NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The unaudited interim condensed consolidated financial statements for the three months ended September 30, 2017 and 2016, in the opinion of management, reflect all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of the consolidated results of operations, financial position and cash flows of The Clorox Company and its subsidiaries (the Company) for the periods presented. However, the financial results for interim periods are not necessarily indicative of the results that may be expected for a full fiscal year or for any other future period.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States (U.S. GAAP) have been omitted or condensed pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (SEC). The information in this report should be read in conjunction with the Company's Annual Report on Form 10-K filed with the SEC for the fiscal year ended June 30, 2017, which includes a complete set of footnote disclosures including the Company's significant accounting policies.

Recently Issued Accounting Standards

Recently Issued Accounting Standards not yet adopted

In August 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2017-12, "Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities," which amends the hedge accounting recognition and presentation requirements to better align an entity's risk management activities with its financial reporting. This standard also simplifies the application of hedge accounting in certain situations. The new guidance is effective for the Company beginning in the first quarter of fiscal year 2020, with early adoption permitted. The Company is currently evaluating the impact that the adoption of this guidance will have on its consolidated financial statements.

In March 2017, the FASB issued ASU No. 2017-07, "Compensation-Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost," which requires presenting the service cost component of net periodic benefit cost in the same income statement line item(s) as other employee compensation costs arising from services rendered during the period. This standard also requires that other components of the net periodic benefit cost be presented separately from the line item(s) that includes service costs and outside of any subtotal of operating income, if one is presented, on a retrospective basis. Additionally, the new guidance limits the components that are eligible for capitalization in assets to only the service cost component. The new guidance is effective for the Company beginning in the first quarter of fiscal year 2019. The Company is currently evaluating the impact that adoption of this guidance will have on its consolidated financial statements.

In January 2017, the FASB issued ASU No. 2017-04, "Intangibles-Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment," which eliminates the requirement to calculate the implied fair value of goodwill to measure a goodwill impairment charge. The new guidance is effective for the Company beginning in the first quarter of fiscal year 2021, with early adoption permitted. The Company is currently evaluating the impact that the adoption of this guidance will have on its consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, “Leases (Topic 842),” which requires lessees to recognize a right-of-use asset and a lease liability for all leases with terms of more than 12 months. Recognition, measurement and presentation will depend on the classification of a lease as either a finance or an operating lease. ASU 2016-02 also requires expanded disclosures about leasing arrangements. The new guidance is effective for the Company beginning in the first quarter of fiscal year 2020, with early adoption permitted. The Company is currently evaluating the impact that the adoption of this guidance will have on its consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, “Revenue from Contracts with Customers (Topic 606),” which replaces most of the existing U.S. GAAP revenue recognition guidance and is intended to improve and converge with international standards on the financial reporting requirements for revenue from contracts with customers. The core principle of ASU 2014-09 is that an entity should recognize revenue for the transfer of goods or services equal to the amount that it expects to be entitled to

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

receive for those goods or services. ASU 2014-09 also requires additional disclosures about the nature, timing and uncertainty of revenue and cash flows arising from contracts with customers, including information about significant judgments and changes in judgments. The new guidance is effective for the Company beginning in the first quarter of fiscal year 2019, and is expected to be applied on a modified retrospective basis.

Based on the Company's preliminary assessment, the adoption of the standard is not expected to have a significant impact on its annual consolidated financial statements; however, there may be an impact on the Company's financial results in interim periods due to the timing of recognition for certain trade promotion spending. As the Company completes its overall assessment, it is also identifying potential changes to its accounting policies, business processes, systems and controls to align with the new revenue recognition guidance and disclosure requirements.

NOTE 2. DISCONTINUED OPERATIONS

On September 22, 2014, the Company's Venezuela affiliate, Corporación Clorox de Venezuela S.A. (Clorox Venezuela) announced that it was discontinuing its operations, effective immediately, and seeking to sell its assets. Since fiscal year 2012, Clorox Venezuela has been required to sell more than two thirds of its products at prices frozen by the Venezuelan government. During this same period, Clorox Venezuela experienced successive years of hyperinflation resulting in significant sustained increases in its input costs, including packaging, raw materials, transportation and wages. As a result, Clorox Venezuela had been selling its products at a loss, resulting in ongoing operating losses. Clorox Venezuela repeatedly met with government authorities in an effort to help them understand the rapidly declining state of the business, including the need for immediate, significant and ongoing price increases and other critical remedial actions to address these adverse impacts. Based on the Venezuelan government's representations, Clorox Venezuela had expected significant price increases would be forthcoming much earlier; however, the price increases subsequently approved were insufficient and would have caused Clorox Venezuela to continue operating at a significant loss into the foreseeable future. As such, Clorox Venezuela was no longer financially viable and was forced to discontinue its operations.

On September 26, 2014, the Company reported that Venezuelan Vice President Jorge Arreaza announced, with endorsement by President Nicolás Maduro, that the Venezuelan government had occupied the Santa Lucía and Guacara production facilities of Clorox Venezuela. On November 6, 2014, the Company reported that the Venezuelan government had published a resolution granting a government-sponsored Special Administrative Board full authority to restart and operate the business of Clorox Venezuela, thereby reaffirming the government's expropriation of Clorox Venezuela's assets. Further, President Nicolás Maduro announced the government's intention to facilitate the resumed production of bleach and other cleaning products at Clorox Venezuela plants. He also announced his approval of a financial credit to invest in raw materials and production at the plants. These actions by the Venezuelan government were taken without the consent or involvement of Clorox Venezuela, its parent Clorox Spain S.L. (Clorox Spain) or any of their affiliates. Clorox Venezuela, Clorox Spain and their affiliates reserved their rights under all applicable laws and treaties.

