STATEMENT

2015

Notice of Annual Meeting of Stockholders

From Your Chairman

April 10, 2015

Fellow Stockholders:

Frank T. MacInnis

Chairman of the Board

Williams has rich history and I speak on behalf of the Board when I say that we are honored to steward Williams toward its modern objective to connect North America s significant hydrocarbon resource plays to growing markets for natural gas, natural gas liquids, and olefins. Please join me at the 2015 annual meeting of stockholders on May 21 to vote your shares and listen to a report from management on Williams operations. There will also be an opportunity to ask questions.

The notice of the annual meeting and proxy statement accompanying this letter provides information about the matters to be considered and acted upon at the meeting. If you cannot attend the annual meeting in person, it is still important that your shares be represented and voted at the meeting. Whether or not you plan to attend, you can be sure your shares are

represented by promptly voting and submitting your proxy by phone, by Internet, or by completing, signing, dating, and returning your proxy card in the enclosed postage-paid envelope. I look forward seeing you at the meeting.

Very truly yours,

Frank T. MacInnis

Chairman of the Board

Notice of the 2015 Annual Meeting of Stockholders

Date, Time and Place

Thursday, May 21, 2015, at 2:00 p.m. CDT

Williams Resource Center Theater, One Williams Center, Tulsa, Oklahoma 74172

Record Date

Close of business on March 31, 2015.

Agenda

Elect the 13 director nominees identified in this proxy statement each for a one-year term; Ratify the appointment of Ernst & Young LLP as our independent auditors for 2015; Conduct an advisory vote on executive compensation; and Transact such other business as may properly come before the annual meeting or any adjournment of the meeting.

Annual Report

Our 2014 Annual Report, which includes a copy of our annual report on Form 10-K, accompanies this proxy statement.

Voting

Even if you intend to be present at the annual meeting, please promptly vote in one of the following ways so that your shares of common stock may be represented and voted at the annual meeting:

Call the toll-free telephone number shown on the proxy card;

Vote via the Internet on the website shown on the proxy card; or

Mark, sign, date, and return the enclosed proxy card in the postage-paid envelope.

Important Notice Regarding the Availability of Materials for the Stockholder Meeting to be Held on May 21, 2015: This proxy statement and our 2014 annual report are available at *www.edocumentview.com/wmb*.

By Order of the Board of Directors,

Sarah C. Miller

Corporate Secretary

Interim Senior Vice President and General Counsel

April 10, 2015

Proxy Statement

We are providing this proxy statement as part of a solicitation by the Board of Directors (the Board) of The Williams Companies, Inc. for use at our 2015 annual meeting of stockholders and at any adjournment or postponement thereof. We will hold the meeting in the Williams Resource Center Theater, One Williams Center, Tulsa, Oklahoma, 74172 on Thursday, May 21, 2015, at 2:00 p.m., Central Daylight Time.

As permitted by the rules of the Securities and Exchange Commission (SEC), we have elected to send you this full set of proxy materials, including a proxy card, and additionally to notify you of the availability of these proxy materials on the Internet. This proxy statement and our 2014 annual report are available at www.edocumentview.com/wmb, which does not have cookies that identify visitors to the site.

We expect to mail this proxy statement and accompanying proxy card to stockholders beginning on April 10, 2015.

Unless the context otherwise requires, all references in this proxy statement to Williams, the Company, we, us, our refer to The Williams Companies, Inc. and its consolidated subsidiaries.

Questions and Answers About the Annual Meeting and Voting

WHY AM I RECEIVING THESE MATERIALS?

You are receiving these materials because, at the close of business on March 31, 2015 (the Record Date), you owned shares of Williams common stock. All stockholders of record on the Record Date are entitled to attend and vote at the annual meeting. Each stockholder will have one vote on each matter for every share of common stock owned on the Record Date. On the Record Date, we had 748,912,083 shares of common stock outstanding. (The shares held in our treasury are not considered outstanding and will not be voted or considered present at the meeting.)

WHAT INFORMATION IS CONTAINED IN THIS PROXY STATEMENT?

This proxy statement includes information about the nominees for director and other matters to be voted on at the annual meeting. It also explains the voting process and requirements; describes the compensation of the principal executive officer, the principal financial officer, and the three other most highly compensated officers (collectively referred to as our Named Executive Officers or NEOs); describes the compensation of our directors; and provides certain other information required under SEC rules.

WHAT MATTERS CAN I VOTE ON?

You can vote on the following matters:

election of our 13 directors, each for a one-year term; ratification of the appointment of Ernst & Young LLP as our independent auditors for 2015; an advisory vote on executive compensation; and any other business properly coming before the annual meeting.

In the election of directors, you may vote **FOR** or **AGAINST** each individual nominee or indicate that you wish to **ABSTAIN** from voting on one or more nominee. For the ratification of Ernst & Young LLP as independent auditors and the advisory vote on executive compensation, you may vote **FOR** or **AGAINST** the respective matter or you may indicate that you wish to **ABSTAIN** from voting on the matter.

We are not aware of any matter to be presented at the annual meeting that is not included in this proxy statement. However, your proxy authorizes the persons named on the proxy card to take action on additional matters that may properly arise. These individuals will exercise their best judgment to vote on any other matter, including a question of adjourning the annual meeting. All votes are confidential unless disclosure is legally necessary.

HOW DOES THE BOARD RECOMMEND THAT I VOTE ON EACH OF THE MATTERS?

FOR ITEMS 1-3: The Board recommends that you vote **FOR** each of the director nominees, **FOR** the ratification of Ernst & Young LLP as our independent auditors for 2015, and **FOR** the approval, on an advisory basis, of the Company s executive compensation.

WHAT IS THE DIFFERENCE BETWEEN A STOCKHOLDER OF RECORD AND A STOCKHOLDER WHO HOLDS STOCK IN STREET NAME?

If your shares are registered in your name with our transfer agent, Computershare Trust Company, N.A. (Computershare), you are a stockholder of record, and the Company s proxy materials, including a proxy card, were sent to you directly by Computershare.

If you hold your shares with a broker or in an account at a bank, then you are a beneficial owner of shares held in street name. The Company s proxy materials were forwarded to you by your broker or bank, who is considered the stockholder of record for purposes of voting at the annual meeting. Your broker or bank should also have provided you with instructions for directing the broker or bank how to vote your shares.

HOW DO I VOTE IF I AM A STOCKHOLDER OF RECORD?

As a stockholder of record, you may vote your shares in any one of the following ways:

Call the toll-free number shown on the proxy card;

Vote on the Internet on the website shown on the proxy card;

Mark, sign, date, and return the enclosed proxy card in the postage-paid envelope; or

Vote in person at the annual meeting. HOW DO I VOTE IF I OWN SHARES IN STREET NAME?

As an owner of shares in street name, you have the right to direct your broker or bank how to vote your shares by following the instructions sent to you by your broker or bank. You will receive proxy materials and voting instructions for each account you have with a broker or bank. If you wish to change the directions you have provided your broker or bank, you should follow the instructions sent to you by your broker or bank.

As an owner of shares in street name, you are also invited to attend the annual meeting. However, since you are not the stockholder of record, you may not vote your shares in person at the meeting unless you obtain a signed legal proxy from your broker or bank giving you the right to vote the shares.

WILL MY SHARES HELD IN STREET NAME BE VOTED IF I DO NOT TELL MY BROKER OR BANK HOW I WANT THEM VOTED?

Under the rules of the New York Stock Exchange (NYSE), if you are a beneficial owner, your broker or bank only has discretion to vote on certain routine matters without your voting instructions. The proposal to ratify Ernst & Young LLP as our independent auditors is considered a routine matter. However, the election of directors and the advisory vote on executive compensation are not considered routine matters. Accordingly, your broker or bank will not be permitted to vote your shares on such matters unless you provide proper voting instructions.

HOW DO I VOTE IF I PARTICIPATE IN THE WILLIAMS INVESTMENT PLUS PLAN?

If you hold shares in The Williams Investment Plus Plan, Computershare sent you the Company s proxy materials directly. You may direct the trustee of the plan how to vote your plan shares by calling the toll-free number shown on the proxy card, voting on the Internet on the website shown on the proxy card, or completing and returning the enclosed proxy card in the postage-paid envelope. Please note, in order to permit the trustee to tally and vote all shares of Williams common stock held in The Williams Investment Plus Plan, your instructions, whether by Internet, by telephone, or by proxy card, must be completed prior to 1:00 a.m. Central Daylight Time on Monday, May 18, 2015. You may not change your vote related to such plan shares after this deadline.

If you do not instruct the trustee how to vote, your plan shares will be voted by the trustee in the same proportion that it votes shares in other plan accounts for which it did receive timely voting instructions. The proportional voting policy is detailed under the terms of the plan and the trust agreement.

WHAT IF I RETURN MY PROXY CARD OR VOTE BY INTERNET OR PHONE BUT DO NOT SPECIFY HOW I WANT TO VOTE?

If you are a stockholder of record and sign and return your proxy card or complete the Internet or telephone voting procedures, but do not specify how you want to vote your shares, we will vote them as follows:

FOR the election of each of the director nominees.

FOR the approval ratifying the appointment of Ernst & Young LLP as our independent auditors for the fiscal year ending December 31, 2015.

FOR the approval, on an advisory basis, of the Company s executive compensation.

CAN I CHANGE MY VOTE OR REVOKE MY PROXY?

If you are a stockholder of record, you can change your vote within the regular voting deadlines by voting again by telephone or on the Internet, executing and returning a later dated proxy card, or attending the annual meeting and voting in person. If you are a stockholder of record, you can revoke your proxy by delivering a written notice of your revocation to our Corporate Secretary at One Williams Center, MD 47, Tulsa, Oklahoma 74172.

WHAT SHARES ARE INCLUDED ON MY PROXY CARD?

You will receive one proxy card for all the shares of common stock you hold as a stockholder of record (in certificate form or in book-entry form) and in The Williams Investment Plus Plan.

If you hold your shares in street name, you will receive voting instructions for each account you have with a broker or bank.

HOW MAY I OBTAIN DIRECTIONS TO ATTEND THE MEETING?

If you need assistance with directions to attend the meeting, call us at 1-800-600-3782 or write us at The Williams Companies, Inc., One Williams Center, MD 50, Tulsa, Oklahoma 74172, Attn: Investor Relations.

WHAT CAN I BRING INTO THE MEETING?

For security reasons, briefcases, backpacks, and other large bags are not permitted in the theater. All such items can be checked with security upon arrival at the theater.

WHAT IF I HAVE A DISABILITY?

We can provide reasonable assistance to help you participate in the meeting if you tell us about your disability and your plans to attend. Please call or write us at least two weeks before the meeting at the telephone number or address listed in the answer to the question captioned *How may I obtain directions to attend the meeting?* .

WHAT IS THE QUORUM REQUIREMENT FOR THE MEETING?

Table of Contents

There must be quorum to take action at the meeting (other than adjournment or postponement of the meeting). A quorum will exist at the meeting if stockholders holding a majority of the shares entitled to vote at the annual meeting are present in person or by proxy. Stockholders of record who return a proxy or vote in person at the meeting will be considered part of the quorum. Abstentions are counted as present for determining a quorum. Uninstructed broker votes, also called broker non-votes, are also counted as present for determining a quorum so long as there is at least one matter that a broker may vote on without specific instructions from a beneficial owner. See *Will my shares held in street name be voted if I do not tell my broker how I want them voted*?

WHAT IS THE VOTING REQUIREMENT TO APPROVE EACH OF THE MATTERS?

Items 1-3 may be approved by a majority of the votes cast. Other matters that may properly come before the annual meeting may require more than a majority vote under our By-laws, our Restated Certificate of Incorporation, the laws of Delaware, or other applicable laws.

HOW WILL THE VOTES BE COUNTED?

Abstentions from voting on the election of a director nominee, the ratification of the appointment of independent auditors, and the advisory vote on executive compensation will not be considered a vote cast with respect to those matters and therefore will have no effect on the outcome of such matters.

