- ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 for the fiscal year ended December 31, 2012
OR
 TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 for the transition period from _____ to _____

Commission file number 0-27824
SPAR GROUP, INC.
(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation or organization)

33-0684451
(I.R.S. Employer Identification No.)

333 Westchester Avenue, Suite 204, White Plains,
New York
(Address of principal executive offices)

10604
(Zip Code)

Registrant's telephone number, including area code: (914) 332-4100

Securities registered pursuant to Section 12(b) of the Act: Common Stock, par value \$.01 per share

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. YES NO

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. YES NO

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding twelve months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Edgar Filing: SPAR GROUP INC - Form 10-K

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. (See definition of "large accelerated filer", "accelerated filer", and "smaller reporting company" in Rule 12b-2 of the Exchange Act.). (Check one):

Large Accelerated Filer

Accelerated Filer

Non-Accelerated Filer

Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act.)
YES NO

The aggregate market value of the Common Stock of the Registrant held by non-affiliates of the Registrant on June 30, 2012, based on the closing price of the Common Stock as reported by the Nasdaq Capital Market on such date, was approximately \$6,888,000.

The number of shares of the Registrant's Common Stock outstanding as of December 31, 2012, was 20,456,453 shares.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Registrant's definitive proxy statement, which will be filed with the Securities and Exchange Commission pursuant to Regulation 14A not later than 120 days after the end of our fiscal year, for our Annual Meeting of Stockholders, presently scheduled to be held on May 7, 2013, are incorporated by reference into Part III of this Form 10-K.

PART I

Statements contained in this Annual Report on Form 10-K (this "Annual Report") of SPAR Group, Inc. ("SGRP", and together with its subsidiaries, the "SPAR Group" or the "Company"), and in SGRP's definitive Proxy Statement respecting its Annual Meeting of Stockholders currently scheduled to be held on May 7, 2013 (as filed, the "2013 Proxy Statement", which SGRP plans to file with the SEC pursuant to Regulation 14 A in April of 2013, but not later than 120 days after the end of the Company's 2012 fiscal year), include "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act", and together with the Securities Act, the "Securities Laws"), including (without limitation) the statements contained in the discussions under the headings "Business", "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations". You can identify forward-looking statements in such information by the Company's use of terms such as "may", "will", "expect", "intend", "believe", "estimate", "anticipate", "continue" or similar words or variations or negatives of those words. You should carefully consider all such information and the other risks and cautions noted in this Annual Report and the Company's other filings under applicable Securities Laws (including this Annual Report and the 2013 Proxy Statement, each a "SEC Report") that could cause the Company's actual assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results, risks or condition to differ materially from those anticipated by the Company and described in the information in the Company's forward-looking statements, whether express or implied, as the Company's anticipations are based upon the Company's plans, intentions, expectations and estimates and (although the Company believe them to be reasonable) involve known and unknown risks, uncertainties and other factors that could cause them to fail to occur or be realized or to be materially and adversely different from those the Company anticipated.

Although the Company believes that its plans, intentions, expectations and estimates reflected or implied in such forward-looking statements are reasonable, the Company cannot assure you that such plans, intentions, expectations or estimates will be achieved in whole or in part, that the Company has identified all potential risks, or that the Company can successfully avoid or mitigate such risks in whole or in part. You should carefully review the risk factors described below (See Item 1A – Risk Factors) and any other cautionary statements contained or incorporated by reference in this Annual Report. All forward-looking and other statements attributable to the Company or persons acting on its behalf are expressly subject to and qualified by all such risk factors and other cautionary statements.

You should not place undue reliance on the Company's forward-looking statements because the matters they describe are subject to known and unknown risks, uncertainties and other unpredictable factors, many of which are beyond its control. The Company's forward-looking statements, risk factors and other cautionary statements (whether contained in this Annual Report, the 2013 Proxy Statement or any other applicable SEC Report) are based on the information currently available to the Company and speak only as of the date specifically referenced, or if no date is referenced, then as of December 31, 2012, in the case of this Annual Report or the 2013 Proxy Statement or the last day of the period covered by any other applicable SEC Report. New risks and uncertainties arise from time to time, and it is impossible for the Company to predict these matters or how they may arise or affect the Company. Over time, the Company's actual assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievements, results, risks or condition will likely differ from those expressed or implied by the Company's forward-looking statements, and such difference could be significant and materially adverse to the Company and the value of your investment in the Company's Common Stock.

The Company does not intend or promise, and the Company expressly disclaims any obligation, to publicly update or revise any forward-looking statements, risk factors or other cautionary statements (in whole or in part), whether as a result of new information, future events or recognition or otherwise, except as and to the extent required by applicable

law.

Item 1. Business

THE COMPANY'S BUSINESS GENERALLY

SPAR Group, Inc. ("SGRP"), and its subsidiaries (together with SGRP, the "SPAR Group" or the "Company"), is a diversified international merchandising and marketing services company and provides a broad array of services worldwide to help companies improve their sales, operating efficiency and profits at retail locations. The Company provides its merchandising and other marketing services to manufacturers, distributors and retailers worldwide, primarily in mass merchandisers, office supply, grocery, drug store, independent, convenience, toy and electronics stores. The Company also provides furniture and other product assembly services in stores, homes and offices. The Company has supplied these project and product services in the United States since certain of its predecessors were formed in 1979 and internationally since the Company acquired its first international subsidiary in Japan in May of 2001. The Company currently does business in 10 countries that encompass approximately 50% of the total world population through its operations in the United States, Canada, Japan, South Africa, India, Romania, China, Australia, Mexico and Turkey.

-3-

Merchandising services primarily consist of regularly scheduled, special project and other product services provided at store level, and the Company may be engaged by either the retailer or the manufacturer. Those services may include restocking and adding new products, removing spoiled or outdated products, resetting categories "on the shelf" in accordance with client or store schematics, confirming and replacing shelf tags, setting new sale or promotional product displays and advertising, replenishing kiosks, providing in-store event staffing and providing assembly services in stores, homes and offices. Other merchandising services include whole store or departmental product sets or resets, including new store openings, new product launches and in-store demonstrations, special seasonal or promotional merchandising, focused product support and product recalls. The Company continues to seek to expand its merchandising, assembly and marketing services business throughout the world.

An Overview of the Merchandising and Marketing Services Industry

According to industry estimates over two billion dollars are spent annually in the United States alone on retail merchandising and marketing services. The merchandising and marketing services industry includes manufacturers, retailers, food brokers, and professional service merchandising companies. The Company believes that merchandising and marketing services add value to retailers, manufacturers and other businesses and enhance sales by making a product more visible and more available to consumers. These services primarily involve placing orders, shelf maintenance, display placement, reconfiguring products on store shelves and replenishing product inventory.

Historically, retailers staffed their stores as needed to provide these services to ensure, that manufacturers' inventory levels, the advantageous display of new items on shelves, and the maintenance of shelf schematics and product placement were properly merchandised. However retailers, in an effort to improve their margins, have decreased their own store personnel and increased their reliance on manufacturers to perform such services. Initially, manufacturers attempted to satisfy the need for merchandising and marketing services in retail stores by utilizing their own sales representatives. Additionally, retailers also used their own employees to merchandise their stores to satisfy their own merchandising needs. However, both the manufacturers and the retailers discovered that using their own sales representatives and employees for this purpose was expensive and inefficient.

Most manufacturers and retailers have been, and SPAR Group believes they will continue, outsourcing their merchandising and marketing service needs to third parties capable of operating at a lower cost by (among other things) serving multiple manufacturers simultaneously. The Company also believes that it is well positioned, as a domestic and international merchandising and marketing services company, to more effectively provide these services to retailers, manufacturers and other businesses around the world.

Another significant trend impacting the merchandising and marketing services business is the tendency of consumers to make product purchase decisions once inside the store. Accordingly, merchandising and marketing services and in-store product promotions have proliferated and diversified. Retailers are continually re-merchandising and re-modeling entire stores in an effort to respond to new product developments and changes in consumer preferences. We estimate that these activities have increased in frequency over the last five years. Both retailers and manufacturers are seeking third parties to help them meet the increased demand for these labor-intensive services.

In addition, the consolidation of many retailers has created opportunities for third party merchandisers when an acquired retailer's stores are converted to the look and format of the acquiring retailer. In many cases, stores are completely remodeled and re-merchandised after a consolidation.

SPAR Group believes the current trend in business toward globalization fits well with its expansion model. As companies expand into foreign markets they will need assistance in merchandising or marketing their products. As evidenced in the United States, retailer and manufacturer sponsored merchandising and marketing programs are both expensive and inefficient. The Company also believes that the difficulties encountered by these programs are only

exacerbated by the logistics of operating in foreign markets. This environment has created an opportunity for the Company to exploit its Internet, hand-held, tablets and smart phone based technology and business model worldwide.

-4-

The Company's Domestic and International Geographic Divisions:

In order to cultivate and expand the Company's merchandising and marketing services businesses in both domestic and foreign markets and insure a consistent approach to those businesses worldwide, and even though the Company operates globally in the single business segment of merchandising and marketing services, the Company has divided its world focus into two geographic areas, the United States, which is the sales territory for its Domestic Merchandising Services Division, and international (i.e., all locations outside the United States), which are the sales territories for its International Merchandising Services Division. To that end, the Company also (1) provides and requires all of its locations to use its Internet based operating, scheduling, tracking and reporting systems (including language translations, ongoing client and financial reports and ongoing IT support), (2) provides and requires all of its locations to comply with the Company's financial reporting and disclosure controls and procedures, ethics code and other policies, (3) provides accounting and auditing support and tracks and reports certain financial and other information separately for those two divisions, and (4) has management teams in its corporate offices responsible for supporting and monitoring the management, sales, marketing and operations of each of the Company's international subsidiaries and maintaining consistency with the Company's other subsidiaries worldwide.

Each of the Company's divisions provides merchandising and other marketing services primarily on behalf of consumer product manufacturers and retailers at mass merchandisers, drug store chains, convenience and grocery stores in their respective territories. SPAR Group's clients include the makers and distributors of general merchandise, health and beauty care, consumer goods, home entertainment, and food products in their respective territories.

SPAR Group has provided merchandising and other marketing services in the United States since the formation of its predecessor in 1979 and outside the United States since it acquired its first international subsidiary in Japan in May of 2001. The Company currently conducts its business through its domestic and international divisions in 10 territories around the world (listed in the table below) that encompass approximately 50% of the total world population.

The Company's international business in each territory outside the United States is conducted through a foreign subsidiary incorporated in its primary territory. The primary territory establishment date (which may include predecessors), the percentage of the Company's equity ownership, and the principal office location for its US (domestic) subsidiaries and each of its foreign (international) subsidiaries is as follows:

Primary Territory	Date Established	SGRP Percentage Ownership	Principal Office Location
United States of America	1979	100%	White Plains, New York, United States of America ⁶
Japan	May 2001	100%	Tokyo, Japan
Canada	June 2003	100%	Toronto, Canada
South Africa	April 2004	51% ¹	Durban, South Africa
India	April 2004	51% ²	New Delhi, India
Australia	April 2006	51%	Melbourne, Australia
Romania	July 2009	51% ³	Bucharest, Romania
China	March 2010	51% ⁴	Shanghai, China
Mexico	August 2011	51%	Mexico City, Mexico
Turkey	August 2011	51% ⁵	Istanbul, Turkey

¹ In September 2012 the Company, through its subsidiary in South Africa (SGRP Meridian), entered into a joint venture agreement to expand its operations in South Africa. SGRP Meridian owns a 51% ownership interest in the

new company; CMR Meridian (Pty) Ltd. ("CMR-Meridian"). (See Acquisition Strategies and Strategic Acquisitions, below, Note 12 to the Consolidated Financial Statements – Geographic Data, and Note 13 to the Consolidated Financial Statements - Purchase of Interests in Subsidiaries, below).

2In June 2011, the Company sold 49% of its interest in its Indian subsidiary to KROGNOS Integrated Marketing Services Private Limited. In March 2013, the company purchased a 51% interest in a new subsidiary in India, Preceptor Marketing Services Private Limited, which began operations in March 2013 (See Acquisition Strategies and Strategic Acquisitions, below, Note 12 to the Consolidated Financial Statements – Geographic Data, Note 13 to the Consolidated Financial Statements - Purchase of Interests in Subsidiaries, and Note 17 to the Consolidated Financial Statements – Subsequent Events, below).

3Currently the Company owns two subsidiaries in Romania. One subsidiary is 100% owned and is inactive, and the second subsidiary, acquired in May 2012, is 51% owned. Also in May of 2012, the Company sold its 51% ownership in one of its other Romania subsidiaries, SPAR City S.R.L, to its original Local Investor (as defined below). (See Note 12 to the Consolidated Financial Statements – Geographic Data and Note 13 to the Consolidated Financial Statements - Purchase of Interests in Subsidiaries, below.)

4Currently the Company owns two subsidiaries in China. One subsidiary is 100% owned and is inactive, and the second subsidiary, acquired in March 2010 and operational in August 2010, is 51% owned. In July 2011, the Company, through its active subsidiary in China (SPAR Shanghai), entered into a joint venture agreement to expand its operations in China. SPAR Shanghai has a 51% ownership interest in the new company; SPAR DSI Human Resource Company. (See Note 12 to the Consolidated Financial Statements – Geographic Data and Note 13 to the Consolidated Financial Statements - Purchase of Interests in Subsidiaries, below.)

5In August 2011, the Company sold its 51% ownership in its original subsidiary in Turkey to its original Local Investor, and in November 2011 the Company started a new 51% owned subsidiary to compete in this important market. (See Note 12 to the Consolidated Financial Statements – Geographic Data and Note 13 to the Consolidated Financial Statements - Purchase of Interests in Subsidiaries, below.)

6In September 2012, the Company established a new subsidiary, National Merchandising Services, LLC, ("NMS") 51% owned by the Company, with its principal office in Georgia. (See Acquisition Strategies and Strategic Acquisitions, below, Note 10 to the Consolidated Financial Statements – Related Party Transactions and Note 13 to the Consolidated Financial Statements - Purchase of Interests in Subsidiaries, below).

Financial Information about the Company's Domestic and International Geographic Divisions

The Company operates in the same single business segment (e.g., merchandising and marketing services) in both its domestic and international divisions (as described above), and the Company tracks and reports certain financial information separately for its subsidiaries in each of those divisions using the same metrics. The primary measurement utilized by management is operating profit level, historically the key indicator of long-term growth and profitability, as the Company is focused on reinvesting the operating profits of each of its international subsidiaries back into local markets in an effort to improve its market share and continued expansion efforts. Certain financial information regarding each of the Company's two geographic divisions, which includes their respective net revenues and operating income for each of the years ended December 31, 2012, and December 31, 2011, and their respective long-lived assets as of December 31, 2012, and December 31, 2011, is provided in Note 12 to the Company's Consolidated Financial Statements – Geographic Data, below.

The Company's Business Strategies

As the marketing services industry continues to expand both in the United States and internationally, many large retailers and manufacturers are outsourcing their merchandising and marketing service needs to third-party providers. The Company believes that offering marketing services on a national and global basis will provide it with a competitive advantage. Moreover, the Company believes that successful use of and continuous improvements to a sophisticated technology infrastructure, including the Company's proprietary Internet-based software, is key to providing clients with a high level of client service while maintaining efficient, low cost operations. The Company's objective is to become an international retail merchandising and marketing service provider by pursuing its operating and growth strategy, as described below.

Increasing the Company's Sales Efforts:

The Company is seeking to increase revenues by increasing sales to its current clients, as well as establishing long-term relationships with new clients, many of which currently use other merchandising companies for various reasons. The Company believes its technology, field implementation and other competitive advantages will allow it to capture a larger share of this market over time. However, there can be no assurance that any increased sales will be achieved.

Improving the Company's Operating Efficiencies:

The Company will continue to seek greater operating efficiencies. The Company believes that its existing field force and technology infrastructure can support additional clients and revenue in both its Domestic Merchandising Services Division and International Merchandising Services Division.

Developing New Products:

The Company is seeking to increase revenues through the internal development and implementation of new products and services that add value to its clients' retail merchandising related activities, some of which have been identified and are currently being tested for feasibility and market acceptance. However, there can be no assurance that any new products of value will be developed or that any such new product can be successfully marketed.

Leveraging and Improving on the Company's Technological Strengths:

The Company believes that providing merchandising and marketing services in a timely, accurate and efficient manner, as well as delivering timely, accurate and useful reports to its clients, are key components that are and will

continue to be critical to the Company's success. The Company has developed proprietary Internet-based technological systems (which include its logistical, communication, scheduling, tracking, reporting and accounting programs) that improve the productivity of its merchandising specialists and assembly technicians, and provide timely data to its clients. The Company's merchandising specialists and assembly technicians use hand-held, smart phones, tablets, laptop, personal computers and Interactive Voice Response ("IVR") technology to report the status of each store or client product they service. Merchandising specialists and technicians report on a variety of issues such as store conditions, status of client products (e.g. out of stocks, inventory, display placement) or they may scan and process new orders for certain products.

The Company has developed a proprietary automated labor tracking system for its merchandising specialists and assembly technicians to communicate work assignment completion information via the Internet or other telecommunication infrastructure by using, among other things, hand-helds, smart phones, laptop and personal computers, cellular telephones, landlines or IVRs. This tracking system enables the Company to report hours and other completion information for each work assignment on a daily basis and provides the Company with daily, detailed tracking of work completion. This information is analyzed and displayed in a variety of reports that can be accessed by both the Company and its clients via a secure website. These reports can depict the status of merchandising projects in real time. This tracking technology also allows the Company to schedule its merchandising specialists and technicians more efficiently, quickly quantify the benefits of its services to clients, rapidly respond to clients' needs and rapidly implement programs.

The Company intends to continue to utilize computer (including hand-held computers), Internet, smart phones, tablets and other technologies to enhance its efficiency and ability to provide real-time data to its clients, as well as, maximize the speed of communication, and logistical deployment of its merchandising specialists and assembly technicians. Industry sources indicate that clients are increasingly relying on merchandising and marketing service providers to supply rapid, value-added information regarding the results of merchandising and marketing expenditures on sales and profits. The Company (together with certain of its affiliates) has developed and owns proprietary Internet-based, hand-held, smart phone and tablet software technology that allows it to utilize the Internet to communicate with its field management, schedule its store-specific field operations more efficiently, receive information and incorporate the data immediately, quantify the benefits of its services to clients faster, respond to clients' needs quickly and implement client programs rapidly. The Company has successfully modified and is currently utilizing certain of its software applications in the operation of its international subsidiaries.

The Company believes that it can continue to improve, modify and adapt its technology to support merchandising and other marketing services for additional clients and projects in the United States and in foreign markets. The Company also believes that its proprietary Internet-based, wireless and other software technology gives it a competitive advantage in the marketplace. The Company's technology systems are developed, operated, managed, maintained and controlled from the Company's information and technology control center in Auburn Hills, Michigan, U.S.A.

Acquisition Strategies and Strategic Acquisitions:

The Company is seeking to acquire businesses or enter into joint ventures or other arrangements with companies that offer similar merchandising or marketing services both in the United States and worldwide. The Company believes that increasing its industry expertise, further developing and refining its technology systems, adding product components, and increasing its geographic breadth and local market depth will allow it to service its clients more efficiently and cost effectively. Through such acquisitions strategies, the Company may realize additional operating and revenue synergies and may leverage existing relationships with manufacturers, retailers and other businesses to capitalize on cross-selling opportunities. However, there can be no assurance that any of the acquisitions strategies will occur or whether, if completed, the integration of the acquired businesses will be successful or the anticipated efficiencies and cross-selling opportunities will occur.

