for the three months ended September 30, 2013 (\$000):

	Three Months Ended September 30, 2013
Balance beginning of period	\$ 1,661
Payments made during the period	(630)
Additional warranty liability recorded during the period	466
Warranty liability assumed through acquisition of Laser Enterprise	1,037

Balance	end of period	\$	2,534
---------	---------------	----	-------

Note 16. Post-Retirement Benefits

In connection with the Company's acquisition of Laser Enterprise, the Company assumed the existing pension plan covering employees of our Zurich, Switzerland subsidiary which included an \$8.9 million unfunded pension liability which was recorded as part of the preliminary purchase price allocation of Laser Enterprise. This unfunded pension liability is recorded in Other liabilities in the Condensed Consolidated Balance Sheet at September 30, 2013. Due to the timing of the acquisition, net periodic pension cost for three months ended September 30, 2013 was not significant. In addition, the Company made no contributions to the plan during the three months ended September 30, 2013.

Table of Contents**Note 17. Subsequent Events**

On November 1, 2013, the Company acquired the fiber amplifier and micro-optics business of Oclaro, Inc. (the Amplifier Business) in a transaction valued at \$88.6 million. The Company had previously paid \$5 million for an exclusive option to acquire the Amplifier Business which was recorded in Other assets in the Condensed Consolidated Balance Sheet at September 30, 2013. This \$5.0 million payment will be applied against the total purchase price of \$88.6 million. The remaining purchase price of \$83.6 million consisted of an initial cash payment of \$79.6 million and a \$4.0 million holdback amount that is expected to be paid no later than December 31, 2014, subject to post-closing adjustments or claims. Due to the close proximity of this acquisition to the filing date of this Form 10-Q, the Company was unable to make certain financial statement disclosures related to the purchase price allocation of the Amplifier Business. For financial reporting purposes, this business will be included as part of the Company s new operating segment, Active Optical Products.

Item 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS***Forward-Looking Statements***

This Quarterly Report on Form 10-Q, including Management s Discussion and Analysis contains forward-looking statements as defined by Section 21E of the Securities Exchange Act of 1934, as amended, including statements regarding projected growth rates, markets, product development, financial position, capital expenditures and foreign currency exposure. Forward-looking statements are also identified by words such as expects, anticipates, intends, plans, projects or similar expressions.

Although our management considers these expectations and assumptions to be reasonable, actual results could materially differ from any such forward-looking statements included in this Quarterly Report on Form 10-Q or otherwise made by our management due to the following factors, among others; materially adverse changes in economic or industry conditions generally (including capital markets) or in the markets served by the Company, the development and use of new technology, the purchasing patterns of customers and end-users, the timely release of new products and acceptance of such new products by the market, the actions of competitors, our ability to devise and execute strategies to respond to market conditions, and our ability to assimilate recently acquired businesses. There are additional risk factors that could materially affect the Company s business, results of operations or financial condition. Investors are encouraged to review the risk factors set forth in the Company s most recent Annual Report on Form 10-K as filed with the Securities and Exchange Commission on August 28, 2013.

In addition, we operate in a highly competitive and rapidly changing environment; therefore, new risk factors can arise, and it is not possible for management to predict all such risk factors, nor to assess the impact of all such risk factors on our business or the extent to which any individual risk factor, or combination of risk factors, may cause results to differ materially from those contained in any forward-looking statement. The forward-looking statements included in this Quarterly Report on Form 10-Q are based only on information currently available to us and speak only as of the date of this report. We do not assume any obligation and do not intend to update any forward-looking statements, whether as a result of new information, future developments or otherwise, except as may be required by the securities laws, and we caution you not to rely on them unduly.

Investors should also be aware that while the Company does communicate with securities analysts, from time to time, such communications are conducted in accordance with applicable securities laws and investors should not assume that the Company agrees with any statement or report issued by any analyst irrespective of the content of the statement or report.

Introduction

II-VI Incorporated (II-VI, the Company, we, us or our), a worldwide leader in engineered materials and opto-electronic components, is a vertically-integrated manufacturing company that creates and markets products for diversified markets including industrial manufacturing, optical communications, military, semiconductor, high-power electronics, medical and thermoelectronics applications.