Broker non-votes (i.e., shares held by brokers or nominees that cannot be voted because the beneficial owner did not provide specific voting instructions) will not be treated as a vote cast for any matter.

WHO WILL COUNT THE VOTES?

A representative of Computershare will act as the inspector of elections and count the votes.

WHERE CAN I FIND THE VOTING RESULTS OF THE MEETING?

We will announce the voting results at the meeting. We also will disclose the voting results in a current report on Form 8-K within four business days after the annual meeting.

MAY I PROPOSE ACTIONS FOR CONSIDERATION AT THE 2016 MEETING OF STOCKHOLDERS?

Yes. For your proposal to be considered for inclusion in our proxy statement for the 2016 meeting in accordance with Rule 14a-8 under the Securities Exchange Act of 1934, as amended (the Exchange Act), the SEC s rule on stockholder proposals, we must receive your written proposal no later than December 13, 2015. If we change the date of the 2016 meeting by more than 30 days from the anniversary of the date of this year s meeting, then the deadline to submit proposals will be a reasonable time before we begin to print and mail our proxy materials. Your proposal, including the manner in which you submit it, must comply with Rule 14a-8.

If you wish to bring business (including a director nomination) before our 2016 annual meeting of stockholders other than through a stockholder proposal pursuant to the SEC s Rule 14a-8, we must receive a written notice of the proposal no earlier than the close of business on January 22, 2016 and no later than the close of business on February 21, 2016. Your submission must meet the requirements set forth in our By-laws. Proposals should be addressed to our Corporate Secretary at One Williams Center, MD 47, Tulsa, Oklahoma 74172.

WHO IS PAYING FOR THIS PROXY SOLICITATION?

Your proxy is solicited by the Board. We expect to solicit proxies in person, by telephone, or by other

electronic means. We have retained MacKenzie Partners, Inc. to assist in this solicitation. We expect to pay MacKenzie Partners, Inc. an estimated \$20,000 in fees, plus expenses and disbursements.

We also will pay the expenses of this proxy solicitation including the cost of preparing and mailing the proxy statement and accompanying proxy card. Such expenses may include the charges and expenses of banks, brokerage firms, and other custodians, nominees, or fiduciaries for forwarding proxy materials to beneficial owners of our common stock.

ARE YOU HOUSEHOLDING FOR STOCKHOLDERS OF RECORD SHARING THE SAME ADDRESS?

The SEC s rules permit us to deliver a single copy of this proxy statement and our 2014 annual report to an address shared by two or more stockholders. This method of delivery is referred to as householding and can significantly reduce our printing and mailing costs. It also reduces the volume of mail you receive. We will deliver only one proxy statement and 2014 Annual Report to multiple registered stockholders sharing an address, unless we receive instructions to the contrary from one or more of the stockholders. We will still send each stockholder an individual proxy card.

If you would like to receive more than one copy of this proxy statement and our 2014 annual report, we will promptly send you additional copies upon request directed to our transfer agent, Computershare. You can call Computershare toll free at 1-800-884-4225. You can call the same phone number to notify us that you wish to receive a separate annual report or proxy statement in the future, or to request delivery of a single copy of any materials if you are receiving multiple copies now.

Corporate Governance

General

Our Board believes that strong corporate governance is critical to achieving our performance goals and to maintaining the trust and confidence of investors, employees, customers, business partners, regulatory agencies, and other stakeholders.

Corporate Governance Guidelines

Our Corporate Governance Guidelines provide a framework for the governance of Williams as a whole and also address the operation, structure, and practice of the Board and its committees. The Nominating and Governance Committee reviews these guidelines at least annually.

Strategic Planning

During the year, the Board meets with management to discuss and approve strategic plans, financial goals, capital spending, and other factors critical to successful performance. The Board also conducts an annual review of Company strategy, including macro trends and their strategic implications and strategy related to each business unit, finance, engineering and construction, and operational discipline. During Board meetings, directors review key issues and financial performance. In 2014 the Board met privately with the Chief Executive Officer (CEO) at least six times and met in executive session at each regular Board meeting and additionally as required. Further, the CEO communicates regularly with the Board on important business opportunities and developments. In 2014, the Board held one of its regularly scheduled meetings at one of our field locations to further educate the directors about our operations.

Board/Committee/Director Evaluations

The Board and each of its committees conduct annual self-assessments. In addition, the Nominating and Governance Committee evaluates each individual director annually.

Chief Executive Officer Evaluation and Management Succession

The Board and the CEO annually discuss and collaborate to set the CEO s performance goals and objectives. The Board meets annually in executive session to assess the CEO s performance. The Board maintains a process for planning orderly succession for the CEO and other executive officer positions and oversees executive officer development.

Board Leadership Structure

Pursuant to our By-laws and Corporate Governance Guidelines, the positions of Chairman of the Board and President and CEO may be held by the same or different persons. At this time, the Board believes that the Company and its stockholders are best served by a leadership structure in which an independent director serves as Chairman of the Board. In this regard, Alan S. Armstrong serves as President and CEO of Williams and Frank T. MacInnis serves as Chairman of the Board. The Board believes that having an independent Chairman aids in the Board s oversight of management and promotes communications among the Board, the CEO, and other senior management. In addition,

having a separate Chairman of the Board and CEO allows Mr. Armstrong to focus on his responsibilities in managing the Company.

The responsibilities of the Chairman of the Board include: (1) presiding over meetings of the Board and executive sessions of the independent directors; (2) overseeing the planning of the annual Board calendar and, in consultation with the CEO, scheduling and setting the agendas for meetings of the Board and its committees; (3) overseeing the appropriate flow of information to the Board; (4) acting as liaison between the independent directors and management; (5) assisting the Chairs of the various Board committees in preparing agendas for

committee meetings; (6) chairing the Company s annual meeting of stockholders; (7) being available for consultation and communication with stockholders as appropriate; and (8) performing other functions and responsibilities referred to in the Corporate Governance Guidelines or requested by the Board from time to time.

The Board believes that having an independent Chairman of the Board is the most appropriate leadership structure for the Board at this time. However, it has the flexibility to revise this structure in the future based upon the Board s assessment of the Company s needs and leadership from time to time. In this regard, the Board periodically reviews the Board structure and leadership as well as director succession planning.

Board Oversight of Williams Risk Management Processes

We use the Committee of Sponsoring Organizations of the Treadway Commission Enterprise Risk Management (ERM) framework to provide positive assurance to management and the Board that risks are effectively managed to enable achievement of strategic, financial, operating, compliance, and reporting objectives. Our risk assessment process is integrated with our strategy process to better facilitate identification of the most significant risks to achieving our strategic objectives. We maintain a decentralized, cross functional approach to ERM; management functions including internal audit, accounting, legal, and compliance support our strategy and risk assessment with established control activities, monitoring, and reporting. The Board maintains responsibility for oversight of the Company s risk management activities. In conjunction with the Board s strategy review, management presented to the Board an enterprise-wide risk appetite statement, strategic risk profile, and management s risk response via risk appetite, has established effective enterprise risk management processes, and is managing the risk portfolio consistent with such processes considering the risk appetite. Throughout the year, management reviews any critical issues or opportunities with the Board or relevant committees. Also, as stated in Proposal 1 Election of Directors, the Board has determined that it is important to have individuals on the Board with strategy development and risk management experience.

Executive Sessions of Non-Employee Directors

Non-employee directors meet without management present at each regularly scheduled Board meeting. Additional meetings may be called by the Chairman in his discretion or at the request of the Board.

Director Independence

Our Corporate Governance Guidelines require that the Board make an annual determination regarding the independence of each of our directors. The Board made these determinations in March 2015, based on an annual evaluation performed by and recommendations made by the Nominating and Governance Committee.

The Board has affirmatively determined that each of Mr. Cleveland, Dr. Cooper, Mr. Hagg, Ms. Hinshaw, Mr. Izzo, Mr. MacInnis, Mr. Mandelblatt, Mr. Meister, Mr. Nance, Mr. Smith, Ms. Stoney, and Ms. Sugg is an independent director. In so doing, the Board determined that each of these individuals met the bright line independence standards of the NYSE. In addition, the Board considered the following transactions and relationships between each director and any member of his or her immediate family on one hand, and Williams and its affiliates on the other, to confirm that those transactions and relationships do not vitiate the affected director s independence. We discuss these relationships below.

Ms. Hinshaw is a director of Aegion Corporation (Aegion), which provided ordinary course pipeline construction and maintenance services to Williams. In determining that the relationship was not material, the Board considered these facts: the relationship arises only because Ms. Hinshaw is a director of Aegion; she has no material interest in any transactions between Aegion and Williams; and she had no role in any such transactions.

Mr. Izzo is Chief Executive Officer of Public Service Energy Group (PSEG), for whom Williams has provided ordinary course transportation services since at least 2010. In determining that the relationship was not

material, the Board considered these facts: payments made by PSEG to Williams in any of the last three fiscal years are less than 2% of PSEG s revenue for the respective year; Mr. Izzo has no material interest in any transactions between PSEG and Williams; and he had no role in any such transactions.

Mr. Nance is a director of Newfield Exploration Company (Newfield), for whom Williams provided ordinary course midstream and transportation services. In determining that the relationship was not material, the Board considered these facts: the relationship arises only because Mr. Nance is a director of Newfield; he has no material interest in any transactions between Newfield and Williams; and he had no role in any such transactions.

Ms. Sugg is a director of Denbury Resources, Inc. (Denbury), from whom Williams purchased gas for fuel and shrink and for whom Williams provided midstream and transportation services in the ordinary course of business. In determining that the relationship was not material, the Board considered these facts: the relationship arises only because Ms. Sugg is a director of Denbury; she has no material interest in any transactions between Denbury and Williams; and she had no role in any such transactions.

No member of our Board serves as an executive officer of any non-profit organization that has received contributions from Williams exceeding the greater of \$1 million or 2% of such organization s consolidated gross revenues in any single fiscal year of the preceding three years. Further, in accordance with our director independence standards, the Board determined that there were no discretionary contributions to a non-profit organization with which a director, or a director s spouse, has a relationship that affects the director s independence.

Mr. Armstrong, the current Chief Executive Officer and President and a director, is not independent, because of his role as an executive officer of the Company.

Transactions with Related Persons

The Board has adopted policies and procedures with respect to related person transactions. Any proposed related person transaction involving a member of the Board must be reviewed and approved by the full Board. The Audit Committee reviews proposed transactions with any other related persons, promoters, and certain control persons that are required to be disclosed in our filings with the SEC. If it is impractical to convene an Audit Committee meeting before a related person transaction occurs, the Chair of the committee may review the transaction alone.

No director may participate in any review, consideration or approval of any related person transaction with respect to which such director or any of his or her immediate family members is the related person. The Audit Committee or its Chair, or the Board, as the case may be, in good faith, may approve only those related person transactions that are in, or not inconsistent with, Williams best interests and the best interests of our stockholders. In conducting a review of whether a transaction is in, or is not inconsistent with the best interest of Williams and its stockholders, the Audit Committee or its chair, or the Board, as the case may be, will consider the benefits of the transaction to the Company, the availability of other sources for comparable products or services, the terms of the transaction, the terms available to unrelated third parties and to employees generally, and the nature of the relationship between the Company and the related party, among other things. During 2014, there were no transactions that required review or approval by the Audit Committee or the full Board.

Outside Board Service

Our corporate governance guidelines limit the service of our board members on publicly held companies and investment company boards to no more than four (including our Board), provided that our CEO is limited to service on one non-affiliated public company board.

