THE OFFERING

Common stock
offered by the 280,000 shares of common stock.
Selling Stockholders

Common stock to be
outstanding 10,411,876 shares of common stock, assuming exercise of all outstanding Warrants.

Use of proceeds We will not receive any of the proceeds from the sale of shares of common stock by the Selling Stockholders. However, to the extent that the Warrants are exercised for cash, we will receive proceeds from any such exercise up to an aggregate of \$1,092,000 for the 140,000 shares of common stock issuable upon such exercise. We intend to use any cash proceeds received from the exercise of the Warrants for working capital and other general corporate purposes.

Risk factors You should carefully read and consider the information set forth under the heading “Risk Factors” on page 3 and all other information set forth in this prospectus other documents that are incorporated by reference into this prospectus before deciding to invest in our common stock.

NASDAQ Capital
Market symbol “NVEE”

RISK FACTORS

Before deciding to invest in our common stock, you should consider carefully the following discussion of risks and uncertainties affecting us and our common stock, as well as the risks and uncertainties incorporated by reference in this prospectus from our Annual Report on Form 10-K for the fiscal year ended December 31, 2015, our subsequent periodic reports and the other information contained or incorporated by reference in this prospectus. If any of the events anticipated by these risks and uncertainties occur, our business, financial condition and results of operations could be materially and adversely affected, and the value of our common stock could decline. The risks and uncertainties we discuss in this prospectus and in the documents incorporated by reference herein and therein are those that we currently believe may materially affect our company. Additional risks and uncertainties not presently known to us or that we currently deem immaterial also may materially and adversely affect our business, financial condition and results of operations.

Risks Related To This Offering

If the price of our common stock fluctuates significantly, your investment could lose value.

Although our common stock is listed on the NASDAQ Capital Market (“NASDAQ”), we cannot assure you that an active public market will continue for our common stock. If an active public market for our common stock does not continue, the trading price and liquidity of our common stock will be materially and adversely affected. If there is a thin trading market or “float” for our stock, the market price for our common stock may fluctuate significantly more than the stock market as a whole. Without a large float, our common stock would be less liquid than the stock of companies with broader public ownership and, as a result, the trading prices of our common stock may be more volatile. In addition, in the absence of an active public trading market, investors may be unable to liquidate their investment in us. Furthermore, the stock market is subject to significant price and volume fluctuations, and the price of our common stock could fluctuate widely in response to several factors, including:

our quarterly or annual operating results;

changes in our earnings estimates;

investment recommendations by securities analysts following our business or our industry;

additions or departures of key personnel;

changes in the business, earnings estimates or market perceptions of our competitors;

our failure to achieve operating results consistent with securities analysts' projections;

changes in industry, general market or economic conditions; and

announcements of legislative or regulatory changes.

The stock market has experienced extreme price and volume fluctuations in recent years that have significantly affected the quoted prices of the securities of many companies, including companies in our industry. The changes often appear to occur without regard to specific operating performance. The price of our common stock could fluctuate based upon factors that have little or nothing to do with our company and these fluctuations could materially reduce our stock price.

You may experience future dilution as a result of future equity offerings.

In order to raise additional capital, we may in the future offer additional shares of our common stock or other securities convertible into or exchangeable for our common stock at prices that may not be the same as the price in this offering. We may sell shares or other securities in any other offering at a price that is less than the price paid by investors in this offering, and investors purchasing shares or other securities in the future could have rights superior to existing stockholders. The price at which we sell additional shares of our common stock, or securities convertible or exchangeable into common stock, in future transactions may be higher or lower than the price paid by investors in this offering.

FORWARD-LOOKING STATEMENTS

Some of the statements contained in this prospectus or incorporated by reference into this prospectus contain “forward-looking” statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and the Private Securities Litigation Reform Act of 1995. From time to time, we also provide forward-looking statements in other materials we release to the public, as well as oral forward-looking statements. Forward-looking statements include, but are not limited to, statements regarding our “expectations,” “hopes,” “beliefs,” “intentions,” or “strategies” regarding the future. In addition, any statements that refer to projections, forecasts, or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. We have tried, wherever possible, to identify such statements by using words such as, but not limited to, “anticipate,” “believe,” “expect,” “intend,” “estimate,” “predict,” “project,” “may,” “might,” “should,” “would,” “will,” “likely,” “will likely result,” “continue,” “could,” “possible,” “potential,” “target,” “forecast,” “goal,” “observe,” “seek,” “strategy” and other words and terms of similar meaning. The absence of these words does not mean that a statement is not forward looking. The forward-looking statements in this prospectus reflect the Company’s current views with respect to future events and financial performance.

