INTERIM RESULTS

The Board of Directors of Huaneng Power International, Inc. (the “Company”) announces the unaudited operating results for the six months ended 30 June 2016 and a comparison with the operating results for the same period of last year. For the six months ended 30 June 2016, the Company and its subsidiaries recorded consolidated operating revenue of RMB52.924 billion, representing a decrease of 18.96% compared to the same period of last year. The net profit attributable to equity holders of the Company was RMB6.177 billion, representing a decrease of 30.99% compared to the same period of last year. The earnings per share was RMB0.41.

Please refer to the unaudited financial information below for details of the operating results.

BUSINESS REVIEW FOR THE FIRST HALF OF THE YEAR

During the first half of 2016, facing the external structural changes in the State’s economy and the continued reform of the power sector, the Company focused on promoting the quality and efficiency enhancement and upgrading, proactively responding to and participating in the market competition, striving to expand the market, and exercising strict control in costs and expenditure. All the work has achieved comparatively good results, which laid a solid foundation for the completion of the annual target.

1. POWER GENERATION

In the first half of this year, the power plants of the Company in operation within China achieved a total power generation of 146.080 billion kWh, representing an decrease of 8.60% from the same period of last year, as well as an electricity sold of 138.075 billion kWh, a decrease of 8.35% from the same period of last year, and 1,839 utilization hours, representing a decrease of 262 hours compared to the same period in the previous year.

The decrease in the power generation was primarily attributable to the following major reasons: 1) the power consumption level of nationwide generally experienced slow growth and the utilization hour decreased; 2) trans-regional power transmission increased significantly, reducing the power generation market of thermal power generating units in Henan, Chongqing, and the southeast coastal regions such as Shanghai, Jiangsu, Zhejiang and Guangdong. The Company has a relatively high percentage of thermal power generating units in these regions and thereby was greatly affected; 3) Due to heavy rainfall in the first half of the year, the hydropower generation reduced the power generation market of thermal power in cities of central and eastern China; and 4) the output from the thermal power generation units in below mentioned areas are affected by the 2016 release of the 2015 new capacity of the new nuclear power plants in Liaoning, Guangdong and Fujian combined with the 2016 commencement of new nuclear power plants in Guangdong and Guangxi.

In addition, the accumulated power generation of Tuas Power Limited in Singapore, which is wholly owned by the Company, accounted for a market share of 21.6%, representing a decrease of 0.8 percentage point compared to the same period last year.

2. COST CONTROL

In the first half of the year, with orderly progress of China's coal supply-side structural reform, the production limitation and reduction policy has been strictly implemented in major coal producing areas. The government intensified the inspection on illegal coal mines and closure and suspension of mines. The prices of coal in both coal producing areas and at ports were on the rise, and coal supply and demand became a bit tight. However, the Company fully analysed the market, reinforced and deepened its cooperation with large-sale coal companies, highlighted the bids and price comparison for open-market coal, and at the same time improved coal importation, thereby effectively controlling fuel costs.

3. ENERGY CONSERVATION AND ENVIRONMENTAL PROTECTION

The Company attaches great importance to energy conservation and environmental protection. To date, all of the coal-fired generating units of the Company have been equipped with desulphurization, denitrification and dust emission devices, with all indicators meeting the environmental protection requirements. At the same time, the Company proposes to implement ultra-low emission reform to generation units in certain areas according to schedule. In the first half of 2016, the Company has completed renovation of 20 generation units, achieving a total of 54 generation units of the Company that meet the standard for ultra-low emission, accounting for 44.3% of units to be renovated in total.

4. PROJECT DEVELOPMENT AND CONSTRUCTION

In the first half of 2016, the Company's power plants progressed smoothly and the Company's projects having commenced operation reached a total capacity of 240MW, including the Hubei Yingcheng Cogeneration Unit No. 1 (50MW), the Jiangsu Nanjing Cogeneration Unit No. 1 (50MW), the 25 wind power units with a total capacity of 50MW of Jiangsu Tongshan Wind Farm, the 25 wind power units with a total capacity of 50MW of Anhui Huaining Shijing Wind Farm, the 10MW photovoltaic power units of Liaoning Yingkou Cogeneration, the 10MW photovoltaic power units of Liaoning Dandong Power and the 20MW photovoltaic power units of Hebei Kangbao Xitan Photovoltaic. As of 30 June 2016, the Company had a controlled generation capacity of 82,571 MW and an equity-based generation capacity of 75,403 MW. The proportion of clean energy (gas turbine, hydro-power, wind power and photovoltaic power) reached 12.87%.

PROSPECTS FOR THE SECOND HALF OF 2016

Based on the development of the economy, the features of new normal in China's economy are more obvious. In general, China's positive economic fundamentals and long-term trajectory remain unchanged. What also remain unchanged is the basic fact that China's economy possesses strong resilience, great potential and ample room for maneuver; the strong support and conditions favorable for continued growth; and the forward movement of the country's economic restructuring and upgrading. The economic performance is generally stable. The fundamentals of Chinese economy and the overall financial market also remain stable. The supply-side structural reform achieved new progress. However, the transition from traditional to new engines will still take time. Much work is still required to ensure the realization of the annual growth target.

In terms of the power market, China's power market reform continues to grow steadily. In the second half of the year, the economic growth and growth of electricity demand will remain stable, newly installed power generation will maintain a large scale, and there will be a surplus in the capacity of overall national electricity supply. The Company will reinforce communication and coordination with all levels of governments and the grid companies, actively participate in electricity reforms, place more effort to analyse the market situation, seize market opportunities, and maintain and expand market shares.