Majority Vote Standard

Our Board has adopted a majority vote standard for the election of directors in uncontested elections. Each of our directors has executed an irrevocable resignation that will become effective if he or she fails to receive a majority

of the votes cast in an uncontested election and the Board accepts such resignation. If a director fails to receive the required votes for election, the Nominating and Governance Committee will act on an expedited basis to determine whether to accept the resignation. The Nominating and Governance Committee will then submit its recommendation for consideration by the Board. The Board will act on the recommendation and publicly disclose its decision within 90 days from the date of the certification of the election results. The Board expects the director whose tendered resignation is under consideration to abstain from participating in any decision regarding that resignation. The Nominating and Governance Committee and the Board may consider any factors they deem relevant in deciding whether to accept a director s tendered resignation. If the Board accepts a director s resignation, the Nominating and Governance Committee will recommend to the Board whether to fill such vacancy or reduce the size of the Board.

Director Attendance at Annual Meeting of Stockholders

We have a policy that all Board members are expected to attend our annual meeting of stockholders. All of the then-current Board members attended the 2014 annual meeting of stockholders.

Communications with Directors

Any stockholder or other interested party may communicate with our directors, individually or as a group, by contacting our Corporate Secretary or the Chairman of the Board. The contact information is maintained through the Investors page of our website at www.williams.com.

The current contact information is as follows:

The Williams Companies, Inc.	The Williams Companies, Inc.			
One Williams Center, MD 49	One Williams Center, MD 47			
Tulsa, Oklahoma 74172	Tulsa, Oklahoma 74172			
Attn: Chairman of the Board	Attn: Corporate Secretary			
Communications will be forwarded to the relevant director(s) except for solicitations or other matters not related to the				
Company.				

Code of Ethics

We have adopted a code of ethics specific to the CEO, Chief Financial Officer, and Chief Accounting Officer, which was filed with the SEC as Exhibit 14 to our annual report on Form 10-K for the year ended December 31, 2003. In addition, we have adopted a code of business conduct that is applicable to all employees and directors.

How to Obtain Copies of our Governance-Related Materials

The following documents are available through the Investors page of our website.

Corporate Governance Guidelines,

Code of Ethics for Senior Officers,

Williams Code of Business Conduct; and

Charters for the Audit Committee, the Compensation Committee, the Finance Committee, and the Nominating and Governance Committee.

If you want to receive these documents in print, please send a written request to our Corporate Secretary at The Williams Companies, Inc., One Williams Center, MD 47, Tulsa, Oklahoma 74172.

Board and Committee Structure and Meetings

Board Meetings

Board members actively participate in Board and committee meetings. Generally, materials are distributed one week in advance of each regular Board meeting so that members can be prepared for the discussion.

The full Board met 16 times in 2014. Further, the non-employee directors met seven times without the CEO present. Each director attended at least 75% of the aggregate of the Board and applicable committee meetings held in 2014.

Board Committees

The Board has four standing committees Audit, Compensation, Finance, and Nominating and Governance. Each standing committee has a charter adopted by the Board. The standing committees report to the full Board at each regular Board meeting. The Board elects each committee s members and chair annually. The Board also has a Special Safety Committee. Each committee has authority to retain, approve fees for, and terminate advisors as it deems necessary to assist in the fulfillment of its responsibilities. The chart below shows the current composition of the committees and the number of committee meetings in 2014.

Committee Member

Responsibilities

The Board has a separately designated standing Audit Committee established in accordance with Section 3(a)(58)(A) of the Exchange Act. The Audit Committee:

appoints, evaluates, and approves the compensation of our independent registered public accounting firm;

assists the Board in fulfilling its responsibilities for generally overseeing Williams financial reporting processes and the audit of Williams financial statements, including the integrity of Williams financial statements, Williams compliance with legal and regulatory requirements, and risk assessment and risk management;

reviews the qualifications and independence of the independent registered public accounting firm;

reviews the performance of Williams internal audit function and the independent registered public accounting firm;

reviews Williams earnings releases;

reviews transactions between Williams and related persons that are required to be disclosed in our filings with the SEC;

oversees investigations into complaints concerning financial matters;

reviews with the General Counsel, as needed, any actual and alleged violations of the Company s Code of Business Conduct;

annually reviews its charter and performance; and

prepares the Audit Committee report for inclusion in the annual proxy statement.

Independence Requirements

The Board has determined that all members of the Audit Committee meet the heightened independence requirements under the NYSE s rules for persons serving on audit committees.

Financial Literacy, Experts

In addition, the Board has determined that all members of the Audit Committee are financially literate as defined by the NYSE rules and qualify as audit committee financial experts as defined by the rules of the SEC.

No Audit Committee member serves on more than three public company audit committees.

Responsibilities

The Finance Committee:

reviews and approves and/or recommends to the Board Williams capital spending in accordance with the Board s delegation of authority;

supports the Board s oversight of Williams financial strategies, plans, and policies;

reviews risks relating to capital, including capital allocation, investment evaluation, and project execution;

reviews and approves any amendments to Williams financing agreements;

at least annually, reviews and approves Williams decision to enter into swaps that are exempt from exchange execution and clearing under the end-user exception regulations established by the Commodity Futures Trading Commission and Williams policies governing the use of swaps subject to the end-user exception; and

reviews annually its charter and performance.

Responsibilities The Compensation Committee:

approves executive compensation philosophy, policies, and programs that align the interests of our executive officers with those of our stockholders;

oversees the material risks associated with compensation structure, policies, and programs;

assesses the results of the advisory votes on executive compensation;

recommends to the Board equity-based compensation plans;

recommends to the Board cash-based incentive compensation plans for the NEOs and other executives;

sets corporate goals and objectives for compensation for the NEOs and other executives;

evaluates the NEOs and certain other executives performance in light of those goals and objectives;

approves the NEOs and certain other executives compensation, including salary, incentive compensation, equity-based compensation, and any other remuneration;

approves, amends, modifies, or terminates, in its settlor (non-fiduciary) capacity, the terms of any benefit plan that do not require stockholder approval;

reviews and discusses with management and, based on the review and discussions, recommends to the Board the Compensation Discussion and Analysis required by the SEC for inclusion in the annual proxy statement and annual report on Form 10-K;

reviews annually and recommends to the Board the appropriate compensation of non-employee directors;

develops, reviews, recommends for Board approval, and then monitors the directors and executive officers compliance with, Williams stock ownership policy;

reviews and recommends the terms of Williams change in control program;

assesses any potential conflicts of interest raised by the compensation consultants retained by management or the Committee and assesses the independence of any Compensation Committee advisor; and

reviews annually its charter and performance.

Independence Requirements

The Board has determined that all members of the Compensation Committee meet the heightened independence requirements under the NYSE s rules for persons serving on compensation committees.

Independent Executive Compensation Advisor

The Compensation Committee has selected and retained Frederic W. Cook & Co., an independent executive compensation consulting firm, to provide competitive market data and advice related to the CEO s compensation level and incentive design; review and evaluate management-developed market data and recommendations on compensation levels, incentive mix, and incentive design for NEOs and certain other executives (excluding the CEO); develop the selection criteria and recommend comparator companies for executive compensation and performance comparisons; provide information on executive compensation

trends and their implications to Williams; and provide competitive market data and advice on non-employee director compensation.

The Compensation Committee evaluates the independence of Frederic W. Cook & Co., including consideration of the factors specified in Rule 10C-1 under the Exchange Act and the NYSE s rules to ensure that the advisors maintain objectivity and independence when rendering advice to the Committee. Frederic W. Cook & Co. does not provide any additional services to Williams. The compensation consultant reports to the Compensation Committee and is independent of management. The Compensation Committee has determined that the services Frederic W. Cook & Co. provides to the Committee are not subject to a conflict of interest.

Responsibilities

The Nominating and Governance Committee: develops and recommends to the Board director qualifications;

identifies and recommends to the Board director candidates;

reviews candidates recommended or nominated by stockholders;

recommends to the Board the individual, or individuals, to be the Chairman of the Board and the CEO;

reviews the CEO s recommendations for individuals to be officers;

reviews annually succession plans for the positions of CEO and certain other executives;

monitors significant developments in the regulation and practice of corporate governance;

reviews the size and composition of the Board and its committees and recommends to the Board any changes;

determines if a Lead Director shall be designated, and if so determined, recommends a director to serve as Lead Director;

conducts a preliminary review of director independence and the financial literacy and expertise of the Audit Committee members;

recommends assignments to the Board committees;

oversees and assists the Board in the review of the Board s performance and reviews its own performance;

annually reviews each standing committee s charter, the Corporate Governance Guidelines, and the Williams Code of Business Conduct;

oversees and reviews risks relating to Williams ethics and compliance programs and annually reviews Williams policies and procedures regarding compliance with the Code of Business Conduct and the results of the Code of Business Conduct and Ethics survey;

reviews, on an annual basis, the implementation and effectiveness of the Company s ethics and compliance program with the General Counsel, and, as applicable, considers any actual and alleged violations of the codes of conduct, including any matters involving criminal or potential criminal conduct communicated by the General Counsel to the committee;

reviews stockholder proposals and recommends responses to the Board;

reviews our directors current service and requests to serve on boards of other companies; and

reviews annually the performance of individual directors.

Responsibilities

In addition to its standing committees, in 2014 the Board formed a Special Safety Committee to review and evaluate safety matters and make recommendations to the Board with respect to safety matters.

Consideration of Nominees

The process for selecting a director nominee starts with a preliminary assessment of each candidate based upon his/her resume and other biographical and background information, and his/her willingness to serve. The Committee considers prior Williams Board performance and contributions for any director nominee who is a current or former Board member. A candidate s qualifications are then evaluated against the criteria set forth in Proposal 1 Election of Directors, as well as the specific needs of Williams at the time. Qualified candidates are interviewed by the Chairman of the Board and at least one member of the Nominating and Governance Committee. Candidates may then meet with other members of the Board and senior management. At the conclusion of this process, the Nominating and Governance Committee may recommend and the Board act to appoint the candidate to the Board and recommend him or her for election by our stockholders at the next annual meeting.

The Nominating and Governance Committee uses the same process to evaluate all candidates regardless of the source of the nomination. The Committee has currently engaged a third party consultant to identify and evaluate potential director nominees.

Stockholder Nominations

The Nominating and Governance Committee will consider written recommendations from stockholders for director nominations. If you wish to nominate a candidate, please forward the candidate s name and a detailed description of the candidate s qualifications, a document indicating the candidate s willingness to serve, and evidence that you own Williams stock to: The Williams Companies, Inc., One Williams Center, MD 47, Tulsa, Oklahoma 74172, Attn: Corporate Secretary. A stockholder wishing to nominate a director candidate for election at the annual meeting of stockholders must also comply with the notice and other requirements described above under the question *May I propose actions for consideration at the 2016 meeting of stockholders?*

Arrangements for Selection

Corvex Management LP (Corvex), Mr. Keith Meister, Soroban Master Fund LP (Soroban), Soroban Capital Partners LP, Soroban Capital GP LLC, and Mr. Eric W. Mandelblatt (collectively, the Investor Group) collectively report beneficial ownership of over five percent of our shares and sought Board representation. In February 2014, we entered into an agreement with the Investor Group pursuant to which Messrs. Mandelblatt and Meister were appointed to our Board. Under the terms of the agreement, the Board also nominated Messrs. Mandelblatt and Meister to stand for election at our 2015 annual meeting. Corvex and Soroban agreed to vote their shares in support of all of the Board s director nominees at that meeting. The agreement provides terms under which Messrs. Mandelblatt and Meister will offer to resign from our Board, including if Corvex and Soroban do not meet minimum share ownership requirements. Please read Security Ownership of Certain Beneficial Owners and Management for information about the shares reported as beneficially held by the Investor Group and our current report on Form 8-K filed with the SEC on February 25, 2014, for more information about our agreement with the Investor Group, including a copy of the agreement.

PROPOSAL 1 ELECTION OF DIRECTORS

The Board of Directors unanimously recommends a vote FOR the election of the directors named in Proposal 1.

