Notes to the Condensed Consolidated Financial Statements

(unaudited)

1. Business Overview

BlackRock, Inc. (together, with its subsidiaries, unless the context otherwise indicates, “BlackRock” or the “Company”) is a leading publicly traded investment management firm providing a broad range of investment and risk management services to institutional and retail clients worldwide.

BlackRock’s diverse platform of active (alpha) and index (beta) investment strategies across asset classes enables the Company to tailor investment outcomes and asset allocation solutions for clients. Product offerings include single- and multi-asset class portfolios investing in equities, fixed income, alternatives and money market instruments. Products are offered directly and through intermediaries in a variety of vehicles, including open-end and closed-end mutual funds, iShares® exchange-traded funds (“ETFs”), separate accounts, collective investment funds and other pooled investment vehicles. BlackRock also offers the BlackRock Solutions® investment and risk management technology platform, Aladdin®, risk analytics and advisory services and solutions to a broad base of institutional investors.

At June 30, 2016, The PNC Financial Services Group, Inc. (“PNC”) held 21.2% of the Company’s voting common stock and 21.9% of the Company’s capital stock, which includes outstanding common and nonvoting preferred stock.

2. Significant Accounting Policies

Basis of Presentation. These condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) and include the accounts of the Company and its controlled subsidiaries. Noncontrolling interests on the condensed consolidated statements of financial condition represents the portion of consolidated sponsored investment funds in which the Company does not have direct equity ownership. Accounts and transactions between consolidated entities have been eliminated.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reporting periods. Actual results could differ from those estimates.

Certain financial information that normally is included in annual financial statements, including certain financial statement footnotes, is not required for interim reporting purposes and has been condensed or omitted herein. These condensed consolidated financial statements should be read in conjunction with the Company’s consolidated financial statements and notes related thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2015, which was filed with the Securities and Exchange Commission (“SEC”) on February 26, 2016 (“2015 Form 10-K”).

The interim financial information at June 30, 2016 and for the three and six months ended June 30, 2016 and 2015 is unaudited. However, in the opinion of management, the interim information includes all normal recurring adjustments necessary for the fair presentation of the Company's results for the periods presented. The results of operations for interim periods are not necessarily indicative of results to be expected for the full year.

Certain items previously reported have been reclassified to conform to the current year presentation.

Fair Value Measurements.

Hierarchy of Fair Value Inputs. The Company uses a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. Assets and liabilities measured and reported at fair value are classified and disclosed in one of the following categories:

Level 1 Inputs:

Quoted prices (unadjusted) in active markets for identical assets or liabilities at the reporting date.

Level 1 assets may include listed mutual funds, ETFs, listed equities and certain exchange-traded derivatives.

7

Level 2 Inputs:

Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities that are not active; quotes from pricing services or brokers for which the Company can determine that orderly transactions took place at the quoted price or that the inputs used to arrive at the price are observable; and inputs other than quoted prices that are observable, such as models or other valuation methodologies.

Level 2 assets may include debt securities, investments in collateralized loan obligations (“CLOs”), short-term floating-rate notes, asset-backed securities, securities held within consolidated hedge funds, restricted public securities valued at a discount, as well as over-the-counter derivatives, including interest and inflation rate swaps and foreign currency exchange contracts that have inputs to the valuations that generally can be corroborated by observable market data.

Level 3 Inputs:

Unobservable inputs for the valuation of the asset or liability, which may include nonbinding broker quotes. Level 3 assets include investments for which there is little, if any, market activity. These inputs require significant management judgment or estimation.

Level 3 assets may include direct private equity investments held within consolidated funds and investments in CLOs.

Level 3 liabilities include contingent liabilities related to acquisitions valued based upon discounted cash flow analysis using unobservable market data.

Significance of Inputs. The Company’s assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the financial instrument.

Valuation Techniques. The fair values of certain Level 3 assets and liabilities were determined using various methodologies as appropriate, including third-party pricing vendors, broker quotes and market and income approaches. Such quotes and modeled prices are evaluated for reasonableness through various procedures, including due diligence reviews of third-party pricing vendors, variance analyses, consideration of the current market environment and other analytical procedures.

A significant number of inputs used to value equity, debt securities and investments in CLOs is sourced from third-party pricing vendors. Generally, prices obtained from pricing vendors are categorized as Level 1 inputs for identical securities traded in active markets and as Level 2 for other similar securities if the vendor uses observable inputs in determining the price. Annually, BlackRock’s internal valuation committee or other designated groups review both the valuation methodologies, including the general assumptions and methods used to value various asset classes, and operational processes with these vendors. On a quarterly basis, meetings are held with key vendors to identify any significant changes to the vendors’ processes.

In addition, quotes obtained from brokers generally are nonbinding and categorized as Level 3 inputs. However, if the Company is able to determine that market participants have transacted for the asset in an orderly manner near the quoted price or if the Company can determine that the inputs used by the broker are observable, the quote is classified as a Level 2 input.

Investments Measured at Net Asset Values. As a practical expedient, the Company uses NAV as the fair value for certain investments. The inputs to value these investments may include BlackRock capital accounts for its partnership interests in various alternative investments, including distressed credit hedge funds, opportunistic funds, real assets and private equity funds, which may be adjusted by using the returns of certain market indices. The various partnerships generally are investment companies, which record their underlying investments at fair value based on fair value policies established by management of the underlying fund. Fair value policies at the underlying fund generally require the fund to utilize pricing/valuation information from third-party sources, including independent appraisals.

However, in some instances, current valuation information for illiquid securities or securities in markets that are not active may not be available from any third-party source or fund management may conclude that the valuations that are available from third-party sources are not reliable. In these instances, fund management may perform model-based analytical valuations that could be used as an input to value these investments.

8

Derivative Instruments and Hedging Activities. The Company does not use derivative financial instruments for trading or speculative purposes. The Company uses derivative financial instruments primarily for purposes of hedging exposures to fluctuations in foreign currency exchange rates of certain assets and liabilities, and market exposures for certain seed investments. In addition, certain consolidated sponsored investment funds may also invest in derivatives as a part of their investment strategy.

Changes in the fair value of the Company's derivative financial instruments are recognized in earnings and, where applicable, are offset by the corresponding gain or loss on the related foreign-denominated assets or liabilities or hedged investments, on the condensed consolidated statements of income.

The Company may also use financial instruments designated as net investment hedges for accounting purposes to hedge net investments in international subsidiaries whose functional currency is different from the reporting currency of the parent company. The gain or loss from revaluing accounting hedges of net investments in foreign operations at the spot rate is deferred and reported within accumulated other comprehensive income on the condensed consolidated statements of financial condition. The Company reassesses the effectiveness of its net investment hedge on a quarterly basis.

Money Market Fee Waivers. The Company is currently voluntarily waiving a portion of its management fees on certain money market funds to ensure that they maintain a minimum level of daily net investment income (the "Yield Support waivers"). During the three and six months ended June 30, 2016, these waivers resulted in a reduction of management fees of approximately \$13 million and \$25 million, respectively. During the three and six months ended June 30, 2015, these waivers resulted in a reduction of management fees of approximately \$37 million and \$80 million, respectively. Approximately 60% and 45% of year-to-date Yield Support waivers for the six months ended June 30, 2016, and 2015, respectively, were offset by a reduction of BlackRock's distribution and servicing costs paid to a financial intermediary. BlackRock has provided Yield Support waivers in prior periods and may increase or decrease the level of fee waivers in future periods.

