NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2014

(In millions, except share and per share data and unless otherwise indicated)

Note 1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements for Quad/Graphics, Inc. and its subsidiaries (the "Company" or "Quad/Graphics") have been prepared by the Company pursuant to the rules and regulations for interim financial information of the United States Securities and Exchange Commission ("SEC"). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been omitted pursuant to such SEC rules and regulations. The results of operations and accounts of businesses acquired are included in the condensed consolidated financial statements from the dates of acquisition (see Note 2, "Acquisitions and Strategic Investments"). These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated annual financial statements as of and for the year ended December 31, 2013, and notes thereto included in the Company's latest Annual Report on Form 10-K filed with the SEC on February 27, 2014.

The Company is subject to seasonality in its quarterly results as net sales and operating income, when excluding restructuring, impairment and transaction-related charges, are higher in the third and fourth quarters of the calendar year as compared to the first and second quarters. Seasonality is driven by increased magazine advertising page counts, retail inserts, catalogs and books primarily due to back-to-school and holiday related advertising and promotions. The Company expects this seasonality impact to continue in future years.

The financial information contained herein reflects all adjustments, in the opinion of management, necessary for a fair presentation of the Company's results of operations for the three and six months ended June 30, 2014 and 2013. All intercompany transactions have been eliminated in consolidation. These unaudited condensed consolidated financial statements include estimates and assumptions of management that affect the amounts reported in the condensed consolidated financial statements. Actual results could differ from these estimates.

Note 2. Acquisitions and Strategic Investments

2014 Brown Printing Company Acquisition

On May 30, 2014, the Company completed the acquisition of Brown Printing Company ("Brown Printing") for \$100.0 million. Brown Printing provides magazine and catalog printing, distribution services and integrated media solutions to magazine publishers and catalog marketers in the United States. The purchase of Brown Printing was accounted for using the acquisition method of accounting under GAAP. The Company recorded the preliminary allocation of the purchase price to the acquired tangible and identifiable intangible assets and liabilities assumed based on their estimated fair values as of the acquisition date. The Company used cash on hand and borrowings under its revolving credit facility to finance the acquisition.

Brown Printing's financial results since May 30, 2014 have been included in the condensed consolidated statements of operations. Brown Printing's operations are included in the United States Print and Related Services segment. Disclosure of the financial results of Brown Printing since the acquisition date is not practicable as it is not being operated as a standalone business, and has been combined with the Company's existing operations.

Note 8. Commitments and Contingencies

Litigation

In the normal course of business, the Company is named as a defendant in various lawsuits in which claims are asserted against the Company. In the opinion of management, the liabilities, if any, which may ultimately result from such lawsuits are not expected to have a material impact on the condensed consolidated financial statements of the Company.

Environmental Reserves

The Company is subject to various laws, regulations and government policies relating to health and safety, to the generation, storage, transportation, and disposal of hazardous substances, and to environmental protection in general. The Company provides for expenses associated with environmental remediation obligations when such amounts are probable and can be reasonably estimated. Such reserves are adjusted as new information develops or circumstances change. The environmental reserves are not discounted. The Company believes it is in compliance with such laws, regulations and government policies in all material respects. Furthermore, the Company does not anticipate that maintaining compliance with such environmental statutes will have a material impact upon the Company's competitive or condensed consolidated financial position.

Note 9. World Color Press Insolvency Proceedings

The Company continues to manage the bankruptcy claim settlement process for the Quebecor World Inc. ("QWI") bankruptcy proceedings in the United States and Canada (QWI changed its name to "World Color Press Inc." upon emerging from bankruptcy on July 21, 2009). To the extent claims are allowed, the holders of such claims are entitled

to receive recovery, with the nature of such recovery dependent upon the type and classification of such claims. In this regard, with respect to certain types of claims, the holders thereof are entitled to receive cash and/or unsecured notes, while the holders of certain other types of claims are entitled to receive a combination of Quad/Graphics common stock and cash, in accordance with the terms of the World Color Press Inc. ("World Color Press") 2010 acquisition agreement.

FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2014

(In millions, except share and per share data and unless otherwise indicated)

With respect to claims asserted by the holders thereof as being entitled to a priority cash recovery, the Company has estimated that approximately \$1.4 million and \$2.5 million of such recorded claims have yet to be paid as of June 30, 2014, and December 31, 2013, respectively, and this obligation is classified as amounts owing in satisfaction of bankruptcy claims in the condensed consolidated balance sheets.

With respect to unsecured claims held by creditors of the operating subsidiary debtors of Quebecor World (USA) Inc. (the "Class 3 Claims"), each allowed Class 3 Claim will be entitled to receive an unsecured note in an amount not to exceed 50% of such creditor's allowed Class 3 Claim, provided, however, that the aggregate principal amount of all such unsecured notes cannot exceed \$75.0 million. In the event that the total of all allowed Class 3 Claims exceeds \$150.0 million, each creditor holding an allowed Class 3 Claim will receive its pro rata share of \$75.0 million of the unsecured notes issued, together with accrued interest and a 5% prepayment redemption premium thereon (the total of which is \$89.2 million). In connection with the World Color Press acquisition, the Company was required to deposit the maximum potential payout to the Class 3 Claim creditors of \$89.2 million with a trustee, and that amount will remain with the trustee until either (1) it is paid to a creditor for an allowed Class 3 Claim or (2) upon the Class 3 Claims being resolved any excess amount will revert to the Company.

In the six months ended June 30, 2014, \$7.4 million was paid to Class 3 Claim creditors. At June 30, 2014, \$48.6 million of the maximum potential payout to the Class 3 Claim creditors remains and is classified as restricted cash in the condensed consolidated balance sheets. Based on the Company's analysis of the outstanding claims, the Company has a liability of \$9.6 million at June 30, 2014, classified as unsecured notes to be issued in the condensed consolidated balance sheets. Activity impacting the Company's restricted cash and unsecured notes to be issued for the six months ended June 30, 2014, was as follows:

	Restricted Cash	Unsecured Notes to be Issued
Balance at December 31, 2013	\$56.0	\$18.0
Class 3 Claim payments during 2014	(7.4)	(7.4)
Non-cash adjustment	—	(1.0)
Balance at June 30, 2014	\$48.6	\$9.6

The components of the Company's restricted cash at June 30, 2014 and December 31, 2013, were as follows:

	June 30, 2014	December 31, 2013
Short-term restricted cash	\$7.3	\$4.5
Long-term restricted cash	41.3	51.5
Total restricted cash	\$48.6	\$56.0

While the liabilities recorded for any bankruptcy matters are based on management's current assessment of the amount likely to be paid, it is not possible to identify the final amount of priority cash claims or the amount of Class 3 Claims that will ultimately be allowed by the U.S. Bankruptcy Court. Therefore, amounts owing in satisfaction of bankruptcy claims on the condensed consolidated balance sheets could be materially higher than the amounts estimated, which

would require additional cash payments to be made for the amount exceeding the Company's estimate. Amounts payable related to the unsecured notes could reach the maximum aggregate principal amount of \$75.0 million, which would not require an additional cash payment as the maximum potential exposure has already been funded in trust, but would require additional liability and expense to be recorded as the Company's estimate of total Class 3 Claim liability is \$50.2 million (\$40.6 million paid plus the \$9.6 million remaining estimated liability as of June 30, 2014). In light of the substantial number and amount of claims filed, the claims resolution process will take considerable time to complete.

The Senior Secured Credit Facility and the Senior Unsecured Notes were entered into to extend and stagger the Company's debt maturity profile, further diversify its capital structure and provide more borrowing capacity to better position the Company to execute on its strategic goals. The proceeds from the Senior Secured Credit Facility and Senior Unsecured Notes were used to: (1) repay the Company's previous revolving credit facility, Term Loan A, Term Loan B and the international term loan, (2) fund the acquisition of Brown Printing and (3) for general corporate purposes.

Senior Secured Credit Facility

The Senior Secured Credit Facility consists of three different loan facilities. The first facility is a revolving credit facility in the amount of \$850.0 million with a term of five years maturing on April 27, 2019. The second facility is a Term Loan A in the aggregate amount of \$450.0 million with a term of five years maturing on April 27, 2019, subject to certain required amortization. The Senior Secured Credit Facility is secured by substantially all of the unencumbered assets of the Company. The Senior Secured Credit Facility also requires the Company to provide additional collateral to the lenders in certain limited circumstances.

Senior Unsecured Notes

The Company received \$294.8 million in net proceeds from the sale of the Senior Unsecured Notes, after deducting the initial purchasers' discounts and commissions. The Senior Unsecured Notes are or will be unconditionally guaranteed, on a joint and several basis, by all of the current domestic subsidiaries of the Company.

Debt Issuance Costs and Original Issue Discount

The Company incurred \$14.3 million in debt issuance costs in conjunction with the \$1.9 billion debt financing arrangement completed on April 28, 2014. In accordance with the accounting guidance for the treatment of debt issuance costs in a debt extinguishment, of the \$14.3 million in new debt issuance costs, \$11.0 million was capitalized and is classified as other long-term assets in the condensed consolidated balance sheets and \$3.3 million was expensed and is classified as loss on debt extinguishment in the condensed consolidated statements of operations. If the Company's total leverage ratio is greater than 3.00 to 1.00 (as defined in the Senior Secured Credit Facility), the Company is prohibited from making greater than \$120.0 million of annual dividend payments, capital stock repurchases and certain other payments. If the total leverage ratio is less than 3.00 to 1.00, there are no such restrictions.

If the Company's senior secured leverage ratio is greater than 3.00 to 1.00 or the Company's total leverage ratio is greater than 3.50 to 1.00 (these ratios as defined in the Senior Secured Credit Facility), the Company is prohibited from voluntarily prepaying any of the Senior Unsecured Notes and from voluntarily prepaying any other unsecured or subordinated indebtedness, with certain exceptions (including any mandatory prepayments on the Senior Unsecured Notes or any other unsecured or subordinated debt). If the senior secured leverage ratio is less than 3.00 to 1.00 and the total leverage ratio is less than 3.50 to 1.00, there are no such restrictions.

The indenture underlying the Senior Unsecured Notes contains various covenants, including, but not limited to, covenants that, subject to certain exceptions, limit the Company's and its restricted subsidiaries' ability to: incur and/or guarantee additional debt; pay dividends, repurchase stock or make certain other restricted payments; enter into agreements limiting dividends and certain other restricted payments; prepay, redeem or repurchase subordinated debt; grant liens on assets; enter into sale and leaseback transactions; merge, consolidate, transfer or dispose of substantially all of the Company's consolidated assets; sell, transfer or otherwise dispose of property and assets; and engage in transactions with affiliates.

Note 11. Income Taxes

The Company records income tax expense on an interim basis. The estimated annual effective income tax rate is adjusted quarterly and items discrete to a specific quarter are reflected in tax expense for that interim period. The effective income tax rate for the interim period can differ from the statutory tax rate, as it reflects changes in valuation allowances due to expected current year earnings or loss and other discrete items, such as changes in the liability for unrecognized tax benefits related to establishment and settlement of income tax exposures.

