## GOL Expands Payment Mechanisms for Tickets Purchased Online

**São Paulo, March 2, 2007** □ GOL Linhas Aéreas Inteligentes (NYSE: GOL and Bovespa: GOLL4), Brazil's low-cost, low-fare airline, announced today that it has expanded payment methods for tickets purchased online. Today, GOL offers over a dozen mechanisms for customers to purchase tickets online.

□Offering new payment methods and expanding financing options allows more customers access to air travel. It is essential that GOL provide payment mechanisms that are appropriate for all income levels.□ says Wilson Maciel Ramos, GOL's Vice-President of Planning and Information Technology.

Today, customers purchasing tickets through GOL's website are able to pay with debit cards or bank transfers. □Some of our customers have limited funds or do not have a credit card. The Company is committed to providing payment methods for various income levels □ from high-income passengers and credit card users to debit card users and customers with lower incomes,□ explains Ramos.

Additionally, GOL allows customers purchasing tickets with their credit card (American Express, Diners, Hipercard, MasterCard and Visa) to parcel payments up to 12 months. Customers using credit cards can pay for tickets up to six months interest free, with a minimum monthly payment of R\$45, or up to twelve months with interest and a minimum monthly payment of R\$10.

For customers that require longer payment terms, GOL offers the Fly Easy (Voe Fácil) program, which allows customers to pay for airline tickets in up to 36 months. To date, the program has enrolled approximately 700,000 customers. Applications are available on the Portuguese version of GOL's website ([www.voegol.com.br](http://www.voegol.com.br)), for non-corporate, legal residents living in Brazil. After credit approval, the purchases with the GOL □Fly Easy□ card can be made through the Company's website, using a password.

□GOL is committed to popularizing air transportation in South America□ says Ramos. □Once again, GOL is leading the industry by providing additional payment options and expanding access to air travel.□

### **About GOL Linhas Aéreas Inteligentes**

GOL Linhas Aéreas Inteligentes is one of the most profitable and fastest growing low-cost, low-fare airlines in the industry worldwide. GOL provides frequent service on routes connecting all of Brazil's major cities as well as primary destinations in Argentina, Bolivia, Chile, Paraguay, Peru and Uruguay through its more than 610 daily flights to 56 major airports. GOL offers daily flights to more destinations in Brazil than any other domestic airline while providing customers with the most convenient flight schedules in the country. GOL operates a young, modern fleet of Boeing 737s, the safest and most comfortable aircraft of its class, with low maintenance, fuel and training costs, and high aircraft utilization and efficiency ratios. In addition to safe and reliable service, which stimulates GOL's brand recognition and customer satisfaction, the Company's single class of service is recognized as the best value proposition in the market. GOL's growth plans include increasing frequencies in existing markets and adding service to additional markets in both Brazil and other high-traffic South American travel destinations. GOL shares are listed on the NYSE and the Bovespa. GOL: here everyone can fly!

**FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
