Registrant's telephone number, including area code: (720) 214-1900

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
Common stock, par value \$0.01 per share	NASDAQ (Global Select Market)
Securities registered pursuant to Section 12(g) of the Act: None	

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or

Edgar Filing: NOODLES & Co - Form 10-K

information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.
x

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act (check one):

Large accelerated filer Accelerated filer Non-accelerated filer
(do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of the voting and non-voting common stock held by non-affiliates as of July 1, 2014, the last business day of the registrant's most recently completed second fiscal quarter, was \$438.8 million. This amount was calculated based on the closing price of the common stock on July 1, 2014 on the NASDAQ Global Select Market. All executive officers and directors of the registrant have been deemed, solely for the purpose of the foregoing calculation, to be "affiliates" of the registrant.

As of February 19, 2015, there were 29,827,302 shares of the registrant's common stock, par value of \$0.01 per share, outstanding.

PART I

ITEM 1. Business

General

Noodles & Company is a high growth, fast casual restaurant concept offering lunch and dinner within a fast growing segment of the restaurant industry. We opened our first location in Denver, Colorado in 1995, offering noodle and pasta dishes, staples of many cuisines, with the goal of delivering fresh ingredients and flavors from around the world under one roof. Today, our globally inspired menu includes a wide variety of high quality, cooked-to-order dishes, including noodles and pasta, soups, salads, sandwiches and appetizers which are served on china by our friendly team members. We believe we offer our customers value with per person spend of \$8.25 for the fiscal year ended December 30, 2014. We have 439 restaurants, comprised of 386 company-owned and 53 franchised locations, across 32 states and the District of Columbia, as of December 30, 2014.

We offer more than 25 globally inspired Asian, Mediterranean and American dishes together on a single menu. We believe we will continue to benefit from trends in consumer preferences, wider availability of international cuisines and increasingly adventurous consumer tastes. At many restaurants, people are limited to a particular ethnic cuisine or type of dish, such as a sandwich, burrito or burger. At Noodles & Company, we aim to eliminate the "veto vote" by satisfying the preferences of a wide range of customers, whether a mother with kids, a group of coworkers, an individual or a large party.

We believe we are the only national fast casual restaurant concept offering a menu with a wide variety of noodle and pasta dishes, soups, salads, sandwiches and appetizers inspired by global flavors. We believe our attributes—global flavors, variety and fast service—allow us to compete against multiple segments throughout the restaurant industry and provide us a larger addressable market for lunch and dinner than competitors who focus on a single cuisine. We believe we provide a pleasant dining experience by quickly delivering fresh food with friendly service at a price point we believe is attractive to our customers.

Noodles & Company is a Delaware corporation that was organized in 2002. Noodles & Company and its subsidiaries are sometimes referred to as "we," "us," "our," and the "Company" in this report.

Our Concept and Business Strengths

Variety. We have purposefully chosen a range of healthy to indulgent dishes to satisfy carnivores and vegetarians. Our menu encourages customers to customize their meals to meet their tastes and nutritional preferences with our selection of 14 fresh vegetables and six proteins—beef, naturally raised pork, chicken, meatballs, shrimp and organic tofu. We believe our variety ensures that even the pickiest of eaters can find something to crave, which eliminates the "veto vote" and encourages people with different tastes to enjoy a meal together.

All of our dishes are cooked-to-order with fresh, high quality ingredients sourced from our carefully selected suppliers. Our commitment to the freshness of our ingredients is further demonstrated by our use of seasonal ingredients and healthy add-in options, such as organic tofu, and by the freshness of our ingredients. Our culinary team strives to develop new dishes and limited time offerings ("LTOs") to further reinforce our Your World Kitchen positioning and regularly provide our guests additional options. For example, in Fall of 2014 we introduced a Buffalo Chicken Mac & Cheese and Fig & Pig Flatbread to provide a hearty option as the country entered colder weather and to expand on our flatbread appetizer platform. This focus on culinary innovation, combined with our commitment to classic cooking methods, allows us to prepare and serve high quality food.

Value. The value we offer, the quality of our food and the welcoming ambiance of our restaurants create an overall customer experience that we believe is second-to-none. Our per person spend of approximately \$8.25 for the twelve months ended December 30, 2014 is competitive not only within the fast casual segment, but also within the quick-service segment. We believe the speed of our service and the quality of our food contributes to a value proposition that enables us to take market share from casual dining restaurants. We deliver value by combining a family-friendly dining environment with the opportunity to enjoy many dishes containing ingredients like our award-winning slow-braised, naturally raised pork.

The Experience in Our Restaurants. We design each location individually, which we believe creates an inviting restaurant environment. We believe the ambiance is warm and welcoming, with muted lighting and colors, comfortable seating and our own custom music mix, which is intended to make our customers feel relaxed and at

home. We also enhance the experience by featuring

1

Table of Contents

Coca-Cola Freestyle® machines in all our restaurants, offering our customers over 100 drink choices to complement their meal-again putting control in the customers' hands, so that they can create or match their drink to their meal. We believe we deliver an exceptional overall dining experience. We think that our customers should expect not only great food from our restaurants, but also warm hospitality and attentive service. Whether you are a mother with kids or a businessperson with a laptop, you simply order your food, grab a drink and take a seat. We cook each dish to order in approximately five minutes and bring the food right to your table. Our customers may enjoy a relaxed meal or just eat and run.

Consistent with our culture of enhanced customer service, we seek to hire individuals who will deliver prompt, attentive service by engaging customers the moment they enter our restaurants. Our training philosophy empowers both our restaurant managers and team members to add a personal touch when serving our customers, such as coming out from behind the counter to explain our menu and guide customers to the right dish. Our restaurant managers are critical to our success, as we believe that their entrepreneurial spirit and outreach efforts build our brand in our communities. We call our cashiers "Noodle Ambassadors" to highlight their role in helping our customers explore our global menu.

After our customers order at the counter, their food is served on china and delivered to their table by our friendly team members. To further enhance our customers' dining experience, we check on them throughout their meal. We offer them drink refills, a glass of wine or dessert, so they do not have to leave their seats. No trash cans are visible to our customers in our restaurants: following the meal, our team quickly clears the table.

Restaurant Unit Growth

We believe we have significant growth potential because of our brand positioning, strong unit economics, financial results and broad customer appeal. We have more than doubled our restaurant base in the last six years to 439 locations in 32 states and the District of Columbia as of December 30, 2014, including the 49 company-owned restaurants and 10 franchise restaurants opened in 2014. We also purchased 19 restaurants from two franchisees during 2014. We believe we are at an early stage of nationwide expansion, and that we can grow to 2,500 restaurants over the next 15 to 20 years across the United States based on our scalable infrastructure, broad appeal and flexible and portable real estate model, but this growth rate is not guaranteed. Our restaurants are typically 2,600 to 2,700 square feet and are located in end-cap, inline or free-standing locations across a variety of urban and suburban markets. Our near-term growth strategy will involve opening units in mature markets and expanding into new markets.

Although we expect the majority of our expansion to continue to be from company-owned restaurants, we are strategically expanding our base of franchise restaurants. Our franchise program is a low-cost and high-return model that allows us to expand our footprint and build brand awareness in markets that we do not plan to enter in the short to medium term. As of December 30, 2014, we have 53 franchise units in 15 states operated by 11 franchisees. We look for experienced, well-capitalized franchise partners who are able to leverage their existing infrastructure and local knowledge in a manner that benefits both our franchisees and ourselves. As of December 30, 2014, a total of 10 area developers have signed development agreements providing for the opening of 175 restaurants in their respective territories.

Site Development and Expansion

We consider our site selection and development process critical to our long-term success. We use a combination of our own development team and outside real estate consultants to locate, evaluate and negotiate new sites using various criteria. In addition, because we offer a mix of dishes and a dining experience that differs from many other restaurant concepts, we believe our restaurants are highly sought after by real estate owners and developers. We often are made aware of opportunities early in their development process, allowing us to secure optimal locations.

In making site selection decisions, we also use several analytical tools designed to uncover the key site, demographic, business, retail, competitive and traffic characteristics that drive successful locations. These tools have been customized to leverage existing real estate information to project sales of a potential location and to assist in the development of local marketing plans.

Our ability to succeed in several different kinds of trade areas and real estate types has allowed us flexibility in our market development strategy. While we typically target end-cap or freestanding locations, we also have seen success

in inline locations. Moreover, we perform well in various market sizes, from smaller markets to suburbs to central business districts. This flexibility also allows us to manage risk in our development portfolio by balancing higher cost locations—typically seen in urban areas—with those that are lower cost—typically seen in smaller markets.

Table of Contents

Once a location has been approved by our executive-level selection committee, we begin a design process to match the characteristics and feel of the location to the trade area. For example, in a trade area with a high percentage of families we will utilize additional booth seating in the dining room, and in an urban location we will typically alter our kitchen design to enhance throughput for the busy lunch hours.

Restaurant Management and Operations

Friendly People. We believe our genuine, nice people separate us from our competitors. We value the individuality of our team members, which we believe results in a management, operations and training philosophy distinct from that of our competitors. We make an effort to hire team members who share a passion for food, have a competitive spirit and will operate our restaurants in a way that is consistent with our high standards. We seek to hire individuals who will deliver prompt, attentive service by engaging customers the moment they enter our restaurants. We empower our team members to enrich the experience of our customers and directly address any concerns that may arise in a manner that contributes to the success of our business.

Restaurant Management and Employees. Each restaurant typically has a restaurant manager, an assistant manager and as many as 15 to 25 team members. We cross-train our employees in an effort to create a depth of competency in our critical restaurant functions. Consistent with our emphasis on customer interaction, we encourage our restaurant managers and team members to welcome and interact with customers throughout the day. To lead our restaurant management teams, we have area managers (each of whom is responsible for between five and 12 restaurants), as well as market directors (each of whom is responsible for between 50 and 80 restaurants).

Training and Career Development. We believe that our training efforts create a culture of continuous learning and professional growth that allows our team members to continue their career development with us. Within each restaurant, two to four team members are designated to lead the training efforts and ensure a consistent approach to team member development. We produce training materials that encourage individual contributions and participation from our team members, rather than providing rote, step-by-step scripts or rigid and extensively detailed policy manuals.

Food Preparation and Quality. Our teams use classic professional cooking methods, including hand-chopping, par boiling and sautéing many of our vegetables, in full kitchens resembling those of full service restaurants. All team members, including our restaurant managers, spend their first several days working solely with food and learning these techniques, and we spend a significant amount of time ensuring that each team member learns how to prepare and cook our food properly. Despite our more labor-intensive method of food preparation, we believe that we produce food with an efficiency that enables us to compete effectively.

The majority of our restaurants have exhibition-style kitchens. This design demonstrates our commitment to cooking fresh food in an accessible manner. We provide each customer with individual attention and make every effort to respond to customer suggestions and concerns in a personal and hospitable way.

We have designed our food safety and quality assurance programs to maintain high standards for our food and food preparation procedures. Our quality assurance manager oversees comprehensive restaurant and supplier audits based upon the potential food safety risk of each food. We also consider food safety and quality assurance when selecting our distributors and suppliers. Our suppliers are inspected by federal, state and local regulators or other reputable, qualified inspection services, which helps ensure their compliance with all federal food safety and quality guidelines. We regularly inspect our suppliers to ensure that the ingredients we buy conform to our quality standards and that the prices we pay are competitive. We also rely on our own recipes, specifications and protocols to ensure that our food is consistently the best quality possible when served, including a physical examination of ingredients when they arrive at our restaurants. We train our employees to pay detailed attention to food quality at every stage of the food preparation cycle and have developed a daily checklist that our employees use to assess the freshness and quality of food supplies. Finally, we encourage our customers to provide feedback regarding our food quality so that we can identify and resolve problems or concerns as quickly as possible.

Restaurant Marketing

Our marketing efforts seek to increase sales through a variety of channels and initiatives. Community-based restaurant marketing, as well as online, social and other media tools, highlight our competitive strengths, including our varied and healthy menu offerings and the value we offer our customers.

Table of Contents

Local Relationship Marketing. We differentiate our business through an innovative, community-based approach to building brand awareness and customer loyalty. We use a wide range of local marketing initiatives to increase the frequency of and occasions for visits, and to encourage people to get to know us better, try our food and bring their friends. We empower our local restaurant managers to selectively organize events to bring new customers into our restaurants. For example, our team members will invite a customer to bring a group of his or her friends in for a "tasting," an exclusive menu tasting at their local Noodles location.

Our Menu Offerings. We focus some of our marketing efforts on new menu offerings to broaden our appeal to our customers. We offer LTOs and featured items like the Buffalo Chicken Mac & Cheese, a twist on our core Wisconsin Mac & Cheese, which include ingredients and flavors that maintain customer interest. We promote these items through a variety of formats including market-wide public relations events, social media marketing, radio promotions, tastings and email blasts to our e-club. In addition to increasing brand awareness, these promotions also encourage prompt consumer action, resulting in more immediate increases in our customer traffic.

Creating New Meal Occasions. We also focus on ways Noodles & Company can serve customers at different times and in new places. For example, customers who want to feed a large group can enjoy our Square Bowls, which are family-style take-out offerings of our noodles, pastas and salads that generally feed up to four people. We market this new offering in a variety of ways, including in-restaurant posters, as well as email Noodlegrams, Facebook posts and other communications outside our restaurants. During 2014 we also introduced a catering offering, which accommodates groups of twenty or more guests.

Making Noodles & Company Easier to Use. Some of our marketing efforts focus on making our restaurants easier to use. We seek to deliver superior customer service at every opportunity, generating consumer awareness of menu offerings with in-restaurant communications by providing displays of our menu offerings and beer and wine selection visible upon entry, chalkboards featuring new menu offerings and fresh ingredients and table top cards that highlight healthy food offerings. By providing multiple points of access to our wide variety of menu offerings, we seek to optimize our customers' in-restaurant experience in order to increase the frequency of our customers' visits. Our efforts also make use of tools like online ordering.

Online, Social and Other Media Tools. We rely on our website, www.noodles.com, to promote our business and increase brand awareness. The information on or available through our website is not, and should not be considered, a part of this report. Our customers are encouraged to sign up to receive email communication or Noodlegrams, updating them on new menu offerings, LTOs and promotional opportunities. As of December 30, 2014, more than 1,100,000 of our customers have signed up to receive Noodlegrams. We also communicate with our customers using social media, such as our Facebook and Instagram pages, our YouTube channel and our Twitter feed. Our media tools also include placements in local, regional and national print media.

Suppliers

Maintaining a high degree of quality in our restaurants depends in part on our ability to acquire fresh ingredients and other necessary supplies that meet our specifications from reliable suppliers. We carefully select suppliers based on quality and their understanding of our brand, and we seek to develop mutually beneficial long-term relationships with them. We work closely with our suppliers and use a mix of forward, fixed and formula pricing protocols. We have tried to increase, in some cases, the number of suppliers for our ingredients, which we believe can help mitigate pricing volatility, and we monitor industry news, trade issues, weather, crises and other world events that may affect supply prices.

Seasonality

Seasonal factors and the timing of holidays cause our revenue to fluctuate from quarter to quarter. Our revenue per restaurant is typically lower in the first and fourth quarters due to reduced winter and holiday traffic and higher in the second and third quarters.

Competition

We face competition from the casual dining, quick-service and fast casual segments of the restaurant industry. These segments are highly competitive with respect to taste, price, food quality and presentation, service, location and the ambience and condition of each restaurant, among other things. Our competition includes a variety of locally owned

restaurants and national and regional

4

Table of Contents

chains who offer dine-in, carry-out and delivery services. Many of our competitors have existed longer and have a more established market presence with substantially greater financial, marketing, personnel and other resources than we have. Among our competitors are a number of multi-unit, multi-market fast casual restaurant concepts, some of which are expanding nationally. As we expand, we will face competition from these concepts and new competitors that strive to compete with our market segments.

We believe we are the only national fast casual restaurant concept offering a menu with a wide variety of noodle and pasta dishes, soups, salads and sandwiches inspired by global flavors. We believe our attributes—global flavors, variety and fast service—allow us to compete against multiple segments throughout the restaurant industry and provide us a larger addressable market for lunch and dinner than competitors who focus on a single cuisine. We believe we provide a pleasant dining experience by quickly delivering fresh food with friendly service at a price point we believe is attractive to our customer.

Franchising

We had 11 franchisees who operated 53 franchise restaurants in 15 states as of December 30, 2014. A total of 10 area developers have signed area development agreements providing for the opening of 175 additional restaurants in their respective territories as of December 30, 2014. We expect to continue to offer development rights in markets where we do not intend to build company-owned restaurants. We may offer such rights to larger developers who commit to open 10 or more units, or to smaller developers who may commit to open significantly fewer restaurants. We do not currently intend to offer single-unit franchises. We believe the strength and attractiveness of our brand and unit growth opportunities in attractive undeveloped markets will attract experienced and well-capitalized area developers.

Intellectual Property and Trademarks

We own a number of trademarks and service marks registered or pending with the U.S. Patent and Trademark Office ("PTO"). We have registered the following marks with the PTO: Noodles & Company, the Noodles & Company logo, Your World Kitchen, Square Bowl, Noodlegram, Crave Card and Wisconsin Mac & Cheese. We also have certain trademarks registered or pending in certain foreign countries. In addition, we have registered the Internet domain name www.noodles.com. The information on, or that can be accessed through, our website is not part of this report. We believe that our trademarks, service marks and other intellectual property rights have significant value and are important to the marketing of our brand, and it is our policy to protect and defend vigorously our rights to such intellectual property.

Governmental Regulation and Environmental Matters

We are subject to extensive and varied federal, state and local government regulation, including regulations relating to public and occupational health and safety, sanitation and fire prevention. We operate each of our restaurants in accordance with standards and procedures designed to comply with applicable codes and regulations. However, an inability to obtain or retain health department or other licenses would adversely affect our operations. Although we have not experienced, and do not anticipate, any significant difficulties, delays or failures in obtaining required licenses, permits or approvals, any such problem could delay or prevent the opening of, or adversely impact the viability of, a particular restaurant or group of restaurants.

In addition, in order to develop and construct restaurants, we need to comply with applicable zoning, land use and environmental regulations. Federal and state environmental regulations have not had a material effect on our operations to date, but more stringent and varied requirements of local governmental bodies with respect to zoning, land use and environmental factors could delay or even prevent construction and increase development costs for new restaurants. We are also required to comply with the accessibility standards mandated by the U.S. Americans with Disabilities Act, which generally prohibits discrimination in accommodation or employment based on disability. We may in the future have to modify restaurants, for example by adding access ramps or redesigning certain architectural fixtures, to provide service to or make reasonable accommodations for disabled persons. While these expenses could be material, our current expectation is that any such actions will not require us to expend substantial funds.

A small amount of our revenues is attributable to the sale of alcoholic beverages. Alcoholic beverage control regulations require each of our restaurants to apply to a state authority and, in certain locations, county or municipal authorities for a license that must be renewed annually and may be revoked or suspended for cause at any time.

Alcoholic beverage control regulations relate to numerous aspects of daily operations of our restaurants, including

minimum age of patrons and employees, hours of operation, advertising, trade practices, wholesale purchasing, other relationships with alcohol manufacturers, wholesalers and distributors, inventory control and handling, storage and dispensing of alcoholic beverages. We are also subject in certain states to "dram shop" statutes, which generally provide a person injured by an intoxicated person the right to recover damages from an establishment that

Table of Contents

wrongfully served alcoholic beverages to the intoxicated person. We carry liquor liability coverage as part of our existing comprehensive general liability insurance. A small number of our restaurants do not have liquor licenses, typically because of the cost of a liquor license in jurisdictions having liquor license quotas.

In addition, we are subject to the U.S. Fair Labor Standards Act, the U.S. Immigration Reform and Control Act of 1986, the Occupational Safety and Health Act and various other federal and state laws governing similar matters including minimum wages, overtime, workplace safety and other working conditions. We are also subject to various laws and regulations relating to our current and any future franchise operations.

We are subject to federal, state and local environmental laws and regulations concerning waste disposal, pollution, protection of the environment, and the presence, discharge, storage, handling, release and disposal of, or exposure to, hazardous or toxic substances ("environmental laws"). These environmental laws can provide for significant fines and penalties for non-compliance and liabilities for remediation, sometimes without regard to whether the owner or operator of the property knew of, or was responsible for, the release or presence of the hazardous or toxic substances. Third parties may also make claims against owners or operators of properties for personal injuries and property damage associated with releases of, or actual or alleged exposure to, such substances. We are not aware of any environmental laws that will materially affect our earnings or competitive position, or result in material capital expenditures relating to our restaurants. However, we cannot predict what environmental laws will be enacted in the future, how existing or future environmental laws will be administered, interpreted or enforced, or the amount of future expenditures that we may need to make to comply with, or to satisfy claims relating to, environmental laws. It is possible that we will become subject to environmental liabilities at our properties, and any such liabilities could materially affect our business, financial condition or results of operations.

Management Information Systems

All of our restaurants use computerized management information systems, which we believe are scalable to support our future growth plans. We use point-of-sale computers designed specifically for the restaurant industry. The system provides a touch screen interface, a graphical order confirmation display and integrated, high-speed credit card and gift card processing. The point-of-sale system is used to collect daily transaction data, which generates information about daily sales, product mix and average check that we actively analyze. All products sold and prices at our company-owned restaurants are programmed into the system from our central support office.

Our in-restaurant back office computer system is designed to assist in the management of our restaurants and provide labor and food cost management tools. These tools provide corporate and restaurant operations management quick access to detailed business data and reduces restaurant managers' administrative time. The system provides our restaurant managers the ability to submit orders electronically with our distribution network. The system also supplies sales, bank deposit and variance data to our accounting department on a daily basis. We use this data to generate daily sales information and weekly consolidated reports regarding sales and other key measures, as well as preliminary weekly detailed profit and loss statements for each location with final reports following the end of each period. Franchisees use similar point of sale systems and are required to report sales on a daily basis through an on-line reporting network and submit their restaurant-level financial statements on a quarterly or annual basis.

Employees

As of December 30, 2014, we had approximately 9,500 employees, including approximately 900 salaried employees and approximately 8,600 hourly employees. None of our employees are unionized or covered by a collective bargaining agreement, and we consider our current employee relations to be good.

Available Information

We maintain a website at www.noodles.com, including an investor relations section at investor.noodles.com, on which we routinely post important information, such as webcasts of quarterly earnings calls, and any related materials. You may access our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, as well as other reports relating to us that are filed with or furnished to the SEC, free of charge in the investor relations section of our website as soon as reasonably practicable after such material is electronically filed with or furnished to the SEC. The public may also read and copy materials we file with the SEC at the SEC's Public Reference Room, which is located at 100 F Street, NE, Room 1580, Washington, DC 20549. You can obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also

Executive Officers of the Registrant

Name	Age ⁽¹⁾	Position
Kevin Reddy	56	Chairman and Chief Executive Officer
Keith Kinsey	60	President, Chief Operating Officer and Director
Dave Boennighausen	37	Chief Financial Officer
Dan Fogarty	53	Executive Vice President of Marketing
Phil Petrilli	45	Executive Vice President of Operations
Paul Strasen	58	Executive Vice President, General Counsel and Secretary
Kathy Lockhart	50	Vice President and Controller

(1) As of February 23, 2015

Kevin Reddy has served as our Chief Executive Officer since April 2006. He became a member of our board of directors in May 2006, and Chairman of the Board in May 2008. Mr. Reddy was our President and Chief Operating Officer from April 2005 to April 2006, continuing to serve as our President until July 2012. Prior to joining us, he was the Chief Operating Officer, Chief Operations Officer and Restaurant Support Officer for Chipotle Mexican Grill.

Mr. Reddy began his professional career with McDonald's Corporation in 1983 as a regional controller and progressed into positions of escalating responsibility. Mr. Reddy has received a number of awards in connection with his role as our Chief Executive Officer, including being named "Entrepreneur of the Year" by Restaurant Business Magazine in 2009 and was most recently included on the Nation's Restaurant News 2014 Builders List, created to feature people who are taking restaurant brands to the next level. He currently serves on the executive advisory board to the Daniels School of Business at the University of Denver. He received a BS in Accounting from Duquesne University.

Keith Kinsey has served as our President since July 2012 and our Chief Operating Officer since November 2007. Mr. Kinsey also served as our Chief Financial Officer from July 2005 to July 2012. He became a member of our board of directors in November 2008. Prior to joining us, he was the Pacific Regional Director for Chipotle Mexican Grill. Prior to that time, he held various management roles at McDonald's Corporation, PepsiCo Restaurant Group and Checkers Drive-In Restaurants. He received a BS in Accounting from the University of Illinois.

