(Zip Code)

Registrant's telephone number, including area code: (905) 672-1900 and (813) 313-1800

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
COMMON SHARES WITHOUT NOMINAL OR	NEW YORK STOCK EXCHANGE
PAR VALUE	TORONTO STOCK EXCHANGE

Securities registered pursuant to Section 12(g) of the Act: NONE

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Edgar Filing: COTT CORP /CN/ - Form 10-K

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405) is not contained herein, and will not be contained, to the best of the registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12-12 of the Act). Yes No

The aggregate market value of the common equity held by non-affiliates of the registrant as of June 29, 2013 (based on the closing sale price of \$7.81 for the registrant's common stock as reported on the New York Stock Exchange on June 28, 2013) was \$728.3 million.

(Reference is made to the last paragraph of Part II, Item 5 for a statement of assumptions upon which the calculation is made).

The number of shares outstanding of the registrant's common stock as of February 14, 2014 was 94,310,988.

Documents incorporated by reference

Portions of our definitive proxy circular for the 2014 Annual and Special Meeting of Shareowners, to be filed within 120 days of December 28, 2013, are incorporated by reference in Part III. Such proxy circular, except for the parts therein which have been specifically incorporated by reference, shall not be deemed filed for the purposes of this Annual Report on Form 10-K.

Table of Contents

Our consolidated financial statements are prepared in accordance with United States (U.S.) generally accepted accounting principles (GAAP) in U.S. dollars. Unless otherwise indicated, all amounts in this Annual Report on Form 10-K are in U.S. dollars and U.S. GAAP.

Any reference to 2013, 2012 and 2011 corresponds to our fiscal years ended December 28, 2013, December 29, 2012, and December 31, 2011, respectively.

Forward-looking statements

In addition to historical information, this Annual Report on Form 10-K, and the reports and documents incorporated by reference in this Annual Report on Form 10-K, may contain statements relating to future events and future results. These statements are forward-looking within the meaning of the Private Securities Litigation Reform Act of 1995 and applicable Canadian securities legislation and involve known and unknown risks, uncertainties, future expectations and other factors that may cause actual results, performance or achievements of Cott Corporation to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such statements include, but are not limited to, statements that relate to projections of sales, earnings, earnings per share, cash flows, capital expenditures or other financial items, discussions of estimated future revenue enhancements and cost savings. These statements also relate to our business strategy, goals and expectations concerning our market position, future operations, margins, profitability, liquidity and capital resources. Generally, words such as anticipate, believe, continue, could, endeavor, estimate, expect, intend, may, will, should and similar terms and phrases are used to identify forward-looking statements in this Annual Report on Form 10-K and in the documents incorporated in this Annual Report on Form 10-K by reference. These forward-looking statements reflect current expectations regarding future events and operating performance and are made only as of the date of this Annual Report on Form 10-K.

The forward-looking statements are not guarantees of future performance or events and, by their nature, are based on certain estimates and assumptions regarding interest and foreign exchange rates, expected growth, results of operations, performance, business prospects and opportunities and effective income tax rates, which are subject to inherent risks and uncertainties. Material factors or assumptions that were applied in drawing a conclusion or making an estimate set out in forward-looking statements may include, but are not limited to, assumptions regarding management's current plans and estimates, our ability to remain a low cost supplier, and effective management of commodity costs. Although we believe the assumptions underlying these forward-looking statements are reasonable, any of these assumptions could prove to be inaccurate and, as a result, the forward-looking statements based on those assumptions could prove to be incorrect. Our operations involve risks and uncertainties, many of which are outside of our control, and any one or any combination of these risks and uncertainties could also affect whether the forward-looking statements ultimately prove to be correct. These risks and uncertainties include, but are not limited to, those described in Part I, Item 1A. Risk Factors and elsewhere in this Annual Report on Form 10-K and those described from time to time in our future reports filed with the Securities and Exchange Commission (SEC) and Canadian securities regulatory authorities.

We undertake no obligation to update any information contained in this Annual Report on Form 10-K or to publicly release the results of any revisions to forward-looking statements to reflect events or circumstances of which we may become aware of after the date of this Annual Report on Form 10-K. Undue reliance should not be placed on forward-looking statements.

All future written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the foregoing.

Table of Contents

PART I

ITEM 1. BUSINESS

Our Company

Cott Corporation, together with its consolidated subsidiaries (Cott, the Company, our Company, Cott Corporation, us, or our), is one of the world's largest producers of beverages on behalf of retailers, brand owners and distributors. Our product lines include carbonated soft drinks (CSDs), 100% shelf stable juice and juice-based products, clear, still and sparkling flavored waters, energy drinks, sports products, new age beverages and ready-to-drink teas, as well as alcoholic beverages for brand owners. Our business operates through three reporting segments North America (which includes our U.S. operating segment and Canada operating segment), United Kingdom (U.K.) (which includes our United Kingdom reporting unit and our Continental European reporting unit), and All Other (All Other) (which includes our Mexico operating segment, Royal Crown International (RCI) operating segment and other Miscellaneous Expenses). Our corporate oversight function (Corporate) is not treated as a segment; it includes certain general and administrative costs that are not allocated to any of the reporting segments. During the fourth quarter of 2013, management reviewed our reporting segments and subsequently combined our Mexico and RCI reporting segments with the segment previously classified as All Other into one reporting segment classified as All Other. Prior year information has been updated to reflect the change in our reporting segments.

We incorporated in 1955 and are governed by the Canada Business Corporations Act. Our registered Canadian office is located at 333 Avro Avenue, Pointe-Claire, Quebec, Canada H9R 5W3 and our principal executive offices are located at 5519 W. Idlewild Avenue, Tampa, Florida, United States 33634 and 6525 Viscount Road, Mississauga, Ontario, Canada L4V 1H6.

Competitive Strengths

We believe that our competitive strengths will enable us to maintain our position as one of the world's largest beverage companies on behalf of retailers, brand owners and distributors and will allow us to capitalize on future opportunities to drive sustainable and profitable growth.

Leading Producer of Private-Label Beverages with Diverse Product Portfolio and Contract Manufacturing Capabilities

We are a leading producer of private label beverages in each of the United States, Canada and the United Kingdom by annual volume of cases produced. We also manufacture beverages on a contract basis for certain customers. Our product lines include CSDs, 100% shelf stable juice and juice-based products, clear, still and sparkling flavored waters, energy drinks, sports products, new age beverages and ready-to-drink teas, as well as alcoholic beverages for brand owners. We believe our proven ability to innovate and develop our product portfolio to meet changing consumer demand will position us well to continue to serve our customers and their consumers.

We market or supply over 500 retailer, licensed and Company-owned brands in our four core geographic segments. We sell CSD concentrates and non-carbonated concentrates in approximately 50 countries. We believe that our leadership position, our broad portfolio offering and our existing infrastructure will enable us to continue to penetrate the private-label and contract manufacturing markets, whether it is winning new customers, launching new product stock keeping units (SKUs) with existing customers, or supplying retailers who currently self-manufacture.

Extensive, Flexible Manufacturing Capabilities

Our business is supported by our extensive manufacturing network and flexible production capabilities. Our manufacturing footprint encompasses 34 strategically located beverage manufacturing and fruit processing facilities, including 20 in the United States, five in Canada, seven in the United Kingdom and one in Mexico, as well as one vertically-integrated global concentrate manufacturing facility in Columbus, Georgia that supplies our manufacturing plants and RCI's global customer base.

We are the only dedicated beverage company producing on behalf of retailers, brand owners and distributors with a manufacturing footprint across North America. Manufacturing flexibility is one of our core competencies and is critical to our success, as our products will typically feature customized packaging, design and graphics for our key customers. Our ability to produce multiple SKUs and packages on our production lines and manage complexities through quick-line changeover processes differentiates us from our competition.

Table of Contents

High Levels of Customer Service and Strong Customer Integration

Our business requires a high level of coordination with our customers in areas such as supply chain, product development and customer service. In addition to efficiently managing complex product manufacturing, we have a proven track record of maintaining high service levels across our customer base. We also partner closely with customers on supply chain planning and execution to minimize freight costs, reduce working capital requirements and increase in-store product availability. We work as partners with our customers on new product development and packaging designs. Our role includes providing market expertise as well as knowledge of category trends that may present opportunities for our customers. A high level of customer integration and partnership coupled with a nationwide manufacturing footprint is critical for the development of successful beverage programs for our customers.

Strategic Importance to Our Customers

We have longstanding partnerships with many of the world's leading retailers in the grocery, mass-merchandise and drug store channels, as well as customers for whom we manufacture beverages on a contract basis, giving our customers access to high-quality, affordable beverages. Our competitive advantages include:

beverage manufacturing expertise;

vertically integrated, low-cost production platform;

one-stop sourcing;

category insights and marketing expertise;

supply chain and high quality consistency in products; and

product innovation and differentiation.

For 2013, our top 10 customers accounted for 50.0% of total revenue. Walmart accounted for 30.1% of our total revenue for the period. We have established long-standing relationships with most of our top 10 customers. As a result of our high product quality and commitment to service, coupled with a national manufacturing footprint, we believe we will continue to play a meaningful role in helping our customers develop strategies to build loyalty with consumers.

Business Strategy

Our primary goal is to maintain long-term profitability and enhance our position as the market leader and preferred supplier of beverages on behalf of retailers, brand owners, and distributors in the markets where we operate. Continued leadership in our core markets will enable us to sustain and grow profitability as we drive for increased penetration and share growth within our core product categories. We believe that the following strategies will help us to achieve our goal.

Maintain Customer Focus

Customer relationships are important for any business, but at Cott, where many of our products bear our customers brand names, we must maintain particularly close partnerships with our customers. We will continue to provide our customers with high quality products and service at an attractive value that will help them provide quality, value-oriented products to their consumers.

We will continue to focus on our high levels of customer service, as well as innovations through the introduction of new packages, flavors and varieties of beverages. We believe our focus on our customers will enable us to leverage our existing relationships and to develop new ones in existing and new markets. As a fast follower of innovative products, our goal is to identify new products that are succeeding in the marketplace and develop similar products of high quality for our customers to offer their consumers at a better value.

Control Operating Costs

We understand that our long-term success will be closely tied to our ability to remain a low-cost supplier. Effective management of our operating costs is critical to our success. As part of our ongoing management of costs, we enter into contract commitments with suppliers of key raw materials such as aluminum sheet metal, high fructose corn syrup (HFCS),

Table of Contents

polyethylene terephthalate (PET) bottles, caps and preforms, fruit and fruit concentrates. On an ongoing basis we review our fixed overhead and manufacturing costs for opportunities for further reductions. In 2011, we transformed the Company's information technology function from a nearly 100% outsourced, single vendor relationship to a combination of in-house resources and multi-vendor strategy, significantly reducing our total information technology spending. In 2012, we began to vertically integrate our manufacturing capabilities in order to manufacture our products with increased efficiency and at a lower cost.

Control Capital Expenditures and Rigorously Manage Working Capital

Consistent with our status as a low-cost supplier, we leverage our existing manufacturing capacity to maintain an efficient supply chain. We are committed to carefully prioritizing our capital investments that provide the best financial returns for Cott and for our customers, while maintaining safety, efficiency and superior product quality. Our manufacturing facilities operate according to the highest standards of safety and product quality. We perform regular third-party audits of our facilities and are subject to quality audits on behalf of our customers. We will continue to evaluate growth and other opportunities, while remaining mindful of our total capital expenditure targets.

In 2013, our capital expenditures were devoted primarily to maintaining existing beverage production facilities, making equipment upgrades and expansion in the United States, the United Kingdom, Canada and Mexico and expenditures related to the completion of the vertical integration of our manufacturing capabilities.

Cash Flow Management

We believe that a strong financial position will enable us to capitalize on opportunities in the marketplace. As a result, we continuously review and improve the effectiveness of our cash management processes. We strive to achieve the most optimal working capital level, rationalize our capital expenditures and continuously drive operating cost improvements to enhance cash flow.

Pursue Select Acquisitions

We believe that opportunities exist for us to enhance our scale, reduce fixed manufacturing costs and broaden our product portfolio. In June 2013, our U.K. reporting segment acquired 100 percent of the share capital of Cooke Bros. Holdings Limited (the Calypso Soft Drinks Acquisition), which includes the subsidiary companies Calypso Soft Drinks Limited and Mr. Freeze (Europe) Limited (together, Calypso Soft Drinks). Calypso Soft Drinks produces fruit juices, juice drinks, soft drinks, and freeze products in the United Kingdom. The aggregate purchase price for the Calypso Soft Drinks Acquisition was \$12.1 million, which includes approximately \$7.0 million paid at closing, deferred payments of approximately \$2.3 million and \$3.0 million to be paid on the first and second anniversary of the closing date, respectively, of the Calypso Soft Drinks Acquisition. In connection with the Calypso Soft Drinks Acquisition, we paid off \$18.5 million of outstanding debt of the acquired companies. The Calypso Soft Drinks Acquisition provided increased product offerings, logistical synergies and access to an additional production line. In March of 2012, our U.K. reporting segment acquired a beverage and wholesale business based in Scotland for approximately \$5.0 million. We intend to continue to evaluate and pursue strategic opportunities to enhance our industry position, strengthen our business and build value for our shareholders.

Principal Markets and Products

We estimate that as of the end of 2013, we produced (either directly or through third party manufacturers with whom we have co-packing agreements) a majority of all retailer brand CSDs and juice sold in Canada and the United States, as well as a majority of all retailer brand sports and energy products sold in the United Kingdom.

We have a diversified product portfolio across major beverage categories, including beverages that are on-trend with consumer demand. In 2013, CSDs, juice, concentrate, and all other products represented 36.1%, 25.0%, 2.0% and 36.9% as a percentage of revenue, respectively. In 2012, CSDs, juice, concentrate, and all other products represented 39.1%, 24.2%, 1.9% and 34.8% as a percentage of revenue, respectively. In 2011, CSDs, juice, concentrate, and all other products represented 40.7%, 25.8%, 1.6% and 31.9% as a percentage of revenue, respectively.

We believe that opportunities exist to increase sales of beverages in our core markets by leveraging existing customer relationships, capitalizing on cross-selling and up-selling opportunities, obtaining new customers, manufacturing beverages (including alcoholic beverages) on a contract basis for new and existing customers, exploring new channels of distribution and introducing new products.

Table of Contents

Restructuring Initiatives

We implement restructuring programs from time to time that are designed to improve operating effectiveness and lower costs. When we implement these programs, we incur various charges, including severance and other employment related costs. During June 2013, we implemented one such program (the 2013 Restructuring Plan), which consisted primarily of headcount reductions. For the year ended December 28, 2013, we incurred charges of approximately \$2.0 million related primarily to employee redundancy costs in connection with the 2013 Restructuring Plan.

We did not incur any restructuring charges in 2012 or 2011.

Financial Information about Segments

For financial information about reporting segments and geographic areas, see Note 9 to the consolidated financial statements contained in this Annual Report on Form 10-K.

Manufacturing and Distribution Network

Substantially all of our beverages are manufactured in facilities that we, or third-party manufacturers with whom we have long-term co-packing agreements, either own or lease. We rely on third parties to produce and distribute products in areas or markets where we do not have our own production facilities, such as in continental Europe, or when additional production capacity is required.

Our products are either picked up by our customers at our facilities or delivered by us, a common carrier, or third-party distributors to our customers' distribution centers or to retail locations.

Ingredient and Packaging Supplies

In addition to water, the principal raw materials required to produce our products are aluminum cans and ends, PET bottles, caps and preforms, labels, cartons and trays, sweeteners, such as HFCS and sugar, fruit concentrates and fruit. The cost of these raw materials can fluctuate substantially over time.

Under many of our supply arrangements for these raw materials, the price we pay fluctuates along with certain changes in underlying commodity costs, such as aluminum in the case of cans and ends, resin in the case of PET bottles, caps and preforms, corn in the case of HFCS, fruit and fruit concentrates. We believe that we will be able to either renegotiate contracts with these suppliers when they expire or find alternative sources for supply. We also believe there is adequate supply of the ingredient and packaging materials used to produce and package our products.

Generally, we bear the risk of increases in the costs of the ingredient and packaging materials used to produce our products, including the underlying costs of the commodities used to manufacture them and, to some extent, the costs of converting those commodities into the materials we purchase.

Aluminum for cans and ends, resin for PET bottles, caps and preforms, corn for HFCS, sugar, fruit and fruit concentrates are examples of underlying commodities for which we bear the risk of increases in costs. In addition, the contracts for certain of our ingredient and packaging materials permit our suppliers to increase the costs they charge us based on increases in their cost of converting the underlying commodities into the materials we purchase. In certain cases those increases are subject to negotiated limits. Changes in the prices we pay for ingredient and packaging materials occur at times that vary by product and supplier, and take place on a monthly, quarterly or annual basis.

PET resin prices have fluctuated significantly in recent years as the price of oil, one of its components, has fluctuated and demand for synthetic fibers, an alternate use, has increased. Because PET resin is not a traded commodity, no fixed price mechanism has been implemented, and we expect to pay prevailing market prices for our PET resin needs, although at times we have been able to enter into short-term fixed price commitments.

Corn has a history of volatile price changes. The sugar market is susceptible to volatility as well.

Fruit and fruit concentrate prices have been, and we expect them to continue to be, subject to significant volatility. While fruit is available from numerous independent suppliers, these raw materials are subject to fluctuations in price attributable to, among other things, changes in crop size and federal and state agricultural programs.

Table of Contents**Trade Secrets, Copyrights, Trademarks and Licenses**

We sell the majority of our beverages under retailer brands to customers who own the trademarks associated with those products. We also own registrations, or applications to register, various trademarks that are important to our worldwide business, including *Cott*® and *Red Rain*® in the United States, Canada, and the United Kingdom, *Stars & Stripes*®, *Vess*®, *Vintage*®, *So Clear*®, *Shanstar*®, *Harvest Classic*®, *Chadwick Bay*®, *Exact*® and *Golden Crown*® in the United States, *Emerge*®, *Red Rooster*®, *MacB*®, *Carters*®, *Calypso*®, *Mr. Freeze*®, *Jubbly*®, and *Ben Shaws*® in the United Kingdom, *Stars & Stripes*® in Mexico, and RC® mark in various formats in more than 120 countries and territories outside of North America. Moreover, we are licensed to use certain trademarks such as *Old Jamaica Ginger Beer* and *Ting* in the United Kingdom. The licenses to which we are a party are of varying terms, including some that are perpetual. Trademark ownership is generally of indefinite duration when marks are properly maintained in commercial use.

Our success depends in part on our intellectual property, which includes trade secrets in the form of concentrate formulas for our beverages and trademarks for the names of the beverages we sell. To protect this intellectual property, we rely principally on registration of trademarks, contractual responsibilities and restrictions in agreements (such as indemnification, nondisclosure and confidentiality agreements) with employees, consultants and customers, and on the common law and/or statutory protections afforded to trademarks, copyrights, trade secrets and proprietary know-how. We also closely monitor the use of our trademarks and when necessary vigorously pursue any party that infringes on our trademarks, using all available legal remedies.

