NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include ChoiceOne Financial Services, Inc. (“ChoiceOne” or the “Registrant”) and its wholly-owned subsidiary, ChoiceOne Bank (the “Bank”), and the Bank’s wholly-owned subsidiary, ChoiceOne Insurance Agencies, Inc. Intercompany transactions and balances have been eliminated in consolidation.

The consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information, prevailing practices within the banking industry and the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

The accompanying consolidated financial statements reflect all adjustments ordinary in nature which are, in the opinion of management, necessary for a fair presentation of the Consolidated Balance Sheets as of September 30, 2014 and December 31, 2013, the Consolidated Statements of Income for the three- and nine-month periods ended September 30, 2014 and September 30, 2013, the Consolidated Statements of Comprehensive Income for the three- and nine-month periods ended September 30, 2014 and September 30, 2013, the Consolidated Statements of Changes in Shareholders' Equity for the nine-month periods ended September 30, 2014 and September 30, 2013, and the Consolidated Statements of Cash Flows for the nine-month periods ended September 30, 2014 and September 30, 2013. Operating results for the nine months ended September 30, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014.

The accompanying consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Registrant's Annual Report on Form 10-K for the year ended December 31, 2013.

Allowance for Loan Losses

The allowance for loan losses is maintained at a level believed adequate by management to absorb probable incurred losses inherent in the consolidated loan portfolio. Management’s evaluation of the adequacy of the allowance is an estimate based on reviews of individual loans, assessments of the impact of current economic conditions on the portfolio and historical loss experience of seasoned loan portfolios. See Note 3 to the interim consolidated financial

statements for additional information.

Management believes the accounting estimate related to the allowance for loan losses is a “critical accounting estimate” because (1) the estimate is highly susceptible to change from period to period because of assumptions concerning the changes in the types and volumes of the portfolios and economic conditions and (2) the impact of recognizing an impairment or loan loss could have a material effect on ChoiceOne’s assets reported on the balance sheets as well as its net income.

Stock Transactions

A total of 2,740 shares of common stock were issued to the Registrant’s Board of Directors for a cash price of \$48,000 under the terms of the Directors’ Stock Purchase Plan in the first nine months of 2014. A total of 3,284 shares were issued to employees for a cash price of \$53,000 under the Employee Stock Purchase Plan in the first three quarters of 2014. A total of 1,113 shares were issued upon the exercise of stock options in the first three quarters of 2014. A total of 3,437 shares of common stock were repurchased in the first three quarters of 2014. A total of 942 shares were issued upon the vesting of Restricted Stock Units.

Stock-Based Compensation

Effective July 1, 2013, ChoiceOne began granting Restricted Stock Units to a select group of employees under the Stock Incentive Plan of 2012. All of the Restricted Stock Units are initially unvested and vest in three annual installments on each of the next three anniversaries of the grant date. Certain additional vesting provisions apply. Each unit, once vested, is settled by delivery of one share of ChoiceOne common stock.

Reclassifications

Certain amounts presented in prior periods have been reclassified to conform to the current presentation.

NOTE 2 - SECURITIES

The fair value of securities available for sale and the related gross unrealized gains and losses recognized in accumulated other comprehensive income (loss) were as follows:

ChoiceOne reviews its securities portfolio on a quarterly basis to determine whether unrealized losses are considered to be temporary or other-than-temporary. No other-than-temporary impairment charges were recorded during the nine months ended September 30, 2014. ChoiceOne believed that unrealized losses on securities were temporary in nature and were due to changes in interest rates and reduced market liquidity and not as a result of credit quality issues.

The process to monitor the credit quality of ChoiceOne's loan portfolio includes tracking (1) the risk ratings of business loans, (2) the level of classified business loans, and (3) delinquent and nonperforming consumer loans. Business loans are risk rated on a scale of 1 to 8. A description of the characteristics of the ratings follows:

Risk ratings 1 and 2: These loans are considered pass credits. They exhibit good to exceptional credit risk and demonstrate the ability to repay the loan from normal business operations.

