NEWMARKET CORPORATION AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

1. Financial Statement Presentation

In the opinion of management, the accompanying consolidated financial statements of NewMarket Corporation and its subsidiaries contain all necessary adjustments for the fair statement of, in all material respects, our consolidated financial position as of March 31, 2013 and December 31, 2012, the change in our shareholders' equity for the three months ended March 31, 2013 and the year ended December 31, 2012, our consolidated results of operation, comprehensive income, and cash flows for the three months ended March 31, 2013 and March 31, 2012. All adjustments are of a normal, recurring nature, unless otherwise disclosed. These financial statements should be read in conjunction with the consolidated financial statements and related notes included in the NewMarket Corporation Annual Report on Form 10-K for the year ended December 31, 2012 (2012 Annual Report), as filed with the Securities and Exchange Commission (SEC). The results of operation for the three month period ended March 31, 2013 are not necessarily indicative of the results to be expected for the full year ending December 31, 2013. The December 31, 2012 consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. Unless the context otherwise indicates, all references to "we," "us," "our," the "Company," and "NewMarket" are to NewMarket Corporation and its consolidated subsidiaries.

At both March 31, 2013 and December 31, 2012, we had a book overdraft for some of our disbursement cash accounts. A book overdraft represents disbursements that have not cleared the bank accounts at the end of the reporting period. There are no agreements with the same banks to offset the presented balance. We transfer cash on an as-needed basis to fund these items as they clear the bank in subsequent periods.

Certain reclassifications have been made to the accompanying consolidated financial statements to conform to the current presentation.

Cash dividends for the three months ended March 31, 2013 and March 31, 2012 were declared and paid as shown in the table below.

Year	Date Declared	Date Paid	Per Share Amount
2013	February 28, 2013	April 1, 2013	\$0.90
2012	February 23, 2012	April 2, 2012	0.75

2. Asset Retirement Obligations

Our asset retirement obligations are related primarily to past tetraethyl lead (TEL) operations. The following table illustrates the activity associated with our asset retirement obligations for the three months ended March 31, 2013 and March 31, 2012.

(in thousands)	2013	2012
Asset retirement obligations, January 1	\$2,800	\$3,297
Accretion expense	30	43
Liabilities settled	(297)	(128)
Changes in expected cash flows and timing	185	98
Asset retirement obligations, March 31	\$2,718	\$3,310

Table of Contents

3. Segment Information

The tables below show our consolidated segment results. The “All other” category includes the operations of the TEL business, as well as certain contract manufacturing performed by Ethyl Corporation (Ethyl).

Consolidated Revenue by Segment

(in thousands)	Three Months Ended	
	March 31, 2013	2012
Petroleum additives		
Lubricant additives	\$452,672	\$444,545
Fuel additives	105,728	113,147
Total	558,400	557,692
Real estate development	2,858	2,858
All other	1,350	2,129
Consolidated revenue	\$562,608	\$562,679

Segment Operating Profit

(in thousands)	Three Months Ended		
	March 31, 2013	2012	
Petroleum additives	\$102,028	\$107,154	
Real estate development	1,790	1,789	
All other	(401) 519	
Segment operating profit	103,417	109,462	
Corporate, general, and administrative expenses	(5,216) (5,505)
Interest and financing expenses, net	(5,109) (4,482)
Gain on interest rate swap agreement (a)	678	1,735	
Loss on early extinguishment of debt (b)	0	(3,221)
Other income, net	103	814	
Income before income tax expense	\$93,873	\$98,803	

The gain on interest rate swap agreement represents the change, since the beginning of the reporting period, in the (a) fair value of an interest rate swap which we entered into on June 25, 2009. We are not using hedge accounting to record the interest rate swap, and accordingly, any change in the fair value is immediately recognized in earnings.

In March 2012, we entered into a \$650 million five-year unsecured revolving credit facility which replaced our previous \$300 million unsecured revolving credit facility. During 2012, we used a portion of the \$650 million revolving credit facility to fund the early redemption of all of our then outstanding 7.125% senior notes (7.125% (b) senior notes), as well as to repay the outstanding principal amount on the Foundry Park I mortgage loan. As a result, during the three months ended March 31, 2012, we recognized a loss on early extinguishment of debt of \$3.2 million from accelerated amortization of financing fees associated with the prior revolving credit facility and costs associated with redeeming the 7.125% senior notes prior to maturity.

Table of Contents

Segment Depreciation and Amortization

(in thousands)	Three Months Ended March 31,	
	2013	2012
Petroleum additives	\$9,829	\$8,797
Real estate development	1,295	946
All other and corporate	672	739
Total depreciation and amortization	\$11,796	\$10,482

4. Pension Plans and Other Postretirement Benefits

The table below shows cash contributions made during the three months ended March 31, 2013, as well as expected remaining cash contributions for the year ending December 31, 2013 for both our domestic and foreign pension plans and postretirement benefit plans.

(in thousands)	Actual Cash Contributions for Three Months Ended March 31, 2013	Expected Remaining Cash Contributions for Year Ending December 31, 2013
Domestic plans		
Pension benefits	\$5,635	\$16,915
Postretirement benefits	409	1,228
Foreign plans		
Pension benefits	1,938	4,930
Postretirement benefits	49	147

The tables below present information on net periodic benefit cost for our pension and postretirement benefit plans.

(in thousands)	Domestic Pension Benefits Three Months Ended March 31,		Postretirement Benefits	
	2013	2012	2013	2012
Service cost	\$2,663	\$2,157	\$499	\$522
Interest cost	2,384	2,359	682	787
Expected return on plan assets	(3,617)	(3,301)	(364)	(373)
Amortization of prior service cost	4	53	2	2
Amortization of actuarial net loss	1,801	1,292	0	0
Net periodic benefit cost	\$3,235	\$2,560	\$819	\$938
(in thousands)	Foreign Pension Benefits Three Months Ended March 31,		Postretirement Benefits	
	2013	2012	2013	2012
Service cost	\$1,354	\$1,167	\$8	\$7
Interest cost	1,357	1,333	27	27
Expected return on plan assets	(1,729)	(1,506)	0	0
Amortization of prior service credit	(2)	(38)	0	0
Amortization of transition obligation	0	0	13	13
Amortization of actuarial net loss	354	276	10	8
Net periodic benefit cost	\$1,334	\$1,232	\$58	\$55

Table of Contents

5. Earnings Per Share

Options and stock-based compensation awards are not included in the computation of diluted earnings per share if the impact on earnings per share would be anti-dilutive. We had 11,940 shares of nonvested restricted stock that were excluded from the calculation of diluted earnings per share for the three months ended March 31, 2013. We had no anti-dilutive options or stock-based compensation awards that were excluded from the calculation of diluted earnings per share for the three months ended March 31, 2012.

The nonvested restricted stock is considered a participating security since the stock contains nonforfeitable rights to dividends. As such, we use the two-class method to compute basic and diluted earnings per share. The following table illustrates the earnings allocation method utilized in the calculation of basic and diluted earnings per share.