Seasonality of Sales and Working Capital

The beverage market is subject to some seasonal variations. Our beverage sales are generally higher during the warmer months and also can be influenced by the timing of holidays and weather fluctuations. Our purchases of raw materials and related accounts payable fluctuate based upon the demand for our products as well as the timing of the fruit growing seasons. The seasonality of our sales volume combined with the seasonal nature of fruit growing causes our working capital needs to fluctuate throughout the year, with inventory levels increasing in the first half of the year in order to meet high summer demand, and with fruit inventories peaking during the last quarter of the year when purchases are made after the growing season. In addition, our accounts receivable balances decline in the fall as customers pay their higher-than-average outstanding balances from summer deliveries.

Customers

A significant portion of our revenue is concentrated in a small number of customers. Our customers include many large national and regional grocery, mass-merchandise, drugstore, wholesale and convenience store chains, as well as customers for whom we manufacture beverages on a contract basis. For 2013, sales to Walmart accounted for 30.1% (2012 31.0%; 2011 31.6%) of our total revenue, 36.1% of our North America reporting segment revenue (2012 36.3%; 2011 35.9%), 14.8% of our U.K. reporting segment revenue (2012 14.9%; 2011 14.6%) and 3.9% of our All Other reporting segment revenue (2012 12.0%; 2011 30.0%). Walmart was the only customer that accounted for more than 10% of our total revenue in those periods. Sales to our top ten customers in 2013, 2012 and 2011 accounted for 50.0%, 54.2% and 55.1%, respectively, of our total revenue. We expect that sales of our products to a limited number of customers will continue to account for a high percentage of revenue for the foreseeable future. The loss of any customers that individually or in the aggregate represent a significant portion of our revenue, or a decline in sales to these customers, would have a material adverse effect on our operating results and cash flow.

We supply Walmart and its affiliated companies, under annual non-exclusive supply agreements, with a variety of products in the United States, Canada, the United Kingdom, and Mexico, including CSDs, clear, still and sparkling

flavored waters, 100% shelf stable juice, juice-based products, bottled water, energy products, sports products, new age beverages and ready-to-drink teas. In 2013, we supplied Walmart with all of its private-label CSDs in the United States. In the event Walmart were to utilize additional suppliers to fulfill a portion of its requirements for CSDs, our operating results could be materially adversely affected.

Research and Development

We engage in a variety of research and development activities. These activities principally involve the development of new products, improvement in the quality of existing products, improvement and modernization of production processes, and the development and implementation of new technologies to enhance the quality and value of both current and proposed product lines. Consumer research is excluded from research and development costs and included in other marketing costs. Research and development costs were \$3.1 million in 2013, \$2.8 million in 2012 and \$2.5 million in 2011 and are included as a component of selling, general and administrative expenses.

Table of Contents

Competition

We compete against a wide range of companies that produce, directly and on a contract basis, and sell beverages including CSDs, 100% shelf stable juice and juice-based products, clear, still and sparkling flavored waters, energy drinks, sports products, new age beverages, and ready-to-drink teas, and alcoholic beverages. While CSDs and CSD concentrate accounted for 61.5% of our 2013 case volume, they accounted for 38.1% of our 2013 revenue. The non-CSD products generated 38.5% of our 2013 case volume and 61.9% of our 2013 revenue.

We compete principally in the non-alcoholic beverages category, which is highly competitive in each region in which we operate. Competition for incremental volume is intense. The brands owned by the four major national soft drink companies, Coca-Cola, Pepsi, Nestle Waters North America and Dr. Pepper Snapple (formerly Cadbury Schweppes), control 66% of the total CSD and alternative beverage category within the United States. These companies have significant financial resources and spend heavily on promotional programs. They also have direct store delivery systems in North America, which enable their personnel to visit retailers frequently to promote new items, stock shelves and build displays. We also face competition in the juice category from juice brands such as Welch's, Ocean Spray and Mott's.

In addition, we face competition in North America, the United Kingdom and Mexico from regional beverage manufacturers who sell aggressively-priced brands and, in many cases, also supply retailer brand products. A few larger U.S. retailers also self-manufacture products for their own needs and continually approach other retailers seeking additional business.

We seek to differentiate ourselves from our competitors by offering our customers high-quality products, category management strategies, packaging and marketing strategies, efficient distribution methods, and superior service.

Government Regulation and Environmental Matters

The production, distribution and sale in the United States of many of our products are subject to the Federal Food, Drug, and Cosmetic Act, the Federal Trade Commission Act, the Lanham Act, state consumer protection laws, federal, state and local workplace health and safety laws, various federal, state and local environmental protection laws and various other federal, state and local statutes and regulations applicable to the production, transportation, sale, safety, advertising, labeling and ingredients of such products. Outside the United States, the production, distribution and sale of our many products and related operations are also subject to numerous similar and other statutes and regulations.

A number of states have passed laws setting forth warning or labeling requirements relating to products made for human consumption. For example, the California law known as Proposition 65 requires that a specific warning appear on any product sold in California containing a substance listed by that state as having been found to cause cancer or reproductive toxicity. This law, and others like it, exposes all food and beverage producers to the possibility of having to provide warnings on their products. The detection of even a trace amount of a listed substance can subject an affected product to the requirement of a warning label, although products containing listed substances that occur naturally or that are contributed to such products solely by a municipal water supply are generally exempt from the warning requirement. From time to time over the past several years, certain of our customers have received notices alleging that the labeling requirements of the relevant state regulation would apply to products manufactured by us and sold by them. There can be no assurance that we will not be adversely affected by actions against our customers or us relating to Proposition 65 or similar failure to warn laws.

We currently offer and use non-refillable recyclable containers in the United States and other countries around the world. We also offer and use refillable containers, which are also recyclable. Legal requirements apply in various jurisdictions in the United States and other countries requiring that deposits or certain ecotaxes or fees be charged for the sale, marketing and use of certain non-refillable beverage containers. The precise requirements imposed by these measures vary. Other types of beverage container-related deposit, recycling, ecotax and/or product stewardship statutes and regulations also apply in various jurisdictions in the United States and overseas. We anticipate that additional, similar legal requirements may be proposed or enacted in the future at local, state and federal levels, both in the United States and elsewhere.

All of our beverage production facilities and other operations are subject to various environmental protection statutes and regulations, including those of the U.S. Environmental Protection Agency, which pertain to the use of water resources

Table of Contents

and the discharge of waste water. Failure to comply with these regulations can have serious consequences, including civil and administrative penalties. Compliance with these provisions has not had, and we do not expect such compliance to have, any material adverse effect on our Company's capital expenditures, net income or competitive position. However, as discussed below, changes in how the Ontario Ministry of the Environment enforces the Ontario Environmental Protection Act could result in our having to make material expenditures for environmental compliance.

Subject to the terms and conditions of the applicable policies, we have coverage for product recalls and product liability claims that could result from the injury, illness or death of consumers using our products, contamination of our products, or damage to or mislabeling of our products.

The Ontario Environmental Protection Act (OEPA)

OEPA regulations provide that a minimum percentage of a bottler's soft drink sales within specified areas in Ontario must be made in refillable containers. The penalty for non-compliance is a fine of \$50,000 per day beginning upon when the first offense occurs and continues until the first conviction, and then increasing to \$100,000 per day for each subsequent conviction. These fines may be increased to equal the amount of monetary benefit acquired by the offender as a result of the commission of the offense.

We, and we believe other industry participants, are currently not in compliance with the requirements of the OEPA. To comply with these requirements we, and we believe many other industry participants, would have to significantly increase sales in refillable containers to a minimum refillable sales ratio of 30%. We do not expect to be in compliance with these regulations in the foreseeable future. Ontario is not enforcing the OEPA at this time, despite the fact that it is still in effect and not amended, but if it chooses to enforce it in the future, we could incur fines for non-compliance and the possible prohibition of sales of soft drinks in non-refillable containers in Ontario. We estimate that approximately 3% of our Canada operating segment sales would be affected by the possible limitation of sales of soft drinks in non-refillable containers in Ontario if the Ontario Ministry of the Environment initiated an action to enforce the provisions of the OEPA against us. Moreover, the Ontario Ministry of the Environment released a report in 1997 stating that these OEPA regulations are outdated and unworkable. However, despite the unworkable nature of the OEPA regulations, they have not yet been revoked.

We believe that the magnitude of the potential fines that we could incur if the Ontario Ministry of the Environment chose to enforce these regulations is such that the costs to us of non-compliance could be, although are not contemplated to be, material. However, our management believes that probability of such enforcement is remote.

Employees

As of December 28, 2013, we had 3,966 employees, of whom 2,566 were in the North America reporting segment, 1,161 were in the U.K. reporting segment, and 239 were in the All Other reporting segment. We have entered into collective bargaining agreements covering 785 employees in the United States, Canada, United Kingdom and Mexico that contain terms that we believe are typical in the beverage industry. As these agreements expire, we believe that they can be renegotiated on terms satisfactory to us. We consider our relations with employees to be generally good.

Availability of Information and Other Matters

We are required to file annual, quarterly and current reports, proxy statements and other information with the SEC and Canadian securities regulatory authorities. The public may read and copy any materials that we file with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Washington, D.C. 20549. Information in the Public Reference Room may be obtained by calling the SEC at 1-202-551-8090. In addition, the SEC maintains an Internet site that

Edgar Filing: COTT CORP /CN/ - Form 10-K

contains reports, proxy and information statements, and other information regarding issuers that file with the SEC at www.sec.gov. Information filed with the Canadian securities regulatory authorities is available at www.sedar.com.

Our Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to reports filed or furnished pursuant to Sections 13(a) and 15(d) of the Securities Exchange Act of 1934, as amended, are also available free of charge on our website at www.cott.com, as soon as reasonably practicable after such material is electronically filed with, or furnished to, the SEC. The information found on our website is not part of this or any other report that we file with, or furnish to, the SEC or to Canadian securities regulatory authorities.

We are responsible for establishing and maintaining adequate internal control over financial reporting as required by the SEC. See Management's Report on Internal Control over Financial Reporting in Item 9A.

Table of Contents

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this Annual Report on Form 10-K, you should carefully consider the following factors, which could materially affect our business, financial condition or future results. The risks described below are not the only risks that we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or results of operations.

We may be unable to compete successfully in the highly competitive beverage category.

The markets for our products are extremely competitive. In comparison to the major national brand beverage manufacturers, we are a relatively small participant in the industry. We face competition from the national brand beverage manufacturers in all of our markets, from other retailer brand beverage manufacturers and from other contract beverage manufacturers. If our competitors reduce their selling prices, increase the frequency of their promotional activities in our core market or enter into the production of private-label products or expand their contract manufacturing efforts, or if our customers do not allocate adequate shelf space for the beverages we supply, we could experience a decline in our volumes, be forced to reduce pricing, forgo price increases required to offset increased costs of raw materials and fuel, increase capital and other expenditures, or lose market share, any of which could adversely affect our profitability.

We may not be able to respond successfully to consumer trends related to our products.

Consumer trends with respect to the products we sell are subject to change. Consumers are seeking increased variety in their beverages, and there is a growing interest among consumers, public health officials and government officials regarding the ingredients in our products, the attributes of those ingredients and health and wellness issues generally. In addition, some researchers, health advocates and dietary guidelines are encouraging consumers to reduce consumption of sugar-sweetened beverages, including those sweetened with HFCS or other nutritive sweeteners. As a result, consumer demand has declined for full-calorie CSDs and consumer demand has increased for products associated with health and wellness, such as reduced-calorie CSDs, water, enhanced water, teas and certain other non-carbonated beverages. Consumer preferences may change due to a variety of other factors, including the aging of the general population, changes in social trends, the real or perceived impact that the manufacturing of our products has on the environment, changes in consumer demographics, changes in travel, vacation or leisure activity patterns, negative publicity resulting from regulatory action or litigation against companies in the industry, or a downturn in economic conditions. Any of these changes may reduce consumers' demand for our products. There can be no assurance that we can develop or be a fast follower of innovative products that respond to consumer trends. Our failure to develop innovative products could put us at a competitive disadvantage in the marketplace and our business and financial results could be adversely affected.

Because a small number of customers account for a significant percentage of our sales, the loss of or reduction in sales to any significant customer could have a material adverse effect on our results of operations and financial condition.

A significant portion of our revenue is concentrated in a small number of customers. Our customers include many large national and regional grocery, mass-merchandise, drugstore, wholesale and convenience store chains in our core markets of North America, the United Kingdom and Mexico, as well as customers for whom we manufacture beverages on a contract basis. Sales to Walmart, our top customer in 2013, 2012 and 2011 accounted for 30.1%, 31.0% and 31.6%, respectively, of our total revenue. Sales to our top ten customers in 2013, 2012 and 2011 accounted for 50.0%, 54.2% and 55.1%, respectively, of our total revenue. We expect that sales of our products to a limited number of customers will continue to account for a high percentage of our revenue for the foreseeable future.

The loss of Walmart or any significant customer, or customers that in the aggregate represent a significant portion of our revenue, or a material reduction in the amount of business we undertake with any such customer or customers, could have a material adverse effect on our operating results and cash flows. Furthermore, we could be adversely affected if Walmart or any significant customer reacts unfavorably to any pricing of our products or decides to de-emphasize or reduce their product offerings in the categories with which we supply them. At December 28, 2013, we had \$212.0 million of customer relationships recorded as an intangible asset. The permanent loss of any customer included in the intangible asset would result in impairment in the value of the intangible asset or accelerated amortization and could lead to an impairment of fixed assets that were used to service that client.

Table of Contents

Our ingredients, packaging supplies and other costs are subject to price increases and we may be unable to effectively pass rising costs on to our customers.

We typically bear the risk of changes in prices on the ingredient and packaging in our products. The majority of our ingredient and packaging supply contracts allow our suppliers to alter the prices they charge us based on changes in the costs of the underlying commodities that are used to produce them. Aluminum for cans and ends, resin for PET bottles, caps and preforms, corn for HFCS, sugar, fruit and fruit concentrates are examples of these underlying commodities. In addition, the contracts for certain of our ingredient and packaging materials permit our suppliers to increase the costs they charge us based on increases in their cost of converting those underlying commodities into the materials that we purchase. In certain cases those increases are subject to negotiated limits. These changes in the prices we pay for ingredient and packaging materials occur at times that vary by product and supplier, and take place, on a monthly, quarterly or annual basis.

Accordingly, we bear the risk of fluctuations in the costs of these ingredient and packaging materials, including the underlying costs of the commodities used to manufacture them and, to some extent, the costs of converting those commodities into the materials we purchase. If the cost of these ingredients or packaging materials increases, we may be unable to pass these costs along to our customers through adjustments to the prices we charge. If we cannot pass on these increases to our customers on a timely basis, they could have a material adverse effect on our results of operations. If we are able to pass these costs on to our customers through price increases, the impact those increased prices could have on our volumes is uncertain.

Our beverage and concentrate production facilities use a significant amount of electricity, natural gas and other energy sources to operate. Fluctuations in the price of fuel and other energy sources for which we have not locked in long-term pricing commitments or arrangements would affect our operating costs, which could impact our profitability.

If we fail to manage our operations successfully, our business and financial results may be materially and adversely affected.

In recent years, we have grown our business and beverage offerings primarily through the acquisition of other companies, development of new product lines and growth with key customers. We believe that opportunities exist to increase sales of beverages in our markets by leveraging existing customer relationships, obtaining new customers, exploring new channels of distribution, introducing new products or identifying appropriate acquisition or strategic alliance candidates. The success of this strategy with respect to acquisitions depends on our ability to manage and integrate acquisitions (including the Calypso Soft Drinks Acquisition) and alliances into our existing business. Furthermore, the businesses or product lines that we acquire or align with may not be integrated successfully into our business or prove profitable. In addition to the foregoing factors, our ability to expand our business in foreign countries is also dependent on, and may be limited by, our ability to comply with the laws of the various jurisdictions in which we may operate, as well as changes in local government regulations and policies in such jurisdictions. If we fail to manage the geographic allocation of production capacity surrounding customer demand in North America, we may lose certain customer product volume or have to utilize co-packers to fulfill our customer capacity obligations, either of which could negatively impact our financial results.

We may devote a significant amount of our management's attention and resources to our ongoing review of strategic opportunities, and we may not be able to fully realize the potential benefit of any such alternatives that we pursue.

As part of our overall strategic planning process, from time to time we evaluate whether there are alternatives available to complement our strategy of organic growth and growth through diversification, or otherwise enhance shareholder value. Accordingly, we may from time to time be engaged in evaluating potential transactions and other strategic alternatives, and we may engage in discussions that may result in one or more transactions. Although there would be uncertainty that any of these discussions would result in definitive agreements or the completion of any transaction, we may devote a significant amount of our management's attention and resources to evaluating and pursuing a transaction or opportunity, which could negatively impact our operations. In addition, we may incur significant costs in connection with evaluating and pursuing other strategic opportunities, regardless of whether any transaction is completed. We cannot assure you that we would fully realize the potential benefit of any strategic alternative or transaction that we pursue.

Our geographic diversity subjects us to the risk of currency fluctuations.

We conduct operations in many areas of the world, involving transactions denominated in a variety of currencies. We are subject to currency exchange rate risk to the extent that our costs are denominated in currencies other than those in which we earn revenues. In addition, because our financial statements are denominated in U.S. dollars, changes in currency exchange rates between the U.S. dollar and other currencies have had, and will continue to have, an impact on our results of operations. While we may enter into financial transactions to address these risks, there can be no assurance that currency exchange rate fluctuations will not adversely affect our results of operations, financial condition and cash flows. In addition, while the use of currency hedging instruments may provide us with protection from adverse fluctuations in currency exchange rates, by utilizing these instruments we potentially forego the benefits that might result from favorable fluctuations in currency exchange rates.

If we are unable to maintain relationships with our raw material suppliers, we may incur higher supply costs or be unable to deliver products to our customers.

In addition to water, the principal raw materials required to produce our products are aluminum cans and ends, PET bottles, caps and preforms, labels, cartons and trays, sweeteners, such as HFCS and sugar, fruit and fruit concentrates. We rely upon our ongoing relationships with our key suppliers to support our operations.

Table of Contents

We typically enter into annual or multi-year supply arrangements with our key suppliers, meaning that our suppliers are obligated to continue to supply us with materials for one-year or multi-year periods, at the end of which we must either renegotiate the contracts with those suppliers or find alternative sources for supply. There can be no assurance that we will be able to either renegotiate contracts (with similar or more favorable terms) with these suppliers when they expire or, alternatively, if we are unable to renegotiate contracts with our key suppliers, there can be no assurance that we could replace them. We could also incur higher ingredient and packaging supply costs in renegotiating contracts with existing suppliers or replacing those suppliers, or we could experience temporary disruptions in our ability to deliver products to our customers, either of which could have a material adverse effect on our results of operations.

With respect to some of our key packaging supplies, such as aluminum cans and ends, and some of our key ingredients, such as sweeteners, we have entered into long-term supply agreements, the remaining terms of which range from 12 to 60 months, and therefore we expect to have of a supply of those key packaging supplies and ingredients during such terms. In addition, the supply of specific ingredient and packaging materials could be adversely affected by many factors, including industry consolidation, energy shortages, governmental controls, labor disputes, natural disasters, transportation interruption, political instability, acts of war or terrorism and other factors.

We have a significant amount of outstanding debt, which could adversely affect our financial health and future cash flows may not be sufficient to meet our obligations.