Risk rating 3: These loans are considered pass credits. They exhibit acceptable credit risk and demonstrate the ability to repay the loan from normal business operations.

Risk rating 4: These loans are considered pass credits. However, they have potential developing weaknesses that, if not corrected, may cause deterioration in the ability of the borrower to repay the loan. While a loss is possible for a loan with this rating, it is not anticipated.

Risk rating 5: These loans are considered special mention credits. Loans in this risk rating are considered to be inadequately protected by the net worth and debt service coverage of the borrower or of any pledged collateral. These loans have well defined weaknesses that may jeopardize the borrower's ability to repay the loan. If the weaknesses are not corrected, loss of principal and interest could be probable.

Risk rating 6: These loans are considered substandard credits. These loans have well defined weaknesses, the severity of which makes collection of principal and interest in full, questionable. Loans in this category may be placed on nonaccrual status.

Risk rating 7: These loans are considered doubtful credits. Some loss of principal and interest has been determined to be probable. The estimate of the amount of loss could be affected by factors such as the borrower's ability to provide additional capital or collateral. Loans in this category are on nonaccrual status.

Risk rating 8: These loans are considered loss credits. They are considered uncollectible and will be charged off against the allowance for loan losses.

The pre-modification and post-modification outstanding recorded investment represents amounts as of the date of loan modification. If a difference exists between the pre-modification and post-modification outstanding recorded investment, it represents impairment recognized through the provision for loan losses computed based on a loan's post-modification present value of expected future cash flows discounted at the loan's original effective interest rate. If

no difference exists, a loss is not expected to be incurred based on an assessment of the borrower's expected cash flows.

The following schedule provides information on TDRs as of September 30, 2014 where the borrower was past due with respect to principal and/or interest for 30 days or more during the three months and nine months ended September 30, 2014 that had been modified during the year prior to the default:

| | Three Months Ended September 30, 2014 | | Nine Months Ended September 30, 2014 | |

The estimated fair values approximate the carrying amounts for all assets and liabilities except those described later in this paragraph. The methodology for determining the estimated fair value for securities available for sale is described in Note 6. The estimated fair value for loans is based on the rates charged at September 30, 2014 and December 31, 2013 for new loans with similar maturities, applied until the loan is assumed to reprice or be paid. The allowance for loan losses is considered to be a reasonable estimate of discount for credit quality concerns. The estimated fair values for time deposits and Federal Home Loan Bank (“FHLB”) advances are based on the rates paid at September 30, 2014 and December 31, 2013 for new deposits or FHLB advances, applied until maturity. The estimated fair values for other financial instruments and off-balance sheet loan commitments are considered nominal.

NOTE 6 – FAIR VALUE MEASUREMENTS

The following tables present information about the Bank’s assets and liabilities measured at fair value on a recurring basis and the valuation techniques used by the Bank to determine those fair values.

In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets or liabilities that the Bank has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Bank's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

There were no liabilities measured at fair value as of September 30, 2014 or December 31, 2013. Disclosures concerning assets measured at fair value are as follows:

| Total unrealized gains (losses) included in other comprehensive income | (115) | 8 |
| Net purchases, sales, calls, and maturities | (84) | 1,551 |
| Net transfers into Level 3 | 74 | — |
| Balance, September 30 | \$11,192 | \$4,158 |

Of the Level 3 assets that were held by the Bank at September 30, 2014, the net unrealized gain for the nine months ended September 30, 2014 was \$138,000, which is recognized in other comprehensive income in the consolidated balance sheet. Purchases of level 3 securities during the first three quarters of 2014 and 2013 consisted of local municipal issues. During the first nine months of 2014, a \$600,000 Level 3 bond was sold. There were no sales of Level 3 securities in the first nine months of 2013.

Both observable and unobservable inputs may be used to determine the fair value of positions classified as Level 3 investment securities and liabilities. As a result, the unrealized gains and losses for these assets and liabilities presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs.

Available for sale investment securities categorized as Level 3 assets primarily consist of bonds issued by local municipalities. The Bank estimates the fair value of these bonds based on the present value of expected future cash flows using management's best estimate of key assumptions, including forecasted interest yield and payment rates, credit quality and a discount rate commensurate with the current market and other risks involved.