The Company's unrecognized tax benefits did not materially change for the six months ended June 30, 2014. The Company anticipates a decrease to its liability for unrecognized tax benefits of \$12.9 million within the next twelve months due to resolution of audits or statute expirations.

Note 12. Financial Instruments and Fair Value Measurements

Certain assets and liabilities are required to be recorded at fair value on a recurring basis, while other assets and liabilities are recorded at fair value on a nonrecurring basis, generally as a result of acquisitions or impairment

charges. Fair value is determined based on the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. GAAP also classifies the inputs used to measure fair value into the following hierarchy:

Level 1: Quoted prices in active markets for identical assets or liabilities.

(In millions, except share and per share data and unless otherwise indicated)

Level 2: Quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.

Level 3: Unobservable inputs for the asset or liability. There are no Level 3 recurring measurements of assets or liabilities as of June 30, 2014.

The Company records the fair value of its forward contracts and pension plan assets on a recurring basis. The fair value of cash and cash equivalents, receivables, inventories, restricted cash, accounts payable, accrued liabilities and amounts owing in satisfaction of bankruptcy claims approximate their carrying values as of June 30, 2014 and December 31, 2013. See Note 10, "Debt," for further discussion on the fair value of the Company's debt.

In addition to assets and liabilities that are recorded at fair value on a recurring basis, the Company is required to record certain assets and liabilities at fair value on a nonrecurring basis, generally as a result of acquisitions or the remeasurement of assets resulting in impairment charges. See Note 2, "Acquisitions and Strategic Investments," for further discussion on acquisitions and Note 3, "Restructuring, Impairment and Transaction-Related Charges," for further discussion on impairment charges recorded as a result of the remeasurement of certain long-lived assets.

The Company has operations in countries that have transactions outside their functional currencies and periodically enters into foreign exchange contracts. These contracts are used to hedge the net exposures of changes in foreign currency exchange rates and are designated as either cash flow hedges or fair value hedges. Gains or losses on net foreign currency hedges are intended to offset losses or gains on the underlying net exposures in an effort to reduce the earnings volatility resulting from fluctuating foreign currency exchange rates. There were no open foreign currency exchange contracts as of June 30, 2014.

The Company periodically enters into natural gas forward purchase contracts to hedge against increases in commodity costs. During the three and six months ended June 30, 2014 and 2013, the Company's commodity contracts qualified for the exception related to normal purchases and sales as the Company takes delivery in the normal course of business.

Note 14. Employee Retirement Plans

Defined Benefit Plans and Other Postretirement Benefit Plans

The Company sponsors various funded and unfunded pension plans for a portion of its full-time employees in the United States. Benefits are generally based upon years of service and compensation. These plans are funded in conformity with the applicable government regulations. The Company funds at least the minimum amount required for all qualified plans using actuarial cost methods and assumptions acceptable under government regulations. In addition to pension benefits, the Company provides certain healthcare and life insurance benefits for some retired employees.

The components of the net pension income and net postretirement benefits income for the three and six months ended June 30, 2014 and 2013, are as follows:

Multiemployer Pension Plans

The Company has withdrawn from all significant MEPPs and replaced these union sponsored “promise to pay in the future” defined benefit plans with a Company sponsored “pay as you go” defined contribution plan. The two MEPPs, the

Graphic Communications International Union – Employer Retirement Fund (“GCIU”) and the Graphic Communications Conference of the International Brotherhood of Teamsters National Pension Fund (“GCC”), are significantly underfunded, and will require the Company to pay a withdrawal liability to fund its pro rata share of the underfunding as of the plan year the full withdrawal was

completed. As a result of the decision to withdraw, the Company accrued a \$98.6 million estimated withdrawal liability based on information provided by each plan's trustee, as part of the purchase price allocation for World Color Press.

The Company has received notices of withdrawal and demand for payment letters for both the GCIU and GCC plans, which, in total are in excess of the \$98.6 million in original reserves established by the Company for the withdrawals. The Company is in the process of determining the final withdrawal payment, and is currently in arbitration with the MEPPs' trustees and arbitrators have been selected. The withdrawal liability reserved by the Company is within the range of the Company's estimated potential outcomes. The Company made payments totaling \$7.2 million for the six months ended June 30, 2014 and 2013, respectively, as requested by the MEPPs and as required by the Employee Retirement Income Security Act, although such payments do not waive the Company's rights to object to the withdrawal liabilities submitted by the GCIU and GCC plan administrators.

As of June 30, 2014, the Company has reserved \$65.8 million as its estimate of the total MEPPs withdrawal liability, of which \$45.8 million is recorded in other long-term liabilities, \$14.5 million is recorded in accrued liabilities and \$5.5 million is recorded as a World Color Press bankruptcy liability in unsecured notes to be issued in the condensed consolidated balance sheets. This estimate may increase or decrease depending on the final agreement with the MEPPs' trustees.

Note 15. Loss Per Share Attributable to Quad/Graphics Common Shareholders

Basic loss per share attributable to Quad/Graphics common shareholders is computed as net loss attributable to Quad/Graphics common shareholders less the allocation of participating securities, divided by the basic weighted average common shares outstanding of 47.5 million and 47.4 million shares for the three and six months ended June 30, 2014, respectively, and 46.9 million shares for the three and six months ended June 30, 2013, respectively. The calculation of diluted earnings per share includes the effect of any dilutive equity incentive instruments. The Company uses the treasury stock method to calculate the effect of outstanding dilutive equity incentive instruments, which requires the Company to compute total proceeds as the sum of (1) the amount the employee must pay upon exercise of the award, (2) the amount of unearned stock-based compensation costs attributed to future services and (3) the amount of tax benefits, if any, that would be credited to additional paid-in capital assuming exercise of the award. Equity incentive instruments for which the total employee proceeds from exercise exceed the average fair value of the same equity incentive instrument over the period have an anti-dilutive effect on earnings per share during periods with net losses, and accordingly, the Company excludes them from the calculation. Due to the net loss attributable to Quad/Graphics common shareholders incurred during the three and six months ended June 30, 2014 and June 30, 2013, the assumed exercise of all equity incentive instruments was anti-dilutive and, therefore, not included in the diluted loss per share attributable to Quad/Graphics common shareholders calculation for that period. Unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents, whether paid or unpaid, are required to be treated as participating securities and included in the computation of loss per share pursuant to the two-class method. The Company's participating securities are composed of unvested stock options granted on November 18, 2011. The Company's participating securities increased basic and diluted loss per share attributable to Quad/Graphics common shareholders by \$0.00 and \$0.01 for the three and six months ended June 30, 2014, respectively. The Company's participating securities increased basic and diluted loss per share attributable to Quad/Graphics common shareholders by \$0.01 for the three and six months ended June 30, 2013.

Note 16. Equity Incentive Programs

The shareholders of the Company approved the Quad/Graphics, Inc. 2010 Omnibus Incentive Plan ("Omnibus Plan") for two complimentary purposes: (1) to attract and retain outstanding individuals to serve as directors, officers and employees and (2) to increase shareholder value. The Omnibus plan provides for an aggregate 7,871,652 shares of class A common stock reserved for issuance under the Omnibus Plan. Awards under the Omnibus Plan may consist of incentive awards, stock options, stock appreciation rights, performance shares, performance share units, shares of class A common stock, restricted stock, restricted stock units, deferred stock units or other stock-based awards as determined by the Company's board of directors. Each stock option granted has an exercise price of no less than 100% of the fair market value of the class A common stock on the date of grant. As of June 30, 2014, there are 1,739,631 shares available for issuance under the Omnibus Plan.

The Company recognizes compensation expense, based on estimated grant date fair values, for all share-based awards issued to employees and non-employee directors, including stock options, performance shares, performance share units, restricted stock, restricted stock units and deferred stock units. The Company recognizes these compensation costs for only those awards expected to vest, on a straight-line basis over the requisite three to four year service period of the awards, except deferred stock units, which are fully vested and expensed on the grant date. The Company estimated the number of awards expected to vest based, in part, on historical forfeiture rates and also based on management's expectations of employee turnover within the specific employee groups receiving each type of award. Forfeitures are estimated at the time of grant and revised, if necessary, in subsequent periods, if actual forfeitures differ from those estimates.

Performance Share and Performance Share Units

Performance share ("PS") and performance share unit ("PSU") awards consist of shares or the rights to shares of the Company's class A common stock which are awarded to employees of the Company. These shares are payable upon the determination that the Company achieved certain established performance targets and can range from 0% to 200% of the targeted payout based on the actual results. Shares awarded in 2013 have a performance period of three years ending December 31, 2015. As set forth in the individual grant agreements, acceleration of vesting may occur under a change in control, death, disability or normal retirement of the grantee. Grantees receiving PS or PSU grants receive full credit for dividends during the vesting period. All such dividends will be paid to the grantee within 45 days of full vesting. Upon vesting, PSUs will be settled either through cash payment equal to the fair market value of the PSUs on the vesting date or through issuance of Company class A common stock. There are no voting rights with these instruments until vesting occurs and a share of stock is issued.

The following table is a summary of PS and PSU award activity for the six months ended June 30, 2014:

Note 20. New Accounting Pronouncements

In June 2014, the Financial Accounting Standards Board ("FASB") issued new guidance on certain share-based payment awards, which clarifies the treatment of performance targets that can be met after the requisite service period of a share-based payment award. Under the new guidance, an entity should treat the performance targets that can be met after the requisite period of service as performance conditions that affect vesting. This guidance is effective for interim and annual periods beginning after December 15, 2015 with early adoption permitted. The Company is currently evaluating the impact of this guidance on the condensed consolidated financial statements.

In May 2014, FASB issued new guidance on recognizing revenue from contracts with customers. Under this guidance, an entity will recognize revenue when it transfers promised goods or services to the customer in the amount that reflects what it expects in exchange for the goods or services. This guidance also requires more detailed disclosures to enable users of the financial statements to understand the nature, amount, timing and uncertainty of the revenue and cash flow arising from contracts with customers. This guidance is effective for interim and annual periods beginning after December 15, 2016 with early adoption not permitted. This guidance allows the option of either a full retrospective adoption, meaning the guidance is applied to all periods presented, or a modified retrospective adoption, meaning the guidance is applied only to the most current period. The Company is currently evaluating the impact of this guidance on the condensed consolidated financial statements and determining which transition method to use.

In April 2014, the FASB issued new guidance on the presentation of discontinued operations, which modifies the requirements for disposals to qualify as discontinued operations and expands related disclosure requirements. This guidance is effective prospectively for interim and annual periods beginning after December 15, 2014, with early adoption permitted for disposals that have not been reported in financial statements previously issued or available for issuance. The Company plans to adopt this new guidance effective January 1, 2015. The adoption of this guidance may impact whether future disposals qualify as discontinued operations and, therefore, could impact the Company's financial statement presentation and disclosures.