Separate Account Assets and Liabilities. Separate account assets are maintained by BlackRock Life Limited, a wholly owned subsidiary of the Company, which is a registered life insurance company in the United Kingdom, and represent segregated assets held for purposes of funding individual and group pension contracts. The life insurance company does not underwrite any insurance contracts that involve any insurance risk transfer from the insured to the life insurance company. The separate account assets primarily include equity securities, debt securities, money market funds and derivatives. The separate account assets are not subject to general claims of the creditors of BlackRock. These separate account assets and the related equal and offsetting liabilities are recorded as separate account assets and separate account liabilities on the condensed consolidated statements of financial condition.

The net investment income attributable to separate account assets supporting individual and group pension contracts accrues directly to the contract owner and is not reported on the condensed consolidated statements of income. While BlackRock has no economic interest in these separate account assets and liabilities, BlackRock earns policy administration and management fees associated with these products, which are included in investment advisory, administration fees and securities lending revenue on the condensed consolidated statements of income.

Separate Account Collateral Assets Held and Liabilities Under Securities Lending Agreements. The Company facilitates securities lending arrangements whereby securities held by separate accounts maintained by BlackRock Life Limited are lent to third parties under global master securities lending agreements. In exchange, the Company receives legal title to the collateral with minimum values generally ranging from approximately 102% to 112% of the value of the securities lent in order to reduce counterparty risk. The required collateral value is calculated on a daily basis. The global master securities lending agreements provide the Company the right to request additional collateral or, in the event of borrower default, the right to liquidate collateral. The securities lending transactions entered into by the Company are accompanied by an agreement that entitles the Company to request the borrower to return the securities at any time; therefore, these transactions are not reported as sales.

The Company records on the condensed consolidated statements of financial condition the cash and noncash collateral received under these BlackRock Life Limited securities lending arrangements as its own asset in addition to an equal and offsetting collateral liability for the obligation to return the collateral. During the six months ended June 30, 2016 and 2015, the Company had not resold or repledged any of the collateral received under these arrangements. At June 30, 2016 and December 31, 2015, the fair value of loaned securities held by separate accounts was approximately \$28.1 billion and \$28.8 billion, respectively, and the fair value of the collateral held under these securities lending agreements was approximately \$30.7 billion and \$31.3 billion, respectively.

Recent Accounting Pronouncements Adopted in the Six Months Ended June 30, 2016

Accounting for Measurement-Period Adjustments. In September 2015, the Financial Accounting Standards Board (“FASB”) issued ASU 2015-16, Simplifying the Accounting for Measurement-Period Adjustments (“ASU 2015-16”). Under ASU 2015-16, an acquirer must recognize, upon determination, adjustments to the original amounts recorded for a business acquisition that are identified during the one-year period following the acquisition date. Previously, prior period information was required to be restated. The Company adopted ASU 2015-16 prospectively on January 1, 2016 and will apply the ASU to any adjustments related to business acquisitions.

Transition to Equity Method Accounting. In March 2016, the FASB issued ASU 2016-07, Simplifying the Transition to the Equity Method of Accounting (“ASU 2016-07”). ASU 2016-07 eliminates the requirement to apply the equity method of accounting retrospectively to an investment that subsequently qualifies for such accounting as a result of obtaining significant influence. The Company adopted ASU 2016-07 prospectively on January 1, 2016.

Recent Accounting Pronouncements Not Yet Adopted

Revenue from Contracts with Customers. In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (“ASU 2014-09”). ASU 2014-09 outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance.

In March 2016, the FASB issued ASU 2016-08, Principal Versus Agent Considerations (Reporting Revenue Gross Versus Net) (“ASU 2016-08”). ASU 2016-08 amends the principal-versus-agent implementation guidance in ASU 2014-09, impacting whether an entity reports revenue on a gross or net basis.

In April 2016, the FASB issued ASU 2016-10, Identifying Performance Obligations and Licensing (“ASU 2016-10”). ASU 2016-10 clarifies aspects of ASU 2014-09 pertaining to the identification of performance obligations and the licensing implementation guidance, while retaining the related principles for those areas.

In May 2016, the FASB issued ASU 2016-12, Narrow-Scope Improvements and Practical Expedients (“ASU 2016-12”). ASU 2016-12 clarifies aspects of ASU 2014-09, including clarification of noncash consideration, and provides a practical expedient for reflecting contract modifications at transition.

The Company is currently evaluating the impact of adopting ASU 2014-09, ASU 2016-08, ASU 2016-10 and ASU 2016-12, which are effective for the Company on January 1, 2018.

Recognition and Measurement of Financial Instruments. In January 2016, the FASB issued ASU 2016-01, Recognition and Measurement of Financial Assets and Financial Liabilities (“ASU 2016-01”). ASU 2016-01 amends guidance on the classification and measurement of financial instruments, including significant revisions in accounting related to the classification and measurement of investments in equity securities and presentation of certain fair value changes for financial liabilities when the fair value option is elected. ASU 2016-01 also amends certain disclosure requirements associated with the fair value of financial instruments. The Company is currently evaluating the impact of adopting ASU 2016-01, which is effective for the Company on January 1, 2018.

Leases. In February 2016, the FASB issued ASU 2016-02, Leases (“ASU 2016-02”). ASU 2016-02 requires lessees to recognize assets and liabilities arising from most operating leases on the statement of financial position. The Company is currently evaluating the impact of adopting ASU 2016-02, which is effective for the Company on January 1, 2019.

Accounting for Share-Based Payments. In March 2016, the FASB issued ASU 2016-09, Improvements to Employee Share-Based Payment Accounting (“ASU 2016-09”). ASU 2016-09 simplifies accounting for employee share-based payment transactions, including the accounting for income taxes, forfeitures, and statutory tax withholding

requirements, as well as classification in the statement of cash flows. The Company is currently evaluating the impact of adopting ASU 2016-09, which is effective for the Company on January 1, 2017.

Accounting for Credit Losses. In June 2016, the FASB issued ASU 2016-13, Measurement of Credit Losses on Financial Instruments (“ASU 2016-13”), which amends the guidance for evaluating the impairment of financial instruments. The new guidance adds an impairment model that is based on expected losses rather than incurred losses. The Company is currently evaluating the impact of adopting ASU 2016-13, which is effective for the Company on January 1, 2020 with early adoption permitted on January 1, 2019.

3. Investments

A summary of the carrying value of total investments is as follows:

(in millions)	June 30, 2016	December 31, 2015
Available-for-sale investments	\$60	\$ 44
Held-to-maturity investments	32	108

Cost method investments ⁽¹⁾	91	95
Carried interest	22	19
Total other investments	699	641
Total investments	\$1,476	\$ 1,578

⁽¹⁾ Amounts primarily include Federal Reserve Bank (“FRB”) Stock.

Available-for-Sale Investments

A summary of the cost and carrying value of investments classified as available-for-sale investments is as follows:

(in millions)	Gross Unrealized			Carrying
	Cost	Gains	Losses	Value
June 30, 2016	\$61	\$ 1	\$ (2)	\$ 60
December 31, 2015	\$45	\$ 2	\$ (3)	\$ 44

At June 30, 2016 and December 31, 2015 available-for-sale investments included certain investments in CLOs and seed investments in BlackRock sponsored mutual funds.