The Bank also has assets that under certain conditions are subject to measurement at fair value on a non-recurring basis. These assets are not normally measured at fair value, but can be subject to fair value adjustments in certain circumstances, such as impairment. Disclosures concerning assets measured at fair value on a non-recurring basis are as follows:

Assets Measured at Fair Value on a Non-recurring Basis

| | | |
|----------------------------|----------------------|----------------------------|
| Quoted Prices in Active | Significant Other | Significant Significant |
|----------------------------|----------------------|----------------------------|

| (Dollars in thousands) | Balance at Date Indicated | Markets for Identical Observable Unobservable | | |
|------------------------|------------------------------------|---|---------------------|---------------------|
| | | Assets (Level 1) | Inputs (Level 2) | Inputs (Level 3) |
| Impaired Loans | | | | |
| September 30, 2014 | \$ 7,851 | \$— | \$ — | \$ 7,851 |
| December 31, 2013 | \$ 8,287 | \$— | \$ — | \$ 8,287 |

Impaired loans categorized as Level 3 assets consist of non-homogeneous loans that are considered impaired. The Bank estimates the fair value of the loans based on the present value of expected future cash flows using management's best estimate of key assumptions. These assumptions include future payment ability, timing of payment streams, and estimated realizable values of available collateral (typically based on outside appraisals).

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion is designed to provide a review of the consolidated financial condition and results of operations of ChoiceOne Financial Services, Inc. ("ChoiceOne" or the "Registrant") and its wholly-owned subsidiary, ChoiceOne Bank (the "Bank"), and the Bank's wholly-owned subsidiary, ChoiceOne Insurance Agencies, Inc. This discussion should be read in conjunction with the interim consolidated financial statements and related notes.

FORWARD-LOOKING STATEMENTS

This discussion and other sections of this quarterly report contain forward-looking statements that are based on management's beliefs, assumptions, current expectations, estimates and projections about the financial services industry, the economy, and ChoiceOne itself. Words such as "anticipates," "believes," "estimates," "expects," "forecasts," "intends," "is likely," "plans," "predicts," "projects," "may," "could," and variations of such words and similar expressions are intended to identify such forward-looking statements. Management's determination of the provision and allowance for loan losses, the carrying value of goodwill and loan servicing rights, the fair value of investment securities (including whether any impairment on any investment security is temporary or other-than-temporary) and management's assumptions concerning pension and other postretirement benefit plans involve judgments that are inherently forward-looking. All of the information concerning interest rate sensitivity is forward-looking. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions ("risk factors") that are difficult to predict with regard to timing, extent, likelihood, and degree of occurrence. Therefore, actual results and outcomes may materially differ from what may be expressed, implied or forecasted in such forward-looking statements. Furthermore, ChoiceOne undertakes no obligation to update, amend, or clarify forward-looking statements, whether as a result of new information, future events, or otherwise.

Risk factors include, but are not limited to, the risk factors discussed in Item 1A of the Registrant's Annual Report on Form 10-K for the year ended December 31, 2013; changes in banking laws and regulations; changes in tax laws; changes in prices, levies, and assessments; the impact of technological advances; governmental and regulatory policy changes; the outcomes of pending and future litigation and contingencies; trends in customer behavior as well as their abilities to repay loans; changes in the local and national economies; changes in market conditions; the level and timing of asset growth; various other local and global uncertainties such as acts of terrorism and military actions; and current uncertainties and fluctuations in the financial markets and stocks of financial services providers due to concerns about capital and concerns about the Michigan economy in particular. These are representative of the risk factors that could cause a difference between an ultimate actual outcome and a preceding forward-looking statement.