Note 21. Subsequent Events

On August 5, 2014, the Company declared a quarterly dividend of \$0.30 per share, which will be paid on September 19, 2014, to shareholders of record as of September 8, 2014.

Key components of this strategy are centered on the Company's disciplined financial approach to maximize earnings and Free Cash Flow; use of consistent financial policies to ensure it maintains a strong balance sheet and liquidity levels; and ability to retain the financial flexibility needed to strategically allocate and deploy capital.

Quad/Graphics operates primarily in the commercial print portion of the printing industry, with related product and service offerings designed to offer clients complete solutions for communicating their message to target audiences. The Company's operating and reportable segments are aligned with how the chief operating decision maker of the Company currently manages the business. The Company's reportable and operating segments are summarized below.

Table of Contents

The United States Print and Related Services segment is predominantly comprised of the Company's United States printing operations. This segment is managed as one integrated platform and includes all of the product and related service offerings described above. The United States Print and Related Services segment accounted for approximately 90% of the Company's consolidated net sales during the three and six months ended June 30, 2014, respectively.

The International segment consists of the Company's printing operations in Europe and Latin America, including operations in Poland, Argentina, Brazil, Chile, Colombia, Mexico and Peru. This segment provides printed products and related services consistent with the United States Print and Related Services segment, with the exception of printing-related auxiliary equipment, which is included in the United States Print and Related Services segment. The International segment accounted for approximately 10% of the Company's consolidated net sales during the three and six months ended June 30, 2014, respectively.

Corporate consists of unallocated general and administrative activities and associated expenses including, in part, executive, legal and finance. In addition, in 2014 certain costs and earnings of employee retirement plans, such as pension and other postretirement benefits plans, are included in Corporate and not allocated to the operating segments.

Key Performance Metrics Overview

The Company's management believes the ability to generate net sales growth, profit increases and positive cash flow, while maintaining the appropriate level of debt, are key indicators of the successful execution of the Company's business strategy and will increase shareholder value. The Company uses period over period net sales growth, EBITDA, EBITDA margin, net cash provided by operating activities, Free Cash Flow and Debt Leverage Ratio as metrics to measure operating performance, financial condition and liquidity. EBITDA, EBITDA margin, Free Cash Flow and Debt Leverage Ratio are non-GAAP financial measures (see the definitions of EBITDA, EBITDA margin and the reconciliation of net loss attributable to Quad/Graphics common shareholders to EBITDA in the "Results of Operations" section below, and see the definitions of Free Cash Flow and Debt Leverage Ratio, the reconciliation of net cash provided by operating activities to Free Cash Flow, and the calculation of Debt Leverage Ratio in the "Liquidity and Capital Resources" section below).

Net sales growth. The Company uses period over period net sales growth as a key performance metric. The Company's management assesses net sales growth based on the ability to generate increased net sales through increased sales to existing clients, sales to new clients, sales of new or expanded solutions to existing and new clients and opportunities to expand sales through strategic investments, including acquisitions.

EBITDA and EBITDA margin. The Company uses EBITDA and EBITDA margin as metrics to assess operating performance. The Company's management assesses EBITDA and EBITDA margin based on the ability to increase revenues while controlling variable expense growth.

Net cash provided by operating activities. The Company uses net cash provided by operating activities as a metric to assess liquidity. The Company's management assesses net cash provided by operating activities based on the ability to meet recurring cash obligations while increasing available cash to fund integration and restructuring requirements including acquired operations and other cost reduction activities, as well as to fund capital expenditures, debt service requirements, World Color Press single employer pension plan contributions, World Color Press MEPPs withdrawal liabilities, acquisitions and other investments in future growth and shareholder dividends. Net cash provided by operating activities can be significantly impacted by the timing of non-recurring or infrequent receipts or expenditures.

Free Cash Flow. The Company uses Free Cash Flow as a metric to assess liquidity and capital deployment. The Company's management assesses Free Cash Flow as a measure to quantify cash available for strategic capital

allocation and deployment through investments in the business (capital expenditures and acquisitions), for strengthening the balance sheet (debt and pension liability reduction), and for returning capital to the shareholders (dividends and share repurchases). The priorities for capital allocation and deployment will change as circumstances dictate for the business, and Free Cash Flow can be significantly impacted by the Company's restructuring activities and other unusual items, such as payments related to completing the World Color Press bankruptcy process.

Table of Contents

Debt Leverage Ratio. The Company uses the Debt Leverage Ratio as a metric to assess liquidity and the flexibility of its balance sheet. Consistent with other liquidity metrics, the Company monitors the Debt Leverage Ratio as a measure to determine the appropriate level of debt the Company believes is optimal to operate its business and, accordingly, to quantify debt capacity available for strategic capital allocation and deployment through investments in the business (capital expenditures and acquisitions), for strengthening the balance sheet (debt and pension liability reduction), and for returning capital to the shareholders (dividends and share repurchases). The priorities for capital allocation and deployment will change as circumstances dictate for the business, and the Debt Leverage Ratio can be significantly impacted by the amount and timing of large expenditures requiring debt financing, as well as changes in profitability.

Overview of Trends Affecting Quad/Graphics

Competition in the highly fragmented printing industry remains intense. The industry has excess manufacturing capacity created by declines in industry volumes during the past recession which, in turn, has created continued downward pricing pressures. In addition, digital delivery of documents and data, including the online distribution and hosting of media content and mobile technologies, offer alternatives to traditional delivery of printed documents. Increasing consumer acceptance of digital delivery of content has resulted in marketers and publishers allocating their marketing and advertising spend across the expanding selection of digital delivery options, which further reduces demand and contributes to industry overcapacity. The Company also faces competition from print management firms, which look to streamline processes and reduce the overall print spend of the Company's clients, as well as from strategic marketing firms focused on helping businesses integrate multiple channels into their marketing campaigns.

The Company believes that a disciplined approach for capital management and a strong balance sheet are critical to be able to invest in profitable growth opportunities and technological advances, thereby providing the highest return for shareholders. Management currently is balancing the use of cash between compelling investment opportunities, deleveraging the Company's balance sheet (through reduction in debt and pension and postretirement obligations), and returns to shareholders (including a quarterly shareholder dividend of \$0.30 per share).

The Company increased consolidated debt and capital leases by \$176 million at June 30, 2014, as compared to December 31, 2013, primarily to fund acquisitions and strategic investments (such as Brown Printing and UniGraphic), seasonal working capital needs and higher capital expenditures. The Brown Printing acquisition will further contribute to the Company's cash generation, after expending the initial up-front integration costs, and, consistent with past consolidating acquisitions (such as World Color Press and Vertis) will help deleverage the Company's balance sheet over the long-term. Since the Company completed the World Color Press acquisition in July 2010, the Company has reduced debt and capital leases by \$212 million and has reduced the obligations for pension, postretirement and MEPPs by \$391 million.

The Company has been working diligently to integrate acquired companies thereby lowering its cost structure by consolidating its manufacturing platform into its most efficient facilities, as well as realizing purchasing, mailing and logistics efficiencies by centralizing and consolidating print manufacturing volumes and eliminating redundancies in its administrative and corporate operations. These efforts include the deployment of the Company's Smartools® platform to streamline workflows and improve data visibility across the consolidated platform. In addition, restructuring actions initiated by the Company beginning in 2010 through June 30, 2014 have resulted in the announcement of 23 plant closures and have reduced headcount by approximately 7,600 employees.

In addition to cost savings through acquisition-related synergies, the Company continues its focus on cost reductions through Lean Manufacturing and Continuous Improvement initiatives, both for the production floor and administrative support, in order to achieve improved efficiencies, reduce waste, lower overall operating costs, enhance quality and timeliness and create a safer work environment for the Company's employees.

Postal costs are a significant component of the cost structures of many of the Company's clients and potential clients, and postal rate changes can influence the number of pieces that these clients are willing to print and mail. In January 2014, the United States Postal Service implemented a temporary two-year exigent postage rate increase of 6.0% (includes the normal and expected annual Consumer Price Index increase of 1.7% and an additional 4.3% temporary exigent increase). Quad/Graphics has invested significantly in its mail preparation and distribution capabilities to mitigate the impact of increases in postage costs, and to help clients successfully navigate the ever-changing postal environment. Through its data analytics, unique software to merge mailstreams on a large scale, advanced finishing capabilities and technology, and in-house transportation and logistics operations,

the Company manages the mail preparation and distribution of most of its clients' products to maximize efficiency and partially reduce these costs, however the net impact of increasing postal costs may create a decrease in client demand for print and mail products.

In this increasingly multichannel marketplace, the Company believes that the printing industry will need to make capital investments in new technologies, such as those to deliver targeted and customized print solutions and to deploy multichannel marketing campaigns through the integration of new media. The Company believes its ongoing commitment to technology has been paramount in delivering high-quality and relevant offerings to its customers, as well as driving production efficiencies in response to continued downward print pricing pressures. The Company invested \$84 million in capital projects during the six months ended June 30, 2014, and intends to invest a total of \$160 million to \$175 million in new capital projects in 2014.

When making capital investment decisions, management undertakes a thorough process aimed at driving the strongest contribution to long-term profitability, whether those are fixed asset additions as discussed above, organic growth opportunities, or acquisitions. Some recent examples of the Company's acquisition activities are as follows:

On May 30, 2014, the Company completed the \$100 million acquisition of Brown Printing. Brown Printing provides magazine and catalog printing, distribution services and integrated media solutions to magazine publishers and catalog marketers in the United States.

On February 5, 2014, the Company completed the acquisition of UniGraphic, a commercial and specialty printing company based in the Boston metro area, for a net purchase price of \$12 million. UniGraphic offers commercial and specialty printing, in-store marketing, digital and fulfillment solutions for a wide variety of industries including arts and entertainment, education, financial, food, healthcare, mass media, pharmaceutical and retail. The acquisition expands Quad/Graphics capabilities in the commercial and specialty printing market and strengthens the Company's ability to service national retailers' large-format and in-store marketing needs, adding an East Coast presence to Quad/Graphics existing Midwest and West Coast locations.

On December 18, 2013, the Company completed the \$49 million acquisition of Wisconsin-based Proteus as well as its sister company Transpak. Proteus is a designer and manufacturer of high-end paperboard packaging, offering packaging solutions for a wide variety of industries, including automotive, biotechnology, food, personal care, pharmaceuticals, software and electronics. Transpak is a full-service industrial packaging company, offering crating, packaging, warehousing, distribution and logistics services to destinations worldwide. Through the acquisition of the two companies, Quad/Graphics expanded its capabilities to serve the packaging market.

On November 7, 2013, the Company completed the \$13 million acquisition of Novia, an Indianapolis, Indiana healthcare solutions company. Novia develops and manages onsite and shared primary care clinics for small to medium sized companies and the public sector, such as school districts and city and county governments. Novia operates approximately 50 clinics focusing on delivering advanced health and wellness solutions to employees and dependents.