Held-to-Maturity Investments

The carrying value of held-to-maturity investments was \$32 million and \$108 million at June 30, 2016 and December 31, 2015, respectively. Held-to-maturity investments included foreign government debt held primarily for regulatory purposes and certain investments in CLOs. The amortized cost (carrying value) of these investments approximated fair value. At June 30, 2016, \$12 million of these investments mature between five to ten years and \$20 million mature after ten years.

Trading Investments

A summary of the cost and carrying value of trading investments is as follows:

(in millions)	June 30,		December 31,	
	2016		2015	
	Carrying		Carrying	
	Cost	Value	Cost	Value
Trading investments:				
Deferred compensation plan mutual funds	\$41	\$ 57	\$48	\$ 65
Equity securities/multi-asset mutual funds	274	258	294	279
Debt securities/fixed income mutual funds:				
Corporate debt	177	177	194	190
Government debt	120	125	202	202
Asset/mortgage backed debt	68	68	49	49
Total trading investments	\$680	\$ 685	\$787	\$ 785

At June 30, 2016, trading investments included \$366 million of debt securities and \$182 million of equity securities held by consolidated sponsored investment funds accounted for as voting rights entities (“VREs”), \$57 million of certain deferred compensation plan mutual fund investments and \$80 million of other equity and debt securities.

At December 31, 2015, trading investments included \$437 million of debt securities and \$263 million of equity securities held by consolidated sponsored investment funds accounted for as VREs, \$65 million of certain deferred compensation plan mutual fund investments and \$20 million of other equity and debt securities.

Other Investments

A summary of the carrying value of other investments is as follows:

(in millions)	June	December
	30,	31,
	2016	2015
Other investments:		
Equity method investments	\$572	\$ 513
Deferred compensation plan equity method

Cost method investments:		
Federal Reserve Bank stock	89	93
Other	2	2
Total cost method investments	91	95
Carried interest ⁽¹⁾	22	19
Total other investments	\$699	\$ 641

⁽¹⁾ Carried interest of VREs.

Equity method investments primarily include BlackRock's direct investments in certain BlackRock sponsored investment funds.

In addition, the Company accounts for its interest in PennyMac Financial Services, Inc. ("PennyMac") as an equity method investment. At June 30, 2016 and December 31, 2015 the Company's investment in PennyMac was excluded from the amounts in the table above and included in other assets on the condensed consolidated statements of financial condition. The carrying value and fair value of the Company's interest (approximately 20% or 16 million shares and units) was approximately \$247 million and \$194 million, respectively, at June 30, 2016 and approximately \$222 million and \$239 million, respectively, at December 31, 2015. The fair value of the Company's interest reflected the PennyMac stock price at June 30, 2016 and December 31, 2015, respectively (a Level 1 input). The Company performed an other-than-temporary impairment analysis as of June 30, 2016 and determined the decline in fair value below the carrying value to be temporary.

Cost method investments include nonmarketable securities, primarily FRB stock, which is held for regulatory purposes and is restricted from sale. At June 30, 2016 and December 31, 2015, there were no indicators of impairment on these investments.

Carried interest represents allocations to BlackRock's general partner capital accounts from certain funds. These balances are subject to change upon cash distributions, additional allocations or reallocations back to limited partners within the respective funds.

4. Consolidated Voting Rights Entities

The Company consolidates certain sponsored investment funds accounted for as VREs because it is deemed to control such funds. The investments owned by these consolidated VREs are classified as trading investments. The following table presents the balances related to these consolidated VREs that were recorded on the condensed consolidated statements of financial condition, including BlackRock's net interest in these funds:

	June 30,	December 31,
(in millions)	2016	2015
Cash and cash equivalents	\$79	\$ 100
Trading investments	548	700
Other assets	26	18
Other liabilities	(75)	(77)
Noncontrolling interests	(75)	(125)
BlackRock's net interests in consolidated VREs	\$503	\$ 616

BlackRock's total exposure to consolidated VREs represents the value of its economic ownership interest in these sponsored investment funds. Valuation changes associated with investments held at fair value by these consolidated VREs are reflected in nonoperating income (expense) and partially offset in net income (loss) attributable to noncontrolling interests for the portion not attributable to BlackRock.

The Company cannot readily access cash and cash equivalents held by consolidated VREs to use in its operating activities.

5. Variable Interest Entities

In the normal course of business, the Company is the manager of various types of sponsored investment vehicles, which may be considered variable interest entities ("VIEs"). The Company may from time to time own equity or debt securities or enter into derivatives with the vehicles, each of which are considered variable interests. The Company's involvement in financing the operations of the VIEs is generally limited to its investments in the entity. The Company consolidates entities when it is determined to be the primary beneficiary ("PB").

Consolidated VIEs. The Company's consolidated VIEs as of June 30, 2016 and December 31, 2015 include certain sponsored investment funds in which BlackRock has an investment and as the investment manager is deemed to have both the power to direct the most significant activities of the funds and the right to receive benefits (or the obligation to absorb losses) that could potentially be significant to these sponsored investment funds. The assets of these VIEs are not available to creditors of the Company. In addition, the investors in these VIEs have no recourse to the credit of the Company.

Consolidated VIE assets and liabilities are presented after intercompany eliminations at June 30, 2016 and December 31, 2015 in the following table:

	June	
	30,	December 31,
(in millions)	2016	2015
Assets of consolidated VIEs:		
Cash and cash equivalents	\$172	\$ 148
Investments	1,184	1,030
Other assets	60	67
Total investments and other assets	1,244	1,097
Liabilities of consolidated VIEs	(185)	(177)
Noncontrolling interests of consolidated VIEs	(512)	(416)
BlackRock's net interests in consolidated VIEs	\$719	\$ 652

The Company recorded a \$13 million and a \$15 million nonoperating net gain, respectively, during the three and six months ended June 30, 2016 related to consolidated VIEs. The net income attributable to noncontrolling interest was

\$3 million and the net loss attributable to noncontrolling interests was \$3 million, respectively, for the three and six months ended June 30, 2016 related to consolidated VIEs.

The Company recorded \$12 million and \$16 million of nonoperating net gain, respectively, during the three and six months ended June 30, 2015 related to consolidated VIEs. The net income attributable to noncontrolling interests related to consolidated VIEs during both the three and six months ended June 30, 2015 was \$7 million.

Non-consolidated VIEs. At June 30, 2016 and December 31, 2015, the Company's carrying value of assets and liabilities included on the condensed consolidated statements of financial condition pertaining to nonconsolidated VIEs and its maximum risk of loss related to VIEs for which it held a variable interest, but for which it was not the PB, was as follows:

(in millions)		Advisory		Other Net	
		Fee	Assets	Liabilities	Maximum
At June 30, 2016	Investments		Receivables	(Liabilities)	Risk of Loss ⁽¹⁾
Sponsored investment products	\$ 96	\$ 8	\$ (6)	\$ 121	
At December 31, 2015					
Sponsored investment products	\$ 64	\$ 3	\$ (7)	\$ 84	

⁽¹⁾At both June 30, 2016 and December 31, 2015, BlackRock's maximum risk of loss associated with these VIEs primarily related to collecting advisory fee receivables and BlackRock's investments.

The net assets of sponsored investment products that are nonconsolidated VIEs approximated \$4 billion and \$3 billion, at June 30, 2016 and December 31, 2015, respectively.