(in thousands, except per-share amounts)	Three Months Ended March 31,	
	2013	2012
Earnings per share numerator:		
Net income attributable to common shareholders before allocation of earnings to participating securities	\$67,835	\$66,547
Earnings allocated to participating securities	61	0
Net income attributable to common shareholders after allocation of earnings to participating securities	\$67,774	\$66,547
Earnings per share denominator:		
Weighted-average number of shares of common stock outstanding - basic and diluted	13,376	13,405
Earnings per share - basic and diluted	\$5.07	\$4.96

6. Intangibles (Net of Amortization) and Goodwill

(in thousands)	Identifiable Intangibles		December 31, 2012	
	March 31, 2013		December 31, 2012	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Amortizing intangible assets				
Formulas and technology	\$91,526	\$76,106	\$91,662	\$74,762
Contracts	9,593	7,079	9,593	6,734
Customer bases	7,006	2,509	7,021	2,400
Trademarks and trade names	1,560	492	1,586	426
Goodwill	4,879		5,002	
	\$114,564	\$86,186	\$114,864	\$84,322

All of the intangibles relate to the petroleum additives segment. The change in the gross carrying amount between 2012 and 2013 is due to foreign currency fluctuations. There is no accumulated goodwill impairment.

Amortization expense was (in millions):

Three months ended March 31, 2013	\$1.9
Three months ended March 31, 2012	1.9

Table of Contents

Estimated amortization expense for the remainder of 2013, as well as annual amortization expense related to our intangible assets for the next five years is expected to be (in millions):

2013	\$5.2
2014	6.2
2015	5.8
2016	1.9
2017	0.7
2018	0.7

Generally, we amortize the cost of the customer base intangibles by an accelerated method and the cost of the remaining intangible assets by the straight-line method over their estimated economic lives. We generally amortize contracts over 1.5 to 10 years; customer bases over 20 years; and formulas and technology over 5 to 20 years. Trademarks and trade names are amortized over 10 years.

7. Long-term Debt

(in thousands)	March 31, 2013	December 31, 2012
Senior notes - 4.10% due 2022	\$349,422	\$349,407
Revolving credit facility	76,000	75,000
Lines of credit	5,193	4,382
	430,615	428,789
Current maturities of long-term debt	(5,193) (4,382
	\$425,422	\$424,407

At March 31, 2013, we had outstanding senior notes in the aggregate principal amount of \$350 million that bear interest at a fixed rate of 4.10% and are due in 2022 (4.10% senior notes). During March 2013, we registered these 4.10% senior notes under the Securities Act of 1933 and commenced an offer to exchange the previously unregistered 4.10% senior notes that were outstanding at December 31, 2012 for an equal aggregate principal amount.

The following table provides information related to the unused portion of our revolving credit facility in effect at March 31, 2013 and December 31, 2012:

(in millions)	March 31, 2013	December 31, 2012
Maximum borrowing capacity under the revolving credit facility	\$650.0	\$650.0
Outstanding borrowings under the revolving credit facility	76.0	75.0
Outstanding letters of credit	3.1	3.1
Unused portion of revolving credit facility	\$570.9	\$571.9

For further information on the outstanding letters of credit, see Note 8. The average interest rate for borrowings under our revolving credit facility was 2.16% during the first three months of 2013 and 1.84% during 2012.

We were in compliance with all covenants under our debt agreements at March 31, 2013 and at December 31, 2012.

Table of Contents

8. Contractual Commitments and Contingencies

Information on certain contractual commitments and contingencies follows.

Litigation

We are involved in legal proceedings that are incidental to our business and include administrative or judicial actions seeking remediation under environmental laws, such as Superfund. Some of these legal proceedings relate to environmental matters and involve governmental authorities. For further information, see "Environmental" below.

While it is not possible to predict or determine with certainty the outcome of any legal proceeding, we believe the outcome of any of these proceedings, or all of them combined, will not result in a material adverse effect on our consolidated results of operation, financial condition, or cash flows.

As we previously disclosed, the United States Department of Justice has advised us that it is conducting a review of certain of our foreign business activities in relation to compliance with relevant U.S. economic sanctions programs and anti-corruption laws, as well as certain historical conduct in the domestic U.S. market, and has requested certain information in connection with such review. We are cooperating with the investigation. In connection with such cooperation, we have voluntarily agreed to provide certain information and are conducting an internal review for that purpose.

Environmental

In 2000, the Environmental Protection Agency (EPA) named us as a potentially responsible party (PRP) under Superfund law for the clean-up of soil and groundwater contamination at the five grouped disposal sites known as "Sauget Area 2 Sites" in Sauget, Illinois. Without admitting any fact, responsibility, fault, or liability in connection with this site, we are participating with other PRPs in site investigations and feasibility studies. The Sauget Area 2 Sites PRPs received notice of approval from the EPA of the Remedial Investigation report on February 27, 2009, notice of approval of the October 2009 Human Health Risk Assessment on December 17, 2009, and approval of the Feasibility Study (FS) report on April 3, 2013. We have accrued our estimated proportional share of the expenses for the FS, as well as our best estimate of our proportional share of the remediation liability proposed in our ongoing discussions and submissions with the agencies involved. We do not believe there is any additional information available as a basis for revision of the liability that we have established at March 31, 2013. The amount accrued for this site is not material.

The accruals for environmental remediation, dismantling, and decontamination at our most significant environmental remediation sites are shown below. At the former TEL plant site shown in the table below, we have completed significant environmental remediation, although we will be monitoring and treating the site for an extended period. The accruals below have been discounted to present value, and include an inflation factor in the estimate. The remaining environmental liabilities not shown separately below are not discounted.

(in millions)	March 31, 2013			December 31, 2012			
	Former TEL Plant Site, Louisiana	Houston, Texas Plant Site	Superfund Site, Louisiana	Former TEL Plant Site, Louisiana	Houston, Texas Plant Site	Superfund Site, Louisiana	
Accrual, discounted	\$5.5	\$6.0	\$3.2	\$5.6	\$6.1	\$3.2	
Accrual, undiscounted	6.8	9.1	4.4	6.9	9.3	4.4	
Discount rate for accrual	3	% 3	% 3	% 3	% 3	% 3	%
Expected future payments:							
2013	\$0.6	\$0.7	\$0.0				
2014	0.8	0.2	0.0				
2015	0.6	0.2	0.2				
2016	0.5	0.2	0.3				
2017	0.6	0.2	0.3				
Thereafter	3.7	7.6	3.6				

Of the total accrual at the Houston, Texas plant site, \$5.8 million at both March 31, 2013 and December 31, 2012 relates to remediation. Of the total remediation, \$5.6 million at both March 31, 2013 and December 31, 2012 relates to remediation of groundwater and soil.

Table of Contents

We accrue for environmental remediation and monitoring activities for which costs can be reasonably estimated and are probable. These estimates are based on an assessment of the site, available clean-up methods, and prior experience in handling remediation. While we believe we are currently fully accrued for known environmental issues, it is possible that unexpected future costs could have a significant impact on our financial position, results of operation, and cash flows.