On January 16, 2013, the Company completed its acquisition of substantially all of the assets of Vertis, a provider of retail inserts, direct marketing and in-store marketing solutions. The \$265 million purchase price included the payment of \$95 million for current assets that were in excess of normalized working capital requirements, for a net purchase price of \$170 million. The Company believes the acquisition of Vertis strengthened its client offering with an enhanced range of products and services and also increased manufacturing flexibility and distribution efficiencies from an extended geographic footprint in the United States.

The Company is subject to seasonality in its quarterly results as net sales and operating income, when excluding restructuring, impairment and transaction-related charges, are higher in the third and fourth quarters of the calendar year as compared to the first and second quarters. Seasonality is driven by increased magazine advertising page counts, retail inserts, catalogs and books primarily due to back-to-school and holiday related advertising and promotions. The Company expects this seasonality impact to continue in future years.

(1) Restructuring, impairment and transaction-related charges of \$19.9 million incurred during the three months ended June 30, 2014, included:

a. \$12.7 million of employee termination charges related to workforce reductions through facility consolidations and involuntary separation programs;

b. \$2.0 million of impairment charges, including \$1.5 million of impairment charges for machinery and equipment no longer being utilized in production as a result of facility consolidations primarily for Pomona, California, as well as other capacity reduction restructuring initiatives, and \$0.5 million of land and building impairment charges as a result of the Bristol, Pennsylvania plant closure;

c. \$0.7 million of transaction-related charges consisting of professional service fees for business acquisition and divestiture activities, which primarily included professional service fees for the acquisition of Brown Printing;

d. \$1.9 million of acquisition-related integration costs primarily related to preparing existing facilities to meet new production requirements resulting from work transferring from closed plants, as well as other costs related to the integration of the acquired companies; and

^e \$2.6 million of various other restructuring charges, including costs to maintain and exit closed facilities, as well as lease exit charges.

The Company expects to incur additional restructuring and integration costs in future reporting periods in connection with eliminating excess manufacturing capacity and properly aligning its cost structure in conjunction with the Company's acquisitions and strategic investments, and other cost reduction programs.

(2) Restructuring, impairment and transaction-related charges of \$29.2 million incurred during the three months ended June 30, 2013, included:

a. \$6.0 million of impairment charges, including \$0.9 million of impairment charges for machinery and equipment no longer being utilized in production as a result of facility consolidations, as well as other capacity reduction restructuring initiatives and \$5.1 million; of land and building impairment charges as a result of plant closures primarily for Mexico City, Mexico and Olive Branch, Mississippi;

b. \$0.2 million of transaction-related charges consisting of professional service fees for business acquisition and divestiture activities, which primarily included professional service fees for the acquisition of Vertis;

c. \$9.7 million of acquisition-related integration costs primarily related to preparing existing facilities to meet new production requirements resulting from work transferring from closed plants, as well as other costs related to the integration of the acquired companies; and

d. \$9.0 million of various other restructuring charges, including costs to maintain and exit closed facilities, as well as lease exit charges.

(3) Interest expense increased \$2.2 million (\$1.3 million, net of tax) during the three months ended June 30, 2014, to \$23.5 million. This change was due to higher debt levels in the second quarter of 2014 as compared to the second quarter of 2013, primarily related to acquisitions and a higher weighted average interest rate on borrowings due to the debt financing completed during the second quarter of 2014.

(4) A non-recurring \$6.0 million loss on debt extinguishment (\$3.6 million, net of tax) was recognized during the three months ended June 30, 2014 as part of the \$1.9 billion debt financing arrangements completed on April 28, 2014. The \$6.0 million loss represents certain debt issuance costs that were expensed.

(5) The increase in income tax benefit of \$8.0 million as calculated in the following table is primarily due to losses in foreign jurisdictions in 2013 that the Company did not receive a tax benefit and tax expense for other discrete items in 2013.

	Three Months Ended June 30,				
	2014	2013		\$ Change

Income tax benefit from the condensed consolidated statements of operations	(9.6)) (0.6))	9.0)
Increase in income tax benefit	\$ (2.0)) \$ (10.0))	\$ 8.0)

(6) The decrease attributable to investments in unconsolidated entities and noncontrolling interests, net of tax, of \$2.1 million during the three months ended June 30, 2014, was primarily related to \$1.4 million in lower equity earnings at Plural, the Company's Brazilian joint venture.

(7) Operating income, excluding restructuring, impairment and transaction-related charges, decreased \$3.6 million (\$2.2 million, net of tax) primarily due to \$6.2 million in net gains in 2013 from favorable legal, environmental and bankruptcy related settlements, that did not repeat at the same level in 2014, and a decline in earnings from ongoing industry volume and pricing pressures. These declines were partially offset by lower employee-related

costs, including labor productivity improvements. The following discussion provides additional details.

Net Sales

Product sales decreased \$21.9 million, or 2.3%, for the three months ended June 30, 2014, compared to the three months ended June 30, 2013, primarily due to ongoing volume and pricing pressures from excess capacity in the printing industry, lower paper sales and negative foreign exchange impact. These decreases were partially offset by an increase in product sales primarily resulting from the Brown Printing acquisition, which was completed on May 30, 2014.

Service sales, which primarily consist of imaging, logistics and distribution services, increased \$10.1 million, or 7.1%, for the three months ended June 30, 2014, compared to the three months ended June 30, 2013, primarily due to increased sales of QuadMed, LLC ("QuadMed") medical services and an increase in logistics sales resulting from the acquisition of Brown Printing.

Cost of Sales

Cost of product sales decreased \$4.6 million, or 0.6%, for the three months ended June 30, 2014, compared with the three months ended June 30, 2013, primarily due to lower print and paper volumes and lower employee-related costs, including labor productivity improvements. These reductions were partially offset by increased cost of sales primarily resulting from the acquisition of Brown Printing.

Cost of product sales as a percentage of total net sales increased from 70.9% for the three months ended June 30, 2013, to 71.2% for the three months ended June 30, 2014, primarily related to the impact of pricing on product sales as discussed above.

Cost of service sales increased \$3.7 million, or 3.5%, for the three months ended June 30, 2014, compared with the three months ended June 30, 2013, primarily due to additional cost of service sales resulting from sales generated by QuadMed medical services, partially offset by lower employee-related costs.

Table of Contents

Cost of service sales as a percentage of total net sales increased from 9.6% for the three months ended June 30, 2013, to 10.1% for the three months ended June 30, 2014, primarily due to increased freight costs and increased costs of QuadMed medical services.

Selling, General and Administrative Expenses

Selling, general and administrative expenses decreased \$4.7 million, or 4.5%, for the three months ended June 30, 2014, compared with the three months ended June 30, 2013, primarily due to \$5.9 million in reduced employee-related costs and \$2.8 million in lower foreign currency transaction losses. These decreases were partially offset by \$4.2 million of gains recorded in 2013 from favorable legal, environmental and bankruptcy related settlements that did not repeat at the same level in 2014. Selling, general and administrative expenses as a percentage of net sales decreased from 9.5% for the three months ended June 30, 2013, to 9.1% for the three months ended June 30, 2014.

Depreciation and Amortization

Depreciation and amortization decreased \$2.6 million, or 3.0%, for the three months ended June 30, 2014, compared with the three months ended June 30, 2013, primarily due to a \$4.0 million decrease in depreciation expense. The decreased depreciation expense is a result of property, plant and equipment becoming fully depreciated over the past year. Partially offsetting the decrease in depreciation expense was a \$1.4 million increase in amortization expense, primarily due to amortization of customer relationship intangible assets from the companies acquired during 2013 and 2014.

Restructuring, Impairment and Transaction-Related Charges

Restructuring, impairment and transaction-related charges decreased \$9.3 million, or 31.8%, for the three months ended June 30, 2014, compared with the three months ended June 30, 2013, primarily due to a \$7.8 million decrease in acquisition-related integration costs, a \$6.4 million decrease in other restructuring costs and a \$4.0 million decrease in impairment charges, partially offset by an \$8.4 million increase in employee termination charges and a \$0.5 million increase in transaction-related charges.

Restructuring, impairment and transaction-related charges of \$19.9 million incurred in the three months ended June 30, 2014, included: (1) \$12.7 million of employee termination charges related to workforce reductions through facility consolidations and involuntary separation programs, (2) \$2.0 million of impairment charges, including \$1.5 million of impairment charges for machinery and equipment no longer being utilized in production as a result of facility consolidations primarily for Pomona, California, as well as other capacity reduction restructuring initiatives and \$0.5 million of land and building impairment charges as a result of the Bristol, Pennsylvania plant closure, (3) \$0.7 million of transaction-related charges consisting of professional service fees for business acquisition and divestiture activities, which primarily included professional service fees for the acquisition of Brown Printing, (4) \$1.9 million of acquisition-related integration costs primarily related to preparing existing facilities to meet new production requirements resulting from work transferring from closed plants, as well as other costs related to the integration of the acquired companies and (5) \$2.6 million of various other restructuring charges, including costs to maintain and exit closed facilities, as well as lease exit charges.

Restructuring, impairment and transaction-related charges of \$29.2 million incurred in the three months ended June 30, 2013, included: (1) \$4.3 million of employee termination charges related to workforce reductions through facility consolidations and involuntary separation programs, (2) \$6.0 million of impairment charges, including \$0.9 million of impairment charges for machinery and equipment no longer being utilized in production as a result of facility consolidations, as well as other capacity reduction restructuring initiatives and \$5.1 million of land and

building impairment charges as a result of plant closures primarily for Mexico City, Mexico and Olive Branch, Mississippi, (3) \$0.2 million of transaction-related charges consisting of professional service fees for business acquisition and divestiture activities, which primarily included professional service fees for the acquisition of Vertis, (4) \$9.7 million of acquisition-related integration costs primarily related to preparing existing facilities to meet new production requirements resulting from work transferring from closed plants, as well as other costs related to the integration of the acquired companies and (5) \$9.0 million of various other restructuring charges, including costs to maintain and exit closed facilities, as well as lease exit charges.

EBITDA and EBITDA Margin—Consolidated

EBITDA and EBITDA margin for the three months ended June 30, 2014, compared to the three months ended June 30, 2013, were as follows:

	Three Months Ended June 30,		2013		
	2014	% of Net Sales	Amount	% of Net Sales	
	(dollars in millions)				
EBITDA and EBITDA margin	\$76.4	7.0	% \$81.4	7.3	%

EBITDA decreased \$5.0 million for the three months ended June 30, 2014, compared to the three months ended June 30, 2013, primarily due to \$8.0 million in net gains in 2013 from favorable legal, environmental and bankruptcy related settlements that did not repeat at the same level in 2014, the \$6.0 million loss on debt extinguishment recorded in 2014 and the margin impact of a \$11.8 million, or 1.1%, decrease in net sales due to ongoing volume and pricing pressures from excess capacity in the printing industry. These impacts were partially offset by \$9.3 million of decreased restructuring, impairment and transaction-related charges and lower employee-related costs, including labor productivity improvements.