Dave Boennighausen has served as our Chief Financial Officer since July 2012. Mr. Boennighausen has been with the Company since 2004, and served as our Vice President of Finance from October 2007 to March 2011, and as our Executive Vice President of Finance from April 2011 to June 2012. He began his career with May Department Stores. He received a BS in Finance and Marketing from Truman State University and holds an MBA from the Stanford Graduate School of Business.

Dan Fogarty has served as our Executive Vice President of Marketing since October 2010. Mr. Fogarty has been with the Company since 2009, serving as Vice President of Marketing from June 2009 to October 2010. Prior to joining us, Mr. Fogarty was Vice President of Marketing for The Pump Energy Food from May 2008 until May 2009. Prior to that time, he worked at Potbelly Sandwich Works and Chipotle Mexican Grill. Mr. Fogarty began his career working for a number of advertising agencies and had his own brand consulting firm for five years. He received a BA in Journalism and Advertising from the University of Kansas.

Phil Petrilli has served as our Executive Vice President of Operations since May 2012. Prior to joining us, he worked for Chipotle Mexican Grill in multiple operations positions from June 1999 to May 2012, most recently as Regional Director-Northeast Region from 2008 to 2012, where he led a region of 268 restaurants. He received a degree in Industrial Psychology from the University of Illinois-Chicago.

Paul Strasen has served as our Executive Vice President, Secretary and General Counsel since January 2008. Prior to joining our company, Mr. Strasen was the Vice President, General Counsel and Secretary of Houlihan's Restaurants,

Inc. and served as the General Counsel of Einstein/Noah Bagel Corp. He began his career at Bell Boyd & Lloyd, now part of K & L Gates. Mr. Strasen

7

received a BA in Humanities and Political Science from Valparaiso University and received a JD from The University of Chicago Law School.

Kathy Lockhart has served as our Vice President and Controller since August 2006. Prior to joining us, Ms. Lockhart served as the Vice President and Controller of several public and private restaurant and retail companies, including Einstein/Noah Bagel Corp., Boston Market, VICORP (parent company of Village Inn and Bakers Square restaurants) and Ultimate Electronics. She received a BA in Business Administration and Political Science from Western State College, and is a Certified Public Accountant and a member of the American Institute of Certified Public Accountants.

ITEM 1A. Risk Factors

Special Note Regarding Forward-Looking Statements

This report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involve risks and uncertainties, including but not limited to the risks and uncertainties discussed under Item 1A. "Risk Factors," Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" and Item 1. "Business." In some cases, you can identify forward-looking statements by terms such as "may," "might," "will," "objective," "intend," "should," "could," "can," "would," "expect," "believe," "design," "estimate," "predict," "potential," "plan" or the negative of these terms, and similar expressions intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performances or achievements expressed or implied by the forward-looking statements. We discuss these risks, uncertainties and other factors in greater detail below. These statements reflect our current views with respect to future events and are based on currently available operating, financial and competitive information. Unless required by United States federal securities laws, we do not intend to update any of these forward-looking statements to reflect circumstances or events that occur after the statement is made.

Risks Related to Our Business and Industry

Our sales growth rate depends primarily on our ability to open new restaurants and is subject to many unpredictable factors.

One of the key means of achieving our growth strategy will be through opening new restaurants and operating those restaurants on a profitable basis. We expect this to be the case for the foreseeable future. In 2014, we opened 49 company-owned restaurants, and 10 franchise restaurants, and we expect 12% to 14% system-wide unit growth in 2015. We may not be able to open new restaurants as quickly as planned. In the past, we have experienced delays in opening some restaurants and that could happen again. Delays or failures in opening new restaurants could materially and adversely affect our growth strategy and our expected results. As we operate more restaurants, our rate of expansion relative to the size of our restaurant base will eventually decline.

In addition, one of our biggest challenges is locating and securing an adequate supply of suitable new restaurant sites in our target markets. Competition for those sites is intense, and other restaurant and retail concepts that compete for those sites may have unit economic models that permit them to bid more aggressively for those sites than we can. There is no guarantee that a sufficient number of suitable sites will be available in desirable areas or on terms that are acceptable to us in order to achieve our growth plan. Our ability to open new restaurants also depends on other factors, including:

- negotiating leases with acceptable terms;
- identifying, hiring and training qualified employees in each local market;
- timely delivery of leased premises to use from our landlords and punctual commencement of our build-out construction activities;

- managing construction and development costs of new restaurants, particularly in competitive markets;
- avoiding the impact of inclement weather, natural disasters and other calamities;
- obtaining construction materials and labor at acceptable costs, particularly in urban markets;

Table of Contents

securing required governmental approvals, permits and licenses (including construction and other permits) in a timely manner and responding effectively to any changes in local, state or federal laws and regulations that adversely affect our costs or ability to open new restaurants; and

accessing sufficient capital, which is expected to come from cash flow from operations and third party funding.

Our progress in opening new restaurants from quarter to quarter may occur at an uneven rate. If we do not open new restaurants in the future according to our current plans, the delay could materially adversely affect our business, financial condition or results of operations.

Our long-term success is highly dependent on our ability to effectively identify and secure appropriate sites for new restaurants.

We intend to develop new restaurants in our existing markets, expand our footprint into adjacent markets and selectively enter into new markets. In order to build new restaurants, we must first identify target markets where we can enter or expand our footprint, taking into account numerous factors, including the location of our current restaurants, local economic trends, population density, area demographics and geography. Then we must locate and secure appropriate sites, which is one of our biggest challenges. There are numerous factors involved in identifying and securing an appropriate site, including:

identification and availability of locations with the appropriate size, traffic patterns, local retail and business attractions and infrastructure that will drive high levels of customer traffic and sales per unit;

competition in new markets, including competition for restaurant sites;

financial conditions affecting developers and potential landlords, such as the effects of macro-economic conditions

and the credit market, which could lead to these parties delaying or canceling development projects (or renovations of existing projects), in turn reducing the number of appropriate locations available;

developers and potential landlords obtaining licenses or permits for development projects on a timely basis;

proximity of potential development sites to an existing location;

anticipated commercial, residential and infrastructure development near our new restaurants; and

availability of acceptable lease arrangements.

We may not be able to successfully develop critical market presence for our brand in new geographical markets, as we may be unable to find and secure attractive locations, build name recognition or attract new customers. If we are unable to fully implement our development plan, our business, financial condition or results of operations could be materially adversely affected.

Our expansion into new markets may present increased risks.

We plan to open restaurants in markets where we have little or no operating experience. Restaurants we open in new markets may take longer to reach expected sales and profit levels on a consistent basis and may have higher construction, occupancy or operating costs than restaurants we open in existing markets, thereby affecting our overall profitability. New markets may have competitive conditions, consumer tastes and discretionary spending patterns that are more difficult to predict or satisfy than our existing markets. We may need to make greater investments than we originally planned in advertising and promotional activity in new markets to build brand awareness. We may find it more difficult in new markets to hire, motivate and keep qualified employees who share our vision, passion and business culture. We may not be able to successfully develop critical market presence for our brand in new geographical markets, as we may be unable to find and secure attractive locations, build name recognition or attract new customers. We may also incur higher costs from entering new markets, if, for example, we assign area managers to manage comparatively fewer restaurants than we assign in more developed markets. As a result, these new restaurants may be less successful or may achieve target average unit volumes ("AUVs") at a slower rate. If we do not successfully execute our plans to enter new markets, our business, financial condition or results of operations could be materially adversely affected.

Table of Contents

New restaurants, once opened, may not be profitable, and the increases in average restaurant sales and comparable restaurant sales that we have experienced in the past may not be indicative of future results.

Our new restaurants typically open with above-average volumes, which then decline after the initial sales surge that comes with interest in a restaurant's grand opening. Recent openings have stabilized in sales after approximately 32 to 36 weeks of operation, at which time the restaurant's sales typically begin to grow on a consistent basis. In new markets, the length of time before average sales for new restaurants stabilize is less predictable and can be longer as a result of our limited knowledge of these markets and consumers' limited awareness of our brand. New restaurants may not be profitable and their sales performance may not follow historical patterns. In addition, our average restaurant sales and comparable restaurant sales may not increase at the rates achieved over the past several years. Our ability to operate new restaurants profitably and increase average restaurant sales and comparable restaurant sales will depend on many factors, some of which are beyond our control, including:

- consumer awareness and understanding of our brand;
- general economic conditions, which can affect restaurant traffic, local labor costs and prices we pay for the food products and other supplies we use;
- changes in consumer preferences and discretionary spending;
 - competition, either from our competitors in the restaurant industry or our own restaurants;
- temporary and permanent site characteristics of new restaurants; and
- changes in government regulation.

If our new restaurants do not perform as planned, our business and future prospects could be harmed. In addition, if we are unable to achieve our expected average restaurant sales, our business, financial condition or results of operations could be adversely affected.

Our sales and profit growth could be adversely affected if comparable restaurant sales are less than we expect. The level of comparable restaurant sales, which represent the change in year-over-year sales for restaurants open for at least 18 full periods, will affect our sales growth and will continue to be a critical factor affecting profit growth because the profit margin on comparable restaurant sales is generally higher than the profit margin on new restaurant sales. Our ability to increase comparable restaurant sales depends in part on our ability to successfully implement our initiatives to build sales. It is possible such initiatives will not be successful, that we will not achieve our target comparable restaurant sales growth or that the change in comparable restaurant sales could be negative, which may cause a decrease in sales and profit growth that would materially adversely affect our business, financial condition or results of operations.

We have implemented strategies such as catering options in an effort to increase overall sales. Our catering program, in particular, is in an early phase and may not increase our sales to the degree we expect. Catering also introduces new operating procedures to our restaurants and we may not successfully execute these procedures, which could adversely impact the customer experience in our restaurants and thereby harm our sales and customer perception of our brand.

Adverse weather conditions could affect our sales.

Adverse weather conditions, such as regional winter storms, floods and hurricanes, could affect our sales at restaurants in locations that experience these weather conditions, which could materially adversely affect our business, financial condition or results of operations. It is possible that weather conditions may impact our business more than other businesses in our industry because of the significant concentration of our restaurants in the Upper Midwest, Rocky Mountain and Mid-Atlantic states.

Our failure to manage our growth effectively could harm our business and operating results.

Our growth plan includes opening a significant number of new restaurants. Our existing restaurant management systems, financial and management controls and information systems may be inadequate to support our planned expansion. Managing our growth effectively will require us to continue to enhance these systems, procedures and controls and to hire, train and retain managers and

Table of Contents

team members. We may not respond quickly enough to the changing demands that our expansion will impose on our management, restaurant teams and existing infrastructure which could harm our business, financial condition or results of operations.

We believe our culture—from the restaurant level up through management—is an important contributor to our success. As we grow, however, we may have difficulty maintaining our culture or adapting it sufficiently to meet the needs of our operations. Among other important factors, our culture depends on our ability to attract, retain and motivate employees who share our enthusiasm and dedication to our concept. Our business, financial condition or results of operations could be materially adversely affected if we do not maintain our infrastructure and culture as we grow. The planned rapid increase in the number of our restaurants may make our future results unpredictable.

In 2014, we opened 49 company-owned restaurants and 10 franchise restaurants, and in 2015 we expect 12% to 14% system-wide unit growth. Our growth strategy and the substantial investment associated with the development of each new restaurant may cause our operating results to fluctuate and be unpredictable or adversely affect our profits. Our future results depend on various factors, including successful selection of new markets and restaurant locations, local market acceptance of our restaurants, consumer recognition of the quality of our food and willingness to pay our prices, the quality of our operations and general economic conditions. In addition, as has happened when other restaurant concepts have tried to expand, we may find that our concept has limited appeal in new markets or we may experience a decline in the popularity of our concept in the markets in which we operate. Newly opened restaurants or our future markets and restaurants may not be successful or our system-wide average restaurant sales may not increase at historical rates, which could materially adversely affect our business, financial condition or results of operations. Opening new restaurants in existing markets may negatively affect sales at our existing restaurants.

The consumer target area of our restaurants varies by location, depending on a number of factors, including population density, other local retail and business attractions, area demographics and geography. As a result, the opening of a new restaurant in or near markets in which we already have restaurants could adversely affect the sales of these existing restaurants. Existing restaurants could also make it more difficult to build our consumer base for a new restaurant in the same market. Our core business strategy does not entail opening new restaurants that we believe will materially affect sales at our existing restaurants, but we may selectively open new restaurants in and around areas of existing restaurants that are operating at or near capacity to effectively serve our customers. Sales cannibalization between our restaurants may become significant in the future as we continue to expand our operations and could affect our sales growth, which could, in turn, materially adversely affect our business, financial condition or results of operations.

Competition from other restaurant companies could adversely affect us.

We face competition from the casual dining, quick-service and fast casual segments of the restaurant industry. These segments are highly competitive with respect to taste, price, food quality and presentation, service, location and the ambience and condition of each restaurant, among other things. Our competition includes a variety of locally owned restaurants and national and regional chains who offer dine-in, carry-out and delivery services. Many of our competitors have existed longer and have a more established market presence with substantially greater financial, marketing, personnel and other resources than we have. Among our competitors are a number of multi-unit, multi-market fast casual restaurant concepts, some of which are expanding nationally. As we expand, we will face competition from these concepts and new competitors that strive to compete with our market segments. For example, additional competitive pressures come from the deli sections and in-store cafés of grocery store chains, as well as from convenience stores and online meal preparation sites. These competitors may have, among other things, lower operating costs, better locations, better facilities, better management, more effective marketing and more efficient operations.

Several of our competitors compete by offering menu items that are specifically identified as low in carbohydrates, gluten-free or healthier for consumers. In addition, many of our competitors emphasize lower-cost value options or meal packages or have loyalty programs, strategies we do not currently pursue. Any of these competitive factors may materially adversely affect our business, financial condition or results of operations.

Negative publicity relating to one of our restaurants, including our franchised restaurants, could reduce sales at some or all of our other restaurants.

Our success is dependent in part upon our ability to maintain and enhance the value of our brand, consumers' connection to our brand and positive relationships with our franchisees. We may, from time to time, be faced with negative publicity relating to food quality, restaurant facilities, customer complaints or litigation alleging illness or injury, health inspection scores, integrity of our or

Table of Contents

our suppliers' food processing, employee relationships or other matters, regardless of whether the allegations are valid or whether we are held to be responsible. The negative impact of adverse publicity relating to one restaurant may extend far beyond the restaurant or franchise involved to affect some or all of our other restaurants. The risk of negative publicity is particularly great with respect to our franchised restaurants because we are limited in the manner in which we can regulate them, especially on a real-time basis. The considerable expansion in the use of social media over recent years can further amplify any negative publicity that could be generated by such incidents. A similar risk exists with respect to unrelated food service businesses, if consumers associate those businesses with our own operations.

Additionally, employee claims against us based on, among other things, wage and hour violations, discrimination, harassment or wrongful termination may also create negative publicity that could adversely affect us and divert our financial and management resources that would otherwise be used to benefit the future performance of our operations. A significant increase in the number of these claims or an increase in the number of successful claims could materially adversely affect our business, financial condition or results of operations. Consumer demand for our products and our brand's value could diminish significantly if any such incidents or other matters create negative publicity or otherwise erode consumer confidence in us or our products, which would likely result in lower sales and could materially adversely affect our business, financial condition or results of operations.

Governmental regulation may adversely affect our ability to open new restaurants or otherwise adversely affect our business, financial condition or results of operations.

We are subject to various federal, state and local regulations, including those relating to building and zoning requirements and those relating to the preparation and sale of food. Our restaurants are also subject to state and local licensing and regulation by health, alcoholic beverage, sanitation, food and occupational safety and other agencies.

We may experience material difficulties or failures in obtaining the necessary licenses, approvals or permits for our restaurants, which could delay planned restaurant openings or affect the operations at our existing restaurants. In addition, stringent and varied requirements of local regulators with respect to zoning, land use and environmental factors could delay or prevent development of new restaurants in particular locations.

We are subject to the U.S. Americans with Disabilities Act ("ADA") and similar state laws that give civil rights protections to individuals with disabilities in the context of employment, public accommodations and other areas, including our restaurants. We may in the future have to modify restaurants, for example, by adding access ramps or redesigning certain architectural fixtures, to provide service to or make reasonable accommodations for disabled persons. The expenses associated with these modifications could be material.

Our operations are also subject to the U.S. Occupational Safety and Health Act, which governs worker health and safety, the U.S. Fair Labor Standards Act, which governs such matters as minimum wages and overtime, and a variety of similar federal, state and local laws that govern these and other employment law matters. In addition, federal, state and local proposals related to paid sick leave or similar matters could, if implemented, materially adversely affect our business, financial condition or results of operations.

Food safety and foodborne illness concerns could have an adverse effect on our business.

We cannot guarantee that our internal controls and training will be fully effective in preventing all food safety issues at our restaurants, including any occurrences of foodborne illnesses such as salmonella, E. coli and Hepatitis A. Further, we may be at a higher risk for food-borne illness outbreaks than some competitors due to our use of fresh ingredients rather than frozen, and our reliance on employees cooking with traditional methods rather than automation. The risk of illnesses associated with our food might also increase in connection with the expansion of our catering business or other situations in which our food is served in conditions that we cannot control. In addition, there is no guarantee that our franchise locations will maintain the high levels of internal controls and training we require at our company-owned restaurants. Furthermore, we and our franchisees rely on third-party vendors, making it difficult to monitor food safety compliance and increasing the risk that foodborne illness would affect multiple locations rather than a single restaurant. Some foodborne illness incidents could be caused by third-party vendors and transporters outside of our control. New illnesses resistant to our current precautions may develop in the future, or diseases with long incubation periods could arise, that could give rise to claims or allegations on a retroactive basis. One or more instances of foodborne illness in any of our restaurants or markets or related to food products we sell could negatively

affect our restaurant sales nationwide if highly publicized on national media outlets or through social media. This risk exists even if it were later determined that the illness was wrongly attributed to us or one of our restaurants. A number of other restaurant chains have experienced incidents related to foodborne illnesses that have had a material adverse effect on their operations. The occurrence of a similar incident at one or more of our restaurants, or negative publicity or public speculation about an incident, could materially adversely affect our business, financial condition or results of operations.

Table of Contents

Compliance with environmental laws may negatively affect our business.

We are subject to federal, state and local laws and regulations concerning waste disposal, pollution, protection of the environment, and the presence, discharge, storage, handling, release and disposal of, and exposure to, hazardous or toxic substances. These environmental laws provide for significant fines and penalties for noncompliance and liabilities for remediation, sometimes without regard to whether the owner or operator of the property knew of, or was responsible for, the release or presence of hazardous toxic substances. Third parties may also make claims against owners or operators of properties for personal injuries and property damage associated with releases of, or actual or alleged exposure to, such hazardous or toxic substances at, on or from our restaurants. Environmental conditions relating to releases of hazardous substances at prior, existing or future restaurant sites could materially adversely affect our business, financial condition or results of operations. Further, environmental laws, and the administration, interpretation and enforcement thereof, are subject to change and may become more stringent in the future, each of which could materially adversely affect our business, financial condition or results of operations.

We rely heavily on certain vendors, suppliers and distributors, which could adversely affect our business.

Our ability to maintain consistent price and quality throughout our restaurants depends in part upon our ability to acquire specified food products and supplies in sufficient quantities from third-party vendors, suppliers and distributors at a reasonable cost. We do not control the businesses of our vendors, suppliers and distributors and our efforts to specify and monitor the standards under which they perform may not be successful. Furthermore, certain food items are perishable, and we have limited control over whether these items will be delivered to us in appropriate condition for use in our restaurants. If any of our vendors or other suppliers are unable to fulfill their obligations to our standards, or if we are unable to find replacement providers in the event of a supply or service disruption, we could encounter supply shortages and incur higher costs to secure adequate supplies, which could materially adversely affect our business, financial condition or results of operations.

In addition, we use various third-party vendors to provide, support and maintain most of our management information systems. We also outsource certain accounting, payroll and human resource functions to business process service providers. The failure of such vendors to fulfill their obligations could disrupt our operations. Additionally, any changes we may make to the services we obtain from our vendors, or new vendors we employ, may disrupt our operations. These disruptions could materially adversely affect our business, financial condition or results of operations.

The effect of changes to healthcare laws in the United States may increase the number of employees who choose to participate in our healthcare plans, which may significantly increase our healthcare costs and negatively impact our financial results.

In 2010, the Patient Protection and Affordable Care Act of 2010 (the "PPCA") was signed into law in the United States to require health care coverage for many uninsured individuals and expand coverage to those already insured. We currently offer and subsidize comprehensive healthcare coverage, primarily for our salaried employees. The healthcare reform law will require us, beginning in July 2015, to offer healthcare benefits to all full-time employees (including full-time hourly employees) that meet certain minimum requirements of coverage and affordability, or face penalties. We expect to offer healthcare benefits to all of our full-time employees beginning in July 2015 and to incur additional expense related to such benefits. It is likely that such benefits will not satisfy the "affordability" requirement of PPCA in all cases, and that we will incur penalties under PPCA as a consequence. Because the calculation of such penalties will depend in part on reporting of employee purchases of health benefits from public exchanges established under the PPCA, and such reporting may lag significantly behind the actual purchases, it may be difficult to estimate such penalties as they are incurred. The healthcare reform law also requires individuals to obtain coverage or face individual penalties, so employees who are currently eligible but elect not to participate in our healthcare plans may find it more advantageous to do so because of such requirement. It is also possible that by making changes or failing to make changes in the healthcare plans offered by us we will become less competitive in the market for our labor. Finally, implementing the requirements of healthcare reform is likely to impose additional administrative costs. The costs and other effects of these new healthcare requirements cannot be determined with certainty, but they may significantly increase our healthcare coverage costs and could materially adversely affect our business, financial condition or results of operations.

Unionization activities or labor disputes may disrupt our operations and affect our profitability.

Although none of our employees are currently covered under collective bargaining agreements, our employees may elect to be represented by labor unions in the future. If a significant number of our employees were to become unionized and collective bargaining agreement terms were significantly different from our current compensation arrangements, it could adversely affect our business, financial condition or results of operations. In addition, a labor dispute involving some or all of our employees may harm our

Table of Contents

reputation, disrupt our operations and reduce our revenues, and resolution of disputes may increase our costs. Potential changes in labor laws, including the possible passage of legislation designed to make it easier for employees to unionize, could increase the likelihood of some or all of our employees being subjected to greater organized labor influence, and could have an adverse effect on our business and financial results by imposing requirements that could potentially increase our costs, reduce our flexibility and impact our employee culture.

As an employer, we may be subject to various employment-related claims, such as individual or class actions or government enforcement actions relating to alleged employment discrimination, employee classification and related withholding, wage-hour, labor standards or healthcare and benefit issues. Such actions, if brought against us and successful in whole or in part, may affect our ability to compete or could materially adversely affect our business, financial condition or results of operations.

Changes in employment laws may adversely affect our business.

Various federal and state labor laws govern the relationship with our employees and affect operating costs. These laws include employee classification as exempt/non-exempt for overtime and other purposes, minimum wage requirements, unemployment tax rates, workers' compensation rates, immigration status and other wage and benefit requirements. Significant additional government-imposed increases in the following areas could materially affect our business, financial condition, operating results or cash flow:

- minimum wages;
- mandatory health benefits;
- vacation accruals;
- paid leaves of absence, including paid sick leave; and
- tax reporting.

In addition, various states in which we operate are considering or have already adopted new immigration laws or enforcement programs, and the U.S. Congress and Department of Homeland Security from time to time consider and may implement changes to federal immigration laws, regulations or enforcement programs as well. Some of these changes may increase our obligations for compliance and oversight, which could subject us to additional costs and make our hiring process more cumbersome, or reduce the availability of potential employees. Although we require all workers to provide us with government-specified documentation evidencing their employment eligibility, some of our employees may, without our knowledge, be unauthorized workers. We currently participate in the "E-Verify" program, an Internet-based, free program run by the United States government to verify employment eligibility, in all of our restaurants and in our corporate support office. However, use of the "E-Verify" program does not guarantee that we will properly identify all applicants who are ineligible for employment. Unauthorized workers are subject to deportation and may subject us to fines or penalties, and if any of our workers are found to be unauthorized we could experience adverse publicity that negatively impacts our brand and may make it more difficult to hire and keep qualified employees. Termination of a significant number of employees who were unauthorized employees may disrupt our operations, cause temporary increases in our labor costs as we train new employees and result in additional adverse publicity. We could also become subject to fines, penalties and other costs related to claims that we did not fully comply with all recordkeeping obligations of federal and state immigration compliance laws. These factors could materially adversely affect our business, financial condition or results of operations.

We rely in part on our franchisees, and if our franchisees cannot develop or finance new restaurants, build them on suitable sites or open them on schedule, our growth and success may be affected.

