### NOTES TO FINANCIAL STATEMENTS

-----

#### 1. Significant Accounting Policies

The Adams Express Company (the Company) is registered under the Investment Company Act of 1940 as a diversified investment company. The Company's investment objectives as well as the nature and risk of its investment transactions are set forth in the Company's registration statement.

Security Valuation -- Investments in securities traded on a national security exchange are valued at the last reported sale price on the day of valuation. Over-the-counter and listed securities for which a sale price is not available are valued at the last quoted bid price. Short-term investments (excluding purchased options) are valued at amortized cost. Purchased and written options are valued at the last quoted asked price.

Affiliated Companies -- Investments in companies 5% or more of whose outstanding voting securities are held by the Company are defined as "Affiliated Companies" in Section 2(a)(3) of the Investment Company Act of 1940.

Security Transactions and Investment Income -- Investment transactions are accounted for on the trade date. Gain or loss on sales of securities and options is determined on the basis of identified cost. Dividend income and distributions to shareholders are recognized on the ex-dividend date, and interest income is recognized on the accrual basis.

#### 2. Federal Income Taxes

The Company's policy is to distribute all of its taxable income to its shareholders in compliance with the requirements of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. For federal income tax purposes, the identified cost of securities at June 30, 2006 was \$1,006,261,641 and net unrealized appreciation aggregated \$342,489,248, of which the related gross unrealized appreciation and depreciation were \$428,504,151 and \$86,014,903, respectively.

Distributions are determined in accordance with income tax regulations which may differ from generally accepted accounting principles. Accordingly, annual reclassifications are made within the Company's capital accounts to reflect income and gains available for distribution under income tax regulations.

#### 3. Investment Transactions

The Company's investment decisions are made by a committee of management, and recommendations to that committee are made by the research staff.

Purchases and sales of portfolio securities, other than options and short-term investments, during the six months ended June 30, 2006 were \$86,465,886 and \$98,499,222, respectively. Options may be written (sold) or purchased by the Company. The Company, as writer of an option, bears the risks of possible illiquidity of the option markets and from movements in security values. The risk associated with purchasing an option is limited to the premium originally

5

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

a nonqualified defined benefit plan which provides eligible employees with retirement benefits to supplement the qualified plan. Benefits are based on length of service and compensation during the last five years of employment. The Company's policy is to contribute annually to the plans those amounts that can be deducted for federal income tax purposes, plus additional amounts as the Company deems appropriate in order to provide assets sufficient to meet benefits to be paid to plan participants. During the six months ended June 30, 2006, the Company did not contribute to the plans. The Company does not anticipate making any contributions to the plans in 2006.

The following table aggregates the components of the plans' net periodic pension cost for the six months ended June 30, 2006:

Service cost	\$ 230,485
Interest cost	259,008
Expected return on plan assets	(397,018)

Net periodic pension cost	\$ 242,745

The Company also sponsors a defined contribution plan that covers substantially all employees. For the six months ended June 30, 2006, the Company expensed contributions of \$91,492. The Company does not provide postretirement medical benefits.

6. Stock-Based Compensation

The Stock Option Plan adopted in 1985 ("1985 Plan") permits the issuance of stock options and stock appreciation rights for the purchase of up to 2,610,146 shares of the Company's Common Stock at the fair market value on the date of grant. The exercise price of the options and related stock appreciation rights is reduced by the per share amount of capital gains paid by the Company during

## Edgar Filing: ADAMS EXPRESS CO - Form N-CSRS

subsequent years. Options are exercisable beginning not less than one year after the date of grant and stock appreciation rights are exercisable beginning not less than two years after the date of grant. The stock appreciation rights allow the holders to surrender their rights to exercise their options and receive cash or shares in an amount equal to the difference between the option exercise price and the fair market value of the Common Stock at the date of surrender. All options terminate 10 years from the date of grant if not exercised. With the adoption of the 2005 Equity Incentive Compensation Plan at the 2005 Annual Meeting, no further grants will be made under the 1985 Plan, although unexercised awards granted in 2004 and prior years remain outstanding.