The Company generates revenues, earnings and cash flows from developing, manufacturing and marketing engineered materials and opto-electronic components for precision use in industrial, optical communications, military, semiconductor, medical and consumer applications. We also generate revenue, earnings and cash flows from government-funded research and development contracts relating to the development and manufacture of new technologies, materials and products.

Table of Contents

Our customer base includes original equipment manufacturers (OEMs), laser end users, system integrators of high-power lasers, manufacturers of equipment and devices for industrial, optical communications, security and monitoring applications, U.S. government prime contractors, various U.S. government agencies and thermoelectric solutions suppliers.

In conjunction with the acquisition of Laser Enterprise on September 12, 2013, the Company has established a new reporting segment Active Optical Products which will report the operating results of the Company s newly acquired business.

Critical Accounting Estimates

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America and the Company s discussion and analysis of its financial condition and results of operations require the Company s management to make judgments, assumptions and estimates that affect the amounts reported in its condensed consolidated financial statements and accompanying notes. Note 1 of the Notes to Consolidated Financial Statements in the Company s most recent Annual Report on Form 10-K describes the significant accounting policies and methods used in the preparation of the Company s consolidated financial statements. Management bases its estimates on historical experience and on various other assumptions that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities. Actual results may differ from these estimates.

Management believes the Company s critical accounting estimates are those related to revenue recognition, allowance for doubtful accounts, warranty reserves, inventory valuation, valuation of long-lived assets including acquired intangibles and goodwill, accrual of bonus and profit sharing estimates, accrual of income tax liability estimates and accounting for share-based payments. Management believes these estimates to be critical because they are both important to the portrayal of the Company s financial condition and results of operations, and they require management to make judgments and estimates about matters that are inherently uncertain.

The Company recognizes revenues in accordance with U.S. GAAP. Revenues for product shipments are realizable when we have persuasive evidence of a sales arrangement, the product has been shipped or delivered, the sale price is fixed or determinable and collectability is reasonably assured. Title and risk of loss passes from the Company to its customer at the time of shipment in most cases with the exception of certain customers, for whom title does not pass and revenue is not recognized until the customer has received the product at its physical location. The Company s revenue recognition policy is consistently applied across the Company s segments, product lines and geographical locations. Further, we do not have post-shipment obligations such as training or installation, customer acceptance provisions, credits and discounts, rebates and price protection or other similar privileges. Our distributors and agents are not granted price protection. Our distributors and agents, who comprise less than 10% of consolidated revenue, have no additional product return rights beyond the right to return defective products covered by our warranty policy. Revenues generated from transactions other than product shipments are contract-related and have historically accounted for less than 5% of the Company s consolidated revenues. We believe our revenue recognition practices have adequately considered the requirements under U.S. GAAP.

We establish an allowance for doubtful accounts and warranty reserves based on historical experience and believe the collection of revenues, net of these reserves, is reasonably assured. Our allowance for doubtful accounts and warranty reserve balances at September 30, 2013 was \$1.1 million and \$2.5 million, respectively. Our reserve estimates have historically been proven to be materially correct based upon actual charges incurred.

New Accounting Standards

See Note 2. Recent Accounting Pronouncements, to our unaudited financial statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for a description of recent accounting pronouncements, including the expected dates of adoption and estimated effects, if any, on our consolidated financial statements.

Table of Contents**Results of Operations (\$ millions, except per-share data)**

The following tables set forth bookings and select items from our Condensed Consolidated Statements of Earnings for the three months ended September 30, 2013 and 2012, respectively:

	Three Months Ended September 30, 2013		Three Months Ended September 30, 2012	
Bookings	\$ 143.5		\$ 114.4	
		% of Revenues		% of Revenues
Total Revenues	\$ 151.2	100.0%	\$ 132.3	100.0%
Cost of goods sold	94.8	62.7	83.5	63.1
Gross margin	56.4	37.3	48.8	36.9
Operating Expenses:				
Internal research and development	7.7	5.1	5.6	4.2
Selling, general and administrative	35.1	23.2	26.7	20.2
Interest and other, net	0.7	0.5	(0.8)	(0.6)
Earnings before income tax	12.9	8.5	17.3	13.1
Income taxes	3.2	2.1	4.2	3.2
Net earnings	9.7	6.4	13.1	9.9
Net earnings attributable to noncontrolling interest			0.4	0.3
Net earnings attributable to II-VI Incorporated	\$ 9.7	6.4%	\$ 12.7	9.6%
Diluted earnings per-share	\$ 0.15		\$ 0.20	

