- .. Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

## ITEM 2.02 RESULTS OF OPERATIONS AND FINANCIAL CONDITION

On May 1, 2014, Becton, Dickinson and Company ( BD ) issued a press release announcing its financial results for its second fiscal quarter ending March 31, 2014. A copy of the press release is furnished as Exhibit 99.1 to this report.

The press release furnished as Exhibit 99.1 contains certain financial measures that differ from those presented in accordance with U.S. generally accepted accounting principles ( non-GAAP measures ), as follows:

Revenues. We present international and total revenue growth rates (for the total company and each of its segments and units, and for our safety-engineered devices) after eliminating the effect of foreign currency translation. We believe that these measures of revenue growth allow investors to better understand the underlying operating results of BD and facilitate comparisons to prior periods.

Earnings Per Share from Continuing Operations. We present diluted earnings per share from continuing operations ( EPS ) for the second quarter of fiscal year 2014, and EPS growth compared to the prior year period, after eliminating (i) the impact of foreign currency translation, (ii) charges relating to asset write-offs in our BD Biosciences segment, termination costs relating to the early termination of a distributor agreement in the Diagnostic segment and the gain from the sale of an equity investment (collectively, the Second Quarter Items ), and (iii) the impact of both foreign currency translation and the Second Quarter Items ). We also present EPS for the first six months of fiscal year 2014, and EPS growth compared to the prior year period, after eliminating (i) the impact of foreign currency translation, (ii) the impact of both foreign currency translation and the Second Quarter Items, and (iii) the impact of foreign currency translation, the Second Quarter Items and the first quarter fiscal year 2014 incremental impact of the medical device excise tax which went into effect in January 2013 under the U.S. Patient Protection and Affordable Care Act.

We believe that eliminating the effect of foreign currency translation allows investors to better understand the underlying operating results of BD and facilitates comparisons to the prior year period. We also adjust for the Second Quarter Items because management does not view these items as part of our ordinary operations, and eliminating these items also facilitates comparisons to prior periods. Adjusting for the incremental impact of the medical device excise tax also facilitates comparisons to the prior year period as this tax was not in effect during the first quarter of fiscal year 2013.

We also present EPS for fiscal year 2013 after eliminating (i) a charge relating to an antitrust class action settlement, (ii) a charge relating to the verdict in BD 's litigation with Retractable Technologies, Inc., and (iii) a charge relating to non-cash pension settlements. We adjust for these charges because they are not considered by management to be part of our ordinary operations, and eliminating these items allows investors to better understand our EPS guidance for fiscal year 2014.

We also present estimated EPS guidance for fiscal year 2014 after adjusting for the Second Quarter Items, the anticipated impact of foreign currency translation and the one quarter of incremental impact from the medical device excise tax that BD will have in fiscal year 2014 compared to fiscal year 2013. Management believes eliminating these items allows investors to better understand our guidance in relation to fiscal year 2013 and the anticipated underlying performance of BD.

BD 's management uses each of these non-GAAP measures in its own evaluation of BD 's performance, particularly when comparing performance to past periods and to the performance of peer companies. Management also uses the non-GAAP results for budget planning purposes on a quarterly and annual basis.

BD provides non-GAAP measures to investors on a supplemental basis, as they provide additional insight into BD's financial results. Management believes the non-GAAP results provide a reasonable measure of BD's underlying performance before the effects of items that are considered by management to be outside of BD's underlying operational results or that affect period to period comparability.

Non-GAAP results should not be considered in isolation and are not in accordance with, or a substitute for, GAAP results. Our non-GAAP results may differ from similar measures used by other companies, even if similar terms are used to identify such measures. Although BD's management believes non-GAAP results are useful in evaluating the performance of its business, its reliance on these measures is limited since items excluded from such measures may have a material impact on BD's net income, earnings per share or cash flows calculated in accordance with GAAP. Therefore, management typically uses non-GAAP results in conjunction with GAAP results to address these limitations. Investors should also consider these limitations when evaluating BD's results.

**ITEM 9.01 FINANCIAL STATEMENTS AND EXHIBITS.**

Exhibit 99.1 Press release dated May 1, 2014, which is furnished pursuant to Item 2.02

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
