Merge Healthcare Incorporated and Subsidiaries
Notes to Condensed Consolidated Financial Statements (continued)
(Unaudited and in thousands, except for share and per share data)

(1) Basis of Presentation and Significant Accounting Policies

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (SEC) for reporting on Form 10-Q. Accordingly, certain information and notes required by United States of America generally accepted accounting principles (GAAP) for annual financial statements are not included herein. These interim statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Annual Report on Form 10-K for the year ended December 31, 2011 of Merge Healthcare Incorporated, a Delaware corporation, and its subsidiaries and affiliates (which we sometimes refer to collectively as the Company, Merge, we, us or our).

Principles of Consolidation

Our unaudited condensed consolidated financial statements reflect all adjustments, which are, in the opinion of management, necessary for a fair presentation of our financial position and results of operations. Such adjustments are of a normal recurring nature, unless otherwise noted. The results of operations in the three and six month periods ended June 30, 2012 and 2011 are not necessarily indicative of the results to be expected for any future period.

Our unaudited condensed consolidated financial statements are prepared in accordance with GAAP. These accounting principles require us to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. We believe that the estimates, judgments and assumptions are reasonable based on information available at the time they are made. Actual results could differ materially from those estimates.

(2) Other Current Assets and Other Current Liabilities

Other current assets consist primarily of revenue recognized that has not yet been billed to a customer, unbilled A/R from acquisitions, an equity investment and other non-trade receivables, all of which are due within the next twelve months. The balances are comprised of the following as of June 30, 2012 and December 31, 2011:

	Balance at June 30, 2012	Balance at December 31, 2011
Revenue recognized in excess of billings	\$ 23,939	\$ 18,064
Acquired unbilled A/R	901	1,769
Equity investment	2,588	-
Other non-trade receivables	584	366
	\$ 28,012	\$ 20,199

Other current liabilities consist primarily of leases payable, accrued taxes and taxes payable, customer deposits, the current portion of certain acquisition obligations and other non-trade payables, all of which are due within the next twelve months. The balances are comprised of the following as of June 30, 2012 and December 31, 2011:

(3) Goodwill and Other Intangible Assets

Goodwill

The changes in carrying amount of goodwill in the six months ended June 30, 2012, are as follows:

	Total
Balance at December 31, 2011	\$ 209,829
Increase due to insignificant acquisition	4,452
Change due to foreign currency	(36)
Balance at June 30, 2012	\$ 214,245

Other Intangible Assets

Our intangible assets subject to amortization are summarized as of June 30, 2012 as follows:

	Weighted Average Remaining Amortization Period (Years)	Gross Carrying Amount	Accumulated Amortization
Purchased software	5.0	\$ 32,136	\$ (10,284)
Capitalized software	2.3	1,825	(1,433)
Customer relationships	6.8	46,259	(11,257)

Trade names	7.1	2,083	(462)
Non-competes	4.8	3,190	(981)
Total		\$ 95,173	\$ (31,649)

As a result of an insignificant acquisition in the six months ended June 30, 2012, we increased the gross carrying amounts of purchased software, customer relationships and trade names by \$780, \$1,220 and \$80, respectively, based on our purchase accounting for the acquisition.

Estimated aggregate amortization expense for our intangible assets, which become fully amortized in 2022, is as follows:

For the remaining 6 months of the year ended:	2012 \$7,685
For the year ended December 31:	2013 14,101
	2014 12,447
	2015 10,174
	2016 8,036
	2017 5,682
	Thereafter 5,399
	Total \$63,524

Amortization expense in the three and six months ended June 30, 2012 and 2011 is set forth in the following table:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011

Total amortization and impairment	\$ 3,842	\$ 6,688	\$ 7,587	\$ 10,729

Upon completion of a product rebranding initiative in the second quarter of 2011, we recorded a \$2,805 charge due to the impairment of our trade names associated with certain products.

(4) Fair Value Measurements

Our financial instruments include cash and cash equivalents, accounts receivable, marketable and non-marketable securities, accounts payable, notes payable, and certain accrued liabilities. The carrying amounts of our cash and cash equivalents (which are comprised primarily of deposit and overnight sweep accounts), accounts receivable, accounts payable, and certain accrued liabilities approximate fair value due to the short maturity of these instruments. The carrying amounts of our marketable equity securities are based on the quoted price of the security in an active market. The estimated fair values of the non-marketable equity securities have been determined from information obtained from independent valuations and management estimates. The fair value of our notes payable was approximately 106.8% of par value as of June 30, 2012 and 106.125% of par value as of December 31, 2011, based on quoted prices of the securities in an active market.

Current Investment

In the second quarter of 2012, we received an equity security investment from a customer as settlement for purchase commitments and outstanding receivables associated with a contract. This equity investment is classified as a Level 2 trading security within other current assets in our condensed consolidated balance sheet. We estimate the fair value of this investment on a recurring basis based on the quoted market price of the security less a discount due to a trading restriction. Upon receipt, we estimated the fair value of this investment at \$1,530. At June 30, 2012, we estimated the fair value of this investment at \$2,588, and recorded an unrealized gain of \$1,058 within the other, net line in our statements of operations for the three and six months ended June 30, 2012.

Non-Current Investments

At June 30, 2012, we held certain securities in a publicly traded entity and private companies, which are classified within other assets in our condensed consolidated balance sheet. The investment in the publicly traded equity security, over which we do not exert significant influence, is classified as available-for-sale and reported at fair value on a recurring basis using Level 1 inputs. Unrealized gains and losses are reported within the accumulated other comprehensive income component of shareholders' equity. The investments in equity securities of private companies, over which we do not exert significant influence, are classified as Level 3 investments and are reported at cost or fair value, if an other-than-temporary loss has been determined. Any loss due to impairment in value is recorded when such loss occurs. We performed the evaluation of our Level 3 investments as of June 30, 2012, and concluded that there was no significant change in their fair value.