Executive Summary

Net earnings attributable to II-VI for the three months ended September 30, 2013 were \$9.7 million (\$0.15 per-share diluted), compared to \$12.7 million (\$0.20 per-share diluted) for the same period last fiscal year. The decrease in segment earnings is mostly attributable to \$3.3 million of transaction expenses (net of tax) that were incurred in connection with the September 2013 acquisition of Laser Enterprise. The Company believes this acquisition will provide an opportunity to expand current product offerings while providing a more complete product portfolio to customers. In addition, the Company's Photop business unit experienced lower levels of profitability during the three months ended September 30, 2013 when compared to the same period last fiscal year as price reductions on optical component products supporting lower speed networks put downward pressure on gross margin. Furthermore, Photop continued to increase its investment levels of internal research and development activities supporting the ongoing technology transition from 40G to 100G high speed networks. Somewhat offsetting these unfavorable impacts on profitability was the Company's PRM business unit. Despite inventory write-downs of \$0.7 million related mostly to precious metals inventory, PRM achieved positive net earnings during the three months ended September 30, 2013 as a result of its refocused business model. PRM continued to improve the performance of its rare earth element product

line while providing a secure internal source of selenium metal to the Company's Infrared Optics segment.

Consolidated

Bookings. Bookings for the three months ended September 30, 2013 increased 25% to \$143.5 million, compared to \$114.4 million for the same period last fiscal year. Bookings are defined as customer orders received that are expected to be converted to revenues over the next twelve months. For long-term customer orders, the Company does not include in bookings the portion of the customer order that is beyond twelve months, due to the inherent uncertainty of an order that far out in the future. The increase in bookings for the three months ended September 30, 2013 compared to the same period last fiscal year was mostly the result of incremental bookings from the prior fiscal year acquisitions of M Cubed, Photop's Advanced Coating Center, and LightWorks. In addition, Marlow experienced higher booking levels related to the personal comfort market.

Revenues. Revenues for the three months ended September 30, 2013 increased 14% to \$151.2 million, compared to \$132.3 million for the same period last fiscal year. The increase in revenues for the three months ended September 30, 2013 compared to the same period last fiscal year is mostly the result of incremental revenues from the prior fiscal year acquisitions of M Cubed, Photop's Advanced Coating Center, and LightWorks, as well as higher shipment volumes of standard optics by the Company's Infrared Optics segment.

Gross margin. Gross margin for the three months ended September 30, 2013 was \$56.4 million or 37.3% of total revenues, compared to \$48.8 million or 36.9% of total revenues, for the same period last fiscal year. The increase in gross margin was a result of margin improvement at Marlow due to favorable product mix including the personal comfort product offset somewhat by lower gross margin at Photop due to price reduction on legacy optical component products. In addition, PRM realized stronger gross margin due to improvements in production efficiency related to its rare earth element product line as well as the discontinuation of its selenium chemicals and tellurium product lines, which were exposed to index price volatility during the three months ended September 30, 2012.

Table of Contents

Internal research and development. Company-funded internal research and development expenses for the three months ended September 30, 2013 were \$7.7 million, or 5.1% of revenues, compared to \$5.6 million, or 4.2% of revenues, for the same period last fiscal year. The increased investment in research and development activities was attributable to the recent acquisitions of M Cubed, Photop's Advanced Coating Center and LightWorks as well as Photop's ongoing efforts to develop product offerings that support the transition to high speed network deployments around the world.

Selling, general and administrative. Selling, general and administrative expenses for the three months ended September 30, 2013 were \$35.1 million or 23.2% of revenues, compared to \$26.7 million, or 20.2% of revenues, for the same period last fiscal year. Selling, general and administrative expense as a percentage of revenues increased during the three months ended September 30, 2013 compared to the same periods last fiscal year, mostly as a result of transaction expenses of \$3.5 million incurred in connection with the acquisition of Laser Enterprise.