One key to the Company's domestic and international expansion strategy is its emphasis on developing, maintaining, improving, deploying and marketing its proprietary Internet-based technological systems (which include its logistical, communication, scheduling, tracking, reporting and accounting programs) that run on and are developed, managed, maintained and controlled from the Company's information and technology control center in Auburn Hills, Michigan, U.S.A. (the Company's "Global Technology Systems"). The Company's Global Technology Systems enhance local operations, are an important marketing distinction (such as real time reporting), and provide the Company with a technological means to exercise its supervision and control over its subsidiaries, both domestic and international. The Company provides access to its Global Technology Systems real time for its worldwide operations through that

control center on a real time basis 24/7/365. In addition, this strategy is strengthened internationally by the Company's internally developed translation software which allows its current and future programs included in its Global Technology Systems to be available in any language for any market in which it currently operates or desires to enter in the future with no limitation. See Leveraging and Improving on the Company's Technological Strengths, above.

-7-

Another key to the Company's international and (more recently) domestic expansion is its strategy of seeking a minority (i.e., non-controlling) investor for the Company's new consolidated subsidiary in a location that is an experienced person or company in the local area who is not otherwise affiliated with the Company (each a "Local Investor"). The Company exercises supervision and control over each consolidated subsidiary through its Global Technology Systems, which are generally phased in over time. The Company's supervision and control is further strengthened by its company-wide executive management, administrative support, accounting oversight, procedures and controls (financial and reporting) and codes and policies that apply to each such subsidiary (the Company's "Global Administration", and together with its Global Technology Systems, the Company's "Global Contributions"). The Company also seeks to own a majority (at least 51%) of such a subsidiary's equity while the Local Investor purchases a minority equity interest in it (49% or less). In addition to that equity, a Local Investor provides credit support, certain services and the useful local attention, perspective and relationships of a substantial (although non-controlling) equity owner with a strong financial stake in such subsidiary's success (the "Local Contributions"). The Local Investor also often contributes an existing customer base to the subsidiary in which it invests. As of the date of this Annual Report, NMS in the U.S.A. (see below) and each of the Company's international operating subsidiaries (other than those in Canada and Japan) has a Local Investor. See Item 1A - Risks Associated with International and Domestic Joint Venture Subsidiaries, Risks of Having Material Local Investors in International and Domestic Joint Venture Subsidiaries, Risks Associated with Foreign Currency and Risks Associated with International Business, below.

The Company also has expanded its acquisition strategy to on occasion purchase a local international consolidated subsidiary through another local international consolidated subsidiary in the same country, which most recently occurred in September 2012 as the Company expanded its merchandising service business in South Africa through its acquisition of a majority of the equity interests in CMR Meridian (Pty) Ltd. (see below).

In July 2011, the Company's subsidiary in China, SPAR (Shanghai) Marketing Management Company Ltd ("SPAR Shanghai") entered into an agreement with Beijing DSI Management Consulting Company Ltd. ("DSI"), creating a new consolidated subsidiary for the Company called SPAR DSI Human Resource Company ("SPAR DSI") in order to expand the Company's operations throughout the People's Republic of China. SPAR Shanghai purchased a majority (51%) of the equity interests in SPAR DSI and the Company provided and provides its usual Global Contributions, while DSI as the Local Investor purchased the remaining minority (49%) non-controlling interest in SPAR DSI and provided and provides the usual Local Contributions. The new company started operations in November 2011.

In August 2011, the Company expanded its operations in North America by entering into an agreement with various companies and persons operating as Grupo TODOPROMO ("Grupo Todopromo") to create a new consolidated subsidiary of the Company in Mexico called SPAR TODOPROMO, SAPI, de CV. ("SPAR Todopromo"), which began operations in September 2011. The Company purchased a majority (51%) of the equity interests in SPAR Todopromo and provided and provides its usual Global Contributions, while Grupo Todopromo as the Local Investor purchased the remaining minority (49%) non-controlling interest in SPAR Todopromo and provided and provides the usual Local Contributions.

In August 2011, the Company entered into an agreement with two companies in Turkey, NDS TANITIM DANIŞMANLIK HİZMETLERİ and GIDA TEKSTİL TURİZM PAZARLAMA TİCARET LİMİTED ŞİRKETİ (together, the "Turkish Investors"), to reestablish operations in this market. The agreement created a new consolidated subsidiary for the Company called SPAR NDS ("SPAR NDS"). The new subsidiary started operations in November 2011. The Company purchased a majority (51%) of the equity interests in SPAR NDS and provided and provides its usual Global Contributions, while the Turkish Investors as the Local Investor together purchased the remaining minority (49%) non-controlling interest in SPAR NDS and provided and provides the usual Local Contributions.

In May 2012, the Company finalized the purchase of 51% ownership in Business Ideas Provider GRUP SRL ("BIP"), a Romanian limited liability company in Bucharest, Romania, which became a consolidated subsidiary of the Company. The Company purchased a majority (51%) of the equity interests in BIP and provided and provides its usual Global Contributions, while Business Ideas Provider SRL as the Local Investor owes the remaining minority (49%) non-controlling interest in BIP and provided and provides the usual Local Contributions.

In September 2012, the Company made a domestic acquisition that also used its international strategy of seeking a minority (i.e., non-controlling) non-affiliated Local Investor for the Company's new consolidated subsidiary in Georgia, U.S.A. As with most of its international counterparts, the Company acquired a 51% interest in National Merchandising Services, LLC, a newly formed Nevada limited liability company ("NMS"), and provided and provides its usual Global Contributions, and since then NMS has been a part of the Company's consolidated financial reports. NMS provides merchandising services in the U.S.A. to multiple Fortune 500 companies previously supplied by its Local Investor. The Local Investor in this case is National Merchandising of America, Inc., a Georgia corporation ("NMA"), which owns a 49% interest in NMS and will provide field merchandising services to NMS pursuant to a Field Services Agreement with NMS. In addition, NMA contributed substantially all of its customers to NMS and provided and provides the usual Local Contributions.

In September 2012, the Company's existing local consolidated subsidiary, SGRP Meridian (Pty) Ltd. ("SGRP Meridian"), acquired a majority (51%) of the equity interests in CMR Meridian (Pty) Ltd. ("CMR-Meridian"), while the Company provided and provides its usual Global Contributions. Combined Manufacturers National (Pty) Ltd ("CMR") acquired the remaining minority (49%) non-controlling interest in CMR-Meridian as its Local Investor, contributed substantially all of its customers to CMR-Meridian and provided the usual Local Contributions. SGRP Meridian and CMR-Meridian are both are part of the Company's consolidated financial reports. CMR-Meridian initiated operations on October 1, 2012.

In March of 2013 (and subsequent to the end of the Company's 2012 fiscal year), the Company purchased a majority (51%) of the equity interests in Preceptor Marketing Services Private Limited ("Preceptor"), a recently formed Indian corporation, from Krognos Integrated Marketing Services Private Limited ("Krognos"), and Preceptor became a new consolidated subsidiary of the Company. The Company also provided and provides the usual Global Contributions to Preceptor, while Krognos as the Local Investor retained the remaining minority (49%) non-controlling interest in Preceptor and provided and provides the usual Local Contributions. Krognos also is the Local Investor in the Company's existing subsidiary in India, SPAR Krognos Marketing Private Limited. Preceptor will enable the Company to service clients not serviced by its existing Indian subsidiary.

In March of 2013 (and subsequent to the end of the Company's 2012 fiscal year), the Company also purchased general merchandising service and certain in-store audit service businesses from Market Force Information, Inc. ("MFI"), a leading customer intelligence solution provider. The acquired in-store audit services include the price, point of sale, out of stock, intercept and planogram audits managed by MFI's New York office. With this acquisition, the Company has entered the growing in-store audit service business and expanded its existing general merchandising service and client base domestically.

For each of the above, see generally Item 1 - The Company's Domestic and International Geographic Divisions, above, Item 1A - Dependence Upon and Cost of Services Provided by Affiliates, Potential Conflicts in Services Provided by Affiliates, Risks Associated with International and Domestic Joint Venture Subsidiaries, Risks of Having Material Local Investors in International and Domestic Joint Venture Subsidiaries, Risks Associated with Foreign Currency and Risks Associated with International Business, below, Item 13 – Certain Relationships and Related Transactions, and Director Independence, below, and Note 10 to the Consolidated Financial Statements – Related Party Transactions, below, and Note 12 to the Consolidated Financial Statements – Geographic Data, below.

Descriptions Of The Company's Services

The Company currently provides a broad array of merchandising and marketing services to some of the world's leading companies, both domestically and internationally. The Company believes its full-line capabilities provide fully integrated solutions that distinguish the Company from its competitors. These capabilities include the ability to develop plans at one centralized location, effect chain wide execution, implement rapid, coordinated responses to its

clients' needs and report on a real time Internet enhanced basis throughout the world. The Company also believes its international presence, industry-leading technology, centralized decision-making ability, local follow-through, ability to perform large-scale initiatives on short notice, and strong retailer relationships provide the Company with a significant advantage over local, regional or other competitors.

The Company's operations are currently divided into two divisions: the Domestic Merchandising Services Division and the International Merchandising Services Division. The Company's domestic division provides merchandising and marketing services, furniture and other product assembly services, technology services and marketing research to manufacturers, distributors and retailers in the United States. Those services are primarily performed in mass merchandisers, office supply, grocery, drug store, independent, convenience and electronics stores. The Company's international division, established in May 2001, currently provides similar merchandising, marketing services and in-store event staffing through subsidiaries in Japan, Canada, South Africa, India, Romania, China, Australia, Mexico and Turkey. Today the Company operates in 10 countries that encompass approximately 50% of the total world population.

The Company currently provides five principal types of merchandising and marketing services: syndicated services, dedicated services, project services, assembly services and in-store event staffing services.

Syndicated Services:

Syndicated services consist of regularly scheduled, routed merchandising and marketing services provided at the retail store level for various manufacturers and distributors. These services are performed for multiple manufacturers and distributors, including, in some cases, manufacturers and distributors whose products are in the same product category. Syndicated services may include activities such as:

- Reordering and replenishment of products
- Ensuring that the Company's clients' products authorized for distribution are in stock and on the shelf or sales floor
 - Adding new products that are approved for distribution but not yet present on the shelf or sales floor
 - Designing and implementing store planogram schematics
 - Setting product category shelves in accordance with approved store schematics
 - Ensuring that product shelf tags are in place
 - Checking for overall salability of the clients' products
 - Placing new product and promotional items in prominent positions
 - Kiosk replenishment and maintenance

Dedicated Services:

Dedicated services consist of merchandising and marketing services, generally as described above, which are performed for a specific retailer or manufacturer by a dedicated organization, including a management team working exclusively for that retailer or manufacturer. These services include many of the above activities detailed in syndicated services, as well as, new store set-ups, store remodels and fixture installations. These services are primarily based on agreed-upon rates and fixed management fees.

Project Services:

Project services consist primarily of specific in-store services initiated by retailers and manufacturers, such as new store openings, new product launches, special seasonal or promotional merchandising, focused product support, product recalls, in-store product demonstrations and in-store product sampling. The Company also performs other project services, such as kiosk product replenishment, inventory control, new store sets and existing store resets, re-merchandising, remodels and category implementations, under annual or stand-alone project contracts or agreements.

Assembly Services:

The Company's assembly services are initiated by retailers, manufacturers or consumers, and upon request the Company assembles furniture, grills, fitness equipment and many other products in stores, homes and offices. The Company performs ongoing routed coverage at retail locations to ensure that furniture and other product lines are well displayed and maintained, and building any new items or replacement items, as required. In addition, the Company provides in-home and in-office assembly to customers who purchase their product from retailers, whether in store, on line or through catalog sales.

In-Store Event Staffing Services:

The Company provides in-store product samplings and in-store product demonstrations to national chains in target markets worldwide. The Company has also developed additional product offerings in an effort to expand this aspect of its business.

-10-

Other Marketing Services:

Other marketing services performed by the Company include:

Test Market Research - Testing promotion alternatives, new products and advertising campaigns, as well as packaging, pricing, and location changes, at the store level.

Mystery Shopping - Calling anonymously on retail outlets (e.g. stores, restaurants, banks) to check on distribution or display of a brand and to evaluate products, service of personnel, conditions of store, etc.

Data Collection - Gathering sales and other information systematically for analysis and interpretation.

The Company's Sales and Marketing

The Company offers global merchandising solutions to clients that have worldwide distribution. This effort is spearheaded out of the Company's headquarters in the United States, and the Company continues to develop local markets through its domestic and international subsidiaries throughout the world.

The Company's marketing and sales efforts within its Domestic Merchandising Services Division are structured to develop new national, regional and local business within the United States, including new sales and customers through the Company's acquisitions of existing businesses. The Company's domestic corporate business development team directs its efforts toward the senior management of prospective and existing clients. Marketing and sales targets and strategies are developed at the Company's headquarters and communicated to the Company's domestic sales force for execution. The Company's sales force is located nationwide and works from both the Company's offices and their home offices. In addition, the Company's domestic corporate account executives play an important role in the Company's new business development efforts within its existing manufacturer, distributor and retailer client base.

The Company's marketing and sales efforts within its International Merchandising Services Division are structured to develop new national, regional and local businesses in both new and existing international territories by acquiring existing businesses (or establishing new joint ventures) and within the Company's existing international territories through targeted sales efforts. The Company has an international acquisition team whose primary focus is to seek out and develop acquisitions throughout the world and consists of personnel located in the United States and Greece and other support from the Company's information technology, field operation, client services and finance specialists. Marketing and sales targets and strategies are developed within an international subsidiary, in consultation with the Company's U.S. headquarters, with assistance from the applicable Local Investor, and are communicated to the Company's applicable international sales force for execution. The Company's international sales force for a particular territory is located throughout that territory and work from the Company's office in that territory and their home offices. In addition, the Company's international corporate account executives play an important role in the Company's new business development efforts within the Company's existing manufacturer, distributor and retailer client base within their respective territories.

As part of the retailer consolidation, retailers are centralizing most administrative functions, including operations, procurement and category management. In response to this centralization and the growing importance of large retailers, many manufacturers have reorganized their selling organizations around a retailer team concept that focuses on a particular retailer. The Company has responded to this emerging trend and currently has on-site personnel in place at select retailers.

The Company's business development process includes a due diligence period to determine the objectives of the prospective or existing client, the work required to satisfy those objectives and the market value of such work to be

performed. The Company employs a formal cost development and proposal process that determines the cost of each element of work required to achieve such client's objectives. The Company uses these costs, together with an analysis of market rates, to develop a formal quotation that is then reviewed at various levels within the organization. The pricing of this internal proposal must meet the Company's objectives for profitability, which are established as part of the business planning process. After the Company approves this quotation, a detailed proposal is presented to the Company's prospective or existing client. However, the Company has agreed, and in the future may agree, from time to time to perform services for a client that become or turn out to be unprofitable even though the Company expected to make a profit when agreeing to perform them. See "Risks of Unprofitable Services" and "Variability of Operating Results and Uncertainty in Client Revenue" in Part 1A – Risk Factors, below.

The Company's Customer Base

The Company currently represents numerous manufacturers and/or retail clients in a wide range of retail chains and stores worldwide, and its customers (which it refers to as clients) include:

- Mass Merchandisers
 - Drug
 - Grocery
 - Office Supply
 - Dollar Stores
 - Toy or Specialty
- Other retail outlets (such as discount and electronic stores, in-home and in-office, etc.)

One customer accounted for 8% and 10% of the Company's net revenue for the years ended December 31, 2012, and 2011, resulting from merchandising and assembly services performed for a major office supply chain and for manufacturers within this chain. These customers accounted for approximately 13% and 5% of the Company's accounts receivable at December 31, 2012, and 2011, respectively.

In addition, approximately 7% and 10% of the Company's net revenues for the years ended December 31, 2012, and 2011, respectively, resulted from merchandising services performed for a large pharmaceutical distributor. This customer accounted for approximately 3% and 7% of the Company's accounts receivable at December 31, 2012, and 2011, respectively.

The Company's Competition

The marketing services industry is highly competitive. The Company's competition in the Domestic Merchandising Services Division and International Merchandising Services Divisions arises from a number of large enterprises, many of which are national or international in scope. The Company also competes with a large number of relatively small enterprises with specific client, channel or geographic coverage, as well as with the internal marketing and merchandising operations of its existing and prospective clients. The Company believes that the principal competitive factors within its industry include development and deployment of technology, breadth and quality of client services, cost, and the ability to execute specific client priorities rapidly and consistently over a wide geographic area. The Company believes that its current structure favorably addresses these factors and establishes it as a leader in the mass merchandiser, office supply and drug store channels of trade. The Company also believes it has the ability to execute major national and international in-store initiatives and develop and administer national and international retailer programs. Finally, the Company believes that, through the use and continuing improvement of its proprietary Internet software, other technological efficiencies and various cost controls, the Company will remain competitive in its pricing and services.

The Company's Trademarks

The Company has numerous registered trademarks. Although the Company believes its trademarks may have value, the Company believes its services are sold primarily based on breadth and quality of service, cost, and the ability to execute specific client priorities rapidly, efficiently and consistently over a wide geographic area. (See An Overview of the Merchandising and Marketing Services Industry and Competition, above).

The Company's Labor Force

Worldwide the Company utilized a labor force of approximately 18,300 people in 2012. Today the Company operates in 10 countries that encompass approximately 50% of the total world population.

During 2012, the Company's Domestic Merchandising Services Division utilized a labor force of approximately 10,700 people. As of December 31, 2012 there were 150 full-time employees and 130 part-time employees engaged in domestic operations. The Company's Domestic Merchandising Services Division utilized the services of its affiliate, SPAR Management Services, Inc. ("SMSI"), to schedule and deploy the field force of merchandising specialists and assembly technicians, which consists of field merchandising specialist furnished by SPAR Marketing Services, Inc. ("SMS"), and National Merchandising of America ("NMA"), as well as the Company's domestic field employees. (See Item 13 – Certain Relationships and Related Transactions and Director Independence, below, and Note 10 to the Consolidated Financial Statements – Related Party Transactions, below.) SMS, SMSI and NMA furnished approximately 10,400 merchandising specialists and assembly technicians (all of whom are independent contractors of SMS and NMA) and 54 field managers (all of whom were full-time employees of SMSI), respectively. The Company, SMS, SMSI and NMA consider their relations with their respective employees and field merchandising specialists to be good.

As of December 31, 2012, the Company's International Merchandising Services Division's labor force consisted of approximately 7,600 people. There were 490 full-time and 40 part-time employees engaged in international operations. The International Merchandising Services Division's field force consisted of approximately 7,100 merchandising specialists.

Item 1A. Risk Factors

There are various risks associated with investing in any common stock issued by SGRP ("SGRP Common Stock") that are more fully described below. You should carefully consider each of those risk factors before you purchase or trade any SGRP Common Stock. If any of the described risks develops into actual events, or any other risks arise and develop into actual events, the Company's present or future assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results, risks or condition could be materially and adversely affected (in whole or in part), the market price of the SGRP Common Stock could decline, and you could lose all or part of your investment in your SGRP Common Stock.