With this exit, the financial results of Clorox Venezuela are reflected as discontinued operations in the Company's condensed consolidated financial statements for all periods presented. The results of Clorox Venezuela had historically been part of the International reportable segment.

There were no net sales for each of the three months ended September 30, 2017 and 2016, and losses from discontinued operations, net of tax were insignificant for these same periods.

NOTE 4. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS

Financial Risk Management and Derivative Instruments

The Company is exposed to certain commodity, foreign currency and interest rate risks related to its ongoing business operations and uses derivative instruments to mitigate its exposure to these risks.

Commodity Price Risk Management

The Company may use commodity exchange traded futures and over-the-counter swap contracts, which are generally no longer than 2 years, to fix the price of a portion of its forecasted raw material requirements. Commodity purchase contracts are measured at fair value using market quotations obtained from commodity derivative dealers.

As of September 30, 2017 and June 30, 2017, the notional amount of commodity derivatives was \$26, of which \$14 related to jet fuel swaps used for the charcoal business and \$12 related to soybean oil futures used for the food business.

Foreign Currency Risk Management

The Company may also enter into certain over-the-counter derivative contracts to manage a portion of the Company's forecasted foreign currency exposure associated with the purchase of inventory. These foreign currency contracts generally have durations of no longer than 2 years. The foreign exchange contracts are measured at fair value using information quoted by foreign exchange dealers.

The notional amounts of outstanding foreign currency forward contracts used by the Company's subsidiaries to hedge forecasted purchases of inventory were \$43 as of September 30, 2017, and \$49 as of June 30, 2017, respectively.

Interest Rate Risk Management

The Company may enter into over-the-counter interest rate forward contracts to fix a portion of the benchmark interest rate prior to the anticipated issuance of fixed rate debt or to manage the Company's level of fixed and floating rate debt. These interest rate forward contracts generally have durations of less than 12 months. The interest rate contracts are measured at fair value using information quoted by U.S. government bond dealers.

As of September 30, 2017 and June 30, 2017, the Company had no outstanding interest rate forward contracts.

NOTE 4. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS (Continued)

Commodity, Foreign Exchange and Interest Rate Derivatives

The Company designates its commodity forward and future contracts for forecasted purchases of raw materials, foreign currency forward contracts for forecasted purchases of inventory, and interest rate forward contracts for forecasted interest payments as cash flow hedges.

The effects of derivative instruments designated as hedging instruments on Other comprehensive income (loss) and Net earnings were as follows:

	Gains (losses) recognized in Other comprehensive income	
	Three Months Ended	
	9/30/2017	9/30/2016
Commodity purchase derivative contracts	\$ 2	\$ —
Foreign exchange derivative contracts	(1)	—

Total	\$ 3	\$ —

	Gains (losses) reclassified from Accumulated other comprehensive loss and recognized in Net earnings	
	Three Months Ended	
	9/30/2017	9/30/2016
Commodity purchase derivative contracts	\$ —	\$ (1)
Foreign exchange derivative contracts	(1)	(1)
Interest rate derivative contracts	(2)	(2)
Total	\$ (3)	\$ (4)

The gains (losses) reclassified from Accumulated other comprehensive net losses and recognized in Net earnings during the three months ended September 30, 2017 and 2016, for commodity purchase and foreign exchange contracts were included in Cost of products sold, and for interest rate contracts were included in Interest expense.

The estimated amount of the existing net gain (loss) in Accumulated other comprehensive losses as of September 30, 2017, which is expected to be reclassified into Net earnings within the next twelve months is \$(6). Gains and losses on derivative instruments representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in Net earnings. During each of the three months ended September 30, 2017 and 2016, hedge ineffectiveness was not significant.

NOTE 4. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS (Continued)

Counterparty Risk Management and Derivative Contract Requirements

The Company utilizes a variety of financial institutions as counterparties for over-the-counter derivative instruments. The Company enters into agreements governing the use of over-the-counter derivative instruments and sets internal limits on the aggregate over-the-counter derivative instrument positions held with each counterparty. Certain terms of these agreements require the Company or the counterparty to post collateral when the fair value of the derivative instrument exceeds contractually defined counterparty liability position limits. Of the over-the-counter derivative instruments held as of both September 30, 2017 and June 30, 2017, \$1 contained such terms. As of both September 30, 2017 and June 30, 2017, neither the Company nor any counterparty was required to post any collateral as no counterparty liability position limits were exceeded.

Certain terms of the agreements governing the Company's over-the-counter derivative instruments require the credit ratings, as assigned by Standard & Poor's and Moody's to the Company and its counterparties, to remain at a level equal to or better than the minimum of an investment grade credit rating. If the Company's credit ratings were to fall below investment grade, the counterparties to the derivative instruments could request full collateralization on derivative instruments in net liability positions. As of both September 30, 2017 and June 30, 2017, the Company and each of its counterparties had been assigned investment grade credit ratings by both Standard & Poor's and Moody's.

Certain of the Company's exchange-traded futures contracts used for commodity price risk management include requirements for the Company to post collateral in the form of a cash margin account held by the Company's broker for trades conducted on that exchange. As of September 30, 2017 and June 30, 2017, the Company maintained cash margin balances related to exchange-traded futures contracts of \$0 and \$1, respectively, which are classified as Prepaid expenses and other current assets in the condensed consolidated balance sheets.

