- .. Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

### **Item 8.01 Other Events**

On March 4, 2014, Amarin Pharmaceuticals Ireland Limited, a wholly owned subsidiary of Amarin Corporation plc (Amarin), filed a complaint in the United States District Court for the District of Delaware against Omthera Pharmaceuticals, Inc., a Delaware corporation, and its parent company, AstraZeneca Pharmaceuticals LP. The suit seeks injunctive relief and monetary damages for infringement of Amarin's U.S. Patent No. 8,663,662 (the Patent), which was issued by the United States Patent and Trademark Office today. The complaint alleges infringement of the Patent arising from the expected launch of Epanova™ in the United States. The Patent covers methods of lowering triglycerides by administering a pharmaceutical composition that includes amounts of EPA as free acid, and no more than about 30% DHA. Amarin intends to pursue this litigation vigorously and aggressively protect its intellectual property rights.

Patent litigation is a time-consuming and costly process. There can be no guarantee that Amarin will be successful in enforcing the Patent or that the Patent will not be successfully challenged and invalidated. Even if Amarin is successful in enforcing the Patent, the process could take years to reach conclusion.

### **Forward-looking statements**

This Current Report on Form 8-K contains forward-looking statements, including statements about Amarin's plan to pursue the litigation vigorously and aggressively protect its intellectual property rights, whether Amarin will be successful in enforcing the Patent, the patent litigation process generally and whether Amarin will obtain the remedies sought. These forward-looking statements are not promises or guarantees and involve substantial risks and uncertainties. Among the factors that could cause actual results to differ materially from those described or projected herein include the following: events that could interfere with the continued validity or enforceability of the Patent; Amarin's ability generally to successfully enforce patent claims against third parties; Amarin's decisions to devote sufficient resources to the above-described enforcement action; and uncertainties associated generally with litigation. A further list and description of these risks, uncertainties and other risks associated with an investment in Amarin can be found in Amarin's filings with the U.S. Securities and Exchange Commission, including its most recent Annual Report on Form 10-K. Existing and prospective investors are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof.