EBITDA represents net loss attributable to Quad/Graphics common shareholders, plus (i) interest expense, (ii) income tax expense (if applicable) and (iii) depreciation and amortization, and less income tax benefit (if applicable).

EBITDA margin represents EBITDA as a percentage of net sales. EBITDA and EBITDA margin are presented to provide additional information regarding Quad/Graphics' performance and because both are important measures by which Quad/Graphics gauges the profitability and assesses the performance of its business. EBITDA and EBITDA margin are not measures of financial performance in accordance with GAAP. EBITDA and EBITDA margin should not be considered alternatives to net earnings (loss) as a measure of operating performance or to cash flows provided by operating activities as a measure of liquidity. Quad/Graphics' calculation of EBITDA and EBITDA margin may be different from the calculations used by other companies and therefore comparability may be limited. A reconciliation of EBITDA to net loss attributable to Quad/Graphics common shareholders follows:

	Three Months Ended June 30,	
	2014	2013
	(dollars in millions)	
Net loss attributable to Quad/Graphics common shareholders ⁽¹⁾	\$(22.8) \$(27.2

Income tax benefit	(9.6) (0.6
Depreciation and amortization	85.3	87.9
EBITDA	\$76.4	\$81.4

(1) Net loss attributable to Quad/Graphics common shareholders includes the effects of:

a. Restructuring, impairment and transaction-related charges of \$19.9 million and \$29.2 million for the three months ended June 30, 2014, and 2013, respectively.

b. Loss on debt extinguishment of \$6.0 million for the three months ended June 30, 2014.

Net Sales

Product sales for the International segment increased \$4.0 million, or 3.9%, for the three months ended June 30, 2014, compared to the three months ended June 30, 2013, primarily due to \$8.1 million of increased sales in Europe driven by higher paper sales, higher volumes and a positive impact from foreign currency translation, partially offset by lower sales in Latin America driven by a negative impact from foreign currency translation and lower volumes. Latin American product sales decreased from 2013 by \$4.1 million primarily due to sales declines in Argentina, Peru and Colombia.

Service sales for the International segment increased \$1.8 million, or 60.0%, for the three months ended June 30, 2014, compared to the three months ended June 30, 2013, primarily due to an increase in logistics sales in Europe.

Operating Loss

Operating loss for the International segment decreased \$6.8 million, or 88.3%, for the three months ended June 30, 2014, compared to the three months ended June 30, 2013, primarily due to \$3.7 million of lower restructuring, impairment and integration expenses, \$1.7 million of lower foreign currency transaction losses and a \$0.9 million decrease in bad debt expense.

Equity in Loss of Unconsolidated Entities

Investments in entities where Quad/Graphics has the ability to exert significant influence, but not control, are accounted for using the equity method of accounting. The Company holds a 49% ownership interest in Plural, a commercial printer based in São Paulo, Brazil. The Company also holds a 50% interest in a joint venture in Chile that was acquired as part of the World Color Press acquisition. The equity in loss of unconsolidated entities in the International segment increased \$1.7 million for the three months ended June 30, 2014, compared to the three months ended June 30, 2013, primarily due to a \$1.4 million decrease in equity earnings at Plural, which has experienced an increase in bad debt expense and a decrease in print volumes and pricing.

Unrestricted Subsidiaries

Unrestricted subsidiaries under the Senior Unsecured Notes indenture represent less than 2.0% of total consolidated net sales for the three months ended June 30, 2014.

Corporate operating expenses decreased \$9.7 million, or 41.5%, for the three months ended June 30, 2014, compared with the three months ended June 30, 2013, primarily due to a \$6.6 million decrease in restructuring, impairment and transaction-related charges, \$2.7 million in pension and other postretirement income for the three months ended June 30, 2014 that is now being allocated to Corporate instead of the United States Print and Related Services segment in 2013 and \$0.7 million of lower employee-related costs.

Corporate restructuring, impairment and transaction-related charges for the three months ended June 30, 2014, were \$3.9 million consisting of: (1) \$2.5 million of employee termination charges related to workforce reductions through facility consolidations and involuntary separation programs, (2) \$0.7 million of transaction-related charges consisting of professional service fees for business acquisition and divestiture activities, which primarily included professional service fees for the acquisition of Brown Printing, (3) \$0.4 million of acquisition-related integration costs primarily related to preparing existing facilities to meet new production requirements resulting from work transferring from closed plants, as well as other costs related to the integration of the acquired companies and (4) \$0.3 million of other restructuring charges.

Corporate restructuring, impairment and transaction-related charges for the three months ended June 30, 2013, were \$10.5 million, consisting of: (1) \$0.4 million of employee termination charges related to workforce reductions through facility consolidations and involuntary separation programs, (2) \$0.2 million of transaction-related charges consisting of professional service fees for business acquisition and divestiture activities, which primarily included professional service fees for the acquisition of Vertis, (3) \$9.7 million of acquisition-related integration costs primarily related to preparing existing facilities to meet new production requirements resulting from work transferring from closed plants, as well as other costs related to the integration of the acquired companies and (4) \$0.2 million of other restructuring charges.

(3) Interest expense increased \$1.2 million (\$0.7 million, net of tax) during the six months ended June 30, 2014, to \$44.4 million. This change was due to higher debt levels in the six months of 2014 as compared to the six months of 2013, primarily related to acquisitions and a higher weighted average interest rate on borrowings due to the debt financing completed in the second quarter of 2014.

(4) A non-recurring \$6.0 million loss on debt extinguishment (\$3.6 million, net of tax) was recognized during the six months ended June 30, 2014 as part of the \$1.9 billion debt financing arrangements completed on April 28, 2014. The \$6.0 million loss represents certain debt issuance costs that were expensed.

(5) The increase in income tax benefit of \$5.8 million as calculated in the following table is primarily due to losses in foreign jurisdictions in 2013 that the Company did not receive a tax benefit.

	Six Months Ended June 30,			
	2014	2013	\$ Change	
Loss before income taxes and equity in loss of unconsolidated entities	\$(38.9) \$(49.3) \$10.4

Income tax benefit from the condensed consolidated statements of operations	(10.8) (9.1) 1.7	
Increase in income tax benefit	\$(4.8) \$(10.6) \$5.8	

(6) The decrease attributable to investments in unconsolidated entities and noncontrolling interests, net of tax, of \$2.5 million during the six months ended June 30, 2014, was primarily related to \$2.2 million in lower equity earnings at Plural, the Company's Brazilian joint venture.

(7) Operating income, excluding restructuring, impairment and transaction-related charges, decreased \$5.7 million (\$3.4 million, net of tax) primarily due to a decline in earnings from ongoing industry volume and pricing pressures, as well as \$9.3 million in net gains in 2013 from favorable legal, environmental and bankruptcy related settlements, that did not repeat in 2014, and a gain on the sale of Quad/Graphics' Brazilian operations in January

2013 to the Company's existing Brazilian joint venture with Plural. These declines were partially offset by lower employee-related costs, including labor productivity improvements. The following discussion provides additional details.

Net Sales

Product sales decreased \$50.7 million, or 2.6%, for the six months ended June 30, 2014, compared to the six months ended June 30, 2013, primarily due to ongoing volume and pricing pressures from excess capacity in the printing industry, lower paper sales and negative foreign exchange impact. These decreases were partially offset by an increase in product sales resulting from the acquisition of Brown Printing.

Service sales, which primarily consist of imaging, logistics and distribution services, increased \$12.2 million, or 4.2%, for the six months ended June 30, 2014, compared to the six months ended June 30, 2013, primarily due to increased sales of QuadMed medical services and increased logistics sales resulting from the acquisition of Brown Printing.

Cost of Sales

Cost of product sales decreased \$22.4 million, or 1.4%, for the six months ended June 30, 2014, compared with the six months ended June 30, 2013, primarily due to lower print and paper volumes and lower employee-related costs, including labor productivity improvements. These reductions were partially offset by increased cost of sales resulting from the acquisition of Brown Printing.

Cost of product sales as a percentage of total net sales increased from 70.9% for the six months ended June 30, 2013, to 71.1% for the six months ended June 30, 2014 primarily related to the impact of pricing on product sales as discussed above.

Cost of service sales increased \$4.3 million, or 2.0%, for the six months ended June 30, 2014, compared with the six months ended June 30, 2013, primarily due to additional cost of service sales resulting from sales generated by the QuadMed medical services and the acquisition of Brown Printing, partially offset by lower employee-related costs.

Table of Contents

Cost of service sales as a percentage of total net sales increased from 9.6% for the six months ended June 30, 2013, to 10.0% for the six months ended June 30, 2014, primarily due to increased freight costs and increased costs of QuadMed medical services.

Selling, General and Administrative Expenses

Selling, general and administrative expenses decreased \$7.1 million, or 3.4%, for the six months ended June 30, 2014, compared with the six months ended June 30, 2013, primarily due to \$10.1 million in reduced employee-related costs, \$2.3 million in decreased sales promotion expense and \$1.6 million in decreased foreign currency transaction losses. These decreases were partially offset by \$7.3 million of net gains recorded in 2013 that did not repeat in 2014 or at the same level in 2014, of which \$4.2 million was due to legal, environmental and bankruptcy related expenses and \$1.7 million was a gain on the sale of Quad/Graphics' Brazilian operations in January 2013 to the Company's existing Brazilian joint venture with Plural. Selling, general and administrative expenses as a percentage of net sales decreased from 9.4% for the six months ended June 30, 2013, to 9.3% for the six months ended June 30, 2014.

Depreciation and Amortization

Depreciation and amortization decreased \$7.6 million, or 4.3%, for the six months ended June 30, 2014, compared with the six months ended June 30, 2013, primarily due to a \$10.6 million decrease in depreciation expense. The decreased depreciation expense is a result of property, plant and equipment becoming fully depreciated over the past year. Partially offsetting the decrease in depreciation expense was a \$3.0 million increase in amortization expense, primarily due to amortization of customer relationship intangible assets from the companies acquired during 2013 and 2014.

Restructuring, Impairment and Transaction-Related Charges

Restructuring, impairment and transaction-related charges decreased \$23.3 million, or 42.3%, for the six months ended June 30, 2014, compared with the six months ended June 30, 2013, primarily due to a \$15.3 million decrease in other restructuring costs, a \$10.5 million decrease in acquisition-related integration costs, a \$6.6 million decrease in impairment charges and a \$1.9 million decrease in transaction-related charges, partially offset by an \$11.0 million increase in employee termination charges.

