UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended **June 30, 2016**

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from ___ to

Commission file number: **001-14733**

LITHIA MOTORS, INC.

(Exact name of registrant as specified in its charter)

Oregon

(State or other jurisdiction of incorporation
or organization)

93-0572810

(I.R.S. Employer
Identification No.)

150 N. Bartlett Street, Medford, Oregon

97501

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

(Address of principal executive offices)

(Zip Code)

Registrant's telephone number, including area code: **541-776-6401**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. Large accelerated filer Accelerated filer Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class A common stock without par value	23,401,321
Class B common stock without par value	1,762,231
(Class)	Outstanding at July 29, 2016

LITHIA MOTORS, INC. AND SUBSIDIARIES**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)****Note 1. Interim Financial Statements****Basis of Presentation**

These condensed Consolidated Financial Statements contain unaudited information as of June 30, 2016 and for the three and six months ended June 30, 2016 and 2015. The unaudited interim financial statements have been prepared pursuant to the rules and regulations for reporting on Form 10-Q. Accordingly, certain disclosures required by accounting principles generally accepted in the United States of America for annual financial statements are not included herein. In management's opinion, these unaudited financial statements reflect all adjustments (which include only normal recurring adjustments) necessary for a fair presentation of the information when read in conjunction with our 2015 audited Consolidated Financial Statements and the related notes thereto. The financial information as of December 31, 2015 is derived from our Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 26, 2016. The interim condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and the notes thereto included in our 2015 Annual Report on Form 10-K. The results of operations for the interim periods presented are not necessarily indicative of the results to be expected for the full year.

Reclassifications

Certain reclassifications of amounts previously reported have been made to the accompanying condensed Consolidated Financial Statements to maintain consistency and comparability between periods presented. These reclassifications had no impact on previously reported net income.

Note 2. Accounts Receivable

Accounts receivable consisted of the following (in thousands):

	June 30, 2016	December 31, 2015
Contracts in transit	\$ 159,069	\$ 168,460
Trade receivables	38,524	33,749
Vehicle receivables	34,441	36,470

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

Manufacturer receivables	61,109	59,215
Auto loan receivables	54,412	42,490
Other receivables	3,001	3,033
	350,556	343,417
Less: Allowances	(3,972)	(2,243)
Less: Long-term portion of accounts receivable, net	(41,291)	(32,712)
Total accounts receivable, net	\$ 305,293	\$ 308,462

Accounts receivable classifications include the following:

• Contracts in transit are receivables from various lenders for the financing of vehicles that we have arranged on behalf of the customer and are typically received approximately ten days after selling a vehicle.

• Trade receivables are comprised of amounts due from customers for open charge accounts, lenders for the commissions earned on financing and others for commissions earned on service contracts and insurance products.

• Vehicle receivables represent receivables for the portion of the vehicle sales price paid directly by the customer.

• Manufacturer receivables represent amounts due from manufacturers, including holdbacks, rebates, incentives and warranty claims.

• Auto loan receivables include amounts due from customers related to retail sales of vehicles and certain finance and insurance products.

Interest income on auto loan receivables is recognized based on the contractual terms of each loan and is accrued until repayment, charge-off or repossession. Direct costs associated with loan originations are capitalized and expensed as an offset to interest income when recognized on the loans. All other receivables are recorded at invoice and do not bear interest until they are 60 days past due.

The allowance for doubtful accounts is estimated based on our historical write-off experience and is reviewed monthly. Consideration is given to recent delinquency trends and recovery rates. Account balances are charged against the allowance after all appropriate means of collection have been exhausted and the potential for recovery is considered remote. The annual activity for charges and subsequent recoveries is immaterial.

The long-term portion of accounts receivable was included as a component of other non-current assets in the Consolidated Balance Sheets.

Note 3. Inventories

The components of inventories, net, consisted of the following (in thousands):

	June 30, 2016	December 31, 2015
New vehicles	\$1,172,198	\$1,113,613
Used vehicles	354,420	302,911
Parts and accessories	55,656	54,463
Total inventories	\$1,582,274	\$1,470,987

Note 4. Goodwill and Franchise Value

The changes in the carrying amounts of goodwill are as follows (in thousands):

	Domestic	Import	Luxury	Consolidated
Balance as of December 31, 2014 ¹	\$ 91,011	\$79,601	\$28,763	\$ 199,375
Additions through acquisitions	6,892	5,029	2,170	14,091
Reduction related to divestiture	—	(246)	—	(246)
Balance as of December 31, 2015 ¹	97,903	84,384	30,933	213,220
Additions through acquisitions	966	1,283	193	2,442
Reduction related to divestiture	(1,218)	—	—	(1,218)
Balance as of June 30, 2016 ¹	\$ 97,651	\$85,667	\$31,126	\$ 214,444

¹ Net of accumulated impairment losses of \$299.3 million recorded during the year ended December 31, 2008.

The changes in the carrying amounts of franchise value are as follows (in thousands):

	Franchise Value
Balance as of December 31, 2014	\$ 150,892
Additions through acquisitions	6,843
Reduction related to divestiture	(36)

Balance as of December 31, 2015	157,699
Additions through acquisitions	5,115
Reduction related to divestiture	(518)
Balance as of June 30, 2016	\$ 162,296

Note 5. Stockholders' Equity

Repurchases of Class A Common Stock

Repurchases of our Class A Common Stock occurred under repurchase authorizations granted by our Board of Directors and related to shares withheld as part of the vesting of restricted stock units ("RSUs").

In August 2011, our Board of Directors authorized the repurchase of up to 2 million shares of our Class A common stock and, on July 20, 2012, our Board of Directors authorized the repurchase of 1 million additional shares of our Class A common stock. Effective February 29, 2016, our Board of Directors authorized the repurchase of up to \$250 million of our Class A common stock. This authorization replaced the existing authorizations, increasing the total and establishing a maximum dollar rather than share amount.

Share repurchases under our authorizations were as follows:

	Repurchases Occurring in the Six Months Ended June 30, 2016		Cumulative Repurchases as of June 30, 2016	
	Shares	Average Price	Shares	Average Price
2011 Share Repurchase Authorization	599,123	\$ 79.21	2,327,636	\$ 51.09
2016 Share Repurchase Authorization	622,225	\$ 78.52	622,225	\$ 78.52

As of June 30, 2016, we had \$201.1 million available for repurchases pursuant to our 2016 share repurchase authorization.

In addition, during the first six months of 2016, we repurchased 94,363 shares at an average price of \$90.48 per share, for a total of \$8.5 million, related to tax withholdings associated with the vesting of RSUs. The repurchase of shares related to tax withholdings associated with stock awards does not reduce the number of shares available for repurchase as approved by our Board of Directors.

Class B Common Stock Conversion

On March 2, 2016, Lithia Holding Company, L.L.C. (“Holding Company”), which is managed and controlled by Sidney B. DeBoer, our Chairman of the Board, notified us that it had converted 780,000 shares of our Class B Common Stock into shares of our Class A Common Stock and distributed them to certain members of Holding Company in redemption of their membership interests in Holding Company. At that time, this transaction decreased the voting power of Holding Company to 42.4% from 52.3%, but did not result in any person acquiring voting control over us.

Dividends

Dividends paid on our Class A and Class B common stock were as follows:

Three Months Ended June 30,	Six Months Ended June 30,
--	--

	2016	2015	2016	2015
Dividend amount per share	\$0.25	\$0.20	\$0.45	\$0.36
Total amount of dividend (in thousands)	6,373	5,266	11,524	9,482

See Note 13 for a discussion of a dividend related to our second quarter 2016 financial results.

Note 6. Deferred Compensation and Long-Term Incentive Plan

We offer a deferred compensation and long-term incentive plan (the “LTIP”) to provide certain employees the ability to accumulate assets for retirement on a tax-deferred basis. We may make discretionary contributions to the LTIP. Discretionary contributions vest over one to seven years depending on the employee’s age and position. Additionally, a participant may defer a portion of his or her compensation and receive the deferred amount upon certain events, including termination or retirement. The following is a summary related to our LTIP (dollars in thousands):

	Three Months Ended June 30, 2016		Six Months Ended June 30, 2016	
Compensation expense	\$252	\$463	\$532	\$920
Discretionary contribution	\$10	\$153	\$1,392	\$2,249
Guaranteed annual return	5.25%	5.25%	5.25%	5.25%

As of June 30, 2016 and December 31, 2015, the balance due, comprised of both amounts participants elected to defer and discretionary contributions, was \$20.1 million and \$19.7 million, respectively, and was included as a component of accrued liabilities and other long-term liabilities in the Consolidated Balance Sheets.

Assets to fund the obligations of the LTIP are held in a Rabbi Trust and must be used only for purposes of providing benefits under the plan, other than in an event of insolvency. The assets held by the Rabbi Trust are invested in corporate-owned life insurance. As of June 30, 2016 and December 31, 2015, the value of the assets held by the Rabbi trust were \$21.0 million and \$15.4 million, respectively, and are recorded as a component of other non-current assets in the Consolidated Balance Sheets.

Note 7. Fair Value Measurements

Factors used in determining the fair value of our financial assets and liabilities are summarized into three broad categories:

Level 1 - quoted prices in active markets for identical securities;

Level 2 - other significant observable inputs, including quoted prices for similar securities, interest rates, prepayment spreads, credit risk; and

Level 3 - significant unobservable inputs, including our own assumptions in determining fair value.

The inputs or methodology used for valuing financial assets and liabilities are not necessarily an indication of the risk associated with investing in them.