Trust Assets

The Company has held interests in mutual funds and cash equivalents as part of trust assets related to its nonqualified deferred compensation plans. The participants in the nonqualified deferred compensation plans, who are the Company's current and former employees, may select among certain mutual funds in which their compensation deferrals are invested in accordance with the terms of the plans and within the confines of the trusts, which hold the marketable securities. The trusts represent variable interest entities for which the Company is considered the primary beneficiary, and therefore, trust assets are consolidated and included in Other assets in the condensed consolidated balance sheets. The interests in mutual funds are measured at fair value using quoted market prices. The Company has designated these marketable securities as trading investments.

Fair Value Measurements

Financial assets and liabilities measured at fair value on a recurring basis in the condensed consolidated balance sheets are required to be classified and disclosed in one of the following three categories of the fair value hierarchy:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs reflecting the reporting entity's own assumptions.

As of September 30, 2017 and June 30, 2017, the Company's financial assets and liabilities that were measured at fair value on a recurring basis during the periods included derivative financial instruments, which were classified as either Level 1 or Level 2, and trust assets to fund the Company's nonqualified deferred compensation plans, which were classified as Level 1.

NOTE 4. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS (Continued)

The following table summarizes the fair value of the Company's assets and liabilities for which disclosure of fair value is required:

	Balance sheet classification	Fair value hierarchy level	9/30/2017		6/30/2017	
			Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value

			\$2,202	\$ 2,263	\$2,197	\$ 2,261

Cash and cash equivalents are composed of time deposits and other interest bearing investments including money market funds with original maturity dates of 90 days or less. Cash and cash equivalents are recorded at cost, which approximates fair value.

(b) Notes and loans payable is composed of U.S. commercial paper and/or other similar short-term debts issued by non-U.S. subsidiaries, all of which are recorded at cost, which approximates fair value.

Current maturities of long-term debt and Long-term debt are recorded at cost. The fair value of Long-term debt, including current maturities, was determined using secondary market prices quoted by corporate bond dealers, and is classified as Level 2.

NOTE 5. DEBT

In September 2017, the Company issued \$400 of senior notes with an annual fixed interest rate of 3.10% and a maturity date of October 1, 2027 under its existing shelf registration statement filed with the SEC. Interest on the notes is payable semi-annually in April and October. Additionally, the Company entered into, and subsequently terminated interest rate forward contracts with a notional amount of \$200 related to the issuance, which resulted in an insignificant gain to Accumulated other comprehensive net (losses) income. The notes carry an effective interest rate of 3.13%, which includes the impact of amortizing debt issuance costs and the gain on the interest rate forward contracts over the life of the notes. The notes rank equally with all of the Company's existing senior indebtedness.

The proceeds from the debt issuance were used to repay commercial paper in September 2017. In October 2017, the Company used commercial paper borrowings to repay its \$400 senior notes with an annual fixed interest rate of 5.95%.

NOTE 6. INCOME TAXES

In determining its quarterly provision for income taxes, the Company uses an estimated annual effective tax rate, which is based on expected annual income, statutory tax rates and tax planning opportunities available in the various jurisdictions in which the Company operates. Certain significant or unusual items are separately recognized in the quarter in which they occur and can be a source of variability in the effective tax rates from quarter to quarter. The effective tax rate on earnings from continuing operations was 31.3% for the three months ended September 30, 2017 and 32.0% for the three months ended September 30, 2016. The decrease in the effective tax rate on earnings from continuing operations was primarily due to higher excess tax benefits from stock-based compensation in the current period.

NOTE 7. NET EARNINGS PER SHARE (EPS)

The following is the reconciliation of the weighted average number of shares outstanding (in thousands) used to calculate basic net EPS to those used to calculate diluted net EPS:

	Three Months Ended	
	9/30/2017	9/30/2016
Basic	129,019	129,449
Dilutive effect of stock options and other	2,490	2,744
Diluted	131,509	132,193
Antidilutive stock options and other	1,174	—

The Company has two share repurchase programs: an open-market purchase program with an authorized aggregate purchase amount of up to \$750, all of which was available from share repurchases as of September 30, 2017, and a program to offset the anticipated impact of share dilution related to share-based awards (the Evergreen Program), which has no authorization limit as to amount or timing of repurchases. There were no share repurchases under the open-market purchase program during either of the three months ended September 30, 2017 and 2016.

Share repurchases under the Evergreen Program were as follows during the three month ended September 30:

	Three Months Ended

Included in foreign currency translation adjustments are re-measurement losses on long-term intercompany loans where settlement is not planned or anticipated in the foreseeable future. For the three months ended September 30, 2017 and 2016, Other comprehensive income (loss) on these loans totaled \$(1) and \$0, respectively, and there were no amounts reclassified from Accumulated other comprehensive net (losses) income for the periods presented.

NOTE 9. EMPLOYEE BENEFIT PLANS

The following table summarizes the components of net periodic benefit cost for the Company's retirement income plans:

	Three Months Ended 9/30/2017/2016	
Service cost	\$ —	\$ —
Interest cost	6	5
Expected return on plan assets ⁽¹⁾	(5)	(5)
Amortization of unrecognized items	3	3
Total	\$ 4	\$ 3

(1) The weighted average long-term expected rate of return on plan assets used in computing the fiscal year 2018 net periodic benefit cost is 4.42%.

During the three months ended September 30, 2017 and 2016, the Company made \$2 and \$17 in contributions to the domestic retirement income plans, respectively.

NOTE 10. OTHER CONTINGENCIES AND GUARANTEES

Contingencies

The Company is involved in certain environmental matters, including response actions at various locations. The Company had recorded liabilities totaling \$28 as of September 30, 2017 and June 30, 2017 for its share of aggregate future remediation costs related to these matters.