RESULTS OF OPERATIONS

Summary

Net income for the third quarter of 2014 was \$1,554,000, which represented an increase of \$353,000 or 29% compared to the same period in 2013. Net income for the first nine months of 2014 was \$4,139,000, which represented an increase of \$391,000 or 10% over the same period in 2013. Increases in net interest income and noninterest income were partially offset by an increase in noninterest expense and income tax expense for the third quarter of 2014 compared to the third quarter of 2013. Basic earnings per common share were \$0.47 for the third quarter of 2014 and \$1.25 for the first nine months of 2014, compared to \$0.37 and \$1.14, respectively, for the same periods in 2013. Diluted earnings per common share were \$0.47 for the third quarter of 2014 and \$1.25 for the first nine months of 2014, compared to \$0.36 and \$1.13, respectively, for the same periods in 2013. The return on average assets and return on average shareholders' equity percentages were 1.06% and 8.68%, respectively, for the first three quarters of 2014, compared to 1.00% and 8.18%, respectively, for the same periods in 2013.

Dividends

Cash dividends of \$495,000 or \$0.15 per share were declared in the third quarter of 2014, compared to \$462,000 or \$0.14 per share in the third quarter of 2013. The cash dividends declared in the first nine months of 2014 were \$1,451,000 or \$0.44 per share, compared to \$1,320,000 or \$0.40 per share declared in the same period in 2013. The cash dividend payout percentage was 35% for the first nine months of 2014 as well as 2013.

Interest Income and Expense

Tables 1 and 2 on the following pages provide information regarding interest income and expense for the nine-month periods ended September 30, 2014 and 2013. Table 1 documents ChoiceOne's average balances and interest income and expense, as well as the average rates earned or paid on assets and liabilities. Table 2 documents the effect on interest income and expense of changes in volume (average balance) and interest rates. These tables are referred to in the discussion of interest income, interest expense and net interest income.

-
- The volume variance is computed as the change in volume (average balance) multiplied by the previous year's interest rate. The rate variance is computed as the change in interest rate multiplied by the previous year's volume (average balance). The change in interest due to both volume and rate has been allocated to the volume and rate changes in proportion to the relationship of the absolute dollar amounts of the change in each.
- (1) Interest on nontaxable investment securities and loans has been adjusted to a fully tax-equivalent basis using an incremental tax rate of 34% for the periods presented.

Net Interest Income

The presentation of net interest income on a tax-equivalent basis is not in accordance with generally accepted accounting principles (“GAAP”), but is customary in the banking industry. This non-GAAP measure ensures comparability of net interest income arising from both taxable and tax-exempt loans and investment securities. The adjustments to determine net interest income on a tax-equivalent basis were \$540,000 and \$543,000 for the nine months ended September 30, 2014 and 2013, respectively. These adjustments were computed using a 34% federal income tax rate.

As shown in Tables 1 and 2, tax-equivalent net interest income increased \$68,000 in the first nine months of 2014 compared to the same period in 2013. The relationship between growth in average interest-earning assets and average interest-bearing liabilities caused net interest income to increase \$850,000 in the first three quarters of 2014 compared to the same period in the prior year. A decrease of 14 basis points in the net interest spread from 3.99% in the first nine months of 2013 to 3.85% in the first nine months of 2014 resulted in a \$782,000 decrease in net interest income.

The average balance of loans increased \$11.6 million in the first nine months of 2014 compared to the same period in 2013. Average commercial loans increased \$15.4 million and average consumer loans grew \$1.0 million while average residential mortgage loans declined \$4.8 million in the first three quarters of 2014 compared to the same period in 2013. The average interest rate earned on loans declined 25 basis points from the first nine months of 2013 to the same period in 2014 as a result of renewals of existing loans and new loan production at lower rates than in the existing portfolio. The increase in the average loans balance, offset by the decrease in the average rate earned, caused tax-equivalent interest income from loans to decline \$172,000 in the first three quarters of 2014 compared to the same period in the prior year. The average balance of total securities grew \$8.5 million in the first nine months of 2014 compared to the same period in 2013. Additional securities were purchased during the first nine months of 2014 to provide earning asset growth. Growth in average securities, offset by the effect of lower interest rates earned, caused tax-equivalent interest income to increase \$24,000 in the first nine months of 2014 compared to the same period in 2013.