We rely in part on our franchisees and the manner in which they operate their locations to develop and promote our business. Although we have developed criteria to evaluate and screen prospective franchisees, we cannot be certain that our franchisees will have the business acumen or financial resources necessary to operate successful franchises in their franchise areas and state franchise laws may limit our ability to terminate or modify these franchise arrangements. Moreover, despite our training, support and monitoring, franchisees may not successfully operate restaurants in a manner consistent with our standards and requirements, or may not hire and train qualified managers and other restaurant personnel. The failure of our franchisees to operate their franchises successfully could have a material adverse effect on us, our reputation, our brand and our ability to attract prospective franchisees and could materially adversely affect our business, financial condition or results of operations.

Table of Contents

Franchisees may not have access to the financial or management resources that they need to open the restaurants contemplated by their agreements with us, or be able to find suitable sites on which to develop them, or they may elect to cease development for other reasons. Franchisees may not be able to negotiate acceptable lease or purchase terms for the sites, obtain the necessary permits and government approvals or meet construction schedules. Any of these problems could slow our growth and reduce our franchise revenues. Additionally, our franchisees typically depend on financing from banks and other financial institutions, which may not always be available to them, in order to construct and open new restaurants. The lack of adequate financing could adversely affect the number and rate of new restaurant openings by our franchisees and adversely affect our future franchise revenues.

A franchisee bankruptcy could have a substantial negative impact on our ability to collect payments due under such franchisee's franchise arrangements. In a franchisee bankruptcy, the bankruptcy trustee may reject its franchise arrangements pursuant to Section 365 under the United States bankruptcy code, in which case there would be no further royalty payments from such franchisee, and there can be no assurance as to the proceeds, if any, that may ultimately be recovered in a bankruptcy proceeding of such franchisee in connection with a damage claim resulting from such rejection.

Failure to support our expanding franchise system could have a material adverse effect on our business, financial condition or results of operations.

Our growth strategy depends in part on expanding our franchise network, which will require the implementation of enhanced business support systems, management information systems, financial controls and other systems and procedures as well as additional management, franchise support and financial resources. We may not be able to manage our expanding franchise system effectively. Failure to provide our franchisees with adequate support and resources could materially adversely affect both our new and existing franchisees as well as cause disputes between us and our franchisees and potentially lead to material liabilities. Any of the foregoing could materially adversely affect our business, financial condition or results of operations.

We have limited control over our franchisees and our franchisees could take actions that could harm our business. Franchisees are independent contractors and are not our employees, and we do not exercise control over their day-to-day operations. We provide training and support to franchisees, but the quality of franchised restaurant operations may be diminished by any number of factors beyond our control. Consequently, franchisees may not successfully operate restaurants in a manner consistent with our standards and requirements, or may not hire and train qualified managers and other restaurant personnel. If franchisees do not meet our standards and requirements, our image and reputation, and the image and reputation of other franchisees, may suffer materially and system-wide sales could decline significantly.

Franchisees, as independent business operators, may from time to time disagree with us and our strategies regarding the business or our interpretation of our, and their, rights and obligations under franchise and development agreements. This may lead to disputes with our franchisees in the future. These disputes may divert the attention of our management and our franchisees from operating our restaurants and affect our image and reputation and our ability to attract franchisees in the future, which could materially adversely affect our business, financial condition or results of operations.

If we or our franchisees face labor shortages or increased labor costs, our growth and operating results could be adversely affected.

Labor is a primary component in the cost of operating our restaurants. If we or our franchisees face labor shortages or increased labor costs because of increased competition for employees, higher employee turnover rates, increases in the federal, state or local minimum wage or other employee benefits costs (including costs associated with health insurance coverage), our operating expenses could increase and our growth could be adversely affected. In addition, our success depends in part upon our and our franchisees' ability to attract, motivate and retain a sufficient number of well-qualified restaurant operators and management personnel, as well as a sufficient number of other qualified employees, including customer service and kitchen staff, to keep pace with our expansion schedule. Qualified individuals needed to fill these positions are in short supply in some geographic areas. In addition, restaurants have traditionally experienced relatively high employee turnover rates. Although we have not yet experienced significant problems in recruiting or retaining employees, our and our franchisees' ability to recruit and retain such individuals

may delay the planned openings of new restaurants or result in higher employee turnover in existing restaurants, which could have a material adverse effect on our business, financial condition or results of operations. If we or our franchisees are unable to continue to recruit and retain sufficiently qualified individuals, our business and our growth could be adversely affected. Competition for these employees could require us or our franchisees to pay higher wages, which could result in higher labor costs. In addition increases in the minimum wage would increase our labor costs. Additionally, costs associated

Table of Contents

with workers' compensation are rising, and these costs may continue to rise in the future. We may be unable to increase our menu prices in order to pass these increased labor costs on to consumers, in which case our margins would be negatively affected, which could materially adversely affect our business, financial condition or results of operations.

We depend on the services of key executives, the loss of which could materially harm our business.

Our senior executives have been instrumental in setting our strategic direction, operating our business, identifying, recruiting and training key personnel, identifying expansion opportunities and arranging necessary financing. Losing the services of any of these individuals could materially adversely affect our business until a suitable replacement is found. We believe that these individuals cannot easily be replaced with executives of equal experience and capabilities. Although we have employment agreements with our Chief Executive Officer and our President and Chief Operating Officer, we cannot prevent them from terminating their employment with us.

Changes in economic conditions could materially affect our ability to maintain or increase sales at our restaurants or open new restaurants.

The restaurant industry depends on consumer discretionary spending. The United States in general or the specific markets in which we operate may suffer from depressed economic activity, recessionary economic cycles, higher fuel or energy costs, low consumer confidence, high levels of unemployment, reduced home values, increases in home foreclosures, investment losses, personal bankruptcies, reduced access to credit or other economic factors that may affect consumers' discretionary spending. Economic conditions may remain volatile and may depress consumer confidence and discretionary spending. Traffic in our restaurants could decline if consumers choose to dine out less frequently or reduce the amount they spend on meals while dining out. Negative economic conditions (including negative economic conditions resulting from war, terrorist activities, global economic occurrences or trends or other geo-political events) might cause consumers to make long-term changes to their discretionary spending behavior, including dining out less frequently on a permanent basis. If restaurant sales decrease, our profitability could decline as we spread fixed costs across a lower level of sales. Reductions in staff levels, asset impairment charges and potential restaurant closures could result from prolonged negative restaurant sales, which could materially adversely affect our business, financial condition or results of operations.

Health concerns arising from outbreaks of viruses may have an adverse effect on our business.

The United States and other countries have experienced, or may experience in the future, outbreaks of neurological diseases or other diseases or viruses, such as norovirus, influenza, H1N1 and Ebola. If a virus is transmitted by human contact, our employees or customers could become infected, or could choose, or be advised, to avoid gathering in public places, any one of which could materially adversely affect our business, financial condition or results of operations.

Changes in food and supply costs could adversely affect our results of operations.

Our profitability depends in part on our ability to anticipate and react to changes in food and supply costs. Shortages or interruptions in the availability of certain supplies caused by seasonal fluctuations, unanticipated demand, problems in production or distribution, food contamination, product recalls, government regulations, inclement weather or other conditions could adversely affect the availability, quality and cost of our ingredients, which could harm our operations. Weather related issues, such as freezes or drought, may also lead to temporary spikes in the prices of some ingredients such as produce or meats. Increasing weather volatility or other long-term changes in global weather patterns, including any changes associated with global climate change, could have a significant impact on the price or availability of some of our ingredients. Any increase in the prices of the food products most critical to our menu, such as pasta, beef, chicken, wheat flour, cheese and other dairy products, tofu and vegetables, could adversely affect our operating results. Although we try to manage the impact that these fluctuations have on our operating results, we remain susceptible to increases in food costs as a result of factors beyond our control, such as general economic conditions, seasonal fluctuations, weather conditions, demand, food safety concerns, generalized infectious diseases, product recalls and government regulations. For example, higher diesel prices have in some cases resulted in the imposition of surcharges on the delivery of commodities to our distributors, which they have generally passed on to us to the extent permitted under our arrangements with them.

If any of our distributors or suppliers performs inadequately, or our distribution or supply relationships are disrupted for any reason, our business, financial condition, results of operations or cash flows could be adversely affected. Although we often enter into contracts for the purchase of food products and supplies, we do not have long-term contracts for the purchase of all of such food products and supplies. As a result, we may not be able to anticipate or react to changing food costs by adjusting our purchasing practices or menu prices, which could cause our operating results to deteriorate. If we cannot replace or engage distributors or

Table of Contents

suppliers who meet our specifications in a short period of time, that could increase our expenses and cause shortages of food and other items at our restaurants, which could cause a restaurant to remove items from its menu. If that were to happen, affected restaurants could experience significant reductions in sales during the shortage or thereafter, if customers change their dining habits as a result. Our focus on a limited menu would make the consequences of a shortage of a key ingredient more severe. In addition, because we provide moderately priced food, we may choose not to, or may be unable to, pass along commodity price increases to consumers. These potential changes in food and supply costs could materially adversely affect our business, financial condition or results of operations.

Failure to receive frequent deliveries of fresh food ingredients and other supplies could harm our operations.

Our ability to maintain our menu depends in part on our ability to acquire ingredients that meet our specifications from reliable suppliers. We currently import ingredients from many different countries. Shortages or interruptions in the supply of ingredients caused by unanticipated demand, problems in production or distribution, food contamination, inclement weather or other conditions could adversely affect the availability, quality and cost of our ingredients, which could harm our operations. If any of our distributors or suppliers performs inadequately, or our distribution or supply relationships are disrupted for any reason, our business, financial condition or results of operations could be adversely affected. If we cannot replace or engage distributors or suppliers who meet our specifications in a short period of time, that could increase our expenses and cause shortages of food and other items at our restaurants, which could cause a restaurant to remove items from its menu. If that were to happen, affected restaurants could experience significant reductions in sales during the shortage or thereafter, if customers change their dining habits as a result. Our focus on a limited menu would make the consequences of a shortage of a key ingredient more severe. This reduction in sales could materially adversely affect our business, financial condition or results of operations.

New information or attitudes regarding diet and health could result in changes in regulations and consumer consumption habits that could adversely affect our results of operations.

Regulations and consumer eating habits may change as a result of new information or attitudes regarding diet and health. Such changes may include federal, state and local regulations that impact the ingredients and nutritional content of the food and beverages we offer. The success of our restaurant operations is dependent, in part, upon our ability to effectively respond to changes in any consumer health regulations and our ability to adapt our menu offerings to trends in food consumption. If consumer health regulations or consumer eating habits change significantly, we may choose or be required to modify or delete certain menu items, which may adversely affect the attractiveness of our restaurants to new or returning customers. To the extent we are unwilling or unable to respond with appropriate changes to our menu offerings, it could materially affect consumer demand and have an adverse impact on our business, financial condition or results of operations.

Government regulation and consumer eating habits may impact our business as a result of changes in attitudes regarding diet and health or new information regarding the adverse health effects of consuming certain menu offerings. These changes have resulted in, and may continue to result in, laws and regulations requiring us to disclose the nutritional content of our food offerings, and they have resulted, and may continue to result in, laws and regulations affecting permissible ingredients and menu offerings. For example, a number of states, counties and cities have enacted menu labeling laws requiring multi-unit restaurant operators to disclose to consumers certain nutritional information, or have enacted legislation restricting the use of certain types of ingredients in restaurants. These requirements may be different or inconsistent with requirements under the Patient Protection and Affordable Care Act (the "PPACA"), which establishes a uniform, federal requirement for certain restaurants to post nutritional information on their menus. Specifically, the PPACA requires chain restaurants with 20 or more locations operating under the same name and offering substantially the same menus to publish the total number of calories of standard menu items on menus and menu boards, along with a statement that puts this calorie information in the context of a total daily calorie intake. These inconsistencies could be challenging for us to comply with in an efficient manner. The PPACA also requires covered restaurants to provide to consumers, upon request, a written summary of detailed nutritional information for each standard menu item, and to provide a statement on menus and menu boards about the availability of this information upon request. An unfavorable report on, or reaction to, our menu ingredients, the size of our portions or the nutritional content of our menu items could negatively influence the demand for our offerings.

Compliance with current and future laws and regulations regarding the ingredients and nutritional content of our menu items may be costly and time-consuming. Additionally, if consumer health regulations or consumer eating habits change significantly, we may be required to modify or discontinue certain menu items, and we may experience higher costs associated with the implementation of those changes. The risks and costs associated with nutritional disclosures on our menus could also impact our operations, particularly given differences among applicable legal requirements and practices within the restaurant industry with respect to testing and

Table of Contents

disclosure, ordinary variations in food preparation among our own restaurants, and the need to rely on the accuracy and completeness of nutritional information obtained from third-party suppliers.

We may not be able to effectively respond to changes in consumer health perceptions or our ability to successfully implement the nutrient content disclosure requirements and to adapt our menu offerings to trends in eating habits. The imposition of menu labeling laws could materially adversely affect our business, financial condition or results of operations, as well as our position within the restaurant industry in general.

We expect to need capital in the future, and we may not be able to raise that capital on acceptable terms.

Developing our business will require significant capital in the future. To meet our capital needs, we expect to rely on our cash flow from operations and third-party financing. Third-party financing in the future may not, however, be available on terms favorable to us, or at all. Our ability to obtain additional funding will be subject to various factors, including market conditions, our operating performance, lender sentiment and our ability to incur additional debt in compliance with other contractual restrictions such as financial covenants under our credit facility or other debt documents. These factors may make the timing, amount, terms and conditions of additional financings unattractive. Our inability to raise capital could impede our growth and could materially adversely affect our business, financial condition or results of operations.

We are subject to all of the risks associated with leasing space subject to long-term non-cancelable leases.

We do not own any real property. Payments under our operating leases account for a significant portion of our operating expenses and we expect the new restaurants we open in the future will similarly be leased. Our leases generally have an initial term of ten years and generally can be extended only in five-year increments (at increased rates). All of our leases require a fixed annual rent, although some require the payment of additional rent if restaurant sales exceed a negotiated amount. Generally, our leases are "net" leases, which require us to pay all of the cost of insurance, taxes, maintenance and utilities. We generally cannot cancel these leases. Additional sites that we lease are likely to be subject to similar long-term non-cancelable leases. If an existing or future restaurant is not profitable, and we decide to close it, we may nonetheless be committed to perform our obligations under the applicable lease including, among other things, paying the base rent for the balance of the lease term. In addition, as each of our leases expires, we may fail to negotiate renewals, either on commercially acceptable terms or at all, which could cause us to pay increased occupancy costs or to close restaurants in desirable locations. These potential increased occupancy costs and closed restaurants could materially adversely affect our business, financial condition or results of operations.

We may not be able to adequately protect our intellectual property, which could harm the value of our brand and adversely affect our business.

Our intellectual property is material to the conduct of our business. Our ability to implement our business plan successfully depends in part on our ability to further build brand recognition using our trademarks, service marks, trade dress and other proprietary intellectual property, including our name and logos and the unique ambience of our restaurants. While it is our policy to protect and defend vigorously our rights to our intellectual property, we cannot predict whether steps taken by us to protect our intellectual property rights will be adequate to prevent misappropriation of these rights or the use by others of restaurant features based upon, or otherwise similar to, our concept. It may be difficult for us to prevent others from copying elements of our concept and any litigation to enforce our rights will likely be costly and may not be successful. Although we believe that we have sufficient rights to all of our trademarks and service marks, we may face claims of infringement that could interfere with our ability to market our restaurants and promote our brand. Any such litigation may be costly and divert resources from our business. Moreover, if we are unable to successfully defend against such claims, we may be prevented from using our trademarks or service marks in the future and may be liable for damages, which in turn could materially adversely affect our business, financial condition or results of operations.

We may incur costs resulting from breaches of security of confidential consumer information related to our electronic processing of credit and debit card transactions.

The majority of our restaurant sales are by credit or debit cards. Other restaurants and retailers have experienced security breaches in which credit and debit card information has been stolen. We may in the future become subject to claims for purportedly fraudulent transactions arising out of the actual or alleged theft of credit or debit card information, and we may also be subject to lawsuits or other proceedings relating to these types of incidents. In

addition, most states have enacted legislation requiring notification of security breaches involving personal information, including credit and debit card information. Any such claim or proceeding could

18

Table of Contents

cause us to incur significant unplanned expenses, which could have an adverse impact on our financial condition and results of operations. Further, adverse publicity resulting from these allegations may have a material adverse effect on us and our restaurants.

We rely heavily on information technology, and any material failure, weakness, interruption or breach of security could prevent us from effectively operating our business.

We rely heavily on information systems, including point-of-sale processing in our restaurants, for management of our supply chain, payment of obligations, collection of cash, credit and debit card transactions and other processes and procedures. Our ability to efficiently and effectively manage our business depends significantly on the reliability and capacity of these systems. Our operations depend upon our ability to protect our computer equipment and systems against damage from physical theft, fire, power loss, telecommunications failure or other catastrophic events, as well as from internal and external security breaches, viruses and other disruptive problems. The failure of these systems to operate effectively, maintenance problems, upgrading or transitioning to new platforms, or a breach in security of these systems could result in delays in customer service and reduce efficiency in our operations. Remediation of such problems could result in significant, unplanned capital investments.

We could be party to litigation that could adversely affect us by distracting management, increasing our expenses or subjecting us to material money damages and other remedies.

Our customers occasionally file complaints or lawsuits against us alleging we caused an illness or injury they suffered at or after a visit to our restaurants, or that we have problems with food quality or operations. We are also subject to a variety of other claims arising in the ordinary course of our business, including personal injury claims, contract claims and claims alleging violations of federal and state law regarding workplace and employment matters, equal opportunity, discrimination and similar matters, and we could become subject to class action or other lawsuits related to these or different matters in the future. Regardless of whether any claims against us are valid, or whether we are ultimately held liable, claims may be expensive to defend and may divert time and money away from our operations and hurt our performance. A judgment in excess of our insurance coverage for any claims could materially and adversely affect our financial condition or results of operations. Any adverse publicity resulting from these allegations may also materially and adversely affect our reputation or prospects, which in turn could materially adversely affect our business, financial condition or results of operations.

We are subject to state and local "dram shop" statutes, which may subject us to uninsured liabilities. These statutes generally allow a person injured by an intoxicated person to recover damages from an establishment that wrongfully served alcoholic beverages to the intoxicated person. Because a plaintiff may seek punitive damages, which may not be fully covered by insurance, this type of action could have an adverse impact on our financial condition or results of operations. A judgment in such an action significantly in excess of, or not covered by, our insurance coverage could adversely affect our business, financial condition or results of operations. Further, adverse publicity resulting from any such allegations may adversely affect us and our restaurants taken as a whole.

In addition, the restaurant industry has been subject to a growing number of claims based on the nutritional content of food products sold and disclosure and advertising practices. We may also be subject to this type of proceeding in the future and, even if we are not, publicity about these matters (particularly directed at the quick-service or fast casual segments of the industry) may harm our reputation and could materially adversely affect our business, financial condition or results of operations.

Our current insurance may not provide adequate levels of coverage against claims.

There are types of losses we may incur that cannot be insured against or that we believe are not economically reasonable to insure. Such losses could have a material adverse effect on our business and results of operations. In addition, we self-insure a significant portion of expected losses under our workers' compensation, general liability, employee health and property insurance programs. Unanticipated changes in the actuarial assumptions and management estimates underlying our reserves for these losses could result in materially different amounts of expense under these programs, which could have a material adverse effect on our financial condition, results of operations and liquidity. Failure to obtain and maintain adequate directors' and officers' insurance would likely adversely affect our ability to attract and retain qualified officers and directors.

Table of Contents

The Company is subject to the risks presented by acquisitions.

As part of our expansion efforts, the Company has acquired some of its franchised restaurants in the past. In the future, the Company may, from time to time, consider opportunistic acquisitions of restaurants operated by franchisees or other operators. Any future acquisitions will be accompanied by the risks commonly encountered in acquisitions. These risks include among other things:

- the difficulty of integrating operations and personnel;
- the potential disruption to our ongoing business;
- the potential distraction of management, the inability to maintain uniform standards, controls procedures and policies;
- and
- impairment of relations with team members and guests as a result of changes in ownership and management.

Failure to obtain and maintain required licenses and permits or to comply with alcoholic beverage or food control regulations could lead to the loss of our liquor and food service licenses and, thereby, harm our business.

The restaurant industry is subject to various federal, state and local government regulations, including those relating to the sale of food and alcoholic beverages. Such regulations are subject to change from time to time. The failure to obtain and maintain these licenses, permits and approvals could adversely affect our operating results. Typically, licenses must be renewed annually and may be revoked, suspended or denied renewal for cause at any time if governmental authorities determine that our conduct violates applicable regulations. Difficulties or failure to maintain or obtain the required licenses and approvals could adversely affect our existing restaurants and delay or result in our decision to cancel the opening of new restaurants, which would adversely affect our business.

Alcoholic beverage control regulations generally require our restaurants to apply to a state authority and, in certain locations, county or municipal authorities for a license that must be renewed annually and may be revoked or suspended for cause at any time. Alcoholic beverage control regulations relate to numerous aspects of daily operations of our restaurants, including minimum age of patrons and employees, hours of operation, advertising, trade practices, wholesale purchasing, other relationships with alcohol manufacturers, wholesalers and distributors, inventory control and handling, storage and dispensing of alcoholic beverages. Any future failure to comply with these regulations and obtain or retain liquor licenses could adversely affect our business, financial condition or results of operations.

Changes to accounting rules or regulations may adversely affect our results of operations.

Changes to existing accounting rules or regulations may impact our future results of operations or cause the perception that we are more highly leveraged. Other new accounting rules or regulations and varying interpretations of existing accounting rules or regulations have occurred and may occur in the future. For instance, accounting regulatory authorities have indicated that they may begin to require lessees to capitalize operating leases in their financial statements in the next few years. If adopted, such change would require us to record significant capital lease obligations on our balance sheet and make other changes to our financial statements. This and other future changes to accounting rules or regulations could materially adversely affect our financial condition or results of operations.

Pursuant to the recently enacted JOBS Act, our independent registered public accounting firm will not be required to attest to the effectiveness of our internal control over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act for so long as we are an "emerging growth company."

Section 404 of the Sarbanes-Oxley Act requires annual management assessments of the effectiveness of our internal control over financial reporting, starting with the second annual report that we file with the SEC as a public company, and generally requires in the same report a report by our independent registered public accounting firm on the effectiveness of our internal control over financial reporting. However, under the recently enacted JOBS Act, our independent registered public accounting firm will not be required to attest to the effectiveness of our internal control over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act until we are no longer an "emerging growth company." We could be an "emerging growth company" until the end of our 2018 fiscal year.

Table of Contents

Failure of our internal control over financial reporting could adversely affect our business and financial results. Our management is responsible for establishing and maintaining effective internal control over financial reporting under Section 404 of the Sarbanes-Oxley Act of 2002. Internal control over financial reporting is a process to provide reasonable assurance regarding the reliability of financial reporting for external purposes in accordance with GAAP. Because of its inherent limitations, internal control over financial reporting is not intended to provide absolute assurance that we would prevent or detect a misstatement of our financial statements or fraud. Any failure to maintain an effective system of internal control over financial reporting could limit our ability to report our financial results accurately and timely or to detect and prevent fraud. The identification of a material weakness could indicate a lack of controls adequate to generate accurate financial statements that, in turn, could cause a loss of investor confidence and decline in the market price of our common stock. We cannot assure you that we will be able to timely remediate any material weaknesses that may be identified in future periods or maintain all of the controls necessary for continued compliance. Likewise, we cannot assure you that we will be able to retain sufficient skilled finance and accounting personnel, especially in light of the increased demand for such personnel among publicly traded companies.

Our principal stockholders and their affiliates own a substantial portion of our outstanding equity, and their interests may not always coincide with the interests of the other holders.

As of December 30, 2014, Catterton, certain of its affiliates and Argentia beneficially owned in the aggregate shares representing approximately 48.0% of our outstanding voting power, assuming no conversion of Class B common stock into common stock. Persons associated with Catterton, Argentia and PSPIB currently serve on our board of directors. Catterton and certain of its affiliates beneficially own, in the aggregate, shares representing approximately 22.9% of our outstanding equity interests and approximately 24.2% of our outstanding voting power as of December 30, 2014. Argentia beneficially owns shares representing approximately 27.7% of our outstanding equity interests and approximately 23.8% of our outstanding voting power as of December 30, 2014. As a result, Catterton, certain of its affiliates and Argentia could continue to potentially have significant influence over all matters presented to our stockholders for approval, including election and removal of our directors and change in control transactions. The interests of Catterton, certain of its affiliates and Argentia may not always coincide with the interests of the other holders of our common stock.

We do not intend to pay dividends for the foreseeable future.