Level 3 Assets. Level 3 investments of consolidated VIEs of \$189 million and \$196 million at June 30, 2016 and December 31, 2015, respectively, related to direct investments in private equity companies held by consolidated private equity funds. Direct investments in private equity companies may be valued using the market approach or the income approach, or a combination thereof, and were valued based on an assessment of each underlying investment, incorporating evaluation of additional significant third-party financing, changes in valuations of comparable peer companies, the business environment of the companies, market indices, assumptions relating to appropriate risk adjustments for nonperformance and legal restrictions on disposition, among other factors. The fair value derived from the methods used is evaluated and weighted, as appropriate, considering the reasonableness of the range of values indicated. Under the market approach, fair value may be determined by reference to multiples of market-comparable companies or transactions, including earnings before interest, taxes, depreciation and amortization (“EBITDA”) multiples. Under the income approach, fair value may be determined by discounting the expected cash flows to a single present value amount using current expectations about those future amounts. Unobservable inputs used in a discounted cash flow model may include projections of operating performance generally covering a five-year period and a terminal value of the private equity direct investment. For investments utilizing the discounted cash flow valuation technique, a significant increase (decrease) in the discount rate, risk premium or discount for lack of marketability in isolation could result in a significantly lower (higher) fair value measurement. For investments utilizing the market-comparable valuation technique, a significant increase (decrease) in the EBITDA multiple in isolation could result in a significantly higher (lower) fair value measurement.

Level 3 assets may include investments in CLOs and bonds valued based on single-broker nonbinding quotes, and direct private equity investments valued using the market approach or the income approach as described above.

Level 3 Liabilities. Level 3 other liabilities primarily include recorded contingent liabilities related to certain acquisitions, which were valued based upon discounted cash flow analyses using unobservable market data inputs.

Realized and Unrealized Gains (Losses) for Level 3 Assets and Liabilities. Realized and unrealized gains (losses) recorded for Level 3 assets and liabilities are reported in nonoperating income (expense) on the condensed consolidated statements of income. A portion of net income (loss) for consolidated sponsored investment funds are allocated to noncontrolling interests to reflect net income (loss) not attributable to the Company.

Transfers in and/or out of Levels. Transfers in and/or out of levels are reflected when significant inputs, including market inputs or performance attributes, used for the fair value measurement become observable/unobservable, or when the carrying value of certain equity method investments no longer represents fair value as determined under valuation methodologies.

Disclosures of Fair Value for Financial Instruments Not Held at Fair Value. At June 30, 2016 and December 31, 2015, the fair value of the Company's financial instruments not held at fair value are categorized in the table below:

(in millions)	June 30, 2016		December 31, 2015		Fair Value Hierarchy	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value		
Financial Assets:						
Cash and cash equivalents	\$5,065	\$ 5,065	\$6,083	\$ 6,083	Level 1	(1),(2)

Long-term borrowings	4,950	5,392	4,930	5,223	Level 2	(4)

(1) Cash and cash equivalents are carried at either cost or amortized cost, which approximates fair value due to their short-term maturities.

(2) At June 30, 2016 and December 31, 2015, approximately \$116 million and \$132 million, respectively, of money market funds were recorded within cash and cash equivalents, which includes money market funds of consolidated VREs, on the condensed consolidated statements of financial condition. In addition, at June 30, 2016 and December 31, 2015, approximately \$23 million and \$68 million, respectively, of money market funds were recorded within cash and cash equivalents of consolidated VIEs. Money market funds are valued based on quoted market prices, or \$1.00 per share, which generally is the NAV of the fund.

(3) The carrying amounts of accounts receivable, accounts payable and accrued liabilities approximate fair value due to their short-term nature.

(4) Long-term borrowings are recorded at amortized cost net of unamortized debt issuance costs. The fair value of the long-term borrowings, including the current portion of long-term borrowings, is estimated using market prices at the end of June 2016 and December 2015, respectively. See Note 10, Borrowings, for the fair value of each of the Company's long-term borrowings.

Investments in Certain Entities that Calculate Net Asset Value Per Share.

As a practical expedient to value certain investments that do not have a readily determinable fair value and have attributes of an investment company, the Company uses NAV as the fair value. The following tables list information regarding all investments that use a fair value measurement to account for both their financial assets and financial liabilities in their calculation of a NAV per share (or equivalent).

N/R – not redeemable

- (1) Comprised of equity method investments, which include investments in investment companies, which account for their financial assets and most financial liabilities under fair value measures; therefore, the Company’s investment in such equity method investees approximates fair value.
- (a) This category includes hedge funds and funds of hedge funds that invest primarily in equities, fixed income securities, distressed credit, opportunistic and mortgage instruments and other third-party hedge funds. The fair values of the investments have been estimated using the NAV of the Company’s ownership interest in partners’ capital. It was estimated that the investments in the funds that are not subject to redemption will be liquidated over a weighted-average period of approximately one year at both June 30, 2016 and December 31, 2015.
- (b) This category includes several private equity funds that initially invest in nonmarketable securities of private companies, which ultimately may become public in the future. The fair values of these investments have been estimated using capital accounts representing the Company’s ownership interest in the funds as well as other performance inputs. The Company’s investment in each fund is not subject to redemption and is normally returned through distributions as a result of the liquidation of the underlying assets of the private equity funds. It was estimated that the investments in these funds will be liquidated over a weighted-average period of approximately three years at June 30, 2016 and four years at December 31, 2015.

- (c) This category includes several real assets funds that invest directly in real estate, real estate related assets and infrastructure. The fair values of the investments have been estimated using capital accounts representing the Company's ownership interest in the funds. A majority of the Company's investments are not subject to redemption or are not currently redeemable and are normally returned through distributions as a result of the liquidation of the underlying assets of the funds. It is estimated that the investments in these funds not subject to redemptions will be liquidated over a weighted-average period of approximately six years at both June 30, 2016 and December 31, 2015, respectively.
- (d) This category includes investments in several real estate funds. The investments are not subject to redemption; however, distributions as a result of the liquidation of the underlying assets will be used to settle certain deferred compensation liabilities over time. In addition, this category for 2015 also includes a multi-asset fund that is redeemable. The fair values of the investments have been estimated using capital accounts representing the Company's ownership interest in partners' capital.
- (e) This category includes the underlying third-party private equity funds within consolidated BlackRock sponsored private equity funds of funds. The fair values of the investments in the third-party funds have been estimated using capital accounts representing the Company's ownership interest in each fund in the portfolio as well as other performance inputs. These investments are not subject to redemption; however, for certain funds, the Company may sell or transfer its interest, which may need approval by the general partner of the underlying funds. Due to the nature of the investments in this category, the Company reduces its investment by distributions that are received through the realization of the underlying assets of the funds. It is estimated that the underlying assets of these funds will be liquidated over a weighted-average period of approximately five years at both June 30, 2016 and December 31, 2015. The total remaining unfunded commitments to other third-party funds were \$18 million at June 30, 2016 and \$19 million at December 31, 2015. The Company had contractual obligations to the consolidated funds of \$24 million at June 30, 2016 and \$31 million at December 31, 2015.

7. Derivatives and Hedging

The Company maintains a program to enter into swaps to hedge against market price and interest rate exposures with respect to certain seed investments in sponsored investment products. At June 30, 2016, the Company had outstanding total return swaps and interest rate swaps with aggregate notional values of approximately \$408 million and \$48 million, respectively. At December 31, 2015, the Company had outstanding total return swaps and interest rate swaps with aggregate notional values of approximately \$360 million and \$46 million, respectively. Gains (losses) on total return swaps and interest rate swaps are recorded in nonoperating income (expense) and were not material to the condensed consolidated statements of income for the three and six months ended June 30, 2016 and 2015.