(6) Debt

In April 2010, we issued \$200,000 of Senior Secured Notes (Notes) at 97.266% of the principal amount, which bear interest at 11.75% of principal (payable on May 1st and November 1st of each year) and which will mature on May 1, 2015. In June 2011, we issued an additional \$52,000 in Notes at 103.0% of the principal amount with terms identical to the existing Notes. In connection with the Notes, we incurred issuance costs of \$9,015 and \$1,528, respectively (which are recorded in other assets on the condensed consolidated balance sheet). These issuance costs are recorded as a long-term asset and amortized over the life of the Notes using the effective interest method.

In the three months ended June 30, 2012 and 2011, we recorded \$8,072 and \$6,650, respectively, of interest expense related to the Notes, including \$504 and \$376, respectively, of amortization of debt issuance costs and \$166 and \$213,

respectively, of amortization of net debt discount. In the six months ended June 30, 2012 and 2011, we recorded \$16,123 and \$13,093, respectively, of interest expense related to the Notes, including \$992 and \$729, respectively, of amortization of debt issuance costs and \$327 and \$427, respectively, of amortization of net debt discount.

(7)Shareholders' Equity

In the six months ended June 30, 2012, we issued 1,014,697 shares of our common stock (including 116,706 shares subscribed at June 30, 2012) valued at \$4,083 as partial consideration for an insignificant acquisition. The value of the shares issued, which was utilized in our allocation of the purchase price, was based on the closing price of our common stock as of the acquisition date, discounted based upon a one-year trading restriction and certain other provisions in the purchase agreement.

In the three and six months ended June 30, 2011, we recorded cumulative dividends of \$1,587 and \$3,153 related to our Series A Preferred Stock. These dividends are reflected as a reduction of net income available to common shareholders of Merge in our condensed statements of operations. In June 2011, we redeemed and retired the Series A Preferred Stock, including the payment of associated dividends with the proceeds of the \$52,000 in Notes previously discussed.

(8) Share-Based Compensation

The following table summarizes share-based compensation expense recognized during the periods indicated:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Share-based compensation expense included in the statements of operations:

Total	\$1,618	\$1,058	\$2,817	\$2,120

Stock option activity in the six months ended June 30, 2012 is set forth in the following table:

	Number of Options
Options outstanding, December 31, 2011	9,191,034
Options granted	4,090,000
Options exercised	(177,769)
Options forfeited and expired	(400,078)
Options outstanding, June 30, 2012	12,703,187
Options exercisable, June 30, 2012	5,076,141

As of June 30, 2012, there was approximately \$19,345 of unrecognized compensation cost related to stock options that may be recognized in future periods.

(9) Commitments and Contingencies

Litigation

On June 1, 2009, Merge Healthcare was sued in the Milwaukee County Circuit Court, State of Wisconsin, by William C. Mortimore and David M. Noshay with respect to the separation of Mortimore's and Noshay's employment and our subsequent refusal to indemnify them with respect to litigation related to their services as officers of Merge. The plaintiffs allege that we breached their employment agreements, unreasonably refused their requests for

indemnification and breached other covenants of good faith and fair dealing. The plaintiffs seek indemnification and unspecified monetary damages. Discovery in this case is on-going. On April 6, 2011, the Milwaukee County Circuit Court rendered a decision in which it concluded that Merge and Mortimore had entered into an oral employment contract on or about June 15, 2006, but the Court did not make any decision as to damages, which damages would be addressed in a later phase of the litigation. On May 9, 2011, Merge appealed the Circuit Court's decision. The appeal is ongoing and the Circuit Court litigation has been stayed pending appeal. We have retained litigation counsel, intend to continue to defend this action vigorously and have filed a counterclaim for fraud, among other claims, against both Mortimore and Noshay. We will also continue to pursue the appeal. We believe it is reasonably possible that we may incur a loss with respect to this matter, however at this stage of the proceedings, it is not possible for management to reasonably estimate the amount of any potential loss.

In January 2010, a purported stockholder class action complaint was filed in the Superior Court of Suffolk County, Massachusetts in connection with AMICAS Inc.'s (AMICAS) proposed acquisition by Thoma Bravo, LLC. A second similar action was filed in the same Court in February 2010 and consolidated with the first action. In March 2010, because AMICAS had terminated the Thoma Bravo Merger and agreed to be acquired by us, the Court dismissed the plaintiffs' claims as moot. Subsequently, counsel for the plaintiffs filed an application for approximately \$5,000 of attorneys' fees for its work on this case, which fee petition AMICAS opposed. We retained litigation counsel to defend against the fee petition. On December 4, 2010, the court awarded plaintiffs approximately \$3,200 in attorneys' fees and costs. AMICAS has appealed this judgment. We previously tendered the defense in this matter to our appropriate insurers, which provided coverage against the claims asserted against AMICAS. After receipt of the court's attorneys' fee award decision, the insurer denied policy coverage for approximately \$2,500 of the fee award. We do not believe that the insurer's denial has merit and have retained counsel to contest it. On June 6, 2011, the insurer filed an action against AMICAS and Merge in U.S. District Court for the Northern District of Illinois seeking a declaration that it is not responsible for the \$2,500 portion of the judgment rendered on December 4, 2010 by the Superior Court of Suffolk County, Massachusetts. Merge filed a counterclaim seeking a declaration that the insurer must pay the full amount of the Superior Court's fee award, plus additional damages. On April 30, 2012, the Northern District of Illinois federal court ruled in favor of our Motion for Summary Judgment. The court ordered the insurer to pay the Massachusetts court judgment plus interest. The insurer has appealed that court's ruling. We continue to vigorously assert all of our rights under our applicable insurance policies, which we believe cover the claims and expenses incurred by AMICAS or us in connection with the fee award. We believe that the likelihood of a loss in excess of the amount of our recorded liability is remote.

