**FOR IMMEDIATE RELEASE - São Paulo,
November 12, 2012** – Gafisa S.A. (Bovespa: GFSA3;
NYSE: GFA), Brazil’s leading diversified national
homebuilder, today reported financial results for the
third quarter ended September 30, 2012.

Duilio Calciolari, Chief Executive Officer, said: “Our
3Q12 results demonstrate that the execution of
Gafisa’s operations advanced in the direction of our
planned full-year targets. The cash generation and
the deleveraging of our balance sheet remain a
priority and following the delivery of over 17,700
units, we have already exceeded the mid-point of
our annual cash flow (CFO) guidance, resulting in
increased CFO guidance of R\$600-800mn for 2012.
In addition to our focus on cash generation coming
from our core business, we are also selling
non-strategic land and generating new profitable
businesses.”

“The Gafisa brand is now concentrated in the states
of Sao Paulo and Rio de Janeiro. In the first nine
months of the year we launched projects valued at
over R\$795 million, all of which are aligned to our
guidelines for profitability and have strong levels of
initial sales with a velocity of 59%. The completion of
developments in non-strategic areas will still impact

+ 1-516-300-1066 US EST our profitability in the near-term. Thereafter we will have reduced the complexity of our business and substantially increased our execution capacity.”

Code: Gafisa

> 11am Brasilia Time “At Tenda, we remain focused on delivering existing and in-progress developments. Year-to-date we have transferred around 9,600 units to financial institutions, and delivered over 10,000 units. Of those contracts that have been cancelled, 70% have already been resold. We are postponing new Tenda launches to the first half of 2013 in order for the team to continue their good work and remain totally focused on completing and delivering current units. As a result we will not be launching the R\$300 million originally planned for the year.”

Replay: “Our AlphaVille business continues to be a strong contributor to the Group’s profits. The brand has grown to represent almost half of year-to-date launches and we expect launches to increase sequentially to more than R\$1 billion. Given the returns achieved by this brand and further development opportunities in Brazil, we continue to favor the allocation of resources to opportunities that provide the right balance of growth and profitability.”

Consolidated Free Cash Generation Was Positive at R\$149 Million in the 3Q12

Chart 1. Cash Generation (Cash burn) (3Q10 – 3Q12)

Gafisa ended the third quarter with R\$1.23 billion in cash, a 13% increase over a balance R\$1.1 billion at the end of the second quarter. Across the Group, unit deliveries in the first nine months of the year were consistent with our full-year target and we have achieved the mid range of our previous operating cash flow full year guidance of R\$500-R\$700 million. Operational consolidated cash flow reached R\$607 million in the 9M12, 87% of the mid range of the updated guidance established for 2012 of R\$600-R\$800 million. Consolidated free cash generation was positive at R\$149 million in the 3Q12.

Updated Status of AlphaVille Acquisition

The arbitration has been submitted to the Brazil-Canada Chamber of Conciliation and Arbitration as prescribed in the Agreement. As a recap, according to the terms of the Investment Agreement signed between Gafisa and Alphapar when Gafisa acquired control of AlphaVille in 2006, as the Parties have not reached an agreement on the acquisition of the remaining 20% stake in AlphaVille, the process was submitted to arbitration on an exclusive and final basis.

Updated Status of the Results by Brand

Gafisa has been successfully implementing the strategic plan set in 2011 and has focused squarely on obtaining and maintaining operational consistency.

Gafisa: (1) Gafisa was able to launch 53% of the mid-range of 2012 guidance of R\$1.5 billion for the segment. (2) New Market projects, where Gafisa had lower margins will be delivered and should be substantially completed in the beginning of 2013. (3) Sales performance related to inventory has improved. (4) Gafisa has been contributing to the generation of operating cashflow.

Tenda: (1) Tenda posted healthy sales speed, better execution and improved quality in the portfolio of receivables. (2) In the first nine months, Tenda transferred 9,567 units to financial institutions reflecting 80% of the mid-range of guidance provided for the full year of 10,000–14,000 customers. (3) Units delivery consistent with full year guidance. (4) Tenda is contributing to the consolidated positive operating cash flow posted.

AlphaVille: (1) Continues to launch developments with good demand - two projects (AlphaVille Minas Gerais and Terras Alpha Sergipe) were launched with sales of 94%. (2) The results underscore the growing

share of AlphaVille in the product mix. The brand accounted for 46% share of 9M12 consolidated launches, up from a 21% a year ago. (3) The quality and size of AlphaVille landbank is a strong indication of the future prospects of the company.