In terms of the coal market, with further progress in supply-side structural reform, the seasonal demand of coal will soar up in the second half of this year. The coal supply will be comparatively tight with continued upward condition. However, with rising prices, some small and medium mines will have more momentum to restore production, coal supply will increase, and coal supply and demand will reach a new equilibrium. The Company will increase market analysis, reinforce cooperation with large-scale coal companies, actively explore new supply channels, strengthen coal price benchmarking with peers, and strictly control fuel costs.

In terms of the fund market, effective on 1 March 2016, the central bank lowered its reserve requirement ratio for financial institutions by 0.5 percentage point, and has flexibly used monetary policy tools for open market operations on a number of occasions, keeping liquidity in capital market, thus providing a relatively loose monetary policy environment for economic growth. It is anticipated that the stable monetary policy will remain in the second half of the year, and preset tuning control will be timely conducted. This will lead to a steady and moderate growth of monetary credit and social financing scale. Accordingly, there will be adequate supply of funds in the overall market, which will create a conducive environment for the Company to optimize the debt structure and effectively control corporate financing costs.

The Company will continue to focus on safety production, quality and efficiency, accelerate structural adjustment of power supply, and strive to improve its operation efficiency, proactively participate in the reform of power system and cope with market changes, and persistently create a long-term, stable and growing return to shareholders of the Company.

MANAGEMENT'S DISCUSSION AND ANALYSIS (PREPARED UNDER IFRS)

I. COMPARISON AND ANALYSIS OF OPERATING RESULTS

Summary

According to the preliminary statistics of the Company, for the second quarter of 2016, the Company's total power generation by the power plants within China on consolidated basis amounted to 69.220 billion kWh, representing a decrease of 10.43% over the same period last year. Total electricity sold by the Company amounted to 65.351 billion kWh, representing a decrease of 10.06% over the same period last year. In the first half of 2016, the Company's total power generation by the power plants within China on consolidated basis amounted to 146.080 billion kWh, representing a decrease of 8.60% over the same period last year. Total electricity sold by the Company amounted to 138.075 billion kWh, representing a decrease of 8.35% over the same period last year. In the first half of 2016, the Company's average on-grid electricity settlement price for its power plants within China amounted to RMB394.46 per MWh, representing a decrease of 12.37% over the same period last year.

The decrease in the Company's power generation in the first half of the year was mainly attributable to the following factors: (1) the nationwide low growth in power consumption and a decrease in utilization hours; (2) the substantial increase of cross-regional power transmission squeezed the generation potential of the coal-fired power generators in Henan, Chongqing and the southeast coastal areas (e.g. Shanghai, Jiangsu, Zhejiang and Guangdong), which accounted for a relatively high proportion in the Company's total power generation capacities; (3) due to heavy rainfall in the first half of the year, the power generation of nationwide large-scale hydro-power plants increased by 16.7% compared to the same period of last year, which reduced the output of coal-fired power plants located in the central and eastern China; (4) the newly installed capacity in Guangdong and Guangxi in 2016, combined with the commencement of operations of new nuclear power generators in Liaoning, Guangdong and Fujian installed in 2015, had a negative impact on the output of coal-fired power units in these regions.

The power generation (in billion kWh) by each of the Company's domestic power plants is listed below:

For the second quarter of 2016, the power generation of Tuas Power Limited in Singapore, which is wholly-owned by the Company, accounted for a market share of 21.4% in Singapore, representing a decrease of 1.4 percentage points compared to the same period of last year. In the first half of 2016, the accumulated power generation accounted for a market share of 21.6%, representing a decrease of 0.8 percentage point compared to the same period last year.

The Company experienced a decrease of 18.96% in operating revenue for the first half of 2016 over the same period of last year. The operating costs of the Company for the first half of 2016 decreased by 15.80% compared to the same period last year due to reduced fuel costs within China. The net profit attributable to the shareholders of the Company for the first half of 2016 was RMB6.177 billion, representing a decrease of 30.99% over RMB8.951 billion for the same period of last year. The net profit attributable to the shareholders of the Company from domestic operations of the Company was RMB6.391 billion, representing a 29.15% decrease over the same period of last year. The decrease

was mainly due to decreased on-grid tariff for coal-fired generation units adjusted by the NDRC, reduced domestic power generation of the Company, and increased market power transaction volume nationwide. The net loss attributable to the shareholders of the Company from its operations in Singapore was RMB214 million, representing an increase of RMB144 million over the same period of last year. This was mainly because of over supply in Singapore's power and natural gas market as result of commenced operations of many generators during recent years, which led to continued reduction of local power tariff and significantly decreased profitability of the Company's operations in Singapore.

1. Operating revenue, and tax and levies on operations

Operating revenue mainly represents revenue from electricity sold. For the first half of 2016, the consolidated operating revenue of the Company and its subsidiaries amounted to RMB52.924 billion, representing a 18.96% decrease over RMB65.305 billion for the same period of last year. The operating revenue from domestic operations of the Company decreased by approximately RMB11.221 billion over the same period last year, and operating revenue from new operating units was RMB2.219 billion.

The operating revenue from operations of the Company in Singapore decreased by RMB1.16 billion over the same period last year. The decrease is mainly because of the continued supply over demand in Singapore's power and natural gas market, which led to continued reduction of local power tariff and decreased profitability of the Company's operations in overseas market.

Tax and levies on operations mainly consist of value-added tax surcharges. According to relevant administrative regulations, these surcharges include the City Construction Tax and Education Tax which are calculated as a prescribed percentage of the amount of the value-added tax paid by the Company. For the first half of 2016, the tax and levies on operations of the Company were RMB457 million, representing a decrease of RMB154 million from RMB611 million for the same period last year.