On February 1, 2010, Merge filed a complaint against its former CEO, Richard Linden, and its former CFO, Scott Veech, in the U.S. District Court for the Eastern District of Wisconsin, seeking a declaration that we do not have to indemnify either Mr. Linden or Mr. Veech for liabilities they incurred in connection with an SEC investigation and enforcement actions and various securities fraud and shareholder derivative litigation. Merge also sought to recover from both defendants all costs incurred by Merge associated with defending Mr. Linden and Mr. Veech in those prior actions. On October 15, 2010, the Court concluded that it did not have subject matter jurisdiction over Merge's claims and dismissed the claims in their entirety. The Court rendered no opinion on the merits of Merge's claims. Merge is evaluating its further options with respect to the Scott Veech matter in Wisconsin state court. On February 8, 2011, Merge filed a complaint in the U.S. District Court for the Eastern District of Wisconsin captioned Merge Healthcare Incorporated v. Richard Linden, Case no. 11-CV-001541. On May 4, 2011, Merge and Mr. Linden entered into a confidential settlement agreement resolving all claims against Mr. Linden and through which Linden agreed to issue a statement of regret and apology to Merge's Board of Directors and reimburse Merge for a portion of the Company's legal fees to defend Mr. Linden in prior legal actions. Merge believes that it has numerous meritorious claims against Mr. Veech and will continue to pursue these claims, which have not been affected by the settlement with Mr. Linden. We believe that the likelihood of a loss with respect to this matter is remote.

In August, 2010, Merge Healthcare was sued in the Northern District of Texas by the Court-appointed receiver for Stanford International Bank, Ltd. The receiver alleges that Merge was a recipient of a fraudulent conveyance as a result of a Ponzi scheme orchestrated by Robert Stanford and Stanford International Bank, Ltd. (SIBL). Merge is not

alleged to have participated in the Ponzi scheme. The receiver's claims arise from the failed acquisition of Emageon, Inc. (Emageon) by Health Systems Solutions, Inc. (HSS), an affiliate of SIBL, in February 2009, which resulted in the payment of a \$9,000 break-up fee by HSS, which payment is alleged to have been financed by SIBL. Merge subsequently acquired Emageon as part of our AMICAS acquisition. The complaint seeks to recover the \$9,000 payment to Emageon, plus interest, costs, and attorneys' fees. We have retained litigation counsel and intend to vigorously defend this action. We have filed a motion to dismiss the complaint. That motion has been fully briefed, and we are awaiting a decision from the Court. We believe it is reasonably possible that we may incur a loss with respect to this matter. The potential loss may lie in a range from zero to the full amount claimed, plus interest.

In addition to the matters discussed above, we are involved in various legal matters that are in the process of litigation or settled in the ordinary course of business. Although the final results of all such matters and claims cannot be predicted with certainty, we believe that the ultimate resolution of all such matters and claims will not have a material adverse effect on the Company's financial condition. However, such matters could have a material adverse effect on our operating results and cash flows for a particular period.

Guarantees

We assumed a guarantee to a lender on behalf of a customer in connection with an acquisition. At June 30, 2012, the balance outstanding on the loan was approximately \$336. Revenue is recorded as the guarantee is reduced.

(10) Transactions with Related Party

Merrick RIS, LLC (Merrick) and its affiliates, including Merrick Ventures, LLC (Merrick Ventures), beneficially own, as of June 30, 2012, approximately 35% of our outstanding common stock. Michael W. Ferro, Jr., our Chairman of the Board, and trusts for the benefit of Mr. Ferro's family members beneficially own a majority of the equity interest in Merrick. Mr. Ferro also serves as the chairman and chief executive officer of Merrick and the chairman and chief executive officer of Merrick Ventures. Accordingly, Mr. Ferro indirectly owns or controls all of the shares of our common stock owned by Merrick and Merrick Ventures. Due to its stock ownership, Merrick has significant influence over our business, including the election of our directors.

Effective January 1, 2009, we entered into a consulting agreement with Merrick. Services provided by Merrick under the consulting agreement include financial analysis and strategic planning. Effective January 1, 2010, we entered into an amendment to extend the term of the consulting agreement with Merrick through December 31, 2011, and modified the payment terms from a flat fee arrangement per quarter to a per transaction or success based arrangement. On February 24, 2012, we entered into a second amendment, effective January 3, 2012, to extend the term of the consulting agreement with Merrick through December 31, 2013, and modified the fee structure to include a quarterly fee of \$150. This is in addition to the per transaction or success based arrangement that exists. Further, the second amendment includes a modification of the success payment in the event of a sale, by including a payment of 2% of the total consideration received if the total consideration is greater than \$1 billion (the agreement still allows for a 1% success fee if under \$1 billion). We paid \$427 and \$250 to Merrick for such services and recognized \$167 and \$450 in expenses in the three months ended June 30, 2012 and 2011, respectively. We paid \$709 and \$554 to Merrick for such services and recognized \$594 and \$544 in expenses in the six months ended June 30, 2012 and 2011, respectively. As of June 30, 2012 and 2011, we have \$17 and \$294, respectively, recorded in accounts payable covering all obligations under this agreement.

Merrick Ventures owns over 75% of the outstanding equity interest of an entity called highi llc (highi). Mr. Ferro is highi's chairperson and founder. In December 2011, we entered into a master services agreement with highi, pursuant to which we agreed to provide highi with certain professional services, including software engineering design, application and web portal development for a fixed payment of \$675. In the three and six months ended June 30, 2012, we recognized zero and \$155, respectively, in revenue under this agreement. In addition, the master services agreement granted highi certain branding rights related to our health station business and requires highi to pay a fixed annual fee of one hundred dollars per station to us for each station that is branded with highi's trademarks and that includes highi's software, images and/or other intellectual property. The agreement has an initial term of one year, with continuing renewal rights, and is subject to termination on 120 days notice from us. On March 28, 2012, we entered into an agreement to sell health stations and related equipment to highi. Under terms of the agreement we received a fixed payment of \$2,750 in the three months ended March 31, 2012. We recognized revenue of \$2,392 and \$2,750, respectively, in the three and six months ended June 30, 2012 under this agreement.