Interest and other, net. Interest and other, net for the three months ended September 30, 2013 was expense of \$0.7 million. Included in interest and other, net for the three months ended September 30, 2013 were earnings from the Company's equity investment in Fuxin, net interest expense on borrowings and excess cash reserves, unrealized gains on the deferred compensation plan and foreign currency losses.

Income taxes. The Company's year-to-date effective income tax rate at September 30, 2013 was 25.1%, compared to an effective tax rate of 24.2% for the same period last fiscal year. The variation between the Company's effective tax rate and the U.S. statutory rate of 35% was primarily due to the Company's foreign operations which are subject to income taxes at lower statutory rates.

Segment Reporting

Bookings, revenues and segment earnings for the Company's reportable segments are discussed below. Segment earnings differ from income from operations in that segment earnings exclude certain operational expenses included in other expense (income) net as reported. Management believes segment earnings to be a useful measure as it reflects the results of segment performance over which management has direct control and is used by management in its evaluation of segment performance. See Note 11. Segment Reporting, to our unaudited financial statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for further information on the Company's reportable segments and for the reconciliation of segment earnings to net earnings.

Infrared Optics (in millions)

The Company's Infrared Optics segment includes the combined operations of Infrared Optics and HIGHYAG.

	Three Months Ended		%
	September 30,	September 30,	Increase
	2013	2012	(Decrease)
Bookings	\$ 47.4	\$ 47.5	%
Revenues	\$ 52.6	\$ 51.6	2%
Segment earnings	\$ 10.8	\$ 11.8	(8)%

Bookings for the three months ended September 30, 2013 for Infrared Optics were \$47.4 million, consistent with \$47.5 million for the same period last fiscal year. Revenues for the three months ended September 30, 2013 for

Infrared Optics were \$52.6 million, consistent with revenues of \$51.6 million for the same period last fiscal year. Segment earnings for the three months ended September 30, 2013 for Infrared Optics decreased 8% to \$10.8 million, compared to \$11.8 million for the same period last fiscal year, mostly due to an increase in allocated corporate overhead expenses specific to share-based compensation expense.

Near-Infrared Optics (in millions)

	Three Months Ended September 30,		% Increase (Decrease)
	2013	2012	
Bookings	\$ 40.8	\$ 35.1	16%
Revenues	\$ 39.9	\$ 40.6	(2)%
Segment earnings	\$ 3.1	\$ 7.7	(60)%

Table of Contents

Bookings for the three months ended September 30, 2013 for Near-Infrared Optics increased 16% to \$40.8 million, compared to \$35.1 million for the same period last fiscal year. The majority of this increase was attributable to the strengthening demand for optical components used in telecommunication systems, instrumentation devices and laser systems. In addition, the December 2012 acquisition of Photop's Advanced Coating Center positively impacted bookings during the current three months ended September 30, 2013.

Revenues for the three months ended September 30, 2013 for Near-Infrared Optics decreased 2% to \$39.9 million, compared to \$40.6 million for the same period last fiscal year. Excluding revenues from Photop's Advanced Coating Center, revenues for Near-Infrared Optics decreased 9% compared to the same period last fiscal year, mostly due to final product shipments of a specific contract for green laser diodes.

Segment earnings for the three months ended September 30, 2013 for Near-Infrared Optics decreased 60% to \$3.1 million, compared to \$7.7 million for the same period last fiscal year. The decrease in segment earnings was attributable to lower gross margin profiles of products shipped as well as increased investment in internal research and development activities. The decreased gross margin was due to the ongoing transition from 40G to 100G technology in the telecommunications and optical communication markets as price reductions on legacy products negatively impacted gross margins. In addition, annual wage increases in China also put downward pressure on gross margin at Photop. The increased spending on research and development activities is indicative of Photop's continued focus on new product development of high-end optical components for next generation high-speed networks.

Military & Materials (in millions)

	Three Months Ended		
	September 30,		%
	2013	2012	Increase
Bookings	\$ 21.8	\$ 17.8	23%
Revenues	\$ 27.4	\$ 23.9	15%
Segment earnings	\$ 3.4	\$ (2.1)	262%

The Company's Military & Materials segment includes the combined operations of LWOS, VLOC, MLA and PRM.