We have never declared or paid any cash dividends on our common stock, except for the Class C common stock dividend paid to Argentia, the previous holder of the one outstanding share of our Class C common stock, which was redeemed in connection with our initial public offering. For the foreseeable future, we intend to retain any earnings to finance the development and expansion of our business, and we do not anticipate paying any cash dividends on our common stock. See Item 5. "Market for the Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities-Dividends."

Provisions in our charter documents and Delaware law may delay or prevent our acquisition by a third party.

Our amended and restated certificate of incorporation and bylaws, and Delaware law, contain several provisions that may make it more difficult for a third party to acquire control of us without the approval of our board of directors. For example, we have a classified board of directors with three-year staggered terms, which could delay the ability of stockholders to change membership of a majority of our board of directors. These provisions may make it more difficult or expensive for a third party to acquire a majority of our outstanding equity interests. These provisions also may delay, prevent or deter a merger, acquisition, tender offer, proxy contest or other transaction that might otherwise result in our stockholders receiving a premium over the market price for their common stock.

ITEM 1B. Unresolved Staff Comments

None.

Table of Contents

ITEM 2. Properties

As of December 30, 2014, we and our franchisees operated 439 restaurants in 32 states and the District of Columbia. Our restaurants are typically 2,600 to 2,700 square feet and are located in a variety of suburban, urban and small markets. We lease the property for our central support office and all of the properties on which we operate restaurants. The chart below shows the locations of our company-owned and franchised restaurants as of December 30, 2014.

State	Company-owned	Franchised	Total
California	16	—	16
Colorado	56	—	56
Connecticut	—	1	1
Delaware	3	—	3
District of Columbia	4	—	4
Florida	2	—	2
Idaho	3	—	3
Illinois	50	4	54

Table of Contents

We are obligated under non-cancelable leases for our restaurants and our central support office. Our restaurant leases generally have initial terms of 10 years with two or more five-year extensions. Our restaurant leases generally have renewal options and may require us to pay a proportionate share of real estate taxes, insurance, common area maintenance charges and other operating costs. Some restaurant leases provide for contingent rental payments based on sales thresholds, although we generally do not expect to pay significant contingent rent on these properties based on the thresholds in those leases.

ITEM 3. Legal Proceedings

As previously disclosed in the Quarterly Reports on Form 10-Q filed on April 30, 2014, August 14, 2014, and November 6, 2014, the Company is named as a defendant in an action filed in the Superior Court of Delaware in New Castle County, entitled The State of Delaware, William French v. Card Compliant, LLC, et. al. The case was filed under seal in June 2013 and was unsealed on March 26, 2014. The complaint in this case alleges that a number of large retailers and restaurant companies, including the Company, knowingly refused to fulfill obligations under Delaware's Abandoned Property Law by failing to report and deliver "unclaimed gift card funds" to the State of Delaware, and knowingly made, used or caused to be made or used, false statements and records to conceal, avoid or decrease an obligation to pay or transmit money to Delaware in violation of the Delaware False Claims and Reporting Act. The complaint seeks an order that the Company cease and desist from violating the Delaware False Claims and Reporting Act, monetary damages (including treble damages under the False Claims and Reporting Act), penalties, and attorneys' fees and costs. The case was removed to United States Federal District Court for the District of Delaware, and plaintiffs filed a motion to remand the case to the Superior Court for the State of Delaware, which was granted. The Company has also filed a motion to dismiss the complaint. The case is at an early stage and the Company is therefore unable to make a reasonable estimate of the probable loss or range of losses, if any, that might arise from this matter. The Company intends to vigorously defend this action.

In the normal course of business, the Company is subject to other proceedings, lawsuits and claims. Such matters are subject to many uncertainties, and outcomes are not predictable with assurance. Consequently, the Company is unable to ascertain the ultimate aggregate amount of monetary liability or financial impact with respect to these matters as of December 30, 2014. These matters could affect the operating results of any one financial reporting period when resolved in future periods. The Company believes that an unfavorable outcome with respect to these matters is remote or a potential range of loss is not material to its consolidated financial statements. Significant increases in the number of these claims, or one or more successful claims that result in greater liabilities than they currently anticipate, could materially and adversely affect our business, financial condition, results of operations or cash flows.

ITEM 4. Mine Safety Disclosures

Not applicable.

PART II

ITEM 5. Market for the Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Our common stock has traded on the Nasdaq Global Select Market under the symbol NDLS since it began trading on June 28, 2013, the date of our initial public offering. The following table sets forth, for the periods indicated, the high and low sales prices per share of our common stock as reported on the Nasdaq Global Select Market.

	High	Low
Fiscal Year 2014		
First quarter (January 1, 2014 - April 1, 2014)	\$41.54	\$33.40
Second quarter (April 2, 2014 - July 1, 2014)	\$39.30	\$30.28
Third quarter (July 2, 2014 - September 30, 2014)	\$34.32	\$17.15
Fourth quarter (October 1, 2014 - December 30, 2014)	\$27.00	\$18.58
Fiscal Year 2013		
Second quarter (June 28, 2013 - July 2, 2013)	\$51.97	\$32.00
Third quarter (July 3, 2013 - October 1, 2013)	\$51.40	\$38.90
Fourth quarter (October 2, 2013 - December 31, 2013)	\$49.75	\$33.67

As of February 19, 2015, there were approximately 40 holders of record of our common stock. The number of holders of record is based upon the actual numbers of holders registered at such date and does not include holders of shares in "street name" or persons, partnerships, associates, corporations or other entities in security position listings maintained by depositories.

Purchases of Equity Securities by the Issuer

We had no share repurchases during the fourth quarter 2014 or during the fiscal year ended 2014.

Stock Performance Graph

The following graph compares the cumulative total shareholder return on our common stock from June 28, 2013 (using the price of which our shares of common stock were initially sold to the public) to December 30, 2014 to that of the total return of the Nasdaq Composite and the S&P 600 Restaurants Index. The comparison assumes \$100 was invested in our common stock on June 28, 2013 and in each of the forgoing indices on June 28, 2013 and assumes the reinvestment of dividends. This graph is furnished and not "filed" with the Securities and Exchange Commission or "soliciting material" under the Securities Exchange Act of 1934 and shall not be incorporated by reference into any such filings, irrespective of any general incorporation contained in such filing.

Table of Contents

The stock price performance included in this graph is not necessarily indicative of future stock price performance.

Dividends

No dividends have been declared or paid on our shares of equity interests, except for the Class C common stock dividend paid to the previous holder of the one outstanding share of our Class C common stock, which we redeemed upon our initial public offering. We do not anticipate paying any cash dividends on shares of our Class A common stock, or any of our equity interests, in the foreseeable future. We currently intend to retain any earnings to finance the development and expansion of our business. Any future determination to pay dividends will be at the discretion of our board of directors and will be dependent upon then-existing conditions, including our earnings, capital requirements, results of operations, financial condition, business prospects and other factors that our board of directors considers relevant. Further, the Company's credit facility contains provisions that limit its ability to pay dividends on its common stock. See "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Certain Relationships and Related Transactions, and Director Independence" for additional information regarding our financial condition.

Table of Contents

ITEM 6. Selected Financial Data

The following table summarizes the consolidated historical financial and operating data for the periods indicated. The statements of income data for the fiscal years ended December 30, 2014, December 31, 2013 and January 1, 2013 and the balance sheet data as of December 30, 2014 and December 31, 2013 have been derived from our audited consolidated financial statements included in Item 8. "Financial Statements and Supplementary Data," and the statements of income data from the fiscal years ended January 3, 2012 and December 28, 2010 and the balance sheet data as of January 1, 2013, January 3, 2012 and December 28, 2010 have been derived from our audited consolidated financial statements not included in this report.

The historical results presented below are not necessarily indicative of the results to be expected for any future period. This information should be read in conjunction with "Risk Factors," "Management's Discussion and Analysis of Financial Condition and Results of Operations" and our audited consolidated financial statements and the related notes included elsewhere in this report.

We operate on a 52- or 53-week fiscal year ending on the Tuesday closest to December 31. Fiscal year 2011, which ended on January 3, 2012, contained 53 weeks, and all other fiscal years presented below contained 52 weeks. We refer to our fiscal years as 2014, 2013, 2012, 2011 and 2010. Our fiscal quarters each contain thirteen weeks, with the exception of the fourth quarter of a 53-week fiscal year, which contains fourteen weeks.

2010 included \$3.7 million of non-cash stock-based compensation expense and \$0.3 million of expense for our portion of payroll taxes related to the 2010 Equity Recapitalization. 2013 included \$0.5 million and 2012 and 2011 each included \$1.0 million of management fee expense, respectively, in accordance with our management services agreement and through the Class C common stock dividend paid to the holder of the one outstanding share of our Class C common stock. In connection with our IPO, the management services agreement expired and the one share (1) of Class C common stock was redeemed. In the second quarter of 2013, we incurred \$5.7 million of IPO-related expenses: \$2.0 million of stock-based compensation related to accelerated vesting of outstanding stock options, \$1.2 million of stock-based compensation related to stock options granted to our Chief Executive Officer and President and Chief Operating Officer of which 50% were vested at grant, \$1.7 million of transaction bonuses and related payroll taxes and \$0.8 million in transaction payments to our Equity Sponsors. Additionally, we incurred \$0.7 million of expenses related to our follow-on offering which closed in December of 2013.

(2) AUVs consist of average annualized sales of all company-owned restaurants over the trailing 12 periods in a typical operating year.

(3) Comparable restaurant sales represent year-over-year sales for restaurants open for at least 18 full periods.

(4)

Restaurant contribution represents restaurant revenue less restaurant operating costs which are cost of sales, labor, occupancy and other restaurant operating costs.

(5) As of December 28, 2010, the consolidated balance sheet included \$189.4 million in restricted cash and current liabilities that were temporarily held due to timing of the 2010 Equity Recapitalization.

Table of Contents

ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with Item 6. "Selected Financial Data" and our consolidated financial statements and related notes included in Item 8. "Financial Statements and Supplementary Data." In addition to historical information, this discussion and analysis contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors including, but not limited to, those discussed in Item 1A. "Risk Factors" and elsewhere in this report.

We operate on a 52- or 53- week fiscal year ending on the Tuesday closest to December 31. Fiscal years 2014 and 2013, which ended on December 30, 2014 and December 31, 2013, respectively, each contained 52 weeks. Fiscal year 2011, which ended on January 3, 2012, contained 53 weeks. We refer to our fiscal years as 2014, 2013 and 2012. Our fiscal quarters each contained 13 operating weeks, with the exception of the fourth quarter of 2011, which had 14 operating weeks.

NOODLES & COMPANY

Your World Kitchen

Overview

Noodles & Company is a high growth, fast casual restaurant concept offering lunch and dinner within a fast growing segment of the restaurant industry. We opened our first location in 1995, offering noodle and pasta dishes, staples of many cuisines, with the goal of delivering fresh ingredients and flavors from around the world under one roof. Today, our globally inspired menu includes a wide variety of high quality, cooked-to-order dishes, including noodles and pasta, soups, salads and sandwiches, which are served on china by our friendly team members. We believe we offer our customers value with per person spend of approximately \$8.25 in 2014.

2014 Highlights and Trends

Restaurant Development. New restaurants have contributed substantially to our revenue growth and in 2014, we opened 49 company-owned restaurants and 10 franchise restaurants for a total of 59 restaurants opened system-wide. The Company also purchased 19 restaurants from two franchisees during 2014. As of December 30, 2014, we had 386 company-owned restaurants and 53 franchise restaurants in 32 states and the District of Columbia. In 2015, we anticipate 12% to 14% system-wide unit growth.

Comparable Restaurant Sales. Comparable restaurant sales increased by 0.2% system-wide in 2014. Comparable restaurant sales represent year-over-year sales comparisons for restaurants open for at least 18 full periods.

Catering. During 2014 we rolled out a catering program to all of our restaurants system-wide. We believe there is significant demand for this offering, which is designed for groups of 20 or more people.

Key Measures We Use to Evaluate Our Performance

To evaluate the performance of our business, we utilize a variety of financial and performance measures. These key measures include revenue, average unit volumes ("AUVs"), comparable restaurant sales, restaurant contribution, EBITDA and adjusted EBITDA.

Revenue

Restaurant revenue represents sales of food and beverages in company-owned restaurants. Several factors affect our restaurant revenue in any period, including the number of restaurants in operation and per restaurant sales.

Franchise royalties and fees represent royalty income and initial franchise fees. While we expect that the majority of our revenue and net income growth will be driven by company-owned restaurants, our franchise restaurants remain an important part of our financial success.

Seasonal factors cause our revenue to fluctuate from quarter to quarter. Our revenue per restaurant is typically lower in the first and fourth quarters due to reduced winter and holiday traffic and higher in the second and third quarters. As a result of these factors, our quarterly and annual operating results and comparable restaurant sales may fluctuate significantly.

Table of Contents

Average Unit Volumes ("AUVs")

AUVs consist of the average annualized sales of all company-owned restaurants for the trailing 12 periods. AUVs are calculated by dividing restaurant revenue by the number of operating days within each time period and multiplying by 361, which is equal to the number of operating days we have in a typical year. This measurement allows management to assess changes in consumer traffic and per person spending patterns at our restaurants.

Comparable Restaurant Sales

Comparable restaurant sales refer to year-over-year sales comparisons for the comparable restaurant base. We define the comparable restaurant base to include restaurants open for at least 18 full periods. As of 2014, 2013 and 2012, there were 295, 248 and 216 restaurants, respectively, in our comparable restaurant base for company-owned locations. This measure highlights performance of existing restaurants, as the impact of new restaurant openings is excluded. Comparable restaurant sales growth is generated by increases in traffic, which we calculate as the number of entrées sold, or changes in per person spend, calculated as sales divided by traffic. Per person spend can be influenced by changes in menu prices and the mix and number of items sold per person.

Measuring our comparable restaurant sales allows us to evaluate the performance of our existing restaurant base.

Various factors impact comparable restaurant sales, including:

- consumer recognition of our brand and our ability to respond to changing consumer preferences;
- overall economic trends, particularly those related to consumer spending;
- our ability to operate restaurants effectively and efficiently to meet consumer expectations;
- pricing;
- per person spend and average check amount;
- marketing and promotional efforts;
- local competition;
- trade area dynamics;
- introduction of new and seasonal menu items and limited time offerings; and
- opening of new restaurants in the vicinity of existing locations.

As a result of the 53-week fiscal year 2011, our fiscal year 2012 began one week later than our fiscal year 2011.

Consistent with common industry practice, we present comparable restaurant sales on a calendar-adjusted basis that aligns current year sales weeks with comparable periods in the prior year, regardless of whether they belong to the same fiscal period or not. Since opening new company-owned and franchise restaurants will be a significant component of our revenue growth, comparable restaurant sales are only one measure of how we evaluate our performance.

Restaurant Contribution

Restaurant contribution is defined as restaurant revenue less restaurant operating costs which are cost of sales, labor, occupancy and other restaurant operating costs. We expect restaurant contribution to increase in proportion to the number of new restaurants we open and our comparable restaurant sales growth. Fluctuations in restaurant contribution margin can also be attributed to those factors discussed above for the components of restaurant operating costs.

Table of Contents

EBITDA and Adjusted EBITDA

We define EBITDA as net income before interest expense, provision (benefit) for income taxes and depreciation and amortization. We define adjusted EBITDA as net income before interest expense, debt extinguishment expense, provision (benefit) for income taxes, asset disposals, closure costs and restaurant impairments, depreciation and amortization, stock-based compensation, management fees, IPO-related expenses, follow-on offering expenses, transaction costs and obsolete inventory.

EBITDA and adjusted EBITDA provide clear pictures of our operating results by eliminating certain non-cash expenses that are not reflective of the underlying business performance. We use these metrics to facilitate a comparison of our operating performance on a consistent basis from period to period and to analyze the factors and trends affecting our business.

The following table presents a reconciliation of net income to EBITDA and adjusted EBITDA:

	Fiscal Year Ended				
	December 30, 2014	December 31, 2013	January 1, 2013	January 3, 2012	December 28, 2010
	(in thousands)				
Net income	\$11,428	\$6,665	\$5,163	\$3,829	\$2,378

Management fees ^(a)	—	500	1,000	1,014	—
Stock-based compensation expense ^(b)	1,330	1,127	1,234	1,328	5,894
IPO-related expenses ^(c)	—	5,667	—	—	—
Follow-on offering expenses ^(d)	—	696	—	—	—
Transaction Costs ^(e)	100	—	—	—	—
Adjusted EBITDA ^(f)	\$46,523	\$44,029	\$36,283	\$30,488	\$26,472

Fiscal year 2013 included \$0.5 million in management fee expense, and fiscal years 2012 and 2011 each included \$1.0 million of management fee expense, in accordance with our management services agreement and through the (a) Class C common stock dividend paid to the holder of the one outstanding share of our Class C common stock. In connection with our IPO, the management services agreement expired and the one share of Class C common stock was redeemed.

2010 included \$3.7 million of non-cash stock-based compensation expense and \$0.3 million of expense for our portion of payroll taxes related to the 2010 Equity Recapitalization. The stock-based compensation expense for (b) fiscal year 2013 that was previously reported in our earnings release and Annual Report on Form 10-K for the fiscal year ended December 31, 2013 included \$3.2 million of stock-based compensation related to the accelerated vesting of outstanding stock options upon our IPO that was also included in IPO-related expenses. Accordingly, fiscal year 2013 stock-based compensation expense presented in the table above has been revised accordingly.

Reflects certain expenses incurred in conjunction with the closing of our initial public offering. Amount includes (c) \$2.0 million of stock-based compensation related to accelerated vesting of outstanding stock options, \$1.2 million of stock-based compensation related to stock options granted to our Chief Executive Officer and President and Chief Operations Officer of which 50% were vested at grant, \$1.7 million of transaction bonuses and related payroll tax and \$0.8 million in transaction payments to our Equity Sponsors.

(d) Reflects \$0.7 million of offering expenses related to our follow-on offering completed in December of 2013.

(e) Expenses related to the purchase of 19 franchise restaurants. See Note 2 of our consolidated financial statements, Business Combinations.

Edgar Filing: NOODLES & Co - Form 10-K

Adjusted EBITDA for the fiscal year 2013 that was previously reported in our earnings release and Annual Report on Form 10-K for the fiscal year ended December 31, 2013 included \$3.2 million of stock-based compensation (f) related to the accelerated vesting of outstanding stock options at our IPO that was also included in IPO-related expenses. Accordingly, fiscal year 2013 adjusted EBITDA presented in the table above has been revised accordingly.

Table of Contents

Key Financial Definitions

Cost of Sales

Cost of sales includes the direct costs associated with the food, beverage and packaging of our menu items. Cost of sales also includes any costs related to discounted menu items. Cost of sales is a substantial expense and can be expected to grow proportionally as our restaurant revenue grows. Fluctuations in cost of sales are caused primarily by volatility in the cost of commodity food items and related contracts for such items. Other important factors causing fluctuations in cost of sales include seasonality, discounting activity and restaurant level management of food waste.

Labor Costs

Labor costs include wages, payroll taxes, workers' compensation expense, benefits and bonuses paid to our management teams. Like other expense items, we expect labor costs to grow proportionally as our restaurant revenue grows. Factors that influence fluctuations in our labor costs include minimum wage and payroll tax legislation, the frequency and severity of workers' compensation claims, health care costs and the performance of our restaurants.

Occupancy Costs

Occupancy costs include rent, common area maintenance and real estate tax expense related to our restaurants and is expected to grow proportionally as we open new restaurants.

Other Restaurant Operating Costs

Other restaurant operating costs include the costs of utilities, restaurant-level marketing, credit card processing fees, restaurant supplies, repairs and maintenance and other restaurant operating costs. Like other costs, it is expected to grow proportionally as restaurant revenue grows.

General and Administrative Expense

General and administrative expense is composed of payroll, other compensation, travel, marketing, accounting fees, legal fees and other expenses related to the infrastructure required to support our restaurants. General and administrative expense also includes the non-cash stock compensation expense related to our employee stock incentive plan. General and administrative expense can be expected to grow as we grow, including incremental legal, accounting, insurance and other expenses incurred as a public company.

Depreciation and Amortization

Our principal depreciation and amortization charges relate to depreciation of fixed assets, including leasehold improvements and equipment, from restaurant construction and ongoing maintenance.

Pre-Opening Costs

Pre-opening costs relate to the costs incurred prior to the opening of a restaurant. These include management labor costs, staff labor costs during training, food and supplies utilized during training, marketing costs and other related pre-opening costs. Pre-opening costs also include rent recorded between date of possession and opening date for our restaurants.

Asset Disposals, Closure Costs and Restaurant Impairments

Asset disposals, closure costs and restaurant impairments include the loss on disposal of assets related to retirements and replacement of leasehold improvements or equipment, non-cash restaurant closure and impairment charges.

Debt Extinguishment

In both 2013 and 2012, we amended our credit facility to extend the maturity date and to reduce interest rates on borrowings. As a result of these amendments, a portion of the existing and new fees were treated as debt extinguishment.

Table of Contents

Interest Expense

Interest expense consists primarily of interest on our outstanding indebtedness and amortization of debt issuance costs over the life of the related debt reduced by capitalized interest.

Provision for Income Taxes

Provision for income taxes consists of federal, state and local taxes on our income.

Restaurant Openings, Closures and Relocations

The following table shows restaurants opened, closed or relocated in the years indicated.

	Fiscal Year Ended		
	December 30, 2014	December 31, 2013	January 1, 2013
Company-Owned Restaurant Activity			
Beginning of period	318	276	239
Openings ⁽²⁾	49	43	39
Acquisitions ⁽¹⁾	19	—	—
Closures and relocations ⁽²⁾	—	(1) (2
Restaurants at end of period	386	318	276
Franchise Restaurant Activity			
Beginning of period	62	51	45
Openings	10	11	6
Divestitures ⁽¹⁾	(19) —	—
Restaurants at end of period	53	62	51
Total restaurants	439	380	327

(1) Represents franchise restaurants acquired by the Company.

We account for relocated restaurants under both restaurant openings and closures and relocations. During 2012, we (2) closed one restaurant and relocated another restaurant. In fiscal 2013, we closed one restaurant at the end of its lease term.

Table of Contents

Results of Operations

The following table summarizes key components of our results of operations for the periods indicated as a percentage of our total revenue, except for the components of restaurant operating costs, which are expressed as a percentage of restaurant revenue. Fiscal years 2014, 2013 and 2012 each contained 52 operating weeks. Each fiscal quarter contained 13 weeks.

	Fiscal Year Ended

*Not meaningful.

Fiscal year 2013 included \$500,000 of management fee expense, in accordance with our management services agreement and through the Class C common stock dividend paid to the holder of the one outstanding share of our (1)Class C common stock. In connection with our IPO, the management services agreement expired and the one share of Class C common stock was redeemed. Additionally, we incurred \$0.7 million of expenses related to our follow-on offering which closed in December of 2013.

Revenue

Restaurant revenue increased by \$51.9 million in 2014 compared to 2013. Restaurants not in the comparable restaurant base accounted for \$51.0 million of this increase, with the balance attributed to growth in comparable restaurant sales. Comparable restaurant sales increased by \$0.9 million or 0.3% in 2014, composed of an increase in price and product mix, offset by a decrease in traffic partially attributable to abnormally severe weather in the first quarter of 2014.

Franchise royalties and fees increased by \$1.0 million in 2014 due to 10 new restaurant openings, the cancellation of an area development agreement and an increase in marketing administrative fees from 0.5% in 2013 to 1.0% in 2014, offset by decreased comparable restaurant sales of 0.4% and the loss of royalties and fees from franchise restaurants purchased by the Company.

Table of Contents**Cost of Sales**

Cost of sales increased by \$15.3 million in 2014 compared to 2013, due primarily to the increase in restaurant revenue in 2014. As a percentage of restaurant revenue, cost of sales increased to 26.9% in 2014 from 26.5% in 2013. This increase as a percentage of restaurant revenue was the result of increased promotional activity and an increase in ingredient costs.

Labor Costs

Labor costs increased by \$16.5 million in 2014 compared to 2013, due primarily to the increase in restaurant revenue in 2014. As a percentage of restaurant revenue, labor costs increased to 30.2% in 2014 from 30.0% in 2013. The increase as a percentage of restaurant revenue was the result of an increased percentage of non-comparable base restaurants, which on average have higher labor costs as a percentage of revenue.

Occupancy Costs

Occupancy costs increased by \$7.4 million in 2014 compared to 2013, due primarily to new restaurants. As a percentage of restaurant revenue, occupancy costs increased to 10.7% in 2014, from 10.1% in 2013. The increase was due to an increase in the percentage of restaurants not in the comparable base which, due to not reaching mature volumes, on average have higher occupancy costs as a percentage of revenue.