On February 24, 2012, we entered into an assignment agreement with Merrick Ventures under which Merge assumed a lease from Merrick of approximately 4,700 square feet located at 200 E. Randolph Street, 22nd floor, Chicago, IL at an annual rental rate of \$78, terminating on December 13, 2013. Under the assignment, Merge also paid approximately \$70 (which represents the book value) for all fixtures, leasehold improvements and furniture located in the space.

(11)Income Taxes

We are subject to tax in multiple jurisdictions and record income tax expense on an interim basis using an estimated annual effective tax rate. The estimated annual effective tax rate is modified to exclude the effect of losses for those jurisdictions where the tax benefit cannot be recognized and a separate estimated annual tax rate is required. Items discrete to a specific quarter are reflected in tax expense for that interim period. A valuation allowance is established when necessary to reduce deferred tax assets to the amount more-likely-than-not to be realized. Further limitations may apply to deferred tax assets if ownership changes occur. There was no material change in unrecognized tax benefits in the six months ended June 30, 2012. We do not expect a significant change in unrecognized tax benefits within the next twelve months.

(12)Earnings Per Share Available to Common Shareholders

Basic and diluted net earnings or loss per share are computed by dividing earnings or loss available to common shareholders by the weighted average number of shares of common stock outstanding. For the three and six months ended June 30, 2011, earnings or loss available to common shareholders is computed as net income or loss less the 15% cumulative annual compounding dividend earned by preferred shareholders in 2011. The computation of earnings or loss available to common shareholders is presented in our condensed consolidated statements of operations. Diluted earnings per share includes the dilution that could occur based on outstanding restricted stock awards and the potential exercise of stock options, except for stock options with an exercise price of more than the average market price of our common stock, as such exercise would be anti-dilutive.

In the three months ended June 30, 2012 and 2011, options to purchase 5,544,437 and 541,161 shares of our common stock, respectively, had exercise prices greater than the average market price of our common stock, and, therefore, are not considered in the above calculations of diluted net loss per share. In the six months ended June 30, 2012 and 2011, options to purchase 4,822,550 and 1,065,393 shares of our common stock, respectively, had exercise prices greater than the average market price of our common stock, and, therefore, are not considered in the calculations of diluted net loss per share.

As a result of the losses in the three months ended June 30, 2012 and 2011, incremental shares from the assumed exercise of employee stock options totaling 7,158,750 and 8,709,232 shares, respectively, have been excluded from the calculation of diluted loss per share as their inclusion would have been anti-dilutive. As a result of the losses in the six months ended June 30, 2012 and 2011, incremental shares from the assumed conversion of employee stock options and restricted stock awards totaling 7,880,637 and 8,185,000 shares, respectively, have been excluded from the calculation of diluted loss per share as their inclusion would have been anti-dilutive.

(13) Segment Information

In the second quarter of 2012, we realigned our business into two operating groups to provide better focus on our two primary end users, providers and consumers. Our Merge Healthcare operating group markets, sells and implements interoperability, imaging and clinical solutions to healthcare providers. Our Merge DNA (Data & Analytics) operating group focuses on the emergence of consumerism in healthcare, including consumer health stations, clinical trials software and other consumer-focused solutions. As a result of this change, effective in the second quarter of 2012, we have two reportable and operating segments.

We evaluate the performance of these segments based on their respective revenues and segment operating income, which excludes public company costs, certain corporate costs, amortization expense that is not specific to a segment, net interest expense and income taxes.

The following tables present segment financial information for the periods indicated:

(14) Guarantor Subsidiaries

The obligations under the Notes are fully and unconditionally guaranteed (except for certain release provisions which are considered customary), jointly and severally, by all of our current and future 100% owned domestic restricted subsidiaries (Guarantors). The release provisions provide that the subsidiary guarantors will be released from obligations under its guarantees and the indenture in the following circumstances:

- (1) in connection with any sale or other disposition of all or substantially all of the assets of that guarantor (including by way of merger or consolidation) to a person that is not (either before or after giving effect to such transaction) the Company or a restricted subsidiary of the Company;
- (2) in connection with any sale or other disposition of the capital stock of that guarantor (including by way of merger or consolidation) to a person that is not (either before or after giving effect to such transaction) the Company or a restricted subsidiary of the Company, such that, immediately after giving effect to such transaction, such guarantor would no longer constitute a subsidiary of the Company;
- (3) if the Company designates any restricted subsidiary that is a guarantor to be an unrestricted subsidiary in accordance with the indenture; or
- (4) upon legal defeasance or satisfaction and discharge of the indenture.

No other subsidiaries guarantee the Notes. The Notes and guarantees are secured by a first-priority lien on certain collateral which comprises substantially all of the Parent and Guarantors' tangible and intangible assets, subject to certain exceptions. The following tables present the balance sheets, statements of operations and statements of cash flows of the Parent, Guarantor and Non-Guarantor entities along with the eliminations necessary to arrive at the information on a consolidated basis.

General corporate expenses, including public company costs, certain amortization, corporate administration costs, acquisition-related expenses and net interest expense are included in the results of the Parent.

(15)Recent Accounting Pronouncements

We describe below recent pronouncements that have had or may have a significant effect on our financial statements or have an effect on our disclosures. We do not discuss recent pronouncements that are not anticipated to have an impact on or are unrelated to our financial condition, results of operations, or related disclosures.

In June 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income. ASU No. 2011-05 amends the FASB Accounting Standards Codification (Codification) to allow an entity the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In either case, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. ASU No. 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. The amendments to the Codification in the ASU do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. We adopted this amendment as of January 1, 2012, and it did not impact the presentation of comprehensive income in our consolidated condensed financial statements.