2. Operating expenses

For the first half of 2016, the total operating expenses of the Company and its subsidiaries were RMB39.729 billion, representing a decrease of 15.80% over the same period last year. The operating expenses from domestic operations of the Company decreased by RMB6.384 billion, or 15.19%, over the same period of last year, which was largely due to reduced domestic fuel costs. The operating expenses from operations of the Company in Singapore decreased by RMB1.07 billion, or 20.75%, over the same period last year, which was mainly due to decreased fuel costs resulting from reduced price of natural gas.

2.1 Fuel costs

Fuel costs represent the largest portion of the operating expenses of the Company and its subsidiaries, which were RMB23.165 billion for the first half of 2016, representing a decrease of 26.03% over the same period last year. The fuel costs from domestic operations of the Company decreased by RMB7.435 billion over the same period last year, which was largely due to reduced coal purchase prices. Fuel costs for new generation units were RMB1.078 billion, and the fuel costs of existing generation units decreased by RMB8.513 billion over the same period last year. The fuel costs from the Company's operations in Singapore decreased by approximately RMB717 million over the same period last year, which was mainly due to decreased fuel costs resulting from reduced price of natural gas.

2.2 Depreciation

Depreciation expenses of the Company and its subsidiaries for the first half of 2016 were RMB7.420 billion, which represents an increase of RMB329 million over the same period last year, largely due to business expansion of the Company. The depreciation expenses for domestic operations of the Company increased by RMB326 million over the same period last year, and depreciation expenses for new generating units were RMB338 million. The depreciation expenses of its operations in Singapore increased by 3 million over the same period last year.

2.3

Labor

Labor costs include salaries payable to employees; housing funds, medical insurance, pension and unemployment insurance payable to relevant government authorities; and accrued training expenses. Labor costs of the Company and its subsidiaries amounted to RMB3.361 billion for the first half of 2016, representing an increase of RMB0.195 billion from RMB3.166 billion for the same period last year, including RMB45 million from operation of new generating units in China. The labor costs for the operations of the Company in Singapore increased by RMB1 million.

2.4

Maintenance

Maintenance expenses of the Company and its subsidiaries amounted to RMB1.629 billion for the first half of 2016, representing an increase of RMB62 million from RMB1.567 billion for the same period last year. The maintenance expenses for the new generating units of domestic operations of the Company was RMB80 million. The maintenance expenses for the Company's operations in Singapore decreased by RMB10 million.

2.5 Other operating expenses (including electricity purchase costs and service fees payable to Huaneng International Power Development Corporation)

Other operating expenses (including electricity purchase costs and the services fees payable to Huaneng International Power Development Corporation) of the Company and its subsidiaries amounted to RMB4.154 billion for the first half of 2016, representing an increase of RMB0.112 billion from RMB4.042 billion for the first half of 2015.

3.

Financial expenses

The consolidated net financial expenses of the Company and its subsidiaries for the first half of 2016 amounted to RMB3.475 billion, representing a decrease of RMB0.455 billion from RMB3.930 billion for the same period of last year. The financial expenses of domestic new operating units were RMB226 million and the financial expenses of existing units decreased by RMB780 million. The decrease was primarily attributable to reduced RMB benchmark interest rate. The financial expenses of the Company's operations in Singapore increased by RMB99 million.

4.

Share of profits less losses of associates and joint ventures

The share of profits less losses of associates and joint ventures of the Company and its subsidiaries for the first half of 2016 was RMB558 million, representing a decrease of RMB178 million from RMB736 million for the same period last year. This was mainly attributable to the decreased profit of the associates and joint ventures.

5.

Income tax expense

For the first half of 2016, the Company and its subsidiaries recorded a consolidated income tax expense of RMB2.414 billion, representing a decrease of RMB1.133 billion from RMB3.547 billion for the same period last year. The income tax expense of the domestic operations of the Company decreased by RMB1.103 billion over the same period last year mainly due to the reduced profit of domestic operations during the period. The income tax expense of the Company's operations in Singapore decreased by RMB30 million over the same period last year.

6. Net profit attributable to equity holders of the Company (excluding non-controlling interests)

The consolidated net profit attributable to equity holders of the company amounted to RMB6.177 billion for the first half of 2016, representing a decrease of 30.99% from RMB8.951 billion for the same period last year. The net profit attributable to equity holders of the Company from its domestic operations was RMB6.391 billion, representing a decrease of 29.15% over the same period last year. The decrease was largely due to decreased on-grid tariff for coal-fired generation units adjusted by the NDRC, reduced domestic power generation by the Company, and increased market power transaction volume nationwide. The loss attributable to equity holders of the Company from its operations in Singapore was RMB214 million, representing an increase losses of RMB144 million over the same period last year. The decrease was mainly because of continued supply over demand in Singapore's power and natural gas market as a result of commenced operations of many generators during recent years, which led to continued reduction of local power tariff and significantly decreased profitability of the Company's operations in Singapore.

7. Comparison of financial positions

As of 30 June 2016, consolidated total assets of the Company and its subsidiaries were RMB307.107 billion, representing a decrease of 0.57% from RMB308.866 billion as of 31 December 2015.

As of 30 June 2016, total assets of the Company's operations in Singapore were RMB28.905 billion, representing an increase of 4.65% from RMB27.622 billion as of 31 December 2015.

8. Major financial position ratios

Calculation formula of the financial ratios:

Ratio of liabilities to
shareholders' equity =
$$\frac{\text{balance of liabilities at the end of the period}}{\text{balance of shareholders' equity}} \\ \text{(excluding non-controlling interests) at the end of the period}$$

Current ratio =
$$\frac{\text{balance of the current assets at the end of the period}}{\text{balance of current liabilities at the end of the period}}$$

Quick ratio =
$$\frac{\text{(balance of current assets at the end of the period} \\ \text{– net amounts of inventories at the end of the period)}}{\text{balance of current liabilities at the end of the period}}$$

Multiples of interest
earned =
$$\frac{\text{(profit before tax + interest expenses)}}{\text{interest expenditure (including capitalized interest)}}$$

Item	The Company and its subsidiaries	
	As of 30 June 2016	As of 31 December 2015
Ratio of liabilities to shareholders' equity	2.43	2.46
Current ratio	0.27	0.27
Quick ratio	0.22	0.23
Item	For the six months ended 30 June 2016	For the six months ended 30 June 2015
Multiples of interest earned	3.65	4.11

The ratio of liabilities to shareholders' equity decreased slightly from the beginning of this year principally due to the decrease of interest-bearing liabilities. Current ratio and quick ratio generally maintained at the same level from the beginning of this year. The multiples of interest earned decreased because of the decreased profit before income tax for the first half of 2016.