Other Restaurant Operating Costs

Other restaurant operating costs increased by \$8.5 million in 2014 compared to 2013, due primarily to the increase in restaurant revenue in 2014. As a percentage of restaurant revenue, other restaurant operating costs increased to 13.2% in 2014 from 12.7% in 2013. The increase in other restaurant operating cost percentage was due to costs of restaurants not in the comparable base, as well as increased utility and maintenance costs in 2014.

General and Administrative Expense

General and administrative expense decreased by \$4.5 million in 2014 compared to 2013, due primarily to \$5.7 million of expenses related to the closing of our IPO in the second quarter of 2013 and \$0.7 million of expenses related to the closing of our follow-on offering in the fourth quarter of 2013, offset by our biennial All Managers Conference, which was held during 2014, as well as increased spend in 2014 due to inflation and the support of additional restaurants. The \$5.7 million of expenses related to the closing of our IPO was comprised of \$2.0 million of stock-based compensation related to accelerated vesting of outstanding stock options, \$1.2 million of stock-based compensation related to stock options granted to our Chief Executive Officer and President and Chief Operating Officer, of which 50% were vested at grant, \$1.7 million of transaction bonuses and related payroll taxes and \$0.8 million in transaction payments to our Equity Sponsors.

Excluding the impact of the \$5.7 million of IPO-related expense and \$0.7 million of follow-on offering costs, general and administrative expense as a percentage of revenue decreased to 8.4% in 2013. The decrease to 7.8% in 2014 from 8.4% in 2013 is due to increasing revenue without proportionate increases in general and administrative costs or administrative personnel as well as a decrease in incentive compensation in 2014. General and administrative expense included \$1.5 million and \$4.3 million of stock-based compensation expense in 2014 and 2013, respectively, and \$500,000 of management fees in 2013.

Depreciation and Amortization

Depreciation and amortization increased by \$4.2 million in 2014 compared to 2013, due primarily to an increased number of restaurants. As a percentage of revenue, depreciation and amortization increased to 6.1% in 2014 from 5.9% in 2013, due to depreciation on restaurants not in the comparable base that, on average, have a higher cost basis of assets, as well as investments in technology.

Pre-Opening Costs

Pre-opening costs increased by \$0.6 million in 2014 compared to 2013, due to 49 restaurant openings in 2014 compared to 43 in 2013. As a percentage of revenue, pre-opening costs remained flat at 1.1% in 2014 and 2013.

Table of Contents

Asset Disposals, Closure Costs and Restaurant Impairments

Asset disposals, closure costs and restaurant impairments increased by \$0.2 million in 2014 compared to 2013 due primarily to a \$0.5 million expense for the disposal of furniture and fixture inventory related to the dissolving of a relationship with an overseas vendor, offset by decreased disposals of other assets.

Debt Extinguishment

In 2013, debt extinguishment expense was \$0.6 million as a result the November 2013 amendment to our credit facility that extended the maturity date and reduced the interest rates on borrowings. A portion of the existing and new fees were treated as debt extinguishment expense.

Interest Expense

Interest expense decreased by \$1.8 million in 2014 compared to 2013. The decrease was primarily due to lower average borrowings in 2014 due to the payoff of the majority of our outstanding debt in conjunction with our IPO in 2013.

Provision for Income Taxes

Provision for income taxes increased by \$2.4 million in 2014 compared to 2013, due to an increase in pre-tax net income in 2014, offset by a decrease to our effective income tax rate. Our effective tax rate decreased to 38.4% in 2014 from 41.7% in 2013 primarily due to the impact of non-deductible follow-on offering transaction costs in 2013, offset by increased employment credits in 2014.

Table of Contents

Fiscal Year Ended December 31, 2013 compared to Fiscal Year Ended January 1, 2013

Fiscal year 2013 and 2012 each contained 52 operating weeks. The table below presents our operating results for 2013 and 2012, and the related year-over-year changes:

	Fiscal Year Ended		Increase / (Decrease)		
	December 31, 2013	January 1, 2013	\$	%	
(dollars in thousands)					
Statements of Income Data:

Provision for income taxes	4,767	3,215	1,552	48.3	
Net income	\$6,665	\$5,163	\$1,502	29.1	%

*Not meaningful.

Fiscal year 2013 included \$500,000 of management fee expense and 2012 included \$1.0 million of management fee expense, in accordance with our management services agreement and through the Class C common stock dividend paid to the holder of the one outstanding share of our Class C common stock. In connection with our IPO, (1) the management services agreement expired and the one share of Class C common stock was redeemed.

Additionally, we incurred \$0.7 million of expenses related to our follow-on offering which closed in December of 2013.

Revenue

Restaurant revenue increased by \$49.9 million in 2013 compared to 2012. Restaurants not in the comparable restaurant base accounted for \$40.6 million of this increase, with the balance attributed to growth in comparable restaurant sales. Comparable restaurant sales increased by \$9.3 million or 3.4% in 2013, composed primarily of a modest price increase during 2013 and increases in traffic at our comparable base restaurants.

Franchise royalties and fees increased by \$0.6 million due to 11 new restaurant openings and increased comparable restaurant sales of 0.6% during 2013.

Table of Contents

Cost of Sales

Cost of sales increased by \$12.9 million in 2013 compared to 2012, due primarily to the increase in restaurant revenue in 2013. As a percentage of restaurant revenue, cost of sales decreased to 26.5% in 2013 from 26.6% in 2012. This decrease as a percentage of restaurant revenue was the result of an increase in restaurant menu pricing, partially offset by a minimal increase in food cost.

Labor Costs

Labor costs increased by \$14.6 million in 2013 compared to 2012, due primarily to the increase in restaurant revenue in 2013. As a percentage of restaurant revenue, labor costs decreased to 30.0% in 2013 from 30.1% in 2012. The decrease in labor cost percentage was driven primarily by lower incentive compensation expense.

Occupancy Costs

Occupancy costs increased by \$5.9 million in 2013 compared to 2012, due primarily to new restaurants opened in each of these years. As a percentage of restaurant revenue, occupancy costs increased to 10.1% in 2013, from 9.9% in 2012. The increase was due to an increase in the percentage of restaurants not in the comparable base restaurants which, due to not reaching mature volumes yet, on average have higher occupancy costs as a percentage of revenue.

Other Restaurant Operating Costs

Other restaurant operating costs increased by \$7.7 million in 2013 compared to 2012, due primarily to the increase in restaurant revenue in 2013. As a percentage of restaurant revenue, other restaurant operating costs increased to 12.7% in 2013 from 12.2% in 2012. The increase in other restaurant operating cost percentage was the result of increased restaurant-level marketing costs in the 2013, as well as increased utilities and repair and maintenance costs.

General and Administrative Expense

General and administrative expense increased by \$6.8 million in 2013 compared to 2012, due primarily to \$5.7 million of expenses related to the closing of our IPO in the second quarter of 2013 and \$0.7 million of expenses related to the closing of our follow-on offering in the fourth quarter of 2013. The \$5.7 million of expenses related to the closing of our IPO was comprised of \$2.0 million of stock-based compensation related to accelerated vesting of outstanding stock options, \$1.2 million of stock-based compensation related to stock options granted to our Chief Executive Officer and President and Chief Operating Officer, of which 50% were vested at grant, \$1.7 million of transaction bonuses and related payroll taxes and \$0.8 million in transaction payments to our Equity Sponsors. Excluding the impact of the \$5.7 million of IPO-related expense and \$0.7 million of follow-on offering costs, general and administrative expense as a percentage of revenue decreased to 8.4% in the 2013 from 9.7% in 2012. The decrease is due to increasing revenue without proportionate increases in general and administrative costs or administrative personnel. General and administrative expense includes \$4.3 million and \$1.2 million of stock-based compensation expense in 2013 and 2012, respectively, and \$500,000 and \$1.0 million of management fees in 2013 and 2012, respectively.

Depreciation and Amortization

Depreciation and amortization increased by \$3.9 million in 2013 compared to 2012, due primarily to an increased number of restaurants. As a percentage of revenue, depreciation and amortization increased to 5.9% in 2013 from 5.6% in 2012, due to depreciation on new restaurants and initiatives, partially offset by leverage of increased AUVs.

Pre-Opening Costs

Pre-opening costs increased by \$0.7 million in 2013 compared to 2012, due to 43 restaurant openings in 2013, compared to 39 in 2012. As a percentage of revenue, pre-opening costs increased to 1.1% in 2013 compared to 1.0% in 2012 due to the timing of restaurant openings including rent incurred for locations opening in the first quarter of 2014.

Asset Disposals, Closure Costs and Restaurant Impairments

Asset disposals, closure costs and restaurant impairments decreased by \$0.1 million in 2013 compared to 2012 due primarily to a lease termination and other related closing costs of one restaurant which closed in 2012, which was offset by increased loss on disposal of assets.

Table of Contents

Debt Extinguishment

Debt extinguishment expense was \$0.6 million in 2013 and \$2.6 million in 2012, as a result of amendments in November 2013 and August of 2012, respectively, to our credit facility that extended the maturity date and reduced the interest rates on borrowings. A portion of the existing and new fees were treated as debt extinguishment expense.

Interest Expense

Interest expense decreased by \$2.8 million in 2013 compared to 2012. The decrease was primarily due to lower average borrowings in the first three quarters of 2013 due to the payoff of the majority of our outstanding debt in conjunction with our IPO, and the favorable borrowing rates resulting from the 2012 amendment to our credit facility.

Provision for Income Taxes

Provision for income taxes increased by \$1.6 million in 2013 compared to 2012, due to an increase in pre-tax net income in 2013 and an increase to our effective income tax rate. Our effective tax rate increased to 41.7% in 2013 from 38.4% in 2012 primarily due to the impact of non-deductible follow-on offering transaction costs.

Quarterly Financial Data

The following table presents select historical quarterly consolidated statements of operations data and other operations data for fiscal years 2014 and 2013. This quarterly information has been prepared using our unaudited consolidated financial statements and includes all adjustments consisting only of normal recurring adjustments necessary for a fair presentation of the results of the interim periods.

	Quarter Ended								
	Dec. 30, 2014	Sept. 30, 2014	July 1, 2014	April 1, 2014	Dec. 31, 2013	Oct. 1, 2013	July 2, 2013	April 2, 2013

(1) Restaurant contribution represents restaurant revenue less restaurant operating costs which are cost of sales, labor, occupancy and other restaurant operating costs.

Table of Contents

Liquidity and Capital Resources

Our primary sources of liquidity and cash flows are operating cash flows and borrowings on our revolving line of credit. We use this cash to fund capital expenditures for new restaurant openings, reinvest in our existing restaurants, invest in infrastructure and information technology and maintain working capital. Our working capital position benefits from the fact that we generally collect cash from sales to customers the same day, or in the case of credit or debit card transactions, within several days of the related sale, and we typically have at least 30 days to pay our vendors. We believe that expected cash flow from operations and planned borrowing capacity are adequate to fund debt service requirements, operating lease obligations, capital expenditures and working capital obligations for the next year.

While operations continue to provide cash, our primary use of cash is new restaurant development. Our total capital expenditures for 2014 were \$56.4 million, and we expect to incur capital expenditures of between \$55 million to \$60 million in 2015, of which \$45 million to \$50 million relates to our construction of new restaurants before any reductions for landlord reimbursements, and the remainder relates primarily to reinvestment in existing restaurants and investments in technology. In 2014, excluding two atypical urban sites, we spent on average \$796,000 in development and construction costs per restaurant, net of landlord reimbursements. For new restaurants to be opened in 2015, we anticipate average development costs will be \$750,000 to \$775,000, net of landlord reimbursements.

Cash flows from operating, investing and financing activities are shown in the following table:

	Fiscal Year Ended		
	December 30, 2014	December 31, 2013	January 1, 2013
	(in thousands)		
Net cash provided by operating activities	\$49,027	\$43,634	\$32,069
Net cash used in investing activities	(72,060)	(54,429)	(47,384)
Net cash provided by financing activities	23,971	11,182	15,373
Net increase in cash and cash equivalents	\$938	\$387	\$58

Operating Activities

Net cash provided by operating activities of \$49.0 million for 2014 resulted primarily from net income, adjusted for items such as depreciation and amortization and stock-based compensation expense. The \$5.4 million increase in 2014 over 2013, was primarily driven by an increase in net income and accounts payable due to the timing of payments, offset by the timing of accrued incentive compensation payments as well as investments in inventory items for catering.

Net cash provided by operating activities increased in 2013 from 2012 primarily due to increased net income, adjusted for items such as depreciation and amortization, stock-based compensation expense and the amortization and write-off of debt issuance costs. The increase was also impacted by changes in working capital including the collection of tenant improvement receivables, the change in deferred rent due to a larger restaurant base and an increase in accrued expenses and other liabilities due to growth.

Investing Activities

Net cash used in investing activities was primarily related to new restaurant capital expenditures for the opening of 49, 43 and 39 restaurants, respectively, in 2014, 2013 and 2012, and infrastructure investment. The increase in investing activities in 2014 was also a result of purchasing 19 restaurants from two franchisees. We used approximately \$15.7 million of cash flows for acquisitions in 2014. We acquired substantially all of the assets of 16 restaurants from our Indiana franchisee and an additional three restaurants from our New Jersey franchisee. See Note 2 to the consolidated financial statements for further information with respect to our acquisition activity in 2014.

In addition to our standard refresh and remodel investments in 2014, 2013 and 2012, we also invested additional funds in our existing restaurant base as we finished the roll out of our "Your World Kitchen" merchandising in the first quarter of 2013.

Table of Contents

Financing Activities

Net cash provided by financing activities was \$24.0 million and \$11.2 million in 2014 and 2013, respectively. We used borrowings in both fiscal years to fund new restaurant capital expenditures. In 2014, we also used borrowings for investments in technology and acquisitions.

On July 2, 2013, we closed our IPO in which we sold 6,160,714 shares of Class A common stock at \$18.00 per share and received net proceeds of approximately \$100.2 million (after underwriting discounts, commissions and offering expenses). These net proceeds were used to pay off our outstanding term loan and repay all but \$0.2 million of our revolving line of credit. In November of 2013, we amended and restated our credit facility to provide more favorable borrowing rates and fees, to extend borrowing capacity through July 2018 and to effect certain changes to the covenants. The credit facility had been previously amended in August of 2012 to provide more favorable borrowing rates and extend borrowing capacity to July 2017.

Net cash provided by financing activities was \$15.4 million in 2012, driven by borrowings on our credit facility to fund capital expenditures.

Credit Facility

We maintain a \$45.0 million revolving line of credit under our credit facility. The revolving line of credit includes a swing line loan of \$10.0 million used to fund working capital requirements. On November 22, 2013, we amended and restated our credit facility to provide more favorable borrowing rates and fees, to extend borrowing capacity through July 2018 and to effect certain changes to the covenants. In connection with the IPO, we repaid our \$75.0 million senior term loan under our credit facility and the majority of the revolving line of credit. We had \$27.5 million of outstanding indebtedness, \$2.7 million of outstanding letters of credit and \$14.8 million available for borrowing under our revolving line of credit as of December 30, 2014. Borrowings under our amended and restated credit facility bear interest, at our option, at either (i) LIBOR plus 1.00 to 1.75%, based on the lease-adjusted leverage ratio or (ii) the highest of the following rates plus zero to 0.75%: (a) the federal funds rate plus 0.50%; (b) the Bank of America prime rate or (c) the one month LIBOR plus 1.00%. The facility includes a commitment fee of 0.125 to 0.25%, based on the lease-adjusted leverage ratio, per year on any unused portion of the facility. We also maintain outstanding letters of credit to secure obligations under our workers' compensation program and certain lease obligations.

Availability of borrowings under the revolving line of credit is conditioned on our compliance with specified covenants, including a maximum lease-adjusted leverage ratio and a minimum consolidated fixed charge coverage ratio. We are subject to a number of other customary covenants, including limitations on additional borrowings, acquisitions, dividend payments and lease commitments. As of December 30, 2014, we were in compliance with all of our debt covenants.

Our credit facility is secured by a pledge of stock of substantially all of our subsidiaries and a lien on substantially all of the personal property assets of the Company and its subsidiaries.

Contractual Obligations

Our contractual obligations at December 30, 2014 were as follows:

	Total	Payments Due by Period			After 5 Years
		Less than 1 Year	1 - 3 Years	3 - 5 Years	
	(in thousands)				
Lease obligations ⁽¹⁾	\$294,370	\$42,188	\$82,475	\$65,454	\$104,253
Purchase obligations ⁽²⁾	24,292	13,093	6,399	4,800	—
Long-term debt ⁽³⁾	27,500	—	—	27,500	—
Other liabilities ⁽⁴⁾	1,324	—	—	—	1,324
	\$347,486	\$55,281	\$88,874	\$97,754	\$105,577

We are obligated under non-cancelable leases for our restaurants, administrative offices and equipment.

(1) Some restaurant leases provide for contingent rental payments based on sales thresholds, which are excluded from this table. We also include capital leases for computer equipment of \$200,000.

(2)

We enter into various purchase obligations in the ordinary course of business. Our binding purchase obligations relate to volume commitments for beverage and food products, as well as binding commitments for the construction of new restaurants.

Table of Contents

(3) Reflects full payment of our long-term debt at maturity of our credit facility in 2018.

(4) Reflects the expected payments associated with our commitment under our non-qualified deferred compensation plan and capital lease obligations on equipment.

Off-Balance Sheet Arrangements

We had no off-balance sheet arrangements or obligations as of December 30, 2014.

Critical Accounting Policies and Estimates

Our consolidated financial statements and accompanying notes are prepared in accordance with US GAAP. Preparing consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. These estimates and assumptions are affected by the application of our accounting policies. Our significant accounting policies are described in Note 1 to our consolidated financial statements. Critical accounting estimates are those that require application of management's most difficult, subjective or complex judgments, often as a result of matters that are inherently uncertain and may change in subsequent periods. While we apply our judgment based on assumptions believed to be reasonable under the circumstances, actual results could vary from these assumptions. It is possible that materially different amounts would be reported using different assumptions. We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our financial statements:

Revenue Recognition

We record revenue from the operation of company-owned restaurants when sales occur. In the case of gift card sales, we record revenue when: (i) the gift card is redeemed by the customer and (ii) we determine the likelihood of the gift card being redeemed by the customer is remote (gift card breakage). We record royalties from franchise restaurant sales based on a percentage of restaurant revenues in the period the related franchised restaurants' revenues are earned. Area development fees and franchise fees are recognized as income when all material services or conditions relating to the sale of the franchise have been substantially performed or satisfied by us. Both franchise fees and area development fees are generally recognized as income upon the opening of a franchise restaurant or upon termination of the agreement(s).

Property and Equipment

We state the value of our property and equipment, primarily leasehold improvements, restaurant equipment and furniture and fixtures, at cost, minus accumulated depreciation and amortization. We calculate depreciation using the straight-line method of accounting over the estimated useful lives of the related assets. We amortize our leasehold improvements using the straight-line method of accounting over the shorter of the lease term (including reasonably assured renewal periods) or the estimated useful lives of the related assets. We expense repairs and maintenance as incurred, but capitalize major improvements and betterments. We make judgments and estimates related to the expected useful lives of these assets that are affected by factors such as changes in economic conditions and changes in operating performance. If we change those assumptions in the future, we may be required to record impairment charges for these assets.

Business Combinations and Intangible Assets Including Goodwill

We account for acquisitions using the purchase method of accounting. Accordingly, assets acquired and liabilities assumed are recorded at their estimated fair values at the acquisition date. The excess of purchase price over fair value of net assets acquired, including the amount assigned to identifiable intangible assets, is recorded as goodwill. Given the time it takes to obtain pertinent information to finalize the acquired company's balance sheet, it may be several quarters before we are able to finalize those initial fair value estimates. Accordingly, it is not uncommon for the initial estimates to be subsequently revised. The results of operations of acquired businesses are included in the consolidated financial statements from the acquisition date. Our recorded identifiable intangible assets primarily include the estimated value assigned to certain contract based assets, primarily favorable or unfavorable lease arrangements, which are amortized on a straight-line basis over the remaining lease terms. At December 30, 2014, we had goodwill recorded in conjunction with franchise acquisitions of \$6.4 million. Under the accounting rules, goodwill is not amortized. Instead, goodwill is subject to annual reviews for impairment on the first day of the fourth fiscal quarter.

Table of Contents

Self-Insurance Programs

We are self-insured for health, workers' compensation, general and liability and property damage. Predetermined loss limits have been arranged with insurance companies to limit our per occurrence cash outlay. Estimated costs to settle reported claims and incurred but unreported claims for health and workers' compensation self-insured plans are recorded in accrued payroll and benefits and for general and liability and property damage in accrued expenses and other liabilities.

Rent

We record rent expense for our leases, which generally have escalating rentals over the term of the lease, on a straight-line basis over the lease term. The lease term includes renewal options that are reasonably assured. Rent expense begins when we have the right to control the use of the property, which is typically before rent payments are due under the lease. We record the difference between the rent expense and rent paid as deferred rent in the consolidated balance sheet. Rent expense for the period prior to the restaurant opening is reported as pre-opening expense in the consolidated statements of income. Tenant incentives used to fund leasehold improvements are recorded in deferred rent and amortized as reductions of rent expense over the term of the lease.

Certain of our operating leases contain clauses that provide additional contingent rent based on a percentage of sales greater than certain specified target amounts. We recognize contingent rent expense when the achievement of specified targets is considered probable.

Recent Accounting Pronouncements

In August 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Updated ("ASU"), "Presentation of Financial Statements - Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern." This update requires management of the Company to evaluate whether there is substantial doubt about the Company's ability to continue as a going concern. This update is effective for the annual period ending after December 15, 2016, and for annual and interim periods thereafter. Early adoption is permitted. The Company does not expect this standard to have an impact on the Company's consolidated financial position or results of operations.

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers." The pronouncement was issued to clarify the principles for recognizing revenue and to develop a common revenue standard and disclosure requirements for U.S. GAAP and International Financial Reporting Standards ("IFRS"). The pronouncement is effective for reporting periods beginning after December 15, 2016. The adoption of ASU 2014-09 is not expected to significantly affect the Company's consolidated financial position or results of operations.

JOBS Act

We qualify as an "emerging growth company" pursuant to the provisions of the JOBS Act. For as long as we are an "emerging growth company," we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not "emerging growth companies," including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404(b) of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, exemptions from the requirements of holding advisory "say-on-pay" votes on executive compensation, shareholder advisory votes on golden parachute compensation and the extended transition period for complying with the new or revised accounting standards.

In addition, Section 107 of the JOBS Act also provides that an "emerging growth company" can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. An "emerging growth company" can therefore delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. However, we have chosen to "opt out" of such extended transition period and, as a result, we will comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. Section 107 of the JOBS Act provides that our decision to opt out of the extended transition period for complying with new or revised accounting standards is irrevocable.

ITEM 7A. Quantitative and Qualitative Disclosure about Market Risk

Interest Rate Risk

We are exposed to market risk from changes in interest rates on debt. Our exposure to interest rate fluctuations is limited to our outstanding bank debt, which bears interest at variable rates. As of December 30, 2014 there was \$27.5 million in outstanding borrowings under our credit facility. A plus or minus 1.0% in the effective interest rate applied on these loans would have resulted in a pre-tax interest expense fluctuation of approximately \$275,000 on an annualized basis.

Commodity Price Risk

We purchase certain products that are affected by commodity prices and are, therefore, subject to price volatility caused by weather, market conditions and other factors which are not considered predictable or within our control. Although these products are subject to changes in commodity prices, certain purchasing contracts or pricing arrangements contain risk management techniques designed to minimize price volatility. The purchasing contracts and pricing arrangements we use may result in unconditional purchase obligations, which are not reflected in our consolidated balance sheets. Typically, we use these types of purchasing techniques to control costs as an alternative to directly managing financial instruments to hedge commodity prices. In many cases, we believe we

Table of Contents

will be able to address material commodity cost increases by adjusting our menu pricing or changing our product delivery strategy. However, increases in commodity prices, without adjustments to our menu prices, could increase restaurant operating costs as a percentage of company-owned restaurant revenue.

Inflation

The primary inflationary factors affecting our operations are food, labor costs, energy costs and materials used in the construction of new restaurants. Increases in the minimum wage directly affect our labor costs. Many of our leases require us to pay taxes, maintenance, repairs, insurance and utilities, all of which are generally subject to inflationary increases. Finally, the cost of constructing our restaurants is subject to inflationary increases in the costs of labor and material. Over the past five years, inflation has not significantly affected our operating results.