The average balance of interest-bearing demand deposits increased \$4.6 million in the first nine months of 2014 compared to the same period in 2013. The effect of the higher average balance, offset by a 3 basis point decline in the average rate paid, caused interest expense to decrease \$26,000 in the first three quarters of 2014 compared to the same period in 2013. The average balance of savings deposits increased \$2.4 million in the first nine months of 2014 compared to the same period in the prior year. The impact of the savings deposit growth and a less than 1 basis point increase in the average rate paid caused interest expense to increase \$2,000 in the first nine months of 2014 compared to the same period in 2013. The average balance of certificates of deposit was down \$12.7 million in the first nine months of 2014 compared to the same period in 2013. The decline in certificates of deposit plus a 15 basis point reduction in the average rate paid on certificates caused interest expense to fall \$207,000 in the first nine months of 2014 compared to the same period in 2013. A \$5.3 million increase in the average balance of Federal Home Loan Bank advances was partially offset by a 15 basis point reduction in the average rate paid and caused interest expense to increase \$12,000 in the first nine months of 2014 compared to the same period in the prior year. Growth of \$3.0 million in the average balance of other interest-bearing liabilities in the first nine months of 2014 compared to the first nine months of 2013 and the effect of a 2 basis point decrease in the average rate paid caused a \$1,000 increase in interest expense.

ChoiceOne's net interest income spread was 3.85% in the first nine months of 2014, compared to 3.99% for the first nine months of 2013. The decrease in the interest spread was due to a 22 basis point decrease in the average rate earned on interest-earning assets, which was partially offset by an 8 basis point decrease in the average rate paid on interest-bearing liabilities in the first nine months of 2014 compared to the same period in 2013. The reduction in the average rate earned on interest-earning assets was caused by relatively low general market rates which affected new loan originations and securities purchases in 2013 and the first nine months of 2014. Interest rates on loans are also being impacted by rate pressure from some of ChoiceOne's competing financial institutions. The lower rate paid on interest-bearing liabilities resulted from repricing of local deposits as general market interest rates remained low during 2013 and the first nine months of 2014. If market interest rates continue to remain low, ChoiceOne's net interest spread may decrease in future quarters if reductions in the average rate on interest-earning assets exceed the ability to reprice local deposits.

Provision and Allowance for Loan Losses

Total loans increased \$22.4 million since the end of 2013, while the allowance for loan losses declined \$75,000 from December 31, 2013 to September 30, 2014. The provision for loan losses was \$0 in the third quarter and \$100,000 in the first nine months of 2014, compared to \$0 and \$300,000, respectively, in the same periods in 2013. The reduction in the provision for loan losses was due to a lower level of net charge-offs in the first nine months of 2014 than in the same period in 2013. Nonperforming loans were \$7.8 million as of September 30, 2014, compared to \$7.1 million as of June 30, 2014 and \$7.7 million as of December 31, 2013. The increase in nonperforming loans in the third quarter of 2014 was due to an increase of \$755,000 in nonaccrual loans. Nonaccrual commercial real estate loans increased \$909,000 during the third quarter of 2014, which was partially offset by the net effect of changes in the other loan categories. The allowance for loan losses was 1.38% of total loans at September 30, 2014, compared to 1.41% at June 30, 2014 and 1.50% at December 31, 2013.

Charge-offs and recoveries for respective loan categories for the nine months ended September 30 were as follows:

| (Dollars in thousands) | 2014 | | 2013 | |
|---------------------------|-------------|------------|-------------|------------|
| | Charge-offs | Recoveries | Charge-offs | Recoveries |
| Agricultural | \$— | \$10 | \$88 | \$5 |
| Commercial and industrial | — | 90 | 54 | 258 |
| Consumer | 199 | 146 | 286 | 145 |
| Real estate, commercial | 185 | 39 | 166 | 55 |
| Real estate, residential | 117 | 41 | 431 | 122 |
| | \$501 | \$326 | \$1,025 | \$585 |