We estimate the value of our equity-method investment, which is recorded at fair value on a non-recurring basis, based on a market valuation approach. We use prices and other relevant information generated primarily by recent market transactions involving similar or comparable assets. Because these valuations contain unobservable inputs, we classified the measurement of fair value of our equity-method investment as Level 3.

We estimate the value of other long-lived assets that are recorded at fair value on a non-recurring basis based on a market valuation approach. We use prices and other relevant information generated primarily by recent market transactions involving similar or comparable assets, as well as our historical experience in divestitures, acquisitions and real estate transactions. Additionally, we may use a cost valuation approach to value long-lived assets when a market valuation approach is unavailable. Under this approach, we determine the cost to replace the service capacity of an asset, adjusted for physical and economic obsolescence. When available, we use valuation inputs from independent valuation experts, such as real estate appraisers and brokers, to corroborate our estimates of fair value. Real estate appraisers' and brokers' valuations are typically developed using one or more valuation techniques including market, income and replacement cost approaches. Because these valuations contain unobservable inputs, we classified the measurement of fair value of long-lived assets as Level 3.

There were no changes to our valuation techniques during the six-month period ended June 30, 2016.

Assets and Liabilities Measured at Fair Value

Following are the disclosures related to our assets that are measured at fair value (in thousands):

Fair Value at June 30, 2016	Level 1	Level 2	Level 3
Measured on a non-recurring basis:			
Equity-method investment	\$ —	\$ —	\$11,157

Fair Value at December 31, 2015	Level 1	Level 2	Level 3
Measured on a non-recurring basis:			
Equity-method investment	\$ —	\$ —	\$22,284
Long-lived assets held and used:			
Certain buildings and improvements	\$ —	\$ —	\$6,559

Based on operating losses recognized by the equity-method investment, we determined that an impairment of our investment had occurred. Accordingly, we performed a fair value calculation for this investment and determined that a \$7.0 million and a \$8.3 million impairment, respectively, was required to be recorded as asset impairments in our Consolidated Statements of Operations for the six months ended June 30, 2016 and 2015, respectively. See Note 9.

Fair Value Disclosures for Financial Assets and Liabilities

We determined the carrying value of cash equivalents, accounts receivable, trade payables, accrued liabilities and short-term borrowings approximate their fair values because of the nature of their terms and current market rates of these instruments. We believe the carrying value of our variable rate debt approximates fair value.

We have fixed rate debt and calculate the estimated fair value of our fixed rate debt using a discounted cash flow methodology. Using estimated current interest rates based on a similar risk profile and duration (Level 2), the fixed cash flows are discounted and summed to compute the fair value of the debt. As of June 30, 2016, this debt had maturity dates between May 1, 2018 and October 1, 2034. A summary of the aggregate carrying values and fair values of our long-term fixed interest rate debt is as follows (in thousands):

	June 30, 2016	December 31, 2015
Carrying value	\$281,886	\$297,463
Fair value	286,628	296,961

Note 8. Net Income Per Share of Class A and Class B Common Stock

We compute net income per share of Class A and Class B common stock using the two-class method. Under this method, basic net income per share is computed using the weighted average number of common shares outstanding during the period excluding common shares underlying equity awards that are unvested or subject to forfeiture. Diluted net income per share is computed using the weighted average number of common shares and, if dilutive, potential common shares outstanding during the period. Potential common shares consist of the common shares issuable upon the net exercise of stock options and unvested RSUs and is reflected in diluted earnings per share by application of the treasury stock method. The computation of the diluted net income per share of Class A common stock assumes the conversion of Class B common stock, while the diluted net income per share of Class B common stock does not assume the conversion of those shares.

Except with respect to voting and transfer rights, the rights of the holders of our Class A and Class B common stock are identical. Under our Articles of Incorporation, the Class A and Class B common stock share equally in any dividends, liquidation proceeds or other distribution with respect to our common stock and the Articles of Incorporation can only be amended by a vote of the shareholders. Additionally, Oregon law provides that amendments to our Articles of Incorporation that would adversely alter the rights, powers or preferences of a given class of stock, must be approved by the class of stock adversely affected by the proposed amendment. As a result, the undistributed earnings for each year are allocated based on the contractual participation rights of the Class A and Class B common shares as if the earnings for the year had been distributed. Because the liquidation and dividend rights are identical, the undistributed earnings are allocated on a proportionate basis.

Following is a reconciliation of net income and weighted average shares used for our basic earnings per share ("EPS") and diluted EPS (in thousands, except per share amounts):

Three Months Ended June 30,	2016		2015	
Basic EPS	Class A	Class B	Class A	Class B
<i>Numerator:</i>				
Net income applicable to common stockholders	\$47,869	\$3,559	\$46,239	\$4,984

Note 9. Equity-Method Investment

In October 2014, we acquired a 99.9% membership interest in a limited liability company managed by U.S. Bancorp Community Development Corporation with an initial equity contribution of \$4.1 million. We made additional equity contributions to the entity of \$11.4 million in the first six months of 2016 and \$22.8 million in the full year of 2015. We are obligated to make \$49.8 million of total contributions in quarterly installments to the entity over a two-year period ending October 2016, of which \$38.3 million in contributions have been made as of June 30, 2016.

This investment generates new markets tax credits under the New Markets Tax Credit Program (“NMTC Program”). The NMTC Program was established by Congress in 2000 to spur new or increased investments into operating businesses and real estate projects located in low-income communities.

While U.S. Bancorp Community Development Corporation exercises management control over the limited liability company, due to the economic interest we hold in the entity, we determined our ownership portion of the entity was appropriately accounted for using the equity method.

The following amounts related to this equity-method investment were recorded in our Consolidated Balance Sheets (in thousands):

	June 30, 2016	December 31, 2015
Carrying value, recorded as a component of other non-current assets	\$11,157	\$ 22,284
Present value of obligation associated with future equity contributions, recorded as a component of accrued liabilities and other long-term liabilities	11,317	22,511

The following amounts related to this equity-method investment were recorded in our Consolidated Statements of Operations (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2016	2015	2016	2015
Asset impairments to write investment down to fair value	\$3,498	\$4,130	\$6,996	\$8,260
Our portion of the partnership's operating losses	2,065	1,733	4,131	3,465
Non-cash interest expense related to the amortization of the discounted fair value of future equity contributions	62	183	154	394
Tax benefits and credits generated	6,837	7,652	12,782	14,902

Note 10. Segments

While we have determined that each individual store is a reporting unit, we have aggregated our reporting units into three reportable segments based on their economic similarities: Domestic, Import and Luxury.

Our Domestic segment is comprised of retail automotive franchises that sell new vehicles manufactured by Chrysler, General Motors and Ford. Our Import segment is comprised of retail automotive franchises that sell new vehicles manufactured primarily by Honda, Toyota, Subaru, Nissan and Volkswagen. Our Luxury segment is comprised of

retail automotive franchises that sell new vehicles manufactured primarily by BMW, Mercedes-Benz and Lexus. The franchises in each segment also sell used vehicles, parts and automotive services, and automotive finance and insurance products.

Corporate and other revenue and income includes the results of operations of our stand-alone body shop offset by unallocated corporate overhead expenses, such as corporate personnel costs, and certain unallocated reserve and elimination adjustments. Additionally, certain internal corporate expense allocations increase segment income for Corporate and other while decreasing segment income for the other reportable segments. These internal corporate expense allocations are used to increase comparability of our dealerships and reflect the capital burden a stand-alone dealership would experience. Examples of these internal allocations include internal rent expense, internal floor plan financing charges, and internal fees charged to offset employees within our corporate headquarters that perform certain dealership functions.

We define our chief operating decision maker (“CODM”) to be certain members of our executive management group. Historical and forecasted operational performance is evaluated on a store-by-store basis and on a consolidated basis by the CODM. We derive the operating results of the segments directly from our internal management reporting system. The accounting policies used to derive segment results are substantially the same as those used to determine our consolidated results, except for the internal allocation within Corporate and other discussed above. Our CODM measures the performance of each operating segment based on several metrics, including earnings from operations, and uses these results, in part, to evaluate the performance of, and to allocate resources to, each of the operating segments.

Certain financial information on a segment basis is as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
Revenues:				
Domestic	\$826,709	\$768,170	\$1,595,611	\$1,458,853

Note 11. Contingencies

Litigation

We are party to numerous legal proceedings arising in the normal course of our business. Although we do not anticipate that the resolution of legal proceedings arising in the normal course of business or the proceedings described below will have a material adverse effect on our business, results of operations, financial condition, or cash flows, we cannot predict this with certainty.

In Re Lithia Motors Derivative Litigation

On December 14, 2015, Shiva Y. Stein, a Lithia shareholder, filed derivative claims on behalf of Lithia against its Board of Directors, listing Lithia as a nominal defendant. The case, Stein v. DeBoer, et al., Case No. 15CV33696, is pending in the Circuit Court of the State of Oregon for Marion County. Ms. Stein's claims relate to the adoption of a transition agreement between Lithia and Sidney B. DeBoer, as disclosed in a Current Report on Form 8-K filed September 16, 2015. Ms. Stein alleges that Lithia's directors breached their fiduciary duties of loyalty and due care, and wasted corporate assets, when they approved the agreement with Mr. DeBoer. Ms. Stein also alleges a claim against Sidney B. DeBoer, asserting that he has been unjustly enriched by the agreement. Ms. Stein is seeking relief in the amount of damages allegedly sustained by Lithia as a result of the alleged breaches of fiduciary duty and alleged corporate waste, disgorgement and imposition of a constructive trust on all property and profits Sidney B. DeBoer received as a result of the alleged wrongful conduct, and an award of the costs and disbursements of the lawsuit, including reasonable attorney fees, costs, and expenses. The Board and Mr. DeBoer filed Motions to Dismiss the Stein suit on February 26, 2016.