The Company has entered into a derivative providing credit protection to a counterparty of approximately \$17 million, representing the Company's maximum risk of loss with respect to the provision of credit protection. The Company carries the derivative at fair value based on the expected discounted future cash outflows under the arrangement.

The Company executes forward foreign currency exchange contracts to mitigate the risk of certain foreign exchange movements. At June 30, 2016 and December 31, 2015, the Company had outstanding forward foreign currency exchange contracts with aggregate notional values of approximately \$113 million and \$169 million, respectively.

Gains (losses) on forward foreign currency exchange contracts are recorded in other general and administration expense and were not material to the condensed consolidated statements of income for the three and six months ended June 30, 2016 and 2015.

The Company consolidates certain sponsored investment funds, which may utilize derivative instruments as a part of the funds' investment strategies. The change in fair value of such derivatives, which is recorded in nonoperating income (expense) was not material for the three and six months ended June 30, 2016 and 2015.

The fair value of the outstanding derivatives mentioned above were not material to the condensed consolidated statements of financial condition at June 30, 2016 and December 31, 2015.

See Note 12, Borrowings, in the 2015 Form 10-K for more information on the Company's net investment hedge.

8. Goodwill

Goodwill activity during the six months ended June 30, 2016 was as follows:

(in millions)	
December 31, 2015	\$ 13,123
BofA Global Capital Management ⁽¹⁾	15
Goodwill adjustment related to Quellos ⁽²⁾	(10)
June 30, 2016	\$ 13,128

(1)The \$15 million increase represents goodwill from the BofA Global Capital Management transaction in April 2016 that transferred investment management responsibilities of approximately \$80.6 billion of cash assets under management to the Company. Total consideration included \$75 million of contingent consideration at fair value at time of close. BlackRock's platform provides clients with broad access to high quality, global liquidity investment solutions.

(2) The decrease in goodwill during the six months ended June 30, 2016 primarily resulted from a decline related to tax benefits realized from tax-deductible goodwill in excess of book goodwill from the acquisition of the fund-of-funds business of Quellos Group, LLC in October 2007 (the “Quellos Transaction”). Goodwill related to the Quellos Transaction will continue to be reduced in future periods by the amount of tax benefits realized from tax-deductible goodwill in excess of book goodwill from the Quellos Transaction. The balance of the Quellos tax-deductible goodwill in excess of book goodwill was approximately \$216 million and \$231 million at June 30, 2016 and December 31, 2015, respectively.

9. Intangible Assets

The carrying amounts of identifiable intangible assets are summarized as follows:

	Indefinite-lived	Finite-lived	Total
(in millions)	intangible assets	intangible assets	intangible assets
December 31, 2015	\$ 17,108	\$ 264	\$ 17,372
Amortization expense	—	(50)	(50)
BofA Global Capital Management	70	20	90
June 30, 2016	\$ 17,178	\$ 234	\$ 17,412

Acquired Management Contracts

In connection with the BofA Global Capital Management transaction, the Company acquired \$70 million of indefinite-lived management contracts and \$20 million of finite-lived management contracts with a weighted-average estimated life of approximately 10 years.

10. Borrowings

Short-Term Borrowings

2016 Revolving Credit Facility. The Company’s credit facility has an aggregate commitment amount of \$4.0 billion and was amended in April 2016 to extend the maturity date to March 2021 (the “2016 credit facility”). The 2016 credit facility permits the Company to request up to an additional \$1.0 billion of borrowing capacity, subject to lender credit approval, increasing the overall size of the 2016 credit facility to an aggregate principal amount not to exceed \$5.0 billion. Interest on borrowings outstanding accrues at a rate based on the applicable London Interbank Offered Rate plus a spread. The 2016 credit facility requires the Company not to exceed a maximum leverage ratio (ratio of net debt to earnings before interest, taxes, depreciation and amortization, where net debt equals total debt less unrestricted cash) of 3 to 1, which was satisfied with a ratio of less than 1 to 1 at June 30, 2016. The 2016 credit facility provides back-up liquidity to fund ongoing working capital for general corporate purposes and various investment

opportunities. At June 30, 2016, the Company had no amount outstanding under the 2016 credit facility.

Commercial Paper Program. The Company can issue unsecured commercial paper notes (the “CP Notes”) on a private-placement basis up to a maximum aggregate amount outstanding at any time of \$4.0 billion. The commercial paper program is currently supported by the 2016 credit facility. At June 30, 2016, BlackRock had no CP Notes outstanding.

Long-Term Borrowings

The carrying value and fair value of long-term borrowings estimated using market prices and foreign exchange rates at June 30, 2016 included the following:

		Unamortized		
		Discount		
		and Debt		
(in millions)	Maturity Amount	Issuance Costs	Carrying Value	Fair Value
6.25% Notes due 2017	\$ 700	\$ (1)	\$ 699	\$ 744
5.00% Notes due 2019	1,000	(3)	997	1,122
4.25% Notes due 2021	750	(4)	746	840
3.375% Notes due 2022	750	(6)	744	812
3.50% Notes due 2024	1,000	(8)	992	1,090
1.25% Notes due 2025	778	(6)	772	784
Total Long-term Borrowings	\$ 4,978	\$ (28)	\$ 4,950	\$ 5,392

Long-term borrowings at December 31, 2015 had a carrying value of \$4.9 billion and a fair value of \$5.2 billion determined using market prices at the end of December 2015.

See Note 12, Borrowings, in the 2015 Form 10-K for more information regarding the Company's borrowings.

11. Commitments and Contingencies

Investment Commitments. At June 30, 2016, the Company had \$196 million of various capital commitments to fund sponsored investment funds, including consolidated VIEs. These funds include private equity funds, real assets funds and opportunistic funds. This amount excludes additional commitments made by consolidated funds of funds to underlying third-party funds as third-party noncontrolling interest holders have the legal obligation to fund the respective commitments of such funds of funds. In addition to the capital commitments of \$196 million, the Company had approximately \$10 million of contingent commitments for certain funds which have investment periods that have expired. Generally, the timing of the funding of these commitments is unknown and the commitments are callable on demand at any time prior to the expiration of the commitment. These unfunded commitments are not recorded on the condensed consolidated statements of financial condition. These commitments do not include potential future commitments approved by the Company that are not yet legally binding. The Company intends to make additional capital commitments from time to time to fund additional investment products for, and with, its clients.

Contingencies

Contingent Payments. The Company acts as the portfolio manager in a series of derivative transactions and has a maximum potential exposure of \$17 million between the Company and counterparty. See Note 7, Derivatives and Hedging, for further discussion.

Contingent Payments Related to Business Acquisitions. In connection with certain acquisitions, BlackRock is required to make contingent payments, subject to achieving specified performance targets, which may include revenue related to acquired contracts or new capital commitments for certain products. The fair value of the remaining aggregate contingent payments at June 30, 2016 totalled \$121 million, including \$76 million related to the BofA Global Capital Management transaction, and is included in other liabilities on the condensed consolidated statement of financial condition.

Legal Proceedings. From time to time, BlackRock receives subpoenas or other requests for information from various U.S. federal, state governmental and domestic and international regulatory authorities in connection with certain industry-wide or other investigations or proceedings. It is BlackRock's policy to cooperate fully with such inquiries. The Company and certain of its subsidiaries have been named as defendants in various legal actions, including arbitrations and other litigation arising in connection with BlackRock's activities. Additionally, BlackRock advised investment portfolios may be subject to lawsuits, any of which potentially could harm the investment returns of the applicable portfolio or result in the Company being liable to the portfolios for any resulting damages.