Bookings for the three months ended September 30, 2013 for Military & Materials increased 23% to \$21.8 million, compared to \$17.8 million for the same period last fiscal year. The increase in bookings for the current year compared to the same period last fiscal year was primarily driven by bookings from the December 2012 acquisition of LightWorks.

Revenues for the three months ended September 30, 2013 for Military & Materials increased 15% to \$27.4 million, compared to \$23.9 million for the same period last fiscal year. The increase in revenues for the current year compared to the same period last fiscal year was primarily driven by revenues from the December 2012 acquisition of LightWorks. In addition, PRM experienced reduced shipment volumes due to the discontinuation of its selenium chemicals and tellurium product lines which somewhat offset the incremental revenues from LightWorks.

Segment earnings (loss) for the year ended June 30, 2013 for Military & Materials was segment earnings of \$3.4 million, compared to a segment loss of \$2.1 million for the same period last fiscal year. The favorable change in segment earnings for the three months ended September 30, 2013 compared to the same period last fiscal year was due to increased profitability at PRM as a result of the previously announced discontinuance of the tellurium and

selenium chemicals product lines. In addition, increased yields and production output of PRM's rare earth element product has contributed to higher gross margins and overall profitability of the business.

Table of Contents***Advanced Products Group (in millions)***

	Three Months Ended		% Increase
	September 30, 2013	September 30, 2012	
Bookings	\$ 30.0	\$ 14.0	114%
Revenues	\$ 26.5	\$ 16.2	64%
Segment earnings (loss)	\$ 0.3	\$ (0.8)	138%

The Company's Advanced Products Group includes the combined operations of Marlow, M Cubed, WBG and WMG.

Bookings for the three months ended September 30, 2013 for the Advanced Products Group increased 114% to \$30.0 million, compared to \$14.0 million for the same period last fiscal year. The increase in bookings for the three months ended September 30, 2013 compared to the same period last fiscal year was primarily due to the incremental bookings from the November 2012 acquisition of M Cubed. In addition, production orders at Marlow specific to the personal comfort market more than offset weakening demand for its products in the telecommunication, medical and defense markets.

Revenues for the three months ended September 30, 2013 for the Advanced Products Group increased 64% to \$26.5 million, compared to \$16.2 million for the same period last fiscal year. The increase in revenues for the three months ended September 30, 2013 compared to the same period last fiscal year was primarily due to incremental revenues from the November 2012 acquisition of M Cubed. In addition, WBG experienced lower shipments of semi-insulating SiC substrates due to reduced customer demand in the wireless infrastructure market and a delay in the receipt of a Department of Defense development contract which somewhat offset the incremental revenues from M Cubed.

Segment earnings for the three months ended September 30, 2013 were \$0.3 million, compared to a segment loss of \$0.8 million for the same period last fiscal year. The favorable change in segment earnings for the three months ended September 30, 2013 compared to the same period last fiscal year was primarily due to profit contributions from M Cubed as well as increased gross margins at Marlow resulting from a more favorable product mix.

Active Optical Products

In September 2013, the Company acquired all of the outstanding shares of Oclaro Switzerland GmbH, a limited liability company formed under the laws of the Swiss confederation, as well as certain additional assets of Oclaro, Inc. used in the semiconductor laser business. The total consideration consisted of \$90.6 million, net of cash acquired of \$1.7 million, a \$6.0 million holdback amount by the Company for 15 months to address any post-closing adjustments or claims, and a \$2.0 million holdback amount for potential post-closing working capital adjustments. Oclaro, Inc. retained the accounts receivable which was valued at \$14.7 million. The Company will operate the business as Laser Enterprise and will include it in the Company's new operating segment Active Optical Products. Laser Enterprise is a manufacturer of high-power semiconductor laser components enabling fiber and direct diode laser systems for material processing, medical, consumer and printing applications. In addition, the segment manufactures pump lasers for optical amplifiers for both terrestrial and submarine applications and VCSELS for optical navigation, optical interconnects and optical sensing applications.