As of December 28, 2013, our total debt was \$458.3 million. Our present debt and any future borrowings could have important adverse consequences to us and our investors, including:

- requiring a substantial portion of our cash flow from operations to make interest payments on this debt;
- making it more difficult to satisfy debt service and other obligations;
- increasing the risk of a future credit ratings downgrade of our debt, which would increase future debt costs;
- increasing our vulnerability to general adverse economic and industry conditions;
- reducing the cash flow available for share repurchases, to pay dividends, and to fund capital expenditures and other corporate purposes and to grow our business;
- limiting our flexibility in planning for, or reacting to, changes in our business and the industry;
- placing us at a competitive disadvantage to our competitors that may not be as highly leveraged; and

limiting our ability to borrow additional funds as needed or take advantage of business opportunities, such as acquisitions, as they arise, pay cash dividends or repurchase common stock.

To the extent we become more leveraged, the risks described above would increase. In addition, our actual cash requirements in the future may be greater than expected. We cannot assure you that our business will generate sufficient cash flow from operations, or that future borrowings will be available to us in amounts sufficient to enable us to pay our debt or to fund our other liquidity needs.

If we fail to generate sufficient cash flow from future operations to meet our debt service obligations, we may need to refinance all or a portion of our debt on or before maturity. We cannot assure you that we will be able to refinance any of our debt on attractive terms, commercially reasonable terms or at all. If we cannot service or refinance our indebtedness, we may have to take actions such as selling assets, seeking additional equity or reducing or delaying capital expenditures, strategic acquisitions, investments and alliances, any of which could impede the implementation of our business strategy, prevent us from entering into transactions that would otherwise benefit our business and/or have a material adverse effect on our financial condition and results of operations. Our future operating performance and our ability to service or refinance our debt will be subject to future economic conditions and to financial, business and other factors, many of which are beyond our control.

Table of Contents

Our asset-based lending (ABL) facility, the indenture governing the 2017 Notes, and the indenture governing the 2018 Notes each contain various covenants limiting the discretion of our management in operating our business, which could prevent us from capitalizing on business opportunities and taking some corporate actions.

Our ABL facility, the indenture governing the \$215.0 million of senior notes that are due on November 15, 2017(of which, \$15.0 million remained outstanding as of December 28, 2013) (the 2017 Notes), and the indenture governing the \$375.0 million of senior notes that are due on September 1, 2018 (the 2018 Notes) each impose significant operating and financial restrictions on us. These restrictions will limit or restrict, among other things, our ability and the ability of our restricted subsidiaries to:

incur additional indebtedness;

make restricted payments (including paying dividends on, redeeming, repurchasing or retiring our capital stock);

make investments;

create liens;

sell assets;

enter into agreements restricting our subsidiaries ability to pay dividends, make loans or transfer assets to us;

engage in transactions with affiliates; and

consolidate, merge or sell all or substantially all of our assets.

These covenants are subject to important exceptions and qualifications. In addition, our ABL facility also requires us, under certain circumstances, to maintain compliance with certain financial covenants as described in the Covenant Compliance section in Item 7. Our ability to comply with this covenant may be affected by events beyond our control, including those described in this Risk Factors section. A breach of any of the covenants contained in our ABL facility, including our inability to comply with the financial covenant, could result in an event of default, which would allow the lenders under our ABL facility to declare all borrowings outstanding to be due and payable, which would in turn trigger an event of default under the indenture governing the 2017 Notes and the indenture governing the 2018 Notes and, potentially, our other debt. At maturity or in the event of an acceleration of payment obligations, we would likely be unable to pay our outstanding debt with our cash and cash equivalents then on hand. We would, therefore, be required to seek alternative sources of funding, which may not be available on commercially reasonable terms, terms as favorable as our current agreements or at all. If we are unable to refinance our debt or find alternative means of financing our operations, we may be required to curtail our operations, face bankruptcy, or take other actions that are

inconsistent with our current business practices or strategy. For additional information about our ABL facility, see Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources.

A portion of our debt may be variable rate debt, and changes in interest rates could adversely affect us by causing us to incur higher interest costs with respect to such variable rate debt.

Our ABL facility subjects us to interest rate risk. The rate at which we pay interest on amounts borrowed under such facility fluctuates with changes in interest rates and our debt leverage. Accordingly, with respect to any amounts from time to time outstanding under our ABL facility, we are and will be exposed to changes in interest rates. If we are unable to adequately manage our debt structure in response to changes in the market, our interest expense could increase, which would negatively impact our financial condition and results of operations. The outstanding borrowings under the ABL facility as of December 28, 2013 were \$50.8 million.

Our financial results may be negatively impacted by global financial events.

In recent years, global financial events have resulted in the consolidation, failure or near failure of a number of institutions in the banking, insurance and investment banking industries and have substantially reduced the ability of companies to obtain financing. These events also adversely affected the financial markets. These events could continue to have a number of different effects on our business, including:

a reduction in consumer spending, which could result in a reduction in our sales volume;

a negative impact on the ability of our customers to timely pay their obligations to us or our vendors to timely supply materials, thus reducing our cash flow;

Table of Contents

an increase in counterparty risk;

an increased likelihood that one or more members of our banking syndicate may be unable to honor its commitments under our ABL facility; and

restricted access to capital markets that may limit our ability to take advantage of business opportunities, such as acquisitions.

Other events or conditions may arise or persist directly or indirectly from the global financial events that could negatively impact our business.

We may not fully realize the expected cost savings and/or operating efficiencies from our restructuring activities.

We have in the past implemented, and may in the future implement, restructuring activities to support the implementation of key strategic initiatives designed to achieve long-term sustainable growth. These activities are intended to maximize our operating effectiveness and efficiency and to reduce our costs. We cannot be assured that we will achieve or sustain the targeted benefits under these programs or that the benefits, even if achieved, will be adequate to meet our long-term growth expectations. In addition, the implementation of key elements of these activities may have an adverse impact on our business, particularly in the near-term.

Substantial disruption to production at our beverage concentrates or other beverage production facilities could occur.

A disruption in production at our beverage concentrates production facility, which manufactures almost all of our concentrates, could have a material adverse effect on our business. In addition, a disruption could occur at any of our other facilities or those of our suppliers, bottlers or distributors. The disruption could occur for many reasons, including fire, natural disasters, weather, manufacturing problems, disease, strikes, transportation interruption, government regulation or terrorism. Alternative facilities with sufficient capacity or capabilities may not be available, may cost substantially more or may take a significant time to start production, each of which could negatively affect our business and financial performance.

Our success depends, in part, on our intellectual property, which we may be unable to protect.

We possess certain intellectual property that is important to our business. This intellectual property includes trade secrets, in the form of the concentrate formulas for most of the beverages that we produce, and trademarks for the names of the beverages that we sell. While we own certain of the trademarks used to identify our beverages, other trademarks are used through licenses from third parties or by permission from our customers. Our success depends, in part, on our ability to protect our intellectual property.

To protect this intellectual property, we rely principally on registration of trademarks, contractual responsibilities and restrictions in agreements (such as indemnification, nondisclosure and confidentiality agreements) with employees, consultants and customers, and on common law and statutory protections afforded to trademarks, trade secrets and proprietary know-how. In addition, we vigorously protect our intellectual property against infringements using any and all legal remedies available. Notwithstanding our efforts, we may not be successful in protecting our intellectual property for a number of reasons, including:

our competitors may independently develop intellectual property that is similar to or better than ours;

employees, consultants or customers may not abide by their contractual agreements and the cost of enforcing those agreements may be prohibitive, or those agreements may prove to be unenforceable or more limited than anticipated;

foreign intellectual property laws may not adequately protect our intellectual property rights; and

our intellectual property rights may be successfully challenged, invalidated or circumvented.

If we are unable to protect our intellectual property, our competitive position would weaken and we could face significant expense to protect or enforce our intellectual property rights. At December 28, 2013, we had \$45.0 million of Rights (see Note 13) and \$7.4 million of trademarks recorded as intangible assets.

Table of Contents

Occasionally, third parties may assert that we are, or may be, infringing on or misappropriating their intellectual property rights. In these cases, we intend to defend against claims or negotiate licenses when we consider these actions appropriate. Intellectual property cases are uncertain and involve complex legal and factual questions. If we become involved in this type of litigation, it could consume significant resources and divert our attention from business operations.

If we are found to infringe on the intellectual property rights of others, we could incur significant damages, be enjoined from continuing to manufacture, market or use the affected product, or be required to obtain a license to continue manufacturing or using the affected product. A license could be very expensive to obtain or may not be available at all. Similarly, changing products or processes to avoid infringing the rights of others may be costly or impracticable.

Our products may not meet health and safety standards or could become contaminated and we could be liable for injury, illness or death caused by consumption of our products.

We have adopted various quality, environmental, health and safety standards. However, our products may still not meet these standards or could otherwise become contaminated. A failure to meet these standards or contamination could occur in our operations or those of our bottlers, distributors or suppliers. This could result in expensive production interruptions, recalls and liability claims. We may be liable to our customers if the consumption of any of our products causes injury, illness or death. Moreover, negative publicity could be generated from false, unfounded or nominal liability claims or limited recalls. Any of these failures or occurrences could have a material adverse effect on our results of operations or cash flows.

Litigation or legal proceedings could expose us to significant liabilities and damage our reputation.

We are party to various litigation claims and legal proceedings. We evaluate these claims and proceedings to assess the likelihood of unfavorable outcomes and estimate, if possible, the amount of potential losses. We may establish a reserve as appropriate based upon assessments and estimates in accordance with our accounting policies. We base our assessments, estimates and disclosures on the information available to us at the time and rely on legal and management judgment. Actual outcomes or losses may differ materially from assessments and estimates. Actual settlements, judgments or resolutions of these claims or proceedings may negatively affect our business and financial performance. For more information, see Item 3. Legal Proceedings.

Changes in the legal and regulatory environment in the jurisdictions in which we operate could increase our costs or reduce our revenues, adversely affect demand for our products or result in litigation.

As a producer of beverages, we must comply with various federal, state, provincial, local and foreign laws relating to production, packaging, quality, labeling and distribution, including, in the United States, those of the federal Food, Drug and Cosmetic Act, the Fair Packaging and Labeling Act, the Federal Trade Commission Act, the Nutrition Labeling and Education Act and California Proposition 65. We are also subject to various federal, state, provincial, local and foreign environmental laws and workplace regulations. These laws and regulations include, in the United States, the Occupational Safety and Health Act, the Unfair Labor Standards Act, the Clean Air Act, the Clean Water Act, the Comprehensive Environmental Response, Compensation, and Liability Act, the Resource Conservation and Recovery Act, the Federal Motor Carrier Safety Act, laws governing equal employment opportunity, customs and foreign trade laws and regulations, laws relating to the maintenance of fuel storage tanks, laws relating to water consumption and treatment, and various other federal statutes and regulations. These laws and regulations may change as a result of political, economic, or social events. Such regulatory changes may include changes in food and drug laws, laws related to advertising, accounting standards, taxation requirements, competition laws and environmental

laws, including laws relating to the regulation of water rights and treatment. Changes in laws, regulations or government policy and related interpretations may alter the environment in which we do business, which may impact our results or increase our costs or liabilities.

A number of states have passed laws setting forth warning or labeling requirements relating to products made for human consumption. For example, the California law known as Proposition 65 requires that a specific warning appear on any product sold in California containing a substance listed by that state as having been found to cause cancer or reproductive toxicity. This law, and others like it, exposes all food and beverage producers to the possibility of having to provide warnings on their products. The detection of even a trace amount of a listed substance can subject an affected product to the requirement of a warning label, although products containing listed substances that occur naturally or that are contributed to such products solely by a municipal water supply are generally exempt from the warning requirement. From time to time over the past several years, certain of our customers have received notices alleging that the labeling requirements of the relevant state regulation would apply to products manufactured by us and sold by them. There can be no assurance that we will not be adversely affected by actions against our customers or us relating to Proposition 65 or similar failure to warn

Table of Contents

laws: were any such claim to be pursued or succeed, we might in some cases be required to indemnify our customers for damages, and our products might be required to bear warning labels in order to be sold in certain states. Any negative media attention, adverse publicity or action arising from allegations of violations could adversely impact consumer perceptions of our products and harm our business.

Taxes on CSDs and other drinks could have an adverse effect on our business.

Federal, state, local and foreign governments have considered or have enacted taxes on soda and other sugary drinks, as well as energy products. Any such taxes could negatively impact consumer demand for our products and have an adverse effect on our revenues.

We are not in compliance with the requirements of the OEPA and, if the Ontario government seeks to enforce those requirements or implements modifications to them, we could be adversely affected.

Certain regulations under the OEPA provide that a minimum percentage of a bottler's soft drink sales within specified areas in Ontario must be made in refillable containers. The penalty for non-compliance is a fine of \$50,000 per day beginning when the first offense occurs and continuing until the first conviction, and then increasing to \$100,000 per day for each subsequent conviction. These fines may be increased to equal the amount of monetary benefit acquired by the offender as a result of the commission of the offense. We, and we believe other industry participants, are currently not in compliance with the requirements of the OEPA. We do not expect to be in compliance with these regulations in the foreseeable future. Ontario is not enforcing the OEPA at this time, but if it chose to enforce the OEPA in the future, we could incur fines for non-compliance and the possible prohibition of sales of soft drinks in non-refillable containers in Ontario. We estimate that approximately 3% of our Canada operating segment sales would be affected by the possible limitation on sales of soft drinks in non-refillable containers in Ontario if the Ontario Ministry of the Environment initiated an action to enforce the provisions of the OEPA.

Adverse weather conditions could affect our supply chain and reduce the demand for our products.

Severe weather conditions and natural disasters, such as freezes, frosts, floods, hurricanes, tornados, droughts or earthquakes and crop diseases may affect our facilities and our supply of raw materials such as fruit. If the supply of any of our raw materials is adversely affected by weather conditions, it may result in increased raw material costs and there can be no assurance that we will be able to obtain sufficient supplies from other sources. In addition, the sales of our products are influenced to some extent by weather conditions in the markets in which we operate. Unusually cold or rainy weather during the summer months may reduce the demand for our products and contribute to lower revenues, which could negatively impact our profitability.

Global or regional catastrophic events could impact our operations and financial results.

Our business can be affected by large-scale terrorist acts, especially those directed against the United States or other major industrialized countries in which we do business, major natural disasters, or widespread outbreaks of infectious diseases. Such events could impair our ability to manage our business, could disrupt our supply of raw materials, and could impact production, transportation and delivery of products. In addition, such events could cause disruption of regional or global economic activity, which can affect consumers' purchasing power in the affected areas and, therefore, reduce demand for our products.

Our success depends in part upon our ability to recruit, retain and prepare succession plans for our CEO, CFO, senior management and key employees.

The performance of our Chief Executive Officer (CEO), Chief Financial Officer (CFO), senior management and other key employees is critical to our success. We plan to continue to invest time and resources in developing our senior management and key employee teams. Our long-term success will depend on our ability to recruit and retain capable senior management and other key employees, and any failure to do so could have a material adverse effect on our future operating results and financial condition. Further, if we fail to adequately plan for the succession of our CEO, CFO, senior management and other key employees, our operating results could be adversely affected.

Table of Contents**Changes in future business conditions could cause business investments and/or recorded goodwill, indefinite life intangible assets or other intangible assets to become impaired, resulting in substantial losses and write-downs that would negatively impact our results of operations.**

As part of our overall strategy, we will, from time to time, make investments in other businesses. These investments are made upon careful target analysis and due diligence procedures designed to achieve a desired return or strategic objective. These procedures often involve certain assumptions and judgment in determining investment amount or acquisition price. After acquisition or investment, unforeseen issues could arise that adversely affect anticipated returns or that are otherwise not recoverable as an adjustment to the purchase price. Even after careful integration efforts, actual operating results may vary significantly from initial estimates. Goodwill accounted for \$137.3 million of our recorded total assets as of December 28, 2013. We evaluate the recoverability of recorded goodwill amounts annually, or when evidence of potential impairment exists. The annual impairment test is based on several factors requiring judgment and certain underlying assumptions. Our only intangible asset with an indefinite life relates to the 2001 acquisition of intellectual property from Royal Crown Company, Inc., including the right to manufacture our concentrates, with all related inventions, processes, technologies, technical and manufacturing information, know-how and the use of the Royal Crown brand outside of North America and Mexico (the Rights). This asset, which has a net book value of \$45.0 million, is more fully described in Note 1 to the Consolidated Financial Statements.

As of December 28, 2013, other intangible assets were \$251.2 million, which consisted principally of \$212.0 million of customer relationships that arose from acquisitions, \$10.1 million of financing costs, \$17.5 million of information technology assets, and trademarks of \$7.4 million. Customer relationships are amortized on a straight-line basis for the period over which we expect to receive economic benefits, which is up to 15 years. We review the estimated useful life of these intangible assets annually, taking into consideration the specific net cash flows related to the intangible asset, unless it is required more frequently due to a triggering event such as the loss of a customer. The permanent loss of any customer included in the intangible asset would result in impairment in the value of the intangible asset or accelerated amortization and could lead to an impairment of fixed assets that were used to service that client. Principally, a decrease in expected reporting segment cash flows, changes in market conditions, loss of key customers and a change in our imputed cost of capital may indicate potential impairment of recorded goodwill or the Rights. For additional information on accounting policies we have in place for goodwill impairment, see our discussion under Critical Accounting Policies and Estimates in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations of this Annual Report on Form 10-K and Note 1, Summary of Significant Accounting Policies, in the Notes to the Consolidated Financial Statements.

We may not be able to renew collective bargaining agreements on satisfactory terms, or we could experience strikes.

As of December 28, 2013, 785 of our employees were covered by collective bargaining agreements in the United States, Canada, United Kingdom and Mexico. These agreements typically expire every three to five years at various dates. We may not be able to renew our collective bargaining agreements on satisfactory terms or at all. This could result in strikes or work stoppages, which could impair our ability to manufacture and distribute our products and result in a substantial loss of sales. The terms of existing or renewed agreements could also significantly increase our costs or negatively affect our ability to increase operational efficiency.

We depend on key information systems and third-party service providers.

We depend on key information systems to accurately and efficiently transact our business, provide information to management and prepare financial reports. We have typically relied on third-party providers for the majority of our key information systems and business processing services, including hosting our primary data center. In particular, we

are in the process of implementing a new SAP software platform to assist us in the management of our business and have also reorganized certain processes within our finance and accounting departments. As a part of the reorganization, we have outsourced certain back office transactional finance processes. If we fail to successfully implement these projects or if the projects do not result in increased operational efficiencies, our operations may be disrupted and our operating expenses could increase, which could adversely affect our financial results.

In addition, these systems and services are vulnerable to interruptions or other failures resulting from, among other things, natural disasters, terrorist attacks, software, equipment or telecommunications failures, processing errors, computer viruses, hackers, other security issues or supplier defaults. Security, backup and disaster recovery measures may not be adequate or implemented properly to avoid such disruptions or failures. Any disruption or failure of these systems or services could cause substantial errors, processing inefficiencies, security breaches, inability to use the systems or process transactions, loss of customers or other business disruptions, all of which could negatively affect our business and financial performance.

Table of Contents

Our stock price may be volatile.

Our common stock is traded on the New York Stock Exchange (the NYSE) and Toronto Stock Exchange (TSX). The market price of our common stock has fluctuated substantially in the past and could fluctuate substantially in the future, based on a variety of factors, including future announcements covering us or our key customers or competitors, government regulations, litigation, changes in earnings estimates by analysts, fluctuations in quarterly operating results or general conditions in our industry. Furthermore, stock prices for many companies fluctuate widely for reasons that may be unrelated to their operating results. Those fluctuations and general economic, political and market conditions, such as recessions or international currency fluctuations and demand for our services, may adversely affect the market price of our common stock.