Our total accruals for environmental remediation were approximately \$19.5 million at March 31, 2013 and \$19.7 million at December 31, 2012. In addition to the accruals for environmental remediation, we also have accruals for dismantling and decommissioning costs of \$500 thousand at both March 31, 2013 and December 31, 2012.

Letters of Credit and Guarantees

We have agreements with several financial institutions that provide guarantees for certain business activities of our subsidiaries, including performance, insurance, credit, lease, and customs and excise guarantees. The parent company provides guarantees of the subsidiaries' performance under these agreements and also provides a guarantee for repayment of lines of credit for subsidiaries in China and India. Guarantees outstanding under all of these agreements at March 31, 2013 are \$14 million. At March 31, 2013, \$3.1 million of these guarantees are secured by letters of credit, all of which were issued under the \$100 million letter of credit sub-facility of our revolving credit facility. See Note 7 for further information. The letters of credit relate to insurance and performance guarantees. The maximum potential amount of future payments under all other guarantees not secured by letters of credit at March 31, 2013 is \$21 million. We have no liability accrued for these guarantees, however there is \$5.2 million drawn on lines of credit in China and India, which is recorded in Long-term debt, current portion on the Consolidated Balance Sheets. See Note 7 for further information. We accrue for potential liabilities when a future payment is probable and the range of loss can be reasonably estimated.

Expiration dates of the letters of credit and certain guarantees range from 2013 to 2021. Some of the guarantees have no expiration date. We renew letters of credit as necessary.

9. Derivatives and Hedging Activities

We are exposed to certain risks arising from both our business operations and economic conditions. We primarily manage our exposures to a wide variety of business and operational risks through management of our core business activities.

We manage certain economic risks, including interest rate, liquidity, and credit risk primarily by managing the amount, sources, and duration of our debt funding, as well as through the use of derivative financial instruments. Specifically, we have entered into interest rate swaps to manage our exposure to interest rate movements.

Our foreign operations expose us to fluctuations of foreign exchange rates. These fluctuations may impact the value of our cash receipts and payments as compared to our reporting currency, the U.S. Dollar. To manage this exposure, we sometimes enter into foreign currency forward contracts to minimize currency exposure due to cash flows from foreign operations.

Cash Flow Hedge of Interest Rate Risk

In January 2010, we entered into an interest rate swap to manage our exposure to interest rate movements on the mortgage loan and to reduce variability in interest expense. This mortgage loan interest rate swap terminated with the payoff of the mortgage loan on May 1, 2012. Further information on the mortgage loan is in Note 12 of our 2012 Annual Report. We also had an interest rate swap to manage our exposure to interest rate movements on the Foundry Park I construction loan and to add stability to capitalized interest expense. The Foundry Park I construction loan interest rate swap matured on January 1, 2010. Both interest rate swaps were designated and qualified as cash flow hedges. As such, the effective portion of changes in the fair value of the swaps was recorded in accumulated other comprehensive loss and is subsequently being reclassified into earnings in the period that the hedged forecasted transaction affects earnings. Any ineffective portion of changes in the fair value of the swap was recognized immediately in earnings.

The accumulated unrealized loss, net of tax, related to the fair value of the mortgage loan interest rate swap is recorded in accumulated other comprehensive loss in shareholders' equity on the Consolidated Balance Sheets and amounted to approximately \$1.5 million at March 31, 2013 and \$1.7 million at December 31, 2012. The amount

remaining in accumulated other comprehensive loss related to the mortgage loan interest rate swap is being recognized in the Consolidated Statements of Income over the original term of the mortgage loan agreement through January 29, 2015. Also recorded as a component of accumulated other comprehensive loss in shareholders' equity on the Consolidated Balance Sheets is the accumulated loss related to the construction loan interest rate swap of approximately \$2.5 million, net of tax, at both March 31, 2013 and December 31, 2012. The amount remaining in accumulated other comprehensive loss related to the construction loan interest rate swap is being recognized in the Consolidated Statements of Income over the depreciable life of the office building. Approximately \$900 thousand, net of tax, currently recognized in accumulated other

Table of Contents

comprehensive loss related to both the construction loan interest rate swap and the mortgage loan interest rate swap is expected to be reclassified into earnings over the next twelve months.

Non-designated Hedges

On June 25, 2009, we entered into an interest rate swap with Goldman Sachs in the notional amount of \$97 million and with a maturity date of January 19, 2022 (Goldman Sachs interest rate swap). NewMarket entered into the Goldman Sachs interest rate swap in connection with the termination of a loan application and related rate lock agreement between Foundry Park I and Principal Commercial Funding II, LLC (Principal). When the rate lock agreement was originally executed in 2007, Principal simultaneously entered into an interest rate swap with a third party to hedge Principal's exposure to fluctuation in the ten-year United States Treasury Bond rate. Upon the termination of the rate lock agreement on June 25, 2009, Goldman Sachs both assumed Principal's position with the third party and entered into an offsetting interest rate swap with NewMarket. Under the terms of this interest rate swap, NewMarket is making fixed rate payments at 5.3075% and Goldman Sachs makes variable rate payments based on three-month LIBOR. We have collateralized this exposure through cash deposits posted with Goldman Sachs amounting to \$33.8 million at March 31, 2013 and \$37.7 million at December 31, 2012.

We have made an accounting policy election to not offset derivative fair value amounts with the fair value amounts for the right to reclaim cash collateral under our master netting arrangement. We elected not to use hedge accounting for the Goldman Sachs interest rate swap, and therefore, immediately recognize any change in the fair value of this derivative financial instrument directly in earnings.

The table below presents the fair value of our derivative financial instruments, as well as their classification on the Consolidated Balance Sheets as of March 31, 2013 and December 31, 2012.

(in thousands)	Asset Derivatives				Liability Derivatives			
	March 31, 2013		December 31, 2012		March 31, 2013		December 31, 2012	
	Balance		Balance		Balance		Balance	
	Sheet	Fair Value	Sheet	Fair Value	Sheet	Fair Value	Sheet	Fair Value
	Location	Location	Location	Location	Location	Location	Location	Location
Derivatives Not Designated as Hedging Instruments								
Goldman Sachs interest rate swap		\$ 0		\$ 0	Accrued expenses and Other noncurrent liabilities	\$ 29,548	Accrued expenses and Other noncurrent liabilities	\$ 32,761

The total fair value reflected in the table above includes amounts recorded in accrued expenses of approximately \$0.9 million at March 31, 2013 and \$2.3 million at December 31, 2012 for the Goldman Sachs interest rate swap.

The tables below present the effect of our derivative financial instruments on the Consolidated Statements of Income.

Credit-risk Related Contingent Features

The agreement we have with our current derivative counterparty contains a provision where we could be declared in default on our derivative obligation if repayment of indebtedness is accelerated by our lender(s) due to our default on the indebtedness.

As of March 31, 2013, the fair value of the derivative in a net liability position related to this agreement, which includes accrued interest but excludes any adjustment for nonperformance risk, was \$29.4 million. We have minimum collateral posting thresholds with the counterparty and have posted cash collateral of \$33.8 million as of March 31, 2013. If required, we could have settled our obligations under the agreement at the termination value of \$29.4 million at March 31, 2013.