Our restated certificate of incorporation provides that the Board must consist of between five and 17 members, with the actual number of directors at any time to be determined by the Board. Our Board is declassified; each director nominee is considered for a one-year term. All of our directors are up for election in 2015. Unless otherwise instructed, the individuals designated by the Board as proxies intend to vote to elect Messrs. Armstrong, Cleveland, Hagg, Izzo, MacInnis, Mandelblatt, Meister, Nance, and Smith, Dr. Cooper, and Mesdames Hinshaw, Stoney, and Sugg. Should any of these nominees become unable for any reason to stand for election as a director, the designated proxies will vote to elect another nominee recommended by the Nominating and Governance Committee. Alternatively, the Board may choose to reduce its size.

Director and Nominee Experience and Qualifications

At each of its regularly scheduled meetings, in satisfaction of our Corporate Governance Guidelines, the Nominating and Governance Committee evaluates the composition of the Board to assess the skills and experience that are currently represented on the Board, as well as the skills and experience that the Board will find valuable in the future, given the Company s current situation and strategic plans. The Nominating and Governance Committee seeks a variety of occupational and personal backgrounds on the Board in order to obtain a range of viewpoints and perspectives and to enhance the diversity of the Board in such areas as geography, race, gender, ethnicity, and age. This assessment enables the Board to update (if necessary) the skills and experience it seeks in the Board as a whole, and in individual directors, as the Company s needs evolve and change over time. For Board membership, the Nominating and Governance Committee considers the appropriate balance of experience, skills, and characteristics that best suits the needs of the Company and our stockholders. The Committee develops long-term Board succession plans to ensure that the appropriate balance is maintained.

The minimum qualifications and attributes that the Nominating and Governance Committee believes a director nominee must possess include:

an understanding of business and financial affairs and the complexities of a business organization,

genuine interest in Williams and in representing all of its stockholders,

a willingness and ability to spend the time required to function effectively as a director,

an open-minded approach and the resolve to make independent decisions on matters presented for consideration, and

a reputation for honesty and integrity beyond question.

In evaluating the director nominees and in reviewing the qualifications and experience of the directors continuing in office, the Nominating and Governance Committee considered a variety of factors. These include each nominee s independence, financial literacy, personal and professional accomplishments, and experience in light of the needs of the Company. For incumbent directors, the factors also include past performance on the Board. For Messrs. Mandelblatt and Meister, please read Arrangements for Selection above. Among other things, the

Board has determined that it is important to have individuals on the Board with the following skills and experiences:

Oil, Natural Gas, and Petrochemicals Industry Engineering and Construction Financial and Accounting Corporate Governance Securities and Capital Markets Executive Leadership

Legal Public Policy and Government Strategy Development and Risk Management Operating Human Resource Management Information Technology

Marketplace Knowledge (knowledge of the marketplace and political and regulatory environments relevant to the energy sector in the locations where we operate currently or plan to in the future) We have included on the following pages certain information about the nominees for election as directors.

	Mr. Armstrong, 52, became one of our directors and our Chief Executive Officer and President in 2011. 	Alberta, Canada, serving in four different Cabinet portfolios. He served as Minister of Energy for Alberta, Canada from 2001 to 2004, where he achieved international recognition of	Industry
MURRAY D.	Alberta s oil sands reserves, oversaw the transformation of its electricity sector to a competitive wholesale generation	Engineering and
SMITH	market, and initiated the largest industrial tax reduction in the Province s history. Mr. Smith was appointed Representative of	construction
Director since 2012	the Province of Alberta to the United States of America in Washington, DC, from 2005 to 2007. Prior to serving in elected office, Mr. Smith was an independent businessman,	
	owning a number of Alberta-based energy services companies. He is also a director of Surge Energy Inc. (a public oil- focused oil and gas company with operations throughout Alberta and Saskatchewan), NSolv Corporation	Corporate governance
Committees	(the owner of proprietary technology for water-free oil sands in-situ extraction), and Critical Control Solutions (a public	Securities and capital
Finance;	Canadian provider of energy measurement services).	markets
Safety		
	As a former member of the Legislative Assembly of Alberta, Canada and diplomat and now an energy consultant, Mr. Smith s qualifications include industry, engineering and construction, corporate governance, securities and capital	Executive leadership
	markets, executive leadership, and public policy and government experiences and marketplace knowledge.	Public policy and
		government

Marketplace knowledge

	Ms. Stoney, 74, served as Executive Vice President of US West Communications Group, Inc. from 1991 until retiring in 1993 after a 33-year career. Previously she served as the President, Consumer Division, of US West (the Denver-based parent company of Northwestern Bell Telephone Company, Mountain States Telephone & Telegraph Company, and Pacific	AREAS OF EXPERTISE
JANICE D.	Northwest Bell Telephone Company) from 1989 to 1991. Beginning in 1980, Ms. Stoney held officer	Executive leadership
STONEY	positions at Northwestern Bell, including Chief Operating Officer and President and Chief Executive Officer. Ms. Stoney was the 1994 Nebraska	
D : 4 : 1000	Republican nominee for the U.S. Senate. Through 22	Public policy and
Director since 1999	years as a director in manufacturing, consumer products, retailing, and investment funds industries, Ms. Stoney has board experience with director searches, CEO and management succession,	government
<u>Committees</u>	management development, executive compensation,	
Compensation (Chair);	and strategic planning. She has chaired compensation and audit committees for other entities. Ms. Stoney was a director of Whirlpool Corporation (a	Strategy development and risk management
Nominating and	manufacturer of home appliances) from 1987 to 2011 and has served on the Federal Reserve Bank, Tenth	and fisk management
Governance	District, Omaha Branch and the Omaha Community	
	Foundation.	Operating
	As a former Executive Vice President of US West Communications Group, Inc., Chief Executive Officer	Human resource
	of Northwestern Bell, and through her engagement in the political process, Ms. Stoney s qualifications include corporate governance, executive leadership, public policy and government, strategy development and risk management, operating, and human resource management experiences.	management

	Ms. Sugg, 54, retired from ConocoPhillips in 2010 (then an international, integrated oil company), having served as President, Australasia Division, a position responsible for the profit & loss and growth responsibility of ConocoPhillip s operations in	AREAS OF EXPERTISE
LAURA A.	Australia and East Timor. Ms. Sugg began her career in 1983 at Sohio Petroleum and joined Phillips Petroleum, now ConocoPhillips, in 1986 and	industry
	performed various business development, human	Engineering and
SUGG	resources and operations roles. From 2003 to 2005, Ms. Sugg was ConocoPhillip s General Manager E&P Human Resources, with responsibility for global compensation and benefits, leadership succession	construction
Director since 2010	planning, and all human resource functions for 10,000 worldwide employees in 16 countries. From 2002 to 2003, Ms. Sugg was a ConocoPhillip s midstream	Financial and
Committees	executive responsible for profit & loss, health, safety and environment, and operations for its gas gathering, processing, and fractionation business in the U.S.,	accounting
Compensation; Safety	Canada, and Trinidad. From 2000 to 2002, Ms. Sugg was Vice President Worldwide Gas for Phillips with responsibility for its global liquefied natural gas and coal bed methane business development and the profit	Corporate governance
	and loss for its North American gas marketing operations. In 2012, Ms. Sugg joined the board of Denbury Resources, Inc. (an independent oil and gas company) where she serves as the chair of the compensation committee. In February 2015, Ms. Sugg	Executive leadership
	joined the board of Murphy Oil Corporation (an independent oil and gas company). Ms. Sugg served as	Strategy development
	a director and audit committee member of the general partner of Pre-merger Williams Partners from December 2011 to May 2012 and from January 2014 until the Merger in February 2015. Ms. Sugg was a	and risk management
	director of Mariner Energy, Inc. (an independent oil and gas exploration and production company) from 2009 until its merger with Apache Corporation in 2010.	Operating
		Human resource
	As the former President - Australasia Division, General Manager E&P Human Resources, and a midstream executive, each with ConocoPhillips, Ms. Sugg s qualifications include industry, engineering and	management

construction, financial and accounting, corporate governance, executive leadership, strategy development and risk management, operating, and human resource management experiences.

Security Ownership of Certain Beneficial Owners and Management

The following table sets forth information concerning beneficial ownership by holders of five percent or more of our common stock. Unless otherwise indicated, the persons named have sole voting and investment power with respect to the shares listed.

		Percent
Name	Number of Share of Common Stock	of Class (3)
Corvex Management LP / Soroban Master Fund		
LP (1)	62,682,960	8.38%
The Vanguard Group (2)	38,879,631	5.2%

- (1) According to a Schedule 13D filed with the SEC on December 16, 2013, as amended on January 13, 2014, February 4, 2014, February 5, 2014, February 14, 2014, February 25, 2014, and November 19, 2014 (as amended, the 13D), the shares of common stock listed in the table represent the aggregate number of shares that may be beneficially owned by the following (collectively, the Reporting Persons): (a) Corvex Management LP, a Delaware limited partnership (Corvex), (b) Keith Meister, (collectively with Corvex, the Corvex Persons), (c) Soroban Master Fund LP, a Cayman Islands exempted limited partnership (SMF Fund) (d) Soroban Capital GP LLC, a Delaware limited liability company (SCGP LLC), (e) Soroban Capital Partners LP, a Delaware limited partnership (SCP LP), and (f) Eric W. Mandelblatt (collectively with SMF Fund, SCGP LLC and SCP LP, the Soroban Persons). The foregoing entities and persons jointly filed the 13D, indicating that they may constitute a group within the meaning of Section 13 of the Exchange Act. The 13D further reports an agreement between Corvex and SCP LP relating to taking certain actions with respect to us. The 13D indicates that Corvex may be the beneficial owner of and have sole voting and dispositive power over 41,682,960 shares of our common stock held for the account of certain private investment funds for which Corvex acts as investment advisor. The 13D also notes that Mr. Meister, by virtue of his position as control person of the general partner of Corvex, may be considered to beneficially own such shares. The 13D indicates that the Soroban Persons may be the beneficial owner of and have shared voting and dispositive power over 21,000,000 shares of our common stock held for the account of SMF Fund, a private investment fund for which SCP LP acts as investment manager. SCGP LLC is the general partner of SMF Fund and is controlled by Mr. Mandelblatt through his role as Managing Partner of SCGP LLC. SCP LP is controlled by Mr. Mandelblatt through his role as Managing Partner of SCP LP. The principal business address of the Corvex Persons is 712 Fifth Avenue, 23rd Floor, New York, New York 10019. The principal business address of SMF Fund is Gardenia Court, Suite 3307, 45 Market Street, Camana Bay, Grand Cayman KY1-1103, Cayman Islands and the principal business address of SCP LP, SCGP LLC and Mr. Mandelblatt is 444 Madison Avenue, 21st Floor, New York, New York, 10022.
- (2) According to a Schedule 13G filed with the SEC on February 12, 2014, as amended on February 10, 2015 (as amended, the Vanguard 13G), The Vanguard Group, an investment advisor, may beneficially own the shares of common stock listed in the table above. The Vanguard 13G indicates that The Vanguard Group may have sole voting power over 1,235,890 shares of our common stock, sole

dispositive power over 37,759,426 shares of our common stock, and shared dispositive power over 1,120,205 shares of our common stock. The address of The Vanguard Group is 100 Vanguard Boulevard, Malvern, Pennsylvania 19355.

(3) Ownership percentage is reported based on 748,004,651 shares of common stock outstanding on February 27, 2015.

The following table sets forth, as of February 27, 2015, the number of shares of our common stock beneficially owned by each of our directors and nominees for directors, by the NEOs, and by all directors and executive officers as a group.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires the Company s directors and certain of its officers to file reports of their ownership of Williams common stock and of changes in such ownership with the SEC and the NYSE. Regulations also require Williams to identify in this proxy statement any person subject to this requirement who failed to file any such report on a timely basis. Based solely on a review of the copies of such reports furnished to the Company and written representations from certain reporting persons, we believe that all of our officers, directors, and greater than 10% stockholders complied with all Section 16(a) filing requirements applicable to them during the fiscal year ended December 31, 2014.