NOODLES & COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Business and Summary of Significant Accounting Policies

Business

Noodles & Company (the "Company" or "Noodles & Company"), a Delaware corporation, develops and operates fast casual restaurants that serve globally inspired noodle and pasta dishes, soups, salads and sandwiches. As of December 30, 2014, there were 386 company-owned restaurants and 53 franchise restaurants in 32 states and the District of Columbia. The Company operates its business as one operating and reportable segment.

On December 5, 2013, the Company completed a follow-on offering of 4,500,000 shares of Class A common stock at a price of \$39.50 per share. All of the shares in the offering were offered by selling stockholders, except for 108,267 shares offered by the Company, the proceeds of which were used to repurchase the same number of shares from certain officers at the same net price per share. The Company did not receive any net proceeds from the offering. The selling stockholders paid all of the underwriting discounts and commissions associated with the sale of the shares; however, the Company incurred approximately \$696,000 in costs and expenses related to this offering.

On July 2, 2013, the Company completed an initial public offering ("IPO") of shares of Class A common stock at \$18.00 per share. The Company issued 6,160,714 shares of Class A common stock, \$0.01 par value, including 803,571 shares sold to the underwriters in the IPO pursuant to their over-allotment option. After underwriter discounts and commissions and estimated offering expenses, the Company received net proceeds from the offering of approximately \$100.2 million. These proceeds were used to repay all but \$0.2 million of outstanding debt under the Company's credit facility.

In December 2010, Catterton Partners ("Catterton") and Argentia Private Investments Inc. ("Argentia") completed an equity recapitalization to purchase approximately 90% of the Company's equity interests. Catterton and Argentia sold shares in the follow-on offering that closed in December of 2013 and own 50.6% of the Company's common shares outstanding as of December 30, 2014.

All share and per share data, including options, have been retroactively adjusted in the accompanying financial statements to reflect a reverse stock split. See Note 9 "Stockholders' Equity."

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Noodles & Company and its subsidiaries. All material intercompany balances and transactions are eliminated in consolidation.

Fiscal Year

The Company operates on a 52- or 53-week fiscal year ending on the Tuesday closest to December 31. Fiscal years 2014, 2013 and 2012, which ended on December 30, 2014, December 31, 2013 and January 1, 2013, respectively, each contained 52 weeks.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid investment instruments with an initial maturity of three months or less when purchased to be cash equivalents. Amounts receivable from credit card processors are converted to cash shortly after the related sales transaction and are considered to be cash equivalents because they are both short-term and highly liquid in nature. Amounts receivable from credit card processors are considered cash equivalents, and as of December 30, 2014 and December 31, 2013 were \$1.2 million and \$1.5 million, respectively, and were offset on the consolidated balance sheets by outstanding checks. Book overdrafts, which are outstanding checks in excess of cash and cash equivalents, are recorded with accounts payable in the accompanying consolidated balance sheets and within operating activities in the accompanying statements of cash flows.

Table of Contents

NOODLES & COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

1. Business and Summary of Significant Accounting Policies (continued)

Accounts Receivable

Accounts receivable consist primarily of tenant improvement receivables and vendor rebates receivable, as well as amounts due from franchisees and other miscellaneous receivables. The Company believes all amounts to be collectible. Accordingly, no allowance for doubtful accounts has been recorded as of December 30, 2014 or December 31, 2013.

Inventories

Inventories consist of food, beverages, supplies, and smallwares, and are stated at the lower of cost (first-in, first-out method) or market. Smallwares inventory, which consist of the plates, silverware, and cooking utensils used in the restaurants, are frequently replaced and are considered current assets. Replacement costs of smallwares inventory are recorded as other restaurant operating costs and are expensed as incurred. As of December 30, 2014 and December 31, 2013, smallwares inventory of \$6.2 million and \$4.5 million, respectively, were included on the consolidated balance sheets.

Property and Equipment

Property and equipment are stated at cost, less accumulated depreciation. Expenditures for major renewals and improvements are capitalized, while expenditures for minor replacements and maintenance and repairs are expensed as incurred. Upon retirement or disposal of assets, the accounts are relieved of cost and accumulated depreciation and the related gain or loss is reflected in earnings. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets. Leasehold improvements are amortized over the shorter of the estimated useful life or the lease term, which generally includes option periods that are reasonably assured to be exercised.

Depreciation and amortization expense on property and equipment, including assets under capital lease, was \$24.8 million in 2014, \$20.6 million in 2013 and \$16.7 million in 2012.

The estimated useful lives for property and equipment are:

Property and Equipment	Estimated Useful Lives
Leasehold improvements	Shorter of lease term or estimated useful life, not to exceed 20 years
Furniture and fixtures	3 to 15 years
Equipment	3 to 7 years

The Company capitalizes internal payroll and payroll related costs directly related to the successful acquisition, development, design and construction of its new restaurants. Capitalized internal costs were \$2.9 million, \$2.6 million and \$2.3 million in 2014, 2013 and 2012, respectively. Interest incurred on funds used to construct company-owned restaurants is capitalized and amortized over the estimated useful life of the related assets. Capitalized interest totaled \$0.4 million in 2014, \$0.3 million in 2013 and \$0.3 million in 2012.

Goodwill

Goodwill represents the excess of purchase price over the fair value of identifiable net assets acquired and is not subject to amortization. The Company evaluates goodwill annually, on the first day of the Company's fourth fiscal quarter, to determine if there have been any events or circumstances that would trigger a more-likely-than-not reduction in the fair value of a reporting unit below its carrying amount. In 2014, no indications of impairment were identified.

Intangibles, net

Intangible, net consist primarily of reacquired franchise rights, favorable lease agreements, trademarks and transferable liquor licenses. The Company amortizes the fair value of reacquired franchise rights over the remaining contractual terms of the reacquired franchise area development agreements at the time of acquisition, which ranged from approximately 12 years to 19 years as of December 30, 2014. The Company amortizes the fair value of favorable lease agreements over the remaining related lease terms at the time of the acquisition, which ranged from

approximately five years to 14 years as of December 30, 2014. Trademark rights are considered indefinite lived intangibles, the carrying value of which is analyzed for impairment at least annually. Transferable liquor licenses are carried at the lower of fair value or cost and are reviewed annually for impairment or changes in circumstances that indicate that the carrying amount may not be recoverable.

Table of Contents

NOODLES & COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

1. Business and Summary of Significant Accounting Policies (continued)

Other Assets

Other assets consist primarily of unamortized debt issuance costs and long term deposits. Direct costs incurred for the issuance of debt are capitalized and amortized using the straight-line method, which approximates the effective interest method, over the term of the debt. During 2013 and 2012, the Company incurred debt issuance costs related to amendments of its credit facility in 2013 and 2012. See Note 5 "Borrowings."

Net debt issuance costs of \$0.4 million and \$0.5 million are recorded in other assets, net of accumulated amortization of \$0.3 million and \$0.2 million, as of December 30, 2014 and December 31, 2013, respectively. In 2013 and 2012, the Company amended and restated its credit facility. The Company wrote off \$0.6 million and \$2.6 million of debt issuance costs, net of accumulated amortization of \$0.3 million and \$0.8 million in 2013 and 2012, respectively.

Impairment of Long-Lived Assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets is measured by a comparison of the carrying amount of the assets to the future undiscounted net cash flows expected to be generated by the assets. Identifiable cash flows are measured at the lowest level for which they are largely independent of the cash flows of other groups of assets and liabilities, generally at the restaurant level. If the assets are determined to be impaired, the amount of impairment recognized is the amount by which the carrying amount of the assets exceeds their fair value. Estimates of future cash flows are based on the Company's experience and knowledge of local operations. The Company recorded impairment charges of certain long-lived assets of \$57,000, \$54,000 and \$0.1 million in 2014, 2013 and 2012, respectively, which are included in asset disposals, closure costs and restaurant impairments in the consolidated statements of income. Fair value of the restaurants was determined using Level 3 inputs (as described in Note 6 "Fair Value Measurements") based on a discounted cash flows method through the estimated date of closure.

Self-Insurance Programs

The Company self-insures for health, workers' compensation, general liability and property damage. Predetermined loss limits have been arranged with insurance companies to limit the Company's per occurrence cash outlay. Estimated costs to settle reported claims and incurred but unreported claims for health and workers' compensation self-insured plans are recorded in accrued payroll and benefits and for general liability and property damage in accrued expenses and other liabilities.

Concentrations of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents and accounts receivable. The Company's cash balances may exceed federally insured limits. Credit card transactions at the Company's restaurants are processed by one service provider. Concentration of credit risk related to accounts receivable are limited, as the Company's receivables are primarily amounts due from landlords for the reimbursement of tenant improvements and the Company generally has the right to offset rent due for tenant improvement receivables.

Revenue Recognition

Revenue consists of sales from restaurant operations and franchise royalties and fees. Revenue from the operation of company-owned restaurants are recognized when sales occur. The Company reports revenue net of sales and use taxes collected from customers and remitted to governmental taxing authorities.

The Company sells gift cards which do not have an expiration date, and it does not deduct non-usage fees from outstanding gift card balances. The Company recognizes revenue from gift cards when the gift card is redeemed by the customer or the Company determines the likelihood of the gift card being redeemed by the customer is remote ("gift card breakage"). The determination of the gift card breakage rate is based upon Company-specific historical redemption patterns. The Company has determined that approximately 6% of gift cards will not be redeemed, which is recognized ratably over the estimated redemption period of the gift card, approximately 18 months. The Company

recognized gift card breakage of \$0.2 million in each of 2014, 2013 and 2012, in restaurant revenue.

Table of Contents

NOODLES & COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

1. Business and Summary of Significant Accounting Policies (continued)

Royalties from franchise restaurants are based on a percentage of restaurant revenues and are recognized in the period the related franchised restaurants' sales occur. Development fees and franchise fees, portions of which are collected in advance, are nonrefundable and are recognized in income when all material services or conditions relating to the sale of the franchise have been substantially performed or satisfied by the Company. Both franchise fees and development fees will generally be recognized upon the opening of a franchise restaurant or upon termination of the agreement(s) between the Company and the franchisee.

As of December 30, 2014, December 31, 2013, and January 1, 2013, there were 53, 62 and 51 franchise restaurants in operation, respectively. Franchisees opened 10, 11 and six restaurants in 2014, 2013 and 2012, respectively. The Company purchased 19 restaurants from franchisees in 2014. See Note 2 "Business Combinations."

Pre-Opening Costs

Pre-opening costs, including rent, wages, benefits and travel for the training and opening teams, food, beverage, and other restaurant operating costs, are expensed as incurred prior to a restaurant opening for business.

Advertising and Marketing Costs

Advertising and marketing costs are expensed as incurred and aggregated \$4.4 million, \$3.9 million and \$2.8 million in 2014, 2013 and 2012, respectively. These costs are included in restaurant operating costs, general and administrative expenses and pre-opening costs based on the nature of the advertising and marketing costs incurred.

Rent

Rent expense for the Company's leases, which generally have escalating rentals over the term of the lease, is recorded on a straight-line basis over the lease term. The lease term includes renewal options which are reasonably assured of being exercised and begins when the Company has control and possession of the leased property, which is typically before rent payments are due under the lease. The difference between the rent expense and rent paid is recorded as deferred rent in the consolidated balance sheets. Rent expense for the period prior to the restaurant opening is reported in pre-opening costs in the consolidated statements of income. Tenant incentives used to fund leasehold improvements are recorded in deferred rent and amortized as a reduction of rent expense over the term of the lease. Certain leases contain rental provisions based on the sales of the underlying restaurants; the Company has determined that the amount of these provisions is immaterial.

Provision for Income Taxes

Provision (benefit) for income taxes is accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those deferred amounts are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The Company's policy is to recognize interest to be paid on an underpayment of income taxes in interest expense and any related statutory penalties in provision (benefit) for income taxes in the consolidated statement of income.

Comprehensive Income

Comprehensive income consists of the net income and other gains and losses affecting stockholders' equity that, under accounting principles generally accepted in the United States, are excluded from net income. Other comprehensive income, presented in the consolidated statements of comprehensive income for 2012 consist of the unrealized income, net of tax, on the Company's cash flow hedges.

Stock Compensation Expense

The Company recognizes stock-based compensation using fair value measurement guidance for all share-based payments, including stock options and warrants. For option awards, expense is recognized ratably over the vesting period in an amount equal to the fair value of the stock-based awards on the date of grant determined using the

Black-Scholes option pricing model. Warrants are valued using the fair value of the common stock as of the measurement date. See Note 10 "Stock-Based Compensation."

Table of Contents

NOODLES & COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

1. Business and Summary of Significant Accounting Policies (continued)

Earnings Per Share

Basic earnings per share ("EPS") are calculated by dividing income available to common shareholders by the weighted-average number of shares of common stock outstanding during each period. Diluted earnings per share is calculated using income available to common shareholders divided by diluted weighted-average shares of common stock outstanding during each period. Potentially dilutive securities include shares of common stock underlying stock options and restricted stock. Diluted EPS considers the impact of potentially dilutive securities except in periods in which there is a loss because the inclusion of the potential common shares would have an anti-dilutive effect. See Note 11 "Earnings Per Share."

Reclassification

Certain amounts in the prior period financial statements have been reclassified to conform to the current period presentation. These reclassifications had no effect on reported net income.

Recent Accounting Pronouncements

In August 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Updated ("ASU"), "Presentation of Financial Statements - Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern." This update requires management of the Company to evaluate whether there is substantial doubt about the Company's ability to continue as a going concern. This update is effective for the annual period ending after December 15, 2016, and for annual and interim periods thereafter. Early adoption is permitted. The Company does not expect this standard to have an impact on the Company's consolidated financial position or results of operations.

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers." The pronouncement was issued to clarify the principles for recognizing revenue and to develop a common revenue standard and disclosure requirements for U.S. GAAP and International Financial Reporting Standards ("IFRS"). The pronouncement is effective for reporting periods beginning after December 15, 2016. The adoption of ASU 2014-09 is being evaluated and is not expected to significantly affect the Company's consolidated financial position or results of operations.

2. Business Combinations

During 2014, the Company acquired 19 restaurants from its franchisees, through two separate transactions. The total cash purchase price was \$15.7 million and the Company incurred acquisition costs related to the transactions of \$0.1 million reflected in General and Administrative expense for the year ended December 30, 2014. The consolidated statements of income include the results of operations for the restaurants from the date of acquisition. The pro forma impact of the acquisitions is not presented as the impact was not material to reported results.

The acquisition of the 19 restaurants was accounted for using the purchase method as defined in ASC 805, Business Combination. The goodwill generated by the acquisitions is not amortizable for book purposes but is amortizable and deductible for tax purposes. The assets acquired and liabilities assumed were recorded based on their fair values at the time of the acquisitions, as detailed below:

	Fair Value at December 30, 2014
Inventories	\$352
Prepaid expenses and other assets	33
Deferred tax asset	142
Property and equipment	7,564
Intangibles	1,567
Goodwill	6,400
Deferred rent and other liabilities	(319)

Total purchase price

\$15,739

55

Table of Contents

NOODLES & COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2. Business Combinations (continued)

Of the \$1.6 million of intangible assets, \$1.4 million are related to reacquired franchise rights, which will be amortized on a straight-line basis over an average life of approximately 16 years and \$0.2 million are related to favorable leases, which will be amortized on a straight-line basis over an average life of nine years. The unfavorable leases, which were included in deferred rent in the accompanying condensed consolidated balance sheets, will be amortized on a straight-line basis over an average period of 11 years. The fair value measurement of tangible and intangible assets and liabilities as of the acquisition date is based on significant inputs not observed in the market and thus represents a Level 3 measurement that is subject to change.

3. Supplemental Financial Information

Accounts receivable consist of the following (in thousands):

	2014	2013
Tenant improvement receivables	\$2,588	\$2,532
Vendor rebate receivables	983	748
Franchise and other receivables	986	949
	\$4,557	\$4,229

Prepaid expenses and other assets consist of the following (in thousands):

	2014	2013
Prepaid occupancy related costs	\$4,135	\$3,318
Other prepaid expenses	1,997	1,917
Other current assets	139	75
	\$6,271	\$5,310

Property and equipment, net, consist of the following:

NOODLES & COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

5. Borrowings

Credit Facility

The Company has a credit facility with a borrowing capacity of \$45.0 million in the form of a revolving line of credit, expiring in November 2018. Prior to the IPO, the Company had a credit facility with a borrowing capacity of \$120.0 million, consisting of a \$75.0 million senior term loan and a \$45.0 million revolving line of credit. In the second quarter of 2013, the Company repaid its outstanding \$75.0 million senior term loan and the majority of the revolving line of credit.

As of December 30, 2014, the Company had \$27.5 million outstanding and \$14.8 million available for borrowing under the credit facility. Outstanding letters of credit aggregating \$2.7 million reduce the amount available to borrow. Borrowings under our amended and restated credit facility bear interest, at our option, at either (i) LIBOR plus 1.00 to 1.75%, based on the lease-adjusted leverage ratio or (ii) the highest of the following rates plus zero to 0.75%: (a) the federal funds rate plus 0.50%; (b) the Bank of America prime rate or (c) the one month LIBOR plus 1.00%. The facility includes a commitment fee of 0.125 to 0.25%, based on the lease-adjusted leverage ratio, per year on any unused portion of the facility. The credit facility bore interest at a range of 3.25% to 3.50% during 2014.

Availability of borrowings under the revolving line of credit is conditioned on compliance with specified covenants, including a maximum lease-adjusted leverage ratio and a minimum consolidated fixed charge coverage ratio. We are subject to a number of other customary covenants, including limitations on additional borrowings, acquisitions, dividend payments and lease commitments. As of December 30, 2014, the Company was in compliance with all of its debt covenants.

The credit facility is secured by a pledge of stock of substantially all of the Company's subsidiaries and a lien on substantially all of the personal property assets of the Company and its subsidiaries.

6. Fair Value Measurements

The carrying amounts of cash and cash equivalents, accounts receivable, accounts payable and all other current liabilities approximate fair values due to the short maturities of these instruments. The carrying amounts of borrowings approximate fair value

as the line of credit and term borrowings vary with market interest rates and negotiated terms and conditions are consistent with current market rates. Asset impairment charges are recorded at fair value on a nonrecurring basis.

Assets and Liabilities Measured at Fair Value

The fair values are assigned a level within the fair value hierarchy, depending on the source of the inputs into the calculation.

Level 1—Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2—Quoted prices in markets that are not active or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3—Prices or valuation techniques which require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

7. Closed Restaurant Reserve

The Company provides for closed property operating lease liabilities using a discount rate to calculate the present value of the remaining non-cancelable lease payments after the closing date, net of estimated subtenant income.

Following is a summary of the changes in the liability for closed properties as of December 30, 2014 and December 31, 2013 (in thousands).

	2014	2013
--	------	------

Edgar Filing: NOODLES & Co - Form 10-K

Closed restaurant reserves, beginning of period	\$583	\$788
Additions—store closing costs recognized, accretion	77	80
Decreases—payments	(216) (285
Closed restaurant reserves, end of period	\$444	\$583

7. Closed Restaurant Reserve (continued)

The current portion of the liability, \$0.2 million as of December 30, 2014 and December 31, 2013, is recorded in accrued expenses and other liabilities, and the long-term portion is reported in other noncurrent liabilities in the Company's consolidated balance sheets.

8. Income Taxes

The components of the provision for income taxes are as follows for 2014, 2013 and 2012 (in thousands):

	2014	2013	2012
Current tax provision:			
Federal	\$—	\$—	\$49
State	792	561	559
	792	561	608
Deferred tax provision:			
Federal	5,662	3,923	2,591
State	668	283	16
	6,330	4,206	2,607
Total provision for income taxes	\$7,122	\$4,767	\$3,215

The reconciliation of income tax provision that would result from applying the federal statutory rate to pre-tax income as shown in the accompanying consolidated statements of income is as follows for 2014, 2013 and 2012 (in thousands):

Table of Contents

NOODLES & COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

	2014	2013	2012	
Federal income expense at federal rate	\$6,299	\$3,887	\$2,848	
State income tax, net of related federal income tax benefit	972	653	420	
Permanent differences	170	374	83	
Foreign rate differential	6	26	106	
Tax credits	(241) (149) —	
Other items, net	(84) (24) (242)
Provision for income taxes	\$7,122	\$4,767	\$3,215	
Effective income tax rate	38.4	% 41.7	% 38.4	%

In 2014, 2013, and 2012 the Company recognized tax benefits on option exercises at fair value in excess of those utilized to record stock-based compensation for book purposes, totaling \$253,000, \$201,000, and \$27,000, respectively, as a credit to additional paid-in capital.

The company's total deferred tax assets and liabilities are as follows (in thousands):

	2014	2013	
Deferred tax assets	23,001	20,605	
Deferred tax liabilities	(31,216) (22,881)
Total deferred tax liabilities, net	(8,215) (2,276)

8. Income Taxes (continued)

Deferred income taxes arise because of the differences in the book and tax bases of certain assets and liabilities.

Deferred income tax liabilities and assets consist of the following (in thousands):

	2014	2013	
Noncurrent deferred tax assets (liabilities):			
Loss carry forwards	\$743	\$2,745	
Deferred rent and franchise revenue	14,454	11,850	
Property, equipment and intangible assets	(26,514) (19,342)
Stock-based compensation	2,847	2,442	
Tax credit carry forwards	897	565	
Other	1,061	594	
Total noncurrent net deferred tax assets (liabilities)	(6,512) (1,146)
Current deferred tax assets (liabilities):			
Inventory smallwares	(2,405) (1,737)
Other	702	607	
Total current deferred tax liabilities	(1,703) (1,130)
Net deferred tax assets (liability)	\$(8,215) \$(2,276)

At December 30, 2014 and December 31, 2013, net operating loss carry forwards for federal income tax purposes of approximately \$22.9 million and \$22.7 million, respectively, were available to offset future taxable income through the year 2034 and 2033, respectively. The net operating loss carry forwards are primarily composed of excess tax deductions for equity compensation.

Table of Contents

NOODLES & COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Utilization of the net operating losses is subject to an annual limitation resulting from a change in control in 2007 and a change of control in 2010, pursuant to the change in ownership provisions of Section 382 of the Internal Revenue Code and similar provisions of state law. As a result of certain realization requirements of ASC 718, the deferred tax assets shown above include only realized tax deductions related to equity compensation equal to the compensation recognized for financial reporting during the years ended December 30, 2014 and December 31, 2013. Equity will be increased by up to \$7.0 million if and when the net operating loss is ultimately realized.

Uncertain tax positions are recognized if it is more likely than not that the Company will be able to sustain the tax position taken, and the measurement of the benefit is calculated as the largest amount that is more than 50% likely to be realized upon resolution of the benefit. The Company has analyzed filing positions in all of the federal and state jurisdictions where it is required to file income tax returns, as well as all open tax years in these jurisdictions. There were no uncertain tax positions for the years ended December 30, 2014 or December 31, 2013. The only periods subject to examination for the Company's federal and state returns are 2010 through 2013.

9. Stockholders' Equity

The Company has 181,000,000 shares of stock authorized, consisting of 150,000,000 shares of Class A common stock, par value \$0.01 per share; 30,000,000 shares of Class B common stock, par value \$0.01 and 1,000,000 shares of preferred stock, par value \$0.01 per share. Preferred stock rights will be determined by the Company's Board of Directors in the event that preferred shares are issued. The following summarizes the rights of common stock:

Reverse Stock Split

On June 25, 2013, the Company effected a 1-for-0.577 reverse stock split of its Class A common stock and Class B common stock. Concurrent with the reverse stock split, the Company adjusted the number of shares subject to, and the exercise price of, outstanding stock option awards under the Plan such that the holders of the options are in the same economic position both before and after the reverse stock split.

Voting—Shares of Class A common stock and Class B common stock are entitled to one vote per share in all voting matters, with the exception that Class B common stock does not vote on the election or removal of directors. Class C common stock is entitled to vote only on amendments to the certificate of incorporation that would adversely affect the rights and preferences of the Class C common stock and reclassification or subdivision matters related to the Class C common stock.

9. Stockholders' Equity (continued)

Conversion—Each share of Class A common stock held by one of the Equity Sponsors is convertible, at the option of the holder, into one share of Class B common stock. Each share of Class B common stock is convertible, at the option of the holder, into one share of Class A common stock.

Dividends—A Class C dividend agreement was entered in connection with the Merger Agreement between one of the Equity Sponsors and the Company, which provided that the new investor would receive, in the form of a dividend, an amount equal to the compensation payable to the other new investor under a Management Services Agreement. In connection with the IPO, the management services agreement expired and the one share of Class C common stock was redeemed. See additional information in Note 16 "Related-Party Transactions." Class A common stock and Class B common stock share equally if a dividend is declared or paid to either class, but do not have rights to any special dividend.

Liquidation, Dissolution or Winding Up—Class A common stock and Class B common stock share equally in distributions in liquidation, dissolution, or winding up of the corporation.