On February 12, 2016, Marty A. Jessos, a Lithia shareholder, also filed derivative claims on behalf of Lithia against its Board of Directors, listing Lithia as a nominal defendant. The case, Jessos v. DeBoer, et al., Case No. 16CV04181, was filed in the Circuit Court of the State of Oregon for Multnomah County. The Jessos suit involves the same subject matter and alleges substantially the same facts, claims, and causes of action as the Stein suit. On March 22, 2016, the Jessos suit was transferred to Marion County Circuit Court. On April 4, 2016, the parties filed a Stipulation and [Proposed] Order of Consolidation in the Stein suit to consolidate both Stein and Jessos under the Stein suit, Case No. 15CV33696. On April 4, 2016, the Court signed the consolidation order. The case is now known as *In re Lithia Motors Derivative Litigation*, Case No. 15CV33696. Plaintiffs filed their consolidated complaint on April 15, 2016.

On May 10, 2016, the Board filed its Motion to Dismiss the consolidated complaint. Mr. DeBoer filed his Motion to Dismiss on May 12, 2016. These Motions supersede the Motions filed in February, prior to the consolidation of the two cases. At this juncture, the parties have fully briefed the pending Motions. A hearing on the Motions to Dismiss the consolidated complaint will be held on Thursday, July 21, 2016.

California Wage and Hour Litigations

In June 2012 Mr. Robles and Mr. Laredo brought claims against DCH Tustin Acura (Robles vs. Tustin Motors, Inc., Case No. 30-2012-00579414, filed in the Superior Court of California, Orange County) alleging that the employer underpaid technicians in light of California Wage Order provisions that require an employer to pay at least two times the minimum wage for each hour worked if the employee is required to bring his or her own tools. The complaint was amended in late 2013 to include allegations that the employer failed to pay technicians for non-productive time and/or time spent performing tasks not compensated by the flat-rate compensation system; off-the-clock time worked; and wages due at termination. The amended complaint also alleged that the employer failed to provide technicians accurate and complete wage statements; and statutory meal and rest periods. Plaintiffs are now seeking relief on behalf of all employees at all DCH Auto Group dealerships in California. Plaintiffs also seek attorney fees and costs. These Plaintiffs (and several other former technicians in separate-but-partially-overlapping actions) also seek relief under California's Private Attorney General Action (PAGA) provisions, which allow private plaintiffs to recover civil

penalties on behalf of the State of California. DCH successfully compelled arbitration based on arbitration agreements between these claimants and the employer, although certain representative claims were excluded and stayed pending arbitration.

DCH and these claimants settled their individual claims in arbitration in 2015. In April 2016, DCH and plaintiffs agreed in principle to settle the representative claims, although this settlement has not yet been approved by either an independent arbitrator or the California courts as expressly contemplated by the parties and required by applicable law as a condition of the agreed release of claims. DCH Auto Group (USA) Limited must indemnify Lithia Motors, Inc. for losses related to this claim pursuant to the stock purchase agreement between Lithia Motors, Inc. and DCH Auto Group (USA) Limited dated June 14, 2014. As a result, we believe the exposure related to this lawsuit, when considered in relation to the terms of the stock purchase agreement, is immaterial to our financial statements.

In August 2014 Ms. Holzer filed a complaint in the Central District of California (Holzer vs. DCH Auto Group (USA) Inc., Case No. BC558869) alleging that her employer, an affiliate of DCH Auto Group (USA) Inc., failed to provide vehicle finance and sales persons, service advisors, and other clerical and hourly workers accurate and complete wage statements; and statutory meal and rest periods. The complaint also alleges that the employer failed to pay these employees for off-the-clock time worked; and wages due at termination. Plaintiffs also seek attorney fees and costs. DCH has sought to compel arbitration based on Plaintiffs' arbitration agreements. Plaintiffs (and several other employees in separate actions) are seeking relief under California's PAGA provisions. DCH is defending itself against these claims, and DCH Auto Group (USA) Limited must indemnify Lithia Motors, Inc. for losses related to this claim pursuant to the stock purchase agreement between Lithia Motors, Inc. and DCH Auto Group (USA) Limited dated June 14, 2014. As a result, we believe the exposure related to this lawsuit, when considered in relation to the terms of the stock purchase agreement, is not material.

Note 12. Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (“FASB”) issued accounting standards update (“ASU”) 2014-09, “Revenue from Contracts with Customers”, which amends the accounting guidance related to revenues. This amendment will replace most of the existing revenue recognition guidance when it becomes effective. The new standard, as amended in July 2015, is effective for fiscal years beginning after December 15, 2017 and entities are allowed to adopt the standard as early as annual periods beginning after December 15, 2016, and interim periods therein. The standard permits the use of either the retrospective or cumulative effect transition method. We are evaluating the effect this amendment will have on our consolidated financial statements and related disclosures and believe the financial impact is not material. We have not yet selected a transition method.

In July 2015, the FASB issued ASU 2015-11, “Simplifying the Measurement of Inventory (Topic 330)”. ASU 2015-11 simplifies the accounting for the valuation of all inventory not accounted for using the last-in, first-out method by prescribing inventory be valued at the lower of cost and net realizable value. ASU 2015-11 is effective for public companies' annual periods, including interim periods within those fiscal years, beginning after December 15, 2016 on a prospective basis. Early adoption is permitted. We do not expect the adoption of ASU 2015-11 to have a material effect on our financial position, results of operations or cash flows.

In February 2016, the FASB issued ASU 2016-02, "Leases". ASU 2016-02 increases transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and requires disclosing key information about leasing arrangements. ASU 2016-02 is effective for annual periods beginning after December 15, 2018, and interim periods within those annual periods. We are evaluating the effect this pronouncement will have on our consolidated financial statements and related disclosures.

In March 2016, the FASB issued ASU 2016-09, "Compensation - Stock Compensation - Improvements to Employee Share-Based Payment Accounting." ASU 2016-09 simplifies the accounting for several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities and classification on the statement of cash flows. ASU 2016-09 is effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. We are evaluating the effect this pronouncement will have on our consolidated financial statements and related disclosures. We have not yet selected a transition method.

Note 13. Subsequent Events

Common Stock Dividend

On July 25, 2016, our Board of Directors approved a dividend of \$0.25 per share on our Class A and Class B common stock related to our second quarter 2016 financial results. The dividend will total approximately \$6.4 million and will

be paid on August 26, 2016 to shareholders of record on August 12, 2016.

Credit Facility

On July 27, 2016, we amended our existing credit facility to increase the total financing commitment by \$300 million to \$2.05 billion and extend the maturity to July 2021. This syndicated credit facility is comprised of 18 financial institutions, including eight manufacturer-affiliated finance companies. Under our credit facility we are permitted to allocate the total financing commitment among floor plan financing for new vehicle inventory, floor plan financing for used vehicles (up to a maximum of \$350 million) and revolving financing for general corporate purposes, including acquisitions and working capital (up to a maximum of \$400 million). Our credit facility may be expanded to \$2.4 billion total availability, subject to lender approval. All borrowings from, and repayments to, our lending group are presented in the Consolidated Statements of Cash Flows as financing activities.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements and Risk Factors

Certain statements under the sections entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Risk Factors" and elsewhere in this Form 10-Q constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Generally, you can identify forward-looking statements by terms such as "project", "outlook," "target", "may," "will," "would," "should," "seek," "expect," "plan," "intend," "anticipate," "believe," "estimate," "predict," "potential," "likely," "goal," "strategy," "future," "maintain," and "continue" or these terms or other comparable terms. Examples of forward-looking statements in this Form 10-Q include, among others, statements we make regarding:

• Future market conditions;

• Expected operating results, such as improved store performance; continued improvement of SG&A as a percentage of gross profit and all projections;

• Anticipated continued success and growth of DCH Auto Group;

• Anticipated ability to capture additional market share;

• Anticipated ability to find accretive acquisitions;

• Anticipated additions of dealership locations to our portfolio in the future;

• Anticipated availability of liquidity from our unfinanced operating real estate; and

• Anticipated levels of capital expenditures in the future.

The forward-looking statements contained in this Form 10-Q involve known and unknown risks, uncertainties and situations that may cause our actual results to materially differ from the results expressed or implied by these statements. Certain important factors that could cause actual results to differ from our expectations are discussed in Part II - Other Information, Item 1A in this Form 10-Q and in the Risk Factors section of our 2015 Annual Report on Form 10-K, as supplemented and amended from time to time in Quarterly Reports on Form 10-Q and our other filings with the Securities and Exchange Commission.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events that depend on circumstances that may or may not occur in the future. You should not place undue reliance on these forward-looking statements. Any forward-looking statement speaks only as of the date on which it is made. We assume no obligation to update or revise any forward-looking statement.

Overview

We are a leading operator of automotive franchises and a retailer of new and used vehicles and related services. As of July 29, 2016, we offered 31 brands of new vehicles and all brands of used vehicles in 139 stores in the United States and online at Lithia.com and DCHauto.com. We sell new and used cars and replacement parts, provide vehicle maintenance, warranty, paint and repair services, arrange related financing, and sell service contracts, vehicle protection products and credit insurance.

Our dealerships are located across the United States. We seek domestic, import and luxury franchises in cities ranging from mid-sized regional markets to metropolitan markets. We evaluate all brands for expansion opportunities provided the market is large enough to support adequate new vehicle sales to justify the required capital investment.