Named Executive Officer Profiles

The following profiles provide biographical information and summarize total targeted compensation for 2014 for our NEOs. These profiles are provided in addition to the detailed compensation tables required by the SEC.

ALAN S.

	Mr. Armstrong, 52, became one of our directors and our Chief Executive Officer and
	President in 2011. From 2002 until January 2011, he was Senior Vice
	President-Midstream and acted as President of our midstream business. From 1999 to
ARMSTRONG	2002, Mr. Armstrong was Vice President, Gathering and Processing for Midstream.
	From 1998 to 1999 he was Vice President, Commercial Development for our midstream
	business. Since the Merger, Mr. Armstrong has served as Chairman of the Board and
	Chief Executive Officer of the general partner of Williams Partners. Prior to the Merger,
Chief Executive Officer	Mr. Armstrong served the general partner of Williams Partners as a director (since 2012)
and President	and its Chief Executive Officer (since December 31, 2014). Mr. Armstrong previously
	served the general partner of Pre-merger Williams Partners as Chairman of the Board
	and Chief Executive Officer (2011 until the Merger), director (2005 until the Merger),
	Senior Vice President Midstream (2010-2011), and Chief Operating Officer
Position held since 2011	(2005-2010). Mr. Armstrong has served as a director of BOK Financial Corporation
	since 2013. Mr. Armstrong also serves on the National Petroleum Council and as a
	director for the American Petroleum Institute. Mr. Armstrong serves as 2015 Chair of the
	Tulsa Regional Chamber s Board of Directors. He is the past Chairman and a current
Stock ownership (1)	board member of the University of Oklahoma College of Engineering Board of Visitors.

Change in Control	\$9,270,673

(1) Mr. Scheel s ownership in our common stock exceeded the required NEO ownership threshold of three times base salary. Only shares owned outright and time-based RSUs count as owned for purposes of the program.

- (2) Performance-based compensation includes performance-based RSUs, stock options, and AIP.
- (3) 2014 Compensation reflects target pay and consists of annual base pay, AIP at target, and the targeted long-term incentive grant. These amounts will differ from the Summary Compensation Table. The retirement benefits are valued in the same manner shown in the Summary Compensation Table.

Compensation Discussion & Analysis

The Compensation Discussion and Analysis (CD&A) provides a detailed description of the objectives and principles of Williams executive compensation programs. It explains how compensation decisions are linked to performance as compared to the Company s strategic goals and stockholder interests. Generally, Williams executive compensation programs apply to all officers; however, this CD&A focuses on the NEOs for the Company for the 2014 fiscal year.

We seek stockholder support on our executive compensation pay programs annually. In 2014, our stockholders supported our programs with 98.97% for votes. In considering this positive response, along with our analysis of the competitive market, we have not made any material changes to our overall executive compensation program.

Our Commitment to Pay for Performance

Pay for Performance

We design our compensation programs to support our commitment to performance. At target, 78% or more of an NEO s compensation will vary based on our company performance.

Long-term Incentives

Our most significant differentiator in performance is within our equity awards. We use equity awards to align compensation with the long-term interests of our stockholders. Equity awards consist of performance-based RSUs, time-based RSUs, and stock options. The largest component of an NEO s long-term incentive award is performance-based RSUs. Both relative and absolute total stockholder return (TSR) are used to determine the actual number of units that will be distributed to an NEO upon vesting. We are unique among our comparator companies in measuring both relative and absolute TSR to determine results and ultimately the number of units that vest. Relative TSR

We re unique. We consider both relative *and* absolute total stockholder return in determining our NEO equity grants.

gauges our TSR performance relative to our comparator companies while absolute TSR requires that we deliver a strong absolute TSR to our stockholders. In 2014, the performance-based RSUs granted in 2011 exceeded our three-year annualized TSR targets by achieving a relative TSR performance in the top quartile of our comparator group and by achieving more than 24% for the annualized absolute TSR delivered to our stockholders. As a result of this strong performance, the performance pay-out for these awards was 182%. Additionally, we consider stock options to be performance-based compensation. Stock options only provide value to the extent that the Company s stock price has increased above the grant price and therefore stockholder s have benefited.

Annual Incentive Program

Our performance-based cash compensation is paid under our Annual Incentive Program (AIP) which is based on financial performance and individual performance. Under this program, cash compensation reflects annual business performance and is based on weighted measures of adjusted operating distributable cash flow, controllable costs, and fee-based revenue. Additionally, in 2014, a safety modifier can decrease an NEO s calculated AIP award by up to 5% based on performance relative to the established safety measures of lost time incident rate, days away from work, and motor vehicle accidents.

The actual 2014 AIP performance was 50% and was reduced by the safety modifier of -3.34% due to results not meeting established targets in the measures of days away from work and motor vehicle accident rate.

2014 Business Overview

We marked 2014 with the strategic acquisition of a controlling interest in Access Midstream Partners, L.P., a master limited partnership (MLP) with natural gas gathering and processing assets in key production basins. Access Midstream subsequently merged with Williams Partners to create one leading, large-cap natural gas infrastructure-focused MLP.

The new MLP, which adopted the name Williams Partners, has major positions across the midstream business spanning natural gas gathering and processing, natural gas transmission pipelines, natural gas liquids pipelines and petchem services. In addition to the tremendous bolt-on growth of Access Midstream s assets, Williams in 2014 completed several large-scale organic projects and continued growing our gathering and processing capacity in the prolific Utica-Marcellus shale region.

Despite the headwinds of low commodity prices and the delay in the startup of our Geismar plant, we further positioned Williams in 2014 to take advantage of long-term natural gas demand growth for power generation, manufacturing, and exports. Over the next three years, we re deploying 99 percent of Williams Partners planned \$9 billion of growth capital toward fully-contracted, fee-based projects with no direct exposure to commodity prices. **Projects and milestones**

In first quarter 2014, Williams Partners Atlantic Sunrise expansion project received binding commitments for 1.7 million Dth/d of firm transportation capacity. The Transco project includes 15-year shipper commitments from producers, local distribution companies, and power generators. Atlantic Sunrise is expected to come into service in the second half of 2017.

In first quarter 2014, Williams Partners acquired Williams in-service Canada operations for \$1.2 billion. The assets include an oil sands offgas processing plant, approximately 260 miles of natural gas liquids (NGL) and olefins pipelines, an NGL/olefins fractionation facility and butylene/butane splitter, as well as an in-progress fractionation project related to development of offgas processing at the Williams-owned CNRL Horizon upgrader.

In second quarter 2014, Williams Partners Dalton expansion project received binding commitments for 448,000 Dth/d of firm transportation capacity. The Transco expansion would provide customers in northwest Georgia access to Marcellus shale gas supplies for incremental electricity generation and growing local distribution load.

In second quarter 2014, the Federal Energy Regulatory Commission (FERC) approved Williams Partners Mobile Bay South III Expansion. The Transco project is designed to provide 225,000 Dth/d of additional firm transportation capacity to growing markets in the Southeast U.S. by the second quarter of 2015.

In second quarter 2014, Williams Partners announced Gulf Trace, a 1.2 million Dth/d expansion of Transco to serve the Sabine Pass Liquefaction facility, which is under construction in Cameron Parish, La. The export terminal is designed to connect U.S. natural gas supplies with global LNG markets.

In second quarter 2014, FERC approved Williams Partners Rockaway Lateral and Northeast Connector expansions, which are designed to increase natural gas delivery capacity to Brooklyn and Queens, N.Y. Construction began in second quarter 2014 and is expected to be complete in the second quarter of 2015.

In the first half of 2014, Williams Partners added capacity at its Moundsville, W. Va. fractionator, bringing NGL handling capacity to approximately 42.5 Mbbls/d. It also completed the associated 50-mile ethane pipeline to Houston, Pa.

In third quarter 2014, William Partners completed its first deethanizer in the Northeast with a capacity of 40 Mbbls/d and in fourth quarter 2014 Williams Partners completed its first turbo-expander at its Oak Grove, W. Va. facility to add 200 MMcf/d of processing capacity. It also completed the last phase of the condensate stabilization project in the Marcellus Shale.

In third quarter 2014, Williams acquired the 50 percent general partner interest and 55.1 million limited partner units in Access Midstream Partners, L.P. held by Global Infrastructure Partners II for \$5.995 billion. Upon closing, Williams owned 100 percent of the general partner and approximately 50 percent of the limited partner interests. Williams Partners and Access Midstream merged in February 2015.

In third quarter 2014, Williams Partners announced the Garden State expansion, a fully contracted Transco project designed to deliver 180,000 Dth/d of additional capacity for local distribution along the Eastern Seaboard. The project is expected to be placed into service in phases starting in 2016.

In fourth quarter 2014, Williams Partners Gulfstar One began providing oil and natural gas handling for the Tubular Bells field located in the eastern deepwater Gulf of Mexico. The floating production system aggregates production and feeds Williams downstream oil and gas gathering and processing services on the Gulf Coast.

In fourth quarter 2014, FERC approved Williams Partners 124-mile Constitution Pipeline to increase natural gas supply to New York and New England markets. Construction is expected to begin in 2015.

In fourth quarter 2014, FERC approved Williams Partners Leidy Southeast expansion project, which is designed to increase Transco pipeline s capacity by 525,000 Dth/d of natural gas in Pennsylvania and New Jersey. Construction began in spring 2015.

In fourth quarter 2014, Williams Partners began commissioning its expanded Geismar plant, which restarted in February 2015 and was ramping up in first quarter 2015. Capacity at the Geismar plant is now 1.95 billion pounds of ethylene per year.

In first quarter 2015, Williams Partners began commissioning its Keathley Canyon Connector, a 209-mile deepwater gas gathering pipeline system capable of gathering more than 400 million cubic feet per day of natural gas. The pipeline began flowing gas in February 2015 from the Keathley Canyon protraction into Discovery s 30-inch diameter mainline.

In fourth quarter 2014, Williams was awarded Deal of the Year for the Access Midstream acquisition at the Platts Global Energy Awards in New York City.

The accompanying chart compares Williams cumulative total stockholder return on our common stock (assuming reinvestment of dividends) to the cumulative total return of the S&P 500 Stock Index and the median of our comparator company group. For more details on our comparator company group, see the CD&A section titled Determining Our Comparator Group. The graph below assumes an initial investment of \$100 at the beginning of the period on December 31, 2011.

Compensation Summary

Objective of Our Compensation Programs

The role of compensation is to attract and retain the talent needed to increase stockholder value and to help our businesses meet or exceed financial and operational performance goals. Our compensation programs objective is to reward our NEOs and employees for successfully implementing our strategy to grow our business and create long-term stockholder value. To that end, in 2014 we used relative and absolute TSR to measure long term performance; and we used adjusted operating distributable cash flow, controllable costs, and fee-based revenue to measure annual performance. In addition, the NEOs had a safety modifier to reinforce the value of safety within Williams for our employees. We believe using separate long-term and annual metrics to incent and pay NEOs helped ensure that the business decisions made were aligned with the long-term interests of our stockholders.

Our Pay Philosophy

Our pay philosophy throughout the entire organization is to pay for performance, be competitive in the marketplace, and consider the value a job provides to the Company. Our compensation programs reward NEOs not just for accomplishing goals, but also for how those goals are pursued. We strive to reward the right results and the right behaviors while fostering a culture of collaboration, execution, improvement, teamwork, and safety.

The principles of our pay philosophy influence the design and administration of our pay programs. Decisions about how we pay NEOs are based on these principles. The Committee uses several types of pay that are linked to both our long-term and short-term performance in the executive compensation programs. Included are long-term incentives, annual cash incentives, base pay, and benefits. The chart below illustrates the linkage between the types of pay we use and our pay principles.