10. Other Comprehensive Income (Loss) and Accumulated Other Comprehensive Loss

The balances of, and changes in, the components of accumulated other comprehensive loss, net of tax, consist of the following:

(in thousands)	Pension Plans and Other Postretirement Benefits	Derivative Instruments	Foreign Currency Translation Adjustments	Marketable Securities	Accumulated Other Comprehensive Income (Loss)
Balance at December 31, 2011	\$ (76,416)	\$ (4,736)	\$ (17,944)	\$ 364	\$ (98,732)
Other comprehensive income (loss) before reclassifications	(24,291)	(330)	7,567	676	(16,378)
Amounts reclassified from accumulated other comprehensive loss	4,568	893	0	(1,040)	4,421

Balance at March 31, 2013	\$ (94,764)	\$ (3,960)	\$ (28,657)	\$ 0	\$ (127,381)

Table of Contents

The following table illustrates the amounts, net of tax, reclassified out of each component of accumulated other comprehensive loss and their location within the respective line items on the Consolidated Statements of Income.

(in thousands)	Amount Reclassified from Accumulated Other Comprehensive Loss Three Months Ended March 31,		Affected Line Item on the Consolidated Statements of Income
	2013	2012	
Accumulated Other Comprehensive Loss Component			
Pension plans and other postretirement benefits:			
Amortization of prior service cost	\$2	\$5	(a)
Amortization of actuarial net loss	1,363	1,031	(a)
Amortization of transition obligation	10	10	(a)
Total pension plans and other postretirement benefits	1,375	1,046	
Derivative instruments:			
Amortization of mortgage loan interest rate swap	200	231	Interest and financing expenses, net
Amortization of construction loan interest rate swap	13	13	Cost of rental
Total derivative instruments	213	244	
Total reclassifications for the period	\$1,588	\$1,290	

(a) These components of accumulated other comprehensive loss are included in the computation of net periodic benefit cost. See Note 4 in this Form 10-Q and Note 19 in our 2012 Annual Report for further information.

11. Fair Value Measurements

The following table provides information on assets and liabilities measured at fair value on a recurring basis. No events occurred during the three months ended March 31, 2013 requiring adjustment to the recognized balances of assets or liabilities which are recorded at fair value on a nonrecurring basis.

(in thousands)	Carrying Amount in Consolidated Balance Sheets March 31, 2013	Fair Value	Fair Value Measurements Using		
			Level 1	Level 2	Level 3
Cash and cash equivalents	\$64,013	\$64,013	\$64,013	\$0	\$0
Cash deposit for collateralized interest rate swap	33,827	33,827	33,827	0	0
Interest rate swap liability	29,548	29,548	0	29,548	0
	December 31, 2012				
Cash and cash equivalents	\$89,129	\$89,129	\$89,129	\$0	\$0
Cash deposit for collateralized interest rate swap	37,694	37,694	37,694	0	0
Interest rate swap liability	32,761	32,761	0	32,761	0

We determine the fair value of the derivative instruments shown in the table above by using widely-accepted valuation techniques, including discounted cash flow analysis on the expected cash flows of each instrument. The analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs.

The fair value of the interest rate swap is determined using the market standard methodology of netting the discounted future fixed cash receipts and the discounted expected variable cash payments. The variable cash payments are based on an expectation of future interest rates derived from observable market interest rate curves. In determining the fair value measurements, we incorporate credit valuation adjustments to appropriately reflect both our nonperformance risk and the counterparties' nonperformance risk.

Table of Contents

Although we have determined that the majority of the inputs used to value our derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustment associated with the derivatives utilizes Level 3 inputs. These Level 3 inputs include estimates of current credit spreads to evaluate the likelihood of default by both us and the counterparties to the derivatives. As of March 31, 2013 and December 31, 2012, we have assessed the significance of the impact of the credit valuation adjustment on the overall valuation of our derivatives and have determined that the credit valuation adjustment is not significant to the overall valuation of the derivatives. Accordingly, we have determined that our derivative valuations should be classified in Level 2 of the fair value hierarchy.

We have made an accounting policy election to measure credit risk of any derivative financial instruments subject to master netting agreements on a net basis by counterparty portfolio.

Long-term debt – We record the value of our long-term debt at historical cost. The estimated fair value of our long-term debt is shown in the table below and is based primarily on estimated current rates available to us for debt of the same remaining duration and adjusted for nonperformance risk and credit risk. The estimated fair value is determined by the market standard practice of modeling the contractual cash flows required under the debt instrument and discounting the cash flows back to present value at the appropriate credit-risk adjusted market interest rates. For floating rate debt obligations, we use forward rates, derived from observable market yield curves, to project the expected cash flows we will be required to make under the debt instrument. We then discount those cash flows back to present value at the appropriate credit-risk adjusted market interest rates. The fair value is categorized as Level 2.

(in thousands)	March 31, 2013		December 31, 2012	
	Carrying	Fair	Carrying	Fair
	Amount	Value	Amount	Value
Long-term debt, including current maturities	\$430,615	\$442,150	\$428,789	\$436,777

Table of Contents

12. Consolidating Financial Information

The 4.10% senior notes are guaranteed on a senior unsecured basis by our existing and future domestic subsidiaries that guarantee our obligations under our revolving credit facility and any of our other indebtedness (Guarantor Subsidiaries). The subsidiary guarantees are joint and several obligations of the Guarantor Subsidiaries. The indenture governing the 4.10% senior notes includes a provision which allows for a Guarantor Subsidiary to be released of its obligations under the subsidiary guarantee under certain conditions. Those conditions include the sale or other disposition of all or substantially all of the Guarantor Subsidiary's assets in compliance with the indenture and the release or discharge of a Guarantor Subsidiary from its obligations as a guarantor under our revolving credit facility and all of our other indebtedness. The Guarantor Subsidiaries and the subsidiaries that do not guarantee the 4.10% senior notes (the Non-Guarantor Subsidiaries) are 100% owned by NewMarket Corporation (the Parent Company). The Guarantor Subsidiaries consist of the following:

Ethyl Corporation	Afton Chemical Corporation
Ethyl Asia Pacific LLC	Afton Chemical Asia Pacific LLC
Ethyl Canada Holdings, Inc.	Afton Chemical Canada Holdings, Inc.
Ethyl Export Corporation	Afton Chemical Japan Holdings, Inc.
Ethyl Interamerica Corporation	Afton Chemical Additives Corporation
Ethyl Ventures, Inc.	NewMarket Services Corporation
Interamerica Terminals Corporation	The Edwin Cooper Corporation
Afton Chemical Intangibles LLC	Old Town LLC
NewMarket Investment Company	NewMarket Development Corporation
Foundry Park I, LLC	Foundry Park II, LLC
Gamble's Hill, LLC	Gamble's Hill Lab, LLC
Gamble's Hill Landing, LLC	Gamble's Hill Third Street, LLC
Gamble's Hill Tredegar, LLC	

We conduct all of our business through and derive essentially all of our income from our subsidiaries. Therefore, our ability to make payments on the 4.10% senior notes or other obligations is dependent on the earnings and the distribution of funds from our subsidiaries.