One matter, which accounted for \$14 of the recorded liability as of September 30, 2017 and June 30, 2017 relates to environmental costs associated with one of the Company's former operations at a site located in Alameda County, California. In November 2016, at the request of regulators and with the assistance of environmental consultants, the Company submitted a Feasibility Study that evaluated various options for managing the site and included estimates of the related costs. As a result, the Company recorded in Other (income) expense, net an undiscounted liability for costs estimated to be incurred over a 30-year period, based on the option recommended in the Feasibility Study. However, as a result of ongoing discussions with regulators, in June 2017 the Company increased its recorded liability to \$14, which reflects anticipated costs to implement additional remediation measures at this site. While the Company believes its latest estimate is reasonable, regulators could require the Company to implement one of the other options evaluated in the Feasibility Study, with estimated undiscounted costs of up to \$28 over an estimated 30-year period, or require the Company to take other actions and incur costs not included in the study.

Another matter in Dickinson County, Michigan, at the site of one of the Company's former operations for which the Company is jointly and severally liable, accounted for \$12 of the recorded liability as of September 30, 2017 and June 30, 2017. This amount reflects the Company's agreement to be liable for 24.3% of the aggregate remediation and associated costs for this matter pursuant to a cost-sharing arrangement with a third party. With the assistance of environmental consultants, the Company maintains an undiscounted liability representing its current best estimate of its share of the capital expenditures, maintenance and other costs that may be incurred over an estimated 30-year remediation period. Although it is reasonably possible that the Company's exposure may exceed the amount recorded for the Dickinson County matter, any amount of such additional exposures, or range of exposures, is not estimable at this time. The Company's estimated losses related to these matters are sensitive to a variety of uncertain factors, including the efficacy of any remediation efforts, changes in any remediation requirements, and the future availability of alternative clean-up technologies.

The Company is subject to various legal proceedings, claims and other loss contingencies, including, without limitation, loss contingencies relating to contractual arrangements, product liability, patents and trademarks, advertising, labor and employment, environmental, health and safety and other matters. With respect to these proceedings, claims and other loss contingencies, while considerable uncertainty exists, in the opinion of management at this time, the ultimate disposition of these matters, to the extent not previously provided for, will not have a material adverse effect, either individually or in the aggregate, on the Company's condensed consolidated financial statements taken as a whole.

NOTE 10. OTHER CONTINGENCIES AND GUARANTEES (continued)

Guarantees

In conjunction with divestitures and other transactions, the Company may provide typical indemnifications (e.g., indemnifications for representations and warranties and retention of previously existing environmental, tax and employee liabilities) that have terms that vary in duration and in the potential amount of the total obligation and, in many circumstances, are not explicitly defined. The Company has not made, nor does it believe that it is probable that it will make, any material payments relating to its indemnifications, and believes that any reasonably possible payments would not have a material adverse effect, either individually or in the aggregate, on the Company's condensed consolidated financial statements taken as a whole.

The Company had not recorded any liabilities on the aforementioned guarantees as of September 30, 2017 and June 30, 2017.

As of September 30, 2017, the Company was a party to letters of credit of \$9 primarily related to one of its insurance carriers, of which \$0 had been drawn upon.

NOTE 11. SEGMENT RESULTS

The Company operates through strategic business units that are aggregated into four reportable segments based on the economics and nature of the products sold: Cleaning, Household, Lifestyle and International.

Certain non-allocated administrative costs, interest income, interest expense and various other non-operating income and expenses are reflected in Corporate. Corporate assets include cash and cash equivalents, prepaid expenses and other current assets, property and equipment, other investments and deferred taxes.

The table below presents reportable segment information and a reconciliation of the segment information to the Company's consolidated Net sales and Earnings from continuing operations before income taxes, with amounts that are not allocated to the reportable segments reflected in Corporate.

All intersegment sales are eliminated and are not included in the Company's reportable segments' net sales.

Net sales to the Company's largest customer, Wal-Mart Stores, Inc. and its affiliates, as a percentage of consolidated net sales, were 26% for each of the three months ended September 30, 2017 and 2016.

In August 2017, the Company sold the Aplicare business, previously reported in the Cleaning reportable segment. For the fiscal year ended June 30, 2017, the Aplicare business had net sales of \$46 and insignificant net earnings excluding the \$21 non-cash impairment charge recorded in the second quarter of fiscal year 2017.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The Clorox Company

(Dollars in millions, except share and per share data)

Management’s Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is designed to provide a reader of The Clorox Company’s (the Company or Clorox) financial statements with a narrative from the perspective of management on the Company’s financial condition, results of operations, liquidity and certain other factors that may affect future results. The following discussion of the Company’s financial condition and results of operations should be read in conjunction with MD&A and the consolidated financial statements and related notes included in the Company’s Annual Report on Form 10-K for the fiscal year ended June 30, 2017, which was filed with the Securities and Exchange Commission (SEC) on August 15, 2017, and the unaudited condensed consolidated financial statements and related notes contained in this Quarterly Report on Form 10-Q (this Report). Unless otherwise noted, MD&A compares the three-month period ended September 30, 2017 (the current period) to the three-month period ended September 30, 2016 (the prior period), with percentage and basis point calculations based on rounded numbers, except for per share data and the effective tax rate.