The amount of bookings, revenues and segment loss of Active Optical Products for the quarter ended September 30, 2013 was \$3.5 million, \$4.8 million and (\$4.1) million, respectively, representing 18 days of activity since the date of

acquisition. The Company incurred approximately \$3.5 million of transaction expenses in conjunction with the acquisition of this business which are reflected as part of the Active Optical Products segment loss.

Liquidity and Capital Resources

Historically, our primary source of cash has been provided through operations. Other sources of cash include proceeds received from the exercises of stock options and long-term borrowings. Our historical uses of cash have been for capital expenditures, business acquisitions, payments of principal and interest on outstanding debt obligations and purchases of treasury stock. Supplemental information pertaining to our sources and uses of cash for the periods indicated is presented as follows (\$ millions):

	Three Months Ended	
	September 30,	
	2013	2012
Net cash provided by operating activities	\$ 24.4	\$ 23.2
Proceeds from exercises of stock options	2.5	1.1
Purchase of business, net of cash acquired	(90.6)	
Additions to property, plant and equipment	(6.6)	(5.9)
Payment of option to acquire business	(5.0)	
Net proceeds on borrowings	97.0	5.0
Payment of redeemable noncontrolling interest	(8.8)	
Payment on earnout arrangement	(2.2)	
Purchases of treasury stock		(5.9)
Other	(0.9)	0.2

Table of Contents*Net cash provided by operating activities:*

Cash provided by operating activities was \$24.4 million for the three months ended September 30, 2013, compared to cash provided by operating activities of \$23.2 million for the same period last fiscal year. Although net earnings were lower during the three months ended September 30, 2013, the Company experienced higher levels of non-cash items such as depreciation, amortization and share-based compensation expense when compared to the same period last fiscal year.

Net cash used in investing activities:

Net cash used in investing activities was \$102.2 million for the three months ended September 30, 2013, compared to net cash used of \$5.9 million for the same period last fiscal year. The majority of net cash used in investing activities during the three months ended September 30, 2013 was the result of the \$90.6 million net cash paid for the acquisition of Laser Enterprise as well as a \$5.0 million payment made for an exclusive option to acquire the fiber amplifier and micro-optics business from Oclaro, Inc.

Net cash provided by financing activities:

Net cash provided by financing activities for the three months ended September 30, 2013 was \$87.2 million compared to net cash provided by financing activities of \$0.4 million for the same period last fiscal year. The change in net cash flows from financing activities is primarily due to \$97.0 million of net borrowings used to finance the Company's acquisition of Laser Enterprise, offset somewhat by a \$2.2 million earnout payment to the former owners of LightWorks and an \$8.8 million payment made to acquire the remaining ownership of HIGHYAG.

On September 10, 2013, the Company amended and restated its existing credit agreement. The Second Amended and Restated Credit Agreement (the Amended Credit Facility) provides for a revolving credit facility of \$225 million (increased from \$140 million), as well as a \$100 million Term Loan. The Term Loan, shall be re-paid in consecutive quarterly principal payments on the first business day of each January, April, July and October, with the first payment commencing on October 1, 2013, as follows: (i) twenty consecutive quarterly installments of \$5 million and (ii) a final installment of all remaining principal due and payable on the maturity date. The Amended Credit Facility is unsecured, but is guaranteed by each existing and subsequently acquired or organized wholly-owned domestic subsidiary of the Company. The Company has the option to request an increase to the size of the Amended Credit Facility in an aggregate additional amount not to exceed \$100 million. The Amended Credit Facility has a five-year term through September 2018 and has an interest rate of LIBOR, as defined in the agreement, plus 0.75% to 1.75% based on the Company's ratio of consolidated indebtedness to consolidated EBITDA. Additionally, the facility is subject to certain covenants, including those relating to minimum interest coverage and maximum leverage ratios. As of September 30, 2013, the Company was in compliance with all financial covenants.

The Company's Yen denominated line of credit is a 500 million Yen facility that has a five-year term through June 2016 and has an interest rate equal to LIBOR, as defined in the loan agreement, plus 0.625% to 1.50%. At September 30, 2013 and June 30, 2013, the Company had 300 million Yen borrowed. Additionally, the facility is subject to certain covenants, including those relating to minimum interest coverage and maximum leverage ratios. As of September 30, 2013, the Company was in compliance with all financial covenants.