The following sets forth the Consolidating Statements of Income and Comprehensive Income for the three months ended March 31, 2013 and March 31, 2012; Consolidating Balance Sheets as of March 31, 2013 and December 31, 2012; and Condensed Consolidating Statements of Cash Flows for the three months ended March 31, 2013 and March 31, 2012 for the Parent Company, the Guarantor Subsidiaries, and the Non-Guarantor Subsidiaries. The financial information is based on our understanding of the SEC's interpretation and application of Rule 3-10 of the SEC Regulation S-X.

The financial information may not necessarily be indicative of results of operation or financial position had the Guarantor Subsidiaries or Non-Guarantor Subsidiaries operated as independent entities. The Parent Company accounts for investments in these subsidiaries using the equity method.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operation

Forward-Looking Statements

The following discussion contains forward-looking statements about future events and expectations within the meaning of the Private Securities Litigation Reform Act of 1995. We have based these forward-looking statements on our current expectations and projections about future results. When we use words in this document such as "anticipates," "intends," "plans," "believes," "estimates," "projects," "expects," "should," "could," "may," "will," and similar expressions, we identify forward-looking statements. Examples of forward-looking statements include, but are not limited to, statements we make regarding future prospects of growth in the petroleum additives market, other trends in the petroleum additives market, our ability to maintain or increase our market share, and our future capital expenditure levels.

We believe our forward-looking statements are based on reasonable expectations and assumptions, within the bounds of what we know about our business and operations. However, we offer no assurance that actual results will not differ materially from our expectations due to uncertainties and factors that are difficult to predict and beyond our control. Factors that could cause actual results to differ materially from expectations include, but are not limited to, availability of raw materials and transportation systems; supply disruptions at single-sourced facilities; ability to respond effectively to technological changes in our industry; failure to protect our intellectual property rights; hazards common to chemical businesses; occurrence or threat of extraordinary events, including natural disasters and terrorist attacks; competition from other manufacturers; sudden or sharp raw materials price increases; gain or loss of significant customers; risks related to operating outside of the United States; the impact of fluctuations in foreign exchange rates; political, economic, and regulatory factors concerning our products; future governmental regulation; resolution of environmental liabilities or legal proceedings; inability to complete future acquisitions or successfully integrate future acquisitions into our business; and other factors detailed from time to time in the reports that NewMarket files with the Securities and Exchange Commission, including the risk factors in Item 1A. "Risk Factors" of our 2012 Annual Report, which is available to shareholders upon request.

You should keep in mind that any forward-looking statement made by us in this discussion or elsewhere speaks only as of the date on which we make it. New risks and uncertainties arise from time to time, and it is impossible for us to predict these events or how they may affect us. We have no duty to, and do not intend to, update or revise the forward-looking statements in this discussion after the date hereof, except as may be required by law. In light of these risks and uncertainties, any forward-looking statement made in this discussion or elsewhere might not occur.

Overview

Our business performed extremely well during the first three months 2013, as the only three month period with better operating profit results was the first three months 2012. The petroleum additives business posted the second highest three month performance ever, excluding the third quarter 2011 when a legal settlement was recognized. In many respects, the three months 2013 was very similar to three months 2012. Revenue and product shipments were essentially the same, as was the gross profit margin. During three months 2013, we had higher spending in research, development, and testing, as well as selling, general, and administrative expenses in support of our business. Our net income and income taxes benefited from the retroactive reinstatement of the research and development credit. In addition, our cash flow generation was sufficient to fund operations, including increased working capital needs. We continue to run our business for the long-run with the goal of helping our customers succeed in their marketplace. Also of note during the first three months 2013 was our repurchase of \$23.0 million of our common stock, and the payment of a 90 cent per share dividend, which was a 20% increase from our prior regular dividend. During March 2013, we registered, under the Securities Act of 1933, our previously unregistered 4.10% senior notes, which we issued in December 2012, and commenced an offer to exchange the outstanding unregistered notes for an equal aggregate principal amount of the registered 4.10% senior notes.

Table of Contents

Results of Operation

Revenue

Our consolidated revenue for the three months 2013 totaled \$562.6 million, which was consistent with the three months 2012 level of \$562.7 million. The following table shows revenue by segment and product line.

(in millions)	Three Months Ended	
	March 31, 2013	2012
Petroleum additives		
Lubricant additives	\$452.7	\$444.6
Fuel additives	105.7	113.1
Total	558.4	557.7
Real estate development	2.9	2.9
All other	1.3	2.1
Consolidated revenue	\$562.6	\$562.7

Petroleum Additives Segment

The primary regions in which we operate include North America, Latin America, Asia Pacific, and the Europe/Middle East/Africa/India (EMEAI) regions. The percentage of revenue generated in the regions remains fairly consistent when comparing the first three months 2013 with the first three months 2012, as well as with prior year periods, although there is some fluctuation between regions on a period to period basis. In addition, the percentage of lubricant additives sales and fuel additives sales is also substantially consistent between periods.

Petroleum additives net sales for the first three months 2013 of \$558.4 million increased \$0.7 million, or approximately 0.1%, from \$557.7 million for the first three months 2012. From a regional perspective, both EMEAI and Asia Pacific reflected increased revenue when comparing the two three month periods, while both North America and Latin America were lower for three months 2013 as compared to three months 2012. Each of these changes was minor. The small increase in revenue when comparing the two three months periods resulted from favorable product shipments of lubricant additives, substantially offset by unfavorable shipments of fuel additives, as well as lower selling prices and an unfavorable foreign currency impact. While our overall petroleum additives product shipments were substantially even between the two years, product shipments in all regions, except North America, were slightly higher. When comparing the two periods, the U.S. Dollar weakened against the European Union Euro and the British Pound Sterling resulting in a favorable foreign currency impact on revenue, but that impact was more than offset by the strengthening of the U.S. Dollar against the Japanese Yen resulting in an unfavorable foreign currency impact on revenue.

The table below details the approximate components of the increase between the first three months of 2013 and 2012 periods.

(in millions)	Three Months	
Period ended March 31, 2012	\$557.7	
Lubricant additives shipments	15.9	
Fuel additive shipments	(5.3)
Selling prices, including changes in customer mix	(8.5)
Foreign currency impact, net	(1.4)
Period ended March 31, 2013	\$558.4	

Real Estate Development Segment

The revenue reflected in the table above for both three months 2013 and three months 2012 for the real estate development segment represents the rental of an office building, which was constructed by Foundry Park I.

Table of Contents

All Other

The “All other” category includes the operations of the TEL business and certain contract manufacturing performed by Ethyl.

Segment Operating Profit

NewMarket evaluates the performance of the petroleum additives business and the real estate development business based on segment operating profit. NewMarket Services Corporation (NewMarket Services) expenses are charged to NewMarket and each subsidiary pursuant to services agreements between the companies. Depreciation on segment property, plant, and equipment, as well as amortization of segment intangible assets is included in segment operating profit.

