Advanced Emissions Solutions, Inc. Profit Sharing Retirement Plan

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustee

Advanced Emissions Solutions, Inc. Profit Sharing Retirement Plan

We have audited the accompanying statements of net assets available for benefits of Advanced Emissions Solutions, Inc. Profit Sharing Retirement Plan (the "Plan") as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and 2013, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The supplemental information in the accompanying schedules of Delinquent Participant Contributions and Schedule of Assets (Held at End of Year), has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental information is presented for the purpose of additional analysis and is not a required part of the financial statements but includes supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information in the accompanying schedules, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Financial Statements

Note 1 - Description of the Plan

General

The Advanced Emissions Solutions, Inc. Profit Sharing Retirement Plan (the "Plan") is a defined contribution plan covering the employees of Advanced Emissions Solutions, Inc., and its wholly-owned subsidiaries ADA-ES, Inc. and Advanced Clean Energy Solutions, LLC (collectively the "Company"). The Plan's investments are held in a trust fund (the "Trust") managed by the trustee, Capital Bank and Trust Company (the "Trustee"). The Plan's administrators and recordkeepers are American Funds and Advanced Emissions Solutions, Inc. (collectively the "Administrator"), respectively.

Employees are eligible to participate in the Plan upon the employees' date of hire if they are at least 21 years of age.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Contributions

Each year, participants may contribute up to 100% percent of annual compensation, either on a "before-tax" deferred compensation or on an "after-tax" ("Roth contributions") basis, not to exceed \$17,500 in 2014 and 2013 (or \$23,000 for individuals over 50 years of age electing to make catch-up contributions). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans ("rollover"). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2% percent of eligible compensation and their contributions invested in a designated target date fund based upon age until retirement until changed by the participant. The Company can elect to contribute 100% percent of the first 7% percent of base compensation that a participant qualifying for the Company match contributes to the Plan. Participants are eligible to begin receiving the Company match following the one-year anniversary of employment. The matching Company contribution may be in the form of cash or Advanced Emissions Solutions, Inc. common stock. Additionally, the Company may make nonelective contributions to the Plan. Participants are eligible to receive the nonelective Company contribution if they have completed 501 hours of service during the Plan Year, which is January 1 - December 31.

The Company's non cash employer matching contributions in the form of common stock to the Plan for the years ended December 31, 2014 and December 31, 2013 were \$0 and \$567,830, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's elective contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching and nonelective contribution portions of their accounts is based on years of continuous service. A participant vests in the employer portion of the matching and nonelective contributions based on the following schedule:

Years of Service	Vested Percentage
Less than 2	—%
2	20%
3	40%
4	60%
5	80%
6	100%

A participant also becomes 100% vested in the Company match and nonelective contributions if the participant is employed on or after the Normal Retirement Age (e.g., 65 as defined in the Plan) or if the participant terminates employment due to their death or as a result of becoming disabled.

Administrative Expenses

Each participants account is charged with an allocation of administrative expenses.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined at time of loan, is set monthly at 1 percent above the prime rate, as defined. Principal and interest is paid ratably through monthly payroll deductions. These loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are deducted from participants' accounts as incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installments over a period of not more than their assumed life expectancy (or the assumed life expectancies of the participant and their beneficiary).

Forfeited Accounts

At December 31, 2014 and 2013, forfeited accounts totaled \$77,593 and \$27,253 respectively. The unvested balance as of December 31, 2014 was used to reduce employer contributions that were receivable as of the end of the Plan year. The unvested balances as of December 31, 2013 were reallocated to eligible employees.

The above information is intended as a general description of the Plan's operating guidelines. Reference should be made to the Plan document for more specific provisions.

Note 2 - Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires estimates and assumptions that affect the amounts reported in these financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's valuation policies utilize information provided by the investment advisers, custodians and insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are deducted from participants' accounts and are expensed when they are incurred.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in expenses. Investment related expenses are presented as administrative expenses in the statement of change in net assets available for benefits. The Company pays the audit fees on behalf of the Plan.

Recent Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board ("FASB") issued ASU 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient", ("ASU 2015-12"). ASU 2015-12 simplifies certain aspects of employee benefit plan (EBP) accounting while satisfying the needs of users of financial statements, including plan participants and the Department of Labor. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. The Plan Administrator is currently evaluating the standard and does not believe it will have a material impact on the Plan's financial statements.