The Company has described the risk factors that it currently consider material based on its best estimates respecting those risk factors, the Company's current and future assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition, the likelihood of those risks developing into actual events and the likely impact of those events on them, which all involve and include "forward-looking statements" within the meaning of applicable Securities Law (as discussed above). The Company also may be facing additional risks individually, and the Company's industry or the economy may be facing additional risks, whether domestically or internationally, that are currently unknown to the Company, that are more material or otherwise different than the Company currently believes, or that the Company may have incorrectly analyzed (whether as to the nature or likelihood of such risks or their potential effect). There also may be risks that you (as a potential investor or trader) would recognize or consider more likely or material than the Company does.

Any of the risk factors or other cautionary statements described in this Annual Report or any other SEC Report, or any other event or circumstance bearing risk or harm, could at any time arise, become applicable, change or worsen (as the case may be) and materially and adversely affect the Company or any of its assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results, risks or condition.

Accordingly, the Company's risk factors and forward-looking statements each involve known and unknown risks, uncertainties, potential errors and misjudgments and other factors that could materially and adversely affect, and could contribute to the Company's failure to achieve or realize, in whole or in part, the Company's estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results, risks or condition, whether as expressed or implied by such forward-looking statements.

The Company does not intend or promise, and the Company expressly disclaims any obligation, to publicly update or revise any forward-looking statements, any of those risk factors or any other cautionary statements (in whole or in part), whether as a result of new information, future events or recognition or otherwise, except as and to the extent required by applicable law.

Dependence on Largest Customer and Large Retail Chains

As discussed above in Customer Base, the Company has a significant amount of business with certain customers. The loss of any of these customers, the loss of the ability to provide merchandising and marketing services in those chains, or the failure to attract new large clients could significantly decrease the Company's revenues and such decreased revenues could have a material adverse effect on the Company or its estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition.

Dependence on Trend Towards Outsourcing

The business and growth of the Company depends in large part on the continued trend toward outsourcing of merchandising and marketing services, which the Company believes has resulted from the consolidation of retailers and manufacturers, as well as the desire to seek outsourcing specialists and reduce fixed operation expenses. There can be no assurance that this trend in outsourcing will continue, as companies may elect to perform such services internally. A significant change in the direction of this trend generally, or a trend in the retail, manufacturing or business services industry not to use, or to reduce the use of, outsourced marketing services such as those provided by the Company, could significantly decrease the Company's revenues and such decreased revenues could have a material adverse effect on the Company or its estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition.

Failure to Successfully Compete

The merchandising and marketing services industry is highly competitive and the Company has competitors that are larger (or part of larger holding companies) and may be better financed. In addition, the Company competes with: (i) a large number of relatively small enterprises with specific client, channel or geographic coverage; (ii) the internal merchandising and marketing operations of its existing and prospective clients; (iii) independent brokers; and (iv) smaller regional providers. Remaining competitive in the highly competitive merchandising and marketing services industry requires that the Company monitor and respond to trends in all industry sectors. There can be no assurance that the Company will be able to anticipate and respond successfully to such trends in a timely manner. If the Company is unable to successfully compete, it could have a material adverse effect on the Company or its estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition.

If certain competitors were to combine into integrated merchandising and marketing services companies, or additional merchandising and marketing service companies were to enter into this market, or existing participants in this industry were to become more competitive, it could have a material adverse effect on the Company or its estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition.

Risks of Losses and Financial Covenant Violations

In the past, the Company occasionally suffered operating losses. As a result of those losses and related effects, the Company had repeated technical violations of certain covenants in the Company's prior domestic credit facility, which its lender periodically waived for fees rather than permanently resetting them to realistically achievable levels. However, the Company changed its domestic lenders in July of 2010 and entered into a new credit facility with financial covenants that the Company believe are more realistic and thus less likely to require waivers. The Company was in compliance of all its new domestic lender's bank covenants in 2012 and 2011. See Item 7 – Management's Discussion and Analysis of Financial Condition and Results of Operations, Liquidity and Capital Resources, below.

There can be no assurances that in the future the Company will be profitable, will not violate covenants of its current or future Credit Facilities, its lenders would waive any violations of such covenants, the Company will continue to have adequate lines of credit, or will continue to have sufficient availability under its lines of credit. Accordingly, continued losses or marginal profitability by the Company, as well as any failure to maintain sufficient availability or lines of credit from the Company's lenders, could have a material adverse effect on the Company or its estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition.

Variability of Operating Results and Uncertainty in Client Revenue

The Company has experienced and, in the future, may experience fluctuations in quarterly operating results. Factors that may cause the Company's quarterly operating results to vary from time to time and may result in reduced revenue and profits include: (i) the number of active client projects; (ii) seasonality of client products; (iii) client delays, changes and cancellations in projects; (iv) the timing requirements of client projects; (v) the completion of major client projects; (vi) the timing of new engagements; (vii) the timing of personnel cost increases; and (viii) the loss of major clients. In addition, the Company is subject to revenue or profit uncertainties resulting from factors such as unprofitable client work (see below) and the failure of clients to pay. The Company attempts to mitigate these risks by dealing primarily with large credit-worthy clients, by entering into written or oral agreements with its clients and by using project budgeting systems. These revenue fluctuations could materially and adversely affect the Company or its estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities,

liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition.

Risks of Unprofitable Services

The Company has agreed, and in the future may agree, from time to time to perform services for its client that become or turn out to be unprofitable even though the Company expected to make a profit when agreeing to perform them. The Company's services for a particular client or project may be or become unprofitable due to mistakes or changes in circumstance, including (without limitation) any (i) mistake or omission made in investigating, evaluating or understanding any relevant circumstance, requirement or request of the Company's client or any aspect of the prospective services or their inherent problems, (ii) mistake made in pricing, planning or performing the prospective service, (iii) service non-performance, or free re-performance, or (iv) change in cost, personnel, regulation or other performance circumstance. Unprofitable services could reduce the Company's net revenues and, if material in gross amount or degree of unprofitability, could materially and adversely affect the Company or its actual, expected, estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition.

Failure to Develop New Products

A key element of the Company's growth strategy is the development and sale of new products. While several new products are under current development, there can be no assurance that the Company will be able to successfully develop and market new products. The Company's inability or failure to devise useful merchandising or marketing products or to complete the development or implementation of a particular product for use on a large scale, or the failure of such products to achieve market acceptance, could adversely affect the Company's ability to achieve a significant part of its growth strategy and the absence of such growth could have a material adverse effect on the Company or its estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition and could limit the Company's ability to significantly increase its revenues and profits.

Inability to Identify, Acquire and Successfully Integrate Acquisitions

Another key component of the Company's growth strategy is the acquisition of businesses across the United States and worldwide that offer similar merchandising or marketing services. The successful implementation of this strategy depends upon the Company's ability to identify suitable acquisition candidates, acquire such businesses on acceptable terms, finance the acquisition and integrate their operations successfully with those of the Company. There can be no assurance that such candidates will be available or, if such candidates are available, that the price will be attractive or that the Company will be able to identify, acquire, finance or integrate such businesses successfully. In addition, in pursuing such acquisition opportunities, the Company may compete with other entities with similar growth strategies; these competitors may be larger and have greater financial and other resources than the Company. Competition for these acquisition targets could also result in increased prices of acquisition targets and/or a diminished pool of companies available for acquisition.

The successful integration of these acquisitions also may involve a number of additional risks, including: (i) the inability to retain the clients of the acquired business; (ii) the lingering effects of poor client relations or service performance by the acquired business, which also may taint the Company's existing businesses; (iii) the inability to retain the desirable management, key personnel and other employees of the acquired business; (iv) the inability to fully realize the desired efficiencies and economies of scale; (v) the inability to establish, implement or police the Company's existing standards, controls, procedures and policies on the acquired business; (vi) diversion of management attention; and (vii) exposure to client, employee and other legal claims for activities of the acquired business prior to acquisition. In addition, any acquired business could perform significantly worse than expected.

The inability to identify, acquire, finance and successfully integrate such merchandising or marketing services business could have a material adverse effect on the Company or its estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition.

Uncertainty of Financing for, and Dilution Resulting from, Future Acquisitions

The timing, size and success of acquisition efforts and any associated capital commitments cannot be readily predicted. Future acquisitions may be financed by issuing shares of the SGRP Common Stock, cash, or a combination of Common Stock and cash. If the SGRP Common Stock does not maintain a sufficient market value, or if potential acquisition candidates are otherwise unwilling to accept the SGRP Common Stock as part of the consideration for the sale of their businesses, the Company may be required to obtain additional capital through debt or equity financings. To the extent the SGRP Common Stock is used for all or a portion of the consideration to be paid for future acquisitions, dilution may be experienced by existing stockholders. In addition, there can be no assurance that the Company will be able to obtain the additional financing it may need for its acquisitions on terms that the Company

deems acceptable. Failure to obtain such capital would materially and adversely affect the Company or its estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition.

Reliance on the Internet and Third Party Vendors

The Company relies on the Internet for the scheduling, tracking, coordination and reporting of its merchandising and marketing services. The Internet has experienced, and is expected to continue to experience, significant growth in the numbers of users and amount of traffic as well as increased attacks by hackers and other saboteurs. To the extent that the Internet continues to experience increased numbers of users, frequency of use or increased bandwidth requirements of users, there can be no assurance that the Internet infrastructure will continue to be able to support the demands placed on the Internet by this continued growth or that the performance or reliability of the Internet will not be adversely affected. Furthermore, the Internet has experienced a variety of outages and other delays as a result of accidental and intentional damage to portions of its infrastructure, and could face such outages and delays in the future of similar or greater effect. The Company relies on third-party vendors to provide its Internet access and other services used in its business, and the Company has no control over such third-party providers. Any protracted disruption or material slowdown in Internet or other services could increase the Company's costs of operation and reduce efficiency and performance, which could have a material adverse effect on the Company or its estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition.

Economic and Retail Uncertainty

The markets in which the Company operates are cyclical and subject to the effects of economic downturns. The current political, social and economic conditions, including the impact of terrorism on consumer and business behavior, make it difficult for the Company, its vendors and its clients to accurately forecast and plan future business activities. Substantially all of the Company's key clients are either retailers or those seeking to do product merchandising at retailers. Should the retail industry experience a significant economic downturn, the resultant reduction in product sales could significantly decrease the Company's revenues. The Company also has risks associated with its clients changing their business plans and/or reducing their marketing budgets in response to economic conditions, which could also significantly decrease the Company's revenues. Such revenue decreases could have a material adverse effect on the Company or its estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition.

Risks Associated with Furniture and Other Related Assembly Services

The Company's technicians assemble furniture and other products in the homes and offices of customers. Working at a customer's home or office could give rise to claims against the Company for errors, omissions or misconduct by those technicians, including (without limitation) harassment, personal injury, death, damage to or theft of customer property, or other civil or criminal misconduct by such technicians. Claims also could be made against the Company as a result of its involvement in such assembly services due to (among other things) product assembly errors and omissions, product defects, deficiencies, breakdowns or collapse, products that are not merchantable or fit for their particular purpose, products that do not conform to published specifications or satisfy customer expectations, or products that cause personal injury, death or property damage, in each case whether actual, alleged or perceived by customers, and irrespective of how much time may have passed since such assembly. If such claims are asserted and adversely determined against the Company, then to the extent such claims are not covered by indemnification from the product's seller or manufacturer or by insurance, they could have a material adverse effect on the Company or its estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition.

Dependence Upon and Cost of Services Provided by Affiliates

The success of the Company's domestic business is dependent upon the successful execution of its field merchandising, assembly and management services by SPAR Marketing Services, Inc. ("SMS"), SPAR Management Services, Inc. ("SMSI"), and National Merchandising of America, Inc. ("NMA"), each of which is an affiliate, but not a subsidiary, of the Company, and none of which is consolidated in the Company's consolidated financial statements. NMA provides substantially all of the field merchandising and management services used by National Merchandising Services, LLC ("NMS"), which is a subsidiary of SGRP and part of the Company, while SMS provides substantially all of the other domestic field merchandising and assembly services used by the Company other than NMS (84% of the domestic field merchandising and assembly expenses in 2012, excluding NMS field expenses), and SMSI provides substantially all of the other domestic field management services used by the Company (94% of the domestic field management expense in 2012, excluding NMS field expenses). Services are provided to the Company (other than NMS) by SMS and SMSI at rates equal to their net total cost plus four percent pursuant to contracts that are cancelable on 60 days' notice prior to December 31 of each year or with 180 days' notice at any other time. Services are provided to NMS by NMA at rates equal to their total cost (with certain exclusions) plus two percent pursuant to a contract that is cancelable on 60 days prior notice at any time after December 31, 2013. See Potential Conflicts in Services Provided by Affiliates, below, Item 13 – Certain Relationships and Related Transactions, and Director Independence, below, and Note 10 to the Consolidated Financial Statements – Related Party

Transactions, below.

-16-

The Company has determined that the rates charged by SMS, SMSI and NMA for their services are slightly favorable to the Company (when compared to other possible providers). SMS and NMA have independently advised the Company that those favorable rates are dependent (at least in part) on the ability of each of them to continue to use independent contractors as its field merchandising specialists, that such merchandising specialists generally provide greater flexibility and performance quality at lower total costs as a result of their independence, that it complies with applicable independent contractor requirements for the individuals and companies it retains as field merchandising specialists, and that the appropriateness of its treatment of its field merchandising specialists as independent contractors has been routinely subject to challenge (both currently and historically) by various states. The expenses of defending those challenges are part of the total costs of SMS borne by the Company but are excluded from the total costs of NMA borne by the Company. There can be no assurance that either SMS or NMA will succeed in defending any such challenge, and an adverse determination could increase its costs of doing business. Any material increase in the costs of SMS, SMSI or NMA (and thus the costs it charges to the Company), or any decrease in such performance quality, could have a material adverse effect on the Company or its estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition.

Potential Conflicts in Services Provided by Affiliates

SMS and SMSI are affiliates (but not subsidiaries) of SGRP and are owned solely by Mr. Robert G. Brown, founder, director, Chairman and a significant stockholder of the Company, and Mr. William H. Bartels, founder, director, Vice Chairman and a significant stockholder of the Company. Mr. Brown and Mr. Bartels are also stockholders, directors and executive officers of various other affiliates of SGRP. NMA is an affiliate (but not a subsidiary) of NMS, and NMS is a consolidated subsidiary of SGRP. Mr. Edward Burdekin is the Chief Executive Officer and President and a director of both NMA and NMS, NMA is owned by Andrea H. Burdekin (Mr. Burdekin's wife), and NMA owns 49% of the membership units in NMS. SGRP owns the other 51% of the membership units in NMS. In the event of any dispute in the business relationships between the Company and one or more of SMS, SMSI or NMA, it is possible that Messrs. Brown, Bartels or Burdekin may have one or more conflicts of interest with respect to those relationships and could cause one or more of SMS, SMSI or NMA to renegotiate or cancel their approved affiliate contracts with the Company or otherwise act in a way that is not in the Company's best interests. See Dependence Upon and Cost of Services Provided by Affiliates, above, Item 13 – Certain Relationships and Related Transactions, and Director Independence, below, and Note 10 to the Consolidated Financial Statements – Related Party Transactions, below.

While the Company's relationships with SMS, SMSI and NMA are excellent, there can be no assurance that the Company could (if necessary under the circumstances) replace the field merchandising specialists and management currently provided by SMS and SMSI, respectively, or those provided by NMA, in sufficient time to perform its client obligations or at such favorable rates in the event one or more of SMS, SMSI or NMA no longer performed those services. Any cancellation, other nonperformance or material pricing increase under those approved affiliate contracts could have a material adverse effect on the Company or its estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition.

Risks of Common Stock Ownership

Dividends on SGRP Common Stock are discretionary, have never been paid, are subject to restrictions in the Company's credit facilities and applicable law and can only be paid to the holders of SGRP Common Stock if the accrued and unpaid dividends and potential dividends are first paid to the holders of the Series A Preferred Stock. In the event of the Company's liquidation, dissolution, or winding-up, the holders of Common Stock are only entitled to share in the Company's assets, if any, that remain after the Company make payment of and provision for all of the Company's debts and liabilities and the liquidation preferences of all of the Company's outstanding Preferred

Stock. There can be no assurance that sufficient funds will remain in any such case for dividends or distributions to the holders of SGRP Common Stock.

Risks related to the Company's Preferred Stock

The Company's ability to issue or redeem Preferred Stock, or any rights to purchase such shares, could discourage an unsolicited acquisition proposal. For example, the Company could impede a business combination by issuing a series of preferred stock containing class voting rights that would enable the holders of such preferred stock to block a business combination transaction. Alternatively, the Company could facilitate a business combination transaction by issuing a series of preferred stock having sufficient voting rights to provide a required percentage vote of the stockholders. Additionally, under certain circumstances, the Company's issuance of preferred stock could adversely affect the voting power of the holders of the Company's common stock. Although the Company's board of directors is required to make any determination to issue any preferred stock based on its judgment as to the best interests of the Company's stockholders, the Company's board of directors could act in a manner that would discourage an acquisition attempt or other transaction that some, or a majority, of the Company's stockholders may believe to be in their best interests or in which stockholders may receive a premium for their stock over prevailing market prices of such stock. The Company's board of directors does not at present intend to seek stockholder approval prior to any issuance of currently authorized stock, unless otherwise required by law or applicable stock exchange requirements.

Risks of Illiquidity in SGRP Common Stock

The market price of the Company's common stock has historically experienced and may continue to experience significant volatility. During the year ended December 31, 2012, the sale price of SGRP Common Stock fluctuated from \$0.89 to \$2.30 per share. The Company believes that its Common Stock is subject to wide price fluctuations due to (among other things) the following:

- the relatively small public float and corresponding thin trading market for SGRP Common Stock, attributable to (among other things) the large block of voting shares beneficially owned by the Company's co-founders (as noted below) and generally low trading volumes, and that thin trading market may cause small trades to have significant impacts on SGRP Common Stock price;
- the substantial beneficial ownership of 59.2% of the Company's voting stock and potential control by the Company's co-founders (who also are directors and executive officers of the Company), Mr. Robert G. Brown, who beneficially owns 34.4% (or 7,466,176 shares) of SGRP Common Stock, and Mr. William H. Bartels, who beneficially owns 24.8% (or 5,394,698 shares) of SGRP Stock, which amounts were calculated using total beneficial ownership (21,712,916 shares) and their individual beneficial ownerships at December 31, 2012 (including all shares then beneficially owned under currently exercisable warrants and vested options), as more fully described above and below; the periodic potential risk of the delisting of SGRP Common Stock from trading on Nasdaq (as described below);
- any announcement, estimate or disclosure by the Company, or any projection or other claim or pronouncement by any of the Company's competitors or any financial analyst, commentator, blogger or other person, respecting (i) any new product created, product improvement, significant contract, business acquisition or relationship, or other publicized development by the Company or any of its competitors, or (ii) any change, fluctuation or other development in the Company's actual, estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition or in those of any of the Company's competitors, in each case irrespective of accuracy or validity and whether or not adverse or material; and
- the general volatility of stock markets, consumer and investor confidence and the economy generally (which often affect the prices of stock issued by the Company and many others without regard to financial results or condition).

If the Company issues (other than at fair market value for cash) or the Company's co-founders sell a large number of shares of SGRP Common Stock, or if the market perceives such an issuance or sale is likely or imminent, the market price of SGRP Common Stock could decline and that decline could be significant.

The Company also has repurchased SGRP Common Stock from time to time, and currently has in place a Repurchase Program (as defined and described in Item 5 - Issuer Purchases of Equity Securities, below). Those repurchases could adversely affect the market liquidity of the SGRP Common Stock.