Net recoveries were \$4,000 in the third quarter of 2014 and net charge-offs were \$175,000 in the first nine months of 2014, compared to net charge-offs of \$152,000 in the third quarter of 2013 and \$440,000 in the first nine months of 2013. Net charge-offs on an annualized basis as a percentage of average loans were 0.07% in the first nine months of 2014 compared to 0.19% for the same period in the prior year. Management is aware that the economic climate in Michigan will continue to affect business and personal borrowers. Management has worked and intends to continue to work with delinquent borrowers in an attempt to lessen the negative impact to ChoiceOne. As charge-offs, changes in the level of nonperforming loans, and changes within the composition of the loan portfolio occur in the remainder of 2014, the provision and allowance for loan losses will be reviewed by the Bank's management and adjusted as believed to be necessary.

-

Noninterest Income

Total noninterest income increased \$562,000 in the third quarter of 2014 and \$347,000 in the first nine months of 2014 compared to the same periods in 2013. An increase in customer service charges of \$93,000 in the third quarter and \$143,000 in the first nine months of 2014 compared to the same periods in the prior year was due to changes in pricing and a higher volume of overdraft and debit card fees. Insurance and investment commissions decreased \$46,000 in the third quarter of 2014 and increased \$47,000 in the first three quarters of 2014 compared to the same periods in 2013. Gains on loan sales decreased \$19,000 in the third quarter and \$543,000 in the first nine months of 2014 compared to the same periods in 2013. Residential mortgage refinancing activity has slowed in 2014, causing the significant decrease. Increases of \$76,000 in the third quarter and \$93,000 in the first nine months of 2014 in gains on sales of securities when compared to the same periods in 2013 resulted from higher sales activity in the first nine months of 2014 than in the same period of the prior year. Decreases of \$488,000 in the third quarter and \$678,000 in the first nine months of 2014 in losses on sales and write-downs of other assets when compared to the same periods in 2013 resulted from less write-downs of foreclosed properties.

Noninterest Expense

Total noninterest expense increased \$151,000 in the third quarter of 2014 and \$23,000 in the first nine months of 2014 compared to the same periods in 2013. The increase of \$8,000 in salaries and benefits in the third quarter of 2014 and \$52,000 in the first nine months of 2014 compared to the same periods in 2013 resulted primarily from higher salaries and health insurance costs. Occupancy and equipment expense increased \$19,000 and \$70,000 in the third quarter and first nine months of 2014, respectively, compared the same periods in 2013 as a result of higher utility costs and investment in information technology equipment. Data processing expense increased \$51,000 in the third quarter of 2014 and \$32,000 in the first nine months of 2014 compared to the same periods in the prior year. In the third quarter of 2014, ChoiceOne incurred higher data communication expenses than in the first six months of 2014 and in the prior year. Professional fees increased \$65,000 in the third quarter of 2014 and \$106,000 in the first three quarters of 2014 compared to the same periods in 2013 as a result of higher legal and consulting fees. The \$61,000 decrease in loan and collection expense in the third quarter of 2014 and the decrease of \$172,000 year to date compared to the same periods in 2013 was due to a lower level of other real estate properties.

Income Tax Expense

Income tax expense was \$1,503,000 in the first nine months of 2014 compared to \$1,299,000 for the same period in 2013. The effective tax rate was 26.6% for 2014 and 25.7% for 2013. The increase in the effective tax rate in 2014 compared to 2013 was due to a lower percentage of nontaxable income from municipal securities.

FINANCIAL CONDITION

Securities

The securities available for sale portfolio increased \$1.7 million in the third quarter of 2014 and \$4.9 million in the first nine months of 2014. The increase in the securities portfolio was due to growth in deposits in the first nine months of 2014. Various securities totaling \$30.2 million were purchased in the first nine months of 2014 to provide earning assets and to replace maturities, principal repayments, and calls within the securities portfolio. Approximately \$6.9 million in various securities were called or matured since the end of 2013. Principal repayments on securities totaled \$1.7 million in the first nine months of 2014. Approximately \$17.4 million of securities were sold in the first three quarters of 2014 for a net gain of \$182,000.