We also face other risks that could adversely affect our business, results of operations or financial condition, which include:

any requirement to restate financial results in the event of inappropriate application of accounting principles or otherwise;

any event that could damage our reputation;

failure of our processes to prevent and detect unethical conduct of employees;

a significant failure of internal controls over financial reporting;

failure of our prevention and control systems related to employee compliance with internal policies and regulatory requirements; and

failure of corporate governance policies and procedures.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Our business is supported by our extensive manufacturing network and flexible production capabilities. Our manufacturing footprint encompasses 34 strategically located beverage manufacturing and fruit processing facilities, including 20 in the United States, five in Canada, seven in the United Kingdom and one in Mexico, as well as one vertically-integrated global concentrate manufacturing facility in Columbus, Georgia.

Total square footage of our beverage production and fruit processing facilities is approximately 3.7 million square feet in the United States; 0.9 million square feet in Canada; 1.0 million square feet in the United Kingdom; and 0.1 million square feet in Mexico. This square footage does not include 39 separate leased and sub-leased warehouses and four owned warehouses that together comprise 3.4 million square feet and five leased office spaces and two owned office spaces that together comprise 0.2 million square feet. Lease terms for non-owned beverage production facilities expire between 2014 and 2023.

The beverage production facilities and square footage amounts noted above do not include vacant or underutilized properties.

ITEM 3. LEGAL PROCEEDINGS

We are subject to various claims and legal proceedings with respect to matters such as governmental regulations, income taxes, and other actions arising out of the normal course of business. Management believes that the resolution of these matters will not have a material adverse effect on our financial position or results of operations.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

Table of Contents**SUPPLEMENTAL ITEM PART I. EXECUTIVE OFFICERS OF THE REGISTRANT**

The following is a list of names, ages, offices and backgrounds of all of our executive officers as of February 24, 2014. Our officers do not serve for a set term.

	Office	Age
Jerry Fowden	Chief Executive Officer	57
Jay Wells	Chief Financial Officer	51
Michael Creamer	Vice President - Human Resources	57
Marni Morgan Poe	Vice President, General Counsel and Secretary	44
Steven Kitching	President - U.S. Business Unit	50
Gregory Leiter	Senior Vice President, Chief Accounting Officer and Assistant Secretary	56
Carlos Baila	Chief Procurement Officer	47

Jerry Fowden was appointed Chief Executive Officer in February 2009. Prior to this appointment, Mr. Fowden served as President of our international operating segments and Interim President, North America from May 2008 to February 2009, and as Interim President of our U.K. operating segment from September 2007 to May 2008. He served as Chief Executive Officer of Trader Media Group Ltd., a media company, and as a member of its parent Guardian Media Group plc's Board of Directors from 2005 until 2007. From 2001 until 2004, Mr. Fowden served in a variety of roles with AB InBev S.A. Belgium, an alcoholic beverage company, including President, European Zone, Western, Central and Eastern Europe from 2003 to 2004, Global Chief Operating Officer from 2002 to 2003 and Chief Executive Officer of Bass Brewers Ltd., a subsidiary of AB InBev S.A. Belgium, from 2001 to 2002. Mr. Fowden currently serves on the board of directors of Constellation Brands, Inc., a premium wine, beer and spirits company. Mr. Fowden has served on our board since March 2009.

Jay Wells was appointed Chief Financial Officer in March 2012. Prior to joining Cott, Mr. Wells held various senior finance positions with Molson Coors from May 2005 to March 2012, including Chief Financial Officer of Molson Coors Canada, a subsidiary of Molson Coors Brewing Company, and Global Vice President, Treasury, Tax, and Strategic Finance of Molson Coors Brewing Company. From September 1990 to April 2005, Mr. Wells held several positions within Deloitte and Touche LLP., including partner.

Michael Creamer was appointed Vice President of Human Resources for International and Tampa, Florida in April 2007 and promoted to Vice President of Human Resources for Cott in August 2008. Mr. Creamer currently serves as our Corporate Human Resources Vice President. Prior to joining Cott, Mr. Creamer was Senior Director of Human Resource Operations and International for Avanade Corporation, a global IT consultancy formed as a joint venture between Accenture and Microsoft Corporation. From 1990 to 2004, Mr. Creamer held several positions within Microsoft, including senior global human resources positions.

Marni Morgan Poe was appointed Vice President, General Counsel and Secretary in February 2010. Prior to her appointment, Ms. Poe served as Corporate Counsel of the Company from September 2008. Prior to joining the Company, Ms. Poe was the co-founder and Chief Executive Officer of Let's Eat Dinner, Inc., a

franchisor of dinner preparation kitchens, from 2006 to 2008. From 2000 to 2006, Ms. Poe was a partner at the law firm of Holland & Knight LLP and an associate of the law firm from 1995 to 2000.

Steven Kitching was appointed President of Cott's U.S. business unit on March 4, 2013. Since 2008, Mr. Kitching has served as Managing Director of Cott's United Kingdom/Europe business unit. From 2005 to 2008, Mr. Kitching held several positions with InBev UK, including Managing Director - On Trade Sales and Managing Director - Commercial and Field Operations. Prior to that, Mr. Kitching held several positions with Interbrew and Whitbread Beer Company from 1986 to 2005, including General Manager Netherlands of Interbrew from 2004 to 2005.

Gregory Leiter was appointed Vice President, Corporate Controller and Assistant Secretary of Cott in November 2007, and appointed Senior Vice President and Controller in April 2008. Mr. Leiter took on the additional role of Chief Accounting Officer in January 2010. Mr. Leiter currently serves as our Senior Vice President, Chief Accounting Officer and Assistant Secretary. Prior to joining Cott, Mr. Leiter served from October 2006 to October 2007 as Practice Manager Governance, Risk & Compliance with the international software firm SAP America. From January 2003 to September 2006, Mr. Leiter held two positions with Graham Packaging Company, an international manufacturer of custom blow-molded plastic containers. From February 2006 to September 2006, he served as Graham Packaging's Vice President Global Business Process and from January 2003 to February 2006 as Director of Internal Audit.

Table of Contents

Carlos Baila was appointed Chief Procurement Officer in February 2013. From 2005 to 2012, Mr. Baila worked for PepsiCo Inc. as Vice President of Global Procurement. From 1998 to 2005, Mr. Baila worked as a Supply Chain Executive at Accenture Ltd. where he provided clients with management consulting services primarily around supply chain and strategic sourcing projects, procurement transformations, contract structuring, financial valuations, and supply chain optimizations. Mr. Baila has been involved in multinational projects across the Americas, Europe, Middle East and Asia; and, in Argentina, held several positions in operations at Keystone Foods from 1995 to 1997 and Quilmes Brewery from 1992 to 1995.

Table of Contents**PART II****ITEM 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY AND RELATED SHAREOWNER MATTERS AND ISSUER PURCHASES OF SECURITIES**

Our common shares are listed on the TSX under the ticker symbol BCB, and on the NYSE under the ticker symbol COT.

The tables below show the high and low reported per share sales prices of common shares on the TSX (in Canadian dollars) and the NYSE (in U.S. dollars) for the indicated periods for 2013 and 2012.

Toronto Stock Exchange (C\$)**TSX**

	2013		2012	
	High	Low	High	Low
First Quarter	\$ 10.31	\$ 7.45	\$ 7.28	\$ 5.96
Second Quarter	\$ 11.45	\$ 7.78	\$ 8.47	\$ 6.38
Third Quarter	\$ 9.16	\$ 8.03	\$ 8.75	\$ 7.51
Fourth Quarter	\$ 9.25	\$ 7.78	\$ 8.73	\$ 7.34

New York Stock Exchange (U.S.\$)**NYSE**

	2013		2012	
	High	Low	High	Low
First Quarter	\$ 10.15	\$ 7.42	\$ 7.34	\$ 6.01
Second Quarter	\$ 11.25	\$ 7.39	\$ 8.27	\$ 6.35
Third Quarter	\$ 8.84	\$ 7.77	\$ 8.77	\$ 7.65
Fourth Quarter	\$ 8.74	\$ 7.49	\$ 8.75	\$ 7.24

As of February 14, 2014, we had 1,021 shareowners of record. This number was determined from records maintained by our transfer agent and does not include beneficial owners of securities whose securities are held in the names of various dealers or clearing agencies. The closing sale price of our common shares on February 14, 2014 was C\$8.83 on the TSX and \$8.03 on the NYSE.

No dividend payments were made during the first nine months of 2012. On October 31, 2012, the board of directors declared a dividend of C\$0.06 per share on common shares, which was paid in cash on December 20, 2012 to shareowners of record at the close of business on December 4, 2012. The board of directors has declared a quarterly dividend of C\$0.06 per common share in each quarter during 2013 for an aggregate dividend payment of approximately \$21.9 million. Cott intends to pay a regular quarterly dividend on its common shares subject to, among other things, the best interests of its shareowners, Cott's results of operations, cash balances and future cash requirements, financial condition, statutory regulations and covenants set forth in the ABL facility and indentures

governing the 2017 Notes and 2018 Notes, as well as other factors that the board of directors may deem relevant from time to time.

Dividends to shareowners who are non-residents of Canada will generally be subject to Canadian withholding tax. Under current Canadian tax law, dividends paid by a Canadian corporation to a nonresident shareowner are generally subject to Canadian withholding tax at a 25% rate. Under the current tax treaty between Canada and the United States, U.S. residents who are entitled to treaty benefits are generally eligible for a reduction in this withholding tax rate to 15% (and to 5% for a shareowner that is a corporation and is the beneficial owner of at least 10% of our voting stock). Accordingly, under current tax law, our U.S. resident shareowners who are entitled to treaty benefits will generally be subject to a Canadian withholding tax at a 15% rate on dividends paid by us, provided that they have complied with applicable procedural requirements to claim the benefit of the reduced rate under the tax treaty. The fifth protocol to the tax treaty between Canada and the U.S. places additional restrictions on the ability of U.S. residents to claim these reduced rate benefits. U.S. residents generally will be entitled on their U.S. federal income tax returns to claim a foreign tax credit, or a deduction, for Canadian withholding tax that applies to them, subject to certain applicable limitations. U.S. investors should consult their tax advisors with respect to the tax consequences and requirements applicable to them, based on their individual circumstances.

Table of Contents

There are certain restrictions on the payment of dividends under our ABL facility and under the indentures governing the 2017 Notes and 2018 Notes. The ABL facility and the indentures governing the 2017 Notes and 2018 Notes are discussed in Management's Discussion and Analysis of Financial Condition and Results of Operations in Item 7.

For information on securities authorized for issuance under our equity compensation plans, see Item 12, Security Ownership of Certain Beneficial Owners and Management and Related Shareowner Matters.

During 2011, 2012 and 2013, no equity securities of the Company were sold by the Company that were not registered under the Securities Act of 1933, as amended.

Calculation of aggregate market value of non-affiliate shares

For purposes of calculating the aggregate market value of common shares held by non-affiliates as shown on the cover page of this Annual Report on Form 10-K, it was assumed that all of the outstanding shares were held by non-affiliates except for outstanding shares held or controlled by our directors and executive officers. This should not be deemed to constitute an admission that any of these persons are, in fact, affiliates of us, or that there are not other persons who may be deemed to be affiliates. For further information concerning shareholdings of officers, directors and principal stockholders see Item 12, Security Ownership of Certain Beneficial Owners and Management and Related Shareowner Matters.

Table of Contents**Shareowner return performance graph**

The following graph shows changes over our past five fiscal years in the value of C\$100, assuming reinvestment of dividends, invested in: (i) our common shares; (ii) the Toronto Stock Exchange's S&P/TSX Composite Index; and (iii) a peer group of publicly-traded companies in the bottling industry comprised of Coca-Cola Enterprises Inc., Coca-Cola Bottling Co. Consolidated, National Beverage Corp., Pepsi Bottling Group Inc. and PepsiAmericas Inc. The closing price of Cott's common shares as of December 28, 2013 was C\$8.65 on the TSX and was \$8.06 on the NYSE. The following table is in Canadian dollars.

COMPARISON OF CUMULATIVE TOTAL RETURN

<i>Company / Market / Peer Group</i>	12/27/2008	1/2/2010	1/1/2011	12/31/2011	12/29/2012	12/28/2013
Cott Corporation	\$ 100.00	\$ 577.33	\$ 596.67	\$ 426.67	\$ 530.38	\$ 596.41
S&P / TSX Composite	\$ 100.00	\$ 146.27	\$ 171.98	\$ 156.98	\$ 166.67	\$ 189.63
Peer Group	\$ 100.00	\$ 103.40	\$ 108.55	\$ 119.80	\$ 125.60	\$ 158.80

Issuer Purchases of Equity Securities*Common Share Repurchase Program*

On April 30, 2013, our board of directors renewed our share repurchase program for up to 5% of Cott's outstanding common shares over a 12-month period commencing upon the expiration of the prior share repurchase program on May 21, 2013. We are unable to predict the number of shares that ultimately will be repurchased under the share repurchase program, or the aggregate dollar amount of the shares actually purchased. We may discontinue purchases at any time, subject to compliance with applicable regulatory requirements. No repurchases were made during the fourth quarter ended December 28, 2013.

1. In 2010, we completed the acquisition of substantially all of the assets and liabilities of Cliffstar Corporation (Cliffstar) and its affiliated companies for approximately \$503.0 million in cash, \$14.0 million in deferred consideration payable in equal installments over three years and contingent consideration of up to \$55.0 million. The

Table of Contents

first \$15.0 million of the contingent consideration was paid upon the achievement of milestones in certain expansion projects in 2010. The remainder of the contingent consideration was to be calculated based on the achievement of certain performance measures during the fiscal year ending January 1, 2011. In 2011, the seller of Cliffstar raised certain objections to the performance measures used to calculate the contingent consideration, and the parties commenced the dispute resolution mechanism provided for in the asset purchase agreement. During 2011, Cott made interim payments to the seller equal to \$29.6 million, which was net of a \$4.7 million refund due to Cott and included \$0.9 million in settlement of certain of the seller's objections to the calculation of the contingent consideration. The seller's claims for an additional \$12.1 million in contingent consideration were submitted to binding arbitration pursuant to the asset purchase agreement and favorably resolved in February 2013 by our payment of \$0.6 million to settle all claims.

Table of Contents

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

We are one of the world's largest producers of beverages on behalf of retailers, brand owners and distributors. Our objective of creating sustainable long-term growth in revenue and profitability is predicated on working closely with our customers to provide proven profitable products. As a fast follower of innovative products, our goal is to identify which new products are succeeding in the marketplace and develop similar high quality products at a better value. This objective is increasingly relevant in more difficult economic times.

The beverage market is subject to some seasonal variations. Our beverage sales are generally higher during the warmer months and also can be influenced by the timing of holidays and weather fluctuations. Our purchases of raw materials and related accounts payable fluctuate based upon the demand for our products as well as the timing of the fruit growing seasons. The seasonality of our sales volume combined with the seasonal nature of fruit growing causes our working capital needs to fluctuate throughout the year, with inventory levels increasing in the first half of the year in order to meet high summer demand, and with fruit inventories peaking during the last quarter of the year when purchases are made after the growing season. In addition, our accounts receivable balances decline in the fall as customers pay their higher-than-average outstanding balances from the summer deliveries.

We typically operate at low margins and therefore relatively small changes in cost structures can materially impact results. In 2011 industry carbonated soft drink (CSD) sales were mostly flat while a decline was seen during 2012 and 2013, and ingredient and packaging costs remained volatile.

Ingredient and packaging costs represent a significant portion of our cost of sales. These costs are subject to global and regional commodity price trends. Our most significant commodities are aluminum, polyethylene terephthalate (PET) resin, corn, sugar, fruit and fruit concentrates. We attempt to manage our exposure to fluctuations in ingredient and packaging costs by entering into fixed price commitments for a portion of our ingredient and packaging requirements and implementing price increases as needed.

During 2013, we redeemed \$200.0 million aggregate principal amount of our 8.375% senior notes due 2017 (the 2017 Notes) primarily through the use of available cash and borrowings under the asset-based lending (ABL) facility. On February 19, 2014, we redeemed all \$15.0 million in aggregate principal amount of the remaining outstanding 2017 Notes at 104.118% of par via borrowings under the ABL facility.

Prior to redeeming the 2017 Notes in 2013, we amended the ABL facility to, among other things, provide for an increase in the lenders' commitments under the ABL facility to \$300.0 million, as well as an increase to the accordion feature, which permits us to increase the lenders' commitments under the ABL facility to \$350.0 million, subject to certain conditions.

We supply Walmart and its affiliated companies, under annual non-exclusive supply agreements, with a variety of products in the United States, Canada, the United Kingdom, and Mexico, including CSDs, 100% shelf stable juice and juice-based products, clear, still and sparkling flavored waters, energy drinks, sports products, new age beverages, and ready-to-drink teas. In 2013 we supplied Walmart with all of its private-label CSDs in the United States. In the event Walmart were to utilize additional suppliers to fulfill a portion of its requirements for CSDs, our operating results could be materially adversely affected. Sales to Walmart in 2013, 2012 and 2011, accounted for 30.1%, 31.0% and 31.6%, respectively, of total revenue.

In 2013, our capital expenditures were devoted primarily to maintaining existing beverage production facilities, and making equipment upgrades in the United States, the United Kingdom, Canada and Mexico. In addition, we completed our projects related to the vertical integration of our manufacturing capabilities.

In June of 2013, our United Kingdom (U.K.) reporting segment acquired 100 percent of the share capital of Cooke Bros Holdings Limited, which includes the subsidiary companies Calypso Soft Drinks Limited and Mr. Freeze (Europe) Limited (together, Calypso Soft Drinks). Calypso Soft Drinks produces fruit juices, juice drinks, soft drinks, and freeze products in the United Kingdom. The aggregate purchase price for the acquisition of Calypso Soft Drinks (the Calypso Soft Drinks Acquisition) was \$12.1 million, which includes approximately \$7.0 million paid at closing, deferred payments of approximately \$2.3 million and \$3.0 million to be paid on the first and second anniversary of the closing date, respectively of the Calypso Soft Drinks Acquisition. The closing payment was funded from available cash.

Table of Contents

In 2010, we completed the acquisition of substantially all of the assets and liabilities of Cliffstar Corporation (Cliffstar) and its affiliated companies for approximately \$503.0 million in cash, \$14.0 million in deferred consideration payable in equal installments over three years and contingent consideration of up to \$55.0 million (the Cliffstar Acquisition). The first \$15.0 million of the contingent consideration was paid upon the achievement of milestones in certain expansion projects in 2010. The remainder of the contingent consideration was to be calculated based on the achievement of certain performance measures during the fiscal year ending January 1, 2011. In 2011, the seller of Cliffstar raised certain objections to the performance measures used to calculate the contingent consideration, and the parties commenced the dispute resolution mechanism provided for in the asset purchase agreement. During 2011, Cott made interim payments to the seller equal to \$29.6 million, which was net of a \$4.7 million refund due to Cott and included \$0.9 million in settlement of certain of the seller's objections to the calculation of the contingent consideration. The seller's claims for an additional \$12.1 million in contingent consideration were submitted to binding arbitration pursuant to the asset purchase agreement and favorably resolved in February 2013 by payment of \$0.6 million by Cott to settle all claims.