In addition, the volatility in the market price of SGRP Common Stock could lead to class action securities litigation that (however unjustified) could in turn impose substantial costs on the Company, divert management's attention and resources and harm the Company's stock price, business, prospects, results of operations and financial condition.

Risks Related to the Company's Significant Stockholders: Potential Voting Control and Conflicts

The Company's co-founders, Mr. Robert G. Brown and Mr. William H. Bartels are directors, executive officers (Chairman and Vice-Chairman, respectively) and significant stockholders of the Company. Mr. Brown beneficially

owns approximately 34.4%, Mr. Bartels beneficially owns approximately 24.8%, and they own approximately 59.2% in the aggregate of the SGRP Common Stock, which amounts were calculated using total beneficial ownership (21,712,916 shares) and their individual beneficial ownerships (7,466,176 shares and 5,394,698 shares, respectively) at December 31, 2012, which ownerships included all shares beneficially owned under currently exercisable warrants and vested options. Mr. Brown and Mr. Bartels have, should they choose to act together, and under certain circumstances Mr. Brown acting alone may have, the ability to control the election of directors, the approval of mergers and all other matters that must or may be approved by the Company's stockholders. In any event, Mr. Brown and Mr. Bartels continue to have significant influence over the Company's business and operations and the outcome of the Company's corporate actions, including those involving stockholder approvals. The interests of any significant stockholder may be different from time to time from, and potentially in conflict with, the interests of other stockholders, and ownership concentration could delay or prevent a change in the Company's control or otherwise discourage the Company's potential acquisition by another person, any of which could cause the market price of the SGRP Common Stock to decline and that decline could be significant.

Risks of Dilution

The Company may issue stock options and award restricted stock to directors, officers, employees and consultants in the future at Common Stock per-share exercise prices below the price you may have paid. In addition, the Company may issue shares of SGRP Common Stock in the future in furtherance of the Company's acquisitions or development of businesses or assets. Each of those and other issuances of SGRP Common Stock could have a dilutive effect on the value of your shares, depending on the price the Company are paid (or the value of the assets or business acquired) for such shares, market conditions at the time and other factors.

Risks of a Nasdaq Delisting:

There can be no assurance that the Company will be able to comply in the future with the Bid Price Rule or Nasdaq's continued listing requirements. If the Company fails to satisfy the Bid Price Rule and continues to be in non-compliance after notice and the applicable six month grace period ends, Nasdaq may commence delisting procedures against the Company (during which the Company will have additional time of up to six months to appeal and correct its non-compliance). If the SGRP Common Stock shares were ultimately delisted by Nasdaq, the market liquidity of the SGRP Common Stock could be adversely affected and its market price could decrease, even though such shares may continue to be traded "over the counter", due to (among other things) the potential for increased spreads between bids and asks, lower trading volumes and reporting delays in over-the-counter trades and the negative implications and perceptions that could arise from such a delisting.

Risks of Having Material Local Investors in International and Domestic Joint Venture Subsidiaries

The Company's international model is to join forces with Local Investors having merchandising service expertise and combine their knowledge of the local market with the Company's proprietary software and expertise in the merchandising business. The Company also has begun to use this model in the United States (see Item 1 – The Company's Domestic and International Geographic Division, above). As a result, each of the Company's international subsidiaries (other than Canada and Japan) and NMS domestically is owned in material part by an entity in the local country where the international or domestic subsidiary resides and that entity is not otherwise affiliated with the Company (e.g., the "Local Investor"). The joint venture agreements between the Company and the Local Investor in the respective international or domestic subsidiaries specify, among other things, the equity, programming and support services the Company is required to provide and the equity, credit support, certain services and management support that the Local Investor is required to provide to the international or domestic subsidiary. Certain of those subsidiaries also may be procuring field merchandising execution through affiliates of the applicable Local Investors. In the event of any disagreement or other dispute in the business relationships between the Company and Local Investor, it is possible that the Local Investor may have one or more conflicts of interest with respect to the relationship and could cause the applicable international or domestic subsidiary to operate or otherwise act in a way that is not in the Company's best interests.

The joint venture agreements generally have unlimited contract terms and parties generally do not have the right to unilaterally withdraw. However, a non-defaulting party has the right to terminate such agreement upon the other party's default, receipt of notice and failure to cure within a specified period (generally 60 days internationally or 30 days domestically). In addition, either party, at any time after the end of a specified period (usually between three and five years), may: (1) sell all or part of its equity interest in the international subsidiary to a third party by providing a written notice to the other party of such intentions (in which case the other party has the right of first refusal and may purchase the equity of the offering party under the same terms and conditions) (a "Right of First Refusal"); or (2) offer to purchase the equity of the other party (in which case the other party generally has 120 days to either accept or reject the offer or to reverse the transaction and actually purchase the offering party's equity under the same terms and conditions) (a "Buy/Sell Right").

The Company believes its relationships with the Local Investors in its joint venture international subsidiaries remain good. Several of the Company's respective international subsidiary contracts are either at or near the end of the applicable periods during which either of the parties may trigger the Right of First Refusal and Buy/Sell provisions described above. Both the Company and such Local Investors, as part of their ongoing relationship, are or will be assessing appropriate action as described above.

There can be no assurance that the Company could (if necessary under the circumstances) replace equity, credit support, management, field merchandiser and other services currently provided by any Local Investor in sufficient time to perform its client obligations or that the Company could provide these services and or equity in the event the Local Stockholder was to sell its stock or reduce any support to the Company's subsidiary in the applicable country. Any cancellation, other nonperformance or material change under the joint venture agreements with Local Investors could have a material adverse effect on the Company or its estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition.

Risks Associated with International and Domestic Joint Venture Subsidiaries

While the Company endeavors to limit its exposure for claims and losses in any international or domestic consolidated subsidiary through contractual provisions, insurance and use of single purpose entities for such ventures, there can be no assurance that the Company will not be held liable for the claims against and losses of a particular international or domestic consolidated subsidiary under applicable local law or local interpretation of any subsidiary agreements or insurance provisions. If any such claims and losses should occur, be material in amount and be successfully asserted against the Company, such claims and losses could have a material adverse effect on the Company or its estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition.

Risks Associated with Foreign Currency

The Company also has foreign currency exposure associated with its international subsidiaries. In 2012, these foreign currency exposures are primarily concentrated in the Australian Dollar, Canadian Dollar, Mexican Peso, South African Rand and Japanese Yen.

Risks Associated with International Business

The Company's expansion strategy includes expansion into various countries around the world. While the Company endeavors to limit its exposure by entering only countries where the political, social and economic environments are conducive to doing business, there can be no assurances that the respective business environments will remain favorable. In the future, the Company's international operations and sales may be affected by the following risks,

which may adversely affect United States companies doing business in foreign countries:

- Political and economic risks, including terrorist attacks and political instability;
- Various forms of protectionist trade legislation that currently exist, or have been proposed;
 - Expenses associated with customizing products;
 - Local laws and business practices that favor local competition;
 - Dependence on local vendors;
 - Multiple, conflicting and changing governmental laws and regulations;
 - Potentially adverse tax consequences;
- Local accounting principles, practices and procedures and limited familiarity with US GAAP;
 - Foreign currency exchange rate fluctuations;
- Communication barriers, including those arising from language, culture, custom and times zones; and
- Supervisory challenges arising from distance, physical absences and such communication barriers.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

The Company does not own any real property. The Company leases certain office space and storage facilities for its corporate headquarters, divisions and subsidiaries under various operating leases, which expire at various dates during the next five years. These leases generally require the Company to pay rents at market rates, subject to periodic adjustments, plus other charges, including utilities, real estate taxes and common area maintenance. The Company believes that its relationships with its landlords generally to be good. However, as these leased facilities generally are used for offices and storage, the Company believes that other leased spaces could be readily found and utilized on similar terms should the need arise.

The Company maintains its corporate headquarters in approximately 4,000 square feet of leased office space located in White Plains, New York, under an operating lease with a term expiring November 30, 2022, and maintains its data processing center and warehouse at its regional office in Auburn Hills, Michigan, under an operating lease expiring October 31, 2015. The Company believes that its existing facilities are adequate for its current business. However, new facilities may be added should the need arise in the future.

The following is a list of the headquarter locations for the Company and its international subsidiaries:

DOMESTIC:

White Plains, NY (Corporate Headquarters)

Auburn Hills, MI (Regional Office, Warehouse and Central Computer Operations)

INTERNATIONAL:

Toronto, Ontario, Canada

Tokyo, Japan

Bucharest, Romania

Durban, South Africa

New Delhi, India

Melbourne, Australia

Mexico City, Mexico

Shanghai, China

Istanbul, Turkey

Item 3. Legal Proceedings

The Company is a party to various other legal actions and administrative proceedings arising in the normal course of business. In the opinion of Company's management, disposition of these other matters are not anticipated to have a material adverse effect on the Company or its estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition.

Item 4. Submission of Matters to a Vote of Security Holders

None.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

The Company's Capital Stock Generally:

SGRP's certificate of incorporation authorizes it to issue 47,000,000 shares of common stock with a par value of \$0.01 per share (the "SGRP Common Stock"), which all have the same voting, dividend and liquidation rights. SGRP Common Stock is traded on the Nasdaq Capital Market ("Nasdaq") under the symbol "SGRP". On December 31, 2012, the SGRP Common Stock closing price was \$1.74 per share; there were 20,456,453 shares of SGRP Common Stock issued and outstanding in the aggregate, which had an aggregate market value of \$35,600,000; there were 21,712,916 shares of SGRP Common Stock beneficially owned in the aggregate, which beneficial ownership included all shares then beneficially owned under currently exercisable vested options; there were 14,334,881 shares (or approximately 66.0%) of SGRP Common Stock beneficially owned by the officers, directors and affiliates of SGRP in the aggregate, which affiliated ownership included shares then beneficially owned under currently exercisable vested options and had an aggregate market value of \$24,912,693; and there were 1,209,922 shares (or approximately 5.6%) of SGRP Common Stock beneficially owned by non-affiliates of the Company in the aggregate (i.e., SGRP's public float), which float included shares then beneficially owned under currently exercisable warrants and vested options and had an aggregate market value of \$2,105,264. See Item 12 – Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters, below.

SGRP's certificate of incorporation also authorizes it to issue 3,000,000 shares of preferred stock with a par value of \$0.01 per share (the "SGRP Preferred Stock"), which may have such preferences and priorities over the SGRP Common Stock and other rights, powers and privileges as the Company's Board of Directors may establish in its discretion from time to time. The Company has created and authorized the issuance of a maximum of 3,000,000 shares of Series A Preferred Stock pursuant to SGRP's Certificate of Designation of Series "A" Preferred Stock (the "SGRP Series A Preferred Stock"), which have dividend and liquidation preferences, have a cumulative dividend of 10% per year, are redeemable at the Company's option and are convertible at the holder's option (and without further consideration) on a one-to-one basis into SGRP Common Stock. The number of shares authorized by such certificate of incorporation and designation was, however, reduced to 2,445,598 shares of remaining authorized and available preferred stock by the conversions described in the next paragraph and could be further reduced by amendment or redemption to facilitate the creation of any other SGRP Preferred Series. At December 31, 2012, no shares of SGRP Series A Preferred Stock were issued and outstanding.

During 2008, 338,801 shares of such Series A Preferred Stock were purchased by a non-SGRP retirement plan whose trustee is and beneficiaries include Robert G. Brown (who is a co-founder, director, executive officer and significant stockholder of SGRP), and 215,601 shares of such Series A Preferred Stock were purchased by a non-SGRP retirement plan whose trustee and beneficiaries include William H. Bartels (who also is a co-founder, director, executive officer and significant stockholder of SGRP), which shares collectively constituted all of the outstanding shares of Series A Preferred Stock. On or before March 10, 2011, Mr. Brown and Mr. Bartels, as trustees of those plans, each had requested that their plan's preferred shares be converted into SGRP's Common Stock in accordance with its terms, and in order to facilitate conversion of those shares by payment of all accrued and unpaid dividends, on March 10, 2011, SGRP's Board of Directors (i) fixed March 10, 2011, as the applicable record date for determination of the holders of the SGRP's Series A Preferred Stock eligible to receive such dividends, (ii) declared a dividend on such SGRP's Series A Preferred Stock equal to the accrued and unpaid dividends thereon, payable in shares of SGRP's Common Stock valued at their market value (\$2.34 per share) on such record date, and (iii) authorized the issuance of the shares of SGRP's Common Stock necessary to effect such conversion (554,402 shares) and accrued dividend payment (54,584 shares) in consideration of the preferred shares surrendered and the accrued dividends thereby

satisfied. As a result of such conversions and stock dividends, on March 11, 2011, Mr. Brown's plans received 372,158 shares of SGRP's Common Stock (33,357 shares of which were for accrued dividends) and Mr. Bartels' plan received 236,828 shares of SGRP's Common Stock (21,227 shares of which were for accrued dividends). See Item 12 – Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters, and Item 13 – Certain Relationships and Related Transactions, and Director Independence, below.

The holders of SGRP Common Stock and Series A Preferred Stock vote together for directors and other matters, other than matters pertaining only to the Series A Preferred Stock (such as amending SGRP's Certificate of Designation of Series "A" Preferred Stock) where only the holders of the Series A Preferred Stock are entitled to vote. For a more complete description of the SGRP Common Stock and SGRP Preferred Stock, director and officer exculpation and indemnification, absence of cumulative voting rights and certain other governance matters, please see "Our Capital Stock" on pages 8 through 12 of SGRP's Amendment No. 1 to its Registration Statement on Form S-3 as filed with the SEC on April 8, 2011.

Price Range of Common Stock

The following table sets forth the reported high and low sales prices of the Common Stock for the quarters indicated as reported on the Nasdaq Capital Market.

	2012		2011	
	High	Low	High	Low
First Quarter	\$ 1.38	\$ 0.89	\$ 2.38	\$ 0.88
Second Quarter	1.40	1.10	1.90	1.05
Third Quarter	2.30	1.09	1.58	0.87
Fourth Quarter	2.30	1.65	1.25	0.88

Dividends

The Company has never declared or paid any cash dividends on its Common Stock and does not anticipate paying cash dividends on its Common Stock in the foreseeable future. The Company currently intends to retain future earnings to finance its operations and fund the growth of the business. Any payment of future dividends will be at the discretion of the Board of Directors of the Company and will depend upon, among other things, the Company's earnings, financial condition, capital requirements, level of indebtedness, contractual restrictions in respect to the payment of dividends and other factors that the Company's Board of Directors deems relevant.

Issuer Purchases of Equity Securities

Period	(a)	(b)	(c)	(d)
	Total number of shares purchased	Average price paid per share	Total number of share purchased	Maximum number of shares that may yet be purchased
August, 2012	2,500	\$ 1.82	2,500	497,500
September, 2012	9,689	2.01	9,689	487,811
November, 2012	5,500	1.99	5,500	482,311
Total Purchased	17,689	1.98	17,689	

There were no such affiliated purchasers during that period.

The repurchases described above were made pursuant to the SPAR Group, Inc., 2012 Stock Repurchase Program (the "Repurchase Program"), as approved by SGRP's Audit Committee and adopted by its Board of Directors on August 8, 2012, and ratified on November 8, 2012. Under the Repurchase Program, SGRP may repurchase shares of its common stock through August 8, 2015, but not more than 500,000 shares in total, and those repurchases would be made from time to time in the open market and through privately-negotiated transactions, subject to general market and other conditions. SGRP does not intend to repurchase any shares in the market during any blackout period applicable to its officers and directors under the SPAR Group, Inc. Statement of Policy Regarding Personal Securities Transactions in SGRP Stock and Non-Public Information As Adopted, Restated, Effective and Dated as of May 1, 2004, and As Further Amended Through March 10, 2011 (other than purchases that would otherwise be permitted

under the circumstances for anyone covered by such policy). The Company anticipates continuing its Repurchase Program throughout 2013.

-23-

SGRP Common Stock Issuances

SGRP did not issue any SGRP Common Stock during 2011 or 2012 other than (i) pursuant to its existing registered stock compensation and stock purchase plans (See Note 11 – Stock Based Compensation), (ii) SGRP's issuance on March 26, 2011, of 75,000 shares of SGRP Common Stock to Michael Anthony Holdings, Inc., pursuant to SGRP's agreement with it on March 26, 2010, to privately issue warrants to it, in consideration of its term loan to the Company (as that loan is more fully described in Note 4 to the Consolidated Financial Statements in SGRP's Quarterly Report respecting the quarter ended September 30, 2010), for total consideration and exercise price of \$0.85 per share (the fair market value at the time of such agreement), (iii) SGRP's issuance on March 11, 2011, of 608,986 shares SGRP Common Stock to Mr. Robert G. Brown and Mr. William H. Bartels, as trustees of certain benefit plans, in the conversion of and payment of accrued interest on SGRP's outstanding Series A Preferred Stock (See The Company's Capital Stock Generally, above), and (iv) SGRP's issuance on September 1, 2012, of 99,789 shares of Common Stock, par value \$0.01 per share, having a fair market value of \$165,000 to Ms. Andrea Burdekin as part of the purchase of NMA (See Note 13 to the Consolidated Financial Statements - Purchase of Interest in Subsidiaries, below). The warrants and shares referenced in clause (ii), the issuance of the shares described in clause (iii) and (iv) of this paragraph have not been registered under the Securities Act or other securities laws, as they were made in a non-public offer and sale made in reliance upon (among other things) Section 4 (2) of the Securities Act.

SGRP Common Stock Offering and S-3 Registration Statement

The Company has filed with the SEC has approved a registration statement on Form S-3 (as amended, the "2011 S-3 Registration Statement") for the sale of SGRP Common Stock to the public, which became effective on April 8, 2011. Upon amendment of the 2011 S-3 Registration Statement to reflect the terms of particular sales, the Company will be permitted to sell a maximum of 2,000,000 shares for its benefit and the selling stockholders, Mr. Brown and Mr. Bartels, will be permitted to sell a maximum of 500,000 shares each for their respective benefit under the 2011 S-3 Registration Statement (which maximums could be increased by amendment and payment of the requisite fees). Based on the SGRP Common Stock beneficially owned by the Company's non-affiliates (i.e., its public float) and the SGRP Common Stock Price of \$1.74 per share on December 31, 2012, the Company will be permitted under the applicable S-3 rules to sales of approximately \$3,577,470 in proceeds (or 2,056,017 shares) at that price, and the maximum sales by Mr. Brown and Mr. Bartels will be proportionally increased accordingly. An increase in its public float or a discounted offering sale price would permit the Company to sell more of its Common Stock under the 2011 S-3 Registration Statement. Certain updates to the 2011 S-3 Registration Statement may be required in order to sell shares thereunder.

Item 6. Selected Financial Data

Not applicable.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, Liquidity and Capital Resources

Statements contained in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" include "forward-looking statements" within the meaning of the Securities Laws and are based on the Company's best estimates and determinations. You can identify forward-looking statements in such information by the Company's use of terms such as "may", "will", "expect", "intend", "believe", "estimate", "anticipate", "continue" or similar words or variations or negatives of those words. You should carefully consider all such information and the other risks and cautions noted in this Annual Report (including those incorporated by reference from the 2013 Proxy Statement) and the Company's other filings under applicable Securities Laws (including this Annual Report and the 2013 Proxy Statement, each a "SEC Report") that could cause the Company's actual assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results, risks or condition to differ materially from those anticipated by the Company and described in the information in the Company's forward-looking statements, whether express or implied, as the Company's anticipations are based upon the Company's plans, intentions, expectations and estimates and (although the Company believe them to be reasonable) involve known and unknown risks, uncertainties and other factors that could cause them to fail to occur or be realized or to be materially and adversely different from those the Company anticipated.