EXECUTIVE OVERVIEW

Clorox is a leading multinational manufacturer and marketer of consumer and professional products with approximately 8,100 employees worldwide. Clorox sells its products primarily through mass retail outlets and grocery outlets, warehouse clubs, dollar stores, e-commerce channels, military stores and other retail outlets, and medical supply distributors. Clorox markets some of the most trusted and recognized consumer brand names, including its namesake bleach and cleaning products, Pine-Sol® cleaners, Liquid-Plumr® clog removers, Poett® home care products, Fresh Step® cat litter, Glad® bags, wraps and container products, Kingsford® and Match Light® charcoal, RenewLife® digestive health products, Hidden Valley® dressings and sauces, Brita® water-filtration products and Burt’s Bee® natural personal care products. The Company also markets to professional services channels, including infection control products for the healthcare industry with Clorox Healthcare® brand, and commercial cleaning products with Commercial Solutions® brand. The Company has operations in more than 25 countries or territories and sells its products in more than 100 markets.

The Company primarily markets its leading brands in midsized categories considered to be financially attractive. Most of the Company’s products compete with other nationally advertised brands within each category and with “private label” brands.

The Company operates through strategic business units that are aggregated into the following four reportable segments based on the economics and nature of the products sold:

Cleaning consists of laundry, home care and professional products marketed and sold in the United States. Products within this segment include laundry additives, including bleach products under the Clorox® brand and Clorox 2® stain fighter and color booster; home care products, primarily under the Clorox®, Formula 409®, Liquid-Plumr®, Pine-Sol®, S.O.S® and Tilex® brands; naturally derived products under the Green Works® brand; and professional cleaning and disinfecting products under the Clorox®, Dispatch®, HealthLink® and Clorox Healthcare® brands.

Household consists of charcoal, bags, wraps and containers, cat litter, and digestive health products marketed and sold in the United States. Products within this segment include charcoal products under the Kingsford® and Match Light® brands; bags, wraps and containers under the Glad® brand; cat litter products under the Fresh Step®, Scoop Away® and Ever Clean® brands; and digestive health products under the RenewLife® brand.

Lifestyle consists of food products, water-filtration systems and filters and natural personal care products marketed and sold in the United States. Products within this segment include dressings and sauces, primarily under the Hidden Valley®, KC Masterpiece®, Kingsford® and Soy Vay® brands; water-filtration systems and filters under the Brita® brand; and natural personal care products under the Burt’s Bee® brand.

International consists of products sold outside the United States. Products within this segment include laundry, home care, water-filtration, digestive health products, charcoal and cat litter products, food products, bags, wraps and containers and natural personal care products and professional cleaning and disinfecting products, primarily under the

Clorox[®], Glad[®], PinoLuz[®], Ayudin[®], Limpido[®], Clorinda[®], Poett[®], Mistolin[®], Lestoil[®], Bon Bril[®], Brita[®], Green Works[®], Pine-Sol[®], Agua Jane[®], Chux[®], RenewLife[®], Kingsford[®], Fresh Step[®], Scoop Away[®], Ever Clean[®], KC Masterpiece[®], Hidden Valley[®] and Burt's Bee[®] brands and Clorox Healthcare[®] brands.

RESULTS OF OPERATIONS

CONSOLIDATED RESULTS FROM CONTINUING OPERATIONS

Continuing operations

Three Months

Ended

	9/30/2017	9/30/2016	%
			Change

Net sales \$ 1,500 \$ 1,443 4 %

Net sales in the current period increased 4%. Volume increased 4% reflecting higher shipments in the Cleaning, Household and Lifestyle reportable segments. Net sales also included the benefit of price increases more than offset by unfavorable mix.

Three Months

Ended

	9/30/2017	9/30/2016	%
			Change

Gross profit \$ 673 \$ 640 5 %

Gross margin 44.9 % 44.4 %

Gross margin, defined as gross profit as a percentage of net sales, increased 50 basis points in the current period from 44.4% to 44.9%. The increase was primarily driven by cost savings and the benefit of price increases, partially offset by unfavorable commodity costs and higher manufacturing and logistics costs.

Three Months Ended

% of Net Sales

	9/30/2017	9/30/2016	%	9/30/2017	9/30/2016

Advertising costs	134	128	5	8.9	8.9
Research and development costs	32	31	3	2.1	2.1

Selling and administrative expenses remained essentially flat in the current period. Selling and administrative expenses, as a percentage of net sales, decreased by 30 basis points.

Advertising costs, as a percentage of net sales, remained flat in the current period. The Company's U.S. retail advertising spend was approximately 10% of net sales in the current period and the prior period.

Research and development costs, as a percentage of net sales, remained flat in the current period. The Company continues to focus on product innovation and cost savings.

Interest expense, Other (income) expense, net, and the effective tax rate on earnings

Ended

9/30/2017/30/2016

Interest expense \$ 21 \$ 22

Other (income) expense, net 3 (5)

Effective tax rate on earnings 31.3% 32.0 %

Interest expense remained essentially flat in the current period.

Other (income) expense, net, was \$3 in the current period and \$(5) in the prior period.

The effective tax rate on earnings from continuing operations was 31.3% and 32.0% for the current and prior period, respectively. The decrease in the effective tax rate on earnings from continuing operations was primarily due to higher excess tax benefits from stock-based compensation in the current period.

Diluted net earnings per share

			Change

Diluted net earnings per share from continuing operations	\$ 1.46	\$ 1.36	7 %
---	---------	---------	-----

Diluted net earnings per share from continuing operations increased \$0.10 or 7%, in the current period, primarily due to net sales growth and gross margin expansion.

DISCONTINUED OPERATIONS

Since the exit of Clorox Venezuela in the first quarter of fiscal year 2015, the Company has recognized \$51 in after-tax exit costs and other related expenses within discontinued operations related to the exit of Clorox Venezuela. While the Company may continue to incur costs relating to this exit going forward, the Company does not expect these costs to be significant.

