Item 7.01 Regulation FD Disclosure.

On May 5, 2015, Zoetis (the company) announced a comprehensive operational efficiency initiative designed to reduce complexity in its global operations and optimize its resource allocation and efficiency. In connection with this initiative, during the second quarter of 2015, the company completed certain changes to its organizational structure that resulted in the consolidation of the company's Europe/Africa/Middle East (EuAfME), Canada/Latin America (CLAR) and Asia/Pacific (APAC) operating segments into a single operating segment. The company's new reporting structure consists of two segments: the United States (U.S.) and International.

Additionally, and also in connection with its operational efficiency initiative, the company recategorized certain costs that are not allocated to its operating segments. These costs primarily consist of corporate expenses and research and development expenses.

These changes will be reflected in the company's second quarter 2015 financial results, which the company plans to announce on August 4, 2015.

Zoetis is furnishing this Current Report on Form 8-K to provide revised historical financial information in conformance with its new organizational structure. The information provided herein is for informational purposes only. The revised historical financial information has no effect on the company's previously reported total condensed consolidated financial condition or results of operations.