Cautionary Note Regarding Forward-Looking Statements

The discussion below contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act, and Section 21E of the Exchange Act. We have used words such as "believes," "intends," "anticipates," "expects" and similar expressions to identify forward-looking statements. These statements are based on information currently available to us and are subject to a number of risks and uncertainties that may cause our actual results of operations, financial condition, cash flows, performance, business prospects and opportunities and the timing of certain events to differ materially from those expressed in, or implied by, these statements. These risks, uncertainties and other factors include, without limitation, those matters discussed in Item 1A of Part I of our Annual Report on Form 10-K for the year ended December 31, 2011. Except as expressly required by the federal securities laws, we undertake no obligation to update such factors or to publicly announce the results of any of the forward-looking statements contained herein to reflect future events, developments, or changed circumstances, or for any other reason. The following discussion should be read in conjunction with our consolidated financial statements and notes thereto appearing in our Annual Report on Form 10-K and Item 1A, "Risk Factors" for the year ended December 31, 2011.

Management's Discussion and Analysis is presented in the following order:

•	Overview
•	Business Segments
•	Results of Operations
•	Liquidity and Capital Resources
•	Material Off Balance Sheet Arrangements
•	Critical Accounting Policies

Overview

We develop software solutions that facilitate the sharing of images to create a more effective and efficient electronic healthcare experience for patients and physicians. Our solutions are designed to help solve some of the most difficult challenges in health information exchange today, such as the incorporation of medical images and diagnostic information into broader healthcare IT applications, the interoperability of proprietary software solutions, the profitability of outpatient imaging practices and the ability to improve the efficiency and cost effectiveness of our customers' businesses. Our ability to innovate has driven consistent expansion of solutions and services and entry into new markets.

Our solutions optimize processes for healthcare providers ranging in size from single-doctor practices to health systems, to the sponsors of clinical trials and medical device manufacturers. These solutions are licensed by more than 1,500 hospitals, 6,000 clinics and labs, 250 medical device manufacturers and by top pharmaceutical companies world-wide. We believe that we have an opportunity to grow revenues by expanding our solution footprint with existing customers, as only a small percent currently have more than one of our enterprise solutions.

In the second quarter of 2012, we announced the creation of two operating groups to provide better focus on our two primary end users, providers and consumers. The operating group named Merge Healthcare represents approximately 85% of our total revenue and markets, sells and implements interoperability, imaging and clinical solutions to healthcare providers. Merge DNA (Data & Analytics) represents about 15% of total revenues and focuses on the emergence of consumerism in healthcare, including consumer health stations, data capture software and other consumer-focused solutions. As a result of this change, effective in the second quarter of 2012, we have two

reportable segments.

We primarily generate revenue from the sale of software (including upgrades), hardware, professional services, maintenance and Electronic Data Interchange (EDI) services. Today, the majority of our revenue is generated through perpetual license agreements with our customers. Under this type of arrangement, the software, hardware and professional services are considered to be sources of non-recurring revenue and related backlog. Our backlog of non-recurring revenue was approximately \$28.3 million as of June 30, 2012. We also generate revenue through subscription-based pricing arrangements in which software, hardware and professional services are payable by our customers over a number of years. Generally, these contracts will include a minimum volume and/or dollar commitment. As such, revenue from these transactions is recognized ratably over an extended period of time. Subscription arrangements include, but are not limited to, contracts structured with monthly payments (including leases), long-term clinical trials or renewable annual software contracts (with very high renew rate). As a result of recent buying trends of our customers, we have begun to see an increase in the demand for subscription-based arrangements. Due to the length of sales cycles with our customers, we would expect these types of arrangements to become more prevalent in the second half of 2012 and beyond. In the second quarter of 2012, subscription revenue was approximately 15.0% of total net sales and subscription revenue backlog as of June 30, 2012 was \$34.1 million.

Business Segments

Effective in the second quarter of 2012, we have reportable segments which we have designated Merge Healthcare and Merge DNA. We evaluate the performance of these segments based on their respective revenues and segment operating income, which excludes certain corporate costs, interest expense, amortization of issuance and note discount costs and income taxes.

The following tables provide segment information for the periods indicated, based on GAAP reported information:

Net Sales

Software and Other Sales. Total software and other sales in 2012 were \$25.2 million, an increase of \$7.6 million, or 43.2%, from \$17.6 million in 2011. Software and other sales increased \$2.8 million in our Healthcare segment, primarily due to an increase in hardware sales related to our iConnect solutions, and \$4.8 million in our DNA segment, primarily due to \$3.6 million in sales of health stations. Software and hardware orders are typically fulfilled, and revenue recognized, in either the quarter signed or the following two quarters. Revenue recognized from software and other sales may vary significantly on a quarterly basis.

Professional Services Sales. Total professional services sales in 2012 were \$9.8 million, a decrease of \$0.7 million, or 6.3%, from \$10.5 million in 2011. Sales decreased \$1.8 million in our DNA segment, primarily due to our clinical trials sales having a larger software license component than 2011. This decrease was offset by a \$1.1 million increase in Healthcare segment sales due to a greater number of projects with revenue recognized in 2012 compared to 2011. Revenue recognized from professional services sales generally lags software and other sales by one or two quarters due to the timing of when such services are performed compared to when the products are delivered.

Maintenance and EDI Sales. Total maintenance and EDI sales in 2012 were \$27.7 million, an increase of \$0.3 million, or 1.2%, from \$27.4 million in 2011 primarily due to maintenance revenue related to new customer contracts in our Healthcare segment which exceeded the rate of attrition from our existing maintenance customer base.

Gross Margin

Gross Margin – Software and Other Sales. Gross margin on software and other sales was \$13.8 million in 2012, an increase of \$0.8 million, or 6.5%, from \$13.0 million in 2011. Gross margin as a percentage of software and other sales decreased to 54.6% in 2012 from 73.5% in 2011, due to an increase in hardware sales, which are at lower margins than software only sales. Hardware sales were 45% of software and other sales in 2012 compared to 19% in 2011. We expect gross margin on software and other sales to fluctuate depending on the mix of sales among our products.

Gross Margin – Professional Service Sales. Gross margin on professional service sales was \$3.8 million in 2012, a decrease of \$1.7 million, or 30.1%, from \$5.5 million in 2011. Gross margin as a percentage of professional service sales decreased to 39.0% in 2012 from 52.3% in 2011, primarily due to the billable utilization of our professional services resources. As the majority of professional services costs are fixed, we expect gross margins to fluctuate depending on billable utilization of these resources.