Units Delivery Consistent with Full Year Guidance

Chart 2. Delivered units (2007 – 3Q12)

In the third quarter of 2012, the Company was able to achieve operational consistency in unit deliveries. Gafisa delivered 27 projects encompassing 5,531 units, a 35% decrease on the 8,459 delivered during 3Q11. In the first nine months, the Gafisa Group achieved unit deliveries of 17,729 units, representing a 9% year-over-year increase. See the accompanying chart for detailed information.

Tenda Status

With the introduction of the new strategy and organizational structure, Gafisa is progressing toward established guidance for the year. The restructuring of the Tenda brand, which focuses on affordable entry level developments, is progressing according to plan. Since the beginning of the year the Gafisa Group has implemented corrective actions focused on execution and the delivery of units. In the meantime the launch of Tenda units was halted until Tenda could be relaunched under a profitable business model. These corrective actions have been successful as Tenda has been able to transfer units to financial institutions in line with guidance and contribute to consolidated positive operating cash flow. As a result, the Company expects the launch cycle to resume next year when the appropriate processes will be in place to ensure a profitable business model. Accordingly, official guidance for Tenda launches of between R\$270-R\$330 million for 2012 has been revised down to zero.

The turnaround process at Tenda has been based on three pillars: (1) the expedition of the financing process through the immediate transfer of mortgages to financial institutions; (2) the revision of the supply chain to ensure the availability of material and labor to execute works; (3) the standardization of production processes. This determines the profitability of projects in the economic segment, where margins tend to be lower and can render developments unviable.

The contracted launch and transferred sale model means that the sale of a unit is only realized following a complete customer credit analysis by the CEF, the chief financial agent for Tenda's clients. It is also contingent upon bank approval. This means Tenda's customers will learn whether they fit the profile required by the bank during financing approval. Since the start of the year, approximately 70% of sales have been transferred or are awaiting customer signatures. The remainder are in an advanced stage of being contracted with the CEF.

The review of the supply chain and suppliers is part of a move to better control the construction process at Tenda and provide assurance to engineers as they carry out their projects. The Supply Chain unit, which was created in early 2012, has full access to works from start to finish. As a result, basic inputs and services are negotiated in large quantities, rather than individually, to maximize efficiencies. Previously, materials were ordered by engineers; today the division controls materials and verifies all amendments to

avoid technical issues in the supply chain or with suppliers.

One of the main technologies used by Tenda to achieve standardization in projects is the aluminum mold method. Light, durable and sized for easy handling by operators, the metal modules are assembled and filled directly with concrete for much higher-quality walls and slabs when compared to structural blocks. This also makes the process of finishing the walls unnecessary. This technology, in addition to superior process controls and reduced operational risks, reduces the construction cycle by up to 30%. Since 2010, approximately 80% of Tenda's construction has employed this technology and this proportion should increase with new launches.

The plan to resume launches at Tenda is based on the elements mentioned above, always with a conservative capital allocation. Our initial focus will be on four regions: Sao Paulo, Rio de Janeiro, Minas Gerais and Salvador, where we have already established a strong base to relaunch operations.

CONSOLIDATED DATA FOR THE GAFISA GROUP**Consolidated Launches**

Third quarter 2012 launches totaled R\$451.9 million, an 17% decrease over 2Q12. Y-o-Y launches decreased 57% due to the implementation of the turnaround strategy announced at the end of 2011. The result represents 49% of the mid-range of the previous full-year launch guidance of R\$3.0 billion and 54% of the mid-range of the previous full-year launch guidance of R\$2.7 billion. The delays in the approval of a few projects to be launched in 3Q12, in Sao Paulo, that slipped to the 4Q12, explains the drop in launches Y-o-Y. During the 9M12, 18 projects/phases were launched across 7 states, with Gafisa accounting for 54% of launches and AlphaVille the remaining 46%.

Consolidated Sales over Supply (SoS)

Consolidated sales over supply reached 18.7%, compared to 23.1% in 3Q11, reflecting fewer launches to pursue corrective remedial/action at the Tenda business. Excluding the Tenda brand, third-quarter sales over supply was 22.7%, compared to 20.1% in 2Q12 and 27.4% in 3Q11. The lower VSO is attributed to the lower contribution of launches as compared to the previous year period. The consolidated sales speed

of launches reached 66.7%.

Tenda Segment Pre-Sales

Third quarter gross pre-sales decreased 15% Q-o-Q to R\$293.8 million, compared to R\$344.8 million in 2Q12. Since 1Q12, pre-sales recognition and the remuneration of the Tenda sales force have been contingent upon the ability to pass mortgages onto financial institutions. Third quarter net pre-sales (gross pre-sales less dissolutions) were R\$30.0 million compared with R\$15.7 million in 2Q12.

The Third quarter net pre-sales results reflect the dissolution of contracts with potential homeowners who no longer qualify for bank mortgages of R\$263.7 million versus R\$329.1 million in the previous quarter. Despite ongoing dissolutions expected in 2012, the Gafisa Group is experiencing good demand for these units. Of the units returned to inventory, 70% have already been resold at a premium to qualified customers within 9M12.

