Key Financial and Performance Indicators for the First Quarter of 2016

In the first quarter of 2016, the Group's operation was on track as planned. Our mobile business has achieved initial success in overcoming operational challenges. During the period, the Group recorded a net addition of mobile billing subscribers of 6.61 million, successfully turning around the downward trend in mobile subscribers in the past consecutive months. On the other hand, mobile service revenue in the first quarter of 2016 grew by 9.3% quarter-on-quarter, despite declining by 1.2% year-on-year. During the first quarter of 2016, overall service revenue achieved growth as compared to both the same period and the fourth quarter of last year. Although the profit attributable to the equity shareholders of the Company decreased significantly as compared to the same period of last year, it showed significant improvement from the loss attributable to the equity shareholders of the Company (excluding the gain on disposal of tower assets) in the fourth quarter of last year. Going forward, the Group will deepen implementation of Focus Strategies, innovation and cooperation development to drive gradual turnaround with full strength.

Unaudited financial data of the Group for the first quarter of 2016:

Service revenue amounted to RMB60.841 billion, up by 1.0% year-on-year and 9.6% quarter-on-quarter.

Revenue amounted to RMB70.340 billion, down by 5.3% year-on-year but up by 8.0% quarter-on-quarter.

EBITDA amounted to RMB19.972 billion, down by 21.2% year-on-year but up by 50.7% quarter-on-quarter

The profit attributable to the equity shareholders of the Company amounted to RMB480 million, down by 84.8% year-on-year, but showed significant improvement from the loss attributable to the equity shareholders of the Company (excluding gain on disposal of tower assets) of approximately RMB4.554 billion in the fourth quarter of last year.

To enable shareholders, investors and the general public to better appraise the operational performance of the Group, the board of directors (the Board) of China Unicom (Hong Kong) Limited (the Company , together with its subsidiaries, the Group) announces certain selected unaudited key financial and performance indicators of the Group for the first quarter of 2016.

In the first quarter of 2016, the Group's operation was on track as planned and the mobile business achieved initial success in overcoming operational challenges. In 2015, facing the stiff challenges of the business environment including, among others, Speed Upgrade and Tariff Reduction, One-month Mobile Data Carry-over, the replacement of business tax with value-added tax and competitors making a strong push in promoting 4G service, the fast weakening of the Company's competitive advantages on 3G due to the strong promotion of 4G service by the competitors. Both the revenue and profit of the Company were under considerable pressure. Promptly refining strategy in the fourth quarter last year, the Company fully focused on 4G and fully leveraged the opportunity of tower sharing to accelerate 4G network deployment. It launched WO 4G+ and comprehensively enhanced customer experience by improving its network, products, terminals, channels and operation capabilities, undergoing a 4G-led mobile service transformation and development. In the first quarter of 2016, the mobile billing subscribers of the Group reached 258.93 million, with a net addition of 6.61 million, successfully turning around the downward trend in mobile subscribers in the past consecutive months. In the first quarter of 2016, mobile billing subscribers ARPU was approximately RMB 47, slightly higher than the full year average of last year. Of which, the number of 4G subscribers reached 59.30 million, representing a net addition of 15.15 million and 4G ARPU was approximately RMB 84. Mobile service revenue in the first quarter of 2016 grew by 9.3% quarter-on-quarter, despite declining by 1.2% year-on-year.

In the first quarter of 2016, the overall fixed-line business maintained solid development. Services like Internet access and data services continued their robust growth momentum, which effectively offset the impact of the decline in fixed-line voice services. The number of fixed-line broadband subscribers reached 73.41 million, representing a net addition of 1.08 million. Fixed-line service revenue increased by 4.1% year-on-year. In the first quarter of 2016, overall service revenue amounted to RMB 60.841 billion, showing growth from both the same period and the fourth quarter of last year.

In the first quarter of 2016, the Group stepped up its sales and marketing efforts, with selling and marketing expenses increased by 15.7% year-on-year to RMB 8.676 billion. Network, operation and support expenses increased by 36.6% year-on-year mainly due to the addition of tower usage fee, higher energy charges and property rentals, etc. Depreciation and amortisation decreased by 3.0% year-on-year as the savings in depreciation associated with the disposal of tower assets at the end of October last year effectively offset the increase in depreciation brought about by an expanded network scale. EBITDA for the period was RMB 19.972 billion, down by 21.2% year-on-year but up by 50.7% quarter-on-quarter. EBITDA as a percentage of service revenue was 32.8%. In the first quarter of 2016, the profit attributable to the equity shareholders of the Company amounted to RMB 480 million, down by 84.8% year-on-year, but showed significant improvement from the loss attributable to the equity shareholders of the Company (excluding the gain on disposal of tower assets) of approximately RMB4.554 billion in the fourth quarter of last year.

Going forward, the Company will deepen implementation of Focus Strategies , innovation and cooperation development to drive gradual turnaround with full strength. The Company will focus on 4G, accelerate network roll-out, re-shape its brand image, upgrade its product offerings, step up terminal-led effect, enhance channel capability, deepen effort in customer retention and data traffic operation, in order to achieve breakthrough in key market segments and an overall stabilisation and rebound of the mobile service. Driven by applications, the Company will strive to enhance the value of broadband service. Committed to leveraging high quality services such as TV and video to push fibre broadband adoption, and innovative family Internet services, the Company aims to maintain steady growth in fixed-line service. Another area of focus will be the platform-based service and industrial Internet with a view to cultivating new growth engines for innovative service. In addition, the Company will focus on the reform in both systems and structure and develop market-oriented management system, aiming to lift the corporate vibrancy and improve operational efficiency. The Company will actively leverage the complementary edges and in-depth cooperation among operators in the industry in areas such as resources and innovative service to strive to create greater value for shareholders.
