### **Anticipation of Pre-Salt Projects**

Rio de Janeiro, January 7 2011 Petróleo Brasileiro S.A. - Petrobras, as the operator of Blocks BMS-11 and BMS-9, announces that it was approved the chartering of two new FPSO- platforms, intended for use in the Guar-Norte area and Cernambi field (previously known as Iracema area), located at the Santos Basin pre-salt area. Each FPSO will be produce up to 150,000 barrels of oil and 8 million cubic meters of gas per day. They are expected to start up in 2014, anticipating production at the areas, which had previously been scheduled to begin after 2014.

The two new platforms are part of the first production development phase of Guar-Norte (BMS-09) and Cernambi (BMS-11). The consortiums made the strategic decision to charter the units aiming to enable early production at these areas, which the initial flow tests presented excellent results.

The Company expects to have the units converted and the modules built and integrated in Brazil. The target is to achieve a local content index above 65% in the construction of the units.

The Block BMS-9 consortium is operated by Petrobras (45%), in partnership with BG Group (30%), and Repsol Brasil S.A. (25%). The consortium for the BMS-11 block is operated by Petrobras (65%), in partnership with BG Group (25%), and Galp Energia (10%).

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