As of 30 June 2016, the Company and its subsidiaries had net current liabilities of RMB84.621 billion. Based on the successful financing history of the Company, the undrawn banking facilities available to the Company and its good credit rating, the Company believes it would be able to meet its liabilities as and when they fall due and secure the funds required for operations. In addition, the Company continued to capitalize on its favorable credit rating and minimized interest expense by obtaining short-term borrowings with relatively lower interest rates.

VI.

RISK FACTORS

For the second half of 2016, the PBOC will continue implementing prudent monetary policies and make timely and fine-tuned adjustment to benchmark borrowing and lending interest rates. Most of the Company's debts are interest bearing debts denominated in RMB, and the change of RMB interest rates will directly affect the Company's borrowing costs. The Company will keep close watch on market conditions to make reasonable financing arrangements, explore new financing initiatives to control financing costs while meeting funding requirements. The interest bearing debts denominated in non-RMB currencies are mostly charged with floating interest rates. The Company has hedged approximately half of its debts with floating interest rates by interest rate swap agreements, and the fluctuation of the interest rates on non-RMB currency borrowings will not have material adverse impact on the Company.

The Company had certain debts denominated in U.S. dollar and Euro, and could incur exchange gain or loss from fluctuation of relevant exchange rates. The debts denominated in foreign currencies accounted for less than 3% of the total interest bearing debts of the Company, most of which were denominated in U.S. dollar. Although U.S. dollar appreciated against RMB during the first half of 2016, the recent fluctuations in exchange rates are not expected to have material adverse impact on the Company due to limited amount of its borrowings denominated in foreign currencies.

SHARE CAPITAL STRUCTURE

As at 30 June 2016, total issued share capital of the Company amounted to 15,200,383,440 shares, of which 10,500,000,000 shares were domestic shares, representing 69.08% of the total issued share capital of the Company, and 4,700,383,440 shares were foreign shares, representing 30.92% of the total issued share capital of the Company. In respect of domestic shares, Huaneng International Power Development Corporation ("HIPDC") owned a total of 5,066,662,118 shares, representing 33.33% of the total issued share capital of the Company, while China Huaneng Group held 1,555,124,549 shares, representing 10.23% of the total issued share capital of the Company. Other domestic shareholders held a total of 3,878,213,333 shares, representing 25.52% of the total issued share capital of the Company.

CORPORATE GOVERNANCE

The Company always places emphasis on corporate governance. After years of experience and practice, the Company has gradually formed a standardized and enhanced governance structure, thereby establishing a sound and effective system that is appropriate to the Company's own development requirements. The Company persists on maximizing the benefits of the Company and its shareholders as a whole, treating all of its shareholders fairly and striving for the long-term, stable growth returns for our shareholders.

During the reporting period, the Company has complied with the relevant provisions in Appendix 14 of the Listing Rules.

(A) CODE OF CORPORATE GOVERNANCE

In recent years, the Company adopted the following measures in order to strengthen corporate governance and enhance the Company's operation quality:

(1) Enhancing and improving corporate governance

In addition to complying with the provisions of the applicable laws, as a public company listed in three markets both domestically and internationally, the Company is subject to the regulations of the securities regulatory authorities of the three listing places and the supervision of investors at-large. Accordingly, our fundamental principles are to adopt a corporate governance structure that balances and coordinates the decision-making powers, supervisory powers and operating powers, to act with honesty and integrity, and to comply with the law and operate in accordance with the law.

Over the years, the Board has formulated and implemented the Rules and Procedures of the General Meetings; Rules and Procedures of the Board of Directors Meetings; the Rules and Procedures of the Supervisory Committee Meetings; the Detailed Rules on the Work of the General Manager; the Detailed Rules on the Work of the Strategy Committee of the Board of Directors; the Detailed Rules on the Work of the Audit Committee of the Board of Directors; the Detailed Rules on the Work of the Nomination Committee of the Board of Directors; the Detailed Rules on the Work of the Remuneration and Appraisal Committee of the Board of Directors; the System on Work of Independent Directors, the System on Work of Independent Directors on the annual report and the Work Regulations on Annual Report for the Audit Committee, and amended the Articles of Association according to the applicable laws and the Company's development need.

In October 2014, on the basis of combining the requirements of the rules of the Stock Exchange and the actual needs of the Company, the Company has formulated the Diversification Policy on Members of the Board of Directors (the "Diversification Policy") in accordance with the requirements of the Stock Exchange to further enhance the Company's corporate governance. The Diversification Policy is comprised of seven sections – purpose, significance, declaration of policies, measurable goals, monitoring and reporting, review policy and disclosure of the policy.