A summary of option activity under the 1985 Plan as of June 30, 2006, and changes during the period then ended, is presented below:

	Options	Weighted- Average Exercise Price	Weighted- Average Remaining Life (Years)
Outstanding at December 31, 2005	254,766	\$ 11.71	5.71

The total compensation cost recognized for the six months ended June 30, 2006 was \$60,678.

The 2005 Equity Incentive Compensation Plan ("2005 Plan") permits the grant of stock options, restricted stock awards and other stock incentives to key employees and all non-employee directors. The 2005 Plan provides for the issuance of up to 3,413,131 shares of the Company's Common Stock, including both performance and nonperformance-based restricted stock. Performance-based restricted stock awards vest at the end of a specified three year period, with the ultimate number of awards earned contingent on achievement of certain performance targets. If performance targets are not achieved, all or a portion of the performance-based awards are forfeited and become available for future

## Edgar Filing: ADAMS EXPRESS CO - Form N-CSRS

grants. Nonperformance-based restricted stock awards vest ratably over a three year period and nonperformance-based restricted stock units (granted to non-employee directors) vest over a one year period. The 2005 Plan provides for accelerated vesting in the event of death or retirement. Non-employee directors also may elect to defer a portion of their cash compensation, with such deferred amount to be paid by delivery of deferred stock units. Outstanding awards were granted at fair market value on grant date. The number of shares of Common Stock which remains available for future grants under the 2005 Plan at June 30, 2006 is 3,332,648 shares.

The Company pays dividends and dividend equivalents on outstanding awards, which are charged to net assets when paid. Dividends and dividend equivalents paid on restricted awards that are later forfeited are reclassified to compensation expense.

A summary of the status of the Company's awards granted under the 2005 Plan as of June 30, 2006, and changes during the period then ended is presented below:

### NOTES TO FINANCIAL STATEMENTS (CONTINUED)

-----

Compensation costs resulting from awards granted under the 2005 Plan are based on the fair value of the award on grant date (determined by the average of the high and low price on grant date) and recognized on a straight-line basis over the requisite service period. For those awards with performance conditions, compensation costs are based on the most probable outcome and, if such goals are not met, no compensation cost is recognized and any recognized compensation cost is reversed. The total compensation costs for restricted stock granted to employees for the period ending June 30, 2006 were \$116,803. The total compensation costs for restricted stock units granted to non-employee directors for the period ended June 30, 2006 were \$61,748. As of June 30, 2006, there were total unrecognized compensation costs of \$740,041 related to nonvested share-based compensation arrangements granted under the 2005 Plan. Those costs are expected to be recognized over a weighted average period of 2.17 years.

#### 7. Expenses

The aggregate remuneration paid during the six months ended June 30, 2006 to officers and directors amounted to \$1,742,394, of which \$204,230 was paid as fees and compensation to directors who were not officers. These amounts

## Edgar Filing: ADAMS EXPRESS CO - Form N-CSRS

represent the taxable income to the Company's officers and directors and therefore differ from the amounts reported in the accompanying Statement of Operations that are recorded and expensed in accordance with generally accepted accounting principles.

### 8. Portfolio Securities Loaned

The Company makes loans of securities to brokers, secured by cash deposits, U.S. Government securities, or bank letters of credit. The Company accounts for securities lending transactions as secured financing and receives compensation in the form of fees or retains a portion of interest on the investment of any cash received as collateral. The Company also continues to receive interest or dividends on the securities loaned. The loans are secured at all times by collateral of at least 102% of the fair value of the securities loaned plus accrued interest. Gain or loss in the fair value of the securities loaned that may occur during the term of the loan will be for the account of the Company. At June 30, 2006, the Company had securities on loan of \$64,774,133 and held collateral of \$66,398,828, consisting of an investment trust fund which may invest in money market instruments, commercial paper, repurchase agreements, U.S. Treasury Bills, and U.S. agency obligations.