In May 2015, the FASB issued ASU 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Assets Value per Share (or Its Equivalent)", ("ASU 2015-07"). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. It also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. ASU 2015-07 will be effective for the Plan beginning in the first quarter of 2016, with early adoption permitted, and will be applied retrospectively. The Plan Administrator is currently evaluating the standard and does not believe it will have a material impact on the Plan's financial statements.

Note 3 - Investments

The following table presents investments that represent 5 percent or more of the Plan's net assets:

	As of December 31,	
	2014	2013
American Funds 2020 Target Date Fund R2*	\$ 1,197,667	\$ 1,678,335
Advanced Emissions Solutions, Inc. common stock*	9,975,537	12,406,298

*Nonparticipant-directed

The following table presents nonparticipant directed investments by general type:

	As of December 31,	
	2014	2013
Advanced Emissions Solutions, Inc. common stock	\$9,975,537	\$12,406,298
Money market funds	77,593	27,253
Mutual funds	7,049,767	7,042,728
	\$17,102,897	\$19,476,279

During 2014 and 2013, the components of the investment (loss) income related to the Plan's nonparticipant directed investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated

(depreciated) in value and earned interest and dividends as follows:

	Years Ended December 31,	
	2014	2013
Investments (loss) income:		
Net (depreciation) appreciation in fair value of nonparticipant directed investments		
Advanced Emissions Solutions, Inc. common stock	\$(2,023,097) \$8,854,902
Mutual funds	(73,707) 724,930
Dividends	286,962	154,511
	\$(1,809,842) \$9,734,343

The following table presents participant directed investments by general type:

	As of December 31,	
	2014	2013
Common Stocks	\$738,093	\$727,001
Money market	732,906	723,255
Mutual Funds	176,280	164,660
	\$1,647,279	\$1,614,916

During 2014 and 2013, the components of the investment (loss) income related to the Plan's participant directed investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value and earned interest and dividends as follows:

	Years Ended December 31,	
	2014	2013
Investments (loss) income:		
Net (depreciation) appreciation in fair value of nonparticipant directed investments		
Common Stocks	\$(46,904) \$185,264
Mutual Funds	(332) 24,687
Interest	64	55
Dividends	32,018	30,786
	\$(15,154) \$240,792

Note 4 - Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company uses the hierarchy prescribed in the accounting guidance for fair value measurements, based upon the available inputs to the valuation and the degree to which they are observable or not observable in the market. The three levels in the hierarchy are as follows:

- Level 1 Inputs - Quoted priced (unadjusted) for identical assets or liabilities in active markets that are accessible as of the measurement date;
- Level 2 Inputs - Inputs other than quoted prices within Level 1 that are observable either directly or indirectly, including but not limited to quoted prices in markets that are not active, quoted prices in active markets for similar assets or liabilities and observable inputs other than quoted prices such as interest rates or yield curves;
- Level 3 Inputs - Unobservable inputs reflecting the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk

Edgar Filing: Advanced Emissions Solutions, Inc. - Form 11-K

The following is a description of the valuation techniques and inputs used for each major class of assets measured by the Plan. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Advanced Emissions Solutions, Inc. common stock: The Company's stock is valued using the closing market price reported on the NASDAQ on the last business day of the year. Historically the market price of the Company's stock was reported on the NASDAQ Capital Markets, but as of March 30, 2015, the Company's common stock was delisted from the NASDAQ Capital Markets and began trading on the OTC-Markets - OTC-Pink Tier under the trading symbol "ADES".

Due to certain participants in the Plan having material non-public information with regard to the Company, those participants were unable to transact in the Company's common stock as of April 1, 2014 through the date of these financial statements.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the daily closing prices as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self Directed Accounts: The Self Directed Accounts hold common stock, mutual funds and money market funds. The common stock is valued at the closing price reported on the active market on which the individual securities are traded.

The mutual funds and money market funds are valued at the quoted NAV of shares held by the Plan at year-end.