Although the Company believes that its plans, intentions, expectations and estimates reflected or implied in such forward-looking statements are reasonable, the Company cannot assure you that such plans, intentions, expectations or estimates will be achieved in whole or in part, that the Company has identified all potential risks, or that the Company can successfully avoid or mitigate such risks in whole or in part. You should carefully review the risk factors described above (See Item 1A – Risk Factors, above) and any other cautionary statements contained or incorporated by reference in this Annual Report. All forward-looking and other statements attributable to the Company or persons acting on its behalf are expressly subject to and qualified by all such risk factors and other cautionary statements.

You should not place undue reliance on the Company's forward-looking statements because the matters they describe are subject to known and unknown risks, uncertainties and other unpredictable factors, many of which are beyond its control. The Company's forward-looking statements, risk factors and other cautionary statements (whether contained in this Annual Report, the 2013 Proxy Statement or any other applicable SEC Report) are based on the information currently available to the Company and speak only as of the date specifically referenced, or if no date is referenced, then as of December 31, 2012, in the case of this Annual Report or the 2013 Proxy Statement or the last day of the period covered by any other applicable SEC Report. New risks and uncertainties arise from time to time, and it is impossible for the Company to predict these matters or how they may arise or affect the Company. Over time, the Company's actual assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievements, results, risks or condition will likely differ from those expressed or implied by the Company's forward-looking statements, and such difference could be significant and materially adverse to the Company and the value of your investment in the Company's Common Stock.

The Company does not intend or promise, and the Company expressly disclaims any obligation, to publicly update or revise any forward-looking statements, risk factors or other cautionary statements (in whole or in part), whether as a result of new information, future events or recognition or otherwise, except as and to the extent required by applicable law.

Overview

SPAR Group, Inc. ("SGRP"), and its subsidiaries (together with SGRP, the "SPAR Group" or the "Company"), is a diversified international merchandising and marketing services company and provides a broad array of services worldwide to help companies improve their sales, operating efficiency and profits at retail locations. The Company provides merchandising and other marketing services to manufacturers, distributors and retailers worldwide, primarily in mass merchandisers, office supply, grocery, drug store, independent, convenience and electronics stores, as well as providing furniture and other product assembly services in stores, homes and offices. The Company has supplied these project and product services in the United States since certain of its predecessors were formed in 1979 and internationally since the Company acquired its first international subsidiary in Japan in May of 2001. Today the Company operates in 10 countries that encompass approximately 50% of the total world population through operations in the United States, Canada, Japan, South Africa, India, Romania, China, Australia, Mexico and Turkey.

Critical Accounting Policies & Estimates

The Company's critical accounting policies, including the assumptions and judgments underlying them, are disclosed in the Note 2 to the Consolidated Financial Statements. These policies have been consistently applied in all material respects and address such matters as revenue recognition, depreciation methods, asset impairment recognition, consolidation of subsidiaries and other companies. While the estimates and judgments associated with the application of these policies may be affected by different assumptions or conditions, the Company believes the estimates and judgments associated with the reported amounts are appropriate in the circumstances. Four critical accounting policies are consolidation of subsidiaries, revenue recognition, allowance for doubtful accounts, and internal use software development costs.

Consolidation of Subsidiaries

The Company consolidates its 100% owned subsidiaries. The Company also consolidates all of its 51% owned subsidiaries as the Company believes it is the primary beneficiary and controls the economic activities in accordance with Accounting Standards Codification (ASC) 810-10, Consolidation of Variable Interest Entity.

Revenue Recognition

The Company's services are provided to its clients under contracts or agreements. The Company bills its clients based upon service fee and per unit fee billing arrangements. Revenues under service fee billing arrangements are recognized when the service is performed. The Company's per unit fee arrangements provide for fees to be earned based on the retail sales of a client's products to consumers. The Company recognizes per unit fees in the period such amounts become determinable and are reported to the Company.

Allowance for Doubtful Accounts

The Company continually monitors the validity of its accounts receivable based upon current client credit information and financial condition. Balances that are deemed to be uncollectible after the Company has attempted reasonable collection efforts are written off through a charge to the bad debt allowance and a credit to accounts receivable. Accounts receivable balances, net of any applicable reserves or allowances, are stated at the amount that management expects to collect from the outstanding balances. The Company provides for probable uncollectible amounts through a charge to earnings and a credit to bad debt allowance based in part on management's assessment of the current status of individual accounts. Based on management's assessment, the Company established an allowance for doubtful accounts of \$216,000 and \$57,000 at December 31, 2012, and 2011, respectively. Bad debt expense was \$72,000, for the year ended December 31, 2012. In 2011, the Company had minimal write offs of accounts receivable resulting in recovery of \$55,000 for the year ended December 31, 2011.

Internal Use Software Development Costs

In accordance with ASC-350-10-720, Accounting for the Costs of Computer Software Developed or Obtained for Internal Use, the Company capitalizes certain costs associated with its internally developed software. Specifically, the Company capitalizes the costs of materials and services incurred in developing or obtaining internal use software. These costs include (but are not limited to) the cost to purchase software, the cost to write program code, payroll and related benefits and travel expenses for those employees who are directly involved with and who devote time to the Company's software development projects. Capitalized software development costs are amortized over three years on a straight-line basis.

The Company capitalized \$824,000 and \$722,000 of costs related to software developed for internal use in 2012, and 2011, respectively, and recognized approximately \$638,000 and \$595,000 of amortization of capitalized software for the years ended December 31, 2012, and 2011, respectively.

Results of Operations

The following table sets forth selected financial data and such data as a percentage of net revenues for the years indicated (in millions).

	Year Ended December 31,			
	2012	%	2011	%
Net revenues	\$ 102.8	100.0 %	\$ 73.5	100.0 %
Cost of revenues	75.5	73.5	51.0	69.4
Selling, general & administrative expense	22.1	21.5	18.5	25.1
Depreciation & amortization	1.2	1.1	1.1	1.5
Interest expense, net	0.1	0.1	0.2	0.3
Other income	(0.1)	(0.1)	–	–
Income before income tax provision and non-controlling interest	4.0	3.9	2.7	3.7
Provision for income taxes	0.6	0.5	0.4	0.5
Net income	3.4	3.4	2.3	3.2
Net income attributable to non- controlling interest	(0.5)	(0.5)	(0.1)	(0.2)
Net income attributable to SPAR Group, Inc.	\$ 2.9	2.9 %	\$ 2.2	3.0 %

Results of operations for the year ended December 31, 2012, when compared to the same period in 2011

Net Revenues

Net revenues for the year ended December 31, 2012, were \$102.8 million, compared to \$73.5 million for the year ended December 31, 2011, an increase of \$29.3 million or 39.7%.

Domestic net revenues totaled \$43.1 million in the year ended December 31, 2012, compared to \$37.8 million for the same period in 2011. Domestic net revenues increased by \$5.3 million or 14% primarily attributable to continued growth from the Company's syndicated services and assembly businesses, increased project work and the acquisition of a competitive company in the later part of the year.

International net revenues totaled \$59.7 million for the year ended December 31, 2012, compared to \$35.7 million for the same period in 2011, an increase of \$24.0 million or 67%. The increase in 2012 international net revenues was primarily due to additional revenue from the newly integrated acquisitions acquired in the fourth quarter of 2011 in Mexico of \$10 million and Turkey of \$3.5, and 2012 acquisitions in Romania of \$4.1 million, and South Africa of \$2.4 million, as well as, continued organic growth in South Africa of \$3.1 and Japan of \$2 million.

Cost of Revenues

The Company's cost of revenues consists of its in-store labor and field management wages, related benefits, travel and other direct labor-related expenses and was 73.5% of net revenues for the year ended December 31, 2012, compared to 69.4% of net revenues for the year ended December 31, 2011.

Domestic cost of revenues was 67.6% of domestic net revenues for the year ended December 31, 2012, and 66.7% of domestic net revenues for the year ended December 31, 2011. The minor increase in domestic cost of revenues as a percentage of domestic net revenues of 1% was due primarily to an unfavorable mix within both syndicated and project work compared to the prior year. Approximately 86% and 88% of the Company's domestic cost of revenues in the year ended December 31, 2012 and 2011, respectively, resulted from in-store merchandiser specialist and field management services purchased from certain of the Company's affiliates, SPAR Marketing Services, Inc. ("SMS"), and SPAR Management Services, Inc. ("SMSI"), (See Item 13 - Certain Relationships and Related Transactions, and Director Independence and Note 10 to the Consolidated Financial Statements - Related-Party Transactions, below).

Internationally, cost of revenue as a percent of net revenue increased to 77.7% of international net revenues for the year ended December 31, 2012, compared to 72.3% of international net revenues for the year ended December 31, 2011. The international cost of revenue percentage increase of 8.3% was primarily due to higher cost margin business in the new markets in Mexico, Turkey and Romania and the mix of business in Canada, China and Japan.

Selling, General and Administrative Expenses

Selling, general and administrative expenses of the Company include its corporate overhead, project management, information technology, executive compensation, human resources, legal and accounting expenses. Selling, general and administrative expenses were approximately \$22.1 million and \$18.5 million for the years ended December 31, 2012 and 2011, respectively.

	Year Ended December 31,							
	2012		%		2011			
Selling, general & administrative	\$	22.1	21.5	%	\$	18.5	25.1	%
Depreciation and amortization		1.2	1.0			1.1	1.5	
Total operating expenses	\$	23.3	22.5	%	\$	19.6	26.6	%

Domestic selling, general and administrative expenses totaled \$9.8 million for the year ended December 31, 2012, compared to \$8.9 million for the same period in 2011. The increase of approximately \$900,000 was due primarily to payroll related expenses, legal and accounting services, as well as expenses from the newly acquired merchandising company.

International selling, general and administrative expenses totaled \$12.3 million for the year ended December 31, 2012, compared to \$9.6 million for the same period in 2011. The increase of approximately \$2.7 million was primarily attributable to the new subsidiaries in Romania and South Africa, and a full year impact from fourth quarter 2011 acquisitions in Mexico and Turkey, partially offset by lower expenses in Australia and India.

Depreciation and Amortization

Depreciation and amortization expenses totaled \$1.2 million for the year ended December 31, 2012, compared to \$1.1 million for the same period in 2011. The increase was primarily due to higher capital expenditures related to software development compared to prior year.

Interest Expense, net

The Company's net interest expense was \$129,000 and \$197,000 for the years ended December 31, 2012 and 2011, respectively. The decrease in interest expense was directly attributable to reduced borrowings and lower interest rates.

Income Taxes

The income tax provision for the years ended December 31, 2012 and 2011 was \$550,000 and \$362,000, respectively. The tax provision resulted primarily from domestic state taxes and for tax provisions related to certain international profits. The Company recognizes minimum federal tax provisions as the Company anticipates utilizing operating loss carry forwards in 2012.

The Company has established over time and currently has a valuation allowance reserve of approximately \$4.2 million against its deferred tax asset balance at December 31, 2012. The reduction of that reserve and the corresponding realization of these deferred tax assets is contingent upon the realization of future taxable profits over several years. The Company does not believe such future profits are certain, and thus the requirements of ASC 740-10 for reducing that reserve are not currently met, due to the subjective nature of forecasting profits and the risks the Company faces on a daily basis as noted in Item 1A of this report, including (without limitation) the risks related to

dependence on the trend of both clients and retailers towards outsourcing merchandising and marketing services, the competitive nature of the this industry, economic and retail uncertainty, reliance on the Internet and dependence upon cost of services provided by affiliates.

Non-controlling Interest

Net operating profits from the non-controlling interests, respecting the Company's 51% owned subsidiaries, resulted in a reduction of the Company's net income of \$521,000 and \$123,000 for the years ended December 31, 2012 and 2011, respectively.

Net Income

The Company reported a net income of \$2.9 million for the year ended December 31, 2012, or \$0.14 per diluted share, compared to a net income of \$2.2 million, or \$0.10 per diluted share, for the corresponding period last year, based on diluted shares outstanding of 21.6 million and 21.3 million at December 31, 2012, and 2011, respectively.

Off Balance Sheet Arrangements

None.

Liquidity and Capital Resources

The Company had net income before non-controlling interest of \$3.5 million and \$2.3 million for the years ended December 31, 2012, and December 31, 2011, respectively.

The Company's cash provided by operating activities for the year ended December 31, 2012, was \$3.4 million, compared to net cash provided by operating activities of \$3.5 million in 2011. The net cash provided by operating activities was primarily due to a reported net income, depreciation and an increase in accounts payable, accrued expenses and other liabilities, partially offset by an increase in accounts receivable.

Net cash used by the Company in investing activities was \$1.8 million for the year ended December 31, 2012, and \$1.3 million for the year ended December 31, 2011, respectively. The net cash used in investing activities was a result of capitalization of software development costs, the purchase of computer equipment, the purchase of non-controlling interest in new subsidiaries and the final payment for the purchase of the Mexican subsidiary.

Net cash used by the Company in financing activities for the year ended December 31, 2012, was \$1.4 million compared with net cash used in financing activities of \$1.5 million for the year ended December 31, 2011. The cash used in financing activities was primarily a result of the Company's net payments on its lines of credit.

The above activities resulted in an increase of \$87,000 in the Company's cash and cash equivalents for the year ended December 31, 2012.

The Company had positive working capital of \$9.7 million at December 31, 2012, compared to positive working capital of \$7.2 million at December 31, 2011. The Company's current ratio was 1.7 at both December 31, 2012 and 2011. The increase in working capital was primarily due to increases in cash and accounts receivable and decreases in borrowings against lines of credit, partially offset by increased accounts payable and accrued expenses.

Credit Facilities:

Domestic Credit Facility

SGRP and certain of its domestic subsidiaries, namely SPAR Marketing Force, Inc., National Assembly Services, Inc., SPAR Group International, Inc., SPAR Trademarks, Inc., and SPAR Acquisition, Inc. (each a "Subsidiary Borrower", and together with SGRP, collectively, the "Borrowers"), entered into a Revolving Loan and Security Agreement dated as of July 6, 2010 (the "Loan Agreement"), with Sterling National Bank and Cornerstone Bank as the lenders (the "Lenders"), and issued their Secured Revolving Loan Notes in the original maximum principal amounts of \$5.0 million to Sterling National Bank and \$1.5 million to Cornerstone Bank (the "Notes"), to document and govern its new credit facility with them (the "Sterling Credit Facility"). In June 2011, the Lenders agreed to: (1) reduce the personal guarantee limits to the amounts noted below, and (2) extend the maturity of the Sterling Credit Facility until July 2013. The Sterling Credit Facility was amended effective as of July 1, 2012 (the "Second Sterling Amendment"), to: (1) increase the maximum available revolving loan amount to \$6.5 million from Sterling National Bank and remove Cornerstone Bank as a lender, (2) reduce the interest rate to prime plus three quarters of one percent (3/4%) per annum, and (3) release and discharge each Guarantor as noted below.

In addition, Mr. Robert G. Brown, a Director, the Chairman and a major stockholder of SGRP, and Mr. William H. Bartels, a Director, the Vice Chairman and a major stockholder of SGRP, provided personal guarantees of the Sterling Credit Facility totaling \$1,250,000 pursuant to their Limited Continuing Guaranty in favor of the Lenders dated as of July 6, 2010, as amended in June 2011 (the "Limited Sterling Guaranty"). In the Second Sterling Amendment, Mr. Robert G. Brown and Mr. William H. Bartels were released and discharged by Sterling from their Limited Sterling

Guaranty.

Revolving Loans of up to \$6.5 million are available to the Borrowers under the Sterling Credit Facility based upon the borrowing base formula defined in the Loan Agreement (principally 85% of "eligible" domestic accounts receivable less certain reserves). The Sterling Credit Facility is secured by substantially all of the assets of the Borrowers (other than SGRP's foreign subsidiaries, certain designated domestic subsidiaries, and their respective equity and assets).

As of the effective date of the Second Sterling Amendment, the basic interest rate under the Sterling Credit Facility was reduced by three quarters of one percent ($3/4\%$) per annum to the sum of the fluctuating Prime Rate of interest published in the Wall Street Journal from time to time plus three quarters of one percent ($3/4\%$) percent per annum, which automatically changes with each change in such rate.

Effective January 1, 2013 the Sterling Credit Facility was amended (the "Third Sterling Amendment") to reduce the interest rate to the Prime Rate (as that term is defined in the Loan Agreement) plus one quarter of one percent (1/4%) per annum.

Due to the requirement to maintain a lock box arrangement with the Agent and the Lenders' ability to invoke a subjective acceleration clause at its discretion, borrowings under the Sterling Credit Facility will be classified as current.

The Sterling Credit Facility contains certain financial and other restrictive covenants and also limits certain expenditures by the Borrowers, including, but not limited to, capital expenditures and other investments. At December 31, 2012, the Company was in compliance with such covenants.

International Credit Facilities:

In October 2011, SPARFACTS Australia Pty. Ltd., replaced the Commonwealth Bank line of credit with a new receivables based secured line of credit facility with Oxford Funding Pty Ltd. for \$1.2 million (Australian) or approximately \$1.2 million (based upon the exchange rate at December 31, 2012). The facility provides for borrowing based upon a formula as defined in the agreement (principally 80% of eligible accounts receivable less certain deductions). The agreement expired on October 31, 2012. SPARFACTS is in the process of renegotiating a new agreement.

SPAR Canada Company, a wholly owned subsidiary, has a secured credit agreement with Royal Bank of Canada providing for a Demand Operating Loan for a maximum borrowing of \$750,000 (Canadian) or approximately \$753,000 (based upon the exchange rate at December 31, 2012). The Demand Operating Loan provides for borrowing based upon a formula as defined in the agreement (principally 75% of eligible accounts receivable less certain deductions) and a minimum total debt to tangible net worth covenant. The Company was in compliance with the minimum total debt to tangible net worth covenant under this line of credit at December 31, 2012.

On March 7, 2011, the Japanese subsidiary, SPAR FM Japan, Inc., a wholly owned subsidiary, secured a loan with Mizuho Bank in the amount of 20.0 million Yen (Japanese), or approximately \$232,000. The loan is payable in monthly installments of 238,000 Yen or \$2,800 at an interest rate of 0.1% per annum with a maturity date of February 28, 2018. The outstanding balance at December 31, 2012, was approximately 14.8 million Yen or \$171,000 (based upon the exchange rate at December 31, 2012).

Summary of Company Credit and Other Debt Facilities: (in thousands)

-30-

Management believes that based upon the continuation of the Company's existing credit facilities, projected results of operations, vendor payment requirements and other financing available to the Company (including amounts due to affiliates), sources of cash availability should be manageable and sufficient to support ongoing operations over the next year. However, delays in collection of receivables due from any of the Company's major clients, or a significant reduction in business from such clients could have a material adverse effect on the Company's cash resources and its ongoing ability to fund operations.

Certain Contractual Obligations

The following table contains a summary of certain of the Company's contractual obligations by category as of December 31, 2012 (in thousands).