On May 27, 2014, certain purported investors in the BlackRock Global Allocation Fund, Inc. and the BlackRock Equity Dividend Fund (collectively, the "Funds") filed a consolidated complaint (the "Consolidated Complaint") in the U.S.

District Court for the District of New Jersey against BlackRock Advisors, LLC, BlackRock Investment Management, LLC and BlackRock International Limited (collectively, the “Defendants”) under the caption In re BlackRock Mutual Funds Advisory Fee Litigation. The Consolidated Complaint, which purports to be brought derivatively on behalf of the Funds, alleges that the Defendants violated Section 36(b) of the Investment Company Act by receiving allegedly excessive investment advisory fees from the Funds. On February 24, 2015, the same plaintiffs filed another complaint in the same court against BlackRock Investment Management, LLC and BlackRock Advisors, LLC. The allegations and legal claims in both complaints are substantially similar, with the new complaint purporting to challenge fees received by Defendants after the plaintiffs filed their prior complaint. Both complaints seek, among other things, to recover on behalf of the Funds all allegedly excessive advisory fees received by Defendants in the twelve month period preceding the start of each lawsuit, along with purported lost investment returns on those amounts, plus interest. On March 25, 2015, Defendants’ motion to dismiss the Consolidated Complaint was denied. The Defendants believe the claims in both lawsuits are without merit and intend to vigorously defend the actions.

Between November 12, 2015 and November 16, 2015, BlackRock, Inc., BlackRock Realty Advisors, Inc. (“BRA”) and the BlackRock Granite Property Fund, Inc. (“Granite Fund”), along with certain other Granite Fund-related entities (collectively, the “BlackRock Parties”) were named as defendants in thirteen separate lawsuits filed in the Superior Court of the State of California for the County of Alameda arising out of the June 16, 2015 collapse of a balcony at the Library Gardens apartment complex in Berkeley, California (the “Property”). The Property is indirectly owned by the Granite Fund, which is managed by BRA. The plaintiffs also named as defendants in the lawsuits Greystar, which is the property manager of the Property, and certain other entities, including the developer of the Property, building contractors and building materials suppliers. The plaintiffs allege, among other things, that the BlackRock Parties were negligent in their ownership, control and maintenance of the Property’s balcony, and seek monetary, including punitive, damages. Additionally, on March 16, 2016, three former tenants of the Library Gardens apartment unit that experienced the balcony collapse sued the BlackRock Parties. The former tenants, who witnessed (but were not physically injured in) the accident make allegations virtually identical to those in the previously filed actions and claim that as a result of the collapse, they suffered unspecified emotional damage. Several defendants have also filed cross-complaints alleging a variety of claims, including claims against the BlackRock Parties for contribution, negligence, and declaratory relief. BlackRock believes the claims against it are without merit and intends to vigorously defend the actions.

Management, after consultation with legal counsel, currently does not anticipate that the aggregate liability arising out of regulatory matters or lawsuits will have a material effect on BlackRock’s results of operations, financial position, or cash flows. However, there is no assurance as to whether any such pending or threatened matters will have a material effect on BlackRock’s results of operations, financial position or cash flows in any future reporting period. Due to uncertainties surrounding the outcome of these matters, management cannot reasonably estimate the possible loss or range of loss that may arise from these matters.

Indemnifications. In the ordinary course of business or in connection with certain acquisition agreements, BlackRock enters into contracts pursuant to which it may agree to indemnify third parties in certain circumstances. The terms of these indemnities vary from contract to contract and the amount of indemnification liability, if any, cannot be determined or the likelihood of any liability is considered remote. Consequently, no liability has been recorded on the condensed consolidated statements of financial condition.

In connection with securities lending transactions, BlackRock has issued certain indemnifications to certain securities lending clients against potential loss resulting from a borrower’s failure to fulfill its obligations under the securities lending agreement should the value of the collateral pledged by the borrower at the time of default be insufficient to cover the borrower’s obligation under the securities lending agreement. At June 30, 2016, the Company indemnified certain of its clients for their securities lending loan balances of approximately \$161.8 billion. The Company held as agent, cash and securities totaling \$171.0 billion as collateral for indemnified securities on loan at June 30, 2016. The

fair value of these indemnifications was not material at June 30, 2016.

12. Stock-Based Compensation

Restricted Stock and RSUs. Restricted stock and restricted stock units (“RSUs”) activity for the six months ended June 30, 2016 is summarized below:

	Restricted Stock and	Weighted- Average Grant Date	Fair Value
Outstanding at December 31, 2015	RSUs 3,067,737		\$ 308.42
Granted	1,419,447		\$ 298.35
Converted	(1,387,485)		\$ 281.51
Forfeited	(34,535)		\$ 311.96
June 30, 2016 ⁽¹⁾	3,065,164		\$ 315.90

⁽¹⁾ At June 30, 2016, approximately 2.7 million awards are expected to vest and 0.3 million awards have vested but have not been converted.

In the first quarter of 2016, the Company granted 1,030,964 RSUs to employees as part of 2015 annual incentive compensation that vest ratably over three years from the date of grant and 303,587 RSUs to employees that cliff vest 100% on January 31, 2019. The Company values RSUs at their grant-date fair value as measured by BlackRock’s common stock price. The total fair value of RSUs granted to employees during the six months ended June 30, 2016 was \$423 million at time of grant.

At June 30, 2016, the intrinsic value of outstanding RSUs was \$1.0 billion reflecting a closing stock price of \$342.53.

At June 30, 2016, total unrecognized stock-based compensation expense related to unvested RSUs was \$476 million. The unrecognized compensation cost is expected to be recognized over the remaining weighted-average period of 1.4 years.

Market Performance-based RSUs.

Market Performance-based RSUs activity for the six months ended June 30, 2016 is summarized below:

	Market Performance- Based RSUs	Weighted- Average Grant Date	Fair Value
Outstanding at December 31, 2015	1,378,177		\$ 137.07
Converted	(548,227)		\$ 115.03
Forfeited	(19,513)		\$ 153.74

Edgar Filing: BlackRock Inc. - Form 10-Q

June 30, 2016⁽¹⁾ 810,437 \$ 151.58

⁽¹⁾ The market performance-based RSUs require that separate 15%, 25% and 35% share price appreciation targets be achieved during the six-year term of the awards. The awards are split into three tranches and each tranche may vest if the specified target increase in share price is met. At June 30, 2016, approximately 0.7 million awards are expected to vest and an immaterial amount of awards have vested and have not been converted.

At June 30, 2016, the intrinsic value of outstanding market performance-based RSUs was \$278 million reflecting a closing stock price of \$342.53.

See Note 14, Stock-Based Compensation, in the 2015 Form 10-K for more information on market performance-based RSUs.

At June 30, 2016, total unrecognized stock-based compensation expense related to unvested market performance-based awards was \$29 million. The unrecognized compensation cost is expected to be recognized over the remaining weighted-average period of 1.0 year.

Performance-Based RSUs.