In April 2016, to further enhance the Company's overall risk management, the Company has revised the Detailed Rules on the Work of the Strategy Committee of the Board of Directors by incorporating the Company's risk management work decisions into the Strategy Committee's responsibilities, strengthening the entities responsible for the Company's risk management. At the same time, the Company made a comprehensive revision to the Risk Management Measures of the Company which was formally promulgated and adopted for use from 26 April 2006 until now, having made reference to the State-owned Assets Supervision and Administration Commission of the State Council's Central Enterprise Comprehensive Risk Management Guidelines, the Ministry of Finance's "Basic Internal Control Norms for Enterprises", and the "Guidelines on the Overall Risk Management Work of China Huaneng Group". The subject matters involved the overall risk management definition and risk management process, risk management and division of responsibilities at all levels, risk classification, assessment and reporting procedures, control and prevention, evaluation and supervision of risk management, the establishment of corporate risk management culture, etc. By revising and enhancing the above two systems, it would further consolidate the basis of the risk management system which provided a more effective theoretical guidance for the Company and implemented a comprehensive risk management, this played an important role in maintaining the Company's healthy development. During the reporting period, the Company has complied with the "Corporate Governance Code" and the requirements on relevant provisions regarding risk management and internal control.

In order to better adapt to market and regulatory changes, the Company has also revised the “Detailed Rules of the Secretary of the Board of Directors” on primarily the assessment of the work of the Secretary of the Board of Directors and further enhancement of the management system of the Secretary of the Board of Directors.

All members of the Board jointly perform the duty of corporate governance. During the reporting period, the Board has included the following in its scope of duties and authority:

1. Establishing and reviewing the Company’s corporate governance policies and codes, and making such amendments as it deems necessary to ensure the effectiveness of such policies and codes;
2. Reviewing and supervising the training and sustained professional development of the Company’s directors and senior management;
3. Reviewing and supervising the Company’s policies and codes in connection with compliance with laws and regulatory requirements;
4. Establishing, reviewing and supervising the codes of conduct and compliance handbook (if any) applicable to directors and employees; and
5. Reviewing the Company’s compliance with the Code on Corporate Governance Practices and the disclosures made in the Corporate Governance Report.

(2) Enhancing and improving the information disclosure system

The Company stresses on the importance of external information disclosure. The Company has established the Information Disclosure Committee which comprises the secretary to the Board of Directors, the Chief Accountant, managers of each functional department, and is responsible for examining the Company’s regular reports. The Company has implemented the system of holding regular information disclosure meetings every Monday chaired by the secretary to the Board of Directors and the Chief Accountant who will report on the Company’s important matters of the week, thereby warranting the Company’s performance of the relevant information disclosure obligations. The Company has successively formulated and implemented the relevant information disclosure system, and has made timely amendments thereto according to regulatory requirements. The current systems which have been implemented include the Measures on Information Disclosure Management, the Measures on Related Party Transaction Management, Management Measures on Inside Information, the Measures on Investor Relations Management, the Detailed Rules on the Work of the Information Disclosure Committee, Management Measures for Pursuing Responsibility regarding Material Errors in Information Disclosure of Annual Report, etc. The above measures and system ensure the regulated operation of the Company, strengthen the truthfulness, accuracy, completeness and the timely disclosure of information disclosure, and at the same time enhance the quality as well as transparency of the information disclosure.

Relevant departments of the Company compiled answers (and subsequent updates) to questions regarding the hot topics of market concerns, and the Company’s production, operation and operating results in a timely manner. The replies shall become the basis of external communication after being approved by the Company’s management and the authorized representatives of the Information Disclosure Committee. Also, the Company engages professional personnel to conduct specialized training for the staff of the Company who are responsible for information disclosure on an irregular basis in order to continuously enhance their level of professionalism.

(3) Regulating financial management system, strengthening internal control

In 2016, the Company continues in good faith and on principles of fair treatment to its shareholders and makes a lot of detailed work in preparing the financial reports and related practice standard and on aspect of internal controls. The credibility of a listed company, to a large extent, relates to the quality of the preparation of financial statements and a regulated operation of financial activities. In order to regulate its financial management, the Company has completed a large amount of specific and detailed work, including:

1. In order to strictly implement the accounting rules, accounting standards and accounting systems, to strengthen accounting and accounts supervision, and to truthfully and fairly reflect the financial position, operating results and cash flow, the Company has compiled the Measures on Accounting, the Measures on Construction Accounting, the Measures on Fixed Assets Management, Lists of Fixed Assets and the Measures on Cost Management. The Company's Board, the Supervisory Committee and the Audit Committee have examined the Company's financial reports on a regular basis and the Company has fulfilled the requirements of making the Chairman, the President and the Chief Accountant responsible for the truthfulness and completeness of the financial reports.
2. In order to safeguard the independence of the listed company, the Company maintained the separation of personnel in organizational structure and specifically established the relevant institutions responsible for the entrusted business so that the Company may realize the complete separation of the listed company and the controlling shareholder in terms of personnel, assets and finances according to the laws and regulations of the State and the requirements of regulatory rules.
3. In regard to fund management, the Company has formulated a number of management measures including the Measures on Financial Management, the Measures on the Management of the Income and Expenditure of the Funds, the Measures on the Assessment of Management of Receipt and Payment of Funds, the Measures on the Use and Management of Large Amount by Headquarter of the Company, the Measures on the Management of Bills of Exchange, the Measures on Management of Fund Raising, Rules on the Management of Transactions Involving Financial Derivatives, the Measures on the Management of Provision of Security to Third Parties and the Measures for Regulating Fund Transfers with the Related Parties. The Company's Articles of Association also set out provisions relating to loans, guarantees and investment. In the annual reports of the Company over the previous years, the Company has engaged certified accountants to conduct auditing on the use of funds by the controlling shareholders and other related parties, and issue specific statements according to the requirements of the China Securities Regulatory Commission ("China Securities Regulatory Commission") and the Shanghai Stock Exchange ("Shanghai Stock Exchange") for confirmation that there has not been any violation of rules relating to the use of funds. Moreover, the Company also conducted checking and clearing with related parties on a quarterly basis in relation to the operational fund transfers in order to ensure the safety of funds.
4. The overall objective of internal control of the Company is to promote implementation of the corporate strategy. Specific targets are providing reasonable assurance for the lawful operation and management of the Company, asset security, and true and complete financial reports and related information, thus promoting the overall enhancement of operating efficiency and actual results.

