Check the appropriate box to indicate the rule pursuant to which this form is being filed, and provide the period to which the information in this form applies:

- Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to December 31, 2013.

## **Section 1 Conflict Minerals Disclosure**

### **Item 1.01 Conflict Minerals Disclosure and Report**

#### **Conflict Minerals Disclosure**

This Form SD of Pentair Ltd. (the Company) is filed pursuant to Rule 13p-1 (the Rule) promulgated under the Securities Exchange Act of 1934, as amended, for the reporting period from January 1, 2013 to December 31, 2013.

A copy of the Company's Conflict Minerals Report is provided as Exhibit 1.02 to this Form SD, and is publicly available at <http://pentair.com/investors/sec-filings>.

The Rule requires disclosure of certain information when a company manufactures or contracts to manufacture products for which the minerals specified in the Rule are necessary to the functionality or production of those products. The specified minerals are columbite-tantalite (coltan), cassiterite, gold and wolframite, including their derivatives, which are limited to tantalum, tin and tungsten (the 3TG or Conflict Minerals). The Covered Countries for the purposes of the Rule are the Democratic Republic of the Congo, the Republic of the Congo, the Central African Republic, South Sudan, Uganda, Rwanda, Burundi, Tanzania, Zambia and Angola. Certain of the Company's operations manufacture, or contract to manufacture, products for which the Conflict Minerals are necessary to the functionality or production of those products.

The Company performed a reasonable country of origin inquiry, in which it surveyed over 11,500 direct suppliers, spanning over 81 enterprise resource planning systems, regarding whether its necessary 3TG have been sourced from any of the Covered Countries. Most of the responses the Company received indicated that either (1) to the best of such supplier's knowledge, the 3TG in the components and materials that it supplied to the Company during 2013 did not originate from a Covered Country or (2) such supplier did not use 3TG in the materials and components that it supplied to the Company during 2013. In addition, none of the Company's direct suppliers informed the Company that their 3TG originated from scrap or recycled sources. Further information regarding the Company's reasonable country of origin inquiry is included in Section 2.2 of the Company's Conflict Minerals Report, which is attached to this specialized disclosure report on Form SD as Exhibit 1.02. The disclosure set forth in Section 2.2 of the Conflict Minerals Report is incorporated by reference into this Item 1.01.

After reviewing the results of the country of origin inquiry, the Company determined that it had reason to believe that 3TG necessary for the functionality or production of its products may have originated from a Covered Country during 2013. As such, the Company proceeded to exercise due diligence in accordance with the Organization for Economic Co-operation and Development Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas framework on the source and chain of custody of the conflict minerals. The Conflict Minerals Report includes a discussion of the due diligence procedures performed, the ultimate determination of origin and conflict status reached, and the disclosures required by the Securities and Exchange Commission.

#### **Item 1.02 Exhibit**

As specified in Section 2, Item 2.01 of this Form SD, the Company is hereby filing its Conflict Minerals Report as Exhibit 1.02 to this report.

**Section 2 Exhibits**

**Item 2.01 Exhibits**

The following exhibit is filed as part of this report.

<b>Exhibit No.</b>	<b>Description</b>
1.02	Conflict Mineral Report of Pentair Ltd.

**SIGNATURES**