Summary Financial Results

Our net income in 2013 was \$17.0 million or \$0.18 per diluted share, compared with net income of \$47.8 million or \$0.50 per diluted share in 2012.

The following items of significance impacted our 2013 financial results:

our filled beverage 8-ounce equivalents (beverage case volume), which excludes concentrate sales, decreased 8.6% due primarily to the general market decline in the North American CSD category, prolonged aggressive promotional activity from the national brands in North America as well as the exiting of case pack water;

our revenue decreased 7.0% in 2013 compared to 2012 due primarily to lower global volumes partially offset by an increase in net selling price per beverage case (which is net revenue divided by filled beverage case volume). Excluding the impact of foreign exchange, revenue decreased 6.5% from the comparable prior year period;

our gross profit as a percentage of revenue decreased to 12.0% in 2013 from 12.9% in 2012 due primarily to lower global volumes which resulted in unfavorable fixed cost absorption;

our selling, general and administrative (SG&A) expenses decreased to \$160.4 million from \$178.0 million due primarily to lower employee-related expenses, lower information technology costs and a reduction in professional fees and similar costs;

our loss on disposal of property, plant and equipment was related to the disposal of \$1.0 million of equipment that was either replaced or no longer being used in our operating segments;

our other expense in 2013 was \$12.8 million due primarily to costs associated with the redemption of \$200.0 million aggregate principal amount of our 2017 Notes, compared to other income in 2012 of \$2.0 million as a result of insurance recoveries in excess of the loss incurred on a facility in the United States in the amount of \$1.9 million and recording a bargain purchase of \$0.9 million in the United Kingdom offset partially by foreign exchange losses of \$0.8 million;

our interest expense decreased by \$2.6 million, or 4.8%, due primarily to the redemption of \$200.0 million aggregate principal amount of our 2017 Notes and to an amendment to our ABL facility to more favorable terms;

our income tax expense decreased to \$2.2 million in 2013 compared to an income tax expense of \$4.6 million in 2012 due primarily to a reduction in pretax income;

our Adjusted EBITDA decreased to \$196.8 million from \$212.9 million in the comparable prior year period due to the items listed above; and

our adjusted net income and adjusted earnings per diluted share were \$36.3 million and \$0.38, respectively, compared to \$51.9 million and \$0.55 in the prior year, respectively.

Table of Contents

The following items of significance impacted our 2012 financial results:

our filled beverage case volume decreased 9.6% due primarily to our exit from certain low gross margin business and the general decline in the North American CSD and juice categories;

our revenue decreased 3.6% in 2012 compared to 2011 due primarily to lower volumes and a product mix shift into juice drinks and sports drinks from 100% shelf-stable juice in North America. Excluding the impact of foreign exchange, revenue decreased 3.0%;

our gross profit as a percentage of revenue increased to 12.9% in 2012 from 11.8% in 2011 due primarily to an increase in average price per case and our exit from lower margin business, as well as operational efficiencies in North America;

our SG&A expenses increased to \$178.0 million from \$172.7 million, due primarily to an increase in certain employee-related costs compared to a lowering of the annual incentive and long-term incentive accruals in the prior year partially offset by lower information technology expenses in 2012;

our loss on disposal of property, plant and equipment was the result of the sale of a facility in Mexico and normal operational disposals;

our 2012 results were impacted by the final contingent consideration earn-out accrual of \$0.6 million related to the Cliffstar Acquisition;

our other income in 2012 was \$2.0 million as a result of insurance recoveries in excess of the loss incurred on a facility in the United States in the amount of \$1.9 million and recording a bargain purchase of \$0.9 million in the United Kingdom offset partially by foreign exchange losses of \$0.8 million in the year, compared to other expense in 2011 of \$2.2 million related to foreign exchange losses on intercompany loans;

our interest expense decreased by \$2.9 million or 5.1% due primarily to lower debt balances held throughout the year; and

our income tax expense increased to \$4.6 million compared to an income tax benefit of \$0.7 million in 2011 due primarily to the recording of allowances against deferred tax assets in the U.S. that are uncertain to be realized as well as a reduction to the loss generated in the U.K.

The following items of significance impacted our 2011 financial results:

our filled beverage case volume increased 15.3% driven by a 17.6% increase in the North America reporting segment, due primarily to the Cliffstar Acquisition;

our revenue increased 29.5% in 2011 compared to 2010 due primarily to the Cliffstar Acquisition. Excluding the impact of the Cliffstar Acquisition and foreign exchange, revenue increased 6.7%;

the Cliffstar Acquisition contributed \$385.6 million of the increase in revenue, and \$19.6 million of the increase in operating income;

our gross profit as a percentage of revenue declined to 11.8% in 2011 from 14.8% in 2010. Gross profit in 2011 was adversely impacted by higher commodity costs;

our SG&A expenses increased to \$172.7 million from \$166.7 million, due primarily to the full year inclusion of Cliffstar;

our interest expense increased 54.7% due primarily to the issuance of the \$375.0 million aggregate principal amount of 8.125% senior notes due 2018 (the 2018 Notes) by Cott Beverages Inc. in the third quarter of 2010; and

a year-to-date tax benefit of \$0.7 million in 2011 compared to income tax expense of \$18.6 million in 2010 due primarily to lower pre-tax income in the United States, the reorganization of our legal entity structure and refinancing of intercompany debt.

Table of Contents**Critical Accounting Policies**

Our significant accounting policies and recently issued accounting pronouncements are described in Note 1 to the consolidated financial statements included in Item 8 of this Annual Report on Form 10-K. We believe the following represent our critical accounting policies:

Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the amounts in the consolidated financial statements and the accompanying notes. These estimates are based on historical experience, the advice of external experts or on other assumptions management believes to be reasonable. Where actual amounts differ from estimates, revisions are included in the results for the period in which actual amounts become known. Historically, differences between estimated and actual amounts have not had a significant impact on our consolidated financial statements.

Impairment testing of goodwill

Goodwill represents the excess purchase price of acquired businesses over the fair value of the net assets acquired. Goodwill is not amortized, but instead is tested for impairment at least annually in the fourth quarter or more frequently if we determine a triggering event has occurred during the year. Any impairment loss is recognized in our results of operations. We evaluate goodwill for impairment on a reporting unit basis. Reporting units are operations for which discrete financial information is available and are at or one level below our operating segments. For the purpose of testing goodwill for impairment, our reporting units are the United States (U.S.), United Kingdom (U.K.), Canada, and Royal Crown International (RCI). We had goodwill of \$137.3 million on our balance sheet at December 28, 2013, which represents amounts for the U.S., U.K., Canada and the RCI reporting units.

In 2013 and 2012, for our RCI reporting unit, we assessed qualitative factors to determine whether the existence of events or circumstances indicated that it was more likely than not that the fair value of the reporting unit was less than its carrying amount. We also performed this assessment for our Canada reporting unit in 2012. If, after assessing the totality of events or circumstances, we had determined that it was more likely than not that the fair value of the reporting unit was less than its carrying amount, then we would have performed the first step of the two-step goodwill impairment test. We concluded that it was more likely than not that the fair value of the reporting unit was more than its carrying amount and therefore we were not required to perform any additional testing.

In 2013, for our U.S. and Canada reporting units, we chose to bypass the qualitative assessment and performed the first step of the two-step goodwill impairment test using a mix of the income approach (which is based on the discounted cash flow of the reporting unit) and the public company approach. We believe using a combination of the two approaches provides a more accurate valuation because it incorporates the actual cash generation of the Company in addition to how a third party market participant would value the reporting unit. We also chose to bypass the qualitative assessment for our U.S. reporting unit in 2012. Because the business is assumed to continue in perpetuity, the discounted future cash flow includes a terminal value. We used a weighted average terminal growth rate of 1% for our U.S. reporting unit in 2013 and 2012 and a weighted average terminal growth rate of 1% for our Canada reporting unit in 2013. The long-term growth assumptions incorporated into the discounted cash flow calculation reflect our long-term view of the market (including a decline in CSD demand), projected changes in the sale of our products, pricing of such products and operating profit margins. The estimated revenue changes in the analysis for the U.S. reporting unit ranged between -9.7% and 5.6% for 2013 and -1.4% and 3.0% for 2012. The estimated revenue changes in the analysis for the Canada reporting unit ranged between -17.2% and 1.2% for 2013.

The discount rate used for the fair value estimates in the analysis for the U.S. reporting unit was 8.5% for 2013 and 10.5% for 2012 and ranged from 11% to 12% for 2011. The discount rate used for the fair value estimates in the analysis for the Canada reporting unit was 9.0% for 2013 and 11.0% for 2011. These rates were based on the weighted average cost of capital a market participant would use if evaluating the reporting unit as an investment. The risk-free rate was 3.4% and 2.4% for 2013 and 2012, respectively, and was based on a 20-year U.S. Treasury Bill as of the valuation date.

For the Canada reporting unit, the fair value exceeded the net book value by approximately 23% and 49% in 2013 and 2011, respectively. As noted above, a qualitative assessment was performed on our Canada reporting unit in 2012. From 2011 to 2013, the fair value declined by approximately 41%.

All goodwill in the U.K. reporting unit is attributable to the Calypso Soft Drinks Acquisition.

Table of Contents

Each year during the fourth quarter, we re-evaluate the assumptions used to reflect changes in the business environment, such as revenue growth rates, operating profit margins and discount rate. Based on the evaluations performed this year, we determined that the fair value of our reporting units exceeded their carrying amounts.

Impairment testing of intangible assets with an indefinite life

Our only intangible asset with an indefinite life relates to the 2001 acquisition of intellectual property from Royal Crown Company, Inc., including the right to manufacture our concentrates, with all related inventions, processes, technologies, technical and manufacturing information, know-how and the use of the Royal Crown brand outside of North America and Mexico (the Rights). This asset has a net book value of \$45.0 million. Prior to 2001, we paid a volume based royalty to the Royal Crown Company for purchase of concentrates. There are no legal, regulatory, contractual, competitive, economic, or other factors that limit the useful life of this intangible.

The life of the Rights is considered to be indefinite and therefore not amortized, but instead is tested for impairment at least annually or more frequently if we determine a triggering event has occurred during the year. We compare the carrying amount of the Rights to their fair value and where the carrying amount is greater than the fair value, we recognize in income an impairment loss. To determine fair value, we use a relief from royalty method, which calculates a fair value royalty rate that is applied to a forecast of future volume shipments of concentrate that is used to produce CSDs. The forecast of future volumes is based on the estimated inter-plant shipments and RCI shipments. The relief from royalty method is used since the Rights were purchased in part to avoid making future royalty payments for concentrate to the Royal Crown Company. The resulting cash flows are discounted using a discount rate of 12.5% and estimated volume changes between -10.7% and 5.5%. No impairment was calculated for the year ended December 28, 2013. Absent any other changes, if our inter-plant concentrate volume declines by 1.0% from our estimated volume, the fair value of our Rights would decline by approximately \$1.7 million. If our RCI volume declines by 1.0% from our estimated volume, the fair value of the Rights would decline by approximately \$2.6 million. If our discount rate increases by 100 basis points, the fair value of the Rights would decline by approximately \$5.5 million. None of these adjustments would result in an impairment of our Rights as either a stand-alone adjustment or in combination.

Other intangible assets

As of December 28, 2013, other intangible assets were \$251.2 million, consisting principally of \$212.0 million of customer relationships that arose from acquisitions, \$10.1 million of financing costs, \$17.5 million of information technology assets, and \$7.4 million of trademarks. Customer relationships are amortized on a straight-line basis for the period over which we expect to receive economic benefits. We review the estimated useful life of these intangible assets annually, taking into consideration the specific net cash flows related to the intangible asset, unless a review is required more frequently due to a triggering event such as the loss of a customer. The permanent loss or significant decline in sales to any customer included in the intangible asset would result in impairment in the value of the intangible asset or accelerated amortization and could lead to an impairment of fixed assets that were used to service that customer. In 2013, we recorded \$10.7 million of customer relationships acquired in connection with the Calypso Soft Drinks Acquisition. In 2011, we recorded an asset impairment charge of \$1.4 million related primarily to customer relationships. We did not record impairment charges for other intangible assets in 2013 or 2012.

Impairment of long-lived assets

When adverse events occur, we compare the carrying amount of long-lived assets to the estimated undiscounted future cash flows at the lowest level of independent cash flows for the group of long-lived assets and recognize any impairment loss based on discounted cash flows in the Consolidated Statements of Operations, taking into

consideration the timing of testing and the asset's remaining useful life. The expected life and value of these long-lived assets is based on an evaluation of the competitive environment, history and future prospects as appropriate. In 2011, we recorded an impairment of long-lived assets of \$0.6 million related to a production plant in Mexico that ceased operations. We did not record impairments of long-lived assets in 2013 or 2012.

Inventories

Inventories are stated at the lower of cost, determined on the first-in, first-out method, or net realizable value. Finished goods and work-in-process include the cost of raw materials, direct labor and manufacturing overhead costs. As a result, we use an inventory reserve to adjust our costs down to a net realizable value and to reserve for estimated obsolescence of both raw and finished goods.

Table of Contents

Income taxes

We are subject to income taxes in Canada as well as in numerous foreign jurisdictions. Significant judgments and estimates are required in determining the income tax expense in these jurisdictions. Our income tax expense, deferred tax assets and liabilities and reserves for unrecognized tax benefits reflect management's best assessment of estimated future taxes to be paid in the jurisdictions in which we operate.

Our income tax expense includes the results of the reorganization of our legal entity structure and refinancing of intercompany debt during 2013. The reorganization of our legal entity structure and refinancing of intercompany debt should result in long term reduction of Cott's effective tax rate versus statutory rates. However, since the calculation of our tax liabilities involves dealing with uncertainties in the application of complex tax laws and regulations in a multitude of jurisdictions across our global operations, our effective tax rate may ultimately be different than the amount we are currently reporting.

Deferred income taxes arise from temporary differences between the tax and financial statement recognition of revenue and expense. In evaluating our ability to recover our deferred tax assets within the jurisdiction from which they arise we consider all available positive and negative evidence, including scheduled reversals of deferred tax liabilities, projected future taxable income, tax planning strategies and recent financial operations. In projecting future taxable income, we begin with historical results adjusted for the results of discontinued operations and changes in accounting policies and incorporate assumptions including the amount of future Canadian and foreign pre-tax operating income, the reversal of temporary differences, and the implementation of feasible and prudent tax planning strategies. These assumptions require significant judgment about the forecasts of future taxable income and are consistent with the plans and estimates we are using to manage the underlying businesses.

Changes in tax laws and rates could also affect recorded deferred tax assets and liabilities in the future. Management is not aware of any such changes that would have a material effect on our results of operations, cash flows or financial position.

The calculation of our tax liabilities involves dealing with uncertainties in the application of complex tax laws and regulations in a multitude of jurisdictions across our global operations.

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 740, Income Taxes (ASC 740) provides that a tax benefit from an uncertain tax position may be recognized when it is more likely than not that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, based on the technical merits. ASC 740 also provides guidance on measurement, derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

We recognize tax liabilities in accordance with ASC 740 and we adjust these liabilities when our judgment changes as a result of the evaluation of new information not previously available. Due to the complexity of some of these uncertainties, the ultimate resolution may result in a payment that is materially different from our current estimate of the tax liabilities. These differences will be reflected as increases or decreases to income tax expense in the period in which they are determined.

Pension costs

We account for our pension plans in accordance with ASC No. 715-20, Compensation - Defined Benefit Plans - General (ASC 715-20). The funded status is the difference between the fair value of plan assets and the benefit obligation. The adjustment to accumulated other comprehensive income represents the net unrecognized actuarial gains or losses and

unrecognized prior service costs. Future actuarial gains or losses that are not recognized as net periodic benefits cost in the same periods will be recognized as a component of other comprehensive income.

We maintain three defined-benefit plans that cover certain employees in the United Kingdom and certain other employees under a collective bargaining agreement at one plant in the United States. We record annual amounts relating to these plans based on calculations specified by GAAP, which include various actuarial assumptions such as discount rates (4.4% to 4.5%) and assumed rates of return (6.1% to 7.0%) depending on the pension plan. Material changes in pension costs may occur in the future due to changes in these assumptions. Future annual amounts could be impacted by changes in the discount rate, changes in the expected long-term rate of return, changes in the level of contributions to the plans and other factors.

Table of Contents

The discount rate for the U.S. Plan is based on a model portfolio of AA rated bonds with a maturity matched to the estimated payouts of future pension benefits for this type of plan. The discount rate of the U.K. Plans for 2012 and 2011 were based on a model portfolio of AA rated bonds, using the redemption yields on the constituent stocks of the Merrill Lynch index with a maturity matched to the estimated future pension benefits. The discount rate of the U.K. Plans for 2013 is based on the Annualized yield of the Aon Hewitt GBP Select AA Curve. The expected return on plan assets is based on our expectation of the long-term rates of return on each asset class based on the current asset mix of the funds, considering the historical returns earned on the type of assets in the funds, plus an assumption of future inflation. The current investment policy target asset allocation differs between our three plans, but it is between 50.0% to 80.0% for equities and 20.0% to 50.0% for bonds. The current inflation assumption is 2.3%. We review our actuarial assumptions on an annual basis and make modifications to the assumptions based on current rates and trends when appropriate. The effects of the modifications are amortized over future periods.

Non-GAAP Measures

In this Annual Report on Form 10-K, we supplement our reporting of financial measures determined in accordance with GAAP by utilizing certain non-GAAP financial measures. We exclude the impact of foreign exchange to separate the impact of currency exchange rate changes from our results of operations, and, in some cases, by excluding the impact of the Calypso Soft Drinks Acquisition or the Cliffstar Acquisition, as the case may be. We exclude these items to better understand trends in the business and the impact of the Calypso Soft Drinks Acquisition or the Cliffstar Acquisition, as the case may be.

We also utilize earnings before interest expense, taxes, depreciation and amortization (EBITDA), which is GAAP earnings before interest expense, provision for income taxes, depreciation and amortization. We consider EBITDA to be an indicator of operating performance. We also use EBITDA, as do analysts, lenders, investors and others, because it excludes certain items that can vary widely across different industries or among companies within the same industry. These differences can result in considerable variability in the relative costs of productive assets and the depreciation and amortization expense among companies. We also utilize adjusted EBITDA, which is EBITDA adjusted for inventory step-up (step-down), acquisition costs, and integration costs related to the Calypso Soft Drinks Acquisition or the Cliffstar Acquisition, as the case may be (Adjusted EBITDA). We consider Adjusted EBITDA to be an indicator of our operating performance. Adjusted EBITDA excludes certain items to make more meaningful period-over-period comparisons of our ongoing core operations before material charges.

We also utilize adjusted net income, which is GAAP earnings (loss) excluding purchase accounting adjustments, integration expenses, restructuring expenses and asset impairments, as well as adjusted earnings per diluted share, which is adjusted net income divided by diluted weighted average outstanding shares. We consider these measures to be indicators of our operating performance. These measures exclude certain items to make period-over-period comparisons of our ongoing core operations before material charges.