The Company has formulated a comprehensive system for five businesses including development and construction, production and management, asset finance, integrated management and supervision and evaluation in order to achieve the institutionalization of management. The Company has comprehensively sort out internal and external risks and various business processes, and completed the “Internal Control Manual” detailing 23 business processes and organizational structures including income, material procurement, fuel management and fund management, and 19 soft elements including human resources management, anti-fraud and risk management in terms of five areas including environment control, risk assessment, process control, information and communication, and monitoring, thereby comprehensively stating the Company’s guidelines and policies, elaborating the work procedures and job duties of various posts, regulating the standard procedures of various business processes and realizing a streamlined system.

The Company has compiled the “Internal Control Evaluation Handbook” stating the three-tier internal control evaluation management system and routine evaluation, the internal control evaluation mode corresponding to the key supervision, regulating the internal control evaluation procedures, evaluation methods, defect defining procedures and standards in order to realize standardization and regulation of internal control evaluation. The Company conducts annual assessment on the applicability and effectiveness of the above system and regularly conducts revision and perfection in order to realize dynamic maintenance of the internal control system.

The Company has established 48 items of risks falling into 16 categories involving strategy, production, management, finances, fraud, fundamental construction and fundamental management, and has divided risk management at all levels of business departments. For the purpose of risk identification, the “Internal Control Manual” stipulates the corresponding control measures and defining key control points. Through the implementation of the “one post for one item system” of the control point, the control responsibility is divided to every job at various levels so that internal control and job responsibilities are combined and all members of staff can participate in the construction of internal control. The Company has implemented the internal control routine evaluation mechanism, set up the post of internal control evaluators in each department and subordinate unit respectively, conducted monthly internal control evaluation, and established a three-tier evaluation quality supervision mechanism at the three levels of the Company, regional offices and basic level units by way of the internal control management system in order to conduct real-time tracking of the implementation of internal control. During the first half of the year, the Company has successfully completed a six-month internal control routine evaluation, and launched key inspection on high-risk units after combining the risk assessment results, thus effectively protecting and promoting the sustained and healthy development of the businesses of the Company and realizing the stable operation of the internal control system. The Company has combined the new requirements and new changes in business and management and constantly advanced experience and common issues, and launched comprehensive and multi-level internal control training each year, and widely publicized internal control concepts and knowledge, thus continuously optimizing the internal control environment.

The internal control and management departments, internal audit department and external auditors regularly report the internal control work situation to the Audit Committee of the Board of Directors respectively, thus ensuring the continued and effective operation of the internal control system. The Company constantly improves the internal control review system, formulated the “Internal Control Review and Evaluation Management Regulations”, regularly conducts internal control target review and comprehensive evaluation, circulating notices within the Company after combining the assessment results, thus realizing the review results in a timely manner, effectively guiding the units at all levels to focus on the quality of internal control work and practically realizing of the deep-level objective of management enhanced by internal control.

During the first half of the year, the Company officially launched the project on the environmental, social and governance reporting, so as to fully implement the requirement of Hong Kong Stock Exchange's Environmental, Social and Governance Reporting Guide ("ESG Reporting Guide"). The Company has carried out field researches at three levels in its headquarters, regional companies and establishments, in accordance with the ESG Reporting Guide requirements and conditions of peer enterprises, to analyze the environmental, social and corporate governance situation of the Company to identify existing advantages and deficiencies. Currently, the Company is carrying out the establishment of the ESG Index System and has completed the preparation of checklist of ESG indicators to determine responsible departments and data collection mode for each indicator. This is done in preparation for data collection at the end of the year to produce the ESG report.

Upon full assessment, the management of the Company is of the opinion that the internal control system of the Company is sound and effective.

The above systems and measures have formed a sound management framework for our production and operation, ensuring an on-going standardization of operations of the Company and a gradual enhancement of corporate management quality.

Notes to the Unaudited Condensed Consolidated Interim Financial Information
FOR THE SIX MONTHS ENDED 30 JUNE 2016
(Amounts expressed in thousands of RMB unless otherwise stated)

1. COMPANY ORGANIZATION AND PRINCIPAL ACTIVITIES

Huaneng Power International, Inc. (the “Company” or “HPI”) was incorporated in the People’s Republic of China (the “PRC”) as a Sino-foreign joint stock limited company on 30 June 1994. The registered address of the Company is Huaneng Building, 6 Fuxingmennei Street, Xicheng District, Beijing, the PRC. The Company and its subsidiaries are principally engaged in the generation and sale of electric power to the respective regional or provincial grid companies in the PRC and in the Republic of Singapore (“Singapore”). The Company conducts its business in Singapore through SinoSing Power Pte. Ltd. (“SinoSing Power”) and its subsidiaries.

The directors consider Huaneng International Power Development Corporation (“HIPDC”) and China Huaneng Group (“Huaneng Group”) as the parent company and ultimate parent company of the Company, respectively. Both HIPDC and Huaneng Group are incorporated in the PRC. HIPDC does not produce financial statements available for public use.

2. BASIS OF PREPARATION

This unaudited condensed consolidated interim financial information for the six months ended 30 June 2016 have been prepared in accordance with International Accounting Standard (“IAS”) 34 “Interim Financial Reporting”. This unaudited condensed consolidated interim financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2015, which have been prepared in accordance with International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (the “IASB”). This unaudited condensed consolidated interim financial information was approved for issue on 2 August 2016.