Restructuring, impairment and transaction-related charges of \$31.8 million incurred in the six months ended June 30, 2014, included: (1) \$18.7 million of employee termination charges related to workforce reductions through facility consolidations and involuntary separation programs, (2) \$3.1 million of impairment charges, including \$2.6 million of impairment charges for machinery and equipment no longer being utilized in production as a result of facility consolidations primarily for Pomona, California, as well as other capacity reduction restructuring initiatives and \$0.5 million of land and building impairment charges as a result of the Bristol, Pennsylvania plant closure, (3) \$1.3 million of transaction-related charges consisting of professional service fees for business acquisition and divestiture activities, which primarily included professional service fees for the acquisitions of Brown Printing and UniGraphic, (4) \$4.6 million of acquisition-related integration costs primarily related to preparing existing facilities to meet new production requirements resulting from work transferring from closed plants, as well as other costs related to the integration of the acquired companies and (5) \$4.1 million of various other restructuring charges, including costs to maintain and exit closed facilities, as well as lease exit charges.

Restructuring, impairment and transaction-related charges of \$55.1 million incurred in the six months ended June 30, 2013, included: (1) \$7.7 million of employee termination charges related to workforce reductions through facility consolidations and involuntary separation programs, (2) \$9.7 million of impairment charges including \$4.6 million of impairment charges for machinery and equipment no longer being utilized in production as a result of facility

consolidations primarily for Dubuque, Iowa and Vancouver, British Columbia, as well as other capacity reduction restructuring initiatives and \$5.1 million of land and building impairment charges as a result of plant closures primarily for Mexico City, Mexico and Olive Branch, Mississippi, (3) \$3.2 million of transaction-related charges consisting of professional service fees for business acquisition and divestiture activities, which primarily included professional service fees for the acquisition of Vertis, (4) \$15.1 million of acquisition-related integration costs primarily related to preparing existing facilities to meet new production requirements resulting from work transferring from closed plants, as well as other costs related to the integration of the acquired companies and (5) \$19.4 million of various other restructuring charges, including costs to maintain and exit closed facilities, as well as lease exit charges.

EBITDA and EBITDA Margin—Consolidated

EBITDA and EBITDA margin for the six months ended June 30, 2014, compared to the six months ended June 30, 2013, were as follows:

	Six Months Ended June 30,		2013		
	2014	% of Net Sales	Amount	% of Net Sales	
	(dollars in millions)				
EBITDA and EBITDA margin	\$171.1	7.8	% \$169.6	7.6	%

EBITDA increased \$1.5 million for the six months ended June 30, 2014, compared to the six months ended June 30, 2013, primarily due to \$23.3 million of decreased restructuring, impairment and transaction-related charges and lower employee-related costs, including labor productivity improvements. These impacts were partially offset by \$11.1 million in net favorable gains in 2013, that did not repeat at the same level in 2014, the margin impact of a \$38.5 million, or 1.7%, decrease in net sales due to ongoing volume and pricing pressures from excess capacity in the printing industry and the \$6.0 million loss on debt extinguishment recorded in 2014.

EBITDA represents net loss attributable to Quad/Graphics common shareholders, plus (i) interest expense, (ii) income tax expense (if applicable) and (iii) depreciation and amortization, and less income tax benefit (if applicable). EBITDA margin represents EBITDA as a percentage of net sales. EBITDA and EBITDA margin are presented to provide additional information regarding Quad/Graphics' performance and because both are important measures by which Quad/Graphics gauges the profitability and assesses the performance of its business. EBITDA and EBITDA margin are not measures of financial performance in accordance with GAAP. EBITDA and EBITDA margin should not be considered alternatives to net earnings (loss) as a measure of operating performance or to cash flows provided by operating activities as a measure of liquidity. Quad/Graphics' calculation of EBITDA and EBITDA margin may be different from the calculations used by other companies and therefore comparability may be limited. A reconciliation of EBITDA to net loss attributable to Quad/Graphics common shareholders follows:

(1) Net loss attributable to Quad/Graphics common shareholders includes the effects of:

a. Restructuring, impairment and transaction-related charges of \$31.8 million and \$55.1 million for the six months ended June 30, 2014, and 2013, respectively.

b. Loss on debt extinguishment of \$6.0 million for the six months ended June 30, 2014.

Net Sales

Product sales for the International segment decreased \$3.2 million, or 1.5%, for the six months ended June 30, 2014, compared to the six months ended June 30, 2013, primarily due to lower sales in Latin America driven by a negative impact from foreign currency translation and lower volumes. Latin American product sales decreased from 2013 by \$13.7 million due to sales declines in Peru, Argentina, Colombia and Mexico. This decrease was partially offset by \$11.0 million of increased sales in Europe driven by higher paper sales, a positive impact from foreign currency translation, and higher volumes.

Service sales for the International segment increased \$5.3 million, or 106.0%, for the six months ended June 30, 2014, compared to the six months ended June 30, 2013, primarily due to an increase in logistics sales in Europe.

Operating Loss

Operating loss for the International segment decreased \$6.4 million, or 88.9%, for the six months ended June 30, 2014, compared to the six months ended June 30, 2013, primarily due to \$5.3 million of lower employee-related costs and \$4.3 million of lower restructuring, impairment and integration expenses, partially offset by a \$1.7 million gain on the sale of Quad/Graphics' Brazilian operations in January 2013 to the Company's existing Brazilian joint venture with Plural that did not recur in 2014, and the margin impact of lower product sales in Latin America.

Restructuring, Impairment and Transaction-Related Charges

Equity in Loss of Unconsolidated Entities

Investments in entities where Quad/Graphics has the ability to exert significant influence, but not control, are accounted for using the equity method of accounting. The Company holds a 49% ownership interest in Plural, a commercial printer based in São Paulo, Brazil. The Company also holds a 50% interest in a joint venture in Chile that was acquired as part of the World Color Press acquisition. The equity in loss of unconsolidated entities in the International segment increased \$2.3 million for the six months ended June 30, 2014, compared to the six months ended June 30, 2013, primarily due to a \$2.2 million decrease in equity earnings at Plural, which has experienced a decrease in print volumes and pricing.

Liquidity and Capital Resources

The Company utilizes cash flows from operating activities and borrowings under its credit facilities to satisfy its liquidity and capital requirements. The Company believes its expected future cash flows from operating activities and \$767.0 million of unused available capacity under its revolving credit facilities, net of issued letters of credit, as of June 30, 2014, provide sufficient resources to fund ongoing operating requirements and the integration and restructuring requirements related to acquired operations, as well as future capital expenditures, debt service requirements, World Color Press single employer pension plan contributions, World Color Press MEPPs withdrawal payments, investments in future growth to create value for its shareholders and shareholder dividends. Borrowings under the \$850.0 million revolving credit facility were \$31.0 million as of June 30, 2014, and peak borrowings during the three and six months ended June 30, 2014 were \$315.0 million.

Net Cash Provided by Operating Activities

Six Months Ended June 30, 2014, Compared to Six Months Ended June 30, 2013

Net cash provided by operating activities was \$78.9 million for the six months ended June 30, 2014, compared to \$216.9 million for the six months ended June 30, 2013, resulting in a \$138.0 million decrease in cash provided by operating activities. The decrease was primarily due to a \$130.8 million decrease in cash flows from changes in operating assets and liabilities and a \$5.0 million decrease in dividends from unconsolidated entities. The \$130.8 million decrease in cash flows from changes in operating assets and liabilities was primarily related to an estimated \$77 million benefit realized in the first half of 2013 from the restoration of normalized working capital levels following the acquisition of Vertis, which was acquired without normalized levels of accounts payable and accrued liabilities. In addition, there was \$54 million increased use of cash from higher seasonal working capital primarily related to decreased accounts payable balances due to the timing of payments between years.

Net Cash Used in Investing Activities

Six Months Ended June 30, 2014, Compared to Six Months Ended June 30, 2013

Net cash used in investing activities was \$187.7 million for the six months ended June 30, 2014, compared to \$298.6 million for the six months ended June 30, 2013, resulting in a \$110.9 million decrease in cash used in investing activities. The decrease was primarily due to \$129.1 million of reduced cash payments related to acquisitions and strategic investments, predominantly driven by the \$235.4 million net cash paid for the Vertis acquisition on January 16, 2013, less the \$96.4 million net cash paid for the Brown acquisition on May 30, 2014. This was partially offset by a \$13.9 million increase in purchases of property, plant and equipment during the first half of 2014, which included \$16.5 million of higher investment in 2014 as compared to 2013 for prior year carryover machinery and equipment projects.

Net Cash Provided by Financing Activities

Six Months Ended June 30, 2014, Compared to Six Months Ended June 30, 2013

Net cash provided by financing activities was \$111.7 million for the six months ended June 30, 2014, compared to \$79.9 million for the six months ended June 30, 2013, resulting in a \$31.8 million increase in cash provided by financing activities. The increase was primarily due to a \$52.6 million increase in net debt borrowings in 2014 as

compared to 2013, less \$14.3 million of debt issuance costs paid related to the April 28, 2014 \$1.9 billion debt financing arrangements. The higher net debt borrowings in 2014 are primarily related to the May 30, 2014 acquisition of Brown Printing, financing seasonal working capital fluctuations and higher capital expenditures in 2014 compared to 2013.

Free Cash Flow

Free Cash Flow is defined as net cash provided by operating activities less purchases of property, plant and equipment.

The Company's management assesses Free Cash Flow as a measure to quantify cash available for (1) strategic capital allocation and deployment through investments in the business (capital expenditures and acquisitions), (2) strengthening the balance sheet (debt and pension liability reduction) and (3) returning capital to the shareholders (dividends and share repurchases). The priorities for capital allocation and deployment will change as circumstances dictate for the business, and Free Cash Flow can be significantly impacted by the Company's restructuring activities and other unusual items, such as payments related to completing the World Color Press bankruptcy process.

Free Cash Flow is a non-GAAP measure. Free Cash Flow should not be considered an alternative to cash flows provided by operating activities as a measure of liquidity. Quad/Graphics' calculation of Free Cash Flow may be different from similar calculations used by other companies and, therefore, comparability may be limited.

Free Cash Flow for the six months ended June 30, 2014, compared to the six months ended June 30, 2013, was as follows:

	Six Months Ended June 30,	
	2014	2013
	(dollars in millions)	
Net cash provided by operating activities	\$78.9	\$216.9
Less: purchases of property, plant and equipment	(83.6) (69.7
Free Cash Flow	\$ (4.7) \$147.2

Free Cash Flow decreased \$151.9 million for the six months ended June 30, 2014, compared to the six months ended June 30, 2013, due to a \$138.0 million decrease in net cash provided by operating activities and an increase in capital expenditures of \$13.9 million. The \$138.0 million decrease in net cash provided by operating activities includes an estimated \$77 million benefit realized in the six months ended June 30, 2013 from the restoration of normalized working capital levels following the acquisition of Vertis and \$54 million of higher seasonal working capital primarily related to decreased accounts payable balances due to the timing of payments between years. See the "Net Cash Provided by Operating Activities" section above for further explanations of the change in operating cash flows and the "Net Cash Used in Investing Activities" section above for further explanations of the change in purchases of property, plant and equipment.