The Company had aggregate availability of \$117.8 million and \$29.8 million under its lines of credit as of September 30, 2013 and June 30, 2013, respectively. The amounts available under the Company's lines of credit are reduced by outstanding letters of credit. As of September 30, 2013 and June 30, 2013, total outstanding letters of credit supported by the credit facilities were \$1.3 million.

Table of Contents

The weighted average interest rate of total borrowings was 1.49% and 0.89%, for the three months ended September 30, 2013 and 2012, respectively.

The Company's cash position, borrowing capacity and debt obligations for the periods indicated were as follows (\$000's):

	September 30, 2013	June 30, 2013
Cash and cash equivalents	\$ 195.2	\$ 185.4
Available borrowing capacity	117.8	29.8
Total debt obligation	211.1	114.0

The Company believes cash flow from operations, existing cash reserves and available borrowing capacity will be sufficient to fund its working capital needs, capital expenditures and internal and external growth objectives for the next twelve months. The Company's cash and cash equivalent balances are generated and held in numerous locations throughout the world, including amounts held outside the United States. As of September 30, 2013 and June 30, 2013, the Company held approximately \$153 million and \$143 million, respectively, of cash and cash equivalents outside of the United States. Cash balances held outside the United States could be repatriated to the United States, but, under current law, would potentially be subject to United States federal income taxes, less applicable foreign tax credits. The Company has not recorded deferred income taxes related to undistributed earnings outside of the United States as the earnings of the Company's foreign subsidiaries are indefinitely reinvested.

On November 1, 2013, the Company acquired the Amplifier Business from Oclaro, Inc. in a transaction valued at \$88.6 million. The Company had previously paid \$5.0 million for an exclusive option to acquire the Amplifier Business which was recorded within Other assets in the Condensed Consolidated Balance Sheet at September 30, 2013. This \$5.0 million payment will be applied against the total purchase price of \$88.6 million. The remaining purchase price of \$83.6 million consisted of an initial cash payment of \$79.6 million and a \$4.0 million hold-back amount that is expected to be paid no later than December 31, 2014, subject to post-closing adjustments or claims. The Company believes cash flow from operations, existing cash reserves and available borrowing capacity will be sufficient to fund its working capital needs, capital expenditures and internal and external growth objectives for the next twelve months following this acquisition. The Company's borrowing capacity and debt obligations immediately following this transaction were \$37.8 million and \$291.1 million, respectively.

Contractual Obligations

The following table presents information about the Company's contractual obligations and commitments as of September 30, 2013.

Tabular-Disclosure of Contractual Obligations

	Total	Payments Due By Period			
		Less Than 1 Year	1-3 Years	3-5 Years	More Than 5 Years
Contractual Obligations (\$000)					

Edgar Filing: II-VI INC - Form 10-Q

Long-term debt obligations	\$ 211,072	\$ 20,000	\$ 43,072	\$ 148,000	\$
Interest payments ⁽¹⁾	12,546	3,379	5,751	3,416	
Capital lease obligations					
Operating lease obligations ⁽²⁾	49,984	11,130	13,284	10,164	15,406
Purchase obligations ⁽³⁾⁽⁴⁾	99,593	92,033	7,056	504	
Other long-term liabilities reflected on the registrant's balance sheet					
Total	\$ 373,195	\$ 126,542	\$ 69,163	\$ 162,084	\$ 15,406

- (1) Variable rate interest obligations are based on the interest rate in place at September 30, 2013.
- (2) Includes an obligation for the use of two parcels of land related to PRM. The lease obligation extends through years 2039 and 2056.
- (3) A purchase obligation is defined as an agreement to purchase goods or services that is enforceable and legally binding on the Company and that specifies all significant terms, including fixed or minimum quantities to be purchased; minimum or variable price provisions, and the approximate timing of the transaction. These amounts are primarily comprised of open purchase order commitments to vendors for the purchase of supplies and materials.
- (4) Includes \$83.6 million of expected payments to acquire the Amplifier Business, as well as \$8.0 million of holdback payments associated with the acquisition of Laser Enterprise.

