RE: **U.S. Branded Pharma Proposed Leadership Team**

Over the past several weeks, colleagues from both Actavis and Allergan have been working hard to design the U.S. Branded Pharma organization to unlock the full potential of the combined company. We have assembled industry-leading talent across marketing, sales, and operations. Our team will be relentlessly focused on our customers -- physicians and the patients they serve. Everyone will be charged with thinking as a true owner, with a premium on bringing forward value-generating ideas. We will have a clear bias for action, and bring energy to everything that we do.

In this spirit, I am pleased to announce the proposed leadership team effective upon the close of the transaction.

U.S. Branded Pharma Commercial Leadership Team (CLT)

The CLT is charged with the development and execution of strategies that drive top and bottom line growth. They have specific responsibility for their own therapeutic or functional area, but play a dual role in maximizing performance portfolio-wide.

Each CLT member will report directly to me. Additionally, the CLT will include representation from HR and finance.

Next Level Announcements

Protecting our customers from disruption during pre-integration planning remains among our top priorities. We cannot afford to lose the momentum the combined team has worked so hard to create. We believe the field force is the single biggest lever to drive performance, so we are taking a very deliberate approach to ensure they are positioned to win going forward.

As such, we are not yet able to make any integration-related announcements regarding our customer-facing colleagues at this time. We do expect to provide additional clarity closer to deal closing, and will communicate more in the coming weeks. Below please find the next level announcements, excluding those customer-facing positions.

Brand Teams & Integrated Sales and Marketing Teams

Brand teams will be organized into seven therapeutic areas (see chart below).