Gross Margin – Maintenance and EDI Sales. Gross margin on maintenance and EDI sales was \$19.9 million in 2012, a decrease of \$0.9 million, or 4.3%, from \$20.8 million in 2011. Gross margin as a percentage of maintenance and EDI sales decreased to 71.5% in 2012 compared to 75.6% in 2011. The margin in 2011 was higher than usual and we would expect future gross margin to be fairly consistent with 2012.

Depreciation and Amortization. Depreciation and amortization expense decreased \$0.4 million, or 19.0%, to \$1.9 million in 2012 from \$2.3 million in 2011, primarily due to a decrease in amortization related to certain intangible assets which became fully amortized in the second quarter of 2011.

Sales and Marketing

Sales and marketing expense increased \$2.9 million, or 36.8%, to \$10.7 million in 2012 from \$7.8 million in 2011. As a percentage of net sales, sales and marketing expense increased by 3.0% to 17.1% due to efforts throughout 2011 to increase sales headcount, which resulted in greater personnel-related costs than the prior year, as well as continued investment to enhance the Merge brand in 2012.

Product Research and Development

Product research and development expense increased \$1.4 million, or 20.4%, to \$8.4 million in 2012 from \$7.0 million in 2011, primarily due to an increase in headcount and related expenses. As a percentage of net sales, product research and development increased by 0.8% to 13.4%. We expect that our quarterly product research and development expense as a percentage of sales will remain relatively constant in 2012.

General and Administrative

General and administrative expense decreased \$0.9 million, or 10.3%, to \$7.4 million in 2012 from \$8.3 million in 2011. As a percentage of net sales, general and administrative expenses decreased by 3.1% to 11.8% primarily due to \$0.7 million in bonus expense recorded in 2011 compared to no such expense in 2012. We expect to leverage the current level of general and administrative expenses during 2012.

Acquisition-related Expenses

The increase in acquisition-related expenses in 2012 is due to a \$2.5 million change in contingent consideration related to an insignificant acquisition.

Depreciation, Amortization and Impairment

Depreciation and amortization expense decreased \$2.5 million, or 47.8%, to \$2.7 million in 2012 from \$5.2 million in 2011, primarily due to a \$2.8 million charge for the impairment of trade names associated with certain products upon completion of a product rebranding initiative in the second quarter of 2011.

Other Income (Expense), Net

Net other expense decreased \$0.6 million in 2012, primarily due to an unrealized gain of \$1.1 million on an equity investment in 2012, versus a \$0.4 million gain on the sale of an equity investment in 2011. Also, net other expense increased by \$1.4 million in 2012 due to interest expense and amortization of issuance costs and note discount associated with our \$52.0 million in additional Senior Secured Notes issued in June 2011. This amount was offset by \$1.4 million in debt issue costs incurred in 2011.

Index

Income Tax Expense (Benefit)

In 2012, we recorded income tax expense of \$2.1 million, resulting in an effective tax rate of (56.4)%, compared to \$2.0 million of income tax expense recorded in 2011. The effective tax rates for 2012 and 2011 differ from the statutory rate primarily due to non-cash income tax expense being recorded for profitable foreign operations that cannot be offset by unprofitable U.S. domestic operations requiring a full valuation allowance and the deferred effect of tax deductible goodwill amortization. Our expected effective income tax rate is volatile and may move up or down with changes in, among other items, operating income and the results of changes in tax laws and regulations of the U.S. and the foreign jurisdictions in which we operate.

Net Sales

Software and Other Sales. Total software and other sales in 2012 were \$48.0 million, an increase of \$11.7 million, or 32.2%, from \$36.3 million in 2011. Software and other sales increased \$2.8 million in our Healthcare segment, primarily due to an increase in hardware sales related to our iConnect solutions, and \$8.9 million in our DNA segment, primarily due to \$5.8 million in sales of health stations as well as a \$3.1 million increase in software license revenue. Software and hardware orders are typically fulfilled, and revenue recognized, in either the quarter signed or the following two quarters. Revenue recognized from software and other sales may vary significantly on a quarterly basis.

Index

Professional Services Sales. Total professional services sales in 2012 were \$19.3 million, an increase of \$0.4 million, or 2.0%, from \$18.9 million in 2011. Professional services sales in our Healthcare segment increased \$3.4 million, primarily due to a greater number of projects with revenue recognized in 2012 compared to 2011. This increase was offset by a decrease of \$3.0 million in our DNA segment, primarily due to product enhancements that resulted in less professional services being required while the overall contract value remained constant in 2012. Revenue recognized from professional services sales generally lags software and other sales by one or two quarters due to the timing of when such services are performed compared to when the products are delivered.

Maintenance and EDI Sales. Total maintenance and EDI sales in 2012 were \$56.5 million, an increase of \$3.5 million, or 6.6%, from \$53.0 million in 2011 primarily due to maintenance revenue related to new contracts in our Healthcare segment which exceeded the rate of attrition from our existing maintenance customer base.

Gross Margin

Gross Margin – Software and Other Sales. Gross margin on software and other sales was \$28.0 million in 2012, an increase of \$3.0 million, or 11.9%, from \$25.0 million in 2011. Gross margin as a percentage of software and other sales decreased to 58.4% in 2012 from 69.0% in 2011, due to an increase in hardware sales, which are at lower margins than software only sales. Hardware sales were 41% of software and other sales in 2012 compared to 24% in 2011. We expect gross margin on software and other sales to fluctuate depending on the mix of sales among our products.

Gross Margin – Professional Service Sales. Gross margin on professional service sales was \$7.4 million in 2012, a decrease of \$1.4 million, or 16.3%, from \$8.8 million in 2011. Gross margin as a percentage of professional service sales decreased to 38.3% in 2012 from 46.7% in 2011, primarily due to the billable utilization of our professional services resources. As the majority of professional services costs are fixed, we expect gross margins to fluctuate depending on billable utilization of these resources.