Table of Contents

The \$3.5 million gross unrecognized income tax benefit at September 30, 2013 is excluded from the table above as the Company is not able to reasonably estimate the amount by which the liability will increase or decrease over time; however, at this time, the Company does not expect a significant payment related to these obligations within the next year.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Foreign Exchange Risks

The Company is exposed to market risks arising from adverse changes in foreign currency exchange rates and interest rates. In the normal course of business, the Company uses a variety of techniques and derivative financial instruments as part of its overall risk management strategy primarily focused on its exposure to the Japanese Yen. No significant changes have occurred in the techniques and instruments used other than those described below.

Changes in the foreign currency exchange rates of these currencies had an immaterial impact on the results of operations for all periods presented.

In the normal course of business, the Company enters into foreign currency forward exchange contracts with its banks, the purpose of which is to hedge ordinary business risks regarding foreign currencies on product sales. Foreign currency exchange contracts are used to limit transactional exposure to changes in currency exchange rates. The Company enters into foreign currency forward contracts that permit it to sell specified amounts of foreign currencies expected to be received from its export sales for pre-established U.S. dollar amounts at specified dates. The forward contracts are denominated in the same foreign currencies in which export sales are denominated. These contracts provide the Company with an economic hedge in which settlement will occur in future periods and which otherwise would expose the Company to foreign currency risk. The Company monitors its positions and the credit ratings of the parties to these contracts. While the Company may be exposed to potential losses due to risk in the event of non-performance by the counterparties to these financial instruments, it does not currently anticipate such losses. The Company currently has a 500 million Yen revolving credit facility to help minimize the foreign currency exposure in Japan.

A 10% change in the Yen to dollar exchange rate would have changed revenues in the range from a decrease of \$0.8 million to an increase of \$1.0 million for the three months ended September 30, 2013.

For II-VI Singapore Pte., Ltd. and its subsidiaries, II-VI Suisse S.a.r.l., PRM and AOFR, the functional currency is the U.S. dollar. Gains and losses on the remeasurement of the local currency financial statements are included in net earnings. Foreign currency remeasurement was immaterial for all periods presented.

For all other foreign subsidiaries, the functional currency is the applicable local currency. Assets and liabilities of those operations are translated into U.S. dollars using period-end exchange rates, while income and expenses are translated using the average exchange rates for the reporting period. Translation adjustments are recorded as accumulated other comprehensive income within shareholders' equity.

Interest Rate Risks

As of September 30, 2013, the total borrowings of \$211.1 million were from a line of credit of \$3.1 million denominated in Japanese Yen, borrowings under a term loan of \$100.0 million denominated in U.S. dollars and a line of credit borrowing of \$108.0 million denominated in U.S. dollars. As such, the Company is exposed to market risks

arising from changes in interest rates. A change in the interest rate of these borrowings of 1% would have resulted in additional interest expense of \$0.4 million for the three months ended September 30, 2013.

Item 4. CONTROLS AND PROCEDURES

The Company's management evaluated, with the participation of Francis J. Kramer, the Company's President and Chief Executive Officer, and Craig A. Creaturo, the Company's Chief Financial Officer and Treasurer, the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this Quarterly Report on Form 10-Q. The Company's disclosure controls were designed to provide

Table of Contents

reasonable assurance that information required to be disclosed in reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote. However, the controls have been designed to provide reasonable assurance of achieving the controls' stated goals. Based on that evaluation, Messrs. Kramer and Creaturo concluded that the Company's disclosure controls and procedures are effective at the reasonable assurance level as of the end of the period covered by this report. No changes in the Company's internal control over financial reporting were implemented during the Company's most recently completed fiscal quarter that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II OTHER INFORMATION**Item 1A. RISK FACTORS**

In addition to the risk factors and other information set forth in this Quarterly Report on Form 10-Q, carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended June 30, 2013, which could materially affect our business, financial condition or future results. Those risk factors included in our Annual Report on Form 10-K are not the only risks facing the Company. Additional risks and uncertainties not currently known or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES

The following table sets forth repurchases of our common stock during the quarter ended September 30, 2013:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Dollar Value of Shares That May Be Purchased	
			Total Number of Shares Purchased as Part of Publicly Announced Plans	Under the Plan or Program
July 1, 2013 to July 31, 2013		\$		\$