Loans

The loan portfolio (excluding loans held for sale) increased \$8.7 million in the third quarter of 2014 and \$22.4 million in the first nine months of 2014. Commercial and industrial loans and consumer loans increased \$5.1 million and \$0.5 million, respectively, in the third quarter of 2014 and \$19.5 million and \$1.1 million, respectively, in the first nine months of 2014. Mortgage loans increased \$1.6 million and \$0.8 million in the third quarter and first nine months of 2014, respectively. Commercial real estate loans decreased less than \$0.1 million in the third quarter but increased \$4.2 million in the first three quarters of 2014. Agricultural loans increased \$1.7 million in the third quarter, but declined \$3.2 million in the first nine months of 2014.

Asset Quality

Information regarding impaired loans can be found in Note 3 to the interim consolidated financial statements included in this report. The total balance of loans classified as impaired was \$7.9 million at September 30, 2014, \$7.3 million as of June 30, 2014 and \$8.3 million as of December 31, 2013. The balance of commercial real estate loans classified as impaired has grown \$636,000, the balance of commercial and industrial loans classified as impaired has decreased \$620,000, and the balance of agricultural loans classified as impaired has decreased \$391,000 since the end of 2013.

As part of its review of the loan portfolio, management also monitors the various nonperforming loans. Nonperforming loans are comprised of: (1) loans accounted for on a nonaccrual basis; (2) loans, not included in nonaccrual loans, which are contractually past due 90 days or more as to interest or principal payments; and (3) loans, not included in nonaccrual or loans past due 90 days or more, which are considered troubled debt restructurings.

The balances of these nonperforming loans were as follows:

| (Dollars in thousands) | September 30, 2014 | December 31, 2013 |
|--|--------------------------|-------------------------|
| Loans accounted for on a nonaccrual basis | \$ 4,095 | \$ 3,123 |
| Accruing loans contractually past due 90 days or more as to principal or interest payments | 197 | 11 |
| Loans considered troubled debt restructurings | 3,543 | 4,523 |
| Total | \$ 7,835 | \$ 7,657 |

At September 30, 2014, nonaccrual loans included \$3.3 million in commercial real estate loans, \$604,000 in residential real estate loans, \$156,000 in commercial and industrial loans, and \$61,000 in agricultural loans. At December 31, 2013, nonaccrual loans included \$1.6 million in commercial real estate loans, \$691,000 in residential real estate loans, \$372,000 in commercial and industrial loans and \$452,000 in agricultural loans. The increase in nonaccrual loans was due to the deterioration of certain credits. Management believes the allowance allocated to its nonperforming loans was sufficient at September 30, 2014; however, management believes future credit deterioration is possible depending on conditions in the Michigan economy.

Deposits and Borrowings

Total deposits decreased \$5.2 million in the third quarter of 2014 and increased \$4.4 million since the end of 2013. Checking and savings deposits decreased \$3.9 million in the third quarter of 2014 but increased \$10.6 million in the first nine months of 2014. Local certificates of deposit decreased \$1.2 million in the third quarter and \$4.2 million in the first nine months of 2014. Nonlocal certificates of deposit were reduced \$2.0 million in the first nine months of 2014.

A decrease of \$6.4 million in repurchase agreements in the first nine months of 2014 was due to normal fluctuations in funds provided by bank customers. Certain securities are sold under agreements to repurchase them the following day. Management plans to continue this practice as a low-cost source of funding. Federal Home Loan Bank advances increased \$14.0 million in the first nine months of 2014 due to short-term advances taken and federal funds purchased from correspondent banks in the third quarter of 2014.

Shareholders' Equity

Total shareholders' equity increased \$3.5 million from December 31, 2013 to September 30, 2014. Growth in equity resulted from current year's net income, proceeds from the issuance of ChoiceOne stock and an increase in accumulated other comprehensive income offset by cash dividends paid and repurchases of shares. The \$819,000 increase in accumulated other comprehensive income since the end of 2013 was caused by an increase in net unrealized gains on available for sale securities. The change in unrealized gains resulted from decreases in mid- and short-term rates in 2014, which increased the market value of the Bank's securities.