Debt Leverage Ratio

Debt Leverage Ratio is defined as total debt and capital lease obligations divided by the sum of: (1) the last twelve months of EBITDA (see the definition of EBITDA and the reconciliation of net loss attributable to Quad/Graphics common shareholders to EBITDA in the "Results of Operations" section above), (2) restructuring, impairment and transaction-related charges, (3) loss on debt extinguishment and (4) pro forma historical results related to the May 30, 2014 acquisition of Brown Printing.

The Company uses the Debt Leverage Ratio as a metric to assess liquidity and the flexibility of its balance sheet. Consistent with other liquidity metrics, the Company monitors the Debt Leverage Ratio as a measure to determine the appropriate level of debt the Company believes is optimal to operate its business and, accordingly, to quantify debt capacity available for strategic capital allocation and deployment through investments in the business (capital expenditures and acquisitions), for strengthening the balance sheet (debt and pension liability reduction), and for

returning capital to the shareholders (dividends and share repurchases). The priorities for capital allocation and deployment will change as circumstances dictate for the business, and the Debt Leverage Ratio can be significantly impacted by the amount and timing of large expenditures requiring debt financing, as well as changes in profitability.

Table of Contents

Debt Leverage Ratio is a non-GAAP measure, and should not be considered an alternative to cash flows provided by operating activities as a measure of liquidity. Quad/Graphics' calculation of the Debt Leverage Ratio may be different from similar calculations used by other companies and, therefore, comparability may be limited.

The Debt Leverage Ratio calculated below differs from both the total leverage ratio and senior secured leverage ratio included in the Company's debt covenant calculations (see Note 10, "Debt," to the condensed consolidated financial statements in Item 1, "Condensed Consolidated Financial Statements (Unaudited)," of this Quarterly Report on Form 10-Q for further information on debt covenants). The total leverage ratio included in the Company's debt covenants includes letters of credit as debt, excludes non-cash stock-based compensation expense from EBITDA and includes certain pro forma historical results of acquisitions and divestitures in EBITDA. Similarly, the senior secured leverage ratio included in the Company's debt covenants includes and excludes the same adjustments as the total leverage ratio, in addition to the exclusion of the outstanding balance of the Senior Unsecured Notes.

The Debt Leverage Ratio at June 30, 2014 and December 31, 2013, was as follows:

	June 30, 2014	December 31, 2013	
	(dollars in millions)		
Total debt and capital lease obligations on the condensed consolidated balance sheets	\$1,582.4	\$1,406.8	
Divided by:			
Quad/Graphics EBITDA as adjusted for purposes of calculating the Debt Leverage Ratio	\$561.3	\$577.1	
July 1, 2013 to May 29, 2014 Brown Printing pro forma EBITDA as adjusted for purposes of calculating the Debt Leverage Ratio ⁽¹⁾	27.4		
EBITDA as adjusted for purposes of calculating the Debt Leverage Ratio	\$588.7	\$577.1	
Debt Leverage Ratio	2.69	x 2.44	x

As permitted by the Senior Secured Credit Facility, certain pro forma financial information related to the acquisition of Brown Printing was included when calculating the Debt Leverage Ratio as of June 30, 2014. As the acquisition of Brown Printing was completed on May 30, 2014, the \$27.4 million pro forma Adjusted EBITDA represents the period from July 1, 2013 to May 29, 2014. Pro forma EBITDA as adjusted for purposes of calculating the Debt Leverage Ratio for Brown Printing was calculated in a consistent manner with the calculation above for Quad/Graphics. Brown Printing's financial information for the month of June 2014 has been included within the Quad/Graphics EBITDA as adjusted for purposes of calculating the Debt Leverage Ratio as the results of Brown Printing have been consolidated with Quad/Graphics' financial results since the date of acquisition. If the pro forma EBITDA as adjusted for purposes of calculating the Debt Leverage Ratio for Brown Printing was not included in the calculation, the Company's Debt Leverage Ratio would have been 2.82x.

Table of Contents

The calculation of Quad/Graphics EBITDA as adjusted for purposes of calculating the Debt Leverage Ratio for the trailing twelve months ended June 30, 2014 and December 31, 2013, were as follows:

	Year Ended December 31, 2013	Add Six Months Ended June 30, 2014	Subtract June 30, 2013	Trailing Twelve Months Ended June 30, 2014
Net earnings (loss) attributable to Quad/Graphics common shareholders ⁽¹⁾	\$32.5	\$(31.6) \$(41.2) \$42.1
Interest expense ⁽¹⁾	85.5	44.4	43.2	86.7
Income tax expense (benefit) ⁽¹⁾	23.3	(10.8) (9.1) 21.6
Depreciation and amortization ⁽¹⁾	340.5	169.1	176.7	332.9

Loss on debt extinguishment ⁽¹⁾	—	6.0	—	6.0
Quad/Graphics EBITDA as adjusted for purposes of calculating the Debt Leverage Ratio	\$577.1	\$208.9	\$224.7	\$561.3

⁽¹⁾ Financial information for the year ended December 31, 2013 is included as reported in the Company's 2013 Annual Report on Form 10-K filed with the SEC on February 27, 2014.

The Debt Leverage Ratio increased 0.25x at June 30, 2014, compared to December 31, 2013, due to increased borrowings in 2014 of \$175.6 million primarily to fund acquisitions and strategic investments (such as Brown Printing and UniGraphic), seasonal working capital needs and higher capital expenditures. The Debt Leverage Ratio also increased due to a decrease in the trailing twelve month Quad/Graphics EBITDA as adjusted for purposes of calculating the Debt Leverage Ratio. The Debt Leverage Ratio at June 30, 2014 of 2.69x is above management's desired target Debt Leverage Ratio range of 2.0x to 2.5x; however, the Company operates at times above or below the Debt Leverage Ratio target range depending on the timing of compelling strategic investment opportunities and seasonal working capital needs.

Debt Obligations

On April 28, 2014, the Company completed its \$1.9 billion debt financing arrangements, which included refinancing, extending and expanding its existing revolving credit facility, Term Loan A and Term Loan B with a \$1.6 billion Senior Secured Credit Facility and \$300 million of Senior Unsecured Notes.

The Senior Secured Credit Facility consists of three different loan facilities. The first facility is a revolving credit facility in the amount of \$850.0 million with a term of five years maturing on April 27, 2019. The second facility is a Term Loan A in the aggregate amount of \$450.0 million with a term of five years maturing on April 27, 2019, subject to certain required amortization. The third facility is a Term Loan B in the amount of \$300.0 million with a term of seven years maturing on April 27, 2021, subject to certain required amortization.

Borrowings under the revolving credit facility and Term Loan A loans made under the Senior Secured Credit Facility will initially bear interest at 2.00% in excess of reserve adjusted London Interbank Offered Rate ("LIBOR"), or 1.00% in excess of an alternate base rate, and Term Loan B loans will bear interest at 3.25% in excess of reserve adjusted LIBOR, with a LIBOR floor of 1.00%, or 2.25% in excess of an alternative base rate at the Company's option. The Senior Secured Credit Facility is secured by substantially all of the unencumbered assets of the Company. The Senior

Secured Credit Facility also requires the Company to provide additional collateral to the lenders in certain limited circumstances.

The Senior Unsecured Notes bear interest at 7.0% and are due May 1, 2022. The Senior Unsecured Notes are or will be unconditionally guaranteed, on a joint and several basis, by all of the current domestic subsidiaries of the Company.

The Senior Secured Credit Facility and the Senior Unsecured Notes were entered into to extend and stagger the Company's debt maturity profile, further diversify its capital structure and provide more borrowing capacity to better position the

Table of Contents

Company to execute on its strategic goals. The proceeds from the Senior Secured Credit Facility and Senior Unsecured Notes were used to: (1) repay the Company's previous revolving credit facility, Term Loan A, Term Loan B and the international term loan, (2) fund the acquisition of Brown Printing and (3) for general corporate purposes. See Note 10, "Debt," to the condensed consolidated financial statements in Item 1, "Condensed Consolidated Financial Statements (Unaudited)," of this Quarterly Report on Form 10-Q for further details on these debt arrangements.

During the six months ended June 30, 2014, the Company utilized a combination of the following significant debt instruments to fund cash requirements, including:

Senior Secured Credit Facility which includes:

\$850.0 million Revolving Credit Facility (\$31.0 million outstanding as of June 30, 2014);

\$450.0 million Term Loan A (\$450.0 million outstanding as of June 30, 2014); and

\$300.0 million Term Loan B (\$297.1 million outstanding as of June 30, 2014);

Senior Unsecured Notes (\$300.0 million outstanding as of June 30, 2014); and

Master Note and Security Agreement (\$451.6 million outstanding as of June 30, 2014).

Covenants and Compliance

As of June 30, 2014, the Company's various lending arrangements included certain financial covenants (all financial terms, numbers and ratios in this Covenants and Compliance section are as defined in the Company's debt agreements). Among these covenants, the Company was required to maintain the following as of June 30, 2014 (for each covenant, the most restrictive measurement has been included below):

On a rolling twelve-month basis, the total leverage ratio, defined as total consolidated debt (less certain unrestricted domestic cash) to consolidated EBITDA, shall not exceed 3.75 to 1.00 (for the twelve months ended June 30, 2014, the Company's leverage ratio was 2.64 to 1.00).

On a rolling twelve-month basis, the senior secured leverage ratio, defined as senior secured debt (less certain unrestricted domestic cash) to consolidated EBITDA, shall not exceed 3.50 to 1.00 (for the twelve months ended June 30, 2014, the Company's senior secured leverage ratio was 2.15 to 1.00).

On a rolling twelve-month basis, the minimum interest coverage ratio, defined as consolidated EBITDA to consolidated cash interest expense, shall not be less than 3.50 to 1.00 (for the twelve months ended June 30, 2014, the Company's interest coverage ratio was 6.88 to 1.00).

On a rolling twelve-month basis, the fixed charge coverage ratio, defined as consolidated EBITDA and rent expense to interest and rent expense, shall not be less than 1.50 to 1.00 (for the twelve months ended June 30, 2014, the Company's fixed charge coverage ratio was 4.07 to 1.00).

Consolidated net worth of at least \$793.8 million plus 40% of positive consolidated net income cumulatively for each year. As of June 30, 2014, consolidated net worth must be at least \$793.8 million (as of June 30, 2014, the Company's consolidated net worth under the most restrictive covenant per the various debt agreements was \$1.15 billion).

Table of Contents

In addition to those covenants, the Senior Secured Credit Facility also includes certain limitations on acquisitions, indebtedness, liens, dividends and repurchases of capital stock, including:

If the Company's total leverage ratio is greater than 3.00 to 1.00 (as defined in the Senior Secured Credit Facility), the Company is prohibited from making greater than \$120.0 million of annual dividend payments, capital stock repurchases and certain other payments. If the total leverage ratio is less than 3.00 to 1.00, there are no such restrictions.