Our mission statement is: “Driven by our employees and preferred by our customers, Lithia is the leading automotive retailer in each of our markets.” We offer customers convenient, flexible personalized service combined with the large company advantages of selection, competitive pricing, broad access to financing, and warranties. We strive for diversification in our products, services, brands and geographic locations to manage market risk and to maintain profitability. We have developed a centralized support structure to reduce store level administrative functions. This allows store personnel to focus on providing a positive customer experience. With our management information systems and centrally-performed administrative functions in Medford, Oregon, and regional accounting processing centers, we seek to gain economies of scale from our dealership network.

Results of Operations

For the three months ended June 30, 2016 and 2015, we reported net income of \$51.4 million, or \$2.01 per diluted share, and \$51.2 million, or \$1.93 per diluted share, respectively.

For the six months ended June 30, 2016 and 2015, we reported net income of \$91.7 million, or \$3.56 per diluted share, and \$91.9 million, or \$3.47 per diluted share, respectively.

Key Revenue and Gross Profit Metrics

Key performance metrics for revenue and gross profit were as follows (dollars in thousands):

Three Months Ended June 30, 2016	Revenues	Percent of Total Revenues		Gross Profit	Gross Profit Margin		Percent of Total Gross Profit

Same Store Operating Data

In the first six months of 2016, we acquired two stores and one franchise and, in the full year of 2015 we acquired six stores and opened one store. We believe that same store comparisons are an important indicator of our financial performance. Same store measures demonstrate our ability to grow revenues in our existing locations. As a result, same store measures have been integrated into the discussion below.

Same store measures reflect results for stores that were operating in each comparison period and only include the months when operations occurred in both periods. For example, a store acquired in May 2015 would be included in same store operating data beginning in June 2016, after its first full complete comparable month of operation. The second quarter operating results for the same store comparisons would include results for that store in only the period of June for both comparable periods.

New vehicle sales increased 5.2% and 6.8%, respectively, in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015, primarily driven by increases in volume related to acquisitions. On a same store basis, new vehicle sales increased 2.3% and 4.1%, respectively, in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015 as average selling prices increased.

Same store new vehicle unit sales decreased 0.1% and increased 2.1%, respectively, in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015. Our stores, on a same store basis, slightly out-performed the national new vehicle sales levels, which decreased 0.4% and increased 1.3%, respectively, in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015.

Same store unit sales increased (decreased) as follows:

Three months ended June 30,	National growth in the three	Six months ended June 30,	National growth in the six
--	---	--	--------------------------------------

	2016 compared to the same period of 2015	months ended June 30, 2016	2016 compared to the same period of 2015	months ended June 30, 2016	2016 compared to the same period of 2015¹	months ended June 30, 2016	2016 compared to the same period of 2015¹
Domestic brand same store unit sales change	(1.8)%	(1.8)%	0.2 %	1.4 %			
Import brand same store unit sales change	1.8	1.0	4.1	1.4			
Luxury brand same store unit sales change	(3.9)	(0.2)	(1.4)	0.3			
Overall	(0.1)	(0.4)	2.1	1.3			

¹ National auto unit sales and SAAR data obtained from Stephens Auto Unit Sales and SAAR report as of June 2016.

Our unit volume changes for the three- and six-month periods ended June 30, 2016 were slightly better than the overall national average, mainly driven by the out-performance of our import brand stores, but offset by under-performance in our luxury stores.

Our domestic brand unit volume change was in line with the national average for the three-month period and lagged the national average for the six-month period ended June 30, 2016. Our Chrysler and General Motors stores, which comprised 27.6% of our total new vehicle unit sales in the second quarter of 2016, had same store unit sales declines of 2.9% and 0.1%, respectively. The national average increased for Chrysler 4.3% and 6.4%, respectively, and decreased for General Motors 8.1% and 4.4%. respectively, for the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015.

The period-over-period volume declines for our luxury brand unit volume exceeded the national average in the 2016 periods compared to the 2015 periods. The decline was primarily associated with our Acura and Mercedes stores, which comprised 4.0% of our total new vehicle unit sales in the second quarter of 2016. These stores had same store unit sale declines of (11.3)% and (7.0)%, respectively, compared to a national franchise average unit sales declines of (0.1)% and (0.5)%, respectively, for the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015.

An increase in average selling prices of 2.4% and 2.0%, respectively, in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015, contributed to the overall increase in same store new vehicle revenue. All three categories of new vehicles experienced increased average selling prices.

New vehicle gross profit increased 5.1% and 6.5%, respectively, in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015. On a same store basis, new vehicle gross profit increased by 2.0% and 3.8%, respectively, in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015. We increased the average gross profit per unit \$39 and \$33, respectively, in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015.

Used vehicle retail sales are a strategic focus for organic growth. We offer three categories of used vehicles: manufacturer Certified Pre-Owned ("CPO") vehicles; Core Vehicles, or late-model vehicles with lower mileage; and Value Autos, or vehicles with over 80,000 miles. Additionally, our volume-based strategy for new vehicle sales increases the organic opportunity to convert vehicles acquired via trade to retail used vehicle sales.

Same store sales increased in all three categories of used vehicles as follows:

	Three months ended		Six months ended	
	June 30, 2016		June 30, 2016	
	compared to the		compared to the	
	same period of 2015		same period of 2015	
Certified pre-owned vehicles	10.8 %		13.2 %	
Core vehicles	11.4		11.7	
Value autos	2.0		2.2	

Overall	9.0	9.8
---------	-----	-----

The increases in same store sales were mainly a result of increased unit sales and a slight increase in average selling prices. We continue to see a mix shift towards certified pre-owned and core vehicle sales as the supply of late-model, off-lease vehicles increases. This increase was driven by increased new vehicle leasing and an overall increase in vehicle sales levels over the past 6 years. Because the average new lease is approximately 30 months, the supply of late model used vehicles has increased.

On an annualized average, as of June 30, 2016 and 2015, each of our stores sold 64 and 59 retail used vehicle units, respectively, per month. We continue to target increasing sales to 75 units per store per month, or approximately a 15% increase in units sold.

Used retail vehicle gross profit increased 7.2% and 7.7%, respectively, in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015. On a same store basis, gross profit increased 4.1% and 5.0%, respectively, in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015, driven by volume growth, partially offset by decreases in the average gross profit per unit sold.

Similar to new vehicle sales, we focus on gross profit dollars earned per unit, not on gross margin, in evaluating our sales performance. Gross profit per unit decreased in all three categories of used vehicles in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015 as our stores focused on gaining incremental sales volume. This volume-based strategy creates the ability to generate incremental future business through used vehicle trade-in opportunities, finance and insurance sales and service work.

Average gross profit per retail unit	\$172	\$199	\$(27)	(13.6)		

Wholesale transactions are vehicles we have purchased from customers or vehicles we have attempted to sell via retail that we elect to dispose of due to inventory age or other factors. Wholesale vehicles are typically sold at or near inventory cost and do not comprise a meaningful component of our gross profit.

Finance and Insurance

(Dollars in thousands, except per unit amounts)	Three Months Ended June 30,		Increase	% Increase	
	2016	2015

Revenue	\$153,999	\$136,490	\$17,509	12.8	%
Average finance and insurance per retail unit	\$1,282	\$1,198	\$84	7.0	%

The increases in finance and insurance revenue in the three- and six-month periods ended June 30, 2016, both as reported and on a same store basis, were primarily due to higher unit volumes and increases in the average finance and insurance amount per retail unit. On a same store basis, our finance and insurance revenues per retail unit increased \$60 and \$84, respectively, in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015, as both pricing and penetration rates improved.

Trends in penetration rates for total new and used retail vehicles sold are detailed below:

Three Months Ended June 30, 2016		Six Months Ended June 30, 2016	
2016	2015	2016	2015

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

Finance and insurance	78%	75%	78%	75%
Service contracts	44	42	43	42
Lifetime lube, oil and filter contracts	27	25	27	25

We believe the availability of credit is one of the key indicators of our ability to retail automobiles, as we arrange financing on almost 80% of the vehicles we sell and believe a significant amount of the vehicles we do not arrange financing for are financed elsewhere. To evaluate the availability of credit, we categorize our customers based on their Fair, Isaac and Company (FICO) credit score.

On a same store basis, the distribution by credit score for the customers we arranged financing for was as follows:

		Three Months Ended June 30, 2016		2015		Six Months Ended June 30, 2016		2015	
	FICO Score Range								
Prime	680 and above	71.6	%	69.5	%	69.9	%	68.9	%
Non-prime	620 - 679	17.5		18.6		17.8		18.8	
Sub-prime	619 or less	10.9		11.9		12.3		12.3	

Our distribution of customers by credit score was consistent for the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015. We also did not see any material change in approval rates or finance charge backs within any credit tier in the three- or six-month periods ended June 30, 2016 compared to the same periods in 2015.

Body shop	26,916	22,877	4,039	17.7	
Total service, body and parts	\$ 385,132	\$ 353,836	\$ 31,296	8.8	%

Service, body and parts gross profit	\$ 188,286	\$ 174,015	\$ 14,271	8.2	%
Service, body and parts gross margin	48.9	% 49.2	% (30)bp	

Our service, body and parts sales grew in all areas in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015. There are more late-model units in operation as new vehicle sales volumes have been increasing since 2010. We believe this increase in units in operation will continue to benefit our service, body and parts sales in the coming years as more late-model vehicles age, necessitating repairs and maintenance.