Contractual Obligations	Total	Period in which payments are due			
		Less than 1 year	1-3 years	3-5 years	More than 5 years
Credit Facilities	\$ 2,564	\$ 2,426	\$ 66	\$ 66	\$ 6
Contingent Liabilities	689	242	447	–	–
Capital Lease Obligations	314	201	113	–	–
Note to NMA	200	200	–	–	–
Operating Lease Obligations	3,181	1,144	1,087	609	341
Total	\$ 6,948	\$ 4,213	\$ 1,713	\$ 675	\$ 347

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

Item 8. Financial Statements and Supplementary Data

See Item 15 of this Annual Report on Form 10-K.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A.(T) Controls and Procedures

Management's Report on Internal Control Over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting for the registrant, as such term is defined in Exchange Act Rules 13a-15(f) and 15d-15(f). Management has designed such internal control over financial reporting by the Company to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles in the United States of America.

The Company's management has evaluated the effectiveness of the Company's internal control over financial reporting using the "Internal Control – Integrated Framework (1992)" created by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") framework. Based on this evaluation, management has concluded that internal controls over financial reporting were effective as of December 31, 2012.

Under applicable Securities Law, the Company is not required to obtain an attestation report from the Company's independent registered public accounting firm regarding internal control over financial reporting, and accordingly such an attestation has not been obtained or included in this Annual Report.

Management's Evaluation of Disclosure Controls and Procedures

The Company's chief executive officer and chief financial officer have each reviewed and evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this report, as required by Exchange Act Rules 13a-15(b) and Rule 15d-15(b). Based on that evaluation, the chief executive officer and chief financial officer have each concluded that the Company's current disclosure controls and procedures are effective to insure that the information required to be disclosed by the Company in reports it files, or submits under the Exchange Act were recorded, processed, summarized and reported within the time period specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Controls

There have been no changes in the Company's internal controls over financial reporting that occurred during the Company's fourth quarter of its 2012 fiscal year that materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

Item 9B. Other Information

Report of Independent Registered Public Accounting Firm

Board of Directors and Stockholders
SPAR Group, Inc. and Subsidiaries
White Plains, New York

We have audited the accompanying consolidated balance sheets of SPAR Group, Inc. and Subsidiaries as of December 31, 2012 and 2011, and the related consolidated statements of income and comprehensive income, equity, and cash flows for each of the years in the two-year period ended December 31, 2012. Our audits also included the financial statement schedule for these years as listed in the index at Item 15. SPAR Group, Inc. and Subsidiaries' management is responsible for these consolidated financial statements. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We did not audit the financial statements of SPAR TODOPROMO, SAPI, de CV, a subsidiary, or SGRP Meridian (Pty) Ltd., a subsidiary, as of and for the year ended December 31, 2012 or SPAR KROGNOS Marketing Private Limited (Formerly Known as SPAR Solutions Merchandising Private Limited), a subsidiary, as of and for the year ended December 31, 2011. These statements reflect total assets constituting 24% and 2% of consolidated total assets as of December 31, 2012 and 2011, respectively, and total revenues constituting 24% and 3% of total consolidated revenue for the years then ended, respectively. Such financial statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for SPAR TODOPROMO, SAPI, de CV and SGRP Meridian (Pty) Ltd. for 2012 and SPAR KROGNOS Marketing Private Limited for 2011 is based solely on the report of the other auditors.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the reports of the other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of the other auditors for 2012 and 2011, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of SPAR Group, Inc. and Subsidiaries as of December 31, 2012 and 2011, and the consolidated results of its operations and its cash flows for each of the years in the two-year period ended December 31, 2012 in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the related financial schedule for those years, when considered in relation to the consolidated financial statements taken as a whole presents fairly, in all material respects, the information set forth therein.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

SPAR TODOPROMO, SAPI, de CV

We have audited the accompanying balance sheet of SPAR TODOPROMO, SAPI, de CV, as of December 31, 2012 and the related statements of income, equity, and cash flows for the year then ended. SPAR TODOPROMO, SAPI, de CV's management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of SPAR TODOPROMO, SAPI, de CV, as of December 31, 2012, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in United States of America.

SPAR Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

1. Business and Organization

The SPAR Group, Inc., a Delaware corporation ("SGRP"), and its subsidiaries (together with SGRP, the "SPAR Group" or the "Company"), is a supplier of merchandising and other marketing services throughout the United States and internationally. The Company also provides in-store event staffing, product sampling, furniture and other product assembly services, technology services and marketing research services. Assembly services are performed in stores, homes and offices while those other services are primarily performed in mass merchandisers, office supply, grocery, drug store, independent, convenience and electronics stores.

Merchandising services primarily consist of regularly scheduled, special project and other product services provided at the store level, and the Company may be engaged by either the retailer or the manufacturer. Those services may include restocking and adding new products, removing spoiled or outdated products, resetting categories "on the shelf" in accordance with client or store schematics, confirming and replacing shelf tags, setting new sale or promotional product displays and advertising, replenishing kiosks, providing in-store event staffing and providing assembly services in stores, homes and offices. Other merchandising services include whole store or departmental product sets or resets, including new store openings, new product launches and in-store demonstrations, special seasonal or promotional merchandising, focused product support and product recalls. The Company also provides technology services and marketing research services.

Today the Company operates in 10 countries that encompass approximately 50% of the total world population. Although it operates in a single business segment (merchandising and marketing services), the Company currently divides its operations for marketing, administrative and other purposes into two geographic divisions: its Domestic Merchandising Services Division, which provides those services in the United States of America since certain of its predecessors were formed in 1979; and its International Merchandising Services Division, which began operations in May of 2001 and provides similar merchandising, marketing services and in-store event staffing services in Japan, Canada, South Africa, India, Romania, China, Australia, Mexico and Turkey.

The Company continues to focus on expanding its merchandising and marketing services business throughout the world.

Domestic Merchandising Services Division

The Company's Domestic Merchandising Services Division provides nationwide merchandising and other marketing services throughout the United States of America primarily on behalf of consumer product manufacturers and retailers at mass merchandisers, office supply, grocery, drug store, independent, convenience and electronics stores. Included in its clients are home entertainment, general merchandise, health and beauty care, consumer goods and food products companies.

SPAR Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

1. Business and Organization (continued)

The Company's international business in each territory outside the United States is conducted through a foreign subsidiary incorporated in its primary territory. The primary territory establishment date (which may include predecessors), the percentage of the Company's equity ownership, and the principal office location for its US (domestic) subsidiaries and each of its foreign (international) subsidiaries is as follows:

Primary Territory	Date Established	SGRP Percentage Ownership		Principal Office Location
United States of America	1979	100%		White Plains, New York, United States of America ⁶
Japan	May 2001	100%		Osaka, Japan
Canada	June 2003	100%		Toronto, Canada
South Africa	April 2004	51%	1	Durban, South Africa
India	April 2004	51%	2	New Delhi, India
Australia	April 2006	51%		Melbourne, Australia
Romania	July 2009	51%	3	Bucharest, Romania
China	March 2010	51%	4	Shanghai, China
Mexico	August 2011	51%		Mexico City, Mexico
Turkey	August 2011	51%	5	Istanbul, Turkey

¹In September 2012 the Company, through its subsidiary in South Africa (SGRP Meridian), entered into a joint venture agreement to expand its operations in South Africa. SGRP Meridian owns a 51% ownership interest in the new company; CMR Meridian (Pty) Ltd. ("CMR-Meridian"). (See Acquisition Strategies and Strategic Acquisitions, above, Note 12 to the Consolidated Financial Statements – Geographic Data, and Note 13 to the Consolidated Financial Statements - Purchase of Interests in Subsidiaries, below).

²In June 2011, the Company sold 49% of its interest in its Indian subsidiary to KROGNOS Integrated Marketing Services Private Limited. In March 2013, the company purchased a 51% interest in a new subsidiary in India, Preceptor Marketing Services Private Limited, which began operations in March 2013 (See Acquisition Strategies and Strategic Acquisitions, above, Note 12 to the Consolidated Financial Statements – Geographic Data, Note 13 to the Consolidated Financial Statements - Purchase of Interests in Subsidiaries, and Note 17 to the Consolidated Financial Statements – Subsequent Events, below).

Currently the Company owns two subsidiaries in Romania. One subsidiary is 100% owned and is inactive, and the second subsidiary, acquired in May 2012, is 51% owned. Also in May of 2012, the Company sold its 51% ownership in one of its other Romania subsidiaries, SPAR City S.R.L, to its original Local Investor (as defined below). (See Note 12 to the Consolidated Financial Statements – Geographic Data and Note 13 to the Consolidated Financial Statements - Purchase of Interests in Subsidiaries, below.)

4 Currently the Company owns two subsidiaries in China. One subsidiary is 100% owned and is inactive, and the second subsidiary, acquired in March 2010 and operational in August 2010, is 51% owned. In July 2011, the Company, through its active subsidiary in China (SPAR Shanghai), entered into a joint venture agreement to expand its operations in China. SPAR Shanghai has a 51% ownership interest in the new company; SPAR DSI Human Resource Company. (See Note 12 to the Consolidated Financial Statements – Geographic Data and Note 13 to the Consolidated Financial Statements - Purchase of Interests in Subsidiaries, below.)

5 In August 2011, the Company sold its 51% ownership in its original subsidiary in Turkey to its original Local Investor, and in November 2011 the Company started a new 51% owned subsidiary to compete in this important market. (See Note 12 to the Consolidated Financial Statements – Geographic Data and Note 13 to the Consolidated Financial Statements - Purchase of Interests in Subsidiaries, below.)

6 In September 2012, the Company established a new subsidiary, National Merchandising Services, LLC, ("NMS") 51% owned by the Company, with its principal office in Georgia. (See Acquisition Strategies and Strategic Acquisitions, above, Note 10 to the Consolidated Financial Statements – Related Party Transactions and Note 13 to the Consolidated Financial Statements - Purchase of Interests in Subsidiaries, below).

2. Summary of Significant Accounting Policies

Principles of Consolidation

The Company consolidates its 100% owned subsidiaries. The Company also consolidates all of its 51% owned subsidiaries as the Company believes it is the primary beneficiary and controls the economic activities in accordance with Accounting Standards Codification (ASC) 810-10, Consolidation of Variable Interest Entities.

All significant intercompany accounts and transactions have been eliminated.

Cash Equivalents

The Company considers all highly liquid short-term investments with maturities of three months or less at the time of acquisition to be cash equivalents. Cash equivalents are stated at cost, which approximates fair value.

SPAR Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Excess Cash

The Company's domestic cash balances are generally utilized to pay its bank line of credit. International cash balances, when not utilized to pay bank debt, are generally maintained in liquid cash accounts and are utilized to fund daily operations

Revenue Recognition

The Company's services are provided to its clients under contracts or agreements. The Company bills its clients based upon service fee or per unit fee arrangements. Revenues under service fee arrangements are recognized when the service is performed. The Company's per unit fee arrangements provide for fees to be earned based on the retail sales of a client's products to consumers. The Company recognizes per unit fees in the period such amounts become determinable and are reported to the Company.

Unbilled Accounts Receivable

Unbilled accounts receivable represent services performed but not billed and are included as accounts receivable.

Doubtful Accounts and Credit Risks

The Company continually monitors the validity of its accounts receivable based upon current client credit information and financial condition. Balances that are deemed to be uncollectible after the Company has attempted reasonable collection efforts are written off through a charge to the bad debt allowance and a credit to accounts receivable. Accounts receivable balances, net of any applicable reserves or allowances, are stated at the amount that management expects to collect from the outstanding balances. The Company provides for probable uncollectible amounts through a charge to earnings and a credit to bad debt allowance based in part on management's assessment of the current status of individual accounts. Based on management's assessment, the Company established an allowance for doubtful accounts of \$216,000 and \$57,000 at December 31, 2012, and 2011, respectively. Bad debt expense was \$72,000, for the year ended December 31, 2012. In 2011, the Company had minimal write offs of accounts receivable resulting in recovery of \$55,000 for the year ended December 31, 2011.

Major Customers - Domestic

One customer accounted for 8% and 10% of the Company's net revenue for the years ended December 31, 2012, and 2011, resulting from merchandising and assembly services performed for a major office supply chain and for manufacturers within this chain. These customers accounted for approximately 13% and 5% of the Company's accounts receivable at December 31, 2012, and 2011, respectively.

In addition, approximately 7% and 10% of the Company's net revenues for the years ended December 31, 2012, and 2011, respectively, resulted from merchandising services performed for a large pharmaceutical distributor. This customer accounted for approximately 3% and 7% of the Company's accounts receivable at December 31, 2012, and 2011, respectively.

Property and Equipment and Depreciation

Property and equipment, including leasehold improvements, are stated at cost. Depreciation is calculated on a straight-line basis over estimated useful lives of the related assets, which range from three to seven years. Leasehold improvements are depreciated over the shorter of their estimated useful lives or lease term, using the straight-line method.

Capital Lease Obligations

The Company has five outstanding capital lease obligations with interest rates ranging from 4.5% to 13.2%. The related capital lease assets balances are detailed below (in thousands):

Start Date:	Original Cost	Accumulated Amortization	Net Book Value at December 31, 2012
July, 2010	\$215	\$ 173	\$42
November, 2010	48	34	14
June, 2011	140	70	70
January, 2012	224	72	152
January, 2012	29	10	19
	\$656	\$ 359	\$297

SPAR Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Annual future minimum lease payments required under the leases, together with the present value as of December 31, 2012, are as follows (in thousands):

Year Ending December 31,	Amount
2013	\$201
2014	113
	314
Less amount representing interest	17
Present value of net minimum lease payments included with other liabilities	\$297

Internal Use Software Development Costs

In accordance with ASC-350-10-720, Accounting for the Costs of Computer Software Developed or Obtained for Internal Use, the Company capitalizes certain costs associated with its internally developed software. Specifically, the Company capitalizes the costs of materials and services incurred in developing or obtaining internal use software. These costs include (but are not limited to) the cost to purchase software, the cost to write program code, payroll and related benefits and travel expenses for those employees who are directly involved with and who devote time to the Company's software development projects. Capitalized software development costs are amortized over three years on a straight-line basis.

The Company capitalized \$824,000 and \$722,000 of costs related to software developed for internal use in 2012, and 2011, respectively, and recognized approximately \$638,000 and \$595,000 of amortization of capitalized software for the years ended December 31, 2012, and 2011, respectively.

Impairment of Long-Lived Assets

The Company reviews its long-lived assets for impairment whenever events or changes in circumstances indicate that an asset's carrying amount may be higher than its fair value. If an asset is considered to be impaired, the impairment charge that would be recognized is the excess of the asset's carrying value over the asset's fair value.

Fair Value Disclosure

The carrying value of financial instruments approximates fair value.

The Company defines fair value as the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. To increase consistency and comparability in fair value measurements, the Company uses a three-level hierarchy that prioritizes the use of observable inputs. The three levels are:

Level 1 – Quoted market prices in active markets for identical assets and liabilities

Level 2 – Observable inputs other than quoted market prices in active markets for identical assets and liabilities

Level 3 – Unobservable inputs

The determination of where an asset or liability falls in the hierarchy requires significant judgment.

Fair value measurements of nonfinancial assets and nonfinancial liabilities are primarily used in goodwill and other intangible asset impairment analyses and the valuation of acquired intangible liabilities and are considered level 3 in the hierarchy. The Company has valued and recorded a contingent liability related to incentive consulting fees from recent acquisitions totaling \$689,000 for the year ended December 31, 2012. As of the last day of December of each fiscal year, the Company tests goodwill for impairment, by comparing the fair value of the reported goodwill to its carrying amount. The Company also calculates and tests the fair value of intangible assets and liabilities annually to insure accuracy of its carrying values as well.

Foreign Currency Rate Fluctuations

The Company has foreign currency exposure with its international subsidiaries. In both 2012 and 2011, these exposures are primarily concentrated in the Australian Dollar, Canadian Dollar, Mexican Peso, South African Rand, and Japanese Yen. Total International assets were \$14.0 million and total liabilities were \$11.1 million based on exchange rates at December 31, 2012. International revenues for the years ended December 31, 2012 and 2011 were \$59.7 million and \$35.7 million, respectively. The international division reported net income of approximately \$82,000 for the year ended December 31, 2012, and a net loss of \$119,000 for the year ended December 31, 2011.

SPAR Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Interest Rate Fluctuations

The Company is exposed to market risk related to the variable interest rate on its lines of credit. At December 31, 2012, the Company's outstanding debt totaled \$2.6 million, as noted in the table below (in thousands):

Location	Variable Interest Rate (1)	US Dollars (2)
United States	4.0%	\$ 1,762
International	0.1% - 9.4%	802
		\$ 2,564

(1) Per annum interest at December 31, 2012

(2) Based on exchange rate at December 31, 2012

Based on 2012 average outstanding borrowings under variable-rate debt, a one-percentage point increase in interest rates would negatively impact annual pre-tax earnings and cash flows by approximately \$14,000.

Income Taxes

Deferred tax assets and liabilities represent the future tax return consequences of certain temporary differences that will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred taxes are also recognized for operating losses that are available to offset future taxable income and tax credits that are available to offset future income taxes. In the event the future consequences of differences between the financial reporting basis and the tax basis of the Company's assets and liabilities result in a net deferred tax asset, an evaluation is required of the probability of being able to realize the future benefits indicated by such asset. A valuation allowance is provided when it is more likely than not that some portion or the entire deferred tax asset will not be realized.

Stock-Based Compensation

As of January 1, 2006, ASC-718-10 ("Compensation – Stock Compensation") became effective and applicable to the Company's accounting for its employee options. Under ASC-718-10, compensation expense is recognized in the Company's consolidated financial statements when employee stock options are granted. Share-based compensation cost is measured on the grant date, based on the fair value of the award calculated at that date, and is recognized over the employee's requisite service period, which generally is the options' vesting period. Fair value is calculated using the Black-Scholes option pricing model. The options granted have a ten (10) year life and vest over four-year periods at a rate of 25% per year, beginning on the first anniversary of the date of grant.

The fair value of each option grant is estimated based on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions: dividend yield of 0% for all years; volatility factor of expected market price of common stock of 128% and 166% for 2012, and 2011, respectively; risk-free interest rate of 0.84% and 1.89% for 2012, and 2011, respectively; and a forfeiture rate of 5% and expected lives of ten years.

Net Income Per Share

Basic net income per share amounts are based upon the weighted average number of common shares outstanding. Diluted net income per share amounts are based upon the weighted average number of common and potential common shares outstanding except for periods in which such potential common shares are anti-dilutive. Potential common shares outstanding include stock options and restricted stock and are calculated using the treasury stock method.

Use of Estimates

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the amounts disclosed for contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting year. Actual results could differ from those estimates.

F-13

SPAR Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Goodwill and Other Intangible Assets

The Company follows ASC-805-10, Goodwill and Other Intangible Assets, as such; goodwill is no longer amortized. At December 31, 2011, the Company adopted ASU No, 2011-08 "Intangibles – Goodwill and Other: Testing Goodwill for Impairment" which allows for a qualitative review to be performed before a quantitative impairment analysis is undertaken. If the qualitative analysis indicates that the goodwill is more likely than not impaired then the Company calculates the fair value of each business unit for which goodwill was recorded to determine if there was impairment. There were no qualitative factors that gave rise to impairment in 2012 or 2011. As a result, it was determined that there was no impairment to the goodwill.

Intangible assets consist of customer contracts and lists and are amortized over periods ranging from 3 to 10 years.

Translation of Foreign Currencies

The financial statements of the foreign entities consolidated into SPAR Group, Inc. consolidated financial statements were translated into United States dollar equivalents at exchange rates as follows: balance sheet accounts for assets and liabilities were converted at year-end rates, equity at historical rates and income statement accounts at average exchange rates for the year. The resulting translation gains and losses are reflected in accumulated other comprehensive gain or loss in the statements of stockholders' equity. Foreign currency transaction gains and losses are reflected in net earnings.