As at and for the six months ended 30 June 2016, a portion of the Company and its subsidiaries’ funding requirements for capital expenditures were partially satisfied by short-term financing. Consequently, as at 30 June 2016, the Company and its subsidiaries have net current liabilities of approximately Renminbi Yuan (“RMB”) 84.62 billion. Taking into consideration of the expected operating cash flows of the Company and its subsidiaries and the undrawn available banking facilities of approximately RMB217.1 billion as at 30 June 2016, the Company and its subsidiaries are expected to refinance certain of its short term loans and bonds and also consider alternative sources of financing, where applicable and when needed. Therefore, the directors of the Company are of the opinion that the Company and its subsidiaries will be able to meet its liabilities as and when they fall due within the next twelve months and accordingly, the unaudited condensed consolidated interim financial information are prepared on a going concern basis.

3. PRINCIPAL ACCOUNTING POLICIES

Except as described below, the principal accounting policies adopted are consistent with those applied in the annual financial statements for the year ended 31 December 2015 described in those annual financial statements.

The Company and its subsidiaries have adopted the following new standards or amendments to existing standards that are first effective for the current accounting period:

- IFRS 14, 'Regulatory deferral accounts'
- Amendments to IFRS 11, 'Accounting for acquisitions of interests in joint operations'
- Amendments to IAS 16 and IAS 38, 'Clarification of acceptable methods of depreciation and amortization'
- Amendments to IAS 27, 'Equity method in separate financial statements'
- Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'
- Amendments to IAS 1, 'Disclosure initiative'
- Annual improvements to IFRSs 2012-2014 Cycle

None of these developments have had a material effect on how the Company and its subsidiaries' results and financial position for the current or prior periods have been prepared or presented. The Company and its subsidiaries has not applied any new standard or interpretation that is not yet effective for current accounting period.

4. REVENUE AND SEGMENT INFORMATION

Revenues recognized during the period are as follows:

	For the six months ended 30 June	
	2016	2015
Sales of power and heat	52,484,142	64,820,940

Others	295,130	354,532
Total	52,924,371	65,305,472

4. REVENUE AND SEGMENT INFORMATION (Cont'd)

Directors and certain senior management of the Company perform the function as the chief operating decision maker (collectively referred to as the “senior management”). The senior management reviews the internal reporting of the Company and its subsidiaries in order to assess performance and allocate resources. The Company has determined the operating segments based on these reports. The reportable segments of the Company are the PRC power segment, Singapore segment and all other segments (mainly including port and transportation operations). No operating segments have been aggregated to form a reportable segment.

Senior management assesses the performance of the operating segments based on a measure of profit before income tax expense under China Accounting Standard for Business Enterprises (“PRC GAAP”) excluding dividend income received from available-for-sale financial assets and operating results of the centrally managed and resource allocation functions of headquarters (“Segment results”). Other information provided, except as noted below, to the senior management of the Company is measured under PRC GAAP.

Segment assets exclude prepaid income tax, deferred income tax assets, available-for-sale financial assets and assets related to the centrally managed and resource allocation functions of headquarters that are not attributable to any operating segment (“corporate assets”). Segment liabilities exclude current income tax liabilities, deferred income tax liabilities and liabilities related to the centrally managed and resource allocation functions of headquarters that are not attributable to any operating segment (“corporate liabilities”). These are part of the reconciliation to total assets and liabilities of statement of financial position.

All sales among the operating segments were performed at market price or close to market price, and have been eliminated as internal transactions when preparing the unaudited condensed consolidated interim financial information.

6. FINANCIAL INSTRUMENTS

(i) Fair value measurements

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3 – Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Total liabilities	–	1,304,941	–	1,304,941

The fair value of financial instruments traded in active markets is based on quoted market prices on the date of financial position. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Company and its subsidiaries is the current bid price. These instruments are included in level 1. Instrument included in level 1 represents an equity investment classified as available for sale.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

6. FINANCIAL INSTRUMENTS (Cont'd)

(i) Fair value measurements (Cont'd)

Specific valuation techniques used to value financial instruments include:

•The forward exchange contracts and fuel oil swaps are both valued using quoted market prices or dealer quotes for similar instruments.

•The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows based on observable yield curves.

Instruments included in level 2 comprise forward exchange contracts, fuel oil swaps and interest rate swaps.

There were no significant transfers of financial assets between level 1 and level 2 fair value hierarchy classifications during the six months ended 30 June 2016.

(ii) Fair value disclosures

The carrying value less provision for doubtful accounts of accounts receivable, other receivables and assets, accounts payable and other liabilities, short-term bonds and short-term loans approximated their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Company and its subsidiaries for similar financial instruments.

The estimated fair value of long-term loans and long-term bonds (both including current maturities) was approximately RMB74.03 billion and RMB20.82 billion as at 30 June 2016 (31 December 2015: RMB78.31 billion and RMB23.15 billion), respectively. The aggregate book value of these liabilities was approximately RMB 74.18 billion and RMB20.47 billion as at 30 June 2016 (31 December 2015: RMB78.38 billion and RMB22.74 billion), respectively.

*** Huaneng Group is a state-owned enterprise. In accordance with the revised IAS 24, 'Related Party Disclosures', government-related enterprises, other than entities under Huaneng Group, which the PRC government has control, joint control or significant influence over are also considered as related parties of the Company and its subsidiaries ("other government-related enterprises").

The majority of the business activities of the Company and its subsidiaries are conducted with other government-related enterprises. For the purpose of the related party transactions disclosure, the Company and its subsidiaries have established procedures to determine, to the extent possible, the identification of the ownership structure of its customers and suppliers as to whether they are government-related enterprises. However, many government-related enterprises have a multi-layered corporate structure and the ownership structures change over time as a result of transfers and privatization programs. Nevertheless, management believes that all material related party transactions have been adequately disclosed.