Gross Margin – Maintenance and EDI Sales. Gross margin on maintenance and EDI sales was \$40.0 million in 2012, an increase of \$1.6 million, or 4.1%, from \$38.4 million in 2011. Gross margin as a percentage of maintenance and EDI sales decreased to 70.6% in 2012 compared to 72.4% in 2011.

Depreciation and Amortization. Depreciation and amortization expense decreased \$1.0 million, or 22.0%, to \$3.8 million in 2012 from \$4.8 million in 2011, primarily due to a decrease in amortization related to certain intangible assets which became fully amortized in the second quarter of 2011.

Sales and Marketing

Sales and marketing expense increased \$5.1 million, or 31.0%, to \$21.6 million in 2012 from \$16.5 million in 2011. As a percentage of net sales, sales and marketing expense increased by 2.2% to 17.5% due to efforts throughout 2011 to increase sales headcount, which resulted in greater personnel-related costs than the prior year as well as continued investment to enhance the Merge brand in 2012.

Product Research and Development

Product research and development expense increased \$2.3 million, or 16.5%, to \$16.1 million in 2012 from \$13.8 million in 2011, primarily due to an increase in headcount and related expenses. As a percentage of net sales, product research and development remained fairly constant at 13.0% in 2012 compared to 12.7% in 2011. We expect that our quarterly product research and development expense as a percentage of sales will remain relatively constant in 2012.

General and Administrative

General and administrative expense increased \$1.2 million, or 8.0%, to \$16.0 million in 2012 from \$14.8 million in 2011, due to a \$1.2 million increase in legal expenses (see Note 9 to the Condensed Consolidated Financial Statements for more information), an increase of \$0.7 million in our allowance for doubtful accounts and an increase in stock compensation cost of \$0.5 million, offset by \$1.2 million in bonus expense recorded in 2011 compared to no such expense in 2012. We expect ongoing legal expenses to decline in 2012, allowing us to leverage the current level of general and administrative expenses during 2012. As a percentage of net sales, general and administrative expenses decreased by 0.7% to 13.0%. We expect to leverage the current level of general and administrative expenses during 2012.

Index

Acquisition-related Expenses

The increase in acquisition-related expenses in 2012 is primarily due to a \$2.5 million change in contingent consideration related to an insignificant acquisition.

Depreciation and Amortization

Depreciation and amortization expense decreased \$2.4 million, or 29.7%, to \$5.5 million in 2012 from \$7.9 million in 2011, primarily due to a \$2.8 million charge for the impairment of trade names associated with certain products upon completion of a product rebranding initiative in the second quarter of 2011.

Other Income (Expense), Net

Net other expense increased \$0.8 million in 2012, primarily due to an additional \$3.0 million in interest expense and amortization of issuance costs and note discount associated with our additional \$52.0 million in Senior Secured Notes issued in June 2011, offset by a \$1.1 million unrealized gain on an equity investment. Also, in 2011, we incurred \$1.4 million in debt issue costs related to the Notes issued in June 2011, offset by a \$0.4 million gain on the sale of an equity investment.

Income Tax Expense (Benefit)

In 2012, we recorded income tax expense of \$1.7 million, resulting in an effective tax rate of (28.7)%, compared to \$2.9 million of income tax expense recorded in 2011. The effective tax rates for 2012 and 2011 differ from the statutory rate primarily due to non-cash income tax expense being recorded for profitable foreign operations that cannot be offset by unprofitable U.S. domestic operations requiring a full valuation allowance and the deferred effect of tax deductible goodwill amortization. Our expected effective income tax rate is volatile and may move up or down with changes in, among other items, operating income and the results of changes in tax laws and regulations of the U.S. and the foreign jurisdictions in which we operate.

Liquidity and Capital Resources

Our cash and cash equivalents were \$33.7 million at June 30, 2012, a decrease of approximately \$5.6 million, or 14.1%, from our balance of \$39.3 million at December 31, 2011. In addition, our working capital was \$46.7 million at June 30, 2012, an increase of \$0.7 million from our working capital of \$46.0 million at December 31, 2011.

The change in cash and cash equivalents during the six month periods ended June 30, 2012 and 2011 is attributed to the following factors:

Index

Cash generated from business operations in 2012 includes the payment of a company-wide 2011 bonus of \$2.7 million to eligible employees.

Operating Cash Flows

As set forth in the consolidated statement of cash flows, cash used in operating activities was \$3.1 million in 2012, compared to cash provided by operating activities of \$1.4 million in 2011. The net loss in 2012 of \$7.7 million includes non-cash expenses of \$17.0 million and interest expense on our Notes of \$4.9 million which is not payable until November 2012.

In addition to the payments related to restructuring initiatives as noted in the table above, we have remaining payments as of June 30, 2012 of \$0.6 million which we expect will be paid in the second half of 2012.

Accounts receivable days sales outstanding was 99 days in the second quarter of 2012 compared to 93 days in the second quarter of 2011.

Investing Cash Flows

In the six months ended June 30, 2012, we paid \$0.9 million to complete an insignificant acquisition and \$2.4 million to purchase fixed assets.

Financing Cash Flows

In the six months ended June 30, 2012, we received \$0.8 million in proceeds from the exercise of stock options and shares purchased under the employee stock purchase plan.

Contractual Obligations

Total outstanding commitments as of June 30, 2012 (in thousands), were as follows:

	Total	Payment due by period			
		Less than 1 Year	1 – 3 Years	3 – 5 Years	More than 5 Years
Contractual Obligations					
Operating leases	\$18,276	\$3,938	\$3,626	\$3,082	\$7,630
Capital leases (including interest)	602	227	375	-	-
Acquisition obligations	7,379	3,734	3,509	136	-

Total	\$367,138	\$37,560	\$318,730	\$3,218	\$7,630

The above obligations include lease payments, net of contractually committed sub-lease income of \$0.2 million, zero, zero and zero in the respective periods indicated, involving facilities that we use and those we have either ceased to use or previously abandoned.

