Item 8.01. Other Events.

On September 22, 2010, the Company filed an 8-K and issued a press release announcing that on September 15, 2010, the Company engaged Ernst & Young (China) Advisory Ltd. (“Ernst & Young”) to assist the Company to comply with the requirements of Section 404 of the Sarbanes-Oxley Act of 2002.

More specifically, the Company engaged Ernst & Young to help the Company understand its overall controls environment, as well as key financial accounting procedures, to identify any differences between the Company’s internal controls and those required by SEC rules and regulations, and to define areas that needed improvement and the method for implementation of such improvement.

Ernst & Young proceeded in two phases, which took several months. Its work, performed for the Company and its four subsidiaries, included, among other things, the collection and review of data, policies, regulations and procedural documentation, a variety of testing and re-testing, the development of internal control templates for management, the identification of areas of improvement and the issuance of recommendations.

Ernst & Young has completed both phases of its work and has concluded its engagement.

Based on the results of the E&Y engagement, the Company has developed an improvement plan for implementation in 2011. The Company believes that the improvement plan substantially improves the quality of its internal controls and is in line with legal and regulatory requirements. The independent auditor for the Company will perform interim internal control tests in the second quarter of 2011.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