Additionally, we supplement our reporting of net cash provided by operating activities determined in accordance with GAAP by excluding capital expenditures to present free cash flow, which management believes provides useful information to investors about the amount of cash generated by the business that, after the acquisition of property and equipment, can be used for strategic opportunities, including investing in our business, making strategic acquisitions, paying dividends, and strengthening the balance sheet.

Because we use these adjusted financial results in the management of our business and to understand underlying business performance, we believe this supplemental information is useful to investors for their independent evaluation and understanding of our business performance and the performance of our management. The non-GAAP financial measures described above are in addition to, and not meant to be considered superior to, or a substitute for, our

financial statements prepared in accordance with GAAP. In addition, the non-GAAP financial measures included in this Annual Report on Form 10-K reflect our judgment of particular items, and may be different from, and therefore may not be comparable to, similarly titled measures reported by other companies.

Table of Contents

The following table summarizes our Consolidated Statements of Operations as a percentage of revenue for 2013, 2012 and 2011:

(in millions of U.S. dollars, except percentage amounts)	2013		2012		2011	
	Percent of Revenue		Percent of Revenue		Percent of Revenue	
Revenue	\$ 2,094.0	100.0%	2,250.6	100.0%	2,334.6	100.0%
Cost of sales	1,842.0	88.0%	1,961.1	87.1%	2,058.0	88.2%
Gross profit	252.0	12.0%	289.5	12.9%	276.6	11.8%

Income tax expense (benefit)	2.2	0.1%	4.6	0.2%	(0.7)	%
Net income	22.0	1.1%	52.3	2.3%	41.2	1.8%
Less: Net income attributable to non-controlling interests	5.0	0.2%	4.5	0.2%	3.6	0.2%
Net income attributed to Cott Corporation	\$ 17.0	0.8%	47.8	2.1%	37.6	1.6%
Depreciation & amortization	\$ 100.8	4.8%	97.7	4.3%	95.3	4.1%

Table of Contents

The following table summarizes our revenue and operating income by reporting segment for 2013, 2012 and 2011 (for purposes of the table below, our corporate oversight function (Corporate) is not treated as a segment; it includes certain general and administrative costs that are not allocated to any of the reporting segments):

(in millions of U.S. Dollars)	2013	2012	2011
<u>Revenue</u>			
North America	\$ 1,535.2	\$ 1,707.4	\$ 1,809.3
United Kingdom	494.3	473.2	447.9
All Other	64.5	70.0	77.4
Total	\$ 2,094.0	\$ 2,250.6	\$ 2,334.6
<u>Operating income (loss)</u>			
North America	\$ 67.5	\$ 90.4	\$ 81.3
United Kingdom	25.6	27.1	27.5
All Other	7.2	4.3	2.8
Corporate	(11.7)	(12.1)	(10.9)
Total	\$ 88.6	\$ 109.7	\$ 100.7

The following table summarizes our beverage case volume by reporting segment for 2013, 2012 and 2011:

(in millions of cases)	2013	2012	2011
<u>Volume 8 oz. equivalent cases - Total Beverage (including concentrate)</u>			
North America	660.4	739.2	808.7
United Kingdom	208.7	204.1	209.0
All Other	274.1	303.8	296.5
Total	1,143.2	1,247.1	1,314.2
<u>Volume 8 oz. equivalent cases - Filled Beverage</u>			
North America	580.6	651.5	727.6
United Kingdom	193.6	189.5	194.7
All Other	18.6	26.0	37.2
Total	792.8	867.0	959.5

Revenues and volumes are attributed to reporting segments based on the location of the customer.

Table of Contents

The following tables summarize revenue and beverage case volume by product for 2013, 2012 and 2011:

The following unaudited financial information for the three months and year ended December 28, 2013 represents the activity of Calypso Soft Drinks from and after June 2013, the month in which we acquired Calypso Soft Drinks and combined its operations with those of our United Kingdom business.

<i>(in millions of U.S. dollars)</i>	For the Three Months Ended December 28, 2013	For the Year Ended December 28, 2013
Revenue		
United Kingdom	\$ 126.1	\$ 494.3
Less: Calypso Soft Drinks	(10.8)	(30.7)
United Kingdom excluding Calypso Soft Drinks	\$ 115.3	\$ 463.6

The following table summarizes our free cash flow for the three months and year ended December 28, 2013 and December 29, 2012, respectively.

<i>(in millions of U.S. dollars)</i>	For the Three Months Ended December 28, 2013	December 29, 2012
Net cash provided by operating activities	\$ 92.3	\$ 120.0
Less: Capital expenditures	(10.9)	(19.1)
Free Cash Flow	\$ 81.4	\$ 100.9

<i>(in millions of U.S. dollars)</i>	For the Year Ended December 28, 2013	December 29, 2012
Net cash provided by operating activities	\$ 155.2	\$ 173.0
Less: Capital expenditures	(55.6)	(69.7)
Free Cash Flow	\$ 99.6	\$ 103.3

2013 versus 2012

Revenue decreased \$156.6 million, or 7.0%, in 2013 from 2012. Excluding the impact of foreign exchange, revenue decreased 6.5% due primarily to the general market decline in the North American carbonated soft drink (CSD) category, prolonged aggressive promotional activity from the national brands in North America as well as the exiting

of case pack water.

2012 versus 2011

Revenue decreased \$84.0 million, or 3.6%, in 2012 from 2011. Excluding the impact of foreign exchange, revenue decreased 3.0% due primarily to lower beverage case volumes and a product mix shift into juice drinks and sports drinks from 100% shelf-stable juice in North America.

Table of Contents**Revenue Results for Reporting Segments***2013 versus 2012*

North America revenue decreased \$172.2 million, or 10.1%, in 2013 from 2012. Excluding the impact of foreign exchange, revenue decreased 9.8%, due primarily to the general market decline in the North American CSD category, prolonged aggressive promotional activity from the national brands in North America as well as the exiting of case pack water. Net selling price per beverage case (which is net revenue divided by filled beverage case volume) increased 0.8% in 2013 from 2012.

U.K. revenue increased \$21.1 million, or 4.5%, in 2013 from 2012, due primarily to the Calypso Soft Drinks Acquisition and an increase in net selling price per beverage case. Net selling price per beverage case increased 2.3% in 2013 from 2012. Excluding the impact of foreign exchange, U.K. revenue increased 5.8% in 2013 from 2012.

All Other revenue decreased \$5.5 million, or 7.9%, in 2013 from 2012, due primarily to the exiting of low gross margin business, partially offset by increased higher margin contract manufacturing and export customers. Net selling price per beverage case increased 28.2% in 2013 from 2012. Excluding the impact of foreign exchange, revenue decreased 9.1% in 2013 from 2012.

2012 versus 2011

North America revenue decreased \$101.9 million, or 5.6%, in 2012 from 2011. Excluding the impact of foreign exchange, revenue decreased 5.4%, due primarily to our exit from certain low gross margin business, a general decline in the North American CSD and juice categories and a product mix shift into juice drinks and sports drinks from 100% shelf-stable juice. Net selling price per beverage case (which is net revenue divided by beverage case volume) increased 3.2% in 2012 from 2011 due primarily to an increase in average price per case and a product mix shift.

U.K. revenue increased \$25.3 million, or 5.6%, in 2012 from 2011, due primarily to an increase in average price per case and favorable product mix. Net selling price per beverage case increased 8.2% in 2012 from 2011 due primarily to an increase in average price per case and favorable product mix. Excluding the impact of foreign exchange, U.K. revenue increased 7.0% in 2012 from 2011.

All Other revenue decreased \$7.4 million, or 9.6%, in 2012 from 2011, due primarily to the non-renewal of a regional brand license at the end of its term slightly offset by higher volumes from a new customer in South America and the timing of shipments to customers in Asia. Net selling price per beverage case increased 12.7% in 2012 from 2011 due primarily to favorable product mix. Excluding the impact of foreign exchange, All Other revenue decreased 4.8% in 2012 from 2011.

Cost of Sales*2013 versus 2012*

Cost of sales represented 88.0% of revenue in 2013 compared to 87.1% in 2012. The increase in cost of sales as a percentage of revenue was due primarily to unfavorable fixed cost absorption associated with lower global volumes.

2012 versus 2011

Cost of sales represented 87.1% of revenue in 2012 compared to 88.2% in 2011. The decrease in cost of sales as a percentage of revenue was due primarily to an increase in average price per case and favorable product mix. Major elements of these variable costs included ingredient and packaging costs, distribution costs and fees paid to third-party manufacturers.

Gross Profit

2013 versus 2012

Gross profit as a percentage of revenue decreased to 12.0% in 2013 from 12.9% in 2012, due primarily to lower global volumes which resulted in unfavorable fixed cost absorption.

Table of Contents

2012 versus 2011

Gross profit as a percentage of revenue increased to 12.9% in 2012 from 11.8% in 2011, due primarily to an increase in average price per case and the exit from certain low gross margin business, as well as operating efficiencies in North America.

Selling, General and Administrative Expenses

2013 versus 2012

SG&A in 2013 decreased \$17.6 million, or 9.9%, from 2012. The decrease in SG&A was due primarily to lower employee-related costs, reduced information technology costs, and a reduction in professional fees and similar costs. As a percentage of revenue, SG&A was 7.7% in 2013 and 7.9% in 2012.

2012 versus 2011

SG&A in 2012 increased \$5.3 million, or 3.1%, from 2011. The increase in SG&A was due primarily to an increase in certain employee-related costs in 2012 compared to lowering of the annual incentive and long-term incentive accruals in 2011, partially offset by lower information technology expenses in the current year. As a percentage of revenue, SG&A was 7.9% in 2012 and 7.4% in 2011.

Restructuring and Asset Impairments

2013 versus 2012

During June 2013, we implemented a restructuring plan (the 2013 Restructuring Plan), which consisted primarily of headcount reductions. For the year ended December 28, 2013, in connection with the 2013 Restructuring Plan, we incurred charges of approximately \$2.0 million related primarily to employee redundancy costs. We did not record any restructuring or impairment charges in 2012.

2012 versus 2011

We did not record any restructuring or impairment charges in 2012. In 2011, we recorded an intangible asset impairment of \$1.4 million related to a customer list that was impaired due to the loss of a customer. Also in 2011, we recorded a \$0.6 million impairment of long-lived assets related to a production plant in Mexico that ceased operations.

Operating Income

2013 versus 2012

Operating income in 2013 was \$88.6 million compared to operating income of \$109.7 million in 2012. Overall, operating income decreased by \$21.1 million, or 19.2 %, as a result of lower gross profit as a percentage of revenue partially offset by lower SG&A.

2012 versus 2011

Operating income in 2012 was \$109.7 million compared to operating income of \$100.7 million in 2011. Overall, operating income increased by \$9.0 million, or 8.9%, as a result of an increase in average price per case, the exit from

certain low gross margin business, favorable product mix, and operational efficiencies in North America, partially offset by an increase in SG&A.

Other Expense (Income), Net

2013 versus 2012

Other expense was \$12.8 million in 2013 compared to other income of \$2.0 million in 2012. In 2013, we incurred approximately \$12.7 million in costs related to the redemption of \$200.0 million aggregate principal amount of our 2017 Notes, as well as other foreign exchange losses of approximately \$0.1 million. In 2012, other income was \$2.0 million, which consisted of \$1.9 million of insurance recoveries in excess of the loss incurred on a U.S. facility and a bargain purchase gain of \$0.9 million in the U.K., offset by \$0.8 million of foreign exchange losses related primarily to intercompany loans.

Table of Contents*2012 versus 2011*

Other income was \$2.0 million in 2012 compared to other expense of \$2.2 million in 2011. In 2012, we recorded \$1.9 million of insurance recoveries in excess of the loss incurred on a U.S. facility and a bargain purchase gain of \$0.9 million in the United Kingdom, offset by \$0.8 million of foreign exchange losses primarily related to intercompany loans. In 2011, we recorded \$2.2 million of foreign exchange losses related primarily to intercompany loans.

Interest Expense, Net*2013 versus 2012*

Net interest expense in 2013 decreased 4.8% from 2012 due primarily to the redemption of \$200.0 million of our 2017 Notes as well as an amendment to our ABL facility to more favorable terms.

2012 versus 2011

Net interest expense in 2012 decreased 5.1% from 2011 due primarily to lower average debt balances held throughout 2012 and lower ABL fees in 2012 compared to 2011.

Income Taxes*2013 versus 2012*

In 2013, we recorded income tax expense of \$2.2 million compared to an income tax expense of \$4.6 million in 2012. The difference was due primarily to a reduction in pre-tax income during 2013.

2012 versus 2011

In 2012, we recorded income tax expense of \$4.6 million compared to a tax benefit of \$0.7 million in 2011. The difference was due primarily to the recording of allowances against deferred tax assets in the United States that are uncertain to be realized as well as a reduction to the loss generated in the United Kingdom.

Liquidity and Capital Resources

The following table summarizes our cash flows for 2013, 2012 and 2011 as reported in our Consolidated Statements of Cash Flows in the accompanying Consolidated Financial Statements:

(in millions of U.S. dollars)	For the Year Ended		
	December 28, 2013	December 29, 2012	December 31, 2011
Net cash provided by operating activities	\$ 155.2	\$ 173.0	\$ 163.5
Net cash used in investing activities	(71.9)	(80.4)	(90.2)
Net cash used in financing activities	(213.3)	(16.2)	(20.3)
Effect of exchange rate changes on cash	(2.2)	2.1	(0.3)

Net (decrease) increase in cash & cash equivalents	(132.2)	78.5	52.7
Cash & cash equivalents, beginning of period	179.4	100.9	48.2
Cash & cash equivalents, end of period	\$ 47.2	\$ 179.4	\$ 100.9

Operating Activities

Cash provided by operating activities in 2013 was \$155.2 million compared to \$173.0 million in 2012 and \$163.5 million in 2011. The \$17.8 million decrease in 2013 compared to 2012 was due primarily to lower net income, tax adjustments, receipt of a deposit and reduced inventory balances excluding the Calypso Soft Drinks Acquisition.

The \$9.5 million increase in 2012 compared to 2011 was due primarily to higher net income, deferred income taxes, and income taxes recoverable, offset by a smaller amount of cash provided by changes in working capital in 2012 compared to 2011.

Table of Contents

Investing Activities

Cash used in investing activities was \$71.9 million in 2013 compared to \$80.4 million in 2012 and \$90.2 million in 2011. The \$8.5 million decrease in 2013 compared to 2012 was due primarily to using less cash for equipment purchases, partially offset by an increase in acquisition activity.

The \$9.8 million decrease in 2012 compared to 2011 was due primarily to using less cash for acquisitions offset in part by larger expenditures for property, plant and equipment related to our ongoing vertical integration.

Financing Activities

Cash used in financing activities was \$213.3 million in 2013 compared to \$16.2 million in 2012 and \$20.3 million in 2011. The increase in financing occurred as a result of our redemption of \$200.0 million aggregate principal amount of our 2017 Notes, a full year of dividend payments, increased share repurchase activity, and payments of long term debt associated with the Calypso Soft Drinks Acquisition, partially offset by an increase in outstanding borrowings under our ABL during the period.

During 2012, we made payments of \$3.3 million on our long-term debt, \$5.8 million for dividends and \$1.2 million for financing fees. In 2011, we made payments of \$6.8 million on our long-term debt and \$7.8 million, net under our ABL facility.

Financial Liquidity

As of December 28, 2013, we had \$458.3 million of debt and \$47.2 million of cash and cash equivalents compared to \$605.8 million of debt and \$179.4 million of cash and cash equivalents as of December 29, 2012.

We believe that our level of resources, which includes cash on hand, available borrowings under the ABL facility and funds provided by operations, will be adequate to meet our expenses, capital expenditures, and debt service obligations for the next twelve months. Our ability to generate cash to meet our current expenses and debt service obligations will depend on our future performance. If we do not have enough cash to pay our debt service obligations, or if the ABL facility or 2018 Notes were to become currently due, either at maturity or as a result of a breach, we may be required to take actions such as amending our ABL facility or the indentures governing our 2018 Notes, refinancing all or part of our existing debt, selling assets, incurring additional indebtedness or raising equity. If we need to seek additional financing, there is no assurance that this additional financing will be available on favorable terms or at all.

Should we desire to consummate significant acquisition opportunities or undertake significant expansion activities, our capital needs would increase and could result in our need to increase available borrowings under our ABL facility or access public or private debt and equity markets.

As of December 28, 2013, our total availability under the ABL facility was \$238.3 million, which was based on our borrowing base (accounts receivables, inventory, and fixed assets). We had \$50.8 million of outstanding borrowings under the ABL facility and \$7.5 million in outstanding letters of credit. As a result, our excess availability under the ABL facility was \$180.0 million. Each month's borrowing base is not effective until submitted to the lenders, which usually occurs on the fifteenth day of the following month.

We earn approximately 100% of our consolidated operating income in subsidiaries located outside of Canada. All of these foreign earnings are considered to be indefinitely reinvested in foreign jurisdictions where we have made, and

will continue to make, substantial investments to support the ongoing development and growth of our international operations. Accordingly, no Canadian income taxes have been provided on these foreign earnings. Cash and cash equivalents held by our foreign subsidiaries are readily convertible into other foreign currencies, including Canadian dollars. We do not intend, nor do we foresee a need, to repatriate these funds.

We expect existing domestic cash, cash equivalents, cash flows from operations and the issuance of domestic debt to continue to be sufficient to fund our domestic operating, investing and financing activities. In addition, we expect existing foreign cash, cash equivalents, and cash flows from operations to continue to be sufficient to fund our foreign operating and investing activities.

In the future, should we require more capital to fund significant discretionary activities in Canada than is generated by our domestic operations and is available through the issuance of domestic debt or stock, we could elect to repatriate future

Table of Contents

periods earnings from foreign jurisdictions. This alternative could result in a higher effective tax rate during the period of repatriation. While the likelihood is remote, we could also elect to repatriate earnings from foreign jurisdictions that have previously been considered to be indefinitely reinvested. Upon distribution of those earnings in the form of dividends or otherwise, we may be subject to additional Canadian income taxes and withholding taxes payable to various foreign jurisdictions, where applicable. This alternative could result in a higher effective tax rate in the period in which such a determination is made to repatriate prior period foreign earnings.

In 2013, a dividend of C\$0.06 per common share was declared each quarter for an aggregate dividend payment of approximately \$21.9 million. During 2013, we repurchased 1,245,027 common shares for approximately \$10.0 million through open market transactions.

On November 15, 2013, we redeemed \$200.0 million aggregate principal amount of our 2017 Notes at 104.118% of par. The redemption included approximately \$8.2 million in premium payments as well as approximately \$4.5 million in deferred financing fees, discount charges and other bond redemption costs.

On February 19, 2014, we redeemed all \$15.0 million in aggregate principal amount of the remaining outstanding 2017 Notes at 104.118% of par. The redemption included approximately \$0.6 million in premium payments as well as approximately \$0.3 million in deferred financing fees and discount charges.

We may, from time to time, depending on market conditions, including without limitation whether the 2018 Notes are then trading at a discount to their face amount, repurchase the 2018 Notes for cash and/or in exchange for shares of our common stock, warrants, preferred stock, debt or other consideration, in each case in open market purchases and/or privately negotiated transactions. The amounts involved in any such transactions, individually or in aggregate, may be material. However, the covenants in our ABL facility subject such purchases to certain limitations and conditions.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements as defined under Item 303(a)(4) of Regulation S-K as of December 28, 2013.