Performance-based RSU activity for the six months ended June 30, 2016 is summarized below:

	Performance-	Weighted- Average Grant Date	Fair Value
Outstanding at December 31, 2015	Based RSUs		\$ 343.86
Granted	375,242		\$ 296.97
Forfeited	(10,056)		\$ 333.55
June 30, 2016	621,054		\$ 315.69

In the first quarter of 2016, the Company granted 375,242 performance-based RSUs to certain employees that cliff vest 100% on January 31, 2019. These awards are amortized over a service period of three years. The number of shares distributed at vesting could be higher or lower than the original grant based on the level of attainment of predetermined Company performance measures.

At June 30, 2016, total unrecognized stock-based compensation expense related to unvested performance-based awards was \$135 million. The unrecognized compensation cost is expected to be recognized over the remaining weighted-average period of 2.2 years.

The Company values performance-based RSUs at their grant-date fair value as measured by BlackRock's common stock price. The total grant-date fair market value of performance-based RSUs granted to employees during the six months ended June 30, 2016 was \$111 million.

At June 30, 2016, the intrinsic value of outstanding performance-based RSUs was \$213 million reflecting a closing stock price of \$342.53.

Long-Term Incentive Plans Funded by PNC. Under a share surrender agreement, PNC committed to provide up to 4 million shares of BlackRock stock, held by PNC, to fund certain BlackRock long-term incentive plans ("LTIP"). The current share surrender agreement commits PNC to provide BlackRock Series C nonvoting participating preferred stock to fund the remaining committed shares. As of June 30, 2016, 3.2 million shares had been surrendered by PNC.

At June 30, 2016, the remaining shares committed by PNC of 0.8 million were available to fund certain future long-term incentive awards.

Stock Options. Stock option activity for the six months ended June 30, 2016 is summarized below:

The aggregate intrinsic value of options exercised during the six months ended June 30, 2016 was \$5.4 million. At June 30, 2016, all options were vested.

The remaining average life of stock options outstanding at June 30, 2016 is less than one year.

13. Net Capital Requirements

The Company is required to maintain net capital in certain regulated subsidiaries within a number of jurisdictions, which is partially maintained by retaining cash and cash equivalent investments in those subsidiaries or jurisdictions. As a result, such subsidiaries of the Company may be restricted in their ability to transfer cash between different jurisdictions and to their parents. Additionally, transfers of cash between international jurisdictions, including repatriation to the United States, may have adverse tax consequences that could discourage such transfers.

Capital Requirements. At June 30, 2016, the Company was required to maintain approximately \$1.3 billion in net capital in certain regulated subsidiaries, including BlackRock Institutional Trust Company, N.A. (a wholly owned subsidiary of the Company that is chartered as a national bank whose powers are limited to trust activities and which is subject to regulatory capital requirements administered by the Office of the Comptroller of the Currency), entities regulated by the Financial Conduct Authority and Prudential Regulation Authority in the United Kingdom, and the Company's broker-dealers. The Company was in compliance with all applicable regulatory net capital requirements.

14. Accumulated Other Comprehensive Income (Loss)

The following tables present changes in accumulated other comprehensive income (loss) ("AOCI") by component for the three and six months ended June 30, 2016 and 2015:

17. Income Taxes

The three months ended June 30, 2016 income tax expense included a \$4 million net noncash expense, primarily related to the revaluation of certain deferred income tax liabilities as a result of domestic state and local tax changes.

31

The three and six months ended June 30, 2015 income tax expense included a \$13 million and \$16 million, respectively, net noncash expense, primarily associated with the revaluation of certain deferred income tax liabilities as a result of domestic state and local tax changes. The six months ended June 30, 2015 also included nonrecurring tax benefits of \$69 million, primarily due to the realization of losses from changes in the Company's organizational tax structure and the resolution of certain outstanding tax matters.

18. Earnings Per Share

Due to the similarities in terms between BlackRock nonvoting participating preferred stock and the Company's common stock, the Company considers its participating preferred stock to be a common stock equivalent for purposes of earnings per share ("EPS") calculations. As such, the Company has included the outstanding nonvoting participating preferred stock in the calculation of average basic and diluted shares outstanding.

The following table sets forth the computation of basic and diluted EPS for the three and six months ended June 30, 2016 and 2015 under the treasury stock method:

FORWARD-LOOKING STATEMENTS

This report, and other statements that BlackRock may make, may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act, with respect to BlackRock's future financial or business performance, strategies or expectations. Forward-looking statements are typically identified by words or phrases such as "trend," "potential," "opportunity," "pipeline," "believe," "comfortable," "expect," "anticipate," "current," "intention," "estimate," "assume," "outlook," "continue," "remain," "maintain," "sustain," "seek," "achieve," and similar expressions, or future or conditional verbs such as "will," "would," "should," "could," "may" and similar expressions.

BlackRock cautions that forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time. Forward-looking statements speak only as of the date they are made, and BlackRock assumes no duty to and does not undertake to update forward-looking statements. Actual results could differ materially from those anticipated in forward-looking statements and future results could differ materially from historical performance.

In addition to risk factors previously disclosed in BlackRock's Securities and Exchange Commission ("SEC") reports and those identified elsewhere in this report, the following factors, among others, could cause actual results to differ materially from forward-looking statements or historical performance: (1) the introduction, withdrawal, success and timing of business initiatives and strategies; (2) changes and volatility in political, economic or industry conditions, the interest rate environment, foreign exchange rates or financial and capital markets, which could result in changes in demand for products or services or in the value of assets under management ("AUM"); (3) the relative and absolute investment performance of BlackRock's investment products; (4) the impact of increased competition; (5) the impact of future acquisitions or divestitures; (6) the unfavorable resolution of legal proceedings; (7) the extent and timing of any share repurchases; (8) the impact, extent and timing of technological changes and the adequacy of intellectual property, information and cyber security protection; (9) the impact of legislative and regulatory actions and reforms, including the Dodd-Frank Wall Street Reform and Consumer Protection Act, and regulatory, supervisory or enforcement actions of government agencies relating to BlackRock or The PNC Financial Services Group, Inc. ("PNC"); (10) terrorist activities, international hostilities and natural disasters, which may adversely affect the general economy, domestic and local financial and capital markets, specific industries or BlackRock; (11) the ability to attract and retain highly talented professionals; (12) fluctuations in the carrying value of BlackRock's economic investments; (13) the impact of changes to tax legislation, including income, payroll and transaction taxes, and taxation on products or transactions, which could affect the value proposition to clients and, generally, the tax position of the Company; (14) BlackRock's success in maintaining the distribution of its products; (15) the impact of BlackRock electing to provide support to its products from time to time and any potential liabilities related to securities lending or other indemnification obligations; and (16) the impact of problems at other financial institutions or the failure or negative performance of products at other financial institutions.

THREE MONTHS ENDED JUNE 30, 2016 COMPARED WITH THREE MONTHS ENDED JUNE 30, 2015

GAAP. Operating income of \$1,173 million decreased \$65 million, and operating margin of 41.8% decreased 80 bps, from the second quarter of 2015. Operating income was impacted by lower year-over-year base fees, reflecting an AUM mix shift from equities to lower fee fixed income and cash products, and lower performance fees. The decrease in operating income was partially offset by expense discipline and growth in Aladdin revenue. Nonoperating income (expense), less net income (loss) attributable to NCI, increased \$17 million due to higher net gains on investments in the second quarter of 2016.

Second quarter 2016 and 2015 income tax expense included a \$4 million and \$13 million net noncash expense, respectively, primarily related to the revaluation of certain deferred income tax liabilities as a result of domestic state and local tax changes. See Income Tax Expense within Discussion of Financial Results for more information.