The table below reports segment operating profit for three months ended March 31, 2013 and March 31, 2012.

(in millions)	Three Months Ended	
	March 31,	
	2013	2012
Petroleum additives	\$102.0	\$107.2
Real estate development	\$1.8	\$1.8
All other	\$(0.4) \$0.5

Petroleum Additives Segment

The petroleum additives operating profit decreased \$5.2 million when comparing three months 2013 to three months 2012. The decrease in profitability was across both of our major product lines, lubricant additives and fuel additives. The operating profit margin was 18.3% for three months 2013 and 19.2% for three months 2012. For the rolling four quarters ended March 31, 2013, the operating profit margin was 16.7%, which is in line with our expectations of the performance of our business over the long-term. While operating profit margins will fluctuate from quarter to quarter due to multiple factors, we do not operate our business differently from quarter to quarter. We believe the fundamentals of our business and industry are unchanged. We continue to focus on developing and delivering innovative, technology-driven solutions to our customers.

Gross profit results were substantially the same when comparing three months 2013 to three months 2012 with a small increase of \$1.2 million for the 2013 period. Cost of sales as a percentage of revenue remains fairly consistent between the two three month periods at 70.0% for three months 2013 and 70.2% for three months 2012.

When comparing three months 2013 and three months 2012, total product shipments were about even, with higher shipments of lubricant additives products offset by lower shipments of fuel additive products. Nonetheless, increased volumes of higher-valued products resulted in a favorable variance in our gross profit. In addition, raw material costs were favorable. These favorable components of gross profit were substantially offset by unfavorable variances in selling prices, as discussed in the Revenue section above, as well as manufacturing conversion costs.

Selling, general, and administrative expenses (SG&A) for three months 2013 was \$3.2 million, or 10.3% higher, as compared to three months 2012. SG&A as a percentage of revenue was 6.2% for three months 2013 and 5.6% for three months 2012. Our SG&A costs are mainly personnel-related and include salaries, benefits, and other costs associated with our workforce. As our workforce has increased in number to support our growing worldwide operations, these costs have also risen, which occurred when comparing the two three month periods. In addition to the personnel-related impacts, professional fees, as well as health, safety, and environmental fees have also increased in 2013 over 2012 three months levels.

Research, development, and testing expenses (R&D) for three months 2013 increased \$3.1 million, or 11.0%, from three months 2012 levels. As a percentage of revenue, R&D was 5.5% for three months 2013 and 5.0% for three months 2012. Our approach to R&D spending, as it is with SG&A, is one of purposeful spending on programs to support our current product base and to ensure that we develop products to support our customers' programs in the future. R&D spending includes personnel-related costs, as well as internal and external testing of our products. The increase between the two periods was substantially in the lubricant additives product line and includes efforts to

support the development of additives that meet our customers' needs, as well as new standards, and to expand into new solution areas. We expect R&D costs for the full year in 2013 will increase over the 2012 level.

Table of Contents

The following discussion references the Consolidated Financial Statements beginning on page 3 of this Quarterly Report on Form 10-Q.

Interest and Financing Expenses

Interest and financing expenses were \$5.1 million for three months 2013 and \$4.5 million for three months 2012. The increase in interest and financing expenses between the two periods of 2013 and 2012 primarily resulted from higher outstanding average debt, substantially offset by a lower average interest rate.

Loss on Early Extinguishment of Debt

We recorded a \$3.2 million loss on the early extinguishment of debt in three months 2012 related to the recognition of \$0.5 million of unamortized deferred financing costs on our previous revolving credit facility, as well as \$2.7 million from a portion of the early redemption premium on the 7.125% senior notes. These amounts were a non-cash charge during three months 2012.

Other Income, Net

Other income, net for three months 2013 was \$0.7 million, while three months 2012 was \$1.8 million. The amounts for both 2013 and 2012 primarily reflect the gain on a derivative instrument representing an interest rate swap recorded at fair value through earnings. See Note 9 for additional information on the interest rate swap.

Income Tax Expense

Income tax expense was \$26.0 million for three months 2013 and \$32.3 million for three months 2012. The effective tax rate was 27.7% for three months 2013, while three months 2012 was 32.6%. The decrease in income before income tax expense resulted in a decrease of \$1.6 million in income taxes, while the lower effective tax rate in 2013 as compared to 2012 resulted in a decrease of \$4.7 million in income tax expense when comparing the two three months periods.

The effective tax rate for each year includes the benefit of higher income in foreign jurisdictions with lower tax rates, as well as a substantial benefit from the domestic manufacturing tax deduction. The 2013 period reflects the entire 2012 research and development credit which was signed into law in January 2013, as well as the first three months 2013 research and development credit, neither of which is included in the three months 2012 period.

Cash Flows, Financial Condition, and Liquidity

Cash and cash equivalents at March 31, 2013 were \$64.0 million, which was a decrease of \$25.1 million since December 31, 2012 and included a \$3.7 million unfavorable impact from foreign currency translation.

Our cash and cash equivalents held by our foreign subsidiaries amounted to approximately \$63 million at March 31, 2013 and \$80 million at December 31, 2012. A significant amount, but not all, of these foreign cash balances are associated with earnings that we have asserted are indefinitely reinvested. We plan to use these indefinitely reinvested earnings to support growth outside of the United States through funding of operating expenses, research and development expenses, capital expenditures, and other cash needs of our foreign subsidiaries. Periodically, we repatriate cash from our foreign subsidiaries to the United States through intercompany dividends. These intercompany dividends are paid only by subsidiaries whose earnings we have not asserted are indefinitely reinvested or whose earnings qualify as previously taxed income, as defined by the Internal Revenue Code. If circumstances were to change that would cause these indefinitely reinvested earnings to be repatriated, an incremental U.S. tax liability would be incurred. As part of our foreign subsidiary repatriation activities, we received cash dividends of \$9.7 million for the three months ended March 31, 2013 and \$5.9 million for the three months ended March 31, 2012. We expect that cash from operations, together with borrowing available under our revolving credit facility, will continue to be sufficient to cover our operating expenses for the foreseeable future.

Cash Flows – Operating Activities

Cash flows provided from operating activities for the three months 2013 were \$27.1 million and included a decrease of \$55.7 million due to higher working capital levels, including higher accounts receivable and prepaid expenses, as

well as lower accrued expenses, which were partially offset by higher dividends payable and income taxes payable. The increase in accounts receivable is primarily due to higher sales levels when comparing the first quarter 2013 with the fourth quarter 2012, while higher prepaid expenses as well as the increase in dividends payable represent the funding of the dividends in March 2013, but the payment by the transfer agent in April 2013. The decrease in accrued expenses primarily reflects payments related to customer rebates made during three months 2013. The increase in income taxes payable reflects taxes due on earnings, which will be paid during the second quarter 2013.