Recently Issued Accounting Standards

In 2012 the Company adopted the provisions of ASU No. 2011-05, "Comprehensive Income." This ASU intends to enhance comparability and transparency of other comprehensive income components. The guidance provides an option to present total comprehensive income, the components of net income and the components of other comprehensive income in a single continuous statement or two separate but consecutive statements. This ASU eliminates the option to present other comprehensive income components as part of the statement of changes in equity. The provisions of this ASU were applied retrospectively.

3. Supplemental Balance Sheet Information (in thousands)

	December 31,	
Accounts receivable, net, consists of the following:	2012	2011
Trade	\$18,011	\$11,806

4. Credit Facilities

Domestic Credit Facility:

SGRP and certain of its domestic subsidiaries, namely SPAR Marketing Force, Inc., National Assembly Services, Inc., SPAR Group International, Inc., SPAR Trademarks, Inc., and SPAR Acquisition, Inc. (each a "Subsidiary Borrower", and together with SGRP, collectively, the "Borrowers"), entered into a Revolving Loan and Security Agreement dated as of July 6, 2010 (the "Loan Agreement"), with Sterling National Bank and Cornerstone Bank as the lenders (the "Lenders"), and issued their Secured Revolving Loan Notes in the original maximum principal amounts of \$5.0 million to Sterling National Bank and \$1.5 million to Cornerstone Bank (the "Notes"), to document and govern its new credit facility with them (the "Sterling Credit Facility"). In June 2011, the Lenders agreed to: (1) reduce the personal guarantee limits to the amounts noted below, and (2) extend the maturity of the Sterling Credit Facility until July 2013. The Sterling Credit Facility was amended effective as of July 1, 2012 (the "Second Sterling Amendment"), to: (1) increase the maximum available revolving loan amount to \$6.5 million from Sterling National Bank and remove Cornerstone Bank as a lender, (2) reduce the interest rate to prime plus three quarters of one percent (3/4%) per annum, and (3) release and discharge each Guarantor as noted below.

SPAR Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

4. Credit Facilities (continued)

In addition, Mr. Robert G. Brown, a Director, the Chairman and a major stockholder of SGRP, and Mr. William H. Bartels, a Director, the Vice Chairman and a major stockholder of SGRP, provided personal guarantees of the Sterling Credit Facility totaling \$1,250,000 pursuant to their Limited Continuing Guaranty in favor of the Lenders dated as of July 6, 2010, as amended in June 2011 (the "Limited Sterling Guaranty"). In the Second Sterling Amendment, Mr. Robert G. Brown and Mr. William H. Bartels were released and discharged by Sterling from their Limited Sterling Guaranty.

Revolving Loans of up to \$6.5 million are available to the Borrowers under the Sterling Credit Facility based upon the borrowing base formula defined in the Loan Agreement (principally 85% of "eligible" domestic accounts receivable less certain reserves). The Sterling Credit Facility is secured by substantially all of the assets of the Borrowers (other than SGRP's foreign subsidiaries, certain designated domestic subsidiaries, and their respective equity and assets).

As of the effective date of the Second Sterling Amendment, the basic interest rate under the Sterling Credit Facility was reduced by three quarters of one percent ($3/4\%$) per annum to the sum of the fluctuating Prime Rate of interest published in the Wall Street Journal from time to time plus three quarters of one percent ($3/4\%$) percent per annum, which automatically changes with each change in such rate.

Effective January 1, 2013 the Sterling Credit Facility was amended (the "Third Sterling Amendment") to reduce the interest rate to the Prime Rate (as that term is defined in the Loan Agreement) plus one quarter of one percent ($1/4\%$) per annum.

Due to the requirement to maintain a lock box arrangement with the Agent and the Lenders' ability to invoke a subjective acceleration clause at its discretion, borrowings under the Sterling Credit Facility will be classified as current.

The Sterling Credit Facility contains certain financial and other restrictive covenants and also limits certain expenditures by the Borrowers, including, but not limited to, capital expenditures and other investments. At December 31, 2012, the Company was in compliance with such covenants.

International Credit Facilities:

In October 2011, SPARFACTS Australia Pty. Ltd., replaced the Commonwealth Bank line of credit with a new receivables based secured line of credit facility with Oxford Funding Pty Ltd. for \$1.2 million (Australian) or approximately \$1.2 million (based upon the exchange rate at December 31, 2012). The facility provides for borrowing based upon a formula as defined in the agreement (principally 80% of eligible accounts receivable less certain deductions). The agreement expired on October 31, 2012. SPARFACTS is in the process of renegotiating a new agreement.

SPAR Canada Company, a wholly owned subsidiary, has a secured credit agreement with Royal Bank of Canada providing for a Demand Operating Loan for a maximum borrowing of \$750,000 (Canadian) or approximately \$753,000 (based upon the exchange rate at December 31, 2012). The Demand Operating Loan provides for borrowing based upon a formula as defined in the agreement (principally 75% of eligible accounts receivable less certain deductions) and a minimum total debt to tangible net worth covenant. The Company was in compliance with the

minimum total debt to tangible net worth covenant under this line of credit at December 31, 2012.

On March 7, 2011, the Japanese subsidiary, SPAR FM Japan, Inc., a wholly owned subsidiary, secured a loan with Mizuho Bank in the amount of 20.0 million Yen (Japanese), or approximately \$232,000. The loan is payable in monthly installments of 238,000 Yen or \$2,800 at an interest rate of 0.1% per annum with a maturity date of February 28, 2018. The outstanding balance at December 31, 2012, was approximately 14.8 million Yen or \$171,000 (based upon the exchange rate at December 31, 2012).

SPAR Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

4. Credit Facilities (continued)

Summary of Company Credit and Other Debt Facilities: (in thousands)

	December 31, 2012	Average Interest Rate	December 31, 2011	Average Interest Rate

United States	\$ 4,248	\$ 2,671
Australia	1,035	818
Canada	331	118
	\$ 5,614	\$ 3,607

Management believes that based upon the continuation of the Company's existing credit facilities, projected results of operations, vendor payment requirements and other financing available to the Company (including amounts due to affiliates), sources of cash availability should be manageable and sufficient to support ongoing operations over the next year. However, continued international losses, delays in collection of receivables due from any of the Company's major clients, or a significant reduction in business from such clients could have a material adverse effect on the Company's cash resources and its ongoing ability to fund operations.

5. Income Taxes

The provision for income tax expense is summarized as follows (in thousands):

	Year Ended December 31,	
	2012	2011
Current	\$ 744	\$ 362
Deferred	(194)	—
	\$ 550	\$ 362

SPAR Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

5. Income Taxes (continued)

The provision for income taxes is different from that which would be obtained by applying the statutory federal income tax rate to income before income taxes. The items causing this difference are as follows (in thousands):

	Year Ended December 31,	
	2012	2011
Provision for income taxes at federal statutory rate, net of foreign tax	\$1,232	\$883
State income taxes, net of federal benefit	134	102
Permanent differences	(31)	(26)
Change in valuation allowance	(1,247)	(780)
International tax provisions	333	112
Federal Alternative Minimum Tax	61	35
Change in Tax Reserve	28	22
Other	40	14
Provision for income taxes	\$550	\$362

Deferred taxes consist of the following (in thousands):

	December 31,	
	2012	2011
Deferred tax assets:		
Net operating loss carry forwards	\$3,671	\$4,989
Deferred revenue	93	128
Allowance for doubtful accounts and other receivable	33	15
Share-based compensation expense	659	573
Foreign subsidiaries	201	-
Depreciation	171	66
Acquisition costs	51	50
Other	175	174
Valuation allowance	(4,248)	(5,495)
Total deferred tax assets	806	500
Deferred tax liabilities:		
Goodwill	134	117
Foreign subsidiaries	7	-
Capitalized software development costs	471	383
Total deferred tax liabilities	612	500
Net deferred taxes	\$194	\$-

At December 31, 2012, the Company has net operating loss carry-forwards (NOLs) of \$3.6 million, related to the PIA Acquisition available to reduce future federal taxable income. Section 382 of the Internal Revenue Code restricts the annual utilization of the NOLs incurred prior to a change in ownership. Such a change in ownership had occurred in 1999. The Company may utilize \$657,500 of the PIA NOLs per year through the year 2018.

In addition, the Company incurred NOLs related to its prior year losses totaling \$6.0 million of which:

\$2.5 expires in 2026,
\$2.9 expires in 2027,
\$0.3 expires in 2028, and
\$0.2 expires in 2029.

The Company has established over time and currently has a valuation allowance reserve of approximately \$4.2 million against its deferred tax asset balance at December 31, 2012. The reduction of that reserve and the corresponding realization of these deferred tax assets is contingent upon the realization of future taxable profits over several years. The Company does not believe such future profits are certain, and thus the requirements of ASC 740-10 for reducing that reserve are not currently met, due to the subjective nature of forecasting profits and the risks the Company faces on a daily basis as noted in Item 1A of this report, including (without limitation) the risks related to dependence on the trend of both clients and retailers towards outsourcing merchandising and marketing services, the competitive nature of the this industry, economic and retail uncertainty, reliance on the Internet and dependence upon cost of services provided by affiliates.

The Company does not provide currently for U.S. income taxes on the undistributed earnings of its profitable foreign subsidiaries since, at the present time, management expects any earnings to be reinvested in the foreign subsidiaries and not distributed. Upon distribution of those earnings in the form of dividends or otherwise, the Company would be subject to U.S. income taxes, which could potentially be offset by foreign tax credits. Distribution of those earnings can also subject the Company to related withholding taxes payable to various non-U.S. jurisdictions. Determination of the amount of unrecognized deferred U.S. income tax liability is not practicable because of the complexities associated with its hypothetical calculations.

SPAR Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

5. Income Taxes (continued)

ASC-740-10 prescribes detailed guidance for the financial statement recognition, measurement and disclosure of uncertain tax positions recognized in an enterprise's financial statements in accordance with ASC-740-10. Tax positions must meet a more-likely-than-not recognition threshold at the effective date to be recognized upon the adoption of ASC-740-10 and in subsequent periods. ASC-740-10 is effective for fiscal years beginning after December 15, 2006 and the provisions of ASC-740-10 will be applied to all tax positions upon initial adoption of the Interpretation.

The Company adopted provisions of ASC-740-10, Accounting for Uncertainty in Income Taxes, on January 1, 2007. A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows (in thousands):

	Year Ended December 31,	
	2012	2011
Beginning Balance	\$ 65	\$ 43
Additions for tax positions of prior years	28	22
Ending Balance	\$ 93	\$ 65

ASC-740-10 requires that interest and penalties that the tax law requires to be paid on the underpayment of taxes should be accrued on the difference between the amount claimed or expected to be claimed on the return and the tax benefit recognized in the financial statements. The Company's policy is to record this interest and penalties as additional tax expense.

SPAR and its subsidiaries file numerous consolidated, combined and separate company income tax returns in the U.S. Federal jurisdiction and in many U.S. state and foreign jurisdictions. With few exceptions, SPAR is subject to U.S. Federal, state and local income tax examinations for the years 2008 through the present. However, tax authorities have the ability to review years prior to the position taken by the Company to the extent that SPAR utilized tax attributes carried forward from those prior years.

In management's view, the Company's tax reserves at December 31, 2012, totaling \$93,000 for potential domestic state tax liabilities were sufficient to meet the requirements of ASC-740-10. The Company has evaluated the tax liabilities of its international subsidiaries and does not believe a reserve is necessary at this time.

Details of the Company's tax reserves at December 31, 2012, are outlined in the table below (in thousands):

	Taxes	Interest	Penalty	Total Tax Liability
Domestic				
State	\$73	\$15	\$6	\$93
Federal	—	—	—	—
International	—	—	—	—
Total reserve	\$73	\$15	\$6	\$93

SPAR Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

6. Commitments and Contingencies

Lease Commitments

The Company leases equipment and certain office space in several cities, under non-cancelable operating lease agreements. Certain leases require the Company to pay its share of any increases in operating expenses and real estate taxes. Rent expense was approximately \$829,000 and \$602,000 for 2012, and 2011, respectively. Equipment lease expense was approximately \$219,000 and \$143,000 for 2012, and 2011, respectively. At December 31, 2012, future minimum commitments under all non-cancelable operating lease arrangements are as follows (in thousands):

Year	Amount
2013	\$1,144
2014	578
2015	509
2016	370
2017	239
Thereafter	341
Total	\$3,181

Legal Matters

The Company is a party to various other legal actions and administrative proceedings arising in the normal course of business. In the opinion of Company's management, disposition of these other matters are not anticipated to have a material adverse effect on the Company or its estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition.

7. Treasury Stock

Pursuant to the SPAR Group, Inc., 2012 Stock Repurchase Program (the "Repurchase Program"), as approved by SGRP's Audit Committee and adopted by its Board of Directors on August 8, 2012, and ratified on November 8, 2012, under the Repurchase Program, SGRP may repurchase shares of its common stock through August 8, 2015, but not more than 500,000 shares in total, and those repurchases would be made from time to time in the open market and through privately-negotiated transactions, subject to general market and other conditions. SGRP does not intend to repurchase any shares in the market during any blackout period applicable to its officers and directors under the SPAR Group, Inc. Statement of Policy Regarding Personal Securities Transactions in SGRP Stock and Non-Public Information As Adopted, Restated, Effective and Dated as of May 1, 2004, and As Further Amended Through March 10, 2011 (other than purchases that would otherwise be permitted under the circumstances for anyone covered by such policy). As of December 31, 2012, 17,689 shares have been repurchased under this program. It should be noted that 4,671 shares were utilized for the Employee Stock Purchase Plan, leaving a total of 13,018 shares of Treasury Stock at December 31, 2012. The Company anticipates continuing its Repurchase Program throughout 2013. (See Item 5 – Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities above).

8. Preferred Stock

SGRP's certificate of incorporation also authorizes it to issue 3,000,000 shares of preferred stock with a par value of \$0.01 per share (the "SGRP Preferred Stock"), which may have such preferences and priorities over the SGRP Common Stock and other rights, powers and privileges as the Company's Board of Directors may establish in its discretion from time to time. The Company has created and authorized the issuance of a maximum of 3,000,000 shares of Series A Preferred Stock pursuant to SGRP's Certificate of Designation of Series "A" Preferred Stock (the "SGRP Series A Preferred Stock"), which have dividend and liquidation preferences, have a cumulative dividend of 10% per year, are redeemable at the Company's option and are convertible at the holder's option (and without further consideration) on a one-to-one basis into SGRP Common Stock. The number of shares authorized by such certificate of incorporation and designation was, however, reduced to 2,445,598 shares of remaining authorized preferred stock by the conversions described in the next paragraph and could be further reduced by amendment or redemption to facilitate the creation of any other SGRP Preferred Series. At December 31, 2012, no shares of SGRP Series A Preferred Stock were issued and outstanding.

SPAR Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

8. Preferred Stock (continued)

On December 31, 2010, there were 338,801 shares of such Series A Preferred Stock owned by a non-SGRP retirement plan whose trustee is and beneficiaries include Robert G. Brown (who is a co-founder, director, executive officer and significant stockholder of SGRP), and 215,601 shares of such Series A Preferred Stock owned by a non-SGRP retirement plan whose trustee is and beneficiaries include William H. Bartels (who also is a co-founder, director, executive officer and significant stockholder of SGRP), which shares collectively constituted all of the outstanding shares of Series A Preferred Stock. Those shares were originally purchased pursuant to subscription agreements on March 31, 2008, and September 24, 2008, at the closing Nasdaq bid price of SGRP Common Stock for the preceding trading day, which was \$1.12 per share for the March purchases and \$0.86 per share for the September purchases. The offer and sale of such Preferred Stock was not registered under the Securities Act or other securities laws, as they were a non-public offer and sale made in reliance upon (among other things) Section 4 (2) of the Securities Act. For more information respecting these purchases, see Item 13 - Certain Relationships and Related Transactions, and Director Independence, above, and Note 10 to the Consolidated Financial Statements – Related Party Transactions, below.

On or before March 10, 2011, Mr. Brown and Mr. Bartels, as trustees of those plans, each had requested that their plan's preferred shares be converted into SGRP Common Stock in accordance with its terms, and in order to facilitate conversion of those shares by payment of all accrued and unpaid dividends, on March 10, 2011, SGRP's Board of Directors (i) fixed March 10, 2011, as the applicable record date for determination of the holders of the SGRP Series A Preferred Stock eligible to receive such dividends, (ii) declared a dividend on such SGRP Series A Preferred Stock equal to the accrued and unpaid dividends thereon, payable in shares of SGRP Common Stock valued at their market value (\$2.34 per share) on such record date, and (iii) authorized the issuance of the shares of SGRP Common Stock necessary to effect such conversion (554,402 shares) and accrued dividend payment (54,584 shares) in consideration of the preferred shares surrendered and the accrued dividends thereby satisfied. As a result of such conversions and stock dividends, on March 11, 2011, Mr. Brown's plans received 372,158 shares of SGRP Common Stock (33,357 shares of which were for accrued dividends) and Mr. Bartels' plan received 236,828 shares of SGRP Common Stock (21,227 shares of which were for accrued dividends).

9. Employee Benefits

Stock Purchase Plans

The Company has Employee and Consultant Stock Purchase Plans (the "SP Plans"). The SP Plans allow employees and consultants of the Company to purchase common stock without having to pay any commissions on the purchases. On August 8, 2002, the Company's Board of Directors approved a 15% discount for employee purchases and recommended that its affiliates (See Note 10 – Related-Party Transactions) approve a 15% cash bonus for affiliate consultant purchases. The maximum amount that any employee or consultant can contribute to the SP Plans per quarter is \$6,250, and the total number of shares reserved by the Company for purchase under the SP Plans is 500,000.

Shares purchased by employees and consultants under the SP Plans were 22,270 and 26,172 for 2012, and 2011, respectively. As of December 31, 2012, 93,465 shares remain outstanding under the SP Plan.

The Company's expense resulting from the 15% discount offered to employees and consultants was immaterial for all years presented.

Retirement/Pension Plans

The Company has a 401(k) Profit Sharing Plan covering substantially all eligible employees. The Company made a contribution of \$76,000 in the fourth quarter of 2012. The Company made a contribution of \$57,000 in the fourth quarter of 2011.

10. Related Party Transactions

SGRP's policy respecting approval of transactions with related persons, promoters and control persons is contained in the SPAR Group Code of Ethical Conduct for its Directors, Senior Executives and Employees Amended and Restated (as of) August 1, 2012 (the "Ethics Code"). Article V of the Ethics Code generally prohibits each "Covered Person" (including SGRP's officers and directors) from engaging in any business activity that conflicts with his or her duties to the Company, and directs each "Covered Person" to avoid any activity or interest that is inconsistent with the best interests of the SPAR Group, in each case except for any "Approved Activity" (as such terms are defined in the Ethics Code).

SPAR Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

10. Related Party Transactions (continued)

Examples of violations include (among other things) having any ownership interest in, acting as a director or officer of or otherwise personally benefiting from business with any competitor, customer or vendor of the Company other than pursuant to any Approved Activity. Approved Activities include (among other things) any contract with an affiliated person (each an "Approved Affiliate Contract") or anything else disclosed to and approved by SGRP's Board of Directors (the "Board"), its Governance Committee or its Audit Committee, as the case may be, as well as the ownership, board, executive and other positions in SMS, SMSI, SIT, NMA and others (as defined and described below) held by certain directors, officers or employees of SGRP or their family members. The Company's senior management is generally responsible for monitoring compliance with the Ethics Code and establishing and maintaining compliance systems, including conflicting relationships and transactions, subject to the review and oversight of SGRP's Governance Committee as provided in clause IV.11 of the Governance Committee's Charter, and SGRP's Audit Committee as provided in clause I.2(1) of the Audit Committee's Charter. The Governance Committee and Audit Committee each consist solely of independent outside directors.