We focus on retaining customers by offering competitively-priced routine maintenance and through our marketing efforts. We increased our same store customer pay business 6.2% and 6.9%, respectively, in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015.

Same store warranty sales increased 13.5% and 16.2%, respectively, in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015, primarily due to significant recalls across multiple manufacturers. A recent report by Kelley Blue Book estimated that 1 in 8 vehicles nationwide are impacted by the Takata air bag recall. The significant number of recalls combined with a growing number of units in operation continues to drive warranty sales.

The increase (decrease) in same-store warranty work by segment was as follows:

	Three months ended June 30, 2016 compared to the same period of 2015	Six months ended June 30, 2016 compared to the same period of 2015		
Domestic	12.9	%	17.1	%
Import	34.7		36.2	
Luxury	(11.3)		(8.3)	

Same store wholesale parts increased 0.7% and 2.1%, respectively, in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015. We target independent repair shops, competing new vehicle dealers and wholesale accounts to expand parts sales to other repair shops.

Same store body shop increased 12.8% and 17.7%, respectively, in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015. Our stores have increased production through calculated adjustments to optimize personnel and equipment. Additionally, several of our body shops were in locations which experienced increased precipitation compared to the 2015 winter season and had increased volume.

Same store service, body and parts gross profit increased 5.6% and 8.2%, respectively, in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015, which is in line with our revenue growth offset by slight decreases in our gross margins. The decreases in gross margins were related to mix shifts within our customer pay and warranty sales between labor and parts as we experienced a higher growth rate in parts compared to labor.

Domestic

A summary of financial information for our Domestic segment follows:

(Dollars in thousands)	Three Months Ended June 30,		Increase (Decrease)	% Increase (Decrease)	
	2016	2015			
Revenue	\$826,709	\$768,170	\$ 58,539	7.6	%
Segment income	\$27,614	\$31,320	\$ (3,706)	(11.8)
Retail new vehicle unit sales	11,634	11,479	155	1.4	

(Dollars in thousands)	Six Months Ended June 30,		Increase (Decrease)	% Increase (Decrease)	
	2016	2015			
Revenue	\$1,595,611	\$1,458,853	\$ 136,758	9.4	%
Segment income	\$49,344	\$58,613	\$ (9,269)	(15.8)
Retail new vehicle unit sales	22,283	21,491	792	3.7	

Our Domestic segment revenue increased 7.6% in the three-month period ended June 30, 2016 compared to the same period of 2015. This increase is a result of increases in retail new and used vehicle sales, an increase in finance and insurance as a function of greater retail vehicle unit volume and improved service, body and parts sales.

Our Domestic segment income decreased 11.8% in the three-month period ended June 30, 2016 compared to the same period of 2015. There were two primary factors causing the decline. Our gross profit grew only 5.9% for our Domestic segment, lagging behind our revenue growth. Additionally, SG&A expenses increased mainly related to personnel cost and increased headcount. Increased floor plan interest related to higher inventory levels further impacted our Domestic segment income.

Similar to our Domestic segment performance in the second quarter of 2016, our Domestic segment revenue in the first six months of 2016 compared to the same period of 2015 increased 9.4% while our Domestic segment income decreased 15.8%. Gross profit for the Domestic segment increased 6.4%, which lagged the 9.4% growth in revenue, primarily due to lower total gross profit in both new and used retail vehicle sales compared to the same period of 2015. Additionally, SG&A expense increased by 13.5% and floor plan interest increased 30.8%.

Import

A summary of financial information for our Import segment follows:

(Dollars in thousands)	Three Months Ended June 30,				
	2016	2015	Increase	% Increase	
Revenue	\$934,018	\$855,305	\$78,713	9.2	%
Segment income	\$28,228	\$28,149	\$79	0.3	
Retail new vehicle unit sales	20,158	19,351	807	4.2	

(Dollars in thousands)	Six Months Ended June 30,				
	2016	2015	Increase	% Increase	
Revenue	\$1,799,761	\$1,615,385	\$184,376	11.4	%
Segment income	\$50,861	\$45,212	\$5,649	12.5	
Retail new vehicle unit sales	38,272	36,156	2,116	5.9	

Our Import segment increased revenues by 9.2% in the three-month period ended June 30, 2016 compared to the same period of 2015 due to increases in new vehicle, used vehicle retail, finance and insurance and service body and parts sales.

Segment income for our Import segment increased 0.3% in the three-month period ended June 30, 2016 compared to the same period of 2015. While gross profit margins were consistent, our growth within SG&A expense and floor plan interest for our Import segment offset the gross profit growth, resulting in unchanged profitability. During the second quarter of 2016, our Import segment increased personnel cost and advertising spend as we focused on increasing market share. Additionally, increased floor plan interest impacted incremental profitability.

The 11.4% increase in our Import segment revenue in the first six months of 2016 compared to the same period of 2015 was primarily a result of increases in new vehicle, used vehicle retail, finance and insurance and service body and parts sales.

Our Import segment income increased 12.5% in the first six months of 2016 compared to the same period of 2015. This growth exceeded the growth in revenue as we continue to integrate our DCH stores and they begin to perform at a profitability level consistent with our other existing import stores. Import segment income, as a percentage of revenue, was 2.8% for the first six months of 2016, consistent with the same period of 2015.

Luxury

A summary of financial information for our Luxury segment follows:

(Dollars in thousands)	Three Months Ended June 30,		%	
	2016	2015	Decrease	Decrease
Revenue	\$371,866	\$372,500	\$ (634)	(0.2)%
Segment income	\$9,398	\$10,801	\$ (1,403)	(13.0)
Retail new vehicle unit sales	4,317	4,330	(13)	(0.3)

(Dollars in thousands)	Six Months Ended June 30,		%	
	2016	2015	Increase (Decrease)	Increase (Decrease)
Revenue	\$718,679	\$709,493	\$ 9,186	1.3 %
Segment income	\$13,633	\$17,446	\$ (3,813)	(21.9)
Retail new vehicle unit sales	8,380	8,195	185	2.3

Revenues were essentially flat for the three months ended June 30, 2016 compared to the same period of 2015 for our Luxury segment as increases in used retail vehicles sales were offset by lower fleet sales.

Our Luxury segment income decreased 13.0% for the three months ended June 30, 2016 compared to the same period of 2015 primarily due to increased personnel cost compared to the prior year. Additionally, increased floor plan interest from higher inventory levels contributed to the decrease in segment income.

Our luxury segment revenue increased 1.3% in the first six months of 2016 compared to the same period of 2015, primarily due to increases in retail new and used unit sales, increases in new and used vehicle selling prices, an increase in finance and insurance as a function of greater retail vehicle unit volume and improved service, body and parts sales. New vehicle unit sales growth of 2.3% was the primary driver of the revenue increase, partially offset by a decrease in wholesale vehicle revenues and fleet and other revenues.

Our luxury segment income decreased 21.9% in the first six months of 2016 compared to the same period of 2015, as increased expenses in all areas of SG&A and increased floor plan interest associated with higher inventory levels exceeded the increase in total gross profit.

Corporate and Other

Revenues attributable to Corporate and other include the results of operations of our stand-alone body shop offset by certain unallocated reserve and elimination adjustments related to vehicle sales.

	Three Months Ended June 30,		Increase	% Increase
(Dollars in thousands)	2016	2015	(Decrease)	(Decrease)
Revenue	\$746	\$972	\$ (226)	(23.3)%
Segment income	\$31,563	\$20,984	\$ 10,579	50.4

(Dollars in thousands)	Six Months Ended June 30,		Increase (Decrease)	% Increase (Decrease)
	2016	2015		
Revenue	\$2,149	\$2,394	\$ (245)	(10.2)%
Segment income	\$61,634	\$42,961	\$ 18,673	43.5

The decrease in Corporate and other revenue in the first six months of 2016 compared to the same period of 2015, was primarily related to changes to certain reserves that are not specifically identified with our domestic, import or luxury segment revenue, such as our reserve for revenue reversals associated with subsequently unwound vehicle sales and elimination of revenues associated with internal corporate vehicle purchases and leases with our stores.

Segment income attributable to Corporate and other includes amounts associated with the operating income from our stand-alone body shop and certain internal corporate expense allocations that reduce reportable segment income but increase Corporate and other income. These internal corporate expense allocations are used to increase comparability of our dealerships and reflect the capital burden a stand-alone dealership would experience. Examples of these internal allocations include internal rent expense, internal floor plan financing charges, and internal fees charged to offset employees within our corporate headquarters who perform certain dealership functions.

The increases of \$10.6 million and \$18.7 million, respectively, in Corporate and other segment income for the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015 were primarily related to insurance activity and changes to insurance reserves and increases in internal corporate expense allocations for the capital burden of higher inventory levels.

Asset Impairments

Asset impairments recorded as a component of operations consist of the following:

(Dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
Equity-method investment	\$3,498	\$4,130	\$6,996	\$8,260
Long-lived assets	—	2,000	—	2,000
	\$3,498	\$6,130	\$6,996	\$10,260

Asset impairments of our equity-method investment are associated with our investment in a limited liability company that participates in the NMTC Program. We evaluated this equity-method investment at the end of each reporting period and identified indications of loss resulting from other than temporary declines in value. See Note 9 of the Condensed Notes to the Consolidated Financial Statements for additional information.

In the second quarter of 2015, we recorded \$2.0 million of impairment charges associated with certain properties. As the expected future use of these facilities changed, the long-lived assets were tested for recoverability and were determined to have a carrying value exceeding the fair value of these properties.