Earnings per diluted common share decreased \$0.11, or 2%, from the second quarter of 2015, reflecting lower operating income in the current period, partially offset by the benefit of share repurchases.

As Adjusted. Operating income of \$1,179 million decreased \$69 million, and operating margin of 43.9% decreased 100 bps, from the second quarter of 2015. Income tax expense for the second quarter of 2016 and 2015 excluded the \$4 million and \$13 million net noncash expense, respectively, described above. Earnings per diluted common share decreased \$0.18, or 4%, from the second quarter of 2015.

SIX MONTHS ENDED JUNE 30, 2016 COMPARED WITH SIX MONTHS ENDED JUNE 30, 2015

GAAP. Operating income of \$2,136 million decreased \$169 million, and operating margin of 39.4% decreased 160 bps, from the six months ended June 30, 2015. Operating income reflected lower base fees and performance fees, partially offset by growth in Aladdin revenue and lower expense. Expense reflected lower employee compensation and benefits expense and amortization of intangible assets, partially offset by the impact of a restructuring charge of \$76 million recorded in the first quarter of 2016 in connection with a project to streamline and simplify the organization. Nonoperating income (expense), less net income (loss) attributable to NCI, decreased \$34 million due to a \$40 million noncash gain related to BlackRock Kelso Capital Advisors LLC (“BKCA”) recorded in the first quarter of 2015, partially offset by higher net gains on investments during the six months ended June 30, 2016.

Income tax expense for the six months ended June 30, 2015 included a \$16 million net noncash expense associated with the revaluation of certain deferred income tax liabilities and benefited from \$69 million of nonrecurring items. See Income Tax Expense within Discussion of Financial Results for more information.

Earnings per diluted common share decreased \$1.03, or 11%, from the six months ended June 30, 2015, reflecting lower base fees and performance fees in the current period, the restructuring charge recorded in the first quarter of 2016, and the gain related to BKCA in the prior year period. The decrease in earnings per diluted common share was partially offset by lower expense and the benefit of share repurchases.

As Adjusted. Operating income of \$2,226 million decreased \$99 million, and operating margin of 42.8% decreased 40 bps, from the six months ended June 30, 2015. The pre-tax restructuring charge of \$76 million described above was excluded from as adjusted results. Income tax expense for the six months ended June 30, 2015 excluded the previously described net noncash expense of \$16 million and included nonrecurring tax benefits of \$69 million described above. Earnings per diluted common share decreased \$0.82, or 8%, from the six months ended June 30, 2015.

See Non-GAAP Financial Measures for further information on and reconciliation of adjusted items.

For further discussion of BlackRock's revenue, expense, nonoperating results and income tax expense, see Discussion of Financial Results herein.

NON-GAAP FINANCIAL MEASURES

BlackRock reports its financial results in accordance with accounting principles generally accepted in the United States (“GAAP”); however, management believes evaluating the Company’s ongoing operating results may be enhanced if investors have additional non-GAAP financial measures. Management reviews non-GAAP financial measures to assess ongoing operations and, for the reasons described below, considers them to be effective indicators, for both management and investors, of BlackRock’s financial performance over time. Management also uses non-GAAP financial measures as a benchmark to compare its performance with other companies and to enhance the comparability of this information for the reporting periods presented. Non-GAAP measures may pose limitations because they do not include all of BlackRock’s revenue and expense. BlackRock’s management does not advocate that investors consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP.

Management uses both GAAP and non-GAAP financial measures in evaluating BlackRock’s financial performance. Adjustments to GAAP financial measures (“non-GAAP adjustments”) include certain items management deems nonrecurring or that occur infrequently, transactions that ultimately will not impact BlackRock’s book value or certain tax items that do not impact cash flow.

Computations for all periods are derived from the condensed consolidated statements of income as follows:

(1) Operating income, as adjusted, and operating margin, as adjusted:

Management believes operating income, as adjusted, and operating margin, as adjusted, are effective indicators of BlackRock’s financial performance over time and, therefore, provide useful disclosure to investors.

	Three Months Ended		Six Months Ended	
(in millions)	June 30, 2016	2015	June 30, 2016	2015

Non-GAAP expense adjustments:				
Restructuring charge	—	—	76	—

Compensation expense related to appreciation (depreciation) on deferred compensation plans	—	2	—	4
Operating income, as adjusted	1,179	1,248	2,226	2,325
Product launch costs and commissions	—	5	—	5
Operating income used for operating margin measurement	\$1,179	\$1,253	\$2,226	\$2,330
Revenue, GAAP basis	\$2,804	\$2,905	\$5,428	\$5,628
Non-GAAP adjustments:				
Distribution and servicing costs	(109)	(105)	(206)	(204)
Amortization of deferred sales commissions	(9)	(12)	(19)	(25)
Revenue used for operating margin measurement	\$2,686	\$2,788	\$5,203	\$5,399
Operating margin, GAAP basis	41.8 %	42.6 %	39.4 %	41.0 %
Operating margin, as adjusted	43.9 %	44.9 %	42.8 %	43.2 %

Operating income, as adjusted, includes non-GAAP expense adjustments. A restructuring charge comprised of severance and accelerated amortization expense of previously granted deferred compensation awards has been excluded to provide more meaningful analysis of BlackRock's ongoing operations and to ensure comparability among periods presented. The portion of compensation expense associated with certain long-term incentive plans ("LTIP") funded, or to be funded, through share distributions to participants of BlackRock stock held by PNC has been excluded because it ultimately does not impact BlackRock's book value. Compensation expense associated with appreciation (depreciation) on investments related to certain BlackRock deferred compensation plans has been excluded, as returns on investments set aside for these plans, which substantially offset this expense, are reported in nonoperating income (expense).

39

Operating income used for measuring operating margin, as adjusted, is equal to operating income, as adjusted, excluding the impact of product launch costs (e.g. closed-end fund launch costs) and related commissions. Management believes the exclusion of such costs and related commissions is useful because these costs can fluctuate considerably and revenue associated with the expenditure of these costs will not fully impact the Company's results until future periods.

Revenue used for operating margin, as adjusted, excludes distribution and servicing costs paid to related parties and other third parties. Management believes the exclusion of such costs is useful because it creates consistency in the treatment for certain contracts for similar services, which due to the terms of the contracts, are accounted for under GAAP on a net basis within investment advisory, administration fees and securities lending revenue. Amortization of deferred sales commissions is excluded from revenue used for operating margin measurement, as adjusted, because such costs, over time, substantially offset distribution fee revenue the Company earns. For each of these items, BlackRock excludes from revenue used for operating margin, as adjusted, the costs related to each of these items as a proxy for such offsetting revenue.

(2) Nonoperating income (expense), less net income (loss) attributable to NCI, as adjusted:

Nonoperating income (expense), less net income (loss) attributable to NCI, as adjusted, equals nonoperating income (expense), GAAP basis, less net income (loss) attributable to NCI, adjusted for compensation expense associated with (appreciation) depreciation on investments related to certain BlackRock deferred compensation plans. The compensation expense offset is recorded in operating income. This compensation expense has been included in nonoperating income (expense), less net income (loss) attributable to NCI, as adjusted, to offset returns on investments set aside for these plans, which are reported in nonoperating income (expense), GAAP basis.

Management believes nonoperating income (expense), less net income (loss) attributable to NCI, as adjusted, provides comparability of information among reporting periods and is an effective measure for reviewing BlackRock's nonoperating contribution to results.