Table of Contents

We had working capital of \$531.1 million at March 31, 2013 and \$518.8 million at December 31, 2012. The current ratio was 3.34 to 1 at March 31, 2013 and 3.39 to 1 at December 31, 2012.

Cash Flows – Investing Activities

Cash used in investing activities was \$14.8 million during three months 2013 and included \$16.1 million for capital expenditures. Also included in investing activities was a net return of deposit of \$3.9 million and a net settlement payment of \$2.5 million related to the Goldman Sachs interest rate swap. Further information on the interest rate swap is discussed in Note 9. We estimate our total capital spending during 2013 will be approximately \$80 million to \$100 million. We expect to continue to finance capital spending through cash on hand and cash provided from operations, together with borrowing available under our \$650 million revolving credit facility.

Cash Flows – Financing Activities

Cash used in financing activities during three months 2013 amounted to \$33.8 million. Borrowings under our revolving credit facility increased by \$1.0 million, while amounts outstanding under lines of credit increased \$0.8 million. We incurred \$1.1 million in debt issuance costs related to the 4.10% senior notes. We also paid \$12.0 million to fund dividends and \$22.5 million for the repurchase of common stock during three months 2013.

We had total long-term debt, including the current portion, of \$430.6 million at March 31, 2013, representing an increase of approximately \$1.8 million in our total debt since December 31, 2012.

At March 31, 2013, in addition to the revolving credit facility, which is discussed below, we had outstanding senior notes in the aggregate principal amount of \$350 million that bear interest at a fixed rate of 4.10% and are due in 2022. During March 2013, we registered these 4.10% senior notes under the Securities Act of 1933 and commenced an offer to exchange the previously unregistered 4.10% senior notes that were outstanding at December 31, 2012 for an equal aggregate principal amount.

Two of our subsidiaries also have short-term lines of credit for working capital purposes. The line of credit for one of our subsidiaries in India is for 110 million rupees and has an outstanding balance of \$1.6 million (90 million rupees) at March 31, 2013. The line of credit for one of our subsidiaries in China is for \$10 million with an outstanding balance of \$3.6 million at March 31, 2013.

Revolving Credit Facility – At March 31, 2013, we had a \$650 million multicurrency revolving credit facility, with a \$100 million sublimit for multicurrency borrowings, a \$100 million sublimit for letters of credit, and a \$20 million sublimit for swingline loans. The agreement includes an expansion feature, which allows us, subject to certain conditions, to request an increase to the aggregate amount of the revolving credit facility or obtain incremental term loans in an amount up to \$150 million. Borrowings bear interest at variable rates. The revolving credit facility matures on March 14, 2017.

The following table provides information related to the unused portion of our revolving credit facility:

(in millions)	March 31, 2013	December 31, 2012
Maximum borrowing capacity under the revolving credit facility	\$650.0	\$650.0
Outstanding borrowings under the revolving credit facility	76.0	75.0
Outstanding letters of credit	3.1	3.1
Unused portion of revolving credit facility	\$570.9	\$571.9

Both the 4.10% senior notes and the revolving credit facility contain covenants, representations, and events of default that management considers typical of credit agreements of this nature. The more restrictive and significant financial covenants under the revolving credit facility include:

- A consolidated Leverage Ratio (as defined in the credit agreement) of no more than 3.00 to 1.00; and
- A consolidated Interest Coverage Ratio (as defined in the credit agreement) of no less than 3.00 to 1.00, calculated on a rolling four quarter basis.

At March 31, 2013, the Leverage Ratio was 1.13 and the Interest Coverage Ratio was 30.40, while at December 31, 2012 the Leverage Ratio was 1.11 and the Interest Coverage Ratio was 32.44. We were in compliance with all covenants under both the revolving credit facility and the 4.10% senior notes at March 31, 2013 and December 31, 2012.

As a percentage of total capitalization (total debt and shareholders' equity), our total debt percentage decreased from 51.6% at December 31, 2012 to 50.7% at March 31, 2013. The change in the percentage was primarily the result of an increase in shareholders' equity. The increase in shareholders' equity reflects our earnings, partially offset by the impact

Table of Contents

of dividend payments and stock repurchases. Normally, we repay any outstanding long-term debt with cash from operations or refinancing activities.

Other Matters

During April 2013, we made the decision to discontinue the production of a fuel additive at our Ethyl Canada facility. While the facility will remain in operation, the workforce will be reduced to support the remaining operations. As a result of this action, we recorded a reserve of \$1.5 million during three months 2013 reflecting the impairment of the affected assets, as well as contractual severance. During the second quarter 2013, we will determine and recognize other costs associated with this action. We do not expect the total reserve or charge to operations to be material to our financial statements.

Critical Accounting Policies and Estimates

This report, as well as the 2012 Annual Report on Form 10-K, includes a discussion of our accounting principles, as well as methods and estimates used in the preparation of our financial statements. We believe these discussions and financial statements fairly represent the financial position and results of operation of our company in all material respects. The purpose of this portion of our discussion is to further emphasize some of the more critical areas where a significant change in facts and circumstances in our operating and financial environment might cause a change in reported financial results.

Intangibles (Net of Amortization) and Goodwill

We have certain identifiable intangibles, as well as goodwill, amounting to \$28.4 million at March 31, 2013. These intangibles relate to our petroleum additives business and, except for the goodwill, are being amortized over periods with up to approximately seventeen years of remaining life. We continue to assess the market related to these intangibles, as well as their specific values, and have concluded the values and amortization periods are appropriate. We also evaluate these intangibles for any potential impairment when significant events or circumstances occur that might impair the value of these assets. These evaluations continue to support the values at which these identifiable intangibles are carried on our financial statements. In addition, our reporting unit with goodwill is not at risk of failing the goodwill impairment test. However, if conditions were to substantially deteriorate in the petroleum additives market, it could possibly cause a decrease in the estimated useful lives of the intangible assets or result in a noncash write-off of all or a portion of the intangibles' carrying amount. A reduction in the amortization period would have no effect on cash flows. We do not anticipate such a change in the market conditions in the near term.

Environmental and Legal Proceedings

We believe our environmental accruals are appropriate for the exposures and regulatory guidelines under which we currently operate. While we currently do not anticipate significant changes to the many factors that could impact our environmental requirements, we continue to keep our accruals consistent with these requirements as they change. While it is not possible to predict or determine with certainty the outcome of any legal proceeding, it is our opinion, based on our current knowledge, that we will not experience any material adverse effects on our results of operation, cash flows, or financial condition as a result of any pending or threatened proceeding.

Pension Plans and Other Postretirement Benefits

We use assumptions to record the impact of the pension and postretirement benefit plans in the financial statements. These assumptions include the discount rate, expected long-term rate of return on plan assets, rate of compensation increase, and health-care cost trend rate. A change in any one of these assumptions could cause different results for the plans, and therefore impact our results of operation, cash flows, and financial condition. We develop these assumptions after considering available information that we deem relevant. Information is provided on the pension and postretirement plans in Note 19 of the 2012 Annual Report. In addition, further disclosure on the effect of changes in these assumptions is provided in the "Financial Position and Liquidity" section of Part II, Item 7 of the 2012 Annual Report.