Selling, General and Administrative Expense (“SG&A”)

SG&A includes salaries and related personnel expenses, advertising (net of manufacturer cooperative advertising credits), rent, facility costs, and other general corporate expenses.

(Dollars in thousands)	Three Months Ended June 30,			% Increase	
	2016	2015	Increase		
Personnel	\$ 144,530	\$ 134,003	\$ 10,527	7.9	%
Advertising	19,784	16,806	2,978	17.7	
Rent	6,944	5,694	1,250	22.0	
Facility costs	10,373	8,459	1,914	22.6	
Other	33,895	30,648	3,247	10.6	
Total SG&A	\$ 215,526	\$ 195,610	\$ 19,916	10.2	%

	Three Months Ended June 30,		Increase
As a % of gross profit	2016	2015	(Decrease)
Personnel	44.9%	45.0%	(10)bp

Rent	2.2	1.9	30
Facility costs	3.2	2.8	40
Other	10.5	10.4	10
Total SG&A	66.9%	65.7%	120

	Six Months Ended June 30,			
(Dollars in thousands)	2016	2015	Increase	% Increase
Personnel	\$293,254	\$267,017	\$26,237	9.8 %
Advertising	39,119	32,150	6,969	21.7
Rent	13,346	11,614	1,732	14.9
Facility costs	18,432	16,804	1,628	9.7
Other	70,481	59,643	10,838	18.2
Total SG&A	\$434,632	\$387,228	\$47,404	12.2 %

	Six Months Ended June 30,		Increase
As a % of gross profit	2016	2015	(Decrease)
Personnel	46.6%	46.8%	(20)bp
Advertising	6.2 %	5.6 %	60
Rent	2.1 %	2.0 %	10
Facility costs	2.9 %	2.9 %	—
Other	11.3%	10.5%	80
Total SG&A	69.1%	67.8%	130

SG&A expense increased 10.2% in the three-month period ended June 30, 2016 compared to the same period of 2015. This increase was primarily driven by increased variable cost associated with increased sales volume and store count. Losses associated with hail storms also increased costs in 2016 by \$1.7 million. SG&A expense for the second quarter of 2015 was reduced by \$2.5 million related to a gain associated with the sale of one store.

The 12.2% increase in SG&A in the six-month period ended June 30, 2016 compared to the same period of 2015 was primarily driven by increased variable cost associated with increased sales volume and store count. Losses associated

with reserve adjustments for hail storms, legal claims and our allowance for doubtful accounts, totaling \$5.8 million, contributed to the increase in SG&A expense. These costs were partially offset by a gain of \$1.1 million on the sale of one store. SG&A expense for the comparable 2015 period included a gain of \$5.9 million associated with the sale of two stores.

SG&A expense adjusted for non-core charges was as follows (in thousands):

	Three Months Ended June 30,		Increase	% Increase	
(Dollars in thousands)	2016	2015	(Decrease)	(Decrease)	
Personnel	\$ 144,530	\$ 134,003	\$ 10,527	7.9	%

Adjusted other	68,575	59,643	8,932		15.0	%
Adjusted total SG&A	\$433,813	\$393,147	\$ 40,666		10.3	%

	Six Months Ended June 30,		Increase	
As a % of gross profit	2016	2015	(Decrease)	
Personnel	46.6%	46.8%	(20)bp
Advertising	6.2 %	5.6 %	60	
Rent	2.1 %	2.0 %	10	
Adjusted facility costs	3.1 %	4.0 %	(90)
Adjusted other	10.9%	10.4%	50	
Adjusted total SG&A	68.9%	68.8%	10	

See “Non-GAAP Reconciliations” for more details.

Adjusted SG&A as a percentage of gross profit in the three and six-month period ended June 30, 2016 increased 30 basis points and 10 basis points, respectively, compared to the same periods of 2015. These increases were primarily due to increased advertising spend, as well as losses associated with reserve adjustments for hail storms, legal claims and our allowance for doubtful accounts.

Depreciation and Amortization

Depreciation and amortization is comprised of depreciation expense related to buildings, significant remodels or improvements, furniture, tools, equipment and signage and amortization of certain intangible assets, including customer lists and non-compete agreements.

	Three Months Ended			
	June 30,			
(Dollars in thousands)	2016	2015	Increase	% Increase
Depreciation and amortization	\$ 12,503	\$ 10,287	\$ 2,216	21.5 %

	Six Months Ended			
	June 30,			
(Dollars in thousands)	2016	2015	Increase	% Increase
Depreciation and amortization	\$ 24,166	\$ 20,013	\$ 4,153	20.8 %

The increases in depreciation and amortization in the three and six-month periods ended June 30, 2016 compared to the same periods of 2015 were primarily due to capital expenditures that occurred since June 30, 2015. We purchased previously leased facilities, built new facilities for open points, expanded and improved facilities subsequent to the acquisition of the stores, invested in improvements at our facilities and replaced equipment. These investments increase the amount of depreciable assets and amortizable expenses. In the full year of 2015 and the first six months of 2016, we had capital expenditures of \$83.2 million and \$43.2 million, respectively.

Operating Income

Operating income as a percentage of revenue, or operating margin, was as follows:

	Three Months Ended June 30, 2016		Six Months Ended June 30, 2015	
Operating margin	4.2%	4.3 %	4.0%	4.1 %
Operating margin adjusted for non-core charges ⁽¹⁾	4.4%	4.5 %	4.2%	4.2 %

⁽¹⁾ See “Non-GAAP Reconciliations” for more details.

In the second quarter of 2016, our operating margin decreased by 10 basis points compared to the same period of 2015 as increases in personnel cost and advertising outpaced our gross profit growth. Adjusting for non-core charges, operating margin decreased 10 basis points as well. We continue to focus on cost control, which allows us to leverage our cost structure in an environment of improving sales.

Floor Plan Interest Expense and Floor Plan Assistance

Floor plan interest expense increased \$1.6 million and \$2.8 million in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015 primarily as a result of increased average outstanding balances on our floor plan facilities.

Floor plan assistance is provided by manufacturers to support store financing of new vehicle inventory. Under accounting standards, floor plan assistance is recorded as a component of new vehicle gross profit when the specific vehicle is sold. However, because manufacturers provide this assistance to offset inventory carrying costs, we believe a comparison of floor plan interest expense to floor plan assistance is a useful measure of the efficiency of our new vehicle sales relative to stocking levels.

The following table details the carrying costs for new vehicles and include new vehicle floor plan interest net of floor plan assistance earned.

	Three Months Ended			
	June 30, 2016	2015	Change	Change %
(Dollars in thousands)				
Floor plan interest expense (new vehicles)	\$6,209	\$4,655	\$ 1,554	33.4 %
Floor plan assistance (included as an offset to cost of sales)	(11,270)	(10,548)	(722)	6.8
Net new vehicle carrying costs	\$(5,061)	\$(5,893)	832	(14.1)%

	Six Months Ended			
	June 30, 2016	2015	Change	Change %
(Dollars in thousands)				
Floor plan interest expense (new vehicles)	\$12,118	\$9,304	\$2,814	30.2 %
Floor plan assistance (included as an offset to cost of sales)	(21,570)	(19,675)	(1,895)	9.6
Net new vehicle carrying costs	\$(9,452)	\$(10,371)	919	(8.9)%

Other Interest Expense

Other interest expense includes interest on debt incurred related to acquisitions, real estate mortgages, our used vehicle inventory financing facility and our revolving line of credit.

(Dollars in thousands)	Three Months Ended June 30,			% Increase	
	2016	2015	Increase		
Mortgage interest	\$3,699	\$3,340	\$ 359	10.7	
Other interest	1,931	1,727	204	11.8	
Capitalized interest	(128)	(95)	33	34.7	
Total other interest expense	\$5,502	\$4,972	\$ 530	10.7	%

(Dollars in thousands)	Six Months Ended June 30,			% Increase	
	2016	2015	Increase		
Mortgage interest	\$7,247	\$6,356	\$ 891	14.0	%
Other interest	3,950	3,616	334	9.2	
Capitalized interest	(236)	(172)	64	37.2	
Total other interest expense	\$10,961	\$9,800	\$ 1,161	11.8	%

The increases of \$0.5 million and \$1.2 million, respectively, in other interest expense in the three- and six-month periods ended June 30, 2016 compared to the same periods of 2015 were primarily due to higher volumes of borrowing on our credit facility and higher mortgage interest due to additional mortgage financings, partially offset by increased capitalized interest.

Other Expense, Net

Other expense, net primarily includes the gains and losses related to equity-method investments.

(Dollars in thousands)	Three Months Ended June 30,			% Increase	
	2016	2015	Increase		
Other Expense, net	\$1,495	\$356	\$ 1,139	319.9	%

				%	
				Increase	
Other Expense, net	\$3,021	\$724	\$2,297	317.3	%

Income Tax Provision

Our effective income tax rate was as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
Effective income tax rate	33.5%	32.3%	33.2%	31.3%
Effective income tax rate excluding tax credits generated through our equity-method investment and other non-core items ⁽¹⁾	39.5%	39.0%	39.3%	39.0%

⁽¹⁾ See “Non-GAAP Reconciliations” for more details.

Our effective income tax rate was 33.5%, 32.3%, 33.2% and 31.3% respectively for the three- and six-month periods ended June 30, 2016 and 2015. These rates were positively affected by new markets tax credits that are generated through our equity-method investment with U.S. Bancorp Community Development Corporation.

Excluding the tax credits generated by our equity-method investment and adjusting for other non-core items, our effective tax rate would have been 39.5%, 39.0%, 39.3% and 39.0%, respectively, for the three- and six-month periods ended June 30, 2016 and 2015.