SGRP's Audit Committee has the specific duty and responsibility to review and approve the overall fairness of all material related-party transactions. The Audit Committee receives every affiliate contract and amendment thereto for its review and approval (to the extent approval is given), and each contract is periodically (often annually) again reviewed, in accordance with the Audit Charter, the Ethics Code, the rules of the Nasdaq Stock Market, Inc. ("Nasdaq"), and other applicable law to ensure that the overall economic and other terms will be (or continue to be) no less favorable to the Company than would be the case in an arms-length contract with an unrelated provider of similar services (i.e., its overall fairness). The Audit Committee periodically reviews and has approved all of the related party relationships and transactions described below.

Mr. Robert G. Brown, a Director, the Chairman and a major stockholder of SGRP, and Mr. William H. Bartels, a Director and the Vice Chairman of the Company and a major stockholder of SGRP, are the sole stockholders of SPAR Marketing Services, Inc. ("SMS") and SPAR Management Services, Inc. ("SMSI"). Mr. Brown is the sole stockholder of SPAR InfoTech, Inc. ("SIT"). Mr. Brown is a director and officer of SMS and SIT. Mr. Bartels is a director and officer of SMSI.

SMS and SMSI provided approximately 98% of the domestic merchandising specialist field force used by the Company for both the years ended December 31, 2012 and 2011, respectively, and approximately 93% of the domestic field management used by the Company at a total cost of approximately \$24 million and \$22 million for the years ended December 31, 2012 and 2011, respectively. Pursuant to the terms of the Amended and Restated Field Service Agreement dated as of January 1, 2004, as amended in 2011, the Company received merchandising services from SMS through the use of approximately 7,300 field merchandising specialists. SMS also furnishes (without charge) approximately 200 handheld computers used by field merchandising specialists in the performance of various merchandising and marketing services in the United States, which the Company estimates has an aggregate value of approximately \$2,000 to \$3,000 per month. Pursuant to the terms of the Amended and Restated Field Management Agreement dated as of January 1, 2004, in 2011, the Company received management services from SMSI through the use of 55 full-time national, regional and district managers. For those services, the Company has agreed to reimburse SMS and SMSI for their total costs of providing those services and to pay SMS and SMSI each a premium equal to 4% of their respective total costs (the "Plus 4 % Compensation"). Those costs include all field expenses of SMS, all payroll and employment tax expenses of SMSI and all legal and other administrative expenses paid by either of them. The net total Plus 4% Compensation earned by SMS and SMSI for services rendered was approximately \$914,000 and

\$836,000 for the years ended December 31, 2012 and 2011, respectively. The Company also provides certain administrative services directly to SMS and SMSI, without charge, for accounting, human resource and legal services, which the Company believes is more efficient if paid directly, and would otherwise have been subject to cost plus reimbursement. The value of these services was approximately \$416,000 and \$390,000 for the years ended December 31, 2012 and 2011, respectively.

No salary reimbursements for Mr. Brown or Mr. Bartels are included in such reimbursable costs or Plus 4% Compensation. However, since SMS and SMSI are "Subchapter S" corporations and are owned by Messrs. Brown and Bartels, all income from SMS and SMSI is allocated to them.

F-22

SPAR Group, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

10. Related Party Transactions (continued)

National Marketing Services, LLC ("NMS"), is a consolidated domestic subsidiary of the Company and is owned jointly by SGRP through its indirect ownership of 51% of the NMS membership interests and by National Merchandising of America, Inc. ("NMA"), through its ownership of the other 49% of the NMS membership interests. (See Note 13 to the Consolidated Financial Statements - Purchase of Interests in Subsidiaries, below.) Mr. Edward Burdekin is the Chief Executive Officer and President and a director of NMS and also is an executive officer and director of NMA. Ms. Andrea Burdekin, Mr. Burdekin's wife, is the sole stockholder and a director of NMA and a director of NMS.

NMA is expected to provide substantially all of the domestic merchandising specialist field force used by NMS. Pursuant to the terms of the Field Services Agreement dated as of July 31, 2012, as amended (the "NMA Services Agreement"), NMS will receive merchandising services from NMA through the use of approximately 1,100 field merchandising specialists. For those services, the Company has agreed to reimburse NMA for its total costs of providing those services and to pay NMA a premium equal to 2% of its total costs (the "Plus 2% Compensation"). Those costs include all field expenses, payroll and employment tax expenses of NMA but exclude certain field merchandiser taxes and legal and other administrative expenses. Accordingly, no salary reimbursement for Mr. Burdekin or Ms. Burdekin are included in such reimbursable costs or Plus 2% Compensation.

NMS commenced operations as of September 1, 2012. NMA provided all of the domestic merchandising specialist field force used by NMS and 5% of the total domestic merchandising specialist field force used by the Company (including NMS) for the four month period ended December 31, 2012. The total Plus 2% Compensation earned by NMA for services rendered was approximately \$31,000 for the four month period ended December 31, 2012.

In connection with the approval of those related party agreements with NMA, the Board approved, based (in part) on the recommendation and approval of its Governance Committee (which is comprised solely of independent directors), the restated Ethics Code. As a result, the newly approved NMA Field Services Agreement is, and the previously approved affiliate contracts (See "Transactions with Related Persons, Promoters and Certain Control Persons" in SGRP's 2012 Proxy Statement) continue to be, exempted from various conflict prohibitions in the Ethics Code. The Ethics Code changes were not intended to substantively alter the code's existing prohibitions and exceptions applicable to the directors and executive officers of SGRP.

The Company continues to purchase services from SMS, SMSI and NMA because it believes the terms it receives from them are at least as favorable to the Company as it could obtain from non-affiliated providers of similar services. The Company believes it is the largest and most important customer of SMS, SMSI and NMA (and from time to time may be their only customer), and accordingly the Company is able to negotiate better terms, receives more personal and responsive service and is more likely to receive credits and other financial accommodations from SMS, SMSI and NMA than the Company could reasonably expect to receive from an unrelated service provider who has significant other customers and business. The Company periodically evaluates these fees and rates charged by comparable national labor sourcing firms to serve as a comparison to the rates charged by SMS, SMSI and NMA. The most recent such survey showed that the rates negotiated with SMS, SMSI and NMA are in fact slightly less than those charged by unrelated vendors providing similar services. Based on an analysis performed by management, the Company believes that its cost of revenue would have increased by at least \$800,000 and \$650,000 for the years ended December 31, 2012 and 2011, respectively, if the Company would have instead used an unaffiliated entity to provide comparable services. All affiliate contracts are reviewed and approved by SGRP's Audit

Committee, as described above. See also Item 1A - Dependence Upon and Cost of Services Provided by Affiliates and Potential Conflicts in Services Provided by Affiliates, above.

F-23

Notes to Consolidated Financial Statements (continued)

10. Related Party Transactions (continued)

The following transactions occurred between the Company and the above affiliates (in thousands):

	Year Ended December 31,	
	2012	2011
Services provided by affiliates:		
Field merchandiser services (SMS)	\$ 19,236	\$ 17,555
Field management services (SMSI)	\$ 4,538	\$ 4,283
Field merchandiser services (NMA)	\$ 1,601	\$ -
Handheld computer leases (SMS)	\$ -	\$ 77
Total services provided by affiliates	\$ 25,375	\$ 21,915

Accrued expenses due to affiliates (in thousands):

	December 31,	
	2012	2011
Total accrued expenses due to affiliates	\$ 705	\$ 1,092

In July 1999, SMF, SMS and SIT entered into a perpetual software ownership agreement providing that each party independently owned an undivided share of and had the right to unilaterally license and exploit their "Business Manager" Internet job scheduling software (which had been jointly developed by such parties), and all related improvements, revisions, developments and documentation from time to time voluntarily made or procured by any of them at its own expense. In addition, SPAR Trademarks, Inc. ("STM"), SMS and SIT entered into separate perpetual trademark licensing agreements whereby STM has granted non-exclusive royalty-free licenses to SIT and SMS (and through them to their commonly controlled subsidiaries and affiliates by sublicenses, including SMSI) for their continued use of the name "SPAR" and certain other trademarks and related rights of STM, a wholly owned subsidiary of SGRP. SMS and SMSI provide services to the Company, as described above, and SIT no longer provides services to the Company and does not compete with the Company.

Through arrangements with the Company, SMS, SMSI and other companies owned by Mr. Brown or Mr. Bartels participate in various benefit plans, insurance policies and similar group purchases by the Company, for which the Company charges them their allocable shares of the costs of those group items and the actual costs of all items paid specifically for them. All such transactions between the Company and the above affiliates are paid and/or collected by the Company in the normal course of business. As an accommodation, the Company also provides certain accounting, human resource and similar administrative services to SIT and certain other affiliates of Robert G. Brown and William H. Bartels, at a nominal cost.

In addition to the above, SMSI purchases insurance coverage for worker compensation, casualty and property insurance risk for itself, SMS (and through SMS under contracts with its field merchandising specialists) and the Company from Affinity Insurance, Ltd. ("Affinity"). SMSI owns minority (less than 1%) equity interest in Affinity, and Mr. Robert G. Brown is a director of Affinity. The Affinity insurance premiums for such coverage are ultimately charged to SMSI, SMS (and through SMS to its covered field merchandising specialists) and the Company based on

the contractual arrangements of the parties.

On December 31, 2010, there were 338,801 shares of SGRP's Series A Preferred Stock owned by a non-SGRP retirement plan whose trustee is and beneficiaries include Robert G. Brown (who is a co-founder, director, executive officer and significant stockholder of SGRP), and there were 215,601 shares of SGRP's Series A Preferred Stock owned by a non-SGRP retirement plan whose trustee is and beneficiaries include William H. Bartels (who also is a co-founder, director, executive officer and significant stockholder of SGRP), which shares collectively constituted all of the outstanding shares of Series A Preferred Stock issued by SGRP. Those shares were originally purchased pursuant to subscription agreements on March 31, 2008, and September 24, 2008, at the closing Nasdaq bid price of SGRP's Common Stock for the preceding trading day, which was \$1.12 per share for the March purchases and \$0.86 per share for the September purchases. Each share of SGRP's Series A Preferred Stock could be converted into one share of SGRP's Common Stock (at the rate of one to one), at the option of the holder and without further consideration, and accumulated dividends at the rate of ten percent per annum. SGRP's Audit Committee and Board of Directors each reviewed and unanimously approved this transaction, including the pricing, conversion and other terms of the Preferred Stock and the affiliated relationship of the parties. The offer, sale and conversion of such Preferred Stock were not registered under the Securities Act or other securities laws, as they were a non-public offer and sale made in reliance upon (among other things) Section 4 (2) of the Securities Act.

Notes to Consolidated Financial Statements (continued)

10. Related Party Transactions (continued)

On or before March 10, 2011, Mr. Brown and Mr. Bartels, as trustees of those plans, each had requested that their plan's preferred shares be converted into SGRP's Common Stock in accordance with its terms, and in order to facilitate conversion of those shares by payment of all accrued and unpaid dividends, on March 10, 2011, SGRP's Board of Directors (i) fixed March 10, 2011, as the applicable record date for determination of the holders of the SGRP's Series A Preferred Stock eligible to receive such dividends, (ii) declared a dividend on such SGRP's Series A Preferred Stock equal to the accrued and unpaid dividends thereon, payable in shares of SGRP's Common Stock valued at their market value (\$2.34 per share) on such record date, and (iii) authorized the issuance of the shares of SGRP's Common Stock necessary to effect such conversion (554,402 shares) and accrued dividend payment (54,584 shares) in consideration of the preferred shares surrendered and the accrued dividends thereby satisfied. As a result of such conversions and stock dividends, on March 11, 2011, Mr. Brown's plans received 372,158 shares of SGRP's Common Stock (33,357 shares of which were for accrued dividends) and Mr. Bartels' plan received 236,828 shares of SGRP's Common Stock (21,227 shares of which were for accrued dividends).

In the event of any material dispute in the business relationships between the Company and SMS, SMSI, SIT or NMA it is possible that Mr. Brown, Mr. Bartels or Mr. Burdekin may have one or more conflicts of interest with respect to these relationships and such dispute could have a material adverse effect on the Company.

11. Stock Based Compensation

SGRP currently grants options to its eligible directors, officers and employees and certain employees of its affiliates to purchase shares of Common Stock issued by SGRP ("SGRP Shares") pursuant to the 2008 Stock Compensation Plan (as amended, the "2008 Plan"). SGRP also has granted stock options that continue to be outstanding under various predecessor stock option plans (each a "Prior Plan"). The Prior Plans consist of the following: the Amended and Restated 1995 Stock Option Plan (the "1995 Plan"); and the 2000 Stock Option Plan ("2000 Plan"), which succeeded the 1995 Plan. Each Prior Plan will continue to be outstanding for the purposes of any remaining outstanding options issued under it for so long as such options are outstanding. As described below, SGRP also has the authority to issue other types of stock-based awards under the 2008 Plan, but to date has only issued restricted stock in addition to such options.

The Company believes that it is desirable to align the interests of SGRP's directors, executives, employees and consultants with those of its stockholders through their ownership of SGRP Shares. Although the Company does not require its directors, executives, employees or consultants to own SGRP Shares, the Corporation believes that it can help achieve this objective by providing long term equity incentives through the issuance to its directors, executives, employees or consultants of options to purchase SGRP Shares and other stock-based awards pursuant to the 2008 Plan (as defined below) and facilitating the purchase of SGRP Shares at a modest discount by all of its executives, employees and consultants who elect to participate in its Employee Stock Purchase Plan (as defined below). In particular, the Company believes that the award of options to purchase SGRP Shares to such directors, executives, employees and consultants encourages growth in their ownership of SGRP Shares, which in turn leads to the expansion of their stake in the long-term performance and success of the Company.

SGRP's stockholders approved and adopted the 2008 Plan in May of 2008, as the successor to the Prior Plans with respect to all new options issued, and an amendment to the 2008 Plan in May of 2009, permitting the discretionary repricing described below. The 2008 Plan provides for the granting of either incentive or nonqualified stock options to

purchase SGRP Shares, restricted SGRP Shares, and restricted stock units, stock appreciation rights and other awards based on SGRP Shares ("Awards") to SGRP Directors and the Company's specified executives, employees and consultants (which are employees of certain of its affiliates), although to date SGRP has not issued any permissible form of award other than stock options. Unless terminated sooner as provided therein, the 2008 Plan will terminate on May 28, 2018, which is ten years from the 2008 Plan Effective Date, and no further Awards may be made under it. However, any existing Awards made prior to such termination will continue in accordance with their respective terms and will continue to be governed by the 2008 Plan. Stock options granted under the 2008 Plan have a maximum term of ten years, except in the case of incentive stock options granted to greater than 10% stockholders (whose terms are limited to a maximum of five years), and SGRP has generally issued options having maximum terms.

The 2008 Plan limits the number of SGRP Shares that may be covered by Awards ("Outstanding Covered Shares") to 5,600,000 SGRP Shares in the aggregate (the "Maximum Covered Shares"), which Outstanding Covered Shares for this purpose consist of the sum of (i) the SGRP Shares covered by all Awards issued under the 2008 Plan on or after May 29, 2008 ("New Awards"), plus (ii) and the SGRP Shares covered by all stock options issued at any time under the 2000 Plan or 1995 Plan to the extent they were still outstanding on May 29, 2008 ("Continuing Awards"). SGRP Shares covered by New Awards or Continuing Awards that expire, lapse, terminate, are forfeited, become void or otherwise cease to exist (other than as a result of exercise) are no longer Outstanding Covered Shares, are added back to remaining availability under the Maximum Covered Shares and thus become available for new Award grants, while those SGRP Shares covered by exercised New Awards or Continuing Awards continue to be Outstanding Covered Shares and are not added back to, and thus continue to reduce, the remaining availability under the Maximum Covered Shares under the 2008 Plan. The Outstanding Covered Shares and Maximum Covered Shares (as well as the SGRP Shares covered by a particular Award) are all subject to certain adjustments that may be made by the Compensation Committee upon the occurrence of certain changes in the Corporation's capitalization or structure as provided in the 2008 Plan. Except for the adjustments described above, an increase in the Maximum Covered Shares requires the consent of the SGRP stockholders under the terms of the 2008 Plan and Exchange Rules.

Notes to Consolidated Financial Statements (continued)

11. Stock Based Compensation (continued)

The 2008 Plan (as amended in 2009) gives SGRP's Compensation Committee the full authority and complete flexibility from time to time to designate and modify (in its discretion) one or more of the outstanding awards (including their exercise and base prices and other components and terms) to (among other things) restore their intended values and incentives to their holders. However, the exercise price, base value or similar component (if equal to SGRP's full stock price at issuance) of any award cannot be lowered to an amount that is less than the Fair Market Value (as defined in the 2008 Plan) on the date of the applicable modification, and no modification can adversely affect an awardee's rights or obligations under an award without the awardee's consent. No further consent of SGRP's stockholders is required for any repricing or other modification of any outstanding or other award under the 2008 Plan, including those previously issued under predecessor plans. Awards have only been repriced once (in 2009) to date pursuant to this authority.

Stock options and other stock based awards under the 2008 Plan may be issued from time to time by SGRP in its discretion to the Company's executives and other employees and generally are included in the annual incentive plans of SGRP's executives. The Company's management may present recommendations for such awards to the Compensation Committee at any of its regular quarterly meetings, although recently most recommendations have been made at the August meeting other than those for new employees. The Chairman of the Board or the Compensation Committee may make those recommendations respecting Mr. Raymond, Mr. Raymond as Chief Executive Officer makes those recommendations respecting Mr. Segreto, Ms. Belzer and Ms. Franco, as well as for any new officer, and each of those executives in turn are allocated potential option shares for their departments and make recommendations respecting those under their supervision (subject to review and approval by Mr. Raymond). In recommending to the Compensation Committee the actual number of options (and options shares covered) or other stock based award to be granted to each individual, the person making the recommendation makes an assessment of the individual's contribution to the Company's overall performance, the individual's successful completion of a special project, and any significant increase or decrease in the participant's abilities, responsibilities and performance of his or her duties. The Compensation Committee reviews and discusses managements' recommendations at its meeting and determines whether and to what extent to approve and grant the proposed stock option or other stock based awards to executives and employees of the Company pursuant to the 2008 Plan.

The stock options issued under the 2008 Plan are typically "nonqualified" (as a tax matter), have a ten (10) year maximum life (term) and vest during the first four years following issuance at the rate of 25% on each anniversary date of their issuance. SGRP has the authority to issue other types of stock-based awards under the 2008 Plan, but to date has only issued restricted stock in addition to stock options. The Company accounts for its employee and affiliate employee stock option expense as compensation expense in the Company's consolidated financial statements when the stock options are granted, as now required by applicable accounting principles. Share-based compensation cost is measured on the grant date, based on the fair value of the award calculated at that date, and is recognized over the requisite service period, which generally is the options' vesting period. Fair value is calculated using the Black-Scholes option pricing model.

Summary of Stock Compensation Plan Activities During 2012:

Plan	Beginning Balance	Outstanding Options			December 31, 2012 Balance
		Granted	Exercised	Cancelled	

Edgar Filing: SPAR GROUP INC - Form 10-K