See Notes to the Condensed Consolidated Financial Statements for more information regarding discontinued operations of Clorox Venezuela.

SEGMENT RESULTS FROM CONTINUING OPERATIONS

The following sections present the results from operations of the Company's reportable segments and certain unallocated costs reflected in Corporate:

Cleaning

	Three Months Ended		
	9/30/2016	9/30/2015	% Change
Net sales	\$559	\$ 534	5 %
Earnings from continuing operations before income taxes	172	164	5

Volume, net sales and earnings from continuing operations before income taxes all increased by 5% during the current period. Both volume growth and net sales growth were driven primarily by higher shipments in Home Care, mainly due to Clorox® disinfecting wipes from increased merchandising and the product launch of Scentiva™ branded wipes and sprays in January 2017. The increase in earnings from continuing operations before income taxes was due to net sales growth and cost savings, partially offset by higher manufacturing and logistics costs and unfavorable commodity costs.

Household

	Three Months Ended		
	9/30/2016	9/30/2015	% Change
Net sales	\$441	\$ 422	5 %
Earnings from continuing operations before income taxes	73	69	6

Volume, net sales and earnings from continuing operations before income taxes increased by 7%, 5% and 6%, respectively, during the current period. Both volume growth and net sales growth were driven by higher shipments in Cat Litter, primarily due to increased merchandising activity supporting product innovation and increased shipments in Glad® due to strength in premium trash bags. Volume outpaced net sales, primarily due to unfavorable mix. The increase in earnings from continuing operations before income taxes was mainly due to cost savings and net sales growth, partially offset by higher advertising costs.

Lifestyle

	Three Months Ended		
	9/30/2016	9/30/2015	% Change
Net sales	\$246	\$ 236	4 %
Earnings from continuing operations before income taxes	64	62	3

Volume, net sales and earnings from continuing operations before income taxes increased by 2%, 4% and 3%, respectively, during the current period. Both volume growth and net sales growth were primarily driven by higher shipments within Burt's Bees Natural Personal Care business mainly due to the new product launch of face and eye cosmetics and increased shipments in lip care due to expanded club channel distribution. Volume and net sales growth were also driven by higher shipments of bottled salad dressings due to increased merchandising activity, partially offset by lower shipments in Brita® due to lower merchandising activity. Net sales outpaced volume due to favorable mix and lower trade promotion spending. The increase in earnings from continuing operations before income taxes was primarily due to net sales growth.

International

	Three Months Ended		% Change
	9/30/2017	9/30/2016	
Net sales	\$254	\$ 251	1 %
Earnings from continuing operations before income taxes	23	27	(15)

Volume decreased by 2%, net sales increased by 1% and earnings from continuing operations before income taxes decreased by 15% during the current period. Volume decreased primarily due to lower shipments in Argentina. Net sales outpaced volume primarily due to the benefit of price increases, partially offset by unfavorable mix. The decrease in earnings from continuing operations before income taxes was primarily due to inflationary pressure on manufacturing, logistics and administrative costs and unfavorable commodity costs, partially offset by net sales growth and cost savings.

Argentina

The Company operates in Argentina through certain wholly owned subsidiaries (collectively, “Clorox Argentina”). Net sales from Clorox Argentina represented approximately 3% of the Company’s consolidated net sales for each of the three months ended September 30, 2017 and for the fiscal year ended June 30, 2017. The operating environment in Argentina continues to present business challenges, including continuing devaluation of Argentina’s currency and high inflation.

Clorox Argentina manufactures products at three plants that it owns and operates across Argentina and markets those products to consumers throughout the country. Products are advertised nationally and sold to consumers through wholesalers and retail outlets located throughout Argentina. Sales are made primarily through the use of Clorox Argentina’s sales force. Small amounts of products produced in Argentina are exported each year, including sales to the Company’s other subsidiaries located primarily in Latin America. Clorox Argentina obtains its raw materials almost entirely from local sources. The Company also conducts research and development activities at its owned facility in Buenos Aires, Argentina. Additionally, Clorox Argentina performs marketing, legal, and various other shared service activities to support the Company’s Latin American operations. Clorox Argentina in turn benefits from shared service activities performed within other geographic locations, such as information technology support and manufacturing technical assistance.

For the three months ended September 30, 2017 and for the year ended June 30, 2017, the value of the Argentine peso (ARS) declined 6% and 9%, respectively. As of September 30, 2017, using the exchange rate of 17.5 ARS per U.S. dollar (USD), Clorox Argentina had total assets of \$70, including cash and cash equivalents of \$8, net receivables of \$20, inventories of \$15, net property, plant and equipment of \$20 and intangible assets excluding goodwill of \$3. Although Argentina is not currently designated as a highly inflationary economy for accounting purposes, further volatility and declines in the exchange rate are expected in the future, which, along with competition and changes in the retail and macro-economic environment, would have an additional adverse impact on Clorox Argentina’s net sales, net earnings, and net monetary asset position.

The Company is closely monitoring developments in Argentina and continues to take steps intended to mitigate the adverse conditions, but there can be no assurances that these actions will be able to mitigate these conditions as they may occur.

Corporate

Certain non-allocated administrative costs, interest income, interest expense and various other non-operating income and expenses are reflected in Corporate. Corporate assets include cash and cash equivalents, prepaid expenses and other current assets, property and equipment, other investments and deferred taxes.

Three Months
Ended
9/30/2017
~~9/30/2016~~

				%
				Change
Losses from continuing operations before income taxes	\$(53)	\$ (58)	(9)%

The decrease in losses from continuing operations before income taxes attributable to Corporate in the current period is primarily driven by lower employee incentive compensation costs.