The following tables set forth by level within the fair value hierarchy the Plan investment assets at fair value, as of December 31, 2014 and 2013. As required by Financial Accounting Standards Codification ("ASC") 820, Fair Value Measurement and Disclosures, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurements:

	As of December 31, 2014			Assets at Fair Value
	Fair Value Measurement Using			
	Level 1	Level 2	Level 3	
Advanced Emissions Solutions, Inc. common stock	* \$9,975,537	\$—	\$—	\$9,975,537

Note 5 - Tax Status

The underlying standardized prototype plan has received an opinion letter from the Internal Revenue Service (the "IRS") dated March 31, 2014 stating that the written form of the underlying prototype document is qualified under Section 401 of the Internal Revenue Code (the "Code"). Any employer adopting this form of the plan will be considered to have a plan qualified under Section 401 of the Code and therefore, the related trust is tax-exempt. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States ("US GAAP") require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 6 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent to December 31, 2014, there was a material decrease in the fair value of Advanced Emissions Solutions, Inc. common stock. Using the December 31, 2014 share amounts, the decrease in the fair value of the Advanced Emissions Solutions, Inc. common stock would have decreased Net Assets Available for Benefit by approximately \$7.3 million as of the date of these financial statements.

Note 7 - Transactions with Parties-in-Interest

Party-in-interest transactions include the investment in the common stock of the Company and funds maintained by American Funds. Permissible Plan loans to participants are also party-in-interest transactions. These transactions are exempt from the prohibited rules under ERISA.

Note 8 - Delinquent Participant Contributions

The Company failed to transmit certain participant contributions to the Plan within the time period prescribed by ERISA during the years 2007 through 2014. Late transmissions of participant contributions constitute a prohibited transaction under ERISA section 406, regardless of materiality. The Company transmitted all the delinquent participant contributions to the Plan. The Company reimbursed the Plan for lost earnings in the amount of \$8,820 on July 21, 2015.

Note 9 - Excess Contributions Payable to Participants

The Plan is subject to certain non-discrimination rules under ERISA and the Code. For 2014, the Company was required to aggregate the Plan with the Profit Sharing Retirement Plan of BCSI, LLC (the "BCSI Plan"), a wholly owned subsidiary of Advanced Emissions Solutions, Inc., for required non-discrimination tests. Although the Plan passed all required non-discrimination tests when evaluated alone, the Plan failed certain of the non-discrimination tests under the Code when aggregated with the BCSI Plan. The specific test failures were due to lower contribution percentages by non-highly compensated eligible employees relative to the contribution percentages of highly compensated eligible employees of the Company and BCSI, LLC. In order to meet the requirements of the non-discrimination rules, certain participants will forfeit a portion of the Company match and the Plan will refund a portion of the contributions made by highly compensated participants, in accordance with applicable provisions of the Code. The forfeitures of the Company match are reflected net of the employer contribution receivable on the Statements of Net Assets Available for Benefits. The refunds are included within Other liabilities in the Statements of Net Assets Available for Benefits. Employer and participant contributions on the Statements of Changes in Net Assets Available for Benefits are reflected net of the refundable contributions. Employer and participant contributions were reduced by \$4,215 and \$42,028, respectively, as a result of the excess contributions. The refund for 2014 will be paid in the fourth quarter of 2015.

Note 10 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 due to the Form 5500 being prepared on a cash basis:

	As of December 31,	
	2014	2013
Net assets available for benefits per the financial statements	\$19,311,261	\$21,290,086
Deduct: Employer contribution receivable	(558,187)	(144,595)
Add: Excess contributions payable to participants	42,028	—
Net assets available for benefits per the Form 5500	\$18,795,102	\$21,145,491

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to the changes in net assets available for benefits per the Form 5500 due to the Form 5500 being prepared on a cash basis:

	Years Ended December 31,	
	2014	2013
Net change in net assets available for benefits per the financial statements	\$(1,978,825)	\$10,856,760
Deduct: Employer contributions receivable allocated to participants at December 31	(413,592)	(25,008)
Add: Excess contributions payable to participants	42,028	—
Net change in net assets available for benefits per the Form 5500	\$(2,350,389)	\$10,831,752

Note 11 - Subsequent events

On January 2, 2015 and July 21, 2015, the Company transmitted employer contributions not yet contributed to the Plan as of December 31, 2014 in the amount of \$549,367 and \$8,820 respectively. Additionally, the Plan utilized the entire unallocated forfeitures balance of \$77,593 in order to adjust all outstanding contributions due to plan participants as of December 31, 2014.
