## Section 1 - Business and Operations

### Item 1.01. Entry into a Material Definitive Agreement.

On November 4, 2015, PTC Inc. entered into an Amended and Restated Credit Agreement with JPMorgan Chase Bank, N.A. as Administrative Agent (the Credit Agreement), for a new secured multi-currency bank credit facility with a syndicate of banks. The new credit facility replaced PTC's prior credit facility, as described in Item 1.02 below. As with the prior credit facility, PTC expects to use the new credit facility for general corporate purposes of PTC and its subsidiaries, including acquisitions of other businesses, and may also use it for working capital.

The credit facility consists of a \$1 billion revolving credit facility, which may be increased by up to an additional \$500 million in the aggregate if the existing or additional lenders are willing to make such increased commitments. PTC and certain of its foreign subsidiaries will be the borrowers under the credit facility. As of the closing of such new credit facility, only PTC (IFSC) Limited, an indirect wholly-owned subsidiary of PTC Inc., will be designated as foreign subsidiary borrower under credit facility. The obligations under the credit facility are guaranteed by PTC's material domestic subsidiaries and are secured, subject to exceptions, by a first priority perfected security interest in substantially all existing and after-acquired personal property owned by PTC and its material domestic subsidiaries, including without limitation, intellectual property and a pledge of (i) 100% of the voting equity interests of PTC's material domestic subsidiaries and (ii) 65% of the voting equity interests of PTC's material first-tier foreign subsidiaries.

Interest rates for the revolving credit facility are available at the option of PTC and would range from 1.75% to 1.25% above the Eurocurrency rate for Eurocurrency-based borrowings or would range from 0.75% to 0.25% above the defined base rate for base rate borrowings, in each case based upon PTC's total leverage ratio. Additionally, PTC may borrow certain foreign currencies at rates set in the same range above an adjusted LIBO rate, based on PTC's total leverage ratio. A quarterly commitment fee on the undrawn portion of the credit facility is required, ranging from 0.30% to 0.175% per annum, based upon PTC's total leverage ratio. At closing of the credit facility, the applicable interest rate and commitment fee were at 1.375% above the Eurocurrency rate for Eurocurrency-based borrowings, 0.375% above the defined base rate for base rate borrowings, and a quarterly commitment fee of 0.225% until PTC provides its financial results for the next fiscal quarter ending after the date of the credit facility.

The credit facility limits PTC's and its subsidiaries' ability to, among other things: incur additional indebtedness; incur liens or guarantee obligations; pay dividends and make other distributions; make investments and enter into joint ventures; dispose of assets; and engage in transactions with affiliates, except on an arms-length basis.

Under the credit facility, PTC and its domestic subsidiaries may not invest cash or property in, or loan to, PTC's foreign subsidiaries in aggregate amounts exceeding \$200 million for acquisitions of businesses and an additional \$75 million for any purpose. In addition, under the credit facility, PTC and its subsidiaries must maintain the following financial ratios:

A total leverage ratio, defined as consolidated total indebtedness to consolidated EBITDA, not exceeding, (i) prior to a Covenant Modification Trigger Event (defined below) (x) 3.50 to 1.00 as of the last day of any fiscal quarter ending on or prior to July 2, 2016 and (y) 3.25 to 1.00 as of the last day of any fiscal quarter ending on or after September 30, 2016 and (ii) on and after a Covenant Modification Trigger Event, 4.00 to 1.00 as of the last day of any fiscal quarter.

Edgar Filing: PTC INC. - Form 8-K

After a Covenant Modification Trigger Event, a Senior Secured Leverage Ratio, defined as of consolidated total indebtedness (excluding any unsecured indebtedness or subordinated indebtedness) to consolidated EBITDA, not exceeding 3.00 to 1.00 as of the last day of any fiscal quarter. A Covenant Modification Trigger Event is the incurrence by PTC of unsecured indebtedness in an amount of not less than \$200 million in the aggregate.

A fixed charge coverage ratio, defined as the ratio of (1) consolidated EBITDA less consolidated capital expenditures to (2) consolidated fixed charges, defined as interest expenses plus scheduled payments of principal, of no less than 3.50 to 1.00 as of the last day of any fiscal quarter.

Any failure to comply with the financial or operating covenants of the credit facility would not only prevent PTC from being able to borrow additional funds, but would constitute a default, permitting the lenders to, among other things, accelerate the amounts outstanding, including all accrued interest and unpaid fees, under the credit facility and to terminate the credit facility. A change in control of PTC also constitutes an event of default, permitting the lenders to accelerate the indebtedness and terminate the credit facility.

The credit facility matures on September 15, 2019, when all amounts outstanding will be due and payable in full. The revolving credit facility does not require amortization of principal. The revolving credit facility may be prepaid before maturity in whole or in part at PTC's option without penalty or premium. PTC may at any time reduce or terminate the commitments under the credit facility.

The foregoing description of the Credit Agreement is qualified in its entirety by reference to the full text of the Credit Agreement, a copy of which is filed as Exhibit 10 hereto.

**Item 1.02 Termination of a Material Definitive Agreement.**

On November 4, 2015, in connection with entering into the new credit facility described in Item 1.01, PTC terminated its credit agreement dated September 15, 2014 with JPMorgan Chase Bank, N.A., as Administrative Agent, and the lenders party thereto. The material terms of the terminated credit agreement are described in Item 1.01 of PTC's Form 8-K filed on September 16, 2014 and are incorporated herein by reference. Approximately \$719 million was outstanding under the prior credit agreement at the time of termination, which amount was repaid in connection with a borrowing of approximately \$718 million under the new Credit Agreement upon closing of the new facility.