Contractual Obligations

The following table shows the schedule of future payments under certain contracts, including debt agreements and guarantees, as of December 28, 2013:

(in millions of U.S. dollars)	Total	Payments due by period					
		2014	2015	2016	2017	2018	Thereafter
8.375% Senior notes due in 2017	\$ 15.0	\$	\$	\$	\$ 15.0	\$	\$
8.125% Senior notes due in 2018	375.0					375.0	
ABL facility ¹	50.8	50.8					
GE Term Loan ²	10.3	1.9	2.0	2.1	2.3	2.0	
Deferred consideration	5.3	2.3	3.0				
Capital leases and other long-term debt	7.2	2.0	2.2	1.3	0.6	0.2	0.9
Interest expense ³	148.7	33.5	32.4	31.6	31.3	19.7	0.2
Operating leases	89.3	17.7	16.5	14.0	11.3	9.7	20.1

Guarantee purchase equipment	11.0	11.0					
Pension obligations	3.1	3.1					
Purchase obligations ⁴	177.8	120.8	17.6	13.5	9.6	9.6	6.7
Total⁵	893.5	243.1	73.7	62.5	70.1	416.2	27.9

- ^{1.} The ABL facility is considered a current liability. As of December 28, 2013, we had \$50.8 million of outstanding borrowings under the ABL facility.

Table of Contents

2. In January 2008, we entered into a capital lease finance arrangement with General Electric Capital Corporation (GE Capital) for the lease of equipment. In September 2013, we purchased the equipment subject to the lease for an aggregate purchase price of \$10.7 million, with the financing for such purchase provided by GE Capital at 5.23% interest.
3. Interest expense includes fixed interest on the 2018 Notes, the 2017 Notes, the GE Term Loan, the ABL facility, capital leases and other long-term liabilities. Actual amounts will differ from estimates provided.
4. Purchase obligations consist of commitments for the purchase of inventory, energy transactions, and payments related to professional fees and technology outsourcing agreements. These obligations represent the minimum contractual obligations expected under the normal course of business.
5. The contractual obligations table excludes the Company's ASC 740 uncertain tax positions of \$10.5 million because the Company cannot make a reliable estimate as to when such amounts will be settled.

Debt

Our total debt as of December 28, 2013 and December 29, 2012 was as follows:

(in millions of U.S. dollars)	December 28, 2013	December 29, 2012
8.375% senior notes due in 2017 ¹	15.0	215.0
8.125% senior notes due in 2018	375.0	375.0
ABL facility	50.8	
GE Term Loan	10.3	9.9
Capital leases and other debt financing	7.2	5.9
Total debt	458.3	605.8
Less: Short-term borrowings and current debt:		
ABL facility	50.8	
Total short-term borrowings	50.8	
GE Term Loan - current maturities	1.9	0.9
Capital leases and other financing - current maturities	2.0	1.0
Total current debt	54.7	1.9
Long-term debt before discount	403.6	603.9
Less discount on 8.375% notes	(0.1)	(2.1)
Total long-term debt	\$ 403.5	\$ 601.8

1. Our 8.375% senior notes were issued at a discount of 1.425% on November 13, 2009.

Asset-Based Lending Facility

On March 31, 2008, we entered into a credit agreement with JPMorgan Chase Bank N.A. as Agent that created an ABL facility to provide financing for our North America, U.K. and Mexico operations. In connection with the Cliffstar Acquisition, we refinanced the ABL facility on August 17, 2010 to, among other things, provide for the

Cliffstar Acquisition, the Note Offering and the application of net proceeds therefrom, the Equity Offering and the application of net proceeds therefrom and to increase the amount available for borrowings to \$275.0 million. We drew down a portion of the indebtedness under the ABL facility in order to fund the Cliffstar Acquisition. We incurred \$5.4 million of financing fees in connection with the refinancing of the ABL facility.

On July 19, 2012, we amended the ABL facility to, among other things, extend the maturity date to either July 19, 2017 or, if we have not redeemed, repurchased or refinanced the 2017 Notes by May 1, 2017, May 15, 2017. We incurred \$1.2 million of financing fees in connection with the amendment of the ABL facility. This amendment was considered to be a modification of the original agreement under generally accepted accounting standards.

On October 22, 2013, we amended the ABL facility to, among other things, (1) provide for an increase in the lenders commitments under the ABL facility to \$300 million, as well an increase to the accordion feature, which permits us to increase the lenders commitments under the ABL facility to \$350 million, subject to certain conditions, (2) extend the

Table of Contents

maturity date to the earliest of (i) October 22, 2018, (ii) May 15, 2017, if we have not redeemed, repurchased or refinanced the 2017 Notes by May 1, 2017, or (iii) March 1, 2018, if we have not redeemed, repurchased or refinanced the 2018 Notes by February 15, 2018, and (3) provide for greater flexibility under certain covenants. We incurred approximately \$0.7 million of financing fees in connection with the amendment of the ABL facility. This amendment was considered to be a modification of the original agreement under generally accepted accounting standards.

The financing fees incurred in connection with the refinancing of the ABL facility on August 17, 2010, along with the financing fees incurred in connection with the amendment of the ABL facility on July 19, 2012 and on October 22, 2013, are being amortized using the straight line method over the duration of the amended ABL facility.

As of December 28, 2013, we had \$50.8 million of outstanding borrowings under the ABL facility. The commitment fee was 0.375% per annum of the unused commitment, which, taking into account \$7.5 million of letters of credit, was \$180.0 million as of December 28, 2013.

The effective interest rate as of December 28, 2013 on LIBOR and Prime loans is based on average aggregate availability as follows:

Average Aggregate Availability

(in millions of U.S. dollars)	ABR Spread	Canadian Prime Spread	Eurodollar Spread	CDOR Spread	Overnight LIBOR
Over \$150	0.25%	0.25%	1.75%	1.75%	1.75%
\$75 - \$150	0.50%	0.50%	2.00%	2.00%	2.00%
Under \$75	0.75%	0.75%	2.25%	2.25%	2.25%

8.125% Senior Notes due in 2018

On August 17, 2010, we issued \$375.0 million of 2018 Notes. The issuer of the 2018 Notes is our wholly-owned U.S. subsidiary Cott Beverages Inc., and most of our U.S., Canadian and U.K. subsidiaries guarantee the 2018 Notes. The interest on the 2018 Notes is payable semi-annually on March 1st and September 1st of each year.

We incurred \$8.6 million of financing fees in connection with the issuance of the 2018 Notes. The financing fees are being amortized using the effective interest method over an eight-year period, which represents the term to maturity of the 2018 Notes.

8.375% Senior Notes due in 2017

On November 13, 2009, we issued \$215.0 million of 2017 Notes. The 2017 Notes were issued at a \$3.1 million discount. The issuer of the 2017 Notes is our wholly-owned U.S. subsidiary Cott Beverages Inc., and most of our U.S., Canadian and U.K. subsidiaries guarantee the 2017 Notes. The interest on the 2017 Notes is payable semi-annually on May 15th and November 15th of each year.

We incurred \$5.1 million of financing fees in connection with the 2017 Notes. The financing fees are being amortized using the effective interest method over an eight-year period, which represents the term to maturity of the 2017 Notes.

On November 15, 2013, we redeemed \$200.0 million aggregate principal amount of our 2017 Notes at 104.118% of par. The redemption included approximately \$8.2 million in premium payments as well as approximately \$4.5 million in deferred financing fees, discount charges and other bond redemption costs.

On February 19, 2014, we redeemed all \$15.0 million in aggregate principal amount of the remaining outstanding 2017 Notes at 104.118% of par.

GE Term Loan

In January 2008, we entered into a capital lease finance arrangement with GE Capital for the lease of equipment. In September 2013, we purchased the equipment subject to the lease for an aggregate purchase price of \$10.7 million, with the financing for such purchase provided by GE Capital at 5.23% interest.

Table of Contents**Credit Ratings and Covenant Compliance*****Credit Ratings***

Our objective is to maintain credit ratings that provide us with ready access to global capital and credit markets at favorable interest rates.

As of December 28, 2013, the Company's credit ratings were as follows:

	Credit Ratings	
	Moody's Rating	Standard and Poor's Rating
Corporate credit rating	B2	B+
2017 Notes	B3	B+
2018 Notes	B3	B+
Outlook	Stable	Watch Developing

Any downgrade of our credit ratings by either Moody's or S&P could increase our future borrowing costs or impair our ability to access capital markets on terms commercially acceptable to us or at all.

Covenant Compliance***8.125% Senior Notes due in 2018***

Under the indenture governing the 2018 Notes, we are subject to a number of covenants, including covenants that limit our and certain of our subsidiaries' ability, subject to certain exceptions and qualifications, to (i) pay dividends or make distributions, repurchase equity securities, prepay subordinated debt or make certain investments, (ii) incur additional debt or issue certain disqualified stock or preferred stock, (iii) create or incur liens on assets securing indebtedness, (iv) merge or consolidate with another company or sell all or substantially all of our assets taken as a whole, (v) enter into transactions with affiliates and (vi) sell assets. We have been in compliance with all of the covenants under the 2018 Notes and there have been no amendments to any such covenants since the 2018 Notes were issued.

8.375% Senior Notes due in 2017

Under the indenture governing the 2017 Notes, we are subject to a number of covenants, including covenants that limit our and certain of our subsidiaries' ability, subject to certain exceptions and qualifications, to (i) pay dividends or make distributions, repurchase equity securities, prepay subordinated debt or make certain investments, (ii) incur additional debt or issue certain disqualified stock or preferred stock, (iii) create or incur liens on assets securing indebtedness, (iv) merge or consolidate with another company or sell all or substantially all of our assets taken as a whole, (v) enter into transactions with affiliates and (vi) sell assets. We have been in compliance with all of the covenants under the 2017 Notes and there have been no amendments to any such covenants since the 2017 Notes were issued.

ABL Facility

Under the credit agreement governing the ABL facility, Cott and its restricted subsidiaries are subject to a number of business and financial covenants, including a covenant requiring a minimum fixed charge coverage ratio of at least 1.1

to 1.0 effective when and if excess availability is less than the greater of 10% of the lenders' commitments under the ABL facility or \$30.0 million. If excess availability is less than the greater of 12.5% of the lenders' commitments under the ABL facility or \$37.5 million, the lenders will take dominion over the cash and will apply excess cash to reduce amounts owing under the facility. We were in compliance with all of the applicable covenants under the ABL facility as of December 28, 2013.

Issuer Purchases of Equity Securities

Common Share Repurchase Program

On May 1, 2012, our board of directors authorized the repurchase of up to \$35.0 million of our common shares in the open market or through privately negotiated transactions over a 12-month period through either a 10b5-1 automatic trading plan or at management's discretion in compliance with regulatory requirements, and given market, cost and other considerations. During the second quarter of 2012, we repurchased 35,272 common shares for approximately \$0.3 million.

Table of Contents

through open market transactions. On April 30, 2013, our board of directors renewed our share repurchase program for up to 5% of Cott's outstanding common shares over a 12-month period commencing upon the expiration of the prior share repurchase program on May 21, 2013. During 2013, we repurchased 1,245,027 common shares for approximately \$10.0 million through open market transactions. We are unable to predict the number of shares that ultimately will be repurchased under the share repurchase program, or the aggregate dollar amount of the shares actually purchased. We may discontinue purchases at any time, subject to compliance with applicable regulatory requirements.

Tax Withholding

In the fourth quarter of 2012, 356,379 shares of our previously-issued common stock were withheld from delivery to our employees to satisfy their tax obligations related to stock-based awards. No such withholdings occurred during the fourth quarter of 2013.

Capital structure

Since December 29, 2012, equity has decreased by \$17.0 million. The decrease was primarily the result of dividend payments of \$21.9 million, \$10.1 million in common share repurchases, \$6.6 million of distributions to non-controlling interests, and \$5.1 million of foreign currency translation losses on the net assets of self-sustaining foreign operations, partially offset by net income of \$17.0 million, \$5.0 million of non-controlling interest income, \$4.0 million of share-based compensation expense, and \$0.7 million in pension benefit plan adjustments.

Dividend payments

No dividend payments were made during 2011. On October 31, 2012, the board of directors declared a dividend of C\$0.06 per share on common shares, payable in cash on December 20, 2012 to shareowners of record at the close of business on December 4, 2012. The dividend payment was approximately \$5.8 million in the aggregate. The board of directors has declared a quarterly dividend of C\$0.06 per common share in each quarter during 2013 for an aggregate dividend payment of approximately \$21.9 million. Cott intends to pay a regular quarterly dividend on its common shares subject to, among other things, the best interests of its shareowners, Cott's results of operations, cash balances and future cash requirements, financial condition, statutory regulations and covenants set forth in the ABL facility and indentures governing the 2018 Notes, as well as other factors that the board of directors may deem relevant from time to time.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We do not trade market risk sensitive instruments.

Currency Exchange Rate Risk

We are exposed to changes in foreign currency exchange rates. Operations outside of the United States accounted for 33.7% of 2013 revenue and 34.2% of 2012 revenue, and are concentrated principally in the United Kingdom, Canada and Mexico. We translate the revenues and expenses of our foreign operations using average exchange rates prevailing during the period. The effect of a 10% change in foreign currency exchange rates among the U.S. dollar versus the Canadian dollar, pound sterling and Mexican peso as of December 28, 2013, at current levels of foreign debt and operations would result in our revenues in 2013 changing by \$70.9 million and our gross profit in 2013 changing by \$7.1 million. This change would be material to our cash flows and our results of operations.

Our primary exposure to foreign currency exchange rates relates to transactions in which the currency collected from customers is different from the currency utilized to purchase the product sold. In 2013, we entered into foreign currency contracts to hedge some of these currency exposures for which natural hedges do not exist. Natural hedges exist when purchases and sales within a specific country are both denominated in the same currency and, therefore, no exposure exists to hedge with foreign exchange forward, option, or swap contracts (collectively, the foreign exchange contracts). We do not enter into foreign exchange contracts for trading purposes. The risk of loss on a foreign exchange contract is the risk of non-performance by the counterparties, which we minimize by limiting our counterparties to major financial institutions. The fair values of the foreign exchange contracts, which are \$0.3 million, are estimated using market quotes. As of December 28, 2013, we had outstanding foreign exchange forward contracts with notional amounts of \$3.6 million.

Table of Contents**Debt obligations and interest rates**

We have exposure to interest rate risk from the outstanding principal amounts of our short-term and long-term debt. Our long-term debt is fixed and our short-term debt is variable. Our ABL facility is vulnerable to fluctuations in the U.S. short-term base rate and the LIBOR rate. Since we had \$50.8 million of ABL borrowings outstanding as of December 28, 2013, a 100 basis point increase in the current per annum interest rate for our ABL facility (excluding the \$7.5 million of outstanding letters of credit) would result in additional interest expense of approximately \$0.5 million. The weighted average interest rate of our debt outstanding at December 28, 2013 was 7.4%.

We regularly review the structure of our debt and consider changes to the proportion of variable versus fixed rate debt through refinancing, interest rate swaps or other measures in response to the changing economic environment. Historically, we have not used derivative instruments to manage interest rate risk. If we use and fail to manage these derivative instruments successfully, or if we are unable to refinance our debt or otherwise increase our debt capacity in response to changes in the marketplace, the expense associated with debt service could increase. This would negatively impact our financial condition and profitability.

The information below summarizes our market risks associated with long-term debt obligations as of December 28, 2013. The table presents principal cash flows and related interest rates by year. Interest rates disclosed represent the actual weighted average rates as of December 28, 2013.

(in millions of U.S. dollars, except percentage amounts)	Debt Obligations	
	Outstanding balance	Weighted average interest rate
Debt maturing in:		
2014	\$ 54.7	2.9%
2015	4.2	5.9%
2016	3.5	5.4%
2017	17.8	7.9%
2018	377.2	8.1%
Thereafter	0.9	10.5%
Total	\$ 458.3	

Commodity Price Risk

The competitive marketplace in which we operate may limit our ability to recover increased costs through higher prices. As a result, we are subject to market risk with respect to commodity price fluctuations principally related to our purchases of aluminum, PET resin, corn for HFCS, sugar, fruit and fruit concentrates. We manage some of our exposure to this risk through the use of supplier pricing agreements, which enable us to fix the purchase prices for certain commodities. We estimate that a 10% increase in the market prices of these commodities over the current market prices would cumulatively increase our cost of sales during the next 12 months by approximately \$24.0 million. This change would be material to our cash flows and our results of operations.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Financial statements and exhibits filed under this item are listed in the index appearing in Item 15 of this Annual Report on Form 10-K.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

Table of Contents

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company's management, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of December 28, 2013 (the "Evaluation"). Based upon the Evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that Company's disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934) are effective.

Management's Report on Internal Control Over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Exchange Act Rules 13a-15(f) and 15d-15(f). Management evaluates the effectiveness of the Company's internal control over financial reporting using the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in Internal Control - Integrated Framework (1992). Management, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of the Company's internal control over financial reporting as of December 28, 2013, and concluded that it was effective as of December 28, 2013.

The effectiveness of the Company's internal control over financial reporting as of December 28, 2013 has been audited by PricewaterhouseCoopers LLP, the Company's independent registered certified public accounting firm, who also audited the Company's consolidated financial statements included in this Annual Report on Form 10-K, as stated in their report which appears herein.

Calypso Soft Drinks Acquisition: As permitted by Securities and Exchange Commission staff interpretive guidance for newly acquired businesses, management has excluded the Calypso business from its assessment of internal control over financial reporting as of December 28, 2013 because it consummated the Calypso Soft Drinks Acquisition in June 2013. Calypso's total assets and total revenues represent 4.0% and 1.5%, respectively, of the Company's consolidated financial statement amounts as of and for the year ended December 28, 2013.

Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting during the quarter ended December 28, 2013 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

Not applicable.

Table of Contents

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT

The information required by this item regarding directors is incorporated by reference to, and will be contained in, the Election of Directors section of our definitive proxy circular for the 2014 Annual and Special Meeting of Shareowners, which will be filed within 120 days after December 28, 2013 (the 2014 Proxy Circular). The information required by this item regarding audit committee financial expert disclosure is incorporated by reference to, and will be contained in, the Corporate Governance section of our 2014 Proxy Circular. The information required by this item regarding executive officers appears as the Supplemental Item in Part I. There have been no material changes to the procedures by which shareholders may recommend nominees to our board of directors.

The Audit Committee of our board of directors is an audit committee for the purposes of Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended. The Audit Committee charter is posted on our website at www.cott.com. The members of the Audit Committee are Graham Savage (Chairman), George Burnett and Gregory Monahan. As required by the NYSE rules, the board has determined that each member of the Audit Committee is independent, financially literate and that Mr. Savage qualifies as an audit committee financial expert within the meaning of the rules of the U.S. Securities and Exchange Commission.

All of our directors, officers and employees must comply with our Code of Business Conduct and Ethics. In addition, our Chief Executive Officer, Chief Financial Officer and principal accounting officer and certain other employees have a further obligation to comply with our Code of Ethics for Senior Officers. Our Code of Business Conduct and Ethics and our Code of Ethics for Senior Officers are posted on our website, www.cott.com, and we intend to comply with obligations to disclose any amendment to, or waiver of, provisions of these codes by posting such information on our website.

Section 16(a) Beneficial ownership reporting compliance

The information required by this item is incorporated by reference to, and will be contained in, the Section 16(a) Beneficial Ownership Reporting Compliance section of our 2014 Proxy Circular.