FINANCIAL POSITION AND LIQUIDITY

The following table summarizes cash activities from continuing operations:

	Three Months Ended 9/30/2017/30/2016	
Net cash provided by continuing operations	\$257	\$ 170
Net cash used for investing activities	(36)	(58)
Net cash used for financing activities	(176)	(104)

Operating Activities

The Company's financial condition and liquidity remained strong as of September 30, 2017. Net cash provided by continuing operations was \$257 in the current period, compared with \$170 in the prior period. The year-over-year increase was primarily related to lower employee incentive compensation payments and higher earnings in the current period.

Investing Activities

Net cash used for investing activities was \$36 in the current period, compared with \$58 in the prior period. Capital expenditures were \$49 in the current period, compared with \$59 in the prior period. Capital spending as a percentage of net sales was approximately 3% and 4% in the three months ended September 30, 2017 and 2016, respectively. The year-over-year decrease was mainly due to cash proceeds from the sale of the Aplicare business and lower capital spending in the current period.

Financing Activities

Net cash used for financing activities was \$176 in the current period, compared with \$104 in the prior period. The change was primarily due to a decrease in short-term debt, partially offset by proceeds from the debt issuance and a reduction in treasury stock purchases in the current period.

Capital Resources and Liquidity

The Company believes it will have the funds necessary to meet its financing requirements and other fixed obligations as they become due based on its working capital requirements, anticipated ability to generate positive cash flows from operations in the future, investment-grade credit ratings, demonstrated access to long-term and short-term credit markets and current borrowing availability under credit agreements.

Credit Arrangements

On February 8, 2017, the Company entered into a new \$1,100 revolving credit agreement (the Credit Agreement) that matures in February 2022. As of September 30, 2017, there were no borrowings under the Credit Agreement and the Company believes that borrowings under the Credit Agreement are and will continue to be available for general corporate purposes. The Credit Agreement includes certain restrictive covenants and limitations. The primary restrictive covenant is a minimum ratio of 4.0 calculated as total earnings before interest, taxes, depreciation and amortization and non-cash asset impairment charges (Consolidated EBITDA) to total interest expense for the trailing four quarters (Interest Coverage ratio), as defined and described in the Credit Agreement.

The following table sets forth the calculation of the Interest Coverage ratio as of September 30, 2017, using Consolidated EBITDA for the trailing four quarters, as contractually defined:

	Twelve Months Ended 9/30/2017
Earnings from continuing operations	\$ 716
Add back:	
Interest expense	87
Income tax expense	332
Depreciation and amortization	162
Non-cash asset impairment charges	23
Deduct:	
Interest income	(4)
Consolidated EBITDA	\$ 1,316
Interest expense	\$ 87
Interest Coverage ratio	15.1

The Company was in compliance with all restrictive covenants and limitations in the Credit Agreement as of September 30, 2017, and anticipates being in compliance with all restrictive covenants for the foreseeable future. The Company continues to monitor the financial markets and assess its ability to fully draw on its revolving credit agreement, and currently expects that any drawing on the agreement will be fully funded.

As of September 30, 2017, the Company maintained \$29 of foreign and other credit lines, of which \$3 was outstanding and the remainder of \$26 was available for borrowing.

Long-term borrowings

In September 2017, the Company issued \$400 of senior notes with an annual fixed interest rate of 3.10%. The notes carry an effective interest rate of 3.13%, which includes the impact of amortizing debt issuance costs and the impact from the settlement of interest rate forward contracts (see Note 5). The notes rank equally with all of the Company's existing senior indebtedness.

Share repurchases and dividends

The Company has two share repurchase programs: an open-market purchase program with an authorized aggregate purchase amount of up to \$750, all of which was available for share repurchases as of September 30, 2017, and a program to offset the anticipated impact of share dilution related to share-based awards (the Evergreen Program), which has no authorization limit as to the amount or timing of repurchases. There were no share repurchases under the open-market purchase program during either of the three months ended September 30, 2017 and 2016.

Share repurchases under the Evergreen Program were as follows for the periods indicated:

	Three Months Ended	
	9/30/2017	9/30/2016
	Shares	Shares
	Amount	Amount
	(000's)	(000's)
Evergreen Program	\$60 450	\$113 883

Dividends per share and total dividends paid were as follows for the periods indicated:

RECENTLY ISSUED ACCOUNTING STANDARDS

See Notes to Condensed Consolidated Financial Statements for a summary of recently issued accounting standards relevant to the Company.

NON-GAAP FINANCIAL MEASURES

The non-GAAP financial measures included in this MD&A and the reasons management believes they are useful to investors are described below. These measures should be considered supplemental in nature and are not intended to be a substitute for the related financial information prepared in accordance with U.S. GAAP. In addition, these measures may not be the same as similarly named measures presented by other companies.

The Company uses the term Consolidated EBITDA, which is a financial measure that is not defined by accounting principles generally accepted in the United States of America, because it is a term used in its revolving credit agreement. As defined in the credit agreement, Consolidated EBITDA represents earnings from continuing operations before interest, taxes, depreciation and amortization and non-cash asset impairment charges. Interest Coverage ratio is the ratio of Consolidated EBITDA to interest expense. The Company's management believes disclosure of Consolidated EBITDA provides useful information to investors because it is used in the primary restrictive covenant in the Company's credit agreement. For additional discussion of the Interest Coverage ratio, see "Financial Position and Liquidity - Financing Activities - Credit Arrangements" above.