Following is information regarding the Bank's compliance with regulatory capital requirements:

| (Dollars in thousands) | Leverage | Tier 1 | Total |
|---|----------|----------|----------------------------|
| | Capital | Capital | Risk - Based Capital |
| Capital balances at September 30, 2014 | \$47,752 | \$47,752 | \$52,163 |
| Required regulatory capital to be considered "well capitalized" | 25,834 | 22,493 | 37,488 |
| Capital in excess of "well capitalized" minimum | 21,918 | 25,259 | 14,675 |
| Capital ratios at September 30, 2014 | 9.24 % | 12.74 % | 13.91 % |
| Regulatory capital ratios - minimum requirement to be considered "well capitalized" | 5.00 % | 6.00 % | 10.00 % |

Management reviews the capital levels of ChoiceOne and the Bank on a regular basis. The Board of Directors (the "Board") and management believe that the capital levels as of September 30, 2014 are adequate for the foreseeable future. The Board's determination of appropriate cash dividends for future periods will be based on market conditions and ChoiceOne's requirements for cash and capital.

Liquidity

Net cash provided from operating activities was \$5.5 million for the nine months ended September 30, 2014 compared to \$7.9 million provided in the same period a year ago. Lower proceeds from loan sales were offset by lower loans originated for sale. A lower provision for loan losses in 2014, lower gains on sales of loans, and lower write-downs of other real estate owned ("OREO") properties also affected operating activities. Net cash used in investing activities was \$27.9 million for the first nine months of 2014 compared to \$2.6 million in the same period in 2013. The change was due to a higher level of net loan originations and net securities purchases. Net cash provided from financing activities was \$12.8 million in the nine months ended September 30, 2014, compared to \$10.6 million in cash used by financing activities in the same period in the prior year. An increase in deposits, net proceeds from the Federal Home Loan Bank advances, and federal funds purchased from correspondent banks in the first nine months of 2014 compared to the same period of 2013 was partially offset by a decrease in repurchase agreements.

Management believes that the current level of liquidity is sufficient to meet the Bank's normal operating needs. This belief is based upon the availability of deposits from both the local and national markets, maturities of securities, normal loan repayments, income retention, federal funds purchased from correspondent banks, and advances available from the Federal Home Loan Bank. The Bank also has a secured line of credit available from the Federal Reserve Bank.

Item 4. Controls and Procedures.

An evaluation was performed under the supervision and with the participation of the Registrant's management, including the Chief Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of the Registrant's disclosure controls and procedures. Based on and as of the time of that evaluation, the Registrant's management, including the Chief Executive Officer and Principal Financial Officer, concluded that the Registrant's disclosure controls and procedures were effective as of the end of the period covered by this report to ensure that material information required to be disclosed in the reports that ChoiceOne files or submits under the Securities Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified by the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports that ChoiceOne files or submits under the Exchange Act is accumulated and communicated to management, including ChoiceOne's principal executive and principal financial officers, as appropriate to allow for timely decisions regarding required disclosure. There was no change in the Registrant's internal control over financial reporting that occurred during the quarter ended September 30, 2014 that has materially affected, or that is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

There are no material pending legal proceedings to which the Registrant or the Bank is a party or to which any of their properties are subject, except for proceedings that arose in the ordinary course of business. In the belief of management, pending or current legal proceedings should not have a material effect on the consolidated financial condition of the Registrant.

Item 1A. Risk Factors.

Information concerning risk factors is contained in the discussion in Item 1A, "Risk Factors," in the Registrant's Annual Report on Form 10-K for the year ended December 31, 2013. As of the date of this report, ChoiceOne does not believe that there has been a material change in the nature or categories of ChoiceOne's risk factors, as compared to the information disclosed in the Registrant's Annual Report on Form 10-K for the year ended December 31, 2013.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On July 23, 2014 the Registrant issued 470 shares of common stock, without par value, to the directors of the Registrant pursuant to the Directors' Stock Purchase Plan for an aggregate cash price of \$9,000. The Registrant relied on the exemption contained in Section 4(a)(5) of the Securities Act of 1933 in connection with these sales.