Non-GAAP Reconciliations

We believe each of the non-GAAP financial measures below improves the transparency of our disclosures, provides a meaningful presentation of our results from the core business operations because they exclude adjustments for items not related to our ongoing core business operations and other non-cash adjustments, and improves the period-to-period comparability of our results from the core business operations. We use these measures in conjunction with GAAP financial measures to assess our business, including our compliance with covenants in our credit facility and in communications with our Board of Directors concerning financial performance. These measures should not be considered an alternative to GAAP measures.

The following tables reconcile certain reported non-GAAP measures to the most comparable GAAP measure from our Consolidated Statements of Operations:

(Dollars in Thousands, Except per Share Amounts)	Three Months Ended June 30, 2016

Liquidity and Capital Resources

We manage our liquidity and capital resources to fund our operating, investing and financing activities. We rely primarily on cash flows from operations and borrowings under our credit facilities as the main sources for liquidity. We use those funds to invest in capital expenditures, increase working capital and fulfill contractual obligations. Remaining funds are used for acquisitions, debt retirement, cash dividends, share repurchases and general business

purposes.

Available Sources

Below is a summary of our immediately available funds:

(Dollars in thousands)	As of June 30,		Increase	%
	2016	2015	(Decrease)	Increase
Cash and cash equivalents	\$ 15,044	\$ 23,394	\$ (8,350)	(35.7)%
Available credit on the credit facilities	134,608	164,058	(29,450)	(18.0)
Total current available funds	149,652	187,452	(37,800)	(20.2)
Estimated funds from unfinanced real estate	163,505	115,515	47,990	41.5
Total estimated available funds	\$ 313,157	\$ 302,967	\$ 10,190	3.4 %

Cash flows generated by operating activities and borrowings under our credit facility are our most significant sources of liquidity. We also have the ability to raise funds through mortgaging real estate. As of June 30, 2016, our unencumbered owned operating real estate had a book value of \$218 million. Assuming we can obtain financing on 75% of this value, we estimate we could have obtained additional funds of approximately \$164 million at June 30, 2016; however, no assurances can be provided that the appraised value of these properties will match or exceed their book values or that this capital source will be available on terms acceptable to us.

In addition to the above sources of liquidity, potential sources include the placement of subordinated debentures or loans, the sale of equity securities and the sale of stores or other assets. We evaluate all of these options and may select one or more of them depending on overall capital needs and the availability and cost of capital, although no assurances can be provided that these capital sources will be available in sufficient amounts or with terms acceptable to us.

Information about our cash flows, by category, is presented in our Consolidated Statements of Cash Flows. The following table summarizes our cash flows:

(Dollars in thousands)	Six Months Ended June 30,		Increase (Decrease) in Cash Flow
	2016	2015	
Net cash provided by operating activities	\$66,410	\$29,330	\$ 37,080
Net cash used in investing activities	(66,710)	(50,206)	(16,504)
Net cash (used in) provided by financing activities	(29,664)	14,372	(44,036)

Operating Activities

Cash provided by operating activities for the six months ended June 30, 2016 increased \$37.1 million compared to the same period of 2015, primarily related to changes in deferred income taxes, other assets, and accrued liabilities.

Borrowings from and repayments to our syndicated lending group related to our new vehicle inventory floor plan financing are presented as financing activities. To better understand the impact of changes in inventory and the associated financing, we also consider our net cash provided by operating activities adjusted to include cash activity associated with our new vehicle credit facility.

Adjusted net cash provided by operating activities is presented below (in thousands):

(Dollars in thousands)	Six Months Ended June 30,		Increase in Cash Flow
	2016	2015	
Net cash provided by operating activities – as reported	\$66,410	\$29,330	\$37,080
Add: Net borrowings on floor plan notes payable, non-trade	58,622	35,685	22,937
Net cash provided by operating activities – adjusted	\$125,032	\$65,015	\$60,017

Inventories are the most significant component of our cash flow from operations. As of June 30, 2016, our new vehicle days supply was 77, or ten days higher than our days supply as of December 31, 2015. Our days supply of used vehicles was 57 days as of June 30, 2016, or two days higher than our days supply as of December 31, 2015. Our days supply is currently being impacted by stop sale requirements issued by manufacturers on vehicles with certain outstanding recalls and parts shortages slowing down the ability to perform the repair. We calculate days supply of inventory based on current inventory levels, excluding in-transit vehicles, and a 30-day historical cost of sales level. We have continued to focus on managing our unit mix and maintaining an appropriate level of new and used vehicle inventory.

Investing Activities

Net cash used in investing activities totaled \$66.7 million and \$50.2 million, respectively, for the six-month periods ended June 30, 2016 and 2015. Cash flows from investing activities relate primarily to capital expenditures, acquisition and divestiture activity and sales of property and equipment.

Below are highlights of significant activity related to our cash flows from investing activities:

(Dollars in thousands)	Six Months Ended June 30,		Increase (Decrease) in Cash Flow
	2016	2015	
Capital expenditures	\$(43,247)	\$(48,008)	\$ 4,761
Cash paid for acquisitions, net of cash acquired	(18,807)	(87)	(18,720)
Cash paid for other investments	(16,690)	(15,222)	(1,468)
Proceeds from sales of stores	11,837	12,966	(1,129)

Capital Expenditures

Below is a summary of our capital expenditure activities:

(Dollars in thousands)	Six Months Ended June 30,	
	2016	2015
Post-acquisition capital improvements	\$18,277	\$3,114
Facilities for open points	—	3,222
Purchases of previously leased facilities	5,081	8,808
Existing facility improvements	8,035	18,730
Maintenance	11,854	14,134
Total capital expenditures	\$43,247	\$48,008

Many manufacturers provide assistance in the form of additional incentives or assistance if facilities meet specified standards and requirements. We expect that certain facility upgrades and remodels will generate additional manufacturer incentive payments. Also, tax laws allowing accelerated deductions for capital expenditures reduce the overall investment needed and encourage accelerated project timelines.

We expect to use a portion of our future capital expenditures to upgrade facilities that we recently acquired. This additional capital investment is contemplated in our initial evaluation of the investment return metrics applied to each acquisition and is usually associated with manufacturer standards and requirements.

If we undertake a significant capital commitment in the future, we expect to pay for the commitment out of existing cash balances, construction financing and borrowings on our credit facility. Upon completion of the projects, we believe we would have the ability to secure long-term financing and general borrowings from third party lenders for 70% to 90% of the amounts expended, although no assurances can be provided that these financings will be available

to us in sufficient amounts or on terms acceptable to us.

We expect to make expenditures of approximately \$102 million in 2016 for capital improvements at recently acquired stores, purchases of land for expansion of existing stores, facility image improvements, purchases of store facilities, purchases of previously leased facilities and replacement of equipment.

Acquisitions

We focus on acquiring stores at opportunistic purchase prices that meet our return thresholds and strategic objectives. We look for acquisitions that diversify our brand and geographic mix as we continue to evaluate our portfolio to minimize exposure to any one manufacturer and achieve financial returns.

We are able to subsequently floor new vehicle inventory acquired as part of an acquisition; however, the cash generated by this transaction is recorded as borrowings on floor plan notes payable, non-trade. Adjusted net cash paid for acquisitions, as well as certain other acquisition-related information is presented below:

	Six Months Ended June 30,	
	2016	2015
Number of stores acquired	2	—
Number of franchises added	1	1
(Dollars in thousands)		
Cash paid for acquisitions, net of cash acquired	\$18,807	\$87
Less: Borrowings on floor plan notes payable: non-trade associated with acquired new vehicle inventory	(7,120)	(74)
Cash paid for acquisitions, net of cash acquired – adjusted	\$11,687	\$13

We evaluate potential capital investments primarily based on targeted rates of return on assets and return on our net equity investment.

Financing Activities

Net cash used in financing activities, adjusted for borrowing on floor plan facilities: non-trade was as follows:

	Six Months Ended		
	June 30,		Decrease
(Dollars in thousands)	2016	2015	in Cash Flow
Cash (used in) provided by financing activities, as reported	\$(29,664)	\$14,372	\$(44,036)
Adjust: cash used for payments on floor plan notes payable: non-trade	(58,622)	(35,685)	(22,937)
Cash used in financing activities – adjusted	\$(88,286)	\$(21,313)	\$(66,973)

Below are highlights of significant activity related to our cash flows from financing activities, excluding net borrowings on floor plan notes payable: non-trade, which are discussed above:

	Six Months Ended		Increase
	June 30,		(Decrease)
(Dollars in thousands)	2016	2015	in Cash Flow
Net borrowings (repayments) on lines of credit	\$18,668	\$(45,424)	\$ 64,092
Principal payments on long-term debt, unscheduled	(2,303)	(9,189)	6,886
Proceeds from issuance of long-term debt	12,080	59,425	(47,345)

Repurchases of common stock	(104,858)	(16,773)	(88,085)
Dividends paid	(11,524)	(9,482)	(2,042)

Borrowing and Repayment Activity

During the first six months of 2016, we raised net mortgage proceeds of \$9.8 million, which was mainly used to fund acquisitions and repurchases of common stock. Our debt to total capital ratio, excluding floor plan notes payable, was 44.5% at June 30, 2016 compared to 45.9% at June 30, 2015.