If the Company's senior secured leverage ratio is greater than 3.00 to 1.00 or the Company's total leverage ratio is greater than 3.50 to 1.00 (these ratios as defined in the Senior Secured Credit Facility), the Company is prohibited from voluntarily prepaying any of the Senior Unsecured Notes and from voluntarily prepaying any other unsecured or subordinated indebtedness, with certain exceptions (including any mandatory prepayments on the Senior Unsecured Notes or any other unsecured or subordinated debt). If the senior secured leverage ratio is less than 3.00 to 1.00 and the total leverage ratio is less than 3.50 to 1.00, there are no such restrictions.

The indenture underlying the Senior Unsecured Notes contains various covenants, including, but not limited to, covenants that, subject to certain exceptions, limit the Company's and its restricted subsidiaries' ability to: incur and/or guarantee additional debt; pay dividends, repurchase stock or make certain other restricted payments; enter into agreements limiting dividends and certain other restricted payments; prepay, redeem or repurchase subordinated debt; grant liens on assets; enter into sale and leaseback transactions; merge, consolidate, transfer or dispose of substantially all of the Company's consolidated assets; sell, transfer or otherwise dispose of property and assets; and engage in transactions with affiliates.

As of June 30, 2014, the Company was in compliance with all financial covenants in its debt agreements. While the Company currently expects to be in compliance in future periods with all of the financial covenants, there can be no assurance that these covenants will continue to be met. The Company's failure to maintain compliance with the covenants could prevent the Company from borrowing additional amounts and could result in a default under any of the debt agreements. Such default could cause the outstanding indebtedness to become immediately due and payable, by virtue of cross-acceleration or cross-default provisions.

Risk Management

For a discussion of the Company's exposure to market risks and management of those market risks, see Item 3, "Quantitative and Qualitative Disclosures About Market Risk," of this Quarterly Report on Form 10-Q.

Contractual Obligations and Off-Balance Sheet Arrangements

As of June 30, 2014, the Company's contractual obligations and off-balance sheet arrangements have not changed materially from that listed in the "Contractual Obligations and Other Commitments" table and related notes to the table listed in the Company's Annual Report on Form 10-K filed on February 27, 2014, except:

- the Company increased its consolidated debt and capital lease obligations by \$367.9 million, which included a \$192.3 million change in anticipated future interest payments, during the six months ended June 30, 2014 as a result of the completion of the April 28, 2014, \$1.9 billion debt financing arrangements (see Note 10, "Debt," to the condensed consolidated financial statements in Item 1, "Condensed Consolidated Financial Statements (Unaudited)," "Debt Obligations" and "Covenants and Compliance" of this Quarterly Report on Form 10-Q for further details on these debt arrangements).

New Accounting Pronouncements

In June 2014, the FASB issued new guidance on certain share-based payment awards, which clarifies the treatment of performance targets that can be met after the requisite service period of a share-based payment award. Under the new guidance, an entity should treat the performance targets that can be met after the requisite period of service as performance conditions that affect vesting. This guidance is effective for interim and annual periods beginning after December 15, 2015 with early adoption permitted. The Company is currently evaluating the impact of this guidance on the condensed consolidated financial statements.

In May 2014, FASB issued new guidance on recognizing revenue from contracts with customers. Under this guidance, an entity will recognize revenue when it transfers promised goods or services to the customer in the amount that reflects what it expects in exchange for the goods or services. This guidance also requires more detailed disclosures to enable users of the financial statements to understand the nature, amount, timing and uncertainty of the revenue and cash flow arising from contracts with customers. This guidance is effective for interim and annual periods beginning after December 15, 2016 with early adoption not permitted. This guidance allows the option of either a full retrospective adoption, meaning the guidance is applied to all periods presented, or a modified retrospective adoption, meaning the guidance is applied only to the most current period. The Company is currently evaluating the impact of this guidance on the condensed consolidated financial statements and determining which transition method to use.

In April 2014, the FASB issued new guidance on the presentation of discontinued operations, which modifies the requirements for disposals to qualify as discontinued operations and expands related disclosure requirements. This guidance is effective prospectively for interim and annual periods beginning after December 15, 2014, with early adoption permitted for disposals that have not been reported in financial statements previously issued or available for issuance. The Company plans to adopt this new guidance effective January 1, 2015. The adoption of this guidance may impact whether future disposals qualify as discontinued operations and, therefore, could impact the Company's financial statement presentation and disclosures.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

The Company is exposed to a variety of market risks which may adversely impact the Company's results of operations and financial condition, including changes in interest and foreign currency exchange rates, changes in the economic environment that would impact credit positions and changes in the prices of certain commodities. The Company's management takes an active role in the risk management process and has developed policies and procedures that require specific administrative and business functions to assist in the identification, assessment and control of various risks. These risk management strategies may not fully insulate the Company from adverse impacts due to market risks.

Interest Rate Risk

The Company is exposed to interest rate risk on variable rate debt obligations and price risk on fixed rate debt and capital leases. As of June 30, 2014, the Company had fixed rate debt and capital leases outstanding of \$788.4 million at a current weighted average interest rate of 7.1% and variable rate debt outstanding of \$794.0 million at a current weighted average interest rate of 3.2%. The variable rate debt outstanding at June 30, 2014 is primarily comprised of the \$1.6 billion Senior Secured Credit Facility entered into on April 28, 2014, including \$450.0 million outstanding on the \$450.0 million term loan A, \$297.1 million outstanding on the \$300.0 million term loan B and \$31.0 million outstanding on the \$850.0 million revolving credit facility. The term loan B bears interest primarily based on LIBOR; however, it is subject to a 1.0% LIBOR minimum rate and thus the interest rate on the term loan B will not begin to fluctuate until LIBOR exceeds that percentage. At June 30, 2014, LIBOR was significantly lower than that 1.0% LIBOR minimum rate, and as a result the interest on the term loan B would not fluctuate with a 10% increase in the market interest rate. Excluding the term loan B, a hypothetical change in the interest rate of 10% from the Company's

current weighted average interest rate on variable rate debt obligations of 2.7% would not have a material impact on the Company's interest expense. A hypothetical 10% change in market interest rates would change the fair value of fixed rate debt at June 30, 2014, by approximately \$26.5 million.

Foreign Currency Risk and Translation Exposure

The Company is exposed to the impact of foreign currency fluctuations in certain countries in which it operates. The exposure to foreign currency movements is limited in most countries because the operating revenues and expenses of its various subsidiaries and business units are substantially in the local currency of the country in which they operate. Although operating in

Table of Contents

local currencies may limit the impact of currency rate fluctuations on the results of operations of the Company's non-U.S. subsidiaries and business units, fluctuations in such rates may affect the translation of these results into the Company's condensed consolidated financial statements. To the extent revenues and expenses are not in the applicable local currency, the Company may enter into foreign exchange forward contracts to hedge the currency risk.

The Company's hedging operations have historically not been material, and gains or losses from these operations have not been material to the Company's results of operations, financial position or cash flows. The Company does not use derivative financial instruments for trading or speculative purposes.

These international operations are subject to risks typical of international operations, including, but not limited to, differing economic conditions, changes in political climate, potential restrictions on the movement of funds, differing tax structures, and other regulations and restrictions. Accordingly, future results could be adversely impacted by changes in these or other factors.

Credit Risk

Credit risk is the possibility of loss from a customer's failure to make payments according to contract terms. Prior to granting credit, each customer is evaluated in an underwriting process, taking into consideration the prospective customer's financial condition, past payment experience, credit bureau information and other financial and qualitative factors that may affect the customer's ability to pay. Specific credit reviews and standard industry credit scoring models are used in performing this evaluation. Customers' financial condition is continuously monitored as part of the normal course of business. Some of the Company's customers are highly leveraged or otherwise subject to their own operating and regulatory risks. Based on those customer account reviews and due to the continued uncertainty of the global economy, the Company has an allowance for doubtful accounts of \$67.1 million as of June 30, 2014, and \$58.9 million as of December 31, 2013.

The Company has a large, diverse customer base and does not have a high degree of concentration with any single customer account. During the three and six months ended June 30, 2014, the Company's largest customer accounted for less than 5% of the Company's net sales. Even if the Company's credit review and analysis mechanisms work properly, the Company may experience financial losses in its dealings with customers and other parties. Any increase in nonpayment or nonperformance by customers could adversely impact the Company's results of operations and financial condition. Economic disruptions could result in significant future charges.

Commodity Risk

The primary raw materials used by the Company are paper, ink and energy. At this time, the Company's supply of raw materials is readily available from numerous suppliers; however, based on market conditions, that could change in the future. The Company generally buys these raw materials based upon market prices that are established with the vendor as part of the purchase process.

The majority of paper used in the printing process is supplied directly by the Company's customers. For those customers that do not supply paper, the Company generally includes price adjustment clauses in sales contracts. The Company produces the majority of ink used in its print production. Raw materials for the ink manufacturing process are purchased externally from a variety of suppliers. The Company generally includes price adjustment clauses for ink and other critical raw materials in the printing process in its sales contracts.

The Company generally cannot pass on to customers the impact of higher electric and natural gas energy prices on its manufacturing costs, and increases in energy prices result in higher manufacturing costs for certain of its operations. The Company mitigates its risk through natural gas hedges when appropriate. In its logistic operations, however, the

Company is able to pass a substantial portion of any increase in fuel prices directly to its customers.

As a result, management believes a hypothetical 10% change in the price of paper and other raw materials would not have a significant direct impact on the Company's consolidated annual results of operations or cash flows; however, significant increases in commodity pricing or tight supply could influence future customers' demand for printed products. Inflation has not had a significant impact on the Company historically.

ITEM 4. Controls and Procedures

Disclosure Controls and Procedures

The Company's management, with the participation of the Company's principal executive officer and principal financial officer, has evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report and has concluded that, as of the end of such period, the Company's disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934) that occurred during the fiscal quarter ended June 30, 2014, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 1A. Risk Factors

Risk factors relating to the Company are contained in Part I, Item 1A, "Risk Factors," of the Company's 2013 Annual Report on Form 10-K, filed with the SEC on February 27, 2014. No material changes to such risk factors occurred during the period from January 1, 2014 through June 30, 2014.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

(a) None.

(b) Not applicable.

(c) On September 6, 2011, the Company's board of directors authorized a share repurchase program of up to \$100.0 million of the Company's outstanding class A common stock. Under the authorization, share repurchases may be made at the Company's discretion, from time to time, in the open market and/or in privately negotiated transactions as permitted by federal securities laws and other legal requirements. The timing, manner, price and amount of any repurchase will depend on economic and market conditions, share price, trading volume, applicable legal requirements and other factors. The program may be suspended or discontinued at any time. There were no stock repurchases made during the second quarter ended June 30, 2014. As of June 30, 2014, there were \$91.8 million of authorized repurchases remaining under the program.