Pay Principles	Long-term Incentives	Annual Cash Incentives	Base Pay	Benefits
Pay should reinforce business objectives and values.	1	1	1	
A significant portion of an NEO s				
total pay should be variable based	1	1		
on performance.

ensure competitiveness and appropriateness of proposed compensation packages. When setting pay, the Committee uses market median information of our comparator group, as opposed to market averages, to ensure that the impact of any unusual events that may occur at one or two companies during any particular year is diminished from the analysis. If an event is particularly unusual and surrounded by unique circumstances, the data is completely removed from the assessment. Two of our comparator companies are not considered in our aggregate pay statistics due to significant pay practice differences, but are still considered in the analysis of company performance with regard to our performance-based equity awards.

The following table shows the range of our 2014 comparator companies revenues, assets, market capitalization, and enterprise value as reported for 2013. (*dollars in millions*)

Our Pay Setting Process			

During the first quarter of the year, the Committee completes a review to ensure we are paying competitively, equitably, and in a way that encourages and rewards performance.

The compensation data of our comparator group, disclosed in proxy statements, is the primary market data we use when benchmarking the competitive pay of our NEOs. Aggregate market data obtained from recognized third-

party executive compensation survey companies is used to supplement and validate comparator group market data.

Although the Committee reviews relevant data as it designs compensation packages, setting pay is not an exact science. Because market data alone does not reflect the strategic competitive value of various roles within our Company, internal pay equity is also considered when making pay decisions. Other considerations when making pay decisions for the NEOs include individual experience, sustained performance, historical pay, realized and realizable pay over three-years, and tally sheets that include annual pay and benefit amounts, wealth accumulated over the past five-years, and the total aggregate value of the NEOs equity awards and holdings.

Multiple internal and external factors are considered when determining NEO compensation packages.

When setting pay, we determine a target pay mix (distribution of pay among long-term incentives, annual incentives, base pay, and other forms of compensation) for the NEOs. The target pay mix for each NEO can be found in the Named Executive Officer Profile section included in this proxy statement. Consistent with our pay-for-performance philosophy, the actual amounts paid, excluding benefits, are determined based on Company and individual performance. Because performance is a factor, the target versus actual pay mix will vary, specifically as it relates to the annual cash incentives and performance-based RSUs.

CEO

2014 Total Compensation at Target Pay Mix

NEO Average

(Excluding CEO)

2014 Total Compensation at Target Pay Mix

How We Determine the Amount for Each Type of Pay

Long-term incentives, annual cash incentives, base pay, and benefits accomplish different objectives. The table below illustrates a summary of the primary objectives associated with each component of pay listed in the order of most significant to the NEO s total compensation. The table is followed by specific details regarding each pay component.

Long-Term Incentives

To determine the value for long-term incentives granted to an NEO each year, we consider the following factors:

the proportion of long-term incentives relative to base pay;

the NEO s impact on Company performance and ability to create value;

long-term business objectives;

awards made to executives in similar positions within our comparator group of companies;

the market demand for the NEO s particular skills and experience;

the amount granted to other NEOs in comparable positions at the Company;

the NEO s demonstrated performance over the past few years; and

the NEO s leadership performance.

A summary of the long-term incentive program details for 2014 and 2015 are shown in the table below. The long-term incentive mix for the CEO differs from the mix for the other NEOs. Since the CEO has more opportunity to influence our financial results, the Committee considers it appropriate that a greater percentage of his long-term incentives are directly tied to the performance of the Company s stock price.

	Performance-based RSUs	Time-based RSUs	Stock Options
CEO Equity			
Mix	55%	25%	20%
NEO Equity			
Mix	45%	35%	20%
Term	Three years	Three years	10 years
Frequency	Granted annually	Granted annually	Granted annually
Performance	Absolute TSR and		
criteria	Relative TSR	Retention	Stock price appreciation
Vesting	Cliff vesting after three years	Cliff vesting after three years	Ratable vesting over three years
	Upon vesting, shares are distributed based on		
	performance certification		Upon vesting, options are
		Upon vesting, shares are	
Payout	(0% - 200%)	distributed	available to exercise
		Dividend equivalents accrued	
Dividends	No dividends	and paid in cash upon vesting ⁽¹⁾	No dividends

(1) Dividend equivalents began accruing with the 2012 grant

We continued to grant long-term incentives in the form of (1) performance-based RSUs, (2) time-based RSUs, and (3) stock options in 2014 to emphasize our commitment to pay for performance, enable ownership in the Company, and ensure appropriate retention of our NEOs.

Performance-based RSUs. Performance-based RSUs awarded are only earned if we attain specific TSR results. We measure both relative TSR and absolute TSR as interdependent measures in determining the attainment level of our performance-based awards. Including absolute TSR ensures that we are delivering value to our stockholders, not simply performing well against our peers. Relative TSR may place us at the top of our peers; however, if we have not delivered value to our stockholders, awards would be limited. The majority of companies in our comparator group typically consider only their TSR performance relative to a defined peer group. Performance-based equity is a significant portion of our NEO compensation. The performance-based RSU matrix included in this section shows how the two metrics work together to generate a performance multiple.

A maximum payout is achieved only when we exceed our goals both in absolute and relative terms.

Example 1: If our Relative TSR performance is below the median (i.e., 50 Percentile) of our comparator company group, we only deliver a payout if our Annualized Absolute TSR performance is at least 7.5% during the three-year period. At a 7.5% annualized TSR result, the payout would be between 0%-50% of the original grant.

Example 2: Relative TSR performance near or at the top of our comparator group would be capped at 60% of the original grant if we fail to return at least 7.5% to our stockholders. This would result in each NEO receiving well below the targeted award despite high relative TSR compared to our peers.

This philosophy is in contrast to the common market practice of utilizing only relative TSR. Without delivering the threshold absolute return to stockholders, relative TSR that fails to exceed the median of the comparator group will not generate any payout.

The performance-based RSUs granted in 2011 and 2012 for the 2011-2013 and 2012-2014 performance periods exceeded targets set for both absolute and relative TSR at the beginning of each performance period resulting in strong performance scores of 182% and 169% respectively. The 2011 awards were distributed in 2014. The 2012 awards were distributed in 2015. Of note, within the past six vesting periods, including the 2012 award which vested in 2015, two of our performance-based RSU grants have not achieved the minimum threshold for payout while four have achieved above target performance.

Minimum Vesting Period. The 2007 Incentive Plan requires a minimum three-year vesting period for all RSU awards and at least a portion of all stock option awards.

2011 Performance-based RSUs Earned. The three-year performance cycle for our 2011 performance-based RSUs was completed at the end of 2013 and earned awards were distributed in 2014 upon vesting and performance certification. As discussed earlier in the CD&A, we surpassed the stretch goal for the annualized TSR and performed well relative to our comparator companies achieving a relative TSR performance in the top quartile of our comparator company group. Applying these results generated a 182% of target performance result.

2012 Performance-based RSUs Earned. We also surpassed the three-year performance targets for our 2012 performance cycle which ran through 2014 and earned awards were distributed in 2015 upon vesting and performance certification. We exceeded the stretch goal for our annualized TSR and performed in the top quartile relative to our comparator company group. Applying these results to the matrix displayed in Our Commitment to Pay for Performance section generated a 169% performance result.

Time-Based RSUs. We grant time-based RSUs to retain executives and to facilitate stock ownership. The use of time-based RSUs is also consistent with the practices of our comparator group of companies. In 2012, we began accruing dividend equivalents on our time-based RSUs in line with transformation into a high-growth, high-dividend energy infrastructure company. Our quarterly dividend has increased since 2010, growing from \$.11 to \$.57. Accrued dividend equivalents will only distribute upon vesting.

Stock Option Awards. For recipients, stock options have value only to the extent the price of our common stock is higher on the date the options are exercised than it was on the date the options were granted.

Leveraged RSUs. To further strengthen the alignment between management and our stockholders during a time of tremendous growth and capital investment, the Committee awarded Leveraged Restricted Stock Unit awards to each NEO effective October 25, 2014. This special award is not part of Williams annual targeted compensation. The award incents strong growth of our TSR over a three-year period. In order for the award to generate any value for the recipient, the annualized absolute TSR over the three-year period must be at least 7%. At the 7% annualized TSR result, the recipient would receive half of the target number of units granted. A result below 7% annualized TSR will result in no award. For each full percentage point the annualized absolute TSR improves above the 7% threshold, the number of units vesting will increase by a factor of the original unit award amount. This factor amount will vary based on Williams TSR performance relative to our 2015 comparator company group. When Williams TSR over the performance period meets or exceeds the median TSR of our comparator group of companies, the number of units earned will increase by a factor of 25% of the original unit award for each 1% above a 7% annualized rate of TSR and by 50% of the original unit award for each 1% above a 12% annualized TSR. When Williams TSR over the performance period falls below the median TSR of our comparator group of companies, the number of units earned will increase by a lower factor of 10% of the original award for each 1% above a 7% annualized rate of TSR. While the awards will vest at the end of three years, any earned units will distribute one-third three years after the award date, one-third four years after the award date, and one-third five years after the award date. The award may not exceed five times the number of original units granted or eight times the target value of the award in dollars.

Grant Practices. The Committee typically approves our annual equity grant in February or early March of each year, shortly after the annual earnings release. The grant date for awards is on or after the date of such approval to ensure the market has time to absorb material information disclosed in the earnings release and reflect that information in the stock price. Our grant practices in 2014 were consistent with prior years. The grant date for off-cycle grants for individuals who are not NEOs, for reasons such as retention or new hires, is the first business day of the month following the approval of the grant. By using this consistent approach, we remove grant timing from the influence of the release of material information.

Stock Ownership Guidelines. Our program provides stock ownership guidelines for each of our NEOs and our Board of Directors as shown in the table below:

Position	Ownership Multiple	As a Multiple of	Holding / Retention Requirement
CEO	6x	Base Pay	50%, after taxes, until guidelines are
			met
NEO	3x	Base Pay	50%, after taxes, until guidelines are
			met
Board of Directors	5x	Annual Cash Retainer	60% until guidelines are met

Board of Directors 5x Annual Cash Retainer 60% until guidelines are met The Committee annually reviews the guidelines for competitiveness and alignment with best practices and monitors the NEOs progress toward compliance. Only shares owned outright and time-based RSUs count as owned for purposes of the program. Stock options and performance-based equity are not included as owned for purposes of the program. (It is important to note that the majority of NEO s equity grants are in the form of performance-based RSUs and stock options.) NEOs must retain 50% of any vested equity awards, net of taxes, until their ownership guidelines are met. Board members must retain 60% of distributed vested equity awards until their ownership guidelines are met. While Williams CEO stock ownership guideline is six-times base salary, the median CEO ownership guideline of our comparator group of companies is just five-times base salary. Additionally, the majority of our comparator companies provide a five-year window for their CEO to meet their ownership guideline. During this time, no trading or sell restrictions are in place. At Williams, NEOs must hold at least 50% of any equity transaction if they have not met their ownership guideline regardless of their time in the role.

Annual Cash Incentives

As previously mentioned in the Our Commitment to Pay for Performance section, we pay annual cash incentives to encourage and reward our NEOs for making decisions that improve our annual operating performance through our AIP. The objectives of our AIP are to:

motivate and incent management to choose strategies and investments that maximize long-term stockholder value;

offer sufficient incentive compensation to motivate management to put forth extra effort, take prudent risks, and make effective decisions to maximize stockholder value;

provide sufficient total compensation to retain management; and

limit the cost of compensation to levels that will maximize the return of current stockholders without compromising the other objectives.

The AIP Calculation. The 2014 AIP is based on the weighted measures of adjusted operating distributable cash flow, controllable costs, and fee-based revenue. Each metric is directly aligned with our business strategy to operationally grow the business as well as continue to align with our dividend growth strategy.

In line with our commitment to safety, a safety modifier can decrease, but not increase, an NEO s calculated 2014 AIP award by up to negative 5% based on performance relative to the established safety measures of lost time incident rate, days away from work, and motor vehicle accidents.

