Item 7.01 Regulation FD Disclosure.

On March 15, 2018, the Federal Energy Regulatory Commission (FERC) issued a policy revision indicating that it no longer will allow master limited partnership interstate natural gas and oil pipelines to recover an income tax allowance in cost-of-service rates. Dominion Energy Midstream Partners, LP (Dominion Energy Midstream) expects that any future impacts to revenues of FERC-regulated interstate gas transmission assets held at Dominion Energy Midstream as a result of this policy revision will be applied prospectively and only after a multi-year rate proceeding process.

The reaction of master limited partnership equity capital markets to the FERC policy revision may have a material negative impact on the amount and price at which Dominion Energy Midstream can raise public equity. Dominion Energy, Inc., the ultimate parent company of Dominion Midstream, is currently engaged in a review of options for Dominion Energy Midstream and, in the interim, intends to recommend to the Dominion Energy Midstream Board of Directors that the limited partner distribution per unit be increased for the first quarter of 2018 by 5% over the distribution per unit for the fourth quarter of 2017. Dominion Energy Midstream is expected to utilize existing excess distributable cash flow coverage to support this increase.