Equity Transactions

On February 25, 2016, our Board of Directors authorized the repurchase of up to \$250 million of our Class A common stock. This new authorization replaced the previous authorizations granted in August 2011 and July 2012, which limited the number of shares we were authorized to repurchase. We repurchased 1,315,711 shares of our Class A common stock at an average price of \$79.69 per share in the first six months of 2016. As of June 30, 2016, we had \$201.1 million remaining available for repurchases under the new authorization. The new authority to repurchase does not have an expiration date.

In the first six months of 2016, we declared and paid dividends on our Class A and Class B common stock as follows:

Dividend paid:	Dividend amount per share	Total amount of dividend (in thousands)
March 2016	\$ 0.20	\$ 5,151
May 2016	\$ 0.25	\$ 6,373

We evaluate performance and make a recommendation to the Board of Directors on dividend payments on a quarterly basis.

Summary of Outstanding Balances on Credit Facilities and Long-Term Debt

Below is a summary of our outstanding balances on credit facilities and long-term debt:

(Dollars in thousands)	As of June 30, 2016	
	Outstanding	Remaining Available
Floor plan note payable: non-trade	\$1,316,747	\$ — (1)
Floor plan notes payable	56,767	—
Used vehicle inventory financing facility	190,313	— (2)
Revolving lines of credit	60,601	134,608 (2),(3)
Real estate mortgages	389,685	—
Other debt	13,997	—
Total debt	\$2,028,110	\$ 134,608

(1) As of June 30, 2016, we had a \$1.45 billion new vehicle floor plan commitment as part of our credit facility.

(2) The amount available on the credit facility is limited based on a borrowing base calculation and fluctuates monthly.

(3) Available credit is based on the borrowing base amount effective as of June 30, 2016. This amount is reduced by \$9.2 million for outstanding letters of credit.

Credit Facility

On July 27, 2016, we amended our existing credit facility to increase the total financing commitment by \$300 million to \$2.05 billion and extend the maturity to July 2021. This syndicated credit facility is comprised of 18 financial institutions, including eight manufacturer-affiliated finance companies. Under our credit facility we are permitted to allocate the total financing commitment among floor plan financing for new vehicle inventory, floor plan financing for used vehicles (up to a maximum of \$350 million) and revolving financing for general corporate purposes, including acquisitions and working capital (up to a maximum of \$400 million). Our credit facility may be expanded to \$2.4 billion total availability, subject to lender approval. All borrowings from, and repayments to, our lending group are presented in the Consolidated Statements of Cash Flows as financing activities.

The new vehicle floor plan commitment is collateralized by our new vehicle inventory. Our used vehicle inventory financing facility is collateralized by our used vehicle inventory that has been in stock for less than 180 days. Our revolving line of credit is secured by our outstanding receivables related to vehicle sales, unencumbered vehicle inventory, other eligible receivables, parts and accessories and equipment.

We have the ability to deposit up to \$50 million in cash in Principal Reduction (PR) accounts associated with our new vehicle inventory floor plan commitment. The PR accounts are recognized as offsetting credits against outstanding amounts on our new vehicle floor plan commitment and would reduce interest expense associated with the outstanding principal balance. As of June 30, 2016, we had no balances in our PR accounts.

If the outstanding principal balance on our new vehicle inventory floor plan commitment, plus requests on any day, exceeds 95% of the loan commitment, a portion of the revolving line of credit must be reserved. The reserve amount is equal to the lesser of \$15.0 million or the maximum revolving line of credit commitment less the outstanding balance on the line less outstanding letters of credit. The reserve amount will decrease the revolving line of credit availability and may be used to repay the new vehicle floor plan commitment balance.

The interest rate on the credit facility varies based on the type of debt, with the rate of one-month LIBOR plus 1.25% for new vehicle floor plan financing, one-month LIBOR plus 1.50% for used vehicle floor plan financing; and a variable interest rate on the revolving financing ranging from the one-month LIBOR plus 1.25% to 2.50%, depending on our leverage ratio. The annual interest rate associated with our new vehicle floor plan commitment was 1.71% at June 30, 2016. The annual interest rate associated with our used vehicle inventory financing facility and our revolving line of credit was 1.96% and 2.21%, respectively, at June 30, 2016.

Under the terms of our credit facility we are subject to financial covenants and restrictive covenants that limit or restrict our incurring additional indebtedness, making investments, selling or acquiring assets and granting security interests in our assets.

Under our credit facility, we are required to maintain the ratios detailed in the following table:

Debt Covenant Ratio	Requirement	As of June 30, 2016
Current ratio	Not less than 1.10 to 1	1.25 to 1
Fixed charge coverage ratio	Not less than 1.20 to 1	2.48 to 1
Leverage ratio	Not more than 5.00 to 1	1.78 to 1
Funded debt restriction	Not to exceed \$900 million	\$404.6 million

As of June 30, 2016, we were in compliance with all covenants. We expect to remain in compliance with the financial and restrictive covenants in our credit facility and other debt agreements. However, no assurances can be provided that we will continue to remain in compliance with the financial and restrictive covenants.

If we do not meet the financial and restrictive covenants and are unable to remediate or cure the condition or obtain a waiver from our lenders, a breach would give rise to remedies under the agreement, the most severe of which are the termination of the agreement, acceleration of the amounts owed and the seizure and sale of our assets comprising the collateral for the loans. A breach would also trigger cross-defaults under other debt agreements.

Floor Plan Notes Payable

We have floor plan agreements with manufacturer-affiliated finance companies for vehicles that are designated for use as service loaners. The variable interest rates on these floor plan notes payable commitments vary by manufacturer. At June 30, 2016, \$56.8 million was outstanding on these arrangements. Borrowings from, and repayments to, manufacturer-affiliated finance companies are classified as operating activities in the Consolidated Statements of Cash Flows.

Real Estate Mortgages and Other Debt

We have mortgages associated with our owned real estate. Interest rates related to this debt ranged from 2.0% to 5.0% at June 30, 2016. The mortgages are payable in various installments through October 2034. As of June 30, 2016, we had fixed interest rates on 69% of our outstanding mortgage debt.

Our other debt includes capital leases, sellers' notes and our equity contribution obligations associated with the new markets tax credit equity investment. The interest rates associated with our other debt ranged from 2.2% to 8.4% at June 30, 2016. This debt, which totaled \$14.0 million at June 30, 2016, is due in various installments through January 2024.

Recent Accounting Pronouncements

See Note 12 of the Condensed Notes to Consolidated Financial Statements in this Quarterly Report on Form 10-Q.

Critical Accounting Policies and Use of Estimates

There have been no material changes in the critical accounting policies and use of estimates described in our 2015 Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 26, 2016.

Seasonality and Quarterly Fluctuations

Historically, our sales have been lower in the first quarter of each year due to consumer purchasing patterns and inclement weather in certain of our markets. As a result, financial performance is expected to be lower during the first quarter than during the second, third and fourth quarters of each fiscal year. We believe that interest rates, levels of consumer debt, consumer confidence and manufacturer sales incentives, as well as general economic conditions, also contribute to fluctuations in sales and operating results.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a material current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in our reported market risks or risk management policies since the filing of our 2015 Annual Report on Form 10-K, which was filed with the Securities and Exchange Commission on February 26, 2016.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We evaluated, with the participation and under the supervision of our Chief Executive Officer and our Chief Financial Officer, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures are effective to ensure that information we are required to disclose in reports that we file or submit under the Securities Exchange Act of 1934 is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure and that such information is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting that occurred during our last fiscal quarter that has materially affected or is reasonably likely to materially affect our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1A. Risk Factors

Except for the risk factor set forth below, there have been no material changes from the risk factors previously disclosed in our 2015 Annual Report on Form 10-K. The information in this Form 10-Q should be read in conjunction with the risk factors and information disclosed in that report, which was filed with the Securities and Exchange Commission on February 26, 2016.

Risks related to changing tax policies may adversely affect our business.

We are subject to tax liabilities imposed by the jurisdictions where we operate, which may vary significantly and are subject to include income taxes, property taxes, indirect taxes (excise/duty, sales/use and gross receipts taxes), payroll taxes, franchise taxes, withholding taxes and ad valorem taxes.

These taxes may disproportionately affect us compared to other businesses and our competitors. We may not be able to pass these tax costs on to consumers and remain competitive. For example, in Oregon, there is a ballot initiative proposed for the upcoming November election that would impose a 2.5% minimum tax on gross receipts of C corporations with Oregon sales in excess of \$25 million. This tax cannot be offset by tax credits. We estimate the passage of this tax would increase our annual Oregon tax liability from approximately \$3.3 million to \$34 million. This tax may have a disproportionate effect on us as certain Oregon dealers we compete against may not be organized as C corporations and would not be subject to this tax. New tax laws and regulations and changes to existing tax laws and regulations could materially and adversely affect our financial results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

We repurchased the following shares of our Class A common stock during the second quarter of 2016:

	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans⁽¹⁾	Maximum dollar value of shares that may yet be purchased under publicly announced plan (in thousands)⁽¹⁾
April	190,197	\$ 80.69	190,197	\$ 232,901
May	248,778	79.92	248,778	213,018
June	164,250	72.32	164,250	201,139

603,225 \$ 78.09 603,225 \$ 201,139

Effective February 29, 2016, our Board of Directors authorized the repurchase of up to \$250 million of our Class (1)A common stock. This authorization replaced the previous authorizations, which limited the number of shares we were authorized to repurchase.

Item 6. Exhibits

The following exhibits are filed herewith and this list is intended to constitute the exhibit index.

- 3.1 Restated Articles of Incorporation of Lithia Motors, Inc., as amended May 13, 1999 (incorporated by reference to exhibit 3.1 to our Form 10-K for the year ended December 31, 1999).