In addition to the related party information shown elsewhere in this unaudited condensed consolidated interim financial information, the following is a summary of significant related party transactions entered into in the ordinary course of business between the Company and its subsidiaries and their related parties during the period.

Financial Statements Reconciliation between PRC GAAP and IFRS

The financial statements, which are prepared by the Company and its subsidiaries in conformity with the Accounting Standards for Business Enterprises (“PRC GAAP”), differ in certain respects from that of IFRS. Major impact of adjustments for IFRS, on the consolidated net profit and equity attributable to equity holders of the Company, are summarized as follows:

	Consolidated net profit attributable to equity holders of the Company For the six months ended 30 June		Total equity attributable to equity holders of the Company	
	2016	2015	As at 30 June 2016	As at 31 December 2015

Consolidated net profit/equity attributable to equity holders of the Company under IFRS	6,176,840	8,950,784	84,173,822	84,141,948

(A) EFFECT OF RECORDING THE AMOUNTS RECEIVED IN ADVANCE OF PREVIOUS YEARS

In accordance with the tariff setting mechanism applicable to certain power plants of the Company in previous years, certain power plants of the Company received payments in advance in the previous years (calculated at 1% of the original cost of fixed assets) as the major repair and maintenance cost of these power plants. Such receipts in advance are recognized as liabilities under IFRS and are recognized in profit or loss when the repairs and maintenance is performed and the liabilities are extinguished. In accordance with PRC GAAP, when preparing the financial statements, revenue is computed based on actual power sold and the tariff currently set by the State, no such amounts are recorded.

(B) DIFFERENCE IN THE RECOGNITION OF HOUSING BENEFITS TO THE EMPLOYEES OF THE COMPANY AND ITS SUBSIDIARIES IN PREVIOUS YEARS

The Company and its subsidiaries once provided staff quarters to the employees of the Company and its subsidiaries and sold such staff quarters to the employees of the Company and its subsidiaries at preferential prices set by the local housing reform office. Difference between cost of the staff quarters and proceeds from the employees represented the housing losses, and was borne by the Company and its subsidiaries.

Under Previous Accounting Standards and Accounting System (“Previous PRC GAAP”) , in accordance with the relevant regulations issued by the Ministry of Finance, such housing losses incurred by the Company and its subsidiaries are fully charged to non-operating expenses in previous years. Under IFRS, such housing losses incurred by the Company and its subsidiaries are recognized on a straight-line basis over the estimated remaining average service lives of the employees.

(C) EFFECT OF DEPRECIATION ON THE CAPITALIZATION OF BORROWING COSTS IN PREVIOUS YEARS

In previous years, under Previous PRC GAAP, the scope of capitalization of borrowing costs was limited to specific borrowings, and thus, borrowing costs arising from general borrowings were not capitalized. In accordance with IFRS, the Company and its subsidiaries capitalized borrowing on general borrowing used for the purpose of obtaining qualifying assets in addition to the capitalization of borrowing costs on specific borrowings. From 1 January 2007 onwards, the Company and its subsidiaries adopted PRC GAAP No. 17 prospectively, the current adjustments represent the related depreciation on capitalized borrowing costs included in the cost of related assets under IFRS in previous years.

(D) DIFFERENCES IN ACCOUNTING TREATMENT ON BUSINESS COMBINATIONS UNDER COMMON CONTROL

Huaneng Group is the parent company of HIPDC, which in turn is also the ultimate parent of the Company. The Company carried out a series of acquisitions from Huaneng Group and HIPDC. As the acquired power companies and plants and the Company were under common control of Huaneng Group before and after the acquisitions, such acquisitions are regarded as business combinations under common control.

In accordance with PRC GAAP, under common control business combination, the assets and liabilities acquired in business combinations are measured at the carrying amounts of the acquirees on the acquisition date. The difference between carrying amounts of the net assets acquired and the consideration paid is adjusted to equity account of the acquirer. The operating results for all periods presented are retrospectively restated as if the current structure and operations resulting from the acquisition had been in existence since the beginning of the earliest year presented, with financial data of previously separate entities consolidated. The cash consideration paid by the Company is treated as an equity transaction in the year of acquisition.

For the business combination occurred prior to 1 January 2007, in accordance with Previous PRC GAAP, when equity interests acquired is less than 100%, the assets and liabilities of the acquirees are measured at their carrying amounts. The excess of consideration over the proportionate share of the carrying amounts of the net assets acquired was recorded as equity investment difference and amortized on a straight-line basis for not more than 10 years. When acquiring the entire equity, the entire assets and liabilities are accounted for in a method similar to purchase accounting. Goodwill arising from such transactions is amortized over the estimated useful lives on a straight-line basis. On 1 January 2007, in accordance with PRC GAAP, the unamortized equity investment differences and goodwill arising from business combinations under common control were written off against undistributed profits.

Under IFRS, the Company and its subsidiaries adopted the purchase method to account for the acquisitions above. The assets and liabilities acquired in acquisitions were recorded at fair value by the acquirer. The excess of acquisition cost over the proportionate share of fair value of net identifiable assets acquired was recorded as goodwill. Goodwill is not amortized but is tested annually for impairment and carried at cost less accumulated impairment losses. The operating results of the acquirees are consolidated in the operating results of the Company and its subsidiaries from the acquisition dates onwards.

As mentioned above, the differences in accounting treatment under PRC GAAP and IFRS on business combinations under common control affect both equity and profit. Meanwhile, due to different measurement basis of the assets acquired, depreciation and amortization in the period subsequent to the acquisition will be affected which will also affect the equity and profit or loss upon subsequent disposals of such investments. Such differences will be gradually eliminated following subsequent depreciation, amortization and disposal of related assets.

(E) DEFERRED INCOME TAX IMPACT ON GAAP DIFFERENCES

This represents related deferred income tax impact on the GAAP differences above where applicable.