Forward-looking statements are not historical factors and should not be read as a guarantee or assurance of future performance or results, and will not necessarily be accurate indications of the times at, or by, or if which such performance or results will be achieved. Forward-looking statements are based on information available at the time those statements are made or management’s good faith beliefs, expectations and assumptions as of that time with respect to future events. Because forward-looking statements relate to the future, they are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements. Important factors that could cause such differences include:

our ability to retain the continued service of our key professionals and to identify, hire and retain additional qualified professionals;

changes in demand from the local and state government and private clients that we serve;

general economic conditions, nationally and globally, and their effect on the demand and market for our services;

fluctuations in our results of operations;

the government’s funding and budgetary approval process;

the possibility that our contracts may be terminated by our clients;

our ability to win new contracts and renew existing contracts;

our dependence on a limited number of clients;

our ability to complete projects timely, in accordance with our customers' expectations, or profitability;

our ability to successfully execute our mergers and acquisitions strategy, including the integration of new companies into our business;

our ability to successfully manage our growth strategy;

our ability to raise capital in the future;

competitive pressures and trends in our industry and our ability to successfully compete with our competitors;

our ability to avoid losses under fixed-price contracts;

the credit and collection risks associated with our clients;

our ability to comply with procurement laws and regulations;

changes in laws, regulations, or policies;

the enactment of legislation that could limit the ability of local, state and federal agencies to contract for our privatized services;

our ability to complete our backlog of uncompleted projects as currently projected;

the risk of employee misconduct or our failure to comply with laws and regulations;

our ability to control, and operational issues pertaining to, business activities that we conduct with business partners and other third parties; and

significant influence by our principal stockholder and the existence of certain anti-takeover measures in our governing documents.

There can be no assurance that future developments affecting us will be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties, or assumptions, many of which are beyond our control, that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. In light of these risks and uncertainties, there can be no assurance that the forward-looking information contained in this prospectus will in fact transpire or prove to be accurate. Readers are cautioned to consider the specific risk factors described herein and not to place undue reliance on the forward-looking statements contained herein, which speak only as of the date hereof.

The Company undertakes no obligation to update or publicly revise any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required under applicable securities laws. All subsequent written or oral forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by this paragraph. You are advised, however, to consider any further disclosures we make on related subjects in our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and our other filings with the SEC. Also note that we provide a cautionary discussion of risks and uncertainties relevant to our business under “Item 1A. Risk Factors” in our most recent Annual Report on Form 10-K. We note these factors for investors as permitted by the Private Securities Litigation Reform Act of 1995. You should understand it is not possible to predict or identify all such factors.

USE OF PROCEEDS

We will not receive any of the proceeds from the sale of shares of common stock by the Selling Stockholders. However, to the extent that the Warrants are exercised for cash, we will receive proceeds from any such exercise up to an aggregate of \$1,092,000 for the 140,000 shares of common stock issuable upon such exercise. We intend to use any cash proceeds received from the exercise of the Warrants for working capital and other general corporate purposes.

SELLING STOCKHOLDERS

On March 26, 2013, we priced our initial public offering of 1,400,000 units. Each unit was sold at an offering price of \$6.00 per unit and consisted of one share of the Company's common stock and one warrant (each, a "Public Warrant") to purchase one share of our common stock at an exercise price of \$7.80 per share. The units began trading on the NASDAQ on March 27, 2013 and traded solely as units through September 26, 2013. On September 27, 2013 (the "Separation Date"), the common stock and Public Warrants underlying our units automatically separated from the units and began trading separately on the NASDAQ under the symbols "NVEE" and "NVEEW," respectively. Each Public Warrant entitled the holder to purchase from us one share of our common stock at an exercise price of \$7.80 beginning on the Separation Date, provided that there was an effective registration statement in effect covering the shares of common stock underlying the Public Warrants.

In connection with the IPO, as disclosed in Item 7 of our Annual Report on Form 10-K incorporated by reference herein, upon closing, Roth purchased a unit warrant to acquire up to 140,000 units at an exercise price of \$7.20 per unit, each of such units consisting of one share of the Company's common stock and one warrant to purchase one share of the Company's common stock at an exercise price of \$7.80 per share on terms substantially identical to those contained in the Public Warrants. Roth exercised these warrants for cash on March 25, 2016 and accordingly received 140,000 shares of common stock offered hereby and 140,000 Warrants. We currently anticipate that the Warrantheolders will consist of one or more parties to whom such Warrants are transferred by Roth pursuant to one or more transactions exempt from the registration requirements of the Securities Act, including potentially its partners, officers or affiliates, and who have been requested to be named as a Selling Stockholder in a prospectus supplement to this prospectus filed pursuant to Securities Act 424(b)(7). Although as of the date hereof, Roth has not so requested to be named as a Selling Stockholder itself regarding any shares underlying the Warrants, it may choose to do so in the future with regard to all or a portion of the shares underlying the Warrants, in which case we will file an applicable prospectus supplement so naming them.

The information set forth in the following table regarding the beneficial ownership after resale of shares of common stock is based upon the assumption that the Selling Stockholders will sell all of the shares of common stock covered by this prospectus.