Registration Rights—The Equity Sponsors have the right to demand registration of 10% or more of the shares of the Company's common stock held by them. A few shareholders who are also Executive Officers of the Company or a member of the Company's Board of Directors have piggyback registration rights, but are not required to exercise these rights.

10. Stock-Based Compensation

The Company's Stock Incentive Plan, as amended and restated in May of 2013, authorizes the grant of nonqualified stock options, incentive stock options, stock appreciation rights ("SARs"), restricted stock, restricted stock units ("RSUs") and incentive bonuses

to employees, officers, nonemployee directors and other service providers. The number of shares of common stock available for issuance pursuant to awards granted under the Stock Incentive Plan is 3,168,705 shares. The Plan is administered by the Compensation Committee of the board or another committee designated by the board, or in the absence of any such committee, the board itself (the

Table of Contents

NOODLES & COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

"administrator"). Stock options are granted at a price determined by the administrator at an exercise price that is not less than the fair market value of the underlying stock on the date of option is grant. The administrator may also grant SARs and RSUs with terms determined by the administrator in accordance with the Plan. The fair market value of shares prior to the IPO was determined

by the Compensation Committee of the board, or the board using historical or current transactions, comparable public company valuations, historical transactions, third-party valuations and other factors. Stock options generally have a 10-year term and vest equally over four years from the date of grant.

Stock-based compensation expense is generally recognized on a straight-line basis over the service period of the options. In 2014, 2013 and 2012, non-cash stock-based compensation expense of \$1.4 million, \$4.3 million and \$1.2 million, respectively, is included in general and administrative expense. Stock-based compensation of \$88,000, \$71,000 and \$81,000 is included in capitalized internal costs in 2014, 2013 and 2012, respectively. Of the total stock-based compensation recognized in 2013, \$2.0 million related to accelerated vesting of outstanding stock options at the IPO and \$1.2 million related to stock options granted at the IPO to 2 executive officers of which 50% were vested at the time of grant. Stock-based compensation expense also includes \$71,495 related to the Employee Stock Purchase Plan, see Note 12 "Employee Benefit Plans."

At December 30, 2014, options available for future share grants totaled 3,128,014. The intrinsic value associated with options exercised was \$6.0 million and \$5.1 million for the fiscal years ended December 30, 2014 and December 31, 2013, respectively.

The estimated fair value of each option granted is calculated using the Black-Scholes option-pricing model. Expected volatilities are based on the historical Company volatility, as well as volatilities from publicly traded companies operating in the Company's industry. The Company uses historical data to estimate expected employee forfeiture of stock options. The expected life of options granted is management's best estimate using recent and expected transactions. The risk-free rate for periods within the expected life of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

10. Stock-Based Compensation (continued)

The weighted-average assumptions used in the model were as follows:

	2014		2013		2012	
Risk-free interest	1.7	%	1.1	%	0.4	%
Expected life (years)	5.0		4.3		3.4	
Expected dividend yield	—		—		—	
Volatility	36.5	%	39.7	%	32.7	%
Weighted-average Black-Scholes fair value per share at date of grant	\$10.52		\$6.04		\$2.84	

The tables below summarize the option activity under the Plan:

Table of Contents

NOODLES & COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

	Shares	Weighted-Average Exercise Price
Outstanding—January 3, 2012	2,621,023	8.67
Granted	516,473	11.27
Forfeited	(164,329)	8.68
Exercised	—	—
Outstanding—January 1, 2013	2,973,167	9.12
Granted	555,273	18.06
Forfeited	(55,389)	11.89
Exercised	(163,179)	8.72
Outstanding—December 31, 2013	3,309,872	10.59
Granted	269,552	30.40
Forfeited	(73,673)	19.72
Exercised	(260,487)	8.85
Outstanding—December 30, 2014	3,245,264	\$12.17

	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Years of Contractual Life	Aggregate Intrinsic Value ⁽¹⁾ (in thousands)
Outstanding as of December 30, 2014	3,245,264	\$12.17	6.86	\$47,385
Vested and expected to vest	3,218,628	12.08	6.84	47,222
Exercisable as of December 30, 2014	2,504,436	9.80	6.34	41,561

(1) Aggregate intrinsic value represents the amount by which fair value of the Company's stock exceeds the exercise price of the option as of December 30, 2014.

As of December 30, 2014, there was \$3.5 million of unrecognized compensation cost related to nonvested share-based compensation arrangements granted under the Stock Incentive Plan, which is expected to be recognized over 2.89 years.

On March 10, 2011, the Company issued warrants to a consultant to purchase 86,550 shares of Class B common stock at \$8.67 per share, which are classified as equity awards. The warrants vest based on specified performance criteria and are considered stock-based compensation to nonemployees. Stock-based compensation expense related to the awards is recognized when the performance criteria are met, using the estimated fair value at the measurement date. During 2014 and 2013, the Company did not recognize stock-based compensation expense as no performance criteria were met. During 2013, 28,850 warrants were exercised by the consultant.

11. Earnings Per Share

EPS is calculated by dividing income available to common shareholders by the weighted-average number of shares of common stock outstanding during each period. Diluted earnings per share ("diluted EPS") is calculated using income available to common shareholders divided by diluted weighted-average shares of common stock outstanding during each period. Potentially dilutive securities include shares of common stock underlying stock options and restricted common stock. Diluted EPS considers the impact of potentially dilutive securities except in periods in which there is a

loss because the inclusion of the potential common shares would have an anti-dilutive effect. The following table sets forth the computations of basic and dilutive earnings per share:

62

Table of Contents

NOODLES & COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

	2014	2013	2012
Net income (in thousands)	\$11,428	\$6,665	\$5,163
Shares:			
Basic weighted average shares outstanding	29,717,304	26,406,904	23,238,984
Dilutive stock options and warrants	1,283,795	1,281,725	26,558
Diluted weighted average number of shares outstanding	31,001,099	27,688,629	23,265,542
Earnings per share:			
Basic	\$0.38	\$0.25	\$0.22
Diluted	\$0.37	\$0.24	\$0.22

The Company excluded 248,000, 17,000 and 590,617 outstanding options from the diluted earnings per share calculation for 2014, 2013 and 2012, respectively, as the options were out of the money and to include them would have been antidilutive. All outstanding warrants were dilutive in the calculation of diluted earnings per share.

12. Employee Benefit Plans

Defined Contribution Plan

In October 2003, the Company adopted a defined contribution plan, The Noodles & Company 401(k) Plan (the "401(k) Plan"). Company employees with six months of service, aged 21 or older, are eligible to participate in the 401(k) Plan. Under the provisions of the plan, the Company may, at its discretion, make contributions to the 401(k) Plan. Participants are 100% vested in their own contributions. The Company made no contributions during 2014, 2013 and 2012.

Deferred Compensation Plan

The Company's deferred compensation plan, under which compensation deferrals began in 2013, is a non-qualified deferred compensation plan which allows highly compensated employees to defer a portion of their base salary and variable compensation each plan year. To offset its obligation, the Company purchases Company-owned whole-life insurance contracts on certain team members. As of December 30, 2014, \$1.3 million was included in both other assets, net and other long term liabilities, which represent the carrying value of the liability for deferred compensation and the cash surrender value of the associated life insurance policy, respectively.

Employee Stock Purchase Plan

In 2013, the Company adopted an Employee Stock Purchase Plan under which eligible team members may voluntarily contribute up to 15% of their salaries, subject to limitations, to purchase common stock at a price equal to 85% of the fair market value of a share of the Company's common stock on the first day of each offering period or 85% of the fair market value of a share of the Company's common stock on the last day of each offering period, whichever amount is less. In general, all of the Company's officers and team members who have been employed by the Company for at thirty days prior to the offering period and who are regularly scheduled to work more than twenty hours per week and for more than five months in any calendar year, are eligible to participate in this plan which operates in-line with the Company's fiscal quarters. A total of 750,000 shares of common stock are available for issuance under this plan. The Company has issued a total of 35,760 shares under this plan, of which 17,404 shares were issued during 2014. A total of 714,240 shares remain available for future issuance. For 2014, in accordance with the guidance for accounting for stock compensation, the Company estimated the fair value of the stock purchase plan using the Black-Scholes multiple-option pricing model. The average assumptions used in the model included a 0.030% risk-free interest rate; two billion four hundred ninety-three million one hundred fifty thousand six hundred eighty-five ten-billionths month expected life; expected

12. Employee Benefit Plans (continued)

volatility of 13.4%; and a zero percent dividend yield. The weighted average fair value per share at grant date was \$4.11. In 2014, the Company recognized \$71,495 of compensation expense related to this plan.

13. Leases

The Company leases restaurant facilities, office space and certain equipment under operating leases that expire on various dates through August 2035. Lease terms for traditional shopping centers generally include a base term of 10 years, with options to extend these leases for additional periods of five to 15 years. Typically, the lease includes rent escalations, which are expensed on a straight-

Table of Contents

NOODLES & COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

line basis over the lease term. The difference between rent expense and cash paid for rent is recognized as deferred rent. Rent expense for 2014, 2013 and 2012 was approximately \$35.7 million, \$29.5 million and \$24.6 million, respectively.

Future minimum lease payments required under existing leases as of December 30, 2014 are as follows (in thousands):

2015	\$42,188
2016	42,713
2017	39,762
2018	34,957
2019	30,497
Thereafter	104,253
	\$294,370

14. Supplemental Disclosures to Consolidated Statements of Cash Flows

The following table presents the supplemental disclosures to the consolidated statements of cash flows (in thousands) for fiscal years 2014, 2013 and 2012:

	2014	2013	2012
Interest paid (net of amounts capitalized)	\$—	\$2,506	\$4,400
Income taxes paid (net of refunds)	811	137	509
Purchases of property and equipment accrued in accounts payable	37	996	2,648

15. Commitments and Contingencies

The Company is named as a defendant in an action filed in the Superior Court of Delaware in New Castle County, entitled *The State of Delaware, William French v. Card Compliant, LLC, et. al.* The case was filed under seal in June 2013 and was unsealed on March 26, 2014. The complaint in this case alleges that a number of large retailers and restaurant companies, including the Company, knowingly refused to fulfill obligations under Delaware's Abandoned Property Law by failing to report and deliver "unclaimed gift card funds" to the State of Delaware, and knowingly made, used or caused to be made or used, false statements and records to conceal, avoid or decrease an obligation to pay or transmit money to Delaware in violation of the Delaware False Claims and Reporting Act. The complaint seeks an order that the Company cease and desist from violating the Delaware False Claims and Reporting Act, monetary damages (including treble damages under the False Claims and Reporting Act), penalties and attorneys' fees and costs. The case was removed to United States Federal District Court for the District of Delaware, and the plaintiffs filed a motion to remand the case to the Superior Court for the State of Delaware, which was granted. The Company has also filed a motion to dismiss the complaint. The case is at an early stage, and the Company therefore is unable to make a reasonable estimate of the probable loss or range of losses, if any, that might arise from this matter. The Company intends to vigorously defend this action.

In the normal course of business, the Company is subject to proceedings, lawsuits and claims. Such matters are subject to many uncertainties, and outcomes are not predictable with assurance. Consequently, the Company is unable to ascertain the ultimate aggregate amount of monetary liability or financial impact with respect to these matters as of December 30, 2014. These matters

15. Commitments and Contingencies (continued)

could affect the operating results of any one financial reporting period when resolved in future periods. Management believes that an unfavorable outcome with respect to these matters is remote or a potential range of loss is not material to the Company's consolidated financial statements. Significant increases in the number of these claims, or one or

more successful claims that result in greater liabilities than the Company currently anticipates, could materially and adversely affect the Company's business, financial condition, results of operations or cash flows.

64

Table of Contents

NOODLES & COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The Company entered into employment agreements with two of its executives in connection with the IPO superseding the previous employment agreements with these executives. The agreements have an initial term of three years and automatically renew annually unless canceled by either party within 90 days of the end of the initial term or anniversaries thereof. Under each of the Employment Agreements, if the executive's employment is terminated by the Company without "cause" or by the executive with "good reason," (as such terms are defined in the applicable employment agreement) the executive is entitled to receive compensation equal to 18 months of the executive's then-current base salary, payable in equal installments over 18 months, a pro rata bonus for the year of termination and reimbursement of "COBRA" premiums for up to 18 months for the executive and his dependents. The severance payments are conditioned upon the executive entering into a mutual release of claims with the Company.

16. Related-Party Transactions

During 2013 and 2012, the Company paid \$375,000 and \$1.1 million, respectively, to Catterton Partners and Argentia Private Investments Inc. or their affiliates ("Equity Sponsors") for management service fees and Class C Dividends pursuant to a management services agreement and an agreement to pay dividends on its Class C common stock. In connection with the IPO, the management services agreement expired and one share of Class C common stock was redeemed. Management service fees and Class C dividends paid in each fiscal year vary due to the timing of payments. No such payments were made during fiscal 2014.

In connection with the IPO during the second quarter of 2013, the Company paid \$1.7 million of transaction bonuses and related payroll taxes to employees of the Company and \$0.8 million in transaction payments to the Equity Sponsors.

In connection with the follow-on offering in the fourth quarter of 2013, the Company purchased 108,267 shares of common stock from certain of its officers at the net offering price per share in such follow-on offering. The Company did not receive any of the proceeds from the offering.

Stockholders Agreement. In connection with the IPO, the Company entered into a new stockholders agreement with the Equity Sponsors, the 2013 Stockholders Agreement. The 2013 Stockholders Agreement contains restrictions on sale, issuance or transfer of shares for each Equity Sponsor without the consent of the other Equity Sponsor except in a tag along sale under the Registration Rights Agreement or the earlier of the second anniversary of the offering and time at which such Sponsor holds less than 25% of the Company's outstanding stock and Class B stock. The 2013 Stockholders Agreement also grants the Equity Sponsors the right to nominate representatives to the Company's board of directors and committees of the board. Catterton and Argentia each have the right to designate two members to the Company's board of directors and the Equity Sponsors will agree to vote to elect such director designees. If at any time an Equity Sponsor owns more than 10% and less than 20% of outstanding Class A and Class B common stock, such Equity Sponsor has the right to designate one nominee for election to the Company's board of directors. If an Equity Sponsor's ownership level falls below 10% of outstanding Class A and Class B common stock, such Equity Sponsor will no longer have a right to designate a nominee. In addition, for so long as Catterton and Argentia hold at least 35% of the voting power of outstanding common stock, certain actions may not be taken without the approval of Catterton and Argentia.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders
Noodles & Company

We have audited the accompanying consolidated balance sheets of Noodles & Company (the Company) as of December 30, 2014 and December 31, 2013, and the related consolidated statements of income, comprehensive income, equity, and cash flows for each of the three years in the period ended December 30, 2014. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Noodles & Company as of December 30, 2014 and December 31, 2013, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 30, 2014, in conformity with U.S. generally accepted accounting principles.

ITEM 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

ITEM 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management carried out an evaluation, under the supervision and with the participation of our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act) as of the end of the period covered by this report. Based on this evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this annual report.

Management's Annual Report on Internal Control Over Financial Reporting

The management of Noodles & Company is responsible for establishing and maintaining adequate internal control over financial reporting. Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America. Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United State of America, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of assets that could have a material effect on our financial statements.

Under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, we carried out an evaluation of the effectiveness of our internal control over financial reporting as of December 30, 2014 based on the criteria in "Internal Control - Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). Based on this evaluation, our management concluded that our internal control over financial reporting was effective as of December 30, 2014.

This Annual Report on Form 10-K does not include an attestation report of our independent registered public accounting firm, because as an "emerging growth company" under the JOBS Act our independent registered public accounting firm is not required to issue such an attestation report.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. Other Information

None.

PART III

ITEM 10. Directors, Executive Officers and Corporate Governance

The names of our directors and certain information about them, including their ages as of February 23, 2015, are included below.

	Class	Age	Position	Year Elected	Current Term Expires
Scott Dahnke ⁽¹⁾ ⁽³⁾ ⁽⁴⁾	III	49	Director	2011	2016
Stuart Frenkiel ⁽¹⁾ ⁽³⁾	II	35	Director	2010	2015
Jeffrey Jones ⁽²⁾	II	52	Director	2013	2015
Keith Kinsey	III	60	President, Chief Operating Officer and Director	2008	2016
Johanna Murphy ⁽²⁾	I	44	Director	2014	2017
James Rand ⁽²⁾	I	72	Director	2008	2017
Kevin Reddy	III	56	Chairman and Chief Executive Officer	2006	2016
Andrew Taub	II	46	Director	2010	2015

(1) Member of the Compensation Committee.

(2) Member of the Audit Committee.

(3) Member of the Nominating and Corporate Governance Committee.

(4) Lead Independent Director.

Scott Dahnke has been a member of our Board of Directors since September 2011. Mr. Dahnke has been a Managing Partner of Catterton since 2003, and has a broad range of business experience in private equity, consulting, management and finance. Catterton is an affiliate of the Company because, they, together with Argentia, own more than 50% of our capital stock and we entered into a stockholders agreement with them. These arrangements are discussed further in the "Certain Relationships and Related Transactions, and Director Independence" section of this report. Prior to joining Catterton, he was a Managing Director at Deutsche Bank Capital Partners and at AEA Investors, where he led AEA's consumer products investing efforts. Previously, Mr. Dahnke was the Chief Executive Officer of infoUSA, a leading publicly traded provider of business and consumer marketing products and services. Prior to joining infoUSA, Mr. Dahnke served clients on an array of strategic and operational issues as a Partner at McKinsey & Company. His early career also includes experience in the Merger Department of Goldman, Sachs & Co. and with General Motors. Mr. Dahnke received a BS, magna cum laude, in Mechanical Engineering from the University of Notre Dame. He also received academic honors while earning an MBA from the Harvard Business School. Mr. Dahnke brings expertise in the retail and consumer industry.

Stuart Frenkiel has been a member of our Board of Directors since December 2010. Mr. Frenkiel has been a Senior Director at PSPIB since December 2011. He joined PSPIB in March 2010. PSPIB is the parent of Argentia, which is an affiliate of the Company. Mr. Frenkiel serves on the board of directors of Ferrara Candy Company. From August 2008 to March 2010, he was an Associate Director in the mergers and acquisitions group of UBS Investment Bank. Prior to that, Mr. Frenkiel worked in the Office of Strategic Management at BMO Financial Group and held several finance roles at General Electric Company. Mr. Frenkiel received a Bachelor of Commerce degree from McGill University, holds an MBA from the Kellogg School of Management at Northwestern University, which he received in June 2008, and is a CFA charterholder. He brings to our Board of Directors a long-standing familiarity with our

business, including industry and operational experience.

Jeffrey Jones has been a member of our Board of Directors since September 2013. Mr. Jones is the former Chief Financial Officer for Vail Resorts, Inc., where he was also a member of the Board of Directors, from 2008 through 2013, and President

Table of Contents

of Lodging, Retail and Real Estate. Mr. Jones is currently a member of the Board of Directors of Hershey Entertainment and Resorts, where he chairs the Audit and Finance Committee, and Summit Hotel Properties, where he is a member of the Audit and Nominating Committees. He is also a member of the US Bank Advisory Board and a member of the board at the Leeds School of Business, University of Colorado at Boulder. Prior to joining Vail Resorts, Mr. Jones held CFO positions with Clark Retail Enterprises and Lids Corporation. Mr. Jones received a BA in Accounting and American Studies from Mercyhurst College and is a member of the AICPA. Mr. Jones provides our board with significant public company experience in financial positions including significant audit committee roles, as well as overall financial, operations and strategic development experience.

Keith Kinsey has served as our President since July 2012 and our Chief Operating Officer since November 2007. Mr. Kinsey also served as our Chief Financial Officer from July 2005 to July 2012. He became a member of our Board of Directors in November 2008. Prior to joining us, he was the Pacific Regional Director for Chipotle Mexican Grill. Prior to that time, he held various management roles at McDonald's Corporation, PepsiCo Restaurant Group and Checkers Drive-In Restaurants. He received a BS in Accounting from the University of Illinois. He brings to our Board of Directors leadership skills, strategic guidance and operational vision from prior experience in our industry. Johanna Murphy joined our Board of Directors in June 2014. Since September 2013, Ms. Murphy has served as Chief Marketing Officer and Director of Digital for Ivanka Trump, where she is responsible for developing brand strategy and creating dynamic retail experience through traditional and innovative digital marketing techniques. From September 2011 to September 2013 Ms. Murphy served as Vice President of eCommerce at Kate Spade & Company, with a focus elevating the customer experience and service while exploring new customer acquisition tactics through digital strategies for kate spade new york, Kate Spade Saturday and Jack Spade. Prior to that time Ms. Murphy held several leadership roles at GSI Commerce (now eBay Enterprise), including as its Vice President of eCommerce, from January 2008 to September 2011, where she led the fashion and luxury practice and served clients such as Burberry, Calvin Klein, Donna Karan, Betsey Johnson and Tumi. Ms. Murphy brings to our Board of Directors substantial experience in developing marketing and digital strategies for major consumer brands.

James Rand has been a member of our Board of Directors since May 2008. Mr. Rand has served as an independent executive consultant in the retail and restaurant industries since his retirement as Senior Vice President of Worldwide Development at McDonald's Corporation in 2005. Mr. Rand began his career at McDonald's Corporation in 1973, where he gained experience in marketing research, marketing and real estate development, including leading the team that launched the Extra Value Meal strategy. Mr. Rand is also a director of Homemade Pizza Company and Chicago Apartment Finders, Inc. He received a BA in Mathematics from Saint Mary's College. He provides our Board of Directors with seasoned business judgment and valuable insights relevant to our industry.

Kevin Reddy has served as our Chief Executive Officer since April 2006. He became a member of our Board of Directors in May 2006, and Chairman of the Board in May 2008. Mr. Reddy was our President and Chief Operating Officer from April 2005 to April 2006, continuing to serve as our President until July 2012. Prior to joining us, he was the Chief Operating Officer, Chief Operations Officer and Restaurant Support Officer for Chipotle Mexican Grill. Mr. Reddy began his professional career with McDonald's Corporation in 1983 as a regional controller and progressed into positions of escalating responsibility. Mr. Reddy has received a number of awards in connection with his role as our Chief Executive Officer, including being named "Entrepreneur of the Year" by Restaurant Business Magazine in 2009 and was most recently included on the Nation's Restaurant News 2014 Builders List, created to feature people who are taking restaurant brands to the next level. He currently serves on the executive advisory board to the Daniels School of Business at the University of Denver. He received a BS in Accounting from Duquesne University. He brings to our Board of Directors leadership skills, strategic guidance and operational vision from prior experience in our industry.

Andrew Taub has been a member of our Board of Directors since December 2010. Mr. Taub is a Senior Partner at Catterton. He joined Catterton in 1996 and has previously served as a Vice President and Principal prior to becoming a Partner in the firm. Catterton is an affiliate of the Company because, they, together with Argentia, own more than 50% of our capital stock and we entered into a stockholders agreement with them. These arrangements are discussed further in the "Certain Relationships and Related Transactions, and Director Independence" section of this report. Mr. Taub has helped capitalize and grow over a dozen consumer companies including restaurants, retail, food and

beverage and marketing services. Prior to joining Catterton, he spent three years as Vice President of Nantucket Holding Company, a merchant bank specializing in the acquisition and management of troubled companies, as well as the consolidation of fragmented industries. Previously he worked in Mergers and Acquisitions at Dean Witter Reynolds and Coopers & Lybrand. Mr. Taub received a BA from the University of Michigan and an MBA from Columbia Business School. Mr. Taub brings expertise in the retail and consumer industry.

Code of Business Conduct and Ethics

We have adopted a code of business conduct and ethics that applies to all of our officers and employees, including our Chief Executive Officer and Chief Financial Officer and those officers and employees responsible for financial reporting. We have also adopted a director code of business conduct and ethics that applies to our directors. Our codes of business conduct and ethics are posted on the investor relations section of our website at investor.noodles.com. We intend to disclose future amendments to our codes of business conduct and ethics, and any waivers of their provisions that we grant to our executive officers and directors, on our website within four business days following the date of the amendment or waiver.

Audit Committee

Our Audit Committee, is currently composed of Jeffrey Jones, Johanna Murphy and James Rand. Mr. Jones is our Audit Committee financial expert, as currently defined under SEC rules.

Procedures for Nomination of Directors by Shareholders

No change has occurred since the date of the Company's proxy statement filed in 2014 in the procedures through which stockholders may nominate directors for election at the Company's annual meeting of stockholders.

Table of Contents

ITEM 11. Executive Compensation

EXECUTIVE COMPENSATION

Our named executive officers, or NEOs, for 2014, which consist of our principal executive officer and the next two most highly-compensated executives, are:

☒ Kevin Reddy, our Chairman and Chief Executive Officer;

☒ Keith Kinsey, our President and Chief Operating Officer; and

☒ Dave Boennighausen, our Chief Financial Officer.