NEOs AIP business performance is based on enterprise results of these business metrics in relation to established targets. We only use enterprise-level performance metrics for our NEOs in order to promote teamwork and collaboration by creating a shared goal for the overall Company performance. Our incentive program allows the Committee to make adjustments to these business performance metrics to reflect certain

business events. When determining which adjustments are appropriate, we are guided by the principle that incentive payments should not result in unearned windfalls or impose undue penalties. In other words, we make adjustments to ensure NEOs are not rewarded for positive results they did not facilitate nor are they penalized for certain unusual circumstances outside their control.

Management regularly reviews with the Committee a supplemental scorecard reflecting the Company s segment profit, earnings per share, cash flow from operations, stock price performance, return on capital employed, and safety to provide updates regarding the Company s performance as well as to ensure alignment between these measures and the AIP s business performance metrics. This scorecard provides the Committee with additional data to assist in determining final AIP awards.

The Committee s independent compensation consultant annually compares our relative performance on various measures, including TSR and earnings per share with our comparator group of companies. The Committee also uses this analysis to validate the reasonableness of our AIP results.

How We Set the 2014 AIP Goals.

The attainment percentage of AIP goals results in payment of annual cash incentives along a continuum between threshold and stretch levels, which corresponds to 0% through 200% of the NEO s annual cash incentive target. NEOs have the possibility to exceed the stretch level up to 250% of their annual cash incentive target. The charts below show the goals for the 2014 annual cash incentive and the resulting payout level.

ADJ. OP. DISTRIB. CASH FLOW + CONTROLLABLE COSTS + FEE-BASED REVENUE = WEIGHTED PAYOUT

 $40\% \ge 0.0X = 0.0x$ 0.0x $\begin{array}{l} 40\% \ \text{x} \ 1.24\text{x} = 0.50\text{x} \\ 0.50\text{x} \end{array}$

 $20\% \ge 0.0x =$

Based on business performance relative to the established goals, the Committee certified performance results of \$2,204 million in adjusted operating distributable cash flow, of \$1,444 million in controllable costs, and of \$3,274 million fee-based revenue which resulted in an approved payment of the annual cash incentive program at 50% of target. The actual 2014 AIP awards were reduced by -3.34% due to not meeting safety improvement targets for days away from work and motor vehicle accident rate. The payout of the 2014 AIP awards occurred in early 2015.

We calculate (a) Adjusted Operating Distributable Cash Flow as: segment profit, adjusted for certain items of income or loss that we characterize as unrepresentative of our ongoing operations; less general corporate expenses; plus *depreciation and amortization*; less *maintenance capital expenditures* (b) Controllable Costs as: *operating and maintenance costs and selling, general and administrative costs* that are under the responsibility of a cost center manager; less certain expenses that are considered less controllable (such as pension and postretirement benefit costs) or have no net impact on financial performance (such as costs that are passed directly to customers) and (c) Fee-based Revenues as: *total service revenues* from our reportable segments before intercompany eliminations; less certain tracked revenues that have no net impact on financial performance. In addition, each measure above may be further adjusted as appropriate to avoid undue penalties or windfalls. (*Italicized* components include our proportionate share of such items recognized by our equity method investees.)

2014 NEO AIP Targets. The starting point to determine annual cash incentive targets (expressed as a percentage of base pay) is competitive market information, which gives us an idea of what other companies target to pay in annual cash incentives for similar jobs. We also consider the internal value of each job i.e., how important the job is to executing our strategy compared to other jobs in the Company- before the target is set for the year. The annual cash incentive targets as a percentage of base pay for the NEOs in 2014 were as follows:

Position	Target
СЕО	125%
CFO	75%
SVP, Atlantic - Gulf	70%
SVP, NGL / Petchem Services	65%
SVP, Northeast Gathering and Processing	70%

Determining 2014 AIP Awards. To determine the funding of the annual cash incentive, we use the following calculation for each NEO:

Actual payments are modified by the safety modifier as previously described. Individual performance, such as success toward our strategic objectives and individual goals, and successful demonstration of the Company s leadership competencies, which exceeded expectations may be recognized through adjustments. Payments may also be adjusted downward if performance warrants.

2015 AIP Awards. The 2015 business performance metrics and weightings will be distributable cash flow (30%), controllable costs (30%), fee-based revenue (30%), and safety (10%). The safety measure is determined based on the metrics of lost time incident rate, days away from work rate, and motor vehicle accident rate.

Base Pay

Base pay compensates the NEOs for carrying out the duties of their jobs and serves as the foundation of our pay program. Most other major components of pay are set based on a relationship to base pay, including long-term and annual incentives, and retirement benefits.

Base pay for the NEOs, including the CEO, is set considering the market median, with potential individual variation from the median due to experience, skills, and sustained performance of the individual as part of our pay-for-performance philosophy. Performance is measured in two ways: through the Right Results obtained in the Right Way. Right Results considers the NEOs success in attaining their annual goals, operational and/or functional area strategies, and personal development plans. Right Way reflects the NEOs behavior as exhibited through our organizational, operational, and people leadership competencies.

Benefits

Consistent with our philosophy to emphasize pay for performance, our NEOs receive very few perquisites or supplemental benefits. They are as follows:

Retirement Restoration Benefits. NEOs participate in our qualified retirement program on the same terms as our other employees. We offer a retirement restoration plan to maintain a proportional level of pension benefits to our NEOs as provided to other employees. The Internal Revenue Code of 1986, as amended (the Internal Revenue Code), limits qualified pension benefits based on an annual compensation limit. For 2014, the limit was \$260,000. Any limitation in an NEO s pension benefit in the tax-qualified pension plan due to this limit is made up for (subject to a cap) in the unfunded retirement restoration plan. Benefits for NEOs are not enhanced and are calculated using the same benefit formula as that used to calculate benefit is consistent with pay considered for all employees in the qualified pension plan. Equity compensation, including RSUs and stock options, is not considered. Additionally, we do not provide a nonqualified benefit related to our qualified 401(k) defined contribution retirement plan.

Financial Planning Allowance. We offer financial planning to provide expertise on current tax laws to assist NEOs with personal financial planning and preparations for contingencies such as death and disability. Covered services include estate planning, tax planning, tax return preparation, wealth accumulation planning

and other personal financial planning services. In addition, by working with a financial planner, NEOs gain a better understanding of and appreciation for the programs the Company provides, which helps to maximize the retention and engagement aspects of the dollars the Company spends on these programs.

Personal Use of Company Aircraft. The CEO is allowed, but not required, to use the Company s private aircraft for personal travel. Our policy for all other executive officers is to discourage personal use of the aircraft, but the CEO retains discretion to permit its use when he deems appropriate, such as when the

destination is not well served by commercial airlines, personal emergencies, and the aircraft is not being used for business purposes. To the extent that NEOs use the Company s private aircraft for personal travel, imputed income will be applied to the NEO, in compliance with Internal Revenue Code requirements.

Executive Physicals. The Committee requires annual physicals for the NEOs. NEO physicals align with our wellness initiative as well as assist in mitigating risk. NEO physicals are intended to identify any health risks and medical conditions as early as possible in an effort to achieve more effective treatment and outcomes.Event Center. We have a suite and club seats at certain event centers that were purchased for business purposes. If they are not being used for business purposes, we make them available to all employees, including our NEOs, as a form of reward and recognition. This is not a perquisite to our NEOs because it is available to all employees.

Spousal Travel. When it is deemed necessary or appropriate for spouses of employees to travel for Company business purposes, we provide a tax gross-up under our company-wide policy to cover the personal tax obligations associated with spousal travel for business purposes for all employees.

Additional Components of our Executive Compensation Program

In addition to establishing the pay elements described above, we have adopted a number of policies to further the goals of the executive compensation program, particularly with respect to strengthening the alignment of our NEOs interests with stockholder long-term interests.

Employment Agreements. We do not have employment agreements with our NEOs.

Termination and Severance Arrangements. The NEOs are not covered under a severance plan. However, the Committee may exercise judgment and consider the circumstances surrounding each departure and may decide a severance package is appropriate. Considerations include the NEO s term of employment, past accomplishments, reasons for separation from the Company, and competitive market practice. The only pay or benefits an employee has a right to receive upon termination of employment are those that have already vested or which vest under the terms in place when equity was granted.

Change in Control Agreements. Our change in control agreements, in conjunction with the NEOs RSU agreements, provide separation benefits for our NEOs. Our program includes a double trigger for benefits and equity vesting. This means there must be a change in control and the NEO s employment must terminate prior to receiving benefits under the agreement. This practice creates security for the NEOs but does not provide an incentive for the NEO to leave the Company. Our program is designed to encourage the NEOs to focus on the best interests of stockholders by alleviating their concerns about a possible detrimental impact to their compensation and benefits under a potential change in control, not to provide compensation advantages to NEOs for executing a transaction.

Our Committee reviews our change in control benefits annually to ensure they are consistent with competitive practice and aligned with our compensation philosophy. As part of the review, calculations are performed to determine the overall program cost to the Company if a change in control event were to occur and all covered NEOs were terminated as a result. An assessment of competitive norms, including the reasonableness of the elements of compensation received, is used to validate benefit levels for a change in control. We do not offer a tax gross up provision in our change in control agreements but instead include a best net provision providing our NEOs with the better of their

after-tax benefit capped at the safe harbor amount or their benefit paid in full, subjecting them to possible excise tax payments. The Committee continues to believe that offering a change in control program is appropriate and critical to attracting and retaining executive talent and keeping them aligned with stockholder interests in the event of a change in control.

The following chart details the benefits received if an NEO were to be terminated or resigned for a defined good reason following a change in control as well as an analysis of those benefits as it relates to the Company, stockholders, and the NEO. Please also see the Change in Control Agreements section following the CD&A for further discussion of our change in control program.

Change in Control Benefit	What does the benefit provide to the Company and stockholders?	What does the benefit provide to the NEO?
Multiple of 2x to 3x base pay plus annual cash incentive at target	Encourages NEOs to remain engaged and stay focused on successfully closing the transaction.	Financial security for the NEO equivalent to two or three-years of continued employment.
Accelerated vesting of stock awards	An incentive to stay during and after a change in control. If there is risk of forfeiture, NEOs may be less inclined to stay or to support the transaction.	The NEOs are kept whole, if they have a separation from service following a change in control.
Up to 18 months of medical or health coverage through COBRA	This is a minimal cost to the Company that creates a competitive benefit.	Access to health coverage.
2x to 3x the previous year s retirement restoration allocation	This is a minimal cost to the Company that creates a competitive benefit.	May allow those NEOs who are nearing retirement to receive a cash payment to make up for lost allocations due to a change in control.
Reimbursement of legal fees to enforce benefit	Keeps NEOs focused on the Company and not concerned about whether the acquiring company will honor commitments after a change in control.	Security during an unstable period of time.
Outplacement assistance	Keeps NEOs focused on supporting the transaction and less concerned about trying to secure another position.	Assists NEOs in finding a comparable executive position.
Best Net provision	Enables the change in control benefits to be delivered in as close a manner to the intended value of the benefits as possible.	Provides NEOs with the better of their after-tax benefit capped at the safe harbor amount or their benefit paid in full, which would subject them to possible excise tax payments.

Derivative Transactions. Our insider trading policy applies to transactions in positions or interests whose value is based on the performance or price of our common stock. Because of the inherent potential for abuse, Williams prohibits officers, directors, and certain key employees from entering into short sales or using equivalent derivative securities. Williams also prohibits officers, directors and key employees from including Williams securities in a margin account or pledging Williams securities as collateral for a loan.

