Nitches Inc, and Subsidiaries Notes to the Consolidated Financial Statements

2. Summary of Significant Accounting Policies

Freight Costs:

Freight costs billed to customers for the handling and delivery of products to their locations are included in net sales. Freight costs incurred from third party delivery services are included in cost of goods sold. Freight costs of \$268,000, \$367,000 and \$245,000 for the years ended August 31, 2005, 2004 and 2003, respectively, are included in cost of goods sold.

5. Accounts Receivable and Amounts Due to Factor

Pursuant to the terms of an agreement between Nitches and a factor, Nitches sells a majority of its trade accounts receivable to the factor on a pre-approved, non-recourse basis. The price at which the accounts are sold is the invoice amount reduced by the factor commission (.3% of the invoice amount) and all selling discounts. For accounts sold to the factor without recourse, the factor is responsible for collection, assumes all credit risk, and obtains all of the rights and remedies against the company s customers. For such accounts, payment is due from the factor upon the earlier of the payment of the receivable to the factor by the customer, or the maturity of the receivable (generally 180 days from the date of shipment to the customer). As of August 31, 2005, non-recourse receivables totaled \$3.8 million.

Trade accounts receivable not sold to the factor remain in the custody and control of the Company and the Company maintains all credit risk on those accounts as well as accounts which are sold to the factor with recourse. The combined credit risk for non-factored and recourse receivables as of August 31, 2005, totaled \$667,000.

The Company may request payment from the factor in advance of the collection date or maturity. Any such advance payments are assessed an interest charge through the collection date or maturity at the factor s prime rate less 1.5% (one and one half percent) per annum. The company s obligations with respect to advances from the factor are limited to the interest charges thereon. Advance payments are limited to a maximum of 85% (eighty-five percent) of eligible accounts receivable. The factoring agreement also provides for the issuance of irrevocable letters of credit for the Company s purchase of inventory in the normal course of its business. Letters of credit are subject to a \$6 million limit. All assets of the company collateralize the advances and letters of credit. The Company s Chairman has also provided a personal guaranty in connection with the factoring arrangement. The factoring agreement can be terminated by CIT on 30-days written notice.

The status of the Company s trade accounts receivable, amounts due to factor and letters of credit are as follows:

14. Restatement

After filing its annual report on form 10-K for 2005, the Company reviewed its presentation of factored trade receivables and factor advances on the balance sheet and determined that, in accordance with generally accepted accounting principles, factor advances should be presented as a separate liability on the balance sheet and not on a net basis with factored accounts receivable. This amended report includes the restatement of the balance sheets and statements of cash flows to reflect this presentation. The changes are summarized in the tables below.