2014 Summary Compensation Table

The following table summarizes the compensation awarded to, earned by or paid to our NEOs for 2014 and 2013:

Name and Principal Position	Year	Salary	Bonus ⁽¹⁾	Option Awards ⁽²⁾	Non-equity incentive plan compensation ⁽³⁾	All other Compensation ⁽⁴⁾	Total
Kevin Reddy Chairman and Chief Executive Officer	2014	\$689,385	\$—	\$218,182	\$—	\$26,675	\$934,242
	2013	655,769	1,000,000	1,508,748	542,430	17,752	3,724,699
Keith Kinsey President and Chief Operating Officer	2014	490,154	—	218,182		12,994	721,330
	2013	472,308	500,000	838,193	308,582	9,254	2,128,337
Dave Boennighausen Chief Financial Officer	2014	262,384	—	218,182		11,266	491,832
	2013	239,808	50,000	20,898	104,468	9,504	424,678

(1) Amounts shown in this column represent bonuses paid in connection with our initial public offering.

Amounts represent the aggregate grant date fair value of stock options awarded in 2014 and 2013, calculated in accordance with FASB Accounting Standards Codification Topic 718. Each of our NEOs receives a regular annual grant of nonqualified stock options at or about the time of our annual meeting of stockholders. A description of the (2) methodologies and assumptions we use to value options awards and the manner in which we recognize the related expense are described in Note 10, Stock-Based Compensation, to our consolidated financial statements, for the year ended December 30, 2014. These amounts may not correspond to the actual value eventually realized by each NEO because the value depends on the market value of our common stock at the time the option is exercised.

Amounts shown in this column represent cash bonus awards granted to our named executive officers for performance during 2013. No cash bonuses will be paid to our named executive officers for 2014 because we did not achieve our EBITDA targets. For each year, we maintained bonus plans that provided each NEO with the opportunity to earn a bonus based on achievement of adjusted EBITDA goals for the applicable year. The target (3) bonuses were 100% of base salary for Mr. Reddy, 80% and 75% of base salary for Mr. Kinsey in 2014 and 2013, respectively, and 50% of base salary for Mr. Boennighausen for 2014 and 2013. The Compensation Committee of the Board reserves the right to exercise discretion to increase or decrease such bonuses based on other factors, which can include the executive officers' individual performance and other bonus compensation, such as that paid in connection with our initial public offering.

(4) Amounts shown in this column are detailed in the table below:

72

Table of Contents

Name	Year	Car Allowance	Life Insurance	Health & Wellness	Total Other Compensation
Kevin Reddy	2014	\$19,903	\$5,932	\$840	\$26,675
	2013	9,508	5,674	2,570	17,752
Keith Kinsey	2014	4,751	7,417	826	12,994
	2013	1,553	7,087	614	9,254
Dave Boennighausen	2014	8,332	2,094	840	11,266
	2013	6,804	2,094	607	9,505

Outstanding Equity Awards at December 30, 2014

The following table sets forth information regarding outstanding option awards at the end of 2014 for each of the named executive officers. None of the named executive officers held any outstanding stock awards at the end of 2014.

Name	Number of securities underlying unexercised options exercisable	Number of securities underlying unexercised options unexercisable	Option exercise price	Option expiration date
Kevin Reddy	806,790	—	\$ 8.67	12/27/2020
	162,281	97,369	(1) \$ 18.00	06/27/2023
	—	20,000	(3) \$ 31.53	05/13/2024
Keith Kinsey	588,540	—	\$ 8.67	12/27/2020
	17,310	—	\$ 9.53	05/14/2022
	90,156	54,094	(1) \$ 18.00	06/27/2023
	—	20,000	(3) \$ 31.53	05/13/2024
Dave Boennighausen	63,333	—	\$ 8.67	12/27/2020
	22,503	—	\$ 9.53	05/14/2022
	—	43,275	(2) \$ 12.13	12/06/2022
	—	20,000	(3) \$ 31.53	05/13/2024

(1)The options vest equally on each of June 27, 2015, 2016 and 2017.

(2)These options vest on December 6, 2015.

(3)These options vest in 25% increments on each of May 13, 2015, 2016, 2017 and 2018.

Potential Payments and Acceleration of Equity upon Termination or Termination in Connection with a Change in Control

Employment and Severance Agreements

We are a party to employment agreements with each of the Messrs. Reddy and Kinsey (the “Employment Agreements”). Each of the Employment Agreements has a three-year term that commenced on the date of our initial public offering and continues for three years unless earlier terminated. The Employment Agreements automatically extend at the end of the initial term and annually thereafter in each case, for a one year term, unless either party provides at least ninety days’ prior written notice of nonextension.

Pursuant to the employment agreements, Mr. Reddy received a \$1.0 million cash bonus, and Mr. Kinsey received a \$500,000 cash bonus, upon the completion of our initial public offering. In addition, Mr. Reddy was granted 259,650 stock options and Mr. Kinsey 144,250 stock options upon completion of our initial public offering pursuant to our Amended and Restated 2010 Stock Incentive Plan, subject to the terms of that plan. One-half of those options were vested upon grant and the other half will vest in equal increments on the first through fourth anniversaries of the grant date.

In the event Mr. Reddy or Mr. Kinsey is terminated without cause, resigns for good reason or dies or becomes disabled while employed by the Company, a pro rata portion of the next vesting installment of any outstanding options will vest. In addition, if Mr. Reddy or Mr. Kinsey is terminated without cause or resigns for good reason within

12 months following a change in control, any remaining unvested portion of all outstanding options will vest.

73

Table of Contents

Each Employment Agreement provides for the payment of base salary and bonus, as well as customary employee benefits. Under each of the Employment Agreements, if the executive's employment is terminated by the Company without "cause" or by the executive with "good reason" (as such terms are defined in the applicable Employment Agreement) the executive is entitled to receive compensation equal to 18 months of the executive's then-current base salary, payable in equal installments over 18 months, a pro rata bonus for the year of termination and reimbursement of "COBRA" premiums for up to 18 months for the executive and his dependents. The severance payments are conditioned upon the executive entering into a mutual release of claims with us.

Each of the Employment Agreements also restricts the executive from engaging in a competitive business during his employment and for 18 months thereafter, or soliciting employees at or above the level of vice president or above during his employment and for 12 months thereafter. For this purpose, "competitive business" is defined as any business engaged in the fast casual restaurant business in North America that derives 20% or more of its revenues from the sale of noodle or pasta dishes.

In addition, we are a party to a Severance Agreement with Mr. Boennighausen dated December 19, 2012 (the "Severance Agreement"). Pursuant to the Severance Agreement, Mr. Boennighausen is an "at-will" employee. If the Company terminates Mr. Boennighausen's employment without "cause," (as such term is defined in the Severance Agreement) Mr. Boennighausen is entitled to receive compensation equal to nine months of his then-current base salary, payable in equal installments over nine months, a pro rata bonus for the year of termination and reimbursement of "COBRA" premiums for up to nine months for Mr. Boennighausen and his dependents. The severance payments are conditioned upon Mr. Boennighausen entering into a mutual release of claims with us. The Severance Agreement also includes similar noncompetition and nonsolicitation covenants as the Employment Agreements, except that the duration of the covenants apply to Mr. Boennighausen during his employment and for nine months thereafter.

In addition, Mr. Boennighausen's outstanding unvested options provide that in the event his employment is terminated without cause within 12 months following a change in control, any remaining unvested portion of such options will vest.

Payments Upon Termination or Change in Control

None of our NEOs is entitled to receive payments or other benefits upon termination of employment or a change in control, except as provided in the Employment Agreements and Severance Agreement described above.

Certain Other Compensation Plans

401(k) Plan

We maintain a tax-qualified retirement plan that provides eligible U.S. employees with an opportunity to save for retirement on a tax-advantaged basis. Eligible employees are able to defer eligible compensation subject to applicable annual Code limits. No employer contributions were made to the 401(k) plan in 2013 or 2014. Contributions are allocated to each participant's individual account and are then invested in selected investment alternatives according to the participants' directions. The 401(k) plan is intended to be qualified under Section 401(a) of the Code.

Pension Benefits

Our NEOs did not receive any benefits from the Company under any pension or retirement plan we sponsored during 2014.

Nonqualified Deferred Compensation

On May 16, 2013 the Company adopted The Executive Non-Qualified "Excess" Plan (the "Excess Plan"). The Excess Plan provides supplementary benefits to the eligible participants whose benefits under the Company's 401(k) Plan are limited because of the restriction on annual additions that may be made to a qualified defined contribution plan and/or the limitation on compensation that may be taken into account in calculating contributions to such a plan. Our NEOs did not earn any nonqualified deferred compensation benefits from us during 2014 under the Excess Plan or otherwise.

Director Compensation

We have adopted a non-employee director compensation plan covering non-employee directors other than directors affiliated with Catterton or PSPIB. Under the plan, each non-employee director covered by the plan receives an annual cash retainer for board service, an annual cash retainer for committee service and an annual cash retainer for serving as chair of a committee. The board has currently fixed the retainer for board service at \$50,000 per year, and it has

fixed each of the retainers for committee service and committee chair at \$10,000 per year. In addition, at the close of business on the date of the Company's annual meeting of stockholders,

74

Table of Contents

each non-employee director covered by the plan will receive an annual retainer stock option under the plan, which shall vest on the date of the next annual meeting of stockholders. The annual retainer grant has a value, as determined by the Board of Directors in good faith using the Black-Scholes valuation formula, of \$50,000.

Directors who are also employees, such as Mr. Reddy and Mr. Kinsey, do not and will not receive any compensation for their services as directors. In addition, directors appointed by Catterton and Argentia have not received any compensation for their services as directors and shall not receive any such compensation for two years following the closing date of our IPO in June 2013. Thereafter, the Company will pay the directors appointed by Catterton and Argentia an annual fee of \$100,000 (or such other amount that may be determined by the Board of Directors to be payable to non-employee directors) for each such director serving on the Board of Directors; provided, that any fees otherwise payable to directors appointed by Catterton shall instead be paid directly to Catterton Management Company, L.L.C. and any fees otherwise payable to directors appointed by Argentia shall instead be paid directly to Argentia.

Directors have been and will continue to be reimbursed for travel, food, lodging and other expenses directly related to their activities as directors. Directors are also entitled to the protection provided by their indemnification agreements and the indemnification provisions in our certificate of incorporation and bylaws, as well as the protection provided by director and office liability insurance provided by us.

The following table sets forth compensation information for the fiscal year ended December 30, 2014, with respect to non-employee directors who received compensation:

Director Name	Fees Earned or Paid in Cash (\$)	Stock Awards (\$) ⁽⁴⁾⁽⁵⁾	Total (\$)
Jeffrey Jones	\$ 70,000	(1) \$ 62,522	\$ 132,522
Johanna Murphy	30,000	(2) —	30,000
James Rand	60,000	(3) 62,522	122,522

(1) This amount includes a \$10,000 annual fee for serving as the chairman of the audit committee and \$10,000 annual fee for serving as a member of the audit committee.

(2) This amount includes \$25,000 in fees for board service and \$5,000 in fees for serving as a member of the audit committee, for Ms. Murphy's service in 2014 since joining the board in June 2014.

(3) This amount includes a \$10,000 annual fee for serving as a member of the audit committee.

(4) The annual retainer grant in 2014 had a value of \$62,522 and covered the period from the adoption of the Non-Employee Directors Compensation Plan in 2013 through the 2014 fiscal year.

(5) The outstanding options for Messrs Jones and Rand as of December 30, 2014 were 5,511 and 31,476, respectively.

(5) Ms. Murphy had no outstanding options as of December 30, 2014.

Compensation Committee Interlocks and Insider Participation

None of the members of our Compensation Committee is, or has at any time been, an officer or employee of the Company. None of our executive officers currently serves, or in the past year has served, as a member of the Board of Directors or Compensation Committee of any other entity that has one or more executive officers serving on our Board of Directors or Compensation Committee. No directors served on the Compensation Committee in 2014 other than Messrs. Dahnke and Frenkiel, the two directors currently serving on such committee, and James Pittman, who resigned as a director of the Company in June 2014.

Table of Contents

ITEM 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The following table sets forth certain information with respect to the beneficial ownership of Class A and Class B of our common stock as of February 19, 2015 for:

- each stockholder known by us to be the beneficial owner of more than 5% of any class of our outstanding shares of common stock;
- each of our directors;
- each of our named executive officers; and
- all of our directors and executive officers as a group.

As of February 19, 2015, Argentia beneficially owned 1,522,098 shares of Class B common stock, which represented 100% of the outstanding shares of Class B common stock on that date. Class B common stock has the same rights as the common stock except that holders of Class B common stock will not be entitled to vote in the election or removal of directors unless converted into Class A common stock.

We have determined beneficial ownership in accordance with the rules of the SEC. Except as indicated by the footnotes below, we believe, based on the information furnished to us, that the persons and entities named in the table below have sole voting and investment power with respect to all shares of our common stock that they beneficially own, subject to applicable community property laws.

Applicable percentage ownership in the following table is based on 29,827,302 shares of common stock outstanding as of February 19, 2015 of which 28,305,204 were Class A common stock and 1,522,098 were Class B common stock), unless otherwise indicated in the footnotes below. In computing the number of shares of common stock beneficially owned by a person or entity and the percentage ownership of that person or entity, we deemed to be outstanding all shares of common stock subject to options or other convertible securities held by that person or entity that are currently exercisable or exercisable within 60 days of February 19, 2015. We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other person. Unless otherwise indicated, the address of each beneficial owner listed in the table below is c/o Noodles & Company, 520 Zang Street, Suite D, Broomfield, CO 80021.

Table of Contents

* Indicates ownership of less than one percent.

All of the shares of Class A common stock are held by Catterton-Noodles, LLC, an entity affiliated with Catterton. Scott Dahnke is a Managing Partner of Catterton, and in such capacity has voting and investment control over the (1) securities. Mr. Dahnke disclaims beneficial ownership of such securities except to the extent of his pecuniary interest therein. The principal business address of Catterton Partners is 599 West Putnam Avenue, Greenwich, CT 06830.

Consists of 6,742,212 shares of Class A common stock and 1,522,098 shares of Class B common stock held by Argentia, which is affiliated with the Public Sector Pension Investment Board (“PSP Investments”), a Canadian Crown Corporation. John Valentini is Interim President and Chief Executive Officer and Interim Chief Investment Officer of PSP Investments. He is also a director and President of Argentia. Derek Murphy is Senior Vice President, Private Equity of PSP Investments and is a director and Vice President of Argentia. In such capacities, (2) Mr. Valentini and Mr. Murphy have investment control over such securities. Mr. Murphy and Stephanie Lachance, Vice President, Responsible Investment and Corporate Secretary of PSP Investments, have voting control over such securities on behalf of Argentia. Mr. Valentini, Mr. Murphy and Ms. Lachance disclaim beneficial ownership of such securities. The principal business address of Argentia is 1250 René Lévesque Boulevard West, Suite 900, Montreal, Quebec, Canada H3B 4W8.

(3) Includes options to purchase 969,071 shares of our Class A common stock exercisable within 60 days.

(4) Includes options to purchase 696,006 shares of our Class A common stock exercisable within 60 days.

(5) Includes options to purchase 85,836 shares of our Class A common stock exercisable within 60 days.

(6) Includes options to purchase 138,624 shares of our Class A common stock exercisable within 60 days.

(7) Includes options to purchase 90,320 shares of our Class A common stock exercisable within 60 days.

Edgar Filing: NOODLES & Co - Form 10-K

- (8) Includes options to purchase 147,135 shares of our Class A common stock exercisable within 60 days.
- (9) Includes options to purchase 25,802 shares of our Class A common stock exercisable within 60 days.
- (10) Includes options to purchase 31,476 shares of our Class A common stock exercisable within 60 days.

Table of Contents

Equity Compensation Plan Information

The following table summarizes information as of December 30, 2014, about shares of common stock that may be issued under our equity compensation plans.

Plan Category	Number of securities to be issued upon exercise of outstanding options and warrants (a)	Weighted-average exercise price of outstanding options and warrants (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by security holders ⁽¹⁾	3,302,964	\$ 12.17	3,840,146
Equity compensation plans not approved by security holders	—	—	—
Total	3,302,964	\$ 12.17	3,840,146

(1) Includes in column (a) 2,245,264 shares of Class A common stock issuable upon exercise of options outstanding under the Company's Stock Incentive Plan and 57,700 shares of Class B common stock issuable upon exercise of a warrant granted to a consultant. Includes in column (c) 3,125,906 shares of Class A common stock available for issuance upon exercise of future grants under the Company's Stock Incentive Plan and 714,240 shares of Class A common stock available for future issuance under the Company's Employee Stock Purchase Plan.

ITEM 13. Certain Relationships and Related Transactions, and Director Independence

Certain Relationships and Related Transactions

The following is a description of each transaction since January 1, 2014 to which we have been a party, in which the amount involved exceeded or will exceed \$120,000, and in which any of our directors, executive officers or beneficial holders of more than 5% of either our Class A or our Class B Common Stock had or will have a direct or indirect material interest.

Stockholders Agreement. In connection with our initial public offering, we entered into a stockholders agreement with our Equity Sponsors that became effective upon the completion of the initial public offering. The stockholders agreement contains agreements with respect to restrictions on the sale, issuance or transfer of shares that prevent either Equity Sponsor from transferring its shares without the consent of the other Equity Sponsor, except in connection with a tag along sale of common stock by both Equity Sponsors or pursuant to the registration rights agreement, which is described below, until the earlier of the second anniversary of the offering and the time at which such Equity Sponsor holds less than 25% of our outstanding Class A common stock and Class B Common Stock. The stockholders agreement also grants our Equity Sponsors the right, subject to certain conditions, to nominate representatives to our Board of Directors and committees of our Board of Directors. Catterton and Argentia each will have the right to designate two members to our Board of Directors, and the parties to the stockholders agreement will agree to vote to elect such director designees. If at any time an Equity Sponsor owns more than 10% and less than 20% of our outstanding Class A and Class B common stock, such Equity Sponsor has the right to designate one nominee for election to our Board of Directors. If an Equity Sponsor's ownership level falls below 10% of our outstanding Class A and Class B common stock, such Equity Sponsor will no longer have a right to designate a nominee. In addition, for so long as Catterton and Argentia hold at least 35% of the voting power of our outstanding common stock, certain actions may not be taken without the approval of Catterton and Argentia, including:

any merger, recapitalization or other adjustment in voting rights, if following such event, Catterton and Argentia would not together have sufficient voting power or otherwise be entitled to elect a majority of the Board;

any sale of all or substantially all the assets of the Company;

the issuance of any capital stock of us or any of our subsidiaries, other than certain issuances upon the grant of equity awards;

- create any new class or series of shares of equity securities having rights, preferences or privileges senior to or on a parity with the Common Stock; or
- any amendment of our certificate of incorporation, bylaws or equivalent organization documents of the Company or any Subsidiary of the Company in a manner that could reasonably be expected to adversely affect the rights of Catterton or Argentia.

Control Relationships. Catterton and Argentia each own approximately 28% of our equity interests; however, the terms of the certificate of incorporation prevent control by either Equity Sponsor acting on its own. However, under the stockholders agreement our Equity Sponsors have agreed to elect each other's director nominees and to not take certain actions affecting us

Table of Contents

without the consent of the other Equity Sponsor. See "—Stockholders Agreement", above, for a description of the material provisions of the stockholders agreement. As a result, our Equity Sponsors could potentially have significant influence over all matters presented to our stockholders for approval, including election and removal of our directors and change in control transactions.

Registration Rights. Pursuant to the terms of a registration rights agreement between us and certain holders of our stock, including Catterton, certain of its affiliates and Argentina, certain holders of our stock are entitled to demand and piggyback rights:

Demand Registrations. Under the registration rights agreement, both Catterton and Argentina are able to require us to file a registration statement under the Securities Act, covering at least 10% of our equity interests, and we are required to notify holders of such securities in the event of such request (a "Demand Registration Request"). Each of Catterton and Argentina can issue unlimited Demand Registration Requests, unless we are ineligible to use Form S-3, in which case we will not be obligated to grant more than three Demand Registration Requests to each of Catterton and Argentina during such period of ineligibility.

Piggyback Registrations. Under the Registration Rights Agreement, if at any time we propose or are required to register any of our equity securities under the Securities Act (other than a demand registration or pursuant to an employee benefit or dividend reinvestment plan), we will be required to notify each eligible holder of its right to participate in such registration and to use commercially reasonable efforts to cause all eligible securities requested to be included in the registration to be so included.

Procedures for Approval of Related Party Transactions. Our policies on related party transactions, which are included in our Audit Committee charter, Nominating and Corporate Governance Committee charter, and our Employee Code of Business Conduct and Ethics, address the policies and procedures for review and approval of related party transactions. These policies cover certain relationships and material obligations and interests. These policies provide that, in determining whether or not to recommend the initial approval or ratification of a related party transaction, all relevant facts and circumstances available shall be considered. The Nominating and Corporate Governance Committee and Audit Committee are both responsible for approval and ratification of certain related person transactions pursuant to the applicable policies and procedures.

Director Independence

Under the listing requirements and NASDAQ rules, independent directors must comprise a majority of a listed company's Board of Directors. Our Principles of Corporate Governance (the "Principles") provide that an "independent" director is a director who meets the NASDAQ definition of independence and the Principles also provide that, under applicable NASDAQ rules, the members of each of the Audit, Nominating and Corporate Governance and Compensation Committees are subject to additional, heightened independence criteria applicable to directors serving on these committees. The Principles are published on our website at <http://investor.noodles.com/governance.cfm>. Our Board of Directors has undertaken a review of its composition, the composition of its committees and the independence of each director (both generally, and, where applicable, under heightened independence criteria applicable to certain committees). Based upon information requested from and provided by each director concerning his background, employment and affiliations, including family relationships, our Board of Directors has determined, based on the recommendation of our Nominating and Corporate Governance Committee, that each of Messrs. Dahnke, Frenkiel, Jones, Rand and Taub and Ms. Murphy is "independent" under NASDAQ rules. In making the independence determinations, our Board of Directors assessed the current and prior relationships that each non-employee director has with us and all other relevant facts and circumstances, including the beneficial ownership of our capital stock by each non-employee director. Based on these assessments, for each director deemed to be independent, our Board of Directors made a determination that, because of the nature of the director's relationships and / or the amounts involved, the director had no relationships with our company or our management that, in the judgment of the Board, would impair the director's independence.

Messrs. Frenkiel and Dahnke are currently members of the Compensation Committee and are affiliated with Argentina and Catterton, respectively. Pursuant to applicable SEC and NASDAQ requirements, the Board of Directors

considered all factors specifically relevant to determining whether either of these directors had or has a relationship which is material to that director's ability to be independent from management in connection with their duties as members of the Compensation Committee, including these affiliations, and the Board determined that these directors are independent for purposes of serving on the Board of Directors and its Compensation Committee.

Table of Contents

ITEM 14. Principal Accounting Fees and Services

Audit and Related Fees

The following table sets forth the aggregate fees billed for professional services rendered by Ernst & Young for the audit of our financial statements for 2014 and 2013 and the aggregate fees for other services rendered by Ernst & Young billed in those periods:

	2014	2013
Audit fees ⁽¹⁾	\$425,000	\$1,323,234
Audit Related fees ⁽²⁾	—	2,150
Tax fees ⁽³⁾	87,385	94,355
Total audit and related fees	\$512,385	\$1,419,739

2014 and 2013 audit fees and expenses related to the fiscal year audit and interim reviews, notwithstanding when (1) the fees and expenses were billed or when the services were rendered, and additional work performed in connection with the Company's initial public offering and follow-on offering.

(2) Represents fees for a subscription to an Ernst & Young online services used for accounting research purposes.

(3) Tax fees relate to professional services rendered for tax compliance, tax return review and preparation and related tax advice.

In connection with our initial public offering, the Board of Directors adopted a written policy for the pre-approval of certain audit and non-audit services which Ernst & Young provides. The policy balances the need to ensure the independence of Ernst & Young while recognizing that in certain situations Ernst & Young may possess both the technical expertise and knowledge of the Company to best advise the Company on issues and matters in addition to accounting and auditing. In general, the Company's independent registered public accounting firm cannot be engaged to provide any audit or non-audit services unless the engagement is pre-approved by the Audit Committee. Certain services may also be pre-approved by the Chairman of the Audit Committee under the policy. All of the fees identified in the table above were approved in accordance with SEC requirements and, following our initial public offering, pursuant to the policies and procedures described above.

All of the services of Ernst & Young for 2014 and 2013 described above were pre-approved by the Audit Committee.