Except for restricted cash of \$0.7 million (primarily letters-of-credit related to our leased facilities) and a \$0.3 million guarantee to a lender on behalf of a customer at June 30, 2012, we do not have any other significant long-term obligations, contractual obligations, lines of credit, standby letters of credit, guarantees, standby repurchase obligations or other commercial commitments.

As of June 30, 2012, approximately \$4.0 million of our cash balance was held by our foreign subsidiaries. We may need to accrue and pay taxes if we choose to repatriate these funds.

General

We believe our current cash and cash equivalent balances will be sufficient to meet our operating, financing and capital requirements through at least the next 12 months, including interest payments due under the Notes. However, any projections of future cash inflows and outflows are subject to uncertainty. In the event that it is necessary to raise additional capital to meet our short term or long term liquidity needs, such capital may be raised through additional debt, equity offerings or sale of certain assets. If we raise additional funds through the issuance of equity, equity-related or debt securities, such securities may have rights, preferences or privileges senior to those of our common stock. Furthermore, the number of shares of any new equity or equity-related securities that may be issued may result in significant dilution to existing shareholders. In addition, the issuance of debt securities could increase the liquidity risk or perceived liquidity risk that we face. We cannot, however, be certain that additional financing, or funds from asset sales, will be available on acceptable terms. If adequate funds are not available or are not available on acceptable terms, we will likely not be able to take advantage of opportunities, develop or enhance services or products or respond to competitive pressures. Any projections of future cash inflows and outflows are subject to uncertainty. In particular, our uses of cash in 2012 and beyond will depend on a variety of factors such as the costs to implement our business strategy, the amount of cash that we are required to devote to defend and address any regulatory proceedings, and potential merger and acquisition activities.

For a more detailed description of risks and uncertainties that may affect our liquidity, see Item 1A., “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2011.

Material Off Balance Sheet Arrangements

We have no material off balance sheet arrangements.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations are based upon our unaudited condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these condensed consolidated financial statements requires our management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, our management evaluates these estimates. We base our estimates and judgments on our experience, our current knowledge (including terms of existing contracts), our beliefs of what could occur in the future, our observation of trends in the industry, information provided by our customers and information available from other sources. Actual results may differ materially from these estimates.

We have identified the following accounting policies and estimates as those that we believe are most critical to our financial condition and results of operations and that require management’s most subjective and complex judgments in estimating the effect of inherent uncertainties: revenue recognition, allowances for sales returns and doubtful accounts, intangible assets and goodwill, share-based compensation expense, income taxes, guarantees and loss contingencies. There have been no significant changes in the quarterly period ended June 30, 2012 in our method of application of these critical accounting policies. For a complete description of our critical accounting policies, please refer to Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies” in our Annual Report on Form 10-K for the year ended December 31, 2011.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

3.

Interest Rate Risk

Our cash and cash equivalents are exposed to financial market risk due to fluctuations in interest rates, which may affect our interest income. As of June 30, 2012, our cash and cash equivalents included money market funds and short term deposits, including certain cash which is restricted, totaling approximately \$33.7 million, and earned interest at a weighted average rate of approximately 0.1%. The value of the principal amounts is equal to the fair value of these instruments. Due to the relative short-term nature of our investment portfolio, our interest income is vulnerable subject to changes in short-term interest rates. At current investment levels, our results of operations would vary by approximately \$0.3 million on an annual basis for every 100 basis point change in our weighted average short-term interest rate. We do not use our portfolio for trading or other speculative purposes.

Foreign Currency Exchange Risk

We have sales and expenses that are denominated in currencies other than the U.S. dollar and, as a result, have exposure to foreign currency exchange risk. In the event our exposure to foreign currency exchange risk increases to levels that we do not deem acceptable, we may choose to hedge those exposures. We did not enter into any derivative financial instruments to hedge such exposures in 2012 or 2011.

Item 4.Controls and Procedures

Disclosure Controls and Procedures

We evaluated the effectiveness of the design and operation of our disclosure controls and procedures, which were designed to provide reasonable assurance of achieving their objectives, as of June 30, 2012, as required by Rule 13a-15 of the Exchange Act. This evaluation was carried out under the supervision and with the participation of our management, including our principal executive officer and principal financial officer. Based on this evaluation, our principal executive officer and principal financial officer have concluded that, as of June 30, 2012, our disclosure controls and procedures were effective at the reasonable assurance level to ensure (1) that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and (2) information required to be disclosed by us in our reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes with respect to our internal control over financial reporting that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting in the quarterly period ended June 30, 2012.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

Please refer to the detailed discussion regarding litigation set forth in Note 9 of the Notes to Condensed Consolidated Financial Statements in this Form 10-Q.

Merge is involved in various legal matters that are in the process of litigation or settled in the ordinary course of business. Although the final results of all such matters and claims cannot be predicted with certainty, we believe that the ultimate resolution of all such matters and claims will not have a material adverse effect on our financial condition. However, such matters could have a material adverse effect on our operating results and cash flows for a particular period.

Item 1A.Risk Factors

Our operations and financial results are subject to various risks and uncertainties that could adversely affect our business, financial condition, results of operations, and the market price for our common stock. Part I, Item 1A, “Risk Factors” of our Annual Report on Form 10-K for the year ended December 31, 2011 includes a detailed discussion of these factors and these factors have not changed materially from those included in the Form 10-K.

See also the discussions in Part I, Item 2, “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources” and Part I, Item 4, “Controls and Procedures” in this Quarterly Report on Form 10-Q.

Item 2.Unregistered Sales of Equity Securities and Use of Proceeds

In the six months ended June 30, 2012, we issued 1,014,697 shares of our common stock (including 116,706 shares subscribed at June 30, 2012) as partial consideration for an insignificant acquisition. These shares were issued pursuant to an exception from registration provided by Section 4(2) of the Securities Act of 1933, as amended.
