Item 8.01 Other Events.

On November 26, 2012, Cytokinetics, Inc. issued a press release announcing positive data from a recently completed Phase IIa "Evidence of Effect" clinical trial of tirasemtiv in patients with generalized myasthenia gravis (MG). Tirasemtiv selectively activates the fast skeletal muscle troponin complex by increasing its sensitivity to calcium thereby increasing skeletal muscle force in response to neuronal input and delaying the onset and reducing the degree of muscle fatigue.

A copy of the press release is filed as Exhibit 99.1 to this Current Report on Form 8-K, and is incorporated herein by reference.