Report of Independent Certified Public Accountants

To the Board of Directors and Shareholders of Cott Corporation:

In our opinion, the consolidated financial statements listed in the accompanying index present fairly, in all material respects, the financial position of Cott Corporation and its subsidiaries at December 28, 2013 and December 29, 2012, and the results of their operations and their cash flows for each of the three years in the period ended December 28, 2013 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedule listed in the index appearing under Item 15(a)2 presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 28, 2013, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) (1992). The Company's management is responsible for these financial statements and financial statement schedule, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on these financial statements, on the financial statement schedule, and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As described in Management's Report on Internal Control Over Financial Reporting appearing under Item 9A, management has excluded Cooke Bros. Holdings Limited (Calypso) from its assessment of internal control over financial reporting as of December 28, 2013 because it was acquired in June 2013. We have also excluded Calypso

from our audit of internal control over financial reporting. Calypso is a wholly owned subsidiary whose total assets and total revenues represent 4.0% and 1.5%, respectively, of the related consolidated financial statement amounts as of and for the year ended December 28, 2013.

Table of Contents

Notes to Consolidated Financial Statements

Description of Business

Cott Corporation, together with its consolidated subsidiaries (Cott, the Company, our Company, Cott Corporation, us, or our), is one of the world's largest producers of beverages on behalf of retailers, brand owners and distributors. Our product lines include carbonated soft drinks (CSDs), 100% shelf stable juice and juice-based products, clear, still and sparkling flavored waters, energy drinks, sports products, new age beverages and ready-to-drink teas, as well as alcoholic beverages for brand owners.

Note 1 Summary of Significant Accounting Policies

Basis of presentation

These consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) using the U.S. dollar as the reporting currency, as the majority of our business and the majority of our shareowners are in the United States.

For the years ended December 28, 2013, December 29, 2012 and December 31, 2011, we had 52 weeks of activity. Our fiscal year ends on Saturday, December 28, 2013 and our next 53 week year is 2015.

We have three reporting segments North America (which includes our U.S. operating segment and Canada operating segment), United Kingdom (U.K.) (which includes our United Kingdom reporting unit and our Continental European reporting unit), and All Other (All Other) (which includes our Mexico operating segment, our Royal Crown International (RCI) operating segment and other Miscellaneous Expenses). Our corporate oversight function (Corporate) is not treated as a segment; it includes certain general and administrative costs that are not allocated to any of the reporting segments. During the fourth quarter of 2013, management reviewed our reporting segments and subsequently combined our Mexico and RCI reporting segments with the segment previously classified as All Other into one segment classified as All Other. Prior year information has been updated to reflect the change in our reporting segments.

Basis of consolidation

The financial statements consolidate our accounts, our wholly-owned and majority-owned subsidiaries and joint ventures which we control. All intercompany transactions and accounts have been eliminated in consolidation.

Estimates

The preparation of these consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the amount of revenue and expenses during the reporting period. Actual results could differ from those estimates. The consolidated financial statements include estimates and assumptions which, in the opinion of management, were significant to the underlying amounts representing the future valuation of intangible assets, long-lived assets and goodwill, accounting for share-based compensation, realization of deferred income tax assets and the resolution of tax contingencies.

Revenue recognition

We recognize revenue, net of sales returns, when ownership passes to customers for products manufactured in our own plants and/or by third parties on our behalf, and when prices to our customers are fixed and collection is reasonably assured. This may be upon shipment of goods or upon delivery to the customer, depending on contractual terms. Shipping and handling costs paid by the customer to us are included in revenue. Although we accept returns of products from our customers occasionally, such returns, historically, have not been material.

Sales incentives

We participate in various incentive programs with our customers, including volume-based incentives, contractual rebates and promotional allowances. Volume incentives are based on our customers achieving volume targets for a period of time. Volume incentives and contractual rebates are deducted from revenue and accrued as the incentives are earned and are based on management's estimate of the total the customer is expected to earn and claim. Promotional allowances are accrued at time of revenue recognition and deducted from revenue based on either the volume shipped or the volume sold at the retailer location, depending on the terms of the allowance. We regularly review customer sales forecasts to ensure volume targets will be met and adjust incentive accruals and revenues accordingly.

Table of Contents

Cost of sales

We record shipping and handling and finished goods inventory costs in cost of sales. Finished goods inventory costs include the cost of direct labor and materials and the applicable share of overhead expense chargeable to production.

Selling, general and administrative expenses

We record all other expenses not charged to production as selling, general and administrative expenses.

Share-based compensation

Share-based compensation expense for all share-based compensation awards is based on the grant-date fair value. We recognized these compensation costs net of a forfeiture rate on a straight-line basis over the requisite service period of the award, which is generally the vesting term of three years. No estimated forfeitures were included in the calculation of share-based compensation for the 2013, 2012 and 2011 share-based awards.

Additional paid-in capital is adjusted by the tax impact related to the difference between the amount deducted for tax purposes and the compensation cost for accounting purposes. Where the tax deduction exceeds book compensation cost, an increase in additional paid-in capital is recorded. Where the tax deduction is less than book compensation cost, a reduction in additional paid-in capital is recorded to the extent there is an accumulated balance or charged to income tax expense if a shortfall remains after the accumulated additional paid-in capital is brought to zero.

Cash and cash equivalents

Cash and cash equivalents include all highly liquid investments with original maturities not exceeding three months at the time of purchase. The fair values of our cash and cash equivalents approximate the amounts shown on our Consolidated Balance Sheets due to their short-term nature.

Allowance for doubtful accounts

A portion of our accounts receivable is not expected to be collected due to non-payment, bankruptcies and deductions. Our accounting policy for the allowance for doubtful accounts requires us to reserve an amount based on the evaluation of the aging of accounts receivable, detailed analysis of high-risk customers' accounts, and the overall market and economic conditions of our customers.

Inventories

Inventories are stated at the lower of cost, determined on the first-in, first-out method, or net realizable value. Returnable bottles are valued at the lower of cost, deposit value or net realizable value. Finished goods and work-in-process include the cost of raw materials, direct labor and manufacturing overhead costs. As a result, we use an inventory reserve to adjust our costs down to a net realizable value and to reserve for estimated obsolescence of both raw materials and finished goods.

Table of Contents

Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation. Depreciation is allocated between cost of sales and selling, general and administration expenses and is determined using the straight-line method over the estimated useful lives of the assets as follows:

Buildings	10 to 40 years
Machinery and equipment	7 to 15 years
Furniture and fixtures	3 to 10 years
Plates, films and molds	1 to 10 years
Vending	5 to 10 years
Transportation equipment	3 to 15 years
IT Systems	3 to 7 years

Leasehold improvements are amortized using the straight-line method over the remaining life of the lease or useful life, whichever is shorter. Maintenance and repairs are charged to operating expense when incurred.

Table of Contents**Goodwill and indefinite life intangible assets:**

The following table summarizes our goodwill on a reporting segment basis as of December 28, 2013 and December 29, 2012:

(in millions of U.S. dollars)	December 28, 2013	December 29, 2012
North America

Balance at end of year	\$ 4.5	\$ 4.5
UK		
Balance at beginning of year	\$	\$
Goodwill acquired during the year	8.5	
Foreign exchange	0.3	
Balance at end of year	\$ 8.8	\$
Total		
Balance at beginning of year	\$ 130.3	\$ 129.6
Goodwill acquired during the year	8.5	
Foreign exchange	(1.5)	0.7
Balance at end of year	\$ 137.3	\$ 130.3

Goodwill represents the excess purchase price of acquired businesses over the fair value of the net assets acquired. Goodwill is not amortized, but instead is tested for impairment at least annually in the fourth quarter or more frequently if we determine a triggering event has occurred during the year. Any impairment loss is recognized in our results of operations. We evaluate goodwill for impairment on a reporting unit basis. Reporting units are operations for which discrete financial information is available and are at or one level below our operating segments. For the purpose of testing goodwill for impairment, our reporting units are the United States (U.S.), United Kingdom (U.K.), Canada, and Royal Crown International (RCI). We had goodwill of \$137.3 million on our balance sheet at December 28, 2013, which represents amounts for the U.S., U.K., Canada and the RCI reporting units.

In 2013 and 2012, for our RCI reporting unit, we assessed qualitative factors to determine whether the existence of events or circumstances indicated that it was more likely than not that the fair value of the reporting unit was less than its carrying amount. We also performed this assessment for our Canada reporting unit in 2012. If, after assessing the totality of events or circumstances, we had determined that it was more likely than not that the fair value of the reporting unit was less than its carrying amount, then we would have performed the first step of the two-step goodwill impairment test. We concluded that it was more likely than not that the fair value of the reporting unit was more than

its carrying amount and therefore we were not required to perform any additional testing.

In 2013, for our U.S. and Canada reporting units, we chose to bypass the qualitative assessment and performed the first step of the two-step goodwill impairment test using a mix of the income approach (which is based on the discounted cash flow of the reporting unit) and the public company approach. We believe using a combination of the two approaches provides a more accurate valuation because it incorporates the actual cash generation of the Company in addition to how a third party market participant would value the reporting unit. We also chose to bypass the qualitative assessment for our U.S. reporting unit in 2012. Because the business is assumed to continue in perpetuity, the discounted future cash flow includes a terminal value. We used a weighted average terminal growth rate of 1% for our U.S. reporting unit in 2013 and 2012 and a weighted average terminal growth rate of 1% for our Canada reporting unit in 2013. The long-term growth assumptions incorporated into the discounted cash flow calculation reflect our long-term view of the market (including a decline in CSD demand), projected changes in the sale of our products, pricing of such products and operating profit margins.

Table of Contents

The estimated revenue changes in the analysis for the U.S. reporting unit ranged between -9.7% and 5.6% for 2013 and -1.4% and 3.0% for 2012. The estimated revenue changes in the analysis for the Canada reporting unit ranged between -17.2% and 1.2% for 2013.

The discount rate used for the fair value estimates in the analysis for the U.S. reporting unit was 8.5% for 2013 and 10.5% for 2012 and ranged from 11% to 12% for 2011. The discount rate used for the fair value estimates in the analysis for the Canada reporting unit was 9.0% for 2013 and 11.0% for 2011. These rates were based on the weighted average cost of capital a market participant would use if evaluating the reporting unit as an investment. The risk-free rate was 3.4% and 2.4% for 2013 and 2012, respectively, and was based on a 20-year U.S. Treasury Bill as of the valuation date.

For the Canada reporting unit, the fair value exceeded the net book value by approximately 23% and 49% in 2013 and 2011, respectively. As noted above, a qualitative assessment was performed on our Canada reporting unit in 2012. From 2011 to 2013, the fair value declined by approximately 41%.

All goodwill in the U.K. reporting unit is attributable to the June 2013 acquisition (the Calypso Soft Drinks Acquisition) of 100 percent of the share capital of Cooke Bros. Holdings Limited, which includes the subsidiary companies Calypso Soft Drinks Limited and Mr. Freeze (Europe) Limited (together, Calypso Soft Drinks).

Each year during the fourth quarter, we re-evaluate the assumptions used to reflect changes in the business environment, such as revenue growth rates, operating profit margins and discount rate. Based on the evaluations performed this year, we determined that the fair value of our significant reporting units exceeded their carrying amounts.

Intangible and other assets

As of December 28, 2013, other intangible assets were \$251.2 million, consisting principally of \$212.0 million of customer relationships that arose from acquisitions, \$10.1 million of financing costs, \$17.5 million of information technology assets, and \$7.4 million of trademarks. Customer relationships are amortized on a straight-line basis for the period over which we expect to receive economic benefits. We review the estimated useful life of these intangible assets annually, taking into consideration the specific net cash flows related to the intangible asset, unless a review is required more frequently due to a triggering event such as the loss of a customer. The permanent loss or significant decline in sales to any customer included in the intangible asset would result in impairment in the value of the intangible asset or accelerated amortization and could lead to an impairment of fixed assets that were used to service that customer. In 2013 we recorded \$10.7 million of customer relationships acquired in connection with the Calypso Soft Drinks Acquisition. We did not record impairment charges for other intangible assets in 2013 or 2012. In 2011, we recorded an asset impairment charge of \$1.4 million related primarily to customer relationships.

Our only intangible asset with an indefinite life relates to the 2001 acquisition of intellectual property from Royal Crown Company, Inc., including the right to manufacture our concentrates, with all related inventions, processes, technologies, technical and manufacturing information, know-how and the use of the Royal Crown brand outside of North America and Mexico (the Rights). This asset has a net book value of \$45.0 million. Prior to 2001, we paid a volume based royalty to the Royal Crown Company for purchase of concentrates. There are no legal, regulatory, contractual, competitive, economic, or other factors that limit the useful life of this intangible.

The life of the Rights is considered to be indefinite and therefore not amortized, but instead is tested for impairment at least annually or more frequently if we determine a triggering event has occurred during the year. We compare the carrying amount of the Rights to their fair value and where the carrying amount is greater than the fair value, we

recognize in income an impairment loss. To determine fair value, we use a relief from royalty method, which calculates a fair value royalty rate that is applied to a forecast of future volume shipments of concentrate that is used to produce CSDs. The forecast of future volumes is based on the estimated inter-plant shipments and RCI shipments. The relief from royalty method is used since the Rights were purchased in part to avoid making future royalty payments for concentrate to the Royal Crown Company. The resulting cash flows are discounted using a discount rate of 12.5% and estimated volume changes between -10.7% and 5.5%. No impairment was identified for the year ended December 28, 2013. Absent any other changes, if our inter-plant concentrate volume declines by 1.0% from our estimated volume, the fair value of our Rights would decline by approximately \$1.7 million. If our RCI volume declines by 1.0% from our estimated volume, the fair value of the Rights would decline by approximately \$2.6 million. If our discount rate increases by 100 basis points, the fair value of the Rights would decline by approximately \$5.5 million. None of these adjustments would result in an impairment of our Rights as either a stand-alone adjustment or in combination.

Table of Contents

Impairment of long-lived assets

When adverse events occur, we compare the carrying amount of long-lived assets to the estimated undiscounted future cash flows at the lowest level of independent cash flows for the group of long-lived assets and recognize any impairment loss in the Consolidated Statements of Operations, taking into consideration the timing of testing and the asset's remaining useful life. The expected life and value of these long-lived assets is based on an evaluation of the competitive environment, history and future prospects as appropriate. In 2011, we recorded an impairment of long-lived assets of \$0.6 million related to a production plant in Mexico that ceased operations. We did not record impairments of long-lived assets in 2012 or 2013.

Foreign currency translation

The assets and liabilities of non-U.S. active operations, all of which are self-sustaining, are translated to U.S. dollars at the exchange rates in effect at the balance sheet dates. Revenues and expenses are translated using average monthly exchange rates prevailing during the period. The resulting gains or losses are recorded in accumulated comprehensive income under shareowners' equity.

Income Taxes

We account for income taxes under the asset and liability method. Deferred tax assets and liabilities are recognized based on the differences between the accounting values of assets and liabilities and their related tax bases using currently enacted income tax rates. A valuation allowance is established to reduce deferred income tax assets if, on the basis of available evidence, it is not more likely than not that all or a portion of any deferred tax assets will be realized. We classify interest and income tax penalties as income tax expense (benefit).

We account for uncertain tax positions using a two-step process. The first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates that it is more likely than not that the position will be sustained on audit, including resolution of related appeals or litigation processes, based on the technical merits. The second step requires us to estimate and measure the tax benefit as the largest amount that is more than 50% likely to be realized upon ultimate settlement. It is inherently difficult and subjective to estimate such amounts, as we have to determine the probability of various possible outcomes. We re-evaluate these uncertain tax positions on a quarterly basis. This evaluation is based on factors including, but not limited to, changes in facts or circumstances, changes in tax law, effectively settled issues under audit, and new audit activity. Such a change in recognition or measurement would result in the recognition of a tax benefit or an additional charge to the tax provision.

We recognize interest and penalties related to unrecognized tax benefits within the income tax expense line in the accompanying Consolidated Statements of Operations, and we include accrued interest and penalties within the income tax payable or receivable account in the Consolidated Balance Sheets.

Pension costs

We record annual amounts relating to defined benefit pension plans based on calculations, which include various actuarial assumptions such as discount rates and assumed rates of return depending on the pension plan. Material changes in pension costs may occur in the future due to changes in these assumptions. Future annual amounts could be impacted by changes in the discount rate, changes in the expected long-term rate of return, changes in the level of contributions to the plans and other factors. The funded status is the difference between the fair value of plan assets and the benefit obligation. Future actuarial gains or losses that are not recognized as net periodic benefits cost in the same periods will be recognized as a component of other comprehensive income.

Recently issued accounting pronouncements

Update ASU 2013-02 Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income

In February 2013, the Financial Accounting Standards Board (FASB) amended its guidance regarding the information provided in relation to the amounts reclassified out of accumulated other comprehensive income. The amendments do not change the current requirements for reporting net income or other comprehensive income in financial statements. However, the amendments require an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other

F-13

Table of Contents

comprehensive income by the respective line items of net income but only if the amount reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under U.S. GAAP that provide additional detail about those amounts. For public entities, the amendments are effective prospectively for reporting periods beginning after December 15, 2012. We have adopted this guidance, and the required disclosure is set forth in Note 17.

Note 2 Acquisition*Calypso Soft Drinks Acquisition*

During June 2013, our United Kingdom (U.K.) reporting segment completed the Calypso Soft Drinks Acquisition. Calypso Soft Drinks produces fruit juices, juice drinks, soft drinks, and freeze products in the United Kingdom. The aggregate purchase price in the Calypso Soft Drinks Acquisition was \$12.1 million, which includes approximately \$7.0 million paid at closing, deferred payments of approximately \$2.3 million and \$3.0 million to be paid on the first and second anniversary of the closing date, respectively, of the Calypso Soft Drinks Acquisition. In connection with the Calypso Soft Drinks Acquisition, we paid off \$18.5 million of outstanding debt of the acquired companies. The closing payment was funded from available cash.

The total consideration paid by us in the Calypso Soft Drinks Acquisition, subject to final working capital adjustments, is summarized below:

(in millions of U.S. dollars)	
Cash	\$ 7.0
Deferred consideration ¹	5.1
Total consideration	\$ 12.1

^{1.} Principal amount of \$5.3 million discounted to be paid on the first and second anniversary of completion date. Our primary reasons for the Calypso Soft Drinks Acquisition were to expand Cott's product portfolio and enhance our customer offering and growth prospects.

The Calypso Soft Drinks Acquisition is being accounted for as a business combination which, among other things, requires that assets acquired and liabilities assumed be measured at their acquisition date fair values. Identified intangible assets, goodwill and property, plant and equipment are recorded at their estimated fair values per preliminary valuations and may change based on the final valuation results including, for example, the process of physically validating fixed assets. The results of operations of Calypso Soft Drinks have been included in our operating results beginning as of the acquisition date. We allocated the purchase price of the Calypso Soft Drinks Acquisition to tangible assets, liabilities and identifiable intangible assets acquired based on their estimated fair values. The excess of the purchase price over the aggregate fair values was recorded as goodwill. The fair value assigned to identifiable intangible assets acquired was based on estimates and assumptions made by management. Intangible assets are amortized using a method that reflects the pattern in which economic benefits of the intangible asset are consumed using a straight-line
