Benefits of the Merger

We will be a bigger, better company with combined revenue of more than \$50 million

We will have greater capability across a broader market base

We expect significant cost savings from having only a single public company infrastructure, which means that we will be better positioned for improved cash flow and profitability

We will have the opportunity to leverage API's business relationships and they will be able to build from ours

We will be able to build on the strong foundation of Luna's and API's core products, which will allow us to continue to invest in our growth