Mitigating Risk

Although no compensation-related risk was identified as a top risk for 2014, the approach to determine if there were adverse compensation risks was similar to the process detailed in the Corporate Governance and Board Matters

Table of Contents

Corporate Governance Board Oversight of Williams Strategic Risk Assessment section of this proxy statement. After this thorough review and analysis, it was determined we do not have material adverse compensation-related risks. Our compensation plans are effectively designed and functioning to reward positive performance and motivate NEOs and employees to behave in a manner consistent with our stockholder interests, business strategies and objectives, ethical standards, and prudent business practices, along with our Core

Values & Beliefs which are the foundation on which we conduct business. Our Core Values & Beliefs can be found on our website at www.williams.com from the Our Company tab. In fact, many elements of our executive pay program serve to mitigate excessive risk taking. For example:

Target Pay Mix. The target pay mix weighting of long-term incentives, annual cash incentives and base pay is consistent with comparator company practices and avoids placing too much value on any one element of compensation, particularly the annual cash incentive. The mix of our pay program is intended to motivate NEOs to consider the impact of decisions on stockholders in the long, intermediate, and short terms.

Annual Cash Incentive. Our annual cash incentive program does not allow for unlimited payouts. Cash incentive payments for NEOs cannot exceed 250% of target levels.

Performance-based Awards.

Our annual cash incentive and long-term incentive programs include performance-based awards. The entire annual cash incentive award is measured against performance targets, while a significant portion of the long-term equity awards provided to NEOs is in the form of performance-based RSUs and stock options. Performance-based RSUs have no value unless we achieve pre-determined three-year performance target thresholds. Stock options will have no value unless the stock price increases from the date of grant.

To drive a long-term perspective, all RSU awards vest at the end of three-years rather than vesting ratably on an annual basis.

NEOs incentive compensation performance is measured at the enterprise level rather than on a business unit level to ensure a focus on the overall success of the Company.

Stock Ownership Guidelines. As discussed in this CD&A, all NEOs, consistent with their responsibilities to stockholders, must hold an equity interest in the Company equal to a stated multiple of their base pay.

Recoupment Policy. In the event that financial results of the Company are restated due to fraud or intentional misconduct, the Board of Directors will review any performance-based incentive payments, including payments under the AIP and performance-based RSUs, paid to executive officers, who are found by the Board of Directors to be personally responsible for the fraud or intentional misconduct that caused the need for the restatement and will, to the extent permitted by applicable law, seek recoupment from all executive officers of any amounts paid in excess of the amounts that would have been paid based on the restated financial results. In addition, the Company will take action to comply with Section 954 of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the Dodd-Frank Act) upon promulgation of final rules from the SEC.

Insider Trading Policy. Our insider trading policy prohibits NEOs and directors, directly or through family members or other persons or entities, from buying or selling Williams securities or engaging in any other

action to take personal advantage of material nonpublic information. In addition, if during the course of working for the Company, the NEO or director learn of material nonpublic information about a competitor or a company with which Williams or an affiliate of Williams does or anticipates doing business with, they may not trade in that company s securities until the information becomes public or is no longer material.

Accounting and Tax Treatment. We consider the impact of accounting and tax treatment when designing all aspects of pay, but the primary driver of our program design is to support our business objectives. Stock options and performance-based RSUs are intended to satisfy the requirements for performance-based compensation as defined in Section 162(m) of the Internal Revenue Code and are therefore considered a tax deductible expense. Time-based RSUs do not qualify as performance-based and may not be fully deductible.

The annual cash incentive program satisfies the requirements for performance-based compensation as defined in Section 162(m) of the Internal Revenue Code and is therefore a tax deductible expense. For payments under our annual cash incentive program to be considered performance-based compensation under Section 162(m), the Committee can only exercise negative discretion relative to actual performance when determining the amount to be paid. In order to ensure compliance with Section 162(m), the Committee has established a target in excess of the maximum individual payout allowed to NEOs under our annual cash incentive program. Reductions are made each year and are not a reflection of the performance of the NEOs but rather ensure flexibility with respect to paying based upon performance.

Compensation Committee Report on Executive Compensation

We have reviewed and discussed the foregoing CD&A with management. Based on our review and discussions with management, we recommend to the Board of Directors that the CD&A be included in this proxy statement and in our Annual Report on Form 10-K for the year ended December 31, 2014.

By the members of the Compensation Committee of the Board of Directors as of March 4, 2015:

Janice D. Stoney, Chair Joseph R. Cleveland Frank T. MacInnis Keith A. Meister Steven W. Nance Laura A. Sugg

Compensation Committee Interlocks and Insider Participation

During fiscal year 2014, Mesdames Stoney and Sugg, and Messrs. Cleveland, MacInnis, Mandelblatt, Meister, Nance, and Smith served on the Compensation Committee. None of these Committee members has ever been an officer or employee of the Company or any of our subsidiaries and none has an interlocking relationship requiring disclosure under applicable SEC rules.

Messrs. Armstrong and Chappel and Ms. Robyn L. Ewing, our Senior Vice President & Chief Administrative Officer, served on the Compensation Committee of Williams Partners L.P. (formerly known as Access Midstream Partners, L.P.) until it was dissolved in December 2014. Mr. Armstrong was appointed Chief Executive Officer of the general partner of Williams Partners on December 31, 2014 and is a member of our Board. These persons received no compensation from Williams Partners.

Executive Compensation and Other Information

2014 Summary Compensation Table

The following table sets forth certain information with respect to the compensation of the NEOs earned during fiscal years 2014, 2013, and 2012.

Processing									

- (1) John Dearborn was provided a \$200,000 retention bonus at hire that was paid in 2014. There are no additional cash payments due.
- (2) Stock Awards. Awards were granted under the terms of the 2007 Incentive Plan and include time-based and performance-based RSUs. Amounts shown are the grant date fair value of awards computed in accordance with FASB ASC Topic 718. The assumptions used to value the stock awards can be found in our Annual Report on Form 10-K for the year-ended December 31, 2014. Also includes a leveraged RSU award granted on October 25, 2014. The leveraged RSU is a new type of grant for Williams and is not expected to be a part of the annual equity awards.

The potential maximum values of the performance-based RSUs, subject to changes in performance outcomes, are as follows:

	Potential
Alan S. Armstrong	\$5,161,632
Donald R. Chappel	1,930,560
Rory L. Miller	1,206,592
John R. Dearborn	1,126,166
James E. Scheel	965,313

2014 Performance-Based RSU Maximum

The potential maximum values of the leveraged RSUs, subject to changes in performance outcomes, are as follows:

	2014 Leveraged RSU Maximum Potential
Alan S. Armstrong	\$24,000,000
Donald R. Chappel	16,800,000
Rory L. Miller	7,920,000
John R. Dearborn	7,920,000
James E. Scheel	7,920,000

- (3) Option Awards. Awards are granted under the terms of the 2007 Incentive Plan and include non-qualified stock options. Amounts shown are the grant date fair value of awards computed in accordance with FASB ASC Topic 718. The assumptions used to value the option awards can be found in our Annual Report on Form 10-K for the year-ended December 31, 2014.
- (4) Non-Equity Incentive Plan. The maximum annual incentive pool funding for NEOs is 250% of target.
- (5) Change in Pension Value and Nonqualified Deferred Compensation Earnings. The amount shown is the aggregate change from December 31, 2013 to December 31, 2014 in the actuarial present value of the accrued benefit under the qualified pension and non-qualified plan. The primary reasons for the increase in the change in present value is a lower discount rate and revised life expectancy rates used to measure these benefits at the end of 2014. The lower discount rate results in a larger present value at the end of 2014. The underlying design of these programs did not change from 2013 to 2014. Please refer to the Pension Benefits table for further details of the present value of the accrued benefit.

(6)

All Other Compensation. Amounts shown represent payments made on behalf of the NEOs and include life insurance premiums, a 401(k) matching contribution, tax gross-ups on the imputed income related to spousal travel for business purposes and perquisites (if applicable). Perquisites may include financial planning services, mandated annual physical exam and personal use of the Company aircraft. If the NEO used the Company aircraft, the incremental cost method is used to calculate the personal use of the Company aircraft. The incremental cost calculation includes such items as fuel, maintenance, weather and airport services, pilot meals, pilot overnight expenses, aircraft telephone and catering. There were no individual aggregate amounts exceeding \$10,000 of perquisites for any of our NEOs. Amounts do not include arrangements that are generally available to our employees and do not discriminate in scope, terms or operations in favor of our NEOs, such as relocation, medical, dental, and disability programs.

Notable Items

The Compensation Committee considers the compensation of CEOs from similarly-sized comparator companies when setting Mr. Armstrong s pay. It is the competitive norm for CEOs to be paid more than other NEOs. In addition, the Compensation Committee believes the difference in pay between the CEO and other NEOs is

consistent with our compensation philosophy (summarized in the CD&A), which considers the external market and internal value of each job to the Company along with the incumbent s experience and performance of the job in setting pay. The CEO s job is different from the other NEOs because the CEO has ultimate responsibility for performance results and is accountable to the Board and stockholders. Consequently, the Compensation Committee believes it is appropriate for the CEO s pay to be higher.

Mr. Chappel s base pay, annual cash incentive target and long-term incentive amounts for 2014 are higher than other NEOs (other than the CEO) because of the impact of his role and market data. Because Mr. Chappel directly interfaces with stockholders and has greater accountability to stockholders, his pay is greater than that of the other NEOs, excluding the CEO.

Grants of Plan Based Awards

The following table sets forth certain information with respect to the grant of stock options, RSUs and awards payable under the Company s annual cash incentive plan during the last fiscal year to the NEOs.

Note: Information provided is as of the close of market on December 31, 2014.

(1) Non-Equity Incentive Awards. Awards from the 2014 AIP are shown.

Threshold: At threshold, the 2014 AIP awards are zero

Target: The amount shown is based upon a business performance attainment of 100%.

Maximum: The maximum amount the NEOs can receive is 250% of their AIP target.

(2) Includes performance-based RSUs granted on 2/24/2014 under the 2007 Incentive Plan. Performance-based RSUs can be earned over a three-year period only if the established performance target is met and the NEO is employed on the certification date, subject to certain exceptions such as the executive s death, disability or retirement. Under any circumstances, these shares will be distributed no earlier than the third anniversary of the grant other than due to a

termination upon a change in control. If performance plan goals are exceeded, the NEO can receive up to 200% of target. If plan threshold goals are not met, the NEO s awards are cancelled in their entirety.

- (3) Includes a 10/25/2014 award of Leveraged RSUs granted under the 2007 Incentive Plan. The award incents the growth of TSR over a three-year period. In order for the award to generate value for the recipient, the annualized absolute TSR over the three-year period must be at least 7%. At the 7% annualized TSR result, the recipient would receive half of the units granted, regardless of the performance relative to our 2015 comparator company group. A result below 7% annualized TSR will not generate any distribution to the award recipients and the awards will be cancelled in their entirety. For each full percentage point the annualized absolute TSR improves above the 7% threshold, the number of units vesting will increase by a factor of the original unit award amount. This factor amount will vary based on Williams TSR performance relative to our 2015 comparator company group. When Williams TSR over the performance period meets or exceeds the median TSR of our comparator group of companies, the number of units earned will increase by a factor of 25% of the original unit award for each 1% above a 7% annualized TSR and by 50% of the original unit award for each 1% above a 12% annualized TSR. When Williams TSR over the performance period falls below the median TSR of our comparator group of companies, the number of units earned will increase by a factor of 10% of the original award for each 1% above a 7% annualized TSR. While the awards will vest on 10/25/2017, any earned units are scheduled to distribute one-third on 10/25/2017, one-third on 10/25/2018, and one-third on 10/25/2019. The earned award may not exceed five times the number of original units granted or eight times the target value of the award in dollars.
- (4) Represents time-based RSUs granted under the 2007 Incentive Plan. Time-based units vest three-years from the grant date of 2/24/2014 on 2/24/2017.
- (5) Represents stock options granted under the 2007 Incentive Plan. Stock options granted in 2014 become exercisable in three equal annual installments beginning one-year after the grant date. One-third of the options vested on 2/24/2015, another one-third will vest on 2/24/2016, with the final one-third vesting on 2/24/2017. Once vested, stock options are exercisable for a period of 10 years from the grant date.

Outstanding Equity Awards

The following table sets forth certain information with respect to the outstanding equity awards held by the NEOs at the end of 2014.