Selling Stockholder	Class	Number of Shares Beneficially Owned	Percent of Class	Number of Shares Offered	Number of Shares of Class Beneficially Owned After Offering	Percentage of Shares of Class Beneficially Owned After Offering

(1) Includes 140,000 shares currently issuable upon exercise of the Warrants.

(2) The Warrantholders (including their transferees, pledgees or donees or their successors) may elect to exercise the Warrants at any time prior to their expiration on March 27, 2018 and may from time to time offer and sell pursuant to this prospectus and the applicable prospectus supplement up to an aggregate of 140,000 shares of our Common Stock received upon such exercise. We will identify any such Warrantholder that becomes a Selling Stockholder and their beneficial ownership of our Common Stock in a prospectus supplement filed pursuant to Securities Act Rule 424(b)(7), as permitted by Rule 430B(b)(2).

PLAN OF DISTRIBUTION

The Selling Stockholders will act independently of the Company in making their decision with respect to the timing, manner and size of any sale(s). The Selling Stockholders and any of their respective pledgees, donees, transferees or other successors-in-interest may, from time to time, sell any or all of the shares of common stock beneficially owned by it and offered hereby directly or through one or more broker-dealers or agents. The Selling Stockholders will be responsible for commissions charged by such broker-dealers or agents. Such shares of common stock may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale, or at negotiated prices.

The Selling Stockholders may use any one or more of the following methods when selling shares:

through underwriters, brokers or dealers (who may act as agent or principal and who may receive compensation in the form of discounts, concessions or commissions from the Selling Stockholders, the purchaser or such other persons who may be effecting such sales) for resale to the public or to institutional investors at various times;

through negotiated transactions, including, but not limited to, block trades in which the broker or dealer so engaged will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;

through purchases by a broker or dealer as principal and resale by that broker or dealer for its account;

on any national securities exchange or quotation service on which the shares may be listed or quoted at the time of sale at market prices prevailing at the time of sale, at prices related to such prevailing market prices, or at negotiated prices;

in private transactions other than exchange or quotation service transactions;

short sales, purchases or sales of put, call or other types of options, forward delivery contracts, swaps, offerings of structured equity-linked securities or other derivative transactions or securities;

transactions with a broker-dealer or its affiliate, whereby the broker-dealer or its affiliate will engage in short sales of shares and may use shares to close out its short position;

options or other types of transactions that require the delivery of shares to a broker-dealer or an affiliate thereof, who will then resell or transfer the shares;

loans or pledges of shares to a broker-dealer or an affiliate, who may sell the loaned shares or, in an event of default in the case of a pledge, sell the pledged shares;

through offerings of securities exercisable, convertible or exchangeable for shares, including, without limitation, securities issued by trusts, investment companies or other entities;

offerings directly to one or more purchasers, including institutional investors;

through ordinary brokerage transactions and transactions in which a broker solicits purchasers;

through distribution to the security holders of the Selling Stockholders;

through a combination of any such methods of sale; or

through any other method permitted under applicable law.

Additionally, the Selling Stockholders may resell all or a portion of its shares in open market transactions in reliance upon Rule 144 under the Securities Act, provided that they meet the criteria and conforms to the requirements of Rule 144.

The Selling Stockholders may be deemed to be a statutory underwriter under the Securities Act. In addition, any other broker-dealers who act in connection with the sale of the shares hereunder may be deemed to be “underwriters” within the meaning of Section 2(11) of the Securities Act, and any commissions received by them and profit on any resale of the shares as principal may be deemed to be underwriting discounts and commissions under the Securities Act. Any other broker-dealers engaged by the Selling Stockholders may arrange for other brokers-dealers to participate in sales. Such broker-dealers and any other participating broker-dealers may, in connection with such sales, be deemed to be underwriters within the meaning of the Securities Act. If the Selling Stockholders effect such transactions through underwriters, broker-dealers or agents, such underwriters, broker-dealers or agents may receive commissions in the form of discounts, concessions or commissions from the Selling Stockholders or commissions from purchasers of the shares of common stock for whom they may act as agent or to whom they may sell as principal, or both (which discounts, concessions or commissions as to particular underwriters, broker-dealers or agents may be less than or in excess of those customary in the types of transactions involved). Any discounts or commissions received by any such broker-dealers may be deemed to be underwriting discounts and commissions under the Securities Act.

There can be no assurance that the Selling Stockholders will sell any or all of the shares of common stock registered pursuant to the registration statement of which this prospectus forms a part.

We are not aware of any plans, arrangements or understandings between the Selling Stockholders and any other underwriter, broker-dealer or agent regarding the sale of shares of common stock by the Selling Stockholders.

We will pay all expenses incident to the filing of this registration statement. These expenses include accounting and legal fees in connection with the preparation of the registration statement of which this prospectus form a part, legal and other fees in connection with the qualification of the sale of the shares under the laws of certain states (if any),

registration and filing fees and other expenses.