Cautionary Statement

This Quarterly Report on Form 10-Q (the Report), including the exhibits hereto and the information incorporated by reference herein, contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and such forward-looking statements involve risks and uncertainties. Except for historical information, statements about future volume, sales, foreign currencies, costs, cost savings, margin, earnings, earnings per share, diluted earnings per share, foreign currency exchange rates, cash flows, plans, objectives, expectations, growth or profitability are forward-looking statements based on management's estimates, beliefs, assumptions and projections. Words such as "could," "may," "expects," "anticipates," "targets," "goals," "projects," "intends," "plans," "believes," "seeks," "estimates," "predicts," and variations on such words and similar expressions that reflect our current views with respect to future events and operational, economic and financial performance, are intended to identify such forward-looking statements. These forward-looking statements are only predictions, subject to risks and uncertainties, and actual results could differ materially from those discussed. Important factors that could affect performance and cause results to differ materially from management's expectations are described in the sections entitled "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Annual Report on Form 10-K for the fiscal year ended June 30, 2017, as updated from time to time in the Company's Securities and Exchange Commission filings. These factors include, but are not limited to:

- intense competition in the Company's markets;
- volatility and increases in commodity costs such as resin, sodium hypochlorite and agricultural commodities, and increases in energy, transportation or other costs;
- the ability of the Company to drive sales growth, increase price and market share, grow its product categories and manage favorable product and geographic mix;
- dependence on key customers and risks related to customer consolidation and ordering patterns;
- the impact of increase in sales of consumer products through alternative retail channels;
- risks related to reliance on information technology systems, including potential security breaches, cyber-attacks, privacy breaches or data breaches that result in the unauthorized disclosure of consumer, customer, employee or Company information, or service interruptions;
- lower revenue or increased costs resulting from government actions and regulations;
- the ability of the Company to successfully manage global political, legal, tax and regulatory risks, including changes in regulatory or administrative activity;
- risks relating to acquisitions, new ventures and divestitures, and associated costs, including the potential for asset impairment charges related to, among others, intangible assets and goodwill;

•worldwide, regional and local economic and financial market conditions; risks related to international operations and international trade, including political instability; government-imposed price controls or other regulations; foreign currency exchange rate controls, including periodic changes in such controls, fluctuations and devaluations; changes in trade, tax or U.S. immigration policies, labor claims, labor unrest and inflationary pressures, particularly in Argentina; potential negative impact and liabilities from the use, storage and transportation of chlorine in certain international markets where chlorine is used in the production of bleach; and the possibility of nationalization, expropriation of assets or other government action;

- the ability of the Company to innovate and to develop and introduce commercially successful products;
- the ability of the Company to implement and generate cost savings and efficiencies;
- the success of the Company's business strategies;
- the Company's ability to maintain its business reputation and the reputation of its brands;
- risks related to the potential increase in the Company's purchase price for P&G's interest in the Glaxo business and the impact from the decision on whether or not to extend the term of the related agreement with P&G;
- supply disruptions and other risks inherent in reliance on a limited base of suppliers;
- the impact of product liability claims, labor claims and other legal or tax proceedings, including in foreign jurisdictions;
- the Company's ability to attract and retain key personnel;
- environmental matters, including costs associated with the remediation and monitoring of past contamination, and possible increases in costs resulting from actions by relevant regulators, and the handling and/or transportation of hazardous substances;
- the impact of natural disasters, terrorism and other events beyond the Company's control;
- the Company's ability to maximize, assert and defend its intellectual property rights;
- any infringement or claimed infringement by the Company of third-party intellectual property rights;
- the effect of the Company's indebtedness and credit rating on its business operations and financial results;
- the Company's ability to pay and declare dividends or repurchase its stock in the future;
- the Company's ability to maintain an effective system of internal controls;
- uncertainties relating to tax positions, tax disputes and changes in the Company's tax rate;
- the accuracy of the Company's estimates and assumptions on which its financial projections are based;

The Company's forward-looking statements in this Report are based on management's current views and assumptions regarding future events and speak only as of the dates when made. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by the federal securities laws.

In this Report, unless the context requires otherwise, the terms "the Company," "Clorox," "we," "us" and "our" refer to The Clorox Company and its subsidiaries.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have not been any material changes to the Company's market risk since June 30, 2017. For additional information, refer to "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in Exhibit 99.1 of the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2017.

Item 4. Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this Report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures, as of the end of the period covered by this Report, were effective such that the information required to be disclosed by the Company in reports filed under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

No change in the Company's internal control over financial reporting occurred during the first fiscal quarter of the fiscal year ending June 30, 2018, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1.A. Risk Factors

For information regarding Risk Factors, please refer to Item 1.A. in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2017, and the information in "Cautionary Statement" included in this Report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table sets forth the purchases of the Company's securities by the Company and any affiliated purchasers within the meaning of Rule 10b-18(a)(3) (17 CFR 240.10b-18(a)(3)) during the first quarter of fiscal year 2018.

Period	[a]	[b]	[c]	[d]
	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs
July 1 to 31, 2017	450,000	\$132.53	450,000	(2)
August 1 to 31, 2017	—	—	—	(2)
September 1 to 30, 2017	—	—	—	(2)
Total	450,000	\$132.53	450,000	(2)

(1) Shares purchased in July 2017 were acquired pursuant to the Company's share repurchase program to offset the impact of share dilution related to share-based awards (the Evergreen program).

(2) The Company has two share repurchase programs: an open-market purchase program with an authorized aggregate purchase amount of up to \$750 million, all of which was available for share repurchases as of September 30, 2017, and the Evergreen Program, the purpose of which is to offset the anticipated impact of share dilution related to share-based awards and which has no authorization limit as to the amount or timing of repurchases.