During the 9M12, administrative expenses reached R\$253 million, a 43% increase compared to the R\$176 million posted in the 9M11. The main reasons for the increase in SG&A expenses were:

- (1) a provision related to the distribution of variable compensation, including stock options plan, which accounted for 48% and 14%, of the annual change in the G&A registered in the period, respectively;
- (2) other expenses related to services rendered, mainly auditing, which accounted for 20% of the annual change in the G&A registered in the period;

(3) administrative expenses related to the expansion of AlphaVille's operations given the increased contribution in Gafisa Group mix, which accounted for 15% of the annual change in G&A registered in the period.

Net debt was R\$2.94 billion at the end of the 3Q12, a R\$149 million reduction from R\$3.09 billion the end of the 2Q12. As a result, consolidated cash generation (cash burn) was positive at approximately R\$149 million in 3Q12, leading to R\$304 million in the 9M12. Operational consolidated cash flow reached approximately R\$607 million in the 9M12, 87% of the mid-range of our updated full year guidance of R\$600 – R\$800 million in 2012.

The net debt and investor obligations to equity and minorities ratio was 106% compared to 112% in the 2Q12. Excluding project finance, this net debt/equity ratio reached 28% from 34% in the 2Q12.

Currently we have access to a total of R\$1.6 billion in construction finance lines contracted with banks and R\$665 million of construction credit lines in the process of being approved. Also, Gafisa has R\$2.4 billion available in construction finance lines of credit for future developments. The following tables provide information on our debt position:

OUTLOOK

With the introduction of the new strategy and organizational structure, Gafisa is progressing toward established guidance for the year. The implementation and development of the operating and financial plan to support the restructuring of Tenda indicates that we are on the right track. Although the direct results of these adjustments to the Tenda operation over recent quarters have been positive, the launch cycle should resume next year. Reflecting the purpose of implementing corrective actions and focusing on execution and delivery, we have not launched any residential tower products via Tenda in 2012. As a result, our official guidance for Tenda launches of R\$270-R\$330 million for 2012 has been revised down to zero for this year.

As a result, consolidated launches for 2012 are now expected to be between R\$2.4 and R\$3.0 billion, reflecting a new, more targeted regional focus and the deliberate slowdown of the Tenda business. Gafisa should represent around 55% of launches and AlphaVille 45%. In the first nine months of 2012, the Gafisa Group launched R\$1.46 billion or 53% of the mid-range of 2012 guidance of R\$1.5 billion for the segment. AlphaVille's launches were in line with the internal projections and planning, representing 56% of the guidance for the year.

As of September 30, 2012, the Company had R\$1.23 billion in cash and cash equivalents. During the 9M12 operational consolidated cash flow reached approximately R\$607 million, representing 87% of the mid point of the updated guidance established for the full year of 2012, of R\$600 – R\$800 million. The key drivers of cash flow generation include: (1) our ability to deliver and transfer/customers at Gafisa; (2) the transfer of Tenda units to financial institutions; (3) the sale of inventory and new projects launched; (4) the securitization of receivables and; (5) the sale of non-strategic land, which had a minor contribution to the results posted in the period.

The Gafisa Group plans to deliver between 22,000 and 26,000 units in 2012 of which 30% will be delivered by Gafisa, 50% by Tenda and the remaining 20% by AlphaVille. During the first nine months of the year of 2012, the Gafisa Group delivered 17,729 units and transferred 9,567 Tenda customers to financial institutions, achieving 80% of the mid-range of the guidance for both targets.

PoC Method

Under Brazilian GAAP, real estate development revenues, costs and related expenses are recognized using the percentage-of-completion (“PoC”) method of accounting by measuring progress towards completion in terms of actual costs incurred versus total budgeted expenditures for each stage of a development.

Pre-sales

Contracted pre-sales are the aggregate amount of sales resulting from all agreements for the sale of units entered into during a certain period, including new units and units in inventory. Contracted pre-sales will be recorded as revenue as construction progresses (PoC method). There is no definition of “contracted pre-sales” under Brazilian GAAP.

PSV

Potential Sales Value.

SFH Funds

Funds from SFH are originated from the Governance Severance Indemnity Fund for Employees (FGTS) and from savings accounts deposits. Banks are required to invest 65% of the total savings accounts balance in the housing sector, either to final customers or developers, at lower interest rates than the private market.

Swap Agreements

A system in which we grant the land-owner a certain number of units to be built on the land or a percentage of the proceeds from the sale of units in such development in exchange for the land. By acquiring land through this system, we intend to reduce our cash requirements and increase our returns.