Income Taxes

We file United States, foreign, and local income tax returns, under which assumptions may be made to determine the deductibility of certain costs. We make estimates related to the impact of tax positions taken on our financial statements when we believe the tax position is more likely than not to be upheld on audit. We do not provide for income taxes on earnings considered to be indefinitely reinvested abroad. In addition, we make certain assumptions in the determination of the estimated future recovery of deferred tax assets.

Table of Contents

Outlook

We are very pleased with our first quarter results, which was one of the best quarters for petroleum additives in our history. That performance reinforces our confidence that our customer-focused approach to the market is the path on which to continue. We believe the fundamentals of how we run our business - a safety-first culture, customer-focused solutions, technology-driven product offerings, world-class supply chain capability, and a regional organizational structure to better understand our customers' needs - will continue to pay dividends to all of our stakeholders.

We continue to have expectations that our petroleum additives segment will deliver improved results in 2013, after having posted record operating profit for each of the last several years. While our total shipments for 2012 contracted some due to many factors, including the global economy, we expect that petroleum additives shipment demand will continue to grow at an average annual rate of 1% - 2% over the next five years, as there has been no significant change in the positive fundamentals of the business. We plan to exceed the industry growth rate. Over the past several years, we have made significant investments to expand our capabilities around the world. These investments have been in people, technology and technical centers, and production capacity. We intend to use these new capabilities to improve our ability to deliver the goods and service that our customers value and to expand our business and improve profits. We will continue to expand our capabilities to provide even better service, technology, and customer solutions.

As a global company operating in many countries around the world, we are not immune to world economic conditions. Western Europe and the Euro are significant factors in our business and financial results, as is the general economic activity around the world. Our expectations for 2013 include the assumption of modest economic recovery around the world. We did not see that recovery in any measurable fashion in the first quarter, but continue to plan our business around a modest growth assumption.

Our business continues to generate significant amounts of cash beyond what is necessary for the expansion and growth of our current product lines. We regularly review the many internal opportunities which we have to utilize this cash, both from a geographic and product line perspective. We continue our efforts in investigating potential acquisitions as both a use for this cash and to generate shareholder value. Our primary focus in the acquisition area remains on the petroleum additives industry. It is our view that this industry will provide the greatest opportunity for a good return on our investment while minimizing risk. We remain focused on this strategy and will evaluate any future opportunities. Nonetheless, we are patient in this pursuit and intend to make the right acquisition when the opportunity arises. We will continue to evaluate all alternative uses of that cash to enhance shareholder value, including stock repurchases and dividends.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

At March 31, 2013, there were no significant changes in our market risk from the information provided in the 2012 Annual Report.

ITEM 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain a system of internal control over financial reporting to provide reasonable, but not absolute, assurance of the reliability of the financial records and the protection of assets. Our controls and procedures include written policies and procedures, careful selection and training of qualified personnel, and an internal audit program. We use third-party firms, separate from our independent registered public accounting firm, to assist with internal audit services.

We work closely with the business groups, operations personnel, and information technology to ensure transactions are recorded properly. Environmental and legal staff are consulted to determine the appropriateness of our environmental and legal liabilities for each reporting period. We regularly review the regulations and rule changes that affect our financial disclosures.

Our disclosure control procedures include signed representation letters from our regional officers, as well as senior management.

We have formed a Financial Disclosure Committee (the committee), which is made up of the president of Afton Chemical Corporation, the general counsel of NewMarket, and the controller of NewMarket. The committee, as well as regional management, makes representations with regard to the financial statements that, to the best of their knowledge, the report does not contain any misstatement of a material fact or omit a material fact that is necessary to make the statements not misleading with respect to the periods covered by the report.

The committee and the regional management also represent, to the best of their knowledge, that the financial statements and other financial information included in the report fairly present, in all material respects, the financial condition, results of operation, and cash flows of the company as of and for the periods presented in the report.

Pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934 (the Exchange Act), we carried out an evaluation, with the participation of our management, including our principal executive officer and our principal financial officer, of the effectiveness of our disclosure controls and procedures (as defined under Rule 13a-15(e)) under the Exchange Act as of the end of the period covered by this report. Based upon that evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures are effective.

Changes in Internal Controls Over Financial Reporting

There has been no change in our internal control over financial reporting, as such term is defined in Rule 13a-15(f) under the Exchange Act, during the quarter ended March 31, 2013, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. Legal Proceedings

We are involved in legal proceedings that are incidental to our business and include administrative or judicial actions seeking remediation under environmental laws, such as Superfund. Some of these legal proceedings relate to environmental matters and involve governmental authorities. For further information, see “Environmental” in Note 8. While it is not possible to predict or determine with certainty the outcome of any legal proceeding, we believe the outcome of any of these proceedings, or all of them combined, will not result in a material adverse effect on our consolidated results of operation, financial condition, or cash flows.

As we previously disclosed, the United States Department of Justice has advised us that it is conducting a review of certain of our foreign business activities in relation to compliance with relevant U.S. economic sanctions programs and anti-corruption laws, as well as certain historical conduct in the domestic U.S. market, and has requested certain information in connection with such review. We are cooperating with the investigation. In connection with such cooperation, we have voluntarily agreed to provide certain information and are conducting an internal review for that purpose.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

On July 17, 2012, our Board of Directors approved a share repurchase program authorizing management to repurchase up to \$250 million of NewMarket Corporation's outstanding common stock until December 31, 2014, as market conditions warrant and covenants under our existing agreements permit. We may conduct the share repurchases in the open market and in privately negotiated transactions. The repurchase program does not require NewMarket to acquire any specific number of shares and may be terminated or suspended at any time. Approximately \$227 million remained available under the 2012 authorization at March 31, 2013. The following table outlines the purchases during the first quarter 2013 under this authorization.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
January 1 to January 31	0	\$0.00	0	\$250,000,000
February 1 to February 28	41,400	249.84	41,400	239,656,760
March 1 to March 31	49,400	256.78	49,400	226,971,959
Total	90,800	\$253.61	90,800	\$226,971,959

ITEM 6. Exhibits

Exhibit 3.1	Articles of Incorporation Amended and Restated effective April 27, 2012 (incorporated by reference to Exhibit 3.1 to Form 8-K (File No. 1-32190) filed April 30, 2012)
Exhibit 3.2	NewMarket Corporation Bylaws Amended and Restated effective April 27, 2012 (incorporated by reference to Exhibit 3.2 to Form 8-K (File No. 1- 32190) filed April 30, 2012)
Exhibit 10.1	Consulting Agreement, dated March 28, 2013, between NewMarket Corporation and C.S. Warren Huang (incorporated by reference to Exhibit 10.1 to Form 8-K (File No. 1-32190) filed April 9, 2013)*
Exhibit 31(a)	Certification pursuant to Rule 13a-14(a) under the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 by Thomas E. Gottwald
Exhibit 31(b)	Certification pursuant to Rule 13a-14(a) under the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 by David A. Fiorenza
